TRB is also prepared to provide the above-referenced support services to the City on an as-needed basis. TRB staff are prepared to work at the City's offices as an extension of City staff under the supervision of the Chief Building Official or their designee with the knowledge, skills, and abilities to perform the following requisite functions.

Building Official Support Services

- TRB will provide an experienced ICC Certified Building Official to assist the Building Official as needed. The Building Official will have a minimum of five years of experience in a public agency with development, administration, interpretation, application and enforcement of the codes. They will have a thorough knowledge of customer service, develop and maintain effective relationships with all client groups, and be able to effectively communicate with contractors, homeowners, subordinates, superiors, news media, elected officials, and civic organizations.

Rapid Response Services

- TRB will provide emergency response services as directed by the City. Working with local governments to fast-track permits for critical projects, ensuring that necessary development can occur without bureaucratic delays. Rapid response includes planning and coordination in the aftermath of natural disasters or crises, focusing on rebuilding communities with resilience. Key tasks may include expedited review and processing of construction permits. Contractor will be expected to be available within 24 to 48 hours to begin rebuilding related work.

Specialty Services

- TRB will provide professional services for ongoing work or projects such as but not limited to those related to Code Enforcement and Fire review. We understand that we may be asked to coordinate public engagement, prepare analysis, reports and presentations, and provide related technical support as needed.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Integration with Other Systems, Travel and Training, Bid Procedures and Selection, Staffing Expectations

Integration with Other Systems

- OpenGov Permitting and Licensing: TRB will work and input plan review corrections in the OpenGov permitting software during the plan review process.
- Bluebeam Integration: Plan Reviews will be done in BlueBeam Studio Session, a cloud-hosted PDF-based markup and collaboration platform. The Respondent will need the ability to complete reviews and redline plans as required within the BlueBeam collaboration session.

Travel and Training

To confirm, TRB acknowledges the following:

- TRB will solely cover the costs for all travel time and mileage to arrive at the Benicia City Hall;
- TRB will coordinate training for TRB's employees and assigned personnel, and ensure that our employees and assigned personnel maintain all training certifications as required by the State Regulation and local ordinances and/or amendments to State codes; and
- TRB agrees that it will not charge City for training, time in training, or any expenses related to training.

Bid Procedures and Selection

We understand that City staff will provide a scope of work via email to one or more contracted firms, who will be asked to submit bids (inclusive of work tasks, personnel, and cost proposal) electronically within five (5) to fifteen (15) working days, depending on the nature of the project. Selection of a consultant for any given project or task will consider multiple factors, including but not limited to skills and expertise, unique staff qualifications, similar project experience, project approach, and cost. Consultant shall not commence work until written authorization is received from the City of Benicia in the form of an executed work order.

Staffing Expectations

TRB confirms that staff proposed in this response will be available to provide the requested services. Additional staffing information and resumes will be provided as needed and/or as part of a project bid by submitting the information to the Community Development Department.

Level of Effort Statement

To confirm, TRB is prepared to provide all requested services on short notice (48-hours or less). Fixed Fee and Hourly Rates, and Reimbursables by scope of work and personnel classification are provided in the accompanying **Pricing Proposal** Section of our proposal.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

References

TRB understands the importance of maintaining a high level of quality and customer service when supporting the City of Benicia with plan review, building inspection, permitting and other Building Safety and Public Works support activities. We encourage you to contact the following references to provide testimony of our performance of work. Please note that additional references are available upon request.

Please also note that additional References and highlighted **Project Experience** in the areas of service requested is included in **Section 11** of our proposal.

- International Code Council

Other

Delegate Chief Building Official for the California Energy Commission – Power Plant Facilities

Todd Bailey is a registered professional engineer with nearly thirty years of experience in the Architecture / Engineering / Construction industry encompassing building code interpretation, plan review, project management, engineering design, permit center administration, and litigation support. He has extensive experience working with architects, engineers, contractors, building departments and other regulatory authorities to ensure compliance to adopted Building Code Standards and local ordinances.

Todd has provided Building Safety services to over 100 jurisdictions as a consultant and spent three years with the City of Concord performing architectural, structural, energy conservation and disabled access plan reviews for residential, commercial, and industrial structures. Todd is also approved as a Delegate Chief Building Official for the California Energy Commission responsible for verifying new power project conformance to engineering construction codes on behalf of the Commission.

Dominic Ma, SE, PE, MPA | Quality Control Principal

Education

Master of Science Structural Engineering UCLA, Los Angeles, CA

Master of Public Administration, California State University, East Bay Hayward, CA

B.S. Civil Engineering University of California, Berkeley, CA

Registration

Registered Structural Engineer California (#1920)

Registered Civil Engineer California (#20018)

Certified Energy Plans Examiner Residential (#R05-94-5121) - Inactive

Certified Energy Plans Examiner Non-Residential (#NR05-94-5576) - Inactive

Dominic has more than 30 years of experience in reviewing building plans and specifications submitted for building permit applications to assure compliance with adopted building codes and reference standards. Dominic's experience includes working for more than 27 years as a plan check engineer for the City of San Leandro and 6 years as a supervising civil engineer for the City of Oakland, where he led the City's plan review division.

Dominic has considerable knowledge of civil engineering and structural engineering principles and practices, California Building Code and Title 24 provisions. His strengths include having the ability to review, analyze and evaluate plans, specifications, engineering reports and calculations; possessing knowledge to identify code deficiencies; and evaluating alternate methods and materials of construction. Dominic is adept at reviewing plans for adherence to the California Building Code, ASCE 7, and when applicable FEMA, ASCE 41, NEHRP provisions.

Select Project Experience

Building Safety Plan Review

Plan Review projects supervised in the City of Oakland

- 2121 Harrison Street. The Cathedral of Christ the Light (also called the Oakland Cathedral). A new modern Roman Catholic Cathedral with glass walls 120 ft. high. The $190 million, 224,000 square feet structure sits on 36 innovative "friction pendulum double-concave bearing isolators," consisting of two facing concave surfaces.
- 2100 Franklin Street. The $45 million, 245,000 s.f. project is 9 stories high and built with steel frames. To compensate for its slightly smaller than code required width, the interior atrium is equipped with smoke control system to provide fire protection for its occupants. Evaluated the alternate materials methods request associated with this design element.
- 100 Grand Avenue. 22 Story Condominium Building budgeted at $150 million.
- Oakland Airport (Expansion and interior remodeling). A $350 million Terminal Improvement Program.

Plan Review projects performed

- Bayfair Mall (Tenant improvements), San Leandro
- Century 21 Theatre, San Leandro
- San Leandro Dialysis Clinic
- San Leandro Honda
- San Leandro Hospital (New doctors' office building)
- Carlton Plaza of San Leandro (Assisted living facility)
- Costco Building Addition, City of Concord
- New Gas Compressor Building, Butte County
- AT&T Rooftop solar Panel Installation, City of San Ramon
- Tilt-up Warehouse Buildings (2), City of Sacramento
- Historic Building Seismic Retrofit, City of Benicia
- Cancer Treatment Facility, City of Pleasant Hill

Work Experience

TRB + Associates, Inc., Senior Plan Review Engineer, 2007 to present
City of Oakland, Supervising Civil Engineer (Building Division), 2000 – 2006
City of San Leandro, Plan Check Engineer, 1973 – 2000

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Bing Young, Architect | Plan Review Services Manager

Education

Bachelor in Architecture,
California Polytechnic State University
San Luis Obispo, CA

Registration

Registered Architect, California

Professional Affiliations

National Council of Architectural Registration Boards Certified

ICC Member

Bing Young is a registered Architect with plan review experience on both residential and commercial projects. He provides comprehensive life safety, accessibility, energy, and mechanical/electrical/plumbing reviews on a variety of residential and commercial project types. Bing possesses over 25 years of professional experience which includes roles in production, project management, construction management, energy, and accessibility analysis.

Work Experience

Plan Review Architect, TRB + Associates, Inc. **2018 - Present**

- Review drawings and calculations for code compliance on behalf of client agencies
- Projects include residential subdivisions, custom homes, additions, remodels, new commercial buildings, and tenant improvements

Project Architect, PSM Architects, Inc. **2008 – 2018**

- Prepared and managed the development of comprehensive construction documents for new commercial buildings, tenant improvements, and additions
- Oversaw and directed production staff
- Performed quality control review of building permit submittal documents
- Facilitated client and permit processing meetings
- Collaborated with engineers, ancillary designers, and vendors
- Prepared and reviewed project specifications
- Reviewed shop drawings and submittals for compliance with specifications and design intent
- Performed accessibility evaluation of existing sites and buildings
- Prepared detailed accessibility reports for building and business owners
- Facilitated pre-construction and post-construction on-site meetings with construction project managers and general contractors
- Performed construction administration and project closeout duties

Staff Architect, Hollman Bologna Architecture & Planning, Inc. **1996 - 2008**

- Prepared schematic design and construction documents for single-family and multi-family residential remodels, additions, and new buildings
- Performed residential building reconnaissance for additions and remodel projects
- Prepared design review documents for planning approvals
- Facilitated building permit processing
- Prepared and reviewed Title 24 Energy Efficiency Compliance documents

Certified Energy Plans Examiner, BETA, Inc. **1993 - 1999**

- Reviewed and approved Title 24 Energy Efficiency Compliance documents for residential and non-residential buildings for local jurisdictions

Christopher Rose | Inspection & Field Services Manager

Certifications/Licenses

ICC Certified

- California Commercial Building Inspector
- Commercial Building Inspector
- Residential Building Inspector
- California Residential Building Inspector
- Residential Plans Examiner
- Building Inspector
- Permit Technician

Chris possesses over 20 years of experience in the building and construction inspection field for various jurisdications in Northern and Southern California. His experience includes inspecting commercial, residential, non-residential, multifamily, municipal, and public structures for quality control and safety to ensure buildings are up to code and comply with local ordinances. Chris has extensive experience working in the building and safety, engineering, fire, and planning departments for multiple jurisdictions as well as the United States Marine Corps. Chris has positive working relationships with clients, management, as well as his peers and maintains high levels of productivity, reliability with excellent work ethic to deliver high quality customer service.

Chris is ICC Certified in multiple areas including as a California Commercial and Residential Building Inspector, Permit Technician, Commercial and Residential Building Inspector, Residential Plans Examiner, and Building Inspector.

Chris is responsible for the oversight of field inspectors and other building department staff. He employs a customer service focus in carrying out his building safety inspection responsibilities.

Work Experience

Inspection Services Manager, TRB and Associates, Inc. **2022 – Present**

- Responsible for the oversight of field inspectors and other building department staff.
- Inspection on several large-scale projects
- Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Communicates compliance elements with clients with solution driven resolve.
- Performs plan review of light commercial tenant improvements and remodel projects.
- Electronic and paper plan review.

Project Coordination, Plan Review, Inspection, and Construction Management Assignments

- **Apple World Headquarters project in Cupertino** – Document Control and coordination of an international design and permitting effort.
- **Marine Corp Air Ground Combat Center MWSS-374** - Re-construction of an Expeditionary Airfield, runway, and helicopter pads to include support buildings and clamshell hangers.
- **Marine Corp Air Ground Combat Center MWSS-374** - Construction of the Tank refueling pads and fuel farm.
- **Southern California Logistics Airport SCLA** - Remodeling and Repurposing of the existing George Air force base in Victorville California.
- **City of Hesperia City Hall, Library and Civic Center** - New Construction of a 27 Acre Civic Center Master Plan.
- **City of Hesperia Government Center** - New Construction of the County Government Building.
- **City of Hesperia Police Department Building** - New Construction of the County Government Building.
- **City of Hesperia Ranchero Road Underpass** - The Ranchero Road Grade Separation Project.
- **City of Hesperia Ranchero Interchange (HWY 15)** - Interstate 15 Ranchero Road Interchange.
- **Sonoma County** – Wildfire Recovery Operations.
- **Jackson County Oregon** – Wildfire Recovery and Program Development.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Chief Building Official (DCBO), Private Consultant, Various Locations 2014 - 2019

Provided Project Management, Compliance, Plan Review, Inspections, Document Control and Administration for power producing industrial infrastructure projects throughout the state for California Energy Commission. Below is a list of projects:

- **Carlsbad Energy Center Project (CECP) –** Above ground storage tank demo and decommissioning.
- **Blythe Solar Power Project Units 1 & 2 (BSPP)** – New 235 MW photovoltaic facility.
- **Pio Pico Energy Center (PPEC)** – Three Units, 300 MW gas fired turbine simple cycle facility.
- **Carlsbad Energy Center Project (CECP**) – Five Units, 632 MW gas fired turbine simple cycle facility.
- **Orange Grove Energy Center (OGEC)** – Two Units, reliability and AGP upgrade project.
- **Geysers Unit 16 (Quicksilver)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 18 (Socrates)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 20 (Grant)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 17 (Sonoma)** – Low pressure steam bypass project.
- **Geysers Unit 02 (NCPA)** – Mixing tower project.
- **Roseville Energy Park (REP)** – Catwalk extension project.
- **Colusa Generating Station (CGS)** – Rotating intake screen project.
- **Los Medanos Energy Center (LMEC)** – Cooling tower chemical tanks project.
- **Colusa Generating Station (CGS)** – Stairway to condensate pumps project.
- **Calpine Otay Mesa (OMEC)** – Low pressure steam bypass project.
- **Colusa Generation Station (CGS)** – New circulation system and raw water pumps project.
- **Cosumnes Power Plant (SMUD)** – Unit 3 AGP upgrade project.
- **Ivanpah Solar (ISEGS)** – Ammonia tank replacement project.
- **Colusa Generating Station (CGS)** – Bearing enclosure fire sprinkler project.
- **Humboldt Bay Generating Station (HBGS)** - New guard shack project.
- **Cosumnes Power Plant (SMUD)** – Unit 2 AGP upgrade and filter press project.
- **Abengoa Mojave Solar (AMS)** – Fire suppression line repair project for Alpha and Beta blocks.
- **Gilroy Energy Center (GEC)** – Gas line repair and replacement project.

(Ctd. on next page)

Paul Armstrong is a Registered Professional Engineer with over 30 years of engineering experience. His vast experience in all manner of construction, be it industrial, commercial, and residential project types, provides our clients with a strong skill set and wealth of industry knowledge. In addition to Paul's engineering experience, he is also a Certified Building Official, serving in this capacity at the City of El Monte, as well as Laguna Hills, Signal Hill, and Palos Verdes.

A noted author and lecturer in the building life safety industry, Mr. Armstrong has earned many awards, including CALBO Instructor of the Year.

Select Project Experience

- **Apple Campus Theater, Cupertino, CA** – The plan review of the Apple Campus' Theater where new products would be announced and corporate meetings held. Mostly subterranean structure that has a glass entry lobby supporting a carbon fiber roof (disk).
- **ARTIC (Anaheim Regional Transportation Intermodal Center), Anaheim, CA** – Plan review of the fire and life safety regulations for this new transportation center. The building is a steel tube framework with a 2-story administration area with a mezzanine inside. This review included a pedestrian bridge leading to the train platforms.
- **Anaheim Convention Center Expansion, Anaheim, CA** – A very large expansion of the convention center meeting space with an associated parking garage addition.
- **Disneyland Star Wars Expansion, Anaheim, CA** – A very visible area of the Disney resort that is about to open this year.
- **Rams/Chargers NFL Stadium, Inglewood, CA** – The plan review of the newest NFL Stadium project in So CA. The stadium itself is covered by a large steel tube framed roof structure that is not connected to the stadium.
- **Rio Tinto Soccer Stadium**, **Sandy City, Utah** – The plan review of the Salt Lake area's professional soccer stadium. It included a roof canopy structure with a wave feature in the leading edge.
- **Building Official Roles:**
  - Palos Verdes Estates
  - Laguna Hills
  - Whittier (interim position)
  - Signal Hill
  - El Monte

Regional Director, Building & Safety Services, TRB + Associates **2019 – Present**
Responsible for new business development for building life safety services for various jurisdictions throughout California. Provide client relations and code assistance. Perform training lectures on building and residential codes. Participate on various local, state-wide and national committees. Building Official of the City of Signal Hill.

Group Leader, Building and Safety Services, Industry Consultant **2017 – 2019**
Responsible for the development of new business for inspection services and plan review services for various jurisdictions across the United States. Provide client care and assistance on code related issues. Give training lectures on the building and residential codes. Participate on various local, state-wide, and national committees. Building Official of the City of Palos Verdes Estates and Laguna Hills.

Committees (Ctd.)

Author, 2013 and 2016 Significant Changes to the CBC and CRC

UL Fuel Gas Products Council (2002)

BCMC (BDMC) staff liaison (1993-2002)

Co-secretariat to the ICC Performance Based Building Code

Secretariat to the International Zoning Code (1996-2000)

Secretariat to the General Design, Administrative, Lateral Design, Fire and Life Safety and Fire Risk Code Committees of ICBO (1992-1996)

Staff secretariat responsible for the rewrite of the Means of Egress Chapter in the 1994 UBC

NIBS HHS Code Comparison Committee (1994)

FEMA Building Performance Review Team member (1993)

NIBS Flood Standards Comparison Committee (1992)

Coordinator, Pacific Rim Conference on Performance Based Codes

Various ASCE standards committees

SEAOC Code Committee liaison

ASME A17.1 Code Coordinating Committee

ANSI Construction Standards Board

Vice President, Various Industry Consultant Firms **2005 – 2017**
Responsible for the development of new business for inspection services and plan review services for various jurisdictions across the United States. Provide client care and assistance on code related issues. Give training lectures on the building and residential codes. Participate on various local, state-wide and national committees. Participate on various local, state-wide and national committees. Promotion and sales of the Firms' in-house electronic plan review system. Building Official of the City of Signal Hill. Contract Plan Review Engineer for the City of Anaheim

Chief Building Official, City of El Monte, Industry Consultant **2011 – 2012**
Responsible for the City of El Monte Building Division. Review plans for the City and issues permits. Conduct investigations of non-complying facilities frequently in conjunction with the Planning Division, Code Enforcement Division and LA County Fire Department. Develop presentations for City Council on adoption of new codes, etc.

Vice President, ICC **1991 – 2005**
Led the ICC Architectural and Engineering Services Department, responsible for technical opinions, plan review and the administration of technical contracts during the consolidation into the International Code Council. Managed ICBO Technical Services Department which was responsible for the maintenance of the code development process, plan review service and code opinion service for both external and internal customers. Represented the Council to many national, state and local organizations. Responsible for the technical image of the conference. Provided technical assistance on code related issues to both jurisdictional and professional members and non-members. Provided research on many code-related issues. Secretariat to most ICBO code development committees and the initial drafting secretariat to the ICC International Residential Code.

City of Los Angeles, Dept. of Building and Safety **1988 – 1991**
Structural Engineering Associate
Responsible for the structural, architectural and zoning review of proposed projects in the city. Chief of Coordinating Division and Preservation Coordinator. Evaluation of building products for LA code compliance.

Teaching Experience

International Code Council (ICC)
Lecturer –Non-structural Fundamentals of the 2009 IBC (domestically and internationally)
Lecturer – Non-structural Fundamentals of the 2012 IBC
Lecturer – ICC Code Development Process

Karin Kuffel, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science
Civil Engineering
Purdue University; West Lafayette, Indiana

Masters of Business Administration
Saint Mary's College of California; Moraga, California

Registration

Registered Structural Engineer
California

Karin has over 30 years of structural engineering experience. Ms. Kuffel has vast structural design experience in both complex commercial and residential projects. She has managed many large-scale projects, including hospitals, OSHPD and the Chabot Space and Science Center. Her experience includes staff training, building design, and design review, as well as construction supervision and development of design and construction guidelines for new single-family residences.

Work Experience

Plan Review Engineer, TRB + Associates, San Ramon, CA **2016 - Present**

Provide structural plan check reviews of large commercial and institutional structures for multiple Bay Area building departments.

Build Change; Philippines **2014 - 2016**

Lead Engineer - Philippines. Responsible for all technical work and staff of Denver-based engineering non-profit's programs and operations throughout the Philippines, including management of Filipino engineering/technical staff comprised of engineers and builder trainers. Supervised training of local staff, building design, design review, construction supervision, and development of design and construction guidelines and recommendations for single-family homes and schools based on the National Structural Code of the Philippines.

Crosby Group; San Mateo, CA **2011 - 2014**

Senior Structural Engineer/Project Manager. Project management on multiple design-build projects, working with design team and contractor on fast-track work both in- and out-of-state. Responsible for managing project team from design through construction, developing and tracking fees, deadlines, and deliverables.

Independent Consultant **2009 - 2011**

Structural engineering consultant in San Francisco Bay Area. Consultant for small commercial and residential work. Extended contract work for Rutherford & Chekene included multiple hospital projects covering new hospital facility design, OSPHD plan-check work, and construction administration assistance.

Biggs Cardosa Associates, Inc., SF, CA **2006 - 2009**

Senior Engineer. Project management with responsibility for developing work, managing project production work, and overseeing construction administration. Representative projects include oversight for design of 8-story residential and parking structure for Santana Row Parcel 8b (San Jose, California) and the Lowe's parking structure in San Francisco.

KPFF Consulting Engineers; SF, CA **2004 - 2006**

Project Manager. Responsible for developing work and fee proposals, managing project engineering, drafting work, and overseeing construction administration. Project management included design of 5-story addition to Kaiser Santa Rosa Hospital, construction administration for 7-story addition to Modesto Memorial Hospital, and design and construction of low-income housing for South County Housing.

Professional Affiliations

SEAONC Member

Tom Hemenway is a Registered Structural Engineer with over 30 years of engineering experience. Tom's experience includes providing structural, civil, and architectural design and quality control on a variety of industrial, commercial, and residential project types including multifamily podium projects, utility-scale power plant facilities, and retail buildings. He has served in design and analysis capacities for several seismic strengthening projects involving timber, steel, concrete, and masonry buildings in the greater San Francisco Bay area. His technical skills include 3D modeling and dynamic analysis for large foundations and structures.

Select Project Experience

- Lead Civil/Structural Engineer on multiple projects including the following:
  - NUMMI, Stamping Plant and Plastics Plant Expansion, Fremont
  - Vandenberg AFB housing development phases III and IV
  - 140 Geary Street seismic retrofit, San Francisco, CA
  - Amgen, Process Lab Building 99, Thousand Oaks, CA.
  - Huntington Hotel, San Francisco, CA
  - Wells Fargo Bank, Fremont Data Center, Fremont, CA.
- Responsible for Civil, Structural, and Architectural designs for industrial projects domestic and international.
- Responsible for structural analysis and design of seismic strengthening to existing timber, steel, concrete, and masonry buildings in the greater San Francisco bay area.
- Responsible for 3D model constructability review for a new GE 7FA natural gas-fired and GE A10 steam turbine, 1x1 combined cycle electric power generating facility.
- Responsible for ensuring quality of Civil, Structural, and Architectural construction activities for 600-megawatt natural gas-fired, combined cycle electric power generating facility.
- Performed dynamic structural analysis and concrete design for new steam turbine foundation.
- Designed concrete and steel structures for Kennecott Copper Smelter Modernization Project, Salt Lake City, UT using STAAD III and Microstation for PC computer.
- Designed steel pile and conventional concrete pad foundations for overland conveyor at Falkirk Mine in Underwood, North Dakota.

Work Experience

TRB + Associates, Inc., Senior Plan Review Engineer, 2016 - Present
Owner, TjHemenway Design Consultant, 2014 to 2016
Construction and Engineering Interface Manager, Kvaerner North American Construction Inc. and Parson Brinkerhoff JV, 2013
Owners Representative, Calpine, Russell City Energy Center, 2011 – 2012
Lead Structural Engineer, Aker Kvaerner, 2002 – 2003
Resident Engineer, Kvaerner, 2000 – 2002
Civil/Structural Discipline Manager, Kvaerner Metals, 1998 – 2000
Senior Structural Engineer, Kvaerner Metals, 1997
Civil/Structural Lead Engineer, The Bentley Company, 1995 – 1996
Others, 1981 – 1994

William Vaughn, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science, Structural Engineering, Masters-level Course Work in Structural Engineering, Portland State University, Portland, Oregon

Bachelor of Arts, Economics, Course Work in Business Administration and Industrial Engineering, State University of New York, Buffalo, New York

Registration

Registered Structural Engineer, California

Registered Civil Engineer California

Professional Affiliations

Structural Engineers Association of Northern California (SEAONC)

Structural Engineers Association of California (SEAOC)

International Code Council (ICC)

East Bay Chapter of ICC

William Vaughn is a Registered Structural and Civil Engineer with over 35 years of experience in construction, structural engineering design, seismic investigation and structural peer and plan review. Bill has extensive knowledge in commercial and residential buildings as well as industrial facilities using steel, concrete, masonry and timber design. He also has a wide range of construction field experience including supervision, construction methods, product development and structural inspection. Of particular note, Bill's steel design portfolio includes 2 Moment Frame patents with HSS Steel Columns and Wide Flange Beams.

Select Project Experience

- Provided structural design and peer review services for clients with residential, multi-family, and commercial buildings using timber, steel, concrete, and masonry design.
- Produced structural designs for new buildings and provided structural designs and evaluations for alterations to existing buildings.
- Designed seismic strengthening of un-reinforced masonry buildings, wood buildings, and concrete tilt-up buildings.
- Produced repair designs for earthquake damaged facilities and for other structurally damaged buildings.
- Conducted analyses of existing buildings to assess compliance with codes and drawings.
- Performed investigations of earthquake, fire, and flood distress. Prepared reports, engineering analyses, and repair recommendations.
- Provided expert witness, structural peer review and plan review services.
- Investigated structural damage and distress for litigation preparation purposes. Prepared reports, engineering analysis, and recommendations to client. Provided design preparation and construction observations for repair designs.

Structural Peer Review

- Haas School of Business, University of California, Berkeley, CA

Structural Plan Review

- Russell City Energy Center, New $800 million Power Plan Project (for California Energy Commission), Hayward, CA
- Newell Village Mixed Use Project, Walnut Creek CA
- Terraces at Los Altos Mixed Use Project (Phase 3), Los Altos, CA
- New Family Dollar Store, Sacramento, CA

Structural Design

- Chevron Willbridge Terminal Upgrade, Portland, OR
- Chevron Eureka Terminal Upgrade, Eureka, CA
- Kaiser - Lennon Lane Mechanical & Seismic Upgrade, Walnut Creek, CA

Work Experience

TRB + Associates Inc., Senior Plan Review Engineer, 2011 – Present
Vaughn Engineering, Principal Structural Engineer, 1994 - 2011
David L. Messinger & Associates, Civil & Structural Engineer, 1990 -1994
Alan R. Horeis Structural Engineers, Civil Engineer, 1987 -1990
Others, 1971 – 1987

Mike Kaszpurenko, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science, Civil Engineering, Clarkson University, Potsdam, New York, 1976

Registration

Registered Structural Engineer, California

Registered Civil Engineer California

Professional Affiliations

Structural Engineers Association of Northern California (SEAONC)

FEMA Structural Specialist, for Urban Search and Rescue, Task Force 7, Sacramento, CA.

California Office of Emergency Services Volunteer for post-earthquake building review.

Mike Kaszpurenko is a registered Structural and Civil engineer with over 30 years of engineering experience. His experience encompasses the plan review, design, evaluation, and retrofit of various types of building and non-building structures using concrete, steel, masonry, wood, and light-gage metal.

Mike's experience includes working for a large structural steel fabricator where he was involved in detailing of shop drawings, design of connections, and on-site field review.

Select Project Experience

Industrial, Manufacturing

- Corn Products Cogeneration Facility, Stockton, CA. Plan review of boiler building and miscellaneous foundations for new facility.
- Nine Mile Point Two Nuclear Power Plant, New York. Miscellaneous connection designs.
- Oswego Power Plant, Oswego, New York. On site engineer, for fabricator of breeching, during construction of oil-fired power plant.

Commercial / Government /Civic

- 600 Sutter, San Francisco, CA. New eight story building.
- 973 Market, San Francisco. Seismic upgrade of an existing 8 story brick and concrete building.
- Saks Fifth Avenue, San Francisco, CA. Foundation shoring for a new department store.
- El Camino Real Hotel, San Mateo, CA. Preliminary design of a new three-story hotel.
- 1989 Loma Prieta Earthquake, San Francisco, CA. Damage assessment of numerous apartment buildings and other structures for the City of San Francisco.
- City Center Rotunda, Oakland, CA. Upgrade of three, eight story adjacent buildings into one multifunction facility.

Education, Assembly / Healthcare

- Windsor Middle School, Windsor, CA. New $11 million School Campus.
- Laguna Salada School District, Pacifica, CA. Survey of 12 school campuses for Pacifica School District.
- Clovis East High School, CA. Plan check review for the Office of the Office of State Architect on several buildings of a new campus.
- Kaiser Hospital Service Building, Walnut Creek, CA. New two-story support facility for a hospital.

Multi-unit Residential

- Winterland Apartments, San Francisco, CA. Engineer of record for a 304-unit apartment complex consisting of four stories of wood framing over several levels of concrete parking.
- Park Hill Terrace, San Francisco. Upgrade and extension of former 8 story hospital building into condominiums.

Daniel McLaughlin, PE, CASp | Senior Plan Review Engineer

Education

Masters in Structural Engineering
Lehigh University
Bethlehem, PA

B.S Civil Engineering
Lehigh University
Bethlehem, PA

Registration

Registered Civil Engineer, California

ICC Certified Plans Examiner

DSA Certified CASp

Professional Affiliations

American Institute of Steel Construction

Dan McLaughlin is a registered Civil Engineer and ICC Certified Plans Examiner with plan review experience on numerous residential and commercial projects. He has provided structural, life safety, and mechanical/electrical/plumbing, and energy reviews on a variety of residential and commercial project types. Project types include complex single-family homes, small to mid-sized retail shell buildings, office and mercantile tenant improvements, and large mixed-use projects. Dan possesses strong structural analysis skills and has an excellent working knowledge of ADAPT, RAM, SAP2000, AutoCAD, Revit, and MathCAD structural engineering software packages.

Work Experience

Senior Plan Review Engineer, TRB + Associates, Inc. **2014 - Present**

- Dan specializes in plan review coordination with extensive experience on both complex commercial and residential projects. Dan has served in project management and reviewer roles across many large-scale projects including Phase 1 of the $9 billion RELATED Santa Clara project, and the $1.5 billion UC DAVIS HEALTH Sacramento Campus, Aggie Square project.
- Recently participated in review of 4 story 135,000 sf wood apartment building over 2 story PT parking garage
- Participated in review of a 6 story 133,000 sf steel buckling restraint braced frame office building
- Review a variety of wood, concrete, and steel building types
- Communicate with project engineers and architects on a regular basis

Engineering Assistant, Contra Costa County Sanitary District **2011 - 2014**

- Performed submittal check to ensure use of proper materials and equipment
- Created site maps to discover location of overflows in the event of clogs in the systems
- Performed sewer line inspections to ensure proper installation by contractor
- Supervised bore sight to allow continual work when lead engineer not on site

Engineering Internship, City of Pleasant Hill, Engineering Division
2007

- Performed quality control of storm drainage system project
- Supervised ADA sidewalk installation to ensure proper installation by contractor
- Developed PowerPoint Presentation of the City department functions for the City Engineer

Residential Construction, McLaughlin Construction **2011, 2013**

- Extensive knowledge in residential wood construction. Restored Victorian home including repair and seismic retrofit of foundation, re-leveled house and conducted full replacement of electrical, plumbing and sewer line. Completed unfinished basement including framing, insulation, electrical, sheetrock and finish work

Collection System Operation Laborer, Contra Costa County Sanitary District **2009, 2010**

- Performed assigned duties on the hydro, rodding, construction, and utilities location crews

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Petya McInnis, PE, CASp | Senior Plan Review Engineer

Licenses and Certifications

- Professional Engineer (P.E.)
- Certified Access Specialist (CASp)
- ICC Plans Examiner
- CalOES SAP Evaluator

Education

- MS in Structural Engineering, University of California, Davis, *2009 - 2011*
- BS in Civil & Environmental Engineering (Emphasis in Structures), California State University, Sacramento, *2007 - 2008*
- MS in Structural Engineering (One semester away from completion), University of Architecture, Civil Engineering and Geodesy, Sofia, Bulgaria, *1999 – 2003*

Skills

- Collaborative Team Player
- Detail-Oriented
- Hardworking
- Enthusiastic
- Dependable
- Quick Learner
- Proficient in Current Design Standards (e.g., ASCE7, ASCE41, ACI 318, AISC, etc.)
- Software Proficiency: Experienced in 2D/3D drafting and structural analysis software (e.g., AutoCAD, LDD, Civil 3D, SAP2000, Navisworks)
- Knowledge and experience in finite element analysis tools (e.g., ABAQUS, ANSYS)

Computer Skills

- Programming & Web Design: Matlab, SQL, C++, HTML, JavaScript
- 3D Studio MAX
- SolidWorks
- Adobe Photoshop
- Illustrator
- CorelDraw
- Macromedia Shockwave Flash

Languages

- English

Petya McInnis possesses over 22 years of experience in engineering and construction, encompassing design, plan review, and inspection for residential, commercial, and industrial projects. In her recent role as a Plan Check Engineer for the City of Fairfield, Petya oversaw a wide range of design disciplines for projects of varying sizes and types. Her expertise spanned from simple residential additions to complex commercial and industrial developments. Petya offered invaluable assistance to stakeholders, ensuring compliance with code requirements and providing technical supervision to permit technicians and inspection staff. Her proactive approach extended to assisting Building Inspectors and Officials with code research and interpretation, resulting in effective solutions for challenging construction scenarios. Petya's contributions included recommending and implementing process and policy changes to further the city's objectives. Additionally, she prepared reports and updates for the City Council, ensuring transparency and accountability in project management.

Petya also served as a client liaison for all clients in the Sacramento region and numerous clients in the Bay Area. With exceptional interpersonal skills, high productivity, and a strong work ethic, she consistently delivered top-notch customer service.

As a professional Engineer, Petya holds ICC certification as a Building Plans Examiner and is also a certified access specialist (CASp). Petya's extensive experience and expertise make her a valuable asset to any team. With well-rounded experience in the building industry, she brings a wealth of knowledge and skills to every project she undertakes.

Work Experience

Sr. Plan Review Engineer, TRB and Associates, Inc. **2024 – Present**

- Provides building plans examination for jurisdictions on an as-needed basis. Responsible for providing plan check reviews for residential and commercial structures.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval.
- Performs plan review of light commercial tenant improvements and remodel projects.

Plan Review Manager, Private Consultant **2022 - 2024**

- Oversaw daily activities of all plan review staff in the Sacramento region.
- Provided technical assistance, training, and mentorship for internal and jurisdictional staff.
- Served as a client liaison for all clients in the Sacramento region and several clients in the Bay Area.
- Reviewed all design disciplines for projects of all sizes and types.
- Specialized in reviewing large commercial projects such as mixed-use multi-family, high-rise, and podium construction.
- Prepared proposals and time estimates

Senior Plan Check Engineer, Private Consultant **2021 - 2022**

- Responsible for reviewing all design disciplines for projects of various sizes and types across multiple Cities and Counties in California, Oregon, Washington, and Massachusetts.
- Specialized in reviewing large commercial projects including mixed-use multi-family, high-rise, podium construction, shopping centers, restaurants, warehouses, big-box stores, tenant improvements, etc.
- Led "page-turning" pre-submittal sessions aimed at identifying and resolving code compliance issues before submission.
- Managed the Stanford University SLAC plan review contract.
- Provided training and performed quality control for plan review staff.
- Prepared proposals and time estimates.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Plan Check Engineer, City of Fairfield, Fairfield, CA **2014 - 2021**

- Responsible for reviewing all design disciplines for projects of various sizes and types in the City of Fairfield.
- Reviewed projects ranging from simple residential additions, alterations, ADUs, and garage conversions to complex commercial and industrial TIs and new developments.
- Assisted designers, contractors, developers, business owners, homeowners, and City staff in applying, understanding, and interpreting applicable code requirements for each project, providing guidance for potential code-compliant solutions.
- Provided technical supervision to permit technicians and inspection staff.
- Assisted Building Inspectors and Building Official with code research and interpretation on difficult or unusual construction situations.
- Recommended and created process and policy changes.
- Prepared reports and City Council updates.

Senior Structural Engineer, AIR Worldwide, San Francisco, CA **2011 - 2014**

- Served as a Senior Engineer in the Catastrophe Risk Engineering Group.
- Evaluated code compliance of proposed and existing facilities across different countries/regions worldwide.
- Reviewed structural drawings and calculations to identify potential design deficiencies.
- Developed reliable quantitative measures of site-specific natural disaster risk (e.g., seismic, wind, flood, tsunami).
- Created 3D structural models for performance-based evaluations.
- Conducted site inspections and prepared proposals, progress reports, final project reports, and presentations.
- Collaborated closely with national and international government agencies and organizations on disaster risk reduction, mitigation, and response strategies.
- Notable projects included:
  - Seismic Risk Assessment of the Solar Millennium Project at Blythe, CA
  - Hurricane Risk Assessment of Walt Disney World, Orlando, FL (Phase I, IIA, and IIB)
  - Seismic and Wind Risk Assessment of KAUST, Saudi Arabia
  - Real-time Seismic Damage Assessment for the California Earthquake Authority
  - Real-time Hurricane Risk Assessment for DOW Chemical, Freeport, TX
  - Various international multi-phase disaster risk assessment projects in collaboration with the World Bank and the Asian Development Bank.

Design Engineer, Mark Thomas & Company, Sacramento, CA **2008 –2011**

- Worked as a Design Engineer on multiple municipal transportation engineering projects, including highway interchange and bridge projects, local roadway improvements, and streetscape enhancements.
- Prepared infrastructure analyses to support the implementation of planning frameworks and design concepts for each project.
- Led the planning, geometric design, and coordination for the Sacramento City College Bicycle/Pedestrian Overcrossing Project.
- Provided construction support for the 4-mile Folsom Blvd Enhancements Project in Rancho Cordova and the historic preservation R Street Reconstruction Project in Sacramento.
- Prepared various technical reports, construction details, utility mapping and coordination, grading plans, access compliance, quantity take-offs and estimates, drainage pattern analyses, and storm drain design.
- Other projects included: I-5 / Cosumnes River Blvd Interchange PS&E, Watt Ave / HWY 50 Project, Sacramento Regional Transit SSCP2, Stockton Transportation Impact Fee Study, R Street Market Plaza, and Ramona Ave Extension.

Project Engineer / Project Manager, KHS&S Contractors, Concord, CA **2005 – 2007**

Sr. Production Operator, FedEx Kinko's SF East Bay CPC, Pleasanton, CA **2004 – 2005**

Jim Begley, FPE, CFM, LEED AP | Fire Protection Engineer

Education

Worcester Polytechnic Institute
M.S. in Fire Protection Engineering - 2006

University of Maryland at College Park
B.S. in Fire Protection Engineering - 1996

Registration | Certifications

Licensed Fire Protection Engineer:
California, Nevada, Arizona, 15 additional states

Jay Griffin, CASp | Senior Plans Examiner

Licenses and Certifications

- Certified Access Specialist #788

Education

High School Diploma

Skills

- Communication, both written and verbal
- Critical thinking
- Technical plan review
- Creative solutions to complex problems

Jay Griffin possesses over 40 years of experience in the building industry including 20 years as a Supervising Building Inspector. He has extensive knowledge in the areas of building life safety, accessibility, plumbing, and mechanical disciplines, as well as a strong background in plan review. Jay's expertise spans across a wide range of complex projects, including commercial and residential buildings. Throughout his career, he has gained hands-on experience working in various roles, such as carpenter, lead carpenter, job foreman, superintendent, building contractor, and building inspector.

As a collaborative leader, Mr. Griffin recently provided exceptional leadership skills as the Supervising Building Inspector for the City of Sacramento Building Division. He also taught life safety and disabled access classes to city staff and provided guidance and support to plan review and inspection staff. With his expertise in resolving code-related issues and ensuring compliance with regulations, Jay maintains high levels of productivity, reliability, and customer service. He is also a certified California Access Specialist (CASp) and is passionate about continuing a career in the building life safety field.

Work Experience

Sr. Plans Examiner, TRB and Associates, Inc. **2023 – Present**

- Provides building plans examination for jurisdictions on an as-needed basis. Responsible for providing plan check reviews for residential and commercial structures. Review scope includes both structural and non-structural disciplines.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval.
- Performs plan review of light commercial tenant improvements and remodel projects.

Supervising Building Inspector, City of Sacramento, Sacramento, CA **2004 – 2023**

- Reviewed incoming workload for completeness and complexity and assigned tasks to staff members as needed.
- Taught ongoing life safety and disabled access classes to city staff, ensuring that they were up-to-date on the latest regulations and requirements.
- Served as a subject matter expert on life safety and disabled access provisions of the California Building Code, providing guidance and support to city plan review and inspection staff. Resolved code-related issues as they arose, using deep knowledge and expertise to ensure compliance.
- Reviewed project plans for compliance with applicable requirements of the California Building Code for life safety and disabled access. Worked on a wide range of projects, from simple tenant improvements to high-rise buildings, complex additions to historic structures, and the Golden 1 Arena. Conducted thorough reviews and provided detailed feedback to ensure that all aspects of the code were met.
- Evaluated AMMR (Alternative Materials and Methods of Construction) requests for equivalence with prescriptive code.

Jeff Brooks, CASp | Senior Plans Examiner

Licenses and Certifications

- Certified Access Specialist
- ICC CA Commercial Pluming Inspector
- ICC CA Commercial Mechanical Inspector

Education

Cosumnes River College
Building/Home/Construction Inspection/Inspector

Honors/Awards

- Building Official Leadership Academy – CALBO
  Building Official Leadership Academy (BOLA) Award for completing the CALBO BOLA program for2017-2018.

- Municipalities
- Construction
- Code Enforcement
- Life Safety
- Building Codes
- Plan Review
- Building Inspections
- NFPA
- Interpersonal Skills

Jeff possesses over 40 years in the construction industry with 21 years as a building inspector performing commercial and residential plan review and inspections in the building life safety, accessibility, plumbing, mechanical disciplines throughout Northern California. Jeff's expertise includes the review of highly complex mechanical and plumbing systems. He also has 20 years of experience working in the trades and as a contractor building custom homes.

As a collaborative leader, Jeff recently provided exceptional leadership skills as the Cannabis Project Manager for the City of Sacramento Building Division. He also provided training and direction for other plans examiners and inspectors for legal related facilities. He works well with the public as well as his colleagues and maintains high levels of productivity, reliability with excellent work ethic to deliver high quality customer service.

Jeff is ICC certified as a Commercial Building and Electrical Inspector. In addition, he is also certified as a California Access Specialist (CASp). Jeff has well-rounded experience in the building industry.

Work Experience

Senior Plans Examiner, TRB and Associates, Inc. **2021 – Present**

- Reviews complex plan drawings and calculations for code compliance on behalf of client agencies.
- Performed comprehensive mechanical and plumbing review for new $100 million mixed use project located in the City of West Hollywood.
- Performed mechanical and plumbing review for new $1.3 billion mixed use project located in Sacramento, CA
- Reviews encompass all manner of construction, including residential, commercial, and industrial project types.

Building Inspector/Plans Examiner, City of Sacramento **2000 – 2021**

- Performed mechanical plumbing plan review for Golden 1 Center Arena, home of the Sacramento Kings.
- Provided life safety, fire systems, and mechanical and plumbing plan review on a wide range of project types during tenure.

General Contractor, Brooks Construction **1980 – 2000**

Ryan Leiendecker | Senior Plans Examiner

Certifications/Licences

ICC Certified:
- Certified Building Official
- Certified Fire Marshall
- Building Code Specialist
- Building Plans Examiner
- Residential Energy Inspector/Plans Examiner
- Commercial Energy Plans Examiner
- Residential Plans Examiner
- Plumbing Plans Examiner
- Commercial Building Inspector
- Residential Building Inspector
- Commercial Plumbing Inspector
- Building Inspector
- Permit Specialist
- Permit Technician

Training Certificates:
- Anchorage Design
- Repair Application Procedure
- Fundamentals of Concrete and Materials
- Fundamentals of Concrete Construction

Education

- Brandman University (Chapman University System), Irvine, California- Master of Public Administration
- Brandman University (Chapman University System), Irvine, California- Bachelor of Sociology

Ryan James Leiendecker possesses more than 14 years of experience in building and fire life safety, conducting plan reviews and inspections for residential and commercial projects in the public sector. In his recent role as a Senior Plan Checker at the City of Pleasanton Building and Safety Division, Ryan supervised Plan Checkers and conducted quality control reviews of consultant's plan reviews. He evaluated building and structural plans for compliance with various codes and met with stakeholders to discuss projects. Ryan conducted over-the-counter reviews for simple projects, while also effectively communicating with customers at the counter, over the phone, and via email, consistently delivering exceptional customer service. He also served as backup for the Chief Building and Safety Official, assisted in special projects, and conducted field inspections as needed.

Ryan has vast experience reviewing construction plans to ensure structural integrity and compliance with regulatory standards, covering California building, mechanical, electrical, plumbing, energy, green, fire codes, and local ordinances.

Work Experience

Senior Plans Examiner, TRB and Associates Inc. **2022 – Present**

- Senior Plans Examiner for jurisdictions on an as needed basis responsible for conducting fire and life safety plan review and inspections ensuring compliance with all applicable local, state, and federal agencies.

Senior Plan Checker, City of Pleasanton Building and Safety **2021 - 2022**

- Supervised Plan Checker and ensured quality control of consultant's plan reviews.
- Checked building and structural plans from architects, engineers, contractors, and owners for compliance with codes and regulations.
- Collaborated with stakeholders like architects, engineers, contractors, and homeowners to discuss projects.
- Conducted over-the-counter reviews for simple projects.
- Provided information and assistance to customers in person, over the phone, or via email.
- Issued building permits and participated in staff meetings to review project compliance.
- Delivered customer service at the Public Counter, including minor plan reviews, and resolving conflicts.
- Acted as backup for the Chief Building and Safety Official when needed.
- Assisted in special projects such as community studies and emergency planning.
- Conducted field inspections related to plan reviews as necessary.

Plans Examiner, County of Napa Building Division **2015 – 2021**

- Reviewed construction plans for structural integrity and compliance with the California building, mechanical, electrical, plumbing, energy, green, fire code and local ordinances.
- Assisted building inspectors with inspections concerning complex structural and life safety issues.
- Met with architects, engineers, and contractors to discuss future or ongoing projects.
- Provided over-the-counter reviews for certain simple projects.
- Provided information to customers at the counter, over the phone, or via email.

Combination Building Inspector Aide II, City of Long Beach Building & Safety **2014 - 2015**

- Assisted customers at the public counter by answering Title 24 code and permit related questions and issuing permits.
- Plan checked photovoltaic systems, signs, pools, and spas.

2013 – Present

James Johnson is a Registered Electrical Engineer (Hawaii), ICC Certified Electrical Plans Examiner, and Qualified Commissioning Services Provider (QCxP) with over 30 years of experience encompassing electrical engineering design and plan review. Mr. Johnson has provided electrical plan review on a variety of project types including commercial building, tenant improvements, and photovoltaic systems. In addition, Mr. Johnson has performed extensive power and lighting systems design, engineering and construction document production, and project management.

Select Skills / Project Experience

- Analyze permit submittal plan documents for conformance to adopted national, state, and city/county codes including NEC, NFPA, IBC, ICC and UFC standards.
- Conduct forensic electrical systems investigations to determine origin and cause failure of equipment and associated distribution systems including power, lighting and fire alarm with analysis and resolution of legally adopted Code compliance issues.
- Provide scheduled review as CQCR of electrical construction documentation with scheduled site inspection to assure quality construction in accordance with minimum codes and standards for U.S. government projects.
- Professionally managed a wide variety of governmental, commercial, institutional, and residential projects with associated commercial and emergency, renewable and non-renewable power, lighting, and telecommunication systems.
- Provided oversight of engineering skills development and implements of Engineers-In-Training. As a lead instructor at Leeward Community College, taught Math, English and Writing from high school through college freshman levels.
- Proficient in Microsoft Word, Excel, PowerPoint, Adobe Photoshop and Acrobat Pro, AutoDesk AutoCAD MEP 2013. Revit MEP 2013.

Work Experience

- Senior Plan Review Engineer, TRB + Associates, Inc., 2014 to Present
- Certified Electrical Plan Reviewer, City and County of Honolulu, 2013 to Present
- Senior Electrical Engineer/Project Manager, Moss Engineering, 2005 – 2013
- Office Manager, Senior Electrical Engineer, Tower Engineering, 2000 – 2005
- Senior Project Engineer/Manager, Applied Engineering, 1995 – 2000
- Lead Instructor, Office of Continuing Education and Training, Leeward Community College, Pearl City, HI, 1995 – 2000
- Senior Electrical Design/Project Manager, Bennett, Drane, Karamatsu Engineers, Honolulu, HI, 1985 – 1995

Steven Block, E.E. | Senior Plan Review Engineer

Education

B.S. Engineering, Physics
California State University, Northridge, CA

Registration

Registered Electrical Engineer
California, Nevada, Arizona, Hawaii

Steven Block is a highly skilled electrical engineer with over 25 years' experience in the electrical engineering field. His expertise includes electrical design and plan review for compliance with the National Electrical Code, California Electrical Code, California Energy Code, local ordinances, National Electrical Safety Code, California Electrical Code, California Energy Code, local ordinances, National Electrical Safety Code, OSHA and other applicable laws, ordinances, regulations and standards (LORS).

Projects reviewed for code compliance include commercial and industrial solar power plants, commercial natural gas power plants, wastewater treatment plants, and cement plants, industrial and commercial buildings, parking structures, hotels, and municipal utilities. Designed and provided construction support for traffic signals, highway lighting, closed circuit television, traffic monitoring stations, maintenance stations, and storm water pumping stations.

Work Experience

Senior Electrical Plan Review Engineer, TRB and Associates **2016 - Present**

- Plan review for residential, commercial, and industrial installations – Phillips 66 Naval Weapons Station, OSHPD 3 reviews for the City of Sacramento, Benicia Valero Refinery Audit, Child Daycare Center in Santa Clara, new apartments in Sacramento.

Senior Electrical Engineer, Private Consulting Firm **2004 - 2016**

- Plan review for code compliance and field inspector support – Silver State North Photovoltaic Generating Station, transmission lines, and high voltage substation (Nevada), Palomar Power Project (California), Panoche Energy Center (California), Abengoa Solar Thermal Generating Station and substation (California), Genesis Solar Collector Generating Station (California), Inland Empire Energy Center (California), Distributed Energy Partners Generating Stations (Hawaii), Various Wind Power Generating Stations in Solano County, CA, and other generating stations.
- Plan review for commercial and industrial installations – FBI Honolulu, Disney Hawaii, Fort Irwin Military Housing (California), various rooftop photovoltaic installations (Hawaii), Valero Refinery Benicia (California), Transmission Line Feeder for Concrete Plant (Nevada) and Various Cellular Tower Installations (Hawaii).

Alan Roth, E.E. | Senior Plan Review Engineer

Education

B.S. Electrical Engineering
California State Polytechnic University

Registration

Registered Electrical Engineer
California

Alan Roth is a registered professional electrical engineer with over 30 years of engineering experience. His experience encompasses extensive electrical systems design, quality control, and oversight roles at power plant and other industrial facility types. Past roles include working for Calpine, Inc. and Dow USA on power generation and chemical plant projects.

Work Experience

Senior Electrical Plan Review Engineer, TRB + Associates 2016 – Present

- Conducts electrical code compliance plan review of industrial and power generation facilities. Currently assisting with plan review $1 billion petrochemical refinery expansion project.

Electrical Engineering, Calpine Corporation 1998 – 2014

During tenure at Calpine Corporation, held positions of Senior Electrical Engineer, Senior Project Engineer, Senior Operations Engineer, and Senior Electrical Engineer 3.

- Provided support for the design and construction of a new combined cycle power plants and installation of new combustion turbine generators in existing plants. Duties included:
  - Reviewed engineer's design documents for compliance with Calpine standards and proper interface with OEM documentation
  - Provided field support as required
  - Design
  - Management of capital projects
  - Analysis of protection and control systems
  - Root cause analysis and determination of corrective actions for equipment and protection system failures
  - Recommended predictive preventative maintenance
- Provided interface with consultants for complete protection reviews at 12 Calpine power plants in CA. Duties include:
  - Compiled all protection related drawings
  - Compiled any relay coordination and settings documents
  - Provided field support to consultants to verify drawings and actual protective relay settings
- Determined the preliminary conceptual design, using standard design guidelines for plants in development
- Interfaced with local utilities for new interconnections for projects in the development phase
- Represented Calpine to WECC and other regulatory bodies.
- Provided guidance to plants on maintaining compliance with regional and national reliability standards.
- Interfaced with local utilities for new interconnections for projects in the development phase.
- Represented Calpine to WECC and other regulatory bodies.
- Determine the specification of the major equipment to be selected for the projects as well as interfacing system design.
- Interfaced with utilities, steam hosts, gas suppliers, permitting agencies, consultants and other organizations involved with the development of power projects.
- Directed transmission consultants in initial studies for power plant siting.

Peter Kogan, M.E., LEED AP | Senior Plan Review Engineer

Education

Master of Science, Mechanical Engineering, Moscow Aeronautical Institute, Russia

Registration/Certification

Registered Professional Mechanical Engineer: California, Hawaii, Nevada, Texas, Colorado, Arizona

Certified Energy Manager (CEM), State of California

LEED Accredited Professional

Peter Kogan is a licensed mechanical engineer with over 30 years of diversified experience in the construction industry. His expertise lies in the areas of design and construction administration for Heating, Ventilation and Air Conditioning, Plumbing, Fire Protection, Energy and Building Studies, and Value Engineering. In the past ten years he was responsible for the design and renovation construction of several historical preservation projects. Peter's extensive experience and personal attention to project details has always assured professional services performed within budget and to complete client satisfaction.

Peter has published several technical articles in the national magazine "Heating, Piping, Air Conditioning" and recently had an article published in the architectural magazine "Progressive Architecture". Peter has presented a technical paper on World Energy Congress in Atlanta, Georgia in 1990.

Akitayo (Tai) Akiwumi | Senior Plans Examiner

Certifications/Licences

ICC Certified:

- Building Plans Examiner
- Building Inspector
- Plumbing Inspector

Education

- Master of Science - Mechanical Engineering, University of Manchester Institute of Science and Technology, UK.
- Bachelor of Science - Mechanical Engineering, University of Manchester Institute of Science and Technology, UK.

Training

- 2022 CBC Chapter 11A: Privately Funded Multi-Family Dwelling Accessibility.
- 2022 CBC Chapter 118: Accessibility in Public Buildings, Public Accommodations and Commercial Buildings.

Committee Representation

City representative at the Tri-Chapter Uniform Code Committee meetings.

Akitayo (Tai) Akiwumi possesses over 22 years of experience in conducting complex plan reviews for residential and commercial projects, encompassing architectural, mechanical, plumbing, and electrical aspects. In his recent role as a Plans Examiner at the City of San Ramon, he conducted thorough plan reviews for a diverse portfolio of projects, ranging from new constructions to tenant improvements and alterations. Tai's responsibilities also extended to performing over-the-counter plan checks, issuing permits, and providing invaluable code resource services to clients.

In previous roles, Tai demonstrated his proficiency by providing guidance to designers, training staff, addressing customer inquiries, conducting extensive research on code issues, and collaborating effectively with architects and designers. His dedication to ensuring compliance and safety standards has been evident throughout his career.

Tai exhibits exceptional knowledge of local, state, and federal safety standards, ensuring strict adherence to regulations. Holding ICC certifications as a Building Plans Examiner, Building Inspector, and Plumbing Inspector, he brings a well-rounded expertise to the building industry. urthermore, his background in mechanical engineering, technical supervision, general management, and project development, combined with his reliability in supporting team efforts, greatly enhances his performance in his role.

Work Experience

Senior Plans Examiner | TRB and Associates Inc. **2024 - Present**

- Senior Plans Examiner for jurisdictions on an as needed basis responsible for conducting fire and life safety plan review and inspections ensuring compliance with all applicable local, state, and federal agencies.

Plans Examiner | City of San Ramon, San Ramon, CA **2005 - 2024**

- Conducted residential and commercial architectural, mechanical, plumbing, and electrical plan reviews.
- Reviewed a wide range of projects, including:
  Non-Residential:
  - New constructions like malls, offices, and restaurants.
  - Tenant improvements for offices, restaurants, stores, warehouses, and more.

  Residential:
  - Single-family dwellings, involving both new constructions and alterations.
  - Multi-family dwellings, including new constructions and alterations.
- Performed over-the-counter plan checks, issued permits, and provided code resource services to customers via counter, email, and telephone inquiries.
- Assisted in training permit technicians and ancillary staff.
- Met with architects and designers before project submittals for review.
- Conducted field inspections as needed.

Plans Examiner I & II, Berryman & Henigar Inc. | Pleasanton, CA **2002 - 2006**

- *2005 - 2006:* Served as Plans Examiner II, conducting part-time residential and commercial architectural, mechanical, plumbing, and electrical plan reviews on an as-needed basis.
- *2002 - 2005:* Functioned as a Plans Examiner, overseeing residential and commercial architectural, mechanical, plumbing, and electrical plan reviews.
- Additional responsibilities included:
  - Provided guidance to designers on code compliance issues.
  - Assisted in training permit technicians and ancillary staff.
  - Addressed customer inquiries regarding plan checks and other matters.
  - Conducted research on code issues as requested by building departments.
  - Collaborated with architects and designers prior to project submissions for review.

Michael Osborn, PE, LEED AP | Senior Civil Plan Review Engineer

Licenses and Certifications

Registered Civil Engineer | 66022

LEED AP, 2009

Education

Bachelor of Science, Civil Engineering
California Polytechnic University, San Luis Obispo, CA

Caltrans Local Assistance Resident Engineer (RE) Academy

Affiliations

Leadership Santa Barbara County, Board of Directors

Leadership Fresno, Class 31

American Society of Civil Engineers (ASCE)

Michael Osborn is a senior engineer at Provost & Pritchard. With over 20 years of engineering experience, Mr. Osborn has been involved in a variety of public works, residential and commercial development, and educational facility projects. His areas of expertise include site grading design, Americans with Disabilities Act (ADA) site accessibility design and assessment, stormwater management, storm drainage, sanitary sewer systems design, street design, and site development.

Work Experience

Plan Check Engineer, Grading and Drainage Plan Check Services | City of Santa Clara, CA

Mr. Osborn is currently assisting the City of Santa Clara by providing grading and drainage plan check services for various projects in the city. Mr. Osborn has been a primary plan check engineer, reviewing on-site development and associated improvements in the public right-of-way in relation to demolition, grading and drainage. Projects have varied in size from single commercial buildings to multi-family residential to the multi-phased, mixed-use Related Santa Clara project.

City Engineer | City of Mendota, CA

Mr. Osborn is the current City Engineer for the City of Mendota. His responsibilities include management and coordination of the City's state and federally-funded street projects through the Fresno County Council of Governments (FCOB) and Caltrans DLAE and coordination with the City Manager and Public Works Department on infrastructure issues with streets, water, sewer, and storm drain. Mr. Osborn has a significant role in assessing and identifying pavement conditions and storm drain infrastructure issues and needs for the City and putting that knowledge to use in assessing potential flooding issues and coordinating pavement maintenance and street reconstruction.

Project Manager, On-Call City Engineering Services | City of Dinuba, CA

Mr. Osborn provided general civil engineering services to the City of Dinuba, assisting the City's Public Works Department to complete capital improvement projects for 18 months. Projects that were included under this contract ranged from providing civil engineering and land surveying for park facility upgrades, ADA compliance, updating the City's Urban Water Management Plan, development reviews, and grant writing assistance.

Project Engineer, ADA Assessment and Barrier Transition Plan, Community Regional Medical Center | Fresno, CA

Mr. Osborn was the project engineer responsible for completing an ADA compliance site self-evaluation of the Community Regional Medical Center campus. The exterior site-evaluation consisted of the paths of travel from parking stalls to building front doors, and paths of travel between buildings. Upon completion of the evaluation and results report, a Barrier Removal Plan was prepared and included a detailed list of compliance areas that needed to be addressed.

Project Manager, Ongoing Consulting Services, Santa Barbara Community College District | Santa Barbara, CA

Mr. Osborn was responsible for providing ongoing engineering services for the Director of Facilities & Operation and Campus Development. He prepared a pavement assessment of all three campuses within the District, which led to the District's first pavement management plan. In addition, he improved approximately 30,000 square feet of pathways, repaired or resurfaced approximately 10 acres of asphalt pavement, improved the sites of 27,840 square feet or modular buildings, and improved accessible parking and routes of travel around each project. Additional scope of services included mapping existing utilities and improving potable water and sanitary sewer facilities to new buildings. Mr. Osborn also studied slope erosion and prepared "on-call" emergency slope repairs, and provided site grading, paving, utility and storm water management improvements for new building construction as the project civil engineer on several architectural teams.

Consultant/Project Manager, Build Rite Construction, Bay Area, CA	**2009 - 2011**
Building Inspector, Solano County, Fairfield, CA.	**2006 - 2009**
Building Inspector, Private Consultant, Elk Grove, CA.	**2005 - 2006**
Electrical Apprentice/Construction Laborer, Steiny & Co.,Vallejo, CA.	**2000 - 2005**
Sargent, U.S. Army – Fort Drum Watertown, NY.	**1993 - 1998**

Douglas Kreiss | Senior Building Inspector

Certifications/Licenses

- ICC Certified Combination Dwelling Inspector - Uniform Codes
- ICC Certified Residential Combination Inspector
- ICC Certified Commercial Electrical Inspector
- ICC Certified Mechanical Inspector
- ICC Certified Plumbing Inspector UPC
- ICC Certified Mechanical Inspector UMC
- ICC Certified Building Inspector
- ICC Certified Plumbing Inspector
- ICC Certified Electrical Inspector
- ICC Certified Combination Inspector
- ICC Certified Commercial Combination Inspector
- California State Fire Marshal Fire Prevention 1A, 1B, 1C

Education

- University of Illinois, Champaign, IL, M.S.
- University of California, Berkeley, CA, B.A.
- College of Alameda, CA. A.A.

Douglas possesses over 20 years of building industry experience as a Certified Building Inspector. Douglas' extensive knowledge includes a wide variety of project types including all aspects of single and multi-family residential, commercial, and industrial structures. He has in-depth code knowledge as is adept at the practical application of the codes working with public agencies.

Mr. Kreiss most recently served as a Building Inspector for the City of Fremont. In this role, he provided expertise, staff training and interpretation of mechanical installation and inspection in addition to combination inspection duties in special projects. This has provided him with a wealth of building industry experience. Douglas has demonstrated outstanding customer service with the public, contractors and development community.

Douglas is also ICC certified in multiple areas including as a Building Inspector, Combination Dwelling Inspector – Uniform Codes, Plumbing Inspector UPC, Mechanical Inspector UMC, Commercial Combination Inspector, Residential Combination Inspector, Commercial Electrical Inspector, Mechanical, Electrical and Plumbing Inspector. He is also certified as a California State Fire Marshal for Fire Prevention 1A, 1B, and 1C.

Work Experience

Senior Building Inspector, TRB + Associates **01/2021 - Present**

- Senior Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Contract Inspector for major projects and jurisdictions on an as needed basis.
- Communicates compliance elements with clients with solution driven resolve.

Building Inspector, City of Fremont **07/2001 - 06/2020**

- Senior Specialist assigned to provide expertise, staff training and interpretation of mechanical installations and inspection in addition to combination inspection duties in special projects.
- Projects included the City of Fremont corporation yard, two story private school buildings, churches, fire stations, multi-story apartment complexes, senior housing project, all seismic upgrades per the City of Fremont ordinance, high tech and hazardous occupancies, restaurants, single family residential projects.
- Duties also included coordination of staff vehicle maintenance and revision of Building Department forms

Combination Building Inspector, City of Fremont **05/2000 - 07/2001**

- High tech, commercial and industrial inspections, including Seagate, AXT HMT, Home Depot REI, City Beach, single family residential.

Combination Building Inspector, City of Pleasanton **09/1999 - 05/2000**

- Single family residential combination inspections and commercial inspections

Combination Building Inspector, Private Consultant **03/1999 - 09/1999**

- Assigned to the City of Dublin and Town of Danville
- Single family and multi-family residential projects

Union Carpenter, Private Consultant **01/1980 - 04/1999**

- Devcon Construction, Tisys Construction, Holvick Construction, Cramer Associates. Supervision, foreman, commercial industrial new construction, tenant improvements, tilt-up, wood and metal stud framing, interior and exterior finish work, cabinets, acoustic ceilings, computer floors, residential rough and finish construction

Sean Burke | Senior Building Inspector

Certifications/Licenses

ICC Certified
Plumbing Inspector
Electrical Inspector
Building Inspector

Professional Affiliations

B.A., Religious Education Minor in Christian Education

Computer Skills

Microsoft Office
Accela Permit Services software

Sean possesses over 24 years of experience in inspection services throughout Northern California encompassing housing inspections, quality control, and combination building code inspections for residential and commercial project types. Sean also has 12 years of experience as an electrician.

Sean's recent experience as a multi-trade inspector for several commercial projects includes helping support the jurisdictions of the County of Sacramento, Town of Loomis, and City of Colfax for both inspections and minor plan review.

As a collaborative leader, Sean provided exceptional leadership skills in managing, supervising, evaluating, and training 22 personnel at one of the busiest permit counters in the region. He has positive working relationships with clients, management, as well as his peers and maintains high levels of productivity and reliability with excellent work ethic to deliver high quality customer service.

Work Experience

Combination Building Inspector, TRB and Associates, Inc. **2022 – Present**

- Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Communicates compliance elements with clients with solution driven resolve.

Building Inspector, Private Consultant **2019 – 2021**

- Functioned as a multi-trade inspector for several commercial projects (Placer County's New Coroner's Facility, WellQuest of Granite Bay & Amazon Distribution Facility in Turlock, CA)
- Helped support the jurisdictions of the Town of Loomis and City of Colfax for both inspections and minor plan review.

Permit Services Manager, City of Sacramento **2014 - 2019**

- Managed and oversaw the Building Department Permit Counter.
- Supervised 16 employees permit technicians and building inspectors.
- Supervised six (6) customer service reps assisting in checking in customers and processing payments and plans management.
- Responsible for a variety of complex clerical duties, primarily related to the intake and processing of building permit applications as well as constant communication and coordination with members of the public and City staff.

Building Inspector, City of Sacramento **1998 - 2014**

- Inspected new residential construction and remodels and light commercial tenant improvements.
- Managed facilities permit program, catering to commercial building owners with frequent tenant improvement to expedite their plan submittals and streamline their inspections.
- Supervised three (3) building inspectors assigned to the program.
- Responsible for supervising, evaluating, training, and coordinating the work of building inspectors performing inspection work in all phases of construction, alteration, and repair for compliance to approved plans, specifications, and state and local codes.

Electrician, Private Sector **1987 - 1998**

- Worked as an electrician in various private sectors in Northern California, located in Truckee, Gold River, and Sacramento.

Brian Elder | Senior Building Inspector

Certifications/Licenses

- ICC Certified, Building Inspector
- ICC Certified, California Residential Building Inspector
- ICC Certified, California Commercial Building Inspector
- IAPMO Plumbing Inspector
- IAPMO Mechanical Inspector
- P.O.S.T. PC 832
- California General B CSLB Contractor License # 730875

Brian possesses over 20 years of experience providing inspection services to jurisdictions throughout Northern California. He possess extensive knowledge of the local environment including applicable codes, ordinances, climate and culture. He has inspected projects of all types and sizes and is able to inspect a wide range of residential and commercial projects.

His recent experience includes working as a Combination Building Inspector for a 550,000 sq. ft. Hotel Casino addition at Cache Creek Casino. He has also provided combination inspection services for various jurisdictions including Yolo County, the Cities of Grass Valley, West Sacramento, Sacramento, Vallejo, Winters and Town of Loomis. Brian managed and oversaw the building department and inspectors at the City of Grass Valley. As a licensed general contractor, Brian worked on a tract home construction for Shastan Homes in Chico.

Work Experience

Senior Building Inspector, TRB + Associates **11/2018 – Present**

- Contract inspector for jurisdictions on an as-needed basis responsible for inspecting residential and commercial project types

Combination Building Inspector, Private Consultant **07/2014 – 11/2018**

- Provided combination inspection services for the Cities of West Sacramento, City of Vallejo, City of Sacramento, Town of Loomis, City of winters, Yolo County and Cache Creek Casino
- Projects included single and multifamily residential, commercial, industrial buildings, large tilt up and ten story high rise buildings

Supervising Building Inspector, Private Consultant **11/2013 – 07/2014**

- Performed inspections of commercial, industrial, and residential construction (new, remodels, repairs and replacements) for conformance with applicable codes and ordinances
- Reviewed building plans and supporting material relevant to ensure compliance with various codes, ordinances and policies
- Conferred with city personnel, architects, contractors, and the general public on building code requirements and restrictions
- Reviewed records and reports of inspections for accuracy

Supervising Building Inspector, City of Orland, CA **03/2002 – 11/2013**

- Provided building, electric, plumbing, mechanical, and accessibility inspections for residential and commercial projects
- Performed inspections of all construction phases for compliance with applicable State and City codes and ordinances
- Conferred with city personnel, architects, contractors, and the general public on building code requirements and restrictions
- Verified workmanship and materials during all phases of residential, commercial and industrial construction projects and investigated violations as necessary
- Calculated building valuations and permit fees, collected fees and issued permits
- Verified contractor's licenses, and workers compensation insurance prior to issuing permits

Jacqueline (Jacqui) Powers | Senior Permit Technician

Education

Bachelor of Arts, Chico State University

Licenses/Certifications

NFPA 472 Hazardous Materials Awareness

ICC Certified Plans Examiner *(expired)*

Jacqui Powers brings more than a decade of expertise in the building industry. As a Senior Permit Technician, she excels in navigating building practices and regulatory compliance across federal, state, and local levels. Jacqui is highly proficient in data entry, project coordination, and office administration, enabling her to effectively manage multiple projects while maintaining exceptional customer service standards. This includes her extensive experience in building and life safety for numerous jurisdications throughout California.

Work Experience

Senior Permit Technician, TRB + Associates **2017 - Present**

- Assist with Document Control for various projects
- Contract Permit Coordinator for jurisdictions on an as needed basis.
- Assist clients with questions and inquiries
- Manages the demands of multiple jurisdictions
- Reviews plans for new residential, additions, improvements and light commercial projects.

Plans Examiner | Permit Technician, Bay Area Municipal Consultant **2013 –2017**

- Provided plan review of residential and commercial projects; including additions and tenant improvements.
- Contract Permit Technician for multiple jurisdictions
- Document Control for various high scale commercial and power plant projects.

Event Director | Office Manager, Bay Area Catering **2009 - 2011**

- Managed all aspects of event coordination, including preparing proposals, negotiating contracts, discussing rental upgrade options with clients, developing event timelines, creating menus, collaborating with outside vendors, and arranging rentals.
- Recruited, trained, delegated tasks to, coached, and motivated event staff. Evaluated staff performance. Entered, retrieved, and updated event setup information, and produced event reports using a computerized event management system.

Event Director | Office Manager, East Bay Golf Course **2004 - 2009**

- Served as the "Command Center" for the office, addressing issues and relaying accurate information between sales staff, chefs, employees, and the managing partner. This included details on guest counts, menus, tastings, location, and timing.
- Compiled a monthly binder detailing all events and staff schedules for the managing partner, chef, and sales staff.
- Functioned as the office administrator, handling phone calls, emails, scheduling meetings and conferences, managing transportation and travel arrangements, and processing mail.
- Demonstrated proficiency in Microsoft Office programs (Word, Excel) and various email systems (1and1, Outlook).
- Skilled in QuickBooks for invoicing, billing, payroll, bill payments, and report generation.
- Managed the office schedule for all staff, including front of house and production, and supervised sales staff appointment setting.
- Monitored all accounts payable and receivable, maintained vendor relationships, processed client payments, created budgets, tracked inventory, and completed profit and loss statements.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Fee Schedule

TRB and Associates offers the following fixed-fee and hourly rate schedules for services provided. Please note that Building Plan Review services are rendered on either a fixed fee or hourly rate basis, as noted below. If additional services are requested such as Building Inspection, Permit Processing, Staff Augmentation and Other services (e.g. MWELO, Civil Plan Review; CASp consulting), those services can be provided on an hourly basis at rates shown in the provided Schedule of Hourly Rates and Reimbursables.

Plan Review Services

Our plan review fees may be calculated as a percentage of the Plan Check Fee collected by the City. The fee compensation shown covers three total plan review cycles – the initial plan review and two rechecks. Any further review cycles which become necessary and reviews of revisions to approved plans would be billed on an hourly basis at the Senior Plan Review Engineer/Architect rate provided in the accompanying Schedule of Hourly Rates and Reimbursables. Please note that the turnaround timeframe for providing expedited and express plan reviews would be negotiated/mutually agreed upon prior to commencement of the review. Please also note that all plan reviews are subject to a minimum $250 fee.

Turnaround Timeframe* (in business days)	Structural Only Review	M/E/P Only Review	MWELO Only Review	Certified Floodplain Manager (CFM) Only Review	Complete Building Review (Structural, Life Safety/Disabled Access, M/E/P, Green, Energy)
Standard Generally, five-to-ten-day turnaround, as mutually agreed upon	50%	50%	70%	70%	70%
Expedited** As negotiated and mutually agreed-upon	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent

* For exceptionally large/complex projects, 15-day first check and 10 day rechecks may apply, as mutually agreed upon prior to commencement of review.

** Turnaround timeframe would be mutually agreed upon prior to commencement of work.

*** Note: For other review scope combinations not specifically identified in the above table (e.g. Electrical Only, Mechanical/ Plumbing Only, etc.), the fee compensation would be on an hourly basis.

**** Projects with Calculated Plan Reviews Fees in Excess of $10,000 are eligible for negotiated cost.

Please note that the pickup, shipment, and delivery of hardcopy and/or electronic plan documents and other relevant correspondence to the City is included in the above-noted cost.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Relevant Project Experience

TRB staff members have extensive experience providing plan review, building inspection, permitting and other Building Safety and Public Works support activities to municipal agencies. To help demonstrate our depth of knowledge, please find the following large projects profiled for your reference. Please note that additional project experience information and references follow the profiled projects.

RELATED Santa Clara Mixed Use Project | Agency: City of Santa Clara, CA

Valuation: $9 billion
Completion Date: Pending
Project address/location: Santa Clara, CA
Project contact person: City of Santa Clara; David Tran SE, Asst. CBO, (408) 615-2436
Scope of work: Combination Code Compliance Plan Review, including Grading & Drainage
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Paul Armstrong, Dominic Ma, Karin Kuffel, Jim Johnson.

TRB was selected by the City of Santa Clara to provide Life Safety, Disabled Access, Structural MEP, Energy, Green Building, Civil, Stormwater, and Grading construction code compliance services, including Alternate Material and Methods support for Phase One of the Related Santa Clara multi-phased, mixed-use project.

The project at projected full build out (ie all phases) consists of 9.2 million square feet of mixed-use development with commercial office, retail / entertainment including a food market, 1,680 residential units, 700 hotel rooms, parking facilities, new open space, and roads, new / upgraded / expanded infrastructure and utilities, and approximately 5 million square feet of corporate office space. The first phase of the project comprises an 850,000 sf garage with 2 high rise towers, 1 mid-rise building, and multiple low rise structures located above (podium construction).

Santa Clara Square Mixed Use Development Project | Agency: City of Santa Clara, CA

Valuation: $200 million
Completion Date: 2019
Project address/location: Santa Clara, CA
Project contact person: City of Santa Clara; David Tran SE, Assistant Building Official, (408) 615-2436
Scope of work: Combination Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma, Jim Johnson

TRB provided combination plan review support to the City of Santa Clara for a series of Mixed Use, Residential, and Parking structures on the project. Reviewed project elements included the following:

New Building 1 + Garage:		New Building 2 + Garage:		Parking Garages: Buildings 3, 4 & 5:	
Occupancy Group:	R-2/S-2/A-3/M/B	Occupancy Group:	R-2/S-2/M/B	Occupancy Group:	S-2
Type of Construction:	IIIA/IA	Type of Construction:	IIIA/IA	Type of Construction:	IA
Number of Stories:	5	Number of Stories:	5	Number of Levels:	6
Floor Area Building 1:	400,000 sf	Floor Area Building 2:	385,000 sf	Floor Area:	525,000 sf

The Veranda Shopping Center | Agency: City of Concord, CA

Valuation: $75 million
Completion Date: 2019
Project address/location: Concord, CA
Project contact person: City of Concord; Ryan Pursely, PE CBO, Building Official, (925) 671-3173
Scope of work: Combination Code Compliance Plan Review and Inspector of Record
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma

TRB provided comprehensive Plan review and Inspection services on the construction of this 6-anchor store shopping center which encompassed core and shell; assembly, retail, and business use tenant improvements. The project includes 12 buildings of various building types (concrete tilt-up, masonry, steel frame, and wood frame construction) having a combined area of 375,000 s.f.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Dual Tower 26-Story and 8-Story Mixed-Use Buildings | Agency: City of Oakland, CA

Valuation: $200 million
Completion Date: In Progress
Project address/location: Oakland, CA
Project contact person: Alain Placido SE | Supervising Civil Engineer
Scope of Services Provided: Combination Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma, Karin Kuffel, Jim Johnson

TRB provided Life Safety, Disabled Access, Structural, MEP, Energy, and Green Building code compliance services Code Compliance Plan for a 26-Story Type 1 podium tower with 270 market rate apartment units and accompanying 8-story mid-rise 90 unit affordable apartment building. Both buildings sit on a concrete podium. The podium includes 1 level above and 2 levels below grade, containing parking at all levels and community and retail functions at grade. Occupancy Groups: A, B, F-1, R-2, S-1, S-2.; Type of Construction: I-A; Number of Stories: 26 Building 1, 8 stories Building 2.

UC Davis Health – Aggie Square Mixed-Use Project | Agency: UC Davis Health

Valuation: $1.3 billion
Completion Date: In Progress
Project address/location: Sacramento, CA
Project contact person: UC Davis Health; Paul Menard RA, Building Official, (916) 734-7416
Scope of work: Fire Life Safety, Disabled Access, MEP Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Paul Armstrong, Dominic Ma, Jim Johnson, Jeff Brooks, Jim Begley

TRB was selected to provide Building and Fire Plan Review Services for the Aggie Square Project expansion of the UC Davis Medical Center from 3.5 to 6.2 million sf. The project consists of three high-rise towers and a separate mixed-use building (1.2 million s.f. portion). This multi-phase project includes research, laboratory, housing, and commercial components.

Sacramento Convention Center Expansion & Renovation | Agency: City of Sacramento, CA

Valuation: $240 million
Completion Date: 2021
Project address/location: Sacramento, CA
Project contact person: City of Sacramento; Daniel Valencia PE, Sr. Engineer (916) 808-7877
Scope of work: Combination Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma, Karin Kuffel, Jim Johnson, Jim Begley

TRB was selected to provide combination Plan Review for the large-scale and high-profile expansion (245,000 s.f.) and renovation (200,000 s.f.) of the Town's convention center facility. TRB reviewed the project for adherence to adopted building standards codes in Life Safety, Structural, MEP, Accessibility disciplines. TRB's scope of work included regularly scheduled telecommunication meetings to ensure schedule alignment. In addition, our firm was engaged in the evaluation of Alternate Materials and Methods requests to address several performance-based design elements on the project. Our review included assessment of a fire modeling study presented as part of the performance-based design consideration.

Monterey Bay Aquarium Learning Center | Agency: City of Monterey, CA

Valuation: $42 million
Completion date: 2019
Project address/location: Monterey, CA
Project contact person: City of Monterey; John Keuhl, Building Official(ret); Ph: (831) 646-5642
Scope of work: Combination Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dominic Ma.

TRB was selected by the City of Monterey to provide complete plan review for this 25,000 s.f. 4 story concrete (Construction type 1B) learning center.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Plan Review Experience

The following is a partial list of plan review projects worked on by our staff members. The project valuation for all below-referenced projects ranges from $1 million to over $1 billion.

Mixed Use

- Mixed-use Residential/Retail/Parking Garage (230,000 s.f.), Los Altos, CA
- New 39-Story High Rise Building, $110 million, 916 Broadway, Oakland, CA

- Mixed-use Residential/Office, 630 I Street, Sacramento, CA
- Inglewood NFL Stadium, $1 billion, Inglewood, CA
- Agora Mixed Use Building, 1500 Newell Avenue, Walnut Creek, CA
- Anaheim Regional Transportation Center, Anaheim, CA

Government / Civic

- Packard Foundation Project, Los Altos, CA
- Veteran's Administration, Menlo Park Campus
- Sacramento Convention Center Expansion, $240 million, Sacramento, CA
- Anaheim Convention Center Expansion, Anaheim, CA
- Fire Station Remodel & Addition (12,000 s.f.), County of Marin, CA
- Performing Arts Center, County of Marin, CA
- Sonoma Academy School (99,000 sf), Santa Rosa, CA

Residential / Residential Care Facilities

- The Terraces Phase II (Res. Care Facility), Los Altos, CA
- Atria Senior Living (Residential Care Facility), Walnut Creek, CA
- Campus Crest Apartment Complex (240,000 s.f.), Sacramento, CA
- Brio Apartments, Walnut Creek, CA
- Arroyo Apartments, Walnut Creek, CA
- Valley Vista Senior Housing Complex (Res. Care Facility), San Ramon, CA

Biotechnology / Healthcare

- UC Davis Health System, Aggie Square Project, $1.3 billion, Sacramento, CA
- Kaiser Medical Office Building 2, $100 million, Redwood City, CA
- UC Davis Heath System, Midtown Clinic (100,000 s.f., I2.1 & B occs), Sacramento, CA
- Varian Inc. New Medical Research Facility (44,000 s.f.), Walnut Creek, CA
- Marin Health Campus - Buildings A-E, County of Marin, CA
- Children's Hospital TI, $37 million, Walnut Creek, CA

Commercial

- Macys Major Renovation & Addition, Walnut Creek, CA
- Major Office Remodel (Three 40,000 s.f. buildings), Pleasant Hill, CA
- Organic Material Composting Facility, $120 million, San Leandro, CA
- Santa Clara Bay Aquarium Learning Center, $42 million, Santa Clara, CA
- New Charles Schwab Building, 1231 S. California Blvd, Walnut Creek, CA
- New 6 Story Tech Campus Building, San Leandro, CA

Industrial and Power Plant Cogeneration Facilities

- Lodi Energy Center Project (300 MW), Lodi, CA
- Russell City Energy Center Project (560 MW), Hayward, CA
- Almond 2 Power Plant (300 MW), Ceres, CA
- Walnut Creek Energy Park (500 MW), Industry, CA
- SPG Solar Depot Park, Photovoltaic Array (2.1 MW), Sacramento, CA
- Shiloh Wind Farm (150 MW, 100 Turbines), Solano County

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Inspection / Code Enforcement / Building Department Administration Experience

The following is a partial list of Inspection and Administrative assignments worked on by our staff members:

- **Building Official:**
  County of San Mateo, City of Concord, City of Oakley, California Energy Commission, City of Coronado, City of Signal Hill, City of Whittier, City of El Cerrito
- **Inspection:**
  City of Los Altos, City of Palo Alto, City of Sacramento, City of Vacaville, City of Richmond, City of Concord, County of Butte, City of Fairfield, City of San Ramon, City of Dixon, Town of Danville, City of El Cerrito, City of Oakley, County of San Mateo
- **Code Enforcement and Multifamily Inspection:**
  City of Petaluma, County of Solano, City of Concord, City of Antioch, City of Benicia
- **Permit Technician:**
  City of Los Altos, City of Santa Clara, City of Sacramento, County of San Mateo, City of Redwood City, City of Vallejo, City of Concord, City of Palo Alto
- **Delegate CBO Services: California Energy Commission:**
  Lodi Energy Center Project, Lodi, CA, Almond 2 Power Plant, Ceres, CA, Russell City Energy Center Project, Hayward, CA

Civil Engineering / Grading / MWELO Plan Review & Inspection Support Experience

TRB's experience providing Civil Engineering Plan Review and Inspection includes the following agencies:

- **City of Benicia**
- City of Santa Clara
- City of Burbank
- County of San Mateo
- City of Oakland
- City of Los Altos

Representative Client List

TRB staff members have extensive experience working with public agencies in California. The following is a partial list of Northern California local and State agencies served by our staff members.

LOCAL AGENCIES – NORTHERN CALIFORNIA

PROFESSIONAL SERVICES MASTER AGREEMENT (BUILDING SAFETY - PROFESSIONAL SERVICES)

BETWEEN

CITY OF BENICIA AND

True North Compliance Services, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and True North Compliance Services, Inc., a California Corporation located at 3355 E Spring Street, #302, Long Beach, California 90806, licensed to do business in California, ("CONTRACTOR") relating to True North: Building Safety Professional Services - Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Building Plan Review

B. Certified Access Specialist Professional (CASp) Review

C. California Water Efficiency Landscape Ordinance (WELO) Review

D. Certified Floodplain Manager (CFM) Review

E. Building Official Support Services

F. Rapid Response Services

G. Specialty Services

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

[http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR

shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this

Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Isam Hasenin

President/CEO

isam@tncservices.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between True North Compliance Services, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Section I- Cover Letter

April 9, 2025
City of Benicia, Department of Community Development
Stacy Hofacre, Permit Services Analyst
250 E L Street
Benicia, CA 94510

Dear Ms. Hofacre,

True North Compliance Services Inc. is pleased to present our proposal for On-Call Building Safety – Professional Services. Our philosophy and guiding principles are centered around the commitment to providing public agencies with the highest quality of professional consulting services in a timely and cost-effective manner. We take pride in our ability to provide exemplary services and deep technical expertise to our clients.

True North Compliance Services, Inc. was founded and incorporated in California in 2020. True North Compliance is a full-service comprehensive provider of Building, Fire, Planning and Engineering Services including plan review, building inspection, permit technician, building department administration, code enforcement, planning and fire services and other related services.

Isam Hasenin is President and CEO of True North and the main contact for the firm. He is authorized to represent, sign and bind True North Compliance Services, Inc. in a contractual agreement with the City of Benicia. His email address is Isam@TNCServices.com, phone number 858-260-0495.

The founder and president of True North Compliance Services, Inc., Isam Hasenin, has developed an impeccable reputation, over his 30-year career, as a forward-thinking customer services-centric public agency administrator, licensed Civil Engineer and technical manager providing high quality responsive service to public agencies and their citizens.

Our team of over 70 highly qualified, licensed/certified plan review engineers, plans examiners, inspectors and permit technicians with many years of experience are ready to serve the needs of the City of Benicia including 7 SE's, 15 PE's in Civil, Mechanical, Electrical and Fire Protection disciplines in addition to experienced and certified plans examiners, inspectors and permit technicians.

We understand the City's needs for Building and Safety services to augment its staff due to the high level of permit activities and the need to provide high quality, responsive and timely service. Our depth and breadth of resources will allow us to meet the demands and requests of the City in a timely and effective manner. We are able to quickly respond to requests to review building plans and perform inspection services on an as-needed basis. We can respond to fluctuations in workload, as well as requests for expedited project reviews. Our project manager will keep an open line of communication with Building & Safety managers and respond to requests within 24 hours of requests.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Our commitment to the City of Benicia is to provide the highest quality Building and Safety services to you and your clients. More specifically, we commit to the following:

1. Unparalleled Building & Safety expertise of team members, and highest quality of plan review and inspection services.
2. Our Director of Operations will serve as the single point of contact for all communication with the City.
3. We will provide the necessary plan review staffing levels to meet the volume of work and level of permit activities.
4. Open line of communications with City staff and managers and permit applicants.
5. Implementation of a rigorous quality assurance program for all services we provide to the City.
6. Availability to work directly with designer and developers to provide high quality responsive plan review services and address plan check comments.
7. Create a balance of consistency, conformance, and efficiency in all plan reviews.
8. Daily pick up of plans at City offices (for paper plans).
9. Professionally prepared comment lists with clear reference to applicable code sections.
10. Commitment to reviewing plans within the agreed upon turn-around times.
11. Ability to provide expedited plan review services upon request.
12. Availability to meet in-person at City Hall with applicants and design teams during pre-application and discretionary phase to provide high level code review.
13. Ability to provide technical support to the Building Official and staff such as training, code adoption, developing technical policies, procedures and review/recommendations for Alternate Materials and Methods Requests (AMMR).
14. Our President, Isam Hasenin will set up regular meetings with the Director and Building Official to discuss process, procedures, technical issues and receive feedback on performance of True North staff.
15. Providing services exclusively to municipal clients, thus avoiding any real or perceived conflict of interest.

I am confident True North Compliance Services, Inc. will meet and exceed the City's expectations and provide unparalleled high-quality and timely services to the City.

We look forward to working with you and your team and building a long and successful relationship with the City of Benicia.

Sincerely,

Isam Hasenin, MSCE, P.E., CBO, President

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Section II- Qualifications/Service

We are excited to present our qualifications to the City of Benicia and look forward to building a successful long-term relationship with the City and provide the highest level of professional consulting services to the City of Benicia.

True North Compliance Services, Inc. is a full-service comprehensive provider of Building, Fire, Engineering and other related services. With four offices in California to serve the City and a staff of over 70 professionals, we are confident we have the depth and breadth of resources to meet the needs of the City of Benicia.

True North Compliance Services' philosophy, guiding principles and commitment to the City of Benicia are centered on creating a long-term successful partnership with the City and providing the highest quality of service that is timely and responsive to client needs. ***Our motto is personal attentive service and excellence in the delivery of municipal services***. We take the time to listen to our client's needs and challenges and then come up with creative cost-effective solutions. We keep an open and on-going line of communications with City staff and managers as well as the public and clients. We fully understand and appreciate the fact that time is money for construction projects and every day of delay means added costs of construction and potential loss of tax revenues for the City. We will partner with the Building Official and city staff to achieve creative solutions to challenging development/construction problems that are safe yet reasonable and practical.

Isam's experience as an active participant in the code development & administration process both on the state and national levels, serving on many technical committees and boards and serving as the Vice Chair of the California Building Standards Commission for 8 years gives him a unique perspective and intimate knowledge of the intent behind any Code provision, thus allowing him to come up with alternative solutions and methods of compliance for unique complex code compliance challenges that don't fit squarely in the prescriptive provisions of the Code. We pride ourselves on the fact that we can create win-win solutions for code compliance challenges and streamlining of the review and inspection process to expedite the occupancy of facilities.

Scope of Services

We offer the full range of development review & inspection services including Building & Safety services ranging from plan review to inspection and permit technician services and other related services. We have the depth and breadth of resources to perform any and all of the following services:

a. **Building Plan Review Services:** True North Compliance will provide plan review in compliance with the City of Benicia's Municipal Code, all applicable federal and state laws and regulations and the City's Building Safety Division plan review standards and policies. Our plan review covers the following:
    i. California Building Code
    ii. California Residential Code

iii. Structural Engineering Plan Review will be performed by licensed or graduate Civil or Structural Engineers
iv. Title 24 Energy
v. California Mechanical Code
vi. California Plumbing Code
vii. California Electrical Code
viii. Disabled Access- CASp plan review and/or site surveys, inspections and reports.
ix. Green Building and Energy Conservation
x. OSHPD-3 reviews and certification
xi. California Fire Code
xii. California Title 25
xiii. Preliminary review of discretionary applications (Conditional-Use Permits and conditions of Approval) for significant code compliance issues that may impact the overall design and planning approval of the project.
xiv. Review of Floodplain provisions where required.
xv. Review of soils conditions and other geotechnical hazards such as fault zones, liquefactions, etc.
xvi. Civil Engineering (grading, drainage, National Pollutant Discharge Elimination System (NPDES), MWELO, and Low Impact Development (Hydromodification); Sustainable Use Standard Mitigation Program (SUSMP), permit requirements related to the Management Stormwater System (MS4 permit).
xvii. Review/recommendations for Alternate Materials and Methods Requests (AMMR).
xviii. Code adoption, Local Amendments and Ordinances.

b. **Inspection Services:** True North Compliance has the capabilities to provide inspection and reinspection for compliance with all applicable codes, standards and regulations including: California Building Code; California Residential Code; California Plumbing Code; California Mechanical Code; California Electrical Code; California Fire Code; California Energy Code; California Green Building Standards Code; California Disabled Access Regulations; California Title 25, Mobile Home Parks, as locally adopted and amended. Our inspection staff is certified by the International Code Council or other appropriate entities in accordance with AB717 and possess many years of building code inspection experience with a municipality or a private municipal consultant. Our inspectors have extensive construction and trade experience in addition to their Code knowledge, allowing for a practical approach to applying Code provisions during the inspection process.

c. **Building Official Services:** When requested, True North Compliance will provide a qualified certified and experienced Building Official. The individual will report to the Community Development Director and provide supervision and direction to the Building & Safety Division staff, code administration and interpretations, develop policies and ordinances, interface with customers, City staff and elected officials, and perform related administrative functions as assigned.

d. **Counter & Administrative Services:** True North Compliance has the capabilities to provide counter and administrative services as needed by the City. Our staff will provide technical

support and application of City policies, methods and practices to support professional engineering, plan review, planning, and building and safety staff. Our Counter Technician has knowledge of construction terms and operations, development and building codes required to process plans and permits along with government functions and processes. Review permit application for completeness, perform fee calculations, route plans, verify approvals and conditions and issue permits. Use the City's permitting system to file permit applications, calculate fees, research zoning and planning requirements, enter approvals and route plans to appropriate divisions and departments. Maintain communications with applicants, interested parties, property owners, homeowner associations, various governmental agencies, and other City departments. Respond to inquiries about projects from residents and applicants.

e. **Code Enforcement Services:** True North Compliance has the capabilities to provide Code Enforcement and Housing services and assist the City of Benicia in the enforcement of applicable Zoning codes, Building codes, Housing codes, public nuisance codes and State health & safety codes. Our Code Enforcement Officers have extensive experience and capabilities in the following areas: Code enforcement program review and analysis; Code enforcement inspections; Preparing administrative remedies including administrative citations; Conducting administrative hearings; Preparing program documentation and staff reports as well as committee or Council presentations; Testifying on behalf of clients in criminal court; License and permit application review and processing; Coordination of activities with multiple departments including Building, Planning, Community Development, Police and City Attorney; Providing information on municipal regulations to property owners, residents, businesses, the general public, as well as to other departments and divisions.

f. **Fire Plan Review & Inspection Services:** True North Compliance has the capabilities to provide plan review and/or inspection for the State regulated occupancies such as private schools and clinics (OSHPD 3), to determine compliance with City and State codes and regulations including but not limited to locally adopted fire related ordinances and amendments of the local Municipal Code; California Fire Code; California Building Code; California Residential Code; California Title 19, California Wild Land Urban Interface regulations, review for fire apparatus access, water supply requirements, fire flow requirements, etc. Typically, fire review will include review of building plans for code compliance, as well as review of fire plans (fire sprinkler systems, fire alarm systems, NFPA standards, etc.)

g. **City Engineering Services:** True North Compliance has the capabilities to provide plan review and inspection of Civil/public improvements projects from one small lot to large subdivisions. Our experts bring an extensive history of review of a broad range of projects in all engineering/civil disciplines such as review of grading, subdivision and topographic maps; examining existing and proposed contour lines, spot elevations, pad and finish floor elevations; review of hydrology reports and maps; review of low impact development measures to comply with the requirements of NPDES; review of erosion and sediment control plans for proposed BMPs. Our licensed land surveyors have extensive experience in reviewing tentative and final maps, lot line mergers, lot line adjustments, certificate of compliance, dedications, vacations, and easements. Our map reviewers have the expertise to review applications, maps, legal

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

descriptions, deeds, and related documents as well as provide redline documents and corrections. We can also write conditions of approval to be imposed on tentative maps.

h. **Planning Services:** True North Compliance has the capabilities to provide Planning, Zoning and Environmental services. Our staff serve as an extension of City staff and function as the project manager on assigned planning projects while protecting the interests of the City and its residents throughout the life of each assigned development project. This could include managing projects from the planning entitlement phase through construction; Perform technical review and evaluation of a wide variety of land development, subdivision, building permit and use permit applications; Process development applications in accordance with local policies and ordinances, make recommendations, and enforce mitigation monitoring and compliance with City ordinances; Prepare written project analyses and reports including identifying appropriate land use policy, design, fiscal issues and environmental requirements; Conduct site inspections to determine if projects are in compliance with laws, regulations, conditions of approval, ordinances, and make recommendations regarding changes; Prepare and update various planning documents such as the City's General Plan, Specific Plans, ordinances, resolutions, codes, and related planning studies and reports; Provide technical advice and make clear, well organized presentations.

i. **Special Projects-** Our management team and staff can participate in a variety of special projects, as needed. These projects may include, but not limited to, analysis of processes and procedures; Business process re-engineering, fee studies; Review and recommendations of permitting software; Preparation of engineered plan details; Conducting training on a variety of code-related topics; Interim or permanent Building Official duties; Preparation of documents/handouts; Public presentation to community groups, City Committees or Council.

j. **Rapid Response Services-** True North Compliance can provide emergency response services as directed by the City. Working with local governments to fast-track permits for critical projects, ensuring that necessary development can occur without delays. Rapid response includes planning and coordination in the aftermath of natural disasters or crises, focusing on rebuilding communities with resilience. Key tasks may include expedited review and processing of construction permits. Our team can be available within 24 to 48 hours to begin rebuilding related work.

k. **Model Water Efficiency Landscape Ordinance (MWELO) Reviews-** True North Compliance has the capabilities to perform plan reviews with experienced, knowledgeable, and technically qualified staff in conformance with all MWELO requirements including the MWELO Plan Check Standards.

l. **Certified Floodplain Manager (CFM)-** True North Compliance can provide qualified staff with Association State Floodplain certification (Certified Floodplain Manager). CFM shall have experience promoting the wise use of floodplains in order to minimize flood risks, reduce losses from floods, protect public health and safety, and improve the quality of life for the community.

Customer Service Commitment

Our singular focus on our motto "***personal attentive service and excellence in the delivery of our services"*** allowed us to become the go-to provider for most of our clients. The common denominator for our success serving our clients is the absolute focus on delivering high quality, responsive and timely services. We will partner with city staff, applicants and designers to come up with practical common-sense solutions to difficult code compliance challenges. Our team is available to handle questions and issues raised by City staff and/or the applicants throughout the day. Our managers are available around the clock to handle whatever needs our clients might have. We keep an open line of communications with staff and applicants to streamline and expedite the review and approval of projects being reviewed. Our customer service commitment includes the following elements:

1. Application of the code in a reasonable practical yet safe manner, and understanding and applying the spirit and intent of the code whenever needed.
2. Our plan review philosophy is to perform a thorough and accurate plan review during the first submittal in order to avoid new comments and delays during subsequent review cycles and frustrating the applicants and designers.
3. Open lines of communication with the Building Official and other city managers and staff to ensure efficient and high level of customer service.
4. When an applicant disputes plan check comments, our plan check staff is trained and instructed to quickly elevate the issues to our QC manager to work toward quick and effective resolution of the issues.
5. Implementation of our "Express Recheck By Appointment" system to enhance customer service and expedite approval of projects.
6. Office hours: our staff is available Monday through Friday from 8:00 am- 5:00 pm to respond to phone calls and email inquiries.
7. We respond to phone calls and emails no later than the next business day and in most cases on the same business day.
8. Our plan check staff is available, during regular business hours, to discuss and clarify plan check issues with applicants, designers, owners and consultants. Resolution of code issues may be performed by telephone, or meetings, prior to resubmitting corrected plans and documents.

Section III- Organization and Team Members

Principal/Project Leader

For this contract, Isam Hasenin, P.E., C.B.O., will serve as Principal/Team Lead and will serve as the main point of contact of True North Compliance Services, Inc. staff and the City of Benicia. Isam will ensure that services are delivered in accordance with the Scope of Services established by the City and the Consultant Services Agreement.

Isam will maintain an open line of communication with City of Benicia Building Official and other managers as well as project applicants and design teams. He will provide oversight and management of all True North's staff assigned to City projects.

Isam will be available for meetings at the City office. He will be available to discuss complex code compliance/interpretation questions or process/procedural issues with the Building Official and design team members as the needs arise. He will provide technical or administrative training and participate in any special assignments or meetings at City managers' direction.

Isam has 30 years of experience in code enforcement and building department administration and technical review and inspections. Mr. Hasenin has the perfect mix of public sector experience and private sector experience managing both small and large operations. He has deep understanding and appreciation for the challenges and demands of local municipalities in meeting the needs and expectations of their citizens and applicants for building permits.

Project Manager/Director of Operations

Amar Hasenin, Director of Operations for True North will serve as the day-to-day operational and technical manager for the City of Benicia projects. He will assign and monitor the workload of staff, quality of reviews and timeliness of the review process. He will be available to discuss code compliance/interpretation questions or process/procedural issues with the Building Official and his staff as the needs arise. He will provide technical and administrative training and participate in any special assignments or meetings at City managers' direction. Amar has over 10 years of experience as a design engineer, plan check engineer, and regional manager in Southern California. He served as the Bay Area Regional Manager for a third-party building department services provider prior to joining True North. He is a highly competent plan review engineer and technical expert in the application of the California Codes and a certified Plans Examiner and Inspector by ICC.

Amar is an effective manager of building operations and managing the needs of our public agency partners and delivering high quality, responsive and timely service.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Lead Structural Plan Check Engineer

Gary Ho, SE, will serve as the Lead Structural Plan Check Engineer. He is an experienced, licensed structural engineer. He is currently the Senior Structural Plan Review Engineer for True North Compliance. Gary has a master's degree in structural engineering and many years of experience designing and reviewing the entire range of buildings and unique structures such as high rise, mixed-use, concrete parking structures, complex public buildings, heavy industrial, refineries, nuclear power plants, etc. He will work closely with City staff to ensure high quality and timely reviews and answer questions and handle complex issues.

Lead Building Plan Check Engineer/CASp Plan Reviewer

Bachar Koujah, PE, CASp will serve as the Lead Building Plan Review Engineer. He is an experienced, licensed Civil Engineer. Bachar has over 20 years of experience as a plan check engineer for multiple jurisdictions where he reviewed the entire range of projects from residential remodels to complex new homes, tenant improvements and new commercial, office and multi-family projects. Bachar is a multi-discipline reviewer and can review building, MEP and grading disciplines. He provides high quality reviews and excellent customer service and is always ready to offer solutions and ideas on how to comply with code provisions.

Lead Geotechnical Engineer

Lauren Doyle will serve as the Lead Geotechnical Plan Review Engineer. Lauren is an experienced licensed Geotechnical Engineer in California with extensive experience in Southern CA. We collaborated with Lauren for the review of many complex hillside developments in the City of Malibu.

Project Team

Our team is comprised of over 70 highly qualified and experienced Plan Check Engineers, Plans Examiners, Building Inspectors and Permit Technicians able to handle reviews, inspections and permit processing for all aspects of the Building Services. Our team members have many years of experience working for public agencies in California. Our staff is licensed and/or certified in all disciplines including Licensed Structural Engineers, Licensed Civil, MEP Engineers, ICC Certified Building Plan Reviewers, Licensed Fire Protection Engineers, Certified HazMat Specialists, ICC Certified Plans Examiners, ICC Certified Fire Plan Reviewers, ICC Certified Building Officials and ICC Certified Permit Technicians. Our team is capable of reviewing and inspecting the entire spectrum of projects submitted to the City from single-family homes to highly complex high-rise hotels and large office buildings, mixed-use projects, R&D lab facilities, biotech buildings, data centers, distribution centers, large scale solar farms, complex tenant improvements and public buildings. Below is a table of key staff who will be assigned to work on City of Benicia projects. Resumes of key staff are included in the Appendix.

Section IV- Methodology & Work Approach

Our established internal procedures and policies will ensure that we provide the City of Benicia the highest quality, accurate, timely, and responsive service. Our goal is to provide consistent and uniform service, eliminate errors and confusion and ensure compliance with the City's standards, policies, interpretations, and procedures. To that end, we have the following established procedures for each of the services we offer:

Plan Review Procedures

The following approach and procedures will apply to Plan Review Services. It may be adjusted to better accommodate the specific needs of the City of Benicia:

1. All document/plan reviews shall be based on the City of Benicia Municipal Code, applicable federal and state laws and regulations, Title 24 California Code of Regulations, and the City's Building & Safety Division plan review standards and policies. Plan review shall cover structural, fire and life safety, architectural, accessibility, OSHPD-3, energy conservation, green building, grading, plumbing, mechanical and electrical installations.
2. Our Plan check staff has extensive experience and background in the review of Flood Plain provisions including latest FEMA Guidlelines. We currently perform flood plain review in many cities such as Burlingame, Del Mar, Malibu, Redwood City and Imperial Beach.
3. We will pick up plans at the City of Benicia Permit Center within 24 hours of notification or upload immediately into our cloud-based database for electronic submittals.
4. Review all plan check applications for accuracy and make all necessary revisions to such items as description, square footage, type of construction, occupancy and uses.
5. Format plan review comment lists to compliment the style and requirements of the City of Benicia.
6. Prepare a standard template specific to the City of Benicia to identify specific requirements and items of interest and focus to the City Building & Safety Division.
7. Our plan review philosophy is to perform a thorough and complete review during the first submittal of plans in order to avoid new comments on any subsequent submittals.
8. Open lines of communication with the Building Official and other City managers and staff to ensure accuracy in enforcing City policies, procedures and regulations.
9. Conduct plan reviews within the agreed upon turn-around times established by the City of Benicia.
10. Our team is available to review projects on an expedited basis within the designated turn-around times.
11. Review deferred submittals and revisions within assigned due dates.
12. Email plan check comments to designated Building staff and provide pertinent building/project data and information required on permit application. Building/project data

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

such as description of work, type of construction, uses, occupancy classification, floor area, number of stories, etc. will be provided on the transmittal letter.

13. Supply hard copy or electronic plan review comment, approval letters, and project invoices as required by the City of Benicia.
14. When final review is approved, we will deliver two final sets of approved plans with approval stamps and signatures to the City within 24 (twenty-four) hours of final review and approval.
15. Be available, during regular business hours, to discuss and clarify plan check issues with applicants, designers, owners and consultants. Resolution of code issues may be performed by telephone, or meetings, prior to resubmitting corrected plans and documents.
16. Any plan check issues not resolved between the reviewer and the architect/engineer of record after the second review cycle will be quickly elevated to our QC Manager who will in turn discuss with the Building Official and come up with resolution to the outstanding issues.
17. Communicate and/or meet with the applicant, architect, engineer, other City departments or agencies, as necessary to assist with plan review responses.
18. Participate in pre-submittal meetings during preliminary design or working drawing stages to provide high level code review and discussion to ensure a smooth and timely plan review process.
19. Our President, Isam Hasenin will be available to provide technical support and advice to the Building Official, and city staff and managers related to code application and review of Requests for Alternate materials and Methods, administrative aspects of the department, permit fee analysis, preparing local amendments and ordinances and similar services.
20. We will utilize the City's Permit Tracking System to enter and monitor plan-checking information into the portal.
21. We have a fully automated web-based project tracking system to enter and track all projects assigned by the City. City staff and managers can access the system anytime to check the backlog, status and due dates of any project. They can also review copies of comment lists prepared by our staff. If the City agrees, we can provide access to applicants so they can check status of their projects online without having to call the City or come to the Building & Safety counter.

Electronic Plan Review

True North Compliance Services is able to receive, process, plan review, markup and approval stamp plans electronically and return the electronic plans back to the City. In fact, over 75% of our reviews currently are performed electronically using the Bluebeam platform. More specifically:

1. We will adhere to the City's Electronic Plan Review guidelines and policies.
2. We are able to work and input plan review corrections in the OpenGov permitting software during the plan review process.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

3. Our staff will use Blue Beam to perform the review or other City-required platform.
4. We will provide redline mark ups on the plans with Blue Beam. Then transferring a marked-up image of the plans onto the plan review comments. This process will simplify the comments for the applicant resulting in less plan review iterations.
5. When the plan check and recheck processes are complete and the plans and corresponding documentation are deemed in full code compliance, we will sign and stamp the electronic plan set and corresponding documents.
6. Our entire team is equipped with latest technology (highspeed computers, multiple large monitors, latest version of Blue Beam, access to cloud storage, etc.) to easily perform plan reviews electronically.

Plan Check Turn-Around Times

We commit to meeting the City's turn-around times on all projects reviewed by our team. Our web-based project tracking system allows both our reviewers and permit technicians to stay on top of project due dates. Expedited plan reviews will be completed in half the time frames listed below.

Below are our standard review times.

PLAN CHECK TYPE	1ST REVIEW (working days)	RE-CHECKS* (working days)
Small Projects (residential alteration and repair projects.	10	10
Large Projects (new single-family homes and all commercial projects)	15	10

"Express Rechecks By Appointment"

We are pleased and excited to offer the City of Benicia our new and innovative solution to expedite and streamline the recheck process. The program, "Express Recheck By Appointment" is a revolutionary approach to expedite the recheck process, minimize the number of review cycles, reduce frustrations and miscommunications between applicants and plan checkers and reduce the workload of City staff in intaking, routing and tracking of the many cycles of plan check and rechecks on submitted projects. The program will be offered at no additional cost to the applicant or City. The service applies to the vast majority of projects reviewed by our staff. Once the applicant is ready for the recheck, he/she will contact True North Office to schedule the "Express Recheck By Appointment". The appointment will be scheduled within 48 hours of the request. Our plan reviewer will perform the recheck over video-conferencing meeting and sign off items completed.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Quality Control Program

True North Compliance's core values in delivering municipal services are: Ethics, Transparency, Collaboration, Empathy, Customer-Centric service, Communications, and Fiscal Prudence. High quality service, professionalism and excellence in the delivery of municipal services are at the core of what True North Compliance stands for. We share the City's commitment to delivering responsive and timely service without compromising the quality of the service. To that end, we developed and implemented a rigorous internal quality control and assurance program for all of our services. Here are the major components of our quality control program:

Plan Review and Counter Services

Our established internal intake, plan review, quality control and customer contact procedures ensure that submittals are properly coordinated, tracked and managed. Our plan tracking procedures are designed to track each submittal throughout the review process and maintain accurate and comprehensive records for each submittal. To accomplish this goal, we follow this procedure:

1. We monitor our staff's performance and interaction with customers at the counter by having customer surveys available for the applicants to complete. We will also randomly call applicants who received our service to check on their satisfaction with the services received from our staff. We will monitor phone calls and produce period reports of customer satisfaction. We will train and provide feedback to our staff related to their customer service skills.
2. Once we receive a project for review from the City, our document control staff screens and logs the project into our internal project tracking system with all appropriate information such as description, scope, review disciplines, Building Department staff, design team contact person and due dates.
3. Our QC Manager will perform an initial cursory review of the project to determine if there are any major code compliance issues that may require immediate discussion with the Building & Safety Division staff and/or design team, then depending on the complexity of the project, assigns to appropriate True North plan review engineers/plans examiners.
4. Plans are assigned to engineers or plans examiners for each of the required disciplines with notes from the QC manager
5. Once the plan review is complete, True North QC Manager will perform quality control of the project by reviewing the project and comments prepared by the assigned plan review engineer/plans examiner.
6. Following the QC phase, final comments will be generated and sent to the Building & Safety Division staff and designated design team member.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Transition and Implementation Plan

Our managers and staff are highly experienced in transitioning services from other consultants. We have successfully and effectively transitioned services from other consultants for our current clients such as City of the Del Mar, Carlsbad, Dana Point, Malibu, Redwood City, San Bruno and others. We are prepared to immediately engage with the City of Benicia's Building Official and other City staff to initiate the transition process. Elements of our implementation plan would include the following steps:

1. Our President and Director of Operations will hold an initial implementation meeting with the Chief Building Official and his staff as soon as the contract is signed to gain an insight on current key issues, challenges and needs of the Building & Safety Division.

2. Tour the City's Building Services operation and meet and greet with manager/staff of City departments that are involved in the development review and permitting process.

3. Meet with Planning Division managers to review current applications for discretionary review to gain insight of upcoming construction projects and key project conditions.

4. We would collect all policies and procedures of the Building & Safety Division's plan review and inspection process.

5. We would provide internal training to our staff on City of Benicia process, technical policies and other applicable local ordinances and regulations.

6. We will establish internal policy manual for City of Benicia plan review and inspection process to ensure our staff follows established procedures and local ordinances and regulations.

7. Set up the process and procedures for plan pick-up, delivery and return of plans.

8. Train our staff on the City's permitting software system (OpenGov).

9. We would develop standardized plan review checklists specific for the City of Benicia.

10. Process and deliver projects during the last week of transition to test the system and tweak as necessary.

11. Our President, Isam Hasenin will set up regular meetings with the Chief Building Official and other City managers to discuss process, procedures, technical issues and receive feedback on the performance of True North staff.

Section V- Fee Proposal

True North Compliance Services is pleased to propose the following competitive fees for the services listed. Additional services not listed below may be negotiated.

Our pricing reflects our commitment to delivering the highest quality responsive and timely service to the City of Benicia. These include:

- Reduced plan review turnaround times.
- Ability to expedite plan review at the request of the City Building Official.
- Implementation of established electronic plan review processes.
- Highly qualified staff compensated commensurate with their duties and responsibilities.

PLAN REVIEW SERVICES

True North proposes to charge plan reviews shown in the following table. Our fee includes shipping and delivery of plans to/from City Hall.

Expedited Plan Check services will be charged at 150% of the proposed fees.
Revisions/Deferred Submittals/RFIs will be billed using the hourly rate table below.

Type of Plan Review	Rate
Initial Submittal Plan Review (includes up to two reviews)	70% of the Building Plan Review Fees
Subsequent Reviews	70% of the Building Plan Review Hourly Rates per City's Master Fee Schedule
Field Revisions or Deferred Submittal Reviews	70% of the Building Plan Review Hourly Rates per City's Master Fee Schedule
Projects with Calculated Plan Reviews Fees in Excess of $10,000	Plan review fee will be negotiated with City staff
Model Water Efficiency Landscape Ordinance (MWELO) Review	70% of the MWELO Plan Review Fees
Certified Floodplain Manager Reviews: Simple Floodplain Verification	70% of the Floodplain Plan Review Fees
Certified Floodplain Manager Reviews: Complex Floodplain Verification Initial plan review will include up to two reviews	$117.00 per hour
Building Official Support	75% of the Administrative Fee

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Section VI- References & Recent Project History

Our client base showcases a diverse range of geography, sizes, and types of construction projects. We serve clients in coastal cities such as Del Mar, Malibu, Huntington Beach, and Dana Point, as well as in larger urban areas like San Jose and Los Angeles County, where we handle a variety of construction projects. Additionally, we cater to mid-sized cities known for their concentration of high-tech and biotech projects, alongside various infill multifamily developments, including Redwood City, Burlingame, Pasadena, and Carlsbad.

While our clients are spread throughout the state, we pride ourselves on maintaining a boutique approach. This is achieved by providing personalized, attentive service and ensuring we are responsive and accessible to both our clients and their customers. Our commitment to quality service is reflected in the strong reputation of our president and team members, which allows us to meet the high expectations of our public agency partners.

Recent Project History

Our team members have performed reviews and/or inspections of thousands of projects over their long careers including hundreds of projects of variety of sizes and occupancies during their tenure with True North Compliance Services. True North has been a trusted partner for our clients to review the most complex high profile or sensitive projects including highly complex custom homes in Malibu and Dana Point to a large, enclosed IC-Hockey Arena for Riverside County, 30-story high rise mixed-use building in San Jose, multiple 5 or 6 story over concrete podiums mixed-use buildings in Pasadena, La Habra, Dana Point and Redwood City. In addition, we just started the review of a large $2-Billion complex of life sciences buildings in Burlingame which will include multiple high-rise buildings, many hazardous occupancy labs and other uses. We also reviewed multiple hotels, educational buildings for universities and OSHPD-3 clinics. Below is a listing of a few recent projects our team reviewed. We can provide many more if requested by the City.

1. Coachella Valley Sports Arena - Riverside County, CA: The arena serves as a multi-use facility for sporting events, concerts, and various exhibition-type events. The arena consists of two assembly seating areas, a primary seating bowl and a practice ice arena. True North Compliance Services provided the Building, MEP, and Fire Protection plan review for the arena.

Occupancy: A-4, A-3, A-2, B, M and S-2
Type of Construction: I-B Fully Sprinklered
Floor Area: 560,000 square feet
Number of Stories: 4
Valuation: $250 Million

2. BO Town- San Jose: This project consists of a 30-story mixed-use building with office, retail, conference facilities, restaurants and parking. True North Compliance Services provided the Building, MEP, and Fire Protection plan review for project.

Occupancy: R-2, B, M, A-2, S-2
Type of Construction: I-A
Floor Area: 900,000 square feet

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Number of Stories: 30 stories
Valuation: $250M

3. Stanford Medical Office Building- Redwood City: The site consisted of a new 9-story outpatient clinic hospital services building, a 5-story parking structure and site development. True Noth Compliance Services provide the Building, MEP and fire protection plan review for the entire site.

Occupancy: I-2.1 (OSHPD-3), A-3, B, F-1
Type of Construction: I-A Fully Sprinklered
Floor Area: 276,383 square feet
Number of Stories: 9

4. The Wave Hotel- Dana Point: This project consists of 3 stories below grade, 3 stories above grade high end hotel with conference facilities, restaurants and retail. True North Compliance Services provided the Building, MEP, and Fire Protection plan review for project.

Occupancy: R-1, A-2, A-3, M, B
Type of Construction: I-A, V-A

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Floor Area: 114,872 square feet
Number of Stories: 3 stories below grade, 3 stories above grade
Valuation: $25M

5. Top Golf- Burlingame: This project consists of a new three-story golf entertainment venue with restaurants, meeting spaces and associated improvements.

Occupancy: A-2, A-3, M and B
Type of Construction: II-B Fully Sprinklered
Floor Area: 70,663 square feet
Number of Stories: 3
Valuation: $25.5 Million

6. 1200-1340 Bayshore Highway – Burlingame: This project consists of the redevelopment of a 12-acre site with three, 11-story office/life science buildings totaling 1.46 million square feet. The project includes two, 10-story parking structures each with two levels of below grade parking. True North Compliance Services provided the preliminary code review, and will be providing the Building, MEP, Fire, grading and MWELO plan review for this project.

Occupancy: B, A-3, L, S-1 and S-2
Type of Construction: I-A Fully Sprinklered

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Floor Area: 1.5 million square feet
Number of Stories: 2-11 stories
Valuation: Over $2 billion.

7.Green Mills Place – Pasadena: This project consists of a new 4-story mixed use building and renovation of an existing historic building on the same site in Old Town Pasadena. True North Compliance Services provided the Building, MEP, Fire, grading and MWELO plan review for this project.

Occupancy: R-2, A-3, M and S-2
Type of Construction: III-A Fully Sprinklered
Floor Area: 26,607 square feet
Number of Stories: 4
Valuation: $17 Million

8. Best Western Plus Hotel - Adelanto: True North Compliance Services provided the Building and MEP plan review for the new 4-story hotel and associated site development. The hotel consisted of 54,000 square feet, 90 guest rooms, meeting rooms, a gymnasium, swimming pool, bar and restaurant.

Occupancy: R-1, A-2, A-3 and B
Type of Co: III-B
Valuation: $5.6M

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

9. Impossible Foods – Redwood City, CA: This project consists of a 4-story tenant improvement for the Impossible Foods Research Facility. Scope of work included demo of existing walls, ceiling and MEP systems, creating new rooms, relocating of walls, ceilings, Electrical lighting and data systems, new AC/heating units, mechanical equipment, flooring, new bathrooms, etc. True North Compliance Services provided Building and MEP plan review for the project.

Occupancy: A-3, B and S-1
Type of Construction: II-A Fully Sprinklered
Floor Area: 150,622 square feet
Number of Stories: 4
Valuation: $12 Million

10. Divine Arts of Yoga Center – La Habra, CA: This project consists of a new religious institution and yoga center. The building contains classrooms, assembly halls, a dining hall and onsite living accommodation. True North Compliance Services provided the Building and MEP plan review for this project.

Occupancy: A-3, A-2 and R-3
Type of Construction: V-A Fully Sprinklered
Floor Area: 18,000 square feet
Number of Stories: 1, Valuation: $3,250,000

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

11. Wilson Avenue Warehouse Project – Perris, CA: This project consists of a new concrete tilt-up warehouse building. True North Compliance Services provided the Building and MEP plan review for this project.

Occupancy: S-1, F-1 and B
Type of Construction: III-B Fully Sprinklered
Floor Area: 153,735 square feet
Number of Stories: 1
Valuation: $4,509,212.

12. 1021 Anacapa Drive – University California, Santa Barbara: This project consisted of a three–story tenant improvement in an existing office/training building. Scope of work included demo of existing walls, ceiling and MEP systems, creating new rooms, relocating of walls, ceilings, Electrical lighting and data systems, new AC/heating units, mechanical equipment, flooring, new bathrooms, etc. True North Compliance Services provided Building and MEP plan review for the project.

Occupancy: A-3, B and S-2
Type of Construction: V-A Fully Sprinklered
Floor Area: 13,158 square feet
Number of Stories: 3
Valuation: $1.2 Million

13. Strand Beach, Dana Point: True North Compliance Services provided the Building plan review for the new custom home located at "The Strand" in Dana Point. The dwelling consisted of 6,015 square feet of living space above grade, a 2,455 square foot basement below grade basement and a 2,246 square foot subterranean garage that is accessed through a car lift.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

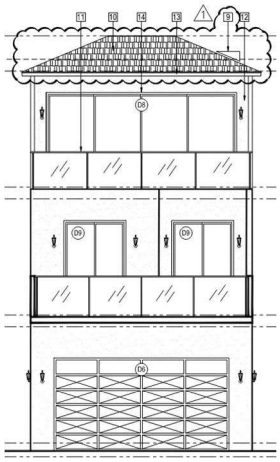
Valuation: 2.5 million

14. Alteryx- 500 Arguello Street, Redwood City. This project consisted of tenant improvements to an existing R& D facility. Scope of work included demo of existing walls, ceiling and MEP systems, relocating of walls, ceilings, Electrical lighting and data systems, new AC/heating units, mechanical equipment, flooring, new bathrooms, etc. True North Compliance Services provided Building and MEP plan review for the project.

Occupancy: A-3, B and S-2
Type of Construction: III-A Fully Sprinklered
Floor Area: 18,443 square feet
Number of Stories: 5
Valuation: $1.2 Million

15. 6th Street, Huntington Beach: True North Compliance Services provided the Building plan review for the new custom home in Huntington Beach. The dwelling consisted of 3-stories, a total of 3,100 square feet and an attached ADU.

Valuation: 1.1 million



Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

16. 1819 Aston Ave, Carlsbad, Ca- University California, Santa Barbara project: This project consisted of tenant improvement in an existing one-story building., The tenant space is used for mitigation monitoring purposes for ocean studies. Scope of work included demo of existing walls, ceiling and MEP systems, creating new rooms, relocating of walls, ceilings, Electrical lighting, new AC/heating units, mechanical equipment, flooring, new bathrooms, etc. True North Compliance Services provided Building and MEP plan review for the project.

Occupancy: B, S-1, F-1
Type of Construction: V-A Fully Sprinklered
Floor Area: 5,731 square feet
Number of Stories: 1
Valuation: $150,000

17. Moss Adams Pasadena TI, 225 South Lake Ave, # 900, Pasadena: This project consisted of large tenant improvements to an existing office space in a high-rise building. Scope of work included demo of existing walls, ceiling and MEP systems, relocating of walls, ceilings, Electrical lighting and data systems, new AC/heating units, mechanical equipment, flooring, new bathrooms, etc. True North Compliance Services provided Building and MEP plan review for the project.

Occupancy: B
Type of Construction: I-A Fully Sprinklered
Floor Area: 12,000 square feet
Number of Stories:16
Valuation: $620,000

18. Broad Center for Biological Sciences/David Van Valen Laboratory Renovation, 360 Wilson Ave, Building # 96, Pasadena: This project consisted of a renovation to an existing biological sciences laboratory in an existing R&D building. Scope of work included demo of existing walls, ceiling and MEP systems, relocating of walls, ceilings, Electrical lighting and data systems, new AC/heating units, mechanical equipment, flooring, new bathrooms, etc. True North Compliance Services provided Building and MEP plan review for the project.

Occupancy: B offices and research laboratories
Type of Construction: II-B Fully Sprinklered
Floor Area: 1,263 square feet
Number of Stories: 3 + Basement
Valuation: $145,000

19. California Institute of Technology- Professor Hsieh Laboratory Renovation, 1200 E. California Blvd, Building # 47, Pasadena: This project consisted of a renovation to an existing science laboratory in an existing R&D and classroom building. Scope of work included demo of existing walls, and MEP systems, relocating of walls, new AC/heating units, mechanical equipment, lab equipment, hazardous materials quantities determination, chemicals, fire alarms renovation, new bathrooms, etc. True North Compliance Services provided Building and MEP plan review for the project.

Occupancy: B, A-3, I-3, S

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Type of Construction: I-A Fully Sprinklered
Floor Area: 2,600 square feet
Number of Stories: 6
Valuation: $195,000

20. California Institute of Technology- Professor Hsieh Laboratory Renovation, 1200 E. California Blvd, Building # 47, Pasadena: This project consisted of a renovation to an existing science laboratory in an existing R&D and classroom building. Scope of work included demo of existing walls, and MEP systems, relocating of walls, new AC/heating units, mechanical equipment, lab equipment, hazardous materials quantities determination, chemicals, fire alarms renovation, new bathrooms, etc. True North Compliance Services provided Building and MEP plan review for the project.

Occupancy: B, A-3, I-3, S
Type of Construction: I-A Fully Sprinklered
Floor Area: 2,600 square feet
Number of Stories: 6
Valuation: $195,00

Section VII- Philosophy/Ethical Standards

A primary reason for early success and rapid growth is our strong ethics and professional standards. Our Philosophy & Guiding Principles are: ***To provide highest quality, timely, cost-effective service and build strong successful long-term partnerships with municipal clients.***

Our core values in delivering building services are: **Ethics, Transparency, Collaboration, Communications, Excellent Customer Service, Empathy, Fiscal Prudence.**

We apply our philosophy & Guiding Principles along with our core values to everything we do in the day-to-day operations and in the delivery of all of our services. To that end, we will:

- ✓ Partner and collaborate with City's Building Official, Fire Marshal and their staff to deliver a streamlined and expeditious process for plan reviews.
- ✓ We deliver on every promise we make to our clients.
- ✓ Deliver timely, high-quality service.
- ✓ Thorough and complete plan review with clear concise comments during the first review to minimize delays and frustrations.
- ✓ Reasonable, practical yet safe approach to code compliance.
- ✓ Availability of our staff and managers to City staff and applicants.
- ✓ Free early global code review during discretionary process.
- ✓ ***Our motto is personal attentive service and excellence in the delivery of municipal services***.

We avoid any real or perception of conflict of interest and hold ourselves to the highest ethical standards in the delivery of our services. To that end, we have the following policies and procedures in place:

1. We only work for public agencies in the assessment and verification services. We do not perform any design services to private or public agencies.
2. We do not work for any private developers, designers or engineers.
3. Our staff is not permitted to perform any design or consulting work on their own in any client cities.
4. Our staff and managers are required to disclose any personal financial interest in any city client.
5. Our staff is not permitted to be involved in any way in project reviews, inspections or approval of their personal projects, or their family members or friends.
6. Or staff and managers are not permitted to accept gifts of any monetary value from clients or project applicants and contractors.
7. Or staff and managers are not permitted to develop personal relationships or friendships with project applicants or builders of projects they are working on.

Background

An accomplished senior-level technical manager and building official with over 25 years of experience in the code compliance services in both the private sector as well as the public sector. Isam developed an impeccable reputation, over his long career, as a forward-thinking customer services-centric public agency administrator, licensed Civil Engineer and technical manager providing high quality responsive service to public agencies and their citizens.

Experienced building official with hundreds of decisions and ruling on complex code issues, interpretation and application of equivalencies and Alternate Materials and Methods. Highly respected technical expert with many years of service on many technical standard writing committees. Served as a Vice Chair of the California Building Standard Commission for over 4 years responsible for the adoption and application of the building codes in California. Active participant in the code development & administration process both on the state and national levels and serving on many technical committees and boards.

Select Work Experience

True North Compliance Services, Inc.
President/ Building Official

Isam serves as Principal/Team Leader and main point contact for True North Compliance. He ensures that services are delivered in accordance with the Scope of Services established with the client; he recruits and hires staff; he provides oversight and management of all True North's staff; he manages the firm's rigorous quality control program; he provides technical and administrative training to staff and clients; assist clients in code adoption, development of policies and procedures and provide recommendations for alternative solutions and methods of compliance for unique complex code compliance challenges that don't fit squarely in the prescriptive provisions of the Code.

Bureau Veritas
Chief Operating Officer

Manage the code compliance division with hundreds of local building department clients throughout the U.S. Division; provides local jurisdictions and agencies with a comprehensive range of municipal services and building department operations including plan review, inspection and permit processing services and fire and health review services. Clients include over 200 cities and public agencies throughout the country.

City and County of San Francisco -Development Services
Director/Chief Building Official

Managed the Department of Building Inspection with a staff of over 400 and an operating budget exceeding $50 million. Responsible for the plan review and inspection process and code enforcement program for the city. As the Chief Building Official, led the adoption and local amendment process of the City's construction codes in compliance with state law, set technical policies and procedures for the application and enforcement of the City's codes, authored code interpretations and reviewed and acted upon numerous submitted requests for modifications or approvals of alternate materials and methods to prescriptive code requirements.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

- American Public Work Association
- AIA -San Diego Chapter
- AIA -Orange County Chapter

City of San Diego -Planning & Development Department
Chief Building Official/Chief Deputy Director

Managed the entire ministerial review and construction permits Division with a staff of over 300 and an operating budget exceeding $30 million. Responsible for the plan review and inspection process with functions and disciplines ranging from the traditional review and inspection of the California Codes to civil engineering reviews, public improvement plans, drainage and grades, traffic and transportation engineering review, landscape and zoning, geology, mapping review and the fire services section responsible for plan review and inspection of fire suppression systems, sprinklers, alarm systems, hazardous materials and fire department access. Managed staff included professional engineers in many disciplines, certified inspectors in all construction trades, planners, landscape architects, licensed surveyors, engineering geologists, fire fighters, counter technicians, and administrative and clerical staff. As the Chief Building Official, led the adoption and local amendment process of the City's construction codes in compliance with state law; set technical policies and procedures for the application and enforcement of the City's codes; author code interpretations and review and act upon numerous submitted requests for modifications or approvals of alternate materials and methods to prescriptive code requirements.

City of Long Beach -Department Building & Planning
Engineering & Operations Officer/Chief Engineer

Managed the Plan Review and Engineering Services Division, the Development Services Center and the Office and Support Division. The combined staff of the three divisions was over 22 with an operating budget of over $2 million. Duties included supervision of the professional engineering staff and inspectors performing the review and subsequent approval of proposed building structural, mechanical, plumbing and electrical plans for compliance with local and State codes; providing code interpretations; reviewing requests for modifications or approvals of alternates to prescriptive code requirements. Other duties included acting as the lead senior technical manager for the City's Access Appeals Board and leading the City's efforts in the upcoming adoption of the latest editions of model building codes.

City of San Diego -Planning & Development Department
Senior Structural Engineer

Planned, assigned, and directed the work of plan check engineers. Consulted with contractors, architects, and building owners regarding application of building codes and other state and local ordinances. Performed structural damage assessments and feasibility studies. Researched and determined acceptability of new materials and methods of construction. Trained and evaluated work performance of subordinates. Managed complex projects for division. Provided leadership and direction to staff. Provided second opinion to customers and was responsible for resolution of project-related conflicts. Served on committees and performed special assignments.

