3. Minutes from April 2, 2024 City Council Meeting

16. ADJOURNMENT (9:00 P.M.)

Public Participation

The City of Benicia welcomes your interest and involvement in the City's legislative process. Persons wishing to address the Council, Board, Commission or Committee (CBCC) are asked to voluntarily complete a speaker request form, available at the entrance of Council Chambers, and submit it to the meeting Secretary/City Clerk. Speakers, addressing the CBCC at the time the item is considered, are requested to restrict their comments to the item as it appears on the agenda and stay within the three-minute time limit. The Brown Act does not permit the CBCC to take action on items brought up during the Public Comment period.

As a courtesy, and technology permitting, members of the public may participate remotely. Please be advised that those participating in the meeting remotely via Zoom do so at their own risk. Meetings will not be cancelled due to technical difficulties. The meeting can also be observed on Cable T.V. Broadcast - Check with your cable provider for your local government broadcast channel, or livestream online at www.ci.benicia.ca.us/agendas.

Americans with Disabilities Acts

The City of Benicia is committed to providing meeting facilities that are accessible to persons with disabilities. Meeting materials in alternative formats, a sign language interpreter, real-time captioning, assistive listening devices or other accommodations can be requested by calling (707) 746-4200 or by emailing ADACoordinator@ci.benicia.ca.us, at least four working days prior to a meeting. Assistive listening devices may be obtained at the meeting.

Meeting Procedures

Pursuant to Government Code Section 65009, if you challenge a decision of the CBCC in court, you may be limited to the issues raised during the meeting or in written correspondence delivered to the CBCC by the meeting. You may also be limited to a ninety (90) day statute of limitations when challenging certain administrative decisions, including any final decisions regarding planning or zoning.

The decision of the CBCC is final as of the date of its decision unless judicial review is initiated pursuant to Code of Civil Procedure Section 1094.5. Any such petition for judicial review is subject to the provisions of Code of Civil Procedure Section 1094.6

Public Records and Writings Received After Agenda Posting

A printed version of the agenda packet for this meeting is available at the Benicia Public Library during regular working hours. To the extent feasible, the agenda packet and any writing or documents related to an agenda item for this meeting provided to the CBCC, will be made available for public inspection on the City's web page at www.ci.benicia.ca.us under the heading "Agendas and Minutes." A complete recording of each meeting is available online at www.ci.benicia.ca.us/agendas.

Deputy City Clerk

AGENDA ITEM
CITY COUNCIL MEETING DATE – JULY 1, 2025
CONSENT CALENDAR

TO : City Manager

FROM : Assistant City Manager

SUBJECT : **ACCEPTING THE PROPOSALS FOR PLANNING ON-CALL SERVICES AND AWARDING PLANNING MASTER SERVICE AGREEMENTS**

EXECUTIVE SUMMARY:

The Community Development Department recommends awarding master service agreements to establish a list of pre-qualified, contracted on-call firms to provide professional services for current planning development review, long-range planning policy and strategies, historic preservation, land use economics, environmental review, housing programs and policies, grant applications and management, and rapid response services. The agreement period is two years, commencing July 1, 2025, through June 30, 2027, with one optional two-year renewal.

RECOMMENDATION:

Move to adopt a resolution (Attachment 1) accepting the proposals for planning on-call services (Exhibit A), authorizing the City Manager to sign agreements on behalf of the City with eleven different firms for a two-year term expiring June 30, 2027, not to exceed $325,000 per firm with the option for up to one 2-year renewal and authorizing the City Manager or designee to execute any task order, without further action by the City Council, that is within the total authority of the master service agreement.

BUDGET INFORMATION:

The not-to-exceed amount of each agreement is $325,000 over two years. Services or projects based on a defined scope of work would be executed by task order upon approval of the City Manager or designee. The cost of these agreements for basic operations and for anticipated projects has been included as part of budget development for FY26 and FY27. In other cases, like for larger development projects, the cost of the agreements is funded by a reimbursement agreement with the applicant. Projects administered on a reimbursement basis require execution of a reimbursement agreement and receipt of a deposit (15% of the bid amount); reimbursement includes all invoiced costs, plus a 25% administrative fee for staff oversight and management pursuant to the adopted Master Fee Schedule.

BACKGROUND:
In December 2020, the City Council authorized the execution of five-year agreements for on-call planning and environmental services. The agreements, which were $275,000 per firm, provided a resource of consultant expertise for a range of planning services, including contract planning, land use planning, and environmental review as required by the California Environmental Quality Act (CEQA). These agreements will expire in December 2025.

The Planning Division analyzes and processes all planning permit activities, legally mandated general plan elements, regional planning efforts, related activities and customer service efforts. The Planning Division also provides staff support to the Planning Commission and Historic Preservation Review Commission.

Current staffing accommodates day-to-day needs for permitting, customer service and limited advance planning projects. The Development Services Department's staff capacity would be strained to handle major land use projects without impacting the Division's daily activities or re-prioritization of the work program. The on-call approach allows the City to efficiently execute a task order in response to a private development application. The timeliness of such an approach is critical to complying with state-mandated timeframes for project review and providing responsive service to applicants. The City of Benicia Master Fee Schedule enables the Planning Division to require all major private development applications, rezoning, General Plan amendments and/or specific plans, including environmental review pursuant to CEQA, to pay the invoiced cost of contract services plus a 25% administrative fee.

The proposed scope for on-call services in the coming two-year period recognizes the dynamic environment for land-use planning and housing based on State law, economic conditions, and community priorities, as well as the related need for subject matter expertise. An important priority moving forward is readiness for foreseeable needs, such as grant support, economic analysis, and rapid response permitting in response to hazardous events.

A Request for Proposals (RFP) was released on March 10, 2025, with a response deadline of April 7, 2025. The City received 17 proposals; the top-scoring firms were interviewed by staff, and eleven (11) firms were selected to provide on-call services are listed below under Attachments.

Exhibit A provides a breakdown of each firm's on-call planning service areas. The master service agreements for the eleven firms are listed under the attachment section (Attachments 2-12).

NEXT STEPS:
Following the City Council's adoption of the resolution, the City Manager will execute agreements for on-call planning services.

ALTERNATIVE ACTIONS:
The City Council may decline to adopt the resolution. If the City Council takes this action, then any future planning consultant task, such as for contract planning and/or

environmental review services, or for land use planning, would require an RFP and subsequent selection, including City Council approval for contracts exceeding $100,000. This alternative action will result in project delays and/or an alternate pool of responding consultants.

CEQA Analysis	Authorization of contracts for On-Call Planning Services is not a project under Section 15378 (b) of the CEQA Guidelines, which excludes administrative activities of governments. The proposed contracts merely authorize pre-selected, pre-contracted firms to complete various work tasks related to current planning, land use and design, and environmental review, and would not result in direct or indirect physical changes in the environment. Therefore, the requested action is not subject to CEQA under Guidelines Section 15060 (c).

PROFESSIONAL SERVICES MASTER AGREEMENT (ON-CALL PLANNING SERVICES)

BETWEEN

CITY OF BENICIA AND

4LEAF, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and 4LEAF, Inc., a California Corporation located at 2126 Rheem Drive, Pleasanton, California 94588, licensed to do business in California, ("CONTRACTOR") relating to 4Leaf - Planning Master Services Agreement FY26-27 Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Current Planning Development Review

B. Long-Range Planning Policy and Strategies

C. Historic Preservation

D. Environmental Review

E. Housing Programs and Policies

F. Rapid Response Services

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted planning practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

[http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subcontractors shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert contractors or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required during the term of this Agreement.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Kevin J. Duggan

President

kduggan@4leafinc.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between 4LEAF, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

City of Benicia
Community Development Department
250 E. L Street
Benicia, CA 94510
Attn: Stacy Hofacre, Permit Services Analyst

April 7, 2025

RE: Proposal to Provide On-Call Planning Services, RFP #25-063 to the City of Benicia.

Dear Ms. Hofacre,

4LEAF, Inc. (4LEAF), is pleased to present our proposal to provide On-Call Planning Services to the City of Benicia (City), RFP #25-063. 4LEAF is a full-service firm that has been providing on-call professional consulting services to over 400+ clients throughout California for more than 24 years. Our Planning Team has the knowledge and expertise to address the City's current and long-range planning needs. 4LEAF is uniquely qualified and the ideal consultant choice for the following reasons:

☑ Expert Regional and Local Consultants

4LEAF has extensive experience providing On-Call Planning Services to jurisdictions throughout the Bay Area, delivering a full range of municipal planning support tailored to each community's needs. Our team provides comprehensive services—from staffing the public counter and processing development applications to drafting and implementing policy documents such as Zoning Ordinances, Municipal Code updates, General and Specific Plans, Housing and Safety Elements, and CEQA compliance materials. We also offer expertise in Post-Disaster Development Recovery and Rapid Response Planning, aligning with the City's need for adaptable, expedited support during times of urgent demand. Based in Pleasanton, 4LEAF has long-standing relationships with Bay Area agencies and is committed to providing responsive, high-quality service. Our planners are available for both on-site and remote assignments, ensuring seamless coordination with City staff and continuity in project delivery. Currently, we are providing similar services for the following clients, including:

- City of Vacaville
- City of Vallejo
- City of Palo Alto
- City of Cupertino
- City of Rohnert Park
- City of Richmond
- City of Concord
- City of Pinole
- City of Brentwood
- City of Foster City
- County of San Mateo
- County of Santa Clara

☑ Project Understanding

4LEAF understands the City of Benicia is seeking responsive, experienced consultants to augment the capacity of its Community Development Department. Based on the RFP, 4LEAF proposes to support the City across six key service areas: Current Planning Development Review, Long-Range Planning Policy and Strategies, Historic Preservation, Environmental Review, Housing Programs and Policies, and Rapid Response Services. Our team is equipped to provide efficient and high-quality support for both applicant-initiated development applications and City-led planning initiatives. This includes ministerial and discretionary case processing, CEQA documentation, Housing Element and General Plan implementation, Zoning Code interpretation, and ordinance development. We are also experienced in preparing comprehensive hearing packets—staff reports, resolutions, findings, conditions, and presentations—for

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

advisory boards, Planning Commission, and City Council. Our team is capable of integrating quickly with City systems, including OpenGov, and can provide both in-person and remote staffing as needed. With 4LEAF's collaborative project management, proactive communication, and well-rounded planning expertise, we are prepared to serve as a reliable and responsive extension of City staff.

☑ Adaptable Services

4LEAF is renowned for our accommodation and flexibility and is the most dependable provider of on-call, as-needed staff augmentation services for Planning, Building & Safety, and Fire Life Services. Our highly adaptable professionals is consistently able to fulfill the unique, localized needs of our many municipal clients. We are committed to tackling staffing challenges head on, providing our clients with 24-hour turnaround staffing placement options and expedited off-site services. Our firm cooperates with our clients to provide personnel that meet their specific and unique requirements. Our scope of services for the purpose of this contract includes:

- Environmental Review
- Transportation Review
- Historic Preservation
- General Consulting Services
- Design Review
- Designated Contract Planning
- Housing Needs Assessment
- Emergency Response Services

☑ Management and On-Call Personnel

The contract with the City of Benicia will be managed by **Executive Project Manager, Michael Renner, CBO** and the **Project Manager, Daniel Hortert, AICP**. Michael will handle all contractual details, project discussions, and staffing requests. Michael and Daniel have a proven track record of success managing projects for cities and counties throughout California and will be available to the City for any needs involving this contract. For a full list of planners who will be assisting with the City's project needs on-call, please see **Section 4: Team Members.**

☑ Contact

Executive Project Manager	Project Manager / Director of Planning	4LEAF Headquarters
Michael Renner, CBO Office: (925) 462-5959 Mobile: (925) 785-3581 Email: MRenner@4leafinc.com	Daniel Hortert, AICP Office: (925) 462-5959 Mobile: (925) 999-6184 Email: DHortert@4leafinc.com	2126 Rheem Drive Pleasanton, CA 94588 Office: (925) 462-5959 Website: 4LEAFINC.COM

As President of 4LEAF, I am authorized to bind the firm. 4LEAF assures we can adhere to the insurance requirements and professional services agreement set forth by the City with **no exceptions** and guarantees the proposed prices shall remain in effect for 120 days from the date of Price Proposal Submission. We appreciate this opportunity to submit our qualifications. Should you have any questions, please do not hesitate to reach out using the contact information provided above.

Respectfully submitted,

Kevin J. Duggan

SECTION 4: TEAM MEMBERS

As your consultant, we understand that our role is to be an advocate on behalf of the City of Benicia and represent the City's best interests. With our headquarters located in Pleasanton, 4LEAF's team will function as an extension of City staff, seamlessly integrating with City personnel and practices, adding perspective and expertise that only 4LEAF can offer. 4LEAF holds its employees in high regard and can ensure the City that all staff involved have the knowledge, training, experience, and competencies to fulfill the roles and responsibilities of their assigned positions. Our team members are results- and detail-oriented and uphold the values of our company to the utmost extent—the success of which can be reviewed in the quality of past projects we have worked on.

Management Team

Michael Renner, CBO – Executive Project Manager

Michael is a highly experienced development professional with an extensive background in administration and management. He has successfully overseen 4LEAF's Planning Department through all stages of complex and high-value projects, including the City of Santa Clarita's Housing & Safety Element Updates, the Mendocino County Cannabis Application Processing Program, and On-Call Planning and Environmental services for cities such as Norwalk and Ventura, playing a critical role in shaping and implementing organizational strategic planning on a variety of projects. Michael's proactive communication with project managers and teams ensures clear directives in staffing decisions and project priorities, effectively ensuring he not only meets, but often exceeds stakeholder expectations.

Michael is a seasoned Program Manager with more than 15 years of industry experience in the Private Sector. In addition to servicing hundreds of clients throughout the United States in the scopes of Planning, Building, Code Enforcement, and Construction Management, Michael has also managed several multi-billion-dollar construction programs stemming from the several wildfires that occurred in the Western United States

Office - (925) 462-5959 | Cell - (925) 785-3581 | Email - MRenner@4leafinc.com

Daniel Hortert, AICP – Project Manager / Director of Planning

Daniel has over 30 years of Planning and Development services experience including 20 as a public servant for municipalities with populations ranging from 3,500 to over 3.5 million. Daniel's experience covers a range of municipal functions including Planning Director, Senior Planner, Planning Manager/Principal Planner, and Community Development Department Director for public and private sector agencies. He is experienced in land development, construction, community engagement/education, project management, project budget control and oversight, residential, commercial, and industrial site planning and compliance review, and entitlements from single-lots to large complex master planned communities.

Daniel has extensive experience administering and managing regulatory document preparation including creating and updating land development ordinances, comprehensive and general plans, traditional and form-based coding, development agreement negotiations, and residential and commercial design guidelines. His recent planning assignments on behalf of 4LEAF include the cities of Clayton, Imperial Beach, Hermosa Beach, Larkspur, Sausalito, and the Town of Fairfax

Luke Lindenbusch, AICP – Supervising Planner, Advance Planning & Housing

Luke is a dedicated AICP-certified planner with extensive knowledge of the policy implications of city planning. With a background in public affairs, Luke is skilled in implementing innovative engagement strategies for field and digital campaigns to establish trusted communication with residents and stakeholders. He supports jurisdictions in the development and implementation of programs to provide certainty and efficiency in planning services. Luke has been welcomed to work collaboratively in varied communities as a team player who is highly adaptable to diverse environments.

Luke contributes to 4LEAF's Planning Department by overseeing the preparation and implementation of Housing Elements throughout California; leading technical plan writing including Specific Plans, Transit-Oriented Development (TOD), Affirmatively Furthering Fair Housing (AFFH) strategies, and programs in General Plan Updates; providing on-call regional policy technical assistance to 16 jurisdictions in Napa & Sonoma Counties, including supporting access to State funding such as the Prohousing Designation Program; orchestrating multifaceted community engagement strategies and actions; managing legislative updates and communicating with jurisdictions on changes in State law; and coordinating with regional partners in government and nonprofit organizations.

Supporting Team

Kaitlin Roberts, J.D. – Senior Planner

Accomplished Senior Planner and environmental specialist with over 17 years of expertise in comprehensive land use planning and environmental compliance, particularly under the California Environmental Quality Act (CEQA). Skilled in managing complex planning projects, including drafting and amending specific and master plans, as well as assessing development proposals for alignment with community goals and regulatory standards. Adept at producing clear, actionable insights to guide policy decisions, support housing initiatives, and advance sustainable development. Known for delivering high-quality planning and analytical services to municipalities and private sector clients, ensuring rigorous adherence to environmental and planning requirements.

Office - (925) 462-5959 | Email - KRoberts@4leafinc.com

Jose Torres, AICP – Associate Planner / GIS Specialist

Jose is a dynamic urban planner and Geographic Information Systems (GIS) specialist with extensive experience across diverse sectors. Jose's proficiency in Spanish allows him to effectively communicate with community members. Jose brings a unique cultural perspective to his work, facilitating meaningful community engagement and public participation initiatives. His expertise encompasses advocacy for affordable housing, leading inclusive planning projects, and integrating GIS technology into urban development strategies. Jose's notable achievements include leading community-driven initiatives, managing conservation easements, and revitalizing urban spaces through participatory planning. He is dedicated to cultivating diverse, inclusive communities.

Office - (925) 462-5959 | Email - JTorres@4leafinc.com

Stacey Kinsella – Senior Planner / Historic Preservation Specialist

Stacey is a skilled Senior Planner with over 18 years of experience with current and long-range land use projects, coastal and shoreline permitting, historic preservation, California Environmental Quality Act (CEQA) review, and General Plan amendments. Her background includes managing preservation programs, leading significant development projects, crafting local ordinances, and entitlement reviews including Conditional Use Permits (CUP), Coastal Development Permits, Planning Commission Design Review, and more.

Office - (925) 462-5959 | Email - SKinsella@4leafinc.com

Avery Frank – Senior Planner

Avery is a results-driven Senior Planner with over 4 years of extensive experience in land use, development, regulatory compliance, and public policy. She brings a wealth of experience from both public and private sectors, having worked with federal agencies, municipalities, and consulting firms. Her background includes transportation planning, disaster mitigation planning, and urban and regional planning. Avery has played a key role in entitlement applications, long-range land use planning, and policy analysis, ensuring projects align with regulations and community needs.

SECTION 5: APPROACH

PLANNING SERVICES

4LEAF Planners possess the technical planning abilities to deliver effective current and advance planning services. We are adept at all aspects of plan review, front counter assistance, and preparation of planning studies and ordinances. Our staff possess the writing abilities needed to convey concise and appropriate findings and recommendations that reinforce the City's planning and development goals. We are dedicated to understanding the community's vision and rigorously working to achieve it. We utilize application checklists and best practices as the foundation of our review and translate policies and regulations as they apply to planning and development applications. We provide our findings using informative, concise, and simple-to-understand staff reports and environmental compliance documentation. Our staff are well-versed in project management and will work collaboratively with other City departments, agencies, and stakeholders to ensure that the highest levels of review and feedback are achieved timely.

Our Planning team consists of highly skilled professionals with a management team possessing many years of on-call planning, housing, and environmental review experience, including providing project and program-level services from both the public and private sector perspectives. This experience enables our team to successfully manage planning and project review services for the City.

4LEAF Planners possess "Get to Yes" attitudes and will make every attempt to move projects forward to achieve successful outcomes. We are collaborative in our planning approach to ensure City staff, applicants, developers, and community members work together for a sustainable future. We are creative in our approach and can develop alternative methods to achieve the best outcomes for the City, the community, and applicants. The 4LEAF Planning team has extensive experience integrating our contract planners seamlessly into local jurisdictions where we are routinely called upon to supplement vacancies and workforce shortages. We also provide staff augmentation services when projects require case processing and management of various applications for compliance with land development codes and plans.

Current Planning Development Review

4LEAF has over 24 years' experience in community development including providing staff augmentation and project management, preparing housing elements, general plans, specific and area plans, and environmental documents in diverse settings. Our mission is to deliver expert planning and policy solutions that are grounded in local knowledge, shaped by diverse perspectives, and designed for real-world implementation in partnership with the communities we serve

Working collaboratively with City staff, applicants, and stakeholders, 4LEAF planners will assist the City to achieve its planning goals. Our contract planners can:

- Assist applicants at the front counter
- Review planning applications against local and states regulations
- Prepare staff reports including resolutions and conditions of approval, findings, and ordinances
- Update and implement General Plans, including Housing Elements

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

- Prepare and update Specific Plans and Community Plans
- Update the Zoning Ordinance to improve the planning process and development standards
- Develop community engagement strategies including in-person and digital engagement and outreach
- Organize community programs and outreach events

4LEAF's on-site planners will seamlessly integrate into City operations, quickly gaining fluency in local regulations to provide efficient, responsive support. This includes zoning requirements and municipal codes, single-family and mixed-use dwellings, SB9 lot splits, tree removal permits, and building permits including accessory and junior dwelling units, enabling them to respond to public inquiries confidently and effectively regarding planning applications and environmental review processes. Our proactive approach ensures timely and thorough project reviews while clearly and accurately presenting project details to the Planning Commission, City Council, and public. 4LEAF is committed to delivering cost-effective, high-quality planning services that support the City's goals and keep projects moving forward efficiently and successfully.

With a keen eye for detail, 4LEAF planners will assist staff in navigating complex Planning and Housing regulations, providing timely and informative assistance to applicants and the public. Through diligent review and coordination, they ensure project applications are complete and facilitate initiation of project-level environmental review as necessary, while clearly and accurately presenting project details to the Planning Commission, City Council, and the public.

4LEAF is able to provide comprehensive urban design and architectural design review services to ensure that development proposals align with the City's General Plan, zoning code, and broader planning objectives. As part of the Design Review process, planners will conduct a thorough evaluation of project applications under the Permit Streamlining Act (Government Code § 65921). Within 30 days of submittal, applicants will receive a completeness letter determining whether the application is complete or requires additional information. If incomplete, planners will outline necessary revisions to ensure compliance with City standards, principles, policies, and regulations.

4LEAF will provide ongoing support in reviewing development proposals to ensure alignment with the City's vision. Our team will evaluate project materials, assess the City's initial analysis, and offer in-depth feedback from both urban design and architectural perspectives. We will also review architectural elements, verify conformance with zoning and planning standards, and respond to staff inquiries. Through this collaborative process, 4LEAF will help facilitate high-quality, compliant development that contributes meaningfully to the City's built environment.

Project Application Processing

The Counter Planning Technician plays a vital role on the Planning Team as the first point of contact for most applicants and members of the public. They will represent the City with professionalism, clarity, and empathy—particularly in the context of regulatory compliance. Key responsibilities include accepting planning applications, creating project files, and establishing review timelines, including conducting completeness checks in accordance with the Permit Streamlining Act (Government Code § 65920 et seq.).

Our team will utilize the City's existing submittal forms while also advising on potential updates to align with evolving land use regulations. The Planning Technician will collaborate closely with City staff, 4LEAF managers,

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

and fellow planners to coordinate staff assignments for all incoming applications. Confident and adaptable, the Technician will be prepared to provide accurate information via phone, email, or in person, ensuring a responsive and efficient application process. With strong attention to detail, they will review submissions for completeness and compliance prior to intake and case processing.

The 4LEAF Planning Team is composed of experienced Senior-level project managers, Associate and Assistant Planners, and Planning Technicians. Project review assignments will be made depending on the complexity of the project and the applicable experience of the Planner assigned. Our project management approach serves to maximize team ability to process applications effectively from compliance and environmental review to design review and decision-maker hearings. This approach also ensures that our Planning Team is assigned the appropriate number of projects suited to their experience and qualifications, thereby realizing cost and time effective management as part of our approach.

Project Meetings and Committees

4LEAF recognizes the importance of clear and consistent communication and places a high value on ensuring mutual understanding throughout the project. To achieve this, our contract planners will meet with City staff, as well as City Council, Planning Commission, other city committees, and various stakeholders to discuss projects as needed. Our 4LEAF Planning team can facilitate discussions with the City and organizations involved regarding project goals.

Long-Range Planning Policy and Strategies

Our contract planners bring extensive experience across a broad spectrum of development types—from small-scale tenant improvements to complex mixed-use, hotel, commercial, industrial, and energy-related projects. Beyond project review, our team has contributed to long-range planning efforts including policy development, Housing Element implementation, and zoning code updates. We are well-versed in aligning local plans with state mandates and regional initiatives, and can support the preparation of General Plan amendments, Specific and Community Plans, and other forward-looking planning documents that reflect both community input and regulatory compliance.

4LEAF's qualified and knowledgeable contract planners will perform applicant-initiated applications, including land use and zoning research, conformance reviews, discretionary entitlement processing, project management, staff report preparation, review and preparations of conditions of approval, and attendance at required meetings for the Planning Commission and City Council.

Our contract planners will provide a variety of project review services such as:

- Conducting research and developing recommendations for land use, zoning, urban design, and environmental needs
- Conducting preliminary review of applications during the 30-day application completeness review period pursuant to the Permit Streamlining Act (Government Code Sections 65920, et seq.)
- Providing responses to public inquiries via telephone, email, mail, remotely, or in person regarding permit applications for zoning, plan review comments, and other general inquiries
- Performing plan reviews and re-checks as needed

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

- Notifying applicants of any additional information or studies required to ensure a complete project description is submitted prior to the application being deemed complete
- During preliminary review, assessing the appropriate environmental review for the project and the potential need for additional information necessary to complete CEQA and/or NEPA reviews
- Providing ministerial review and ushering entitlement reviews through discretionary review by decision makers. This review assesses project applications for the appropriate permits and plan amendments for compliance with the City's General Plan and Housing Element, the Zoning Code, State housing requirements, the Subdivision Map Act, Design Guidelines, and applicable objective design guidelines or Specific Plan requirements
- Conferring with and providing information to applicants, property owners, contractors, developers, engineers, architects, and the public regarding conformance to standards, plans, specifications, and codes
- Preparing staff reports, resolutions, ordinances, and conditions of approval and giving oral presentations to the Planning Commission, City Council, and various committees and commissions, and attending evening meetings as required
- Analyzing data for economic, social, environmental, and physical factors affecting land use and preparing environmental documents for public review and adoption
- Processing and reviewing City permits, Plan Checks, Zoning Clearances, Business Licenses, Master Sign Programs, Administrative Permits, Minor and Major Use Permits, Conditional Use Permits, Design and Site Review, Variances, Lot Line Adjustments and Tentative Maps, Zoning Map Amendments, and General Plan and Development Code Amendments
- Assessing project descriptions for CEQA determination to ensure adequate information is provided to allow an assessment of environmental effects consistent with City requirements and notifying the applicant.
- Preparing CEQA documents with the appropriate level of environmental review that include exemptions, Initial Studies (IS), Negative Declarations (ND), and Mitigated Negative Declarations (MND)
- Providing peer review services through qualified 4LEAF staff, reviewing applicant-prepared technical studies and tribal consultation letters submitted with project applications. Partnering with qualified experts to provide technical studies as needed depending on the environmental review scope
- Providing technical assistance in analyzing, coordinating, and implementing local and state development requirements
- Performing project management duties including the maintenance of the development database and tracking of deadlines, application submittal requirements, and workload while maintaining quality work products, meeting timelines, and staying within budget
- Providing technical support to the Planning Commission and commission staff as well as other City committees, commissions, boards, and advisory groups

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

Historic Preservation

4LEAF's Senior Planner / Historic Preservation Specialist, Stacey Kinsella, will be assisting the City of Benicia with historic resource evaluations and services, bringing extensive experience in evaluating and preserving historic resources. With over 25 years in design and planning – including nine years managing a Certified Local Government (CLG) Preservation Program – 4LEAF specializes in Historic Resource Evaluations, DPR 523 Forms, and applying the Secretary of the Interior's Standards.

Our expertise spans a broad spectrum of projects, from residential additions to large-scale commercial redevelopments, with a strong focus on historic preservation. 4LEAF excels in evaluating, documenting, and safeguarding historic resources, ensuring compliance with local, state, and national preservation standards.

Comprehensive Historic Preservation Services

- Conducting Historic Resource Evaluations and preparing DPR 523 Form
- Applying the Secretary of Interior's Standards for restoration and rehabilitation projects
- Managing Landmark Designation and Certificate of Appropriateness applications
- Collaborating with cultural arts organizations and local historical societies to document and preserve significant properties
- Serving as a liaison to Preservation Commissions, preparing staff reports, and conducting educational training seminars
- Ensuring compliance with CLG Annual Report requirements for the California Office of Historic Preservation

Mills Act Program Expertise

4LEAF offers specialized expertise in Mills Act implementation, guiding historic property owners through the designation and application process. Our team coordinates with legal staff, prepares contracts, and presents applications to City Councils. We also provide informed guidance to prospective buyers on both the financial benefits and preservation responsibilities associated with Mills Act properties.

Ongoing Professional Development and Compliance

Our Historic Preservation Specialist has completed specialized training through the National Preservation Institute, including coursework in Section 106, GIS mapping, and Native American heritage. Additionally, we stay up-to-date with evolving preservation policies through annual CPF conferences and the Secretary of the Interior's Standards Bootcamp.

With strong expertise in historic preservation, regulatory compliance, and real-world project experience, 4LEAF is dedicated to helping the City of Benicia protect and celebrate its historic resources while supporting thoughtful development and the preservation of community character.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

Environmental Review

4LEAF's Planning Team has extensive experience managing and preparing environmental review documents in compliance with the California Environmental Quality Act (CEQA). Our team provides end-to-end support for public and private development projects, including the preparation of defensible Project Descriptions, Exemptions, Initial Studies, and Mitigated Negative Declarations. We assist in identifying the appropriate level of CEQA review early in the process and work collaboratively with City staff, applicants, and technical experts to ensure clarity, consistency, and legal defensibility.

When technical studies are required, 4LEAF draws on a network of qualified subconsultants to complete resource-specific analyses, including biological, cultural, transportation (including VMT), noise, and greenhouse gas emissions studies. We are well-practiced in managing subconsultants, preparing Mitigation Monitoring and Reporting Programs (MMRPs), and overseeing technical peer reviews. 4LEAF also supports the City in issuing and distributing CEQA documents, coordinating with responsible agencies, and preparing RFPs or RFQs for specialized environmental services. Our planners are available to conduct field visits, monitor project compliance with mitigation measures, and ensure timely and thorough documentation throughout the environmental review process.

***Should subconsultants be required to complete any portion of the City's Environmental Review projects, 4LEAF will obtain prior written authorization from the City and the City maintains the right to accept or reject any proposed changes to the project team members.**

Rapid Response Services

4LEAF brings extensive experience in supporting jurisdictions with emergency and disaster recovery services that prioritize speed, safety, and community resilience. Our team has led post-disaster recovery efforts across multiple regions, providing expedited planning and permitting services, code compliance review, and coordination with city departments and outside agencies. We are equipped to mobilize quickly—within 24 to 48 hours—to assist with fast-tracked permit processing, temporary use authorizations, and amendments to local ordinances to facilitate timely rebuilding efforts in the wake of natural disasters or other emergencies.

Our planners have developed and operated dedicated recovery permit centers and online tracking tools that streamline application intake and facilitate transparent, real-time communication with applicants. We also support the development of zoning and land use strategies that encourage resilient, sustainable redevelopment. By integrating emergency response coordination with long-term planning, our team helps communities recover efficiently while laying the groundwork for stronger, future-ready infrastructure. 4LEAF's collaborative, hands-on approach ensures that recovery is aligned with community needs and regulatory requirements, enabling cities like Benicia to rebuild quickly, safely, and thoughtfully.

City of Rohnert Park

Housing Element Update

4LEAF completed the Housing Update for the City of Rohnert Park, located in Northern California. The city has a Regional Housing Needs Allocation (RHNA) of approximately 1,580 units compared to 899 units in RHNA Cycle 5, representing a 76% increase from the last Planning cycle. To ensure an adequate inventory of viable sites, the 6th Cycle Housing Element Update necessitates rezoning in targeted areas.

The city chose 4LEAF because our team of professional planners have an established working relationship with HCD and a thorough understanding of State housing law. Our team has demonstrated the ability to be proactive in maintaining communication, meeting deadlines, and addressing all the new statutory requirements for 6th Cycle Housing Elements. Rohnert Park's Housing Element was among the first in the Association of Bay Area Governments (ABAG) region to achieve full HCD certification of compliance with State housing laws in March 2023.

Our services for this project include:

- Project management
- Community outreach and engagement
- Housing Element preparation
- CEQA compliance (with Rincon Consultants based on concurrent General Plan Update EIR)

Some of our Housing Element work can be viewed on the City's website at: https://nsc-housing.org/city-of-rohnert-park

Napa Sonoma Collaborative, ABAG/MTC

The Napa Sonoma Collaborative is an ABAG-supported technical assistance effort coordinated by 4LEAF and funded by State Regional Early Action Planning (REAP) funding. The purpose of the Collaborative over the past two years has been to aid the 16 jurisdictions of Napa & Sonoma Counties as they complete their Housing Element Updates and implement housing policy. Through this effort, 4LEAF has acted as a convener for regional stakeholders, guiding fair housing analyses responsive to the recommendations of our Equity Working Group, gauging consensus around housing opportunity sites through a Developer Panel of affordable and market-rate builders, and providing presentations to local Planning Commissions, City Councils, and Boards of Supervisors on legislative updates affecting local planning policy.

In partnership with Rincon Consultants, the Collaborative has established the innovative Housing Connect an easy-to-use tool that allows jurisdictions to analyze, manage, and report residential development in a visual, transparent, and cost-effective way while streamlining preparation of the Housing Element Annual Progress Report. Moving into REAP 2.0 in 2024, 4LEAF's focus with the Collaborative has evolved to promote reduction in vehicle miles traveled (VMT), support infill development, and affirmatively further fair housing (AFFH).

City of Foster City

Planning and Consulting Services

4LEAF provided the City of Foster City with a Planning Technician who oversaw both processing permits and plans under the direction of the Community Development Director. Main duties included but were not limited to:

- Researching, reviewing, and preparing documents for minor architectural and design reviews.
- Reviewing building permits for planning and external consistencies.
- Researching miscellaneous assignments for hiring ranking staff and department heads.
- Answering questions from the public via phone, email, or the public counter at City Hall.
- Conducting Planning Department inspections on an as-needed basis.

Current/recent project support:

- **Lantern Cove Apartment Redevelopment**: Architectural Review, Planned Unit Development/Specific Plan "Concept Plan", Development Plan, General Plan Amendment, and environmental review to add 420 new dwelling units and 518 new parking spaces on a 16.8-acre site. The site includes thirty-five (35) 2-story apartment buildings containing 232 dwelling units, a leasing/amenity building, and 482 parking spaces.

- **Pilgrim Triton Phase C/Laguna Vista Development:** 70 townhouse-style condominium unit subdivision known as Laguna Vista, and 22 Workforce Housing Apartment units that will be owned by the City of Foster City. Project also includes the enlargement and completion of the Pilgrim Triton Plaza Park.

- **New Hotel Development:** New hotel development approximately 83,190 sf, seven-story hotel and associates site improvements. Hotel to feature approximately 156 guest rooms and include a limited-service restaurant and bar, meeting space, rooftop terrace, and uncovered garden deck. The building is to be constructed on a raised podium above ground-level parking and will be surrounded by a 141-space surface parking field.

City of Hermosa Beach

Planning, Building Official, Plan Review, Permit Technician, and Inspection Services

In addition to our other services, 4LEAF has provided the City of Hermosa Beach with exceptional on-call planning and environmental documentation services since 2023. In collaboration with the City's planning staff, Daniel Hortert, AICP, has worked closely with the City providing Senior-Level Planner services overseeing several Planning projects including reviewing applications for completeness and accuracy, California Environmental Quality Act (CEQA) documentation review, land-use and zoning codes and regulations. Our successful collaboration with the City of Hermosa Beach highlights 4LEAF's expertise in managing complex planning processes, our commitment to high-quality service, and our ability to support municipal planning departments effectively.

Key aspects of our work include:

- **On-Call Planning:** 4LEAF assists the City with various planning tasks as needed, consistently demonstrating our flexibility and responsiveness. 4LEAF planners review applications for completeness and accuracy, working closely with both planning staff and applicants to address any issues and streamline the process.
- **CEQA Documentation:** 4LEAF has prepared thorough CEQA documentation for multiple projects, ensuring compliance with environmental regulations and facilitating the approval process.
- Providing a project manager to oversee routine application projects including analyzing and evaluating site and architectural plans, performing technical reviews, making recommendations, and providing approval on applications and in-house reviews.
- Preparing staff reports for the Planning Commission, City Council, various City committees, and advisory boards as directed, preparing research, reports, maps, and conducting briefs.
- Conferring with architects, builders, attorneys, contractors, engineers, and the public regarding City development policies and standards; providing and clarifying information related to zoning, general plan compliance, signage, and other issues.
- Participating in coordinating City planning and development related activities with other City departments, stakeholders, and outside agencies.
- Answering questions and providing information to the public; investigating complaints and recommending corrective action as necessary to resolve complaints concerning the City's planning function.
- Maintaining accurate records and files and performing additional planning duties as needed.

County of Mendocino

Cannabis Planning Services

4LEAF has played a crucial role in Mendocino County's cannabis licensing process for provisional Department of Cannabis Control (DCC) license holders needing to obtain their local licenses. This project highlights our exceptional capabilities in managing permitting processes, streamlining operations, ensuring regulatory compliance, and supporting applicants through complex licensing transitions.

- **Streamlined Local Licensing**: 4LEAF played a pivotal role in simplifying and expediting the cannabis permitting process in Mendocino County. Our efforts significantly enhanced transparency, visibility, and efficiency within the regulatory framework, benefiting both the county and cannabis businesses.
- **Grant Assistance and Funding Expertise**: 4LEAF planners provided support to applicants by directing them to the appropriate resources and contacts within the Mendocino County Cannabis Department for grant funds and fee waivers. Our guidance ensured that applicants were well-informed and could effectively navigate the grant funding process.
- **Collaboration and Public Outreach**: 4LEAF planners ensured that applicants were well-informed about requirements and processes. Our team maintained open communication channels with the local community and stakeholders, addressing concerns and providing continuous support.
- **Internal Training Processes**: 4LEAF developed and implemented a comprehensive internal training program to guide our team of planners. This included creating detailed guidance documents and templates, ensuring all team members were well-equipped to handle the complexities of cannabis licensing and maintain high standards of regulatory compliance.

- **Large Team and High Volume of Applications**: We assembled a dedicated team of 20 planners for the Mendocino County project. Within a year, this team successfully processed over 400 applications, demonstrating our capacity to manage a high volume of work efficiently and effectively.
- **Implementation of Accela**: The county adopted the Accela Civic Application for Cannabis Regulation, implemented with the support of 4LEAF and our partners. This system improved the management of cannabis permits and licenses, providing a more intuitive experience for both staff and business owners. The initiative significantly increased the capacity for handling a high volume of applications and ensured compliance with regulatory standards.

County of Santa Cruz

Recovery Permit Center Development Services

4LEAF was entrusted to establish and run the recovery permit center for the County of Santa Cruz after the lighting fire. Our duties included creating an all-in-one permitting center that would expedite the permits in the affected area. This required 4LEAF to take over all permit activities for the Building, Planning, Public Works, Engineering, Fire, Geology, and Environmental Health Departments. The area consisted of thirteen hundred lots that all fell within the coastal zones and sensitive protection area. All permit pre-application plan review and inspection services were done through the RPC. The recovery permit center is completely staffed with 4LEAF employees, consisting of the following:

- 6 Community Development Technicians
- 4 Building Inspectors
- 2 Plans Examiners
- 1 Registered Environmental Health Specialist
- 1 Building Official
- 2 Senior Planners
- 1 Civil Engineer
- 1 Deputy Director

Agency Name: County of Santa Cruz

Experience Summary

Mr. Renner is a highly experienced development professional with an extensive background in administration and management. He has successfully overseen 4LEAF's Planning Department through all stages of complex and high-value projects, including the City of Santa Clarita's Housing & Safety Element Updates, the Mendocino County Cannabis Application Processing Program, and On-Call Planning and Environmental services for cities such as Norwalk and Ventura, playing a critical role in shaping and implementing organizational strategic planning on a variety of projects. Michael's proactive communication with project managers and teams ensures clear directives in staffing decisions and project priorities, effectively ensuring he not only meets, but often exceeds stakeholder expectations.

Michael meticulously monitors the progress of various projects, ensuring they adhere to timelines and budgets and ensuring the project teams and staff are performing in alignment with the project's objectives. Additionally, Michael's management approach focuses on mentoring his staff and improving department processes to ensure services are delivered with a high level of customer service and is committed to serving the needs of our client through strong leadership and an effective collaborative approach.

County of Maui, HI – Permit Recovery Center (PRC)
Executive Project Manager
2024 - Present

The 2023 Maui Wildfires were a series of destructive fires that swept throughout Maui, HI, in August 2023. The fires inflicted severe damage, particularly in the historic town of Lahaina on Maui's western peninsula, destroying a significant portion of the town and resulting in the damage or destruction of over 3,000 structures.

The Permit Recovery Center (PRC) is an on-site disaster recovery center exclusively dedicated to providing a vital resource for those who are looking to rebuild in fire-affected areas in Lahaina and Kula as they navigate the permitting process offering a full range of development services to residents, contractors, and developers in the County of Maui.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

City of Santa Clarita, CA – Housing and Safety Element Updates

Executive Project Manager

2019 – Present

Michael is the Executive Project Manager responsible for the management of the Housing and Safety Element Updates for the City of Santa Clarita. This project focuses on the City's Housing Element Update for the 2021-2029 planning period with certification by the California Department of Housing and Community Development (HCD) pending. 4LEAF is currently providing community outreach and public workshops, data collection, Housing Sites Inventory (number of housing units at time of contract was 77,815 total within City limits), drafting the Housing Element, preparation of Zoning Code amendments, and preparing and/or presenting at Planning Commission and City Council meetings.

City of Santa Rosa, CA – Planning Services

Executive Project Manager

2021 – Present

Michael is the Executive Project Manager responsible for the management of the development of the South Santa Rosa Specific Plan and Programmatic Environmental Impact Report (EIR) for a 1,900-acre lot in South Santa Rosa. The goal for the 4LEAF team is to have a comprehensive community involvement strategy that will then help develop a vision for land use in this area.

County of Santa Cruz, CA – Permit Recovery Center (PRC)

Executive Project Manager

2020 – Present

Michael is the Executive Project Manager for the full Fire Recovery Program following the CZU Lightning Complex Fire that took place the week of August 24, 2020. Michael implemented the infrastructure needed to fast-track the Permitting Process for the thousands of displaced residents. In addition to various outreach events, creation of hand-outs, and the coordination of several County divisions, the Recovery Permit Center (RPC) offers a full range of planning and building assistance to residents, contractors, and developers and utilizes the County's electronic plan process.

In the Spring of 2019, the County of Sonoma suffered extensive flooding due the rising waters of the Russian River. Michael was able to immediately dispatch 20 inspectors to inspect/assess the damages caused to properties because of the flood. This saved the County a significant amount of time and money by privatizing the work which was completed over a three-day period.

County of Sonoma, CA – Resiliency Permit Center (RPC)

Executive Project Manager

2019 – 2023

The 2017 Complex Fires resulted in the destruction of 3,000+ residential structures in unincorporated Sonoma County. The Resiliency Permit Center is an on-site disaster recovery center exclusively dedicated to the residential reconstruction permitting needs and offers a full range of development services to residents, contractors, and developers in Sonoma County. Michael served as the Executive Project Manager and oversaw the RPC from staff recruitment, community

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

outreach, the implementation of permitting procedures, plan review management, and building inspections, all while maintaining a cohesive partnership between the County of Sonoma and the 4LEAF, Inc.

Town of Paradise - Fire Recovery | 2019 - 2022

Executive Project Manager

Michael was the Executive Project Manager responsible for the management of the Community Development Services to the Town of Paradise. This four-year contract was put into place and 4LEAF was to provide permitting, plan review, building inspections, public works inspections, planning, code enforcement, debris removal management, and public outreach for the **$9.5 Billion rebuild** set to take place over the next 10 years. 4LEAF assisted the Town with a post disaster recovery-centered office that offers permit intake and processing, record support, plan review, and inspections services for the peak rebuild during the next several years. This office offers the full range of planning and building assistance to residents, contractors, and developers. In addition, 4LEAF provided outreach specialists to help provide education and outreach to the community on processes and progress of rebuilding. 4LEAF and its staff utilized the Accela software for permitting and building.

Calaveras County, CA – Butte Fire Recovery | 2016 - 2017

Interim Building Official

Michael acted as the Interim Building Official during the Butte Fire Recovery process. The Butte Fire burned over 70,000 acres and destroyed over 1,000 structures throughout the County. Michael oversaw the expedited redevelopment of the County.

Interwest Consulting Group, Stockton, CA | 2012 -2016

Building Official

Michael provided review services for residential and non-residential construction project plans for compliance with California Building, Plumbing, Mechanical, Electrical Codes, Energy Standards and California Accessibility Standards, state and local building codes, policies, amendments, and ordinances. He provided as-needed in-house plan review services for the County of Napa and the Town of Atherton.

