AGENDA

CITY COUNCIL - REGULAR MEETING
CITY OF BANNING, CALIFORNIA

February 25, 2025
5:00 p.m.
In Chambers

Council Chambers
99 E. Ramsey Street
Banning, CA 92220

The following information comprises the agenda for the regular meeting of the Banning City Council, a joint meeting of the City Council and Banning Utility Authority, and the Banning City Council sitting in its capacity as the Banning Successor Agency Board.

This meeting is being held via Zoom so that members of the public may observe and participate in this meeting electronically. If you participate in this meeting via Zoom, you are agreeing to abide by the City's Zoom Community Standards for Public Meetings (provided in full on the last page of the agenda). *Esta reunión se lleva a cabo en la Cámara y a través de Video/Teleconferencia en Zoom para que los miembros del público puedan observar y participar en esta reunión de manera electrónica. Si elige participar en esta reunión a través de Zoom, acepta cumplir con los Estándares comunitarios de Zoom para reuniones públicas de la ciudad (que se proporcionan en su totalidad en la última página de la agenda).*

To observe and participate in the online video portion of the meeting through your personal computer or device, follow this link:
https://us02web.zoom.us/j/82012644588?pwd=RwqtJC8xehLDKZvr3LEKOf9u8uP2pt.1

Dial in: +1 669 900 9128

Meeting ID: 820 1264 4588
Password: 92220

Per the City of Banning Manual of Procedural Guidelines, matters taken up by the Council before 10 p.m. may be concluded, but no new matters shall be taken up except upon a majority vote of the council members present and voting. Such an extension shall only be valid for one hour and each hour thereafter shall require a renewed action for the meeting to continue.

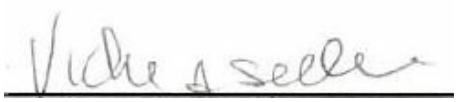
12. ADJOURNMENT

Next Regular Meeting – March 11, 2025

Zoom Community Standards for Public Meetings

By participating in this meeting on Zoom, you are agreeing to abide by the City of Banning's Community Standards for Public Meetings. Zoom attendees that fail to adhere to these standards may be removed from the meeting room.

- Your microphone must remain on mute, and you may only unmute your microphone when/if you are recognized by the Mayor.
- Your camera must be turned off unless/until you are recognized by the Mayor.
- To indicate a desire to make Public Comment, you must use the Raise Hand function. The Mayor will not recognize those who have not used the Raise Hand function.
- Public Comment from Zoom attendees will immediately follow in-person comment from members of the public in Council Chambers.
- If you fail to adhere to these community guidelines, **you may be removed** for disrupting the meeting occurring in Council Chambers. You may rejoin the meeting but may be removed for each violation of these community standards.
- The chat function will be disabled for all City Council meetings on Zoom.



Estándares comunitarios de Zoom para Reuniones Públicas

Al participar en esta reunión en Zoom, usted acepta cumplir con los Estándares Comunitarios para Reuniones Públicas de la ciudad de Banning. Los que atienden por Zoom que no cumplan con estos estándares pueden ser retirados de la sala de reuniones.

- Su micrófono debe permanecer en silencio, y solo puede reactivar su micrófono cuando / si es reconocido por el alcalde.
- Su cámara debe estar apagada a menos que sea reconocido por el alcalde.
- Para indicar el deseo de hacer un Comentario Público, debe utilizar la función Levantar la mano. El alcalde no reconocerá a quienes no hayan utilizado la función Levantar la mano.
- Los comentarios públicos de lo que atienden por Zoom seguirán inmediatamente los comentarios en persona de los miembros del público en las Cámaras del Consejo.
- Si no cumple con estas pautas de la comunidad, es posible que lo destituyan por interrumpir la reunión que tiene lugar en las Cámaras del Consejo. Puede volver a unirse a la reunión, pero es posible que lo eliminen por cada violación de estos estándares de la comunidad.
- La función de chat estará deshabilitada para todas las Reuniones del Ayuntamiento en Zoom.

AFFIDAVIT • DECLARACIÓN JURADA

IT IS HEREBY CERTIFIED under the laws of the State of California that the above agenda was posted on the City's website (www.banningca.gov) as well as the Bulletin Board at Banning City Hall, located at 99 E Ramsey Street, Banning, CA 92220, at least 72 hours in advance of the meeting.

Vickie Sellers, Elected City Clerk
Secretaria Municipal Electa

PUBLIC NOTICE • NOTICIA PÚBLICA

Meeting Agendas and Notices

Interested in receiving email and/or text notifications of upcoming City Council meetings? Sign up for meeting notifications through the City's website. Pursuant to amended Government Code §54957.5(b), staff reports and other public records related to open session agenda items are available on the City's website (www.banningca.gov/).

Public Comment

Agenda Items

Any member of the public may address this meeting of the City Council on any item appearing on the agenda. A five-minute limitation shall apply to each member of the public and no member of the public shall be permitted to share their time with any other person.

Non-Agenda Items

Any member of the public may address this meeting of the City Council on any item which does not appear on the regular meeting agenda but is of interest to the general public and is an item upon which the City Council may act. A three-minute limitation shall apply to each member of the public and no member shall be permitted to share their time with any other person. No action shall be taken, nor discussion held by the City Council, on any item which does not appear on the agenda, unless the action is otherwise authorized in accordance with the provisions of subdivision (b) of §54954.2 of the Government Code.

Special Assistance/Accessibility Requests

In compliance with the Americans with Disabilities Act, any member of the public may request that the agenda and agenda packet be mailed to them. If you need special assistance to participate in this meeting (such as translation services), please contact the City Clerk's Office. Advanced notification of at least 48 hours prior to the meeting will allow the city to make arrangements to ensure your accessibility.

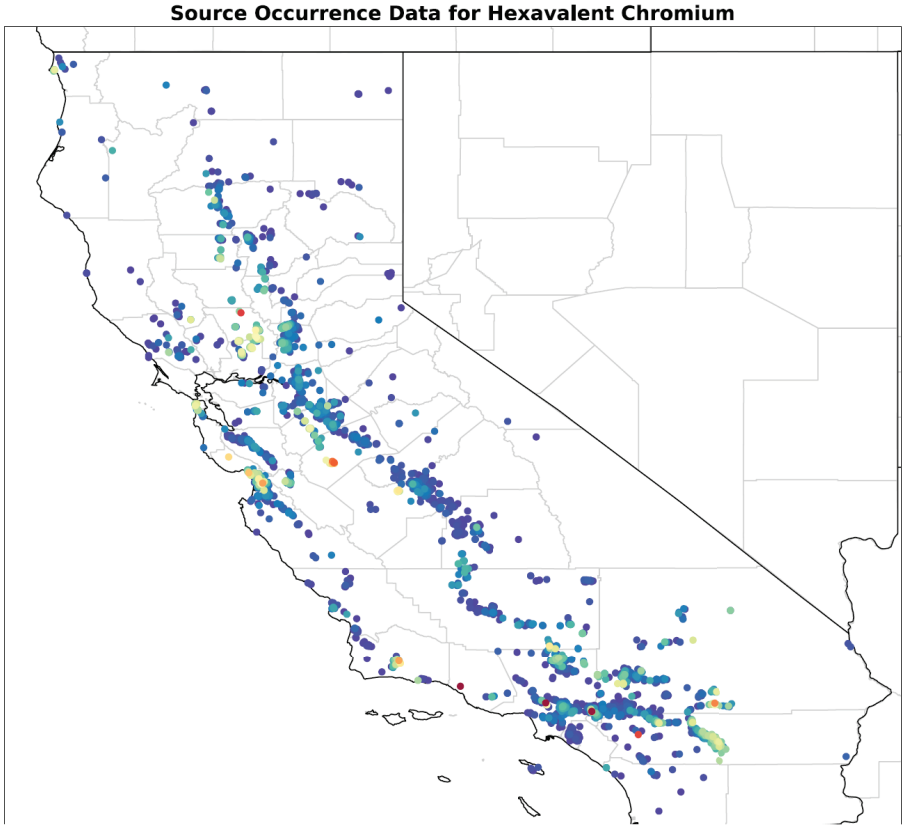
Exhibit A – Agenda Item 3.1: Staff Presentation

Hexavalent Chromium Regulation, Impacts to the City and Path to Compliance



Department of Public Works

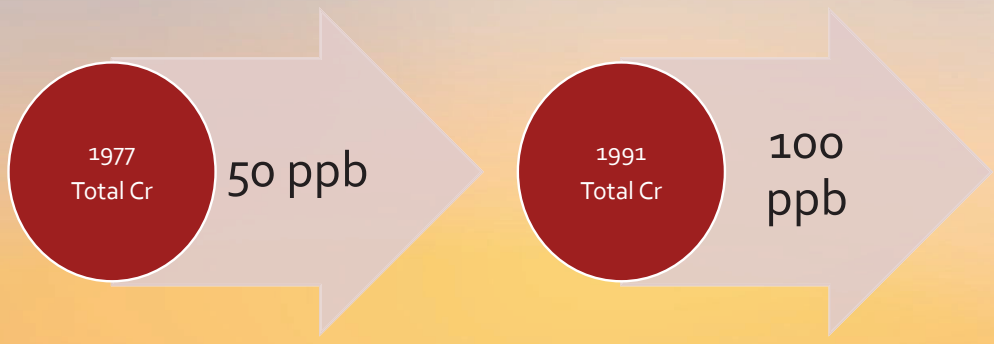
February 14, 2025

What is Hexavalent Chromium (Cr-6)

- Chromium
  - Metal found in natural deposits
  - Soils and plants
- Chromium-3
  - Most common natural form
  - Essential for human health
  - Present in foods
- Chromium-6
  - Toxic, classified as a carcinogen
  - Naturally occurring
  - Anthropogenic sources
    - Dyes, paint, wood preservatives, chrome-plating waste

Chromium Regulation - State

Maximum Contaminant Level = MCL



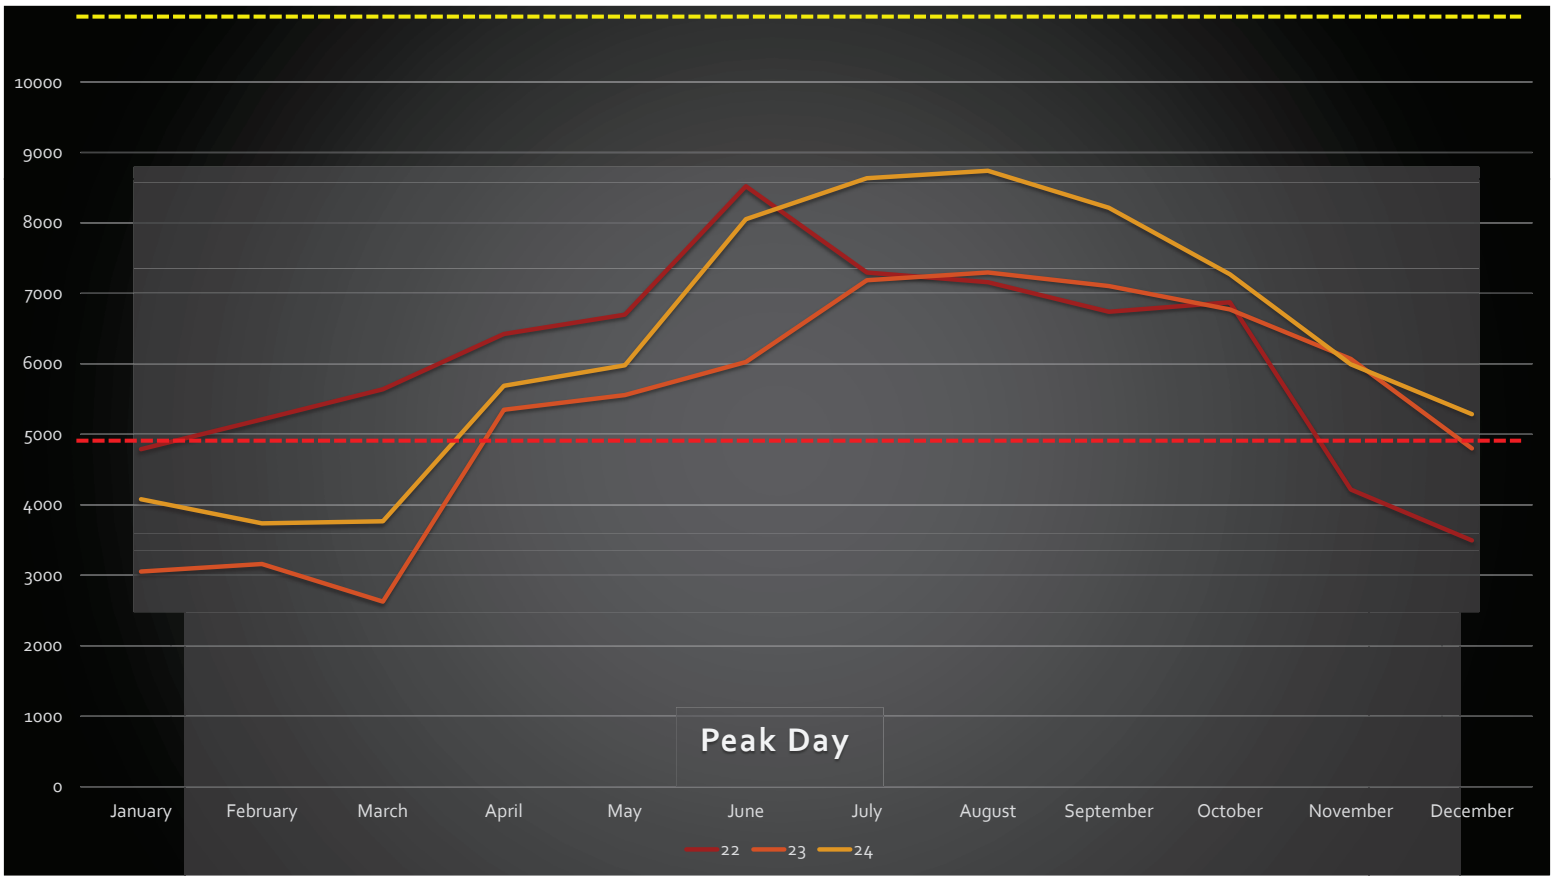
- 1977 Total Cr — 50 ppb
- 1991 Public Health Goal — .02 ppb
- 2014 Cr-6 — 10 ppb
- 2017 — Invalidated
- 2024 Cr-6 — 10 ppb

Superior Court: "..did not adequately document why the MCL was economically feasible"

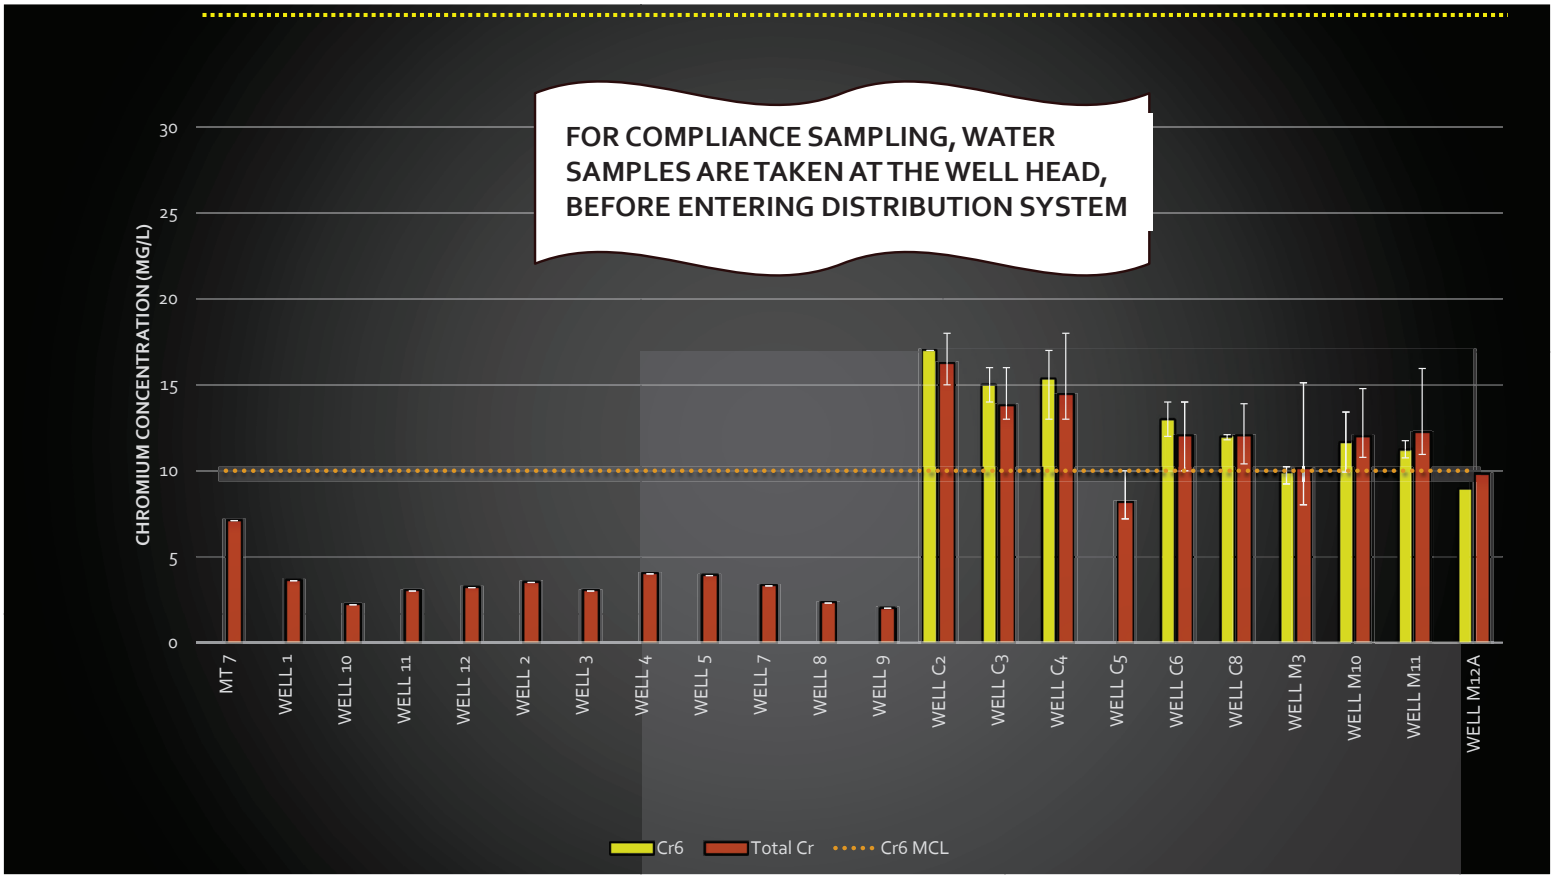
Effective October 1, 2024

Chromium Regulation – Federal (EPA)

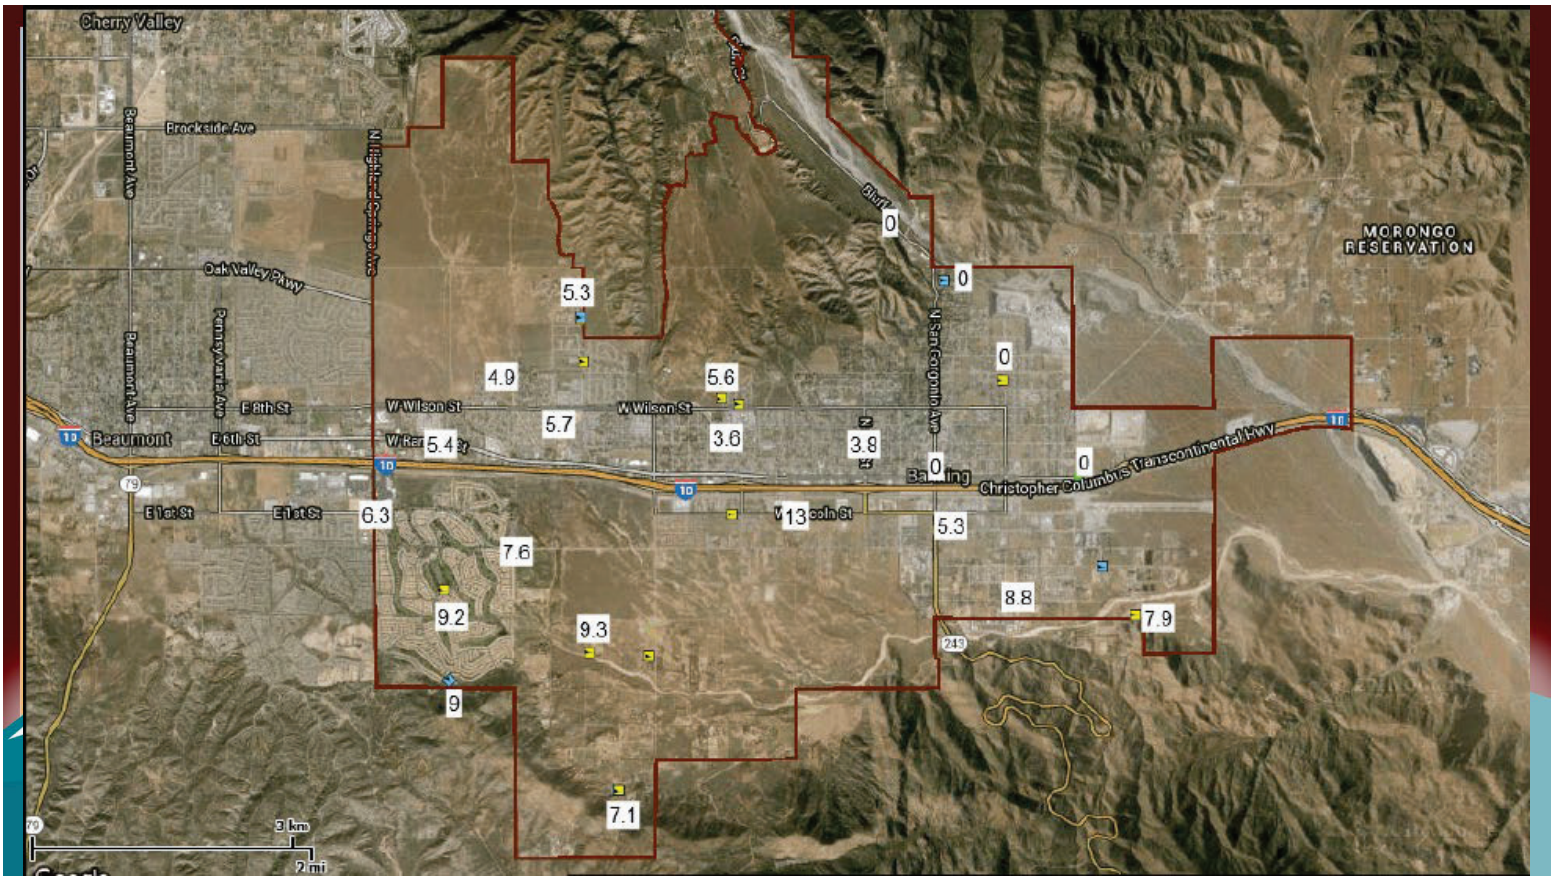
Maximum Contaminant Level = MCL



Cr-6 Regulation

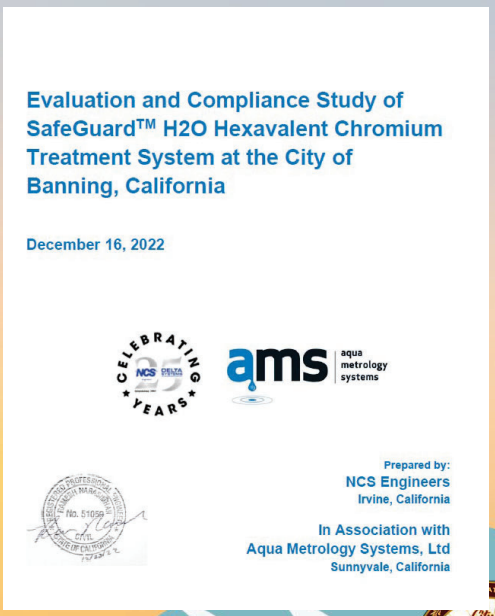


- Compliance Deadlines based on Service Connections:
  - Greater than 10,000
    - 2 years (10/1/26)
  - 1,000 to 10,000
    - 3 years (10/1/27)
  - Less than 1,000
    - 4 years (10/1/28)
- Sample all wells by April 1, 2025
- Develop a Compliance Plan
- Notify the Public of the exceedance of the MCL



Impacts to the City of Banning

- 9 of 21 production wells will likely exceed MCL
  - 9,900 gallons per minute
  - Range = 9.6 ppb to 17 ppb
- 2 of 3 co-owned production wells will exceed MCL
  - 2,200 gpm
  - Range = up to 13 ppb



FOR COMPLIANCE SAMPLING, WATER SAMPLES ARE TAKEN AT THE WELL HEAD, BEFORE ENTERING DISTRIBUTION SYSTEM
CHROMIUM CONCENTRATION (MG/L)

Compliance Studies

- 2016 Cr-6 Compliance Study
  - Evaluation of treatment options and costs
- 2022 Cr-6 Compliance Study
  - Update to 2016 Study
  - Incorporating treatment technology advancements
  - Updating cost information
- 2024 Cr-6 Compliance Study (draft)
  - System wide update
  - Analysis based on costs and non-costs

Evaluation and Compliance Study of SafeGuard™ H2O Hexavalent Chromium Treatment System at the City of Banning, California

December 16, 2022

Prepared by:
NCS Engineers
Irvine, California

In Association with
Aqua Metrology Systems, Ltd
Sunnyvale, California

2024 Cr-6 Compliance Study

- Recommends Reduction, Coagulation and Filtration (RCF)
  - Beneficial if sewer collection system can handle backwash
- Provides wide range of capital costs: $23.2M to $84.7M
- Provide wide range of total annual costs: $2.4M to $7.1M

Financial Impacts

- Current rate structure insufficient for level of investment needed for compliance.
  - Estimated increases of 18% to 55% based on estimated annual costs
- Grant application submitted with an ask of $10M for an estimated $16.8M project.

Path to Compliance

- Analysis of sewer collection system capacity
- Pilot Study
- Consideration of non-treatment alternatives
  - New wells
  - Non-potable blending (WWTP)
- Development of refined cost estimates
- Finance Strategy/Rate Study
- Environmental/Design/Construction

WILL TAKE MORE THAN 2 YEARS !

Key Points

- Water quality has not changed; the regulation did
- Public Noticing and Public Concerns
- Will likely not comply by deadline
- Operate Wells in Violation vs. Significant Water User Restrictions
- Revenue needs = Rate Increases

Mayor Flynn also attended the basic Councilmember training. She reported on a Budget and Finance meeting, as well as a WRCOG meeting she attended.

5.5. CITY MANAGER REPORT
There was no report.

5.6. CITY ATTORNEY REPORT
Interim City Attorney Pinkney reminded the City Council of several procedural rules.

5.7. CITY TREASURER REPORT

City Treasurer Savage requested her full report be included in the meeting minutes and discussed having her signature on the City's checks. She stated she was addressing the utility billing issues and suggested the City hold a Treasurer workshop.

Proposal to the City of Banning:

The City of Banning should create a plan to evaluate the mental health of all homeless individuals in the area. If someone is found to be mentally unstable or a potential danger to themselves or others, they should be moved to a facility outside of town for further assessment. To make this happen, the Banning Homeless Liaison and the Banning Police Department should work with a qualified medical professional to conduct these evaluations. If someone refuses to participate, they should be asked to leave, and any illegal campsites, like tents or makeshift shelters, should be removed according to state laws.

By helping those with mental health issues, the city can then focus on supporting local residents and people re-entering society after jail. Programs like Opportunity Village and the Set Free initiative can provide the necessary help, saving the city money in the long run. This approach will reduce the need for emergency services and grants often used to handle overdoses or other crises involving unstable individuals.

This plan will improve public safety, ensure resources are used wisely, and help build a healthier, more stable community.

OFFICIAL PETITION
TO
COUNCIL MEMBERS
BANNING, CA

RECEIVED
CITY OF BANNING

FEB - 5 2025

CITY MANAGER'S OFFICE
BY:

Banning City Hall
99 E Ramsey St
Banning, CA 92220-4837

To Members of the Banning City Council:

There is a national movement underway to cut back on quality-of-life policing methods such as making arrests for vandalism, littering, loitering, vagrancy, public intoxication, and other quality of life violations.

As a registered voter in Banning, I urge you to maintain all quality-of-life policing methods, vigorously defend these methods, support our police in enforcement of quality-of-life violations, and make sure our district attorney is fully behind quality-of-life policing methods.

Quality of life policing, as well as pro-active policing methods, have cleaned up and maintained order in many neighborhoods in our city and helped reduce more serious crime nationwide between 1985 and 2015 by over 50%.

Banning, CA 92220

RE: City-Sponsored Low-Cost Spay/Neuter Clinic Days Proposal

Dear Mayor and Councilmembers:

As residents of Banning, we would like to voice our support for the above referenced item on the February 11, 2025 City Council Meeting Agenda. The proposal for city-sponsored low-cost spay/neutering clinic days as submitted by Debbie Fernandez Cram of Animals of the Pass and Lexi Peer of Cherry Tales Animal Shelter, requesting the city fund one or more additional low-cost clinic days through the Animal Action League ("AAL") mobile unit, is a necessary addition to city resources for control of the cities' animal population.

These additional clinic days, whether provided through Animal Action League (AAL) mobile unit or the Rivco Department of Animal Services or another public/private partnership, will contribute significantly to controlling the local animal population by reducing the number of unwanted litters. Over time, this will help reduce the burden on city shelters, improve public health, and decrease the overall financial strain on the city's animal services. It has long been reported that shelters throughout Riverside County are at capacity. Good samaritans and local rescue groups are stepping in to provide rescue, foster and adoption services at their own expense because nobody wants to see animals suffer on the streets or, worse yet, be euthanized in the shelters for lack of space. We are fortunate that people like Debbie Fernandez Cram, Lexi Peer and other rescue groups are working in our community but they cannot fix this problem alone.

It's clear that the City of Banning is currently working toward better Animal Services options, and while it may be tempting to wait and address funding of spay/neuter services as part of a future comprehensive Animal Welfare & Shelter Services plan, the activities proposed under this funding are critical to improving an overpopulation crisis that is here right now and growing. We can't afford to wait . A meaningful Animal Shelter & Services plan will most likely include community access to low and no-cost spay/neuter clinics for residents regardless; perhaps this emergency, stop-gap program gets folded into that future plan or maybe the spay/neuter services will come as part of a future contract with the County or other outside Animal Welfare agency. But it has to be done, and there is no good reason for waiting to allocate funding for this critical activity.

Supporting this proposal will have both immediate and long-term benefits for the City of Banning; it will help reduce the number of stray animals, ease the burden on shelters, and promote responsible pet ownership through the proposed education and community involvement. As concerned and responsible residents of Banning, we respectfully request that the City of Banning provide funding for the proposed Animal Welfare activities.

Appreciatively,

Al & Corinne Marshall

Jessica Cook 2/11/25

The Power of Spay & Neuter

One unspayed dog can have two litters per year, producing over 100 puppies in her lifetime. But one unfixed male can mate with multiple females daily, leading to thousands of puppies over his lifetime.

Statistics show that communities with strong spay and neuter programs decrease shelter intake by 30% to 50%.

Hi, my name is Jessica, and I'm the Executive Director of Right Fit Rescue. And I'm asking you today to please fund another day of clinic here in the Banning area.

As our rescue approaches its third anniversary, we're proud to have sterilized over 350 animals—but the need is far greater.

One of our biggest challenges is finding affordable spay and neuter services. In many cases, the cost of sterilization exceeds the adoption donation, making it difficult to continue saving lives.

Every month, we reach out to the Animal Action League, and in 2024, we were only able to secure one appointment. Meanwhile, every month, citizens stand by, hoping for a spot, only to be turned away. The demand is overwhelming, and the lack of access to affordable spay and neuter services continues to fuel the overpopulation crisis.

So I ask you once again, Council Members, please fund one more Animal Action League spay and neuter clinic day each month for the residents of Banning and the rescues that help animals in the Pass. This simple addition could mean 350 more animals sterilized each year—preventing thousands from ending up in shelters or on the streets.

It's time to invest in real solutions for our community.

CITY OF BANNING
STAFF REPORT

TO: **CITY COUNCIL**

FROM: **Robert Fisher, Acting City Manager**

PREPARED BY: **Lincoln Bogard, Administrative Services Director**

MEETING DATE: **February 25, 2025**

SUBJECT: **Receive and File Accounts Payable and Payroll Warrants Issued in the Month of January 2025.**

IMPORTANT DISCLOSURES

Chandler Asset Management, Inc. ("Chandler") is an SEC registered investment adviser. For additional information about our firm, please see our current disclosures (Form ADV). To obtain a copy of our current disclosures, you may contact your client service representative by calling the number on the front of this statement or you may visit our website at www.chandlerasset.com.

Information contained in this monthly statement is confidential and is provided for informational purposes only and should not be construed as specific investment or legal advice. The information contained herein was obtained from sources believed to be reliable as of the date of this statement, but may become outdated or superseded at any time without notice.

Custody: Your qualified custodian bank maintains control of all assets reflected in this statement and we urge you to compare this statement to the one you receive from your qualified custodian. Chandler does not have any authority to withdraw or deposit funds from/to the custodian account.

Valuation: Prices are provided by IDC, an independent pricing source. In the event IDC does not provide a price or if the price provided is not reflective of fair market value, Chandler will obtain pricing from an alternative approved third party pricing source in accordance with our written valuation policy and procedures. Our valuation procedures are also disclosed in Item 5 of our Form ADV Part 2A.

Performance: Performance results are presented gross-of-advisory fees and represent the client's Total Return. The deduction of advisory fees lowers performance results. These results include the reinvestment of dividends and other earnings. Past performance may not be indicative of future results. Therefore, clients should not assume that future performance of any specific investment or investment strategy will be profitable or equal to past performance levels. All investment strategies have the potential for profit or loss. Economic factors, market conditions or changes in investment strategies, contributions or withdrawals may materially alter the performance and results of your portfolio.

Source ICE Data Indices, LLC ("ICE"), used with permission. ICE PERMITS USE OF THE ICE INDICES AND RELATED DATA ON AN "AS IS" BASIS; ICE, ITS AFFILIATES AND THEIR RESPECTIVE THIRD PARTY SUPPLIERS DISCLAIM ANY AND ALL WARRANTIES AND REPRESENTATIONS, EXPRESS AND/OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE, INCLUDING THE INDICES, INDEX DATA AND ANY DATA INCLUDED IN, RELATED TO, OR DERIVED THEREFROM. NEITHER ICE DATA, ITS AFFILIATES OR THEIR RESPECTIVE THIRD PARTY PROVIDERS GUARANTEE THE QUALITY, ADEQUACY, ACCURACY, TIMELINESS OR COMPLETENESS OF THE INDICES OR THE INDEX DATA OR ANY COMPONENT THEREOF, AND THE INDICES AND INDEX DATA AND ALL COMPONENTS THEREOF ARE PROVIDED ON AN "AS IS" BASIS AND LICENSEE'S USE IS AT LICENSEE'S OWN RISK. ICE DATA, ITS AFFILIATES AND THEIR RESPECTIVE THIRD PARTY DO NOT SPONSOR, ENDORSE, OR RECOMMEND CHANDLER, OR ANY OF ITS PRODUCTS OR SERVICES.

Index returns assume reinvestment of all distributions. Historical performance results for investment indexes generally do not reflect the deduction of transaction and/or custodial charges or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing historical performance results. It is not possible to invest directly in an index.

Ratings: Ratings information have been provided by Moody's, S&P and Fitch through data feeds we believe to be reliable as of the date of this statement, however we cannot guarantee its accuracy.

Security level ratings for U.S. Agency issued mortgage-backed securities ("MBS") reflect the issuer rating because the securities themselves are not rated. The issuing U.S. Agency guarantees the full and timely payment of both principal and interest and carries a high rating by S&P, Moody's and Fitch respectively.

Pooled Money Investment Account Monthly Portfolio Composition [1] 12/31/24 $155.4 billion

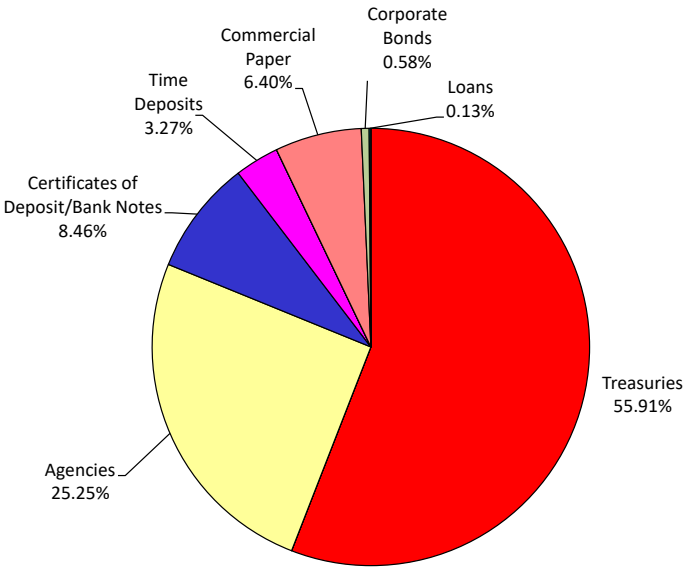

Chart does not include $1,239,000.00 in mortgages, which equates to 0.001%. Percentages may not total 100% due to rounding.

Daily rates are now available here. **View PMIA Daily Rates**

Notes: The apportionment rate includes interest earned on the CalPERS Supplemental Pension Payment pursuant to Government Code 20825 (c)(1) and interest earned on the Wildfire Fund loan pursuant to Public Utility Code 3288 (a).

**The percentage of administrative cost equals the total administrative cost divided by the quarterly interest earnings. The law provides that administrative costs are not to exceed 5% of quarterly EARNINGS of the fund. However, if the 13-week Daily Treasury Bill Rate on the last day of the fiscal year is below 1%, then administrative costs shall not exceed 8% of quarterly EARNINGS of the fund for the subsequent fiscal year.*

CITY OF BANNING
STAFF REPORT

TO:	**CITY COUNCIL**
FROM:	**Robert Fisher, Acting City Manager**
PREPARED BY:	**Laurie Sampson,** **Vincent Avila, Chief of Police**
MEETING DATE:	**February 25, 2025**
SUBJECT:	**Receive and File Police Department Statistics for the Month of January 2025**

RECOMMENDATION:

Receive and file.

BACKGROUND:

The Banning Police Department provides statistics to the public and City Council upon request.

JUSTIFICATION:

Statistics tell a city how many police officers need to be on the street, what crimes are being committed, and reveal increases and decreases in specific crimes. Also, cities get funding in part on their crime rates. If a federal crime bill passed, the Government needs to know which cities could benefit the most from those funds, and some cities have been rewarded financially for drastically lowering rates of crime.

FISCAL IMPACT:

None

ALTERNATIVES:

Providing statistics keeps the Council, staff, and residents apprised of current police activities. If the statistics are not presented to the Council on a regular basis, then they should be provided on another platform.

BUDGETED?:

No

CONTRACT/AGREEMENT:

No

ATTACHMENTS:

1. JANUARY 2025 STATS.pdf

Group A Offense Report

CITY OF BANNING
STAFF REPORT

TO:	**CITY COUNCIL**
FROM:	**Robert Fisher, Acting City Manager**
PREPARED BY:	**Laurie Sampson,** **Todd Hopkins, CALFIRE Division Chief**
MEETING DATE:	**February 25, 2025**
SUBJECT:	**Receive and File Fire Protection Services Statistics for the Month of January 2025**

RECOMMENDATION:

Receive and file.

BACKGROUND:

City Council has requested CalFire's Riverside County Division, which provides fire protection services in the City of Banning, provide specific reports to the public and City Council on a monthly basis.

JUSTIFICATION:

Many fire and EMS departments store and analyze statistical data, which can provide a detailed analysis of the types of responses their organization is called to assist. This information is critical to elevating the level of service provided by the fire department.

FISCAL IMPACT:

None

ALTERNATIVES:

Providing statistics keeps the Council, staff, and residents apprised of current fire and paramedic activities. If the statistics are not presented to the Council on a regular basis, then they should be provided on another platform.

BUDGETED?:

No

CONTRACT/AGREEMENT:

No

Significant Incidents

25CARRU007864

1/10/2025 8:30:00AM

CAL FIRE/Riverside County Fire Department resources were dispatched to the above location for a reported multi-vehicle traffic collision with patients trapped. The first arriving Company Officer Reported a two-car traffic collision with one patient trapped inside a vehicle. Fire Department personnel, utilizing the Jaws of Life, extricated the single patient within 5 minutes of arriving on scene. All 3 individuals involved in the accident were accessed at scene, however, all individuals denied need for further medical attention and declined transport to a medical facility. The scene has been handed over to Banning City Police for further investigation.

CITY OF BANNING
STAFF REPORT

TO:	**CITY COUNCIL**
FROM:	**Robert Fisher, Acting City Manager**
PREPARED BY:	**Art Vela, Public Works Director**
MEETING DATE:	**February 25, 2025**
SUBJECT:	**Public Works Capital Improvement Project Tracking List**

RECOMMENDATION:

Receive and file.

BACKGROUND:

There are several planning, environmental, design and construction contracts that have been approved by City Council and/or the City Manager's office that are being managed by the Public Works Department. In an effort to keep the City Council and the public informed of the progress made and current status of each project, staff has prepared and will continue to update the attached Public Works CIP Tracking List. The list will be presented to City Council on a monthly basis.

JUSTIFICATION:

This recurring item is provided to keep City Council and the public apprised of progress on certain projects.

FISCAL IMPACT:

Not applicable.

ALTERNATIVES:

Not applicable.

BUDGETED?:

No

CONTRACT/AGREEMENT:

CITY OF BANNING
STAFF REPORT

TO: **CITY COUNCIL**

FROM: **Robert Fisher, Acting City Manager**

PREPARED BY: **Kristine Gutierrez, Community Development Operations Manager**
David Newell, Community Development Director

MEETING DATE: **February 25, 2025**

SUBJECT: **Receive and File Code Enforcement Statistics for the Month of January 2025**

RECOMMENDATION:

Receive and file.

BACKGROUND:

The City's Code Enforcement Division ("Code") is responsible for enforcement of the Banning Municipal Code and state and federal laws, as applicable. Typical code enforcement duties and responsibilities include pursuing the abatement of unsafe buildings, unpermitted land use, business without a license, construction without permit, and unregistered food vendors. Additionally, Code is responsible for compliance with weed abatement, which involves patrol, investigation, noticing, enforcement, and remediation of vacant lots.

Code is currently overseeing 412 open cases, including 17 cases opened during the month of January 2025. Below is a summary of cases during the month of January 2025.

	Month	YTD
New Cases Opened	17	17
Total Cases Open (includes previous years)	412	N/A
Notice of Violations issued	13	13
Violations Resolved	133	133
Citations Issued	21	21
Field Inspections completed	81	81
Fee's Collected (Citations)	$ 762.83	$ 762.83
Red Tagged Properties	2	2
Abandoned Vehicles Abated (AVA Program)	0	0
Weed Abatement Cost Recovery Received	$ 18,512.70	$ 18,512.70

JUSTIFICATION:

Monthly activity reports are provided for informational purposes.

FISCAL IMPACT:

Not applicable.

ALTERNATIVES:

Direct staff to provide additional information on the case data.

BUDGETED?:

Yes

CONTRACT/AGREEMENT:

No

CITY OF BANNING
STAFF REPORT

TO:	**CITY COUNCIL**
FROM:	**Robert Fisher, Acting City Manager**
PREPARED BY:	**Laurie Sampson,**
MEETING DATE:	**February 25, 2025**
SUBJECT:	**Receive and File Contracts Approved Under the City Manager's Signature Authority and Inventory Reports for January 2025**

RECOMMENDATION:

Receive and file.

BACKGROUND:

Per Purchasing Policy B-30, 3-105(5), written notification by the Purchasing Officer of all City Manager approved contracts will be provided quarterly to the City Council for review, and 16-107(3), The City Manager, or his designated representative, shall make a monthly written report to the City Council as to all Change Orders approved by the City Manager during the month, and of all possible future Change Orders that may appear probable prior to the next monthly report. At a minimum, the City Manager shall provide the Council with the name and nature of the contract, all Change Orders approved during that month, the reason for the Change Orders, the cumulative amount of the Change Orders for that contract, and any additional information the Council requests.

JUSTIFICATION:

While the policy requires contracts signed under the City Manager's signature authority be submitted to City Council on a quarterly basis, it is staff's intent to submit these reports on a monthly basis to provide continuity with other monthly reports submitted to Council.

FISCAL IMPACT:

None

ALTERNATIVES:

Failure to provide this report to the City Council would result in the City being out of compliance with Purchasing Policy B-30,3-105(5).

BUDGETED?:

No

CONTRACT/AGREEMENT:

No

CITY OF BANNING
STAFF REPORT

TO:	**CITY COUNCIL**
FROM:	**Robert Fisher, Acting City Manager**
PREPARED BY:	**Laurie Sampson,**
MEETING DATE:	**February 25, 2025**
SUBJECT:	**City Council Travel and Conference Expense Report Year to Date Through January 2025**

RECOMMENDATION:

Receive and file.

BACKGROUND:

The City Council attends many events, conferences, and training sessions while serving the City of Banning. The rules for these events and expenses are enforced by the Reimbursement Policy for Elected and Appointed Officials as well as by Policy E-3 Travel and Meeting Policy.

JUSTIFICATION:

As part of the Reimbursements Policy for Elected and Appointed Officials each official must briefly report on outside meetings, and all City reimbursement expenditures are subject to disclosure under the Public Records Act and other applicable laws. This monthly report will enable the City to comply with this requirement.

FISCAL IMPACT:

All expenditures under this category are from account 001-1000-411.23-05. As of December 31, 2024, the total charge to this account is $ 9,770.64.

ALTERNATIVES:

Providing statistics keeps the Council, staff, and residents apprised of current council activities. If the statistics are not presented to the Council on a regular basis, then they should be provided on another platform.

BUDGETED?:

Yes

CONTRACT/AGREEMENT:

No

CITY OF BANNING
STAFF REPORT

TO:	**CITY COUNCIL**
FROM:	**Robert Fisher, Acting City Manager**
PREPARED BY:	**Holly Stuart, Public Works Program Manager** **Art Vela, Director of Public Works**
MEETING DATE:	**February 25, 2025**
SUBJECT:	**Community Cleanup and Compost Giveaway Event Update**

RECOMMENDATION:

This is informational only; receive and file report.

BACKGROUND:

The City of Banning has partnered with Waste Management as part of the solid waste franchise agreement to provide three free bulky item collection events for residential accounts per calendar year. The first of three bulky item collection events for this year was held on January 18, 2025, at Dysart Park offering residents the opportunity to dispose of unwanted items including, but not limited to, appliances, mattresses, green waste, e-waste and so forth. This event also offers residents paper shredding and the collection of household batteries.

This latest event welcomed a breaking record of 560 vehicles. An accumulation of 39.38 tons of municipal solid waste, 9.38 tons of green waste, 11.55 tons of white goods/metal, 3.53 tons of paper shredding, 3.49 tons of E-waste, and 4.43 tons of mattresses were collected over the duration of 5 hours. Waste Management collected a grand total of 71.76 tons of waste of which 32.38 tons were successfully diverted from the landfill. Furthermore, five barrels of household batteries were collected during the event.

According to Waste Management's calculations, these recycling efforts resulted in the following benefits:

- Saved 155,813 kWh of electricity. Enough electricity to power 12 households for one year.
- Reduced GHG emissions by 5 metric tons. Equivalent to taking 4 passenger cars off the road for one year.
- Kept 6,984 lbs of solid Waste out of the landfill. The amount of trash generated by 4 households in one year.
- Kept 1,712 lbs of hazardous materials out of the environment.

In addition to the collection of bulky waste at Dysart Park, the city included a compost station, giving away free compost to the community. Forty-eight (48) residents obtained compost on the day of the event. Any unused compost that was not given away will be disbursed and utilized on City properties throughout the community. Incorporating the free compost giveaway supports the City's compliance goals in achieving targets identified by the State and SB 1383 requirements to purchase and utilize organic waste materials. In all, Waste Management provided 18 tons of compost for the giveaway.

JUSTIFICATION:

The City's Bulky Item Collection and Compost Giveaway events continue to be a success and provide a

great service to our community. The events aid in keeping the community clean through reducing the amount of waste that may otherwise be illegally dumped throughout the City and its rights-of-ways. In celebration of Earth Day, our next event is scheduled for Saturday, April 19, 2025, followed by October 18, 2025.

FISCAL IMPACT:

Event staff and material costs were funded by the Refuse fund.

ALTERNATIVES:

None.

BUDGETED?:

Yes

CONTRACT/AGREEMENT:

No

CITY OF BANNING
STAFF REPORT

TO:	**CITY COUNCIL**
FROM:	**Robert Fisher, Acting City Manager**
PREPARED BY:	**Yvette Vaca, Administrative Sergeant** **Vincent Avila, Chief of Police**
MEETING DATE:	**February 25, 2025**
SUBJECT:	**Consideration of Resolution 2025-24, Approving the Acceptance of the Distribution of the FY23 State Homeland Security Program (SHSP) Grant Award of $161,383**

RECOMMENDATION:

Adopt Resolution 2025-24.

BACKGROUND:

The County of Riverside Emergency Management Department (EMD) receives vital funding from federal and state agencies, including the State Homeland Security Grant Program (SHSP), to strengthen the county's preparedness and response capabilities for terrorism and large-scale disasters. This grant supports essential activities such as training and exercises for first responders, as well as the purchase of equipment to enhance operational effectiveness across emergency services, including fire, law enforcement, emergency medical services, and public health.

The City of Banning has been awarded SHSP funding in the amount of $161,383 to further enhance its own emergency response capabilities. This grant will allow Banning to implement critical training programs, conduct essential exercises, and acquire the necessary equipment to improve the city's readiness to respond to terrorism-related incidents and other major emergencies, ensuring the safety and well-being of its residents and surrounding communities.

JUSTIFICATION:

The City of Banning will be using the $161,383 in SHSP funding to purchase various equipment designed to enhance public safety and preparedness, particularly in the investigation of potential terrorist activities and other security threats. This investment will significantly improve the city's ability to monitor critical areas and respond to incidents in real-time. By acquiring advanced equipment, Banning will strengthen its capacity to detect, track, and investigate potential security threats, enabling law enforcement to react swiftly and efficiently in emergency situations. The additional resources will bolster the city's ability to identify suspicious activities and protect its residents from emerging risks, further enhancing the city's overall preparedness for a range of threats, including terrorism-related emergencies.

These new tools will be vital for the Banning Police Department, providing them with the resources necessary to solve and prevent crime in the city. By improving situational awareness and allowing for more effective surveillance of key locations, these additions will enable officers to respond to incidents more quickly and accurately. Additionally, the presence of advanced equipment will serve as a deterrent to criminal activity, as individuals will be aware that the city is equipped to monitor and address potential security threats. This comprehensive upgrade to Banning's public safety infrastructure will not only

improve the effectiveness of law enforcement but also contribute to a safer, more secure environment for all residents. Through this initiative, Banning will be better positioned to address and prevent emergencies, fulfilling its ongoing commitment to protecting the community.

FISCAL IMPACT:

The purchase and installation of advanced surveillance equipment and any equipment items necessary to assist in the investigation of potential terrorist activity, along with any necessary training, will be fully funded through the $161,383 allocated to the City of Banning from the FY23 State Homeland Security Program (SHSP) grant. The performance period for this grant is from April 9, 2024, to May 31, 2025. The Banning Police Department will obtain multiple quotes from vendors to ensure the costs do not exceed the awarded grant amount, ensuring that there will be no additional initial fiscal impact to the City of Banning. This project will be entirely funded by the SHSP grant, and no city funds will be required for its initial implementation.

ALTERNATIVES:

The City Council may choose to reject staff's recommendation and provide alternative direction.

RESOLUTION 2025-24

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BANNING, CALIFORNIA, APPROVING THE ACCEPTANCE OF THE DISTRIBUTION OF THE FY23 STATE HOMELAND SECURITY PROGRAM (SHSP) GRANT AWARD OF $161,383

WHEREAS, the City of Banning has been awarded SHSP funding in the amount of $161,383 to further enhance its own emergency response capabilities and purchase equipment to enhance operational effectiveness across emergency services, including fire, law enforcement, emergency medical services, and public health; and,

WHEREAS, the City of Banning will be using the $161,383 in SHSP funding to purchase and install License Plate Reader (LPR) cameras and Pan Tilt Zoom (PTZ) safety cameras as part of its ongoing efforts to enhance public safety and preparedness; and,

WHEREAS, pursuant to the adoption of the resolution, The Banning Police Department will obtain multiple quotes from vendors to ensure the costs do not exceed the awarded grant amount, ensuring that there will be no additional fiscal impact to the City of Banning.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Banning as follows:

SECTION 1. The City Council approves the distribution with the Riverside County Emergency Management Department for the FY23 SHSP Grant in the amount of $161,383, to be used during the performance period of this grant, which is from April 9, 2024, to May 31, 2025.

SECTION 2. The City Council authorizes the City Manager to make non-substantive changes to the FY23 Emergency Management Department SHSP Grant and to execute the FY23 Emergency Management Department SHSP Grant with the Riverside County Emergency Management Department on behalf of the City Council.

SECTION 3. The City Council authorizes the City Manager, or designee, to make necessary budget adjustments, appropriations, and transfers related to this resolution.

SECTION 4. The City Clerk shall certify to the adoption of this resolution and shall cause a certified resolution to be filed in the book of original resolutions.

PASSED, APPROVED AND ADOPTED this 25th day of February, 2025.

FY 2023 Subrecipient Grants Management Assessment

Subrecipient: City of Banning Police Department			UEI #: T9ZPMCBNFZC8
Grant Program Title: COB PD SHSP			
Performance Period: 4/9/24	to	5/31/25	Subaward Amount Requested: 161,383

Per Title 2 CFR § 200.332, it is required to evaluate the risk of noncompliance with federal statutes, regulations and grant terms and conditions posed by each subrecipient of pass- through funding. This assessment is made to determine and provide an appropriate level of technical assistance, training, and grant oversight to subrecipients for the award referenced above. For the purposes of completing this questionnaire, "grant manager" is the individual who has primary responsibility for day-to-day administration of the grant, "bookkeeper/accounting staff" means the individual who has responsibility for reviewing and determining expenditures to be charged to the grant award, and "organization" refers to the subrecipient applying for the award, and/or the governmental implementing agency, as applicable.

The following are questions related to your organization's experience in the management of federal grant awards. This questionnaire must be completed and returned with your grant application materials.

1. How many years of experience does your current grant manager have managing grants?	>5 years
2. How many years of experience does your current bookkeeper/accounting staff have managing grants?	>5 years
3. Are individual staff members assigned to work on multiple grants?	Yes
4. Do you use timesheets to track the time staff spend working on specific activities/projects?	Yes
5. Does your organization utilize cost tracking methods that distinguishes grant expenditures separately from general fund expenditures?	Yes
6. How often does your organization have a financial audit?	Annually
7. Has your organization received any audit findings in the last three years?	NO
8. Do you have written procurement policies?	Yes
9. Do you get multiple quotes or bids when buying items or services?	Sometimes
10. How many years do you maintain receipts, deposits, cancelled checks, invoices?	>5 years
11. Has your organization received grant funding for this program in prior years? If yes, provide the following data for the most recent 3 funding years	Yes

Grant Year:		Amount Awarded:		Amount Expended:	
Grant Year:		Amount Awarded:		Amount Expended:	
Grant Year:		Amount Awarded:		Amount Expended:	

Certification: This is to certify that, to the best of our knowledge and belief, the data furnished above is accurate, complete, and current.

FY23 Standard Assurances
Federal Grant Programs

As the duly authorized representative of the Applicant, I hereby certify that the Applicant has the legal authority to apply for federal assistance and the institutional, managerial, and financial capability (including funds sufficient to pay any non-federal share of project cost) to ensure proper planning, management, and completion of the project described in this application, within prescribed timelines.

I further acknowledge that the Applicant is responsible for reviewing and adhering to all requirements within the:

(a) Applicable Federal Regulations (see below);
(b) Federal Program Notice of Funding Opportunity (NOFO);
(c) Federal Preparedness Grants Manual;
(d) California Supplement to the NOFO;
(e) Federal and State Grant Program Guidelines; and
(f) Riverside County Supplement to the NOFO.

Federal Regulations
Government cost principles, uniform administrative requirements, and audit requirements for federal grant programs are set forth in Title 2, Part 200 of the Code of Federal Regulations (C.F.R.). Updates are issued by the Office of Management and Budget (OMB) and can be found at http://www.whitehouse.gov/omb/.

Significant state and federal grant award requirements (some of which appear in the documents listed above) are set forth below. The Applicant hereby agrees to comply with the following:

1. **Proof of Authority**
   The Applicant will obtain written authorization from the city council, governing board, or authorized body in support of this project. This written authorization must specify that the Applicant and the city council, governing board, or authorized body agree:
   (a) To provide all matching funds required for the grant project and that any cash match will be appropriated as required;
   (b) Any liability arising out of the performance of this agreement shall be the responsibility of the Applicant and the city council, governing board, or authorized body;
   (c) Grant funds shall not be used to supplant expenditures controlled by the city council, governing board, or authorized body; and
   (d) The official executing this agreement is, in fact, authorized to do so.

This Proof of Authority must be maintained on file and readily available upon request.

2. **Period of Performance**
The Applicant will initiate work after approval of the award and complete all work within the period of performance specified in the grant.

3. **Lobbying and Political Activities**
As required by Section 1352, Title 31 of the United States Code (U.S.C.), for persons entering into a contract, grant, loan, or cooperative agreement from an agency or requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan, the Applicant certifies that:

(a) No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

(b) If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions.

(c) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

The Applicant will also comply with provisions of the Hatch Act (5 U.S.C. §§ 1501-1508 and §§ 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with federal funds.

Finally, the Applicant agrees that federal funds will not be used, directly or indirectly, to support the enactment, repeal, modification or adoption of any law, regulation, or policy without the express written approval from the awarding agency.

4. **Debarment and Suspension**
As required by Executive Orders 12549 and 12689, and 2 C.F.R. § 200.213 and codified in 2 C.F.R. Part 180, Debarment and Suspension, the Applicant will provide protection against waste, fraud, and abuse by debarring or suspending those persons deemed irresponsible in their dealings with the federal government. The Applicant certifies that it:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal department or agency;
(b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or contract under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state, or local) with commission of any of the offenses enumerated in paragraph (2)(b) of this certification; and
(d) Have not within a three-year period preceding this application had one or more public transaction (federal, state, or local) terminated for cause or default.

Where the Applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

5. **Non-Discrimination and Equal Employment Opportunity**
The Applicant will comply with all state and federal statutes relating to non-discrimination, including:

(a) Title VI of the Civil Rights Act of 1964 (Public Law (P.L.) 88-352 and 42 U.S.C. § 2000d et. seq.) which prohibits discrimination on the basis of race, color, or national origin and requires that recipients of federal financial assistance take reasonable steps to provide meaningful access to persons with limited English proficiency (LEP) to their programs and services;
(b) Title IX of the Education Amendments of 1972, (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex in any federally funded educational program or activity;
(c) Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794), which prohibits discrimination against those with disabilities or access and functional needs;
(d) Americans with Disabilities Act (ADA) of 1990 (42 U.S.C. § 12101et seq.), which prohibits discrimination on the basis of disability and requires buildings and structures be accessible to those with disabilities and access and functional needs;
(e) Age Discrimination Act of 1975, (42 U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age;
(f) Public Health Service Act of 1912 (42 U.S.C. §§ 290 dd—2), relating to confidentiality of patient records regarding substance abuse treatment;
(g) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. § 3601 et seq.), relating to nondiscrimination in the sale, rental or financing of housing as implemented by the Department of Housing and Urban Development at 24 C.F.R. Part 100. The prohibition on disability discrimination includes the requirement that new multifamily housing with four or more dwelling units—i.e., the public and common use areas and individual apartment units (all units in buildings with elevators and ground-floor units in buildings without elevators)— be designed and constructed with certain accessible features (See 24 C.F.R. § 100.201);
(h) Executive Order 11246, which prohibits federal contractors and federally assisted construction contractors and subcontractors, who do over $10,000 in Government business in one year from discriminating in employment decisions on the basis of race, color, religion, sex, sexual orientation, gender identification or national origin;
(i) Executive Order 11375, which bans discrimination on the basis of race, color, religion, sex, sexual orientation, gender identification, or national origin in hiring and employment in both the United States federal workforce and on the part of government contractors;
(j) California Public Contract Code § 10295.3, which prohibits discrimination based on domestic partnerships and those in same sex marriages;

(k) DHS policy to ensure the equal treatment of faith-based organizations, under which all applicants and recipients must comply with equal treatment policies and requirements contained in 6 C.F.R. Part 19;

(l) The Applicant will comply with California's Fair Employment and Housing Act (FEHA) (California Government Code §§12940-12957), as applicable. FEHA prohibits harassment and discrimination in employment because of ancestry, familial status, race, color, religious creed (including religious dress and grooming practices), sex (which includes pregnancy, childbirth, breastfeeding and medical conditions related to pregnancy, childbirth or breastfeeding), gender, gender identity, gender expression, sexual orientation, marital status, national origin, ancestry, mental and physical disability, genetic information, medical condition, age, pregnancy, denial of medical and family care leave, or pregnancy disability leave, military and veteran status, and/or retaliation for protesting illegal discrimination related to one of these categories, or for reporting patient abuse in tax supported institutions;

(m) Any other nondiscrimination provisions in the specific statute(s) under which application for federal assistance is being made; and

(n) The requirements of any other nondiscrimination statute(s) that may apply to this application.

6. Drug-Free Workplace

As required by the Drug-Free Workplace Act of 1988 (41 U.S.C. § 701 et seq.), the Applicant certifies that it will maintain a drug-free workplace and a drug-free awareness program as outlined in the Act.

7. Environmental Standards

The Applicant will comply with state and federal environmental standards, including:

(a) California Environmental Quality Act (CEQA) (California Public Resources Code §§ 21000- 21177), to include coordination with the city or county planning agency;

(b) CEQA Guidelines (California Code of Regulations, Title 14, Division 6, Chapter 3, §§ 15000- 15387);

(c) Federal Clean Water Act (CWA) (33 U.S.C. § 1251 et seq.), which establishes the basic structure for regulating discharges of pollutants into the waters of the United States and regulating quality standards for surface waters;

(d) Federal Clean Air Act of 1955 (42 U.S.C. § 7401) which regulates air emissions from stationary and mobile sources;
(e) Institution of environmental quality control measures under the National Environmental Policy Act (NEPA) of 1969 (P.L. 91-190); the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA; and Executive Order 12898 which focuses on the environmental and human health effects of federal actions on minority and low-income populations with the goal of achieving environmental protection for all communities;
(f) Evaluation of flood hazards in floodplains in accordance with Executive Order 11988;
(g) Executive Order 11514 which sets forth national environmental standards;
(h) Executive Order 11738 instituted to assure that each federal agency empowered to enter into contracts for the procurement of goods, materials, or services and each federal agency empowered to extend federal assistance by way of grant, loan, or contract shall undertake such procurement and assistance activities in a manner that will result in effective enforcement of the Clean Air Act and the Federal Water Pollution Control Act Executive Order 11990 which requires preservation of wetlands;
(i) The Safe Drinking Water Act of 1974, (P.L. 93-523);
(j) The Endangered Species Act of 1973, (P.L. 93-205);
(k) Assurance of project consistency with the approved state management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.);
(l) Conformity of Federal Actions to State (Clear Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); and
(m) Wild and Scenic Rivers Act of 1968 (16 U.S.C. § 1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

The Applicant shall not be: 1) in violation of any order or resolution promulgated by the State Air Resources Board or an air pollution district; 2) subject to a cease-and-desist order pursuant to § 13301 of the California Water Code for violation of waste discharge requirements or discharge prohibitions; or 3) determined to be in violation of federal law relating to air or water pollution.

8. **Audits**
   For subrecipients expending $750,000 or more in federal grant funds annually, the Applicant will perform the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and 2 C.F.R., Part 200, Subpart F Audit Requirements.

9. **Access to Records**
   The Applicant must cooperate with any compliance reviews or investigations conducted by DHS. In accordance with 2 C.F.R. § 200.337, the Applicant will give the awarding agency, the Comptroller General of the United States and, if appropriate, the state, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award. The Applicant will require any subrecipients, contractors, successors, transferees, and assignees to acknowledge and agree to comply with this provision.

10. **Conflict of Interest**
    The Applicant will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.

11. **Financial Management**
    False Claims for Payment - The Applicant will comply with 31 U.S.C §§ 3729-3733 which provides that Applicant shall not submit a false claim for payment, reimbursement, or advance.

12. **Reporting - Accountability**
    The Applicant agrees to comply with applicable provisions of the Federal Funding Accountability and Transparency Act (FFATA) (P.L. 109-282), including but not limited to (a) the reporting of subawards obligating $30,000 or more in federal funds, and (b) executive compensation data for first-tier subawards as set forth in 2 C.F.R. Part 170, Appendix A. The Applicant also agrees to comply with the requirements set forth in the government-wide financial assistance award term regarding the System for Award Management and Universal Identifier Requirements located at 2 C.F.R. Part 25, Appendix A. The Applicant is required to report to Riverside County Operational Area (Riverside County OA) the progress of their funded programs on a quarterly basis (January 1, April 1, July 1, October 1).

13. **Whistleblower Protections**
    The Applicant also must comply with statutory requirements for whistleblower protections at 10 U.S.C. § 2409, 41 U.S.C. § 4712, and 10 U.S.C. § 2324, 41 U.S.C. §

4304 and § 4310.

14. Human Trafficking

The Applicant will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act of 2000, as amended (22 U.S.C. § 7104) which prohibits grant award recipients or a subrecipient from: (1) engaging in trafficking in persons during the period of time that the award is in effect; (2) procuring a commercial sex act during the period of time that the award is in effect; or (3) using forced labor in the performance of the award or subawards under the award.

15. Labor Standards

The Applicant will comply with the following federal labor standards:

(a) The Davis-Bacon Act (40 U.S.C. §§ 276a to 276a-7), as applicable, and the Copeland Act (40 U.S.C. § 3145 and 18 U.S.C. § 874) and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§ 327-333), regarding labor standards for federally assisted construction contracts or subcontracts, and

(b) The Federal Fair Labor Standards Act (29 U.S.C. § 201 et al.) as they apply to employees of institutes of higher learning (IHE), hospitals and other non-profit organizations.

16. Worker's Compensation

The Applicant must comply with provisions which require every employer to be insured to protect workers who may be injured on the job at all times during the performance of the work of this Agreement, as per the workers compensation laws set forth in California Labor Code §§ 3700 et seq.

17. Property-Related

If applicable to the type of project funded by this federal award, the Applicant will:

(a) Comply with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of federal or federally assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of federal participation in purchase;

(b) Comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires subrecipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction

and acquisition is $10,000 or more;

(c) Assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. § 470), Executive Order 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §469a-1 et seq.); and
(d) Comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. § 4831 and 24 CFR Part 35) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.

18. Certifications Applicable Only to Federally Funded Construction Projects

For all construction projects, the Applicant will:

(a) Not dispose of, modify the use of, or change the terms of the real property title or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the federal awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with federal assistance funds to assure nondiscrimination during the useful life of the project;
(b) Comply with the requirements of the awarding agency with regard to the drafting, review and approval of construction plans and specifications; and
(c) Provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progressive reports and such other information as may be required by the assistance awarding agency or State.

19. Use of Cellular Device While Driving is Prohibited

Applicants are required to comply with California Vehicle Code sections 23123 and 23123.5. These laws prohibit driving motor vehicle while using an electronic wireless communications device to write, send, or read a text-based communication. Drivers are also prohibited from the use of a wireless telephone without hands-free listening and talking, unless to make an emergency call to 911, law enforcement, or similar services.

20. California Public Records Act and Freedom of Information Act

The Applicant acknowledges that all information submitted in the course of applying for funding under this program, or provided in the course of an entity's grant management activities that are under Federal control, is subject to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the California Public Records Act, California Government Code section 6250 et seq. The Applicant should consider these laws and consult its own State and local laws and regulations regarding the release of information when reporting sensitive matters in the grant application, needs assessment, and strategic planning process.

HOMELAND SECURITY GRANT PROGRAM (HSGP) – PROGRAM SPECIFIC ASSURANCES / CERTIFICATIONS

21. Acknowledgment of Federal Funding from DHS

All recipients must acknowledge their use of federal funding when issuing statements, press releases, requests for proposals, bid invitations, and other documents describing projects or programs funded in whole or in part with federal funds.

22. Activities Conducted Abroad

All recipients must ensure that project activities carried on outside the United States are coordinated as necessary with appropriate government authorities and that appropriate licenses, permits, or approvals are obtained.

23. Best Practices for Collection and Use of Personally Identifiable Information (PII)

DHS defines personally identifiable information (PII) as any information that permits the identity of an individual to be directly or indirectly inferred, including any information that is linked or linkable to that individual. All recipients who collect PII are required to have a publicly available privacy policy that describes standards on the usage and maintenance of PII they collect. Recipients may also find the DHS Privacy Impact Assessments: Privacy Guidance and Privacy template a useful resource respectively.

24. Copyright

All recipients must affix the applicable copyright notices of 17 U.S.C. §§ 401 or 402 and an acknowledgement of U.S. Government sponsorship (including the award number) to any work first produced under federal financial assistance awards.

25. Duplication of Benefits

Any cost allocable to a particular federal financial assistance award provided for in 2 C.F.R. Part 200, Subpart E may not be charged to other federal financial assistance

awards to overcome fund deficiencies, to avoid restrictions imposed by federal statutes, regulations, or federal financial assistance award terms and conditions, or for other reasons. However, these prohibitions would not preclude recipients from shifting costs that are allowable under two or more awards in accordance with existing federal statutes, regulations, or the federal financial assistance award terms and conditions.

26. Energy Policy and Conservation Act

All recipients must comply with the requirements of 42 U.S.C. § 6201 which contain policies relating to energy efficiency that are defined in the state energy conservation plan issued in compliance with this Act.

27. Federal Debt Status

All recipients are required to be non-delinquent in their repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowances, and benefit overpayments. See OMB Circular A-129.

28. Fly America Act of 1974

All recipients must comply with Preference for U.S. Flag Air Carriers: (air carriers holding certificates under 49 U.S.C. § 41102) for international air transportation of people and property to the extent that such service is available, in accordance with the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. § 40118) and the interpretative guidelines issued by the Comptroller General of the United States in the March 31, 1981, amendment to Comptroller General Decision B-138942.

29. Hotel and Motel Fire Safety Act of 1990

In accordance with Section 6 of the Hotel and Motel Fire Safety Act of 1990, all Applicants must ensure that all conference, meeting, convention, or training space funded in whole or in part with federal funds complies with the fire prevention and control guidelines of the Federal Fire Prevention and Control Act of 1974, as amended, 15 U.S.C. § 2225a.

30. Non-supplanting Requirement

All recipients who receive federal financial assistance awards made under programs that prohibit supplanting by law must ensure that federal funds do not replace (supplant) funds that have been budgeted for the same purpose through non-federal sources.

31. Patents and Intellectual Property Rights

Unless otherwise provided by law, recipients are subject to the Bayh-Dole Act, Pub. L. No. 96-517, as amended, and codified in 35 U.S.C. § 200 et seq. All recipients are subject to the specific requirements governing the development, reporting, and disposition of rights to inventions and patents resulting from financial assistance awards located at 37 C.F.R. Part 401 and the standard patent rights clause located at 37 C.F.R. § 401.14.

32. SAFECOM

All recipients who receive federal financial assistance awards made under programs that provide emergency communication equipment and its related activities must comply with the SAFECOM Guidance for Emergency Communication Grants, including provisions on technical standards that ensure and enhance interoperable communications.

33. Terrorist Financing

All recipients must comply with Executive Order 13224 and U.S. law that prohibit transactions with, and the provisions of resources and support to, individuals and organizations associated with terrorism. Recipients are legally responsible to ensure compliance with the Order and laws.

34. Reporting of Matters Related to Recipient Integrity and Performance

If the total value of the recipient's currently active grants, cooperative agreements, and procurement contracts from all federal assistance offices exceeds $10,000,000 for any period of time during the period of performance of this federal financial assistance award, you must comply with the requirements set forth in the government-wide Award Term and Condition for Recipient Integrity and Performance Matters located at 2 C.F.R. Part 200, Appendix XII, the full text of which is incorporated here by reference in the award terms and conditions.

35. USA Patriot Act of 2001

All recipients must comply with requirements of the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act (USA PATRIOT Act), which amends 18 U.S.C. §§ 175–175c.

36. Use of DHS Seal, Logo, and Flags

All recipients must obtain permission from their DHS Financial Assistance Office, prior to using the DHS seal(s), logos, crests or reproductions of flags or likenesses of DHS agency officials, including use of the United States Coast Guard seal, logo, crests or reproductions of flags or likenesses of Coast Guard officials.

37. Required Use of American Iron, Steel, Manufactured Products, and Construction Materials

The Applicant must comply with the "Build America, Buy America" Act (BABAA), enacted as part of the Infrastructure Investment and Jobs Act and Executive Order 14005. Applicants receiving a federal award subject to BABAA requirements may not use federal financial assistance funds for infrastructure projects unless:

a) All iron and steel used in the project are produced in the United States – this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;
b) All manufactured products used in the project are produced in the United States – this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and
c) All construction materials are manufactured in the United States – this means that all manufacturing processes for the construction material occurred in the United States.

The "Buy America" preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. It does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a "Buy America" preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

Per section 70914(c) of BABAA, FEMA may waive the application of a "Buy America" preference under an infrastructure program in certain cases.

On July 1, 2022, OMB approved FEMA's General Applicability Public Interest Waiver of the BABAA requirements to be effective for a period of six months, through January 1, 2023. Applicants will not be required to follow the BABAA requirements for FEMA awards made, and any other funding FEMA obligates, during this waiver period. For any new awards FEMA makes after January 1, 2023, as well as new funding FEMA obligates to existing awards or

through renewal awards where the new funding is obligated after January 1, 2023, Applicants will be required to follow the BABAA requirements unless another waiver is requested and approved.

38. Loss of funding

Failure to comply with these requirements may result in suspension of payments under the grant or termination of the grant or both and the subrecipient may be ineligible for award of any future grants if Riverside County OA or the Cal OES determines that any of the following has occurred: (1) the recipient has made false certification, or (2) violates the certification by failing to carry out the requirements as noted above.

Riverside County OA may reduce, suspend, or terminate current and/or future grant funding, in whole or in part, or other measures may be imposed for any of the following reasons:

a) Failure to submit required reports.
b) Failure to expend funding.
c) Failure to expend at least 90% or $5,000 (whichever is greater) of the award could affect future funding.
d) Failure to expend funds in a timely manner consistent with the grant milestones, guidance, and assurances.
e) Failure to comply with the requirements or statutory progress toward the goals or objectives of federal or state law.
f) Failure to comply with the required Nationwide Cybersecurity Review (NCSR) process
g) Failure to make satisfactory progress toward the goals or objectives set forth in the Subrecipient application.
h) Failure to follow grant agreement requirements or special conditions.
i) False certification in the application or document.
j) Failure to adequately manage, monitor or direct the grant funding activities of their City/Agency.

IMPORTANT

The purpose of the assurance is to obtain federal and state financial assistance, including any and all federal and state grants, loans, reimbursement, contracts, etc. The Applicant recognizes and agrees that financial assistance will be extended based on the representations made in this assurance. This assurance is binding on the Applicant, its successors, transferees, assignees, etc. Failure to comply with any of the above assurances may result in suspension, termination, or reduction of grant funds.

FY23 Standard Assurances
Federal Grant Programs

All appropriate documentation, as outlined above, must be maintained on file by the Applicant and available for Riverside County OA, Cal OES, or public scrutiny upon request.

All of the language contained within this document must be included in the award documents for all subawards at all tiers. All recipients are bound by the Department of Homeland Security Standard Terms and Conditions 2018, Version 8 .1, hereby incorporated by reference, which can be found at: https://www.dhs.gov/publication/fy15-dhs-standard-terms-and-conditions.

The undersigned represents that he/she is authorized to enter into this agreement for and on behalf of the Applicant.

RE: FY23 State Homeland Security Program Grant (SHSP) Award - $161,383
Grant #2023-0042 CFDA#: 97.067

The California Office of Emergency Services (CalOES) has approved Riverside County's FY23 State Homeland Security Program Grant (SHSP) application and has authorized the commencement of reimbursement requests. The performance period of this grant is **April 9, 2024 – May 31, 2025**. **Final reimbursement requests** are **due** within **twenty (20) calendar days** after the end of the grant period of performance**.**

This subaward is subject to requirements in 2 CFR, Part 200, including the Notice of Funding Opportunity (NOFO), Preparedness Grants Manual, California Supplement to the NOFO, Riverside County Supplement to the NOFO, Grant Assurances, and all applicable federal, state, and local requirements. All activities funded with this subaward must be completed within the period of performance.

The Riverside County Operational Area (OA) may reduce, suspend, or terminate grant funding, in whole or in part, or other measures may be imposed for any of the following reasons:

- Failure to submit required performance reports.
- Failure to expend a minimum of 90% of awarded funding.
- Failure to expend funds in a timely manner consistent with the grant milestones, guidance, and assurances.
- Failure to comply with the requirements or statutory progress toward the goals or objectives of federal or state law.
- Failure to make satisfactory progress toward the goals or objectives set forth in the Subrecipient application.
- Failure to follow Grant Subaward requirements or special conditions.
- Proposing or implementing substantial plan changes to the extent that, if originally submitted, the application would not have been selected for funding.
- False certification in the application or document.
- Failure to adequately manage, monitor, or direct the grant funding activities of the organization.

Subrecipients must obtain additional written approval prior to incurring costs for activities such as aviation, watercraft, noncompetitive procurement, and projects requiring Environmental Planning and Historic Preservation review. Any changes to the Financial Management Forms Workbook requires approval from the OA prior to conducting activities and incurring costs.

Your organization's Financial Management Forms Workbook is being provided to you via email along with a copy of this letter. The **Facesheet, Governing Body Resolution**, **Grants Management Assessments form**, **Standard Assurances**, **EHP Screening Form (if applicable)** must be read, **signed**, and **dated** by your **authorized agent** in **blue ink** and returned to **EMD_OAGrants@rivco.org** by **July 9, 2024. Requests will not be processed without the acceptance documents on file.**

This subaward is subject to all provisions of 2 CFR Part 200, Subpart F – Audit Requirements. Any funds received in excess of current needs, approved amounts, or those found owed as a result of a final review or audit, must be refunded to the OA within 30 days upon receipt of an invoice from the County of Riverside Emergency

Management Department.

For further assistance, please contact EMD_OAGrants@rivco.org. We look forward to working with you and appreciate your cooperation and support.

Sincerely,
Louis Le
Senior Administrative Services Analyst
County of Riverside Emergency Management Department

CITY OF BANNING
STAFF REPORT

TO:	**CITY COUNCIL**
FROM:	**Robert Fisher, Acting City Manager**
PREPARED BY:	**Ralph Wright, Parks and Recreation Director**
MEETING DATE:	**February 25, 2025**
SUBJECT:	**Consideration of Resolution 2025-25, Approving an Agreement with Pyro Spectaculars, Inc. for Production of the Fourth of July Aerial Fireworks Display**

RECOMMENDATION:

Adopt Resolution 2025-25.

BACKGROUND:

For over a dozen years, other than the COVID restriction year of 2020, the City of Banning has offered an annual July 4th Celebration including vendors, music, kids and family activities as well as stunning aerial fireworks display and it has become a well-known, and community supported event.

Last year's event had an estimated 2,000 people in attendance at Nicolet Middle School and thousands of other community members watching the fireworks show from their home, local parks, and adjacent neighborhoods. The feedback from the community was that the event was a beneficial and well-liked event that brought the community together.

Pyro Spectaculars, Inc. is the single source providing most of the aerial fireworks shows on July 4th in California and throughout the United States. Staff has inquired and with Pyro Spectaculars, Inc. as to the secure the best pricing for aerial fireworks show and received a quote of $34,000. This fee includes a $2,000 increase over last year's show price. This higher price has come about due to many increases that can be seen throughout the supply chain including insurance costs, shipping and labor costs. As a returning customer, Pyro Spectacular offers a significant discount to the City of Banning. Pyro Spectaculars, Inc., has a waiting list of new customers that will pay a minimum of $50,000 for a show. Customers that cancel annual shows and choose to return in subsequent years will have to be added to a waiting list and no longer be offered the retuning customer discount.

If the production agreement is approved and executed, the City of Banning will pay 50% or $17,000 on April 1st and the remaining 50%, or $17,000 after the show takes place on July 4th.

JUSTIFICATION:

Staff feels providing a July 4th event and including the aerial fireworks display provides a tremendous community benefit. Pyro Spectaculars, Inc. has performed over a dozen July 4th shows in Banning and proven themselves to deliver an exciting and safe show for the community. Funding is currently allocated in the FY 2024-25 budget (Account 001-5400-446-41.58) to support the annual July 4th event including the Aerial Fireworks Display. Additionally, Pyro Spectaculars, Inc. will provide liability insurance naming the City of banning as additional insured and works closely with our fire marshal each year to mitigate the risk associated with fireworks show.

FISCAL IMPACT:

Sufficient funds are available and were budgeted in the July 4th Celebration account 001-5400-446-41.58. A 50% payment for the aerial fireworks display will take place on April 1st and the balance will be paid after the show takes place on July 4th.

ALTERNATIVES:

Do not adopt the resolution and provide staff alternate direction.

BUDGETED?:

Yes

CONTRACT/AGREEMENT:

Yes

RESOLUTION 2025-25

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BANNING, CALIFORNIA, APPROVING AGREEMENT WITH PYRO SPECTACULARS, INC. FOR PRODUCTION OF THE FOURTH OF JULY AERIAL FIREWORKS DISPLAY

WHEREAS, The City desires to hold a community event with an aerial fireworks display on July 4, 2025; and

WHEREAS, The July 4th Celebration was held in July of 2024 and it was a successful and well attended event with 2,000 people estimated in attendance inside the fence at Nicolet Middle School Field and thousands more watching the show from throughout Banning; and

WHEREAS, Pyro Spectaculars is a single source provider of fireworks shows on July 4th providing over 200 shows each year in California and throughout the United States; and

WHEREAS, Pyro Spectacular has performed the annual show in Banning for over a dozen years and proven themselves to deliver an exciting and safe show for the community; and

WHEREAS, Pyro Spectaculars, Inc., of Rialto, CA has provided these services for the City in the past and has proved able to perform to set expectations; and

WHEREAS, Pyro Spectaculars, Inc., of Rialto, CA submitted pricing of $34,000 through an informal request; and

WHEREAS, Sufficient funding for the Aerial Fireworks show and Fourth of July Celebration is budgeted and is available in account 001-5400-446.41.58 for FY 2024-25.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Banning as follows:

SECTION 1. The City Council approves the Production Agreement with Pyro Spectaculars, Inc. for an annual aerials fireworks show in the amount of $34,000.

SECTION 2. Authorizes the City Manager or his designee to make non-substantive changes to the Production Agreement and to execute the Production Agreement with Pyro Spectaculars, Inc, on behalf of the City Council, sign all necessary documents, and make all necessary budget adjustments to facilitate the Production Agreement.

SECTION 3. The City Clerk shall certify to the adoption of this resolution and shall cause a certified resolution to be filed in the book of original resolutions.

PASSED, APPROVED AND ADOPTED this 25th day of February, 2025.

City of Banning

July 4, 2025

December 18, 2023

City of Banning
Ralph Wright
P.O. Box 998
Banning, CA 92220-0665

Subject: Proposal for your event on **July 4, 2025**, **PROGRAM A** for **$34,000.00**. The fireworks elements provided are prepared to shoot from Nicolet Middle School baseball field.

Pyrotechnics:	☐Close Proximity	☑Display Fireworks	☐Firecrackers
Theatrical Effects:	☐Spark Machines	☐Flames	☐CO2 Cryo Jets
	☐Confetti/Streamers	☐Lights	☐Foggers
Drones:	☐ Light Animations	☐ Accents	

Dear Ralph Wright,

Pyro Spectaculars, Inc. is delighted to present our proposal for the full-service custom-designed **PROGRAM A** for the production of your upcoming event. We are confident that our production capabilities and crew experience will result in the display of an unforgettable experience for your audience.

Enclosed you will find three important documents that outline our **PROGRAM A** proposal in detail:

1. **Product Synopsis - Proposal**: Provides the specifications of the devices and products to be used in your event.
2. **Production Agreement:** Presents the terms and conditions for the production of your event, including engagements, duties, and payment dates and amounts.
3. **Scope of Work**: Outlines the responsibilities and services to be provided by both Pyro Spectaculars, Inc. and City of Banning that will be necessary for the execution of the production of your event, along with insurance limits and requirements.

To secure your program, return the fully executed Production Agreement, and initial payment, to our office by the PRICE FIRM date, March 11, 2025. Please note that program availability, pricing, and show date may be subject to change if these are not timely received.

If you have any questions, or wish to discuss your program in detail, please do not hesitate to contact either myself or your dedicated Customer Service Representative, Maria Barajas, at (909) 355-8120, extension 228

Sincerely,

Pyro Spectaculars, Inc.

PRODUCTION AGREEMENT

This agreement ("Agreement") is made this _____day of _____,**2025** by and between **Pyro Spectaculars, Inc.**, a California corporation, hereinafter referred to as ("PYRO"), and **City of Banning**, hereinafter referred to as ("CLIENT"). PYRO and CLIENT are sometimes referred to as "Party" or collectively as "Parties" herein.

1. **Engagement** - CLIENT hereby engages PYRO to provide to CLIENT one fireworks production ("Production"), and PYRO accepts such engagement upon all of the promises, terms and conditions hereinafter set forth. The Production shall be substantially as outlined in Program "**A**", attached hereto and incorporated herein by this reference.

1.1 **PYRO Duties** – PYRO shall provide all pyrotechnic equipment, trained pyrotechnicians, shipping, pyrotechnic products, application for specific pyrotechnic permits (the cost of which, including standby fees, shall be paid by CLIENT) relating to the Production, insurance covering the Production and the other things on its part to be performed, including preproduction services, all as more specifically set forth below in this Agreement and in the Scope of Work ("Scope of Work"), attached hereto, incorporated herein by this reference, and made a part of this Agreement as though set forth fully herein.

1.2 **CLIENT Duties** – CLIENT shall provide to PYRO a suitable site ("Site") for the Production, security for the Site as set forth in Paragraph 6 hereof, access to the Site, any permission necessary to utilize the Site for the Production, and the other things on its part to be performed as more specifically set forth below in this Agreement and in the Scope of Work. All Site arrangements are subject to PYRO's reasonable approval as to pyrotechnic safety, suitability, and security. All other conditions of the Site shall be the responsibility of CLIENT, including, but not limited to, access, use, control, parking and general safety with respect to the public, CLIENT personnel and other contractors.

2. **Time and Place** - The Production shall take place on **July 4, 2025**, at approximately **9:00 p.m.**, at **Nicolet Middle School baseball field, 101 E Nicolet St., Banning, CA**, Site.

3. **Fees, Interest, and Expenses** -

3.1 **Fee** - CLIENT agrees to pay PYRO a fee of $**34,000.00**USD (**THIRTY FOUR THOUSAND DOLLARS**) ("Fee") for the Production. CLIENT shall pay to PYRO an initial payment ("Initial Payment") equal to 50 % of the Production Fee $**17,000.00**USD (**SEVENTEEN THOUSAND DOLLARS**) plus estimated permit and standby fees, and other regulatory costs approximated at **$00.00 OR an amount to be determined,** for a total of **$17,000.00**, upon the execution of this Agreement by both parties but no later than **March 11, 2025**. The Initial Payment is a partial payment toward the preproduction services and costs set forth in the Scope of Work ("Preproduction Services and Costs".) The balance of the Fee shall be paid no later than **May 29, 2025**. CLIENT authorizes PYRO to receive and verify credit and financial information concerning CLIENT from any agency, person or entity including but not limited to credit reporting agencies. The "PRICE FIRM" date, the date by which the executed Agreement must be delivered to Pyro, is set forth in paragraph 20.

3.2 **Interest** - In the event that the Fee is not paid in a timely manner, CLIENT will be responsible for the payment of 1.5% interest per month or 18% annually on the unpaid balance. If litigation arises out of this Agreement, the prevailing party shall be entitled to reasonable costs incurred in connection with the litigation, including, but not limited to attorneys' fees.

3.3 **Expenses** – PYRO shall pay all normal expenses directly related to the Production including freight, insurance as outlined, pyrotechnic products, pyrotechnic equipment, experienced pyrotechnic personnel to set up and discharge the pyrotechnics and those additional items as outlined as PYRO's responsibility in the Scope of Work. CLIENT shall pay all costs related to the Production not supplied by PYRO including, but not limited to, those items outlined as CLIENT's responsibility in this Agreement and Scope of Work.

4. **Proprietary Rights** - PYRO represents and warrants that it owns all copyrights, including performance rights, to this Production, except that PYRO does not own CLIENT-owned material or third-party-owned material that has been included in the Production, and as to such CLIENT-owned and third-party-owned material, CLIENT assumes full responsibility therefore. CLIENT agrees that PYRO shall retain ownership of, and all copyrights and other rights to, the Production, except that PYRO shall not acquire or retain any ownership or other rights in or to CLIENT-owned material and third-party-owned material and shall not be responsible in any way for such material. If applicable, CLIENT consents to the use of CLIENT-owned material and represents that it has or will obtain any permission from appropriate third parties sufficient to authorize public exhibition of any such material in connection with this Production. PYRO reserves the ownership rights in its trade names that are used in or are a product of the Production. Any reproduction by sound, video or other duplication or recording process without the express written permission of PYRO is prohibited.

5. **Safety** - PYRO and CLIENT shall each comply with applicable federal, state and local laws and regulations and employ safety programs and measures consistent with recognized applicable industry standards and practices. At all times before and during the Production, it shall be within PYRO's sole discretion to determine whether or not the Production may be safely discharged or continued. It shall not constitute a breach of this Agreement by PYRO for fireworks to fail or malfunction, or for PYRO to determine that the Production cannot be discharged or continued as a result of any conditions or circumstances affecting safety beyond the reasonable control of PYRO.

6. **Security** - CLIENT shall provide adequate security personnel, barricades, and Police Department services as may be necessary to preclude individuals other than those authorized by PYRO from entering an area to be designated by PYRO as the area for the set-up and discharge of the Production, including a fallout area satisfactory to PYRO where the pyrotechnics may safely rise and any debris may safely fall. PYRO shall have no responsibility for monitoring or controlling CLIENT's other contractors, providers or volunteers; the public; areas to which the public or contractors have access; or any other public or contractor facilities associated with the Production.

7. **Cleanup** - PYRO shall be responsible for the removal of all equipment provided by PYRO and clean up of any live pyrotechnic debris made necessary by PYRO. CLIENT shall be responsible for any other clean up which may be required of the Production or set-up, discharge and fallout areas including any environmental clean-up.

8. **Permits** - PYRO agrees to apply for permits for the firing of pyrotechnics only from the **Riverside County Fire Department,** FAA, and USCG, if required. CLIENT shall be responsible for any fees associated with these permits including standby fees. CLIENT shall be responsible for obtaining any other necessary permits, paying associated fees, and making other appropriate arrangements for Police Departments, other Fire Departments, road closures, event/activity or land use permits or any permission or permit required by any Local, Regional, State or Federal Government.

9. **Insurance** - PYRO shall at all times during the performance of services herein ensure that the following insurance is maintained in connection with PYRO's performance of this Agreement: (1) commercial general liability insurance, including products, completed operations, and contractual liability under this Agreement; (2) automobile liability insurance, (3) workers' compensation insurance and employer liability insurance. Such insurance is to protect CLIENT from claims for bodily injury, including death, personal injury, and from claims of property damage, which may arise from PYRO's performance of this Agreement, only. The types and amounts of coverage shall be as set forth in the Scope of Work. Such insurance shall not include claims which arise from CLIENT's negligence or willful conduct or from failure of CLIENT to perform its obligations under this Agreement, coverage for which shall be provided by CLIENT.

The coverage of these policies shall be subject to reasonable inspection by CLIENT. Certificates of Insurance evidencing the required general liability coverage shall be furnished to CLIENT prior to the rendering of services hereunder and shall include that the following are named as additionally insured: CLIENT; Sponsors, Landowners, Barge Owners, if any; and Permitting Authorities, with respect to the operations of PYRO at the Production. Pyrotechnic subcontractors or providers, if any, not covered under policies of insurance required hereby, shall secure, maintain and provide their own insurance coverage with respect to their respective operations and services.

10. **Indemnification** - PYRO represents and warrants that it is capable of furnishing the necessary experience, personnel, equipment, materials, providers, and expertise to produce the Production in a safe and professional manner. Notwithstanding anything in this Agreement to the contrary, PYRO shall indemnify, hold harmless, and defend CLIENT and the additional insureds from and against any and all claims, actions, damages, liabilities and expenses, including but not limited to, attorney and other professional fees and court costs, in connection with the loss of life, personal injury, and/or damage to property, arising from or out of the Production and the presentation thereof to the extent such are occasioned by any act or omission of PYRO, their officers, agents, contractors, providers, or employees. CLIENT shall indemnify, hold harmless, and defend PYRO from and against any and all claims, actions, damages, liability and expenses, including but not limited to, attorney and other professional fees and court costs in connection with the loss of life, personal injury, and/or damage to property, arising from or out of the Production and the presentation thereof to the extent such are occasioned by any act or omission of CLIENT, its officers, agents, contractors, providers, or employees. In no event shall either party be liable for the consequential damages of the other party.

11. **Limitation of Damages for Ordinary Breach** - Except in the case of bodily injury and property damage as provided in the insurance and indemnification provisions of Paragraphs 9 and 10, above, in the event CLIENT claims that PYRO has breached this Agreement or was otherwise negligent in performing the Production provided for herein, CLIENT shall not be entitled to claim or recover monetary damages from PYRO beyond the amount CLIENT has paid to PYRO under this Agreement, and shall not be entitled to claim or recover any consequential damages from PYRO including, without limitation, damages for loss of income, business or profits.

12. **Force Majeure** - CLIENT agrees to assume the risks of weather, strike, civil unrest, terrorism, military action, governmental action, and any other causes beyond the control of PYRO which may prevent the Production from being safely discharged on the scheduled date, which may cause the cancellation of any event for which CLIENT has purchased the Production, or which may affect or damage such portion of the exhibits as must be placed and exposed a necessary time before the Production. If, for any such reason, PYRO is not reasonably able to safely discharge the Production on the scheduled date, or at the scheduled time, or should any event for which CLIENT has purchased the Production be canceled as a result of such causes, CLIENT may (i) reschedule the Production and pay PYRO such sums as provided in Paragraph 13, or (ii) cancel the Production and pay PYRO such sums as provided in Paragraph 14, based upon when the Production is canceled.

13. **Rescheduling Of Event** - If CLIENT elects to reschedule the Production, PYRO shall be paid the original Fee plus all additional expenses made necessary by rescheduling plus a 15% service fee on such additional expenses. Said expenses will be invoiced separately and payment will be due in full within 5 days of receipt. CLIENT and PYRO shall agree upon the rescheduled date taking into consideration availability of permits, materials, equipment, transportation and labor. The Production shall be rescheduled for a date not more than 90 Days subsequent to the date first set for the Production. The Production shall not be rescheduled to a date, or for an event, that historically has involved a fireworks production. The Production shall not be rescheduled between June 15th and July 15th unless the original date was July 4th of that same year, or between December 15th and January 15th unless the original date was December 31st of the earlier year unless PYRO agrees that such rescheduling will not adversely affect normal business operations during those periods.

14. **Right To Cancel** – CLIENT shall have the option to unilaterally cancel the Production prior to the scheduled date. If CLIENT exercises this option, CLIENT agrees to pay to PYRO, as liquidated damages, the following percentages of the Fee as set forth in Paragraph 3.1. 1) 50% if cancellation occurs 30 or more days prior to the scheduled date, 2) 75% if cancellation occurs 15 to 29 days prior to the scheduled date, 3) 100% thereafter. In the event CLIENT cancels the Production, it will be impractical or extremely difficult to fix actual amount of PYRO's damages. The foregoing represents a reasonable estimate of the damages PYRO will suffer if CLIENT cancels the Production.

15. **No Joint Venture** - It is agreed, nothing in this Agreement or in PYRO's performance of the Production shall be construed as forming a partnership or joint venture between CLIENT and PYRO. PYRO shall be and is an independent contractor with CLIENT and not an employee of CLIENT. The Parties hereto shall be severally responsible for their own separate debts and obligations and neither Party shall be held responsible for any agreements or obligations not expressly provided for herein.

16. **Applicable Law** - This Agreement and the rights and obligations of the Parties hereunder shall be construed in accordance with the laws of California. It is further agreed that the Central Judicial District of San Bernardino County, California, shall be proper venue for any such action. In the event that the scope of the Production is reduced by authorities having jurisdiction or by either Party for safety concerns, the full dollar amounts outlined in this Agreement are enforceable.

17. **Notices** - Any Notice to the Parties permitted or required under this Agreement may be given by mailing such Notice in the United States Mail, postage prepaid, first class, addressed as follows: PYRO – Pyro Spectaculars, Inc., P.O. Box 2329, Rialto, California, 92377, or for overnight delivery to 3196 N. Locust Avenue, Rialto, California 92377. CLIENT – **City of Banning, P.O. Box 998, Banning, CA 92220-0665.**

18. **Modification of Terms** – All terms of the Agreement are in writing and may only be modified by written agreement of both Parties hereto. Both Parties acknowledge they have received a copy of said written Agreement and agree to be bound by said terms of written Agreement only.

19. **Severability** – If there is more than one CLIENT, they shall be jointly and severally responsible to perform CLIENT's obligations under this Agreement. This Agreement shall become effective after it is executed and accepted by CLIENT and after it is executed and accepted by PYRO at PYRO's offices in Rialto, California. This Agreement may be executed in several counterparts, including faxed and emailed copies, each one of which shall be deemed an original against the Party executing same. This Agreement shall be binding upon the Parties hereto and upon their heirs, successors, executors, administrators and assigns.

20. **Price Firm** – If any changes or alterations are made by CLIENT to this Agreement or if this Agreement is not executed by CLIENT and delivered to PYRO on or before the PRICE FIRM date shown below, or if the Initial Payment is not paid on or before the due date, then the price, date, and scope of the Production are subject to review and acceptance by PYRO for a period of 15 days following delivery to PYRO of the executed Agreement. In the event it is not accepted by PYRO, PYRO shall give CLIENT written notice, and this Agreement shall be void.

PRICE FIRM through March 11, 2025
EXECUTED AGREEMENT MUST BE DELIVERED TO PYRO BY THIS DATE.
See PRICE FIRM conditions, paragraph 20, above.

SCOPE OF WORK
PYRO SPECTACULARS, INC. ("PYRO")
and
City of Banning ("CLIENT")

Pyro shall provide the following goods and services to CLIENT:

- One Pyro Spectaculars, Inc., Production on **July 4, 2025**, at approximately **9:00 p.m.** at **Nicolet Middle School baseball field, 101 E Nicolet St., Banning, CA**.
- All pyrotechnic equipment, trained pyrotechnicians, shipping, and pyrotechnic product.
- Preproduction Services and Costs for the Production, including advance acquisition of materials and products; design, engineering, programming, handling, staging, storage, and maintenance of products, props, and systems; preparation of drawings, diagrams, listings, schedules, inventory controls, choreography, and computer code; picking, packing, labeling, staging, and loading of equipment, materials, and systems; transportation, and logistics and crew scheduling and support; explosive storage magazines with legally mandated distances, surfaces, security, housekeeping, and access controls; and necessary and appropriate vehicles, including legally mandated insurance, including MCS90 explosives transportation coverage, parking, security, and maintenance.
- Application for specific pyrotechnic permits relating to the Production.
- Insurance covering the preproduction and Production as set forth in the Agreement with the following limits:

Insurance Requirements	***Limits***	
Commercial General Liability	$5,000,000.00	Combined Single Limit- Each Occurrence (Bodily Injury & Property Damage)
Business Auto Liability- Owned, Non-Owned and Hired Autos	$5,000,000.00	Combined Single Limit- Each Occurrence (Bodily Injury & Property Damage)
Workers' Compensation	Statutory	
Employer Liability	$1,000,000	Per Occurrence

CLIENT shall provide to PYRO the following goods and services:

- All on-site labor costs, if any, not provided or performed by PYRO personnel including, but not limited to, local union requirements, all Site security, Police and Fire Dept. standby personnel, stagehands, electricians, audio and fire control monitors, carpenters, plumbers, clean-up crew. All these additional personnel and services shall be fully insured and the sole responsibility of CLIENT.
- Coordination and any applicable non-pyrotechnic permitting with the local, state or federal government that may hold authority within the Production.
- Costs of all permits required for the presentation of the Production and the event as a whole.
- Provision of a Safety Zone in accordance with applicable standards and all requirements of the authorities having jurisdiction throughout the entire time that the pyrotechnics are at the Site or the load site (if different) on the date of the Production and all set-up and load-out dates, including water security to keep unauthorized people, boats, etc. from entering the Safety Zone.
- General Services including, but not limited to, Site and audience security, fencing, adequate work light, dumpster accessibility, a secure office for PYRO personnel within the venue, secure parking for PYRO vehicles, access to washrooms, tents, equipment storage, hazmat storage, electrical power, fire suppression equipment, access to worksites, necessary credentialing, etc., will be required as necessary.

CITY OF BANNING
STAFF REPORT

TO: **CITY COUNCIL**

FROM: **Robert Fisher, Acting City Manager**

PREPARED BY: **Ralph Wright, Parks and Recreation Director**

MEETING DATE: **February 25, 2025**

SUBJECT: **Consideration of Resolution 2025-26, Approving a Short-Term Rental Agreement with Orlando Cobos for Use of City-Owned Property located at 150 East Ramsey Street in Banning for a series of Acrobatic Shows**

RECOMMENDATION:

Adopt Resolution 2025-26.

BACKGROUND:

The Parks and Recreation Department was contacted regarding the use of the property located at 150 E. Ramsey Street for a 2-week period to offer a series of Acrobatic Shows in Banning. The old site of the San Gorgonio Inn has been vacant for over a year and is currently unprogrammed.
Absolute Kids Non-profit Sponsor Circus Royal Spectacular has submitted a required Temporary Use Permit (TUP) application to operate the acrobatic show at the location and completed a Special Event Permit Application. As part of the permitting process, requirements for operation of a safe event will be established by Fire and Police. The operator will require the use of water at the site and will be required to request the use of a construction meter on site and pay for all costs associated with the water use.

The City will receive $750 in rent for the fifteen (15) day short-term rental. The property has had previous short-term rentals for similar events. Most recently, in September and October of 2022, the property was used for a Pumpkin Patch event and the City received $1,500 in rent for this 35 day use.

Staff believes this would be a good use of the underutilized site and would draw residents and visitors to the City's downtown core.

JUSTIFICATION:

The property is currently not being used by the City and all costs associated with the use of the property are being paid by the operator. The City will receive rent for the short-term rental in the amount of $750. The use of the property to offer a fun and exciting acrobat show for the Pass Area is a positive benefit to the City of Banning.

FISCAL IMPACT:

The term of the short-term rental agreement is 15 days - March 11, 2025 through March 25, 2025. Tenant shall pay $750 plus any associated late fees they may incur per the agreement. Tenant will also be required to secure a temporary construction water meter on site and pay all associated water costs incurred during their use.

ALTERNATIVES:

Do not adopt the resolution and provide staff alternate direction.

BUDGETED?:

No

CONTRACT/AGREEMENT:

Yes

RESOLUTION 2025-26

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BANNING, CALIFORNIA, APPROVING A SHORT-TERM RENTAL AGREEMENT WITH ORLANDO COBOS FOR RENTAL OF APPROXIMATELY 0.5 ACREA LOCATED ON CITY-OWNED PROPERTY LOCATED AT 150 E. RAMSEY STREET IN BANNING, CA 92220

WHEREAS, The City of Banning was contacted by Absolute Kids Non-Profit Sponsor Circus Royal Spectacular regarding the use of the property located at 150 E. Ramsey street for an acrobatic show; and

WHEREAS, Absolute Kids Non-profit Sponsor Circus Royal Spectacular has submitted a required Temporary Use Permit (TUP) application to operate the acrobatic show at the location; and

WHEREAS, the term of the rental is for fifteen (15) days from March 11, 2025 through March 25, 2025; and

WHEREAS, the City has declared the land surplus and the property is not currently in use by the City; and

WHEREAS, the City will receive $750.00 in rent for the short-term use of the property.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Banning as follows:

SECTION 1. The Short-Term Rental Agreement between Orlando Cobos and the City of Banning is hereby approved; and

SECTION 2. The City Council authorizes the City Manager or his designee to execute the Short-Term Rental Agreement on behalf of the City of Banning.

SECTION 3. The City Clerk shall certify to the adoption of this resolution and shall cause a certified resolution to be filed in the book of original resolutions.

PASSED, APPROVED AND ADOPTED this 25th day of February, 2025.

Sheri Flynn, Mayor
City of Banning

ATTEST:

Caroline Patton, Administrative City Clerk
City of Banning

APPROVED AS TO FORM AND LEGAL CONTENT:

John Pinkney, Interim City Attorney
Slovak, Baron, Empey, Murphy & Pinkney, LLP

CERTIFICATION:

I, Caroline Patton, Administrative City Clerk of the City of Banning, California, do hereby certify that the foregoing Resolution 2025-26, was duly adopted by the City Council of the City of Banning, California, at a regular meeting thereof held on the 25th day of February, 2025 by the following vote, to wit:

City of Banning, California

RENTAL AGREEMENT

This **RENTAL AGREEMENT** ("Rental Agreement") is dated as of _February 26, 2025 (the "Effective Date") and entered into by and between the **CITY OF BANNING**, a California municipal corporation ("Landlord" or "City"), and **ORLANDO COBOS**, an individual doing business as Absolute Kids Non-Profit Sponsor Circus Royal Spectacular ("Tenant"). The Landlord or City and the Tenant are collectively referred to herein as "Parties," or individually referred to as a "Party."

RECITALS

A. Landlord is the owner of that certain vacant real property located at 150 E. Ramsey Street (the "Property").

B. Tenant wishes to rent on a short-term basis a portion of the Property consisting of approximately 0.5 acres, as depicted on the Site Map attached hereto as **Exhibit "A"** and incorporated herein by reference (the "Site") for the purpose of operating a temporary seasonal circus without animals, with acrobats, clowns, jugglers, and other acts for twelve (12) days in March.

C. Tenant agrees that the use of the Site under this Rental Agreement is only for a limited time on the terms and conditions set forth in this Rental Agreement.