Senior Structural Engineer

Perform plan review of the entire range of residential, commercial and industrial projects; examine and check structural engineering designs, calculations and plans for conformance with adopted Building Codes and local ordinance and regulations. Provide interpretations of building codes, State laws and local ordinances to city staff and the public; evaluate alternate methods of construction/materials and provides recommendations; provide technical assistance to city staff; determine valuation and building fees; check calculations and test reports; provide assistance and information to contractors, architects, engineers and the public in the solution of routine building problems and the interpretation of building codes and ordinances; check plans for compliance with California Title 24, Energy and Disabled Access Requirements; maintain liaison with city staff related to project reviews and code compliance.

City of San Francisco -Department of Building Inspections
Plan Review Engineer

Joined the department in December 1994 as an Associate Civil Engineer, promoted to Civil Engineer in July 1997, to Structural Engineer in October 2001 and Senior Engineer in July 2017. Managed permit processing and reviewing for all building permit applications in the City. Structural, Architectural and Accessibilities plan review for compliance of applicable codes. Plan review buildings for all types of construction and occupancy classifications; projects include alternation, addition and retrofitting of existing buildings, and new constructions ranging from single story to multi-stories tall buildings.

AGS
Senior Structural Design Engineer

Provided structural evaluation and reports of existing buildings. Prepared structural calculations, specifications and plans for retrofitting of commercial and residential buildings. Reviewed plans for structural compliance. Prepared proposals and presentations of projects to clients. Set up design criteria, budgets and schedules of projects. Supervised staff engineers and designers in preparing calculations, specification and plans for projects. Provided co-ordinations of projects between clients, architects, engineers and contractors. Provided construction support and field inspection.

Aaron Beebe, PE, SE

Structural Plan Review Engineer

Education

M.S. Degree – Structural Engineering
Purdue University

B.S. Degree – Structural Engineering
Purdue University

Licenses and Certifications

- Licensed Structural Engineer in the State of California
- Licensed Engineer in the State of California
- LEED Accredited Professional
- Registered California Emergency Management Agency Safety Assessment Program Evaluator (SAP)
- Certified DSA Structural Plan Reviewer

Background

Over 20 years of experience in structural design and plan review of a wide range of structures and building from single family homes to high-rise, mixed use, schools, courts, and prisons. Management of design team members and supervise the work of engineers and draft persons; directed project staff in preparing contract documents, such as drawings and specifications; communicate with clients to understand project requirements and resolve complex engineering problems.

Work Experience

True North Compliance Services, Inc.
Structural Plan Review Engineer

Provide structural plan review for various projects. Review projects including single family/duplex residential construction, multifamily residential construction, commercial construction, and non-building structures. Review and evaluate architectural and structural construction documents submitted for permit approval from various municipalities utilizing applicable codes/standards/guidelines/laws, code interpretation, appropriate municipal ordinances and construction and engineering standards; interact and communicate with design professionals and city staff on technical requirements and plan review comments; provide technical assistance to city staff; perform structural inspections in the field as needed; determine valuation and building fees; check calculations and test reports; provide assistance and information to contractors, architects, engineers and the public in the solution of complex building problems and the interpretation of building codes, structural standards and ordinances.

Division of State Architect
Senior Structural Engineer

Structural plan review of more than $500M of California K-12 and Community College projects; review and evaluate structural construction documents submitted for permit approval utilizing applicable state codes/standards/guidelines/laws, code interpretation and construction and engineering standards, determine review fees, and authorize the release of approved documents for construction; check engineering calculations and provide timely oral and/or written communication detailing design and/or construction deficiencies in plans and specifications; interact with the school district project managers, design consultants and contractors, to communicate permit application procedures and regulatory and code requirements and interpretations.
- Participate in recommending and establishing technical policies, procedures, standards, guidelines, and specifications for plan review and construction of public schools.

Thornton Tomasetti
Vice President, San Diego Office Manager

Managed the San Diego office for a national structural engineering firm; assigned the work to design engineers; provided technical leadership and direction to design engineers; set up design criteria for new structural design of new projects; Structural design engineer for highly complex structures and buildings including university buildings, courthouses and high-rise buildings, complex non-building structures and unusual structures.

Henry Hadidi, Ph.D., S.E.

Senior Structural Plan Review Engineer

Education

Ph.D. Degree -Structural Engineering
Stanford University

M.S Degree - Structural Engineering
Stanford University

Licenses and Certifications

- Licensed Professional Engineer in the State of California
- Licensed Structural Engineer in the State of California
- ICC certified Plans Examiner

Background

Mr. Hadidi is a highly respected structural engineer. He has over 30 years in structural plan check and structural design field. With a Ph.D. degree is structural Engineering from Stanford University and many years of experience designing the full range of structures including complex building and structures. He also has years of experience in structural review of variety of buildings and structures.

Select Work Experience

True North Compliance Services, Inc.
Senior Structural Plan Review Engineer

Provide structural plan review for various projects. Review projects including single family/duplex residential construction, multifamily residential construction, commercial construction, and non-building structures. Review and evaluate architectural and structural construction documents submitted for permit approval from various municipalities utilizing applicable codes/standards/guidelines/laws, code interpretation, appropriate municipal ordinances and construction and engineering standards; interact and communicate with design professionals and city staff on technical requirements and plan review comments; provide technical assistance to city staff; perform structural inspections in the field as needed; determine valuation and building fees; check calculations and test reports; provide assistance and information to contractors, architects, engineers and the public in the solution of complex building problems and the interpretation of building codes, structural standards and ordinances. Henry is the go-to Structural Plan Review Engineer for complex structures and challenging issues.

Various Public Agencies
Structural Plan Review Engineer

Provided structural plan review for many state agencies such as DSA, DGS, LAUSD throughout California. Projects reviewed included the seismic retrofit of two reinforced concrete building at Atascadero State Hospital in Atascadero, of numerous hospital buildings as part of plan check review for OSHPD, Westinghouse AP 1000 nuclear power plants, the design of a segment of the Los Angeles Metropolitan Purple Line underground metro tunnel in Los Angeles, California, as part of LA Metro internal review, seismic retrofit of the Caltrans Headquarters buildings located at Sacramento, California.

Owen Group
Structural Engineer

Provided structural analysis and design for variety of buildings and structures, ranging from single family residential to multi-story apartment, commercial buildings.

WC3
Plans Examiner

Performed plan review of architectural & structural plans for large, medium, & small sized residential & commercial projects; Enforced all applicable building codes including fire, life safety, and accessibility requirements; Assisted contractors, architects, engineers and others in the solution of complex structural, mechanical, electrical and related problems with interpretation of the building codes and ordinances; Maintained cooperation with other departments concerned with building and related code compliance; Performed structural inspections in the field as required.

Engineering Intern
City of South San Francisco Public Works, Engineering Division

Supported city engineers on daily tasks, related to transportation, construction, public works and city streets for the City of South San Francisco.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Bryan Montes, EIT

Plan Review Engineer

Education

B.S. Degree – Civil Engineering
UC- Irvine University

Licenses and Certifications

- Engineer-in-Training (EIT)
- ICC-Certified Residential Plans Examiner

Skills & Awards

- UCI Dean's Structural Engineering Senior Design Choice Award
- Computer Literate: MS Word, Excel, PowerPoint, Pages, Keynote; MATLAB, AutoCAD, Bluebeam, Sketch-up, Stella, EPANet

Background

Over 3 years of experience in the plan review of a wide range of structures and building from residential and commercial projects and tenant improvements. Pleasant and customer service oriented professional with a helpful can-do attitude. Team player with an enthusiastic attitude. Versed in multiple permitting software and computer systems.

Work Experience

True North Compliance Services, Inc.

Plan Review Engineer

Provide plan review for various projects. Review projects including single family/duplex residential construction, multifamily residential construction, commercial construction, and non-building structures. Review and evaluate architectural and structural construction documents submitted for permit approval from various municipalities utilizing applicable codes/standards/guidelines/laws, code interpretation, appropriate municipal ordinances and construction and engineering standards; interact and communicate with design professionals and city staff on technical requirements and plan review comments; provide technical assistance to city staff; perform structural inspections in the field as needed; determine valuation and building fees; check calculations and test reports; provide assistance and information to contractors, architects, engineers and the public in the solution of complex building problems and the interpretation of building codes, structural standards and ordinances.

Currently, Bryan provides in-house plan review services to the Cities of Dana Point and Santa Monica. He performs over-the-counter plan reviews, assists applicants with code compliance questions, and reviews rechecks, field changes and revisions.

Interwest Consulting Group

Engineering Plans Examiner

Perform comprehensive and complete reviews of residential projects, including for Building & Life Safety, M/E/P, CalGREEN, and Energy Conservation Requirements; Review calculations, specifications, and technical reports to determine compliance with the applicable building codes and standards for different jurisdictions; Conduct structural plan reviews for residential and commercial projects including single family dwellings, tract homes, high-pile storage racks, temporary stages, etc.; Serve the City of El Monte as its only in-house plan check engineer performing the aforementioned duties as well as answering and assisting any inquiries from the public over-the-counter.

City of Eastville, City of Bell
City Engineer Intern

Served as the principal assistant responsible for collecting, transferring, and organizing necessary data on to the newly implemented Survey 123 for ArcGIS, a form-centric data gathering system; Worked with city engineers, public works, and building & safety on various projects that would positively impact the city; Under direction, carried out site inspections and conducted field assessments.

Areli Sanchez

Plan Review Engineer

Education

B.S. Degree – Civil Engineering
San Francisco State University

Certifications

- ICC-Certified Building Plans Examiner

Skills & Awards

- Computer Literate: MS Word, Excel, PowerPoint, Pages, Viewpoint, Plangrid, MATLAB, AutoCAD, Bluebeam

Background

Over 3 years of experience in the plan review of a wide range of structures and building from residential and commercial projects and tenant improvements. Pleasant and customer service oriented professional with a helpful can-do attitude. Team player with an enthusiastic attitude. Versed in multiple permitting software and computer systems.

Work Experience

True North Compliance Services, Inc.

Plan Review Engineer

Areli provides plan review for various projects. Review projects including single family/duplex residential construction, multifamily residential construction, commercial construction, and non-building structures. Review and evaluate architectural and structural construction documents submitted for permit approval from various municipalities utilizing applicable codes/standards/guidelines/laws, code interpretation, appropriate municipal ordinances and construction and engineering standards; interact and communicate with design professionals and city staff on technical requirements and plan review comments; provide technical assistance to city staff; perform structural inspections in the field as needed; determine valuation and building fees; check calculations and test reports; provide assistance and information to contractors, architects, engineers and the public in the solution of complex building problems and the interpretation of building codes, structural standards and ordinances.

West Coast Code Consultants

Engineering Plans Examiner

Perform comprehensive and complete reviews of residential projects, including for Building & Life Safety, M/E/P, CalGREEN, and Energy Conservation Requirements; Review calculations, specifications, and technical reports to determine compliance with the applicable building codes and standards for different jurisdictions; Conduct structural plan reviews for residential and commercial projects including single family dwellings, tract homes, high-pile storage racks, temporary stages, etc.; Serve the City of El Monte as its only in-house plan check engineer performing the aforementioned duties as well as answering and assisting any inquiries from the public over-the-counter.

Cahill Contractors
Project Engineering Intern

Handled RFIs and field changes; meeting coordination, quality control on construction projects; safety inspections; under direction, carried out site inspections and conducted field assessments.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Amer Atassi

Plan Review Engineer

Education

B.S. Degree – Civil Engineering
Bilgi University

Skills

- Computer Literate: MS Word, Excel, PowerPoint, Pages, Keynote; MATLAB, AutoCAD, Bluebeam, Sketch-up, Stella, EPANet

Background

Amer is an experienced Plans Examiner and Engineer who is effective at reviewing residential designs for compliance with applicable building codes He has experience plan reviewing a wide range of residential structures and building. Amer has a pleasant and customer service oriented professional with a helpful can-do attitude. Team player with an enthusiastic attitude.

Work Experience

True North Compliance Services, Inc.
Plan Review Engineer

Provide plan review for various projects. Review projects including single family/duplex residential construction, ADU's, swimming pools, photvoltaic systems, etc. Review and evaluate architectural and structural construction documents submitted for permit approval from various municipalities utilizing applicable codes/standards/guidelines/laws, code interpretation, appropriate municipal ordinances and construction and engineering standards; interact and communicate with design professionals and city staff on technical requirements and plan review comments; provide technical assistance to city staff; perform structural inspections in the field as needed; determine valuation and building fees; check calculations and test reports; provide assistance and information to contractors, architects, engineers and the public in the solution of complex building problems and the interpretation of building codes, structural standards and ordinances.

Misk Insaat LTD
Site Engineer

Provided construction project management and site operations on various types of structures.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Timothy M. Shell, PE

Senior Civil Engineer

Education

B.S. Degree - Civil Engineering

MBA- Government Management

Licenses and Certifications

- Licensed Civil Engineer in the State of California

Background

Tim has 25+ years of broad experience in funding, planning, designing, permitting, and constructing municipal public works improvements, including coordination with Caltrans, San Diego Association of Governments, County of San Diego, North County Transit District, franchise utility companies, and other local municipal agencies and special districts. 10 years with the City of Vista, 9 years with the San Diego Water Authority and many years as a design civil engineer with design firms in Southern California. Tim also served as staff augmentation in the City of Lake Elsinore in the 90s.

Select Work Experience

True North Compliance Services, Inc.
Senior Civil Engineer

Review engineering cost estimates; storm water projects; Compliance with Current NPDES Permits; Water Quality Management Plans; transportation projects, grading plans and other assignments as necessary. Tim prepares, implements, and manages capital improvement plans and prepares plans, specifications and cost estimates for variety of municipal projects. He also serves as project manager or construction manager for municipal projects.

City of Vista
Principal Engineer

Manages consultant and construction contracts for the city's Capital Improvement Program, serving the Streets Section of the Public Works Department, the Parks and Recreation Department, and the Sanitation and Stormwater Sections of the Public Works Department. Prepares plans, specifications, and estimates for variety of municipal public works projects, for transportation, drainage, parks, and facilities.

San Diego County Water Authority
Senior Civil Engineer

Managed consultant and construction contracts for large waterworks facilities providing wholesale water supplies to member agencies in San Diego County. Provided studies, reports, and designs for System Operation upgrades and modifications.

BSI Consultants, Inc. San Diego, CA
Associate Civil Engineer

Prepared plans, specifications, and estimates for variety of municipal clients, for transportation, waterworks, drainage, and sanitation facilities. Served as design team leader. Prepared Engineer's Reports and provided cost analysis for Assessment Districts. Provided staff augmentation managing capital projects at cities of Santee and Lake Elsinore, and single-family private developments at cities of Lake Elsinore and Canyon Lake.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Jamal Naji, PE

Senior Civil Engineer

Education

B.S. Degree - Civil Engineering
SDSU

Licenses and Certifications

- Licensed Civil Engineer in the State of California

Background

Over 30 years extensive experience in the Civil Engineering discipline that includes Wastewater and Land Development. Considerable experience in designing and inspecting construction of pipelines, wastewater facilities, grading, and flood control channels. Reviewed subdivision, grading and street improvement plans in accordance with the State of California Subdivision Map Act, and the City of Chula Vista and County of San Diego ordinances and policies. Taught workshop on reading grading and topographic maps to various departments in the County of San Diego. Performed field review and prepared conditions for Tentative Parcel Map Resolution

Work Experience

True North Compliance Services, Inc.
Civil Engineer

Jamal leads major reviews for the team; he provides quality control and technical support to our team; he performs complex plan review of improvement plans, documents, and technical studies including: Rough and Precise Grading Plans; Wet Utility Plans (e.g. Sewer, Water, Recycled Water, Storm Drain); Street Improvement Plans; Hydrology Studies and Hydraulic Calculations; Water Quality Management Plans (WQMPs); Water Quality reports; Erosion Control Plans and Engineering Cost Estimates; Reviews studies and inspects wastewater facilities, sewer lines, flood control channels and building projects and performs feasibility studies for wastewater treatment plants and pump stations.

City of Chula Vista – Department of Public Works
Associate Civil Engineer

Wastewater Management
Project Manager for capital improvement projects that included pipe rehabilitation projects using micro-tunneling, pipe bursting, pipe lining and slip-lining technologies; Managed and coordinated Industrial Waste Program with the City of San Diego Wastewater Pretreatment Program; Prepared Requests for Proposal and executed contracts for designing Salt Creek Sewer Trunk project (over $20 million project); coordinated and managed sewer capacity agreements between the City of Chula Vista and the County of San Diego. Coordinated wastewater projects with Field Operations and Engineering Design Divisions; Designed and inspected grading, wastewater facilities, sewer lines, flood control channels and building projects; Prepared project specifications and plans using AutoCAD and WordPerfect software for wastewater facilities; Prepared operation & maintenance manuals, and feasibility studies for wastewater treatment plants and pump stations.

Land Development
Reviewed subdivision, grading and street improvement plans in accordance with the State of California Subdivision Map Act, and the City of Chula Vista and County of San Diego ordinances and policies; Taught workshop on reading grading and topographic maps to various departments in the County of San Diego; Performed field review and prepared conditions for Tentative Parcel Map Resolution; Established an inspection program on borrow pit operations in the County of San Diego.

Geotechnical Engineering
Performed soil tests in accordance with the American Standard for Testing Materials Specifications.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Ali Soheili, PE

MP Plan Review Engineer

Education

B.S. Degree – Mechanical Engineering
San Diego State University

Licenses and Certifications

- Licensed Engineer, Mechanical
- ICC- Certified Mechanical Inspector

Background

- Highly qualified plan review engineer and design engineer with over 25 years of experience in the review and design of heating, ventilation and air conditioning (HVAC), plumbing systems for compliance with local and state codes and energy standards.
- knowledge and experience in large scale alternative energy generation plants.
- Strong background in project management and evaluation of existing HVAC/MEP systems.
- Registered professional mechanical engineer
- Bachelor of Science in Mechanical Engineering
- Past member of ASHRAE and American Association of Plumbing Engineers (ASPE).

Select Work Experience

True North Compliance Services, Inc.

Senior MEP Plan Review Engineer

Provide plan review for compliances with mechanical and plumbing codes and standards and review of energy compliance documents (Title 24) for wide range of construction projects ranging from residential additions to new high-rise buildings, hotels, malls, large public facilities, hazardous occupancies, R&D and Biotech Facilities.

City of Portland

Mechanical Plan Review Engineer

Review of plumbing, mechanical, heating, ventilation and air –conditioning (HVAC), as well as electrical building plans of commercial, multi-family and industrial for compliances with mechanical, plumbing, and electrical codes and standards. Review of energy compliance documents. Provide information on codes and regulations to engineers, architects and contractors. Resolve issues between the field inspectors and contractors. Perform calculations for ventilation, mechanical equipment, piping, wiring, and load verifications.

City of San Diego

Associate Plan Review Engineer

As a mechanical plan reviewer, job duties included review of mechanical and plumbing plan for multifamily buildings, hotels, and all type of commercial buildings, including San Diego Convention Center, air port projects, office buildings, city facilities, fire stations, retail buildings, laboratories, restaurants, OSHPD 3 facilities, and industrial buildings for California Mechanical, Plumbing (CPC and CMC) compliance, and energy title 24 to approve plans for permits. In- addition assist city inspector with technical questions and day to day field issues for HVAC and plumbing. This position required everyday contact with city inspectors, architects, engineers, building owners or representatives, plan runner services, and other individual building owners to discuss codes, and approve plans.

Mechanical Consulting Engineer

Mechanical Consulting Engineering providing HVAC system design, plumbing design, load calculation & Title 24 for all types of non-residential buildings such as industrial, retail, restaurants, office buildings, medical facilities, laboratories, schools, in addition to residential buildings including single family homes, and multifamily residential (low-rise & high-rise) buildings. Part of my responsibilities was to field verify and evaluate condition of existing plumbing system, HVAC equipment and electrical system, field inspection and provide as-built drawings.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Hassan Itani, PE

M/P Plan Review Engineer

Education

B.S. Degree – Mechanical Engineering
California State Polytechnic University, Pomona

Licenses and Certifications

- Licensed Engineer, Mechanical
- ICC -Certified Mechanical Plans Examiner

Background

Hassan is a highly qualified plan review engineer and design engineer with over 8 years of experience in the review and design of heating, ventilation, and air conditioning (HVAC), plumbing systems for compliance with local and state codes and energy standards. He has knowledge and experience in large scale alternative energy generation plants. Hassan has a strong background in project management and evaluation of existing HVAC/MEP systems.

Select Work Experience

True North Compliance Services, Inc.
Mechanical/Plumbing Plan Review Engineer

Provide plan review and field investigations for compliances with mechanical and plumbing codes and standards and review of energy compliance documents (Title 24) for wide range of construction projects ranging from residential additions to new high-rise buildings, hotels, malls, large public facilities, hazardous occupancies, R&D, and Biotech Facilities.

City of Los Angeles
Mechanical Engineering Associate II

Review of plumbing, mechanical, heating, ventilation, and air-conditioning (HVAC), as well as electrical building plans of commercial, multi-family and industrial for compliances with mechanical, plumbing, and electrical codes, and standards. Review of energy compliance documents. Provide information on codes and regulations to engineers, architects, and contractors. Resolve issues between the field inspectors and contractors. Perform calculations for ventilation, mechanical equipment, piping, wiring, and load verifications.

Boeing
Fleet System Engineer

Monitor multiple airplane fleets and provide targeted maintenance recommendations for critical faults, enabling real-time situational awareness of in-flight Boeing airplanes; work directly with airlines to help improve reliability metrics by implementing prognostic alerting systems.

Applied Medical
Mechanical Engineering Intern

Assisted in developing and testing Kii Dissecting Balloon, promoting its reliability in the field to expedite product release; collaborated with senior engineers in product development to revise manufacturing process and equipment maintenance schedules to increase efficiency; sole generator of maintenance manuals, installation, operational, and performance qualification reports to document product progress; meeting FDA requirements in case of audit.

Amir Amiri, P.E.

Electrical Plan Review Engineer

Education

B.S. Degree – Electrical Engineering
CAL State University, Northridge

Licenses and Certifications

- **Licensed Engineer in the State of California**

Background

Amir has over 20 years of diverse experience in the electrical engineering construction design and plan review for a variety of construction projects ranging from TIs to complex occupancies, high rise buildings, high voltage systems and sub-stations. He reviews complex building plans for conformance to applicable electrical regulations and calculates electrical adequacy; prepares reports and written recommendations and coordinates construction activities with other agencies and citizen groups.

Select Work Experience

True North Compliance Services, Inc.
Electrical Plan Review Engineer

Provide plan review and field investigations for compliances with the National Electrical Code (NEC) and standards and review of energy compliance documents (Title 24) for wide range of construction projects ranging from residential additions to new high-rise buildings, hotels, malls, large public facilities, hazardous occupancies, R&D, and Biotech Facilities. Amir is also our internal expert for high voltage systems and sub-stations and large-scale solar farms.

120 Degreez, Inc.
Senior Electrical Engineer

Performs engineering designs and calculations, prepares plans, estimates, and specifications. Consults with department representatives and other agencies on electrical engineering problems, and checks plans, and specifications developed by consultants. Inspects major electrical or electronic contract work; checks material lists to ensure conformance with specifications; makes field investigations and surveys. Prepares calculations for photometric, power, and energy studies and load characteristics. Supervise and check the work of subordinate engineers and drafting personnel, drafted and designed power distribution and electrical site plans, panel schedules, and lighting plans per NEC and local codes under engineering supervision. Performed all aspects of project, including Title 24, load calculation, and single line diagrams.

City of San Diego -Building & Safety
Associate Electrical Engineer

As an electrical plan review engineer, performed plan review of the Electrical Code for multifamily buildings, hotels, and all type of commercial buildings, including San Diego Convention Center, airport projects, office buildings, city facilities, fire stations, retail buildings, laboratories, restaurants, OSHPD 3 facilities, and industrial buildings. In addition, assist city inspector with technical questions and day to day field issues for compliance with the National Electrical Code.

Jerome Schreiber, P.E.

Senior Electrical Plan Review Engineer

Education

B.S. Degree – Electrical Engineering
CAL Polytechnical University

Licenses and Certifications

- Licensed Electrical Engineer in the State of California
- ICC Certified Building Inspector
- ICC Certified Mechanical Inspector
- ICC Certified Plumbing Inspector
- IAEI Certified Electrical Inspector
- IAEI Certified Electrical Plans Examiner

Background

Jerome has over 30 years of diverse experience in the electrical engineering design and plan review for a variety of construction projects ranging from TIs to complex occupancies, high rise buildings, high voltage systems and sub-stations. He reviews complex building plans for conformance to applicable electrical regulations and calculates electrical adequacy; prepares reports and written recommendations and coordinates construction activities with other agencies and citizen groups.

Select Work Experience

True North Compliance Services, Inc.
Electrical Plan Review Engineer

Provides plan review and field investigations for compliances with the National Electrical Code (NEC) and standards and review of energy compliance documents (Title 24) for wide range of construction projects ranging from residential additions to new high-rise buildings, hotels, malls, large public facilities, hazardous occupancies, R&D, and Biotech Facilities. Amir is also our internal expert for high voltage systems and sub-stations and small or large-scale solar farms.
Jerome will provide plan reviews of solar projects submitted to the VPP Program.

City of Glendale
Building Inspector

Performed building, electrical, mechanical and plumbing inspections; performed electrical plan reviews.

City of Vernon
Senior Electrical Inspector

Responsible for City of Vernon Electrical Plans Examination and Building, Plumbing, Mechanical, & Electrical inspections and all electrical installations in the City and for the City municipal facilities.

Southern California Edison
Distribution Engineer

Service Planning and Customer Coordination.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Daniel Larson, CASp

Senior Plans Examiner and Inspector

Education

A.S. Degree – Math/Engineering
Sacramento City College

Licenses and Certifications

- **CASp Accessibility Specialist**
- **ICC Building Inspector**
- **ICC Certified Plan Examiner**
- **ICC Accessibility Inspector and Plan Examiner**
- **ICC Residential Plan Examiner**

Background

Daniel Larsen has over 30 years of experience in performing non-structural plan reviews for commercial, residential, and industrial projects. He has extensive experience in building inspection and the construction trades as it relates to Fire and Life Safety and Disabled access under the International Building Codes, ADA Standards and the Fair Housing Laws.

Select Work Experience

True North Compliance Services, Inc.
Senior Plan Examiner and Inspector

Provide Title 24 accessibility plan review, inspection, ADA surveys and site investigations of variety of projects ranging from commercial buildings to hotels, public buildings and similar buildings. Perform ADA surveys and transition plans for public agencies and universities. Duties included plan review and site verification for compliance with Federal ADA Access Standards, Fair Housing Laws, and California Disabled Access regulations.

DPL Consulting and Inspection Services
Senior Plan Examiner and Inspector

10 years of experience providing ADA and California T-24 Accessibility surveys and plan review and inspections to local Architectural firms and small business owners. The majority of the surveys provided have been to various local State of California agencies that occupy privately owned commercial and residential apartment buildings within the Cities and Counties of California, Oregon, Washington, Nevada, Arizona, Utah & Florida.

Cosumnes River College
Fire Life Safety/Disabled Access Inspector

Reviewed drawings and assessed construction against plans. Completed inspections of current construction, refurbishment, and repair projects. Noted violations and issued documentation such as stop work orders to contractors or owners. Kept up to date on inspection regulations, codes, ordinances, and techniques. Investigated complaints, incidents, and accidents at work sites. Re-inspected commercial and residential constructions which previously failed inspections.

County of Sacramento -Building Inspection Division
Senior Technical Manager

11 years' experience performing fire and life safety and disabled access plan reviews of commercial and industrial projects in addition to complete plan reviews of residential dwellings. Provided jurisdictional audits of disabled access procedures, plan review and inspection services.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Douglas Evans, FPE
Fire Protection Engineer

Education

B.S. Degree – Civil Engineering
CSULA

Licenses and Certifications

- Licensed Fire Protection Engineer -CA, NV
- Member, ICC Fire Code Interpretation Committee
- Fellow of Society of Fire Protection Engineers (SFPE)
- Member of NFPA Technical Committee on Smoke Management

Background

Technical expert on all fire protection aspects for the mega-resorts on the Las Vegas Strip. These facilities are essentially “cities under one roof”. His duties included review, comment and approval of fire protection plans on a wide range of issues and occupancy types, for new as well as existing facilities. He has been responsible for malls, atria, theaters, arenas, and mega-resorts, as well as numerous high-rise residential and office towers. He was also responsible for developing fire protection-related policy statements and guidelines for internal and external use.

His experience includes suppression and detection/alarm systems, fire-resistive construction, exiting, elevators, secondary power supplies, fire testing, fire modeling, hazardous materials and the codes/standards requirements that apply to the specific fire protection aspects. Some of his areas of specialization include: alternates/equivalences (performance-based designs) to prescriptive code requirements, smoke management systems, plastics/ foam plastics as building materials, interior finishes, unique interior features, combustible exterior facades, grease duct enclosures and product listings/applications for use on and within structures.

Mr. Evans has published several articles in trade journals and has given a number of professionally related presentations.

Select Work Experience

True North Compliance Services, Inc.
Fire-Life Safety Plan Review Technical Lead

Performs complex fire safety plan review services for a variety of occupancies, including but not limited to high rise buildings, malls, atria, theaters, arenas, and mega-resort. Reviews complex fire modeling and alternates/equivalences (performance-based designs) to prescriptive code requirements, smoke management systems, plastics/ foam plastics as building materials, interior finishes, unique interior features, combustible exterior facades, grease duct enclosures and product listings/applications for use on and within structures.

Clark County
Senior Fire Protection Engineer

Performed complex plan review and conducted field construction inspections for new and existing buildings. Conduct field inspections and testing of new and existing fire protection systems. Reviewed blueprints for construction projects, including but not limited to grading plans, fire lane and fire apparatus access roads, fire alarm and detection systems, fire sprinkler and standpipe systems and general fire safety. Oversee special construction projects and represent the city fire and building department to ensure timely completion of plan review and onsite construction inspections to ensure project completion.

Fire Protection Engineer
Design Engineer

Performed design of complex fire safety systems; examining existing structures to determine if the fire protection aspects were compliant with applicable codes and standards; designing exit systems, specifying fire-resistive aspects of building components; specifying when fire suppression and alarm systems were required; reviewing code requirements and negotiating levels of protection with stakeholders.

Reviews complex fire modeling and alternates/equivalences (performance-based designs) to prescriptive code requirements, smoke management systems, plastics/ foam plastics as building materials, interior finishes, unique interior features, combustible exterior facades, grease duct enclosures and product listings/applications for use on and within structures.

$24 Billion Metro Project
Riyadh Metro Project, Saudi Arabi

Suggest FEED strategies, templates for Alternative Methods approach, Risk evaluation of combustible materials, Hazard likelihoods and local tolerance level, Identify deviations from Employer's Requirements and prescriptive codes, Value engineering.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Gabriel Reza

Fire, Life-Safety Plan Reviewer

Education

B.S. Degree – Urban Planning

Certifications

- Certified Fire Inspector, NCSA #CFC040513
- Certified Fire Safety Officer, Office of the State Fire Marshal
- Hazardous Waste Operations and Emergency Response Certified

Affiliations

- International Code Council Los Angeles Basin Chapter- Fire Life Safety Chairman
- International Code Council – Appreciation Award
- California Building Officials – 2020 Educator of the Year
- California Fire Chiefs Association, Executive Board Member, SoCal FPO, President

Background

Extensive experience of over 15 years conducting Title 19/24 fire and life safety inspections. Concise knowledge and experience with California State Fire Codes, local regulations, federal codes, laws and NFPA guidelines. Ability to properly research, interpret and properly apply these related codes.
Comprehensive knowledge of fire detection, sprinkler fire protection and other life safety systems, including NFPA requirements for inspection, installation, testing and evaluation of systems.

Select Work Experience

True North Compliance Services, Inc.

Fire-Life Safety Plan Reviewer

Performs complex fire safety plan review services for a variety of occupancies, including but not limited to public college campuses, mid and high rise buildings, storage buildings, hazardous and high pile storage, multi-family residential use and solar/PV in both new and existing buildings. Reviews blueprints for construction projects, including but not limited to grading plans, fire apparatus access roads, fire alarm and detection systems, fire sprinkler and standpipe systems, and general fire safety. Conducts inspection and testing of fire detection systems including fire sprinklers, fire alarm, standpipe, and wet chemical systems.

City of Glendale

Senior Fire Safety Specialist

Conduct advanced and complex project and blueprint plan review for new construction projects, tenant improvements, fire apparatus access, hazardous material storage and fire detection and fire protection systems; Interpret, apply, and enforce all applicable codes and standards including: Title's 8, 19/24, CA. Fire, Building and Mechanical Codes, CA. Health and Safety Code and NFPA codes; Sampled and tested hazardous and industrial waste; Performed new construction inspections abiding by standardized methods; Conducted fire prevention training activities for fire department operations; Prepared and maintained precise reports following record-keeping procedures.

City of Glendale
Planning Assistant

Reviewed commercial and single/multi-family projects for zoning code compliance; Processed planning entitlements and housing projects, CEQA review and analysis; Processed and presented applications to the City's Design Review Board, Planning Commission, and City Council.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Sergio Perreira

Senior Fire-Life Safety Plans Examiner/ Inspector

Education

Fire Prevention Officer – California State Fire Marshal

Fire Science Degree – Miramar College

Licenses and Certifications

- Automatic Fire Alarm - Association Fire Alarm Testing & Inspection
- California State Fire Academy Hydraulics for Fire Sprinklers
- National Fire Academy - Management of Fire Prevention Programs
- National Fire Academy - Evaluating Performance Based Designs
- National Fire Sprinkler- Association Sprinkler Design Residential to High-Rise
- National Fire Sprinkler Association Pumps for Fire Protection

Background

Sergio has over 30 years of experience in all operations of a fire rescue department, starting in firefighting, then moving to performing plan review and inspections of all types of occupancies and construction projects and Supervising the Plan Check and Inspections for New Construction/Fire Protection Systems.

Extensive knowledge and experience conducting Title 19/24 fire and life safety plan review and inspections of numerous complex projects in the City of San Diego including convention facilities, high rise hotels, biotech research & development companies, research labs and high-tech manufacturing facilities.

Sergio has been a Fire Science Instructor at Miramar and Southwest Community Colleges in San Diego for over 10 years.

Expert in preparing Emergency Preparedness Plans.

Select Work Experience

True North Compliance Services, Inc.

Fire-Life Safety Plan Reviewer/Inspector

Performing complex fire safety plan review & inspection services for a variety of occupancies, including but not limited to public college campus, mid and high rise buildings, storage buildings, hazardous and high pile storage, multi-family residential use and solar/PV in both new and existing buildings. Review fire apparatus access roads, fire alarm and detection systems, fire sprinkler and standpipe systems. Consult on Fire Department management and Emergency management plans.

City of San Diego

Supervisor Plan Check & Inspection for New Construction/Fire Protection Systems

Supervise and train inspectors in plan check of building plans and fire protections system, including fire alarm systems, smoke control, fire pumps, sprinklers, kitchen suppression system, spray paint booths, clean agent systems, fixed and semi-fixed suppression systems for tank farms, standpipe systems including high-rise standpipes.

Develop and update sprinkler policies and many other Fire Prevention polices. Provided applicability of fire, building and alternate means and methods of fire protection. Conducted new hire interviews. Investigated and made recommendations for disciplinary action. Responsible for supervising inspection teams and approving occupancy of all high-rise construction in previous 15 years and other major projects including the San Diego Convention Center expansion, Petco Park, San Diego County Jail, and airport expansion. Provided solutions for complex problem such as: City Administration Building, Sun Road high-rise, Petco Park, Grant Hyatt, and Hilton explosion.

City of San Diego

Fire Plans Examiner

Plan review for Fire Access and Water Supply for the City of San Diego. Consultant for Project Managers, Architects, Engineers. And Homeowners for Fire Access, Brush Management Mitigation and Fire Code information. Provided training for Electrical and Plumbing inspectors for fire alarm and sprinkler inspections.

Docusign Envelope ID: 10FA1302-B810-47BD-A735-45F2F37FF6B0

Ron Carter

Fire-Life Plans Examiner/Inspector

Licenses and Certifications

- Fire Academy -City of San Diego
- Certified as a Paramedic through Palomar College
- EMT Certified
- State Fire Marshal, Certificates in Fire/Sprinkler and Alarm plan check

Background

Over 25 years of experience in all operations of a fire rescue department, starting in firefighting/paramedic, then moving to performing plan review and inspection of all types of occupancies and construction projects.

26-025

PROFESSIONAL SERVICES MASTER AGREEMENT (BUILDING SAFETY – STAFF AUGMENTATION)

BETWEEN

CITY OF BENICIA AND

4LEAF, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and 4LEAF, Inc., a California Corporation located at 2126 Rheem Drive, Pleasanton, California 94588, licensed to do business in California, ("CONTRACTOR") relating to 4Leaf: Building Safety Staff Augmentation - Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Staff Augmentation Services may include, but not be limited to:

A. Building Inspector

B. Certified Access Specialist Professional (CASp) Inspector

C. Building Permit Technician

D. California Water Efficiency Landscape Ordinance (WELO) Inspector

E. Building Official

F. Certified Floodplain Manager (CFM)

G. Specialty Services including Building Code Enforcement

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted planning practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

[http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required during the term of this Agreement.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Kevin J. Duggan

President

kduggan@4leafinc.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between 4LEAF, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

RE: Proposal to Provide On-Call Building Safety Services – Staff Augmentation, to the City of Benicia

4LEAF, Inc. (4LEAF) is pleased to present our proposal to provide On-Call Building Safety Services – Staff Augmentation, to the City of Benicia (City). 4LEAF has been providing plan check, inspection, and other related services to numerous public clients throughout California for over 24 years. We look forward to the opportunity to provide these services to the City. 4LEAF is uniquely qualified and is an ideal consultant choice for the following reasons:

☑ Familiar Consultant and Local Presence

4LEAF is currently working with the City of Benicia to provide On-Call Building Inspection, Plan Review, and Development Engineering Services. This has allowed us to become familiar with the department's processes and procedures. In addition to serving the City, 4LEAF has provided services to numerous bay area municipalities. As such, our firm has the necessary local staff to address any needs the City may have. Some of 4LEAF's local clients include:

- City of Oakland
- City of El Cerrito
- City of San Leandro
- City of Newark
- City of Union City
- City of Richmond
- City of Pinole
- City of Brentwood
- City of Pittsburg
- City of Berkeley
- City of Walnut Creek
- City of San Pablo
- County of Alameda
- County of Contra Costa
- County of San Mateo

☑ Full-Service Firm

As a full-service firm, 4LEAF can provide departmental services to aid with high project workloads that require additional staff assistance. We provide jurisdictions with Building, Planning, Public Works, and Fire Department services and have qualified staff available to serve the City with remote, on-site, part-time, or full-time project needs. For the scope of this contract, our services include:

- **Inspection:** We have over 200 inspectors on staff who specialize in Residential, Commercial, Industrial, Energy, Fire, ADA, Solar, HCAI, and Public Works projects. We have a track record of providing inspectors as-needed for long- or short-term projects, including one day assignments to cover staff training, sick days, vacation days, or spikes in permit activity.
- **Code Enforcement:** 4LEAF staff have experience working with property owners and other responsible parties to bring properties and conditions into compliance. Our Code Enforcement team is skilled in using processes including issuing administrative citations to establish whether violations of law exist on a property and ensuring compliance.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

☑ Management Team

Craig Tole: With nearly 20 years of building department experience, Craig has the requisite experience to manage all as-needed requests from the City of Benicia. Craig will ensure that 4LEAF provides curated staff to meet the City's specific plan review and inspection needs.

Lowell Brown: Lowell has over 40 years of experience in the Regulatory Building Industry, working across both public and private sectors. His expertise in code compliance allows clients to rely on 4LEAF for technical guidance, while also understanding the challenges faced by the development team.

Pete Roque: As 4LEAF's National Director of Code Enforcement, Pete is responsible for managing 4LEAF's Code Enforcement clientele. Pete has 18+ years of industry experience, has served on several local, State, and National boards, has managed several Code Enforcement Divisions, and is an industry subject matter expert.

Nicholas (Nick) Henderson: As NorCal Regional Area Manager, Nick helps collectively manage the entirety of 4LEAF's Building and Safety Services Division that includes more than 350 employees, including more than 200 Inspectors. Nick will discuss with the Building Department the exact personnel that are available at the time of request and give the Building Official several options.

Giovanni Caponigro: Giovanni serves as 4LEAF's Inspection Coordinator and is self-motivated and driven to provide excellent customer service delivery and is proficient at coordinating and leading teams to benefit mutual growth and success.

☑ Leadership

The contract with the City of Benicia will be managed by Craig Tole and Lowell Brown. Together, they bring over 60 years of experience in the Community Development industry, equipping them with the expertise needed to provide our municipal clients with top-tier staff for their projects and personnel needs.

President	VP, Community Development	4LEAF Local Office

DESCRIPTION OF RESPONSIBILITES

4LEAF, IN

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

SECTION 3: DESCRIPTION OF RESPONSIBILITIES

We understand that the City of Benicia seeks a qualified firm with the capacity to deliver inspection services for projects of all sizes and complexities. As leaders in the Community Development industry, we are confident in our ability to meet the City's inspection needs.

With extensive experience providing plan review services for a wide range of community development projects, we have a strong understanding of the regulatory frameworks that govern construction in California. Our team includes licensed inspectors who are well-versed in the requirements of both Federal and State codes, as well as City-specific regulations, ensuring that we can effectively manage and oversee complex construction projects.

Proven Track Record of Timely and Accurate Inspections

4LEAF has a proven history of providing timely, thorough, and precise inspection services. Our approach emphasizes accuracy, clear communication, and collaboration with City staff and applicants to resolve any challenges or discrepancies early in the process. This proactive approach ensures that potential delays are minimized and that all inspections are in full compliance with the relevant regulations.

Identification and Knowledge of Applicable Regulations

Our team is well-versed in the most current Federal, State, and local regulations that affect Inspection projects in California. This includes, but is not limited to, compliance with the following:

- California Water Efficiency Landscape Ordinance (WELO) Compliance
- Americans with Disabilities Act (ADA) Standards
- California Building Standards Code (CBSC)
- City of Benicia Municipal Codes

We will ensure that all inspections are conducted in accordance with the latest versions of these and any other required regulations and that our recommendations and comments are based on these standards.

Specialty Services

4LEAF also has the capabilities and understanding to provide specialty services as requested by the City, including Code Enforcement Services.

Management Team

Craig Tole – Exec. Project Manager / Vice President, Community Development

Craig has served Community Development Departments for the past 20 years under the supervision of the company President. Among Craig's responsibilities include the day-to-day contact with many of 4LEAF's clients in the Building & Safety, Engineering, and Construction Management industries. Craig has successfully managed a multitude of inspection projects ranging from $1 million to $6 Billion. Craig also manages numerous County IOR programs including San Mateo County PDU, Santa Clara County FAF, Alameda County GSA, and Santa Cruz County GSD.

Lowell Brown – Project Manager

Lowell brings over 40 years of experience in the regulatory building industry, having worked in both public and private sectors. His expertise in site development and building systems allows for project coordination that aligns with the best interests of our clients. While managing Architectural, Mechanical, Electrical, and Plumbing plan reviews, Lowell has simultanisly represented 4LEAF on major projects for jurisdictions from Power Generating Stations, Hydrogen Facilities, Chip Manufacturing to Data Centers. His philosophy centers on training and supporting both staff and clients as their liaison to ensure compliance and to maintain flourishing relationships throughout the plan review and construction phase.

Office - (925) 462-5959 | Cell - (925) 890-9979 | Email - LBrown@4leafinc.com

Pete Roque – National Director of Code Enforcement

Pete brings with him over 19 years of experience in Code Enforcement and has served in the capacities of Code Enforcement Administrator, Code Enforcement Manager, and Community Development Inspector II for multiple municipalities. Pete is proficient in conflict resolution and has a wealth of knowledge in the subjects of permit regulations, City codes, housing investigations, citation issuance, and lien appeals.

Office – (925) 462-5959 | Cell – (562) 569-0098 | Email – PRoque@4leafinc.com

Nicholas (Nick) Henderson, CBO – Northern California Regional Area Manager

Nick is a highly experienced ICC Certified Building Official with extensive administration and project management experience spanning over 45 years. He has successfully guided development department staff in inspection and plan review through all phases of complex and capital-intensive projects. Nick is experienced in directing all department responsibilities including plan review, inspections, office and field supervision, and code interpretation. With his customer-first attitude and approach, Nick makes a difference to those he works with through his skills in complaint resolution, problem solving, and team building.

Giovanni Caponigro – Inspection Coordinator

Giovanni expertly balances the demands of growing business opportunities with the complex task of coordinating inspection personnel across various municipalities. With a strong foundation in strategic planning and relationship management, Giovanni excels at identifying and nurturing client partnerships while ensuring the coordination of inspectors is streamlined and efficient.

Office - (925) 462-5959 | Cell - (925) 719-6072| Email - GCaponigro@4leafinc.com

On-Call Supporting Staff

Steven Arnold, CBO, CASp – Certified Access Specialist (CASp) Inspector

Steven is an experienced CASp Inspector with 25 plus years of expertise in the industry. He has excellent working knowledge of all types of construction, including architectural, structural, electrical, mechanical, and plumbing. Steven is extremely committed and has shown dedication by obtaining certifications through the International Code Council (ICC). Steven has experience managing and overseeing the continual operations of the Building Department. Steven is an adaptable leader that quickly identifies departmental issues and solves them by utilizing his ample experience. He prides himself on his ability to solve problems and react well under pressure, while maintaining the effectiveness of his team. Steven has maintained many professional relationships with his staff and members of the public, by being available and having a plan.

Andrei Oustinov – Senior Combination Building Inspector / MWELO Inspector

Andrei is an ICC Certified Combination Inspector and Inspector of Record with more than 32 years of hands-on experience in all aspects of construction, including: electrical, plumbing, mechanical, concrete, rough, and finish carpentry. Combined, his experience includes 20 years of supervisory experience, 17 years of experience in the building inspection field for a public building inspection office, five years of experience as a Senior Inspector, Plan Checker and Supervising Inspector, and 8 years as a Building Inspection Manager. Additionally he has a history of supervising and providing MWELO Inspections for clients such as the County of San Benito.

Michael Decroix – Senior Building Inspector / Inspector of Record

Michael has more than 24 years of experience in the construction & Inspection industry. He has been involved with many high-profile projects such as $1.3 Billion Modernization Project for the San Jose Mineta International Airport, the National Steinbeck Center, Salinas Sports Complex, and the Residential Care Facility. He has extensive knowledge of and experience applying, implementing, and enforcing the International Building Codes through plan reviews and inspections. Michael is proficient with all major construction methods and procedures, including hands-on management experience as a representative and overseer.

Andrew Cadiz – Building Inspector

Andrew is an experienced Building Inspector and Site/Drone Surveyor with a strong foundation in solar energy systems and infrastructure. He has a successful track record managing field projects, meeting performance targets, and ensuring code compliance across both public and private sectors. On behalf of 4LEAF, Inc., Andrew has provided inspection services on to multiple Bay Area municipalities, including the Cities of Benicia, El Cerrito, Sonoma, Pleasanton, Cupertino, Union City, and Hollister. With several years in the solar industry as both a Service Technician and Drone Surveyor, he brings hands-on expertise with systems like SolarEdge and Enphase, and proficiency in drone mapping platforms such as Scanifly. FAA-certified and technically trained in mapping and inspection, Andrew delivers accurate survey data and thorough reports.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

Charles Seevers – Building Inspector

Charles is a seasoned professional with 15 years of office management and bookkeeping experience in the community development industry. Having recently provided inspection services to the City of Benicia, he is familiar with the City's processes and procedures. He is a detail-oriented Inspector, checking project conformance to adhere with city regulations and code. He is a safety-oriented professional with a strong attendance record. Charles is hardworking, is proficient in conducting accurate visual measurement tests, and preparing/maintaining comprehensive inspection reports and records. Overall, Charles is a team player committed to collaborating and working cross-functionally to meet all milestones and schedules.

Danielle Hendricks – Senior Permit Technician

Danielle is an exceptional team member who takes initiative in any project or task she is assigned. As an ICC Certified Permit Technician, she is highly skilled in handling building permit duties and ensures compliance with all relevant regulations. She excels in office management duties, including front desk operations, and effectively communicates with building management, outside services, the general public, and vendors. Danielle is punctual, self-motivated, organized, and has a proven ability to multitask and thrive in a fast-paced, demanding environment.

Shayne Prudente – Permit Technician

Shayne is an exceptional team member who takes initiative in any project/task she is assigned and has over 8 years of customer service experience. She is skilled in office management duties including front desk operations and communicating with multiple department managers, outside services, vendors, and customers. Shayne is punctual, self-motivated, has strong organizational skills, and has the ability to multitask in a fast-paced and demanding environment due to her previous work experience. Her professionalism, organizational skills, and quality work ethic makes her a great asset to any department.

Michael (Mike) Torres – Code Enforcement Supervisor

Michael is a highly efficient professional with 13+ years of customer service experience and 16+ years of related industry experience in working with building departments. Michael is a resolute team player with a strong suit in problem solving abilities, logistical planning, managing projects, and ensuring project completion while working with stakeholders. His professional and scholastic knowledge and experience with Code Enforcement Units has equipped him with the knowledge needed to respond to blight and nuisance complaints, schedule abatement clean-ups in collaboration with code units, and successfully assist in bringing properties into compliance. Michael is a professional guided by his integrity along with his diligence and ensuring tasks are completed efficiently and timely, making him an asset to any department.

Alexis Burrola – Code Enforcement Officer

Alexis is a proficient code enforcement professional with a strong background in supporting individuals within regulated environments. She is skilled in conducting comprehensive facility inspections, developing Behavior Support Plans, and maintaining accurate client records. Alexis excels in communicating with clients and team members to ensure compliance and quality care. She demonstrates effective leadership in coordinating team operations, providing feedback, and liaising between professionals. Alexis is adept at upholding standards and fostering positive growth within structured settings.

Full Resumes, including qualifications, education, and professional certifications, for Management and On-Call Supporting Staff have been submitted to the corresponding questionnaire via the City's procurement portal.

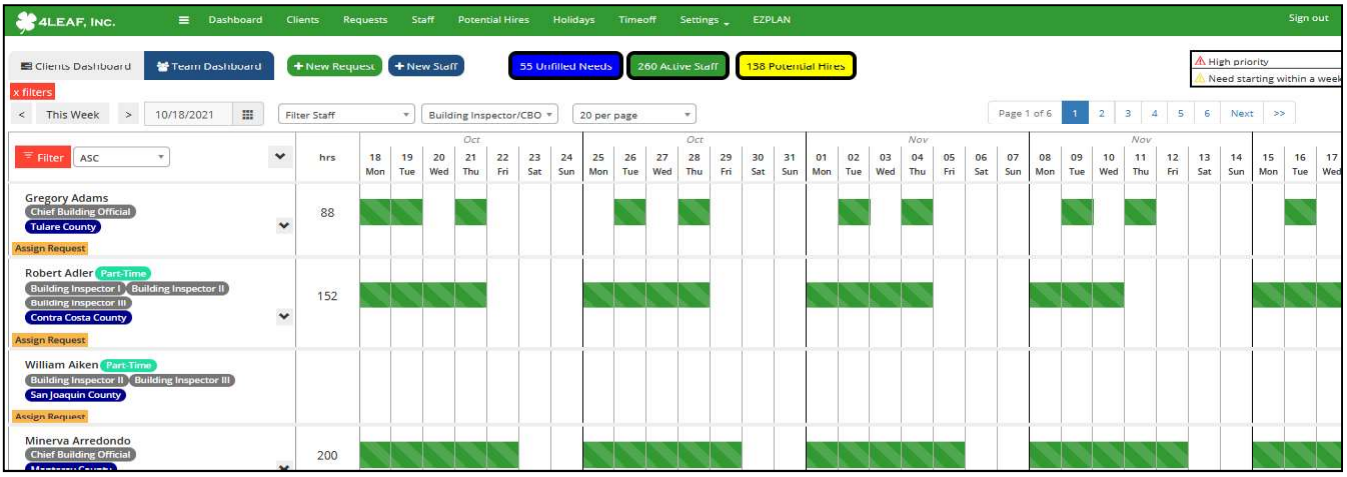
Inspection Services

4LEAF has a team of more than 200 ICC Certified Building Inspectors, OSHPD/DSA Inspectors of Record, Fire Personnel, and Construction Inspectors working on various contracts. 4LEAF has a team committed to work throughout California who will remain for the duration of projects to ensure we capture the goals and performance that have made our inspection system successful. With our diverse and exceptionally qualified inspection staff, we are confident in our ability to provide **Residential Building, Commercial Building, Combination Residential, and Combination Commercial Inspector(s)** to the City.

We maintain the largest database of qualified inspectors of varied qualifications. Inspectors vary from current full-time inspection staff, idle staff (temporarily between assignments), and pre-qualified staff which include inspectors who are available subject to client demand. 4LEAF's inspectors are all ICC Certified and experienced working within a municipal work environment. 4LEAF will provide inspectors with all the necessary tools, equipment, and current code books sufficient to facilitate all required inspections. **4LEAF can provide interim or full-time inspectors same-day or within one business day—**simply call, email, or text our assigned Project Manager for an immediate response. Our on-call database is utilized for all our clients for as-needed requests.



Periodic Inspection Services → Available Next Day

4LEAF can fulfill inspection requests immediately upon request including same day. 4LEAF has a wealth of local and available inspectors ready to serve the City. In addition, 4LEAF has a proven track record of providing such services to a number of different building departments.

Part-Time Inspection Services → Available Next Day

4LEAF will provide the City with part-time inspectors upon request. 4LEAF can provide part-time staff within 24 hours of request for any duration of time. 4LEAF's Project Manager will work closely with the department to identify the right personnel and determine the appropriate work schedule.

Full-Time Inspection Services → Available Two Days or Less

4LEAF can provide full-time inspectors upon request. 4LEAF provides this service regularly to many clients throughout Southern California, Northern California, Central Valley, Central Coast, Sacramento Valley, Peninsula/South Bay, East Bay, and North Bay.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

Project Specific Inspection Services → Available Two Days or Less

4LEAF is often tasked with providing inspection services to large projects on behalf of municipalities. 4LEAF currently handles large-scale projects for such clients as the City of Palo Alto, City of Cupertino, etc. These projects are developer funded into a separate City account which is distributed to 4LEAF using a separate invoice and contract number. This is particularly helpful to fast paced projects looking for continuous inspection services over a short period of time (i.e. 6 - 36 Months).

Inspection Technology

4LEAF has extensive experience working with various inspection reporting technologies, including **elas**.™ and GoFormz which 4LEAF used this for all scopes of the Apple 2 Campus **(~$8 Billion)**, and for the Encore Boston Harbor Casino **(~$2.6 Billion)**, San Mateo County Project Development Unit **(~$1.1 Billion)**, and at San Jose State University **(~$1 Billion)**. Innovative technology allows every piece of information collected on a project to be accessible by all staff as every inspection report is stored securely and safely in the cloud. The information can be accessed through a user's web account where any inspection report can be viewed, and reports can be ran using stored project data. With inspection technology, 4LEAF inspectors are able to leave detailed notes under the inspections and observations box and instantaneously attach pictures to reports to show the items inspected. By means of an iPad, inspectors sign reports using a mobile signature block and attached pictures of the item inspected that were taken using the iPad.

Innovative Technology Through elas.™

elas.™ was developed by experts in the construction field. This insider knowledge ensures solutions are finely tuned to the unique needs and challenges of the construction industry.

Our commitment to continuous innovation keeps **elas**.™ at the forefront of special inspection reporting software. We actively incorporate client feedback and industry best practices to provide the most advanced tools and features available. This dedication ensures your investment in **elas**.™ grows with you, adapting to the ever-changing demands of the construction industry.

Experience the Difference

Discover how this innovative technology can empower your team to achieve greater efficiency and success. Let **elas**.™ be your partner in revolutionizing construction inspection reporting.

By leveraging the strengths of **elas**.™, construction professionals can achieve unparalleled efficiency, accuracy, and control over their projects. Let this investment work for you and experience the difference that real-time reporting and expert-driven solutions can make in your construction projects.

4LEAF, INC.
CONSTRUCTION MANAGEMENT · PLAN CHECK
INSPECTION · PLANNING · CODE ENFORCEMENT

Building Department Services

4LEAF has a proven track record of providing Permit Technician/Counter staff and Building Officials to jurisdictions. 4LEAF can deploy such staff on short notice and offer training programs for department staff, if required. Our staff encompasses the right combination of experience, education, and certifications.

Permit Technician

4LEAF Permit Technician Staff must be experienced and dedicated to serving the public at the Planning and Building Department counter. 4LEAF has numerous Permit/Counter Technicians on staff, many who are currently assigned to Building Departments throughout the state. All staff will have the materials, resources, tools, and training required to perform the job. Typical Permit Technician duties include:

- Accepting plans for plan check
- Verification that plans are accurate and complete
- Calculating permit fees
- Explaining ordinances and procedures to owners, contractors, developers, architects, and the public
- Assisting with preparation of permit applications
- Receiving plans for Planning and Building permits and route to various agencies (if requested)
- Accepting complaints on code violations, process, and record complaints
- Answering phone calls for field and office staff
- Processing inspection requests
- Maintaining files for building permits
- Operating the Building Department's computerized information system
- Inputting a variety of information, including building permits and inspections
- Completing related duties and responsibilities as assigned by Building Official and Senior staff members

Building Official

The 4LEAF Interim Building Official can provide in-house plan reviews to the City, limiting the amount of projects distributed to outside consultants and helping the City achieve significant cost savings. The Building Official will act as an adjunct staff member to the City and work with City personnel and various departments to perform professional building services including but not limited to plan review, permit technician, building inspection, and code enforcement.

Staff qualifications for this role include evaluating and documenting projects for compliance with applicable building standards and housing codes, on- and off-site plan review, staff augmentation, and other building department related tasks. Proposed staff for this role will be appropriately trained and certified for all work.

Placement Schedule

Building Department Staff	Interim	Full-Time
Permit Technician (ICC Certified)	< 2 Days	< 5 Days
Assistant Permit Technician/ Counter Staff	< 2 Days	< 5 Days
Building Official	< 2 Days	< 15 Days

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

Code Enforcement Services

Our Code Enforcement personnel are certified through the **International Code Council, CACEO, and various training programs offered through accredited institutions**. In addition, most of our personnel hold a PC832, ICC Property Maintenance and Housing Inspector, and/or CACEO.

4LEAF staff have experience in collaborating with property owners and other responsible parties to bring properties into compliance with regulatory standards. Our team is entrusted with the responsibility of ensuring adherence to local, state, and federal laws, codes, ordinances, and regulations pertaining to various aspects of community development and public safety. Our Code Enforcement team possesses a diverse skill set and expertise covering a wide area, including building construction, zoning, land use, property maintenance, health and sanitation, environmental protection, and public nuisances. Our Code Enforcement team is adept at utilizing various procedural mechanisms, such as issuing administrative citations, investigating potential violations and ensuring prompt resolution while upholding legal integrity. At 4LEAF, our primary goal for our code enforcement team is to promote and maintain the health, safety, and welfare of residents and visitors within the municipality or jurisdiction we serve.

4LEAF Code Enforcement Officers have experience in writing criminal citations and in working with legal counsel to assist in the successful prosecution of Code Enforcement cases either in criminal or civil courts when necessary. We focus on nearly every area of Code Enforcement including, but not limited to, the following categories detailed below.

Scope of Services & Areas of Enforcement

Standard Operating Procedures

4LEAF's Code Enforcement Directors have an extensive history with Cities and Counties in preparing Standard Operating Procedures (SOP's) to ensure consistency while performing code enforcement duties. This will provide guidelines for Code Enforcement personnel to implement and achieve voluntary compliance. These SOP's are specific to each community's needs and we help establish a uniform set of guidelines for consistency and efficiency. Some of these areas include:

- Training guidelines for new Code Enforcement Officers
- Safety guidelines (including Officer Safety Procedures or compliance with SB246)
- Hearings
- Testimony

Blight Enforcement

Our team works to identify and enforce state and local laws pertaining to the maintenance of private property. Through field contact with tenants and property owners, our team works efficiently in providing guidance to address blighted conditions such as overgrown weeds, trash, debris, and graffiti.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

Classroom Training with CEUs

You can often find members of 4LEAF training nationally for organizations such as the International Code Council (ICC), American Association of Code Enforcement (AACE), California Association of Code Enforcement Officers (CACEO), and other nationally recognized affiliations of these chapters. 4LEAF's training leads include Pete Roque, Kenneth Eckman, and Alejandra Molina. Our instructors are nationally accredited and offer Continuing Education Credits (CEUs).

Our trainers currently cover topics such as:

- 10 Most Common Complaints
- Accessible Parking
- ADU Legislation
- Agency Promotion Community Relations
- Banner and Sign Enforcement
- Basic Ethics
- Basic Ethics and Inspections
- Basic Ethics, Authority, and Inspections
- Basic Inspection Protocol
- Basic Report Writing
- Basic Residential Construction
- Blueprint Reading
- Building And Safety Presentation
- Building Blocks for Code Enforcement Officer Success
- Building Code
- Building Inspections and Code Enforcement – A Powerful Duo
- Case Documentation
- Case Management from Start to Finish
- Code Enforcement 101
- Code Enforcement Culture

- Dealing With Difficult People
- Effective Communications – Bridging the Gap with External and Internal Customers
- Ensuring Short-Term Rental Reg. Compliance
- Essentials for Short-Term Rental Enforcement
- Ethics
- Hoarding
- Individual Awareness and Preparation
- Inspection Protocol
- Interior Inspections
- Intermediate Communications
- Interview And Interrogation
- Interview And Report Writing
- Investigative Report Writing
- IPMC 2021 or 2018 Exam Prep
- IPMC 2021 Overview
- Landlord Tenant Disputes
- Legal Aspects
- Marketing Your Code Enforcement
- Mobile Vending
- Mold, Lead, Asbestos, & Vectors Enforcement
- Multi-Agency Task Forces
- Officer Safety – Drug Awareness for the Code Enforcement Officer
- Officer Safety – Encountering Mental Illness in the field of Code Enforcement (Self-Care)
- Officer Safety – Field Inspection Protocols for the Code Enforcement Officer
- Officer Safety – Gang Awareness for the Code Enforcement Officer
- Officer Safety – Hazardous Building Safety for the Code Enforcement Officer
- Planning And Zoning Basics
- Property Maintenance

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

Community Outreach

4LEAF will review current outreach and engagement initiatives and make appropriate recommendations to the City. Items typically reviewed include:

- Opportunities for involvement in community events
- Creation of pamphlets and marketing material
- Social media engagement
- News media outlets
- Municipal Code Enforcement web page
- Review of frequently asked questions

Department Assessments

4LEAF is working with many Community Development Departments to provide assessments of their code units reviewing closely staffing levels, Standard Operating Procedures (including branding/rebranding, target issues, prioritization of existing Code Enforcement cases, community engagement strategies, written materials such as compliance notices, postings and door hangers, data entry, inspection response time management, and training programs. Additionally, 4LEAF provides in-house assessments and regular meetings with directors and municipal stakeholders for plan implementation and execution.

Hearing Officers

4LEAF has Hearing Officers available for contracted municipalities. Our seasoned officers are trained to understand the existing Municipal Code as well as other adopted codes and make a knowledgeable determination regarding the validity of a violation. Results may include the issuance of fines or granting additional time for compliance for respondents with unusual hardships.

Inspections

4LEAF can provide certified and qualified staff to perform inspections in a lawful manner that respects the reasonable expectations of privacy and security of residents and their properties. Inspections conducted will determine if conditions on the properties are compliant with applicable sections of the current editions of the International Property Maintenance Code (IPMC), Municipal Code, Zoning Code, California Health and Safety Codes, Uniform Housing Code, Uniform Code for the Abatement of Dangerous Building, CA Residential Code, CA Building Code, and trade codes. Upon assignment, 4LEAF's Code Enforcement staff will be ready to respond and provide compliance solutions to code cases, new and existing, with minimal impact to current processes.

4LEAF Code Enforcement Inspectors are qualified to do the following:

- Perform inspections for violations of Building Codes and Ordinances as adopted by the municipality.
- Research properties for prior approvals, permits, and general information relating to violations.
- Investigate and take necessary action when a violation of municipal codes exists.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

- Consult with the City Council as required, when requested by the Code Enforcement Manager/Director, and when escalated enforcement may be required.
- Comply with the City's procedures for reporting inspection results and deficiencies.
- Use City inspection correction forms.
- Complete necessary digital entries that capture site inspection results, case status communications and any documentation of notices provided to responsible parties and stakeholders.
- Conduct follow-up inspections as needed.
- Notify the responsible parties of other agency approvals prior to closing a Code Enforcement action.
- Maintain records as needed for the efficient and effective operation of the City.
- Meet with members of the public and municipal staff on a daily basis as needed.

Short-Term Rental Programs

One of the fastest-growing programs within Code Enforcement Divisions is short-term rentals. 4LEAF assists with compliance with municipal short-term rental ordinances that require property owners to adhere to several rules, including limiting the number of daytime and overnight guests, prohibiting events and amplified sound, and posting specific rules and emergency information, among others. Short-term rentals are presenting challenges within our communities. While these rentals offer unique opportunities for travelers and hosts, they have also brought forth various concerns that warrant immediate attention. Housing availability, neighborhood dynamics, and safety considerations have raised valid apprehensions among residents. 4LEAF understands these issues and is pleased to present a comprehensive scope of services designed to regulate short-term rentals effectively, fostering a harmonious coexistence for all stakeholders involved. Our proposed solution encompasses meticulous research, the development of fair regulations, stringent compliance inspections, and a robust enforcement system to address illegal postings and operations. With these measures in place, we can resolve the prevailing issues and create a sustainable short-term rental ecosystem that benefits the entire community. We look forward to collaborating with you all in implementing this solution and achieving a positive and lasting impact on our neighborhoods. These are scopes of services that we provide, including but not limited to:

1. Research and Analysis: Conducting a thorough study of the local short-term rental market is crucial to understanding the current landscape and potential impact on the community. This data-driven approach enables your jurisdiction to make informed decisions and design effective regulations tailored to your specific needs.

2. Developing Regulations and Policies: Developing clear and well-defined regulations is essential for creating a level playing field for all short-term rental operators. These policies help establish guidelines, standards, and boundaries that ensure the industry operates responsibly, benefiting both residents and hosts alike.

3. Licensing and Registration: Implementing a licensing and registration system ensures that only eligible and responsible operators are allowed to offer short-term rentals. This process helps your jurisdiction track and communicate with operators, making it easier to enforce regulations and ensure compliance with safety and tax requirements.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

4. Compliance Inspections: Regular compliance inspections are vital to guarantee the safety and quality of short-term rental properties. By verifying adherence to regulations, your jurisdiction can maintain community safety, prevent potential hazards, and protect the rights of both guests and neighbors.

5. Enforcement and Penalties: A robust enforcement mechanism, including penalties for non-compliant operators, serves as a deterrent against illegal or irresponsible practices. By imposing consequences for violations, authorities can discourage unlawful behavior and encourage operators to adhere to the established regulations.

6. Data Monitoring and Reporting: Implementing or ensuring that proper documentation is completed is standard operating procedure for 4LEAF. A proper data monitoring system provides insights into the short-term rental market's impact on housing and the local economy. It enables evidence-based decision-making, helping your jurisdiction adjust regulations if necessary and fostering transparency in the regulatory process.

7. Public Awareness and Education: Public awareness campaigns educate both short-term rental operators and residents about their respective rights and responsibilities. By promoting best practices and addressing concerns, these campaigns foster a sense of community understanding and cooperation, reducing potential conflicts.

8. Collaborative Partnerships: Partnering with short-term rental platforms and law enforcement agencies fosters cooperation and facilitates compliance. Data sharing and joint efforts between these stakeholders help streamline the enforcement process and address challenges more effectively.

9. Complaint Resolution: a complaint resolution empowers residents to report issues and complaints related to short-term rentals. Swift and fair resolution of complaints helps maintain harmony within the community and ensures that any problems are addressed promptly.

10. Periodic Review: Regularly reviewing and updating regulations allows your jurisdiction to keep pace with changes in the short-term rental industry and adapt to new challenges or opportunities. This flexibility ensures that the regulatory framework remains relevant and effective in achieving its intended goals.

Lead Abatement

Although lead-based legislation has been around since the 1950s, nationwide regulation was not enforced until 1971 with the introduced of the Lead-Based Paint Poisoning Prevention Act (LBPPPA), which prohibited the use of lead-based paint in residential structures constructed or rehabilitated by the Federal government or with Federal assistance. In 1973, an amendment to the LBPPPA stated that lead-based paint should be removed from pre-1950 housing and structures. Our Code Enforcement team follows the requirements set forth by the State of California to ensure proper lead safe practices are taking place in removal of lead-based paint to protect citizens from exposure.

Additionally, our team participated at the National Healthy Homes Conference in 2022 in Baltimore, MD, where we spoke on the importance of Code Enforcement for Lead Paint Abatement Programs to safeguard communities.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

Massage Parlor Enforcement

This scope can often be utilized for undercover stings with partnering agencies for businesses that not only violate criminal laws but also building code violations, licensing requirements, and potential massage parlor ordinances in the City. Early detection is vital in these cases and steps include background checks and other reasonable means of identification and clearances. Our team has championed programs specializing in identifying and mitigating illegal actions in massage parlors.

Parking Enforcement

4LEAF has the capabilities of providing parking enforcement. This includes:

- Enforcement of state and municipal parking regulations.
- Removal of abandoned and nuisance vehicles from the public right-of-way.
- Issuance of parking citations and review of contested citations.

Policy Review

4LEAF shall review and read current policies and procedures and define policy clearly to set the tone for your municipality's Code Enforcement Program. A clear policy communicates defined expectations to stakeholders whether it's how they handle complaints, how Code Enforcement Officers conduct compliance reviews, or any other aspect that the municipality needs to have communicated and consistently followed. 4LEAF will develop a well-defined user-friendly format.

Program Analysis

4LEAF understands that Code Enforcement is an essential part of a community's public health and safety, providing a regulatory mechanism to ensure the public's overall wellbeing. Addressing the community's concerns in a timely and efficient manner is paramount to a successful Code Enforcement Program. 4LEAF personnel will perform the following:

- Conduct investigative inspections of unpermitted activities.
- Create standard operating procedures, if required.
- Conduct review of all administrative/misdemeanor citations.
- Provide guidance for resolution of high case load along commercial corridors.
- Assist with complex code enforcement cases.
- Provide guidance for resolution of existing cases.
- Provide in-house and/or field training of traditional Code Enforcement protocols.
- Create an outreach plan to address and deter unpermitted vending/commercial corridor violations.

Program Development

4LEAF project managers have experience in working collaboratively with clients to further develop and enhance their Code Enforcement Program when requested. Our project managers are currently working with local jurisdictions to revise and strengthen Code Enforcement Programs to gain voluntary compliance, provide resident education, and effectively communicate with the public. 4LEAF staff takes an approach in recommending, implementing, and executing program assessments, creation of policies and procedures, creation of training manuals for new hires, providing educational materials for the public, providing staff with up-to-date training, teaching current Code Enforcement staff options for compliance using adopted ordinances, and providing

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

recommendations to cases that may require specialized expertise that may be sensitive in nature. 4LEAF staff also has designated staff tracking recent legislation to ensure the municipality follows state regulations and clients are aware of upcoming legislation that may affect their Code Enforcement Program.

Project-Specific Assignments

Our Code Enforcement Directors are often brought on board by municipalities to provide consulting for long-standing cases that need a fresh set of eyes and assessment. The Code Enforcement team at 4LEAF will lend their considerable expertise in bringing those difficult cases into compliance. We will review your most challenging cases, assess the work done to date, and confer with the Municipal Code and your department's Standard Operating Procedures. Once our analysis is complete, 4LEAF will provide you with a detailed report of our findings and specific step-by-step strategies to get those cases off the active roster. 4LEAF personnel will be available to speak with stakeholders such as Department Heads, Council, and other elected officials. If necessary, we can also provide Expert Witness Testimony.

Rental Housing Enforcement

Our team will assist with the inspection of residential rental properties on a routine and comprehensive basis to assure the overall quality of the unit meets the requirements of the Health and Safety Code and property maintenance guidelines. This includes educating property owners, property managers, and tenants about those requirements.

Review and Develop SOPs

4LEAF routinely works with Code Enforcement Divisions to review the current Standard Operating Procedures and provide suggestions for enhancing SOPs. Our staff can also help implement and train the existing municipal personnel in these changes. Currently, we are providing these services for California municipalities such as the cities of Escondido, Del Mar, and San Diego.

Staff Augmentation (After-Hours / On-Call Officers)

4LEAF specializes in providing personnel to municipalities on a part-time or full-time basis. At your request, our staff arrives at your door with training opportunities, study materials, company phones, and energy- saving fleet vehicles. When necessary, ***4LEAF is capable of providing Code Enforcement staff outside of normal business hours to improve response times, address code violations, and improve response times and maintain public space integrity***. 4LEAF's Code Enforcement Staff Augmentation personnel categories include:

- Department Director
- Department Manager
- Code Enforcement Manager and Training Officer
- Senior Code Enforcement Officer
- Code Enforcement Officer I & II
- Code Enforcement Coordinator/Technician
- Hearing Officer

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

Stormwater Enforcement

4LEAF provides Stormwater Enforcement. This includes the visual inspection of infrastructure dedicated to the management of rainwater. Violations would include having inadequate erosion/sediment controls for property, failing to conduct/document inspections, illegal dumping, overgrowth of vegetation, and flooding.

Substandard Housing

One of the major areas of code enforcement throughout the U.S. is the inspection of Substandard Housing. 4LEAF Code Enforcement Officers routinely inspect and report any violations to housing codes including substandard and uninhabitable conditions, un-permitted construction, unlawfully created units or spaces, inadequate or non-existent heating, accumulated trash and debris, lack of utilities, property maintenance, mold, and rodent/insect infestations.

Tobacco Enforcement

These programs ensure that retailers are properly licensed/permitted for the sale of tobacco and such establishments are posting proper notification such as STAKE Act stickers at each point of sale. In addition, we can assist in compliance with work-place smoking and vaping prohibitions.

Vendor Enforcement

In many areas across California, unlawful street vending has become a pressing concern. These vendors, offering a wide variety of products, often operate without adhering to established regulations, leading to challenges such as littering, public right of way obstructions, and unfair competition with authorized businesses. While California has taken commendable steps, such as the introduction of Senate Bill 946 and Senate Bill 972, both of which are designed to regulate and decriminalize certain aspects of street vending, there remains much work to do. Many vendors, driven more by economic desperation than defiance, continue to bypass these regulations, resulting in a surge of potentially unsafe vending operations, many of which are food vendors. This not only jeopardizes public health but also diminishes the state's regulatory efforts.

4LEAF is an experienced solution-oriented firm that recognizes the complexities of this issue. Beyond mere law enforcement, the 4LEAF team understands the socio-economic intricacies driving vendors towards this livelihood. Our tailored programs are designed to address the root causes, ensuring vendors have pathways to legitimate operations while helping jurisdictions maintain public safety and order. Through a partnership with the City, 4LEAF is poised to offer a comprehensive strategy and service that not only aligns with state regulations but also provides sustainable solutions for the challenges of unlawful street vending.

LEVEL OF EFFORT LETTER

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

SECTION 6: LEVEL OF EFFORT LETTER

Given the on-call nature of this contract, the actual tasks and corresponding hours may vary depending on the specific needs that arise during the term of the agreement. To satisfy the City's request, we have provided a preliminary estimate of level of effort in the itemized spreadsheet below. This includes personnel classifications and estimated hours as a percentage of total time expected. Please note that these estimates are based on current assumptions and are subject to change based on project demands and the scope of work requested by the City throughout the contract.

Name	Personnel Classification	Estimated Hours (Percentage of Time)
Craig Tole	Executive Project Manager	5%
Lowell Brown	Project Manager	10%
Pete Roque	Director of Code Enforcement	5%
Nicholas Henderson	Northern California Regional Area Manager	5%
Giovanni Caponigro	Inspection Coordinator	10%
Steven Arnold	CASp Inspector	5%
Andrei Oustinov	Combination / MWELO Inspector	5%
Michael Decroix	Senior Building Inspector / IOR	10%
Andrew Cadiz	Building Inspector	10%
Charles Seevers	Building Inspector	10%
Danielle Hendricks	Senior Permit Technician	10%
Shayne Prudente	Permit Technician	5%
Michael Torres	Code Enforcement Supervisor	5%
Alexis Burrola	Code Enforcement Officer	5%

City of Palo Alto

Plan Review, Permit Technician, Building Official, and Building Inspection Services

Since 2007, 4LEAF has provided several combination inspectors to assist the City staff with routine daily inspections for commercial and residential properties located throughout Palo Alto. Our inspection services vary from full-time to temporary part-time staff to help augment vacation or extended absences to due illness and/or market demand.

Since 2010, 4LEAF has provided on-site plans examiners for the City of Palo Alto. Our Plans Examiners are registered Engineers in the State of California and ICC Certified, who are responsible for reviewing larger projects ranging between $100,000 to $100,000,000 under the direction of the Chief Building Official. Some reviewed and inspected projects include Skype, Stanford Medical Center, Technology Credit Union, and VMware. 4LEAF is currently reviewing and inspecting the following projects:

Public Safety Building, $84 Million (Essential Services Facility)

New three-story, 136,873 SF City of Palo Alto Public Safety Building will have 2 levels of underground parking and will house the Police Department, 911 Emergency Dispatch Center, the Emergency Operations Center, the Office of Emergency Services, and the administration needs of the Fire Department.

Stanford Biomedical Innovation Building, $126 Million

New research laboratory building for Stanford University School of Medicine. Four-story above garage and one below grade for a total of 216,647 SF. Wet-bench research laboratories and associate support spaces, faculty offices and open office spaces workstations, conference rooms and staff amenity spaces.

744 San Antonio Rd., $42 Million

Courtyard by Marriott and an AC Hotel by Marriott. Two, five-story hotels (164,764 SF) hotels offering a combined 294 rooms with surface and underground parking.

ISO 1 Rating

With approximately 13 full-time personnel working in the City, 4LEAF was instrumental in the implementation of the ISO Program achieving the ISO 1 Rating. In March of 2015, Palo Alto became the 8th City in the Country out of 14,000 Building Departments to achieve this status.

Project Development Unit (PDU) – County of San Mateo

Building and Fire Plan Check, Fire Inspection, and Inspector of Record Services

4LEAF is currently performing Plan Check and Inspector of Record services for multiple projects on behalf of the County of San Mateo's Project Development Unit. This $1.2 billion program consists of up to 18 projects over the course of more than five years. 4LEAF is responsible for the combination building inspections, fire inspections, fire plan check and inspection reports related to all projects including:

County Office Building III – LEED Platinum

The 208,000-square-foot County Office Building III consists of a unique mass timber structure, glulam columns/beams and CLT flooring. The 5-story low-rise building provides business office workspace with exceptional access to daylight, for a variety of county departments including the Board of Supervisors. In addition, there will be assembly spaces on Level One for the Board of Supervisors Chambers and support program associated, press room, conference center, as well as a gym and café.

Regional Operations Center

The new 37,000-square-foot, two-story Regional Operations Center (ROC) will be located on the County Center campus where the motor pool was once located. The Center will house 911 Public Safety Dispatchers, an Emergency Operations Center, and the Office of Emergency Services. The ROC will serve as a hub for public safety responders during major catastrophic events. The building will achieve LEED Silver certification from the U.S. Green Building Council and is the largest project funded to date by Measure K.

Skylonda Fire Station #58

This project consists of a barracks/office building consolidating the functions and operations of two existing structures into a single structure. The building will contain administrative offices and related support spaces, conference and training rooms, a kitchen and dining room, dayroom, dorm rooms, fitness rooms, showers, and restrooms. A new primary vehicular access connection shall be to facilitate improved traffic sightlines and vehicle turning radiuses.

Additional Projects

- Animal Shelter
- Cordilleras
- South San Francisco Health Center
- Parking Structure #2
- San Mateo Medical Center
- La Honda Fire Station
- Portola House
- Pescadero Fire Station
- Pine Street Project

City of Cupertino

On-Call Building Inspection and Plan Review Services

4LEAF performs on-call building inspection and plan review services for the City of Cupertino. 4LEAF has completed numerous residential and commercial plan reviews on behalf of the City.

Apple Park

4LEAF provided the Building, Fire, and Public Works Department Inspection services on the largest private commercial construction project in the Country. 4LEAF was tasked with mobilizing a **project team of more than 20** Building, Fire, and Public Works Inspectors, Project Administration Staff, and Engineering team for this more than **$8 Billion project**. 4LEAF was responsible for coordinating the inspections in relation to the City's permits and ultimately packaging milestones of the project for occupancy approval from the City's Chief Building Official.

- **Main Building –** The Main Building accommodates up to 12,000 employees and comprises approximately 2.8 million square feet.
- **Corporate Fitness Center –** Comprising approximately 100,000 square ft.
- **Corporate Auditorium –** Comprising approximately 120,000 square feet and will hold up to 1,000 people.
- **North and South Parking Structures –** Two above-grade parking structures of approximately 6,000 spaces.
- **Central Utility Plant –** Integrated parking structure and serves all buildings on the Main Building site.
- **Phase 2 Research and Development Buildings –** 600,000 square feet of office, research, and development and two separate above ground parking garages.

Plan Review Services

North and South Parking Structures – 4LEAF reviewed the above grade Parking Garages (2) for Apple Park. The 4LEAF team performed Structural, Architectural, Fire-Life-Safety, Mechanical, Electrical, and Plumbing. The garages included two – 3 story and 300,000 Sq. Ft. structures which included Photovoltaic Array on the rooftops. Both garages will be connected by bridges and spine ramp.

4LEAF was selected to perform inspections for the $2.2 Billion Vallco project. The Vallco project will provide approximately 430,939 square feet of new retail along with 2,402 residential units and 1,981,447 square feet of office with eleven (11) 22-story mixed-use high-rise buildings connected by a 30-acre green roof spanning the majority of the Vallco property.

City of Vallejo

On-Call Building Inspection, Building Official, Permit Support, Planning, Plan Review, Code Enforcement

4LEAF is providing On-Call full Building & Community Development Department services for the City. We are providing on- and off-site plan review for all building codes, including architectural, structural, plumbing, mechanical, and electrical plan check. We currently staff positions including Permit Technicians, Inspectors, Plans Examiners, Planners, and Code Enforcement Officers, ensuring that all project deadlines are delivered as per the City's contract.

Scopes of work include:

- Providing on-call personnel to the Building Department including construction inspectors, building inspectors, building officials, permit technicians, on-site plans examiners/engineers, civil engineers, and code enforcement personnel.
- Providing Building and Civil Plan Review as needed.
- Provide on-call personnel to the Planning Department including Assistant Planners, Planning Technicians, Associate Planners, Senior Planners, Planning Managers, and Planning Directors.
- Reviewing plans and supporting documents submitted for projects.
- Checking for compliance with all applicable codes adopted by the City, including, but not limited to California Building, Mechanical, Plumbing, and Electrical Codes, Uniform Solar Energy Code, and any applicable adopted local amendments, State of California codes or regulations.
- Confirming building use, occupancy, and type of construction, and reviewing construction of buildings and structures to determine satisfaction of safety requirements.
- Coordinating building permit requirements and interfacing with City Departments and other agencies, including but not limited to the Public Works Department and Planning Division.
- Enforcing conditions of approval associated with discretionary permits regarding building and safety regulations, as adopted by the City.
- Providing special inspections by qualified inspectors and conduct investigations as directed by the City, including field and office research and the preparation of letters and/or documents.
- Preparing inspection logs, notice of violations and other documents of building and safety code violation cases for submittal to the City Attorney's office when prosecution action is necessary to obtain compliance with the above codes and regulations.
- Receiving, processing, and issuing building permits and coordinate the plan check and inspection process, including the tracking, routing and storage of building plans and the filing of building permit applications. Input information into the City's computer tracking system.

BASIS OF CHARGES

Rates are inclusive of "tools of the trade" such as forms, telephones, and consumables.

- All invoicing will be submitted monthly.
- Staff Augmentation work (excluding plan review) is subject to 4-hour minimum charges unless stated otherwise. Services billed in 4-hour increments.
- Most plan reviews will be done in 10 business days or less and 5 business days or less for re-checks. This is not inclusive of holidays or the day of the pick-up of plans.
- Expedited reviews will be billed at 1.5x the plan review fee listed in the fee schedule. Return time will be within seven (7) days of receipt of the plans from the City.
- Plan review of deferred submittals & revisions will be billed at the hourly rates listed.
- All plan review services will be subject to a $262.00 minimum fee if percentage-based fee or 2-hour minimum charge if hourly rates apply.
- Larger complex plan reviews can be negotiated to achieve the best possible pricing.
- All plan review services will be subject to 2-hour minimum fee.
- All plan review services are billed on a percentage basis and include the initial review and 2 rechecks.
    - Plan reviews will be billed on an hourly basis only after the initial review and 2 rechecks unless otherwise agreed upon on a case-by-case basis.
    - Fire and Civil Reviews are billed on an hourly basis and are not included in our plan review percentage.
- 4LEAF assumes that these rates reflect the FY2025-2026 contract period. There will be a 3% escalation for each subsequent Fiscal Year. (i.e. FY2026-2027, FY2027-2028, and so forth)
- Overtime and Premium time will be charged as follows:
    - *Regular time (work begun after 5AM or before 4PM)* — *1 x hourly rate*
    - *Nighttime (work begun after 4PM or before 5AM)* — *1.125 x hourly rate*
    - *Overtime (over 8-hour M-F or Saturdays)* — *1.5 x hourly rate*
    - *Overtime (over 8 hours Sat or 1st 8-hour Sun)* — *2 x hourly rate*
    - *Overtime (over 8 hours Sun or Holidays)* — *3 x hourly rate*
- Overtime will only be billed with prior authorization of the Director or other designated City personnel.
- All work with less than 8 hours rest between shifts will be charged the appropriate overtime rate.
- Mileage driven during the course of Inspections will be charged at cost plus 20%.
- Payment due on receipt. All payments over 30 days will be assessed a 1.5% interest charge.
- Client shall pay attorneys' fees, or other costs incurred in collecting delinquent amounts.
- Client agrees that 4LEAF's liability will be limited to the value of services provided.
- In accordance with California's Meal Break and Rest Break Law requirements, Client will be billed one (1) additional hour per day at the regular rate for each missed meal or rest break due to Client-directed tasks or requirements. Client should allow 4LEAF's non-exempt, hourly employees the opportunity to take their entitled rest and meal breaks during each work shift.

Docusign Envelope ID: 149C0E2A-014A-4920-8B4A-00CCB90A9A2B

BASIS OF CHARGES – PREVAILING WAGE

- Rates shown assume the projects will require compliance with California Prevailing Wage rate requirements and assumes the Client will be filing a PWC-100 Form to the California Department of Industrial Relations (DIR) for the projects.
- Rates for prevailing wage categories are subject to annual escalations in accordance with the bi-annual wage determinations from the California DIR.
- Per the new requirements being enforced under SB 854 and because it is assumed that a PWC-100 Form will be filed by the Client to the CA DIR for each project, 4LEAF is required to notify an authorized Apprenticeship Committee through submittal of a DAS-140 form. We are then required to make an official request to an authorized Apprenticeship Committee for an apprentice by submitting a DAS-142 form. We are not assured the apprenticeship committee will be able to provide a suitable / qualified apprentice for the project. Per the apprenticeship requirements, the hours worked by the apprentice must be in a ratio of 1:5 for apprentice to journeyman hours. 4LEAF will not know the labor classification of the Public Works Apprentice until an Apprentice is dispatched to the site; therefore, the rates for the five Periods listed under the California DIR's Wage determination for Building Construction Inspector were used to determine the range of hourly rates for Public Works Inspector Apprentice.
- Pre-approved Overtime and Premium hours for labor categories subject to Prevailing Wage requirements will be charged per the following:
  - *- Nighttime (work begun after 4PM or before 5AM) 1.125 x hourly rate*
  - *- Overtime (over 8 hour M-F or Saturdays) 1.35 x hourly rate*
  - *- Overtime (over 8 hours Sat or 1st 8 hour Sun) 1.85 x hourly rate*
  - *- Overtime (over 8 hours Sun or Holidays) 2.35 x hourly rate*
- All invoicing will be submitted monthly.
- All work with less than 8 hours rest between shifts will be charged the appropriate overtime rate.
- Project-related mileage for inspections will be billed at the allowable IRS Rate plus an additional 20%.
- Payment due on receipt. All payments over 30 days will be assessed a 1.5% interest charge.
- Client shall pay attorneys' fees, or other costs incurred in collecting delinquent amounts.
- Client agrees that 4LEAF's liability will be limited to the value of services provided.
- In accordance with California's Meal Break and Rest Break Law requirements, Client will be billed one (1) additional hour per day at the regular rate for each missed meal or rest break due to Client-directed tasks or requirements. Client should allow 4LEAF's non-exempt, hourly employees the opportunity to take their entitled rest and meal breaks during each work shift.

26-026

PROFESSIONAL SERVICES MASTER AGREEMENT (BUILDING SAFETY – STAFF AUGMENTATION)

BETWEEN

CITY OF BENICIA AND

CSG Consultants, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and CSG Consultants, Inc., a California Corporation located at 550 Pilgrim Drive, Foster City, California 94404, licensed to do business in California, ("CONTRACTOR") relating to CSG: Building Safety Staff Augmentation - Master Services Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Staff Augmentation Services may include, but not be limited to:

A. Building Staff Augmentation:

B. Building Inspector

C. Certified Access Specialist Professional (CASp) Inspector

D. Building Permit Technician

E. California Water Efficiency Landscape Ordinance (WELO) Inspector

F. Building Official

G. Certified Floodplain Manager (CFM)

H. Specialty Services including Building Code Enforcement

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the

Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury

to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the

suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and
2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Cyrus Kianpour

President

cyrus@csgengr.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between CSG Consultants, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for

the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Benicia, CA 94510

Re: Proposal for On-Call Building Safety Services – Staff Augmentation – RFP #25-067

Dear Ms. Thorsen,

CSG Consultants, Inc. (CSG) would like to thank the City of Benicia (City) for the opportunity to submit our proposal for on-call building safety staff augmentation services. Having provided a variety of engineering services to the City in the past, we look forward to the opportunity to work in concert with the City in any new capacity where our services are needed. CSG offers a talented, dynamic, and experienced team that can cover fluctuations in workload, minimize response times, and assure that customer service standards are upheld and further supplemented by our experienced staff.

We understand the City is seeking qualified firms to provide on-call staff augmentation for building safety, specifically to perform onsite inspections for residential and commercial projects, project management, processing/reviewing permit applications, and building department coordination. CSG can readily provide the requested services (except for WELO inspection) with the personnel proposed herein. ***No subconsultants will be used.*** CSG personnel are registered engineers and/or ICC certified, with additional qualifications including CASp, CACEO, and PC 832 experience and certification. Many of our proposed team members are cross-trained in multiple service levels, enabling delivery of efficient, seamless services and the ability to respond to the City's fluctuating needs. We understand the scope of work to include:

- *Building Inspections (Residential/Commercial/Combination Inspectors)*
- *Certified Access Specialist Professional (CASp) Inspection*
- *Building Permit Technicians (ICC Certified)*
- *Building Official (CBO)*
- *Certified Floodplain Manager (CFM)*
- *Specialty Services (Code Enforcement) – CACEO, PC 832*

CSG, an employee-owned company, currently furnishes building and safety, public works, fire prevention, code enforcement, planning, and other services municipal services to over 250 public agency clients throughout California. For more than 30 years (since 1991), we have had a solutions-oriented approach to our work, leveraging our team's depth and breadth of experience and technical expertise to address code compliance challenges for our clients. In addition to our prior work with the City, CSG also provides similar services to regional client agencies that include the Cities of South San Francisco, Brisbane, Alameda, Elk Grove, Los Banos, and Mountain House.

Brian Frenger, CBO, will serve as the primary point of contact for the City on all correspondence and communications pertaining to the requested services. His contact information is provided below:

> **Brian Frenger, CBO,** Regional Building Services Director
> (530) 300-0322 ***Mobile*** | (916) 492-2275 ***Office*** | brianfrenger@csgengr.com ***Email***

We greatly look forward to the opportunity to continue to partner with the City in serving the community of Benicia together.

Sincerely,

Cyrus Kianpour, PE, PLS
President, CSG Consultants, Inc.

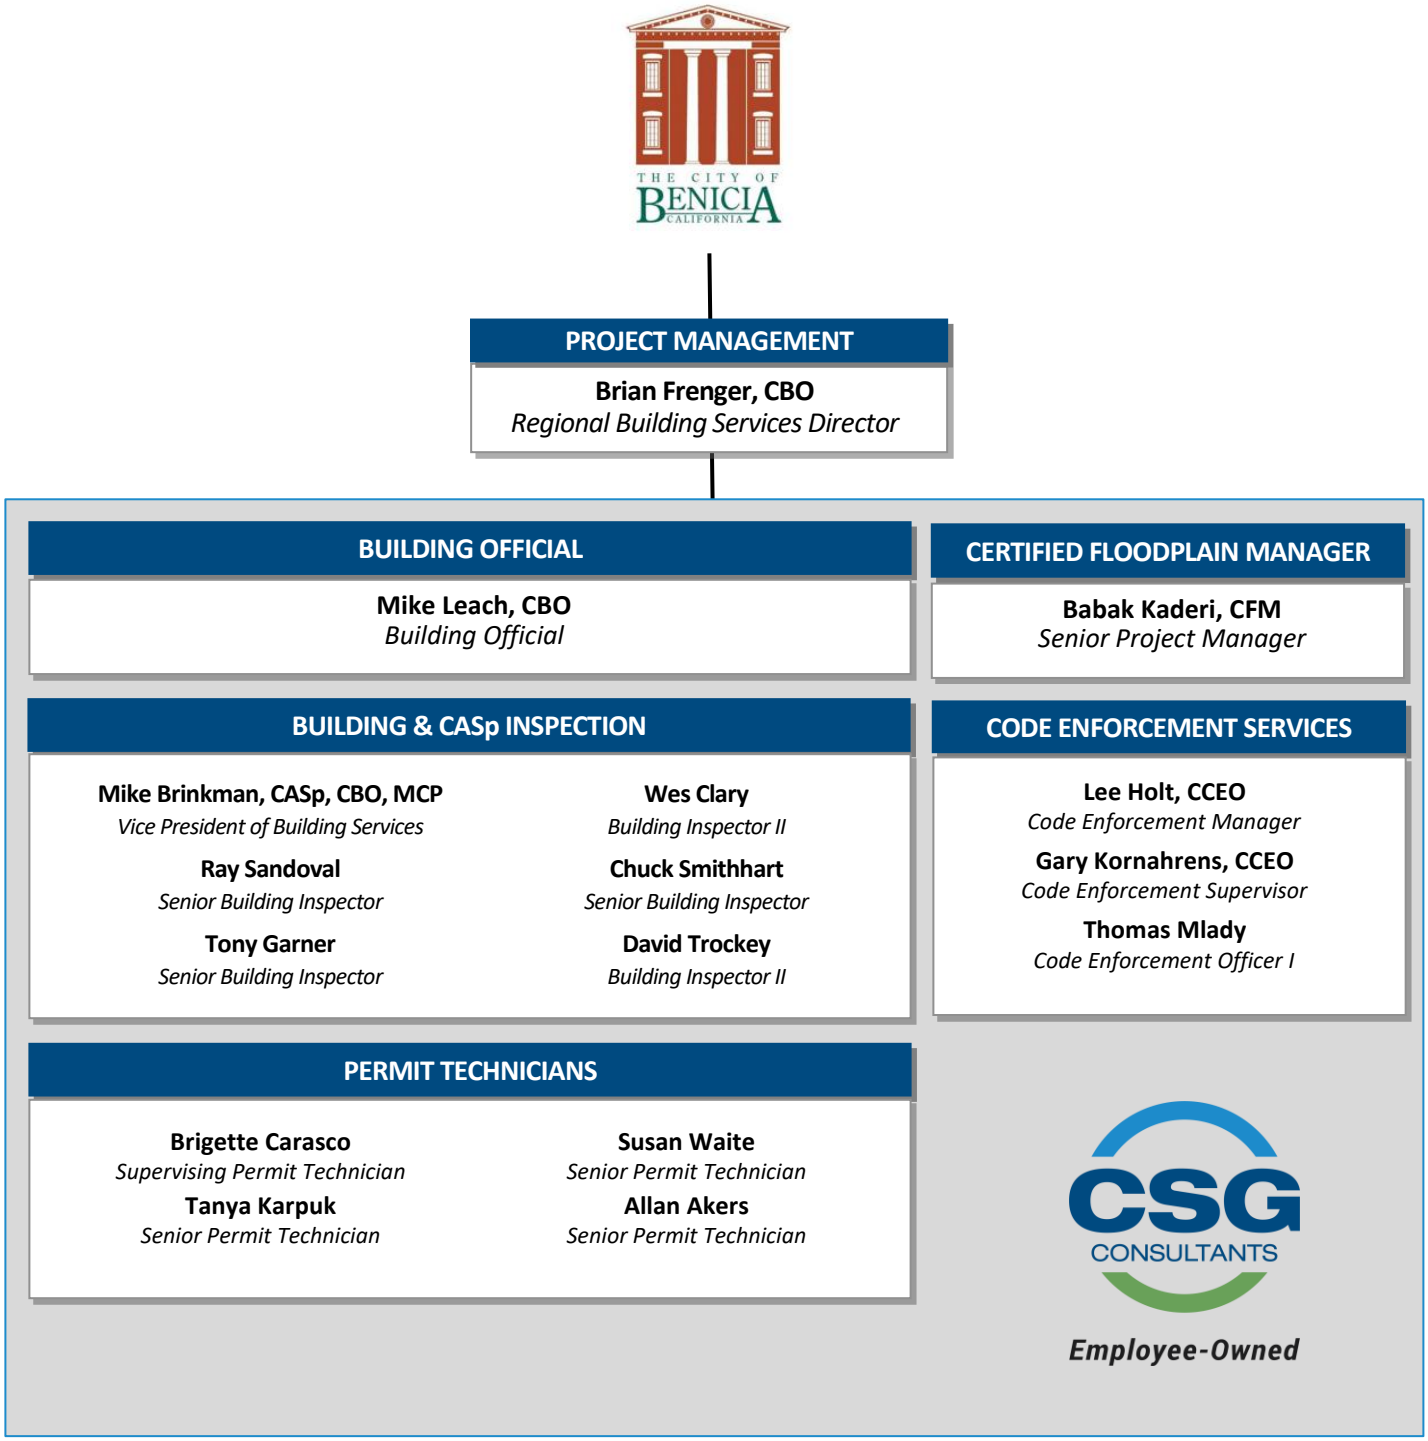
Project Organization Chart

SECTION 10.1.2

Brian Frenger, CBO, CSG's Regional Building Services Director, will serve as the primary point of contact for the City. **No subcontractors will be utilized for this project.**



Description of Responsibilities

SECTION 10.1.3

RELEVANT PROJECTS – BUILDING SERVICES

The following is a small sampling of projects for which proposed CSG staff have provided services for directly related to the scope of work:

SIERRA POINT PARKWAY DEVELOPMENT| CITY OF BRISBANE, CA

Building & Fire Plan Review, Building Inspection

CSG has provided building/fire plan review services and inspection for numerous structures in the Sierra Point Parkway since 2000. Currently, CSG is performing building and fire plan check for the Sierra Point Towers project in Brisbane, CA. This 422,000 square foot biotechnology campus consists of three new buildings and a parking structure that will be located north of Sierra Point Parkway and west of Marina Blvd. Below is a brief description for select projects CSG is performing building plan review and building inspection for:

- **SIERRA POINT TOWERS – BUILDING 1:** CSG is providing building and fire plan review, as well as building inspection for Building 1 of the Sierra Point Towers project—a 14-story, 494,340 square foot structure that is located near the northern boundary of the project site.
- **SIERRA POINT TOWERS – BUILDING 2:** CSG is providing building and fire plan review, as well as building inspection for Building 2 of the Sierra Point Towers project—a 9-story, 317,000 square foot structure that is located near the eastern boundary of the project site.
- **SIERRA POINT TOWERS – AMENITY BUILDING:** CSG is providing building plan review and building inspection for the Amenity Building portion of the Sierra Point Towers project, a 2-story building totaling 40,000 square feet. The Amenity Building is located near the southwest corner of the project site and is being built on the site of an existing parking lot.
- **SIERRA POINT TOWERS – PARKING STRUCTURE:** CSG is providing building and fire plan review, as well as building inspection for the proposed 12-story parking structure that will allow vehicle access from both Sierra Point Parkway and Marina Boulevard. The new structure features 3,771 parking spaces and will be located at the site of an existing parking garage after demolition is completed.

CASP INSPECTION/ADA EVALUATIONS | MULTIPLE CLIENT AGENCIES, CA

CASp Inspection

CSG has performed CASp/ADA inspections throughout the state, assessing compliance with California's construction-related accessibility standards, including the Americans with Disabilities Act (ADA) and California Building Code (Title 24). A sampling of CASp inspections CSG staff have performed include:

- ***City of Millbrae*** *– Various City-owned properties*
- ***Town of Colma*** *– New Town Hall Renovation*
- ***City of Seaside*** *– Seaside Branch Library*
- ***City of Richmond*** *– Chevron Richmond Refinery*
- ***CSU Monterey Bay*** *– Cardinale Stadium Renovation*
- ***County of Merced*** *– Atwater Library, Del Hale Hall, Castle Air Force Base, Merced Public Health Facilities*
- ***City of Marina*** *– Dunes Shopping Center, Sanctuary Beach Resort, Springhill Suites, Terracina Apartments, Bureau of Land Management Offices*
- ***County of Amador*** *– Sherriff's Correctional Facility, Health and Human Services Facility*
- ***Jackson Rancheria Band of Miwuk Indians*** *– Sacred Rock Resort, Sorenson/Hope Valley Resort, Weatherby Urgent Care*

DAVITA DIALYSIS | TOWN OF COLMA, CA

Building Inspection (OSHPD-3)

CSG provided building inspection for tenant improvements for the DaVita Dialysis in Colma, CA. CSG staff conducted building inspections of the facility to help ensure it met the minimum construction standards for safety and adequacy.

GENENTECH DEVELOPMENT | CITY OF SOUTH SAN FRANCISCO, CA

Building Plan Review, Building Inspection

CSG has been providing building plan review and inspection services for all of the Genentech corporate headquarters campus buildings since 1991. This campus-wide project consists of over 3.6 million sq. ft. of office, research & development and manufacturing operations space spread across over 59 buildings. CSG helped coordinated pre-construction meetings to clarify and resolve all matters prior to plan submittal; provided building plan review services and 24/7 on-call building inspection services; and coordinated and resolved construction issues between the City, project engineer, Genentech project manager and special inspector(s). Notable recent projects include:

- *Campus wide refrigeration water and hydrocarbon upgrade*
- *Building 34 – New four-story employee center totaling 71,672 sq.ft.*
- *Building 35 – New seven-story office building, totaling 255,000 sq.ft.*

FULL-SERVICE BUILDING DEPARTMENT | CITY OF ELK GROVE, CA

Building Official, Deputy Building Official, Building Plan Review, Permit Counter, Inspection

CSG staffs a full-service Building Department for the City of Elk Grove, which includes a Building Official on-site 5-days per week to perform administration and management of plan review, permit counter, and field inspections. CSG's staff provides coordination with the CMO, CDD, Public Works, Engineering, Fire, Code Enforcement, Planning, and Economic Development. Additional Building Department personnel and/or services CSG provides to the City include:

- **Deputy Building Official:** On-site 5-days per week, responsible for the day-to-day field inspection assignments, customer inquiries at the counter/via email, and light plan review.
- **Plan Review:** On-site one day per week, with full-time offsite plan review of all projects.
- **Public Counter Permit Services:** On-site 5 days per week, CSG staff processes all building applications and issues all permits. Additionally, CSG staff provide customer service at the counter and coordinate with applicants and developers via phone and email.
- **Field Inspection:** CSG staff provide field inspections for all residential and commercial permits (5 days per week).

FULL SERVICE BUILDING DEPARTMENT | CITY OF LOS BANOS, CA

Building Plan Review, Building Official, Deputy Building Official, Inspection, Permit Counter

CSG provides a full-service Building Department to the City of Los Banos. This includes a Building Official who oversees the operations of plan reviewers, permit technicians, and inspectors. Depending on workload, CSG has provided various support staff to supplement the Building Official, including a Deputy Building Official, field inspectors, and permit technicians. Plan review for small projects is conducted on-site by the Deputy Building Official and qualified CSG staff. All other plan review is performed off-site by CSG's experienced team of plan reviewers.

FULL-SERVICE BUILDING DEPARTMENT | CITY OF MOUNTAIN HOUSE, CA

Building Plan Review, Building Official, Inspection, Permit Counter

In July of 2024, Mountain House became the 483rd city in California, 28 years after its establishment on the western edge of San Joaquin County. To support their building department during its transition to cityhood, CSG was recently selected to provide full-service staffing and continues to work alongside City personnel. CSG is currently providing the City with building plan review services, building inspection, Building Official, as well as permit technicians for the front counter. As one of the fastest growing areas in the state, Mountain House has a buildout population projection of 50,000 residents, coupled with a 6.52% growth projection.

AGRICULTURAL & CANNABIS PROCESSING FACILITIES | MULTIPLE CSG CLIENT AGENCIES

Building & Fire Plan Review & Inspection

CSG Building & Fire personnel have performed plan review and inspection of numerous agricultural growing and processing facilities in California, including cannabis growing and processing facilities. A sampling of communities served include the Cities of Santa Cruz, Greenfield, Watsonville, Sacramento, Richmond, Firebaugh, County of San Benito, Hayward, Palm Springs, Santa Ana, and Cathedral City. Our proposed team is thoroughly familiar with the issues associated with reviewing and inspecting cannabis facilities, such as occupancy classification, special egress needs for security purposes, and potential ventilation issues. In addition, CSG's fire prevention team has assisted in the creation of guidelines for developers of such facilities. And, due to the growth of these operations, our building inspectors have enhanced their knowledge through attendance of seminars on issues related to cannabis production and processing.

GREAT WOLF LODGE | CITY OF MANTECA, CA

Building & Fire Inspection, RFI Review

CSG provided all on-site building and fire inspections for this complex that includes a 510,000 sq. ft., 6-story, 500-room hotel, in addition to a 45,000 sq. ft. family entertainment center, and a massive water park that consists of multiple 6-story water slides. The water slides start in the interior of the building, extend to the exterior, and then return to the interior. CSG's project manager provided on-site oversight as well as all RFI reviews for this 20-month project. Depending on the project's needs, CSG provided 2-4 full-time building and fire inspectors whose services included providing daily and weekly inspection reports.

DUBLIN TRANSIT PARKING GARAGE & PLAZA | COUNTY OF ALAMEDA, CA

Building Plan Review & Inspection

CSG provided building plan review and inspection for the Dublin Transit Parking Garage and Plaza, a 176,518 square foot structure with five levels and more than 500 parking spaces. The parking garage also features restrooms, an employee break room, office, and associated engineering systems (mechanical, plumbing, electrical, and structural). CSG provided plan review services throughout the duration of the project, and provided subsequent reviews for deferred submittals. Additionally, CSG performed building inspections throughout each phase of construction, which was completed in 2024.

SIERRA POINT PARKWAY DEVELOPMENT| CITY OF BRISBANE, CA

Building & Fire Plan Review, Building Inspection

CSG has provided plan review/inspection services for numerous structures in the Sierra Point Parkway since 2000. This bay-front development in Brisbane, CA, continues to expand and plans are in the works for additional projects. Below is a brief description for each project CSG is performing building plan review and building inspection for:

SIERRA POINT TOWERS – BUILDING 1 | CITY OF BRISBANE, CA

CSG is providing building and fire plan review, as well as building inspection for Building 1 of the Sierra Point Towers project—a 14-story, 494,340 square foot structure that is located near the northern boundary of the project site.

SIERRA POINT TOWERS – BUILDING 2 | CITY OF BRISBANE, CA

CSG is providing building and fire plan review, as well as building inspection for Building 2 of the Sierra Point Towers project—a 9-story, 317,000 square foot structure that is located near the eastern boundary of the project site.

SIERRA POINT TOWERS – AMENITY BUILDING | CITY OF BRISBANE, CA

CSG is providing building plan review and building inspection for the Amenity Building portion of the Sierra Point Towers project, a 2-story building totaling 40,000 square feet. The Amenity Building is located near the southwest corner of the project site and is being built on the site of an existing parking lot.

SIERRA POINT TOWERS – PARKING STRUCTURE | CITY OF BRISBANE, CA

CSG is providing building and fire plan review, as well as building inspection for the proposed 12-story parking structure that will allow vehicle access from both Sierra Point Parkway and Marina Boulevard. The new structure features 3,771 parking spaces and will be located at the site of an existing parking garage after demolition is completed.

RELEVANT PROJECTS – CODE ENFORCEMENT SERVICES

The following is a small sampling of similar projects and/or client agencies for which CSG has provided code enforcement services:

CODE ENFORCEMENT SERVICES | MULTIPLE JURISDICTIONS, CA

Staff Augmentation (2006-Ongoing)

CSG has and continues to provide Code Enforcement Officers to a wide variety of jurisdictions throughout the state. Our work has included inspections, investigative work, and enforcement to ensure public health and safety, including responsive calls for service, various forms of documentation, preparing and processing of all needed correspondences, providing accurate records, and follow up with stakeholders. Our highly qualified staff also interpret, and enforce provisions of the Municipal Code, including the Zoning, Housing, Building, Nuisance and Property Maintenance codes, along with state and other local codes. We have also provided council presentations and updates supporting the impactful work delivered within those communities.

GENERAL CODE ENFORCEMENT | TOWN OF WOODSIDE, CA

Staff Augmentation (2012-Ongoing)

This is one of many instances where CSG provides a Code Enforcement Officer to support and enforce local ordinances. This includes inspections and investigative work that ensures public health and safety, in addition to resolving other or nuanced complaints and violations. This includes responding to citizen calls for service, documentation, preparing all needed correspondence, maintaining accurate records and following up with stakeholders. Our highly qualified staff also interpret and enforce provisions of the Municipal Code, including the Zoning, Housing, Building, Nuisance and Property Maintenance codes.

CODE ENFORCEMENT TRAINING OFFICER | CITY OF GUSTINE, CA

Staff Augmentation (2018)

CSG staff served as a training officer for their code enforcement staff in the City of Gustine. Training of their new officers included addressing municipal code interpretation, inspections, investigations, case management, officer safety practices, business licensing, handling citizen complaints, and exercising sound decision-making at all times.

ACTING CODE ENFORCEMENT SUPERVISOR | CITY OF MODESTO, CA

Staff Augmentation (2022-2023)

CSG staff served as the interim Code Enforcement Supervisor for their Neighborhood Preservation Unit in the City of Modesto. Duties included assisting with case management, officer training, departmental coordination, officer and case management oversight, assessing and helping improve response times, staff morale, and overall improvement to program functions.

"AGED CASES" | CITY OF CAMPBELL, CA

Specialty Program Staff Augmentation (2017-Ongoing)

CSG has a long standing relationship working with the City to focus on the management and closure of older cases. Many of these cases have complexities that include incomplete records, multiple changes in ownership, cross-platform violations, and other challenging characteristics. These cases have required the experience of a veteran officer due to the high level of finesse needed to manage non-compliant responsible parties. A significant number of cases required direct coordination with and approval of various departmental City staff. Our officer has coordinated with outside resources (e.g., County agencies), created a new collaborative model and unified partnership with Building and Planning Departments, and represents the Community Development Department as a seamless extension of the City. CSG's code enforcement officers' work for the City of Campbell has resulted in a substantial caseload reduction and has been able to successfully close "unsolvable" cases.

Through this assignment, CSG has been able to showcase its diversity in problem solving, diplomacy, ability to work with a community, beneficial coordination, organizational approach, supportive documentation abilities, and a capacity to effectively tailor services for communities with distinct needs.

MASSAGE PROGRAM IMPLEMENTATION AND MANAGEMENT, HOUSING INSPECTION, GENERAL CODE ENFORCEMENT | CITY OF SAN RAFAEL, CA

Program Management and Staff Augmentation (2013-Ongoing)

CSG's Code Enforcement staff has assisted the city in the development and ongoing implementation of its highly successful Massage Inspection Program (MIP). The program provides full administrative services in managing and monitoring all permitted massage businesses in San Rafael, and addressing unpermitted activities. This is done in combination with specialized inspections: initial inspections, annual inspections, compliance inspections, sting operations, and after-hour & weekend inspections. Additionally, the staff coordinates the following administrative duties on the City's behalf: new-business intake and certifications, employee registrations (including credential verification), public education, permitting, and issuance of administrative citations. Additionally, we have also provided full service support for City's Housing Inspection Program (HIP), Residential Building Record (RBR) program which addresses current property status in resale situations (and addresses unpermitted construction), and general code enforcement support.

SHORT-TERM RENTAL PROGRAM ENFORCEMENT | COUNTY OF VENTURA, CITIES OF MONTEREY AND SAUSALITO, CA

Program Management and Staff Augmentation (varied from 2016-Ongoing)

CSG provided short-term rental enforcement for the County of Ventura and City of Sausalito, and has a long and continuing partnership with the City of Monterey since 2015. Our inspectors specialize in enforcing short-term rental regulation, as well as proactively identifying rental properties that are in violation. We have handled a large cases that requires taking the appropriate steps through the administrative process and issuance of administrative citations.

PROGRAM ASSESSMENT SERVICES | SAN JOAQUIN COUNTY, CA

Program Review and Training (2020)

CSG performed a comprehensive program evaluation to examine processes to improve operational benchmarks and efficiency. This effort included a thorough review of services and interactions with collaborative departments. A formal report encapsulating the findings and recommendations was provided to the agency for reference.

COMMUNITY DEVELOPMENT BLOCK GRANT | CITIES OF LOS BANOS, LIVINGSTON, CA

Program Management and Staff Augmentation (varied from 2016-2023)

CSG provided Community Development Block Grant (CDBG) sponsored inspection services and assistance, including general code and vehicle abatement support services in the cities of Los Banos and Livingston. Our inspectors effectively specialized in resolving blight and nuisance complaints in these cities by concentrating inspection and nuisance abatement services within the low to moderate income census tracts in block grant cities.

CSG does not currently offer staff with a current ICC California Residential Building Certification (J1).

Approach

SECTION 10.2

BUILDING OFFICIAL SERVICES

CSG's Building Officials are certified and have extensive building industry experience. They have the proven skills, technical knowledge and a well-rounded approach to performing Building Division administration and providing management oversight and direction to plan reviewers, inspectors, and permit technicians. Our Building Officials are well-known for their consummate customer service skills and successful identification of solutions through innovative problem solving. They can be available full-time or part-time as needed. CSG's Building Officials have expertise in providing the following services and can easily adapt to other requests as needed:

- *Building Official Administration, including addressing complex Building Code issues, code interpretation, and resolution of inquiries and complaints*
- *Rapidly familiarizing themselves with local code amendments*
- *Applying knowledge of all aspects of the California Building Codes and local amendments*
- *Making determinations on the approval and use of alternative materials and methods*
- *Staying abreast of ongoing changes to applicable state and federal laws through long-standing industry relationships and associations*
- *Providing technical assistance and educating stakeholders*
- *Building and maintaining relationships with other departments and agencies*
- *Participating in pre-development reviews and providing comments*
- *Processing Planning Commission and Council staff reports*
- *Attending Planning Commission and Council meetings*

BUILDING INSPECTION SERVICES

CSG provides fully integrated, multi-disciplined building inspection services for residential, commercial, and industrial projects. Our inspection personnel have an outstanding mixture of technical expertise and experience in all construction types. We provide experienced, ICC certified inspectors who work with a team approach to ensure compliance with applicable codes and requirements and provide solutions to mitigate potential risks and safety hazards. Using well-honed customer service and communication skills our inspectors excel at educating stakeholders to keep projects moving forward. Our inspectors also utilize current technologies and equipment to view plans and documents, research related code requirements, document field conditions and progress, and share that information with stakeholders while in the field.

Key services include but are not limited to the following:

- *Providing inspection services to ensure project compliance with State adopted codes and local amendments including building, electrical, mechanical and plumbing codes*
- *Offering code interpretation and education*
- *Seamlessly integrating into client organizations and consistently enforcing policies and procedures*
- *Addressing and resolving inquiries*
- *Maintaining records and files*
- *Providing all vehicles, fuel, maintenance and other equipment necessary for inspectors to carry out duties.*

CSG provides all vehicles, fuel, maintenance, and other equipment necessary for inspectors to carry out duties, with no additional charges.

CASp Inspection Services

To facilitate the City's compliance with current rules and regulations, CSG will provide a CASp certified professional for technical questions and interpretations and to perform accessibility compliance inspections upon request.

PERMIT TECHNICIAN SERVICES

CSG has highly qualified staff available to provide Permit Technician services. These frontline, first-response services are vital to the success of the entire building and safety permit process as they often set the tone for the applicant whether a homeowner, contractor, or design professional. CSG handpicks exceptionally qualified personnel who can function as seamless extensions of the agency's team, understand the importance of exemplary customer service, and have knowledge of the inner workings of building departments and thorough familiarity with the building application and permit process.

CSG's permit processing staff is trained in customer service and helping to facilitate and expedite the permit process. Our staff members can perform quick assessments of each customer's needs and ensure that they are served appropriately. They are familiar with State Contractors License Law and ensure that permits are issued to properly licensed contractors. CSG's permit technicians are also familiar with multiple permit software systems and will quickly gain proficiency with the software that has been customized for the City. Our staff is knowledgeable and experienced with permit processing functions including:

- *Providing the public with appropriate forms and handouts*
- *Processing permit applications and issuing permits using the City's software*
- *Accepting plans, documents, structural calculations and energy reports for permit processing*
- *Routing plans to building and other departments and agencies*
- *Performing document control, ensuring permit file integrity, and maintaining status of plans and documents during the permit process.*
- *Preparing plan check letters to be sent to applicants*
- *Assisting the public with completing applications and other required forms*

CERTIFIED FLOODPLAIN MANAGER (CFM)

CSG's Babak Kaderi is a Certified Floodplain Manager with extensive experience promoting the wise use of floodplains in order to minimize flood risks, reducing losses related to floods, protecting health and safety, and improving the overall quality of life for communities in these regions.

Prior to joining CSG, Mr. Kaderi spent 25 years with the City of Milpitas, serving as the Floodplain Manager and performing plan checks of developments as needed. Mr. Kaderi also reviewed and approved pre-construction Storm Water Pollution Prevention Plan (SWPPP) and post-construction Storm Water Control Plans (C.3), as well as issued water service agreements, sewer and water treatment plan agreements, and calculated development fees (water, sewer, storm, traffic impact). He was responsible for reviewing engineer's estimates, water/sewer/storm/recycled water studies and reports, FEMA elevation certificates and LOMA/CLOMA applications, and flood studies.

CODE ENFORCEMENT SERVICES

Code enforcement activities are a crucial service to ensure not only public health and safety, but also to enhance economic development throughout a community. Blighted conditions such as graffiti on public and private properties, illegal dumping, vacant lots, overgrown vegetation, deteriorated building exteriors, missing or broken windows and screens, foreclosures, illegal signs, and inoperable vehicles all contribute to a community's negatively to its image and deterioration. Municipal Code standards are enforced to ensure that communities remain attractive, inviting, and safe. Well-kept communities help to maintain or increase values, discourage crime, encourage quality development while preserving the overall quality of life in the community. And supportive education of community members plays an essential role in a jurisdiction's ability to self-regulate and reduce program demand.

As consultants, CSG and its Code Enforcement Officers are driven to provide a high standard of performance and program delivery. CSG staff are highly skilled, experienced, culturally sensitive, and possess various certifications such as PC 832, California Association of Code Enforcement Officers (CACEO) or equivalent. In addition, their computer literacy includes familiarity with Central Square (TrakIt), Accela, iWorQ, Tyler, Microsoft Office programs (Word, Outlook, and Excel), and other current code enforcement databases or supportive platforms. As part of their normal duties, CSG officers enforce state/local laws; issue Administrative Citations; author reports, can testify at hearings, and perform other duties as may be required. CSG has Code Enforcement Officers who are bilingual in Spanish, who can be assigned to meet the City's needs. While each officer has their own background and style, to be successful in their duties, all of CSG's team members are articulate, coachable, driven, effective, and relatable.

CODE ENFORCEMENT OVERVIEW

CSG has and continues to provide Code Enforcement Officers to a wide variety of jurisdictions throughout the state. Our work has included inspections, investigative work, and enforcement to ensure public health and safety, including responsive calls for service, various forms of documentation, preparing and processing of all needed correspondences, providing accurate records, and follow up with stakeholders. Our highly qualified staff also interpret, and enforce provisions of the Municipal Code, including the Zoning, Housing, Building, Nuisance and Property Maintenance codes, along with state and other local codes. We have also provided council presentations and updates supporting the impactful work delivered within those communities.

CSG's Code Enforcement Officers work to identify code violations and engage stakeholders and responsible parties to correct code violations consistent with municipal and state codes tailored to the specific needs of the agency.

Examples of codes and ordinances enforced include:

- *Zoning codes*
- *Building codes*
- *Housing codes*
- *Public nuisance codes*
- *State health & safety codes*
- *Property Maintenance*
- *Special concerns such as noise abatement issues, business licensing and permits, work and safety regulations, short term rental enforcement, massage, and human trafficking, and marijuana dispensaries*

Our Code Enforcement Officers have extensive experience and skills in the following key areas:

- *Bringing flexibility and transferable knowledge from various jurisdictions*
- *Being team oriented and communicating with staff and partner agencies*
- *Interfacing and working collaboratively within communities*

- *Meeting with property owners and guiding them in the pathway obtain compliance*
- *Providing respectful and thorough site inspections*
- *Educating the public and stakeholders regarding the regulations and due process*
- *Providing proper documentation*
- *Operating within the legal framework of the jurisdiction and industry*
- *Communicating and encouraging individuals towards voluntary compliance*
- *Drafting and issuance of required documents and processes*
- *Preparing administrative remedies including issuing notices of violations and citations*
- *Conducting administrative hearings with an Administrative Hearing Officer*
- *Preparing program updates and staff reports, as well as committee and City Council presentations*
- *Coordination of activities with multiple departments including Building, Planning, Community Development, Police and City Attorneys*
- *Providing information on municipal regulations to property owners, residents, businesses, and the public, as well as for agency departments*
- *Performing license and permit application review and processing*
- *Maintaining records of inspections using online databases such as Infor, Trakit, Accela, and Citizenserve*
- *Providing code enforcement program review and analysis*

Although a majority of our results are gained by voluntary compliance, our services include a full range of code enforcement activities, including:

- *Managing administrative abatements and receiverships*
- *Testifying on behalf of clients in administrative hearings and court proceedings*
- *Facilitating settlement agreements*
- *Recommending changes or updates to the code*

In addition, CSG can review existing code enforcement programs to look for efficiencies and help establish appropriate policies and procedures to facilitate the mission of the code enforcement unit.

DANGEROUS BUILDINGS AND PUBLIC NUISANCES

CSG will assist the City in administering the Uniform Code for the Abatement of Dangerous Buildings and Nuisance Chapter of the Municipal Code, including the following services:

- *Conduct preliminary investigations of conditions of property and make initial contact with tenants and property owners as appropriate;*
- *Prepare courtesy notices and warning letters as appropriate;*
- *Conduct inspections and prepare documentation of violations;*
- *Prepare inspection warrants if necessary in order to gain access to conduct inspections;*
- *Prepare "Compliance Orders" and "Notice and Orders;"*
- *Organize appeal hearings if needed;*
- *Conduct follow-up inspections to monitor compliance with "Compliance Orders" and "Notice and Orders;"*
- *Provide support to legal counsel including preparation of declarations and documentation suitable for submission to Court;*
- *Make Court appearances as necessary; and*
- *Prepare documentation for recovery of costs through administrative penalties and recordation of liens.*
- *Appearing as expert witnesses*

HEARING OFFICER SERVICES

If requested, CSG will assist the City with an on-call or designated Administrative Hearing Officer providing the following services:

- ***Conducting Administrative Hearings:*** *CSG's Hearing Officer will preside over administrative hearings and ensure proper conduct during proceedings. CSG's Hearing Officer will hear all parties and review relevant evidence to determine an unbiased decision and/or recommendation based on the facts presented.*
- ***Management of Procedural Issues:*** *This includes ruling on motions, written appeals, and other related evidence. CSG's Hearing Officer also has the authority to administer oaths, receive testimony, and is committed to upholding due process while facilitating an impartial environment where all parties can fairly present their case.*
- ***Records Management:*** *CSG's Hearing Officer will maintain detailed records of all proceedings, compiling all pertinent documents and evidence. Additionally, a transcript of the proceedings can be provided upon request.*
- ***Issuing Decisions:*** *After careful review of the evidence, information, and arguments presented during hearings, CSG's Hearing Officer will issue a written decision detailing the findings and a subsequent order and/or remedy to be executed.*

WILDLAND URBAN INTERFACE (WUI)

CSG can assist the City if it is required to administer California Fire Code Chapter 49 (Requirements for Wildland-Urban Interface Fire Areas). CSG can provide professional services to prepare and implement requirements for fire resistant landscape vegetation and defensible space requirements. Services would include preparing local landscape standards, assisting with outreach to property owners, conducting inspections, and documenting violations.

CODE ENFORCEMENT SUPERVISION

CSG can provide interim staffing to oversee an agency's code enforcement personnel and day-to-day activities ensuring, for example, that procedures are followed, caseloads are managed effectively and that code enforcement officers work fairly and consistently with property owners and reporting parties. Our personnel are adept at serving as liaisons for code enforcement units when interacting with members of other departments. CSG Code Enforcement Managers may be called upon to attend department meetings, committee meetings and County Council meetings as a code enforcement program progresses. They can also be available to assist code enforcement officers, law enforcement and other County staff as well as representatives of other agencies on field visits when needed.

HOUSING INSPECTIONS

Upon request, CSG will conduct inspections in response to complaints about substandard housing consistent with Health and Safety Code Section 17900. Services could include contacting property owners and tenants, conducting inspections, documenting violations, and monitoring repairs.

Level of Effort Letter

SECTION 10.2.2

CSG has provided hour rates for staff who would be involved with this work in Section 11.5 (Pricing Proposal). Due to the nature of the on-call scope, we cannot accurately estimate the amount of hours until further direction is provided by the City.

Resumes

SECTION 10.4

Per the City's request, resumes for key staff have been provided on the following pages.

Brian **Frenger** CBO

Regional Building Services Director

LICENSES & CERTIFICATIONS

Certified Building Official
Certified Building Code Specialist
Certified Commercial Building Inspector
Certified Commercial Electrical Inspector
Certified Mechanical Inspector
Certified Plumbing Inspector
Certified Combination Dwelling Inspector
Certified Plans Examiner
| ICC 5236356

Fire Inspector 1 (State Fire Training #6220-8981)
Hazardous Material First Responder (FRA)
Post Disaster Assessment Evaluator (CA)
Green Building Professional (Built It Green)
PC 832 – Code Enforcement
FEMA Professional Certifications/NIMS
Liebert Cassidy & Whitmore Supervisor Training

EDUCATION

Building Inspection Technology (BIT) Program Completion
Butte College | Oroville, CA

PROFESSIONAL AFFILIATIONS

Sacramento Valley Association of Building Officials
Shasta Cascade Chapter of ICC
California Association of Building Officials (CALBO)
International Code Council (ICC)

Mr. Frenger has served in roles that include Chief Building Official, Inspection Manager and Plans Examiner and brings more than 20 years of progressively responsible experience in management and building inspection related services for both the private sector and public sector to CSG. He is a proven leader with a track record of high-quality work and customer service that is proactive, professional, and effective. As a leader, he enjoys making positive changes, increasing efficiency, modernizing processes through implementing new technology, while providing exceptional service. His management style is flexible, collaborative and is compatible with a broad range of personalities and proficiencies. Mr. Frenger is proactive in his partnership with fellow employees, industry peers, consultants, and members of the community to achieve goals and implement change. As CSG's Regional Building Services Manager, he operates with the highest ethical standards that will not be compromised:

- *Commitment to customer satisfaction.*
- *Dedication to excellence in service delivery.*
- *Fostering environments that are conductive to innovation, creativity, & collaboration.*
- *Implementing innovative strategies that promote efficiency.*
- *Enforcing the States minimum Building Standards Codes to protect health, safety, and the welfare of the community while balancing the development community needs.*

RELEVANT EXPERIENCE

Chief Building Official | City of Elk Grove, CA

Mr. Frenger served as the Building Official for the City of Elk Grove, overseeing a staff of 11 for the Building Division that included permit technicians, plans examiners, and inspectors. He also was responsible for attending project and management meetings and coordinating staff for inspection services.

Chief Building Official/Inspection Manager/Plans Examiner | Interwest Consulting Group

Mr. Frenger served as the Building Official for the City of Elk Grove, Angels Camp, United Auburn Indian Tribe, and as the Northern California Building Inspection manager. In addition to his Building Official Services, he planned, managed and directed a comprehensive Building Inspection group of 11 staff for Northern California clients to ensure that they provided excellent customer service and met health and safety requirements specified in the California Building Standards Codes, International Property Maintenance Code and California Health and Safety Code. In these roles, Mr. Frenger built and maintained positive working relationships with co-workers, other City employees, and the public, using principles of good customer service. Additionally, he represented the Division and Department to outside agencies and organizations; participated in outside community and professional groups and committees; provided technical assistance, and other duties as necessary.

Senior Inspector/Fire Inspector| County of Sutter, CA

Mr. Frenger maintained supervision over the Sutter County development services staff, which included permit technician staff, building inspection staff and code enforcement. Throughout his time at Sutter County, he successfully completed supervisor training courses with Liebert Cassidy and Whitmore and California State Association of Counties (CSAC). As a Senior Inspector, he performed plans examiner duties and inspections related to commercial and residential occupancies. He worked closely and in conjunction with the Sutter County Fire Chief as it related to fire code plan review, fire inspections, and Fire Marshal duties. Additionally, Mr. Frenger worked with engineers, architects, contractors, and homeowners to ensure their construction needs were met. Additional contributions include implementing policies and procedures to the building division along with cost effective building and code enforcement software programs that met the Counties budget restraint. Prior to his employment with the County of Sutter, Mr. Frenger also served as a Code and Construction Compliance Specialist for the City of Oroville (2011-2013), and Building Inspector/Plans Examiner for the County of Yolo (2004-2011).

Mike **Leach** CBO

Senior Building Inspector

LICENSES & CERTIFICATIONS

Certified Building Official CB
Building Plans Examiner B3
Building Code Specialist B8
Commercial Combination Inspector C5
Electrical Inspector E5
Combination Inspector C8
Mechanical Inspector M5
Plumbing Inspector P5
Commercial Electrical Inspector E2
Building Inspector B5
Residential Inspector E1

EDUCATION

AA Degree in Construction Technology
Ventura College
Ventura, CA

Mr. Leach serves as a Senior Building Inspector for CSG and its clients, having a diverse background in construction, administration, team development, and program management in complex and multi-faceted organizations. He is a results-oriented leader with a proven track record in organizational improvement, strategic planning, budget management, and collaborative communication.

CSG EXPERIENCE

Building Official | Multiple CSG Clients

Mr. Leach provides Deputy Building Official Services for the City of Elk Grove where he provides administrative management, plan review, and inspection services which include combination inspections for single family residential, commercial, institutional, industrial, and multi-family structures. In addition, Mike has provided services for several CSG clients including Cities of Stockton and Mill Valley, County of Placer, and throughout the County of Napa. Duties include inspections of new residential, commercial, and industrial as well as remodels / additions and tenant improvements to both residential and commercial occupancies.