Experience Summary

Daniel has over 30 years of Planning and Development services experience including over 20 as a public servant for municipalities with populations ranging from 3,500 to over 3.5 million. Daniel's experience covers a range of municipal functions including Planning Director, Senior Planner, Planning Manager/Principal Planner, and Community Development Department Director for public and private sector agencies. He is experienced in land development, construction, community engagement/education, project management, project budget control and oversight, residential, commercial, and industrial site planning and compliance review, and entitlements from single-lots to large complex master planned communities.

Daniel has extensive experience administering and managing regulatory document preparation including creating and updating land development ordinances, comprehensive and general plans, traditional and form-based coding, development agreement negotiations, and residential and commercial design guidelines. His recent planning assignments on behalf of 4LEAF include the cities of Sausalito, Larkspur, Pinole, Greenfield, Hermosa Beach, Imperial Beach, and Jackson County, OR.

Select Professional Experience

4LEAF, Inc. - City of Larkspur, Town of Fairfax & City of Sausalito
Project Manager / Director of Planning

Daniel oversaw the Community Development Departments for the cities of Larkspur and Sausalito, and the Town of Fairfax, which included managing the Planning, Building, and Code Enforcement scopes. Additional responsibilities included providing information to the public regarding zoning regulations and permit procedures, active project proposals, and permit and property records.

4LEAF, Inc. - City of Greenfield, CA
Principal Planner

Daniel was responsible for coordinating the development of the Community Development Policy & Procedure Guidelines for the department. Additional work included cannabis policy, development and cannabis deposit accounts, and development process flowcharts.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

4LEAF, Inc. - City of Pleasant Hill, CA
Contract Project Planner

- Acted as project manager for five development applications.
- Client liaison to commissions, boards, and council.
- Performed design and compliance review with City standards.
- Tentative Maps.
- Master Sign Programs.
- General and Specific Plan Development/Amendments.
- Researched and assisted with grant funding application (SB 2).

4LEAF, Inc. - City of Pinole, CA
Contract Planning Manager

- Supervised Planning, Building, Code Enforcement, and Permit staff.
- Administered General Plan/Specific Plans, Zoning/Subdivision Ordinances, Design Guidelines, and CEQA Compliance.
- Advised at various councils, boards, commissions, and elected officials on planning-related issues
- Served as liaison and performed functions in support of the Planning Commission including project review, staff reports, recommendations, resolutions, and conditions of approval.
- Provided customer service to the public, internal and external departments, and agencies.
- Provided environmental reviews for development projects.

Doña Ana County, NM
Economic Development Manager/Director/Senior Planner
8/2011 - 1/2019

- Oversaw County Economic Development functions.
- Promoted, expanded, and retained business operations county-wide.
- Processed and administered Local Economic Development Act (LEDA) applications/contracts.
- Worked with area agencies to bring economic prosperity to each region.
- Directed Community Development Department consisting of 40+ employees including Current and Advance Planning, Building Services, Geographic Information/Mapping, Grants and Administration, and Animal Control/Code Enforcement Divisions.
- Fostered and encouraged team atmosphere amongst Community Development divisions as well as other county departments and external agencies/organizations.
- Developed department and County policies related to the efficiency of daily operations.

RBF Consulting - Phoenix and San Diego Offices
Senior Planner/Associate/Project Manager
6/2005 - 9/2010

- Successfully managed a variety of commercial and residential development project applications.
- Routinely interacted with City/County staff on submittal of complex planning projects.
- Coordinated various internal/external disciplines to ensure complete submittal packages.
- Managed complex planning studies, development applications, and reviewed proposals.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

- Reviewed and processed complex general, master, and comprehensive plan amendments, rezoning requests, annexations, site plans, minor and major subdivision plats, CEQA compliance (CA only) including assisting with EIRs, Initial Studies, and Categorical Exemptions, and a Coastal Permit in Del Mar, San Diego County.
- Developed project budgets, verified contract expenditures and compliance.
- Conducted research and prepared reports on land use, physical, social, and economic issues.
- Provided professional planning assistance to member communities on varied land use projects.
- Performed field inspections.

Town of Chino Valley, AZ
Planning Manager/Director

California State Association of Counties Challenge Award, 2017

California Planning Director's Association Recognition Award, 2016

Experience Summary

Jane is an experienced planning professional with a proven history of moving forward successful planning and policy initiatives. She has worked as a professional planner for more than 30 years and cares deeply about the communities that she serves. Her decades of experience include both current (project review) planning and comprehensive planning.

Jane has a wealth of experience leading the preparation, adoption, and certification efforts for a variety of comprehensive planning documents, including General Plans and Housing Elements. As the lead staff for the Napa-Sonoma Collaborative, she has led multiple subregional initiatives and is a respected collaborator for the 16 member jurisdictions. Jane has managed efforts to adopt inclusionary and workforce housing programs, created a variety of zoning programs to implement housing and land use policies, and directed progressive and award-winning housing programs.

Professional Experience

4LEAF, Inc.

Director of Advance Planning & Housing

2020 - Present

Jane leads a team of highly skilled planners in all our long-range planning efforts. She undertakes advanced, highly complex professional planning activities and oversees difficult and sensitive planning projects. In addition to policy creation and analysis, she ensures compliance with statutes, oversees our specialized planning functions, and provides overall management on planning issues. Jane leads our General Plan, Area Plan and Specific Plan projects, and recently led the Housing Element updates for 7 cities and two counties with a 100% HCD certification record.

County of Sonoma

Planning Division Manager 2017 – 2021 **Supervising Planner 2015 – 2017** **Planner III 2003 – 2015**

As lead in the County's Comprehensive Planning Division, Jane performed a variety of complex planning and development work on behalf of the Department, the Planning Commission, the Board of Supervisors, developers, contractors, and the public. Her responsibilities included oversight of planning staff in the County's General Plan Update, performing long-range and special planning projects, managing planning policy initiatives, preparing reports and budgets, and presenting to boards and commissions. She authored and implemented many of Sonoma County's innovative programs to remove regulatory barriers and to incentivize housing production, including the award-winning Rental Housing Opportunity Area Program.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

In her first role with the County, Jane focused on advancing land use and regional housing policy initiatives, implementing the County's 3rd cycle Housing Element and various State housing laws through a series of zoning code updates. She also managed the County's housing programs, administered State and Federal grants, implemented state-mandated housing requirements, processed housing development projects, led public workshops, prepared housing element updates for the 4th and 5th cycles, oversaw and directed consultants, and managed a full slate of housing programs.

City of Sebastopol
Associate Planner
1994 - 2002

In her 8+ years with the City, Jane's main responsibilities as an Associate Planner included:

- Developing studies and reports to support new and updated plans, programs, and regulations
- Reviewing and assisting in the review of moderately difficult development proposals and site plans for conformance with codes, plans, and regulations
- Preparing and presenting detailed reports on development proposals to government bodies
- Collecting a variety of statistical data and preparing reports and maps on topics such as census information, land use, tax base data, and occupancy rates
- Evaluating or assisted in the evaluation of re-zonings, ordinance and General Plan amendments, site plans, special use permits, variances, and other proposals
- Acting as liaison between community groups, government agencies, developers, and elected officials in developing neighborhood plans
- Making presentations to boards, commission, and interest groups

City of Healdsburg
Assistant Planner
1990 – 1994

Jane began her professional planning career in the City of Healdsburg, where she worked the front counter providing zoning and property development information to the public; processed development applications including variances, use permits, design review and subdivisions; and made presentations to the Planning Commission. She returned to college to earn her Master's degree while working for the City.

Experience Summary

Tonya is a skilled professional land use planner with 25 years of municipal experience in current and long-range land use permits, environmental review, cannabis permitting, urban design, General Plan preparation and implementation, municipal code updates, economic development, coastal and shoreline permitting, historic preservation, and housing program implementation.

Tonya's professional and academic industry experience contribute to her extensive knowledge of the planning field and her impressive presentation and public speaking skills. She is passionate about helping facilitate responsible initiatives that provide continuous opportunities for livable and equitable communities, and her ability to serve as a leader makes Tonya is an asset to any team, project, and work environment she is assigned.

Select Professional Experience

4LEAF, Inc.
Principal Planner
2022 – Present

Tonya contributes to 4LEAF's municipal Planning Department clients by:

- Leading a team of 20 planners to process a mix of 800 ministerial and discretionary cannabis applications for Mendocino County.
- Managing complicated Planning studies and development applications and environmental reviews.
- Developing budgets, directing bidding processes, and verifying contract expenses and compliance.
- Working in regional program zones including natural and water resources Planning, community development, hazard planning, and coastal zone management.
- Completing field inspections to collect data related to development review processes and verifying that development projects comply with approved plans.
- Serving as a liaison to staff, Planning Commissions, City and County Councils, and Board of Supervisors.
- Supervising and mentoring Junior Planners.

City of Auburn
Senior Planner
2018 – 2022

- Planned, managed, organized, and oversaw operations and services of the Planning Department including current, advanced, and environmental planning; processing of all ministerial and discretionary planning entitlements and General Plan Updates; implementing Master Plans and entitlements associated with the City's Municipal Airport and Waste Treatment Plant; participated

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

as a technical contributor for the City's Local Hazard Mitigation Plan and Airport Land Use Compatibility Plan; prepared and implemented CEQA and NEPA documents.

- Interacted with and assisted the public, development, and business community regarding the planning and/or building process.
- Managed consultants and negotiated professional service contracts.
- Developed policies and procedures; prepared and administered budgets and grants; provided responsible and complex staff support to the City Council, City Manager, Commissions and Committees, and coordinated activities with other City officials, departments/divisions, outside agencies and organizations.
- Prepared, reviewed, attended, and presented staff reports and various updates to the City Council, Planning Commission, Historical Design Review Commission, Placer County Transportation Planning Agency/ Airport Land Use Commission, California Housing and Community Development Department, Sacramento Area Council of Governments, and a wide variety of community groups.
- Supported area plans, neighborhood plans, and other large policy Initiatives.
- Provided regular and timely planning, design, public realm, spatial analysis, and mapping expertise to various master plans, neighborhood plans, and other revitalization projects.
- Reviewed transport aspects of development applications and used GIS for better integration of land use and transportation planning.

City of Millbrae

Community Development Director

2015 – 2018

- Planned, managed, oversaw, and directed all operations and services of the Community Development Department, including activities in the Planning, Building, Code Enforcement, Housing, and Economic Development divisions.
- Managed staff and consultants through direct and subordinate supervisors; developed department goals, policies, and procedures; prepared and administered budgets; provided responsible and complex staff support to the City Council, Planning Commission, City Manager, and coordinated activities with other City officials, departments/divisions, outside agencies.
- Participated in establishing the strategic action plan for the Department including implementation of the organization's mission, vision, goals, and objectives, and participated in follow-through monitoring to assure accomplishment of established goals.
- Monitored and provided policy direction on complex development applications or activities including General Plan Update, Millbrae Area Station Specific Plan, Downtown Enhancement Plan, Housing Element implementation, Parks Master Plan Update, Community Center Restoration, Committee and Commission Reorganization, Grand Boulevard Initiative development, Capital Improvement Projects, grant administration, and modernization of computerized tracking systems, data, and fee schedules.

CSG Consultants, Inc.

Principal Land Use Consultant

2013 – 2015

- City of Millbrae, CA: Developed and implemented new planning and customer service processes

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

for the Community Development Department; prepared environmental review; managed and trained planning staff; prepared staff reports and presented at public hearings; acted as liaison to the Planning Commission; reviewed and issued a variety of entitlements for consistency with applicable laws; reviewed, coordinated, assisted, and developed required ordinance revisions.

- City of Marina, CA: Prepared a Mitigated Negative Declaration for the ADA accessibility and habitat restoration of Dunes State Beach including parking and trail/walkway enhancements. Processed a Planned Development land use application and managed consultants.

City of Half Moon Bay

Associate Planner/Acting Planning Director

2004 – 2013

- Managed the Planning Department's work programs and activities including counter permit and fees, coordination of projects, and support to the Planning Commission and City Council.
- Interpreted architectural and engineering plans and specifications; reviewed and approved building permit applications; assisted the City Engineer with the coordination of large and complex public works and/or capital facilities construction project(s).
- Prepared and implemented CEQA and NEPA environmental assessment documents; interpreted and applied laws, ordinances, and regulations governing planning activities; analyzed and compiled technical and statistical information and reports to draft General Plan elements.
- Interacted with and assisted the general public and the development community regarding the planning and building process; responded to and resolved difficult and sensitive citizen inquiries and complaints; monitored and evaluated the efficiency and effectiveness of service delivery methods and procedures.
- Provided lead direction and supervision to consultants, technical, junior, and clerical staff; trained and assigned staff in areas of work including planning methods, procedures, and techniques.
- Managed project budgets, scope of work, schedule of performance, and regulatory compliance; prepared and evaluated Requests for Proposals/Request for Qualifications for site development and professional consultants; selected and managed consultants.

City of Walnut Creek

Assistant Planner

2001 – 2003

- Interacted with the general public and development community regarding the planning and/or building process; performed building plan checks and inspections; reviewed design and landscape improvements to the City's downtown revitalization plan; coordinated Planning and Building Department activities; issued business licenses and supported Code Enforcement staff.
- Processed planning assignments in accordance with environmental law; primary planner responsible for public inquiries regarding permit process; presented staff reports and recommendations to Committees, Zoning Administrator, and Planning Commission.
- Managed various projects and implemented Planning Department goals and objectives; drafted ordinances and resolutions and assisted in amendments to the City's General Plan and zoning ordinance.

Experience Summary

Accomplished Senior Planner and Environmental Specialist with over 17 years of expertise in land use planning and environmental compliance, with a strong focus on the California Environmental Quality Act (CEQA). Proficient in managing complex planning projects, including drafting and updating General Plans, Housing Elements, existing conditions reports, and specific and master plans. Experienced in evaluating development proposals for alignment with community goals and regulatory standards. Skilled in providing clear, actionable insights that support policy decisions, housing initiatives, and sustainable development. Known for delivering high-quality planning and analytical services to municipalities and private-sector clients, ensuring strict adherence to environmental and planning requirements. Extensive experience providing on-call services to cities across Northern California, driving effective project management and impactful community planning outcomes.

With a strong analytical aptitude and a solutions-driven approach, Kaitlin excels at identifying process improvements. Her self-motivated work ethic and collaborative style consistently contribute to streamlined workflows and enhanced project outcomes.

Select Professional Experience

4LEAF, Inc.
Senior Planner
2023 - Present
Kaitlin helps contribute to the productivity of 4LEAF's Planning Department by:

- Conducting comprehensive California Environmental Quality Act (CEQA) reviews and delivering precise environmental assessments across diverse project types.
- Coordinating closely with local government agencies to deliver efficient on-call planning services, overseeing development application reviews, and providing detailed CEQA documentation.
- Preparing staff reports, resolutions, and ordinances to support recommendations for Design Review, Planning Commission, City Council, and Director Hearings.
- Supporting policy initiatives and-related tasks, including creation of policies and programs in general plans, specific plans, and other local policy documents.
- Supporting the preparation of background reports and amendments for specific and master plans, contributing to effective long-range planning initiatives.
- Reviewing project documents for consistency and compliance, ensuring accuracy and adherence to planning standards.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

Dudek
Environmental Planner
2012 - 2022

- Served in project management and project planner roles on a variety of environmental review projects. Coordinated with technical team members, clients, project applicants and outside agencies.
- Prepared environmental review documents including environmental impact reports (EIRs), mitigated negative declarations (MNDs), and categorical exemptions. Conducted complex impact analyses in the areas of aesthetics, agriculture and forestry resources, cultural resources, land use, population and housing, biological resources, geology, noise, and public services and utilities.
- Provided on-call environmental services for local government agencies. Prepared CEQA documents and conducted peer reviews of applicant-prepared reports and technical studies.
- Served as contract planning staff for local government agencies. Provided front counter assistance, processed development applications and permits, prepared general plan amendments and zoning ordinance updates, prepared technical memoranda, drafted staff reports and public notices, and presented at public hearings.
- Contributed to specific plan and master plan projects, drafting amendments and reviewing development plans for alignment with established community goals.
- Assisted in housing element implementation efforts, providing technical support on planning initiatives and policy updates as required.

North Fork Associates
Environmental Planner
2007 - 2012

- Served as assistant project manager for variety of environmental review projects subject to CEQA. Prepared impact analyses in the areas of land use, biological resources, cultural resources, geology, noise, and public services and utilities.
- Prepared environmental documents, reports, presentations, technical memoranda, and public notices.
- Provided support to on-call planning and environmental staff.
- Conducted research, site visits, document review, and document tracking.
- Assisted in the production of technical reports and biological permitting packages.

Experience Summary

Jose is a dynamic urban planner and Geographic Information Systems (GIS) specialist with extensive experience across diverse sectors. He is fluent in Spanish and brings a unique cultural perspective to his work, facilitating meaningful community engagement and public participation initiatives. His expertise encompasses advocacy for affordable housing, leading inclusive planning projects, and integrating GIS technology into urban development strategies. Jose's notable achievements include leading community-driven initiatives, managing conservation easements, and revitalizing urban spaces through participatory planning. He is dedicated to cultivating diverse, inclusive communities.

Select Professional Experience

4LEAF, Inc. – Pleasanton, CA
Associate Planner / GIS Specialist
2023 - Present

- Assists in producing and managing zoning codes, land regulations, and ordinances.
- Drafts background discussions, policies and programs for Specific Plans and General Plans.
- Manages and issues permits and interprets zoning regulations for the public.
- Provides Spanish translation for outreach materials and community engagement efforts
- Mapping for Napa Sonoma Collaborative Housing Connect tool; AB2334 density bonus eligible tax parcels, SB4 religious institutions, and Transit Oriented Corridors.
- Developed site inventories and analysis for Housing Elements in the 6th Housing Element Planning Cycle, including site identification, capacity analysis, and infrastructure requirements.

LandWatch Monterey County
Housing Advocate
April 2023 – December 2023

- Oversee advocacy efforts for housing elements across Monterey County during the 6th Regional Housing Needs Allocation (RHNA).
- Lead initiatives promoting affordable and fair housing, aligning zoning density with RHNA allocations, and integrating affordable housing into high-opportunity areas.
- Manage the LandWatch Public Data Viewer portal, providing essential resources for municipalities, including RHNA site inventory parcel data, administrative boundaries, land use and

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

zoning information, transportation data, emergency management details, census and demographic statistics, and facility locations.

City of Seaside Community Development Department

Associate Planner

- Administer the city's General Plan and Zoning Ordinance, review development applications, and help shape the future of the community.
- Lead the development of a baseline GIS for the Planning and Building Department, streamlining permitting history from 2013 to 2022.
- Create an interactive web map to display Zoning and Land Use data, consolidating crucial land use information into one publicly accessible platform.
- Collaborate with Computer Science interns from California State University at Monterey Bay and established a GIS-based City of Seaside Building Permit Archive, ensuring accurate data management and standardization of building permit records.

City of Berkeley Public Works Department

Assistant Planner & Geographic Information Systems Specialist

- Lead various projects aimed at enhancing infrastructure management and operational efficiency.
- Develop an ESRI Field Maps application for collecting sidewalk condition assessment data and established data formatting policies for consultant deliverables.
- Data manager and trainer for the implementation of the NEXGEN Enterprise Asset Management System for all Public Works Divisions assets.
- Oversee street imagery and point cloud capture for the Cyclomedia project and assisted in the training and program implementation of a Global Positioning System (GPS) tracking software for the Public Works Zero Waste Division's service vehicles (Zero-Waste Division).

Georgia-Alabama Land Trust, Inc.

Geographic Information Systems Specialist & Regional Stewardship Manager

- Oversee the management of conservation easements in the Chattahoochee River Region and ensured compliance and scheduled maintenance of land management activities.
- Rebuild a geodatabase for conservation easements spanning over 400,000 acres of natural resources and contributed to the development of a GIS model for the Wetlands/In-Lieu Fee Mitigation program managed by the U.S. Army Corps of Engineers in Georgia

City of Culver City

CivicSpark Water Fellow

- Research and plan for the revitalization of Ballona Creek in Culver City, California, utilizing GIS for data analysis and identifying maintenance areas.
- Develop a comprehensive three-lens framework focusing on Community, Environment, and Mobility to guide the restoration project.
- Map parcel ownership and multiple agencies' maintenance jurisdictions along the nine-mile stretch of the creek.
- Organize meetings with over 50 major stakeholders, which led to the formation of the official Ballona Creek Task Force and the prioritization of projects and initiatives for improvement.

Experience Summary

Stacey is a skilled Senior Planner with over 25 years of professional experience, including 18 years of current and long-range land use projects, coastal and shoreline permitting, California Environmental Quality Act (CEQA) review, and General Plan amendments. Her background includes leading significant development projects, crafting local ordinances, and entitlement reviews including Conditional Use Permits (CUP), Coastal Development Permits, Planning Commission Design Review, and more. She is also a skilled Historic Preservation Specialist, having managed the preservation program for a Certified Local Government (CLG) for nine years. As the CLG contact, she oversaw all preservation applications, commission reports and agendas, and historic assessments.

Stacey is an exceptional team member who takes initiative and brings extensive knowledge to each project she is involved in. She advocates a solution-based approach to problem solving and her ability to connect with professional architects, engineers, landscape architects, local agencies, analysts, and other design/construction professionals make her an exceptional team member to any project.

Select Professional Experience

4LEAF, Inc.
Senior Planner / Historic Preservation Specialist
2024 – Present
Stacey contributes to 4LEAF's municipal Planning Department clients by:

- Working in regional program zones including coastal zone management, community development, downtown revitalization, and more.
- Supervising project needs in response to requests from the Community Development Director and the City Council.
- Reviewing development and architectural design plans for industrial, commercial, residential, and multi-family projects to ensure compliance with development standards in the Municipal Code, General Plan, certified Local Coastal Plan, along with local, state, and federal regulations.
- Researching and preparing staff reports, resolutions, and ordinances for recommendations for Design Review, Planning Commission, Historical Design Review Commission, California Coastal Commission, City Council, and Director Hearings.
- Providing planning assistance to member communities on diverse land use projects.
- Performing California Environmental Quality Act (CEQA) reviews.
- Assessing potentially historic properties for eligibility on the Local, California, or National Registers.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

- Providing Historic Preservation training to staff and members of the community.

City of Redondo Beach
Senior Planner
2015 – 2024

- Managed the Preservation Program including researching and preparing eligibility reports for potentially historic properties, reviewing Landmark Designation and Certificate of Appropriateness applications, reviewing maintenance requests to historic properties, performing historic site inspections (over 110 Mills Act properties), preparing the annual Certified Local Government (CLG) report, preparing staff reports, and providing presentations to the Preservation Commission.
- Project manager for major development projects including the creation of realistic project schedules, the oversight of environmental review per CEQA, coordinating with consultants/legal team, and preparing staff reports and presentations for public hearings
- Managed the creation of the City's Body Art and Massage Ordinances, including writing the staff reports for each, and presenting the findings to the Planning Commission.
- Reviewed and managed a variety of entitlements including but not limited to Conditional Use Permits (CUP), Coastal Development Permits, Planning Commission Design Review, Modifications (minor variances), Variances, and Administrative Design Review for new condominiums and single-family residential.
- Reviewed and analyzed residential/commercial/industrial projects for compliance with the General Plan, the Objective Residential Standards, the development standards in the Municipal Code, and the certified Local Coastal Plan.
- Provided additional support for the assigned Planner regarding the Legado project (115 Units + Hotel) at 1700 S. Pacific Coast Highway as well as the 3-part hotel project at 2410 Marine Avenue. Work included plan review, managing environmental review, and ghost-writing portions of the staff report/presentation materials.
- Reviewed and managed the South Bay Galleria Improvement project (30-acre redevelopment), including environmental review per CEQA.
- Participated in the creation of the new Objective Residential Standards.
- Reviewed and provided input regarding various sections of the draft General Plan Update, particularly the Land Use Element and the new Cultural Resources Element.
- Participated in early discussions for the City's EV Charging Ordinance, zoning text amendments for allowable signage, and possible rooftop/outdoor dining programs.
- Supervised line staff including the creation of Planning counter schedules and providing ongoing training/guidance to the Planning Intern, Planning Technician, Associate Planner, and part-time Assistant Planner.
- Programs and software used: Outlook, Excel, Zoom, Teams, Bluebeam, MUNIS, CityTech Solutions (online application portal), and Legistar (agendas).

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

Charles Abbot Associates for the City of Palos Verdes Estates
City Planner
2006 – 2014

- Managed residential development projects including neighborhood compatibility review, prepared all Planning Commission agenda materials, presented development projects at public hearings, performed final inspections for all new homes and major additions, and managed the public counter.
- Conducted the annual Conditional Use Permit review.
- Managed the Congestion Management Program.
- Coordinated directly with the California Coastal Commission for cliff-side projects.
- Charles Abbott Associates (CAA) provided ongoing Planning training, including attendance at APA conferences and CEQA training through UC Riverside Extension Program.
- Member of internal leadership group at CAA .

City of Manhattan Beach
Assistant Planner
2006

- Managed minor development projects, assisted with general inquiries at the public counter, prepared Planning Commission materials, and participated in the early discussions for a preservation program.

Palos Verdes Homes Association
Administrative Assistant
2005 – 2006

- Reviewed plan submittals, coordinated Art Jury meetings, prepared meeting minutes, assisted the public at the counter, and maintained the project database.

Chester Smith Associates
Project Manager / Designer
1999 – 2005

- Managed residential development projects from start to finish, including client meetings, site inspections, property surveys/measurements, drafting architectural plans, preparing agency submittals, attending public hearings, and managing the Building plan check process.
- Utilized survey equipment in the field, walked construction sites at various stages, performed minor AutoCAD work, and operated an old blueprint machine.
- Assisted with office management, including answering phones, preparing invoices, and maintaining project files.

Avery Frank

Senior Planner

Experience
4+ years

Education
M.A, Community & Regional Planning
B.A., Liberal Arts
University of New Mexico

Skills
Adobe Illustrator
Adobe Photoshop
Power Automate
Public Speaking

Experience Summary

Avery is a results-driven Senior Planner with over 4 years of extensive experience in land use, development, regulatory compliance, and public policy. She brings a wealth of experience from both public and private sectors, having worked with federal agencies, municipalities, and consulting firms. Her background includes transportation planning, disaster mitigation planning, and urban and regional planning. Avery has played a key role in entitlement applications, long-range land use planning, and policy analysis, ensuring projects align with regulations and community needs.

With a Master's in Community & Regional Planning from the University of New Mexico, Avery combines technical expertise with leadership, stakeholder engagement, and program management. She has experience overseeing zoning permitting, and land use policy development at the municipal level and has led educational programs to support community growth. Avery is dedicated to creating effective planning solutions and would be an asset to any project she is part of.

Select Professional Experience

4LEAF, Inc.
Senior Planner
2025 – Present
Avery contributes to 4LEAF's Planning Department by:

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

Syed Waqar Shah ("Waqar")

Associate Planner

Experience

6+ years

Education

M.P.S., Urban Planning George Washington University

B.S., Environmental Science Virginia Tech

Professional Affiliations

American Planning Association – Sacramento Valley Diversity, Equity, and Inclusion Subcommittee

Experience Summary

Waqar has over six years of planning and development services experience including independent work on zoning code and design guideline updates for the City of Rancho Cordova and public health impacts of urban parks and public open spaces for Arlington County. He also played a pivotal role in drafting portions of the City of Santa Clarita Hazard Mitigation Plan and assisted the County of San Mateo with presenting high-profile projects to various hearing presentations for governmental bodies to explain and clarify planning projects and staff report recommendations.

Waqar is an exceptional team member who takes initiative and brings extensive knowledge to each project he is involved in. His education and professional background have given him the knowledge and skills to excel in the areas of urban planning, land use planning and development, zoning ordinances and regulations, land-use policies, and community engagement. With his drive for knowledge and attention to detail, Waqar is an exceptional addition to any project.

Select Professional Experience

4LEAF, Inc.

Associate Planner

2025 – Present

As an Associate Planner, Waqar supports various clients on behalf of 4LEAF's Planning Department. He assists on many of our on-call planning projects and has previously provided services for the **cities of Newark, Novato, Larkspur, and the County of San Mateo**. Some of his job duties include:

- Assisting with project needs in response to requests from the Community Development Director and the City Council.
- Preparing staff reports, resolutions, and ordinances for recommendations for the Planning Commission, City Council, and Director Hearings.
- Manages and distributes permits and interprets zoning regulations for the public.
- Processes building and planning entitlement applications, defines problems and alternative solutions, works with applicants, and sets goal and timelines as part of the on-going planning process.
- Reviews and interprets planning ordinances, regulations, and land-use policies.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

City of Berkeley, CA – Land Use Division
Associate Planner
2023 – 2025

- Engaged with stakeholders via the front counter, telephone, and web-based public engagement to respond to inquiries on project impacts, timelines, and city policies, enhancing transparency and community trust.
- Ensured project adherence to Berkeley Municipal Code and prepared staff reports, findings and conditions, and recommending amendments as required.
- Presented discretionary Zoning Entitlement applications such as for Conditional Use Permits and Variances before the City Council and the Zoning Adjustment's Board, facilitating project approvals.
- Reviewed multi-family housing applications under California State Density Bonus Law, balancing compliance with housing affordability goals.

4LEAF, Inc.
Associate Planner
2021 - 2023

- Processed building and planning entitlement applications, updates the Accela permit tracking system, research permit history, defines problems and alternative solutions, works with applicants, and sets goals and timelines as part of the ongoing planning process.
- Reviewed and interpreted planning ordinances, regulations, and land-use policies.
- Performed oral presentations to governmental bodies that explain and clarify planning projects and staff report recommendations such as the North Fair Oaks Community Council staff report and hearing presentation for the Empanadas King Restaurant use permit, zoning hearing officer public hearing for the Empanadas King Restaurant use permit, and the 624 Hurlingame non-conforming use permit zoning hearing officer public hearing presentation.
- Researched, compiled, synthesized, analyzed, interpreted, and validated information and land-use data using associated computer software and databases to meet planning objectives.
- Provided general information to the public in response to questions about projects, planning programs, applicable ordinances, policies, and procedures.

Interwest Consulting Group – Roseville, CA
Assistant Planner
2019 - 2020

- Researched, analyzed, and interpreted social, economic, population, and land use data trends.
- Prepared and coauthored sections of written reports on various planning matters and elements of zoning code amendments, design guideline updates, and hazard mitigation plans.
- Staffed planning counter to answer public questions and provide information and documents.
- Reviewed development applications for consistency with City policies and standards.
- Prepared staff reports and correspondence for various boards, commissions, community groups and other governmental bodies.
- Planned and approved City mailings and correspondences for public noticing.

Docusign Envelope ID: E3DE15E3-4074-4FB6-A4B0-C948E71EA290

- Examined commercial, industrial, and residential development plans for issuance of zone clearance/allowance.
- Processed business license and permit applications (discretionary entitlement, administrative entitlement, temporary use permits, zoning verification/certification, and variances.

Z Global Inc., Power Engineering and Energy Solutions – Folsom, CA

Environmental Regulatory Planner

5/2019 - 9/2019

- Evaluated permitting feasibility for solar development projects in CA Central Valley.
- Researched and interpreted zoning, land use, and development requirements.
- Researched and interpreted federal, state, and local regulations and requirements.
- Prepared solar development fatal flaw analysis of potential projects.
- Prepared CEQA/NEPA land development/entitlement packages such as conditional use permits, variances, initial studies, environmental impact reports, general plan and ordinance amendments, and zone changes.

PROFESSIONAL SERVICES MASTER AGREEMENT (ON-CALL PLANNING)

BETWEEN

CITY OF BENICIA AND

BAE Urban Economics, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and BAE Urban Economics, Inc., a California Corporation located at 2030 Addison Street, Suite 640, Berkeley, California 94704, licensed to do business in California, ("CONTRACTOR") relating to BAE Urban - Planning Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Land Use Economics

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity,

including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

   1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

   2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Stephanie Hagar

Principal

stephaniehagar@bae1.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between BAE Urban Economics, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Re: Cover Letter

Dear Ms. Hofacre:

BAE Urban Economics, Inc. ("BAE") is pleased to submit this Statement of Qualifications to provide on-call planning consulting services to the City of Benicia. This submittal outlines BAE's expertise in the Land Use Economics Service Area (4.5) identified in the City's Request for Proposals (RFP).

BAE is especially well-suited to serve in this role. We are a long-established, award-winning consulting firm with a national presence and deep local roots. Headquartered in Berkeley with branch offices in Los Angeles, Sacramento, Portland, New York City, Atlanta, and Washington, DC, our broad footprint enables us to apply cutting-edge best practices while maintaining a strong understanding of regional markets and policy landscapes.

Our team has prepared hundreds of market studies and financial feasibility analyses. We are known for combining rigorous data analysis with insight into broader economic and development trends, allowing us to anticipate challenges, identify strategic opportunities, and deliver actionable guidance.

BAE is a recognized leader in fiscal and economic impact analysis, having completed more than 100 such studies for individual projects and long-range plans. We bring meticulous attention to detail to our analyses, ensuring realistic projections of impacts on local revenues and service costs. Our studies often inform public-private negotiations and have helped secure monetary and in-kind contributions from developers to support community goals and ensure fiscally positive outcomes.

We also bring extensive experience in Solano County and the North Bay region. Our projects have included key planning initiatives such as the Heart of Fairfield Specific Plan, Suisun City Downtown Waterfront Specific Plan, and Propel Vallejo General Plan Update. For these and other efforts, we've provided market and financial feasibility analysis, public infrastructure

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

financing strategies, and housing policy guidance. Current projects include a market analysis for the Suisun/Fairfield Amtrak Station Area and a countywide Housing Plan for Solano County.

This contract will be led by Principal Stephanie Hagar, a Benicia resident who brings local insight and deep expertise to our team's work.

We welcome the opportunity to support the City of Benicia on upcoming consulting engagements. Please contact Stephanie Hagar at stephaniehagar@bae1.com or at 510.954.6847 if you have any questions or comments regarding this submittal.

Sincerely,

Stephanie Hagar
Principal

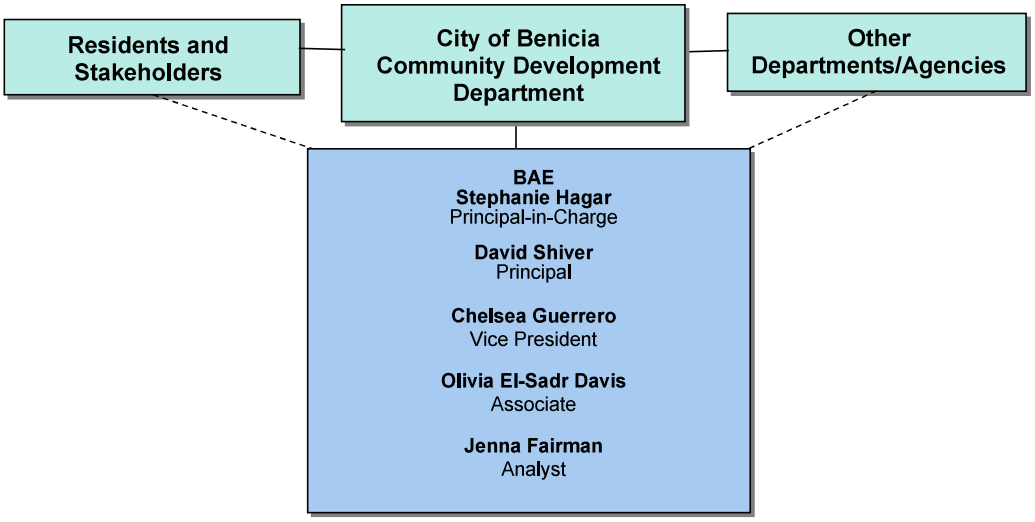
1. PROJECT ORGANIZATION

1.1 Name of Subcontractors

BAE is not proposing the use of any subcontractors for the on-call services requested in this RFP.

1.2 Project Organization Chart

Below is the proposed project organization chart. Stephanie Hagar, Principal-in-Charge, will be the main point of contact for City staff, and coordinate the BAE project team. BAE will work with the City of Benicia's Community Development Department and any other relevant stakeholders, departments, and agencies on each project.



1.3 Description of Responsibilities

For land use economics consulting projects completed pursuant to this submittal, BAE anticipates that Principal Stephanie Hagar will serve as Principal-in-Charge. For each project, Stephanie will identify project goals in coordination with City staff, establish BAE's overall approach, oversee BAE's staff team, prepare key elements of BAE's analysis and written deliverables as needed, and review all work products to ensure quality control. Olivia El-Sadr Davis, Associate, will serve as Project Manager and the primary analytical lead, with support from Analyst Jenna Fairman. Chelsea Guerrero, Vice President, will be available as technical advisory lead for more complex projects that require additional staffing. Principal David Shiver will also be available as a special advisor for projects involving real estate advisory services.

For additional information about BAE's team members and their experience, see the resumes in Section 4 of this proposal.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Stephanie Hagar, Principal/Principal-in-Charge

Stephanie Hagar will provide strong leadership and expertise in land use economics to BAE's work in the City of Benicia. She specializes in fiscal impact and development feasibility analysis, real estate market studies, community benefits analysis, and affordable housing policy. A Benicia resident, Stephanie is deeply familiar with both the City of Benicia and the surrounding region. Her work has included market, financial feasibility, fiscal impact, and housing analyses to support various projects in Solano County, including the Heart of Fairfield Specific Plan, the Suisun City Downtown Waterfront Specific Plan, the Propel Vallejo General Plan Update, an ongoing study to evaluate real estate development opportunities in the area adjacent to the Suisun City/Fairfield Amtrak station, and an ongoing Housing Plan for the County of Solano. Her other work in the North Bay has included preparation of an inclusionary housing feasibility analysis for the City of Napa, an analysis of the fiscal and housing impacts of new hotels in the City of Napa, and providing economic analysis for the San Rafael Downtown Precise Plan and General Plan Update.

David Shiver, Principal/Special Advisor

David Shiver will bring more than 30 years of experience in financial and real estate market analysis, including preparing residential and commercial market studies, market rent surveys, project and prototypical mixed-use project financial analyses, community benefit studies, fiscal impact studies, economic benefit studies, lease analyses, highest and best use studies, developer solicitations, and P3 term sheets/negotiations.

Chelsea Guerrero, Vice President/Technical Advisory Lead

Chelsea Guerrero will bring a strong background in research, data analytics, project management, and policy evaluation to the City of Benicia, with more than ten years of experience in economic consulting. With expertise in econometric statistical modeling, she specializes in complex quantitative analyses to support projects throughout the nation. Chelsea has extensive experience preparing market, feasibility, fiscal and economic analyses to inform long-range planning decisions and the evaluation of proposed development projects. Chelsea's recent projects in Solano County have included economic analysis to support a specific plan process in the City of Vacaville and market analysis to support an ongoing study to evaluate real estate development opportunities in the area adjacent to the Suisun City/Fairfield Amtrak station.

Olivia El-Sadr Davis, Associate/Project Manager

Olivia El-Sadr Davis will bring a background in qualitative and quantitative research, geospatial analysis, and housing policy to BAE's work with the City. Olivia provides research and analytical support for BAE's Northern California consulting assignments, with projects including fiscal impact analyses, affordable housing investment strategies, real estate market studies, economic background analysis for Specific Plans, economic development strategies, and demographic profiles for clients in the Bay Area and throughout California. Working with

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Stephanie Hagar, Olivia will provide project management support throughout BAE's engagements with the City of Benicia.

Jenna Fairman, Analyst

Jenna Fairman will bring a strong foundation in research, complex database development, and geospatial analysis to BAE's work with the City of Benicia. Jenna provides data collection, analysis, visualization, and mapping to support BAE's work across a wide variety of disciplines, including residential/commercial market studies, real estate advisory services, housing nexus studies, and specific planning processes.

1.4 Team Members

The BAE team members listed in Section 1.3 are highly qualified to provide Land Use Economics consulting services (Service Area 4.5) to the City of Benicia. For each project, BAE will assign specific team members based on their individual expertise, ensuring that all assigned staff have the capacity to meet the City's project-specific requirements and timeline. BAE plans staffing for each assignment on a quarterly, monthly, and weekly basis, enabling us to anticipate staff availability and project needs in the long term, while also allowing for short-term adjustments as new needs arise.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

2. APPROACH

2.1 Approach for Completing the Scope of Work

BAE provides a full suite of land use economic consulting services to assist the City of Benicia in reviewing proposed development projects and evaluating City policies and programs to address key challenges and capitalize on key opportunities. This section provides general information on BAE's approach to various projects that are consistent with the Land Use Economics Service Area (4.5) identified in the City's Request for Proposals.

Real Estate Market Data and Analysis. BAE offers real estate market data and analysis expertise in support of general plans, subarea plans, corridor studies, TOD plans, highest and best use studies, and infrastructure financing plans, frequently working with multidisciplinary teams of planners, architects, and civil engineers. BAE's expertise extends across a wide range of land uses, including residential, office/R&D, retail, hospitality, and industrial/warehouse. Through our robust research-driven real estate market data and analysis, BAE provides its clients with timely and relevant information to inform land use decision-making. BAE will apply this approach to any real estate market analysis that the City of Benicia requires, from evaluating the market for residential, commercial, or mixed-use development on City-owned sites to identifying potential uses for major planning efforts.

Financial Feasibility and Pro Forma Studies. BAE will provide the City of Benicia with financial feasibility analyses to identify opportunities and challenges for new development, from infill sites in Benicia's historic downtown to major land use plans. BAE provides financial feasibility and pro forma analyses in support of highest and best use studies, community benefit programs, inclusionary housing and in-lieu fee programs, developer proposal reviews, public asset lease vs. sell disposition studies, and value capture studies. As part of its financial feasibility and pro forma practice, BAE models the anticipated economic performance of a development project, utilizing real estate market research, construction costs, permitting and impact fee costs, and real estate developer and investor investment goals and testing the sensitivity of pro forma results given changes in key market, cost, and financial variables.

Community Benefits Analyses. BAE will provide the City of Benicia with comprehensive analysis to support community benefits from new development, whether the City is considering the establishment of new community benefits programs, evaluating the contributions that a specific project should make, or identifying the value of community benefits packages proposed by developers. Our public sector clients have used our expertise to establish and implement new community benefits programs, as well as to negotiate for additional community benefits from development projects. Our approach incorporates a value capture perspective, recognizing that local governments create value by implementing zoning changes and offering development incentives, and that this added value can often support community benefits contributions.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Fiscal Impact and Economic Benefits Studies. As Benicia considers new development projects and plans, BAE will prepare comprehensive fiscal impact and economic benefit studies to help City staff and decision makers understand the fiscal and economic implications of land use decisions. Our fiscal impact models will be tailored to Benicia's specific set of revenues and service expenditures, accounting for Benicia's status as a full-service City that provides its own police, fire, parks, and water services. Local government agencies have used our fiscal impact studies to inform negotiations for community benefits from proposed development projects, resulting in monetary and in-kind community benefits contributions from development projects. Our economic impact studies estimate how a proposed development project or new set of land uses will contribute to direct, indirect, and induced job generation in the local economy, including using the widely-accepted IMPLAN input-output model for California and its constituent cities and counties.

Real Estate Advisory Public Private Partnerships. BAE supports public-private partnership (P3) collaborations between its public clients and private developers by offering P3 structuring, RFQ/P developer solicitations, developer proposal evaluations, term sheet and agreement negotiations for a variety of P3 projects, including development agreements, ground lease and sale disposition agreements, and master development agreements. BAE will provide the City of Benicia with real estate advisory services to achieve successful outcomes that minimize the City's risk, provide fair returns to both the public and private sector, and avoid impairing development project feasibility. BAE's work for the City of Benicia could include assisting the City with RFQ/P developer solicitations and developer proposal evaluations for City-owned parking lots in the Downtown area or supporting the City in negotiating deal terms for development agreements for major development applications.

Economic Development Strategic Plans. BAE prepares economic development strategic plans, downtown revitalization plans, retail analysis, industrial land demand studies, innovation district plans, and tourism studies in support of local and regional initiatives to grow, sustain, and expand economic vitality. BAE's approach to economic development is to formulate actionable recommendations based on insightful data analysis, deep understanding of underlying economic and consumer trends, and thoughtful input from employers, policymakers, community members, and other stakeholders.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

2.2 Level of Effort Letter

BAE contracts either on a fixed fee or on time and materials not to exceed basis. Contracts based on time and materials are subject to hourly fees for BAE professional staff. These rates are subject to revision on or after January 1, 2026. BAE acknowledges that the annual increases will not exceed five percent or the current year's Consumer Price Index (CPI) increase for the San Francisco Bay Area, whichever is lower.

BAE's hourly rates for calendar year 2025 are as follows:

Principal	$320-350/hour
Associate Principal	$305/hour
Director	$295/hour
Vice President	$290/hour
Senior Associate	$230/hour
Associate	$180/hour
Senior Analyst	$140/hour
Analyst	$125/hour

Miscellaneous expenses such as data purchase, travel, and document production are passed through to the client with no markup. For the type of projects BAE anticipates completing under this on-call contract, typical data purchase costs range from $0 to $500 per project. Travel expenses will likely be minimal, as the BAE team is local to the Bay Area.