D. Tenant is required to secure a Temporary Use Permit(TUP) from the City of Banning and follow all required conditions of approval.

E. Tenant has conducted an independent investigation concerning the desirability of renting the Site on the terms and conditions set forth in this Rental Agreement and its suitability for use by Tenant; Landlord has not provided any advice, recommendations, or information concerning the Property or the Site and any use of the Site by Tenant.

F. This Rental Agreement is in the vital and best interests of City, and the health, safety and welfare of its residents, and in accordance with the public purposes of applicable state and local laws and requirements.

NOW, THEREFORE, for and in consideration of the mutual promises, covenants, and conditions herein contained, Landlord and Tenant agree as follows:

ARTICLE 1. RENTAL AGREEMENT OF THE SITE.

1.1 Recitals. The foregoing Recitals constitute a substantive part of this Rental Agreement.

1.2 Rental of the Site. Landlord hereby rents the Site to Tenant and Tenant hereby rents the Site from the Landlord, on the terms and conditions set forth in this Rental Agreement.

1.3 Term. The Term shall be for the fifteen days in the month of March, 2025, commencing at 12:01 a.m. on March 11, 2025 (the "Commencement Date") and ending at midnight on March 25, 2025 (the "Expiration Date"). The Term shall not be extended beyond the Expiration Date.

1.4 Agreed Use. Tenant shall use the Site in compliance with, and subject to all terms and conditions imposed under, an approved City of Banning Temporary Use Permit(TUP). Tenant may use the Site for the purpose of operating a temporary, seasonal circus consisting of various acrobatic acts. The Circus will not have any animals and will operate for twelve (12) days in March 2025 (the "Agreed Use"). Tenant may not use any of Landlord's property that is adjacent to the Site, or any public street or right-of-way for any of the Agreed Use, with the only exception being the incidental access for delivery and shipping of equipment, materials and supplies to and from the Site and patron parking as permitted by TUP. Specifically, the staging, loading, and unloading of any trucks or similar vehicles used to deliver or ship equipment, materials and supplies to and from the Site associated with the Agreed Use shall only occur within the boundaries of the Site. Tenant's failure to comply with these limitations on the Agreed Use, or the terms or conditions of TUP, shall be considered a Default under this Rental Agreement.

1.5 Fencing. Prior to using the Site, Tenant shall install at its sole expense, perimeter fencing, gates, and screening, as required by TUP and City's Department of Community Development.

1.6 Size of Site. While the approximate square footage of the Site, as set forth in Recital B, may have been used for comparison purposes in the marketing of the Site or negotiating the terms of this Rental Agreement, the Rent stated in Section 2.1 of this Rental Agreement is not calculated based upon square footage and is not subject to adjustment should the actual size of the Site be determined to be different.

1.7 Condition. Landlord shall deliver the Site to Tenant "as is" on the Commencement Date, without representation or warranty, express or implied. Without limiting the foregoing disclaimer, Landlord does not warrant or represent and specifically disclaims any such representation or warranty with respect to the condition or suitability of the Site for the Agreed Use with respect to the following (as may apply): (a) the parking lot pavement, the improvement(s) that are appurtenant to the parking lot including, without limitation, curb, gutter, sidewalks, planter boxes or areas, and landscaping; (b) the presence or absence of Hazardous Substances; (c) compliance with the building codes, applicable laws, covenants or restrictions of record, regulations, and ordinances that were in effect at the time that the improvement(s) and building(s) were constructed or as of the Effective Date, or (d) compliance with the Americans with Disabilities Act ("ADA") or any similar laws.

1.8 Acknowledgements. Tenant acknowledges that: (a) it has been given an opportunity to inspect and measure the Site; (b) it has been advised by Landlord to satisfy itself with respect to the size and condition of the Site (including, but not limited to, environmental aspects, and compliance with applicable laws and the ADA), and its suitability for the Agreed Use; (c) Tenant has made such investigation as it deems necessary with reference to such matters and assumes all responsibility therefor as the same relate to its occupancy of the Site; (d) it is not relying on any representation as to the size of the Site made by Landlord; (e) the square footage of the Site was not material to Tenant's decision to Rental Agreement the Site and pay the Rent stated herein; and (f) neither Landlord, Landlord's agents, nor any Brokers have made any oral or written representations or warranties with respect to said matters other than as set forth in this Rental Agreement.

1.9 Tenant Compliance. Landlord shall not be required to tender possession of the Site to Tenant until Tenant complies with its obligation to pay the Rent as described in Section 2.2 and provide evidence of insurance (see Article 5). Pending delivery of such payments and evidence, Tenant shall be required to perform all of its obligations under this Rental Agreement from and after the

Commencement Date, notwithstanding Landlord's election to withhold possession pending receipt of such evidence of insurance.

ARTICLE 2. RENT.

2.1 Rent. The rent for the Site is Seven Hundred and fifty Dollars ($750.00) (the "Rent"). The Rent is applicable to the Term and is not tied to the actual number of days that Tenant occupies the Site. Therefore, in the event that Tenant delays its occupancy of the Site or vacates the Site prior to the Expiration Date, Tenant is not entitled to any Rent refund.

2.2 Payment. Without invoice or notice from Landlord of any kind, on or before March 5, 2025, Tenant shall cause the payment of the Rent applicable to the entire Term (i.e., Seven Hundred and Fifty Dollars [$750.00]) to be paid to Landlord in lawful money of the United States, without offset or deduction.

ARTICLE 3. USE.

3.1 Use. Tenant shall use and occupy the Site only for the Agreed Use and for no other purpose. Tenant shall not use or permit the use of the Site in a manner that is unlawful, creates damage, waste or a nuisance, or that disturbs occupants of, or causes damage to, neighboring properties. For the purposes of this Rental Agreement, "damage" does not include any modifications to the Property that are approved by Landlord and does not include any normal wear to the Property that may occur as a consequence of the Agreed Use. However, "damage" may include any modifications to the Property that are not approved by the Landlord.

3.2 Hazardous Substances.

(a) **Reportable Uses Require Consent**. The term "**Hazardous Substance**" as used in this Rental Agreement shall mean any product, substance, or waste whose presence, use, manufacture, disposal, transportation, or release, either by itself or in combination with other materials expected to be on the Site, is either: i) potentially injurious to the public health, safety, or welfare, the environment, or the Site; ii) regulated or monitored by any governmental authority; or iii) a basis for potential liability of Landlord to any governmental agency or third party under any applicable statute or common law theory. Hazardous Substances shall include, but not be limited to, hydrocarbons, petroleum, gasoline, and/or crude oil or any products, by-products or fractions thereof. Tenant shall not engage in any activity in or on the Site that constitutes a Reportable Use of Hazardous Substances without the express prior written consent of Landlord and timely compliance (at Tenant's expense) with all applicable laws. For purposes of this Section 3.2, "Reportable Use" shall mean: i) the installation or use of any above or below ground storage tank; ii) the generation, possession, storage, use, transportation, or disposal of a Hazardous Substance that requires a permit from, or with respect to which a report, notice, registration, or business plan is required to be filed with, any governmental authority; and/or iii) the presence at the Site of a Hazardous Substance with respect to which any applicable laws require that a notice be given to persons entering or occupying the Site or neighboring properties. Notwithstanding the foregoing, Tenant may use any ordinary and customary materials reasonably required to be used in the normal course of the Agreed Use, ordinary office supplies (copier toner, liquid paper, glue, etc.) and common household cleaning materials, so long as such use is in compliance with all applicable laws, is not a Reportable Use, and does not expose the Site or neighboring property to any meaningful risk of contamination or damage or expose Landlord to any liability therefor. In addition, Landlord may condition its consent to any Reportable Use upon

receiving such additional assurances as Landlord reasonably deems necessary to protect itself, the public, the Site and/or the environment against damage, contamination, injury, and/or liability, including, but not limited to, the installation (and removal on or before Rental Agreement expiration or termination) of protective modifications (such as concrete encasements).

(b) **Duty to Inform Landlord**. If Tenant knows, or has reasonable cause to believe, that a Hazardous Substance has come to be located in, on, under, or about the Site, other than as previously consented to by Landlord, Tenant shall immediately give written notice of such fact to Landlord, and provide Landlord with a copy of any report, notice, claim, or other documentation which it has concerning the presence of such Hazardous Substance.

(c) **Tenant Remediation**. Tenant shall not cause or permit any Hazardous Substance to be spilled or released in, on, under, or about the Site (including through the plumbing or sanitary sewer system) and shall promptly, at Tenant's expense, comply with all applicable laws and take all investigatory and/or remedial action reasonably recommended, whether or not formally ordered or required, for the cleanup of any contamination of, and for the maintenance, security and/or monitoring of the Site or neighboring properties, that was caused or materially contributed to by Tenant, or pertaining to or involving any Hazardous Substance brought onto the Site during the term of this Rental Agreement, by or for Tenant, or any third party.

(d) **Tenant Indemnification**. Tenant shall indemnify, defend, and hold Landlord, its agents, employees, lenders, and ground landlord, if any, harmless from and against any and all loss of rents and/or damages, liabilities, judgments, claims, expenses, penalties, and attorneys' and consultants' fees arising out of or involving any Hazardous Substance brought onto the Site by or for Tenant, or any third party (provided, however, that Tenant shall have no liability under this Rental Agreement with respect to underground migration of any Hazardous Substance under the Site from adjacent properties not caused or contributed to by Tenant). Tenant's obligations shall include, but not be limited to, the effects of any contamination or injury to person, property, or the environment created or suffered by Tenant, arising out of or involving any Hazardous Substance brought onto the Site by or for Tenant, or any third party, and the cost of investigation, removal, remediation, restoration, and/or abatement, and shall survive the expiration or termination of this Rental Agreement. **No termination, cancellation or release agreement entered into by Landlord and Tenant shall release Tenant from its obligations under this Rental Agreement with respect to Hazardous Substances, unless specifically so agreed by Landlord in writing at the time of such agreement**.

(e) **Investigations and Remediations**. Landlord shall retain the responsibility and pay for any investigations or remediation measures required by governmental entities having jurisdiction with respect to the existence of Hazardous Substances on the Site prior to Tenant's occupancy, unless such remediation measure is required as a result of the Agreed Use, in which event Tenant shall be responsible for such payment.

3.3 Tenant's Compliance with Applicable Laws and Requirements. With respect to ensuring that Tenant's on-going business operations (see Section 4.1) comply with applicable laws, Tenant shall, at Tenant's sole expense, fully, diligently, and in a timely manner, comply with all applicable laws and the requirements of any applicable fire insurance underwriter or rating bureau. Further, Tenant shall cooperate with Landlord's staff, engineers, and/or consultants regarding any recommendations that they may have that relate in any manner to the Site, without regard to whether said applicable laws are now in effect or become effective after the Commencement Date. Tenant shall, within ten (10) days after delivery of Landlord's written request, provide Landlord with copies

of all permits and other documents, and other information evidencing Tenant's compliance with any applicable laws specified by Landlord, and shall immediately upon receipt, notify Landlord in writing (with copies of any documents involved) of any threatened or actual claim, notice, citation, warning, complaint, or report pertaining to or involving the failure of Tenant or the Site to comply with any applicable laws. In addition, Tenant shall provide Landlord with copies of its business license, certificate of occupancy and/or any similar document within ten (10) days of the delivery of a written request therefor.

3.4 Inspection; Compliance. Landlord and consultants authorized by Landlord shall have the right to enter into Site at any time, in the case of an emergency, and otherwise at reasonable times after reasonable notice, for the purpose of inspecting and/or testing the condition of the Site and/or for verifying compliance by Tenant with this Rental Agreement. The cost of any such inspections shall be paid by Landlord, unless a violation of applicable laws, or a Hazardous Substance Condition (see Section 3.2) is found to exist or be imminent, or the inspection is requested or ordered by a governmental authority. In such case, Tenant shall upon request reimburse Landlord for the cost of such inspection, so long as such inspection is reasonably related to the violation or contamination. In addition, Tenant shall provide copies of all relevant material safety data sheets to Landlord within ten (10) days of the receipt of a written request therefor. Tenant acknowledges that any failure on its part to allow such inspections or testing will expose Landlord to risks and potentially cause Landlord to incur costs not contemplated by this Rental Agreement, the extent of which will be extremely difficult to ascertain. Accordingly, if the Tenant fails to authorize such inspections and/or testing within ten (10) days of written notice therefor, the Rent shall be automatically increased by an amount equal to ten percent (10%) of the Rent and the unpaid rent shall be due within ten (10) days. The Parties agree that such increase in Rent represents fair and reasonable compensation for the additional risk/costs that Landlord will incur by reason of Tenant's failure to authorize such inspection and/or testing. Such increase in Rent shall in no event constitute a waiver of Tenant's Default or Breach with respect to such failure nor prevent the exercise of any of the other rights and remedies granted hereunder.

ARTICLE 4. MAINTENANCE; REPAIRS

4.1 Tenant's Obligations.

(a) **In General**. Tenant shall, at Tenant's sole expense, keep the Site in good order, condition, and repair. Tenant, in keeping the Site in good order, condition, and repair, shall exercise and perform good maintenance practices, specifically including the procurement and maintenance of the service contracts required by Section 4.1(b) below. Tenant's obligations shall include restorations, replacements, or renewals when necessary to keep the Site and all improvements thereon or a part thereof in good order, condition, and state of repair. Tenant shall, during the term of this Rental Agreement, keep the exterior appearance of the perimeter fencing and the equipment, materials, and supplies required for the Agreed Use that are visible from a public right-of-way in a first-class condition including, without limitation, graffiti removal/abatement.

(b) **Service Contracts**. As applicable, Tenant shall, at Tenant's sole expense, procure and maintain contracts, with copies to Landlord, in customary form and substance for, and with contractors specializing and experienced in the maintenance of equipment located on the Site, including, without limitation, fencing.

(c) **Failure to Perform**. If Tenant fails to perform Tenant's obligations under this Section 4.1, Landlord may enter upon the Site after ten (10) days' prior written notice to Tenant (except

in the case of an emergency, in which case no notice shall be required), perform such obligations on Tenant's behalf, put the Site in good order, condition, and repair, and Tenant shall promptly pay to Landlord a sum equal to one hundred ten percent (110%) of the cost thereof.

4.2 Landlord's Obligations. It is intended by the Parties hereto that Landlord have no obligation, in any manner whatsoever, to repair and maintain the Site, or the equipment therein, all of which obligations are intended to be that of the Tenant. It is the intention of the Parties that the terms of this Rental Agreement govern the respective obligations of the Parties as to maintenance and repair of the Site.

4.3 Removal and Restoration.

(a) **Removal**. As of or prior to the Expiration Date, Tenant shall, at its sole expense, remove all of its property (i.e., equipment, materials, supplies, fencing, vehicles, etc.) from the Site. If Tenant fails to do so, then Landlord may retain or dispose of such property with no obligation or liability to Tenant.

(b) **Surrender; Restoration**. Tenant shall surrender the Site by the Expiration Date, or any earlier termination date, with all of its surfaces, including curb/gutter/sidewalk, thereof broom clean and free of debris, and in good condition and state of repair, except for any ordinary wear and tear. "Ordinary wear and tear" shall not include any damage or deterioration that would have been prevented by good maintenance practice. Tenant shall repair any damage occasioned by the delivery, storage and/or shipping of any equipment, materials, and/or supplies required for the Agreed Use. The failure by Tenant to timely vacate the Site pursuant to this Section 4.3(b) without the express written consent of Landlord shall constitute a holdover.

ARTICLE 5. INSURANCE; INDEMNITY.

5.1 Obligation to Maintain Insurance. During the Term, Tenant shall procure and maintain insurance against claims for injuries to persons or damages to property which may arise from or in connection with the Tenant's operation and use of the Site. The cost of all insurance required by the Rental Agreement shall be borne by the Tenant. The extent and coverage levels of the insurance at a minimum shall include the following:

(a) **Liability Insurance.** Tenant shall obtain and keep in force a Commercial General Liability policy of insurance protecting Tenant and Landlord as an additional insured against claims for bodily injury, personal injury, and property damage based upon or arising out of the ownership, use, occupancy, or maintenance of the Site and all areas appurtenant thereto. Such insurance shall be on an occurrence basis providing single limit coverage in an amount not less than One Million Dollars ($1,000,000) per occurrence with an annual aggregate of not less than Two Million Dollars ($2,000,000). Tenant shall add Landlord as an additional insured by means of an endorsement at least as broad as the Insurance Service Organization's "Additional Insured-Managers or Landlords of Property" Endorsement. The policy shall not contain any intra-insured exclusions as between insured persons or organizations and shall include coverage for liability assumed under this Rental Agreement as an "insured contract" for the performance of Tenant's indemnity obligations under this Rental Agreement. The limits of said insurance shall not, however, limit the liability of Tenant nor relieve Tenant of any obligation hereunder. Tenant shall provide an endorsement on its liability policy(ies) which provides that its insurance shall be primary to and not contributory with any similar insurance carried by Landlord, whose insurance shall be considered excess insurance only.

(b) **Auto Liability**. Tenant shall obtain and maintain automobile liability insurance with minimum combined single limit of Two Million Dollars ($2,000,000).

(c) **Workers' Compensation Insurance**. Tenant shall obtain and maintain Workers' Compensation Insurance with no less than One Million Dollars ($1,000,000) per accident for bodily injury or disease. Such policy shall include a 'Waiver of Subrogation' endorsement. Tenant shall provide Landlord with a copy of such endorsement along with the certificate of insurance or copy of the policy required by Section 5.5.

5.2 Insurance Policies. Insurance required herein shall be by companies maintaining during the policy term a "General Policyholders Rating" of at least A-, VII, as set forth in the most current issue of "Best's Insurance Guide," or such other rating as may be required by a Lender. Tenant shall not do or permit to be done anything which invalidates the required insurance policies. Tenant shall, prior to the Commencement Date, deliver to Landlord certified copies of policies of such insurance or certificates with copies of the required endorsements evidencing the existence and amounts of the required insurance. No such policy shall be cancelable or subject to modification except after thirty (30) days' prior written notice to Landlord. Tenant shall, at least ten (10) days prior to the expiration of such policies, furnish Landlord with evidence of renewals or "insurance binders" evidencing renewal thereof, or Landlord may increase the liability insurance coverage and charge the cost thereof to Tenant, which amount shall be payable by Tenant to Landlord upon demand. Such policies shall be for a term of at least one (1) year. If either Party shall fail to procure and maintain the insurance required to be carried by it, the other Party may, but shall not be required to, procure and maintain the same.

5.3 Waiver of Subrogation. To the extent permitted by law, Tenant hereby releases Landlord and its elected and appointed officials, employees, and volunteers, and others working on Landlord's behalf, from any and all liability or responsibility to Tenant or anyone claiming through or under Tenant by way of subrogation or otherwise, for any loss or damage to property caused by fire or any other casualty, even if such fire or other casualty shall have been caused by the fault or negligence of Landlord its elected or appointed officials, employees, or volunteers, or others working on Landlord's behalf. This provision shall be applicable and in full force and effect only with respect to loss of damage occurring during the time of Tenant's occupancy or use, and Tenant's policies of insurance shall contain a clause or endorsement to the effect that such release shall not adversely affect or impair such policies or prejudice the right of Tenant to recover thereunder. Tenant agrees that its policies will include such a clause or endorsement.

5.4 Indemnity. Except for Landlord's gross negligence or willful misconduct, Tenant agrees to indemnify, defend (upon request by Landlord), and save harmless Landlord, its elected and appointed officials, officers, agents, and employees from and against any liability, expense, including defense costs and legal fees, and claims for damages of any nature whatsoever, including, but not limited to, bodily injury, death, personal injury, or property damage arising from or connected with Tenant's operations, or its services, acts, and/or omissions under this Rental Agreement, including any workers' compensation suit, liability, or expense, arising from or connected with the services performed by or on behalf of Tenant by any person pursuant to this Rental Agreement.

5.5 Failure to Provide Insurance. Tenant acknowledges that any failure on its part to obtain or maintain the insurance required herein will expose Landlord to risks and potentially cause Landlord to incur costs not contemplated by this Rental Agreement, the extent of which will be extremely difficult to ascertain. Therefore, within ten (10) calendar days of the Effective Date, Tenant

shall provide Landlord evidence of the insurance required herein. Following this period, if there are any months or portions thereof for which Tenant must reconfirm such evidence of the insurance required herein, and Tenant, after a ten (10) day notice from Landlord to provide such evidence, has failed to provide evidence that it maintains the required insurance, then the Rent shall be automatically increased, without any further requirement for notice to Tenant, by an amount equal to ten percent (10%) of the Rent. The Parties agree that such increase in the Rent represents fair and reasonable compensation for the additional risk/costs that Landlord will incur by reason of Tenant's failure to maintain the required insurance. Such increase in the Rent shall in no event constitute a waiver of Tenant's Default or Breach with respect to the failure to maintain such insurance, prevent the exercise of any of the other rights and remedies granted under this Rental Agreement, nor relieve Tenant of its obligation to maintain the insurance specified in this Rental Agreement.

ARTICLE 6. UTILITIES AND SERVICES; POSSESSORY INTEREST TAXES.

6.1 Tenant shall pay for all water, gas, heat, light, power, telephone, trash disposal, and other utilities and services supplied to the Site, together with any taxes thereon. If any such services are not separately metered or billed to Tenant, Tenant shall pay a reasonable proportion, to be determined by Landlord, of all charges jointly metered or billed. There shall be no abatement of rent and Landlord shall not be liable in any respect whatsoever for the inadequacy, stoppage, interruption, or discontinuance of any utility or service due to riot, strike, labor dispute, breakdown, accident, repair, or other cause beyond Landlord's reasonable control or in reasonable cooperation with governmental requests or directions.

6.2 Tenant acknowledges that this Rental Agreement creates a possessory interest which is subject to property taxation, and Tenant agrees to pay all possessory interest taxes billed by the County Assessor to Tenant.

ARTICLE 7. ASSIGNMENT AND SUBLETTING.

7.1 No Assignment. Tenant shall not voluntarily or by operation of law assign, transfer, mortgage, or encumber or sublet all or any part of Tenant's interest in this Rental Agreement or in the Site.

ARTICLE 8. DEFAULT; BREACH; REMEDIES.

8.1 Default; Breach. A "Default" is defined as a failure by Tenant to comply with or perform any of the terms, covenants, conditions, or Rules and Regulations under this Rental Agreement. A "Breach" is defined as the occurrence of one or more of the following Defaults, and the failure of Tenant to cure such Default within any applicable grace period:

(a) The abandonment of the Site; or the vacating of the Site without providing a commercially reasonable level of security, or where the coverage of the property insurance described in Article 5 is jeopardized as a result thereof, or without providing reasonable assurances to minimize potential vandalism.

(b) The failure of Tenant to make any payment of the Rent required to be made by Tenant hereunder, whether to Landlord or to a third party, when due, to provide reasonable evidence of insurance or surety bond, or to fulfill any obligation under this Rental Agreement that endangers or threatens life or property, where such failure continues for a period of three (3) business days following

written notice to Tenant. THE ACCEPTANCE BY LANDLORD OF A PARTIAL PAYMENT OF RENT SHALL NOT CONSTITUTE A WAIVER OF ANY OF LANDLORD'S RIGHTS, INCLUDING LANDLORD'S RIGHT TO RECOVER POSSESSION OF THE SITE.

(c) The failure of Tenant to allow Landlord and/or its agents access to the Site or the commission of waste, act or acts constituting public or private nuisance, and/or an illegal activity on the Site by Tenant, where such actions continue for a period of three (3) business days following written notice to Tenant. If Tenant commits waste, a nuisance or an illegal activity a second time, then Landlord may elect to treat such conduct as a non-curable Breach rather than a Default.

(d) The failure by Tenant to provide: i) reasonable written evidence of compliance with applicable laws; ii) an unauthorized assignment or subletting; iii) an Estoppel Certificate or financial statements; iv) a requested subordination; v) any document requested pursuant to this Rental Agreement vi) material safety data sheets; or vii) any other documentation or information that Landlord may reasonably require of Tenant under the terms of this Rental Agreement, where any such failure continues for a period of ten (10) days following written notice to Tenant.

(e) A Default by Tenant as to the terms, covenants, conditions or provisions of this Rental Agreement that is not otherwise covered by subsections (a), (b), (c) or (d) above, where such Default continues for a period of ten (10) days after delivery by Landlord of written notice of the default; provided; however, that if the nature of Tenant's Default is such that more than ten (10) days are reasonably required for its cure, then it shall not be deemed to be a Breach if Tenant commences such cure within said ten (10) day period and thereafter diligently prosecutes such cure to completion prior to the Expiration Date.

(f) The occurrence of any of the following events: i) the making of any general arrangement or assignment for the benefit of creditors; ii) becoming a "debtor" as defined in 11 U.S.C. § 101 or any successor statute thereto (unless, in the case of a petition filed against Tenant, the same is dismissed within sixty (60) days); iii) the appointment of a trustee or receiver to take possession of substantially all of Tenant's assets located at the Site or of Tenant's interest in this Rental Agreement, where possession is not restored to Tenant within thirty (30) days; or (iv) the attachment, execution, or other judicial seizure of substantially all of Tenant's assets located at the Site or of Tenant's interest in this Rental Agreement, where such seizure is not discharged within thirty (30) days; provided, however, in the event that any provision of this subparagraph is contrary to any applicable law, such provision shall be of no force or effect, and not affect the validity of the remaining provisions.

(g) The discovery that any financial statement of Tenant given to Landlord was materially false.

8.2 Remedies. If Tenant fails to perform any of its affirmative duties or obligations, within ten (10) days after written notice (or in case of an emergency, without notice), Landlord may, at its option, perform such duty or obligation on Tenant's behalf, including, but not limited to, the obtaining of reasonably required bonds, insurance policies, or governmental licenses, permits, or approvals. Tenant shall pay to Landlord an amount equal to the actual costs and expenses incurred by Landlord in such performance upon receipt of an invoice therefor. In the event of a Breach, Landlord may, with or without further notice or demand, and without limiting Landlord in the exercise of any right or remedy that Landlord may have by reason of such Breach:

(a) Terminate Tenant's right to possession of the Site by any lawful means, in which case this Rental Agreement shall terminate, and Tenant shall immediately surrender possession to Landlord;

(b) Continue the Rental Agreement and Tenant's right to possession and recover the Rent as it becomes due; or

(c) Pursue any other remedy now or hereafter available under the laws of California.

The expiration or earlier termination of this Rental Agreement and/or the termination of Tenant's right to possession shall not relieve Tenant from liability under any defense or indemnity provisions of this Rental Agreement as to matters occurring or accruing during the term hereof or by reason of Tenant's occupancy of the Site.

8.3 Late Charges. Tenant hereby acknowledges that late payment by Tenant of the Rent will cause Landlord to incur costs not contemplated by this Rental Agreement, the exact amount of which will be extremely difficult to ascertain. Such costs include, but are not limited to, processing and accounting charges, and late charges that may be imposed upon Landlord by any Lender. Accordingly, if any Rent shall not be received by Landlord within five (5) days after such amount shall be due, then, without any requirement for notice to Tenant, Tenant shall immediately pay to Landlord a one-time late charge of Five Hundred Dollars ($500). The Parties hereby agree that such late charge represents a fair and reasonable estimate of the costs Landlord will incur by reason of such late payment. Acceptance of such late charge by Landlord shall in no event constitute a waiver of Tenant's Default or Breach with respect to such overdue amount, nor prevent the exercise of any of the other rights and remedies granted under this Rental Agreement.

8.4 Interest. Any monetary payment due Landlord hereunder, other than late charges, not received by Landlord, when due shall bear interest from the date it was due. The interest (the "Interest") charged shall be computed daily at an annualized rate of three percent (3%). The Interest is payable in addition to the potential late charge provided for in Section 8.3.

8.5 Breach by Landlord. Landlord shall not be deemed in breach of this Rental Agreement unless Landlord fails within a reasonable time to perform an obligation required to be performed by Landlord. For purposes of this Section, a reasonable time shall in no event be less than thirty (30) days after receipt by Landlord, and any Lender whose name and address shall have been furnished Tenant in writing for such purpose, of written notice specifying wherein such obligation of Landlord has not been performed; provided, however, that if the nature of Landlord's obligation is such that more than thirty (30) days are reasonably required for its performance, then Landlord shall not be in breach if performance is commenced within such thirty (30) day period and thereafter diligently pursued to completion.

ARTICLE 9. SEVERABILITY.

The invalidity of any provision of this Rental Agreement, as determined by a court of competent jurisdiction, shall in no way affect the validity of any other provision of this Rental Agreement.

ARTICLE 10. DAYS.

Unless otherwise specifically indicated to the contrary, the word "days" as used in this Rental Agreement shall mean and refer to calendar days.

ARTICLE 11. TIME OF ESSENCE.

Time is of the essence with respect to the performance of all obligations to be performed or observed by the Parties under this Rental Agreement.

ARTICLE 12. NO PRIOR OR OTHER AGREEMENTS.

This Rental Agreement contains all agreements between the Parties with respect to any matter mentioned herein, and no other prior or contemporaneous agreement or understanding shall be effective.

ARTICLE 13. NOTICES.

13.1 Notice Requirements. Any notice, demand, request, consent, approval, or communication that either Party desires or is required to give to the other Party or any other person shall be in writing and either served by certified mail or by reputable overnight delivery service (and the phone numbers and email addresses provided below are for convenience, and not for purposes of legal notice). Any notice, demand, request, consent, approval, or communication that either Party desires or is required to give to the other Party shall be addressed to the other party at the address set forth below. Either Party may change its address by notifying the other Party of the change of address. Notice shall be deemed communicated two (2) business working days from the time of mailing or delivery to the applicable delivery service for next business day delivery.

Tel.: (323) 382-8541
Email: chamita296@yahoo.com

ARTICLE 14. WAIVERS.

14.1 No waiver by a Party of the Default or Breach of any term, covenant or condition hereof by the other Party, shall be deemed a waiver of any other term, covenant or condition hereof, or of any subsequent Default or Breach of the same or of any other term, covenant or condition hereof.

Landlord's consent to, or approval of, any act shall not be deemed to render unnecessary the obtaining of Landlord's consent to, or approval of, any subsequent or similar act by Tenant, or be construed as the basis of an estoppel to enforce the provision or provisions of this Rental Agreement requiring such consent.

14.2 The acceptance of the Rent by Landlord shall not be a waiver of any Default or Breach by Tenant. Any payment by Tenant may be accepted by Landlord on account of moneys or damages due Landlord, notwithstanding any qualifying statements or conditions made by Tenant in connection therewith, which such statements and/or conditions shall be of no force or effect whatsoever unless specifically agreed to in writing by Landlord at or before the time of deposit of such payment.

14.3 THE PARTIES AGREE THAT THE TERMS OF THIS RENTAL AGREEMENT SHALL GOVERN WITH REGARD TO ALL MATTERS RELATED THERETO AND HEREBY WAIVE THE PROVISIONS OF ANY PRESENT OR FUTURE STATUTE TO THE EXTENT THAT SUCH STATUTE IS INCONSISTENT WITH THIS RENTAL AGREEMENT.

ARTICLE 15. NO RIGHT TO HOLDOVER.

Tenant has no right to retain possession of the Site or any part thereof beyond the expiration or termination of this Rental Agreement. Nothing contained in this Rental Agreement shall be construed as consent by Landlord to any holding over by Tenant.

ARTICLE 16. CUMULATIVE REMEDIES.

No remedy or election under this Agreement shall be deemed exclusive but shall, wherever possible, be cumulative with all other remedies at law or in equity.

ARTICLE 17. COVENANTS AND CONDITIONS; CONSTRUCTION OF AGREEMENT.

All provisions of this Rental Agreement to be observed or performed by the Parties hereto are both covenants and conditions. In construing this Rental Agreement, all headings and titles are for the convenience of the Parties only and shall not be considered a part of this Rental Agreement. Whenever required by the context, the singular shall include the plural and vice versa. This Rental Agreement shall not be construed as if prepared by one of the Parties, but rather according to its fair meaning as a whole, as if both Parties had prepared it.

ARTICLE 18. ATTORNEYS' FEES.

If any Party brings an action or proceeding involving the Site whether founded in tort, contract, or equity, or to declare rights under this Rental Agreement, the Prevailing Party (as hereafter defined) in any such proceeding, action, or appeal thereon, shall be entitled to reasonable attorneys' fees. Such fees may be awarded in the same suit or recovered in a separate suit, whether or not such action or proceeding is pursued to decision or judgment. The term "Prevailing Party" shall include, without limitation, a Party who substantially obtains or defeats the relief sought, as the case may be, whether by compromise, settlement, judgment, or the abandonment by the other Party of its claim or defense. The attorneys' fees award shall not be computed in accordance with any court fee schedule, but shall be such as to fully reimburse all attorneys' fees reasonably incurred. In addition, Landlord shall be entitled to attorneys' fees, costs, and expenses incurred in the preparation and service of notices of Default and consultations in connection therewith, whether or not a legal action is subsequently

commenced in connection with such Default or resulting Breach (Two Hundred Dollars ($200) is a reasonable minimum per occurrence for such services and consultation).

ARTICLE 19. LANDLORD'S ACCESS; SHOWING SITE; REPAIRS.

Landlord and Landlord's agents shall have the right to enter the Site at any time, in the case of an emergency, and otherwise at reasonable times after reasonable prior notice for the purpose of showing the same to prospective purchasers, lenders, or tenants, as long as there is no material adverse effect on Tenant's use of the Site. All such activities shall be without abatement of rent or liability to Tenant.

ARTICLE 20. CONSENTS.

All requests for consent shall be in writing. Except as otherwise provided herein, wherever in this Rental Agreement the consent of a Party is required to an act by or for the other Party, such consent shall not be unreasonably withheld or delayed. Landlord's consent to any act, assignment, or subletting shall not constitute an acknowledgment that no Default or Breach by Tenant of this Rental Agreement exists, nor shall such consent be deemed a waiver of any then-existing Default or Breach, except as may be otherwise specifically stated in writing by Landlord at the time of such consent. The failure to specify herein any particular condition to Landlord's consent shall not preclude the imposition by Landlord at the time of consent of such further or other conditions as are then reasonable with reference to the particular matter for which consent is being given. In the event that either Party disagrees with any determination made by the other hereunder and reasonably requests the reasons for such determination, the determining Party shall furnish its reasons in writing and in reasonable detail within ten (10) days following such request.

ARTICLE 21. QUIET POSSESSION.

Subject to payment by Tenant of the Rent and performance of all of the covenants, conditions, and provisions on Tenant's part to be observed and performed under this Rental Agreement, Tenant shall have quiet possession and quiet enjoyment of the Site during the Term.

ARTICLE 22. SECURITY MEASURES.

Tenant hereby acknowledges that the Rent payable to Landlord hereunder does not include the cost of guard service or other security measures, and that Landlord shall have no obligation whatsoever to provide same. Tenant assumes all responsibility for the protection of the Site, Tenant, its agents and invitees and their property from the acts of third parties.

ARTICLE 23. MISCELLANEOUS

(a) **Severability**. Each and every section of this Rental Agreement shall be construed as a separate and independent covenants and agreements. If any term or provision of this Rental Agreement or the application thereof to certain circumstances shall be declared invalid or unenforceable, the remainder of this Rental Agreement, or the application of such term or provision to circumstances other than those to which it is declared invalid or unenforceable, shall not be affected thereby, and each term and provision of this Rental Agreement shall be valid and enforceable to the fullest extent permitted by law.

(b) **Entire Agreement**. This Rental Agreement constitutes the entire agreement between the Parties. This Rental Agreement supersedes all prior negotiation, discussions, and

agreements between the Parties concerning the subject matters covered herein. The Parties intend this Rental Agreement to be the final expression of their agreement with respect to the subjects covered herein and a complete and exclusive statement of such terms.

(c) **Amendment or Modification**. This Rental Agreement may only be modified or amended by written instrument duly approved and executed by each of the Parties hereto. Any such modification or amendment shall be valid, binding, and legally enforceable only if in written form and executed by each of the Parties hereto, following all necessary approvals and authorizations for such execution.

(d) **Governing Law; Choice of Venue**. This Rental Agreement shall be governed by the laws of the State of California. Any legal action arising from or related to this Rental Agreement shall be brought in the Superior Court of the State of California in and for the County of Riverside.

(e) **Non-Waiver**. Failure of either Party to enforce any provision of this Rental Agreement shall not constitute a waiver of the right to compel enforcement of the same provision or any remaining provisions of this Rental Agreement.

(f) **Representations of Persons Executing Agreement**. The persons executing this Rental Agreement warrant that they are duly authorized to execute this Rental Agreement on behalf of and bind the Parties each of which purport to represent.

(g) **Execution in Counterparts**. This Rental Agreement may be executed in one (1) or more counterparts, each of which will constitute an original.

(i) **Conflict**. Any conflict between the printed provisions of this Rental Agreement and the typewritten or handwritten provisions shall be controlled by the typewritten or handwritten provisions.

(j) **Offer**. Preparation of this Rental Agreement by either Party or their agent and submission of same to the other Party shall not be deemed an offer to Rental Agreement to the other Party. This Rental Agreement is not intended to be binding until executed and delivered by all Parties hereto.

(k) **No Relocation Benefits; No Payments for Loss of Goodwill; Waiver**. The Parties desire to confirm that Tenant will begin the tenancy and rent the Site after the date City acquired the Site and that Tenant's occupancy of the Site is, will be, and shall remain as a "post-acquisition" occupant pursuant to applicable laws and regulations, including without limitation, the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 42 U.S.C. 4601–4655, and the implementing regulations thereto set forth in 49 CFR Part 24, (ii) the California Relocation Assistance Act, Government Code Section 7260, *et seq.* and the implementing regulations thereto set forth in Title 25, Section 6000, *et seq.* of the California Code of Regulations, and (iii) any other benefits, or compensation for moving and for property interests (including, without limitation, goodwill and furnishings, fixtures and equipment, and moving expenses) (together, "Relocation Law"). Tenant agrees and acknowledges that, without regard to the time or circumstances associated with the cessation of the Term or the use of the Site by Tenant, Tenant shall have no right to relocation assistance or benefits arising from the dispossession of the Tenant or such person or persons regardless of the circumstances thereof (including, without limitation, with respect to any improvements made to the Site) pursuant to the relocation law or other review. Tenant waives any rights to relocation benefits

and/or relocation advisory assistance in connection with the use of the Site or the cessation of use of the Site. The provisions of this Section are a material part of this Rental Agreement and, but for such provisions, Landlord would not have entered into this Rental Agreement. Tenant further agrees that, without regard to whether the possession of Tenant under this Rental Agreement is terminated at any time hereunder, Tenant shall not be entitled to receive any compensation for loss of goodwill; Tenant waives any rights to such remuneration.

LANDLORD AND TENANT HAVE CAREFULLY READ AND REVIEWED THIS RENTAL AGREEMENT AND EACH TERM AND PROVISION CONTAINED HEREIN, AND BY THE EXECUTION OF THIS RENTAL AGREEMENT SHOW THEIR INFORMED AND VOLUNTARY CONSENT THERETO. THE PARTIES HEREBY AGREE THAT, AT THE TIME THIS RENTAL AGREEMENT IS EXECUTED, THE TERMS OF THIS RENTAL AGREEMENT ARE COMMERCIALLY REASONABLE AND EFFECTUATE THE INTENT AND PURPOSE OF LANDLORD AND TENANT WITH RESPECT TO THE SITE.

[Execution on following page]

CITY OF BANNING
STAFF REPORT

TO:	**CITY COUNCIL**
FROM:	**Robert Fisher, Acting City Manager**
PREPARED BY:	**Nate Smith, Deputy Director of Public Works/City Engineer** **Art Vela, Director of Public Works**
MEETING DATE:	**February 25, 2025**
SUBJECT:	**Consideration of Resolution 2025-27, Approving Final Tract Maps 37389-4, 37389-6, and 37389 and Release the Maps for Recordation; Authorize Staff to Sign the Subdivision Improvement Agreements and Final Tract Maps; Accept Faithful Performance and Labor Bonds for Public Improvements**

RECOMMENDATION:

Adopt Resolution 2025-27.

BACKGROUND:

Tentative Tract Map (TTM) No. 37389 was approved by City Council on June 22, 2021 as Resolution 2021-59. The proposed map implements the Atwell Specific Plan (also known as the Butterfield Specific Plan; "Specific Plan") originally approved by the City Council in March of 2012, with minor modifications approved in 2017 and provides for the development as allowed by the Specific Plan.

The applicant has processed the final 3 Final Maps for portions of the approved Tentative Tract Map, as permitted by the Subdivision Map Act. The first four final maps (FM 37389-1, FM 37389-2, FM 37389-3, & FM 37388-5 were approved by City Council on September 13, 2022 with Resolution 2022-122. The final three maps are ready for approval. Final Tract Map 37389-4 subdivides Planning Area 12 with 79 residential lots and 8 street and open space lots. Final Map 37389-6 subdivides Planning Area 9A with 84 residential lots and 8 street and open space lots. Final Map 37389 subdivides Planning Area 13 with 85 residential lots and 9 street and open space lots. All three maps are consistent with the approved Tentative Tract Map and Conditions of Approval.

Prior to bringing these maps to City Council for recordation, Tri-Pointe Homes was required to obtain an Streambed Alteration Agreement from the California Department of Fish and Wildlife (CDFW) for proposed changes and impacts to the existing Smith Creek in the area to be subdivided. These agreements have been obtained and provided to the City as required in the Conditions of Approval. Further, as these maps impact areas identified as a Zone A Floodplain by the Federal Emergency Management Agency (FEMA), the applicant was required to show that storm water flows can be mitigated to not cause flooding within the project or downstream. This is achieved by the construction of a large interim storm water detention basin north of the Southern California Edison powerline easement to reduce peak storm water flow through the project site. This was demonstrated with the preparation of a Conditional Letter of Map Approval (CLOMR) prepared and processed by the City of Banning and FEMA for the entirety of the project. The proposed interim basin was checked for consistency with the project CLOMR. Tri-Pointe Homes is continuing to work with the Riverside County Flood Control District (RCFCD), CDFW, and the Regional Water Quality Control Board (RWQCB) on the final design for the

Smith Creek Detention Facility that would be the replacement for the interim basin and maintained by RCFCD.

The applicant has been working with the church on Wilson Street regarding the impacts to their property due to the channelization of Smith Creek and residential lots to the north of the church property. A separate and future action regarding that parcel will be brought to Council for action. That action will include some transference of property between the entities, that have been agreed to by both parties. Those documents are currently in technical review with the Engineering Division.

When these maps are recorded, the subdivision of Atwell Phase 2A and Tentative Tract Map 37389 will be complete.

JUSTIFICATION:

Final Maps 37389-4, 37389-6, and 37389 were checked by the City's consulting surveyor and were found to be technically correct and conform to the requirements of the Subdivision Map Act. All Conditions of Approval required to be met prior to the recording have been met. The City Engineer has verified that the final maps are in substantial conformance with the approved TTM 37389.

FISCAL IMPACT:

There is no direct fiscal impact based on the approval of final maps. However, the recordation of the maps allows for the development of the project which will increase the assessed value of the properties resulting in an increase in property tax revenue. Additionally, the project will generate development impact fee revenues. The City's cost for processing the project will be offset by processing fees.

ALTERNATIVES:

Do not adopt Resolution 2025-27 and provide staff with additional direction.

BUDGETED?:

No

CONTRACT/AGREEMENT:

No

RESOLUTION 2025-27

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BANNING, CALIFORNIA, APPROVING FINAL TRACT MAPS NOS. 37389-4, 37389-6, AND 37389; AUTHORIZING STAFF TO SIGN THE FINAL TRACT MAPS AND SUBDIVISION IMPROVEMENT AGREEMENTS; RELEASING THE FINAL MAPS FOR RECORDATION; AND ACCEPTING THE PERFORMANCE AND LABOR AND MATERIAL BONDS FOR PUBLIC IMPROVEMENTS

WHEREAS, Tentative Tract Map (TTM) No. 37388 was approved by City Council on January 10, 2023. The proposed map implements the Atwell Specific Plan (also known as the Butterfield Specific Plan; "Specific Plan") originally approved by the City Council in March of 2012, with minor modifications approved in 2017 and provides for the development as allowed by the Specific Plan; and

WHEREAS, Final Tract Map (TM) No. 37389-4, 37389-6, and 37389 will subdivide approximately 44.43 acres of vacant land into 248 numbered lots and 25 lettered lots for street and public utility and public park purposes; and is located south of Meadowline Way and west of Highland Home Road within the Specific Plan area; and

WHEREAS, the property owner has signed a Subdivision Agreement and has submitted bonds to assure that the required improvements including street, sewer, water, and storm drain improvements are constructed; and

WHEREAS, the TM 37389-4, 37389-6, and 37389 have been deemed technically correct and that they conform to the requirements of the Subdivision Map Act and the City Engineer has verified that TM 37389-4, TM 37389-6, and TM 37389 are in substantial conformance with the approved TTM 37389.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Banning as follows:

SECTION 1. The City Council approves TM 37389-4, TM 37389-6, and TM 37389, copies of which is hereby attached as Exhibit "A", Exhibit "C", and Exhibit "E" and made part of this Resolution.

SECTION 2. The City Council approves the execution of the Subdivision Improvement Agreement to be signed by the Mayor which is hereby attached as Exhibit "B", Exhibit "D" and Exhibit "F" and made part of this resolution.

SECTION 3. The City Council accepts the performance and labor and material bonds and authorize staff to sign the final maps

SECTION 4. The City Council directs the Administrative City Clerk to transmit TM 37389-4, TM 37389-6, and TM 37389 to the County Recorder of the County of Riverside for recordation.

SECTION 5. The City Clerk shall certify to the adoption of this resolution and shall cause a certified resolution to be filed in the book of original resolutions.

PASSED, APPROVED AND ADOPTED this 25th day of February, 2025.

Sheri Flynn, Mayor
City of Banning

SUBDIVISION IMPROVEMENT AGREEMENT

THIS SUBDIVISION IMPROVEMENT AGREEMENT ("Agreement") is made and entered into by and between the City of Banning, a municipal corporation ("City"), and the Subdivider whose name and address is set forth above in the Subdivision Reference Data.

RECITALS

A. Subdivider has presented to the City for approval and recordation a Final Map, identified above in the Subdivision Reference Data, of a proposed subdivision pursuant to the Subdivision Map Act of the State of California and the City's ordinances and regulations as such ordinances and regulations are vested under the development agreement recorded in the official records of the County of Riverside on July 17, 2012 as Document No. 2012-0332888 ("Development Agreement") relating to the filing, approval and recordation of subdivision maps (collectively referred to herein as the "Subdivision Laws").

B. A tentative map of the Subdivision was previously approved by City, subject to the Subdivision Laws and to the City's standard requirements as vested under the Development Agreement and conditions of approval contained in the City Council's Resolution of Approval, a copy of which is on file in the Office of the City Clerk and which is incorporated herein by this reference.

C. The Subdivision Laws establish, as a condition precedent to the approval of a Final Map, that the Subdivider comply with the City Council's Resolution of Approval and either (i) complete, in compliance with applicable City standards, all of the improvements and land development work required by the Subdivision Laws and the City Council's Resolution of Approval; or (ii) enter into a secured agreement with the City to complete the improvements and land development work within a period of time specified by the City.

D. In consideration of approval of the Final Map for the Subdivision by the City Council, Subdivider desires to enter into this Agreement whereby Subdivider promises to install and complete, at its sole expense, except as otherwise provided in a credit/reimbursement agreement as provided for in the Development Agreement, all public improvement work required by the City as set forth on the Improvement Plans (as defined below) for the proposed Subdivision. Subdivider has secured this Agreement by improvement security required by the Subdivision Laws and approved by the City. In any conflict between the terms in this Agreement and the Development Agreement, the Development Agreement shall be the controlling document.

E. Improvement Plans, and related specifications, numbered as designated above in the Subdivision Reference Data, for the construction, installation and completion of the Improvements identified in Schedule A hereto, have been prepared by the Subdivider, approved by the City Engineer, and are on file in the office of the City Engineer. Said Improvement Plans, and related specifications, subsequently modified by the mutual written agreement of the parties, are hereby referred to as the "Improvement Plans" and are incorporated herein by this reference.

Any improvement to be constructed pursuant to the Improvement Plan is hereby referred to individually as an "**Improvement**" and collectively as the "**Improvements**".

NOW, THEREFORE, in consideration of the approval and recordation by the City Council of the Final Map of the Subdivision, Subdivider and City agree as follows:

1. SUBDIVIDER'S OBLIGATION TO CONSTRUCT IMPROVEMENTS

A. Subdivider shall, at its sole expense, unless otherwise provided in a credit/reimbursement agreement as provided for in the Development Agreement, and in compliance with the provisions of the Subdivision Laws, the Improvement Plans, conditions of approval of the Tentative Map, and all applicable City standards and fees, and in a good and workmanlike fashion, furnish, construct, install and guarantee (as set forth in Section 3) the Improvements, Grading, and Monumentation described on the tentative map and in the City Council's Resolution of Approval relating thereto (collectively, the "Improvements").

B. To the extent necessary to construct the Improvements, as determined by the City Engineer, the Subdivider shall acquire and dedicate, or pay the reasonable, documented cost of acquisition by City of, all rights-of-way, easements and other interests in real property for the construction or installation of the Improvements, free and clear of all liens and encumbrances. If the Subdivider is unable to acquire such rights-of-way, easements and other interests in real property by negotiation, then Subdivider shall, within 120 days of Final Map approval, enter into a condemnation agreement with City pursuant to Government Code Section 66462.5, by which the City will commence the process for the acquisition of the rights-of-way, easements or other real property.

C. Subject to any time extensions granted in accordance with Section 4, Subdivider shall complete all Improvements within its respective "Completion Period" specified in the Subdivision Reference Data; provided, however, that if the City Engineer reasonably determines in good faith that accelerated construction of the Improvements is essential in order to protect the public health, welfare and safety, the City Engineer shall give Subdivider not less than fifteen (15) business days' prior written notice to commence or accelerate installation and construction of such Improvements, or any portion thereof. The notice shall be in writing, and shall describe the work to be done by Subdivider, the time within which the work will commence, the period within which the work will be completed and identify the reasons that such early commencement is essential in order to protect the public health, welfare and safety. All or any portions of said Improvements may be required to be constructed or completed at a specified time, providing the foregoing criteria is met. If the Subdivider objects to the commencement or acceleration of the Improvements as specified by the City Engineer, Subdivider may appeal the decision of the City Engineer to the City Council. Any such appeal shall be filed with the City Clerk within 10 days after receipt by Subdivider of the written notice from the City Engineer.

D. If the Improvements to be constructed by Subdivider include monumentation, such monumentation shall be installed not later than thirty (30) days after the City's acceptance of all other Improvements pursuant to Section 2. As used herein,

"monumentation" shall mean the setting of survey monuments and tie points in accordance with the Subdivision Laws, and the delivery to the City Engineer of tie notes for said points.

E. Subdivider shall , at its sole expense, unless otherwise provided in a credit/reimbursement agreement as provided for in the Development Agreement, replace or repair all public improvements, public utility facilities, and surveying or subdivision monuments which are destroyed or damaged as a result of any work performed by Subdivider under this Agreement during or after the Completion Period. Any such replacement or repair shall be subject to the approval of the City Engineer.

F. In addition to, and separate from, the indemnity obligations contained in Section 9 of this Agreement, and without limiting the City's remedies under general construction defect law, Subdivider shall be responsible for the care, repair and maintenance of the applicable portion of the Improvements until the latter of the following time periods: (i) the Improvements or applicable portion thereof is accepted in writing by the City; or (ii) the expiration of the required one-year guarantee and warranty period as specified herein; or (iii) the expiration of any applicable period of time requiring the care, repair and maintenance of the applicable Improvement specified in the Development Agreement (not including the term of any Development Agreement). Neither City, nor its officers, agents and employees, shall have any liability for any accident, loss or damage to the Improvements and that may result from the construction of the Improvements prior to their completion and written acceptance by the City

G. In addition to, and separate from: (1) the indemnity obligations contained in Section 7 of this Agreement, (2) the care, repair and maintenance provisions under paragraph E of this Section 1 of this Agreement; and (3) the warranty and guarantee provisions of Section 3 of this Agreement, Subdivider shall repair and correct, or be liable to the City for any cost to repair and correct, any defect in the construction of the Improvements that is identified by City within in accordance with general construction defect law ten (10) years after City's acceptance of the Improvement, provided the City provides written notice to Subdivider of the existence of the defect within that the time period under law, and the defect is caused directly or indirectly by the design, construction, functionality, installation, assembly or workmanship of Subdivider. Nothing contained in this paragraph is intended to limit or otherwise waive any right or cause of action under applicable construction defect law that City may assert against Subdivider.

H. Subdivider shall, at its sole expense, unless otherwise provided in a credit/reimbursement agreement as provided for in the Development Agreement, obtain all necessary permits and licenses for the construction and installation of the Improvements, give all necessary notices, and pay all applicable fees required by City ordinance or resolution and all taxes required by law.

I. Not less than seven (7) days prior to commencement of work on the Improvements, Subdivider shall give written notice to the City Engineer of the date fixed for such commencement of work in order that the City Engineer shall have adequate time to schedule all necessary inspections.

J. SUBDIVIDER shall pay all applicable City fees and costs stipulated in the latest fee resolution as adopted by the City Council from time to time as required for the development of the SUBDIVISION including but not limited to the following:

1. Building Permit Fees --- to be paid at the time of building permit issuance;

2. Final Map Plan Check Fees --- to be paid at time of submittal of final map for plan check and resubmittal of revised final map for plan check;

3. Final Map Moratorium Fees --- to be paid from cash deposit established at time of filing final map;

4. Plan Check and Review Fees --- to be paid from cash deposit established at time of filing improvement plans for plan check;

5. Encroachment Permit Fees --- to be paid at time of application for encroachment permit;

6. Inspection Fees --- to be paid from cash deposit established at time of construction permit issuance; and

7. Grading Permit Fee --- to be paid from cash deposit established at time of grading permit issuance.

K. Subdivider shall provide City with final Record Drawings of all plans developed for the Subdivision, showing all changes and as built conditions as specified in the Tentative Tract Map Conditions of Approval, and shall provide electronic image files of those final Record Drawings consistent with electronic image file size and type specifications of the City prior to the acceptance of improvements and release of bonds or other security.

2. INSPECTION OF WORK AND FINAL ACCEPTANCE

A. Subdivider shall at all times maintain proper facilities and safe access for inspection of the Improvements by the City Engineer and other City personnel and inspection consultants.

B. Upon completion of the work on all or any category of the Improvements, the Subdivider may request a final inspection by the City Engineer. Within forty-five (45) days of receipt of the written letter request, the City Engineer shall inspect the Improvements and provide written notice to Subdivider of the list of items which have been found to be incomplete and the list of items which have been found to be complete. If the City Engineer determines that all or any specified category of the Improvements have been completed in accordance with this Agreement and in compliance with the Improvement Plans and all applicable City standards, then the City Engineer shall acknowledge that determination in a report to the City Council. If the Improvements that are completed are to be dedicated to or owned by the City (Improvements within City right of way and property for public use), the City Engineer's determination shall be

submitted to the City Council for final acceptance by the City, unless such power to accept has been delegated by the City Council to the City Engineer or some other officer of the City, in which case the final acceptance shall be subject to the approval of that specified official. If the Improvements that are completed are to be dedicated to or owned by a public entity other than the City, the Subdivider's written request shall be submitted to the applicable public entity or other owner, for final acceptance. Subdivider shall bear all costs of inspection and determination of completeness in accordance with City's formally adopted and applicable fees and rates.

C. Acceptance of all or any specified category of the Improvements by the City Council shall be made upon recommendation and certification of the City Engineer following inspection of said Improvements pursuant to subparagraph B above. The City Council shall act upon the City Engineer's recommendation that such public Improvements have been completed unless such power to accept has been delegated by the City Council to the City Engineer or some other officer of the City, in which case the final acceptance shall be subject to the approval of that specified official. Acceptance by the City or by the governing body of the entity that is to accept dedication or ownership of the public improvements shall not constitute a waiver by the City or such other public entity of any defects in the public Improvements.

3. GUARANTEE AND WARRANTY OF THE IMPROVEMENTS

A. If, within a period of one year following acceptance by the City of the applicable Improvements specified in Schedule A, any Improvements or part of any Improvements specified in Section A furnished, installed or constructed by the Subdivider, or any of the work performed under this Agreement by Subdivider, fails to comply with any requirements of this Agreement, or the Subdivision Laws, or the Improvement Plans and related specifications, the Subdivider shall, without delay and without cost to the City, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Improvements. Subdivider's obligations hereunder shall include the repair, replacement or reconstruction of all irrigation systems and all trees, shrubs, ground cover and landscaping for such one year.

B. Should the Subdivider fail or refuse to act promptly or in accordance with subparagraph A above, or should the exigencies of the situation require repair, replacement, or reconstruction to be undertaken before the Subdivider can be notified and can perform the necessary work, then the City may, in its discretion, make the necessary repairs or replacements or perform the necessary reconstruction and draw upon the Subdivider's improvement security to reimburse itself for the costs incurred. If the Subdivider's improvement security does not cover the total cost of such repair, replacement, or reconstruction, the Subdivider shall reimburse the City for any excess costs incurred.

C. The security furnished for the faithful performance of the Subdivider's obligation to construct and install the Improvements described herein shall include the Subdivider's liability and obligation hereunder to provide the one-year guarantee and warranty of the Improvements.

4. TIME EXTENSIONS

A. Upon a showing by the Subdivider of good cause therefor, the duration of the Completion Period for the Improvements (or any of them) may be extended by the City Engineer in writing. As used herein, "good cause" may include, without limitation, delay resulting from, arising out of or relating to an act of the City; acts of God or force majeure, strikes, boycotts or similar job actions by employees or labor organizations which prevent the conduct of the work; findings made by a governmental entity that the site of a particular Improvement is of archeological significance or requires further permitting and approval; and/or actions or failure to act of native American monitor(s); and, the order of any court.

B. A time extension may be granted without notice to any surety or sureties of the Subdivider and shall not affect the validity of this Agreement nor release the surety or sureties on any bond given as an improvement security pursuant to this Agreement.

C. As a condition of any time extension provided for herein, the City Engineer, may require the Subdivider to furnish new or modified improvement security guaranteeing performance of this Agreement, as extended, in an increased amount as necessary to compensate for any projected increase in the Estimated Total Cost of Improvements, as determined by the City Engineer.

5. IMPROVEMENT SECURITY

A. Prior to City's execution of this Agreement, Subdivider shall provide as security to the City:

1. For Performance and Guarantee: Security in an amount equal to one hundred percent (100%) of the Estimated Total Cost of the Improvements, excluding Grading, as set forth above in the Subdivision Reference Data. The security shall be issued by a bonding company licensed to issue bonds in the State of California and having a Best rating of AAA or better. With this security, the form of which shall be subject to City Attorney's prior approval, the Subdivider assures faithful performance under this Agreement and guarantees the Improvements for one year after the completion and acceptance of the applicable portion of such Improvements, against any defective workmanship or materials or any unsatisfactory performance, pursuant to Section 3 hereof.

2. For Payment: Security in an amount equal to one hundred percent (100%) of the Estimated Total Cost of the Improvements, excluding Grading, as set forth above in the Subdivision Reference Data. The security shall be issued by a bonding company licensed to issue bonds in the State of California and having a Best rating of AAA or better. With this security, the form of which shall be subject to City Attorney's prior approval, the Subdivider guarantees payment to contractors, subcontractors, and persons renting equipment or furnishing labor or materials to them or to the Subdivider.

B. If the improvement security is a corporate surety bond and, in the opinion of the City, any surety or sureties thereon become insufficient, because (i) the surety becomes

insolvent; (ii) the surety's bond rating is downgraded; (iii) the surety declares bankruptcy; or (iv) the surety is no longer deemed to be an admitted surety in California by the California Department of Insurance, or (v) the form of the surety or the amount is found by City to be in error or materially insufficient, the Subdivider shall renew or replace any such surety bond with good and sufficient surety or sureties within thirty (30) days after receiving from City written demand therefor.

C. The amount of security for performance, payment and warranty obligations provided by this section shall not include the cost of monumentation, as required by Government Code Section 66497 so long as a separate cash deposit or security acceptable to the City Engineer for the estimated cost of monumentation has been submitted to the City.

D. Improvement security consisting of corporate surety bonds, in a form accepted by the City Attorney, shall be filed with the City Engineer and then kept on file with the City Clerk. If a corporate surety bond is replaced by another approved bond, the replacement shall be submitted to the City Engineer and, upon filing with the City Clerk, shall be deemed to have been made a part of and incorporated into this Agreement. Upon submission to the City Engineer and then filing with the City Clerk of a replacement bond, the former improvement security shall be released following written approval of the City Engineer.

E. Modifications of the Improvement Plans and related specifications, and modifications of the Improvements, not exceeding ten percent (10%) of the original Estimated Total Cost of the Improvements, shall not relieve or release any improvement security furnished by Subdivider pursuant to this Agreement. If any such modifications exceed ten percent (10%) of the Estimated Total Cost of the Improvements, Subdivider shall furnish additional improvement security for performance and guarantee, and for payment, as required by subparagraph A above, for one hundred percent (100%) of the revised Estimated Total Cost of the Improvements.

F. Subject to any time extensions granted in accordance with Section 4 herein, the Subdivider shall be in default if the Subdivider has not completed all improvements within two years from the Execution Date of the Agreement and has not repaired any defects in the completed Improvements within the one-year guarantee and warranty period.

Alternatively, in the event of a default by the Subdivider pursuant to Section 10, and after written notice to Subdivider and reasonable opportunity to cure, City, at its sole option, shall have the right, without limiting any other rights and/or remedies available to City at law or in equity, to draw upon or utilize the improvement security furnished herewith to construct and install the Improvements itself. If City exercises this right, the release of any unused portion of such improvement security shall be in accordance with the procedures outlined in Section 6 herein, including any retention necessary for the one-year guarantee period.

6. REDUCTION OR RELEASE OF IMPROVEMENT SECURITY

A. All public Improvements (Improvements that are to be owned or dedicated to the City or other public entity as distinguished from those owned by a private community

association) shall be first completed, deemed completed by the City Engineer and then accepted as complete by the City prior to release of sureties. All private Improvements (Improvements that are to be owned by a private community association and not dedicated or owned by the City or other public entity) shall be first completed and then accepted as complete in writing by the City Engineer.

B. Partial releases or reductions in the Subdivider's improvement (performance) security may be authorized prior to the City's acceptance of all Improvements required hereunder, as follows:

1. At the time that the Subdivider believes that the obligation to perform the work for which security was required is complete, the Subdivider may notify the City in writing of the completed work, including a list of work completed. Upon receipt of the written notice, the City shall review and comment or approve the completion of the required work within forty-five (45) days. If the City does not agree that all work has been completed in accordance with the plans and specifications for the Improvements, it shall supply a list of all remaining work to be completed within this 45-day period.

2. Within forty-five (45) days of receipt of the list of remaining work from the local agency, the Subdivider may then provide cost estimates for all remaining work for review and approval by the City. Upon receipt of the cost estimates, the City shall then have forty-five (45) days to review, comment, and approve, modify, or disapprove those cost estimates. The City shall not be required to engage in this process of partial release more than once between the start of work and completion and acceptance of all work; however, nothing in this section prohibits the City from allowing for multiple and phased partial releases as it otherwise deems appropriate.

3. If the City approves the cost estimate, the City shall release all performance security except for security in an amount up to two hundred percent (200%) of the cost estimate of the remaining work. The process allowing for a partial release of performance security shall occur when the cost estimate of the remaining work does not exceed twenty percent (20%) of the total original performance security unless the City allows for a release at an earlier time. Substitute bonds or other security may be used as a replacement for the performance security, subject to the approval of the City. If substitute bonds or other security is used as a replacement for the performance security released, the release shall not be effective unless and until the City receives and approves that form of replacement security. A reduction in the performance security, authorized under this section, is not, and shall not be deemed to be, an acceptance by the City of the completed improvements in and of itself, and the risk of loss or damage to the Improvements and the obligation to maintain the Improvements shall remain the sole responsibility of the Subdivider until the applicable required public Improvements have been accepted by the City in writing and all other required improvements have been fully completed in accordance with the plans and specifications for the improvements.

4. The Subdivider shall complete the works of Improvement until all remaining items are accepted by the City.

5. Upon the completion of the Improvements, the Subdivider, or his or her assigns, shall be notified in writing by the City within forty-five (45) days.

6. Within sixty (60) days of the issuance of the notification by the City Engineer, any remaining performance security, except ten percent (10%) of the original amount of the security to guarantee and warrant the Improvements for the one-year guarantee and warranty period, shall be released within sixty (60) days of the issuance of the written statement of completion.

C. Security securing the payment to the contractor, his or her subcontractors and to persons furnishing labor, materials or equipment shall, after passage of the time within which claims of lien are required to be recorded pursuant to Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code and after acceptance of the work, be reduced to an amount equal to the total claimed by all stop notice claimants for whom stop notices have been filed with the City, and if no claims have been filed, the security shall be released in full.

D. The partial release provisions of this Section 6 shall not apply to any required guarantee and warranty period required by Section 66499.9 for the guarantee or warranty nor to the amount of the security deemed necessary by the local agency for the guarantee and warranty period nor to costs and reasonable expenses and fees, including reasonable attorneys' fees. Security furnished to guarantee and warrant the Improvements against any defective work or labor done or defective materials furnished, shall be released within thirty (30) days after the completion of the one-year period following completion and acceptance of all Improvements.

E. If Subdivider's obligations relating to any Improvements are subject to the approval of another governmental agency, the City shall not release the improvement (performance) security therefor until the obligations are performed to the satisfaction of such other governmental agency. Such agency shall have sixty (60) days after receipt of written notice from the Subdivider of the Subdivider's performance of the obligation to register its satisfaction or dissatisfaction. If at the end of that period it has not registered its satisfaction or dissatisfaction, it shall be conclusively deemed that the Subdivider's performance of the obligation was done to its satisfaction, and such improvement security shall be promptly released.

F. In the event the time periods for action by the City specified in this Section conflict with a shorter or longer time period for such actions as provided in Government Code Section 66499.7, the time periods in Government Code Section 66499.7 shall control.

7. INDEMNIFICATION OF CITY BY SUBDIVIDER

A. Neither the City, nor its officers, agents and employees, shall be liable or responsible for any accident, injury, loss or damage to either property or person attributable to or arising out of the defective design, construction, functionality, installation assembly or improper

maintenance including, without limitation, the use of defective methods, materials or workmanship (collectively "Subdivider's Faults") of the Improvements by Subdivider, its officers, employees and agents. Subdivider shall indemnify, hold harmless and defend the City, its officers, agents and employees, from and against any and all losses, claims, costs, expenses, liabilities, damages, actions, causes of action and judgments, including attorneys' fees, arising directly or indirectly out of or attributable to Subdivider's Faults.

B. Subdivider's obligations under this Section 7 are not conditioned or dependent upon whether the City, or its officers, agents and employees, prepared, supplied or reviewed any Improvement Plans or related specifications in connection with the Subdivision or the Improvements, or has insurance or other indemnification covering any of these matters.

C. Subdivider's obligation to indemnify, hold harmless and defend the City under this Section 7 shall extend to injuries to persons and damages to or alleged taking of property resulting from the Subdivider's Faults, and the Improvements required herein, and shall likewise extend to claims asserted by adjacent property owners based upon the diversion of waters caused by the Subdivider's defective design or defective construction of public drainage systems, streets, and other public facilities or improvements. Except for a City Directive as defined below, the City's acceptance of the Improvements shall not constitute an assumption by the City of any responsibility or liability for any damage or alleged taking of property referenced herein. City shall not be responsible or liable for the design or construction of the Subdivision or the Improvements constructed or installed pursuant to the approved Improvement Plans or the Final Map, regardless of any act or omission by the City in approving the Improvement Plans or the Final Map, unless the particular Improvement design was required by the City over the written objection of the Subdivider, which objection stated that the Improvement design was potentially dangerous or defective and set forth an alternative design (a "City Directive"). After City's acceptance of the Improvements, the Subdivider shall remain obligated to correct or eliminate all dangerous conditions created by defects in design, construction or Subdivider's Faults (other than those required by a City Directive); provided, however, that Subdivider shall not be responsible for routine maintenance as specified in Section 1(F) of this Agreement. Subdivider's indemnity obligations hereunder shall remain in effect for ten (10) years following acceptance of the respective Improvement(s) by the City Council. Subdivider acknowledges and agrees that Subdivider shall be responsible and liable for the Subdivider's Faults with respect to the Improvements and other work done pursuant to this Agreement, unless same is due to a City Directive. City shall not be liable for any acts or omissions in approving, reviewing, checking, correcting or modifying any Improvement Plans or related specifications, or in inspecting, reviewing or approving any work or construction of Improvements, unless same is due to a City Directive. The Subdivider's improvement security shall not be required to secure the Subdivider's obligations under this subparagraph C beyond the one-year guarantee and warranty period, unless the City Engineer provides notice to Subdivider prior to the expiration of the one-year period of the existence of, or continued existence of, defects in the improvements, in which case the portion of the improvement security to guarantee and warranty the improvements against defective work shall not be released and shall remain in place until the City Engineer provides written confirmation that the defects have been cured and corrected. The indemnity shall be effective retroactively to the earliest recordation date of the Final Map.

D. Subdivider shall pay and satisfy any judgment, award or decree that may be rendered against City, its officers, officials, employees, agents, representatives and volunteers (collectively hereinafter "City and City Personnel") to the extent of the indemnity provided above, in any such suit, action, or other legal proceeding, provided City gives Subdivider prompt written notice of such claim and allows Subdivider to undertake the defense thereof, and provided further that City cooperates in any such suit, action, or other legal proceeding, but shall retain its right to reject a settlement that the City deems, in its sole and absolute discretion, to be contrary to the interests of the City.

E. Subdivider's obligation to indemnify shall not be restricted to Insurance proceeds, if any, received by the City and City Personnel.

F. Subdivider, on behalf of itself and all parties claiming under or through it, hereby waives all rights of subrogation and contribution against City and City Personnel to the extent of the indemnity above provided.

8. INSURANCE

The following coverages will be provided by Subdivider and maintained on behalf of City and in accordance with the requirements set forth herein. If Subdivider performs construction activities through a general contractor, some or all of these insurance requirements for the period of construction may be satisfied by the general contractor's insurance coverages. In such case, Subdivider shall maintain during this same construction period, and after the construction period, the coverages shown below as "Insurance After Construction." In addition, Subdivider may elect to obtain, for all or any portion of the Project, an "Owner-Controlled Wrap Up" insurance policy in satisfaction of the insurance requirements for general contractors and subcontractors provided it satisfies all of the insurance requirements below for general contractors and subcontractors. Throughout these specifications, the word "Subdivider" refers to the Party responsible to provide the coverages as specified and, depending on context, may refer either to Subdivider or to a separate General Contractor.

A. Insurance During Construction. Subdivider shall provide the following insurance during construction of the Improvements. Insurance requirements may be met through insurance provided by Subdivider's General Contractor:

1. Commercial General Liability Insurance. Commercial General Liability Insurance (primary) shall be provided on ISO-CGL Form No. CG 00 01 or equivalent coverage, including provisions for defense of additional insureds. Policy limits shall be no less than two million dollars ($2,000,000) per occurrence for all coverages and five million dollars ($5,000,000) general aggregate. City and its officers, employees and agents shall be added as additional insureds using ISO Form CG 20 10 11 85 or other revision of the CG 20 10 form if available from the insurer and reasonably acceptable to the City, not limiting coverage for the additional insured to "ongoing operations" or in any way excluding coverage for completed operations. Coverage shall apply on a primary non-contributing basis in relation to any other insurance or self-insurance, primary or excess, available to City or any officer, employee or agent of City.

Coverage shall not be limited to the vicarious liability or supervisory role of any additional insured. Coverage shall contain no contractors' limitation or other endorsement limiting the scope of coverage for liability arising from pollution, explosion, collapse, or underground property damage.

2. Umbrella Liability Insurance. Umbrella Liability Insurance (or, at Subdivider's election, Excess Liability Insurance) (over primary) shall apply to bodily injury/property damage, personal injury/advertising injury, at a minimum. Coverage shall be at least as broad as any underlying coverage. Coverage shall be provided on a "pay on behalf" basis. There shall be no cross liability exclusion and no contractor's limitation endorsement. Policy limits shall be not less than five million dollars ($5,000,000) per occurrence and in the aggregate, including any limits required in the underlying policies. The policy shall have a starting date no later than and an ending date no earlier than those of the underlying coverages. The Named Insured (Subdivider or General Contractor as appropriate) may determine the layering of primary and excess liability insurance provided that if such layering differs from that described here, the actual coverage program meets the minimum total required limits and complies with all other requirements listed here.

3. Business Auto Coverage. Business Auto Coverage shall be written on ISO Business Auto Coverage Form CA 00 01 or the equivalent, including symbol (1) (any Auto). If Subdivider (or Contractor) does not own any vehicles, this requirement may be satisfied by a non-owned vehicle endorsement to the general and umbrella liability policies. Limits shall be no less than one million dollars ($1,000,000) per accident. This policy shall be scheduled as underlying insurance to the umbrella policy required above for a total limit of no less than five million dollars ($5,000,000) each accident.

4. Workers' Compensation/Employer's Liability. Workers' Compensation/Employer's Liability shall provide workers' compensation statutory benefits as required by law. Employer's liability limits shall be no less than one million dollars ($1,000,000) per accident or disease. Employer's liability coverage shall be scheduled under the umbrella or excess liability policy described above. This policy shall be endorsed to waive any right of subrogation with respect to City, its officers, employees or agents.

5. Builder's Risk Insurance. Builder's Risk Insurance covering all real and personal property for "all risks" of loss or "comprehensive perils" coverage including but not limited to the perils of earth movement, including earthquake (if required by Subdivider's lender or if available at commercially reasonable rates) and flood for all Improvements.

B. Insurance After Construction. Upon completion of construction of the Improvements, and for the required one-year guarantee and warranty period for Improvements and the required 10-year indemnification period, Subdivider at Subdivider's expense shall maintain or cause to be maintained the following insurance:

1. Commercial Property Insurance. Commercial Property Insurance covering the Improvements. Coverage shall be at least as broad as the Insurance Services Offices broad causes of loss form CP 10 20, and reasonably approved of in writing by the City. Coverage shall be sufficient to insure 100% of the replacement value and there shall be no coinsurance provisions. The policy shall include an inflation guard endorsement, 100% rents coverage, contents coverage, coverage for personal property of others, ordinance or law and increased cost of construction coverage. Subdivider also agrees to provide builder's all-risk insurance using an inland marine form during the period of any major alteration or improvement, using the broadest form available.

The insurance coverage for the peril of earthquake required for this project is subject to availability on the open market at commercially reasonable premium cost, as determined by mutual agreement between Subdivider and City. If such earthquake insurance coverage should, after diligent effort by Subdivider, be unobtainable at such mutually determined commercially reasonable premium cost, then Subdivider shall obtain the maximum insurance reasonably obtainable at commercially reasonable premium cost (if any) and give notice to City of the extent of Subdivider's inability to obtain, in full, the required insurance, and in such event, Subdivider's obligation to procure and maintain such insurance may be excused, subject to City's verification of inability to obtain the required insurance. Subdivider and City agree that a premium cost of earthquake insurance coverage of up to 150% of the premium cost paid by Subdivider for such coverage on the Effective Date (to be adjusted over time based on the Consumer Price Index,) shall constitute a commercially reasonable premium cost. Non-availability at commercially reasonable premium cost must be documented by a letter from Subdivider's insurance broker or agent indicating a good faith effort to place the required insurance and showing, at a minimum, the names of the insurance carriers and the declinations or quotations received from each.

2. Commercial General Liability Insurance. Commercial General Liability Insurance (primary) shall be provided on ISO-CGL form No. CG 00 01 or equivalent coverage, including provisions for defense of additional insureds. Policy limits shall be no less than two million dollars ($2,000,000) per occurrence for all coverages and five million dollars ($5,000,000) general aggregate. City and its officers, employees and agents shall be added as additional insureds using ISO form CG 20 10 or equivalent if available from the insurer and reasonably acceptable to the City. Coverage shall apply on a primary non-contributing basis in relation to any other insurance or self-insurance, primary or excess, available to City or any officer, employee or agent of City until the warranty period specified in this Agreement expires.

3. Umbrella Liability Insurance. Umbrella Liability Insurance (or, at Subdivider's election, Excess Liability Insurance) (over primary) shall apply to bodily injury/property damage, personal injury/advertising injury, at a minimum. Coverage shall be at least as broad as any underlying coverage. Coverage shall be provided on a "pay on behalf" basis. There shall be no cross liability exclusion. Policy limits shall be not less than five million dollars ($5,000,000) per occurrence and in the aggregate, including any limits required in the underlying policies. The policy shall have a starting

date no later than and an ending date no earlier than those of the underlying coverages. Subdivider may determine the layering of primary and excess liability insurance provided that if such layering differs from that described here, the actual coverage program meets the minimum total required limits.

4. Workers Compensation Insurance. Workers' Compensation/Employer's Liability shall provide workers' compensation statutory benefits as required by law. Employer's liability limits shall be no less than one million dollars per accident or disease. Employer's liability coverage shall be scheduled under any umbrella or excess liability policy described above. Unless otherwise agreed, this policy shall be endorsed to waive any right of subrogation as respects City, its employees or agents.

5. Business Auto Coverage. Business Auto Coverage for vehicles owned, operated or maintained in any way connected with the project, shall be written on ISO Business Auto Coverage form CA 00 01 or the equivalent, including symbol (1) (any Auto). If Subdivider (or Contractor) does not own any vehicles, this requirement may be satisfied by a non-owned vehicle endorsement to the general and umbrella liability policies. Limits shall be no less than one million dollars ($1,000,000) per accident. This policy shall be scheduled as underlying insurance to the umbrella or excess liability policy required above for a total limit of no less than five million dollars ($5,000,000) each accident.

C. Provisions Pertaining to Insurance Provided by Subdivider

1. All insurance coverage and limits provided pursuant to this Agreement shall apply to the full extent of the policies involved, available or applicable. Nothing contained in this Agreement or any other agreement relating to City or its operations limits the application of such insurance coverage.

2. Requirements of specific coverage features or limits contained in this Section are not intended as a limitation on coverage, limits or other requirements, or a waiver of any coverage normally provided by any insurance. Specific reference to a given coverage feature is for purposes of clarification only and is not intended by any Party to be all inclusive, or to the exclusion of other coverage, or a waiver of any type.

3. All general or auto liability insurance coverage provided pursuant to this Agreement, or any other agreements pertaining to the performance of this Agreement, shall not prohibit Subdivider, and Subdivider's employees, or agents, from waiving the right of subrogation prior to a loss. Subdivider waives its right of subrogation against City.

4. None of the policies required herein shall be in compliance with these requirements if they include any limiting endorsement that has not been first submitted to City and approved in writing by the City.

5. Unless otherwise approved by City, Subdivider's insurance and insurance provided by any contractor or subcontractor relating to the construction of the Improvements shall be written by insurers authorized to do business in the State of California and with a minimum "Best's" Insurance Guide rating of at least "A-:VII." Self-insurance will not comply with these insurance specifications unless expressly approved in writing by the City.

6. In the event any policy of insurance required under this Agreement does not comply with these requirements and Subdivider does not cure the non-compliance within thirty (30) days after written notice from City (or Subdivider does not provide reasonable evidence of such cure within such period), or if the insurance is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any reasonable premium paid by City will be promptly reimbursed by Subdivider.

7. Subdivider agrees to provide evidence of the insurance required herein, satisfactory to City, consisting of certificate(s) of insurance evidencing all of the coverages required and an additional insured endorsement to Subdivider's general liability and umbrella liability policies using ISO Form CG 20 10 11 85. Certificate(s) are to reflect that the insurer will provide 30 days' notice of any cancellation of coverage and policies are to have a "cancellation endorsement" to the same effect. Subdivider agrees to provide copies of any endorsements modifying coverage in any way upon request from City.

8. Subdivider shall provide proof that policies of insurance required herein expiring during the term of this Agreement have been renewed or replaced with other policies providing at least the same coverage.

9. Any actual or alleged failure on the part of City or any other additional insured under these requirements to obtain proof of insurance required under this Agreement in no way waives any right or remedy of City or any additional insured, in this or any other regard.

10. Subdivider agrees to require all subcontractors or other parties (but not including a general contractor) hired for this project to construct the Improvements to purchase and maintain insurance for general liability (minimum limit $1,000,000 per occurrence), automobile liability ($1,000,000 per accident) and workers' compensation (statutory benefits). Prior to the issuance of the Certificate of Completion for each Phase, Subdivider shall, upon request by City, provide the City with copies of all insurance policies, certificates and endorsements related to such Phase.

11. Subdivider agrees to monitor and review all coverage required by this Section and assumes all responsibility for ensuring that such coverage is provided as required here. Subdivider agrees to obtain certificates evidencing such coverage. Subdivider agrees that upon request, all agreements with subcontractors or others with whom Subdivider contracts with on behalf of City, and all certificates of insurance

obtained in compliance with this paragraph will be submitted to City for review upon request by City. Failure of City to request copies of such documents will not impose any liability on City, or its employees.

12. Subdivider agrees to require that no contract used by any general contractor or subcontractor in connection with construction of the Improvements, or contracts Subdivider enters into on behalf of City, will reserve the right to charge back to City the cost of insurance required by this Agreement.

13. Where appropriate (such as in the case of automobile insurance coverages), coverage will not be limited to the specific location designated as the Property.

14. Subdivider agrees to provide notice to City of any claim or loss against Subdivider that includes City as a defendant promptly after Subdivider receives written notice or obtains knowledge thereof. City assumes no obligation or liability by such notice, but has the right (but not the duty) to monitor the handling of any such claim or claims if they are likely to involve City. City agrees to provide similar notice to Subdivider of any such claims it is notified of respecting the Property.

15. Subdivider agrees not to attempt to avoid its defense and indemnity obligations to City, and its officers, employees, agents by using as a defense Subdivider's statutory immunity under workers' compensation and similar statutes.

16. Subdivider agrees to ensure that coverage provided to meet these requirements is applicable separately to each insured and that there will be no cross liability exclusions that preclude coverage for suits between Subdivider and City or between City and any other insured or Named Insured under the policy, or between City and any Party associated with City or its employees.

17. If Subdivider or any contractor or subcontractor is a Limited Liability Company, general liability coverage must apply so that the Limited Liability Company and its Managers, Members, Affiliates, and their employees are insureds.

18. Subdivider shall require General Contractor to maintain commercial general liability, and if necessary, commercial umbrella liability insurance with a limit of not less than $15,000,000 for each occurrence, until the warranty period specified in this Agreement expires.

19. Subdivider agrees to obtain and provide to City evidence of professional liability coverage for Architects, Engineers or other design professionals working on the Improvements. The limit of liability required is subject to City approval, but in no event to be less than $1,000,000 per claim and in the aggregate, and Subdivider shall use reasonable efforts to require and cause such professionals to maintain coverage with respect to each occurrence for at least three years following substantial completion of the work and, in the event Subdivider is unable to do so, Subdivider shall promptly inform the City of the scope of such efforts and the reasons that it was unable to do so. If

Subdivider requests that the City approve a lower limit for any particular design professional Subdivider seeks to employ on the Improvements, City will evaluate each such request based on City's perception of liability exposure associated with the work that would be performed by that design professional.

20. To the extent a particular coverage or policy form or specification is not reasonably available from Subdivider's insurer or would result in an additional premium that is extraordinary or unreasonably disproportionate to the premium for the policy as a whole, then Subdivider shall provide substantially similar coverage reasonably acceptable to City for which the cost is not extraordinary or unreasonably disproportionate.

9. OWNERSHIP OF THE IMPROVEMENTS

A. Ownership of all or any category of the Improvements constructed and installed by the Subdivider pursuant to this Agreement and shown on the Map to be dedicated to the public shall vest, as applicable, in the City (or other specified governmental agency) upon acceptance of said Improvements by the City. The acceptance of the Improvements shall either be shown by a certificate on the Final Map or by subsequent resolution accepting the Improvements adopted by the City pursuant to Government Code Section 66477.2 and recorded with the County Recorder or by other writing.

B. The Subdivider shall at all times prior to the acceptance of the Improvements by the City, give good and adequate warning to the public of each and every dangerous and defective condition caused by the construction of the Improvements and shall take all steps reasonably necessary to protect the public from such dangerous or defective conditions. The Subdivider agrees and understands that until acceptance of the Improvements by the City in writing, each Improvement and Improvement area that is offered for dedication shall be under the charge of the Subdivider, and the Subdivider may close all or a portion of any street or area whenever necessary to protect the public during the construction of the Improvements.

10. PREPARATION AND RECORDATION OF CC&RS.

A. The Subdivider shall establish a Homeowners Association for the residential areas of the Final Map owned by Subdivider, and to pay all costs associated with the creation of the associations.

B. The Subdivider shall prepare and record Covenants, Conditions, and Restrictions (CC&Rs) which obligate each homeowners association to provide for maintenance of the shared facilities, improvements, and landscaping within the boundaries of the associations in perpetuity in accordance with the Development Agreement and conditions of approval. The CC&Rs shall describe the homeowners association and the City's responsibilities and rights, and shall be subject to the approval of the City prior to recordation.

C. The Subdivider shall implement applicable provisions of the Mitigation Monitoring and Reporting Program.

11. DEFAULT AND BREACH BY THE SUBDIVIDER AND REMEDIES OF THE CITY

A. Upon the occurrence of any of the following events, the Subdivider shall be deemed to be in default under this Agreement:

1. Subject to any time extensions granted in accordance with Section 4, failure to complete construction and installation of the Improvements or any of them by the completion date set forth above in the Subdivision Reference Data;

2. Failure to promptly correct or cure any defect in the Improvements or any of them (other than a City Directive) during the one-year guarantee and warranty period as required by Section 3.A or failure to commence correction or cure of any such defect or failure to diligently prosecute same to completion, in each instance following receipt by Subdivider of written notice that such defect exists;

3. Subject to any time extensions granted in accordance with Section 4, failure to perform substantial construction work of the Improvements or any of them, after commencement of work on same, for a period of thirty (30) days after Subdivider's receipt of written notice thereof from the City;

4. Insolvency, appointment of a receiver, or the filing of any petition in bankruptcy, whether voluntary or involuntary, and such is not cured or discharged within a period of thirty (30) days;

5. Commencement of a foreclosure action against the Subdivision or any portion thereof, or any conveyance by the Subdivider in lieu or in avoidance of foreclosure, within thirty (30) days after receipt by Subdivider of written notice thereof from the City; or

6. Failure to perform any other obligations in accordance with the terms and provisions of this Agreement within thirty (30) days after receipt by Subdivider of written notice thereof from the City.

B. City reserves to itself all remedies available to it at law or in equity for any breach of Subdivider's obligations under this Agreement. City shall have the right, without limitation of other rights or remedies, after written notice to Subdivider and a reasonable opportunity for Subdivider to cure any such alleged default, to draw upon or utilize any improvement security furnished hereunder to complete the Improvements or otherwise mitigate City's damages in the event of Subdivider's default.

C. Following Subdivider's receipt of written notice of alleged default and failure by Subdivider to promptly commence the cure of any alleged default and to diligently prosecute such cure to completion, the City may serve written notice of any such default upon the surety on any corporate surety bond furnished as improvement security hereunder, and request that said surety take over and complete the Improvements herein specified. If such surety, within thirty (30) days after service of such notice of default, does not give the City

written notice of its intention to perform this Agreement, or does not commence such performance within thirty (30) days after notice to the City of such intention to perform, the City may take over the work and prosecute the same to completion, by contract or by any other method the City deems advisable, for the account and at the expense of the Subdivider and its surety.

D. Subdivider acknowledges that the Estimated Total Costs and Improvement Security amounts set forth herein may not reflect the actual cost of construction or installation of the Improvements, and, consequently, City's damages for Subdivider's default shall be measured by the actual cost of completing the required Improvements. If the damages incurred by the City in taking over and completing the Improvements exceeds the principal amount of the improvement security, then the Subdivider shall reimburse the City in the amount of such excess damages.

E. Following Subdivider's receipt of written notice of alleged default and failure by Subdivider to promptly commence the cure of any alleged default and to diligently prosecute such cure to completion, City may, without liability for so doing, take possession of, and utilize in completing the Improvements, such materials, appliances, plant and other property belonging to Subdivider as may be on the site of the work and necessary for the performance of the work. Subdivider hereby consents to such entry by the City and its representatives, including contractors, following written notice to Subdivider upon the real property in the Subdivision owned by Subdivider and necessary for City to enter or access under this Agreement, in the event the City elects to maintain or complete the work on the Improvements following Subdivider's default.

F. Subdivider acknowledges and agrees that approval of the Final Map for the Subdivision conferred substantial rights upon the Subdivider, including the right to sell, lease or finance lots within the Subdivision, and that such approval constitutes the final act necessary to permit the division of land within the Subdivision. As a result, City will be damaged to the extent of the cost of construction or installation of the Improvements upon Subdivider's failure to perform its obligations under this Agreement, which failure is not promptly remedied by sureties or by Subdivider.

G. The City's failure to take an enforcement action with respect to a default, or to declare a default or breach, shall not be construed as a waiver of that default or breach or any subsequent default or breach of the Subdivider.

H. If City sues to compel Subdivider's performance of this Agreement, or to recover damages or costs incurred in completing or maintaining the work on the Improvements, and is the prevailing party, Subdivider agrees to pay all reasonable attorneys' fees and other costs and expenses of litigation incurred by the City in connection therewith, even if Subdivider subsequently resumes and completes the work.

12. RELATIONSHIP OF THE PARTIES

Neither Subdivider, nor any of Subdivider's contractors, employees or agents, are or shall be deemed to be, agents of the City in connection with the performance of Subdivider's obligations under this Agreement.

13. ASSIGNMENT

A. Subdivider shall not assign this Agreement, or any portion thereof without the prior written consent of the City in accordance with the Development Agreement. Any attempted or purported assignment in violation of this subparagraph A shall be null and void and shall have no force or effect.

B. The sale or other disposition of the Subdivision shall not relieve Subdivider of its obligations hereunder. If Subdivider intends to sell the Subdivision, or any portion thereof (except for the sale of individual lots with homes to individual purchasers), to any other person or entity, the Subdivider may request an assignment or novation of this Agreement and a substitution of improvement security. Upon the City's approval of the assignment or novation and substitution of improvement security, the Subdivider may request a release or reduction of the improvement security furnished pursuant to this Agreement.

14. NOTICES

All notices required or provided for in this Agreement shall be in writing and delivered in person or by mail, postage prepaid, and addressed as follows:

If to the City:	Art Vela Director of Public Works/City Engineer City of Banning 99 E. Ramsey Drive Banning, California 92220
If to the Subdivider:	To the address set forth above in the Subdivision Reference Data, or to such other address as may subsequently be designated in written notice to the City.

Notice shall be effective on the date that it is delivered in person, or, if mailed, three (3) days after the date of deposit in the United States Mail.

15. ENTIRE AGREEMENT

This Agreement constitutes the entire agreement of the parties with respect to its subject matter. All modifications, amendments, or waivers of any terms of this Agreement shall be in writing and signed by the duly authorized representatives of the parties. In the case of the City, the duly authorized representative, unless otherwise specified herein, shall be the City Engineer.

16. SEVERABILITY

The provisions of this Agreement are severable. If any portion of this Agreement is held invalid by a court of competent jurisdiction, the remainder of the Agreement shall remain in full force and effect.

17. INCORPORATION OF SUBDIVISION REFERENCE DATA AND RECITALS

The Subdivision Reference Data and the Recitals are incorporated into this Agreement.

18. GOVERNING LAW

This Agreement shall be governed by the laws of the State of California.

19. EFFECTIVE DATE OF THE AGREEMENT

This Agreement shall be and become effective as of the date that it is executed by a duly authorized officer or employee of the City, it being the intention of the parties that the Subdivider shall first execute this Agreement and thereafter submit it to the City. The City shall insert the effective date in the Subdivision Reference Data in all counterparts of this Agreement and shall transmit a fully executed counterpart to the Subdivider.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their respective officers, thereunto duly authorized, as of the dates set forth below their respective signatures.

[Note: All signatures must be acknowledged by a notary public and the acknowledgement must be attached. If signed by a Corporation, the signatures of two Corporate officers are required, unless a resolution of the Corporation's Board of Directors is provided indicating that the signature of the one signatory is sufficient to bind the Corporation.]

SUBDIVISION IMPROVEMENT AGREEMENT

THIS SUBDIVISION IMPROVEMENT AGREEMENT ("Agreement") is made and entered into by and between the City of Banning, a municipal corporation ("City"), and the Subdivider whose name and address is set forth above in the Subdivision Reference Data.

RECITALS

A. Subdivider has presented to the City for approval and recordation a Final Map, identified above in the Subdivision Reference Data, of a proposed subdivision pursuant to the Subdivision Map Act of the State of California and the City's ordinances and regulations as such ordinances and regulations are vested under the development agreement recorded in the official records of the County of Riverside on July 17, 2012 as Document No. 2012-0332888 ("Development Agreement") relating to the filing, approval and recordation of subdivision maps (collectively referred to herein as the "Subdivision Laws").

B. A tentative map of the Subdivision was previously approved by City, subject to the Subdivision Laws and to the City's standard requirements as vested under the Development Agreement and conditions of approval contained in the City Council's Resolution of Approval, a copy of which is on file in the Office of the City Clerk and which is incorporated herein by this reference.

C. The Subdivision Laws establish, as a condition precedent to the approval of a Final Map, that the Subdivider comply with the City Council's Resolution of Approval and either (i) complete, in compliance with applicable City standards, all of the improvements and land development work required by the Subdivision Laws and the City Council's Resolution of Approval; or (ii) enter into a secured agreement with the City to complete the improvements and land development work within a period of time specified by the City.

D. In consideration of approval of the Final Map for the Subdivision by the City Council, Subdivider desires to enter into this Agreement whereby Subdivider promises to install and complete, at its sole expense, except as otherwise provided in a credit/reimbursement agreement as provided for in the Development Agreement, all public improvement work required by the City as set forth on the Improvement Plans (as defined below) for the proposed Subdivision. Subdivider has secured this Agreement by improvement security required by the Subdivision Laws and approved by the City. In any conflict between the terms in this Agreement and the Development Agreement, the Development Agreement shall be the controlling document.

E. Improvement Plans, and related specifications, numbered as designated above in the Subdivision Reference Data, for the construction, installation and completion of the Improvements identified in Schedule A hereto, have been prepared by the Subdivider, approved by the City Engineer, and are on file in the office of the City Engineer. Said Improvement Plans, and related specifications, subsequently modified by the mutual written agreement of the parties, are hereby referred to as the "Improvement Plans" and are incorporated herein by this reference.

Any improvement to be constructed pursuant to the Improvement Plan is hereby referred to individually as an "**Improvement**" and collectively as the "**Improvements**".

NOW, THEREFORE, in consideration of the approval and recordation by the City Council of the Final Map of the Subdivision, Subdivider and City agree as follows:

1. SUBDIVIDER'S OBLIGATION TO CONSTRUCT IMPROVEMENTS

A. Subdivider shall, at its sole expense, unless otherwise provided in a credit/reimbursement agreement as provided for in the Development Agreement, and in compliance with the provisions of the Subdivision Laws, the Improvement Plans, conditions of approval of the Tentative Map, and all applicable City standards and fees, and in a good and workmanlike fashion, furnish, construct, install and guarantee (as set forth in Section 3) the Improvements, Grading, and Monumentation described on the tentative map and in the City Council's Resolution of Approval relating thereto (collectively, the "Improvements").

B. To the extent necessary to construct the Improvements, as determined by the City Engineer, the Subdivider shall acquire and dedicate, or pay the reasonable, documented cost of acquisition by City of, all rights-of-way, easements and other interests in real property for the construction or installation of the Improvements, free and clear of all liens and encumbrances. If the Subdivider is unable to acquire such rights-of-way, easements and other interests in real property by negotiation, then Subdivider shall, within 120 days of Final Map approval, enter into a condemnation agreement with City pursuant to Government Code Section 66462.5, by which the City will commence the process for the acquisition of the rights-of-way, easements or other real property.

C. Subject to any time extensions granted in accordance with Section 4, Subdivider shall complete all Improvements within its respective "Completion Period" specified in the Subdivision Reference Data; provided, however, that if the City Engineer reasonably determines in good faith that accelerated construction of the Improvements is essential in order to protect the public health, welfare and safety, the City Engineer shall give Subdivider not less than fifteen (15) business days' prior written notice to commence or accelerate installation and construction of such Improvements, or any portion thereof. The notice shall be in writing, and shall describe the work to be done by Subdivider, the time within which the work will commence, the period within which the work will be completed and identify the reasons that such early commencement is essential in order to protect the public health, welfare and safety. All or any portions of said Improvements may be required to be constructed or completed at a specified time, providing the foregoing criteria is met. If the Subdivider objects to the commencement or acceleration of the Improvements as specified by the City Engineer, Subdivider may appeal the decision of the City Engineer to the City Council. Any such appeal shall be filed with the City Clerk within 10 days after receipt by Subdivider of the written notice from the City Engineer.

D. If the Improvements to be constructed by Subdivider include monumentation, such monumentation shall be installed not later than thirty (30) days after the City's acceptance of all other Improvements pursuant to Section 2. As used herein,

"monumentation" shall mean the setting of survey monuments and tie points in accordance with the Subdivision Laws, and the delivery to the City Engineer of tie notes for said points.

E. Subdivider shall , at its sole expense, unless otherwise provided in a credit/reimbursement agreement as provided for in the Development Agreement, replace or repair all public improvements, public utility facilities, and surveying or subdivision monuments which are destroyed or damaged as a result of any work performed by Subdivider under this Agreement during or after the Completion Period. Any such replacement or repair shall be subject to the approval of the City Engineer.

F. In addition to, and separate from, the indemnity obligations contained in Section 9 of this Agreement, and without limiting the City's remedies under general construction defect law, Subdivider shall be responsible for the care, repair and maintenance of the applicable portion of the Improvements until the latter of the following time periods: (i) the Improvements or applicable portion thereof is accepted in writing by the City; or (ii) the expiration of the required one-year guarantee and warranty period as specified herein; or (iii) the expiration of any applicable period of time requiring the care, repair and maintenance of the applicable Improvement specified in the Development Agreement (not including the term of any Development Agreement). Neither City, nor its officers, agents and employees, shall have any liability for any accident, loss or damage to the Improvements and that may result from the construction of the Improvements prior to their completion and written acceptance by the City

G. In addition to, and separate from: (1) the indemnity obligations contained in Section 7 of this Agreement, (2) the care, repair and maintenance provisions under paragraph E of this Section 1 of this Agreement; and (3) the warranty and guarantee provisions of Section 3 of this Agreement, Subdivider shall repair and correct, or be liable to the City for any cost to repair and correct, any defect in the construction of the Improvements that is identified by City within in accordance with general construction defect law ten (10) years after City's acceptance of the Improvement, provided the City provides written notice to Subdivider of the existence of the defect within that the time period under law, and the defect is caused directly or indirectly by the design, construction, functionality, installation, assembly or workmanship of Subdivider. Nothing contained in this paragraph is intended to limit or otherwise waive any right or cause of action under applicable construction defect law that City may assert against Subdivider.

H. Subdivider shall, at its sole expense, unless otherwise provided in a credit/reimbursement agreement as provided for in the Development Agreement, obtain all necessary permits and licenses for the construction and installation of the Improvements, give all necessary notices, and pay all applicable fees required by City ordinance or resolution and all taxes required by law.

I. Not less than seven (7) days prior to commencement of work on the Improvements, Subdivider shall give written notice to the City Engineer of the date fixed for such commencement of work in order that the City Engineer shall have adequate time to schedule all necessary inspections.

J. SUBDIVIDER shall pay all applicable City fees and costs stipulated in the latest fee resolution as adopted by the City Council from time to time as required for the development of the SUBDIVISION including but not limited to the following:

1. Building Permit Fees --- to be paid at the time of building permit issuance;

2. Final Map Plan Check Fees --- to be paid at time of submittal of final map for plan check and resubmittal of revised final map for plan check;

3. Final Map Moratorium Fees --- to be paid from cash deposit established at time of filing final map;

4. Plan Check and Review Fees --- to be paid from cash deposit established at time of filing improvement plans for plan check;

5. Encroachment Permit Fees --- to be paid at time of application for encroachment permit;

6. Inspection Fees --- to be paid from cash deposit established at time of construction permit issuance; and

7. Grading Permit Fee --- to be paid from cash deposit established at time of grading permit issuance.

K. Subdivider shall provide City with final Record Drawings of all plans developed for the Subdivision, showing all changes and as built conditions as specified in the Tentative Tract Map Conditions of Approval, and shall provide electronic image files of those final Record Drawings consistent with electronic image file size and type specifications of the City prior to the acceptance of improvements and release of bonds or other security.

2. INSPECTION OF WORK AND FINAL ACCEPTANCE

A. Subdivider shall at all times maintain proper facilities and safe access for inspection of the Improvements by the City Engineer and other City personnel and inspection consultants.

B. Upon completion of the work on all or any category of the Improvements, the Subdivider may request a final inspection by the City Engineer. Within forty-five (45) days of receipt of the written letter request, the City Engineer shall inspect the Improvements and provide written notice to Subdivider of the list of items which have been found to be incomplete and the list of items which have been found to be complete. If the City Engineer determines that all or any specified category of the Improvements have been completed in accordance with this Agreement and in compliance with the Improvement Plans and all applicable City standards, then the City Engineer shall acknowledge that determination in a report to the City Council. If the Improvements that are completed are to be dedicated to or owned by the City (Improvements within City right of way and property for public use), the City Engineer's determination shall be

submitted to the City Council for final acceptance by the City, unless such power to accept has been delegated by the City Council to the City Engineer or some other officer of the City, in which case the final acceptance shall be subject to the approval of that specified official. If the Improvements that are completed are to be dedicated to or owned by a public entity other than the City, the Subdivider's written request shall be submitted to the applicable public entity or other owner, for final acceptance. Subdivider shall bear all costs of inspection and determination of completeness in accordance with City's formally adopted and applicable fees and rates.

C. Acceptance of all or any specified category of the Improvements by the City Council shall be made upon recommendation and certification of the City Engineer following inspection of said Improvements pursuant to subparagraph B above. The City Council shall act upon the City Engineer's recommendation that such public Improvements have been completed unless such power to accept has been delegated by the City Council to the City Engineer or some other officer of the City, in which case the final acceptance shall be subject to the approval of that specified official. Acceptance by the City or by the governing body of the entity that is to accept dedication or ownership of the public improvements shall not constitute a waiver by the City or such other public entity of any defects in the public Improvements.

3. GUARANTEE AND WARRANTY OF THE IMPROVEMENTS

A. If, within a period of one year following acceptance by the City of the applicable Improvements specified in Schedule A, any Improvements or part of any Improvements specified in Section A furnished, installed or constructed by the Subdivider, or any of the work performed under this Agreement by Subdivider, fails to comply with any requirements of this Agreement, or the Subdivision Laws, or the Improvement Plans and related specifications, the Subdivider shall, without delay and without cost to the City, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Improvements. Subdivider's obligations hereunder shall include the repair, replacement or reconstruction of all irrigation systems and all trees, shrubs, ground cover and landscaping for such one year.

B. Should the Subdivider fail or refuse to act promptly or in accordance with subparagraph A above, or should the exigencies of the situation require repair, replacement, or reconstruction to be undertaken before the Subdivider can be notified and can perform the necessary work, then the City may, in its discretion, make the necessary repairs or replacements or perform the necessary reconstruction and draw upon the Subdivider's improvement security to reimburse itself for the costs incurred. If the Subdivider's improvement security does not cover the total cost of such repair, replacement, or reconstruction, the Subdivider shall reimburse the City for any excess costs incurred.

C. The security furnished for the faithful performance of the Subdivider's obligation to construct and install the Improvements described herein shall include the Subdivider's liability and obligation hereunder to provide the one-year guarantee and warranty of the Improvements.

4. TIME EXTENSIONS

A. Upon a showing by the Subdivider of good cause therefor, the duration of the Completion Period for the Improvements (or any of them) may be extended by the City Engineer in writing. As used herein, "good cause" may include, without limitation, delay resulting from, arising out of or relating to an act of the City; acts of God or force majeure, strikes, boycotts or similar job actions by employees or labor organizations which prevent the conduct of the work; findings made by a governmental entity that the site of a particular Improvement is of archeological significance or requires further permitting and approval; and/or actions or failure to act of native American monitor(s); and, the order of any court.

B. A time extension may be granted without notice to any surety or sureties of the Subdivider and shall not affect the validity of this Agreement nor release the surety or sureties on any bond given as an improvement security pursuant to this Agreement.

C. As a condition of any time extension provided for herein, the City Engineer, may require the Subdivider to furnish new or modified improvement security guaranteeing performance of this Agreement, as extended, in an increased amount as necessary to compensate for any projected increase in the Estimated Total Cost of Improvements, as determined by the City Engineer.

5. IMPROVEMENT SECURITY

A. Prior to City's execution of this Agreement, Subdivider shall provide as security to the City:

1. For Performance and Guarantee: Security in an amount equal to one hundred percent (100%) of the Estimated Total Cost of the Improvements, excluding Grading, as set forth above in the Subdivision Reference Data. The security shall be issued by a bonding company licensed to issue bonds in the State of California and having a Best rating of AAA or better. With this security, the form of which shall be subject to City Attorney's prior approval, the Subdivider assures faithful performance under this Agreement and guarantees the Improvements for one year after the completion and acceptance of the applicable portion of such Improvements, against any defective workmanship or materials or any unsatisfactory performance, pursuant to Section 3 hereof.

2. For Payment: Security in an amount equal to one hundred percent (100%) of the Estimated Total Cost of the Improvements, excluding Grading, as set forth above in the Subdivision Reference Data. The security shall be issued by a bonding company licensed to issue bonds in the State of California and having a Best rating of AAA or better. With this security, the form of which shall be subject to City Attorney's prior approval, the Subdivider guarantees payment to contractors, subcontractors, and persons renting equipment or furnishing labor or materials to them or to the Subdivider.

B. If the improvement security is a corporate surety bond and, in the opinion of the City, any surety or sureties thereon become insufficient, because (i) the surety becomes

insolvent; (ii) the surety's bond rating is downgraded; (iii) the surety declares bankruptcy; or (iv) the surety is no longer deemed to be an admitted surety in California by the California Department of Insurance, or (v) the form of the surety or the amount is found by City to be in error or materially insufficient, the Subdivider shall renew or replace any such surety bond with good and sufficient surety or sureties within thirty (30) days after receiving from City written demand therefor.

C. The amount of security for performance, payment and warranty obligations provided by this section shall not include the cost of monumentation, as required by Government Code Section 66497 so long as a separate cash deposit or security acceptable to the City Engineer for the estimated cost of monumentation has been submitted to the City.

D. Improvement security consisting of corporate surety bonds, in a form accepted by the City Attorney, shall be filed with the City Engineer and then kept on file with the City Clerk. If a corporate surety bond is replaced by another approved bond, the replacement shall be submitted to the City Engineer and, upon filing with the City Clerk, shall be deemed to have been made a part of and incorporated into this Agreement. Upon submission to the City Engineer and then filing with the City Clerk of a replacement bond, the former improvement security shall be released following written approval of the City Engineer.