OTHER RELEVANT EXPERIENCE

Chief Building Official | City of Santa Paula, CA

Mr. Leach was responsible for the overall administration and supervision of the Building and Safety and Code Enforcement Departments. Mr. Leach oversaw staff, payroll, evaluations, and customer service for these departments. Some of his responsibilities included review of plans for code compliance prior to permit issuance, collaboration with other city departments to expedite developments, directed the implementation for the recent fee update, code adoption and budget, and helped design and implement a COVID-19 permit issuance and inspection program.

Supervising Inspector | City of Santa Paula, CA

Mr. Leach was responsible for the day-to-day inspections performed by field inspection staff and reporting to the Building Official. Mr. Leach tasks included acting as a lead inspector on more complex projects such as the City's Water recycling Facility, and a multi- story apartment complex with a parking garage. He also performed a limited amount of plan review on regular, light-framed construction.

Building Inspector II | City of Santa Paula, CA

Mr. Leach was responsible both commercial and industrial area inspections under the direction of the Supervising Inspector for new construction. He was also responsible for code enforcement in commercial and industrial properties and enforcement of uninhabitable residential dwellings and property maintenance.

Tony **Garner**

Building Inspector

LICENSES & CERTIFICATIONS

Certified Building Inspector
Certified Commercial Mechanical Inspector
Certified Resident Mechanical Inspector
Certified Resident Plumbing Inspector
Certified Commercial Plumbing Inspector
Certified Residential Electrical Inspector
Certified Commercial Electrical (Pending)
| ICC 5096015

EDUCATION

Certificate of Completion
LP2A Training Institute| Citrus Heights, CA

Mr. Garner has over 25 years of experience providing building and life safety services in the construction industry. This includes more than seven years of experience in various construction trades, and 16 years of experience providing residential, light commercial, and commercial inspection services to various Northern California jurisdictions. He possesses extensive knowledge of the practical application and enforcement of adopted construction codes, standards, and local ordinances. He is well-versed in all aspects of construction and inspections.

CSG EXPERIENCE

Senior Inspector | City of Sacramento, CA

Mr. Garner served as the Senior Building Inspector for the City of Sacramento for two years, during his time assisting the city he provided inspection services for large-scale commercial projects as well as the Inspector of Record for the Sacramento Fire Station #14. Mr. Garner also provided commercial inspection services for multi-family projects, podium buildings, and gas stations for the City.

Senior Inspector | City of Manteca, CA

Mr. Garner served as the Inspector of Record for the Great Wolf Lodge project, which consisted of a 6-story building with 500 rooms, an indoor pool, a water slide, and family fun center. Tony provided inspection services for the entirety of this build.

Senior Inspector | City of Elk Grove, CA

Mr. Garner served as the Senior Building Inspector for the City of Elk Grove for 17 years. During this time, he was responsible for all phases of residential and commercial inspections for the City. He performed inspection of a variety of structures, including hotels, restaurants, apartment complexes, custom homes, and subdivisions. Additionally, Mr. Garner served as the inspector for the City's Civic Center – Aquatics Center construction, the remodeling of the police station and call center, and the library shell building.

Building Inspector | City of Citrus Heights, CA

Mr. Garner served as a City building inspector for a one year period. During this time, he worked within the full-service building department, performing residential building inspectors for compliance with the City's municipal codes.

PRIOR EXPERIENCE

Journeyman Roofer | Auburn, CA

As a Journeyman Roofer, Tony performed all aspects of roofing installation in residential and commercial settings. This included complete roof remodels, beam replacements, reframing ceilings, roof rafters, and matching decorative trim on historical buildings.

Ms. Holt is a Code Enforcement Manager for CSG Consultants and its public agency clients. Officer Holt has over 25 years of agency and special district experience, serving in a variety of code enforcement, public health, monitoring, and fire capacities. Ms. Holt is widely credentialed; an effective team member and collaborator across departments, agencies and the public; developer of clear, concise and accurate reports, and brings a strategic mindset in delivering solutions for clients. Ms. Holt is perpetually in pursuit expanding her knowledge and training, and elevating the profession and colleagues.

RELEVANT JURISDICTIONAL EXPERIENCE

Code Enforcement Officer | Multiple CSG Client Agencies

Ms. Holt performed comprehensive code enforcement services as well as assisted with targeted programs including vending enforcement, massage ordinance, program review, STR (short-term rental), C4 Storm Water Inspections at commercial and industrial facilities, and provides council updates and presentations. She has provided code enforcement services the following agencies:

- *City of Campbell*
- *City of Half Moon Bay*
- *City of Hercules*
- *City of Larkspur*
- *City of Livingston*
- *City of Los Banos*
- *City of Millbrae*
- *City of Newark*
- *City of Oakdale*
- *City of Rocklin*
- *City of San Rafael*
- *City of Santa Cruz*
- *City of Sausalito*
- *City of Seaside*
- *Town of Colma*
- *Town of Loomis*
- *Town of Portola Valley*
- *County of Marin*
- *County of Ventura*
- *County San Joaquin*

CSG Code Enforcement Training Officer | City of Gustine, CA

Ms. Holt served as the training officer for new staff in the City of Gustine.

CSG Code Enforcement Supervisor | City of Modesto, CA

Ms. Holt served as the acting Supervisor for staff in the City of Modesto.

ADDITIONAL RELATED EXPERIENCE

Water Operator | Yolo County Flood Control, CA

Ms. Holt served as Water Operator ensuring distribution to growers during irrigation season, including water usage and flow calculation. Other responsibilities included setting up SOP's for water quality testing and written protocols (e.g., calibration) for water quality sensors and collection and setting up SCADA (Supervisory Control and Data Acquisition) system.

Fire Fighter | Vacaville Fire Protection District, CA

In addition to responding to fire calls, Ms. Holt assisted in district functions, outreach, recruit training, sponsored events, OES responses; equipment upkeep; and report writing.

Vector Control Technician | City of Berkeley, CA

Ms. Holt's work included maintaining health and safety conditions within the City utilizing local, state, and federal laws. This included providing response to calls for service about sewage, rodents, insects, raccoons (and other wildlife), abandoned/inoperable vehicles, vegetation, mold, and other health-related concerns.

Vector Biologist | Alameda County Mosquito Abatement, CA

Ms. Holt increased coordination between local agencies and businesses within her assigned zone, through outreach, presentations, and education at community events, fairs, and schools, in addition to source management and enforcement of breeding sources.

Mr. Kaderi also reviewed and approved pre-construction Storm Water Pollution Prevention Plan (SWPPP) and post-construction Storm Water Control Plans (C.3).

Brigette Carrasco

Senior Permit Technician

LICENSES & CERTIFICATIONS
ICC Certified Permit Technician

EDUCATION
General Education | San Jose City College, San Jose, CA

Ms. Carrasco serves as a permit technician for CSG Consultants. Prior to joining CSG, Ms. Carrasco spent over 28 years serving in numerous administrative oriented roles which involved multitasking capabilities, excellent organizational skills, and strong interpersonal skills. She excels at working in a fast-paced environment and has a knack for understanding and implementing policies and procedures.

RELEVANT EXPERIENCE

Lead Building Permit Technician | City of Elk Building Department
Ms. Carrasco performed full scope of support for the more complex projects and duties within the City of Elk Grove's Building Department. This involved an increased knowledge of permitting, building, and planning processes. She also led, planned, and reviewed the overall workload for efficiency and response; coordinated and tracked applications to ensure timely processing; independently calculated and provided impact fee estimates for all levels of projects.

Aside from supporting the Building Division and Building Official, Ms. Carrasco also coordinated permit activities with internal City departments and outside agencies and answered questions and provided information to the public and applicants regarding building department requirements, regulations, and procedures. She provided work direction and training for new staff and less experienced staff.

Dispatcher/ Administrative Assistant || RMA Group, Inc., CA
As a Dispatcher, Ms. Carrasco provided support for RMA's Northern California operations division. She coordinated the daily schedule for 15 construction inspectors, prepared final affidavits and request change orders for out of contract items, and provided direct support to Northern California's Regional Principal Engineer.

Office Administrator | Signet Testing Labs/ URS Corporation, Sacramento, CA
Ms. Carrasco provided full clerical and administrative support for a construction inspection and materials testing company. Her duties included processing work orders, dispatch, data entry, database maintenance, collections, estimating, timecard review, trial billing, and light project management.

Project Assistant | Terrasearch, Inc., San Jose, CA
Ms. Carrasco provided project support for geotechnical engineers and project managers. She coordinated the daily schedule for 35 construction inspectors and prepared final affidavits, typed letters, data entry, and generated special reports for state funded projects. She also managed the archiving and logging of old project files and plans and was responsible for managing projects worth $30K or less which included draft billing, change order requests, and timecard review.

Prior Litigation/Claims

SECTION 10.6.1

LITIGATION (PAST FIVE YEARS)

Stephen Estrella v. City of South San Francisco Code Enforcement, a Public Entity, et al. (Case #20-CIV-05257). A CSG employee was driving his personal vehicle and allegedly drove over Stephen Estrella's foot while the CSG employee was working for the City of South San Francisco. A claim was made against the CSG employee's auto insurance, and damages were paid. On November 24, 2020, a lawsuit was filed against the City of South San Francisco and CSG for the same incident. The case was settled for $300,000 and closed on February 23, 2024.

Tilafaiga Taape, Jr. v. Rosemary Hanson and CSG Consultants. The property owner at 34 Visitacion Avenue in Brisbane was named along with CSG for a railing that failed on private property. CSG provides services to the City of Brisbane for building plan review and inspection. CSG was released from the case since it was not involved in the condition of the existing railing on the private property. The CSG dismissal forms for this case were completed on March 2, 2021.

Failed Project Completions

SECTION 10.6.2

CSG has never failed to complete any work it was awarded, nor has CSG ever defaulted on a contract.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

PROFESSIONAL SERVICES MASTER AGREEMENT (BUILDING SAFETY – STAFF AUGMENTATION)

BETWEEN

CITY OF BENICIA AND

TRB and Associates, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and TRB and Associates, Inc., a California Corporation located at 3180 Crow Canyon Place, Suite 216, San Ramon, California 94583, licensed to do business in California, ("CONTRACTOR") relating to TRB: Building Safety Staff Augmentation - Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Staff Augmentation Services may include, but not be limited to:

A. Building Staff Augmentation:

B. Building Inspector

C. Certified Access Specialist Professional (CASp) Inspector

D. Building Permit Technician

E. California Water Efficiency Landscape Ordinance (WELO) Inspector

F. Building Official

G. Certified Floodplain Manager (CFM)

H. Specialty Services including Building Code Enforcement

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury

to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Todd Bailey

Principal

tbailey@trbplus.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between TRB and Associates, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Rachel O'Shea, Deputy Community Development Director | Building Official
City of Benicia | 250 East L Street | Benicia, CA 94510

SUBJECT: TRB and Associates Proposal to Provide On-Call Building Safety Services – Staff Augmentation

Dear Ms. O'Shea:

TRB and Associates, Inc. (TRB) is pleased to submit this Proposal to Provide On-Call Building Safety Services – Staff Augmentation for your consideration. We have reviewed the contents of the City's RFP and are prepared to provide the requested scope of services. We look forward to the opportunity to build on our over 18-year work partnership with the City of Benicia Building and Safety Division providing On-Call Building Safety Professional Services.

For this engagement, **Todd Bailey, P.E., CASp, LEED AP, and MBA** will continue to serve as the **Project Manager** responsible for ensuring timely delivery of quality support services. To confirm, Todd will be managing all services provided to the City from TRB's San Ramon office. Of note, Todd has over 18 years of personal experience providing Building and Safety support services to the City of Benicia. The balance of our proposed key staff is identified within our proposal response.

TRB provides Plan Review, Inspection, Delegate Chief Building Official, and CASp services to municipal building and public works departments throughout California. Our corporation, which comprises over 75 team members, was established in 2006 and has been a growing business since its founding. We specialize and serve exclusively in the code compliance role. We would like to highlight the following about the company:

- Our firm is engaged to provide as-needed Building Department and related services to over 75 municipalities in Northern California: including the City of Benicia. As a result, our team is very familiar with the many region-specific considerations that need to be considered when evaluating code compliance including flood zone, seismic design, wind exposure, soil/liquefaction, wildland urban interface, and landslide criteria.
- As a value-added service, Paul Armstrong will be available to provide code training to City staff and all invited guests on the California Building Codes Standards if desired by the City.
- The staff of TRB includes licensed Civil, Structural, Mechanical, Fire Protection, and Electrical Engineers; Architects; and ICC, CASp, LEED®, and SAP certified individuals who have an average 25 years of experience in the architecture-engineering-construction industry.
- Our staff are active in industry organizations such as ICC, CALBO, CBOAC, ASCE, and SEAOC. Of note, TRB+'s roster includes three ICC Chapter Presidents and a CBOAC Board Member.
- Our firm was recognized as Industry Member of the Year by the County Building Officials Association of California (CBOAC) in 2019.
- We have a strong track record of producing quality results and meeting turnaround goals, and a track record to which our clients will attest.

Our firm looks forward to the opportunity to continue to assist the City of Benicia as a Building Safety Services provider and is prepared to enter into an agreement with the City immediately. In the documentation provided, you will find background information on the company, our building & fire life safety service offerings, representative project experience, professional references, and a fee schedule for your review. If you have questions or need further information, please do not hesitate to contact **Todd Bailey** by phone at **(925) 866-2633** or by email at tbailey@trbplus.com. To confirm, I am authorized to bind the firm contractually. We look forward to hearing your feedback soon.

Sincerely,

TRB + ASSOCIATES, INC.

Company Overview

TRB and Associates, Inc. (TRB) is a California-based building and fire life safety services Corporation with offices in San Ramon, Sacramento, Burlingame, Santa Clara, Long Beach, and Las Vegas. Our firm provides Plan Review, Inspection, Building Department Administration, Delegate Chief Building Official, Disabled Access (CASp) Consulting services to public agencies throughout California.

TRB was established in 2006 and has been a growing business since its founding. The firm is owned by its Principal-in-Charge Todd Bailey, PE, LEED AP, CASp, MBA who has 30 years of experience working in the Building Safety field in California. Our over 75 team members have an average of 25 years of experience in the Architecture-Engineering-Construction industry, encompassing building safety and related services across a full range of code disciplines.

Range of Services

- ✓ Building and Fire Plan Review
- ✓ Building and Fire Inspection
- ✓ Building Department Administration
- ✓ Code Enforcement Inspection
- ✓ Consulting Chief Building Official
- ✓ Disabled Access (CASp) Consulting
- ✓ Building Standards Codes Training
- ✓ Civil & Planning Plan Review and Inspection

Capacity and Resources

TRB has extensive resources and a large pool of licensed engineers and certified building safety experts, equipped to handle a wide range of building department needs. The majority of our services are delivered on an as-needed, ongoing basis. Having a large pool of resources allows us to accommodate existing and future workload effectively. To confirm, we do not have any current or anticipated engagements which would affect our ability to staff for this assignment - we are committed to supporting the City of Manteca and have resources available for the anticipated needs noted in the City RFP.

Qualifications and Technical Capabilities

TRB team members possess multiple certifications and registrations to assure compliance with all requirements mandated by the State and local jurisdiction ordinances. Our team comprises of individuals who are either engineers or architects licensed in the State of California, or who possess ICC certifications in their respective disciplines. Of note, our team includes 8 licensed Structural Engineers. In addition, our staff includes 4 LEED® Accredited Professionals and 6 CASp certified individuals. Most of our staff possesses a combination of these industry-recognized credentials. Information on the qualifications of our proposed personnel and an Organizational Chart is provided in later Sections of our Proposal.

Our staff members are regular instructors and attendees at construction code and standards training offered through the local ICC Chapters, CALBO, CBOAC, SEAOC, AISC, ASCE, NFPA and other building industry organizations. In addition, several of our staff members are current or past board members with industry organizations and as such, are aware of many aspects of the development of relevant construction codes. Staff experience encompasses a full range of construction types and occupancies including the following:

- ✓ ADUs and JADUs
- ✓ Photovoltaic Systems
- ✓ Assembly Occupancies
- ✓ Commercial Tenant Improvements
- ✓ Detention Facilities
- ✓ Distribution Centers
- ✓ Hotels
- ✓ Industrial/Storage Warehouses
- ✓ Manufacturing Facilities
- ✓ Medical Office Buildings
- ✓ REACH Code Projects
- ✓ Battery Energy Storage Systems
- ✓ Mixed-Use Projects
- ✓ Multi-Family Dwellings
- ✓ Office Buildings
- ✓ Parking Structures
- ✓ Power Plant Facilities
- ✓ Recreation/Gymnasium Facilities
- ✓ Restaurants
- ✓ Logistics Centers
- ✓ Gas Stations
- ✓ Cannabis Facilities
- ✓ Hazardous Chemical Facilities
- ✓ High Rise Buildings
- ✓ Hospitals
- ✓ Retail Centers
- ✓ Schools
- ✓ Single Family Dwellings
- ✓ Sports Arenas
- ✓ Theaters

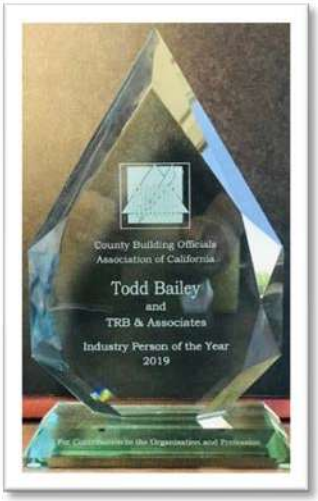
Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Customer Service Philosophy

TRB's customer service philosophy is simple; provide consistent quality services and represent our clients to the best of our ability. The achievement of the City's goals is at the heart of the services we provide. We have been able to consistently meet our clients' goals by implementing the following principles:

- ✓ Garnering a problem-solving attitude
- ✓ Gaining awareness of the issues that affect the community
- ✓ Applying the right expertise in a responsive manner

What you can Expect from Us



Experience

- Comprehensive understanding of the California Building Standards Codes
- Average 25 years' experience

Quality Work

- High technical competence and solutions oriented
- Balanced approach to application of adopted Codes & Standards

Responsiveness

- Close proximity to City Offices
- Staff available on 24/48-hour notice
- Critical-path awareness
- Effective workflow policies and procedures
- Emergency Response Ready

Teamwork

- Consider us your Partner – We work with you

What Sets Us Apart

TRB has a strong track record of production quality results, meeting turnaround goals and client satisfaction. Ask our clients:

> *"TRB has performed Plan-Check services for [our City] for many years now. They review 75% of all my external plan reviews, I can honestly say their services are excellent. I have used several companies over the last 23 years, TRB has outperformed them all. TRB remains responsive and in control, they meet with me and our clients when requested and constantly put in the extra effort to ensure positive outcome."* - California Municipal Chief Building Official

Our Commitment

In our firm's nearly 20 years in business, we have assembled a team of professionals that have been committed to the success of our clients. As the organization continues to grow, we have maintained our core belief in providing a welcoming environment, training, and promotional opportunities, and providing the best service possible to our clients. With TRB, the City of Benicia will continue to receive an experienced team who understands the needs of public agencies and takes pride in delivering outstanding service. Consider us your partner, and as such we are always on call and always available for everything from simple brainstorming sessions to representing you during meetings with stakeholders.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Subconsultants

TRB will be teaming up with two subcontractor firms for this project: **Provost & Pritchard Consulting Group** and **TERP Consulting**. TRB has excellent working relationships with both subconsultant firms, and we have teamed with each successfully on municipal support assignments.

Provost and Pritchard Consulting Group (P&P) will be prepared to provide civil engineering support services on the project. TRB is currently teaming with the firm to provide grading plan reviews for the RELATED Santa Clara Project. P&P has been providing engineering services for over 50 years and possesses over 200 employees throughout California.

KEY PROJECT MEMBERS: Michael Osborn, PE, LEED AP; Brayden Lovik, PE

TERP Consulting will be prepared to provide fire protection engineering and plan review support on the project. TRB has teamed with TERP Consulting on many large-scale projects including the $1.5 billion UC Davis Health Aggie Square and RELATED Santa Clara projects. TRB's work history with TERP spans over 10 years. The firm has extensive experience in fire protection engineering including fire protection systems, master egress systems, fire hazards analysis, and smoke control systems assessments on large-scale construction projects.

KEY PROJECT MEMBERS: Jim Begley FPE, CFM, LEED AP; Bryan Douglass, FPE

Description of Responsibilities of Key Personnel

Mindful of the potential complexity of projects in the City of Benicia, TRB has assembled a team with exceptional qualifications and attentiveness to quality and schedule. Our proposed team is comprised of senior-level professionals who have worked together across many projects and who possess extensive municipal support experience. We are pleased to be able to present a team with this combination of interpersonal familiarity and extensive industry experience.

PROJECT LEADERSHIP

Todd Bailey, PE, LEED AP, CASp, MBA, our company Principal and Founder, is prepared to continue to serve in the role of **Project Manager**. Todd has over 25 years of experience in the industry which includes serving as a Delegate Chief Building Official/Project Principal on over 20 large-scale fast-track design build projects in California having a combined valuation of over $30 billion. Of note, Todd's experience includes overseeing support services provided on the $9 billion RELATED Santa Clara project. Todd will work closely with our team to ensure that project goals are met and that findings are communicated in a timely and clear manner.

PLAN REVIEW TEAM LEADERSHIP

Our plan review group is led by our **Plan Review Services Manager**, **Bing Young, RA**. Bing possesses extensive experience in plan review on both residential and commercial projects and includes more than 25 years of professional experience in production, project management, construction management, energy, and accessibility analysis.

Senior Plan Review Engineer, Dan McLaughlin, PE, CASp will be available to serve as a senior plan review engineer on this assignment. Dan is a registered Civil Engineer, certified CASp, and ICC Certified Plans Examiner. Dan has been with TRB for over 10 years, specializing in plan review coordination with extensive experience on both complex commercial and residential project types.

Senior Plan Review Engineer, Petya McInnis, PE, CASp has over 24 years of experience in engineering and construction, has expertise in design, plan review, and inspection across residential, commercial, and industrial projects. Formerly a Plan Check Engineer for the City of Fairfield, she ensured code compliance, provided technical supervision, and supported Building Inspectors and Officials with code research. Petya's proactive approach has led to effective solutions, process improvements, and policy changes.

Dominic Ma, SE, MPA serves as our **Quality Control Principal**, responsible for ensuring the technical accuracy of all work performed. Dominic has more than 30 years of experience in reviewing building plans and specifications submitted for building permit applications to assure compliance with adopted building codes and reference standards.

INSPECTION AND FIELD SERVICES TEAM LEADERSHIP

Christopher Rose serves as our **Inspection and Field Services Manager**. Chris has over 20 years of inspection, plan review and administration experience serving in both public and private sector roles on a variety of projects. His experience includes serving as Building Manager for Sonoma County and coordinating document control tasks for the Apple World Headquarters project in Cupertino.

TECHNICAL DIRECTOR & INSTRUCTOR

Our **Technical Director - Paul Armstrong, PE, and CBO - is** available to provide expert code interpretation support and code instruction. With more than 30 years of building safety management experience, Paul teaches regularly for California Building Officials (CALBO). As a Chief Building Official, he managed building plan review, counter assistance, and inspection for numerous California agencies. His previous experience at International Code Council (ICC) included leading the Architectural and Engineering Services Department, International Conference of Building Officials (ICBO) Technical Services Department.

Project Understanding & Approach

TRB would like to confirm its intent to provide services in accordance with the Scope of Work identified in the City of Benicia's Request for Proposal (RFP) document. In brief, it is our understanding that the City is seeking qualified consultants to assist with **On-Call Building Safety Services – Staff Augmentation** on a range of project types. It is understood that plan review tasks would comprise reviewing projects for adherence to the City's latest adopted Municipal Codes and Title 24 California Building Standards Codes covering structural, fire prevention, life safety, disabled access, energy conservation, green building, plumbing, mechanical, and electrical provisions.

TRB has reviewed the Scope of Services as outlined in the City's RFP and is prepared to continue to provide On-Call Building Safety Staff Augmentation Services including:

- ✓ Building Inspector
- ✓ Certified Access Specialist Professional (CASp) Inspector
- ✓ Building Permit Technician
- ✓ California Water Efficiency Landscape Ordinance (WELO) Inspector
- ✓ Certified Floodplain Manager (CFM) Review
- ✓ Building Official
- ✓ Certified Floodplain Manager (CFM)
- ✓ Specialty Services including: Code Enforcement

TRB would like to confirm that it has staff appropriately certified to provide the requested scope of services. Also to confirm, all work will adhere to industry standards as determined by the California Code of Regulations, Title 24, and the City of Benicia Municipal Code (BMC). The following reflects our proposed work plan for providing the requested scope of services.

Project Approach Overview

Our approach to this engagement is centered on utilizing experienced staff and fostering open communication between our firm and the City. On an ongoing basis, our Project Manager, **Todd Bailey PE, CASp, LEED AP**, will maintain regular communication with City staff to ensure that we are kept informed of current code interpretations and policies, and to enhance our ability to quickly respond to any issues that may arise during permit counter, document review, and/or inspection activities.

We value the importance of the City's projects and are committed to meeting all project service delivery deadlines. We will diligently document and report all plan review findings, tracking information, and other reports, as required by the City.

Throughout this engagement, our key team members will be available to meet with City staff either via phone or in person to address questions that may come up during the course of a project. Our firm is committed to responding to all inquiries within 1 business day. We encourage discussions via in-person meeting, telecon, and/or WebEx/Zoom or similar formats as agreeable and necessary to achieve the most expeditious results.

Quality Control Assurance

Quality and on-time service are of paramount importance to us. Though we employ only experienced plan reviewers and expect their work to be of a high standard, we have instituted a quality control policy to ensure that this standard is maintained. At the core of our quality control approach is having a "two sets of eyes" policy in place. All work performed by staff is reviewed for quality control by senior members of our team. Our Project Manager and Quality Control Principal, **Dominic Ma SE**, hold primary responsibility for ensuring accuracy and consistency (QA/QC) in the application of adopted codes and standards for any City assignments.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Building Code Instruction

As an additional service, TRB is prepared to provide Building Code Instruction support to the City in either classroom or field-type settings on a range of technical subjects. **Paul Armstrong PE** is an award-winning California Building Standards Codes instructor whose accolades include being named CALBO Instructor of the Year. Paul is currently providing extensive training on the California Building and Residential Codes to TRB clients, local ICC Chapters, and CALBO Education Week attendees. Paul will be available to provide tailored training for the City and its invited guests upon request.

ICC PREFERRED EDUCATION PROVIDER

Project Workplan

Project Initialization, Scheduling & Management

From our prior experience supporting municipal building departments and divisions, we know that developing a comprehensive understanding of project construction documents and supporting the timely execution of project schedules is of critical importance. To confirm, for any plan review, inspection, or permit technician assignment, TRB members will possess a thorough understanding of all applicable project documents and processes and will be committed to supporting the City with its specific project schedule needs.

Preliminary Meetings and Project Administration

Shortly after the project award, we are prepared to meet to verify project expectations, deliverables, scheduling, and logistical considerations. Our Project Manager will coordinate with our Plan Review and Inspection Services Managers, to allocate plan review, inspection, and permit technician resources appropriately. The Plan Review Manager will be responsible for oversight of all the plan review services provided, and our Inspection Services Manager will be responsible for monitoring and managing any staff augmentation activities. Regular communication between our Project Manager and the TRB team will be ongoing throughout this engagement to ensure alignment of staffing and schedule needs.

Project Communications

We understand that ongoing communication is essential to ensuring project success. We promote and endorse any tools which help enhance communications between all project participants. We have utilized regularly scheduled calls for instance as a means for TRB, designated project owner, constructor, designer representatives, and others to discuss project schedule and critical path, manpower needs, potential challenges, and other related matters. Having these types of communications allows teams to identify when additional support may be needed and how resources may be best allocated to accommodate the project schedule and critical path. Throughout this engagement, our team members will be available to attend meetings with City staff, as well as design, constructor, and owner teams as needed.

Workload Accommodation | Timeliness of Response

It is understood that there are often periods of time when the workload extends beyond what may be normally expected. We would like to highlight that our firm has a system in order to accommodate such peaks without compromising turnaround or quality. We have many qualified and experienced team members who we access to assist at times of high workload or emergency need. In the event of a local, regional, or national emergency or disaster, our assigned staff are ready and available to immediately respond to a disaster and help as needed.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Building Inspection Scope & Approach

TRB is prepared to perform inspection, referring to building plans, structural plans, and material specifications for structures located within the City limits, upon 48-hour notice. Our inspectors are proficient at verifying project conformance to model code standards (Building, Electrical, Mechanical, Plumbing, Green Building and Energy & Accessibility) and MWELO and CFM provisions, as well as other locally adopted ordinances

TRB provides all labor and technical, administrative, professional, and other personnel; supplies, materials, equipment, and all other resources necessary to perform the specified work. TRB will use existing City forms or can develop correction sheets which meet with the approval of the City and shall maintain written lists of corrections needed to ensure conformance to codes and regulations.

Field Inspection Process

Our experienced team includes individuals with extensive field inspection experience on a range of project assignment types including municipality "Called Inspections," "Clerk of the Works," and "Inspector of Record" roles; our team can assist with a broad range of inspection responsibilities. Our scope of service areas includes residential, commercial, and industrial facilities, capital improvement projects, municipal agency services and infrastructure revitalization.

Our inspectors are careful to document all inspection activities, adhere to agency-adopted protocols, and follow field procedures and policies as dictated by the Building Official. TRB will maintain daily inspection records and all necessary documents on file for reference by the City. To confirm, TRB staff are available for applicant inquiries and/or conferences during normal City business hours.

Our inspections include those identified in the California Model Codes and which would be amended or modified as directed by the City. Our inspection scope includes:

- Foundation Inspection
- Framing Inspection(s)
- Electrical, Mechanical, Plumbing systems inspection
- Lath and/or Gypsum Board Inspection
- Fire Code Inspection, e.g. fire suppression, alarms, etc. (if requested)
- Concrete Slab or under-floor Inspection
- Energy Efficiency Measures Inspections
- Green Building Inspection
- Fire Resistance Rated Construction Inspection
- Floodplain Inspection
- Final Inspection

Remote Virtual Inspection (RVI) Option

Many agencies have engaged in using virtual programs to provide remote inspection services. Several of our clients have successfully implemented virtual inspection programs. We are familiar with using Inspected.com and Blitzz, as well as Facetime, Skype, Google Duo and Microsoft Teams. We are prepared to assist with RVI inspections if desired by the City.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Building Official, Permit Technician, Certified Floodplain Manager, CASp, and Specialty Services including Code Enforcement

TRB is also prepared to provide the above-referenced support services to the City on an as-needed basis. TRB staff are prepared to work at the City's offices as an extension of City staff under the supervision of the Chief Building Official or their designee with the knowledge, skills, and abilities to perform the following requisite functions.

Building Official Support Services

- TRB will provide an experienced ICC Certified Building Official to assist the Building Official as needed. The Building Official will have a minimum of five years of experience in a public agency with development, administration, interpretation, application and enforcement of the codes. They will have a thorough knowledge of customer service, develop and maintain effective relationships with all client groups, and be able to effectively communicate with contractors, homeowners, subordinates, superiors, news media, elected officials, and civic organizations.

Permit Technician Services

- Assist the public at the front counter or by phone regarding building, planning, and engineering permit requirements, application and permit fees, application filing procedures and processing, and permit status.
- Enter permit and related data into the City permit tracking system.
- Accept permit and related applications and collect fees. Screen plans and application materials for completeness and for conformance with City ordinances standards, policies, and guidelines.
- Review application materials for compliance with conditions of project approval; route plans to other City departments for review; approve and issue minor permits; research and respond to public inquiries.

Certified Floodplain Manager (CFM)

- TRB is prepared to provide a Certified Floodplain Manager to provide technical and administrative support to the City. We understand that we may be asked to coordinate public engagement, prepare analysis, reports and presentations, and provide related technical support as needed.

Disabled Access (CASp) Services

- TRB offers Certified Accessibility Specialist (CASp) Consulting Services to assist agencies with the compliance requirements of State of California Senate Bill 1608 (Corbett). Our team is skilled at reviewing facility plans and specifications for compliance with State and Federal accessibility laws, codes, and regulations; evaluating facilities for compliance with State and Federal accessibility codes and regulations; conducting accessibility research, preparing accessibility reports, and performing accessibility inspections.

Specialty Services

- TRB will provide professional services for ongoing work or projects such as but not limited to those related to Code Enforcement and Fire review. We understand that we may be asked to coordinate public engagement, prepare analysis, reports and presentations, and provide related technical support as needed.

Code Enforcement

- Conduct field investigations; inspect properties for violations; issue and post warning notices, notices of violation, corrective notices, orders to comply, and related documentation for code violations; schedule and performing follow-up functions to gain compliance including letters, inspections, calls, meetings, discussions, and negotiations to ensure compliance with appropriate codes and ordinances.
- Maintain accurate documentation and case files on investigations, inspections, enforcement actions, and other job-related activities including accurate and detailed information regarding code enforcement activity to substantiate violations, drawing diagrams and illustrations and taking photographs.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Integration with Other Systems, Travel and Training, Bid Procedures and Selection, and Staffing Expectations

Integration with Other Systems

- OpenGov Permitting and Licensing: TRB will work and input plan review corrections in the OpenGov permitting software during the plan review process.
- Bluebeam Integration: Plan Reviews will be done in BlueBeam Studio Session, a cloud-hosted PDF-based markup and collaboration platform. The Respondent will need the ability to complete reviews and redline plans as required within the BlueBeam collaboration session.

Travel and Training

To confirm, TRB acknowledges the following:

- TRB will solely cover the costs for all travel time and mileage to arrive at the Benicia City Hall;
- TRB will coordinate training for TRB's employees and assigned personnel, and ensure that our employees and assigned personnel maintain all training certifications as required by the State Regulation and local ordinances and/or amendments to State codes; and
- TRB agrees that it will not charge City for training, time in training, or any expenses related to training.

Bid Procedures and Selection

We understand that City staff will provide a scope of work via email to one or more contracted firms, who will be asked to submit bids (inclusive of work tasks, personnel, and cost proposal) electronically within five (5) to fifteen (15) working days, depending on the nature of the project. Selection of a consultant for any given project or task will consider multiple factors, including but not limited to skills and expertise, unique staff qualifications, similar project experience, project approach, and cost. Consultant shall not commence work until written authorization is received from the City of Benicia in the form of an executed work order.

Staffing Expectations

TRB confirms that staff proposed in this response will be available to provide the requested services. Additional staffing information and resumes will be provided as needed and/or as part of a project bid by submitting the information to the Community Development Department.

Level of Effort Statement

To confirm, TRB is prepared to provide all requested services on short notice (48-hours or less). Fixed Fee and Hourly Rates, and Reimbursables by scope of work and personnel classification are provided in the accompanying **Pricing Proposal** Section of our proposal.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Plan Review Scope & Approach [Option]

TRB is prepared to provide as-needed plan review services for residential, multi-family residential, commercial, and industrial projects encompassing building code, electrical, plumbing, mechanical, fire protection, energy, accessibility, and green building standards; as well as grading, drainage, floodplain, wildland urban interface fire severity zone, MWELO, CFM, stormwater, grading, hazardous materials, and State housing law Title-25 factory-built structure considerations, as applicable.

Our reviews consider all relevant project documentation including plans, specifications, calculations, and other related correspondence to verify conformance to adopted local codes, ordinances, regulations, and standards, and the current editions of the following California Building Standards Codes:

- California Building Code
- California Residential Code
- California Electrical Code
- California Plumbing Code
- California Mechanical Code
- California Fire Code
- California Energy Code
- California Green Building Standards Code

Alternate Material and Methods

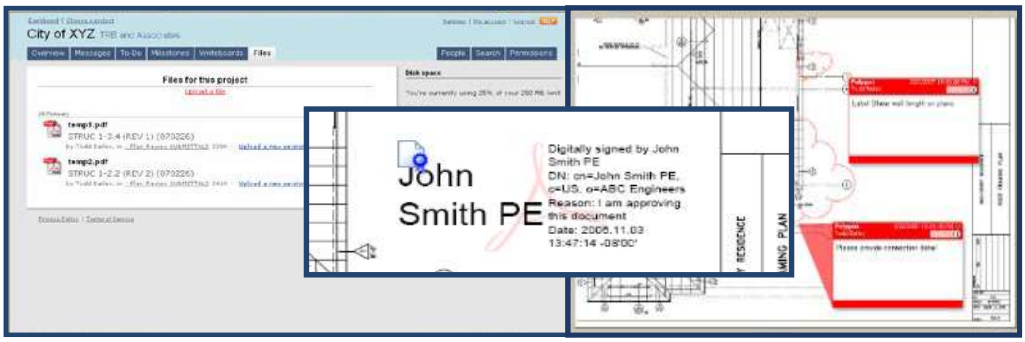
TRB recognizes that there are alternate materials and methods of construction that can be used to satisfy and comply with the provisions of the code. Our experience with the use of alternate materials, alternate design and methods of construction enhances our ability to solve specific issues that arise in design and construction.

Electronic Plan Review

To confirm, TRB is prepared to track and communicate all plan review comments and approvals through the City-designated electronic system, or any future or anticipated electronic review platform. The staff of TRB has been leaders in the field of digital plan review and workflow management; as such, we have the experience and know-how to efficiently manage the review of electronic documents.

Online Plan Check Status and Records

As highlighted earlier, to facilitate access to plan review findings and status information, TRB is prepared to initiate its Project Website, ***Plan Track Plus®*** for use on this assignment. With our project website, all correspondence issued by our team can be posted and maintained for access by City and designated project stakeholder staff. Our postings can include plan review findings (i.e. approval/comment letters), plan review submittal status information, meeting notes, etc.; all of which may be updated on a daily basis. In addition, if so desired by the City, we can also accommodate incoming electronic document postings (i.e. electronic plans, calculations, RFI's, etc.).



Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Plan Review Process

The following process represents an example plan review workflow. Please note that the plan review workflow utilized for the City will align with the City's specific workflow requirements and needs.

Step 1 - Preliminary Discussions:

Prior to beginning our initial plan review project, we are prepared to conduct a meeting or conference call with the City to discuss local code policies, documentation procedures, plan processing protocols, plan review checklist items, and scheduling.

Step 2 - Initial Review:

Upon receipt of a complete set of plan documents, we will perform our plan review in the agreed-upon timeframe, checking for compliance with all applicable code standards. All corrections are identified based on compliance with specified codes and regulations and worded so the designer will know what needs attention and how to respond to the issue stated. To confirm, we will adhere to the City's Plan Review Turnaround timeframes.

In general, plan review turnaround timeframe is ten (10) business days for initial reviews and five (5) business days for rechecks and revisions. Timeframes for large-size projects will be confirmed with City staff prior to proceeding with the review.

Step 3 - Transmittal of Plans and Comment Lists for Plan Review:

At the heart of our approach in delivering our services to you, is the recognition that there must be a coordinated effort to track and coordinate all submittals and requests received. To ensure that submittals are properly coordinated and tracked, TRB and Associates have established an internal plan review coordination process to ensure that each plan received for review is properly handled, processed, and returned on time. Our plan tracking procedures are computerized to track each submittal through the review process and maintain accurate and comprehensive records for each submittal. Upon completion of our review, any comments generated are consolidated into a correction letter in the City's preferred format which is remitted to the City for its reference.

Step 4 - Rechecks:

Upon receipt of the resubmittal package from the applicant, once we have verified that the resubmittal package is complete, we perform a recheck in the agreed-upon timeframe. This process is repeated until the project plan documents are ready to be recommended for approval.

Step 5 - Plan Approval:

When all review comments are satisfied, we will forward all relevant correspondence bearing our company's "Reviewed for Code Compliance" stamp (including plans, calculations, and specifications), along with a transmittal letter indicating our recommendation for project approval, and the project file to the City for processing.

Shipping and Delivery of Plans

TRB provides pre-printed overnight shipping labels and/or pickup services to facilitate the transport of any hardcopy plan submittals to our office. Please note that the pickup, shipment and delivery of plan documents and other relevant correspondence to the City are provided at no additional cost.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

References

TRB understands the importance of maintaining a high level of quality and customer service when supporting the City of Benicia with plan review, building inspection, permitting and other Building Safety and Public Works support activities. We encourage you to contact the following references to provide testimony of our performance of work. Please note that additional references are available upon request.

Please also note that additional References and highlighted **Project Experience** in the areas of service requested is included in **Section 11** of our proposal.

Professional Affiliations

- ICC East Bay Chapter Past President
- International Code Council

Other

Delegate Chief Building Official for the California Energy Commission – Power Plant Facilities

Todd Bailey is a registered professional engineer with nearly thirty years of experience in the Architecture / Engineering / Construction industry encompassing building code interpretation, plan review, project management, engineering design, permit center administration, and litigation support. He has extensive experience working with architects, engineers, contractors, building departments and other regulatory authorities to ensure compliance to adopted Building Code Standards and local ordinances.

Todd has provided Building Safety services to over 100 jurisdictions as a consultant and spent three years with the City of Concord performing architectural, structural, energy conservation and disabled access plan reviews for residential, commercial, and industrial structures. Todd is also approved as a Delegate Chief Building Official for the California Energy Commission responsible for verifying new power project conformance to engineering construction codes on behalf of the Commission.

Dominic Ma, SE, PE, MPA | Quality Control Principal

Education

Master of Science Structural Engineering UCLA, Los Angeles, CA

Master of Public Administration, California State University, East Bay Hayward, CA

B.S. Civil Engineering University of California, Berkeley, CA

Registration

Registered Structural Engineer California (#1920)

Registered Civil Engineer California (#20018)

Certified Energy Plans Examiner Residential (#R05-94-5121) - Inactive

Certified Energy Plans Examiner Non-Residential (#NR05-94-5576) - Inactive

Dominic has more than 30 years of experience in reviewing building plans and specifications submitted for building permit applications to assure compliance with adopted building codes and reference standards. Dominic's experience includes working for more than 27 years as a plan check engineer for the City of San Leandro and 6 years as a supervising civil engineer for the City of Oakland, where he led the City's plan review division.

Dominic has considerable knowledge of civil engineering and structural engineering principles and practices, California Building Code and Title 24 provisions. His strengths include having the ability to review, analyze and evaluate plans, specifications, engineering reports and calculations; possessing knowledge to identify code deficiencies; and evaluating alternate methods and materials of construction. Dominic is adept at reviewing plans for adherence to the California Building Code, ASCE 7, and when applicable FEMA, ASCE 41, NEHRP provisions.

Select Project Experience

Building Safety Plan Review

Plan Review projects supervised in the City of Oakland

- 2121 Harrison Street. The Cathedral of Christ the Light (also called the Oakland Cathedral). A new modern Roman Catholic Cathedral with glass walls 120 ft. high. The $190 million, 224,000 square feet structure sits on 36 innovative "friction pendulum double-concave bearing isolators," consisting of two facing concave surfaces.
- 2100 Franklin Street. The $45 million, 245,000 s.f. project is 9 stories high and built with steel frames. To compensate for its slightly smaller than code required width, the interior atrium is equipped with smoke control system to provide fire protection for its occupants. Evaluated the alternate materials methods request associated with this design element.
- 100 Grand Avenue. 22 Story Condominium Building budgeted at $150 million.
- Oakland Airport (Expansion and interior remodeling). A $350 million Terminal Improvement Program.

Plan Review projects performed

- Bayfair Mall (Tenant improvements), San Leandro
- Century 21 Theatre, San Leandro
- San Leandro Dialysis Clinic
- San Leandro Honda
- San Leandro Hospital (New doctors' office building)
- Carlton Plaza of San Leandro (Assisted living facility)
- Costco Building Addition, City of Concord
- New Gas Compressor Building, Butte County
- AT&T Rooftop solar Panel Installation, City of San Ramon
- Tilt-up Warehouse Buildings (2), City of Sacramento
- Historic Building Seismic Retrofit, City of Benicia
- Cancer Treatment Facility, City of Pleasant Hill

Work Experience

TRB + Associates, Inc., Senior Plan Review Engineer, 2007 to present
City of Oakland, Supervising Civil Engineer (Building Division), 2000 – 2006
City of San Leandro, Plan Check Engineer, 1973 – 2000

Bing Young, Architect | Plan Review Services Manager

Education

Bachelor in Architecture,
California Polytechnic State University
San Luis Obispo, CA

Registration

Registered Architect, California

Professional Affiliations

National Council of Architectural Registration Boards Certified

ICC Member

Bing Young is a registered Architect with plan review experience on both residential and commercial projects. He provides comprehensive life safety, accessibility, energy, and mechanical/electrical/plumbing reviews on a variety of residential and commercial project types. Bing possesses over 25 years of professional experience which includes roles in production, project management, construction management, energy, and accessibility analysis.

Work Experience

Plan Review Architect, TRB + Associates, Inc. **2018 - Present**

- Review drawings and calculations for code compliance on behalf of client agencies
- Projects include residential subdivisions, custom homes, additions, remodels, new commercial buildings, and tenant improvements

Project Architect, PSM Architects, Inc. **2008 – 2018**

- Prepared and managed the development of comprehensive construction documents for new commercial buildings, tenant improvements, and additions
- Oversaw and directed production staff
- Performed quality control review of building permit submittal documents
- Facilitated client and permit processing meetings
- Collaborated with engineers, ancillary designers, and vendors
- Prepared and reviewed project specifications
- Reviewed shop drawings and submittals for compliance with specifications and design intent
- Performed accessibility evaluation of existing sites and buildings
- Prepared detailed accessibility reports for building and business owners
- Facilitated pre-construction and post-construction on-site meetings with construction project managers and general contractors
- Performed construction administration and project closeout duties

Staff Architect, Hollman Bologna Architecture & Planning, Inc. **1996 - 2008**

- Prepared schematic design and construction documents for single-family and multi-family residential remodels, additions, and new buildings
- Performed residential building reconnaissance for additions and remodel projects
- Prepared design review documents for planning approvals
- Facilitated building permit processing
- Prepared and reviewed Title 24 Energy Efficiency Compliance documents

Certified Energy Plans Examiner, BETA, Inc. **1993 - 1999**

- Reviewed and approved Title 24 Energy Efficiency Compliance documents for residential and non-residential buildings for local jurisdictions

Christopher Rose | Inspection & Field Services Manager

Certifications/Licenses

ICC Certified

- California Commercial Building Inspector
- Commercial Building Inspector
- Residential Building Inspector
- California Residential Building Inspector
- Residential Plans Examiner
- Building Inspector
- Permit Technician

Chris possesses over 20 years of experience in the building and construction inspection field for various jurisdications in Northern and Southern California. His experience includes inspecting commercial, residential, non-residential, multifamily, municipal, and public structures for quality control and safety to ensure buildings are up to code and comply with local ordinances. Chris has extensive experience working in the building and safety, engineering, fire, and planning departments for multiple jurisdictions as well as the United States Marine Corps. Chris has positive working relationships with clients, management, as well as his peers and maintains high levels of productivity, reliability with excellent work ethic to deliver high quality customer service.

Chris is ICC Certified in multiple areas including as a California Commercial and Residential Building Inspector, Permit Technician, Commercial and Residential Building Inspector, Residential Plans Examiner, and Building Inspector.

Chris is responsible for the oversight of field inspectors and other building department staff. He employs a customer service focus in carrying out his building safety inspection responsibilities.

Work Experience

Inspection Services Manager, TRB and Associates, Inc. **2022 – Present**

- Responsible for the oversight of field inspectors and other building department staff.
- Inspection on several large-scale projects
- Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Communicates compliance elements with clients with solution driven resolve.
- Performs plan review of light commercial tenant improvements and remodel projects.
- Electronic and paper plan review.

Project Coordination, Plan Review, Inspection, and Construction Management Assignments

- **Apple World Headquarters project in Cupertino** – Document Control and coordination of an international design and permitting effort.
- **Marine Corp Air Ground Combat Center MWSS-374** - Re-construction of an Expeditionary Airfield, runway, and helicopter pads to include support buildings and clamshell hangers.
- **Marine Corp Air Ground Combat Center MWSS-374** - Construction of the Tank refueling pads and fuel farm.
- **Southern California Logistics Airport SCLA** - Remodeling and Repurposing of the existing George Air force base in Victorville California.
- **City of Hesperia City Hall, Library and Civic Center** - New Construction of a 27 Acre Civic Center Master Plan.
- **City of Hesperia Government Center** - New Construction of the County Government Building.
- **City of Hesperia Police Department Building** - New Construction of the County Government Building.
- **City of Hesperia Ranchero Road Underpass** - The Ranchero Road Grade Separation Project.
- **City of Hesperia Ranchero Interchange (HWY 15)** - Interstate 15 Ranchero Road Interchange.
- **Sonoma County** – Wildfire Recovery Operations.
- **Jackson County Oregon** – Wildfire Recovery and Program Development.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Chief Building Official (DCBO), Private Consultant, Various Locations 2014 - 2019

Provided Project Management, Compliance, Plan Review, Inspections, Document Control and Administration for power producing industrial infrastructure projects throughout the state for California Energy Commission. Below is a list of projects:

- **Carlsbad Energy Center Project (CECP) –** Above ground storage tank demo and decommissioning.
- **Blythe Solar Power Project Units 1 & 2 (BSPP)** – New 235 MW photovoltaic facility.
- **Pio Pico Energy Center (PPEC)** – Three Units, 300 MW gas fired turbine simple cycle facility.
- **Carlsbad Energy Center Project (CECP**) – Five Units, 632 MW gas fired turbine simple cycle facility.
- **Orange Grove Energy Center (OGEC)** – Two Units, reliability and AGP upgrade project.
- **Geysers Unit 16 (Quicksilver)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 18 (Socrates)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 20 (Grant)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 17 (Sonoma)** – Low pressure steam bypass project.
- **Geysers Unit 02 (NCPA)** – Mixing tower project.
- **Roseville Energy Park (REP)** – Catwalk extension project.
- **Colusa Generating Station (CGS)** – Rotating intake screen project.
- **Los Medanos Energy Center (LMEC)** – Cooling tower chemical tanks project.
- **Colusa Generating Station (CGS)** – Stairway to condensate pumps project.
- **Calpine Otay Mesa (OMEC)** – Low pressure steam bypass project.
- **Colusa Generation Station (CGS)** – New circulation system and raw water pumps project.
- **Cosumnes Power Plant (SMUD)** – Unit 3 AGP upgrade project.
- **Ivanpah Solar (ISEGS)** – Ammonia tank replacement project.
- **Colusa Generating Station (CGS)** – Bearing enclosure fire sprinkler project.
- **Humboldt Bay Generating Station (HBGS)** - New guard shack project.
- **Cosumnes Power Plant (SMUD)** – Unit 2 AGP upgrade and filter press project.
- **Abengoa Mojave Solar (AMS)** – Fire suppression line repair project for Alpha and Beta blocks.
- **Gilroy Energy Center (GEC)** – Gas line repair and replacement project.

(Ctd. on next page)

Paul Armstrong is a Registered Professional Engineer with over 30 years of engineering experience. His vast experience in all manner of construction, be it industrial, commercial, and residential project types, provides our clients with a strong skill set and wealth of industry knowledge. In addition to Paul's engineering experience, he is also a Certified Building Official, serving in this capacity at the City of El Monte, as well as Laguna Hills, Signal Hill, and Palos Verdes.

A noted author and lecturer in the building life safety industry, Mr. Armstrong has earned many awards, including CALBO Instructor of the Year.

Select Project Experience

- **Apple Campus Theater, Cupertino, CA** – The plan review of the Apple Campus' Theater where new products would be announced and corporate meetings held. Mostly subterranean structure that has a glass entry lobby supporting a carbon fiber roof (disk).
- **ARTIC (Anaheim Regional Transportation Intermodal Center), Anaheim, CA** – Plan review of the fire and life safety regulations for this new transportation center. The building is a steel tube framework with a 2-story administration area with a mezzanine inside. This review included a pedestrian bridge leading to the train platforms.
- **Anaheim Convention Center Expansion, Anaheim, CA** – A very large expansion of the convention center meeting space with an associated parking garage addition.
- **Disneyland Star Wars Expansion, Anaheim, CA** – A very visible area of the Disney resort that is about to open this year.
- **Rams/Chargers NFL Stadium, Inglewood, CA** – The plan review of the newest NFL Stadium project in So CA. The stadium itself is covered by a large steel tube framed roof structure that is not connected to the stadium.
- **Rio Tinto Soccer Stadium**, **Sandy City, Utah** – The plan review of the Salt Lake area's professional soccer stadium. It included a roof canopy structure with a wave feature in the leading edge.
- **Building Official Roles:**
  - Palos Verdes Estates
  - Laguna Hills
  - Whittier (interim position)
  - Signal Hill
  - El Monte

Regional Director, Building & Safety Services, TRB + Associates **2019 – Present**
Responsible for new business development for building life safety services for various jurisdictions throughout California. Provide client relations and code assistance. Perform training lectures on building and residential codes. Participate on various local, state-wide and national committees. Building Official of the City of Signal Hill.

Group Leader, Building and Safety Services, Industry Consultant **2017 – 2019**
Responsible for the development of new business for inspection services and plan review services for various jurisdictions across the United States. Provide client care and assistance on code related issues. Give training lectures on the building and residential codes. Participate on various local, state-wide, and national committees. Building Official of the City of Palos Verdes Estates and Laguna Hills.

Committees (Ctd.)

Author, 2013 and 2016 Significant Changes to the CBC and CRC

UL Fuel Gas Products Council (2002)

BCMC (BDMC) staff liaison (1993-2002)

Co-secretariat to the ICC Performance Based Building Code

Secretariat to the International Zoning Code (1996-2000)

Secretariat to the General Design, Administrative, Lateral Design, Fire and Life Safety and Fire Risk Code Committees of ICBO (1992-1996)

Staff secretariat responsible for the rewrite of the Means of Egress Chapter in the 1994 UBC

NIBS HHS Code Comparison Committee (1994)

FEMA Building Performance Review Team member (1993)

NIBS Flood Standards Comparison Committee (1992)

Coordinator, Pacific Rim Conference on Performance Based Codes

Various ASCE standards committees

SEAOC Code Committee liaison

ASME A17.1 Code Coordinating Committee

ANSI Construction Standards Board

Vice President, Various Industry Consultant Firms **2005 – 2017**
Responsible for the development of new business for inspection services and plan review services for various jurisdictions across the United States. Provide client care and assistance on code related issues. Give training lectures on the building and residential codes. Participate on various local, state-wide and national committees. Participate on various local, state-wide and national committees. Promotion and sales of the Firms' in-house electronic plan review system. Building Official of the City of Signal Hill. Contract Plan Review Engineer for the City of Anaheim

Chief Building Official, City of El Monte, Industry Consultant **2011 – 2012**
Responsible for the City of El Monte Building Division. Review plans for the City and issues permits. Conduct investigations of non-complying facilities frequently in conjunction with the Planning Division, Code Enforcement Division and LA County Fire Department. Develop presentations for City Council on adoption of new codes, etc.

Vice President, ICC **1991 – 2005**
Led the ICC Architectural and Engineering Services Department, responsible for technical opinions, plan review and the administration of technical contracts during the consolidation into the International Code Council. Managed ICBO Technical Services Department which was responsible for the maintenance of the code development process, plan review service and code opinion service for both external and internal customers. Represented the Council to many national, state and local organizations. Responsible for the technical image of the conference. Provided technical assistance on code related issues to both jurisdictional and professional members and non-members. Provided research on many code-related issues. Secretariat to most ICBO code development committees and the initial drafting secretariat to the ICC International Residential Code.

City of Los Angeles, Dept. of Building and Safety **1988 – 1991**
Structural Engineering Associate
Responsible for the structural, architectural and zoning review of proposed projects in the city. Chief of Coordinating Division and Preservation Coordinator. Evaluation of building products for LA code compliance.

Teaching Experience

International Code Council (ICC)
Lecturer –Non-structural Fundamentals of the 2009 IBC (domestically and internationally)
Lecturer – Non-structural Fundamentals of the 2012 IBC
Lecturer – ICC Code Development Process

California Building Officials
Lecturer- Significant Changes to the 2013 CBC and CRC for CALBO, and ICC
Lecturer – 2016 Introduction to the CBC Means of Egress
Lecturer - Updates to the 2010, 2013 and 2016 California Residential Code
Lecturer – Updates to the 2010, 2013, and 2016 California Building Code
Advanced Building Code Enterprises - Developed and presented coursework
Lecturer – Accessibility topics

Karin Kuffel, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science
Civil Engineering
Purdue University; West Lafayette, Indiana

Masters of Business Administration
Saint Mary's College of California; Moraga, California

Registration

Registered Structural Engineer
California

Karin has over 30 years of structural engineering experience. Ms. Kuffel has vast structural design experience in both complex commercial and residential projects. She has managed many large-scale projects, including hospitals, OSHPD and the Chabot Space and Science Center. Her experience includes staff training, building design, and design review, as well as construction supervision and development of design and construction guidelines for new single-family residences.

Work Experience

Plan Review Engineer, TRB + Associates, San Ramon, CA **2016 - Present**

Provide structural plan check reviews of large commercial and institutional structures for multiple Bay Area building departments.

Build Change; Philippines **2014 - 2016**

Lead Engineer - Philippines. Responsible for all technical work and staff of Denver-based engineering non-profit's programs and operations throughout the Philippines, including management of Filipino engineering/technical staff comprised of engineers and builder trainers. Supervised training of local staff, building design, design review, construction supervision, and development of design and construction guidelines and recommendations for single-family homes and schools based on the National Structural Code of the Philippines.

Crosby Group; San Mateo, CA **2011 - 2014**

Senior Structural Engineer/Project Manager. Project management on multiple design-build projects, working with design team and contractor on fast-track work both in- and out-of-state. Responsible for managing project team from design through construction, developing and tracking fees, deadlines, and deliverables.

Independent Consultant **2009 - 2011**

Structural engineering consultant in San Francisco Bay Area. Consultant for small commercial and residential work. Extended contract work for Rutherford & Chekene included multiple hospital projects covering new hospital facility design, OSPHD plan-check work, and construction administration assistance.

Biggs Cardosa Associates, Inc., SF, CA **2006 - 2009**

Senior Engineer. Project management with responsibility for developing work, managing project production work, and overseeing construction administration. Representative projects include oversight for design of 8-story residential and parking structure for Santana Row Parcel 8b (San Jose, California) and the Lowe's parking structure in San Francisco.

KPFF Consulting Engineers; SF, CA **2004 - 2006**

Project Manager. Responsible for developing work and fee proposals, managing project engineering, drafting work, and overseeing construction administration. Project management included design of 5-story addition to Kaiser Santa Rosa Hospital, construction administration for 7-story addition to Modesto Memorial Hospital, and design and construction of low-income housing for South County Housing.

Tom Hemenway is a Registered Structural Engineer with over 30 years of engineering experience. Tom's experience includes providing structural, civil, and architectural design and quality control on a variety of industrial, commercial, and residential project types including multifamily podium projects, utility-scale power plant facilities, and retail buildings. He has served in design and analysis capacities for several seismic strengthening projects involving timber, steel, concrete, and masonry buildings in the greater San Francisco Bay area. His technical skills include 3D modeling and dynamic analysis for large foundations and structures.

Select Project Experience

- Lead Civil/Structural Engineer on multiple projects including the following:
  - NUMMI, Stamping Plant and Plastics Plant Expansion, Fremont
  - Vandenberg AFB housing development phases III and IV
  - 140 Geary Street seismic retrofit, San Francisco, CA
  - Amgen, Process Lab Building 99, Thousand Oaks, CA.
  - Huntington Hotel, San Francisco, CA
  - Wells Fargo Bank, Fremont Data Center, Fremont, CA.
- Responsible for Civil, Structural, and Architectural designs for industrial projects domestic and international.
- Responsible for structural analysis and design of seismic strengthening to existing timber, steel, concrete, and masonry buildings in the greater San Francisco bay area.
- Responsible for 3D model constructability review for a new GE 7FA natural gas-fired and GE A10 steam turbine, 1x1 combined cycle electric power generating facility.
- Responsible for ensuring quality of Civil, Structural, and Architectural construction activities for 600-megawatt natural gas-fired, combined cycle electric power generating facility.
- Performed dynamic structural analysis and concrete design for new steam turbine foundation.
- Designed concrete and steel structures for Kennecott Copper Smelter Modernization Project, Salt Lake City, UT using STAAD III and Microstation for PC computer.
- Designed steel pile and conventional concrete pad foundations for overland conveyor at Falkirk Mine in Underwood, North Dakota.

Work Experience

TRB + Associates, Inc., Senior Plan Review Engineer, 2016 - Present
Owner, TjHemenway Design Consultant, 2014 to 2016
Construction and Engineering Interface Manager, Kvaerner North American Construction Inc. and Parson Brinkerhoff JV, 2013
Owners Representative, Calpine, Russell City Energy Center, 2011 – 2012
Lead Structural Engineer, Aker Kvaerner, 2002 – 2003
Resident Engineer, Kvaerner, 2000 – 2002
Civil/Structural Discipline Manager, Kvaerner Metals, 1998 – 2000
Senior Structural Engineer, Kvaerner Metals, 1997
Civil/Structural Lead Engineer, The Bentley Company, 1995 – 1996
Others, 1981 – 1994

William Vaughn, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science, Structural Engineering, Masters-level Course Work in Structural Engineering, Portland State University, Portland, Oregon

Bachelor of Arts, Economics, Course Work in Business Administration and Industrial Engineering, State University of New York, Buffalo, New York

Registration

Registered Structural Engineer, California

Registered Civil Engineer California

Professional Affiliations

Structural Engineers Association of Northern California (SEAONC)

Structural Engineers Association of California (SEAOC)

International Code Council (ICC)

East Bay Chapter of ICC

William Vaughn is a Registered Structural and Civil Engineer with over 35 years of experience in construction, structural engineering design, seismic investigation and structural peer and plan review. Bill has extensive knowledge in commercial and residential buildings as well as industrial facilities using steel, concrete, masonry and timber design. He also has a wide range of construction field experience including supervision, construction methods, product development and structural inspection. Of particular note, Bill's steel design portfolio includes 2 Moment Frame patents with HSS Steel Columns and Wide Flange Beams.

Select Project Experience

- Provided structural design and peer review services for clients with residential, multi-family, and commercial buildings using timber, steel, concrete, and masonry design.
- Produced structural designs for new buildings and provided structural designs and evaluations for alterations to existing buildings.
- Designed seismic strengthening of un-reinforced masonry buildings, wood buildings, and concrete tilt-up buildings.
- Produced repair designs for earthquake damaged facilities and for other structurally damaged buildings.
- Conducted analyses of existing buildings to assess compliance with codes and drawings.
- Performed investigations of earthquake, fire, and flood distress. Prepared reports, engineering analyses, and repair recommendations.
- Provided expert witness, structural peer review and plan review services.
- Investigated structural damage and distress for litigation preparation purposes. Prepared reports, engineering analysis, and recommendations to client. Provided design preparation and construction observations for repair designs.

Structural Peer Review

- Haas School of Business, University of California, Berkeley, CA

Structural Plan Review

- Russell City Energy Center, New $800 million Power Plan Project (for California Energy Commission), Hayward, CA
- Newell Village Mixed Use Project, Walnut Creek CA
- Terraces at Los Altos Mixed Use Project (Phase 3), Los Altos, CA
- New Family Dollar Store, Sacramento, CA

Structural Design

- Chevron Willbridge Terminal Upgrade, Portland, OR
- Chevron Eureka Terminal Upgrade, Eureka, CA
- Kaiser - Lennon Lane Mechanical & Seismic Upgrade, Walnut Creek, CA

Work Experience

TRB + Associates Inc., Senior Plan Review Engineer, 2011 – Present
Vaughn Engineering, Principal Structural Engineer, 1994 - 2011
David L. Messinger & Associates, Civil & Structural Engineer, 1990 -1994
Alan R. Horeis Structural Engineers, Civil Engineer, 1987 -1990
Others, 1971 – 1987

Mike Kaszpurenko, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science, Civil Engineering, Clarkson University, Potsdam, New York, 1976

Registration

Registered Structural Engineer, California

Registered Civil Engineer California

Professional Affiliations

Structural Engineers Association of Northern California (SEAONC)

FEMA Structural Specialist, for Urban Search and Rescue, Task Force 7, Sacramento, CA.

California Office of Emergency Services Volunteer for post-earthquake building review.

Mike Kaszpurenko is a registered Structural and Civil engineer with over 30 years of engineering experience. His experience encompasses the plan review, design, evaluation, and retrofit of various types of building and non-building structures using concrete, steel, masonry, wood, and light-gage metal.

Mike's experience includes working for a large structural steel fabricator where he was involved in detailing of shop drawings, design of connections, and on-site field review.

Select Project Experience

Industrial, Manufacturing

- Corn Products Cogeneration Facility, Stockton, CA. Plan review of boiler building and miscellaneous foundations for new facility.
- Nine Mile Point Two Nuclear Power Plant, New York. Miscellaneous connection designs.
- Oswego Power Plant, Oswego, New York. On site engineer, for fabricator of breeching, during construction of oil-fired power plant.

Commercial / Government /Civic

- 600 Sutter, San Francisco, CA. New eight story building.
- 973 Market, San Francisco. Seismic upgrade of an existing 8 story brick and concrete building.
- Saks Fifth Avenue, San Francisco, CA. Foundation shoring for a new department store.
- El Camino Real Hotel, San Mateo, CA. Preliminary design of a new three-story hotel.
- 1989 Loma Prieta Earthquake, San Francisco, CA. Damage assessment of numerous apartment buildings and other structures for the City of San Francisco.
- City Center Rotunda, Oakland, CA. Upgrade of three, eight story adjacent buildings into one multifunction facility.

Education, Assembly / Healthcare

- Windsor Middle School, Windsor, CA. New $11 million School Campus.
- Laguna Salada School District, Pacifica, CA. Survey of 12 school campuses for Pacifica School District.
- Clovis East High School, CA. Plan check review for the Office of the Office of State Architect on several buildings of a new campus.
- Kaiser Hospital Service Building, Walnut Creek, CA. New two-story support facility for a hospital.

Multi-unit Residential

- Winterland Apartments, San Francisco, CA. Engineer of record for a 304-unit apartment complex consisting of four stories of wood framing over several levels of concrete parking.
- Park Hill Terrace, San Francisco. Upgrade and extension of former 8 story hospital building into condominiums.

Daniel McLaughlin, PE, CASp | Senior Plan Review Engineer

Education

Masters in Structural Engineering
Lehigh University
Bethlehem, PA

B.S Civil Engineering
Lehigh University
Bethlehem, PA

Registration

Registered Civil Engineer, California

ICC Certified Plans Examiner

DSA Certified CASp

Professional Affiliations

American Institute of Steel Construction

Dan McLaughlin is a registered Civil Engineer and ICC Certified Plans Examiner with plan review experience on numerous residential and commercial projects. He has provided structural, life safety, and mechanical/electrical/plumbing, and energy reviews on a variety of residential and commercial project types. Project types include complex single-family homes, small to mid-sized retail shell buildings, office and mercantile tenant improvements, and large mixed-use projects. Dan possesses strong structural analysis skills and has an excellent working knowledge of ADAPT, RAM, SAP2000, AutoCAD, Revit, and MathCAD structural engineering software packages.

Work Experience

Senior Plan Review Engineer, TRB + Associates, Inc. **2014 - Present**

- Dan specializes in plan review coordination with extensive experience on both complex commercial and residential projects. Dan has served in project management and reviewer roles across many large-scale projects including Phase 1 of the $9 billion RELATED Santa Clara project, and the $1.5 billion UC DAVIS HEALTH Sacramento Campus, Aggie Square project.
- Recently participated in review of 4 story 135,000 sf wood apartment building over 2 story PT parking garage
- Participated in review of a 6 story 133,000 sf steel buckling restraint braced frame office building
- Review a variety of wood, concrete, and steel building types
- Communicate with project engineers and architects on a regular basis

Engineering Assistant, Contra Costa County Sanitary District **2011 - 2014**

- Performed submittal check to ensure use of proper materials and equipment
- Created site maps to discover location of overflows in the event of clogs in the systems
- Performed sewer line inspections to ensure proper installation by contractor
- Supervised bore sight to allow continual work when lead engineer not on site

Engineering Internship, City of Pleasant Hill, Engineering Division
2007

- Performed quality control of storm drainage system project
- Supervised ADA sidewalk installation to ensure proper installation by contractor
- Developed PowerPoint Presentation of the City department functions for the City Engineer

Residential Construction, McLaughlin Construction **2011, 2013**

- Extensive knowledge in residential wood construction. Restored Victorian home including repair and seismic retrofit of foundation, re-leveled house and conducted full replacement of electrical, plumbing and sewer line. Completed unfinished basement including framing, insulation, electrical, sheetrock and finish work

Collection System Operation Laborer, Contra Costa County Sanitary District **2009, 2010**

- Performed assigned duties on the hydro, rodding, construction, and utilities location crews

Petya McInnis, PE, CASp | Senior Plan Review Engineer

Licenses and Certifications

- Professional Engineer (P.E.)
- Certified Access Specialist (CASp)
- ICC Plans Examiner
- CalOES SAP Evaluator

Education

- MS in Structural Engineering, University of California, Davis, *2009 - 2011*
- BS in Civil & Environmental Engineering (Emphasis in Structures), California State University, Sacramento, *2007 - 2008*
- MS in Structural Engineering (One semester away from completion), University of Architecture, Civil Engineering and Geodesy, Sofia, Bulgaria, *1999 – 2003*

Skills

- Collaborative Team Player
- Detail-Oriented
- Hardworking
- Enthusiastic
- Dependable
- Quick Learner
- Proficient in Current Design Standards (e.g., ASCE7, ASCE41, ACI 318, AISC, etc.)
- Software Proficiency: Experienced in 2D/3D drafting and structural analysis software (e.g., AutoCAD, LDD, Civil 3D, SAP2000, Navisworks)
- Knowledge and experience in finite element analysis tools (e.g., ABAQUS, ANSYS)

Computer Skills

- Programming & Web Design: Matlab, SQL, C++, HTML, JavaScript
- 3D Studio MAX
- SolidWorks
- Adobe Photoshop
- Illustrator
- CorelDraw
- Macromedia Shockwave Flash

Petya McInnis possesses over 22 years of experience in engineering and construction, encompassing design, plan review, and inspection for residential, commercial, and industrial projects. In her recent role as a Plan Check Engineer for the City of Fairfield, Petya oversaw a wide range of design disciplines for projects of varying sizes and types. Her expertise spanned from simple residential additions to complex commercial and industrial developments. Petya offered invaluable assistance to stakeholders, ensuring compliance with code requirements and providing technical supervision to permit technicians and inspection staff. Her proactive approach extended to assisting Building Inspectors and Officials with code research and interpretation, resulting in effective solutions for challenging construction scenarios. Petya's contributions included recommending and implementing process and policy changes to further the city's objectives. Additionally, she prepared reports and updates for the City Council, ensuring transparency and accountability in project management.

Petya also served as a client liaison for all clients in the Sacramento region and numerous clients in the Bay Area. With exceptional interpersonal skills, high productivity, and a strong work ethic, she consistently delivered top-notch customer service.

As a professional Engineer, Petya holds ICC certification as a Building Plans Examiner and is also a certified access specialist (CASp). Petya's extensive experience and expertise make her a valuable asset to any team. With well-rounded experience in the building industry, she brings a wealth of knowledge and skills to every project she undertakes.

Work Experience

Sr. Plan Review Engineer, TRB and Associates, Inc. **2024 – Present**

- Provides building plans examination for jurisdictions on an as-needed basis. Responsible for providing plan check reviews for residential and commercial structures.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval.
- Performs plan review of light commercial tenant improvements and remodel projects.

Plan Review Manager, Private Consultant **2022 - 2024**

- Oversaw daily activities of all plan review staff in the Sacramento region.
- Provided technical assistance, training, and mentorship for internal and jurisdictional staff.
- Served as a client liaison for all clients in the Sacramento region and several clients in the Bay Area.
- Reviewed all design disciplines for projects of all sizes and types.
- Specialized in reviewing large commercial projects such as mixed-use multi-family, high-rise, and podium construction.
- Prepared proposals and time estimates

Senior Plan Check Engineer, Private Consultant **2021 - 2022**

- Responsible for reviewing all design disciplines for projects of various sizes and types across multiple Cities and Counties in California, Oregon, Washington, and Massachusetts.
- Specialized in reviewing large commercial projects including mixed-use multi-family, high-rise, podium construction, shopping centers, restaurants, warehouses, big-box stores, tenant improvements, etc.
- Led "page-turning" pre-submittal sessions aimed at identifying and resolving code compliance issues before submission.
- Managed the Stanford University SLAC plan review contract.
- Provided training and performed quality control for plan review staff.
- Prepared proposals and time estimates.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Plan Check Engineer, City of Fairfield, Fairfield, CA **2014 - 2021**

- Responsible for reviewing all design disciplines for projects of various sizes and types in the City of Fairfield.
- Reviewed projects ranging from simple residential additions, alterations, ADUs, and garage conversions to complex commercial and industrial TIs and new developments.
- Assisted designers, contractors, developers, business owners, homeowners, and City staff in applying, understanding, and interpreting applicable code requirements for each project, providing guidance for potential code-compliant solutions.
- Provided technical supervision to permit technicians and inspection staff.
- Assisted Building Inspectors and Building Official with code research and interpretation on difficult or unusual construction situations.
- Recommended and created process and policy changes.
- Prepared reports and City Council updates.

Senior Structural Engineer, AIR Worldwide, San Francisco, CA **2011 - 2014**

- Served as a Senior Engineer in the Catastrophe Risk Engineering Group.
- Evaluated code compliance of proposed and existing facilities across different countries/regions worldwide.
- Reviewed structural drawings and calculations to identify potential design deficiencies.
- Developed reliable quantitative measures of site-specific natural disaster risk (e.g., seismic, wind, flood, tsunami).
- Created 3D structural models for performance-based evaluations.
- Conducted site inspections and prepared proposals, progress reports, final project reports, and presentations.
- Collaborated closely with national and international government agencies and organizations on disaster risk reduction, mitigation, and response strategies.
- Notable projects included:
  - Seismic Risk Assessment of the Solar Millennium Project at Blythe, CA
  - Hurricane Risk Assessment of Walt Disney World, Orlando, FL (Phase I, IIA, and IIB)
  - Seismic and Wind Risk Assessment of KAUST, Saudi Arabia
  - Real-time Seismic Damage Assessment for the California Earthquake Authority
  - Real-time Hurricane Risk Assessment for DOW Chemical, Freeport, TX
  - Various international multi-phase disaster risk assessment projects in collaboration with the World Bank and the Asian Development Bank.

Design Engineer, Mark Thomas & Company, Sacramento, CA **2008 –2011**

- Worked as a Design Engineer on multiple municipal transportation engineering projects, including highway interchange and bridge projects, local roadway improvements, and streetscape enhancements.
- Prepared infrastructure analyses to support the implementation of planning frameworks and design concepts for each project.
- Led the planning, geometric design, and coordination for the Sacramento City College Bicycle/Pedestrian Overcrossing Project.
- Provided construction support for the 4-mile Folsom Blvd Enhancements Project in Rancho Cordova and the historic preservation R Street Reconstruction Project in Sacramento.
- Prepared various technical reports, construction details, utility mapping and coordination, grading plans, access compliance, quantity take-offs and estimates, drainage pattern analyses, and storm drain design.
- Other projects included: I-5 / Cosumnes River Blvd Interchange PS&E, Watt Ave / HWY 50 Project, Sacramento Regional Transit SSCP2, Stockton Transportation Impact Fee Study, R Street Market Plaza, and Ramona Ave Extension.

Project Engineer / Project Manager, KHS&S Contractors, Concord, CA **2005 – 2007**

Sr. Production Operator, FedEx Kinko's SF East Bay CPC, Pleasanton, CA **2004 – 2005**

Jay Griffin, CASp | Senior Plans Examiner

Licenses and Certifications

- Certified Access Specialist #788

Education

High School Diploma

Skills

- Communication, both written and verbal
- Critical thinking
- Technical plan review
- Creative solutions to complex problems

Jay Griffin possesses over 40 years of experience in the building industry including 20 years as a Supervising Building Inspector. He has extensive knowledge in the areas of building life safety, accessibility, plumbing, and mechanical disciplines, as well as a strong background in plan review. Jay's expertise spans across a wide range of complex projects, including commercial and residential buildings. Throughout his career, he has gained hands-on experience working in various roles, such as carpenter, lead carpenter, job foreman, superintendent, building contractor, and building inspector.

As a collaborative leader, Mr. Griffin recently provided exceptional leadership skills as the Supervising Building Inspector for the City of Sacramento Building Division. He also taught life safety and disabled access classes to city staff and provided guidance and support to plan review and inspection staff. With his expertise in resolving code-related issues and ensuring compliance with regulations, Jay maintains high levels of productivity, reliability, and customer service. He is also a certified California Access Specialist (CASp) and is passionate about continuing a career in the building life safety field.

Work Experience

Sr. Plans Examiner, TRB and Associates, Inc. **2023 – Present**

- Provides building plans examination for jurisdictions on an as-needed basis. Responsible for providing plan check reviews for residential and commercial structures. Review scope includes both structural and non-structural disciplines.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval.
- Performs plan review of light commercial tenant improvements and remodel projects.

Supervising Building Inspector, City of Sacramento, Sacramento, CA **2004 – 2023**

- Reviewed incoming workload for completeness and complexity and assigned tasks to staff members as needed.
- Taught ongoing life safety and disabled access classes to city staff, ensuring that they were up-to-date on the latest regulations and requirements.
- Served as a subject matter expert on life safety and disabled access provisions of the California Building Code, providing guidance and support to city plan review and inspection staff. Resolved code-related issues as they arose, using deep knowledge and expertise to ensure compliance.
- Reviewed project plans for compliance with applicable requirements of the California Building Code for life safety and disabled access. Worked on a wide range of projects, from simple tenant improvements to high-rise buildings, complex additions to historic structures, and the Golden 1 Arena. Conducted thorough reviews and provided detailed feedback to ensure that all aspects of the code were met.
- Evaluated AMMR (Alternative Materials and Methods of Construction) requests for equivalence with prescriptive code.

- Municipalities
- Construction
- Code Enforcement
- Life Safety
- Building Codes
- Plan Review
- Building Inspections
- NFPA
- Interpersonal Skills

Jeff possesses over 40 years in the construction industry with 21 years as a building inspector performing commercial and residential plan review and inspections in the building life safety, accessibility, plumbing, mechanical disciplines throughout Northern California. Jeff's expertise includes the review of highly complex mechanical and plumbing systems. He also has 20 years of experience working in the trades and as a contractor building custom homes.

As a collaborative leader, Jeff recently provided exceptional leadership skills as the Cannabis Project Manager for the City of Sacramento Building Division. He also provided training and direction for other plans examiners and inspectors for legal related facilities. He works well with the public as well as his colleagues and maintains high levels of productivity, reliability with excellent work ethic to deliver high quality customer service.

Jeff is ICC certified as a Commercial Building and Electrical Inspector. In addition, he is also certified as a California Access Specialist (CASp). Jeff has well-rounded experience in the building industry.

Work Experience

Senior Plans Examiner, TRB and Associates, Inc. **2021 – Present**

- Reviews complex plan drawings and calculations for code compliance on behalf of client agencies.
- Performed comprehensive mechanical and plumbing review for new $100 million mixed use project located in the City of West Hollywood.
- Performed mechanical and plumbing review for new $1.3 billion mixed use project located in Sacramento, CA
- Reviews encompass all manner of construction, including residential, commercial, and industrial project types.

Building Inspector/Plans Examiner, City of Sacramento **2000 – 2021**

- Performed mechanical plumbing plan review for Golden 1 Center Arena, home of the Sacramento Kings.
- Provided life safety, fire systems, and mechanical and plumbing plan review on a wide range of project types during tenure.

General Contractor, Brooks Construction **1980 – 2000**

Ryan Leiendecker | Senior Plans Examiner

Certifications/Licences

ICC Certified:
- Certified Building Official
- Certified Fire Marshall
- Building Code Specialist
- Building Plans Examiner
- Residential Energy Inspector/Plans Examiner
- Commercial Energy Plans Examiner
- Residential Plans Examiner
- Plumbing Plans Examiner
- Commercial Building Inspector
- Residential Building Inspector
- Commercial Plumbing Inspector
- Building Inspector
- Permit Specialist
- Permit Technician

Training Certificates:
- Anchorage Design
- Repair Application Procedure
- Fundamentals of Concrete and Materials
- Fundamentals of Concrete Construction

Education

- Brandman University (Chapman University System), Irvine, California- Master of Public Administration
- Brandman University (Chapman University System), Irvine, California- Bachelor of Sociology

Ryan James Leiendecker possesses more than 14 years of experience in building and fire life safety, conducting plan reviews and inspections for residential and commercial projects in the public sector. In his recent role as a Senior Plan Checker at the City of Pleasanton Building and Safety Division, Ryan supervised Plan Checkers and conducted quality control reviews of consultant's plan reviews. He evaluated building and structural plans for compliance with various codes and met with stakeholders to discuss projects. Ryan conducted over-the-counter reviews for simple projects, while also effectively communicating with customers at the counter, over the phone, and via email, consistently delivering exceptional customer service. He also served as backup for the Chief Building and Safety Official, assisted in special projects, and conducted field inspections as needed.

Ryan has vast experience reviewing construction plans to ensure structural integrity and compliance with regulatory standards, covering California building, mechanical, electrical, plumbing, energy, green, fire codes, and local ordinances.

Work Experience

Senior Plans Examiner, TRB and Associates Inc. **2022 – Present**

- Senior Plans Examiner for jurisdictions on an as needed basis responsible for conducting fire and life safety plan review and inspections ensuring compliance with all applicable local, state, and federal agencies.

Senior Plan Checker, City of Pleasanton Building and Safety **2021 - 2022**

- Supervised Plan Checker and ensured quality control of consultant's plan reviews.
- Checked building and structural plans from architects, engineers, contractors, and owners for compliance with codes and regulations.
- Collaborated with stakeholders like architects, engineers, contractors, and homeowners to discuss projects.
- Conducted over-the-counter reviews for simple projects.
- Provided information and assistance to customers in person, over the phone, or via email.
- Issued building permits and participated in staff meetings to review project compliance.
- Delivered customer service at the Public Counter, including minor plan reviews, and resolving conflicts.
- Acted as backup for the Chief Building and Safety Official when needed.
- Assisted in special projects such as community studies and emergency planning.
- Conducted field inspections related to plan reviews as necessary.

Plans Examiner, County of Napa Building Division **2015 – 2021**

- Reviewed construction plans for structural integrity and compliance with the California building, mechanical, electrical, plumbing, energy, green, fire code and local ordinances.
- Assisted building inspectors with inspections concerning complex structural and life safety issues.
- Met with architects, engineers, and contractors to discuss future or ongoing projects.
- Provided over-the-counter reviews for certain simple projects.
- Provided information to customers at the counter, over the phone, or via email.

Combination Building Inspector Aide II, City of Long Beach Building & Safety **2014 - 2015**

- Assisted customers at the public counter by answering Title 24 code and permit related questions and issuing permits.
- Plan checked photovoltaic systems, signs, pools, and spas.

James Johnson, E.E., QCxP | Senior Plan Review Engineer

Steven Block, E.E. | Senior Plan Review Engineer

Education

B.S. Engineering, Physics
California State University, Northridge, CA

Registration

Registered Electrical Engineer
California, Nevada, Arizona, Hawaii

Steven Block is a highly skilled electrical engineer with over 25 years' experience in the electrical engineering field. His expertise includes electrical design and plan review for compliance with the National Electrical Code, California Electrical Code, California Energy Code, local ordinances, National Electrical Safety Code, California Electrical Code, California Energy Code, local ordinances, National Electrical Safety Code, OSHA and other applicable laws, ordinances, regulations and standards (LORS).

Projects reviewed for code compliance include commercial and industrial solar power plants, commercial natural gas power plants, wastewater treatment plants, and cement plants, industrial and commercial buildings, parking structures, hotels, and municipal utilities. Designed and provided construction support for traffic signals, highway lighting, closed circuit television, traffic monitoring stations, maintenance stations, and storm water pumping stations.

Work Experience

Senior Electrical Plan Review Engineer, TRB and Associates **2016 - Present**

- Plan review for residential, commercial, and industrial installations – Phillips 66 Naval Weapons Station, OSHPD 3 reviews for the City of Sacramento, Benicia Valero Refinery Audit, Child Daycare Center in Santa Clara, new apartments in Sacramento.

Senior Electrical Engineer, Private Consulting Firm **2004 - 2016**

- Plan review for code compliance and field inspector support – Silver State North Photovoltaic Generating Station, transmission lines, and high voltage substation (Nevada), Palomar Power Project (California), Panoche Energy Center (California), Abengoa Solar Thermal Generating Station and substation (California), Genesis Solar Collector Generating Station (California), Inland Empire Energy Center (California), Distributed Energy Partners Generating Stations (Hawaii), Various Wind Power Generating Stations in Solano County, CA, and other generating stations.
- Plan review for commercial and industrial installations – FBI Honolulu, Disney Hawaii, Fort Irwin Military Housing (California), various rooftop photovoltaic installations (Hawaii), Valero Refinery Benicia (California), Transmission Line Feeder for Concrete Plant (Nevada) and Various Cellular Tower Installations (Hawaii).

Alan Roth, E.E. | Senior Plan Review Engineer

Education

B.S. Electrical Engineering
California State Polytechnic University

Registration

Registered Electrical Engineer
California

Alan Roth is a registered professional electrical engineer with over 30 years of engineering experience. His experience encompasses extensive electrical systems design, quality control, and oversight roles at power plant and other industrial facility types. Past roles include working for Calpine, Inc. and Dow USA on power generation and chemical plant projects.

Work Experience

Senior Electrical Plan Review Engineer, TRB + Associates 2016 – Present

- Conducts electrical code compliance plan review of industrial and power generation facilities. Currently assisting with plan review $1 billion petrochemical refinery expansion project.

Electrical Engineering, Calpine Corporation 1998 – 2014

During tenure at Calpine Corporation, held positions of Senior Electrical Engineer, Senior Project Engineer, Senior Operations Engineer, and Senior Electrical Engineer 3.

- Provided support for the design and construction of a new combined cycle power plants and installation of new combustion turbine generators in existing plants. Duties included:
  - Reviewed engineer's design documents for compliance with Calpine standards and proper interface with OEM documentation
  - Provided field support as required
  - Design
  - Management of capital projects
  - Analysis of protection and control systems
  - Root cause analysis and determination of corrective actions for equipment and protection system failures
  - Recommended predictive preventative maintenance
- Provided interface with consultants for complete protection reviews at 12 Calpine power plants in CA. Duties include:
  - Compiled all protection related drawings
  - Compiled any relay coordination and settings documents
  - Provided field support to consultants to verify drawings and actual protective relay settings
- Determined the preliminary conceptual design, using standard design guidelines for plants in development
- Interfaced with local utilities for new interconnections for projects in the development phase
- Represented Calpine to WECC and other regulatory bodies.
- Provided guidance to plants on maintaining compliance with regional and national reliability standards.
- Interfaced with local utilities for new interconnections for projects in the development phase.
- Represented Calpine to WECC and other regulatory bodies.
- Determine the specification of the major equipment to be selected for the projects as well as interfacing system design.
- Interfaced with utilities, steam hosts, gas suppliers, permitting agencies, consultants and other organizations involved with the development of power projects.
- Directed transmission consultants in initial studies for power plant siting.

Peter Kogan, M.E., LEED AP | Senior Plan Review Engineer

Education

Master of Science, Mechanical Engineering, Moscow Aeronautical Institute, Russia

Registration/Certification

Registered Professional Mechanical Engineer: California, Hawaii, Nevada, Texas, Colorado, Arizona

Certified Energy Manager (CEM), State of California

LEED Accredited Professional

Peter Kogan is a licensed mechanical engineer with over 30 years of diversified experience in the construction industry. His expertise lies in the areas of design and construction administration for Heating, Ventilation and Air Conditioning, Plumbing, Fire Protection, Energy and Building Studies, and Value Engineering. In the past ten years he was responsible for the design and renovation construction of several historical preservation projects. Peter's extensive experience and personal attention to project details has always assured professional services performed within budget and to complete client satisfaction.

Peter has published several technical articles in the national magazine "Heating, Piping, Air Conditioning" and recently had an article published in the architectural magazine "Progressive Architecture". Peter has presented a technical paper on World Energy Congress in Atlanta, Georgia in 1990.

Akitayo (Tai) Akiwumi | Senior Plans Examiner

Certifications/Licences

ICC Certified:

- Building Plans Examiner
- Building Inspector
- Plumbing Inspector

Education

- Master of Science - Mechanical Engineering, University of Manchester Institute of Science and Technology, UK.
- Bachelor of Science - Mechanical Engineering, University of Manchester Institute of Science and Technology, UK.

Training

- 2022 CBC Chapter 11A: Privately Funded Multi-Family Dwelling Accessibility.
- 2022 CBC Chapter 118: Accessibility in Public Buildings, Public Accommodations and Commercial Buildings.

Committee Representation

City representative at the Tri-Chapter Uniform Code Committee meetings.

Akitayo (Tai) Akiwumi possesses over 22 years of experience in conducting complex plan reviews for residential and commercial projects, encompassing architectural, mechanical, plumbing, and electrical aspects. In his recent role as a Plans Examiner at the City of San Ramon, he conducted thorough plan reviews for a diverse portfolio of projects, ranging from new constructions to tenant improvements and alterations. Tai's responsibilities also extended to performing over-the-counter plan checks, issuing permits, and providing invaluable code resource services to clients.

In previous roles, Tai demonstrated his proficiency by providing guidance to designers, training staff, addressing customer inquiries, conducting extensive research on code issues, and collaborating effectively with architects and designers. His dedication to ensuring compliance and safety standards has been evident throughout his career.

Tai exhibits exceptional knowledge of local, state, and federal safety standards, ensuring strict adherence to regulations. Holding ICC certifications as a Building Plans Examiner, Building Inspector, and Plumbing Inspector, he brings a well-rounded expertise to the building industry. urthermore, his background in mechanical engineering, technical supervision, general management, and project development, combined with his reliability in supporting team efforts, greatly enhances his performance in his role.

Work Experience

Senior Plans Examiner | TRB and Associates Inc. **2024 - Present**

- Senior Plans Examiner for jurisdictions on an as needed basis responsible for conducting fire and life safety plan review and inspections ensuring compliance with all applicable local, state, and federal agencies.

Plans Examiner | City of San Ramon, San Ramon, CA **2005 - 2024**

- Conducted residential and commercial architectural, mechanical, plumbing, and electrical plan reviews.
- Reviewed a wide range of projects, including:
  Non-Residential:
  - New constructions like malls, offices, and restaurants.
  - Tenant improvements for offices, restaurants, stores, warehouses, and more.

  Residential:
  - Single-family dwellings, involving both new constructions and alterations.
  - Multi-family dwellings, including new constructions and alterations.
- Performed over-the-counter plan checks, issued permits, and provided code resource services to customers via counter, email, and telephone inquiries.
- Assisted in training permit technicians and ancillary staff.
- Met with architects and designers before project submittals for review.
- Conducted field inspections as needed.

Plans Examiner I & II, Berryman & Henigar Inc. | Pleasanton, CA **2002 - 2006**

- *2005 - 2006:* Served as Plans Examiner II, conducting part-time residential and commercial architectural, mechanical, plumbing, and electrical plan reviews on an as-needed basis.
- *2002 - 2005:* Functioned as a Plans Examiner, overseeing residential and commercial architectural, mechanical, plumbing, and electrical plan reviews.
- Additional responsibilities included:
  - Provided guidance to designers on code compliance issues.
  - Assisted in training permit technicians and ancillary staff.
  - Addressed customer inquiries regarding plan checks and other matters.
  - Conducted research on code issues as requested by building departments.
  - Collaborated with architects and designers prior to project submissions for review.

Michael Osborn, PE, LEED AP | Senior Civil Plan Review Engineer

Licenses and Certifications

Registered Civil Engineer | 66022

LEED AP, 2009

Education

Bachelor of Science, Civil Engineering
California Polytechnic University, San Luis Obispo, CA

Caltrans Local Assistance Resident Engineer (RE) Academy

Affiliations

Leadership Santa Barbara County, Board of Directors

Leadership Fresno, Class 31

American Society of Civil Engineers (ASCE)

Michael Osborn is a senior engineer at Provost & Pritchard. With over 20 years of engineering experience, Mr. Osborn has been involved in a variety of public works, residential and commercial development, and educational facility projects. His areas of expertise include site grading design, Americans with Disabilities Act (ADA) site accessibility design and assessment, stormwater management, storm drainage, sanitary sewer systems design, street design, and site development.

Work Experience

Plan Check Engineer, Grading and Drainage Plan Check Services | City of Santa Clara, CA

Mr. Osborn is currently assisting the City of Santa Clara by providing grading and drainage plan check services for various projects in the city. Mr. Osborn has been a primary plan check engineer, reviewing on-site development and associated improvements in the public right-of-way in relation to demolition, grading and drainage. Projects have varied in size from single commercial buildings to multi-family residential to the multi-phased, mixed-use Related Santa Clara project.

City Engineer | City of Mendota, CA

Mr. Osborn is the current City Engineer for the City of Mendota. His responsibilities include management and coordination of the City's state and federally-funded street projects through the Fresno County Council of Governments (FCOB) and Caltrans DLAE and coordination with the City Manager and Public Works Department on infrastructure issues with streets, water, sewer, and storm drain. Mr. Osborn has a significant role in assessing and identifying pavement conditions and storm drain infrastructure issues and needs for the City and putting that knowledge to use in assessing potential flooding issues and coordinating pavement maintenance and street reconstruction.

Project Manager, On-Call City Engineering Services | City of Dinuba, CA

Mr. Osborn provided general civil engineering services to the City of Dinuba, assisting the City's Public Works Department to complete capital improvement projects for 18 months. Projects that were included under this contract ranged from providing civil engineering and land surveying for park facility upgrades, ADA compliance, updating the City's Urban Water Management Plan, development reviews, and grant writing assistance.

Project Engineer, ADA Assessment and Barrier Transition Plan, Community Regional Medical Center | Fresno, CA

Mr. Osborn was the project engineer responsible for completing an ADA compliance site self-evaluation of the Community Regional Medical Center campus. The exterior site-evaluation consisted of the paths of travel from parking stalls to building front doors, and paths of travel between buildings. Upon completion of the evaluation and results report, a Barrier Removal Plan was prepared and included a detailed list of compliance areas that needed to be addressed.

Project Manager, Ongoing Consulting Services, Santa Barbara Community College District | Santa Barbara, CA

Mr. Osborn was responsible for providing ongoing engineering services for the Director of Facilities & Operation and Campus Development. He prepared a pavement assessment of all three campuses within the District, which led to the District's first pavement management plan. In addition, he improved approximately 30,000 square feet of pathways, repaired or resurfaced approximately 10 acres of asphalt pavement, improved the sites of 27,840 square feet or modular buildings, and improved accessible parking and routes of travel around each project. Additional scope of services included mapping existing utilities and improving potable water and sanitary sewer facilities to new buildings. Mr. Osborn also studied slope erosion and prepared "on-call" emergency slope repairs, and provided site grading, paving, utility and storm water management improvements for new building construction as the project civil engineer on several architectural teams.

Michael Williams | Supervising Inspector

Certifications/Licenses

California ICC Certified:
- Building Inspector B5
- California Residential Building Inspector
- California Commercial Building Inspector

Certified in Oregon:
- Oregon OIC-OR Inspector
- Oregon SIA-Structural Inspector A-Level
- Oregon CAS-Residential Structural Inspector

- Linhart Peterson Powers Associates (LP2A) Training Institute – Certificate
- State Of California Safety Assessment Program (CAL OES)

Education

- U.S. Army Air Defense Artillery, Army Ranger School Ranger Indoctrination Program (RIP)
- Diablo Valley College (DVC) courses in Electrical, Plumbing, and Mechanical Codes

Computer Skills

- Permit Plus
- Accela
- Permit Track
- Sweeps

Michael WIlliams possesses over 20 years of experience in inspection services for commericial and residential projects encompassing inspections of building, structural, electrical, plumbing, mechanical, overall life safety standards, IOR projects, local zoning codes, construction documant review, issuing of building permits, as well as over the counter plan review. He is able to interpret and apply pertinent Federal, State, and local laws, codes, and regulations. Michael also has experience in all aspects of the construction industry.

Mr. Williams is highly motivated, hardworking, dependable, punctual, excellent team player with a “can do” attitude. Michael works well with the public, with his colleagues, in a leadership position, or alone, with strong interpersonal skills, high levels of productivity, reliability with excellent work ethic enabling successful interaction with clients, co-workers, and supervisors.

As an ICC Certified Building Inspector, Residential and Commercial Building Inspector, Michael is motivated to continue a career in the building and life safety field, and public service.

Work Experience

Supervising Inspector, TRB and Associates, Inc. **2023 – Present**

- Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Communicates compliance elements with clients with solution driven resolve.
- Provides over the counter building plans examination for jurisdictions on an as-needed basis.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval as needed.
- Project types range from residential alterations to light-gauge structures in commercial buildings.
- Project Manager for Disaster Recovery Operations and Program Development.
- Cal OES SAP Inspector experienced for multiple events.

Building Inspector, Solano County, Fairfield, CA.	**2011 - 2019**
Consultant/Project Manager, Build Rite Construction, Bay Area, CA	**2009 - 2011**
Building Inspector, Solano County, Fairfield, CA.	**2006 - 2009**
Building Inspector, Private Consultant, Elk Grove, CA.	**2005 - 2006**
Electrical Apprentice/Construction Laborer, Steiny & Co.,Vallejo, CA.	**2000 - 2005**
Sargent, U.S. Army – Fort Drum Watertown, NY.	**1993 - 1998**

Douglas Kreiss | Senior Building Inspector

Certifications/Licenses

- ICC Certified Combination Dwelling Inspector - Uniform Codes
- ICC Certified Residential Combination Inspector
- ICC Certified Commercial Electrical Inspector
- ICC Certified Mechanical Inspector
- ICC Certified Plumbing Inspector UPC
- ICC Certified Mechanical Inspector UMC
- ICC Certified Building Inspector
- ICC Certified Plumbing Inspector
- ICC Certified Electrical Inspector
- ICC Certified Combination Inspector
- ICC Certified Commercial Combination Inspector
- California State Fire Marshal Fire Prevention 1A, 1B, 1C

Education

- University of Illinois, Champaign, IL, M.S.
- University of California, Berkeley, CA, B.A.
- College of Alameda, CA. A.A.

Douglas possesses over 20 years of building industry experience as a Certified Building Inspector. Douglas' extensive knowledge includes a wide variety of project types including all aspects of single and multi-family residential, commercial, and industrial structures. He has in-depth code knowledge as is adept at the practical application of the codes working with public agencies.

Mr. Kreiss most recently served as a Building Inspector for the City of Fremont. In this role, he provided expertise, staff training and interpretation of mechanical installation and inspection in addition to combination inspection duties in special projects. This has provided him with a wealth of building industry experience. Douglas has demonstrated outstanding customer service with the public, contractors and development community.

Douglas is also ICC certified in multiple areas including as a Building Inspector, Combination Dwelling Inspector – Uniform Codes, Plumbing Inspector UPC, Mechanical Inspector UMC, Commercial Combination Inspector, Residential Combination Inspector, Commercial Electrical Inspector, Mechanical, Electrical and Plumbing Inspector. He is also certified as a California State Fire Marshal for Fire Prevention 1A, 1B, and 1C.

Work Experience

Senior Building Inspector, TRB + Associates **01/2021 - Present**

- Senior Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Contract Inspector for major projects and jurisdictions on an as needed basis.
- Communicates compliance elements with clients with solution driven resolve.

Building Inspector, City of Fremont **07/2001 - 06/2020**

- Senior Specialist assigned to provide expertise, staff training and interpretation of mechanical installations and inspection in addition to combination inspection duties in special projects.
- Projects included the City of Fremont corporation yard, two story private school buildings, churches, fire stations, multi-story apartment complexes, senior housing project, all seismic upgrades per the City of Fremont ordinance, high tech and hazardous occupancies, restaurants, single family residential projects.
- Duties also included coordination of staff vehicle maintenance and revision of Building Department forms

Combination Building Inspector, City of Fremont **05/2000 - 07/2001**

- High tech, commercial and industrial inspections, including Seagate, AXT HMT, Home Depot REI, City Beach, single family residential.

Combination Building Inspector, City of Pleasanton **09/1999 - 05/2000**

- Single family residential combination inspections and commercial inspections

Combination Building Inspector, Private Consultant **03/1999 - 09/1999**

- Assigned to the City of Dublin and Town of Danville
- Single family and multi-family residential projects

Union Carpenter, Private Consultant **01/1980 - 04/1999**

- Devcon Construction, Tisys Construction, Holvick Construction, Cramer Associates. Supervision, foreman, commercial industrial new construction, tenant improvements, tilt-up, wood and metal stud framing, interior and exterior finish work, cabinets, acoustic ceilings, computer floors, residential rough and finish construction

Sean Burke | Senior Building Inspector

Certifications/Licenses

ICC Certified
Plumbing Inspector
Electrical Inspector
Building Inspector

Professional Affiliations

B.A., Religious Education Minor in Christian Education

Computer Skills

Microsoft Office
Accela Permit Services software

Sean possesses over 24 years of experience in inspection services throughout Northern California encompassing housing inspections, quality control, and combination building code inspections for residential and commercial project types. Sean also has 12 years of experience as an electrician.

Sean's recent experience as a multi-trade inspector for several commercial projects includes helping support the jurisdictions of the County of Sacramento, Town of Loomis, and City of Colfax for both inspections and minor plan review.

As a collaborative leader, Sean provided exceptional leadership skills in managing, supervising, evaluating, and training 22 personnel at one of the busiest permit counters in the region. He has positive working relationships with clients, management, as well as his peers and maintains high levels of productivity and reliability with excellent work ethic to deliver high quality customer service.

Work Experience

Combination Building Inspector, TRB and Associates, Inc. **2022 – Present**

- Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Communicates compliance elements with clients with solution driven resolve.

Building Inspector, Private Consultant **2019 – 2021**

- Functioned as a multi-trade inspector for several commercial projects (Placer County's New Coroner's Facility, WellQuest of Granite Bay & Amazon Distribution Facility in Turlock, CA)
- Helped support the jurisdictions of the Town of Loomis and City of Colfax for both inspections and minor plan review.

Permit Services Manager, City of Sacramento **2014 - 2019**

- Managed and oversaw the Building Department Permit Counter.
- Supervised 16 employees permit technicians and building inspectors.
- Supervised six (6) customer service reps assisting in checking in customers and processing payments and plans management.
- Responsible for a variety of complex clerical duties, primarily related to the intake and processing of building permit applications as well as constant communication and coordination with members of the public and City staff.

Building Inspector, City of Sacramento **1998 - 2014**

- Inspected new residential construction and remodels and light commercial tenant improvements.
- Managed facilities permit program, catering to commercial building owners with frequent tenant improvement to expedite their plan submittals and streamline their inspections.
- Supervised three (3) building inspectors assigned to the program.
- Responsible for supervising, evaluating, training, and coordinating the work of building inspectors performing inspection work in all phases of construction, alteration, and repair for compliance to approved plans, specifications, and state and local codes.

Electrician, Private Sector **1987 - 1998**

- Worked as an electrician in various private sectors in Northern California, located in Truckee, Gold River, and Sacramento.

Brian Elder | Senior Building Inspector

Certifications/Licenses

- ICC Certified, Building Inspector
- ICC Certified, California Residential Building Inspector
- ICC Certified, California Commercial Building Inspector
- IAPMO Plumbing Inspector
- IAPMO Mechanical Inspector
- P.O.S.T. PC 832
- California General B CSLB Contractor License # 730875

Brian possesses over 20 years of experience providing inspection services to jurisdictions throughout Northern California. He possess extensive knowledge of the local environment including applicable codes, ordinances, climate and culture. He has inspected projects of all types and sizes and is able to inspect a wide range of residential and commercial projects.

His recent experience includes working as a Combination Building Inspector for a 550,000 sq. ft. Hotel Casino addition at Cache Creek Casino. He has also provided combination inspection services for various jurisdictions including Yolo County, the Cities of Grass Valley, West Sacramento, Sacramento, Vallejo, Winters and Town of Loomis. Brian managed and oversaw the building department and inspectors at the City of Grass Valley. As a licensed general contractor, Brian worked on a tract home construction for Shastan Homes in Chico.

Work Experience

Senior Building Inspector, TRB + Associates **11/2018 – Present**

- Contract inspector for jurisdictions on an as-needed basis responsible for inspecting residential and commercial project types

Combination Building Inspector, Private Consultant **07/2014 – 11/2018**

- Provided combination inspection services for the Cities of West Sacramento, City of Vallejo, City of Sacramento, Town of Loomis, City of winters, Yolo County and Cache Creek Casino
- Projects included single and multifamily residential, commercial, industrial buildings, large tilt up and ten story high rise buildings

Supervising Building Inspector, Private Consultant **11/2013 – 07/2014**

- Performed inspections of commercial, industrial, and residential construction (new, remodels, repairs and replacements) for conformance with applicable codes and ordinances
- Reviewed building plans and supporting material relevant to ensure compliance with various codes, ordinances and policies
- Conferred with city personnel, architects, contractors, and the general public on building code requirements and restrictions
- Reviewed records and reports of inspections for accuracy

Supervising Building Inspector, City of Orland, CA **03/2002 – 11/2013**

- Provided building, electric, plumbing, mechanical, and accessibility inspections for residential and commercial projects
- Performed inspections of all construction phases for compliance with applicable State and City codes and ordinances
- Conferred with city personnel, architects, contractors, and the general public on building code requirements and restrictions
- Verified workmanship and materials during all phases of residential, commercial and industrial construction projects and investigated violations as necessary
- Calculated building valuations and permit fees, collected fees and issued permits
- Verified contractor's licenses, and workers compensation insurance prior to issuing permits

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Jacqueline (Jacqui) Powers | Senior Permit Technician

Education

Bachelor of Arts, Chico State University

Licenses/Certifications

NFPA 472 Hazardous Materials Awareness

ICC Certified Plans Examiner *(expired)*

Jacqui Powers brings more than a decade of expertise in the building industry. As a Senior Permit Technician, she excels in navigating building practices and regulatory compliance across federal, state, and local levels. Jacqui is highly proficient in data entry, project coordination, and office administration, enabling her to effectively manage multiple projects while maintaining exceptional customer service standards. This includes her extensive experience in building and life safety for numerous jurisdications throughout California.

Work Experience

Senior Permit Technician, TRB + Associates **2017 - Present**

- Assist with Document Control for various projects
- Contract Permit Coordinator for jurisdictions on an as needed basis.
- Assist clients with questions and inquiries
- Manages the demands of multiple jurisdictions
- Reviews plans for new residential, additions, improvements and light commercial projects.

Plans Examiner | Permit Technician, Bay Area Municipal Consultant **2013 –2017**

- Provided plan review of residential and commercial projects; including additions and tenant improvements.
- Contract Permit Technician for multiple jurisdictions
- Document Control for various high scale commercial and power plant projects.

Event Director | Office Manager, Bay Area Catering **2009 - 2011**

- Managed all aspects of event coordination, including preparing proposals, negotiating contracts, discussing rental upgrade options with clients, developing event timelines, creating menus, collaborating with outside vendors, and arranging rentals.
- Recruited, trained, delegated tasks to, coached, and motivated event staff. Evaluated staff performance. Entered, retrieved, and updated event setup information, and produced event reports using a computerized event management system.

Event Director | Office Manager, East Bay Golf Course **2004 - 2009**

- Served as the "Command Center" for the office, addressing issues and relaying accurate information between sales staff, chefs, employees, and the managing partner. This included details on guest counts, menus, tastings, location, and timing.
- Compiled a monthly binder detailing all events and staff schedules for the managing partner, chef, and sales staff.
- Functioned as the office administrator, handling phone calls, emails, scheduling meetings and conferences, managing transportation and travel arrangements, and processing mail.
- Demonstrated proficiency in Microsoft Office programs (Word, Excel) and various email systems (1and1, Outlook).
- Skilled in QuickBooks for invoicing, billing, payroll, bill payments, and report generation.
- Managed the office schedule for all staff, including front of house and production, and supervised sales staff appointment setting.
- Monitored all accounts payable and receivable, maintained vendor relationships, processed client payments, created budgets, tracked inventory, and completed profit and loss statements.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Fee Schedule

TRB and Associates offers the following fixed-fee and hourly rate schedules for services provided. Please note that Building Plan Review services are rendered on either a fixed fee or hourly rate basis, as noted below. If additional services are requested such as Building Inspection, Permit Processing, Staff Augmentation and Other services (e.g. MWELO, Civil Plan Review; CASp consulting), those services can be provided on an hourly basis at rates shown in the provided Schedule of Hourly Rates and Reimbursables.

Plan Review Services

Our plan review fees may be calculated as a percentage of the Plan Check Fee collected by the City. The fee compensation shown covers three total plan review cycles – the initial plan review and two rechecks. Any further review cycles which become necessary and reviews of revisions to approved plans would be billed on an hourly basis at the Senior Plan Review Engineer/Architect rate provided in the accompanying Schedule of Hourly Rates and Reimbursables. Please note that the turnaround timeframe for providing expedited and express plan reviews would be negotiated/mutually agreed upon prior to commencement of the review. Please also note that all plan reviews are subject to a minimum $250 fee.

Turnaround Timeframe* (in business days)	Structural Only Review	M/E/P Only Review	MWELO Only Review	Certified Floodplain Manager (CFM) Only Review	Complete Building Review (Structural, Life Safety/Disabled Access, M/E/P, Green, Energy)
Standard Generally, five-to-ten-day turnaround, as mutually agreed upon	50%	50%	70%	70%	70%
Expedited** As negotiated and mutually agreed-upon	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent

* For exceptionally large/complex projects, 15-day first check and 10 day rechecks may apply, as mutually agreed upon prior to commencement of review.

** Turnaround timeframe would be mutually agreed upon prior to commencement of work.

*** Note: For other review scope combinations not specifically identified in the above table (e.g. Electrical Only, Mechanical/ Plumbing Only, etc.), the fee compensation would be on an hourly basis.

**** Projects with Calculated Plan Reviews Fees in Excess of $10,000 are eligible for negotiated cost.

Please note that the pickup, shipment, and delivery of hardcopy and/or electronic plan documents and other relevant correspondence to the City is included in the above-noted cost.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Schedule of Hourly Rates and Reimbursables

The following billing rates apply for services rendered on an hourly basis:

Position	Hourly Rate
Principal	$205.00
Project / Division Manager	$175.00

Relevant Project Experience

TRB staff members have extensive experience providing plan review, building inspection, permitting and other Building Safety and Public Works support activities to municipal agencies. To help demonstrate our depth of knowledge, please find the following large projects profiled for your reference. Please note that additional project experience information and references follow the profiled projects.

RELATED Santa Clara Mixed Use Project | Agency: City of Santa Clara, CA

Valuation: $9 billion
Completion Date: Pending
Project address/location: Santa Clara, CA
Project contact person: City of Santa Clara; David Tran SE, Asst. CBO, (408) 615-2436
Scope of work: Combination Code Compliance Plan Review, including Grading & Drainage
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Paul Armstrong, Dominic Ma, Karin Kuffel, Jim Johnson.

TRB was selected by the City of Santa Clara to provide Life Safety, Disabled Access, Structural MEP, Energy, Green Building, Civil, Stormwater, and Grading construction code compliance services, including Alternate Material and Methods support for Phase One of the Related Santa Clara multi-phased, mixed-use project.

The project at projected full build out (ie all phases) consists of 9.2 million square feet of mixed-use development with commercial office, retail / entertainment including a food market, 1,680 residential units, 700 hotel rooms, parking facilities, new open space, and roads, new / upgraded / expanded infrastructure and utilities, and approximately 5 million square feet of corporate office space. The first phase of the project comprises an 850,000 sf garage with 2 high rise towers, 1 mid-rise building, and multiple low rise structures located above (podium construction).

Santa Clara Square Mixed Use Development Project | Agency: City of Santa Clara, CA

Valuation: $200 million
Completion Date: 2019
Project address/location: Santa Clara, CA
Project contact person: City of Santa Clara; David Tran SE, Assistant Building Official, (408) 615-2436
Scope of work: Combination Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma, Jim Johnson

TRB provided combination plan review support to the City of Santa Clara for a series of Mixed Use, Residential, and Parking structures on the project. Reviewed project elements included the following:

New Building 1 + Garage:		New Building 2 + Garage:		Parking Garages: Buildings 3, 4 & 5:	
Occupancy Group:	R-2/S-2/A-3/M/B	Occupancy Group:	R-2/S-2/M/B	Occupancy Group:	S-2
Type of Construction:	IIIA/IA	Type of Construction:	IIIA/IA	Type of Construction:	IA
Number of Stories:	5	Number of Stories:	5	Number of Levels:	6
Floor Area Building 1:	400,000 sf	Floor Area Building 2:	385,000 sf	Floor Area:	525,000 sf

The Veranda Shopping Center | Agency: City of Concord, CA

Valuation: $75 million
Completion Date: 2019
Project address/location: Concord, CA
Project contact person: City of Concord; Ryan Pursely, PE CBO, Building Official, (925) 671-3173
Scope of work: Combination Code Compliance Plan Review and Inspector of Record
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma

TRB provided comprehensive Plan review and Inspection services on the construction of this 6-anchor store shopping center which encompassed core and shell; assembly, retail, and business use tenant improvements. The project includes 12 buildings of various building types (concrete tilt-up, masonry, steel frame, and wood frame construction) having a combined area of 375,000 s.f.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Dual Tower 26-Story and 8-Story Mixed-Use Buildings | Agency: City of Oakland, CA

Valuation: $200 million
Completion Date: In Progress
Project address/location: Oakland, CA
Project contact person: Alain Placido SE | Supervising Civil Engineer
Scope of Services Provided: Combination Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma, Karin Kuffel, Jim Johnson

TRB provided Life Safety, Disabled Access, Structural, MEP, Energy, and Green Building code compliance services Code Compliance Plan for a 26-Story Type 1 podium tower with 270 market rate apartment units and accompanying 8-story mid-rise 90 unit affordable apartment building. Both buildings sit on a concrete podium. The podium includes 1 level above and 2 levels below grade, containing parking at all levels and community and retail functions at grade. Occupancy Groups: A, B, F-1, R-2, S-1, S-2.; Type of Construction: I-A; Number of Stories: 26 Building 1, 8 stories Building 2.

UC Davis Health – Aggie Square Mixed-Use Project | Agency: UC Davis Health

Valuation: $1.3 billion
Completion Date: In Progress
Project address/location: Sacramento, CA
Project contact person: UC Davis Health; Paul Menard RA, Building Official, (916) 734-7416
Scope of work: Fire Life Safety, Disabled Access, MEP Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Paul Armstrong, Dominic Ma, Jim Johnson, Jeff Brooks, Jim Begley

TRB was selected to provide Building and Fire Plan Review Services for the Aggie Square Project expansion of the UC Davis Medical Center from 3.5 to 6.2 million sf. The project consists of three high-rise towers and a separate mixed-use building (1.2 million s.f. portion). This multi-phase project includes research, laboratory, housing, and commercial components.

Sacramento Convention Center Expansion & Renovation | Agency: City of Sacramento, CA

Valuation: $240 million
Completion Date: 2021
Project address/location: Sacramento, CA
Project contact person: City of Sacramento; Daniel Valencia PE, Sr. Engineer (916) 808-7877
Scope of work: Combination Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma, Karin Kuffel, Jim Johnson, Jim Begley

TRB was selected to provide combination Plan Review for the large-scale and high-profile expansion (245,000 s.f.) and renovation (200,000 s.f.) of the Town's convention center facility. TRB reviewed the project for adherence to adopted building standards codes in Life Safety, Structural, MEP, Accessibility disciplines. TRB's scope of work included regularly scheduled telecommunication meetings to ensure schedule alignment. In addition, our firm was engaged in the evaluation of Alternate Materials and Methods requests to address several performance-based design elements on the project. Our review included assessment of a fire modeling study presented as part of the performance-based design consideration.

Monterey Bay Aquarium Learning Center | Agency: City of Monterey, CA

Valuation: $42 million
Completion date: 2019
Project address/location: Monterey, CA
Project contact person: City of Monterey; John Keuhl, Building Official(ret); Ph: (831) 646-5642
Scope of work: Combination Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dominic Ma.

TRB was selected by the City of Monterey to provide complete plan review for this 25,000 s.f. 4 story concrete (Construction type 1B) learning center.

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Plan Review Experience

The following is a partial list of plan review projects worked on by our staff members. The project valuation for all below-referenced projects ranges from $1 million to over $1 billion.

Mixed Use

- Mixed-use Residential/Retail/Parking Garage (230,000 s.f.), Los Altos, CA
- New 39-Story High Rise Building, $110 million, 916 Broadway, Oakland, CA
- Santa Clara Square Project, $200 million, Santa Clara, CA
- Mixed-use Residential/Office, 630 I Street, Sacramento, CA
- Inglewood NFL Stadium, $1 billion, Inglewood, CA
- Agora Mixed Use Building, 1500 Newell Avenue, Walnut Creek, CA
- Anaheim Regional Transportation Center, Anaheim, CA

Government / Civic

- Packard Foundation Project, Los Altos, CA
- Veteran's Administration, Menlo Park Campus
- Sacramento Convention Center Expansion, $240 million, Sacramento, CA
- Anaheim Convention Center Expansion, Anaheim, CA
- Fire Station Remodel & Addition (12,000 s.f.), County of Marin, CA
- Performing Arts Center, County of Marin, CA
- Sonoma Academy School (99,000 sf), Santa Rosa, CA

Residential / Residential Care Facilities

- The Terraces Phase II (Res. Care Facility), Los Altos, CA
- Atria Senior Living (Residential Care Facility), Walnut Creek, CA
- Campus Crest Apartment Complex (240,000 s.f.), Sacramento, CA
- Brio Apartments, Walnut Creek, CA
- Arroyo Apartments, Walnut Creek, CA
- Valley Vista Senior Housing Complex (Res. Care Facility), San Ramon, CA

Biotechnology / Healthcare

- UC Davis Health System, Aggie Square Project, $1.3 billion, Sacramento, CA
- Kaiser Medical Office Building 2, $100 million, Redwood City, CA
- UC Davis Heath System, Midtown Clinic (100,000 s.f., I2.1 & B occs), Sacramento, CA
- Varian Inc. New Medical Research Facility (44,000 s.f.), Walnut Creek, CA
- Marin Health Campus - Buildings A-E, County of Marin, CA
- Children's Hospital TI, $37 million, Walnut Creek, CA

Commercial

- Macys Major Renovation & Addition, Walnut Creek, CA
- Major Office Remodel (Three 40,000 s.f. buildings), Pleasant Hill, CA
- Organic Material Composting Facility, $120 million, San Leandro, CA
- Santa Clara Bay Aquarium Learning Center, $42 million, Santa Clara, CA
- New Charles Schwab Building, 1231 S. California Blvd, Walnut Creek, CA
- New 6 Story Tech Campus Building, San Leandro, CA

Industrial and Power Plant Cogeneration Facilities

- Lodi Energy Center Project (300 MW), Lodi, CA
- Russell City Energy Center Project (560 MW), Hayward, CA
- Almond 2 Power Plant (300 MW), Ceres, CA
- Walnut Creek Energy Park (500 MW), Industry, CA
- SPG Solar Depot Park, Photovoltaic Array (2.1 MW), Sacramento, CA
- Shiloh Wind Farm (150 MW, 100 Turbines), Solano County

Docusign Envelope ID: C408F2D8-210B-4BDE-AC65-E6E6AFDCBD63

Inspection / Code Enforcement / Building Department Administration Experience

The following is a partial list of Inspection and Administrative assignments worked on by our staff members:

- **Building Official:**
  County of San Mateo, City of Concord, City of Oakley, California Energy Commission, City of Coronado, City of Signal Hill, City of Whittier, City of El Cerrito
- **Inspection:**
  City of Los Altos, City of Palo Alto, City of Sacramento, City of Vacaville, City of Richmond, City of Concord, County of Butte, City of Fairfield, City of San Ramon, City of Dixon, Town of Danville, City of El Cerrito, City of Oakley, County of San Mateo
- **Code Enforcement and Multifamily Inspection:**
  City of Petaluma, County of Solano, City of Concord, City of Antioch, City of Benicia
- **Permit Technician:**
  City of Los Altos, City of Santa Clara, City of Sacramento, County of San Mateo, City of Redwood City, City of Vallejo, City of Concord, City of Palo Alto
- **Delegate CBO Services: California Energy Commission:**
  Lodi Energy Center Project, Lodi, CA, Almond 2 Power Plant, Ceres, CA, Russell City Energy Center Project, Hayward, CA

Civil Engineering / Grading / MWELO Plan Review & Inspection Support Experience

TRB's experience providing Civil Engineering Plan Review and Inspection includes the following agencies:

- **City of Benicia**
- City of Santa Clara
- City of Burbank
- County of San Mateo
- City of Oakland
- City of Los Altos

PROFESSIONAL SERVICES MASTER AGREEMENT (BUILDING SAFETY SPECIALITY REFINERY PROFESSIONAL SERVICES)

BETWEEN

CITY OF BENICIA AND

TRB and Associates, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and TRB and Associates, Inc., a California Corporation located at 3180 Crow Canyon Place, Suite 216, San Ramon, California 94583, licensed to do business in California, ("CONTRACTOR") relating to TRB: Building Safety Specialty Refinery Services - Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Specialty Refinery Services may include, but not be limited to:

A. Annual Permit - Project Management

B. Annual Permit - Inspections

C. Industrial Inspections

D. Industrial Plan Review

E. Rapid Response Services

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website

[http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR

shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Todd Bailey

Principal

tbailey@trbplus.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between TRB and Associates, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Rachel O'Shea, Deputy Community Development Director | Building Official
City of Benicia | 250 East L Street | Benicia, CA 94510

SUBJECT: TRB and Associates Proposal to Provide On-Call Building Safety – Specialty Refinery Services

Dear Ms. O'Shea:

TRB and Associates, Inc. (TRB) is pleased to submit this Proposal to Provide On-Call Building Safety – Specialty Refinery Services for your consideration. We have reviewed the contents of the City's RFP and are prepared to provide the requested scope of services. We look forward to the opportunity to build on our over 18-year work partnership with the City of Benicia Building and Safety Division providing On-Call Building Safety and Public Works Professional Services.

For this engagement, **Todd Bailey, P.E., CASp, LEED AP, and MBA** will continue to serve as the **Project Manager** responsible for ensuring timely delivery of quality support services. To confirm, Todd will be managing all services provided to the City from TRB's San Ramon office. Of note, Todd has over 18 years of personal experience providing Building and Safety support services to the City of Benicia. The balance of our proposed key staff is identified within our proposal response.

TRB provides Plan Review, Inspection, Delegate Chief Building Official, and CASp services to municipal building and public works departments throughout California. Our corporation, which comprises over 75 team members, was established in 2006 and has been a growing business since its founding. We specialize and serve exclusively in the code compliance role. We would like to highlight the following about the company:

- Our firm is engaged to provide as-needed Building Department and related services to over 75 municipalities in Northern California: including the City of Benicia. As a result, our team is very familiar with the many region-specific considerations that need to be considered when evaluating code compliance including flood zone, seismic design, wind exposure, soil/liquefaction, wildland urban interface, and landslide criteria.
- As a value-added service, Paul Armstrong will be available to provide code training to City staff and all invited guests on the California Building Codes Standards if desired by the City.
- The staff of TRB includes licensed Civil, Structural, Mechanical, Fire Protection, and Electrical Engineers; Architects; and ICC, CASp, LEED®, and SAP certified individuals who have an average 25 years of experience in the architecture-engineering-construction industry.
- Our staff are active in industry organizations such as ICC, CALBO, CBOAC, ASCE, and SEAOC. Of note, TRB+'s roster includes three ICC Chapter Presidents and a CBOAC Board Member.
- Our firm was recognized as Industry Member of the Year by the County Building Officials Association of California (CBOAC) in 2019.
- We have a strong track record of producing quality results and meeting turnaround goals, and a track record to which our clients will attest.

Our firm looks forward to the opportunity to continue to assist the City of Benicia as a Building Safety Services provider and is prepared to enter into an agreement with the City immediately. In the documentation provided, you will find background information on the company, our building & fire life safety service offerings, representative project experience, professional references, and a fee schedule for your review. To confirm, proposed prices shall be in effect for one hundred twenty (120) days from the date of Price Proposal submission. If you have questions or need further information, please do not hesitate to contact **Todd Bailey** by phone at **(925) 866-2633** or by email at tbailey@trbplus.com. To confirm, I am authorized to bind the firm contractually. We look forward to hearing your feedback soon.

Sincerely,

TRB + ASSOCIATES, INC.

Company Overview

TRB and Associates, Inc. (TRB) is a California-based building and fire life safety services Corporation with offices in San Ramon, Sacramento, Burlingame, Santa Clara, Long Beach, and Las Vegas. Our firm provides Plan Review, Inspection, Building Department Administration, Delegate Chief Building Official, Disabled Access (CASp) Consulting services to public agencies throughout California.

TRB was established in 2006 and has been a growing business since its founding. The firm is owned by its Principal-in-Charge Todd Bailey, PE, LEED AP, CASp, MBA who has 30 years of experience working in the Building Safety field in California. Our over 75 team members have an average of 25 years of experience in the Architecture-Engineering-Construction industry, encompassing building safety and related services across a full range of code disciplines.

Range of Services

- ✓ Building and Fire Plan Review
- ✓ Building and Fire Inspection
- ✓ Building Department Administration
- ✓ Code Enforcement Inspection
- ✓ Consulting Chief Building Official
- ✓ Disabled Access (CASp) Consulting
- ✓ Building Standards Codes Training
- ✓ Civil & Planning Plan Review and Inspection

Capacity and Resources

TRB has extensive resources and a large pool of licensed engineers and certified building safety experts, equipped to handle a wide range of building department needs. The majority of our services are delivered on an as-needed, ongoing basis. Having a large pool of resources allows us to accommodate existing and future workload effectively. To confirm, we do not have any current or anticipated engagements which would affect our ability to staff for this assignment - we are committed to supporting the City of Manteca and have resources available for the anticipated needs noted in the City RFP.

Qualifications and Technical Capabilities

TRB team members possess multiple certifications and registrations to assure compliance with all requirements mandated by the State and local jurisdiction ordinances. Our team comprises of individuals who are either engineers or architects licensed in the State of California, or who possess ICC certifications in their respective disciplines. Of note, our team includes 8 licensed Structural Engineers. In addition, our staff includes 4 LEED® Accredited Professionals and 6 CASp certified individuals. Most of our staff possesses a combination of these industry-recognized credentials. Information on the qualifications of our proposed personnel and an Organizational Chart is provided in later Sections of our Proposal.

Our staff members are regular instructors and attendees at construction code and standards training offered through the local ICC Chapters, CALBO, CBOAC, SEAOC, AISC, ASCE, NFPA and other building industry organizations. In addition, several of our staff members are current or past board members with industry organizations and as such, are aware of many aspects of the development of relevant construction codes. Staff experience encompasses a full range of construction types and occupancies including the following:

- ✓ ADUs and JADUs
- ✓ Photovoltaic Systems
- ✓ Assembly Occupancies
- ✓ Commercial Tenant Improvements
- ✓ Detention Facilities
- ✓ Distribution Centers
- ✓ Hotels
- ✓ Industrial/Storage Warehouses
- ✓ Manufacturing Facilities
- ✓ Medical Office Buildings
- ✓ REACH Code Projects
- ✓ Battery Energy Storage Systems
- ✓ Mixed-Use Projects
- ✓ Multi-Family Dwellings
- ✓ Office Buildings
- ✓ Parking Structures
- ✓ Power Plant Facilities
- ✓ Recreation/Gymnasium Facilities
- ✓ Restaurants
- ✓ Logistics Centers
- ✓ Gas Stations
- ✓ Cannabis Facilities
- ✓ Hazardous Chemical Facilities
- ✓ High Rise Buildings
- ✓ Hospitals
- ✓ Retail Centers
- ✓ Schools
- ✓ Single Family Dwellings
- ✓ Sports Arenas
- ✓ Theaters

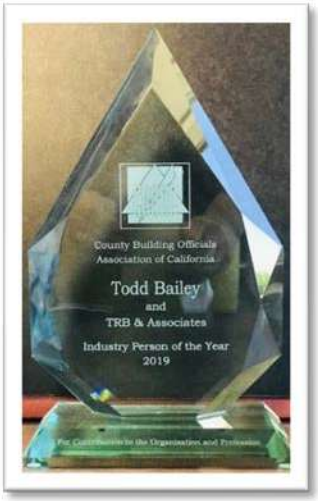
Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Customer Service Philosophy

TRB's customer service philosophy is simple; provide consistent quality services and represent our clients to the best of our ability. The achievement of the City's goals is at the heart of the services we provide. We have been able to consistently meet our clients' goals by implementing the following principles:

- ✓ Garnering a problem-solving attitude
- ✓ Gaining awareness of the issues that affect the community
- ✓ Applying the right expertise in a responsive manner

What you can Expect from Us



Experience

- Comprehensive understanding of the California Building Standards Codes
- Average 25 years' experience

Quality Work

- High technical competence and solutions oriented
- Balanced approach to application of adopted Codes & Standards

Responsiveness

- Close proximity to City Offices
- Staff available on 24/48-hour notice
- Critical-path awareness
- Effective workflow policies and procedures
- Emergency Response Ready

Teamwork

- Consider us your Partner – We work with you

What Sets Us Apart

TRB has a strong track record of production quality results, meeting turnaround goals and client satisfaction. Ask our clients:

> *"TRB has performed Plan-Check services for [our City] for many years now. They review 75% of all my external plan reviews, I can honestly say their services are excellent. I have used several companies over the last 23 years, TRB has outperformed them all. TRB remains responsive and in control, they meet with me and our clients when requested and constantly put in the extra effort to ensure positive outcome."* - California Municipal Chief Building Official

Our Commitment

In our firm's nearly 20 years in business, we have assembled a team of professionals that have been committed to the success of our clients. As the organization continues to grow, we have maintained our core belief in providing a welcoming environment, training, and promotional opportunities, and providing the best service possible to our clients. With TRB, the City of Benicia will continue to receive an experienced team who understands the needs of public agencies and takes pride in delivering outstanding service. Consider us your partner, and as such we are always on call and always available for everything from simple brainstorming sessions to representing you during meetings with stakeholders.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Subconsultants

TRB will be teaming up with two subcontractor firms for this project: **Provost & Pritchard Consulting Group** and **TERP Consulting**. TRB has excellent working relationships with both subconsultant firms, and we have teamed with each successfully on municipal support assignments.

Provost and Pritchard Consulting Group (P&P) will be prepared to provide civil engineering support services on the project. TRB is currently teaming with the firm to provide grading plan reviews for the RELATED Santa Clara Project. P&P has been providing engineering services for over 50 years and possesses over 200 employees throughout California.

KEY PROJECT MEMBERS: Michael Osborn, PE, LEED AP; Brayden Lovik, PE

TERP Consulting will be prepared to provide fire protection engineering and plan review support on the project. TRB has teamed with TERP Consulting on many large-scale projects including the $1.5 billion UC Davis Health Aggie Square and RELATED Santa Clara projects. TRB's work history with TERP spans over 10 years. The firm has extensive experience in fire protection engineering including fire protection systems, master egress systems, fire hazards analysis, and smoke control systems assessments on large-scale construction projects.