4. RESUMES

4.1 Resumes

Please see the following pages for the resumes of BAE's key team members, including information on fields of expertise and relevant projects.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Stephanie Hagar, MCP
Principal

Education

Master of City Planning, UC Berkeley

Bachelor of Art, Psychology, UC San Diego

Professional Experience

Stephanie provides strong leadership and project management to BAE engagements throughout the western US. She specializes in fiscal impact and development feasibility analysis as well as affordable housing policy and real estate market studies.

With a deep understanding of diverse land uses, Stephanie has led comprehensive market and financial feasibility analyses for office, life sciences, lodging, retail, industrial, and residential development. As the project manager for BAE's economic analysis supporting the Downtown Precise Plan in San Rafael's SMART station area, she evaluated real estate opportunities, assessed development feasibility, and analyzed fiscal impacts on the City's budget. Her other projects have included real estate market and financial feasibility analysis for specific plans in Fairfield, South San Francisco, Suisun City, and Gilroy, as well as site-specific analyses for projects in Menlo Park, North Richmond, and Pittsburg.

Stephanie also offers expertise in fiscal impact analysis for a wide range of land uses. She has completed analyses of the fiscal impacts of several proposed development projects in East Palo Alto. She has also led over a dozen major fiscal impact evaluations for projects and planning efforts in Menlo Park, CA including for two separate expansions of the Facebook headquarters campus, two housing Element Updates, and multiple major office and life sciences developments. Her other fiscal impact analyses include evaluations of proposed projects and conceptual plans in Daly City, Foster City, Mountain View, Napa, San Jose, San Rafael, and Vallejo, California.

David has more than 30 years of real estate market and financial analysis experience. His experience includes preparing residential and commercial market studies, market rent surveys, project and prototypical mixed-use project financial analyses, community benefit studies, fiscal impact studies, economic benefit studies, lease analyses, highest and best use studies, developer solicitations, and P3 term sheets/negotiations.

Over the past 24 years, David has served as Principal-in-Charge for BAE's real estate advisory services to NASA Ames for the initial concept planning and subsequent implementation of the multiple award-winning NASA Research Park at Moffett Field, California. He has served as the lead real estate advisor for NASA's landmark long-term leases to Google, Inc. ($146M, 42 acres; office/R&D/housing; $1.1B,1,000-acre airfield and hangars) as well to Carnegie Mellon University (historic rehabilitation for west coast campus) and UC Berkeley's 32-acre Berkeley Space Center (new construction).

David's long-term real estate advisory work with NASA and the National Park Service has led to NASA Research Park and Golden Gate National Recreation Area being recognized internationally as successful examples of innovative public private partnerships.

David has made numerous presentations of his work to public bodies and professional associations, including CoreNet Global, American Planning Association, American Defense Communities, Advisory Council for Historic Preservation, Nishiyama Bunko (Osaka), National Trust for Historic Preservation, and Society of Military Engineers.

Professional Experience

Chelsea is a Vice President in BAE's San Francisco Bay Area office and brings a strong background in research, data analytics, project management, and policy evaluation to BAE. With expertise in econometric statistical modeling, she specializes in complex quantitative analyses to support BAE's projects throughout the nation.

Chelsea has extensive experience preparing market, feasibility, and economic analyses to inform long-range planning decisions and the evaluation of proposed development projects. She has prepared fiscal impact analyses to evaluate the fiscal impacts from complex real estate development projects, major area plans, public policies, and land use changes in communities throughout California. She also has experience preparing financial feasibility analyses to support negotiations for new joint development projects and private development projects seeking public benefit density bonuses in the Bay Area. Her recent housing-related work includes financial feasibility testing of affordable housing impact fees and potential inclusionary housing policy options in the cities of Sunnyvale, San Leandro, Atherton, Napa, and Menlo Park.

Before joining BAE, Chelsea worked at the Metropolitan Transportation Commission (MTC) on its Regional Prosperity Plan, a three-year regional planning initiative funded by the U.S. Department of Housing and Urban Development (HUD).

Olivia El-Sadr Davis, MCP
Associate

Education

Master of City Planning, UC Berkeley

Bachelor of Arts, Economics and Art History, New York University

Professional Experience

Olivia El-Sadr Davis is an Associate in BAE's Berkeley office, and brings a background in qualitative and quantitative research, geospatial analysis, housing, and design.

Olivia provides research and analytical support for BAE's Northern California and Pacific Northwest consulting assignments. Projects at BAE have included affordable housing investment strategies, real estate market studies, economic background analysis for Specific Plans, economic development strategies, and demographic profiles for clients in the Bay Area, Central Valley, and Seattle.

Prior to joining BAE, Olivia worked for the Terner Center for Housing Innovation, where she contributed to a landscape assessment of California's homelessness programs for the State Legislature and Governor Newsom. For the study, she conducted stakeholder interviews with local government leaders and service providers, and synthesized findings into written deliverables for the statewide report. She also worked as a Fellow focusing on housing tech at the Terner Innovation Labs, an accelerator for early-stage ventures focused on improving the housing market and making it more affordable and fairer.

As a graduate student, Olivia specialized in affordable housing, community development, and urban design, focusing her research on how policy change impacts the built environment.

Jenna Fairman
Analyst

Education

Bachelor of Science, UC Davis

Professional Experience

Jenna Fairman is an Analyst in BAE's Sacramento Region office. She brings a strong foundation in research, complex database development, and geospatial analysis to consulting assignments across the company.

Jenna provides data collection, analysis, visualization, and mapping to support BAE's work across a wide variety of disciplines. She has conducted research for a variety of projects throughout California. She provided critical research support for the Placer County Housing Market Study and is currently providing similar support for market studies for sites in Pittsburg and Rohnert Park, California, which are still ongoing. She provided data collection support and geographic information systems (GIS) analysis for potential residential and non-residential vacancy tax measures in Nevada County and the Town of Truckee. She also provided research support for an analysis of a housing nexus study in Campbell, California, collecting economic and real estate market data.

Prior to joining BAE, Jenna worked in an environmental ecology lab, assisting in research, data collection, and project design.

5. PRICING PROPOSAL

BAE contracts either on a fixed fee or on time and materials not to exceed basis. Contracts based on time and materials are subject to hourly fees for BAE professional staff. These rates are subject to revision on or after January 1, 2026. BAE acknowledges that the annual increases will not exceed 5 percent or the current year's Consumer Price Index (CPI) increase for the San Francisco Bay Area, whichever is lower.

BAE's hourly rates for calendar year 2025 are as follows:

Principal	$320-350/hour
Associate Principal	$305/hour
Director	$295/hour
Vice President	$290/hour
Senior Associate	$230/hour
Associate	$180/hour
Senior Analyst	$140/hour
Analyst	$125/hour

Miscellaneous expenses such as data purchase, travel, and document production are passed through to the client with no markup. For the type of projects BAE anticipates completing under this on-call contract, typical data purchase costs range from $0 to $500 per project. Travel expenses will likely be minimal, as the BAE team is local to the Bay Area.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

6. PRIOR LITIGATION/CLAIMS

6.1 Litigation Claims

BAE has not had any litigation or claims threatened, filed, or settled against the company in the past five years. Similarly, BAE has not threatened, filed, or settled any claims against another party in the past five years.

6.2 Failed Project Completions

BAE has never failed to complete any work that we have been awarded due to an inability or unwillingness to fulfill the established scope. However, our consulting engagements often require flexibility, as project needs may evolve over time. In some cases, changes in project direction or client priorities may lead to the conclusion that certain elements of the original scope of work are no longer necessary or appropriate. When this occurs, we work closely with our clients to ensure transparent communication and alignment on the most suitable next steps. While BAE does not maintain a formal list of such instances, we would be happy to discuss any questions or concerns with Benicia City staff.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

7. FINANCIAL AND RELATED INFORMATION

7.1 Audited and/or Reviewed Financial Statements

BAE confirms that upon request we will provide reviewed financial statements for the last three fiscal years.

7.2 Letter From Insurance Broker

BAE confirms that upon request we are able to provide a letter from our insurance broker attesting to meeting the insurance coverages described in the Professional Services Agreement.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

8. DISCRETIONARY SUPPLEMENTAL MATERIALS

8.1 Discretionary Supplemental Materials

About BAE

BAE Urban Economics, Inc. is an award-winning, national urban economics and real estate consultancy. Since 1986, we have completed more than 2,600 client engagements for public agencies, non-profit organizations, financial institutions, and real estate investors and developers. All of our work is led by seasoned professionals, who are responsible for project direction and quality control.

BAE's services and practice areas include:

- Market and Financial Feasibility Analyses
- Fiscal Impacts and Economic Benefits Analyses
- Equitable Development and TOD
- Affordable and Workforce Housing
- Economic Development and Revitalization
- Public-Private Partnership (P3) Structuring and Negotiation Support
- Public Finance

BAE's passion about the "triple bottom-line" of sustainable economics, equity, and environment makes us unique among urban economists. We believe that there are practical solutions to urban issues which will achieve this triple bottom-line, and that consideration of environmental impacts and social benefits as well as financial returns result in the best value for our clients.

Our company has practiced this same philosophy since our inception with intentional investments in our staff and workplaces to foster creativity and a commitment to excellence. We have pioneered the use of survey research to target urban housing products, created innovative GIS tools for smart growth planning, and provided real estate advisory services to some of the nation's largest revitalization and sustainable development efforts.

The BAE difference shows - we have earned more awards for excellence than any other firm in our field and our clients have retained us repeatedly over our 38-year history. BAE has 21 staff members in six offices, including Los Angeles, San Francisco, Sacramento, Atlanta, Washington DC, and New York City. BAE is also certified as an MBE/DBE/SBE by numerous public agencies.

The following pages provide a summary of relevant projects completed by BAE. For more information, see www.bae1.com.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Menlo Park Real Estate and Economic Analysis Services

City of Menlo Park, CA

Since 2008, BAE has provided economic analysis support related to major projects and planning initiatives in Menlo Park, including:

Community Benefits Analyses. BAE has evaluated approximately a dozen proposed development projects in Menlo Park to assess their potential for supporting community benefits and estimate the value of developers' proposed contributions. This includes evaluating community benefits for several developments in Menlo Park's Bayfront area, such as the 59-acre Willow Village project, with a community amenities package valued at over $250 million. Under the City's Downtown Specific Plan, developers can build at higher densities in exchange for providing public benefits. BAE has conducted financial pro forma analyses for office, hotel, retail, residential, and mixed-use projects seeking a public benefit density bonus to assess the increase in developer profit and its relation to public benefit contributions. These analyses have helped City Council and staff in evaluating proposed contributions, often leading to higher community benefits.

Fiscal Impact Analyses. BAE has conducted approximately 20 fiscal impact analyses for citywide planning efforts and major projects, including the Menlo Park 5th and 6th Cycle Housing Element Updates, two Facebook Campus expansions, multiple office, life sciences, and residential developments, and the Willow Village mixed-use project. The Willow Village development includes 1.6 million square feet of office space, 1,730 residential units, a hotel, 200,000 square feet of retail space, and public parks. These analyses have been used by City staff, the public, and local decision-making bodies to inform planning efforts, evaluate specific projects, and determine financial contribution requirements for development agreements associated with major projects.

Housing Needs Assessments. BAE has conducted housing needs assessments for proposed developments in Menlo Park, including a 230,000-square-foot R&D project and a 432-unit residential development. These assessments estimated the number of workers by income level generated by each project and the affordable housing units needed. The analyses also evaluated indirect and induced housing needs resulting from new businesses and workers spending in the local economy, supporting additional job growth, and assessed the local housing market's capacity to absorb the total housing demand.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

South San Francisco Real Estate Advisory Services

City of South San Francisco

BAE has held an on-call economic consulting services contract with the City of South San Francisco for several years. Through this contract, BAE has provided the City with flexible, short-turnaround analyses as needed to support multiple City initiatives. These have included:

Library Reuse Analysis. BAE provided an assessment of the potential reuse value of a City-owned library building for residential development for office development, for comparison with estimated costs to refurbish the space for a city sponsored childcare facility. BAE analyzed the potential value of the property for adaptive reuse for private offices and for clearing the site for residential development.

COVID-19 Emergency Business Loan Fund Underwriting. BAE is helping the City implement an emergency loan program to assist businesses facing short-term difficulty due to the coronavirus epidemic, using CDBG funds. BAE provided input on eligibility criteria, loan application materials, and loan underwriting.

Pro Forma Analysis of Municipal Services Building and Buri Buri Shopping Center. BAE prepared an analysis of the potential economic benefits of potential joint development of a city-owned site and adjacent commercial site, including estimating potential land values.

Community Benefits Pro Forma Review. BAE's assessment of the potential for the proposed 2.7 million square foot Southline Project to provide community benefits pursuant to a development agreement with the City of South San Francisco for primarily office and life science uses.

Health Peak Properties Vantage Campus Community Benefits Analysis. BAE conducted a review of a proposed community benefits package for a proposed 1.6 million square foot life sciences project, which was required to provide at least $16.6 million in community benefits. In addition to the value of the proposed community benefits, BAE conducted a review of additional entitlements that the project applicant requested. BAE's analysis informed

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

negotiations between the City and the development team as part of the development agreement process.

Civic Center P3 Analysis. BAE helped the City evaluate the pros and cons and financial viability of utilizing a P3 delivery method for development of parking facilities to serve civic buildings. BAE researched comparable civic center public-private partnerships, highlighted key financial and risk considerations for a traditional design-bid-build approach versus various P3 approaches, and prepared preliminary financial analyses to evaluate cost implications to the City for developing various components using P3 approaches.

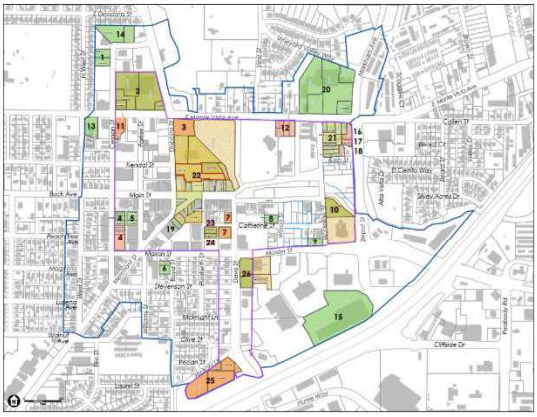
Teacher Housing Feasibility Study. BAE prepared an analysis of the potential feasibility of an affordable housing project with preference for South San Francisco Unified School District teachers to be financed by the Low-Income Housing Tax Credit (LIHTC) four percent program and regional funding in addition to a permanent mortgage leveraged by the project's rental revenue.

Affordable Housing Contribution Peer Review. BAE conducted a peer review of a developer pro forma to inform the City's discussions with the developer regarding the provision of City funding for the project's affordable housing component which was designed to satisfy required affordable housing mitigations for multiple projects.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Downtown Vacaville Specific Plan

City of Vacaville, CA



BAE was the economics subconsultant for the Downtown Specific Plan (DTSP) in the City of Vacaville. The goal of the DTSP was to unlock Downtown's full potential as a vibrant and walkable mixed-use destination, while also preserving the affordability and stability of existing downtown residents. The project builds upon Downtown's unique history and setting to develop a framework that provides for a diversity of housing choices, enhances economic vitality by providing for a wide range of commercial and entertainment options, and promotes pedestrian, bicycle, and transit accessibility. BAE prepared a background economic and market profile, a residential anti-displacement strategy, a downtown retail revitalization strategy, a financial feasibility analysis for desired uses, and a district wide infrastructure financing strategy.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Heart of Fairfield Specific Plan

City of Fairfield, CA

BAE served as the economics subconsultant for the Heart of Fairfield Specific Plan. BAE's work included a comprehensive background assessment that analyzed economic and demographic trends and conditions within the Heart of Fairfield Specific Plan Area, along with comparisons to the City of Fairfield as a whole and the greater Bay Area Region. BAE's work identified the unique characteristics of the Plan Area, including the Downtown and West Texas sub-areas, and the real estate market niches that Plan Area developments serve. BAE estimated near and long-term residential and commercial land use demand for the area, and also conducted pro-forma financial analysis to evaluate the development feasibility of different prototype development projects that reflect long-term Plan Area goals for infill and revitalization.

BAE also conducted a fiscal impact analysis that identified likely General Fund service cost increases, offsetting increases in General Fund revenues, and fiscal surpluses that could be reinvested in the Plan Area to help fund proposed Plan Area public improvements that would support long-term buildout. As part of the analysis of potential implementing funding opportunities, BAE prepared projections of the tax increment revenues that the Plan Area could generate with the formation of an Enhanced Infrastructure Financing District (EIFD). BAE also contributed to Specific Plan strategies that provide a roadmap for actions that the City can take to implement the Plan, including preparation of an affordable housing and anti-displacement strategy.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Fairfield Linear Park Plan

City of Fairfield, CA

BAE was the economics subconsultant on a multidisciplinary team that the City retained to update a plan for a linear park along a former rail corridor. While the City had made some improvements to the corridor, including installation of a paved multi-use path, the City lacked a comprehensive vision for improvements to the full right-of-way that it acquired and how improvements along the corridor could better support revitalization of the neighborhoods and commercial areas that lie adjacent to the corridor. BAE's role included analysis of existing conditions in the areas adjacent to the corridor and identifying key destinations near the corridor that could simultaneously benefit from improved connectivity via the linear park for patrons and employees and generate activity that would help to activate the corridor and contribute to an increase in perceived safety for corridor users.

In addition to identifying potential local, state, and regional funding sources for implementation, BAE also identified the potential for public-private partnerships involving the development of land fronting on the corridor that could help fund corridor improvements and maintenance. The linear park plan provided the City with a framework of implementation actions for development of the linear park that will maximize the community and economic benefits to adjacent properties and the City as a whole.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Propel Vallejo General Plan Update

City of Vallejo, CA

BAE prepared an economic and real estate market conditions report, drafted an economic development element ("Economy, Education and Training" chapter), and prepared a fiscal analysis in support of the City's APA award-winning 'Propel Vallejo' General Plan Update. BAE's existing economic conditions report provided important contextual data related to demographics, employment trends, and local real estate residential and commercial market conditions. In formulating the Economy, Education and Training chapter of the General Plan, BAE focused on detailed strategies to promote economic opportunities to historically disadvantaged populations in Vallejo, encourage arts and entertainment, and to promote the City's water transit to stimulate investment in the City's downtown.

BAE also prepared multiple economic analyses to support the General Plan Update. At the time of the General Plan Update, Vallejo had recently exited from bankruptcy and was continuing to face fiscal challenges, and therefore economic development and fiscal health were key issues in the General Plan Update process. To address ongoing uncertainty related to the City's fiscal health over the long term, BAE prepared a detailed fiscal impact analysis evaluating buildout of residential, hotel, retail, manufacturing, and other uses enabled by the General Plan, using buildout of the prior General Plan as the baseline condition. The fiscal impact analysis provided an assessment of impacts to property tax, sales tax, transient occupancy taxes, utility user taxes, and other key municipal funding sources, as well as the service costs associated with providing municipal services to new Vallejo residents and workers. BAE's work provided contextual information and analysis to demonstrate the role of the General Plan in ensuring the City's long-term fiscal sustainability, and the relationship between the General Plan and other ongoing economic development efforts. The plan received an Award of Merit from California Chapter of the American Planning Association.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Napa Hotel Fiscal and Economic Impact Analysis

City of Napa, CA

The City of Napa had a significant number of planned and proposed hotels in the development pipeline, which could add over 2,000 hotel rooms to the City's inventory, supporting employment growth, creating multiplier effects in the local economy, and generating revenues from taxes and other sources. The City sought an understanding of the magnitude of these impacts to better anticipate the effect that new hotels will have on the City's fiscal health and the local economy.

BAE conducted an analysis of the revenues that development of the hotels in the development pipeline would generate to the City of Napa, including property taxes, transient occupancy taxes, sales taxes from hotel visitor spending, and business license taxes. In addition to these annual ongoing revenues, the analysis estimated the one-time sales and use tax revenues that would accrue to the City's General Fund during construction of the proposed hotels. The analysis found that the hotels would generate approximately $30 million per year in revenue to the City of Napa once fully built and operational, $26 million of which would be from transient occupancy tax payments.

Concurrently with the fiscal revenue analysis, BAE prepared an economic impact analysis to capture the effect that new hotels and additional overnight visitors will have on employment growth and economic activity, both directly and indirectly as the hotel operators and their workers make purchases in the local economy. The economic analysis used the IMPLAN software model to estimate the indirect and induced employment and spending attributable to the ongoing operation of the hotels and from hotel construction activity. The analysis found that the new lodging facilities slated for construction in the City of Napa will generate over 6,200 jobs and $761 million in annual ongoing economic output across all sectors of the Napa County economy. Most of these impacts will be focused in sectors related to the tourism economy, including restaurants and bars, lodging facilities, and wineries, and represent a six percent increase in employment and a five percent increase in Gross Regional Product for Napa County.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Housing-Related Technical Services

Town of Windsor, CA

The Town of Windsor, a small community in the northern part of the San Francisco Bay Area has retained BAE to provide on-call technical assistance on housing-related projects. BAE's work has included supporting the Town in negotiations to modify an existing affordable housing agreement with a project developer, development, issuance, and review of responses for two NOFA rounds from the Town's affordable housing fund, and evaluated the viability of increasing Town development impact fees for traffic, drainage, and affordable housing and establishing a new public art requirement. Under separate contracts, BAE has also conducted an analysis to update the Town's affordable housing inclusionary policy.

Successes: BAE analyzed a proposal from a developer to buy out the affordability obligations for a 387-unit apartment project proposed within the Town's "Town Green" mixed-use development area. In addition to payment of in-lieu fees for housing affordable to lower-income households, the original project approval called for 77 apartments to be rented at rates affordable to moderate-income households, for 10 years. After analyzing the project economics and developing a comparison between the net present value (NPV) of the net income under restricted rent and market rate rent scenarios, BAE determined that the value to the developer should be several times what the developer offered the Town, providing the basis for the Town to secure modifications that provided considerably more affordable housing value than the developer originally offered. BAE supported two affordable housing NOFAs, assisting the Town with drafting the NOFA, reviewing applications, making funding recommendations to the Town Council, and working with selected applicants to comply with requirements for disbursement of funds.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

San Rafael Downtown Precise Plan and General Plan Update

City of San Rafael, CA

BAE served as the real estate economist on a Downtown Precise Plan and General Plan Update for the City of San Rafael. San Rafael serves as a primary employment and transportation node for the County, with a SMART commuter rail station and a cluster of technology, biotech, entertainment, and industrial businesses. San Rafael boasts both a small-town atmosphere and a lively urban environment, though portions of the City's retail sector have struggled during recent years. Major goals of the Precise Plan were to support existing businesses in the Downtown area, enhance the Downtown's vitality, and improve quality of life for the City's residents and workers.

BAE's work included a market analysis to identify challenges and opportunities in the Downtown area and citywide. As a part of this work, BAE evaluated existing and potential demand for residential, office, hotel, industrial, and retail uses in the City and identified trends affecting each use type. In addition, BAE analyzed the financial feasibility of prototype projects on catalyst sites, including mixed-use prototypes and prototypes with an affordable component. For projects that were not financially feasible, the analysis provided recommendations for City actions that could improve financial feasibility. BAE also prepared a fiscal impact analysis to estimate the impact that the proposed land use changes would have on City revenues and service costs. For the implementation chapter of the Precise Plan, BAE prepared an economic development strategy to identify actions to support the Precise Plan objectives as well as citywide economic development goals. Both plans were adopted in August 2021.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

El Cerrito Affordable Housing Project Real Estate Advisory

City of El Cerrito, CA

The City of El Cerrito engaged BAE Urban Economics to analyze the City's participation in a proposed transit-oriented residential development at the El Cerrito Plaza BART station. The project will be built on surface parking lots which are mostly owned by BART, with a small portion of the site owned by the City of El Cerrito. The development team that was selected for the site proposed construction of 743 housing units, including 351 units affordable to lower-income households. The project also included a public plaza and an option to include a new public library on the ground floor of one of the residential buildings. At the time that the City engaged BAE to provide advisory services, the City was considering a contribution of City funding and public land to support the affordable housing component of the project as well as covering the cost of construction for the library.

BAE's analysis included a review of the reasonableness of the City's potential contributions to the project as well as advising the City on key deal terms for a future agreement with the developer of the site. BAE compiled data on local funding contributions for other affordable housing projects in the region and found that the City's proposed contribution, including funding, land, and ongoing maintenance of infrastructure and open space, was within the typical range. In addition, BAE summarized the qualitative benefits that the project would provide to the City as well as qualitative benefits for the developer due to the possible inclusion of a library in the project. Finally, BAE reviewed the draft term sheet for the agreement between the City and developer and recommended several issues for consideration to improve the transparency of the agreement and reduce the City's risk as the project moves forward.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

East Palo Alto Fiscal Impact Analyses

City of East Palo Alto, CA

Situated near the heart of Silicon Valley, the City of East Palo Alto is a prime location for both commercial and residential development. In addition to traditional real estate development projects, East Palo Alto has also attracted development interest from a number of nonprofit organizations due to the slightly more affordable local market and the City's comparatively high share of lower-income residents that may benefit from services. These nonprofit organizations often receive property tax exemptions under State law, leading to concerns about how the prominence of these organizations affect the City's ability to maintain fiscal sustainability.

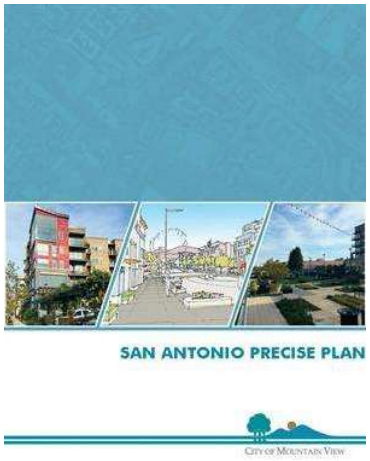
BAE has prepared fiscal impact analyses to assist the City of East Palo Alto in its review of five separate development proposals, including an arts and cultural center with a café, a private elementary school, and three office projects. For each project, BAE prepared a detailed fiscal model based on an in-depth review of the City's budget and refined the model through consultation with City staff to identify how each project would impact City service cost and revenue items. The resulting fiscal models provide reasonable estimates of the revenues that each project will generate in the form of taxes and other revenues, as well as the cost to the City to provide municipal services to each new development. Three of the projects that BAE has analyzed are owned by nonprofit entities, allowing for full or partial property tax exemptions. For these projects, BAE also prepared an analysis of the property tax that a non-exempt use would generate if located on the same project site, in accordance with City policy, which the City used to inform negotiations with the project applicants to secure a payment in-lieu of taxes.

BAE's work on these projects has also included analyses of the educational requirements for the jobs associated with each new development and the extent to which requirements for the jobs in the new development are likely to align with the skills and experience prevalent among East Palo Alto residents. For three of these projects, BAE has also completed housing needs assessments to evaluate the housing demand attributable to the project.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

San Antonio Precise Plan Development Feasibility and Community Benefits Study

City of Mountain View, CA



As part of a cross-disciplinary planning team, BAE provided real estate advisory services in support of the San Antonio Precise Plan which was adopted by the Mountain View City Council in December 2014. Within two weeks of plan adoption, the developer of Santana Row, Federated Realty Trust, purchased the entirety of the San Antonio Shopping Center for redevelopment –a strong validation of BAE's economic analysis.

Development Feasibility. BAE prepared a detailed pro forma analysis of multiple development scenarios on three opportunity sites within the plan area. Development feasibility was tested utilizing soft and hard construction data and market-based assumptions regarding rental rates, investor rates of return, and financing costs. A key economic issue was to determine the appropriate level of new development that would support replacing older one-story retail with high density, mixed use residential and commercial development.

Community Benefits Analysis. As part of this assignment, BAE prepared a community benefits study to determine a reasonable per square foot community benefits charge for market rate residential and new commercial uses in excess of the baseline entitlement in the plan area. BAE assisted Mountain View staff in preparing a community benefits ordinance that accompanied the precise plan adoption.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

NASA Research Park P3 Advisory Services

NASA Ames Research Center, Mountain View CA

NASA Research Park is a world-class, shared-use R&D and education campus for industry, academia, non-profit, and government entities working in aerospace and space, nanotechnology, information technology, and advanced life science sectors. It is co-located with the NASA Ames Research Center on lands formerly occupied by the U.S. Navy in the heart of Silicon Valley.

BAE has supported NASA by undertaking market and financial feasibility studies and preparing business plans for the reuse of existing buildings and new development on underutilized land parcels. To date BAE has provided negotiation and valuation support to over 70 lease transactions for over two million square feet, including a $1.1 billion-value ground lease of Historic Hangar One and Moffett Airfield to Google, Inc., a $5.6 million building historic rehabilitation for Carnegie Mellon University's Carnegie West campus, a $142 million ground lease of 42-acres to Google for a new office complex, a 46-acre $900 million ground lease to Clark Realty Capital for a residential mixed-use development of 2,000 housing units, a 36-acre $185 million ground lease to University of California for its UC Berkeley Space Center. In total, BAE's work has increased NASA's real estate revenue to over $25 million per year today. BAE's work included developer solicitations, market analysis, appraisals, and term sheet/lease agreement document reviews.

Examples of the exciting scientific research and co-locating companies in the NRP are profiled in the BAE-authored Economic Benefits of NASA Ames at: https://www.nasa.gov/wp-content/uploads/2024/04/economics-benefits-study-2015.pdf. The NASA Ames project has received international recognition and numerous awards, including citation as a model case study in Understanding Research, Science, and Technology Parks, Global Best Practices by the National Research Council (2009), 2015 Best Public/Civic Project by Silicon Valley Business Journal and 2015 Real Property Innovation Award – Asset Management, U.S. General Services Administration for the NASA Moffett Airfield Ground Lease to Google, Inc.; 2008 Deal of the Year by the Silicon Valley Business Journal for the NASA/Google Bay View ground lease, 2003 Innovative Real Property Award by the US General Services Administration (NASA Ames Development Plan). The project has been featured in special reports by, among others, Bloomberg TV and the British Broadcast Corporation (BBC).

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Folsom Central Business District Master Plan and Economic Development Strategy

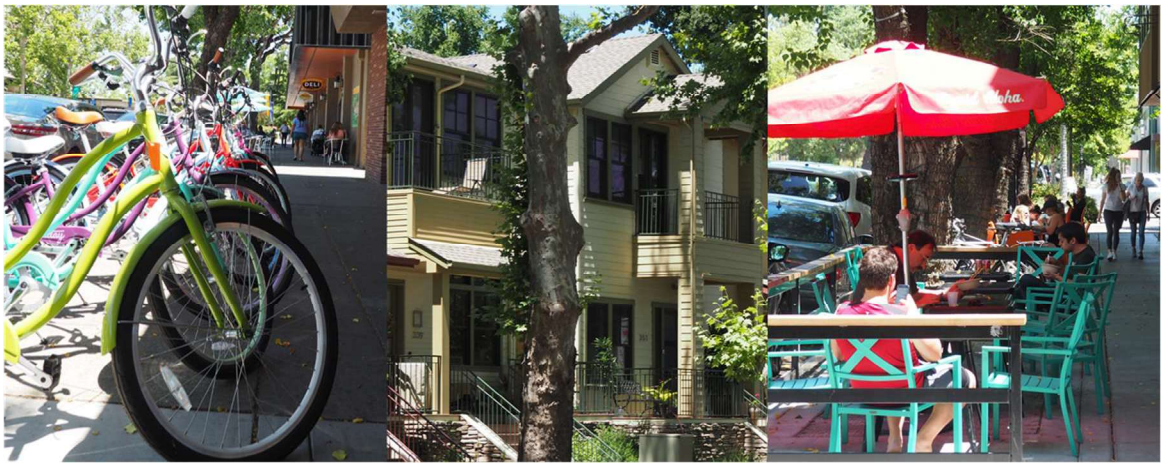
City of Folsom, CA

Folsom has an older central business district that was developed in the 1970s and 1980s with traditional auto-oriented shopping centers that have become functionally obsolete in a highly competitive retail environment. While the district's occupancy remains high and the City continues to attract new affluent residents, the City desired to reposition this district to maintain and enhance its economic sustainability and meet its new housing production goals. As part of a multi-disciplinary planning team, BAE prepared a demographic, economic, and real estate market analysis. Based on the findings from this work and input from a Citizens Advisory Committee, BAE then formulated revitalization and economic development strategy for the Master Plan that looked how to leverage the district's many assets, including adjacent Lembi Park with a sports and aquatic center, to promote new mixed uses including additional residential and new retail concepts. These strategies included branding and wayfinding, promotions and events programming, zoning modifications, public art programing, and establishing a business improvement district.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

Davis Downtown Plan Update

City of Davis, CA



BAE served as economics subconsultant for the Downtown Davis Plan Update. This plan covers the City's vibrant urban core, updating the original Core Area Specific Plan adopted in 1995. While the downtown remains Davis's commercial focal point, its function has evolved in the intervening years, with eating and drinking taking over from merchandising retail as the primary ground floor activity. Other issues include increased interest in mixed-use and housing infill projects; heightened advocacy for expanding multimodal transportation access to the downtown; conflicts regarding parking availability and management; and concerns raised due to ownership changes and subsequent business turnover affecting a significant portion of the downtown's retail store frontage.

To help inform the plan update process, BAE prepared a market assessment that identified the potential for downtown to capture additional demand for downtown retail, office, residential, lodging, and entertainment uses over the next 20 to 25 years. In addition to standard data sources, BAE's analysis drew upon an extensive set of interviews with downtown property owners, developers, merchants, and real estate professionals; incorporated location-based data from mobile devices to better understand where people present in Downtown Davis come from at different times of day, on different days of the week; and utilized confidential historical establishment-level data obtained from the CA Employment Development Department to better understand how Davis's underlying economy is changing over time and affecting downtown real estate demand. BAE prepared pro-forma financial feasibility analysis for several different downtown development prototypes, to provide planners and stakeholders with a better understanding of how economics can drive downtown developer decisions, and how increasing allowable density and making other regulatory changes may be able to help stimulate desired changes.

To support plan implementation, BAE prepared a fiscal impact analysis for Downtown Plan changes as well as a funding strategy for public capital improvements.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

9. AGREEMENT REQUIREMENTS

9.1 Form of Agreement

BAE hereby agrees to sign a Professional Services Agreement substantially similar to the form of the Professional Services Agreement attached to the RFP.

9.2 Proposed Changes to Professional Services Agreement

None.

9.3 MyCOI Registration for Insurance Tracking

BAE confirms that if selected, we will register with MyCOI and ensure that the correct insurance documentation is uploaded.

Docusign Envelope ID: 8E918DBD-8270-4368-ACE5-4EC2135F6890

10. FORMS

10.1 Proposal Authorization Form

BAE has uploaded the signed Proposal Authorization Form.

10.2 Materials Upload

BAE has uploaded a copy of our full submission packet.

26-010

PROFESSIONAL SERVICES MASTER AGREEMENT (ON-CALL PLANNING)

BETWEEN

CITY OF BENICIA AND

CSG Consultants, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and CSG Consultants, Inc., a California Corporation located at 550 Pilgrim Drive, Foster City, California 94404, licensed to do business in California, ("CONTRACTOR") relating to CSG Consultants - Planning Master Service Agreements (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Current Planning

B. Development Review

C. Long-Range Planning Policy and Strategies

D. Historic Preservation

E. Environmental Review

F. Housing Programs and Policies

G. Rapid Response Services

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website

[http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR

shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this

Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for

services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and
2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Cyrus Kianpour

President

cyrus@csgengr.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between CSG Consultants, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or

reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

COVER LETTER

Employee-Owned

April 7, 2025

Suzanne Thorsen
Community Development Director
City of Benicia
250 East L Street
Benicia, CA 94510

Subject: Request for Proposal for On-Call Planning Services

Dear Ms. Thorsen,

Thank you for the opportunity for CSG Consultants (CSG) to present our proposal to the City of Benicia (City) for On-Call Planning Services. To meet the City's needs, CSG brings specialized Planning and Environmental expertise, a depth and breadth of highly experienced staff, an office within proximity to the City, and the ability to adapt to the City's changing needs. We understand the City is seeking on-call services to supplement its Community Development Department in the following areas:

- *Current Planning Development Review*
- *Long-Range Planning Policy and Strategies*
- *Historic Preservation*
- *Land Use Economics*
- *Environmental Review*
- *Housing Programs and Policies*
- *Grant Applications and Management*
- *Rapid Response Services*

CSG can readily provide support in all of the requested service areas, except for Land Use Economics (4.5) and Grant Applications and Management (4.8), with the proposed staff and resources herein. Additionally, having provided a variety of engineering services to the City in the past, our familiarity with the City's processes and protocols is a valuable asset that positions CSG well for this work. We look forward to the opportunity to partner with the City in this new capacity to serve the community of Benicia together.

Through our many years of service to our public agency clients, we have learned that key attributes a consultant can offer a client are expertise, experience, responsiveness, flexibility, and a solid understanding of community concerns. We have longstanding relationships with partnering subconsultant specialists that work throughout the Bay Area, and we can mobilize a team tailored to a specific project's needs with approval of the City.

In addition to acting on these service principles, CSG has as a main objective – to focus on ensuring integrity and excellence in our analyses and processes, culminating in mutually beneficial solutions and the successful review of projects. In addition to our prior work with the City, CSG also provides similar services to other Bay Area communities that include the Town of Colma, City of Mill Valley, City of San Carlos, City of Millbrae, Town of Los Altos Hills, Town of Corte Madera, City of Gilroy, City of Clayton, and City of Saratoga.

Mr. Ethan Edwards, AICP, CSG's Vice President of Planning Services, will serve as the Quality Assurance and Quality Control (QA/QC) manager. Ms. Lorraine Weiss, Principal Planner, will serve as the contract administrator and main point of contact for the City. Their contact information is provided below:

> **Lorraine Weiss,** Principal Planner/Primary Contact
> 550 Pilgrim Drive, Foster City, CA 94404
> ***office*** (650) 522-2500 | ***cell*** (415) 987-3057 | lorrainew@csgengr.com
>
> **Ethan Edwards, AICP,** Vice President of Planning Services
> ***office*** (650) 522-2500 | ***cell*** (714) 699-4297 | ethane@csgengr.com

As President, I am authorized to legally bind the firm and confirm that **CSG's proposal is valid for a 120-day period.** Mr. Edwards and/or Ms. Weiss would be happy to answer any questions regarding our qualifications.

Sincerely,

Cyrus Kianpour, PE, PLS
President, CSG Consultants, Inc.

CSG CONSULTANTS - COMPANY PROFILE

CSG Consultants, Inc. (CSG) is an employee-owned, California company with our headquarters in Foster City, and additional offices in Sacramento, Paso Robles, San Jose, Pleasanton, and Orange. The majority of the 350+ individuals within our firm have provided public agency services throughout their entire careers. Our talented personnel bring a wealth of ideas and experiences, having held positions with communities facing similar development opportunities as the City. We have longstanding relationships with partnering subconsultant specialists that work throughout the Bay Area, and we can mobilize a team tailored to a specific project's needs with approval of the City.

11.1.2: PROJECT ORGANIZATION CHART

11.1.3: Description of Responsibilities

Ethan Edwards, AICP (Vice President of Planning Services)

About: Mr. Edwards serves as the Vice President of Planning Services for CSG Consultants. To this role, he brings expertise in current and advanced planning, design review, coastal development review and CEOA, project and planning staff management, and professional practice building from over 24 years of increasingly complex land use planning and management experience in Orange and Los Angeles Counties, northern California, and the State of Oregon. Prior to joining CSG, Mr. Edwards served as a planner for several public and private sector organizations and has served in various management roles including Community Development Director, Planning Manager, and Principal Planner. **Mr. Edwards will serve as the Quality Assurance/Quality Control Manager.**

Relevant Experience/Projects:

- *The District at South Bay – City of Carson, CA (Project Manager)*
- *Planning Services – City of El Segundo, CA (Principal Planner)*
- *Planning Services – City of Garden Grove, CA (Principal Planner)*

Lorraine Weiss (Principal Planner)

About: Ms. Weiss serves as a Principal Planner for CSG Consultants and provides planning assistance to public agency clients using her knowledge of land use entitlements, development processes, CEQA, public engagement, and policy analysis for municipalities. Ms. Weiss is a land use planner with over 30 years of experience, has well-developed communication, organizational, and project management skills, and is passionate about contributing to creating a sense of place through community input and quality design. **Ms. Weiss will manage the contract, provide direction to staff, and review documents for context and quality control.**

Relevant Experience/Projects:

- *Planning Services – Town of Corte Madera, CA (Principal Planner)*
- *Planning Services – City of Mill Valley, CA (Principal Planner)*
- *Planning, Environmental, & Sustainability Program Management Services – Town of Colma, CA (Principal Planner)*

Bryan Albini (Senior Planner)

About: Mr. Albini serves as a Senior Planner for CSG Consultants. Mr. Albini has comprehensive knowledge of land use planning, development principles, and regulatory procedures, developed over 18+ years in the industry. He has experience and compliance with CEQA, Subdivision Map Act, CA housing legislation, and local land use laws. Mr. Albini has a thorough understanding of project management duties and time management. He is skilled in using communication and design software. Mr. Albini is capable of exercising independent judgment and handling confidential information discreetly. He has exceptional organizational and analytical skills, keen attention to detail, and adaptability. **Mr. Albini will conduct site visits, consistency and compatibility with the City General Plan, City guidelines, policies, development standards, ordinances and regulations, review and prepare technical analysis, author staff reports, ordinances, resolutions, and conditions of approval, make presentations to various Boards, Commission and City Council, and any other required tasks as needed.**

Relevant Experience/Projects:

- *Senior Planner – Town of Colma Planning Department (Colma, CA)*
- *Senior Planner – City of Saratoga Planning Department (Saratoga, CA)*
- *Senior Planner – City of Clayton West (Diamond Bar, CA)*

Nick Bateman (Senior Planner)

About: Mr. Bateman serves as an Associate Planner for CSG, having more than seven years of experience in the public and private sectors. Through his previous experience as an Associate Planner, Environmental Planner, and Assistant Planner, he has developed skills that include current planning, CEQA/NEPA document preparation, project coordination, map-making with ARC GIS, and public presentations. **Mr. Bateman will conduct site visits, consistency and compatibility with the City General Plan, City guidelines, policies, development standards, ordinances and regulations, review and prepare technical analysis, author staff reports, ordinances, resolutions, and conditions of approval, make presentations to various Boards, Commission.**

Relevant Experience/Projects:

- *Senior Planner – Town of Paradise, CA*
- *Associate Planner – Paradise Boutique Apartments Conditional Use Permit Modification Project IS (Town of Paradise, CA)*
- *Associate Planner, Burnt Barn Distillery Project ISMND (Town of Paradise, CA)*

Amy Mullay (Senior Planner)

About: Ms. Mullay has been with CSG for one year specializing in housing updating Housing Elements and implementing Housing Element Programs, and annual housing element and general plan annual progress reports for the State Department of Housing and Community Department. Ms. Mullay has spent 24 years alone in current and advanced planning, and housing for public sector planning agencies. **Ms. Mullay will review housing and legislative regulations required for new development and work with other staff members to process development applications and assist with housing issues.**

Relevant Experience/Projects:

- *Senior Planner – City of Clayton, CA*
- *Senior Housing/Analys/Senior Planner – City of Irvine, CA*
- *Senior Planner– Town of Colma, CA*

Emma Goldsmith (Associate Planner)

About: Ms. Goldsmith is an experienced Planner who is well-versed in preparing regional transportation and housing plans. She excels at synthesizing information from reports, case studies, and local/state/federal laws. Through her five years of experience in the planning industry, Ms. Goldsmith has developed a deep knowledgebase surrounding city planning documents such as general plans and zoning codes—while gaining familiarity with regional planning documents that include Regional Transportation Plans (RTP) and the Regional Housing Needs Allocation (RHNA) process. Additionally, her understanding of state and federal planning laws that include the California Environmental Quality Act (CEQA), SB-743, the National Environmental Policy Act (NEPA) and the Infrastructure Investment and Jobs Act (IIJA) is a tremendous asset to CSG and our clients. **Ms. Goldsmith will conduct site visits, consistency and compatibility with the City General Plan, City guidelines, policies, development standards, ordinances and regulations, review and prepare technical analysis, create documents, and any required tasks as needed.**

Relevant Experience/Projects:

- *Associate Planner – City of San Carlos, CA*
- *Associate Planner – Town of Colma, CA*
- *Assistant Planner – City of Sonora, CA*
- *Associate Planner/Assistant Planner – Stanislaus Council of Governments – Modesto, CA*

Glenn Lajoie, AICP (Principal, Director of Environmental Planning)

About: Mr. Lajoie has over 35 years of experience in the environmental planning profession. Mr. Lajoie's diverse background includes a wide range of CEQA/ NEPA compliance studies, including policy, development, and infrastructure projects. He has served in various roles on projects, including Project Director, Project Manager, Quality Control, and lead for navigating complex regulatory processes. Mr. Lajoie has an extensive background with agencies throughout California. The geographic context is wide ranging including: resort and destination projects in the Town of Mammoth Lakes; numerous infrastructure and desalination project reviews in the Community of Cambria; downtown high rise and mixed-use proposals in Long Beach; city center and neighborhood revitalization opportunities in Lancaster; buildout of the City's Business Park Master Plan in Cypress; over two million square feet of expansion for

the Raytheon Corporate facility in El Segundo; campus modernization and enhancement projects in the University of California, Riverside; the master plan update for the Hotel del Coronado; and the 2035 General Plan Update for Buena Park. **Mr. Lajoie will provide senior management for the provision of environmental services.**

Relevant Experience/Projects:

- *Janss Marketplace Hotel EIR – City of Thousand Oaks, CA (Project Director)*
- *1890 South Coast Highway Mixed-Use Redevelopment Project IS/MND – Laguna Beach, CA (Project Director)*
- *ARCO Commercial Center and Car Wash Project – Plymouth, CA (Project Director)*

Liza Debies (Senior Environmental Planner)

About: With a focus in the Bay Area, Ms. Debies has 10 years of experience in managing the preparation of CEQA and NEPA documents, including EIRs, IS/MNDs, Addenda, Environmental Assessments (EAs), and Categorical Exemptions and Categorical Exclusions. She has completed CEQA and/or NEPA documentation for public infrastructure, materials recovery facilities (MRFs), mixed-use developments, residential, commercial, retail, transportation, industrial, recreational, and institutional projects. She has expertise in aesthetics, land use and planning and land use compatibility, transportation and circulation, utilities and services systems, and alternatives analysis, as well as in evaluating large public infrastructure projects. **Ms. Debies will review environmental analysis documents and provide senior management.**

Relevant Experience/Projects:

- *Palos Verdes Estates 2021-2029 Housing Element Program 13 Rezoning Project IS/MND – City of Palos Verdes Estates, CA (Senior Project Manager)*
- *171 Ronan Avenue Project Exemption Documentation – City of Gilroy, CA (Senior Project Manager)*
- *Mixed-Use Special District Project Supplemental EIR – City of Walnut Creek, CA (Senior Project Manager)*
- *2023-2031 (6th Cycle) Housing Element Update Program EIR – Pleasanton, CA (Senior Project Manager)*

Kelli Allen (Associate Environmental Planner)

About: Ms. Allen serves as an Associate Environmental Planner for CSG Consultants with 2 years' experience in the environmental planning field. Ms. Allen has experience preparing EIRs, IS/NDs and MNDs, and safety elements. Ms. Allen recently assisted in the preparation of an IS/MND for a proposed gas station, car wash, and commercial project in the City of Plymouth, and an EIR for a proposed dual hotel and retail use in the City of Thousand Oaks and is currently preparing an IS/MND for a mixed-use redevelopment project in Laguna Beach. Ms. Allen has experience drafting presentations and communicating with public agencies and clients, and writing administrative CEQA documents, including Project Descriptions, Notices of Availability, Preparation, and Determination, and OPR summary documents. **Ms. Allen will prepare environmental review documents and provide project management support.**

Relevant Experience/Projects:

- *Janss Marketplace Hotel EIR – City of Thousand Oaks, CA (Lead Analyst)*
- *1890 South Coast Highway, Mixed-Use Redevelopment Project IS/MND – City of Laguna Beach, CA (Lead Analyst)*
- *ARCO Commercial Center and Car Wash Project – Plymouth, CA (Lead Analyst)*

Colby Gonzalez (Assistant Environmental Planner)

About: Colby Gonzalez has 2 years of professional experience in working with environmental documents, including EIRs, IS/MNDs, Addenda, and Categorical Exemptions. He has worked as a paralegal on CEQA and NEPA lawsuits for mixed-use projects, housing projects, industrial manufacturing projects, and warehouse projects. He also has experience with Clean Water Act. **Mr. Gonzalez will prepare environmental review documents and provide project management support.**

Relevant Experience/Projects:

- *171 Ronan Avenue Project Exemption Documentation – City of Gilroy, CA (Lead Analyst)*
- *Janss Marketplace Specific Plan Project Environmental Documentation) – City of Thousand Oaks, CA (Lead Analyst)*
- *Pritchard Field Improvement Project Environmental Assessment – City of Bell, CA (Lead Analyst)*
- *Iron Planet Auction IS/MND Peer Review – County of San Bernardino, CA (Reviewer)*

11.2: APPROACH

PLANNING SERVICES OVERVIEW

CSG views every assignment and project as a way to build long-lasting, meaningful working relationships with our clients. We always seek to excel in maintaining a clear line of communication with every client, stakeholder, agency, decisionmaker and project team members to ensure assignments and projects are achieving and exceeding expectations. We work with positive attitudes, focused on teamwork, and have a shared determination in exhibiting professionalism in everything we do. Our mission is to consistently meet or exceed our client's expectations in a responsible and efficient manner.