E. Modifications of the Improvement Plans and related specifications, and modifications of the Improvements, not exceeding ten percent (10%) of the original Estimated Total Cost of the Improvements, shall not relieve or release any improvement security furnished by Subdivider pursuant to this Agreement. If any such modifications exceed ten percent (10%) of the Estimated Total Cost of the Improvements, Subdivider shall furnish additional improvement security for performance and guarantee, and for payment, as required by subparagraph A above, for one hundred percent (100%) of the revised Estimated Total Cost of the Improvements.

F. Subject to any time extensions granted in accordance with Section 4 herein, the Subdivider shall be in default if the Subdivider has not completed all improvements within two years from the Execution Date of the Agreement and has not repaired any defects in the completed Improvements within the one-year guarantee and warranty period.

Alternatively, in the event of a default by the Subdivider pursuant to Section 10, and after written notice to Subdivider and reasonable opportunity to cure, City, at its sole option, shall have the right, without limiting any other rights and/or remedies available to City at law or in equity, to draw upon or utilize the improvement security furnished herewith to construct and install the Improvements itself. If City exercises this right, the release of any unused portion of such improvement security shall be in accordance with the procedures outlined in Section 6 herein, including any retention necessary for the one-year guarantee period.

6. REDUCTION OR RELEASE OF IMPROVEMENT SECURITY

A. All public Improvements (Improvements that are to be owned or dedicated to the City or other public entity as distinguished from those owned by a private community

association) shall be first completed, deemed completed by the City Engineer and then accepted as complete by the City prior to release of sureties. All private Improvements (Improvements that are to be owned by a private community association and not dedicated or owned by the City or other public entity) shall be first completed and then accepted as complete in writing by the City Engineer.

B. Partial releases or reductions in the Subdivider's improvement (performance) security may be authorized prior to the City's acceptance of all Improvements required hereunder, as follows:

1. At the time that the Subdivider believes that the obligation to perform the work for which security was required is complete, the Subdivider may notify the City in writing of the completed work, including a list of work completed. Upon receipt of the written notice, the City shall review and comment or approve the completion of the required work within forty-five (45) days. If the City does not agree that all work has been completed in accordance with the plans and specifications for the Improvements, it shall supply a list of all remaining work to be completed within this 45-day period.

2. Within forty-five (45) days of receipt of the list of remaining work from the local agency, the Subdivider may then provide cost estimates for all remaining work for review and approval by the City. Upon receipt of the cost estimates, the City shall then have forty-five (45) days to review, comment, and approve, modify, or disapprove those cost estimates. The City shall not be required to engage in this process of partial release more than once between the start of work and completion and acceptance of all work; however, nothing in this section prohibits the City from allowing for multiple and phased partial releases as it otherwise deems appropriate.

3. If the City approves the cost estimate, the City shall release all performance security except for security in an amount up to two hundred percent (200%) of the cost estimate of the remaining work. The process allowing for a partial release of performance security shall occur when the cost estimate of the remaining work does not exceed twenty percent (20%) of the total original performance security unless the City allows for a release at an earlier time. Substitute bonds or other security may be used as a replacement for the performance security, subject to the approval of the City. If substitute bonds or other security is used as a replacement for the performance security released, the release shall not be effective unless and until the City receives and approves that form of replacement security. A reduction in the performance security, authorized under this section, is not, and shall not be deemed to be, an acceptance by the City of the completed improvements in and of itself, and the risk of loss or damage to the Improvements and the obligation to maintain the Improvements shall remain the sole responsibility of the Subdivider until the applicable required public Improvements have been accepted by the City in writing and all other required improvements have been fully completed in accordance with the plans and specifications for the improvements.

4. The Subdivider shall complete the works of Improvement until all remaining items are accepted by the City.

5. Upon the completion of the Improvements, the Subdivider, or his or her assigns, shall be notified in writing by the City within forty-five (45) days.

6. Within sixty (60) days of the issuance of the notification by the City Engineer, any remaining performance security, except ten percent (10%) of the original amount of the security to guarantee and warrant the Improvements for the one-year guarantee and warranty period, shall be released within sixty (60) days of the issuance of the written statement of completion.

C. Security securing the payment to the contractor, his or her subcontractors and to persons furnishing labor, materials or equipment shall, after passage of the time within which claims of lien are required to be recorded pursuant to Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code and after acceptance of the work, be reduced to an amount equal to the total claimed by all stop notice claimants for whom stop notices have been filed with the City, and if no claims have been filed, the security shall be released in full.

D. The partial release provisions of this Section 6 shall not apply to any required guarantee and warranty period required by Section 66499.9 for the guarantee or warranty nor to the amount of the security deemed necessary by the local agency for the guarantee and warranty period nor to costs and reasonable expenses and fees, including reasonable attorneys' fees. Security furnished to guarantee and warrant the Improvements against any defective work or labor done or defective materials furnished, shall be released within thirty (30) days after the completion of the one-year period following completion and acceptance of all Improvements.

E. If Subdivider's obligations relating to any Improvements are subject to the approval of another governmental agency, the City shall not release the improvement (performance) security therefor until the obligations are performed to the satisfaction of such other governmental agency. Such agency shall have sixty (60) days after receipt of written notice from the Subdivider of the Subdivider's performance of the obligation to register its satisfaction or dissatisfaction. If at the end of that period it has not registered its satisfaction or dissatisfaction, it shall be conclusively deemed that the Subdivider's performance of the obligation was done to its satisfaction, and such improvement security shall be promptly released.

F. In the event the time periods for action by the City specified in this Section conflict with a shorter or longer time period for such actions as provided in Government Code Section 66499.7, the time periods in Government Code Section 66499.7 shall control.

7. INDEMNIFICATION OF CITY BY SUBDIVIDER

A. Neither the City, nor its officers, agents and employees, shall be liable or responsible for any accident, injury, loss or damage to either property or person attributable to or arising out of the defective design, construction, functionality, installation assembly or improper

maintenance including, without limitation, the use of defective methods, materials or workmanship (collectively "Subdivider's Faults") of the Improvements by Subdivider, its officers, employees and agents. Subdivider shall indemnify, hold harmless and defend the City, its officers, agents and employees, from and against any and all losses, claims, costs, expenses, liabilities, damages, actions, causes of action and judgments, including attorneys' fees, arising directly or indirectly out of or attributable to Subdivider's Faults.

B. Subdivider's obligations under this Section 7 are not conditioned or dependent upon whether the City, or its officers, agents and employees, prepared, supplied or reviewed any Improvement Plans or related specifications in connection with the Subdivision or the Improvements, or has insurance or other indemnification covering any of these matters.

C. Subdivider's obligation to indemnify, hold harmless and defend the City under this Section 7 shall extend to injuries to persons and damages to or alleged taking of property resulting from the Subdivider's Faults, and the Improvements required herein, and shall likewise extend to claims asserted by adjacent property owners based upon the diversion of waters caused by the Subdivider's defective design or defective construction of public drainage systems, streets, and other public facilities or improvements. Except for a City Directive as defined below, the City's acceptance of the Improvements shall not constitute an assumption by the City of any responsibility or liability for any damage or alleged taking of property referenced herein. City shall not be responsible or liable for the design or construction of the Subdivision or the Improvements constructed or installed pursuant to the approved Improvement Plans or the Final Map, regardless of any act or omission by the City in approving the Improvement Plans or the Final Map, unless the particular Improvement design was required by the City over the written objection of the Subdivider, which objection stated that the Improvement design was potentially dangerous or defective and set forth an alternative design (a "City Directive"). After City's acceptance of the Improvements, the Subdivider shall remain obligated to correct or eliminate all dangerous conditions created by defects in design, construction or Subdivider's Faults (other than those required by a City Directive); provided, however, that Subdivider shall not be responsible for routine maintenance as specified in Section 1(F) of this Agreement. Subdivider's indemnity obligations hereunder shall remain in effect for ten (10) years following acceptance of the respective Improvement(s) by the City Council. Subdivider acknowledges and agrees that Subdivider shall be responsible and liable for the Subdivider's Faults with respect to the Improvements and other work done pursuant to this Agreement, unless same is due to a City Directive. City shall not be liable for any acts or omissions in approving, reviewing, checking, correcting or modifying any Improvement Plans or related specifications, or in inspecting, reviewing or approving any work or construction of Improvements, unless same is due to a City Directive. The Subdivider's improvement security shall not be required to secure the Subdivider's obligations under this subparagraph C beyond the one-year guarantee and warranty period, unless the City Engineer provides notice to Subdivider prior to the expiration of the one-year period of the existence of, or continued existence of, defects in the improvements, in which case the portion of the improvement security to guarantee and warranty the improvements against defective work shall not be released and shall remain in place until the City Engineer provides written confirmation that the defects have been cured and corrected. The indemnity shall be effective retroactively to the earliest recordation date of the Final Map.

D. Subdivider shall pay and satisfy any judgment, award or decree that may be rendered against City, its officers, officials, employees, agents, representatives and volunteers (collectively hereinafter "City and City Personnel") to the extent of the indemnity provided above, in any such suit, action, or other legal proceeding, provided City gives Subdivider prompt written notice of such claim and allows Subdivider to undertake the defense thereof, and provided further that City cooperates in any such suit, action, or other legal proceeding, but shall retain its right to reject a settlement that the City deems, in its sole and absolute discretion, to be contrary to the interests of the City.

E. Subdivider's obligation to indemnify shall not be restricted to Insurance proceeds, if any, received by the City and City Personnel.

F. Subdivider, on behalf of itself and all parties claiming under or through it, hereby waives all rights of subrogation and contribution against City and City Personnel to the extent of the indemnity above provided.

8. INSURANCE

The following coverages will be provided by Subdivider and maintained on behalf of City and in accordance with the requirements set forth herein. If Subdivider performs construction activities through a general contractor, some or all of these insurance requirements for the period of construction may be satisfied by the general contractor's insurance coverages. In such case, Subdivider shall maintain during this same construction period, and after the construction period, the coverages shown below as "Insurance After Construction." In addition, Subdivider may elect to obtain, for all or any portion of the Project, an "Owner-Controlled Wrap Up" insurance policy in satisfaction of the insurance requirements for general contractors and subcontractors provided it satisfies all of the insurance requirements below for general contractors and subcontractors. Throughout these specifications, the word "Subdivider" refers to the Party responsible to provide the coverages as specified and, depending on context, may refer either to Subdivider or to a separate General Contractor.

A. Insurance During Construction. Subdivider shall provide the following insurance during construction of the Improvements. Insurance requirements may be met through insurance provided by Subdivider's General Contractor:

1. Commercial General Liability Insurance. Commercial General Liability Insurance (primary) shall be provided on ISO-CGL Form No. CG 00 01 or equivalent coverage, including provisions for defense of additional insureds. Policy limits shall be no less than two million dollars ($2,000,000) per occurrence for all coverages and five million dollars ($5,000,000) general aggregate. City and its officers, employees and agents shall be added as additional insureds using ISO Form CG 20 10 11 85 or other revision of the CG 20 10 form if available from the insurer and reasonably acceptable to the City, not limiting coverage for the additional insured to "ongoing operations" or in any way excluding coverage for completed operations. Coverage shall apply on a primary non-contributing basis in relation to any other insurance or self-insurance, primary or excess, available to City or any officer, employee or agent of City.

Coverage shall not be limited to the vicarious liability or supervisory role of any additional insured. Coverage shall contain no contractors' limitation or other endorsement limiting the scope of coverage for liability arising from pollution, explosion, collapse, or underground property damage.

2. Umbrella Liability Insurance. Umbrella Liability Insurance (or, at Subdivider's election, Excess Liability Insurance) (over primary) shall apply to bodily injury/property damage, personal injury/advertising injury, at a minimum. Coverage shall be at least as broad as any underlying coverage. Coverage shall be provided on a "pay on behalf" basis. There shall be no cross liability exclusion and no contractor's limitation endorsement. Policy limits shall be not less than five million dollars ($5,000,000) per occurrence and in the aggregate, including any limits required in the underlying policies. The policy shall have a starting date no later than and an ending date no earlier than those of the underlying coverages. The Named Insured (Subdivider or General Contractor as appropriate) may determine the layering of primary and excess liability insurance provided that if such layering differs from that described here, the actual coverage program meets the minimum total required limits and complies with all other requirements listed here.

3. Business Auto Coverage. Business Auto Coverage shall be written on ISO Business Auto Coverage Form CA 00 01 or the equivalent, including symbol (1) (any Auto). If Subdivider (or Contractor) does not own any vehicles, this requirement may be satisfied by a non-owned vehicle endorsement to the general and umbrella liability policies. Limits shall be no less than one million dollars ($1,000,000) per accident. This policy shall be scheduled as underlying insurance to the umbrella policy required above for a total limit of no less than five million dollars ($5,000,000) each accident.

4. Workers' Compensation/Employer's Liability. Workers' Compensation/Employer's Liability shall provide workers' compensation statutory benefits as required by law. Employer's liability limits shall be no less than one million dollars ($1,000,000) per accident or disease. Employer's liability coverage shall be scheduled under the umbrella or excess liability policy described above. This policy shall be endorsed to waive any right of subrogation with respect to City, its officers, employees or agents.

5. Builder's Risk Insurance. Builder's Risk Insurance covering all real and personal property for "all risks" of loss or "comprehensive perils" coverage including but not limited to the perils of earth movement, including earthquake (if required by Subdivider's lender or if available at commercially reasonable rates) and flood for all Improvements.

B. Insurance After Construction. Upon completion of construction of the Improvements, and for the required one-year guarantee and warranty period for Improvements and the required 10-year indemnification period, Subdivider at Subdivider's expense shall maintain or cause to be maintained the following insurance:

1. Commercial Property Insurance. Commercial Property Insurance covering the Improvements. Coverage shall be at least as broad as the Insurance Services Offices broad causes of loss form CP 10 20, and reasonably approved of in writing by the City. Coverage shall be sufficient to insure 100% of the replacement value and there shall be no coinsurance provisions. The policy shall include an inflation guard endorsement, 100% rents coverage, contents coverage, coverage for personal property of others, ordinance or law and increased cost of construction coverage. Subdivider also agrees to provide builder's all-risk insurance using an inland marine form during the period of any major alteration or improvement, using the broadest form available.

The insurance coverage for the peril of earthquake required for this project is subject to availability on the open market at commercially reasonable premium cost, as determined by mutual agreement between Subdivider and City. If such earthquake insurance coverage should, after diligent effort by Subdivider, be unobtainable at such mutually determined commercially reasonable premium cost, then Subdivider shall obtain the maximum insurance reasonably obtainable at commercially reasonable premium cost (if any) and give notice to City of the extent of Subdivider's inability to obtain, in full, the required insurance, and in such event, Subdivider's obligation to procure and maintain such insurance may be excused, subject to City's verification of inability to obtain the required insurance. Subdivider and City agree that a premium cost of earthquake insurance coverage of up to 150% of the premium cost paid by Subdivider for such coverage on the Effective Date (to be adjusted over time based on the Consumer Price Index,) shall constitute a commercially reasonable premium cost. Non-availability at commercially reasonable premium cost must be documented by a letter from Subdivider's insurance broker or agent indicating a good faith effort to place the required insurance and showing, at a minimum, the names of the insurance carriers and the declinations or quotations received from each.

2. Commercial General Liability Insurance. Commercial General Liability Insurance (primary) shall be provided on ISO-CGL form No. CG 00 01 or equivalent coverage, including provisions for defense of additional insureds. Policy limits shall be no less than two million dollars ($2,000,000) per occurrence for all coverages and five million dollars ($5,000,000) general aggregate. City and its officers, employees and agents shall be added as additional insureds using ISO form CG 20 10 or equivalent if available from the insurer and reasonably acceptable to the City. Coverage shall apply on a primary non-contributing basis in relation to any other insurance or self-insurance, primary or excess, available to City or any officer, employee or agent of City until the warranty period specified in this Agreement expires.

3. Umbrella Liability Insurance. Umbrella Liability Insurance (or, at Subdivider's election, Excess Liability Insurance) (over primary) shall apply to bodily injury/property damage, personal injury/advertising injury, at a minimum. Coverage shall be at least as broad as any underlying coverage. Coverage shall be provided on a "pay on behalf" basis. There shall be no cross liability exclusion. Policy limits shall be not less than five million dollars ($5,000,000) per occurrence and in the aggregate, including any limits required in the underlying policies. The policy shall have a starting

date no later than and an ending date no earlier than those of the underlying coverages. Subdivider may determine the layering of primary and excess liability insurance provided that if such layering differs from that described here, the actual coverage program meets the minimum total required limits.

4. Workers Compensation Insurance. Workers' Compensation/Employer's Liability shall provide workers' compensation statutory benefits as required by law. Employer's liability limits shall be no less than one million dollars per accident or disease. Employer's liability coverage shall be scheduled under any umbrella or excess liability policy described above. Unless otherwise agreed, this policy shall be endorsed to waive any right of subrogation as respects City, its employees or agents.

5. Business Auto Coverage. Business Auto Coverage for vehicles owned, operated or maintained in any way connected with the project, shall be written on ISO Business Auto Coverage form CA 00 01 or the equivalent, including symbol (1) (any Auto). If Subdivider (or Contractor) does not own any vehicles, this requirement may be satisfied by a non-owned vehicle endorsement to the general and umbrella liability policies. Limits shall be no less than one million dollars ($1,000,000) per accident. This policy shall be scheduled as underlying insurance to the umbrella or excess liability policy required above for a total limit of no less than five million dollars ($5,000,000) each accident.

C. Provisions Pertaining to Insurance Provided by Subdivider

1. All insurance coverage and limits provided pursuant to this Agreement shall apply to the full extent of the policies involved, available or applicable. Nothing contained in this Agreement or any other agreement relating to City or its operations limits the application of such insurance coverage.

2. Requirements of specific coverage features or limits contained in this Section are not intended as a limitation on coverage, limits or other requirements, or a waiver of any coverage normally provided by any insurance. Specific reference to a given coverage feature is for purposes of clarification only and is not intended by any Party to be all inclusive, or to the exclusion of other coverage, or a waiver of any type.

3. All general or auto liability insurance coverage provided pursuant to this Agreement, or any other agreements pertaining to the performance of this Agreement, shall not prohibit Subdivider, and Subdivider's employees, or agents, from waiving the right of subrogation prior to a loss. Subdivider waives its right of subrogation against City.

4. None of the policies required herein shall be in compliance with these requirements if they include any limiting endorsement that has not been first submitted to City and approved in writing by the City.

5. Unless otherwise approved by City, Subdivider's insurance and insurance provided by any contractor or subcontractor relating to the construction of the Improvements shall be written by insurers authorized to do business in the State of California and with a minimum "Best's" Insurance Guide rating of at least "A-:VII." Self-insurance will not comply with these insurance specifications unless expressly approved in writing by the City.

6. In the event any policy of insurance required under this Agreement does not comply with these requirements and Subdivider does not cure the non-compliance within thirty (30) days after written notice from City (or Subdivider does not provide reasonable evidence of such cure within such period), or if the insurance is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any reasonable premium paid by City will be promptly reimbursed by Subdivider.

7. Subdivider agrees to provide evidence of the insurance required herein, satisfactory to City, consisting of certificate(s) of insurance evidencing all of the coverages required and an additional insured endorsement to Subdivider's general liability and umbrella liability policies using ISO Form CG 20 10 11 85. Certificate(s) are to reflect that the insurer will provide 30 days' notice of any cancellation of coverage and policies are to have a "cancellation endorsement" to the same effect. Subdivider agrees to provide copies of any endorsements modifying coverage in any way upon request from City.

8. Subdivider shall provide proof that policies of insurance required herein expiring during the term of this Agreement have been renewed or replaced with other policies providing at least the same coverage.

9. Any actual or alleged failure on the part of City or any other additional insured under these requirements to obtain proof of insurance required under this Agreement in no way waives any right or remedy of City or any additional insured, in this or any other regard.

10. Subdivider agrees to require all subcontractors or other parties (but not including a general contractor) hired for this project to construct the Improvements to purchase and maintain insurance for general liability (minimum limit $1,000,000 per occurrence), automobile liability ($1,000,000 per accident) and workers' compensation (statutory benefits). Prior to the issuance of the Certificate of Completion for each Phase, Subdivider shall, upon request by City, provide the City with copies of all insurance policies, certificates and endorsements related to such Phase.

11. Subdivider agrees to monitor and review all coverage required by this Section and assumes all responsibility for ensuring that such coverage is provided as required here. Subdivider agrees to obtain certificates evidencing such coverage. Subdivider agrees that upon request, all agreements with subcontractors or others with whom Subdivider contracts with on behalf of City, and all certificates of insurance

obtained in compliance with this paragraph will be submitted to City for review upon request by City. Failure of City to request copies of such documents will not impose any liability on City, or its employees.

12. Subdivider agrees to require that no contract used by any general contractor or subcontractor in connection with construction of the Improvements, or contracts Subdivider enters into on behalf of City, will reserve the right to charge back to City the cost of insurance required by this Agreement.

13. Where appropriate (such as in the case of automobile insurance coverages), coverage will not be limited to the specific location designated as the Property.

14. Subdivider agrees to provide notice to City of any claim or loss against Subdivider that includes City as a defendant promptly after Subdivider receives written notice or obtains knowledge thereof. City assumes no obligation or liability by such notice, but has the right (but not the duty) to monitor the handling of any such claim or claims if they are likely to involve City. City agrees to provide similar notice to Subdivider of any such claims it is notified of respecting the Property.

15. Subdivider agrees not to attempt to avoid its defense and indemnity obligations to City, and its officers, employees, agents by using as a defense Subdivider's statutory immunity under workers' compensation and similar statutes.

16. Subdivider agrees to ensure that coverage provided to meet these requirements is applicable separately to each insured and that there will be no cross liability exclusions that preclude coverage for suits between Subdivider and City or between City and any other insured or Named Insured under the policy, or between City and any Party associated with City or its employees.

17. If Subdivider or any contractor or subcontractor is a Limited Liability Company, general liability coverage must apply so that the Limited Liability Company and its Managers, Members, Affiliates, and their employees are insureds.

18. Subdivider shall require General Contractor to maintain commercial general liability, and if necessary, commercial umbrella liability insurance with a limit of not less than $15,000,000 for each occurrence, until the warranty period specified in this Agreement expires.

19. Subdivider agrees to obtain and provide to City evidence of professional liability coverage for Architects, Engineers or other design professionals working on the Improvements. The limit of liability required is subject to City approval, but in no event to be less than $1,000,000 per claim and in the aggregate, and Subdivider shall use reasonable efforts to require and cause such professionals to maintain coverage with respect to each occurrence for at least three years following substantial completion of the work and, in the event Subdivider is unable to do so, Subdivider shall promptly inform the City of the scope of such efforts and the reasons that it was unable to do so. If

Subdivider requests that the City approve a lower limit for any particular design professional Subdivider seeks to employ on the Improvements, City will evaluate each such request based on City's perception of liability exposure associated with the work that would be performed by that design professional.

20. To the extent a particular coverage or policy form or specification is not reasonably available from Subdivider's insurer or would result in an additional premium that is extraordinary or unreasonably disproportionate to the premium for the policy as a whole, then Subdivider shall provide substantially similar coverage reasonably acceptable to City for which the cost is not extraordinary or unreasonably disproportionate.

9. OWNERSHIP OF THE IMPROVEMENTS

A. Ownership of all or any category of the Improvements constructed and installed by the Subdivider pursuant to this Agreement and shown on the Map to be dedicated to the public shall vest, as applicable, in the City (or other specified governmental agency) upon acceptance of said Improvements by the City. The acceptance of the Improvements shall either be shown by a certificate on the Final Map or by subsequent resolution accepting the Improvements adopted by the City pursuant to Government Code Section 66477.2 and recorded with the County Recorder or by other writing.

B. The Subdivider shall at all times prior to the acceptance of the Improvements by the City, give good and adequate warning to the public of each and every dangerous and defective condition caused by the construction of the Improvements and shall take all steps reasonably necessary to protect the public from such dangerous or defective conditions. The Subdivider agrees and understands that until acceptance of the Improvements by the City in writing, each Improvement and Improvement area that is offered for dedication shall be under the charge of the Subdivider, and the Subdivider may close all or a portion of any street or area whenever necessary to protect the public during the construction of the Improvements.

10. PREPARATION AND RECORDATION OF CC&RS.

A. The Subdivider shall establish a Homeowners Association for the residential areas of the Final Map owned by Subdivider, and to pay all costs associated with the creation of the associations.

B. The Subdivider shall prepare and record Covenants, Conditions, and Restrictions (CC&Rs) which obligate each homeowners association to provide for maintenance of the shared facilities, improvements, and landscaping within the boundaries of the associations in perpetuity in accordance with the Development Agreement and conditions of approval. The CC&Rs shall describe the homeowners association and the City's responsibilities and rights, and shall be subject to the approval of the City prior to recordation.

C. The Subdivider shall implement applicable provisions of the Mitigation Monitoring and Reporting Program.

11. DEFAULT AND BREACH BY THE SUBDIVIDER AND REMEDIES OF THE CITY

A. Upon the occurrence of any of the following events, the Subdivider shall be deemed to be in default under this Agreement:

1. Subject to any time extensions granted in accordance with Section 4, failure to complete construction and installation of the Improvements or any of them by the completion date set forth above in the Subdivision Reference Data;

2. Failure to promptly correct or cure any defect in the Improvements or any of them (other than a City Directive) during the one-year guarantee and warranty period as required by Section 3.A or failure to commence correction or cure of any such defect or failure to diligently prosecute same to completion, in each instance following receipt by Subdivider of written notice that such defect exists;

3. Subject to any time extensions granted in accordance with Section 4, failure to perform substantial construction work of the Improvements or any of them, after commencement of work on same, for a period of thirty (30) days after Subdivider's receipt of written notice thereof from the City;

4. Insolvency, appointment of a receiver, or the filing of any petition in bankruptcy, whether voluntary or involuntary, and such is not cured or discharged within a period of thirty (30) days;

5. Commencement of a foreclosure action against the Subdivision or any portion thereof, or any conveyance by the Subdivider in lieu or in avoidance of foreclosure, within thirty (30) days after receipt by Subdivider of written notice thereof from the City; or

6. Failure to perform any other obligations in accordance with the terms and provisions of this Agreement within thirty (30) days after receipt by Subdivider of written notice thereof from the City.

B. City reserves to itself all remedies available to it at law or in equity for any breach of Subdivider's obligations under this Agreement. City shall have the right, without limitation of other rights or remedies, after written notice to Subdivider and a reasonable opportunity for Subdivider to cure any such alleged default, to draw upon or utilize any improvement security furnished hereunder to complete the Improvements or otherwise mitigate City's damages in the event of Subdivider's default.

C. Following Subdivider's receipt of written notice of alleged default and failure by Subdivider to promptly commence the cure of any alleged default and to diligently prosecute such cure to completion, the City may serve written notice of any such default upon the surety on any corporate surety bond furnished as improvement security hereunder, and request that said surety take over and complete the Improvements herein specified. If such surety, within thirty (30) days after service of such notice of default, does not give the City

written notice of its intention to perform this Agreement, or does not commence such performance within thirty (30) days after notice to the City of such intention to perform, the City may take over the work and prosecute the same to completion, by contract or by any other method the City deems advisable, for the account and at the expense of the Subdivider and its surety.

D. Subdivider acknowledges that the Estimated Total Costs and Improvement Security amounts set forth herein may not reflect the actual cost of construction or installation of the Improvements, and, consequently, City's damages for Subdivider's default shall be measured by the actual cost of completing the required Improvements. If the damages incurred by the City in taking over and completing the Improvements exceeds the principal amount of the improvement security, then the Subdivider shall reimburse the City in the amount of such excess damages.

E. Following Subdivider's receipt of written notice of alleged default and failure by Subdivider to promptly commence the cure of any alleged default and to diligently prosecute such cure to completion, City may, without liability for so doing, take possession of, and utilize in completing the Improvements, such materials, appliances, plant and other property belonging to Subdivider as may be on the site of the work and necessary for the performance of the work. Subdivider hereby consents to such entry by the City and its representatives, including contractors, following written notice to Subdivider upon the real property in the Subdivision owned by Subdivider and necessary for City to enter or access under this Agreement, in the event the City elects to maintain or complete the work on the Improvements following Subdivider's default.

F. Subdivider acknowledges and agrees that approval of the Final Map for the Subdivision conferred substantial rights upon the Subdivider, including the right to sell, lease or finance lots within the Subdivision, and that such approval constitutes the final act necessary to permit the division of land within the Subdivision. As a result, City will be damaged to the extent of the cost of construction or installation of the Improvements upon Subdivider's failure to perform its obligations under this Agreement, which failure is not promptly remedied by sureties or by Subdivider.

G. The City's failure to take an enforcement action with respect to a default, or to declare a default or breach, shall not be construed as a waiver of that default or breach or any subsequent default or breach of the Subdivider.

H. If City sues to compel Subdivider's performance of this Agreement, or to recover damages or costs incurred in completing or maintaining the work on the Improvements, and is the prevailing party, Subdivider agrees to pay all reasonable attorneys' fees and other costs and expenses of litigation incurred by the City in connection therewith, even if Subdivider subsequently resumes and completes the work.

12. RELATIONSHIP OF THE PARTIES

Neither Subdivider, nor any of Subdivider's contractors, employees or agents, are or shall be deemed to be, agents of the City in connection with the performance of Subdivider's obligations under this Agreement.

13. ASSIGNMENT

A. Subdivider shall not assign this Agreement, or any portion thereof without the prior written consent of the City in accordance with the Development Agreement. Any attempted or purported assignment in violation of this subparagraph A shall be null and void and shall have no force or effect.

B. The sale or other disposition of the Subdivision shall not relieve Subdivider of its obligations hereunder. If Subdivider intends to sell the Subdivision, or any portion thereof (except for the sale of individual lots with homes to individual purchasers), to any other person or entity, the Subdivider may request an assignment or novation of this Agreement and a substitution of improvement security. Upon the City's approval of the assignment or novation and substitution of improvement security, the Subdivider may request a release or reduction of the improvement security furnished pursuant to this Agreement.

14. NOTICES

All notices required or provided for in this Agreement shall be in writing and delivered in person or by mail, postage prepaid, and addressed as follows:

If to the City:	Art Vela Director of Public Works/City Engineer City of Banning 99 E. Ramsey Drive Banning, California 92220
If to the Subdivider:	To the address set forth above in the Subdivision Reference Data, or to such other address as may subsequently be designated in written notice to the City.

Notice shall be effective on the date that it is delivered in person, or, if mailed, three (3) days after the date of deposit in the United States Mail.

15. ENTIRE AGREEMENT

This Agreement constitutes the entire agreement of the parties with respect to its subject matter. All modifications, amendments, or waivers of any terms of this Agreement shall be in writing and signed by the duly authorized representatives of the parties. In the case of the City, the duly authorized representative, unless otherwise specified herein, shall be the City Engineer.

16. SEVERABILITY

The provisions of this Agreement are severable. If any portion of this Agreement is held invalid by a court of competent jurisdiction, the remainder of the Agreement shall remain in full force and effect.

17. INCORPORATION OF SUBDIVISION REFERENCE DATA AND RECITALS

The Subdivision Reference Data and the Recitals are incorporated into this Agreement.

18. GOVERNING LAW

This Agreement shall be governed by the laws of the State of California.

19. EFFECTIVE DATE OF THE AGREEMENT

This Agreement shall be and become effective as of the date that it is executed by a duly authorized officer or employee of the City, it being the intention of the parties that the Subdivider shall first execute this Agreement and thereafter submit it to the City. The City shall insert the effective date in the Subdivision Reference Data in all counterparts of this Agreement and shall transmit a fully executed counterpart to the Subdivider.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their respective officers, thereunto duly authorized, as of the dates set forth below their respective signatures.

[Note: All signatures must be acknowledged by a notary public and the acknowledgement must be attached. If signed by a Corporation, the signatures of two Corporate officers are required, unless a resolution of the Corporation's Board of Directors is provided indicating that the signature of the one signatory is sufficient to bind the Corporation.]

RESOLUTION 2021-59

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BANNING, CALIFORNIA, MAKING AN ENVIRONMENTAL DETERMINATION UNDER CEQA AND APPROVE TENTATIVE TRACT MAP NO. 37389, A SUBDIVISION OF APPROXIMATELY 152.47 GROSS ACRES OF VACANT LAND FOR PURPOSES OF CREATING 616 SINGLE FAMILY LOTS, 2 LOTS FOR PARKS, ONE LOT FOR A POTENTIAL WELL SITE OR PARK, 30 OPEN SPACE LETTERED LOTS (INCLUDING RECREATION AND DRAINAGE), PRIVATE COMMON DRIVES AND PUBLIC STREETS, ON REAL PROPERTY LOCATED NORTH OF WILSON STREET AND EAST OF HIGHLAND SPRINGS AVENUE WITHIN THE SOUTHWESTERLY PORTION OF THE BUTTERFIELD SPECIFIC PLAN (APNS: 408-120-024, 408-120-038, 408-120-040, AND PORTIONS OF 408-120-018, 408-120-042)

WHEREAS, an application for Tentative Tract Map No. 37389, attached hereto as Exhibit "A," to subdivide approximately 152.47 gross acres of vacant real property into residential, park, and open space lots, along with private common drives and public streets (the "Project"), has been duly filed by:

Project Applicant:	Tri Pointe Homes 1250 Corona Pointe Court, #600 Corona, CA 92879
Property Owner:	Tri Pointe Homes 1250 Corona Pointe Court, #600 Corona, CA 92879
Parcel Address:	North of Wilson Street, east of Highland Springs Avenue
APNs:	408-120-024, 408-120-038, 408-120-040, and portions of 408-120-018, 408-120-042
Lot Area:	Approximately 152.47 gross acres;

WHEREAS, pursuant to Title 16 of the Banning Municipal Code, the Planning Commission has the authority to review and make recommendations to the City Council concerning Tentative Tract Map 37389;

WHEREAS, on June 2, 2021, the Planning Commission held a duly noticed public hearing at which interested persons had an opportunity to testify in support of, or opposition to, proposed Tentative Tract Map 37389. Following the receipt of public testimony, the Planning Commission closed the public hearing. Following a discussion of the Project, the Planning Commission voted to recommend that the City Council approve proposed Tentative Tract Map 37389 by adopting Planning Commission Resolution 2021-06; and

WHEREAS, the Community Development Department has evaluated the Project's potential effects on the environment as required under the California Environmental Quality Act ("CEQA") (Cal. Pub. Res. Code, § 21000 *et seq.*) and determined that potential impacts associated with proposed Tentative Tract Map No. 37389 were adequately analyzed under the previously approved Final Environmental Impact Report for the Butterfield Specific Plan project (SCH No. 2007091149) and that pursuant to CEQA Guidelines Section 15162 no further environmental analysis is required;

WHEREAS, in accordance with Government Coce Sections 66451.3, 65090 and 65091, on June 11, 2021 the City gave public notice, by advertisement in the Record Gazette Newspaper, and by mailing to the owner of the subject real property, the owner's duly authorized agent, the Project applicant, and property owners within 300 feet of the Project site, of a public hearing concerning the Project; and

WHEREAS, in accordance with Banning Municipal Code Section 16.12.080, on June 22, 2019, the City Council held a public hearing at which time interested persons had an opportunity to testify in support of, or opposition to, the Project, and at which the City Council considered Tentative Tract Map 37389.

NOW THEREFORE, the City Council of the City of Banning does hereby resolve, determine, find, and order as follows:

SECTION 1: California Environmental Quality Act and Multiple Species Habitat Conservation Plan Findings. The City Council of the City of Banning makes the following environmental findings and determinations in connection with the approval of the Project:

A. Pursuant to the California Environmental Quality Act ("CEQA") (Cal. Pub. Res. Code, § 21000 *et seq.*), the State Guidelines (14 Cal. Code Regs. § 15000 *et seq.*), and the City's Local Guidelines, City staff has considered the potential environmental impacts of Tentative Tract Map No. 37389. City staff has also reviewed the previously certified Environmental Impact Report (EIR) for the Butterfield Specific Plan project (SCH No. 2007091149), including the impacts and mitigation measures identified therein, and reviewed the EIR in accordance with CEQA for the Project. Based on that review, the City of Banning Planning Division has determined that the Project and the circumstances under which the Project is undertaken do not involve substantial changes which will result in new significant environmental effects, and that the Project does not involve new information of substantial importance which shows that the Project will have significant effects not discussed in the prior EIR. All potential environmental impacts associated with the Butterfield Specific Plan and Tentative Tract Map No. 37389 are adequately addressed by the prior EIR.

B. The City Council has independently reviewed the Planning Division's determination, and based upon the whole record before it, the the Planning Division's determination, and its independent review and judgment, finds that that the Project is not subject to further environmental review pursuant to the Guidelines because: (1) the Project and the circumstances under

which the Project is undertaken do not involve substantial changes which will result in new significant environmental effects, and that the Project does not involve new information of substantial importance which shows that the Project will have significant effects not discussed in the prior EIR; and (2) all potential environmental impacts associated with Butterfield Specific Plan and the proposed Tentative Tract Map 37389 are adequately addressed by the prior EIR.

C. The custodian of records for the prior EIR, and all other materials that constitute the record of proceedings upon which the City Council's recommendation is based, is the Planning Division of the City of Banning. Those documents are available for public review in the Planning Division located at 99 E. Ramsey Street, Banning, California 92220.

D. Multiple Species Habitat Conservation Plan (MSHCP). The Project EIR's mitigation measures, including submittal of a Determination of Biologically Equivalent of Superior Preservation (DBESP), ensure consistency with the Western Riverside County MSHCP. These mitigation measures will be incorporated into future development approvals as required by the Project Mitigation Monitoring and Reporting Program to ensure consistency with the MSHCP.

SECTION 2: Findings for Recommendation of Approval of Tentative Tract Map 37389. The City Council of the City of Banning does hereby find and determine that Tentative Tract Map 37389 should be approved because:

A. Finding: Tentative Tact Map No. 37389 is consistent with the objectives, policies, general land uses, and programs specified in the City's General Plan and the Butterfield Specific Plan.

Findings of Fact:
The General Plan land use designation for the site is classified as Specific Plan; the Butterfield Specific Plan includes land use designations of Low Density Residential, Medium Density Residential, Open Space, and Parks uses within the proposed Project area. The proposed Tentative Tract Map No. 37389 is consistent with the City's General Plan in that as it will provide for a range of housing types, parks, and open space as envisioned by the General Plan's Land Use element and an efficient transportation system as envisioned by the General Plan's Circulation element. It is consistent with the Butterfield Specific Plan as it provides for land uses consistent with those designated for the Project area by the Specific Plan land use map. As such, the proposed Tentative Tract Map No. 37389 is consistent with the objectives, policies, general land uses, and programs specified in the City's General Plan and the Butterfield Specific Plan.

B. Finding: The design and improvement of the subdivision proposed under Tentative Tract Map No. 37389 is consistent with the City's General Plan and the Butterfield Specific Plan.

Findings of Fact:
The design and improvement of the proposed subdivision is consistent with the City's General Plan and the Butterfield Specific Plan in that it will provide for a range of housing to meet the needs of the City's residents, and an efficient transportation system as envisioned by the General Plan, and is designed to meet City standards, including providing satisfactory pedestrian and vehicular circulation, emergency vehicle access and on site improvements, such as streets, utilities, and drainage facilities consistent with the Specific Plan.

C. **Finding: The subject site is physically suitable for the type of development proposed under Tentative Tract Map No. 37389.**

Findings of Fact:
The Project site transitions from relatively flat land at the northeast corner of Highland Springs Avenue and Wilson Street to the foothills of the San Bernardino Mountains. Major access to the Project site is provided by Highland Springs Avenue and Wilson Street. Analysis of the Project site relative to the physical suitability of the site for development was included in previous approvals for the Butterfield Specific Plan and the site is physically suitable for the proposed development as allowed under the Butterfield Specific Plan.

D. **Finding: The site is physically suitable for the proposed density of development under Tentative Tract Map No. 37389.**

Findings of Fact:
The Project site transitions from relatively flat land at the northeast corner of Highland Springs Avenue and Wilson Street to the foothills of the San Bernardino Mountains. Major access to the site is provided by Highland Springs Avenue and Wilson Street. Analysis of the Project site relative to the physical suitability for density of development was included in the approvals for the Butterfield Specific Plan, and the proposed number of dwelling units is lower than that allowed under the Butterfield Specific Plan.

E. **Finding: The design of the subdivision and improvements proposed under Tentative Tract Map No. 37389 is not likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat.**

Findings of Fact:
Potential environment issues associated with the proposed Tentative Tract Map No. 37389 were analyzed in the previously certified Environmental Impact Report for the Butterfield Specific Plan project (SCH No. 2007091149), as amended by the Addendum approved by the City Council in February 2017. With the imposition of mitigation measures, the Project will not have a significant effect on biological resources. There have been no substantial changes in the Project, nor in the circumstances under which

the Project is undertaken, that will require major revisions of the prior certified EIR; nor is there new information that shows that the Project will have a significant environmental effect or an effect more severe than originally thought. Therefore, the proposed Tentative Tract Map No. 37389 is not likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat.

F. **Finding: The design of the subdivision and improvements proposed under Tentative Tract Map No. 37389 is not likely to cause serious health problems.**

Findings of Fact:
The proposed Tentative Tract Map No. 37389 is in conformance with the City's General Plan, Zoning Ordinance, and Subdivision Ordinance and the Butterfield Specific Plan, and the Project has been conditioned to comply with all applicable Specific Plan requirements and requirements of the City's ordinances, codes, and standards. In addition, the design and construction of improvements are conditioned to be in conformance with adopted City street and public works standards. The City's ordinances, codes, and standards have been created based on currently accepted standards and practices for the preservation of the public health, safety, and welfare.

G. **Finding: The design of the subdivision and improvements proposed under Tentative Tract Map No. 37389 will not conflict with easements, acquired by the public at large, for access through or use of, property within the proposed subdivision.**

Findings of Fact:
Tentative Tract Map No. 37389 does not conflict with any easements for access through or use of property within the proposed subdivision.

H. **Finding: The design of the proposed Tentative Tract Map No. 37389 provides, to the extent feasible, for future passive or natural heating or cooling opportunities in the subdivision.**

Findings of Fact:
Tentative Tract Map No. 37389 does not propose any design features that would conflict with future passive or natural heating or cooling opportunities.

SECTION 3: CITY COUNCIL ACTION - Approval of Tentative Tract Map 37389 with Conditions. Based on the foregoing the City Council of the City of Banning approves Tentative Tract Map 37389, attached hereto as Exhibit "A," a subdivision of approximately 152.47 gross acres into 616 single family lots, 2 lots for parks, one lot for a potential well site or park, 30 open space lots, common private drives and public streets on real property located north of Wilson Street and east of Highland Springs avenue within the southwesterly portion of the Butterfield Specific Plan (APNs: Portions of 408-120-024 408-120-038, 408-120-040, and portions of 408-120-018, 408-120-042), subject to the recommended Conditions of Approval attached as Exhibit "B".

PASSED, APPROVED, AND ADOPTED this 22nd day of June 2021.

Colleen Wallace, Mayor
City of Banning

ATTEST:

Caroline Patton, Deputy City Clerk
City of Banning

APPROVED AS TO FORM AND LEGAL CONTENT:

Kevin G. Ennis, City Attorney
Richards, Watson & Gershon

CERTIFICATION:

I, Caroline Patton, Deputy City Clerk of the City of Banning, California, do hereby certify that the foregoing Resolution 2021-59, was duly adopted by the City Council of the City of Banning, California, at a regular meeting thereof held on the 22nd day of June 2021 by the following vote, to wit:

AYES: Council Members Hamlin, Happe, Pingree, Sanchez, and Mayor Wallace.

FLOOD ZONE NOTE

THE SUBJECT PROPERTY IS DESIGNATED AS LYING WITHIN ZONES "A", "X" AND "AE" ON THE FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA) FLOOD INSURANCE RATE MAP COMMUNITY PANEL NUMBERS 06065C 0616G, MAP NUMBER 06065C 0616G DATED AUGUST 28, 2008.

ZONE "A" BEING DEFINED AS "AREAS OF 100-YEAR FLOOD; BASE FLOOD ELEVATIONS AND FLOOD HAZARD FACTORS NOT DETERMINED".

ZONE "X" BEING DEFINED AS "AREAS TO BE OUTSIDE THE 0.2% ANNUAL CHANCE FLOODPLAIN".

ZONE "AE" BEING DEFINED AS AREAS THAT HAVE A 1% PROBABILITY OF FLOODING EVERY YEAR AND BASE FLOOD ELEVATION ARE DETERMINED.

NOTES

1. PROPOSED PUBLIC WATER EASEMENT (SHEET 8).
2. PROPOSED PUBLIC SEWER EASEMENT (SHEET 8, 9).
3. PROPOSED PUBLIC STORM DRAIN EASEMENT (SHEETS 7 - 9).
4. PROPOSED PRIVATE ACCESS EASEMENT (SHEET 7, 12).
5. PROPOSED 5' TRAIL EASEMENT (SHEETS 6 - 13).
6. EXISTING OVERHEAD UTILITY POLE WITH GUY WIRE TO BE PROTECTED IN PLACE (SHEETS 7 - 9).
7. EXISTING GUY WIRE FOR OVERHEAD UTILITY POLE TO BE REMOVED OR RELOCATED (SHEETS 5 - 9).
8. EXISTING OVERHEAD UTILITY POLE TO BE PROTECT IN PLACE (SHEETS 5 - 9).
9. PROPOSED PUBLIC ACCESS EASEMENT (SHEET 7 & 8).
10. LIMITED USE AREA (SIGHT DISTANCE) (SHEET 7, 9, 10, 12, 13).
11. SIGHT DISTANCE LINE (SHEET 7, 9, 10, 12, 13).
12. JOIN SEWER PER TTM NO. 37299, PHASE 1A (SHEET 7 & 8).
13. PROPOSED PUBLIC STORM DRAIN INLET AT END OF EXISTING ALLEY (SHEET 7 & 8).
14. PROPOSED PUBLIC STORM DRAIN INLET AT END OF EXISTING STREET (SHEET 7 & 8).
15. PROPOSED RAISED MEDIAN (SHEETS 7 - 11).
16. JOIN EXISTING 8" SEWER (SHEET 5 & 6).
17. JOIN EXISTING WATER (SHEET 5, 6, 8 & 9).
18. EXISTING WATER MAIN TO BE REMOVED (SHEET 8)
19. EXISTING 20" TRANSMISSION GAS MAIN TO BE RELOCATED (SHEETS 10 - 12).
20. EXISTING 20" TRANSMISSION GAS MAIN TO BE PROTECTED IN PLACE (SHEET 9 & 10).
21. EXISTING OVERHEAD ELECTRIC PROTECT IN PLACE (SHEET 8).
22. PROPOSED SIDEWALK BETWEEN COMMON DRIVES (SHEET 9 & 10).
23. PROPOSED CATCH BASIN (SHEET 6).
24. PROPOSED CURB & GUTTER AND SIDEWALK. JOIN EXISTING (SHEET 6)
25. EXISTING CURB & GUTTER (SHEET 6).
26. PROPOSED STORM DRAIN AND OUTLET STRUCTURE (SHEET 6).
27. PROPOSED SMITH CREEK DROP STRUCTURE (SHEET 6, 7, 12, 13 & 14).
28. PROPOSED PUBLIC UTILITY EASEMENT (SHEETS 8 - 9).

BASIS OF BEARINGS

THE BEARINGS FOR THIS SURVEY ARE BASED ON THE LINE BETWEEN STATIONS "TRAN" AND "MATH" (PORTIONS PER A NATIONAL GEODETIC SURVEY, NAD 83, EPOCH 1995.0), AS SHOWN ON THE MAP FILED IN BOOK 102, PAGES 53 THROUGH 61 OF RECORDS OF SURVEY, IN THE OFFICE OF THE COUNTY RECORDER OF RIVERSIDE COUNTY, CALIFORNIA, BEING NORTH 52° 42' 22.84" EAST.

BENCHMARK

ELEVATIONS AS SHOWN HEREON ARE IN TERMS OF THE NATIONAL GEODETIC VERTICAL DATUM OF NAVD 88 BASED LOCALLY UPON THE FOLLOWING BENCH MARK: 3-1/4" STANDARD ALUMINUM MAG DISK, FLUSH, LOCATED IN BANNING, 0.6 MILES SOUTH ALONG HIGHLAND SPRINGS AVENUE FROM THE INTERSECTION OF HIGHLAND SPRINGS AVENUE AND THE SOUTHERN PACIFIC RAILROAD BRIDGE, 17.5 FEET EAST OF THE CENTERLINE OF HIGHLAND SPRINGS AVENUE AT THE NORTHWEST CORNER OF CATCH BASIN AT THE TOP OF CURB, 0.5 FEET EAST OF FACE OF CURBS.

LEGAL DESCRIPTION

PORTIONS OF LOTS 3 & 4, LOT 9 - 17, 20, 21, A-E, I-M, 0-Q & PORTIONS OF LOTS C & D OF TRACT MAP NO. 35906, AS SHOWN ON BOOK 420 OF MAPS, PAGES 84 THROUGH 127, INCLUSIVE IN THE OFFICE OF THE COUNTY RECORDER OF RIVERSIDE, CALIFORNIA.

ASSESSORS PARCEL NUMBERS

425-120-023, 425-120-038, 426-250-043, AND PORTION OF 426-304-018 & 426-120-042

GENERAL INFORMATION

1. EXISTING LAND USE: VACANT
2. EXISTING ZONING: BUTTERFIELD SPECIFIC PLAN
3. EXISTING GENERAL PLAN: BUTTERFIELD SPECIFIC PLAN
4. PROPOSED LAND USE:
   - SINGLE-FAMILY RESIDENTIAL
   - MEDIUM DENSITY RESIDENTIAL
   - PARKS
   - OPEN SPACE
   - PUBLIC USE
5. PROPOSED ZONING: BUTTERFIELD SPECIFIC PLAN
6. PROPOSED GENERAL PLAN: BUTTERFIELD SPECIFIC PLAN
7. ADJACENT LAND USES:
   - NORTH: VACANT FUTURE RESIDENTIAL
   - EAST: VACANT FUTURE RESIDENTIAL & EXISTING RESIDENTIAL
   - SOUTH: MERCALI/SINGLE-FAMILY RESIDENTIAL/MOBILE HOMES
   - WEST: VACANT SINGLE-FAMILY RESIDENTIAL
8. PARK REQUIREMENTS TO BE MET BY THE DEDICATION AND CONSTRUCTION OF PARKS.
9. SCHOOL DISTRICTS:
   - ELEMENTARY: BEAUMONT UNIFIED SCHOOL DISTRICT
   - MIDDLE SCHOOL: BEAUMONT UNIFIED SCHOOL DISTRICT
   - HIGH SCHOOL: BEAUMONT UNIFIED SCHOOL DISTRICT
10. PAD ELEVATIONS SHOWN HEREON MAY BE ADJUSTED PLUS OR MINUS 3 FEET.
11. MULTIPLE FINAL MAPS MAY BE FILED PURSUANT TO SECTION 66456.1 OF THE CALIFORNIA GOVERNMENT CODE.
12. THIS TENTATIVE TRACT MAP IS WITHIN THE APPROVED BUTTERFIELD SPECIFIC PLAN.
13. ALL PROPOSED MANUFACTURED SLOPES SHALL BE A MAXIMUM OF 2:1, UNLESS OTHERWISE NOTED ON THE TENTATIVE TRACT MAP.
14. PRELIMINARY EARTHWORK QUANTITIES (ADJUSTED):
    CUT: 1,978,084 CY FILL: 2,473,520 CY
    IMPORT: 495,436 CY
15. GEOTECHNICAL SOILS INVESTIGATION REPORT WAS PREPARED BY GEOGEN WEST, INC., DATED OCTOBER 9, 2017.
16. THERE ARE NO HABITABLE STRUCTURES WITHIN THE BOUNDARIES OF THIS TENTATIVE TRACT MAP.
17. ALL PROPOSED STREETS WITHIN THIS TENTATIVE TRACT ARE PUBLIC AND SHALL BE MAINTAINED BY THE CITY OF BANNING.
18. THE DEVELOPER APPLICANT SHALL RESERVE THE RIGHT TO MERGE LOTS ON THE FINAL MAP.
19. THIS TENTATIVE TRACT MAP HAS BEEN DESIGNATED AS LYING WITHIN ZONES "X", "A" AND "AE" PER FIRM PANEL NUMBERS 06065C 0616G, MAP NUMBER 06065C 0616G, DATED AUGUST 28, 2008.
20. THIS TENTATIVE TRACT MAP INCLUDES THE ENTIRE CONTIGUOUS OWNERSHIP OF LAND BEING SUBDIVIDED.
21. TOPOGRAPHIC SURVEY WAS FLOWN AND COMPILED BY DON REID CORPORATION, DATED MAY 15, 2017.
22. A PORTION OF THIS TENTATIVE TRACT MAP IS SUBJECT TO OVERFLOW, INUNDATION OR FLOOD HAZARD.
23. ACCESS SHALL BE RESTRICTED ON STREETS 'G' AND 'M', UNLESS OTHERWISE SHOWN ON PLANS.
24. FINAL DESIGN SHALL COMPLY WITH THE N.P.D.E.S. REQUIREMENTS OUTLINED BY THE CITY OF BANNING.
25. PROPOSED OPEN SPACE LOTS 'A'-'DD' SHALL BE PRIVATE AND MAINTAINED BY AN APPROVED H.O.A.
26. PROPOSED PARK LOTS 618 & 619 SHALL BE MAINTAINED BY AN APPROVED H.O.A.
27. ALL PROPOSED RESIDENTIAL LOTS SHALL MAINTAIN A MINIMUM GRADE FROM REAR OF THE LOT TO THE STREET IN ACCORDANCE WITH LATEST CALIFORNIA BUILDING CODE.
28. FIRE PROTECTION SHALL BE PROVIDED BY THE CITY OF BANNING.
29. ALL PROPOSED ON-SITE STORM DRAIN FACILITIES, SIZE AND LOCATION ARE PRELIMINARY AND SUBJECT TO FINAL HYDRAULIC CALCULATIONS ACCEPTABLE TO THE CITY OF BANNING.
30. ALL PROPOSED WATER QUALITY BASINS (BMP) SHALL BE MAINTAINED BY AN APPROVED H.O.A., UNLESS CITY RAISE SHOWN.
31. ALL PROPOSED ON-SITE STORM WATER DISCHARGE FROM THIS TENTATIVE TRACT MAP SHALL BE TREATED BY PERMANENT ON-SITE TREATMENT CONTROL BMPS FOR TRASH AND DEBRIS OF OFF-SITE AND ON-SITE PRIOR TO DISCHARGE TO ANY EXISTING OR PROPOSED DRAINAGE FACILITY.
32. ALL DIMENSIONS ON THIS TENTATIVE TRACT MAP ARE APPROXIMATE.
33. ALL LANDSCAPING WITHIN EACH INDIVIDUAL RESIDENTIAL LOT SHALL BE MAINTAINED BY THE HOMEOWNER.
34. REMOVAL AND RELOCATION OF THE EXISTING GAS LINE SHALL BE COORDINATED WITH SOUTHERN CALIFORNIA GAS COMPANY.
35. PLANNING AREA 35A OCCURS IN TTM NO. 37299 IS 7.3 ACRES OF PHASE 1A), TTM NO. 37299 (0.26 ACRES OF PHASE 1B), AND TTM NO. 37389 (6.51 OF PHASE 2A). THE TOTAL APPROXIMATE AREA PROPOSED FOR PLANNING AREA 35A IS 13.27 ACRES WHICH IS 17.15% BELOW THE APPROVED BUTTERFIELD SPECIFIC PLAN (2010) AREA OF 12.4 ACRES.
36. PROPOSED PUBLIC USE LOT 620 SHALL BE MAINTAINED BY THE CITY, INCLUDING BIORETENTION BASIN BMP #14.
37. ALL PROPOSED COMMON DRIVES WITHIN THIS TENTATIVE TRACT MAP ARE PRIVATE AND SHALL BE MAINTAINED BY AN APPROVED HOA/TOWNSEPS ASSOCIATION.
38. PROPOSED WELL SITE LOT 617 SHALL BE OWNED AND MAINTAINED BY THE CITY OF BANNING. PROPOSED WELL SITE LOT 617 MAY ALSO BE USED AS AN OPTIONAL PARK SITE IN-LIEU OF A WELL SITE WHICH WOULD BE OWNED AND MAINTAINED BY AN APPROVED H.O.A.

Exhibit "B"

Tentative Tract Map No. 37389 Conditions of Approval

City of Banning

Community Development Department

Conditions of Approval

PROJECT: Tentative Tract Map 37389
SUBJECT: Conditions of Approval (City Council Resolution 2021-59)
APPLICANT: Tri-Pointe Homes
LOCATION: Northeast corner of Highland Springs Avenue and Wilson Street

Exhibit "B"
Tentative Tract Map 37389 Conditions of Approval

Community Development

1. The City and Developer are parties to a Development Agreement, recorded on July 17, 2012, as document number 2012-0332888 ("DA"). In the event of any direct inconsistency or conflict between these Conditions of Approval and the DA, the DA shall control. The Developer shall indemnify the City as described in the DA.

2. Approval of this entitlement shall not waive compliance with any sections of the DA, Butterfield Specific Plan, or other applicable City Ordinances in effect at the time of building permit issuance to the extent such City Ordinances are applicable to the project and not vested under the DA.

3. Approval of Tentative Tract Map 37389 shall run with the term of the DA. All conditions of approval must be met on or before the expiration date or the applicant must request an extension of time at least thirty (30) days prior to the expiration date, and receive approval of said extension; otherwise, the approval shall expire and become null and void.

4. Unless approved otherwise by City, the developer shall comply with all applicable conditions of City Council Ordinance No. 1450 approving the Butterfield Specific Plan and conditions of City Council Resolution No. 2017-07 approving Minor Modifications to the Butterfield Specific Plan.

5. All mitigation measures required by the Butterfield Specific Plan Environmental Impact Report Mitigation Monitoring and Reporting Program (MMRP), as modified pursuant to the approved Addendum, and conditions of the project's Settlement Agreement shall be implemented if those measures/conditions relate to this phase or part of the development or are required to be satisfied in connection with this phase or part of the development.

6. A copy of the signed resolution of approval and all conditions of approval and any applicable mitigation measures shall be reproduced in legible form on the grading plans submitted for review and approval as required by the reviewing department.

7. The Developer shall pay all applicable development impact fees and other fees as required under the DA. Adjustments and/or fee credits to the applicable DIFs may be provided as allowed in the DA and any applicable implementing DIF credit agreement. The project proponent shall provide written evidence to the City that school mitigation fees have been paid or other arrangements acceptable to the applicable school district and Developer have been met.

8. Deposits shall be handled per the executed Deposit Agreement dated May 7, 2019.

9. A copy of the final grading and erosion control plan, approved by Engineering, shall be submitted to the Planning Department for review and approval of the landscaping plans when graded cut slopes exceed five (5) feet in height and fill slopes exceed five (5) feet in height.

10. Per DA Exhibit E, Section 5.2, the Developer shall stabilize according to the City Grading and Landscaping Ordinance [as it may be vested under the DA] the rear slope of all residential lots prior to issuance of a certificate of occupancy but shall not be required to landscape and/or irrigate the slopes. It is the intention that the rear yard landscaping will be required and installed within the time specified in the CC&Rs by the homeowner.

11. Per DA Section 6.5.2, Phasing Plans specifying when the lots within Tract 37389 will be developed and when all appropriate public infrastructure within Tract 37389 will be constructed shall be approved prior to commencement of development within the tract. Prior to approval of the Final Map, all conditions requiring the provision or proposed project facilities and subdivision improvements for the area covered by the Tentative Map must be satisfied either through performance or through the provision of suitable security prior to recordation of the Final Map or deferred with City approval under the terms of the DA.

12. Prior to precise grading plan approval, a conceptual (non-structural) project wall/fencing plan to include retaining walls, perimeter walls, and interior walls shall be developed and shall be subject to design review approval by the Planning Department.

13. Prior to precise grading plan approval for PA's 19 and 35A, a Design Review application for Open Space PA's 19 and 35A shall be reviewed and approved by the Planning Commission. The Design Review application for PA's 19 and 35A shall include conceptual details on recreational uses to be provided within PA's 19 and 35A, including how these facilities will be linkable to other tracts, parks and open space including public access.

14. Prior to construction of the three proposed parks, the Developer shall obtain approval of a detailed site plan demonstrating the facilities to be provided from the Director of Community Development.

15. All residential and commercial neighborhoods and public facilities shall require Design Review approval by the Planning Commission.

16. Temporary construction fencing shall be installed around portions of the tract under construction until replacement by permanent walls/fencing or completion of improvements.

17. Developer shall meet all legal requirements of responsible agencies.

Engineering/Public Works

A. General Requirements

18. A Public Works Permit shall be required prior to commencement of any work within the public right-of-way. The contractor working within the public right-of-way shall submit proof of a Class "A" State Contractor's License, City of Banning Business License, and Liability Insurance. Any existing public improvements, or new public improvements accepted or not accepted by the City that are damaged during construction shall be removed and replaced as determined by the City Engineer or his/her representative.

19. Prior to the issuance of any grading, construction, or public works permit by the City, the applicant shall obtain any applicable and legally required clearances and/or permits. When the requirements include approval of improvement plans, the applicant shall furnish proof of such approvals when submitting improvement plans to the City:

- Fire Marshal (access)
- Public Works Department (grading permits, street improvement permits)
- Community Development Department
- Riverside County Flood Control & Water Conservation District (storm drain)
- California Regional Water Quality Control Board Colorado River Basin (RWQCB)
- South Coast Air Quality Management District (SCAQMD)

20. The following improvement plans shall be prepared by a Civil Engineer licensed by the State of California and submitted to the Engineering Division for review and approval. A separate set of plans shall be prepared for each line item listed below. Unless otherwise authorized in writing by the City Engineer, the plans shall utilize the minimum scale specified and shall be drawn on 24" x 36" Mylar film for final signatures. Plans may be prepared at a larger scale if additional detail or plan clarity is desired (Note: the applicant may be required to prepare other improvement plans not listed here pursuant to improvements required by other agencies and utility purveyors):

a.	Rough Grading Plans	1" = 40' Horizontal
b.	Haul Route Plans (If soils is exported off site)	1" = 40' Horizontal
c.	Clearing Plans (Include fuel modifications zones) (Include construction fencing plan)	1" = 50' Horizontal
d.	Erosion Control & SWPPP, WQMP (Note: a, b, c & d shall be reviewed and approved concurrently)	1" = 40' Horizontal
e.	Storm Drain Plans	1" = 40' Horizontal

f.	Street Improvement Plans	1" = 40' Horizontal 1" = 4' Vertical
g.	Traffic Signal Plans (Caltrans Standard)	1" = 20' Horizontal
h.	Signing & Striping Plans	1" = 40' Horizontal
i.	Construction Traffic Control Plan (Major or Arterial Highways only)	1" = 40' Horizontal
j.	Precise Grading Plans	1" = 40' Horizontal
k.	Landscaping Plans	1" = 20' Horizontal
l.	Water, Sewer, & Recycled Water Plans	1" = 40' Horizontal

Other engineered improvement plans prepared for City approval that are not listed herein shall be prepared in formats approved by the City Engineer prior to commencing plan preparation.

21. All off-site plan and profile street improvement plans and signing & striping plans shall show all existing improvements for a distance of at least 200-feet beyond the project limits, or at a distance sufficient to show any required design transitions.

22. All on-site signing and striping plans shall show the following at a minimum: stop signs, limit lines and legends, no parking signs, raised pavement markers (including blue raised pavement markers at fire hydrants) and street name signs per Public Works standard plans and/or as approved by the City Engineer.

23. A small index map shall be included on the title sheet of each set of plans, showing the overall view of the entire work area.

24. Upon completion of construction, the Developer shall furnish the City with reproducible record drawings on Mylar film of all improvement plans that were approved by the City Engineer. Each sheet shall be clearly marked "As-Built" or "As-Constructed" and shall be stamped and signed by the engineer or surveyor certifying the accuracy and completeness of the drawings. The applicant shall have all AutoCAD files submitted to the City, revised to reflect the "As-Built" conditions.

25. All future utility systems including gas, electric, telephone, water, sewer, and cable TV, except for temporary utility systems as defined under the DA, shall be provided for underground, with easements provided as required, and designed and constructed in accordance with City codes and the utility provider. Telephone, cable TV, and/or security systems shall be pre-wired.

B. Rights of Way/Public Improvements

26. Prior to issuance of any permit(s), the applicant shall acquire or confer property rights necessary for the construction or proper functioning of the proposed project/development. If those property rights are located outside the project/development, then the procedures and requirements of Government Code Section 66462.5 shall apply, including the potential acquisition of those rights by the City or waiver of the City's requirement to obtain those rights. Conferred rights may include right-of-way dedications, irrevocable offers to dedicate or grant of easements to the City for emergency services, maintenance, utilities, storm drain facilities, or temporary construction purposes including the reconstruction of essential improvements.

27. The applicant shall offer for dedication on the Final Map, within Final Map boundaries, all public street right-of-way in conformance with the DA and the Butterfield Specific Plan. The City may reject the dedications and leave them open for future acceptance until all public improvements are installed by the applicant in the rights of way.

28. Maintenance easements dedicated to the City of Banning shall extend at most 10-feet beyond the toe of slope, where sufficient space available or as approved by the City Engineer, for those slope areas where maintenance falls within the responsibility of the City.

29. Prior to the issuance of any certificates of occupancy, the applicant shall not grant any easements over any property subject to a requirement of dedication or irrevocable offer of dedication to the City of Banning or the Riverside County Flood Control and Water Conservation District unless such easements are expressly made subordinate to the easements to be offered for dedication to the City or RCFCD. Prior to granting any of said easements, the applicant shall furnish a copy of the proposed easement to the City Engineer for review and approval. Further, a copy of the approved easement shall be furnished to the City Engineer prior to the issuance of any certificate of use and/or occupancy.

30. All street improvement designs shall provide pavement and lane transitions per City of Banning and Caltrans standards for transition to existing street sections.

31. Design and construct full street improvements in accordance with City standards for ALL streets as approved on the Final Tract Map including, but not limit to street lighting, curb and gutter, cross gutters and spandrels, access ramps, driveway approaches, sidewalk, asphalt concrete pavement, street name signs, traffic signs and striping, and any transitions. Applicant's geotechnical engineer shall provide the design of the pavement section based upon the Caltrans method. STREET AND SIDEWALK WIDTHS AND CROSS SECTIONS SHALL COMPLY WITH THE APPROVED 2016 UPDATED BUTTERFIELD SPECIFIC PLAN or as agreed to by the Developer and City Engineer.

32. The applicant shall plant and maintain trees, shrubs, and ground cover placed in the parkway, slopes adjacent to public right-of-ways, and median islands constructed in connection with

the project in accordance with applicable City standards until maintenance of such area is turned over to HOA, LMD or other public financing District. This includes ensuring that irrigation systems are operating properly, the clearing of debris, and regular weed removal. Turnover to a LMD or other public financing District will not be unreasonably withheld, conditioned or delayed.

33. All applicable public improvements required for occupancy shall be completed, tested, and approved by the Engineering Division prior to issuance of any Certificate of Occupancy. City to provide inspections in timely manner and any inspections exceeding 2 inspections to require meeting with City Engineer to address.

C. Grading and Drainage

34. The applicant shall submit an updated Drainage Study with hydrologic and hydraulic analysis for developed and undeveloped (existing) conditions to the Public Works Department – Engineering Division for review and approval. The study and analysis shall be prepared by a civil engineer licensed by the State of California. Drainage design shall be in accordance with Banning Master Drainage Plan adopted by Riverside County Flood Control and Water Conservation District (RCFCD), RCFCD Hydrology Manual, and standard plans and specifications. The 10-year storm flow shall be contained within the street curbs, and the 100-year storm shall be contained within the street right-of-way. When these criteria are exceeded, additional drainage facilities shall be designed and constructed.

35. At a minimum, all development will make provisions to store runoff from rainfall events up to and including the 100-year 3-hour duration event. Post-development peak urban runoff discharge rates shall not exceed pre-development peak urban runoff discharge rates.

36. If the site is located in an identified Flood Area as identified in Flood Insurance Rate Map dated August 28, 2008, the developer is responsible for providing a certification by a registered professional engineer or architect demonstrating that encroachments shall not result in any increase in flood levels during the occurrence of the base flood discharge.

37. The project grading shall be designed in a manner that perpetuates the existing natural drainage patterns with respect to tributary drainage areas, outlet points and outlet conditions. Otherwise, a drainage easement shall be obtained for the release of concentrated or diverted storm flows.

38. The applicant shall comply with Chapter 13.24 "Stormwater Management Systems" of the Banning Municipal Code (BMC) and Title 18 "Grading, Erosion and Sediment Control" of the California Building Code related to excavation and grading, subject to the terms of the DA; and the State Water Resources Control Board's orders, rules and regulations.

39. For construction activities including clearing, grading or excavation of land that disturbs one (1) acre or more of land, or that disturbs less than one (1) acre of land, but which is a part of a

construction project that encompasses more than one (1) acre of land, the applicant shall be required to submit a Storm Water Pollution Protection Plan (SWPPP) and file a Notice of Intent (NOI) with the Regional Water Quality Control Board.

40. The applicant shall ensure that the required SWPPP is always available for inspection at the project site through and including acceptance of all improvements by the City.

41. The applicant's SWPPP shall include provisions for all of the following Best Management Practices ("BMPs"):

a. Temporary Soil Stabilization (erosion control).
b. Temporary Sediment Control.
c. Wind Erosion Control.
d. Tracking Control.
e. Non-Storm Water Management.
f. Waste Management and Materials Pollution Control.

42. All erosion and sediment control BMPs proposed by the applicant shall be designed using the CASQA BMP handbook and approved by the City Engineer prior to any onsite or offsite grading, pursuant to this phase.

43. The approved SWPPP and BMPs shall remain in effect for the entire duration of project construction until all associated improvements are completed and accepted by the City.

44. Grading and excavations in the public right-of-way shall be supplemented with a soils and geology report prepared by a professional engineer or geologist licensed by the State of California.

45. Prior to the issuance of any building permit(s), a precise grading plan shall be submitted to the City Engineer for review and approval. A grading permit shall be obtained prior to commencement of any grading activity.

46. Prior to issuance of any grading or building permit, a Project-Specific Final Water Quality Management Plan (F-WQMP) shall be reviewed and approved in accordance with California Regional Water Quality Control Board Colorado River Basin Region Order No. R7-2013-0011.

47. Prior to the issuance of a grading permit, the applicant shall execute a Stormwater Management Facilities Agreement on terms agreed to by the parties guaranteeing the maintenance of stormwater pollution controls. Said agreement shall be recorded with the Riverside County Recorder and run with the land.

48. Prior to issuance of any grading or building permit, the applicant shall install trash filters on newly constructed storm drain systems that are not tributary to any onsite water quality/detention basin in compliance with the Trash Amendment as amended and approved in accordance with California Regional Water Quality Control Board Colorado River Basin Region Order No. R7-2013-0011.

49. A notation shall be placed on all applicable rough grading plan(s): "Compliance with Mitigation Measures BIO-1 and BIO-2 is required."

50. Prior to the issuance of a building permit for any building lot, the applicant shall provide a lot pad certification. The pad certification shall include an elevation and compaction certification. The elevation certification shall be stamped and signed by a licensed civil engineer or land surveyor and shall list the pad elevation as shown on the approved grading plan, the actual pad elevation and the difference between the two, if any. The compaction certification shall list the relative compaction of the pad soil and shall be certified by a licensed geotechnical engineer.

51. If this final map includes areas within a designated Federal Emergency Management Agency (FEMA) National Flood Insurance Program (NFIP) Special Flood Hazard Zone, a letter of map revision (LOMR) shall be processed through FEMA and provided to the City Engineer prior to occupancy of affected lots.

52. The design of the development shall not cause any increase in flood boundaries, levels or frequencies in any area outside the development. Prior to issuance of any grading permits, FEMA may require a hydrologic and hydraulic analysis to be submitted and approved that demonstrates that the development will not cause any rise in base flood levels.

D. Landscaping Public Right of Way

53. The developer shall prepare a water conservation using xeriscape principles. "Xeriscape" shall mean a combination of landscape features and techniques that in the aggregate reduce the demand for and consumption of water, including appropriate low water using plants, non-living groundcover, a low percentage of turf coverage (limited to 25% of the planted area), and water conserving irrigation techniques and systems. A low water-using drought tolerant plant includes species suited to our climate, requiring less water in order to grow well.

54. An automatic sprinkler system and landscaping shall be installed, prior to certificate of occupancy for the portion of the project for which certificates of occupancy are requested, within the common areas including perimeter slopes and the interior collector streets. Each system shall include a smart landscape irrigation controller (including remote communication), a separate water meter and electric meter, and plantings as approved by the Community Development Director. Landscaping plans and specifications shall be reviewed and approved by the City Engineer.

55. A homeowners' association shall be established and the applicable Conditions, Covenants & Restrictions (CC & R's), shall be prepared for review and approval of the City Engineer at the time set forth in the DA providing for maintenance of the parkway on-site lighting and landscaping, slopes adjacent to public right-of-way, onsite private parking/roadway, any debris basins, BMP's referenced in the approved WQMP, and median island landscaping. The developer shall appoint the

initial members of the Board of Directors of the homeowners' association or take such other steps as may be reasonably necessary to assure that members have been appointed or elected to such Board of Directors, until under the terms of the applicable CC & R's individual lot owners have the power to elect the members of the Board of Directors in accordance with the CC & R's.

56. The conditions, covenants, and restrictions shall contain provisions which prohibit dissolution of the homeowners' association unless another entity has agreed to assume the operation and maintenance responsibilities of the homeowners' association. The conditions, covenants and restrictions shall contain provisions that prohibit the developer and his/her successors-in-interest from amending said covenants, conditions, and restrictions to conflict with these Conditions of Approval.

57. Alternatively, to having an HOA provide maintenance of the parkway on-site lighting and landscaping, slopes adjacent to public right-of-ways, any debris basins, BMP's referenced in the approved WQMP, and median island landscaping, a Landscaping Maintenance District (LMD), or other public financing mechanism, can be formed to provide for the landscape maintenance.

58. Landscape improvements shall be certified by a licensed landscape architect or licensed landscape contractor as having been installed in accordance with the approved detailed plans and specifications. The applicant shall furnish said certification, including an irrigation management report, for each landscape irrigation system and any other required implementation report determined applicable to the City Engineer for review and approval.

59. Landscape improvement plans shall incorporate the City's letter, dated May 11, 2019, providing construction level recommendations to the landscape working drawings.

E. Traffic

60. As part of each final tract map, a validation report, referencing compliance with Mitigation Measure TRF-2; which requires a Traffic Impact Analysis (TIA) validation report, is required at the direction of the City Engineer.

61. Street name signs and traffic control devices including traffic legends and traffic striping shall be installed or relocated in accordance with applicable City or Caltrans Standards and as shown on the approved plans and/or as directed by the City Engineer.

62. Prior to first building permit issuance of the phase, the applicant shall submit and obtain approval in writing from the Fire Marshall for the plans for the access and possible evacuation of all public or private access roads, drives, streets, and alleys. The plans shall include plan and sectional views and indicate the grade and width of the access road measured flowline to flow-line. When a dead-end access exceeds 150 feet or when otherwise required, a clearly marked fire apparatus access turnaround must be provided and approved by the Fire Marshall. Applicable covenant, conditions or restrictions or other approved documents shall contain provisions which prohibit obstructions such as

speed bumps/humps, control gates or other modifications within said easement or access road unless prior approval of the Fire Marshall is granted.

63. Driveway grades shall be designed in accordance with current City standards.

64. Parking areas shall be designed and improved with grades not to exceed five percent slope. All applicable ADA standards will be adhered to.

65. Access drives to the public right-of-way shall be restricted to those approved by the City Engineer as shown on the approved plans.

66. Prior to the issuance of any certificate of occupancy, all fire hydrants shall have a blue reflective pavement marker indicating the hydrant location on the street as approved by the Fire Marshall and must be maintained in good condition by the applicant or developer until the street is accepted by the City for maintenance.

F. Final Map

67. Prior to approval of any Final Map, the applicant shall construct on-site and off-site improvements required for the development of the property in accordance with the approved plans and satisfy its obligations for same, or shall furnish a fully secured and executed Subdivision Improvement Agreement on terms agreed to by the Parties guaranteeing the construction of such improvements and the satisfaction of its obligations for same, or shall agree to any combination thereof, unless such improvements are deferred with City approval under the terms of the DA or as otherwise set forth under the terms of the DA. For off-site improvements, the procedures and requirements of Government Code Section 66462.5 shall apply, including the potential acquisition of those rights by the City or waiver of the City's requirement to obtain those rights.

68. Prior to the recordation of Final Map or the issuance of the first grading permit (whichever occurs first), the applicant shall obtain approval from the Fire Marshall in consultation with the City Engineer, for a conceptual fuel modification plan and program, unless the City of Banning Fire Marshall ("Fire Marshall") finds in writing to the City that such plan and program are not required for development of the property within the boundaries of this TTM No. 37389. Prior to the issuance of the first certificate of occupancy, within the lots affected by said fuel modification plans, the fuel modification shall be installed and completed under the supervision of the Fire Marshall with an approved plant palette. The CC&Rs or other approved documents shall contain provisions for maintaining the fuel modification zones, including the removal of all dead and dying vegetation.

69. Security for the construction of public improvements in accordance with Government Code Section 66499 shall be as follows:

Faithful Performance Bond	100% of estimated cost
Labor and Material Bond	100% of estimated cost

Monumentation Bond $10,000.00

Securities for the public improvements shall be on file with the City Clerk prior to scheduling the final map for approval by City Council. Unit prices for bonding estimates shall be those specified or approved by the City Engineer.

70. Prior to approval of the Final Map, the applicant shall submit a list of street names and addresses in Microsoft Excel spread sheet format for review and approval. The house number system shall be in accordance with Section 12.32 of the Banning Municipal Code. A reduced copy of the subdivision map shall be included with the submittal.

71. Revisions to the approved Tentative Map during Final Map plan check process; including, but not limited to, lot line alignments, easements, improvement plan revisions, and similar minor changes that are in substantial compliance with the Tentative Map, or associated Conditions of Approval, shall be administratively approved through the plan check process with the mutual consent and approval of the Developer, the Community Development Director, and the City Engineer. Changes that are not administratively approved, through the process referenced above and herein shall be amended in accordance with the Subdivision Map Act, as amended and codified within the Banning Municipal Code (BMC).

72. Prior to approval of any Final Map the applicant shall identify and include in its improvement plans those routine structural and non-structural Best Management Practices (BMP's) as outlined in Supplement A to the Riverside County Drainage Area Management Plans and any attachments or as approved by the City Engineer.

73. Submit a copy of the title report, closure calculations, and any separate instruments or necessary right-of-way documents to the Engineering Division prior to final map approval.

74. A map of the proposed subdivision drawn at 1"=200' showing the outline of the streets including street names shall be submitted to the City to update the city atlas map.

75. An original Mylar of the final map (after recordation) shall be provided to the City for the record files.

76. Public improvements shall be completed and accepted by City of Banning prior to release of Faithful Performance Bond and Labor and Material Bond for such improvements. Faithful Performance Bond for applicable public improvements shall be reduced to 10% once City accepts improvements into maintenance period. Final 10% to serve as the maintenance bond for the 1-year maintenance period.

77. A record of all street centerline monument ties shall be submitted to the Engineering Division upon completion of improvements or prior to release of Monumentation Bond.

G. Water

78. Submit Water Improvement Plans along with the infrastructure phasing plan to the City Engineer for review and approval. The phasing plan, which shall be supported by a hydraulic analysis, shall identify all required water infrastructure (e.g. water mains, wells, booster stations, pressure reducing stations, reservoirs, etc.) required to meet the demands of this tract map. Design and construct water lines throughout and to property boundaries to tract as needed. The proposed new water lines shall connect to the City's water system as needed.

79. Submit a hydraulic analysis report demonstrating adequate pressures throughout the Tract 37389 water system during max day demand (MDD) with fire flow conditions. The hydraulic analysis, based on the City's latest calibrated water model, shall identify when and if additional facilities would be required to meet Tract 37389 water demands.

80. All water lines and fittings shall be a minimum of 8-inch in diameter and shall be DIP. Water line easements shall be a minimum width of 20 feet if installed outside of right-of-way or public utility easement.

81. Fire hydrants shall be installed within and on the tract boundaries as per approved plans, at a 300-foot maximum spacing.

82. A backflow device must be installed on all common-area buildings and at each irrigation water connection. The backflow device must be in compliance with City of Banning.

83. Fire Services will require an RPDA Device.

84. Sizing and timing of the construction of the water storage tanks shall be identified in the phasing plan as determined by the water system analysis or as agreed to by the Developer and City.

H. Sewer

85. Submit Sewer Improvement Plans along with the infrastructure phasing plan to the City Engineer for review and approval. The phasing plan shall identify all required sewer infrastructure (e.g. sewer mains, lift stations, treatment facilities, manholes, etc.) required to meet the demands of the tract map. A hydraulic analysis will need to be prepared and submitted that demonstrates the maximum discharge that can be accommodated by the existing collections system before a new trunk line is needed. Design and construct sewer lines throughout and to property boundaries of this tract. The proposed new sewer lines shall connect into the City's sewer system.

86. All sewer lines to be constructed within the public right-of-way shall be extra strength Vitrified Clay Pipe (VCP) or Polyvinyl Chloride (PVC) SDR 26 Pipe. All sewer mains shall be minimum of 8 inches in diameter. Any sewer main less than or equal to 15-inches (15") shall be PVC. Any sewer main greater than 15-inches (15") shall be extra strength VCP. Final sizes shall be approved by the City Engineer based on calculations submitted by the design engineer accounting for ultimate discharge flows for phase and all upstream areas. Sewer line easements shall be a minimum of 20 feet wide if installed outside of right-of-way or public utility easement.

87. Each residential unit shall have its own sewer lateral and shall be PVC SDR 26.

88. A sewer check valve shall be provided for each building with a finish pad elevation lower than the rim elevation of the immediate up-stream sewer manhole.

89. The new Wilson Sewer Lift Station shall be constructed and fully operational before issuance of the first certificate of occupancy.

I. Non-Potable Water

90. Submit non-potable water Improvement Plans along with a non-potable water Master Plan that includes a written phasing plan to the City Engineer for review and approval. Design and construct non-potable water lines as indicated on the non-potable Master Plan to tie-in points at the tract boundary.

91. All non-potable water lines to be constructed within the Public right-of-way shall be a minimum of 8-inches in diameter DIP. Final sizes shall be approved by the City Engineer based on hydraulic calculations provided by the design engineer. Where non-potable water line easements are necessary, they shall be a minimum of 20 feet wide if improvements are installed outside of right-of-way or public utility easements.

92. Any final subdivision map shall comply with the provisions of Government Code Section 66473.7, as applicable, per the DA.

93. All non-potable water lines shall be Ductile Iron Pipe (DIP) Class 350, with restrained joints conforming to DIPRA design guidelines where required. All non-potable water DIP mains shall be protected with purple-colored V-Bio polyethylene encasement.

94. A backflow device must be installed on each irrigation water connection, and in compliance with the State of California Department of Health Regulations. Contact the City of Banning, Water Operations Division, prior to the installation.

95. The non-potable water plans shall include appropriate signage for the irrigation of publicly accessible areas with non-potable water as required by the California Code of Regulations.

Electric Utility

96. The City of Banning Electric Utility ("Utility") will require adequate easements needed to service the project. An easement area behind sidewalk may be needed on Highland Home Rd, "C" St, "H" St, and "L" St for vaults, conduits, streetlights and pad mounted transformers and switches.

97. Easements will be required for Local Streets to serve residential lots and provide street lighting. Adequate easements will be required to serve all parcels of this project. These easements shall be offered for dedication to the City of Banning for public utility purposes. A non-exclusive easement shall be provided to the City of Banning to include the installation of electric distribution facilities within all common areas.

98. All streetlights to be installed on the major thoroughfares, arterial streets, and local streets are assumed to be publicly owned and maintained by the Utility.

99. Prior to constructing the Utility's electric distribution system, the developer shall submit a detailed engineering plan showing design, location and schematics for the utility system to be approved by the Utility. It will also be required that the developer follow the Electric Utility Maps & Records requirement (per attachment). This will allow the utility to assist with the completion of a distribution plan and provide a cost estimate to service the project. Design conditions and requirements to serve the Butterfield Project with electricity shall be discussed and reviewed following approval of TTM No. 37389.

100. The Developer shall execute an agreement with the Utility providing for the installation, construction, improvement, and dedication of the utility system following recordation of final map.

Fire Department

101. Fire Hydrants and Fire Flow: Prior to the issuance of building permits, plans for the water system shall be submitted to the fire department for review and approval. The water system shall be capable of delivering the required fire flow. Fire hydrant(s) location and spacing shall comply with the fire code. An approved water supply for fire protection during construction shall be made available prior to the arrival of combustible materials on site. Reference 2016 California Fire Code (CFC) 507.5.1, 3312, Appendices B and C.

102. Fire Department Access: Prior to building permit issuance, provide a site plan showing the fire lanes. Access roads shall be provided to within 150 feet to all portions of the exterior building walls and shall have an unobstructed width of not less than 24 feet. The construction of the access roads shall be all weather and capable of sustaining 40,000 lbs. over two axles for areas of residential development and 60,000 lbs. over two axels for commercial developments. Approved vehicle access,

either permanent or temporary, shall be provided during construction Ref. CFC 503.1.1, 3310.1 and 503.2.1

103. Requests for installation of traffic calming designs/devices on fire apparatus access roads shall be submitted and approved by the Office of the Fire Marshal. Ref. CFC 503.4.1

104. Construction Permits Fire Department Review: Submittal of house construction plans to the Office of the Fire Marshal for development, construction, installation, and operational use permitting will be required. Final fire and life safety conditions will be addressed when the Office of the Fire Marshal reviews these plans. These conditions will be based on occupancy, use, California Building Code (CBC), California Fire Code, and related codes, which are in effect at the time of building plan submittal.

105. Phased Construction Access: If construction is phased, each phase shall provide approved access for fire protection prior to any construction. Ref. CFC 503.1Banning Fire Services – Office of the County Fire Marshal Planning Case Conditions - Page 2 99 E. Ramsey Street • P.O. Box 998 • Banning, CA 92220-0998 • (951) 922-3100 7. Residential Fire Sprinklers: Residential fire sprinklers are required in all one and two-family dwellings per the California Residential Code (CRC). Plans must be submitted to the Office of the Fire Marshal for review and approval prior to installation. Ref. CRC 313.2

106. All electronically operated gates shall be provided with Knox key switches and automatic sensors for access. Ref. CFC 506.1

107. Addressing: All residential dwellings shall display street numbers in a prominent location on the street side of the residence. All commercial buildings shall display street numbers in a prominent location on the address side and additional locations as required. Ref. CFC 505.1 and County of Riverside Office of the Fire Marshal Standard #07-01

CITY OF BANNING

FAITHFUL PERFORMANCE BOND

Atwell – PA 12 TR 37389-4 – Street Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install, complete and guarantee for one year after acceptance thereof, certain designated public improvements generally identified as follows: Atwell – PA 12 TR 37389-4 – Street Improvements; and

WHEREAS, said Agreement is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a corporate surety bond or other approved improvement security to guarantee the faithful performance of said Agreement;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held and firmly bound unto the City in the penal sum of Eight Hundred Eighty-Nine Thousand One Hundred Fifty-Four and 86/100 Dollars ($889,154.86), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above-bounded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to, abide by, well and truly keep and perform the covenants, conditions and provisions in said Agreement and any modification thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers, agents and employees, as therein stipulated; then this obligation shall become void; otherwise, this obligation shall be and remain in full force and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified, costs and reasonable expenses and fees shall be included, including reasonable attorneys' fees, incurred by the City in successfully enforcing the obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement, the work to be performed thereunder, or the Improvement Plans and related specifications accompanying the Agreement shall in any manner affect its obligations on this bond. The Surety hereby waives notice of any such change, extension of time, alteration or addition to the terms of the Agreement, the work, or the Improvement Plans and related specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknolwedgents from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That The Continental Insurance Company, a Pennsylvania insurance company, is a duly organized and existing insurance company having its principal office in the City of Chicago, and State of Illinois, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Marina Tapia, Janina Monroe, Michelle Haase, Timothy J Noonan, Edward C Spector, Aidan Smock, Jaren A Marx, Erin Brown, Charles R Teter III, Simone Gerhard, B Aleman, K D Wapato, Rachel A Mullen, D Garcia, Sandra Corona, Jennifer Ochs, Ethan Spector, Sarah Campbell, Individually

of Irvine, CA, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind them thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the insurance company and all the acts of said Attorney, pursuant to the authority hereby given is hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the Authorizing By-Laws and Resolutions printed at the bottom of this page, duly adopted, as indicated, by the Board of Directors of the insurance company.

In Witness Whereof, The Continental Insurance Company has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 29th day of April, 2024.

The Continental Insurance Company

Larry Kasten — Vice President

State of South Dakota, County of Minnehaha, ss:

On this 29th day of April, 2024, before me personally came Larry Kasten to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is a Vice President of The Continental Insurance Company, a Pennsylvania insurance company, described in and which executed the above instrument; that he knows the seal of said insurance company; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said insurance company and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said insurance company.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

PAYMENT BOND

Atwell – PA 12 TR 37389-4 – Street Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. , (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install and complete certain designated public improvements generally identified as follows:

Atwell – PA 12 TR 37389-4 – Street Improvements; and

WHEREAS, said Agreement is dated _____, 20__ and is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement, before entering upon the performance of the work, to file with the City a good and sufficient payment bond, or other approved security, to secure the claims to which reference is made in Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the California Civil Code and in Government Code Section 66497;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of said Agreement and referred to in the above-referenced Civil Code and Government Code in the sum of Eight Hundred Eighty-Nine Thousand One Hundred Fifty-Four and 86/100 Dollars ($889,154.86), for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor; that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth; and in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code, and under Government Code Section 66497, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said Agreement or the Improvement Plans or related specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration or addition.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknowledgments from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That The Continental Insurance Company, a Pennsylvania insurance company, is a duly organized and existing insurance company having its principal office in the City of Chicago, and State of Illinois, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Marina Tapia, Janina Monroe, Michelle Haase, Timothy J Noonan, Edward C Spector, Aidan Smock, Jaren A Marx, Erin Brown, Charles R Teter III, Simone Gerhard, B Aleman, K D Wapato, Rachel A Mullen, D Garcia, Sandra Corona, Jennifer Ochs, Ethan Spector, Sarah Campbell, Individually

of Irvine, CA, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind them thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the insurance company and all the acts of said Attorney, pursuant to the authority hereby given is hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the Authorizing By-Laws and Resolutions printed at the bottom of this page, duly adopted, as indicated, by the Board of Directors of the insurance company.

In Witness Whereof, The Continental Insurance Company has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 29th day of April, 2024.

The Continental Insurance Company

Larry Kasten — Vice President

State of South Dakota, County of Minnehaha, ss:

On this 29th day of April, 2024, before me personally came Larry Kasten to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is a Vice President of The Continental Insurance Company, a Pennsylvania insurance company, described in and which executed the above instrument; that he knows the seal of said insurance company; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said insurance company and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said insurance company.

My Commission Expires March 2, 2026

M. Bent — Notary Public

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

Bond No. 30239068
Premium: $1,719 / Annually

CITY OF BANNING

FAITHFUL PERFORMANCE BOND

Atwell – PA 12 TR 37389-4 – Water Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install, complete and guarantee for one year after acceptance thereof, certain designated public improvements generally identified as follows: Atwell – PA 12 TR 37389-4 – Water Improvements
; and

WHEREAS, said Agreement is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a corporate surety bond or other approved improvement security to guarantee the faithful performance of said Agreement;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held and firmly bound unto the City in the penal sum of Four Hundred Sixty-Four Thousand Five Hundred Five and 77/100 Dollars ($464,505.77), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above-bounded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to, abide by, well and truly keep and perform the covenants, conditions and provisions in said Agreement and any modification thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers, agents and employees, as therein stipulated; then this obligation shall become void; otherwise, this obligation shall be and remain in full force and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified, costs and reasonable expenses and fees shall be included, including reasonable attorneys' fees, incurred by the City in successfully enforcing the obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement, the work to be performed thereunder, or the Improvement Plans and related specifications accompanying the Agreement shall in any manner affect its obligations on this bond. The Surety hereby waives notice of any such change, extension of time, alteration or addition to the terms of the Agreement, the work, or the Improvement Plans and related specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknolwedgents from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ ~~is~~ /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That The Continental Insurance Company, a Pennsylvania insurance company, is a duly organized and existing insurance company having its principal office in the City of Chicago, and State of Illinois, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

PAYMENT BOND

Atwell – PA 12 TR 37389-4 – Water Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. , (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install and complete certain designated public improvements generally identified as follows:

Atwell – PA 12 TR 37389-4 – Water Improvements; and

WHEREAS, said Agreement is dated _____, 20__ and is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement, before entering upon the performance of the work, to file with the City a good and sufficient payment bond, or other approved security, to secure the claims to which reference is made in Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the California Civil Code and in Government Code Section 66497;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of said Agreement and referred to in the above-referenced Civil Code and Government Code in the sum of Four Hundred Sixty-Four Thousand Five Hundred Five and 77/100 Dollars ($464,505.77), for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor; that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth; and in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code, and under Government Code Section 66497, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said Agreement or the Improvement Plans or related specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration or addition.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknolwedgents from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That The Continental Insurance Company, a Pennsylvania insurance company, is a duly organized and existing insurance company having its principal office in the City of Chicago, and State of Illinois, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Marina Tapia, Janina Monroe, Michelle Haase, Timothy J Noonan, Edward C Spector, Aidan Smock, Jaren A Marx, Erin Brown, Charles R Teter III, Simone Gerhard, B Aleman, K D Wapato, Rachel A Mullen, D Garcia, Sandra Corona, Jennifer Ochs, Ethan Spector, Sarah Campbell, Individually

of Irvine, CA, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind them thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the insurance company and all the acts of said Attorney, pursuant to the authority hereby given is hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the Authorizing By-Laws and Resolutions printed at the bottom of this page, duly adopted, as indicated, by the Board of Directors of the insurance company.

In Witness Whereof, The Continental Insurance Company has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 29th day of April, 2024.

The Continental Insurance Company

Larry Kasten — Vice President

State of South Dakota, County of Minnehaha, ss:

On this 29th day of April, 2024, before me personally came Larry Kasten to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is a Vice President of The Continental Insurance Company, a Pennsylvania insurance company, described in and which executed the above instrument; that he knows the seal of said insurance company; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said insurance company and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said insurance company.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

Bond No. 30239069
Premium: $1,597 / Annually

CITY OF BANNING

FAITHFUL PERFORMANCE BOND

Atwell – PA 12 TR 37389-4 – Sewer Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install, complete and guarantee for one year after acceptance thereof, certain designated public improvements generally identified as follows: Atwell – PA 12 TR 37389-4 – Sewer Improvements; and

WHEREAS, said Agreement is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a corporate surety bond or other approved improvement security to guarantee the faithful performance of said Agreement;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held and firmly bound unto the City in the penal sum of Four Hundred Thirty-One Thousand Five Hundred Ninety and 01/100 Dollars ($431,590.01), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above-bounded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to, abide by, well and truly keep and perform the covenants, conditions and provisions in said Agreement and any modification thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers, agents and employees, as therein stipulated; then this obligation shall become void; otherwise, this obligation shall be and remain in full force and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified, costs and reasonable expenses and fees shall be included, including reasonable attorneys' fees, incurred by the City in successfully enforcing the obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement, the work to be performed thereunder, or the Improvement Plans and related specifications accompanying the Agreement shall in any manner affect its obligations on this bond. The Surety hereby waives notice of any such change, extension of time, alteration or addition to the terms of the Agreement, the work, or the Improvement Plans and related specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

PAYMENT BOND

Atwell – PA 12 TR 37389-4 – Sewer Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. _____, (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install and complete certain designated public improvements generally identified as follows:

Atwell – PA 12 TR 37389-4 – Sewer Improvements; and

WHEREAS, said Agreement is dated _____, 20__ and is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement, before entering upon the performance of the work, to file with the City a good and sufficient payment bond, or other approved security, to secure the claims to which reference is made in Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the California Civil Code and in Government Code Section 66497;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of said Agreement and referred to in the above-referenced Civil Code and Government Code in the sum of Four Hundred Thirty-One Thousand Five Hundred Ninety and 01/100 Dollars ($431,590.01), for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor; that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth; and in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code, and under Government Code Section 66497, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said Agreement or the Improvement Plans or related specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration or addition.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

FAITHFUL PERFORMANCE BOND

Atwell – PA 12 TR 37389-4 – Monumentation Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install, complete and guarantee for one year after acceptance thereof, certain designated public improvements generally identified as follows: Atwell – PA 12 TR 37389-4 – Monumentation Improvements; and

WHEREAS, said Agreement is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a corporate surety bond or other approved improvement security to guarantee the faithful performance of said Agreement;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held and firmly bound unto the City in the penal sum of Twenty-Six Thousand Two Hundred Thirty-Seven and 20/100 Dollars ($26,237.20), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above-bounded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to, abide by, well and truly keep and perform the covenants, conditions and provisions in said Agreement and any modification thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers, agents and employees, as therein stipulated; then this obligation shall become void; otherwise, this obligation shall be and remain in full force and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified, costs and reasonable expenses and fees shall be included, including reasonable attorneys' fees, incurred by the City in successfully enforcing the obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement, the work to be performed thereunder, or the Improvement Plans and related specifications accompanying the Agreement shall in any manner affect its obligations on this bond. The Surety hereby waives notice of any such change, extension of time, alteration or addition to the terms of the Agreement, the work, or the Improvement Plans and related specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknolwedgents from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That The Continental Insurance Company, a Pennsylvania insurance company, is a duly organized and existing insurance company having its principal office in the City of Chicago, and State of Illinois, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Marina Tapia, Janina Monroe, Michelle Haase, Timothy J Noonan, Edward C Spector, Aidan Smock, Jaren A Marx, Erin Brown, Charles R Teter III, Simone Gerhard, B Aleman, K D Wapato, Rachel A Mullen, D Garcia, Sandra Corona, Jennifer Ochs, Ethan Spector, Sarah Campbell, Individually

of Irvine, CA, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind them thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the insurance company and all the acts of said Attorney, pursuant to the authority hereby given is hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the Authorizing By-Laws and Resolutions printed at the bottom of this page, duly adopted, as indicated, by the Board of Directors of the insurance company.

In Witness Whereof, The Continental Insurance Company has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 29th day of April, 2024.

The Continental Insurance Company

Larry Kasten — Vice President

State of South Dakota, County of Minnehaha, ss:

On this 29th day of April, 2024, before me personally came Larry Kasten to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is a Vice President of The Continental Insurance Company, a Pennsylvania insurance company, described in and which executed the above instrument; that he knows the seal of said insurance company; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said insurance company and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said insurance company.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

PAYMENT BOND

Atwell – PA 12 TR 37389-4 – Monumentation Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. , (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install and complete certain designated public improvements generally identified as follows:

Atwell – PA 12 TR 37389-4 – Monumentation Improvements; and

WHEREAS, said Agreement is dated _____, 20__ and is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement, before entering upon the performance of the work, to file with the City a good and sufficient payment bond, or other approved security, to secure the claims to which reference is made in Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the California Civil Code and in Government Code Section 66497;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of said Agreement and referred to in the above-referenced Civil Code and Government Code in the sum of Twenty-Six Thousand Two Hundred Thirty-Seven and 20/100 Dollars ($26,237.20), for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor; that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth; and in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code, and under Government Code Section 66497, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said Agreement or the Improvement Plans or related specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration or addition.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

FAITHFUL PERFORMANCE BOND

Atwell – PA 9A TR 37389-6 – Street Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install, complete and guarantee for one year after acceptance thereof, certain designated public improvements generally identified as follows:

Atwell – PA 9A TR 37389-6 – Street Improvements

; and

WHEREAS, said Agreement is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a corporate surety bond or other approved improvement security to guarantee the faithful performance of said Agreement;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held and firmly bound unto the City in the penal sum of One Million One Hundred Nineteen Thousand Four Hundred Thirty-Nine and 12/100 Dollars ($1,119,439.12), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above-bounded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to, abide by, well and truly keep and perform the covenants, conditions and provisions in said Agreement and any modification thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers, agents and employees, as therein stipulated; then this obligation shall become void; otherwise, this obligation shall be and remain in full force and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified, costs and reasonable expenses and fees shall be included, including reasonable attorneys' fees, incurred by the City in successfully enforcing the obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement, the work to be performed thereunder, or the Improvement Plans and related specifications accompanying the Agreement shall in any manner affect its obligations on this bond. The Surety hereby waives notice of any such change, extension of time, alteration or addition to the terms of the Agreement, the work, or the Improvement Plans and related specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknolwedgents from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That The Continental Insurance Company, a Pennsylvania insurance company, is a duly organized and existing insurance company having its principal office in the City of Chicago, and State of Illinois, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Marina Tapia, Janina Monroe, Michelle Haase, Timothy J Noonan, Edward C Spector, Aidan Smock, Jaren A Marx, Erin Brown, Charles R Teter III, Simone Gerhard, B Aleman, K D Wapato, Rachel A Mullen, D Garcia, Sandra Corona, Jennifer Ochs, Ethan Spector, Sarah Campbell, Individually

of Irvine, CA, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind them thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the insurance company and all the acts of said Attorney, pursuant to the authority hereby given is hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the Authorizing By-Laws and Resolutions printed at the bottom of this page, duly adopted, as indicated, by the Board of Directors of the insurance company.

In Witness Whereof, The Continental Insurance Company has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 29th day of April, 2024.

The Continental Insurance Company

Larry Kasten — Vice President

State of South Dakota, County of Minnehaha, ss:

On this 29th day of April, 2024, before me personally came Larry Kasten to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is a Vice President of The Continental Insurance Company, a Pennsylvania insurance company, described in and which executed the above instrument; that he knows the seal of said insurance company; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said insurance company and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said insurance company.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

Premium is included in Performance Bond.

CITY OF BANNING

PAYMENT BOND

Atwell – PA 9A TR 37389-6 – Street Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. _____, (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install and complete certain designated public improvements generally identified as follows:

Atwell – PA 9A TR 37389-6 – Street Improvements; and

WHEREAS, said Agreement is dated _____, 20__ and is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement, before entering upon the performance of the work, to file with the City a good and sufficient payment bond, or other approved security, to secure the claims to which reference is made in Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the California Civil Code and in Government Code Section 66497;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of said Agreement and referred to in the above-referenced Civil Code and Government Code in the sum of One Million One Hundred Nineteen Thousand Four Hundred Thirty-Nine and 12/100 Dollars ($1,119,439.12), for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor; that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth; and in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code, and under Government Code Section 66497, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said Agreement or the Improvement Plans or related specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration or addition.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

FAITHFUL PERFORMANCE BOND

Atwell – PA 9A TR 37389-6 – Water Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install, complete and guarantee for one year after acceptance thereof, certain designated public improvements generally identified as follows: Atwell – PA 9A TR 37389-6 – Water Improvements; and

WHEREAS, said Agreement is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a corporate surety bond or other approved improvement security to guarantee the faithful performance of said Agreement;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held and firmly bound unto the City in the penal sum of Five Hundred Fifty-Three Thousand Eight Hundred Thirteen and 63/100 Dollars ($553,813.63), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above-bounded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to, abide by, well and truly keep and perform the covenants, conditions and provisions in said Agreement and any modification thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers, agents and employees, as therein stipulated; then this obligation shall become void; otherwise, this obligation shall be and remain in full force and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified, costs and reasonable expenses and fees shall be included, including reasonable attorneys' fees, incurred by the City in successfully enforcing the obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement, the work to be performed thereunder, or the Improvement Plans and related specifications accompanying the Agreement shall in any manner affect its obligations on this bond. The Surety hereby waives notice of any such change, extension of time, alteration or addition to the terms of the Agreement, the work, or the Improvement Plans and related specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

PAYMENT BOND

Atwell – PA 9A TR 37389-6 – Water Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. , (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install and complete certain designated public improvements generally identified as follows:

Atwell – PA 9A TR 37389-6 – Water Improvements; and

WHEREAS, said Agreement is dated _____, 20__ and is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement, before entering upon the performance of the work, to file with the City a good and sufficient payment bond, or other approved security, to secure the claims to which reference is made in Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the California Civil Code and in Government Code Section 66497;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of said Agreement and referred to in the above-referenced Civil Code and Government Code in the sum of Five Hundred Fifty-Three Thousand Eight Hundred Thirteen and 63/100 Dollars ($553,813.63), for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor; that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth; and in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code, and under Government Code Section 66497, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said Agreement or the Improvement Plans or related specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration or addition.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknolwedgents from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That The Continental Insurance Company, a Pennsylvania insurance company, is a duly organized and existing insurance company having its principal office in the City of Chicago, and State of Illinois, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Marina Tapia, Janina Monroe, Michelle Haase, Timothy J Noonan, Edward C Spector, Aidan Smock, Jaren A Marx, Erin Brown, Charles R Teter III, Simone Gerhard, B Aleman, K D Wapato, Rachel A Mullen, D Garcia, Sandra Corona, Jennifer Ochs, Ethan Spector, Sarah Campbell, Individually

of Irvine, CA, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind them thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the insurance company and all the acts of said Attorney, pursuant to the authority hereby given is hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the Authorizing By-Laws and Resolutions printed at the bottom of this page, duly adopted, as indicated, by the Board of Directors of the insurance company.

In Witness Whereof, The Continental Insurance Company has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 29th day of April, 2024.