KEY PROJECT MEMBERS: Jim Begley FPE, CFM, LEED AP; Bryan Douglass, FPE

Description of Responsibilities of Key Personnel

Mindful of the potential complexity of projects in the City of Benicia, TRB has assembled a team with exceptional qualifications and attentiveness to quality and schedule. Our proposed team is comprised of senior-level professionals who have worked together across many projects and who possess extensive municipal support experience. We are pleased to be able to present a team with this combination of interpersonal familiarity and extensive industry experience.

PROJECT LEADERSHIP

Todd Bailey, PE, LEED AP, CASp, MBA, our company Principal and Founder, is prepared to continue to serve in the role of **Project Manager**. Todd has over 25 years of experience in the industry which includes serving as a Delegate Chief Building Official/Project Principal on over 20 large-scale fast-track design build projects in California having a combined valuation of over $30 billion. Of note, Todd's experience includes overseeing support services provided on the $9 billion RELATED Santa Clara project. Todd will work closely with our team to ensure that project goals are met and that findings are communicated in a timely and clear manner.

PLAN REVIEW TEAM LEADERSHIP

Our plan review group is led by our **Plan Review Services Manager**, **Bing Young, RA**. Bing possesses extensive experience in plan review on both residential and commercial projects and includes more than 25 years of professional experience in production, project management, construction management, energy, and accessibility analysis.

Senior Plan Review Engineer, Dan McLaughlin, PE, CASp will be available to serve as a senior plan review engineer on this assignment. Dan is a registered Civil Engineer, certified CASp, and ICC Certified Plans Examiner. Dan has been with TRB for over 10 years, specializing in plan review coordination with extensive experience on both complex commercial and residential project types.

Senior Plan Review Engineer, Petya McInnis, PE, CASp has over 24 years of experience in engineering and construction, has expertise in design, plan review, and inspection across residential, commercial, and industrial projects. Formerly a Plan Check Engineer for the City of Fairfield, she ensured code compliance, provided technical supervision, and supported Building Inspectors and Officials with code research. Petya's proactive approach has led to effective solutions, process improvements, and policy changes.

Dominic Ma, SE, MPA serves as our **Quality Control Principal**, responsible for ensuring the technical accuracy of all work performed. Dominic has more than 30 years of experience in reviewing building plans and specifications submitted for building permit applications to assure compliance with adopted building codes and reference standards.

INSPECTION AND FIELD SERVICES TEAM LEADERSHIP

Christopher Rose serves as our **Inspection and Field Services Manager**. Chris has over 20 years of inspection, plan review and administration experience serving in both public and private sector roles on a variety of projects. His experience includes serving as Building Manager for Sonoma County and coordinating document control tasks for the Apple World Headquarters project in Cupertino.

TECHNICAL DIRECTOR & INSTRUCTOR

Our **Technical Director - Paul Armstrong, PE, and CBO - is** available to provide expert code interpretation support and code instruction. With more than 30 years of building safety management experience, Paul teaches regularly for California Building Officials (CALBO). As a Chief Building Official, he managed building plan review, counter assistance, and inspection for numerous California agencies. His previous experience at International Code Council (ICC) included leading the Architectural and Engineering Services Department, International Conference of Building Officials (ICBO) Technical Services Department.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Team Members - Experience Matrix

Project Understanding & Approach

TRB would like to confirm its intent to provide services in accordance with the Scope of Work identified in the City of Benicia's Request for Proposal (RFP) document. In brief, it is our understanding that the City is seeking qualified consultants to assist with **On-Call Building Safety – Specialty Refinery Services** on a range of project types. It is understood that plan review tasks would comprise reviewing projects for adherence to the City's latest adopted Municipal Codes and Title 24 California Building Standards Codes covering structural, fire prevention, life safety, disabled access, energy conservation, green building, plumbing, mechanical, and electrical provisions.

TRB has reviewed the Scope of Services as outlined in the City's RFP and is prepared to continue to provide On-Call Building Safety Specialty - Refinery Services including:

- ✓ Annual Permit - Project Management
- ✓ Annual Permit - Inspections
- ✓ Industrial Inspections
- ✓ Industrial Plan Review
- ✓ Rapid Response Services

TRB would like to confirm that it has staff appropriately certified to provide the requested scope of services. Also to confirm, all work will adhere to industry standards as determined by the California Code of Regulations, Title 24, and the City of Benicia Municipal Code (BMC). The following reflects our proposed work plan for providing the requested scope of services.

Project Approach Overview

Our approach to this engagement is centered on utilizing experienced staff and fostering open communication between our firm and the City. On an ongoing basis, our Project Manager, **Todd Bailey PE, CASp, LEED AP**, will maintain regular communication with City staff to ensure that we are kept informed of current code interpretations and policies, and to enhance our ability to quickly respond to any issues that may arise during permit counter, document review, and/or inspection activities.

We value the importance of the City's projects and are committed to meeting all project service delivery deadlines. We will diligently document and report all plan review findings, tracking information, and other reports, as required by the City.

Throughout this engagement, our key team members will be available to meet with City staff either via phone or in person to address questions that may come up during the course of a project. Our firm is committed to responding to all inquiries within 1 business day. We encourage discussions via in-person meeting, telecon, and/or WebEx/Zoom or similar formats as agreeable and necessary to achieve the most expeditious results.

Quality Control Assurance

Quality and on-time service are of paramount importance to us. Though we employ only experienced plan reviewers and expect their work to be of a high standard, we have instituted a quality control policy to ensure that this standard is maintained. At the core of our quality control approach is having a "two sets of eyes" policy in place. All work performed by staff is reviewed for quality control by senior members of our team. Our Project Manager and Quality Control Principal, **Dominic Ma SE**, hold primary responsibility for ensuring accuracy and consistency (QA/QC) in the application of adopted codes and standards for any City assignments.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Building Code Instruction

As an additional service, TRB is prepared to provide Building Code Instruction support to the City in either classroom or field-type settings on a range of technical subjects. **Paul Armstrong PE** is an award-winning California Building Standards Codes instructor whose accolades include being named CALBO Instructor of the Year. Paul is currently providing extensive training on the California Building and Residential Codes to TRB clients, local ICC Chapters, and CALBO Education Week attendees. Paul will be available to provide tailored training for the City and its invited guests upon request.

ICC PREFERRED EDUCATION PROVIDER

Project Workplan

Project Initialization, Scheduling & Management

From our prior experience supporting municipal building departments and divisions, we know that developing a comprehensive understanding of project construction documents and supporting the timely execution of project schedules is of critical importance. To confirm, for any plan review, inspection, or permit technician assignment, TRB members will possess a thorough understanding of all applicable project documents and processes and will be committed to supporting the City with its specific project schedule needs.

Preliminary Meetings and Project Administration

Shortly after the project award, we are prepared to meet to verify project expectations, deliverables, scheduling, and logistical considerations. Our Project Manager will coordinate with our Plan Review and Inspection Services Managers, to allocate plan review, inspection, and permit technician resources appropriately. The Plan Review Manager will be responsible for oversight of all the plan review services provided, and our Inspection Services Manager will be responsible for monitoring and managing any staff augmentation activities. Regular communication between our Project Manager and the TRB team will be ongoing throughout this engagement to ensure alignment of staffing and schedule needs.

Project Communications

We understand that ongoing communication is essential to ensuring project success. We promote and endorse any tools which help enhance communications between all project participants. We have utilized regularly scheduled calls for instance as a means for TRB, designated project owner, constructor, designer representatives, and others to discuss project schedule and critical path, manpower needs, potential challenges, and other related matters. Having these types of communications allows teams to identify when additional support may be needed and how resources may be best allocated to accommodate the project schedule and critical path. Throughout this engagement, our team members will be available to attend meetings with City staff, as well as design, constructor, and owner teams as needed.

Workload Accommodation | Timeliness of Response

It is understood that there are often periods of time when the workload extends beyond what may be normally expected. We would like to highlight that our firm has a system in order to accommodate such peaks without compromising turnaround or quality. We have many qualified and experienced team members who we access to assist at times of high workload or emergency need. In the event of a local, regional, or national emergency or disaster, our assigned staff are ready and available to immediately respond to a disaster and help as needed.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Plan Review Scope & Approach – Industrial Projects

TRB is prepared to provide as-needed plan review services for industrial, residential, multi-family residential, and commercial projects encompassing building code, electrical, plumbing, mechanical, fire protection, energy, accessibility, and green building standards; as well as grading, drainage, floodplain, wildland urban interface fire severity zone, CASp, MWELO, CFM, stormwater, grading, hazardous materials, and State housing law Title-25 factory-built structure considerations, as applicable.

Our reviews consider all relevant project documentation including plans, specifications, calculations, and other related correspondence to verify conformance to adopted local codes, ordinances, regulations, and standards, and the current editions of the following California Building Standards Codes:

- California Building Code
- California Residential Code
- California Electrical Code
- California Plumbing Code
- California Mechanical Code
- California Fire Code
- California Energy Code
- California Green Building Standards Code

Alternate Material and Methods

TRB recognizes that there are alternate materials and methods of construction that can be used to satisfy and comply with the provisions of the code. Our experience with the use of alternate materials, alternate design and methods of construction enhances our ability to solve specific issues that arise in design and construction.

Electronic Plan Review

To confirm, TRB is prepared to track and communicate all plan review comments and approvals through the City-designated electronic system OpenGov and BlueBeam Studio Session, or any future or anticipated electronic review platform. The staff of TRB has been leaders in the field of digital plan review and workflow management; as such, we have the experience and know-how to efficiently manage the review of electronic documents.

Online Plan Check Status and Records

As highlighted earlier, to facilitate access to plan review findings and status information, TRB is prepared to initiate its Project Website, ***Plan Track Plus®*** for use on this assignment. With our project website, all correspondence issued by our team can be posted and maintained for access by City and designated project stakeholder staff. Our postings can include plan review findings (i.e. approval/comment letters), plan review submittal status information, meeting notes, etc.; all of which may be updated on a daily basis. In addition, if so desired by the City, we can also accommodate incoming electronic document postings (i.e. electronic plans, calculations, RFI's, etc.).

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Plan Review Process

The following process represents an example plan review workflow. Please note that the plan review workflow utilized for the City will align with the City's specific workflow requirements and needs.

Step 1 - Preliminary Discussions:

Prior to beginning our initial plan review project, we are prepared to conduct a meeting or conference call with the City to discuss local code policies, documentation procedures, plan processing protocols, plan review checklist items, and scheduling.

Step 2 - Initial Review:

Upon receipt of a complete set of plan documents, we will perform our plan review in the agreed-upon timeframe, checking for compliance with all applicable code standards. All corrections are identified based on compliance with specified codes and regulations and worded so the designer will know what needs attention and how to respond to the issue stated. To confirm, we will adhere to the City's Plan Review Turnaround timeframes.

In general, plan review turnaround timeframe is ten (10) business days for initial reviews and five (5) business days for rechecks and revisions. Timeframes for large-size projects will be confirmed with City staff prior to proceeding with the review.

Step 3 - Transmittal of Plans and Comment Lists for Plan Review:

At the heart of our approach in delivering our services to you, is the recognition that there must be a coordinated effort to track and coordinate all submittals and requests received. To ensure that submittals are properly coordinated and tracked, TRB and Associates have established an internal plan review coordination process to ensure that each plan received for review is properly handled, processed, and returned on time. Our plan tracking procedures are computerized to track each submittal through the review process and maintain accurate and comprehensive records for each submittal. Upon completion of our review, any comments generated are consolidated into a correction letter in the City's preferred format which is remitted to the City for its reference.

Step 4 - Rechecks:

Upon receipt of the resubmittal package from the applicant, once we have verified that the resubmittal package is complete, we perform a recheck in the agreed-upon timeframe. This process is repeated until the project plan documents are ready to be recommended for approval.

Step 5 - Plan Approval:

When all review comments are satisfied, we will forward all relevant correspondence bearing our company's "Reviewed for Code Compliance" stamp (including plans, calculations, and specifications), along with a transmittal letter indicating our recommendation for project approval, and the project file to the City for processing.

Shipping and Delivery of Plans

TRB provides pre-printed overnight shipping labels and/or pickup services to facilitate the transport of any hardcopy plan submittals to our office. Please note that the pickup, shipment and delivery of plan documents and other relevant correspondence to the City are provided at no additional cost.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Building Inspection Scope & Approach

TRB is prepared to perform inspection, referring to building plans, structural plans, and material specifications for structures located within the City limits, upon 48-hour notice. Our inspectors are proficient at verifying project conformance to model code standards (Building, Electrical, Mechanical, Plumbing, Green Building and Energy & Accessibility) and MWELO and CFM provisions, as well as other locally adopted ordinances and industrial standards.

TRB provides all labor and technical, administrative, professional, and other personnel; supplies, materials, equipment, and all other resources necessary to perform the specified work. TRB will use existing City forms or can develop correction sheets which meet with the approval of the City and shall maintain written lists of corrections needed to ensure conformance to codes and regulations.

Field Inspection Process

Our experienced team includes individuals with extensive field inspection experience on a range of project assignment types including municipality "Called Inspections," "Clerk of the Works," and "Inspector of Record" roles; our team can assist with a broad range of inspection responsibilities. Our scope of service areas includes residential, commercial, and industrial facilities, capital improvement projects, municipal agency services and infrastructure revitalization.

Our inspectors are careful to document all inspection activities, adhere to agency-adopted protocols, and follow field procedures and policies as dictated by the Building Official. TRB will maintain daily inspection records and all necessary documents on file for reference by the City. To confirm, TRB staff are available for applicant inquiries and/or conferences during normal City business hours.

Our inspections include those identified in the California Model Codes and applicable Industrial Standards, which would be amended or modified as directed by the City. Our inspection scope includes:

- Foundation Inspection
- Framing Inspection(s)
- Electrical, Mechanical, Plumbing systems inspection
- Lath and/or Gypsum Board Inspection
- Fire Code Inspection, e.g. fire suppression, alarms, etc. (if requested)
- Concrete Slab or under-floor Inspection
- Energy Efficiency Measures Inspections
- Green Building Inspection
- Fire Resistance Rated Construction Inspection
- Floodplain Inspection
- Final Inspection

Remote Virtual Inspection (RVI) Option

Many agencies have engaged in using virtual programs to provide remote inspection services. Several of our clients have successfully implemented virtual inspection programs. We are familiar with using Inspected.com and Blitzz, as well as Facetime, Skype, Google Duo and Microsoft Teams. We are prepared to assist with RVI inspections if desired by the City.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Valero Annual Permit: Project Management, Inspection and Optional Plan Review

From our ongoing experience providing Valero Annual Permit Plan Review and Inspection support to the City, we are well familiar with the program and service levels necessary to fulfill the project requirements. In brief, it is understood that the City has an annual permit agreement with the Valero Oil Refinery for routine electrical and building permits, and that the annual permit allows the Valero Oil Refinery to do routine electrical work, foundations less than 5 feet deep, structural steel supporting less than 10,000 lbs., and utility line trenches less than 6 feet deep without individual permits.

We understand that the selected consultant organization may be tasked to assist with the plan review and inspection of a representative sample of projects which fall under this annual permit program. Shortly after project award, we will coordinate with Valero and City staff to verify project expectations, deliverables, scheduling, and other logistical considerations. Based upon the direction of City staff, we be prepared to review the list of Annual Inspection Permit projects performed over the previous year and select a sampling of projects for review.

We are prepared to review all relevant project documents in electronic format for conformance to adopted California Building Standards Codes, Municipal Codes, and adopted standards. Once reviewed by plan review staff, we will provide a seasoned inspector/engineer to perform field verification that the project construction conforms to the plan documents.

Annual Permit Process

Project Management (and optional Plan Review)

Upon receipt of a notice to proceed from the City, our firm will be prepared to contact the responsible individual at the refinery as designated by the Building Official. From our prior experience, it is presumed that Valero will provide a list of projects performed at the refinery for the year prior to November 15th of that calendar year. Our firm will review the list of projects and determine which projects constitute a representative sample of the work performed.

In our experience with audit-type reviews, commencing with a ten to fifteen percent sampling may be an appropriate number of projects to review and inspect. In the event that extensive deficiencies are identified in the initial sampling, TRB may recommend the review and inspection of an additional sampling of projects. In such event, TRB would apprise the Building Official of our findings and proceed only as directed.

At the City's discretion, TRB is prepared to review annual permit plans for compliance to adopted construction codes. If any discrepancies are identified by our team, we will notify the City Building Official and coordinate on any issues with Valero personnel to the satisfaction of the City. We will also review special inspection records to assure proper procedures were used during construction.

Construction Inspection

We are proposing to staff one senior-level individual with industrial inspection experience on an as-needed basis to provide inspection verification of the audited projects. Our industrial/power senior inspectors are required to have a strong background in all disciplines, with special emphasis on structural and electrical. Our field inspector will review applicable special inspection reports, change orders / engineering change notices, and similar supporting documentation to verify that field installations correspond with construction documents.

Our field inspector will maintain a daily inspection report to record compliance and non-compliance items. For high-energy or complex structural inspections, our lead electrical and structural engineers are available to assist in the field verification process. Our project manager will assess the level of field support required based upon which projects are selected for audit and furnish a recommendation to the City Building Official for their final determination.

Project Closeout

The final step in the process is closing out the project. We will ensure that appropriate certifications, plan documents, and inspection records are received, properly catalogued, and made ready for electronic archival.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Rapid Response and Specialty Services, Building Official, Permit Technician, Certified Floodplain Manager, and CASp Services

TRB is also prepared to provide the above-referenced support services to the City on an as-needed basis. TRB staff are prepared to work at the City's offices as an extension of City staff under the supervision of the Chief Building Official or their designee with the knowledge, skills, and abilities to perform the following requisite functions.

Rapid Response Services

- TRB will provide emergency response services as directed by the City. Working with local governments to fast-track permits for critical projects, ensuring that necessary development can occur without bureaucratic delays. Rapid response includes planning and coordination in the aftermath of natural disasters or crises, focusing on rebuilding communities with resilience. Key tasks may include expedited review and processing of construction permits. Contractor will be expected to be available within 24 to 48 hours to begin rebuilding related work.

Specialty Services

- TRB will provide professional services for ongoing work or projects such as but not limited to those related to Code Enforcement and Fire review. We understand that we may be asked to coordinate public engagement, prepare analysis, reports and presentations, and provide related technical support as needed.

Building Official Support Services [Option]

- TRB will provide an experienced ICC Certified Building Official to assist the Building Official as needed. The Building Official will have a minimum of five years of experience in a public agency with development, administration, interpretation, application and enforcement of the codes. They will have a thorough knowledge of customer service, develop and maintain effective relationships with all client groups, and be able to effectively communicate with contractors, homeowners, subordinates, superiors, news media, elected officials, and civic organizations.

Permit Technician Services [Option]

- Assist the public at the front counter or by phone regarding building, planning, and engineering permit requirements, application and permit fees, application filing procedures and processing, and permit status.
- Enter permit and related data into the City permit tracking system.
- Accept permit and related applications and collect fees. Screen plans and application materials for completeness and for conformance with City ordinances standards, policies, and guidelines.
- Review application materials for compliance with conditions of project approval; route plans to other City departments for review; approve and issue minor permits; research and respond to public inquiries.

Certified Floodplain Manager (CFM) [Option]

- TRB is prepared to provide a Certified Floodplain Manager to provide technical and administrative support to the City. We understand that we may be asked to coordinate public engagement, prepare analysis, reports and presentations, and provide related technical support as needed.

Disabled Access (CASp) Services [Option]

- TRB offers Certified Accessibility Specialist (CASp) Consulting Services to assist agencies with the compliance requirements of State of California Senate Bill 1608 (Corbett). Our team is skilled at reviewing facility plans and specifications for compliance with State and Federal accessibility laws, codes, and regulations; evaluating facilities for compliance with State and Federal accessibility codes and regulations; conducting accessibility research, preparing accessibility reports, and performing accessibility inspections.

Integration with Other Systems, Travel and Training, Bid Procedures and Selection, and Staffing Expectations

Integration with Other Systems

- OpenGov Permitting and Licensing: TRB will work and input plan review corrections in the OpenGov permitting software during the plan review process.
- Bluebeam Integration: Plan Reviews will be done in BlueBeam Studio Session, a cloud-hosted PDF-based markup and collaboration platform. The Respondent will need the ability to complete reviews and redline plans as required within the BlueBeam collaboration session.

Travel and Training

To confirm, TRB acknowledges the following:

- TRB will solely cover the costs for all travel time and mileage to arrive at the Benicia City Hall;
- TRB will coordinate training for TRB's employees and assigned personnel, and ensure that our employees and assigned personnel maintain all training certifications as required by the State Regulation and local ordinances and/or amendments to State codes; and
- TRB agrees that it will not charge City for training, time in training, or any expenses related to training.

Bid Procedures and Selection

We understand that City staff will provide a scope of work via email to one or more contracted firms, who will be asked to submit bids (inclusive of work tasks, personnel, and cost proposal) electronically within five (5) to fifteen (15) working days, depending on the nature of the project. Selection of a consultant for any given project or task will consider multiple factors, including but not limited to skills and expertise, unique staff qualifications, similar project experience, project approach, and cost. Consultant shall not commence work until written authorization is received from the City of Benicia in the form of an executed work order.

Staffing Expectations

TRB confirms that staff proposed in this response will be available to provide the requested services. Additional staffing information and resumes will be provided as needed and/or as part of a project bid by submitting the information to the Community Development Department.

Level of Effort Statement

To confirm, TRB is prepared to provide all requested services on short notice (48-hours or less). Fixed Fee and Hourly Rates, and Reimbursables by scope of work and personnel classification are provided in the accompanying **Pricing Proposal** Section of our proposal.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

References

TRB understands the importance of maintaining a high level of quality and customer service when supporting the City of Benicia with plan review, building inspection, permitting and other Building Safety and Public Works support activities. We encourage you to contact the following references to provide testimony of our performance of work. Please note that additional references are available upon request.

Please also note that additional References and highlighted **Project Experience** in the areas of service requested is included in **Section 11** of our proposal.

Professional Affiliations

- ICC East Bay Chapter Past President
- International Code Council

Other

Delegate Chief Building Official for the California Energy Commission – Power Plant Facilities

Todd Bailey is a registered professional engineer with nearly thirty years of experience in the Architecture / Engineering / Construction industry encompassing building code interpretation, plan review, project management, engineering design, permit center administration, and litigation support. He has extensive experience working with architects, engineers, contractors, building departments and other regulatory authorities to ensure compliance to adopted Building Code Standards and local ordinances.

Todd has provided Building Safety services to over 100 jurisdictions as a consultant and spent three years with the City of Concord performing architectural, structural, energy conservation and disabled access plan reviews for residential, commercial, and industrial structures. Todd is also approved as a Delegate Chief Building Official for the California Energy Commission responsible for verifying new power project conformance to engineering construction codes on behalf of the Commission.

Dominic Ma, SE, PE, MPA | Quality Control Principal

Education

Master of Science Structural Engineering UCLA, Los Angeles, CA

Master of Public Administration, California State University, East Bay Hayward, CA

B.S. Civil Engineering University of California, Berkeley, CA

Registration

Registered Structural Engineer California (#1920)

Registered Civil Engineer California (#20018)

Certified Energy Plans Examiner Residential (#R05-94-5121) - Inactive

Certified Energy Plans Examiner Non-Residential (#NR05-94-5576) - Inactive

Dominic has more than 30 years of experience in reviewing building plans and specifications submitted for building permit applications to assure compliance with adopted building codes and reference standards. Dominic's experience includes working for more than 27 years as a plan check engineer for the City of San Leandro and 6 years as a supervising civil engineer for the City of Oakland, where he led the City's plan review division.

Dominic has considerable knowledge of civil engineering and structural engineering principles and practices, California Building Code and Title 24 provisions. His strengths include having the ability to review, analyze and evaluate plans, specifications, engineering reports and calculations; possessing knowledge to identify code deficiencies; and evaluating alternate methods and materials of construction. Dominic is adept at reviewing plans for adherence to the California Building Code, ASCE 7, and when applicable FEMA, ASCE 41, NEHRP provisions.

Select Project Experience

Building Safety Plan Review

Plan Review projects supervised in the City of Oakland

- 2121 Harrison Street. The Cathedral of Christ the Light (also called the Oakland Cathedral). A new modern Roman Catholic Cathedral with glass walls 120 ft. high. The $190 million, 224,000 square feet structure sits on 36 innovative "friction pendulum double-concave bearing isolators," consisting of two facing concave surfaces.
- 2100 Franklin Street. The $45 million, 245,000 s.f. project is 9 stories high and built with steel frames. To compensate for its slightly smaller than code required width, the interior atrium is equipped with smoke control system to provide fire protection for its occupants. Evaluated the alternate materials methods request associated with this design element.
- 100 Grand Avenue. 22 Story Condominium Building budgeted at $150 million.
- Oakland Airport (Expansion and interior remodeling). A $350 million Terminal Improvement Program.

Plan Review projects performed

- Bayfair Mall (Tenant improvements), San Leandro
- Century 21 Theatre, San Leandro
- San Leandro Dialysis Clinic
- San Leandro Honda
- San Leandro Hospital (New doctors' office building)
- Carlton Plaza of San Leandro (Assisted living facility)
- Costco Building Addition, City of Concord
- New Gas Compressor Building, Butte County
- AT&T Rooftop solar Panel Installation, City of San Ramon
- Tilt-up Warehouse Buildings (2), City of Sacramento
- Historic Building Seismic Retrofit, City of Benicia
- Cancer Treatment Facility, City of Pleasant Hill

Work Experience

TRB + Associates, Inc., Senior Plan Review Engineer, 2007 to present
City of Oakland, Supervising Civil Engineer (Building Division), 2000 – 2006
City of San Leandro, Plan Check Engineer, 1973 – 2000

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Bing Young, Architect | Plan Review Services Manager

Education

Bachelor in Architecture,
California Polytechnic State University
San Luis Obispo, CA

Registration

Registered Architect, California

Professional Affiliations

National Council of Architectural Registration Boards Certified

ICC Member

Bing Young is a registered Architect with plan review experience on both residential and commercial projects. He provides comprehensive life safety, accessibility, energy, and mechanical/electrical/plumbing reviews on a variety of residential and commercial project types. Bing possesses over 25 years of professional experience which includes roles in production, project management, construction management, energy, and accessibility analysis.

Work Experience

Plan Review Architect, TRB + Associates, Inc. **2018 - Present**

- Review drawings and calculations for code compliance on behalf of client agencies
- Projects include residential subdivisions, custom homes, additions, remodels, new commercial buildings, and tenant improvements

Project Architect, PSM Architects, Inc. **2008 – 2018**

- Prepared and managed the development of comprehensive construction documents for new commercial buildings, tenant improvements, and additions
- Oversaw and directed production staff
- Performed quality control review of building permit submittal documents
- Facilitated client and permit processing meetings
- Collaborated with engineers, ancillary designers, and vendors
- Prepared and reviewed project specifications
- Reviewed shop drawings and submittals for compliance with specifications and design intent
- Performed accessibility evaluation of existing sites and buildings
- Prepared detailed accessibility reports for building and business owners
- Facilitated pre-construction and post-construction on-site meetings with construction project managers and general contractors
- Performed construction administration and project closeout duties

Staff Architect, Hollman Bologna Architecture & Planning, Inc. **1996 - 2008**

- Prepared schematic design and construction documents for single-family and multi-family residential remodels, additions, and new buildings
- Performed residential building reconnaissance for additions and remodel projects
- Prepared design review documents for planning approvals
- Facilitated building permit processing
- Prepared and reviewed Title 24 Energy Efficiency Compliance documents

Certified Energy Plans Examiner, BETA, Inc. **1993 - 1999**

- Reviewed and approved Title 24 Energy Efficiency Compliance documents for residential and non-residential buildings for local jurisdictions

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Christopher Rose | Inspection & Field Services Manager

Certifications/Licenses

ICC Certified

- California Commercial Building Inspector
- Commercial Building Inspector
- Residential Building Inspector
- California Residential Building Inspector
- Residential Plans Examiner
- Building Inspector
- Permit Technician

Chris possesses over 20 years of experience in the building and construction inspection field for various jurisdications in Northern and Southern California. His experience includes inspecting commercial, residential, non-residential, multifamily, municipal, and public structures for quality control and safety to ensure buildings are up to code and comply with local ordinances. Chris has extensive experience working in the building and safety, engineering, fire, and planning departments for multiple jurisdictions as well as the United States Marine Corps. Chris has positive working relationships with clients, management, as well as his peers and maintains high levels of productivity, reliability with excellent work ethic to deliver high quality customer service.

Chris is ICC Certified in multiple areas including as a California Commercial and Residential Building Inspector, Permit Technician, Commercial and Residential Building Inspector, Residential Plans Examiner, and Building Inspector.

Chris is responsible for the oversight of field inspectors and other building department staff. He employs a customer service focus in carrying out his building safety inspection responsibilities.

Work Experience

Inspection Services Manager, TRB and Associates, Inc. **2022 – Present**

- Responsible for the oversight of field inspectors and other building department staff.
- Inspection on several large-scale projects
- Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Communicates compliance elements with clients with solution driven resolve.
- Performs plan review of light commercial tenant improvements and remodel projects.
- Electronic and paper plan review.

Project Coordination, Plan Review, Inspection, and Construction Management Assignments

- **Apple World Headquarters project in Cupertino** – Document Control and coordination of an international design and permitting effort.
- **Marine Corp Air Ground Combat Center MWSS-374** - Re-construction of an Expeditionary Airfield, runway, and helicopter pads to include support buildings and clamshell hangers.
- **Marine Corp Air Ground Combat Center MWSS-374** - Construction of the Tank refueling pads and fuel farm.
- **Southern California Logistics Airport SCLA** - Remodeling and Repurposing of the existing George Air force base in Victorville California.
- **City of Hesperia City Hall, Library and Civic Center** - New Construction of a 27 Acre Civic Center Master Plan.
- **City of Hesperia Government Center** - New Construction of the County Government Building.
- **City of Hesperia Police Department Building** - New Construction of the County Government Building.
- **City of Hesperia Ranchero Road Underpass** - The Ranchero Road Grade Separation Project.
- **City of Hesperia Ranchero Interchange (HWY 15)** - Interstate 15 Ranchero Road Interchange.
- **Sonoma County** – Wildfire Recovery Operations.
- **Jackson County Oregon** – Wildfire Recovery and Program Development.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Chief Building Official (DCBO), Private Consultant, Various Locations 2014 - 2019

Provided Project Management, Compliance, Plan Review, Inspections, Document Control and Administration for power producing industrial infrastructure projects throughout the state for California Energy Commission. Below is a list of projects:

- **Carlsbad Energy Center Project (CECP) –** Above ground storage tank demo and decommissioning.
- **Blythe Solar Power Project Units 1 & 2 (BSPP)** – New 235 MW photovoltaic facility.
- **Pio Pico Energy Center (PPEC)** – Three Units, 300 MW gas fired turbine simple cycle facility.
- **Carlsbad Energy Center Project (CECP**) – Five Units, 632 MW gas fired turbine simple cycle facility.
- **Orange Grove Energy Center (OGEC)** – Two Units, reliability and AGP upgrade project.
- **Geysers Unit 16 (Quicksilver)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 18 (Socrates)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 20 (Grant)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 17 (Sonoma)** – Low pressure steam bypass project.
- **Geysers Unit 02 (NCPA)** – Mixing tower project.
- **Roseville Energy Park (REP)** – Catwalk extension project.
- **Colusa Generating Station (CGS)** – Rotating intake screen project.
- **Los Medanos Energy Center (LMEC)** – Cooling tower chemical tanks project.
- **Colusa Generating Station (CGS)** – Stairway to condensate pumps project.
- **Calpine Otay Mesa (OMEC)** – Low pressure steam bypass project.
- **Colusa Generation Station (CGS)** – New circulation system and raw water pumps project.
- **Cosumnes Power Plant (SMUD)** – Unit 3 AGP upgrade project.
- **Ivanpah Solar (ISEGS)** – Ammonia tank replacement project.
- **Colusa Generating Station (CGS)** – Bearing enclosure fire sprinkler project.
- **Humboldt Bay Generating Station (HBGS)** - New guard shack project.
- **Cosumnes Power Plant (SMUD)** – Unit 2 AGP upgrade and filter press project.
- **Abengoa Mojave Solar (AMS)** – Fire suppression line repair project for Alpha and Beta blocks.
- **Gilroy Energy Center (GEC)** – Gas line repair and replacement project.

(Ctd. on next page)

Paul Armstrong is a Registered Professional Engineer with over 30 years of engineering experience. His vast experience in all manner of construction, be it industrial, commercial, and residential project types, provides our clients with a strong skill set and wealth of industry knowledge. In addition to Paul's engineering experience, he is also a Certified Building Official, serving in this capacity at the City of El Monte, as well as Laguna Hills, Signal Hill, and Palos Verdes.

A noted author and lecturer in the building life safety industry, Mr. Armstrong has earned many awards, including CALBO Instructor of the Year.

Select Project Experience

- **Apple Campus Theater, Cupertino, CA** – The plan review of the Apple Campus' Theater where new products would be announced and corporate meetings held. Mostly subterranean structure that has a glass entry lobby supporting a carbon fiber roof (disk).
- **ARTIC (Anaheim Regional Transportation Intermodal Center), Anaheim, CA** – Plan review of the fire and life safety regulations for this new transportation center. The building is a steel tube framework with a 2-story administration area with a mezzanine inside. This review included a pedestrian bridge leading to the train platforms.
- **Anaheim Convention Center Expansion, Anaheim, CA** – A very large expansion of the convention center meeting space with an associated parking garage addition.
- **Disneyland Star Wars Expansion, Anaheim, CA** – A very visible area of the Disney resort that is about to open this year.
- **Rams/Chargers NFL Stadium, Inglewood, CA** – The plan review of the newest NFL Stadium project in So CA. The stadium itself is covered by a large steel tube framed roof structure that is not connected to the stadium.
- **Rio Tinto Soccer Stadium**, **Sandy City, Utah** – The plan review of the Salt Lake area's professional soccer stadium. It included a roof canopy structure with a wave feature in the leading edge.
- **Building Official Roles:**
  - Palos Verdes Estates
  - Laguna Hills
  - Whittier (interim position)
  - Signal Hill
  - El Monte

Regional Director, Building & Safety Services, TRB + Associates **2019 – Present**
Responsible for new business development for building life safety services for various jurisdictions throughout California. Provide client relations and code assistance. Perform training lectures on building and residential codes. Participate on various local, state-wide and national committees. Building Official of the City of Signal Hill.

Group Leader, Building and Safety Services, Industry Consultant **2017 – 2019**
Responsible for the development of new business for inspection services and plan review services for various jurisdictions across the United States. Provide client care and assistance on code related issues. Give training lectures on the building and residential codes. Participate on various local, state-wide, and national committees. Building Official of the City of Palos Verdes Estates and Laguna Hills.

ASME A17.1 Code Coordinating Committee

ANSI Construction Standards Board

Vice President, Various Industry Consultant Firms **2005 – 2017**
Responsible for the development of new business for inspection services and plan review services for various jurisdictions across the United States. Provide client care and assistance on code related issues. Give training lectures on the building and residential codes. Participate on various local, state-wide and national committees. Participate on various local, state-wide and national committees. Promotion and sales of the Firms' in-house electronic plan review system. Building Official of the City of Signal Hill. Contract Plan Review Engineer for the City of Anaheim

Chief Building Official, City of El Monte, Industry Consultant **2011 – 2012**
Responsible for the City of El Monte Building Division. Review plans for the City and issues permits. Conduct investigations of non-complying facilities frequently in conjunction with the Planning Division, Code Enforcement Division and LA County Fire Department. Develop presentations for City Council on adoption of new codes, etc.

Vice President, ICC **1991 – 2005**
Led the ICC Architectural and Engineering Services Department, responsible for technical opinions, plan review and the administration of technical contracts during the consolidation into the International Code Council. Managed ICBO Technical Services Department which was responsible for the maintenance of the code development process, plan review service and code opinion service for both external and internal customers. Represented the Council to many national, state and local organizations. Responsible for the technical image of the conference. Provided technical assistance on code related issues to both jurisdictional and professional members and non-members. Provided research on many code-related issues. Secretariat to most ICBO code development committees and the initial drafting secretariat to the ICC International Residential Code.

City of Los Angeles, Dept. of Building and Safety **1988 – 1991**
Structural Engineering Associate
Responsible for the structural, architectural and zoning review of proposed projects in the city. Chief of Coordinating Division and Preservation Coordinator. Evaluation of building products for LA code compliance.

Teaching Experience

International Code Council (ICC)
Lecturer –Non-structural Fundamentals of the 2009 IBC (domestically and internationally)
Lecturer – Non-structural Fundamentals of the 2012 IBC
Lecturer – ICC Code Development Process

California Building Officials

Karin Kuffel, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science
Civil Engineering
Purdue University; West Lafayette, Indiana

Masters of Business Administration
Saint Mary's College of California; Moraga, California

Registration

Registered Structural Engineer
California

Karin has over 30 years of structural engineering experience. Ms. Kuffel has vast structural design experience in both complex commercial and residential projects. She has managed many large-scale projects, including hospitals, OSHPD and the Chabot Space and Science Center. Her experience includes staff training, building design, and design review, as well as construction supervision and development of design and construction guidelines for new single-family residences.

Work Experience

Plan Review Engineer, TRB + Associates, San Ramon, CA **2016 - Present**

Provide structural plan check reviews of large commercial and institutional structures for multiple Bay Area building departments.

Build Change; Philippines **2014 - 2016**

Lead Engineer - Philippines. Responsible for all technical work and staff of Denver-based engineering non-profit's programs and operations throughout the Philippines, including management of Filipino engineering/technical staff comprised of engineers and builder trainers. Supervised training of local staff, building design, design review, construction supervision, and development of design and construction guidelines and recommendations for single-family homes and schools based on the National Structural Code of the Philippines.

Crosby Group; San Mateo, CA **2011 - 2014**

Senior Structural Engineer/Project Manager. Project management on multiple design-build projects, working with design team and contractor on fast-track work both in- and out-of-state. Responsible for managing project team from design through construction, developing and tracking fees, deadlines, and deliverables.

Independent Consultant **2009 - 2011**

Structural engineering consultant in San Francisco Bay Area. Consultant for small commercial and residential work. Extended contract work for Rutherford & Chekene included multiple hospital projects covering new hospital facility design, OSPHD plan-check work, and construction administration assistance.

Biggs Cardosa Associates, Inc., SF, CA **2006 - 2009**

Senior Engineer. Project management with responsibility for developing work, managing project production work, and overseeing construction administration. Representative projects include oversight for design of 8-story residential and parking structure for Santana Row Parcel 8b (San Jose, California) and the Lowe's parking structure in San Francisco.

KPFF Consulting Engineers; SF, CA **2004 - 2006**

Project Manager. Responsible for developing work and fee proposals, managing project engineering, drafting work, and overseeing construction administration. Project management included design of 5-story addition to Kaiser Santa Rosa Hospital, construction administration for 7-story addition to Modesto Memorial Hospital, and design and construction of low-income housing for South County Housing.

Thomas Hemenway, SE, PE | Senior Plan Review Engineer

Registered Civil Engineer California (#52357)

Professional Affiliations

SEAONC Member

Tom Hemenway is a Registered Structural Engineer with over 30 years of engineering experience. Tom's experience includes providing structural, civil, and architectural design and quality control on a variety of industrial, commercial, and residential project types including multifamily podium projects, utility-scale power plant facilities, and retail buildings. He has served in design and analysis capacities for several seismic strengthening projects involving timber, steel, concrete, and masonry buildings in the greater San Francisco Bay area. His technical skills include 3D modeling and dynamic analysis for large foundations and structures.

Select Project Experience

- Lead Civil/Structural Engineer on multiple projects including the following:
  - NUMMI, Stamping Plant and Plastics Plant Expansion, Fremont
  - Vandenberg AFB housing development phases III and IV
  - 140 Geary Street seismic retrofit, San Francisco, CA
  - Amgen, Process Lab Building 99, Thousand Oaks, CA.
  - Huntington Hotel, San Francisco, CA
  - Wells Fargo Bank, Fremont Data Center, Fremont, CA.
- Responsible for Civil, Structural, and Architectural designs for industrial projects domestic and international.
- Responsible for structural analysis and design of seismic strengthening to existing timber, steel, concrete, and masonry buildings in the greater San Francisco bay area.
- Responsible for 3D model constructability review for a new GE 7FA natural gas-fired and GE A10 steam turbine, 1x1 combined cycle electric power generating facility.
- Responsible for ensuring quality of Civil, Structural, and Architectural construction activities for 600-megawatt natural gas-fired, combined cycle electric power generating facility.
- Performed dynamic structural analysis and concrete design for new steam turbine foundation.
- Designed concrete and steel structures for Kennecott Copper Smelter Modernization Project, Salt Lake City, UT using STAAD III and Microstation for PC computer.
- Designed steel pile and conventional concrete pad foundations for overland conveyor at Falkirk Mine in Underwood, North Dakota.

Work Experience

TRB + Associates, Inc., Senior Plan Review Engineer, 2016 - Present
Owner, TjHemenway Design Consultant, 2014 to 2016
Construction and Engineering Interface Manager, Kvaerner North American Construction Inc. and Parson Brinkerhoff JV, 2013
Owners Representative, Calpine, Russell City Energy Center, 2011 – 2012
Lead Structural Engineer, Aker Kvaerner, 2002 – 2003
Resident Engineer, Kvaerner, 2000 – 2002
Civil/Structural Discipline Manager, Kvaerner Metals, 1998 – 2000
Senior Structural Engineer, Kvaerner Metals, 1997
Civil/Structural Lead Engineer, The Bentley Company, 1995 – 1996
Others, 1981 – 1994

William Vaughn, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science, Structural Engineering, Masters-level Course Work in Structural Engineering, Portland State University, Portland, Oregon

Bachelor of Arts, Economics, Course Work in Business Administration and Industrial Engineering, State University of New York, Buffalo, New York

Registration

Registered Structural Engineer, California

Registered Civil Engineer California

Professional Affiliations

Structural Engineers Association of Northern California (SEAONC)

Structural Engineers Association of California (SEAOC)

International Code Council (ICC)

East Bay Chapter of ICC

William Vaughn is a Registered Structural and Civil Engineer with over 35 years of experience in construction, structural engineering design, seismic investigation and structural peer and plan review. Bill has extensive knowledge in commercial and residential buildings as well as industrial facilities using steel, concrete, masonry and timber design. He also has a wide range of construction field experience including supervision, construction methods, product development and structural inspection. Of particular note, Bill's steel design portfolio includes 2 Moment Frame patents with HSS Steel Columns and Wide Flange Beams.

Select Project Experience

- Provided structural design and peer review services for clients with residential, multi-family, and commercial buildings using timber, steel, concrete, and masonry design.
- Produced structural designs for new buildings and provided structural designs and evaluations for alterations to existing buildings.
- Designed seismic strengthening of un-reinforced masonry buildings, wood buildings, and concrete tilt-up buildings.
- Produced repair designs for earthquake damaged facilities and for other structurally damaged buildings.
- Conducted analyses of existing buildings to assess compliance with codes and drawings.
- Performed investigations of earthquake, fire, and flood distress. Prepared reports, engineering analyses, and repair recommendations.
- Provided expert witness, structural peer review and plan review services.
- Investigated structural damage and distress for litigation preparation purposes. Prepared reports, engineering analysis, and recommendations to client. Provided design preparation and construction observations for repair designs.

Structural Peer Review

- Haas School of Business, University of California, Berkeley, CA

Structural Plan Review

- Russell City Energy Center, New $800 million Power Plan Project (for California Energy Commission), Hayward, CA
- Newell Village Mixed Use Project, Walnut Creek CA
- Terraces at Los Altos Mixed Use Project (Phase 3), Los Altos, CA
- New Family Dollar Store, Sacramento, CA

Structural Design

- Chevron Willbridge Terminal Upgrade, Portland, OR
- Chevron Eureka Terminal Upgrade, Eureka, CA
- Kaiser - Lennon Lane Mechanical & Seismic Upgrade, Walnut Creek, CA

Work Experience

TRB + Associates Inc., Senior Plan Review Engineer, 2011 – Present
Vaughn Engineering, Principal Structural Engineer, 1994 - 2011
David L. Messinger & Associates, Civil & Structural Engineer, 1990 -1994
Alan R. Horeis Structural Engineers, Civil Engineer, 1987 -1990
Others, 1971 – 1987

Mike Kaszpurenko, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science, Civil Engineering, Clarkson University, Potsdam, New York, 1976

Registration

Registered Structural Engineer, California

Registered Civil Engineer California

Professional Affiliations

Structural Engineers Association of Northern California (SEAONC)

FEMA Structural Specialist, for Urban Search and Rescue, Task Force 7, Sacramento, CA.

California Office of Emergency Services Volunteer for post-earthquake building review.

Mike Kaszpurenko is a registered Structural and Civil engineer with over 30 years of engineering experience. His experience encompasses the plan review, design, evaluation, and retrofit of various types of building and non-building structures using concrete, steel, masonry, wood, and light-gage metal.

Mike's experience includes working for a large structural steel fabricator where he was involved in detailing of shop drawings, design of connections, and on-site field review.

Select Project Experience

Industrial, Manufacturing

- Corn Products Cogeneration Facility, Stockton, CA. Plan review of boiler building and miscellaneous foundations for new facility.
- Nine Mile Point Two Nuclear Power Plant, New York. Miscellaneous connection designs.
- Oswego Power Plant, Oswego, New York. On site engineer, for fabricator of breeching, during construction of oil-fired power plant.

Commercial / Government /Civic

- 600 Sutter, San Francisco, CA. New eight story building.
- 973 Market, San Francisco. Seismic upgrade of an existing 8 story brick and concrete building.
- Saks Fifth Avenue, San Francisco, CA. Foundation shoring for a new department store.
- El Camino Real Hotel, San Mateo, CA. Preliminary design of a new three-story hotel.
- 1989 Loma Prieta Earthquake, San Francisco, CA. Damage assessment of numerous apartment buildings and other structures for the City of San Francisco.
- City Center Rotunda, Oakland, CA. Upgrade of three, eight story adjacent buildings into one multifunction facility.

Education, Assembly / Healthcare

- Windsor Middle School, Windsor, CA. New $11 million School Campus.
- Laguna Salada School District, Pacifica, CA. Survey of 12 school campuses for Pacifica School District.
- Clovis East High School, CA. Plan check review for the Office of the Office of State Architect on several buildings of a new campus.
- Kaiser Hospital Service Building, Walnut Creek, CA. New two-story support facility for a hospital.

Multi-unit Residential

- Winterland Apartments, San Francisco, CA. Engineer of record for a 304-unit apartment complex consisting of four stories of wood framing over several levels of concrete parking.
- Park Hill Terrace, San Francisco. Upgrade and extension of former 8 story hospital building into condominiums.

Work Experience

TRB + Associates, Inc. San Ramon, CA, 2009 - Present
Structural Engineers Collaborative, San Francisco, CA, 1986—Present
Culley Associates, San Francisco, CA, 1980—1986
H. J. Degenkolb & Associates, San Francisco, CA, 1978-1980
Cives Steel Corporation, Gouverneur, New York, 1976—1978

Daniel McLaughlin, PE, CASp | Senior Plan Review Engineer

Education

Masters in Structural Engineering
Lehigh University
Bethlehem, PA

B.S Civil Engineering
Lehigh University
Bethlehem, PA

Registration

Registered Civil Engineer, California

ICC Certified Plans Examiner

DSA Certified CASp

Professional Affiliations

American Institute of Steel Construction

Dan McLaughlin is a registered Civil Engineer and ICC Certified Plans Examiner with plan review experience on numerous residential and commercial projects. He has provided structural, life safety, and mechanical/electrical/plumbing, and energy reviews on a variety of residential and commercial project types. Project types include complex single-family homes, small to mid-sized retail shell buildings, office and mercantile tenant improvements, and large mixed-use projects. Dan possesses strong structural analysis skills and has an excellent working knowledge of ADAPT, RAM, SAP2000, AutoCAD, Revit, and MathCAD structural engineering software packages.

Work Experience

Senior Plan Review Engineer, TRB + Associates, Inc. **2014 - Present**

- Dan specializes in plan review coordination with extensive experience on both complex commercial and residential projects. Dan has served in project management and reviewer roles across many large-scale projects including Phase 1 of the $9 billion RELATED Santa Clara project, and the $1.5 billion UC DAVIS HEALTH Sacramento Campus, Aggie Square project.
- Recently participated in review of 4 story 135,000 sf wood apartment building over 2 story PT parking garage
- Participated in review of a 6 story 133,000 sf steel buckling restraint braced frame office building
- Review a variety of wood, concrete, and steel building types
- Communicate with project engineers and architects on a regular basis

Engineering Assistant, Contra Costa County Sanitary District **2011 - 2014**

- Performed submittal check to ensure use of proper materials and equipment
- Created site maps to discover location of overflows in the event of clogs in the systems
- Performed sewer line inspections to ensure proper installation by contractor
- Supervised bore sight to allow continual work when lead engineer not on site

Engineering Internship, City of Pleasant Hill, Engineering Division
2007

- Performed quality control of storm drainage system project
- Supervised ADA sidewalk installation to ensure proper installation by contractor
- Developed PowerPoint Presentation of the City department functions for the City Engineer

Residential Construction, McLaughlin Construction **2011, 2013**

- Extensive knowledge in residential wood construction. Restored Victorian home including repair and seismic retrofit of foundation, re-leveled house and conducted full replacement of electrical, plumbing and sewer line. Completed unfinished basement including framing, insulation, electrical, sheetrock and finish work

Collection System Operation Laborer, Contra Costa County Sanitary District **2009, 2010**

- Performed assigned duties on the hydro, rodding, construction, and utilities location crews

Petya McInnis possesses over 22 years of experience in engineering and construction, encompassing design, plan review, and inspection for residential, commercial, and industrial projects. In her recent role as a Plan Check Engineer for the City of Fairfield, Petya oversaw a wide range of design disciplines for projects of varying sizes and types. Her expertise spanned from simple residential additions to complex commercial and industrial developments. Petya offered invaluable assistance to stakeholders, ensuring compliance with code requirements and providing technical supervision to permit technicians and inspection staff. Her proactive approach extended to assisting Building Inspectors and Officials with code research and interpretation, resulting in effective solutions for challenging construction scenarios. Petya's contributions included recommending and implementing process and policy changes to further the city's objectives. Additionally, she prepared reports and updates for the City Council, ensuring transparency and accountability in project management.

Petya also served as a client liaison for all clients in the Sacramento region and numerous clients in the Bay Area. With exceptional interpersonal skills, high productivity, and a strong work ethic, she consistently delivered top-notch customer service.

As a professional Engineer, Petya holds ICC certification as a Building Plans Examiner and is also a certified access specialist (CASp). Petya's extensive experience and expertise make her a valuable asset to any team. With well-rounded experience in the building industry, she brings a wealth of knowledge and skills to every project she undertakes.

Work Experience

Sr. Plan Review Engineer, TRB and Associates, Inc. **2024 – Present**

- Provides building plans examination for jurisdictions on an as-needed basis. Responsible for providing plan check reviews for residential and commercial structures.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval.
- Performs plan review of light commercial tenant improvements and remodel projects.

Plan Review Manager, Private Consultant **2022 - 2024**

- Oversaw daily activities of all plan review staff in the Sacramento region.
- Provided technical assistance, training, and mentorship for internal and jurisdictional staff.
- Served as a client liaison for all clients in the Sacramento region and several clients in the Bay Area.
- Reviewed all design disciplines for projects of all sizes and types.
- Specialized in reviewing large commercial projects such as mixed-use multi-family, high-rise, and podium construction.
- Prepared proposals and time estimates

Senior Plan Check Engineer, Private Consultant **2021 - 2022**

- Responsible for reviewing all design disciplines for projects of various sizes and types across multiple Cities and Counties in California, Oregon, Washington, and Massachusetts.
- Specialized in reviewing large commercial projects including mixed-use multi-family, high-rise, podium construction, shopping centers, restaurants, warehouses, big-box stores, tenant improvements, etc.
- Led "page-turning" pre-submittal sessions aimed at identifying and resolving code compliance issues before submission.
- Managed the Stanford University SLAC plan review contract.
- Provided training and performed quality control for plan review staff.
- Prepared proposals and time estimates.

Plan Check Engineer, City of Fairfield, Fairfield, CA **2014 - 2021**

- Responsible for reviewing all design disciplines for projects of various sizes and types in the City of Fairfield.
- Reviewed projects ranging from simple residential additions, alterations, ADUs, and garage conversions to complex commercial and industrial TIs and new developments.
- Assisted designers, contractors, developers, business owners, homeowners, and City staff in applying, understanding, and interpreting applicable code requirements for each project, providing guidance for potential code-compliant solutions.
- Provided technical supervision to permit technicians and inspection staff.
- Assisted Building Inspectors and Building Official with code research and interpretation on difficult or unusual construction situations.
- Recommended and created process and policy changes.
- Prepared reports and City Council updates.

Senior Structural Engineer, AIR Worldwide, San Francisco, CA **2011 - 2014**

- Served as a Senior Engineer in the Catastrophe Risk Engineering Group.
- Evaluated code compliance of proposed and existing facilities across different countries/regions worldwide.
- Reviewed structural drawings and calculations to identify potential design deficiencies.
- Developed reliable quantitative measures of site-specific natural disaster risk (e.g., seismic, wind, flood, tsunami).
- Created 3D structural models for performance-based evaluations.
- Conducted site inspections and prepared proposals, progress reports, final project reports, and presentations.
- Collaborated closely with national and international government agencies and organizations on disaster risk reduction, mitigation, and response strategies.
- Notable projects included:
  - Seismic Risk Assessment of the Solar Millennium Project at Blythe, CA
  - Hurricane Risk Assessment of Walt Disney World, Orlando, FL (Phase I, IIA, and IIB)
  - Seismic and Wind Risk Assessment of KAUST, Saudi Arabia
  - Real-time Seismic Damage Assessment for the California Earthquake Authority
  - Real-time Hurricane Risk Assessment for DOW Chemical, Freeport, TX
  - Various international multi-phase disaster risk assessment projects in collaboration with the World Bank and the Asian Development Bank.

Design Engineer, Mark Thomas & Company, Sacramento, CA **2008 –2011**

- Worked as a Design Engineer on multiple municipal transportation engineering projects, including highway interchange and bridge projects, local roadway improvements, and streetscape enhancements.
- Prepared infrastructure analyses to support the implementation of planning frameworks and design concepts for each project.
- Led the planning, geometric design, and coordination for the Sacramento City College Bicycle/Pedestrian Overcrossing Project.
- Provided construction support for the 4-mile Folsom Blvd Enhancements Project in Rancho Cordova and the historic preservation R Street Reconstruction Project in Sacramento.
- Prepared various technical reports, construction details, utility mapping and coordination, grading plans, access compliance, quantity take-offs and estimates, drainage pattern analyses, and storm drain design.
- Other projects included: I-5 / Cosumnes River Blvd Interchange PS&E, Watt Ave / HWY 50 Project, Sacramento Regional Transit SSCP2, Stockton Transportation Impact Fee Study, R Street Market Plaza, and Ramona Ave Extension.

Project Engineer / Project Manager, KHS&S Contractors, Concord, CA **2005 – 2007**

Sr. Production Operator, FedEx Kinko's SF East Bay CPC, Pleasanton, CA **2004 – 2005**

Jim Begley, FPE, CFM, LEED AP | Fire Protection Engineer

Education

Worcester Polytechnic Institute
M.S. in Fire Protection Engineering - 2006

University of Maryland at College Park
B.S. in Fire Protection Engineering - 1996

Registration | Certifications

Licensed Fire Protection Engineer:
California, Nevada, Arizona, 15 additional states

LEED Accredited Professional

ICC Certified Fire Marshal

ICC Certified Fire Plans Examiner

ICC Certified Fire Inspector

Professional Affiliations:

National Fire Protection Association (NFPA)

Society of Fire Protection Engineers (SFPE)
Member grade

SPFE
Member of International Board of Directors

Jim Begley has 20 years of experience and began his engineering career in 1993 at Lockheed Martin Energy Systems in Oak Ridge, TN. After relocating to Las Vegas in 2002, Jim was responsible for hospitality projects such as Caesars Palace, Hard Rock Hotel, the Palms Casino, Bally's and Paris Hotel Resort while managing the Las Vegas office of Schirmer Engineering Corporation. In May 2005 Jim joined JBA Consulting Engineers as the Director of Fire Protection Engineering and became Director of Domestic Business Development in 2008 prior to establishing his own firm in 2010.

Jim is a registered Fire Protection Engineer in 18 states. While at the University of Maryland, Jim was awarded membership to the Salamander honorary fire protection engineering fraternity. Jim is a past President of the Southern Nevada chapter of the Society of Fire Protection Engineers (SFPE) and currently sits on the SFPE Board of Directors on an international level.

Jay Griffin, CASp | Senior Plans Examiner

Licenses and Certifications

- Certified Access Specialist #788

Education

High School Diploma

Skills

- Communication, both written and verbal
- Critical thinking
- Technical plan review
- Creative solutions to complex problems

Jay Griffin possesses over 40 years of experience in the building industry including 20 years as a Supervising Building Inspector. He has extensive knowledge in the areas of building life safety, accessibility, plumbing, and mechanical disciplines, as well as a strong background in plan review. Jay's expertise spans across a wide range of complex projects, including commercial and residential buildings. Throughout his career, he has gained hands-on experience working in various roles, such as carpenter, lead carpenter, job foreman, superintendent, building contractor, and building inspector.

As a collaborative leader, Mr. Griffin recently provided exceptional leadership skills as the Supervising Building Inspector for the City of Sacramento Building Division. He also taught life safety and disabled access classes to city staff and provided guidance and support to plan review and inspection staff. With his expertise in resolving code-related issues and ensuring compliance with regulations, Jay maintains high levels of productivity, reliability, and customer service. He is also a certified California Access Specialist (CASp) and is passionate about continuing a career in the building life safety field.

Work Experience

Sr. Plans Examiner, TRB and Associates, Inc. **2023 – Present**

- Provides building plans examination for jurisdictions on an as-needed basis. Responsible for providing plan check reviews for residential and commercial structures. Review scope includes both structural and non-structural disciplines.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval.
- Performs plan review of light commercial tenant improvements and remodel projects.

Supervising Building Inspector, City of Sacramento, Sacramento, CA **2004 – 2023**

- Reviewed incoming workload for completeness and complexity and assigned tasks to staff members as needed.
- Taught ongoing life safety and disabled access classes to city staff, ensuring that they were up-to-date on the latest regulations and requirements.
- Served as a subject matter expert on life safety and disabled access provisions of the California Building Code, providing guidance and support to city plan review and inspection staff. Resolved code-related issues as they arose, using deep knowledge and expertise to ensure compliance.
- Reviewed project plans for compliance with applicable requirements of the California Building Code for life safety and disabled access. Worked on a wide range of projects, from simple tenant improvements to high-rise buildings, complex additions to historic structures, and the Golden 1 Arena. Conducted thorough reviews and provided detailed feedback to ensure that all aspects of the code were met.
- Evaluated AMMR (Alternative Materials and Methods of Construction) requests for equivalence with prescriptive code.

- NFPA
- Interpersonal Skills

Jeff possesses over 40 years in the construction industry with 21 years as a building inspector performing commercial and residential plan review and inspections in the building life safety, accessibility, plumbing, mechanical disciplines throughout Northern California. Jeff's expertise includes the review of highly complex mechanical and plumbing systems. He also has 20 years of experience working in the trades and as a contractor building custom homes.

As a collaborative leader, Jeff recently provided exceptional leadership skills as the Cannabis Project Manager for the City of Sacramento Building Division. He also provided training and direction for other plans examiners and inspectors for legal related facilities. He works well with the public as well as his colleagues and maintains high levels of productivity, reliability with excellent work ethic to deliver high quality customer service.

Jeff is ICC certified as a Commercial Building and Electrical Inspector. In addition, he is also certified as a California Access Specialist (CASp). Jeff has well-rounded experience in the building industry.

Work Experience

Senior Plans Examiner, TRB and Associates, Inc. **2021 – Present**

- Reviews complex plan drawings and calculations for code compliance on behalf of client agencies.
- Performed comprehensive mechanical and plumbing review for new $100 million mixed use project located in the City of West Hollywood.
- Performed mechanical and plumbing review for new $1.3 billion mixed use project located in Sacramento, CA
- Reviews encompass all manner of construction, including residential, commercial, and industrial project types.

Building Inspector/Plans Examiner, City of Sacramento **2000 – 2021**

- Performed mechanical plumbing plan review for Golden 1 Center Arena, home of the Sacramento Kings.
- Provided life safety, fire systems, and mechanical and plumbing plan review on a wide range of project types during tenure.

General Contractor, Brooks Construction **1980 – 2000**

Ryan Leiendecker | Senior Plans Examiner

Certifications/Licences

ICC Certified:
- Certified Building Official
- Certified Fire Marshall
- Building Code Specialist
- Building Plans Examiner
- Residential Energy Inspector/Plans Examiner
- Commercial Energy Plans Examiner
- Residential Plans Examiner
- Plumbing Plans Examiner
- Commercial Building Inspector
- Residential Building Inspector
- Commercial Plumbing Inspector
- Building Inspector
- Permit Specialist
- Permit Technician

Training Certificates:
- Anchorage Design
- Repair Application Procedure
- Fundamentals of Concrete and Materials
- Fundamentals of Concrete Construction

Education

- Brandman University (Chapman University System), Irvine, California- Master of Public Administration
- Brandman University (Chapman University System), Irvine, California- Bachelor of Sociology

Ryan James Leiendecker possesses more than 14 years of experience in building and fire life safety, conducting plan reviews and inspections for residential and commercial projects in the public sector. In his recent role as a Senior Plan Checker at the City of Pleasanton Building and Safety Division, Ryan supervised Plan Checkers and conducted quality control reviews of consultant's plan reviews. He evaluated building and structural plans for compliance with various codes and met with stakeholders to discuss projects. Ryan conducted over-the-counter reviews for simple projects, while also effectively communicating with customers at the counter, over the phone, and via email, consistently delivering exceptional customer service. He also served as backup for the Chief Building and Safety Official, assisted in special projects, and conducted field inspections as needed.

Ryan has vast experience reviewing construction plans to ensure structural integrity and compliance with regulatory standards, covering California building, mechanical, electrical, plumbing, energy, green, fire codes, and local ordinances.

Work Experience

Senior Plans Examiner, TRB and Associates Inc. **2022 – Present**

- Senior Plans Examiner for jurisdictions on an as needed basis responsible for conducting fire and life safety plan review and inspections ensuring compliance with all applicable local, state, and federal agencies.

Senior Plan Checker, City of Pleasanton Building and Safety **2021 - 2022**

- Supervised Plan Checker and ensured quality control of consultant's plan reviews.
- Checked building and structural plans from architects, engineers, contractors, and owners for compliance with codes and regulations.
- Collaborated with stakeholders like architects, engineers, contractors, and homeowners to discuss projects.
- Conducted over-the-counter reviews for simple projects.
- Provided information and assistance to customers in person, over the phone, or via email.
- Issued building permits and participated in staff meetings to review project compliance.
- Delivered customer service at the Public Counter, including minor plan reviews, and resolving conflicts.
- Acted as backup for the Chief Building and Safety Official when needed.
- Assisted in special projects such as community studies and emergency planning.
- Conducted field inspections related to plan reviews as necessary.

Plans Examiner, County of Napa Building Division **2015 – 2021**

- Reviewed construction plans for structural integrity and compliance with the California building, mechanical, electrical, plumbing, energy, green, fire code and local ordinances.
- Assisted building inspectors with inspections concerning complex structural and life safety issues.
- Met with architects, engineers, and contractors to discuss future or ongoing projects.
- Provided over-the-counter reviews for certain simple projects.
- Provided information to customers at the counter, over the phone, or via email.

Combination Building Inspector Aide II, City of Long Beach Building & Safety **2014 - 2015**

- Assisted customers at the public counter by answering Title 24 code and permit related questions and issuing permits.
- Plan checked photovoltaic systems, signs, pools, and spas.

James Johnson, E.E., QCxP | Senior Plan Review Engineer

Registration/Certification

Registered Electrical Engineer – Hawaii

ICC Certified Electrical Plans Examiner

Qualified Commissioning Services Provider (QCxP)

Construction Quality Control Reviewer (CQCR)

Professional Affiliations

Illuminating Engineering Society (IESNA)

International Association of Electrical Inspectors

Building Commissioning Association (BCA)

El Cerrito and Richmond High Schools
2013 – Present

James Johnson is a Registered Electrical Engineer (Hawaii), ICC Certified Electrical Plans Examiner, and Qualified Commissioning Services Provider (QCxP) with over 30 years of experience encompassing electrical engineering design and plan review. Mr. Johnson has provided electrical plan review on a variety of project types including commercial building, tenant improvements, and photovoltaic systems. In addition, Mr. Johnson has performed extensive power and lighting systems design, engineering and construction document production, and project management.

Select Skills / Project Experience

- Analyze permit submittal plan documents for conformance to adopted national, state, and city/county codes including NEC, NFPA, IBC, ICC and UFC standards.
- Conduct forensic electrical systems investigations to determine origin and cause failure of equipment and associated distribution systems including power, lighting and fire alarm with analysis and resolution of legally adopted Code compliance issues.
- Provide scheduled review as CQCR of electrical construction documentation with scheduled site inspection to assure quality construction in accordance with minimum codes and standards for U.S. government projects.
- Professionally managed a wide variety of governmental, commercial, institutional, and residential projects with associated commercial and emergency, renewable and non-renewable power, lighting, and telecommunication systems.
- Provided oversight of engineering skills development and implements of Engineers-In-Training. As a lead instructor at Leeward Community College, taught Math, English and Writing from high school through college freshman levels.
- Proficient in Microsoft Word, Excel, PowerPoint, Adobe Photoshop and Acrobat Pro, AutoDesk AutoCAD MEP 2013. Revit MEP 2013.

Work Experience

- Senior Plan Review Engineer, TRB + Associates, Inc., 2014 to Present
- Certified Electrical Plan Reviewer, City and County of Honolulu, 2013 to Present
- Senior Electrical Engineer/Project Manager, Moss Engineering, 2005 – 2013
- Office Manager, Senior Electrical Engineer, Tower Engineering, 2000 – 2005
- Senior Project Engineer/Manager, Applied Engineering, 1995 – 2000

Steven Block, E.E. | Senior Plan Review Engineer

Education

B.S. Engineering, Physics
California State University, Northridge, CA

Registration

Registered Electrical Engineer
California, Nevada, Arizona, Hawaii

Steven Block is a highly skilled electrical engineer with over 25 years' experience in the electrical engineering field. His expertise includes electrical design and plan review for compliance with the National Electrical Code, California Electrical Code, California Energy Code, local ordinances, National Electrical Safety Code, California Electrical Code, California Energy Code, local ordinances, National Electrical Safety Code, OSHA and other applicable laws, ordinances, regulations and standards (LORS).

Projects reviewed for code compliance include commercial and industrial solar power plants, commercial natural gas power plants, wastewater treatment plants, and cement plants, industrial and commercial buildings, parking structures, hotels, and municipal utilities. Designed and provided construction support for traffic signals, highway lighting, closed circuit television, traffic monitoring stations, maintenance stations, and storm water pumping stations.

Work Experience

Senior Electrical Plan Review Engineer, TRB and Associates **2016 - Present**

- Plan review for residential, commercial, and industrial installations – Phillips 66 Naval Weapons Station, OSHPD 3 reviews for the City of Sacramento, Benicia Valero Refinery Audit, Child Daycare Center in Santa Clara, new apartments in Sacramento.

Senior Electrical Engineer, Private Consulting Firm **2004 - 2016**

- Plan review for code compliance and field inspector support – Silver State North Photovoltaic Generating Station, transmission lines, and high voltage substation (Nevada), Palomar Power Project (California), Panoche Energy Center (California), Abengoa Solar Thermal Generating Station and substation (California), Genesis Solar Collector Generating Station (California), Inland Empire Energy Center (California), Distributed Energy Partners Generating Stations (Hawaii), Various Wind Power Generating Stations in Solano County, CA, and other generating stations.
- Plan review for commercial and industrial installations – FBI Honolulu, Disney Hawaii, Fort Irwin Military Housing (California), various rooftop photovoltaic installations (Hawaii), Valero Refinery Benicia (California), Transmission Line Feeder for Concrete Plant (Nevada) and Various Cellular Tower Installations (Hawaii).

Alan Roth, E.E. | Senior Plan Review Engineer

Education

B.S. Electrical Engineering
California State Polytechnic University

Registration

Registered Electrical Engineer
California

Alan Roth is a registered professional electrical engineer with over 30 years of engineering experience. His experience encompasses extensive electrical systems design, quality control, and oversight roles at power plant and other industrial facility types. Past roles include working for Calpine, Inc. and Dow USA on power generation and chemical plant projects.

Work Experience

Senior Electrical Plan Review Engineer, TRB + Associates **2016 – Present**

- Conducts electrical code compliance plan review of industrial and power generation facilities. Currently assisting with plan review $1 billion petrochemical refinery expansion project.

Electrical Engineering, Calpine Corporation **1998 – 2014**

During tenure at Calpine Corporation, held positions of Senior Electrical Engineer, Senior Project Engineer, Senior Operations Engineer, and Senior Electrical Engineer 3.

- Provided support for the design and construction of a new combined cycle power plants and installation of new combustion turbine generators in existing plants. Duties included:
  - Reviewed engineer's design documents for compliance with Calpine standards and proper interface with OEM documentation
  - Provided field support as required
  - Design
  - Management of capital projects
  - Analysis of protection and control systems
  - Root cause analysis and determination of corrective actions for equipment and protection system failures
  - Recommended predictive preventative maintenance
- Provided interface with consultants for complete protection reviews at 12 Calpine power plants in CA. Duties include:
  - Compiled all protection related drawings
  - Compiled any relay coordination and settings documents
  - Provided field support to consultants to verify drawings and actual protective relay settings
- Determined the preliminary conceptual design, using standard design guidelines for plants in development
- Interfaced with local utilities for new interconnections for projects in the development phase
- Represented Calpine to WECC and other regulatory bodies.
- Provided guidance to plants on maintaining compliance with regional and national reliability standards.
- Interfaced with local utilities for new interconnections for projects in the development phase.
- Represented Calpine to WECC and other regulatory bodies.
- Determine the specification of the major equipment to be selected for the projects as well as interfacing system design.
- Interfaced with utilities, steam hosts, gas suppliers, permitting agencies, consultants and other organizations involved with the development of power projects.
- Directed transmission consultants in initial studies for power plant siting.

Peter Kogan, M.E., LEED AP | Senior Plan Review Engineer

Education

Master of Science, Mechanical Engineering, Moscow Aeronautical Institute, Russia

Registration/Certification

Registered Professional Mechanical Engineer: California, Hawaii, Nevada, Texas, Colorado, Arizona

Certified Energy Manager (CEM), State of California

LEED Accredited Professional

Peter Kogan is a licensed mechanical engineer with over 30 years of diversified experience in the construction industry. His expertise lies in the areas of design and construction administration for Heating, Ventilation and Air Conditioning, Plumbing, Fire Protection, Energy and Building Studies, and Value Engineering. In the past ten years he was responsible for the design and renovation construction of several historical preservation projects. Peter's extensive experience and personal attention to project details has always assured professional services performed within budget and to complete client satisfaction.

Peter has published several technical articles in the national magazine "Heating, Piping, Air Conditioning" and recently had an article published in the architectural magazine "Progressive Architecture". Peter has presented a technical paper on World Energy Congress in Atlanta, Georgia in 1990.

Akitayo (Tai) Akiwumi | Senior Plans Examiner

Certifications/Licences

ICC Certified:

- Building Plans Examiner
- Building Inspector
- Plumbing Inspector

Education

- Master of Science - Mechanical Engineering, University of Manchester Institute of Science and Technology, UK.
- Bachelor of Science - Mechanical Engineering, University of Manchester Institute of Science and Technology, UK.

Training

- 2022 CBC Chapter 11A: Privately Funded Multi-Family Dwelling Accessibility.
- 2022 CBC Chapter 118: Accessibility in Public Buildings, Public Accommodations and Commercial Buildings.

Committee Representation

City representative at the Tri-Chapter Uniform Code Committee meetings.

Akitayo (Tai) Akiwumi possesses over 22 years of experience in conducting complex plan reviews for residential and commercial projects, encompassing architectural, mechanical, plumbing, and electrical aspects. In his recent role as a Plans Examiner at the City of San Ramon, he conducted thorough plan reviews for a diverse portfolio of projects, ranging from new constructions to tenant improvements and alterations. Tai's responsibilities also extended to performing over-the-counter plan checks, issuing permits, and providing invaluable code resource services to clients.

In previous roles, Tai demonstrated his proficiency by providing guidance to designers, training staff, addressing customer inquiries, conducting extensive research on code issues, and collaborating effectively with architects and designers. His dedication to ensuring compliance and safety standards has been evident throughout his career.

Tai exhibits exceptional knowledge of local, state, and federal safety standards, ensuring strict adherence to regulations. Holding ICC certifications as a Building Plans Examiner, Building Inspector, and Plumbing Inspector, he brings a well-rounded expertise to the building industry. urthermore, his background in mechanical engineering, technical supervision, general management, and project development, combined with his reliability in supporting team efforts, greatly enhances his performance in his role.

Work Experience

Senior Plans Examiner | TRB and Associates Inc. **2024 - Present**

- Senior Plans Examiner for jurisdictions on an as needed basis responsible for conducting fire and life safety plan review and inspections ensuring compliance with all applicable local, state, and federal agencies.

Plans Examiner | City of San Ramon, San Ramon, CA **2005 - 2024**

- Conducted residential and commercial architectural, mechanical, plumbing, and electrical plan reviews.
- Reviewed a wide range of projects, including:
  Non-Residential:
  - New constructions like malls, offices, and restaurants.
  - Tenant improvements for offices, restaurants, stores, warehouses, and more.

  Residential:
  - Single-family dwellings, involving both new constructions and alterations.
  - Multi-family dwellings, including new constructions and alterations.
- Performed over-the-counter plan checks, issued permits, and provided code resource services to customers via counter, email, and telephone inquiries.
- Assisted in training permit technicians and ancillary staff.
- Met with architects and designers before project submittals for review.
- Conducted field inspections as needed.

Plans Examiner I & II, Berryman & Henigar Inc. | Pleasanton, CA **2002 - 2006**

- *2005 - 2006:* Served as Plans Examiner II, conducting part-time residential and commercial architectural, mechanical, plumbing, and electrical plan reviews on an as-needed basis.
- *2002 - 2005:* Functioned as a Plans Examiner, overseeing residential and commercial architectural, mechanical, plumbing, and electrical plan reviews.
- Additional responsibilities included:
  - Provided guidance to designers on code compliance issues.
  - Assisted in training permit technicians and ancillary staff.
  - Addressed customer inquiries regarding plan checks and other matters.
  - Conducted research on code issues as requested by building departments.
  - Collaborated with architects and designers prior to project submissions for review.

Michael Osborn, PE, LEED AP | Senior Civil Plan Review Engineer

Licenses and Certifications

Registered Civil Engineer | 66022

LEED AP, 2009

Education

Bachelor of Science, Civil Engineering
California Polytechnic University, San Luis Obispo, CA

Caltrans Local Assistance Resident Engineer (RE) Academy

Affiliations

Leadership Santa Barbara County, Board of Directors

Leadership Fresno, Class 31

American Society of Civil Engineers (ASCE)

Michael Osborn is a senior engineer at Provost & Pritchard. With over 20 years of engineering experience, Mr. Osborn has been involved in a variety of public works, residential and commercial development, and educational facility projects. His areas of expertise include site grading design, Americans with Disabilities Act (ADA) site accessibility design and assessment, stormwater management, storm drainage, sanitary sewer systems design, street design, and site development.

Work Experience

Plan Check Engineer, Grading and Drainage Plan Check Services | City of Santa Clara, CA

Mr. Osborn is currently assisting the City of Santa Clara by providing grading and drainage plan check services for various projects in the city. Mr. Osborn has been a primary plan check engineer, reviewing on-site development and associated improvements in the public right-of-way in relation to demolition, grading and drainage. Projects have varied in size from single commercial buildings to multi-family residential to the multi-phased, mixed-use Related Santa Clara project.

City Engineer | City of Mendota, CA

Mr. Osborn is the current City Engineer for the City of Mendota. His responsibilities include management and coordination of the City's state and federally-funded street projects through the Fresno County Council of Governments (FCOB) and Caltrans DLAE and coordination with the City Manager and Public Works Department on infrastructure issues with streets, water, sewer, and storm drain. Mr. Osborn has a significant role in assessing and identifying pavement conditions and storm drain infrastructure issues and needs for the City and putting that knowledge to use in assessing potential flooding issues and coordinating pavement maintenance and street reconstruction.

Project Manager, On-Call City Engineering Services | City of Dinuba, CA

Mr. Osborn provided general civil engineering services to the City of Dinuba, assisting the City's Public Works Department to complete capital improvement projects for 18 months. Projects that were included under this contract ranged from providing civil engineering and land surveying for park facility upgrades, ADA compliance, updating the City's Urban Water Management Plan, development reviews, and grant writing assistance.

Project Engineer, ADA Assessment and Barrier Transition Plan, Community Regional Medical Center | Fresno, CA

Mr. Osborn was the project engineer responsible for completing an ADA compliance site self-evaluation of the Community Regional Medical Center campus. The exterior site-evaluation consisted of the paths of travel from parking stalls to building front doors, and paths of travel between buildings. Upon completion of the evaluation and results report, a Barrier Removal Plan was prepared and included a detailed list of compliance areas that needed to be addressed.

Project Manager, Ongoing Consulting Services, Santa Barbara Community College District | Santa Barbara, CA

Mr. Osborn was responsible for providing ongoing engineering services for the Director of Facilities & Operation and Campus Development. He prepared a pavement assessment of all three campuses within the District, which led to the District's first pavement management plan. In addition, he improved approximately 30,000 square feet of pathways, repaired or resurfaced approximately 10 acres of asphalt pavement, improved the sites of 27,840 square feet or modular buildings, and improved accessible parking and routes of travel around each project. Additional scope of services included mapping existing utilities and improving potable water and sanitary sewer facilities to new buildings. Mr. Osborn also studied slope erosion and prepared "on-call" emergency slope repairs, and provided site grading, paving, utility and storm water management improvements for new building construction as the project civil engineer on several architectural teams.

Michael Williams | Supervising Inspector

Certifications/Licenses

California ICC Certified:
- Building Inspector B5
- California Residential Building Inspector
- California Commercial Building Inspector

Certified in Oregon:
- Oregon OIC-OR Inspector
- Oregon SIA-Structural Inspector A-Level
- Oregon CAS-Residential Structural Inspector

- Linhart Peterson Powers Associates (LP2A) Training Institute – Certificate
- State Of California Safety Assessment Program (CAL OES)

Education

- U.S. Army Air Defense Artillery, Army Ranger School Ranger Indoctrination Program (RIP)
- Diablo Valley College (DVC) courses in Electrical, Plumbing, and Mechanical Codes

Computer Skills

- Permit Plus
- Accela
- Permit Track
- Sweeps

Michael WIlliams possesses over 20 years of experience in inspection services for commericial and residential projects encompassing inspections of building, structural, electrical, plumbing, mechanical, overall life safety standards, IOR projects, local zoning codes, construction documant review, issuing of building permits, as well as over the counter plan review. He is able to interpret and apply pertinent Federal, State, and local laws, codes, and regulations. Michael also has experience in all aspects of the construction industry.

Mr. Williams is highly motivated, hardworking, dependable, punctual, excellent team player with a “can do” attitude. Michael works well with the public, with his colleagues, in a leadership position, or alone, with strong interpersonal skills, high levels of productivity, reliability with excellent work ethic enabling successful interaction with clients, co-workers, and supervisors.

As an ICC Certified Building Inspector, Residential and Commercial Building Inspector, Michael is motivated to continue a career in the building and life safety field, and public service.

Work Experience

Supervising Inspector, TRB and Associates, Inc. **2023 – Present**

- Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Communicates compliance elements with clients with solution driven resolve.
- Provides over the counter building plans examination for jurisdictions on an as-needed basis.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval as needed.
- Project types range from residential alterations to light-gauge structures in commercial buildings.
- Project Manager for Disaster Recovery Operations and Program Development.
- Cal OES SAP Inspector experienced for multiple events.

Project Manager and Building Inspector, Private Consultant, CA./OR.	**2019 - 2023**

Douglas Kreiss | Senior Building Inspector

Certifications/Licenses

- ICC Certified Combination Dwelling Inspector - Uniform Codes
- ICC Certified Residential Combination Inspector
- ICC Certified Commercial Electrical Inspector
- ICC Certified Mechanical Inspector
- ICC Certified Plumbing Inspector UPC
- ICC Certified Mechanical Inspector UMC
- ICC Certified Building Inspector
- ICC Certified Plumbing Inspector
- ICC Certified Electrical Inspector
- ICC Certified Combination Inspector
- ICC Certified Commercial Combination Inspector
- California State Fire Marshal Fire Prevention 1A, 1B, 1C

Education

- University of Illinois, Champaign, IL, M.S.
- University of California, Berkeley, CA, B.A.
- College of Alameda, CA. A.A.

Douglas possesses over 20 years of building industry experience as a Certified Building Inspector. Douglas' extensive knowledge includes a wide variety of project types including all aspects of single and multi-family residential, commercial, and industrial structures. He has in-depth code knowledge as is adept at the practical application of the codes working with public agencies.

Mr. Kreiss most recently served as a Building Inspector for the City of Fremont. In this role, he provided expertise, staff training and interpretation of mechanical installation and inspection in addition to combination inspection duties in special projects. This has provided him with a wealth of building industry experience. Douglas has demonstrated outstanding customer service with the public, contractors and development community.

Douglas is also ICC certified in multiple areas including as a Building Inspector, Combination Dwelling Inspector – Uniform Codes, Plumbing Inspector UPC, Mechanical Inspector UMC, Commercial Combination Inspector, Residential Combination Inspector, Commercial Electrical Inspector, Mechanical, Electrical and Plumbing Inspector. He is also certified as a California State Fire Marshal for Fire Prevention 1A, 1B, and 1C.

Work Experience

Senior Building Inspector, TRB + Associates **01/2021 - Present**

- Senior Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Contract Inspector for major projects and jurisdictions on an as needed basis.
- Communicates compliance elements with clients with solution driven resolve.

Building Inspector, City of Fremont **07/2001 - 06/2020**

- Senior Specialist assigned to provide expertise, staff training and interpretation of mechanical installations and inspection in addition to combination inspection duties in special projects.
- Projects included the City of Fremont corporation yard, two story private school buildings, churches, fire stations, multi-story apartment complexes, senior housing project, all seismic upgrades per the City of Fremont ordinance, high tech and hazardous occupancies, restaurants, single family residential projects.
- Duties also included coordination of staff vehicle maintenance and revision of Building Department forms

Combination Building Inspector, City of Fremont **05/2000 - 07/2001**

- High tech, commercial and industrial inspections, including Seagate, AXT HMT, Home Depot REI, City Beach, single family residential.

Combination Building Inspector, City of Pleasanton **09/1999 - 05/2000**

- Single family residential combination inspections and commercial inspections

Combination Building Inspector, Private Consultant **03/1999 - 09/1999**

- Assigned to the City of Dublin and Town of Danville
- Single family and multi-family residential projects

Union Carpenter, Private Consultant **01/1980 - 04/1999**

- Devcon Construction, Tisys Construction, Holvick Construction, Cramer Associates. Supervision, foreman, commercial industrial new construction, tenant improvements, tilt-up, wood and metal stud framing, interior and exterior finish work, cabinets, acoustic ceilings, computer floors, residential rough and finish construction

Sean Burke | Senior Building Inspector

Certifications/Licenses

ICC Certified
Plumbing Inspector
Electrical Inspector
Building Inspector

Professional Affiliations

B.A., Religious Education Minor in Christian Education

Computer Skills

Microsoft Office
Accela Permit Services software

Sean possesses over 24 years of experience in inspection services throughout Northern California encompassing housing inspections, quality control, and combination building code inspections for residential and commercial project types. Sean also has 12 years of experience as an electrician.

Sean's recent experience as a multi-trade inspector for several commercial projects includes helping support the jurisdictions of the County of Sacramento, Town of Loomis, and City of Colfax for both inspections and minor plan review.

As a collaborative leader, Sean provided exceptional leadership skills in managing, supervising, evaluating, and training 22 personnel at one of the busiest permit counters in the region. He has positive working relationships with clients, management, as well as his peers and maintains high levels of productivity and reliability with excellent work ethic to deliver high quality customer service.

Work Experience

Combination Building Inspector, TRB and Associates, Inc. **2022 – Present**

- Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Communicates compliance elements with clients with solution driven resolve.

Building Inspector, Private Consultant **2019 – 2021**

- Functioned as a multi-trade inspector for several commercial projects (Placer County's New Coroner's Facility, WellQuest of Granite Bay & Amazon Distribution Facility in Turlock, CA)
- Helped support the jurisdictions of the Town of Loomis and City of Colfax for both inspections and minor plan review.

Permit Services Manager, City of Sacramento **2014 - 2019**

- Managed and oversaw the Building Department Permit Counter.
- Supervised 16 employees permit technicians and building inspectors.
- Supervised six (6) customer service reps assisting in checking in customers and processing payments and plans management.
- Responsible for a variety of complex clerical duties, primarily related to the intake and processing of building permit applications as well as constant communication and coordination with members of the public and City staff.

Building Inspector, City of Sacramento **1998 - 2014**

- Inspected new residential construction and remodels and light commercial tenant improvements.
- Managed facilities permit program, catering to commercial building owners with frequent tenant improvement to expedite their plan submittals and streamline their inspections.
- Supervised three (3) building inspectors assigned to the program.
- Responsible for supervising, evaluating, training, and coordinating the work of building inspectors performing inspection work in all phases of construction, alteration, and repair for compliance to approved plans, specifications, and state and local codes.

Electrician, Private Sector **1987 - 1998**

- Worked as an electrician in various private sectors in Northern California, located in Truckee, Gold River, and Sacramento.

Brian Elder | Senior Building Inspector

Certifications/Licenses

- ICC Certified, Building Inspector
- ICC Certified, California Residential Building Inspector
- ICC Certified, California Commercial Building Inspector
- IAPMO Plumbing Inspector
- IAPMO Mechanical Inspector
- P.O.S.T. PC 832
- California General B CSLB Contractor License # 730875

Brian possesses over 20 years of experience providing inspection services to jurisdictions throughout Northern California. He possess extensive knowledge of the local environment including applicable codes, ordinances, climate and culture. He has inspected projects of all types and sizes and is able to inspect a wide range of residential and commercial projects.

His recent experience includes working as a Combination Building Inspector for a 550,000 sq. ft. Hotel Casino addition at Cache Creek Casino. He has also provided combination inspection services for various jurisdictions including Yolo County, the Cities of Grass Valley, West Sacramento, Sacramento, Vallejo, Winters and Town of Loomis. Brian managed and oversaw the building department and inspectors at the City of Grass Valley. As a licensed general contractor, Brian worked on a tract home construction for Shastan Homes in Chico.

Work Experience

Senior Building Inspector, TRB + Associates **11/2018 – Present**

- Contract inspector for jurisdictions on an as-needed basis responsible for inspecting residential and commercial project types

Combination Building Inspector, Private Consultant **07/2014 – 11/2018**

- Provided combination inspection services for the Cities of West Sacramento, City of Vallejo, City of Sacramento, Town of Loomis, City of winters, Yolo County and Cache Creek Casino
- Projects included single and multifamily residential, commercial, industrial buildings, large tilt up and ten story high rise buildings

Supervising Building Inspector, Private Consultant **11/2013 – 07/2014**

- Performed inspections of commercial, industrial, and residential construction (new, remodels, repairs and replacements) for conformance with applicable codes and ordinances
- Reviewed building plans and supporting material relevant to ensure compliance with various codes, ordinances and policies
- Conferred with city personnel, architects, contractors, and the general public on building code requirements and restrictions
- Reviewed records and reports of inspections for accuracy

Supervising Building Inspector, City of Orland, CA **03/2002 – 11/2013**

- Provided building, electric, plumbing, mechanical, and accessibility inspections for residential and commercial projects
- Performed inspections of all construction phases for compliance with applicable State and City codes and ordinances
- Conferred with city personnel, architects, contractors, and the general public on building code requirements and restrictions
- Verified workmanship and materials during all phases of residential, commercial and industrial construction projects and investigated violations as necessary
- Calculated building valuations and permit fees, collected fees and issued permits
- Verified contractor's licenses, and workers compensation insurance prior to issuing permits

Jacqueline (Jacqui) Powers | Senior Permit Technician

Education

Bachelor of Arts, Chico State University

Licenses/Certifications

NFPA 472 Hazardous Materials Awareness

ICC Certified Plans Examiner *(expired)*

Jacqui Powers brings more than a decade of expertise in the building industry. As a Senior Permit Technician, she excels in navigating building practices and regulatory compliance across federal, state, and local levels. Jacqui is highly proficient in data entry, project coordination, and office administration, enabling her to effectively manage multiple projects while maintaining exceptional customer service standards. This includes her extensive experience in building and life safety for numerous jurisdications throughout California.

Work Experience

Senior Permit Technician, TRB + Associates **2017 - Present**

- Assist with Document Control for various projects
- Contract Permit Coordinator for jurisdictions on an as needed basis.
- Assist clients with questions and inquiries
- Manages the demands of multiple jurisdictions
- Reviews plans for new residential, additions, improvements and light commercial projects.

Plans Examiner | Permit Technician, Bay Area Municipal Consultant **2013 –2017**

- Provided plan review of residential and commercial projects; including additions and tenant improvements.
- Contract Permit Technician for multiple jurisdictions
- Document Control for various high scale commercial and power plant projects.

Event Director | Office Manager, Bay Area Catering **2009 - 2011**

- Managed all aspects of event coordination, including preparing proposals, negotiating contracts, discussing rental upgrade options with clients, developing event timelines, creating menus, collaborating with outside vendors, and arranging rentals.
- Recruited, trained, delegated tasks to, coached, and motivated event staff. Evaluated staff performance. Entered, retrieved, and updated event setup information, and produced event reports using a computerized event management system.

Event Director | Office Manager, East Bay Golf Course **2004 - 2009**

- Served as the "Command Center" for the office, addressing issues and relaying accurate information between sales staff, chefs, employees, and the managing partner. This included details on guest counts, menus, tastings, location, and timing.
- Compiled a monthly binder detailing all events and staff schedules for the managing partner, chef, and sales staff.
- Functioned as the office administrator, handling phone calls, emails, scheduling meetings and conferences, managing transportation and travel arrangements, and processing mail.
- Demonstrated proficiency in Microsoft Office programs (Word, Excel) and various email systems (1and1, Outlook).
- Skilled in QuickBooks for invoicing, billing, payroll, bill payments, and report generation.
- Managed the office schedule for all staff, including front of house and production, and supervised sales staff appointment setting.
- Monitored all accounts payable and receivable, maintained vendor relationships, processed client payments, created budgets, tracked inventory, and completed profit and loss statements.

Fee Schedule

TRB and Associates offers the following fixed-fee and hourly rate schedules for services provided. Please note that Building Plan Review services are rendered on either a fixed fee or hourly rate basis, as noted below. If additional services are requested such as Building Inspection, Permit Processing, Staff Augmentation and Other services (e.g. MWELO, Civil Plan Review; CASp consulting), those services can be provided on an hourly basis at rates shown in the provided Schedule of Hourly Rates and Reimbursables.

Plan Review Services

Our plan review fees may be calculated as a percentage of the Plan Check Fee collected by the City. The fee compensation shown covers three total plan review cycles – the initial plan review and two rechecks. Any further review cycles which become necessary and reviews of revisions to approved plans would be billed on an hourly basis at the Senior Plan Review Engineer/Architect rate provided in the accompanying Schedule of Hourly Rates and Reimbursables. Please note that the turnaround timeframe for providing expedited and express plan reviews would be negotiated/mutually agreed upon prior to commencement of the review. Please also note that all plan reviews are subject to a minimum $250 fee.

Turnaround Timeframe* (in business days)	Structural Only Review	M/E/P Only Review	MWELO Only Review	Certified Floodplain Manager (CFM) Only Review	Complete Building Review (Structural, Life Safety/Disabled Access, M/E/P, Green, Energy)
Standard Generally, five-to-ten-day turnaround, as mutually agreed upon	50%	50%	70%	70%	70%
Expedited** As negotiated and mutually agreed-upon	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent

* For exceptionally large/complex projects, 15-day first check and 10 day rechecks may apply, as mutually agreed upon prior to commencement of review.

** Turnaround timeframe would be mutually agreed upon prior to commencement of work.

*** Note: For other review scope combinations not specifically identified in the above table (e.g. Electrical Only, Mechanical/ Plumbing Only, etc.), the fee compensation would be on an hourly basis.

**** Projects with Calculated Plan Reviews Fees in Excess of $10,000 are eligible for negotiated cost.

Please note that the pickup, shipment, and delivery of hardcopy and/or electronic plan documents and other relevant correspondence to the City is included in the above-noted cost.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Schedule of Hourly Rates and Reimbursables – Specialty Refinery Services

The following billing rates apply for services rendered on an hourly basis:

Position	Hourly Rate
Principal	$245.00
Project / Division Manager	$215.00
Building Official	$200.00
Assistant Building Official	$190.00
Supervising Plan Review Engineer/Architect	$200.00

- Overtime, Emergency, Expedited, and After-hours work is billed at the above-noted rates plus an additional 50 percent (Note that no overtime will be charged without client authorization). Please note that for any Emergency Call Outs, a minimum 8-hour fee applies.
- Project inspections subject to prevailing wage requirements are at the above-published rates plus 30 percent.
- All requested inspection and other staff-augmentation services are subject to a minimum 4-hour fee.
- Reimbursement for direct expenses incurred in connection with the work, will be at cost plus 15 percent.
- Reimbursement for non-City vehicles used in connection with the work will be at the current IRS rate plus 20 percent per mile.
- Other in-house charges for prints, reproductions and equipment use, etc. will be at standard company rates.

The above Schedule is valid through June 30, 2026 and may be adjusted thereafter to account for CPI changes, as mutually agreed upon.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Litigation Claims Statement

To confirm, TRB does not have any litigation or claims threatened, pending, or filed, or filed then settled, in the past five years, or for the life of the firm.

Project Completions Statement

Also to confirm, TRB does not have any projects where it failed to complete any work awarded in the past five years, or for the life of the firm.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

Financial Stability

To confirm, TRB has experienced continued growth in its nearly 20 years in business, is in sound financial standing, and has a firm footing in the municipal consulting industry.

- Of note, TRB has successfully provided Community Development Department Support Services to the City of Benicia since 2007

Also to confirm, if selected, TRB is prepared to provide financial statements for the last 3 fiscal years if requested.

City Insurance Requirements Verification

As evidence of our firm's ability to meet the City of Benicia's insurance requirements as described in the Professional Services Agreement, a copy of our Certificate of Liability Insurance which is currently on file with the City of Benicia is included on the following page. To confirm, all requested coverage types and amounts are accounted for on our current and upcoming renewal certification [Please note, total Auto Liability Coverage totals $3 million, given Umbrella Liability Policy of $2 million in concert with $1 million Auto Liability Policy]

Relevant Project Experience

TRB staff members have extensive experience providing plan review, building inspection, permitting and other Building Safety and Public Works support activities to municipal agencies. To help demonstrate our depth of knowledge, please find the following large projects profiled for your reference. Please note that additional project experience information and references follow the profiled projects.

Petroleum Refinery Expansion Project | Agency: City of Richmond, CA

Valuation: $1 billion
Completion Date: 2019
Project address/location: Richmond, CA
Project contact person: City of Richmond; George Kabaivanov, PE, CBO, (510) 620-5519
Scope of work: Combination Code Compliance Plan Review and Inspection
Highlighted Key Team Members: Todd Bailey, Tom Hemenway, Karin Kuffel, Jim Johnson, Mike Williams

TRB was engaged by the City of Richmond to provide onsite Code Compliance plan review and inspection support for the $1.0 billion refinery expansion 5-year project. The project includes a new Hydrogen Plant, Lube Oil production and H2S scrubber units. The project included decommissioning of vessels, pipelines, and supporting infrastructure.

As part of the scope of work, TRB has been responsible for inspection and review and approval of plan submittals for adherence to CBSC and applicable ASME and NFPA standards, and monitoring of SWWP / Erosion Control provisions. Elements reviewed and inspected include pressure vessels, chemical piping systems, and structural systems for processing units including a 10-story high structure. Reviews included consideration of dynamic structural analyses and geology/geotechnical provisions. The TRB inspection team worked closely with onsite special inspectors to ensure all applicable CBSC mandated (CBC Chapter 17) inspection items were addressed.

Valero Annual Permit Project | Agency: City of Benicia, CA

Valuation: $ varies
Completion Date: Ongoing
Project address/location: Benicia, CA
Project contact person: City of Benicia; Rachel O'Shea, CBO, (707) 746-4233
Scope of work: Combination Code Compliance Plan Review and Inspection
Highlighted Key Team Members: Todd Bailey, Chris Rose, Tom Hemenway, Mike Williams

TRB has been engaged by the City of Benicia to provide Annual Permit Plan Review and Inspection support for the Valero Refinery for over 10 years. TRB has provided technical support for building and electrical permits on structures eligible under the annual permit agreement covering routine electrical work, foundations less than 5 feet deep, structural steel supporting less than 10,000 lbs., and utility line trenches less than 6 feet deep without individual permits.

UC Davis Health – Aggie Square Mixed-Use Project | Agency: UC Davis Health

Valuation: $1.3 billion
Completion Date: In Progress
Project address/location: Sacramento, CA
Project contact person: UC Davis Health; Paul Menard RA, Building Official, (916) 734-7416
Scope of work: Fire Life Safety, Disabled Access, MEP Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Paul Armstrong, Dominic Ma, Jim Johnson, Jeff Brooks, Jim Begley

TRB was selected to provide Building and Fire Plan Review Services for the Aggie Square Project expansion of the UC Davis Medical Center from 3.5 to 6.2 million sf. The project consists of three high-rise towers and a separate mixed-use building (1.2 million s.f. portion). This multi-phase project includes research, laboratory, housing, and commercial components.

Docusign Envelope ID: CFC80713-4685-4B4C-86DD-30E8203802B7

RELATED Santa Clara Mixed Use Project | Agency: City of Santa Clara, CA

Valuation: $9 billion
Completion Date: Pending
Project address/location: Santa Clara, CA
Project contact person: City of Santa Clara; David Tran SE, Asst. CBO, (408) 615-2436
Scope of work: Combination Code Compliance Plan Review, including Grading & Drainage
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Paul Armstrong, Dominic Ma, Karin Kuffel, Jim Johnson.

TRB was selected by the City of Santa Clara to provide Life Safety, Disabled Access, Structural MEP, Energy, Green Building, Civil, Stormwater, and Grading construction code compliance services, including Alternate Material and Methods support for Phase One of the Related Santa Clara multi-phased, mixed-use project.

The project at projected full build out (ie all phases) consists of 9.2 million square feet of mixed-use development with commercial office, retail / entertainment including a food market, 1,680 residential units, 700 hotel rooms, parking facilities, new open space, and roads, new / upgraded / expanded infrastructure and utilities, and approximately 5 million square feet of corporate office space. The first phase of the project comprises an 850,000 sf garage with 2 high rise towers, 1 mid-rise building, and multiple low rise structures located above (podium construction).

Dual Tower 26-Story and 8-Story Mixed-Use Buildings | Agency: City of Oakland, CA

Valuation: $200 million
Completion Date: In Progress
Project address/location: Oakland, CA
Project contact person: Alain Placido SE | Supervising Civil Engineer
Scope of Services Provided: Combination Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma, Karin Kuffel, Jim Johnson

TRB provided Life Safety, Disabled Access, Structural, MEP, Energy, and Green Building code compliance services Code Compliance Plan for a 26-Story Type 1 podium tower with 270 market rate apartment units and accompanying 8-story mid-rise 90 unit affordable apartment building. Both buildings sit on a concrete podium. The podium includes 1 level above and 2 levels below grade, containing parking at all levels and community and retail functions at grade. Occupancy Groups: A, B, F-1, R-2, S-1, S-2.; Type of Construction: I-A; Number of Stories: 26 Building 1, 8 stories Building 2.

The Veranda Shopping Center | Agency: City of Concord, CA

Valuation: $75 million
Completion Date: 2019
Project address/location: Concord, CA
Project contact person: City of Concord; Ryan Pursely, PE CBO, Building Official, (925) 671-3173
Scope of work: Combination Code Compliance Plan Review and Inspector of Record
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma

TRB provided comprehensive Plan review and Inspection services on the construction of this 6-anchor store shopping center which encompassed core and shell; assembly, retail, and business use tenant improvements. The project includes 12 buildings of various building types (concrete tilt-up, masonry, steel frame, and wood frame construction) having a combined area of 375,000

Plan Review Experience

The following is a partial list of plan review projects worked on by our staff members. The project valuation for all below-referenced projects ranges from $1 million to over $1 billion.

Mixed Use

- Mixed-use Residential/Retail/Parking Garage (230,000 s.f.), Los Altos, CA
- New 39-Story High Rise Building, $110 million, 916 Broadway, Oakland, CA
- Santa Clara Square Project, $200 million, Santa Clara, CA
- Mixed-use Residential/Office, 630 I Street, Sacramento, CA
- Inglewood NFL Stadium, $1 billion, Inglewood, CA
- Agora Mixed Use Building, 1500 Newell Avenue, Walnut Creek, CA
- Anaheim Regional Transportation Center, Anaheim, CA

Government / Civic

- Packard Foundation Project, Los Altos, CA
- Veteran's Administration, Menlo Park Campus
- Sacramento Convention Center Expansion, $240 million, Sacramento, CA
- Anaheim Convention Center Expansion, Anaheim, CA
- Fire Station Remodel & Addition (12,000 s.f.), County of Marin, CA
- Performing Arts Center, County of Marin, CA
- Sonoma Academy School (99,000 sf), Santa Rosa, CA

Residential / Residential Care Facilities

- The Terraces Phase II (Res. Care Facility), Los Altos, CA
- Atria Senior Living (Residential Care Facility), Walnut Creek, CA
- Campus Crest Apartment Complex (240,000 s.f.), Sacramento, CA
- Brio Apartments, Walnut Creek, CA
- Arroyo Apartments, Walnut Creek, CA
- Valley Vista Senior Housing Complex (Res. Care Facility), San Ramon, CA

Biotechnology / Healthcare

- UC Davis Health System, Aggie Square Project, $1.3 billion, Sacramento, CA
- Kaiser Medical Office Building 2, $100 million, Redwood City, CA
- UC Davis Heath System, Midtown Clinic (100,000 s.f., I2.1 & B occs), Sacramento, CA
- Varian Inc. New Medical Research Facility (44,000 s.f.), Walnut Creek, CA
- Marin Health Campus - Buildings A-E, County of Marin, CA
- Children's Hospital TI, $37 million, Walnut Creek, CA

Commercial

- Macys Major Renovation & Addition, Walnut Creek, CA
- Major Office Remodel (Three 40,000 s.f. buildings), Pleasant Hill, CA
- Organic Material Composting Facility, $120 million, San Leandro, CA
- Santa Clara Bay Aquarium Learning Center, $42 million, Santa Clara, CA
- New Charles Schwab Building, 1231 S. California Blvd, Walnut Creek, CA
- New 6 Story Tech Campus Building, San Leandro, CA

Industrial and Power Plant Cogeneration Facilities

- Lodi Energy Center Project (300 MW), Lodi, CA
- Russell City Energy Center Project (560 MW), Hayward, CA
- Almond 2 Power Plant (300 MW), Ceres, CA
- Walnut Creek Energy Park (500 MW), Industry, CA
- SPG Solar Depot Park, Photovoltaic Array (2.1 MW), Sacramento, CA
- Shiloh Wind Farm (150 MW, 100 Turbines), Solano County

Inspection / Code Enforcement / Building Department Administration Experience

The following is a partial list of Inspection and Administrative assignments worked on by our staff members:

- **Building Official:**
  County of San Mateo, City of Concord, City of Oakley, California Energy Commission, City of Coronado, City of Signal Hill, City of Whittier, City of El Cerrito
- **Inspection:**
  City of Los Altos, City of Palo Alto, City of Sacramento, City of Vacaville, City of Richmond, City of Concord, County of Butte, City of Fairfield, City of San Ramon, City of Dixon, Town of Danville, City of El Cerrito, City of Oakley, County of San Mateo
- **Code Enforcement and Multifamily Inspection:**
  City of Petaluma, County of Solano, City of Concord, City of Antioch, City of Benicia
- **Permit Technician:**
  City of Los Altos, City of Santa Clara, City of Sacramento, County of San Mateo, City of Redwood City, City of Vallejo, City of Concord, City of Palo Alto
- **Delegate CBO Services: California Energy Commission:**
  Lodi Energy Center Project, Lodi, CA, Almond 2 Power Plant, Ceres, CA, Russell City Energy Center Project, Hayward, CA

Civil Engineering / Grading / MWELO Plan Review & Inspection Support Experience

TRB's experience providing Civil Engineering Plan Review and Inspection includes the following agencies:

- **City of Benicia**
- City of Santa Clara
- City of Burbank
- County of San Mateo
- City of Oakland
- City of Los Altos

Representative Client List

TRB staff members have extensive experience working with public agencies in California. The following is a partial list of Northern California local and State agencies served by our staff members.

LOCAL AGENCIES – NORTHERN CALIFORNIA

Agreement Requirements

To confirm, TRB has reviewed and agrees to sign City's Professional Services Agreement substantially similar to the form of Professional Services Agreement attached to the RFP. Also to confirm, upon contract award, TRB will register with the City's digital insurance tracking platform.

Forms

TRB's completed Proposal Authorization Form (Exhibit D) is included on the following page.

Exhibit D

PROPOSAL AUTHORIZATION

NAME OF RESPONDENT TRB and Associates, Inc.

1. The above-named Respondent is a Respondent to the Request for Qualifications / Request for Proposals of the City of Benicia for professional services to prepare [on-call specialty refinery services] and possesses the legal authority to submit this Proposal.

2. The undersigned is authorized to conduct all negotiations for and legally bind the Respondent in all matters relating to this Proposal submittal.

3. The undersigned has reviewed, understands, is able to comply with and agrees to be bound by the General Conditions Governing the RFP described in Section 7 of the RFP.

4. The undersigned grants the City a right to conduct reference checks and reasonable investigation of all information provided by Respondent.

5. The undersigned certifies that this Proposal is irrevocable until 120 days after its submission date.

Signature:

Print Name: Todd Bailey

Title: President and Secretary

Date: April 21, 2025

AGENDA ITEM
CITY COUNCIL MEETING DATE – JULY 1, 2025
CONSENT CALENDAR

TO : City Manager

FROM : Assistant City Manager

SUBJECT : **ACCEPTING THE PROPOSALS FOR DEVELOPENT ENGINEERING ON-CALL SERVICES AND AWARDING DEVELOPMENT ENGINEERING MASTER SERVICE AGREEMENTS**

EXECUTIVE SUMMARY:
The Community Development Department recommends awarding master service agreements to establish a list of pre-qualified, contracted on-call firms to provide professional services for development engineering reviews, staff augmentation, and rapid response services. The agreement period is two years, commencing July 1, 2025, through June 30, 2027, with one optional two-year renewal.

RECOMMENDATION:
Move to adopt a resolution (Attachment 1) accepting the proposals for development engineering on-call services (Exhibit A), authorizing the City Manager to sign agreements on behalf of the City with eight firms for a two-year term expiring June 30, 2027, not to exceed $325,000 per firm with the option for up to one 2-year renewal and authorizing the City Manager or designee to execute any task order, without further action by the City Council that is within the total authority of the master service agreement.

BUDGET INFORMATION:
The not-to-exceed amount for each agreement is $325,000 over two years. Services or projects based on a defined scope of work would be executed by task order upon approval of the City Manager or designee. Funding for said contracts shall be provided on the basis of passthrough fees and reimbursement agreements for applicable projects (such as large-scale projects requiring extensive contract support). The anticipated expenditures pursuant to the agreements has been included as part of budget development for FY26 and FY27. Projects administered on a reimbursement basis would be initiated by task order, following the execution of a reimbursement agreement and receipt of a deposit (25% of the bid amount. These projects would require the project applicant to fully reimburse consultant costs, plus a 15% administrative fee for staff oversight and management.

BACKGROUND:
Development Engineering utilizes consulting services to support reviews for private development projects, including grading and erosion control plans, storm drainage, and sewer systems. Additionally, consultants offer on-call coverage during staff absences or vacancies and assist with specialized technical projects. Consultants play a crucial role in maintaining current customer service levels and achieving the City Council's economic development goals. They help ensure timely plan review turnaround, support staffing flexibility, and prevent delays in permit approvals and construction activities. Additionally, consultants bring specialized expertise to complex projects, thereby enhancing the Division's technical capabilities. Without consultant support, plan review timelines would increase, negatively impacting development schedules and economic growth within the City.

Requests for Proposals (RFP) for development engineering professional services and staff augmentation was released on April 30, 2025, with a response deadline of May 12, 2025. The City received ten proposals for professional services; the top-scoring firms were interviewed by staff, and four (4) firms were selected to provide on-call services, which are listed below.

4LEAF, Inc.	Gray-Bowen-Scott
CSG Consultants, Inc.	TRB and Associates, Inc.

The City received nine proposals for staff augmentation; the top-scoring firms were interviewed by staff, and three (4) firms were selected to provide on-call staff augmentation, which are listed below.

4LEAF, Inc.	Kennedy & Associates, Inc.
Ghiradelli Associates, Inc.	TRB and Associates, Inc.

Exhibit A provides a breakdown of each firm’s on-call development engineering service areas. The master service agreements for the eight firms are listed under the attachment section (Attachments 2-9).

NEXT STEPS:
Following the City Council’s adoption of the resolution, the City Manager will execute agreements for on-call planning services.

ALTERNATIVE ACTIONS:
The City Council may decline to adopt the resolution. If the City Council takes this action, then any future development engineering consultant task, such as for development review services or staff augmentation, would require a RFP and subsequent selection, including City Council approval for contracts exceeding $100,000.

CEQA Analysis	Authorization of contracts for On-Call Development Engineering Services is not a project under Section 15378 (b) of the CEQA Guidelines, which excludes administrative activities of governments. The proposed contracts merely authorize pre-selected, pre-contracted firms to complete various work tasks related to building permit review, refinery services, and staffing and would not result in direct or indirect physical changes in the environment. Therefore, the requested action is not subject to CEQA under Guidelines Section 15060 (c).

ATTACHMENTS:

RESOLUTION NO. 25-

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BENICIA ACCEPTING PROPOSALS FOR DEVELOPMENT ENGINEERING ON-CALL SERVICES AND AWARDING DEVELOPMENT ENGINEERING MASTER SERVICE AGREEMENTS, EACH IN AN AMOUNT NOT TO EXCEED $325,000, AUTHORIZING UP TO ONE 2-YEAR RENEWAL, AUTHORIZING THE CITY MANAGER TO SIGN THE CONTRACTS ON BEHALF OF THE CITY AND AUTHORIZING THE CITY MANAGER OR DESIGNEE TO EXECUTE ANY TASK ORDER, WITHOUT FURTHER ACTION BY THE CITY COUNCIL, THAT IS WITHIN THE TOTAL AUTHORITY OF THE MASTER SERVICE AGREEMENT UTE ANY TASK ORDER, WITHOUT FURTHER ACTION BY THE CITY COUNCIL, THAT IS WITHIN THE TOTAL AUTHORITY OF THE MASTER SERVICE AGREEMENT

WHEREAS, a Request for Proposals for on-call development engineering professional services was released in April 2025; and

WHEREAS, a selection committee reviewed all responses and interviewed the top scoring consultant firms submitting proposals; and

WHEREAS, the firms of 4Leaf Inc., CSG Consultants, Inc., Gray-Bown-Scott, and TRB and Associates, Inc., were determined to be the most qualified proposers to provide on-call professional services; and

WHEREAS, the firms of 4Leaf Inc., Kennedy & Associates, Inc., Ghirardelli Associates Inc., and TRB and Associates, Inc. were determined to be the most qualified proposers to provide on-call services for staff augmentation; and

NOW, THEREFORE, BE IT RESOLVED THAT the City Council of the City of Benicia hereby accepts the proposals for on-call development engineering services (Exhibit A), authorizes the City Manager to sign Master Service Agreements on behalf of the City with seven firms for a two-year term expiring on June 30, 2027, and authorize up to one 2-year renewal and authorizes the City Manager or designee to execute any task order, without further action by the City Council, that is within the total authority of the master service agreement; and

BE IT FURTHER RESOLVED funds for said agreements shall not exceed $325,000 per firm; and

BE IT FURTHER RESOLVED, that the City Council of the City Benicia does authorize the City Manager or their designee to execute any task order, without further action by the City Council, that is within total authority of the Master Service Agreement.

*****

On motion of Council Member , seconded by Council Member , the above Resolution was adopted by the City Council of the City of Benicia at a regular meeting of said Council held on the 1st day of July 2025 by the following vote:

N. Shoreline Development Review

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem

wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required during the terms of this Agreement.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

kduggan@4leafinc.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between 4LEAF, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

RE: Proposal to Provide On-Call Development Engineering – Professional Services to the City of Benicia

4LEAF, Inc. (4LEAF) is pleased to present our proposal to provide On-Call Development Engineering – Professional Services to the City of Benicia (City). 4LEAF has been providing plan check, inspection, and other related services to numerous public clients throughout California for over 24 years. We look forward to the opportunity to provide these services to the City. 4LEAF is uniquely qualified and is an ideal consultant choice for the following reasons:

☑ Familiar Consultant and Local Presence

4LEAF is currently working with the City of Benicia to provide On-Call Building Plan Review, Inspection, and Development Engineering Services. This has allowed us to become familiar with the department's processes and procedures. In addition to serving the City, 4LEAF has provided services to numerous bay area municipalities. As such, our firm has the necessary local staff to address any needs the City may have. Some of 4LEAF's local clients include:

- City of Oakland
- City of El Cerrito
- City of San Leandro
- City of Newark
- City of Union City
- City of Richmond
- City of Pinole
- City of Brentwood
- City of Pittsburg
- City of Berkeley
- City of Walnut Creek
- City of San Pablo
- County of Alameda

☑ Full-Service Firm

As a full-service firm, 4LEAF can provide departmental services to aid with high project workloads that require additional staff assistance. We provide jurisdictions with Engineering, Public Works, Building, Planning, and Fire Department services and have qualified staff available to serve the City with remote, on-site, part-time, or full-time project needs. For the scope of this contract, our services include:

- **Development Engineering:** We provide full-service civil engineering support for development projects, including grading, drainage, stormwater, and utility reviews. Our team of licensed professionals ensures timely and thorough plan checks for subdivision improvements, site development, and infrastructure design. With a strong understanding of municipal standards, we help streamline project delivery and maintain compliance with all applicable codes.

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

☑ Key Personnel

Craig Tole: With nearly 20 years of building department experience, Craig has the requisite experience to manage all as-needed requests from the City of Benicia. Craig will ensure that 4LEAF provides curated staff to meet the City's specific plan review and inspection needs.

Lowell Brown: Lowell has over 40 years of experience in the Regulatory Building Industry, working across both public and private sectors. His expertise in code compliance allows clients to rely on 4LEAF for technical guidance, while also understanding the challenges faced by the development team.

Michael Loomis, SE, CBO, CASp, PMP: As 4LEAF's Director of Structural Engineering, Michael is responsible for managing 4LEAF's Plan Review clientele. He will be responsible for all expedited requests, quality control, and performance of critical plan reviews assigned by the City.

Vanessa Morales: As Plan Review Coordinator Manager, Vanessa supervises the internal routing and completion of plan reviews. Additionally, she is responsible for the training of 4LEAF's permit technician staff to ensuring staff are prepared to meet the needs of the municipality they are assigned.

Daniel Wolfe, PE: Daniel is a seasoned civil engineer with more than two decades of experience. He has served in the capacity of both Senior Civil Engineer and Floodplain Manager for municipal agencies. Daniel's expertise in civil engineering goes beyond the Town's expectations and would serve as a valuable asset to the team.

☑ Leadership

The contract with the City of Benicia will be managed by Craig Tole and Lowell Brown. Together, they bring over 60 years of experience in the Community Development industry, equipping them with the expertise needed to provide our municipal clients with top-tier staff for their projects and personnel needs.

DESCRIPTION OF RESPONSIBILITES

4LEAF, I

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

SECTION 3: DESCRIPTION OF RESPONSIBILITIES

We understand that the City of Benicia seeks a qualified firm with the capacity to deliver civil plan review services for projects of all sizes and complexities. As leaders in the Community Development industry, we are confident in our ability to meet the City's civil plan review needs.

With extensive experience providing plan review services for a wide range of community development projects, we have a strong understanding of the regulatory frameworks that govern construction in California. Our team includes licensed professional engineers and plans examiners who are well-versed in the requirements of both Federal and State codes, as well as City-specific regulations, ensuring that we can effectively manage and oversee complex construction projects.

Proven Track Record of Timely and Accurate Civil Plan Reviews

4LEAF has a proven history of providing timely, thorough, and precise civil plan review services. Our approach emphasizes accuracy, clear communication, and collaboration with City staff and applicants to resolve any challenges or discrepancies early in the process. This proactive approach ensures that potential delays are minimized and that all plans are in full compliance with the relevant regulations.

Commitment to Timeliness

Our team is fully committed to ensuring timeliness in all aspects of our work. We ensure the civil plan reviews will be returned within the timelines established by the City, ensuring a swift and efficient process while upholding the highest standards of quality. Plan Review timelines for small and large projects shall include:

Small Projects:
Small projects consist of all residential alteration and repair projects.

- Initial plan review completed within 10 working days.
- Recheck plan reviews completed within 10 working days.

Large Projects:
Large projects include new single-family homes, subdivisions, and all commercial projects.

- Initial plan review completed within 10-20 working days.
- Recheck plan reviews completed within 10-20 working days.

Identification and Knowledge of Applicable Regulations

Our team is well-versed in the most current Federal, State, and local regulations that affect Development Engineering projects in California. This includes, but is not limited to, compliance with the following:

- City of Benicia Municipal Codes
- California Building Standards Code (CBSC)
- Geotechnical and Soils Review Standards
- California Stormwater Quality Association (CASQA) Guidelines
- National Pollutant Discharge Elimination System (NPDES) Requirements
- FEMA Floodplain Management Regulations and FEMA Flood Insurance Rate Maps (FIRMs)

We will ensure that all plans are reviewed in accordance with the latest versions of these and any other required regulations and that our recommendations and comments are based on these standards.

SECTION 4: TEAM MEMBERS

Management Team

Craig Tole – Exec. Project Manager / Vice President, Community Development

Craig has served Community Development Departments for the past 20 years under the supervision of the company President. Among Craig's responsibilities include the day-to-day contact with many of 4LEAF's clients in the Building & Safety, Engineering, and Construction Management industries. Craig has successfully managed a multitude of inspection projects ranging from $1 million to $6 Billion. Craig also manages numerous County IOR programs including San Mateo County PDU, Santa Clara County FAF, Alameda County GSA, and Santa Cruz County GSD.

Office - (925) 462-5959 | Cell - (925) 580-4055 | Email - CTole@4leafinc.com

Lowell Brown – Project Manager

Lowell brings over 40 years of experience in the regulatory building industry, having worked in both public and private sectors. His expertise in site development and building systems allows for project coordination that aligns with the best interests of our clients. While managing Architectural, Mechanical, Electrical, and Plumbing plan reviews, Lowell has simultanisly represented 4LEAF on major projects for jurisdictions from Power Generating Stations, Hydrogen Facilities, Chip Manufacturing to Data Centers. His philosophy centers on training and supporting both staff and clients as their liaison to ensure compliance and to maintain flourishing relationships throughout the plan review and construction phase.

Office - (925) 462-5959 | Cell - (925) 890-9979 | Email - LBrown@4leafinc.com

Michael Loomis, SE, CBO, CASp, PMP – Director of Structural Engineering

With more than 28 years of expertise in the industry, Michael has an excellent working knowledge of all types of construction, including architectural, structural, electrical, mechanical, and plumbing systems. Michael is extremely committed and has shown dedication by obtaining multiple certifications through the International Code Council (ICC), and is a Certified Access Specialist, (CASp). Michael is an adaptable leader that quickly identifies departmental issues and solves them by utilizing his ample experience.

Office - (925) 462-5959 | Cell - (831) 620-2305 | Email – MLoomis@4leafinc.com

Scott Martin, PE – Quality Control Manager / Senior Civil Engineer

Scott has over 27 years of engineering experience and has performed a multitude of plan review for many different project types including commercial structures, residential structures, schools, hospitals, and various municipal reviews for clients throughout the country. Scott's duties include the review of plans submitted to local jurisdictions, creation and submission of plan review letters, and constant communication with all project stakeholders.

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

Vanessa Morales – Plan Review Coordinator Manager

Vanessa serves as 4LEAF's Plan Review Coordinator Manager, supervising the internal routing and completion of plan reviews, ensuring that all projects are handled efficiently and in compliance with regulations. Vanessa is also responsible for training 4LEAF's permit technician staff, equipping them with the skills and knowledge needed to meet the specific needs of the municipalities they serve.

Office – (925) 462-5959 | Cell - (925) 789-9917 | Email - VMorales@4leafinc.com

On-Call Supporting Staff

Daniel Wolfe, PE – Senior Civil Engineer

Daniel is a highly capable Civil Engineer with over 24 years of experience across a variety of projects. He is skilled in interpreting and applying California Building Codes, Civil Plan Review, Computer-Aided Design (CAD), Construction, and Structural Analysis. Furthermore, Daniels extensive experience within local government has made him highly proficient in coordinating and cooperating with various departments in the pursuit of the successful completion of any project. Daniel's broad range of experience has shaped him into a capable leader and communicator, able to collaborate effortlessly with any team he joins.

Shannon Yauchzee, PE – Senior Civil Engineer

With over 28 years of experience, Shannon is a veteran in the industry. He has served multiple municipalities as Public Works Director, Civil Engineer, Building Official, and Mechanical Inspector. Shannon specializes in infrastructure planning, reviewing and approving engineering plans for subdivision and private development projects, and managing the Capital Improvement Program. He collaborates with Planning and Building Departments on the planning and permitting of public facilities built through private development. Additionally, he has worked on mapping, subdivision services, development review, grading and drainage, stormwater, and floodplain program management.

Rouhi El-Rabaa, PE – Senior Civil Engineer

Rouhi is a licensed professional plan review engineer with over seventeen years of experience in civil engineering. He possesses extensive knowledge regarding residential, commercial, and industrial structure plan review. Rouhi can rely on years of practical experience to support project development for a variety of structures. He has also developed exceptional leadership skills that are crucial for providing direction and efficiency to any project. Rouhi has also been fortunate enough to work with a variety of diverse teams and has since become capable of seamlessly integrating into new groups in the pursuit of successful project completion. These skills make Rouhi an excellent asset for any project team that he is assigned to.

Rich Deal, PE, TE, PTOE – Traffic Engineer

Rich is an experienced engineer whose professional and academic background includes over 35 years of traffic and civil engineering knowledge. He is proficient in all types of traffic operations, capital improvement projects, traffic control plans, and providing design oversight. As demonstrated in his work experience, Rich has held varying positions within the field of traffic engineering, each of which provided him with an increased level of responsibility and expertise. His experience specifically includes creating and modifying traffic control plans for small cell and fiber pulls, he has used this skillset for notable projects such as the City of Oakland's 5G project.

Full Resumes, including qualifications, education, and professional certifications, for Management and On-Call Supporting Staff have been submitted to the corresponding questionnaire via the City's procurement portal.

ON-CALL DEVELOPMENT ENGINEERING – PROFESSIONAL SERVICES

TO THE

CITY OF BENICIA

SECTION 5

APPROACH

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

SECTION 5: APPROACH

Plan Review Services

4LEAF will provide development engineering review and support for any and all types of private development to ensure compliance with the City's Standard Specifications, Municipal Code, project specific conditions of approval, and with all other adopted codes, and Caltrans Standards (where applicable), and for compliance with State of California Water Efficient Landscape Ordinance, the State of California Certified Access Specialist (CASp) compliance, and all other applicable ordinances. We provide these services for development projects including single-family subdivisions, affordable housing projects, multi-family and mixed-use developments, commercial, and Industrial civil improvements. We also provide services for tentative, parcel, and final map review, easement and right-of-way dedication and abandonment, and lot line adjustments and mergers.

Approach

We understand the development process from entitlement to certificate of occupancy. Our development engineering services responsibilities will include, but are not limited to:

- Examining rough grading, civil, and backbone infrastructure plans, specifications, geotechnical and drainage reports, feasibility studies, and additional analyses.
- Ascertaining whether development construction documents adhere to the City's standard specifications, municipal code, development conditions of approval, and all other adopted codes and ordinances.
- Performing such reviews on improvement plans including grading, drainage, sanitary sewer, water, raw water, storm drainage, and joint utilities.
- Reviewing plans to ensure conformity to the City Council approved development entitlement, ensuring that all entitlement conditions are either adhered to or completed.
- Reviewing landscaping plans to ensure conformity with the Model Water Efficient Landscaping Ordinance (MWELO).
- Reviewing tentative, parcel, and final maps, lot line adjustments, mergers, and easement and right-or-way documents for compliance with the California Subdivision Map Act and the City's municipal code.
- Collaborate with the City's Fire Department to address wildfire and latter fuel management concerns associated with new development.
- Supplying the City with civil improvement and mapping submittal checklists to ensure that applicants have a complete understanding of what is required.
- Reviewing construction cost estimates for accuracy, current market values, completeness, and transparency.
- Ensuring that all development within City's Shoreline Protection Overlay District complies with the City's Municipal Code, the Bay Plan, and the Benicia Urban Waterfront Enhancement Master Plans.

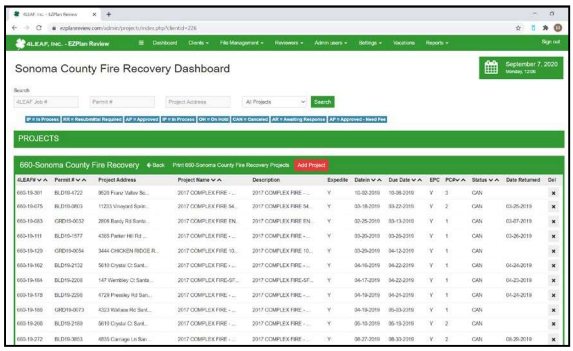
On- and Off-Site Review

4LEAF can supply Registered Professional Engineers to the City to work on-site, or at a site mutually agreed upon in writing, performing development plan, map review, and landscaping reviews at the jurisdiction's discretion. Our experience includes checking for compliance with development conditions of approval, standard specifications, and all other local codes/ordinances.

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

4LEAF's EZPlan Review

EZPlan Review is our in-house tracking software that acts as a communication tool between 4LEAF and the jurisdictions we work with. The use of EZPlan makes communication easy. This web portal allows users to visualize project due dates, notes, and status updates so that projects can be followed from start to finish. Additionally, 4LEAF provides electronically stamped and uploaded copies of approved project plans, a value which saves clients time and resources. With the use of EZPlan, 4LEAF hopes to provide a level of ease and transparency during the off-site plan review process.



Quality Assurance/Quality Control Review Process

Task 1 – Project Tracking Set-up

The first step of our process will be to set up the project in our system to enable both 4LEAF and the City to track the progress of the review. Our project tracking procedures are designed to track each submittal throughout the review process and maintain accurate and comprehensive records for each submittal.

Task 2 - Complete Submittal Review

Upon receiving the improvement plans or map related documents from the City, 4LEAF will triage (preliminary plan review performed by 4LEAF Plan Review Project Lead) the submittal to verify that the submittal received is complete (i.e., all pertinent plans, calculations, reports, and other related documents) in order to begin our review. If the submitted package is incomplete, we will communicate with the City to discuss the deficient documents needed to proceed with our review.

Task 3 - Plan Review Assignment

After the triage process is performed and a complete package is verified, the project will be assigned to the most qualified Plans Examiner and a turnaround time will be established. We will log each application into our database the same day the plans are received to ensure they are routed in a timely manner and to allow for daily project tracking.

Task 4 - Plan Review

4LEAF will provide the project contact (Developer, Contractor, Architect, or Engineer) desired by the City with a list of items needing correction and clarification to comply with applicable building codes, ordinances, and regulations. A correction list will be created based on missing codes and ordinances.

Task 5 - Quality Control

Prior to submitting the plan review correction list to the City, the designated Plan Review Project Lead will review the correction list for adherence to applicable codes and ordinances as well as for accuracy and completeness. After completion of our quality control review, a correction list will be e-mailed to a designated staff member at the City or as directed by the City. The correction list and a 4LEAF transmittal form will include the following information: a description of the work, type of construction, occupancy group, square footage, number of floors, and sprinkler requirements.

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

Task 6 - Plan Review Rechecks

Improvement plans or mapping related documents received for rechecks will be reviewed for conformance. Our goal is to actively work with the Designers to resolve all unresolved issues after our second review. If it appears that there are complicated issues that might cause a project to go beyond our second review, we will communicate directly with the Designer to resolve these concerns.

Task 7 - Project Approval

Once the final reviews are completed and ready for approval, 4LEAF will organize the plans and supporting documents per the City processing requirements and return them to the City, along with our letter of completion.

Turn-Around Times

4LEAF has a tremendous reputation for completing projects on-time and under budget. 4LEAF's Plan Review team is widely recognized for quick turn-around times and prompt service. Off-site plan reviews are performed at our office, with plans transmitted by personal delivery or overnight service. The standard turn-around time is within 10 business days for rough grading plan reviews and within 15 days for subdivision, commercial/industrial, and mapping submittals; however, these timeframes are negotiable based on your needs. **4LEAF also provides Fire Plan Review services**.

Type of Plans	Transportation	Initial Review	Resubmittal Review	Resubmittal Review #2	Expedited Review	Expedited Resubmittal
Rough Grading	< 24 Hours (pick up & delivery)	< 15 Days	< 10 Days	< 5 Days	< 5 Days	< 3 Days
*Subdivision	< 24 Hours (pick up & delivery)	< 15 Days	< 10 Days	< 5 Days	< 5 Days	< 3 Days
Commercial	< 24 Hours (pick up & delivery)	< 15 Days	< 10 Days	< 5 Days	< 5 Days	< 3 Days
Tent., Parcel and Final Maps	< 24 Hours (pick up & delivery)	Negotiable	Negotiable	Negotiable	Negotiable	Negotiable
ROW and Easement Documents	< 24 Hours (pick up & delivery)	Negotiable	Negotiable	Negotiable	Negotiable	Negotiable

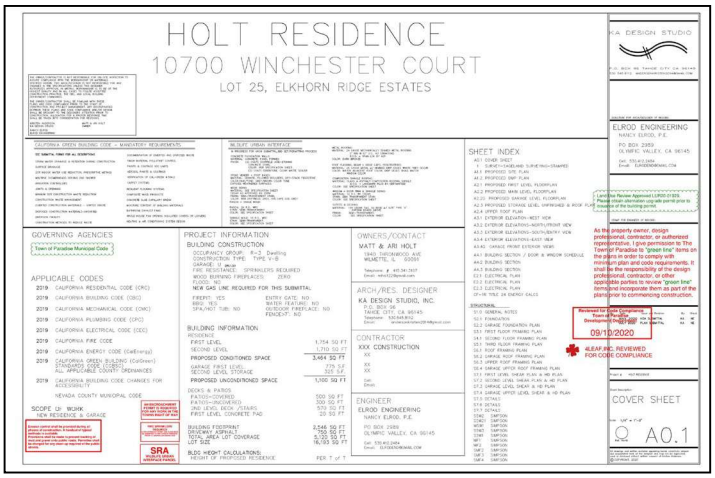
***Larger complex project reviews can be negotiated to achieve the best possible pricing. 4LEAF has a proven track record of working with municipalities to provide expedited reviews with special discounted pricing.**

Pick-up of all submittal packages will be performed by 4LEAF staff within 24 hours of the City's phone call or e-mail. 4LEAF prefers to pick-up and deliver the plans in person to relay information that may be pertinent to the project and maintain consistent communication. At no additional cost, 4LEAF staff will transport the plans to and from the City upon a phone call to the 4LEAF office or simply e-mail pickup@4leafinc.com.