At CSG, we act as project managers in most of our efforts, but we are first and foremost planners. Our goal is to always perform as a "partner planner" for our clients, providing additional support and services to existing agency staff members. CSG's project managers bring decades of project management experience, implementing best practices, while delivering work products on time and within budget.

We believe that a comprehensive approach to project management includes attention to land use planning, economic feasibility, urban design, and the environment. Our project management philosophy is built upon the anticipation of, and preparation for, all issues that may arise throughout the project process. By constantly considering and developing the appropriate process and plan to address political, environmental, social, and design challenges/opportunities, we can better serve the City while delivering the highest quality product. Our management team of senior professionals will work in close partnership with City staff to ensure continuous coordination of our proposed services. They will assist the City in determining planning and environmental review requirements with support from additional CSG planners and technical staff that allow our team to provide a wide range of services in a cost-effective manner.

APPROACH TO WORK - PLANNING

CSG's approach to current and long-range planning is to "dig in" and become familiar with the City's General Plan, Zoning Code, other development process resources, ongoing projects, and development trends so that we may best assist the City. Our approach includes:

Analyzing a project's compliance with the City's plans, policies, and regulations. Our staff is familiar with conducting plan checks and design review; historic review, evaluating Tentative Maps, development permits, conditional use permits, and other permits; and conducting General Plan and zoning amendments;

- *Reviewing and processing both ministerial and discretionary applications;*
- *Researching, compiling, and analyzing social, economic, environmental and associated data;*
- *Preparing the necessary long-range planning documents and amendments;*
- *Meeting with developers, their consultants and other project proponents, such as property owners and other interested groups, for any project. We recognize that these are important groups and individuals to any project; and*
- *Providing public counter services, including but not limited to, answering general questions and processing Zoning Clearances, Accessory Dwelling Unit Zone Clearances, Temporary Use Permits, Home Occupation Permits, and/or Short-Term Rentals permits.*

Members of our staff are currently actively working in a variety of methods both hybrid and in agency offices, holding regular office hours, and answering public inquiries by email, mail, or telephone, whichever schedule the client wishes. Our staff are available to attend community meetings and present at public hearings; prepare staff reports, resolutions, ordinances; and prepare in-person and/or electronic presentations.

CSG staff also has knowledge and experience in providing affordable housing support, preparing and administering grants, preparing parking studies, performing fiscal and economic analyses, as well as providing Geographic Information System (GIS) assistance.

CURRENT PLANNING DEVELOPMENT REVIEW (4.2)

CSG offers staff well versed in project management tasks related to current planning—including, but not limited to:

- *Decision Letters*
- *Staff Reports*
- *Visual/Spatial Analyses & Urban Design*
- *Maps/Subdivision Maps*
- *Architectural & Design Reviews*
- *General Plan/Comprehensive Plan Amendments*
- *Ordinances & Resolutions*
- *Records of Land Use Action*
- *Conditions of Approval*
- *Development Agreements*

In addition to CSG's technical expertise, our staff thrive in environments where we can interact with the public, design professionals, and applicants during the processing of Planning applications (remotely or at City facilities). Our team can be a trusted partner for the City, helping to coordinate the implementation of development applications during construction, tracking condition compliance to ensure continued conformance to approval conditions, and mitigation measures/coordinates, as well as providing assistance with plan reviews and site inspections. We can work alongside the City in a project-specific or contract-staffing capacity, depending on the City's needs.

CURRENT PLANNING

CSG's Planning team provides contract staff support, entitlement services and project management for a variety of types of projects. We excel at interfacing with public agencies and elected officials, tackling a wide range of current planning issues, and serving as case planners, applicant liaisons, or even assisting the public at the counter. Our staff planners perform daily planning activities, such as (but not limited to): zoning review and compliance, project entitlement services, Subdivision Map Act compliance, site plan review and design review, plan check, construction inspection services based on approved plans and conditions of approval, and other services as needed. Our planning staff also serve as an extension of city or City staff in several jurisdictions, preparing staff reports, ordinances, resolutions, and making presentations to Zoning Hearing Administrators, Design Review Boards, Planning Commissions, City Councils or Boards of Supervisors.

LONG-RANGE PLANNING & POLICY STRATEGIES (4.3)

CSG offers staff well versed in project management tasks related to long-range planning and policy development—including, but not limited to:

- *Preparation of Staff Reports*
- *Presentations at Public Hearings and/or Community Meetings*
- *General Plan/Plan Amendments*
- *Zoning Code Development & Amendments*
- *Area Plans*
- *Urban Design*
- *Research, Analysis, & Implementation of State Law & Regional Initiatives*
- *Ordinance & Resolution Preparation*
- *Ordinance Implementation*
- *Visual Spatial Analyses*
- *Urban Design & Policy Development*
- *Annexation Applications*
- *Local Agency Formation Commission-related items (i.e. Municipal Services Reviews)*

ADVANCED PLANNING

CSG's planners are well versed in the creation and management of long-range policy documents, and assist communities with visioning, goal setting and implementation, as well as project coordination for applicants and their consultant teams. Our team has prepared General Plans, Specific Plans as well as Community and Area Plans, Design Guidelines, Zoning Code updates, and Economic Development Plans.

HISTORIC PRESERVATION (4.4)

CSG offers in-house staff with demonstrated experience pertaining to historic resources evaluations and historic preservation services. Their experience includes, but is not limited to, State of California Department Parks and Recreation 523 Forms, Historic Resource Evaluations, the Mills Act, and Secretary of Interior's Standards for the Treatment of Historic Properties. Depending on the nature of the work on a project basis, where needed, CSG will engage a Historic Preservation Architectural firm to assist in completing required analysis, recommendations, and conclusions.

ENVIRONMENTAL REVIEW (4.6)

CSG has the environmental staff resources to manage and prepare clear, concise, and legally defensible environmental documents under CEQA and NEPA for projects of all types, including development, infrastructure improvements, and policy adoption documents, such as General Plans and Specific Plans. CSG will serve as an extension of City staff to ensure that the entire environmental review process is conducted in a comprehensive manner. CSG will consider recent legislation, court decisions pertaining to CEQA and NEPA and agency requirements. Our objective is to provide premium services to our clients, along with highly accurate technical documentation and impact determinations. Our approach entails an efficient process to ensure that studies are comprehensive, objective, technically accurate, and complete, while maintaining a focus on the schedule established for the review. Our approach includes consistent and regular interaction and communication between staff, our team and other interested/responsible governmental agencies and parties, as appropriate, allowing for frequent exchange of information without loss of time or resources.

Our range of types of CEQA studies includes Categorical Exemptions, Initial Studies, Negative Declarations, Mitigated Negative Declarations, Project/Program/Focused/Supplemental/Subsequent Environmental Impact reports (EIR's), Addenda to previously prepared environmental documents, consistency checklists, as well as mitigation monitoring programs. We can assist the City with recommendations and scoping for the appropriate CEQA and NEPA documentation and, should an EIR be the determined clearance, CSG can lead the preparation of response to comments and any required findings of facts/statement of overriding considerations. We are also ready to assist the City with project stakeholder coordination, filing of public notices, participation in public hearings and complete project management services throughout the environmental review process.

APPROACH TO ENVIRONMENTAL PLANNING

CSG planners are environmental stewards for our natural and built environments. CSG's approach to any environmental documentation is to understand and analyze each project based on the environmental issues that are pertinent to a project. CSG's approach to environmental documentation emphasizes technically solid, impartial analysis, and active management to keep projects on schedule and within budget. We pride ourselves on our ability to turn products around quickly and effectively without sacrificing quality and accuracy.

CSG recognizes that future City projects, depending on their type, size and issues of concern, may require different approaches to environmental review. A work program will be initiated following the completion and confirmation of the Project Description. As directed by the City, CSG can then proceed with the preparation of an Initial Study pursuant to Appendix G of the CEQA Guidelines. The Initial Study will provide a screening and threshold review for each topical area to confirm and proceed with the appropriate CEQA clearance review.

Additionally, and more specifically, we embrace the following steps in the review process:

- *Establish a communications protocol and technical leads, including subconsultants and other key team members to ensure project critical information is efficiently and accurately conveyed across the team.*
- *Ensure roles/responsibilities are clear for efficient management of assignments and quality control of services and deliverables.*

- *Agree on initial project schedule and budget and a protocol for updating status during project phases.*
- *Determine key project description details with the City early to facilitate accurate and consistent reviews and analysis.*
- *Verify that the technical approach/scope of services, as conveyed in the proposal, meets City's expectations following completion of the Project Description.*
- *Collaborate upfront with the City on standard templates for project deliverables, including peer review technical memoranda and CEQA document components.*

Communications and Techniques: Our management style includes consistent and regular interaction and communications between staff, the CSG team, and other interested/responsible governmental agencies and parties, as appropriate, allowing for frequent exchange of information without loss of time or resources. If we encounter a constraint or challenge, we will immediately notify the City and provide short and/or long-term solutions for any difficulties we encounter. We pride ourselves on our ability to turn products around quickly and effectively without sacrificing quality and accuracy.

Developing Project Descriptions and Context: We understand the importance of confirming the Project Description as early in the process as possible to ensure consistency between technical documents and avoid the need to redo analyses. CSG can assist City staff in determining the information required to proceed with the environmental review. We also have proven strategies to move forward with environmental review when there are unknowns, or a project design requires flexibility.

Conducting Preliminary Environmental Compliance Review: As part of scoping, we complete a comprehensive review of a project to determine whether it is exempt from environmental review or a candidate for streamlined review. Our understanding is there may be residential development projects, stemming from the adoption of the 2023-2031 (6th Cycle) Housing Element. There is an opportunity to streamline the environmental review of such projects utilizing Public Resources Code CEQA Guidelines Section 15183, which allows for a streamlined review if a project is consistent with the development density established by existing zoning, community, or general plan polices for which and EIR was certified. Additionally, upon initial review of the 6th Cycle Housing Element, there are several sites under 5 acres that may qualify for under CEQA Guidelines Section 15332, which provides exemptions under CEQA for projects characterized as infill development and that meet specific criteria. CSG is familiar with all 33 Categorical Exemptions and is available to meet City staff to discuss specific projects and to confirm whether any exemptions would apply. We can prepare the required documentation to demonstrate why such activities would be exempt from CEQA in the form of a memoranda which explains why no possible exceptions exist which could preclude the use of a Categorical Exemption for a project.

Preparing Initial Studies: If it is determined that a project requires additional environmental review, CSG could then proceed with the preparation of an Initial Study pursuant to Appendix G of the CEQA Guidelines. The Initial Study provides a screening and threshold review for each topical area to confirm the appropriate CEQA clearance. An Initial Study is the common supporting review documentation for a (mitigated) negative declaration determination. In certain circumstances, we know that a project will result in significant impacts, requiring the preparation of an EIR. In these cases, to save time and reduce costs, we may recommend the preparation of an EIR without an Initial Study. However, even in the case where an EIR will be required, it may be beneficial to prepare an Initial Study to help focus the EIR on the potentially significant impacts. CSG can assist the City in making this determination on a project-by-project basis.

Preparing EIRs: When there is substantial evidence that a proposed project or action may result in potentially significant impacts on the environment, CSG possesses the technical capabilities and expertise to assist our agency clients in preparing an EIR, including, but not limited to:

- *Defining the project description,*
- *Identifying stakeholders and affected agencies,*
- *Maintaining the administrative record,*
- *Preparing and distributing the notice of preparation for a 30-day review,*
- *Conducting a scoping meeting,*
- *Preparing supporting technical reports and Administrative Draft EIR for internal review,*
- *Preparing and circulating the Public Review Draft EIR for a 45-day review period,*
- *Drafting responses to comments,*
- *Preparing the Final EIR and Mitigation Monitoring and Reporting Program,*

- *Preparing Findings of Facts, and, as necessary, preparing a Statement of Overriding Considerations to support a lead agency's final decision on a project,*
- *Attending public hearings, and*
- *And preparing and filing required notices.*

Public Input Process and Dissemination of Information: Given our unique background providing comprehensive municipal services, we have ample experience interfacing with the public and have a deep understanding of the public input process and challenges that can arise. CSG can collaborate with the City in preparing community outreach plans that include ongoing public engagement opportunities, and we can attend public hearings and meetings to address questions on the City's behalf and/or present our conclusions to the decision-making body.

Ensuring Compliance with Processing and Legal Requirements: The CSG team has prepared CEQA documentation for controversial projects, and we have an exemplary record of legal defensibility for the documentation we prepare. We understand that housing projects in particular can be controversial, and we have experience addressing community concerns in this regard, including responding to public comment as part of the CEQA public review process. Our documents contain thorough environmental analysis and provide clear documentation for all research contacts and data sources, which reduces the potential for successful legal challenges; we can also assist the City in preparing the administrative record. We keep abreast of regulatory updates and court decisions, which are then incorporated into our environmental analysis, as appropriate.

Quality Assurance/Quality Control: CSG is committed to providing high quality documentation that engenders client satisfaction, meets the needs of the project, and withstands legal scrutiny. Therefore, a critical part of our delivery of technically sound and legally defensible documents includes conducting in-house QA/QC reviews concurrently with the preparation of documents. Our approach to providing quality, technically sound, and legally defensible reports includes the following steps: we assign staff members who have the appropriate technical expertise to complete the work; upon completion of the first internal draft of a document, it is reviewed by the project manager for consistency with the project description, compliance with the approved scope of work, and technical accuracy. Once the work product has been revised and updated to the satisfaction of the project manager, it is sent to our Publications Specialist for review of grammar, proper nomenclature, references, and methodologic consistency. The last step before the document is submitted to the City is a thorough and complete word processing review that produces a correctly formatted document, with accurate references to tables, exhibits, appendices, and the table of contents. Only then is a document submitted to the City for review.

Adherence to Budget and Schedules: CSG will meet with City staff during the project initiation phase to determine an initial schedule and protocol for updating status during project phases. Our Environmental Planning team meets weekly to discuss the status of projects and utilizes Smartsheets for project management. Once a project is underway, we recommend scheduling regular status meetings with City staff. This ensures challenges and constraints are discussed as soon as they come up, and the CSG team can recommend short and/or long-term solutions to keep a project moving forward.

Prior to the start of a project, CSG will consult with City staff to determine the scope of the project. This includes a thorough review of the project application to ensure compliance with city requirements and researching whether previous environmental analysis has been completed for a project site to determine if any streamlining is available, as described in more detail above. Determining the appropriate level of environmental review early in the process helps reduce costs, as it avoids needless environmental review. CSG will also work with City staff to confirm the Project Description prior to the initiation of technical studies and the environmental analysis. This includes determining the exact location and boundaries of the components, facilities, and associated infrastructure for a project. Once the Project Description has been confirmed and is stable/set to go, CSG will provide the approved Project Description to all staff and subconsultants working on a project. This ensures consistency between technical analyses and reduces the costs associated with redoing work. We utilize Deltek Vantagepoint to monitor project budgets, which provides daily and weekly budget tracking to ensure budget adherence. Prior to initiating out of scope tasks, we will consult with the City and ensure there is an agreed upon augmentation of services that lays out the additional tasks and associated costs.

HOUSING PROGRAM & POLICIES (4.7)

CSG can work in concert with the City to provide technical assistance and consultation in regard to utilization of housing program funds—including, but not limited to:

- *Program Compliance*
- *Feasibility Analysis of New Programs & Funding*
- *Assisting Staff in Development of Policies & Procedures*
- *Training City Staff*
- *Assisting City Staff with General Program Questions*
- *Assisting City Staff with Projects or Reporting of CDBG, ESG, HOME or any new programs*
- *Expediting and Streamlining the Housing Permit Process via Process Improvements*
- *Pre-Approved Designs and Plans for ADU's*
- *Additional Planning and/or Outreach Actions to Accelerate Housing Production*

AFFORDABLE HOUSING PROGRAMS

Our staff have a wealth of knowledge surrounding housing consultation, implementation, administration, and monitoring of affordable housing programs and policies. Some of CSG's expertise as it relates to affordable housing programs includes, but is not limited to:

- *Developing housing policies and programs for Housing Element cycle updates.*
- *Facilitation of affordable housing obligations, policies, and programs.*
- *Management of portfolios of affordable housing properties to ensure compliance.*
- *Technical assistance and guidance to property managers, leasing agents, internal staff, stakeholders, non-profit organizations, and property owners regarding local, state, federal, and statutory affordable housing program interpretation, regulations, processes, standards, and directives.*
- *Creating and maintaining affordable housing databases, resource materials, and training guidelines for internal use, developers, property managers, and the public.*
- *Analyzing, reviewing, and revising affordable housing plans and regulatory agreements for entitlement for muti-family and/or 100% affordable residential projects to ensure successful outcomes and compliance with applicable laws, rules, guidelines, and procedures.*
- *Developing, analyzing, and implementing innovative programs to promote affordable housing which address a broad range of housing needs and income levels, including rehabilitation, development incentives, homebuyers' assistance, and special needs to assist housing initiatives and compliance with housing laws.*
- *Ensuring proper implementation and compliance for Inclusionary Housing Ordinance obligations, Housing Element programs, Fair Housing Law, and developer incentive programs.*
- *Presenting housing programs, policies, projects, initiatives, and procedures to the City Council, and other government commissions and committees.*
- *Manage customer service regarding affordable housing inquiries via telephone and email.*

UPDATE OF AFFORDABLE INCOMES & RENTS

CSG staff has the experience and expertise to prepare annual updated income and rent limits, pursuant to the U.S. Department of Housing and Urban Development (HUD) and the State Department of Housing and Community Development (HCD) income limits. Additionally, CSG staff can prepare memorandums and supporting tables that show income and gross rent limits as they relate to each project.

FUTURE AFFORDABLE HOUSING DEVELOPMENT PROPOSALS

As needed, CSG can assist with financial feasibility analysis and development negotiations for future development proposals.

MAXIMUM RESALES PRICE OF INCLUSIONARY UNITS

To determine maximum resales price of inclusionary units, CSG staff will calculate the resale price of inclusionary "for sale" units when a homeowner of an existing unit proposes to sell. In order to complete these calculations, CSG requests the City provide relevant Regulatory Agreements, original purchase date, and original purchase price by the current homeowner.

FUTURE MISCELLANEOUS ECONOMIC STUDIES

As requested, CSG will assist with various economic studies when the need arises.

RAPID RESPONSE SERVICES (4.9)

When time is of the essence, CSG can provide prompt emergency response services as directed by the City. This could include fast-tracking permits for critical projects in response to an emergency or urgent public need, but also encompasses planning and coordinating a way forward in the aftermath of natural disasters or crises. When faced with these crises, we share a common goal of rebuilding communities to be stronger, more vibrant, and more resilient than before. CSG can work alongside the City to prepare amendments to the City's Municipal Code to facilitate the rebuilding and expedited review and processing of Planning and construction permits.

For the **Town of Paradise** in its recovery efforts from the Paradise Camp Fire since 2020, CSG has provided staffing to the Town. With compassionate guidance to fire victims who have been rebuilding their residences and commercial businesses, CSG has assisted its residents. Additionally, CSG has provided project management for simple and complex entitlement applications, from the vital recreational vehicle temporary use permit program, put in place after the fire, to large affordable housing developments. CSG has also provided the Town's in-house CEQA expert, authoring initial studies and ISMNDs as needed. CSG also secured grant funding for an array of important projects including the Town's Housing and Safety General Plan Elements, mastered residential building plans for community use, and a complex records digitization project.

Since 2018, the **City of Malibu** has been in the recovery and rebuild process from the Woosley Fire. The City of Malibu utilizes full-time staff for fire rebuild efforts, with contract planners addressing the backlog of applications, not effected by fire. CSG has been providing contract Planning Services to the City Malibu since 2022. Since the Woosley fire, the City has experienced two new fires, the Franklin and Palisades Fires. With the two new fires, and establishment of the fire recovery center staffed with full-time Malibu planners, CSG contract planners are assisting with the remaining Woosley Fire rebuild applications, and continues with the processing of ongoing planning applications which include Coastal Development Permits, Site Plan Reviews and Variances. CSG contract planners work collaboratively with the Malibu planning team, understanding all code changes relevant to fire recovery efforts, and other City relevant code changes. Because of these efforts, CSG consultants are a seamless extension of staff.

11.2.2: LEVEL OF EFFORT LETTER

CSG has provided hourly rates for staff who would be involved with this work in Section 11.5 (Pricing Proposal). The cost for services is highly dependent on the service and project-specific information. CSG's scope of work and proposed costs will depend on the nature of a specific project and level of technical review that is required.

11.3: REFERENCES

11.4: RESUMES

CSG has provided resumes for key staff on the following pages, per the City's request.

Ethan Edwards, AICP

VICE PRESIDENT OF PLANNING SERVICES

Mr. Edwards currently serves as the Vice President of Planning Services at CSG Consultants. In this role, he leverages over 25 years of progressively responsible experience in land use planning and management across Orange and Los Angeles Counties, Northern California, and Oregon. His expertise encompasses current and advanced planning, design review, coastal development review, CEQA compliance, project and staff management, and professional practice development. Before joining CSG, Mr. Edwards held planning positions in both the public and private sectors, including leadership roles as Community Development Director, Planning Manager, and Principal Planner.

Education

Bachelor of Science, Urban and Regional Planning
California Polytechnic State University,
Pomona, California

Masters Coursework, Public Policy & Administration, California State University, Long Beach, California

Professional Affiliations

CSG Relevant Experience

Acting Community Development Director/Planning Manager | City of Carson, CA. As Acting Planning Manager and Community Development Director for the City of Carson, Mr. Edwards oversaw the Planning Department, including CSG staff, and managed project scheduling, budgeting, and agenda preparation. He also participated in public hearings, managed the City's on-call environmental and design consultants, and provided strategic direction for the comprehensive General Plan Update.

Principal Planner | City of El Segundo, CA. In his role as a contract Principal Planner, Mr. Edwards managed complex discretionary and administrative permits, including Development Agreement negotiations and environmental impact report management. He also prepared agendas, reviewed and authored reports, and delivered presentations to elected officials, commissions, and community groups.

Relevant Previous Experience

Planner | City of Huntington Beach, CA. At the City of Huntington Beach, Mr. Edwards managed discretionary and administrative permits, mentored staff, prepared and reviewed agendas and reports, and interpreted zoning regulations as the Zoning Administrator Liaison. He also supervised environmental consultants and developed strategies for streamlining permit processing and enhancing customer service.

Planning Manager | Baysinger Partners Architecture, Portland, OR. As Planning Manager at Baysinger Partners Architecture, Mr. Edwards supervised the planning and entitlement division, managed staff priorities and the department budget, and handled public and private development project applications. He also provided contract Planning Director services, coordinated with consultants and provided project management and professional practice development.

Planner | City of Beaverton, OR. Mr. Edwards managed current planning projects, assisted with design review code revisions, and delivered presentations to elected officials, commissions, and community groups. He also served as the City staff liaison for an inter-jurisdictional commuter rail project and committee.

Associate Planner | City of Santa Monica, CA. While at the City of Santa Monica, Mr. Edwards presented to the zoning administrator, planning commission, and architectural review board. He also prepared reports for various entitlement projects and provided customer service assistance to the public.

Lorraine Weiss

PRINCIPAL PLANNER II

Lorraine Weiss serves as a Principal Planner for CSG Consultants and provides planning assistance to our public agency clients using her knowledge of land use entitlements, development processes, CEQA, public engagement, and policy analysis for municipalities. Ms. Weiss is a land use planner with over 30 years of experience, has well-developed communication, organizational, and project management skills, and is passionate about contributing to creating a sense of place through community input and quality design.

Education

Bachelor of Science, Urban and Regional Planning,
California Polytechnic State University,
Pomona, California

UC Extension (Landscape Architecture Courses)

CEQA Update & Land Use Law Courses

Certificate in Urban Design,
San Francisco Center for Architecture & Urban Studies

Professional Affiliations

American Planning Association (APA)

Association of Environmental Professionals (AEP)

Relevant Project Experience

Lorraine Weiss Design & Development Review | San Francisco Bay Area, CA. Ms. Weiss provided project management services for a variety of development and redevelopment projects (residential, multi-family residential, commercial office and retail, mixed-use, industrial, educational, and institutional) for private and public sectors in the San Francisco Bay Area. She was also responsible for entitlement processing, project management of entire project life cycles, management and preparation of environmental documents in accordance with CEQA, as well as a variety of municipal code amendments. She also:

- Conducted site analyses, design reviews, environmental reviews, regulatory reviews and analyses, and prepared recommendations on complex land use development projects, adhering to fiscal and timeline constraints.
- Performed ordinance and resolution preparation for a variety of zoning text modifications and special projects.

Ms. Weiss has provided planning consulting services to various Bay Area jurisdictions including: Town of Belvedere, Town of Corte Madera, City of Daly City, City of Larkspur, City of Menlo Park, City of Mill Valley, Town of Moraga, City of Mountain View, City of Palo Alto, City of Redwood City, Town of San Anselmo, City of San Mateo, City of San Rafael, City of Sausalito, and City of Walnut Creek.

Director of Planning & Building/Environmental Services Manager | Town of Corte Madera, CA. Ms. Weiss managed and supervised the activities, operations, and budget ($1 million) of the Planning and Building Divisions of the Environmental Services Department, a six-person team. She was responsible for developing strong cross-functional partnerships to support problem solving and collaboration among department managers to foster the goals and objectives of the Town. Ms. Weiss established strong working relationships with civic committees, residents, merchants, and shopping center management. She also:

Organized, facilitated, and coordinated all activities of the 2008 General Plan Update

- Managed the Town's ADA Transition Plan and Self-Evaluation
- Served as liaison to the Town Center Shopping Center

Planner & Staff Liaison to the Architectural Review Board | City of Palo Alto, CA. Ms. Weiss managed major development projects along University Avenue, Stanford Shopping Center, Stanford Medical Center, Stanford Research Park, and Stanford University; prepared environmental documents; and presented cases to the Architectural Review Board, Historic Resources Board, Planning Commission, and City Council. Ms. Weiss also:

- Created project zoning tracking checklists
- Managed and created "Development Permit Guide for Multiple-Family Residential and Commercial Development"
- Improved processing time of planning applications through process improvement and created City department standard conditions of approval.

Donald Rust

PRINCIPAL PLANNER

To his role as Principal Planner for CSG Consultants, Mr. Rust brings expertise gained from over 45 years of municipal experience. His wide range of skills includes establishing working relationships with the City/County Council, Planning and Historic Commissions, as well as neighborhood groups. He possesses strong development coordination and project management skills. He also has a practical background in California planning, zoning and environmental laws.

Education

Bachelor of Arts Degree, Public Administration, California State University San Bernardino, San Bernardino, CA

Associated of Sciences, Engineering Technology, San Bernardino Valley College, San Bernardino, CA

Land Use & Environmental Planning, University of California, Riverside, Riverside, CA

Relevant Project Experience

Public Works Agency – Director County of Glenn, CA. Mr. Rust provided management, supervision and direction regarding the functions, activities, and programs of the divisions which includes: airports, engineering, flood control, roads & bridges, solid waste and surveying; appeared before the Board of Supervisors, Willows and Orland City Councils, Glenn County planning commission, and various community groups; ensured compliance with applicable laws, regulations and ordinances; and the coordination of all departmental activities within Glenn County.

Planning & Community Development Services Agency – Director County of Glenn, CA. Mr. Rust provided management, supervision and direction regarding the functions, activities, and programs of the agency which includes: building and permit services, building and safety, code enforcement, GIS services, economic and community development, business assistance, environmental health, planning and water resources departments; appear before the Board of Supervisors, Willows and Orland City Councils, Planning Commission, and various community groups; ensuring compliance with applicable laws, regulations and ordinances; and the coordination of all agency activities within the County.

City Administrator | City of Oroville, CA. Mr. Rust provided management, supervision and direction regarding the functions, activities, and programs for the City of Oroville, which includes: the duties as the City Clerk, Executive Director of the Supplemental Benefit Funds and other duties and responsibilities associated with the City Administrator's position.

Community Development & Public Works Director | City of Oroville, CA. As a Public Works Director, Mr. Rust provided management, supervision and direction regarding the functions, activities, and programs of the departments which includes: building and permit services, code enforcement, economic development, engineering, park and trees, planning and public works departments; appeared before the City Council, Planning Commission, Park Commission, Arts Commission and various community groups; ensuring compliance with applicable laws, regulations and ordinances; and the coordination of all departmental activities throughout the City.

Planning & Development Services Director | City of Oroville, CA. In this position, Mr. Rust managed and directed the functions, activities, and programs of the department which includes: building and permit services, code enforcement, economic development, and planning divisions; providing direction and supervision to division managers, technicians, and clerical personnel; routinely appear before City Council, Planning Commission and various committees; ensuring compliance with applicable laws, regulations and ordinances; and the coordination of the building, code enforcement, economic development, and planning division activities throughout the City. He worked with the Business Assistance & Housing Department providing environmental and construction administration and expertise regarding all housing projects.

Principal Planner |County of Yolo, CA. Mr. Rust performed complex planning work involving new commercial, industrial and residential projects, specifically including: the supervision of associate planners and various staff members in the completion of advanced and current planning work to ensure compliance with Federal, State and local laws, policies, regulations and ordinances. He routinely appeared before legislative bodies, advisory committees and public meetings. He acted as the Project Manager for the Climate Action Plan as well as the Project Manager for the automation of the Planning & Public Works Department permit processing (CRW's Trak-IT system). I drafted land use regulations including County Ordinances and Development Codes.

Senior Planner |County of San Bernardino, CA. Mr. Rust managed a large caseload of Current Planning work involving new commercial, industrial and residential projects. My duties routinely included: appearing before legislative bodies, advisory committees and public meetings; acted as project leader (assigned, directed and reviewed the work of others); determined immediate and long-range impacts of proposed development projects; drafted land use regulations and amendments to existing County Ordinances and the Development Codes; and acted as Project Manager for the automation of the Current & Advanced Planning Divisions permit processing (implementation of the Accela's Permits' Plus software).

Senior Project Coordinator | County of San Bernardino, CA. Mr. Rust was responsible for the daily activities of the Property Management Group of the Flood Control Operations Division, including project leader of engineering technicians regarding field inspections; lead technician of Confined Space Video Crew; coordinated with the State of California, Department of Water Resources - Division of Safety of Dams regarding the certification of the thirteen dams within the jurisdiction, and the operations of the Seven Oaks Dam; coordinated activities Federal Emergency Management Agency (FEMA) and the State of California Operation of Emergency Services (OES) on disaster claims, which impacted the public works facilities; certified Local Inspector (Certification No. 99161) for FEMA; management of all annual permits, leases and license agreements; and project manager to automate the permit processing within the division (implementation of the Accela's Permits' Plus software).

Construction Inspector | County of San Bernardino, CA. As a Construction Inspector for the West Valley region of the County of San Bernardino, Ms. Rust's responsibilities included performing detailed inspections of roads, subdivisions, utility crossings and other related permit activities for the Transportation Permits Section as well as performing inspections of all construction activities within the Flood Control District's right-of-way.

Bryan Ruben Albini

SENIOR PLANNER

Mr. Albini serves as a Senior Planner for CSG Consultants. Mr. Albini has comprehensive knowledge of land use planning, development principles, and regulatory procedures. He has experience and compliance with CEQA, Subdivision Map Act, CA housing legislation, and local land use laws. Mr. Albini has a thorough understanding of project management duties and time management. He is skilled in using communication and design software. Mr. Albini is capable of exercising independent judgment and handling confidential information discreetly. He has exceptional organizational and analytical skills, keen attention to detail and adaptability. Mr. Albini has a proven ability to collaborate effectively with clients, colleagues, and other professionals in a high-pressure environment. He is competent in working within multidisciplinary teams.

Previous Relevant Project Experience

Senior Planner |CSG Consultants

Mr. Albini will be managing policy planning projects and programs within various jurisdictions. He will also plan, manage, and participate in the preparation of advanced planning projects and complex current development projects and present planning projects to various planning advisory committees, Planning Commissions, City Councils and prepare for and present at public hearings.

Sustainability Specialist III |Home for All San Mateo County, CA

- Educated the community on producing new housing across the 21 jurisdictions in San Mateo County.
- Developed policy resources and communication tools to promote innovative housing solutions at the local level.
- Managed the Home for All website redesign and continual maintenance.
- Track housing production and RHNA cycle requirements for local jurisdiction.
- Provided technical assistance on planning and land use issues for religious organization seeking to build affordable housing under SB4 (Yes in God's Backyard).
- Built partnerships among stakeholders to produce and preserve housing at all income levels.

Planner II | County of San Mateo Planning Department, Redwood City, CA

- Processed multiple staff and public hearing level land use entitlements and conducted CEQA reviews for projects, including use permits, parking exceptions, lot-line adjustments, minor subdivisions, and design reviews.
- Prepared public hearing level reports and presentations to community councils, Zoning Hearing Officer, Planning Commission, and Board of Supervisors. Presented before community councils, Zoning Hearing Officer, and Planning Commission.
- Participated in and facilitated breakout sessions for the North Fair Oaks Community Plan public workshops.
- Conducted GIS analysis for Cycle 5 Housing Element, site inventory, and public meeting facilitation.
- Reviewed building permits for the General Plan, Local Coastal Program, Zoning Regulations, conditions of approval, and mitigation compliance.

Education

B.S., Urban & Regional Planning (Urban Design Emphasis), California State Polytechnic University, Pomona

Sustainable Landscape Maintenance Certificate

Santa Ana Botanic Garden/Thomas Payne Foundation

Emerging Leadership Fellow, Leadership Council of San Mateo County

Recognition

"Building Alternatives in Materials and Design" – Analysis of Sustainable Buildings

Amy Mullay

SENIOR PLANNER

Ms. Mullay is a multi-faceted urban planner with more than 26 years of progressive experience in advanced and current planning. Through her experience, she has developed an expertise in implementation, administration, and monitoring of affordable housing programs and policies. She is a motivated collaborator with exceptional oral/written communication and organizational skills.

Education

Bachelor of Arts in Environmental Analysis & Design

Graduated Magna Cum Laude
University of California, Irvine
Irvine, CA

Associate of Arts
Orange Coast College, Costa Mesa, CA

Certifications

Tax Credit Specialist – National Center for Housing Management: ID# 2622675

Relevant Experience

Senior Housing Analyst/Senior Planner | City of Irvine, CA. For more than 20 years, Ms. Mullay was an integral part of the City of Irvine's planning staff—as a Senior Planner (2001-2005) and Senior Housing Analyst (2005-2023). Some of her notable duties and contributions include, but are not limited to:

- *Developed housing policies and programs as project manager for the 5th Housing Element cycle update.*
- *Facilitated and provided technical assistance for affordable housing obligations, policies/programs for the 6th Housing Element cycle.*
- *Managed, monitored, and maintained portfolio consisting of 50+ affordable housing properties to ensure compliance with local, state and federal programs through annual occupancy monitoring, tenant file audits, rent roll analysis, findings, and set-aside unit inspections.*
- *Provided technical assistance and guidance to property managers, leasing agents, internal staff, stakeholders, non-profit organizations, and property owners regarding local, state and federal and statutory affordable housing program interpretation, regulations, processes, standards and directives.*
- *Created and maintained affordable housing databases, resource materials and training guidelines for internal use, developers, property managers and the public.*
- *Analyzed, reviewed, and edited affordable housing plans and regulatory agreements for entitlement of 29+ multi-family and/or 100 percent affordable residential projects to ensure successful outcomes and compliance with federal, state and local laws, rules, guidelines and procedures.*
- *Co-authored existing Inclusionary Housing Ordinance and recent ongoing key updates increasing affordable housing requirements, deed restrictions, and preservation for compliance with housing element programs, as well as state and federal housing legislation.*
- *Coordinated and collaborated with numerous inter- and intra-department organizations to research, compile, and report 2013 through 2022 Housing Element Annual Progress Report housing development data and program status implementation.*
- *Managed a housing rehabilitation grant/loan program for 500+ residential properties throughout multiple neighborhoods.*
- *Analyzed, developed, and implemented innovative programs to promote affordable housing which address a broad range of housing needs and income levels, including rehabilitation, development incentives, homebuyers' assistance, and special needs to assist housing initiatives and compliance with housing laws.*
- *Managed customer service regarding affordable housing inquiries via telephone, email, and in-person.*
- *Assisted with multiple aspects of affordable multifamily project development such as financing, entitlement approvals, consultant coordination, public relations, and leasing/marketing.*
- *Ensured implementation and compliance with Inclusionary Housing Ordinance obligations, Housing Element programs, Fair Housing Law, and developer incentive programs.*
- *Presented housing programs, policies, projects, initiatives and procedures to the City Council, and other government commissions and committees.*
- *Project manager for advanced and current planning projects, including general plan amendments, zone changes, master plans, conditional use permits, tentative tract maps, sign programs, and variances.*

Nick Bateman

SENIOR PLANNER

Mr. Bateman serves as an Associate Planner for CSG, having more than seven years of experience in the public and private sectors. Through his previous experience as an Associate Planner, Environmental Planner, and Assistant Planner, he has developed skills that include current planning, CEQA/NEPA document preparation, project coordination, map-making with ARC GIS, and public presentations.

Education

Bachelor of Arts, Human Geography and Planning (Supplemental Certificate in Land Use and Environmental Planning),
California State University
Chico, California

Relevant Project Experience

Associate Planner | Paradise, CA. As an Associate Planner, Mr. Bateman was contracted as a staff planner with the Town of Paradise to help during the initial rebuild after the Camp Fire. In this role, he worked closely with the public, educating residents on their properties and permitting requirements. Mr. Bateman also handled project management for complex entitlements, communicated project details to other town departments, made presentations to the planning commission/city council, and authorized permits. Additionally, he authored grants that awarded the town nearly $250,000 to help pay for a new general plan housing element and a complex records digitization project.

Burnt Barn Distillery Project ISMND | Paradise, CA. Mr. Bateman prepared the Initial Study / Mitigated Negative declaration for the Burnt Barn Distillery Project, a distillery in Paradise California. The project involves the establishment of a new 4,800 square foot structure housing a distillery.

Paradise Boutique Apartments Conditional Use Permit Modification Project IS | Paradise, CA. Mr. Bateman prepared the Initial Study / Negative Declaration analyzing potential environmental impacts of the conversion of a residential care facility to market rate apartments.

Lavi Parcel Map Application Project ISMND | Paradise, CA. Mr. Bateman Prepared the Initial Study / Negative Declaration analyzing potential environmental impacts of a small land division including a minor residential development.

Environmental Planner, Transcon Environmental | Santa Rosa, CA. Mr. Bateman served as an Environmental Planner for Transcon Environmental and was responsible for preparing environmental assessments and initial studies for small- and large-scale projects. He coordinated activities between Transcon Environmental and PG&E for an ongoing utility maintenance contract. Additionally, Mr. Bateman gained experience by reviewing commercial cannabis entitlement applications for Humboldt County.

Beale WAPA Interconnection Project Environmental Assessment | Yuba County, CA. Mr. Bateman assisted in the preparation of the Environmental Assessment to evaluate potential impacts of an electrical utility interconnection to bring power to the Beale Airforce Base. The project included a 5-mile interconnection between transmission lines and a new substation located on the base.

Digital 299 Broadband Project ISMND | Various locations. Mr. Bateman assisted in the preparation of the Initial Study/Mitigated Negative Declaration to evaluate and mitigate impacts from this 300-mile broadband installation project following SR 299.

Emma Goldsmith

ASSOCIATE PLANNER I

Ms. Goldsmith is an experienced Planner who is well-versed in current and advanced planning methods. Through her experience, Ms. Goldsmith has developed a deep knowledgebase surrounding city planning documents and procedures, from permit issuance to zoning code updates—while also gaining experience with regional planning documents, such as the Regional Transportation Plans (RTP) and the Regional Housing Needs Allocation (RHNA) process.

Education

Bachelor of Science, Environmental Policy Analysis and Planning, University of California, Davis, Davis, California

CSG Relevant Experience

Assistant Planner | Town of Colma, CA. Ms. Goldsmith serves as a contract planner for the Town of Colma where she processes planning entitlements and provides front counter and plan check services. In Colma, Ms. Goldsmith gained experience with cemetery zoning procedures and provided support on lot line adjustments, Design Review Permits, Use Permits, and the Model Water Efficient Landscape Ordinance.

Assistant Planner | City of Pacifica, CA. Ms. Goldsmith processes tree permits for encroachment, pruning, and removal at the City of Pacifica. She is responsible for tree permit noticing; processing approvals, denials, and appeals; responding to public inquiries; and preparing permitting templates and handouts.

Assistant Planner | City of San Carlos, CA. Ms. Goldsmith serves as a contract planner for the City of San Carlos where she processes planning entitlements, provides front counter support, and plan check services. In San Carlos, Ms. Goldsmith gained experience reviewing single-family residential development under Objective Design Standards.