The Continental Insurance Company

Larry Kasten — Vice President

State of South Dakota, County of Minnehaha, ss:

On this 29th day of April, 2024, before me personally came Larry Kasten to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is a Vice President of The Continental Insurance Company, a Pennsylvania insurance company, described in and which executed the above instrument; that he knows the seal of said insurance company; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said insurance company and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said insurance company.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

Bond No. 30239065
Premium: $1,845 / Annually

CITY OF BANNING

FAITHFUL PERFORMANCE BOND

Atwell – PA 9A TR 37389-6 – Sewer Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install, complete and guarantee for one year after acceptance thereof, certain designated public improvements generally identified as follows: Atwell – PA 9A TR 37389-6 – Sewer Improvements
; and

WHEREAS, said Agreement is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a corporate surety bond or other approved improvement security to guarantee the faithful performance of said Agreement;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held and firmly bound unto the City in the penal sum of Four Hundred Ninety-Eight Thousand Five Hundred Ninety and 28/100 Dollars ($498,590.28), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above-bounded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to, abide by, well and truly keep and perform the covenants, conditions and provisions in said Agreement and any modification thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers, agents and employees, as therein stipulated; then this obligation shall become void; otherwise, this obligation shall be and remain in full force and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified, costs and reasonable expenses and fees shall be included, including reasonable attorneys' fees, incurred by the City in successfully enforcing the obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement, the work to be performed thereunder, or the Improvement Plans and related specifications accompanying the Agreement shall in any manner affect its obligations on this bond. The Surety hereby waives notice of any such change, extension of time, alteration or addition to the terms of the Agreement, the work, or the Improvement Plans and related specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

PAYMENT BOND

Atwell – PA 9A TR 37389-6 – Sewer Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. , (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install and complete certain designated public improvements generally identified as follows:

Atwell – PA 9A TR 37389-6 – Sewer Improvements; and

WHEREAS, said Agreement is dated _____, 20__ and is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement, before entering upon the performance of the work, to file with the City a good and sufficient payment bond, or other approved security, to secure the claims to which reference is made in Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the California Civil Code and in Government Code Section 66497;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of said Agreement and referred to in the above-referenced Civil Code and Government Code in the sum of Four Hundred Ninety-Eight Thousand Five Hundred Ninety and 28/100 Dollars ($498,590.28), for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor; that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth; and in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code, and under Government Code Section 66497, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said Agreement or the Improvement Plans or related specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration or addition.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknolwedgents from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That The Continental Insurance Company, a Pennsylvania insurance company, is a duly organized and existing insurance company having its principal office in the City of Chicago, and State of Illinois, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Marina Tapia, Janina Monroe, Michelle Haase, Timothy J Noonan, Edward C Spector, Aidan Smock, Jaren A Marx, Erin Brown, Charles R Teter III, Simone Gerhard, B Aleman, K D Wapato, Rachel A Mullen, D Garcia, Sandra Corona, Jennifer Ochs, Ethan Spector, Sarah Campbell, Individually

of Irvine, CA, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind them thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the insurance company and all the acts of said Attorney, pursuant to the authority hereby given is hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the Authorizing By-Laws and Resolutions printed at the bottom of this page, duly adopted, as indicated, by the Board of Directors of the insurance company.

In Witness Whereof, The Continental Insurance Company has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 29th day of April, 2024.

The Continental Insurance Company

Larry Kasten — Vice President

State of South Dakota, County of Minnehaha, ss:

On this 29th day of April, 2024, before me personally came Larry Kasten to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is a Vice President of The Continental Insurance Company, a Pennsylvania insurance company, described in and which executed the above instrument; that he knows the seal of said insurance company; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said insurance company and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said insurance company.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

Bond No. 30239066
Premium: $102 / Annually

CITY OF BANNING

FAITHFUL PERFORMANCE BOND

Atwell – PA 9A TR 37389-6 – Monumentation Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install, complete and guarantee for one year after acceptance thereof, certain designated public improvements generally identified as follows:

Atwell – PA 9A TR 37389-6 – Monumentation Improvements; and

WHEREAS, said Agreement is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a corporate surety bond or other approved improvement security to guarantee the faithful performance of said Agreement;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held and firmly bound unto the City in the penal sum of Twenty-Seven Thousand Six Hundred Thirty-Eight and 51/100 Dollars ($27,638.51), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above-bounded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to, abide by, well and truly keep and perform the covenants, conditions and provisions in said Agreement and any modification thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers, agents and employees, as therein stipulated; then this obligation shall become void; otherwise, this obligation shall be and remain in full force and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified, costs and reasonable expenses and fees shall be included, including reasonable attorneys' fees, incurred by the City in successfully enforcing the obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement, the work to be performed thereunder, or the Improvement Plans and related specifications accompanying the Agreement shall in any manner affect its obligations on this bond. The Surety hereby waives notice of any such change, extension of time, alteration or addition to the terms of the Agreement, the work, or the Improvement Plans and related specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

PAYMENT BOND

Atwell – PA 9A TR 37389-6 – Monumentation Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. , (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install and complete certain designated public improvements generally identified as follows:

Atwell – PA 9A TR 37389-6 – Monumentation Improvements; and

WHEREAS, said Agreement is dated _____, 20__ and is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement, before entering upon the performance of the work, to file with the City a good and sufficient payment bond, or other approved security, to secure the claims to which reference is made in Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the California Civil Code and in Government Code Section 66497;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of said Agreement and referred to in the above-referenced Civil Code and Government Code in the sum of Twenty-Seven Thousand Six Hundred Thirty-Eight and 51/100 Dollars ($27,638.51), for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor; that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth; and in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code, and under Government Code Section 66497, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said Agreement or the Improvement Plans or related specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration or addition.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

FAITHFUL PERFORMANCE BOND

Atwell – PA 13 TR 37389-F – Street Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install, complete and guarantee for one year after acceptance thereof, certain designated public improvements generally identified as follows: Atwell – PA 13 TR 37389-F – Street Improvements; and

WHEREAS, said Agreement is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a corporate surety bond or other approved improvement security to guarantee the faithful performance of said Agreement;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held and firmly bound unto the City in the penal sum of Nine Hundred Forty Thousand Seven Hundred Ninety-Eight and 01/100 Dollars ($940,798.01), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above-bounded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to, abide by, well and truly keep and perform the covenants, conditions and provisions in said Agreement and any modification thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers, agents and employees, as therein stipulated; then this obligation shall become void; otherwise, this obligation shall be and remain in full force and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified, costs and reasonable expenses and fees shall be included, including reasonable attorneys' fees, incurred by the City in successfully enforcing the obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement, the work to be performed thereunder, or the Improvement Plans and related specifications accompanying the Agreement shall in any manner affect its obligations on this bond. The Surety hereby waives notice of any such change, extension of time, alteration or addition to the terms of the Agreement, the work, or the Improvement Plans and related specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknolwedgents from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That The Continental Insurance Company, a Pennsylvania insurance company, is a duly organized and existing insurance company having its principal office in the City of Chicago, and State of Illinois, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Marina Tapia, Janina Monroe, Michelle Haase, Timothy J Noonan, Edward C Spector, Aidan Smock, Jaren A Marx, Erin Brown, Charles R Teter III, Simone Gerhard, B Aleman, K D Wapato, Rachel A Mullen, D Garcia, Sandra Corona, Jennifer Ochs, Ethan Spector, Sarah Campbell, Individually

of Irvine, CA, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind them thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the insurance company and all the acts of said Attorney, pursuant to the authority hereby given is hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the Authorizing By-Laws and Resolutions printed at the bottom of this page, duly adopted, as indicated, by the Board of Directors of the insurance company.

In Witness Whereof, The Continental Insurance Company has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 29th day of April, 2024.

The Continental Insurance Company

Larry Kasten — Vice President

State of South Dakota, County of Minnehaha, ss:

On this 29th day of April, 2024, before me personally came Larry Kasten to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is a Vice President of The Continental Insurance Company, a Pennsylvania insurance company, described in and which executed the above instrument; that he knows the seal of said insurance company; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said insurance company and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said insurance company.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

PAYMENT BOND

Atwell – PA 13 TR 37389-F – Street Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. , (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install and complete certain designated public improvements generally identified as follows:

Atwell – PA 13 TR 37389-F – Street Improvements; and

WHEREAS, said Agreement is dated _____, 20__ and is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement, before entering upon the performance of the work, to file with the City a good and sufficient payment bond, or other approved security, to secure the claims to which reference is made in Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the California Civil Code and in Government Code Section 66497;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of said Agreement and referred to in the above-referenced Civil Code and Government Code in the sum of Nine Hundred Forty Thousand Seven Hundred Ninety-Eight and 01/100 Dollars ($940,798.01), for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor; that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth; and in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code, and under Government Code Section 66497, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said Agreement or the Improvement Plans or related specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration or addition.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

FAITHFUL PERFORMANCE BOND

Atwell – PA 13 TR 37389-F – Water Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install, complete and guarantee for one year after acceptance thereof, certain designated public improvements generally identified as follows: Atwell – PA 13 TR 37389-F – Water Improvements; and

WHEREAS, said Agreement is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a corporate surety bond or other approved improvement security to guarantee the faithful performance of said Agreement;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held and firmly bound unto the City in the penal sum of Four Hundred Forty-Five Thousand Six Hundred Seventy-Four and 62/100 Dollars ($445,674.62), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above-bounded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to, abide by, well and truly keep and perform the covenants, conditions and provisions in said Agreement and any modification thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers, agents and employees, as therein stipulated; then this obligation shall become void; otherwise, this obligation shall be and remain in full force and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified, costs and reasonable expenses and fees shall be included, including reasonable attorneys' fees, incurred by the City in successfully enforcing the obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement, the work to be performed thereunder, or the Improvement Plans and related specifications accompanying the Agreement shall in any manner affect its obligations on this bond. The Surety hereby waives notice of any such change, extension of time, alteration or addition to the terms of the Agreement, the work, or the Improvement Plans and related specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknolwedgents from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That The Continental Insurance Company, a Pennsylvania insurance company, is a duly organized and existing insurance company having its principal office in the City of Chicago, and State of Illinois, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Marina Tapia, Janina Monroe, Michelle Haase, Timothy J Noonan, Edward C Spector, Aidan Smock, Jaren A Marx, Erin Brown, Charles R Teter III, Simone Gerhard, B Aleman, K D Wapato, Rachel A Mullen, D Garcia, Sandra Corona, Jennifer Ochs, Ethan Spector, Sarah Campbell, Individually

of Irvine, CA, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind them thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the insurance company and all the acts of said Attorney, pursuant to the authority hereby given is hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the Authorizing By-Laws and Resolutions printed at the bottom of this page, duly adopted, as indicated, by the Board of Directors of the insurance company.

In Witness Whereof, The Continental Insurance Company has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 29th day of April, 2024.

The Continental Insurance Company

Larry Kasten — Vice President

State of South Dakota, County of Minnehaha, ss:

On this 29th day of April, 2024, before me personally came Larry Kasten to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is a Vice President of The Continental Insurance Company, a Pennsylvania insurance company, described in and which executed the above instrument; that he knows the seal of said insurance company; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said insurance company and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said insurance company.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

PAYMENT BOND

Atwell – PA 13 TR 37389-F – Water Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. _____, (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install and complete certain designated public improvements generally identified as follows:

Atwell – PA 13 TR 37389-F – Water Improvements; and

WHEREAS, said Agreement is dated _____, 20__ and is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement, before entering upon the performance of the work, to file with the City a good and sufficient payment bond, or other approved security, to secure the claims to which reference is made in Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the California Civil Code and in Government Code Section 66497;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of said Agreement and referred to in the above-referenced Civil Code and Government Code in the sum of Four Hundred Forty-Five Thousand Six Hundred Seventy-Four and 62/100 Dollars ($445,674.62), for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor; that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth; and in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code, and under Government Code Section 66497, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said Agreement or the Improvement Plans or related specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration or addition.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

Bond No. 30239073
Premium: $1,550 / Annually

CITY OF BANNING

FAITHFUL PERFORMANCE BOND

Atwell – PA 13 TR 37389-F – Sewer Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install, complete and guarantee for one year after acceptance thereof, certain designated public improvements generally identified as follows: Atwell – PA 13 TR 37389-F – Sewer Improvements; and

WHEREAS, said Agreement is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a corporate surety bond or other approved improvement security to guarantee the faithful performance of said Agreement;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held and firmly bound unto the City in the penal sum of Four Hundred Eighteen Thousand Eight Hundred Fifty-Three and 05/100 Dollars ($418,853.05), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above-bounded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to, abide by, well and truly keep and perform the covenants, conditions and provisions in said Agreement and any modification thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers, agents and employees, as therein stipulated; then this obligation shall become void; otherwise, this obligation shall be and remain in full force and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified, costs and reasonable expenses and fees shall be included, including reasonable attorneys' fees, incurred by the City in successfully enforcing the obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement, the work to be performed thereunder, or the Improvement Plans and related specifications accompanying the Agreement shall in any manner affect its obligations on this bond. The Surety hereby waives notice of any such change, extension of time, alteration or addition to the terms of the Agreement, the work, or the Improvement Plans and related specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

Bond No. 30239073
Premium is included in Performance Bond.

CITY OF BANNING

PAYMENT BOND

Atwell – PA 13 TR 37389-F – Sewer Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. , (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install and complete certain designated public improvements generally identified as follows:

Atwell – PA 13 TR 37389-F – Sewer Improvements; and

WHEREAS, said Agreement is dated _____, 20__ and is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement, before entering upon the performance of the work, to file with the City a good and sufficient payment bond, or other approved security, to secure the claims to which reference is made in Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the California Civil Code and in Government Code Section 66497;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of said Agreement and referred to in the above-referenced Civil Code and Government Code in the sum of Four Hundred Eighteen Thousand Eight Hundred Fifty-Three and 05/100 Dollars ($418,853.05), for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor; that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth; and in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code, and under Government Code Section 66497, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said Agreement or the Improvement Plans or related specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration or addition.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknolwedgents from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That The Continental Insurance Company, a Pennsylvania insurance company, is a duly organized and existing insurance company having its principal office in the City of Chicago, and State of Illinois, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Marina Tapia, Janina Monroe, Michelle Haase, Timothy J Noonan, Edward C Spector, Aidan Smock, Jaren A Marx, Erin Brown, Charles R Teter III, Simone Gerhard, B Aleman, K D Wapato, Rachel A Mullen, D Garcia, Sandra Corona, Jennifer Ochs, Ethan Spector, Sarah Campbell, Individually

of Irvine, CA, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind them thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the insurance company and all the acts of said Attorney, pursuant to the authority hereby given is hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the Authorizing By-Laws and Resolutions printed at the bottom of this page, duly adopted, as indicated, by the Board of Directors of the insurance company.

In Witness Whereof, The Continental Insurance Company has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 29th day of April, 2024.

The Continental Insurance Company

Larry Kasten — Vice President

State of South Dakota, County of Minnehaha, ss:

On this 29th day of April, 2024, before me personally came Larry Kasten to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is a Vice President of The Continental Insurance Company, a Pennsylvania insurance company, described in and which executed the above instrument; that he knows the seal of said insurance company; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said insurance company and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said insurance company.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

Premium: $105 / Annually

CITY OF BANNING

FAITHFUL PERFORMANCE BOND

Atwell – PA 13 TR 37389-F – Monumentation Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install, complete and guarantee for one year after acceptance thereof, certain designated public improvements generally identified as follows: Atwell – PA 13 TR 37389-F – Monumentation Improvements; and

WHEREAS, said Agreement is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a corporate surety bond or other approved improvement security to guarantee the faithful performance of said Agreement;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held and firmly bound unto the City in the penal sum of Twenty-Eight Thousand Three Hundred Twenty-Four and 25/100 Dollars ($28,324.25), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above-bounded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to, abide by, well and truly keep and perform the covenants, conditions and provisions in said Agreement and any modification thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers, agents and employees, as therein stipulated; then this obligation shall become void; otherwise, this obligation shall be and remain in full force and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified, costs and reasonable expenses and fees shall be included, including reasonable attorneys' fees, incurred by the City in successfully enforcing the obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement, the work to be performed thereunder, or the Improvement Plans and related specifications accompanying the Agreement shall in any manner affect its obligations on this bond. The Surety hereby waives notice of any such change, extension of time, alteration or addition to the terms of the Agreement, the work, or the Improvement Plans and related specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknolwedgents from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

CITY OF BANNING

PAYMENT BOND

Atwell – PA 13 TR 37389-F – Monumentation Improvements
(Name or Tract Number of Subdivision)

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Tri Pointe Homes IE-SD, Inc. , (hereinafter designated as "Principal") has executed a Subdivision Improvement Agreement ("Agreement" herein) with the City of Banning, a municipal corporation of the State of California ("City" herein), whereby Principal agrees to construct, install and complete certain designated public improvements generally identified as follows:

Atwell – PA 13 TR 37389-F – Monumentation Improvements; and

WHEREAS, said Agreement is dated _____, 20__ and is incorporated herein by this reference; and

WHEREAS, said Principal is required under the terms of said Agreement, before entering upon the performance of the work, to file with the City a good and sufficient payment bond, or other approved security, to secure the claims to which reference is made in Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the California Civil Code and in Government Code Section 66497;

NOW, THEREFORE, the Principal designated above, and The Continental Insurance Company, as Surety, are held firmly bound unto the City and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of said Agreement and referred to in the above-referenced Civil Code and Government Code in the sum of Twenty-Eight Thousand Three Hundred Twenty-Four and 25/100 Dollars ($28,324.25), for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor; that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth; and in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by the City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code, and under Government Code Section 66497, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said Agreement or the Improvement Plans or related specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration or addition.

IN WITNESS WHEREOF, this instrument has been duly executed by the above-named Principal and Surety as of the date or dates set forth below the signatures of their authorized officers.

Note: All signatures must be acknowledged before a notary public. Attach appropriate acknowledgment.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknolwedgents from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That The Continental Insurance Company, a Pennsylvania insurance company, is a duly organized and existing insurance company having its principal office in the City of Chicago, and State of Illinois, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Marina Tapia, Janina Monroe, Michelle Haase, Timothy J Noonan, Edward C Spector, Aidan Smock, Jaren A Marx, Erin Brown, Charles R Teter III, Simone Gerhard, B Aleman, K D Wapato, Rachel A Mullen, D Garcia, Sandra Corona, Jennifer Ochs, Ethan Spector, Sarah Campbell, Individually

of Irvine, CA, its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

and to bind them thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the insurance company and all the acts of said Attorney, pursuant to the authority hereby given is hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the Authorizing By-Laws and Resolutions printed at the bottom of this page, duly adopted, as indicated, by the Board of Directors of the insurance company.

In Witness Whereof, The Continental Insurance Company has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 29th day of April, 2024.

The Continental Insurance Company

Larry Kasten — Vice President

State of South Dakota, County of Minnehaha, ss:

On this 29th day of April, 2024, before me personally came Larry Kasten to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is a Vice President of The Continental Insurance Company, a Pennsylvania insurance company, described in and which executed the above instrument; that he knows the seal of said insurance company; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said insurance company and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said insurance company.

CERTIFICATE

I, Paula Kolsrud, Assistant Secretary of The Continental Insurance Company, a Pennsylvania insurance company, do hereby certify that the Power of Attorney herein above set forth is still in force, and further certify that the By-Law and Resolutions of the Board of Directors of the insurance company printed below this certificate are still in force. In testimony whereof I have hereunto subscribed my name and affixed the seal of the said insurance company this 27th day of January, 2025.

The Continental Insurance Company

Paula Kolsrud — Assistant Secretary

Authorizing By-Laws and Resolutions

ADOPTED BY THE BOARD OF DIRECTORS OF THE CONTINENTAL INSURANCE COMPANY:

This Power of Attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the Board of Directors of the Company at a meeting held on May 10, 1995.

"RESOLVED: That any Senior or Group Vice President may authorize an officer to sign specific documents, agreements and instruments on behalf of the Company provided that the name of such authorized officer and a description of the documents, agreements or instruments that such officer may sign will be provided in writing by the Senior or Group Vice President to the Secretary of the Company prior to such execution becoming effective.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above resolution to execute power of attorneys on behalf of The Continental Insurance Company.

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 25th day of April, 2012.

"Whereas, the bylaws of the Company or specific resolution of the Board of Directors has authorized various officers (the "Authorized Officers") to execute various policies, bonds, undertakings and other obligatory instruments of like nature; and

Whereas, from time to time, the signature of the Authorized Officers, in addition to being provided in original, hard copy format, may be provided via facsimile or otherwise in an electronic format (collectively, "Electronic Signatures"), Now therefore be it resolved: that the Electronic Signature of any Authorized Officer shall be valid and binding on the Company."

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

SUBDIVISION IMPROVEMENT AGREEMENT

THIS SUBDIVISION IMPROVEMENT AGREEMENT ("Agreement") is made and entered into by and between the City of Banning, a municipal corporation ("City"), and the Subdivider whose name and address is set forth above in the Subdivision Reference Data.

RECITALS

A. Subdivider has presented to the City for approval and recordation a Final Map, identified above in the Subdivision Reference Data, of a proposed subdivision pursuant to the Subdivision Map Act of the State of California and the City's ordinances and regulations as such ordinances and regulations are vested under the development agreement recorded in the official records of the County of Riverside on July 17, 2012 as Document No. 2012-0332888 ("Development Agreement") relating to the filing, approval and recordation of subdivision maps (collectively referred to herein as the "Subdivision Laws").

B. A tentative map of the Subdivision was previously approved by City, subject to the Subdivision Laws and to the City's standard requirements as vested under the Development Agreement and conditions of approval contained in the City Council's Resolution of Approval, a copy of which is on file in the Office of the City Clerk and which is incorporated herein by this reference.

C. The Subdivision Laws establish, as a condition precedent to the approval of a Final Map, that the Subdivider comply with the City Council's Resolution of Approval and either (i) complete, in compliance with applicable City standards, all of the improvements and land development work required by the Subdivision Laws and the City Council's Resolution of Approval; or (ii) enter into a secured agreement with the City to complete the improvements and land development work within a period of time specified by the City.

D. In consideration of approval of the Final Map for the Subdivision by the City Council, Subdivider desires to enter into this Agreement whereby Subdivider promises to install and complete, at its sole expense, except as otherwise provided in a credit/reimbursement agreement as provided for in the Development Agreement, all public improvement work required by the City as set forth on the Improvement Plans (as defined below) for the proposed Subdivision. Subdivider has secured this Agreement by improvement security required by the Subdivision Laws and approved by the City. In any conflict between the terms in this Agreement and the Development Agreement, the Development Agreement shall be the controlling document.

E. Improvement Plans, and related specifications, numbered as designated above in the Subdivision Reference Data, for the construction, installation and completion of the Improvements identified in Schedule A hereto, have been prepared by the Subdivider, approved by the City Engineer, and are on file in the office of the City Engineer. Said Improvement Plans, and related specifications, subsequently modified by the mutual written agreement of the parties, are hereby referred to as the "Improvement Plans" and are incorporated herein by this reference.

Any improvement to be constructed pursuant to the Improvement Plan is hereby referred to individually as an "**Improvement**" and collectively as the "**Improvements**".

NOW, THEREFORE, in consideration of the approval and recordation by the City Council of the Final Map of the Subdivision, Subdivider and City agree as follows:

1. SUBDIVIDER'S OBLIGATION TO CONSTRUCT IMPROVEMENTS

A. Subdivider shall, at its sole expense, unless otherwise provided in a credit/reimbursement agreement as provided for in the Development Agreement, and in compliance with the provisions of the Subdivision Laws, the Improvement Plans, conditions of approval of the Tentative Map, and all applicable City standards and fees, and in a good and workmanlike fashion, furnish, construct, install and guarantee (as set forth in Section 3) the Improvements, Grading, and Monumentation described on the tentative map and in the City Council's Resolution of Approval relating thereto (collectively, the "Improvements").

B. To the extent necessary to construct the Improvements, as determined by the City Engineer, the Subdivider shall acquire and dedicate, or pay the reasonable, documented cost of acquisition by City of, all rights-of-way, easements and other interests in real property for the construction or installation of the Improvements, free and clear of all liens and encumbrances. If the Subdivider is unable to acquire such rights-of-way, easements and other interests in real property by negotiation, then Subdivider shall, within 120 days of Final Map approval, enter into a condemnation agreement with City pursuant to Government Code Section 66462.5, by which the City will commence the process for the acquisition of the rights-of-way, easements or other real property.

C. Subject to any time extensions granted in accordance with Section 4, Subdivider shall complete all Improvements within its respective "Completion Period" specified in the Subdivision Reference Data; provided, however, that if the City Engineer reasonably determines in good faith that accelerated construction of the Improvements is essential in order to protect the public health, welfare and safety, the City Engineer shall give Subdivider not less than fifteen (15) business days' prior written notice to commence or accelerate installation and construction of such Improvements, or any portion thereof. The notice shall be in writing, and shall describe the work to be done by Subdivider, the time within which the work will commence, the period within which the work will be completed and identify the reasons that such early commencement is essential in order to protect the public health, welfare and safety. All or any portions of said Improvements may be required to be constructed or completed at a specified time, providing the foregoing criteria is met. If the Subdivider objects to the commencement or acceleration of the Improvements as specified by the City Engineer, Subdivider may appeal the decision of the City Engineer to the City Council. Any such appeal shall be filed with the City Clerk within 10 days after receipt by Subdivider of the written notice from the City Engineer.

D. If the Improvements to be constructed by Subdivider include monumentation, such monumentation shall be installed not later than thirty (30) days after the City's acceptance of all other Improvements pursuant to Section 2. As used herein,

"monumentation" shall mean the setting of survey monuments and tie points in accordance with the Subdivision Laws, and the delivery to the City Engineer of tie notes for said points.

E. Subdivider shall , at its sole expense, unless otherwise provided in a credit/reimbursement agreement as provided for in the Development Agreement, replace or repair all public improvements, public utility facilities, and surveying or subdivision monuments which are destroyed or damaged as a result of any work performed by Subdivider under this Agreement during or after the Completion Period. Any such replacement or repair shall be subject to the approval of the City Engineer.

F. In addition to, and separate from, the indemnity obligations contained in Section 9 of this Agreement, and without limiting the City's remedies under general construction defect law, Subdivider shall be responsible for the care, repair and maintenance of the applicable portion of the Improvements until the latter of the following time periods: (i) the Improvements or applicable portion thereof is accepted in writing by the City; or (ii) the expiration of the required one-year guarantee and warranty period as specified herein; or (iii) the expiration of any applicable period of time requiring the care, repair and maintenance of the applicable Improvement specified in the Development Agreement (not including the term of any Development Agreement). Neither City, nor its officers, agents and employees, shall have any liability for any accident, loss or damage to the Improvements and that may result from the construction of the Improvements prior to their completion and written acceptance by the City

G. In addition to, and separate from: (1) the indemnity obligations contained in Section 7 of this Agreement, (2) the care, repair and maintenance provisions under paragraph E of this Section 1 of this Agreement; and (3) the warranty and guarantee provisions of Section 3 of this Agreement, Subdivider shall repair and correct, or be liable to the City for any cost to repair and correct, any defect in the construction of the Improvements that is identified by City within in accordance with general construction defect law ten (10) years after City's acceptance of the Improvement, provided the City provides written notice to Subdivider of the existence of the defect within that the time period under law, and the defect is caused directly or indirectly by the design, construction, functionality, installation, assembly or workmanship of Subdivider. Nothing contained in this paragraph is intended to limit or otherwise waive any right or cause of action under applicable construction defect law that City may assert against Subdivider.

H. Subdivider shall, at its sole expense, unless otherwise provided in a credit/reimbursement agreement as provided for in the Development Agreement, obtain all necessary permits and licenses for the construction and installation of the Improvements, give all necessary notices, and pay all applicable fees required by City ordinance or resolution and all taxes required by law.

I. Not less than seven (7) days prior to commencement of work on the Improvements, Subdivider shall give written notice to the City Engineer of the date fixed for such commencement of work in order that the City Engineer shall have adequate time to schedule all necessary inspections.

J. SUBDIVIDER shall pay all applicable City fees and costs stipulated in the latest fee resolution as adopted by the City Council from time to time as required for the development of the SUBDIVISION including but not limited to the following:

1. Building Permit Fees --- to be paid at the time of building permit issuance;

2. Final Map Plan Check Fees --- to be paid at time of submittal of final map for plan check and resubmittal of revised final map for plan check;

3. Final Map Moratorium Fees --- to be paid from cash deposit established at time of filing final map;

4. Plan Check and Review Fees --- to be paid from cash deposit established at time of filing improvement plans for plan check;

5. Encroachment Permit Fees --- to be paid at time of application for encroachment permit;

6. Inspection Fees --- to be paid from cash deposit established at time of construction permit issuance; and

7. Grading Permit Fee --- to be paid from cash deposit established at time of grading permit issuance.

K. Subdivider shall provide City with final Record Drawings of all plans developed for the Subdivision, showing all changes and as built conditions as specified in the Tentative Tract Map Conditions of Approval, and shall provide electronic image files of those final Record Drawings consistent with electronic image file size and type specifications of the City prior to the acceptance of improvements and release of bonds or other security.

2. INSPECTION OF WORK AND FINAL ACCEPTANCE

A. Subdivider shall at all times maintain proper facilities and safe access for inspection of the Improvements by the City Engineer and other City personnel and inspection consultants.

B. Upon completion of the work on all or any category of the Improvements, the Subdivider may request a final inspection by the City Engineer. Within forty-five (45) days of receipt of the written letter request, the City Engineer shall inspect the Improvements and provide written notice to Subdivider of the list of items which have been found to be incomplete and the list of items which have been found to be complete. If the City Engineer determines that all or any specified category of the Improvements have been completed in accordance with this Agreement and in compliance with the Improvement Plans and all applicable City standards, then the City Engineer shall acknowledge that determination in a report to the City Council. If the Improvements that are completed are to be dedicated to or owned by the City (Improvements within City right of way and property for public use), the City Engineer's determination shall be

submitted to the City Council for final acceptance by the City, unless such power to accept has been delegated by the City Council to the City Engineer or some other officer of the City, in which case the final acceptance shall be subject to the approval of that specified official. If the Improvements that are completed are to be dedicated to or owned by a public entity other than the City, the Subdivider's written request shall be submitted to the applicable public entity or other owner, for final acceptance. Subdivider shall bear all costs of inspection and determination of completeness in accordance with City's formally adopted and applicable fees and rates.

C. Acceptance of all or any specified category of the Improvements by the City Council shall be made upon recommendation and certification of the City Engineer following inspection of said Improvements pursuant to subparagraph B above. The City Council shall act upon the City Engineer's recommendation that such public Improvements have been completed unless such power to accept has been delegated by the City Council to the City Engineer or some other officer of the City, in which case the final acceptance shall be subject to the approval of that specified official. Acceptance by the City or by the governing body of the entity that is to accept dedication or ownership of the public improvements shall not constitute a waiver by the City or such other public entity of any defects in the public Improvements.

3. GUARANTEE AND WARRANTY OF THE IMPROVEMENTS

A. If, within a period of one year following acceptance by the City of the applicable Improvements specified in Schedule A, any Improvements or part of any Improvements specified in Section A furnished, installed or constructed by the Subdivider, or any of the work performed under this Agreement by Subdivider, fails to comply with any requirements of this Agreement, or the Subdivision Laws, or the Improvement Plans and related specifications, the Subdivider shall, without delay and without cost to the City, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Improvements. Subdivider's obligations hereunder shall include the repair, replacement or reconstruction of all irrigation systems and all trees, shrubs, ground cover and landscaping for such one year.

B. Should the Subdivider fail or refuse to act promptly or in accordance with subparagraph A above, or should the exigencies of the situation require repair, replacement, or reconstruction to be undertaken before the Subdivider can be notified and can perform the necessary work, then the City may, in its discretion, make the necessary repairs or replacements or perform the necessary reconstruction and draw upon the Subdivider's improvement security to reimburse itself for the costs incurred. If the Subdivider's improvement security does not cover the total cost of such repair, replacement, or reconstruction, the Subdivider shall reimburse the City for any excess costs incurred.

C. The security furnished for the faithful performance of the Subdivider's obligation to construct and install the Improvements described herein shall include the Subdivider's liability and obligation hereunder to provide the one-year guarantee and warranty of the Improvements.

4. TIME EXTENSIONS

A. Upon a showing by the Subdivider of good cause therefor, the duration of the Completion Period for the Improvements (or any of them) may be extended by the City Engineer in writing. As used herein, "good cause" may include, without limitation, delay resulting from, arising out of or relating to an act of the City; acts of God or force majeure, strikes, boycotts or similar job actions by employees or labor organizations which prevent the conduct of the work; findings made by a governmental entity that the site of a particular Improvement is of archeological significance or requires further permitting and approval; and/or actions or failure to act of native American monitor(s); and, the order of any court.

B. A time extension may be granted without notice to any surety or sureties of the Subdivider and shall not affect the validity of this Agreement nor release the surety or sureties on any bond given as an improvement security pursuant to this Agreement.

C. As a condition of any time extension provided for herein, the City Engineer, may require the Subdivider to furnish new or modified improvement security guaranteeing performance of this Agreement, as extended, in an increased amount as necessary to compensate for any projected increase in the Estimated Total Cost of Improvements, as determined by the City Engineer.

5. IMPROVEMENT SECURITY

A. Prior to City's execution of this Agreement, Subdivider shall provide as security to the City:

1. For Performance and Guarantee: Security in an amount equal to one hundred percent (100%) of the Estimated Total Cost of the Improvements, excluding Grading, as set forth above in the Subdivision Reference Data. The security shall be issued by a bonding company licensed to issue bonds in the State of California and having a Best rating of AAA or better. With this security, the form of which shall be subject to City Attorney's prior approval, the Subdivider assures faithful performance under this Agreement and guarantees the Improvements for one year after the completion and acceptance of the applicable portion of such Improvements, against any defective workmanship or materials or any unsatisfactory performance, pursuant to Section 3 hereof.

2. For Payment: Security in an amount equal to one hundred percent (100%) of the Estimated Total Cost of the Improvements, excluding Grading, as set forth above in the Subdivision Reference Data. The security shall be issued by a bonding company licensed to issue bonds in the State of California and having a Best rating of AAA or better. With this security, the form of which shall be subject to City Attorney's prior approval, the Subdivider guarantees payment to contractors, subcontractors, and persons renting equipment or furnishing labor or materials to them or to the Subdivider.

B. If the improvement security is a corporate surety bond and, in the opinion of the City, any surety or sureties thereon become insufficient, because (i) the surety becomes

insolvent; (ii) the surety's bond rating is downgraded; (iii) the surety declares bankruptcy; or (iv) the surety is no longer deemed to be an admitted surety in California by the California Department of Insurance, or (v) the form of the surety or the amount is found by City to be in error or materially insufficient, the Subdivider shall renew or replace any such surety bond with good and sufficient surety or sureties within thirty (30) days after receiving from City written demand therefor.

C. The amount of security for performance, payment and warranty obligations provided by this section shall not include the cost of monumentation, as required by Government Code Section 66497 so long as a separate cash deposit or security acceptable to the City Engineer for the estimated cost of monumentation has been submitted to the City.

D. Improvement security consisting of corporate surety bonds, in a form accepted by the City Attorney, shall be filed with the City Engineer and then kept on file with the City Clerk. If a corporate surety bond is replaced by another approved bond, the replacement shall be submitted to the City Engineer and, upon filing with the City Clerk, shall be deemed to have been made a part of and incorporated into this Agreement. Upon submission to the City Engineer and then filing with the City Clerk of a replacement bond, the former improvement security shall be released following written approval of the City Engineer.

E. Modifications of the Improvement Plans and related specifications, and modifications of the Improvements, not exceeding ten percent (10%) of the original Estimated Total Cost of the Improvements, shall not relieve or release any improvement security furnished by Subdivider pursuant to this Agreement. If any such modifications exceed ten percent (10%) of the Estimated Total Cost of the Improvements, Subdivider shall furnish additional improvement security for performance and guarantee, and for payment, as required by subparagraph A above, for one hundred percent (100%) of the revised Estimated Total Cost of the Improvements.

F. Subject to any time extensions granted in accordance with Section 4 herein, the Subdivider shall be in default if the Subdivider has not completed all improvements within two years from the Execution Date of the Agreement and has not repaired any defects in the completed Improvements within the one-year guarantee and warranty period.

Alternatively, in the event of a default by the Subdivider pursuant to Section 10, and after written notice to Subdivider and reasonable opportunity to cure, City, at its sole option, shall have the right, without limiting any other rights and/or remedies available to City at law or in equity, to draw upon or utilize the improvement security furnished herewith to construct and install the Improvements itself. If City exercises this right, the release of any unused portion of such improvement security shall be in accordance with the procedures outlined in Section 6 herein, including any retention necessary for the one-year guarantee period.

6. REDUCTION OR RELEASE OF IMPROVEMENT SECURITY

A. All public Improvements (Improvements that are to be owned or dedicated to the City or other public entity as distinguished from those owned by a private community

association) shall be first completed, deemed completed by the City Engineer and then accepted as complete by the City prior to release of sureties. All private Improvements (Improvements that are to be owned by a private community association and not dedicated or owned by the City or other public entity) shall be first completed and then accepted as complete in writing by the City Engineer.

B. Partial releases or reductions in the Subdivider's improvement (performance) security may be authorized prior to the City's acceptance of all Improvements required hereunder, as follows:

1. At the time that the Subdivider believes that the obligation to perform the work for which security was required is complete, the Subdivider may notify the City in writing of the completed work, including a list of work completed. Upon receipt of the written notice, the City shall review and comment or approve the completion of the required work within forty-five (45) days. If the City does not agree that all work has been completed in accordance with the plans and specifications for the Improvements, it shall supply a list of all remaining work to be completed within this 45-day period.

2. Within forty-five (45) days of receipt of the list of remaining work from the local agency, the Subdivider may then provide cost estimates for all remaining work for review and approval by the City. Upon receipt of the cost estimates, the City shall then have forty-five (45) days to review, comment, and approve, modify, or disapprove those cost estimates. The City shall not be required to engage in this process of partial release more than once between the start of work and completion and acceptance of all work; however, nothing in this section prohibits the City from allowing for multiple and phased partial releases as it otherwise deems appropriate.

3. If the City approves the cost estimate, the City shall release all performance security except for security in an amount up to two hundred percent (200%) of the cost estimate of the remaining work. The process allowing for a partial release of performance security shall occur when the cost estimate of the remaining work does not exceed twenty percent (20%) of the total original performance security unless the City allows for a release at an earlier time. Substitute bonds or other security may be used as a replacement for the performance security, subject to the approval of the City. If substitute bonds or other security is used as a replacement for the performance security released, the release shall not be effective unless and until the City receives and approves that form of replacement security. A reduction in the performance security, authorized under this section, is not, and shall not be deemed to be, an acceptance by the City of the completed improvements in and of itself, and the risk of loss or damage to the Improvements and the obligation to maintain the Improvements shall remain the sole responsibility of the Subdivider until the applicable required public Improvements have been accepted by the City in writing and all other required improvements have been fully completed in accordance with the plans and specifications for the improvements.

4. The Subdivider shall complete the works of Improvement until all remaining items are accepted by the City.

5. Upon the completion of the Improvements, the Subdivider, or his or her assigns, shall be notified in writing by the City within forty-five (45) days.

6. Within sixty (60) days of the issuance of the notification by the City Engineer, any remaining performance security, except ten percent (10%) of the original amount of the security to guarantee and warrant the Improvements for the one-year guarantee and warranty period, shall be released within sixty (60) days of the issuance of the written statement of completion.

C. Security securing the payment to the contractor, his or her subcontractors and to persons furnishing labor, materials or equipment shall, after passage of the time within which claims of lien are required to be recorded pursuant to Title 3 (commencing with Section 9000) of Part 6 of Division 4 of the Civil Code and after acceptance of the work, be reduced to an amount equal to the total claimed by all stop notice claimants for whom stop notices have been filed with the City, and if no claims have been filed, the security shall be released in full.

D. The partial release provisions of this Section 6 shall not apply to any required guarantee and warranty period required by Section 66499.9 for the guarantee or warranty nor to the amount of the security deemed necessary by the local agency for the guarantee and warranty period nor to costs and reasonable expenses and fees, including reasonable attorneys' fees. Security furnished to guarantee and warrant the Improvements against any defective work or labor done or defective materials furnished, shall be released within thirty (30) days after the completion of the one-year period following completion and acceptance of all Improvements.

E. If Subdivider's obligations relating to any Improvements are subject to the approval of another governmental agency, the City shall not release the improvement (performance) security therefor until the obligations are performed to the satisfaction of such other governmental agency. Such agency shall have sixty (60) days after receipt of written notice from the Subdivider of the Subdivider's performance of the obligation to register its satisfaction or dissatisfaction. If at the end of that period it has not registered its satisfaction or dissatisfaction, it shall be conclusively deemed that the Subdivider's performance of the obligation was done to its satisfaction, and such improvement security shall be promptly released.

F. In the event the time periods for action by the City specified in this Section conflict with a shorter or longer time period for such actions as provided in Government Code Section 66499.7, the time periods in Government Code Section 66499.7 shall control.

7. INDEMNIFICATION OF CITY BY SUBDIVIDER

A. Neither the City, nor its officers, agents and employees, shall be liable or responsible for any accident, injury, loss or damage to either property or person attributable to or arising out of the defective design, construction, functionality, installation assembly or improper

maintenance including, without limitation, the use of defective methods, materials or workmanship (collectively "Subdivider's Faults") of the Improvements by Subdivider, its officers, employees and agents. Subdivider shall indemnify, hold harmless and defend the City, its officers, agents and employees, from and against any and all losses, claims, costs, expenses, liabilities, damages, actions, causes of action and judgments, including attorneys' fees, arising directly or indirectly out of or attributable to Subdivider's Faults.

B. Subdivider's obligations under this Section 7 are not conditioned or dependent upon whether the City, or its officers, agents and employees, prepared, supplied or reviewed any Improvement Plans or related specifications in connection with the Subdivision or the Improvements, or has insurance or other indemnification covering any of these matters.

C. Subdivider's obligation to indemnify, hold harmless and defend the City under this Section 7 shall extend to injuries to persons and damages to or alleged taking of property resulting from the Subdivider's Faults, and the Improvements required herein, and shall likewise extend to claims asserted by adjacent property owners based upon the diversion of waters caused by the Subdivider's defective design or defective construction of public drainage systems, streets, and other public facilities or improvements. Except for a City Directive as defined below, the City's acceptance of the Improvements shall not constitute an assumption by the City of any responsibility or liability for any damage or alleged taking of property referenced herein. City shall not be responsible or liable for the design or construction of the Subdivision or the Improvements constructed or installed pursuant to the approved Improvement Plans or the Final Map, regardless of any act or omission by the City in approving the Improvement Plans or the Final Map, unless the particular Improvement design was required by the City over the written objection of the Subdivider, which objection stated that the Improvement design was potentially dangerous or defective and set forth an alternative design (a "City Directive"). After City's acceptance of the Improvements, the Subdivider shall remain obligated to correct or eliminate all dangerous conditions created by defects in design, construction or Subdivider's Faults (other than those required by a City Directive); provided, however, that Subdivider shall not be responsible for routine maintenance as specified in Section 1(F) of this Agreement. Subdivider's indemnity obligations hereunder shall remain in effect for ten (10) years following acceptance of the respective Improvement(s) by the City Council. Subdivider acknowledges and agrees that Subdivider shall be responsible and liable for the Subdivider's Faults with respect to the Improvements and other work done pursuant to this Agreement, unless same is due to a City Directive. City shall not be liable for any acts or omissions in approving, reviewing, checking, correcting or modifying any Improvement Plans or related specifications, or in inspecting, reviewing or approving any work or construction of Improvements, unless same is due to a City Directive. The Subdivider's improvement security shall not be required to secure the Subdivider's obligations under this subparagraph C beyond the one-year guarantee and warranty period, unless the City Engineer provides notice to Subdivider prior to the expiration of the one-year period of the existence of, or continued existence of, defects in the improvements, in which case the portion of the improvement security to guarantee and warranty the improvements against defective work shall not be released and shall remain in place until the City Engineer provides written confirmation that the defects have been cured and corrected. The indemnity shall be effective retroactively to the earliest recordation date of the Final Map.

D. Subdivider shall pay and satisfy any judgment, award or decree that may be rendered against City, its officers, officials, employees, agents, representatives and volunteers (collectively hereinafter "City and City Personnel") to the extent of the indemnity provided above, in any such suit, action, or other legal proceeding, provided City gives Subdivider prompt written notice of such claim and allows Subdivider to undertake the defense thereof, and provided further that City cooperates in any such suit, action, or other legal proceeding, but shall retain its right to reject a settlement that the City deems, in its sole and absolute discretion, to be contrary to the interests of the City.

E. Subdivider's obligation to indemnify shall not be restricted to Insurance proceeds, if any, received by the City and City Personnel.

F. Subdivider, on behalf of itself and all parties claiming under or through it, hereby waives all rights of subrogation and contribution against City and City Personnel to the extent of the indemnity above provided.

8. INSURANCE

The following coverages will be provided by Subdivider and maintained on behalf of City and in accordance with the requirements set forth herein. If Subdivider performs construction activities through a general contractor, some or all of these insurance requirements for the period of construction may be satisfied by the general contractor's insurance coverages. In such case, Subdivider shall maintain during this same construction period, and after the construction period, the coverages shown below as "Insurance After Construction." In addition, Subdivider may elect to obtain, for all or any portion of the Project, an "Owner-Controlled Wrap Up" insurance policy in satisfaction of the insurance requirements for general contractors and subcontractors provided it satisfies all of the insurance requirements below for general contractors and subcontractors. Throughout these specifications, the word "Subdivider" refers to the Party responsible to provide the coverages as specified and, depending on context, may refer either to Subdivider or to a separate General Contractor.

A. Insurance During Construction. Subdivider shall provide the following insurance during construction of the Improvements. Insurance requirements may be met through insurance provided by Subdivider's General Contractor:

1. Commercial General Liability Insurance. Commercial General Liability Insurance (primary) shall be provided on ISO-CGL Form No. CG 00 01 or equivalent coverage, including provisions for defense of additional insureds. Policy limits shall be no less than two million dollars ($2,000,000) per occurrence for all coverages and five million dollars ($5,000,000) general aggregate. City and its officers, employees and agents shall be added as additional insureds using ISO Form CG 20 10 11 85 or other revision of the CG 20 10 form if available from the insurer and reasonably acceptable to the City, not limiting coverage for the additional insured to "ongoing operations" or in any way excluding coverage for completed operations. Coverage shall apply on a primary non-contributing basis in relation to any other insurance or self-insurance, primary or excess, available to City or any officer, employee or agent of City.

Coverage shall not be limited to the vicarious liability or supervisory role of any additional insured. Coverage shall contain no contractors' limitation or other endorsement limiting the scope of coverage for liability arising from pollution, explosion, collapse, or underground property damage.

2. Umbrella Liability Insurance. Umbrella Liability Insurance (or, at Subdivider's election, Excess Liability Insurance) (over primary) shall apply to bodily injury/property damage, personal injury/advertising injury, at a minimum. Coverage shall be at least as broad as any underlying coverage. Coverage shall be provided on a "pay on behalf" basis. There shall be no cross liability exclusion and no contractor's limitation endorsement. Policy limits shall be not less than five million dollars ($5,000,000) per occurrence and in the aggregate, including any limits required in the underlying policies. The policy shall have a starting date no later than and an ending date no earlier than those of the underlying coverages. The Named Insured (Subdivider or General Contractor as appropriate) may determine the layering of primary and excess liability insurance provided that if such layering differs from that described here, the actual coverage program meets the minimum total required limits and complies with all other requirements listed here.

3. Business Auto Coverage. Business Auto Coverage shall be written on ISO Business Auto Coverage Form CA 00 01 or the equivalent, including symbol (1) (any Auto). If Subdivider (or Contractor) does not own any vehicles, this requirement may be satisfied by a non-owned vehicle endorsement to the general and umbrella liability policies. Limits shall be no less than one million dollars ($1,000,000) per accident. This policy shall be scheduled as underlying insurance to the umbrella policy required above for a total limit of no less than five million dollars ($5,000,000) each accident.

4. Workers' Compensation/Employer's Liability. Workers' Compensation/Employer's Liability shall provide workers' compensation statutory benefits as required by law. Employer's liability limits shall be no less than one million dollars ($1,000,000) per accident or disease. Employer's liability coverage shall be scheduled under the umbrella or excess liability policy described above. This policy shall be endorsed to waive any right of subrogation with respect to City, its officers, employees or agents.

5. Builder's Risk Insurance. Builder's Risk Insurance covering all real and personal property for "all risks" of loss or "comprehensive perils" coverage including but not limited to the perils of earth movement, including earthquake (if required by Subdivider's lender or if available at commercially reasonable rates) and flood for all Improvements.

B. Insurance After Construction. Upon completion of construction of the Improvements, and for the required one-year guarantee and warranty period for Improvements and the required 10-year indemnification period, Subdivider at Subdivider's expense shall maintain or cause to be maintained the following insurance:

1. Commercial Property Insurance. Commercial Property Insurance covering the Improvements. Coverage shall be at least as broad as the Insurance Services Offices broad causes of loss form CP 10 20, and reasonably approved of in writing by the City. Coverage shall be sufficient to insure 100% of the replacement value and there shall be no coinsurance provisions. The policy shall include an inflation guard endorsement, 100% rents coverage, contents coverage, coverage for personal property of others, ordinance or law and increased cost of construction coverage. Subdivider also agrees to provide builder's all-risk insurance using an inland marine form during the period of any major alteration or improvement, using the broadest form available.

The insurance coverage for the peril of earthquake required for this project is subject to availability on the open market at commercially reasonable premium cost, as determined by mutual agreement between Subdivider and City. If such earthquake insurance coverage should, after diligent effort by Subdivider, be unobtainable at such mutually determined commercially reasonable premium cost, then Subdivider shall obtain the maximum insurance reasonably obtainable at commercially reasonable premium cost (if any) and give notice to City of the extent of Subdivider's inability to obtain, in full, the required insurance, and in such event, Subdivider's obligation to procure and maintain such insurance may be excused, subject to City's verification of inability to obtain the required insurance. Subdivider and City agree that a premium cost of earthquake insurance coverage of up to 150% of the premium cost paid by Subdivider for such coverage on the Effective Date (to be adjusted over time based on the Consumer Price Index,) shall constitute a commercially reasonable premium cost. Non-availability at commercially reasonable premium cost must be documented by a letter from Subdivider's insurance broker or agent indicating a good faith effort to place the required insurance and showing, at a minimum, the names of the insurance carriers and the declinations or quotations received from each.

2. Commercial General Liability Insurance. Commercial General Liability Insurance (primary) shall be provided on ISO-CGL form No. CG 00 01 or equivalent coverage, including provisions for defense of additional insureds. Policy limits shall be no less than two million dollars ($2,000,000) per occurrence for all coverages and five million dollars ($5,000,000) general aggregate. City and its officers, employees and agents shall be added as additional insureds using ISO form CG 20 10 or equivalent if available from the insurer and reasonably acceptable to the City. Coverage shall apply on a primary non-contributing basis in relation to any other insurance or self-insurance, primary or excess, available to City or any officer, employee or agent of City until the warranty period specified in this Agreement expires.

3. Umbrella Liability Insurance. Umbrella Liability Insurance (or, at Subdivider's election, Excess Liability Insurance) (over primary) shall apply to bodily injury/property damage, personal injury/advertising injury, at a minimum. Coverage shall be at least as broad as any underlying coverage. Coverage shall be provided on a "pay on behalf" basis. There shall be no cross liability exclusion. Policy limits shall be not less than five million dollars ($5,000,000) per occurrence and in the aggregate, including any limits required in the underlying policies. The policy shall have a starting

date no later than and an ending date no earlier than those of the underlying coverages. Subdivider may determine the layering of primary and excess liability insurance provided that if such layering differs from that described here, the actual coverage program meets the minimum total required limits.

4. Workers Compensation Insurance. Workers' Compensation/Employer's Liability shall provide workers' compensation statutory benefits as required by law. Employer's liability limits shall be no less than one million dollars per accident or disease. Employer's liability coverage shall be scheduled under any umbrella or excess liability policy described above. Unless otherwise agreed, this policy shall be endorsed to waive any right of subrogation as respects City, its employees or agents.

5. Business Auto Coverage. Business Auto Coverage for vehicles owned, operated or maintained in any way connected with the project, shall be written on ISO Business Auto Coverage form CA 00 01 or the equivalent, including symbol (1) (any Auto). If Subdivider (or Contractor) does not own any vehicles, this requirement may be satisfied by a non-owned vehicle endorsement to the general and umbrella liability policies. Limits shall be no less than one million dollars ($1,000,000) per accident. This policy shall be scheduled as underlying insurance to the umbrella or excess liability policy required above for a total limit of no less than five million dollars ($5,000,000) each accident.

C. Provisions Pertaining to Insurance Provided by Subdivider

1. All insurance coverage and limits provided pursuant to this Agreement shall apply to the full extent of the policies involved, available or applicable. Nothing contained in this Agreement or any other agreement relating to City or its operations limits the application of such insurance coverage.

2. Requirements of specific coverage features or limits contained in this Section are not intended as a limitation on coverage, limits or other requirements, or a waiver of any coverage normally provided by any insurance. Specific reference to a given coverage feature is for purposes of clarification only and is not intended by any Party to be all inclusive, or to the exclusion of other coverage, or a waiver of any type.

3. All general or auto liability insurance coverage provided pursuant to this Agreement, or any other agreements pertaining to the performance of this Agreement, shall not prohibit Subdivider, and Subdivider's employees, or agents, from waiving the right of subrogation prior to a loss. Subdivider waives its right of subrogation against City.

4. None of the policies required herein shall be in compliance with these requirements if they include any limiting endorsement that has not been first submitted to City and approved in writing by the City.

5. Unless otherwise approved by City, Subdivider's insurance and insurance provided by any contractor or subcontractor relating to the construction of the Improvements shall be written by insurers authorized to do business in the State of California and with a minimum "Best's" Insurance Guide rating of at least "A-:VII." Self-insurance will not comply with these insurance specifications unless expressly approved in writing by the City.

6. In the event any policy of insurance required under this Agreement does not comply with these requirements and Subdivider does not cure the non-compliance within thirty (30) days after written notice from City (or Subdivider does not provide reasonable evidence of such cure within such period), or if the insurance is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any reasonable premium paid by City will be promptly reimbursed by Subdivider.

7. Subdivider agrees to provide evidence of the insurance required herein, satisfactory to City, consisting of certificate(s) of insurance evidencing all of the coverages required and an additional insured endorsement to Subdivider's general liability and umbrella liability policies using ISO Form CG 20 10 11 85. Certificate(s) are to reflect that the insurer will provide 30 days' notice of any cancellation of coverage and policies are to have a "cancellation endorsement" to the same effect. Subdivider agrees to provide copies of any endorsements modifying coverage in any way upon request from City.

8. Subdivider shall provide proof that policies of insurance required herein expiring during the term of this Agreement have been renewed or replaced with other policies providing at least the same coverage.

9. Any actual or alleged failure on the part of City or any other additional insured under these requirements to obtain proof of insurance required under this Agreement in no way waives any right or remedy of City or any additional insured, in this or any other regard.

10. Subdivider agrees to require all subcontractors or other parties (but not including a general contractor) hired for this project to construct the Improvements to purchase and maintain insurance for general liability (minimum limit $1,000,000 per occurrence), automobile liability ($1,000,000 per accident) and workers' compensation (statutory benefits). Prior to the issuance of the Certificate of Completion for each Phase, Subdivider shall, upon request by City, provide the City with copies of all insurance policies, certificates and endorsements related to such Phase.

11. Subdivider agrees to monitor and review all coverage required by this Section and assumes all responsibility for ensuring that such coverage is provided as required here. Subdivider agrees to obtain certificates evidencing such coverage. Subdivider agrees that upon request, all agreements with subcontractors or others with whom Subdivider contracts with on behalf of City, and all certificates of insurance

obtained in compliance with this paragraph will be submitted to City for review upon request by City. Failure of City to request copies of such documents will not impose any liability on City, or its employees.

12. Subdivider agrees to require that no contract used by any general contractor or subcontractor in connection with construction of the Improvements, or contracts Subdivider enters into on behalf of City, will reserve the right to charge back to City the cost of insurance required by this Agreement.

13. Where appropriate (such as in the case of automobile insurance coverages), coverage will not be limited to the specific location designated as the Property.

14. Subdivider agrees to provide notice to City of any claim or loss against Subdivider that includes City as a defendant promptly after Subdivider receives written notice or obtains knowledge thereof. City assumes no obligation or liability by such notice, but has the right (but not the duty) to monitor the handling of any such claim or claims if they are likely to involve City. City agrees to provide similar notice to Subdivider of any such claims it is notified of respecting the Property.

15. Subdivider agrees not to attempt to avoid its defense and indemnity obligations to City, and its officers, employees, agents by using as a defense Subdivider's statutory immunity under workers' compensation and similar statutes.

16. Subdivider agrees to ensure that coverage provided to meet these requirements is applicable separately to each insured and that there will be no cross liability exclusions that preclude coverage for suits between Subdivider and City or between City and any other insured or Named Insured under the policy, or between City and any Party associated with City or its employees.

17. If Subdivider or any contractor or subcontractor is a Limited Liability Company, general liability coverage must apply so that the Limited Liability Company and its Managers, Members, Affiliates, and their employees are insureds.

18. Subdivider shall require General Contractor to maintain commercial general liability, and if necessary, commercial umbrella liability insurance with a limit of not less than $15,000,000 for each occurrence, until the warranty period specified in this Agreement expires.

19. Subdivider agrees to obtain and provide to City evidence of professional liability coverage for Architects, Engineers or other design professionals working on the Improvements. The limit of liability required is subject to City approval, but in no event to be less than $1,000,000 per claim and in the aggregate, and Subdivider shall use reasonable efforts to require and cause such professionals to maintain coverage with respect to each occurrence for at least three years following substantial completion of the work and, in the event Subdivider is unable to do so, Subdivider shall promptly inform the City of the scope of such efforts and the reasons that it was unable to do so. If

Subdivider requests that the City approve a lower limit for any particular design professional Subdivider seeks to employ on the Improvements, City will evaluate each such request based on City's perception of liability exposure associated with the work that would be performed by that design professional.

20. To the extent a particular coverage or policy form or specification is not reasonably available from Subdivider's insurer or would result in an additional premium that is extraordinary or unreasonably disproportionate to the premium for the policy as a whole, then Subdivider shall provide substantially similar coverage reasonably acceptable to City for which the cost is not extraordinary or unreasonably disproportionate.

9. OWNERSHIP OF THE IMPROVEMENTS

A. Ownership of all or any category of the Improvements constructed and installed by the Subdivider pursuant to this Agreement and shown on the Map to be dedicated to the public shall vest, as applicable, in the City (or other specified governmental agency) upon acceptance of said Improvements by the City. The acceptance of the Improvements shall either be shown by a certificate on the Final Map or by subsequent resolution accepting the Improvements adopted by the City pursuant to Government Code Section 66477.2 and recorded with the County Recorder or by other writing.

B. The Subdivider shall at all times prior to the acceptance of the Improvements by the City, give good and adequate warning to the public of each and every dangerous and defective condition caused by the construction of the Improvements and shall take all steps reasonably necessary to protect the public from such dangerous or defective conditions. The Subdivider agrees and understands that until acceptance of the Improvements by the City in writing, each Improvement and Improvement area that is offered for dedication shall be under the charge of the Subdivider, and the Subdivider may close all or a portion of any street or area whenever necessary to protect the public during the construction of the Improvements.

10. PREPARATION AND RECORDATION OF CC&RS.

A. The Subdivider shall establish a Homeowners Association for the residential areas of the Final Map owned by Subdivider, and to pay all costs associated with the creation of the associations.

B. The Subdivider shall prepare and record Covenants, Conditions, and Restrictions (CC&Rs) which obligate each homeowners association to provide for maintenance of the shared facilities, improvements, and landscaping within the boundaries of the associations in perpetuity in accordance with the Development Agreement and conditions of approval. The CC&Rs shall describe the homeowners association and the City's responsibilities and rights, and shall be subject to the approval of the City prior to recordation.

C. The Subdivider shall implement applicable provisions of the Mitigation Monitoring and Reporting Program.

11. DEFAULT AND BREACH BY THE SUBDIVIDER AND REMEDIES OF THE CITY

A. Upon the occurrence of any of the following events, the Subdivider shall be deemed to be in default under this Agreement:

1. Subject to any time extensions granted in accordance with Section 4, failure to complete construction and installation of the Improvements or any of them by the completion date set forth above in the Subdivision Reference Data;

2. Failure to promptly correct or cure any defect in the Improvements or any of them (other than a City Directive) during the one-year guarantee and warranty period as required by Section 3.A or failure to commence correction or cure of any such defect or failure to diligently prosecute same to completion, in each instance following receipt by Subdivider of written notice that such defect exists;

3. Subject to any time extensions granted in accordance with Section 4, failure to perform substantial construction work of the Improvements or any of them, after commencement of work on same, for a period of thirty (30) days after Subdivider's receipt of written notice thereof from the City;

4. Insolvency, appointment of a receiver, or the filing of any petition in bankruptcy, whether voluntary or involuntary, and such is not cured or discharged within a period of thirty (30) days;

5. Commencement of a foreclosure action against the Subdivision or any portion thereof, or any conveyance by the Subdivider in lieu or in avoidance of foreclosure, within thirty (30) days after receipt by Subdivider of written notice thereof from the City; or

6. Failure to perform any other obligations in accordance with the terms and provisions of this Agreement within thirty (30) days after receipt by Subdivider of written notice thereof from the City.

B. City reserves to itself all remedies available to it at law or in equity for any breach of Subdivider's obligations under this Agreement. City shall have the right, without limitation of other rights or remedies, after written notice to Subdivider and a reasonable opportunity for Subdivider to cure any such alleged default, to draw upon or utilize any improvement security furnished hereunder to complete the Improvements or otherwise mitigate City's damages in the event of Subdivider's default.

C. Following Subdivider's receipt of written notice of alleged default and failure by Subdivider to promptly commence the cure of any alleged default and to diligently prosecute such cure to completion, the City may serve written notice of any such default upon the surety on any corporate surety bond furnished as improvement security hereunder, and request that said surety take over and complete the Improvements herein specified. If such surety, within thirty (30) days after service of such notice of default, does not give the City

written notice of its intention to perform this Agreement, or does not commence such performance within thirty (30) days after notice to the City of such intention to perform, the City may take over the work and prosecute the same to completion, by contract or by any other method the City deems advisable, for the account and at the expense of the Subdivider and its surety.

D. Subdivider acknowledges that the Estimated Total Costs and Improvement Security amounts set forth herein may not reflect the actual cost of construction or installation of the Improvements, and, consequently, City's damages for Subdivider's default shall be measured by the actual cost of completing the required Improvements. If the damages incurred by the City in taking over and completing the Improvements exceeds the principal amount of the improvement security, then the Subdivider shall reimburse the City in the amount of such excess damages.

E. Following Subdivider's receipt of written notice of alleged default and failure by Subdivider to promptly commence the cure of any alleged default and to diligently prosecute such cure to completion, City may, without liability for so doing, take possession of, and utilize in completing the Improvements, such materials, appliances, plant and other property belonging to Subdivider as may be on the site of the work and necessary for the performance of the work. Subdivider hereby consents to such entry by the City and its representatives, including contractors, following written notice to Subdivider upon the real property in the Subdivision owned by Subdivider and necessary for City to enter or access under this Agreement, in the event the City elects to maintain or complete the work on the Improvements following Subdivider's default.

F. Subdivider acknowledges and agrees that approval of the Final Map for the Subdivision conferred substantial rights upon the Subdivider, including the right to sell, lease or finance lots within the Subdivision, and that such approval constitutes the final act necessary to permit the division of land within the Subdivision. As a result, City will be damaged to the extent of the cost of construction or installation of the Improvements upon Subdivider's failure to perform its obligations under this Agreement, which failure is not promptly remedied by sureties or by Subdivider.

G. The City's failure to take an enforcement action with respect to a default, or to declare a default or breach, shall not be construed as a waiver of that default or breach or any subsequent default or breach of the Subdivider.

H. If City sues to compel Subdivider's performance of this Agreement, or to recover damages or costs incurred in completing or maintaining the work on the Improvements, and is the prevailing party, Subdivider agrees to pay all reasonable attorneys' fees and other costs and expenses of litigation incurred by the City in connection therewith, even if Subdivider subsequently resumes and completes the work.

12. RELATIONSHIP OF THE PARTIES

Neither Subdivider, nor any of Subdivider's contractors, employees or agents, are or shall be deemed to be, agents of the City in connection with the performance of Subdivider's obligations under this Agreement.

13. ASSIGNMENT

A. Subdivider shall not assign this Agreement, or any portion thereof without the prior written consent of the City in accordance with the Development Agreement. Any attempted or purported assignment in violation of this subparagraph A shall be null and void and shall have no force or effect.

B. The sale or other disposition of the Subdivision shall not relieve Subdivider of its obligations hereunder. If Subdivider intends to sell the Subdivision, or any portion thereof (except for the sale of individual lots with homes to individual purchasers), to any other person or entity, the Subdivider may request an assignment or novation of this Agreement and a substitution of improvement security. Upon the City's approval of the assignment or novation and substitution of improvement security, the Subdivider may request a release or reduction of the improvement security furnished pursuant to this Agreement.

14. NOTICES

All notices required or provided for in this Agreement shall be in writing and delivered in person or by mail, postage prepaid, and addressed as follows:

If to the City:	Art Vela Director of Public Works/City Engineer City of Banning 99 E. Ramsey Drive Banning, California 92220
If to the Subdivider:	To the address set forth above in the Subdivision Reference Data, or to such other address as may subsequently be designated in written notice to the City.

Notice shall be effective on the date that it is delivered in person, or, if mailed, three (3) days after the date of deposit in the United States Mail.

15. ENTIRE AGREEMENT

This Agreement constitutes the entire agreement of the parties with respect to its subject matter. All modifications, amendments, or waivers of any terms of this Agreement shall be in writing and signed by the duly authorized representatives of the parties. In the case of the City, the duly authorized representative, unless otherwise specified herein, shall be the City Engineer.

16. SEVERABILITY

The provisions of this Agreement are severable. If any portion of this Agreement is held invalid by a court of competent jurisdiction, the remainder of the Agreement shall remain in full force and effect.

17. INCORPORATION OF SUBDIVISION REFERENCE DATA AND RECITALS

The Subdivision Reference Data and the Recitals are incorporated into this Agreement.

18. GOVERNING LAW

This Agreement shall be governed by the laws of the State of California.

19. EFFECTIVE DATE OF THE AGREEMENT

This Agreement shall be and become effective as of the date that it is executed by a duly authorized officer or employee of the City, it being the intention of the parties that the Subdivider shall first execute this Agreement and thereafter submit it to the City. The City shall insert the effective date in the Subdivision Reference Data in all counterparts of this Agreement and shall transmit a fully executed counterpart to the Subdivider.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their respective officers, thereunto duly authorized, as of the dates set forth below their respective signatures.

[Note: All signatures must be acknowledged by a notary public and the acknowledgement must be attached. If signed by a Corporation, the signatures of two Corporate officers are required, unless a resolution of the Corporation's Board of Directors is provided indicating that the signature of the one signatory is sufficient to bind the Corporation.]

CITY OF BANNING
STAFF REPORT

TO:	**CITY COUNCIL**
FROM:	**Robert Fisher, Acting City Manager**
PREPARED BY:	**Patrick Safari, Capital Improvement Projects Manager** **Art Vela, Director of Public Works**
MEETING DATE:	**February 25, 2025**
SUBJECT:	**Consideration of Resolution 2025-28, Approving a Sole Source Contract with Rick Engineering, Inc. for the Continuation of the Design of Ramsey Street Water Main Replacement in the Amount of $156,224.03**

RECOMMENDATION:

Adopt Resolution 2025-28.

BACKGROUND:

The City of Banning owns, operates, and maintains water distribution and transmission pipelines that distribute water to residents and businesses. To provide its customers with a reliable supply of water, it is important for the city to continue replacing aging and undersized water distribution infrastructure.

On April 12, 2022, City Council approved Resolution 2022-35 authorizing the use of American Rescue Plan Act (ARPA) funds on certain eligible projects including making the necessary investments in water infrastructure. The approved ARPA project list included the replacement of waterlines along Ramsey Street.

On November 14, 2023, City Council approved Resolution 2023-182 approving a Professional Services Agreement ("Agreement") for the Design of Ramsey Street Water Main Replacement to Rick Engineering, Inc., in the amount of $399,540 with an expiration date of June 30, 2024, and maximum term and subsequent amendments not to exceed five (5) years.

JUSTIFICATION:

The previous Agreement approved under Resolution 2023-182 expired on June 30, 2024 and the City and Rick Engineering, Inc. desire to complete the scope of work as outlined in the original Agreement. The amount of funds remaining in the expired contract is $156,224.03 which will be used to fund the remainder of the unfinished tasks in the previously approved scope of work.

Due to construction funding challenges for this project, the original Agreement with Rick Engineering, Inc. for the design of Ramsey Street Water Main Replacement called for a three (3) phase design process. The available ARPA funds were only sufficient to cover the construction of the first phase and therefore, it was necessary to prioritize the completion of the design of the first phase. The design work took longer than anticipated due to unforeseen site conditions and design challenges.

FISCAL IMPACT:

Staff recommends awarding a new Professional Services Agreement to Rick Engineering, Inc. in the amount of $156,224.03 to complete the outstanding design phases in a manner that meets all project specifications and regulatory requirements.

No fiscal impact is expected since the requested amount of $156,224.03 had previously been allocated to this project through the expired contract.

ALTERNATIVES:

Do not approve Resolution 2025-28 and provide alternative direction to staff.

BUDGETED?:

Yes

CONTRACT/AGREEMENT:

Yes

RESOLUTION 2025-28

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BANNING, CALIFORNIA, APPROVING A SOLE SOURCE CONTRACT WITH RICK ENGINEERING, INC. FOR THE CONTINUATION OF THE DESIGN OF RAMSEY STREET WATER MAIN REPLACEMENT IN THE AMOUNT OF $156,224.03

WHEREAS, the City of Banning owns, operates, and maintains water distribution and transmission pipelines that distribute water to residents and businesses. To provide its customers with a reliable supply of water, it is important for the city to continue replacing aging and undersized water distribution infrastructure; and

WHEREAS, on April 12, 2022, City Council approved Resolution 2022-35 authorizing the use of American Rescue Plan Act (ARPA) funds on certain eligible projects including making the necessary investments in water infrastructure. The approved ARPA project list included the replacement of waterlines along Ramsey Street; and

WHEREAS, on November 14, 2023, City Council approved Resolution 2023-182 approving a Professional Services Agreement for the Design of Ramsey Street Water Main Replacement to Rick Engineering, Inc., in the amount of $399,540 with an expiration date of June 30, 2024, and maximum term and subsequent amendments not to exceed five (5) years; and

WHEREAS, the previous Agreement approved under Resolution 2023-182 expired on June 30, 2024 and the City and Rick Engineering, Inc. desire to complete the scope of work as outlined in the original Agreement; and

WHEREAS, the amount of funds remaining in the expired contract is $156,224.03 which will be used to fund the remainder of the unfinished tasks in the previously approved scope of work; and

WHEREAS, due to construction funding challenges for this project, the original Agreement with Rick Engineering, Inc. for the design of Ramsey Street Water Main Replacement called for a three (3) phase design process; and

WHEREAS, the available ARPA funds were only sufficient to cover the construction of the first phase and therefore, it was necessary to prioritize the completion of the design of the first phase. The design work took longer than anticipated due to unforeseen site conditions and design challenges; and

WHEREAS, staff recommend awarding a new Professional Services Agreement to Rick Engineering, Inc. in the amount of $156,224.03 to complete the outstanding design phases in a manner that meets all project specifications and regulatory requirements; and

WHEREAS, no fiscal impact is expected since the requested amount of $156,224.03 had previously been allocated to this project through the expired contract.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Banning as follows:

SECTION 1. The City Council approves a Sole Source Professional Services Agreement with Rick Engineering, Inc. in the amount of $156,224.03 for the continued Design of Ramsey Street Water Main Replacement Project.

SECTION 2. The City Council authorizes the City Manager to make non-substantive changes to the Professional Services Agreement and to execute the Professional Services Agreement with Rick Engineering, Inc. on behalf of the City Council.

SECTION 3. The City Council authorizes the City Manager, or designee, to make necessary budget adjustments, appropriations, and transfers related to this resolution.

SECTION 4. The City Clerk shall certify to the adoption of this resolution and shall cause a certified resolution to be filed in the book of original resolutions.

PASSED, APPROVED AND ADOPTED this 25th day of February, 2025.

Sheri Flynn, Mayor
City of Banning

EXHIBIT A
Professional Services Agreement with Rick Engineering, Inc.

AGREEMENT FOR PROFESSIONAL SERVICES (C01126) FOR DESIGN OF RAMSEY STREET WATER MAIN BY AND BETWEEN CITY OF BANNING AND GLENN A. RICK ENGINEERING & DEVELOPMENT CO., DBA RICK ENGINEERING COMPANY

THIS AGREEMENT FOR PROFESSIONAL SERVICES (herein "Agreement") is made and entered into this day: _____, ("Effective Date") by and between the **CITY OF BANNING,** a California municipal corporation ("City") and Glenn A. Rick Engineering & Development Co., a California Corporation, dba Rick Engineering Company. ("Consultant"). City and Consultant are sometimes hereinafter individually referred to as "Party" and hereinafter collectively referred to as the "Parties."

RECITALS

A. City has sought by issuance of a Request for Proposals (RFP No. 23-036) from the bench of prequalified Engineers (RFQ-22-007), the performance of the services for the Design of Ramsey Street Water Main and as further defined and described particularly in Article 1 of this Agreement.

B. Consultant, following submission of a proposal for the performance of the services defined and described particularly in Article 1 of this Agreement, was selected by City to perform those services.

C. The Parties desire to formalize the selection of Consultant for performance of those services defined and described particularly in Article 1 of this Agreement and desire that the terms of that performance be as particularly defined and described herein.

D. Pursuant to the City of Banning's Municipal Code, City has authority to enter into this Agreement.

NOW, THEREFORE, in consideration of the mutual promises and covenants made by the Parties and contained herein and other consideration, the value and adequacy of which are hereby acknowledged, the Parties agree as follows:

ARTICLE 1. SERVICES OF CONSULTANT

1.1 Scope of Services.

In compliance with all terms and conditions of this Agreement, Consultant shall provide those services specified in the "Scope of Services" attached hereto as **Exhibit A** and incorporated herein by this reference, which services may be referred to herein as the "Services" hereunder. As a material inducement to City entering into this Agreement, Consultant represents and warrants that it has the qualifications, experience, and facilities necessary to properly perform the Services required under this Agreement in a thorough, competent, and professional manner, and is experienced in performing the Services contemplated herein. Consultant shall at all times faithfully, competently and to the best of its ability, experience and talent, perform all Services described herein. Consultant covenants that it shall follow the highest professional standards in

performing the Services required hereunder and that all materials will be of good quality, and fit for the purpose intended. For purposes of this Agreement, the phrase "highest professional standards" shall mean those standards of practice recognized by one or more first-class firms performing similar work under similar circumstances. This Agreement calls for services that, in whole or in part, constitute "public works" as defined in the California Labor Code. Therefore, as to those services that are "public works," Consultant shall comply in all respects with all applicable provisions of the California Labor Code, including those set forth in Exhibit B hereto.

1.2 Contract Documents and Exhibits.

This Agreement includes the Request for Proposal and Consultant's accepted proposal ("Contract Documents"), both of which are on file with the City and incorporated herein by this general reference as though fully set forth herein. **Exhibit A** (Scope of Services), **Exhibit B** (Special Requirements), **Exhibit C** (Schedule of Compensation), and **Exhibit D** (Schedule of Performance) also constitute a part of this Agreement and are incorporated into this Agreement by this reference. Except as set forth in Section 1.10 regarding **Exhibit B**, this Agreement controls over the Contract Documents and the provisions in **Exhibits A, B** and **C**.

1.3 Compliance with Law.

Consultant shall keep itself informed concerning all ordinances, resolutions, statutes, rules, and regulations of City and any Federal, State or local governmental entity having jurisdiction in effect at the time service is rendered, and shall render all Services hereunder in accordance therewith.

1.4 Licenses, Permits, Fees and Assessments.

Consultant shall obtain and maintain during the term of this Agreement, at its sole cost and expense, all necessary licenses, permits, certificates and approvals required by law for the performance of Services under this Agreement, including a City business license. Consultant shall have the sole obligation to pay for all fees, assessments and taxes, plus applicable penalties and interest, which may be imposed by law and which arise from or are necessary for Consultant's performance of the Services required by this Agreement. Consultant shall indemnify, defend and hold harmless City, its officers, employees or agents, against all such fees, assessments, taxes, penalties or interest levied, assessed or imposed against City hereunder.

1.5 Familiarity with Services.

By executing this Agreement, Consultant warrants that Consultant: (i) has thoroughly investigated and considered the Scope of Services to be performed, (ii) has carefully considered how the Services should be performed, and (iii) fully understands the facilities and any difficulties and restrictions attending performance of the Services under this Agreement. If the Services involve work upon any site, Consultant warrants that Consultant has or will investigate the site and is or will be fully acquainted with the conditions existing therein, prior to commencement of Services hereunder. Should Consultant discover any latent or unknown conditions, which will materially affect the performance of the Services hereunder, Consultant shall immediately inform City of such fact and shall not proceed except at Consultant's risk until written instructions are received from the Contract Officer (defined in Section 1.12. A).

1.6 Prevention of Loss and Damages.

Consultant shall adopt reasonable methods during the Term (defined in Section 3.4) to furnish continuous protection to the work product, and the equipment, materials, papers, documents, plans, studies and/or other components thereof to prevent losses or damages, and shall be responsible for all such damages, to persons or property, until acceptance of the Services by City, except such losses or damages as may be caused by City's own negligence.

1.7 Further Responsibilities of Parties.

Both Parties agree to use reasonable care and diligence to perform their respective obligations under this Agreement. Both Parties agree to act in good faith to execute all instruments, prepare all documents and take all actions as may be reasonable necessary to carry out the purposes of this Agreement. Unless hereafter specified, neither Party shall be responsible to perform the Services of the other.

1.8 Additional Services.

City shall have the right at any time during the performance of the Services, without invalidating this Agreement, to order extra services beyond that specified in the Scope of Services or to make changes by altering, adding to or deducting from the Services. No such extra services may be undertaken unless a written order is first given by the Contract Officer to Consultant, which written order incorporates therein an adjustment in (i) the Contract Sum (as defined in Section 2.1), and/or (ii) the Schedule of Performance, (as defined in Section 3.2), and which written order is approved in writing by Consultant. Any increase in compensation of up to ten percent (10%) of the Contract Sum, or $25,000, whichever is less; or in the Schedule of Performance of up to one hundred eighty (180) days may be approved by the Contract Officer. Any greater increases, taken either separately or cumulatively, must be approved by City Council. It is expressly understood by Consultant that the provisions of this Section shall not apply to Services which are specifically set forth in the Scope of Services or which are reasonably contemplated therein. Consultant hereby acknowledges that it accepts the risk that the Services to be provided pursuant to the Scope of Services may be more costly or time consuming than Consultant anticipates and that Consultant shall not be entitled to additional compensation therefor.

1.9 Facilities and Equipment.

Except as otherwise provided, Consultant shall, at its own cost and expense, provide all facilities and equipment necessary to perform the Services required by this Agreement. City shall make available to Consultant only physical facilities such as desks, filing cabinets, and conference space ("City Facilities"), as City deems, in its sole discretion, to be reasonably necessary for Consultant's use while consulting with City employees and reviewing records and the information in possession of City. The location, quality, and time of furnishing City Facilities shall be in the sole discretion of City. In no event shall City be required to furnish any facilities that may involve incurring any direct expense, including but not limited to a computer, long distance telephone, network data, internet or other communication charges, vehicles and reproduction facilities.

1.10 Special Requirements.

Additional terms and conditions of this Agreement, if any, which are made a part hereof are set forth in the "Special Requirements" attached hereto as **Exhibit B** and incorporated herein by this reference. In the event of a conflict between the provisions of **Exhibit B** and any other provisions of this Agreement, the provisions of **Exhibit B** shall govern.

1.11 Corrections.

In addition to the indemnification obligations set forth in Article 4, and Sections 1.4, 1.13, 5.3, 5.4, and 6.3, Consultant shall correct, at its expense, all errors in the Services which may be disclosed during City's review of Consultant's report or plans. Should Consultant fail to make such correction(s) in a reasonably timely manner, such correction(s) may be made by City, and the cost thereof shall be charged to Consultant. In addition to all other available remedies, City may deduct the cost of such correction(s) from any retention amount held by City, or may withhold payment otherwise owed Consultant under this Agreement up to the amount of the cost of correction(s), as provided in Section 6.3.

1.12 Party Representatives.

A. Contract Officer: For the purposes of this Agreement, the Contract Officer shall be the City Manager, or such other person designated in writing by the City Manager ("Contract Officer"). Unless otherwise specified herein, any approval of City required hereunder shall mean the approval of the Contract Officer. The Contract Officer shall have authority, if specified in writing by the City Manager, to sign all documents on behalf of City required hereunder to carry out the terms of this Agreement.

B. Principals and Personnel of Consultant.

1) Consultant Representative: The following principal of Consultant is hereby designated as being the Consultant Representative authorized to act on Consultant's behalf regarding the Services specified herein and make all decisions in connection therewith:

Name	Title
Richard O'Neill	Associate Principal

It is expressly understood that the experience, knowledge, capability and reputation of the foregoing Consultant Representative were a substantial inducement for City to enter into this Agreement. Therefore, the foregoing Consultant Representative shall be responsible during the term of this Agreement for directing all activities of Consultant and devoting sufficient time to personally supervise the Services hereunder. All personnel of Consultant, and any authorized agents, shall at all times be under the exclusive direction and control of the Consultant Representative. For purposes of this Agreement, the foregoing Consultant Representative may not be replaced nor may their responsibilities be substantially reduced or reassigned by Consultant without the express written approval of City. It shall be Consultant's responsibility to assure that the Contract Officer is kept informed of the progress of the performance of the Services, and Consultant shall refer any decisions which must be made by City to the Contract Officer.

2) Consultant's Personnel: Consultant has, or will secure at its own expense, all personnel required to perform the Services required under this Agreement. All of the Services required under this Agreement shall be performed by Consultant or under its supervision, and all personnel engaged in the Services shall be qualified to perform such Services. Consultant shall make every reasonable effort to maintain the stability and continuity of Consultant's staff and sub-contractors, if any, assigned to perform the Services required under this Agreement. Consultant shall notify City of all changes in Consultant's staff and sub-contractors, if any, assigned to perform the Services required under this Agreement, prior to and during any such performance. In the event that City, in its sole discretion, at any time during the term of this Agreement, desires to reassign any staff or sub-contractor of Consultant, City shall give notice as set forth in Section 8.1. Consultant shall, immediately upon the receipt of the notice to re-assign staff from City, reassign such person or persons.

1.13 Independent Contractor.

A. Consultant is an independent contractor and not an employee of City. Consultant shall have no power to incur any debt, obligation, or liability on behalf of City. All Services provided pursuant to this Agreement shall be performed by Consultant or under its supervision. Consultant will determine the means, methods, and details of performing the Services. Any additional personnel performing Services under this Agreement on behalf of Consultant shall also not be employees of City and shall at all times be under Consultant's exclusive direction and control. Consultant shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Consultant shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

B. Consultant shall indemnify and hold harmless City and its elected officials, officers, employees, servants, designated volunteers, and agents serving as independent contractors in the role of City officials, from any and all liability, damages, claims, costs and expenses of any nature to the extent arising from Consultant's personnel practices. City shall have the right to offset against the amount of any fees due to Consultant under this Agreement any amount due to City from Consultant as a result of Consultant's failure to promptly pay to City any reimbursement or indemnification arising under this Section.

1.14 Prohibition Against Subcontracting or Assignment.

The experience, knowledge, capability and reputation of Consultant, the Consultant Representative and employees were a substantial inducement for City to enter into this Agreement. Therefore, Consultant shall not contract with any other entity to perform in whole or in part the Services required hereunder without the express written approval of City. In addition, neither this Agreement nor any interest herein may be transferred, assigned, conveyed, hypothecated or encumbered voluntarily or by operation of law, whether for the benefit of creditors or otherwise, without the prior written approval of City. Transfers restricted hereunder shall include the transfer to any person or group of persons acting in concert of more than twenty-five percent (25%) of the present ownership and/or control of Consultant, taking all transfers into account on a cumulative basis. In the event of any such unapproved transfer, including any bankruptcy proceeding, this

Agreement shall be void. No approved transfer shall release Consultant or any surety of Consultant of any liability hereunder without the express consent of City.

ARTICLE 2. COMPENSATION AND METHOD OF PAYMENT.

2.1 Contract Sum.

Subject to any limitations set forth in this Agreement, as full compensation for Services satisfactorily rendered, City shall pay Consultant at the hourly rates set forth in **Exhibit C-1** and the not-to-exceed sub-budget rates set forth in the "Schedule of Compensation" attached hereto as **Exhibit C** and incorporated herein by this reference. In no event shall Consultant be paid more than One Hundred Fifty-Six Thousand Two Hundred Twenty-Four Dollars and Three Cents ($156,224.03) (the "Contract Sum"). The Contract Sum shall include the attendance of Consultant at all project meetings reasonably deemed necessary by City. Coordination of the performance of the Services with City is a critical component of the Services. If Consultant is required to attend additional meetings to facilitate such coordination, Consultant shall not be entitled to any additional compensation for attending those meetings.

2.2 Method of Compensation.

The method of compensation may include: (i) a lump sum payment upon completion of the Services, (ii) payment in accordance with specified tasks or the percentage of completion of the Services, (iii) payment for time and materials based upon Consultant's rates as specified in the Schedule of Compensation, provided that time estimates are provided for the performance of sub tasks, but not exceeding the Contract Sum or (iv) such other methods as may be specified in the Schedule of Compensation.

2.3 Reimbursable Expenses.

City shall only reimburse Consultant for those actual and necessary expenses expressly set forth in **Exhibit C**. Reimbursable expenses may include reimbursement for actual and necessary expenditures for reproduction costs, telephone expenses, and travel expenses approved by the Contract Officer in advance, or actual sub-contractor expenses of an approved sub-contractor pursuant to Section 1.14, and only if specified in the Schedule of Compensation.

2.4 Unauthorized Services and Expenses.

City will not pay for any Services or reimburse for any expenses incurred which are not specified in the Scope of Services, unless authorized in writing as set forth in Section 1.8 of this Agreement. City shall make payment for such authorized additional Services and expenses in accordance with Article 2 of this Agreement.

2.5 Invoices.

Each month Consultant shall furnish to City an original invoice for all Services performed and expenses incurred during the preceding month. Each such invoice shall contain all of the information set forth in Section III of **Exhibit C** to this Agreement. By submitting an invoice for payment under this Agreement, Consultant is certifying compliance with all provisions of the

Agreement. Consultant shall not invoice City for any duplicate Services performed by more than one person.

City shall independently review each invoice submitted by Consultant to determine whether the Services performed and expenses incurred are in compliance with the provisions of this Agreement. City will use its best efforts to cause Consultant to be paid within thirty (30) days of receipt of Consultant's correct and undisputed invoice, except as to any charges for Services performed or expenses incurred by Consultant which are disputed by City, or as provided in Section 6.3. In the event any charges or expenses are disputed by City, the original invoice shall be returned by City to Consultant for correction and resubmission. Review and payment by City of any invoice provided by Consultant shall not constitute waiver of any rights or remedies provided herein or any applicable law.

2.6 Waiver.

Payment to Consultant for Services performed pursuant to this Agreement shall not be deemed to waive any defects in Services performed by Consultant.

ARTICLE 3. PERFORMANCE SCHEDULE

3.1 Time of Essence.

Time is of the essence in the performance of this Agreement; provided, however, that the foregoing shall not be construed to limit or deprive a Party of the benefits of any grace or use period allowed in this Agreement.

3.2 Schedule of Performance.

Consultant shall commence the Services pursuant to this Agreement upon receipt of a written notice to proceed and shall perform all Services within the time period(s) established in the "Schedule of Performance" attached hereto as **Exhibit D** and incorporated herein by this reference.

3.3 Force Majeure.

The time period(s) specified in the Schedule of Performance for performance of the Services rendered pursuant to this Agreement may be extended because of any delays due to unforeseeable causes beyond the control and without the fault or negligence of Consultant. Such unforeseeable consequences include, but are not restricted to, acts of God or public enemy, unusually severe weather, fires, earthquakes, floods, epidemics, quarantine restrictions, riots, strikes, freight embargoes, wars, litigation, and/or acts of any governmental agency, including City, if Consultant shall within ten (10) days of the commencement of such delay notify the Contract Officer in writing of the causes of the delay. The Contract Officer shall ascertain the facts and the extent of delay, and extend the time for performing the Services for the period of the enforced delay when and if in the judgment of the Contract Officer such delay is justified, subject to the provisions of Section 1.8. The Contract Officer's determination (or the City Council's determination, in the event the period of enforced delay exceeds the period specified in Section 1.8) shall be final and conclusive upon the Parties to this Agreement. In no event shall Consultant

be entitled to recover damages against City for any delay in the performance of this Agreement, however caused; Consultant's sole remedy shall be the extension of the Agreement pursuant to this Section.

3.4 Term.

The Term of this Agreement shall be from the Effective Date through June 30, 2026, unless sooner terminated as provided in Article 6 of this Agreement or extended as provided in Sections 1.8 and 3.3 of this Agreement. Maximum term and any subsequent amendment or modification shall not exceed five (5) years.

ARTICLE 4. INSURANCE AND INDEMNIFICATION

4.1 Minimum Scope and Limits of Insurance.

Consultant shall procure and at all times during the term of this Agreement carry, maintain, and keep in full force and effect, insurance as follows:

A. Commercial General Liability Insurance with a minimum limit of $1,000,000.00 per occurrence for bodily injury, personal injury and property damage and a general aggregate limit of $2,000,000.00 per project or location. If Consultant is a limited liability company, the commercial general liability coverage shall be amended so that Consultant and its managers, members, affiliates, employees, agents and other persons necessary or incidental to its operation are insureds.

B. Automobile Liability Insurance for any owned, non-owned or hired vehicle used in connection with the performance of this Agreement with a combined single limit of $1,000,000.00 per accident for bodily injury and property damage. If Consultant does not use any owned, non-owned or hired vehicles in the performance of Services under this Agreement, Consultant shall obtain a non-owned auto endorsement to the Commercial General Liability policy.

C. Workers' Compensation Insurance as required by the State of California and Employer's Liability Insurance with a minimum limit of $1,000,000.00 per accident for bodily injury or disease. If Consultant has no employees while performing Services under this Agreement, workers' compensation policy is not required; however, Consultant shall execute a declaration that it has no employees.

D. Professional Liability/Errors and Omissions Insurance with minimum limits of $1,000,000.00 per claim and in the aggregate.

4.2 Acceptability of Insurers.

The insurance policies required under this Article shall be issued by an insurer admitted to write insurance in the State of California with a rating of A:VII or better in the latest

edition of the A.M. Best Insurance Rating Guide. Self-insurance shall not be considered to comply with the insurance requirements under this Article.

4.3 Additional Insured.

The commercial general and automobile liability policies shall contain an endorsement naming City, its officers, employees, agents and volunteers as additional insureds.

4.4 Primary and Non-Contributing.

The insurance policies required under this Article shall apply on a primary non-contributing basis in relation to any other insurance or self-insurance available to City. Any insurance or self-insurance maintained by City, its officers, employees, agents or volunteers, shall be in excess of Consultant's insurance and shall not contribute with it.

4.5 Consultant's Waiver of Subrogation.

The insurance policies required under this Article shall not prohibit Consultant and Consultant's employees, agents or sub-contractors from waiving the right of subrogation prior to a loss. Consultant hereby waives all rights of subrogation against City.

4.6 Deductibles and Self-Insured Retentions.

Any deductibles or self-insured retentions must be declared to and approved by City. At City's option, Consultant shall either reduce or eliminate the deductibles or self-insured retentions with respect to City; or Consultant shall procure a bond guaranteeing payment of losses and expenses.

4.7 Cancellations or Modifications to Coverage.

Consultant shall not cancel, reduce or otherwise modify the insurance policies required by this Article during the term of this Agreement. The commercial general and automobile liability policies required under this Agreement shall be endorsed to state that should the issuing insurer cancel the policy before the expiration date, the issuing insurer will endeavor to mail 30 days' prior written notice to City. If any insurance policy required under this Article is canceled or reduced in coverage or limits, Consultant shall, within two (2) Business Days (as defined in Section 8.12) of notice from the insurer, phone, fax or notify City via certified mail, return receipt requested, of the cancellation of or changes to the policy.

4.8 City Remedy for Noncompliance.

If Consultant does not maintain the policies of insurance required under this Article in full force and effect during the term of this Agreement, or in the event any of Consultant's policies do not comply with the requirements under this Article, City may either immediately terminate this Agreement or, if insurance is available at a reasonable cost, City may, but has no duty to, take out the necessary insurance and pay, at Consultant's expense, the premium thereon. Consultant shall promptly reimburse City for any premium paid by City, or City may withhold amounts sufficient to pay the premiums from payments due to Consultant.

4.9 Evidence of Insurance.

Prior to the performance of Services under this Agreement, Consultant shall furnish the City Clerk with a certificate or certificates of insurance and all original endorsements evidencing and effecting the coverages required under this Article. The endorsements are subject to City's approval. Consultant may provide complete, certified copies of all required insurance policies to City. Consultant shall maintain current endorsements on file with the City Clerk. Consultant shall provide proof to the City Clerk that insurance policies expiring during the term of this Agreement have been renewed or replaced with other policies providing at least the same coverage. Consultant shall furnish such proof at least two (2) weeks prior to the expiration of the coverages.

4.10 Indemnity Requirements not Limiting.

Procurement of insurance by Consultant shall not be construed as a limitation of Consultant's liability or as full performance of Consultant's duty to indemnify City under this Agreement.

4.11 Sub-contractor Insurance Requirements.

Consultant shall require each of its sub-contractors that perform Services under this Agreement to maintain insurance coverage that meets all of the requirements of this Article.

4.12 Indemnification, Hold Harmless, and Duty to Defend.

A. Indemnification of City.

1) Indemnity for Design Professional Services. To the fullest extent permitted by law, Consultant shall, at its sole cost and expense, protect, indemnify, and hold harmless City and its elected officials, officers, attorneys, agents, employees, designated volunteers, successors, assigns and those City agents serving as independent contractors in the role of City officials (collectively "Indemnitees"), from and against any and all damages, costs, expenses, liabilities, claims, demands, causes of action, proceedings, judgments, penalties, liens, and losses of any nature whatsoever, including fees of accountants, attorneys, or other professionals and all costs associated therewith, and reimbursement of attorney's fees and costs of defense (collectively "Liabilities"), whether actual, alleged or threatened, which arise out of, are claimed to arise out of, pertain to, or relate to, in whole or in part, the negligence, recklessness or willful misconduct of Consultant, its officers, agents, servants, employees, subcontractors, material men, contractors or their officers, agents, servants or employees (or any entity or individual that Consultant shall bear the legal liability thereof) in the performance of design professional services under this Agreement by a "design professional," as the term is defined under California Civil Code Section 2782.8(c).

2) Other Indemnities. Other than in the performance of design professional services, and to the fullest extent permitted by law, Consultant shall, at its sole cost and expense, defend, hold harmless and indemnify Indemnitees from and against any and all damages, costs, expenses, liabilities, claims, demands, causes of action, proceedings, expenses, judgments, penalties, liens, and losses of any nature whatsoever, including fees of accountants, attorneys, or other professionals and all costs associated therewith and the payment of all consequential

damages (collectively "Claims"), at law or in equity, whether actual, alleged or threatened, which arise out of, are claimed to arise out of, pertain to, or relate to the acts or omissions of Consultant, its officers, agents, servants, employees, sub-contractors, materialmen, consultants or their officers, agents, servants or employees (or any entity or individual that Consultant shall bear the legal liability thereof) in the performance of this Agreement, including the Indemnitees' active or passive negligence, except for Claims arising from the sole negligence or willful misconduct of the Indemnitees as determined by court decision or by the agreement of the Parties. Consultant shall defend the Indemnitees in any action or actions filed in connection with any Claims with counsel of the Indemnitees' choice, and shall pay all costs and expenses, including all attorneys' fees and experts' costs actually incurred in connection with such defense. Consultant shall reimburse the Indemnitees for any and all legal expenses and costs incurred by Indemnitees in connection therewith.

3) Consultant shall pay all required taxes on amounts paid to Consultant under this Agreement, and indemnify and hold City harmless from any and all taxes, assessments, penalties, and interest asserted against City by reason of the independent contractor relationship created by this Agreement. Consultant shall fully comply with the workers' compensation law regarding Consultant and Consultant's employees. Consultant shall indemnify and hold City harmless from any failure of Consultant to comply with applicable workers' compensation laws. City may offset against the amount of any fees due to Consultant under this Agreement any amount due to City from Consultant as a result of Consultant's failure to promptly pay to City any reimbursement or indemnification arising under this subparagraph A.3.

4) Consultant shall obtain executed indemnity agreements with provisions identical to those in this Article from each and every sub-contractor or any other person or entity involved by, for, with or on behalf of Consultant in the performance of this Agreement. If Consultant fails to obtain such indemnities, Consultant shall be fully responsible and indemnify, hold harmless and defend the Indemnitees from and against any and all Liabilities and Claims, in law or in equity, whether actual, alleged or threatened, which arise out of, are claimed to arise out of, pertain to, or relate to the acts or omissions of Consultant's sub-contractor, its officers, agents, servants, employees, sub-contractors, materialmen, contractors or their officers, agents, servants or employees (or any entity or individual that Consultant's sub-contractor shall bear the legal liability thereof) in the performance of this Agreement, including the Indemnitees' active or passive negligence, except for Liabilities and Claims arising from the sole negligence or willful misconduct of the Indemnitees, as determined by court decision or by the agreement of the Parties.

B. Workers' Compensation Acts not Limiting. Consultant's indemnifications and obligations under this Article, or any other provision of this Agreement, shall not be limited by the provisions of any workers' compensation act or similar act. Consultant expressly waives its statutory immunity under such statutes or laws as to City, its officers, agents, employees and volunteers.

C. Insurance Requirements not Limiting. City does not, and shall not, waive any rights that it may possess against Consultant because of the acceptance by City, or the deposit with City, of any insurance policy or certificate required pursuant to this Agreement. The indemnities in this Article shall apply regardless of whether or not any insurance policies are determined to be applicable to the Liabilities, tax, assessment, penalty or interest asserted against City.

D. Survival of Terms. Consultant's indemnifications and obligations under this Article shall survive the expiration or termination of this Agreement.

ARTICLE 5. RECORDS, REPORTS, AND RELEASE OF INFORMATION

5.1 Service Records.

Consultant shall keep, and require sub-contractors to keep, such ledgers, books of accounts, invoices, vouchers, canceled checks, reports, studies or other documents relating to the disbursements charged to City and Services performed hereunder (the "Service Records"), as shall be necessary to perform the Services required by this Agreement and enable the Contract Officer to evaluate the performance of such Services. Any and all such Service Records shall be maintained in accordance with generally accepted accounting principles and shall be complete and detailed. The Contract Officer shall have full and free access to such Service Records at all times during normal business hours of City, including the right to inspect, copy, audit and make copies and transcripts from such Service Records. Such Service Records shall be maintained for a period of three (3) years following completion of the Services hereunder, and City shall have access to such Service Records in the event any audit is required. In the event of dissolution of Consultant's business, custody of the Service Records may be given to City, and access shall be provided by Consultant's successor in interest ("Consultant's Successor"). If custody of the Service Records is given to Consultant's Successor, Consultant shall give written notice to City of the transfer of the Service Records to Consultant's Successor. The notice shall include contact information (address and telephone number) for Consultant's Successor, and access shall be provided to City by Consultant's Successor.

5.2 Reports.

Consultant shall periodically prepare and submit to the Contract Officer such reports concerning the performance of the Services required by this Agreement as the Contract Officer shall require. Consultant hereby acknowledges that City is greatly concerned about the cost of Services to be performed pursuant to this Agreement. For this reason, Consultant agrees that if Consultant becomes aware of any facts, circumstances, techniques, or events that may or will materially increase or decrease the cost of the Services contemplated herein, Consultant shall promptly notify the Contract Officer of that fact, circumstance, technique or event and the estimated increased or decreased cost related thereto.

5.3 Ownership of Documents.

All drawings, specifications, maps, designs, photographs, studies, surveys, data, notes, computer files, reports, records, documents and other materials (the "Consultant Documents") prepared by Consultant, its employees, sub-contractors and agents in the performance of this Agreement shall be the property of City and shall be delivered to City upon request of the Contract Officer or upon the termination of this Agreement. Consultant shall have no claim for further employment or additional compensation as a result of the exercise by City of its full rights of ownership use, reuse, or assignment of the Consultant Documents hereunder. Any use, reuse or assignment of such completed Consultant Documents for other projects and/or use of uncompleted Consultant Documents without specific written authorization by Consultant will be at City's sole

risk and without liability to Consultant, and Consultant's guarantee and warranties shall not extend to such use or assignment. Consultant may retain copies of such Consultant Documents for its own use. Consultant shall have an unrestricted right to use the concepts embodied therein. All sub-contractors shall provide for assignment to City of all Consultant Documents prepared by them; and in the event Consultant fails to secure such assignment, Consultant shall indemnify City for all damages resulting therefrom.

5.4 Confidentiality and Release of Information.

A. All information gained or work product produced by Consultant in performance of this Agreement shall be considered confidential, unless such information is in the public domain or already known to Consultant. Consultant shall not release or disclose any such information or work product to persons or entities other than City without prior written authorization from the Contract Officer.

B. Consultant, its officers, employees, agents or sub-contractors, shall not, without prior written authorization from the Contract Officer or unless requested by the City Attorney, voluntarily provide documents, declarations, letters of support, testimony at depositions, response to interrogatories or other information concerning the Services performed under this Agreement. Response to a subpoena or court order shall not be considered "voluntary" provided Consultant gives City notice of such court order or subpoena.

C. If Consultant, or any officer, employee, agent or sub-contractor of Consultant, provides any information or work product in violation of this Agreement, then City shall have the right to reimbursement and indemnity from Consultant for any damages, costs and fees, including attorneys' fees, caused by or incurred as a result of Consultant's conduct.

D. Consultant shall promptly notify City should Consultant, its officers, employees, agents or sub-contractors be served with any summons, complaint, subpoena, notice of deposition, request for documents, interrogatories, request for admissions or other discovery request, court order or subpoena from any Party regarding this Agreement and the Services performed thereunder. City retains the right, but has no obligation, to represent Consultant or be present at any deposition, hearing or similar proceeding. Consultant agrees to cooperate fully with City and to provide City with the opportunity to review any response to discovery requests provided by Consultant. However, this right to review any such response does not imply or mean the right by City to control, direct, or rewrite the response.

ARTICLE 6. ENFORCEMENT OF AGREEMENT AND TERMINATION

6.1 California Law.

This Agreement, and any dispute arising from the relationship between the Parties to this Agreement, shall be interpreted, construed and governed both as to validity and to performance of the Parties in accordance with the laws of the State of California. Legal actions concerning any dispute, claim or matter arising out of or in relation to this Agreement shall be instituted in the Superior Court of the County of Riverside, State of California, or any other appropriate court in such county, and Consultant covenants and agrees to submit to the personal jurisdiction of such

court in the event of such action. In the event of litigation in a U.S. District Court, venue shall lie exclusively in the Central District of California, in Riverside.

6.2 Disputes; Default.

A. In the event that City determines Consultant is in default under the terms of this Agreement, City shall have no obligation or duty to continue compensating Consultant for any Services performed after the date of default. In addition to the provisions of Section 4.8, and the right to terminate pursuant to Section 6.7, if the City Manager determines that Consultant is in default in the performance of any of the terms or conditions of this Agreement, City may serve Consultant with written notice of the default. Consultant shall have ten (10) calendar days after service upon it of the notice in which to cure the default by rendering a satisfactory performance. In the event that Consultant fails to cure its default within such period of time, City may, notwithstanding any other provision of this Agreement, terminate this Agreement without further notice and without prejudice to any other remedy to which it may be entitled at law, in equity or under this Agreement.

B. In the event of termination pursuant to this Section, City may take over the Services and prosecute the same to completion by contract or otherwise, and Consultant shall be liable to the extent that the total cost for completion of the Services required hereunder exceeds the compensation herein stipulated (provided that City shall use reasonable efforts to mitigate such damages), and City may withhold any payments to Consultant for the purpose of set-off or partial payment of the amounts owed City as provided in Section 6.3.

6.3 Retention of Funds.

Consultant hereby authorizes City to deduct from any amount payable to Consultant (whether or not arising out of this Agreement): (i) any payment amount of which may be in dispute hereunder or which is necessary to compensate City for any losses, costs, liabilities, or damages suffered by City, (ii) all amounts retained pursuant to the provisions of Section 4.8, (iii) all amounts for which City may be liable to third parties, by reason of Consultant's acts or omissions in performing or failing to perform Consultant's obligation under this Agreement, and (iv) all payments due or that become due to Consultant during the period that Consultant or any of its sub-contractors fail to maintain any required insurance in full force and effect, until notice is received by City that the required insurance has been restored to full force and effect and that the premiums therefore have been paid for a period satisfactory to City, as provided in Section 4.9, above. In the event that any claim is made by a third party, the amount or validity of which is disputed by Consultant, or any indebtedness shall exist which shall appear to be the basis for a claim of lien, City may withhold from any payment due, without liability for interest because of such withholding, an amount sufficient to cover such claim. The failure of City to exercise such right to deduct or to withhold shall not, however, affect the obligations of Consultant to insure, indemnify, and protect City as elsewhere provided herein.

6.4 Waiver.

Waiver by any Party to this Agreement of any term, condition, or covenant of this Agreement shall not constitute a waiver of any other term, condition, or covenant. Waiver by any

Party of any breach of the provisions of this Agreement shall not constitute a waiver of any other provision or a waiver of any subsequent breach or violation of any provision of this Agreement. Acceptance by City of any Services by Consultant shall not constitute a waiver of any of the provisions of this Agreement. No delay or omission in the exercise of any right or remedy by a non-defaulting Party on any default shall impair such right or remedy or be construed as a waiver. Any waiver by either Party of any default must be in writing, and shall not be a waiver of any other default concerning the same or any other provision of this Agreement.

6.5 Rights and Remedies are Cumulative.

Except with respect to rights and remedies expressly declared to be exclusive in this Agreement, the rights and remedies of the Parties are cumulative and the exercise by either Party of one or more of such rights or remedies shall not preclude the exercise by it, at the same or different times, of any other rights or remedies for the same default or any other default by the other Party.

6.6 Legal Action.

In addition to any other rights or remedies, either Party may take legal action, in law or in equity, to cure, correct or remedy any default, to recover damages for any default, to compel specific performance of this Agreement, to obtain declaratory or injunctive relief, or to obtain any other remedy consistent with the purposes of this Agreement. Notwithstanding any contrary provision herein, Consultant must file a statutory claim pursuant to Government Code Sections 905 et seq. and 910 et seq., in order to pursue a legal action against City under this Agreement.

6.7 Termination Prior to Expiration of Term.

This Article 6 shall govern any termination of this Agreement except as specifically provided in Section 6.2 for termination for default of Consultant. City reserves the right to terminate this Agreement at any time, with or without cause, upon thirty (30) days' written notice to Consultant, except that where termination is due to the fault of Consultant, the period of notice may be a shorter time as may be determined by the Contract Officer. In addition, Consultant reserves the right to terminate this Agreement at any time, with or without cause, upon sixty (60) days' written notice to City, except that where termination is due to the fault of City, the period of notice may be a shorter time as Consultant may determine. Upon receipt of any notice of termination, Consultant shall immediately cease all Services hereunder except such as may be specifically approved by the Contract Officer. Except where Consultant has initiated termination, Consultant shall be entitled to compensation for all Services rendered prior to the effective date of the notice of termination and for any Services authorized by the Contract Officer thereafter in accordance with the Schedule of Compensation or such as may be approved by the Contract Officer, except as provided in Section 6.3. In the event Consultant has initiated termination, Consultant shall be entitled to compensation only for the reasonable value of the work product actually produced hereunder. In the event of termination without cause pursuant to this Section, the terminating Party need not provide the non-terminating Party with the opportunity to cure pursuant to Section 6.2.