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

Document Control

When plans and documents are received for review, 4LEAF's Plan Review Manager and Document Control Technician analyzes the project, creates a job number, and completes a Job Setup Sheet. This form highlights both the jurisdiction, applicable contact information, and all project specific design criteria and notes. Jobs are then transmitted through 4LEAF's easily accessed EZPlan Review Portal which tracks initial and subsequent reviews and is open for view by the client. The City and their customers can view 4LEAF's plan review control log through 4LEAF's EZPlan Review Portal.



HOLT RESIDENCE
10700 WINCHESTER COURT
LOT 25, ELKHORN RIDGE ESTATES

SHEET INDEX

COVER SHEET
A0.1

09/10/2020

Plans and associated documents then get distributed for review to a 4LEAF team consisting of Plan Review Engineers, Landscaping and Surveying qualified team members, as applicable. Our staff then performs their function of analyzing the plans and documentation for effective conformance to the state codes, referenced construction standards, and City amendments. 4LEAF's code review methodology is "The Effective Use of the Codes" reinforced through proprietary and jurisdictional checklists. When complete, the Plan Review Manager overviews the project for quality control purposes and forwards comments or approvals to the client's pre-designated contacts.

Off-Site Electronic Plan Review

Digital plan review allows 4LEAF the ability to review, markup and transport plans of any size electronically. We strongly encourage this service for our clients. This process delivers a high degree of cost effectiveness, time efficiency and a "green" environmentally friendly system. Through our strong focus on utilizing this digital capability, we offer full access to all 4LEAF engineers and plans examiners company-wide, from any of our office locations. A protected online portal will be established to allow property owners, contractors, developers, businesses, designers, and stakeholders to submit plans electronically for review. Access to the online portal will be given to City staff for immediate access to information regarding project status during the review process.

4LEAF has successfully implemented and used Bluebeam for electronic review of files to help eliminate the use of paper and take the plan review workflow to a whole new level. 4LEAF's offices are equipped with large scale monitors for easy review of plans. Bluebeam Revu combines powerful PDF editing, markup, and collaboration technology with reliable file creation. Bluebeam integrates flawlessly with our Green Line approach for electronic and timely turnarounds resulting in permit issuance within 5-7 business days.

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

Process Mapping

4LEAF aims to bring departmental processes together by identifying and eliminating obstacles to streamline processes. Our subject-matter experts visit each department within a jurisdiction to conduct an analysis of existing processes, identify how best to streamline separate departmental processes to improve workflow, and provide guidance and recommendations on an improved work plan. 4LEAF implementation staff work both on- and off-site during this process and offer extensive training to existing municipal staff members on the use of a jurisdiction's preferred permitting software.

Additional Technologies

Having served more than 400 jurisdictions, 4LEAF and our staff are knowledgeable and have experience working with a variety of different technologies for Electronic Plan Review, Permit Tracking, and Building Inspections. 4LEAF's experience with tracking technologies includes, but is not limited to:

e-PlanSoft™ · CRW SYSTEMS · ProjectDox · EnerGov · Accela · eTRAKiT Online Permitting System · iWorks CORPORATION · esri

Community Development Department Services

4LEAF has a proven track record of providing Permit Technician/Counter staff to jurisdictions. 4LEAF can deploy such staff on short notice and offer training programs for department staff, if required. Our staff encompasses the right combination of experience, education, and certifications.

Permit Technician

4LEAF Permit Technician Staff must be experienced and dedicated to serving the public at Community Development Department counters. 4LEAF has numerous Permit/Counter Technicians on staff, many who are currently assigned to Departments throughout the state. All staff will have the materials, resources, tools, and training required to perform the job. Typical Permit Technician duties include:

- Accepting plans for plan check
- Verification that plans are accurate and complete
- Calculating permit fees
- Explaining ordinances and procedures to owners, contractors, developers, architects, and general public
- Assisting with preparation of permit applications
- Receiving plans for Planning and permitting and route to various agencies (if requested)
- Accepting complaints on code violations, process, and record complaints
- Answering phone calls for field and office staff
- Processing inspection requests
- Maintaining files for permitting
- Operating the Community Development Department's computerized information system
- Inputting a variety of information, including building permits and inspections
- Completing related duties and responsibilities as assigned by the Director and Senior staff members

Placement Schedule

Community Development Department Staff	Interim	Full-Time
Permit Technician	< 2 Days	< 5 Days
Assistant Permit Technician/ Counter Staff	< 2 Days	< 5 Days

SECTION 6: LEVEL OF EFFORT LETTER

Given the on-call nature of this contract, the actual tasks and corresponding hours may vary depending on the specific needs that arise during the term of the agreement. To satisfy the City's request, we have provided a preliminary estimate of level of effort in the itemized spreadsheet below. This includes personnel classifications and estimated hours as a percentage of total time expected. Please note that these estimates are based on current assumptions and are subject to change based on project demands and the scope of work requested by the City throughout the contract.

Name	Personnel Classification	Estimated Hours (Percentage of Time)
Craig Tole	Executive Project Manager	5%
Lowell Brown	Project Manager	10%
Michael Loomis	Director of Structural Engineering	5%
Scott Martin	Quality Control Manger	10%
Vanessa Morales	Plan Review Coordinator Manager	5%
Daniel Wolfe	Senior Civil Engineer	20%
Shannon Yauchzee	Senior Civil Engineer	10%
Yofi Autie	Senior Civil Engineer	15%
Rouhi El-Rabaa	Senior Civil Engineer	20%

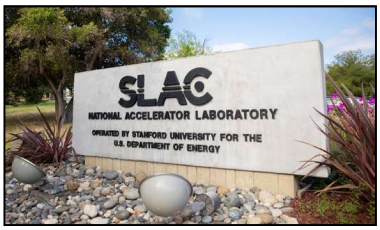
Civil Engineering Plan Review Expertise

4LEAF has built a strong reputation providing civil engineering plan review. We have demonstrated our expertise and knowledge in structural integrity, safety protocols, and regulatory standards. Our team of engineers, inspectors, and consultants carefully examines construction plans to ensure they meet all required local, state, and federal guidelines. We focus on reviewing engineering and grading plans, mapping reviews, stormwater control and clean water (C.3) plan reviews and compliance support, MWELO conformance, and floodplain management support functions.

Our extensive experience in civil engineering spans a diverse portfolio of projects, including bridges, roadways, stormwater management systems, wastewater treatment plants, and other essential infrastructure. Through our detailed plan review process, we assess critical factors such as load-bearing capacity, seismic resilience, environmental impact, and accessibility compliance to ensure that projects are designed and constructed to withstand both current and future demands.

4LEAF is uniquely qualified to work on large development projects of any size. Our team has conducted civil review and related services on multiple different projects for the Stanford Linear Accelerator Center (SLAC). These projects include the Low Emittance Injector Tunnel (LEIT) Extension with a project cost of approximately $45 million and the $35 million Cryomodule Repair and Maintenance Facilities (CRMF) project.



4LEAF also provided Civil Engineering Plan Review services for numerous other clients, including but not limited to: University of California, Merced; the City of Vacaville; the City of Oakland, Department of Transportation (OakDOT); the City of Davis, Public Works Department; and the University of California, San Francisco.

We have the resources to deploy staff for any given project, as you can see from the limited examples listed above. Our team is well-equipped and qualified to perform civil engineering services for projects of any size. By choosing 4LEAF, you are choosing a company that prides itself on quality work, top-notch customer service, experienced staff, and a multitude of project experience. Please review our scope of services and project examples in the sections that follow to gain more understanding about our firm and how we can help achieve the City's goals.

City of Oakland, Department of Transportation (OakDOT)

Civil Engineering Services for 5G Installation

4LEAF is currently providing the City of Oakland Department of Transportation (OakDOT) services in support of OakDOT's right-of-way permitting function. 4LEAF reviews applications submitted by telecommunication companies and telecommunications contractors for the installation of small wireless facilities to support the provision of broadband communication services, including small cells for 4G and 5G services.

Scope of Services

4LEAF administers application intake, review, and permit issuance for all facility broadband telecommunication projects. The scope of 4LEAF's services includes the following:

- Ensure adherence to City permitting, quality, and safety standards.
- Coordinating and completing demand for the use of public space and City infrastructure.
- Reviews Traffic Control Plans to ensure they meet MUTCD Guidelines as well as the City of Oakland's ordinances pertaining to street closures, pedestrian and bicycle traffic mitigations, and the A/C Transit corridor.
- Reviews Engineering and Construction plans to ensure compliance with the City's Street excavation rules, paving moratorium, standard details for utility trenching and sidewalks, and Chapter 12.12 of the OMC.
- Reviews drawings for Survey and Monument Conflict by verifying that plans show monuments, trench width and depth, and trench distance to exaction and/or monument.
- 4LEAF works closely with each department to ensure consistent standard plan review comments.
- Ensure that permit applications are reviewed in a timely manner, consistent with FCC "shot clock" and other relevant mandates.
- 4LEAF updates the status of permit applications and issues the permit using Accela software.

Stanford Linear Accelerator Center (SLAC)

Plan Review and Building Inspection Services

4LEAF was awarded the plan check and field inspections scope of work for a wide range of projects at SLAC including office buildings, dry and wet laboratories, soft and hard x-ray experimental hutches, optical laser laboratories, and cryogenic industrial buildings including the associated process piping.

SLAC Overview

Started in 1962, SLAC is one of 17 Department of Energy (DOE) national laboratories as part of its Office of Science. SLAC is a multi-purpose laboratory operated by Stanford University for the DOE. As a federal leasehold site, SLAC is its own jurisdiction and has its own Building Inspection Office (BIO) which operates as a building department, fire marshal office, and public works department.

Scope of Services

4LEAF is providing a group of California registered Professional Engineers (Civil & Structural), ICC Certified Building Code Officials, ICC Plans Examiners, and ICC Inspectors to perform the required services. 4LEAF's scope of work for SLAC includes:

- Providing an On-Site Building Official to be an embedded member of the SLAC Building Inspection Office (BIO) team, performing plan reviews, attending meetings, and other duties.
- Providing remote civil and structural engineers to perform plan reviews as well as being available to meet with key personnel via phone, online meetings, or on-site when needed.
- Providing short notice plan checks on an as-needed basis, with a 24-hour turnaround time on certain projects with limited scope and RFI's.
- Performing back-checks to verify plan check comments have been resolved (usually within 48 hours).
- Entering comments and responses into SLAC's web-based Plan Review System (PRS).
- Providing structural and non-structural (building, civil, geotechnical, disabled access, fire and life safety, plumbing, mechanical, electrical, public works, and earthworks) subject matter experts.
- Providing field inspections as requested by SLAC current staff.
- Using SLAC inspection records, Microsoft Word, Excel, or other database software and including photographs as necessary to aid in the understanding of technical issues and deficiencies.
- Attending pre-construction meetings and weekly project meetings as requested.
- Preparing Certificates of Occupancy and other Code-related documentation and answering inquiries and phone calls as necessary.

City of Cupertino

On-Call Building Inspection, Plan Review and Public Works Services

4LEAF performs on-call building inspection and plan review services for the City of Cupertino. 4LEAF has completed numerous residential and commercial plan reviews on behalf of the City.

Apple Park

4LEAF provided the Building, Fire, and Public Works Department Inspection services on the largest private commercial construction project in the Country. 4LEAF was tasked with mobilizing a **project team of more than 20** Building, Fire, and Public Works Inspectors, Project Administration Staff, and Engineering team for this more than **$8 Billion project**. 4LEAF was responsible for coordinating the inspections in relation to the City's permits and ultimately packaging milestones of the project for occupancy approval from the City's Chief Building Official.

- **Main Building –** The Main Building accommodates up to 12,000 employees and comprises approximately 2.8 million square feet.
- **Corporate Fitness Center –** Comprising approximately 100,000 square ft.
- **Corporate Auditorium –** Comprising approximately 120,000 square feet and will hold up to 1,000 people.
- **North and South Parking Structures –** Two above-grade parking structures of approximately 6,000 spaces.
- **Central Utility Plant –** Integrated parking structure and serves all buildings on the Main Building site.
- **Phase 2 Research and Development Buildings –** 600,000 square feet of office, research, and development and two separate above ground parking garages.

Plan Review Services

North and South Parking Structures – 4LEAF reviewed the above grade Parking Garages (2) for Apple Park. The 4LEAF team performed Structural, Architectural, Fire-Life-Safety, Mechanical, Electrical, and Plumbing. The garages included two – 3 story and 300,000 Sq. Ft. structures which included Photovoltaic Array on the rooftops. Both garages will be connected by bridges and spine ramp.

Public Works Mitigation Improvement Projects

4LEAF performed Resident Engineer (RE) and inspection services for numerous Public Works improvement projects being performed in the City associated with the construction of the Apple Campus 2 Project. Improvements included installing new sanitary and storm drain lines, modifying traffic signals, relocating existing gas and potable and recycled waterline, intersection improvements, curb and gutter improvements, and new AC paving. Sanitary sewer improvements included installing 12 in. to 27 in. diameter sanitary sewers at depths between 7 and 20 feet. The project was inspected per Caltrans specifications

County of Santa Cruz

Recovery Permit Center Development Services

4LEAF was entrusted to establish and run the recovery permit center for the County of Santa Cruz after the lighting fire. Our duties included creating an all-in-one permitting center that would expedite the permits in the affected area. This required 4LEAF to take over all permit activities for the Building, Planning, Public Works, Engineering, Fire, Geology, and Environmental Health Departments. The area consisted of thirteen hundred lots that all fell within the coastal zones and sensitive protection area.

Recovery Permit Center (RPC)

All permit pre-application plan review and inspection services were done through the RPC. The recovery permit center is completely staffed with 4LEAF employees, consisting of the following:

- 6 Community Development Technicians
- 4 Building Inspectors
- 2 Plans Examiners
- 1 Registered Environmental Health Specialist
- 1 Building Official
- 2 Senior Planners
- **1 Civil Engineer**
- 1 Deputy Director

BASIS OF CHARGES

Rates are inclusive of "tools of the trade" such as forms, telephones, and consumables.

- All invoicing will be submitted monthly.
- Staff Augmentation work (excluding plan review) is subject to 4-hour minimum charges unless stated otherwise. Services billed in 4-hour increments.
- Most plan reviews will be done in 10 business days or less and 5 business days or less for re-checks. This is not inclusive of holidays or the day of the pick-up of plans.
- Expedited reviews will be billed at 1.5x the plan review fee listed in the fee schedule. Return time will be within seven (7) days of receipt of the plans from the City.
- Plan review of deferred submittals & revisions will be billed at the hourly rates listed.
- All plan review services will be subject to a $262.00 minimum fee if percentage-based fee or 2-hour minimum charge if hourly rates apply.
- Larger complex plan reviews can be negotiated to achieve the best possible pricing.
- All plan review services will be subject to 2-hour minimum fee.
- All plan review services are billed on a percentage basis and include the initial review and 2 rechecks.
    - Plan reviews will be billed on an hourly basis only after the initial review and 2 rechecks unless otherwise agreed upon on a case-by-case basis.
    - Fire and Civil Reviews are billed on an hourly basis and are not included in our plan review percentage.
- 4LEAF assumes that these rates reflect the FY2025-2026 contract period. There will be a 3% escalation for each subsequent Fiscal Year. (i.e. FY2026-2027, FY2027-2028, and so forth)
- Overtime and Premium time will be charged as follows:
    - *Regular time (work begun after 5AM or before 4PM)* — *1 x hourly rate*
    - *Nighttime (work begun after 4PM or before 5AM)* — *1.125 x hourly rate*
    - *Overtime (over 8-hour M-F or Saturdays)* — *1.5 x hourly rate*
    - *Overtime (over 8 hours Sat or 1st 8-hour Sun)* — *2 x hourly rate*
    - *Overtime (over 8 hours Sun or Holidays)* — *3 x hourly rate*
- Overtime will only be billed with prior authorization of the Director or other designated City personnel.
- All work with less than 8 hours rest between shifts will be charged the appropriate overtime rate.
- Mileage driven during the course of Inspections will be charged at cost plus 20%.
- Payment due on receipt. All payments over 30 days will be assessed a 1.5% interest charge.
- Client shall pay attorneys' fees, or other costs incurred in collecting delinquent amounts.
- Client agrees that 4LEAF's liability will be limited to the value of services provided.
- In accordance with California's Meal Break and Rest Break Law requirements, Client will be billed one (1) additional hour per day at the regular rate for each missed meal or rest break due to Client-directed tasks or requirements. Client should allow 4LEAF's non-exempt, hourly employees the opportunity to take their entitled rest and meal breaks during each work shift.

Docusign Envelope ID: 6F62A211-3DA7-4E6C-B6CA-486A5ED1A6FD

BASIS OF CHARGES – PREVAILING WAGE

- Rates shown assume the projects will require compliance with California Prevailing Wage rate requirements and assumes the Client will be filing a PWC-100 Form to the California Department of Industrial Relations (DIR) for the projects.
- Rates for prevailing wage categories are subject to annual escalations in accordance with the bi-annual wage determinations from the California DIR.
- Per the new requirements being enforced under SB 854 and because it is assumed that a PWC-100 Form will be filed by the Client to the CA DIR for each project, 4LEAF is required to notify an authorized Apprenticeship Committee through submittal of a DAS-140 form. We are then required to make an official request to an authorized Apprenticeship Committee for an apprentice by submitting a DAS-142 form. We are not assured the apprenticeship committee will be able to provide a suitable / qualified apprentice for the project. Per the apprenticeship requirements, the hours worked by the apprentice must be in a ratio of 1:5 for apprentice to journeyman hours. 4LEAF will not know the labor classification of the Public Works Apprentice until an Apprentice is dispatched to the site; therefore, the rates for the five Periods listed under the California DIR's Wage determination for Building Construction Inspector were used to determine the range of hourly rates for Public Works Inspector Apprentice.
- Pre-approved Overtime and Premium hours for labor categories subject to Prevailing Wage requirements will be charged per the following:
  - *- Nighttime (work begun after 4PM or before 5AM) 1.125 x hourly rate*
  - *- Overtime (over 8 hour M-F or Saturdays) 1.35 x hourly rate*
  - *- Overtime (over 8 hours Sat or 1st 8 hour Sun) 1.85 x hourly rate*
  - *- Overtime (over 8 hours Sun or Holidays) 2.35 x hourly rate*
- All invoicing will be submitted monthly.
- All work with less than 8 hours rest between shifts will be charged the appropriate overtime rate.
- Project-related mileage for inspections will be billed at the allowable IRS Rate plus an additional 20%.
- Payment due on receipt. All payments over 30 days will be assessed a 1.5% interest charge.
- Client shall pay attorneys' fees, or other costs incurred in collecting delinquent amounts.
- Client agrees that 4LEAF's liability will be limited to the value of services provided.
- In accordance with California's Meal Break and Rest Break Law requirements, Client will be billed one (1) additional hour per day at the regular rate for each missed meal or rest break due to Client-directed tasks or requirements. Client should allow 4LEAF's non-exempt, hourly employees the opportunity to take their entitled rest and meal breaks during each work shift.

26-030

PROFESSIONAL SERVICES MASTER AGREEMENT

(DEVELOPMENT ENGINEERING PROFESSIONAL SERVICE)

BETWEEN

CITY OF BENICIA AND

CSG Consultants, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and CSG Consultants, Inc., a California Corporation located at 550 Pilgrim Drive, Foster City, California 94404, licensed to do business in California, ("CONTRACTOR") relating to CSG Master Service Agreement: On-Call Development Engineering - Professional Services (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Grading and Drainage Plans

B. Subdivision and Site Improvement Plans

C. Erosion Control Plans

D. Traffic Analysis

E. Feasibility Studies for Water, Sewer, and Drainage

F. Hydrology and Hydraulic reports

G. Soils and Geological Reports

H. Storm Water Control Plans

I. Storm Drainage

J. Tentative and Final Subdivision or Parcel Map

K. Lot Line Adjustments

L. Easement and Right of Way Documents

M. Construction Cost Estimates

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less

than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement

Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the

expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with

the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the

remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Cyrus Kianpour

President

cyrus@csgengr.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between CSG Consultants, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested.

Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this

Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may

purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

CSG CONSULTANTS

Employee-Owned

1 | VENDOR QUESTIONNAIRE

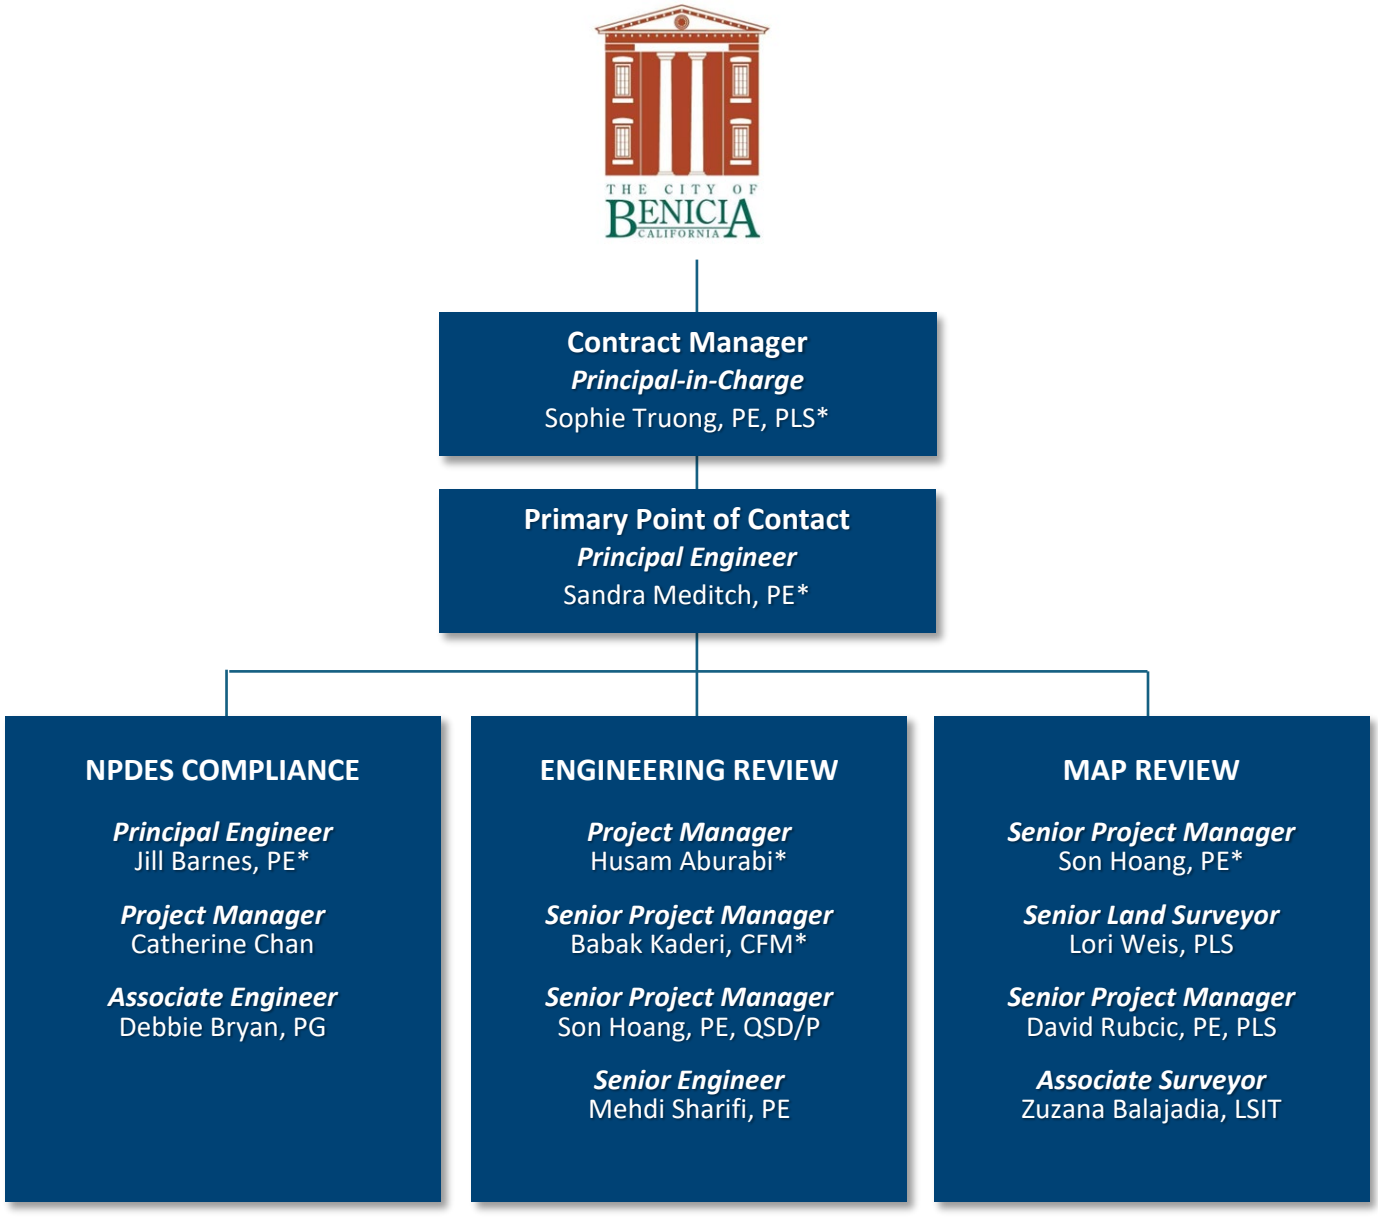
1.1 PROJECT ORGANIZATION

1.1.1 Subcontractors

CSG Consultants does not require any subcontractors for this contract.

1.1.2 Project Organizational Chart

The following is an organizational chart with the name and title of our proposed team members who will be assigned to the project. Key personnel are indicated with an asterisk (*).



1.1.3 Description of Responsibilities

Sophie Truong, PE, PLS – Contract Manager

Ms. Truong is currently overseeing CSG's Land Development Department and serves as the contract City Surveyor for several agencies in the Bay Area. She also serves as the contract manager for multiple agency clients and provides general QA/QC on various projects. Ms. Truong currently serves as Contract Manager for the Cities of Belmont, Livermore, Pacifica, Daly City, Campbell, Saratoga, and East Palo Alto.

Ms. Truong is a seasoned civil engineer with over 25 years of experience in municipal engineering, with a focus on land development review, including entitlement applications for various project types and sizes. Prior to joining CSG in 2008, Sophie designed and managed large hillside and coastal subdivisions and urban infill projects in the private sector, throughout California.

Sandra Meditch, PE – Land Development Review Project Manager & Primary Point of Contact

Ms. Meditch is a seasoned civil engineer with over 30 years of professional experience. Ms. Meditch performs engineering plan review and project management for various clients throughout California, including the Cities/Towns of Livermore, Los Gatos, Mountain View, San Leandro, San Bruno, Rohnert Park, Marina, Moraga, Millbrae, La Habra, and Inglewood. Sandra is very familiar with all types of development or redevelopment projects from small residential, single-family homes to large residential subdivisions or commercial projects. Her experience also includes project design and staff oversight, coordination of communication between clients, sub-consultants and public agencies; preparation and review of specifications, cost estimates, and various types of agreements. Sandra is also adept at construction administration.

Babak Kaderi, CFM – Land Development Review Engineer (Engineering & Flood Plain Lead)

Mr. Kaderi has over 30 years of civil engineering, land development, and planning and development project management experience. His land development experience includes, but is not limited to plan checking, code compliance, flood plain reviews, and understanding of regional public agency regulations and requirements. For CSG, Mr. Kaderi has provided development plan review for the Cities of Mountain View, Belmont, and Dublin, as well as onsite review for the Cities of San Leandro, Hayward, Gilroy, and Monte Sereno. Prior to joining CSG, Mr. Kaderi served as an Assistant Civil Engineer to the City of Milpitas for 25 years. For City of Milpitas, Mr. Kaderi provided plan check of developments and served as the floodplain manager.

Jill Barnes, PE – Stormwater Group Manager (Engineering QA/QC & Stormwater Review Lead)

Ms. Barnes is a senior executive professional with more than 30 years of experience in public works, environmental compliance, master plan development and civil construction. She is highly equipped in directing design, construction and maintenance of road, sewer and storm drain utilities, building and park facilities, vehicle, and equipment maintenance. Additionally, she possesses expertise in stormwater compliance, from post-construction treatment and detention requirements to inspections and annual reporting requirements. Ms. Barnes is a strategic leader with a proven track record of building and leading effective cross-functional teams. She is able to manage and coordinate all construction activities and ensure that all project deliverables are achieved with regards to safety, quality, program, and cost.

Husam Aburabi – Land Development Review Engineer (Engineering Lead)

Mr. Aburabi has experience performing plan check reviews for public agencies, verifying compliance with applicable standards and providing clear, actionable feedback to designers and applicants. He is also knowledgeable in SB 330 requirements, including application completeness, zoning consistency, and statutory review timelines, and has supported public agencies in evaluating development proposals

under SB 330 guidelines. Additionally, his work includes coordinating and securing project approvals from agencies such as Caltrans, Valley Transportation Authority, and various utility providers.

Son Hoang, PE – Land Development Review Engineer (Engineering & Mapping Lead)
Hoang has performed a variety of map and plan check reviews ranging from minor and major subdivision maps to grading and drainage plans. He has reviewed and prepared plats and legal descriptions for lot line adjustments, lot mergers, easement dedications, and right-of-way dedications/vacations for numerous jurisdictions within San Mateo County, Santa Clara County, and Alameda County. Mr. Hoang has also acted as survey party chief, under the supervision of Ms. Truong, for a variety of topographic surveys performed in conjunction with public improvement projects, using local street monuments and benchmarks with assumed vertical datums, or tied to the California Coordinate System and North American Vertical Datum

Mehdi Sharifi, PE, LEED AP – Land Development Engineer (Engineering Lead)
Mr. Sharifi has over 35 years of civil engineering experience. He has provided land development review on a wide range of projects ranging from single family residential homes to large subdivisions and commercial improvements. Prior to joining CSG, Mr. Sharifi worked with other consulting engineering firms gaining experience in the design and production aspects of improvement plans from schematic design to design development to construction documents and construction support. He has provided land development services for the Cities/Towns of San Mateo, Woodside, Gilroy, Mountain View, Inglewood, and Dublin.

1.1.4 Team Members

Sophie Truong, PE, PLS – Contract Manager
Sandra Meditch, PE –Project Manager & Primary Point of Contact
Babak Kaderi, CFM –Engineering & Flood Plain Lead
Jill Barnes, PE –Engineering QA/QC & Stormwater Review Lead
Husam Aburabi –Engineering Lead
Son Hoang, PE –Engineering & Mapping Lead
Mehdi Sharifi, PE, LEED AP –Engineering Lead

1.2 APPROACH

1.2.1 Scope of Work

Project Management Approach

CSG will be responsible for the management of development projects, including meeting attendance, preparation of minutes, reports and other project documents, performing plan checking, preparing and reviewing specifications and contract documents, coordination with project stakeholders and outside agencies.

Our team will attend and conduct project meetings and site reviews. This includes preparing meeting agendas, documenting meeting summaries, and capturing minutes to record decisions, actions, and responsibilities. Effective meeting management will ensure productive collaboration, timely decision-making, and efficient progress toward project objectives.

CSG will be responsible for preparing project correspondence, emails, and status reports. This includes communicating project updates, milestones, and any issues or risks to the relevant stakeholders. The team will maintain clear, consistent communication to ensure everyone involved is informed and aligned throughout the project. We will provide materials in appropriate and accepted electronic formats which may include text, spreadsheets, and PDF files.

The team will review project submittals and coordinate the review process with City staff. They will consolidate review comments from various stakeholders and provide them to the design consultant for consideration. This collaborative approach ensures that all relevant input is incorporated into the project design and implementation.

We will ensure compliance with relevant regulations, including California Environmental Quality Act (CEQA) requirements, and coordinate with other agencies to obtain necessary approvals. This includes preparing permit applications, facilitating the review process, and addressing any concerns or conditions associated with the permits.

Land Development Plan Review Approach

Plan check/development review form a large part of CSG's services. CSG has been providing plan check, exclusively to local municipalities, since the firm's inception in 1991. Our success in maintaining ongoing relationships with our clients in a highly competitive environment is due to our ability to understand needs and priorities and partner with them in achieving their goals. We understand that our clientele includes not just public agencies but also the development community seeking to process applications through those agencies. We also understand that many development applications are important to public agencies due to the economic and quality of life benefits that those projects bring to the communities.

Drawing on the combined experience and talent of our staff, we have found the following practices to be helpful in approaching development review and map review:

- Active participation by engineering staff and consultants during the entitlement process is critical. Design and other issues need to be discussed at this stage, with the appropriate staff from the City and/or other agencies included in the discussion. Engineering staff must spend time preparing clear and complete conditions of approval that outline the developer's obligations and address issues. Conditions of approval that are incomplete or vague simply defer problems to the plan review stage, resulting in delay in issuance of permits and frustration on the part of the developer, consultants, or staff who have to resolve the issues.
- Communication and alignment of expectations between the agency staff or consultants and the applicant is needed, starting with the entitlement pre-application phase and lasting through permitting. This can start with an understanding of the applicant's desired schedule for project completion, and then working backwards to set the timing for the various steps in the review process (entitlement, plan review, permitting). The City's consultant needs to be driven by results and not tasks. The goal is not, as some plan checkers practice, to put redlines on plans. The consultant must be proactive in presenting options to the City's staff and be willing to make recommendations on which options may work.
- The consultant needs to form a working relationship with the other parties. The applicant team should see the consultant as an asset and a partner, someone who is motivated to move the project to completion, as opposed to someone who has no interest in moving the project along. The consultant needs to *listen* – to staff, to the applicant and its team, and to other stakeholders. Hearing and understanding what the other party wants is the first step to developing a resolution.

Time 'And Costs' Are of The Essence

We understand that private development projects are often rush projects that require immediate attention and meticulous follow-through. Our strategy for staying on track, expediting reviews when possible, and maintaining quality while not noticeably increasing the level of effort (and costs) is as follows:

- Keep the same map reviewer on a project whenever possible, thereby eliminating any additional and extraneous effort by other staff members
- Utilize to the maximum extent feasible the functionalities of the digital map review software used (Bluebeam), such as the 'document compare' feature to easily overlay digital submittals near completion and pinpoint any new changes, and the 'Toolbox' feature to generate duplicate comments on multiple sheets
- Daily tracking by the Project Manager of submittals due dates and coordination with staff
- Avoiding unnecessary resubmittals or delayed resubmittals by scheduling virtual meetings or conference calls to discuss complicated comments or highly deficient work products (with City's consent)

Digital Plan Review

CSG has been performing digital plan reviews with various municipalities including the Cities of Mountain View, Rohnert Park, Belmont, San Mateo, Soledad, Pacifica, and San Carlos. Reviews have been performed utilizing **Bluebeam and GIS**. Virtual communications with clients have taken place via Zoom and Microsoft Teams platforms.

Staffing

- All plan reviews will be conducted by a State of California licensed civil engineer or under the supervision of a licensed civil engineer.
- Each plan review is assigned to a plan reviewer with oversight of the project manager. The assigned design plan reviewer will be committed to the project and will furnish all subsequent reviews for the project. It is the goal of CSG to provide, where practical, a cradle-to-grave approach for project review, where a review team is assigned to the project from entitlement through plan review and construction to closeout and acceptance.
- Provide specialized qualified licensed engineers to assist in any structural, soil and geotechnical reviews, for any of the assigned projects.
- Map checking will be overseen by licensed professional land surveyors or by professional engineers licensed to practice land surveying in the State of California.
- The review team will be available for applicant inquiries or conferences during normal business hours, Monday through Friday, from 8:00 AM through 5:00 PM. Web conferences, fax, and conference calls are optional forms of communications between Consultant and City staff.

Land Development Plan Review Services

New Development Entitlements

- Review tentative maps, tentative parcel maps, architectural review, and other entitlement applications. Coordinate review with other City staff and/or outside agencies as needed.
- Review associated feasibility studies for water, sewer, and drainage facilities.
- Attend follow-up meetings with Planning staff, the applicant, or others as needed to resolve issues regarding the proposal. Review subsequent submittals of the proposal.
- Assist the City with development of conditions of approval, development agreements, and other requirements associated with development applications. Assist the City in negotiating with developers regarding terms of agreements or conditions (additional tasks associated with the entitlement process are described above).

Plan Review

Review parcel maps, final maps, improvement plans, grading and drainage plans, traffic and signalization, signing and striping plans, traffic control plans, joint trench and street lighting plans, erosion control and stormwater control plans. Review includes evaluation of required records, studies

(hydrology and hydraulic reports and modeling, sewer calculations), and additional materials submitted by the design professional. Confirm that plans conform to the City's standard design criteria, conditions of approval, and infrastructure or other master plans.

- Each plan review will be accompanied by a letter summarizing the red-line comments addressed to the City's staff. A complete, red-lined set of drawings and any reports will be returned to the City. At the City's discretion, the comment summary letter and red-lined plan sheets can be scanned and submitted electronically to the design consultant to expedite the review process.
- CSG is available to meet with the applicant/representative and the City's staff to review comments or to delineate the standards which are not being met, to facilitate timely completion of the review and meeting the maximum goal of two plan checks. CSG will accept and review subsequent submittals electronically, when feasible, to expedite the review process.
- Soils reports will be evaluated, and confirmation of recommendations will be included on the plans. Boundary conditions will be evaluated to maintain continuity with surrounding properties and maintain existing drainage patterns. Construction erosion control and post-construction water quality control will be evaluated for compliance with the storm water quality management permit in effect for the City.
- Assist the City with development of agreements, and other requirements associated with development applications. Additionally, assist the City in negotiating with developers regarding terms of agreements.
- Confirm that the developer has obtained necessary permits or approvals from other public agencies as needed, and that plans conform to the City's NPDES Municipal Regional Permit requirements for storm water treatment and detention.
- Review and recommend approval of engineering bond estimates and subdivision guarantees. Assist the staff in preparing subdivision improvement agreements, other agreements (including stormwater treatment measures and landscape maintenance agreements), and staff reports.
- Meet with developers, consultants, and other agencies on behalf of staff, as requested.

Permitting and Construction

- Assist in preparation of construction permits.
- Provide engineering support during construction.
- Assist with project closeout and acceptance of improvements.

Review of Storm Water Pollution Prevention Plans (SWPPP) and Post Construction Best Management Practices (BMPs)

CSG will review all plans and documents provided to demonstrate adequate and seasonally appropriate erosion and sediment controls in line with local requirements (i.e. grading ordinance). All stormwater protection BMPs shall be reviewed for site specificity and phase appropriateness, including erosion controls, run-on and run-off controls, sediment controls, active treatment systems, site management (aka housekeeping measures) and non-stormwater management. In addition, CSG will:

- Review Stormwater Pollution Management Plans and associated calculations for conformance to the Municipal Regional Permit (MRP3.0) Provision C.3.
- Optional Review of a SWPPP under the NPDES Construction General Permit will include confirmation of filing Notice of Intent (NOI) and WDID, notation of an Eligibility for Erosivity Waiver (for smaller projects and construction timeframe), notation of Risk Level determination (RL1-RL3) based on location and potential threat to water quality, and notation of the proposed

schedule for required non-stormwater monitoring. Review of these selected topics does not constitute acceptance, approval, or recommendation of approval on behalf of or to the State.

City Surveyor & Map Review Services

The traditional role of the City Surveyor is to ensure that maps, legal descriptions, and plans prepared for private developments or public projects are ***technically correct***. However, more often than not, the City Surveyor also routinely ensures that the documents are comprehensive of City requirements and completed in accordance with the California Subdivision Map Act and local ordinances and are in substantial conformance with the approved entitlement application (traditionally the functions of the City Engineer). The City Surveyor's functions can vary, but typically include evaluating the documents submitted by applicants for completeness, reviewing and providing written comments and 'redlines', and signing final documents/certificates or mylar prints of subdivision maps once approved. When complicated or unusual circumstances arise, the City Surveyor often meets with and advises the City Engineer, the City Attorney, and/or private applicants and their surveyor. On rare occasions, the City Surveyor may also be directed to set street monuments not set by private development surveyors or accidentally removed during public construction projects.

Detailed Scope of Work

CSG will review Final/Tract and Parcel Maps, Amending Maps, Certificates of Correction, Street Dedications and Public Easement Grants (Plats/Legal Descriptions), Lot Line Adjustments and Lot Mergers (Plats/Legal descriptions, and complete certificates), or other documents for compliance and conformance with the following:

- Approved Tentative Map (for subdivisions)
- Conditions of Approval
- The California Subdivision Map Act
- The Professional Land Surveyor's Act
- Industry Standards and Local Practice
- Title information for the property, including existing easements and any other relevant land encumbrances, based on information contained in a Preliminary Title Report (PTR) and record documents to be furnished by the applicant (a hyperlinked PTR typically works best)
- Survey and miscellaneous information presented on parent record maps and deeds of the subject and adjacent properties
- The Project Improvement Plans and other documents, when conformance review is included in our scope of work

In conjunction with each review, CSG performs the following:

- Review of closure calculations
- Review, seal and sign final mylar copies of subdivision maps or sign various certificates for technical correctness (as Acting City Surveyor or Technical Reviewer)
- Preparation of Staff Report(s) for City approval, if required
- Preparation of Lot Line Adjustment and Lot Merger certificates
- Preparation of Certificates of Compliance (including review of the Chain of Title for the parcel in question, and preparation of a technical memorandum describing our findings

1.2.2 Level of Effort Letter

Submitted as hourly rate sheet per **Question and Answer** response ***2. Pricing Terms*** issued May 7.

1.6 PRIOR LITIGATION / CLAIMS

1.6.1 Litigation Claims

Stephen Estrella v. City of South San Francisco Code Enforcement, a Public Entity, et al. (Case #20-CIV-05257). A CSG employee was driving his personal vehicle and allegedly drove over Stephen Estrella's foot while the CSG employee was working for the City of South San Francisco. A claim was made against

the CSG employee's auto insurance, and damages were paid. On November 24, 2020, a lawsuit was filed against the City of South San Francisco and CSG for the same incident. The case was settled for $300,000 and closed on February 23, 2024.

Tilafaiga Taape, Jr. v. Rosemary Hanson and CSG Consultants. The property owner at 34 Visitacion Avenue in Brisbane was named along with CSG for a railing that failed on private property. CSG provides services to the City of Brisbane for building plan review and inspection. CSG was released from the case since it was not involved in the condition of the existing railing on the private property. The CSG dismissal forms for this case were completed on March 2, 2021.

Interstate Paving V City of Belmont: The contractor Interstate Paving and Grading filed claim against the City relating to the quantity of base rock on the project where CSG had prepared plans and specifications. This case is not settled and insurance company is working with the City Attorney to resolve this through mediation.

Lucas V City of Elk Grove: A claim was made against city of Elk Grove relating to removal of a wall that was considered a public hazard. There has not been any litigation and this is a claim only. Our attorney from our insurance company is working with the City Attorney to resolve this claim.

1.6.2 Failed Project Completions

CSG has never failed to complete any work awarded.

1.7 FINANCIAL AND RELATED INFORMATION

1.7.1 Audited and/or Reviewed Financial Statements

Respondent is required to demonstrate that it is financially qualified to undertake the Services defined by this RFP. If selected, a proposing firm shall supply, upon request, reviewed financial statements for the last 3 fiscal years if requested by the City.

☒ **CONFIRMED**

1.7.2 Letter from Insurance Broker

Respondent must confirm they're willing and able, upon request, to provide a letter from its insurance broker attesting to the willingness to provide the required insurance coverages described in the Professional Services Agreement.

☒ **CONFIRMED**

1.8 DISCRETIONARY SUPPLEMENTAL MATERIALS

1.8.1 Discretionary Supplemental Materials

NONE

1.9 AGREEMENT REQUIREMENTS

1.9.1 Agreement Requirements

Vendor hereby agrees to sign Professional Services Agreement substantially similar to the form of Professional Services Agreement attached to the RFP, or has attached proposed modifications to the form of Professional Services Agreement as an upload to this confirmation of Acceptance.*

☒ **CONFIRMED**

1.9.2 Proposed Changes to Professional Services Agreement

If Vendor has proposed changes to the Professional Services Agreement, you must attach them to this upload, using strikeout or underline format.

NO CHANGES PROPOSED.

1.9.3 MyCOI Registration for Insurance Tracking

Vendor hereby acknowledges that if they are selected, they will register with the City's digital insurance tracking platform, MyCOI, and are responsible for ensuring their insurance documentation is correctly uploaded to the system, whether by the Vendor or its insurance agent. Registration invite will be sent during agreement approval stage.

☒ **CONFIRMED**

CSG Engineering Services Fee Schedule

Name: Cyrus Kianpour

Signature:

CSG Consultants' fee schedule for proposed services is provided below.

PERSONNEL / ROLE	HOURLY RATE
Administrative Assistant	$115
Engineering Intern	$145
Assistant Engineer	$180
Associate Engineer	$220
Structural Engineer	$270
Associate Surveyor	$210
Senior Engineer	$245
Senior Land Surveyor	$245
Senior Structural Engineer	$295
Principal Engineer	$295
Senior Principal Engineer	$315
Two-Person Survey Crew	$440
Assistant Project Manager	$180
Project Manager	$240
Senior Project Manager	$260
Office Engineer	$180
Construction Inspector	$190
Senior Construction Inspector	$210
Assistant Resident Engineer	$210
Resident Engineer / Construction Manager	$265
Structural Representative	$265
Senior Construction Manager	$315

TERMS

- *All hourly rates include overhead costs including but not limited to salaries, benefits, workers' compensation insurance, local travel, and miscellaneous office expenses.*
- *Overtime services and services provided outside of normal business hours will be billed at 1.5x the applicable hourly rate.*
- *On July 1 of each year following the contract start year, CSG will initiate an hourly rate increase based on change in CPI for the applicable region.*
- *CSG will mail/email an invoice every month for services rendered during the previous month. Unless otherwise agreed, payment terms are 30 days from receipt of invoice.*
- *This fee proposal is valid for a period of 120 days from date of submittal.*

NOTE:
Notary services for signing of certificates and shipping of signed original documents to City offices are included in the hourly rates listed above.
Reimbursable expenses are not anticipated for this contract.
Should reimbursable expenses (e.g. Procurement of a Preliminary Title Report) be requested, a 5% markup will be applied to the expense.

Exhibit D

PROPOSAL AUTHORIZATION

NAME OF RESPONDENT CSG Consultants, Inc.

1. The above-named Respondent is a Respondent to the Request for Qualifications / Request for Proposals of the City of Benicia for professional services to prepare On-Call Development Engineering Services and possesses the legal authority to submit this Proposal.

2. The undersigned is authorized to conduct all negotiations for and legally bind the Respondent in all matters relating to this Proposal submittal.

3. The undersigned has reviewed, understands, is able to comply with and agrees to be bound by the General Conditions Governing the RFP described in Section 7 of the RFP.

4. The undersigned grants the City a right to conduct reference checks and reasonable investigation of all information provided by Respondent.

5. The undersigned certifies that this Proposal is irrevocable until 120 days after its submission date.

Sophie **Truong** PE, PLS

Contract Manager

LICENSES & CERTIFICATIONS

Professional Civil Engineer, State of California | 68110

Professional Land Surveyor, State of California | 8998

NASSCO PACP/MACP/LACP Certified | #U-1020-703010434

EDUCATION

Bachelor of Science, Civil Engineering
University of California Berkeley | Berkeley, CA

TRAINING

California Subdivision Map Act Annual Seminar

Bay Area Hydrology Model (BAHM)

Municipal Regional NPDES Permit Provision C.3 & C.6

Ms. Truong has 25 years of practice in Municipal Engineering. She has expertise in all facets of private land development projects, supporting municipalities from Project Entitlements through recommendations for issuance of building and construction permits. Her expertise is in reviewing projects for compliance with NPDES permit requirements, Local Ordinances, Project Conditions of Approval, CEQA mitigation measures, the State's Subdivision Map Act and Land Surveyor's Act, Coastal Development Permit conditions of approval, and any other permits or regulations enforced at the municipal, state, or federal level. Ms. Truong also reviews final and parcel maps, lot line adjustments and lot mergers, assists municipal staff with complex lot legality issues, and signs certificates and mylar prints as Acting or Contract City Surveyor.

As part of her management and development review functions, Ms. Truong manages incoming submittals and resources, ensures quality of deliverables, and regularly meets with project applicants and City staff to review difficult projects and discuss design issues. She has provided invaluable service and technical advice to our clients on hundreds of projects from small urban infill and rural developments to large, high-profile economic development projects throughout California. Ms. Truong's strengths lie in her ability to effectively manage teams and subconsultants, provide superior service, and deliver a thorough product on time and on budget. She takes pride in the on-going mentoring of staff and maintains a high level of productivity among her team members.

RELEVANT EXPERIENCE

Various Projects | City of Daly City, CA

Ms. Truong provided Engineering Plan review and NPDES post-construction treatment measure review, inspection, and Operation & Maintenance Agreement review services for multiple small to mid-size residential and commercial projects in the City of Daly City, including but limited to Dick's Sporting Goods within the Serramonte Shopping Center, the Annie St. 22-Lot Residential Subdivision, the Chinese Cemetery located at 4650 Callan Blvd, and the Garden Valley 50-Lot Subdivision.

The Dunes at Monterey Bay | City of Marina, CA

Ms. Truong reviewed all parcel and final maps associated with the residential and retail development of this 420-acre Specific Plan area located within in the former Fort Ord. This included phased parcel and final maps in commercially zoned areas, residential tract maps, and lot mergers. Ms. Truong met with City Planning and Engineering staff, and the Developer's team to review and discuss the City's specific plan requirements, the Disposition and Development Agreements, all existing easements, and access issues throughout the development.

General Vacation of Capitol Avenue & Lot Merger for the University Plaza Project | City of East Palo Alto, CA

Ms. Truong assisted the City Attorney and Engineering Staff with general procedures and document preparation, reviewed staff reports for Council Meetings and reviewed all survey and mapping work prepared by the project developer in conjunction with the vacation of a public street that was currently in use. She assisted the City with public notifications and notifications to public utilities for relocations of utilities located within the street to be vacated. She also reviewed all documents associated with the lot merger for the project.

Sandra **Meditch** PE

Primary Point of Contact / Principal Engineer

LICENSES & CERTIFICATIONS

Professional Civil Engineer
State of California | 52583

EDUCATION

Bachelor of Science, Civil Engineering
Washington State University
| Pullman, WA

Ms. Meditch is a seasoned civil engineer with over 30 years of professional experience. During her career, she has served as project engineer on a variety of projects from residential to commercial. Her experience includes project design and staff oversight, coordination of communication between clients, sub-consultants and public agencies; preparation of specifications, creation of cost estimates and construction administration.

For CSG, Ms. Meditch performs engineering plan review for various clients throughout California, including the City / Towns of San Leandro, Lathrop, Soledad, San Bruno, Rohnert Park, Marina, Moraga, Millbrae, Mountain View, La Habra, and Inglewood.

RELEVANT EXPERIENCE

Acting City Engineer | City of San Juan Bautista, CA

Ms. Meditch provided City Engineering services for the City of San Juan Bautista. Her primary duties involved overseeing the City's maintenance department, including operation of the City's water, sewer, roadway, and public facilities. Ms. Meditch also oversaw the construction of CIP projects, including managing and performing construction inspection, leading community outreach and public meetings, and coordinating project deadlines.

Interim City Engineer | Town of Los Altos Hills, CA

Ms. Meditch provided City Engineering services for the Town of Los Altos Hills. Her primary duties involved overseeing construction of a 9-lot subdivision, review of sewer main extensions, review of construction documents for install of fiber optic networks, preparation of construction documents for Town's pathway system, sewer and pavement Capital Improvement projects.

LAND DEVELOPMENT

Development Review| CSG Consultants, Inc.

Ms. Meditch performs engineering plan review for CSG clients throughout California. Her general duties include plan check review of major and minor developments (residential and commercial), including but not limited to grading plans, public improvement plans, utility improvement plans, and plot plans. Notable projects Ms. Meditch has review included, but are not limited to:

- **Skyline College Residential | City Of San Bruno, CA**
  Ms. Meditch led the plan review of two residential projects in proximity to Skyline College. One element included 40 single-family detached homes on a 6-acre site. The project included a private street with access to neighborhood parks. The second piece of the project involved a 30-unit apartment complete for college faculty and staff which sites on a 2-acre site.
- **North 40 Development | Town Of Los Gatos, CA**
  Ms. Meditch performed plan review for the North 40 Development. The 21 acre mixed use development includes 320 residential units and several commercial/retail sites. Plan review included offsite storm drain and sanitary sewer improvements, full reconstruction and widening of two major arterial streets, and modification to the State Highway 17 north bound on ramp at Lark Avenue.
- **Los Angeles (NFL) Stadium at Hollywood Park | City of Inglewood, CA**
  Ms. Meditch served as the primary plan reviewer for off-site public work improvements for the new NFL stadium. Reviews included grading, drainage, and roadways. Notable aspects of this project included review of the parking lots for the stadium and the 7-acre lake park.
- **Commercial Redevelopment | City of Watsonville, CA**
  Ms. Meditch served as the primary plan reviewer for redevelopment of a 3.5-acre site near the Watsonville Slough . Reviews included demolition, grading, drainage, utilities, storm water treatment measures and flood plain issues.

Jill Barnes PE

Principal Engineer

LICENSES & CERTIFICATIONS

Professional Engineer
State of California | C59975

EDUCATION

Bachelor of Science, Civil Engineering
California State Polytechnic University
Pomona, CA

Senior Executive professional with more than 28 years of experience in public works, environmental compliance, master plan development and civil construction. Licensed Professional Engineer in the State of California. Highly equipped in directing design, construction and maintenance of road, sewer and storm drain utilities, building and park facilities, vehicle, and equipment maintenance. Possess expertise in planning, designing and delivery of multi-disciplinary capital improvement program for municipal facilities, transportation, utility, and other infrastructure systems. Strategic leader with proven track record of building and leading effective cross-functional teams. Able to manage and coordinate all construction activities and ensure that all project deliverables are achieved with regards to safety, quality, program, and cost.

RELEVANT EXPERIENCE

Grand Hyatt Seaside Resort | Seaside, CA

Ms. Barnes provides technical support and review services for the mixed-use development of this 180-acre hotel, conference center and restaurant area located within the former Fort Ord. This included phased site improvement and lot mergers. Ms. Barnes met with City Engineering staff, and the Developer's team to review and discuss the City's requirements including stormwater management plan review, Stormwater Pollution Prevention Plan review, existing easements, access issues and general circulation, and backbone infrastructure requirements. She reviewed all engineering plans for development of the site.

Various Projects | City of Pacifica, CA

Ms. Barnes provides entitlement review, Engineering Plan review and NPDES post-construction treatment measure review, and O&M Agreement review services for multiple small to mid-size residential and commercial projects in the City of Pacifica including but limited to the Pacific View Project a 37 residential unit subdivision, the Pacifica Quarry Reclamation Project for the reclamation of an 87-acre property formerly the Rockaway Quarry and the Loma Vista Terrace for development of 3 residential units.

Private Consultant | California

Ms. Barnes served as a private consultant to public agencies managing streetscape and utility projects, assuring quality and contractual conditions of performance. She also prepared and maintained project schedules, review the project work progress, and production rates on a frequent basis. Ms. Barnes also developed grant proposals and procured funding and intra-agency partnerships to deliver public works projects with limited budgets.

Director of Public Works / City Engineer | City of Mill Valley, CA

For a 17 year period, Ms. Barnes served as the City Engineer and eventual Director of Public Works for the City.

As Director, her duties included directing the City's facility operations including wastewater treatment, sanitary sewers and storm drains, parks facilities, and road maintenance. She oversaw the department's budget, controls expenditures and approval of all requisitions, advised the City Manager on all public works activities.

As City Engineer, Ms. Barnes planned, organized, and evaluated capital improvement projects and other contract services for the City. She ensured the City was in compliance with applicable laws and regulations, such as, but not limited to the Clean Water Act and Americans with Disabilities Act. She also analyzed and reviewed commercial and residential development projects to ensure compliance with City policies, transportation codes, regulations, and laws. Advise and confer with staff and developers' representatives on acceptable design alternatives and solutions. Developing mitigating measures to impose as conditions of approval.

Husam **Aburabi,** EIT

Associate Engineer

LICENSES & CERTIFICATIONS

Engineer in Training | E104094

EDUCATION

Bachelors of Science, Civil Engineer
Israel Institute of Technology | Haifa, Israel

Mr. Aburabi has over 15 years of varying municipal and civil engineering experience. He has been involved in the design, specifications, and preparation of estimates of public works projects including all types of road and light rail improvements. His experience includes the preparation of typical sections, layouts and profiles, super-elevations, pavement delineation, sign plans, erosion control, and water pollution control plans. As a Project Engineer, Mr. Aburabi has been involved in the management and coordination of engineering work, responding to RFI's, and replying to inquiries and feedback of clients and subconsultants. Additionally, his experience includes coordinating and obtaining project approvals from various public agencies including Caltrans, Valley Transportation Authority, and utility companies.

Mr. Aburabi has extensive experience with the preparation of Storm Water Data Reports (SWDR), drainage reports, and the production of comprehensive roadway layout, profile, detail, and quantity take off plans. He is an expert in the use of AutoCad Civil 3D, Softdesk, Autodesk Land Desktop, Microstation, and the Hydraflow Storm Sewers program.

As an Assistant Project Manager, Mr. Aburabi has been involved in the management and coordination of engineering work, responding to RFI's, and replying to inquiries and feedback of clients and subconsultants. Additionally, his experience includes coordinating and obtaining permits and project approvals from various public agencies including Caltrans, Valley Transportation Authority, and utility companies.

RELEVANT EXPERIENCE

Staff Augmentation -Capital Improvement Program | City of East Palo Alto, CA
Mr. Aburabi assisted the City with project and construction management for various capital improvements throughout the City. Duties include but were not limited to:

- Prepared award package to Caltrans for the Bay Road Project Phase II & III from Clarke Ave to Cooley Landing Park. The award package included Caltrans forms EX15M, EX15A, EX15B EX15cC, EX15D, EX15H, EX15G, EX03, EX15l, etc;
- Compiled an RFP for the project New 12" Emergency Watermain on University Ave;
- Executed a contract between the City and consultant for construction management services;
- Prepared grant progress status report for California Department of Parks and Recreation (Prop 84);
- Request reimbursement grant from Midpeninsula Regional Open Space District (MROSD)

Staff Augmentation -Capital Improvement Program | City of Gilroy, CA
Mr. Aburabi prepared and delivered Request for Proposals (RFP), Request for Qualifications (RFQ's), and managed and coordinated engineering work with consultants and sub-consultants related to CIP projects. His duties included:

- Preparing grant applications
- Conducting DBE analysis
- Preparing project schedules
- Overseeing project budgets
- Coordinating with various City departments.

Babak **Kaderi** CFM

Senior Project Manager

LICENSES & CERTIFICATIONS

Certified Floodplain Manager

FEMA Elevation and Floodplain Management Training

South Bay Water Recycling Site Supervisor Certificate

Traffic Control Technician and Traffic Control Flagger Certificate of Training

Certificate of Completions for SF Bay RWQCD Construction Site Compliance for Water Quality Protection

Access Management Traffic Manual Certificate

Autodesk Certificate of Completion 2007

EDUCATION

MS, Industrial Technology
Indiana State University
| Terre Haute, IN

BS, Manufacturing Technology
Indiana State University
| Terre Haute, IN

Mr. Kaderi has over 30 years of civil engineering, land development, and planning and development project management experience. His land development experience includes, but is not limited to plan checking, code compliance, and understanding of regional public agency regulations and requirements.

For CSG, Mr. Kaderi has provided development plan review for the Cities of Mountain View, Belmont and Dublin, as well as onsite review for the City of Hayward, Gilroy, and Monte Sereno. Prior to joining CSG, Mr. Kaderi served as an Assistant Civil Engineer to the City of Milpitas for 25 years. For Milpitas, Mr. Kaderi provided plan check of developments and served as the floodplain manager.

RELEVANT EXPERIENCE

Land Development Staff Augmentation | City of Gilroy, CA

Mr. Kaderi performs onsite land development review for the City's development projects. His general duties included providing Conditions of Approval for Planning projects and plan check review of all major and minor private development (residential and commercial) including but not limited to grading plans, public improvement plans, utility improvement plans, tenant improvement plans, and plot plans. Review and process Tentative Maps, Parcel Maps, and Final Maps. Mr. Kaderi has been involved in processing improvement agreements, writing staff report for project approval, processing reimbursement agreements, and notice of completions. Review and approve major tract on-site and off-site improvements. Notable projects Mr. Kaderi was involved in includeded:

- **Hoey North Tract Development** –80Unit hillside single family residential development with Glen Loma Ranch development area.
- **Town Center Development at Glen Loma Ranch** – Mixed development of affordable apartment, single family residential, fire station and community park.
- **Miller Avenue realignment** – Realignment of major collector and related utilities to accommodate Glen Loma Ranch development area.
- **Heartland Garden Tract Development** – Process development of single-family residential tracts within Hecker Pass development area.
- **Heartland Triangle** - Process development of a single-family residential tract within Hecker Pass development area.
- **Harvest Park Tract Development** - Process development of single-family residential tracts within Hecker Pass development area.
- **Hecker Pass Trail and Bike Staging Park** – Process development of the Hecker Pass bike trail along HWY-152 frontage and a community bike staging park.
- **NISSAN Dealership** – Process development of commercial parcel for Nissan dealership entailing vacation of public street and merging of the parcels to accommodate development.

Land Development Staff Augmentation | City of Hayward, CA

Mr. Kaderi performed on-site plan review for reviewing and approving site permits, building permits, and encroachment permits. His general duties included providing plan check and review of all major and minor private developments (residential, commercial, and industrial) including but not limited to tentative maps, tract maps, parcel maps, legal descriptions, grading plans, public improvement plans, on-site improvement plans, tenant improvement plans, and plot plans. Review and provide Engineering Conditions of Approvals for all development projects.

Mr. Kaderi also reviewed and approved pre-construction Storm Water Pollution Prevention Plan (SWPPP) and post-construction Storm Water Control Plans (C.3).

Son Hoang PE, QSD/P

Senior Project Manager

LICENSES & CERTIFICATIONS

Professional Civil Engineer
State of California | 97167

Qualified SWPPP Developer/Practitioner (QSD/QSP) | State of California #83529

Caltrans Resident Engineer's Academy

NASSCO PACP Certified

EDUCATION

Bachelor of Science, Civil Engineering
San Jose State University | San Jose, CA

Mr. Hoang provides clients with experience in design and plan review. Since joining CSG, his primary focus has been in design. This work includes a variety of public works projects involving paving design, drainage systems, and topographic surveys. Along with the preparation of design plans for public works projects, he has also created complete PS&E packages including specifications and engineering cost estimates.

RELEVANT EXPERIENCE

2019 Pavement Rehab | City of San Ramon, CA

Millbrae Sewer Force Main Phase I | City of Millbrae, CA

Sewage Basin A & Various Location Sanitary Sewer Improvement Project| City of San Mateo, CA
As lead project engineer, Mr. Hoang was responsible for the condition assessment and design of improvement for the Basin A & Various Locations Sanitary Sewer Improvements Project. His responsibilities included evaluation of closed-circuit television (CCTV) inspection data for gravity sewer mains in Basin A and Basins C and D (Various Locations), prioritizing the repair of the defects noted in the videos and reports based on the urgency of repair, recommending repair extents and methods of repair, and preparing a condition assessment report summarizing the findings and recommendations. Based on recommendations presented in the report, Mr. Hoang was also responsible for the preparation of the accompanying PS&E package to address sanitary sewer main and manhole repairs.

Sewage Basin C – Sewer Repair Project| City of San Mateo, CA
Mr. Hoang assisted in the assessment and design of improvements for the City's Sewer Basin C project. The scope included an evaluation of closed circuit television (CCTV) inspection data for gravity sewer mains in Basin C, prioritizing the repair of the defects noted in the videos and reports based on the urgency of repair and available funding, recommending methods of repair, and preparing a condition assessment report documenting the findings and recommendations. Based on the findings and recommendations presented in the report, Son assisted in the preparation of the PS&E package to address the repairs.

Mission Road Bicycle and Pedestrian Improvement Project | Town of Colma, CA
Mr. Hoang served as the design engineer for the design of bicycle and pedestrian improvements in the Town of Colma. The project involves the planning, design and implementation of a number of safety related improvements for the pedestrians, bicyclists and vehicles along Mission Road between El Camino Real and Lawndale Boulevard. The anticipated improvements include addition of new sidewalk to provide continuous safe and accessible pedestrian route, extension of Class II bicycle lanes on northbound direction, construction of bulbouts and high visibility crosswalks with pedestrian flashing beacons, installation of energy efficient street lights, relocation and reconstruction of the existing curb, gutter, sidewalk and non-ADA compliant ramps and driveway approaches, and construction of landscape planters for drainage and stormwater treatment purposes.

2017 Measure J & L and Annual Pavement Rehabilitation | City of Orinda, CA
As the lead project engineer, Mr. Hoang was responsible for the design and preparation of the plans, specifications and estimates for the rehabilitation of multiple road segments along with storm drainage improvements at various locations through the City of Orinda. Additionally, Mr. Hoang was responsible for performing topographic surveys for ADA upgrades and for project coordination with the various utility companies and sub-consultants throughout the duration of the design period.

This scope of the project consisted of the rehabilitation of 62 Residential and Arterial roadways and approximately 10,000 linear feet of storm drain pipes at various locations throughout the City. Methods of roadway rehabilitation included full depth reclamation (FDR), slurry sealing, and mill and fill replacements.

PROFESSIONAL SERVICES MASTER AGREEMENT

(DEVELOPMENT ENGINEERING PROFESSIONAL SERVICES)

BETWEEN

CITY OF BENICIA AND

William R. Gray and Company, DBA Gray-Bowen-Scott

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and William R. Gray and Company, DBA Gray-Bowen-Scott, a California Corporation located at 1320 Mount Diablo Boulevard, Suite 206, Walnut Creek, California 94596, licensed to do business in California, ("CONTRACTOR") relating to Gray-Bowen-Scott Master Service Agreement On-Call Development Engineering - Professional Services (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Development Engineering Services may include, but not be limited to:

A. Shoreline Development Review

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

Docusign Envelope ID: 9F814A38-02C3-40B1-9DEA-A45B4B9280FE

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325.000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and

Docusign Envelope ID: 9F814A38-02C3-40B1-9DEA-A45B4B9280FE

maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken

in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

Docusign Envelope ID: 9F814A38-02C3-40B1-9DEA-A45B4B9280FE

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

Docusign Envelope ID: 9F814A38-02C3-40B1-9DEA-A45B4B9280FE

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

   1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

Docusign Envelope ID: 9F814A38-02C3-40B1-9DEA-A45B4B9280FE

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: 9F814A38-02C3-40B1-9DEA-A45B4B9280FE

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Leo Scott

Principal

leo@graybowenscott.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: 9F814A38-02C3-40B1-9DEA-A45B4B9280FE

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between William R. Gray and Company, DBA Gray-Bowen-Scott, hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional

Docusign Envelope ID: 9F814A38-02C3-40B1-9DEA-A45B4B9280FE

services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated

Docusign Envelope ID: 9F814A38-02C3-40B1-9DEA-A45B4B9280FE

herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

Docusign Envelope ID: 9F814A38-02C3-40B1-9DEA-A45B4B9280FE

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 9F814A38-02C3-40B1-9DEA-A45B4B9280FE

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

1.3. Description of responsibilities* ☐ Pass ☐ Fail

Brief description of responsibilities of key professional personnel, emphasizing experience directly related to responsibilities on this project.

1.3 DESCRIPTION OF RESPONSIBILITIES

Drawing on 24 years at the San Francisco Bay Conservation and Development Commission (BCDC), our project advisor, Brad McCrea, will be responsible for providing the City of Benicia and shoreline development teams with a clear understanding of BCDC's permitting requirements, goals, and objectives for waterfront activities within BCDC's jurisdiction. Brad has demonstrated experience helping to secure BCDC permits for waterfront development and restoration projects and has an insider's knowledge of the Commission's procedures and priorities.

Responsibilities include:

- **Navigating BCDC Permitting Processes:** Brad will provide strategic advice to the City staff and shoreline development teams regarding shoreline project proposals and the preparation of BCDC …

1.4. Team Members* ☐ Pass ☐ Fail

Indicate which team members will participate in each area of the work.

1.4 TEAM MEMBERS

Brad McCrea | Industry Advisor (BCDC)

For 24 years, Brad worked at the San Francisco Bay Conservation and Development Commission (BCDC), the last 12 years serving as the Commission's Regulatory Director and overseeing the work of five regulatory teams that processed hundreds of shoreline development projects annually. Prior to this, Brad was the BCDC's Senior Design Analyst, serving as a technical expert and helping development teams bring residential, commercial, industrial, transportation, and wetland restoration proposals into compliance with BCDC's laws and policies. Under his leadership, the Commission approved over a thousand development projects worth tens of billions of dollars. Before his tenure at BCDC, Brad gained valuable experience in the private sector. Now, …

2.1. Provide an approach for completing the scope of work. Discuss any unique ideas/concerns related to the project.* ☐ Pass ☐ Fail

2.1 APPROACH / SCOPE OF WORK

Our approach is built on a strong foundation of experience with BCDC regulations and permitting processes, combined with deep understanding of the needs of waterfront development projects along the San Francisco Bay shoreline, including the City of Benicia. Our primary goal is to share BCDC's policy and technical requirements with the City staff and project stakeholders in a simple-to-understand manner to ensure timely and successful project review.

We propose a collaborative approach that integrates regulatory compliance, technical expertise, and stakeholder engagement:

1. Regulatory Strategy Development

We will begin by reviewing the proposed project details and identifying all applicable regulatory requirements under BCDC, including:

- BCDC authority
- BCDC …

6.1 LITIGATION CLAIMS

Over the past five years, Gray-Bowen-Scott has not been the subject of any litigation or claims that have been filed or threatened. No lawsuits have been initiated against the firm, nor have any claims resulted in settlements.

Gray-Bowen-Scott has not initiated any litigation or formal claims during the past five years. No lawsuits or claims have been filed by the firm, nor have any such matters been settled.

6.2. Failed Project Completions* ☐ Pass ☐ Fail

Respondent must also provide a list of all projects for which Respondent failed to complete any work awarded, with explanation of circumstances.

6.2 FAILED PROJECT COMPLETIONS

Gray-Bowen-Scott has a consistent record of completing all awarded projects in accordance with contractual obligations. There have been no instances within the past five years in which the firm has failed to complete a project.

We are committed to maintaining the highest standards of professionalism and integrity in all of our engagements. We remain proactive in resolving any issues before they escalate to claims or litigation.

7. Financial and Related Information

1. Respondent is required to demonstrate that it is financially qualified to undertake the Services defined by this RFP. If selected, a proposing firm shall supply reviewed financial statements for the last 3 fiscal years if requested by the City.
2. Respondent must also provide a letter from its insurance broker attesting to the willingness to provide the required insurance coverages described in the Professional Services Agreement.

7.1. Audited and/or reviewed financial statements* ☐ Pass ☐ Fail

Respondent is required to demonstrate that it is financially qualified to undertake the Services defined by this RFP. If selected, a proposing firm shall supply, upon request, reviewed financial statements for the last 3 fiscal years if requested by the City.

☑ Confirmed

7.2. Letter from its insurance broker* ☐ Pass ☐ Fail

Respondent must confirm they're willing and able, upon request, to provide a letter from its insurance broker attesting to the willingness to provide the required insurance coverages described in the Professional Services Agreement.

☑ Confirmed

8. Discretionary Supplemental Materials

Respondent may include in its Proposal submittal, on a discretionary basis, other materials that it believes may improve the quality of its Proposal. Respondent must include an explanation of the relevancy of the other materials to the Proposal. Marketing brochures (if applicable to the specific Services for this Project) may be provided as a separate submittal.

8.1. Discretionary Supplemental Materials ☐ Pass ☐ Fail

Please upload all Supplemental Materials here

8.1_DISCRETIONARY_SUPPLEMENTAL_MATERIALS.pdf

9. Agreement Requirements

9.1. Vendor hereby agrees to sign Professional Services Agreement substantially similar to the form of Professional Services Agreement attached to the RFP, or has attached proposed modifications to the form of Professional Services Agreement as an upload to this confirmation of Acceptance.*

☑ Confirmed ☐ Pass ☐ Fail

9.2. Proposed Changes to Professional Services Agreement Terms ☐ Pass ☐ Fail

If Vendor has proposed changes to the Professional Services Agreement, you must attach them to this upload, using strikeout or underline format.

9.2_Proposed_Changes_to_Professional_Services_Agreement_Terms.pdf

9.3. MyCOI Registration for Insurance Tracking* ☐ Pass ☐ Fail

Vendor hereby acknowledges that if they are selected, they will register with the City's digital insurance tracking platform, MyCOI, and are responsible for ensuring their insurance documentation is correctly uploaded to the system, whether by the Vendor or its insurance agent. Registration invite will be sent during agreement approval stage.

☑ Confirmed

10. Forms

10.1. Proposal Authorization Form* ☐ Pass ☐ Fail

Please upload a signed Proposal Authorization form (Attachment D) here

GBS_PROPOSAL_AUTHORIZATION.pdf

10.2. Materials Upload ☐ Pass ☐ Fail

You may use this area to upload a copy of your full submission packet, or any other miscellaneous materials. However please note, you will still need to fully answer all other questions and upload requirements to be deemed a responsive bidder.

Brad McCrea

Brad served for 11 years as the Regulatory Director of the San Francisco Bay Conservation and Development Commission (BCDC), where his oversaw BCDC's five regulatory programs that processed hundreds of shoreline development projects every year. Prior to leading BCDC's Regulatory Division, Brad served for 12 years as the Commission's Senior Design Analyst, assisting development teams with bringing real estate, transportation, and wetland restoration proposals into conformance with BCDC's laws and policies. Under Brad's leadership, the Commission approved over a thousand development projects around the Bay worth tens of billions of dollars. Before his time at BCDC, Brad worked for 8 years in the private sector. At Gray-Bowen-Scott, Brad serves as an industry advisor, lending his insider's expertise of the regulatory process to projects along the San Francisco Bay shoreline.

RELEVANT EXPERIENCE

Gray-Bowen-Scott, Regulatory Advisor ▪ March 2023 – Present
Brad serves as an regulatory advisor, lending expertise to the development process for projects along the San Francisco Bay shoreline. Brad's experience with real estate developers, maritime leaders, transportation agencies, local governments, and open space planners benefits project teams navigating the Bay's complex regulatory landscape.

City of Alameda, Waterfront Project Advisor ▪ December 2022 – Present
Brad provides high-level policy advice and waterfront project expertise to various City departments, including Planning, Building & Transportation; Public Works; and Recreation & Parks.

San Francisco Bay Conservation and Development Commission, Director of Regulatory Programs ▪ December 2010 – December 2021
In this executive-level position, Brad oversaw the work of the five regulatory programs that processed hundreds of waterfront projects every year in and around the San Francisco Bay. These projects included design review and permitting of all major shoreline development projects, several new ferry terminals, engineering review of coastal structures, management of dredged sediment, permitting of all parks and trail projects, wetland restoration projects, and enforcement along hundreds of miles of Bay shoreline. During this 11-year period, BCDC processed more than 1,400 permit applications representing billions of dollars of development.

San Francisco Bay Conservation and Development Commission, Senior Development Design Analyst ▪ June 1998 – December 2010
Brad worked as BCDC's senior design analyst, personally evaluating more than a thousand development proposals and advising project teams on how to craft projects consistent with BCDC's policies. In 2009, Brad helped create and then managed the Rising Tides International Design Competition, an event that prompted teams from 18 nations to submit 130 design ideas that responded to sea level rise in San Francisco Bay.

Callander Assoc., Brady and Assoc., Patricia O'Brien, DCE, Freeman & Jewell, Arthur Vance Assoc., Urban Planner |Landscape Associate ▪ June 1990 – June 1998

Brad worked with several urban design and landscape architecture firms in the San Francisco Bay Area, focusing primarily on the creation of public spaces.

PROFESSIONAL SERVICES MASTER AGREEMENT

(DEVELOPMENT ENGINEERING PROFESSIONAL SERVICES)

BETWEEN

CITY OF BENICIA AND

TRB and Associates, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and TRB and Associates, Inc., a California Corporation located at 3180 Crow Canyon Place, Suite 216, San Ramon, California 94583, licensed to do business in California, ("CONTRACTOR") relating to TRB Master Service Agreement: On-Call Development Engineering - Professional Services (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Grading and Drainage Plans

B. Subdivision and Site Improvement Plans

C. Erosion Control Plans

D. Traffic Analysis

E. Feasibility Studies for Water, Sewer, and Drainage

F. Hydrology and Hydraulic reports

G. Soils and Geological Reports

H. Storm Water Control Plans

I. Storm Drainage

J. Tentative and Final Subdivision or Parcel Map

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

K. Lot Line Adjustments

L. Easement and Right of Way Documents

M. Construction Cost Estimates

N. Shoreline Development Review

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem

wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Todd Bailey

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

President

(925) 866-2633

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between TRB and Associates, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Rachel O'Shea, Deputy Community Development Director | Building Official
City of Benicia | 250 East L Street | Benicia, CA 94510

SUBJECT: TRB and Associates Proposal to Provide On-Call Development Engineering - Professional Services

Dear Ms. O'Shea:

TRB and Associates, Inc. (TRB) is pleased to submit this Proposal to Provide On Call Engineering Services for your consideration. We have reviewed the contents of the City's RFP and are prepared to provide the requested scope of services. We look forward to the opportunity to build on our over 18-year work partnership with the City of Benicia Building and Safety Division providing On-Call Building Safety and Engineering Professional Services.

For this engagement, **Todd Bailey, P.E., CASp, LEED AP, and MBA** will continue to serve as the **Project Manager** responsible for ensuring timely delivery of quality support services. To confirm, Todd will be managing all services provided to the City from TRB's San Ramon office. Of note, Todd has over 18 years of personal experience providing Building and Safety support services to the City of Benicia. The balance of our proposed key staff is identified within our proposal response.

TRB provides Plan Review, Inspection, Delegate Chief Building Official, and CASp services to municipal building and public works departments throughout California. Our corporation, which comprises over 75 team members, was established in 2006 and has been a growing business since its founding. We specialize and serve exclusively in the code compliance role. We would like to highlight the following about the company:

- Our firm is engaged to provide as-needed Building Department and related services to over 75 municipalities in Northern California: including the City of Benicia. As a result, our team is very familiar with the many region-specific considerations that need to be considered when evaluating code compliance including flood zone, seismic design, wind exposure, soil/liquefaction, wildland urban interface, and landslide criteria.
- As a value-added service, Paul Armstrong will be available to provide code training to City staff and all invited guests on the California Building Codes Standards if desired by the City.
- The staff of TRB includes licensed Civil, Structural, Mechanical, Fire Protection, and Electrical Engineers; Architects; and ICC, CASp, LEED®, and SAP certified individuals who have an average 25 years of experience in the architecture-engineering-construction industry.
- Our staff are active in industry organizations such as ICC, CALBO, CBOAC, ASCE, and SEAOC. Of note, TRB+'s roster includes three ICC Chapter Presidents and a CBOAC Board Member.
- Our firm was recognized as Industry Member of the Year by the County Building Officials Association of California (CBOAC) in 2019.
- We have a strong track record of producing quality results and meeting turnaround goals, and a track record to which our clients will attest.

Our firm looks forward to the opportunity to continue to assist the City of Benicia as a Building Safety and Engineering Services provider and is prepared to enter into an agreement with the City immediately. In the documentation provided, you will find background information on the company, our building & fire life safety service offerings, representative project experience, professional references, and a fee schedule for your review. To confirm, proposed prices shall be in effect for one hundred twenty (120) days from the date of Price Proposal submission. If you have questions or need further information, please do not hesitate to contact **Todd Bailey** by phone at **(925) 866-2633** or by email at tbailey@trbplus.com. To confirm, I am authorized to bind the firm contractually. We look forward to hearing your feedback soon.

Sincerely,

TRB + ASSOCIATES, INC.

Company Overview

TRB and Associates, Inc. (TRB) is a California-based building and fire life safety services Corporation with offices in San Ramon, Sacramento, Burlingame, Santa Clara, Long Beach, and Las Vegas. Our firm provides Plan Review, Inspection, Building Department Administration, Delegate Chief Building Official, Disabled Access (CASp) Consulting services to public agencies throughout California.

TRB was established in 2006 and has been a growing business since its founding. The firm is owned by its Principal-in-Charge Todd Bailey, PE, LEED AP, CASp, MBA who has 30 years of experience working in the Building Safety field in California. Our over 75 team members have an average of 25 years of experience in the Architecture-Engineering-Construction industry, encompassing building safety and related services across a full range of code disciplines.

Range of Services

- ✓ Building and Fire Plan Review
- ✓ Building and Fire Inspection
- ✓ Building Department Administration
- ✓ Code Enforcement Inspection
- ✓ Consulting Chief Building Official
- ✓ Disabled Access (CASp) Consulting
- ✓ Building Standards Codes Training
- ✓ Civil & Planning Plan Review and Inspection

Capacity and Resources

TRB has extensive resources and a large pool of licensed engineers and certified building safety experts, equipped to handle a wide range of building department needs. The majority of our services are delivered on an as-needed, ongoing basis. Having a large pool of resources allows us to accommodate existing and future workload effectively. To confirm, we do not have any current or anticipated engagements which would affect our ability to staff for this assignment - we are committed to supporting the City of Manteca and have resources available for the anticipated needs noted in the City RFP.

Qualifications and Technical Capabilities

TRB team members possess multiple certifications and registrations to assure compliance with all requirements mandated by the State and local jurisdiction ordinances. Our team comprises of individuals who are either engineers or architects licensed in the State of California, or who possess ICC certifications in their respective disciplines. Of note, our team includes 8 licensed Structural Engineers. In addition, our staff includes 4 LEED® Accredited Professionals and 6 CASp certified individuals. Most of our staff possesses a combination of these industry-recognized credentials. Information on the qualifications of our proposed personnel and an Organizational Chart is provided in later Sections of our Proposal.

Our staff members are regular instructors and attendees at construction code and standards training offered through the local ICC Chapters, CALBO, CBOAC, SEAOC, AISC, ASCE, NFPA and other building industry organizations. In addition, several of our staff members are current or past board members with industry organizations and as such, are aware of many aspects of the development of relevant construction codes. Staff experience encompasses a full range of construction types and occupancies including the following:

- ✓ ADUs and JADUs
- ✓ Photovoltaic Systems
- ✓ Assembly Occupancies
- ✓ Commercial Tenant Improvements
- ✓ Detention Facilities
- ✓ Distribution Centers
- ✓ Hotels
- ✓ Industrial/Storage Warehouses
- ✓ Manufacturing Facilities
- ✓ Medical Office Buildings
- ✓ REACH Code Projects
- ✓ Battery Energy Storage Systems
- ✓ Mixed-Use Projects
- ✓ Multi-Family Dwellings
- ✓ Office Buildings
- ✓ Parking Structures
- ✓ Power Plant Facilities
- ✓ Recreation/Gymnasium Facilities
- ✓ Restaurants
- ✓ Logistics Centers
- ✓ Gas Stations
- ✓ Cannabis Facilities
- ✓ Hazardous Chemical Facilities
- ✓ High Rise Buildings
- ✓ Hospitals
- ✓ Retail Centers
- ✓ Schools
- ✓ Single Family Dwellings
- ✓ Sports Arenas
- ✓ Theaters

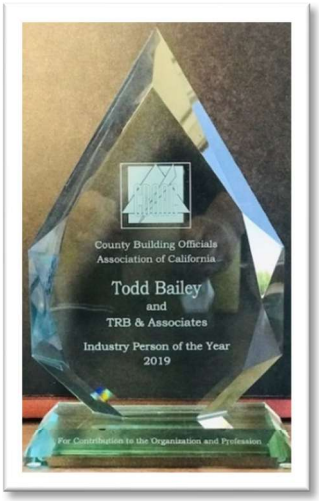
Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Customer Service Philosophy

TRB's customer service philosophy is simple; provide consistent quality services and represent our clients to the best of our ability. The achievement of the City's goals is at the heart of the services we provide. We have been able to consistently meet our clients' goals by implementing the following principles:

- ✓ Garnering a problem-solving attitude
- ✓ Gaining awareness of the issues that affect the community
- ✓ Applying the right expertise in a responsive manner

What you can Expect from Us



Experience

- Comprehensive understanding of the California Building Standards Codes
- Average 25 years' experience

Quality Work

- High technical competence and solutions oriented
- Balanced approach to application of adopted Codes & Standards

Responsiveness

- Close proximity to City Offices
- Staff available on 24/48-hour notice
- Critical-path awareness
- Effective workflow policies and procedures
- Emergency Response Ready

Teamwork

- Consider us your Partner – We work with you

What Sets Us Apart

TRB has a strong track record of production quality results, meeting turnaround goals and client satisfaction. Ask our clients:

> *"TRB has performed Plan-Check services for [our City] for many years now. They review 75% of all my external plan reviews, I can honestly say their services are excellent. I have used several companies over the last 23 years, TRB has outperformed them all. TRB remains responsive and in control, they meet with me and our clients when requested and constantly put in the extra effort to ensure positive outcome."* - California Municipal Chief Building Official

Our Commitment

In our firm's nearly 20 years in business, we have assembled a team of professionals that have been committed to the success of our clients. As the organization continues to grow, we have maintained our core belief in providing a welcoming environment, training, and promotional opportunities, and providing the best service possible to our clients. With TRB, the City of Benicia will continue to receive an experienced team who understands the needs of public agencies and takes pride in delivering outstanding service. Consider us your partner, and as such we are always on call and always available for everything from simple brainstorming sessions to representing you during meetings with stakeholders.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Subconsultants

TRB will be teaming up with two subcontractor firms for this project: **Provost & Pritchard Consulting Group** and **TERP Consulting**. TRB has excellent working relationships with both subconsultant firms, and we have teamed with each successfully on municipal support assignments.

Provost and Pritchard Consulting Group (P&P) will be prepared to provide civil engineering support services on the project. TRB is currently teaming with the firm to provide grading plan reviews for the RELATED Santa Clara Project. P&P has been providing engineering services for over 50 years and possesses over 200 employees throughout California.

KEY PROJECT MEMBERS: Michael Osborn, PE, LEED AP; Brayden Lovik, PE

TERP Consulting will be prepared to provide fire protection engineering and plan review support on the project. TRB has teamed with TERP Consulting on many large-scale projects including the $1.5 billion UC Davis Health Aggie Square and RELATED Santa Clara projects. TRB's work history with TERP spans over 10 years. The firm has extensive experience in fire protection engineering including fire protection systems, master egress systems, fire hazards analysis, and smoke control systems assessments on large-scale construction projects.

Description of Responsibilities of Key Personnel

Mindful of the potential complexity of projects in the City of Benicia, TRB has assembled a team with exceptional qualifications and attentiveness to quality and schedule. Our proposed team is comprised of senior-level professionals who have worked together across many projects and who possess extensive municipal support experience. We are pleased to be able to present a team with this combination of interpersonal familiarity and extensive industry experience.

PROJECT LEADERSHIP

Todd Bailey, PE, LEED AP, CASp, MBA, our company Principal and Founder, is prepared to continue to serve in the role of **Project Manager**. Todd has over 25 years of experience in the industry which includes serving as a Delegate Chief Building Official/Project Principal on over 20 large-scale fast-track design build projects in California having a combined valuation of over $30 billion. Of note, Todd's experience includes overseeing support services provided on the $9 billion RELATED Santa Clara project. Todd will work closely with our team to ensure that project goals are met and that findings are communicated in a timely and clear manner.

PLAN REVIEW TEAM LEADERSHIP

Our plan review group is led by our **Plan Review Services Manager**, **Bing Young, RA**. Bing possesses extensive experience in plan review on both residential and commercial projects and includes more than 25 years of professional experience in production, project management, construction management, energy, and accessibility analysis.

Senior Plan Review Engineer, Dan McLaughlin, PE, CASp will be available to serve as a senior plan review engineer on this assignment. Dan is a registered Civil Engineer, certified CASp, and ICC Certified Plans Examiner. Dan has been with TRB for over 10 years, specializing in plan review coordination with extensive experience on both complex commercial and residential project types.

Senior Plan Review Engineer, Petya McInnis, PE, CASp has over 24 years of experience in engineering and construction, has expertise in design, plan review, and inspection across residential, commercial, and industrial projects. Formerly a Plan Check Engineer for the City of Fairfield, she ensured code compliance, provided technical supervision, and supported Building Inspectors and Officials with code research. Petya's proactive approach has led to effective solutions, process improvements, and policy changes.

Dominic Ma, SE, MPA serves as our **Quality Control Principal**, responsible for ensuring the technical accuracy of all work performed. Dominic has more than 30 years of experience in reviewing building plans and specifications submitted for building permit applications to assure compliance with adopted building codes and reference standards.

INSPECTION AND FIELD SERVICES TEAM LEADERSHIP

Christopher Rose serves as our **Inspection and Field Services Manager**. Chris has over 20 years of inspection, plan review and administration experience serving in both public and private sector roles on a variety of projects. His experience includes serving as Building Manager for Sonoma County and coordinating document control tasks for the Apple World Headquarters project in Cupertino.

TECHNICAL DIRECTOR & INSTRUCTOR

Our **Technical Director - Paul Armstrong, PE, and CBO - is** available to provide expert code interpretation support and code instruction. With more than 30 years of building safety management experience, Paul teaches regularly for California Building Officials (CALBO). As a Chief Building Official, he managed building plan review, counter assistance, and inspection for numerous California agencies. His previous experience at International Code Council (ICC) included leading the Architectural and Engineering Services Department, International Conference of Building Officials (ICBO) Technical Services Department.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Project Understanding & Approach

TRB would like to confirm its intent to provide services in accordance with the Scope of Work identified in the City of Benicia's Request for Proposal (RFP) document. In brief, it is our understanding that the City is seeking qualified consultants to assist with as-**needed On-Call Development Engineering Professional Services** on a range of project types. It is understood that plan review tasks would comprise reviewing projects for adherence to the City's latest adopted Municipal Codes and Title 24 California Building Standards Codes covering structural, fire prevention, life safety, disabled access, energy conservation, green building, plumbing, mechanical, and electrical provisions.

TRB has reviewed the Scope of Services as outlined in the City's RFP and is prepared to continue to provide On-Call Development Engineering – Professional Services including:

- ✓ Grading and Drainage Plans
- ✓ Subdivision and Site Improvement Plans
- ✓ Erosion Control Plans
- ✓ Traffic Analysis
- ✓ Feasibility Studies for Water, Sewer, and Drainage
- ✓ Hydrology and Hydraulic reports
- ✓ Soils and Geological Reports
- ✓ Storm Water Control Plans
- ✓ Storm Drainage
- ✓ Tentative and Final Subdivision or Parcel Map
- ✓ Lot Line Adjustments
- ✓ Easement and Right of Way Documents
- ✓ Construction Cost Estimates
- ✓ Shoreline Development Review

TRB would like to confirm that it has staff appropriately certified to provide the requested scope of services. Also to confirm, all work will adhere to industry standards as determined by the California Code of Regulations, Title 24, and the City of Benicia Municipal Code (BMC). The following reflects our proposed work plan for providing the requested scope of services.

Project Approach Overview

Our approach to this engagement is centered on utilizing experienced staff and fostering open communication between our firm and the City. On an ongoing basis, our Project Manager, **Todd Bailey PE, CASp, LEED AP**, will maintain regular communication with City staff to ensure that we are kept informed of current code interpretations and policies, and to enhance our ability to quickly respond to any issues that may arise during permit counter, document review, and/or inspection activities.

We value the importance of the City's projects and are committed to meeting all project service delivery deadlines. We will diligently document and report all plan review findings, tracking information, and other reports, as required by the City.

Throughout this engagement, our key team members will be available to meet with City staff either via phone or in person to address questions that may come up during the course of a project. Our firm is committed to responding to all inquiries within 1 business day. We encourage discussions via in-person meeting, telecon, and/or WebEx/Zoom or similar formats as agreeable and necessary to achieve the most expeditious results.

Quality Control Assurance

Quality and on-time service are of paramount importance to us. Though we employ only experienced plan reviewers and expect their work to be of a high standard, we have instituted a quality control policy to ensure that this standard is maintained. At the core of our quality control approach is having a "two sets of eyes" policy in place. All work performed by staff is reviewed for quality control by senior members of our team. Our Project Manager and Quality Control Principal, **Dominic Ma SE**, hold primary responsibility for ensuring accuracy and consistency (QA/QC) in the application of adopted codes and standards for any City assignments.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Building Code Instruction

As an additional service, TRB is prepared to provide Building Code Instruction support to the City in either classroom or field-type settings on a range of technical subjects. **Paul Armstrong PE** is an award-winning California Building Standards Codes instructor whose accolades include being named CALBO Instructor of the Year. Paul is currently providing extensive training on the California Building and Residential Codes to TRB clients, local ICC Chapters, and CALBO Education Week attendees. Paul will be available to provide tailored training for the City and its invited guests upon request.

ICC PREFERRED EDUCATION PROVIDER

Project Workplan

Project Initialization, Scheduling & Management

From our prior experience supporting municipal building departments and divisions, we know that developing a comprehensive understanding of project construction documents and supporting the timely execution of project schedules is of critical importance. To confirm, for any plan review, inspection, or permit technician assignment, TRB members will possess a thorough understanding of all applicable project documents and processes and will be committed to supporting the City with its specific project schedule needs.

Preliminary Meetings and Project Administration

Shortly after the project award, we are prepared to meet to verify project expectations, deliverables, scheduling, and logistical considerations. Our Project Manager will coordinate with our Plan Review and Inspection Services Managers, to allocate plan review, inspection, and permit technician resources appropriately. The Plan Review Manager will be responsible for oversight of all the plan review services provided, and our Inspection Services Manager will be responsible for monitoring and managing any staff augmentation activities. Regular communication between our Project Manager and the TRB team will be ongoing throughout this engagement to ensure alignment of staffing and schedule needs.

Project Communications

We understand that ongoing communication is essential to ensuring project success. We promote and endorse any tools which help enhance communications between all project participants. We have utilized regularly scheduled calls for instance as a means for TRB, designated project owner, constructor, designer representatives, and others to discuss project schedule and critical path, manpower needs, potential challenges, and other related matters. Having these types of communications allows teams to identify when additional support may be needed and how resources may be best allocated to accommodate the project schedule and critical path. Throughout this engagement, our team members will be available to attend meetings with City staff, as well as design, constructor, and owner teams as needed.

Workload Accommodation | Timeliness of Response

It is understood that there are often periods of time when the workload extends beyond what may be normally expected. We would like to highlight that our firm has a system in order to accommodate such peaks without compromising turnaround or quality. We have many qualified and experienced team members who we access to assist at times of high workload or emergency need. In the event of a local, regional, or national emergency or disaster, our assigned staff are ready and available to immediately respond to a disaster and help as needed.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Civil Engineering / Grading Plan Review Scope & Approach

The TRB team is equipped to perform civil engineering plan review and construction inspection support to the City on an as-needed basis. TRB plan reviewers and inspectors will work with City staff to ensure that all work conforms to the project construction documents, Codes and Ordinances including Grading Code, APWA Standard Specifications, AWWA Standards, State and Federal (ADA) Building Codes related to site accessibility.

Our reviews consider all relevant project documentation including plans, specifications, calculations, and other related correspondence to verify conformance to adopted local codes, ordinances, regulations, and standards. To confirm, TRB is prepared to provide all requested support services as identified in the City's RFP document.

- Plan review subdivision maps, parcel maps, and improvement drawings.
- Provide engineering advice and recommendations to Planning, Building and Public Works divisions.
- Provide consultation regarding current development review to the Chief Building Official, Planning Manager and Engineer.
- Assist City staff with code interpretation and application of state and federal regulations.
- Fulfill all other tasks as identified in City RFP document.

Alternate Material and Methods

TRB recognizes that there are alternate materials and methods of construction that can be used to satisfy and comply with the provisions of the code. Our experience with the use of alternate materials, alternate design and methods of construction enhances our ability to solve specific issues that arise in design and construction.

Electronic Plan Review

To confirm, TRB is prepared to track and communicate all plan review comments and approvals through the City-designated electronic system OpenGov and BlueBeam Studio Session, or any future or anticipated electronic review platform. The staff of TRB has been leaders in the field of digital plan review and workflow management; as such, we have the experience and know-how to efficiently manage the review of electronic documents.

Online Plan Check Status and Records

As highlighted earlier, to facilitate access to plan review findings and status information, TRB is prepared to initiate its Project Website, ***Plan Track Plus®*** for use on this assignment. With our project website, all correspondence issued by our team can be posted and maintained for access by City and designated project stakeholder staff. Our postings can include plan review findings (i.e. approval/comment letters), plan review submittal status information, meeting notes, etc.; all of which may be updated on a daily basis. In addition, if so desired by the City, we can also accommodate incoming electronic document postings (i.e. electronic plans, calculations, RFI's, etc.).

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Plan Review Process

The following process represents an example plan review workflow. Please note that the plan review workflow utilized for the City will align with the City's specific workflow requirements and needs.

Step 1 - Preliminary Discussions:

Prior to beginning our initial plan review project, we are prepared to conduct a meeting or conference call with the City to discuss local code policies, documentation procedures, plan processing protocols, plan review checklist items, and scheduling.

Step 2 - Initial Review:

Upon receipt of a complete set of plan documents, we will perform our plan review in the agreed-upon timeframe, checking for compliance with all applicable code standards. All corrections are identified based on compliance with specified codes and regulations and worded so the designer will know what needs attention and how to respond to the issue stated. To confirm, we will adhere to the City's Plan Review Turnaround timeframes.

In general, plan review turnaround timeframe is ten (10) business days for initial reviews and five (5) business days for rechecks and revisions. Timeframes for large-size projects will be confirmed with City staff prior to proceeding with the review.

Step 3 - Transmittal of Plans and Comment Lists for Plan Review:

At the heart of our approach in delivering our services to you, is the recognition that there must be a coordinated effort to track and coordinate all submittals and requests received. To ensure that submittals are properly coordinated and tracked, TRB and Associates have established an internal plan review coordination process to ensure that each plan received for review is properly handled, processed, and returned on time. Our plan tracking procedures are computerized to track each submittal through the review process and maintain accurate and comprehensive records for each submittal. Upon completion of our review, any comments generated are consolidated into a correction letter in the City's preferred format which is remitted to the City for its reference.

Step 4 - Rechecks:

Upon receipt of the resubmittal package from the applicant, once we have verified that the resubmittal package is complete, we perform a recheck in the agreed-upon timeframe. This process is repeated until the project plan documents are ready to be recommended for approval.

Step 5 - Plan Approval:

When all review comments are satisfied, we will forward all relevant correspondence bearing our company's "Reviewed for Code Compliance" stamp (including plans, calculations, and specifications), along with a transmittal letter indicating our recommendation for project approval, and the project file to the City for processing.

Shipping and Delivery of Plans

TRB provides pre-printed overnight shipping labels and/or pickup services to facilitate the transport of any hardcopy plan submittals to our office. Please note that the pickup, shipment and delivery of plan documents and other relevant correspondence to the City are provided at no additional cost.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Rapid Response Services

TRB is also prepared to provide Rapid Response support services to the City on an as-needed basis. TRB staff are prepared to work at the City's offices as an extension of City staff under the supervision of the Chief Building Official or their designee with the knowledge, skills, and abilities to perform the following requisite functions.

- TRB will provide emergency response services as directed by the City. Working with local governments to fast-track permits for critical projects, ensuring that necessary development can occur without bureaucratic delays. Rapid response includes planning and coordination in the aftermath of natural disasters or crises, focusing on rebuilding communities with resilience. Key tasks may include expedited review and processing of construction permits. Contractor will be expected to be available within 24 to 48 hours to begin rebuilding related work.

Construction Inspection Scope & Approach [Option]

TRB is prepared to perform inspection, referring to construction plans, structural plans, and material specifications for structures located within the City limits, upon 48-hour notice. Our inspectors are proficient at verifying project conformance to model code standards (Building, Electrical, Mechanical, Plumbing, Green Building and Energy & Accessibility), Grading, Stormwater, Drainage, MWELO and CFM provisions, as well as other locally adopted ordinances

TRB provides all labor and technical, administrative, professional, and other personnel; supplies, materials, equipment, and all other resources necessary to perform the specified work. TRB will use existing City forms or can develop correction sheets which meet with the approval of the City and shall maintain written lists of corrections needed to ensure conformance to codes and regulations.

Field Inspection Process

Our experienced team includes individuals with extensive field inspection experience on a range of project assignment types including municipality "Called Inspections," "Clerk of the Works," and "Inspector of Record" roles; our team can assist with a broad range of inspection responsibilities. Our scope of service areas includes infrastructure, residential, commercial, and industrial facilities, capital improvement projects, municipal agency services and infrastructure revitalization.

Our inspectors are careful to document all inspection activities, adhere to agency-adopted protocols, and follow field procedures and policies as dictated by the Building Official. TRB will maintain daily inspection records and all necessary documents on file for reference by the City. To confirm, TRB staff are available for applicant inquiries and/or conferences during normal City business hours.

Our inspectors are prepared to perform the following representative construction inspection tasks:

- Oversee Quality Assurance of the construction activities to verify conformance to plans and specifications.
- Document all work, contractor and subcontractor personnel and equipment, and field orders daily.
- Maintain onsite project log and as-built schedule report. Prepare daily reports of observations and activities.
- Maintain a daily inspection report containing a record of weather, contractors, work onsite, number of workers, work accomplished, problems encountered, solutions agreed upon, and other similar relevant data as directed by City.
- Monitor and report on applicable Erosion Control and SWPP provisions.

Our inspections can include those identified in the California Model Codes and which would be amended or modified as directed by the City:

- Foundation Inspection, Framing Inspection(s)
- Electrical, Mechanical, Plumbing systems inspection
- Lath and/or Gypsum Board Inspection
- Fire Code Inspection (if requested)
- Stormwater, Grading, Drainage
- Energy Efficiency Measures Inspections
- Green Building Inspection
- Fire Resistance Rated Construction Inspection
- Floodplain Inspection
- Civil Engineering elements as applicable

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Engineering Technician Services [Option]

TRB is also prepared to provide onsite Engineering Technician staffing to the City on an as-needed basis. TRB staff are prepared to work at the City's offices as an extension of City staff under the supervision of the Chief Building Official or their designee with the knowledge, skills, and abilities to perform the following requisite functions.

- Assist the public at the front counter or by phone regarding engineering, building, and planning permit requirements, application and permit fees, application filing procedures and processing, and permit status.
- Enter permit and related data into the City permit tracking system.
- Perform plan review and inspection on simple project types.
- Accept permit and related applications and collect fees. Screen plans and application materials for completeness and for conformance with City ordinances standards, policies, and guidelines.
- Review application materials for compliance with conditions of project approval; route plans to other City departments for review; approve and issue minor permits; research and respond to public inquiries.

Building Official, Permit Technician, Certified Floodplain Manager, CASp, and Specialty Services including Code Enforcement [Options]

TRB is also prepared to provide the above-referenced optional support services to the City on an as-needed basis. TRB staff are prepared to work at the City's offices as an extension of City staff under the supervision of the Chief Building Official or their designee with the knowledge, skills, and abilities to perform the following requisite functions.

Building Official Support Services [Option]

- TRB will provide an experienced ICC Certified Building Official to assist the Building Official as needed. The Building Official will have a minimum of five years of experience in a public agency with development, administration, interpretation, application and enforcement of the codes. They will have a thorough knowledge of customer service, develop and maintain effective relationships with all client groups, and be able to effectively communicate with contractors, homeowners, subordinates, superiors, news media, elected officials, and civic organizations.

Permit Technician Services [Option]

- Assist the public at the front counter or by phone regarding building, planning, and engineering permit requirements, application and permit fees, application filing procedures and processing, and permit status.
- Enter permit and related data into the City permit tracking system.
- Accept permit and related applications and collect fees. Screen plans and application materials for completeness and for conformance with City ordinances standards, policies, and guidelines.
- Review application materials for compliance with conditions of project approval; route plans to other City departments for review; approve and issue minor permits; research and respond to public inquiries.

Certified Floodplain Manager (CFM) [Option]

- TRB is prepared to provide a Certified Floodplain Manager to provide technical and administrative support to the City. We understand that we may be asked to coordinate public engagement, prepare analysis, reports and presentations, and provide related technical support as needed.

Disabled Access (CASp) Services [Option]

- TRB offers Certified Accessibility Specialist (CASp) Consulting Services to assist agencies with the compliance requirements of State of California Senate Bill 1608 (Corbett).

Specialty Services [Option]

- TRB will provide professional services for ongoing work or projects such as but not limited to those related to Code Enforcement and Fire review. We understand that we may be asked to coordinate public engagement, prepare analysis, reports and presentations, and provide related technical support as needed.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Integration with Other Systems, Travel and Training, Bid Procedures and Selection, and Staffing Expectations

Integration with Other Systems

- OpenGov Permitting and Licensing: TRB will work and input plan review corrections in the OpenGov permitting software during the plan review process.
- Bluebeam Integration: Plan Reviews will be done in BlueBeam Studio Session, a cloud-hosted PDF-based markup and collaboration platform. The Respondent will need the ability to complete reviews and redline plans as required within the BlueBeam collaboration session.

Travel and Training

To confirm, TRB acknowledges the following:

- TRB will solely cover the costs for all travel time and mileage to arrive at the Benicia City Hall;
- TRB will coordinate training for TRB's employees and assigned personnel, and ensure that our employees and assigned personnel maintain all training certifications as required by the State Regulation and local ordinances and/or amendments to State codes; and
- TRB agrees that it will not charge City for training, time in training, or any expenses related to training.

Bid Procedures and Selection

We understand that City staff will provide a scope of work via email to one or more contracted firms, who will be asked to submit bids (inclusive of work tasks, personnel, and cost proposal) electronically within five (5) to fifteen (15) working days, depending on the nature of the project. Selection of a consultant for any given project or task will consider multiple factors, including but not limited to skills and expertise, unique staff qualifications, similar project experience, project approach, and cost. Consultant shall not commence work until written authorization is received from the City of Benicia in the form of an executed work order.

Staffing Expectations

TRB confirms that staff proposed in this response will be available to provide the requested services. Additional staffing information and resumes will be provided as needed and/or as part of a project bid by submitting the information to the Community Development Department.

Level of Effort Statement

To confirm, TRB is prepared to provide all requested services on short notice (48-hours or less). Fixed Fee and Hourly Rates, and Reimbursables by scope of work and personnel classification are provided in the accompanying **Pricing Proposal** Section of our proposal.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

References

TRB understands the importance of maintaining a high level of quality and customer service when supporting the City of Benicia with plan review, building inspection, permitting and other Building Safety and Public Works support activities. We encourage you to contact the following references to provide testimony of our performance of work. Please note that additional references are available upon request.

Please also note that additional References and highlighted **Project Experience** in the areas of service requested is included in **Section 11** of our proposal.

Dominic Ma, SE, PE, MPA | Quality Control Principal

Education

Master of Science Structural Engineering UCLA, Los Angeles, CA

Master of Public Administration, California State University, East Bay Hayward, CA

B.S. Civil Engineering University of California, Berkeley, CA

Registration

Registered Structural Engineer California (#1920)

Registered Civil Engineer California (#20018)

Certified Energy Plans Examiner Residential (#R05-94-5121) - Inactive

Certified Energy Plans Examiner Non-Residential (#NR05-94-5576) - Inactive

Dominic has more than 30 years of experience in reviewing building plans and specifications submitted for building permit applications to assure compliance with adopted building codes and reference standards. Dominic's experience includes working for more than 27 years as a plan check engineer for the City of San Leandro and 6 years as a supervising civil engineer for the City of Oakland, where he led the City's plan review division.

Dominic has considerable knowledge of civil engineering and structural engineering principles and practices, California Building Code and Title 24 provisions. His strengths include having the ability to review, analyze and evaluate plans, specifications, engineering reports and calculations; possessing knowledge to identify code deficiencies; and evaluating alternate methods and materials of construction. Dominic is adept at reviewing plans for adherence to the California Building Code, ASCE 7, and when applicable FEMA, ASCE 41, NEHRP provisions.

Select Project Experience

Building Safety Plan Review

Plan Review projects supervised in the City of Oakland

- 2121 Harrison Street. The Cathedral of Christ the Light (also called the Oakland Cathedral). A new modern Roman Catholic Cathedral with glass walls 120 ft. high. The $190 million, 224,000 square feet structure sits on 36 innovative "friction pendulum double-concave bearing isolators," consisting of two facing concave surfaces.
- 2100 Franklin Street. The $45 million, 245,000 s.f. project is 9 stories high and built with steel frames. To compensate for its slightly smaller than code required width, the interior atrium is equipped with smoke control system to provide fire protection for its occupants. Evaluated the alternate materials methods request associated with this design element.
- 100 Grand Avenue. 22 Story Condominium Building budgeted at $150 million.
- Oakland Airport (Expansion and interior remodeling). A $350 million Terminal Improvement Program.

Plan Review projects performed

- Bayfair Mall (Tenant improvements), San Leandro
- Century 21 Theatre, San Leandro
- San Leandro Dialysis Clinic
- San Leandro Honda
- San Leandro Hospital (New doctors' office building)
- Carlton Plaza of San Leandro (Assisted living facility)
- Costco Building Addition, City of Concord
- New Gas Compressor Building, Butte County
- AT&T Rooftop solar Panel Installation, City of San Ramon
- Tilt-up Warehouse Buildings (2), City of Sacramento
- Historic Building Seismic Retrofit, City of Benicia
- Cancer Treatment Facility, City of Pleasant Hill

Work Experience

TRB + Associates, Inc., Senior Plan Review Engineer, 2007 to present
City of Oakland, Supervising Civil Engineer (Building Division), 2000 – 2006
City of San Leandro, Plan Check Engineer, 1973 – 2000

Bing Young, Architect | Plan Review Services Manager

Education

Bachelor in Architecture,
California Polytechnic State University
San Luis Obispo, CA

Registration

Registered Architect, California

Professional Affiliations

National Council of Architectural Registration Boards Certified

ICC Member

Bing Young is a registered Architect with plan review experience on both residential and commercial projects. He provides comprehensive life safety, accessibility, energy, and mechanical/electrical/plumbing reviews on a variety of residential and commercial project types. Bing possesses over 25 years of professional experience which includes roles in production, project management, construction management, energy, and accessibility analysis.

Work Experience

Plan Review Architect, TRB + Associates, Inc. **2018 - Present**

- Review drawings and calculations for code compliance on behalf of client agencies
- Projects include residential subdivisions, custom homes, additions, remodels, new commercial buildings, and tenant improvements

Project Architect, PSM Architects, Inc. **2008 – 2018**

- Prepared and managed the development of comprehensive construction documents for new commercial buildings, tenant improvements, and additions
- Oversaw and directed production staff
- Performed quality control review of building permit submittal documents
- Facilitated client and permit processing meetings
- Collaborated with engineers, ancillary designers, and vendors
- Prepared and reviewed project specifications
- Reviewed shop drawings and submittals for compliance with specifications and design intent
- Performed accessibility evaluation of existing sites and buildings
- Prepared detailed accessibility reports for building and business owners
- Facilitated pre-construction and post-construction on-site meetings with construction project managers and general contractors
- Performed construction administration and project closeout duties

Staff Architect, Hollman Bologna Architecture & Planning, Inc. **1996 - 2008**

- Prepared schematic design and construction documents for single-family and multi-family residential remodels, additions, and new buildings
- Performed residential building reconnaissance for additions and remodel projects
- Prepared design review documents for planning approvals
- Facilitated building permit processing
- Prepared and reviewed Title 24 Energy Efficiency Compliance documents

Certified Energy Plans Examiner, BETA, Inc. **1993 - 1999**

- Reviewed and approved Title 24 Energy Efficiency Compliance documents for residential and non-residential buildings for local jurisdictions

Christopher Rose | Inspection & Field Services Manager

Certifications/Licenses

ICC Certified

- California Commercial Building Inspector
- Commercial Building Inspector
- Residential Building Inspector
- California Residential Building Inspector
- Residential Plans Examiner
- Building Inspector
- Permit Technician

Chris possesses over 20 years of experience in the building and construction inspection field for various jurisdications in Northern and Southern California. His experience includes inspecting commercial, residential, non-residential, multifamily, municipal, and public structures for quality control and safety to ensure buildings are up to code and comply with local ordinances. Chris has extensive experience working in the building and safety, engineering, fire, and planning departments for multiple jurisdictions as well as the United States Marine Corps. Chris has positive working relationships with clients, management, as well as his peers and maintains high levels of productivity, reliability with excellent work ethic to deliver high quality customer service.

Chris is ICC Certified in multiple areas including as a California Commercial and Residential Building Inspector, Permit Technician, Commercial and Residential Building Inspector, Residential Plans Examiner, and Building Inspector.

Chris is responsible for the oversight of field inspectors and other building department staff. He employs a customer service focus in carrying out his building safety inspection responsibilities.

Work Experience

Inspection Services Manager, TRB and Associates, Inc. **2022 – Present**

- Responsible for the oversight of field inspectors and other building department staff.
- Inspection on several large-scale projects
- Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Communicates compliance elements with clients with solution driven resolve.
- Performs plan review of light commercial tenant improvements and remodel projects.
- Electronic and paper plan review.

Project Coordination, Plan Review, Inspection, and Construction Management Assignments

- **Apple World Headquarters project in Cupertino** – Document Control and coordination of an international design and permitting effort.
- **Marine Corp Air Ground Combat Center MWSS-374** - Re-construction of an Expeditionary Airfield, runway, and helicopter pads to include support buildings and clamshell hangers.
- **Marine Corp Air Ground Combat Center MWSS-374** - Construction of the Tank refueling pads and fuel farm.
- **Southern California Logistics Airport SCLA** - Remodeling and Repurposing of the existing George Air force base in Victorville California.
- **City of Hesperia City Hall, Library and Civic Center** - New Construction of a 27 Acre Civic Center Master Plan.
- **City of Hesperia Government Center** - New Construction of the County Government Building.
- **City of Hesperia Police Department Building** - New Construction of the County Government Building.
- **City of Hesperia Ranchero Road Underpass** - The Ranchero Road Grade Separation Project.
- **City of Hesperia Ranchero Interchange (HWY 15)** - Interstate 15 Ranchero Road Interchange.
- **Sonoma County** – Wildfire Recovery Operations.
- **Jackson County Oregon** – Wildfire Recovery and Program Development.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Chief Building Official (DCBO), Private Consultant, Various Locations 2014 - 2019

Provided Project Management, Compliance, Plan Review, Inspections, Document Control and Administration for power producing industrial infrastructure projects throughout the state for California Energy Commission. Below is a list of projects:

- **Carlsbad Energy Center Project (CECP) –** Above ground storage tank demo and decommissioning.
- **Blythe Solar Power Project Units 1 & 2 (BSPP)** – New 235 MW photovoltaic facility.
- **Pio Pico Energy Center (PPEC)** – Three Units, 300 MW gas fired turbine simple cycle facility.
- **Carlsbad Energy Center Project (CECP**) – Five Units, 632 MW gas fired turbine simple cycle facility.
- **Orange Grove Energy Center (OGEC)** – Two Units, reliability and AGP upgrade project.
- **Geysers Unit 16 (Quicksilver)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 18 (Socrates)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 20 (Grant)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 17 (Sonoma)** – Low pressure steam bypass project.
- **Geysers Unit 02 (NCPA)** – Mixing tower project.
- **Roseville Energy Park (REP)** – Catwalk extension project.
- **Colusa Generating Station (CGS)** – Rotating intake screen project.
- **Los Medanos Energy Center (LMEC)** – Cooling tower chemical tanks project.
- **Colusa Generating Station (CGS)** – Stairway to condensate pumps project.
- **Calpine Otay Mesa (OMEC)** – Low pressure steam bypass project.
- **Colusa Generation Station (CGS)** – New circulation system and raw water pumps project.
- **Cosumnes Power Plant (SMUD)** – Unit 3 AGP upgrade project.
- **Ivanpah Solar (ISEGS)** – Ammonia tank replacement project.
- **Colusa Generating Station (CGS)** – Bearing enclosure fire sprinkler project.
- **Humboldt Bay Generating Station (HBGS)** - New guard shack project.
- **Cosumnes Power Plant (SMUD)** – Unit 2 AGP upgrade and filter press project.
- **Abengoa Mojave Solar (AMS)** – Fire suppression line repair project for Alpha and Beta blocks.
- **Gilroy Energy Center (GEC)** – Gas line repair and replacement project.

Paul Armstrong, PE, CBO | Technical Director & Instructor

Education

B.S. Civil Engineering California State University, Long Beach

Advanced Study, Fire Protection Engineering, Cal-Poly San Luis Obispo

Registration | Certification

Registered Professional Engineer, CA (#45464)

ICC Certified Building Official

Awards

CALBO Instructor of the Year, 2010

CALBO Course Developer Merit Award, 2014

Committees

International Association of Building Officials Board, 2018

ICC Code Correlation Committee, 2018

Orange Empire Chapter of ICC, Vice President

ICC Residential Energy Code Development Committee, Chair 2013

ICC Building Official Membership Council, Governing Committee, 2011

CALBO State Code Committee, 2011, 2012(Chair), and 2013

CALBO Building/Fire Advisory Committee, 2011

LA Basin Chapter and Orange Empire Chapter Code Committee, Chair 2011, 2012 (Chair) and 2013 (Chair)

Secretariat to the International Residential Code for One- and Two-Family Dwellings (1997-2000)

(Ctd. on next page)

Paul Armstrong is a Registered Professional Engineer with over 30 years of engineering experience. His vast experience in all manner of construction, be it industrial, commercial, and residential project types, provides our clients with a strong skill set and wealth of industry knowledge. In addition to Paul's engineering experience, he is also a Certified Building Official, serving in this capacity at the City of El Monte, as well as Laguna Hills, Signal Hill, and Palos Verdes.

A noted author and lecturer in the building life safety industry, Mr. Armstrong has earned many awards, including CALBO Instructor of the Year.

Select Project Experience

- **Apple Campus Theater, Cupertino, CA** – The plan review of the Apple Campus' Theater where new products would be announced and corporate meetings held. Mostly subterranean structure that has a glass entry lobby supporting a carbon fiber roof (disk).
- **ARTIC (Anaheim Regional Transportation Intermodal Center), Anaheim, CA** – Plan review of the fire and life safety regulations for this new transportation center. The building is a steel tube framework with a 2-story administration area with a mezzanine inside. This review included a pedestrian bridge leading to the train platforms.
- **Anaheim Convention Center Expansion, Anaheim, CA** – A very large expansion of the convention center meeting space with an associated parking garage addition.
- **Disneyland Star Wars Expansion, Anaheim, CA** – A very visible area of the Disney resort that is about to open this year.
- **Rams/Chargers NFL Stadium, Inglewood, CA** – The plan review of the newest NFL Stadium project in So CA. The stadium itself is covered by a large steel tube framed roof structure that is not connected to the stadium.
- **Rio Tinto Soccer Stadium**, **Sandy City, Utah** – The plan review of the Salt Lake area's professional soccer stadium. It included a roof canopy structure with a wave feature in the leading edge.
- **Building Official Roles:**
  - Palos Verdes Estates
  - Laguna Hills
  - Whittier (interim position)
  - Signal Hill
  - El Monte

Regional Director, Building & Safety Services, TRB + Associates **2019 – Present**
Responsible for new business development for building life safety services for various jurisdictions throughout California. Provide client relations and code assistance. Perform training lectures on building and residential codes. Participate on various local, state-wide and national committees. Building Official of the City of Signal Hill.

Group Leader, Building and Safety Services, Industry Consultant **2017 – 2019**
Responsible for the development of new business for inspection services and plan review services for various jurisdictions across the United States. Provide client care and assistance on code related issues. Give training lectures on the building and residential codes. Participate on various local, state-wide, and national committees. Building Official of the City of Palos Verdes Estates and Laguna Hills.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Committees (Ctd.)

Author, 2013 and 2016 Significant Changes to the CBC and CRC

UL Fuel Gas Products Council (2002)

BCMC (BDMC) staff liaison (1993-2002)

Co-secretariat to the ICC Performance Based Building Code

Secretariat to the International Zoning Code (1996-2000)

Secretariat to the General Design, Administrative, Lateral Design, Fire and Life Safety and Fire Risk Code Committees of ICBO (1992-1996)

Staff secretariat responsible for the rewrite of the Means of Egress Chapter in the 1994 UBC

NIBS HHS Code Comparison Committee (1994)

FEMA Building Performance Review Team member (1993)

NIBS Flood Standards Comparison Committee (1992)

Coordinator, Pacific Rim Conference on Performance Based Codes

Various ASCE standards committees

SEAOC Code Committee liaison

ASME A17.1 Code Coordinating Committee

ANSI Construction Standards Board

Vice President, Various Industry Consultant Firms **2005 – 2017**
Responsible for the development of new business for inspection services and plan review services for various jurisdictions across the United States. Provide client care and assistance on code related issues. Give training lectures on the building and residential codes. Participate on various local, state-wide and national committees. Participate on various local, state-wide and national committees. Promotion and sales of the Firms' in-house electronic plan review system. Building Official of the City of Signal Hill. Contract Plan Review Engineer for the City of Anaheim

Chief Building Official, City of El Monte, Industry Consultant **2011 – 2012**
Responsible for the City of El Monte Building Division. Review plans for the City and issues permits. Conduct investigations of non-complying facilities frequently in conjunction with the Planning Division, Code Enforcement Division and LA County Fire Department. Develop presentations for City Council on adoption of new codes, etc.

Vice President, ICC **1991 – 2005**
Led the ICC Architectural and Engineering Services Department, responsible for technical opinions, plan review and the administration of technical contracts during the consolidation into the International Code Council. Managed ICBO Technical Services Department which was responsible for the maintenance of the code development process, plan review service and code opinion service for both external and internal customers. Represented the Council to many national, state and local organizations. Responsible for the technical image of the conference. Provided technical assistance on code related issues to both jurisdictional and professional members and non-members. Provided research on many code-related issues. Secretariat to most ICBO code development committees and the initial drafting secretariat to the ICC International Residential Code.

City of Los Angeles, Dept. of Building and Safety **1988 – 1991**
Structural Engineering Associate
Responsible for the structural, architectural and zoning review of proposed projects in the city. Chief of Coordinating Division and Preservation Coordinator. Evaluation of building products for LA code compliance.

Teaching Experience

International Code Council (ICC)
Lecturer –Non-structural Fundamentals of the 2009 IBC (domestically and internationally)
Lecturer – Non-structural Fundamentals of the 2012 IBC
Lecturer – ICC Code Development Process

California Building Officials
Lecturer- Significant Changes to the 2013 CBC and CRC for CALBO, and ICC
Lecturer – 2016 Introduction to the CBC Means of Egress
Lecturer - Updates to the 2010, 2013 and 2016 California Residential Code
Lecturer – Updates to the 2010, 2013, and 2016 California Building Code
Advanced Building Code Enterprises - Developed and presented coursework
Lecturer – Accessibility topics
Lecturer – Updates to the 2006 International Residential Code and 2007 California Building Code

Karin Kuffel, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science
Civil Engineering
Purdue University; West Lafayette, Indiana

Masters of Business Administration
Saint Mary's College of California; Moraga, California

Registration

Registered Structural Engineer
California

Karin has over 30 years of structural engineering experience. Ms. Kuffel has vast structural design experience in both complex commercial and residential projects. She has managed many large-scale projects, including hospitals, OSHPD and the Chabot Space and Science Center. Her experience includes staff training, building design, and design review, as well as construction supervision and development of design and construction guidelines for new single-family residences.

Work Experience

Plan Review Engineer, TRB + Associates, San Ramon, CA **2016 - Present**

Provide structural plan check reviews of large commercial and institutional structures for multiple Bay Area building departments.

Build Change; Philippines **2014 - 2016**

Lead Engineer - Philippines. Responsible for all technical work and staff of Denver-based engineering non-profit's programs and operations throughout the Philippines, including management of Filipino engineering/technical staff comprised of engineers and builder trainers. Supervised training of local staff, building design, design review, construction supervision, and development of design and construction guidelines and recommendations for single-family homes and schools based on the National Structural Code of the Philippines.

Crosby Group; San Mateo, CA **2011 - 2014**

Senior Structural Engineer/Project Manager. Project management on multiple design-build projects, working with design team and contractor on fast-track work both in- and out-of-state. Responsible for managing project team from design through construction, developing and tracking fees, deadlines, and deliverables.

Independent Consultant **2009 - 2011**

Structural engineering consultant in San Francisco Bay Area. Consultant for small commercial and residential work. Extended contract work for Rutherford & Chekene included multiple hospital projects covering new hospital facility design, OSPHD plan-check work, and construction administration assistance.

Biggs Cardosa Associates, Inc., SF, CA **2006 - 2009**

Senior Engineer. Project management with responsibility for developing work, managing project production work, and overseeing construction administration. Representative projects include oversight for design of 8-story residential and parking structure for Santana Row Parcel 8b (San Jose, California) and the Lowe's parking structure in San Francisco.

KPFF Consulting Engineers; SF, CA **2004 - 2006**

Project Manager. Responsible for developing work and fee proposals, managing project engineering, drafting work, and overseeing construction administration. Project management included design of 5-story addition to Kaiser Santa Rosa Hospital, construction administration for 7-story addition to Modesto Memorial Hospital, and design and construction of low-income housing for South County Housing.

Thomas Hemenway, SE, PE | Senior Plan Review Engineer

Education

B.S. Civil Engineering Technology, Structural Emphasis
Metropolitan State College, Denver

Registration

Registered Structural Engineer California (#5348)

Registered Civil Engineer California (#52357)

Professional Affiliations

SEAONC Member

Tom Hemenway is a Registered Structural Engineer with over 30 years of engineering experience. Tom's experience includes providing structural, civil, and architectural design and quality control on a variety of industrial, commercial, and residential project types including multifamily podium projects, utility-scale power plant facilities, and retail buildings. He has served in design and analysis capacities for several seismic strengthening projects involving timber, steel, concrete, and masonry buildings in the greater San Francisco Bay area. His technical skills include 3D modeling and dynamic analysis for large foundations and structures.

Select Project Experience

- Lead Civil/Structural Engineer on multiple projects including the following:
  - NUMMI, Stamping Plant and Plastics Plant Expansion, Fremont
  - Vandenberg AFB housing development phases III and IV
  - 140 Geary Street seismic retrofit, San Francisco, CA
  - Amgen, Process Lab Building 99, Thousand Oaks, CA.
  - Huntington Hotel, San Francisco, CA
  - Wells Fargo Bank, Fremont Data Center, Fremont, CA.
- Responsible for Civil, Structural, and Architectural designs for industrial projects domestic and international.
- Responsible for structural analysis and design of seismic strengthening to existing timber, steel, concrete, and masonry buildings in the greater San Francisco bay area.
- Responsible for 3D model constructability review for a new GE 7FA natural gas-fired and GE A10 steam turbine, 1x1 combined cycle electric power generating facility.
- Responsible for ensuring quality of Civil, Structural, and Architectural construction activities for 600-megawatt natural gas-fired, combined cycle electric power generating facility.
- Performed dynamic structural analysis and concrete design for new steam turbine foundation.
- Designed concrete and steel structures for Kennecott Copper Smelter Modernization Project, Salt Lake City, UT using STAAD III and Microstation for PC computer.
- Designed steel pile and conventional concrete pad foundations for overland conveyor at Falkirk Mine in Underwood, North Dakota.

Work Experience

TRB + Associates, Inc., Senior Plan Review Engineer, 2016 - Present
Owner, TjHemenway Design Consultant, 2014 to 2016
Construction and Engineering Interface Manager, Kvaerner North American Construction Inc. and Parson Brinkerhoff JV, 2013
Owners Representative, Calpine, Russell City Energy Center, 2011 – 2012
Lead Structural Engineer, Aker Kvaerner, 2002 – 2003
Resident Engineer, Kvaerner, 2000 – 2002
Civil/Structural Discipline Manager, Kvaerner Metals, 1998 – 2000
Senior Structural Engineer, Kvaerner Metals, 1997
Civil/Structural Lead Engineer, The Bentley Company, 1995 – 1996
Others, 1981 – 1994

William Vaughn, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science, Structural Engineering, Masters-level Course Work in Structural Engineering, Portland State University, Portland, Oregon

Bachelor of Arts, Economics, Course Work in Business Administration and Industrial Engineering, State University of New York, Buffalo, New York

Registration

Registered Structural Engineer, California

Registered Civil Engineer California

Professional Affiliations

Structural Engineers Association of Northern California (SEAONC)

Structural Engineers Association of California (SEAOC)

International Code Council (ICC)

East Bay Chapter of ICC

William Vaughn is a Registered Structural and Civil Engineer with over 35 years of experience in construction, structural engineering design, seismic investigation and structural peer and plan review. Bill has extensive knowledge in commercial and residential buildings as well as industrial facilities using steel, concrete, masonry and timber design. He also has a wide range of construction field experience including supervision, construction methods, product development and structural inspection. Of particular note, Bill's steel design portfolio includes 2 Moment Frame patents with HSS Steel Columns and Wide Flange Beams.

Select Project Experience

- Provided structural design and peer review services for clients with residential, multi-family, and commercial buildings using timber, steel, concrete, and masonry design.
- Produced structural designs for new buildings and provided structural designs and evaluations for alterations to existing buildings.
- Designed seismic strengthening of un-reinforced masonry buildings, wood buildings, and concrete tilt-up buildings.
- Produced repair designs for earthquake damaged facilities and for other structurally damaged buildings.
- Conducted analyses of existing buildings to assess compliance with codes and drawings.
- Performed investigations of earthquake, fire, and flood distress. Prepared reports, engineering analyses, and repair recommendations.
- Provided expert witness, structural peer review and plan review services.
- Investigated structural damage and distress for litigation preparation purposes. Prepared reports, engineering analysis, and recommendations to client. Provided design preparation and construction observations for repair designs.

Structural Peer Review

- Haas School of Business, University of California, Berkeley, CA

Structural Plan Review

- Russell City Energy Center, New $800 million Power Plan Project (for California Energy Commission), Hayward, CA
- Newell Village Mixed Use Project, Walnut Creek CA
- Terraces at Los Altos Mixed Use Project (Phase 3), Los Altos, CA
- New Family Dollar Store, Sacramento, CA

Structural Design

- Chevron Willbridge Terminal Upgrade, Portland, OR
- Chevron Eureka Terminal Upgrade, Eureka, CA
- Kaiser - Lennon Lane Mechanical & Seismic Upgrade, Walnut Creek, CA

Work Experience

TRB + Associates Inc., Senior Plan Review Engineer, 2011 – Present
Vaughn Engineering, Principal Structural Engineer, 1994 - 2011
David L. Messinger & Associates, Civil & Structural Engineer, 1990 -1994
Alan R. Horeis Structural Engineers, Civil Engineer, 1987 -1990
Others, 1971 – 1987

Mike Kaszpurenko, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science, Civil Engineering, Clarkson University, Potsdam, New York, 1976

Registration

Registered Structural Engineer, California

Registered Civil Engineer California

Professional Affiliations

Structural Engineers Association of Northern California (SEAONC)

FEMA Structural Specialist, for Urban Search and Rescue, Task Force 7, Sacramento, CA.