Assistant Planner and Permit Technician| City of Sonora, CA. Ms. Goldsmith worked directly with the Community Development Director to issue building permits and manage development projects. While at the City of Sonora, Ms. Goldsmith:

- Oversaw all aspects of Planning Commission including preparing agendas, minutes, staff reports, and public notices.
- Prepared the entitlements for a mixed-use 12-unit building. Over a year-long period, this included three staff report(s), presenting to the Planning Commission, and preparing appeal materials for City Council.
- Provided support on two code cases, one of which required a Site Plan and Design Review Permit. This included conducting site visits, coordinating with City departments to prepare a staff report, and acting as intermediary for the project applicant.
- Assisted with the Transient Use Permit code update by preparing new language, the staff report for City Council, and presenting to the City Council.

Other Relevant Experience

Associate Planner/Assistant Planner | Stanislaus Council of Governments. Ms. Goldsmith served the Stanislaus Council of Governments in Modesto, CA as both an Assistant Planner (2021-2022) and Associate Planner (2022-2023) prior to joining CSG Consultants. In these roles, she was responsible for monitoring state and federal regulations and programs to maintain regional compliance. Additional duties included:

- Providing project management support by leading project management meetings, reviewing consultant deliverables, and conducting in-person data gathering efforts such as site visits and public outreach

- Gathering, interpreting, and sharing regional data as the liaison between federal, state and local agencies
- Preparing and presenting monthly reports to seven advisory committees, while identifying recommendations for the Policy Board
- Coordinating with the public, community-based organizations, and local agencies to address questions on public planning processes

Research Assistant | UC Davis Institute of Transportation Studies. As a Research Assistant for the UC Davis Institute of Transportation Studies, Ms. Goldsmith conducted a qualitative analysis for a 230-page academic study of seven cities in California. She reviewed more than 50 documents related to local ordinances, policies, programs, and projects for transit-oriented development, transit, and active transportation.

Undergraduate Research Fellow | National Center for Sustainable Transportation. As an Undergraduate Research Fellow for the National Center for Sustainable Transportation in Davis, California, Ms. Goldsmith developed preliminary research finding for a 40-page report on transit-oriented development for the Cities of San Francisco, Oakland and San Jose. She synthesized and communicated the findings to these three central Bay Area cities in a 20-minute presentation.

Glenn Lajoie, AICP

PRINCIPAL, DIRECTOR OF ENVIRONMENTAL PLANNING

Mr. Lajoie has over 35 years of experience in the practice of CEQA/NEPA environmental review and Community Planning for clients and agencies throughout California. His range of environmental review studies has included policy, land development and infrastructure projects. Along with an extensive background in CEQA/NEPA, his practices have also encompassed policy planning programs, such as General Plans, Specific Plans, neighborhood studies and due diligence analysis. Mr. Lajoie's skill set includes project and budget management, quality assurance, meeting facilitation, agency staff service assistance, and third party/peer review verification of analysis and findings. His primary objective as a professional planner has always focused on assuring integrity, quality and legal defensibility of analysis and processes, culminating in win-win solutions for clients and communities.

Mr. Lajoie has an extensive background with local and regional agencies throughout California. The geographic context is wide ranging including: resort and destination projects in the Town of Mammoth Lakes; numerous infrastructure and water availability/desalination project reviews in the Community of Cambria; city center and neighborhood revitalization opportunities in Lancaster: over two million square feet of expansion for the Raytheon Corporate facility in El Segundo; Long Point (Terranea Resort) in Rancho Palos Verdes; downtown high rise and mixed-use proposals in Long Beach; The 2035 General Plan Update for Buena Park; buildout of the Cypress Business Park Master Plan in Cypress; campus modernization and enhancement projects at the University of California, Riverside and the master plan for beautification and growth at the Hotel Del Coronado.

Liza Debies

SENIOR ENVIRONMENTAL PLANNER

Liza Debies has more than 12 years of professional experience and more than 8 years of experience in managing the preparation and peer review of CEQA and NEPA documents, including EIRs, IS/MNDs, Addenda, Environmental Assessments (EAs), and Categorical Exemptions and Categorical Exclusions. She has completed CEQA and/or NEPA documentation for electronic billboards, public infrastructure, materials recovery facilities, mixed-use developments, residential, commercial, retail, transportation, industrial, recreational, and institutional projects. She has expertise in aesthetics, land use and planning and land use compatibility, transportation and circulation, utilities and services systems, and alternatives analysis, as well as in evaluating large public infrastructure projects.

Education

Bachelor of Arts, Environmental Studies Minor in Anthropology, with Honors, Pitzer College, Claremont, California

Study Abroad, visiting student in Biotechnology, Athlone Institute of Technology, Ireland, 2011

CSG Relevant Experience

Palos Verdes Estates 2021-2029 Housing Element Program 13 Rezoning Project IS/MND | City of Palos Verdes Estates, CA. As part of the Housing Element 2021-2029 (Housing Element), the City identified five candidate parcels within three sites to be rezoned to accommodate by-right housing. CSG prepared the IS/MND to evaluate rezoning the sites with two new housing overlay zones, which will allow these sites to support a variety of housing types. Ms. Debies provided senior management for the completion of the IS/MND. Because the project included only the legislative entitlements to facilitate the development of the sites, Ms. Debies consulted with the City and provided an approach for the environmental review that evaluated the sites at a programmatic level with environmental clearance for future by-right housing projects.

171 Ronan Avenue Apartments Project Environmental Documentation | City of Gilroy, CA. As Senior Project Manager, Ms. Debies managed the preparation of the environmental review for an 8,393-square foot multi-family unit apartment building project. The proposed project includes removal of an existing single-family residence and proposed replacing it with a two-story apartment building with six units. CSG determined that the project is consistent with Section 15303, New Construction or Conversion of Small Structures of the CEQA Guidelines and therefore qualifies for a Class 3 CEQA exemption.

Relevant Previous Experience

2023–2031 (6th Cycle) Housing Element Update Program EIR, City of Pleasanton, CA. As Project Manager, Ms. Debies managed the preparation of the Housing Element Update Program EIR for the City of Pleasanton. Ms. Debies prepared a 15183 streamlining template to be utilized by the City to process housing sites identified in the Housing Element Update.

Del Hombre Apartments Project EIR, Contra Costa County, CA. As Project Manager, Ms. Debies managed the preparation of an EIR for the construction of a 284-unit apartment building on a 2.40-acre site located in the unincorporated area of Walnut Creek, next to the Pleasant Hill BART/Contra Costa Center Bart Transit Village.

Oak Park Properties Specific Plan EIR | City of Pleasant Hill, CA. As Project Manager, Ms. Debies managed the preparation of an EIR for a 15-acre Program Area, which included a new public library, housing, and athletic fields. Key issues included lighting impacts associated with the stadium lighting for the athletics fields.

Kelli Allen

ASSOCIATE ENVIRONMENTAL PLANNER

Ms. Allen serves as an Associate Environmental Planner for CSG Consultants and is currently providing staff support to CSG clients. Ms. Allen has experience in the preparation of CEQA and NEPA documents, including EIRs, IS/(M)NDs, Categorical Exclusions, and safety elements. Ms. Allen has completed CEQA documentation for mixed-use developments, residential, commercial, retail, and industrial projects, and has conducted peer reviews of EIRs and ISMNDs for commercial and residential development projects. Ms. Allen has experience drafting presentations and writing administrative CEQA documents, including Project Descriptions, Notices of Availability, Preparation, and Determination, and OPR summary documents.

Relevant Project Experience

Janss Marketplace Hotel Project EIR | City of Thousand Oaks, CA. Ms. Allen assisted in the preparation of an EIR to evaluate the potential environmental impacts of the development of a hotel at 225 North Moorpark Road in Thousand Oaks. The proposed project includes demolition of the current two-story retail building, to be replaced by a five-story dual hotel and retail pad, the creation of a map to designate airspace rights, and a zoning change to the footprint of the hotel to increase the building's height limitation.

ARCO Commercial Center and Car Wash Project IS/MND | City of Plymouth, CA. Ms. Allen assisted in the preparation of an IS/MND to evaluate the potential environmental impacts of the development of a commercial store, gas station, and car wash at 18725 CA 49 in Plymouth. The proposed project includes development of the currently vegetated site to construct a fuel canopy, car wash, convenience store, and parking lot, a general plan amendment, and a zoning change to accommodate the high-traffic commercial use in the downtown area.

1890 South Coast Highway IS/MND | City of Laguna Beach, CA. Ms. Allen is assisting in the preparation of an IS/MND to evaluate the potential environmental impacts of the development of a mixed-use retail and residential project at 1890 South Coast Highway in Laguna Beach. The proposed project involves the demolition of an existing car wash facility to be replaced by a mixed-use retail and residential complex with a subterranean garage and approximately 5,200 square feet of deck area.

Safety Element Update | City of Sonora, CA. Ms. Allen assisted in the preparation of a safety element update for the City of Sonora. The element evaluates the future hazard risks associated with fire, flood, seismic and geologic conditions, hazardous materials/wastes, emergency operations, human-caused hazards, critical facilities and infrastructure, evacuation, and climate change in Sonora.

M&J Pallet Building IS/MND | County of San Bernardino, CA. Ms. Allen assisted in the preparation of an IS/MND to evaluate the potential environmental impacts of the development of a pallet building warehouse in the County of San Bernardino. The proposed project involves the demolition of all existing on-site improvements, to be replaced by an approximately 22,267 square foot commercial warehouse and parking and circulation system improvements.

Colby Gonzalez

ASSISTANT ENVIRONMENTAL PLANNER

Colby Gonzalez has 2 years of professional experience in working with environmental documents, including EIRs, IS/MNDs, Addenda, and Categorical Exemptions. He has worked as a paralegal on CEQA and NEPA lawsuits for mixed-use projects, housing projects, industrial manufacturing projects, and warehouse projects. He also has experience with Clean Water Act and the Montana Environmental Policy Act ("MEPA").

Education

Bachelor of Arts in Environmental Studies,

Graduated Magna Cum Laude Montana State University, Bozeman, Montana

CSG Relevant Experience

Palos Verdes Estates 2021-2029 Housing Element Program 13 Rezoning Project IS/MND | City of Palos Verdes Estates, CA. As part of the Housing Element 2021-2029 (Housing Element), the City identified five candidate parcels within three sites to be rezoned to accommodate by-right housing. CSG prepared the IS/MND to evaluate rezoning the sites with two new housing overlay zones, which will allow these sites to support a variety of housing types. As Lead Analyst, Mr. Gonzalez drafted several sections of the IS/MND.

171 Ronan Avenue Apartments Project Environmental Documentation | City of Gilroy, CA. CSG prepared the environmental review for an 8,393-square foot multi-family unit apartment building project. The proposed project includes removal of an existing single-family residence and proposed replacing it with a two-story apartment building with six units. CSG determined that the project is consistent with Section 15303, New Construction or Conversion of Small Structures of the CEQA Guidelines and therefore qualifies for a Class 3 CEQA exemption. As Lead Analyst, Mr. Gonzalez drafted the exemption memorandum.

Pritchard Field Improvement Project | City of Bell, CA. Mr. Gonzalez prepared the environmental assessment required by the National Environmental Policy Act for a community park project in the City of Bell which would include two new playgrounds, a dog park, and picnic area in a severely underserved community.

Janss Marketplace Specific Plan Project Environmental Documentation | City of Thousand Oaks, CA. Mr. Gonzalez is currently assisting with the preparation of the environmental documentation for the Janss Marketplace Specific Plan in the City of Thousand Oaks. This Specific Plan document would create a detailed plan describing allowable future land uses, infrastructure, and implementation requirements for projects within the bounds of the Specific Plan area.

In-N-Out Burger Project Environmental Documentation |City of Bell, CA. CSG prepared a 15183 general plan consistency checklist for the development of an In-N-Out Burger fast food restaurant in the City of Bell in conjunction with applications for a Site Plan Review, Conditional Use Permit, and Variance. Initially, the project was to be processed via a Class 32 Categorical Exemption. Through initial project review, the CSG team determined that the site was on the Cortese list and would not qualify for such an exemption and prepared a justification memorandum within an expedited timeframe. Mr. Gonzalez assisted with the preparation of a 15183 Consistency Checklist.

Iron Planet Auction | San Bernardino County, CA. Mr. Gonzalez performed a peer review of the IS/MND prepared for a surplus military grade equipment auction project in Yermo and created a memorandum detailing suggestions and revisions which should be incorporated in the final CEQA document. Mr. Gonzale's peer review concluded that the project was located on a former leaking underground storage tank site which was not disclosed in the IS/MND.

11.5: PRICING PROPOSAL

Hourly Rate Schedule – CSG Consultants

PERSONNEL / ROLE	HOURLY RATE
Principal-in-Charge	$280
Sustainability Programs Manager	$220
Sustainability Programs Analyst	$190
Environmental Planning Director	$280
Senior Environmental Planner	$230
Associate Environmental Planner	$190
Assistant Environmental Planner	$160
Planning Director	$207
Planning Manager	$240
Principal Planner	$235
Senior Planner	$210
Associate Planner	$175
Assistant Planner	$155
Planning Technician	$100
GIS Manager	$160
GIS Analyst	$120
GIS Technician	$100
Document Publications Specialist	$125

Terms

- *All hourly rates include overhead costs including but not limited to salaries, benefits, workers' compensation insurance, local travel, and miscellaneous office expenses.*
- *Overtime services and services provided outside of normal business hours will be billed at 1.5x the applicable hourly rate.*
- *On July 1 or the anniversary of the contract start date, CSG will initiate an hourly rate increase based on change in CPI for the applicable region.*
- *CSG will mail/email an invoice every month for services rendered during the previous month. Unless otherwise agreed, payment terms are 30 days from receipt of invoice.*
- ***This fee proposal is valid for a period of 120 days from date of submittal.***

***Subconsultants:** If utilized for any portion of the scope of work, rates for subconsultants can be readily provided upon request.

.

11.6.1: PRIOR LITIGATION/CLAIMS

LITIGATION (PAST FIVE YEARS)

Stephen Estrella v. City of South San Francisco Code Enforcement, a Public Entity, et al. (Case #20-CIV-05257). A CSG employee was driving his personal vehicle and allegedly drove over Stephen Estrella's foot while the CSG employee was working for the City of South San Francisco. A claim was made against the CSG employee's auto insurance, and damages were paid. On November 24, 2020, a lawsuit was filed against the City of South San Francisco and CSG for the same incident. The case was settled for $300,000 and closed on February 23, 2024.

Tilafaiga Taape, Jr. v. Rosemary Hanson and CSG Consultants. The property owner at 34 Visitacion Avenue in Brisbane was named along with CSG for a railing that failed on private property. CSG provides services to the City of Brisbane for building plan review and inspection. CSG was released from the case since it was not involved in the condition of the existing railing on the private property. The CSG dismissal forms for this case were completed on March 2, 2021.

11.6.2 FAILED PROJECT COMPLETIONS

CSG has never failed to complete any work it was awarded, nor has CSG ever defaulted on a contract.

PROFESSIONAL SERVICES MASTER AGREEMENT (ON-CALL PLANNING)

BETWEEN

CITY OF BENICIA AND

ECOnorthwest

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and ECOnorthwest, a California Corporation located at 920 SW 6th Ave., Suite 1400, Portland, OR 97204, licensed to do business in California, ("CONTRACTOR") relating to ECOnorthwest - Planning Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Long-Range Planning Policy and Strategies

B. Housing Programs and Policies

C. Land Use Economics

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

   1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Cindy O'Connell

Head of Finance

oconnell@econw.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between ECOnorthwest, hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Stacy Hofacre
Permit Services Analyst
250 E L Street
Benicia, CA 94510

Dear Ms. Hofacre and Selection Committee,

ECOnorthwest is pleased to submit our qualifications to support the City through on-call planning in these service areas: **4.3: Long-Range Planning Policy and Strategies; 4.5: Land Use Economics;** and **4.7: Housing Programs and Policies.** With a proven track record of helping jurisdictions address growth, affordability, and economic resilience, our team brings data-driven analysis, deep policy expertise, and responsive service delivery to every engagement.

Our interdisciplinary team includes nationally recognized experts in urban economics, housing policy, and comprehensive planning. We tailor our work to local context while aligning with state mandates and best practices. Whether guiding regional housing strategies or evaluating development feasibility, we prioritize actionable insights and collaborative implementation.

We are currently serving the City of Benicia under a multi-year contract for economic development strategy and on-call support—demonstrating our ability to build trusted, effective partnerships with California cities.

Thank you for the opportunity to be considered. We look forward to the possibility of supporting your goals. Please feel free to contact us with any questions.

Sincerely,

Becky Hewitt
Project Director

Project Organization Chart

For this on-call services proposal, we have included a collaborative team of experts with demonstrated success on similar projects throughout the region. Our team has worked together on many successful planning, economic analysis, and housing program/policy projects in the past that have been implemented to achieve community goals. If selected for the on-call planning services bench, we will assemble teams for specific projects that best align with the needs of the project.

Key Personnel Bios and Responsibilities

Becky Hewitt, Project Director

Leads housing and land use strategy, guiding feasibility analysis, zoning audits, and stakeholder engagement to ensure deliverables are technically sound and policy-relevant.

Becky has extensive experience with land use, housing, and development analysis and planning in Oregon and across the country. Becky's work at ECOnorthwest focuses on evaluating development feasibility, housing strategies, and transit-oriented development. Becky advises communities on the market and development potential for a range of housing types—including middle housing—and how to align regulations to support their local housing needs and goals. Becky has experience leading technical analysis, managing complex multi-disciplinary projects, presenting to advisory bodies and decision-makers, and designing and implementing public and stakeholder engagement. Becky joined ECOnorthwest in 2018 after a decade of working in urban planning and land use analysis, including corridor revitalization plans, concept plans for developing areas, development code audits and updates, and housing analyses. Becky has graduate degrees in both urban planning and real estate development.

Chris Blakney, Project Director

Leads land use economics and economic development projects, translating market and policy analysis into actionable strategies. Advises on housing strategies to align with state requirements.

Chris joined ECOnorthwest as a Project Director in 2019. Chris' professional expertise is established at the cross-section of development economics and economic development. Chris works with a range of public and private sector clients to develop strategic actions that address challenging policy questions around affordable housing, land use, economic development, and growth management. Prior to joining ECOnorthwest, Chris served as an in-house economist for a leading Architecture and Engineering firm advising architects on the economics of design alternatives. Chris has been an active member of the International Economic Development Council and the Commercial Real Estate Development Association (NAIOP).

Tyler Bump, Project Director

Advises on area planning, housing, and land use economics projects, including zoning reform and equitable development.

Tyler has been working with cities, business districts, and community-organizations to support equitable development efforts for over 19 years. Tyler focuses on the intersection of land use planning and real estate investment that advances equitable housing, economic development, and sustainable development goals. To support these goals, he works with clients to develop and implement creative strategies that leverage public and private sector investment through changes to land use and development standards, regulatory requirements, and funding strategies. He also provides advisory services to local governments and business districts to develop and implement strategies that advance economic development, business growth, and community revitalization goals. Tyler also leads ECOnorthwest's Urban Systems practice across the firm. The Urban Systems practice is an integrated multidisciplinary team that includes our work in housing and development policy, economic development, TOD, transportation economics, and business analytics.

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

Description of Responsibilities

Cadence Petros, Project Director

Advises on housing programs and implementation and equitable development.

Cadence is a Project Director at ECOnorthwest with over 25 years of experience implementing cities' downtown revitalization, housing, and economic development goals to help build vibrant neighborhoods that foster a sense of belonging and meet the needs of all community members. At ECOnorthwest, Cadence utilizes her expertise to provide clients with actionable, grounded guidance on how to build equitable communities, including increasing accessible and available housing, enhancing the built environment, preventing involuntary displacement, and developing projects and programs that lead to shared prosperity.

Kryn Sausedo, Senior Project Manager

Manages project delivery and engagement, ensuring strategies are grounded in data and responsive to community context.

With a decade of experience in the public sector, Kryn is adept at managing economic development projects and crafting actionable strategies. His portfolio includes statewide recovery plans, local economic resiliency strategies, small business support programs, and innovation hub development plans. He prioritizes collaboration and values the insights of local stakeholders, combining data with lived experiences in an iterative process to develop effective and thoughtful solutions.

Erik Bagwell, Senior Project Manager

Leads financial feasibility assessments for affordable housing, with expertise in public finance, underwriting, and policy analysis.

Erik joined ECOnorthwest in 2019. He has a decade of experience in public finance and affordable housing. He specializes in affordable housing development, real estate finance, and policy analysis, and applies these skills across an array of economic, real estate, and urban, suburban and rural development projects. Prior to joining ECOnorthwest, Erik worked in the Credit & Underwriting team for the New York City Department of Housing Preservation and Development, specializing in financial feasibility analyses, pro forma analysis, cash flow modeling, and gap financing, for rent-restricted, multifamily affordable housing development.

Michelle Anderson, Project Manager

Supports real estate and land use analysis, including development feasibility modeling.

Michelle joined ECOnorthwest in 2016. She specializes in real estate, land use, and affordable housing policy and development. Michelle is skilled in creating and analyzing financial pro formas, directly engaging with community stakeholders, and employing ArcGIS, SketchUp, and other software to model development feasibility. Prior to joining ECOnorthwest, Michelle worked as a Development Associate for a Portland-area real estate firm where she was responsible for both affordable and conventional multi-family housing development. With degrees in economics and urban and regional planning, Michelle is versed in public policy issues ranging in scale from the neighborhood to the regional level. Michelle is always eager to improve communities through policy solutions that mutually benefit the public and private sectors.

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

Mackenzie Visser, Project Manager

Supports housing policy research and financial feasibility analysis.

Mackenzie specializes in affordable housing, housing policy, and financial analysis. Prior to joining ECOnorthwest, Mackenzie worked with the Washington State Housing Finance Commission to analyze the impact of cost containment policies on Washington Low-Income Housing Tax Credit allocation. Mackenzie also has prior experience in direct service, providing housing case management and financial assistance for domestic violence survivors in King County. Mackenzie is passionate about advocating for vulnerable communities within local housing and homelessness systems and focused her MPA work on equitable and affordable housing development policy.

James Kim, Project Manager

Supports policy and financial modeling for housing, TOD, and fiscal impact analysis.

James brings a perspective from land use planning to help decision-makers answer important policy questions: improving housing affordability, reducing homelessness, promoting socioeconomic and racial equity, reducing greenhouse gas emissions, designing urban environments for walkability and healthy living, and understanding fiscal impacts of policy alternatives. He evaluates the intersection of market dynamics and regulatory incentives through financial modeling, pro forma analysis, and academic literature reviews. He also focuses on housing policy research and transit-oriented development. Prior to joining ECOnorthwest in 2019, James worked at the Federal Aviation Administration drafting regulations on user fees and conducting financial analysis of internal investments.

Josie Rademacher, Associate

Supports housing and long-range planning policy analysis and strategies, including zoning updates and area plans.

Josie joined ECOnorthwest in 2024 as an Associate. She specializes in public outreach, code development, urban design, and planning efforts such as subarea and comprehensive plans. Prior to joining ECOnorthwest, Josie worked as a planner for Washington cities on current and long-range planning projects. These projects included development review, code updates, middle housing implementation, subarea planning, comprehensive plan updates, and public engagement. She is passionate about advancing livable, equitable communities by integrating design thinking, planning, and public engagement to address housing challenges and shape resilient cities for the future.

Understanding

ECOnorthwest understands that the City is seeking expert partners to provide on-call support across key planning domains: long-range planning policy and strategies, land use economics, and housing programs and policies. These service areas are increasingly interdependent—requiring integrated, equity-driven, and market-informed approaches to address the urgent challenges facing California communities.

ECOnorthwest's approach to long-range planning policy and strategy focuses on helping cities align growth management, infrastructure planning, and policy frameworks in key areas or across the city with evolving demographics, market context, climate imperatives, and state mandates. Our work helps jurisdictions ground their planning efforts in fiscal and economic reality while creating a roadmap for sustainable, equitable development.

Our work on land use economics helps cities identify feasible development, evaluate how policy decisions will impact a developer's pro forma, assess fiscal impacts of growth or policy decisions, and establish funding strategies to deliver needed infrastructure or programs.

ECOnorthwest's housing program and policy work includes supporting jurisdictions with housing needs assessments, policy development, and implementation strategies that reflect local context, meet state requirements, and prioritize affordability and inclusion. We also work with cities to structure and implement new housing programs and funding sources to deliver the greatest possible impact within the available public resources.

Through these service areas, ECOnorthwest delivers actionable analysis and trusted guidance that help jurisdictions turn complex challenges into clear, community-informed solutions.

Approach to Long-Range Planning Policy and Strategies

ECOnorthwest brings an interdisciplinary and market-conscious perspective to long-range planning. We integrate urban economics, land use policy, infrastructure planning, and community engagement to help jurisdictions shape their futures with actionable, realistic strategies. Our approach is rooted in data, equity, and collaboration. We help clients navigate complex regulatory environments, assess market conditions, forecast growth, and plan for efficient infrastructure and equitable development. Our work supports sustainable, inclusive communities—anchored by policies that reflect real development dynamics and community values. With deep experience in comprehensive planning, corridor redevelopment, area planning, and growth management, our strategies equip public agencies to respond to current challenges while planning for resilience and prosperity over the long term.

Long-Range Planning Policy and Strategy Project Examples

City of Pacific Grove | Middle Housing Analysis | CA | 2021

ECOnorthwest evaluated potential zone changes and changes to development regulations to allow several middle housing types in specific neighborhoods within the City of Pacific Grove, CA. The analysis provides an initial indication of development feasibility for middle housing in those areas to help determine whether the proposed rezoning will deliver the desired results of the redevelopment of single-family properties to "multiplex" products allowed under the new zoning and inform next steps and further study.

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

Association of Bay Area Governments | Missing Middle Housing Workgroup | CA | 2022

The Association of Bay Area Governments (ABAG) hosts working groups for member jurisdictions to explore topics of broad relevance across the Bay Area with issue-specific training and technical assistance. Working with planning firm Baird + Driskell and Opticos Design, ECOnorthwest supported a working group focused on middle housing and how it could fit with jurisdictions' housing needs. ECOnorthwest's role included:

- Leading sessions on the market for middle housing and who it serves, how to make middle housing affordable, and how to understand development feasibility for middle housing.
- Producing reports offering additional information regarding the middle housing market in the Bay Area and affordability strategies for middle housing.
- Developing an interactive tool for use by Bay Area jurisdictions to consider how policy variables such as parking requirements, required site size, and local fees affect the viability of middle housing given estimated local market conditions.

Approach to Land Use Economics

Land use decisions are economic decisions. At ECOnorthwest, we apply the principles of urban economics, market feasibility, fiscal impact, and development finance to evaluate how planning and public investment affect development outcomes. We help jurisdictions understand the incentives, trade-offs, and consequences of land use policies—delivering analyses that reveal how zoning, infrastructure, and financial tools interact with market realities. Our approach empowers clients to align land use policies with public goals, ensuring they work with rather than against the market. Whether identifying land constraints, evaluating the fiscal impacts of growth, or modeling development under new zoning scenarios, our work supports strategic decision-making that promotes efficient, equitable, and financially sustainable land use.

Land Use Economics Project Examples

City of Alhambra | Housing Element | CA | 2024

ECOnorthwest assisted the City of Alhambra with its 6th Cycle Housing Element Update. Alhambra is a built-out community with minimal vacant land and will rely heavily on redevelopment, infill, and densification strategies to meet its lower-income RHNA allocation. A critical challenge for the City is identifying sites that can accommodate lower-income RHNA. To address this challenge ECOnorthwest developed a model to detect optimal tax lot aggregation opportunities in higher resource locations to identify market-feasible redevelopment sites that meet lower-income site size and location requirements. To complement this feasibility-driven approach, policy direction was informed by engagement with the community. Alhambra is a diverse community where 70 percent of the population speaks a language other than English at home. All project announcements and survey materials were translated into Spanish and Traditional Chinese. Because the COVID-19 pandemic has made access to workshops more challenging for those without access or comfortability with computers, we also offered "office hours" for a one-on-one if a community member could not access our virtual workshop.

SLOCOG | Affordable-by-Design Study | CA | 2023

In the face of accelerating housing costs and lack of affordable housing production, the San Luis Obispo Council of Governments (SLOCOG) has been working to align housing production efforts throughout the region over several years. With limited resources to deliver deed-restricted affordable housing, SLOCOG asked

Docusign Envelope ID: 14314B11-E8E9-4AC9-A504-C718F6B95F9A

ECOnorthwest to prepare an "Affordable-by-Design" study, which considers whether and how the market could produce housing affordable to moderate-income households without subsidies or price/rent restrictions. ECOnorthwest gathered data about the local housing market, reviewed relevant development examples locally and from other regions, interviewed local developers, analyzed the feasibility of several types of development that could potentially meet affordability criteria given local market conditions, and recommended local strategies to support the market in delivering affordable-by-design housing. The study was adopted in 2023 by the SLOCOG Board as part of a broader Regional Housing and Infrastructure Framework that highlighted infrastructure needs and policy options to support housing production in the region and provides a basis for further coordinated local action. This project was delivered on time and on budget.

Approach to Housing Programs and Policies

ECOnorthwest is a recognized leader in housing economics, policy, and planning across the West Coast and beyond. Our approach combines rigorous analysis with deep practical knowledge of housing development, finance, and land use regulation. We partner with jurisdictions to develop housing policies that are equitable, implementable, and responsive to community needs. Our work spans the full spectrum—from Housing Needs Analyses and Housing Elements to affordable housing feasibility, zoning reform, and the design of incentive programs. We are at the forefront of evaluating and advancing "missing middle" housing, equitable TOD, and anti-displacement strategies. We bring an equity-centered lens to every project, ensuring that technical solutions are grounded in community engagement, demographic realities, and pathways to meaningful, long-term change. Our work supports public agencies in creating diverse, attainable housing options that reflect and serve the full range of their communities.

Housing Programs and Policies Project Examples

City of Bakersfield | Affordable Housing Strategy and Housing Trust Fund | CA | 2023

Facing a shortage of affordable housing in the tens of thousands of units, the City of Bakersfield set out to create a comprehensive affordable housing strategy centered on increasing production. Bakersfield takes a relatively hands on approach to affordable housing in partnership with a strong regional Housing Authority. One of its key priorities was to establish a Local Affordable Housing Trust Fund. As a first task in the broader strategy, ECOnorthwest in partnership with Community Planning Collaborative (formally Baird+Driskell) set out to test the feasibility of such a fund. This task quickly pivoted when the client team decided they wanted to accelerate the analysis in order to make the application deadline for the state's Local Housing Trust Fund (LHTF) matching program, just two months away. Our team quickly dove in to identify and recommend a range of potential funding sources and fund structures; exploring political feasibility, sustainability, resource generation, and other factors. The city agreed to dedicate $5 million in one-time ARPA funds in addition to ongoing funds from a PSVS sales tax, and PLHA funds. We assisted the city with its LHTF application and the city was successful in receiving a $3 million matching grant for new housing trust funds from the state. Based on future grant awards the city estimates the fund could support the production of 1,000 to 1,700 new affordable housing units over the initial five years period. This task was completed two months ahead of schedule to meet LHTF application deadlines and on budget.

RELEVANT EXPERIENCE

City of Eugene | Housing Needs Analysis, Economic Opportunities Analysis, and Housing Production Strategy | OR | Ongoing

Crafting a housing needs analysis, economic opportunities assessment, and housing production strategy for the City of Eugene. Reviewing the urban growth boundary's sufficiency and potentially suggesting land use efficiency measures for increased development capacity.

City of Seattle | Middle Housing Analysis | WA | 2024

Analyzed development feasibility and conducted spatial assessments for middle housing allowances in Seattle's low-density zones. Supported the City's planning goals by providing insights into potential market utilization, aligned with the 20-year housing forecast.

Oregon Metro | Residential Readiness | OR | 2024

Evaluated housing-related factors for Metro's 2024 Urban Growth Report. Assesses past expansion areas, affordability, filtering, gentrification/ displacement, and potential for middle housing and office-to-residential conversions. Informed growth management decisions to enhance development readiness and affordability considerations.

San Luis Obispo Council of Governments | Regional Affordable-by-Design Study | CA | 2023

Evaluated housing affordability characteristics in the Affordable-by-Design (ABD) Study for seven cities and unincorporated San Luis Obispo County. Supported SLOCOG in justifying and updating Annual Report affordability criteria to include units built without financial assistance or deed restrictions.

City of Beaverton | Housing Capacity Analysis and Housing Production Strategy | OR | 2023
Evaluated specific housing strategies, including feasibility testing and incorporating anti-displacement strategies, as a subconsultant to Angelo Planning Group for Beaverton's Housing Capacity Analysis (HCA) and Housing Production Strategy (HPS).

City of Happy Valley | VHDZ Analysis | OR | 2023
ECO assisted the City of Happy Valley with analyzing the financial impact of a proposed VHDZ. ECO estimated the forgone revenue to the City and evaluated the effects on each taxing district.

Oregon Department of Land Conservation and Development | Bend Climate Friendly Areas Market and Residual Land Value Analysis | OR | 2023
Analyzed market potential for mixed-use redevelopment within potential Climate Friendly Areas for the City of Bend. Evaluated areas for mixed-use zoning allowing taller buildings, diverse uses, and no parking requirements as an add-on to the ongoing Housing Capacity Analysis. Contracted through DLCD and funded by a grant.

City of Bend | Housing Capacity Analysis Update | OR | 2023
Drafted Housing Capacity Analysis (HCA) for the City of Bend, assessing growth management options, including Urban Growth Boundary expansion and Climate Friendly Area designation. Evaluated market-feasible redevelopment potential and regulatory impacts on increased height, density, and mixed-use development.

AARP National | Middle Housing Model Ordinance | Nationwide | 2023
Developed a Model Act and guide for statewide legislation to re-legalize middle housing. Provided options, example language, and pointers for customization. Supported AARP in expanding middle housing options nationwide, guiding policy decisions and development.

City of Hillsboro | Incentives for Middle Housing | OR | 2022
Assisted the City of Hillsboro in implementing Oregon House Bill 2001 by evaluating financial incentives for smaller and middle housing. Explored options such as variable System Development Charges and property tax abatements, contributing to housing diversity.

Clark County | Buildable Lands Program Update | WA | 2022
Reviewed and updated Clark County's Buildable Lands Methodology, ensuring alignment with legislation and development trends; culminated in the 2021 Buildable Lands Report in collaboration with stakeholders.

Association of Bay Area Governments | Missing Middle Housing Workgroup | CA | 2022
Collaborated with Baird + Driskell and Opticos Design, aiding ABAG's working group on middle housing. Led discussions on market dynamics, affordability, and development feasibility. Generated reports and crafted an interactive tool for local jurisdictions to assess policy impacts on middle housing viability in the Bay Area.

Washington County | HB2001 Implementation Market and Economic Analysis | OR | 2021
Provided financial feasibility analysis for middle housing development in urban unincorporated areas, advising on regulatory options and development code amendments to comply with Oregon's House Bill 2001. Continued to support County staff on policy decisions and potential market responses.

Housing and Community Services | Statewide Housing Plan | OR | 2018
Assisted in developing Oregon's first statewide housing plan. Facilitated work sessions, refined goals and priorities, brainstormed implementation strategies, highlighted key data, drafted plan text, and coordinated review and revisions for Oregon Housing and Community Services.

recommendations for integrating the Oregon Housing Needs Analysis into the state's land use planning systems, including stakeholder engagement and technical analysis.

City of Issaquah | Housing Strategy Implementation | WA | 2023
Supported implementation of Issaquah's Housing Strategy by analyzing barriers to condominium development and conducting a financial feasibility study on expanding inclusionary zoning and middle housing types. Provided recommendations to amend zoning regulations to increase multifamily and middle housing projects.

City of Vancouver | Equitable Development Plan | WA | 2023
Led the next phase in the Heights District project, conducting community outreach, market analysis, and feasibility studies for equitable development, culminating in receiving the 2023 Washington Governor's Smart Communities Award for an affordable housing vision.

City of Springfield | Glenwood Riverfront Plan | OR | 2023
Conducted feasibility and market analysis, developed an implementation strategy to support the ongoing master plan for the Glenwood Riverfront area in Springfield.

Oregon DLCD | Wilsonville Preliminary Housing Needs Analysis | OR | 2023
Completed Preliminary Housing Needs Analysis for Wilsonville, conducting thorough assessments and data analyses to provide comprehensive insights into housing needs, aiding in strategic policy development and fostering community resilience.

Oregon DLCD | Tualatin Housing Implementation Plan | OR | 2023
Collaborated with DLCD to deliver HB 2003 compliant products for Oregon, including Housing Needs Analyses, prototype Housing Production Strategies, and Housing Strategy Implementation Plans for the City of Tualatin.

City of Austin | Density Bonus Calibration | TX | 2023
Conducted thorough analysis of Austin's density bonus program areas, informing strategic adjustments to enhance voluntary affordability and foster inclusive, sustainable housing solutions.

TYLER BUMP

Project Director + Partner

Tyler has been working with cities, business districts, and community-organizations to support equitable development efforts for over 19 years. Tyler focuses on the intersection of land use planning and real estate investment that advances equitable housing, economic development, and sustainable development goals. To support these goals, he works with clients to develop and implement creative strategies that leverage public- and private-sector investment through changes to land use and development standards, regulatory requirements, and funding strategies. He also provides advisory services to local governments and business districts to develop and implement strategies that advance economic development, business growth, and community revitalization goals. Tyler also leads ECOnorthwest's Urban Systems practice across the firm. The Urban Systems practice is an integrated multidisciplinary team that includes our work in housing and development policy, economic development, TOD, transportation economics, and business analytics.

core by 2030. Provided insights into existing capacity, identified development challenges, and recommended strategies for increased development capacity.

City of Tacoma | Home in Tacoma Phase II | WA | 2024
Developed and tested middle housing policy options and affordable housing incentives for Tacoma's Comprehensive Plan update, using pro forma analysis to assess the feasibility of housing prototypes and promote equity-centered strategies.

City of Redmond | Economic Study of Centers | WA | 2024
Assisted the City in overhauling incentive packages for the Overlake, Downtown, and Marymoor Village centers, transitioning to a points-based structure that includes affordable housing, inclusive design, open space, public services, green building, and building site form and uses.

City of Tucson | Equitable TOD Strategic Plan | AZ | 2023
Evaluated development opportunities, defined station area typologies, and assesses TOD funding options for an equitable TOD strategy along a 14.5-mile Tucson BRT corridor as a sub-consultant to Cushing Terrell.

City of Spokane Valley | MFTE Analysis | WA | 2023
Assisted the City of Spokane Valley by evaluating different MFTE program options.

City of Langley | Housing Action Plan | WA | 2023
Evaluated existing conditions, developed housing needs analysis report, drafted Housing Action Plan, outlined inclusionary zoning options; final deliverables provided Langley with detailed roadmap for sustainable, equitable housing policies.

City of Vancouver | Equitable Development Plan | WA | 2023
Led the next phase in the Heights District project, conducting community outreach, market analysis, and feasibility studies for equitable development, culminating in receiving the 2023 Washington Governor's Smart Communities Award for an affordable housing vision.

City of Vancouver | Vancouver MFTE Program Effectiveness | OR | 2023
Evaluated and realigned Vancouver's MFTE program to match local incomes, exploring expanded geographic areas and criteria for expansion, while identifying housing market deficiencies, incentives for family-sized units, and strategies for social equity and climate action.

City of Olympia | MFTE Analysis | WA | 2022
Provided strategic analysis of Olympia's Multifamily Tax Exemption Program, using financial modeling to evaluate proposed changes for encouraging market-rate and affordable housing development. Recommended restructuring program and expanding eligibility to maximize production of needed housing in alignment with City's Housing Action Plan.

City of Auburn | Housing Action Plan | OR | 2021
Prepared a housing action plan, updated the housing element of the comprehensive plan, and developed an interactive policy tool to demonstrate the impacts of housing policies on supply and displacement.

City of Tukwila | Housing Action Plan | WA | 2021
Assessed housing needs and gaps based on market and job trends, developed a housing action plan per HB 1923, including strategies for Transit-Oriented Development, and collaborated with the city to improve housing policies.

City of Burien | Housing Action Plan | WA | 2021
Prepared Burien's Housing Action Plan aligning with South King County's regional HAP Framework (led by ECOnorthwest), updating the city's comprehensive plan. Analyzed housing inventory, needs, demographics, and

PROFESSIONAL SERVICES MASTER AGREEMENT (ON-CALL PLANNING)

BETWEEN

CITY OF BENICIA AND

FCS International, Inc. dba FirstCarbon Solutions

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and FCS International, Inc. dba FirstCarbon Solutions, a California Corporation located at pschultz@fcs-intl.com, licensed to do business in California, ("CONTRACTOR") relating to FCS International - Planning Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Environmental Review

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity,

including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of all Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

   1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

   2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect.

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: C. Patrick Schultz

Chief Operating Officer

2999 Oak Drive, Suite 250, Walnut Creek, California 94597

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between FCS International, Inc. dba FirstCarbon Solutions, hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code.

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Stacy Hofacre, Permit Services Analyst
City of Benicia
Community Development Department
250 East L Street
Benicia, CA 94510

Subject: Proposal to Provide On-Call Planning Services (RFP No. 25-063)

Dear Ms. Hofacre:

Home to 28,000 residents, the City of Benicia (City) is a waterfront community that is known for its vintage architecture, historic landmarks, and numerous leisure attractions. In its commitment to maintain the community's standards, the City's Community Development Department is seeking qualified firms to assist with the preparation of environmental documents in compliance with the ***California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA)*** and ***Grant Applications and Management***.

FCS International, Inc., doing business as FirstCarbon Solutions (FCS), is interested and committed to providing on-call planning and consulting services to support the City's development, including housing and housing-related projects. We are uniquely qualified to become one of the City's consultants for the following reasons:

- **We have experience in providing services for various projects in Solano County (County).** For more than 24 years, FCS has provided on-call planning and consulting and CEQA/NEPA documentation services for projects within the County. In that time, we have completed or are currently completing 92 projects in the County; two of which are in the City. Our projects within the County include the preparation of an Initial Study/Mitigated Negative Declaration (IS/MND) and technical studies for the **Superior Self-storage Facility Project**, an IS/MND for the **Fairfield Justice Center Asset Protection Project**, an Initial Study/Consistency Checklist and technical studies for the **Dixon Gateway Property**, Environmental Impact Reports (EIRs) for the **Suisun Logistics Project** and **Arroyo Lago Development Project,** and EIRs for the **City of Pleasanton's 2023–2031 (6th Cycle) Housing Element Update and Addendum to the City of Pleasanton Housing Element and Climate Action Plan** (CAP) **General Plan Amendment and Rezoning Supplemental EIR for the Avalon Bay Pleasanton Project**. We are currently providing peer review services for the Addendum and technical studies for the **Vacaville North Village Specific Plan Amendment Project**, as well as NEPA and CEQA services for the **Dixon Corp Yard Affordable Workforce Housing Development**. Our familiarity with the County, its environmental concerns, and review processes will allow FCS to support the City in preparing environmental documents that are legally defensible and technically sound.

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

FCS

- **FCS specializes in providing on-call services to clients under multi-year contracts.** FCS currently holds 135 on-call contracts with clients throughout the State, including the counties of Solano and Marin; the cities of Suisun City, American Canyon, Cotati, Petaluma, Rohnert Park, and Santa Rosa; the towns of Tiburon and Windsor; the Solano Community College District; and the Sonoma County Water Agency. All of our current on-call contracts involve environmental consulting services that are similar in scope and complexity to those requested by the City. We have a proven ability to manage and execute multiple, simultaneous complex projects of different types without compromising our quality standards.

- **We provide a breadth of services.** FCS brings a wealth of expertise in CEQA and NEPA documentation, air quality/greenhouse gas (GHG) emissions and energy analysis, noise analysis, and biological and regulatory compliance, cultural, grant writing, hazardous materials, and visualization/Geographic Information System (GIS) services. With a wide range of service areas, FCS can provide the City with the innovative, comprehensive solutions that best address the City's unique needs and challenges.

- **We have an experienced Grant Team.** FCS's Grant Team has extensive experience in providing grant research, grant writing, and grant compliance reporting. With the support of highly skilled environmental specialists and technical experts, the Grant Writing Team ensures that complex federal and State grant requirements are properly addressed. FCS values the role of good grant writing compliance reporting as this ensures a sustainable funding relationship with grant-making entities. FCS will ensure that the highest level of quality is present in the documentation needed for grant administration and management.

- **We have a highly experienced team.** The FCS team has a wealth of experience in providing on-call planning and consulting and CEQA/NEPA documentation services for numerous Bay Area projects. FCS's Project Directors, **Mary Bean and Janna Waligorski, MA**, have a combined 47 years of experience in managing the preparation of CEQA/NEPA documentation. FCS's Project Managers, **Prathna Maharaj, MURP, AICP**, **Amber Sharpe, MS**, **Rachel Krusenoski**, and **Madelyn Dolan,** have a combined 37 years of experience. Our Project Managers will be supported by a cadre of technical specialists who are highly qualified individuals with demonstrated responsiveness, technical capabilities, qualifications, and education required to meet the City's needs. Our depth of technical staff in all disciplines ensures the successful and seamless completion of project deliverables.