6.8 Attorneys' Fees.

In any litigation or other proceeding by which a Party seeks to enforce its rights under this Agreement (whether in contract, tort or both) or seeks a declaration of any rights or obligations under this Agreement, the prevailing Party in such action or proceeding, in addition to any other relief which may be granted, whether legal or equitable, shall be entitled to reasonable attorneys' fees. Attorneys' fees shall include attorney's fees on any appeal, and in addition the Party entitled to attorneys' fees shall be entitled to all other reasonable costs for investigating such action, taking depositions and discovery and all other necessary costs the court allows which are incurred in such litigation. All such fees shall be deemed to have accrued on commencement of such action and shall be enforceable whether or not such action is prosecuted to judgment.

ARTICLE 7. CITY OFFICERS AND EMPLOYEES: NON-DISCRIMINATION

7.1 Non-liability of City Officers and Employees.

No officer or employee of City shall be personally liable to Consultant, or Consultant's Successor, in the event of any default or breach by City or for any amount which may become due to Consultant or Consultant's Successor, or for breach of any obligation of the terms of this Agreement.

7.2 Conflict of Interest.

Consultant covenants that neither it, nor any officer or principal of its firm, has or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of City or which would in any way hinder Consultant's performance of Services under this Agreement. Consultant further covenants that in the performance of this Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or sub-contractor without the express written consent of the Contract Officer. Consultant agrees to at all times avoid conflicts of interest or the appearance of any conflicts of interest with the interests of City in the performance of this Agreement.

No officer or employee of City shall have any direct or indirect financial interest in this Agreement within the scope of Government Code section 1090, nor shall any such officer or employee make, participate in making, or use his or her official position to influence, any City decision relating to the Agreement which has a material financial effect on his or her financial interests or the financial interests of any corporation, partnership or association in which he or she is, directly or indirectly, interested, in violation of any State statute or regulation. Consultant warrants that it has not paid or given, and will not pay or give any third party any money or other consideration for obtaining this Agreement.

Consultant and its officers, employees, associates and sub-contractors, if any, shall comply with all conflict of interest statutes of the State of California applicable to Consultant's Services under this Agreement, including the Political Reform Act (Gov. Code § 81000, et seq.) and Government Code Section 1090. During the term of this Agreement, Consultant may perform similar services for other clients; but Consultant and its officers, employees, associates and sub-contractors shall not, without the Contract Officer's prior written approval, perform services for another person or entity for whom Consultant is not currently performing services that would

require Consultant or one of its officers, employees, associates or sub-contractors to abstain from a decision under this Agreement pursuant to a conflict of interest statute. Consultant shall incorporate a clause substantially similar to this Section into any subcontract that Consultant executes in connection with the performance of this Agreement.

7.3 Covenant Against Discrimination.

Consultant covenants that, by and for itself, its heirs, executors, assigns, and all persons claiming under or through them, that there shall be no discrimination against or segregation of, any person or group of persons on account of race, color, creed, religion, sex, gender, sexual orientation, marital status, national origin, or ancestry in the performance of this Agreement. Consultant shall take affirmative action to insure that applicants are employed, and that employees are treated during employment, without regard to their race, color, creed, religion, sex, marital status, national origin, or ancestry, or other protected class.

7.4 Unauthorized Aliens.

Consultant hereby promises and agrees to comply with all of the provisions of the Federal Immigration and Nationality Act, 8 U.S.C.A. §§ 1101, et seq., as amended, and in connection therewith, shall not employ unauthorized aliens as defined therein. Should Consultant so employ such unauthorized aliens for the performance of Services covered by this Agreement, and should the any liability or sanctions be imposed against City for such use of unauthorized aliens, Consultant hereby agrees to and shall reimburse City for the cost of all such liabilities or sanctions imposed, together with any and all costs, including attorneys' fees, incurred by City.

ARTICLE 8. MISCELLANEOUS PROVISIONS

8.1 Notices.

Any notice, demand, request, document, consent, approval, bill, invoice, report or other communication required or permitted under this Agreement shall be in writing and conclusively deemed effective: (a) on confirmed delivery by courier service or overnight delivery service during Consultant's and City's regular business hours; or (b) three (3) Business Days after deposit in the United States mail, by certified or registered mail, and addressed to the Party to be notified as set forth below:

If to City

If to Consultant:	Attn: Rick O'Neill Rick Engineering Company 1770 Iowa Avenue, Suite 100 Riverside, CA 92507

8.2 Interpretation.

The terms of this Agreement shall be construed in accordance with the meaning of the language used and shall not be construed for or against either Party by reason of the authorship of this Agreement or any other rule of construction which might otherwise apply.

8.3 Counterparts.

This Agreement may be executed in counterparts, each of which shall be deemed to be an original, and such counterparts shall constitute one and the same instrument.

8.4 Integration; Amendment.

This Agreement, and all exhibits referred to in this Agreement, constitute the final, complete and exclusive statement of the terms of the agreement between the Parties pertaining to the subject matter of this Agreement and supersede all other and cancels any and all previous negotiations, arrangements, agreements and understandings, if any, between the Parties, and none shall be used to interpret this Agreement. No Party has been induced to enter into this Agreement by, nor is any Party relying on, any representation or warranty except those expressly set forth in this Agreement. No amendment to or modification of this Agreement, nor any provision or breach hereof waived, shall be valid unless made in writing and approved by Consultant and by City Council. The Parties agree that this requirement for written modifications cannot be waived and that any attempted waiver shall be void.

8.5 Severability.

In the event that any one or more of the phrases, sentences, clauses, paragraphs, or sections contained in this Agreement shall be declared invalid or unenforceable by a valid judgment or decree of a court of competent jurisdiction, such invalidity or unenforceability shall not affect any of the remaining phrases, sentences, clauses, paragraphs, or sections of this Agreement which are hereby declared as severable and shall be interpreted to carry out the intent of the Parties hereunder unless the invalid provision is so material that its invalidity deprives either Party of the basic benefit of their bargain or renders this Agreement meaningless.

8.6 Mutual Cooperation.

A. City's Cooperation. City shall provide Consultant with all pertinent data, documents and other requested information as is reasonably available for Consultant's proper performance of the Services required under this Agreement.

B. Consultant's Cooperation. In the event any claim or action is brought against City relating to Consultant's performance of Services rendered under this Agreement, Consultant shall render any reasonable assistance that City requires.

8.7 No Third Party Beneficiaries Intended.

This Agreement is made solely for the benefit of the Parties to this Agreement and their respective successors and assigns, and no other person or entity may have or acquire a right by virtue of this Agreement.

8.8 Final Payment Acceptance Constitutes Release.

The acceptance by Consultant of the final payment made under this Agreement shall operate as and be a release of City from all claims and liabilities for compensation to Consultant for anything done, furnished or relating to Consultant's Services. Acceptance of payment shall be any negotiation of City's check or the failure to make a written extra compensation claim within ten (10) calendar days of the receipt of that check. However, approval or payment by City shall not constitute, nor be deemed, a release of the responsibility and liability of Consultant, its employees, sub-contractors and agents for the accuracy and competency of the information provided and/or Services performed; nor shall such approval or payment be deemed to be an assumption of such responsibility or liability by City for any defect or error in the Services prepared by Consultant, its employees, sub-contractors and agents.

8.9 Non-Appropriation of Funds.

Payments to be made to Consultant by City for Services performed within the current fiscal year which are within the current fiscal budget and within an available, unexhausted fund. In the event that City does not appropriate sufficient funds for payment of Consultant's Services beyond the current fiscal year, this Agreement shall cover payment for Consultant's Services only to the conclusion of the last fiscal year in which City appropriates sufficient funds and shall automatically terminate at the conclusion of such fiscal year.

8.10 Headings.

The headings in this Agreement are included solely for convenience of reference and shall not affect the interpretation of any provision of this Agreement or any of the rights or obligations of the Parties to this Agreement.

8.11 Word Usage.

Unless the context clearly requires otherwise, (a) the words "shall," "will" and "agrees" are mandatory and "may" is permissive; (b) "or" is not exclusive; and (c) "includes" or "including" are not limiting.

8.12 Business Days.

"Business Days" refers to days that the Banning City Hall is open for business.

8.13 Corporate Authority.

The persons executing this Agreement on behalf of the Parties hereto warrant that (i): such Party is duly organized and existing, (ii) they are duly authorized to execute and deliver this Agreement on behalf of that Party, (iii) by so executing this Agreement, such Party is formally bound to the provisions of this Agreement, and (iv) the entering into this Agreement does not violate any provision of any other Agreement to which that Party is bound. This Agreement shall be binding upon the heirs, executors, administrators, successors and assigns of the Parties.

8.14 Electronic Signatures.

Each Party may adopt as its signature an electronic identification consisting of a symbol or code that is affixed to or contained in each document transmitted by such Party ("electronic signature"). The Parties hereto herby agree that electronic signatures are acceptable, shall have the same force and effect under the law as original wet signatures, and shall be sufficient to verify that the Parties have executed this Agreement and such other documents transmitted by the Parties.

[SIGNATURES ON FOLLOWING PAGE]

IN WITNESS WHEREOF the Parties hereto have executed this Agreement the day and year first hereinabove written.

EXHIBIT "A"
SCOPE OF SERVICES

I. Consultant will perform the following Services in connection with providing Engineer Design Services prepared in connection therewith:

II. As part of the Services, Consultant will prepare and deliver the following tangible work products and services to City:

SCOPE OF WORK

Rick Engineering Company (RICK) will perform the following services in connection with providing the design of a new ductile iron pipe (size TBD by city) water main in Ramsey Street between Sunset Avenue and Highland Home Road based on the following scope of work.

Task 1. Project Management

1.1 Kick-off Meeting and Project Management

After execution of the contract, Rick Engineering Company (RICK) will schedule and attend a kick-off meeting with the City of Banning (City) to discuss the project scope, goals, preliminary findings and alignment selected by the City, finalize the project schedule, and identify available as-built plans and studies. RICK will prepare the meeting agenda and provide the team with meeting minutes following the meeting.

RICK will provide project management of the project that includes preparation and maintenance of a project specific Work Plan. The Work Plan will include details of methodology of design, sequence of tasks lists of deliverables, milestone submittal schedule, summary of organizational responsibilities, and a communication plan with contacts of all team members. Additionally, RICK will provide utility coordination with the utility providers that have utilities along the alignment, and perform quality assurance and quality control prior to each milestone submittal, and in conformance with federal, state, and city standards.

Deliverables – Meeting agenda and minutes, Work Plan

1.2 Progress Meetings

RICK will schedule monthly progress meetings with the City and project team, that will be face to face or virtual, and facilitate additional meetings with the City departments/stakeholders as needed for the project during the project duration. Scope assumes 8 monthly meetings, that includes milestone design review / comment resolution meetings and an additional 3 project meetings.
RICK will prepare agendas and minutes for the meetings, distribute the minutes, and will also provide a monthly progress report to be included with the monthly invoice.

Deliverables – Meeting agendas and minutes

1.3 Invoicing

RICK will develop and provide a monthly invoice to the City. The invoice will include RICK labor costs, subconsultant invoices and direct expenses. Direct expenses will be supported by a copy of the receipt if applicable. Invoices shall include details of billed and remaining budget for each task, and will include the monthly progress report of the tasks completed, identify any outstanding issues to be resolved, and upcoming work to be performed.

Deliverable – Monthly invoices and progress reports

Task 2. Project Development

2.1 Utility Research, Base Mapping, and Site Reconnaissance

RICK will conduct research with the City of Banning, County of Riverside, and other governing agencies and utility companies for existing plans and maps of the adjacent area to be used for the design of the project.

RICK will conduct a field visit to collect visible information of project site. Research will consist of the private water systems that will be reconnected to the new/proposed waterline in Ramsey Street and the affected private properties. RICK will verify existing site data in terms of surrounding street system, geometry, parking, signing and striping, and private improvements and private water system appurtenances on the properties.

RICK will prepare a CAD file based on the boundary survey described below showing the existing utilities discovered in the research.

Deliverables - Photo log for any photos taken, letters to utility companies, utility as-built maps, and an AutoCAD drawing of the existing utilities.

2.1.1 Property Research

RICK will research City of Banning and County of Riverside survey records and record mapping for property and right of way information. RICK will also conduct a field survey to establish street centerline and rights of way of Ramsey Street within the project limits (between Sunset Avenue and Highland Home Road), Omar Street (between Ramsey and W. Jacinto View Road), W. Jacinto View Road (between Omar Street and Winchester Drive), and the property lines of the adjacent private properties and private properties that are affected by the relocation of water services. Survey basis of bearings and coordinates will be California State Plane Coordinates. Survey data and records analysis will be prepared within a CAD file establishing project mapping for centerline and right of

way, including intersecting streets. Base mapping will include existing easements. Easements will be researched to identify their applicability/inapplicability with new waterline alignments.

Deliverables - Field Review notes, photo log for any photos taken, and an AutoCAD drawing of the rights of ways and centerline.

2.1.2 Site Topography and Surveying

RICK will provide a supplemental field topography along the existing water line points of connection and where needed and the effected private properties (where water systems will be reconnected in Ramsey Street). Consultant will locate and dip existing sewer and storm drain manholes. Topography will be vertically controlled by local published benchmarks.

Deliverables – Field Review notes, photo log for any photos taken, and CAD file with survey points.

2.1.3 Aerial Topography

RICK will provide an aerial topography of the project site consisting of surface utility appurtenances and improvements such as curb, edge of pavement, drainage inlets, valve cans, fences, driveways, mailboxes, utility vaults, power poles, signs, lights, traffic signals, sidewalks, pedestrian ramps, and notable grade features.

Deliverables – 40-scale at 1-foot contours

2.2 Potholing

RICK's subconsultant, C Below, will perform potholing for the project. C Below will perform forty (40) potholes as indicated in the RFP. A standard pothole is 12 in. x 12 in, performed to the top of pipe or encasement with sand backfill and a permanent surface patch. Potholes are assumed to be 5' in depth. Potholes include water line tie-in points and underground utility crossings. Potholes will also be used to locate the old Highway 99 concrete by setting alignment of potholes perpendicular to Ramsey Street, spaced 10' on center curb to curb. Alignments will be performed at mid-point of each project phase (3 alignments). C Below will provide a detailed potholing report at the conclusion of the investigation. Service includes Dig Alert Coordination and Delineation, Encroachment permit, vacuum excavation to top of utility, encasement, or stop depth, standard traffic control, 12-inches of hot patching (restored within 30-days of excavation activity), sand backfill, removal of debris, and pothole report. Services not included are slurry backfill, extensive traffic control, flagging for traffic control, sidewalk concrete

panel replacement, and removal of Dig Alert marks.

Standard traffic control includes one lane closure with minimal signage not spanning an intersection.

Prior to potholing, a potholing plan will be developed showing location of potholes for connection points, intermediate points, and location of other underground utilities.

Deliverables – Potholing plan and potholing report

2.3 Geotechnical Study

Geocon is proposing to drill six (6) geotechnical borings up to 15 feet in depth, along portions of the proposed water main alignment, where the subsurface explorations of our 2018 geotechnical investigation cannot supplement. The geotechnical borings will be performed to the observe subsurface soil conditions and collect samples for laboratory testing. We expect that traffic control signage/equipment will be sufficient and flag persons will not be required. Furthermore, we expect that the Banning encroachment permit will be a no fee permit for this project, and that patching of the borings with asphalt concrete cold-patch is acceptable.

RICK's subconsultant, Geocon West, Inc, will consist of:

- Mark the planned boring locations and notify Underground Surface Alert of Southern California to mark any subsurface utility locations near the exploration locations. Additionally, the client should provide plans depicting the locations of all utilities in the project area.
- Prepare no-fee encroachment permits with the City of Banning for our work. We have assumed a traffic control plan utilizing MUTCD or Watchbook details will be sufficient, and an engineered traffic control plan will not be required.
- Provide traffic control setup and breakdown at each boring location. We plan to source traffic control signage/equipment for our work and did not include flag persons in this budget.
- Drill six (6) geotechnical borings along the portion of the proposed water main alignment that our 2018 subsurface explorations cannot supplement. We will collect bulk and ring samples of the subgrade soil for laboratory testing. Borings will be backfilled with soil cuttings and clean sand, and capped with asphalt concrete cold-patch upon completion. We expect borings of up to 15 feet will be sufficient for design of the proposed water main. Borings will be located so that there is an approximate 500-foot interval maintained between the new borings and 2018 borings, along the proposed water main alignment, to ensure an appropriate standard of care. We have budgeted one day of drilling.
- Perform laboratory testing which is expected to include in-situ moisture content and dry density determinations, maximum dry density and optimum moisture

content, grain size analysis, corrosion screening, sand equivalent, and direct shear testing. The laboratory testing program will be based on the conditions encountered during the field investigation with respect to the proposed improvements. Our 2018 laboratory test results will be provided as supplemental information for the portion of the proposed water main alignment able to be covered by our 2018 geotechnical investigation.

- Prepare a geotechnical report presenting our findings in the field, boring logs, a map depicting the boring locations, a discussion of the geotechnical conditions at the site, and geotechnical parameters for storm drain design.

Assumptions:

- The borings can be safely performed in the vicinity of the proposed water main alignment, considering existing utilities are present and to facilitate traffic flow around our drilling operations. Where performing the borings poses a conflict with existing utilities, resulting in an unsafe working environment for property, personnel, and/or motorists/pedestrians, the planned borings will be relocated, as feasible.
- This proposal does not include any costs to re-grade, install hot-mix asphalt concrete patching, re-vegetate, landscape or otherwise repair disturbed areas.

Deliverables – Geotechnical report

Task 3. Preliminary Engineering Design

3.1 Preliminary Design Plans (30% design)

RICK will prepare waterline plans for approximately (7,200 LF) for a proposed Ductile Iron pipe in Ramsey Street between Sunset Avenue and Highland Home Road. Plans will be at 40-scale and include plan and profile. Plans will be setup for 3 construction phases:
Phase 1: The waterline between Sunset Avenue to near the property at 3929 W. Ramsey Street.
Phase 2: The continuation of Phase 1 to Omar Street, then continuing north on Omar to W. Jacinto View Road, and then east to the Winchester Drive intersection.
Phase 3: From Omar Street westerly on Ramsey Avenue to approximately Highland Home Road.

Additionally, RICK will:

a. Collect the data from the utility and property research from scope items above to use as part of the base file for the water plans. Existing utilities will be shown on the plans in locations verified by the potholing above and/or provided by the utility companies. As part of the plan preparation, RICK will contact affected

utility companies to obtain permits if needed (utility fees to be paid by the City of Banning).

b. RICK will arrange and participate in informal meetings as necessary with City staff to review the progress of the project and exchange ideas and information.
c. Meetings with the City of Banning will discuss the key design issues and develop general project criteria for construction, including schedule and possible ways of minimizing problems. RICK will prepare and submit meeting agendas prior to the meetings.
d. RICK will provide data received and assumptions utilized to the city for approval prior to integrating the data into the project's final design.
e. RICK will prepare preliminary water plans (30-percent design) using AutoCAD for approximately 7,200 LF of water line (8-inch to 14-inch) to establish an agreement with the City of Banning on project scope, alignment, easements, parameters, hydraulic requirements, maintenance concerns, constructability and construction phasing, traffic impacts, and general disruption to the area. The preliminary design is to be submitted to the City of Banning for review and approval. The preliminary design shall address the following:
    a. Pipeline alignment/facility locations
    b. Construction schedule and phasing recommendations
    c. Construction Cost Estimate of recommended improvements
    d. Conflicts with other utilities and adjacent facilities in the area
    e. Traffic and pedestrian control
    f. Erosion Control
    g. Preferred materials for construction
    h. Areas where construction work is limited or controlled.
    i. Impacts to City water system.
    j. Impacts to surrounding business and residential areas.
    k. Easements (existing and proposed)
    l. Corrosion protection (if necessary)
f. The preliminary design will be submitted in PDF format through the City's SmartGov platform for the City of Banning's review and concurrence. The design will be at a 30% level of effort. Changes in layout and location of facilities suggested by the city will be investigated. A final layout and location of facilities will then be established.
g. As part of the meetings with the city, discussions and submittals of material will be presented to the city through the preliminary design process to reduce comment time and effort by the city.

It is assumed that the City of Banning will provide the size of the proposed new waterline. A hydraulic analysis is not included with this scope. However, we have provided it as an additional/if needed service.

It is assumed that the majority of the existing waterline will be abandoned in place.

As part of the 30% design, RICK will prepare a traffic control conceptual staging plan for Phase 1 only identifying the assumed stages for each of the phases as noted in the Request for Proposal. The project Phase 1 proposes to construct approximately 2,600' of a water main along Ramsey Street from Sunset Avenue to 3929 W. Ramsey Street. It is anticipated that the traffic control conceptual staging plan will be prepared at 40 scale and will identify the proposed linear footage per stage and a description of the work that will be completed.

Deliverables – (all via the city's SmartGov platform): PDF of the preliminary design plans and the preliminary opinion of probable costs.

3.2 Preliminary Design Plans (60% design)

Rick will prepare plans based on the 30% design and subsequent review comments by the City. Plans include a one (1) cover sheet, two (2) detail sheet, ten (10) plan and profile sheets, two (2) connection detail sheets for private landowners, and one (1) valve shut down sheet if needed, and will show the existing water services and fire hydrants to the new waterline. Due to the existing waterline being at the back of the effected parcels, water meters, backflow devised and related system components shall be moved to front Ramsey off the new proposed waterline. Detail sheets will detail the on-site design connecting to the new line to provide a water system at minimum equal to the existing condition.

RICK's subconsultant, Dexter Wilson Engineering, will assist in preparation of technical specifications, pipeline material design, pipeline deflection calculations, design of thrust restraining systems, details for phased connections, details for connection to the existing pipeline, peer review of replacement plans, and other pipeline design aspects.

Consultant will incorporate any comments received from the City of Banning on the traffic control conceptual staging plan into the 60% design plans. Consultant will prepare 40-scale traffic control plans for the work associated with the Ramsey Street Water Main for Phase 1 only. The traffic control plans will provide work zones that are staged for construction of the water main, appurtenances, laterals, and any required detours. The one stage of traffic control is assumed as follows:

Phase 1: Sunset Avenue to 3929 W. Ramsey Street. There are assumed 5 stages of traffic control; Stage 1A is to 600' west of Sunset Avenue; Stages 1B, 1C, 1D, and 1E will be up to 500' along Ramsey to 3929 W. Ramsey Street.

The traffic control plans will be prepared following the requirements of the California Manual on Uniform Traffic Control Devices (MUTCD) and the City of Banning. Three (3) submittals are assumed – 60%, 90%, and final. Five (5) sheets

of traffic control plans are assumed for Phase 1.

A progress meeting will be coordinated with the City of Banning to discuss the 60% design plans. The meeting will discuss the comments and markups and establish a timeline for the project moving forward.

Deliverables - (all via the city's SmartGov platform): PDF of the preliminary design plans and the preliminary opinion of probable costs.

3.3 Detailed Design Plans (90% Design)

Rick will prepare the 90% detailed design waterline plans and traffic control plans based on the 60% review comments received from the City of Banning and other entities. Plans shall follow the City of Banning standards and policies.

RICK will prepare project specifications following the Standard Specifications for Public Works Construction, SSPWC, "Greenbook", latest edition.

RICK will prepare an opinion of probable cost and bid schedule that has construction items of work, unit of measurement, unit cost, and cost based on the detailed design waterline plans.

Deliverables - (all via the city's SmartGov platform): PDF of the preliminary design plans, the preliminary opinion of probable costs, and the Standards and Specifications

Task 4. Final Design Plans

4.1 Final Water Plans

Upon authorization from the City, RICK will finalize the waterline plans and traffic control plans based on the final comments from the City and other entities. Plans will follow the City of Banning standards and policies. Plans will be signed by a licensed Civil Engineer and provided to the City of Banning on Mylar.

RICK will provide the City of Banning a Final set of Project specifications based on final comments from the City of Banning following the SPPWC. RICK will also provide a final opinion of probable cost and bid schedule based on the signed waterline plans.

Deliverables - (all via the city's SmartGov platform): PDF of the preliminary design plans, the preliminary opinion of probable costs, and the Standards and Specifications

Task 5. Easement Documents

5.1 Easement Documents

RICK will prepare a legal description and plat for each easement for three (3) permanent easements to be granted to the City of Banning and ten (10) temporary construction easements that are required for reconnection of existing private water systems to the new water main. RICK will obtain and review title reports for the thirteen (13) affected properties.

RICK assumes three (3) permanent easements to be granted to the City of Banning and ten (10) Temporary Construction Easements for reconnection of existing private water systems to the new water main.

Assumptions:

- Assumes up to 13 tax parcels owned by 13 unique entities are impacted by temporary construction easements (TCE's) and/or permanent easements.
- Scope does not include any discussions with property owners.
- No appraisal work or negotiations included.
- Consultant is providing legal description and plat for the 13 easements only.

Deliverables - (all via the city's SmartGov platform): Easement documents (legal description and plat) and up to 13 preliminary title reports.

Task 6. Stormwater Pollution Prevention Plan

6.1 Stormwater Pollution Prevention Plan

The Risk Type 1 LUP SWPPP will be prepared in accordance with the requirements of the Appendix E of the National Pollutant Discharge Elimination System (NPDES) General Permit for Storm Water Discharges Associated with Construction and Land Disturbance Activities Order WQ 2022-0057-DWQ NPDES No. CAS000002 (adopted September 8, 2022, effective September 1, 2023).

RICK will prepare a Risk Type 1 LUP SWPPP based on the project's assumed Risk Type.

This task will also include the preparation of a Notice of Intent (NOI) on the Storm Water Multi Application Report Tracking System (SMARTS) database. The Discharger must designate RICK as a Data Entry Person to prepare the NOI. The Discharger/LRP must electronically certify and submit the NOI on SMARTS.

RICK will act as the initial Qualified SWPPP Developer (QSD) for the preparation of the SWPPP, however the Discharger must hire a QSD and a Qualified SWPPP Practitioner (QSP) for implementation of the SWPPP throughout the life of the project.

Based on the provided bid package this project is assumed to be a Risk Type 1 LUP based on the following assumptions:

1. More than 70% of the soil disturbance will occur on paved surfaces; and
2. Areas that are disturbed will be returned to pre-project conditions at the end of each day.

Deliverables - (all via the city's SmartGov platform): SWPPP (erosion control plan submitted via drawing submittals)

Task 7. Construction Surveying and Staking

7.1 Phase One Water Stakes

RICK will maintain horizontal and vertical control for the duration of the surveying work on this project. RICK will also provide required calculations to field crew for each survey request received.

RICK will provide one set of stakes at all primary points of control; beginning and ends of pipe and at not less than 50' on center along tangent sections and 25' on curves to facilitate the construction of approximately 2,600 LF of water mainline. RICK will also provide not more than two (2) stakes each; to facilitate the location of services, fire hydrants, and points of connection.

*Water stakes to be set in three (3) trips.

Deliverables – Construction Staking Cut Sheets

7.2 Phase Two Water Stakes

RICK will provide one set of stakes at all primary points of control; beginning and ends of pipe and at not less than 50' on center along tangent sections and 25' on curves to facilitate the construction of approximately 2,700 LF of water mainline. RICK will also provide not more than two (2) stakes each; to facilitate the location of services, fire hydrants, and points of connection.

*Water stakes to be set in three (3) trips.

Deliverables – Construction Staking Cut Sheets

7.3 Phase Three Water Stakes

RICK will provide one set of stakes at all primary points of control; beginning and ends of pipe and at not less than 50' on center along tangent sections and 25' on curves to facilitate the construction of approximately 1,900 LF of water mainline. RICK will also provide not more than two (2) stakes each; to facilitate the location of services, fire hydrants, and points of connection.

*Water stakes to be set in three (2) trips.

Deliverables – Construction Staking Cut Sheets

Task 8. Bidding/Construction Support – Phase 1 Only

8.1 Bidding

RICK will be available during the advertising and bidding of the project to assist the City of Banning in answering questions/RFI's and the preparation of plan addenda, if needed. RICK will attend one (1) pre-bid meeting for the bidding process.

Deliverables – Meeting attendance, responses to Bidder's RFI's

8.2 Construction Administration

RICK will be available during the construction of the project to answer RFI's and prepare plan addenda, if needed. RICK will attend one (1) pre-construction meeting and eight (8) site visits during construction of the project as requested by the city. RICK will review shop drawings and submittals from the contractor for conformance with the contract plans and specifications, and make recommendations for acceptance, denial or resubmittal.

Deliverables – Meeting attendance, response to Contractor's RFI's, design addenda, submittal reviews

8.3 As-Built Plans

RICK will prepare As-Built Plans and process with the City of Banning, as necessary. Scope assumes RICK will receive as-built letters from the contractors and the contractor's as-built plan markup's. Scope assumes no major changes have occurred and does not include any as-built survey time. As-built plans will be submitted to the City within one month of receiving as-built letters and markup's from the contractor.
Deliverables – As-built Plans

Additional Services (If Needed Services)

Corrosivity Assessment

Rick's subconsultant, RF Yeager will prepare a corrosivity assessment for the proposed waterline, that will include a field resistivity testing, a review of the Geotech/soil chemical analysis data, a review for the potential of stray current interference, and a Corrosivity Assessment Letter Report. This information will be used for the determination of the type of corrosion protection and if any cathodic protection for the pipeline would be required and the corrosion control approach that the City may want to implement.

Deliverable – Corrosivity Assessment Letter Report

Corrosion Control Design

As part of the 90% design plans, RICK's subconsultant, RF Yeager, will provide Corrosion Control Design as part of the plans if Client requires joint bonds, test stations, insulators, and other standard corrosion control facilities. It is recommended the Client to use joint bonds, test stations, and insulators (steel or DIP) such that the pipeline is made electrically continuous and test stations are installed at the side of the road. This allows for monitoring and for adding cathodic protection in the future (should soil conditions/pipeline environment change) and will be much less costly because the pipe is electrically continuous and test stations are already installed. Corrosion control detail sheets, specifications, and cost estimate is included.

Cathodic Protection Design Pipeline

If it is found that Cathodic Protection is required, RICK's subconsultant, RF Yeager, will review the waterline plans, provide comments, and corrosion control design analysis/calculations. Details and specifications will be included. A cathodic protection system cost estimate will be included. RF Yeager will then address the 90% plan comments and provide final 100% design documents. Once approved for final signature, RF Yeager will sign and stamp the final drawings. Cathodic protection detail sheets, specifications, and cost estimates are included.
Deliverables – Corrosion control design analysis/calculations, specifications, and cost estimate.

Hydraulic Analysis

RICK's subconsultant, Dexter Wilson Engineering, will perform hydraulic modeling for the waterline sizing for the project site, if City does not provide the waterline

sizing. It is assumed City will provide the necessary information to run the modeling.

Caltrans Encroachment Permit

RICK will prepare one (1) Caltrans encroachment permit application for the traffic control devices (i.e. advance signage) that are within the Caltrans right-of-way (ROW) along Sunset Avenue in the vicinity of I-10. For the Caltrans encroachment permit application, the traffic control plans are assumed to be submitted to Caltrans in City of Banning format and will include a Caltrans signature block on the plans.

Plan Processing and Coordination (Caltrans)

RICK will submit and process the traffic control plans with Caltrans District 8. It is assumed that up to two (2) sets of plan check review comments will be received, coordinated, and addressed.

Monument Preservation

Pursuant to Section 8771 of the Business and Professions Code, preconstruction corner records will be prepared and filed identifying recovered survey monuments within the proposed construction limits. Post construction corner records will also be filed reflecting replacement monuments.

Deliverables – Pre and Post construction corner records

Monument Replacement

RICK will replace destroyed survey monuments at the completion of the construction with the project limits.

Record of Survey

Pursuant to 8762 of the Business and Professions Code the filing of a Record of Survey shall be filed if the survey discloses “the establishment of one or more points or lines not shown on any subdivision map, official map, or record of survey, the positions of which are not ascertainable from the inspection of the subdivision map official map or record of survey.

III. In addition to the requirements of Parts I and II of this Scope of Services, during the performance of the Services, Consultant will keep City appraised through periodic status reports regarding the performance of the Services under this Agreement as set forth below and in Section 5.2, by the following means:

a. In-person meetings and/or teleconferences.

b. Email updates/questions to applicant team and City while reviews are underway.

c. Conference calls.

IV. All work product is subject to review and acceptance by City, and must be revised by Consultant without additional charge to City until found satisfactory and accepted by City.

EXHIBIT "B"
SPECIAL REQUIREMENTS

TERMS FOR COMPLIANCE WITH CALIFORNIA LABOR LAW REQUIREMENTS

1. This Agreement calls for services that, in whole or in part, constitute "public works" as defined in Division 2, Part 7, Chapter 1 (commencing with Section 1720) of the California Labor Code ("Chapter 1"). Further, Consultant acknowledges that this Agreement is subject to (a) Chapter 1 and (b) the rules and regulations established by the Department of Industrial Relations ("DIR") implementing such statutes. Therefore, as to those Services that are "public works," Consultant shall comply with and be bound by all the terms, rules and regulations described in 1(a) and 1(b) as though set forth in full herein.

2. California law requires the inclusion of specific Labor Code provisions in certain contracts. The inclusion of such specific provisions below, whether or not required by California law, does not alter the meaning or scope of Section 1 above.

3. Consultant shall be registered with the Department of Industrial Relations in accordance with California Labor Code Section 1725.5, and has provided proof of registration to City prior to the Effective Date of this Agreement. Consultant shall not perform work with any subcontractor that is not registered with DIR pursuant to Section 1725.5. Consultant and subcontractors shall maintain their registration with the DIR in effect throughout the duration of this Agreement. If the Consultant or any subcontractor ceases to be registered with DIR at any time during the duration of the project, Consultant shall immediately notify City.

4. Pursuant to Labor Code Section 1771.4, Consultant's Services are subject to compliance monitoring and enforcement by DIR. Consultant shall post job site notices, as prescribed by DIR regulations.

5. Pursuant to Labor Code Section 1773.2, copies of the prevailing rate of per diem wages for each craft, classification, or type of worker needed to perform the Agreement are on file at City Hall and will be made available to any interested party on request. Consultant acknowledges receipt of a copy of the DIR determination of such prevailing rate of per diem wages, and Consultant shall post such rates at each job site covered by this Agreement.

6. Consultant shall comply with and be bound by the provisions of Labor Code Sections 1774 and 1775 concerning the payment of prevailing rates of wages to workers and the penalties for failure to pay prevailing wages. The Consultant shall, as a penalty to City, forfeit $200.00 for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the DIR for the work or craft in which the worker is employed for any public work done pursuant to this Agreement by Consultant or by any subcontractor.

7. Consultant shall comply with and be bound by the provisions of Labor Code Section 1776, which requires Consultant and each subcontractor to: keep accurate payroll records and verify such records in writing under penalty of perjury, as specified in Section 1776; certify and make such payroll records available for inspection as provided by Section 1776; and inform City of the location of the records.

8. Consultant shall comply with and be bound by the provisions of Labor Code Sections 1777.5, 1777.6 and 1777.7 and California Administrative Code Title 8, Section 200 et seq. concerning the employment of apprentices on public works projects. Consultant shall be responsible for compliance with these aforementioned Sections for all apprenticeable occupations. Prior to commencing work under this Agreement, Consultant shall provide City with a copy of the information submitted to any applicable apprenticeship program. Within 60 days after concluding work pursuant to this Agreement, Consultant and each of its subcontractors shall submit to City a verified statement of the journeyman and apprentice hours performed under this Agreement.

9. The Consultant shall not perform Work with any Subcontractor that has been debarred or suspended pursuant to California Labor Code Section 1777.1 or any other federal or state law providing for the debarment of contractors from public works. The Consultant and Subcontractors shall not be debarred or suspended throughout the duration of this Agreement pursuant to Labor Code Section 1777.1 or any other federal or state law providing for the debarment of contractors from public works. If the Consultant or any subcontractor becomes debarred or suspended during the duration of the project, the Consultant shall immediately notify City.

10. Consultant acknowledges that eight hours labor constitutes a legal day's work. Consultant shall comply with and be bound by Labor Code Section 1810. Consultant shall comply with and be bound by the provisions of Labor Code Section 1813 concerning penalties for workers who work excess hours. The Consultant shall, as a penalty to City, forfeit $25.00 for each worker employed in the performance of this Agreement by the Consultant or by any subcontractor for each calendar day during which such worker is required or permitted to work more than eight hours in any one calendar day and 40 hours in any one calendar week in violation of the provisions of Division 2, Part 7, Chapter 1, Article 3 of the Labor Code. Pursuant to Labor Code section 1815, work performed by employees of Consultant in excess of eight hours per day, and 40 hours during any one week shall be permitted upon public work upon compensation for all hours worked in excess of eight hours per day at not less than one and one-half times the basic rate of pay.

11. California Labor Code Sections 1860 and 3700 provide that every employer will be required to secure the payment of compensation to its employees. In accordance with the provisions of California Labor Code Section 1861, Consultant hereby certifies as follows:

> "I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this contract."
>
> **Date**_____ **Signature**_____

12. For every subcontractor who will perform work on the project, Consultant shall be responsible for such subcontractor's compliance with Chapter 1 and Labor Code Sections 1860 and 3700, and Consultant shall include in the written contract between it and each subcontractor a copy of those statutory provisions and a requirement that each subcontractor shall comply with those statutory provisions. Consultant shall be required to take all actions necessary to enforce such contractual provisions and ensure subcontractor's compliance, including, without limitation, conducting a periodic review of the certified payroll records of the subcontractor and upon becoming aware of the failure of the subcontractor to pay his or her workers the specified prevailing rate of wages. Consultant shall diligently take corrective action to halt or rectify any failure.

EXHIBIT "C"
SCHEDULE OF COMPENSATION

I. Consultant shall perform the following Scope of Services at the rates stated in Exhibit C-1.

II. Within the budgeted amounts for each Task, and with the approval of the Contract Officer, funds may be shifted from one Task sub-budget to another so long as the Contract Sum is not exceeded per Section 2.1, unless Additional Services are approved per Section 1.8.

III. City will compensate Consultant for the Services performed upon submission of a valid invoice. Each invoice is to include:

A. Line items for all personnel describing the Services performed, the number of hours worked, and the hourly rate.

B. Line items for all materials and equipment properly charged to the Services.

C. Line items for all other approved reimbursable expenses claimed, with supporting documentation.

D. Line items for all approved sub-contractor labor, supplies, equipment, materials, and travel properly charged to the Services.

IV. Consultant's billing rates for all personnel are attached as Exhibit C-1.

RESOLUTION 2022-35

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BANNING, CALIFORNIA, AUTHORIZING THE USE OF FUNDS OF THE TREASURY'S CORONAVIRUS STATE AND LOCAL FISCAL RECOVERY FUNDS (CSLFRF) FUNDED BY THE AMERICAN RESCUE PLAN ACT (ARPA) AS OUTLINED IN EXHIBIT A

WHEREAS, on March 11, 2021 the American Rescue Plan Act (ARPA) was signed into law by the President. Section 9901 of ARPA amended Title VI of the Social Security Act (the Act) to add Section 602, which establishes the Coronavirus State Fiscal Recovery Fund, and Section 603, which establishes the Coronavirus Local Fiscal Recover Fund; and

WHEREAS, the Fiscal Recovery Funds are intended to provide support to State, local, and Tribal governments in responding to the impact of COVID-19 and in their efforts to contain COVID-19 in their communities, residents, and businesses; and

WHEREAS, through the Fiscal Recovery Funds, Congress provided State, local, and Tribal governments with significant resources to respond to the COVID-19 public health emergency and its economic impact through four categories of eligible uses which are:

i. To respond to the public health emergency or its negative economic impacts, including assistance to households, small businesses, and nonprofits, or aid to impacted industries such as tourism, travel, and hospitality.
ii. To respond to workers performing essential work during the COVID-19 public health emergency by providing premium pay to eligible workers.
iii. For the provision of government services to the extent of the reduction of revenue due to COVID-19 public health emergency relative to revenues collected in the most recent full fiscal year prior to the emergency.
iv. To make necessary investments in water, sewer, or broadband infrastructure; and

WHEREAS, the city has designated use of these funds as outlined in Exhibit "A".

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Banning as follows:

SECTION 1. The City Council hereby authorizes the use of funds of the Treasury's Coronavirus State and Local Fiscal Recovery Funds (CSLFF) funded by the American Rescue Plan Act (ARPA) as specified in Exhibit "A."

SECTION 2. The City Council hereby authorizes the City Manager or his designee to make all necessary appropriations, transfers, and budget adjustments related to Resolution 2022-35.

PASSED, APPROVED AND ADOPTED this 12th day of April 2022.

RESOLUTION 2023-182

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BANNING, CALIFORNIA, APPROVING A PROFESSIONAL SERVICES AGREEMENT FOR THE DESIGN OF THE RAMSEY STREET WATER MAIN REPLACEMENT TO RICK ENGINEERING, INC. IN THE AMOUNT OF $386,895 AND APPROVING A 10% CONTINGENCY FOR A TOTAL PROJECT BUDGET OF "NOT-TO-EXCEED" $425,584.50

WHEREAS, the City of Banning owns, operates, and maintains water distribution and transmission pipelines that distribute water to residents and businesses; and

WHEREAS, to provide its customers with a reliable supply of water, it is important for the City to continue replacing aging and undersized water distribution infrastructure; and

WHEREAS, the 2018 City of Banning Integrated Master Plan (IMP) identified the existing 4-inch water main on the south side of Ramsey Street as deficient due to its age and conveyance capacity to support commercial development on the south side of Ramsey Street from Sunset Ave to Highland Home Road. The IMP also identified the existing 14-inch water main that runs along the north property lines of properties fronting Ramsey Street to be deficient and difficult to maintain outside of public road right of way; and

WHEREAS, on April 12, 2022 City Council approved Resolution 2022-35 authorizing the use of American Rescue Plan Act (ARPA) funds on certain eligible projects including making the necessary investments in water infrastructure including the installation of a new water main along Ramsey Street; and

WHEREAS, on October 26, 2022 staff released a Request for Proposals (RFP) for the Design of the Rasmey Street Water Main Replacement to five (5) consultants on the on-call Professional Engineering Services list approved by City Council on July 12, 2022 under Resolution 2022-99 and received three (3) proposals; and

WHEREAS, the scope of work will include the design of +/- 7,200 linear feet of a new Ductile Iron Pipe (DIP) water main including reconnection of water services, new fire hydrant connections and abandonment of the existing 4-inch water main in Ramsey Street between Sunset Avenue and Highland Home Road and 14-inch steel water mains north of the existing parcels north of Ramsey Street, and other related tasks. The design will be developed for three construction phases to be constructed as funding becomes available; and

WHEREAS, staff recommends the award of a Professional Services Agreement to Rick Engineering, Inc.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Banning as follows:

SECTION 1. City Council approves the Professional Services Agreement between Rick Engineering, Inc. for the Design of the Ramsey Street Water Main Replacement, to Rick Engineering, Inc. in the amount of $386,895 and approves a 10% contingency for a total project budget of "not-to-exceed" $425,584.50.

SECTION 2. City Council authorizes the City Manager or his designee to make necessary budget adjustments, appropriations, transfers, and to approve change orders within the approved contingency.

SECTION 3. City Council authorizes the City Manager or his designee is authorized to make non-substantive changes to and to execute the Professional Services Agreement with Rick Engineering, Inc..

SECTION 4. The City Clerk shall certify to the adoption of this resolution and shall cause a certified resolution to be filed in the book of original resolutions.

PASSED, APPROVED AND ADOPTED this 14th day of November 2023.

Draft Professional Services Agreement with Rick Engineering, Inc.

AGREEMENT FOR PROFESSIONAL SERVICES (C00931) FOR DESIGN OF RAMSEY STREET WATER MAIN BY AND BETWEEN CITY OF BANNING AND GLENN A. RICK ENGINEERING & DEVELOPMENT CO. DBA RICK ENGINEERING COMPANY

THIS AGREEMENT FOR PROFESSIONAL SERVICES (herein "Agreement") is made and entered into this day: _____, ("Effective Date") by and between the **CITY OF BANNING,** a California municipal corporation ("City") and Glenn A. Rick Engineering & Development Co., a California Corporation, dba Rick Engineering Company. ("Consultant"). City and Consultant are sometimes hereinafter individually referred to as "Party" and hereinafter collectively referred to as the "Parties."

RECITALS

A. City has sought by issuance of a Request for Proposals (RFP No. 23-036) from the bench of prequalified Engineers (RFQ-22-007), the performance of the services for the Design of Ramsey Street Water Main and as further defined and described particularly in Article 1 of this Agreement.

B. Consultant, following submission of a proposal for the performance of the services defined and described particularly in Article 1 of this Agreement, was selected by City to perform those services.

C. The Parties desire to formalize the selection of Consultant for performance of those services defined and described particularly in Article 1 of this Agreement and desire that the terms of that performance be as particularly defined and described herein.

D. Pursuant to the City of Banning's Municipal Code, City has authority to enter into this Agreement.

NOW, THEREFORE, in consideration of the mutual promises and covenants made by the Parties and contained herein and other consideration, the value and adequacy of which are hereby acknowledged, the Parties agree as follows:

ARTICLE 1. SERVICES OF CONSULTANT

1.1 Scope of Services.

In compliance with all terms and conditions of this Agreement, Consultant shall provide those services specified in the "Scope of Services" attached hereto as **Exhibit A** and incorporated herein by this reference, which services may be referred to herein as the "Services" hereunder. As a material inducement to City entering into this Agreement, Consultant represents and warrants that it has the qualifications, experience, and facilities necessary to properly perform the Services required under this Agreement in a thorough, competent, and professional manner, and is experienced in performing the Services contemplated herein. Consultant shall at all times faithfully, competently and to the best of its ability, experience and talent, perform all Services described herein. Consultant covenants that it shall follow the highest professional standards in

performing the Services required hereunder and that all materials will be of good quality, and fit for the purpose intended. For purposes of this Agreement, the phrase "highest professional standards" shall mean those standards of practice recognized by one or more first-class firms performing similar work under similar circumstances. This Agreement calls for services that, in whole or in part, constitute "public works" as defined in the California Labor Code. Therefore, as to those services that are "public works," Consultant shall comply in all respects with all applicable provisions of the California Labor Code, including those set forth in Exhibit B hereto.

1.2 Contract Documents and Exhibits.

This Agreement includes the Request for Proposal and Consultant's accepted proposal ("Contract Documents"), both of which are on file with the City and incorporated herein by this general reference as though fully set forth herein. **Exhibit A** (Scope of Services), **Exhibit B** (Special Requirements), **Exhibit C** (Schedule of Compensation), and **Exhibit D** (Schedule of Performance) also constitute a part of this Agreement and are incorporated into this Agreement by this reference. Except as set forth in Section 1.10 regarding **Exhibit B**, this Agreement controls over the Contract Documents and the provisions in **Exhibits A, B** and **C**.

1.3 Compliance with Law.

Consultant shall keep itself informed concerning all ordinances, resolutions, statutes, rules, and regulations of City and any Federal, State or local governmental entity having jurisdiction in effect at the time service is rendered, and shall render all Services hereunder in accordance therewith.

1.4 Licenses, Permits, Fees and Assessments.

Consultant shall obtain and maintain during the term of this Agreement, at its sole cost and expense, all necessary licenses, permits, certificates and approvals required by law for the performance of Services under this Agreement, including a City business license. Consultant shall have the sole obligation to pay for all fees, assessments and taxes, plus applicable penalties and interest, which may be imposed by law and which arise from or are necessary for Consultant's performance of the Services required by this Agreement. Consultant shall indemnify, defend and hold harmless City, its officers, employees or agents, against all such fees, assessments, taxes, penalties or interest levied, assessed or imposed against City hereunder.

1.5 Familiarity with Services.

By executing this Agreement, Consultant warrants that Consultant: (i) has thoroughly investigated and considered the Scope of Services to be performed, (ii) has carefully considered how the Services should be performed, and (iii) fully understands the facilities and any difficulties and restrictions attending performance of the Services under this Agreement. If the Services involve work upon any site, Consultant warrants that Consultant has or will investigate the site and is or will be fully acquainted with the conditions existing therein, prior to commencement of Services hereunder. Should Consultant discover any latent or unknown conditions, which will materially affect the performance of the Services hereunder, Consultant shall immediately inform City of such fact and shall not proceed except at Consultant's risk until written instructions are received from the Contract Officer (defined in Section 1.12. A).

1.6 Prevention of Loss and Damages.

Consultant shall adopt reasonable methods during the Term (defined in Section 3.4) to furnish continuous protection to the work product, and the equipment, materials, papers, documents, plans, studies and/or other components thereof to prevent losses or damages, and shall be responsible for all such damages, to persons or property, until acceptance of the Services by City, except such losses or damages as may be caused by City's own negligence.

1.7 Further Responsibilities of Parties.

Both Parties agree to use reasonable care and diligence to perform their respective obligations under this Agreement. Both Parties agree to act in good faith to execute all instruments, prepare all documents and take all actions as may be reasonable necessary to carry out the purposes of this Agreement. Unless hereafter specified, neither Party shall be responsible to perform the Services of the other.

1.8 Additional Services.

City shall have the right at any time during the performance of the Services, without invalidating this Agreement, to order extra services beyond that specified in the Scope of Services or to make changes by altering, adding to or deducting from the Services. No such extra services may be undertaken unless a written order is first given by the Contract Officer to Consultant, which written order incorporates therein an adjustment in (i) the Contract Sum (as defined in Section 2.1), and/or (ii) the Schedule of Performance, (as defined in Section 3.2), and which written order is approved in writing by Consultant. Any increase in compensation of up to ten percent (10%) of the Contract Sum, or $25,000, whichever is less; or in the Schedule of Performance of up to one hundred eighty (180) days may be approved by the Contract Officer. Any greater increases, taken either separately or cumulatively, must be approved by City Council. It is expressly understood by Consultant that the provisions of this Section shall not apply to Services which are specifically set forth in the Scope of Services or which are reasonably contemplated therein. Consultant hereby acknowledges that it accepts the risk that the Services to be provided pursuant to the Scope of Services may be more costly or time consuming than Consultant anticipates and that Consultant shall not be entitled to additional compensation therefor.

1.9 Facilities and Equipment.

Except as otherwise provided, Consultant shall, at its own cost and expense, provide all facilities and equipment necessary to perform the Services required by this Agreement. City shall make available to Consultant only physical facilities such as desks, filing cabinets, and conference space ("City Facilities"), as City deems, in its sole discretion, to be reasonably necessary for Consultant's use while consulting with City employees and reviewing records and the information in possession of City. The location, quality, and time of furnishing City Facilities shall be in the sole discretion of City. In no event shall City be required to furnish any facilities that may involve incurring any direct expense, including but not limited to a computer, long distance telephone, network data, internet or other communication charges, vehicles and reproduction facilities.

1.10 Special Requirements.

Additional terms and conditions of this Agreement, if any, which are made a part hereof are set forth in the "Special Requirements" attached hereto as **Exhibit B** and incorporated herein by this reference. In the event of a conflict between the provisions of **Exhibit B** and any other provisions of this Agreement, the provisions of **Exhibit B** shall govern.

1.11 Corrections.

In addition to the indemnification obligations set forth in Article 4, and Sections 1.4, 1.13, 5.3, 5.4, and 6.3, Consultant shall correct, at its expense, all errors in the Services which may be disclosed during City's review of Consultant's report or plans. Should Consultant fail to make such correction(s) in a reasonably timely manner, such correction(s) may be made by City, and the cost thereof shall be charged to Consultant. In addition to all other available remedies, City may deduct the cost of such correction(s) from any retention amount held by City, or may withhold payment otherwise owed Consultant under this Agreement up to the amount of the cost of correction(s), as provided in Section 6.3.

1.12 Party Representatives.

A. Contract Officer: For the purposes of this Agreement, the Contract Officer shall be the City Manager, or such other person designated in writing by the City Manager ("Contract Officer"). Unless otherwise specified herein, any approval of City required hereunder shall mean the approval of the Contract Officer. The Contract Officer shall have authority, if specified in writing by the City Manager, to sign all documents on behalf of City required hereunder to carry out the terms of this Agreement.

B. Principals and Personnel of Consultant.

1) Consultant Representative: The following principal of Consultant is hereby designated as being the Consultant Representative authorized to act on Consultant's behalf regarding the Services specified herein and make all decisions in connection therewith:

Name	Title
Richard O'Neill	Associate Principal

It is expressly understood that the experience, knowledge, capability and reputation of the foregoing Consultant Representative were a substantial inducement for City to enter into this Agreement. Therefore, the foregoing Consultant Representative shall be responsible during the term of this Agreement for directing all activities of Consultant and devoting sufficient time to personally supervise the Services hereunder. All personnel of Consultant, and any authorized agents, shall at all times be under the exclusive direction and control of the Consultant Representative. For purposes of this Agreement, the foregoing Consultant Representative may not be replaced nor may their responsibilities be substantially reduced or reassigned by Consultant without the express written approval of City. It shall be Consultant's responsibility to assure that the Contract Officer is kept informed of the progress of the performance of the Services, and Consultant shall refer any decisions which must be made by City to the Contract Officer.

2) Consultant's Personnel: Consultant has, or will secure at its own expense, all personnel required to perform the Services required under this Agreement. All of the Services required under this Agreement shall be performed by Consultant or under its supervision, and all personnel engaged in the Services shall be qualified to perform such Services. Consultant shall make every reasonable effort to maintain the stability and continuity of Consultant's staff and sub-contractors, if any, assigned to perform the Services required under this Agreement. Consultant shall notify City of all changes in Consultant's staff and sub-contractors, if any, assigned to perform the Services required under this Agreement, prior to and during any such performance. In the event that City, in its sole discretion, at any time during the term of this Agreement, desires to reassign any staff or sub-contractor of Consultant, City shall give notice as set forth in Section 8.1. Consultant shall, immediately upon the receipt of the notice to re-assign staff from City, reassign such person or persons.

1.13 Independent Contractor.

A. Consultant is an independent contractor and not an employee of City. Consultant shall have no power to incur any debt, obligation, or liability on behalf of City. All Services provided pursuant to this Agreement shall be performed by Consultant or under its supervision. Consultant will determine the means, methods, and details of performing the Services. Any additional personnel performing Services under this Agreement on behalf of Consultant shall also not be employees of City and shall at all times be under Consultant's exclusive direction and control. Consultant shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Consultant shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

B. Consultant shall indemnify and hold harmless City and its elected officials, officers, employees, servants, designated volunteers, and agents serving as independent contractors in the role of City officials, from any and all liability, damages, claims, costs and expenses of any nature to the extent arising from Consultant's personnel practices. City shall have the right to offset against the amount of any fees due to Consultant under this Agreement any amount due to City from Consultant as a result of Consultant's failure to promptly pay to City any reimbursement or indemnification arising under this Section.

1.14 Prohibition Against Subcontracting or Assignment.

The experience, knowledge, capability and reputation of Consultant, the Consultant Representative and employees were a substantial inducement for City to enter into this Agreement. Therefore, Consultant shall not contract with any other entity to perform in whole or in part the Services required hereunder without the express written approval of City. In addition, neither this Agreement nor any interest herein may be transferred, assigned, conveyed, hypothecated or encumbered voluntarily or by operation of law, whether for the benefit of creditors or otherwise, without the prior written approval of City. Transfers restricted hereunder shall include the transfer to any person or group of persons acting in concert of more than twenty-five percent (25%) of the present ownership and/or control of Consultant, taking all transfers into account on a cumulative basis. In the event of any such unapproved transfer, including any bankruptcy proceeding, this

Agreement shall be void. No approved transfer shall release Consultant or any surety of Consultant of any liability hereunder without the express consent of City.

ARTICLE 2. COMPENSATION AND METHOD OF PAYMENT.

2.1 Contract Sum.

Subject to any limitations set forth in this Agreement, as full compensation for Services satisfactorily rendered, City shall pay Consultant at the hourly rates set forth in **Exhibit C-1** and the not-to-exceed sub-budget rates set forth in the "Schedule of Compensation" attached hereto as **Exhibit C** and incorporated herein by this reference. In no event shall Consultant be paid more than Three Hundred Eighty-Six Thousand Eight Hundred Ninety-Five ($386,895.00) (the "Contract Sum"). The Contract Sum shall include the attendance of Consultant at all project meetings reasonably deemed necessary by City. Coordination of the performance of the Services with City is a critical component of the Services. If Consultant is required to attend additional meetings to facilitate such coordination, Consultant shall not be entitled to any additional compensation for attending those meetings.

2.2 Method of Compensation.

The method of compensation may include: (i) a lump sum payment upon completion of the Services, (ii) payment in accordance with specified tasks or the percentage of completion of the Services, (iii) payment for time and materials based upon Consultant's rates as specified in the Schedule of Compensation, provided that time estimates are provided for the performance of sub tasks, but not exceeding the Contract Sum or (iv) such other methods as may be specified in the Schedule of Compensation.

2.3 Reimbursable Expenses.

City shall only reimburse Consultant for those actual and necessary expenses expressly set forth in **Exhibit C**. Reimbursable expenses may include reimbursement for actual and necessary expenditures for reproduction costs, telephone expenses, and travel expenses approved by the Contract Officer in advance, or actual sub-contractor expenses of an approved sub-contractor pursuant to Section 1.14, and only if specified in the Schedule of Compensation.

2.4 Unauthorized Services and Expenses.

City will not pay for any Services or reimburse for any expenses incurred which are not specified in the Scope of Services, unless authorized in writing as set forth in Section 1.8 of this Agreement. City shall make payment for such authorized additional Services and expenses in accordance with Article 2 of this Agreement.

2.5 Invoices.

Each month Consultant shall furnish to City an original invoice for all Services performed and expenses incurred during the preceding month. Each such invoice shall contain all of the information set forth in Section III of **Exhibit C** to this Agreement. By submitting an invoice for payment under this Agreement, Consultant is certifying compliance with all provisions of the

Agreement. Consultant shall not invoice City for any duplicate Services performed by more than one person.

City shall independently review each invoice submitted by Consultant to determine whether the Services performed and expenses incurred are in compliance with the provisions of this Agreement. City will use its best efforts to cause Consultant to be paid within thirty (30) days of receipt of Consultant's correct and undisputed invoice, except as to any charges for Services performed or expenses incurred by Consultant which are disputed by City, or as provided in Section 6.3. In the event any charges or expenses are disputed by City, the original invoice shall be returned by City to Consultant for correction and resubmission. Review and payment by City of any invoice provided by Consultant shall not constitute waiver of any rights or remedies provided herein or any applicable law.

2.6 Waiver.

Payment to Consultant for Services performed pursuant to this Agreement shall not be deemed to waive any defects in Services performed by Consultant.

ARTICLE 3. PERFORMANCE SCHEDULE

3.1 Time of Essence.

Time is of the essence in the performance of this Agreement; provided, however, that the foregoing shall not be construed to limit or deprive a Party of the benefits of any grace or use period allowed in this Agreement.

3.2 Schedule of Performance.

Consultant shall commence the Services pursuant to this Agreement upon receipt of a written notice to proceed and shall perform all Services within the time period(s) established in the "Schedule of Performance" attached hereto as **Exhibit D** and incorporated herein by this reference.

3.3 Force Majeure.

The time period(s) specified in the Schedule of Performance for performance of the Services rendered pursuant to this Agreement may be extended because of any delays due to unforeseeable causes beyond the control and without the fault or negligence of Consultant. Such unforeseeable consequences include, but are not restricted to, acts of God or public enemy, unusually severe weather, fires, earthquakes, floods, epidemics, quarantine restrictions, riots, strikes, freight embargoes, wars, litigation, and/or acts of any governmental agency, including City, if Consultant shall within ten (10) days of the commencement of such delay notify the Contract Officer in writing of the causes of the delay. The Contract Officer shall ascertain the facts and the extent of delay, and extend the time for performing the Services for the period of the enforced delay when and if in the judgment of the Contract Officer such delay is justified, subject to the provisions of Section 1.8. The Contract Officer's determination (or the City Council's determination, in the event the period of enforced delay exceeds the period specified in Section 1.8) shall be final and conclusive upon the Parties to this Agreement. In no event shall Consultant

be entitled to recover damages against City for any delay in the performance of this Agreement, however caused; Consultant's sole remedy shall be the extension of the Agreement pursuant to this Section.

3.4 Term.

The Term of this Agreement shall be from the Effective Date through June 30, 2024, unless sooner terminated as provided in Article 6 of this Agreement or extended as provided in Sections 1.8 and 3.3 of this Agreement. Maximum term and any subsequent amendment or modification shall not exceed five (5) years.

ARTICLE 4. INSURANCE AND INDEMNIFICATION

4.1 Minimum Scope and Limits of Insurance.

Consultant shall procure and at all times during the term of this Agreement carry, maintain, and keep in full force and effect, insurance as follows:

A. Commercial General Liability Insurance with a minimum limit of $1,000,000.00 per occurrence for bodily injury, personal injury and property damage and a general aggregate limit of $2,000,000.00 per project or location. If Consultant is a limited liability company, the commercial general liability coverage shall be amended so that Consultant and its managers, members, affiliates, employees, agents and other persons necessary or incidental to its operation are insureds.

B. Automobile Liability Insurance for any owned, non-owned or hired vehicle used in connection with the performance of this Agreement with a combined single limit of $1,000,000.00 per accident for bodily injury and property damage. If Consultant does not use any owned, non-owned or hired vehicles in the performance of Services under this Agreement, Consultant shall obtain a non-owned auto endorsement to the Commercial General Liability policy.

C. Workers' Compensation Insurance as required by the State of California and Employer's Liability Insurance with a minimum limit of $1,000,000.00 per accident for bodily injury or disease. If Consultant has no employees while performing Services under this Agreement, workers' compensation policy is not required; however, Consultant shall execute a declaration that it has no employees.

D. Professional Liability/Errors and Omissions Insurance with minimum limits of $1,000,000.00 per claim and in the aggregate.

4.2 Acceptability of Insurers.

The insurance policies required under this Article shall be issued by an insurer admitted to write insurance in the State of California with a rating of A:VII or better in the latest

edition of the A.M. Best Insurance Rating Guide. Self-insurance shall not be considered to comply with the insurance requirements under this Article.

4.3 Additional Insured.

The commercial general and automobile liability policies shall contain an endorsement naming City, its officers, employees, agents and volunteers as additional insureds.

4.4 Primary and Non-Contributing.

The insurance policies required under this Article shall apply on a primary non-contributing basis in relation to any other insurance or self-insurance available to City. Any insurance or self-insurance maintained by City, its officers, employees, agents or volunteers, shall be in excess of Consultant's insurance and shall not contribute with it.

4.5 Consultant's Waiver of Subrogation.

The insurance policies required under this Article shall not prohibit Consultant and Consultant's employees, agents or sub-contractors from waiving the right of subrogation prior to a loss. Consultant hereby waives all rights of subrogation against City.

4.6 Deductibles and Self-Insured Retentions.

Any deductibles or self-insured retentions must be declared to and approved by City. At City's option, Consultant shall either reduce or eliminate the deductibles or self-insured retentions with respect to City; or Consultant shall procure a bond guaranteeing payment of losses and expenses.

4.7 Cancellations or Modifications to Coverage.

Consultant shall not cancel, reduce or otherwise modify the insurance policies required by this Article during the term of this Agreement. The commercial general and automobile liability policies required under this Agreement shall be endorsed to state that should the issuing insurer cancel the policy before the expiration date, the issuing insurer will endeavor to mail 30 days' prior written notice to City. If any insurance policy required under this Article is canceled or reduced in coverage or limits, Consultant shall, within two (2) Business Days (as defined in Section 8.12) of notice from the insurer, phone, fax or notify City via certified mail, return receipt requested, of the cancellation of or changes to the policy.

4.8 City Remedy for Noncompliance.

If Consultant does not maintain the policies of insurance required under this Article in full force and effect during the term of this Agreement, or in the event any of Consultant's policies do not comply with the requirements under this Article, City may either immediately terminate this Agreement or, if insurance is available at a reasonable cost, City may, but has no duty to, take out the necessary insurance and pay, at Consultant's expense, the premium thereon. Consultant shall promptly reimburse City for any premium paid by City, or City may withhold amounts sufficient to pay the premiums from payments due to Consultant.

4.9 Evidence of Insurance.

Prior to the performance of Services under this Agreement, Consultant shall furnish the City Clerk with a certificate or certificates of insurance and all original endorsements evidencing and effecting the coverages required under this Article. The endorsements are subject to City's approval. Consultant may provide complete, certified copies of all required insurance policies to City. Consultant shall maintain current endorsements on file with the City Clerk. Consultant shall provide proof to the City Clerk that insurance policies expiring during the term of this Agreement have been renewed or replaced with other policies providing at least the same coverage. Consultant shall furnish such proof at least two (2) weeks prior to the expiration of the coverages.

4.10 Indemnity Requirements not Limiting.

Procurement of insurance by Consultant shall not be construed as a limitation of Consultant's liability or as full performance of Consultant's duty to indemnify City under this Agreement.

4.11 Sub-contractor Insurance Requirements.

Consultant shall require each of its sub-contractors that perform Services under this Agreement to maintain insurance coverage that meets all of the requirements of this Article.

4.12 Indemnification, Hold Harmless, and Duty to Defend.

A. Indemnification of City.

1) Indemnity for Design Professional Services. To the fullest extent permitted by law, Consultant shall, at its sole cost and expense, protect, indemnify, and hold harmless City and its elected officials, officers, attorneys, agents, employees, designated volunteers, successors, assigns and those City agents serving as independent contractors in the role of City officials (collectively "Indemnitees"), from and against any and all damages, costs, expenses, liabilities, claims, demands, causes of action, proceedings, judgments, penalties, liens, and losses of any nature whatsoever, including fees of accountants, attorneys, or other professionals and all costs associated therewith, and reimbursement of attorney's fees and costs of defense (collectively "Liabilities"), whether actual, alleged or threatened, which arise out of, are claimed to arise out of, pertain to, or relate to, in whole or in part, the negligence, recklessness or willful misconduct of Consultant, its officers, agents, servants, employees, subcontractors, material men, contractors or their officers, agents, servants or employees (or any entity or individual that Consultant shall bear the legal liability thereof) in the performance of design professional services under this Agreement by a "design professional," as the term is defined under California Civil Code Section 2782.8(c).

2) Other Indemnities. Other than in the performance of design professional services, and to the fullest extent permitted by law, Consultant shall, at its sole cost and expense, defend, hold harmless and indemnify Indemnitees from and against any and all damages, costs, expenses, liabilities, claims, demands, causes of action, proceedings, expenses, judgments, penalties, liens, and losses of any nature whatsoever, including fees of accountants, attorneys, or other professionals and all costs associated therewith and the payment of all consequential

damages (collectively "Claims"), at law or in equity, whether actual, alleged or threatened, which arise out of, are claimed to arise out of, pertain to, or relate to the acts or omissions of Consultant, its officers, agents, servants, employees, sub-contractors, materialmen, consultants or their officers, agents, servants or employees (or any entity or individual that Consultant shall bear the legal liability thereof) in the performance of this Agreement, including the Indemnitees' active or passive negligence, except for Claims arising from the sole negligence or willful misconduct of the Indemnitees as determined by court decision or by the agreement of the Parties. Consultant shall defend the Indemnitees in any action or actions filed in connection with any Claims with counsel of the Indemnitees' choice, and shall pay all costs and expenses, including all attorneys' fees and experts' costs actually incurred in connection with such defense. Consultant shall reimburse the Indemnitees for any and all legal expenses and costs incurred by Indemnitees in connection therewith.

3) Consultant shall pay all required taxes on amounts paid to Consultant under this Agreement, and indemnify and hold City harmless from any and all taxes, assessments, penalties, and interest asserted against City by reason of the independent contractor relationship created by this Agreement. Consultant shall fully comply with the workers' compensation law regarding Consultant and Consultant's employees. Consultant shall indemnify and hold City harmless from any failure of Consultant to comply with applicable workers' compensation laws. City may offset against the amount of any fees due to Consultant under this Agreement any amount due to City from Consultant as a result of Consultant's failure to promptly pay to City any reimbursement or indemnification arising under this subparagraph A.3.

4) Consultant shall obtain executed indemnity agreements with provisions identical to those in this Article from each and every sub-contractor or any other person or entity involved by, for, with or on behalf of Consultant in the performance of this Agreement. If Consultant fails to obtain such indemnities, Consultant shall be fully responsible and indemnify, hold harmless and defend the Indemnitees from and against any and all Liabilities and Claims, in law or in equity, whether actual, alleged or threatened, which arise out of, are claimed to arise out of, pertain to, or relate to the acts or omissions of Consultant's sub-contractor, its officers, agents, servants, employees, sub-contractors, materialmen, contractors or their officers, agents, servants or employees (or any entity or individual that Consultant's sub-contractor shall bear the legal liability thereof) in the performance of this Agreement, including the Indemnitees' active or passive negligence, except for Liabilities and Claims arising from the sole negligence or willful misconduct of the Indemnitees, as determined by court decision or by the agreement of the Parties.

B. Workers' Compensation Acts not Limiting. Consultant's indemnifications and obligations under this Article, or any other provision of this Agreement, shall not be limited by the provisions of any workers' compensation act or similar act. Consultant expressly waives its statutory immunity under such statutes or laws as to City, its officers, agents, employees and volunteers.

C. Insurance Requirements not Limiting. City does not, and shall not, waive any rights that it may possess against Consultant because of the acceptance by City, or the deposit with City, of any insurance policy or certificate required pursuant to this Agreement. The indemnities in this Article shall apply regardless of whether or not any insurance policies are determined to be applicable to the Liabilities, tax, assessment, penalty or interest asserted against City.

D. Survival of Terms. Consultant's indemnifications and obligations under this Article shall survive the expiration or termination of this Agreement.

ARTICLE 5. RECORDS, REPORTS, AND RELEASE OF INFORMATION

5.1 Service Records.

Consultant shall keep, and require sub-contractors to keep, such ledgers, books of accounts, invoices, vouchers, canceled checks, reports, studies or other documents relating to the disbursements charged to City and Services performed hereunder (the "Service Records"), as shall be necessary to perform the Services required by this Agreement and enable the Contract Officer to evaluate the performance of such Services. Any and all such Service Records shall be maintained in accordance with generally accepted accounting principles and shall be complete and detailed. The Contract Officer shall have full and free access to such Service Records at all times during normal business hours of City, including the right to inspect, copy, audit and make copies and transcripts from such Service Records. Such Service Records shall be maintained for a period of three (3) years following completion of the Services hereunder, and City shall have access to such Service Records in the event any audit is required. In the event of dissolution of Consultant's business, custody of the Service Records may be given to City, and access shall be provided by Consultant's successor in interest ("Consultant's Successor"). If custody of the Service Records is given to Consultant's Successor, Consultant shall give written notice to City of the transfer of the Service Records to Consultant's Successor. The notice shall include contact information (address and telephone number) for Consultant's Successor, and access shall be provided to City by Consultant's Successor.

5.2 Reports.

Consultant shall periodically prepare and submit to the Contract Officer such reports concerning the performance of the Services required by this Agreement as the Contract Officer shall require. Consultant hereby acknowledges that City is greatly concerned about the cost of Services to be performed pursuant to this Agreement. For this reason, Consultant agrees that if Consultant becomes aware of any facts, circumstances, techniques, or events that may or will materially increase or decrease the cost of the Services contemplated herein, Consultant shall promptly notify the Contract Officer of that fact, circumstance, technique or event and the estimated increased or decreased cost related thereto.

5.3 Ownership of Documents.

All drawings, specifications, maps, designs, photographs, studies, surveys, data, notes, computer files, reports, records, documents and other materials (the "Consultant Documents") prepared by Consultant, its employees, sub-contractors and agents in the performance of this Agreement shall be the property of City and shall be delivered to City upon request of the Contract Officer or upon the termination of this Agreement. Consultant shall have no claim for further employment or additional compensation as a result of the exercise by City of its full rights of ownership use, reuse, or assignment of the Consultant Documents hereunder. Any use, reuse or assignment of such completed Consultant Documents for other projects and/or use of uncompleted Consultant Documents without specific written authorization by Consultant will be at City's sole

risk and without liability to Consultant, and Consultant's guarantee and warranties shall not extend to such use or assignment. Consultant may retain copies of such Consultant Documents for its own use. Consultant shall have an unrestricted right to use the concepts embodied therein. All sub-contractors shall provide for assignment to City of all Consultant Documents prepared by them; and in the event Consultant fails to secure such assignment, Consultant shall indemnify City for all damages resulting therefrom.

5.4 Confidentiality and Release of Information.

A. All information gained or work product produced by Consultant in performance of this Agreement shall be considered confidential, unless such information is in the public domain or already known to Consultant. Consultant shall not release or disclose any such information or work product to persons or entities other than City without prior written authorization from the Contract Officer.

B. Consultant, its officers, employees, agents or sub-contractors, shall not, without prior written authorization from the Contract Officer or unless requested by the City Attorney, voluntarily provide documents, declarations, letters of support, testimony at depositions, response to interrogatories or other information concerning the Services performed under this Agreement. Response to a subpoena or court order shall not be considered "voluntary" provided Consultant gives City notice of such court order or subpoena.

C. If Consultant, or any officer, employee, agent or sub-contractor of Consultant, provides any information or work product in violation of this Agreement, then City shall have the right to reimbursement and indemnity from Consultant for any damages, costs and fees, including attorneys' fees, caused by or incurred as a result of Consultant's conduct.

D. Consultant shall promptly notify City should Consultant, its officers, employees, agents or sub-contractors be served with any summons, complaint, subpoena, notice of deposition, request for documents, interrogatories, request for admissions or other discovery request, court order or subpoena from any Party regarding this Agreement and the Services performed thereunder. City retains the right, but has no obligation, to represent Consultant or be present at any deposition, hearing or similar proceeding. Consultant agrees to cooperate fully with City and to provide City with the opportunity to review any response to discovery requests provided by Consultant. However, this right to review any such response does not imply or mean the right by City to control, direct, or rewrite the response.

ARTICLE 6. ENFORCEMENT OF AGREEMENT AND TERMINATION

6.1 California Law.

This Agreement, and any dispute arising from the relationship between the Parties to this Agreement, shall be interpreted, construed and governed both as to validity and to performance of the Parties in accordance with the laws of the State of California. Legal actions concerning any dispute, claim or matter arising out of or in relation to this Agreement shall be instituted in the Superior Court of the County of Riverside, State of California, or any other appropriate court in such county, and Consultant covenants and agrees to submit to the personal jurisdiction of such

court in the event of such action. In the event of litigation in a U.S. District Court, venue shall lie exclusively in the Central District of California, in Riverside.

6.2 Disputes; Default.

A. In the event that City determines Consultant is in default under the terms of this Agreement, City shall have no obligation or duty to continue compensating Consultant for any Services performed after the date of default. In addition to the provisions of Section 4.8, and the right to terminate pursuant to Section 6.7, if the City Manager determines that Consultant is in default in the performance of any of the terms or conditions of this Agreement, City may serve Consultant with written notice of the default. Consultant shall have ten (10) calendar days after service upon it of the notice in which to cure the default by rendering a satisfactory performance. In the event that Consultant fails to cure its default within such period of time, City may, notwithstanding any other provision of this Agreement, terminate this Agreement without further notice and without prejudice to any other remedy to which it may be entitled at law, in equity or under this Agreement.

B. In the event of termination pursuant to this Section, City may take over the Services and prosecute the same to completion by contract or otherwise, and Consultant shall be liable to the extent that the total cost for completion of the Services required hereunder exceeds the compensation herein stipulated (provided that City shall use reasonable efforts to mitigate such damages), and City may withhold any payments to Consultant for the purpose of set-off or partial payment of the amounts owed City as provided in Section 6.3.

6.3 Retention of Funds.

Consultant hereby authorizes City to deduct from any amount payable to Consultant (whether or not arising out of this Agreement): (i) any payment amount of which may be in dispute hereunder or which is necessary to compensate City for any losses, costs, liabilities, or damages suffered by City, (ii) all amounts retained pursuant to the provisions of Section 4.8, (iii) all amounts for which City may be liable to third parties, by reason of Consultant's acts or omissions in performing or failing to perform Consultant's obligation under this Agreement, and (iv) all payments due or that become due to Consultant during the period that Consultant or any of its sub-contractors fail to maintain any required insurance in full force and effect, until notice is received by City that the required insurance has been restored to full force and effect and that the premiums therefore have been paid for a period satisfactory to City, as provided in Section 4.9, above. In the event that any claim is made by a third party, the amount or validity of which is disputed by Consultant, or any indebtedness shall exist which shall appear to be the basis for a claim of lien, City may withhold from any payment due, without liability for interest because of such withholding, an amount sufficient to cover such claim. The failure of City to exercise such right to deduct or to withhold shall not, however, affect the obligations of Consultant to insure, indemnify, and protect City as elsewhere provided herein.

6.4 Waiver.

Waiver by any Party to this Agreement of any term, condition, or covenant of this Agreement shall not constitute a waiver of any other term, condition, or covenant. Waiver by any

Party of any breach of the provisions of this Agreement shall not constitute a waiver of any other provision or a waiver of any subsequent breach or violation of any provision of this Agreement. Acceptance by City of any Services by Consultant shall not constitute a waiver of any of the provisions of this Agreement. No delay or omission in the exercise of any right or remedy by a non-defaulting Party on any default shall impair such right or remedy or be construed as a waiver. Any waiver by either Party of any default must be in writing, and shall not be a waiver of any other default concerning the same or any other provision of this Agreement.

6.5 Rights and Remedies are Cumulative.

Except with respect to rights and remedies expressly declared to be exclusive in this Agreement, the rights and remedies of the Parties are cumulative and the exercise by either Party of one or more of such rights or remedies shall not preclude the exercise by it, at the same or different times, of any other rights or remedies for the same default or any other default by the other Party.

6.6 Legal Action.

In addition to any other rights or remedies, either Party may take legal action, in law or in equity, to cure, correct or remedy any default, to recover damages for any default, to compel specific performance of this Agreement, to obtain declaratory or injunctive relief, or to obtain any other remedy consistent with the purposes of this Agreement. Notwithstanding any contrary provision herein, Consultant must file a statutory claim pursuant to Government Code Sections 905 et seq. and 910 et seq., in order to pursue a legal action against City under this Agreement.

6.7 Termination Prior to Expiration of Term.

This Article 6 shall govern any termination of this Agreement except as specifically provided in Section 6.2 for termination for default of Consultant. City reserves the right to terminate this Agreement at any time, with or without cause, upon thirty (30) days' written notice to Consultant, except that where termination is due to the fault of Consultant, the period of notice may be a shorter time as may be determined by the Contract Officer. In addition, Consultant reserves the right to terminate this Agreement at any time, with or without cause, upon sixty (60) days' written notice to City, except that where termination is due to the fault of City, the period of notice may be a shorter time as Consultant may determine. Upon receipt of any notice of termination, Consultant shall immediately cease all Services hereunder except such as may be specifically approved by the Contract Officer. Except where Consultant has initiated termination, Consultant shall be entitled to compensation for all Services rendered prior to the effective date of the notice of termination and for any Services authorized by the Contract Officer thereafter in accordance with the Schedule of Compensation or such as may be approved by the Contract Officer, except as provided in Section 6.3. In the event Consultant has initiated termination, Consultant shall be entitled to compensation only for the reasonable value of the work product actually produced hereunder. In the event of termination without cause pursuant to this Section, the terminating Party need not provide the non-terminating Party with the opportunity to cure pursuant to Section 6.2.

6.8 Attorneys' Fees.

In any litigation or other proceeding by which a Party seeks to enforce its rights under this Agreement (whether in contract, tort or both) or seeks a declaration of any rights or obligations under this Agreement, the prevailing Party in such action or proceeding, in addition to any other relief which may be granted, whether legal or equitable, shall be entitled to reasonable attorneys' fees. Attorneys' fees shall include attorney's fees on any appeal, and in addition the Party entitled to attorneys' fees shall be entitled to all other reasonable costs for investigating such action, taking depositions and discovery and all other necessary costs the court allows which are incurred in such litigation. All such fees shall be deemed to have accrued on commencement of such action and shall be enforceable whether or not such action is prosecuted to judgment.

ARTICLE 7. CITY OFFICERS AND EMPLOYEES: NON-DISCRIMINATION

7.1 Non-liability of City Officers and Employees.

No officer or employee of City shall be personally liable to Consultant, or Consultant's Successor, in the event of any default or breach by City or for any amount which may become due to Consultant or Consultant's Successor, or for breach of any obligation of the terms of this Agreement.

7.2 Conflict of Interest.

Consultant covenants that neither it, nor any officer or principal of its firm, has or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of City or which would in any way hinder Consultant's performance of Services under this Agreement. Consultant further covenants that in the performance of this Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or sub-contractor without the express written consent of the Contract Officer. Consultant agrees to at all times avoid conflicts of interest or the appearance of any conflicts of interest with the interests of City in the performance of this Agreement.

No officer or employee of City shall have any direct or indirect financial interest in this Agreement within the scope of Government Code section 1090, nor shall any such officer or employee make, participate in making, or use his or her official position to influence, any City decision relating to the Agreement which has a material financial effect on his or her financial interests or the financial interests of any corporation, partnership or association in which he or she is, directly or indirectly, interested, in violation of any State statute or regulation. Consultant warrants that it has not paid or given, and will not pay or give any third party any money or other consideration for obtaining this Agreement.

Consultant and its officers, employees, associates and sub-contractors, if any, shall comply with all conflict of interest statutes of the State of California applicable to Consultant's Services under this Agreement, including the Political Reform Act (Gov. Code § 81000, et seq.) and Government Code Section 1090. During the term of this Agreement, Consultant may perform similar services for other clients; but Consultant and its officers, employees, associates and sub-contractors shall not, without the Contract Officer's prior written approval, perform services for another person or entity for whom Consultant is not currently performing services that would

require Consultant or one of its officers, employees, associates or sub-contractors to abstain from a decision under this Agreement pursuant to a conflict of interest statute. Consultant shall incorporate a clause substantially similar to this Section into any subcontract that Consultant executes in connection with the performance of this Agreement.

7.3 Covenant Against Discrimination.

Consultant covenants that, by and for itself, its heirs, executors, assigns, and all persons claiming under or through them, that there shall be no discrimination against or segregation of, any person or group of persons on account of race, color, creed, religion, sex, gender, sexual orientation, marital status, national origin, or ancestry in the performance of this Agreement. Consultant shall take affirmative action to insure that applicants are employed, and that employees are treated during employment, without regard to their race, color, creed, religion, sex, marital status, national origin, or ancestry, or other protected class.

7.4 Unauthorized Aliens.

Consultant hereby promises and agrees to comply with all of the provisions of the Federal Immigration and Nationality Act, 8 U.S.C.A. §§ 1101, et seq., as amended, and in connection therewith, shall not employ unauthorized aliens as defined therein. Should Consultant so employ such unauthorized aliens for the performance of Services covered by this Agreement, and should the any liability or sanctions be imposed against City for such use of unauthorized aliens, Consultant hereby agrees to and shall reimburse City for the cost of all such liabilities or sanctions imposed, together with any and all costs, including attorneys' fees, incurred by City.

ARTICLE 8. MISCELLANEOUS PROVISIONS

8.1 Notices.

Any notice, demand, request, document, consent, approval, bill, invoice, report or other communication required or permitted under this Agreement shall be in writing and conclusively deemed effective: (a) on confirmed delivery by courier service or overnight delivery service during Consultant's and City's regular business hours; or (b) three (3) Business Days after deposit in the United States mail, by certified or registered mail, and addressed to the Party to be notified as set forth below:

If to City

With a courtesy copy to:	Serita R. Young, City Attorney Richards, Watson & Gershon 350 South Grand Avenue, 37th Floor Los Angeles, California 90071 Email: SYoung@rwglaw.com
If to Consultant:	Attn: Rick O'Neill Rick Engineering Company 1770 Iowa Avenue, Suite 100 Riverside, CA 92507

8.2 Interpretation.

The terms of this Agreement shall be construed in accordance with the meaning of the language used and shall not be construed for or against either Party by reason of the authorship of this Agreement or any other rule of construction which might otherwise apply.

8.3 Counterparts.

This Agreement may be executed in counterparts, each of which shall be deemed to be an original, and such counterparts shall constitute one and the same instrument.

8.4 Integration; Amendment.

This Agreement, and all exhibits referred to in this Agreement, constitute the final, complete and exclusive statement of the terms of the agreement between the Parties pertaining to the subject matter of this Agreement and supersede all other and cancels any and all previous negotiations, arrangements, agreements and understandings, if any, between the Parties, and none shall be used to interpret this Agreement. No Party has been induced to enter into this Agreement by, nor is any Party relying on, any representation or warranty except those expressly set forth in this Agreement. No amendment to or modification of this Agreement, nor any provision or breach hereof waived, shall be valid unless made in writing and approved by Consultant and by City Council. The Parties agree that this requirement for written modifications cannot be waived and that any attempted waiver shall be void.

8.5 Severability.

In the event that any one or more of the phrases, sentences, clauses, paragraphs, or sections contained in this Agreement shall be declared invalid or unenforceable by a valid judgment or decree of a court of competent jurisdiction, such invalidity or unenforceability shall not affect any of the remaining phrases, sentences, clauses, paragraphs, or sections of this Agreement which are hereby declared as severable and shall be interpreted to carry out the intent of the Parties hereunder unless the invalid provision is so material that its invalidity deprives either Party of the basic benefit of their bargain or renders this Agreement meaningless.

8.6 Mutual Cooperation.

A. City's Cooperation. City shall provide Consultant with all pertinent data, documents and other requested information as is reasonably available for Consultant's proper performance of the Services required under this Agreement.

B. Consultant's Cooperation. In the event any claim or action is brought against City relating to Consultant's performance of Services rendered under this Agreement, Consultant shall render any reasonable assistance that City requires.

8.7 No Third Party Beneficiaries Intended.

This Agreement is made solely for the benefit of the Parties to this Agreement and their respective successors and assigns, and no other person or entity may have or acquire a right by virtue of this Agreement.

8.8 Final Payment Acceptance Constitutes Release.

The acceptance by Consultant of the final payment made under this Agreement shall operate as and be a release of City from all claims and liabilities for compensation to Consultant for anything done, furnished or relating to Consultant's Services. Acceptance of payment shall be any negotiation of City's check or the failure to make a written extra compensation claim within ten (10) calendar days of the receipt of that check. However, approval or payment by City shall not constitute, nor be deemed, a release of the responsibility and liability of Consultant, its employees, sub-contractors and agents for the accuracy and competency of the information provided and/or Services performed; nor shall such approval or payment be deemed to be an assumption of such responsibility or liability by City for any defect or error in the Services prepared by Consultant, its employees, sub-contractors and agents.

8.9 Non-Appropriation of Funds.

Payments to be made to Consultant by City for Services performed within the current fiscal year which are within the current fiscal budget and within an available, unexhausted fund. In the event that City does not appropriate sufficient funds for payment of Consultant's Services beyond the current fiscal year, this Agreement shall cover payment for Consultant's Services only to the conclusion of the last fiscal year in which City appropriates sufficient funds and shall automatically terminate at the conclusion of such fiscal year.

8.10 Headings.

The headings in this Agreement are included solely for convenience of reference and shall not affect the interpretation of any provision of this Agreement or any of the rights or obligations of the Parties to this Agreement.

8.11 Word Usage.

Unless the context clearly requires otherwise, (a) the words "shall," "will" and "agrees" are mandatory and "may" is permissive; (b) "or" is not exclusive; and (c) "includes" or "including" are not limiting.

8.12 Business Days.

"Business Days" refers to days that the Banning City Hall is open for business.

8.13 Corporate Authority.

The persons executing this Agreement on behalf of the Parties hereto warrant that (i): such Party is duly organized and existing, (ii) they are duly authorized to execute and deliver this Agreement on behalf of that Party, (iii) by so executing this Agreement, such Party is formally bound to the provisions of this Agreement, and (iv) the entering into this Agreement does not violate any provision of any other Agreement to which that Party is bound. This Agreement shall be binding upon the heirs, executors, administrators, successors and assigns of the Parties.

8.14 Electronic Signatures.

Each Party may adopt as its signature an electronic identification consisting of a symbol or code that is affixed to or contained in each document transmitted by such Party ("electronic signature"). The Parties hereto herby agree that electronic signatures are acceptable, shall have the same force and effect under the law as original wet signatures, and shall be sufficient to verify that the Parties have executed this Agreement and such other documents transmitted by the Parties.

[SIGNATURES ON FOLLOWING PAGE]

IN WITNESS WHEREOF the Parties hereto have executed this Agreement the day and year first hereinabove written.

EXHIBIT "A"
SCOPE OF SERVICES

I. Consultant will perform the following Services in connection with providing Engineer Design Services prepared in connection therewith:

II. As part of the Services, Consultant will prepare and deliver the following tangible work products and services to City:

SCOPE OF WORK

Rick Engineering Company (RICK) will perform the following services in connection with providing the design of a new ductile iron pipe (size TBD by city) water main in Ramsey Street between Sunset Avenue and Highland Home Road based on the following scope of work.

Task 1. Project Management

1.1 Kick-off Meeting and Project Management

After execution of the contract, Rick Engineering Company (RICK) will schedule and attend a kick-off meeting with the City of Banning (City) to discuss the project scope, goals, preliminary findings and alignment selected by the City, finalize the project schedule, and identify available as-built plans and studies. RICK will prepare the meeting agenda and provide the team with meeting minutes following the meeting.

RICK will provide project management of the project that includes preparation and maintenance of a project specific Work Plan. The Work Plan will include details of methodology of design, sequence of tasks lists of deliverables, milestone submittal schedule, summary of organizational responsibilities, and a communication plan with contacts of all team members. Additionally, RICK will provide utility coordination with the utility providers that have utilities along the alignment, and perform quality assurance and quality control prior to each milestone submittal, and in conformance with federal, state, and city standards.

Deliverables – Meeting agenda and minutes, Work Plan

1.2 Progress Meetings

RICK will schedule monthly progress meetings with the City and project team, that will be face to face or virtual, and facilitate additional meetings with the City departments/stakeholders as needed for the project during the project duration. Scope assumes 8 monthly meetings, that includes milestone design review / comment resolution meetings and an additional 3 project meetings.
RICK will prepare agendas and minutes for the meetings, distribute the minutes, and will also provide a monthly progress report to be included with the monthly invoice.

Deliverables – Meeting agendas and minutes

1.3 Invoicing

RICK will develop and provide a monthly invoice to the City. The invoice will include RICK labor costs, subconsultant invoices and direct expenses. Direct expenses will be supported by a copy of the receipt if applicable. Invoices shall include details of billed and remaining budget for each task, and will include the monthly progress report of the tasks completed, identify any outstanding issues to be resolved, and upcoming work to be performed.

Deliverable – Monthly invoices and progress reports

Task 2. Project Development

2.1 Utility Research, Base Mapping, and Site Reconnaissance

RICK will conduct research with the City of Banning, County of Riverside, and other governing agencies and utility companies for existing plans and maps of the adjacent area to be used for the design of the project.

RICK will conduct a field visit to collect visible information of project site. Research will consist of the private water systems that will be reconnected to the new/proposed waterline in Ramsey Street and the affected private properties. RICK will verify existing site data in terms of surrounding street system, geometry, parking, signing and striping, and private improvements and private water system appurtenances on the properties.

RICK will prepare a CAD file based on the boundary survey described below showing the existing utilities discovered in the research.

Deliverables - Photo log for any photos taken, letters to utility companies, utility as-built maps, and an AutoCAD drawing of the existing utilities.

2.1.1 Property Research

RICK will research City of Banning and County of Riverside survey records and record mapping for property and right of way information. RICK will also conduct a field survey to establish street centerline and rights of way of Ramsey Street within the project limits (between Sunset Avenue and Highland Home Road), Omar Street (between Ramsey and W. Jacinto View Road), W. Jacinto View Road (between Omar Street and Winchester Drive), and the property lines of the adjacent private properties and private properties that are affected by the relocation of water services. Survey basis of bearings and coordinates will be California State Plane Coordinates. Survey data and records analysis will be prepared within a CAD file establishing project mapping for centerline and right of

way, including intersecting streets. Base mapping will include existing easements. Easements will be researched to identify their applicability/inapplicability with new waterline alignments.

Deliverables - Field Review notes, photo log for any photos taken, and an AutoCAD drawing of the rights of ways and centerline.

2.1.2 Site Topography and Surveying

RICK will provide a supplemental field topography along the existing water line points of connection and where needed and the effected private properties (where water systems will be reconnected in Ramsey Street). Consultant will locate and dip existing sewer and storm drain manholes. Topography will be vertically controlled by local published benchmarks.

Deliverables – Field Review notes, photo log for any photos taken, and CAD file with survey points.

2.1.3 Aerial Topography

RICK will provide an aerial topography of the project site consisting of surface utility appurtenances and improvements such as curb, edge of pavement, drainage inlets, valve cans, fences, driveways, mailboxes, utility vaults, power poles, signs, lights, traffic signals, sidewalks, pedestrian ramps, and notable grade features.

Deliverables – 40-scale at 1-foot contours

2.2 Potholing

RICK's subconsultant, C Below, will perform potholing for the project. C Below will perform forty (40) potholes as indicated in the RFP. A standard pothole is 12 in. x 12 in, performed to the top of pipe or encasement with sand backfill and a permanent surface patch. Potholes are assumed to be 5' in depth. Potholes include water line tie-in points and underground utility crossings. Potholes will also be used to locate the old Highway 99 concrete by setting alignment of potholes perpendicular to Ramsey Street, spaced 10' on center curb to curb. Alignments will be performed at mid-point of each project phase (3 alignments). C Below will provide a detailed potholing report at the conclusion of the investigation. Service includes Dig Alert Coordination and Delineation, Encroachment permit, vacuum excavation to top of utility, encasement, or stop depth, standard traffic control, 12-inches of hot patching (restored within 30-days of excavation activity), sand backfill, removal of debris, and pothole report. Services not included are slurry backfill, extensive traffic control, flagging for traffic control, sidewalk concrete

panel replacement, and removal of Dig Alert marks.

Standard traffic control includes one lane closure with minimal signage not spanning an intersection.

Prior to potholing, a potholing plan will be developed showing location of potholes for connection points, intermediate points, and location of other underground utilities.

Deliverables – Potholing plan and potholing report

2.3 Geotechnical Study

Geocon is proposing to drill six (6) geotechnical borings up to 15 feet in depth, along portions of the proposed water main alignment, where the subsurface explorations of our 2018 geotechnical investigation cannot supplement. The geotechnical borings will be performed to the observe subsurface soil conditions and collect samples for laboratory testing. We expect that traffic control signage/equipment will be sufficient and flag persons will not be required. Furthermore, we expect that the Banning encroachment permit will be a no fee permit for this project, and that patching of the borings with asphalt concrete cold-patch is acceptable.

RICK's subconsultant, Geocon West, Inc, will consist of:

- Mark the planned boring locations and notify Underground Surface Alert of Southern California to mark any subsurface utility locations near the exploration locations. Additionally, the client should provide plans depicting the locations of all utilities in the project area.
- Prepare no-fee encroachment permits with the City of Banning for our work. We have assumed a traffic control plan utilizing MUTCD or Watchbook details will be sufficient, and an engineered traffic control plan will not be required.
- Provide traffic control setup and breakdown at each boring location. We plan to source traffic control signage/equipment for our work and did not include flag persons in this budget.
- Drill six (6) geotechnical borings along the portion of the proposed water main alignment that our 2018 subsurface explorations cannot supplement. We will collect bulk and ring samples of the subgrade soil for laboratory testing. Borings will be backfilled with soil cuttings and clean sand, and capped with asphalt concrete cold-patch upon completion. We expect borings of up to 15 feet will be sufficient for design of the proposed water main. Borings will be located so that there is an approximate 500-foot interval maintained between the new borings and 2018 borings, along the proposed water main alignment, to ensure an appropriate standard of care. We have budgeted one day of drilling.
- Perform laboratory testing which is expected to include in-situ moisture content and dry density determinations, maximum dry density and optimum moisture

content, grain size analysis, corrosion screening, sand equivalent, and direct shear testing. The laboratory testing program will be based on the conditions encountered during the field investigation with respect to the proposed improvements. Our 2018 laboratory test results will be provided as supplemental information for the portion of the proposed water main alignment able to be covered by our 2018 geotechnical investigation.

- Prepare a geotechnical report presenting our findings in the field, boring logs, a map depicting the boring locations, a discussion of the geotechnical conditions at the site, and geotechnical parameters for storm drain design.

Assumptions:

- The borings can be safely performed in the vicinity of the proposed water main alignment, considering existing utilities are present and to facilitate traffic flow around our drilling operations. Where performing the borings poses a conflict with existing utilities, resulting in an unsafe working environment for property, personnel, and/or motorists/pedestrians, the planned borings will be relocated, as feasible.
- This proposal does not include any costs to re-grade, install hot-mix asphalt concrete patching, re-vegetate, landscape or otherwise repair disturbed areas.

Deliverables – Geotechnical report

Task 3. Preliminary Engineering Design

3.1 Preliminary Design Plans (30% design)

RICK will prepare waterline plans for approximately (7,200 LF) for a proposed Ductile Iron pipe in Ramsey Street between Sunset Avenue and Highland Home Road. Plans will be at 40-scale and include plan and profile. Plans will be setup for 3 construction phases:
Phase 1: The waterline between Sunset Avenue to near the property at 3929 W. Ramsey Street.
Phase 2: The continuation of Phase 1 to Omar Street, then continuing north on Omar to W. Jacinto View Road, and then east to the Winchester Drive intersection.
Phase 3: From Omar Street westerly on Ramsey Avenue to approximately Highland Home Road.

Additionally, RICK will:

a. Collect the data from the utility and property research from scope items above to use as part of the base file for the water plans. Existing utilities will be shown on the plans in locations verified by the potholing above and/or provided by the utility companies. As part of the plan preparation, RICK will contact affected

utility companies to obtain permits if needed (utility fees to be paid by the City of Banning).

b. RICK will arrange and participate in informal meetings as necessary with City staff to review the progress of the project and exchange ideas and information.
c. Meetings with the City of Banning will discuss the key design issues and develop general project criteria for construction, including schedule and possible ways of minimizing problems. RICK will prepare and submit meeting agendas prior to the meetings.
d. RICK will provide data received and assumptions utilized to the city for approval prior to integrating the data into the project's final design.
e. RICK will prepare preliminary water plans (30-percent design) using AutoCAD for approximately 7,200 LF of water line (8-inch to 14-inch) to establish an agreement with the City of Banning on project scope, alignment, easements, parameters, hydraulic requirements, maintenance concerns, constructability and construction phasing, traffic impacts, and general disruption to the area. The preliminary design is to be submitted to the City of Banning for review and approval. The preliminary design shall address the following:
    a. Pipeline alignment/facility locations
    b. Construction schedule and phasing recommendations
    c. Construction Cost Estimate of recommended improvements
    d. Conflicts with other utilities and adjacent facilities in the area
    e. Traffic and pedestrian control
    f. Erosion Control
    g. Preferred materials for construction
    h. Areas where construction work is limited or controlled.
    i. Impacts to City water system.
    j. Impacts to surrounding business and residential areas.
    k. Easements (existing and proposed)
    l. Corrosion protection (if necessary)
f. The preliminary design will be submitted in PDF format through the City's SmartGov platform for the City of Banning's review and concurrence. The design will be at a 30% level of effort. Changes in layout and location of facilities suggested by the city will be investigated. A final layout and location of facilities will then be established.
g. As part of the meetings with the city, discussions and submittals of material will be presented to the city through the preliminary design process to reduce comment time and effort by the city.

It is assumed that the City of Banning will provide the size of the proposed new waterline. A hydraulic analysis is not included with this scope. However, we have provided it as an additional/if needed service.

It is assumed that the majority of the existing waterline will be abandoned in place.

As part of the 30% design, RICK will prepare a traffic control conceptual staging plan for Phase 1 only identifying the assumed stages for each of the phases as noted in the Request for Proposal. The project Phase 1 proposes to construct approximately 2,600' of a water main along Ramsey Street from Sunset Avenue to 3929 W. Ramsey Street. It is anticipated that the traffic control conceptual staging plan will be prepared at 40 scale and will identify the proposed linear footage per stage and a description of the work that will be completed.

Deliverables – (all via the city's SmartGov platform): PDF of the preliminary design plans and the preliminary opinion of probable costs.

3.2 Preliminary Design Plans (60% design)

Rick will prepare plans based on the 30% design and subsequent review comments by the City. Plans include a one (1) cover sheet, two (2) detail sheet, ten (10) plan and profile sheets, two (2) connection detail sheets for private landowners, and one (1) valve shut down sheet if needed, and will show the existing water services and fire hydrants to the new waterline. Due to the existing waterline being at the back of the effected parcels, water meters, backflow devised and related system components shall be moved to front Ramsey off the new proposed waterline. Detail sheets will detail the on-site design connecting to the new line to provide a water system at minimum equal to the existing condition.

RICK's subconsultant, Dexter Wilson Engineering, will assist in preparation of technical specifications, pipeline material design, pipeline deflection calculations, design of thrust restraining systems, details for phased connections, details for connection to the existing pipeline, peer review of replacement plans, and other pipeline design aspects.

Consultant will incorporate any comments received from the City of Banning on the traffic control conceptual staging plan into the 60% design plans. Consultant will prepare 40-scale traffic control plans for the work associated with the Ramsey Street Water Main for Phase 1 only. The traffic control plans will provide work zones that are staged for construction of the water main, appurtenances, laterals, and any required detours. The one stage of traffic control is assumed as follows:

Phase 1: Sunset Avenue to 3929 W. Ramsey Street. There are assumed 5 stages of traffic control; Stage 1A is to 600' west of Sunset Avenue; Stages 1B, 1C, 1D, and 1E will be up to 500' along Ramsey to 3929 W. Ramsey Street.

The traffic control plans will be prepared following the requirements of the California Manual on Uniform Traffic Control Devices (MUTCD) and the City of Banning. Three (3) submittals are assumed – 60%, 90%, and final. Five (5) sheets

of traffic control plans are assumed for Phase 1.

A progress meeting will be coordinated with the City of Banning to discuss the 60% design plans. The meeting will discuss the comments and markups and establish a timeline for the project moving forward.

Deliverables - (all via the city's SmartGov platform): PDF of the preliminary design plans and the preliminary opinion of probable costs.

3.3 Detailed Design Plans (90% Design)

Rick will prepare the 90% detailed design waterline plans and traffic control plans based on the 60% review comments received from the City of Banning and other entities. Plans shall follow the City of Banning standards and policies.

RICK will prepare project specifications following the Standard Specifications for Public Works Construction, SSPWC, "Greenbook", latest edition.

RICK will prepare an opinion of probable cost and bid schedule that has construction items of work, unit of measurement, unit cost, and cost based on the detailed design waterline plans.

Deliverables - (all via the city's SmartGov platform): PDF of the preliminary design plans, the preliminary opinion of probable costs, and the Standards and Specifications

Task 4. Final Design Plans

4.1 Final Water Plans

Upon authorization from the City, RICK will finalize the waterline plans and traffic control plans based on the final comments from the City and other entities. Plans will follow the City of Banning standards and policies. Plans will be signed by a licensed Civil Engineer and provided to the City of Banning on Mylar.

RICK will provide the City of Banning a Final set of Project specifications based on final comments from the City of Banning following the SPPWC. RICK will also provide a final opinion of probable cost and bid schedule based on the signed waterline plans.

Deliverables - (all via the city's SmartGov platform): PDF of the preliminary design plans, the preliminary opinion of probable costs, and the Standards and Specifications

Task 5. Easement Documents

5.1 Easement Documents

RICK will prepare a legal description and plat for each easement for three (3) permanent easements to be granted to the City of Banning and ten (10) temporary construction easements that are required for reconnection of existing private water systems to the new water main. RICK will obtain and review title reports for the thirteen (13) affected properties.

RICK assumes three (3) permanent easements to be granted to the City of Banning and ten (10) Temporary Construction Easements for reconnection of existing private water systems to the new water main.

Assumptions:

- Assumes up to 13 tax parcels owned by 13 unique entities are impacted by temporary construction easements (TCE's) and/or permanent easements.
- Scope does not include any discussions with property owners.
- No appraisal work or negotiations included.
- Consultant is providing legal description and plat for the 13 easements only.

Deliverables - (all via the city's SmartGov platform): Easement documents (legal description and plat) and up to 13 preliminary title reports.

Task 6. Stormwater Pollution Prevention Plan

6.1 Stormwater Pollution Prevention Plan

The Risk Type 1 LUP SWPPP will be prepared in accordance with the requirements of the Appendix E of the National Pollutant Discharge Elimination System (NPDES) General Permit for Storm Water Discharges Associated with Construction and Land Disturbance Activities Order WQ 2022-0057-DWQ NPDES No. CAS000002 (adopted September 8, 2022, effective September 1, 2023).

RICK will prepare a Risk Type 1 LUP SWPPP based on the project's assumed Risk Type.

This task will also include the preparation of a Notice of Intent (NOI) on the Storm Water Multi Application Report Tracking System (SMARTS) database. The Discharger must designate RICK as a Data Entry Person to prepare the NOI. The Discharger/LRP must electronically certify and submit the NOI on SMARTS.

RICK will act as the initial Qualified SWPPP Developer (QSD) for the preparation of the SWPPP, however the Discharger must hire a QSD and a Qualified SWPPP Practitioner (QSP) for implementation of the SWPPP throughout the life of the project.

Based on the provided bid package this project is assumed to be a Risk Type 1 LUP based on the following assumptions:

1. More than 70% of the soil disturbance will occur on paved surfaces; and
2. Areas that are disturbed will be returned to pre-project conditions at the end of each day.

Deliverables - (all via the city's SmartGov platform): SWPPP (erosion control plan submitted via drawing submittals)

Task 7. Construction Surveying and Staking

7.1 Phase One Water Stakes

RICK will maintain horizontal and vertical control for the duration of the surveying work on this project. RICK will also provide required calculations to field crew for each survey request received.

RICK will provide one set of stakes at all primary points of control; beginning and ends of pipe and at not less than 50' on center along tangent sections and 25' on curves to facilitate the construction of approximately 2,600 LF of water mainline. RICK will also provide not more than two (2) stakes each; to facilitate the location of services, fire hydrants, and points of connection.

*Water stakes to be set in three (3) trips.

Deliverables – Construction Staking Cut Sheets

7.2 Phase Two Water Stakes

RICK will provide one set of stakes at all primary points of control; beginning and ends of pipe and at not less than 50' on center along tangent sections and 25' on curves to facilitate the construction of approximately 2,700 LF of water mainline. RICK will also provide not more than two (2) stakes each; to facilitate the location of services, fire hydrants, and points of connection.