California Office of Emergency Services Volunteer for post-earthquake building review.

Mike Kaszpurenko is a registered Structural and Civil engineer with over 30 years of engineering experience. His experience encompasses the plan review, design, evaluation, and retrofit of various types of building and non-building structures using concrete, steel, masonry, wood, and light-gage metal.

Mike's experience includes working for a large structural steel fabricator where he was involved in detailing of shop drawings, design of connections, and on-site field review.

Select Project Experience

Industrial, Manufacturing

- Corn Products Cogeneration Facility, Stockton, CA. Plan review of boiler building and miscellaneous foundations for new facility.
- Nine Mile Point Two Nuclear Power Plant, New York. Miscellaneous connection designs.
- Oswego Power Plant, Oswego, New York. On site engineer, for fabricator of breeching, during construction of oil-fired power plant.

Commercial / Government /Civic

- 600 Sutter, San Francisco, CA. New eight story building.
- 973 Market, San Francisco. Seismic upgrade of an existing 8 story brick and concrete building.
- Saks Fifth Avenue, San Francisco, CA. Foundation shoring for a new department store.
- El Camino Real Hotel, San Mateo, CA. Preliminary design of a new three-story hotel.
- 1989 Loma Prieta Earthquake, San Francisco, CA. Damage assessment of numerous apartment buildings and other structures for the City of San Francisco.
- City Center Rotunda, Oakland, CA. Upgrade of three, eight story adjacent buildings into one multifunction facility.

Education, Assembly / Healthcare

- Windsor Middle School, Windsor, CA. New $11 million School Campus.
- Laguna Salada School District, Pacifica, CA. Survey of 12 school campuses for Pacifica School District.
- Clovis East High School, CA. Plan check review for the Office of the Office of State Architect on several buildings of a new campus.
- Kaiser Hospital Service Building, Walnut Creek, CA. New two-story support facility for a hospital.

Multi-unit Residential

- Winterland Apartments, San Francisco, CA. Engineer of record for a 304-unit apartment complex consisting of four stories of wood framing over several levels of concrete parking.
- Park Hill Terrace, San Francisco. Upgrade and extension of former 8 story hospital building into condominiums.

Work Experience

TRB + Associates, Inc. San Ramon, CA, 2009 - Present
Structural Engineers Collaborative, San Francisco, CA, 1986—Present
Culley Associates, San Francisco, CA, 1980—1986
H. J. Degenkolb & Associates, San Francisco, CA, 1978-1980
Cives Steel Corporation, Gouverneur, New York, 1976—1978

Daniel McLaughlin, PE, CASp | Senior Plan Review Engineer

Education

Masters in Structural Engineering
Lehigh University
Bethlehem, PA

B.S Civil Engineering
Lehigh University
Bethlehem, PA

Registration

Registered Civil Engineer, California

ICC Certified Plans Examiner

DSA Certified CASp

Professional Affiliations

American Institute of Steel Construction

Dan McLaughlin is a registered Civil Engineer and ICC Certified Plans Examiner with plan review experience on numerous residential and commercial projects. He has provided structural, life safety, and mechanical/electrical/plumbing, and energy reviews on a variety of residential and commercial project types. Project types include complex single-family homes, small to mid-sized retail shell buildings, office and mercantile tenant improvements, and large mixed-use projects. Dan possesses strong structural analysis skills and has an excellent working knowledge of ADAPT, RAM, SAP2000, AutoCAD, Revit, and MathCAD structural engineering software packages.

Work Experience

Senior Plan Review Engineer, TRB + Associates, Inc. **2014 - Present**

- Dan specializes in plan review coordination with extensive experience on both complex commercial and residential projects. Dan has served in project management and reviewer roles across many large-scale projects including Phase 1 of the $9 billion RELATED Santa Clara project, and the $1.5 billion UC DAVIS HEALTH Sacramento Campus, Aggie Square project.
- Recently participated in review of 4 story 135,000 sf wood apartment building over 2 story PT parking garage
- Participated in review of a 6 story 133,000 sf steel buckling restraint braced frame office building
- Review a variety of wood, concrete, and steel building types
- Communicate with project engineers and architects on a regular basis

Engineering Assistant, Contra Costa County Sanitary District **2011 - 2014**

- Performed submittal check to ensure use of proper materials and equipment
- Created site maps to discover location of overflows in the event of clogs in the systems
- Performed sewer line inspections to ensure proper installation by contractor
- Supervised bore sight to allow continual work when lead engineer not on site

Engineering Internship, City of Pleasant Hill, Engineering Division
2007

- Performed quality control of storm drainage system project
- Supervised ADA sidewalk installation to ensure proper installation by contractor
- Developed PowerPoint Presentation of the City department functions for the City Engineer

Residential Construction, McLaughlin Construction **2011, 2013**

- Extensive knowledge in residential wood construction. Restored Victorian home including repair and seismic retrofit of foundation, re-leveled house and conducted full replacement of electrical, plumbing and sewer line. Completed unfinished basement including framing, insulation, electrical, sheetrock and finish work

Collection System Operation Laborer, Contra Costa County Sanitary District **2009, 2010**

- Performed assigned duties on the hydro, rodding, construction, and utilities location crews

Petya McInnis, PE, CASp | Senior Plan Review Engineer

Licenses and Certifications

- Professional Engineer (P.E.)
- Certified Access Specialist (CASp)
- ICC Plans Examiner
- CalOES SAP Evaluator

Education

- MS in Structural Engineering, University of California, Davis, *2009 - 2011*
- BS in Civil & Environmental Engineering (Emphasis in Structures), California State University, Sacramento, *2007 - 2008*
- MS in Structural Engineering (One semester away from completion), University of Architecture, Civil Engineering and Geodesy, Sofia, Bulgaria, *1999 – 2003*

Skills

- Collaborative Team Player
- Detail-Oriented
- Hardworking
- Enthusiastic
- Dependable
- Quick Learner
- Proficient in Current Design Standards (e.g., ASCE7, ASCE41, ACI 318, AISC, etc.)
- Software Proficiency: Experienced in 2D/3D drafting and structural analysis software (e.g., AutoCAD, LDD, Civil 3D, SAP2000, Navisworks)
- Knowledge and experience in finite element analysis tools (e.g., ABAQUS, ANSYS)

Computer Skills

- Programming & Web Design: Matlab, SQL, C++, HTML, JavaScript
- 3D Studio MAX
- SolidWorks
- Adobe Photoshop
- Illustrator
- CorelDraw
- Macromedia Shockwave Flash

Languages

- English
- Bulgarian
- Russian

Petya McInnis possesses over 22 years of experience in engineering and construction, encompassing design, plan review, and inspection for residential, commercial, and industrial projects. In her recent role as a Plan Check Engineer for the City of Fairfield, Petya oversaw a wide range of design disciplines for projects of varying sizes and types. Her expertise spanned from simple residential additions to complex commercial and industrial developments. Petya offered invaluable assistance to stakeholders, ensuring compliance with code requirements and providing technical supervision to permit technicians and inspection staff. Her proactive approach extended to assisting Building Inspectors and Officials with code research and interpretation, resulting in effective solutions for challenging construction scenarios. Petya's contributions included recommending and implementing process and policy changes to further the city's objectives. Additionally, she prepared reports and updates for the City Council, ensuring transparency and accountability in project management.

Petya also served as a client liaison for all clients in the Sacramento region and numerous clients in the Bay Area. With exceptional interpersonal skills, high productivity, and a strong work ethic, she consistently delivered top-notch customer service.

As a professional Engineer, Petya holds ICC certification as a Building Plans Examiner and is also a certified access specialist (CASp). Petya's extensive experience and expertise make her a valuable asset to any team. With well-rounded experience in the building industry, she brings a wealth of knowledge and skills to every project she undertakes.

Work Experience

Sr. Plan Review Engineer, TRB and Associates, Inc. **2024 – Present**

- Provides building plans examination for jurisdictions on an as-needed basis. Responsible for providing plan check reviews for residential and commercial structures.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval.
- Performs plan review of light commercial tenant improvements and remodel projects.

Plan Review Manager, Private Consultant **2022 - 2024**

- Oversaw daily activities of all plan review staff in the Sacramento region.
- Provided technical assistance, training, and mentorship for internal and jurisdictional staff.
- Served as a client liaison for all clients in the Sacramento region and several clients in the Bay Area.
- Reviewed all design disciplines for projects of all sizes and types.
- Specialized in reviewing large commercial projects such as mixed-use multi-family, high-rise, and podium construction.
- Prepared proposals and time estimates

Senior Plan Check Engineer, Private Consultant **2021 - 2022**

- Responsible for reviewing all design disciplines for projects of various sizes and types across multiple Cities and Counties in California, Oregon, Washington, and Massachusetts.
- Specialized in reviewing large commercial projects including mixed-use multi-family, high-rise, podium construction, shopping centers, restaurants, warehouses, big-box stores, tenant improvements, etc.
- Led "page-turning" pre-submittal sessions aimed at identifying and resolving code compliance issues before submission.
- Managed the Stanford University SLAC plan review contract.
- Provided training and performed quality control for plan review staff.
- Prepared proposals and time estimates.

Plan Check Engineer, City of Fairfield, Fairfield, CA **2014 - 2021**

- Responsible for reviewing all design disciplines for projects of various sizes and types in the City of Fairfield.
- Reviewed projects ranging from simple residential additions, alterations, ADUs, and garage conversions to complex commercial and industrial TIs and new developments.
- Assisted designers, contractors, developers, business owners, homeowners, and City staff in applying, understanding, and interpreting applicable code requirements for each project, providing guidance for potential code-compliant solutions.
- Provided technical supervision to permit technicians and inspection staff.
- Assisted Building Inspectors and Building Official with code research and interpretation on difficult or unusual construction situations.
- Recommended and created process and policy changes.
- Prepared reports and City Council updates.

Senior Structural Engineer, AIR Worldwide, San Francisco, CA **2011 - 2014**

- Served as a Senior Engineer in the Catastrophe Risk Engineering Group.
- Evaluated code compliance of proposed and existing facilities across different countries/regions worldwide.
- Reviewed structural drawings and calculations to identify potential design deficiencies.
- Developed reliable quantitative measures of site-specific natural disaster risk (e.g., seismic, wind, flood, tsunami).
- Created 3D structural models for performance-based evaluations.
- Conducted site inspections and prepared proposals, progress reports, final project reports, and presentations.
- Collaborated closely with national and international government agencies and organizations on disaster risk reduction, mitigation, and response strategies.
- Notable projects included:
  - Seismic Risk Assessment of the Solar Millennium Project at Blythe, CA
  - Hurricane Risk Assessment of Walt Disney World, Orlando, FL (Phase I, IIA, and IIB)
  - Seismic and Wind Risk Assessment of KAUST, Saudi Arabia
  - Real-time Seismic Damage Assessment for the California Earthquake Authority
  - Real-time Hurricane Risk Assessment for DOW Chemical, Freeport, TX
  - Various international multi-phase disaster risk assessment projects in collaboration with the World Bank and the Asian Development Bank.

Design Engineer, Mark Thomas & Company, Sacramento, CA **2008 –2011**

- Worked as a Design Engineer on multiple municipal transportation engineering projects, including highway interchange and bridge projects, local roadway improvements, and streetscape enhancements.
- Prepared infrastructure analyses to support the implementation of planning frameworks and design concepts for each project.
- Led the planning, geometric design, and coordination for the Sacramento City College Bicycle/Pedestrian Overcrossing Project.
- Provided construction support for the 4-mile Folsom Blvd Enhancements Project in Rancho Cordova and the historic preservation R Street Reconstruction Project in Sacramento.
- Prepared various technical reports, construction details, utility mapping and coordination, grading plans, access compliance, quantity take-offs and estimates, drainage pattern analyses, and storm drain design.
- Other projects included: I-5 / Cosumnes River Blvd Interchange PS&E, Watt Ave / HWY 50 Project, Sacramento Regional Transit SSCP2, Stockton Transportation Impact Fee Study, R Street Market Plaza, and Ramona Ave Extension.

Project Engineer / Project Manager, KHS&S Contractors, Concord, CA **2005 – 2007**

Sr. Production Operator, FedEx Kinko's SF East Bay CPC, Pleasanton, CA **2004 – 2005**

Jim Begley, FPE, CFM, LEED AP | Fire Protection Engineer

Education

Worcester Polytechnic Institute
M.S. in Fire Protection Engineering - 2006

University of Maryland at College Park
B.S. in Fire Protection Engineering - 1996

Registration | Certifications

Licensed Fire Protection Engineer:
California, Nevada, Arizona, 15 additional states

LEED Accredited Professional

ICC Certified Fire Marshal

ICC Certified Fire Plans Examiner

ICC Certified Fire Inspector

Professional Affiliations:

National Fire Protection Association (NFPA)

Society of Fire Protection Engineers (SFPE)
Member grade

SPFE
Member of International Board of Directors

Jim Begley has 20 years of experience and began his engineering career in 1993 at Lockheed Martin Energy Systems in Oak Ridge, TN. After relocating to Las Vegas in 2002, Jim was responsible for hospitality projects such as Caesars Palace, Hard Rock Hotel, the Palms Casino, Bally's and Paris Hotel Resort while managing the Las Vegas office of Schirmer Engineering Corporation. In May 2005 Jim joined JBA Consulting Engineers as the Director of Fire Protection Engineering and became Director of Domestic Business Development in 2008 prior to establishing his own firm in 2010.

Jim is a registered Fire Protection Engineer in 18 states. While at the University of Maryland, Jim was awarded membership to the Salamander honorary fire protection engineering fraternity. Jim is a past President of the Southern Nevada chapter of the Society of Fire Protection Engineers (SFPE) and currently sits on the SFPE Board of Directors on an international level.

Education

Worcester Polytechnic Institute
M.S. in Fire Protection Engineering - 2007

Worcester Polytechnic Institute
B.S. in Fire Protection Engineering - 2006

Registration

Licensed Fire Protection Engineer:
California, Kansas, Louisiana, Nevada, Oregon

Professional Affiliations

Society of Fire Protection Engineers (SFPE)
Member grade, Southern Nevada Chapter – President

Bryan Douglass has over 10 years of experience and began his engineering career in 2006 as a Graduate Intern at Rolf Jensen & Associates, Inc. In January 2008, Mr. Douglass joined JBA Consulting Engineers as a Consultant, providing code consulting and conceptual design of fire protection systems for various gaming, hospitality, and commercial projects. He was eventually promoted to Senior Fire Protection Engineer and was responsible for the management of projects such as SLS Las Vegas, Marriot Grand Chateau Phase 3 Tower, and Michael Jackson Cirque Show. He also served as an MQAA special inspector for projects such as, Sam's Town, Encore at Wynn Las Vegas, and Bluegreen Timeshare.

Mr. Douglass is a registered professional Fire Protection engineer in 5 states. He is past President of the Southern Nevada Chapter of the Society of Fire Protection Engineers.

Bryan holds an M.S. degree in Fire Protection Engineering from Worcester Polytechnic Institute, MA and a B.S. degree in Mechanical Engineering from Worcester Polytechnic Institute, MA.

Jay Griffin, CASp | Senior Plans Examiner

Licenses and Certifications

- Certified Access Specialist #788

Education

High School Diploma

Skills

- Communication, both written and verbal
- Critical thinking
- Technical plan review
- Creative solutions to complex problems

Jay Griffin possesses over 40 years of experience in the building industry including 20 years as a Supervising Building Inspector. He has extensive knowledge in the areas of building life safety, accessibility, plumbing, and mechanical disciplines, as well as a strong background in plan review. Jay's expertise spans across a wide range of complex projects, including commercial and residential buildings. Throughout his career, he has gained hands-on experience working in various roles, such as carpenter, lead carpenter, job foreman, superintendent, building contractor, and building inspector.

As a collaborative leader, Mr. Griffin recently provided exceptional leadership skills as the Supervising Building Inspector for the City of Sacramento Building Division. He also taught life safety and disabled access classes to city staff and provided guidance and support to plan review and inspection staff. With his expertise in resolving code-related issues and ensuring compliance with regulations, Jay maintains high levels of productivity, reliability, and customer service. He is also a certified California Access Specialist (CASp) and is passionate about continuing a career in the building life safety field.

Work Experience

Sr. Plans Examiner, TRB and Associates, Inc. **2023 – Present**

- Provides building plans examination for jurisdictions on an as-needed basis. Responsible for providing plan check reviews for residential and commercial structures. Review scope includes both structural and non-structural disciplines.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval.
- Performs plan review of light commercial tenant improvements and remodel projects.

Supervising Building Inspector, City of Sacramento, Sacramento, CA **2004 – 2023**

- Reviewed incoming workload for completeness and complexity and assigned tasks to staff members as needed.
- Taught ongoing life safety and disabled access classes to city staff, ensuring that they were up-to-date on the latest regulations and requirements.
- Served as a subject matter expert on life safety and disabled access provisions of the California Building Code, providing guidance and support to city plan review and inspection staff. Resolved code-related issues as they arose, using deep knowledge and expertise to ensure compliance.
- Reviewed project plans for compliance with applicable requirements of the California Building Code for life safety and disabled access. Worked on a wide range of projects, from simple tenant improvements to high-rise buildings, complex additions to historic structures, and the Golden 1 Arena. Conducted thorough reviews and provided detailed feedback to ensure that all aspects of the code were met.
- Evaluated AMMR (Alternative Materials and Methods of Construction) requests for equivalence with prescriptive code.

Jeff Brooks, CASp | Senior Plans Examiner

Licenses and Certifications

- Certified Access Specialist
- ICC CA Commercial Pluming Inspector
- ICC CA Commercial Mechanical Inspector

Education

Cosumnes River College
Building/Home/Construction Inspection/Inspector

Honors/Awards

- Building Official Leadership Academy – CALBO
  Building Official Leadership Academy (BOLA) Award for completing the CALBO BOLA program for2017-2018.

Skills

- Municipalities
- Construction
- Code Enforcement
- Life Safety
- Building Codes
- Plan Review
- Building Inspections
- NFPA
- Interpersonal Skills

Jeff possesses over 40 years in the construction industry with 21 years as a building inspector performing commercial and residential plan review and inspections in the building life safety, accessibility, plumbing, mechanical disciplines throughout Northern California. Jeff's expertise includes the review of highly complex mechanical and plumbing systems. He also has 20 years of experience working in the trades and as a contractor building custom homes.

As a collaborative leader, Jeff recently provided exceptional leadership skills as the Cannabis Project Manager for the City of Sacramento Building Division. He also provided training and direction for other plans examiners and inspectors for legal related facilities. He works well with the public as well as his colleagues and maintains high levels of productivity, reliability with excellent work ethic to deliver high quality customer service.

Jeff is ICC certified as a Commercial Building and Electrical Inspector. In addition, he is also certified as a California Access Specialist (CASp). Jeff has well-rounded experience in the building industry.

Work Experience

Senior Plans Examiner, TRB and Associates, Inc. **2021 – Present**

- Reviews complex plan drawings and calculations for code compliance on behalf of client agencies.
- Performed comprehensive mechanical and plumbing review for new $100 million mixed use project located in the City of West Hollywood.
- Performed mechanical and plumbing review for new $1.3 billion mixed use project located in Sacramento, CA
- Reviews encompass all manner of construction, including residential, commercial, and industrial project types.

Building Inspector/Plans Examiner, City of Sacramento **2000 – 2021**

- Performed mechanical plumbing plan review for Golden 1 Center Arena, home of the Sacramento Kings.
- Provided life safety, fire systems, and mechanical and plumbing plan review on a wide range of project types during tenure.

General Contractor, Brooks Construction **1980 – 2000**

Ryan Leiendecker | Senior Plans Examiner

Certifications/Licences

ICC Certified:
- Certified Building Official
- Certified Fire Marshall
- Building Code Specialist
- Building Plans Examiner
- Residential Energy Inspector/Plans Examiner
- Commercial Energy Plans Examiner
- Residential Plans Examiner
- Plumbing Plans Examiner
- Commercial Building Inspector
- Residential Building Inspector
- Commercial Plumbing Inspector
- Building Inspector
- Permit Specialist
- Permit Technician

Training Certificates:
- Anchorage Design
- Repair Application Procedure
- Fundamentals of Concrete and Materials
- Fundamentals of Concrete Construction

Education

- Brandman University (Chapman University System), Irvine, California- Master of Public Administration
- Brandman University (Chapman University System), Irvine, California- Bachelor of Sociology

Ryan James Leiendecker possesses more than 14 years of experience in building and fire life safety, conducting plan reviews and inspections for residential and commercial projects in the public sector. In his recent role as a Senior Plan Checker at the City of Pleasanton Building and Safety Division, Ryan supervised Plan Checkers and conducted quality control reviews of consultant's plan reviews. He evaluated building and structural plans for compliance with various codes and met with stakeholders to discuss projects. Ryan conducted over-the-counter reviews for simple projects, while also effectively communicating with customers at the counter, over the phone, and via email, consistently delivering exceptional customer service. He also served as backup for the Chief Building and Safety Official, assisted in special projects, and conducted field inspections as needed.

Ryan has vast experience reviewing construction plans to ensure structural integrity and compliance with regulatory standards, covering California building, mechanical, electrical, plumbing, energy, green, fire codes, and local ordinances.

Work Experience

Senior Plans Examiner, TRB and Associates Inc. **2022 – Present**

- Senior Plans Examiner for jurisdictions on an as needed basis responsible for conducting fire and life safety plan review and inspections ensuring compliance with all applicable local, state, and federal agencies.

Senior Plan Checker, City of Pleasanton Building and Safety **2021 - 2022**

- Supervised Plan Checker and ensured quality control of consultant's plan reviews.
- Checked building and structural plans from architects, engineers, contractors, and owners for compliance with codes and regulations.
- Collaborated with stakeholders like architects, engineers, contractors, and homeowners to discuss projects.
- Conducted over-the-counter reviews for simple projects.
- Provided information and assistance to customers in person, over the phone, or via email.
- Issued building permits and participated in staff meetings to review project compliance.
- Delivered customer service at the Public Counter, including minor plan reviews, and resolving conflicts.
- Acted as backup for the Chief Building and Safety Official when needed.
- Assisted in special projects such as community studies and emergency planning.
- Conducted field inspections related to plan reviews as necessary.

Plans Examiner, County of Napa Building Division **2015 – 2021**

- Reviewed construction plans for structural integrity and compliance with the California building, mechanical, electrical, plumbing, energy, green, fire code and local ordinances.
- Assisted building inspectors with inspections concerning complex structural and life safety issues.
- Met with architects, engineers, and contractors to discuss future or ongoing projects.
- Provided over-the-counter reviews for certain simple projects.
- Provided information to customers at the counter, over the phone, or via email.

Combination Building Inspector Aide II, City of Long Beach Building & Safety **2014 - 2015**

- Assisted customers at the public counter by answering Title 24 code and permit related questions and issuing permits.
- Plan checked photovoltaic systems, signs, pools, and spas.

Steven Block, E.E. | Senior Plan Review Engineer

Education

B.S. Engineering, Physics
California State University, Northridge, CA

Registration

Registered Electrical Engineer
California, Nevada, Arizona, Hawaii

Steven Block is a highly skilled electrical engineer with over 25 years' experience in the electrical engineering field. His expertise includes electrical design and plan review for compliance with the National Electrical Code, California Electrical Code, California Energy Code, local ordinances, National Electrical Safety Code, California Electrical Code, California Energy Code, local ordinances, National Electrical Safety Code, OSHA and other applicable laws, ordinances, regulations and standards (LORS).

Projects reviewed for code compliance include commercial and industrial solar power plants, commercial natural gas power plants, wastewater treatment plants, and cement plants, industrial and commercial buildings, parking structures, hotels, and municipal utilities. Designed and provided construction support for traffic signals, highway lighting, closed circuit television, traffic monitoring stations, maintenance stations, and storm water pumping stations.

Work Experience

Senior Electrical Plan Review Engineer, TRB and Associates **2016 - Present**

- Plan review for residential, commercial, and industrial installations – Phillips 66 Naval Weapons Station, OSHPD 3 reviews for the City of Sacramento, Benicia Valero Refinery Audit, Child Daycare Center in Santa Clara, new apartments in Sacramento.

Senior Electrical Engineer, Private Consulting Firm **2004 - 2016**

- Plan review for code compliance and field inspector support – Silver State North Photovoltaic Generating Station, transmission lines, and high voltage substation (Nevada), Palomar Power Project (California), Panoche Energy Center (California), Abengoa Solar Thermal Generating Station and substation (California), Genesis Solar Collector Generating Station (California), Inland Empire Energy Center (California), Distributed Energy Partners Generating Stations (Hawaii), Various Wind Power Generating Stations in Solano County, CA, and other generating stations.
- Plan review for commercial and industrial installations – FBI Honolulu, Disney Hawaii, Fort Irwin Military Housing (California), various rooftop photovoltaic installations (Hawaii), Valero Refinery Benicia (California), Transmission Line Feeder for Concrete Plant (Nevada) and Various Cellular Tower Installations (Hawaii).

Alan Roth, E.E. | Senior Plan Review Engineer

Education

B.S. Electrical Engineering
California State Polytechnic University

Registration

Registered Electrical Engineer
California

Alan Roth is a registered professional electrical engineer with over 30 years of engineering experience. His experience encompasses extensive electrical systems design, quality control, and oversight roles at power plant and other industrial facility types. Past roles include working for Calpine, Inc. and Dow USA on power generation and chemical plant projects.

Work Experience

Senior Electrical Plan Review Engineer, TRB + Associates **2016 – Present**

- Conducts electrical code compliance plan review of industrial and power generation facilities. Currently assisting with plan review $1 billion petrochemical refinery expansion project.

Electrical Engineering, Calpine Corporation **1998 – 2014**

During tenure at Calpine Corporation, held positions of Senior Electrical Engineer, Senior Project Engineer, Senior Operations Engineer, and Senior Electrical Engineer 3.

- Provided support for the design and construction of a new combined cycle power plants and installation of new combustion turbine generators in existing plants. Duties included:
  - Reviewed engineer's design documents for compliance with Calpine standards and proper interface with OEM documentation
  - Provided field support as required
  - Design
  - Management of capital projects
  - Analysis of protection and control systems
  - Root cause analysis and determination of corrective actions for equipment and protection system failures
  - Recommended predictive preventative maintenance
- Provided interface with consultants for complete protection reviews at 12 Calpine power plants in CA. Duties include:
  - Compiled all protection related drawings
  - Compiled any relay coordination and settings documents
  - Provided field support to consultants to verify drawings and actual protective relay settings
- Determined the preliminary conceptual design, using standard design guidelines for plants in development
- Interfaced with local utilities for new interconnections for projects in the development phase
- Represented Calpine to WECC and other regulatory bodies.
- Provided guidance to plants on maintaining compliance with regional and national reliability standards.
- Interfaced with local utilities for new interconnections for projects in the development phase.
- Represented Calpine to WECC and other regulatory bodies.
- Determine the specification of the major equipment to be selected for the projects as well as interfacing system design.
- Interfaced with utilities, steam hosts, gas suppliers, permitting agencies, consultants and other organizations involved with the development of power projects.
- Directed transmission consultants in initial studies for power plant siting.

Peter Kogan, M.E., LEED AP | Senior Plan Review Engineer

Education

Master of Science, Mechanical Engineering, Moscow Aeronautical Institute, Russia

Registration/Certification

Registered Professional Mechanical Engineer: California, Hawaii, Nevada, Texas, Colorado, Arizona

Certified Energy Manager (CEM), State of California

LEED Accredited Professional

Peter Kogan is a licensed mechanical engineer with over 30 years of diversified experience in the construction industry. His expertise lies in the areas of design and construction administration for Heating, Ventilation and Air Conditioning, Plumbing, Fire Protection, Energy and Building Studies, and Value Engineering. In the past ten years he was responsible for the design and renovation construction of several historical preservation projects. Peter's extensive experience and personal attention to project details has always assured professional services performed within budget and to complete client satisfaction.

Peter has published several technical articles in the national magazine "Heating, Piping, Air Conditioning" and recently had an article published in the architectural magazine "Progressive Architecture". Peter has presented a technical paper on World Energy Congress in Atlanta, Georgia in 1990.

Akitayo (Tai) Akiwumi | Senior Plans Examiner

Certifications/Licences

ICC Certified:

- Building Plans Examiner
- Building Inspector
- Plumbing Inspector

Education

- Master of Science - Mechanical Engineering, University of Manchester Institute of Science and Technology, UK.
- Bachelor of Science - Mechanical Engineering, University of Manchester Institute of Science and Technology, UK.

Training

- 2022 CBC Chapter 11A: Privately Funded Multi-Family Dwelling Accessibility.
- 2022 CBC Chapter 118: Accessibility in Public Buildings, Public Accommodations and Commercial Buildings.

Committee Representation

City representative at the Tri-Chapter Uniform Code Committee meetings.

Akitayo (Tai) Akiwumi possesses over 22 years of experience in conducting complex plan reviews for residential and commercial projects, encompassing architectural, mechanical, plumbing, and electrical aspects. In his recent role as a Plans Examiner at the City of San Ramon, he conducted thorough plan reviews for a diverse portfolio of projects, ranging from new constructions to tenant improvements and alterations. Tai's responsibilities also extended to performing over-the-counter plan checks, issuing permits, and providing invaluable code resource services to clients.

In previous roles, Tai demonstrated his proficiency by providing guidance to designers, training staff, addressing customer inquiries, conducting extensive research on code issues, and collaborating effectively with architects and designers. His dedication to ensuring compliance and safety standards has been evident throughout his career.

Tai exhibits exceptional knowledge of local, state, and federal safety standards, ensuring strict adherence to regulations. Holding ICC certifications as a Building Plans Examiner, Building Inspector, and Plumbing Inspector, he brings a well-rounded expertise to the building industry. urthermore, his background in mechanical engineering, technical supervision, general management, and project development, combined with his reliability in supporting team efforts, greatly enhances his performance in his role.

Work Experience

Senior Plans Examiner | TRB and Associates Inc. **2024 - Present**

- Senior Plans Examiner for jurisdictions on an as needed basis responsible for conducting fire and life safety plan review and inspections ensuring compliance with all applicable local, state, and federal agencies.

Plans Examiner | City of San Ramon, San Ramon, CA **2005 - 2024**

- Conducted residential and commercial architectural, mechanical, plumbing, and electrical plan reviews.
- Reviewed a wide range of projects, including:
  Non-Residential:
  - New constructions like malls, offices, and restaurants.
  - Tenant improvements for offices, restaurants, stores, warehouses, and more.

  Residential:
  - Single-family dwellings, involving both new constructions and alterations.
  - Multi-family dwellings, including new constructions and alterations.
- Performed over-the-counter plan checks, issued permits, and provided code resource services to customers via counter, email, and telephone inquiries.
- Assisted in training permit technicians and ancillary staff.
- Met with architects and designers before project submittals for review.
- Conducted field inspections as needed.

Plans Examiner I & II, Berryman & Henigar Inc. | Pleasanton, CA **2002 - 2006**

- *2005 - 2006:* Served as Plans Examiner II, conducting part-time residential and commercial architectural, mechanical, plumbing, and electrical plan reviews on an as-needed basis.
- *2002 - 2005:* Functioned as a Plans Examiner, overseeing residential and commercial architectural, mechanical, plumbing, and electrical plan reviews.
- Additional responsibilities included:
  - Provided guidance to designers on code compliance issues.
  - Assisted in training permit technicians and ancillary staff.
  - Addressed customer inquiries regarding plan checks and other matters.
  - Conducted research on code issues as requested by building departments.
  - Collaborated with architects and designers prior to project submissions for review.

Michael Osborn, PE, LEED AP | Senior Civil Plan Review Engineer

Licenses and Certifications

Registered Civil Engineer | 66022

LEED AP, 2009

Education

Bachelor of Science, Civil Engineering
California Polytechnic University, San Luis Obispo, CA

Caltrans Local Assistance Resident Engineer (RE) Academy

Affiliations

Leadership Santa Barbara County, Board of Directors

Leadership Fresno, Class 31

American Society of Civil Engineers (ASCE)

Michael Osborn is a senior engineer at Provost & Pritchard. With over 20 years of engineering experience, Mr. Osborn has been involved in a variety of public works, residential and commercial development, and educational facility projects. His areas of expertise include site grading design, Americans with Disabilities Act (ADA) site accessibility design and assessment, stormwater management, storm drainage, sanitary sewer systems design, street design, and site development.

Work Experience

Plan Check Engineer, Grading and Drainage Plan Check Services | City of Santa Clara, CA

Mr. Osborn is currently assisting the City of Santa Clara by providing grading and drainage plan check services for various projects in the city. Mr. Osborn has been a primary plan check engineer, reviewing on-site development and associated improvements in the public right-of-way in relation to demolition, grading and drainage. Projects have varied in size from single commercial buildings to multi-family residential to the multi-phased, mixed-use Related Santa Clara project.

City Engineer | City of Mendota, CA

Mr. Osborn is the current City Engineer for the City of Mendota. His responsibilities include management and coordination of the City's state and federally-funded street projects through the Fresno County Council of Governments (FCOB) and Caltrans DLAE and coordination with the City Manager and Public Works Department on infrastructure issues with streets, water, sewer, and storm drain. Mr. Osborn has a significant role in assessing and identifying pavement conditions and storm drain infrastructure issues and needs for the City and putting that knowledge to use in assessing potential flooding issues and coordinating pavement maintenance and street reconstruction.

Project Manager, On-Call City Engineering Services | City of Dinuba, CA

Mr. Osborn provided general civil engineering services to the City of Dinuba, assisting the City's Public Works Department to complete capital improvement projects for 18 months. Projects that were included under this contract ranged from providing civil engineering and land surveying for park facility upgrades, ADA compliance, updating the City's Urban Water Management Plan, development reviews, and grant writing assistance.

Project Engineer, ADA Assessment and Barrier Transition Plan, Community Regional Medical Center | Fresno, CA

Mr. Osborn was the project engineer responsible for completing an ADA compliance site self-evaluation of the Community Regional Medical Center campus. The exterior site-evaluation consisted of the paths of travel from parking stalls to building front doors, and paths of travel between buildings. Upon completion of the evaluation and results report, a Barrier Removal Plan was prepared and included a detailed list of compliance areas that needed to be addressed.

Project Manager, Ongoing Consulting Services, Santa Barbara Community College District | Santa Barbara, CA

Mr. Osborn was responsible for providing ongoing engineering services for the Director of Facilities & Operation and Campus Development. He prepared a pavement assessment of all three campuses within the District, which led to the District's first pavement management plan. In addition, he improved approximately 30,000 square feet of pathways, repaired or resurfaced approximately 10 acres of asphalt pavement, improved the sites of 27,840 square feet or modular buildings, and improved accessible parking and routes of travel around each project. Additional scope of services included mapping existing utilities and improving potable water and sanitary sewer facilities to new buildings. Mr. Osborn also studied slope erosion and prepared "on-call" emergency slope repairs, and provided site grading, paving, utility and storm water management improvements for new building construction as the project civil engineer on several architectural teams.

Michael Williams | Supervising Inspector

Certifications/Licenses

California ICC Certified:
- Building Inspector B5
- California Residential Building Inspector
- California Commercial Building Inspector

Certified in Oregon:
- Oregon OIC-OR Inspector

Douglas Kreiss | Senior Building Inspector

Certifications/Licenses

- ICC Certified Combination Dwelling Inspector - Uniform Codes
- ICC Certified Residential Combination Inspector
- ICC Certified Commercial Electrical Inspector
- ICC Certified Mechanical Inspector
- ICC Certified Plumbing Inspector UPC
- ICC Certified Mechanical Inspector UMC
- ICC Certified Building Inspector
- ICC Certified Plumbing Inspector
- ICC Certified Electrical Inspector
- ICC Certified Combination Inspector
- ICC Certified Commercial Combination Inspector
- California State Fire Marshal Fire Prevention 1A, 1B, 1C

Education

- University of Illinois, Champaign, IL, M.S.
- University of California, Berkeley, CA, B.A.
- College of Alameda, CA. A.A.

Douglas possesses over 20 years of building industry experience as a Certified Building Inspector. Douglas' extensive knowledge includes a wide variety of project types including all aspects of single and multi-family residential, commercial, and industrial structures. He has in-depth code knowledge as is adept at the practical application of the codes working with public agencies.

Mr. Kreiss most recently served as a Building Inspector for the City of Fremont. In this role, he provided expertise, staff training and interpretation of mechanical installation and inspection in addition to combination inspection duties in special projects. This has provided him with a wealth of building industry experience. Douglas has demonstrated outstanding customer service with the public, contractors and development community.

Douglas is also ICC certified in multiple areas including as a Building Inspector, Combination Dwelling Inspector – Uniform Codes, Plumbing Inspector UPC, Mechanical Inspector UMC, Commercial Combination Inspector, Residential Combination Inspector, Commercial Electrical Inspector, Mechanical, Electrical and Plumbing Inspector. Jacqueline (Jacqui) Powers | Senior Permit Technician

Education

Bachelor of Arts, Chico State University

Licenses/Certifications

NFPA 472 Hazardous Materials Awareness

ICC Certified Plans Examiner *(expired)*

Jacqui Powers brings more than a decade of expertise in the building industry. As a Senior Permit Technician, she excels in navigating building practices and regulatory compliance across federal, state, and local levels. Jacqui is highly proficient in data entry, project coordination, and office administration, enabling her to effectively manage multiple projects while maintaining exceptional customer service standards. This includes her extensive experience in building and life safety for numerous jurisdications throughout California.

Work Experience

Senior Permit Technician, TRB + Associates **2017 - Present**

- Assist with Document Control for various projects
- Contract Permit Coordinator for jurisdictions on an as needed basis.
- Assist clients with questions and inquiries
- Manages the demands of multiple jurisdictions
- Reviews plans for new residential, additions, improvements and light commercial projects.

Plans Examiner | Permit Technician, Bay Area Municipal Consultant **2013 –2017**

- Provided plan review of residential and commercial projects; including additions and tenant improvements.
- Contract Permit Technician for multiple jurisdictions
- Document Control for various high scale commercial and power plant projects.

Event Director | Office Manager, Bay Area Catering **2009 - 2011**

- Managed all aspects of event coordination, including preparing proposals, negotiating contracts, discussing rental upgrade options with clients, developing event timelines, creating menus, collaborating with outside vendors, and arranging rentals.
- Recruited, trained, delegated tasks to, coached, and motivated event staff. Evaluated staff performance. Entered, retrieved, and updated event setup information, and produced event reports using a computerized event management system.

Event Director | Office Manager, East Bay Golf Course **2004 - 2009**

- Served as the "Command Center" for the office, addressing issues and relaying accurate information between sales staff, chefs, employees, and the managing partner. This included details on guest counts, menus, tastings, location, and timing.
- Compiled a monthly binder detailing all events and staff schedules for the managing partner, chef, and sales staff.
- Functioned as the office administrator, handling phone calls, emails, scheduling meetings and conferences, managing transportation and travel arrangements, and processing mail.
- Demonstrated proficiency in Microsoft Office programs (Word, Excel) and various email systems (1and1, Outlook).
- Skilled in QuickBooks for invoicing, billing, payroll, bill payments, and report generation.
- Managed the office schedule for all staff, including front of house and production, and supervised sales staff appointment setting.
- Monitored all accounts payable and receivable, maintained vendor relationships, processed client payments, created budgets, tracked inventory, and completed profit and loss statements.

Fee Schedule

TRB and Associates offers the following fixed-fee and hourly rate schedules for services provided. Please note that Building Plan Review services are rendered on either a fixed fee or hourly rate basis, as noted below. If additional services are requested such as Building Inspection, Permit Processing, Staff Augmentation and Other services (e.g. MWELO, Civil Plan Review; CASp consulting), those services can be provided on an hourly basis at rates shown in the provided Schedule of Hourly Rates and Reimbursables.

Plan Review Services

Our plan review fees may be calculated as a percentage of the Plan Check Fee collected by the City. The fee compensation shown covers three total plan review cycles – the initial plan review and two rechecks. Any further review cycles which become necessary and reviews of revisions to approved plans would be billed on an hourly basis at the Senior Plan Review Engineer/Architect rate provided in the accompanying Schedule of Hourly Rates and Reimbursables. Please note that the turnaround timeframe for providing expedited and express plan reviews would be negotiated/mutually agreed upon prior to commencement of the review. Please also note that all plan reviews are subject to a minimum $250 fee.

Turnaround Timeframe* (in business days)	Structural Only Review	M/E/P Only Review	MWELO Only Review	Certified Floodplain Manager (CFM) Only Review	Complete Building Review (Structural, Life Safety/Disabled Access, M/E/P, Green, Energy)
Standard Generally, five-to-ten-day turnaround, as mutually agreed upon	50%	50%	70%	70%	70%
Expedited** As negotiated and mutually agreed-upon	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent

* For exceptionally large/complex projects, 15-day first check and 10 day rechecks may apply, as mutually agreed upon prior to commencement of review.

** Turnaround timeframe would be mutually agreed upon prior to commencement of work.

*** Note: For other review scope combinations not specifically identified in the above table (e.g. Electrical Only, Mechanical/ Plumbing Only, etc.), the fee compensation would be on an hourly basis.

**** Projects with Calculated Plan Reviews Fees in Excess of $10,000 are eligible for negotiated cost.

Please note that the pickup, shipment, and delivery of hardcopy and/or electronic plan documents and other relevant correspondence to the City is included in the above-noted cost.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Schedule of Hourly Rates and Reimbursables

The following billing rates apply for services rendered on an hourly basis:

Position	Hourly Rate
Principal	$205.00
Project / Division Manager	$175.00
Building Official	$165.00
Assistant Building Official	$155.00
Supervising Plan Review Engineer/Architect	$165.00
Senior Plan Review Engineer/Architect	$150.00
Senior Plans Examiner (Building & Fire)	$140.00
Plan Review Engineer/Architect	$135.00
Plans Examiner (Building & Fire)	$125.00
Supervising Civil Engineer	$225.00
Senior Civil Engineer	$200.00
Associate Civil Engineer	$180.00
Engineering Technician	$125.00
Permit Technician III	$ 95.00
Permit Technician II	$ 85.00
Permit Technician I	$ 75.00
Clerical/Admin	$ 70.00
Fire Protection Engineer	$225.00
Geotechnical Engineer	$255.00
CASp Certified Inspector/Examiner	$165.00
Grading/Storm Water Plan Review Engineer	$195.00
QSP Storm Water Inspector	$195.00
MWELO Plan Review/Inspection	$195.00
Inspection Task Leader / Inspector of Record	$155.00
Supervising Inspector	$145.00
Senior Inspector III	$135.00
Senior Inspector II	$130.00
Senior Inspector I	$125.00
Inspector II	$120.00
Inspector I	$110.00

- Overtime, Emergency, Expedited, and After-hours work is billed at the above-noted rates plus an additional 50 percent (Note that no overtime will be charged without client authorization). Please note that for any Emergency Call Outs, a minimum 8-hour fee applies.
- Project inspections subject to prevailing wage requirements are at the above-published rates plus 30 percent.
- All requested inspection and other staff-augmentation services are subject to a minimum 4-hour fee.
- Reimbursement for direct expenses incurred in connection with the work, will be at cost plus 15 percent.
- Reimbursement for non-City vehicles used in connection with the work will be at the current IRS rate plus 20 percent per mile.
- Other in-house charges for prints, reproductions and equipment use, etc. will be at standard company rates.

The above Schedule is valid through June 30, 2026 and may be adjusted thereafter to account for CPI changes, as mutually agreed upon.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Litigation Claims Statement

To confirm, TRB does not have any litigation or claims threatened, pending, or filed, or filed then settled, in the past five years, or for the life of the firm.

Project Completions Statement

Also to confirm, TRB does not have any projects where it failed to complete any work awarded in the past five years, or for the life of the firm.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Financial Stability

To confirm, TRB has experienced continued growth in its nearly 20 years in business, is in sound financial standing, and has a firm footing in the municipal consulting industry.

- Of note, TRB has successfully provided Community Development Department Support Services to the City of Benicia since 2007

Also to confirm, if selected, TRB is prepared to provide financial statements for the last 3 fiscal years if requested.

City Insurance Requirements Verification

As evidence of our firm's ability to meet the City of Benicia's insurance requirements as described in the Professional Services Agreement, a copy of our Certificate of Liability Insurance which is currently on file with the City of Benicia is included on the following page. To confirm, all requested coverage types and amounts are accounted for on our current and upcoming renewal certification [Please note, total Auto Liability Coverage totals $3 million, given Umbrella Liability Policy of $2 million in concert with $1 million Auto Liability Policy]

Relevant Project Experience

TRB staff members have extensive experience providing plan review, building inspection, permitting and other Building Safety and Public Works support activities to municipal agencies. To help demonstrate our depth of knowledge, please find the following large projects profiled for your reference. Please note that additional project experience information and references follow the profiled projects.

RELATED Santa Clara Mixed Use Project | Agency: City of Santa Clara, CA

Valuation: $9 billion
Completion Date: Pending
Project address/location: Santa Clara, CA
Project contact person: City of Santa Clara; David Tran SE, Asst. CBO, (408) 615-2436
Scope of work: Combination Code Compliance Plan Review, including Grading & Drainage
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Paul Armstrong, Dominic Ma, Karin Kuffel, Jim Johnson.

TRB was selected by the City of Santa Clara to provide Life Safety, Disabled Access, Structural MEP, Energy, Green Building, Civil, Stormwater, and Grading construction code compliance services, including Alternate Material and Methods support for Phase One of the Related Santa Clara multi-phased, mixed-use project.

The project at projected full build out (ie all phases) consists of 9.2 million square feet of mixed-use development with commercial office, retail / entertainment including a food market, 1,680 residential units, 700 hotel rooms, parking facilities, new open space, and roads, new / upgraded / expanded infrastructure and utilities, and approximately 5 million square feet of corporate office space. The first phase of the project comprises an 850,000 sf garage with 2 high rise towers, 1 mid-rise building, and multiple low rise structures located above (podium construction).

Hollywood Burbank Airport Replacement Passenger Terminal Project | City of Burbank, CA

Valuation: $700 million
Completion Date: In Progress
Project address/location: Burbank, CA
Project contact person: City of Burbank, Mario Osuna, PE, Building Official, (818) 238-5241
Scope of Services Provided: Combination Code Compliance Plan Review, including Grading & Drainage, MWELO, Traffic Engineering
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Paul Armstrong, Dominic Ma, Karin Kuffel, Jim Johnson, Jeff Brooks, Michael Osborn, Jim Begley, Chris Rose

TRB was selected by the City of Burbank to provide Life Safety, Disabled Access, Structural, MEP, Energy, Green Building, Low-Impact Development (LID), Civil, Grading, and Geotechnical code compliance services and Alternate Materials and Methods Request (AMMR) support for the Replacement Passenger Terminal (RPT) project at Hollywood Burbank Airport. Plan review will also include any post permit modifications on an expedited basis. Our team participates in monthly project team meetings and meetings to discuss specific topics (i.e. AMMR, plan check submittal walkthroughs, and plan check comment questions) set up by the design team and City.

This project is using a progressive design-build approach for permitting and construction. The scope of the project includes: a new 355,000 SF, 14-gate passenger terminal building (which will replace the current terminal building), new on-airport publicly accessible roads to include a primary entrance road, loop road, recirculation road and also a secondary access road, as well as airport service vehicle roads, and dedicated facility access roads; a new 6-Level, 700,000 SF public parking structure and an employee-only surface lot; new aircraft apron between building and active taxiway; and a newly constructed ancillary building to replace existing airline cargo and ground service equipment/terminal maintenance buildings.

Docusign Envelope ID: 2DACA563-19DE-45C7-9DC1-BCD19C37A2DF

Dual Tower 26-Story and 8-Story Mixed-Use Buildings | Agency: City of Oakland, CA

Valuation: $200 million
Completion Date: In Progress
Project address/location: Oakland, CA
Project contact person: Alain Placido SE | Supervising Civil Engineer
Scope of Services Provided: Combination Code Compliance Plan Review, Including Grading
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma, Karin Kuffel, Jim Johnson

TRB provided Life Safety, Disabled Access, Structural, MEP, Energy, and Green Building code compliance services Code Compliance and Grading Plan Review for a 26-Story Type 1 podium tower with 270 market rate apartment units and accompanying 8-story mid-rise 90 unit affordable apartment building. Both buildings sit on a concrete podium. The podium includes 1 level above and 2 levels below grade, containing parking at all levels and community and retail functions at grade. Occupancy Groups: A, B, F-1, R-2, S-1, S-2.; Type of Construction: I-A; Number of Stories: 26 Building 1, 8 stories Building 2.

UC Davis Health – Aggie Square Mixed-Use Project | Agency: UC Davis Health

Valuation: $1.3 billion
Completion Date: In Progress
Project address/location: Sacramento, CA
Project contact person: UC Davis Health; Paul Menard RA, Building Official, (916) 734-7416
Scope of work: Fire Life Safety, Disabled Access, MEP Code Compliance Plan Review, Grading
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Paul Armstrong, Dominic Ma, Jim Johnson, Jeff Brooks, Jim Begley

TRB was selected to provide Building and Fire and Grading Plan Review Services for the Aggie Square Project expansion of the UC Davis Medical Center from 3.5 to 6.2 million sf. The project consists of three high-rise towers and a separate mixed-use building (1.2 million s.f. portion). This multi-phase project includes research, laboratory, housing, and commercial components.

Sacramento Convention Center Expansion & Renovation | Agency: City of Sacramento, CA

Valuation: $240 million
Completion Date: 2021
Project address/location: Sacramento, CA
Project contact person: City of Sacramento; Daniel Valencia PE, Sr. Engineer (916) 808-7877
Scope of work: Combination Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma, Karin Kuffel, Jim Johnson, Jim Begley

TRB was selected to provide combination Plan Review for the large-scale and high-profile expansion (245,000 s.f.) and renovation (200,000 s.f.) of the Town's convention center facility. TRB reviewed the project for adherence to adopted building standards codes in Life Safety, Structural, MEP, Accessibility disciplines. TRB's scope of work included regularly scheduled telecommunication meetings to ensure schedule alignment. In addition, our firm was engaged in the evaluation of Alternate Materials and Methods requests to address several performance-based design elements on the project. Our review included assessment of a fire modeling study presented as part of the performance-based design consideration.

The Veranda Shopping Center | Agency: City of Concord, CA

Valuation: $75 million
Completion Date: 2019
Project address/location: Concord, CA
Project contact person: City of Concord; Ryan Pursely, PE CBO, Building Official, (925) 671-3173
Scope of work: Combination Code Compliance Plan Review and Inspector of Record
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma

TRB provided comprehensive Plan review and Inspection services on the construction of this 6-anchor store shopping center which encompassed core and shell; assembly, retail, and business use tenant improvements. The project includes 12 buildings of various building types (concrete tilt-up, masonry, steel frame, and wood frame construction) having a combined area of 375,000 s.f.

- UC Davis Heath System, Midtown Clinic (100,000 s.f., I2.1 & B occs), Sacramento, CA
- Varian Inc. New Medical Research Facility (44,000 s.f.), Walnut Creek, CA
- Marin Health Campus - Buildings A-E, County of Marin, CA
- Children's Hospital TI, $37 million, Walnut Creek, CA

Commercial

- Macys Major Renovation & Addition, Walnut Creek, CA
- Major Office Remodel (Three 40,000 s.f. buildings), Pleasant Hill, CA
- Organic Material Composting Facility, $120 million, San Leandro, CA
- Santa Clara Bay Aquarium Learning Center, $42 million, Santa Clara, CA
- New Charles Schwab Building, 1231 S. California Blvd, Walnut Creek, CA
- New 6 Story Tech Campus Building, San Leandro, CA

Industrial and Power Plant Cogeneration Facilities

- Lodi Energy Center Project (300 MW), Lodi, CA
- Russell City Energy Center Project (560 MW), Hayward, CA
- Almond 2 Power Plant (300 MW), Ceres, CA
- Walnut Creek Energy Park (500 MW), Industry, CA
- SPG Solar Depot Park, Photovoltaic Array (2.1 MW), Sacramento, CA
- Shiloh Wind Farm (150 MW, 100 Turbines), Solano County

Inspection / Code Enforcement / Building Department Administration Experience

The following is a partial list of Inspection and Administrative assignments worked on by our staff members:

- **Building Official:**
  County of San Mateo, City of Concord, City of Oakley, California Energy Commission, City of Coronado, City of Signal Hill, City of Whittier, City of El Cerrito
- **Inspection:**
  City of Los Altos, City of Palo Alto, City of Sacramento, City of Vacaville, City of Richmond, City of Concord, County of Butte, City of Fairfield, City of San Ramon, City of Dixon, Town of Danville, City of El Cerrito, City of Oakley, County of San Mateo
- **Code Enforcement and Multifamily Inspection:**
  City of Petaluma, County of Solano, City of Concord, City of Antioch, City of Benicia
- **Permit Technician:**
  City of Los Altos, City of Santa Clara, City of Sacramento, County of San Mateo, City of Redwood City, City of Vallejo, City of Concord, City of Palo Alto
- **Delegate CBO Services: California Energy Commission:**
  Lodi Energy Center Project, Lodi, CA, Almond 2 Power Plant, Ceres, CA, Russell City Energy Center Project, Hayward, CA

Civil Engineering / Grading / MWELO Plan Review & Inspection Support Experience

TRB's experience providing Civil Engineering Plan Review and Inspection includes the following agencies:

- **City of Benicia**
- City of Santa Clara
- City of Burbank
- County of San Mateo
- City of Oakland
- City of Los Altos

Representative Client List

TRB staff members have extensive experience working with public agencies in California. The following is a partial list of Northern California local and State agencies served by our staff members.

LOCAL AGENCIES – NORTHERN CALIFORNIA		
City of Concord	City of Benicia	City of Richmond
City of Palo Alto	City of Redwood City	City of Sunnyvale
City of San Jose	City of Millbrae	City of San Leandro
City of Daly City	City of Burlingame	City of Walnut Creek
City of Sacramento	City of Lathrop	City of Fairfield
City of Roseville	City of Davis	County of Butte
City of Pleasanton	City of Dublin	County of Placer
City of Brentwood	City of Santa Clara	County of Sacramento
City of Pleasant Hill	City of Pinole	County of Marin
City of Hayward	City of Los Altos	County of San Mateo
City of El Cerrito	City of Martinez	County of Sonoma
STATE AGENCIES		
California Energy Commission	Division of the State Architect	Judicial Council of California
HCAi/OSHPD	UC Davis Health	UC Berkeley

PROFESSIONAL SERVICES MASTER AGREEMENT

(DEVELOPMENT ENGINEERING STAFF AUGMENTATION)

BETWEEN

CITY OF BENICIA AND

4LEAF, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and 4LEAF, Inc., a California Corporation located at 2126 Rheem Drive, Pleasanton, California 94588, licensed to do business in California, ("CONTRACTOR") relating to 4Leaf Master Service Agreement - On-Call Development Engineering Services Staff Augmentation (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Development Engineering Services may include, but not be limited to:

A. Construction Inspector

B. Engineering Technician

C. Civil Engineer

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

   1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required during the terms of this Agreement.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Kevin J. Duggan

President

kduggan@4leafinc.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between 4LEAF, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

RE: Proposal to Provide On-Call Development Engineering Services – Staff Augmentation, to the City of Benicia

4LEAF, Inc. (4LEAF) is pleased to present our proposal to provide On-Call Development Engineering Services – Staff Augmentation, to the City of Benicia (City). 4LEAF has been providing plan check, inspection, and other related services to numerous public clients throughout California for over 24 years. We look forward to the opportunity to provide these services to the City. 4LEAF is uniquely qualified and is an ideal consultant choice for the following reasons:

☑ Familiar Consultant and Local Presence

4LEAF is currently working with the City of Benicia to provide On-Call Building Plan Review, Inspection, and Development Engineering Services. This has allowed us to become familiar with the City's processes and procedures. In addition to serving the City, 4LEAF has provided services to numerous Bay Area municipalities. As such, our firm has the necessary local staff to address any needs the City may have. Some of 4LEAF's local clients include:

- City of Oakland
- City of El Cerrito
- City of San Leandro
- City of Newark
- City of Union City
- City of Richmond
- City of Pinole
- City of Brentwood
- City of Pittsburg
- City of Berkeley
- City of Walnut Creek
- City of San Pablo
- County of Alameda
- County of Contra Costa
- County of San Mateo

☑ Full-Service Firm

As a full-service firm, 4LEAF can provide departmental services to aid with high project workloads that require additional staff assistance. We provide jurisdictions with Building, Planning, Public Works, and Fire Department services and have qualified staff available to serve the City with remote, on-site, part-time, or full-time project needs. For the scope of this contract, our services include:

- **Development Engineering:** We provide full-service civil engineering support for development projects, including grading, drainage, stormwater, and utility reviews. Our team of licensed professionals ensures timely and thorough plan checks for subdivision improvements, site development, and infrastructure design. With a strong understanding of municipal standards, we help streamline project delivery and maintain compliance with all applicable codes.
- **Inspection:** We have over 200 inspectors on staff who specialize in Public Works, Residential, Commercial, Industrial, Energy, Fire, ADA, Solar, and HCAI (OSHPD) projects. We have a track record of providing inspectors as-needed for long- or short-term projects, including one day assignments to cover staff training, sick days, vacation days, or spikes in permit activity.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

☑ Key Personnel

Gene Barry, PE: Gene has over 30 years of public works and engineering experience, with the technical expertise and leadership to support all development engineering needs of the City. He will ensure high-quality Public Works/Construction Inspection services are delivered efficiently and in full alignment with City standards.

Craig Tole: With nearly 20 years of Community Development Department experience, Craig has the requisite expertise to manage all as-needed requests from the City of Benicia. Craig will ensure that 4LEAF provides curated staff to meet the City's specific plan review and inspection needs.

Lowell Brown: Lowell has over 40 years of experience in the Regulatory Building Industry, working across both public and private sectors. His expertise in code compliance allows clients to rely on 4LEAF for technical guidance, while also understanding the challenges faced by the development team.

Michael Loomis, SE, CBO, CASp, PMP: As 4LEAF's Director of Structural Engineering, Michael is responsible for managing 4LEAF's Plan Review clientele. He will be responsible for all expedited requests, quality control, and performance of critical plan reviews assigned by the City.

Scott Martin, PE: Scott is a veteran plan check engineer with decades of experience providing plan check for various project types. He serves as 4LEAF's Quality Control Manager, playing a vital part in our quality control process and ensuring plan checks meet proper standards.

Vanessa Morales: As Plan Review Coordinator Manager, Vanessa supervises the internal routing and completion of plan reviews. Additionally, she is responsible for the training of 4LEAF's permit technician staff to ensure they are prepared to meet the needs of the municipality they are assigned.

☑ Leadership

The contract with the City of Benicia will be managed by Craig Tole and Lowell Brown. Together, they have over 60 years of experience in the Community Development industry, equipping them with the expertise needed to provide our municipal clients with top-tier staff for their projects and personnel needs.

SECTION 3

DESCRIPTION OF RESPONSIBILITES

4LEAF, I

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

SECTION 3: DESCRIPTION OF RESPONSIBILITIES

We understand that the City of Benicia is seeking experienced firms to support Development Engineering services through on-call staff augmentation. Our team brings extensive municipal experience and is well-equipped to provide timely, professional support across a broad range of residential, commercial, and infrastructure projects. With a strong background in public sector development review, our qualified staff can step in seamlessly to assist City personnel with inspections, plan reviews, permit processing, and project coordination.

Proven Experience in Municipal Engineering Support

4LEAF has a long-standing track record of partnering with local governments to deliver effective and efficient engineering services. We have successfully supported cities by providing qualified Civil Engineers, Inspectors, and Engineering Technicians to perform essential development tasks, including grading and utility inspections, stormwater compliance, and plan checks for private and public improvements. Our team emphasizes collaboration, consistency, and attention to detail, helping to ensure high-quality service and minimize project delays.

Commitment to Timely and Reliable Service

We understand the importance of maintaining project momentum. Our staff are committed to meeting established review and inspection timelines with prompt turnaround on inspections, initial and resubmittal reviews. By working closely with City staff and applicants, we help resolve issues early and keep projects moving forward.

Knowledge of Applicable Codes and Standards

Our team is well-versed in the most current Federal, State, and local regulations that affect Development Engineering projects in California. This includes, but is not limited to, compliance with the following:

- City of Benicia Municipal Codes
- California Building Standards Code (CBSC)
- Geotechnical and Soils Review Standards
- California Stormwater Quality Association (CASQA) Guidelines
- National Pollutant Discharge Elimination System (NPDES) Requirements

All reviews and inspections are completed in compliance with the most current versions of these standards, and our comments are clearly documented to support efficient plan revisions and approvals.

Integration with City Systems

4LEAF staff are fully trained in the use of **OpenGov** Permitting and Licensing software for managing inspection reports, comments, and documentation. Our staff also conduct plan reviews within **Bluebeam**, providing real-time markups and clear feedback to streamline the review process.

4LEAF, IN

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

SECTION 4: TEAM MEMBERS

Management Team

Gene Barry, PE – Vice President, Public Works

Gene has more than 32 years of engineering and project management experience. He has experience as a project manager, construction manager, environmental engineer, field engineer, construction surveyor, soils tester, and quality assurance inspector. His experience includes performing constructability reviews, developing work plans, reviewing plans and specifications and monitoring contractor's conformance with the project scope of work, developing and monitoring project schedules, establishing project scopes of work, performing bid evaluation and cost- benefit analyses, preparing and evaluating detailed cost estimates, and monitoring project budgets. Gene is a California Qualified SWPPP Developer (QSD), has extensive experience preparing storm-water pollution prevention plans (SWPPP), and is very knowledgeable regarding the State of California's General Construction Permit for stormwater discharge.

Office - (925) 462-5959 | Cell – (925) 383-4815 | Email – GBarry@4leafinc.com

Craig Tole – Exec. Project Manager / Vice President, Community Development

Craig has served Community Development Departments for the past 20 years under the supervision of the company President. Among Craig's responsibilities include the day-to-day contact with many of 4LEAF's clients in the Building & Safety, Engineering, and Construction Management industries. Craig has successfully managed a multitude of inspection projects ranging from $1 million to $6 Billion. Craig also manages numerous County IOR programs including San Mateo County PDU, Santa Clara County FAF, Alameda County GSA, and Santa Cruz County GSD.

Office - (925) 462-5959 | Cell - (925) 580-4055 | Email - CTole@4leafinc.com

Lowell Brown – Project Manager

Lowell brings over 40 years of experience in the regulatory building industry, having worked in both public and private sectors. His expertise in site development and building systems allows for project coordination that aligns with the best interests of our clients. While managing Architectural, Mechanical, Electrical, and Plumbing plan reviews, Lowell has simultanisly represented 4LEAF on major projects for jurisdictions from Power Generating Stations, Hydrogen Facilities, Chip Manufacturing to Data Centers. His philosophy centers on training and supporting both staff and clients as their liaison to ensure compliance and to maintain flourishing relationships throughout the plan review and construction phase.

Office - (925) 462-5959 | Cell - (925) 890-9979 | Email - LBrown@4leafinc.com

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

Michael Loomis, SE, CBO, CASp, PMP – Director of Structural Engineering

With more than 28 years of expertise in the industry, Michael has an excellent working knowledge of all types of construction, including architectural, structural, electrical, mechanical, and plumbing systems. Michael is extremely committed and has shown dedication by obtaining multiple certifications through the International Code Council (ICC), and is a Certified Access Specialist, (CASp). Michael is an adaptable leader that quickly identifies departmental issues and solves them by utilizing his ample experience.

Office - (925) 462-5959 | Cell - (831) 620-2305 | Email – MLoomis@4leafinc.com

Scott Martin, PE – Quality Control Manager / Senior Civil Engineer

Scott has over 27 years of engineering experience and has performed a multitude of plan review for many different project types including commercial structures, residential structures, schools, hospitals, and various municipal reviews for clients throughout the country. Scott's duties include the review of plans submitted to local jurisdictions, creation and submission of plan review letters, and constant communication with all project stakeholders.

Office - (925) 462-5959 | Cell - (559) 348-7101 | Email – SMartin@4leafinc.com

Vanessa Morales – Plan Review Coordinator Manager

Vanessa serves as 4LEAF's Plan Review Coordinator Manager, supervising the internal routing and completion of plan reviews, ensuring that all projects are handled efficiently and in compliance with regulations. Vanessa is also responsible for training 4LEAF's permit technician staff, equipping them with the skills and knowledge needed to meet the specific needs of the municipalities they serve.

Office – (925) 462-5959 | Cell - (925) 789-9917 | Email - VMorales@4leafinc.com

On-Call Supporting Staff

Kaydi McNaughton – Engineering Technician II

Kaydi has more than 12 years of project management experience and has successfully coordinated and communicated with construction managers, contractors, subcontractors, and agencies. She has managed project coordination through completion. Kaydi is known for championing best practices is highly organized, customer-focused, and a strong team leader with excellent communication skills. She is proficient in BIM 360, Procore and the Construction Management Information System (CMIS).

Daniel Wolfe, PE – Senior Civil Engineer

Daniel is a highly capable Civil Engineer with over 24 years of experience across a variety of projects. He is skilled in interpreting and applying California Building Codes, Civil Plan Review, Computer-Aided Design (CAD), Construction, and Structural Analysis. Furthermore, Daniels extensive experience within local government has made him highly proficient in coordinating and cooperating with various departments in the pursuit of the successful completion of any project. Daniel's broad range of experience has shaped him into a capable leader and communicator, able to collaborate effortlessly with any team he joins.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

Matt Newton – Senior Construction Inspector

Matt has more than 30 years of experience in the construction industry. He offers 23 years of inspection experience working on storm, sanitary, street lighting, traffic signal capital improvements, and three years on residential development projects. Matt has inspected various underground utility installation methods including cut and cover, directional drilling, pipe bursting, and fusion welding of HDPE pipe. Matt also has seven years of experience working in the City of San Jose Survey Department. As a Principal Construction Inspector with the City of San Jose, Matt took a supervisory role in training and mentoring new staff and City inspectors in using the Virtual Project Manager website to improve documentation for capital improvement program (CIP) projects. Matt excels at maintaining effective and positive communications between various project stakeholders, inspectors, project managers, and engineers to find solutions to unforeseen complications that may arise while working on construction and CIP projects.

Josh Pickett – Construction Inspector

Josh has more than six years of experience in the construction industry performing construction inspections, quality control inspections, and special inspections/materials testing on a variety of heavy civil engineering projects throughout the United States. His experience includes inspecting underground utilities (sanitary sewer pipelines including pipe bursting and open trench installations, storm drain lines, natural gas, domestic and reclaimed water lines, and electrical conduit); above-ground electrical lines; grading and earthwork; and bridge construction projects. Josh has excellent written and verbal communication skills and has experience with numerous computer software platforms including MS Office and SharePoint, Procore, and BlueBeam.

Alex Lavrov – Construction Inspector

Alex is an Engineer in Training (EIT) with more than 27 years of experience in the construction industry. His experience includes 20 years performing construction inspections on Transportation System and Public Works projects, and four years performing material testing and special inspections in support of Capital Improvement Program (CIP) projects. His experience includes inspecting CMU buildings; electrical and MCC panels; pump system installations and commissioning; underground utility installations (sanitary sewer mains, laterals, and manholes; storm drain catch basins and piping; and electrical conduit, wiring, and components); utility vaults; backup generators; underground storage tanks; grading and earthwork; street restoration; traffic signal installations; and concrete curb, gutter, and sidewalks. Alex has excellent written and verbal communication skills and a proven track record of performing and coordinating with various project stakeholders to ensure a project's successful completion.

Robert Romero – Construction Inspector

Robert has more than 24 years of experience as a Construction Inspector. His experience includes maintaining excellent working relationships with co-workers and providing outstanding customer service to the public. He has inspected a variety of Capital Improvement Program (CIP) projects including flood control facilities including levees, roadways including various AC paving techniques, sidewalks, curb and gutters, and storm drain systems. He has extensive experience serving as a liaison between the public, general contractors, engineers, and supervisors. He ensured questions were addressed, disputes were settled, traffic control and storm water best management practices (BMPs) were installed and maintained, and project plans and specifications were met.

Full Resumes, including qualifications, education, and professional certifications, for Management and On-Call Supporting Staff have been submitted to the corresponding questionnaire via the City's procurement portal.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

ON-CALL DEVELOPMENT ENGINEERING SERVICES – STAFF AUGMENTATION

TO THE

CITY OF BENICIA

SECTION 5

APPROACH

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

SECTION 5: APPROACH

4LEAF understands the City's goal of minimizing response times and improving customer service by supplementing in-house staff with highly qualified development engineering personnel. Our objective is to integrate seamlessly with City staff to provide responsive, cost-effective, and professional services across key areas such as Construction Inspections, Plan Review, Permit Processing, and Project Management. Our qualified professionals are available on an as-needed, part-time, or full-time basis—ensuring City operations continue uninterrupted during staffing gaps, peak workloads, or special project demands. 4LEAF offers full flexibility in staffing solutions, including rapid deployment and continuity of service with the same personnel when requested.

Construction Inspection Services

4LEAF has extensive experience performing our services for a variety of capital improvement program (CIP) projects. The inspection consultant must be flexible to provide part-time and/or full-time services as deemed necessary. Having worked with many public agencies and private owners, we know how to accomplish the roles of construction managers and inspectors on projects of all sizes, durations, and complexities from conception to completion. We realize it's not always an easy task. Procedures must be followed, and documentation must be maintained to properly document and close out a project. We are not satisfied with just knowing how to do our job; we want to continue to improve our efficiency. 4LEAF is dedicated to improving the effectiveness of our methodology that helps our clients achieve their goals.

4LEAF can provide inspection services for the following types of projects:

- Water/Wastewater Treatment Facilities
- Creek & Channel diversions
- Levees
- Culverts
- Roadways
- SS and Storm Water Conveyance Systems
- Transportation Projects
- Bridges
- Traffic Signals / Streetlighting
- Grading & Earthwork
- Bicycle & Pedestrian Facilities
- Pump Stations
- Retaining Walls
- Park and Recreation Facilities
- Government/Municipal Facilities
- Comfort Stations

Approach and Methodology

The following provides a summary of the typical inspection services that would be performed under this contract. Once a Notice to Proceed (NTP) has been issued by the City, 4LEAF will provide inspection services for the three distinct elements or phases of typical CIP projects: *Pre-Construction*, *Construction*, and *Post-Construction.*

Pre-Construction Phase

During Pre-Construction, the 4LEAF team will establish immediate and routine contact and communication with the project's team including the City, the contractor, utility companies, and other project stakeholders. We will take steps to ensure successful collaborations with each of these entities. The following are key tasks that are typically performed by our construction inspectors during the Pre-Construction Phase of a project:

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

- Attend a project kickoff meeting with City, design team, and other project stakeholders to discuss the project and identify key issues.
- Perform pre-construction project site condition inspections.
- Attending the pre-construction meeting / conference (to be chaired by the City).
- Become familiar with the City's project document control and filing system.
- Perform Public outreach (typically performed in conjunction with the contractor providing Public notices as required in contract documents).

Construction Phase

From day 1, 4LEAF's assigned inspection staff will work with the City to run an efficient and quality project. Prior to commencement of work, 4LEAF's staff will work with the City's Project Manager (PM) or Construction Manager (CM) to verify the contractor has performed all the necessary work that is required including securing all requirement permits and approvals, providing notifications to underground utility providers, ensuring any required pre-construction biological or archeological surveys are performed per the project requirements, ensuring notifications of nearby residents and businesses, ensuring installation of Best Management Practices (BMPs) as per the approved stormwater pollution prevention plan (SWPPP) or erosion control plan (ECP), ensuring installation of all required traffic control signs, and ensuring installation of construction advisory signs. Once construction has begun, 4LEAF staff will perform on-site inspections to check the quality and quantity of the work performed by all trades and guard the City against defects and deficiencies in the work by the contractor. The following represents the general responsibilities for providing inspection services CIP projects.

- Provide daily inspection and documentation for all job-related activities.
- Monitor and document contractor's work for adherence to contract plans and specifications as well as their traffic control plan and health and safety plan.
- Collect daily digital photographs and provide continual review of plans and specifications.
- Maintain project files and logs.
- Assist the City's PM or CM in reviewing quantities provided in contractor progress payments.
- Assist the City's PM or CM for reviewing change order requests.
- Attend all weekly construction meetings.
- Report all discrepancies requiring corrective actions to City staff.
- Meet with contractor to review proposed work and schedule inspections.
- Maintain written progress of quantities measured for each bid item.
- Coordinate with utilities for potential conflicts.
- Document any extra or force account work.
- Monitor contractor's general compliance with its safety program and advise the City of observed deficiencies.
- Inspect materials and equipment upon delivery for compliance to construction contract documents.
- Recommend acceptance of the work when it is satisfactorily completed. Track non-compliant work separately until work is satisfactorily completed and accepted.
- Coordinate and schedule special inspections and materials testing.
- Maintain test reports and logs of any verification tests performed.
- Perform public outreach and coordinate with nearby residents and businesses for scheduling and address complaints / inquiries during construction.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

Post-Construction Phase

Inspection duties for the post-construction and contract closeout phases consist of two distinct closeout elements: physical closeout and document closeout. Project deliverables are included below.

Physical closeout consists of a series of inspections performed to document that the work is complete to one of two levels: (1) Substantial Completion – when work, or a designated portion of the work, is sufficiently complete that the client or the public may utilize it; or (2) Final Completion – acceptance by the client that the project is completed in full. Applicable certificates may be issued at each stage of completion, and punch lists will be updated during each inspection.

Document closeout is the process of assembling and transferring the required contract files from 4LEAF to the City when the contract is complete. Documents typically include project correspondence, change orders, change notices, RFIs, submittals, warrantees, and claims. 4LEAF's Inspector will transfer all the necessary documents as either hard copies or electronic copies of the documents to the City. 4LEAF's Inspector will compare their red-lined markups of the plans with the contractor's red-lined markups and will submit a reconciled set to the City for the designer of record to produce "as-built" drawings.

Projects requiring OSHPD, DSA, ICC, Etc.

4LEAF maintains an updated database complete with each inspector's skillsets, certifications, project history, continuing education, etc. Our Project Manager will work closely to identify the right inspector for each assignment/task. 4LEAF has a proven track record of providing Inspectors for daily assignments or specialty assignments—this includes staff augmentation and project staff augmentation roles.

Status Updates

Keeping the City informed of project/contract status is as important as physically doing the work. As such, our PM will keep the City's Construction Manager apprised of project status through regular progress and budget reporting. We will report progress, identify potential problem areas, and keep the City informed on budget and schedules on a regular basis.

To accomplish the above, we propose two reporting tools, 1) a Work Order Tracking Report and 2) Monthly Expenditure Reports. These reports will be updated monthly, submitted to the City Construction Manager, and reviewed in a monthly update meeting. The frequency of reporting/meeting and content of each report will be discussed in detail with City staff following contract award.

Work Order Tracking	Monthly Expenditure Reports
Our Project Manager will submit a monthly expenditure report for each Work Order to include the following: ➢ Work Order status ➢ Notice to Proceed (NTP) date ➢ Schedule ➢ Budget ➢ Expended amount to date ➢ Remaining budget to date ➢ Pertinent Comments	Our Project Manager will submit a monthly expenditure report for each Work Order to include the following: ➢ Percent of completion ➢ Percent expended ➢ Summary of monthly activity ➢ Identification of problem areas

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

In addition, the monthly expenditure report will include a Work Order summary, a list summarizing budget and status, and a monthly invoice summary (i.e.: invoiced this month, prior amount invoiced, billed to date, etc.).

Engineering Technician Services

4LEAF provides skilled Engineering Technicians with civil engineering and municipal background in:

- Construction and development plan review
- Engineering calculations and permit analysis
- Submittal tracking, public counter assistance, and inspection support
- Review of maps, legal descriptions, and grading plans for compliance

For the purposes of the City's RFP our technician assignments will include:

- Verifying project conformance with the City's Development Code and engineering standards
- Supporting coordination efforts between developers, design professionals, and public stakeholders
- Maintaining electronic filing systems and logging reviews through OpenGov and Bluebeam

Civil Engineering Services

We understand the development process from entitlement to certificate of occupancy. Our development engineering services responsibilities will include, but are not limited to:

- Examining rough grading, civil, and backbone infrastructure plans, specifications, geotechnical and drainage reports, feasibility studies, and additional analyses.
- Ascertaining whether development construction documents adhere to the City's standard specifications, municipal code, development conditions of approval, and all other adopted codes and ordinances.
- Performing such reviews on improvement plans including grading, drainage, sanitary sewer, water, raw water, storm drainage, and joint utilities.
- Reviewing plans to ensure conformity to the City Council approved development entitlement, ensuring that all entitlement conditions are either adhered to or completed.
- Reviewing landscaping plans to ensure conformity with the Model Water Efficient Landscaping Ordinance (MWELO).
- Reviewing tentative, parcel, and final maps, lot line adjustments, mergers, and easement and right-or-way documents for compliance with the California Subdivision Map Act and the City's municipal code.
- Collaborate with the City's Fire Department to address wildfire and latter fuel management concerns associated with new development.
- Supplying the City with civil improvement and mapping submittal checklists to ensure that applicants have a complete understanding of what is required.
- Reviewing construction cost estimates for accuracy, current market values, completeness, and transparency.
- Ensuring that all development within City's Shoreline Protection Overlay District complies with the City's Municipal Code, the Bay Plan, and the Benicia Urban Waterfront Enhancement Master Plans.

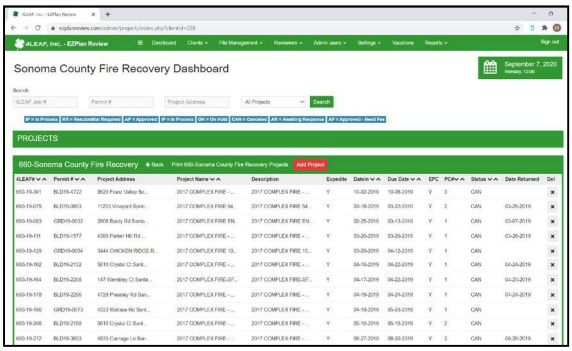
Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

On- and Off-Site Review

4LEAF can supply Registered Professional Engineers to the City to work on-site, or at a site mutually agreed upon in writing, performing development plan, map review, and landscaping reviews at the jurisdiction's discretion. Our experience includes checking for compliance with development conditions of approval, standard specifications, and all other local codes/ordinances.

4LEAF's EZPlan Review

EZPlan Review is our in-house tracking software that acts as a communication tool between 4LEAF and the jurisdictions we work with. The use of EZPlan makes communication easy. This web portal allows users to visualize project due dates, notes, and status updates so that projects can be followed from start to finish. Additionally, 4LEAF provides electronically stamped and uploaded copies of approved project plans, a value which saves clients time and resources. With the use of EZPlan, 4LEAF hopes to provide a level of ease and transparency during the off-site plan review process.



Quality Assurance/Quality Control Review Process

Task 1 – Project Tracking Set-up

The first step of our process will be to set up the project in our system to enable both 4LEAF and the City to track the progress of the review. Our project tracking procedures are designed to track each submittal throughout the review process and maintain accurate and comprehensive records for each submittal.

Task 2 - Complete Submittal Review

Upon receiving the improvement plans or map related documents from the City, 4LEAF will triage (preliminary plan review performed by 4LEAF Plan Review Project Lead) the submittal to verify that the submittal received is complete (i.e., all pertinent plans, calculations, reports, and other related documents) in order to begin our review. If the submitted package is incomplete, we will communicate with the City to discuss the deficient documents needed to proceed with our review.

Task 3 - Plan Review Assignment

After the triage process is performed and a complete package is verified, the project will be assigned to the most qualified Plans Examiner and a turnaround time will be established. We will log each application into our database the same day the plans are received to ensure they are routed in a timely manner and to allow for daily project tracking.

Task 4 - Plan Review

4LEAF will provide the project contact (Developer, Contractor, Architect, or Engineer) desired by the City with a list of items needing correction and clarification to comply with applicable building codes, ordinances, and regulations. A correction list will be created based on missing codes and ordinances.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

Task 5 - Quality Control

Prior to submitting the plan review correction list to the City, the designated Plan Review Project Lead will review the correction list for adherence to applicable codes and ordinances as well as for accuracy and completeness. After completion of our quality control review, a correction list will be e-mailed to a designated staff member at the City or as directed by the City. The correction list and a 4LEAF transmittal form will include the following information: a description of the work, type of construction, occupancy group, square footage, number of floors, and sprinkler requirements.

Task 6 - Plan Review Rechecks

Improvement plans or mapping related documents received for rechecks will be reviewed for conformance. Our goal is to actively work with the Designers to resolve all unresolved issues after our second review. If it appears that there are complicated issues that might cause a project to go beyond our second review, we will communicate directly with the Designer to resolve these concerns.

Task 7 - Project Approval

Once the final reviews are completed and ready for approval, 4LEAF will organize the plans and supporting documents per the City processing requirements and return them to the City, along with our letter of completion.

Turn-Around Times

4LEAF has a tremendous reputation for completing projects on-time and under budget. 4LEAF's Plan Review team is widely recognized for quick turn-around times and prompt service. Off-site plan reviews are performed at our office, with plans transmitted by personal delivery or overnight service. The standard turn-around time is within 10 business days for rough grading plan reviews and within 15 days for subdivision, commercial/industrial, and mapping submittals; however, these timeframes are negotiable based on your needs.

Type of Plans	Transportation	Initial Review	Resubmittal Review	Resubmittal Review #2	Expedited Review	Expedited Resubmittal
Rough Grading	< 24 Hours (pick up & delivery)	< 10 Days	< 5 Days	< 5 Days	< 5 Days	< 3 Days
*Subdivision	< 24 Hours (pick up & delivery)	< 10 Days	< 5Days	< 5 Days	< 5 Days	< 3 Days
Commercial	< 24 Hours (pick up & delivery)	< 10 Days	< 5 Days	< 5 Days	< 5 Days	< 3 Days
Tent., Parcel and Final Maps	< 24 Hours (pick up & delivery)	Negotiable	Negotiable	Negotiable	Negotiable	Negotiable
ROW and Easement Documents	< 24 Hours (pick up & delivery)	Negotiable	Negotiable	Negotiable	Negotiable	Negotiable

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

Document Control

When plans and documents are received for review, 4LEAF's Plan Review Manager and Document Control Technician analyzes the project, creates a job number, and completes a Job Setup Sheet. This form highlights both the jurisdiction, applicable contact information, and all project specific design criteria and notes. Jobs are then transmitted through 4LEAF's easily accessed EZPlan Review Portal which tracks initial and subsequent reviews and is open for view by the client. The City and their customers can view 4LEAF's plan review control log through 4LEAF's EZPlan Review Portal.

Plans and associated documents then get distributed for review to a 4LEAF team consisting of Plan Review Engineers, Landscaping and Surveying qualified team members, as applicable. Our staff then performs their function of analyzing the plans and documentation for effective conformance to the state codes, referenced construction standards, and City amendments. 4LEAF's code review methodology is "The Effective Use of the Codes" reinforced through proprietary and jurisdictional checklists. When complete, the Plan Review Manager overviews the project for quality control purposes and forwards comments or approvals to the client's pre-designated contacts.

Off-Site Electronic Plan Review

Digital plan review allows 4LEAF the ability to review, markup and transport plans of any size electronically. We strongly encourage this service for our clients. This process delivers a high degree of cost effectiveness, time efficiency and a "green" environmentally friendly system. Through our strong focus on utilizing this digital capability, we offer full access to all 4LEAF engineers and plans examiners company-wide, from any of our office locations. A protected online portal will be established to allow property owners, contractors, developers, businesses, designers, and stakeholders to submit plans electronically for review. Access to the online portal will be given to City staff for immediate access to information regarding project status during the review process.

4LEAF has successfully implemented and used Bluebeam for electronic review of files to help eliminate the use of paper and take the plan review workflow to a whole new level. 4LEAF's offices are equipped with large scale monitors for easy review of plans. Bluebeam combines powerful PDF editing, markup, and collaboration technology with reliable file creation. Bluebeam integrates flawlessly with our Green Line approach for electronic and timely turnarounds resulting in permit issuance within 5-7 business days.

Process Mapping

4LEAF aims to bring departmental processes together by identifying and eliminating obstacles to streamline processes. Our subject-matter experts visit each department within a jurisdiction to conduct an analysis of existing processes, identify how best to streamline separate departmental processes to improve workflow, and provide guidance and recommendations on an improved work plan. 4LEAF implementation staff work both on- and off-site during this process and offer extensive training to existing municipal staff members on the use of a jurisdiction's preferred permitting software.

Additional Technologies

Having served more than 400 jurisdictions, 4LEAF and our staff are knowledgeable and have experience working with a variety of different technologies for Electronic Plan Review, Permit Tracking, and Building Inspections. 4LEAF's experience with tracking technologies includes, but is not limited to:

SECTION 6: LEVEL OF EFFORT LETTER

Given the on-call nature of this contract, the actual tasks and corresponding hours may vary depending on the specific needs that arise during the term of the agreement. To satisfy the City's request, we have provided a preliminary estimate of level of effort in the itemized spreadsheet below. This includes personnel classifications and estimated hours as a percentage of total time expected. Please note that these estimates are based on current assumptions and are subject to change based on project demands and the scope of work requested by the City throughout the contract.

Name	Personnel Classification	Estimated Hours (Percentage of Time)
Gene Barry	VP, Public Works (Principal-in-Charge)	5%
Craig Tole	Executive Project Manager	5%
Lowell Brown	Project Manager	10%
Michael Loomis	Director of Structural Engineering	5%
Scott Martin	Quality Control Manger	10%
Vanessa Morales	Plan Review Coordinator Manager	5%
Kaydi McNaughton	Engineering Technician	10%
Daniel Wolfe	Senior Civil Engineer	10%
Matt Newton	Senior Construction Inspector	10%
Josh Picket	Construction Inspector	10%
Alex Lavrov	Construction Inspector	10%
Robert Romero	Construction Inspector	10%

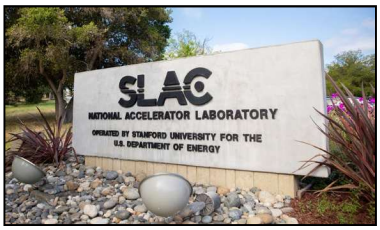
Civil Engineering Plan Review Expertise

4LEAF has built a strong reputation providing civil engineering plan review. We have demonstrated our expertise and knowledge in structural integrity, safety protocols, and regulatory standards. Our team of engineers, inspectors, and consultants carefully examines construction plans to ensure they meet all required local, state, and federal guidelines. We focus on reviewing engineering and grading plans, mapping reviews, stormwater control and clean water (C.3) plan reviews and compliance support, MWELO conformance, and floodplain management support functions.

Our extensive experience in civil engineering spans a diverse portfolio of projects, including bridges, roadways, stormwater management systems, wastewater treatment plants, and other essential infrastructure. Through our detailed plan review process, we assess critical factors such as load-bearing capacity, seismic resilience, environmental impact, and accessibility compliance to ensure that projects are designed and constructed to withstand both current and future demands.

4LEAF is uniquely qualified to work on large development projects of any size. Our team has conducted civil review and related services on multiple different projects for the Stanford Linear Accelerator Center (SLAC). These projects include the Low Emittance Injector Tunnel (LEIT) Extension with a project cost of approximately $45 million and the $35 million Cryomodule Repair and Maintenance Facilities (CRMF) project.



4LEAF also provided Civil Engineering Plan Review services for numerous other clients, including but not limited to: University of California, Merced; the City of Vacaville; the City of Oakland, Department of Transportation (OakDOT); the City of Davis, Public Works Department; and the University of California, San Francisco.

We have the resources to deploy staff for any given project, as you can see from the limited examples listed above. Our team is well-equipped and qualified to perform civil engineering services for projects of any size. By choosing 4LEAF, you are choosing a company that prides itself on quality work, top-notch customer service, experienced staff, and a multitude of project experience. Please review our scope of services and project examples in the sections that follow to gain more understanding about our firm and how we can help achieve the City's goals.

City of Oakland, Department of Transportation (OakDOT)

Civil Engineering Services for 5G Installation

4LEAF is currently providing the City of Oakland Department of Transportation (OakDOT) services in support of OakDOT's right-of-way permitting function. 4LEAF reviews applications submitted by telecommunication companies and telecommunications contractors for the installation of small wireless facilities to support the provision of broadband communication services, including small cells for 4G and 5G services.

Scope of Services

4LEAF administers application intake, review, and permit issuance for all facility broadband telecommunication projects. The scope of 4LEAF's services includes the following:

- Ensure adherence to City permitting, quality, and safety standards.
- Coordinating and completing demand for the use of public space and City infrastructure.
- Reviews Traffic Control Plans to ensure they meet MUTCD Guidelines as well as the City of Oakland's ordinances pertaining to street closures, pedestrian and bicycle traffic mitigations, and the A/C Transit corridor.
- Reviews Engineering and Construction plans to ensure compliance with the City's Street excavation rules, paving moratorium, standard details for utility trenching and sidewalks, and Chapter 12.12 of the OMC.
- Reviews drawings for Survey and Monument Conflict by verifying that plans show monuments, trench width and depth, and trench distance to exaction and/or monument.
- 4LEAF works closely with each department to ensure consistent standard plan review comments.
- Ensure that permit applications are reviewed in a timely manner, consistent with FCC "shot clock" and other relevant mandates.
- 4LEAF updates the status of permit applications and issues the permit using Accela software.

Stanford Linear Accelerator Center (SLAC)

Plan Review and Building Inspection Services

4LEAF was awarded the plan check and field inspections scope of work for a wide range of projects at SLAC including office buildings, dry and wet laboratories, soft and hard x-ray experimental hutches, optical laser laboratories, and cryogenic industrial buildings including the associated process piping.

SLAC Overview

Started in 1962, SLAC is one of 17 Department of Energy (DOE) national laboratories as part of its Office of Science. SLAC is a multi-purpose laboratory operated by Stanford University for the DOE. As a federal leasehold site, SLAC is its own jurisdiction and has its own Building Inspection Office (BIO) which operates as a building department, fire marshal office, and public works department.

Scope of Services

4LEAF is providing a group of California registered Professional Engineers (Civil & Structural), ICC Certified Building Code Officials, ICC Plans Examiners, and ICC Inspectors to perform the required services. 4LEAF's scope of work for SLAC includes:

- Providing an On-Site Building Official to be an embedded member of the SLAC Building Inspection Office (BIO) team, performing plan reviews, attending meetings, and other duties.
- Providing remote civil and structural engineers to perform plan reviews as well as being available to meet with key personnel via phone, online meetings, or on-site when needed.
- Providing short notice plan checks on an as-needed basis, with a 24-hour turnaround time on certain projects with limited scope and RFI's.
- Performing back-checks to verify plan check comments have been resolved (usually within 48 hours).
- Entering comments and responses into SLAC's web-based Plan Review System (PRS).
- Providing structural and non-structural (building, civil, geotechnical, disabled access, fire and life safety, plumbing, mechanical, electrical, public works, and earthworks) subject matter experts.
- Providing field inspections as requested by SLAC current staff.
- Using SLAC inspection records, Microsoft Word, Excel, or other database software and including photographs as necessary to aid in the understanding of technical issues and deficiencies.
- Attending pre-construction meetings and weekly project meetings as requested.
- Preparing Certificates of Occupancy and other Code-related documentation and answering inquiries and phone calls as necessary.

City of Cupertino

On-Call Building Inspection, Plan Review and Public Works Services

4LEAF performs on-call building inspection and plan review services for the City of Cupertino. 4LEAF has completed numerous residential and commercial plan reviews on behalf of the City.

Apple Park

4LEAF provided the Building, Fire, and Public Works Department Inspection services on the largest private commercial construction project in the Country. 4LEAF was tasked with mobilizing a **project team of more than 20** Building, Fire, and Public Works Inspectors, Project Administration Staff, and Engineering team for this more than **$8 Billion project**. 4LEAF was responsible for coordinating the inspections in relation to the City's permits and ultimately packaging milestones of the project for occupancy approval from the City's Chief Building Official.

- **Main Building –** The Main Building accommodates up to 12,000 employees and comprises approximately 2.8 million square feet.
- **Corporate Fitness Center –** Comprising approximately 100,000 square ft.
- **Corporate Auditorium –** Comprising approximately 120,000 square feet and will hold up to 1,000 people.
- **North and South Parking Structures –** Two above-grade parking structures of approximately 6,000 spaces.
- **Central Utility Plant –** Integrated parking structure and serves all buildings on the Main Building site.
- **Phase 2 Research and Development Buildings –** 600,000 square feet of office, research, and development and two separate above ground parking garages.

Plan Review Services

North and South Parking Structures – 4LEAF reviewed the above grade Parking Garages (2) for Apple Park. The 4LEAF team performed Structural, Architectural, Fire-Life-Safety, Mechanical, Electrical, and Plumbing. The garages included two – 3 story and 300,000 Sq. Ft. structures which included Photovoltaic Array on the rooftops. Both garages will be connected by bridges and spine ramp.

Public Works Mitigation Improvement Projects

4LEAF performed Resident Engineer (RE) and inspection services for numerous Public Works improvement projects being performed in the City associated with the construction of the Apple Campus 2 Project. Improvements included installing new sanitary and storm drain lines, modifying traffic signals, relocating existing gas and potable and recycled waterline, intersection improvements, curb and gutter improvements, and new AC paving. Sanitary sewer improvements included installing 12 in. to 27 in. diameter sanitary sewers at depths between 7 and 20 feet. The project was inspected per Caltrans specifications

BASIS OF CHARGES

Rates are inclusive of "tools of the trade" such as forms, telephones, and consumables.

- All invoicing will be submitted monthly.
- Staff Augmentation work (excluding plan review) is subject to 4-hour minimum charges unless stated otherwise. Services billed in 4-hour increments.
- Most plan reviews will be done in 10 business days or less and 5 business days or less for re-checks. This is not inclusive of holidays or the day of the pick-up of plans.
- Expedited reviews will be billed at 1.5x the plan review fee listed in the fee schedule. Return time will be within seven (7) days of receipt of the plans from the City.
- Plan review of deferred submittals & revisions will be billed at the hourly rates listed.
- All plan review services will be subject to a $262.00 minimum fee if percentage-based fee or 2-hour minimum charge if hourly rates apply.
- Larger complex plan reviews can be negotiated to achieve the best possible pricing.
- All plan review services will be subject to 2-hour minimum fee.
- All plan review services are billed on a percentage basis and include the initial review and 2 rechecks.
    - Plan reviews will be billed on an hourly basis only after the initial review and 2 rechecks unless otherwise agreed upon on a case-by-case basis.
    - Fire and Civil Reviews are billed on an hourly basis and are not included in our plan review percentage.
- 4LEAF assumes that these rates reflect the FY2025-2026 contract period. There will be a 3% escalation for each subsequent Fiscal Year. (i.e. FY2026-2027, FY2027-2028, and so forth)
- Overtime and Premium time will be charged as follows:
    - *Regular time (work begun after 5AM or before 4PM)* — *1 x hourly rate*
    - *Nighttime (work begun after 4PM or before 5AM)* — *1.125 x hourly rate*
    - *Overtime (over 8-hour M-F or Saturdays)* — *1.5 x hourly rate*
    - *Overtime (over 8 hours Sat or 1st 8-hour Sun)* — *2 x hourly rate*
    - *Overtime (over 8 hours Sun or Holidays)* — *3 x hourly rate*
- Overtime will only be billed with prior authorization of the Director or other designated City personnel.
- All work with less than 8 hours rest between shifts will be charged the appropriate overtime rate.
- Mileage driven during the course of Inspections will be charged at cost plus 20%.
- Payment due on receipt. All payments over 30 days will be assessed a 1.5% interest charge.
- Client shall pay attorneys' fees, or other costs incurred in collecting delinquent amounts.
- Client agrees that 4LEAF's liability will be limited to the value of services provided.
- In accordance with California's Meal Break and Rest Break Law requirements, Client will be billed one (1) additional hour per day at the regular rate for each missed meal or rest break due to Client-directed tasks or requirements. Client should allow 4LEAF's non-exempt, hourly employees the opportunity to take their entitled rest and meal breaks during each work shift.

Docusign Envelope ID: 4633CD85-C974-449D-A023-B186175FC3C4

BASIS OF CHARGES – PREVAILING WAGE

- Rates shown assume the projects will require compliance with California Prevailing Wage rate requirements and assumes the Client will be filing a PWC-100 Form to the California Department of Industrial Relations (DIR) for the projects.
- Rates for prevailing wage categories are subject to annual escalations in accordance with the bi-annual wage determinations from the California DIR.
- Per the new requirements being enforced under SB 854 and because it is assumed that a PWC-100 Form will be filed by the Client to the CA DIR for each project, 4LEAF is required to notify an authorized Apprenticeship Committee through submittal of a DAS-140 form. We are then required to make an official request to an authorized Apprenticeship Committee for an apprentice by submitting a DAS-142 form. We are not assured the apprenticeship committee will be able to provide a suitable / qualified apprentice for the project. Per the apprenticeship requirements, the hours worked by the apprentice must be in a ratio of 1:5 for apprentice to journeyman hours. 4LEAF will not know the labor classification of the Public Works Apprentice until an Apprentice is dispatched to the site; therefore, the rates for the five Periods listed under the California DIR's Wage determination for Building Construction Inspector were used to determine the range of hourly rates for Public Works Inspector Apprentice.
- Pre-approved Overtime and Premium hours for labor categories subject to Prevailing Wage requirements will be charged per the following:
  - *- Nighttime (work begun after 4PM or before 5AM) 1.125 x hourly rate*
  - *- Overtime (over 8 hour M-F or Saturdays) 1.35 x hourly rate*
  - *- Overtime (over 8 hours Sat or 1st 8 hour Sun) 1.85 x hourly rate*
  - *- Overtime (over 8 hours Sun or Holidays) 2.35 x hourly rate*
- All invoicing will be submitted monthly.
- All work with less than 8 hours rest between shifts will be charged the appropriate overtime rate.
- Project-related mileage for inspections will be billed at the allowable IRS Rate plus an additional 20%.
- Payment due on receipt. All payments over 30 days will be assessed a 1.5% interest charge.
- Client shall pay attorneys' fees, or other costs incurred in collecting delinquent amounts.
- Client agrees that 4LEAF's liability will be limited to the value of services provided.
- In accordance with California's Meal Break and Rest Break Law requirements, Client will be billed one (1) additional hour per day at the regular rate for each missed meal or rest break due to Client-directed tasks or requirements. Client should allow 4LEAF's non-exempt, hourly employees the opportunity to take their entitled rest and meal breaks during each work shift.

PROFESSIONAL SERVICES MASTER AGREEMENT

(DEVELOPMENT ENGINEERING STAFF AUGMENTATION)

BETWEEN

CITY OF BENICIA AND

Ghirardelli Associates, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and Ghirardelli Associates, Inc., a California Corporation located at 6601 Owens Drive, Suite 155, Pleasanton, California 94588, licensed to do business in California, ("CONTRACTOR") relating to Ghiradelli & Associates Master Services Agreement: On-Call Development Engineering Services Staff Augmentation (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Development Engineering Services may include, but not be limited to:

A. Construction Inspector

B. Engineering Technician

C. Civil Engineer

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

   1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Randall Bruner

President/CEO

randy@ghirardelliassoc.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between Ghirardelli Associates, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

RE: RFP# 25-083 On-Call Development Engineering Services - Staff Augmentation

Dear Ms. Horfacre,

Ghirardelli Associates, Inc. (Ghirardelli) is pleased to present this proposal to provide On-Call Development Engineering Services for Staff Augmentation to the City of Benicia (City). Ghirardelli has assembled a team to provide engineering plan review and construction inspection services to the City.

We recognize the City's requirement for a highly skilled team to provide on-call coverage to support the City's Development Engineering Services needs. We have assembled a team of knowledgeable and highly qualified Engineers and Construction Inspectors to fulfill this need. Our Contract Manager **Frank Navarro, PE, QSD/P, CFM** brings over 28 years of varying experience in the management, design, and review of private development projects throughout the Bay Area. Frank has supported the Cities of Alameda, Orinda, San Bruno, Pleasant Hill, and Contra Costa County with various engineering, project management, and land development services.

Frank will be supported by a team of qualifed Construction Managers, Engineering Techncians, and Civil Engineers. **QA/QC Manager, Stephen Tovmassian, PE, QSD** brings over 12 years of municipal engineering and land development management experience. He offers the City an understanding of local, state, and federal regulations and requirements. He also brings extensive local knowledge from his involvement in numerous local project, assisting in both the entitlement and permit phases. **Our proposed technical staff** has deacades of combined experience in municipal engineering. They specialize in land development review, project management, and construction inspection, having spent numerous years augmenting staff on various on-call assignments for local agencies throughout the Bay Area.

As a principal of the firm, I have the authority to bind the firm/team. Frank can be contacted directly during the proposal evaluation using the information below.

Frank Navarro, PE, QSD/P, CFM, Contract Manager
6601 Owens Drive, Suite 155, Pleasanton, CA 94588
Phone: 925-575-0417 | Email: fnavarro@ghirardelliassoc.com

Our desired outcome is to successfully exceed the expectations of the City and enable the agency to operate at maximum efficiency. It is a privilege for Ghirardelli to offer our engineering expertise to the City's land development projects. Our team looks forward to working with you.

Sincerely,
Ghirardelli Associates, Inc.

A. Firm Profile

Founded in 1999 as an engineering support service to Caltrans, Ghirardelli has grown into a comprehensive engineering and construction management firm over the last 25 years. As an S-Corporation in California, we currently employ more than 200 Civil Engineers, Land Development Review Engineers, Project Managers, Stormwater Professionals, Construction Managers, Civil/Structural Inspectors, and other support professionals. We have supported more than 250 public agencies by providing services for public works projects. Our servicing office is 6601 Owens Drive, Suite 155, Pleasanton, CA 94588.

SERVICE OFFERING

Ghirardelli presents the City with a holistic blend of proficiency in land development management and plan review, and supplementary Construction Inspection, including staff augmentation, ensuring comprehensive coverage of all contract-related requisites.

Ghirardelli introduces an adept Contract Manager, well-qualified to oversee this contractual undertaking. Frank's extensive familiarity with the City's regulations concerning private development review and his seasoned expertise in shepherding projects from entitlement to close-out stands as a valuable asset.

Below is a range of services Ghirardelli offers our municipal clients.

Land Development Project Management and Plan Review

- Land Development Project Management
- Entitlement Plan Review
- Engineering CEQA Support
- Field Investigations
- Building and Encroachment Permit Plan Review
- C.3 Stormwater Compliance
- Floodplain Management
- Development Construction Support
- Staff Augmentation

Capital Improvement Program Project Management

- Initial Project Planning and Preparation
- Procurement and Bidding Support
- Public Outreach and Community Engagement
- Utility Coordination
- Design PS&E Review
- Engineering Procurements
- Construction Contract Award and Oversight
- Grant Management
- Public Outreach and Community Engagement
- Project Closeout and Issue Resolution

Construction Management

- Construction Management and Inspection
- Constructability Review
- Claims Avoidance and Scheduling
- Cost Control and Estimating

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

B. Approach to Scope of Services

Ghirardelli Associates is well-positioned to support the City of Benicia through this staff augmentation on-call contract, drawing on decades of experience providing responsive, high-quality development engineering and construction inspection services to public agencies throughout the Bay Area. Our approach is centered around flexibility, technical strength, and a collaborative work ethic that seamlessly integrates with City staff to help meet workload demands, customer service expectations, and project deadlines.

We offer a deep bench of qualified professionals—including Construction Inspectors, Engineering Technicians, and Civil Engineers—with extensive knowledge of municipal standards, development processes, and inspection practices. Our scalable staffing model ensures we can mobilize quickly in response to fluctuating workloads or vacancies without sacrificing continuity or quality.

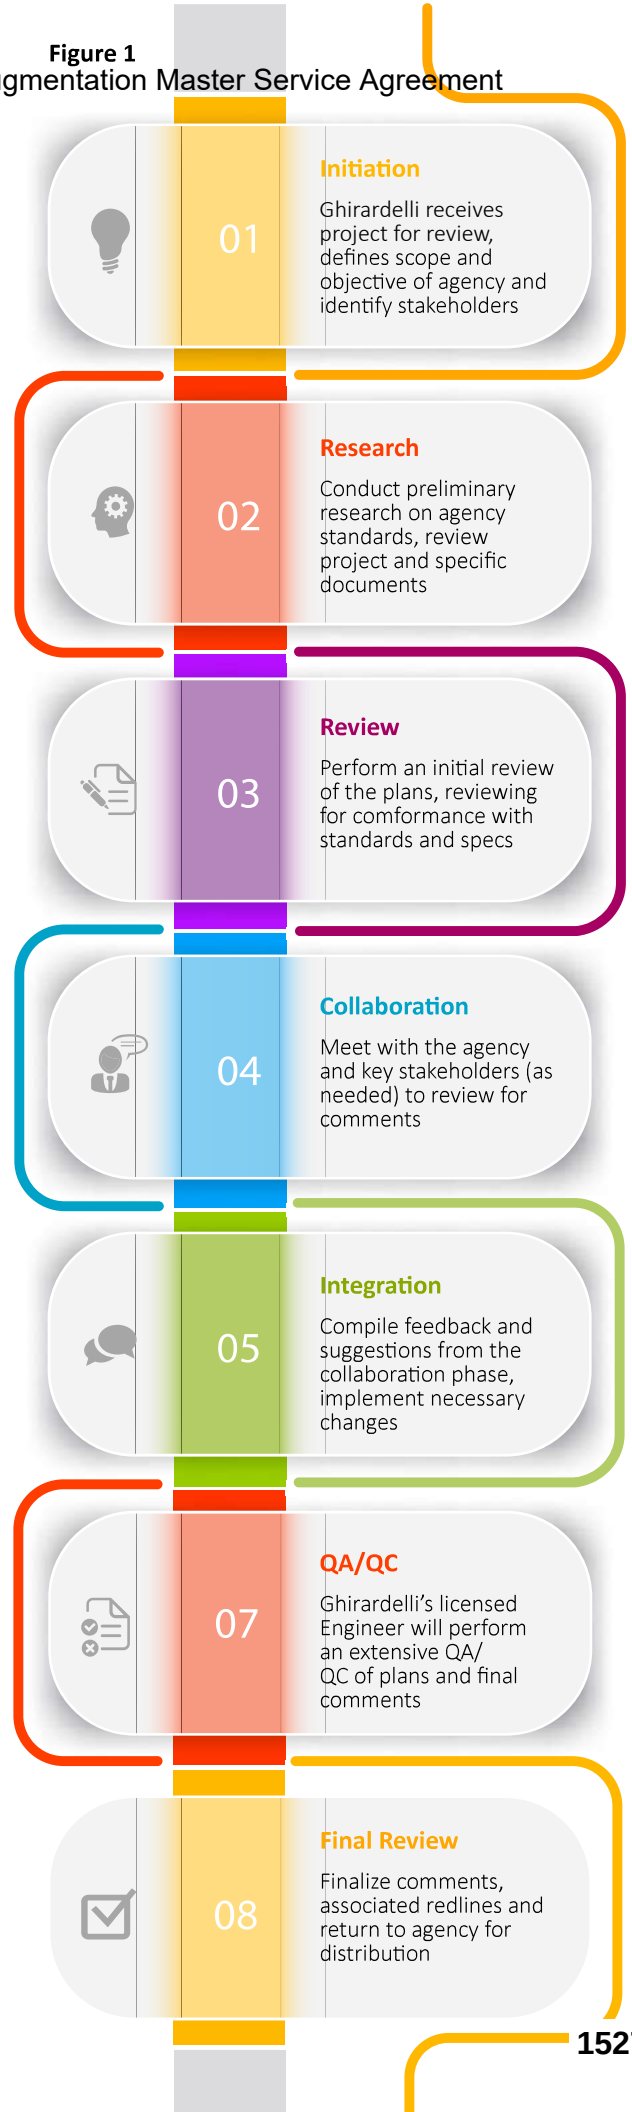
The following outlines Ghirardelli's core approach to supporting the City through plan review, construction inspection, and engineering services:

Construction Inspection

Privately funded development projects differ from traditional public works efforts—they move quickly, are highly cost-sensitive, and require proactive issue resolution to maintain momentum. When Ghirardelli serves as the quality assurance representative for an agency on private development projects, our role is to solve problems early, efficiently, and at the field level. Our goal is to ensure projects are built to standard, on schedule, and in alignment with the City's and community's expectations. Very simply, we do this through:

- Experienced Inspectors: By staffing our projects with experienced inspectors that have in- depth knowledge of all components of development, we can identify potential issues and resolve them quickly.
- Robust Operational Support and Communication: By providing consistent support in the daily operations of the project and maintaining continuous

Figure 1



Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

communication between the field inspector, client, and developer we ensure that all project goals are met and that the City and the Community receive a quality product.

Field Inspection

GAI construction inspectors will perform all field inspection activities to monitor compliance with the contract plans and specifications of private developments. We will record all items of work, labor, equipment, materials incorporated, materials tested, and any other pertinent information in a daily diary for permanent record of events. Photographs of project progress will be taken on a regular basis and kept for permanent records to support disputes and verify quality for acceptance. A representative set of photos will be shared with the department on a weekly basis.

We will perform field measurements to ensure compliance with contract documents and report on daily completed work. We will work alongside City materials testing consultant and/or the developers materials testing consultant to monitor field testing in accordance with project specifications. We will inspect all material delivered to the project for compliance and complete the appropriate documentation for each item. Our construction inspectors will inspect the work for final acceptance. Any non-conforming work will be documented and included in the punch-list for completion. All non-compliant work will be tracked and taken off the list for acceptance when the work is completed to our satisfaction, in meeting the contract requirements.

As the contract nears completion, the GAI inspectors will coordinate a “walk-through” including the contractor, the design staff, and City representatives to develop the punch-list. GAI will then monitor the contractor’s progress in completing the punch-list items. We will also help to ensure that no additional items are created in the process. Reports on the contractor’s progress in correcting punch-list items will be reported to the City daily or as requested.

GAI field staff will prepare electronic daily reports that document weather, shift duration, personnel on the project, equipment used, tracking of force account activities (including accurate recording of labor, equipment and materials used), phone conversations, field instructions and discussions, and any other daily occurrences pertinent to the scope, schedule, budget, quality, and safety related issues. Our Inspection staff monitor all daily activity for any impacts, non-compliance and/or enforcement of the project specifications and/or imposed best management practices (BMPs) to effectively minimize any impacts before they happen.

Land Development Management and Review

Ghirardelli supports cities through every phase of the development review process, from early entitlement through final engineering approval. Our team’s strength lies in our ability to collaborate with planners, engineers, applicants, and agency staff to produce reviews that are technically sound, clearly documented, and responsive to project timelines.

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

Entitlement Development Application Review

Ghirardelli has extensive experience providing cities with planning entitlement review services, which typically include:

- Attending pre-application meetings with the City and Applicant and providing preliminary comments
- Reviewing various entitlement packages (including but not limited to tentative maps, site plan and architectural review, tentative parcel maps, etc.), which may include the following conceptual plans/ reports:
  - Site plans including turning templates, vehicle/ pedestrian circulation, and emergency vehicle access
  - Grading and drainage plans
  - Utility plans
  - Stormwater management plans and approach to ensure conformance to local stormwater requirements
  - Traffic signal, photometrics, street lighting, landscape and irrigation plans
  - Various mapping elements including easement dedications, vacations, creation of new lot lines etc.
  - Water supply assessment, hydraulic analysis, floodplain management, sewer capacity, coordination with City infrastructure masterplans, and geotechnical studies.
  - Structural design and calculations as they pertain to civil infrastructure
- Assisting the City in preparation of project specific conditions of approval and development agreements (if necessary)
- Coordinate with City staff, Applicants, and other key stakeholders to progress the project
- Review preliminary plans for off-site improvements required as part of development projects
- Provide engineering support to the City during the CEQA process
- Assist the City in preparation of staff reports
- Attend City council, planning commission, and various other meetings as requested by the City, to provide technical advice to staff or seek clarification on standards and policies from staff
- Perform field investigations to determine existing conditions, as required.

Engineering Plan Review

Ghirardelli has extensive experience providing cities with comprehensive public works engineering plan review services, the scope of which generally consists of:

- Reviewing building and improvement plans, which may include:
  - Rough grading
  - Site plans including turning templates, vehicle/ pedestrian circulation, and emergency vehicle access
  - Site grading and drainage
  - Utility and associated utility profiles
  - Stormwater management plan and approach for conformance to local stormwater requirements
  - Signing, striping, and bicycle/pedestrian facility design
  - Erosion control, haul routes, construction best management practices, and post-construction water quality control
- Technical and conformance reviews of project utility reports (sewer, storm, and water)
- Geotechnical investigation reports will be reviewed to ensure recommendations are incorporated in the project design
- Traffic impact studies will be reviewed to ensure recommendations are included in the project design
- Confirm that the plans conform to City Engineering Standards, City Municipal Code, project conditions of approval, CEQA mitigation measures, and any associated master plans
- Reviewing off-site improvement plans for work proposed in the City's right of way
- Review bonding estimates for costing accuracy
- Conformance reviews of landscape and joint trench plans with civil plans

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

- Review operations, maintenance and other necessary agreements
- Traffic signal, joint trench, street lighting, and photometric plans for conformance with City and industry standards
- Meetings and coordination with City staff, Applicants, and outside agencies (as requested)

As part of the plan review process, Ghirardelli prepares a plan check comment letter and includes any associated redlined documents. These comments and redlines will serve as the Applicant's guidelines in making corrections and preparing their resubmittal package. Ghirardelli utilizes Bluebeam Revu for redlined documents and plans.

Erosion and Sediment Control Review

Ghirardelli offers comprehensive erosion and sediment control/stormwater construction site control reviews, drawing on our team's extensive expertise in this critical field. Many of our Plan Reviewers possess firsthand experience in providing construction site control inspections, which uniquely positions us to collaborate effectively with Applicants during the design phase. This collaboration allows us to determine the most suitable site control measures for their projects.

Our review encompasses various crucial components, one of the most significant being the project-specific erosion control plan. We meticulously ensure the proper positioning and planning of essential features such as construction entrances and exits, washdown stations, fiber rolls/silt fencing, construction fencing, and inlet protection. Additionally, we assess haul routes, construction best management practices (BMPs), and post-construction water quality control plans, all to ensure a project's compliance with City and Construction General Permit (CGP) requirements.

Furthermore, for projects requiring a Stormwater Pollution Prevention Plan (SWPPP), we conduct a thorough technical review of the SWPPP, ensure the project plan conforms to the SWPPP, and verify that the Applicant has submitted a notice of intent to the state water resources control board.

FEMA Floodplain Administration

Ghirardelli possesses a wealth of expertise in evaluating FEMA applications pertaining to floodplain development (i.e. LOMA, LOMR, CLOMR, Substantial Improvements/Substantial Damage (SI/SD) determination, and other types of floodplain applications). Our team members hold certification as a Certified Floodplain Manager (CFM) and have actively supported municipalities throughout California in processing FEMA-related applications. Ghirardelli's CFM's will assume the role of the primary reviewer for all floodplain development projects the City assigns, including Elevation Certificates.

The review process is iterative, with the initial submittal containing the document to be reviewed and any supporting information (for example, a legal description should be submitted with a closure calculation). The review should result in either the acceptance of the documents, or a response with questions and suggested changes. These suggested changes should be focused on compliance with best practices and law, and avoid comments related to style differences. Subsequent submittals are also reviewed for compliance with previous peer reviews. The submittal and review process continues until documents are deemed acceptable.

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

C. Project Experience and References

Ghirardelli brings an array of land development project management and review experience to this contract. Our Contract Manager, proposed team, and extensive 25-year background provide the City with unparalleled engineering knowledge in support of land development projects.

ON-CALL DEVELOPMENT PLAN REVIEW

Ghirardelli currently acts as City Project Manager for various land development projects in San Bruno. As City Project Manager, Ghirardelli is tasked with ushering projects from pre-application through to project closeout by providing the following: detailed plan review of entitlement and building permit applications (including preparation of comments and conditions of approval), assistance in CEQA processing and preparation of development agreements, review of technical documents (i.e. utility reports, traffic analysis, stormwater management plans, etc.) for accuracy and conformance to project plans, coordination with various internal and external stakeholders including Applicants, and other various engineering tasks as required.

The types of land development projects being processed are broad and include a combination of mixed-use, multifamily residential, office, and residential subdivision projects. Ghirardelli staff also assists in processing several affordable housing projects for Senate Bill 330 and 35, which require a different approach to the development review process. Ghirardelli continues to provide these project management and plan review services to the City.

- Reimagining Tanforan (Tanforan Mall Redevelopment) - Duties include overseeing the City's consultant team for the 44-acre redevelopment surrounding the existing Tanforan Mall. To date, we have managed the review of the preliminary project application and gathered the necessary documents for the CEQA process.
- Glenview Highlands Development - Project Manager for this entitlement application requested to develop a vacant plot of land into a 58-unit housing subdivision. Since the application was submitted after the July 2023 deadline, the project must comply with the MRP 3.0 requirements.
- 840 San Bruno Avenue - Provided land development review and project management services for this Senate Bill 330 affordable housing project.

Ghirardelli provides stormwater plan review services for the City of Burlingame, focusing on ensuring compliance with Provision C.3 of the San Francisco Bay Regional Water Quality Control Board's Municipal Regional Permit (MRP) and the City's stormwater management requirements. Our responsibilities include evaluating diverse application types, including design reviews and accessory dwelling units, new development and redevelopment, and park facilities. We assess whether projects are subject to Provision C.3 and review all relevant stormwater management documents including but not limited to stormwater management plans, grading and drainage plans, utility plans, and operations and maintenance agreements for MRP compliance.

We also manage application statuses and review deadlines using the City's permit tracking software, Central Square Community Development, and engaged directly with City staff and developers to address any stormwaterrelated inquiries. Our efforts ensure that all review comments and conditions of approval were clear and comprehensive, and that developments adhered to both MRP C.3 standards and City-specific stormwater regulations, thereby supporting effective stormwater management across the community. This project is on track to be completed on time and within budget.

The project involved the redevelopment of an 17.8-acre site into a mixed-use commercial, retail, hotel, and veteran's affordable housing. Ghirardelli provided administration and management services, including review and response of RFIs, submittals, and project correspondence; third-party agency coordination with SFO, CCFD, and BART PD; compliance with dual agency permit requirements; field coordination, site supervision, and public safety. Ghirardelli was responsible for daily operations, including the installation of a new storm drain, sanitary sewer, domestic water, fire water, and joint trench, and site improvements, including curb, gutter, sidewalk, and bioretention areas. This project was successfully completed on time and within budget.

As part of a separate consultant, Stephen served as the Development Review Manager for this project, overseeing the engineering plan review and coordinating with the City and developer.

AS NEEDED PLAN REVIEW

Ghirardelli serves as City Project Manager overseeing private development projects. Work includes include plan review, CEQA assistance, development agreement preparation, technical document review and stakeholder coordination.

Projects include Suisun Valley Place, a new retail and residential development including +1500 residential units. Suisun Valley Place consists of a 13.1 acre retail center with a movie theater anchor with a full service restaurant. Additional retail is proposed to include several casual dining restaurants, services, and local businesses. A linear park will connect Suisun Valley Place with the city of Fairfield trails and parks system.

MONARCH BAY SHORELINE DEVELOPMENT

As employees of another company, Frank Navarro, Mario Camorongan, and Stephen Tovmassian, provided project management and development plan review for the City San Leandro with managing this Public/Private partnership between the City and Cal Coast Development to redevelop a 52-acre area surrounding the City's existing marina. The Monarch Bay Shoreline Development Project is a planned development along the northern portion of the San Leandro shoreline, which has a vision to create a regional destination that connects the community with the Bay and provides enhanced recreational and community amenities. The public-private partnership with Cal-Coast Companies is planned to include up to 500 new housing units for families and individuals of varying incomes, a hotel, restaurants, small retail space, a new community library, a 25-acre passive public park, nearly 2 miles of public promenade, and an extension of the San Francisco Bay Trail.

Frank supported the City with project management including helping prepare the Development Agreement, attending community meetings, attending meetings with the City and Applicant, reviewing preliminary engineering and mapping plans, and preparing extensive conditions of approval.

Bickford Ranch Development Project

Bickford Ranch Development is a 1,928 acre master planned community that will provide new residential homes, parks, public and private facilities and open space. Ghirardelli is providing construction inspection services for Phase 1 which includes both on-site and off-site improvements. Our inspection staff verifies the plans and specifications are being followed, prepares daily inspection report with photographs, and attends the contractor's daily safety meeting. The team works closely with stakeholders such as Placer County (Environmental Engineering), Placer County Water Association, Caltrans, City of Lincoln, City of Roseville, and PG&E.

On the Rough Grade Phase 1 Improvements project, Ghirardelli managed the grading of 1,000,000 cubic yards of cut and fill, including an estimated 43,000 CY of export material. The scope of work also encompassed tree removal, erosion control, pavement encroachments, drainage systems, and hydromodification/retention basins. Coordination with the Placer County Water Agency has been an ongoing effort, particularly as they re-routed and undergrounded the Caperton Canal.

For Phase 1 and subsequent Phase 1B and 2A Backbone Infrastructure projects, Ghirardelli oversees the construction of comprehensive water infrastructure, including a booster pump station with a welded steel tank, transmission and distribution lines, individual services, pressure relief stations, blow-offs, and a combination of ductile iron pipe with cathodic protection and C-900 pipe for distribution. Additionally, sewer lift stations are being constructed, with responsibilities covering foundation installation, underground utilities connections, and larger components integral to the station's operations.

On-site improvements also include the construction of rockery and Basalite block walls, complete roadways with detached sidewalks, landscaping, trails, and a traffic signal. For the off-site SR-193 and Sierra College Boulevard projects, Ghirardelli observed the excavation and installation of the sewer main line, including connections to the City of Lincoln's existing sewer system. This phase required blasting through dense rock. Additional tasks included installing storm drains with flared end sections, paving, striping, and traffic control.

On-Call Construction Management Services

Ghirardelli supports the City with program management, construction management, and inspection services for all off-site and on-site civil improvements associated with their private developments. Ghirardelli's responsibilities include managing underground utilities including sewer systems, water, joint trenches, irrigation canals, detention basins, flood control measures, subdivision enhancements, roadways, traffic signals, and parks.

Our staff works collaboratively with material and utility testers which includes verifying grades and testing underground utilities, and reviewing test results and tracking inspection documents. Ghirardelli has experience with the installation of underground utilities and joint trenches on various projects which includes subsequent bacteriological, pressure, video, and cathodic protection testing. The primary concern surrounding this scope is the safety of the City and residents. We aim to achieve safety by carefully monitoring active work and ensuring the correct preventive measures are implemented to avoid exposure to contaminants through the use of BMP's.

The Old River Pump Station Project is a support facility for the proposed neighborhoods for which it will be used to convey sewage to the nearby wastewater treatment plant via a 12-inch sanitary sewer force main. This facility consists of a 40-foot wet well alongside the pump house and odor control room to convey the proposed sewage to be produced by Neighborhoods K & J. The installation of controls along with the SCADA integration allows for remote access and control of the pump station. The removal of groundwater through a series of wet wells was necessary due to the pump stations proximity to Old River.

Neighborhood K & J Project constructs an 18-acre park, preserving 41 acres of wetlands, and developing 2,070 residential units on a 797-acre site. Includes new pump house, restroom, maintenance facilities, drainage, detention basins, storm drain, utilities, sidewalks, curbs, ADA compliant ramps, landscaping, roadway/bike lanes, street lighting, and signalized intersections. Also includes installation of fusible PVC through a bridge casing to tie into city water. Storm drain repairs were necessary for existing storm mains that had been previously installed and were achieved by using an injectable material by the name of Seal Guard.

Frank Navarro, PE, QSD/P, CFM

Contract Manager | Senior Principal Engineer

Frank is a professional engineer with 28 years of experience in all phases of municipal engineering including capital projects, land development, transportation planning, and construction. He has recently provided development review services to the cities of San Bruno, San Leandro, Vallejo, Rohnert Park, Gilroy, and Dublin. Prior to joining the private sector, Frank spent seven years with the City of Dublin as a Senior Civil Engineer overseeing land development review, construction inspection, and floodplain management activities.

Project Experience

Land Development Project Management and Review
City of San Bruno; San Bruno, CA
Project Manager. Frank served as City Project Manager for various land development projects within the City of San Bruno. As City Project Manager, he acted as City staff and is tasked with ushering projects from pre-application through to project closeout by providing the following: detailed plan review of entitlement and building permit applications (including preparation of comments and conditions of approval), assistance in CEQA processing and preparation of Development Agreements, review of technical documents (i.e. utility reports, traffic analysis, stormwater management plans etc.) for accuracy and conformance to project plans, coordination with various internal and external stakeholders including Applicants, and other various engineering tasks as required.

Tanforan Redevelopment
City of San Bruno; San Bruno, CA
Project Manager. Frank serves as the City's Project Manager overseeing the City's consultant team for the 44-acre redevelopment surrounding the existing Tanforan mall. The redevelopment will include a life science campus, mixed-use facilities (including a Target, cinema, and open-space/park area), and residential housing. The Project will also include creation of new streets, relocation of existing utilities (including a large diameter sewer main in El Camino Real), and other streetscape improvements. To date, Frank has managed the review of the Preliminary Project Application and gathering necessary documents for the CEQA Process. He will continue to provide project management as the development progresses as well as perform detailed engineering plan reviews.

Monarch Bay Shoreline
City of San Leandro; San Leandro, CA
Land Development Project Manager. Frank served as the Manager of Land Development for the City with managing this public/private partnership between the City of San Leandro and Cal Coast Development to redevelop a 52-acre area surrounding the City's existing marina. The redevelopment includes multi-family apartments, a hotel, a conference center, housing units, new restaurants, a new community library, a 25-acre passive public park, and almost 2 miles of Public promenade. Frank supported the City with project management including helping prepare the Development Agreement, attending community meetings, attending meetings with the City and Applicant, reviewing preliminary engineering and mapping plans, and preparing extensive conditions of approval.

Capital Improvement Project Management

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

City of Pleasant Hill; Pleasant Hill, CA
Project Engineer. Frank provided senior level consulting services to the City of Pleasant Hill in the areas of capital project management, land development, and construction. He was project manager for the Contra Costa Boulevard Improvements project which delivers key traffic safety and streetscape enhancements to the downtown commercial corridor. Frank worked closely with the design consultant team and with Caltrans Local Assistance (multiple federal funding sources) to ensure project scope, budget, City design, and construction standards were met. He also handled the land development review and processing of numerous residential and commercial applications including entitlement activities, conditions of approval, and plan and map check.

Various Developments
City of Gilroy; Gilroy, CA
Land Development Project Manager. Frank provided development plan review and project management services for the City of Gilroy. Tentative map, improvement plan and final map review for in-fill and large greenfield residential developments including Glen Loma Ranch (450+ lots), Hecker Pass (500 + lots), Alexander Station (multi-family mixed use), and numerous other residential developments.

Various Developments
City of Pleasant Hill; Pleasant Hill, CA
Land Development Project Manager. Frank provided development review services including pre-application and entitlement review, coordination with other City Departments and external agencies, improvement plan check, and coordination during site construction and project closeout. Projects included Carmax, Diablo Valley Plaza Remodel, Hilton Homewood Suites Hotel, DeNova Taylor / Mercury subdivision (18 lots), and numerous other commercial and residential projects.

Various Developments
City of Vallejo; Vallejo, CA
Land Development Project Manager. Frank provided development plan review and project management services for the City of Vallejo. Notable projects include Lennar Mare Island, Waterstone II, Fairview, and the Lodge at Glen Cove.

CERTIFICATIONS
CA, Professional Civil Engineer, #85780

Stephen Tovmassian, PE, QSD

QA/QC Manager | Principal Engineer

Stephen offers over 12 years of experience in the field of municipal engineering. His expertise includes managing complex public works engineering functions in the areas of land development project management and review, water, wastewater, storm drainage, stormwater treatment, and transportation engineering. Notably, Stephen has managed and reviewed several major development projects throughout the Bay Area, including Burlingame Point (Meta Campus Expansion), Tanforan Redevelopment, Millbrae Serra Station, and Millbrae Gateway projects.

Project Experience

Firehouse Square Affordable Housing Project
City of Belmont; Belmont, CA
Assistant Land Development Project Manager. The Firehouse Square Affordable Housing Project is located at 1300 El Camino Real in Belmont. The development spans 0.72 acres and includes 66 affordable housing units in a three- and four-story building with residential units above partial retail space and a basement parking garage. The project features a mix of studios, one-, two-, and three-bedroom units, and a community room that incorporates the historic firehouse façade. Stephen supported the City in processing the entitlement application by reviewing conceptual plans, drafting conditions of approval, and collaborating closely with the applicant and internal City departments. Stephen also assisted the City with a review of the project's hydraulic improvements, which required an application to FEMA for a letter of map revision.

Burlingame Point (Meta Campus Expansion)
City of Burlingame; Burlingame, CA
Project Manager. Stephen served as the Project Manager for comprehensive civil review and acted as the City's Public Works Construction Manager for the Burlingame Point Development Project. This 18-acre development included the realignment of an existing street, new utility infrastructure, including several new storm drain outfalls, and two stormwater treatment facilities. The project also included the construction of a new sanitary sewer force main and two pump stations along Airport Boulevard which connected the Project to the City's Wastewater Treatment Plant (roughly ¾-mile). As public work construction manager, Stephen regularly attended construction progress meetings, reviewed RFI's/construction submittal pertaining to public works infrastructure and worked with the contractor/Applicant to resolve issues in the field.

C.3 Stormwater Compliance Review
City of Burlingame; Burlingame, CA
Project Manager. Stephen oversees stormwater plan review for the City, focusing on ensuring compliance with Provision C.3 of the San Francisco Bay Regional Water Quality Control Board's Municipal Regional Permit (MRP) and the City's stormwater management requirements. Her responsibilities include evaluating diverse application types – ranging from design reviews and accessory dwelling units, new development and redevelopment, and park facilities.

Docusign Envelope ID: 8A9FFD4C-D246-4F57-8660-7C79ABF5D743

Monarch Bay Shoreline Development
City of San Leandro; San Leandro, CA
Assistant Land Development Project Manager. Stephen provided assistance to the City with managing this Public/Private partnership between the City of San Leandro and Cal Coast Development to redevelop a 52-acre area surrounding the City's existing marina. The redevelopment included multi-family apartments, a hotel, a conference center, housing units, new restaurants, a new community library, a 25-acre passive public park, and almost 2 miles of Public promenade. Stephen assisted the City's Transportation and Engineering Department with general project management including helping prepare the Development Agreement, attending community meetings, attending meetings with the City and Applicant, reviewing preliminary engineering and mapping plans, and preparing extensive conditions of approval.

Google Charleston East
City of Mountain View; Mountain View, CA
Land Development Review Project Manager. Stephen provided land development review services for offsite and onsite packages of the proposed Google campus at 2000 North Shoreline Boulevard in Mountain View. This project included the review of a new street alignments which connected Charleston Road and Amphitheatre Parkway, new utility infrastructure, at grade bioretention facilities, and an elevated Class 4 cycle track.

Tanforan Redevelopment
City of San Bruno; San Bruno, CA
Assistant Land Development Project Manager. Stephen assisted the City with managing the City's Engineering consultant team for the 44-acre redevelopment surrounding the existing Tanforan mall. The redevelopment included a life science campus, mixed-use facilities (including a Target, cinema, and open-space/park area), and residential housing. The Project also included creation of new streets, relocation of existing utilities (including a large diameter sewer main in El Camino Real), and other streetscape improvements. To date, Stephen has assisted the City's Engineering division with review of the Preliminary Project Application and gathering necessary documents for the CEQA Process.