Thank you for taking the time to review our proposal. If you have any questions or would like to discuss your specific needs in more detail, please contact me at 415.713.5223 or mbean@fcs-intl.com

Sincerely,

FirstCarbon Solutions

Mary Bean

FCS

Project Organization

Name of Subcontractors

FCS maintains long-standing relationships with hundreds of local specialty firms (subconsultants) that can provide specific technical services as needed, including engineering services (civil, construction, structural, transportation, hydraulic); economic/demographic analyses; geotechnical and geological services; water and groundwater engineering, planning, and permitting; hazards-related services, including Phase I Environmental Site Assessment (ESA); and traffic/circulation planning, analysis, and related services. FCS will work with the City to identify qualified subconsultants on a case-to-case basis to ensure that all of the City's project and technical needs can be met expeditiously and in a cost-effective manner.

Project Organization Chart

Our proposed management structure is illustrated in the organization chart below:

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

FCS

Description of Responsibilities

In this section, we provide brief descriptions of the overall capabilities, areas of expertise, and responsibilities of key personnel. Resumes of these key individuals are included in *Appendix A: Resumes*.

Project Directors

If awarded the on-call contract, the following Project Directors will provide senior oversight in all aspects of project delivery, including the performance of work, the preparation of environmental documents, and the coordination of quality assurance/quality control (QA/QC) activities.

Mary Bean has more than 30 years of experience managing the preparation of CEQA and NEPA documents in both the public and private sectors. She is knowledgeable about a broad range of environmental topics, backed by her experience in the field, research, technical writing, and planning. She specializes in leading interdisciplinary teams in the preparation of technical studies that support environmental clearance at the local, State, and national levels. Her depth of experience allows her to effectively strategize with clients about the most efficient approach to environmental review. In her 13 years with FCS, Ms. Bean has successfully led FCS's services on more than 800 projects. Ms. Bean will be the City's primary point of contact during the evaluation period of the proposal.

Janna Waligorski, MA, has more than 17 years of experience managing the preparation of CEQA and NEPA documentation, and has extensive experience preparing a wide range of planning and environmental impact analysis documents for jurisdictions throughout California. She has actively overseen the compilation and completion of EIRs, IS/MNDs, Environmental Assessments (EAs), Addenda, and Mitigation Monitoring and Reporting Programs (MMRPs). She has completed CEQA and/or NEPA documentation for mixed-use, residential, commercial, retail, transportation, industrial, recreational, and institutional projects, with extensive work on constraints analyses, land use compatibility, transportation and circulation issues, farmland conversion, and visual impacts (aesthetics). Ms. Waligorski also offers experience in GIS and graphic applications, which allows her to understand and articulate complex spatial concepts.

Project Managers

In addition to overall project management, the following Project Managers will oversee the CEQA and NEPA documentation services, including regulatory compliance guidance, public meeting facilitation, and coordination of internal team members and subconsultants.

Prathna Maharaj, MURP, AICP, is an Environmental Project Manager with more than 7 years of experience in public and private sector planning. Ms. Maharaj specializes in environmental analysis and has worked on a range of residential, commercial, industrial, and infrastructure projects. She has experience with annexation projects requiring public service and utility demand forecasting and inter-agency coordination service provision. She also worked on program-level environmental documents for specific plans, general plan updates, and infrastructure plans. Ms. Maharaj has developed a strong understanding of land use and housing policy at the University of California, Irvine, Master of Urban and Regional Planning program, where she focused on

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

sustainable community development. Furthermore, she has strong written and verbal communication skills and has provided support for a range of planning efforts.

Amber Sharpe, MS, has more than 16 years of experience in environmental consulting, planning, project management, National Pollutant Discharge Elimination System (NPDES) permit compliance, and proposal management. She specializes in the preparation of CEQA- and NEPA-compliant environmental documents for long-range plans and residential, commercial, office, mixed-use, industrial, and institutional projects. In addition, she has a wealth of experience in working with multi-disciplinary teams, including local agencies, developers, architects, and technical consultants.

Rachel Krusenoski is a skilled environmental and transportation planner with more than 7 years of relevant experience. She is proficient in CEQA, NEPA, and State regulations, as she has actively managed the preparation and completion of environmental documents, including Initial Studies, Mitigated Negative Declarations (MNDs), EIRs, EAs, and associated technical studies for aviation, transit, water resource, and residential planning projects. Ms. Krusenoski is also experienced in facilitating public outreach programs and public meeting presentations. Apart from her project management skills, Ms. Krusenoski is well versed in various graphic design software, including Aeronautical Reconnaissance Coverage Map (ArcMap) and GIS. She is also proficient in the Adobe Creative Suite programs, including InDesign, Illustrator, and Photoshop.

Madelyn Dolan has more than 7 years of relevant experience. She is knowledgeable in public policy, community organization, legal empowerment, and research. Ms. Dolan has substantial knowledge in CEQA and NEPA, which she gained from her experience in assisting with the preparation of various environmental documents, such as EIRs and MNDs. Ms. Dolan has extensive experience in organizing sustainability events, implementing educational programs in relation to waste reduction and environmental justice, developing sustainability guidelines, and coordinating with key stakeholders for various projects.

Subconsultants

FCS tailors the role of each subconsultant to meet the specific needs of each project. For some projects, our subconsultants will provide a discrete technical report or memorandum addressing project impacts on their area of specialty, which FCS then utilizes during the preparation of the associated CEQA or NEPA document. For larger, more complex projects, our subconsultant specialists may participate in the project design process, help identify feasible project alternatives, help prepare CEQA/NEPA documentation in the area(s) germane to their expertise, assist in preparing responses to comments, and be present at Planning Commission and City Council meetings to answer questions relevant to their specialty areas.

Team Members

In this section, we indicate technical team members who will be assigned to areas of work that the City anticipates for its future projects. Resumes of our team members are included in *Appendix A: Resumes*.

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

Legal Counsel

Megan Starr, JD, is a licensed Attorney with more than 25 years of experience in providing support and direction to multiple stakeholders on large projects involving State and federal environmental laws, including CEQA, the Endangered Species Act, the Migratory Bird Treaty Act (MBTA), the National Historic Preservation Act (NHPA), the Clean Air Act (CAA), and the Clean Water Act (CWA). She has represented a wide variety of public agencies, including cities, counties, school districts, community services districts, transportation agencies, and water districts, on issues related to environmental and land use planning. Ms. Starr has also assisted in the preparation of numerous environmental documents, including EIRs/Environmental Impact Statements (EISs), Categorical Exclusions, Findings of No Significant Impact (FONSIs), Negative Declarations (NDs), Multiple Species Habitat Conservation Plans (MSHCPs), and MMRPs. In addition to providing legal counsel services, Ms. Starr has served as a CEQA Guidelines Project Manager and has prepared and distributed customized CEQA Guidelines and related forms for more than 60 different public agencies. **As the Legal Counsel, Ms. Starr will support FCS's QA/QC process by reviewing all CEQA/NEPA deliverables to ensure legal defensibility and will advise the FCS team in various State and local regulatory matters that may arise during the performance period of the on-call contract.**

Air Quality/Greenhouse Gas Emissions and Energy Specialist

Jackie Winkel, MUP, is an environmental and air quality planning professional with more than 13 years of experience in air quality and GHG emissions impact analyses, environmental planning, and project management. Ms. Winkel has a thorough knowledge and understanding of air quality and GHG emissions assessment and analysis, including factors affecting air pollution distribution, emissions quantification, and mitigation strategies. She is well versed in the CEQA process and in drafting, reviewing, and commenting on air quality and GHG emissions analyses in CEQA documents. Additionally, Ms. Winkel spent eight years employed by the Bay Area Air Quality Management District (BAAQMD) and is knowledgeable in the implementation and analysis of BAAQMD CEQA guidelines and thresholds and air quality plans, and is proficient in the use of air quality and GHG emissions models, including California Emissions Estimator Model (CalEEMod), American Meteorological Society/Environmental Protection Agency Regulatory Model (AERMOD), and EMissions FACtor (EMFAC). She is proficient in communicating with, and presenting to, local government staff, consultants, the general public, and other clients and stakeholders. Ms. Winkel also has experience in training, supervising, and guiding junior level staff. **As Air Quality/GHG Emissions and Energy Specialist, Ms. Winkel will be responsible for the preparation of the Air Quality, GHG Emissions, and Energy Analysis for the City's future projects.**

Biological Resources and Regulatory Compliance Specialist

Robert Carroll has more than 16 years of experience in environmental analysis, biological resources, and regulatory permitting. As a Biologist and Regulatory Specialist, Mr. Carroll's expertise includes multi-agency regulatory permitting and compliance (NEPA, CEQA, and California and federal Endangered Species Acts), natural resource assessments, special-status flora and fauna species surveys, construction compliance monitoring, and wildlife habitat assessments. Mr. Carroll has extensive experience managing wetland

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

delineation projects and performing regulatory permitting pursuant to the jurisdiction of the California Department of Fish and Wildlife (CDFW), the Regional Water Quality Control Board (RWQCB), the US Army Corps of Engineers (USACE), and other local and regional agencies and organizations. He is well versed in the CWA Sections 404 and 401 permitting and the CDFW Code 1602 permitting. **As Biological Resources and Regulatory Compliance Specialist, Mr. Carroll will be responsible for obtaining permits from regulatory agencies; conducting biological monitoring, surveys, or studies, including wildlife, fisheries, botanical, and wetland design; implementing and monitoring of riparian and wetland restoration; developing mitigation measures, including, but not limited to, mitigation banking and credits; and preparing the Biological Resources Analysis for the City's future projects.**

Cultural Resources Specialist

Dana DePietro, PhD, RPA, is a Registered Professional Archaeologist (License No. 13517) who meets the Secretary of the Interior's Standards for historic preservation programs in archaeology. Dr. DePietro has more than 22 years of experience in all aspects of cultural resources management, including prehistoric and historic archaeology, paleontology, materials conservation, history of art and architecture, and community engagement. He has experience in compliance with NEPA, CEQA, the NHPA, and the Archaeological Resources Protection Act. Dr. DePietro has completed cultural resource projects that have involved agency, client, Native American, and subcontractor coordination; treatment plans and research design development; archival research; field reconnaissance; site testing; data recovery excavation; construction monitoring; site recordation; site protection/preservation; mapping/cartography; spatial analysis/GIS; laboratory analysis; materials conservation; artifact curation and exhibition; and report production. He has completed projects in California within the jurisdiction of the Bureau of Land Management (BLM) and other federal agencies requiring compliance with Section 106 of the NHPA. He has also completed projects throughout California under CEQA for State and local governments and municipalities and has worked with clients to ensure deliverables meet and exceed the standards set by the California Office of Historic Preservation (OHP). **As Cultural Resources Specialist, Dr. DePietro will be responsible for providing cultural, historic, archaeological, and paleontological services, including conducting cultural resources surveys, providing consultation assistance, and preparing the Cultural Resources Analysis for the City's future projects.**

Grant Writing Specialist

Trudie Porter Biggers has served as a Senior Grant Consultant since 2014, bringing more than 11 years of extensive experience in grant management. She is engaged in grant writing and training through the Environmental Justice Thriving Communities Technical Assistance Centers in Region 9, which includes Arizona, California, Hawaii, Nevada, American Samoa, the Northern Mariana Islands, Guam, and Indigenous Tribes within the region. In collaboration with the US Department of Energy (DOE), Ms. Biggers provides vital grant writing and training assistance to improve accessibility for communities facing environmental justice challenges. Ms. Biggers specializes in grant research, writing, budgeting, and compliance reporting across various areas. Her experience includes writing grants to the US Department of Health and Human Services (HHS), US DOE, US Department of Agriculture (USDA), National Endowment for the Humanities, National Endowment for the Arts (NEA), the US Department of the Interior's BLM and Bureau of Reclamation, the

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

National Trust for Historic Preservation, and the National Parks Service. Her expertise in direct project management and her ability to craft compelling proposals have enabled State, county, city, and tribal governments, along with private development clients, to secure funding for the sustainable use of environmental resources and to support numerous nonprofit organizations. She is trained in NEPA, CEQA, and PFAs and is a registered professional grant writer with the American Grant Writers' Association, Inc. **As Grant Writing Specialist, Ms. Biggers will provide as-needed grant writing and management services for the City's future projects.**

Hazard/Hazardous Materials Specialist

Michael Stephenson, MBA, ERM, has more than 30 years of project management, site assessment, and remediation experience gained from working on various projects, including large and complex industrial developments, for both private and municipal clients. Mr. Stephenson's expertise includes property due diligence, risk management, environmental liability estimation, database management, and statistical data analysis. He has conducted human health and ecological risk assessments, Remedial Investigations/Feasibility Studies (RI/FS), and soil and groundwater characterizations; provided technical support for site closures; and managed several soil and groundwater remediation, monitoring, and investigation for projects involving human health and ecologically based risk analyses. **As Hazards/Hazardous Materials Specialist, Mr. Stephenson will be responsible for the provision of hazards/hazardous materials services, including the preparation of Phase I ESAs, as needed, for the City's future projects.**

Noise Specialist

Philip Ault, MS, LEED AP, has more than 19 years of experience in noise environmental impact analysis. As the Director of Noise Services, Mr. Ault is responsible for overseeing climate-sustainability strategy, noise studies, and environmental management systems and regulatory compliance with CEQA and NEPA requirements. He has prepared project-level technical noise analyses and programmatic noise and vibration impact analyses for programmatic-level CEQA analyses, including general plans, general plan updates, and specific plans. Mr. Ault has managed more than 900 projects that included the coordination of technical teams across multiple disciplines, firms, and municipal staff. In the past five years, Mr. Ault has also taken on the management of multiple CEQA and NEPA projects that involved the preparation of Addenda, Exemptions, Initial Studies, EIRs, and EAs. In his role as Manager of the Noise Team, he trains staff on conducting field noise measurements in compliance with Federal Highway Administration (FHWA), California Department of Transportation (Caltrans), Federal Transit Administration (FTA), and Housing and Urban Development (HUD) standards, as well as providing director-level review of all noise analyses. Mr. Ault also provides senior oversight, peer review, and expert testimony for FCS's noise services. **As Noise Specialist, Mr. Ault will be responsible for the preparation of the Noise Impact Analysis for the City's future projects.**

Visual Simulations Specialist

Yiu Kam is a multi-disciplinary Designer specializing in developing meaningful and compelling visual tools for stakeholder and community consideration and collaboration. With more than 19 years of graphics expertise in

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

the urban planning, long range planning, and environmental planning fields, Mr. Kam keenly understands the power of effective visual communication to educate, inform, and inspire an audience. He specializes in creating visual simulations and renderings for development projects undergoing CEQA review, with special consideration of viewshed corridors and compatibility with surrounding land uses. His workflow, developed over the years, ensures the geographically accurate and photorealistic depiction of a project's buildings, landscaping, and grading within an existing environment. Mr. Kam also has award-winning graphic communications experience in developing creative campaigns for various projects that encompass the disciplines of graphic design, project and event branding and art direction, informational animation videos, social media, and web design/user interface. **As Visual Simulations Specialist, Mr. Kam will be responsible for providing full-service graphics and visual simulations services for the City's future projects.**

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

FCS

Approach

General Approach to Providing Environmental Consulting Services

FCS's goal is to provide cost-effective, technically sound, and legally defensible environmental consulting and documentation services to our municipal clients. To this end, we emphasize frequent, informal communication with our clients and prepare concise verbal and written summaries of project information that can be readily shared with project participants and City staff. Our firm's management style of "No Surprises" means that if we encounter a challenge or constraint, we will immediately notify the City and be prepared to provide proven, short- and/or long-term strategies for remedying any situation we encounter, including emergencies and delays. Our project management philosophy revolves around an infrastructure of effective communication and problem-solving acumen, and the repeat business we receive from our municipal clients is a result of our focused customer service philosophy.

To effectively manage the CEQA and NEPA processes, FCS will work with the City staff to leverage previously prepared environmental documentation with the collection of new, detailed environmental data necessary to analyze a project pursuant to CEQA and/or NEPA requirements. Our approach facilitates the development of comprehensive impact analysis while streamlining the environmental compliance process, which saves our clients time and money.

FCS encourages our municipal clients to integrate environmental considerations early in the project planning and design process so that environmental opportunities and constraints can be taken into account in the project design. Our experience has shown that by proactively incorporating environmental and permitting considerations into the project at the earliest feasible time (i.e., conceptualization, design, and planning phases), project proponents can reduce and, in some instances, eliminate the need for additional regulatory permits that can add months or even years to project completion schedules and substantially increase project costs. Our approach also prevents "scope creep," which often occurs when project designs change after technical studies have been completed. FCS is also unique in that we employ an in-house legal counsel who assists our management team in preparing legally defensible documents that can withstand public scrutiny and potential legal challenge. Each of these attributes is essential to FCS's success.

Developing Project Description and Context

One of the most important factors in preparing a legally defensible environmental document is having a complete and accurate understanding of the proposed project/action prior to initiating environmental analyses or review. Taking the time to fully describe "the whole of an action" can result in significant time and cost savings for our clients. Further, initiating technical studies or environmental analyses at the appropriate time eliminates the need to backtrack and duplicate/redo field efforts or technical analyses due to new or changed project circumstances. FCS will assist the City in defining the precise location and boundaries of all of the components, facilities, and associated infrastructure required to construct and operate a proposed project. FCS will also assist the City in identifying opportunities to keep projects moving forward despite uncertainties. For example, if a specific utility alignment is not yet known, the FCS team can evaluate a larger area in the field to provide for flexibility in the project design while allowing the environmental studies to proceed.

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

Conducting Preliminary Environmental Compliance Review

FCS's proposed approach to preparing environmental documentation is a reflection of our cumulative experience dealing with the preparation of documentation for every type of project. After conducting a preliminary environmental compliance review to determine whether a project is subject to CEQA and/or NEPA, FCS then considers whether a Statutory or Categorical Exemption may apply, and we evaluate whether a project is eligible to utilize or "stack" one or more of the applicable CEQA streamlining provisions.

For example, actions that are consistent with zoning (but that still require discretionary approvals) may utilize the streamlined review/CEQA exemption under Public Resources Code Section 21083.3 and CEQA Guidelines 15183, which state that a certified EIR for a planning or zoning action may be used to eliminate, or to reduce the scope of, environmental review for later development projects that are consistent with the planning or zoning action. Section 21083.3 applies when a parcel has been zoned, or designated in a community plan, to accommodate a particular density of development, and an EIR was certified for that planning or zoning action. Section 21083.3 also applies when an EIR was certified for a general plan and a development project is consistent with the plan.

Similarly, CEQA Section 15332 provides for an exemption from review under CEQA for projects characterized as infill development and that meet specific criteria . During the project initiation stage, FCS will meet with City staff to discuss the project specifics and to confirm whether any peculiar circumstance would disqualify a project from consideration under CEQA Section 15332.

CEQA does not have any specific procedures for when it is determined that an exemption applies, so the City would follow their usual procedures for finding a CEQA Exemption is applicable. If a project appears to meet all criteria, FCS can prepare a simple Exemption Memorandum for the City's review, or we can prepare supporting technical studies that affirm the applicability of the exemption. Once the action is approved, the Notice of Exemption should be filed with the County to start the 30-day statute of limitations.

Preparing Initial Studies/Environmental Assessments

When it is determined a project/activity is subject to CEQA and/or NEPA and no Statutory or Categorical Exemptions/Exclusions apply, FCS may recommend to the City to prepare an Initial Study and/or Environmental Assessment (IS/EA) to determine whether an EIR or EIS needs to be prepared, or an ND, MND, and/or a FONSI is the appropriate level of documentation. In certain instances, we know early on that a proposed activity will have the potential to significantly impact the environment and that preparation of an EIR/EIS will be required. In these cases, depending upon the project circumstances, FCS can either bypass the preparation of an IS/EA and immediately proceed with preparing the EIR/EIS, or we can determine that it is still beneficial to prepare an IS/EA in order to focus an EIR/EIS on only those potentially significant effects.

Preparing EIRs/EISs

When there is substantial evidence a proposed project or activity may have significant impacts on the environment, FCS provides the technical capabilities and expertise necessary to assist our clients in preparing an EIR, EIS, or joint EIR/EIS, including, but not limited to, defining the project description; identifying project stakeholders and creating/maintaining a distribution mailing list; preparing the Notice of Preparation and providing a 30-day review period; conducting public scoping; preparing supporting technical reports and an

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

Administrative Draft EIR for internal review; preparing and circulating the Public Draft EIR for a 45-day review period; drafting responses to public comments received on the Draft EIR; preparing a Final EIR, including responses to comments, an MMRP, and an executive summary; and preparing Findings of Fact and, if necessary, a Statement of Overriding Considerations to support a lead agency's final decision on the project. When NEPA compliance is required, minor changes to the terminology and review timelines would be necessary.

Preparing Technical Studies

Depending on the project, there may be a need to initiate technical studies to support the environmental analyses and/or engineering feasibility studies. FCS has extensive experience in conducting initial site assessments and preparing air quality/GHG emissions assessments, energy analyses, noise assessments, Health Risk Assessments (HRAs), biological resources assessments (BRAs), cultural/historical resources assessments, and other technical reports, as required. For each project that we undertake for the City, FCS will manage our team of technical specialists and provide any billing detail and reporting to the City on behalf of our teaming partners. Our specific approach to providing technical services is also described in more detail below.

Handling Public Input Processes and the Presentation and Dissemination of Public Information for Review/Comment

FCS will help the City ensure that responses to public comments received on the environmental documents are complete and adequate for purposes of CEQA. We can assist the City in preparing robust community outreach plans that include ongoing public engagement opportunities, or we can simply attend public hearings either to answer questions on the City's behalf or present our findings to the decision-making body. Should any additional/new public comments or general opposition be raised at these meetings and hearings, FCS's management team can assist the City in appropriately responding to these comments. FCS has selected a qualified team with strong written, graphic, and verbal skills to accommodate the City's needs in developing, providing, and presenting information and materials to all project stakeholders in both formal and informal settings.

Ensuring Compliance with Processing and Legal Requirements

FCS regularly prepares CEQA/NEPA documentation for highly controversial projects and we have established an excellent record of legal defensibility for environmental documents we prepare. We exercise particular care to ensure that FCS's environmental documents contain thorough environmental analyses and explicitly document all data sources and research contacts. This approach reduces the potential for a legal challenge and assists lead agencies in preparing the administrative record, when so required. FCS's staff is experienced in conducting environmental documentation for controversial projects, and we have developed research and documentation techniques that minimize avenues for legal challenge. FCS's in-house legal counsel regularly monitor CEQA court decisions and CEQA Amendments to keep FCS Managers abreast of legal precedents and compliance issues. FCS Project Managers are well versed in the various processing requirements that apply to specific types of environmental documentation, including minimum circulation periods, distribution and noticing requirements, and processing timelines. FCS also adheres to a rigorous QA/QC process that is described in greater detail below.

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

Managing Quality Control

FCS's system of quality control involves every step in the preparation of technical studies and environmental documents. The first step in our process involves ensuring consistency among technical studies and related deliverables. Upon project initiation, all team members are provided with a copy of the agreed-upon scope of work, allowing every individual involved with the project to have the same understanding of the required work products, the content of the work products, and the prevailing schedule/budget constraints. FCS also strives to develop the CEQA or NEPA project description as early in the process as possible and to secure approval by the applicant and lead agency prior to initiating the bulk of the technical analyses. This allows us to provide a consistent project description and supporting project graphics in all of our technical work products. During the environmental compliance process, FCS's management team coordinates all activities related to QA/QC, including multiple reviews of project documents to ensure legal defensibility, technical accuracy, and objectivity. In addition, FCS's Project Directors commit to not only reviewing the "final product" but also to conducting a thorough review of all technical data and studies used to support our documents' findings and conclusions. This ensures that all of FCS's findings are accurate and properly incorporated. Prior to submitting documents to outside parties (applicants, lead agencies, clients, etc.), FCS's environmental documents also undergo a legal sufficiency review that is conducted by our in-house legal counsel. This additional step helps ensure that FCS's documents are legally defensible and reflect leading-edge environmental documentation standards and compliance practices.

Controlling Costs and Adhering to Established Schedules

FCS's project management team utilizes a powerful suite of scheduling tools designed for real-time planning and environmental data storage that serves to make the CEQA/NEPA process more efficient and less costly. FCS Project Managers are responsible for project cost management with support from FCS's internal job-cost accounting system, Vision—a fully automated web-based project management system that allows FCS project managers to access up-to-date information regarding all project phases. The immediate availability of accurate project data allows for maximum project budget control down to the individual task level. With this tool, FCS can facilitate early participation with the agencies tasked with reviewing project issues, permits, licenses, and/or opinions, and substantially reduce the time and cost of communication between agencies. Scope tasks and fees can be queried into any level of subcategories desired to assess to-date expenditures and project the utilization and adherence to task budgets. Vision also provides a valuable communication and reporting tool that allows project managers to remain informed and flexible if the need to redistribute task funds becomes apparent during project implementation. FCS's Project Managers conduct monthly contract review to monitor budget conformance with the completion percentage reported by the job-cost system. Deviations are discussed with the individuals involved, and appropriate actions are implemented to ensure that contracts remain within previously determined performance standards. Finally, a senior management team, including the FCS Controller and the Project Manager, conducts a post-contract completion audit to determine if the conditions of the contract and client needs were met.

Another tool that FCS uses is Microsoft Teams, an online meeting tool that allows us to collaborate and interact with our clients on multiple formats. Microsoft Teams' screen share function is particularly useful during the project delivery process, and meetings can be recorded and added to the Administrative Record, if/as necessary. Full use of these resources substantially reduces the time and cost of communication between agencies. On more complex assignments, FCS utilizes Microsoft Project for developing, charting, and tracking

project milestones, critical due dates, critical path tasks, and subconsultant progress. FCS's project management approach, coupled with our use of state-of-the-art technology, will keep the City informed of real-time critical project information, which makes our project implementation more efficient and less costly.

General Approach to Grant Applications and Management

At FCS, we are more than just a grant-writing and management firm. We are a team of seasoned experts with more than a decade of experience in securing funding for critical projects. Our experienced and qualified grant writers are adept at researching, writing, and submitting winning grant proposals. This expertise, combined with our extensive network of contacts and relationships with grant-making entities, gives us a unique advantage in understanding their expectations and requirements.

What sets the FCS Grant Team apart is our commitment to compliance. Our team is trained in CEQA and NEPA, ensuring that the City's projects fully adhere to these stringent requirements. The FCS Grant Writing and Management Team will provide the following services:

- Assign the City a designated project manager or "Principal in Charge" who will oversee all consultant activities from project implementation to conclusion and manage all sub-providers. This includes activities such as project start-up, budget and schedule tracking, ongoing coordination with the consultant team, and providing a daily POC with the City.

- Meet with City planning officials to identify top-priority communities and environmental improvement goals. We will listen to the City's needs, challenges, and vision, and help the City prioritize and refine its project ideas.

- Identify federal, State, local, community, and private foundation funding sources matching the City's top-priority capital improvement goals. We will conduct a comprehensive and customized grant search and provide a list of potential funders, their eligibility criteria, deadlines, and application guidelines. Our thorough approach ensures that the City has all the information it needs to make informed decisions about its project funding.

- Commit to open and transparent communication. We will proactively engage with grant-making entities to ask questions and solidify understanding of proper procedures and specifications. This will help us establish rapport and credibility with the grant funders and clarify any doubts or concerns regarding the grant application process. Our commitment to communication ensures that the City is always in the loop regarding its grant application.

- Ensure the City is registered for a Unique Entity Identification (UEI Number) in the federal grants.gov, SAM.gov, and Workspace online systems. These are the official websites for applying for federal grants, and having a UEI Number is a prerequisite for submitting any federal grant application. The FCS Grant Team will also register and research grant opportunities with grants.ca.gov.

- Write and submit Letters of Inquiry, sometimes called Letters of Intent (LOI), when required. This brief and concise document introduces the City and its project to the funder and requests permission to submit a full

grant proposal. The LOI is crucial when approaching community or private foundations to gauge the funder's interest and suitability for the project.

- Monitor the progress of the LOI and move forward with a complete grant application once the grant-making entity approves it. We will follow up with the funder and update the City on the LOI status.

- Prepare a work plan for each grant application, including key dates, the responsibilities of consultants and City staff for producing grant application content, critical tasks, and deliverables. We will coordinate with City staff to gather the necessary information, data, and documents for the grant proposal. We will also assign roles and responsibilities and set deadlines and milestones for the grant writing process.

- Meet with City officials to craft an in-depth project budget that complies with grant guidelines and regulations. We will help the City estimate the costs and revenues of its project and allocate them to the appropriate budget categories. We will also ensure that the City's budget is realistic, reasonable, and justified.

- Write a compelling and persuasive grant proposal showcasing the City's community improvement project and its benefits. We will use clear, concise language and evidence-based and relevant examples to demonstrate the City's project's need, feasibility, and measurable impact. We will also follow the funder's format, style, and instructions for the grant proposal.

- Review, edit, and proofread the grant proposal before submitting it to the funder. We will check the proposal for accuracy, completeness, consistency, and compliance and ensure it is free of errors, typos, and grammatical mistakes.

- Submit the grant proposal to the funder on time and in the required format. We will use the funder's preferred submission method, whether online, by mail, or by email. We will also confirm receipt of the proposal and keep a copy of the City's records.

- Follow up with the funder after the submission and provide any additional information or clarification they may request. We will also inform the City of the progress and outcome of the grant application and assist the City with any post-award activities or reporting requirements.

- Include funding abstracts, production, budget documents, and submittal of applications.

- Ensure all required components of each proposal are included in the submission, adherence to evaluation criteria, and delivery of grant packages in a timely and correct manner under the submission requirements.

- Upon award of the grant, the FCS Grant Team will provide grant management services, including but not limited to, preparing technical submissions or preconditional award submittals, securing and finalizing grant agreements, monitoring funding compliance, budgeting and submitting reimbursement requests, and developing and submitting financial and progress reports.

- Provide detailed document retention to assist the City in preparation for financial and progress reports, including mid- and end-of-grant reporting.

- Provide the City with monthly reports, including information on grants researched, grants in progress, grant reports, grant funding received, grant expenditures, and report status, and prepare the City for a smooth and accurate audit experience.

- Assist the City in coordinating environmental services to ensure CEQA and NEPA compliance.

Hiring the FCS Grant Team will save time, money, and effort and increase the City's chances of securing grant funding for its capital improvement projects. The City will also benefit from our expertise, experience, and professionalism and enjoy a smooth, hassle-free grant writing process.

Level of Effort Letter

In this section, we provide level of effort estimates for CEQA/NEPA services that FCS provides, including our proposed team members who will be assigned to work on each task. The range of hours listed below is representative of the services that FCS provides. Please note that FCS will provide specific estimates tailored for each project based on the project's scope, size and complexity, and required documentation to satisfy regulatory and public disclosure requirements. Furthermore, the exact hours are dependent on the size and condition of the project site.

Task	Staffing	Estimated Range of Hours
EIRs, not including technical studies	**Project Directors** (M. Bean; J. Waligorski) **Project Managers** (P. Maharaj; A. Sharpe; R. Krusenoski; M. Dolan) **Legal Counsel** (M. Starr) **Technical Team** (J. Winkel; R. Carroll; D. DePietro; M. Stephenson; P. Ault; Y. Kam)	800–1,500
NDs, not including technical studies		200–400
MNDs, not including technical studies		250–450
In-house Technical Reports/Studies		
Air Quality Studies	**Air Quality/GHG Emissions and Energy Specialist** (J. Winkel)	30–80
GHG Emissions/Energy Analyses		20–70
Biological Surveys and Reports	**Biological Resources and Regulatory Compliance Specialist** (R. Carroll)	Varies
Biological Analyses/Permit Applications for the CDFW, US Fish and Wildlife Service (USFWS), USACE, RWQCB, etc.		Varies
Cultural Resources Studies	**Cultural Resources Specialist** (D. DePietro)	60
Noise Studies	**Noise Specialist** (P. Ault)	20-50
Aesthetics Studies	**Visual Simulations Specialist** (Y. Kam)	100

Task	Staffing	Estimated Range of Hours
Phase I ESA	**Hazards/Hazardous Materials Specialist** (M. Stephenson)	Varies
Subconsultant Technical Reports/Studies		
Geotechnical Reports	Subconsultant	Varies
Hydrology/Water Quality Analyses	Subconsultant	Varies
Traffic Impact Analyses (TIAs)/Vehicle Miles Traveled	Subconsultant	Varies
EAs/FONSIs, not including technical studies	**Project Directors** (M. Bean; J. Waligorski) **Project Managers** (P. Maharaj; A. Sharpe; R. Krusenoski; M. Dolan) **Legal Counsel** (M. Starr) **Technical Team** (J. Winkel; R. Carroll; D. DePietro; M. Stephenson; P. Ault; Y. Kam)	250–450
EISs, not including technical studies		800–1,500
Grant Applications and Management	**Project Directors** (M. Bean; J. Waligorski) **Technical Team** (T. Biggers)	Varies

Contact	**Kevin Thompson**, City Manager; 707.894.1723; kthompson@ci.cloverdale.ca.us

Since 2016, FCS has successfully completed five projects, and we are currently working on two projects for the City of Cloverdale. These residential, recreational, and medical facilities projects involved the preparation of IS/MNDs, EIRs, and technical studies, as well as the peer review of IS/MNDs and technical studies. Listed below are these projects:

- Soda Springs Ranch Trail and Improvements Project IS/MND and Technical Studies
- General Plan Circulation Element Update and Supplemental EIR
- Bi'Du Khaale Housing Project Peer Review of IS/MND
- Baumgardner Ranch Development Project IS/MND
- Alexander Valley Wellness Center IS/MND
- Vista Oaks Subdivision Project IS/MND and Technical Studies

Contact	**Ellen M. Clark**, Director of Community Development 925.931.5606; eclark@cityofpleasantonca.gov

FCS has been providing on-call environmental consulting services to the City of Pleasanton since 2005. In that time, we have provided environmental services to support more than 20 projects for the City. FCS is currently providing the City's Community Development Department with on-call environmental review and CEQA consulting services. Our recent representative projects include the following:

- Villages at the Quarry Project Consistency Checklist and Technical Studies
- 4400 Black Avenue Residential Project Consistency Checklist
- Housing Sites Project Streamlining Templates and Training
- Hidden Canyon Residences and Preserve Project EIR
- AvalonBay Residential Project EIR Addendum
- 2023–2031 (6th Cycle) Housing Element Update Program EIR CEQA Guidelines Section 15183 Consistency Checklist for the Merritt Property Project

- Harmony Condominiums Project CEQA Documentation and Peer Review
- Stoneridge Mall Apartments Project CEQA Documentation
- City of Pleasanton 2023–2031 (6th Cycle) Housing Element Update Program EIR
- Spotorno Ranch Reduced Development Project Consistency Checklist
- 10x Genomics Development Project IS/MND and Supporting Technical Analysis
- 10x Genomics Development Project CEQA Due Diligence Services
- Spotorno Ranch Project Subsequent EIR

Client Address	Development Services Department 333 Civic Center Plaza, Tracy, CA 95376
Contact	**Victoria Lombardo**, Senior Planner; 209.831.6428; victoria.lombardo@cityoftracy.org

FCS has been preparing CEQA documents and providing air quality, biological resources, and entitlements processing services in the City since 2008. We have since completed more than 25 projects within the City. FCS is currently providing as-needed environmental analysis and planning assistance for the City's Development Services Department. Our recent projects include the following:

- Tracy Northeast Business Park Project EIR and Technical Studies
- Interstate 580 (I-580)/Corral Hollow Interchange Upgrades IS/MND and Categorical Exclusion
- Tracy Alliance Project EIR and Technical Studies
- Warmington Homes Annexation Project IS/MND and Technical Studies
- Electronic Readerboard Signs Project IS/MND and Technical Studies
- Tracy Village Development Project EIR

FCS

Pricing Proposal

Compensation is based on the following fee schedule and charges.

FCS Personnel	Hourly Labor Rate ($)
President	$320–$340
Director/Vice President	$270–$320
Legal Counsel	$220–$260
Associate Director/Senior Team Leader	$220–$270
Senior Project Manager/Senior Scientist/Senior Regulatory Scientist	$180–$240
Project Manager/Scientist/Regulatory Scientist	$140–$190
Assistant Project Manager/Assistant Scientist/Assistant Regulatory Scientist	$120–$140
Environmental Analyst/Technical Analyst/Regulatory Analyst	$90–$120
Senior Graphic Designer/GIS Manager	$150–$210
Graphic Designer/GIS/Computer-aided Design and Drafting Specialist	$110–$150
Publications Coordinator/Technical Editor	$110–$150
Word Processor	$95–$130
Archaeological/Paleontological Monitor I/II	$80–$130
Archaeological/Paleontological Monitor III	$130–$160
Biological Monitor I/II	$95–$130
Biological Monitor III	$130–$160
Reprographics Assistant/Intern	$70–$90
Administrative Assistant/Accounting/Clerical	$70–$110

Other Labor Rates

Labor rates for expert testimony, litigation support, and depositions/court appearances will be billed at a minimum of two times the above rates. If additional services are authorized during the performance of a contract, compensation will be based on the fee schedule in effect at the time the services are authorized.

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

FCS

Direct Expenses

Direct costs and out-of-pocket expenses are billed as follows:

1. Out-of-pocket expenses, including, but not limited to, travel, messenger service, reprographics, lodging, meals, blueprint, reproduction, and photographic services: Cost, as charged to FCS, plus a 10 percent administrative fee.

2. Subcontractors' fees: Cost, as charged to FCS, plus a 15 percent administrative fee.

3. Passenger Cars: $0.70per mile.

4. Four-wheel-drive vehicles: $95.00 per day plus $0.70 per mile.

5. Records checks: Fees vary by facility and project.

6. Museum curation: Fees vary by city and project.

7. Cultural resources storage/curation of fossil and artifact collections: Cost, as charged to FCS, plus a 10 percent administrative fee.

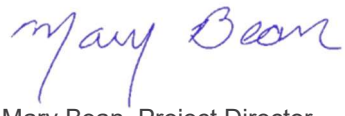
8. Per Diem: Fees charged at the USA Federal (GSA) Rate. Lodging surcharge may apply in high-rate areas.

9. USFWS/CDFW impacts or mitigation fees: Cost, as charged to FCS, plus a 10 percent administrative fee.

Terms

Compensation and direct expenses are invoiced monthly and payable upon receipt or as codified in project-specific contract.

Signature



Mary Bean, Project Director

Financial and Related Information

Audited and/or Reviewed Financial Statements

FCS is financially qualified to undertake the Services defined by this Request for Proposals (RFP). If selected, FCS will supply reviewed financial statements for the last three fiscal years if requested by the City. Please see the separate Financial and Related Information file for FCS's income statement comparison and balance sheet.

Letter from FCS's Insurance Broker

We have reviewed the City's Professional Services Agreement (PSA) and have no objections to its terms and provisions. If requested, FCS can provide the City with a letter from our insurance broker attesting to our willingness to provide the required insurance coverages described in the PSA.

Docusign Envelope ID: 4FB47DFE-BA05-4605-A9BF-DEB78AD60DBB

Discretionary Supplemental Materials

For your review, we have provided the project summaries and CEQANet links for two of our recent projects below.

Arroyo Lago Development Project EIR, Alameda County, CA

FCS is preparing an EIR for the Arroyo Lago development project in unincorporated Alameda County. The applicant, 330 Land Company, proposes to construct 194 market-rate single-family homes with approximately 25 percent (49 homes) designed as Accessory Dwelling Units (ADU), a 0.7-acre centrally located park, and approximately 0.5 mile of designated public walking trails on an approximately 26.6-acre site. The proposed project would also include internal roadways and two driveways to facilitate access and circulation within the project site. Areas of concern include air quality, cultural resources, geology/soils, GHG emissions, hazards/hazardous materials, noise, tribal cultural resources, and utilities/services systems. The Draft EIR was published in August 2024 and circulated for a 45-day public review period. The Final EIR is currently being prepared, and it is anticipated that the project will be considered by the Alameda County Board of Supervisors in Summer 2025.

Link: https://ceqanet.opr.ca.gov/2023050339/2

Addendum to the City of Pleasanton Housing Element and Climate Action Plan General Plan Amendment and Rezoning Supplemental EIR for the Avalon Bay Pleasanton Project, City of Pleasanton, CA

FCS prepared the Addendum to the City of Pleasanton Housing Element Update (HEU) and CAP General Plan Amendment (GPA) and Rezoning Supplemental EIR for the Avalon Bay Pleasanton Project. The proposed project consisted of modifications to the proposed podium building at 5601 Owens Drive (formerly 4452 Rosewood Drive). The modifications included alterations to the site layout, including on-site circulation, parking, and open spaces; updating exterior elevations of all buildings; changing the retail use of the corner building to a daycare center subject to a Conditional Use Permit (CUP) approval; and an additional fifth floor on the podium building is proposed to accommodate an additional 31 units. The project site consists of 8.4 acres. The original project (2012 project) consisted of 305 residential units, 7,520 square feet of retail uses, a parking garage and associated infrastructure, including surface parking. The 2012 project was analyzed under CEQA in the 2012 Addendum to the City of Pleasanton Housing Element and CAP Amendment and Rezoning Supplemental EIR. The 2012 Addendum was certified, and the project was concurrently approved. Furthermore, the 2012 project was included as a “pipeline project” in the recent City of Pleasanton 2023–2031 (6th Cycle) HEU Program EIR. However, more recently, the project site has experienced a change in ownership and the previously mentioned proposed modifications. The project was approved by City Council in January 2025.

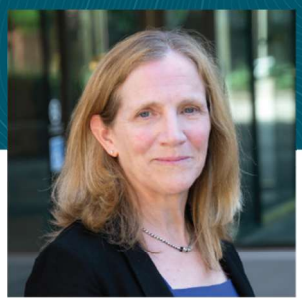
FCS



Mary Bean

Project Director

EDUCATION

Bachelor of Arts, Environmental Studies and Planning, Cum Laude, University of California, Santa Barbara, CA, 1988

Mary Bean has more than 30 years of experience managing the preparation of CEQA and NEPA documents in both the public and private sectors. She is knowledgeable about a broad range of environmental topics, backed by her experience in the field, research, technical writing, and planning. She specializes in leading interdisciplinary teams in the preparation of technical studies that support environmental clearance at the local, State, and national levels. Her depth of experience allows her to effectively strategize with clients about the most efficient approach to environmental review. In her 12 years with FCS, Ms. Bean has successfully led FCS's services on more than 800 projects. She also manages 57 of our on-call contracts, including contracts with the cities of Suisun City, American Canyon, Cotati, Petaluma, Rohnert Park, and Santa Rosa; Marin County; the Town of Tiburon; the Solano Community College District; and the Sonoma County Water Agency.

Related Experience and Client Summary

Project Director

EDUCATION

Master of Arts, Geography, With Distinction, California State University, Chico, 2011

Bachelor of Arts, Geography, California State University, Chico, 2004

Janna Waligorski, MA, has more than 17 years of experience managing the preparation of CEQA and NEPA documentation, and has extensive experience preparing a wide range of planning and environmental impact analysis documents for jurisdictions throughout California. She has actively overseen the compilation and completion of EIRs, IS/MNDs, EAs, Addenda, and MMRPs. She has completed CEQA and/or NEPA documentation for mixed-use, residential, commercial, retail, transportation, industrial, recreational, and institutional projects, with extensive work on constraints analyses, land use compatibility, transportation and circulation issues, farmland conversion, and visual impacts (aesthetics). Ms. Waligorski also offers experience in GIS and graphic applications, which allows her to understand and articulate complex spatial concepts.

Principles of Ecological Design, Case Studies in Ecological Design, San Francisco Institute of Architecture San Francisco, CA

Philip Ault, MS, LEED AP, has more than 19 years of experience in noise and air quality environmental impact analysis. As the Director of Noise and Air Quality Services, Mr. Ault is responsible for overseeing climate-sustainability strategy, noise and air quality studies, and environmental management systems and regulatory compliance with CEQA and NEPA requirements. He has prepared project-level technical noise analyses and programmatic noise and vibration impact analyses for programmatic-level CEQA analyses, including general plans, general plan updates, and specific plans. Mr. Ault has managed more than 900 projects that included the coordination of technical teams across multiple disciplines, firms, and municipal staff. In the past five years, Mr. Ault has also taken on the management of multiple CEQA and NEPA projects that involved the preparation of Addenda, Exemptions, IS, EIRs, and EAs. In his role as Manager of the Noise Team, he trains staff on conducting field noise measurements in compliance with FHWA, Caltrans, FTA, and HUD standards, as well as providing director-level review of all noise analyses. Mr. Ault also provides senior oversight, peer review, and expert testimony for FCS's noise services. In his role as Manager of the Air Quality Team, he guides the training and coordination of the air quality team members. He oversees and manages a full range of air quality and GHG emissions analyses, HRAs, and energy impact analyses.