*Water stakes to be set in three (3) trips.

Deliverables – Construction Staking Cut Sheets

7.3 Phase Three Water Stakes

RICK will provide one set of stakes at all primary points of control; beginning and ends of pipe and at not less than 50' on center along tangent sections and 25' on curves to facilitate the construction of approximately 1,900 LF of water mainline. RICK will also provide not more than two (2) stakes each; to facilitate the location of services, fire hydrants, and points of connection.

*Water stakes to be set in three (2) trips.

Deliverables – Construction Staking Cut Sheets

Task 8. Bidding/Construction Support – Phase 1 Only

8.1 Bidding

RICK will be available during the advertising and bidding of the project to assist the City of Banning in answering questions/RFI's and the preparation of plan addenda, if needed. RICK will attend one (1) pre-bid meeting for the bidding process.

Deliverables – Meeting attendance, responses to Bidder's RFI's

8.2 Construction Administration

RICK will be available during the construction of the project to answer RFI's and prepare plan addenda, if needed. RICK will attend one (1) pre-construction meeting and eight (8) site visits during construction of the project as requested by the city. RICK will review shop drawings and submittals from the contractor for conformance with the contract plans and specifications, and make recommendations for acceptance, denial or resubmittal.

Deliverables – Meeting attendance, response to Contractor's RFI's, design addenda, submittal reviews

8.3 As-Built Plans

RICK will prepare As-Built Plans and process with the City of Banning, as necessary. Scope assumes RICK will receive as-built letters from the contractors and the contractor's as-built plan markup's. Scope assumes no major changes have occurred and does not include any as-built survey time. As-built plans will be submitted to the City within one month of receiving as-built letters and markup's from the contractor.
Deliverables – As-built Plans

Additional Services (If Needed Services)

Corrosivity Assessment

Rick's subconsultant, RF Yeager will prepare a corrosivity assessment for the proposed waterline, that will include a field resistivity testing, a review of the Geotech/soil chemical analysis data, a review for the potential of stray current interference, and a Corrosivity Assessment Letter Report. This information will be used for the determination of the type of corrosion protection and if any cathodic protection for the pipeline would be required and the corrosion control approach that the City may want to implement.

Deliverable – Corrosivity Assessment Letter Report

Corrosion Control Design

As part of the 90% design plans, RICK's subconsultant, RF Yeager, will provide Corrosion Control Design as part of the plans if Client requires joint bonds, test stations, insulators, and other standard corrosion control facilities. It is recommended the Client to use joint bonds, test stations, and insulators (steel or DIP) such that the pipeline is made electrically continuous and test stations are installed at the side of the road. This allows for monitoring and for adding cathodic protection in the future (should soil conditions/pipeline environment change) and will be much less costly because the pipe is electrically continuous and test stations are already installed. Corrosion control detail sheets, specifications, and cost estimate is included.

Cathodic Protection Design Pipeline

If it is found that Cathodic Protection is required, RICK's subconsultant, RF Yeager, will review the waterline plans, provide comments, and corrosion control design analysis/calculations. Details and specifications will be included. A cathodic protection system cost estimate will be included. RF Yeager will then address the 90% plan comments and provide final 100% design documents. Once approved for final signature, RF Yeager will sign and stamp the final drawings. Cathodic protection detail sheets, specifications, and cost estimates are included.
Deliverables – Corrosion control design analysis/calculations, specifications, and cost estimate.

Hydraulic Analysis

RICK's subconsultant, Dexter Wilson Engineering, will perform hydraulic modeling for the waterline sizing for the project site, if City does not provide the waterline

sizing. It is assumed City will provide the necessary information to run the modeling.

Caltrans Encroachment Permit

RICK will prepare one (1) Caltrans encroachment permit application for the traffic control devices (i.e. advance signage) that are within the Caltrans right-of-way (ROW) along Sunset Avenue in the vicinity of I-10. For the Caltrans encroachment permit application, the traffic control plans are assumed to be submitted to Caltrans in City of Banning format and will include a Caltrans signature block on the plans.

Plan Processing and Coordination (Caltrans)

RICK will submit and process the traffic control plans with Caltrans District 8. It is assumed that up to two (2) sets of plan check review comments will be received, coordinated, and addressed.

Monument Preservation

Pursuant to Section 8771 of the Business and Professions Code, preconstruction corner records will be prepared and filed identifying recovered survey monuments within the proposed construction limits. Post construction corner records will also be filed reflecting replacement monuments.

Deliverables – Pre and Post construction corner records

Monument Replacement

RICK will replace destroyed survey monuments at the completion of the construction with the project limits.

Record of Survey

Pursuant to 8762 of the Business and Professions Code the filing of a Record of Survey shall be filed if the survey discloses "the establishment of one or more points or lines not shown on any subdivision map, official map, or record of survey, the positions of which are not ascertainable from the inspection of the subdivision map official map or record of survey.

III. In addition to the requirements of Parts I and II of this Scope of Services, during the performance of the Services, Consultant will keep City appraised through periodic status reports regarding the performance of the Services under this Agreement as set forth below and in Section 5.2, by the following means:

a. In-person meetings and/or teleconferences.

b. Email updates/questions to applicant team and City while reviews are underway.

c. Conference calls.

IV. All work product is subject to review and acceptance by City, and must be revised by Consultant without additional charge to City until found satisfactory and accepted by City.

EXHIBIT "B"
SPECIAL REQUIREMENTS

TERMS FOR COMPLIANCE WITH CALIFORNIA LABOR LAW REQUIREMENTS

1. This Agreement calls for services that, in whole or in part, constitute "public works" as defined in Division 2, Part 7, Chapter 1 (commencing with Section 1720) of the California Labor Code ("Chapter 1"). Further, Consultant acknowledges that this Agreement is subject to (a) Chapter 1 and (b) the rules and regulations established by the Department of Industrial Relations ("DIR") implementing such statutes. Therefore, as to those Services that are "public works," Consultant shall comply with and be bound by all the terms, rules and regulations described in 1(a) and 1(b) as though set forth in full herein.

2. California law requires the inclusion of specific Labor Code provisions in certain contracts. The inclusion of such specific provisions below, whether or not required by California law, does not alter the meaning or scope of Section 1 above.

3. Consultant shall be registered with the Department of Industrial Relations in accordance with California Labor Code Section 1725.5, and has provided proof of registration to City prior to the Effective Date of this Agreement. Consultant shall not perform work with any subcontractor that is not registered with DIR pursuant to Section 1725.5. Consultant and subcontractors shall maintain their registration with the DIR in effect throughout the duration of this Agreement. If the Consultant or any subcontractor ceases to be registered with DIR at any time during the duration of the project, Consultant shall immediately notify City.

4. Pursuant to Labor Code Section 1771.4, Consultant's Services are subject to compliance monitoring and enforcement by DIR. Consultant shall post job site notices, as prescribed by DIR regulations.

5. Pursuant to Labor Code Section 1773.2, copies of the prevailing rate of per diem wages for each craft, classification, or type of worker needed to perform the Agreement are on file at City Hall and will be made available to any interested party on request. Consultant acknowledges receipt of a copy of the DIR determination of such prevailing rate of per diem wages, and Consultant shall post such rates at each job site covered by this Agreement.

6. Consultant shall comply with and be bound by the provisions of Labor Code Sections 1774 and 1775 concerning the payment of prevailing rates of wages to workers and the penalties for failure to pay prevailing wages. The Consultant shall, as a penalty to City, forfeit $200.00 for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the DIR for the work or craft in which the worker is employed for any public work done pursuant to this Agreement by Consultant or by any subcontractor.

7. Consultant shall comply with and be bound by the provisions of Labor Code Section 1776, which requires Consultant and each subcontractor to: keep accurate payroll records and verify such records in writing under penalty of perjury, as specified in Section 1776; certify and make such payroll records available for inspection as provided by Section 1776; and inform City of the location of the records.

8. Consultant shall comply with and be bound by the provisions of Labor Code Sections 1777.5, 1777.6 and 1777.7 and California Administrative Code Title 8, Section 200 et seq. concerning the employment of apprentices on public works projects. Consultant shall be responsible for compliance with these aforementioned Sections for all apprenticeable occupations. Prior to commencing work under this Agreement, Consultant shall provide City with a copy of the information submitted to any applicable apprenticeship program. Within 60 days after concluding work pursuant to this Agreement, Consultant and each of its subcontractors shall submit to City a verified statement of the journeyman and apprentice hours performed under this Agreement.

9. The Consultant shall not perform Work with any Subcontractor that has been debarred or suspended pursuant to California Labor Code Section 1777.1 or any other federal or state law providing for the debarment of contractors from public works. The Consultant and Subcontractors shall not be debarred or suspended throughout the duration of this Agreement pursuant to Labor Code Section 1777.1 or any other federal or state law providing for the debarment of contractors from public works. If the Consultant or any subcontractor becomes debarred or suspended during the duration of the project, the Consultant shall immediately notify City.

10. Consultant acknowledges that eight hours labor constitutes a legal day's work. Consultant shall comply with and be bound by Labor Code Section 1810. Consultant shall comply with and be bound by the provisions of Labor Code Section 1813 concerning penalties for workers who work excess hours. The Consultant shall, as a penalty to City, forfeit $25.00 for each worker employed in the performance of this Agreement by the Consultant or by any subcontractor for each calendar day during which such worker is required or permitted to work more than eight hours in any one calendar day and 40 hours in any one calendar week in violation of the provisions of Division 2, Part 7, Chapter 1, Article 3 of the Labor Code. Pursuant to Labor Code section 1815, work performed by employees of Consultant in excess of eight hours per day, and 40 hours during any one week shall be permitted upon public work upon compensation for all hours worked in excess of eight hours per day at not less than one and one-half times the basic rate of pay.

11. California Labor Code Sections 1860 and 3700 provide that every employer will be required to secure the payment of compensation to its employees. In accordance with the provisions of California Labor Code Section 1861, Consultant hereby certifies as follows:

> "I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this contract."

Date_____ **Signature**_____

12. For every subcontractor who will perform work on the project, Consultant shall be responsible for such subcontractor's compliance with Chapter 1 and Labor Code Sections 1860 and 3700, and Consultant shall include in the written contract between it and each subcontractor a copy of those statutory provisions and a requirement that each subcontractor shall comply with those statutory provisions. Consultant shall be required to take all actions necessary to enforce such contractual provisions and ensure subcontractor's compliance, including, without limitation, conducting a periodic review of the certified payroll records of the subcontractor and upon becoming aware of the failure of the subcontractor to pay his or her workers the specified prevailing rate of wages. Consultant shall diligently take corrective action to halt or rectify any failure.

EXHIBIT "C"
SCHEDULE OF COMPENSATION

I. Consultant shall perform the following Scope of Services at the rates stated in Exhibit C-1.

II. Within the budgeted amounts for each Task, and with the approval of the Contract Officer, funds may be shifted from one Task sub-budget to another so long as the Contract Sum is not exceeded per Section 2.1, unless Additional Services are approved per Section 1.8.

III. City will compensate Consultant for the Services performed upon submission of a valid invoice. Each invoice is to include:

A. Line items for all personnel describing the Services performed, the number of hours worked, and the hourly rate.

B. Line items for all materials and equipment properly charged to the Services.

C. Line items for all other approved reimbursable expenses claimed, with supporting documentation.

D. Line items for all approved sub-contractor labor, supplies, equipment, materials, and travel properly charged to the Services.

IV. Consultant's billing rates for all personnel are attached as Exhibit C-1.

SOLE SOURCE/EMERGENCY PURCHASE JUSTIFICATION

Date: 2/13/25 Dept./Div.: PW Phone: 951-922-3168

Contact: Patrick Safari

Vendor: Rick Engineering, Inc.

Address: 1770 Iowa Ave Ste 100 Riverside, CA 92507 Phone: 951-782-0707

Check reason for sole source/emergency purchase request:

[X] **Sole Source:** ~~No other items are known to exist which~~ perform the same function. Previously bid out under RFP 23-036, reapproving original contract that was expired.

[ ] **Standardization:** The City requires the item(s) to standardize parts, design, quality, etc. (explain in more detail below)

[ ] **Scarce Commodity:** To procure a commodity that is in critical short supply, such as fuel, potable water, MRE's porta-potties, etc. and the vendor will be out of inventory if the bid process is followed. (This option is not permitted once inventories begin to normalize.

[ ] **Emergency Protective Measures:** This classification is for extraordinary measures that may be needed when life, public health or improved property are in imminent danger. For instance, during the winter season, the purchase of sand and sand bags would not constitute an extraordinary measure. Purchases of sand and sandbags should be a normal purchase and anticipated before the winter season arrives. An extraordinary protective measure could be the rental of temporary fencing to cordon off structures in imminent danger of collapse.

[ ] **Emergency Consulting Services:** The procurement is for a technical consulting service of an immediate nature, such as inspection of a heavily damaged structure to determine if a collapse is imminent or inspection of a slope to determine the nature and extent of landslide potential.

[ ] **Emergency Road Clearance:** Services needed to clear roads to provide access for emergency service vehicles. This is not used for general debris removal.

[ ] **Other Emergency Requirement:** Purchase necessary for the preservation of life, public health or improved property due to imminent danger. Provide a brief explanation of the immediate problem and include the potential consequences if left unaddressed

[ ] **Non-Responsive Bids:** Bids were solicited, but no responsive bid has been received from requested bidders. A copy of all bids and a list of other solicited vendors must be attached.

[✓] **Pre-Existing Contract:** The purchase was made under terms of a pre-existing competitively bid ~~disaster services, materials, or supplies~~ contract. RFP 23-036-Bid #

[ ] **Patent or Copyright:** The item is patented or copyrighted and vendor has exclusive sales rights.

[ ] **Legal Monopoly:** The item or product or service of a legal monopoly.

[ ] **Captive Replacement Part:** The item is a captive replacement part. Use of a generic part will void a warranty, or use of a generic part will require extensive modifications to existing equipment which would be cost prohibitive.

[ ] **Sole Distributor:** The vendor is the only authorized distributor of this item.

Narrative Justification – Explain the following. Be very precise when filling in this section.

- Describe what is being purchased or rented.
- Describe where the equipment, material or services will be used.

- Specify the immediate hazard or threat that poses imminent danger. (The phase "earthquake damage" is insufficient. Provide detail: "A three story unreinforced masonry building is severely damaged and appears to be in imminent danger of collapse onto the public right of way."
- Describe the minimum acceptable actions that can be taken to reduce or eliminate the hazard i.e., "Install temporary chain link fencing around the structure at a distance of 20 feet from the building."
- Describe consequences if left unaddressed. "The building may collapse injuring bystanders."

Product or service to be purchased or rented:

Professional Design Services

Location of product or service use:

Ramsey Street

Specific Hazard or Threat (complete for emergency justification):

N/A

Minimum action to reduce threat (complete for emergency justification):

N/A

Consequences if unaddressed (complete for emergency justification):

N/A

Cost Rationality – The cost of the equipment, supplies or services procured are deemed to be rational by virtue of the following circumstances. Check the appropriate box(es) below. Attach any documentation to support you rational.

- [X] The prices charged are comparable with the prices paid for similar goods or services within the last 12 months.
- [ ] Using readily available catalogs or price lists, and/or internet sources, it's determined that the cost are reasonable within the circumstances at hand. (Attach copies)
- [ ] The prices paid for the goods or services exceed normative pricing, but the circumstances required their purchase, and only enough of the goods or services were purchased to deal with the specific emergency at hand. All additional purchases of the same goods or services will be made through normal procedures.
- [ ] There are no available sources for market cost rationale due to the above mentioned sole source, non-responsive bids, patent or copyright, legal monopoly and sole distributor classification.

Authorizations:

Dept. Head's Signature: Nathan C Smith Date: 02/14/25

Purchasing Officer's Signature: Date: 2/14/25

City Manager's Signature: Robert Fisher Robert Fisher (Feb 19, 2025 13:53 PST) Date: 19/02/2025

ATTACH TO THE SOLE SOURCE FORM
DETAILED JUSTIFICATION FOR SOLE SOURCE:
(widen text boxes as necessary)

The requestor shall clearly provide:

a. A detailed description of the type of contract to be established;

Purchase Order for the continuation of design services previously contracted with Rick Engineering under C00931 .

b. A detailed description of services and/or commodities to be provided by the vendor;

Professional Design Services for the Design of Ramsey St Water Main.

c. An explanation of why the recommended vendor is the only one capable of providing the required services and/or commodities and include back-up information to support the justification;

Rick Engineering as an engineer of record has prepared the plans for this project from the beginning of this project. Since the original contract has expired and the tasks in the original contract have not been completed, it is necessary to rehire Rick to finish the contract tasks due to familiarity with the complexities of the project

d. The identity of other sources that have been contacted and explain in detail why they cannot fulfill the City's requirements;

N/A ~~An~~. RFP was conducted 9/5/23. Due to COB was not lead agency, the County Flood agency was the lead agency and COB must comply with their timelines and therefore extension was necessary.

e. An explanation of how the recommended vendor's prices or fees compare to the general market and attach quotes for comparable services and supplies, if available (limited competition);

The price is what is expected for the remaining task as original proposed by Rick. No change will be made to the original contract price of scope of work.

f. An explanation of how the City would accomplish this particular task if the recommended vendor could not provide the product or service.

The City would have to solicit new proposals to finish the work that Rick started. It is expected that the new proposals would cost more since the new consultant would have to review the previous work done by Rick Engineering. The new consultant would have to take responsibility and liability for work done by Rick Engineering.

AGREEMENT FOR PROFESSIONAL SERVICES (C00931) FOR DESIGN OF RAMSEY STREET WATER MAIN BY AND BETWEEN CITY OF BANNING AND GLENN A. RICK ENGINEERING & DEVELOPMENT CO. DBA RICK ENGINEERING COMPANY

THIS AGREEMENT FOR PROFESSIONAL SERVICES (herein "Agreement") is made and entered into this day: November 14, 2023, ("Effective Date") by and between the **CITY OF BANNING,** a California municipal corporation ("City") and Glenn A. Rick Engineering & Development Co., a California Corporation, dba Rick Engineering Company. ("Consultant"). City and Consultant are sometimes hereinafter individually referred to as "Party" and hereinafter collectively referred to as the "Parties."

RECITALS

A. City has sought by issuance of a Request for Proposals (RFP No. 23-036) from the bench of prequalified Engineers (RFQ-22-007), the performance of the services for the Design of Ramsey Street Water Main and as further defined and described particularly in Article 1 of this Agreement.

B. Consultant, following submission of a proposal for the performance of the services defined and described particularly in Article 1 of this Agreement, was selected by City to perform those services.

C. The Parties desire to formalize the selection of Consultant for performance of those services defined and described particularly in Article 1 of this Agreement and desire that the terms of that performance be as particularly defined and described herein.

D. Pursuant to the City of Banning's Municipal Code, City has authority to enter into this Agreement.

NOW, THEREFORE, in consideration of the mutual promises and covenants made by the Parties and contained herein and other consideration, the value and adequacy of which are hereby acknowledged, the Parties agree as follows:

ARTICLE 1. SERVICES OF CONSULTANT

1.1 Scope of Services.

In compliance with all terms and conditions of this Agreement, Consultant shall provide those services specified in the "Scope of Services" attached hereto as **Exhibit A** and incorporated herein by this reference, which services may be referred to herein as the "Services" hereunder. As a material inducement to City entering into this Agreement, Consultant represents and warrants that it has the qualifications, experience, and facilities necessary to properly perform the Services required under this Agreement in a thorough, competent, and professional manner, and is experienced in performing the Services contemplated herein. Consultant shall at all times faithfully, competently and to the best of its ability, experience and talent, perform all Services described herein. Consultant covenants that it shall follow the highest professional standards in

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

performing the Services required hereunder and that all materials will be of good quality, and fit for the purpose intended. For purposes of this Agreement, the phrase "highest professional standards" shall mean those standards of practice recognized by one or more first-class firms performing similar work under similar circumstances. This Agreement calls for services that, in whole or in part, constitute "public works" as defined in the California Labor Code. Therefore, as to those services that are "public works," Consultant shall comply in all respects with all applicable provisions of the California Labor Code, including those set forth in Exhibit B hereto.

1.2 Contract Documents and Exhibits.

This Agreement includes the Request for Proposal and Consultant's accepted proposal ("Contract Documents"), both of which are on file with the City and incorporated herein by this general reference as though fully set forth herein. **Exhibit A** (Scope of Services), **Exhibit B** (Special Requirements), **Exhibit C** (Schedule of Compensation), and **Exhibit D** (Schedule of Performance) also constitute a part of this Agreement and are incorporated into this Agreement by this reference. Except as set forth in Section 1.10 regarding **Exhibit B**, this Agreement controls over the Contract Documents and the provisions in **Exhibits A, B** and **C**.

1.3 Compliance with Law.

Consultant shall keep itself informed concerning all ordinances, resolutions, statutes, rules, and regulations of City and any Federal, State or local governmental entity having jurisdiction in effect at the time service is rendered, and shall render all Services hereunder in accordance therewith.

1.4 Licenses, Permits, Fees and Assessments.

Consultant shall obtain and maintain during the term of this Agreement, at its sole cost and expense, all necessary licenses, permits, certificates and approvals required by law for the performance of Services under this Agreement, including a City business license. Consultant shall have the sole obligation to pay for all fees, assessments and taxes, plus applicable penalties and interest, which may be imposed by law and which arise from or are necessary for Consultant's performance of the Services required by this Agreement. Consultant shall indemnify, defend and hold harmless City, its officers, employees or agents, against all such fees, assessments, taxes, penalties or interest levied, assessed or imposed against City hereunder.

1.5 Familiarity with Services.

By executing this Agreement, Consultant warrants that Consultant: (i) has thoroughly investigated and considered the Scope of Services to be performed, (ii) has carefully considered how the Services should be performed, and (iii) fully understands the facilities and any difficulties and restrictions attending performance of the Services under this Agreement. If the Services involve work upon any site, Consultant warrants that Consultant has or will investigate the site and is or will be fully acquainted with the conditions existing therein, prior to commencement of Services hereunder. Should Consultant discover any latent or unknown conditions, which will materially affect the performance of the Services hereunder, Consultant shall immediately inform City of such fact and shall not proceed except at Consultant's risk until written instructions are received from the Contract Officer (defined in Section 1.12. A).

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

1.6 Prevention of Loss and Damages.

Consultant shall adopt reasonable methods during the Term (defined in Section 3.4) to furnish continuous protection to the work product, and the equipment, materials, papers, documents, plans, studies and/or other components thereof to prevent losses or damages, and shall be responsible for all such damages, to persons or property, until acceptance of the Services by City, except such losses or damages as may be caused by City's own negligence.

1.7 Further Responsibilities of Parties.

Both Parties agree to use reasonable care and diligence to perform their respective obligations under this Agreement. Both Parties agree to act in good faith to execute all instruments, prepare all documents and take all actions as may be reasonable necessary to carry out the purposes of this Agreement. Unless hereafter specified, neither Party shall be responsible to perform the Services of the other.

1.8 Additional Services.

City shall have the right at any time during the performance of the Services, without invalidating this Agreement, to order extra services beyond that specified in the Scope of Services or to make changes by altering, adding to or deducting from the Services. No such extra services may be undertaken unless a written order is first given by the Contract Officer to Consultant, which written order incorporates therein an adjustment in (i) the Contract Sum (as defined in Section 2.1), and/or (ii) the Schedule of Performance, (as defined in Section 3.2), and which written order is approved in writing by Consultant. Any increase in compensation of up to ten percent (10%) of the Contract Sum, or $25,000, whichever is less; or in the Schedule of Performance of up to one hundred eighty (180) days may be approved by the Contract Officer. Any greater increases, taken either separately or cumulatively, must be approved by City Council. It is expressly understood by Consultant that the provisions of this Section shall not apply to Services which are specifically set forth in the Scope of Services or which are reasonably contemplated therein. Consultant hereby acknowledges that it accepts the risk that the Services to be provided pursuant to the Scope of Services may be more costly or time consuming than Consultant anticipates and that Consultant shall not be entitled to additional compensation therefor.

1.9 Facilities and Equipment.

Except as otherwise provided, Consultant shall, at its own cost and expense, provide all facilities and equipment necessary to perform the Services required by this Agreement. City shall make available to Consultant only physical facilities such as desks, filing cabinets, and conference space ("City Facilities"), as City deems, in its sole discretion, to be reasonably necessary for Consultant's use while consulting with City employees and reviewing records and the information in possession of City. The location, quality, and time of furnishing City Facilities shall be in the sole discretion of City. In no event shall City be required to furnish any facilities that may involve incurring any direct expense, including but not limited to a computer, long distance telephone, network data, internet or other communication charges, vehicles and reproduction facilities.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

1.10 Special Requirements.

Additional terms and conditions of this Agreement, if any, which are made a part hereof are set forth in the "Special Requirements" attached hereto as **Exhibit B** and incorporated herein by this reference. In the event of a conflict between the provisions of **Exhibit B** and any other provisions of this Agreement, the provisions of **Exhibit B** shall govern.

1.11 Corrections.

In addition to the indemnification obligations set forth in Article 4, and Sections 1.4, 1.13, 5.3, 5.4, and 6.3, Consultant shall correct, at its expense, all errors in the Services which may be disclosed during City's review of Consultant's report or plans. Should Consultant fail to make such correction(s) in a reasonably timely manner, such correction(s) may be made by City, and the cost thereof shall be charged to Consultant. In addition to all other available remedies, City may deduct the cost of such correction(s) from any retention amount held by City, or may withhold payment otherwise owed Consultant under this Agreement up to the amount of the cost of correction(s), as provided in Section 6.3.

1.12 Party Representatives.

A. Contract Officer: For the purposes of this Agreement, the Contract Officer shall be the City Manager, or such other person designated in writing by the City Manager ("Contract Officer"). Unless otherwise specified herein, any approval of City required hereunder shall mean the approval of the Contract Officer. The Contract Officer shall have authority, if specified in writing by the City Manager, to sign all documents on behalf of City required hereunder to carry out the terms of this Agreement.

B. Principals and Personnel of Consultant.

1) Consultant Representative: The following principal of Consultant is hereby designated as being the Consultant Representative authorized to act on Consultant's behalf regarding the Services specified herein and make all decisions in connection therewith:

Name	Title
Richard O'Neill	Associate Principal

It is expressly understood that the experience, knowledge, capability and reputation of the foregoing Consultant Representative were a substantial inducement for City to enter into this Agreement. Therefore, the foregoing Consultant Representative shall be responsible during the term of this Agreement for directing all activities of Consultant and devoting sufficient time to personally supervise the Services hereunder. All personnel of Consultant, and any authorized agents, shall at all times be under the exclusive direction and control of the Consultant Representative. For purposes of this Agreement, the foregoing Consultant Representative may not be replaced nor may their responsibilities be substantially reduced or reassigned by Consultant without the express written approval of City. It shall be Consultant's responsibility to assure that the Contract Officer is kept informed of the progress of the performance of the Services, and Consultant shall refer any decisions which must be made by City to the Contract Officer.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

2) Consultant's Personnel: Consultant has, or will secure at its own expense, all personnel required to perform the Services required under this Agreement. All of the Services required under this Agreement shall be performed by Consultant or under its supervision, and all personnel engaged in the Services shall be qualified to perform such Services. Consultant shall make every reasonable effort to maintain the stability and continuity of Consultant's staff and sub-contractors, if any, assigned to perform the Services required under this Agreement. Consultant shall notify City of all changes in Consultant's staff and sub-contractors, if any, assigned to perform the Services required under this Agreement, prior to and during any such performance. In the event that City, in its sole discretion, at any time during the term of this Agreement, desires to reassign any staff or sub-contractor of Consultant, City shall give notice as set forth in Section 8.1. Consultant shall, immediately upon the receipt of the notice to re-assign staff from City, reassign such person or persons.

1.13 Independent Contractor.

A. Consultant is an independent contractor and not an employee of City. Consultant shall have no power to incur any debt, obligation, or liability on behalf of City. All Services provided pursuant to this Agreement shall be performed by Consultant or under its supervision. Consultant will determine the means, methods, and details of performing the Services. Any additional personnel performing Services under this Agreement on behalf of Consultant shall also not be employees of City and shall at all times be under Consultant's exclusive direction and control. Consultant shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Consultant shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

B. Consultant shall indemnify and hold harmless City and its elected officials, officers, employees, servants, designated volunteers, and agents serving as independent contractors in the role of City officials, from any and all liability, damages, claims, costs and expenses of any nature to the extent arising from Consultant's personnel practices. City shall have the right to offset against the amount of any fees due to Consultant under this Agreement any amount due to City from Consultant as a result of Consultant's failure to promptly pay to City any reimbursement or indemnification arising under this Section.

1.14 Prohibition Against Subcontracting or Assignment.

The experience, knowledge, capability and reputation of Consultant, the Consultant Representative and employees were a substantial inducement for City to enter into this Agreement. Therefore, Consultant shall not contract with any other entity to perform in whole or in part the Services required hereunder without the express written approval of City. In addition, neither this Agreement nor any interest herein may be transferred, assigned, conveyed, hypothecated or encumbered voluntarily or by operation of law, whether for the benefit of creditors or otherwise, without the prior written approval of City. Transfers restricted hereunder shall include the transfer to any person or group of persons acting in concert of more than twenty-five percent (25%) of the present ownership and/or control of Consultant, taking all transfers into account on a cumulative basis. In the event of any such unapproved transfer, including any bankruptcy proceeding, this

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

Agreement shall be void. No approved transfer shall release Consultant or any surety of Consultant of any liability hereunder without the express consent of City.

ARTICLE 2. COMPENSATION AND METHOD OF PAYMENT.

2.1 Contract Sum.

Subject to any limitations set forth in this Agreement, as full compensation for Services satisfactorily rendered, City shall pay Consultant at the hourly rates set forth in **Exhibit C-1** and the not-to-exceed sub-budget rates set forth in the "Schedule of Compensation" attached hereto as **Exhibit C** and incorporated herein by this reference. In no event shall Consultant be paid more than Three Hundred Eighty-Six Thousand Eight Hundred Ninety-Five ($386,895.00) (the "Contract Sum"). The Contract Sum shall include the attendance of Consultant at all project meetings reasonably deemed necessary by City. Coordination of the performance of the Services with City is a critical component of the Services. If Consultant is required to attend additional meetings to facilitate such coordination, Consultant shall not be entitled to any additional compensation for attending those meetings.

2.2 Method of Compensation.

The method of compensation may include: (i) a lump sum payment upon completion of the Services, (ii) payment in accordance with specified tasks or the percentage of completion of the Services, (iii) payment for time and materials based upon Consultant's rates as specified in the Schedule of Compensation, provided that time estimates are provided for the performance of sub tasks, but not exceeding the Contract Sum or (iv) such other methods as may be specified in the Schedule of Compensation.

2.3 Reimbursable Expenses.

City shall only reimburse Consultant for those actual and necessary expenses expressly set forth in **Exhibit C**. Reimbursable expenses may include reimbursement for actual and necessary expenditures for reproduction costs, telephone expenses, and travel expenses approved by the Contract Officer in advance, or actual sub-contractor expenses of an approved sub-contractor pursuant to Section 1.14, and only if specified in the Schedule of Compensation.

2.4 Unauthorized Services and Expenses.

City will not pay for any Services or reimburse for any expenses incurred which are not specified in the Scope of Services, unless authorized in writing as set forth in Section 1.8 of this Agreement. City shall make payment for such authorized additional Services and expenses in accordance with Article 2 of this Agreement.

2.5 Invoices.

Each month Consultant shall furnish to City an original invoice for all Services performed and expenses incurred during the preceding month. Each such invoice shall contain all of the information set forth in Section III of **Exhibit C** to this Agreement. By submitting an invoice for payment under this Agreement, Consultant is certifying compliance with all provisions of the

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

Agreement. Consultant shall not invoice City for any duplicate Services performed by more than one person.

City shall independently review each invoice submitted by Consultant to determine whether the Services performed and expenses incurred are in compliance with the provisions of this Agreement. City will use its best efforts to cause Consultant to be paid within thirty (30) days of receipt of Consultant's correct and undisputed invoice, except as to any charges for Services performed or expenses incurred by Consultant which are disputed by City, or as provided in Section 6.3. In the event any charges or expenses are disputed by City, the original invoice shall be returned by City to Consultant for correction and resubmission. Review and payment by City of any invoice provided by Consultant shall not constitute waiver of any rights or remedies provided herein or any applicable law.

2.6 Waiver.

Payment to Consultant for Services performed pursuant to this Agreement shall not be deemed to waive any defects in Services performed by Consultant.

ARTICLE 3. PERFORMANCE SCHEDULE

3.1 Time of Essence.

Time is of the essence in the performance of this Agreement; provided, however, that the foregoing shall not be construed to limit or deprive a Party of the benefits of any grace or use period allowed in this Agreement.

3.2 Schedule of Performance.

Consultant shall commence the Services pursuant to this Agreement upon receipt of a written notice to proceed and shall perform all Services within the time period(s) established in the "Schedule of Performance" attached hereto as **Exhibit D** and incorporated herein by this reference.

3.3 Force Majeure.

The time period(s) specified in the Schedule of Performance for performance of the Services rendered pursuant to this Agreement may be extended because of any delays due to unforeseeable causes beyond the control and without the fault or negligence of Consultant. Such unforeseeable consequences include, but are not restricted to, acts of God or public enemy, unusually severe weather, fires, earthquakes, floods, epidemics, quarantine restrictions, riots, strikes, freight embargoes, wars, litigation, and/or acts of any governmental agency, including City, if Consultant shall within ten (10) days of the commencement of such delay notify the Contract Officer in writing of the causes of the delay. The Contract Officer shall ascertain the facts and the extent of delay, and extend the time for performing the Services for the period of the enforced delay when and if in the judgment of the Contract Officer such delay is justified, subject to the provisions of Section 1.8. The Contract Officer's determination (or the City Council's determination, in the event the period of enforced delay exceeds the period specified in Section 1.8) shall be final and conclusive upon the Parties to this Agreement. In no event shall Consultant

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

be entitled to recover damages against City for any delay in the performance of this Agreement, however caused; Consultant's sole remedy shall be the extension of the Agreement pursuant to this Section.

3.4 Term.

The Term of this Agreement shall be from the Effective Date through June 30, 2024, unless sooner terminated as provided in Article 6 of this Agreement or extended as provided in Sections 1.8 and 3.3 of this Agreement. Maximum term and any subsequent amendment or modification shall not exceed five (5) years.

ARTICLE 4. INSURANCE AND INDEMNIFICATION

4.1 Minimum Scope and Limits of Insurance.

Consultant shall procure and at all times during the term of this Agreement carry, maintain, and keep in full force and effect, insurance as follows:

A. Commercial General Liability Insurance with a minimum limit of $1,000,000.00 per occurrence for bodily injury, personal injury and property damage and a general aggregate limit of $2,000,000.00 per project or location. If Consultant is a limited liability company, the commercial general liability coverage shall be amended so that Consultant and its managers, members, affiliates, employees, agents and other persons necessary or incidental to its operation are insureds.

B. Automobile Liability Insurance for any owned, non-owned or hired vehicle used in connection with the performance of this Agreement with a combined single limit of $1,000,000.00 per accident for bodily injury and property damage. If Consultant does not use any owned, non-owned or hired vehicles in the performance of Services under this Agreement, Consultant shall obtain a non-owned auto endorsement to the Commercial General Liability policy.

C. Workers' Compensation Insurance as required by the State of California and Employer's Liability Insurance with a minimum limit of $1,000,000.00 per accident for bodily injury or disease. If Consultant has no employees while performing Services under this Agreement, workers' compensation policy is not required; however, Consultant shall execute a declaration that it has no employees.

D. Professional Liability/Errors and Omissions Insurance with minimum limits of $1,000,000.00 per claim and in the aggregate.

4.2 Acceptability of Insurers.

The insurance policies required under this Article shall be issued by an insurer admitted to write insurance in the State of California with a rating of A:VII or better in the latest

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

edition of the A.M. Best Insurance Rating Guide. Self-insurance shall not be considered to comply with the insurance requirements under this Article.

4.3 Additional Insured.

The commercial general and automobile liability policies shall contain an endorsement naming City, its officers, employees, agents and volunteers as additional insureds.

4.4 Primary and Non-Contributing.

The insurance policies required under this Article shall apply on a primary non-contributing basis in relation to any other insurance or self-insurance available to City. Any insurance or self-insurance maintained by City, its officers, employees, agents or volunteers, shall be in excess of Consultant's insurance and shall not contribute with it.

4.5 Consultant's Waiver of Subrogation.

The insurance policies required under this Article shall not prohibit Consultant and Consultant's employees, agents or sub-contractors from waiving the right of subrogation prior to a loss. Consultant hereby waives all rights of subrogation against City.

4.6 Deductibles and Self-Insured Retentions.

Any deductibles or self-insured retentions must be declared to and approved by City. At City's option, Consultant shall either reduce or eliminate the deductibles or self-insured retentions with respect to City; or Consultant shall procure a bond guaranteeing payment of losses and expenses.

4.7 Cancellations or Modifications to Coverage.

Consultant shall not cancel, reduce or otherwise modify the insurance policies required by this Article during the term of this Agreement. The commercial general and automobile liability policies required under this Agreement shall be endorsed to state that should the issuing insurer cancel the policy before the expiration date, the issuing insurer will endeavor to mail 30 days' prior written notice to City. If any insurance policy required under this Article is canceled or reduced in coverage or limits, Consultant shall, within two (2) Business Days (as defined in Section 8.12) of notice from the insurer, phone, fax or notify City via certified mail, return receipt requested, of the cancellation of or changes to the policy.

4.8 City Remedy for Noncompliance.

If Consultant does not maintain the policies of insurance required under this Article in full force and effect during the term of this Agreement, or in the event any of Consultant's policies do not comply with the requirements under this Article, City may either immediately terminate this Agreement or, if insurance is available at a reasonable cost, City may, but has no duty to, take out the necessary insurance and pay, at Consultant's expense, the premium thereon. Consultant shall promptly reimburse City for any premium paid by City, or City may withhold amounts sufficient to pay the premiums from payments due to Consultant.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

4.9 Evidence of Insurance.

Prior to the performance of Services under this Agreement, Consultant shall furnish the City Clerk with a certificate or certificates of insurance and all original endorsements evidencing and effecting the coverages required under this Article. The endorsements are subject to City's approval. Consultant may provide complete, certified copies of all required insurance policies to City. Consultant shall maintain current endorsements on file with the City Clerk. Consultant shall provide proof to the City Clerk that insurance policies expiring during the term of this Agreement have been renewed or replaced with other policies providing at least the same coverage. Consultant shall furnish such proof at least two (2) weeks prior to the expiration of the coverages.

4.10 Indemnity Requirements not Limiting.

Procurement of insurance by Consultant shall not be construed as a limitation of Consultant's liability or as full performance of Consultant's duty to indemnify City under this Agreement.

4.11 Sub-contractor Insurance Requirements.

Consultant shall require each of its sub-contractors that perform Services under this Agreement to maintain insurance coverage that meets all of the requirements of this Article.

4.12 Indemnification, Hold Harmless, and Duty to Defend.

A. Indemnification of City.

1) Indemnity for Design Professional Services. To the fullest extent permitted by law, Consultant shall, at its sole cost and expense, protect, indemnify, and hold harmless City and its elected officials, officers, attorneys, agents, employees, designated volunteers, successors, assigns and those City agents serving as independent contractors in the role of City officials (collectively "Indemnitees"), from and against any and all damages, costs, expenses, liabilities, claims, demands, causes of action, proceedings, judgments, penalties, liens, and losses of any nature whatsoever, including fees of accountants, attorneys, or other professionals and all costs associated therewith, and reimbursement of attorney's fees and costs of defense (collectively "Liabilities"), whether actual, alleged or threatened, which arise out of, are claimed to arise out of, pertain to, or relate to, in whole or in part, the negligence, recklessness or willful misconduct of Consultant, its officers, agents, servants, employees, subcontractors, material men, contractors or their officers, agents, servants or employees (or any entity or individual that Consultant shall bear the legal liability thereof) in the performance of design professional services under this Agreement by a "design professional," as the term is defined under California Civil Code Section 2782.8(c).

2) Other Indemnities. Other than in the performance of design professional services, and to the fullest extent permitted by law, Consultant shall, at its sole cost and expense, defend, hold harmless and indemnify Indemnitees from and against any and all damages, costs, expenses, liabilities, claims, demands, causes of action, proceedings, expenses, judgments, penalties, liens, and losses of any nature whatsoever, including fees of accountants, attorneys, or other professionals and all costs associated therewith and the payment of all consequential

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

damages (collectively "Claims"), at law or in equity, whether actual, alleged or threatened, which arise out of, are claimed to arise out of, pertain to, or relate to the acts or omissions of Consultant, its officers, agents, servants, employees, sub-contractors, materialmen, consultants or their officers, agents, servants or employees (or any entity or individual that Consultant shall bear the legal liability thereof) in the performance of this Agreement, including the Indemnitees' active or passive negligence, except for Claims arising from the sole negligence or willful misconduct of the Indemnitees as determined by court decision or by the agreement of the Parties. Consultant shall defend the Indemnitees in any action or actions filed in connection with any Claims with counsel of the Indemnitees' choice, and shall pay all costs and expenses, including all attorneys' fees and experts' costs actually incurred in connection with such defense. Consultant shall reimburse the Indemnitees for any and all legal expenses and costs incurred by Indemnitees in connection therewith.

3) Consultant shall pay all required taxes on amounts paid to Consultant under this Agreement, and indemnify and hold City harmless from any and all taxes, assessments, penalties, and interest asserted against City by reason of the independent contractor relationship created by this Agreement. Consultant shall fully comply with the workers' compensation law regarding Consultant and Consultant's employees. Consultant shall indemnify and hold City harmless from any failure of Consultant to comply with applicable workers' compensation laws. City may offset against the amount of any fees due to Consultant under this Agreement any amount due to City from Consultant as a result of Consultant's failure to promptly pay to City any reimbursement or indemnification arising under this subparagraph A.3.

4) Consultant shall obtain executed indemnity agreements with provisions identical to those in this Article from each and every sub-contractor or any other person or entity involved by, for, with or on behalf of Consultant in the performance of this Agreement. If Consultant fails to obtain such indemnities, Consultant shall be fully responsible and indemnify, hold harmless and defend the Indemnitees from and against any and all Liabilities and Claims, in law or in equity, whether actual, alleged or threatened, which arise out of, are claimed to arise out of, pertain to, or relate to the acts or omissions of Consultant's sub-contractor, its officers, agents, servants, employees, sub-contractors, materialmen, contractors or their officers, agents, servants or employees (or any entity or individual that Consultant's sub-contractor shall bear the legal liability thereof) in the performance of this Agreement, including the Indemnitees' active or passive negligence, except for Liabilities and Claims arising from the sole negligence or willful misconduct of the Indemnitees, as determined by court decision or by the agreement of the Parties.

B. Workers' Compensation Acts not Limiting. Consultant's indemnifications and obligations under this Article, or any other provision of this Agreement, shall not be limited by the provisions of any workers' compensation act or similar act. Consultant expressly waives its statutory immunity under such statutes or laws as to City, its officers, agents, employees and volunteers.

C. Insurance Requirements not Limiting. City does not, and shall not, waive any rights that it may possess against Consultant because of the acceptance by City, or the deposit with City, of any insurance policy or certificate required pursuant to this Agreement. The indemnities in this Article shall apply regardless of whether or not any insurance policies are determined to be applicable to the Liabilities, tax, assessment, penalty or interest asserted against City.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

D. Survival of Terms. Consultant's indemnifications and obligations under this Article shall survive the expiration or termination of this Agreement.

ARTICLE 5. RECORDS, REPORTS, AND RELEASE OF INFORMATION

5.1 Service Records.

Consultant shall keep, and require sub-contractors to keep, such ledgers, books of accounts, invoices, vouchers, canceled checks, reports, studies or other documents relating to the disbursements charged to City and Services performed hereunder (the "Service Records"), as shall be necessary to perform the Services required by this Agreement and enable the Contract Officer to evaluate the performance of such Services. Any and all such Service Records shall be maintained in accordance with generally accepted accounting principles and shall be complete and detailed. The Contract Officer shall have full and free access to such Service Records at all times during normal business hours of City, including the right to inspect, copy, audit and make copies and transcripts from such Service Records. Such Service Records shall be maintained for a period of three (3) years following completion of the Services hereunder, and City shall have access to such Service Records in the event any audit is required. In the event of dissolution of Consultant's business, custody of the Service Records may be given to City, and access shall be provided by Consultant's successor in interest ("Consultant's Successor"). If custody of the Service Records is given to Consultant's Successor, Consultant shall give written notice to City of the transfer of the Service Records to Consultant's Successor. The notice shall include contact information (address and telephone number) for Consultant's Successor, and access shall be provided to City by Consultant's Successor.

5.2 Reports.

Consultant shall periodically prepare and submit to the Contract Officer such reports concerning the performance of the Services required by this Agreement as the Contract Officer shall require. Consultant hereby acknowledges that City is greatly concerned about the cost of Services to be performed pursuant to this Agreement. For this reason, Consultant agrees that if Consultant becomes aware of any facts, circumstances, techniques, or events that may or will materially increase or decrease the cost of the Services contemplated herein, Consultant shall promptly notify the Contract Officer of that fact, circumstance, technique or event and the estimated increased or decreased cost related thereto.

5.3 Ownership of Documents.

All drawings, specifications, maps, designs, photographs, studies, surveys, data, notes, computer files, reports, records, documents and other materials (the "Consultant Documents") prepared by Consultant, its employees, sub-contractors and agents in the performance of this Agreement shall be the property of City and shall be delivered to City upon request of the Contract Officer or upon the termination of this Agreement. Consultant shall have no claim for further employment or additional compensation as a result of the exercise by City of its full rights of ownership use, reuse, or assignment of the Consultant Documents hereunder. Any use, reuse or assignment of such completed Consultant Documents for other projects and/or use of uncompleted Consultant Documents without specific written authorization by Consultant will be at City's sole

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

risk and without liability to Consultant, and Consultant's guarantee and warranties shall not extend to such use or assignment. Consultant may retain copies of such Consultant Documents for its own use. Consultant shall have an unrestricted right to use the concepts embodied therein. All sub-contractors shall provide for assignment to City of all Consultant Documents prepared by them; and in the event Consultant fails to secure such assignment, Consultant shall indemnify City for all damages resulting therefrom.

5.4 Confidentiality and Release of Information.

A. All information gained or work product produced by Consultant in performance of this Agreement shall be considered confidential, unless such information is in the public domain or already known to Consultant. Consultant shall not release or disclose any such information or work product to persons or entities other than City without prior written authorization from the Contract Officer.

B. Consultant, its officers, employees, agents or sub-contractors, shall not, without prior written authorization from the Contract Officer or unless requested by the City Attorney, voluntarily provide documents, declarations, letters of support, testimony at depositions, response to interrogatories or other information concerning the Services performed under this Agreement. Response to a subpoena or court order shall not be considered "voluntary" provided Consultant gives City notice of such court order or subpoena.

C. If Consultant, or any officer, employee, agent or sub-contractor of Consultant, provides any information or work product in violation of this Agreement, then City shall have the right to reimbursement and indemnity from Consultant for any damages, costs and fees, including attorneys' fees, caused by or incurred as a result of Consultant's conduct.

D. Consultant shall promptly notify City should Consultant, its officers, employees, agents or sub-contractors be served with any summons, complaint, subpoena, notice of deposition, request for documents, interrogatories, request for admissions or other discovery request, court order or subpoena from any Party regarding this Agreement and the Services performed thereunder. City retains the right, but has no obligation, to represent Consultant or be present at any deposition, hearing or similar proceeding. Consultant agrees to cooperate fully with City and to provide City with the opportunity to review any response to discovery requests provided by Consultant. However, this right to review any such response does not imply or mean the right by City to control, direct, or rewrite the response.

ARTICLE 6. ENFORCEMENT OF AGREEMENT AND TERMINATION

6.1 California Law.

This Agreement, and any dispute arising from the relationship between the Parties to this Agreement, shall be interpreted, construed and governed both as to validity and to performance of the Parties in accordance with the laws of the State of California. Legal actions concerning any dispute, claim or matter arising out of or in relation to this Agreement shall be instituted in the Superior Court of the County of Riverside, State of California, or any other appropriate court in such county, and Consultant covenants and agrees to submit to the personal jurisdiction of such

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

court in the event of such action. In the event of litigation in a U.S. District Court, venue shall lie exclusively in the Central District of California, in Riverside.

6.2 Disputes; Default.

A. In the event that City determines Consultant is in default under the terms of this Agreement, City shall have no obligation or duty to continue compensating Consultant for any Services performed after the date of default. In addition to the provisions of Section 4.8, and the right to terminate pursuant to Section 6.7, if the City Manager determines that Consultant is in default in the performance of any of the terms or conditions of this Agreement, City may serve Consultant with written notice of the default. Consultant shall have ten (10) calendar days after service upon it of the notice in which to cure the default by rendering a satisfactory performance. In the event that Consultant fails to cure its default within such period of time, City may, notwithstanding any other provision of this Agreement, terminate this Agreement without further notice and without prejudice to any other remedy to which it may be entitled at law, in equity or under this Agreement.

B. In the event of termination pursuant to this Section, City may take over the Services and prosecute the same to completion by contract or otherwise, and Consultant shall be liable to the extent that the total cost for completion of the Services required hereunder exceeds the compensation herein stipulated (provided that City shall use reasonable efforts to mitigate such damages), and City may withhold any payments to Consultant for the purpose of set-off or partial payment of the amounts owed City as provided in Section 6.3.

6.3 Retention of Funds.

Consultant hereby authorizes City to deduct from any amount payable to Consultant (whether or not arising out of this Agreement): (i) any payment amount of which may be in dispute hereunder or which is necessary to compensate City for any losses, costs, liabilities, or damages suffered by City, (ii) all amounts retained pursuant to the provisions of Section 4.8, (iii) all amounts for which City may be liable to third parties, by reason of Consultant's acts or omissions in performing or failing to perform Consultant's obligation under this Agreement, and (iv) all payments due or that become due to Consultant during the period that Consultant or any of its sub-contractors fail to maintain any required insurance in full force and effect, until notice is received by City that the required insurance has been restored to full force and effect and that the premiums therefore have been paid for a period satisfactory to City, as provided in Section 4.9, above. In the event that any claim is made by a third party, the amount or validity of which is disputed by Consultant, or any indebtedness shall exist which shall appear to be the basis for a claim of lien, City may withhold from any payment due, without liability for interest because of such withholding, an amount sufficient to cover such claim. The failure of City to exercise such right to deduct or to withhold shall not, however, affect the obligations of Consultant to insure, indemnify, and protect City as elsewhere provided herein.

6.4 Waiver.

Waiver by any Party to this Agreement of any term, condition, or covenant of this Agreement shall not constitute a waiver of any other term, condition, or covenant. Waiver by any

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

Party of any breach of the provisions of this Agreement shall not constitute a waiver of any other provision or a waiver of any subsequent breach or violation of any provision of this Agreement. Acceptance by City of any Services by Consultant shall not constitute a waiver of any of the provisions of this Agreement. No delay or omission in the exercise of any right or remedy by a non-defaulting Party on any default shall impair such right or remedy or be construed as a waiver. Any waiver by either Party of any default must be in writing, and shall not be a waiver of any other default concerning the same or any other provision of this Agreement.

6.5 Rights and Remedies are Cumulative.

Except with respect to rights and remedies expressly declared to be exclusive in this Agreement, the rights and remedies of the Parties are cumulative and the exercise by either Party of one or more of such rights or remedies shall not preclude the exercise by it, at the same or different times, of any other rights or remedies for the same default or any other default by the other Party.

6.6 Legal Action.

In addition to any other rights or remedies, either Party may take legal action, in law or in equity, to cure, correct or remedy any default, to recover damages for any default, to compel specific performance of this Agreement, to obtain declaratory or injunctive relief, or to obtain any other remedy consistent with the purposes of this Agreement. Notwithstanding any contrary provision herein, Consultant must file a statutory claim pursuant to Government Code Sections 905 et seq. and 910 et seq., in order to pursue a legal action against City under this Agreement.

6.7 Termination Prior to Expiration of Term.

This Article 6 shall govern any termination of this Agreement except as specifically provided in Section 6.2 for termination for default of Consultant. City reserves the right to terminate this Agreement at any time, with or without cause, upon thirty (30) days' written notice to Consultant, except that where termination is due to the fault of Consultant, the period of notice may be a shorter time as may be determined by the Contract Officer. In addition, Consultant reserves the right to terminate this Agreement at any time, with or without cause, upon sixty (60) days' written notice to City, except that where termination is due to the fault of City, the period of notice may be a shorter time as Consultant may determine. Upon receipt of any notice of termination, Consultant shall immediately cease all Services hereunder except such as may be specifically approved by the Contract Officer. Except where Consultant has initiated termination, Consultant shall be entitled to compensation for all Services rendered prior to the effective date of the notice of termination and for any Services authorized by the Contract Officer thereafter in accordance with the Schedule of Compensation or such as may be approved by the Contract Officer, except as provided in Section 6.3. In the event Consultant has initiated termination, Consultant shall be entitled to compensation only for the reasonable value of the work product actually produced hereunder. In the event of termination without cause pursuant to this Section, the terminating Party need not provide the non-terminating Party with the opportunity to cure pursuant to Section 6.2.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

6.8 Attorneys' Fees.

In any litigation or other proceeding by which a Party seeks to enforce its rights under this Agreement (whether in contract, tort or both) or seeks a declaration of any rights or obligations under this Agreement, the prevailing Party in such action or proceeding, in addition to any other relief which may be granted, whether legal or equitable, shall be entitled to reasonable attorneys' fees. Attorneys' fees shall include attorney's fees on any appeal, and in addition the Party entitled to attorneys' fees shall be entitled to all other reasonable costs for investigating such action, taking depositions and discovery and all other necessary costs the court allows which are incurred in such litigation. All such fees shall be deemed to have accrued on commencement of such action and shall be enforceable whether or not such action is prosecuted to judgment.

ARTICLE 7. CITY OFFICERS AND EMPLOYEES: NON-DISCRIMINATION

7.1 Non-liability of City Officers and Employees.

No officer or employee of City shall be personally liable to Consultant, or Consultant's Successor, in the event of any default or breach by City or for any amount which may become due to Consultant or Consultant's Successor, or for breach of any obligation of the terms of this Agreement.

7.2 Conflict of Interest.

Consultant covenants that neither it, nor any officer or principal of its firm, has or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of City or which would in any way hinder Consultant's performance of Services under this Agreement. Consultant further covenants that in the performance of this Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or sub-contractor without the express written consent of the Contract Officer. Consultant agrees to at all times avoid conflicts of interest or the appearance of any conflicts of interest with the interests of City in the performance of this Agreement.

No officer or employee of City shall have any direct or indirect financial interest in this Agreement within the scope of Government Code section 1090, nor shall any such officer or employee make, participate in making, or use his or her official position to influence, any City decision relating to the Agreement which has a material financial effect on his or her financial interests or the financial interests of any corporation, partnership or association in which he or she is, directly or indirectly, interested, in violation of any State statute or regulation. Consultant warrants that it has not paid or given, and will not pay or give any third party any money or other consideration for obtaining this Agreement.

Consultant and its officers, employees, associates and sub-contractors, if any, shall comply with all conflict of interest statutes of the State of California applicable to Consultant's Services under this Agreement, including the Political Reform Act (Gov. Code § 81000, et seq.) and Government Code Section 1090. During the term of this Agreement, Consultant may perform similar services for other clients; but Consultant and its officers, employees, associates and sub-contractors shall not, without the Contract Officer's prior written approval, perform services for another person or entity for whom Consultant is not currently performing services that would

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

require Consultant or one of its officers, employees, associates or sub-contractors to abstain from a decision under this Agreement pursuant to a conflict of interest statute. Consultant shall incorporate a clause substantially similar to this Section into any subcontract that Consultant executes in connection with the performance of this Agreement.

7.3 Covenant Against Discrimination.

Consultant covenants that, by and for itself, its heirs, executors, assigns, and all persons claiming under or through them, that there shall be no discrimination against or segregation of, any person or group of persons on account of race, color, creed, religion, sex, gender, sexual orientation, marital status, national origin, or ancestry in the performance of this Agreement. Consultant shall take affirmative action to insure that applicants are employed, and that employees are treated during employment, without regard to their race, color, creed, religion, sex, marital status, national origin, or ancestry, or other protected class.

7.4 Unauthorized Aliens.

Consultant hereby promises and agrees to comply with all of the provisions of the Federal Immigration and Nationality Act, 8 U.S.C.A. §§ 1101, et seq., as amended, and in connection therewith, shall not employ unauthorized aliens as defined therein. Should Consultant so employ such unauthorized aliens for the performance of Services covered by this Agreement, and should the any liability or sanctions be imposed against City for such use of unauthorized aliens, Consultant hereby agrees to and shall reimburse City for the cost of all such liabilities or sanctions imposed, together with any and all costs, including attorneys' fees, incurred by City.

ARTICLE 8. MISCELLANEOUS PROVISIONS

8.1 Notices.

Any notice, demand, request, document, consent, approval, bill, invoice, report or other communication required or permitted under this Agreement shall be in writing and conclusively deemed effective: (a) on confirmed delivery by courier service or overnight delivery service during Consultant's and City's regular business hours; or (b) three (3) Business Days after deposit in the United States mail, by certified or registered mail, and addressed to the Party to be notified as set forth below:

8.2 Interpretation.

The terms of this Agreement shall be construed in accordance with the meaning of the language used and shall not be construed for or against either Party by reason of the authorship of this Agreement or any other rule of construction which might otherwise apply.

8.3 Counterparts.

This Agreement may be executed in counterparts, each of which shall be deemed to be an original, and such counterparts shall constitute one and the same instrument.

8.4 Integration; Amendment.

This Agreement, and all exhibits referred to in this Agreement, constitute the final, complete and exclusive statement of the terms of the agreement between the Parties pertaining to the subject matter of this Agreement and supersede all other and cancels any and all previous negotiations, arrangements, agreements and understandings, if any, between the Parties, and none shall be used to interpret this Agreement. No Party has been induced to enter into this Agreement by, nor is any Party relying on, any representation or warranty except those expressly set forth in this Agreement. No amendment to or modification of this Agreement, nor any provision or breach hereof waived, shall be valid unless made in writing and approved by Consultant and by City Council. The Parties agree that this requirement for written modifications cannot be waived and that any attempted waiver shall be void.

8.5 Severability.

In the event that any one or more of the phrases, sentences, clauses, paragraphs, or sections contained in this Agreement shall be declared invalid or unenforceable by a valid judgment or decree of a court of competent jurisdiction, such invalidity or unenforceability shall not affect any of the remaining phrases, sentences, clauses, paragraphs, or sections of this Agreement which are hereby declared as severable and shall be interpreted to carry out the intent of the Parties hereunder unless the invalid provision is so material that its invalidity deprives either Party of the basic benefit of their bargain or renders this Agreement meaningless.

8.6 Mutual Cooperation.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

A. City's Cooperation. City shall provide Consultant with all pertinent data, documents and other requested information as is reasonably available for Consultant's proper performance of the Services required under this Agreement.

B. Consultant's Cooperation. In the event any claim or action is brought against City relating to Consultant's performance of Services rendered under this Agreement, Consultant shall render any reasonable assistance that City requires.

8.7 No Third Party Beneficiaries Intended.

This Agreement is made solely for the benefit of the Parties to this Agreement and their respective successors and assigns, and no other person or entity may have or acquire a right by virtue of this Agreement.

8.8 Final Payment Acceptance Constitutes Release.

The acceptance by Consultant of the final payment made under this Agreement shall operate as and be a release of City from all claims and liabilities for compensation to Consultant for anything done, furnished or relating to Consultant's Services. Acceptance of payment shall be any negotiation of City's check or the failure to make a written extra compensation claim within ten (10) calendar days of the receipt of that check. However, approval or payment by City shall not constitute, nor be deemed, a release of the responsibility and liability of Consultant, its employees, sub-contractors and agents for the accuracy and competency of the information provided and/or Services performed; nor shall such approval or payment be deemed to be an assumption of such responsibility or liability by City for any defect or error in the Services prepared by Consultant, its employees, sub-contractors and agents.

8.9 Non-Appropriation of Funds.

Payments to be made to Consultant by City for Services performed within the current fiscal year which are within the current fiscal budget and within an available, unexhausted fund. In the event that City does not appropriate sufficient funds for payment of Consultant's Services beyond the current fiscal year, this Agreement shall cover payment for Consultant's Services only to the conclusion of the last fiscal year in which City appropriates sufficient funds and shall automatically terminate at the conclusion of such fiscal year.

8.10 Headings.

The headings in this Agreement are included solely for convenience of reference and shall not affect the interpretation of any provision of this Agreement or any of the rights or obligations of the Parties to this Agreement.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

8.11 Word Usage.

Unless the context clearly requires otherwise, (a) the words "shall," "will" and "agrees" are mandatory and "may" is permissive; (b) "or" is not exclusive; and (c) "includes" or "including" are not limiting.

8.12 Business Days.

"Business Days" refers to days that the Banning City Hall is open for business.

8.13 Corporate Authority.

The persons executing this Agreement on behalf of the Parties hereto warrant that (i): such Party is duly organized and existing, (ii) they are duly authorized to execute and deliver this Agreement on behalf of that Party, (iii) by so executing this Agreement, such Party is formally bound to the provisions of this Agreement, and (iv) the entering into this Agreement does not violate any provision of any other Agreement to which that Party is bound. This Agreement shall be binding upon the heirs, executors, administrators, successors and assigns of the Parties.

8.14 Electronic Signatures.

Each Party may adopt as its signature an electronic identification consisting of a symbol or code that is affixed to or contained in each document transmitted by such Party ("electronic signature"). The Parties hereto herby agree that electronic signatures are acceptable, shall have the same force and effect under the law as original wet signatures, and shall be sufficient to verify that the Parties have executed this Agreement and such other documents transmitted by the Parties.

EXHIBIT "A"
SCOPE OF SERVICES

I. Consultant will perform the following Services in connection with providing Engineer Design Services prepared in connection therewith:

II. As part of the Services, Consultant will prepare and deliver the following tangible work products and services to City:

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

SCOPE OF WORK

Rick Engineering Company (RICK) will perform the following services in connection with providing the design of a new ductile iron pipe (size TBD by city) water main in Ramsey Street between Sunset Avenue and Highland Home Road based on the following scope of work.

Task 1. Project Management

1.1 Kick-off Meeting and Project Management

After execution of the contract, Rick Engineering Company (RICK) will schedule and attend a kick-off meeting with the City of Banning (City) to discuss the project scope, goals, preliminary findings and alignment selected by the City, finalize the project schedule, and identify available as-built plans and studies. RICK will prepare the meeting agenda and provide the team with meeting minutes following the meeting.

RICK will provide project management of the project that includes preparation and maintenance of a project specific Work Plan. The Work Plan will include details of methodology of design, sequence of tasks lists of deliverables, milestone submittal schedule, summary of organizational responsibilities, and a communication plan with contacts of all team members. Additionally, RICK will provide utility coordination with the utility providers that have utilities along the alignment, and perform quality assurance and quality control prior to each milestone submittal, and in conformance with federal, state, and city standards.

Deliverables – Meeting agenda and minutes, Work Plan

1.2 Progress Meetings

RICK will schedule monthly progress meetings with the City and project team, that will be face to face or virtual, and facilitate additional meetings with the City departments/stakeholders as needed for the project during the project duration. Scope assumes 8 monthly meetings, that includes milestone design review / comment resolution meetings and an additional 3 project meetings.
RICK will prepare agendas and minutes for the meetings, distribute the minutes, and will also provide a monthly progress report to be included with the monthly invoice.

Deliverables – Meeting agendas and minutes

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

1.3 Invoicing

RICK will develop and provide a monthly invoice to the City. The invoice will include RICK labor costs, subconsultant invoices and direct expenses. Direct expenses will be supported by a copy of the receipt if applicable. Invoices shall include details of billed and remaining budget for each task, and will include the monthly progress report of the tasks completed, identify any outstanding issues to be resolved, and upcoming work to be performed.

Deliverable – Monthly invoices and progress reports

Task 2. Project Development

2.1 Utility Research, Base Mapping, and Site Reconnaissance

RICK will conduct research with the City of Banning, County of Riverside, and other governing agencies and utility companies for existing plans and maps of the adjacent area to be used for the design of the project.

RICK will conduct a field visit to collect visible information of project site. Research will consist of the private water systems that will be reconnected to the new/proposed waterline in Ramsey Street and the affected private properties. RICK will verify existing site data in terms of surrounding street system, geometry, parking, signing and striping, and private improvements and private water system appurtenances on the properties.

RICK will prepare a CAD file based on the boundary survey described below showing the existing utilities discovered in the research.

Deliverables - Photo log for any photos taken, letters to utility companies, utility as-built maps, and an AutoCAD drawing of the existing utilities.

2.1.1 Property Research

RICK will research City of Banning and County of Riverside survey records and record mapping for property and right of way information. RICK will also conduct a field survey to establish street centerline and rights of way of Ramsey Street within the project limits (between Sunset Avenue and Highland Home Road), Omar Street (between Ramsey and W. Jacinto View Road), W. Jacinto View Road (between Omar Street and Winchester Drive), and the property lines of the adjacent private properties and private properties that are affected by the relocation of water services. Survey basis of bearings and coordinates will be California State Plane Coordinates. Survey data and records analysis will be prepared within a CAD file establishing project mapping for centerline and right of

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

way, including intersecting streets. Base mapping will include existing easements. Easements will be researched to identify their applicability/inapplicability with new waterline alignments.

Deliverables - Field Review notes, photo log for any photos taken, and an AutoCAD drawing of the rights of ways and centerline.

2.1.2 Site Topography and Surveying

RICK will provide a supplemental field topography along the existing water line points of connection and where needed and the effected private properties (where water systems will be reconnected in Ramsey Street). Consultant will locate and dip existing sewer and storm drain manholes. Topography will be vertically controlled by local published benchmarks.

Deliverables – Field Review notes, photo log for any photos taken, and CAD file with survey points.

2.1.3 Aerial Topography

RICK will provide an aerial topography of the project site consisting of surface utility appurtenances and improvements such as curb, edge of pavement, drainage inlets, valve cans, fences, driveways, mailboxes, utility vaults, power poles, signs, lights, traffic signals, sidewalks, pedestrian ramps, and notable grade features.

Deliverables – 40-scale at 1-foot contours

2.2 Potholing

RICK's subconsultant, C Below, will perform potholing for the project. C Below will perform forty (40) potholes as indicated in the RFP. A standard pothole is 12 in. x 12 in, performed to the top of pipe or encasement with sand backfill and a permanent surface patch. Potholes are assumed to be 5' in depth. Potholes include water line tie-in points and underground utility crossings. Potholes will also be used to locate the old Highway 99 concrete by setting alignment of potholes perpendicular to Ramsey Street, spaced 10' on center curb to curb. Alignments will be performed at mid-point of each project phase (3 alignments). C Below will provide a detailed potholing report at the conclusion of the investigation. Service includes Dig Alert Coordination and Delineation, Encroachment permit, vacuum excavation to top of utility, encasement, or stop depth, standard traffic control, 12-inches of hot patching (restored within 30-days of excavation activity), sand backfill, removal of debris, and pothole report. Services not included are slurry backfill, extensive traffic control, flagging for traffic control, sidewalk concrete

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

panel replacement, and removal of Dig Alert marks.

Standard traffic control includes one lane closure with minimal signage not spanning an intersection.

Prior to potholing, a potholing plan will be developed showing location of potholes for connection points, intermediate points, and location of other underground utilities.

Deliverables – Potholing plan and potholing report

2.3 Geotechnical Study

Geocon is proposing to drill six (6) geotechnical borings up to 15 feet in depth, along portions of the proposed water main alignment, where the subsurface explorations of our 2018 geotechnical investigation cannot supplement. The geotechnical borings will be performed to the observe subsurface soil conditions and collect samples for laboratory testing. We expect that traffic control signage/equipment will be sufficient and flag persons will not be required. Furthermore, we expect that the Banning encroachment permit will be a no fee permit for this project, and that patching of the borings with asphalt concrete cold-patch is acceptable.

RICK's subconsultant, Geocon West, Inc, will consist of:

- Mark the planned boring locations and notify Underground Surface Alert of Southern California to mark any subsurface utility locations near the exploration locations. Additionally, the client should provide plans depicting the locations of all utilities in the project area.
- Prepare no-fee encroachment permits with the City of Banning for our work. We have assumed a traffic control plan utilizing MUTCD or Watchbook details will be sufficient, and an engineered traffic control plan will not be required.
- Provide traffic control setup and breakdown at each boring location. We plan to source traffic control signage/equipment for our work and did not include flag persons in this budget.
- Drill six (6) geotechnical borings along the portion of the proposed water main alignment that our 2018 subsurface explorations cannot supplement. We will collect bulk and ring samples of the subgrade soil for laboratory testing. Borings will be backfilled with soil cuttings and clean sand, and capped with asphalt concrete cold-patch upon completion. We expect borings of up to 15 feet will be sufficient for design of the proposed water main. Borings will be located so that there is an approximate 500-foot interval maintained between the new borings and 2018 borings, along the proposed water main alignment, to ensure an appropriate standard of care. We have budgeted one day of drilling.
- Perform laboratory testing which is expected to include in-situ moisture content and dry density determinations, maximum dry density and optimum moisture

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

content, grain size analysis, corrosion screening, sand equivalent, and direct shear testing. The laboratory testing program will be based on the conditions encountered during the field investigation with respect to the proposed improvements. Our 2018 laboratory test results will be provided as supplemental information for the portion of the proposed water main alignment able to be covered by our 2018 geotechnical investigation.

- Prepare a geotechnical report presenting our findings in the field, boring logs, a map depicting the boring locations, a discussion of the geotechnical conditions at the site, and geotechnical parameters for storm drain design.

Assumptions:

- The borings can be safely performed in the vicinity of the proposed water main alignment, considering existing utilities are present and to facilitate traffic flow around our drilling operations. Where performing the borings poses a conflict with existing utilities, resulting in an unsafe working environment for property, personnel, and/or motorists/pedestrians, the planned borings will be relocated, as feasible.
- This proposal does not include any costs to re-grade, install hot-mix asphalt concrete patching, re-vegetate, landscape or otherwise repair disturbed areas.

Deliverables – Geotechnical report

Task 3. Preliminary Engineering Design

3.1 Preliminary Design Plans (30% design)

RICK will prepare waterline plans for approximately (7,200 LF) for a proposed Ductile Iron pipe in Ramsey Street between Sunset Avenue and Highland Home Road. Plans will be at 40-scale and include plan and profile. Plans will be setup for 3 construction phases:
Phase 1: The waterline between Sunset Avenue to near the property at 3929 W. Ramsey Street.
Phase 2: The continuation of Phase 1 to Omar Street, then continuing north on Omar to W. Jacinto View Road, and then east to the Winchester Drive intersection.
Phase 3: From Omar Street westerly on Ramsey Avenue to approximately Highland Home Road.

Additionally, RICK will:

a. Collect the data from the utility and property research from scope items above to use as part of the base file for the water plans. Existing utilities will be shown on the plans in locations verified by the potholing above and/or provided by the utility companies. As part of the plan preparation, RICK will contact affected

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

utility companies to obtain permits if needed (utility fees to be paid by the City of Banning).

b. RICK will arrange and participate in informal meetings as necessary with City staff to review the progress of the project and exchange ideas and information.
c. Meetings with the City of Banning will discuss the key design issues and develop general project criteria for construction, including schedule and possible ways of minimizing problems. RICK will prepare and submit meeting agendas prior to the meetings.
d. RICK will provide data received and assumptions utilized to the city for approval prior to integrating the data into the project's final design.
e. RICK will prepare preliminary water plans (30-percent design) using AutoCAD for approximately 7,200 LF of water line (8-inch to 14-inch) to establish an agreement with the City of Banning on project scope, alignment, easements, parameters, hydraulic requirements, maintenance concerns, constructability and construction phasing, traffic impacts, and general disruption to the area. The preliminary design is to be submitted to the City of Banning for review and approval. The preliminary design shall address the following:
    a. Pipeline alignment/facility locations
    b. Construction schedule and phasing recommendations
    c. Construction Cost Estimate of recommended improvements
    d. Conflicts with other utilities and adjacent facilities in the area
    e. Traffic and pedestrian control
    f. Erosion Control
    g. Preferred materials for construction
    h. Areas where construction work is limited or controlled.
    i. Impacts to City water system.
    j. Impacts to surrounding business and residential areas.
    k. Easements (existing and proposed)
    l. Corrosion protection (if necessary)
f. The preliminary design will be submitted in PDF format through the City's SmartGov platform for the City of Banning's review and concurrence. The design will be at a 30% level of effort. Changes in layout and location of facilities suggested by the city will be investigated. A final layout and location of facilities will then be established.
g. As part of the meetings with the city, discussions and submittals of material will be presented to the city through the preliminary design process to reduce comment time and effort by the city.

It is assumed that the City of Banning will provide the size of the proposed new waterline. A hydraulic analysis is not included with this scope. However, we have provided it as an additional/if needed service.

It is assumed that the majority of the existing waterline will be abandoned in place.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

As part of the 30% design, RICK will prepare a traffic control conceptual staging plan for Phase 1 only identifying the assumed stages for each of the phases as noted in the Request for Proposal. The project Phase 1 proposes to construct approximately 2,600' of a water main along Ramsey Street from Sunset Avenue to 3929 W. Ramsey Street. It is anticipated that the traffic control conceptual staging plan will be prepared at 40 scale and will identify the proposed linear footage per stage and a description of the work that will be completed.

Deliverables – (all via the city's SmartGov platform): PDF of the preliminary design plans and the preliminary opinion of probable costs.

3.2 Preliminary Design Plans (60% design)

Rick will prepare plans based on the 30% design and subsequent review comments by the City. Plans include a one (1) cover sheet, two (2) detail sheet, ten (10) plan and profile sheets, two (2) connection detail sheets for private landowners, and one (1) valve shut down sheet if needed, and will show the existing water services and fire hydrants to the new waterline. Due to the existing waterline being at the back of the effected parcels, water meters, backflow devised and related system components shall be moved to front Ramsey off the new proposed waterline. Detail sheets will detail the on-site design connecting to the new line to provide a water system at minimum equal to the existing condition.

RICK's subconsultant, Dexter Wilson Engineering, will assist in preparation of technical specifications, pipeline material design, pipeline deflection calculations, design of thrust restraining systems, details for phased connections, details for connection to the existing pipeline, peer review of replacement plans, and other pipeline design aspects.

Consultant will incorporate any comments received from the City of Banning on the traffic control conceptual staging plan into the 60% design plans. Consultant will prepare 40-scale traffic control plans for the work associated with the Ramsey Street Water Main for Phase 1 only. The traffic control plans will provide work zones that are staged for construction of the water main, appurtenances, laterals, and any required detours. The one stage of traffic control is assumed as follows:

Phase 1: Sunset Avenue to 3929 W. Ramsey Street. There are assumed 5 stages of traffic control; Stage 1A is to 600' west of Sunset Avenue; Stages 1B, 1C, 1D, and 1E will be up to 500' along Ramsey to 3929 W. Ramsey Street.

The traffic control plans will be prepared following the requirements of the California Manual on Uniform Traffic Control Devices (MUTCD) and the City of Banning. Three (3) submittals are assumed – 60%, 90%, and final. Five (5) sheets

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

of traffic control plans are assumed for Phase 1.

A progress meeting will be coordinated with the City of Banning to discuss the 60% design plans. The meeting will discuss the comments and markups and establish a timeline for the project moving forward.

Deliverables - (all via the city's SmartGov platform): PDF of the preliminary design plans and the preliminary opinion of probable costs.

3.3 Detailed Design Plans (90% Design)

Rick will prepare the 90% detailed design waterline plans and traffic control plans based on the 60% review comments received from the City of Banning and other entities. Plans shall follow the City of Banning standards and policies.

RICK will prepare project specifications following the Standard Specifications for Public Works Construction, SSPWC, "Greenbook", latest edition.

RICK will prepare an opinion of probable cost and bid schedule that has construction items of work, unit of measurement, unit cost, and cost based on the detailed design waterline plans.

Deliverables - (all via the city's SmartGov platform): PDF of the preliminary design plans, the preliminary opinion of probable costs, and the Standards and Specifications

Task 4. Final Design Plans

4.1 Final Water Plans

Upon authorization from the City, RICK will finalize the waterline plans and traffic control plans based on the final comments from the City and other entities. Plans will follow the City of Banning standards and policies. Plans will be signed by a licensed Civil Engineer and provided to the City of Banning on Mylar.

RICK will provide the City of Banning a Final set of Project specifications based on final comments from the City of Banning following the SPPWC. RICK will also provide a final opinion of probable cost and bid schedule based on the signed waterline plans.

Deliverables - (all via the city's SmartGov platform): PDF of the preliminary design plans, the preliminary opinion of probable costs, and the Standards and Specifications

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

Task 5. Easement Documents

5.1 Easement Documents

RICK will prepare a legal description and plat for each easement for three (3) permanent easements to be granted to the City of Banning and ten (10) temporary construction easements that are required for reconnection of existing private water systems to the new water main. RICK will obtain and review title reports for the thirteen (13) affected properties.

RICK assumes three (3) permanent easements to be granted to the City of Banning and ten (10) Temporary Construction Easements for reconnection of existing private water systems to the new water main.

Assumptions:

- Assumes up to 13 tax parcels owned by 13 unique entities are impacted by temporary construction easements (TCE's) and/or permanent easements.
- Scope does not include any discussions with property owners.
- No appraisal work or negotiations included.
- Consultant is providing legal description and plat for the 13 easements only.

Deliverables - (all via the city's SmartGov platform): Easement documents (legal description and plat) and up to 13 preliminary title reports.

Task 6. Stormwater Pollution Prevention Plan

6.1 Stormwater Pollution Prevention Plan

The Risk Type 1 LUP SWPPP will be prepared in accordance with the requirements of the Appendix E of the National Pollutant Discharge Elimination System (NPDES) General Permit for Storm Water Discharges Associated with Construction and Land Disturbance Activities Order WQ 2022-0057-DWQ NPDES No. CAS000002 (adopted September 8, 2022, effective September 1, 2023).

RICK will prepare a Risk Type 1 LUP SWPPP based on the project's assumed Risk Type.

This task will also include the preparation of a Notice of Intent (NOI) on the Storm Water Multi Application Report Tracking System (SMARTS) database. The Discharger must designate RICK as a Data Entry Person to prepare the NOI. The Discharger/LRP must electronically certify and submit the NOI on SMARTS.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

RICK will act as the initial Qualified SWPPP Developer (QSD) for the preparation of the SWPPP, however the Discharger must hire a QSD and a Qualified SWPPP Practitioner (QSP) for implementation of the SWPPP throughout the life of the project.

Based on the provided bid package this project is assumed to be a Risk Type 1 LUP based on the following assumptions:

1. More than 70% of the soil disturbance will occur on paved surfaces; and
2. Areas that are disturbed will be returned to pre-project conditions at the end of each day.

Deliverables - (all via the city's SmartGov platform): SWPPP (erosion control plan submitted via drawing submittals)

Task 7. Construction Surveying and Staking

7.1 Phase One Water Stakes

RICK will maintain horizontal and vertical control for the duration of the surveying work on this project. RICK will also provide required calculations to field crew for each survey request received.

RICK will provide one set of stakes at all primary points of control; beginning and ends of pipe and at not less than 50' on center along tangent sections and 25' on curves to facilitate the construction of approximately 2,600 LF of water mainline. RICK will also provide not more than two (2) stakes each; to facilitate the location of services, fire hydrants, and points of connection.

*Water stakes to be set in three (3) trips.

Deliverables – Construction Staking Cut Sheets

7.2 Phase Two Water Stakes

RICK will provide one set of stakes at all primary points of control; beginning and ends of pipe and at not less than 50' on center along tangent sections and 25' on curves to facilitate the construction of approximately 2,700 LF of water mainline. RICK will also provide not more than two (2) stakes each; to facilitate the location of services, fire hydrants, and points of connection.

*Water stakes to be set in three (3) trips.

Deliverables – Construction Staking Cut Sheets

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

7.3 Phase Three Water Stakes

RICK will provide one set of stakes at all primary points of control; beginning and ends of pipe and at not less than 50' on center along tangent sections and 25' on curves to facilitate the construction of approximately 1,900 LF of water mainline. RICK will also provide not more than two (2) stakes each; to facilitate the location of services, fire hydrants, and points of connection.

*Water stakes to be set in three (2) trips.

Deliverables – Construction Staking Cut Sheets

Task 8. Bidding/Construction Support – Phase 1 Only

8.1 Bidding

RICK will be available during the advertising and bidding of the project to assist the City of Banning in answering questions/RFI's and the preparation of plan addenda, if needed. RICK will attend one (1) pre-bid meeting for the bidding process.

Deliverables – Meeting attendance, responses to Bidder's RFI's

8.2 Construction Administration

RICK will be available during the construction of the project to answer RFI's and prepare plan addenda, if needed. RICK will attend one (1) pre-construction meeting and eight (8) site visits during construction of the project as requested by the city. RICK will review shop drawings and submittals from the contractor for conformance with the contract plans and specifications, and make recommendations for acceptance, denial or resubmittal.

Deliverables – Meeting attendance, response to Contractor's RFI's, design addenda, submittal reviews

8.3 As-Built Plans

RICK will prepare As-Built Plans and process with the City of Banning, as necessary. Scope assumes RICK will receive as-built letters from the contractors and the contractor's as-built plan markup's. Scope assumes no major changes have occurred and does not include any as-built survey time. As-built plans will be submitted to the City within one month of receiving as-built letters and markup's from the contractor.
Deliverables – As-built Plans

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

Additional Services (If Needed Services)

Corrosivity Assessment

Rick's subconsultant, RF Yeager will prepare a corrosivity assessment for the proposed waterline, that will include a field resistivity testing, a review of the Geotech/soil chemical analysis data, a review for the potential of stray current interference, and a Corrosivity Assessment Letter Report. This information will be used for the determination of the type of corrosion protection and if any cathodic protection for the pipeline would be required and the corrosion control approach that the City may want to implement.

Deliverable – Corrosivity Assessment Letter Report

Corrosion Control Design

As part of the 90% design plans, RICK's subconsultant, RF Yeager, will provide Corrosion Control Design as part of the plans if Client requires joint bonds, test stations, insulators, and other standard corrosion control facilities. It is recommended the Client to use joint bonds, test stations, and insulators (steel or DIP) such that the pipeline is made electrically continuous and test stations are installed at the side of the road. This allows for monitoring and for adding cathodic protection in the future (should soil conditions/pipeline environment change) and will be much less costly because the pipe is electrically continuous and test stations are already installed. Corrosion control detail sheets, specifications, and cost estimate is included.

Cathodic Protection Design Pipeline

If it is found that Cathodic Protection is required, RICK's subconsultant, RF Yeager, will review the waterline plans, provide comments, and corrosion control design analysis/calculations. Details and specifications will be included. A cathodic protection system cost estimate will be included. RF Yeager will then address the 90% plan comments and provide final 100% design documents. Once approved for final signature, RF Yeager will sign and stamp the final drawings. Cathodic protection detail sheets, specifications, and cost estimates are included.
Deliverables – Corrosion control design analysis/calculations, specifications, and cost estimate.

Hydraulic Analysis

RICK's subconsultant, Dexter Wilson Engineering, will perform hydraulic modeling for the waterline sizing for the project site, if City does not provide the waterline

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

sizing. It is assumed City will provide the necessary information to run the modeling.

Caltrans Encroachment Permit

RICK will prepare one (1) Caltrans encroachment permit application for the traffic control devices (i.e. advance signage) that are within the Caltrans right-of-way (ROW) along Sunset Avenue in the vicinity of I-10. For the Caltrans encroachment permit application, the traffic control plans are assumed to be submitted to Caltrans in City of Banning format and will include a Caltrans signature block on the plans.

Plan Processing and Coordination (Caltrans)

RICK will submit and process the traffic control plans with Caltrans District 8. It is assumed that up to two (2) sets of plan check review comments will be received, coordinated, and addressed.

Monument Preservation

Pursuant to Section 8771 of the Business and Professions Code, preconstruction corner records will be prepared and filed identifying recovered survey monuments within the proposed construction limits. Post construction corner records will also be filed reflecting replacement monuments.

Deliverables – Pre and Post construction corner records

Monument Replacement

RICK will replace destroyed survey monuments at the completion of the construction with the project limits.

Record of Survey

Pursuant to 8762 of the Business and Professions Code the filing of a Record of Survey shall be filed if the survey discloses “the establishment of one or more points or lines not shown on any subdivision map, official map, or record of survey, the positions of which are not ascertainable from the inspection of the subdivision map official map or record of survey.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

III. In addition to the requirements of Parts I and II of this Scope of Services, during the performance of the Services, Consultant will keep City appraised through periodic status reports regarding the performance of the Services under this Agreement as set forth below and in Section 5.2, by the following means:

a. In-person meetings and/or teleconferences.

b. Email updates/questions to applicant team and City while reviews are underway.

c. Conference calls.

IV. All work product is subject to review and acceptance by City, and must be revised by Consultant without additional charge to City until found satisfactory and accepted by City.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

EXHIBIT "B"
SPECIAL REQUIREMENTS

TERMS FOR COMPLIANCE WITH CALIFORNIA LABOR LAW REQUIREMENTS

1. This Agreement calls for services that, in whole or in part, constitute "public works" as defined in Division 2, Part 7, Chapter 1 (commencing with Section 1720) of the California Labor Code ("Chapter 1"). Further, Consultant acknowledges that this Agreement is subject to (a) Chapter 1 and (b) the rules and regulations established by the Department of Industrial Relations ("DIR") implementing such statutes. Therefore, as to those Services that are "public works," Consultant shall comply with and be bound by all the terms, rules and regulations described in 1(a) and 1(b) as though set forth in full herein.

2. California law requires the inclusion of specific Labor Code provisions in certain contracts. The inclusion of such specific provisions below, whether or not required by California law, does not alter the meaning or scope of Section 1 above.

3. Consultant shall be registered with the Department of Industrial Relations in accordance with California Labor Code Section 1725.5, and has provided proof of registration to City prior to the Effective Date of this Agreement. Consultant shall not perform work with any subcontractor that is not registered with DIR pursuant to Section 1725.5. Consultant and subcontractors shall maintain their registration with the DIR in effect throughout the duration of this Agreement. If the Consultant or any subcontractor ceases to be registered with DIR at any time during the duration of the project, Consultant shall immediately notify City.

4. Pursuant to Labor Code Section 1771.4, Consultant's Services are subject to compliance monitoring and enforcement by DIR. Consultant shall post job site notices, as prescribed by DIR regulations.

5. Pursuant to Labor Code Section 1773.2, copies of the prevailing rate of per diem wages for each craft, classification, or type of worker needed to perform the Agreement are on file at City Hall and will be made available to any interested party on request. Consultant acknowledges receipt of a copy of the DIR determination of such prevailing rate of per diem wages, and Consultant shall post such rates at each job site covered by this Agreement.

6. Consultant shall comply with and be bound by the provisions of Labor Code Sections 1774 and 1775 concerning the payment of prevailing rates of wages to workers and the penalties for failure to pay prevailing wages. The Consultant shall, as a penalty to City, forfeit $200.00 for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the DIR for the work or craft in which the worker is employed for any public work done pursuant to this Agreement by Consultant or by any subcontractor.

7. Consultant shall comply with and be bound by the provisions of Labor Code Section 1776, which requires Consultant and each subcontractor to: keep accurate payroll records and verify such records in writing under penalty of perjury, as specified in Section 1776; certify and make such payroll records available for inspection as provided by Section 1776; and inform City of the location of the records.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

8. Consultant shall comply with and be bound by the provisions of Labor Code Sections 1777.5, 1777.6 and 1777.7 and California Administrative Code Title 8, Section 200 et seq. concerning the employment of apprentices on public works projects. Consultant shall be responsible for compliance with these aforementioned Sections for all apprenticeable occupations. Prior to commencing work under this Agreement, Consultant shall provide City with a copy of the information submitted to any applicable apprenticeship program. Within 60 days after concluding work pursuant to this Agreement, Consultant and each of its subcontractors shall submit to City a verified statement of the journeyman and apprentice hours performed under this Agreement.

9. The Consultant shall not perform Work with any Subcontractor that has been debarred or suspended pursuant to California Labor Code Section 1777.1 or any other federal or state law providing for the debarment of contractors from public works. The Consultant and Subcontractors shall not be debarred or suspended throughout the duration of this Agreement pursuant to Labor Code Section 1777.1 or any other federal or state law providing for the debarment of contractors from public works. If the Consultant or any subcontractor becomes debarred or suspended during the duration of the project, the Consultant shall immediately notify City.

10. Consultant acknowledges that eight hours labor constitutes a legal day's work. Consultant shall comply with and be bound by Labor Code Section 1810. Consultant shall comply with and be bound by the provisions of Labor Code Section 1813 concerning penalties for workers who work excess hours. The Consultant shall, as a penalty to City, forfeit $25.00 for each worker employed in the performance of this Agreement by the Consultant or by any subcontractor for each calendar day during which such worker is required or permitted to work more than eight hours in any one calendar day and 40 hours in any one calendar week in violation of the provisions of Division 2, Part 7, Chapter 1, Article 3 of the Labor Code. Pursuant to Labor Code section 1815, work performed by employees of Consultant in excess of eight hours per day, and 40 hours during any one week shall be permitted upon public work upon compensation for all hours worked in excess of eight hours per day at not less than one and one-half times the basic rate of pay.

11. California Labor Code Sections 1860 and 3700 provide that every employer will be required to secure the payment of compensation to its employees. In accordance with the provisions of California Labor Code Section 1861, Consultant hereby certifies as follows:

> "I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this contract."
>
> **Date**_____ **Signature**_____

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

12. For every subcontractor who will perform work on the project, Consultant shall be responsible for such subcontractor's compliance with Chapter 1 and Labor Code Sections 1860 and 3700, and Consultant shall include in the written contract between it and each subcontractor a copy of those statutory provisions and a requirement that each subcontractor shall comply with those statutory provisions. Consultant shall be required to take all actions necessary to enforce such contractual provisions and ensure subcontractor's compliance, including, without limitation, conducting a periodic review of the certified payroll records of the subcontractor and upon becoming aware of the failure of the subcontractor to pay his or her workers the specified prevailing rate of wages. Consultant shall diligently take corrective action to halt or rectify any failure.

DocuSign Envelope ID: BF8F66BC-485E-460D-B3E1-CCE525366D79

EXHIBIT "C"
SCHEDULE OF COMPENSATION

I. Consultant shall perform the following Scope of Services at the rates stated in Exhibit C-1.

II. Within the budgeted amounts for each Task, and with the approval of the Contract Officer, funds may be shifted from one Task sub-budget to another so long as the Contract Sum is not exceeded per Section 2.1, unless Additional Services are approved per Section 1.8.

III. City will compensate Consultant for the Services performed upon submission of a valid invoice. Each invoice is to include:

A. Line items for all personnel describing the Services performed, the number of hours worked, and the hourly rate.

B. Line items for all materials and equipment properly charged to the Services.

C. Line items for all other approved reimbursable expenses claimed, with supporting documentation.

D. Line items for all approved sub-contractor labor, supplies, equipment, materials, and travel properly charged to the Services.

IV. Consultant's billing rates for all personnel are attached as Exhibit C-1.

CITY OF BANNING
STAFF REPORT

TO:	**CITY COUNCIL**
FROM:	**Robert Fisher, Acting City Manager**
PREPARED BY:	**Shah Nawaz, Deputy Water/Wastewater Director** **Art Vela, Director of Public Works**
MEETING DATE:	**February 25, 2025**
SUBJECT:	**Consideration of Resolution 2025-29, Approving a Construction Agreement with Pacific Hydrotech Corporation for Project No. 2022-07W "M-12A Well Site Equipping and Improvements" in the Amount of $2,440,900 and Establishing a Total Project Budget of $2,684,990 and Rejecting All Other Bids**

RECOMMENDATION:

Adopt Resolution 2025-29.

BACKGROUND:

The existing Well M-12 is located on Westward Avenue, between Highland Homes Road and Sunset Avenue and is one of many municipal wells that the City had relied on to meet its year-round water demands. The typical water production capacity of Well M-12 was approximately 900 gallons per minute or 1.3 million gallons per day.

In February 2020, City staff discovered that Well M-12 was not producing water. Through various repair attempts, a skilled contractor found that well's external 'screened' casing pipes surrounded by gravel pack and the internal 'suction' piping consisting of pump column pipes containing line-shaft and vertical turbine pumps were stuck together and could not be extracted. The well had begun caving in, and consequently, proper abandonment of the well was necessary.

The State Water Resources Control Board's Division of Drinking Water authorized existing Well M-12's abandonment and redrilling of a new "Well M-12A", to meet the City's increasing demands for potable water. On November 8, 2023 City Council adopted Resolution 2022-13UA, awarding a professional services agreement with Dudek (consultant) for the design of Well M-12A.

The City staff working along with the design consultant Dudek, implemented a phased-construction approach which is typical for new municipal wells consisting of developing the well (testing and drilling, Phase 1), followed by equipping (Phase 2). Subsequently, Dudek prepared and finalized technical specifications for developing new Well M-12A which included drilling, construction, development and testing.

The City released an Invitation for Bids to develop the Well M-12A on August 15, 2023. As a result of this Invitation for Bids, Nor-Cal Pump & Well Drilling , Inc. of Yuba City was awarded the construction contract via Resolution 2023-10UA to develop the well, which was completed in August 2024.

After developing the well, Dudek finalized the plans and specifications to equip the well. The equipping

scope of work consists of but is not limited to the installation of well column pipe, vertical turbine multi-stage pumps, pump discharge header and motor, pump to waste flow control valve,
masonry building, motor control panels and main electrical switchgear.

Subsequently, the City finalized the bidding documents and released an Invitation for Bids (IFB-24-092) on December 19, 2024. A mandatory pre-proposal meeting was held on January 9, 2025 to perform a job-walk and to go over the scope of work. As a result of the Invitation for Bids, the City received six proposals:

Contractor	**Bid Amount**
Pyramid Building & Engineering, Inc.	$2,287,500.00
H7 Contracting & Engineering	$2,390,000.00
Pacific Hydrotech Corporation	$2,440,900.00
Innovative Construction Solutions	$2,485,000.00
SCW Contracting Corporation	$2,492,574.00
MMC Inc.	$2,644,000.00

Although Pyramid Building & Engineering, Inc. and H7 Contracting & Engineering were apparently the lowest and second lowest bidders respectively, both withdrew their bids. Therefore, Pacific Hydrotech Corporation of Perris, California, is the responsive, responsible lowest bidder.

The City's Purchasing staff has conducted reference checks on Pacific Hydrotech Corporation and found that the company was responsive and responsible on similar contracts with other agencies.

As a result, staff recommends that the Construction Agreement be awarded to the lowest responsive and responsible bidder, Pacific Hydrotech Corporation of Perris, California, in the amount of $2,440,900. A copy of the bid summary for the lowest bid can be found attached hereto.

If awarded, staff anticipates the work to commence in early March, 2025 and to be completed within one hundred and thirty (130) working days or approximately six (6) months from the issuance of a Notice to Proceed.

JUSTIFICATION:

In order to meet the City's potable water production demands, during phase 1, the existing collapsed Well M-12 was abandoned and a new Well M-12A was developed (constructed) at the same location.

Furthermore, in phase 2, to extract/produce potable water, City must 'equip' this new Well M-12A with mechanical, electrical, building and various other onsite improvements.

As a result of the City's Invitation for Bids (IFB 24- 092), Pacific Hydrotech Corporation is the apparent lowest bidder and is qualified to complete the scope of work.

FISCAL IMPACT:

The recommended Construction Agreement with Pacific Hydrotech Corporation is for an amount of $2,440,900. Staff requests a 10% contingency in the amount of $244,090 for any unforeseen conditions or circumstances. The total project budget, including the Construction Agreement and contingency, is for an amount of $2,684,990.

The current adopted budget for Fiscal Year 2024/2025 includes the funding needed for the Construction Agreement and will be funded from Account No. 660-6300-471.95-08.

This project inclusive of both development and equipping phases of new Well M-12A is partially funded by an Urban and Multibenefit Drought Relief Grant in the amount of $2,475,000.

ALTERNATIVES:

Do not approve Resolution 2025-29 and provide alternative direction to staff. Not approving Resolution 2025-29 will impact the City's ability to meet it's water demand during the summer months and may also require the City to pay back grant funds that have been spent on the project.

RESOLUTION 2025-29

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BANNING, CALIFORNIA, APPROVING A CONSTRUCTION AGREEMENT WITH PACIFIC HYROTECH CORPORATION FOR PROJECT NO. 2022-07W "M-12A WELL SITE EQUIPPING AND IMPROVEMENTS" IN THE AMOUNT OF $2,440,900 AND ESTABLISHING A TOTAL PROJECT BUDGET OF $2,684,990 AND REJECTING ALL OTHER BIDS

WHEREAS, in 2020 during routine maintenance of existing Well M-12 the well equipment became permanently stuck in the well casing resulting in the well becoming unusable. To accommodate growing water demands it was determined that Well M-12 would have to be replaced on the same site with a new Well "M-12A"; and

WHEREAS, in October 2021, pursuant to the State Legislature's passage of the Budget Act of 2021 and Trailer Bill AB 148, the California Department of Water Resources DWR) announced the Urban and Multibenefit Drought Relief Grant Program for Fiscal Year 2022. The Department of Public Works submitted a grant requesting an amount of 2,475,000 and was successfully awarded the full amount for developing and equipping new Well M-12A; and

WHEREAS, City released an Invitation for Bids to develop the well on November 23, 2022. As a result of this Invitation for Bids, Best Drilling and Pump Inc. of Colton was awarded the construction contract via Resolution 2023-02UA to develop the well, and a notice-of-completion for developing the well was filed on December 5, 2023; and

WHEREAS, on November 8, 2023 City Council adopted Resolution 2022-13UA, awarding a professional services agreement with Dudek for design of Well M-12A; and

WHEREAS, the City finalized bidding documents to 'develop' new Well M-12A and released an Invitation for Bids (IFB 23-035) on August 15, 2023. Thereafter, through Resolution 2023-10UA, a Construction Agreement was awarded to the lowest responsive and responsible bidder, Nor-Cal Pump and Well Drilling, Inc. of Yuba City, California, which completed developing Well M-12A by August 2024; and

WHEREAS, City directed Dudek to finalize the plans and specifications to 'equip' the well, the equipping scope of work consists of but is not limited to the installation of well column pipe, vertical turbine multi-stage pumps, pump discharge header and motor, masonry building, motor control panels, main electrical switchgear, etc.; and

WHEREAS, City staff finalized bidding documents to equip well M-12A, Project No. 2022-07W, "M-12A Well Site Equipping and Improvements" (the "Project") and advertised an Invitation for Bids (IFB-24-092) and subsequently received six (6) bids ranging in price from $2,287,500 to $2,644,000; and

WHEREAS, Pyramid Building & Engineering, Inc. and H7 Contracting and Engineering were the apparent lowest bidders in the amounts of $2,287,500 and $2,390,000, respectively. Both, however, withdrew their bids; and

WHEREAS, Pacific Hydrotech Corporation was deemed the lowest responsible and responsive bidder; and

WHEREAS, the Construction Agreement with Pacific Hydrotech Corporation is for an amount of $2,440,900

WHEREAS, the total project budget, including the Construction Agreement and a 10% contingency, is for an amount of $2,684,990; and

WHEREAS, the current fiscal year 2024/2025 includes $3,500,000 budgeted for the Project in Account No. 660-6300-471.95-08.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Banning as follows:

SECTION 1. The City Council approves a Construction Agreement for Project No. 2022-07W, "M-12A Well Site Equipping and Improvements" to Pacific Hydrotech Corporation of Perris, California, in the amount of $2,440,900 and approves a 10% contingency in the amount of $244,090 for a total project budget of $2,684,990 and rejects all other bids.

SECTION 2. The City Council authorizes the City Manager to make non-substantive changes to the Construction Agreement and to execute the Construction Agreement with Pacific Hydrotech Corporation on behalf of the City Council.

SECTION 3. The City Council authorizes the City Manager, or designee, to make necessary budget adjustments, appropriations, and transfers related to this resolution.

SECTION 4. The City Clerk shall certify to the adoption of this resolution and shall cause a certified resolution to be filed in the book of original resolutions.

PASSED, APPROVED AND ADOPTED this 25th day of February, 2025.

Sheri Flynn, Mayor
City of Banning

ATTEST:

Caroline Patton, Administrative City Clerk
City of Banning

APPROVED AS TO FORM:

Construction Agreement with Pacific Hydrotech Corporation

CONTRACT (C01124)

CITY OF BANNING CONTRACT FOR
M-12A WELL SITE EQUIPPING AND IMPROVEMENTS & IFB 24-092

THIS CONTRACT ("Contract") is made and entered this _____ ("Effective Date"), by and between the CITY OF BANNING, a California municipal corporation ("City") and Pacific Hydrotech Corporation ("Contractor"). Contractor's California State Contractor's license number is 518355; Class A, B). Contractor's DIR registration number is 1000002987.

In consideration of the mutual covenants hereinafter set forth, the parties hereto agree as follows:

1. Contract Documents. The Contract Documents consist of this Contract, the Notice Inviting Bids, Instructions to Bidders, Bid (including documentation accompanying the Bid and any post-Bid documentation submitted before the Notice of Award), the Bonds, permits from regulatory agencies with jurisdiction, General Provisions, Special Provisions, Plans, Standard Plans, Standard Specifications, Reference Specifications, Addenda, Change Orders, and Supplemental Agreements. The Contract Documents are attached hereto and incorporated herein by reference.

2. Scope of Services. Contractor shall perform the Work in a good and workmanlike manner for the project identified as M-12A Well Site Equipping and Improvements ("Project"), as described in this Contract and in the Contract Documents.

3. Compensation. In consideration of the services rendered hereunder, City shall pay Contractor a not to exceed amount of Two Million Four Hundred Forty Thousand Nine Hundred Dollars ($2,440,900.00) in accordance with the prices as submitted in the Bid.

4. Incorporation by Reference. All of the following documents are attached hereto and incorporated herein by this reference: Workers' Compensation Certificate of Insurance, Additional Insured Endorsement (Comprehensive General Liability), Additional Insured Endorsement (Automobile Liability), and Additional Insured Endorsement (Excess Liability).

5. Antitrust Claims. In entering into this Contract, Contractor offers and agrees to assign to City all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. § 15) or under the Cartwright Act (Business and Professions Code Section 16700 *et seq*.) arising from purchases of goods, services, or materials pursuant to the Contract. This assignment shall be made and become effective at the time City tenders final payment to Contractor without further acknowledgment by the parties.

6. Prevailing Wages. City and Contractor acknowledge that the Project is a public work to which prevailing wages apply.

7. Workers' Compensation. Labor Code Sections 1860 and 3700 provide that every contractor will be required to secure the payment of compensation to its employees. In accordance with the provisions of Labor Code Section 1861, by signing this Contract, the Contractor certifies as follows:

> "I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that Code, and I will comply with such provisions before commencing the performance of the Work of this Contract."

8. Titles. The titles used in this Contract are for convenience only and shall in no way define, limit or describe the scope or intent of this Contract or any part of it.

9. Authority. Any person executing this Contract on behalf of Contractor warrants and represents that he or she has the authority to execute this Contract on behalf of Contractor and has the authority to bind Contractor to the performance of its obligations hereunder.

10. Debarment or Suspension.

Contractor represents and warrants that, as of the Effective Date of this Agreement, Contractor is not debarred or suspended pursuant to any applicable Federal or State law providing for the debarment of contractors. Contractor shall not perform the Services with any subcontractor that has been debarred or suspended pursuant to any applicable Federal or State law providing for the debarment. Contractor and its subcontractors shall not be debarred or suspended throughout the Term of this Agreement pursuant to any applicable Federal or State law providing for the debarment of contractors. If Contractor or any subcontractor becomes debarred or suspended during the Term of this Agreement, Contractor shall immediately notify City.

11. Entire Agreement. This Contract, including the Contract Documents and any other documents incorporated herein by specific reference, represents the entire and integrated agreement between City and Contractor. This Contract supersedes all prior oral or written negotiations, representations or agreements. This Contract may not be modified or amended, nor any provision or breach waived, except in a writing signed by both parties that expressly refers to this Contract.

12. Counterparts. This Contract may be executed in counterpart originals, duplicate originals, or both, each of which is deemed to be an original for all purposes.

IN WITNESS WHEREOF, the parties hereto have executed the Contract the day and year first above written.

RESOLUTION 2022-13 UA

A RESOLUTION OF THE UTILITY AUTHORITY OF THE CITY OF BANNING, CALIFORNIA AWARDING A PROFESSIONAL SERVICES AGREEMENT TO DUDEK FOR DESIGN OF WELL M-12A DRILLING AND EQUIPPING IN THE AMOUNT OF $870,213 AND ESTABLISHING A 5% CONTINGENCY FOR A TOTAL PROJECT BUDGET OF $913,724

WHEREAS, Well M-12 is potable water production well located on Westward Avenue, between Highland Home Road and Sunset Avenue and is one of many wells that the City has relied on to meet the City's water demands; and

WHEREAS, in 2020 Well M-12 had a catastrophic failure during a maintenance project that resulted in the City having to abandon and cap the well; and

WHEREAS, staff prepared a request for proposals (RFP) for design services for Well M-12A for drilling and equipping of the new well and advertised the RFP on OpenGov on August 23, 2022 with a due date for the submission of proposals on September 13, 2022; and

WHEREAS, an evaluation committee reviewed and ranked two proposals submitted as a response to the RFP and found Dudek to have submitted the highest ranked proposal; and

WHEREAS, Dudek's fee proposal is in the amount of $870,213; and

WHEREAS, the scope of services include: project management; data and literature review; preliminary well design; environmental and permitting support; technical plans, specifications and estimates for drilling; bidding assistance; drilling construction management; drilling inspection, hydrogeological services and water quality testing; well head facility plans, specifications and estimates; well head facility construction and post construction support services; and

WHEREAS, in October 2021, pursuant to the State Legislature's passage of the Budget Act of 2021 and Trailer Bill AB 148, the California Department of Water Resources (DWR) announced the Urban and Multibenefit Drought Relief Grant Program for Fiscal Year 2022. The Department of Public Works submitted a grant requesting an amount of $2,475,000 and was successfully awarded the full amount. $200,000 of the awarded amount will be allocated to the planning, design, engineering and environmental phase of the project and the balance allocated to the construction phase; and

WHEREAS, the design of Well M-12A is included in the City's approved Capital Improvement Plan and incorporated in the approved fiscal year 2022/2023 budget.

NOW, THEREFORE, BE IT RESOLVED by the Banning Utility Authority of the City of Banning as follows:

SECTION 1. Awarding a Professional Services Agreement for Design of Well M-12A Drilling and Equipping to Dudek of Encinitas, California in the amount of $870,213.