Gateway at Millbrae Station
City of Millbrae; Millbrae, CA
Development Review Project Manager. Stephen led the engineering plan review process for a prominent 16.9-acre development situated adjacent to the Millbrae BART Station. This multifaceted project encompassed the construction of four structures catering to office, commercial, and retail domains. The development also incorporated a total of 380 affordable housing units, along with 30 market-rate housing units, in addition to a 164-room hotel. The major elements of the project included the installation of a new signal at Millbrae Avenue and Rollins Road, replacing the existing bus terminal to create a pedestrian mall, and redesigning and reconfiguring the existing BART parking lot for more efficient use of space.

EPACENTER Arts
City of East Palo Alto; Palo Alto, CA
Land Development Review. Stephen provided land development review services for this development project located at 1950 Bay Road. The project scope involved developing a vacant plot of land into a 25,000 square foot youth arts center and associated parking. This project was particularly interesting from a stormwater perspective as it installed underground rain barrels onsite for stormwater re-use within the building in addition to green infrastructure within Pulgas Avenue.

C.3 Plan Review
City of Daly City; Daly City, CA
Project Manager. Stephen serves as the project manager for various C.3 plan reviews of C.3 regulated projects within the City of Daly City. The scope of work varies for each project but generally entails review of entitlement or building permit packages for compliance with Section C.3 of the Municipal Regional Stormwater NPDES Permit (MRP). Once the regulated project is approved for construction, in-progress stormwater inspections of the treatment facilities are provided, and field challenges are worked through with the project's contractor.

Michael Williams

Construction Inspector 2

Mike is an experienced civil and electrical inspector. He is proficient in construction administration, as well as project management, estimating, coordinating with subcontractors, and acting as a liaison between the client and owners. Mr. Williams' has a proactive approach, excellent communication skills, and a proven track record supervising and training staff. He has more than 16 years' experience with construction projects and project estimating, including estimating for projects in excess of $1M, cost control for client retention, RFP/RFI vendor management, proposal writing and review, supervising 10-person teams, and training. He is familiar with aspects of commercial and residential construction, structural defects, blueprint takeoffs, new construction and remodeling, pavement upgrades, sustainable street projects, and curb and ramp improvement projects.

Project Experience

Monument Boulevard Pavement Project
City of Concord; Concord, CA
Construction Inspector | The objective of this project is to enhance roadway and pedestrian infrastructure, improve traffic flow and safety, and ensure compliance with stormwater pollution control measures across designated areas. This project involves mobilization, traffic control, storm water pollution control, clearing and grubbing, tree trimming, asphalt concrete grinding and removal, asphalt concrete installation, and rubberized asphalt concrete installation. Additionally, the project includes asphalt dig-out repairs, lowering and restoring utility covers to grade, survey monument adjustments, and improvements to concrete curb ramps and sidewalks at select locations. The scope also covers the relocation of pedestrian pushbuttons, application of traffic striping and markings.

Whitman Road Sanitary Sewer Improvement
City of Concord; Concord, CA
Construction Inspector | The project involved relocating and upgrading sanitary sewer infrastructure along Whitman Road, including replacing sewer mains, rehabilitating manholes, extending and reconnecting laterals, and a short sewer repair at the Whitman Road/Gilardy Drive intersection. Construction activities involved traffic control, stormwater pollution prevention, bypass pumping of sewer flows, open trench installation of sewer mains and laterals, manhole installation and rehabilitation, abandonment of the existing sewer main, and concrete work on curbs, gutters, sidewalks, and ramps.

Castro Ranch Road
City of Richmond; Richmond, CA
Construction Inspector | This project is the pavement rehabilitation of Castro Ranch Road from Olinda Road to the Richmond City Limit in Richmond, California. The work includes traffic control, environmental protection, removal and replacement of concrete curbs, removal of sidewalks, removal and replacement of AC dike, cold milling of asphalt pavement, wedge and conform grinding, and pavement repairs. Thermoplastic traffic striping and traffic markings for new bike lanes, traffic dividers, pedestrian push buttons, removing and placing of signs and signposts, median landscaping, and as shown on the project plans.

EDUCATION

M.S., Civil Engineering (Structural Engineering emphasis), California State University, Los Angeles

B.S., Electrical Engineering, University of California, Santa Cruz

Project Experience

5G Fiber Optic Infrastructure
City of San Mateo, San Mateo, CA
Construction Inspector. Stacy provided full time construction inspection during the installation of the City's new 5G fiber optic infrastructure. This is part of the City's Small Cell Network initiative. The small cell network will help relieve network congestion and pave the way for next generation networks. The technology will also expand "smart city" innovations, like citywide data-sharing, and will help the City stay competitive in the global economy.

documentation for attachments; develop tracking log of administrative records including field test results; update project as-built drawings per contract changes; and processing and routing Change Notices and Changes Orders.

Development Inspection
City of Burlingame; Burlingame, CA
Construction Inspector. Stacy provided inspection for improvements along Malcom Road and Old Bayshore Highway. The project involved comprehensive improvements, including the installation of C900 PVC pipelines and T-valves for main, domestic, and fire water lines. Work included trench excavation, dewatering, and the precise placement and torquing of pipelines and valves. Additional site enhancements were completed, including curb, gutter, and landscape grading. She ensured all aspects of the project were executed with precision and adhered to safety and environmental standards.

eBART Antioch Station Expansion Parking Project and Miscellaneous Site Improvements
BART; Antioch, CA
Office Engineer. Since the successful opening of BART to Antioch, also referred to as eBART, in May 2018, ridership has exceeded the forecast and parking spaces at the Antioch Station have been in high demand. To accommodate this increase in ridership, a new parking lot with approximately 850 parking spaces is being constructed at the Antioch Station, along with other improvements within eBART. The project includes modification of the existing Antioch Station Parking Lot, improvements on Canal Road – BART Maintenance of Way access gates, Slatten Ranch Road interchange striping modifications and multi-use path improvements. Work consists of civil, electrical, systems connection and traffic signals construction. Stacy is performing document control and office engineering activities including maintenance of electronic project files as well as hard copy documents; processing all incoming and outgoing documents using the WongCMS system; project set up in WongCMS and uploading necessary document for filing; daily monitoring and processing of RFIs and submittals; assisting the Resident Engineer in the preparation and distribution of weekly meeting agenda and minutes and gathering pertinent.

Michelle Bocalan

Engineering Technician 2 | Associate Engineer

Michelle is an engineering professional with over 23 years of experience providing municipal engineering and development review support to local agencies. She is adept at reviewing major and minor developments, including grading plans, public improvement plans, and utility improvement plans. In addition to her expertise in performing plan reviews, Michelle has provided engineering support to various public agencies in stormwater compliance, grant administration, public works inspection, and project reporting.

Project Experience

Associate Engineer
Private Consultant; Foster City, CA
Associate Engineer. Michelle provided engineering plan review, onsite engineering staff augmentation, engineering inspections and project closeout for public agencies throughout the San Francisco Bay Area. General duties included plan review of major and minor developments (residential and commercial), including but not limited to grading, public improvement, utility improvement, and plot plans. Projects and contracts she was involved in include:

- Project Management Support | Town of Colma, CA: Provided support in various agency deliverables including grant application support, compiling, and processing RFPs, coordinating NPDES deliverables, and land development reviews.
- Land Development and Public Works Support | City of South San Francisco, CA: Reviewed land development projects and created staff reports, development & consultant agreements & invoices, reviewed reports, assisted in public works inspections, and issued grading & encroachment permits.
- Engineering and Land Development Support | City of East Palo Alto, CA: Creating city standards, handling land development projects, assisting in capital improvement projects, organizing fee schedule structures, assisting PW inspections, issuing grading & encroachment permits
- Land Development Staff Support | City of Orinda, CA: On-site and off-site staff support services, including plan review, front counter assistance, permitting, and inspections. She has also aided with the development of the City's SB-9 Ordinance and guidelines and updating the City's Subdivision Ordinance
- Land Development Staff Support | Town of Moraga, CA: On-site and off-site staff support services, including plan review for single-family homes and various subdivisions, permitting, inspection, project closeout, and front counter assistance to the public.
- Walnut Estates and Holden Walnut Creek - Land Development Review | City of Walnut Creek, CA: Engineering plan checks for the development of a 1.51-acre site that includes 13 parcels for single family homes, a parcel for water quality treatment and a parcel for a private street and a project to build 139 residential homes.

Del Norte TOD Complete Streets Improvements
City of El Cerrito; El Cerrito, CA
Office Engineer. Michelle serves as the Office Engineer for this complete streets project. Work consists of improvements for bicyclists, pedestrians, transit users, and motorists to support transit-oriented development around the Del Norte BART Station. Project elements include enhanced and protected crosswalks, context-sensitive bikeways, bus boarding islands, circulation improvements, and various streetscape enhancements around and leading to the station.

CA Professional Engineer Civil #87000

Jessica Garcia, PE

Civil Engineer | Senior Engineer

Ms. Garcia, an engineering professional with over 12 years of experience, offers diverse expertise in project engineering, management, and contract administration across transportation, public works, and federal agencies. Her roles span from spearheading management of the Caltrans DSDD program to providing support in transportation design, public works planning, and cost engineering. With her commitment to excellence and multifaceted skill set, Ms. Garcia has consistently driven the successful completion of critical infrastructure projects.

Project Experience

Riverside Ponds & Headwork Mitigation Project
City of Calistoga; Calistoga, CA
Construction Inspector | As the construction inspector of this project is to improve the resilience of critical WWTP infrastructure from catastrophic failure from flooding and associated erosion that threatens the City's WWTP. Work included replacing the existing Riverside Ponds with new ponds with berms elevated above the 100-year floodplain, stabilization of the banks of the Oat Hill Mine Ditch and Napa River, realignment and stabilization of Simmons Creek, and other incidental improvements as shown on the project plans.

Bay Trail – Vine Trail Gap Closure
City of Vallejo; Vallejo, CA
Construction Inspector | The Vallejo project spans nine locations, primarily focusing on road rehabilitation for drivers while enhancing trail access for pedestrians and cyclists, extending approximately five miles to the Vallejo Ferry Terminal. Janet, as Project Manager, oversaw Caltrans, PG&E, and Union Pacific coordination for areas within their jurisdiction. Ms. Garcia inspected the installation of FDR, fog seal, micro-surfacing, polyester concrete overlays, and thermoplastic striping and markings, as well as the placement of signs and traffic signal improvements.

Project Manager
Terravanta, Inc.; Lake Forest, CA
Project Manager | As Project Manager, Ms. Garcia spearheaded the management of the Caltrans Design Standard Decision Document (DSDD) program, a newly implemented initiative for utility pole work within Caltrans right of way. In her role, she supervised five engineering consultants responsible for developing DSDDs for Southern California Edison (SCE) projects. Her tasks encompassed assigning projects to specific consultants, ensuring timely and cost-effective completion of each DSDD, reviewing DSDDs before Caltrans submittal, and coordinating between SCE permitting staff and consultants to revise DSDDs in accordance with Caltrans review comments. Ms. Garcia's oversight and attention to detail ensured the seamless execution of the DSDD program, facilitating efficient management of utility pole work projects and fostering collaboration between Caltrans, SCE, and consulting teams.

Transportation Engineer
Caltrans, District 4; Oakland, CA
Transportation Engineer | Ms. Garcia supported Senior Transportation Engineers in the Design Section. She was responsible for conducting and coordinating the technical preparation of various project documents, including Project Initiation Documents, Project reports, Plans, Specifications and Estimates, and Design exceptions for transportation projects. She meticulously reviewed design guidelines, including Design Standard Decision Documents (DSDD) for multiple projects, ensuring compliance and quality standards were met.

Land Development Review Project Manager
Private Consultant; City of Mountain House, CA
Mr. Camorongan provided various roles and responsibilities in CSG ranging from Senior Project Manager to Principal Engineer. As Principal Engineer, he was assigned as Interim Land Development Manager leading staff in delivering plan reviews and processing of development projects, reviewing and approving invoices, and other required tasks. As Senior Project Manager, he provided following services:

- **Land Development Review Project Manager | City of Mountain House, CA**
  Mr. Camorongan provided project management and submittals review, and project oversight as a Resident Engineer in support of the inspector on a number of parks and landscape projects. He provided oversight for the review and processing of various subdivision projects.
- **Entitlement Review Services | City of San Leandro, CA**
  For the 52-acre Monarch Bay Shoreline Development, Mr. Camorongan reviewed the entitlement application for completeness, and assisted the City with development of the Conditions of Approval for this project involving multi-family apartments, a hotel, a conference center, housing units, restaurants, a community library, a 25-acre passive public park, and a 2-mile public promenade. In addition, Mr. Camorongan reviewed floodplain applications for numerous residential projects.
- **Land Development Review Project Manager | City of Alameda, CA**
  Mr. Camorongan provided project management and development review services for the City of Alameda. Notable projects include Clement Avenue improvements from Grand Avenue to Willow Street; The Launch Development, a 360-unit multi-family development; and The Townhomes, a 182-unit development.
- **Land Development Review Project Manager | City of Vallejo, CA**
  Mr. Camorongan has provided land development plan review and project management services for the City of Vallejo including Fairview at Northgate/Costco development and Northern Waterfront development. Both developments are mixed used (commercial and residential) projects.
- **FEMA Floodplain – related Review | Cities of Alameda, San Leandro, and Town of Colma**
  Mr. Camorongan reviewed floodplain applications for numerous residential projects in the Cities of Alameda and San Leandro; and provided support to the Town of Colma for review of Letter of Map Revision for Colma Creek.

PROFESSIONAL SERVICES MASTER AGREEMENT

(DEVELOPMENT ENGINEERING STAFF AUGMENTATION)

BETWEEN

CITY OF BENICIA AND

F.J. Kennedy & Associates, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and F.J. Kennedy & Associates, Inc., a California Corporation located at 2586 Comistas Drive, Walnut Creek, California 94598, licensed to do business in California, ("CONTRACTOR") relating to Kennedy & Associates Master Service Agreement - On-Call Development Engineering Services Staff Augmentation (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Development Engineering may include, but not be limited to:

A. Construction Inspector

B. Civil Engineer

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and

maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

Agreement. If CONTRACTOR is a "design professional," as defined in California Civil Code Section 2782.8(c), CONSULTANT shall indemnify, defend, and hold the Indemnitees harmless against Liability only to the extent such Liability arises out of, pertains to, or relates to CONSULTANT's negligence, recklessness, or willful misconduct. In such an event, the cost to defend charged to CONSULTANT shall not exceed CONSULTANT's proportionate percentage of fault.

1. If CONTRACTOR is a "design professional," as defined in California Civil Code Section 2782.8(c), CONSULTANT shall indemnify, defend, and hold the Indemnitees harmless against Liability only to the extent such Liability arises out of, pertains to, or relates to CONSULTANT's negligence, recklessness, or willful misconduct. In such an event, the cost to defend charged to CONSULTANT shall not exceed CONSULTANT's proportionate percentage of fault.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

A. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

B. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

C. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend,

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

D. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

E. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Frank J Kennedy

President

fjk@kennedyandassociates.org

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between F.J. Kennedy & Associates, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Kennedy & Associates
CONSULTING CIVIL ENGINEERS

Project Management
Construction Management
Program Management
Engineering Services

May 12, 2025

City of Benicia
250 East L Street
Benicia, CA 94510

Attention: Stacy Hofacre, Sr. Management Analyst

Subject: Statement of Qualifications for On-Call Development Engineering Services – Staff Augmentation

Thank you for the opportunity to present this Statement of Qualifications for On-Call Development Engineering Services – Staff Augmentation. For over 22 years Kennedy and Associates' primary focus has been to support public agencies in the Bay Area through staff augmentation in Development Plan Review, City Surveyor services, Stormwater Permit compliance, Floodplain Management, Project and Construction Management, Construction and Stormwater Inspection, and Capital Improvement Projects assistance. We have served as municipal management staff, City Surveyor and City Engineer. Currently, 100% of our work is for public agencies.

The contact for this proposal is:

Frank Kennedy, P.E., PWLF, QSD/P
(925) 932-7857
fjk@kennedyandassociates.org

F. J. Kennedy and Associates, Inc
2586 Comistas Drive
Walnut Creek, CA 94598

Kennedy and Associates is committed to performing the services stated in the On-Call Development Engineering Services – Staff Augmentation in the following capacities:

- Construction Inspector
- Civil Engineer

As we are based in Central Contra Costa County, our staff is a phone call away. Each staff member is fully equipped with a home office and is authorized to make decisions with our clients immediately, including responding to a new task order. With this form of team structure, we have the flexibility to efficiently respond as needed by our clients.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

Additionally, our staff can quickly respond on site as necessary. Kennedy and Associates has assisted clients at development applicant meetings, City Meetings from Zoning Administrator through City Council, public outreach meetings, construction inspections, as well as various stormwater support meetings and inspections.

We look forward to the opportunity to discuss how Kennedy and Associates can support the City's Public Works and Engineering staff at the City's convenience.

Very truly,

F. J. Kennedy

F. J. Kennedy, P.E., PWLF, QSD/P
President

10. Vendor Questionnaire

10.1. Project Organization

Kennedy & Associates (K&A) is proposing to provide On-Call Development Engineering Services and Staff Augmentation independently. No subcontractors are proposed.

Kennedy & Associates
2586 Comistas Dr
Walnut Creek, CA 94598
(925) 932-7857
fjk@kennedyandassociates.org

Corporate Officers:

Frank Kennedy, President Kennedy & Associates 2586 Comistas Dr Walnut Creek, CA 94598 Main: (925) 932-7857 Mobile: (925) 451-4294	Andrew Kennedy, Vice President Kennedy & Associates 1221 Henrietta Street Martinez, CA 94553 Main: (925) 932-7857 Mobile: (925) 451-0228

Kennedy & Associates' main office is located in Walnut Creek.

Additionally, each staff member is fully equipped with a home office including a connected network and file sharing services. This allows staff to quickly and efficiently work collaboratively with each other as well as our clients. K&A staff is equipped with software allowing project review comments and redlines to be noted directly on plan sets and returned electronically to the client and/or design engineer. K&A has well established working relationships with our local print shops enabling us to receive oversized plans electronically and simply print our own copies of plans when necessary.

It is noted that Kennedy & Associates has successfully employed this remote office model since our inception in 2002.

Additionally, our staff can quickly respond on location as necessary. Our target level of service is to be as close to responding to needs as staff in your office. We intend to be immediately available by phone or email and have staff physically present within four hours.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

10.1.1. Name of Subcontractors

K&A is not proposing subcontractors for this proposal.

10.1.2. Project Organization Chart

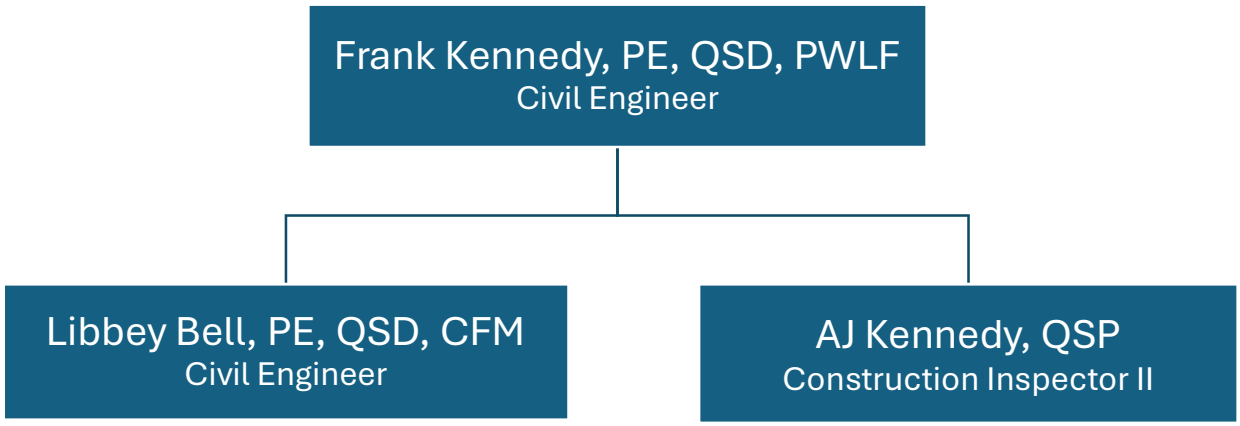
Kennedy & Associates Organizational Chart

Our key staff described in this Statement of Qualifications have specialty experience that will aid the City of Benicia. Our team consists of two licensed Civil Engineers and one Construction Inspector.

Our licensed engineering staff are experienced former city employees familiar with the internal processes of local government and working daily with the public as Current Development staff, Engineering Services Manager and City/Town Engineer. In addition, our team holds the licenses and certifications applicable to provide Engineering and City Surveyor support. Our staff regularly participates in continuing education opportunities, and sponsorship and attendance at industry group meetings such as CCEAC, APWA, ACEC, EBME and ASFPM.

Our Construction Inspector is APWA and QSP Certified.

We are a Caltrans Certified Small Business. With our size and close working style, we are able to be flexible and responsive. We have never failed to deliver a completed work product on time and on budget.



Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

10.1.3. Description of responsibilities

Our proposed team is as follows; complete resumes are included in section 10.4.

Frank Kennedy, **Principal in Charge, Civil Engineer**

Frank Kennedy is experienced in entitlement processing, development and stormwater plan and calculation review, and floodplain management. Additionally, Frank is the City Surveyor for Moraga, Pinole, Pleasant Hill, Concord, Vallejo and the Town of Danville. The past 5 years of experience as City Surveyor includes 58 project reviews of Parcel Maps, Subdivisions, Parcel Mergers, Lot Line Adjustments. Lot Splits, SB9 Lot Splits, Condominium Maps, Roadway Easements, and ROW Vacations. A detailed list of expertise and typical services is detailed in Section 10.2, Approach. A full list of projects and clients from 2022 to date is included as Attachment 1.

Libbey (Elizabeth) Bell, **Civil Engineer**

Libbey Bell is experienced in entitlement processing, development and stormwater plan and calculation review, and floodplain management. She also does mapping document review, including Parcel Maps, Final Maps, Chain of Title, Lot Line Adjustment under the direction of Frank Kennedy. A detailed list of expertise and typical services is detailed in Section 10.2, Approach. A full list of projects and clients from 2022 to date is included as Attachment 1.

A.J. (Andrew) Kennedy, **Construction Inspector**

A.J. Kennedy performs construction site inspections, including those required under the Construction General Permit, stormwater treatment device O&M inspections, commercial industrial cleanwater and rainy season site inspections, and On Land Visual Assessments for trash load reduction compliance. He also performs the ArcGIS Online data entry and tracking for full trash capture installation and bio-retention device installation for El Cerrito, Moraga, Hercules, Pinole, and Pleasant Hill. A full list of projects and clients from 2022 to date is included as Attachment 1.

10.1.4. Team Members

Civil Engineer:	Frank Kennedy Libbey Bell
Construction Inspector:	A.J. Kennedy

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

10.2. Approach

10.2.1. Approach

Our staff's expertise in Land Development support originates from our long history as former city engineering employees. We have since used that knowledge and expertise as consultants assisting various municipalities when their staffing levels are not adequate. We have extensive first-hand experience in the processing of private development projects from the initial entitlement phase through project acceptance and warranty. We are skilled in reviewing new projects for completeness, identifying outstanding items and considerations, crafting project-specific conditions of approval where necessary, drafting staff reports, making presentations to Planning Commissions and City Councils, reviewing construction documents, reviewing mapping documents including vesting information, maps, easements and other encumbrances, reviewing against applicable floodplain requirements, performing construction inspections including C.3 and C.6 inspections, and accepting public improvements. We have provided these services for all types of development projects including commercial, industrial, residential and mixed-use projects.

K&A has served as the City Surveyor for a number of Bay Area municipalities. City Surveyor services can be applicable to development projects, either public or private, as well as stand-alone issues. We are experienced in the review of (Vesting) Tentative, Parcel and Final Maps and all associated documents related to that review including Title Reports, vesting documents, closure calculations, quit claim documents, plats and legal descriptions. Stand-alone issues could include review and processing of the documents listed above as well as lot line adjustments, parcel mergers, certificates of correction, certificates of compliance, vacations or abandonments of public right-of-way and public easements, chains of title, and plat maps and legal descriptions. K&A staff has experience and expertise in review and research of associated information as well as review against City ordinances, County ordinances and State Law (Subdivision Map Act). Frank is duly authorized to serve as City Surveyor and sign all survey-related documents on the City's behalf.

K&A has a breadth of engineering experience not specifically noted in Section 4. Scope of Work. Other areas include stormwater management support, and general civil engineering support. By nature of our business model, K&A is available to field and assist with issues on an on-call basis.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

A detailed description of services provided include:

REVIEW OF ENTITLEMENT PLANS

K&A provides review for tentative maps, and vesting tentative maps, preliminary grading and drainage, storm water control (C.3) plans, infrastructure and street improvement plans for frontage improvements as well as street improvement plans, erosion control plans, and floodplain permit applicability. Entitlement review is performed for all types of development permits – single residential, minor, and major residential subdivisions, commercial projects, industrial projects, mixed-use projects, utility improvement projects and occasionally use permit or use permit amendment projects.

CONDITIONS OF APPROVAL

Condition of Approval development support and staff report support – while most municipalities have a standard set of conditions of approval, K&A assists in crafting project / site-specific conditions necessary for the project to be entitled and constructed in compliance with local, state, and federal requirements.

CITY MEETINGS

K&A assists municipal staff with Applicant meetings with development teams and their engineers as well as City Meetings such as Zoning Administrator, Design Review Board / Architectural Review Board, Planning Commission and City Council Meetings. K&A can be available to either respond to Council questions or prepare and present materials, as necessary.

CITY SURVEYOR SERVICES

K&A performs all types of City Surveyor Services including those associated with entitled projects and standalone surveying needs. For minor and major subdivisions, K&A routinely reviews Parcel Maps and Final Maps including associated vesting documents, reference Maps, closure calculations, and necessary quit claim documents, and plats and legals for right of way dedications and easements. Additional services not always associated with a development include Lot Mergers, Record of Surveys, Lot Line Adjustments, Certificates of Correction, Plat Maps, Legal Descriptions and all associated vesting documents and calculations required for review.

CONSTRUCTION DOCUMENT REVIEW

Once a project is entitled, K&A provides complete review of construction documents through permit issuance, construction, and project completion. Construction Document Review includes review of remedial grading plans, rough grading plans, grading plans, on-site and off-site improvement plans, storm water control (C.3 SWCP) plans, SWCP Operations and Management (O&M) plans, O&M Agreements, erosion control plans, traffic control plans, and any associated calculations or studies such as drainage studies or sewer calculations. Projects are reviewed against applicable local, county, state or federal design standards and plans as well as project specific studies such as the geotechnical report for the project site. Often, a cursory review of building

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

(roof) plans or landscape plans are required to confirm all plans are consistent and the project functions as designed. Project estimates are reviewed for bonding purposes.

STORMWATER SERVICES

K&A provides a full suite of stormwater services including review of stormwater control (C.3) plans for development review. This review is performed either in conjunction with review of the entire set of construction documents or separately where a municipality needs assistance only with stormwater review and compliance. In addition to the plan review K&A can also perform stormwater inspection – including C.3 Integrated Management Practices (IMP) construction inspection, Operation and Management (O&M) inspection.

FLOODPLAIN MANAGEMENT

K&A checks and confirms whether a project is located in a FEMA designated Special Flood Hazard Area (SFHA) or floodplain. When applicable, K&A reviews project plans for conformance with the municipality's flood prevention ordinance and permitting requirements as well as the minimum requirements of the National Flood Insurance Program (NFIP) requirements. K&A provides Special Flood Hazard Area (SFHA) determinations, Substantial Damage / Improvement determinations, Floodplain Application Review with respect to permitting as well as LOMA applications, CLOMR and subsequent LOMR applications and Elevation Certificate review.

CONSTRUCTION SUPPORT

K&A routinely provides engineering construction support when projects are under construction. This includes review of any proposed changes or clarifications to an approved portion of construction documents. Occasionally, field visits are requested and can be accommodated.

MITIGATION MONITORING

K&A can assist with ensuring compliance with the project's Conditions of Approval and where applicable its California Environmental Quality Act (CEQA) Mitigation Monitoring requirements. This task typically includes both tracking project submittals and approvals and construction compliance and occasional inspections or a requested combination thereof.

PHASE II SMALL MS4 GENERAL PERMIT COMPLIANCE

K&A is experienced in Permit Compliance and can assist the City with all aspects of their Phase II Small MS4 General Permit compliance.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

10.2.2. Level of Effort Letter

The nature of the City's Request for Proposals for On-Call Development Engineering Services and Staff Augmentation makes it difficult to provide a detailed staffing breakdown as the size and scope of any of the on-call work is not yet determined or communicated.

K&A is however committed to submitting to the City a bid (inclusive of work tasks, personnel, and cost proposal) electronically within five (5) to fifteen (15) working days of receiving the scope of work, as detailed in Section 4.8. Bid Procedures & Selection of the Request for Proposal.

It is understood that the City will be selecting a consultant from their contracted firms for any given project or task.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

10.3. References

10.3.1. References

K&A has provided on-call engineering, inspection and city surveyor services through similar contracts to the following Bay Area municipalities:

FRANK KENNEDY

City of Pleasant Hill – Development Engineering and Stormwater Support

Ann James
Public Works Director
925.671.4646
ajames@pleasanthillca.org

City of Pleasant Hill
100 Gregory Lane
Pleasant Hill, CA
94523

Frank performs on call development application review. The scope of work includes the completeness of the applications, technical review of the elements of the submittals and conditions of approval.

Frank also provides staff support to fully implement a compliant and functioning Stormwater program. He offers the necessary tools and programs to enable enforcement of the MRP. He currently represents the City in its committee obligations for the Contra Costa Clean Water Program and performs its O&M inspections. He supports, on request, the preparation of sections of the Annual Report.

Frank assisted the City in compliance with the Cleanwater provision on Trash Load Reduction. We make available to the City the review of development grading and improvement plans, storm water control plans and on land visual trash assessments.

City of Vallejo – Development Engineering, Stormwater Support and City Surveyor

Melissa Tigbao, P.E.
Public Works Director-Engineering
707.648.4316
melissa.tigbao@cityofvallejo.net

City of Vallejo
555 Santa Clara
Street Vallejo, CA
94590

Derek Crutchfield
Environmental Services Manager
707.648.5346
derek.crutchfield@cityofvallejo.net

Frank has provided staff support to the City of Vallejo to mobilize a fully compliant and functioning Stormwater program. Prior to the MRP issued in 2009, the City of Vallejo was subject to an NPDES permit issued in 1999 and thereby witnessed a sharp

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

increase in both the number and the range of Stormwater requirements to implement. We assisted the City in responding to a Notice of Violation letter. We continue to offer the necessary tools and programs, including a municipal ordinance, to enable enforcement of the MRP. We have provided training to Engineering, Planning, Building and Maintenance staff in the compliance aspects of the MRP including: plan check, SWCP and O&M plan check, construction site controls inspection and tracking, O&M inspection of installed bio-retention facilities, corporation yard inspection, municipal maintenance practices and Integrated Pest Management. We are currently providing support for the land development review. We assisted the City in compliance with the Trash Load Reduction provision. We support, on request, the preparation of sections of the Annual Report.

Frank also provides City Surveyor services and review of the stormwater and civil portion of development applications for all projects submitted for a building permit.

LIBBEY BELL

City of Concord – Development Engineering and Stormwater Support

Mitra Abkenari
Associate Civil Engineer
925.671.3439

Libbey has provided staff support to the City of Vallejo to mobilize a fully compliant and functioning Stormwater program. Prior to the MRP issued in 2009, the City of Vallejo was subject to an NPDES permit issued in 1999 and thereby witnessed a sharp increase in both the number and the range of Stormwater requirements to implement. We assisted the City in responding to a Notice of Violation letter. She continues to offer the necessary tools and programs, including a municipal ordinance, to enable enforcement of the MRP. She has drafted training for Engineering, Planning, Building and Maintenance staff in the compliance aspects of the MRP including: plan check, SWCP and O&M plan check, construction site controls inspection and tracking, O&M inspection of installed bioretention facilities, corporation yard inspection, municipal maintenance practices and Integrated Pest Management. She is currently providing support for the land development review. She supports, on request, the preparation of sections of the Annual Report.

A.J. KENNEDY

City of Clayton - Construction Inspection

Larry Theis, PE
City Engineer
925.890.9732
larryt@claytonca.gov

City of Clayton
6000 Heritage Trail
Clayton, CA 94517

From 2022 through 2024, A.J. was the grading inspector. Additionally, he observed and verified the SWPPP QSD work as the City inspector and also performed the rainy season monthly rain event inspections.

City of Benicia – Special Inspection

Sharon Denny
Management Analyst II
707.746.4215
sdenny@ca.benicia.ca.us

City of Benicia
250 East L Street
Benicia, CA 94510

A.J. has been performing the City DTSC inspections for the Tourtelot property since 2006. This was a remediated parcel that was part of the Fromer Benicia Arsenal. The purpose is to inspect for unlawful intrusions, slope failures, evidence of unexploded

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

ordinance in the previously cleared area, and for slope failures. He prepares the annual inspection report technical sections to be completed by the City Attorney's office.

City of Hercules – Stormwater Program Support

Jose Pacheco, P.E.
Associate Engineer
510.799.8247
jpacheco@herculesca.gov

City of Hercules
111 Civic Drive
Hercules, CA 94547

A.J. performs stormwater program support on an on-call basis. A.J.'s tasks include but are not limited to preparation of the Annual Report, Stormwater Specific GIS assistance and field inspection work related to Provision C.3 and C.10.

Town of Moraga – Stormwater Program Support

Shawn Knapp, P.E.
Public Works Director/Town Engineer 925.888.7027
sknapp@moraga.ca.us

Town of Moraga
329 Rheem Boulevard
Moraga, CA 94556

A.J. performs both inspection services and on-call Stormwater MRP tasks for the Town. Currently A.J. is performing rainy season site inspections, Stormwater GIS work related to post construction treatment compliance, and trash load reduction as well as assisting with the Annual Reports.

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

10.4. Resumes

Frank Kennedy, P.E., PWLP, QSD/P

Development Review, City Surveyor, Stormwater Program Support

EDUCATION
M.B.A. St. Mary's College, 1982
B.S. Civil Engineer, University of Santa Clara, 1968

REGISTRATION/CREDENTIALS
Professional Civil Engineer, California, #21771, 1972; Hawaii, #15762, 2015
ITS Local Assistance - Resident Engineer Academy, 2009
Qualified Storm Water Pollution Prevention Plan Developer (QSD) #798

WORK EXPERIENCE
F. J. Kennedy and Associates, Inc., President, 2002 – present
Jacobs Civil Company, Northern California General Manager, 2000 to 2002
City of Walnut Creek, City Engineer, 1986 to 2000

Frank Kennedy has 50 years of experience in the planning, design and construction management of transportation, commercial and industrial projects. His experience includes 35 years with private and public agencies focusing on municipal infrastructure design and construction. Projects included: the review and processing of major residential and commercial development, new roadways and bridges designed to Caltrans Standards and funded with State and Federal funds, pedestrian and bike bridges and trails, new parks, park expansion and renovation, storm sewer design and construction, and review and inspection of development infrastructure. He is well experienced in coordinating projects with Caltrans, the Army Corps of Engineers, Bay Area Regional Water Quality Board, the Bay Area Air Quality Management Board, the Department of Fish and Game, and the Bay Conservation and Development Commission. As City Engineer of Walnut Creek he oversaw the development and implementation of the City's Capital Improvement Program, as well as personally managing the City's major projects. He has current experience in projects involving Caltrans right-of-way, and State funding. He represents the City of Oakley, City of Pleasant Hill and the Town of Moraga on the Contra Costa Clean Water Program Management Committee in implementation of the Municipal Regional Permit (NPDES Permit).

RELEVANT PROJECT EXPERIENCE

- City Engineer, City of Oakland for the Oakland Army Base Redevelopment 2013 to present
- Current Development Engineering Manager for the City of Concord from 2009 to 2012
- Stormwater Program Manager for Town of Moraga, City of Concord and City of Oakley
- Development review for Town of Moraga, City of Oakley, City of Concord and City of Vallejo
- City Surveyor for the Cities of Oakley and Concord and the Town of Moraga

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

Libbey (Elizabeth) Bell, P.E., CFM, QSD/P

Development Services, Stormwater Program Management, Floodplain Management

EDUCATION

B.S. Civil Engineering, Minor Environmental Engineering, Pennsylvania State University, 1996

REGISTRATION/CREDENTIALS

Professional Civil Engineer, California #64004, 2002, Pennsylvania #083271, 2015
Certified Floodplain Manager #US-08-03366, 2008
Qualified Storm Water Pollution Prevention Plan Developer/Practitioner (QSD/P) #26311

WORK EXPERIENCE

Kennedy and Associates, Principal Engineer, November 2010 – Present
City of Concord, Acting Senior Civil Engineer, November 2005 – October 2010
Worldwide Land Surveys and Civil Engineering, Project Engineer, August 2003 – July 2005
Francisco and Associates, Project Engineer, December 2002 – August 2003
Berryman & Henigar, Project Engineer, January 2001 – December 2002
Williams Gas Pipelines, Project Engineer, November 1997 – January 2001

Libbey Bell has over 25 years of engineering experience. Early career experience consists of various design work including multi-million-dollar utility (high-pressure natural gas transmission lines) replacement design, municipal waterline expansion/replacement design, municipal Capital Improvement Plan (CIP) roadway and frontage improvement design, as well as residential and commercial development project design.
However, the overwhelming majority of her career, Libbey has worked either directly for a public agency or consulting to public agencies. She has expertise in Development project review from providing guidance during an initial pre-application meeting through entitlements, permit plan review, cleanwater considerations, project construction, permit compliance and final project close-out. With her range of experience, clients often reach-out to Libbey to brainstorm solutions to a wide variety of issues. She has superb research skills in stormwater resources. She also blends her resources as a Floodplain Manager with Stormwater to fill in potential gaps in the approach to project development and compliance review.

RELEVANT PROJECT EXPERIENCE

- Provide general Clean Water support
- Project Entitlement, Subdivision Map, and Construction Plan and Calculation Review
- Preparation of Annual Reports
- Develop / Implement Green Infrastructure Plan (GI) Plans
- Develop client staff Clean Water training as necessary

Docusign Envelope ID: 93FDDEE7-9DD0-4D6D-8297-7661086F8FC9

A.J. Kennedy, QSP
Stormwater Plan Review, Stormwater/Public Works Inspector, Stormwater Compliance Management

EDUCATION
Diablo Valley College
Engineering Studies/Machine Technology Certificate 1999

REGISTRAION/CREDENTIALS
APWA Public Works Construction Inspection Certification 2006
QSP # 21021
CESSWI EnviroCert Certification 2011

WORK EXPERIENCE
Kennedy and Associates Engineering, Stormwater Programs Management April 2006 – Present

AJ Kennedy performed plan check for major development projects for the City of Oakland including the Oakland Army Base Redevelopment Project. He provides inspection services, QSP services and C.6 Stormwater Compliance Inspection for the City of Oakley. He has provided stormwater compliance assistance for the City of Benicia, including staff training in inspection compliance, as a Phase II permit holder. He has also provided inspection and C.10 Trash Compliance Services and training for the Cities of Vallejo, Concord, Pinole and Oakley and Pleasant Hill; all MRP Permittees. He currently is the Inspector of record and prepares the DTSC annual inspection report for the Tourtelot Site Cleanup Project (former Benicia arsenal) on behalf of the City of Benicia. Additional current duties include:

- C.3 Operation and Maintenance Inspections for the City of Oakley and Town of Moraga
- C.4 Commercial/Industrial Inspections for the City of Oakley
- C.6 Construction General Permit Inspections for the City of Oakley
- C.10 Compliance including GIS assistance for the Cities of Concord, Hercules, Pleasant Hill, Pinole, Oakley and the Town of Moraga.

PROFESSIONAL SERVICES MASTER AGREEMENT

(DEVELOPMENT ENGINEERING STAFF AUGMENTATION)

BETWEEN

CITY OF BENICIA AND

TRB and Associates, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and TRB and Associates, Inc., a California Corporation located at 3180 Crow Canyon Place, Suite 216, San Ramon, California 94583, licensed to do business in California, ("CONTRACTOR") relating to TRB Master Service Agreement: On-Call Development Engineering Services Staff Augmentation (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Development Engineering Services may include, but not be limited to:

A. Construction Inspector

B. Engineering Technician

C. Civil Engineer

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

   1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Todd Bailey

Principal

tbailey@trbplus.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between TRB and Associates, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Rachel O'Shea, Deputy Community Development Director | Building Official
City of Benicia | 250 East L Street | Benicia, CA 94510

SUBJECT: TRB and Associates Proposal to Provide On-Call Development Engineering Services – Staff Augmentation

Dear Ms. O'Shea:

TRB and Associates, Inc. (TRB) is pleased to submit this Proposal to Provide On-Call Development Engineering Services – Staff Augmentation for your consideration. We have reviewed the contents of the City's RFP and are prepared to provide the requested scope of services. We look forward to the opportunity to build on our over 18-year work partnership with the City of Benicia Building and Safety Division providing On-Call Development Engineering Professional Services.

For this engagement, **Todd Bailey, P.E., CASp, LEED AP, and MBA** will continue to serve as the **Project Manager** responsible for ensuring timely delivery of quality support services. To confirm, Todd will be managing all services provided to the City from TRB's San Ramon office. Of note, Todd has over 18 years of personal experience providing Building and Safety support services to the City of Benicia. The balance of our proposed key staff is identified within our proposal response.

TRB provides Plan Review, Inspection, Delegate Chief Building Official, and CASp services to municipal building and public works departments throughout California. Our corporation, which comprises over 75 team members, was established in 2006 and has been a growing business since its founding. We specialize and serve exclusively in the code compliance role. We would like to highlight the following about the company:

- Our firm is engaged to provide as-needed Building Department and related services to over 75 municipalities in Northern California: including the City of Benicia. As a result, our team is very familiar with the many region-specific considerations that need to be considered when evaluating code compliance including flood zone, seismic design, wind exposure, soil/liquefaction, wildland urban interface, and landslide criteria.
- As a value-added service, Paul Armstrong will be available to provide code training to City staff and all invited guests on the California Building Codes Standards if desired by the City.
- The staff of TRB includes licensed Civil, Structural, Mechanical, Fire Protection, and Electrical Engineers; Architects; and ICC, CASp, LEED®, and SAP certified individuals who have an average 25 years of experience in the architecture-engineering-construction industry.
- Our staff are active in industry organizations such as ICC, CALBO, CBOAC, ASCE, and SEAOC. Of note, TRB+'s roster includes three ICC Chapter Presidents and a CBOAC Board Member.
- Our firm was recognized as Industry Member of the Year by the County Building Officials Association of California (CBOAC) in 2019.
- We have a strong track record of producing quality results and meeting turnaround goals, and a track record to which our clients will attest.

Our firm looks forward to the opportunity to continue to assist the City of Benicia as a Building Safety and Public Works Services provider and is prepared to enter into an agreement with the City immediately. In the documentation provided, you will find background information on the company, our building & fire life safety service offerings, representative project experience, professional references, and a fee schedule for your review. To confirm, proposed prices shall be in effect for one hundred twenty (120) days from the date of Price Proposal submission. If you have questions or need further information, please do not hesitate to contact **Todd Bailey** by phone at **(925) 866-2633** or by email at tbailey@trbplus.com. To confirm, I am authorized to bind the firm contractually. We look forward to hearing your feedback soon.

Sincerely,

TRB + ASSOCIATES, INC.

Todd Bailey, P.E., LEED AP, CASp, MBA

Company Overview

TRB and Associates, Inc. (TRB) is a California-based building and fire life safety services Corporation with offices in San Ramon, Sacramento, Burlingame, Santa Clara, Long Beach, and Las Vegas. Our firm provides Plan Review, Inspection, Building Department Administration, Delegate Chief Building Official, Disabled Access (CASp) Consulting services to public agencies throughout California.

TRB was established in 2006 and has been a growing business since its founding. The firm is owned by its Principal-in-Charge Todd Bailey, PE, LEED AP, CASp, MBA who has 30 years of experience working in the Building Safety field in California. Our over 75 team members have an average of 25 years of experience in the Architecture-Engineering-Construction industry, encompassing building safety and related services across a full range of code disciplines.

Range of Services

- ✓ Building and Fire Plan Review
- ✓ Building and Fire Inspection
- ✓ Building Department Administration
- ✓ Code Enforcement Inspection
- ✓ Consulting Chief Building Official
- ✓ Disabled Access (CASp) Consulting
- ✓ Building Standards Codes Training
- ✓ Civil & Planning Plan Review and Inspection

Capacity and Resources

TRB has extensive resources and a large pool of licensed engineers and certified building safety experts, equipped to handle a wide range of building department needs. The majority of our services are delivered on an as-needed, ongoing basis. Having a large pool of resources allows us to accommodate existing and future workload effectively. To confirm, we do not have any current or anticipated engagements which would affect our ability to staff for this assignment - we are committed to supporting the City of Manteca and have resources available for the anticipated needs noted in the City RFP.

Qualifications and Technical Capabilities

TRB team members possess multiple certifications and registrations to assure compliance with all requirements mandated by the State and local jurisdiction ordinances. Our team comprises of individuals who are either engineers or architects licensed in the State of California, or who possess ICC certifications in their respective disciplines. Of note, our team includes 8 licensed Structural Engineers. In addition, our staff includes 4 LEED® Accredited Professionals and 6 CASp certified individuals. Most of our staff possesses a combination of these industry-recognized credentials. Information on the qualifications of our proposed personnel and an Organizational Chart is provided in later Sections of our Proposal.

Our staff members are regular instructors and attendees at construction code and standards training offered through the local ICC Chapters, CALBO, CBOAC, SEAOC, AISC, ASCE, NFPA and other building industry organizations. In addition, several of our staff members are current or past board members with industry organizations and as such, are aware of many aspects of the development of relevant construction codes. Staff experience encompasses a full range of construction types and occupancies including the following:

- ✓ ADUs and JADUs
- ✓ Photovoltaic Systems
- ✓ Assembly Occupancies
- ✓ Commercial Tenant Improvements
- ✓ Detention Facilities
- ✓ Distribution Centers
- ✓ Hotels
- ✓ Industrial/Storage Warehouses
- ✓ Manufacturing Facilities
- ✓ Medical Office Buildings
- ✓ REACH Code Projects
- ✓ Battery Energy Storage Systems
- ✓ Mixed-Use Projects
- ✓ Multi-Family Dwellings
- ✓ Office Buildings
- ✓ Parking Structures
- ✓ Power Plant Facilities
- ✓ Recreation/Gymnasium Facilities
- ✓ Restaurants
- ✓ Logistics Centers
- ✓ Gas Stations
- ✓ Cannabis Facilities
- ✓ Hazardous Chemical Facilities
- ✓ High Rise Buildings
- ✓ Hospitals
- ✓ Retail Centers
- ✓ Schools
- ✓ Single Family Dwellings
- ✓ Sports Arenas
- ✓ Theaters

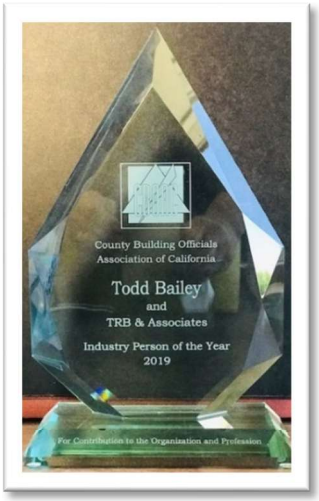
Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Customer Service Philosophy

TRB's customer service philosophy is simple; provide consistent quality services and represent our clients to the best of our ability. The achievement of the City's goals is at the heart of the services we provide. We have been able to consistently meet our clients' goals by implementing the following principles:

- ✓ Garnering a problem-solving attitude
- ✓ Gaining awareness of the issues that affect the community
- ✓ Applying the right expertise in a responsive manner

What you can Expect from Us



Experience

- Comprehensive understanding of the California Building Standards Codes
- Average 25 years' experience

Quality Work

- High technical competence and solutions oriented
- Balanced approach to application of adopted Codes & Standards

Responsiveness

- Close proximity to City Offices
- Staff available on 24/48-hour notice
- Critical-path awareness
- Effective workflow policies and procedures
- Emergency Response Ready

Teamwork

- Consider us your Partner – We work with you

What Sets Us Apart

TRB has a strong track record of production quality results, meeting turnaround goals and client satisfaction. Ask our clients:

> *"TRB has performed Plan-Check services for [our City] for many years now. They review 75% of all my external plan reviews, I can honestly say their services are excellent. I have used several companies over the last 23 years, TRB has outperformed them all. TRB remains responsive and in control, they meet with me and our clients when requested and constantly put in the extra effort to ensure positive outcome."* - California Municipal Chief Building Official

Our Commitment

In our firm's nearly 20 years in business, we have assembled a team of professionals that have been committed to the success of our clients. As the organization continues to grow, we have maintained our core belief in providing a welcoming environment, training, and promotional opportunities, and providing the best service possible to our clients. With TRB, the City of Benicia will continue to receive an experienced team who understands the needs of public agencies and takes pride in delivering outstanding service. Consider us your partner, and as such we are always on call and always available for everything from simple brainstorming sessions to representing you during meetings with stakeholders.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Subconsultants

TRB will be teaming up with two subcontractor firms for this project: **Provost & Pritchard Consulting Group** and **TERP Consulting**. TRB has excellent working relationships with both subconsultant firms, and we have teamed with each successfully on municipal support assignments.

Provost and Pritchard Consulting Group (P&P) will be prepared to provide civil engineering support services on the project. TRB is currently teaming with the firm to provide grading plan reviews for the RELATED Santa Clara Project. P&P has been providing engineering services for over 50 years and possesses over 200 employees throughout California.

KEY PROJECT MEMBERS: Michael Osborn, PE, LEED AP; Brayden Lovik, PE

TERP Consulting will be prepared to provide fire protection engineering and plan review support on the project. TRB has teamed with TERP Consulting on many large-scale projects including the $1.5 billion UC Davis Health Aggie Square and RELATED Santa Clara projects. TRB's work history with TERP spans over 10 years. The firm has extensive experience in fire protection engineering including fire protection systems, master egress systems, fire hazards analysis, and smoke control systems assessments on large-scale construction projects.

KEY PROJECT MEMBERS: Jim Begley FPE, CFM, LEED AP; Bryan Douglass, FPE

Description of Responsibilities of Key Personnel

Mindful of the potential complexity of projects in the City of Benicia, TRB has assembled a team with exceptional qualifications and attentiveness to quality and schedule. Our proposed team is comprised of senior-level professionals who have worked together across many projects and who possess extensive municipal support experience. We are pleased to be able to present a team with this combination of interpersonal familiarity and extensive industry experience.

PROJECT LEADERSHIP

Todd Bailey, PE, LEED AP, CASp, MBA, our company Principal and Founder, is prepared to continue to serve in the role of **Project Manager**. Todd has over 25 years of experience in the industry which includes serving as a Delegate Chief Building Official/Project Principal on over 20 large-scale fast-track design build projects in California having a combined valuation of over $30 billion. Of note, Todd's experience includes overseeing support services provided on the $9 billion RELATED Santa Clara project. Todd will work closely with our team to ensure that project goals are met and that findings are communicated in a timely and clear manner.

PLAN REVIEW TEAM LEADERSHIP

Our plan review group is led by our **Plan Review Services Manager**, **Bing Young, RA**. Bing possesses extensive experience in plan review on both residential and commercial projects and includes more than 25 years of professional experience in production, project management, construction management, energy, and accessibility analysis.

Senior Plan Review Engineer, Dan McLaughlin, PE, CASp will be available to serve as a senior plan review engineer on this assignment. Dan is a registered Civil Engineer, certified CASp, and ICC Certified Plans Examiner. Dan has been with TRB for over 10 years, specializing in plan review coordination with extensive experience on both complex commercial and residential project types.

Senior Plan Review Engineer, Petya McInnis, PE, CASp has over 24 years of experience in engineering and construction, has expertise in design, plan review, and inspection across residential, commercial, and industrial projects. Formerly a Plan Check Engineer for the City of Fairfield, she ensured code compliance, provided technical supervision, and supported Building Inspectors and Officials with code research. Petya's proactive approach has led to effective solutions, process improvements, and policy changes.

Dominic Ma, SE, MPA serves as our **Quality Control Principal**, responsible for ensuring the technical accuracy of all work performed. Dominic has more than 30 years of experience in reviewing building plans and specifications submitted for building permit applications to assure compliance with adopted building codes and reference standards.

INSPECTION AND FIELD SERVICES TEAM LEADERSHIP

Christopher Rose serves as our **Inspection and Field Services Manager**. Chris has over 20 years of inspection, plan review and administration experience serving in both public and private sector roles on a variety of projects. His experience includes serving as Building Manager for Sonoma County and coordinating document control tasks for the Apple World Headquarters project in Cupertino.

TECHNICAL DIRECTOR & INSTRUCTOR

Our **Technical Director - Paul Armstrong, PE, and CBO - is** available to provide expert code interpretation support and code instruction. With more than 30 years of building safety management experience, Paul teaches regularly for California Building Officials (CALBO). As a Chief Building Official, he managed building plan review, counter assistance, and inspection for numerous California agencies. His previous experience at International Code Council (ICC) included leading the Architectural and Engineering Services Department, International Conference of Building Officials (ICBO) Technical Services Department.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Project Understanding & Approach

TRB would like to confirm its intent to provide services in accordance with the Scope of Work identified in the City of Benicia's Request for Proposal (RFP) document. In brief, it is our understanding that the City is seeking qualified consultants to assist with **On-Call Development Engineering Services - Staff Augmentation** on a range of project types. It is understood that plan review tasks would comprise reviewing projects for adherence to the City's latest adopted Municipal Codes and Title 24 California Building Standards Codes covering structural, fire prevention, life safety, disabled access, energy conservation, green building, plumbing, mechanical, and electrical provisions.

TRB has reviewed the Scope of Services as outlined in the City's RFP and is prepared to continue to provide On-Call Development Engineering Services - Staff Augmentation including:

- ✓ Construction Inspector
- ✓ Engineering Technician
- ✓ Civil Engineer

TRB would like to confirm that it has staff appropriately certified to provide the requested scope of services. Also to confirm, all work will adhere to industry standards as determined by the California Code of Regulations, Title 24, and the City of Benicia Municipal Code (BMC). The following reflects our proposed work plan for providing the requested scope of services.

Project Approach Overview

Our approach to this engagement is centered on utilizing experienced staff and fostering open communication between our firm and the City. On an ongoing basis, our Project Manager, **Todd Bailey PE, CASp, LEED AP**, will maintain regular communication with City staff to ensure that we are kept informed of current code interpretations and policies, and to enhance our ability to quickly respond to any issues that may arise during permit counter, document review, and/or inspection activities.

We value the importance of the City's projects and are committed to meeting all project service delivery deadlines. We will diligently document and report all plan review findings, tracking information, and other reports, as required by the City.

Throughout this engagement, our key team members will be available to meet with City staff either via phone or in person to address questions that may come up during the course of a project. Our firm is committed to responding to all inquiries within 1 business day. We encourage discussions via in-person meeting, telecon, and/or WebEx/Zoom or similar formats as agreeable and necessary to achieve the most expeditious results.

Quality Control Assurance

Quality and on-time service are of paramount importance to us. Though we employ only experienced plan reviewers and expect their work to be of a high standard, we have instituted a quality control policy to ensure that this standard is maintained. At the core of our quality control approach is having a "two sets of eyes" policy in place. All work performed by staff is reviewed for quality control by senior members of our team. Our Project Manager and Quality Control Principal, **Dominic Ma SE**, hold primary responsibility for ensuring accuracy and consistency (QA/QC) in the application of adopted codes and standards for any City assignments.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Building Code Instruction

As an additional service, TRB is prepared to provide Building Code Instruction support to the City in either classroom or field-type settings on a range of technical subjects. **Paul Armstrong PE** is an award-winning California Building Standards Codes instructor whose accolades include being named CALBO Instructor of the Year. Paul is currently providing extensive training on the California Building and Residential Codes to TRB clients, local ICC Chapters, and CALBO Education Week attendees. Paul will be available to provide tailored training for the City and its invited guests upon request.

ICC PREFERRED EDUCATION PROVIDER

Project Workplan

Project Initialization, Scheduling & Management

From our prior experience supporting municipal building departments and divisions, we know that developing a comprehensive understanding of project construction documents and supporting the timely execution of project schedules is of critical importance. To confirm, for any plan review, inspection, or permit technician assignment, TRB members will possess a thorough understanding of all applicable project documents and processes and will be committed to supporting the City with its specific project schedule needs.

Preliminary Meetings and Project Administration

Shortly after the project award, we are prepared to meet to verify project expectations, deliverables, scheduling, and logistical considerations. Our Project Manager will coordinate with our Plan Review and Inspection Services Managers, to allocate plan review, inspection, and permit technician resources appropriately. The Plan Review Manager will be responsible for oversight of all the plan review services provided, and our Inspection Services Manager will be responsible for monitoring and managing any staff augmentation activities. Regular communication between our Project Manager and the TRB team will be ongoing throughout this engagement to ensure alignment of staffing and schedule needs.

Project Communications

We understand that ongoing communication is essential to ensuring project success. We promote and endorse any tools which help enhance communications between all project participants. We have utilized regularly scheduled calls for instance as a means for TRB, designated project owner, constructor, designer representatives, and others to discuss project schedule and critical path, manpower needs, potential challenges, and other related matters. Having these types of communications allows teams to identify when additional support may be needed and how resources may be best allocated to accommodate the project schedule and critical path. Throughout this engagement, our team members will be available to attend meetings with City staff, as well as design, constructor, and owner teams as needed.

Workload Accommodation | Timeliness of Response

It is understood that there are often periods of time when the workload extends beyond what may be normally expected. We would like to highlight that our firm has a system in order to accommodate such peaks without compromising turnaround or quality. We have many qualified and experienced team members who we access to assist at times of high workload or emergency need. In the event of a local, regional, or national emergency or disaster, our assigned staff are ready and available to immediately respond to a disaster and help as needed.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Construction Inspection Scope & Approach

TRB is prepared to perform inspection, referring to construction plans, structural plans, and material specifications for structures located within the City limits, upon 48-hour notice. Our inspectors are proficient at verifying project conformance to model code standards (Building, Electrical, Mechanical, Plumbing, Green Building and Energy & Accessibility), Grading, Stormwater, Drainage, MWELO and CFM provisions, as well as other locally adopted ordinances

TRB provides all labor and technical, administrative, professional, and other personnel; supplies, materials, equipment, and all other resources necessary to perform the specified work. TRB will use existing City forms or can develop correction sheets which meet with the approval of the City and shall maintain written lists of corrections needed to ensure conformance to codes and regulations.

Field Inspection Process

Our experienced team includes individuals with extensive field inspection experience on a range of project assignment types including municipality "Called Inspections," "Clerk of the Works," and "Inspector of Record" roles; our team can assist with a broad range of inspection responsibilities. Our scope of service areas includes infrastructure, residential, commercial, and industrial facilities, capital improvement projects, municipal agency services and infrastructure revitalization.

Our inspectors are careful to document all inspection activities, adhere to agency-adopted protocols, and follow field procedures and policies as dictated by the Building Official. TRB will maintain daily inspection records and all necessary documents on file for reference by the City. To confirm, TRB staff are available for applicant inquiries and/or conferences during normal City business hours.

Our inspectors are prepared to perform the following representative construction inspection tasks:

- Oversee Quality Assurance of the construction activities to verify conformance to plans and specifications.
- Document all work, contractor and subcontractor personnel and equipment, and field orders daily.
- Maintain onsite project log and as-built schedule report. Prepare daily reports of observations and activities.
- Maintain a daily inspection report containing a record of weather, contractors, work onsite, number of workers, work accomplished, problems encountered, solutions agreed upon, and other similar relevant data as directed by City.
- Monitor and report on applicable Erosion Control and SWPP provisions.

Our inspections can include those identified in the California Model Codes and which would be amended or modified as directed by the City:

- Foundation Inspection, Framing Inspection(s)
- Electrical, Mechanical, Plumbing systems inspection
- Lath and/or Gypsum Board Inspection
- Fire Code Inspection (if requested)
- Stormwater, Grading, Drainage
- Energy Efficiency Measures Inspections
- Green Building Inspection
- Fire Resistance Rated Construction Inspection
- Floodplain Inspection
- Civil Engineering elements as applicable

Engineering Technician Services

TRB is also prepared to provide onsite Engineering Technician staffing to the City on an as-needed basis. TRB staff are prepared to work at the City's offices as an extension of City staff under the supervision of the Chief Building Official or their designee with the knowledge, skills, and abilities to perform the following requisite functions.

- Assist the public at the front counter or by phone regarding engineering, building, and planning permit requirements, application and permit fees, application filing procedures and processing, and permit status.
- Enter permit and related data into the City permit tracking system.
- Perform plan review and inspection on simple project types.
- Accept permit and related applications and collect fees. Screen plans and application materials for completeness and for conformance with City ordinances standards, policies, and guidelines.
- Review application materials for compliance with conditions of project approval; route plans to other City departments for review; approve and issue minor permits; research and respond to public inquiries.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Civil Engineering / Grading Plan Review Scope & Approach [Option]

The TRB team is equipped to perform civil engineering plan review and construction inspection support to the City on an as-needed basis. TRB plan reviewers and inspectors will work with City staff to ensure that all work conforms to the project construction documents, Codes and Ordinances including Grading Code, APWA Standard Specifications, AWWA Standards, State and Federal (ADA) Building Codes related to site accessibility.

Our reviews consider all relevant project documentation including plans, specifications, calculations, and other related correspondence to verify conformance to adopted local codes, ordinances, regulations, and standards. To confirm, TRB is prepared to provide all requested support services as identified in the City's RFP document.

- Plan review subdivision maps, parcel maps, and improvement drawings.
- Provide engineering advice and recommendations to Planning, Building and Public Works divisions.
- Provide consultation regarding current development review to the Chief Building Official, Planning Manager and Engineer.
- Assist City staff with code interpretation and application of state and federal regulations.
- All other tasks as identified in City RFP document.

Alternate Material and Methods

TRB recognizes that there are alternate materials and methods of construction that can be used to satisfy and comply with the provisions of the code. Our experience with the use of alternate materials, alternate design and methods of construction enhances our ability to solve specific issues that arise in design and construction.

Electronic Plan Review

To confirm, TRB is prepared to track and communicate all plan review comments and approvals through the City-designated electronic system OpenGov and BlueBeam Studio Session, or any future or anticipated electronic review platform. The staff of TRB has been leaders in the field of digital plan review and workflow management; as such, we have the experience and know-how to efficiently manage the review of electronic documents.

Online Plan Check Status and Records

As highlighted earlier, to facilitate access to plan review findings and status information, TRB is prepared to initiate its Project Website, ***Plan Track Plus®*** for use on this assignment. With our project website, all correspondence issued by our team can be posted and maintained for access by City and designated project stakeholder staff. Our postings can include plan review findings (i.e. approval/comment letters), plan review submittal status information, meeting notes, etc.; all of which may be updated on a daily basis. In addition, if so desired by the City, we can also accommodate incoming electronic document postings (i.e. electronic plans, calculations, RFI's, etc.).

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Building Official, Permit Technician, Certified Floodplain Manager, CASp, and Specialty Services including Code Enforcement [Options]

TRB is also prepared to provide the above-referenced optional support services to the City on an as-needed basis. TRB staff are prepared to work at the City's offices as an extension of City staff under the supervision of the Chief Building Official or their designee with the knowledge, skills, and abilities to perform the following requisite functions.

Building Official Support Services [Option]

- TRB will provide an experienced ICC Certified Building Official to assist the Building Official as needed. The Building Official will have a minimum of five years of experience in a public agency with development, administration, interpretation, application and enforcement of the codes. They will have a thorough knowledge of customer service, develop and maintain effective relationships with all client groups, and be able to effectively communicate with contractors, homeowners, subordinates, superiors, news media, elected officials, and civic organizations.

Permit Technician Services [Option]

- Assist the public at the front counter or by phone regarding building, planning, and engineering permit requirements, application and permit fees, application filing procedures and processing, and permit status.
- Enter permit and related data into the City permit tracking system.
- Accept permit and related applications and collect fees. Screen plans and application materials for completeness and for conformance with City ordinances standards, policies, and guidelines.
- Review application materials for compliance with conditions of project approval; route plans to other City departments for review; approve and issue minor permits; research and respond to public inquiries.

Certified Floodplain Manager (CFM) [Option]

- TRB is prepared to provide a Certified Floodplain Manager to provide technical and administrative support to the City. We understand that we may be asked to coordinate public engagement, prepare analysis, reports and presentations, and provide related technical support as needed.

Disabled Access (CASp) Services [Option]

- TRB offers Certified Accessibility Specialist (CASp) Consulting Services to assist agencies with the compliance requirements of State of California Senate Bill 1608 (Corbett). Our team is skilled at reviewing facility plans and specifications for compliance with State and Federal accessibility laws, codes, and regulations; evaluating facilities for compliance with State and Federal accessibility codes and regulations; conducting accessibility research, preparing accessibility reports, and performing accessibility inspections.

Specialty Services [Option]

- TRB will provide professional services for ongoing work or projects such as but not limited to those related to Code Enforcement and Fire review. We understand that we may be asked to coordinate public engagement, prepare analysis, reports and presentations, and provide related technical support as needed.

Code Enforcement [Option]

- Conduct field investigations; inspect properties for violations; issue and post warning notices, notices of violation, corrective notices, orders to comply, and related documentation for code violations; schedule and performing follow-up functions to gain compliance including letters, inspections, calls, meetings, discussions, and negotiations to ensure compliance with appropriate codes and ordinances.
- Maintain accurate documentation and case files on investigations, inspections, enforcement actions, and other job-related activities including accurate and detailed information regarding code enforcement activity to substantiate violations, drawing diagrams and illustrations and taking photographs.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Integration with Other Systems, Travel and Training, Bid Procedures and Selection, and Staffing Expectations

Integration with Other Systems

- OpenGov Permitting and Licensing: TRB will work and input plan review corrections in the OpenGov permitting software during the plan review process.
- Bluebeam Integration: Plan Reviews will be done in BlueBeam Studio Session, a cloud-hosted PDF-based markup and collaboration platform. The Respondent will need the ability to complete reviews and redline plans as required within the BlueBeam collaboration session.

Travel and Training

To confirm, TRB acknowledges the following:

- TRB will solely cover the costs for all travel time and mileage to arrive at the Benicia City Hall;
- TRB will coordinate training for TRB's employees and assigned personnel, and ensure that our employees and assigned personnel maintain all training certifications as required by the State Regulation and local ordinances and/or amendments to State codes; and
- TRB agrees that it will not charge City for training, time in training, or any expenses related to training.

Bid Procedures and Selection

We understand that City staff will provide a scope of work via email to one or more contracted firms, who will be asked to submit bids (inclusive of work tasks, personnel, and cost proposal) electronically within five (5) to fifteen (15) working days, depending on the nature of the project. Selection of a consultant for any given project or task will consider multiple factors, including but not limited to skills and expertise, unique staff qualifications, similar project experience, project approach, and cost. Consultant shall not commence work until written authorization is received from the City of Benicia in the form of an executed work order.

Staffing Expectations

TRB confirms that staff proposed in this response will be available to provide the requested services. Additional staffing information and resumes will be provided as needed and/or as part of a project bid by submitting the information to the Community Development Department.

Level of Effort Statement

To confirm, TRB is prepared to provide all requested services on short notice (48-hours or less). Fixed Fee and Hourly Rates, and Reimbursables by scope of work and personnel classification are provided in the accompanying **Pricing Proposal** Section of our proposal.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

References

TRB understands the importance of maintaining a high level of quality and customer service when supporting the City of Benicia with plan review, building inspection, permitting and other Building Safety and Public Works support activities. We encourage you to contact the following references to provide testimony of our performance of work. Please note that additional references are available upon request.

Please also note that additional References and highlighted **Project Experience** in the areas of service requested is included in **Section 11** of our proposal.

Todd Bailey, PE, LEED AP, CASp, MBA | Principal-In-Charge | Project Manager

Education

- Master of Business Administration, *Walter Haas School of Business* University of California Berkeley
- Bachelor of Science, Civil Engineering, *Cum laude* University of California Davis

Registration

- Registered Civil Engineer California (#C-56425) Hawaii (#11647)
- ICC Certified Building Plans Examiner
- ICC Certified Commercial Building Inspector
- ICC Certified Commercial Electrical Inspector
- ICC Certified Commercial Plumbing Inspector
- ICC Certified Commercial Mechanical Inspector
- LEED Accredited Professional
- Certified Accessibility Specialist (CASp-229)
- SAP Certified

Professional Affiliations

- ICC East Bay Chapter Past President
- International Code Council

Other

Delegate Chief Building Official for the California Energy Commission – Power Plant Facilities

Todd Bailey is a registered professional engineer with nearly thirty years of experience in the Architecture / Engineering / Construction industry encompassing building code interpretation, plan review, project management, engineering design, permit center administration, and litigation support. He has extensive experience working with architects, engineers, contractors, building departments and other regulatory authorities to ensure compliance to adopted Building Code Standards and local ordinances.

Todd has provided Building Safety services to over 100 jurisdictions as a consultant and spent three years with the City of Concord performing architectural, structural, energy conservation and disabled access plan reviews for residential, commercial, and industrial structures. Todd is also approved as a Delegate Chief Building Official for the California Energy Commission responsible for verifying new power project conformance to engineering construction codes on behalf of the Commission.

Select Project Experience

Building Safety Plan Review

- RELATED Santa Clara, $9 billion valuation, Santa Clara, CA
- Santa Clara Square Apartments and Parking Structures, Santa Clara, CA
- UC Davis Health Aggie Square Project, Sacramento, CA
- UC Davis Health Midtown Medical Office and Clinic [OSHPD-3], Sacramento, CA
- Los Altos Gardens Project, Los Altos, CA
- UC Berkeley Helen Diller Anchor House Project, Berkeley, CA
- Packard Foundation Project, Los Altos, CA
- Sacramento Convention Center Project, Sacramento, CA
- NASA Moffett Federal Airfield, Historic Building Project, Mountain View, CA
- War Memorial Community Center, Daly City, CA
- Concrete Tilt-Up Shell Building (60,000 sf), Concord, CA
- New Medical Research Facility (44,000 sf.), Walnut Creek, CA
- Major Office Remodel (Three 40,000 s.f. buildings), Pleasant Hill, CA
- Rivertown Apartments, Petaluma, CA
- Spanos Park West Apartment Complex, Stockton, CA

Project Management / Administration

Have served as Delegate Chief Building Official / Engineering Manager for the California Energy Commission on thirteen natural gas fired power projects and one wind power generation facility in California having a combined valuation of over $3 billion. Responsible for oversight of plan review tasks and coordination of submittals numbering up into the thousands on these design-build projects.

- Valero Petroleum Refinery Capital Improvements, Benicia, CA
- Russell City Energy Center Project (600 MW), Hayward, CA
- Mountain View Power Project (1,056 MW), Redlands, CA
- Palomar Energy Center Project (546 MW), Escondido, CA

Work Experience

TRB + Associates Inc., Principal & Founder, 2006 – Present
Bureau Veritas, Building & Facilities Code Compliance Services, 2001 - 2006
Deloitte & Touche LLP, Construction Consulting Services, 1999 - 2001
City of Concord, California – Permit Center, 1996 - 1999
Luhdorff & Scalmanini Consulting Engineers, 1993 - 1996
Tosco Refining Company, 1991 & 1992

Dominic Ma, SE, PE, MPA | Quality Control Principal

Education

Master of Science Structural Engineering UCLA, Los Angeles, CA

Master of Public Administration, California State University, East Bay Hayward, CA

B.S. Civil Engineering University of California, Berkeley, CA

Registration

Registered Structural Engineer California (#1920)

Registered Civil Engineer California (#20018)

Certified Energy Plans Examiner Residential (#R05-94-5121) - Inactive

Certified Energy Plans Examiner Non-Residential (#NR05-94-5576) - Inactive

Dominic has more than 30 years of experience in reviewing building plans and specifications submitted for building permit applications to assure compliance with adopted building codes and reference standards. Dominic's experience includes working for more than 27 years as a plan check engineer for the City of San Leandro and 6 years as a supervising civil engineer for the City of Oakland, where he led the City's plan review division.

Dominic has considerable knowledge of civil engineering and structural engineering principles and practices, California Building Code and Title 24 provisions. His strengths include having the ability to review, analyze and evaluate plans, specifications, engineering reports and calculations; possessing knowledge to identify code deficiencies; and evaluating alternate methods and materials of construction. Dominic is adept at reviewing plans for adherence to the California Building Code, ASCE 7, and when applicable FEMA, ASCE 41, NEHRP provisions.

Select Project Experience

Building Safety Plan Review

Plan Review projects supervised in the City of Oakland

- 2121 Harrison Street. The Cathedral of Christ the Light (also called the Oakland Cathedral). A new modern Roman Catholic Cathedral with glass walls 120 ft. high. The $190 million, 224,000 square feet structure sits on 36 innovative "friction pendulum double-concave bearing isolators," consisting of two facing concave surfaces.
- 2100 Franklin Street. The $45 million, 245,000 s.f. project is 9 stories high and built with steel frames. To compensate for its slightly smaller than code required width, the interior atrium is equipped with smoke control system to provide fire protection for its occupants. Evaluated the alternate materials methods request associated with this design element.
- 100 Grand Avenue. 22 Story Condominium Building budgeted at $150 million.
- Oakland Airport (Expansion and interior remodeling). A $350 million Terminal Improvement Program.

Plan Review projects performed

- Bayfair Mall (Tenant improvements), San Leandro
- Century 21 Theatre, San Leandro
- San Leandro Dialysis Clinic
- San Leandro Honda
- San Leandro Hospital (New doctors' office building)
- Carlton Plaza of San Leandro (Assisted living facility)
- Costco Building Addition, City of Concord
- New Gas Compressor Building, Butte County
- AT&T Rooftop solar Panel Installation, City of San Ramon
- Tilt-up Warehouse Buildings (2), City of Sacramento
- Historic Building Seismic Retrofit, City of Benicia
- Cancer Treatment Facility, City of Pleasant Hill

Work Experience

TRB + Associates, Inc., Senior Plan Review Engineer, 2007 to present
City of Oakland, Supervising Civil Engineer (Building Division), 2000 – 2006
City of San Leandro, Plan Check Engineer, 1973 – 2000

Bing Young, Architect | Plan Review Services Manager

Education

Bachelor in Architecture,
California Polytechnic State University
San Luis Obispo, CA

Registration

Registered Architect, California

Professional Affiliations

National Council of Architectural Registration Boards Certified

ICC Member

Bing Young is a registered Architect with plan review experience on both residential and commercial projects. He provides comprehensive life safety, accessibility, energy, and mechanical/electrical/plumbing reviews on a variety of residential and commercial project types. Bing possesses over 25 years of professional experience which includes roles in production, project management, construction management, energy, and accessibility analysis.

Work Experience

Plan Review Architect, TRB + Associates, Inc. **2018 - Present**

- Review drawings and calculations for code compliance on behalf of client agencies
- Projects include residential subdivisions, custom homes, additions, remodels, new commercial buildings, and tenant improvements

Project Architect, PSM Architects, Inc. **2008 – 2018**

- Prepared and managed the development of comprehensive construction documents for new commercial buildings, tenant improvements, and additions
- Oversaw and directed production staff
- Performed quality control review of building permit submittal documents
- Facilitated client and permit processing meetings
- Collaborated with engineers, ancillary designers, and vendors
- Prepared and reviewed project specifications
- Reviewed shop drawings and submittals for compliance with specifications and design intent
- Performed accessibility evaluation of existing sites and buildings
- Prepared detailed accessibility reports for building and business owners
- Facilitated pre-construction and post-construction on-site meetings with construction project managers and general contractors
- Performed construction administration and project closeout duties

Staff Architect, Hollman Bologna Architecture & Planning, Inc. **1996 - 2008**

- Prepared schematic design and construction documents for single-family and multi-family residential remodels, additions, and new buildings
- Performed residential building reconnaissance for additions and remodel projects
- Prepared design review documents for planning approvals
- Facilitated building permit processing
- Prepared and reviewed Title 24 Energy Efficiency Compliance documents

Certified Energy Plans Examiner, BETA, Inc. **1993 - 1999**

- Reviewed and approved Title 24 Energy Efficiency Compliance documents for residential and non-residential buildings for local jurisdictions

Christopher Rose | Inspection & Field Services Manager

Certifications/Licenses

ICC Certified

- California Commercial Building Inspector
- Commercial Building Inspector
- Residential Building Inspector
- California Residential Building Inspector
- Residential Plans Examiner
- Building Inspector
- Permit Technician

Chris possesses over 20 years of experience in the building and construction inspection field for various jurisdications in Northern and Southern California. His experience includes inspecting commercial, residential, non-residential, multifamily, municipal, and public structures for quality control and safety to ensure buildings are up to code and comply with local ordinances. Chris has extensive experience working in the building and safety, engineering, fire, and planning departments for multiple jurisdictions as well as the United States Marine Corps. Chris has positive working relationships with clients, management, as well as his peers and maintains high levels of productivity, reliability with excellent work ethic to deliver high quality customer service.

Chris is ICC Certified in multiple areas including as a California Commercial and Residential Building Inspector, Permit Technician, Commercial and Residential Building Inspector, Residential Plans Examiner, and Building Inspector.

Chris is responsible for the oversight of field inspectors and other building department staff. He employs a customer service focus in carrying out his building safety inspection responsibilities.

Work Experience

Inspection Services Manager, TRB and Associates, Inc. **2022 – Present**

- Responsible for the oversight of field inspectors and other building department staff.
- Inspection on several large-scale projects
- Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Communicates compliance elements with clients with solution driven resolve.
- Performs plan review of light commercial tenant improvements and remodel projects.
- Electronic and paper plan review.

Project Coordination, Plan Review, Inspection, and Construction Management Assignments

- **Apple World Headquarters project in Cupertino** – Document Control and coordination of an international design and permitting effort.
- **Marine Corp Air Ground Combat Center MWSS-374** - Re-construction of an Expeditionary Airfield, runway, and helicopter pads to include support buildings and clamshell hangers.
- **Marine Corp Air Ground Combat Center MWSS-374** - Construction of the Tank refueling pads and fuel farm.
- **Southern California Logistics Airport SCLA** - Remodeling and Repurposing of the existing George Air force base in Victorville California.
- **City of Hesperia City Hall, Library and Civic Center** - New Construction of a 27 Acre Civic Center Master Plan.
- **City of Hesperia Government Center** - New Construction of the County Government Building.
- **City of Hesperia Police Department Building** - New Construction of the County Government Building.
- **City of Hesperia Ranchero Road Underpass** - The Ranchero Road Grade Separation Project.
- **City of Hesperia Ranchero Interchange (HWY 15)** - Interstate 15 Ranchero Road Interchange.
- **Sonoma County** – Wildfire Recovery Operations.
- **Jackson County Oregon** – Wildfire Recovery and Program Development.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Chief Building Official (DCBO), Private Consultant, Various Locations 2014 - 2019

Provided Project Management, Compliance, Plan Review, Inspections, Document Control and Administration for power producing industrial infrastructure projects throughout the state for California Energy Commission. Below is a list of projects:

- **Carlsbad Energy Center Project (CECP) –** Above ground storage tank demo and decommissioning.
- **Blythe Solar Power Project Units 1 & 2 (BSPP)** – New 235 MW photovoltaic facility.
- **Pio Pico Energy Center (PPEC)** – Three Units, 300 MW gas fired turbine simple cycle facility.
- **Carlsbad Energy Center Project (CECP**) – Five Units, 632 MW gas fired turbine simple cycle facility.
- **Orange Grove Energy Center (OGEC)** – Two Units, reliability and AGP upgrade project.
- **Geysers Unit 16 (Quicksilver)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 18 (Socrates)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 20 (Grant)** – Tower wet down system and diesel fire pump project.
- **Geysers Unit 17 (Sonoma)** – Low pressure steam bypass project.
- **Geysers Unit 02 (NCPA)** – Mixing tower project.
- **Roseville Energy Park (REP)** – Catwalk extension project.
- **Colusa Generating Station (CGS)** – Rotating intake screen project.
- **Los Medanos Energy Center (LMEC)** – Cooling tower chemical tanks project.
- **Colusa Generating Station (CGS)** – Stairway to condensate pumps project.
- **Calpine Otay Mesa (OMEC)** – Low pressure steam bypass project.
- **Colusa Generation Station (CGS)** – New circulation system and raw water pumps project.
- **Cosumnes Power Plant (SMUD)** – Unit 3 AGP upgrade project.
- **Ivanpah Solar (ISEGS)** – Ammonia tank replacement project.
- **Colusa Generating Station (CGS)** – Bearing enclosure fire sprinkler project.
- **Humboldt Bay Generating Station (HBGS)** - New guard shack project.
- **Cosumnes Power Plant (SMUD)** – Unit 2 AGP upgrade and filter press project.
- **Abengoa Mojave Solar (AMS)** – Fire suppression line repair project for Alpha and Beta blocks.
- **Gilroy Energy Center (GEC)** – Gas line repair and replacement project.

Secretariat to the International Residential Code for One- and Two-Family Dwellings (1997-2000)

(Ctd. on next page)

Paul Armstrong is a Registered Professional Engineer with over 30 years of engineering experience. His vast experience in all manner of construction, be it industrial, commercial, and residential project types, provides our clients with a strong skill set and wealth of industry knowledge. In addition to Paul's engineering experience, he is also a Certified Building Official, serving in this capacity at the City of El Monte, as well as Laguna Hills, Signal Hill, and Palos Verdes.

A noted author and lecturer in the building life safety industry, Mr. Armstrong has earned many awards, including CALBO Instructor of the Year.

Select Project Experience

- **Apple Campus Theater, Cupertino, CA** – The plan review of the Apple Campus' Theater where new products would be announced and corporate meetings held. Mostly subterranean structure that has a glass entry lobby supporting a carbon fiber roof (disk).
- **ARTIC (Anaheim Regional Transportation Intermodal Center), Anaheim, CA** – Plan review of the fire and life safety regulations for this new transportation center. The building is a steel tube framework with a 2-story administration area with a mezzanine inside. This review included a pedestrian bridge leading to the train platforms.
- **Anaheim Convention Center Expansion, Anaheim, CA** – A very large expansion of the convention center meeting space with an associated parking garage addition.
- **Disneyland Star Wars Expansion, Anaheim, CA** – A very visible area of the Disney resort that is about to open this year.
- **Rams/Chargers NFL Stadium, Inglewood, CA** – The plan review of the newest NFL Stadium project in So CA. The stadium itself is covered by a large steel tube framed roof structure that is not connected to the stadium.
- **Rio Tinto Soccer Stadium**, **Sandy City, Utah** – The plan review of the Salt Lake area's professional soccer stadium. It included a roof canopy structure with a wave feature in the leading edge.
- **Building Official Roles:**
  - Palos Verdes Estates
  - Laguna Hills
  - Whittier (interim position)
  - Signal Hill
  - El Monte

Regional Director, Building & Safety Services, TRB + Associates **2019 – Present**
Responsible for new business development for building life safety services for various jurisdictions throughout California. Provide client relations and code assistance. Perform training lectures on building and residential codes. Participate on various local, state-wide and national committees. Building Official of the City of Signal Hill.

Group Leader, Building and Safety Services, Industry Consultant **2017 – 2019**
Responsible for the development of new business for inspection services and plan review services for various jurisdictions across the United States. Provide client care and assistance on code related issues. Give training lectures on the building and residential codes. Participate on various local, state-wide, and national committees. Building Official of the City of Palos Verdes Estates and Laguna Hills.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Committees (Ctd.)

Author, 2013 and 2016 Significant Changes to the CBC and CRC

UL Fuel Gas Products Council (2002)

BCMC (BDMC) staff liaison (1993-2002)

Co-secretariat to the ICC Performance Based Building Code

Secretariat to the International Zoning Code (1996-2000)

Secretariat to the General Design, Administrative, Lateral Design, Fire and Life Safety and Fire Risk Code Committees of ICBO (1992-1996)

Staff secretariat responsible for the rewrite of the Means of Egress Chapter in the 1994 UBC

NIBS HHS Code Comparison Committee (1994)

FEMA Building Performance Review Team member (1993)

NIBS Flood Standards Comparison Committee (1992)

Coordinator, Pacific Rim Conference on Performance Based Codes

Various ASCE standards committees

SEAOC Code Committee liaison

ASME A17.1 Code Coordinating Committee

ANSI Construction Standards Board

Vice President, Various Industry Consultant Firms **2005 – 2017**
Responsible for the development of new business for inspection services and plan review services for various jurisdictions across the United States. Provide client care and assistance on code related issues. Give training lectures on the building and residential codes. Participate on various local, state-wide and national committees. Participate on various local, state-wide and national committees. Promotion and sales of the Firms' in-house electronic plan review system. Building Official of the City of Signal Hill. Contract Plan Review Engineer for the City of Anaheim

Chief Building Official, City of El Monte, Industry Consultant **2011 – 2012**
Responsible for the City of El Monte Building Division. Review plans for the City and issues permits. Conduct investigations of non-complying facilities frequently in conjunction with the Planning Division, Code Enforcement Division and LA County Fire Department. Develop presentations for City Council on adoption of new codes, etc.

Vice President, ICC **1991 – 2005**
Led the ICC Architectural and Engineering Services Department, responsible for technical opinions, plan review and the administration of technical contracts during the consolidation into the International Code Council. Managed ICBO Technical Services Department which was responsible for the maintenance of the code development process, plan review service and code opinion service for both external and internal customers. Represented the Council to many national, state and local organizations. Responsible for the technical image of the conference. Provided technical assistance on code related issues to both jurisdictional and professional members and non-members. Provided research on many code-related issues. Secretariat to most ICBO code development committees and the initial drafting secretariat to the ICC International Residential Code.

City of Los Angeles, Dept. of Building and Safety **1988 – 1991**
Structural Engineering Associate
Responsible for the structural, architectural and zoning review of proposed projects in the city. Chief of Coordinating Division and Preservation Coordinator. Evaluation of building products for LA code compliance.

Teaching Experience

International Code Council (ICC)
Lecturer –Non-structural Fundamentals of the 2009 IBC (domestically and internationally)
Lecturer – Non-structural Fundamentals of the 2012 IBC
Lecturer – ICC Code Development Process

California Building Officials
Lecturer- Significant Changes to the 2013 CBC and CRC for CALBO, and ICC
Lecturer – 2016 Introduction to the CBC Means of Egress

Karin Kuffel, SE, PE | Senior Plan Review Engineer

Education

Bachelor of Science
Civil Engineering
Purdue University; West Lafayette, Indiana

Masters of Business Administration
Saint Mary's College of California; Moraga, California

Registration

Registered Structural Engineer
California

Karin has over 30 years of structural engineering experience. Ms. Kuffel has vast structural design experience in both complex commercial and residential projects. She has managed many large-scale projects, including hospitals, OSHPD and the Chabot Space and Science Center. Her experience includes staff training, building design, and design review, as well as construction supervision and development of design and construction guidelines for new single-family residences.

Work Experience

Plan Review Engineer, TRB + Associates, San Ramon, CA **2016 - Present**

Provide structural plan check reviews of large commercial and institutional structures for multiple Bay Area building departments.

Build Change; Philippines **2014 - 2016**

Lead Engineer - Philippines. Responsible for all technical work and staff of Denver-based engineering non-profit's programs and operations throughout the Philippines, including management of Filipino engineering/technical staff comprised of engineers and builder trainers. Supervised training of local staff, building design, design review, construction supervision, and development of design and construction guidelines and recommendations for single-family homes and schools based on the National Structural Code of the Philippines.

Crosby Group; San Mateo, CA **2011 - 2014**

Senior Structural Engineer/Project Manager. Project management on multiple design-build projects, working with design team and contractor on fast-track work both in- and out-of-state. Responsible for managing project team from design through construction, developing and tracking fees, deadlines, and deliverables.

Independent Consultant **2009 - 2011**

Structural engineering consultant in San Francisco Bay Area. Consultant for small commercial and residential work. Extended contract work for Rutherford & Chekene included multiple hospital projects covering new hospital facility design, OSPHD plan-check work, and construction administration assistance.

Biggs Cardosa Associates, Inc., SF, CA **2006 - 2009**

Senior Engineer. Project management with responsibility for developing work, managing project production work, and overseeing construction administration. Representative projects include oversight for design of 8-story residential and parking structure for Santana Row Parcel 8b (San Jose, California) and the Lowe's parking structure in San Francisco.

KPFF Consulting Engineers; SF, CA **2004 - 2006**

Project Manager. Responsible for developing work and fee proposals, managing project engineering, drafting work, and overseeing construction administration. Project management included design of 5-story addition to Kaiser Santa Rosa Hospital, construction administration for 7-story addition to Modesto Memorial Hospital, and design and construction of low-income housing for South County Housing.

Thomas Hemenway, SE, PE | Senior Plan Review Engineer

Education

B.S. Civil Engineering Technology, Structural Emphasis
Metropolitan State College, Denver

Registration

Registered Structural Engineer California (#5348)

Registered Civil Engineer California (#52357)

Professional Affiliations

SEAONC Member

Tom Hemenway is a Registered Structural Engineer with over 30 years of engineering experience. Tom's experience includes providing structural, civil, and architectural design and quality control on a variety of industrial, commercial, and residential project types including multifamily podium projects, utility-scale power plant facilities, and retail buildings. He has served in design and analysis capacities for several seismic strengthening projects involving timber, steel, concrete, and masonry buildings in the greater San Francisco Bay area. His technical skills include 3D modeling and dynamic analysis for large foundations and structures.

Select Project Experience

- Lead Civil/Structural Engineer on multiple projects including the following:
  - NUMMI, Stamping Plant and Plastics Plant Expansion, Fremont
  - Vandenberg AFB housing development phases III and IV
  - 140 Geary Street seismic retrofit, San Francisco, CA
  - Amgen, Process Lab Building 99, Thousand Oaks, CA.
  - Huntington Hotel, San Francisco, CA
  - Wells Fargo Bank, Fremont Data Center, Fremont, CA.
- Responsible for Civil, Structural, and Architectural designs for industrial projects domestic and international.
- Responsible for structural analysis and design of seismic strengthening to existing timber, steel, concrete, and masonry buildings in the greater San Francisco bay area.
- Responsible for 3D model constructability review for a new GE 7FA natural gas-fired and GE A10 steam turbine, 1x1 combined cycle electric power generating facility.
- Responsible for ensuring quality of Civil, Structural, and Architectural construction activities for 600-megawatt natural gas-fired, combined cycle electric power generating facility.
- Performed dynamic structural analysis and concrete design for new steam turbine foundation.
- Designed concrete and steel structures for Kennecott Copper Smelter Modernization Project, Salt Lake City, UT using STAAD III and Microstation for PC computer.
- Designed steel pile and conventional concrete pad foundations for overland conveyor at Falkirk Mine in Underwood, North Dakota.

Work Experience

TRB + Associates, Inc., Senior Plan Review Engineer, 2016 - Present
Owner, TjHemenway Design Consultant, 2014 to 2016
Construction and Engineering Interface Manager, Kvaerner North American Construction Inc. and Parson Brinkerhoff JV, 2013
Owners Representative, Calpine, Russell City Energy Center, 2011 – 2012
Lead Structural Engineer, Aker Kvaerner, 2002 – 2003
Resident Engineer, Kvaerner, 2000 – 2002
Civil/Structural Discipline Manager, Kvaerner Metals, 1998 – 2000
Senior Structural Engineer, Kvaerner Metals, 1997
Civil/Structural Lead Engineer, The Bentley Company, 1995 – 1996
Others, 1981 – 1994

East Bay Chapter of ICC

William Vaughn is a Registered Structural and Civil Engineer with over 35 years of experience in construction, structural engineering design, seismic investigation and structural peer and plan review. Bill has extensive knowledge in commercial and residential buildings as well as industrial facilities using steel, concrete, masonry and timber design. He also has a wide range of construction field experience including supervision, construction methods, product development and structural inspection. Of particular note, Bill's steel design portfolio includes 2 Moment Frame patents with HSS Steel Columns and Wide Flange Beams.

Select Project Experience

- Provided structural design and peer review services for clients with residential, multi-family, and commercial buildings using timber, steel, concrete, and masonry design.
- Produced structural designs for new buildings and provided structural designs and evaluations for alterations to existing buildings.
- Designed seismic strengthening of un-reinforced masonry buildings, wood buildings, and concrete tilt-up buildings.
- Produced repair designs for earthquake damaged facilities and for other structurally damaged buildings.
- Conducted analyses of existing buildings to assess compliance with codes and drawings.
- Performed investigations of earthquake, fire, and flood distress. Prepared reports, engineering analyses, and repair recommendations.
- Provided expert witness, structural peer review and plan review services.
- Investigated structural damage and distress for litigation preparation purposes. Prepared reports, engineering analysis, and recommendations to client. Provided design preparation and construction observations for repair designs.

Structural Peer Review

- Haas School of Business, University of California, Berkeley, CA

Structural Plan Review

- Russell City Energy Center, New $800 million Power Plan Project (for California Energy Commission), Hayward, CA
- Newell Village Mixed Use Project, Walnut Creek CA
- Terraces at Los Altos Mixed Use Project (Phase 3), Los Altos, CA
- New Family Dollar Store, Sacramento, CA

Structural Design

- Chevron Willbridge Terminal Upgrade, Portland, OR
- Chevron Eureka Terminal Upgrade, Eureka, CA
- Kaiser - Lennon Lane Mechanical & Seismic Upgrade, Walnut Creek, CA

Work Experience

TRB + Associates Inc., Senior Plan Review Engineer, 2011 – Present
Vaughn Engineering, Principal Structural Engineer, 1994 - 2011

Education

Bachelor of Science, Civil Engineering, Clarkson University, Potsdam, New York, 1976

Registration

Registered Structural Engineer, California

Registered Civil Engineer California

Professional Affiliations

Structural Engineers Association of Northern California (SEAONC)

FEMA Structural Specialist, for Urban Search and Rescue, Task Force 7, Sacramento, CA.

California Office of Emergency Services Volunteer for post-earthquake building review.

Mike Kaszpurenko is a registered Structural and Civil engineer with over 30 years of engineering experience. His experience encompasses the plan review, design, evaluation, and retrofit of various types of building and non-building structures using concrete, steel, masonry, wood, and light-gage metal.

Mike's experience includes working for a large structural steel fabricator where he was involved in detailing of shop drawings, design of connections, and on-site field review.

Select Project Experience

Industrial, Manufacturing

- Corn Products Cogeneration Facility, Stockton, CA. Plan review of boiler building and miscellaneous foundations for new facility.
- Nine Mile Point Two Nuclear Power Plant, New York. Miscellaneous connection designs.
- Oswego Power Plant, Oswego, New York. On site engineer, for fabricator of breeching, during construction of oil-fired power plant.

Commercial / Government /Civic

- 600 Sutter, San Francisco, CA. New eight story building.
- 973 Market, San Francisco. Seismic upgrade of an existing 8 story brick and concrete building.
- Saks Fifth Avenue, San Francisco, CA. Foundation shoring for a new department store.
- El Camino Real Hotel, San Mateo, CA. Preliminary design of a new three-story hotel.
- 1989 Loma Prieta Earthquake, San Francisco, CA. Damage assessment of numerous apartment buildings and other structures for the City of San Francisco.
- City Center Rotunda, Oakland, CA. Upgrade of three, eight story adjacent buildings into one multifunction facility.

Education, Assembly / Healthcare

- Windsor Middle School, Windsor, CA. New $11 million School Campus.
- Laguna Salada School District, Pacifica, CA. Survey of 12 school campuses for Pacifica School District.
- Clovis East High School, CA. Plan check review for the Office of the Office of State Architect on several buildings of a new campus.
- Kaiser Hospital Service Building, Walnut Creek, CA. New two-story support facility for a hospital.

Multi-unit Residential

- Winterland Apartments, San Francisco, CA. Engineer of record for a 304-unit apartment complex consisting of four stories of wood framing over several levels of concrete parking.
- Park Hill Terrace, San Francisco. Upgrade and extension of former 8 story hospital building into condominiums.

Daniel McLaughlin, PE, CASp | Senior Plan Review Engineer

Education

Masters in Structural Engineering
Lehigh University
Bethlehem, PA

B.S Civil Engineering
Lehigh University
Bethlehem, PA

Registration

Registered Civil Engineer, California

ICC Certified Plans Examiner

DSA Certified CASp

Professional Affiliations

American Institute of Steel Construction

Dan McLaughlin is a registered Civil Engineer and ICC Certified Plans Examiner with plan review experience on numerous residential and commercial projects. He has provided structural, life safety, and mechanical/electrical/plumbing, and energy reviews on a variety of residential and commercial project types. Project types include complex single-family homes, small to mid-sized retail shell buildings, office and mercantile tenant improvements, and large mixed-use projects. Dan possesses strong structural analysis skills and has an excellent working knowledge of ADAPT, RAM, SAP2000, AutoCAD, Revit, and MathCAD structural engineering software packages.

Work Experience

Senior Plan Review Engineer, TRB + Associates, Inc. **2014 - Present**

- Dan specializes in plan review coordination with extensive experience on both complex commercial and residential projects. Dan has served in project management and reviewer roles across many large-scale projects including Phase 1 of the $9 billion RELATED Santa Clara project, and the $1.5 billion UC DAVIS HEALTH Sacramento Campus, Aggie Square project.
- Recently participated in review of 4 story 135,000 sf wood apartment building over 2 story PT parking garage
- Participated in review of a 6 story 133,000 sf steel buckling restraint braced frame office building
- Review a variety of wood, concrete, and steel building types
- Communicate with project engineers and architects on a regular basis

Engineering Assistant, Contra Costa County Sanitary District **2011 - 2014**

- Performed submittal check to ensure use of proper materials and equipment
- Created site maps to discover location of overflows in the event of clogs in the systems
- Performed sewer line inspections to ensure proper installation by contractor
- Supervised bore sight to allow continual work when lead engineer not on site

Engineering Internship, City of Pleasant Hill, Engineering Division
2007

- Performed quality control of storm drainage system project
- Supervised ADA sidewalk installation to ensure proper installation by contractor
- Developed PowerPoint Presentation of the City department functions for the City Engineer

Residential Construction, McLaughlin Construction **2011, 2013**

- Extensive knowledge in residential wood construction. Restored Victorian home including repair and seismic retrofit of foundation, re-leveled house and conducted full replacement of electrical, plumbing and sewer line. Completed unfinished basement including framing, insulation, electrical, sheetrock and finish work

Collection System Operation Laborer, Contra Costa County Sanitary District **2009, 2010**

- Performed assigned duties on the hydro, rodding, construction, and utilities location crews

Petya McInnis, PE, CASp | Senior Plan Review Engineer

Licenses and Certifications

- Professional Engineer (P.E.)
- Certified Access Specialist (CASp)
- ICC Plans Examiner
- CalOES SAP Evaluator

Education

- MS in Structural Engineering, University of California, Davis, *2009 - 2011*
- BS in Civil & Environmental Engineering (Emphasis in Structures), California State University, Sacramento, *2007 - 2008*
- MS in Structural Engineering (One semester away from completion), University of Architecture, Civil Engineering and Geodesy, Sofia, Bulgaria, *1999 – 2003*

Skills

- Collaborative Team Player
- Detail-Oriented
- Hardworking
- Enthusiastic
- Dependable
- Quick Learner
- Proficient in Current Design Standards (e.g., ASCE7, ASCE41, ACI 318, AISC, etc.)
- Software Proficiency: Experienced in 2D/3D drafting and structural analysis software (e.g., AutoCAD, LDD, Civil 3D, SAP2000, Navisworks)
- Knowledge and experience in finite element analysis tools (e.g., ABAQUS, ANSYS)

Computer Skills

- Programming & Web Design: Matlab, SQL, C++, HTML, JavaScript
- 3D Studio MAX
- SolidWorks
- Adobe Photoshop
- Illustrator
- CorelDraw
- Macromedia Shockwave Flash

Petya McInnis possesses over 22 years of experience in engineering and construction, encompassing design, plan review, and inspection for residential, commercial, and industrial projects. In her recent role as a Plan Check Engineer for the City of Fairfield, Petya oversaw a wide range of design disciplines for projects of varying sizes and types. Her expertise spanned from simple residential additions to complex commercial and industrial developments. Petya offered invaluable assistance to stakeholders, ensuring compliance with code requirements and providing technical supervision to permit technicians and inspection staff. Her proactive approach extended to assisting Building Inspectors and Officials with code research and interpretation, resulting in effective solutions for challenging construction scenarios. Petya's contributions included recommending and implementing process and policy changes to further the city's objectives. Additionally, she prepared reports and updates for the City Council, ensuring transparency and accountability in project management.

Petya also served as a client liaison for all clients in the Sacramento region and numerous clients in the Bay Area. With exceptional interpersonal skills, high productivity, and a strong work ethic, she consistently delivered top-notch customer service.

As a professional Engineer, Petya holds ICC certification as a Building Plans Examiner and is also a certified access specialist (CASp). Petya's extensive experience and expertise make her a valuable asset to any team. With well-rounded experience in the building industry, she brings a wealth of knowledge and skills to every project she undertakes.

Work Experience

Sr. Plan Review Engineer, TRB and Associates, Inc. **2024 – Present**

- Provides building plans examination for jurisdictions on an as-needed basis. Responsible for providing plan check reviews for residential and commercial structures.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval.
- Performs plan review of light commercial tenant improvements and remodel projects.

Plan Review Manager, Private Consultant **2022 - 2024**

- Oversaw daily activities of all plan review staff in the Sacramento region.
- Provided technical assistance, training, and mentorship for internal and jurisdictional staff.
- Served as a client liaison for all clients in the Sacramento region and several clients in the Bay Area.
- Reviewed all design disciplines for projects of all sizes and types.
- Specialized in reviewing large commercial projects such as mixed-use multi-family, high-rise, and podium construction.
- Prepared proposals and time estimates

Senior Plan Check Engineer, Private Consultant **2021 - 2022**

- Responsible for reviewing all design disciplines for projects of various sizes and types across multiple Cities and Counties in California, Oregon, Washington, and Massachusetts.
- Specialized in reviewing large commercial projects including mixed-use multi-family, high-rise, podium construction, shopping centers, restaurants, warehouses, big-box stores, tenant improvements, etc.
- Led "page-turning" pre-submittal sessions aimed at identifying and resolving code compliance issues before submission.
- Managed the Stanford University SLAC plan review contract.
- Provided training and performed quality control for plan review staff.
- Prepared proposals and time estimates.

Plan Check Engineer, City of Fairfield, Fairfield, CA **2014 - 2021**

- Responsible for reviewing all design disciplines for projects of various sizes and types in the City of Fairfield.
- Reviewed projects ranging from simple residential additions, alterations, ADUs, and garage conversions to complex commercial and industrial TIs and new developments.
- Assisted designers, contractors, developers, business owners, homeowners, and City staff in applying, understanding, and interpreting applicable code requirements for each project, providing guidance for potential code-compliant solutions.
- Provided technical supervision to permit technicians and inspection staff.
- Assisted Building Inspectors and Building Official with code research and interpretation on difficult or unusual construction situations.
- Recommended and created process and policy changes.
- Prepared reports and City Council updates.

Senior Structural Engineer, AIR Worldwide, San Francisco, CA **2011 - 2014**

- Served as a Senior Engineer in the Catastrophe Risk Engineering Group.
- Evaluated code compliance of proposed and existing facilities across different countries/regions worldwide.
- Reviewed structural drawings and calculations to identify potential design deficiencies.
- Developed reliable quantitative measures of site-specific natural disaster risk (e.g., seismic, wind, flood, tsunami).
- Created 3D structural models for performance-based evaluations.
- Conducted site inspections and prepared proposals, progress reports, final project reports, and presentations.
- Collaborated closely with national and international government agencies and organizations on disaster risk reduction, mitigation, and response strategies.
- Notable projects included:
  - Seismic Risk Assessment of the Solar Millennium Project at Blythe, CA
  - Hurricane Risk Assessment of Walt Disney World, Orlando, FL (Phase I, IIA, and IIB)
  - Seismic and Wind Risk Assessment of KAUST, Saudi Arabia
  - Real-time Seismic Damage Assessment for the California Earthquake Authority
  - Real-time Hurricane Risk Assessment for DOW Chemical, Freeport, TX
  - Various international multi-phase disaster risk assessment projects in collaboration with the World Bank and the Asian Development Bank.

Design Engineer, Mark Thomas & Company, Sacramento, CA **2008 –2011**

- Worked as a Design Engineer on multiple municipal transportation engineering projects, including highway interchange and bridge projects, local roadway improvements, and streetscape enhancements.
- Prepared infrastructure analyses to support the implementation of planning frameworks and design concepts for each project.
- Led the planning, geometric design, and coordination for the Sacramento City College Bicycle/Pedestrian Overcrossing Project.
- Provided construction support for the 4-mile Folsom Blvd Enhancements Project in Rancho Cordova and the historic preservation R Street Reconstruction Project in Sacramento.
- Prepared various technical reports, construction details, utility mapping and coordination, grading plans, access compliance, quantity take-offs and estimates, drainage pattern analyses, and storm drain design.
- Other projects included: I-5 / Cosumnes River Blvd Interchange PS&E, Watt Ave / HWY 50 Project, Sacramento Regional Transit SSCP2, Stockton Transportation Impact Fee Study, R Street Market Plaza, and Ramona Ave Extension.

Project Engineer / Project Manager, KHS&S Contractors, Concord, CA **2005 – 2007**

Sr. Production Operator, FedEx Kinko's SF East Bay CPC, Pleasanton, CA **2004 – 2005**

Jim Begley, FPE, CFM, LEED AP | Fire Protection Engineer

Education

Worcester Polytechnic Institute
M.S. in Fire Protection Engineering - 2006

University of Maryland at College Park
B.S. in Fire Protection Engineering - 1996

Jay Griffin, CASp | Senior Plans Examiner

Licenses and Certifications

- Certified Access Specialist #788

Education

High School Diploma

Skills

- Communication, both written and verbal
- Critical thinking
- Technical plan review
- Creative solutions to complex problems

Jay Griffin possesses over 40 years of experience in the building industry including 20 years as a Supervising Building Inspector. He has extensive knowledge in the areas of building life safety, accessibility, plumbing, and mechanical disciplines, as well as a strong background in plan review. Jay's expertise spans across a wide range of complex projects, including commercial and residential buildings. Throughout his career, he has gained hands-on experience working in various roles, such as carpenter, lead carpenter, job foreman, superintendent, building contractor, and building inspector.

As a collaborative leader, Mr. Griffin recently provided exceptional leadership skills as the Supervising Building Inspector for the City of Sacramento Building Division. He also taught life safety and disabled access classes to city staff and provided guidance and support to plan review and inspection staff. With his expertise in resolving code-related issues and ensuring compliance with regulations, Jay maintains high levels of productivity, reliability, and customer service. He is also a certified California Access Specialist (CASp) and is passionate about continuing a career in the building life safety field.

Work Experience

Sr. Plans Examiner, TRB and Associates, Inc. **2023 – Present**

- Provides building plans examination for jurisdictions on an as-needed basis. Responsible for providing plan check reviews for residential and commercial structures. Review scope includes both structural and non-structural disciplines.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval.
- Performs plan review of light commercial tenant improvements and remodel projects.

Supervising Building Inspector, City of Sacramento, Sacramento, CA **2004 – 2023**

- Reviewed incoming workload for completeness and complexity and assigned tasks to staff members as needed.
- Taught ongoing life safety and disabled access classes to city staff, ensuring that they were up-to-date on the latest regulations and requirements.
- Served as a subject matter expert on life safety and disabled access provisions of the California Building Code, providing guidance and support to city plan review and inspection staff. Resolved code-related issues as they arose, using deep knowledge and expertise to ensure compliance.
- Reviewed project plans for compliance with applicable requirements of the California Building Code for life safety and disabled access. Worked on a wide range of projects, from simple tenant improvements to high-rise buildings, complex additions to historic structures, and the Golden 1 Arena. Conducted thorough reviews and provided detailed feedback to ensure that all aspects of the code were met.
- Evaluated AMMR (Alternative Materials and Methods of Construction) requests for equivalence with prescriptive code.

Jeff Brooks, CASp | Senior Plans Examiner

Licenses and Certifications

- Certified Access Specialist
- ICC CA Commercial Pluming Inspector
- ICC CA Commercial Mechanical Inspector

Education

Cosumnes River College
Building/Home/Construction Inspection/Inspector

Honors/Awards

- Building Official Leadership Academy – CALBO
  Building Official Leadership Academy (BOLA) Award for completing the CALBO BOLA program for2017-2018.

Skills

- Municipalities
- Construction
- Code Enforcement
- Life Safety
- Building Codes
- Plan Review
- Building Inspections
- NFPA
- Interpersonal Skills

Jeff possesses over 40 years in the construction industry with 21 years as a building inspector performing commercial and residential plan review and inspections in the building life safety, accessibility, plumbing, mechanical disciplines throughout Northern California. Jeff's expertise includes the review of highly complex mechanical and plumbing systems. He also has 20 years of experience working in the trades and as a contractor building custom homes.

As a collaborative leader, Jeff recently provided exceptional leadership skills as the Cannabis Project Manager for the City of Sacramento Building Division. He also provided training and direction for other plans examiners and inspectors for legal related facilities. He works well with the public as well as his colleagues and maintains high levels of productivity, reliability with excellent work ethic to deliver high quality customer service.

Jeff is ICC certified as a Commercial Building and Electrical Inspector. In addition, he is also certified as a California Access Specialist (CASp). Jeff has well-rounded experience in the building industry.

Work Experience

Senior Plans Examiner, TRB and Associates, Inc. **2021 – Present**

- Reviews complex plan drawings and calculations for code compliance on behalf of client agencies.
- Performed comprehensive mechanical and plumbing review for new $100 million mixed use project located in the City of West Hollywood.
- Performed mechanical and plumbing review for new $1.3 billion mixed use project located in Sacramento, CA
- Reviews encompass all manner of construction, including residential, commercial, and industrial project types.

Building Inspector/Plans Examiner, City of Sacramento **2000 – 2021**

- Performed mechanical plumbing plan review for Golden 1 Center Arena, home of the Sacramento Kings.
- Provided life safety, fire systems, and mechanical and plumbing plan review on a wide range of project types during tenure.

General Contractor, Brooks Construction **1980 – 2000**

Ryan Leiendecker | Senior Plans Examiner

Certifications/Licences

ICC Certified:
- Certified Building Official
- Certified Fire Marshall
- Building Code Specialist
- Building Plans Examiner
- Residential Energy Inspector/Plans Examiner
- Commercial Energy Plans Examiner
- Residential Plans Examiner
- Plumbing Plans Examiner
- Commercial Building Inspector
- Residential Building Inspector
- Commercial Plumbing Inspector
- Building Inspector
- Permit Specialist
- Permit Technician

Training Certificates:
- Anchorage Design
- Repair Application Procedure
- Fundamentals of Concrete and Materials
- Fundamentals of Concrete Construction

Education

- Brandman University (Chapman University System), Irvine, California- Master of Public Administration
- Brandman University (Chapman University System), Irvine, California- Bachelor of Sociology

Ryan James Leiendecker possesses more than 14 years of experience in building and fire life safety, conducting plan reviews and inspections for residential and commercial projects in the public sector. In his recent role as a Senior Plan Checker at the City of Pleasanton Building and Safety Division, Ryan supervised Plan Checkers and conducted quality control reviews of consultant's plan reviews. He evaluated building and structural plans for compliance with various codes and met with stakeholders to discuss projects. Ryan conducted over-the-counter reviews for simple projects, while also effectively communicating with customers at the counter, over the phone, and via email, consistently delivering exceptional customer service. He also served as backup for the Chief Building and Safety Official, assisted in special projects, and conducted field inspections as needed.

Ryan has vast experience reviewing construction plans to ensure structural integrity and compliance with regulatory standards, covering California building, mechanical, electrical, plumbing, energy, green, fire codes, and local ordinances.

Work Experience

Senior Plans Examiner, TRB and Associates Inc. **2022 – Present**

- Senior Plans Examiner for jurisdictions on an as needed basis responsible for conducting fire and life safety plan review and inspections ensuring compliance with all applicable local, state, and federal agencies.

Senior Plan Checker, City of Pleasanton Building and Safety **2021 - 2022**

- Supervised Plan Checker and ensured quality control of consultant's plan reviews.
- Checked building and structural plans from architects, engineers, contractors, and owners for compliance with codes and regulations.
- Collaborated with stakeholders like architects, engineers, contractors, and homeowners to discuss projects.
- Conducted over-the-counter reviews for simple projects.
- Provided information and assistance to customers in person, over the phone, or via email.
- Issued building permits and participated in staff meetings to review project compliance.
- Delivered customer service at the Public Counter, including minor plan reviews, and resolving conflicts.
- Acted as backup for the Chief Building and Safety Official when needed.
- Assisted in special projects such as community studies and emergency planning.
- Conducted field inspections related to plan reviews as necessary.

Plans Examiner, County of Napa Building Division **2015 – 2021**

- Reviewed construction plans for structural integrity and compliance with the California building, mechanical, electrical, plumbing, energy, green, fire code and local ordinances.
- Assisted building inspectors with inspections concerning complex structural and life safety issues.
- Met with architects, engineers, and contractors to discuss future or ongoing projects.
- Provided over-the-counter reviews for certain simple projects.
- Provided information to customers at the counter, over the phone, or via email.

Combination Building Inspector Aide II, City of Long Beach Building & Safety **2014 - 2015**

- Assisted customers at the public counter by answering Title 24 code and permit related questions and issuing permits.
- Plan checked photovoltaic systems, signs, pools, and spas.

James Johnson, E.E., QCxP | Senior Plan Review Engineer

Registration/Certification

Registered Electrical Engineer – Hawaii

ICC Certified Electrical Plans Examiner

Qualified Commissioning Services Provider (QCxP)

Construction Quality Control Reviewer (CQCR)

Professional Affiliations

Illuminating Engineering Society (IESNA)

International Association of Electrical Inspectors

Building Commissioning Association (BCA)

International Code Council (ICC)

Volunteer Affiliations

Board Member,
Richmond High School Engineering Academy Advisory Board
2014 – Present

Volunteer Writer/Coach,
El Cerrito and Richmond High Schools
2013 – Present

James Johnson is a Registered Electrical Engineer (Hawaii), ICC Certified Electrical Plans Examiner, and Qualified Commissioning Services Provider (QCxP) with over 30 years of experience encompassing electrical engineering design and plan review. Mr. Johnson has provided electrical plan review on a variety of project types including commercial building, tenant improvements, and photovoltaic systems. In addition, Mr. Johnson has performed extensive power and lighting systems design, engineering and construction document production, and project management.

Select Skills / Project Experience

- Analyze permit submittal plan documents for conformance to adopted national, state, and city/county codes including NEC, NFPA, IBC, ICC and UFC standards.
- Conduct forensic electrical systems investigations to determine origin and cause failure of equipment and associated distribution systems including power, lighting and fire alarm with analysis and resolution of legally adopted Code compliance issues.
- Provide scheduled review as CQCR of electrical construction documentation with scheduled site inspection to assure quality construction in accordance with minimum codes and standards for U.S. government projects.
- Professionally managed a wide variety of governmental, commercial, institutional, and residential projects with associated commercial and emergency, renewable and non-renewable power, lighting, and telecommunication systems.
- Provided oversight of engineering skills development and implements of Engineers-In-Training. As a lead instructor at Leeward Community College, taught Math, English and Writing from high school through college freshman levels.
- Proficient in Microsoft Word, Excel, PowerPoint, Adobe Photoshop and Acrobat Pro, AutoDesk AutoCAD MEP 2013. Revit MEP 2013.

Work Experience

- Senior Plan Review Engineer, TRB + Associates, Inc., 2014 to Present
- Certified Electrical Plan Reviewer, City and County of Honolulu, 2013 to Present
- Senior Electrical Engineer/Project Manager, Moss Engineering, 2005 – 2013
- Office Manager, Senior Electrical Engineer, Tower Engineering, 2000 – 2005
- Senior Project Engineer/Manager, Applied Engineering, 1995 – 2000
- Lead Instructor, Office of Continuing Education and Training, Leeward Community College, Pearl City, HI, 1995 – 2000
- Senior Electrical Design/Project Manager, Bennett, Drane, Karamatsu Engineers, Honolulu, HI, 1985 – 1995

Steven Block, E.E. | Senior Plan Review Engineer

Education

B.S. Engineering, Physics
California State University, Northridge, CA

Registration

Registered Electrical Engineer
California, Nevada, Arizona, Hawaii

Steven Block is a highly skilled electrical engineer with over 25 years' experience in the electrical engineering field. His expertise includes electrical design and plan review for compliance with the National Electrical Code, California Electrical Code, California Energy Code, local ordinances, National Electrical Safety Code, California Electrical Code, California Energy Code, local ordinances, National Electrical Safety Code, OSHA and other applicable laws, ordinances, regulations and standards (LORS).

Projects reviewed for code compliance include commercial and industrial solar power plants, commercial natural gas power plants, wastewater treatment plants, and cement plants, industrial and commercial buildings, parking structures, hotels, and municipal utilities. Designed and provided construction support for traffic signals, highway lighting, closed circuit television, traffic monitoring stations, maintenance stations, and storm water pumping stations.

Work Experience

Senior Electrical Plan Review Engineer, TRB and Associates **2016 - Present**

- Plan review for residential, commercial, and industrial installations – Phillips 66 Naval Weapons Station, OSHPD 3 reviews for the City of Sacramento, Benicia Valero Refinery Audit, Child Daycare Center in Santa Clara, new apartments in Sacramento.

Senior Electrical Engineer, Private Consulting Firm **2004 - 2016**

- Plan review for code compliance and field inspector support – Silver State North Photovoltaic Generating Station, transmission lines, and high voltage substation (Nevada), Palomar Power Project (California), Panoche Energy Center (California), Abengoa Solar Thermal Generating Station and substation (California), Genesis Solar Collector Generating Station (California), Inland Empire Energy Center (California), Distributed Energy Partners Generating Stations (Hawaii), Various Wind Power Generating Stations in Solano County, CA, and other generating stations.
- Plan review for commercial and industrial installations – FBI Honolulu, Disney Hawaii, Fort Irwin Military Housing (California), various rooftop photovoltaic installations (Hawaii), Valero Refinery Benicia (California), Transmission Line Feeder for Concrete Plant (Nevada) and Various Cellular Tower Installations (Hawaii).

Alan Roth, E.E. | Senior Plan Review Engineer

Education

B.S. Electrical Engineering
California State Polytechnic University

Registration

Registered Electrical Engineer
California

Alan Roth is a registered professional electrical engineer with over 30 years of engineering experience. His experience encompasses extensive electrical systems design, quality control, and oversight roles at power plant and other industrial facility types. Past roles include working for Calpine, Inc. and Dow USA on power generation and chemical plant projects.

Work Experience

Senior Electrical Plan Review Engineer, TRB + Associates 2016 – Present

- Conducts electrical code compliance plan review of industrial and power generation facilities. Currently assisting with plan review $1 billion petrochemical refinery expansion project.

Electrical Engineering, Calpine Corporation 1998 – 2014

During tenure at Calpine Corporation, held positions of Senior Electrical Engineer, Senior Project Engineer, Senior Operations Engineer, and Senior Electrical Engineer 3.

- Provided support for the design and construction of a new combined cycle power plants and installation of new combustion turbine generators in existing plants. Duties included:
  - Reviewed engineer's design documents for compliance with Calpine standards and proper interface with OEM documentation
  - Provided field support as required
  - Design
  - Management of capital projects
  - Analysis of protection and control systems
  - Root cause analysis and determination of corrective actions for equipment and protection system failures
  - Recommended predictive preventative maintenance
- Provided interface with consultants for complete protection reviews at 12 Calpine power plants in CA. Duties include:
  - Compiled all protection related drawings
  - Compiled any relay coordination and settings documents
  - Provided field support to consultants to verify drawings and actual protective relay settings
- Determined the preliminary conceptual design, using standard design guidelines for plants in development
- Interfaced with local utilities for new interconnections for projects in the development phase
- Represented Calpine to WECC and other regulatory bodies.
- Provided guidance to plants on maintaining compliance with regional and national reliability standards.
- Interfaced with local utilities for new interconnections for projects in the development phase.
- Represented Calpine to WECC and other regulatory bodies.
- Determine the specification of the major equipment to be selected for the projects as well as interfacing system design.
- Interfaced with utilities, steam hosts, gas suppliers, permitting agencies, consultants and other organizations involved with the development of power projects.
- Directed transmission consultants in initial studies for power plant siting.

Akitayo (Tai) Akiwumi | Senior Plans Examiner

Certifications/Licences

ICC Certified:

- Building Plans Examiner
- Building Inspector
- Plumbing Inspector

Education

- Master of Science - Mechanical Engineering, University of Manchester Institute of Science and Technology, UK.
- Bachelor of Science - Mechanical Engineering, University of Manchester Institute of Science and Technology, UK.

Training

- 2022 CBC Chapter 11A: Privately Funded Multi-Family Dwelling Accessibility.
- 2022 CBC Chapter 118: Accessibility in Public Buildings, Public Accommodations and Commercial Buildings.

Committee Representation

City representative at the Tri-Chapter Uniform Code Committee meetings.

Akitayo (Tai) Akiwumi possesses over 22 years of experience in conducting complex plan reviews for residential and commercial projects, encompassing architectural, mechanical, plumbing, and electrical aspects. In his recent role as a Plans Examiner at the City of San Ramon, he conducted thorough plan reviews for a diverse portfolio of projects, ranging from new constructions to tenant improvements and alterations. Tai's responsibilities also extended to performing over-the-counter plan checks, issuing permits, and providing invaluable code resource services to clients.

In previous roles, Tai demonstrated his proficiency by providing guidance to designers, training staff, addressing customer inquiries, conducting extensive research on code issues, and collaborating effectively with architects and designers. His dedication to ensuring compliance and safety standards has been evident throughout his career.

Tai exhibits exceptional knowledge of local, state, and federal safety standards, ensuring strict adherence to regulations. Holding ICC certifications as a Building Plans Examiner, Building Inspector, and Plumbing Inspector, he brings a well-rounded expertise to the building industry. urthermore, his background in mechanical engineering, technical supervision, general management, and project development, combined with his reliability in supporting team efforts, greatly enhances his performance in his role.

Work Experience

Senior Plans Examiner | TRB and Associates Inc. **2024 - Present**

- Senior Plans Examiner for jurisdictions on an as needed basis responsible for conducting fire and life safety plan review and inspections ensuring compliance with all applicable local, state, and federal agencies.

Plans Examiner | City of San Ramon, San Ramon, CA **2005 - 2024**

- Conducted residential and commercial architectural, mechanical, plumbing, and electrical plan reviews.
- Reviewed a wide range of projects, including:
  Non-Residential:
  - New constructions like malls, offices, and restaurants.
  - Tenant improvements for offices, restaurants, stores, warehouses, and more.

  Residential:
  - Single-family dwellings, involving both new constructions and alterations.
  - Multi-family dwellings, including new constructions and alterations.
- Performed over-the-counter plan checks, issued permits, and provided code resource services to customers via counter, email, and telephone inquiries.
- Assisted in training permit technicians and ancillary staff.
- Met with architects and designers before project submittals for review.
- Conducted field inspections as needed.

Plans Examiner I & II, Berryman & Henigar Inc. | Pleasanton, CA **2002 - 2006**

- *2005 - 2006:* Served as Plans Examiner II, conducting part-time residential and commercial architectural, mechanical, plumbing, and electrical plan reviews on an as-needed basis.
- *2002 - 2005:* Functioned as a Plans Examiner, overseeing residential and commercial architectural, mechanical, plumbing, and electrical plan reviews.
- Additional responsibilities included:
  - Provided guidance to designers on code compliance issues.
  - Assisted in training permit technicians and ancillary staff.
  - Addressed customer inquiries regarding plan checks and other matters.
  - Conducted research on code issues as requested by building departments.
  - Collaborated with architects and designers prior to project submissions for review.

Michael Osborn, PE, LEED AP | Senior Civil Plan Review Engineer

Licenses and Certifications

Registered Civil Engineer | 66022

LEED AP, 2009

Education

Bachelor of Science, Civil Engineering
California Polytechnic University, San Luis Obispo, CA

Caltrans Local Assistance Resident Engineer (RE) Academy

Affiliations

Leadership Santa Barbara County, Board of Directors

Leadership Fresno, Class 31

American Society of Civil Engineers (ASCE)

Michael Osborn is a senior engineer at Provost & Pritchard. With over 20 years of engineering experience, Mr. Osborn has been involved in a variety of public works, residential and commercial development, and educational facility projects. His areas of expertise include site grading design, Americans with Disabilities Act (ADA) site accessibility design and assessment, stormwater management, storm drainage, sanitary sewer systems design, street design, and site development.

Work Experience

Plan Check Engineer, Grading and Drainage Plan Check Services | City of Santa Clara, CA

Mr. Osborn is currently assisting the City of Santa Clara by providing grading and drainage plan check services for various projects in the city. Mr. Osborn has been a primary plan check engineer, reviewing on-site development and associated improvements in the public right-of-way in relation to demolition, grading and drainage. Projects have varied in size from single commercial buildings to multi-family residential to the multi-phased, mixed-use Related Santa Clara project.

City Engineer | City of Mendota, CA

Mr. Osborn is the current City Engineer for the City of Mendota. His responsibilities include management and coordination of the City's state and federally-funded street projects through the Fresno County Council of Governments (FCOB) and Caltrans DLAE and coordination with the City Manager and Public Works Department on infrastructure issues with streets, water, sewer, and storm drain. Mr. Osborn has a significant role in assessing and identifying pavement conditions and storm drain infrastructure issues and needs for the City and putting that knowledge to use in assessing potential flooding issues and coordinating pavement maintenance and street reconstruction.

Project Manager, On-Call City Engineering Services | City of Dinuba, CA

Mr. Osborn provided general civil engineering services to the City of Dinuba, assisting the City's Public Works Department to complete capital improvement projects for 18 months. Projects that were included under this contract ranged from providing civil engineering and land surveying for park facility upgrades, ADA compliance, updating the City's Urban Water Management Plan, development reviews, and grant writing assistance.

Project Engineer, ADA Assessment and Barrier Transition Plan, Community Regional Medical Center | Fresno, CA

Mr. Osborn was the project engineer responsible for completing an ADA compliance site self-evaluation of the Community Regional Medical Center campus. The exterior site-evaluation consisted of the paths of travel from parking stalls to building front doors, and paths of travel between buildings. Upon completion of the evaluation and results report, a Barrier Removal Plan was prepared and included a detailed list of compliance areas that needed to be addressed.

Project Manager, Ongoing Consulting Services, Santa Barbara Community College District | Santa Barbara, CA

Mr. Osborn was responsible for providing ongoing engineering services for the Director of Facilities & Operation and Campus Development. He prepared a pavement assessment of all three campuses within the District, which led to the District's first pavement management plan. In addition, he improved approximately 30,000 square feet of pathways, repaired or resurfaced approximately 10 acres of asphalt pavement, improved the sites of 27,840 square feet or modular buildings, and improved accessible parking and routes of travel around each project. Additional scope of services included mapping existing utilities and improving potable water and sanitary sewer facilities to new buildings. Mr. Osborn also studied slope erosion and prepared "on-call" emergency slope repairs, and provided site grading, paving, utility and storm water management improvements for new building construction as the project civil engineer on several architectural teams.

Michael Williams | Supervising Inspector

Certifications/Licenses

California ICC Certified:
- Building Inspector B5
- California Residential Building Inspector
- California Commercial Building Inspector

Certified in Oregon:
- Oregon OIC-OR Inspector
- Oregon SIA-Structural Inspector A-Level
- Oregon CAS-Residential Structural Inspector

- Linhart Peterson Powers Associates (LP2A) Training Institute – Certificate
- State Of California Safety Assessment Program (CAL OES)

Education

- U.S. Army Air Defense Artillery, Army Ranger School Ranger Indoctrination Program (RIP)
- Diablo Valley College (DVC) courses in Electrical, Plumbing, and Mechanical Codes

Computer Skills

- Permit Plus
- Accela
- Permit Track
- Sweeps

Michael WIlliams possesses over 20 years of experience in inspection services for commericial and residential projects encompassing inspections of building, structural, electrical, plumbing, mechanical, overall life safety standards, IOR projects, local zoning codes, construction documant review, issuing of building permits, as well as over the counter plan review. He is able to interpret and apply pertinent Federal, State, and local laws, codes, and regulations. Michael also has experience in all aspects of the construction industry.

Mr. Williams is highly motivated, hardworking, dependable, punctual, excellent team player with a “can do” attitude. Michael works well with the public, with his colleagues, in a leadership position, or alone, with strong interpersonal skills, high levels of productivity, reliability with excellent work ethic enabling successful interaction with clients, co-workers, and supervisors.

As an ICC Certified Building Inspector, Residential and Commercial Building Inspector, Michael is motivated to continue a career in the building and life safety field, and public service.

Work Experience

Supervising Inspector, TRB and Associates, Inc. **2023 – Present**

- Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Communicates compliance elements with clients with solution driven resolve.
- Provides over the counter building plans examination for jurisdictions on an as-needed basis.
- Reviews building plans and related documents for compliance with California Building Codes, agency requirements and policies. Verifies that projects have obtained all necessary approvals; maintains records and prepares final plan sets for approval as needed.
- Project types range from residential alterations to light-gauge structures in commercial buildings.
- Project Manager for Disaster Recovery Operations and Program Development.
- Cal OES SAP Inspector experienced for multiple events.

Project Manager and Building Inspector, Private Consultant, CA./OR.	**2019 - 2023**

Consultant/Project Manager, Build Rite Construction, Bay Area, CA	**2009 - 2011**
Building Inspector, Solano County, Fairfield, CA.	**2006 - 2009**
Building Inspector, Private Consultant, Elk Grove, CA.	**2005 - 2006**
Electrical Apprentice/Construction Laborer, Steiny & Co.,Vallejo, CA.	**2000 - 2005**
Sargent, U.S. Army – Fort Drum Watertown, NY.	**1993 - 1998**

Douglas Kreiss | Senior Building Inspector

Certifications/Licenses

- ICC Certified Combination Dwelling Inspector - Uniform Codes
- ICC Certified Residential Combination Inspector
- ICC Certified Commercial Electrical Inspector
- ICC Certified Mechanical Inspector
- ICC Certified Plumbing Inspector UPC
- ICC Certified Mechanical Inspector UMC
- ICC Certified Building Inspector
- ICC Certified Plumbing Inspector
- ICC Certified Electrical Inspector
- ICC Certified Combination Inspector
- ICC Certified Commercial Combination Inspector
- California State Fire Marshal Fire Prevention 1A, 1B, 1C

Education

- University of Illinois, Champaign, IL, M.S.
- University of California, Berkeley, CA, B.A.
- College of Alameda, CA. A.A.

Douglas possesses over 20 years of building industry experience as a Certified Building Inspector. Douglas' extensive knowledge includes a wide variety of project types including all aspects of single and multi-family residential, commercial, and industrial structures. He has in-depth code knowledge as is adept at the practical application of the codes working with public agencies.

Mr. Kreiss most recently served as a Building Inspector for the City of Fremont. In this role, he provided expertise, staff training and interpretation of mechanical installation and inspection in addition to combination inspection duties in special projects. This has provided him with a wealth of building industry experience. Douglas has demonstrated outstanding customer service with the public, contractors and development community.