Yiu Kam is a multi-disciplinary Designer specializing in developing meaningful and compelling visual tools for stakeholder and community consideration and collaboration. With more than 19 years of graphics expertise in the urban planning, long range planning, and environmental planning fields, Mr. Kam keenly understands the power of effective visual communication to educate, inform, and inspire an audience. He specializes in creating visual simulations and renderings for development projects undergoing CEQA review, with special consideration of viewshed corridors and compatibility with surrounding land uses. His workflow, developed over the years, ensures the geographically accurate and photorealistic depiction of a project's buildings, landscaping, and grading within an existing environment. Mr. Kam also has award-winning graphic communications experience in developing creative campaigns for various projects that encompass the disciplines of graphic design, project and event branding and art direction, informational animation videos, social media, and web design/user interface.

PROFESSIONAL SERVICES MASTER AGREEMENT (ON-CALL PLANNING)

BETWEEN

CITY OF BENICIA AND

GHD Inc

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and GHD Inc, a California Corporation located at 943 Reserve Drive, Suite 100, Roseville, California 95678, licensed to do business in California, ("CONTRACTOR") relating to GHD - Planning Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Current Planning Development Review

B. Long-Range Planning Policy and Strategies

C. Historic Preservation

D. Land Use Economics

E. Environmental Review

F. Housing Programs and Policies

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

[http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Todd Tregenza

Principal

todd.tregenza@ghd.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between GHD Inc, hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

RE: Request for Proposal (RFP #25-063) for On-Call Planning Services

Dear Stacy,

On behalf of GHD, Inc. ("GHD"), we are excited to submit our response to the City of Benicia's Request for Proposal (**RFP #25-063)** for On-call Planning Services. After a comprehensive review of the issued RFP, the city's available planning documents including the 1999 General Plan, the Zoning Code, the Downtown Mixed Use Master Plan (DMUMP), the 1990 Downtown Historic Conservation Plan, and other adopted regulatory plans, as well as maintaining a deep understanding and appreciation of City staff's daily workload, schedule constraints, and everyday challenges, we are confident that GHD's multidisciplinary team of Planning professionals are a direct match with your needs!

Since 2022, GHD has enjoyed a successful working relationship with the City of Benicia and has provided multiple professional services to the city including our work on the **Port of Benicia Modernization Project** and the **Benicia Marina Breakwater Repair Project.** Our Planning team looks to replicate our company's success in the city as we offer quality, competent, and responsive Planning services to augment City staff's efforts. As you will read further in this proposal, GHD has ample experience assisting cities across California with tasks to fulfil their planning initiatives. While we don't currently have the staff available to offer public counter support, we are well positioned to provide many of the Planning support services listed in the RFP.

For the City of Benicia, **Brady Woods** will serve as your primary point of contact and day-to-day Project Manager. Brady is uniquely qualified for this role given his multiple years providing on-call planning services to numerous California cities as well as his 10+ years leading local planning departments as Planning Manager for the cities of Buena Park, CA and Bradenton, FL. Brady will be joined by GHD's multidisciplinary team of professional planners and urban designers, historic preservationists, environmental planners, economic analysts, and outreach specialists. Along with Urban Planners **Tracey Scott, AICP, CNU-A, NCI**, and **Jonathan Linkus**, **AICP, LEED-AP**; Architect **Kathryn Urban**; Environmental Planner **Nicole Greenberg**, Land Use Economic Specialist **Luis Nunez**, Community Engagement Specialist **Yosef Yip**; and a host of in-house support staff, we stand ready to provide Benicia with the technical expertise needed to maintain the high level of service your community has come to expect, but also and equally important, to lighten the load on City staff's shoulders.

Our wide-ranging and multi-disciplinary expertise, established relationships, resources, and proven experience make us the City of Benicia's ideal partner. We are aware of key issues and project requirements and committed to deliver efficient and consistent planning, architectural, environmental, and community engagement services on schedule and within budget. GHD agrees to accept the terms and conditions of the contract provisions with exceptions noted in our comments on the Draft Professional Services Agreement, which we hope to discuss with the City. If you need more information or have any questions regarding our capabilities, please feel free to contact us!

Sincerely,

Todd Tregenza, AICP

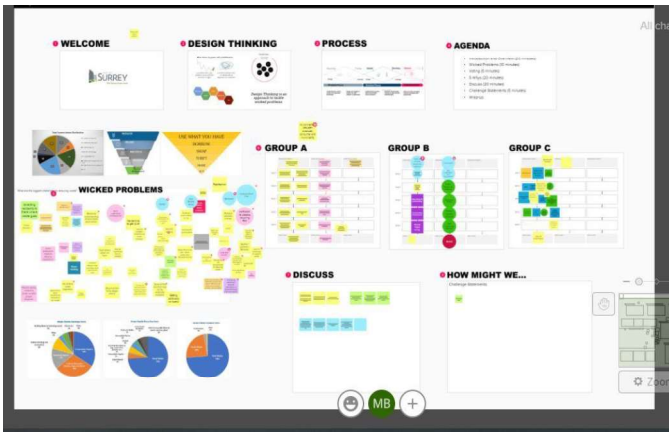
COMMUNITY ENGAGEMENT

We strive to engage the right people, in the right way and at the right time, to facilitate meaningful and productive involvement from your stakeholders. GHD's approach to stakeholder engagement puts people at the very heart of the process. Whether it's through informational campaigns reaching an audience of thousands or facilitating workshops among teams within your organization, our focus on people drives our commitment to doing engagement right. GHD can develop and implement compelling engagement and communication strategies and programs. We offer strategic guidance on complex issues, always using clear and accessible language for inclusivity and understanding by a variety of audiences. In executing this work, we combine industry-leading, science-backed, and experience-based practices, combined in a tailored strategy to thoughtfully inform technical deliverables and achieve your goals.

For the Transportation Agency for Monterey County (California), GHD deployed its GHD Engage immersive digital visualization platform to host a virtual open house open online and 24-7 (www.sr68.ghdengage.com)



For the City of Surrey, GHD facilitated a virtual session using Microsoft Teams for video and audio and Mural for real-time visual collaboration

When it comes to engagement, one size will not fit all. Similarly, employees and leaders may move positions when it comes to the level of engagement, based on circumstances and capacity at any given time.

Using the **Spectrum of Engagement** as a guide, GHD will work with you to develop an outreach plan and align identified stakeholders with your desired level of involvement in decision-making, learn about past engagement activities, and the current state of your relationship with them, then design engagement activities to reflect those factors, helping you to achieve your ultimate goal of collecting high-quality input at the defined project milestones. GHD offers the following engagement tools:

- ✓ In-Person, Virtual, and Hybrid Engagement
- ✓ Accessible Communications
- ✓ Visual Communications and Graphic Design
- ✓ Language Translation

INFORM
We communicate effectively and authentically to keep you informed.

CONSULT
We keep you informed, listen to and acknowledge concerns and aspirations to let you know how this input will be used for decision making.

INVOLVE
We will work with you to ensure your concerns and aspirations are considered

COLLABORATE
We will partner with you in the decisions that matter to you

EMPOWER
We will implement what you decide

02. Firm Profile

GHD, Inc.
943 Reserve Drive
Suite 100
Roseville, CA 95678
916.245.4216
todd.tregenza@ghd.com

Established in 1928, GHD is a wholly owned subsidiary—a privately held, international engineering firm owned by our people and operating across five continents. With a **global** presence and a commitment to **local** delivery, we provide our clients the opportunity to build strong relationships with our local teams while benefiting from our extensive global expertise. Our business model focuses on international collaboration to ensure local delivery.

Brady Woods, Project Manager, will manage the project from our Irvine office. Most of the work efforts will be completed from our Irvine, Roseville, and San Diego offices.

Subconsultant Partners

GHD has selected a reputable environmental consulting firms to complement our in-house team.

Bargas Environmental Consulting
2215 21st Street
Sacramento, CA 95818
916.993.9218
jeladli@bargasconsulting.com

Bargas Environmental Consultants, Founded in 2012 as a one-person natural resources firm Bargas has evolved into a multi-disciplinary firm providing natural, cultural, and paleontological resources support, regulatory permitting, and geographic information systems (GIS) services. Bargas is a certified small (SBE), minority (MBE), woman-owned (WBE/WOSB), and disadvantaged business enterprise (DBE) headquartered in Sacramento, California.

Groundwork Preservation, LLC
PO Box 1514
Colfax, CA 95713
415.640.0626
gretchen@groundworkpreservation.com

Groundwork Preservation is a California-based historic preservation consulting firm specializing in the documentation and evaluation of historic properties. Groundwork is a federally certified Woman-Owned Small Business and California certified

Micro Small Business founded by Gretchen Hilyard Boyce, who has 20 years of experience in the field. Groundwork provides cultural and historical resource documentation and planning services to help our clients navigate the historic review.

Why GHD for On-call Services?

In-depth understanding of on-call contracts

Ninety percent of our clients are municipal agencies or government entities, and approximately 75% percent of our work comes from repeat clients. We have worked on many similar on-call services for a number of local agencies and understand the variety of task order requests that come from these types of contracts. This background benefits the City of Benicia because GHD is well versed in completing multiple task orders simultaneously on multiple projects as we have done conducting similar on-call services for various municipal agencies in California. Through our experience, we have gained knowledge and skills to successfully act on a moment's notice to address your concerns, provide guidance and expertise in various public works projects to meet any schedule deadlines. The City can rely

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

on our team as an engaged and collaborative partner on all your on-call needs.

Expertise and responsiveness that is second to none

Our team brings decades of experience and a thorough understanding of the challenges that municipal Planning Departments face today. We execute projects with high standards of safety, quality, and ethics throughout the entire asset value chain. Fuelled by a client service-oriented culture, we combine our knowledge, skills, and experience with innovative practices, technical expertise, and strong systems to create lasting community benefits.

Multidisciplinary Team

We offer a multidisciplinary team to create actionable plans tailored to our work context. Our in-house team consists of planners, architects, urban designers landscape architects, environmentalists, historic preservationists, engineers, GIS analysts, economists, and outreach specialists who collaborate closely to develop local and regional plans tailored to individual communities. By offering a wide range of services internally, we can provide expedient and high-quality municipal services that balances consistency with the City's development regulations and the developer's vision and pro-forma for realizing the project.

Innovative Solutions

GHD firmly believes in projects that provide cultural balance and diversification as well as sustainable solutions that better our environment. We consistently strive to enhance operations by integrating collaborative design and software solutions such as Autodesk, Arc GIS, HSIP Analyzer, GHD Engage, Teams, Webex, Zoom, Social Pinpoint web-based platform, Autodesk Construction Cloud, SharePoint, ProjectWise, Primavera, Microsoft Suite (Office, Loop, Word, Project, PowerPoint, CoPilot, etc.), and many others. GHD Engage can integrate with several existing public engagement storytelling platforms including Social Pinpoint and other 3rd Party API integration.

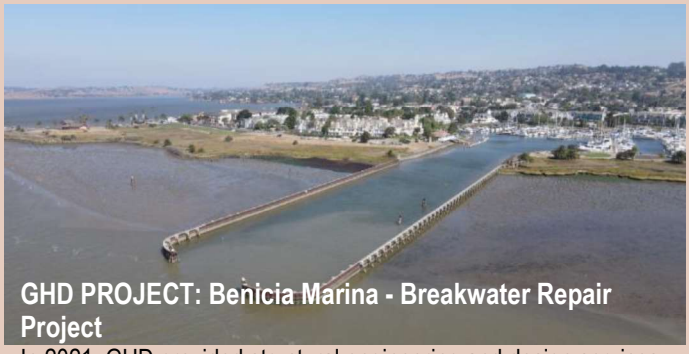
Why GHD for Benicia?

Simply put, we are…

- ✓ **Familiar** with existing Benicia land use policies, zoning regulations, and design guidelines
- ✓ **Well-resourced** multi-disciplinary in-house staff to expeditiously provide planning services
- ✓ **Experienced** in conducting planning plan checks and design review
- ✓ **Experts** in State housing laws, policies and implementation
- ✓ Cognizant of Benicia's desire to preserve city's historical and cultural maritime heritage
- ✓ **Experts** in environmental regulations and permitting
- ✓ **Unmatched** regional knowledge - GHD has worked in multiple jurisdictions near Benicia:
  - City of West Sacramento
  - City of Vacaville
  - City of Newark
  - City of Davis
  - City of Union City
  - Sonoma County

GHD PROJECT: Port of Benicia - Modernization Project

The City of Benicia contracted GHD to prepare the Port of Benicia Facilities and Infrastructure Modernization Plan to be used as a roadmap for infrastructure improvements, investments and modernization revitalizing the Port as a key part of Benicia's Priority Production Area. GHD also conducted extensive public engagement, provided recommended updates to the City's Industrial Design Guidelines and Zoning Regulations, and prepared an associated environmental review document for consistency with State environmental laws.



GHD PROJECT: Benicia Marina - Breakwater Repair Project

In 2021, GHD provided structural engineering and design services to the City of Benicia and TranSystems for the Benicia Marina Breakwaters Repair Project. Following the completion of a Breakwater Conditions Assessment, it was determined that various components of the Breakwater needed repairs. GHD was hired to provide structural engineering support to the City to design High and Medium Priority repairs

The Value of GHD Client Services & Solutions

Future Communities

While the concept of "community" is simple and universally understood, communities are inherently dynamic systems, and we are mindful of local challenges impacting the physical and economic realms they occupy. Because no two communities are the same, our mission is to address the qualities that make communities unique and enhance them to support our clients' strategic vision and community members' values. GHD's collective term for this integrated initiative is Future Communities. By connecting our capabilities in urbanization across GHD — planners, architects, urban designers, scientists, engineers, and economists working across our global network — our multi-disciplinary teams address the most unique and pressing challenges of communities globally. From dense cities to rural towns, our Future Communities experts work together across typologies, geographies and markets to help our most valuable clients lay the foundation for future success.

"Loveable Places" Framework

GHD has developed a framework called "Loveable Places" that helps us plan and design places that people want to live in, visit, spend time in, and travel to — places people love. This goes beyond new bike lanes, storefronts, or landscaping. This approach seeks to understand how people experience getting between places they love, how safe they feel, their social interactions, and how to develop a plan that aligns with a community's to "place identity" and "personal experience".

"Place Identity" celebrates the uniqueness of each place. Just like culture shapes an individual, a unique heritage shapes a place. Place identity is an association, the image that springs to mind when thinking of somewhere, whether that's a desire to maintain a small-town charm, enhance a unique destination, celebrate culture and diversity, or highlight recreational opportunities.

"Personal Experience" celebrates a place's lived reality. We are all different, experiencing our towns in dynamic and contrasting ways depending on the time of day, the season, or our reason for being there. Our experience also changes with time. What we experience in a place as a year-round resident is different to how we experience it visiting as tourists.

GHD's "Loveable Places" framework applies various indicators and dimensions that measure "loveability". These measures are applied in a multi-criteria analysis to help select and prioritize projects and are used to generate positive community energy from the start of a project. We begin with a community engagement strategy that asks the follow questions:

1. *What do you love?*
2. *What do you wish for?*
3. *What do you wonder?*

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

03. Project Organization

Organizational Chart

GHD has a large, diverse, and highly qualified technical staff, which remains our primary resource. Our business model prioritizes clear communication regarding project needs, schedules, and challenges. We have selected our team based on the required disciplinary roles in your project scope, as shown in the organization chart below. Brief biographies of key team members follow, and resumes are presented in **Appendix A**.

Description of Responsibilities

GHD seeks to augment the Benicia Planning staff by proving technical planning support in six (6) of the eight (8) service areas described in the RFP (Grant Applications and Management, and Rapid Response services are not included in this scope). We anticipate assisting City staff with the following tasks:

- Prepare well-organized reports regarding complex planning issues, professionally facilitate meetings, and attend and give presentations at meetings with applicants, consultants, and the public as needed, including public hearings.
- Make professional presentations to the City Council, Planning Commissions, Historic Preservation Review Commission, and community meetings.
- Coordinate with Planning staff and staff of other City departments, consultants, and outside agencies during project reviews and processing and respond to public inquiries.
- Work independently, follow directions, seek clarification prior to completion of work assignments, analyze quantitative data and qualitative information, and think creatively and critically.
- Produce professional work products for submittal to the City that have undergone thorough QA/QC and require minimal revisions.

TASK 1: CURRENT PLANNING DEVELOPMENT REVIEW

GHD's cadre of profession planners will assist Benicia staff with a variety planning task including but not limited to, customer service, project management, development review, general plan/comprehensive plan amendments, and public hearing documents. For this, we intend to draw on our wealth of collective experience on both side of the Planning Counter; from City staff ensuring regulatory compliance to architects/engineers constructing real projects.

Under the direction of the Community Development Department Director, or their designee, GHD will assist City staff with the following:

- Interact with the public, design professionals, and applicants during the processing of Planning applications, remotely when necessary
- Coordinate implementation of development applications during the construction phase (conditions of approval, etc.)
- Track condition compliance to ensure continued conformance to approval conditions and mitigation measures
- Coordinate and aid with digital plan reviews and virtual site inspections, when necessary

For Benicia, we would like City staff to leverage the decade-plus of municipal planning experience Brady Woods brings to our team and to your city. He will lead this task and be your point-person for all current planning related items. Brady and all of our planning and design professionals are eager to provide the City with exemplary customer service, innovative initiatives, and creative project solutions while delivering the high level of quality the Benicia community typically receives.

Your Task 1 GHD Teammates:

TASK 2: LONG-RANGE PLANNING POLICY AND STRATEGIES

We strive to deliver policy that are not only implementable but also provide sustainable benefit to the community. Our evidence-based approaches assist to inform public policy, government strategies and regulations to create solutions that work in the real world.

In working with Benicia to support their efforts towards becoming increasingly adaptive, innovative and effective as they deliver positive public outcomes, GHD looks to offer the following services in public policy, strategy, and regulation:

- Planning for and design of public policy
- Analysis of existing and proposed regulations
- Policy implementation support and service delivery improvement programs
- Policy evaluation and performance monitoring
- Behavioral insights and data in public policy design

Under this task, it is anticipated that that we will prepare staff reports and presentations, present at public hearings and community meetings, update the General Plan and Zoning Code as necessary, and provide urban design and policy development as well as other service indicated by City staff.

Your Task 2 GHD Teammates:

TASK 3: HISTORIC PRESERVATION

Our in-house Historic Preservationist and Senior Architect, Dr. Kathryn Urban, will prepare historical resource evaluations and historic preservation services including completion State of California Department of Parks and Recreation 523 Forms and Historic Resource Evaluations for compliance with the Mills Act

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

and Secretary of Interior's Standards for the Treatment of Historic Properties.

Your Task 3 GHD Teammate:

TASK 4: LAND USE ECONOMICS

Because there are so many "moving parts" to development and redevelopment, success is highly dependent on the elimination of as much uncertainty as possible. Challenges on the cost side of the equation include: significant variations in land prices, depending on market conditions and property owner expectations; on-site development costs, depending on existing conditions; off-site development constraints including upgrades to existing infrastructure; and higher financing costs due to perceptions of risk. Challenges on the revenue side include the fact that it may take longer to absorb space or achieve anticipated rents and / or sale prices as market conditions change. All of these dynamics result in a relatively high-risk endeavor for a private developer. Therefore, the level to which public sector requirements assist or impede development projects can decrease or increase some of their inherent variability and uncertainty.

In response to Benicia's land use economics challenge, GHD's approach takes a holistic and comprehensive view that considers macroeconomic, as well as local and regional market factors, fiscal conditions, market and financial feasibility, and public benefit estimates. Ultimately, in land use economics, the goal is to streamline the development process all while gaining a better sense of the ever-changing risks and uncertainty in the marketplace. GHD's comprehensive approach also considers a number of other factors detailed in the following section.

Market Feasibility Considerations

A number of factors influence an area's ability to capture investment dollars. These can be categorized as: top-down considerations; bottom-up considerations; external considerations; and others. Some, the public sector (or stakeholder entities) can control, and others they cannot.

Top-Down Considerations

- Demand for certain land uses
- Demographic and psychographic conditions which support certain product types
- Untapped market niches (product voids)
- Competitive projects (proposed, planned and under construction)

Bottom-Up Considerations

- Physical capacity of the community / individual parcels to accommodate market supported product types
- Fewer physical constraints
- Vision and desire for certain uses and product types
- Size of parcels, parcel ownership (public and private), owner investment objectives
- Zoning (and other regulations) and presence of easements

External Considerations

- "Delivery system" – who are the area's builders / developers, what are they willing and able to offer?
- Financing markets – availability of capital with reasonable funding terms for certain product types
- Forces beyond those currently in the market (e.g., migration to Metro Area by persons who do not represent the existing profile of residents and consumers.

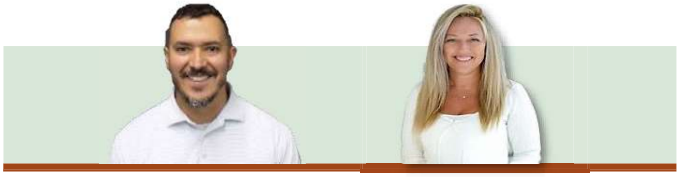
Other Considerations

- Available resources to position and promote investment in the community (both public and private). Market feasibility, however, does not guarantee financial feasibility, which will address potential "barriers to investment" that may affect the delivery of projects in any given market context.

Methodology

Our development economic analysis is evaluated from a private developer perspective, i.e., how much development value can be created from each land use/product type based on current revenues and costs in the market. For each project, a build-out economic analysis can be prepared based on the proposed development program. Rents and sale prices for each land use type are based on current and future market conditions in Solano County and the San Francisco Bay Metro Area. Estimates of total project value and project cost are completed, resulting in either a margin or a "gap." If a project "gap" is identified, potential "gap filling" measures can be quantified, including any combination of the following factors: land acquisition/writedown, site improvements, contribution (infrastructure, parking), supportable financing mechanisms/tools, city sales tax sharing (if applicable), development fee waivers, federal/state/local grants, streamlined development approval process. The goal in development and redevelopment is to balance variables in an aesthetically and economically responsible manner, thereby reducing uncertainty (and economic gaps).

Your Task 4 GHD Teammates:



Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

TASK 5: ENVIRONMENTAL REVIEW

Our Natural Resources Division, led be Nicole Greenberg, will prepare Exemptions, Initial Studies, (Mitigated) Negative Declarations, Environmental Impact Reports, Environmental Assessments, and associated documentation as well as initiate studies for specific resources in compliance with the local, state, and federal statutes, such as California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA).

Nicole, with support from sub-consultant Bargas Environmental Consulting and Groundworks Preservation, LLC, will conduct environmental peer reviews and/or prepare technical documents including but not limited to the following:

- Cultural and Historical Evaluations
- Biological studies
- Noise Studies
- Air Quality Studies
- Transportation/Circulation Studies
- Water Quality/Supply Assessments
- Stormwater/Wastewater Control and Management
- Hazards and Hazardous Materials Studies
- Green House Gas emissions
- Prepares Mitigation Monitoring Reporting Programs

Your Task 5 GHD Teammates:

TASK 6: HOUSING PROGRAMS AND POLICIES

Leveraging our collective experience in Housing Element preparation, housing policy implementation, affordable housing development, designing master planned communities, and conduct effective community engagement, Brady, Tracey, Jonathan, and Yosef will provide technical assistance and consultation to City staff in developing and instituting housing strategies. GHD anticipates providing the following services under this task:

- Ensure housing compliance with State laws and RHNA
- Monitor new housing development to avoid triggering AB 2011 and AB 1218 “No Net Loss” housing provisions
- Feasibility analysis of new programs and funding
- Assist staff in developing policies and procedures and training
- Assist staff with general program questions
- Assist staff with reporting for housing funds
- Streamline the housing permitting process
- Review pre-approved designs and plans for ADUs

GHD’s Community Engagement Practice

The engagement team will be led by Yosef Yip, an engagement specialist with 15 years of experience, including recent work with transportation agencies in the San Francisco Bay Area. He has led the engagement for the County of Santa Clara’s Housing Element Update and implemented multi-year engagement plans with the Alameda County Transportation Commission, San Mateo County Transportation Authority, and Metropolitan Transportation Commission. Assignments have included communications strategies and plans, in-person and virtual public meetings, online engagement, door-to-door outreach, and collaborating with local trusted partners to leverage existing relationships and foster engagement.

Your Task 6 GHD Teammates:

TASK 7: PROJECT MANAGEMENT + QA/QC

Over the life of the on-call contract, Todd will guide the project’s overall direction, leveraging his experience from similar on-call projects in California while ensuring all deliverables are checked and re-checked before being released to City staff. Brady will efficiently oversee your project while maintaining focused on client satisfaction, budget oversight, and timely delivery of project milestones.

Your Task 7 GHD Teammates:

04. Understanding and Approach

We Get It…

Between being parked at the front counter responding to questions while the division hotline rings incessantly; and conducting numerous application intake and completeness reviews; and completing plan checks, permit reviews and zoning inspections; and preparing multiple staff reports, presentations, hearing notices, ordinances and resolutions; and attending Planning and Historic Preservation Review Commission meetings that don't end until after 10 PM or later; and being present at City Council meetings three times a month…GHD not only understands your daily demands but we've lived them and we truly want to help!

Your handful of dedicated Benicia City Planners are doing the work of at least a dozen, and bandwidth is getting stretched thin. This is the reason we have chosen Brady Woods to be your Project Manager. As a former city Planning Manager with housing policy, architectural design, and Form-Based Code experience, Brady knows first-hand the everyday pressures you face. He too was tasked with achieving the often conflicting goals of making the city better while simultaneously keeping the city moving forward.

The City of Benicia is seeking qualified consultants to provide on-call services for its Community Development Department to augment and support the Planning Division's limited staff. Specifically, the city is looking for technical assistance for the following Planning tasks:

- Current Planning Development Review
- Long-Range Planning Policy and Strategies
- Historic Preservation
- Land Use Economics
- Environmental Review
- Housing Programs and Policies
- Grant Applications and Management
- Rapid Response Services

Project types will vary and may include preparation of written staff reports, ordinances and zoning code amendments, resolutions and other related documents; coordination of development applications, presenting at public hearings and community meetings; conducting historic resources evaluations; preparing comprehensive economic, market, fiscal and/or feasibility analyses; preparing CEQA Exemptions, Initial Studies, (Mitigated) Negative Declarations, Environmental Impact Reports, Environmental Assessments, and other associated documentation, as well as conducting environmental peer reviews; consulting City staff on housing policy implementation and streamline the housing permit process including expedited review of pre-approved ADU applications; and providing emergency response services as directed by the City. The selected consultants will receive a scope of work via email from City staff and will be asked to submit bids (inclusive of work tasks, personnel, and cost proposal) within five to 15 working days, depending on the nature of the project.

The GHD Approach

- Assignment Processing: As this RFP is for on-call services, **this proposal does not contain definitive workplan as we anticipate reviewing each Planning assignment on its own merit**. However, GHD has practices in place to ensure that resources to meet your expectations are available when necessary. Assignment timing can be refined based on City's needs on a case-by-case basis.
- Quality Control: All our deliverables are prepared by our multidisciplined team of experienced technical experts and are comprehensively reviewed for quality assurance prior to final release to the City.
- Resource Allocation: Our professional staff meets weekly to allocate resources and schedule workload. Our capacity will be tailored to Benicia's needs and demands.
- Project Monitoring: GHD will utilize its BST10 SmartClient software to continuously monitor staff time and project budget to ensure budget compliance and eliminate scope creep.

Level of Effort Letter / Pricing Proposal

Pursuant to RFP #25-063 instructions dated March 31, 2025, we have included our 2025 Rate Sheet in **Appendix B**.

Prior Litigation / Claims

GHD, Inc. is not involved in any pending litigation that may affect its ability to provide its proposed solution or ongoing maintenance or support of its products and services.

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

Additionally, GHD, Inc. has no recent history of projects for which it has failed to complete the work awarded.

Financial and Related Information

Pursuant to RFP #25-063, GHD will supply the City of Benicia with reviewed financial statements for the last 3 fiscal years, if selected as a service provider.

Proposal Authorization Form

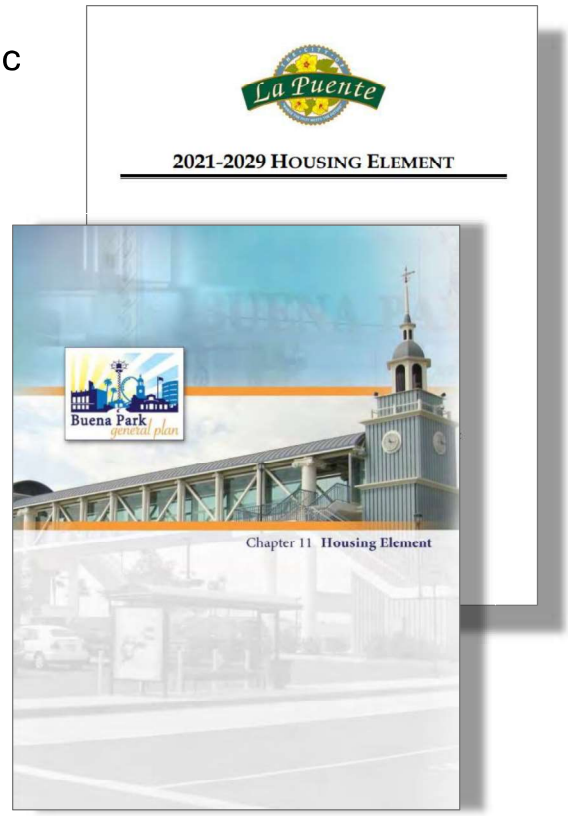
Pursuant to RFP #25-063, the Proposal Authorization Form (Attachment D) has been uploaded to the Procurement Portal.

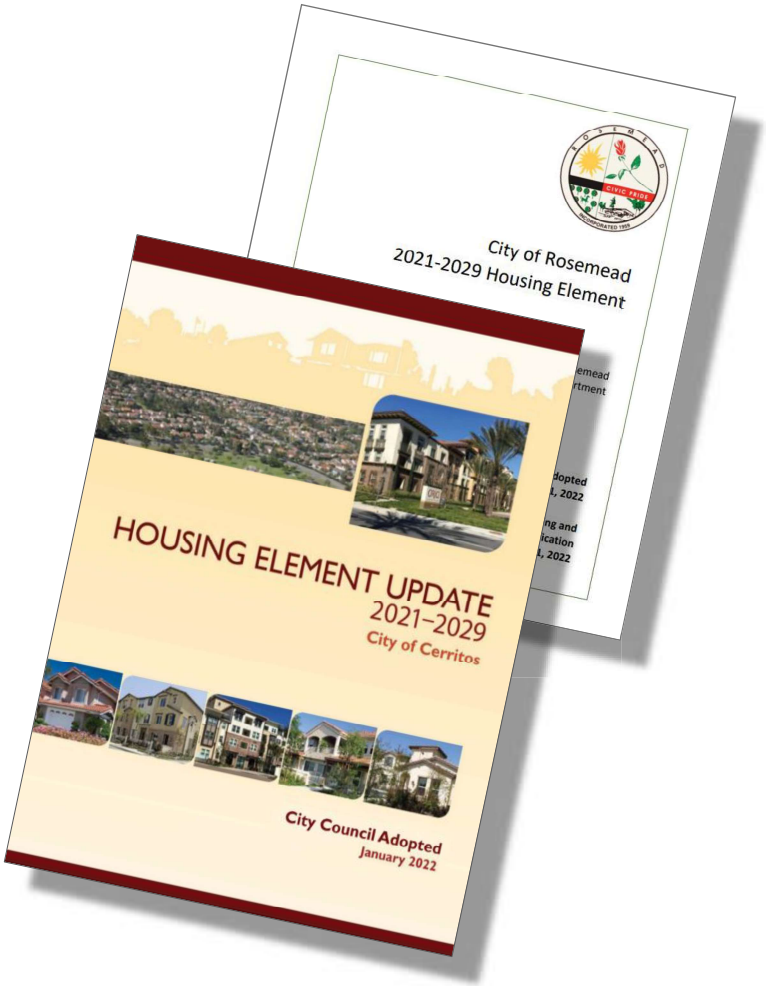
Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

Housing Policy and Strategy Implementation

GHD helps governments and policymakers make data-based decisions to inform public policies and strategies. Our team of public policy professionals help you optimize the performance of your organization to:

- ✓ Achieve your strategic objectives
- ✓ Produce public value
- ✓ Drive transformational change





Our Senior Strategic Urban Planner, Brady Woods, has extensive experience leading teams in community engagement, producing certified Housing Elements and implementable housing programs in California. He has prepared Housing Elements and implementation strategies for the following cities:

- ➢ Buena Park
- ➢ Cerritos
- ➢ El Monte
- ➢ La Puente
- ➢ Rosemead

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

Land Use Planning and Zoning

GHD is well equipped to tackle the challenges associated with the complexity of municipal land use, zoning, and urban development projects. Many of our professional Planners have local and regional government experience, allowing us to understand and negotiate the practical and political aspects of City Planning. Our team members are experts in:

- ✓ Current or Short-Range Planning
- ✓ Development Review/Plan Check
- ✓ Land Use Entitlements
- ✓ Code Amendments
- ✓ Development Agreements
- ✓ Housing Affordability/Density Bonus
- ✓ Specific Plans/Master Plans
- ✓ Subdivision Maps
- ✓ Form-Based Code

Brady M. Woods MURP, BS-ARCH

Senior Strategic Urban Planner - Future Communities

Location
Irvine, California

Experience
24 years

Qualifications
- Master of Urban & Regional Planning
- Bachelor of Science - Architectural Studies

Key technical skills
- Extensive Design Review Experience
- Urban Design + Placemaking
- Land Use Planning
- Strategic Policymaking
- Community Engagement

Memberships
- American Planning Association (APA)
- Urban Land Institute (ULI)

Relevant experience summary

As a Senior Strategic Urban Planner, Brady works with leading design professionals, technical experts, and community leaders to provide unique, solutions-oriented strategies to land development, urban design, and placemaking. Brady brings over 24 years of experience as a Project Leader, Land Use Consultant, and Government Official serving in multiple US cities, and can adeptly leverage decades of private and public sector experience to serve as a bridge between what communities and clients desire and what governments require.

On-Call Planning Services*

- **City of Anaheim, CA**
- **City of Cupertino, CA**
- **City of El Monte, CA**
- **City of Santa Clarita, CA**
- **City of Temple City, CA**

Project Manager, Senior Planner

Provided on-call architectural and landscape design review consultation services for multiple California municipalities that included assessing development projects for adherence with established design guidelines and provided "truth tested" design recommendations from a team of licensed design professional. Served as city's "design committee" when needed.

Bradenton Form-Based Code*

- **City of Bradenton, FL**

Planning Manager

Served as City Planning Manager responsible for developing and implementing Form-Based Code design and zoning regulations based on community input from over 30 outreach events and activities. Promoted 21st Century land use, site and building design principles while incorporating numerous "Good Neighbor" policies. Awarded the 2012 FBCI Richard H. Driehaus Award for development of a form-based code national model the focuses on urban infill, sustainability, public art, stormwater management, lighting, and affordable housing.

2021-2029 6th Cycle Housing Elements*

- **City of Buena Park, CA**
- **City of Cerritos, CA**
- **City of El Monte, CA**
- **City of La Puente, CA**
- **City of Rosemead, CA**

Primary Author, Lead Researcher, Project Manager

Lead the research, analysis, and drafting of 6th Cycle Housing Elements for various jurisdictions in Los Angeles and Orange counties. Established strategic and innovative housing policies to ensure cities could meet or exceed their state housing requirements while also addressing many special needs groups including seniors, those experiencing homelessness, and lower-income households. Facilitated numerous in-person and virtual/digital community input meetings and

listening sessions to understand the community's needs. Served as primary liaison between city, regional, and state housing representatives.

*Hidden Hills Accessory Dwelling Unit (ADU) Ordinance**

- **City of Hidden Hills, CA**

Project Manager, Land Use Consultant

Provided strategic land use consultation and legislative expertise directly to city leadership. Crafted new ADU policies and regulations for citywide implementation, ensured consistency with state laws while adhering to the desires of local residents. Instituted objective site and architectural design standards to simplify and expedite approval and development of ADUs.

*Orchard View Affordable Senior Apartments**

- **City of Buena Park, CA**

Planning Manager

Served as City Planning Manager responsible for facilitating and negotiating a development agreement for the project that involved development of a 66-unit age-restricted affordable housing complex. Prepared density bonus analysis consistent with state law; assessed design characteristics and facilitated community outreach to ensure neighborhood compatibility.

*Sycamore Creek Community Charter School**

- **City of Cypress, CA**

Project Manager, Land Use Consultant

Lead a diverse team of architects, civil engineers, landscape architects, political lobbyists as Project Manager to obtain land use entitlement approvals for the project that involved the adaptive reuse of an existing church for a new TK-12, 750-student public charter school. Facilitated several community outreach events, as served as inter-governmental liaison among multiple agencies.

*Southern Dunes Golf & Country Club**

- **City of Haines City, FL**

Project Manager

Served as Project Manager and Community Liaison for the project that involved design and entitlement approvals for various improvements at an existing golf and country club including ensuring the project served as a community benefit to the surrounding low-income neighborhoods.

*Western Avenue Logistics Center**

- **City of Torrance, CA**

Project Manager, Land Use Consultant

Served as Project Manager and client's primary Land Use Consultant for the project which involved the development of a 188,000 sq. ft., LEED-certified warehouse logistics center. Provided permit expediting services to obtain building and engineering permit issuance, as well as served as client's liaison with government officials and permitting staff.

*Long Beach Industrial**

- **City of Long Beach, CA**

Land Use and Community Outreach Consultant

Lead community outreach efforts to solicit neighborhood input and feedback on the redevelopment of a 9-acre industrial infill site immediately adjacent to a city park. Developed a comprehensive Community Outreach Plan, identified key stakeholders, and hosted an outreach event at a community facility for neighbor's convenience.

*Homes at Los Coyotes Country Club**

- **City of Buena Park, CA**

Planning Manager

Served as City Planning Manager responsible for facilitating land use approvals for the development of 125 residential condominiums on an existing golf course, including managing the preparation of an associated EIR and Architectural Design Guidelines. Conducted multiple public outreach meetings and smaller ad-hoc committees to address concerns and solicit input from surrounding residents and organized neighborhood groups, as the project faced stiff opposition culminating in an unsuccessful voter-initiated ballot measure to defeat the project.

A GHD Principal

Todd Tregenza AICP

Senior Transportation Planner

Location
Sacramento, CA

Experience
18 years

Qualifications/Accreditations
- BS, Community and Regional Development, University of California, Davis, CA, 2007
- American Institute of Certified Planners #29678

Key technical skills
- Multimodal Performance and Safety Analyses
- Transportation Programming and Funding Strategies
- Cost-Benefit Analyses and Grant Application Support
- Transportation Modeling and Vehicle Miles Traveled (VMT) Guidelines

Memberships
- American Planning Association
- Young Professionals in Transportation

Relevant experience summary

Todd Tregenza has 18 years of experience in transportation planning projects, assisting dozens of agencies throughout central and northern California in short- and long-range programming, including the development of travel demand models, general plan circulation elements, specific and master plans, corridor studies, capital improvement programs, nexus and fee studies, transportation operational analyses, and impact analyses. This experience spans public and private sectors, extending into on-call contracts and arrangements with municipalities, where Todd prepares transportation studies and grant applications, performing peer reviews of impact studies and developing California Environmental Quality Act (CEQA) impact analyses for development projects of all sizes.

On-Call Services

County of San Luis Obispo Various Circulation Study, Model, and Road Improvement Fee Updates

Project Manager
County of San Luis Obispo | San Luis Obispo, CA

As part of an ongoing on-call services agreement with the County of San Luis Obispo, managed and managing delivery of road impact fees for the communities of Avila, South County/Nipomo, Templeton, Avila, Los Osos, and San Miguel. For all efforts but one, San Miguel, a local travel demand model was developed or updated to reflect current conditions and updated to reflect adopted changes in the applicable Community Plan. The San Miguel and Los Osos fee updates are both anticipating adoption at the County Board of Supervisors in the next two months.

City of Arroyo Grande On-Call Transportation Consultant Transportation Safety and Circulation Studies

Transportation Planner
City of Arroyo Grande | Arroyo Grande, CA

Led preparation of or assisted in the preparation of several transportation safety and circulation studies for the City of Arroyo Grande that emphasized multimodal connectivity. These included the following projects, among others: Ocean View Elementary Safe Routes to School (SRTS) Plan, South Halcyon Road Complete Street Improvements and Road Diet, and Short Street Closure to Vehicular Traffic.

City of San Luis Obispo On-Call Transportation Engineer Services

Transportation Planner
City of San Luis Obispo | San Luis Obispo, CA

Review of proposed City TIA methodologies and citywide traffic models, and preparation of TIS.

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

City of San Luis Obispo 2017-2018 On-Call Transportation Planning Services

Project Manager
City of San Luis Obispo | San Luis Obispo, CA

Served as Project Manager to provide transportation design, engineering, and review; multi-modal planning and analysis; multi-modal operations and analysis; and travel demand modeling services on an on-call basis. Under this on-call contract, the team was assigned the preparation of a Multi-modal Traffic Impact Study for the proposed Froom Ranch Specific Plan EIR. Froom Ranch Specific Plan is the third and last major land annexation area identified in the City's General Plan, along with San Luis Ranch and Avila Ranch. The proposed project land uses include a mix of commercial, recreational, and residential uses, a large portion of which will be age-restricted and/or elder care living facilities. The purpose of this study is to conduct analysis for CEQA compliance and to evaluate consistency of the project with the City General Plan/Circulation Element. Work performed while with another firm.

City of San Luis Obispo On-Call Transportation Consultant and On-Call Multimodal Transportation Impact Analysis

Transportation Planner
City of San Luis Obispo | San Luis Obispo, CA

Led the development of in-house multimodal transportation analysis tools to quantify operations using HCM 2010 for all travel modes on a link, segment, and corridor basis. This process, as well as Highway Capacity Manual (HCM) 2010 intersection analysis through Synchro, was utilized in the preparation of several transportation impact analyses and supporting environmental documents, from smaller projects, such as Discovery SLO to large specific plan projects, such as San Luis Ranch.

Yolo County On-Call CEQA Consultant Services

Project Manager
County of Yolo | Yolo County, CA

Provided CEQA consulting services on an on-call basis. The services consist of focused analyses to support the appropriate environmental documents required for transportation and land development proposals. As a result of this on-call contract, performed an update to the Eastern Esparto Circulation Study in the Town of Esparto in Yolo County. This project consisted of a comprehensive update to the 2006 Eastern Esparto Circulation Study. The goals of the study were two-fold; first, the near-term goal was to analyze the transportation impacts of three proposed residential subdivisions in the eastern Esparto area and identify improvements to mitigate any impacts; second, this study would evaluate the previously planned improvements from the 2006 study to determine whether it remains appropriate to support cumulative buildout of the East Esparto General Plan area. Work performed while with another firm.

Career history

2018 - present	GHD, Senior Transportation Project Manager
2017 - 2018	TJKM Consultants, Office Manager/Project Manager
2007 - 2016	GHD, Senior Transportation Planner
2006 - 2007	Governor's Office of Planning & Research, Legislative Unit Intern

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

Tracey Scott AICP, CNU-A, NCI

Business Development Lead - Future Communities

Location
San Diego, CA

Experience
20 years

Qualifications/Accreditations
- BS, Architecture, The University of Maryland, College Park, MD, 2002
- Master of Architecture, Washington University - St. Louis, MO, 2005
- Master of Urban Design, Washington University - St. Louis, MO, 2005
- American Institute of Certified Planners (AICP) Certified Planner #34039
- The Congress for the New Urbanism (CNU) Accredited Professional
- National Charrette Institute (NCI) Charrette System Certificate

Key technical skills
- Sustainable Urban Design + Planning
- Visionary ideas for Placemaking + Design
- Promoting Health + Wellness
- Collaborative Design Spirit

Memberships
- American Planning Association
- Congress for the New Urbanism

Relevant experience summary

Tracey Scott has 20 years of professional experience in urban design, planning, architecture, and landscape architecture, including multi-family residential: affordable, attainable, market-rate, military, and student living, mixed-use, high-rise, office, retail, and civic buildings. Her experience includes sustainable and resilient community master planning, neighborhood revitalization, visionary ideas for placemaking, streetscape, and architecture design, complete and green streets, active transportation, transit-oriented development, station area planning, light-rail lines, HUD choice neighborhoods, master plans and specific plans, design guidelines, form-based codes, graphic design, façade and sign design, and community stakeholder engagement. She is passionate about working collaboratively to design great places that enhance everyday life. Tracey enjoys making people happy, promoting health and wellness, producing high-quality design and graphics, and sharing kindness and support with a collaborative design spirit.

West Ward, Easton, CN Plan

Director of Planning + Urban Design
Easton Housing Authority | Easton, PA | 2022-2024

Served as the Director of Planning + Urban Design for the Housing Element of EHA's West Ward HUD Choice Neighborhood Transformation Plan + Implementation, as well as renovations and additions to all of their affordable housing units. Collaborated with key city stakeholders, engaged with community residents, developed zoning code updates, submitted documents for historic designation review, created + reviewed RFPs, and provided information for mixed-income housing proformas. For a third reference, please contact Tyler Martin, EHA Executive Director: tmartin@eastonhousing.org, 610.258.0806.