SECTION 2. Authorizing the City Manager or his designee to execute the Professional Services Agreement with Dudek.

SECTION 3. Establish a 5% contingency and authorizing the City Manager to execute amendments to the agreement within the contingency amount ($43,511).

PASSED, APPROVED AND ADOPTED this 8th day of November 2022.

Colleen Wallace, Chairperson
Banning Utility Authority

Caroline Patton, Secretary
Banning Utility Authority

RESOLUTION 2023-10UA

A RESOLUTION OF THE UTILITY AUTHORITY OF THE CITY OF BANNING, CALIFORNIA, APPROVING A CONSTRUCTION AGREEMENT WITH NOR-CAL PUMP & WELL DRILLING, INC. FOR "WELL M12A GROUNDWATER PRODUCTION WELL DRILLING, CONSTRUCTION, DEVELOPMENT AND TESTING" IN THE AMOUNT OF $2,049,096, ESTABLISHING A TOTAL PROJECT BUDGET OF $2,254,005 AND REJECTING ALL OTHER BIDS

WHEREAS, in 2020 during routine maintenance of existing Well M12 the well equipment became permanently stuck in the well casing resulting in the well becoming unusable. To accommodate growing water demands it was determined that Well M12 would have to be replaced on the same site (Well M12A); and

WHEREAS, in October 2021, pursuant to the State Legislature's passage of the Budget Act of 2021 and Trailer Bill AB 148, the California Department of Water Resources (DWR) announced the Urban and Multibenefit Drought Relief Grant Program for Fiscal Year 2022. The Department of Public Works submitted a grant requesting an amount of $2,475,000 and was successfully awarded the full amount. $200,000 of the awarded amount is allocated to the planning, design, engineering and environmental phase of the project and the balance ($2,275,000) is allocated to the construction phase; and

WHEREAS, on November 8, 2023 City Council adopted Resolution 2022-13UA, awarding a professional services agreement with Dudek for design of Well M-12A; and

WHEREAS, the City finalized the bidding documents and released an Invitation for Bids (IFB 23-035) on August 15, 2023. A mandatory pre-proposal meeting was held on August 28, 2023 to go over the scope of work, deadlines and to answer any questions from prospective bidders. As a result of the Invitation for Bids, the City received three proposals ranging in cost from $2,049,096 to $3,723,710; and

WHEREAS, staff recommends that the Construction Agreement be awarded to the lowest responsive and responsible bidder, Nor-Cal Pump and Well Drilling, Inc. of Yuba City, California, in the amount of $2,049,096; and

WHEREAS, the total project budget, including the Construction Agreement and a 10% contingency, is for an amount of $2,254,005; and

WHEREAS, the current adopted budget for Fiscal Year 2023/2024 includes a budgeted amount of $2,300,000 in Account No. 660-6300-471.95-08 for this project.

NOW, THEREFORE, BE IT RESOLVED by the Banning Utility Authority of the City of Banning as follows:

SECTION 1. The Banning Utility Authority approves a Construction Agreement for "Well M12A Groundwater Production Well Drilling, Construction, Development and Testing" to

Nor-Cal Pump & Well Drilling, Inc. of Yuba City, California in the amount of $2,049,096 and approves a 10% contingency in the amount of $204,909 for a total project budget of $2,254,005 and rejects all other bids.

SECTION 2. The Utility Authority Director is authorized to execute the Construction Agreement with Nor-Cal Pump & Well Drilling, Inc. for "Well M12A Groundwater Production Well Drilling, Construction, Development and Testing".

SECTION 3. The Utility Authority Director or his designee is authorized to make necessary budget adjustments, appropriations and transfers related to the Construction Agreement for "Well M12A Groundwater Production Well Drilling, Construction, Development and Testing" and to approve change orders within the 10% contingency.

SECTION 4. The Authority Secretary shall certify to the adoption of this resolution and shall cause a certified resolution to be filed in the book of original resolutions.

PASSED, APPROVED AND ADOPTED this 10th day of October 2023.

Exhibit A
Nor-Cal Agreement

CONTRACT (C00904)
CITY OF BANNING CONTRACT FOR
WELL M-12 A GROUNDWATER PRODUCTION WELL DRILLING, CONSTRUCTION, DEVELOPMENT, AND TESTING (IFB 23-035)

THIS CONTRACT ("Contract") is made and entered this _____, ("Effective Date"), by and between the CITY OF BANNING, a California municipal corporation ("City") and Nor-Cal Pump & Well Drilling, Inc., a California corporation ("Contractor"). Contractor's California State Contractor's license number is 908591; Class B, C-57, C-61. Contractor's DIR registration number is 1000012947.

In consideration of the mutual covenants hereinafter set forth, the parties hereto agree as follows:

1. Contract Documents. The Contract Documents consist of this Contract, the Notice Inviting Bids, Instructions to Bidders, Bid (including documentation accompanying the Bid and any post-Bid documentation submitted before the Notice of Award), the Bonds, permits from regulatory agencies with jurisdiction, General Provisions, Special Provisions, Plans, Standard Plans, Standard Specifications, Reference Specifications, Addenda, Change Orders, and Supplemental Agreements. The Contract Documents are incorporated herein by reference.

2. Scope of Services. Contractor shall perform the Work in a good and workmanlike manner for the project identified as Street Improvements at Various Locations ("Project"), as described in this Contract and in the Contract Documents.

3. Compensation. In consideration of the services rendered hereunder, City shall pay Contractor a not to exceed amount of Two Million Forty-Nine Thousand Ninety-Six Dollars ($2,049,096.00) in accordance with the prices as submitted in the Bid.

4. Incorporation by Reference. All of the following documents are attached hereto and incorporated herein by this reference: Workers' Compensation Certificate of Insurance, Additional Insured Endorsement (Comprehensive General Liability), Additional Insured Endorsement (Automobile Liability), and Additional Insured Endorsement (Excess Liability).

5. Antitrust Claims. In entering into this Contract, Contractor offers and agrees to assign to City all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. § 15) or under the Cartwright Act (Business and Professions Code Section 16700 *et seq.*) arising from purchases of goods, services, or materials pursuant to the Contract. This assignment shall be made and become effective at the time City tenders final payment to Contractor without further acknowledgment by the parties.

6. Prevailing Wages. City and Contractor acknowledge that the Project is a public work to which prevailing wages apply.

7. Workers' Compensation. Labor Code Sections 1860 and 3700 provide that every contractor will be required to secure the payment of compensation to its employees. In accordance with the provisions of Labor Code Section 1861, by signing this Contract, the Contractor certifies as follows:

> "I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers'

compensation or to undertake self-insurance in accordance with the provisions of that Code, and I will comply with such provisions before commencing the performance of the Work of this Contract."

8. Titles. The titles used in this Contract are for convenience only and shall in no way define, limit or describe the scope or intent of this Contract or any part of it.

9. Authority. Any person executing this Contract on behalf of Contractor warrants and represents that he or she has the authority to execute this Contract on behalf of Contractor and has the authority to bind Contractor to the performance of its obligations hereunder.

10. Entire Agreement. This Contract, including the Contract Documents and any other documents incorporated herein by specific reference, represents the entire and integrated agreement between City and Contractor. This Contract supersedes all prior oral or written negotiations, representations or agreements. This Contract may not be modified or amended, nor any provision or breach waived, except in a writing signed by both parties that expressly refers to this Contract.

11. Counterparts. This Contract may be executed in counterpart originals, duplicate originals, or both, each of which is deemed to be an original for all purposes.

IN WITNESS WHEREOF, the parties hereto have executed the Contract the day and year first above written.

I. Instructions And Conditions

WE ARE PLEASED TO ISSUE THE ENCLOSED BID SPECIFICATIONS FOR YOUR CONSIDERATION

A. Bids will be rejected unless submitted electronically via the bidding website along with all required bid line items. All documents in the "Vendor Questionnaire" are required to be filled out, signed and submitted using the instructions listed herein.

B. The City of Banning, Purchasing Department, will not honor any explanation or change in the bid documents unless a written addendum has been issued.

C. All bids must identify bidder's firm name and be electronically submitted by a responsible officer or employee.

D. The City reserves the right to reject any and all bids and to waive any informalities related thereto.

E. It is the intention of the City to evaluate and make a recommendation for award as indicated by the electronic bid; however, the City does reserve the right to increase or decrease quantities or to remove items before award to remain within the limitations of the availability of approved funds. The apparent low Bidder will be notified prior to recommendation for award if such adjustments are deemed necessary.

F. Our public bid openings occur online, on the OpenGov vendor portal at https://procurement.opengov.com/portal/banning-ca and results are available instantly at the bid event time.

G. Prices quoted by the Bidder shall be exclusive of Federal Excise taxes pursuant to exemption of political subdivisions of a State by Federal Law.

H. Prices quoted by the Bidder shall mean total cost to the City, F.O.B. delivered to Banning.

I. Bid prices shall be firm for 90 days from date of bid opening to permit staff evaluation and City Council award. Upon award, prices quoted will be in effect for the term of the contract.

J. Communications: All technical, scope, and/or project related questions shall be submitted through the Procurement Portal Q&A Tab before the deadline and according to these specifications herein. Any and all other bidding communications shall only be with Barbara Mason, Purchasing Manager, using the phone number listed within this document. Companies bidding on this project shall not communicate with any other City Staff members or they risk being disqualified.

II. Introduction

II.A Summary

The City of Banning ("City") is seeking a qualified entity or individual ("Company") to provide the goods and/or services described herein. The City anticipates selecting one firm to perform the services.

Bids are requested from Companies that have a demonstrated ability to perform the tasks identified in this Invitation for Bids ("IFB").

II.B Background

The City of Banning is strategically located astride Interstate 10 between the Inland Empire and the Coachella Valley in the San Gorgonio Pass. The City, incorporated in 1913, has a rich and colorful history.

Initially Banning served as a stagecoach and railroad stop between the Arizona territories and Los Angeles. This history has contributed to the present-day spirit of pioneer resourcefulness and "can do" attitude that is so prevalent in the community.

Banning is a friendly and wholesome place to work and raise a family. Desirable executive housing is available, as well as moderate and lower income housing. Clean air, ample water supplies and the memorable and inspiring scenic vistas of both Mt. San Gorgonio and Mt. San Jacinto, the 2 tallest peaks in Southern California, are additional amenities which make the City of Banning a logical choice as a development opportunity in the Southern California area.

II.C Contact Information

Barbara Mason
Purchasing Manager
99 E. Ramsey Street
Banning, CA 92220
Email: bmason@banningca.gov
Phone: (951) 922-3121
Department:
Purchasing Division

II.D Timeline

This Invitation for Bids will be governed by the following tentative schedule. All dates are subject to change at the discretion of the City:

Release Project Date	December 9, 2024

Pre-Proposal Meeting (Mandatory)	January 9, 2025, 10:00am Please arrive 5 minutes early to: City of Banning 99 E. Ramsey St Banning, CA 92220 This pre-bid meeting includes a jobsite walk. Bidders must attend both the meeting and jobsite walk.
Question Submission Deadline	January 16, 2025, 11:59pm
Bid Submission Deadline	January 30, 2025, 11:59pm
Anticipated Contractor Selection Date	February 25, 2025

III. Prerequisites

The City of Banning Public Work Standards can be found on the City of Banning's website at the following link:

http://www.banning.ca.us/21/Engineering.

- Company shall be registered as vendor on the City's electronic bidding system, and listed as a Prospective Bidder for this specific project.
- Company and/or its key personnel, shall hold an appropriate license for the Company's discipline and the Services on the date the Bid is submitted.
- Company shall have registered with the Department of Industrial Relations and any other required organizations http://www.dir.ca.gov/.
- Bidder shall possess a valid Class "A" Contractor's license issued by the California State Contractors License Board.
- 10% Bid Bond must be submitted. A copy can be uploaded to OpenGov, but a hard copy must be mailed in.
- Must attend the pre-bid meeting. If we do a site visit, you must attend as well.
- 5% Retention
- Will comply with the Grant Requirements along with grant management & meeting all the deadlines.
- Provide proof of Good Faith Efforts showing advertising to DBE & HUB sites.
- The successful bidder will be required to obtain a City of Banning business license prior to commencement of work.
- The successful bidder will be required to provide a faithful performance and payment bonds.

IV. Scope of Work

The general requirements from the Technical Specifications file under the Attachments section is listed below to provide an overview of the project.

DIVISION 1: GENERAL REQUIREMENT

IV.A SECTION 01010 - SUMMARY OF WORK

PART 1 - GENERAL

1.01 GENERAL

A. The work to be performed under this Contract shall consist of:

1. Furnishing all tools, equipment, materials, supplies, and manufactured articles.

2. Furnishing all labor, transportation and services, including fuel, power, water, and essential communications.

3. Performing all work, or other operations required for the fulfillment of the Contract in strict accordance with the Contract Documents.

4. The work shall be complete.

a. All work, materials, and services not expressly indicated or called for in the Contract Documents which may be necessary for the complete and proper construction of the work shall be provided by the Contractor as though originally indicated, at no increase in cost to the Agency.

1.02 PROJECT LOCATION

M12A Well Site
3750 W Westward Ave
Banning, CA 92220

1.03 SUMMARY OF WORK

A. The work generally includes, but is not limited to construction of the following:

1. Demolition of existing equipment and facilities per the project drawings.

2. Grading and paving existing M12A well site per the project drawings.

3. Construction of new well building per the project drawings.

4. Equipping new M12A well with mechanical equipment, instrumentation, piping, and appurtenances per the project drawings.

5. Providing electrical power and control to new equipment and other improvements per the project drawings.

1.04 CONTRACTOR'S USE OF THE PROJECT SITE

A. The Contractor's use of the project site shall be limited to its construction operations for this project.

B. Construction equipment and materials shall not be stored on public or private streets, roads, and rights-of-way where they will prevent free and safe passage of the traveling public unless permitted by the Agency of Jurisdiction.

C. It is anticipated that the work site provides sufficient space to store equipment and materials.

1. If found otherwise, the Contractor shall not unreasonably encumber the premises with his materials.

2. It is the Contractor's responsibility to find and obtain permission from other property owners for the storage of equipment and materials on their property.

D. If required, the Contractor shall provide, at his own expense, the necessary right-of-way and access to the work, which may be required outside the limits of Agency's property.

1.05 AGENCY'S USE OF THE PROJECT SITE

A. The Contractor shall allow the Agency unimpeded access to the project site at all times during the period of construction.

1. The Agency shall have access to the site to conduct normal operations.

2. The Contractor shall not interfere with the operation of the Agency's equipment at the site during construction.

3. The Contractor shall cooperate and coordinate with Agency to facilitate Agency's operations and to minimize interference with the Contractor's operations at the same time.

1.06 ACCESS TO THE PROJECT SITE

A. It is the Contractor's responsibility:

1. To maintain and repair any damage caused by the Contractor to existing roads or adjoining properties that are caused by the Contractor's ingress or egress.

a. All repairs to damaged roads or properties shall be equal to or better than the existing and must meet the Agency of Jurisdiction's satisfaction.

1.07 WORK BY OTHERS

A. The Contractor shall cooperate fully with all utility forces of the Agency or forces of other public or private agencies engaged in the relocation, altering, or otherwise rearranging of utilities which interfere with the progress of work and shall schedule the work so as to minimize interference with said relocation, altering, or other rearranging of facilities.

1.08 EASEMENTS AND RIGHT OF WAY

A. The Contractor shall confine his construction operations to within the right of way limits as shown on the Drawings or make special arrangements with property owners for the additional area required. Any damage to property, either inside or outside the limits of the rights of way, shall be the responsibility of the Contractor as specified herein. The Contractor shall remove, protect, and replace all fences or other items encountered on private property and restore the affected areas to the condition in which they existed prior to the Contractor's use. Before final payment will be
authorized by the Agency, the Contractor will be required to furnish the Agency with written releases from property owners where side agreements or special easements have been made by the
Contractor or where the Contractor's operations, for any reason, have not been kept within the right of way, or from property owners that complained to the Agency or the Agency's Representative about damage to their property resulting from the Contractor's operations.

1.09 SHUTDOWN RESTRICTIONS

A. The Contractor shall make a written request to schedule a shutdown of an Agency pipeline or facility required to perform the work at least five (5) days in advance.

1. The Agency may refuse to perform the shutdown on the day requested by the Contractor due to operational circumstances or other reasonable concerns by the Agency.

2. No request will be denied for arbitrary reasons.

3. The Agency will, at all times, make the decision of the appropriateness and readiness for the shutdown.

4. The Agency may cancel the shutdown, up to the last minute, at no additional cost to the Agency if:

a. The Contractor is not ready at the designated time with all required labor, materials, and equipment to perform the work.

b. In the opinion of the Agency the weather will severely impact the length of the shutdown, quality of the finished work product, or ability of the Contractor to perform the work.

c. The Agency's operations personnel have determined that the shutdown is not timely due to operation circumstances or unforeseen circumstances.

5. The Agency does not guarantee the shutdown facility will be completely dry or leak tight after it is removed from service.

a. The Contractor shall provide all necessary equipment and material to control, remove, and dispose of any excess water.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION (NOT USED)

END OF SECTION

IV.B SECTION 01025 - MEASUREMENT AND PAYMENT

PART 1 - GENERAL

1.01 DESCRIPTION

A. Work under this Contract will be paid on a unit price or lump sum basis as outlined on the Schedule of Pay Items for the quantity of work installed.

B. The unit prices and lump sum prices include full compensation for furnishing the labor, materials, tools, and equipment and doing all the work involved to complete the work included in the Contract documents.

C. The bids for the work are intended to establish a total cost for the work in its entirety. Should the Contractor feel that the cost for the work has not been established by specific items in the Schedule of Pay Items, include the cost for that work in some related bid item so that the Proposal for the project reflects the total cost for completing the work in its entirety.

1.02 BID PROPOSAL

Measurement and payment will be made for each Bid Schedule Item independently and in accordance with the Special Provisions as follows:

A. Lump Sum Prices: The Contractor shall provide Lump Sum Prices in the Bid Schedule for all work in the Contract Documents, except items of work listed in the Contract as Unit Priced Items. For Lump Sum items, only the total amount need be filled in.

B. Unit Priced Items: Unit Price Items are provided by the Owner for additive or deductive WORK not presently identified in the Contract Documents. In the appropriate places on the Bid Schedule each Bidder shall quote Unit Prices for the items of work in the units stated when no unit price is provided on the Bid Schedule. Each unit price, whether additive or deductive, shall cover all costs and charges, including, without limitation, the costs of material, fabrication, delivery, installation or application, supervision, bond and insurance charges, overhead, profit, and taxes. Unit Prices shall be the exact amount per unit to be applied to the units of work actually provided or not provided for the purpose of modifying the Contract Price or establishing the payment due the Contractor, as applicable. Unit Prices provided by the Owner shall be held good and in effect until the work is completed and accepted by Owner. Contractor-proposed Unit Prices which are so unbalanced as to be detrimental to the Owner's interest may be rejected or cause rejection of the Bidder's entire bid at the discretion of the Owner.

C. Allowance Items: Allowance Item amounts are provided by the Owner to cover the cost of additive WORK not presently identified in the Contract Documents. Payment for Allowance Items will be made only when authorized as described in Part 1.03, below.

D. Retention: Payment for all bid items is subject to the retention provisions of the Special Provisions.

E. Schedule: All scoped Allowance Bid Items and Unit Priced Bid Items are included in the scope of the Contract without specific locations for the work provided. The Owner reserves the right to
direct that these scoped items of work be performed when they are encountered, and the Contractor is obligated to accommodate this work within the original contract duration. The Contractor will not be entitled to additional time regardless of where work is encountered.

F. The Owner reserves the right to vary the total contract price by +/- 25% by varying the Unit Price quantities and authorized Allowance amounts within their respective individual limits.

G. Stipulated or Bid Unit Prices: When the Owner's use of a Unit Price Bid Item exceeds 200% of the Bid Item quantity, the Contractor or Owner may demand that the Unit Price Item be renegotiated for quantities in excess of 200%, whether the price is stipulated or bid. This provision is to prevail over any conflicting general condition provision.

H. Specified Items and Stipulated Priced: The stipulated price for these items cannot be invoiced until the item is complete and accepted by the Construction Manager and the Owner.

1.03 MEASUREMENT AND PAYMENT

A. General: This article defines the manner and method to develop the Lump Sum, Unit Price, and Allowance bid amounts of all items identified in the Bid Schedule. Bid amounts will include all plant, equipment, tools, materials, labor, service, and all other items required to complete the work included in the Contract unless specifically excluded by this section. Work required for which no separate bid item is identified will be considered as a subsidiary obligation of the Contractor, and the cost therefore shall be included in the most applicable bid item. Compensation for completion of the Work will be determined by use of the cost loaded CPM schedule (reference Section 01320). Bid amounts for each item will be the basis for development of budget values for activities included in the cost loaded CPM schedule as described in Section 01320. Unit Price and Allowance Bid Item amounts will also be adjusted by a Change Order to the contract amount when work is completed, and actual authorized quantities and Allowance amounts are established. The allowable variation in quantities is identified in each Unit Price Bid Item.

B. Contract Required Work:

C. Bid Item No. 1 – Mobilization and Demobilization.

1. This is a lump sum bid item for mobilization and demobilization work required for the project. Mobilization work shall include, but not be limited to, that necessary for the movement of personnel, equipment, supplies, and incidentals to the project site; for the establishment of CONTRACTOR'S field facilities necessary for work on

the project; for establishment of staging/lay down areas; for obtaining permits, bonds, and insurance; preparation of surveys and videos of existing access roads and facilities; for providing all risk insurance for the project; for confirming, marking, and determining the depth of all existing utilities that are crossed or otherwise impacted by the work; and for all other work and operations which must be performed or costs incurred prior to beginning work on the various contract items on the project site.

2. Demobilization work shall include, but not be limited to, the removal from the project at the end of construction of all equipment, supplies, field facilities, personnel, and incidentals, and shall include restoration of all staging/lay down areas. The amount bid for mobilization and demobilization shall not exceed 5% of the total project bid.

D. Bid Item No. 2 – Demolition.

1. This is lump sum bid item that shall include furnishing all labor, material, tools, and equipment, and performing all work required to demolish and legally dispose of the existing discharge piping, emergency generator, electrical equipment, controls equipment, associated appurtenances, and selective site demolition of fencing, and miscellaneous onsite facilities, and all other existing improvements that must be demolished to construct the new facilities and site improvements shown in the Contract Documents.

E. Bid Item No. 3 – Site Grading and Asphalt Concrete

1. This is a lump sum bid item for grading required for construction of the new facilities and site improvements shown in the Contract Documents and shall include furnishing all labor,
material, tools, and equipment, and performing all work required, including excavation, stockpiling, hauling and disposal of excess material, imported fill and aggregate base, backfilling, compacting, and testing.

2. This is a lump sum bid item for asphalt concrete paving and shall include furnishing all labor, material, tools, and equipment, and performing all work required, including prime
coat, seal coat and edge support. Payment for sitework concrete shall be based on percent complete.

F. Bid Item No. 4 – Well Building Construction

1. This is a lump sum bid item for the new well building and shall include furnishing all labor, material, tools, and equipment, and performing all work required, including foundations,
flooring, access/doors, HVAC, louvres, masonry walls, removable wall and roof panels, and roofing.

G. Bid Item No. 5 – Electrical and Instrumentation Equipment for New Well Pump

1. This is a lump sum bid item for electrical and instrumentation equipment for the primary wet well and shall include furnishing all labor, material, tools, and equipment, and performing all work including but not limited to installing flow control valve, pump control equipment, chemical feed system, tank, flow meter, main switchboard, motor control center, conduits, and wiring.

H. Bid Item No. 6 – Well Pumps, Piping and Appurtenances.

1. This is a lump sum bid item for the well pumps, piping, and appurtenances and shall include furnishing all labor, material, tools, and equipment, and performing all work required to provide a fully functioning system, including but not limited to furnishing and installing the new pump, well pedestal, discharge piping, fittings, restrained couplings, tapping saddles, pilotry piping, drain piping, drain vault, concrete pipe support, pipe supports, check valves, resilient wedge gate valves, pressure testing, disinfection, pipe trench excavation, backfill and compaction.

I. Bid Item No. 7 - Well Testing and Startup:

1. This is a lump sum bid item for the testing and startup shall include furnishing all labor, material, tools, and equipment, and performing all work required, including but not limited to testing and commissioning of the new well pump.

J. Bid Item No. 8 - All Other Work:

1. This is a lump sum bid item including all labor, materials, tools, and equipment necessary to complete any and all other work not included by the Contractor in Bid Items 1 through
7 and which is required for a complete and operable well system, piping and appurtenances, demolition and abandonment of facilities, cleanup and restoration of site improvements,
and other miscellaneous work needed to complete the project in accordance with all requirement of the project plans, specifications, and required permits to the full satisfaction
of the Owner.

K. Variation in Unit Price Quantities:

1. If a change is ordered in an item of work covered by a Contract Unit Price, and the change does not exceed the specified variation limits of the original bid quantity, then an
adjustment in payment will be made based on the increase or decrease in quantity at the Contract Unit Price. Should the quantity variation exceed an increase or decrease of 25
percent, an adjustment in the Contract Unit Price may be made at the request of the Owner or Contractor. The use of this basis for adjustment of payment shall be limited to that
portion of the change which is in excess of an increase of 25 percent of the original bid quantity.

PART 2 - PRODUCTS

2.01 GENERAL PROGRESS PAYMENT REQUIREMENTS

A. Payment for work performed shall be in accordance with the Cost Loaded CPM. The Construction Manager will verify measurements and quantities. Each activity necessary to manage and complete the work is identified on the contract schedules. Each activity will be assigned its respective value, a portion of the contract price, as shown on the Summary of Values.

B. Payment for all lump sum costs and services incurred on this Contract shall be based on the earned value of work accomplished during the reporting period. Earned value is determined by the completion percentage of each activity applied to the total value of the activity. No construction activity shall be deemed 100% complete until the Contractor has completed the physical check out and inspection of the completed work and has submitted the signed inspection form to the Construction Manager.

C. Unit price items will be paid based on quantities (or equivalent quantities) installed.

D. Earned value is derived from the current status of the Contractor Construction Schedule as determined by the monthly schedule status submittals (Reference Section 01320). Each schedule status submittal is reviewed and approved by the Construction Manager prior to the Contractor obtaining approval for the Summary of Earned Values or quantities installed and the Application for Payment.

E. The Contractor shall not take advantage of any apparent error or omission on the Drawings or Specifications, and the Construction Manager shall be permitted to make corrections and interpretations as may be deemed necessary for fulfillment of the intent of the Contract Documents at no additional cost to the Owner.

F. Two copies of the application for payment shall be submitted. Application shall be made monthly.

G. The Application for Payment contains all necessary references and attachments that substantiate the invoice for progress payment, (e.g., certified payrolls, labor reports, progress schedule data, and Summary of Earned Values). It must be preceded or accompanied by schedule and status data in accordance with Section 01320.

H. The Application for Payment is submitted according to the format and instructions provided by the Owner and is based on work completed through the last day of the previous month or through the date established by the Construction Manager.

PART 3 - EXECUTION

3.01 MONTHLY REVIEWS/APPLICATION FOR PAYMENT

A. Monthly review meetings between the Contractor and the Construction Manager will be held within 7 days prior to the payment application date designated by the Construction Manager. Prior to the monthly review meeting, the Contractor will submit the Master Record Documents as directed by the Construction Manager, an updated

schedule and a signed application for payment showing a Summary of Earned Values for the reporting and payment period so that the Construction Manager can compare earned values to available status data. The Contractor shall make any adjustments to the Master Record Documents, updated schedule, and payment applications deemed necessary. Upon completion of the adjustments the Construction Manager will sign the payment upon request and forward it to the Owner. The Construction Manager will determine payment amounts if agreement with Contractor is not reached.

3.02 PAYMENT FOR PRODUCTS STORED ON SITE

A. The Contractor may request payment for products (material and/or equipment) which will be incorporated in the work and which will be delivered and stored on-site. Payments for products stored at the site shall be based upon the cost of all acceptable materials and equipment not incorporated in the work but delivered and suitably stored at the site; provided each such individual item has a value of more than $5,000 and will become a permanent part of the work. The Application for Payment shall also be accompanied by a bill of sale, invoice, or other documentation warranting that the Contractor has received the materials and the equipment free and clear of all liens, charges, secured interests, and encumbrances and evidence that the materials and equipment are covered by appropriate property insurance as specified in the insurance provisions and other arrangements to protect the Owner's interest.

3.03 PARTIAL PAYMENT FOR MATERIALS STORED OFF SITE

A. The Contractor may request partial payment for products (material and/or equipment) which will be incorporated into the Work and which are delivered and stored off site at a location agreed upon between the contractor and the owner in writing. Any payments approved pursuant to this subsection shall not exceed sixty-five percent (65%) of the Product's invoiced value and shall be subject to retainage as set forth in the Contract Documents. The Owner reserves the right to refuse approval for payment for any Equipment or Materials suitably stored off-site at its sole discretion, regardless of whether all conditions have been met.

B. Partial payment may be made for Products eligible for off-site delivery and storage only upon presentation by the Contractor of a Bill of Sale, an Invoice or an Affidavit certifying that the material is received by the Contractor free and clear of all liens, encumbrances and secured interests of any kind, and including, for off-site delivery, evidence acceptable to the Owner that "all-risks" property insurance in an amount sufficient to protect the interests of the Owner is in effect at the approved site, and that the Owner is a loss payee and an additional insured.

C. Partial payment for Products eligible for off-site delivery and stored off-site shall be contingent upon the Contractor's compliance with the storage and protective maintenance requirements set forth in Section 01620 and all other requirements necessary to preserve equipment warranties for the benefit of the Owner.

D. All costs associated with delivery to, and storage at, an off-site facility shall be assumed by the Contractor notwithstanding the Contractor's request for, and the obtaining from the Owner, approval to so deliver and store the materials.

E. Contractor shall provide written evidence to the Owner of having made arrangements for unrestricted access by the Owner and its authorized representatives, to the materials wherever stored, including provision for the Owner to take control and possession of such materials at any time and without restriction.

F. Contractor must provide the Owner, upon request and prior to any partial payment, documentation which transfers absolute legal title to such materials to the Owner conditional only upon receipt of final payment. Neither such transfer of title nor any partial payment shall constitute acceptance by the Owner of the materials, nor void the right to reject the materials subsequently found to be unsatisfactory, or in any way relieve the Contractor of any obligation arising under the Contract Documents.

END OF SECTION

IV.C SECTION 01045 - EXISTING FACILITIES

PART 1 - GENERAL

1.01 SECTION INCLUDES

A. Requirements for protection and restoration of existing utilities.

B. Connections to existing facilities, including wet tapping.

C. Abandonment of existing facilities.

1.02 RELATED REQUIREMENTS

A. Section 01300, Submittal Procedures.

B. Section 02050, Demolition.

C. Section 03300, Cast-in-Place Sitework Concrete.

1.03 REFERENCES

A. The publications listed below form part of this specification to the extent referenced and are referred to in the text by the basic designation only. Reference shall be made to the latest edition of said standards unless otherwise called for.

ASTM C150 - Portland Cement

ASTM C495 - Standard Test Method for Compressive Strength of Lightweight Insulating Concrete

ASTM C796 - Standard Test Method for Foaming Agents for Use in Producing Cellular Concrete Using Preformed Foam

ASTM C869 - Standard Specification for Foaming Agents Used in Making Preformed Foam for Cellular Concrete American Public Works Association, Standard Plans for Public Works Construction (APWA)

1.04 SUBMITTALS

A. All submittals shall be submitted in accordance with Section 01300, “Submittal Procedures.”

1. Submit drawings and calculations for support and protection at all pipeline crossings, 18-inches and larger, at least 30 days prior to excavation of the crossing.

2. Submit documentation of existing facilities including a copy of all photos and/or videos.

PART 2 - PRODUCTS

2.01 CONCRETE

A. Concrete used for the replacement of damaged or removed facilities shall be in accordance with Section 03300, “Cast-in-Place Sitework Concrete” and shall match the mix design of the existing facility and the requirements of the Jurisdictional Agency.

B. Concrete for plugging abandoned conduits shall be Class 560-C-3250 per Section 03300, “Cast-in-Place Sitework Concrete”.

PART 3 - EXECUTION

3.01 GENERAL

A. Protect utilities in place, unless abandoned, and maintain the utility in service, unless otherwise specified on the Drawings or in the Specifications.

1. Unless indicated otherwise, oil and gasoline pipelines, power, and telephone or the communication cable ducts, gas and water mains, irrigation lines, sewer lines, storm drain lines, poles, and overhead power and communication wires and cables encountered along the line of the Work shall remain continuously in service during all the operations under the Contract.

2. Protect all improvements in place, unless otherwise specified.

3. Protect grading and plantings in place unless otherwise specified.

4. When protecting in place, the Contractor shall take into account all loads, including surcharges and potential surcharges.

B. Replace in kind improvements that are cut, removed, damaged, or otherwise disturbed by the construction.

1. Including pavement, curbs and gutters, ramps, barricades, traffic islands, signalization, fences, signs, mail boxes, etc.

C. Reconstruct utilities with new material of the same size, type, and original quality as that removed, except as indicated on the Drawings or as specifically authorized by the Agency.

D. Where utilities are parallel to or cross the pipeline trench but do not conflict with the permanent work to be constructed, follow the procedures given below and as indicated on the Drawings.

1. Notify the utility owner 48 hours in advance of the crossing construction and coordinate the construction schedule with the utility owner's requirements.

E. Determine the true location and depth of utilities and service connections which may be affected by or affect the work.

1. Determine the type, material, and condition of these utilities in order to provide sufficient lead-time to resolve unforeseen conflicts, order materials and take appropriate measures to ensure that there is no delay in work.

F. The Contractor's attention is drawn to the Drawings which indicate the potholes performed by the Agency.

1. The Contractor is responsible to ensure that the elevations of all existing utilities that are tied into, crossed, or which exist within the work area, are properly located.

2. The Contractor shall perform additional potholing at his own expense should additional information be required by the Contractor which is not already shown on the Drawings.

G. Contractor shall provide temporary support for all pipelines crossing a proposed trench.

1. For all existing pipelines 18-inches in diameter or larger crossing over the proposed pipe with less than 4 feet of clearance, the Contractor shall submit his proposed method of
support for review by the Agency.

2. Facilities may be supported in accordance with APWA Standard Plan 224-2, Sheets 1-4, "Supports for Conduits Across Trenches". The Standard Plan is given in Appendix “A”.

3.02 DOCUMENTATION

A. At least 48 hours prior to beginning physical construction, the Contractor shall document the condition of all potentially impacted roads, the project site, adjacent properties and any other potentially affected areas.

1. At least 48 hours prior to documenting the condition of potentially affected areas, the Contractor shall notify the Agency.

2. The Agency may accompany the Contractor during the documentation process and may obtain additional documentation.

3. The Contractor is not relieved of his responsibility to document conditions if the Agency also obtains documentation.

4. Documentation shall include pictures and/or videos.

5. The documentation shall be kept by the Contractor and made available to the Agency throughout construction and for three years after the Notice of Completion has been filed.

3.03 RIGHTS-OF-WAY

A. The Contractor shall not do any Work that would affect any oil, gas, sewer, or water pipeline; any telephone, or electric transmission line; any fence; or any other structure, nor shall the Contractor enter upon the rights-of-way involved, until notified that the Agency has secured authority therefor from the proper party.

1. After authority has been obtained, the Contractor shall give said party due notice of its intention to begin work, if required by said party.

3.04 PROTECTION OF SURVEY MONUMENTS OR ROADWAY MARKERS

A. The Contractor shall not destroy, remove, or otherwise disturb any existing survey monuments or other existing street or roadway markers without proper authorization.

1. No pavement breaking or excavation shall be started until all survey or other permanent marker points that will be disturbed by the construction operations have been properly referenced.

2. Survey markers or points disturbed by the Contractor shall be accurately restored after pavement repairs or improvements have been completed at no additional cost to the Agency.

3.05 EXISTING UTILITIES AND IMPROVEMENTS

A. The Contractor shall protect underground utilities and other improvements which may be impaired during construction.

1. Regardless of whether or not the utilities are indicated on the Drawings.

B. The Contractor shall take all possible precautions for the protection of unforeseen utility lines to provide for uninterrupted service and to provide such special protection as may be necessary.

1. Prior to any excavation in the vicinity of any existing underground facilities.

a. Underground facilities include all water, sewer, storm drain, gas, petroleum products, or other pipelines; all buried electric power, communications, or television cables; all traffic signal and street lighting facilities; and all roadway and state highway rights-of-way.

b. The Contractor shall notify the respective authorities representing the owners or agencies responsible for such facilities not less than 3 days nor

more than 7 days prior to excavation so that a representative of said owners or agencies can be present during such work if they so desire.

c. The Contractor shall also notify the regional notification center at 1-800-227-2600 or 811 at least 2 days, but no more than 14 days, prior to such excavation.

2. The Contractor shall be responsible for exploratory excavations as it deems necessary to determine the exact locations and depths of utilities which may interfere with its work.

a. Except where the Drawings indicate utilities have been field located during design, such utility locations shall be exposed as part of the Work.

3. All such exploratory excavations shall be performed as soon as practicable after Notice to Proceed and, in any event, a sufficient time in advance of construction to avoid possible delays to the Contractor's progress.

4. When such exploratory excavations show the utility location as shown on the Drawings to be in error, the Contractor shall so notify the Agency.

5. The number of exploratory excavations required shall be that number which is sufficient to determine the alignment and grade of the utility.

6. In case it shall be necessary to move the property of any public utility or franchise holder, such utility company or franchise holder will, upon request of the Contractor, be notified by the Agency to move such property within a specified reasonable time.

a. When utility lines that are to be removed are encountered within the area of operations, the Contractor shall notify the Agency a sufficient time in advance for the necessary measures to be taken to prevent interruption of service.

7. Where the proper completion of the Work requires the temporary or permanent removal and/or relocation of an existing utility or other improvement which is indicated, the Contractor shall remove and, without unnecessary delay, temporarily replace or relocate such utility or improvement in a manner satisfactory to the Agency and the owner of the facility.

a. In all cases of such temporary removal or relocation, restoration to the former location shall be accomplished by the Contractor in a manner that will restore or replace the utility or improvement as nearly as possible to its former locations and to as good or better condition than found prior to removal.

C. The right is reserved to the Agency and to the owners of public utilities and franchises to enter at any time upon any public street, alley, right-of-way, or easement for the purpose of making changes in their property made necessary by the Work of this Contract.

1. Existing Utility lines that are indicated or the locations of which are made known to the Contractor prior to excavation and that are to be retained, and all Utility lines that are constructed during excavation operations shall be protected from damage during excavation and backfilling.

a. If damaged, existing utility lines shall be immediately repaired or replaced by the Contractor, unless otherwise repaired by the owner of the damaged Utility.

b. If the owner of the damaged facility performs its own repairs, the Contractor shall reimburse said owner for the costs of repair.

2. In the event that the Contractor damages existing utility lines that are not indicated or the locations of which are not made known to the Contractor prior to excavation, a verbal
report of such damage shall be made immediately to the Agency and a written report thereof shall be made promptly thereafter.

a. The Agency will immediately notify the owner of the damaged utility.

b. If the Agency is not immediately available, the Contractor shall notify the utility owner of the damage.

c. If directed by the Agency, repairs shall be made by the Contractor under the provisions for changes and extra work contained in Articles of the General Conditions.

3. Work will be paid for as extra work in accordance with the provisions of Articles of the General Conditions.

a. Costs of locating and repairing damage not due to failure of the Contractor to exercise reasonable care.

b. Removing or relocating such utility facilities not indicated in the Contract Documents with reasonable accuracy.

c. For equipment on the project which was actually working on that portion of the Work, which was interrupted or idled by removal or relocation of such utility facilities, and which was necessarily idled during such activity.

4. All repairs to a damaged utility or improvement are subject to inspection and approval by an authorized representative of the utility or improvement owner before being concealed by backfill or other work, unless other arrangements satisfactory to the Agency are made with the owner of said utility or improvement.

a. The Contractor shall be responsible for and shall repair all damage due to its operations, and the provisions of this Section shall not be abated even in the event such damage occurs after backfilling or is not discovered until after completion of the backfilling.

3.06 TREES OR SHRUBS

A. Except where trees or shrubs are indicated to be removed, the Contractor shall exercise all necessary precautions so as not to damage or destroy any trees or shrubs, including those lying within street rights-of-way and project limits.

1. The Contractor shall not trim or remove any trees unless such trees have been approved for trimming or removal by the Jurisdictional Agency.

2. The Contractor shall immediately notify the Jurisdictional Agency if any tree or shrub is damaged by the Contractor's operations.

3. Existing trees and shrubs which are damaged during construction shall be trimmed or replaced by the Contractor or a certified tree company under permit from the Jurisdictional Agency at no additional cost to the Agency.

4. Trimming of trees and shrubs shall comply with the following:

a. Symmetry of the tree shall be preserved; no stubs or splits or torn branches left; clean cuts shall be made close to the trunk or large branch.

b. Spikes shall not be used for climbing live trees.

c. Cuts greater than 1-1/2 inches in diameter shall be coated with a tree paint product that is waterproof, adhesive, elastic, and free from kerosene, coal tar, creosote, or other material injurious to the life of the tree.

5. Replacement of trees and shrubs shall comply with the following:

a. The tree or shrub shall be of a like size and variety as the one damaged, or, if of a smaller size, the Contractor shall pay to the owner of said tree a compensatory payment acceptable to the tree or shrub owner.

b. The size of the tree shall be not less than 1-inch diameter nor less than 6 feet in height.

c. The Contractor shall water and maintain the replacement trees and shrubs for 6 months after planting unless otherwise indicated.

3.07 ABANDONMENT OF PIPELINES

A. When indicated on the Drawings or when directed by the Agency, existing pipelines to be abandoned shall be disconnected from all source pipelines.

1. All above-ground appurtenances connected to pipelines to be abandoned shall be removed and disposed of or salvaged in accordance with Section 02050, “Demolition.”

2. All piping and appurtenances buried at a depth of 24 inches or less and connected to pipelines to be abandoned shall be removed and disposed of or salvaged.

3. Remaining buried pipe ends, gate wells and other appurtenances cut at a depth of 24 inches shall be removed entirely or filled with concrete.

4. Pipe, 6 inches through 15 inches to be abandoned, shall be excavated at intervals of 200 feet, cut and plugged with an 8-inch long concrete plug.

a. Where shown on the Drawings or as directed by the Agency, the pipe shall be completely filled with 2-sack sand cement slurry or lightweight cellular concrete.

5. Pipe 16 inches and larger to be abandoned, shall be completely filled with lightweight cellular concrete per Section 03320, "Engineered Fill for Pipeline Abandonment (16" and Larger)."

6. All valves on pipelines to be abandoned shall be turned to the closed position.

a. The valve box cover shall be removed and the valve box filled with sand.

7. Water services to be abandoned that are connected to pipelines that will remain in service, shall be abandoned in-place and deactivated at the corporation stop.

8. Sewer laterals to be abandoned shall be cut and plugged with concrete at the main.

B. Excavated areas shall be replaced with compacted backfill and surfaces shall be repaired in accordance with the Drawings, Specifications, the requirements of the Agency of Jurisdiction or as directed by the Agency.

3.08 PAVEMENT RESTORATION

A. All paved areas, including asphaltic concrete berms cut or damaged during construction, shall be replaced with similar materials of equal thickness to match the existing adjacent undisturbed areas.

1. Except where specific resurfacing requirements have been called for in the Contract Documents or in the requirements of the Agency issuing the permit.

2. The pavement restoration requirement to match existing sections shall apply to all components of existing sections, including sub-base, base, pavement, curb and gutter, and roadway markings.

3. Temporary and permanent pavement shall conform to the requirements of the affected pavement owner.

4. Pavements which are subject to partial removal shall be neatly saw cut in straight lines.

B. Temporary Resurfacing:

1. Wherever required by the Agencies of Jurisdiction, the Contractor shall place temporary surfacing promptly after backfilling.

2. The Contractor shall maintain such surfacing for the period of time fixed by said Agencies before proceeding with the final restoration of improvements.

C. Permanent Resurfacing:

1. The Contractor shall saw cut back and trim the edge of adjacent surface to provide a clean, sound, vertical joint before permanent replacement of an excavated or damaged portion of
pavement.

2. Permanent pavement shall be restored to finish grades compatible with adjacent undisturbed pavement.

D. Restoration of Sidewalks or Private Driveways:

1. Wherever sidewalks or private roads have been removed for purposes of construction, the Contractor shall place suitable temporary sidewalks or roadways promptly after backfilling.

2. The Contractor shall maintain them in satisfactory condition for the period of time fixed by the Agency of Jurisdiction over the affected portions.

3. If no such period of time is so fixed, the Contractor shall maintain said temporary sidewalks or roadways until the final restoration has been completed.

3.09 CUTTING AND RESTORING ASPHALT AND CONCRETE SURFACES

A. All asphalt and/or Portland cement concrete surfaces shall be scored with sawing equipment of a type meeting the approval of the Agency; providing however, that any concrete base under an asphaltic mix surface will not be required to be scored by sawing.

1. Existing paving surfaces shall be saw cut back beyond the edges of the trenches to form neat square cuts before repaving is commenced.

2. Pavements, sidewalks, curbs, or gutters removed or destroyed in connection with performance of the work shall be saw cut to the nearest score marks, if any.

3. The Contractor shall replace pavements, sidewalks, curbs, or gutters in the same kind, or better, in accordance with the latest specifications, rules, and regulations and subject to the
inspection of the Agency of Jurisdiction.

4. Aggregate base shall be placed beneath the restored pavement to the thickness required by the Agency of Jurisdiction.

END OF SECTION

IV.D SECTION 01060 - SAFETY AND HEALTH

PART 1 - GENERAL

1.01 SAFETY AND HEALTH REGULATIONS

The Contractor shall comply with Safety and Health Regulations for Construction, promulgated by the Secretary of Labor under Section 107 of the Contract Work Hours and

Safety Standards Act, as set forth in Title 29, C.F.R. Copies of these regulations may be obtained from Labor Building, 14th and Constitution Avenue, NW, Washington, DC 20013.

The Contractor shall also comply with the provisions of the Federal Occupational Safety and Health Act, as amended.

The Contractor shall provide his own gas monitoring equipment to assure his and his workers' safety when entering confined spaces. The Contractor shall follow the requirements of Section 7-10.4.5 Confined Spaces of the standard specifications "Greenbook" latest edition. A copy of the contractors Confined Space Entry Program shall be provided to the Engineer for information.

In accordance with generally accepted construction practices, the Contractor shall be solely and completely responsible for conditions of the site, including safety of all persons and property during performance of work, and the Contractor shall fully comply with all local, state and federal laws, rules, regulations, and orders relating to the safety of the public and workers.

The right of Owner or the Owner's Representative to conduct construction review or inspection of the Contractor's performance is not intended to include review or inspection of the adequacy of safety measures in, on, or near the site.

Before any work at the site is started, the Contractor shall have prepared a written plan for project specific safety precautions and programs, complete with respect to procedures and actions that the Contractor and all parties and individuals that will be on the work site are to follow in order for the Contractor and all others to comply with all applicable Laws and Regulations.

The Contractor shall revise their plan for safety precautions and programs at appropriate times to reflect changes in construction conditions, the Contractor means, methods, techniques, sequences and procedures of construction. The Contractor shall disseminate the original plan and revisions to all parties and individuals that will be on the Work site.

The Contractor's plan for safety precautions and programs will not require more stringent safety requirements, training or other qualifications for all others, than the Contractor's sets forth for comparable activity and responsibility of the Contractor, Subcontractors, and Suppliers and their respective employees.

1.02 PUBLIC CONVENIENCE AND SAFETY

The Contractor shall so conduct their operations as to offer the least possible obstruction and inconvenience to the public or facility operations, and they shall have under construction no greater length or amount of work than can be prosecuted properly with due regard to the convenience and safety of the public.

The Contractor shall provide and maintain such fences, barriers, directional signs, lights, and flaggers as are necessary to give adequate warning to the public at all times of any dangerous conditions to be encountered as a result of the work and to give directions to the public.

1.03 EXCAVATION PLANS FOR WORKER PROTECTION

The Contractor shall submit to Owner, in advance of excavation, a detailed plan showing the design of shoring, bracing, sloping, or other provisions to be-made for worker protection from the hazard of caving ground during excavation. The plan shall be prepared by a registered civil or structural engineer. As a part of the plan, a note shall be included stating that the registered civil or structural engineer certifies that the plan complies with the CALOSHA Construction Safety Orders, or stating that the registered civil or structural engineer certifies that the plan is not less effective than the shoring, bracing, sloping, or other provisions of the safety orders. The contractor shall also submit copies of all permits that are obtained for the excavation work.

All shoring submittals shall include surcharge loads from adjacent embankments, construction loads and spoil bank. The submittal shall indicate the minimum horizontal distance from the top of trench to the edge of all surcharge loads for all cases of shoring and side slopes.

Nothing contained in this paragraph shall be construed as relieving the Contractor of the full responsibility for providing shoring, bracing, sloping, or other provisions which are adequate for worker protection.

PART 2 - PRODUCTS (NOT APPLICABLE)

PART 3 - EXECUTION (NOT APPLICABLE)

END OF SECTION

IV.E SECTION 01300 - SUBMITTALS

PART 1 - GENERAL

1.01 GENERAL

A. All submittals by the Contractor shall be submitted to the Agency.

B. Unless otherwise noted, within fifteen (15) days after the date of commencement as stated in the Notice to Proceed, the Contractor shall submit the following items to the Agency for review:

1. A list of submittals with scheduled submission dates. This list shall include specification section number, description of the submittal, scheduled submission date, and anticipated approval date. The Contractor's schedule shall be based on a minimum of one resubmittal for each shop drawing and sample.

C. A list of all permits and licenses the Contractor is required to obtain, indicating the agency required to grant the permit, the expected date of submittal for the permit, and required date for receipt of the permit.

D. The Contractor is responsible for identifying and delivering all submittals and/or permits required by the Contract Documents.

1.02 LONG LEAD ITEMS

A. Submittals for long lead items shall be provided within 14 calendar days of the commencement date stated in the NTP.

1. The following items are anticipated to be long lead items (greater than 16 weeks):

a. Well Pump

b. Variable-frequency drive

c. Automatic transfer switch

1.03 SHOP DRAWINGS

A. Wherever called for in the Contract Documents, the Contractor shall furnish to the Agency for review, four (4) copies of each shop drawing submittal. The term "Shop Drawings" as used herein shall be understood to include detail design calculations, shop drawings, fabrication and installation drawings, erection drawings, lists, graphs, catalog sheets, data sheets, and similar items. The Contractor shall submit, as applicable, the following for all mechanical and plumbing equipment:

1. Complete manufacturer's specifications, including materials description and coatings.

2. Requirements for storage and protection prior to installation.

3. Installation procedures.

4. List of all requested exceptions to the Contract Documents and/or variations from the specified equipment.

B. All shop drawing submittals shall be accompanied by the Agency's standard submittal transmittal form. Any submittal not accompanied by such a form, or where all applicable items on the form are not completed, will be returned for resubmittal.

1. Sequentially number the transmittal forms. Resubmittals shall have original number with an alphabetic suffix.

2. Identify Contract, Contractor, Subcontractor and/or Supplier, pertinent drawing sheet and detail number(s), and specification

3. number, as appropriate. On standard drawings or data sheets, clearly indicate model and option being proposed and strike out all non-relevant data.

C. Normally, a separate transmittal form shall be used for each specific item or class of material or equipment for which a submittal is required. Transmittal of a submittal of various items using a single transmittal form will be permitted only when the items taken together constitute a manufacturer's "package" or are so functionally related that expediency indicates review of the group or package as a whole. A multiple-page submittal shall be collated into sets, and each set shall be stapled or bound, as appropriate, prior to transmittal to the Agency.

D. Except as may otherwise be indicated herein, the Agency will return four (4) prints of each submittal to the Contractor with comments noted within twenty (20) calendar days following their receipt by the Agency. It is considered reasonable that the Contractor shall make a complete and acceptable submittal to the Agency by the second submission of a submittal item. Additional submittal reviews will be conducted at the Contractor's expense as outlined in the General Conditions of these Specifications. Alternatively, the Agency reserves the right to withhold monies due the Contractor to cover additional costs of the Agency's review beyond the second submittal. The Agency's maximum review period for each submittal, will be twenty (20) days per submittal and the Contractor's resubmittal shall be made within twenty (20) days. Therefore, for a submittal that requires a second submittal before it is complete, the maximum period for that submittal could be seventy (70) days.

E. If four (4) copies of a submittal are returned to the Contractor marked "NO EXCEPTIONS TAKEN," formal revision and resubmission of said submittal will not be required.

F. If four (4) copies of a submittal are returned to the Contractor marked "MAKE CORRECTIONS NOTED," formal revision and resubmission of said submittal will not be required, unless specifically requested.

G. If a submittal is returned to the Contractor marked "REJECTED-RESUBMIT," the Contractor shall revise said submittal and shall resubmit the originally required number of copies of said revised submittal to the Agency.

H. Fabrication of an item shall be commenced only after the Agency has reviewed the pertinent submittals and the Agency has returned copies to the Contractor marked either "NO EXCEPTIONS TAKEN" or "MAKE CORRECTIONS NOTED." Corrections indicated on submittals shall be considered as changes necessary to meet the requirements of the Contract Documents and shall not be taken as the basis for changes to the contract requirements.

I. All Contractor shop drawing submittals shall be carefully reviewed by an authorized representative of the Contractor, prior to submission to the Agency. Each submittal shall be dated, signed, and certified by the Contractor, as being correct and in strict conformance with the Contract Documents. In the case of shop drawings, each sheet shall be so dated, signed, and certified. No consideration for review by the Agency of any Contractor submittals will be made for any items which have not been so certified by the Contractor. All non-certified submittals will be returned to the Contractor without action taken by the Agency, and any delays caused thereby shall be the total responsibility of the Contractor.

J. The Agency's review of Contractor shop drawing submittals shall not relieve the Contractor of the entire responsibility for the correctness of details and dimensions. The Contractor shall assume all responsibility and risk for any misfits due to any errors in Contractor submittals. The Contractor shall be responsible for the dimensions and the design of adequate connections and details. Neither review nor approval of shop drawings or submittals by the Agency shall relieve the Contractor from responsibility for errors,

omissions, or deviations from the Contract Documents, unless such deviations were specifically called to the attention of the Agency in the letter of transmittal.

K. The Agency may schedule a submittal conference to provide for a rapid review of a submittal, should the project schedule warrant such a review. The Agency, Design Engineer, Contractor, and a qualified manufacturer's representative shall attend the submittal conference.

L. Requests for Information (RFIs) shall be submitted to the Engineer using the RFI form which accompanies this section. RFIs shall be numbered consecutively from the beginning of the project through the completion of the project.

M. The contractor shall submit shop drawings for the following:

1. Pipe and fittings.
2. Valves & valve boxes.
3. Pipeline Appurtenances
4. Concrete.
5. Steel.
6. Electrical Work
7. Other materials required by these Specifications

1.04 CONTRACTOR'S SCHEDULE

A. The Contractor's construction schedules and reports shall be prepared and submitted to the Agency in accordance with the Special Conditions.

1.05 WATER POLLUTION CONTROL PROGRAM

A. A Water Pollution Control Program (WPCP) will be completed by the Contractor and submitted for approval by the Agency. The WPCP shall be completed by a qualified individual and shall conform to the State of California requirements for projects of a similar nature.

1.06 SAMPLES

A. Whenever, in the Specifications, samples are required, the Contractor shall submit not less than four (4) samples of each such item or material to the Agency for review.

B. Samples, as required herein, shall be submitted for acceptance a minimum of thirty (30) days prior to ordering such material for delivery to the job site, and shall be submitted in an orderly sequence so that dependent materials or equipment can be assembled and reviewed without causing delays in the Work.

C. All samples submitted to the Agency shall be individually and indelibly labeled or tagged, indicating thereon all specified physical characteristics and the Manufacturer's name for identification. Upon receiving acceptance of the Agency, two (2) sets of the samples will be returned to the Contractor by the Agency. One set of samples will be retained by the

Agency, and one set of samples shall remain at the job site with the Agency until completion of the Work.

D. Unless indicated otherwise, all colors and textures of specified items presented in sample submittals shall be from the manufacturer's standard colors and standard materials, products, or equipment lines. If the samples represent non-standard colors, materials, products, or equipment lines and their selection will require an increase in contract time or price, the Contractor shall clearly indicate same on the transmittal page of the submittal.

PART 2 - PRODUCTS (NOT APPLICABLE)

PART 3 - EXECUTION (NOT APPLICABLE)

END OF SECTION

IV.F SECTION 01320 - SCHEDULING AND REPORTING

PART 1 - GENERAL

1.01 GENERAL DESCRIPTION

This section specifies the scheduling of the work, which shall be performed by the Contractor. The development of the schedule, the cost loading of the schedule, monthly payment requisitions and project status reporting requirements of the Contract shall employ computerized Critical Path Method (CPM) scheduling. The CPM Schedule shall be cost loaded based on the schedule of values as approved by the Owner. The CPM schedule and all reports should be prepared with "MS Office" software or equal. Where submittals are required hereunder, the Contractor shall submit four copies of each submittal item.

The Contractor shall provide one unopened software package of the approved CPM scheduling program within ten (10) days after the Notice to Proceed. The software package shall be registered to the Owner and shall be complete with all options to facilitate all the requirements presented in this section, including printing capabilities.

1.02 INITIAL SCHEDULE SUBMITTALS

The Contractor shall submit two short term schedule documents at the Preconstruction Conference which shall serve as the Contractor's Plan of Operation for the initial 60 day period of the Contract Time and to identify the manner in which the Contractor intends to complete all work within the Contract Time. The Contractor shall submit (1) a 60-day Plan of Operation bar chart, and (2) a project overview bar chart type plan for all work as indicated below.

A. 60-Day Plan of Operation: During the initial 60 days of the Contract Time, the Contractor shall conduct Contract operations in accordance with the 60 day bar chart Plan of Operation. The bar chart so prepared and submitted shall show the accomplishment of the Contractor's early activities (mobilization, permits, submittals necessary for early material and equipment procurement, submittals necessary for long lead equipment

procurement, CPM submittals, initial site work and other submittals and activities required in the first 60 days).

B. Project Overview Bar Chart: The overview bar chart shall indicate the major components of the project work and the sequence relations between major components and subdivisions of major components. The overview bar chart shall indicate the relationships and time frames in which the various components of the work will be made substantially complete and placed into service to meet the project milestones. Sufficient detail shall be included for the identification of subdivisions of major components into such activities as (1) excavation, (2) foundation subgrade preparation, (3) foundation concrete, (4) completion of all structural concrete, (5) major mechanical work, (6) major electrical work, (7) instrumentation and control work, and (8) other important work for each major facility within the overall project scope. Planned durations and start dates shall be indicated for each work item subdivision. Each major component and subdivision component shall be accurately plotted on time scale sheets not to exceed 36-inch by 60-inch in size. Not more than four sheets shall be employed to represent this overview information.

C. The Owner and the Contractor shall meet to review and discuss the 60-day plan of operations and project overview bar chart within 5 days after they have been submitted to the Owner. The Owner's review and comment on the schedules shall be limited to Contract conformance with the sequencing and milestone requirements as stated in other sections of the specifications. The
Contractor shall make corrections to the schedules necessary to comply with the Contract requirements and shall adjust the schedules to incorporate any missing information requested by the Owner.

1.03 CPM SCHEDULE SUBMITTALS

A. Original CPM Schedule Submittal: Within 45 days after the commencement date stated in the Notice to Proceed, the Contractor shall submit for review by the Owner a hard copy of the CPM Network Schedule and the Computerized Schedule Report tabulations. The Contractor shall also submit a CD (compact disk) that contains all of the schedule submittal information and data. A new disk with updated information shall be submitted with each change or submission of the CPM schedule. The disk shall contain data compatible with MS Office to generate network diagrams and schedule reports identical to the hard copies submitted. This submittal shall have already been reviewed and approved by the Contractor's Project Manager, Project Superintendent, and the Project Estimator prior to submission. The CPM Schedule shall be a time-scaled network diagram of the "I-j" activity-on-arrow or precedence type. The Network Diagram shall describe the activities to be accomplished and their logical relationships and show the Critical Path. The schedule shall contain sufficient detail and information to cost load the CPM schedule in accordance with the approved schedule of values as specified. Each installation and site work activity shall have been cost loaded as specified.

The Computerized Schedule Report tabulations shall include the following:

1. Report of activities sorted by Activity Number.

2. Report of activities sorted by Early Start date.

3. Report of activities sorted by Total Float.

4. Report of activities sorted by Responsibility Code. Responsibility Codes shall be established for the Contractor, Owner, subcontractors, suppliers, etc. These codes shall be identified in the Network Diagram.

5. A successor-predecessor report which shall identify the successor and predecessor activities for each activity and ties between schedule activities.

6. Cost loaded report supporting partial payment request.

B. Original CPM Schedule Review Meeting: The Contractor shall, within fifty-five (55) days from the commencement date stated in the Notice to Proceed, meet with the Owner to review the original CPM schedule submittal. The Contractor shall have his Project Manager, Project Superintendent, and the Project Scheduler in attendance. The Owner's review will be limited to the submittal's conformance to the Contract requirements. However, the review may also include:

1. Clarifications of the design intent, process, and startup requirements.

2. Directions to include activities and information missing from the submittal.

3. Requests to the Contractor to clarify the schedule.

C. Revisions to the Original CPM Schedule: Within sixty-five (65) days after the commencement date stated in the Notice to Proceed, the Contractor shall have revised the original CPM schedule submittal to address all review comments from the original CPM schedule review meeting and resubmit the network diagrams and reports for the Owner's review. The Owner, within fourteen (14) days from the date that the Contractor submitted the revised schedule will either (1) accept the schedule and cost loaded activities as submitted, or (2) advise the Contractor in writing to review any part or parts of the schedule which either do not meet the Contract requirements or are unsatisfactory for the Owner to monitor the project's progress and status or evaluate monthly payment requests by the Contractor. The Owner may accept the schedule with conditions that the first monthly CPM schedule update be revised to correct deficiencies identified. When the schedule is accepted, it shall be considered as the "Original CPM Construction Schedule" until an updated schedule has been submitted. The Owner reserves the right to require that the Contractor adjust, add to, or clarify any portion of the schedule which may later be discovered to be insufficient for the monitoring of the Work or approval of partial payment requests. No additional compensation will be provided for such adjustments, additions or clarifications.

D. Acceptance: The acceptance of the Contractor's schedule by the Owner will be based solely upon the schedule's compliance with the Contract requirements. By way of the Contractor assigning activity durations and proposing the sequence of the Work, the Contractor agrees to utilize sufficient and necessary management and other resources to perform the work in accordance with the schedule. Upon submittal of a schedule update,

the updated schedule shall be considered the "current" project schedule. Submission of the Contractor's progress schedule to the Owner shall not relieve the Contractor of the Contractor's total responsibility for scheduling, sequencing, and pursuing the Work to comply with the requirements of the Contract Documents, including adverse effects such as delays resulting from ill-timed work.

E. Monthly Updates and Periodic CPM Schedule Submittals: Following the acceptance of the Contractor's Original Construction Schedule, the Contractor shall monitor the progress of the
Work and adjust the schedule each month to reflect actual progress and any changes in planned future activities. Each schedule update submitted must be complete including all information
requested in the original schedule submittal and that shown in Subsection 6.0. Each update shall continue to show all work activities including those already completed. These completed
activities shall accurately reflect the "as built" information by indicating when the work was actually started and completed.

Neither the submission nor the updating of the Contractor's original schedule submittal nor the submission, updating, change or revision of any other report, curve, schedule or narrative
submitted to the Owner by the Contractor under this Contract, nor the Owner's review or acceptance of any such report, curve, schedule or narrative shall have the effect of amending or
modifying, in any way, the Contract completion date or milestone dates or of modifying or limiting, in any way, the Contractor's obligations under this Contract. Only a signed, fully executed change order can modify these contractual obligations.

The monthly schedule update submittal will be reviewed with the Contractor during a monthly construction progress meeting held on the twentieth (20th) work day of each month. The goal of
these meetings is to enable the Contractor and the Owner to initiate appropriate remedial actions to minimize any known or foreseen delay in completion of the Work and to determine the amount of Work completed since the last month's schedule update. The status of the Work will be determined by the percent complete of each activity shown in the Network Diagram. These
meetings are considered a critical component of the overall monthly schedule update submittal and the Contractor shall have appropriate personnel attend. As a minimum, these meetings shall
be attended by the Contractor's Project Manager and General Superintendent. Within seven (7) working days after the monthly progress meeting, the Contractor shall submit the revised CPM
Network Diagram, the revised CPM computerized tabulations as noted in this Section, the revised successor/predecessor report, the Project Status Reports as defined by Subsection 7.0 and the Contractor's Application for Payment. Within five (5) working days of receipt of

the above noted revised submittals, the Owner will either accept or reject the monthly schedule update submittal. If accepted, the percent complete shown in the monthly update will be the basis for the Application for Payment to be submitted by the Contractor. If rejected, the update shall be
corrected and resubmitted by the Contractor before the Application for Payment for the update period can be processed.

F. Schedule Revisions: The Contractor shall highlight or otherwise identify all changes to the Network Diagram Schedule Logic or activity durations made from the previous schedule. The Contractor shall modify any portions of the CPM schedule which become infeasible because of activities behind schedule or for any other valid reason.

1.04 CHANGE ORDERS

Upon approval of a change order, or upon receipt by the Contractor of authorization to proceed with additional work, the change shall be reflected in the next submittal of the CPM schedule by the Contractor. The Contractor shall utilize a sub-network in the schedule depicting the changed work and its effect on other activities. This sub-network shall be tied to the main network with the appropriate logic so that a true analysis of the Critical Path can be made.

1.05 CPM STANDARDS

A. Definitions: CPM, as required by this Section, shall be interpreted to be generally as outlined in the Association of General Contractors (AGC) publication, "The Use of CPM in Construction." except that either "I-j" arrow diagrams or precedence diagramming format may be utilized. In the case of conflicts between this specification and the AGC Document, this specification shall govern.

B. Construction Schedules: Construction schedules shall include a graphic network diagram and computerized construction schedule reports as described in Paragraph 8.0.

C. Networks: The CPM network shall be in a form of a pure logic diagram or, if directed or approved by the Owner, a time scaled "I-j" activity-on-arrow or precedence type diagram and may be divided into a number of separate sheets with suitable match lines relating the interface points among the sheets. Individual sheets shall not exceed 36-inch by 60-inch (maximum 2 sheets).

D. Except for a pure logic diagram, all construction activities and procurement shall be indicated in a time-scaled format and a calendar time line shall be shown along the entire sheet length. Each activity arrow or node shall be plotted so that the beginning and completion dates of each activity are accurately represented along the calendar time line. All activities shall be shown using the symbols that clearly distinguish between critical path activities, non-critical activities and free float for each non-critical activity. All activity items shall be identified by their respective Activity Number, Responsibility Code, Work Duration, and their Dollar Value. All non-critical path activities shall show their total float time in scale form by utilizing a dotted line or some other graphical means.

E. Duration Estimates: The duration estimate indicated for each activity shall be computed in working days and shall represent the single best estimate considering the scope of the activity work and resources planned for the activity. Except for certain non-labor activities, such as curing of concrete or delivery of materials, activity duration shall not exceed 10 working days nor be less than one working day unless otherwise accepted by the Owner.

F. Float Time: Float time shall be as follows:

1. Definition: Unless otherwise provided herein, float as referenced in these documents, is total float. Total float is the period of time measured by the number of working days each non-critical path activity may be delayed before it and its succeeding activities become part of the critical path. If a non-critical path activity is delayed beyond its float period, that activity then becomes part of the critical path and controls the end date of the project. Thus, the delay of the non-critical path activity beyond its float period will cause delay to the project itself.

2. Float Ownership: Neither the Owner nor the Contractor owns the float time. The project owns the float time. As such, liability for delay of the project completion date rests with the party actually causing delay to the project completion date. For example, if Party A uses some, but not all of the float time and Party B later uses the remainder of the float time as well as additional time beyond the float time, Party B shall be liable for the costs associated with the time that represents a delay to the project's completion date. Party A would not be responsible for any costs since it did not consume all of the float time and additional float time remained, therefore, the project's completion date was unaffected.

1.06 SCHEDULE REPORTS (FORMAT)

A. Schedule Reports: Schedule Reports shall be prepared based on the Construction Schedule, and shall include the following minimum data for each activity:

1. Activity Numbers and Responsibility Codes.

2. Contract Number

3. Estimated Activity Duration.

4. Activity Description.

5. Activity's Percent Completion.

6. Early Start Date (Calendar Dated).

7. Early Finish Date (Calendar Dated).

8. Late Start Date (Calendar Dated).

9. Late Finish Date (Calendar Dated).

10. Status (Whether Critical).

11. Total Float for Each Activity.

12. Free Float for Each Activity.

13. Cost Value for Each Activity.

B. Project Information: Each Schedule Report shall be prefaced with the following summary data:

1. Project Name.

2. Contractor.

3. Contract No.

4. Type of Tabulation.

5. Project Duration.

6. Contract Completion Date (revised to reflect time extensions).

7. The Commencement Date Stated in the Notice to Proceed.

8. The Data Date and Plot Date of the Network Diagram.

9. If an update, the new schedule completion date.

1.07 PROJECT STATUS REPORTING

A. In addition to the submittal requirements for the CPM scheduling identified in this Section, the Contractor shall provide monthly project status reports (Overview Bar Chart and a written narrative report) to be submitted in conjunction with the revised CPM Schedules as specified in Subsection 3.0. Status reporting shall be in the form specified below.

B. The Contractor shall prepare and submit monthly, an Overview Bar Chart schedule of the major project components. The overview bar chart schedule shall be a summary of the current CPM schedule (original and as updated and adjusted throughout the entire construction period). It shall be limited to not more than two sheets which shall not exceed 36-inch by 60-inch. The major project components shall be represented as time bars which shall be subdivided into various types of work including demolition, excavation and earthwork, yard piping, concrete construction, mechanical, electrical and instrumentation installations. Major components shall include each new structure by area designation, sitework, modifications to existing structures, tie-ins to existing facilities and startups.

Each major component and subdivision shall be accurately time scale plotted consistent with the project overview bar chart specified above. It shall represent the same status indicated by early start and finish activity information contained in the latest update of the CPM schedule. In addition, a percent completion shall be indicated for each major component and subdivision. The initial submittal of the overview bar chart schedule shall be made at the time that the revised original CPM schedule is submitted to the Owner (15 days from the commencement date stated in the Notice to Proceed). The Contractor shall amend the overview schedule to include any additional detail required by the Owner. The

Contractor shall include any additional information requested by the Owner at any time during the construction of the Work.

C. The Contractor shall prepare monthly written narrative reports of the status of the project for submission to the Owner. Written status reports shall include:

1. The status of major project components (Percent Complete, amount of time ahead or behind schedule) and an explanation of how the project will be brought back on schedule
if delays have occurred.

2. The progress made on critical activities indicated on the CPM schedule.

3. Explanations for any lack of work on critical path activities planned to be performed during the last month.

4. Explanations for any schedule changes, including changes to the logic or to activity durations.

5. A list of the critical activities scheduled to be performed in the next two month period.

6. The status of major material and equipment procurement.

7. The value of materials and equipment properly stored at the site, but not yet incorporated into the work-in-place.

8. Any delays encountered during the reporting period.

9. An assessment of inclement weather delays and impacts to the progress of the Work.

The Contractor may include any other information pertinent to the status of the project. The Contractor shall include additional status information requested by the Owner.

1.08 INCLEMENT WEATHER PROVISIONS OF THE SCHEDULE

A. The Contractor's construction schedule shall include at least ten (10) lost days on the CPM schedule's critical path due to inclement weather.

1.09 LIQUIDATED DAMAGES

A. If any submittal required by this Section is determined by the Owner to be incomplete or is submitted later than required, the Owner will suffer financial loss and, accordingly, liquidated damages will be assessed against the Contractor in accordance with these specifications.

PART 2 - PRODUCTS (NOT APPLICABLE)

PART 3 - EXECUTION (NOT APPLICABLE)

END OF SECTION

IV.G SECTION 01500 - CONSTRUCTION FACILITIES AND TEMPORARY CONTROLS

PART 1 - GENERAL

1.01 WORK INCUDED

A. Mobilization, storage yard, temporary utilities, security, access roads and parking areas, temporary controls and traffic regulation.

1.02 RELATED WORK

A. Section 01300: Submittals

1.03 SUBMITTALS

A. Storage yard description shall describe contractor's proposed methods for dust and noise control in storage areas to satisfaction of Owner.

1.04 MOBILIZATION

A. Obtain temporary easements, which Contractor may require for construction activities outside of existing easements and/or rights of way secured by Owner, at Contractor's expense.

1.05 TEMPORARY UTILITIES

A. Construction power shall be purchased or generated on-site for constructing Work where existing outlets are not available.

B. Provide safe drinking water and sanitation facilities on jobsite at all times.

C. Construction telephone shall be available at site at all times Work is in progress. Cellular phones are acceptable.

1.06 CONSTRUCTION AIDS

A. Scaffolding, rigging, hoisting and services needed to safely deliver and install products shall be provided. Remove same from premises when installation is complete.

1.07 TEMPORARY CONTROLS

A. Dust control operations shall prevent construction dust from harming or annoying persons living in or occupying buildings near Work. Use water or dust preventative to control dust. Cover or wet loads of excavated material or rubbish leaving site or of material being imported to prevent blowing dust.

B. Noise control shall be done to comply with local noise ordinances. Schedule Work to comply with noise ordinances. Install sound barriers if needed to comply with noise ordinances and Contract Documents.

C. Fire danger shall be minimized at and near construction site. Protect surrounding private property from fire damage resulting from construction operations.

D. Storm water management operations shall be conducted and maintained as needed to prevent runoff or seepage from entering excavations and to control erosion in

conformance with
Federal, State and local regulations.

1.08 TRAFFIC REGULATION

A. Contractor shall implement whatever traffic control measures may be required to facilitate the Work of this contract, at no additional cost to Owner.

1.09 UNIT PRICES

A. Payment for verification of field dimensions and utility locations will be included in the price bid for items of Work which may require relocation or refitting if field dimensions differ from
those shown on plans.

B. Payment for power to be furnished by Contractor for construction use will be included in the price bid for items to which it is appurtenant. Payment under these items will include full
compensation for furnishing labor, products, tools, and equipment and doing work necessary to obtain and distribute power to construction purposes.

C. Payment for costs arising from fire or prevention of fire will be included in the price bid for items of work for which fire protection during construction is needed.

D. Payment for noise control facilities will be included in the price bid for items of work where noise control facilities are required during construction.

1.10 CONSTRUCTION SURVEYING

A. The first set of construction surveying/staking will be provided by the Owner. If additional survey and staking is required due to lost stakes the Contractor shall be required to pay for these costs. These costs will be deducted from monies due the Contractor by the Owner.

PART 2 - PRODUCTS (NOT APPLICABLE)

PART 3 - EXECUTION (NOT APPLICABLE)

END OF SECTION

IV.H SECTION 01505 - MOBILIZATION

PART 1 - GENERAL

1.01 GENERAL

A. Mobilization shall include the acquisition of all permits; moving onto the site all equipment; furnishing and erecting temporary buildings, and other construction facilities; and implementing security requirements; all as required for the proper performance and completion of the work. Mobilization shall include but not be limited to the following principal items:

1. Moving on to the site of all Contractor's equipment required for construction operations.

2. Installing temporary construction power, wiring, and lighting facilities.

3. Establishing fire protection system.

4. Developing construction water supply as required.

5. Providing all on-site communication facilities, including telephones and radios for Contractor personnel.

6. Providing on-site sanitary facilities and potable water facilities for Contractor personnel.

7. Arranging for, and establishment of, Contractor's storage yard as required. (Contractor is solely responsible for obtaining property owner agreements to use private property for storage or laydown areas per the contract documents.)

8. Constructing and implementing security features and requirements in compliance with the Contract Documents.

9. Obtaining all required permits.

10. Having all OSHA required notices and establishment of safety programs.

11. Submitting initial submittals.

1.02 CONSTRUCTION FACILITIES PLAN

A. Prior to commencement of any field work, the Contractor shall submit a Construction Facilities Plan to Construction Manager for approval. Said plan shall show the layout, equipment, materials and procedures that Contractor proposes for construction of temporary electrical, telephone, lighting, heating, water, sanitation, field sheds, and other similar site facilities.

B. The Contractor's construction facilities shall be of a temporary nature. The Contractor shall be wholly responsible for the security of his site laydown area, and for all its materials, equipment and tools at all times.

PART 2 - PRODUCTS (NOT APPLICABLE)

PART 3 - EXECUTION (NOT APPLICABLE)

END OF SECTION

IV.I SECTION 01630 - OPERATION AND MAINTENANCE MANUALS

PART 1 - GENERAL

1.01 SCOPE

A. All Operation and maintenance manuals shall be provided and shall consist of the names and addresses of the manufacturer, the nearest representative of the

manufacturer, and the nearest supplier of the manufacturer's equipment and parts. In addition, when applicable, the following items of information shall be provided for each item of equipment or equipment assembly:

1. Lubrication Information: This shall consist of the manufacturer's recommendations regarding the equipment lubricants to be used and the lubrication schedule to be followed.

2. Control Diagrams: Diagrams shall show internal and connection wiring, terminal numbers and wire numbers.

3. Start-Up Procedures: These instructions consist of the equipment manufacturer's recommendations for installation, adjustment, calibration, and troubleshooting.

4. Operating Procedures: These instructions shall consist of the equipment manufacturer's recommended step-by-step procedures for starting, operating, and stopping the equipment under specified modes of operation.

5. The manuals shall include a discussion of automatic control of the pumps as well as all other equipment. In addition, detailed, step-by-step procedures shall be included for manual operation of all equipment.

6. Preventative Maintenance Procedures: These instructions shall consist of the equipment manufacturer's recommended steps and schedules for maintaining the equipment. Included shall be equipment data sheet and pump curves, if applicable.

7. Overhaul Instructions: These instructions shall consist of the equipment manufacturer's directions for the disassembly, repair and reassembly of the equipment and any safety precautions that must be observed while performing the work.

8. Parts List: This list shall consist of all parts, their applicable numbers and materials of construction.

9. Spare Parts List: This list shall consist of the equipment manufacturer's recommendations of number of parts which should be stored by the Owner, any special tools that are not readily available from a major tool supplier and storage precautions which are required.

10. Exploded View: Exploded or cut views of equipment shall be provided if available as a standard item of the manufacturer's information. When exploded or cut views are not available, plan and section views shall be provided with detailed callouts.

11. Cross-sectional View: Cut view showing details of construction.

12. Warranty: Warranty and Maintenance Contract documentation shall be included in the Operation and Maintenance Manual.

13. Specific Information: When items of information not included in the above list are required, they will be provided as described in the specification for the equipment.

14. Provide paint manufacturer's name and blend number for each type of paint used on each piece of equipment.

1.02 DRAFT OPERATIONS AND MAINTENANCE MANUALS

Two copies of the draft operation and maintenance manuals shall be submitted to the Engineer for review and comment. If manufacturer's standard brochures and manuals are used to describe operation and maintenance procedures, such brochures and manuals shall be modified to reflect only the model or series of equipment used on this project. Extraneous material shall be crossed out neatly or otherwise annotated or eliminated.

1.03 FINAL TRANSMITTAL PROCEDURE

Once the draft operation and maintenance manuals are revised based on review comments, two copies of the specified final operation and maintenance manuals shall be provided to the District. The information shall be originals and shall be 3-hole punched and inserted into an overall binder. For ease of identification, each section of the operation and maintenance manual shall be clearly labeled with tabs. A table of contents shall be included in the front of the operation and maintenance manual.

PART 2 - PRODUCTS

2.01 PAYMENT

Acceptable operation and maintenance manuals must be delivered to the Engineer before the Contractor performs the operational testing of the reservoir and appurtenances. Progress payments for items related to testing, close-out, or warranty will not be made until the specified acceptable operation and maintenance manuals have been delivered to the Engineer.

2.02 FIELD CHANGES

Following the acceptable installation and operation of an equipment item, the item's instructions and procedures shall be modified and supplemented by the Contractor to reflect any field changes or information requiring field data.

END OF SECTION

IV.J SECTION 01640 - PRODUCT SUBSTITUTION PROCEDURES

PART 1 GENERAL

1.01 SECTION INCLUDES

A. Procedures and requirements for substituting products.

1.02 RELATED REQUIREMENTS

A. Section 01300, Submittals

1.03 GENERAL REQUIREMENT

A. In compliance with the provisions of Section 3400 of the Public Contract Code of the State of California, the Contractor will have thirty (30) calendar days after award of the contract to submit data substantiating a request for substituting any “or equivalent” items. Substitution requests shall be submitted and accepted by the District prior to the Contractor ordering materials.

B. Standard Products - Where products are specified by reference standard, any product meeting the standards referenced may be used. Information on such products shall be submitted in accordance with the requirements of Section 01300.

C. Proprietary Products – Where products or processes are specified or listed in the approved material list by trade, patent or proprietary name, said specification or approved material list, unless marked "no exceptions", shall be deemed to be followed by the words "or accepted equal accepted in writing by the District." In such case substitution of similar products as “accepted equals” will be considered under this section.

D. Selection of Proprietary Product - Where more than one proprietary name is specified or listed in the approved material list, the Contractor may provide any one of the products specified. Only one manufacturer shall be used for each specific application throughout the Work notwithstanding that similar materials or equipment of two or more manufacturers or producers may be specified for the same application.

E. Substitution Request Procedure - Submit a written request on the enclosed form for proposed substitutions to the District prior to deadline for receipt of substitution requests. Submit proposed substitutions relating to a particular subcontract or trade in a single package. If the District accepts any proposed substitutions, such acceptance will be set forth in an Addendum. No substitution will be considered after the deadline for receipt of substitution requests has expired.

F. Contractor's Responsibility for Construction Modifications - Drawings have been detailed in compliance with dimensions and International Council of Building Officials (ICBO) Evaluation Report data for products specified. If proposed substitute product is accepted by the District, the Contractor shall assume both responsibility for construction modifications and additional costs required by reason of this acceptance. If substitution results in a decrease in cost, potential savings to the District may be submitted to the District for consideration.

G. Systems of Like Manufacture - Where products are specified in groups to be furnished by one manufacturer, no substitution will be considered that is not similarly furnished by one manufacturer. Where the Contractor proposes to use a system of equipment other than that shown in the Contract Documents, the substitution shall be proposed as a complete system.

H. No time extension will be allowed for substitution of materials.

1. Submittals

    a. Furnish the following submittals for substitution requests.

SUBMITTAL	DESCRIPTION
Substitution Request Form	Submit Substitution Request on form furnished (under attachments s
Contractor's Certification of Performance and Assumption of Liability	Submit Certificate of Performance certifying that the proposed substi or better in all respects to the product specified and that the propose will, in all respects perform the function for which it is intended.
Certificate of Compliance	Required as needed to substantiate Product Substitutions
Dimensional Data	Required for Product Substitutions
Material Samples	Required as needed to substantiate Product Substitutions
Manufacturer's Statement of Responsibility	Required at District's discretion for Product Substitutions. See form a 01300.
Foundry or Test Record Transcripts	Required as needed to substantiate Product Substitutions
Material List and Ratings	Required as needed to substantiate Product Substitutions
Names and Addresses of Nearest Local Manufacturer's Representatives	Required for Product Substitutions (Use allotted space on attached Su Request Form)
List of Three Local Product Installations	Names and contact information for three installations within a 100 m project completed within the prior three years. Required for Product allotted space on attached Substitution Request Form)
Manufacturer's Service Contract Statement of Qualifications	Required for installations of products which include optional mainten contracts
Warranty	Furnish warranty equal to or better than warranty required for specif

b. Determination of Equality - The burden of proof for demonstrating equality of the substituted item shall be the responsibility of the Contractor. Acceptance of such substitutions is entirely at the discretion of the District.

c. List of Accepted Substitutions - The District will issue to the Contractor a list setting forth those substitutions that have been accepted. No products proposed for substitution, shall be ordered before being accepted in writing by the District.

d. Products accepted as "accepted equals" shall, in the District's opinion, meet the following requirements:

1) Products shall be of equal quality, substance, function, and color to those listed.

2) Products shall be standard products of a reputable manufacturer having regularly been engaged for 5 years in manufacture of products furnished.

3) Products shall have a reputation for assuring long-lasting trouble-free service.

4) Factory-authorized, factory-trained, and competent service personnel, and stocked service parts shall be available within a 150 mile radius of the Work.

5) Manufacturer shall be capable of certifying compliance with listed reference standards.

e. The District reserves the right to reject product substitutions solely on the basis of maintenance of economies of scale available to the District through standardizing on
manufacturers and minimizing spare parts inventories.

f. Denial of Substitution - If, in the opinion of the District the proposed substitution is not equal to or better in every respect to that of the specified product, or was not
submitted for acceptance in the manner outlined above, the Contractor shall furnish the specified products.

g. Responsibility for Coordinating Substitutions with Construction Trades – the Contractor shall inform all other trades, vendors, and subcontractors of the effects of substitutions on their work or products. Failure to notify shall not relieve the Contractor of their duty to make payments arising from alterations in specified products or methods needed to complete the Work in an approved and acceptable manner.

2. Contractor's Responsibility for Cost of Substitution Reviews

a. The Contractor shall pay all costs incurred by the District to review Requests for Substitutions.

3. Responsibility for Spare Part Inventories

a. Provide spare parts inventory to accommodate two years' typical maintenance. See technical specifications for further information for specific equipment items.

4. Substitution of "Inferior" Products

a. Products not meeting the above requirements shall, for purpose of this contract, be deemed "inferior" even if product's only shortcoming is that the Contractor failed to submit a Substitution Request on said product prior to the stipulated deadline.

b. Substitution of "inferior" products shall not occur except where cost savings are offered to and accepted by the District in the form of a Change Order.

5. Bid Shopping and Reverse Auctions

a. Substitutions for products and services of Manufacturers, system integrators or subcontractors listed at time of bid and/or in the Contractor's

initial Submittal will only be permitted under one or more of the following circumstances:

1) Where the Contractor-listed manufacturer, system integrator, or subcontractor has gone out of business.

2) Where the Contractor-listed manufacturer, system integrator or subcontractor has, in the District's opinion, failed to perform or no longer possesses both capability and willingness to perform to standard required by Contract Documents.

3) Where the Contractor-listed manufacturer, supplier, or subcontractor increases price quoted to the Contractor above, that quoted at time of bid, and the Contractor submits evidence of this acceptable to District.

4) Where the Contractor offers a credit to the District sufficient in the District's opinion to justify accepting the substitution in the form of a Change Order.

FORMS: Located in the "Attachments" section.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION (NOT USED)

END OF SECTION

IV.K SECTION 01650 - PRODUCT DELIVERY, STORAGE, AND HANDLING REQUIREMENTS

PART 1 GENERAL

1.01 SECTION INCLUDES

A. Transportation and handling, storage and protection of products

1.02 REFERENCED STANDARDS

A. California Stormwater Quality Association (CASQA) Stormwater Best Management Practice Handbook for Construction latest edition

B. ANSI/NSF 61 Drinking Water System Components – Health Effects

1.03 DELIVERY, STORAGE AND HANDLING

A. Ship and deliver products to jobsite as follows:

1. Do not ship, accept delivery of, or store items on site for which applicable submittals have not been accepted.

2. Before shipping, operate valves, motors, pumps, actuators, and mechanical equipment at the factory to ensure products are complete and in working condition.

3. Only products of accepted manufacturers shall be delivered to or stored at the site.

4. Deliver products to the jobsite in manufacturer's original, unbroken, unopened, labeled packaging containers or bundles. Tag or label packages, containers, or bundles as needed
to identify contents and name of equipment of which contents form a part.

5. Deliver large multi-component assemblies in sections that facilitate field handling and installation.

6. Oil-lubricated gearing, bearings, and other lubricated components shall be shipped with oil soluble protective coating as described in the warranty requirements or as recommended
by the manufacturer. For parts contacting potable water, coating shall be NSF-approved. Coating shall provide protection for one year after final acceptance.

B. Store products at jobsite as follows:

1. Store materials per manufacturer's recommendations, and in a protected area at a temperature between 35 degrees F and 110 degrees F.

2. Store products so as to preserve their quality and fitness for the Work. Locate stored products and equipment to be incorporated in the Work to facilitate prompt inspection. The Contractor shall be responsible for damage or loss to products until Final Acceptance.

3. Protect products against moisture, weather, temperature extremes, dust, debris, tampering, theft, vandalism, ultraviolet radiation, or damage from improper handling, storage, or exposure. Protect exposed metals from rust and corrosion even for items which may be sandblasted or otherwise cleaned before painting.

4. Store items not designed for outdoor exposure off the ground and under cover.

5. Store cementitious materials in weather-tight spaces. Keep free from moisture.

6. Store aggregate in well-drained area to minimize change in moisture content. Prevent contamination by other materials.

7. Store fasteners and connectors in original unopened containers until used.

8. Ventilate materials subject to corrosion or moisture damage to prevent condensation.

9. Any corrosion evident prior to final acceptance shall be removed, or the product shall be removed or replaced.

10. Cover plastic and similar brittle items to protect from sun exposure and temperature extremes.

11. Cover stored materials with tarpaulin or other covering to prevent soiling or exposure to weather. Fasten coverings to prevent removal by wind.

12. Store flammable products to conform with City, County, State, and Federal safety codes for storage of flammable materials.

13. Cover, plug, or cap pipe ends, valve ends and equipment openings with rubber, plastic or canvas to prevent intrusion or contamination.

14. Stringing of pipe along right of way shall be done in a manner that will not interfere with free passage of vehicles.

15. Do not store pipe on roadway or parkway of residential streets for more than 10 days.

16. Store items in accordance with requirements of project Storm Water Pollution Prevention Plan (SWPPP), if applicable. If a SWPPP has not been prepared for the project, store items
in accordance with the appropriate best management practices (BMP's) listed in the California Stormwater Quality Association (CASQA) Stormwater Best Management Practice Handbook for Construction latest edition. Comply with all City, County, State, and Federal pollution prevention laws and permits.

17. Notify the District in writing if delivered or stored product is damaged. Exterior surfaces of delivered items shall be in perfect unblemished condition. Do not repair damaged products without prior written approval.

C. Handle products as follows:

1. Handle products with care, using proper equipment according to manufacturer's recommendations. Lift large heavy items only at points designated by manufacturer. Do not drop, drag, bump, bend or handle products in a manner that causes abrasions, bruises, cracks, mars, scars, scratches or other damage. Use padded slings and hooks for lifting as needed to prevent damage. Improper handling shall be cause to reject mishandled products.

2. Coated pipe, valves and other products shall be lifted, lowered or suspended using rubber or canvas belt slings or pneumatic-tired cradles. Sling width shall equal or exceed pipe or product diameter. Do not handle coated products using ropes, hooks, chains, calipers or cables. Store such materials on padded skids.

3. Inspect each product item for damage, defects, completeness and correct operation before installing.

4. Before installation, swab joints and interiors of piping materials to remove foreign matter.

5. Clean and protect machined surfaces and shafting from corrosion using proper type and amount of coating as described in warranty requirements to assure protection to one year
after final acceptance.

6. Maintain records for the District's review of deliveries to show Contractor's order number, purchase order number and equipment number. Include labeling or shipping tag in records.

1.04 WARRANTY REQUIREMENTS

A. Manufacturer’s instruction and warranty requirements for delivery, storage and handling of products shall be strictly followed.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION (NOT USED)

END OF SECTION

IV.L SECTION 01700 - PROJECT CLOSEOUT

PART 1 - GENERAL

1.01 DESCRIPTION

A. Contract closeout is the process that commences as the Work nears Substantial Completion. It continues through Substantial Completion, and Final Acceptance of the Work.

B. This specification section defines the overall change over process from construction (by the Contractor) to operations (by the Agency). The section defines the terms in this process, and
outlines the responsibilities of the Contractor, the Construction Manager, and the Agency.

1.02 CONTRACT CLOSEOUT SEQUENCE OF EVENTS

A. The sequence of events and their description listed below represent the suggested order of activities as the Contract proceeds from construction, through checkout, testing, Substantial Completion, and the Notice of Completion. Not all work will proceed in this exact order. Adjustments may be made, after approval by the Construction Manager, for the mutual benefit of the Contractor and the Agency, if the situation so warrants. Any adjustments made in the sequence of events, to accommodate the Contractor, shall be at no additional cost to the Agency.

B. Closeout Sequence of Events and Description:

1. Contract Closeout Deliverables: The Contractor shall provide the following:

a. Final Record Drawings.

b. Written guarantees, where required.

c. Certificates of inspection and acceptance by local governing agencies having jurisdiction.

2. Pre-Final Inspection and Discrepancy List: The Construction Manager will conduct a prefinal inspection of the Work prior to substantial completion. The Construction

Manager will prepare a discrepancy list (punch list). The discrepancy list includes items of work which do not conform to the Contract Documents, plus any additional items found to be missing, incomplete, damaged, incorrect, or constructed in an un-workmanlike manner. The Contractor shall correct all items on the discrepancy list.

3. Substantial Completion: Following correction of items on the discrepancy list, and successful completion of the operation demonstration, the Contractor shall notify the Construction Manager that the Work is substantially complete. Refer to the contract documents for other requirements for Substantial Completion.

4. Final Inspection: Following written notice from the Contractor that the entire Work is complete, the Construction Manager, the Agency, the Contractor, and the Design Consultant will conduct a final inspection to verify that the Work is complete. The Construction Manager will prepare a final punch list of all outstanding items.

5. Final Payment: After the Contractor has completed all final punch list items, and completed all other requirements, the Contractor shall submit a final application for payment to the Construction Manager. The final payment application will include all necessary documentation, in addition to waivers or releases of all liens filed in connection with the Work. The Contractor shall specifically release the Agency from any claims not specifically renewed on the final application for payment. After acceptance by the Construction Manager and the Agency, the Agency will make final payment to the Contractor after deducting all amounts to be retained under the provisions of the Contract Documents.

6. Notice of Completion: The Agency will file a Notice of Completion with the County Recorder to begin the 30-day stop notice filing period.

7. Release of Retention: Not more than 35 days after filing the Notice of Completion, the Agency will release to the Contractor all retainage, less any deductions to cover pending third party claims against the Agency.

1.03 SUBSTANTIAL COMPLETION

A. Substantial Completion includes compliance with the following requirements:

1. The Contractor has substantially completed the construction and erection of the Work in conformance with the Contract Documents.

2. The Contractor has installed, adjusted, and successfully tested products, equipment, and systems. The facilities are constructed as indicated by the erection, installation, and operations and maintenance instruction of the suppliers.

3. The Contractor has provided and completed the following items as approved by the Construction Manager.

a. Contract Closeout Deliverables.

b. Special Manufacturer's or Supplier's Warranties.

1.04 PRE-FINAL AND FINAL INSPECTIONS

A. Pre-final and final inspections are surveys of the Contractor's work by the Construction Manager, the Agency, and the Design Consultant in order to create the list of incomplete or unsatisfactory items of work.

B. Prior to the pre-final and final inspections, the Contractor must complete the following:

1. Clean equipment and fixtures by removing temporary labels, stains, dirt, and other foreign substances.

2. Clean debris from pipes, gutters, basins, and drainage systems.

3. Clean site; sweep paved areas, rake clean unpaved surfaces.

4. Remove waste and surplus materials, rubbish, fencing, equipment, temporary utilities, and construction facilities from the site.

C. The discrepancy list(s) and punch list will include all items of work found to be unsatisfactory, missing, incomplete, damaged, incorrect, or improperly installed or constructed. Prior to Final Acceptance the Contractor shall correct the punch list items by re-work, modification, or replacement, at the option of the Construction Manager and at no additional cost to the Agency. The Construction Manager will re-inspect punch list items upon notice by the Contractor that they are complete.

PART 2 - PRODUCTS (NOT APPLICABLE)

PART 3 - EXECUTION

3.01 CLEANUP

A. The Contractor shall promptly remove from the vicinity of the completed work, all rubbish, unused materials, concrete forms, construction equipment, and temporary structures and facilities used during construction. Final acceptance of the Work by the Agency will be withheld until the Contractor has satisfactorily complied with the forgoing requirements for final cleanup of the project site.

3.02 MAINTENANCE AND GUARANTEE

A. The Contractor shall comply with the maintenance and guarantee requirements contained in the contract documents.

B. Replacement of earth fill or backfill, where it has settled below the required finish elevations, shall be considered as a part of such required repair work, and any repair or resurfacing which becomes necessary by reason of such settlement shall likewise be considered as a part of such required repair work unless the Contractor shall have obtained a statement in writing from the affected private Agency or public agency releasing the Agency from further responsibility in connection with such repair of resurfacing.

C. The Contractor shall make all repairs and replacements promptly upon receipt of written order from the Agency. If the Contractor fails to make such repairs or

replacements promptly, the Agency reserves the right to do the work and the Contractor and his surety shall be liable to the Agency for the cost thereof.

3.03 BOND

A. The Contractor shall provide a bond to guarantee performance of the provisions contained in Paragraph "Maintenance and Guarantee" above, and in the Contract Documents.

END OF SECTION

IV.M SECTION 01730 - RECORD DRAWINGS

PART 1 - GENERAL

1.01 SECTION INCLUDES

A. Maintenance and delivery of marked-up record drawings showing the final locations of the work.

1.02 RELATED REQUIREMENTS

A. Section 01300, Submittals.

1.03 RECORD DRAWINGS

A. The Contractor shall maintain a set of contract drawings with neat and legible red-line markups showing the final locations of structures, piping, equipment, electrical conduits, outlet boxes, cables, and other components of the work.

B. Marking of the drawings shall be kept current and shall be done at the time the material and equipment are installed.

C. The Contractor shall not conceal any work until the required record drawing information has been recorded. The Construction Manager may direct the Contractor to expose concealed work if work was not recorded on the Record Drawings.

D. Record drawings shall be available to the Construction Manager at all times.

E. After the final walk through has been completed and before the project “final” is granted, the Contractor shall deliver record drawings to the Construction Manager.

F. The Contractor may submit additional 24" X 36" sheets detailing record work as approved by the Construction Manager.

G. Final payment shall not be made until the marked-up record drawings are delivered to and approved by the Construction Manager.

PART 2 - PRODUCTS (NOT APPLICABLE)

PART 3 - EXECUTION (NOT APPLICABLE)

END OF SECTION

IV.N TRENCHING

If the Project involves the construction of a pipeline, sewer, sewage disposal system, boring and jacking pits, or similar trenches or open excavations, which are five (5) feet deep or more, then each Bidder must submit, as a Bid item, adequate sheeting, shoring, and bracing, or an equivalent method, for the protection of life or limb, which shall conform to applicable safety orders. This final submission must be accepted by the City in advance of excavation and must include a detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from caving ground during the excavation Work. If such plan varies from the shoring system standards, the plan shall be prepared by a registered civil or structural engineer.

IV.O BIDDER'S EXAMINATION OF SITE AND CONTRACT DOCUMENTS

Each Bidder must carefully examine the Project site and the entirety of the Contract Documents. Upon submission of a Bid, it will be conclusively presumed that the Bidder has thoroughly investigated the Work and is satisfied as to the conditions to be encountered and the character, quality, and quantities of Work to be performed and materials to be furnished. Upon Bid submission, it also shall be conclusively presumed that the Bidder is familiar with and agrees to the requirements of the Contract Documents, including all Addenda. No information derived from an inspection of records or investigation will in any way relieve the Contractor from its obligations under the Contract Documents nor entitle the Contractor to any additional compensation. The Contractor shall not make any claim against the City based upon ignorance or misunderstanding of any condition of the Project site or of the requirements set forth in the Contract Documents. No claim for additional compensation will be allowed which is based on a lack of knowledge of the above items. Bidders assume all risks in connection with performance of the Work in accordance with the Contract Documents, regardless of actual conditions encountered, and waive and release the City with respect to any and all claims and liabilities in connection therewith, to the extent permitted by law.

IV.P TRADE NAMES OR EQUALS

Requests to substitute an equivalent item for a brand or trade name item must be made by written request submitted no later than the date specified in Section 4-6 of the General Provisions. Requests received after this time shall not be considered. Requests shall clearly describe the product for which approval is requested, including all data necessary to demonstrate acceptability

V. Submission Instructions & Questions

V.A Inquiries

If prior to the date fixed for submission of bids, a prospective Company discovers any ambiguity, conflict, discrepancy, omission or other errors in this bid package or any of its appendices or exhibits, the Company shall immediately notify the City of such error in writing and request modification or clarification of the document. Modifications shall be made by written Addenda to the bid.

If a Company fails to notify the City, prior to the date fixed for submissions of bids, of an error in the bid package known to the Company, or an error that reasonably should have been known to the Company, the Company shall submit its bid at its own risk, and if the Company is awarded a Contract, it shall not be entitled to additional compensation or time by reason of the error or its later correction.

All requests for clarifications, changes, exceptions, deviations to the terms and conditions set forth in this bid package must be submitted via the City's electronic bidding website project "Q&A Tab" on the Banning Vendor Portal: https://procurement.opengov.com/portal/banning-ca. The Final day for receipt of questions from bidders shall be on or before the date indicated in the schedule of events. To ensure fairness and avoid misunderstandings, all communications must be in electronic format and submitted via the City's electronic bidding website. Any verbal communications will not be considered or responded to. All questions received by the due date will be logged and reviewed and if required, a response will be provided via an addendum to the bid package that will be posted on the City's website. Any communications, whether written or verbal, with any City Councilmember or City staff with regards to project details and scope prior to award of a contract by City Council is strictly prohibited and the bidder shall be disqualified from consideration.

For technical assistance using the City's electronic bidding website, please contact Barbara Mason, Purchasing Manager at 951-922-3121.

V.B Pricing Submission

Bid line items must be filled out electronically, and submitted electronically on the City's electronic bidding website. Vendors must fill out and submit pricing before the deadline. All bid submittals shall be for the specific items requested only, no substitutes.

Bids shall be submitted for NEW (not used, nor refurbished) items only. Bids that do not meet these requirements and the requirements in the "Scope of Work" section, will NOT be accepted, and will result in the company(s) being deemed non-responsive.

V.C Bid Submission Requirements

The Final day for submission of bids shall be on or before the due date indicated in the schedule of events section.

Companies shall register on the City's Vendor Portal, https://procurement.opengov.com/portal/banning-ca https://procurement.opengov.com/portal/banning-ca. Once registered, Companies must download the IFB by clicking "Download Documents" while logged in under their own name and identification number to appear on the Planholders List as a "Prospective Bidder." Companies that fail to download the IFB will not appear on the Current Prospective Bidders List and their bid responses will be considered non-responsive. If a Company is unable to register or download the IFB from the bidding website, a representative may contact OpenGov.

All bids and supplementary documents must be uploaded using the City's bidding website prior to event date and time as instructed in this solicitation. Once the file(s) has been uploaded and the Submission Status shows as "Submitted" the submission is complete. At that point respondents will receive an email confirmation from the bidding website.

The City reserves the right to reject any and all bids and to waive information and minor irregularities in any bid received.

Acceptance of Terms and Conditions - Submission of a bid pursuant to this IFB shall constitute acknowledgment and acceptance of all terms and conditions hereinafter set forth in this IFB.

The time and date are fixed, and extensions will not be granted unless specifically stated by the City in an addendum to this IFB. Bids not received before the bid event time will not be accepted.

V.D Addenda

Addenda alerts issued by the City are sent out electronically through the electronic bidding system via email to all Prospective Bidders on the list for this IFB. All addenda, if any, shall be acknowledged by the bidder electronically via the electronic bidding website as part of the bid response before the deadline. Failure to acknowledge an addendum, unless the requirement to acknowledge has been waived, will immediately cause the bidder's bid response to be deemed non-responsive.

V.E COMPETENCY OF BIDDERS

In evaluating Bidder responsibility, consideration will be given not only to the financial standing, but also to the general competency of the Bidder for the performance of the Project. Each Bidder shall set forth in the designated area of the Bid form a statement of its experience. No Contract will be executed with a Bidder that is not licensed and registered with the DIR in accordance with State law, and with any applicable specific licensing requirements specified in these Contract Documents. These licensing and registration requirements for Contractors shall also apply to all Subcontractors.

V.F WITHDRAWAL OF BID

A Bid may be withdrawn by a Prospective Bidder in the Electronic Bidding System before the Bid submission deadline. Bids must remain valid and shall not be subject to withdrawal for ninety (90) Days after the Bid opening date.

V.G BIDDER'S SECURITY

Each Bid shall be accompanied by cash, a certified or cashier's check payable to the City, or a satisfactory Bid Bond in favor of the City executed by the Bidder as principal and an admitted surety insurer as Surety, in an amount not less than ten percent (10%) of the amount set forth in the Bid. Personal or company checks are not acceptable. The cash, check or Bid Bond shall be given as a guarantee that, if selected, the Bidder will execute the Contract in conformity with the Contract Documents, and furnish the specified Bonds. No Bid Bond will be accepted unless it conforms substantially to the form provided in these Contract Documents.

If using a cash deposit, cashier's check, certified check, it shall be delivered in original hard copy form, timestamped and received by the Purchasing Division ***BEFORE*** *the bid event time. In addition to scanning and uploading a copy with your bid.*

If using a Bidder's Bond, it shall be ***fully executed*** *(*dated, all signatures must be notarized, and evidence of the authority of any person signing as attorney-in-fact must be attached*) and submitted electronically via the City's Electronic Bidding System with the remainder of the required bid documents* ***BEFORE*** *the bid event time. Bidder's may be deemed non-responsive for submitting a non-fully executed Bidder's Bond. In addition, mail or drop off an original hard copy of your bid bond to the Purchasing Department.*

Upon Contract award, the Contractor shall provide faithful performance and payment Bonds, each in a sum equal to the Contract Price. All Bonds must be issued by a California admitted Surety insurer using the forms set forth in the Contract Documents, or in any other form approved by the City Attorney.

V.H REGISTRATION WITH THE DEPARTMENT OF INDUSTRIAL RELATIONS

In accordance with Labor Code Sections 1725.5 and 1771.1, no contractor or subcontractor shall be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, unless currently registered and qualified to perform public work pursuant to Section 1725.5 [with limited exceptions for bid purposes only under Labor Code Section 1771.1(a)].

V.I PREVAILING WAGES

In accordance with Labor Code Section 1770 *et seq*., the Project is a "public work." The selected Bidder (Contractor) and any Subcontractors shall pay wages in accordance with the determination of the Director of the Department of Industrial Relations ("DIR") regarding the

prevailing rate of per diem wages. Copies of those rates are on file with the Director of Public Works and are available to any interested party upon request. The Contractor shall post a copy of the DIR's determination of the prevailing rate of per diem wages at each job site. This Project is subject to compliance monitoring and enforcement by the DIR.