Douglas is also ICC certified in multiple areas including as a Building Inspector, Combination Dwelling Inspector – Uniform Codes, Plumbing Inspector UPC, Mechanical Inspector UMC, Commercial Combination Inspector, Residential Combination Inspector, Commercial Electrical Inspector, Mechanical, Electrical and Plumbing Inspector. He is also certified as a California State Fire Marshal for Fire Prevention 1A, 1B, and 1C.

Work Experience

Senior Building Inspector, TRB + Associates **01/2021 - Present**

- Senior Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Contract Inspector for major projects and jurisdictions on an as needed basis.
- Communicates compliance elements with clients with solution driven resolve.

Building Inspector, City of Fremont **07/2001 - 06/2020**

- Senior Specialist assigned to provide expertise, staff training and interpretation of mechanical installations and inspection in addition to combination inspection duties in special projects.
- Projects included the City of Fremont corporation yard, two story private school buildings, churches, fire stations, multi-story apartment complexes, senior housing project, all seismic upgrades per the City of Fremont ordinance, high tech and hazardous occupancies, restaurants, single family residential projects.
- Duties also included coordination of staff vehicle maintenance and revision of Building Department forms

Combination Building Inspector, City of Fremont **05/2000 - 07/2001**

- High tech, commercial and industrial inspections, including Seagate, AXT HMT, Home Depot REI, City Beach, single family residential.

Combination Building Inspector, City of Pleasanton **09/1999 - 05/2000**

- Single family residential combination inspections and commercial inspections

Combination Building Inspector, Private Consultant **03/1999 - 09/1999**

- Assigned to the City of Dublin and Town of Danville
- Single family and multi-family residential projects

Union Carpenter, Private Consultant **01/1980 - 04/1999**

- Devcon Construction, Tisys Construction, Holvick Construction, Cramer Associates. Supervision, foreman, commercial industrial new construction, tenant improvements, tilt-up, wood and metal stud framing, interior and exterior finish work, cabinets, acoustic ceilings, computer floors, residential rough and finish construction

Sean Burke | Senior Building Inspector

Certifications/Licenses

ICC Certified
Plumbing Inspector
Electrical Inspector
Building Inspector

Professional Affiliations

B.A., Religious Education Minor in Christian Education

Computer Skills

Microsoft Office
Accela Permit Services software

Sean possesses over 24 years of experience in inspection services throughout Northern California encompassing housing inspections, quality control, and combination building code inspections for residential and commercial project types. Sean also has 12 years of experience as an electrician.

Sean's recent experience as a multi-trade inspector for several commercial projects includes helping support the jurisdictions of the County of Sacramento, Town of Loomis, and City of Colfax for both inspections and minor plan review.

As a collaborative leader, Sean provided exceptional leadership skills in managing, supervising, evaluating, and training 22 personnel at one of the busiest permit counters in the region. He has positive working relationships with clients, management, as well as his peers and maintains high levels of productivity and reliability with excellent work ethic to deliver high quality customer service.

Work Experience

Combination Building Inspector, TRB and Associates, Inc. **2022 – Present**

- Building Inspector for jurisdictions on an as needed basis responsible for inspecting residential, commercial, and industrial project types from start to finish.
- Communicates compliance elements with clients with solution driven resolve.

Building Inspector, Private Consultant **2019 – 2021**

- Functioned as a multi-trade inspector for several commercial projects (Placer County's New Coroner's Facility, WellQuest of Granite Bay & Amazon Distribution Facility in Turlock, CA)
- Helped support the jurisdictions of the Town of Loomis and City of Colfax for both inspections and minor plan review.

Permit Services Manager, City of Sacramento **2014 - 2019**

- Managed and oversaw the Building Department Permit Counter.
- Supervised 16 employees permit technicians and building inspectors.
- Supervised six (6) customer service reps assisting in checking in customers and processing payments and plans management.
- Responsible for a variety of complex clerical duties, primarily related to the intake and processing of building permit applications as well as constant communication and coordination with members of the public and City staff.

Building Inspector, City of Sacramento **1998 - 2014**

- Inspected new residential construction and remodels and light commercial tenant improvements.
- Managed facilities permit program, catering to commercial building owners with frequent tenant improvement to expedite their plan submittals and streamline their inspections.
- Supervised three (3) building inspectors assigned to the program.
- Responsible for supervising, evaluating, training, and coordinating the work of building inspectors performing inspection work in all phases of construction, alteration, and repair for compliance to approved plans, specifications, and state and local codes.

Electrician, Private Sector **1987 - 1998**

- Worked as an electrician in various private sectors in Northern California, located in Truckee, Gold River, and Sacramento.

Brian Elder | Senior Building Inspector

Certifications/Licenses

- ICC Certified, Building Inspector
- ICC Certified, California Residential Building Inspector
- ICC Certified, California Commercial Building Inspector
- IAPMO Plumbing Inspector
- IAPMO Mechanical Inspector
- P.O.S.T. PC 832
- California General B CSLB Contractor License # 730875

Brian possesses over 20 years of experience providing inspection services to jurisdictions throughout Northern California. He possess extensive knowledge of the local environment including applicable codes, ordinances, climate and culture. He has inspected projects of all types and sizes and is able to inspect a wide range of residential and commercial projects.

His recent experience includes working as a Combination Building Inspector for a 550,000 sq. ft. Hotel Casino addition at Cache Creek Casino. He has also provided combination inspection services for various jurisdictions including Yolo County, the Cities of Grass Valley, West Sacramento, Sacramento, Vallejo, Winters and Town of Loomis. Brian managed and oversaw the building department and inspectors at the City of Grass Valley. As a licensed general contractor, Brian worked on a tract home construction for Shastan Homes in Chico.

Work Experience

Senior Building Inspector, TRB + Associates **11/2018 – Present**

- Contract inspector for jurisdictions on an as-needed basis responsible for inspecting residential and commercial project types

Combination Building Inspector, Private Consultant **07/2014 – 11/2018**

- Provided combination inspection services for the Cities of West Sacramento, City of Vallejo, City of Sacramento, Town of Loomis, City of winters, Yolo County and Cache Creek Casino
- Projects included single and multifamily residential, commercial, industrial buildings, large tilt up and ten story high rise buildings

Supervising Building Inspector, Private Consultant **11/2013 – 07/2014**

- Performed inspections of commercial, industrial, and residential construction (new, remodels, repairs and replacements) for conformance with applicable codes and ordinances
- Reviewed building plans and supporting material relevant to ensure compliance with various codes, ordinances and policies
- Conferred with city personnel, architects, contractors, and the general public on building code requirements and restrictions
- Reviewed records and reports of inspections for accuracy

Supervising Building Inspector, City of Orland, CA **03/2002 – 11/2013**

- Provided building, electric, plumbing, mechanical, and accessibility inspections for residential and commercial projects
- Performed inspections of all construction phases for compliance with applicable State and City codes and ordinances
- Conferred with city personnel, architects, contractors, and the general public on building code requirements and restrictions
- Verified workmanship and materials during all phases of residential, commercial and industrial construction projects and investigated violations as necessary
- Calculated building valuations and permit fees, collected fees and issued permits
- Verified contractor's licenses, and workers compensation insurance prior to issuing permits

Jacqueline (Jacqui) Powers | Senior Permit Technician

Education

Bachelor of Arts, Chico State University

Licenses/Certifications

NFPA 472 Hazardous Materials Awareness

ICC Certified Plans Examiner *(expired)*

Jacqui Powers brings more than a decade of expertise in the building industry. As a Senior Permit Technician, she excels in navigating building practices and regulatory compliance across federal, state, and local levels. Jacqui is highly proficient in data entry, project coordination, and office administration, enabling her to effectively manage multiple projects while maintaining exceptional customer service standards. This includes her extensive experience in building and life safety for numerous jurisdications throughout California.

Work Experience

Senior Permit Technician, TRB + Associates **2017 - Present**

- Assist with Document Control for various projects
- Contract Permit Coordinator for jurisdictions on an as needed basis.
- Assist clients with questions and inquiries
- Manages the demands of multiple jurisdictions
- Reviews plans for new residential, additions, improvements and light commercial projects.

Plans Examiner | Permit Technician, Bay Area Municipal Consultant **2013 –2017**

- Provided plan review of residential and commercial projects; including additions and tenant improvements.
- Contract Permit Technician for multiple jurisdictions
- Document Control for various high scale commercial and power plant projects.

Event Director | Office Manager, Bay Area Catering **2009 - 2011**

- Managed all aspects of event coordination, including preparing proposals, negotiating contracts, discussing rental upgrade options with clients, developing event timelines, creating menus, collaborating with outside vendors, and arranging rentals.
- Recruited, trained, delegated tasks to, coached, and motivated event staff. Evaluated staff performance. Entered, retrieved, and updated event setup information, and produced event reports using a computerized event management system.

Event Director | Office Manager, East Bay Golf Course **2004 - 2009**

- Served as the "Command Center" for the office, addressing issues and relaying accurate information between sales staff, chefs, employees, and the managing partner. This included details on guest counts, menus, tastings, location, and timing.
- Compiled a monthly binder detailing all events and staff schedules for the managing partner, chef, and sales staff.
- Functioned as the office administrator, handling phone calls, emails, scheduling meetings and conferences, managing transportation and travel arrangements, and processing mail.
- Demonstrated proficiency in Microsoft Office programs (Word, Excel) and various email systems (1and1, Outlook).
- Skilled in QuickBooks for invoicing, billing, payroll, bill payments, and report generation.
- Managed the office schedule for all staff, including front of house and production, and supervised sales staff appointment setting.
- Monitored all accounts payable and receivable, maintained vendor relationships, processed client payments, created budgets, tracked inventory, and completed profit and loss statements.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Fee Schedule

TRB and Associates offers the following fixed-fee and hourly rate schedules for services provided. Please note that Building Plan Review services are rendered on either a fixed fee or hourly rate basis, as noted below. If additional services are requested such as Building Inspection, Permit Processing, Staff Augmentation and Other services (e.g. MWELO, Civil Plan Review; CASp consulting), those services can be provided on an hourly basis at rates shown in the provided Schedule of Hourly Rates and Reimbursables.

Plan Review Services

Our plan review fees may be calculated as a percentage of the Plan Check Fee collected by the City. The fee compensation shown covers three total plan review cycles – the initial plan review and two rechecks. Any further review cycles which become necessary and reviews of revisions to approved plans would be billed on an hourly basis at the Senior Plan Review Engineer/Architect rate provided in the accompanying Schedule of Hourly Rates and Reimbursables. Please note that the turnaround timeframe for providing expedited and express plan reviews would be negotiated/mutually agreed upon prior to commencement of the review. Please also note that all plan reviews are subject to a minimum $250 fee.

Turnaround Timeframe* (in business days)	Structural Only Review	M/E/P Only Review	MWELO Only Review	Certified Floodplain Manager (CFM) Only Review	Complete Building Review (Structural, Life Safety/Disabled Access, M/E/P, Green, Energy)
Standard Generally, five-to-ten-day turnaround, as mutually agreed upon	50%	50%	70%	70%	70%
Expedited** As negotiated and mutually agreed-upon	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent	Standard fee plus an additional 50 percent

* For exceptionally large/complex projects, 15-day first check and 10 day rechecks may apply, as mutually agreed upon prior to commencement of review.

** Turnaround timeframe would be mutually agreed upon prior to commencement of work.

*** Note: For other review scope combinations not specifically identified in the above table (e.g. Electrical Only, Mechanical/ Plumbing Only, etc.), the fee compensation would be on an hourly basis.

**** Projects with Calculated Plan Reviews Fees in Excess of $10,000 are eligible for negotiated cost.

Please note that the pickup, shipment, and delivery of hardcopy and/or electronic plan documents and other relevant correspondence to the City is included in the above-noted cost.

Schedule of Hourly Rates and Reimbursables

The following billing rates apply for services rendered on an hourly basis:

Position	Hourly Rate
Principal	$205.00
Project / Division Manager	$175.00
Building Official	$165.00
Assistant Building Official	$155.00
Supervising Plan Review Engineer/Architect	$165.00
Senior Plan Review Engineer/Architect	$150.00
Senior Plans Examiner (Building & Fire)	$140.00
Plan Review Engineer/Architect	$135.00
Plans Examiner (Building & Fire)	$125.00
Supervising Civil Engineer	$225.00
Senior Civil Engineer	$200.00
Associate Civil Engineer	$180.00
Engineering Technician	$125.00
Permit Technician III	$ 95.00
Permit Technician II	$ 85.00
Permit Technician I	$ 75.00
Clerical/Admin	$ 70.00
Fire Protection Engineer	$225.00
Geotechnical Engineer	$255.00
CASp Certified Inspector/Examiner	$165.00
Grading/Storm Water Plan Review Engineer	$195.00
QSP Storm Water Inspector	$195.00
MWELO Plan Review/Inspection	$195.00
Inspection Task Leader / Inspector of Record	$155.00
Supervising Inspector	$145.00
Senior Inspector III	$135.00
Senior Inspector II	$130.00
Senior Inspector I	$125.00
Inspector II	$120.00
Inspector I	$110.00

- Overtime, Emergency, Expedited, and After-hours work is billed at the above-noted rates plus an additional 50 percent (Note that no overtime will be charged without client authorization). Please note that for any Emergency Call Outs, a minimum 8-hour fee applies.
- Project inspections subject to prevailing wage requirements are at the above-published rates plus 30 percent.
- All requested inspection and other staff-augmentation services are subject to a minimum 4-hour fee.
- Reimbursement for direct expenses incurred in connection with the work, will be at cost plus 15 percent.
- Reimbursement for non-City vehicles used in connection with the work will be at the current IRS rate plus 20 percent per mile.
- Other in-house charges for prints, reproductions and equipment use, etc. will be at standard company rates.

The above Schedule is valid through June 30, 2026 and may be adjusted thereafter to account for CPI changes, as mutually agreed upon.

Litigation Claims Statement

To confirm, TRB does not have any litigation or claims threatened, pending, or filed, or filed then settled, in the past five years, or for the life of the firm.

Project Completions Statement

Also to confirm, TRB does not have any projects where it failed to complete any work awarded in the past five years, or for the life of the firm.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Financial Stability

To confirm, TRB has experienced continued growth in its nearly 20 years in business, is in sound financial standing, and has a firm footing in the municipal consulting industry.

- Of note, TRB has successfully provided Community Development Department Support Services to the City of Benicia since 2007

Also to confirm, if selected, TRB is prepared to provide financial statements for the last 3 fiscal years if requested.

City Insurance Requirements Verification

As evidence of our firm's ability to meet the City of Benicia's insurance requirements as described in the Professional Services Agreement, a copy of our Certificate of Liability Insurance which is currently on file with the City of Benicia is included on the following page. To confirm, all requested coverage types and amounts are accounted for on our current and upcoming renewal certification [Please note, total Auto Liability Coverage totals $3 million, given Umbrella Liability Policy of $2 million in concert with $1 million Auto Liability Policy]

Relevant Project Experience

TRB staff members have extensive experience providing plan review, building inspection, permitting and other Building Safety and Public Works support activities to municipal agencies. To help demonstrate our depth of knowledge, please find the following large projects profiled for your reference. Please note that additional project experience information and references follow the profiled projects.

RELATED Santa Clara Mixed Use Project | Agency: City of Santa Clara, CA

Valuation: $9 billion
Completion Date: Pending
Project address/location: Santa Clara, CA
Project contact person: City of Santa Clara; David Tran SE, Asst. CBO, (408) 615-2436
Scope of work: Combination Code Compliance Plan Review, including Grading & Drainage
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Paul Armstrong, Dominic Ma, Karin Kuffel, Jim Johnson.

TRB was selected by the City of Santa Clara to provide Life Safety, Disabled Access, Structural MEP, Energy, Green Building, Civil, Stormwater, and Grading construction code compliance services, including Alternate Material and Methods support for Phase One of the Related Santa Clara multi-phased, mixed-use project.

The project at projected full build out (ie all phases) consists of 9.2 million square feet of mixed-use development with commercial office, retail / entertainment including a food market, 1,680 residential units, 700 hotel rooms, parking facilities, new open space, and roads, new / upgraded / expanded infrastructure and utilities, and approximately 5 million square feet of corporate office space. The first phase of the project comprises an 850,000 sf garage with 2 high rise towers, 1 mid-rise building, and multiple low rise structures located above (podium construction).

Hollywood Burbank Airport Replacement Passenger Terminal Project | City of Burbank, CA

Valuation: $700 million
Completion Date: In Progress
Project address/location: Burbank, CA
Project contact person: City of Burbank, Mario Osuna, PE, Building Official, (818) 238-5241
Scope of Services Provided: Combination Code Compliance Plan Review, including Grading & Drainage, MWELO, Traffic Engineering
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Paul Armstrong, Dominic Ma, Karin Kuffel, Jim Johnson, Jeff Brooks, Michael Osborn, Jim Begley, Chris Rose

TRB was selected by the City of Burbank to provide Life Safety, Disabled Access, Structural, MEP, Energy, Green Building, Low-Impact Development (LID), Civil, Grading, and Geotechnical code compliance services and Alternate Materials and Methods Request (AMMR) support for the Replacement Passenger Terminal (RPT) project at Hollywood Burbank Airport. Plan review will also include any post permit modifications on an expedited basis. Our team participates in monthly project team meetings and meetings to discuss specific topics (i.e. AMMR, plan check submittal walkthroughs, and plan check comment questions) set up by the design team and City.

This project is using a progressive design-build approach for permitting and construction. The scope of the project includes: a new 355,000 SF, 14-gate passenger terminal building (which will replace the current terminal building), new on-airport publicly accessible roads to include a primary entrance road, loop road, recirculation road and also a secondary access road, as well as airport service vehicle roads, and dedicated facility access roads; a new 6-Level, 700,000 SF public parking structure and an employee-only surface lot; new aircraft apron between building and active taxiway; and a newly constructed ancillary building to replace existing airline cargo and ground service equipment/terminal maintenance buildings.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Dual Tower 26-Story and 8-Story Mixed-Use Buildings | Agency: City of Oakland, CA

Valuation: $200 million
Completion Date: In Progress
Project address/location: Oakland, CA
Project contact person: Alain Placido SE | Supervising Civil Engineer
Scope of Services Provided: Combination Code Compliance Plan Review, Including Grading
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma, Karin Kuffel, Jim Johnson

TRB provided Life Safety, Disabled Access, Structural, MEP, Energy, and Green Building code compliance services Code Compliance and Grading Plan Review for a 26-Story Type 1 podium tower with 270 market rate apartment units and accompanying 8-story mid-rise 90 unit affordable apartment building. Both buildings sit on a concrete podium. The podium includes 1 level above and 2 levels below grade, containing parking at all levels and community and retail functions at grade. Occupancy Groups: A, B, F-1, R-2, S-1, S-2.; Type of Construction: I-A; Number of Stories: 26 Building 1, 8 stories Building 2.

UC Davis Health – Aggie Square Mixed-Use Project | Agency: UC Davis Health

Valuation: $1.3 billion
Completion Date: In Progress
Project address/location: Sacramento, CA
Project contact person: UC Davis Health; Paul Menard RA, Building Official, (916) 734-7416
Scope of work: Fire Life Safety, Disabled Access, MEP Code Compliance Plan Review, Grading
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Paul Armstrong, Dominic Ma, Jim Johnson, Jeff Brooks, Jim Begley

TRB was selected to provide Building and Fire and Grading Plan Review Services for the Aggie Square Project expansion of the UC Davis Medical Center from 3.5 to 6.2 million sf. The project consists of three high-rise towers and a separate mixed-use building (1.2 million s.f. portion). This multi-phase project includes research, laboratory, housing, and commercial components.

Sacramento Convention Center Expansion & Renovation | Agency: City of Sacramento, CA

Valuation: $240 million
Completion Date: 2021
Project address/location: Sacramento, CA
Project contact person: City of Sacramento; Daniel Valencia PE, Sr. Engineer (916) 808-7877
Scope of work: Combination Code Compliance Plan Review
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma, Karin Kuffel, Jim Johnson, Jim Begley

TRB was selected to provide combination Plan Review for the large-scale and high-profile expansion (245,000 s.f.) and renovation (200,000 s.f.) of the Town's convention center facility. TRB reviewed the project for adherence to adopted building standards codes in Life Safety, Structural, MEP, Accessibility disciplines. TRB's scope of work included regularly scheduled telecommunication meetings to ensure schedule alignment. In addition, our firm was engaged in the evaluation of Alternate Materials and Methods requests to address several performance-based design elements on the project. Our review included assessment of a fire modeling study presented as part of the performance-based design consideration.

The Veranda Shopping Center | Agency: City of Concord, CA

Valuation: $75 million
Completion Date: 2019
Project address/location: Concord, CA
Project contact person: City of Concord; Ryan Pursely, PE CBO, Building Official, (925) 671-3173
Scope of work: Combination Code Compliance Plan Review and Inspector of Record
Highlighted Key Team Members: Todd Bailey, Dan McLaughlin, Dominic Ma

TRB provided comprehensive Plan review and Inspection services on the construction of this 6-anchor store shopping center which encompassed core and shell; assembly, retail, and business use tenant improvements. The project includes 12 buildings of various building types (concrete tilt-up, masonry, steel frame, and wood frame construction) having a combined area of 375,000 s.f.

Docusign Envelope ID: 08ABBCCD-8D03-4448-8FC6-8BAFB46AF1D5

Plan Review Experience

The following is a partial list of plan review projects worked on by our staff members. The project valuation for all below-referenced projects ranges from $1 million to over $1 billion.

Mixed Use

- Mixed-use Residential/Retail/Parking Garage (230,000 s.f.), Los Altos, CA
- New 39-Story High Rise Building, $110 million, 916 Broadway, Oakland, CA
- Santa Clara Square Project, $200 million, Santa Clara, CA
- Mixed-use Residential/Office, 630 I Street, Sacramento, CA
- Inglewood NFL Stadium, $1 billion, Inglewood, CA
- Agora Mixed Use Building, 1500 Newell Avenue, Walnut Creek, CA
- Anaheim Regional Transportation Center, Anaheim, CA

Government / Civic

- Packard Foundation Project, Los Altos, CA
- Veteran's Administration, Menlo Park Campus
- Sacramento Convention Center Expansion, $240 million, Sacramento, CA
- Anaheim Convention Center Expansion, Anaheim, CA
- Fire Station Remodel & Addition (12,000 s.f.), County of Marin, CA
- Performing Arts Center, County of Marin, CA
- Sonoma Academy School (99,000 sf), Santa Rosa, CA

Residential / Residential Care Facilities

- The Terraces Phase II (Res. Care Facility), Los Altos, CA
- Atria Senior Living (Residential Care Facility), Walnut Creek, CA
- Campus Crest Apartment Complex (240,000 s.f.), Sacramento, CA
- Brio Apartments, Walnut Creek, CA
- Arroyo Apartments, Walnut Creek, CA
- Valley Vista Senior Housing Complex (Res. Care Facility), San Ramon, CA

Biotechnology / Healthcare

- UC Davis Health System, Aggie Square Project, $1.3 billion, Sacramento, CA
- Kaiser Medical Office Building 2, $100 million, Redwood City, CA
- UC Davis Heath System, Midtown Clinic (100,000 s.f., I2.1 & B occs), Sacramento, CA
- Varian Inc. New Medical Research Facility (44,000 s.f.), Walnut Creek, CA
- Marin Health Campus - Buildings A-E, County of Marin, CA
- Children's Hospital TI, $37 million, Walnut Creek, CA

Commercial

- Macys Major Renovation & Addition, Walnut Creek, CA
- Major Office Remodel (Three 40,000 s.f. buildings), Pleasant Hill, CA
- Organic Material Composting Facility, $120 million, San Leandro, CA
- Santa Clara Bay Aquarium Learning Center, $42 million, Santa Clara, CA
- New Charles Schwab Building, 1231 S. California Blvd, Walnut Creek, CA
- New 6 Story Tech Campus Building, San Leandro, CA

Industrial and Power Plant Cogeneration Facilities

- Lodi Energy Center Project (300 MW), Lodi, CA
- Russell City Energy Center Project (560 MW), Hayward, CA
- Almond 2 Power Plant (300 MW), Ceres, CA
- Walnut Creek Energy Park (500 MW), Industry, CA
- SPG Solar Depot Park, Photovoltaic Array (2.1 MW), Sacramento, CA
- Shiloh Wind Farm (150 MW, 100 Turbines), Solano County

Inspection / Code Enforcement / Building Department Administration Experience

The following is a partial list of Inspection and Administrative assignments worked on by our staff members:

- **Building Official:**
  County of San Mateo, City of Concord, City of Oakley, California Energy Commission, City of Coronado, City of Signal Hill, City of Whittier, City of El Cerrito
- **Inspection:**
  City of Los Altos, City of Palo Alto, City of Sacramento, City of Vacaville, City of Richmond, City of Concord, County of Butte, City of Fairfield, City of San Ramon, City of Dixon, Town of Danville, City of El Cerrito, City of Oakley, County of San Mateo
- **Code Enforcement and Multifamily Inspection:**
  City of Petaluma, County of Solano, City of Concord, City of Antioch, City of Benicia
- **Permit Technician:**
  City of Los Altos, City of Santa Clara, City of Sacramento, County of San Mateo, City of Redwood City, City of Vallejo, City of Concord, City of Palo Alto
- **Delegate CBO Services: California Energy Commission:**
  Lodi Energy Center Project, Lodi, CA, Almond 2 Power Plant, Ceres, CA, Russell City Energy Center Project, Hayward, CA

Civil Engineering / Grading / MWELO Plan Review & Inspection Support Experience

TRB's experience providing Civil Engineering Plan Review and Inspection includes the following agencies:

- **City of Benicia**
- City of Santa Clara
- City of Burbank
- County of San Mateo
- City of Oakland
- City of Los Altos

Representative Client List

TRB staff members have extensive experience working with public agencies in California. The following is a partial list of Northern California local and State agencies served by our staff members.

LOCAL AGENCIES – NORTHERN CALIFORNIA		
City of Concord	City of Benicia	City of Richmond
City of Palo Alto	City of Redwood City	City of Sunnyvale
City of San Jose	City of Millbrae	City of San Leandro
City of Daly City	City of Burlingame	City of Walnut Creek

AGENDA ITEM
CITY COUNCIL MEETING DATE – JULY 1, 2025
CONSENT CALENDAR

TO : City Manager

FROM : Assistant City Manager

SUBJECT : **TEMPORARY RELIEF OF THE SOUND AMPLIFICATION REGULATIONS FOR AN EVENT AT LUCCA'S BAR AND GRILL, 439 FIRST STREET, ON SUNDAY, JULY 27, 2025**

EXECUTIVE SUMMARY:

The Noise Ordinance (Benicia Municipal Code (BMC) Chapter 8.20) regulates noise citywide, including the permitted hours and noise levels for sound amplification. The purpose of this agenda item is to grant temporary relief from the sound amplification regulations for an event to be held at Lucca's Bar and Grill (439 First Street) on July 27, 2025, allowing sound amplification for commercial use to occur until 9:30 pm at 80 decibels (dBs).

RECOMMENDATION:

Move to adopt a resolution (Attachment 1) granting temporary relief from the sound amplification regulations of BMC Section 8.20.080.

BUDGET INFORMATION:

The requested action would not have any direct budgetary impact.

BACKGROUND:

The Noise Ordinance allows the use of sound amplification and regulates noise levels based on the location and hours of use. For commercial districts and along First Street, the maximum amplified sound level is 80 dBs between 9:00 am and 8:00 pm Monday through Saturday, and with a use permit, 75 dBs between 8:00 pm and 9:30 pm Monday through Thursday and 80 dBs on Friday and Saturday. On Sunday, sound amplification can occur until 6:00 pm. The ordinance does not offer an option to grant a temporary use permit or use permit for extended hours. The City Council may grant temporary relief of the sound amplification regulations pursuant to BMC Section 8.20.210.

Lucca's Bar and Grill plans to host the Memorial Show for Steve Evans on Sunday, July 27, 2025. The memorial show will include performances by fellow musicians and friends of Steve, celebrating his life and contributions to music. The requested action would grant the business temporary relief from the Noise Ordinance on Sunday, July 27, 2025

to allow sound amplification up to 80 dBs, from 9:00 am to 9:30 pm. The limited duration of this request and the modest extension of hours would not endanger the health, safety, or welfare of residents in the City.

NEXT STEPS:
If approved, temporary relief from the sound amplification regulations of BMC Section 8.20.080 will be granted.

ALTERNATIVE ACTIONS:
The Council may decline to grant temporary relief or may provide alternate direction.

CEQA Analysis	The proposed temporary relief is exempt from CEQA pursuant to the General Rule, Section 15061(3), as it grants a minimal extension from existing established standards for a single day and otherwise requires compliance will all other applicable provisions of the Noise Ordinance and therefore it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

ATTACHMENT:
1. Resolution – Temporary Relief from Sound Amplification Regulations

For more information contact: Suzanne Thorsen, Assistant City Manager
Phone: (707) 746-4280
E-mail: SThorsen@ci.benicia.ca.us

RESOLUTION NO. 25-

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BENICIA GRANTING TEMPORARY RELIEF OF THE SOUND AMPLIFICATION USE REGULATIONS SECTION 8.20.080 BMC FOR AN EVENT HELD AT LUCCA'S BAR AND GRILL ON SUNDAY, JULY 27, 2025

WHEREAS, the Noise Ordinance (Chapter 8.20) regulates noise citywide, including the permitted hours and noise levels for sound amplification; and

WHEREAS, the maximum amplified sound level in Commercial districts and on First Street is 80 decibels (dBs) between 9:00 am and 8:00 pm Monday through Saturday, and with a use permit 75 dBs between 8:00 pm and 9:30 pm Monday through Thursday and 80 dBs on Friday and Saturday; and

WHEREAS, sound amplification on Sundays is limited to 6:00 pm; and

WHEREAS, the City Council may, pursuant to BMC Section 8.20.210, grant temporary relief from the noise regulations for specified duration; and

WHEREAS, the granting of temporary relief would not endanger the health, welfare or safety of the residents of the city, as it would be limited to one business for a limited duration during the evening of July 27, 2025; and

WHEREAS, the proposed temporary relief is exempt from CEQA pursuant to the General Rule, Section 15061(3), as it grants a minimal extension from existing established standards for a single day and otherwise requires compliance will all other applicable provisions of the Noise Ordinance and therefore it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

NOW, THEREFORE, BE IT RESOLVED THAT the City Council of the City of Benicia does hereby grant temporary relief from the sound amplification use regulations of BMC Section 8.20.080 to Lucca's Bar and Grill for one (1) day on July 27, 2025 as follows:

Maximum Amplified Sound Levels (dB)

Noise Zone	**9:00 a.m. – 9:30 p.m.**
Commercial (all) and First Street (439 First Street only)	80

BE IT FURTHER RESOLVED that all other applicable provisions of the Noise Ordinance Chapter 8.20 BMC shall remain in full force and effect.

*****

On motion of Council Member , seconded by Council Member , the above Resolution was adopted by the City Council of the City of Benicia at a regular meeting of said Council held on the 1st day of July, 2025 by the following vote:

CITY COUNCIL MEETING DATE – JULY 1, 2025
CONSENT CALENDAR

TO : City Manager

FROM : Public Works Director

SUBJECT : **INITIATE PROCEEDINGS FOR THE FORMATION OF THE BENICIA CITYWIDE PARKS, LANDSCAPE AND LIGHTING ASSESSMENT DISTRICT FOR FISCAL YEAR 2026/27**

EXECUTIVE SUMMARY:

The City of Benicia is initiating proceedings to form a Citywide Parks, Landscape and Lighting District (District), which would consist of one zone that would incorporate the entire City. Private properties within the zone would be assessed annually to pay the cost to maintain parks, landscaping along street rights-of-way, maintenance of open space areas and maintenance and energy costs of streetlights. Staff is recommending Council initiate proceedings for the formation of a Citywide District, which would replace the current five zone District.

RECOMMENDATION:

Move to adopt a resolution (Attachment 1) Initiating Proceedings for the Levy and Collection of Assessments for the City of Benicia Parks, Landscape and Lighting District, Fiscal Year (FY) 2026-27.

BUDGET INFORMATION:

There are no budget costs to Initiate Proceedings for the formation of a District, except for consultant costs, which are already budgeted.

BACKGROUND:

Currently, only some properties contribute through an outdated assessment district. This District consists of five zones, one of which consists of residential areas established in 1989 and lacks an annual inflation adjustment factor. As a result, funding has not kept pace with rising costs for materials, utilities, labor, and other essential services, making it increasingly difficult to maintain the level of service the community expects. The District also only funds five out of the 28 parks. To ensure consistent, reliable funding, the City is proposing a new citywide assessment to replace the current system, ensuring all property owners contribute fairly. This would create a more equitable funding approach, where everyone receiving a special benefit from Benicia's parks and landscaping pays an assessment.

At the December 3, 2023, City Council meeting, Council directed staff to pursue a Citywide assessment ballot measure.

On June 18, 2024, City Council adopted the Parks, Trails and Open Space Master Plan, which identified the need for additional funding.

The formation of a Parks, Landscape and Lighting Assessment District is governed by Proposition 218, which requires approval through a ballot proceeding by property owners (not registered voters). This process is established by the Landscaping and Lighting Act of 1972 (California Streets and Highways Code Division 15, Part 2) and Government Code Sections 53750–53754. This process ensures transparency and gives property owners a direct say in whether a new landscape and lighting assessment should be levied to fund installation, ongoing maintenance, and servicing of public improvements citywide. To form the Benicia Citywide Parks, Landscape and Lighting Assessment District, the City must follow the steps outlined below:

1. Initiate Proceedings

The process begins with the adoption of a resolution to initiate proceedings and direct the preparation of an Engineer's Report (tonight's action). The Engineer's Report will define the proposed improvements, the boundaries of the District, the estimated costs, the method of assessment, and the assessment diagram.

2. Preliminarily Approval of Engineer's Report and Set Public Hearing

Once completed, the Engineer's Report will be presented to the City Council for preliminary approval. At that time, the Council will also adopt a resolution setting the date for a public hearing (proposed for July 15, 2025). This action allows the City to proceed with formal noticing and the ballot process.

3. Mail Ballots and Public Hearing Notice

In accordance with Proposition 218, ballots and a formal notice of the public hearing will be mailed to all affected property owners (proposed on or around August 1, 2025). This timeline ensures compliance with the legal requirement to provide a minimum of 45 days' notice prior to the public hearing (proposed for October 10, 2015). Property owners may return their ballots by mail or in person at any time up to the close of the public hearing. Each ballot is weighted based on the amount of the proposed assessment for the corresponding parcel.

4. Conduct Public Hearing and Tabulate Ballots

The public hearing will be held to receive comments from property owners. After public comment, the Council will direct the City Clerk to tabulate ballots in a public and transparent manner. To allow time for this process, the Council's final action following the tabulation process will be continued to a future Council meeting (proposed for October 21, 2025).

5. Announce Results and Finalize District

At the future Council meeting, the City Clerk will present the ballot tabulation results. Under Proposition 218, approval is determined by a majority of weighted ballots received, meaning that each vote is counted in proportion to the assessment amount

assigned to each parcel. If the majority is in favor, the Council may adopt a final resolution to approve the Engineer's Report, confirm the assessment diagram, and authorize the levy of assessments.

The current survey phase, which is gathering input on property owner priorities and helping raise awareness about the upcoming measure, is underway.

NEXT STEPS:
The next step will be to Initiate Ballot Proceedings and approve the Engineer's Report at the July 15, 2025, Council meeting.

ALTERNATIVE ACTIONS:
If the ballot proceedings are not initiated and the Engineer's Report not approved, then the City will not be able to move forward with the formation of a Citywide District.

CEQA Analysis	Landscaping and Lighting District assessments are exempt from the California Environmental Quality Act (CEQA) under Guidelines Selection 15378 (b) (4), because government fiscal activities, which do not involve any commitment to any specific project, which may result in a potentially significant physical impact on the environment is not considered a project.

RESOLUTION NO. 25-

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BENICIA INITIATING PROCEEDINGS FOR THE FORMATION OF THE BENICIA CITYWIDE PARKS, LANDSCAPE AND LIGHTING ASSESSMENT DISTRICT FOR FISCAL YEAR 2026/27

WHEREAS, the City of Benicia ("City") desires to initiate proceedings for a Citywide Parks, Landscape and Lighting Assessment District (District) pursuant to the Landscaping and Lighting Act of 1972 (the "Act"), Division 15, Part 2, Chapter 2, Sections 22585 et. seq. of the California Streets and Highways Code, for the installation, maintenance, and servicing of landscaping and other improvements; and

WHEREAS, the City Council determines that all real property within the incorporated limits of the City will receive special benefit from the installation, maintenance, and servicing of said improvements, over and above any general benefit conferred on the public at large; and

WHEREAS, Section 22585 of the Act provides that the formation of a landscape and lighting assessment district shall be initiated by resolution; and

WHEREAS, Article XIIID, Section 4 of the California Constitution requires that written notice and ballots be provided to the record owners of each identified parcel within the proposed District, and the City intends to comply with all applicable procedural and substantive requirements.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The City hereby proposes the formation of a Parks, Landscape and Lighting Assessment District pursuant to the Act. The City reserves the right to rescind this proposal at any time prior to the mailing of the ballots.

2. The purpose of the District shall be to install, maintain, and service those improvements described in Section 4 below.

3. The new District proposed in this resolution is hereby given the distinctive designation of the "Parks, Landscape and Lighting Assessment District," which is proposed to include all real property located within the incorporated boundaries of the City, excluding public rights-of-way and any parcels that may be otherwise exempt from assessment, subject to analysis and confirmation in the Engineer's Report.

4. It is proposed that the District undertake the installation, maintenance and servicing of public areas and public facilities, including, but not limited to, landscaping, sprinkler systems, park grounds, park facilities, landscape

corridors, ground cover, shrubs and trees, street frontages, playground equipment and hardcourt areas, community centers, drainage systems, lighting, fencing, entry monuments, basketball courts, tennis courts, other recreational facilities, graffiti removal and repainting, and labor, materials, supplies, utilities and equipment, as applicable, for property owned and/or maintained by the City.

a. “Installation” means the construction of recreational or landscape improvements, including, but not limited to, land preparation (such as grading, leveling, cutting and filling), sod, landscaping, irrigation systems, sidewalks and drainage, lighting, playground equipment, play courts, recreational facilities, and public restrooms.

b. “Maintenance” means the furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of said improvements, including: (a) repair, removal, or replacement of all or part of any improvement; (b) providing for the life, growth, health and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury; (c) the removal of trimmings, rubbish, debris, and other solid waste; and (d) the cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

c. “Servicing” means the furnishing of: (a) electric current or energy, gas, or other illuminating agent for any public lighting facilities or for the lighting or operation of any other improvements; and (b) water for the irrigation of any landscaping, the operation of any fountains or water features, or the maintenance of any other improvements.

5. SCI Consulting Group is hereby designated as Engineer of Work for purposes of these proceedings and is hereby ordered to prepare an Engineer's Report in accordance with Article 4 of Chapter 1 of the Act and Article XIIID of the California Constitution. The Engineer’s Report shall include a description of the improvements, the boundaries of the proposed Assessment District, the estimated costs, the proposed method of assessment, and the assessment diagram. Upon completion, the Engineer shall file the Engineer's Report with the City Clerk for submission to the City Council.

*****

On motion of Council Member , seconded by Council Member , the above Resolution was adopted by the City Council of the City of Benicia at a regular meeting of said Council held on the 1st day of July 2025 by the following vote:

AGENDA ITEM
CITY COUNCIL MEETING DATE – JULY 1, 2025
BUSINESS ITEMS

TO : City Manager

FROM : Deputy City Manager

SUBJECT : **ADOPTION OF WORK PLAN FOR FISCAL YEAR 2025-26**

EXECUTIVE SUMMARY:

The City Council held a Goal Setting Workshop on February 21, 2025, to discuss and set its priorities for the next fiscal year, July 1, 2025– June 30, 2026 (FY 2025-26).

RECOMMENDATION:

Adopt, by minute order only, the City Council's Work Plan for FY 2025-26 (Attachment 1) and direct staff to provide regular progress updates.

BUDGET INFORMATION:

There is no impact on the budget at this time. These projects are included in the FY 25-26 Budget. Any budget impact associated with the priority projects included in the work plan will be described at the time each priority project is approved by Council at future meetings.

BACKGROUND:

Five-Year Strategic Plan for 2024-2028

In the fall of 2023, the City began the process of updating its Strategic Plan, and developing a Resiliency Plan, which provides a roadmap for the organization's next five years of work and identify the City's key priorities. On June 18, 2024, the City Council adopted the City's Five-Year Strategic Plan (Plan) for 2024-2028 (Attachment 2) which includes updated mission, vision, values, and strategic goals. This Plan incorporates the feedback provided by the public and City Council at previous meetings, as well as feedback from the Executive Management Team. This Plan will serve as the City's guidepost as it continues to face fiscal uncertainty and work toward implementing the Pathway to Resilience, a three-part plan: (1) Reduce Expenses, (2) Increase Local Revenue (taxes) and (3) Grow the City's Tax Base through New Development.

Annual Work Plan for FY 2025-26

The annual workplan is comprised of unique projects that City staff will work on, and invest additional resources in, that are outside of normal business operations, and do not occur on a routine or yearly basis. In 2024, the City Manager institutionalized holding the Annual Work Plan Review Workshop on the third or fourth Friday of the month, whichever day City Hall is open.

In 2025, the Annual Work Plan Review Workshop was held over the course of two days. At the February 18, 2025 City Council meeting, Council and staff reviewed the FY 24-25 Work Plan to recognize the accomplishments of completed projects, and discussed status updates of projects that would continue into the FY 25-26 Work Plan.

On February 21, 2025, Council along with staff, held day 2 of the Annual Work Plan Review Workshop at the Clock Tower to review the City's Resiliency Plan, discuss the Parking Lot items from the previous workshop that staff committed to discussing in 2025, staff recommended projects, and established a set of parking lot items for 2026.

After the workshop, the Executive Management Team (EMT) held a 1-day planning workshop on March 7th for the purposes of team building and identifying a new approach for showcasing and prioritizing the City Council's Annual Work Plan. The EMT worked diligently to develop such a plan and showcase the work plan with more detail and timelines for each phase of each project.

Then, on April 16th, in a press release Valero announced notice to the California Energy Commission that it would "idle, restructure, or cease refining operations at Valero's Benicia Refinery by the end of April 2026."[1] As the City's largest contributor in both revenue and jobs, responding to this announcement has become City staff's top priority.

Given the potential magnitude of this announcement's impact on the City of Benicia, staff have identified two top priorities for the upcoming fiscal year:

1. **The City's response to the Valero announcement.** This includes a wide variety of tasks including examples such as: participating in key stakeholder meetings, conducting fiscal and economic analyses of potential impacts, responding to development inquiries for the Valero-owned site, among others. Addressing these issues will require cross-departmental coordination and sustained attention.

2. **Priority Based Budgeting.** At the June 3, 2025, City Council meeting, City Council approved a contract with Priority Based Budgeting which staff will implement between July 2025 to March 2026 with the goal of having actionable data and decision-making options before the Council in April of 2026.

Therefore, the Work Plan for FY25-26 differs from previous years. Staff have adopted a tiered approach to organizing and implementing the City Council's priorities. The two items listed above are top priorities and will guide the work of all departments. Remaining Council-identified projects will be addressed based on available staff capacity and prioritized accordingly throughout the year.

Based on this, and staff's review of what is feasible to be accomplished within current capacity and budget constraints, the following projects have been added to the list to be revisited and discussed at the 2026 Goal Setting Workshop.

[1] See Valero press release at https://investorvalero.com/news/news-details/2025/Valero-Announces-Notice-to-the-California-Energy-Commission-Regarding-its-Benicia-California-Refinery/default.aspx

Items to be discussed at 2026 Goal Setting Workshop:

- Amend Tree Removal Policy
- Southern Pacific Depot, Settlement Funds, and First Street Green
- Renegotiate Port Lease
- Parking (AB 413, East E St Lot, Improve/Increase parking downtown)
- City website update
- Citywide sidewalk repair incentive program
- Community aquatics complex
- Multi-Sport complex
- Preserving historic First Street
- Visitor restroom program
- Wayfinding on First Street

Based on Council direction at the Annual Goal Setting Workshop in February, and subsequent Council direction based on the Valero announcement, the City Council established a list of 25 priority projects which directly support each of the City's five (5) strategic goals. Staff will use this Work Plan to guide the City's work over the next year.

NEXT STEPS:
City Staff across all departments will carry out the Work Plan. In the fall, the City Manager's Office will conduct a progress update on the current work plan, and review Council suggestions for the next work plan annually in February 2026.

CEQA Analysis	This report is exempt from CEQA under Section 15061(b)(3) the "general rule" exemption, which states that where it can be seen with certainty that there is no environment, the activity is exempt from CEQA.

THE CITY OF BENICIA

THE CITY OF BENICIA

Strategic Plan

2024 – 2028

WELCOME

We are pleased to present the City of Benicia's Strategic Plan 2024-2028. As the City faces ongoing budget challenges, it is crucial that we chart a course toward fiscal resilience and long-term sustainability. Our strategic plan is more than just a document; it is our commitment to fiscal responsibility, transparency, and accountability. It is a roadmap that will guide us as we make tough choices and prioritize investments that will yield the greatest return for our community. By aligning our resources with our values, we can lay the foundation for a stronger future for our community.

Central to our strategic plan are a set of strategic goals that reflect our aspirations for the future. These goals encompass a wide range of areas, including financial sustainability, community health and safety, economic development, infrastructure, and effective government services. The strategic plan is organized as follows:

- Strategic Framework
  - Vision, Mission, Values
- Strategic Goals
  - Goal 1: Achieve Financial Stability
  - Goal 2: Promote Community Health and Safety
  - Goal 3: Expand Economic Development
  - Goal 4: Maintain Community Infrastructure
  - Goal 5: Provide Effective Government Services
- Appendix A: Annual Planning Cycle
- Appendix B: Resiliency Framework

Finally, we would like to thank all of the community members who helped to shape this plan by providing public comment, responding to surveys, attending town halls, and beyond. Our city is a vibrant community made up of diverse individuals, businesses, organizations, and institutions. Each one of us plays a vital role in shaping the character and direction of our city, and we thank you for your commitment to our community.

STRATEGIC FRAMEWORK

OUR VISION

Benicia is a vibrant city that celebrates our rich culture, beautiful waterfront, welcoming community, and small-town feel.

OUR MISSION

Our mission is to provide sustainable city services to help our residents thrive. We strive to encourage economic opportunities, maintain sound infrastructure, and foster a safe and healthy community.

CITY VALUES

Accountable

We are honest, transparent, and committed to doing what's right.

Community-focused

We listen to our community members, adapt to changing circumstances, and communicate openly to meet our residents' needs today and in the future.

Inclusive

We foster an environment where all individuals feel welcome, respected, and empowered.

Teamwork

We work together to achieve common goals and collaborate to create the best possible services for our community.

Respectful

We act professionally, value others' perspectives, and create a supportive environment where all contributions are appreciated.

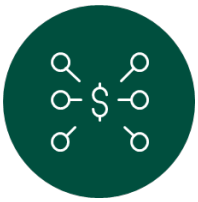
STRATEGIC GOALS

Goal 1: Achieve Financial Stability

Ensure the City has adequate and sustainable financial funding to deliver effective services to residents.

Goal 2: Promote Community Health and Safety

Protect residents' quality of life in a safe, clean, and well-maintained community.



Goal 3: Expand Economic Development

Strengthen the local economy by supporting local businesses, providing opportunities for new businesses and job seekers, and facilitating housing.

Goal 4: Maintain Community Infrastructure

Strengthen investment in public infrastructure, including City roads, buildings, facilities, and water systems.

Goal 5: Provide Effective Government Services

Sustain the efficiency and effectiveness of the City's services aligned with available resources.

Goal 1: Achieve Financial Stability

Ensure the City has adequate and sustainable financial funding to deliver effective services to residents.

- Grow near-term City revenue by proposing appropriate tax measures
- Grow long-term City revenue through a combination of the following activities:
  - Expand housing development with a focus on workforce and senior housing and in-fill development to meet the needs identified in the City's Housing Element
  - Increase grant revenue and ensure sufficient staffing resources to manage grants
  - Routinely evaluate the City's fee structure to ensure it is meeting the City's cost-recovery needs
  - Pursue economic development activities (see Economic Development goal for more details)
- Decrease City expenses through service reductions, which may include the following activities:
  - Reduce non-mandated services
  - Assess financial benefits to regionalizing/consolidating Dispatch and/or other functions
  - Assess financial benefits of creating special districts (ex: parks, port, etc.)
  - Inventory and review current City infrastructure/assets to identify opportunities to sell and/or otherwise reduce related City expenses
- Identify funding sources to support infrastructure and deferred maintenance needs (see Infrastructure goal for more details)
- Strive to implement a priority-based budgeting approach to ensure that City resources are being used in alignment with established goals

GOAL 1 PERFORMANCE MEASURES

- City revenues that support expenses
- Diversity of revenue sources
- Operating reserve fund balance
- Credit rating
- Unfunded pension liability as a percentage of General Fund revenue

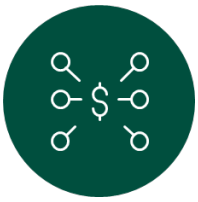
Goal 2: Promote Community Health and Safety

Protect residents' quality of life in a safe, clean, and well-maintained community.

- Strive to maintain current Police and Fire service levels
- Invest additional resources in emergency preparedness, with a focus on staff training, seismic safety, flood, extreme heat, and fire
- Pursue opportunities to increase the environmental sustainability of the City and protections for our community, with a focus on leveraging outside funds to finance projects
- Continue current efforts to provide clean and well-maintained City parks
- Strive to provide services that improve residents' quality of life, such as Recreation and Library programming

GOAL 2 PERFORMANCE MEASURES

- Maintain police and fire response times
- Property crimes per 1,000 people / Clearance rate
- Violent crimes per 1,000 people / Clearance rate
- Funding secured to support environmental sustainability projects
- Resident participation in Library and Recreation activities, programs, and services
- Resident satisfaction survey results



Goal 3: Expand Economic Development

Strengthen the local economy by supporting local businesses, providing opportunities for new businesses and job seekers, and facilitating housing.

- Expand tourism activity within the City guided by the 2023 Strategic Tourism Marketing Plan
- Attract commercial and industrial businesses that can increase employment opportunities and City revenue
- Develop a long-range strategy for use of the Port that supports the City's financial and environmental sustainability goals
- Streamline and prioritize permitting processes to ensure the City is a strong partner for businesses and development
- Improve online access to zoning, licensing, and permitting information
- Continue current efforts to provide job search assistance through Library programs and services
- Continue current efforts to maintain and implement the City's Housing Element

GOAL 3 PERFORMANCE MEASURES

- Retail sales tax revenue
- Transient Occupancy Taxes revenue
- New business licenses
- Business license renewal rates
- Number of Housing Element programs completed or in progress

Goal 4: Maintain Community Infrastructure

Strengthen investment in public infrastructure, including City roads, buildings, facilities, and water systems.

- Conduct a facilities conditions assessment to accurately capture and prioritize deferred maintenance needs
- Update the City's Capital Improvement Plan on at least a biennial basis
- Continue efforts to maintain City infrastructure by identifying funding sources and/or implementing the priorities identified in plans and policies adopted by City Council (ex: Capital Improvement Plan, Parks Master Plan, etc.)
- Identify opportunities to fund street maintenance at a level that will improve the City's Pavement Conditions Index (PCI) ratings

GOAL 4 PERFORMANCE MEASURES

- Facility conditions assessment results
- Net investment in capital assets
- Total deferred maintenance costs
- Pavement Conditions Index ratings

Goal 5: Provide Effective Government Services

Sustain the efficiency and effectiveness of the City's services aligned with available resources.

- Recruit and retain high-quality employees
- Strengthen City-wide IT governance and strategy to ensure cohesive investment in IT infrastructure
- Assess, streamline, and reduce the use of commissions and committees to ensure that these groups provide the highest possible value to the City and community
- Continue efforts to incorporate diversity, equity, and inclusion practices across City services and operations, including the work of the City's Core Equity Team
- Develop a unified customer experience strategy that accounts for both in-person and digital services
- Focus the City's community engagement and communication efforts on high-priority initiatives to increase transparency and trust
- Continue to collaborate with the Benicia Unified School District (BUSD) to support quality education

GOAL 5 PERFORMANCE MEASURES

- Employee engagement survey results
- Employee turnover rates
- Employee vacancy rates
- Resident satisfaction survey results

APPENDIX A: ANNUAL PLANNING PROCESS

Each year, the City's management team will review the Strategic Plan and select specific objectives and actions that they believe will be critical to focus on for the upcoming year. These priorities will then be reviewed and approved by City Council. Once priorities have been established, the management team will develop an Annual Work Plan. In addition, the priorities will inform the budget development process. The general timeline is included below.

OCTOBER/NOVEMBER

- Management selects objectives/actions to incorporate into the Annual Work Plan for the following fiscal year

JANUARY

- City Manager collects concepts from City Council to review for potential inclusion in the Annual Work Plan for the following fiscal year

FEBRUARY

- City Council reviews strategic priorities and Annual Work Plan on the 3rd or 4th Friday in February, whichever City Hall is open
- Management provides progress report of the current Annual Work Plan to City Council
- City Council discusses the Annual Work Plan for the following fiscal year

MARCH

- Executive Management Team retreat to review Council feedback and draft the Proposed Annual Work Plan for the following fiscal year

APRIL/MAY/JUNE

- City Council acknowledges success of current Work Plan
- City Council study session to review Proposed Annual Work Plan with budget information
- City Council adopts Annual Work Plan and any necessary budget amendments

JULY

- Based on budget allocations and emergent needs, management develops a high-level implementation plan that describes actions, related timelines, and responsible parties

OCTOBER

- The planning cycle begins again

APPENDIX B: RESILIENCY FRAMEWORK

GUIDING PRINCIPLES

As the City continues its efforts to resolve its structural budget deficit, it is likely that additional budget reductions will be necessary and new initiatives will need to be carefully considered before the City invests current resources. To support these challenging conversations, the City has developed the following guiding principles:

- **Take a Multi-Pronged Approach.** To resolve the structural budget deficit, the City has established a multi-pronged approach to grow revenue, reduce expenses, and increase sustainable development. We recognize that the long-term solution to this issue relies on employing many tactics.
- **Do the Most Important Things Well. Cut Back on the Rest.** In a time of revenue shortfalls, we recognize that the City must offer services that provide the highest value to our community, while reducing service levels, divesting, or eliminating lower value services.
- **Be Transparent and Responsive to Community Input.** Community priorities are foundational to budget decisions. Especially when faced with challenging budget reductions, we will solicit and incorporate community input in the decision-making process.

DECISION-MAKING CRITERIA

When evaluating current or potential services, programs, or projects (collectively referred to as "initiatives"), the following questions can be used to guide the decision-making. Alternatively, these questions can form the basis to quantitatively score programs—as is done within a priority-based budgeting approach.

Incorporating these questions into decision-making processes ensures a thorough and strategic approach to resource allocation, ultimately enhancing the efficiency and effectiveness of City initiatives.

- **Mandated Services:** Is the initiative mandated?
- **Strategic Alignment:** Is the initiative aligned with the City's strategic goals?
- **Mission Alignment:** Is the initiative aligned with our mission and within the City's scope/authority or General Plan? Is there another organization that is better situated to take the lead on this initiative?
- **Revenue Generation:** Does the initiative generate revenue? If so, does the generated revenue meet or exceed the expense to provide the initiative?
- **Service Reduction:** Could we provide less of the initiative and still meet baseline mandates or community expectations?
- **Outsourcing Option:** Could this service be provided more cost-effectively by outsourcing this function to be delivered by a third-party?
- **Regionalization or Partnership Option:** Could this service be provided more cost-effectively through a partnership with other governmental agencies or nonprofit organizations?

ACKNOWLEDGEMENTS

Thank you to all the people who dedicated time and provided valuable input during the development of this strategic plan, including:

- City of Benicia Community Members
- City of Benicia Council Members
- City of Benicia Management and Staff

PREPARED BY MOSS ADAMS LLP

AGENDA ITEM
CITY COUNCIL MEETING DATE – JULY 1, 2025
BUSINESS ITEM

TO : City Manager

FROM : Assistant City Manager

SUBJECT : **CONTINUATION OF APPEAL OF A PLANNING COMMISSION DECISION ON A DESIGN REVIEW APPLICATION FOR 106 WEST J STREET**

EXECUTIVE SUMMARY:

The property owner (appellant), Steffan Schulz, proposed an after-the-fact design review approval of eleven (11) triple-hung vinyl windows, on the front (north) and side (east) façades, on the second story of the building located at 106 West J Street. The structure is designated as a historic resource (landmark) in the Downtown Historic Conservation Plan. Following denial of the design review application by the Historic Preservation Review Commission (HPRC), and denial of an appeal by the Planning Commission, the property owner filed an appeal of the Planning Commission's decision to the City Council. At its regular meeting on April 2, 2024, the City Council reviewed the appeal and conducted a public hearing. There were four public comments in support of granting the appeal. Following the public hearing, the Council voted unanimously to direct Staff to bring back a resolution with the requisite findings to a date uncertain granting the appeal. Staff was also directed to prepare the necessary California Environmental Quality Act (CEQA) findings to allow the proposed vinyl window replacement, which required the applicant, at his sole expense, to provide a report by a qualified historic architect or historic librarian supporting the appropriate CEQA findings.

RECOMMENDATION:

Move to adopt a resolution (Attachment 1) granting the appeal and overturning the Planning Commission's decision to uphold the HPRC decision to deny the Design Review application for 106 West J Street, after a public hearing and determination that the action is exempt from CEQA.

BUDGET INFORMATION:

Approval or denial of the appeal would not have a direct budgetary impact on the City.

BACKGROUND:

The appellant previously replaced existing upper floor aluminum windows with 11

California Deluxe Unplasticized Polyvinyl Chloride vinyl windows without first receiving design review approval and submitted a design review application to comply with the Downtown Historic Conservation Plan (DHCP). Exterior alterations to properties within the district must be reviewed for consistency with the adopted design guidelines of the DHCP. The proposed windows were installed as an emergency replacement, due to aluminum window failure. Existing arched masonry and wood window trim remain in place. In an effort to consider public safety, avoidance of injury, and to mitigate further damage and degradation to the historic nature of the building, the decision was made by the applicant to repair and replace the existing failing aluminum windows, with windows of the closest similar aesthetic available.

The Historic Preservation Review Commission (HPRC) conducted public hearings on October 26 and November 16, 2023 and denied the window replacement application following the public hearing. On December 5, 2023, the property owner ("appellant") filed an appeal of the HPRC's denial of a Design Review application for exterior alterations to a historic landmark structure at 106 West J Street to the Planning Commission.

The Planning Commission reviewed the appeal of the HPRC's decision to deny the Design Review application for 106 West J Street during their regular meetings of January 11, 2024 and February 8, 2024. Following denial of the application by the HPRC on November 16, 2023, and denial of the appeal by the Planning Commission on February 8, 2024, the property owner (appellant) filed an appeal of the Planning Commission's decision on February 20, 2024. The appeal was filed in accordance with Chapter 1.44 of the Benicia Municipal Code (BMC), and the item was brought before the City Council for their consideration on April 2, 2024.[1]

Appeal

On February 20, 2024, the property owner submitted an appeal of the Planning Commission's decision upholding the HPRC's decision to deny after the fact design review approval for the replacement of 11 windows. On April 2, 2024, the City Council reviewed the appeal, conducted a public hearing, and made a motion for staff to bring back a resolution with the requisite findings granting the appeal (Attachments 2 and 3).

Following the April 2 City Council meeting and throughout May 2024, staff coordinated with the appellant to engage a qualified historical professional to prepare a comprehensive historic resource assessment report of the subject property. In July 2024, the appellant secured contract services with Ackley Consulting. Ms. Laura Ackley, who is a certified architectural historian consultant under the California Historic Resources Information System, performed in-depth research and compiled necessary information for three months to prepare the comprehensive assessment report.

Analysis/Findings for Granting Appeal

[1] April 2, 2024 City Council Meeting Agenda (Item 22.A): https://granicus_production_attachments.s3.amazonaws.com/benicia/289134575cdf84da4b51c7f95a6860220.pdf

The Historic Resource Investigation Memo (Exhibit A) was submitted to the City in late 2024. The City reviewed the report and coordinated with the qualified professional over the course of several months. The report concludes that the Department of Parks and Recreation historic survey for the structure located at 106 West J Street is incorrect, and that the structure is not qualified as a historic resource or landmark, due to extensive loss of historic integrity and architectural character, with numerous architectural modifications since the 1900s. Thus, the vinyl window replacement should not be evaluated for consistency with the Secretary of Interior's Standards for rehabilitation pursuant to the CEQA and instead is statutorily exempt because of the "common sense" statute, Section 15061(b)(3), which stipulates that CEQA applies only to projects which have the potential for causing a significant effect on the environment. The assessment concluded that the replacement of windows on a structure that has lost its historic integrity presents no possibility that the project may have a significant effect on the environment.

NEXT STEPS:
If the Council grants the appeal, the property owner would need to apply for a building permit for the replaced windows.

ALTERNATIVE ACTIONS:
The Council may deny the appeal and uphold the Planning Commission's decision.

CEQA Analysis	The activity is covered by the "common sense" exemption (Section 15061(b)(3) that applies only to projects which have no potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA.

RESOLUTION NO. 25-___

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BENICIA GRANTING THE APPEAL OF A PLANNING COMMISSION DECISION UPHOLDING THE DECISION OF THE HISTORIC PRESERVATION REVIEW COMMISSION DENYING A DESIGN REVIEW APPLICATION FOR 106 WEST J STREET

WHEREAS, on February 27, 2023, the applicant and property owner, Steffan Schulz, submitted an application for design review after-the-fact to replace upper story windows on the "New" Benicia Masonic Lodge structure located at 106 West J Street (APN 0089-043-090) (Project); and

WHEREAS, the Benicia Masonic Lodge is distinguished between "Old" and "New"; and

WHEREAS, the "New" Benicia Masonic Lodge is the subject of this appeal and is addressed as both located at 935 First Street and 106 West J Street; and

WHEREAS, the property owner replaced eleven (11) existing aluminum windows with new triple-hung vinyl windows in December 2022 without first obtaining approval of design review pursuant to the Downtown Historic Conservation Plan (DHCP), nor issuance of a building permit pursuant to the California Building Code and subsequently applied for after-the-fact design review in February 2023; and

WHEREAS, the HPRC conducted duly noticed public hearings on October 26, 2023 and November 16, 2023, accepted public comment, reviewed the proposed Project, and found that denial of the application is exempt from CEQA as CEQA does not apply to projects which a public agency rejects or disapproves, and denied the design review for window replacement (HPRC Resolution No. 23-8); and

WHEREAS, on December 5, 2023, appellant and building owner Steffan Schulz, filed a timely appeal of the HPRC's decision; and

WHEREAS, the Planning Commission, at a regular meeting on January 11, 2024, conducted a duly noticed public hearing to consider the appeal, accept public comment, and review the proposed Project; and

WHEREAS, the appeal hearing was continued to February 8, 2024 due to the appellant's intent to provide a slide presentation as testimony to his appeal, which was not provided in advance of the hearing and therefore could not be broadcast; and

WHEREAS, the Planning Commission, at a regular meeting on February 8, 2024, conducted a duly noticed public hearing to consider the appellant's presentation, accepted public comment, and denied the appeal and upheld the HPRC's decision (PC Resolution No. 24-1); and

WHEREAS, on February 20, 2024, appellant and building owner Steffan Schulz, filed a timely appeal of the Planning Commission's decision; and

WHEREAS, the City Council, conducted a duly noticed public hearing on April 2, 2024, accepted four public comments in support of granting the appeal, and reviewed the design review application; and

WHEREAS, following the public hearing, the Council unanimously directed Staff to bring back a resolution with the requisite findings to a date uncertain granting the appeal; and

WHEREAS, Staff was also directed to prepare the necessary CEQA findings to allow the proposed vinyl window replacement, which required the applicant, at his sole expense, to provide a report by a qualified historic architect or historic librarian supporting the appropriate CEQA findings; and

WHEREAS, Ms. Laura Ackley, who is a certified architectural historian consultant under the California Historic Resources Information System (CHRIS), prepared a Historic Resource Investigation Memo in November 2024 (Exhibit A), which concluded that the Department of Parks and Recreation (DPR) historic survey for the structure located at 106 West J Street is incorrect, and that the structure is not qualified as a historic resource or landmark, due to extensive loss of historic integrity and architectural character, with numerous architectural modifications since the 1900s; and

WHEREAS, the assessment also concluded that the New Masonic Hall is exempt from the California Environmental Quality Act (CEQA) governing alterations to historic properties because of the “common sense” statute, Section 15061(b)(3), because the replacement of windows on a structure presents no possibility that the project may have a significant effect on the environment; and

WHEREAS, public notices for the continued public hearing were mailed to property owners within 500 feet of the project location on June 11, 2025, posted at City Hall on June 12, 2025, as well as published in the Benicia Herald on June 20, 2025; and

WHEREAS, the continued public hearing was held on July 1, 2025.

NOW, THEREFORE, BE IT RESOLVED THAT the City Council of the City of Benicia does hereby find that the Project is Statutorily Exempt pursuant to Section the “common sense” statute, Section 15061(b)(3), of the CEQA Guidelines, which stipulates that CEQA applies only to projects which have the potential for causing a significant effect on the environment.

THEREFORE, BE IT FURTHER RESOLVED THAT the City Council hereby grants the appeal and approves the design review permit, which thereby requires the property owner to apply for a building permit for the current upper floor vinyl windows.

*****

On motion of Council Member , seconded by Council Member , the above Resolution was adopted by the City Council of the City of Benicia at a regular meeting of said Council held on the 1st day of July 2025 by the following vote:

Historic Resource Investigation Memo

106 West J Street, Benicia CA 94510

Conducted for

Steffan Schulz: Owner, and
City of Benicia

Prepared by:

Laura Ackley
Architectural Historian, CHRIS Consultant
November 2024

Introduction

The Introduction describes the methodology utilized by Ackley Consulting to prepare this Historic Status Memo for 106 West J Street, Benicia.

Methodology

Architectural Historian Laura A. Ackley performed archival, and online historic research, as well as interviews to investigate the history and current condition of the subject property at 106 West J Street, Benicia CA using statutes and policies that have implications for preservation planning in the City of Benicia.

Sources include historic Sanborn fire insurance maps, historic newspaper articles and photographs, the Solano County Assessor-Recorder's Office, the State Office of Historic Preservation (OHP), the Secretary of the Interior's Standards for the Treatment of Historic Properties, California's Built Environment Resource Directory, Benicia's Downtown Historic Conservation Plan (DHCP) and (Downtown Mixed-Use Master Plan (DMUMP), various local, state and national documents governing description and categorization of Historic Resources and Historical District Overlays, earlier staff reports, meeting videos and presentations to the City of Benicia regarding this project.

Online resources include Solano County surveys, GIS, and Parcel information; material from online archives including the Library of Congress, the Sonoma County Library, and the Benicia Historical Library & Museum. The preparer also had conversations and with City of Benicia Planning Department staff and reviewed relevant sections of the Benicia municipal code, and relevant federal, state, and local regulations.

Preparer Qualifications

This memo was prepared by Laura A. Ackley of Ackley Consulting, San Rafael, California. Ackley exceeds the Secretary of the Interior's Professional Qualification Standards for Architectural History and History. She is listed as a certified consultant with the California Historic Resources Information System (CHRIS). Ms. Ackley holds graduate degrees from the Harvard University Graduate School of Design and the UC Berkeley College of Environmental Design, as well as an undergraduate degree in architecture from Berkeley.

Her book, *San Francisco's Jewel City: The Panama-Pacific International Exposition of 1915* was co-published by Heyday and the California Historical Society. It won a Gold Medal at the 2015 California Book Awards, a Bronze Medal for US History from the National Independent Publisher Book Awards and the Oscar Lewis Award from the San Francisco History Association.

Executive Summary of Findings Regarding 106 West J Street, Benicia, CA

This Historic Resource Investigation Memo assesses the applicability of historic preservation restrictions on the building at 106 West J Street, Benicia, CA. This "New Masonic Hall" (or Building) was finished in 1888 as the new home of the local fraternal order of Masons. It took the functional place of the ca. 1850 "Old Masonic Hall," (or Building), which is located next door at 110 West J St.

The Old Masonic Hall is a California designated landmark, while the 106 West J Street property is neither a landmark or a named historic resource. Also, its loss of integrity over the past 136 years precludes it from being declared a California Historic Resource. The property at 106 West J St. has been wrongfully named as a Historic Resource in a variety of documents dating back two decades, based on some simple errors made in 2004.

It is, however, a contributing resource to Benicia's Downtown Historic Overlay. Such "contributing resources" are accorded far more leeway in civic decisions than for individual historic resources.

At issue is the replacement of the structure's degraded, aluminum-frame windows in early 2022. The owner of the 106 West J St., Steffan Shulz, replaced these windows without a permit or review, to which he readily admits. The basic permitting issues are not within the scope of this historic assessment.

Since then, a great deal of work, both on the part of City of Benicia Staff and the owner, has been undertaken in a sincere effort to reach a consensus on the window replacement. At the April 2, 2024 City Council Meeting, a resolution was adopted to have the owner retain the services of a qualified architectural historian to evaluate the situation. This memorandum is the result of that decision.

As those familiar with the project know, the building was red-tagged as seismically unsafe for use after the South Napa Earthquake of 2014, and even considered for demolition. The building was purchased, stabilized and declared inhabitable. However, it remained vacant and continued to deteriorate until Mr. Schulz purchased the building in August of 2019. He immediately began a series of interior improvements. These included new flooring and fully permitted new bathrooms and office spaces.

The area experienced major rain events in both 2020 and 2021, which made it clear that the existing, aluminum-frame windows had major problems. A report from 2016 noted that cracks in the stucco and masonry around the windows allowed water to enter the building. One rain event damaged the newly installed floor inside.

Many of the existing windows were loose in their apertures. Some were stuck open; others could not be opened. Piles of mortar dust had accumulated at some lower window corners. There was

significant water damage, wood rot and gapping around the existing windows. (See Figure 1and Figure 2).

At this point, Mr. Schulz decided to order and have windows installed that met the high-performance standards necessitated by his business as a multimedia producer. He did not submit the project for design review or permitting.

The findings in this report only will address the historic regulator frameworks governing this type of project on a historic contributor. They will provide definitive clarification to City and Departmental Leaders of Benicia, which show that the building at 106 West J St. is not a historic landmark using any of these criteria. It will also recommend a course of action.

This memorandum will not address the issue of the owner undertaking this project without prior and correct permitting. It will be confined to factual discussions of the building's status, and evaluating the "New Masonic Hall" per national, state, and City of Benicia regulations.

Findings Related to the 2004 Survey of 106 West J Street, Benicia, CA

Incorrect Identification of 106 West J Street as an Individual Historic Resource in the 2004 "Windshield Survey"

In 2004, a survey was undertaken to identify historic resources and contributing structures for Benicia's Downtown Historic Conservation Plan (DHCP). Several errors in the Department of Parks and Recreation Primary Record 523 forms (DPRs) for 106 West J Street and its adjacent building at 110 West J Street led to decades of confusion regarding the Historic Resource or Landmark statuses of 106 and 110 West J Street.

- The "Old Masonic Building" at 110 West J Street *is* a State Historic Resource and Landmark.
- The "New Masonic Building" at 106 West J Street *is not* an individual historic resource or landmark.

The mistake in designation was the result of what were probably simple clerical errors in the 2004 survey of the Benicia's Historic Overlay District as recorded by Carol Roland of Roland-Nawi Associates: Preservation Consultants. The author of this current document holds the creators of the 2004 survey in high regard because of their reputation, accomplishments, and overall quality of this survey.

The 2004 was a "windshield survey," covering the entire area of the historic overlay district. As its name implies, this type of survey is necessarily done quickly due to the large area it must cover. Thus, it cannot treat each structure in-depth. The DHCP itself notes the methodology on Page 5: "The consultant walked and drove the downtown area to verify the location of historically significant buildings noted in the city survey which could contribute to an historic

district. The criteria for recognizing buildings as historically significant are age, architectural integrity, and architectural/historical distinction."[1]

In its conclusion, the Summary of this survey notes that 281 properties were surveyed and DPR 523 forms prepared for 243 of them. All of the research and preparation of documents occurred in October and November of 2004.[2]

Unfortunately, errors in the 2004 survey's DPR523 forms for the properties at 106 West J Street and 110 West J Street percolated through twenty years of Benicia's treatment and listings of historic resources, causing much confusion. These mistakes also resulted in the miscategorization of 106 West J Street property as an individual historic resource.

The building is defined as a contributing resource to the historic district in the resource status code assigned by Roland-Nawi Associates on its 2004 DPR. This is important because per Benicia's Downtown Historic Conservation Plan (DHCP), changes to contributing resources may be treated with more leeway than those to designated landmarks.

Errors in the 2004 Survey Recording of 106 West J. St.

A number of critical errors were made in the 2004 Survey of the building. Here are some of the most significant:

1) The most serious mistake is that the individual Primary Records (DPRs) for both106 West J Street and 110 West J Street were assigned the same Parcel Number (APN) in the 2004 Document even though they are two different parcels. They are both listed as APN 89-043-090. This mistake was promulgated from both the individual DPRs for the two properties, and also in the City of Benicia Downtown Historic Conservation Plan (DHCP).
    a) 89-043-090 is the correct parcel number for the subject property of this memo,106 West J Street.
    b) The correct Parcel Number for 110 West J Street, the historic Old Masonic Hall, is 89-043-080
    c) This memo took into account that the two properties might have shared a single lot at the time of the 2004 survey. This possibility was researched through the Solano County Assessor-Recorder. That office was able to provide their earliest scanned Parcel Map, from 1966. This map (See Figure 3), illustrates that the parcels were separate prior to 1966.
2) Incorrect street number for 110 West J Street in the Primary Record (DPR523). The address of the "Old Masonic Temple" is wrongly as 106 West J Street, despite the fact that the street address on the building, 110, is clearly visible in the photograph on the DPR form. This has led to many City documents that cite the "New Masonic Building" at 106 West J Street as a landmark when it is not.

There is ample evidence of its 2004 DPR incorrect address assignment. The correct address for the Old Masonic Temple at 110 West J Street is listed in the National Register of Historic Places, the California Register of Historical Resources, the Benicia Downtown Mixed-Use Master Plan, as well as the Benicia Historical Society's Historic Downtown Benicia Walking Tour. There is an engraved metal plaque on a plinth in front of the building citing its status as a California Historical Landmark.

3) Incorrect street number for 106 West J Street in the Primary Record (DPR523). The building is identified as 935 First Street rather than 106 West J Street. Because of this mistake, it is difficult to find the "real" 106 West J Street on City documents. Research has proven the address encompassing the full building is 106 West J. Street. Details uncovered in this research include:

   a) This consultant believes that the individual addresses of the three shopfronts along of the ground floor facing First Street, including the "935" address, were assigned to facilitate mail delivery to the businesses therein. However, the actual address of the entire building is 106 West J. St. The building is treated as a sole structure in all current legal documents.

   b) The existing numbers for the three commercial sub-units along this east-facing street frontage have changed over time. The 1891 Sanborn Insurance Map lists the three ground floor units as 3, 2 and 1 (south to north). The 1913 Sanborn Map lists them as 933, 937 and 999 First Street. (See Figure 4) Other buildings in the area are similarly arranged.

   c) The northern and southern storefronts on the ground floor still have different addresses. The southernmost is labeled "929" in modest letters, the middle bay is assigned 931, and while northernmost is crowned by a large number "935" above its main windows. (See Figure 5).

   d) The building is typical of a Benicia Street Wall Commercial Parapet Building, as defined in the DHCP, with private space on the second floor, the address of the entire building appears on all of the land transfer documents, as 106 West J St.

   e) It was evaluated as a single structure in the 2004 Survey. The survey notes: "Like many fraternal buildings of this period it was occupied on the lower story by retail spaces with the fraternal organizations offices and ceremonial spaces reserved to the second floor."[3]

   f) The Solano County Assessor-Recorder defines the entire building as "Mixed Use Commercial & Residential," thus defining the multiple uses of the single structure.

   g) There are no records of the ground floor addresses in the Solano County Assessor-Recorder's office because they are part of the 106 West J Street building.

This evidence should resolve any lingering questions about the identification of the two properties.

Loss of Integrity at 106 West J Street

The Roland-Nawi Associates Survey of 2004 identifies 106 West J St. by its correct APN, 89-043-090, in its documentation. This APN is seen on the DPR for the building, as is a photo of the building. The DPR can be downloaded in PDF form at the link in endnote 3, noted above. The DPR reads:

"Unfortunately, the building has been substantially altered by stuccoing of the front and north facades. Other changes include the removal or covering of part of the storefront clerestory and the replacement or veneering of the lower shop walls with used brick. The building has lost a great deal of it(s) integrity as a result of these changes."

It's critical to note that many additional losses to 106 West J Street's integrity were missed in the 2004 survey. This consultant believes that these omissions were due to the speed at which survey was produced, and because many additional resources are available to researchers in 2024. Further investigation discovered an even greater degree of loss of integrity than documented in the 2004 DPR. Please see Figure 6 for a photo of 106 West J Street from around 1900.

A revised DPR would include approximately 10 other examples of loss of integrity. Just a few of these losses not noted on the 2004 DPR include:

1. 106 West J Street once possessed a massive decorative cornice. This heavily modeled feature crowned the parapet and provided a striking visual "cap" to the otherwise plain rooflines. This was perhaps the most character-defining architectural feature of the building and it has been completely removed
2. The cornice was visually supported at intervals by ornamental, paired corbels. The locations of these corbels corresponded with vertical molding strips that divided the (ground plane) between the sets of arch-topped windows on the east and north second-story facades.
3. The horizontal strip beneath the sill level of the second-floor arched windows was visually divided by masonry "panels," further emphasizing the division between the first and second stories by demarcating the height of the upper windows above the floors on the second story. These panels have been removed
4. A horizontal molding ran continuously around both the east and north façades at the height of the springing of the arched tops of the paired windows.
5. The recessed entryway at the business labeled 935 First Street has been veneered with white marble, obscuring or destroying the original windows underneath.
6. A portion of the First Street façade below the storefront windows on the First Street elevation is finished with a brick bases. Such bases are defined and even pictured in the DCHP (page 39) as examples of "Inappropriate" finishes for commercial buildings in the Benicia Historic Overlay District.

7. The three recesses for the shopfront doors on the southwest front of the building once extended vertically all the way to meet the cornice that visually indicated the division between the first and second floors. At some point, the top portion of the entire façade was fitted with a continuous band of clerestory glazing just above door level, "filling in" the upper part of the recesses. This interrupted the clear architectural demarcation afforded by the full-height entry recesses.
8. The entry to the center ground floor unit has been moved north and now directly abuts the entry to the adjacent, north unit. The original position of the entry was directly below the central double-windows on the second floor. This change represents a major loss to the building's original architecture. The original design, and the depredations to its integrity listed in points 7 and 8 can be seen in Figure 6 and Figure 7.

None of these elements is included in the DPR. The building is still regarded as contributing structure to the Downtown Historic District overlay, but its loss of integrity precludes its designation as an individual Historic Resource or Landmark at the national, state or local levels based on the regulatory frameworks for each of these.

Regulatory Frameworks for Historic Resources

This section addresses the various regulatory statutes that may apply to Benicia's Historic Overlay District overlay in general, and more specifically 106 West J Street. Of importance is that this section is ordered from the Federal Level first, then continue to the California State statutes, then those defined in Benicia's Downtown Historic Conservation Plan (DHCP) version in effect when this project was undertaken in 2021.

Federal Regulatory Frameworks

National Historic Preservation Act

"The National Historic Preservation Act (NHPA) requires historic structures that would be affected by federal projects—or by work that is federally funded—to be documented to standards issued by the Secretary of the Interior. Each state would now have its own historic preservation office and was required to complete an inventory of important sites.[4] Eligibility for the National Register of Historic Places Act was defined under code 80 Stat. 915, 16 U.S.C. 470 et seq. It specifies that districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, engineering, and culture should be evaluated for potential listing in the national register."[5] Properties eligible for consideration for local or state historic designation are not eligible for the National Registry unless they meet all the criteria for the National Register as well.

National Register of Historic Places

The National Register of Historic Places (NRHP) was created under the National Historic Preservation Act of 1966. The listings are managed by the National Park Service under the Department of the Its listings comprise all identified National Historic sites, including structures, objects, site, districts and linear features.

Standards for inclusion on the National Register were developed to be flexible These requirements are set forth in "National Register Criteria (Bulletin 15), and How to Complete the National Register Registration Form (Bulletin 16A).[6]

"For a property to be listed or determined eligible for listing on the National Register., it must be demonstrated as possessing integrity and meeting at least one of the following criteria. It must be demonstrated that the resource:

The quality of significance in American history, architecture, archaeology, and culture is present in districts, sites, buildings, structures, and objects that possess integrity of location, design, setting, materials, workmanship, feeling, and association, and:

A. *that are associated with events that have made significant contribution to the broad patterns of our history; or*

B. *that are associated with the lives of persons significant in our past; or*

C. *that embody the distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or*

D. *that have yielded, or may be likely to yield, information important in prehistory or history."*

Note that the overarching regulation defining the potential eligibility of a resource is that of integrity.

Virtually all state and local ordinances on Historic Resources devolve from these requirements, though some also include criteria specific to the local conditions. The California State registry is virtually identical to the National Registry, and the City of Benicia has also stated that it wishes to conform to national and state requirements, including the California Environmental Quality Act (CEQA).

While not part of the official code, review of the April 2, 2024 City Council Meeting Agenda Items focusing on 106 West J Street, and conversations with Benicia Planning Manager Jason Hade indicate that the City of Benicia's governing body wishes to align the City's historic resources criteria with the State and National regulatory frameworks.

This commitment is also stated in the City of Benicia Downtown District Survey Summary and Recommendations, which states:

"Under the General Plan for Benicia it is a City goal to maintain an inventory that will meet the standards of the National Park Service and the State Office of Historic Preservation and enable the City to become a Certified Local Government."[7]

Eligibility of 106 West J Street for the National Register

While it is arguable that 106 West J St. might possess the attributes of "type and/or period" (under criterion C) as a contributor to the overall character of Benicia's Downtown Historic District, its significance is not of a national level. Most critically, its integrity is too compromised to qualify as an individual historic resource the National Register.

The Secretary of the Interior's Standards for the Treatment of Historic Properties (SOIS)

The U.S. Secretary of the Interior has established standards for the treatment of historic properties. The 1995 Secretary of the Interior's Standard for the Treatment of Historic Properties document outlines specific standards and guidelines for the preservation, rehabilitation, restoration, and reconstruction of historic properties. Unless a structure is undergoing a grant-in-aid project or applying for tax incentives, these standards are not regulatory.

"The Secretary of the Interior's Standards for the Treatment of Historic Properties are regulatory only for projects receiving Historic Preservation Fund grant assistance and other federally-assisted projects."[8]

The window replacement project at 106 West J St. did not request or receive federal funding or assistance, therefore the Standards are not regulatory for the replacement. Further, the National Park Service states:

"It is important to note that the Standards are not intended to be prescriptive, but instead provide general guidance. They are intended to be flexible and adaptable to specific project conditions to balance continuity and change, while retaining historic materials and features to the maximum extent feasible. Their interpretation requires exercising professional judgment and balancing the various opportunities and constraints of any given project. Not every Standard necessarily applies to every aspect of a project, nor is it necessary to comply with every Standard to achieve compliance as a whole."[9]

The windows replaced at 106 West J Street were not historic, therefore the Secretary of the Interior's Standards are not applicable, and there was nothing to retain.

And finally:

"These guidelines have no regulatory effect"[10]

These federal stipulations, in addition to the fact that the building is not in itself a historic resource, but a contributor to a district, render 106 West J Street exempt from The Secretary of the Interior's Standards.

State Regulatory Frameworks

California Register of Historical Resources

Qualifications for inclusion on the California Register of Historical Resources (CRHR) are almost entirely derived from the national standards, generally substituting "California" for "National." Guidelines for inclusion on the State Register are set forth in the California Office of Historic Preservation's "Technical Assistance Bulletin No. 7: How to Nominate a Resource to the California Register of Historical Resources." These are:

"An historical resource must be significant at the local, state, or national level, under one or more of the following four criteria:

1. *It is associated with events that have made a significant contribution to the broad patterns of local or regional history, or the cultural heritage of California or the United States;*
2. *It is associated with the lives of persons important to local, California, or national history;*
3. *It embodies the distinctive characteristics of a type, period, region, or method or construction, or represents the work of a master, or possesses high artistic values; or*
4. *It has yielded, or has the potential to yield, information important to the prehistory or history of the local area, California, or the nation.*

In addition to having significance, resources must have integrity. Integrity is the authenticity of an historical resource's physical identity as evidenced by the survival of characteristics or historic fabric that existed during the resource's period of significance. To be eligible for listing, resources must retain enough of their character or appearance to be recognizable as historical resources and convey the reasons for their significance. Historical resources that have been rehabilitated or restored may be evaluated for listing."[11]

Again, the property at 106 West J Street in Benicia is rendered ineligible for individual nomination to the CRHR due to its loss of integrity.

Eligibility of 106 West J Street for California Register

While it is arguable that 106 West J St. might possess the attributes of "type and/or period" as a contributor to the overall character of Benicia's Downtown Historic District, its significance is not of a national level and its integrity is too compromised to qualify for the CRHR without a full rehabilitation or restoration.

California State Landmarks

Designated California Historical Landmarks are numbered sequentially as they are listed by the State Historical Resources Commission. California Historical Landmarks numbered 770 and above are automatically listed in the California Register. According to California Public Resources Code (PRC) § 5031(a), to be eligible for California Historical Landmark designation, a property must be of statewide historical importance and must demonstrate its statewide significance by meeting one of the following three requirements:

1) *The property is the first, last, only, or most significant historical property of its type in the region;*

2) *The property is associated with an individual or group having a profound influence on the history of California;*

3) *The property is a prototype of, or an outstanding example of, a period, style, architectural movement, or construction, or if it is one of the more notable works, or the best surviving work, in a region of a pioneer architect, designer, or master builder.*

The 106 West J Street building does not meet any of these criteria.

California Environmental Quality Act

The 2021 window replacement project at 106 West J Street is exempt from The California Environmental Quality Act (CEQA). CEQA is state legislation (codified at Public Resources Code [PRC] § 21000 et seq.). The law is intended to inform government decisionmakers and the public about the potential environmental effects of proposed activities and to prevent significant, avoidable environmental damage.[12]

For CEQA purposes, is exempted under the "common sense" statute. This regulation stipulates that CEQA applies only to projects which have the potential for causing a significant effect on the environment. The simple replacement of windows presents no possibility that this project may have a significant effect on the environment; therefore, the activity is not subject to CEQA.[13]

Not only is this finding of the exemption objectively correct, it will also save the City of Benicia, as Lead Agency, a costly series of required steps, including commissioning an Environmental Impact Report. (Article 5. Preliminary Review of Projects and Conduct of Initial Study, CEQA Guidelines secs. 15060 TO 15065).

The California Built Environment Resource Directory (BERD)

The California Built Environment Resource Directory (BERD) is designed to capture an up-to-date list of resources either currently on or eligible for the California Register. Due to the ever-changing nature of the historic preservation landscape, it is not canonical. However, by comparing the absence of properties included on the list with properties on the list that were surveyed at approximately the same time, it is possible to discern whether the subject property is regarded as an historic or potential historic resource. There are 105 Benicia properties on the

current BERD. The following table includes all the Benicia properties listed in the Solano County section of the BERD. The data has been reformatted for legibility in this report, but has not been edited. (See Figure 8).

The Old Masonic Hall at 110 West J Street is listed as a Historic Landmark. The New Masonic Hall is not listed.

Local Regulatory Frameworks

Benicia Downtown Mixed-Use Master Plan (DMUMP)

The Benicia Downtown Mixed-Use Master Plan (DMUMP) was adopted by the City of Benicia in September 2007. It provides a focused look at issues and opportunities related to land use and physical development within Benicia. The DMUMP includes sections that overlaps with the Benicia's Downtown Historic Conservation Plan (DHCP). For instance, the Old Masonic Hall is listed in the DMUMP as a landmark building, including its correct address. However, the DHCP is the overarching document regarding Historic Preservation within Benicia.

The Downtown Historic Conservation Plan

The City of Benicia has adopted a set of design guidelines for its locally designated historic districts. These guidelines are set forth in the Downtown Historic Conservation Plan, or DHCP. For this report, the version of the DHCP in effect at the time of the project, 2021, will be used.

The DHCP, originally produced in 1990 and revised several times since, is of excellent quality, having Sally B. Woodbridge as one of its lead authors. The late Ms. Woodbridge was a highly respected Bay Area historian and author of several books that have become definitive research sources.

The DHCP starts by summarizing the historical development of the built environment of Benicia, and goes on to discuss the reason for, purpose and background of the plan itself. The document then describes some of the types of historic buildings common in Benicia. The New Masonic Hall is of "Type 1: Street Wall Buildings with Parapet," per the DHCP.

The DHCP's section on methodology again echoes the criteria for national- and state-eligible historic buildings. It says, "The second criterion, architectural integrity, requires that buildings retain enough of their original materials and stylistic character to convey a strong impression of their period. Those buildings which, through alterations, additions, and deterioration no longer convey a strong impression of their style or period have lost their integrity."[14]

To correctly assess the 106 West J St. building, its status as a contributing structure in the Downtown Historic Overlay must be confirmed. As described in detail earlier in this report, its status is made clear in the 2004 Roland-Nawi Associates survey, which assigned the building a "contributing," (not a "historic resource" or "landmark") resource code. This is the survey utilized by the current DHCP, and is definitive.

The City of Benicia Downtown Historic District Survey and Recommendations states: "Landmarks are defined as buildings which are recognized through listing on a national or state register or list or which were identified as Landmarks in the Benicia Historic Survey. Potential Landmarks were defined as buildings which needed more research. Contributing buildings were defined as buildings of an age and/or [that are] representative of common styles and building types in the district, but which are not outstanding enough to merit individual recognition."[15]

The DPR for 106 West J St., which, as shown previously, features the correct APN and a photo of the correct building in the DPR, but the wrong address of 935 First St.

Benicia's list of "Downtown Historic Properties" lists the New Masonic Building, with its correct APN, 89-043-090, as a contributing resource, but again uses the incorrect address.[16] (See Figure 9, where the New Masonic Building listing is indicated with a red box). This entry is labeled "C" for "contributing.

DHCP Guidelines:

The DHCP provides guidelines for any changes to buildings in Benicia historic overlay districts.

Although most alterations to buildings within such a district, some were exempted within the DHCP. While these alterations still required appropriate permitting, which was not obtained before this project, some were exempt from the design review process.

"Applicability and Exemptions

The policies outlined above with respect to the design review process apply equally to individual designated landmark properties as well as all structures and sites in designated historic districts. Replacement of existing building features or elements with identical ones and routine maintenance are exempt from design review as are repairs of emergency nature to rehabilitate an unsafe building. Painting is administrative review for nonhistorical single-family residences and duplexes in the Central Area only. The following are specific examples of routine maintenance and repairs which are exempt from design review. These examples apply only to designated historic structures.

- Painting
- Reroofing with the same material
- Replacement of existing siding or trim or siding or trim of the same material and appearance
- Replacement of existing windows or doors with windows or doors of the same dimension, finish and overall appearance
- Other repairs or replacements as determined by planning staff."[17]

Applicability and Exemptions

The policies outlined above with respect to the design review process apply equally to individual designated landmark properties as well as all structures and sites in designated historic districts. Replacement of existing building features or elements with identical ones and routine maintenance are exempt from design review as are repairs of emergency nature to rehabilitate an unsafe building. Painting is administrative review for non-historic single-family residences and duplexes in the Central Area only. The following are specific examples of routine maintenance and repairs which are exempt from design review. These examples apply only to designated historic structures.

- Painting
- Reroofing with the same material
- Replacement of existing siding or trim or siding or trim of the same material and appearance.
- Replacement of existing windows or doors with windows or doors of the same dimension, finish and overall appearance
- Other repairs or replacements as determined by planning staff.

Exemptions provisions for windows with requirements in the Benicia DHCP

Note: This provision, which was present in the contemporary version of the DHCP available when the project was undertaken, has now been removed. Interpretation of this project should be considered in light of the then-current DHCP.

The replacement vinyl windows exactly duplicated the older aluminum windows' dimensions and overall appearance. Although the finish could not be anything but different given the differing materials, the change in the appearance of the windows is virtually undiscernible.

Photos taken before and after the 2022 window replacement, including images from Google Street View in 2007, 2008, 2011, 2016, 2018, 2019, 2021 and 2023 show that they are nearly indistinguishable.

The DHCP also features design guidelines for historic structures and structures that contribute the historic district. The document stipulates that (the guidelines) "are applicable to all landmarks and potential landmarks, to contributing buildings and to potentially contributing buildings to the extent that it is still feasible to implement them. Therefore, their application to this last group of buildings would be more discretionary."[18]

This is a crucial statement. First, it notes that guidelines are to be applied as "it is still feasible to implement them." It was no longer feasible to replicate the unknown original windows. The

composition, design, construction techniques and finish of the original 1888 windows is not known. Although it is not pertinent to the replacement windows discussed here since the project is exempt from SOIS, The Secretary of the Interior's Guidelines caution against speculative reconstruction. For replacement of missing features, the guidelines recommend against

"Creating an inaccurate appearance because the replacement for the missing feature is based upon insufficient physical or historic documentation; is not a compatible design, or because the feature did not coexist with the features currently in the setting."[19]

Appendix Six to the Secretary of the Interior's Standards also asserts that "Replacement of missing features will be substantiated by documentary and physical evidence."[20]

The cited DHCP text also underscores that if a Benicia building is not eligible for landmark status, it can be treated with more flexibility. These provisions relate to the guidelines in the Benicia Municipal Code 17.108.030(B)—Review Responsibilities in an H Historic Overlay District.

Relevant Local Meetings and Documents

On August 26, 2021, a few months before the windows were installed, a Staff Report was presented to the city's Historic Preservation Review Commission. A portion of that report addressed window replacements in historic resources:

"To date, the City has not been able to conclude that replacement vinyl or aluminum clad windows can replicate the "dimension, finish and overall appearance" of wood windows. Recent advances in material technology have resulted in alternate window materials that present durability advantages, can closely match the appearance of wood windows, and may meet the guideline requirements for a painted finish. Accordingly, the HPRC has recently approved composite replacement windows for properties that are considered Historic District contributors in the Downtown Historic District, in a limited application. However, the unique factors of these windows, such as whether the specific model may retain paint or may accommodate the addition of an ogee lug to match the historic appearance, require a level of review and discretion beyond what might otherwise be appropriate for an exemption."[21]

The windows at 106 West J Street had already undergone significant loss of integrity before their replacement in 2022, and it would not be possible to restore them to their appearance during the building's "period of significance," defined the DHCP as 1847-1940. The windows installed prior to their 2022 replacement were already aluminum replacements of the originals. The original windows were almost certainly made of wood. Unfortunately, there is insufficient documentary or photographic evidence to determine the exact type, design details or construction techniques used in the original windows. Replications of these are necessary for adherence to historic preservation standards. The current owner of 106 West J Street exactly duplicated the rail and stile configuration of the lower, rectangular windows present when he purchased the building.

The features around and above the new windows are historic. The existing wood exterior casing is quite deep and elaborate. This casing is old, possibly original and was not disturbed in the window replacement. Nor were the smaller lites in the arch above the main windows. Those panes also may be original, or perhaps only the glass has been replaced as necessary within the existing muntins. Because of these two factors, only the outside frames and central stile of the new, replaced windows are visible from the street. Because these are set deep within their historic frames, they comprise a fraction of the entire section of the window installation and are commensurately unobtrusive. (See Figure 10Figure 11).

Most Recent Hearing Regarding the Project, April 2, 2024

The project was discussed most recently in a City Council Meeting on April 2, 2024. After a thorough and detailed discussion and public comments that were universally supportive of retaining the new windows, the City Council resolved that the owner should retain a qualified architectural historian to evaluate 106 West J Street, primarily with regard to its possible exemption from the Secretary of the Interior's Standards for Treatment of Historic Properties (SOIS). This was agreed to by all parties.[22]

Conclusions and Recommendations

Through use of the National, State and City of Benicia regulatory frameworks, it can be determined that 106 West J St. does not qualify as an individual historic resource. It lacks features that qualify it for local, state or national registers. Further and most critically, it has experienced substantial degradation of its integrity since its Period of Significance, rendering it ineligible for consideration for registry status. It is, however, a contributing resource to the Benicia Downtown Historic Overlay.

Conclusions

This report has shown the following:

1) Detailed investigation uncovered and explained clerical errors in the 2004 Roland-Nawi Associates Benicia Downtown Historic District survey were promulgated through City records for the past 20 years. These errors included failure to accurately assign the correct, distinct Parcel Numbers to the two adjacent plots at 106 and 110 West J Street

2) The survey also assigned the incorrect addresses to both the Old Masonic Hall at 110 West J Street and the New Masonic Hall at 106 West J Street

3) Extensive loss of integrity at 106 West J Street was described, including substantially more deterioration and loss of architectural character than was documented in the 2004 survey

4) The "New Masonic Hall" building at 106 West J Street, Benicia, CA is not included, nor eligible to be included on the National Register of Historic Places. As such, it is not subject to requirements imposed by inclusion on the National Register

5) The property is exempt from evaluation under The Secretary of the Interior's Standards for the Treatment of Historic Properties (SOIS). It is exempt because: no stakeholder is applying for federal monies to support the project, it was not feasible or even possible to retain historic materials on the windows because they had already been replaced with non-historic windows, the SOIS guidelines are not regulatory, and Benicia's "New Masonic Hall" is not a listed individual historic resource at any level

6) The "New Masonic Hall" building at 106 West J Street, Benicia, CA is not included, nor eligible to be included on the California Register of Historical Resources (CRHR). Thus, it is also not bound by rules encompassing resources on the state register.

7) The "New Masonic Hall" building at 106 West J Street, Benicia, CA is exempt from the California Environmental Quality Act governing alterations to historic properties because of the "common sense" statute

8) The "Old Masonic Hall" building at 110 West J Street, Benicia, CA is listed on both the National Register and the California Register. It is also included in the California Built Environment Resource Directory (BERD)

9) The "New Masonic Hall" building at 106 West J Street, Benicia, CA currently is not included in The California Built Environment Resource Directory (BERD)

10) The "New Masonic Hall" building at 106 West J Street was designated as a contributing resource to the Benicia Downtown Historic Overlay District in the 2004 Roland-Nawi Associates Survey. Subsequently, it was entered under the wrong address on the list of Benicia's Downtown Historic Properties

11) The "New Masonic Hall" building at 106 West J Street is subject to the provisions of the Benicia Downtown Historic Conservation Plan governing "contributing resources" to the Downtown Historic District Overlay

12) In its memo of August 26, 2021, Benicia's Historic Preservation Review Commission acknowledged that "advances in material technology have resulted in alternate window materials that present durability advantages, can closely match the appearance of wood windows, and may meet the guideline requirements for a painted finish," and that such materials could be considered appropriate for historic structures

Recommendations

1) As the "New Masonic Hall" building at 106 West J Street is a contributing resource to a district, not an individual historic resource, civic authorities can treat it with greater flexibility than buildings that are distinguished as unique historic resources

2) The "New Masonic Hall" has undergone a major loss of integrity, and details of the original details, designs and exact materiality is not known. Further, the windows replaced in 2022 were defective and ahistoric. Thus, it is not feasible to return the windows to their original state. The change in the appearance of the building following installation of the new windows is nearly undetectable due to the close adherence to the dimensions, color and overall appearance of the prior windows, in addition to their placement within deep, detailed and historic apertures. For these reasons it is recommended owner should be allowed to retain the likely superior performing windows, which adhere to almost all of the DHCP's requirements, excepting "finish," because they are not aluminum windows. However, the city's own past Historic Preservation Review Commission was already supportive of the potential use of high-performing composite-material windows. So, it is recommended that the new windows not be rejected on the basis of material

3) Based on the discoveries in this report, the supporting documentation, and the discussions at the Benicia City Council Meeting on April 2, 2024, this consultant recommends that the owner be allowed to retain the windows installed in 2022. These windows certainly provide better protection for the contributing resource building than the previous, non-historic windows; and are virtually identical in appearance

4) The owner of 106 West J Street, Benicia CA should work with the City to apply for a retroactive permit and work in cooperation with the City to determine the cost of such a permit

5) New Primary Record (DPR523) forms should be created for both 106 and 110 West J Streets; the "New" and "Old" Masonic Halls. Any copies of the factually incorrect forms should be removed from the City's online presence, and filed hardcopies should be marked as superseded

6) The City's list of Downtown Historic Properties should be edited so that the "Old Masonic Hall" at 110 West J Street is correctly listed as a landmark. The address of the "New Masonic Hall" should be corrected to be 106 West J Street, and retain its designation as a contributing resource

7) An effort should be made to correct the various online resources that have used the incorrect addresses for the two buildings. All references to the "Old Masonic Hall" should be corrected to 110 West J Street, and all references to the "New Masonic Hall" to 106 West J Street

In conclusion, this consultant would like to restate that it is abundantly clear that both the owner and the City of Benicia's representatives have spent many hours and much effort to produce clear and detailed documentation and analysis for the project at 106 West J Street. These resources were very helpful, as will be evident in the endnotes to this document. I would like to offer my thanks and appreciation for all of the work you have done.

AGENDA ITEM
CITY COUNCIL MEETING DATE – APRIL 2, 2024
BUSINESS ITEM

TO : City Manager

FROM : Community Development Director

SUBJECT : **APPEAL OF A PLANNING COMMISSION DECISION ON A DESIGN REVIEW APPLICATION FOR 106 WEST J STREET**

EXECUTIVE SUMMARY:

The property owner, Steffan Schulz, has proposed an after-the-fact design review approval of eleven (11) triple-hung Unplasticized Polyvinyl Chloride (UPVC) vinyl windows, on the front (north) and side (east) façades, at the second story of the building. The structure is designated as a historic resource (landmark) in the Downtown Historic Conservation Plan (DHCP).

Following denial of the application by the Historic Preservation Review Commission (HPRC) on November 16, 2023, and denial of the appeal by the Planning Commission on February 8, 2024, the property owner (appellant) filed an appeal of the Planning Commission's decision on February 20, 2024. The appeal was filed in accordance with Chapter 1.44 of the Benicia Municipal Code (BMC).

RECOMMENDATION:

Adopt a resolution (Attachment 1) denying the appeal and upholding the Planning Commission's decision to uphold the HPRC decision to deny the Design Review application for 106 West J Street, after a public hearing and determination that the action is exempt from CEQA.

BUDGET INFORMATION:

Approval or denial of the design review application would not have a direct budgetary impact.

PUBLIC NOTICING:

The appeal of the Planning Commission's decision was submitted on February 20, 2024. BMC Section 1.44.090 (Notice of appeal, rehearing or review), BMC section 17.108.040(C)(2) (Notice and public hearing), and California Government Code Section 65091 govern the noticing requirements for this appeal. Accordingly, notice provided as follows:

February 20, 2024	Appeal was submitted.
February 22, 2024	The appeal was deemed complete.
March 8, 2024	Notice posted within City Hall.
March 15, 2024	Notice posted at the project site.
March 17, 2024	Notice posted in the Benicia Herald.
March 22, 2024	Public hearing notices were mailed.
April 2, 2024	Public hearing before the City Council

In accordance with BMC Chapter 1.44, the City Council's decision is final.

PROJECT DESCRIPTION:

The masonry historic landmark building known as the "New" Masonic Lodge, was constructed circa 1900, and addressed as 935 First Street for the purposes of preparing the City's Department of Parks and Recreation (DPR) historic property survey form in 2004. 106 West J Street is addressed and located on the upper floor of "New" Masonic Lodge at 935 First Street, as specified in the Clarifying Memo re: 106 West J Street & 935 First Street (dated October 23rd, 2023) (Attachment 2).[1]

The subject property is a historic commercial and masonic lodge building located at the southwest corner of First Street and West J Street. The property is bounded by commercial and assembly uses. The site is relatively flat with a small landscape area along the front façade. Two mature canary island date palm trees are located on the West J Street frontage along with a historical marker. The property adjoins an alley and the original historic Masonic Temple building along the rear property line and provides paved parking for approximately three vehicles.

Figure 1 – Location Map

[1] The "New" Masonic Lodge is part of a Masonic Lodge complex, which includes the "Old" Masonic Lodge structure, which was constructed circa 1850, and is an adjacent Greek Revival historic landmark building located at 110 West J Street.

In 2022, the applicant replaced existing upper floor aluminum windows with new vinyl windows without first receiving design review approval. The design review application was submitted on February 27, 2023 to comply with the design review requirements of the historic district.

Figure 3 – 106 West J Street (Present Day Image)

Figure 4 – Pre-Window Replacement (left) and Post-Window Replacement (right) front elevation (fronting First Street)

Figure 5 –Pre-Window Replacement (left) and Post-Window Replacement (right) side elevation (fronting West J Street)

Historic Property Information

The subject property is designated as a Historic Landmark Building in the Downtown Historic Conservation Plan (DHCP). Descriptions of the structure were provided as part of the survey process for the Downtown Historic District provided by Roland-Nawi Associates (see DPR Form 523A, Attachment 3):

> "The Masonic Lodge is a two-story rectangular plan building of imposing proportions. Like many fraternal buildings of this period it was occupied on the lower story by retail spaces with the fraternal organizations offices and ceremonial spaces reserved to the second floor. The building has a flat roof. It is visually divided into three bays by vertical trim details. This emphasizes the building's organization into three shop spaces at the first floor level and three symmetrically arranged banks of long arched windows above.

The elongated front upper story windows have six lights and are emphasized by applied terra cotta arches which have been covered on the front by stucco. The north façade of the building repeats the tripartite window arrangement on the second story with small terra cotta trimmed window openings on the first floor. The lower shops each have a recessed entry and canted display windows. A vertically emphasized clerestory above the shop windows has been partially covered. The building is of brick masonry construction, but has been partially stuccoed. The blank brick south elevation indicates that at the time of its design and construction it abutted directly against another building."

Various historic images of the building are provided for reference, below.

BACKGROUND:

Chapter 1.44 BMC provides procedures for appeals and states that an appeal of a decision of the HPRC shall be made to the Planning Commission. Similarly, an appeal of a decision of the Planning Commission shall be made to the City Council. An appeal hearing shall consist of a new (i.e., *de novo*) hearing on the matter based on the following evidence:

1. Any relevant evidence, including staff reports, etc., submitted at the time of the prior decision and at the appeal hearing, and
2. Findings, if any, and decision of the person or body whose decision is being appealed.

De novo review means that the City Council may weigh all evidence, documentation, recommendations, and comments anew and need not determine whether the Commissions decided erroneously. Additionally, Section 1.44.040(E) of the BMC states that, "if the original decision being appealed involved issuance of any permit, license, or other entitlement or approval or requested some action by the city, the applicant for the original decision shall have the burden of proof to support the granting of the requested issuance, approval, or action at the appeal." The applicant for the original decision is the property owner, Steffan Schulz.

A brief summary of the design review hearing and first appeal hearing are described below, followed by an analysis of the appeal to the City Council that is the subject of this hearing.

Design Review in the Downtown Historic District

The HPRC is responsible for conducting design review of restoration, remodeling, and development projects in historic overlay zones in accordance with the Benicia Municipal Code (BMC) and the Secretary of the Interior's Standards for the Treatment of Historical Properties. The HPRC is required to ensure that these projects comply with the criteria in the general plan as well as the adopted historic conservation plans for each district, and must support its decisions with specific findings based on these criteria. The DHCP is the adopted historic conservation pertaining to the subject property. The DHCP provides design guidelines that address various aspects of historic preservation, rehabilitation and integrity, including façade elements, details, materials, and colors. Generally, except for maintenance and repair activities, exterior alterations to properties within the district must be reviewed for consistency with the adopted design guidelines of the DHCP.As stated above, consistency with the DHCP is a required finding for the approval of exterior alterations in the Downtown Historic District.

Additionally, the BMC requires that projects conform to the stated purposes of design review provided in section 17.108.010:

A. Ensure that the location and configuration of structures are visually harmonious with their sites and with surrounding sites and structures, and do not unnecessarily block scenic views from other buildings or public parks or dominate their surroundings to an extent inappropriate to their use;
B. Ensure that the architectural design of structures, their materials and colors are visually harmonious with surrounding development and with the natural landforms and vegetation of the areas in which they are proposed to be located;
C. Ensure that plans for the landscaping of open spaces conform with the requirements of this title, and that they provide visually pleasing settings for structures on the site and on adjoining and nearby sites and blend harmoniously with the natural landscape;
D. Prevent excessive and unsightly grading of hillsides, and preserve natural landforms and existing vegetation where feasible;
E. Ensure the provision of adequate, safe and efficient parking and circulation areas, which conform to the requirements of this title;
F. Provide a functional, efficient, and attractive site design which is sensitive to existing uses in the area and to the topography and conditions of the site;
G. Ensure that new development is consistent with specific design guidelines developed for use within the community, where applicable, and to any specific plan or planned development plan.

BMC Section 17.54.100.B states that the HPRC shall “consider the proposed […] alteration in the context of […] the architectural or historical value and significance of the site and structure in relation to the overlay district.” These considerations shall include the visual relationship of proposed architectural design elements to the surrounding area, including scale, height, rhythm of spacing, pattern of windows and doorways, building siting and relationship to landscaping, roof pitch, architectural style, and structural details, materials, colors, and textures.

The applicable guidelines of the DHCP can be found in the guidelines for Type 1 and 2 Commercial Buildings (Policy 1: Scale, Proportion and Façade Composition) and Historic Buildings (Policy 3: Integrity of Materials and Policy 4: Appropriate Materials, Color and Finishes). The most applicable guidelines are provided by reference below and as an excerpt in Attachment 4:

Guideline 1.5 for Type 1 and 2 Commercial Buildings
Guideline 3.3 for Historic Buildings
Guideline 4.1 for Historic Buildings
Guideline 4.2 for Historic Buildings
Guideline 4.3 for Historic Buildings

Proposed rehabilitation projects must also be reviewed for consistency with the Secretary of the Interior's Standards for Rehabilitation, pursuant to the California Environmental Quality Act (CEQA). The Standards are a series of concepts for maintaining, repairing, and replacing historic materials, as well as designing new additions or making alterations. The Standards for Rehabilitation include:

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved.

6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property would be unimpaired.

Design Review of 106 West J Street

This project was deemed complete on September 12, 2023, and first heard by the HPRC on October 26, 2023 (see HPRC Staff report from October 26, 2023, Attachment 5). During the public hearing, staff made a presentation and recommended that the HPRC deny the project based on its inconsistency with the DHCP design guidelines and Secretary of Interior's Standards. Following the presentation, Commissioners commented on the application, noting that no conjectural features were added with the window replacement, and thus Secretary of Interior's Standard 4 could be used in staff's analysis, as Standard 4 applies only to changes to a property that have acquired historic significance in their own right to be retained and preserved. As the applicant has indicated the windows replaced due to an emergency, the Commission requested additional clarifying information regarding the nature of the emergency window replacement and building permit history, indicated that the window alterations impacted historically significant properties, and noted appropriate justification for the alterations was not provided. The HPRC continued the public hearing to November 16, 2023 (see HPRC October 26, 2023 minutes, Attachment 6).

At the November 16 meeting, the Commission heard a presentation and received additional clarification from staff, a statement from the property owner, and received public comment (see HPRC Staff report from November 16, 2023, Attachment 7). Five members of the public commented concerning the potential impacts of the denial on their ground floor businesses, as well as the community overall. The Commission generally expressed that the window alterations were inconsistent with the design guidelines of the DHCP, Secretary of Interior's Standards and required findings for approval, and concluded that the window replacement was performed without Design Review approval and without a building permit (see HPRC November 16, 2023 minutes, Attachment 8). The Commission then adopted a resolution to deny the application (approved 6-0, see HPRC Resolution No. 23-8, Attachment 9).

PLANNING COMMISSION APPEAL HEARING AND DETERMINATION:
On December 5, 2023, the property owner ("appellant") filed an appeal of the HPRC's denial of a Design Review application for exterior alterations to a historic landmark structure at 106 West J Street to the Planning Commission (see Appeal Application (to Planning Commission), Attachment 10). The Planning Commission reviewed the appeal of the HPRC's decision to deny the Design Review application for 106 West J Street during their regular meetings of January 11, 2024 and February 8, 2024 (see Planning Commission Staff Report from January 11, 2024 and Planning Commission Staff Report from February 8, 2024, Attachments 11 and 12.

The basis of the appeal is listed below in numerical order; staff analysis, which was provided to the Planning Commission in their review, follows as indicated in italicized text:

1. HPRC Chairman Brandon Marshall failed to recuse himself despite being previously contracted by applicant, with monetary compensation for design plans on an earlier renovation project on the property in question.

   Staff Analysis: Upon consultation with the City Attorney's office, it was determined that Chair Marshall was not required to recuse himself from participation on this matter under the Political Reform Act and the implementing regulations promulgated by the Fair Political Practice Commission.

2. Omission of primary reason for emergency placement as stated in the initial permit request submitted on February 27, 2023, which sited DHCP "Design Review Procedures," section "Applicability and Exemptions" stating " ... Replacement of existing windows or doors with windows or doors of the same dimension, finish and overall appearance."

   Staff Analysis: The HPRC determined that the alterations included in this window replacement project do not conform to the findings of approval for Design Review projects in the Downtown Historic District, and were performed without consultation with the City and without a building permit. The DHCP language applicable to exemptions, which was in effect at the time of the replacement and subsequent application, specifically stated: "Replacement of existing building features or elements with identical ones and routine maintenance are exempt from design review as are repairs of emergency nature to rehabilitate an unsafe building." The replacement windows (aluminum to white vinyl) were not of the same materials or overall appearance. Further, the replacement windows are inconsistent with the DHCP Guidelines 1.5 for Type 1 and 2 Commercial Buildings, Guideline 3.3 for Integrity of Materials on Historic Buildings, and Guidelines 4.1 through 4.3 for Appropriate Materials, Colors and Finishes on Historic Buildings. In summary, the replacement of windows was not exempt pursuant to the DHCP, nor was it completed in a manner consistent with the applicable guidelines of the conservation plan.

Concerning building safety, the City had not identified the building as unsafe. Historic resources may utilize the California Historic Building Code which is intended to save California's architectural heritage by recognizing the unique construction problems inherent in historical buildings and by providing a code to deal with these problems. The California Historic Building Code (CHBC) does not recognize emergency repairs outside of the City of Benicia's code official's direction. Accordingly, no existing policy or regulation would create an exemption from permitting requirements and the property owner was required to obtain a permit or declare imminent danger [threat] by contacting the City, while providing temporary safeguards until proper permitting could be obtained.

2022 CHBC Imminent Threat is defined as *"any condition within or effecting a qualified historical building or property which, in the opinion of the authority having jurisdiction (City of Benicia) would qualify a building or property as dangerous to the extent that the life, health, property or safety of the public, its occupants or those performing necessary repair, stabilization or shoring work are in immediate peril due to conditions affecting the building or property. Potential hazards to persons using, or improvements within, the right-of-way may not be construed to be 'imminent threats' solely for that reason if the hazard can be mitigated by shoring, stabilization, barricades or temporary fences."*

3. Omission of attempted repair and maintenance narrative and imagery as included in Permit request submitted February 27, 2023. Activities required by BMC 17.54.120.

   Staff Analysis: The alterations to the historic landmark building are not consistent with the Conservation Plan guidelines, particularly in their use of original materials in the proposed design features, as well as performing the window replacement in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties. The replacement vinyl windows alter the features that characterize the property and further do not match the historic design, color, texture, other visual qualities and, where possible, which demonstrates inconsistency with Standard 6. This narrative information was included in both the October 26 and November 16 HPRC handout packets. Repair and maintenance imagery that was provided in the appellant's original submitted project narrative has been included as an attachment to this appeal staff report for additional reference. As shown in the historic images above (Figures 6 through 9), the historic buildings were one-over-one wood windows. The windows that have been installed are of a different material, finish, and overall appearance including in the three-pane vinyl design.

4. Omission of significant communication narrative between applicant and city during presentation suggesting applicant as "unresponsive" to city, creating a prejudicial bias to committee.

Staff Analysis: Information about Section 17.54.100.B, and Secretary of Interior's Standards for Rehabilitation was included in both the October 26 and November 16 HPRC handout packets.[2]

5. Citing general violation references of BMC Section 17.108.010B, BMC Section 17.54.100.B, and Secretary of Interior's Standards for Rehabilitation without detail, visual reference, aesthetic reference, comparison, design differences, or support for said violations.

   Staff Analysis: The alterations to the historic landmark building are not consistent with the Downtown Historic Conservation Plan (DHCP) guidelines. The project is inconsistent with Guideline 1.5 for Type 1 and 2 commercial buildings, which discourages modern window styles; it is also inconsistent with Guideline 3.3 for Historic Buildings which encourages replacement of inappropriate materials with original materials, and Guidelines 4.1 through 4.3 for Historic Buildings which express a preference for wood window sash on historic buildings but allow for substitute materials that are as close as possible in terms of outward appearance, durability, texture and finish to that of the original. The original windows were wood one-over-one style windows and replacement windows are vinyl triple-hung. Further, the project does not meet the required findings of BMC Section 17.54.100.B because it does not comply with the guidelines of the applicable conservation plan; would diminish the historic integrity of the landmark structure due to the use of inappropriate materials, design and finish; and introduces a design element that is inconsistent with the architectural style and materials of the historic district. The project is inconsistent with the purposes of Design Review as provided in BMC Section 17.108.010.B because it introduces an architectural design and material that lacks commonalities with surrounding development, and Section 17.108.010.F because it is inconsistent with the guidelines of the applicable conservation plan. The project is inconsistent with the Benicia General Plan policies 3.1.4 and 3.1.5 because the windows are inconsistent with the historic character of the building, do not comply with the guidelines of the applicable conservation plan, and do not advance the preservation and enhancement of historic commercial areas. The vinyl upper floor windows create an unbalanced appearance that disrupts the visual harmony and diminishes the integrity of the landmark historic building in its entirety, as well as the historic district overall.

6. Failing to include any historical imagery of design and architecture comparisons with proposed alterations to support claim above violations stated in staff plan.

   Staff Analysis: The replacement windows are not consistent with the historic features of the building. The replacement of aluminum windows with vinyl triple-hung windows,

[2] The HPRC handout packet(s) may be viewed online at www.ci.benicia.ca.us/agendas

and the siting of the alterations towards the front and side of the property does not protect the building's historic integrity, nor further the structure's compatibility with the surrounding neighborhood and does not demonstrate compliance with the purposes of design review, which include consistency with the adopted conservation plan. The project is inconsistent with the Secretary of Interior's Standards for Rehabilitation, specifically Standard 2 which states, "The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided." The replacement vinyl windows alter the features that characterize the property and further do not match the historic design, color, texture, other visual qualities and, where possible as specified in Standard 6 which states "Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence." It is uncertain of whether proper construction techniques to preserve the character and integrity of craftsmanship were applied in the window replacement, which negatively impacts the historic character of the building and may be inconsistent with Standard 9 which states in part: "New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property." Unlike the other design elements, the replacement vinyl upper floor windows do not characterize the property and create a false sense of historical significance due to the material characteristics and triple-hung design.

7. Refusing to acknowledge design and architecture alterations to building as presented on November 17, 2023 by applicant.

   The Department of Parks and Recreation (DPR) Form 523 showing a historic image from 2004, specifying historic characteristics and features was included in the October 26 HPRC handout packet and is provided here again as Attachment 3. The same image is provided in this report as Figure 2; an older image dated 1965 is provided as Figure 9.

Figure 10 – Upper Floor Windows (Prior to Replacement)

Figure 11 – Upper Floor Windows (Following Replacement)

In addition to the foregoing analysis, the City reviewed the application and determined that the proposed project is not consistent with Benicia General Plan Goal 3.1 (Maintain and enhance Benicia's historic character) because the exterior alterations do not advance the preservation of

the Downtown Historic District. The inconsistency with DHCP guidelines and historic preservation on primary faces (front and corner side) are detrimental to the historic character of the First Street historic area.

- Policy 3.1.4 - Promote the preservation and enhancement of historic neighborhoods, commercial areas, and governmental districts.
- Policy 3.1.5 - Permit new development, remodeling and building renovation in historic districts when consistent with the policies of the applicable Historic Conservation Plan.

At the January 11 Planning Commission hearing, staff gave a presentation, and Commissioners asked clarifying questions regarding the timeline of window removal if the appeal is denied, the alleged emergency that prompted the window replacement, the effect of earthquake damage on the type of window chosen, disclosures upon sale of the building, materials requirements, the history of past projects on the property, and permitting (see Attachment 13). The applicant was unable to give a slide presentation as part of his testimony due to technical difficulties, and the hearing was continued to February 8th.

At the February 8 Planning Commission hearing, the Commission received the appellant's presentation and deliberated the appeal. Commissioners and staff also discussed what would be involved in a possible compromise and whether one was feasible. Staff also stressed that it was highly unlikely that the required findings could be made that would allow the windows to remain (see Attachment 14). The Commission ultimately denied the appeal and upheld the decision of the HPRC (see Attachment 15, Planning Commission Resolution 24-1).

Appeal (City Council)

On February 20, 2024, the property owner submitted an appeal (see Appeal Application (to City Council, Attachment 16). The basis of the appeal is listed below in numerical order; staff analysis follows as indicated in italicized text:

1. HPRC decision is based on removal and change of historic features not being compatible with the building itself and the surrounding historic buildings.

   Staff Analysis: The alterations to the historic landmark building are not consistent with the DHCP guidelines. The project is inconsistent with Guideline 1.5 for Type 1 and 2 commercial buildings, which discourages modern window styles; it is also inconsistent with Guideline 3.3 for Historic Buildings which encourages replacement of inappropriate materials with original materials, and Guidelines 4.1 through 4.3 for Historic Buildings which express a preference for wood window sash on historic buildings but allow for substitute materials that are as close as possible in terms of outward appearance, durability, texture and finish to that of the original. The original windows were wood one-over-one style windows and replacement windows are vinyl triple-hung. Further, the project does not meet the required findings of BMC Section 17.54.100.B because it does not comply with the guidelines of the applicable conservation plan; would diminish the historic integrity of the landmark structure due to the use of inappropriate materials,

design and finish; and introduces a design element that is inconsistent with the architectural style and materials of the historic district. The project is inconsistent with the purposes of Design Review as provided in BMC Section 17.108.010.B because it introduces an architectural design and material that lacks commonalities with surrounding development, and Section 17.108.010.F because it is inconsistent with the guidelines of the applicable conservation plan. The project is inconsistent with the Benicia General Plan policies 3.1.4 and 3.1.5 because the windows are inconsistent with the historic character of the building, do not comply with the guidelines of the applicable conservation plan, and do not advance the preservation and enhancement of historic commercial areas. The vinyl upper floor windows create an unbalanced appearance that disrupts the visual harmony and diminishes the integrity of the landmark historic building in its entirety, as well as the historic district overall.

2. Resolution_23-8_10_West_J_Street_Denial_Fri_Nov_17_2023_0943-20 states that "deteriorated historic features were replaced, as opposed to being repaired, to match the old design, color, texture, other visual qualities and, where possible, materials." HPRC and staff report failed to acknowledge that no historic features of the building were altered, removed or replaced. The windows that were repaired were aluminum, non-historical and in no way depleted from the existing historical features of the building.

   Staff Analysis: The alterations to the historic landmark building are not consistent with the Conservation Plan guidelines, particularly in their use of original materials in the proposed design features, as well as performing the window replacement in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties. The replacement vinyl windows altered the features that characterize the property and further do not match the historic design, color, texture, other visual qualities and, where possible, which demonstrates inconsistency with Standard 6. Repair and maintenance imagery that was provided in the appellant's original submitted project narrative has been included once again as Attachment 17 to this appeal staff report for additional reference. This narrative information, along with DPR Form 523A for 106 West J Street (Attachment 18) was included in both the October 26 and November 16 HPRC handout packets for added reference as well. A copy of the Benicia Masonic Temple Stucco Cracks Phase 1 Evaluation Report (dated September 20, 2016) is included hereto as Attachment 19 as supplemental information, in response to Planning Commission questions regarding structural integrity and potential earthquake damage as it relates to the windows. Although the windows that were repaired were aluminum and non-historical, they should have been replaced with the original wood frame window material in consistency with Guideline 3.3 of the DHCP. Further, Standard 6 in its entirety states: "Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or

pictorial evidence." Although the appellant provided images of the performed window frame repairs, it is uncertain of whether proper construction techniques to preserve the character and integrity of craftsmanship were applied in the window replacement, which negatively impacts the historic character of the building and may be inconsistent with Standard 9 which states in part: "New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property." Unlike the other design elements, the replacement vinyl upper floor windows do not characterize the property and create a false sense of historical significance due to the material characteristics and triple-hung design. Further, the window replacement was performed without consultation with the City nor without a building permit.

In summary, the City has completed a comprehensive review of the design review application and appeals, and does not find that the project, as proposed and constructive, would meet the required design review findings, nor be consistent with the DHCP guidelines or Secretary of Interior's Standards as pertaining to a historic structure. As explained to the Planning Commission and to the appellant, if the appellant wishes to obtain the services of a qualified professional to evaluate the proposal and make the needed determinations, this information would be presented in a public hearing as an alternative basis for design review approval.

NEXT STEPS:
If the Council were to take the recommended action, the property owner would need to apply for a building permit to replace the current vinyl windows with windows of an appropriate style and material as mutually agreed upon and in consultation with the City. This pathway is likely to be exempt from design review, as provided in BMC Section 17.108.020.E. Given the number of windows requiring replacement, the timing and approach to completion of this matter could be determined through an enforcement agreement between the property owner and the city.

If the property owner elects not to replace the windows and obtain building permits, this matter would be referred to the City's Community Preservation Officer for further code enforcement action.

ALTERNATIVE ACTIONS:
The Council may move to make a decision not provided in the attached draft resolution.

General Plan	Goal 3.1: Maintain and enhance Benicia's historic character

Strategic Goals	**Strategic Goal Impacted by this Agenda Item** The City Council and community identified six (6) strategic goals for which the City of Benicia aspires to achieve with our programs and services. Please select the strategic goal impacted by this Agenda Item.

	☐ Protect Community Health & Safety ☒ Maintain & Enhance A High Quality of Life ☐ Preserve & Enhance Infrastructure ☒ Strengthen Economic & Fiscal Conditions ☒ Protect & Enhance the Environment ☐ High Performing Government

CEQA Analysis	The recommended action is Categorically Exempt pursuant to Section 15270, Projects Which Are Disapproved, of the California Environmental Quality Act (CEQA) Guidelines, which states that CEQA does not apply to projects which a public agency rejects or disapproves. See agenda for further information.

22) BUSINESS ITEMS

22.A - APPEAL OF A PLANNING COMMISSION DECISION ON A DESIGN REVIEW APPLICATION FOR 106 WEST J STREET (Community Development Director)

Staff Report - 106 West J Street Appeal

Jason Hade, Planning Manager, and Vivien Togonon, Associate Planner, reviewed the staff report and a PowerPoint presentation.

Council and Staff discussed the CEQA process, and the Council's options.

Public Hearing Opened

Appellant:
Steffan Schulz - Mr. Schulz reviewed the history of the building, the changes that have made over the years, and the problems with the current windows.

Public Comment:

1. Penny Stell - Ms. Stell spoke in support of granting the appeal.
2. Lionel Largaespada - Mr. Largaespada spoke in support of granting the appeal.
3. Lori Grundman - Ms. Grundman spoke in support of granting the appeal.
4. Kathy Kerridge - Ms. Kerridge spoke in support of granting the appeal.

Public Hearing Closed

Council, Staff and Mr. Schulz discussed the issue of window replacement permits, previous work done on the building, historic integrity, the need to engage a historic architect, and what constitutes an emergency for window replacement.

Council Member Macenski made a motion to direct Staff to bring back a resolution with the requisite findings to a date uncertain granting the appeal, prepare the necessary CEQA findings, and if required by the City, the applicant at his sole expense shall provide a report by a qualified historic architect or historic librarian supporting the application of any CEQA finding. The motion was seconded by Mayor Young.

1. Resolution - Appeal - HPRC Alteration Denial - 106 W. J Street
2. Clarifying Memo - 106 West J Street & 935 First Street (dated October 23rd, 2023)

On motion of Council Member Macenski, seconded by Mayor Young, Council approved approving direction to Staff to bring back a resolution with the requisite findings to a date uncertain granting the appeal, prepare the necessary CEQA findings, and if required by the City, the applicant at his sole expense shall provide a report by a qualified historic architect or historic librarian supporting the application of any CEQA finding, on a roll call by the following vote:

Ayes: Council Member Birdseye, Council Member Campbell, Council Member Macenski, Vice Mayor Scott, Mayor Young
Noes: (None)

22.B - ACCEPTING HAROLD BRAY STATUE AND DIRECTING STAFF TO FINALIZE SITE ARRANGEMENTS (City Manager)

Staff Report - Accepting Harold Bray Statue and Directing Staff to Finalize Site Arrangements

RESOLUTION NO. 24- 24 - A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BENICIA ACCEPTING HAROLD BRAY STATUE AND DIRECTING STAFF TO FINALIZE SITE ARRANGEMENTS

Public Comment:

1. David Batchelor - Mr. Batchelor spoke in support of the proposed site location for the statue.
2. Patty Gavin - Ms. Gavin reiterated her support for the Harold Bray statue, and clarified her concern regarding the placement of the statue and the process that was not followed.
3. Sandy Francini - Ms. Francini discussed concern regarding the placement of the statue and discussed concern regarding the hurtful online comments about Ms. Gavin.
4. Heather McLaughlin - Ms. McLaughlin discussed the need to follow the rules in place for public art. She also discussed concern regarding the hurtful comments about Ms. Gavin.
5. Jeff Mini - Mr. Mini spoke in support for the proposed location of the statue.
6. Citizen - the citizen spoke in support for the proposed location of the statue.
7. Kelsey Bye - Ms. Bye spoke in support for the proposed location of the statue.
8. Gary Heppel - Mr. Heppel spoke in support for the proposed location of the statue.
9. Sue Heppel - Ms. Heppel spoke in support for the proposed location of the statue.
10. Citizen - the citizen spoke in support for the proposed location of the statue.
11. Patrick Cawley - Mr. Cawley discussed support for both sides tonight.
12. Debbi Bray - Ms. Bray discussed how it was okay for people to have differing opinions and the need for people to be nice to one another. She spoke in support of the proposed location.

Council and Staff discussed concern regarding the negativity with regards to Ms. Gavin's comments, the process for determining the proposed location, support for the proposed location, and the need to look at the process for future decisions regarding monuments and public art placement.

1. Resolution - Accepting Harold Bray Statue
2. Harold Bray Statue Location Rendering
3. Resolution #12-107 - Establishing Public Art Program

On motion of Council Member Campbell, seconded by Vice Mayor Scott, Council approved the adoption of Resolution 24-24, with direction to Staff to work towards placement of the statue at Eunice Jensen Park, and additional direction directing Staff to have the Arts and Culture Commission work with the City Manager's office to work on procedures for placement of public art, on a roll call by the following vote:

Ayes: Council Member Birdseye, Council Member Campbell, Council Member Macenski, Vice Mayor Scott, Mayor Young
Noes: (None)

23) ADJOURNMENT OF REGULAR MEETING (8:00 P.M.)

Mayor Young adjourned the meeting at 8:57 p.m.in memory of Richard Freedman.

City Clerk