V.J BONDS

Each Bid must be accompanied by a cash deposit, cashier's check, certified check or Bidder's Bond issued by a Surety insurer, made payable to the City and in an amount not less than ten percent (10%) of the total Bid submitted. Personal or company checks are not acceptable. Upon Contract award, the Contractor shall provide faithful performance and payment Bonds, each in a sum equal to the Contract Price. All Bonds must be issued by a California admitted Surety insurer using the forms set forth in the Contract Documents, or in any other form approved by the City Attorney. Failure to enter into the Contract with the City, including the submission of all required Bonds and insurance coverages, within fifteen (15) Days after the date of the mailing of written notice of contract award to the Bidder, shall subject the Bid security to forfeiture to the extent provided by law.

VI. Pricing Proposal

BID SHEET - M-12A WELL SITE EQUIPPING AND IMPROVEMENTS

In compliance with the Notice Inviting Bids, the undersigned hereby agrees to execute the Contract to furnish all labor, materials, equipment and supplies for the Project in accordance with the Contract Documents to the satisfaction and under the direction of the City, utilizing the following Bid Schedule. Note: Items may be adjusted or deleted. Therefore, regardless of total actual volume (percentage) compared to estimated quantities, the unit prices submitted electronically by the Bidder shall be applied to the final quantity when payment is calculated for these items. No adjustment in the unit prices will be allowed. The City reserves the right to not use any of the estimated quantities; and if this right is exercised, the Contractor will not be entitled to any additional compensation. Cost of all export of material shall be included in the above unit costs; no additional compensation will be granted for such expenses.

Line Item	Description	Quantity	Unit of Measure	Unit Cost	Total
1	Mobilization and Demobilization - See Section 01025 Measurement and Payment, 1.03, C for details.	1	Lump Sum

VIII. Terms & Conditions

VIII.A Award

Bid results can be viewed on-line after the bid closes.

The City reserves the right to reject any and all bids and to waive any informality related thereto.

It is the intention of the City to make a recommendation for award of the bid to the lowest responsive and responsible bidder. The City reserves the right to increase or decrease quantities or to remove items before award to remain within the limitations of the availability of approved funds. The apparent low Bidder will be notified prior to recommendation for award if such adjustments are deemed necessary.

Award may be made for all items or for individual items whichever is in the best interest of the City.

Bidder understands that bid may be made by individual item(s) and agree to abide by the terms and conditions of the bid.

A. Terms contrary to the terms and conditions listed in the bids will render the bid as Non-Responsive.

B. The City may delete any items that it feels would be in the best interest of the City to purchase individually.

The City has adopted a local 5% bid preference for those bidders located within the City limit. This preference may be applied to the total bid price during evaluation of the bid responses.

VIII.B Invoicing

Successful vendor shall invoice as items are delivered.

A. Payment will normally be made within 30 days of receipt of material.

B. Please place the Purchase Order Number on the invoice.

C. Bill To and Ship To the Same address as listed on the purchase order.

VIII.C Termination

The City may cancel this contract if product is of inferior quality, problems are not corrected in a timely manner, and vendor fails to maintain the required inventory. Once a contract is terminated, it is just cause to suspend bidder from bidders list for a minimum of three (3) years.

Failure to comply with the technical specifications of the bid. The City reserves the right to audit the required inventory and cancel the contract if the vendor fails to maintain the inventory required by this bid.

The City may also suspend the manufacturer from bidding if manufacturer does not give full support to this contract.

VIII.D DISQUALIFICATION OF BIDDERS

More than one bid from an individual, a firm or partnership, a corporation or an association under the same or different name will not be considered.

VIII.E REJECTION OF BIDS

Bids may be rejected if they show any alterations of form, additions not called for, conditional or alternative bids uncalled for, incomplete bids, erasures, or irregularities of any kind; however, the City reserves the right to waive irregularities, or informalities.

VIII.F BID PROTEST PROCEDURES

Failure to comply with the rules set forth herein may result in rejection of the protest. Protests based upon restrictive specifications or alleged improprieties in the Bid procedure which are apparent or reasonably should have been discovered prior to receipt of Bids shall be filed in writing with the IFB Facilitator at least 10 calendar days prior to the deadline for receipt of Bids. The protest must clearly specify in writing the grounds and evidence on which the protest is based.

Protests based upon alleged improprieties that are not apparent or which could not reasonably have been discovered prior to submission date of the Bids, such as disputes over the staff recommendation for contract award, shall be submitted in writing to the IFB Facilitator, within forty-eight hours from receipt of the notice from the City advising of staff's recommendation for award of contract. The protest must clearly specify in writing the grounds and evidence on which the protest is based. The IFB Facilitator will respond to the protest in writing at least three days prior to the meeting at which staff's recommendation to the City Council will be considered. Should Bidder decide to appeal the response of the IFB Facilitator, and pursue its protest at the Council meeting, it will notify the IFB Facilitator of its intention at least two days prior to the scheduled meeting.

VIII.G PUBLIC RECORDS

All Bids submitted in response to this IFB become the property of the City and pursuant to the Public Records Act (Gov. Code, § 6250 et seq.) are public records, and as such may be subject to public review at least 10 days before selection.

The Company must notify the City in advance of any proprietary or confidential materials contained in the Bid and provide justification for not making such material public. The City shall have sole discretion to disclose or not disclose such material subject to any protective order that the Company may obtain. Note that under California law, pricing is not a trade secret.

Submission of a Bid shall indicate that, if Bidder requests that the City withhold from disclosure information identified as confidential, and the City complies with the Bidder's request, Bidder shall assume all responsibility for any challenges resulting from the non-disclosure, indemnify and hold harmless the City from and against all damages (including but not limited to attorney's fees that may be awarded to the party requesting the Bidder information), and pay any and all costs and expenses related to the withholding of Bidder information. Bidder shall not make a claim, sue, or maintain any legal action against the City or its directors, officers, employees, or agents concerning the disclosure, or withholding from disclosure, of any Bidder information. If Bidder does not request that the City withhold from disclosure information identified as confidential, the City shall have no obligation to withhold the information from disclosure and may release the information sought without any liability to the City.

The City reserves the right to make use of any information or idea contained in the Bid. All materials, ideas and formats submitted in response to this IFB will become the property of the City upon receipt.

VIII.H CANCELLATION

The City retains the right to cancel this IFB at any time, should it be deemed to be in the best interest of the City. No obligation either expressed or implied exists on the part of the City to make an award based on the submission of any Bids.

VIII.I CONFLICT OF INTEREST

The Bidder warrants and represents that it presently has no interest and agrees that it will not acquire any interest which would present a conflict of interest under California Government Code sections 1090 et seq., or sections 87100 et seq., during the performance of services under any Agreement awarded. The Bidder further covenants that it will not knowingly employ any person having such an interest in the performance of any Agreement awarded. Violation of this provision may result in any Agreement awarded being deemed void and unenforceable.

VIII.J TERMS AND CONDITIONS

By submitting a bid, bidder agrees to adhere to all of the terms and conditions in the Agreement or the Purchase Order Terms and Conditions (sample is located in "Attachments") ***without exceptions***. Failure to adhere to and furnish the applicable requirements listed in the Agreement or the Purchase Order Terms and Conditions within the required time period shall be just cause for the rescission of the award. If the successful Company refuses or fails to adhere to and furnish the applicable requirements, the City may award to the next lowest responsive, and responsible bidder.

VIII.K INSURANCE AND BONDS

The Contractor shall not begin Work until it has given the City evidence of all required insurance coverage (including all additional insured endorsements), a Bond guaranteeing the Contractor's faithful performance of the Contract, and a Bond securing the payment of claims for labor and materials.

VIII.L SIGNATURES

The Bidder shall execute all documents requiring signatures and shall cause to be notarized all documents that indicate such a requirement. Bids submitted as joint ventures must so state and be signed by each joint venturer. The Bidder shall provide evidence satisfactory to the City, such as an authenticated resolution of its board of directors, a certified copy of a certificate of partnership acknowledging the signer to be a general partner, or a power of attorney, indicating the capacity of the person(s) signing the Bid to bind the Bidder to the Bid and any Contract arising therefrom. Alternatively, Bids submitted by corporations must be executed as specified in Corporations Code Section 313, and Bids submitted by partnerships must be executed by all partners comprising the partnership.

VIII.M NO COMPENSATION FOR COSTS INCURRED PRIOR TO CONTRACT EXECUTION

All costs incurred by the selected Bidder prior to Contract award and execution of the Contract by the City shall be at the Bidder's sole risk. City shall have no liability for costs incurred prior to its execution of the Contract.

VIII.N TAXES

Except as may be otherwise specifically provided herein, all sales and/or use taxes assessed by federal, State or local authorities on materials used or furnished by the Contractor in performing the Work shall be paid by the Contractor. The Bidder shall calculate payment for all sales, unemployment, pension and other taxes imposed by federal, State, and local law and shall include these payments in computing the Bid.

VIII.O LISTING SUBCONTRACTORS; SELF-PERFORMANCE

Each Bidder shall submit a list of the proposed Subcontractors on the Project, as required by the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100, *et seq*.). Contractor shall self-perform not less than 50% of the Work, in accordance with Section 3-2 of the Standard Specifications.

VIII.P EXECUTION OF CONTRACT

The selected Bidder shall execute the Contract in the form included in these Contract Documents within fifteen (15) Days from the date of delivery of the Contract Documents to the Bidder. Additionally, the selected Bidder shall also secure all insurance and Bonds as herein specified, and provide copies to the City, within fifteen (15) Days from the date of delivery of the Contract Documents to the Bidder. Failure or refusal to execute the Contract or to conform to any of the stipulated requirements shall be just cause for the annulment of the award and forfeiture of the Bidder's security. In such event, the City may declare the Bidder's security forfeited to the extent permitted by law, and the City may award the Contract to the next lowest responsible Bidder or may reject all bids.

Bid Summary: IFB 24-092, Project 2022-07W, M-12A Well Site Equipping & Improvements

Line Item	Description	Quantity	Unit of Measure	Unit Cost	Total
1	Mobilization and Demobilization - See Section 01025 Measurement and Payment, 1.03, C for details.	1	LS	$120,000.00	$120,000.00
2	Demolition - - See Section 01025 Measurement and Payment, 1.03, D for details.	1	LS	$40,500.00	$40,500.00
3	Site Grading and Asphalt Concrete - See Section 01025 Measurement and Payment, 1.03, E for details.	1	LS	$100,000.00	$100,000.00
4	Well Building Construction - See Section 01025 Measurement and Payment, 1.03, F for details.	1	LS	$606,100.00	$606,100.00
5	Electrical and Instrumental Equipment for New Well Pump - See Section 01025 Measurement and Payment, 1.03, G for details.	1	LS	$435,600.00	$435,600.00
6	Well Pumps, Piping and Appurtenances - See Section 01025 Measurement and Payment, 1.03, H for details.	1	LS	$940,300.00	$940,300.00
7	Well Testing and Start-Up - See Section 01025 Measurement and Payment, 1.03, I for details.	1	LS	$30,900.00	$30,900.00
8	All Other Work - See Section 01025 Measurement and Payment, 1.03, J for details.	1	LS	$500.00	$500.00
9	Furnish and Deliver Motor Control Center 'MCC' as shown on drawing E-08 and Specifications.	1	LS	$145,000.00	$145,000.00
10	Furnish and Deliver the Main Service Switchboard 'MSB' as shown on drawing E-08 and Specifications.	1	LS	$22,000.00	$22,000.00
	Total				**$2,440,900.00**

CITY OF BANNING
STAFF REPORT

TO:	**CITY COUNCIL**
FROM:	**Robert Fisher, Acting City Manager**
PREPARED BY:	**Shah Nawaz, Deputy Water/Wastewater Director** **Art Vela, Director of Public Works**
MEETING DATE:	**February 25, 2025**
SUBJECT:	**Consideration of Resolution 2025-30, Awarding a Progressive Design-Build Agreement for Phase 1 to AECOM Lyles JV for Project No. 2022-01W "Wastewater Treatment Plant and Recycled Water Upgrades" in the Amount of $3,998,627, and Approving a 10% Contingency for a Total Project Budget of $4,398,490**

RECOMMENDATION:

Adopt Resolution 2025-30.

BACKGROUND:

Wastewater Treatment Plant

The City of Banning Wastewater Treatment Plant (WWTP), also known as the Water Reclamation Facility, provides for the collection, treatment, and disposal of municipal sewage. The WWTP dates back to 1925 and began to see significant additions beginning in 1950's and the last major renovation occurring in the early 2000's. Currently, the WWTP treatment process consists of preliminary, primary, secondary, disinfection (currently not in use), and sludge disposal.

The WWTP has a design treatment capacity of 3.6 million gallons per day (MGD) and typical average daily discharges range from 2.0 MGD to 2.1 MGD into 10 unlined evaporation/percolation ponds. The treated effluent then percolates into the groundwater of the San Gorgonio Hydraulic Unit. Groundwater from this basin is used for municipal and industrial applications.

In 2007, the City contracted Parsons to evaluate treatment technologies for a 1.5 MGD water reclamation facility (WRF) for the production of recycled water. Treatment alternatives investigated included oxidation ditch (OD), conventional activated sludge (CAS), and membrane bioreactor (MBR). The purpose of the evaluation was to determine the best option to comply with future Title 22 requirements for the beneficial reuse of recycled water. Parsons determined an MBR system was the best treatment option and completed a 90% design package of the WRF. Unfortunately, the project never reached 100% design and was terminated for various reasons.

2016 Regional Water Quality Control Board Order

On June 30, 2016, the California Regional Water Quality Control Board, Colorado River Basin Region (RWQCB) adopted Board Order R7-2016-0015 (Board Order), which describes the Waste Discharge Requirements (WDRs) and other terms and conditions of operation for the City's WWTP. The Board Order requires the WWTP to remove constituents that present the greatest risk to groundwater quality such as nitrogen, coliforms, and total dissolved solids (TDS).

According to the United States Environmental Protection Agency (US EPA), the maximum contaminant level (MCL) for Nitrate as Nitrogen (TN) is 10 mg/L. Currently, the average TN concentration in the WWTP's effluent is 29 mg-N/L, well above the future TN limit of 10 mg-N/L specified in the Board Order. As a result, the Board Order required the City to conduct a nitrogen removal analysis and to summarize the findings in a technical report that includes a tentative work plan and time schedule for the installation and implementation of nitrogen removal treatment alternatives. The final technical report (Nitrogen Removal Feasibility Study), attached hereto, was completed and submitted to the RWQCB by the due date of June 30, 2020.

The City has had plans for the development of a Title 22 compliant recycled water source dating back to the early 2000's and for this reason, the scope of the Nitrogen Removal Feasibility Study was expanded beyond complying with TN limits and included discharge requirements related to the use of recycled water.

Additionally, the Board Order requires that the City submit a plan for capacity improvements to the RWQCB once the WWTP reaches 80% of its design capacity, or 2.88 MGD, which is fast approaching due to increased development activity within the City.

2018 Integrated Master Plan

In 2016 the Public Works Department set out to develop new master plans for the City's water, wastewater and future recycled water systems, which were previously updated in 2006. The final document resulted in a combined plan titled the Integrated Master Plan (IMP). The objective of the IMP was to develop capital improvement plans that would guide the City in the planning and development of water, wastewater and recycled water system facilities to meet system performance for existing customers as well as to support anticipated demands through the City's buildout.

The IMP projected that the City would reach 80% capacity by 2025 (although could be later if development slows down) and have a buildout wastewater flow of 6.35 MGD.

2020 UWMP

On June 8, 2021 the City Council approved Resolution 2021-50, adopting the 2020 Urban Water Management Plan (UWMP). The UWMP is a planning document with a 20-year planning horizon that assess the water supply and water demand for the City. As part of the assessment all current water supplies and in the future water supplies are include as part of the City's water supply portfolio, which includes the use of "recycled water" to supplement potable demands (i.e. irrigation demands) and for groundwater recharge.

Owner Advisor

On December 13, 2022, City Council adopted Resolution 2022-14UA, awarding a Professional Services Agreement to N2W Engineering ("N2W") to provide Owner Advisor ("OA") services for the Wastewater Treatment Plant Improvement project.

N2W has assisted the City in further review of available technologies and confirmed through a Feasibility Report that an MBR system would be the best solution for the City. Additionally, they prepared two grant applications for the City: (1) Water Recycling Funding Program Planning grant application which led to an award of $300,000 and (2) WaterSMART: Title XVI WIIN Act Water Reclamation and Reuse Program for which the City received a Notice of Funding Opportunity No. R23AS00464 (attached) in the amount of $16,194,576.

N2W also assisted in the preparation of a scope of work for a Request for Qualifications that led to the shortlisting of 3 design-build entities that prepared and submitted proposals for Phase 1 (Design) of the WWTP Upgrade Project.

Selection of Progressive Design Build Entity

On March 22, 2024, the City issued a Request for qualification (RFQ) seeking prospective Progressive Desing-Build (PDB) entities for the project. Statement of Qualifications (SOQs) were received from PDB entities on May 3, 2024. The City evaluated responsive SOQs in accordance with the RFQ; shortly thereafter, the City shortlisted the following three (3) PDB entities:

1. AECOM Lyles JV
2. Innovative Construction Solutions
3. PERC Water Corporation

Only these three (3) PDB entities were eligible to receive the Request for Proposal (RFP) which was issued on August 9, 2024. These PDB entities were requested to advance the design and provide detailed input as to the design and construction of the Project, including benefits to the Project's reliability, ease and extent of upgrades and expansion and interconnection, and sustainability. Award of the Progressive Design-Build Contract was made utilizing a best value selection process and consisted of an evaluation of multiple factors as listed below in this RFP:

- Project Team, Experience, and Approach (25 Points)
- Technical Approach (25 Points)
- Construction & Startup Process (20 Points)
- Phase 1 – Cost and Fee Schedule (10 Points)
- Interview (20 Points)

An evaluation committee consisting of two City Employees and two Owner's Advisors was assembled to score each proposal based on the evaluation factors listed above. The resulting evaluation scores are as follows:

PDB Entity	**Score (out of 100)**
AECOM Lyles JV	82.44
Innovative Construction Solutions	81.24
PERC Water Corporation	77.75

As a result, staff recommends awarding the Progressive Design-Build Agreement ("Agreement") for Phase 1 of the Wastewater Treatment Plant and Recycled Water Upgrades project to AECOM Lyles JV in the amount of $3,998,627.

If awarded, staff anticipates the Phase 1 (Design) scope of work to commence in early March 2025 through April 2026.

Phase 1 Services
This Phase includes all the planning, engineering, and permitting to prepare a complete design-to-develop a Guaranteed Maximum Price (GMP) and a construction schedule for Phase 2.

It shall be noted that at the completion of Phase 1 scope of work and upon agreement on the GMP by the City, AECOM Lyles JV will proceed with Phase 2 (Construction) for equipment procurement, construction, engineering design support during construction, construction management, commissioning and acceptance testing. Following the completion of Phase 1, the current estimated duration for Phase 2 is approximately another 2 years.

JUSTIFICATION:

The Wastewater Treatment Plant and Recycled Water Upgrades project includes the design and construction of major complex treatment technologies that will allow the City to comply with impending wastewater discharge requirements and to produce recycled water. A PDB approach is a collaborative delivery method that involves the design-builder throughout the design and construction process resulting in a project that will meet the City's needs for the best value.

AECOM Lyles JV was ranked the highest following the RFP.

FISCAL IMPACT:

The recommended Progressive Design-Build Agreement for Phase 1 of the Wastewater Treatment Plant and Recycled Water Upgrades project to AECOM Lyles JV is in the amount of $3,998,627. Staff requests a 10% contingency in the amount of $399,862 for any unforeseen changes in scope of work or conditions. The total project budget for Phase 1, including the Agreement and contingency, is for an amount of $4,398,490.

The current adopted budget for Fiscal Year 2024/2025 includes the required funding for the Agreement, which will be funded as follows:

- Account No. 681 -8000- 454.95-12 : $1,000,000
- Account No. 682-8050-454.95-10: $3,398,490

ALTERNATIVES:

Do not approve Resolution 2025-30 and provide alternative direction to staff.

RESOLUTION 2025-30

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BANNING, CALIFORNIA, AWARDING A PROGRESSIVE DESIGN-BUILD AGREEMENT FOR PHASE 1 TO AECOM LYLES JV FOR PROJECT NO. 2022-01W "WASTEWATER TREATMENT PLANT AND RECYCLED WATER UPGRADES" IN THE AMOUNT OF $3,998,627 AND APPROVING A 10% CONTENGENCY FOR A TOTAL PROJECT BUDGET OF $4,398,490

WHEREAS, the City of Banning owns and operates a wastewater treatment plant WWTP) also knows as the Water Reclamation Facility which includes a current treatment process consisting of preliminary, primary, secondary, disinfection and sludge disposal; and

WHEREAS, the WWTP has a design treatment capacity of 3.6 million gallons per day (MGD) and typical average daily discharges ranging from 2.0 MGD to 2.1 MGD into 10 unlined evaporation/percolation ponds; and

WHEREAS, the City has recognized a need to construct major improvements to the WWTP in order to comply with California Regional Water Quality Control Board, Colorado River Basin Region (RWQCB) Board Order R7-2016-0015; to increase treatment capacity to support increasing demands; and to enhance the City's water supply portfolio by developing a recycled water supply; and

WHEREAS, the City Council approved Resolution 2021-50, adopting the 2020 Urban Water Management Plan (UWMP). The UWMP is a planning document with a 20-year planning horizon that assess the water supply and water demand for the City. As part of the assessment all current water supplies and in the future water supplies are include as part of the City's water supply portfolio, which includes the use of "recycled water" to supplement potable demands (i.e. irrigation demands) and for groundwater recharge; and

WHEREAS, on August 9, 2024 the City released a request for proposals (RFP) and received three (3) proposals from pre-qualified Progressive Design-Build Firms. Based on the evaluation and scoring criteria, and the results of an interview conducted by City staff, it was determined that AECOM Lyles JV scored the highest and has the qualifications and experience to successfully complete the scope of services as the Progressive Design-Builder on the Wastewater Treatment Plant and Recycled Water Upgrades project; and

WHEREAS, staff recommends awarding the Progressive Design-Build Agreement for Phase 1 of the Wastewater Treatment Plant and Recycled Water Upgrades project to AECOM Lyles JV in the amount of $3,998,627; and

WHEREAS, the total project budget for Phase 1, including the Agreement and 10% contingency, is for an amount of $4,398,490; and

WHEREAS, the current adopted budget for Fiscal Year 2024/2025 includes a budgeted amount of $3,000,000 in Account No. 681-8000-454.95-12, and another $3,000,000 in Account No. 682-8050-454.95-10. The 10% contingency will be funded from Account 682.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Banning as follows:

SECTION 1. The City Council approves the Progressive Design-Build Agreement for Phase 1 with AECOM Lyles JV for Project No. 2022-01W "Wastewater Treatment Plant and Recycled Water Upgrades" in the Amount of $3,998,627 and Approving a 10% Contingency for a Total Project Budget of $4,398,490.

SECTION 2. The City Council authorizes the City Manager to make non-substantive changes to the Progressive Design-Build Agreement and to execute the Progressive Design-Build Agreement with AECOM Lyles JV on behalf of the City Council.

SECTION 3. The City Council authorizes the City Manager, or designee, to make necessary budget adjustments, appropriations, and transfers related to this resolution and to approve change orders within the 10% contingency.

SECTION 4. The City Clerk shall certify to the adoption of this resolution and shall cause a certified resolution to be filed in the book of original resolutions.

PASSED, APPROVED AND ADOPTED this 25th day of February, 2025.

Sheri Flynn, Mayor
City of Banning

ATTEST:

Caroline Patton, Administrative City Clerk
City of Banning

APPROVED AS TO FORM:

John Pinkney, City Attorney
Slovak, Baron, Empey, Murphy & Pinkney, LLP

CERTIFICATION:

I, Caroline Patton, Administrative City Clerk of the City of Banning, California, do hereby certify that the foregoing Resolution 2025-30, was duly adopted by the City Council of the City of Banning, California, at a regular meeting thereof held on the 25th day of February, 2025 by the following vote, to wit:

AYES:

NOES:

ABSENT:

ABSTAIN:

CITY OF BANNING

This **AGREEMENT** is made as of the _____ day of _____ _____ in the year of 20_____, by and between the following parties, for services in connection with the Project identified below:

OWNER:
Arturo Vela
Public Works Director
City of Banning
99 E. Ramsey Street
Banning, CA 92220

DESIGN-BUILDER:
AECOM & WML VIII, A Joint Venture
26501 Madison Avenue
Murrieta, CA 92562

PROJECT:
Design and Construction of the City of Banning Wastewater Treatment Plant and Recycled Water Upgrades Project
2242 Charles Street
Banning, CA 92220

In consideration of the mutual covenants and obligations contained herein, Owner and Design-Builder agree as set forth herein.

Article 1

Design-Builder's Services and Responsibilities

1.1 General Services.

1.1.1 Design-Builder has demonstrated its competence and professional qualifications necessary for the satisfactory performance of the services designated herein by virtue of its experience, training, education and expertise.

1.1.2 Owner has provided Design-Builder with Project background documents, including but not limited to, the Design Criteria Report and Preliminary Design Drawings, (Exhibit A) depicting the Owner's program requirements and objectives for the Project, collectively referred to as the Basis of Design Documents. Owner's Basis of Design Documents may include conceptual documents, design specifications, design performance specifications, and other technical materials and requirements prepared by or for Owner.

1.1.3 Prior to the execution of construction Contract(s), Design-Builder has advanced the Owners' Design Criteria Report and Preliminary Drawings, and has provided additional, different or innovative approaches to the design and construction of the Project, upon which the Design-Builder has provided fixed Design-Build price(s).

1.1.4 Design-Builder shall have the sole and exclusive responsibility and liability for the design, construction and performance of the Project based on the scope and terms of the Agreement and, notwithstanding the information contained in the Owner's Project background documents, and to ensure compliance with all applicable Governmental Rules, Regulations, and Requirements.

1.1.5 All professional services work performed in connection with this Contract shall be performed in a manner consistent with the standard of care ordinarily exercised by those who provide architectural, engineering, planning and design services for projects of similar size, scope and complexity for water treatment facilities in the United States, and consistent with the standard of care ordinarily exercised by those who specialize in such specialty services. In addition, all work is to be performed within the standard of care for California architects, engineers, planners and designers. Neither review nor approval of Design-Builder's work by Owner, any employee, any agent/consultant of Owner, or any other person shall in any way relieve Design-Builder from its duty to utilize this standard of care in the performance of its duties. Design-Builder agrees to provide its professional services in a manner that is in the Owner's economic and governmental best interests, consistent with this standard of care and the Design-Builder's professional obligations.

1.1.6 In compliance with Government Code section 7550, the Design Builder shall include a separate section in the proposal prepared pursuant to this Agreement,

which contains a list of all the subcontractors and dollar amounts of all contracts and subcontracts required for the preparation of work described in this Agreement.

1.1.7 Cooperation. The Design-Builder shall assist the Owner's staff and reasonably cooperate with the Owner and all other designated representatives during the design and construction of the Project. The Owner shall cooperate and cause its agencies to promptly review all documentation and submittals.

1.1.8 Management. The Design-Builder shall implement suitable management systems and work plans for the Project relative to Project safety, quality assurance and managing and controlling the Work.

1.1.9 Reports. The Design-Builder shall prepare and submit to the Owner, during both the Design Phase and the Construction Phase, monthly progress reports on the Work accomplished during the prior monthly period, which reports shall be prepared in a manner and in a format reasonably acceptable to the Owner and Design-Builder, and mutually agreed by both parties. Such reports shall be furnished at the time of submission of each monthly Application for Payment or Invoice. As part of such report, the Design-Builder shall provide an updated Schedule, including Critical Path Method (CPM) illustrating the progress which has been made, by reference to the CPM, and specifically whether the Work is on schedule or behind schedule and actions being taken to correct Schedule slippage. The monthly report shall also set forth the Design-Builder's projected progress for the forthcoming month.

1.1.10 Close Out. The Design-Builder shall comply with all Owner requirements for the turnover of the facilities, including final regulatory submittals, submittal of close-out documents.

1.2 Phased Services.

1.2.1 Phase 1 Services (Design and Preconstruction)

1.2.1.1 Phase 1 Services. Design-Builder shall perform the services of design, pricing and other services for the Project based on Owner's Design Criteria and Preliminary Drawings, as may be revised, submitted and accepted by Owner. Design-Builder shall perform such services to the level of completion required for Design-Builder to establish the Guaranteed Maximum Price, upon which acceptance by the Owner, the Design-Builder and Owner will establish the Contract Price for Phase 2, as set forth in Section 1.3 below. The Contract Price for Phase 2 shall be developed during Phase 1 on an “open-book” basis. Design-Builder’s Compensation for Phase 1 Services is set forth in Article 6 herein. The level of completion required for Phase 1 Services is defined in Exhibit B, Scope of Work (either as a percentage of design completion or by defined deliverables), upon which the GMP(s) are based. Design-Builder shall perform such services to the level of completion required for Design-Builder to complete the Project.

1.2.1.2 The Contract Price for Phase 2 is to be documented through the Contract Price Amendment(s) for Phase 2, as set forth in Section 1.3 below. Design work following the establishment of the Contract Price Amendment(s) shall also be considered Phase 1 work. Further, if the Design-Builder's Guaranteed Price Proposal is rejected in accordance with Section 1.3.2.3 (iii) below, any design work required to complete the design shall be considered Phase 1 work. Design-Builder's compensation for Phase 1 services is set forth in Section 6 herein.

1.2.1.3 Owner reserves the right to release multiple amendments for various early work packages associated with Phase 2 work. Design-Builder shall provide all guaranteed price proposals required to support the amendments to this agreement.

1.2.1.4 Design-Builder shall review and prepare a written evaluation of Owner -provided Project Criteria, including recommendations to the Owner for different and innovative approaches to the design and construction of the Project. The parties shall meet to discuss Design-Builder's written evaluation of The Owner's Project Criteria and agree upon what revisions, if any, should be made to such criteria. The work involved in progressing from draft Owner Project's Criteria to final Owner's Project Criteria shall be compensated as part of the Design-Builder's Phase 1 services.

1.2.1.5 Basis of Design. The Design-Builder shall provide Basis of Design Report (BODR) based on the mutually agreed-upon project schedule, and comprehensive budget for the Cost of the Work prepared by the Design-Builder. The documents shall establish the conceptual design of the Project illustrating the scale and relationship of the Project components. The BODR may include study models, perspective sketches, electronic modeling or combinations of these media. Preliminary selections of major project's systems and construction materials shall be noted on the drawings or described in writing. These documents shall be presented to the Owner for review and approval.

1.2.1.6 Design Development Documents. The Design-Builder shall provide design development documents based on the approved BODR and updated comprehensive budget for the Cost of the Work. The design development documents shall illustrate and describe the refinement of the design of the Project, establishing the scope, relationships, forms, size and appearance of the Project by means of plans, sections and elevations, typical construction details, and equipment layouts. The design development documents shall include specifications that identify major material and systems and establish in general their quality levels. These documents shall be presented to the Owner for review and approval.

1.2.1.7 Construction Documents. The Design-Builder shall provide Construction Documents based on the approved design development documents and updated comprehensive budget for the Cost of the Work.

The Construction Documents shall set forth in detail the requirements for construction of the Project. The Construction Documents shall include drawings and specifications that establish in detail the quality levels of materials and systems required for the Project. These documents shall be presented to the Owner for review and approval.

1.2.1.8 Review of Construction Documents and Field Conditions. Notwithstanding review and approval by the Owner, the Design-Builder shall be responsible for all errors, inconsistencies, or omissions in the Construction Documents. The Design-Builder shall take field measurements and verify field conditions and shall carefully compare such field conditions and conditions and other information known to the Design-Builder with the Construction Documents before commencing activities. If necessary to meet the schedule for this project, or if requested by the Owner, the Design-Builder may issue multiple Construction Document packages to permit phased construction of the Project. The Owner will facilitate this process by reviewing such packages on a timely basis. Such review and approval by the Owner shall not relieve the Design-Builder of its obligation to coordinate all aspects of the work.

1.2.2 Phase 2 Services. Design-Builder's Phase 2 services shall consist of the procurement of all materials and equipment for the Project, the performance of construction services for the Project, the start-up, testing and commissioning of the Project, and the provision of warranty services, all as further described in the Contract Price Amendment. Upon receipt of Design-Builder's proposed Contract Price for Phase 2, Owner may proceed as set forth in Section 1.3.

1.3 Guaranteed Price Proposal. Upon completion of the Phase 1 Services or when design work has progressed to an appropriate, mutually agreed stage, Design-Builder shall submit to Owner the Guaranteed Price Proposal (the "Proposal") or a defined portion of a Guaranteed Price (GP) for the construction of the Project upon which the parties may agree, for the construction for the Project for the Contract Price, which may be based on Lump Sum or Design-Builder's Fee and Cost of the Work with a Guaranteed Maximum Price (GMP).

1.3.1 The Proposal shall include the following unless the parties mutually agree otherwise:

1.3.1.1 The Contract Price that may be based on a Lump Sum or Design-Builder's Fee and Cost of the Work, with a GMP (which can be developed starting at the 60% design level), which shall be the sum of:

i Design-Builder's Fee as defined in Section 6.4 hereof;

ii The estimated Cost of the Work as defined in Section 6.7 hereof, inclusive of any Design-Builder's Contingency as defined in Section 6.8 hereof; and

iii If applicable, any prices established under Section 6.8 hereof;

1.3.1.2 Details associated with Lump Sum implementation of the contract. Such details should include a Lump Sum discount (if applicable), a listing of project milestones, details regarding how invoicing for Work will correspond to those project milestones, and other such details as necessary for Lump Sum implementation of the Guaranteed Price.

1.3.1.3 The Design-Builder developed Construction Documents will serve as the basis for the Guaranteed Price Proposal.

1.3.1.4 A list of the assumptions and clarifications made by Design-Builder in the preparation of the Guaranteed Price Proposal, which list is intended to supplement the information contained in the drawings and specifications.

1.3.1.5 The Scheduled Substantial Completion Date upon which the Proposal is based, to the extent said date has not already been established under Section 5.2.1 hereof, and a schedule upon which the Scheduled Substantial Completion Date is based and a Project Schedule for the Work;

1.3.1.6 Any applicable dates for Substantial Completion upon which the proposed Guaranteed Price is based.

1.3.1.7 A list of all Construction Documents used as a basis for the Guaranteed Price Proposal.

1.3.1.8 If applicable, a list of Allowance Items, Allowance Values, and a statement of their basis;

1.3.1.9 If applicable, a schedule of alternate prices;

1.3.1.10 If applicable, a schedule of unit prices;

1.3.1.11 If applicable, a statement of Additional Services which may be performed but which are not included in the Proposal, and which, if performed, shall be the basis for an increase in the Contract Price and/or Contract Time(s);

1.3.1.12 If applicable, a Savings provision;

1.3.1.13 If applicable, Performance Incentives;

1.3.1.14 Duration at which the Guaranteed Price Proposal is valid (minimum – 60 calendar days).

1.3.1.15 The time limit for acceptance of the Proposal (minimum – 60 calendar days); and

1.3.1.16 An Owner's permit list, a list detailing the permits and governmental approvals that Owner will bear responsibility to obtain.

1.3.2 Review and Adjustment to Proposal.

1.3.2.1 After submission of the Proposal, Design-Builder and Owner shall meet to discuss and review the Proposal. If Owner has any comments regarding the Proposal, or finds any inconsistencies or inaccuracies in the information presented, it shall promptly give written notice to Design-Builder of such comments or findings. If appropriate, Design-Builder shall, upon receipt of Owner's notice, make appropriate adjustments to the Proposal.

1.3.2.2 Acceptance of Proposal. If Owner accepts the Proposal, as may be amended by Design-Builder, the Contract Price and its basis shall be set forth in an amendment to this Agreement, when mutually agreed between the parties (Contract Price Amendment). Once the parties have agreed upon the Contract Price and Owner has issued a Notice to Proceed with Phase 2, Design-Builder shall perform the Phase 2 Services, all as further described in the Contract Price Amendment, as it may be revised.

1.3.2.3 Failure to Accept the Proposal. If Owner rejects the Proposal, or fails to notify Design-Builder in writing on or before the date specified in the Proposal that it accepts the Proposal, the Proposal shall be deemed withdrawn and of no effect. In such event, Owner and Design-Builder shall meet and confer as to how the Project will proceed, with Owner having the following options:

i Owner may suggest modifications to the Proposal, whereupon, if such modifications are accepted in writing by Design-Builder, the Proposal shall be deemed accepted and the parties shall proceed in accordance with Section 1.3.2.2 above;

ii Owner may determine that the design is not yet sufficiently complete for acceptance or rejection of the Proposal. As such, Owner may direct Design-Builder to continue to proceed with the Phase 1 work and further advance the design before submitting a revised Proposal.

iii Owner may determine that it does not intend to proceed with Phase 2 services with the Design-Builder. In such a case, the Owner may authorize the Design-Builder to proceed until the completion of Phase 1 work, at which time, Owner may elect to publicly bid the Phase 2 work. In such occurrence, the Design-Builder and the Owner agree to transfer the contract responsibility from the contractual Design-Builder to the Designer-of-Record.

iv Owner may terminate this Agreement for convenience in accordance with Article 8 hereof; provided, however, in this event, Design-Builder shall not be entitled to the payment provided for in Article 8 hereof.

1.3.2.4 If Owner fails to exercise any of the above options, Design-Builder shall have the right to (a) continue with the Work as if Owner had elected to proceed in accordance with Section 1.3.2.3(ii). above, and be paid by

Owner accordingly, unless and until Owner notifies it in writing to stop the Work; (b) suspend performance of Work in accordance with Article 11 of the General Conditions of Contract, provided, however, that in such event Design-Builder shall not be entitled to the payment provided for in Section 8.2 hereof; or (c) may give written notice to Owner that it considers this Agreement completed. If Owner fails to exercise any of the options under Section 1.3.2 within ten (10) days of receipt of Design-Builder's notice, then this Agreement shall be deemed completed. If Owner terminates the relationship with Design-Builder under Section 1.3.2(iv), or if this Agreement is deemed completed under this paragraph, then Design-Builder shall have no further liability or obligations to Owner under this Agreement.

Article 2

Contract Documents

2.1 The Contract Documents are comprised of the following:

2.1.1 All written modifications, amendments, minor changes and Change Orders to this Agreement;

2.1.2 The Contract Price Amendment referenced in Section 1.3.2.2 above or the Proposal accepted by Owner in accordance with Section 1.3 above;

2.1.3 This Agreement, including all exhibits (list for example, performance standard requirements, performance incentive arrangements, markup exhibits, allowances, unit prices or exhibit detailing offsite reimbursable personnel) but excluding, if applicable, the Contract Price Amendment;

2.1.4 The General Conditions of Contract;

2.1.5 Construction Documents prepared and approved in accordance with Section 2.4 of the General Conditions of Contract;

2.1.6 Exhibit B, Scope of Work; and

2.1.7 The following other documents, if any:

2.1.7.1 Applicable Laws and Regulations

2.1.7.2 Permits

2.1.7.3 Properly Executed Change Orders

2.1.7.4 Addenda

2.1.7.5 Executed Design-Build Agreement (DBIA Document No. 545), including Exhibits

2.1.7.6 General Conditions (DBIA Document No. 535)

2.1.7.7 Design Criteria Report

2.1.7.8 Design-Builder's Proposal /GP Design-Build Proposal

2.1.7.9 Technical Specifications

2.1.7.10 Project Plans/Drawings (detailed plans having greater precedence)

2.1.7.11 Request for Proposals

Article 3

Interpretation and Intent

3.1 Design-Builder and Owner, at the time of acceptance of the Proposal by Owner in accordance with Section 1.3 hereof, shall carefully review all the Contract Documents, including the various documents comprising the Owner's Project background documents for any conflicts or ambiguities. Design-Builder and Owner will discuss and resolve any identified conflicts or ambiguities prior to execution of the Agreement, or if applicable, prior to Owner's acceptance of the Proposal.

3.2 The Contract Documents are intended to permit the parties to complete the Work and all obligations required by the Contract Documents within the Contract Time(s) for the Contract Price. The Contract Documents are intended to be complementary and interpreted in harmony so as to avoid conflict, with words and phrases interpreted in a manner consistent with construction and design industry standards. In the event inconsistencies, conflicts or ambiguities between or among the Contract Documents are discovered after Owner's acceptance of the Proposal, Design-Builder and Owner shall attempt to resolve any ambiguity, conflict or inconsistency informally, recognizing that the Contract Documents shall take precedence in the order in which they are listed in Section 2.1 hereof. (Note, the parties are strongly encouraged to establish in the Contract Price Amendment or Proposal (as applicable) the priority of the various documents comprising such exhibit or proposal.)

3.3 Terms, words and phrases used in the Contract Documents, including this Agreement, shall have the meanings given them in the General Conditions of Contract.

3.4 If Owner's Project Criteria contain design specifications: (a) Design-Builder is entitled to reasonably rely on the accuracy of the information represented in the design specifications and their compatibility with other information set forth in Owner's Project Criteria, including any design performance specifications; and (b) Design-Builder shall be entitled to an adjustment in its Contract Price and/or Contract Time(s) to the extent Design-Builder's cost and/or time of performance have been adversely impacted by such inaccurate design specification.

3.5 The Contract Documents form the entire agreement between Owner and Design-Builder and by incorporation herein are as fully binding on the parties as if repeated herein. No oral representations or other agreements have been made by the parties except as specifically stated in the Contract Documents.

Article 4

Ownership of Work Product

4.1 Work Product. All drawings, specifications and other documents and electronic data, including such documents identified in the General Conditions of Contract, furnished by Design-Builder to Owner under this Agreement ("Work Product") are deemed to be instruments of service and Design-Builder shall retain the ownership and property interests therein, including but not limited to any intellectual property rights, copyrights and/or patents, subject to the provisions set forth in Sections 4.2 through 4.5 below.

4.2 Owner's License upon Project Completion and Payment in Full to Design-Builder. Upon Owner's payment in full for all Work performed under the Contract Documents, Design-Builder shall grant Owner a fully paid up, perpetual license to use the Work Product in connection with Owner's occupancy of the Project, conditioned on Owner's express understanding that its alteration of the Work Product without the involvement of Design-Builder is at Owner's sole risk and without liability or legal exposure to Design-Builder or anyone working by or through Design-Builder, including Design Consultants of any tier (collectively the "Indemnified Parties"), and on Owner's obligation to provide the indemnity set forth in Section 4.5 herein.

4.3 Owner's License upon Owner's Termination for Convenience or Design-Builder's Election to Terminate. If Owner terminates this Agreement for its convenience as set forth in Article 8 hereof, or if Design-Builder elects to terminate this Agreement in accordance with Section 11.4 of the General Conditions of Contract, Design-Builder shall, upon Owner's payment in full of the amounts due Design-Builder under the Contract Documents, grant Owner a fully paid up, perpetual license to use the Work Product to complete the Project and subsequently occupy the Project, and Owner shall thereafter have the same rights as set forth in Section 4.2 above, conditioned on the following:

4.3.1 Use of the Work Product is at Owner's sole risk without liability or legal exposure to any Indemnified Party, and on Owner's obligation to provide the indemnity set forth in Section 4.5 herein, and

4.4 Owner's License upon Design-Builder's Default. If this Agreement is terminated due to Design-Builder's default pursuant to Section 11.2 of the General Conditions of Contract, then Design-Builder grants Owner a fully paid up, perpetual license to use the Work Product to complete the Project and subsequently occupy the Project, and Owner shall thereafter have the same rights and obligations as set forth in Section 4.2 above. Notwithstanding the preceding sentence, if it is ultimately determined that Design-Builder was not in default, Owner shall be deemed to have terminated the Agreement for convenience, and Design-Builder shall be entitled to the rights and remedies set forth in Section 4.3 above.

4.5 Owner's Indemnification for Use of Work Product. Owner recognizes that in the event of an early termination of the Work, whether for convenience or for cause, Design-Builder will not have the opportunity to finish or to finalize its Work Product. Therefore, if Owner uses the Work Product, in whole or in part, or if Owner is required to indemnify any Indemnified Parties based on the use or alteration of the Work Product under any of

the circumstances identified in this Article 4, Owner shall defend, indemnify and hold harmless the Indemnified Parties from and against any and all claims, damages, liabilities, losses and expenses, including attorneys' fees, arising out of or resulting from the use or alteration of the Work Product, to the fullest extent permitted by applicable law.

4.6 Obligations on Subcontractor. Any sub-contract entered into by Design-Builder relating to this Contract, to the extent allowed hereunder, shall include a like provision (on Owner's ownership in Work Products) for work to be performed under this Contract to Contractually bind or otherwise oblige its subcontractor performing work under this Contract such that Owner's ownership rights of all Work Products are preserved and protected as intended herein. Failure of Design-Builder to comply with this requirement or to obtain the compliance of its subcontractor with such obligations shall subject Design-Builder to all remedies allowed under law and termination of this Contract.

4.7 Use of Work Products and Trade Secrets by Third Parties. Design-Builder shall not make available, provide or disclose any Work Product to any third party without prior written consent of Owner. Design-Builder further agrees that it will not disclose nor cause others to disclose any of Owner's trade secrets or other potentially patentable matters including inventions, discoveries, improvements, and methods, developed during the performance of this Contract. Design-Builder shall be liable for any loss of patentable rights as a result of such disclosure whether such disclosure is inadvertent or not.

4.8 Non-Infringement Warranty. Design-Builder hereby represents and warrants that neither the Work Product, including Owner's use thereof, nor performance of all obligations under this Contract shall in any way, directly or contributorily, infringe upon any third party's intellectual property rights, including, without limitation, patents, copyrights, trademarks, trade secrets, right of public Owner and proprietary information. This section shall survive expiration or termination of this Contract.

4.9 In Design-Builder's defense of the Owner, negotiation, compromise, and settlement of any such infringement legal action, the Owner shall retain discretion in and control of the litigation, negotiation, compromise, settlement, and appeals therefrom.

4.10 Where any Work Product furnished by Design-Builder is in a form of software or firmware ("Vehicle"), and if any part of the such Vehicle (a) becomes the subject of a legal action, (b) is adjudicated as infringing a third party's Intellectual Property right, or (c) has its use enjoined or license terminated; Design-Builder shall, with the Owner's consent, do one of the following immediately. Design-Builder shall at its expense either:

4.10.1 Procure for the Owner the right to continue using said part of the Vehicle; or

4.10.2 Replace the Vehicle with a functionally equivalent, non-infringing product.

4.11 Exercise of any of the above-mentioned options shall not cause undue business interruption to the Owner or diminish the intended benefits and use of the Work Product by the Owner under the specifications herein.

4.12 Rights and remedies available to the Owner hereinabove shall survive the expiration or other termination of this Contract. Further, the rights and remedies are cumulative of those provided for elsewhere in this Contract and those allowed under the laws of the United States, the State of California, and the County of San Bernardino. This Paragraph shall survive the expiration or other termination of this Contract.

4.13 Unless expressly stated otherwise, for all pre-existing third-party and Design-Builder's intellectual property (if any), including software, required to operate or use any Work Product delivered by Design-Builder, Design-Builder hereby grants and will cause others to grant Owner (including its agents and consultants) an irrevocable license to use such pre-exiting intellectual property internally by Owner (including its agents and consultants).

Article 5

Contract Time

5.1 Date of Commencement. The Phase 1 Services shall commence within five (5) days of Design-Builder's receipt of Owner's Notice to Proceed unless the parties mutually agree otherwise in writing. The Work shall commence within five (5) days of Design-Builder's receipt of Owner's Notice to Proceed for Phase 2 Services ("Date of Commencement") if the Proposal is accepted and the Contract Price Amendment is agreed upon, unless the parties mutually agree otherwise in writing.

5.2 Substantial Completion and Final Completion.

5.2.1 Substantial Completion of the entire Work shall be achieved no later than (To be included in the Phase 2 Amendment) calendar days after the Date of Commencement ("Scheduled Substantial Completion Date").

5.2.2 The parties agree that the definition for Substantial Completion set forth in Section 1.2.38 of the General Conditions of Contract applies.

5.3 Interim milestones and/or Substantial Completion of identified portions of the Work shall be achieved as follows:

5.3.1 Completion of Basis of Design Report

5.3.2 Submittal of the Proposal(s)

5.4 Final Completion of the Work or identified portions of the Work shall be achieved as expeditiously as reasonably practicable. Final Completion is the date when all Work is complete pursuant to the definition of Final Completion set forth in Section 1.2.21 of the General Conditions of Contract.

5.5 All of the dates set forth in this Article 5 ("Contract Time") shall be subject to adjustment in accordance with the General Conditions of Contract.

5.6 Time is of the Essence. Owner and Design-Builder mutually agree that time is of the essence with respect to the dates and times set forth in the Contract Documents.

5.7 Liquidated Damages.

5.7.1 Design-Builder understands that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Owner will suffer damages which are difficult to determine and accurately specify. Design-Builder agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date (the "LD Date"), Design-Builder shall pay Owner five thousand Dollars ($5,000) as liquidated damages for each calendar day that Substantial Completion extends beyond the LD Date.

5.7.2 Design-Builder understands that if Final Completion is not attained by the Scheduled Final Completion Date, Owner will suffer damages which are difficult to determine and accurately specify. Design-Builder agrees that if Final Completion is not attained by the Scheduled Final Completion Date (the "LD Date"), Design-Builder shall pay Owner twenty-five hundred Dollars ($2,500) as liquidated damages for each calendar day that Final Completion extends beyond the LD Date.

5.7.3 The parties agree that the Liquidated Damages set out in section 5.7.1 and 5.7.2, above, shall constitute Owner's sole remedy for delay.

5.8 Owner's Review Time. The parties have established the following maximum and minimum amount of time for Owner to review Design Submissions and the Project Schedule or any updates thereto unless the parties agree in writing otherwise.

5.8.1 Owner shall have a minimum of fifteen working days of receipt by Owner to review all Design Submissions, the Project Schedule, and any updates thereto.

5.8.2 Owner shall review and (if applicable) provide a response to Design-Builder on all Design Submissions, the Project Schedule and any updates thereto within fifteen working days of receipt by Owner.

Article 6

Contract Price

6.1 Contract Price.

6.1.1 Owner shall pay Design-Builder on a time and material basis in accordance with a not to exceed of three million, nine hundred and ninety-eight thousand, six hundred and twenty-seven dollars ($3,998,627) for the Phase 1 Services, subject to adjustments made in accordance with the General Conditions of Contract. Unless otherwise provided in the Contract Documents, the Phase 1 Services compensation is deemed to include all sales, use, consumer and other taxes mandated by applicable Legal Requirements.

6.1.2 Owner and the Design-Builder agree to execute the amendment to this Agreement for Phase 2 related work after successful completion and acceptance by the Owner of the Proposal(s) and amendment(s). For Phase 2 Services, Owner shall pay Design-Builder in accordance with Article 6 of the General Conditions of Contract a contract price ("Contract Price") equal to the negotiated Contract Price Amendment, or equal to Design-Builder's Fee (as defined in Section 6.4 hereof) plus the Cost of the Work (as defined in Section 6.7 hereof), subject to any GMP established in Section 6.8 hereof or as set forth in the Contract Price Amendment and any adjustments made in accordance with the General Conditions of Contract.

6.2 Markups for Changes. If the Contract Price requires an adjustment due to changes in the Work, and the cost of such changes is determined under Section 9.4.1 of the General Conditions of Contract, the following markups shall be allowed on such changes:

6.2.1 For additive Change Orders, including additive Change Orders arising from both additive and deductive items, it is agreed that Design-Builder shall receive fifteen percent (15%) of the additional costs incurred for that Change Order for overhead and profit.

6.2.2 For deductive Change Orders, including deductive Change Orders arising from both additive and deductive items, the deductive amounts shall include an amount equal to the sum of five percent (5%) for profit applied to the direct costs of the net reduction (which amount will account for a reduction associated with Design-Builder's Fee) applied to the direct costs of the net reduction.

6.3 Not Used

6.4 Basis of Compensation. Design-Builder's compensation for Phase 1 work will be provided on the basis of actual hours of work performed, hourly rates agreed upon by Owner and Design-Builder, and the not-to-exceed prices.

6.5 For certain trades, Owner and Design-Builder may agree upon lump sum or not-to-exceed prices for services such as geotechnical exploration of the site, utility potholing, piloting equipment, surveying, etc. after selection of Design-Builder. Prices negotiated will be consistent with the Design-Builder's proposal for the work.

6.6 Phase 1 Invoices. Prior to the first invoice for Phase 1 Work, the Design-Builder shall submit a sample invoice to the Owner for approval showing a detailed breakdown structure and percent complete for different tasks of Phase 1 of the project.

6.7 Cost of the Work.

6.7.1 The term "Cost of the Work" shall mean costs reasonably incurred by Design-Builder in the proper performance of the Work. The Cost of the Work shall include only the following:

6.7.1.1 Wages of direct employees of Design-Builder performing the Work at the Site or, with Owner's agreement, at locations off the Site, provided, however, that the costs for those employees of Design-Builder performing

design services shall be calculated on the basis of prevailing market rates for design professionals performing such services or, if applicable, those rates set forth in an exhibit to this Agreement.

6.7.1.2 Wages or salaries of Design-Builder's supervisory and administrative personnel engaged in the performance of the Work and who are located at the Site or working off-Site to assist in the production or transportation of material and equipment necessary for the Work.

6.7.1.3 Wages or salaries of Design-Builder's personnel stationed at Design-Builder's principal or branch offices, but only to the extent said personnel are identified in Exhibit C and performing the function set forth in said Exhibit. The reimbursable costs of personnel stationed at Design-Builder's principal or branch offices shall include a ten percent (10%) markup to compensate Design-Builder for the Project-related overhead associated with such personnel.

6.7.1.4 Costs incurred by Design-Builder for employee benefits, premiums, taxes, insurance, contributions and assessments required by law, collective bargaining agreements or which are customarily paid by Design-Builder, to the extent such costs are based on wages and salaries paid to employees of Design-Builder covered herein.

6.7.1.5 The reasonable portion of the cost of travel, accommodations and meals for Design-Builder's personnel necessarily and directly incurred in connection with the performance of the Work.

6.7.1.6 Payments properly made by Design-Builder to Subcontractors and Design Consultants for performance of portions of the Work, including any insurance and bond premiums incurred by Subcontractors and Design Consultants.

6.7.1.7 Costs incurred by Design-Builder in repairing or correcting defective, damaged or nonconforming Work (including any warranty or corrective Work performed after Substantial Completion), provided that such Work was beyond the reasonable control of Design-Builder, or caused by the ordinary mistakes or inadvertence, and not the negligence, of Design-Builder or those working by or through Design-Builder. If the costs associated with such Work are recoverable from insurance, Subcontractors or Design Consultants, Design-Builder shall exercise best efforts to obtain recovery from the appropriate source and provide a credit to Owner if recovery is obtained.

6.7.1.8 Costs, including transportation, inspection, testing, storage and handling of materials, equipment and supplies incorporated or reasonably used in completing the Work.

6.7.1.9 Costs less salvage value of materials, supplies, temporary facilities, machinery, equipment and hand tools not customarily owned by the workers

that are not fully consumed in the performance of the Work and which remain the property of Design-Builder, including the costs of transporting, inspecting, testing, handling, installing, maintaining, dismantling and removing such items.

6.7.1.10 Costs of removal of debris and waste from the Site.

6.7.1.11 The reasonable costs and expenses incurred in establishing, operating and demobilizing the Site office, including the cost of facsimile transmissions, long-distance telephone calls, postage and express delivery charges, telephone service, photocopying and reasonable petty cash expenses.

6.7.1.12 Rental charges and the costs of transportation, installation, minor repairs and replacements, dismantling and removal of temporary facilities, machinery, equipment and hand tools not customarily owned by the workers, which are provided by Design-Builder at the Site, whether rented from Design-Builder or others, and incurred in the performance of the Work.

6.7.1.13 Premiums for insurance and bonds required by this Agreement or the performance of the Work.

6.7.1.14 All fuel and utility costs incurred in the performance of the Work.

6.7.1.15 Sales, use or similar taxes, tariffs or duties incurred in the performance of the Work.

6.7.1.16 Legal costs, court costs, and costs of mediation and arbitration arising from Design-Builder's performance of the Work; provided they are not due to the Design-Builder's negligence, wrongful acts, or breach of this Agreement; as determined by agreement of the parties, or final judicial decision. Such costs do not include costs incurred by the Design-Builder in connection with a dispute resolution process that results in Design-Builder's payment to settle a third party claim.

6.7.1.17 Legal costs, court costs, and costs of mediation and arbitration reasonably arising from claims based on the Owner's negligence, wrongful acts, or breach of this Agreement; as determined by agreement of the parties, or final judicial decision. Such costs include costs incurred by the Design-Builder that arise out of a dispute resolution process that results in Owner's payment to settle a third party claim.

6.7.1.18 Costs for permits, royalties, licenses, tests and inspections incurred by Design-Builder as a requirement of the Contract Documents.

6.7.1.19 The cost of defending suits or claims for infringement of patent rights arising from the use of a particular design, process or product

required by Owner, paying legal judgments against Design-Builder resulting from such suits or claims, and paying settlements made with Owner's consent.

6.7.1.20 Deposits which are lost, except to the extent caused by Design-Builder's negligence.

6.7.1.21 Costs incurred in preventing damage, injury or loss in case of an emergency affecting the safety of persons and property.

6.7.1.22 Accounting and data processing costs related to the Work.

6.7.1.23 Other costs reasonably and properly incurred in the performance of the Work to the extent approved in writing by Owner.

6.7.2 Non-Reimbursable Costs. The following shall be excluded from the Cost of the Work:

6.7.2.1 Compensation for Design-Builder's personnel stationed at Design-Builder's principal or branch offices.

6.7.2.2 Overhead and general expenses, which may be recoverable for changes to the Work.

6.7.2.3 The cost of Design-Builder's capital used in the performance of the Work.

6.7.2.4 If the parties have agreed on a GMP, costs that would cause the GMP, as adjusted in accordance with the Contract Documents, to be exceeded.

6.8 The Guaranteed Maximum Price.

6.8.1 Design-Builder guarantees that it shall not exceed the GMP of _____ _____ Dollars ($ To be included in the Phase 2 Amendment_____). Documents used as a basis for the GMP shall be identified in the Contract Price Amendment to this Agreement. Design-Builder does not guarantee any specific line item provided as part of the GMP, and has the sole discretion to apply payment due to overruns in one line item to savings due to underruns in any other line item. Design-Builder agrees, however, that it will be responsible for paying all costs of completing the Work which exceed the GMP, as adjusted in accordance with the Contract Documents.

6.8.2 The GMP includes a Contingency in the amount of _____ _____ Dollars ($ To be included in the Phase 2 Amendment_____) which is available for Design-Builder's exclusive use for unanticipated costs it has incurred that are not the basis for a Change Order under the Contract Documents. By way of example, and not as a limitation, such costs may include: (a) trade buy-out

differentials; (b) overtime or acceleration; (c) escalation of materials; (d) correction of defective, damaged or nonconforming Work, design errors or omissions, however caused; (e) Subcontractor defaults; or (f) those events under Article 8 of the General Conditions of Contract that result in an extension of the Contract Time but do not result in an increase in the Contract Price. The Contingency is not available to Owner for any reason, including changes in scope or any other item which would enable Design-Builder to increase the GMP under the Contract Documents. Design-Builder shall provide Owner notice of all anticipated charges against the Contingency, and shall provide Owner as part of the monthly status report required by Section 2.1.2 of the General Conditions of Contract an accounting of the Contingency, including all reasonably foreseen uses or potential uses of the Contingency in the upcoming three (3) months. Design-Builder agrees that with respect to any expenditure from the Contingency relating to a Subcontractor default or an event for which insurance or bond may provide reimbursement, Design-Builder will in good faith exercise reasonable steps to obtain performance from the Subcontractor and/or recovery from any surety or insurance company. Design-Builder agrees that if Design-Builder is subsequently reimbursed for said costs, then said recovery will be credited back to the Contingency.

6.9 Allowance Items and Allowance Values.

6.9.1 Any and all Allowance Items, as well as their corresponding Allowance Values, are set forth in the Contract Price Amendment or the Proposal.

6.9.2 Design-Builder and Owner have worked together to review the Allowance Items and Allowance Values based on design information then available to determine that the Allowance Values constitute reasonable estimates for the Allowance Items. Design-Builder and Owner will continue working closely together during the preparation of the design to develop Construction Documents consistent with the Allowance Values. Nothing herein is intended in any way to constitute a guarantee by Design-Builder that the Allowance Item in question can be performed for the Allowance Value.

6.9.3 No work shall be performed on any Allowance Item without Design-Builder first obtaining in writing advance authorization to proceed from Owner. Owner agrees that if Design-Builder is not provided written authorization to proceed by the date set forth in the Project schedule, due to no fault of Design-Builder, Design-Builder may be entitled to an adjustment of the Contract Time(s) and Contract Price.

6.9.4 The Allowance Value includes the direct cost of labor, materials, equipment, transportation, taxes and insurance associated with the applicable Allowance Item. All other costs, including design fees, Design-Builder's overall project management and general conditions costs, overhead and Fee, are deemed to be included in the original Contract Price, and are not subject to adjustment notwithstanding the actual amount of the Allowance Item.

6.9.5 Whenever the actual costs for an Allowance Item is more than or less than the stated Allowance Value, the Contract Price shall be adjusted accordingly by Change Order, subject to Section 6.9.4. The amount of the Change Order shall reflect the difference between actual costs incurred by Design-Builder for the particular Allowance Item and the Allowance Value

6.9.6 Interim Milestones – Not Used

Article 7

Procedure for Payment

7.1 Contract Price Progress Payments.

7.1.1 Design-Builder shall submit to Owner on the fifth (5th) day of each month, beginning with the first month after the Date of Commencement, Design-Builder's Application for Payment in accordance with Article 6 of the General Conditions of Contract.

7.1.2 Owner shall make payment within thirty (30) days after Owner's receipt of each properly submitted and accurate Application for Payment in accordance with Article 6 of the General Conditions of Contract, but in each case less the total of payments previously made, and less amounts properly withheld under Section 6.3 of the General Conditions of Contract.

7.1.3 Not Used.

7.2 Retainage on Progress Payments.

7.2.1 Owner will retain five percent (5%) of each Application for Payment provided, however, that when fifty percent (50%) of the Work has been satisfactorily completed by Design-Builder and Design-Builder is otherwise in compliance with its contractual obligations, Owner may choose to not retain any additional retention amounts from Design-Builder's subsequent Applications for Payment. Owner will also reasonably consider reducing retainage for Work completed early in the Project.

7.2.2 There will be no retainage withheld during Phase 1 of the Project.

7.2.3 Substitution of Securities. At the request and expense of the Design-Builder, in accordance with California Public Contract Code Section 22300, in lieu of Owner withholding the five percent (5%) retention, the Design-Builder may: (1) substitute a deposit of securities at least equivalent to the retention to be paid, or (2) request Owner to pay retention directly to an escrow agent. If the Design-Builder requests that retention be paid into an escrow account, the Design-Builder and Owner shall enter into an escrow agreement in the exact form set forth in the Public Contract Code Section 22300. All forms or correspondence pertaining to Security Deposit in Lieu of Withhold shall be addressed to Owner for review by the legal counsel for Owner.

7.3 Final Payment. Design-Builder shall submit its Final Application for Payment to Owner in accordance with Section 6.6 of the General Conditions of Contract. Owner shall make payment on Design-Builder's properly submitted and accurate Final Application for Payment (less any amount the parties may have agreed to set aside for warranty work) within thirty (30) days after Owner's receipt of the Final Application for Payment, provided that Design-Builder has satisfied the requirements for final payment set forth in Section 6.6 of the General Conditions of Contract.

7.4 Record Keeping and Finance Controls. Design-Builder acknowledges that this Agreement is to be administered on an "open book" arrangement relative to Costs of the Work. Design-Builder shall keep full and detailed accounts and exercise such controls as may be necessary for proper financial management, using accounting and control systems in accordance with generally accepted accounting principles and as may be provided in the Contract Documents. During the performance of the Work and for a period of three (3) years after Final Payment, Owner and Owner's accountants shall be afforded access to, and the right to audit from time to time, upon reasonable notice, Design-Builder's records, books, correspondence, receipts, subcontracts, purchase orders, vouchers, memoranda and other data relating to the Work, all of which Design-Builder shall preserve for a period of three (3) years after Final Payment. Such inspection shall take place at Design-Builder's offices during normal business hours unless another location and time is agreed to by the parties. Any multipliers or markups agreed to by Owner and Design-Builder as part of this Agreement are only subject to audit to confirm that such multiplier or markup has been charged in accordance with this Agreement, but the composition of such multiplier or markup is not subject to audit.

Article 8

Termination for Convenience

8.1 The Owner, through its City Council resolution or recorded minute action, may terminate for convenience any part of the remaining work under the Contract at any time, or from time to time, by written notice to the Design-Builder. Such notice shall specify the extent to which the performance of work is terminated and the effective date of such termination.

8.2 Upon receipt of such notice, the Design-Builder shall:

8.2.1 Immediately discontinue work on the date and to the extent specified in the notice and place no further orders or subcontracts for materials, services, or facilities, other than as may be required for completion of such portion of work that is not terminated;

8.2.2 Promptly obtain cancellation upon terms satisfactory to Owner of all purchase orders, subcontracts, rentals or any other contracts existing for the performance of the terminated work or assign those contracts to Owner as directed;

8.2.3 Assist Owner in the maintenance, protection, and disposition of work in progress, plant, tools, equipment, property, and materials acquired by the Design-Builder or furnished by the Design-Builder under this Contract; and

8.2.4 Complete performance of the Work which is not terminated.

8.3 Upon any such termination, the Design-Builder shall waive any claims for damages on account thereof; but as the sole right and remedy of the Design-Builder, Owner shall pay Design-Builder substantiated costs in accordance with the following:

8.3.1 All amounts due and not previously paid to the Design-Builder for work completed in accordance with the Contract prior to such notice of termination, and for work thereafter completed as specified in such notice, up to but not exceeding the contract value for the work using the progress schedule, schedule of values and other project controls as applicable;

8.3.2 Reasonable costs incurred in demobilization and the disposition of residual material, plant and equipment; and

8.3.3 There shall be no claim or right to lost profits on unperformed work under any theory or any circumstances. There shall be no other right or claim for loss, cost, damage, expense or liability. These limits apply to a termination for convenience and also to any termination for default subsequently determined wrongful and therefore treated as a termination for convenience.

8.4 Design-Builder shall submit within twenty-one (21) days after receipt of notice of termination a proposal for an adjustment to its compensation including all incurred costs described herein. Should the logistics of such a termination preclude pricing any item of cost, the Design-Builder shall estimate costs to the best of its ability. Owner shall review, analyze, and verify such proposal, and negotiate an equitable adjustment, subject to City Council approval as needed, and the Contract shall be amended in writing accordingly.

8.5 No compensation will be paid to the Design-Builder for unabsorbed or under absorbed overhead, nor shall the Design-Builder be paid for loss of anticipated profits in any form.

8.6 If an agreement cannot be reached concerning an equitable adjustment, Owner may issue a unilateral Change Order.

Article 9

Representatives of the Parties

9.1 Owner's Representatives.

9.1.1 Owner designates the individual listed below as its Senior Representative ("Owner's Senior Representative"), which individual has the authority and responsibility for avoiding and resolving disputes under Section 10.2.4 of the General Conditions of Contract: *Arturo Vela, Public Works Director, City of Banning; 99 E. Ramsey Street, Banning, CA 92220; (951) 922-3134*

9.1.2 Owner designates the individual listed below as its Owner's Representative, which individual has the authority and responsibility set forth in Section 3.4 of the General Conditions of Contract: *Arturo Vela, Public Works Director, City of Banning; 99 E. Ramsey Street, Banning, CA 92220; (951) 922-3134*

9.2 Design-Builder's Representatives.

9.2.1 Design-Builder designates the individual listed below as its Senior Representative ("Design-Builder's Senior Representative"), which individual has the authority and responsibility for avoiding and resolving disputes under Section 10.2.4 of the General Conditions of Contract: *Joe Lawrence, Design-Build Manager; 26501 Madison Avenue, Murrieta, CA 92562; (559) 647-6650*

9.2.2 Design-Builder designates the individual listed below as its Design-Builder's Representative, which individual has the authority and responsibility set forth in Section 2.1.1 of the General Conditions of Contract: *Marcos Reyes, Construction Manager; 26501 Madison Avenue, Murrieta, CA 92562; (951) 973-7393*

Article 10

Bonds and Insurance

10.1 Insurance. Design-Builder and Owner shall procure the insurance coverages set forth in the Insurance Exhibit attached hereto and in accordance with Article 5 of the General Conditions of Contract.

10.2 Bonds and Other Performance Security. Prior to commencement with Phase 2, Design-Builder shall provide the following performance bond and labor and material payment bond or other performance security:

Performance Bond.

☒ Required ☐ Not Required

Payment Bond.

☒ Required ☐ Not Required

Article 11

Other Provisions

11.1 Listing of Exhibits and documents incorporated herein:

i. Exhibit A – Design Criteria Report and Preliminary Design Drawings
ii. Exhibit B – Scope of Work and Schedule
iii. Exhibit C – Supporting Pricing Information
iv. Exhibit D – List of Reference Documents
v. Exhibit E – Design-Builder's Proposal
vi. Exhibit F – Permits and Approvals
vii. (Not Used)
viii. Exhibit H – Insurance Terms
ix. Exhibit I – Funding, Grant, and Environmental Permits Requirements (To be included in the Phase 2 Amendment)
x. (Not Used)
xi. Exhibit K – Form of Performance Bond
xii. Exhibit L – Form of Payment Bond
xiii. Exhibit M – Wage Determination Schedules

Article 12

Limitation of Liability

12.1 Limitation. To the fullest extent permitted by law, and notwithstanding any other provision of this Agreement, the total liability, in the aggregate, of Design-Builder, its Design Consultants, and Subcontractors, surety (if any) and their respective officers, directors, employees and agents, and any of them, to Owner and anyone claiming by, through or under Owner, for any and all claims, losses, liabilities, costs or damages whatsoever arising out of, resulting from or in any way related to the Project or this Agreement from any cause, including but not limited to the negligence, indemnity, professional errors or omissions, strict liability, breach of contract or warranty (express or implied), shall not exceed one-hundred percent (100%) of the Contract Price. The parties agree that specific consideration has been given by Design-Builder for this limitation and that it is deemed adequate.

Article 13

Mutual Waiver of Consequential Damages

13.1 NOTWITHSTANDING ANYTHING HEREIN TO THE CONTRARY (EXCEPT AS SET FORTH IN SECTION 13.2.1 BELOW), NEITHER DESIGN-BUILDER NOR OWNER SHALL BE LIABLE TO THE OTHER FOR ANY CONSEQUENTIAL LOSSES OR DAMAGES, WHETHER ARISING IN CONTRACT, WARRANTY, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY OR OTHERWISE, INCLUDING BUT NOT LIMITED TO LOSS OF USE, PROFITS, BUSINESS, REPUTATION OR FINANCING.

13.1.1 The consequential damages limitation set forth in Section 13.1 shall not: (i) affect the payment of liquidated damages or lost early completion bonus, if any, set forth in Article 5 of the Agreement, which both parties recognize has been established, in part, to reimburse Owner or reward Design-Builder for some damages that might otherwise be deemed to be consequential; or, (ii) apply to claims and liabilities for bodily or personal injury, death, or property damage claims required to be indemnified by Design-Builder.

In executing this Agreement, Owner and Design-Builder each individually represents that it has the necessary financial resources to fulfill its obligations under this Agreement, and each has the necessary corporate approvals to execute this Agreement, and perform the services described herein.

Design Criteria Report

City of Banning Wastewater Treatment Plant Recycled Water Upgrades

21 June 2024

Prepared by: N2W Engineering

Executive Summary

The City of Banning (City or Banning) owns and operates the Banning Wastewater Treatment Plant (WWTP). The objective of the Banning WWTP and Recycled Water Upgrades Project (Project) is to enhance the WWTP to comply with impending Regional Water Quality Control Board Order (Board Order) requirements and Title 22 standards for recycled water.

The scope of this report includes defining the following:

- Reclaimed Water Demand
- Anticipated Regulatory Approvals
- Description of Existing Unit Processes
- Influent Characteristics
- Effluent Limits

Furthermore, the following critical items are included in the proposed improvements:

- Overview
- Design Flows
- Process Modeling, Evaluation, and Selection
- Description of New Unit Processes
- Engineering Design Guidelines
    - Mechanical
    - Civil
    - Structural
    - Architectural
    - HVAC
    - Electrical
    - Instrumentation and Controls
    - SCADA
    - Miscellaneous

The existing treatment plant includes primary and secondary treatment processes, with chlorine disinfection prior to disposal into on-site percolation ponds. The primary treatment involves a mechanical bar screen, with a manual bypass screen, followed by a vortex grit chamber and primary clarifiers. Screenings are processed through a washer compactor before being collected in a bin for disposal. Grit is processed in a hydrocyclone and classifier before being dropped into a bin for disposal. The screened and degritted effluent is settled in two primary clarifiers. Secondary treatment consists of trickling filters and secondary clarifiers. Secondary sludge is pumped to the headworks for co-thickening with the primary sludge. The sludge can be thickened before being conveyed to the digesters, but the gravity sludge thickener is currently bypassed. Digested sludge is applied to the drying beds.

After investigating some options for upgrading the trickling filter system, it was determined that the option that would best meet the City's objectives was decommissioning the trickling filter system and replacing it with a membrane bioreactor (MBR) system. MBR produces the best water quality, positioning the City to supply WWTP effluent to recycled water customers. The Sun Lakes Country Club will be the City's primary recycled water customer, with an expected demand of 0.76 Million Gallon per Day (MGD).

A preliminary BioWin model was created for the proposed facilities. The effluent limits aim to achieve Board Order and Title 22 requirements. Two different activated sludge process configurations were modeled. One is a conventional modified Ludzack-Ettinger (MLE) process configuration, where the return of activated sludge (RAS) and mixed liquor return (MLR) from the aerobic zone are both delivered to the anoxic zone. In an effort to avoid the recycling of high dissolved oxygen loads to the anoxic zone resulting from an elevated RAS flow and DO concentrations, which would inhibit denitrification, an alternate MLE configuration was considered. This alternative configuration involves rerouting the RAS to the aerobic zone and relying on the MLR to introduce both nitrate and biomass to the anoxic zone.

The proposed upgrades to the existing Banning WWTP include:

- Enhancements to the ferric sulfate storage and dosing system
- Addition of one primary clarifier, if needed.
- Construction of a new MBR system, which includes
    - Installation of new fine screens (2 mm)
    - Construction of new aeration basins
    - Installation of new aeration blowers, each with new aeration diffusers and an internal mixed liquor return pump
    - Installation of new membrane tanks
    - Installation of new mixed liquor pumps
    - Installation of new scour blowers
    - Installation of waste activated sludge pumps
- Construction of a new chlorine contact basin with new effluent pumps
- Installation of rotary drum thickeners
- Conversion of the existing secondary digester into a primary digester, including the installation of mixing pumps and a heat exchanger.
- Installation of a new RO facility, either at the WWTP or at Sun Lakes Country Club
    - Construction of salt evaporation ponds or a brine line, depending on which RO facility location is selected

.

Appendix A: Conceptual Design Drawings

1. Introduction

The City of Banning (City) owns and operates the Banning Wastewater Treatment Plant (WWTP). The City engaged N2W Engineering to complete the preliminary design of the WWTP upgrades at the current rated capacity of 3.6 MGD.

The WWTP effluent is currently in compliance with discharge requirements, but it requires significant upgrades to comply with impending total nitrogen (TN) discharge limits by the Regional Water Quality Control Board (RWQCB). In addition, the existing Trickling Filters (TFs), which perform secondary treatment, have reached their end of life. By replacing existing equipment with new facilities that can treat the water to Title 22 standards for recycled water, this will allow the City to meet the impending RWQCB requirements as well as use the WWTP effluent to serve existing and future non-potable water customers.

Several upgrade options were initially considered in consultation with the City, including options for upgrading the TFs by replacing the plastic media, followed by denitrification filters to achieve the required TN limits. This effort included assessing the condition of the TFs. Preliminary cost estimates confirmed that it would serve the City better to construct a new membrane bioreactor (MBR) facility and decommission the existing TFs. The new MBR system would not only provide better results but would also allow for reuse by producing an effluent suitable for direct use in a reverse osmosis (RO) desalination facility.

This design criteria report (DCR) documents the upgrades required to meet the new limits.

1.1 Assumptions

This DCR has been prepared based the following assumptions:

1. The planned rehabilitation and upgrades for the Project will be designed and constructed via a Progressive Design Build (PDB) delivery.
2. The City has a limited budget for the Project, and the progressive design process would be conducted to maximize benefits for the City within the available budget.

1.2 Reclaimed Water Demand

The City has an existing non-potable water system that delivers water from a non-potable groundwater well, Well M7, to Sun Lakes Country Club for irrigation use. The City has begun constructing a 24-inch diameter pipeline to connect the existing non-potable water pipe to the WWTP. The backbone pipeline is expected to be completed, tested, and accepted by mid-2024. Once reclaimed water becomes available from the upgraded WWTP, the WWTP will replace Well M7 to serve Sun Lakes Country Club as part of this Project. Typical annual demand for the Sun Lakes Country Club is 850 AFY (0.76 MGD).

Since the Sun Lakes Country Club is located on the westerly end of the City, other potential customers listed in Table 1 will be within proximity to receive recycled water. Figure 1 on the following page shows the planned backbone pipeline and laterals to the potential recycled water customers.

Table 1 Potential recycled water users

Customer	Recycled Water Demand (AFY)	Recycled Water Demand (MGD)
Existing Customers Currently Using Potable Water or Ground Water from Non-Potable Wells		
Sun Lakes Country Club	850	0.76
Banning High School	175	0.16
Dysart Park	87	0.08
Lions Park	79	0.07
Subtotal	1,191	1.07

Projected Future Developments		
Rancho San Gorgonio Development	217	0.19
Five Bridges Development	223	0.20
Neighborhood Park	35	0.03
Subtotal	475	0.42
Total	**1,666**	**1.49**

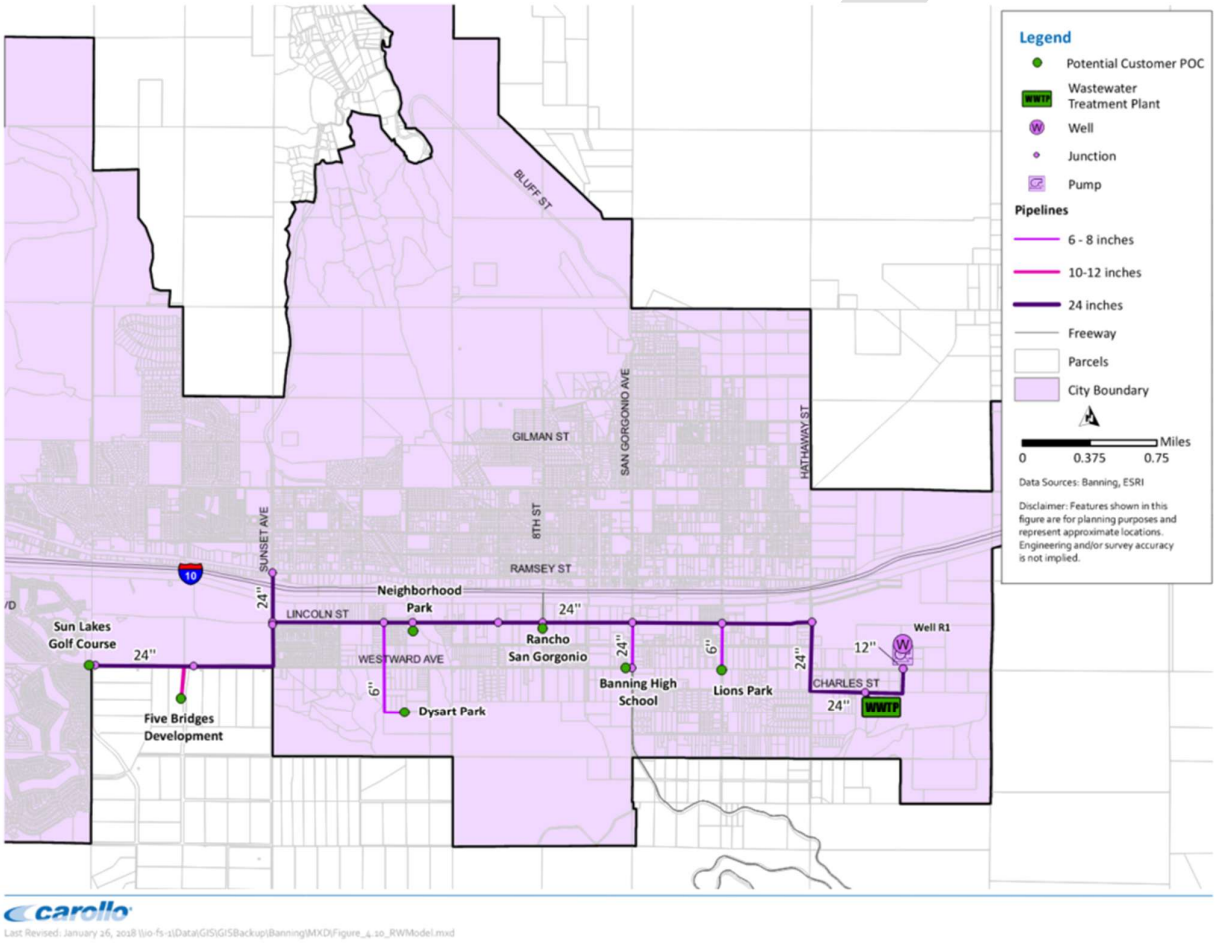

Figure 1 City of Banning potential recycled water customers (courtesy of Carollo)

This Project will only involve meeting the 0.76 MGD demands of the Sun Lakes Country Club. Constructing the laterals to the other customers will be a future development. More information regarding the City's reclaimed water needs can be found in the 2024 Feasibility Study (attached to the RFP).

1.3 Anticipated Regulatory Approvals

Permit review and issuance, as well as compliance and verification, are essential parts of this Project, involving close coordination with regulatory agencies. The Project must be evaluated under the California Environmental Quality Act (CEQA), and the City of Banning will have to provide discretionary approval for the Project as the CEQA Lead Agency. If the Lead Agency determines the Project will not have a significant effect on the environment, the Project may qualify for a Categorical Exemption. If impacts to the environment are anticipated, then an Initial Study Mitigated Negative Declaration (IS/MND) or Environmental Impact Report (EIR) may be appropriate to facilitate Project

development. Pursuant to CEQA Guidelines Section 15124(d)(2), actions necessary to fully develop the Project as proposed include:

- Adoption of the Project under CEQA
    - Categorical Exemptions under CEQA
        - Section 15301: Existing Facilities and or;
        - Section 15302: Replacement or Reconstruction) or;
    - Certification of an IS/MND or EIR

A previous IS-MND is included as an attachment to the RFP for reference only. The City is in the process of updating to include new CEQA and NEPA requirements; the completion of the update is anticipated in Q1 of 2025.

The following agencies have jurisdiction over the Banning WWTP in relation to the proposed Project improvements, and the City of Banning will need to coordinate with multiple agencies regarding the review and approval of permit applications to construct and commission the proposed improvements. Potential regulatory approvals that may be required at the regional, state, and federal levels include various approvals from and coordination with the following:

- City of Banning (CEQA Lead Agency)
    - Community Development
        - Building Permit
    - Public Works
        - Encroachment Permit
- County of Riverside
    - Department of Environmental Health
        - Solid Waste Facility Requirements
    - Fire Department – Hazardous Materials Division
        - Hazardous Material Business Plan
- California State Waterboard Region 7: Colorado River
    - Industrial User Waste Discharge Requirements
    - Stormwater Pollution Prevention Plan (SWPPP) Updates - Proposed changes to the facility that may affect the existing National Pollution Discharge Elimination System (NPDES) General Permit (for stormwater discharges associated with industrial activities) requirements and/or stormwater monitoring, the existing SWPPP must be updated
    - Title 22 Engineering Report for the Production, Distribution, and Use of Recycled Water
    - Title 27 Engineering Report for Brine Evaporation Ponds (if required)
- South Coast Air Quality Management District
    - Authority to Construct Permit
    - Permit to Operate

2. Description of Existing Unit Processes

2.1 Plant Overview

The Banning WWTP has a capacity of 3.6 million gallons per day (MGD) and is designed to treat wastewater to secondary standards. The WWTP consists of primary treatment, secondary treatment, solids handling, disinfection

DRAFT

(currently not in use), and evaporation/percolation ponds. The primary treatment system consists of a mechanical bar screen, compactor, grit removal system, and cyclone separator. Effluent from headwork is gravity fed to two primary clarifiers. Primary effluent is pumped to two Trickling Filters, each rated for 1.8 MGD. The Trickling Filter effluent is sent to two secondary clarifiers.

Secondary effluent flows through a chlorine contact chamber and is then discharged to 10 unlined evaporation/percolation ponds which recharges the Cabazon Groundwater Basin. This recharge is provided only through surface percolation, and no injection wells are used by the City.

Primary and secondary sludge is processed via two primary anaerobic digesters. A second-stage digester is currently used as a sludge holding tank before thickened sludge is sent to the sludge drying beds. Sludge is allowed to dry and then is hauled offsite for final disposal. A gravity thickener was used to thicken secondary sludge but is currently not in service.

The quantities of wastewater generated are proportional to the City's population and the water used by its residents. The average flow of wastewater collected in the City in 2022 was 2.06 MGD.

An overall process schematic of the existing WWTP is shown in Figure 2.

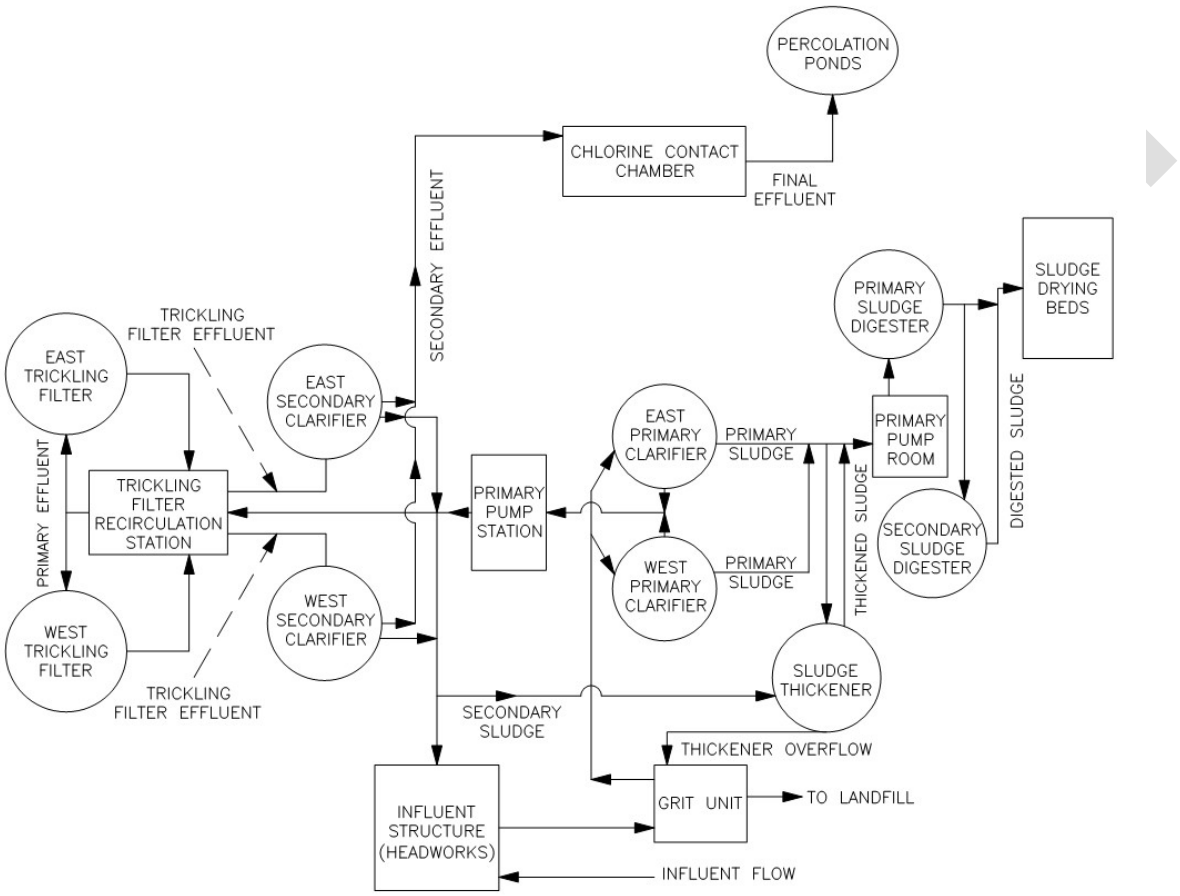

Figure 2 Process schematic for existing WWTP

2.2 Headworks

The existing headworks consist of a chemical feed system, bar screens, screening compactor, grit tank, and grit washer and cyclone. The chemical feed system includes a ferric sulfate feed tank and dosing pump skid; this system is in operation for 3-4 months of the year. There are two bar screens: one 0.25-inch opening multi rake mechanical bar screen (in operation) and one 1.5-inch manual screen (not in operation). The 0.25-inch bar screen is designed to handle 3.6 MGD average daily flow and maximum design flow of 5 MGD. The screening shaftless conveyor compactor has a maximum solid loading rate equal to the solids generated by the rated plant flow of 3.6 MGD. The

18-foot diameter vortex grit basin is designed to handle up to 30 MGD, assuming an HRT of 2 min, and the grit washer and cyclone have maximum flow rates of 3.6 MGD.

2.3 Primary Clarifiers

There are two existing circular primary settling clarifiers that can accommodate an average flow of up to 3.6 MGD. The dimensions of the existing units are summarized in Table 2.

Table 2 Existing primary clarifier design characteristics

Units	West	East
Design Flow Rate	1.6	2
Diameter, ft	45	50
Side Water Depth, ft	6.5	7
Surface Area, sf	1,600	1,965
Volume, gal	77,300	102,900

2.4 Equalization Basin and Pump Station

Currently, the City is in the process of designing an Equalization (EQ) Basin and Primary Effluent Pump Station. The EQ basin will be located in the existing stormwater detention pond and will have a capacity of 3.5 million gallons. The pump station will have three submersible pumps, each rated at 3.6 MGD. Since primary clarifier effluent will be directed to the new EQ basin, this EQ pump station will replace the existing primary effluent pump station.

2.5 Chlorine Contact Tank

An existing chlorine contact tank is located at the WWTP, but the use of a disinfectant has been discontinued. The existing tank is sized for 2.4 MGD and 60 minutes of contact time. The dimensions of the existing tank are summarized in Table 3.

Table 3 Existing chlorine contact tank design characteristics

Parameter	Value
Length, ft	60
Width, ft	20
Side Water Depth, ft	12 (with 1 ft freeboard)
Tank Volume, gal	107,712

2.6 Effluent Pump Station and Percolation Ponds

The final effluent pump station consists of two (2) 15 HP final effluent pumps located on a reinforced concrete chamber adjacent to the chlorine contact tank.

The final effluent is pumped to 10 unlined evaporation/percolation ponds which recharge to the Cabazon Groundwater Basin. The total surface area of these ponds is 26.5 acres with an operating depth of 2 feet.

2.7 Solids Handling

Sludge generated at the WWTP is anaerobically digested. The existing digestion system includes two primary digesters and one secondary digester. Currently, only the primary digesters are mixed, heated, and used for digestion, while the secondary digester is unmixed and unheated and is only used for sludge holding and some thickening. Assuming 20 days SRT and 4% solids concentration, the existing primary digesters can accommodate sludge generated from a wastewater flow of 2.3 MGD under the current trickling filter treatment system. A summary

of the dimensions of the existing three digesters is shown in Table 4. A gravity sludge thickener is onsite but is not operated based on past operating experience. Treated sludge is gravity fed to the facility's drying beds where it remains until approximately 85% of the moisture is removed. Dried sludge is then hauled off for beneficial reuse as a fertilizer and soil amendment.

Table 4 Existing anaerobic digesters design characteristics

Units	East Primary	West Primary	Secondary
Diameter, ft	35	35	35
Side Water Depth, ft	26	26	21
Water Surface Elevation, ft	24	24	19
Total Volume, gal	172,718	172,718	136,735
Design SRT, days	20	20	20
Design Sludge Flow Capacity, gpd	8,636	8,636	6,837

3. Influent Characteristics

The average monthly data plant data for calendar year 2022 are summarized in Table 5.

Table 5 Average monthly plant data for calendar year 2022

Parameter	Influent	Primary Effluent	Secondary Effluent
Flow, MGD	2.07	NA	2.06
pH, -	7.59	NA	7.61
TSS, mg/L	318	91	20.3
BOD, mg/L	317	175	25.3
TKN, mg/L	NA	NA	12.3
NO2-N, mg/L	NA	NA	0.55
NO3-N, mg/L	NA	NA	13.9
TN, mg/L	NA	NA	26.8
Temp, °F	76	NA	70

NA = Not Available

The table shows that the primary clarifier achieved approximately 71% TSS removal and 45% BOD removal based on the average values. This compares well with typical industry values of 60% and 30%, respectively.

The parameters for the solids handling system are summarized in Table 6.

Table 6 Average digester operating parameters for calendar year 2022

Parameter	Value
Feed Volatile Solids, %	86%
Digestate Volatile Solids, %	72%
Volatile Solids Reduction, %(1)	58%
Hydraulic Retention Time, days	18.2
Temperature, degrees Fahrenheit	96.0

Parameter	Value
pH, -	7.2
Alkalinity, mg/L as $CaCO_3$	1,963
Volatile Acids, mg/L	61
Volatile Acids/Alkalinity	0.033

(1) Estimated using the Van Kleeck equation

To add some critical information, a round of sampling was completed in December 2023. Three 24-hour composite samples were collected, but only one sample was analyzed for nitrogen species. The average results are summarized in Table 7 below.

Table 7 Average results for sampling performed in December 2023

Parameter	Influent	Primary Clarifier Feed	Primary Effluent	Secondary Effluent
Total Alkalinity, mg/L as $CaCO_3$	337	297	310	140
Biochemical Oxygen Demand	355	297	193	53
Dissolved BOD	118	113	117	ND
c-Biochemical Oxygen Demand	280	267	187	42
Nitrate as N	ND	ND	ND	23
Nitrite as N	ND	ND	ND	0.50
Ammonia-Nitrogen	32	36	39	9.3
Kjeldahl Nitrogen	56	54	52	21
Dissolved Kjeldahl Nitrogen	33	37	31	9.4

NA = Not Detected

Influent TKN is a key parameter when designing a system to achieve a certain effluent total nitrogen concentration. Limited influent TKN data is available, as summarized in Table 8.

Table 8 Influent TKN and related data

Date	BOD, mg/L	TSS, mg/L	TKN, mg/L	BOD/TKN
4/5/2022	430	600	77	5.6
10/4/2022	250	260	46	5.4
1/5/2023	330	260	53	6.2
12/21/2023	380		56	6.8
Average	**348**	**373**	**58.0**	**5.7**

The limited data shows an average influent TKN concentration of 58 mg/L.

4. Effluent Limits

4.1 RWQCB Board Order

On June 30, 2016, the RWQCB adopted Board Order R7-2016-0015 (Board Order), which describes the Waste Discharge Requirements (WDRs) and other terms and conditions of operation for the WWTP. The Board Order

requires the WWTP to remove constituents that present the greatest risk to groundwater quality such as nitrogen, coliforms, and total dissolved solid (TDS). According to the United States Environmental Protection Agency (US EPA), the maximum contaminant level (MCL) for Nitrate as Nitrogen is 10 mg/L. Per the Board Order, it is assumed all nitrogen available converts to nitrate/nitrite so Total Nitrogen (TN) is used as the measurement of concern. The wastewater effluent limitations per the Board Order are outlined in Table 9.

Table 9 WWTP effluent limitations per Board Order R7-2016-0015

Parameter	30-Day Average	7-Day Average
20°C BOD_5	30 mg/L	45 mg/L
TSS	30 mg/L	45 mg/L
pH	6.0 - 9.0	
30-Day Daily Dry Weather Discharge	< 3.6 MGD	
DO	Upper Zone of the Ponds > 1.0 mg/L	
TDS	Not to Exceed 300 mg/L above the Water Supply	
TN	10 mg-N/L	

The WDRs identified TN and TDS as constituents of concern. The WDRs state that effluent TDS is not to exceed a level of 300 mg/L above the potable water supply "reasonably protects present and anticipated beneficial uses of groundwater in the area," (typical incremental addition of dissolved salts from domestic water usage is 150 to 380 mg/L.) The level of TDS in Banning's potable water supply is approximately 200 mg/L, which would result in an effluent TDS limit of approximately 500 mg/L. The new TN limit is therefore the primary parameter of interest to the design of the new membrane bioreactor (MBR) plant.

Currently, there is no set timeframe for the City to comply with the Board Order.

4.2 Title 22

The City plans to serve recycled water from the WWTP to the Sun Lakes Country Club (and other irrigation customers in the future). The WWTP effluent must therefore meet the State Water Resources Control Board, Division of Drinking Water (DDW) water recycling criteria outlined in the California Code of Regulations Title 22 requirements. These criteria are summarized in Table 10 below.

Table 10 California Code of Regulations Title 22 requirements

Parameter	Limit
Average Daily Turbidity, nephelometric turbidity unit NTU(1)	<2
Chlorine Residual, milligram-minutes per liter (mg-min/L)(2)	450
Total Coliform, most probable number (MPN), per 100 milliliters (mL)(3)	2.2

(1) Effluent cannot exceed 5 NTU more than 5% of the time. Effluent cannot exceed 10 NTU at any time. Coagulant must be added if the influent to the filter exceeds 5 NTU for more than 15 minutes, or 10 NTU at any time.
(2) Under minimal modal contact time (CT) of 90 minutes. This corresponds to a residual of 5 mg/L or less, or any process that achieves 5-log virus removal.
(3) No more than one sample per month can exceed an MPN of 23 per 100 mL.

4.3 Beaumont Basin Plan

The City's primary recycled water customer will be the Sun Lakes Country Club, which is located above the Beaumont Basin. In order to serve the Sun Lakes Country Club, the water must meet the Beaumont Basin Plan Maximum Benefit Objectives listed in Table 11 below.

Table 11 Beaumont Basin Plan Maximum Benefit Objectives

Parameter	Limit
Effluent Total Dissolved Solids (TDS), mg/L	<330
Effluent Total Nitrogen (TN), mg/L	<5.0

The Beaumont Basin Plan will not apply to any of the other potential recycled water users listed in Table 1 in Section 1.2.

5. Proposed Improvements

5.1 Overview

The Banning WWTP will be upgraded to meet the Title 22 regulations and the Board Order's future TN limit. The MBR system would facilitate reuse by producing an effluent that is suitable to be fed directly to the reverse osmosis (RO) desalination facility, which will be necessary to comply with the Beaumont Basin Maximum Benefit Objectives of TDS and TN.

5.2 Design Flows and Loads

The average dry weather flow for the new facility will be 3.6 MGD. The average influent characteristics are assumed to be similar to that indicated by the available data and presented in Table 5 in Section 3.

The average influent characteristics used for design are summarized in Table 12.

Table 12 Influent characteristics used for design

Parameter	Influent
pH, -	7.6
TSS, mg/L	318
BOD, mg/L	317
TKN, mg/L	58
BOD/TKN	5.5
NO2-N, mg/L	0
NO3-N, mg/L	0
Total Alkalinity, mg/L as CaCO3	337
Temperature, degrees Fahrenheit	66
Temperature, degrees Celsius	19

DRAFT

5.3 Process Modeling, Evaluation, and Selection

5.3.1 Approach

The main goal of the process modeling was to determine the volumes of the aeration basins required to meet the new effluent limits, in particular, a total nitrogen concentration of 10 mg/L. Due to the limited influent and plant operating data, a more conservative design approach was used than what would be used for a plant where more data is available so that the design could be optimized. The specific design goals and limits are summarized in Table 13.

Table 13 Design goals and limits

Parameter	Value
Effluent Ammonia-Nitrogen, mg/L	<0.25
Effluent Total-Nitrogen, mg/L	<7.5
Aerobic Solids Retention Time, days	>8

Due to the limited data available, the BioWin model settings were left as default as much as possible. One change was to revise the membrane tank aeration settings from the default coarse bubble aeration to fine bubble aeration. This resulted in reasonable model-estimated DO concentrations (2.0 – 4.0 mg/L, depending on the conditions modeled and the loads used). Another change was to adjust the half saturation DO concentration (KDO) for nitrite oxidizing bacteria (NOBs). The default KDO setting in the model is 0.50 mg/L, which is double the K_{DO} for AOBs. The K_{DO} for NOBs was reduced to match the K_{DO} for AOBs (0.25 mg/L).

5.3.2 Process Configurations

Two different activated sludge process configurations were modeled. A conventional modified Ludzack-Ettinger (MLE) process configuration where the return activated sludge (RAS) and mixed liquor return (MLR) from the aerobic zone are both delivered to the anoxic zone, as shown in Figure 3.

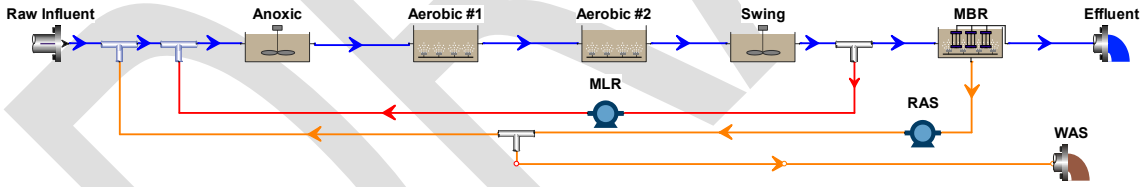

Figure 3 Modified Ludzack-Ettinger process configuration

In MBR systems, the concern with the MLE configuration is that the combination of the high DO concentration in the membrane tank and the high RAS ratio of 4.0 can result in excessive DO loads returned to the anoxic zone. Since the heterotrophic bacteria that perform denitrification would consume oxygen rather than nitrate, excessive DO may limit denitrification in the anoxic zone. An alternative process MLE configuration often used in MBR systems routes the RAS to the aerobic zone and relies on the MLR to return both nitrate and biomass to the anoxic zone, as shown in Figure 4.

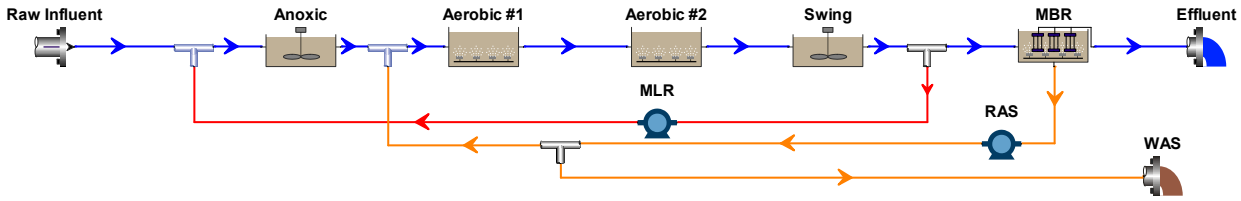

Figure 4 Alternative Modified Ludzack-Ettinger process configuration

Both process configurations were shown to be successful for this Project. However, the alternative configuration required excessive MLR ratios (more than 10 times the influent flow). In addition, the alternative configuration requires splitting the RAS flow equally between all aeration basins in service mid-basin, on top of the equal split of primary effluent required at the inlet of the aeration basins. SRT calculations for the alternative configuration are also more complex since there are three different mixed liquor suspended solids (MLSS) concentrations in the system (anoxic zone, aeration basin excluding anoxic zone, and membrane tank) as opposed to just two for the MLE configuration.

The model process used for design can be the Modified Ludzack-Ettinger Process Configuration, Alternative Modified Ludzack-Ettinger Process Configuration, or equal.

5.4 Description of New Unit Processes

The WWTP will be upgraded as described below. Where applicable, the new equipment will match existing equipment as much as possible.

To ensure sufficient redundancy, all major process units, including primary clarifiers, aeration basins, membrane tanks and chlorine contact basins, should be designed to provide the required treatment with the largest unit out of service during max month flows and loads. Assume a maximum-month flow peak factor of 1.2 and load peak factor of 1.25.

Conceptual design drawings of the proposed WWTP upgrades, including a process flow diagram (PFD), plant hydraulic profile, site layout, and piping and instrumentation diagram (P&ID) are included in Attachment A. All conceptual drawings are subject to change by the Design Build Entity (DBE).

5.4.1 Headworks

The DBE is to perform a condition assessment on the existing ferric sulfate system and design improvements as necessary. See Tables 42 through 44 in Section 6.1.3 for design guidelines.

5.4.2 Primary Clarifier

The 3.6 MGD capacity of the two existing primary clarifiers does not allow for peak daily flow or redundancy. Therefore, a third primary clarifier is recommended for the Project. See Table 45 in Section 6.1.4 for design guidelines.

5.4.3 Secondary Treatment System

The existing trickling filters and secondary clarifiers will be replaced with a new MBR system consisting of aeration basins and membrane tanks. The requirements of the new secondary treatment system process units are summarized in Table 14 and Table 15.

Table 14 Mechanical fine screen design criteria

Parameter	Value
Minimum No. of Standby Screens	1
Total Capacity Goal, MGD	3.6
Size of Screens Opening, Micron	2000
External Water Source Required	Yes (high pressure spray)

Table 15 MBR system design criteria

Parameter	Value
Effluent Ammonia-Nitrogen, mg/L	<0.25

Parameter	Value
Effluent Total Nitrogen (TN), mg/L	<7.0
Aerobic Solids Retention Time (aSRT), days	>8
Total Capacity Goal of Aeration Basins, MGD	3.6
Total Capacity Goal of Membrane Tanks, MGD	3.6

Additional design guidelines can be found in Table 46 in Section 6.1.5 for additional design guidelines.

5.4.4 Chlorine Contact Tank

The existing chlorine contact tank is rated for 2.4 MGD and 60 minutes of contact time. In order to achieve 3.6 MGD capacity and the 90 minutes of contact time required under Title 22, a second chlorine contact tank is recommended.

The requirements of the new chlorine contact tank are summarized in Table 16.

Table 16 Chlorine contact tank design criteria

Parameter	Value
Chlorine Contact Tank (CCT)	Meet California Title 22 Requirements
Total Capacity Goal of CCTs (Existing and New), MGD	3.60

Additional design guidelines can be found in Table 47 in Section 6.1.6 for additional design guidelines.

5.4.5 Solids Handling

In order to accommodate the 3.6 MGD plant capacity, it is recommended that the existing digesters be reconfigured. The existing secondary digester can be converted into a primary digester by adding recirculation pumps and heating elements to the system. This will provide a total capacity of 482,000-gallons and 24,000 gpd of wasted sludge if the three existing digesters are operated in parallel.

Additionally, it is recommended that a new mechanical sludge thickener, such as a rotary screw or drum thickener, be installed to improve the total solids content in the digester influent.

See Table 48 in Section 6.1.7 for design guidelines.

5.4.6 RO Facility