Ablett Village + E State Street, CN Plan

Senior Planner, Urban Designer, Project Manager
Michaels + HACC | Cramer Hill, Camden, NJ |2024

Ablett Village, Cramer Hill is a HUD Choice Neighborhood with mixed-income residential alongside the beautification of a new complete and green street. Visionary concepts were developed for a pedestrian friendly neighborhood, with new homes for 425 residents, a central park, community center, and safe streetscapes for families, children, and seniors. A collaborative 8-year planning process built on trust supported the project's success. A new complete street for an existing county road increases connectivity, promotes safety, and establishes a shared path to connect a future transit station to the community.

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

Central Avenue Master Plan + Corridor Study

Lead Urban Designer
CRA/LA | Watts, Los Angeles, CA | 2008

This Specific Plan creates an economically viable, ecologically sustainable, distinctive corridor, adjacent to freeways and major transit lines, with a unique pedestrian-friendly, mixed-use character celebrating the cultural diversity of the Watts Community. The master plan is an integrated assembly of buildings, streetscape, and open spaces that redefine the identity of the Central Avenue Corridor as a vibrant place to live, work, shop, and visit. The Vision was crafted by the community through stakeholder meetings, community workshops, and charrettes. A Form-Based Code guides public realm, development, and streetscape improvements.

San Manuel Master Plan

Senior Urban Designer, Project Manager
San Manuel Reservation, CA | 2014

Crafted the overall vision and master plan for the San Manuel Reservation as desired by the tribe through engaging community outreach. Developed sustainable design guidelines with placemaking principles for the vision plan. Designed a “Heritage Walk” trail and park network to highlight and preserve many sacred and historical cultural elements, while connecting key moments, places, and views. Created visionary recommendations for future development to support economic and residential growth, while preserving the natural environment and peaceful quality of life on the reservation.

Jordan Downs S6 + Croesus Avenue

Senior Planner, Urban Designer, Owner’s Rep.
Michaels (HACLA) | Watts, Los Angeles, CA | 2023

Conceptual design for Jordan Downs S6, which consists of two, four-story mixed-use, mixed-income residential buildings, serving as the gateway and entrance to Jordan Downs, a Watts Choice Neighborhood Redevelopment. Designed a pedestrian friendly, retail focused, plaza type streetscape for Croesus Avenue with the flexibility of accommodating front door parking and access, while also feeling more like a pedestrian only mall with the ability to be temporarily closed for community events.

350 South Fifth Avenue TOD

Senior Planner, Urban Designer, Project Manager
The Michaels Organization | Ann Arbor, MI | 2024

Conceptual design for a 15-story mixed-use, mixed-income transit-oriented development integrated with a bus-drop off for the Blake Transit Center, a major public transit station, serving as the main hub for TheRide, the terminus and transfer point for 17 Ann Arbor-based routes and multiple intercity bus services.

Planning Area 12 Master Precise Plan

Senior Urban Designer, Project Manager
Baldwin & Sons | Chula Vista, CA | 2014

Created the site design for Enclave Town Center, Heritage Homes, and Hotels, with a Central Park in Otay Ranch. Designed creative and unique streetscapes for a variety of street types, including a street with a dedicated Bus Rapid Transit lane and a Muse (aka Woonerf) Street. Led the preparation of the Master Precise Plan, including conceptual design and layout of the overall site with zoning regulations and design guidelines, which served as the framework document to secure entitlements.

Mission Valley Future Vision

Senior Urban Designer, Project Manager
Multiple Clients | San Diego, CA | 2016

Innovative, conceptual design visions to re-imagine Mission Valley as a mixed-use, pedestrian friendly desirable retail and entertainment focused destination that celebrates the San Diego River as the recreational amenity core, creates pedestrian friendly boulevards as destinations for people to enjoy the public realm, and mixed-use neighborhoods that promote connected live, work, play communities. Visions for several key sites, including a future town center and transit- oriented development for the Chargers’ Qualcomm Stadium site and a mixed-use development to replace a traditional office park. These inspirational ideas were included in the Mission Valley Community Plan update and have inspired mixed-use development along the corridor.

Crenshaw - LAX Transit Corridor (K Line)

Lead Urban Designer + Planner
LACMTA | Los Angeles, CA | 2010

Provided urban design and planning expertise for the entire line through preliminary engineering and the Environmental Impact Report/Environmental Impact Statement. Created pedestrian friendly, multi-modal, and mixed-use, transit-oriented development and station area planning concepts, ½ mile around each station. Conducted a series of community workshops as part of a collaborative design process to build trust, gain support, educate, and receive feedback from neighborhood stakeholders on this significant and impactful transit corridor planning and design process

Mid-Coast Corridor Transit Project

Director of Urban Design + Planning
SANDAG | San Diego, CA | 2013

Led the development of Station Design Guidelines for the proposed sites, while anticipating future transit-oriented development with innovative architecture design to establish a unique corridor identity and theme.

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

Ridgecrest Bedell Place

Senior Planner | Urban Designer
Auburn Housing Authority | Auburn, AL | 2021-2024

Served as the main point of contact for the Auburn Housing Authority over a three-year period to redevelop Ridgecrest Bedell Place into 176 affordable homes. Successfully collaborated with city planning staff to receive conditional use approval, street vacations, planning commission and city council approval of the project and support for additional affordable housing funding during three rounds of funding applications.

Bakewell Sites

Senior Planner | Urban Designer
The Michaels Organization | Los Angeles, CA | 2023

Maximized the number of affordable housing units on four sites in Los Angeles by utilizing the State of California Density Bonus Law.

6th + G

Senior Planner | Urban Designer
HP Investors | San Diego, CA | 2015

Conceptual design for a 6-story office building utilizing a portion of a historic structure in downtown San Diego. Led a project schedule that included historic review.

Seaport Village

Senior Planner | Urban Designer

Gafcon | San Diego, CA | 2016

Conceptual design support for AVRP Skyport Studio's Seaport Village in downtown San Diego, an exciting mixed-use destination along the waterfront with restaurants, retail, hotel, aquarium, and outdoor space for a variety of community events.

E Street Transit Corridor

Lead Urban Designer
SBC EDA | San Bernardino, CA | 2010

Conceptual Strategy Plan to identify sites for strategic development opportunities for transit-oriented development that leverage the potential of substantial new transportation infrastructure. Specifically, the plan supported the City of San Bernardino's integrated strategy to meet its current and future housing needs

Rail to River Active Transportation Corridor

Lead Urban Designer
LAMTA | Los Angeles, CA | 2014

Created potential development and open space alternatives to integrate the public realm and private development with the active transportation corridor, adjacent communities and transportation options.

Disney, Affordable Housing

Senior Planner | Urban Designer, Owner's Rep.
Michaels | Disney, Orange County, FL | 2023

Visionary leader of the original development concept for Disney's affordable housing in Orange County, Florida. Served as the review architect for The Michaels Organization. Inspired the creation of a future-forward plan with a focus on health and wellness.

Relevant Experience Summary

Jonathan is GHD's urban design + planning service lead in the Americas and US West Technical Director. His 15 years delivering public and private projects are based on thoughtful client and stakeholder relationships and integrated thinking across urban scales. His work pioneers community uplift strategies which garnered 10 regional, state, and national awards - all as lead planner or PM. Project types include university plans (LRDP's), mixed-use, specific plans, community parks, sports districts, coastal resiliency, and airport-connected master plans.

DOWNTOWN + TRANSIT-ORIENTED

La Quinta Highway 111 Corridor Specific Plan
Lead Planner, Urban Designer
City of La Quinta, CA | 2022-2025
Comprehensive master plan for infill mixed-use development for a liveable and vibrant heart for the community along a 2-mile retail corridor. | 450 Acres

Beaumont Downtown Revitalization Plan
Project Manager / Lead Planner
City of Beaumont, CA | 2022 - 2024
Overlay plan and economic strategy coordinating detailed urban designs with guidelines and economically catalyzing capital improvement projects. | 506 Acres

Twentynine Palms Downtown Specific Plan
Project Manager / Lead Planner
City of Twentynine Palms, CA | 2021 - 2022
Long range comprehensive master plan for economic revitalization of a livable, walkable and vibrant heart of the community; with 2 public workshops and CEQA | 210 Acres

Arcata General Plan and Gateway Overlay
Lead Planner, Urban Designer
City of Arcata, CA | 2021 - 2022
Conceptual housing and mixed-use development planning for opportunity sites within the Gateway Overlay District | 2,500 Dwelling Units, 52 Acres

Canberra City Centre Transit-Oriented Study
Lead Planner, Urban Designer
City Renewal Authority | Canberra, ACT
Served as Lead Planner and Urban Designer for urban concept that integrates transit infrastructure and walkable mixed-use development to activate the heart of Canberra as a national crossroads. | 12 Ac. Study Area

Caesars East-Side Live/Work/Play Master Plan
Lead Planner, Urban Designer*
Caesar's Entertainment | Las Vegas, NV | 2018
Prepared district mixed-use and open space options that introduce a walkable living and workplace setting adjacent to the famed "Strip". * | 3.46M GSF, 106 Ac. Study Area

** work performed with previous employer*

T 949.585.5265 | **E** jonathan.linkus@ghd.com

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

Vision 2045: Downtown Las Vegas Master Plan
Team Planner, Urban Designer*
City of Las Vegas | Las Vegas, NV | 2015-2017
Prepared site plans for Symphony Park mixed-use residential and arts district, one of the eight transit-oriented hubs.* | 3.46M GSF, 106 Ac. Study Area

INSTITUTIONAL + WORKPLACE

Australian War Memorial 50-Year Master Plan
Team Planner, Urban Designer
Australian War Memorial | Canberra, ACT | 2018
Proposed long-range adaptation scenarios in a memorial development framework with campus visioning. | 35 Acres

University of Hawai'i – West O'ahu Long Range Development Plan
Lead Planner, Urban Designer*
University of Hawaii | Kapolei, HI | 2017-2018
Developed conceptual site plan options and preferred space need analysis, multi-day workshop, public outreach for Hawaii's fastest growing four-year university.* | 500 Acres, 20k FTE Students

Amazon HQ2 Nevada
Project Manager, Lead Planner*
Las Vegas Economic and Urban Development Department | Las Vegas, NV | 2017-2018
City-sponsored conceptual design entry for new 50,000-employee Amazon headquarters across three downtown sites.* | 8.07M GSF, 70 Acres

CSUSB Campus & Palm Desert Campus Plans
Co-Project Manager, Lead Planner*
CSUSB | San Bernardino, CA | 2015-2017
Directed two multi-disciplinary long range integrated comprehensive master plans, plan concepts, outreach material for six workshops, student facilities, custom public realm sustainability. | 591 Acres, 25k FTE Students

Peachtree Corners Innovation Hub Master Plan
Project Manager, Lead Planner*
City of Peachtree Corners | Peachtree Corners, GA | 2017
Developed two mixed-use gateway districts, prepared adaptive reuse/infill and transit framework as land use subconsultant.* | 8.27M GSF, 950 Ac. Study Area

SPORTS + ENTERTAINMENT DISTRICTS

Cleveland Browns Future Planning
Lead Planner, Urban Designer*
Cleveland Browns | Cleveland, OH | 2017 - 2018
Designs for two new National Football League (NFL) Sports + Entertainment District sites leading into 10-year-contract-winning design, interview, and workshop participation.* | 192 Ac. over 2 Study Areas

Cashman Center NFL+ MLS Concepts
Project Manager, Lead Planner*
Las Vegas Economic and Urban Development Department | Las Vegas, NV | 2017
Designs for a mixed-use sports and workplace district with integrated adjacent NFL and Major League Soccer (MLS) stadiums.* | 90 Acre Study Area

OPEN SPACE + PUBLIC REALM

Perez Community Park
Lead Planner, Urban Designer
Orange County Public Works | Costa Mesa, CA | 2018 - 2020
Award winning solution for a public realm that combines stormwater bioretention, streetscape accessibility, and a community park with tot-lot. | 5K GSF

Imola Corridor Complete Street Masterplan
Team Planner, Urban Designer
City of Napa | Napa, CA | 2019
Responsible for public outreach visioning guidance and event participation, conceptual streetscape design and visualization, and mobility hub. | 2.5 Mile Segment

San Francisco Mission Waterfront Adaptation
Lead Planner*
San Francisco Planning & Urban Research Association (SPUR) | San Francisco, CA | 2015-2016
Provided award-winning concepts for waterfront urban interface that integrates open space and future climate change adaptation.* | 135 Ac. Study Area

AIRPORT CONNECTED

Airport Compatible Land Reuse Strategy (ACLReP Phase 2)
Assistant Project Manager*
City of Phoenix | Phoenix, AZ | 2017-2018
Prepared nine subcontracts, fee-by-task breakdown, and accounting structure for $5.5 million planning fee. Project-winning interview participation.* | 2 mi^2

Ekurhuleni Aerotropolis Master Plan
Lead Planner*
Municipality of Ekurhuleni | Ekurhuleni, Gauteng | 2013-2015
Provided regional coordination strategy for airport-related industry sectors in 14 communities as land use and development strategy subconsultant.* | 1,030 Ac. of Site Design, 760 mi^2 Study Area

Memphis Aerotropolis Airport City Master Plan
Lead Planner*
City Housing & Community Development + Chamber | Memphis, TN | 2012-2014
Served as Lead Planner for comprehensive plan and district designs supporting key economic sectors, with significant public and stakeholder outreach participation.* | 10.89M GSF, 60 mi^2 Study Area

** work performed with previous employer*

Nicole Greenberg

Senior Environmental Planner

Location

Irvine, CA

Experience

11 years

Qualifications/Accreditations

- MS, Environmental Studies, College of Charleston, Charleston, SC, 2014
- BS, Marine and Environmental Biology and Policy, Monmouth University, West Long Branch, NJ, 2012

Key technical skills

- Regulatory Permitting and Compliance
- California Environmental Quality Act (CEQA)
- Coastal and Wetland Science
- Public Infrastructure Planning
- Energy Sector Planning
- Park and Recreation Improvements

Memberships

- N/A

Relevant experience summary

Nicole Greenberg is an environmental permitting and impact assessment professional with a concentration in land use planning and coastal resource management. Nicole identifies permit strategy, facilitates the environmental regulatory process for clients, and coordinates their needs with agencies, utilities, and municipalities. Nicole addresses permitting requirements for public works infrastructure, coastal development, and energy sector projects. Nicole's areas of expertise include CEQA/National Environmental Policy Act (NEPA) compliance, coastal planning, and regulated waters/wetlands permitting.

Carlsbad Beach Access Repair Project

Coastal Permitting/Compliance Lead
City of Carlsbad Public Works | Carlsbad, CA

Serving as Coastal Permitting and Compliance Lead and manages the draft Initial Study/Mitigated Negative Declaration (IS/MND) document for this beach access repair Project. Also provides support for the Coastal Development Permit and technical reports. The Project involves the expansion of sidewalk seaward along Carlsbad Boulevard to provide improved public access and address necessary structural repairs to existing beach access routes. Responsible for tracking project deadlines to facilitate the timely submittal of permits, CEQA documents and reports to state agencies and the public.

Oceanside Fishing Pier and Non-Motorized Launch Project

Permitting/Technical Lead
City of Oceanside | Oceanside, CA

Serving as a Permitting Lead for this fishing pier replacement and non-motorized kayak and paddleboard launch installation project. Involvement includes preparation and submittal of the following: U.S. Army Corps of Engineers Individual Section 10 and 404 Permit; and Regional Water Quality Control Board Section 401 of the Clean Water Act Water Quality Certification for impacts to regulated waters. Nicole is responsible for drafting the IS/MND document for the proposed project and coordination with local, state, and federal agencies.

Hermosa Beach Pier Repair Project

Coastal Permitting Specialist
City of Hermosa Beach Public Works | Hermosa Beach, CA

Provides permitting and technical support for this pier repair Project. Efforts include preparing, submitting, and obtaining the following items to address necessary structural repairs/deficiencies and electrical upgrades to the Hermosa Beach Pier; Coastal Development Permit

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

issued by the California Coastal Commission, Nationwide 3 Permit issued by the US Army Corps of Engineers, and a Section 401 Water Quality Certification from the Regional Water Quality Control Board.

*Santa Maria Refinery Demolition and Remediation**

Coastal Permitting Specialist
Phillips 66 | Arroyo Grande, CA

Provided technical and regulatory support to facilitate demolition and remediation efforts at a crude oil refinery in the coastal zone. Project work included regulatory strategy to prepare and submit a Coastal Development Permit, Project Description document, and CEQA Initial Study Checklist for agency review and approval. Coordinated client needs with government agencies regularly and managed agency notification requirements and tracked permit and project planning timelines.

Jurupa Community Services District Recycled Water Program Segment 1 Pipeline

Permitting Lead
Jurupa Community Services District | Eastvale and Chino, CA

Provided permitting and regulatory support for this water conveyance line expansion project. The project consisted of permitting the construction of a non-potable water conveyance pipeline beneath San Bernardino County Flood Control District right of way via horizontal directional drilling. Nicole's efforts included completing the US Army Corps of Engineers Section 408 Technical Submittal Checklist to permit the pipeline crossing beneath Cucamonga Creek, a concrete-lined channel in two locations.

Doheny Ocean Desalination Project

Permitting Lead
South Coast Water District | Laguna Beach, CA

Provides technical permitting support for this proposed desalination project in south Orange County, California. The project involves the construction and operation of a new desalination plant. Role includes coordination with the City of Dana Point building and planning departments, addressing permitting requirements (both construction and operation) for the proposed desalination plant build and related water conveyance line crossings of Caltrans and Amtrak right of way.

Highway 111 Corridor Specific Plan

CEQA Lead
City of La Quinta | City of La Quinta, CA

Serving as CEQA Lead and manages the Draft IS/MND document for this highway corridor improvement project. The City of La Quinta is preparing a Specific Plan and form-based code to facilitate the establishment of Highway 111 as a vibrant mixed-use corridor to guide the orderly development and redevelopment of local infrastructure, businesses, and housing. Responsible for tracking project deliverables, client and project manager coordination, and task delegation to deliver the IS/MND document on time and on budget.

Camp San Luis Obispo Vehicular Bridge 3 Replacement Project

Technical Lead
California Military Department | San Luis Obispo, CA

Manages the Draft IS/MND document to support CEQA requirements for this vehicular bridge replacement project. Project support includes section writing, address comment responses, and client coordination to track project milestones in accordance with CEQA guidelines. Additional responsibilities include budget tracking, team calibration meetings, and manage client deliverables.

Relevant experience summary

Luis has over twenty years of multi-disciplinary experience in urban planning, economic development, strategic planning, real estate, economics, and public policy. As advisor, he has extensive expertise with municipal planning and economic development strategic planning in the public, private, and nonprofit sectors. Since 2002, his career spans a broad spectrum of immersive work in diverse communities across the U.S. and the globe. As a consultant, his practice includes an emphasis on the facilitation and implementation of actionable and integrated planning and economic development strategies and policies, land-use, and market-based redevelopment plans for special areas, such as corridors and downtowns. He is adept at community engagement, fiscal and economic impact analysis, public finance, sustainability and resiliency, social impacts related to equity, affordable housing, business attraction and retention, workforce development solutions, and market analysis.

City of Houston Office to Residential Conversion Feasibility Study

Project Director |
City of Houston TIRZ No. 3 | Houston Metro, TX, USA
$150,000 | January 2022 - December 2023

Luis led the study to take a deeper dive into the potential for office conversions within the Downtown boundaries. The study evaluated the challenges to conversion, made recommendations for creative financing options and incentives, and assessed some hypothetical projects involving office properties of various age, size, cost and occupancy. The findings added teeth to the conversation on conversions in Houston and on a national level and are a step toward shaping an adaptive reuse incentive program for the City of Houston. The study concluded that from a feasibility standpoint, market forces alone are unlikely to trigger residential conversions, which require a suite of resources, incentives and other tools that build upon other parallel redevelopment efforts.

City of Houston Rebuilding American Infrastructure with Sustainability and Equity (RAISE) Grant Application

T +1 713 734 3090 | **M** - | **E** luis.nunez@ghd.com

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

Project Director |
City of Houston Planning Department | Houston, TX, USA
$100,000 | January 2023 - February 2024

Luis led the grant application program for a $14,000,000 grant application to support TxDOT and the City of Houston in reconstruction of the North Houston Highway Improvement Project (NHHIP) through the eastern portion of Downtown Houston. The funding would support an amenity-like reconnection on the eastern side of Downtown.

City of Houston Reconnecting Communities Grant Application

Project Director |
City of Houston Planning Department | Houston, TX, USA
$100,000 | January 2022 - September 2023

Luis led a $10,000,000 grant application on behalf of the City of Houston to support reconstruction of the TxDOT-led North Houston Highway Improvement Project (NHHIP) through portions of the Downtown Houston area. The grant funds would support work above and beyond by that proposed of TxDOT by creating green space to reconnect communities long-divided by the right-of-way created by the original project.

DART Silver Line Transit Oriented Development (TOD) Strategic Planning

Project Director |
Dallas Area Rapid Transit (DART) | Dallas-Fort Worth Metro, TX, USA
$500,000 | January 2022 - December 2023

The DART Silver Line is a 26-mile regional rail service that traverses seven cities – Grapevine, Coppell, Dallas, Carrollton, Addison, Richardson, and Plano – with a final connection at DFW Airport. The Silver Line crosses three counties (Collin, Dallas, Tarrant) and provides a service that will improve accessibility to major employment and educational opportunities in the area while supporting economic development. Luis provided economic and land use technical assistance to help several communities plan for transit-oriented developments and other placemaking strategies around their respective future transit stations. The process required a strategic planning approach that included an extensive public and stakeholder engagement effort within and around the seven cities most impacted by the future infrastructure investment.

City of Downey Economic and Fiscal Impact Analysis

Project Director |
Downey Economic Development Division | Los Angeles Metro, CA, USA
$250,000 | February 2021 - November 2022

City of Glendora Market and Workforce Analysis

Project Director |
City of Glendora | Los Angeles Metro, CA, USA
$175,000 | March 2019 - March 2022

City of Gardena Market and Workforce Analysis

Project Director |
City of Gardena | Los Angeles Metro, CA, USA
$250,000 | January 2018 - December 2022

City of Richland Hills Market Analysis

Project Director |
City of Richland Hills | Dallas Metro, TX, USA
$150,000 | January 2020 - December 2022

City of Sunset Valley Market Analysis

Project Director |
City of Sunset Valley | Austin Metro, TX, USA
$150,000 | January 2020 - December 2022

Horizon City Market Analysis

Project Director |

GHD Advisory

Yosef Yip

Senior Advisor

Location

Los Angeles, CA

Experience

15 years

Qualifications/Accreditations

- MUP, Urban Design, City College of New York, 2011
- BES, Urban Planning, University of Waterloo, 2010

Key technical skills

- Stakeholder Engagement and Community Partnerships
- Inclusive Public Participation and Equitable Decision-Making, including environmental documentation
- Public Information in Emergency Management

Memberships

- American Planning Association, Former Board Member
- Women's Transportation Seminar, Member
- Young Professionals in Transportation, Former Board Member

Relevant experience summary

Yosef has more than 15 years of experience in stakeholder and community engagement with a background in urban planning. His community building informs his ability to implement strategic outreach plans, foster trust through equity-focused partnerships with Community-Based Organization (CBO) and enhance public understanding of technical projects. Yosef has successfully managed small and large-scale initiatives for projects in all phases, while also working on multimodal projects like San Mateo County Transportation Authority's El Camino Real Complete Streets Corridor Plan. He has worked in a variety of sectors including transportation, energy, mobility, active transportation, emergency response, and more.

Communications and Public Relations

Project Manager
Alameda County Transportation Commission | Alameda, CA | 2024-2025

Yosef was the project manager who led the communications, public relations, and outreach services to support the agency's public affairs team. As an extension to the agency, Yosef managed the scope of work related to project messaging, publications, website maintenance, strategic communications, paid advertising, media placements, media relations, campaign management, event planning and community outreach, translation and interpretation services, video and photography, and Title VI monitoring. Yosef managed contracting, subcontract agreements, project budgets, deliverable production, and vendor coordination.

Community Engagement Lead
Portland/Vancouver Interstate Bridge Replacement Project, CA | 2023 - 2024

Yosef managed the community engagement team and developed the strategic engagement plan leading up to the Draft Environmental Document release. The plan outlined audiences, workback planning, and tactics that focused on engaging equity-priority communities. Introduced team organization, and work processes, and led team-building workshops. As a result, Yosef's leadership catalyzed team confidence, deliverable accountability, and collaboration and integration with the greater program team.

Docusign Envelope ID: F67F254C-147C-4BC9-AFBF-939EA7134271

Community Engagement for Multi-Modal Transportation Projects

Engagement Task Lead
San Mateo County Transportation Authority | San Mateo, CA | 2023-2024 | Confidential

Yosef developed and managed the Stakeholder and Community Engagement Plans for multiple projects, including the U.S. 101 Multimodal Strategy, Regional Transit Connections Plan, and El Camino Real Complete Streets Corridor Plan. As an extension to the client, Yosef established engagement goals, audiences, outreach tactics, and workplans. Input from the public and stakeholders informed throughout the development of the project. More notably, engagement tactics that involved partnerships with Community-Based Organizations applied cultural considerations and language needs. The team also developed a recognizable project brand that reflected the project mission.

Stakeholder Engagement for ESG

ESG Stakeholder Specialist
Various private sector clients | Confidential

Yosef was a key member of an ESG advisory group that evaluated ESG performance and approach to implementing a sustainable business. Yosef conducted ESG-focused surveys for company staff, stakeholders, and board members. Accessibility and simplicity of these surveys were critical in obtaining high response rates. Yosef has worked closely with clients to effectively deliver, communicate, and gather data from their survey respondents. These ESG survey results ultimately fed into a company-wide ESG sustainability vision and action plan.

Community Engagement for Housing Projects

Project Manager
County of Santa Clara | Santa Clara, CA | 2022-2024

Yosef led the stakeholder outreach and engagement plan for County of Santa Clara's Housing Element Update, specifically emphasizing engagement in rural areas, communities with people experiencing low income, farm workers, and transient populations. The goal was to consult with stakeholders on their needs and objectives that will ultimately inform the Housing Element Update. The team developed an outreach strategy to engage with local Community-Based Organizations, solicited feedback through an array of outreach tactics like virtual workshops, newsletters, social media, website development, and targeted outreach methods through partnerships with partner agencies and key community contacts.

Community Engagement for Emergency Management

Logistics Lead
U.S. Army Corps of Engineers | Florida and USVI | 2024

Before hurricane landfall, Yosef deployed to two generator missions: 1) Pensacola, Florida, and 2) St. Croix, US Virgin Islands. In response to the power loss and/or cut-off, the emergency response team received a series of deployment orders for generator missions. Yosef was responsible for coordinating logistics to set up and decommission the Generator Staging Bases (GSB), including inventory preparation, equipment, track generators, Bill of Materials (BOM), communication between the client and subcontractors, and site assessment.

Community Engagement for Recovery and Resiliency Projects

Urban Designer and Outreach Specialist
New York City Mayor's Office | New York, NY

After Hurricane Sandy hit the Northeast coast, Yosef joined the Mayor's Office to research urban design mitigation tools for NYC's "Build It Back" program. For a feasibility study, he collected GIS data concerning impacted properties. He also created infographic material to facilitate discussions for housing recovery options presented at community workshops. The program informed urban design policies with a focus on flood hazard risks and housing typologies.

Public Information Officer
Oregon Wildfire Debris Cleanup Taskforce | State of Oregon

In response to Oregon's 2020 Labor Day wildfires, Yosef served as the public information officer for the fire debris cleanup and recovery taskforce. Yosef collaborated closely with technical and operational staff from the Oregon Department of Transportation, Office of Emergency Management, and Department of Environmental Quality to deliver top priorities for public communications through statewide stakeholder coordination, press releases, video and photography content, talking points, innovative and traditional outreach methods, and in-language material development to increase accessibility to information.

PROFESSIONAL SERVICES MASTER AGREEMENT (ON-CALL PLANNING)

BETWEEN

CITY OF BENICIA AND

Good City Company

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and Good City Company, a California Corporation located at 601 Allerton Street, Suite 110, Redwood City, California 94063, licensed to do business in California, ("CONTRACTOR") relating to Good City Company - Planning Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Current Planning Development Review

B. Long-Range Planning Policy and Strategies

C. Housing Programs and Policies

D. Grant Applications and Management

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

   1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Aaron Aknin

President

aaknin@goodcityco.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between Good City Company, hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

COVER LETTER

April 7, 2025

Suzanne Thorsen, Community Development Director
250 E L Street
Benicia, CA 94510

RE: Proposal for On-Call Planning Services

Dear Ms. Thorsen,

Good City Company (Good City) is pleased to submit this proposal in response to the City of Benicia's RFP #25-063 for On-Call Planning Services. Headquartered in Redwood City, Good City has provided local government consulting services for cities throughout Northern California for decades. Our areas of expertise include housing element updates and implementation, current and long-range planning, economic development, executive management, project management, and management analyst services.

For this contract, we offer professional capabilities in:

- Current Planning Development Review
- Long-Range Planning Policy and Strategies
- Housing Programs and Policies
- Grant Applications and Management

Our team includes former city Planning Directors, Assistant City Manager, economic development leaders, and housing specialists with demonstrated capacity to deliver responsive, high-quality service. With a strong foundation in public sector planning and a proven track record of delivering high-quality, responsive services, we are confident in our ability to support the City of Benicia's goals.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

We have reviewed the City's Professional Services Agreement and confirm our willingness to execute an agreement substantially similar to the form included in the RFP. We do not request any modifications at this time.

We look forward to the opportunity to work with the City of Benicia. Please contact me with any questions at (650) 333-0248 or lcostasanders@goodcityco.com .

Sincerely,

Lisa Costa Sanders, Principal and Co-Owner
Good City Company

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

GOOD CITY COMPANY PROFILE

Firm Size: 25 professionals with specialized experience in planning, housing, economic and community development across California.

Organizational Structure: Good City is a California corporation co-owned by Aaron Aknin and Lisa Costa Sanders, who actively lead projects as Principals and Strategic Advisors. Planning Directors, Principal Planners, and Senior Planners manage complex long-range and current planning projects, while Associate and Assistant Planners provide technical support and staff augmentation services.

Financial Stability: Good City maintains strong financial health and has successfully fulfilled contractual obligations for multiple cities. The firm has consistently demonstrated its fiscal stability, making it a reliable partner for multi-phase and ongoing municipal assignments.

Capacity: Good City is fully staffed and well-positioned to support the City of Benicia's needs. Team members can be deployed immediately, and assignments are coordinated based on availability and project timing. As a dynamic and growing firm, Good City also has the ability to scale quickly and attract top-tier planning talent to meet project demands.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

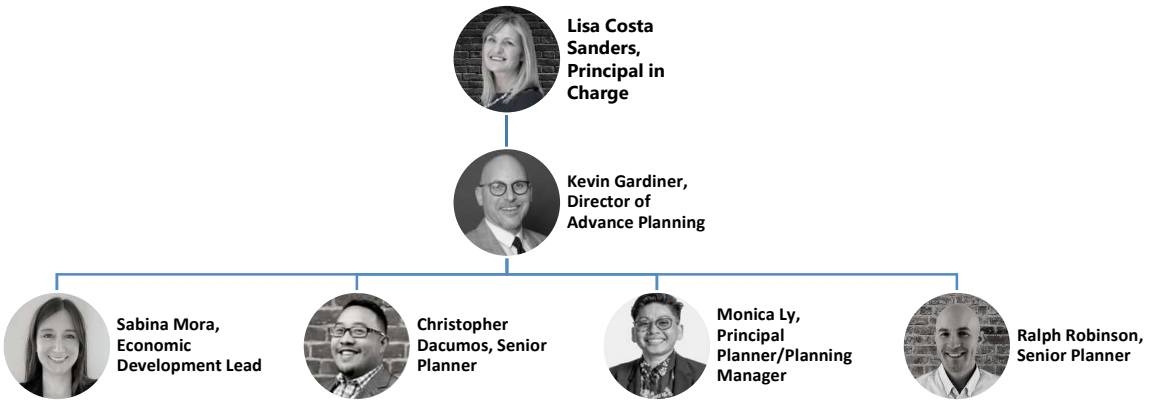
1. PROJECT ORGANIZATION

1.1. Name of Subcontractors

Good City does not propose any subcontractors at this time. If subcontractors are engaged in the future, the City will be notified in accordance with the agreement terms.

1.2. Project Organization Chart

Key team members and roles are described below, and full resumes are included in Section 4. The team will be supported by Senior Planners, Assistant/Associate Planners, and subconsultants as needed.



Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

1.3. Description of Responsibilities

Principal in Charge

Lisa Costa Sanders – Principal

» Serves as Principal in Charge, providing senior oversight, quality control, and client coordination across all task areas. Lisa brings over 30 years of experience in both current and long-range planning for California municipalities. She will serve as Principal in Charge, ensuring consistent quality, responsiveness, and alignment with City goals. Lisa has led multiple comprehensive planning efforts and has deep knowledge of CEQA, zoning codes, and local regulatory environments.

Current Planning Development Review (4.2)

Monica Ly – Principal Planner/Planning Manager

» Brings over a decade of experience in planning and housing across multiple Bay Area cities. Led planning and code enforcement divisions, managed complex commercial and housing developments, authored staff reports, oversaw public meetings, and ensured CEQA and municipal code compliance. Her work included preparing zoning ordinance amendments, coordinating subdivision maps, issuing completeness and decision letters, and managing compliance with conditions of approval through plan review and inspection coordination.

Ralph Robinson – Senior Planner

» Ralph Robinson has over 25 years of planning experience, including General Plan updates, zoning code amendments, and housing element implementation. He has worked with cities across California on long-range planning efforts, prepared CEQA documentation, and led public engagement processes. Ralph brings a deep understanding of land use policy, spatial analysis, and coordination with State agencies for plan adoption and compliance. Ralph supports plan writing, demographic research, and State policy alignment. His work includes preparing housing-related planning documents and spatial analyses for long-range studies.

Christopher Dacumos – Senior Planner

» Chris has supported planning departments in cities such as San Leandro, East Palo Alto, and San Carlos. He brings hands-on experience processing discretionary permits, preparing staff reports, and reviewing architectural and site plans. His recent work includes zoning compliance reviews, CEQA technical

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

support, and coordination with building and engineering divisions on entitlement and construction-phase implementation. He regularly interacts with the public and applicants, providing project updates and guidance throughout the review process.

Long-Range Planning Policy and Strategies (4.3)

Kevin Gardiner – Director of Advance Planning

» Leads development of long-range planning documents, including General Plans and Specific Plans. Experienced in visual/spatial analyses, zoning code development, Municipal Service Reviews, and LAFCo coordination. Kevin brings a strong background in managing citywide policy initiatives, community engagement, and regional planning efforts.

Housing Programs and Policies (4.7)

Monica Ly – Principal Planner/Planning Manager

» Has developed and managed housing programs. She created and implemented affordable housing programs such as the Early Relocation Assistance Program (ERAP) and the Emergency Rent Subsidy Program (ERSP) for 74 households facing displacement. She oversaw programs including the Existing Unit Purchase Program, Below Market Rate Program, First-Time Homebuyer Loan Program, and Workforce Housing Program while managing agreements for City-owned properties and multi-family housing developments. She also provided program direction to consultants, assisted in tax increment calculations and budget projections, and represented the City in community outreach efforts such as "Home is Foster City" community engagement and town hall meetings. Implemented PLHA and SB2-funded projects.

Sabina Mora – Economic Development Lead

» Sabina has extensive experience supporting Housing Element implementation, conducting fair housing assessments, and preparing housing-related policy documents. She has worked on housing initiatives for Pacifica, South San Francisco, and San Bruno, and brings strong community engagement skills, particularly with hard-to-reach populations.

Grant Applications and Management (4.8)

Christopher Dacumos – Senior Planner

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

» Supports grant writing, project management, and compliance. Experienced with tracking grant deliverables, coordinating reporting, and maintaining documentation for State and Federal agencies.

Sabina Mora – Economic Development Lead

» Sabina has led grant writing and administration efforts. She specializes in aligning funding opportunities with City goals, preparing narratives, and managing and reporting.

1.4. Team Members by Work Area

Principal in Charge: Lisa Costa Sanders – Principal

Current Planning Development Review:

» Monica Ly – Principal Planner/Planning Manager

» Ralph Robinson – Senior Planner

» Christopher Dacumos – Senior Planner

Long-Range Planning Policy and Strategies:

» Kevin Gardiner – Director of Advance Planning

Housing Programs and Policies:

» Monica Ly – Principal Planner/Planning Manager

» Sabina Mora – Economic Development Lead

Grant Applications and Management:

» Christopher Dacumos – Senior Planner

» Sabina Mora – Economic Development Lead

2. APPROACH

2.1. Approach to Scope of Work

Good City proposes to provide the following categories of on-call planning services as identified in the RFP:

- **Current Planning Development Review** – Includes entitlement review, completeness and decision letters, staff report preparation, architectural and site plan review, CEQA documentation, zoning analysis, subdivision coordination, conditions of approval, and plan review/inspections. Presentation at public meetings. Services may be provided on a project-by-project basis or through interim staffing.
- **Long-Range Planning Policy and Strategies** – Involves General Plan and Specific Plan updates, zoning code updates, urban design studies, research and analysis for policy development, CEQA review, presentation at public meetings and community outreach, and coordination with regional agencies and LAFCo.
- **Housing Programs and Policies** – Includes assistance with implementing Housing Element programs, BMR program administration, ADU streamlining, SB 9 implementation, compliance with State housing mandates, community outreach, and support with PLHA, SB2, LEAP, and other grant-funded housing initiatives.
- **Grant Applications and Management** – Covers grant research, timeline coordination, application preparation, compliance tracking, documentation, reporting, and financial drawdowns for State and Federal programs including CDBG, HOME, and other funding sources.

Good City Company approaches the scope of work with a flexible, partnership-based model that ensures high-quality results while integrating seamlessly with City staff and workflows. Our approach is rooted in deep public-sector experience, an understanding of Benicia's scale and context, and a commitment to cost-effective, timely, and compliant service delivery.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

For Current Planning assignments, our staff are ready to provide project-specific or contract staffing support to manage entitlement review, correspondence with applicants, CEQA documentation, and post-approval implementation. We ensure completeness and decision letters, staff reports, and conditions of approval are prepared efficiently and to high professional standards. Our planners understand the importance of reliable communication, customer service, and design review to facilitate well-informed approvals.

For Long-Range Planning work, we bring the expertise and structure to initiate, manage, and complete planning efforts such as zoning code updates, General Plan amendments, and special studies. Our team can lead technical research, policy development, and community engagement, helping to navigate evolving State mandates while reflecting Benicia's community character. We also provide expertise in spatial analysis, urban design integration, and documentation preparation.

In Housing, our experience spans both policy and implementation. We assist with program design, process streamlining, ordinance updates (such as for ADUs and SB 9), and funding strategy. Our team has administered PLHA, SB2, CDBG, and HOME-funded programs and supported staff training and compliance tracking. We understand the local and regional pressure to produce housing and help cities align their efforts with State goals.

For Grants, we manage the entire cycle: identifying funding opportunities, coordinating application schedules, preparing narratives and exhibits, and ensuring successful administration. Our approach is proactive and organized, allowing City staff to focus on strategic oversight while we manage documentation, drawdowns, and reporting.

A key strength of our approach is our senior-level involvement in every assignment. With highly experienced planners leading and mentoring each task, we deliver consistent, polished, and timely work products with minimal City oversight required.

Unique Considerations for Benicia: As a full-service firm, we are uniquely positioned to scale our services based on the City's real-time needs—whether as task-based project support or embedded staffing. We also bring proven success working with HCD, ABAG/MTC, and LAFCo-related processes, which may be critical in future long-range planning and housing implementation projects.

Our commitment is to serve as a trusted partner—responsive, ready, and results-oriented.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

2.2. Level of Effort Letter

To align with the City's RFP Vendor Questionnaire and responses to the Q&A, Good City has included a rate sheet, in Section 5 Pricing Proposal and uploaded separately, that contains the team's hourly rates and expected cost of reimbursable expenses.

Good City's approach to project management reflects a practical, flexible, and scalable projection of staff availability based on likely scopes of work. We work under the direction of City staff to determine the level of effort for individual tasks and are committed to maintaining cost-effective, transparent service delivery throughout the course of any assignment.

4. KEY TEAM RESUMES

LISA COSTA SANDERS

Principal, Owner Good City Company

EDUCATION

B.S., City and Regional Planning, California Polytechnic State University San Luis Obispo

MEMBERSHIPS

American Planning Association

PROFESSIONAL EXPERIENCE

Ms. Costa Sanders has been with the firm since 1992. Her experience and specialties include interdepartmental project management, current, and long-range planning, solid waste and recycling management, budget preparation, and economic development and housing program implementation. She also has extensive experience in design review, California Environmental Quality Act (CEQA), Subdivision Map Act and worked on permit streamlining and permit tracking systems. Ms. Costa Sanders manages staff and processes large complex development projects.

Serving as Principal Planner for the City of San Carlos, Ms. Costa Sanders provides staff assistance for larger complex Planning and Economic Development projects. She was the Project Planner for the Wheeler Plaza Development and Landmark Hotel Development. She also assisted with property acquisition for economic development, managed city-owned properties including lease negotiations and managed the City's affordable housing programs. Ms. Costa Sanders also assists with General Plan and Zoning Code updates and amendments.

Ms. Costa Sanders also served as the Acting Assistant City Manager for the City of San Carlos. In that capacity, she prepared the Mayor's State of the City presentation, managed the City's annual Strategic Plan update, reviewed all City

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

Council staff reports and attended several regional meetings on behalf of the City Manager's office.

As Town Planner for the Town of Atherton, Ms. Costa Sanders manages all current and long-range planning and presents projects to the Planning Commission and City Council. Ms. Costa Sanders also prepares ordinance amendments, General Plan updates and amendments, works on annexations and subdivisions.

Ms. Costa Sanders is currently assisting the City of South San Francisco with its comprehensive General Plan update, preparation of the Environmental Impact Report and Zoning Code Update.

As Contract Principal Planner for the City of Redwood City, Ms. Costa Sanders managed larger complex development applications including the Harbor View Place development, Rocketship Charter School, multi-family development at 150 El Camino Real, mixed-use development at 557 E. Bayshore and 610 Walnut Street, Sandpiper School expansion and the City's new water tank project.

Previously as the Acting Planning Manager for the City of San Bruno, she was the project planner for the Tanforan Remodel Project, Crossing 350-unit housing development, Pacific Bay Vistas, 308 unit multi-family development, Merimont 70 new home development, Skycrest 24 new home development, and Cedar Mills 14 new home development. She also assisted the Public Services Director with preparing reports to the City Council, managing sustainability projects, managing grant programs and served as the Assistant Project Manager for the San Bruno Grade Separation project.

PROJECT EXPERIENCE HIGHLIGHTS

- Tanforan Shopping Center Redevelopment Project Manager, San Bruno, CA
- Lindenville Specific Plan Project Manager, South San Francisco, CA
- San Carlos East Side Innovation District Plan Strategic Advisor, San Carlos, CA

MEMBERSHIPS

American Institute of Certified Planners

American Planning Association

Congress for the New Urbanism

Urban Land Institute

PROFESSIONAL EXPERIENCE

Kevin Gardiner, AICP, has a background in planning and architecture, with nearly three decades of experience in both public service and private consulting. He is involved in all aspects of planning, with a specialization in long-range plans and urban design. He understands the complex relationships between planning policy, design, community input and market issues, and can respond with a range of creative approaches to allow informed decision-making.

Kevin is a member of the American Institute of Certified Planners, the American Planning Association, the Congress for the New Urbanism, and the Urban Land Institute. He is a skilled public speaker and regularly speaks at events and conferences on topics related to community planning, zoning regulations, housing, and climate adaptation.

Most recently, Kevin was the Community Development Director for the City of Burlingame. The position included oversight of Planning, Building, Economic Development, and Housing divisions. During his tenure he oversaw the city's first comprehensive update of its General Plan in 50 years, the complete rewrite of the city's zoning code, and the update of its Housing Element. He also managed a new transit-oriented specific plan for an emerging mixed-use neighborhood and led a pilot community engagement initiative focused on housing called "Burlingame Talks Together About Housing." Working with the

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

county flood control and sea level rise district, he also oversaw a sea level rise risk assessment, leading to one of the first examples of zoning regulations focused on sea level rise resilience in the Bay Area.

Prior to coming to Burlingame, Kevin was with a series of planning consulting firms, including his own firm Kevin Gardiner & Associates. His work included downtown plans for the Cities of Burlingame and Napa, as well as Scottsdale, AZ; form-based zoning for the City of Palo Alto; re-use plans for two different high-tech districts in Mountain View, California; a conceptual transit-oriented development plan for Eugene, Oregon; and a comprehensive plan for a small town in Indiana.

PROJECT EXPERIENCE HIGHLIGHTS

- » Burlingame General Plan Update, Project Manager, Burlingame
- » Burlingame Housing Element Update, Project Manager, Burlingame
- » Site Feasibility Studies, Palo Alto
- » South Whisman Precise Plan, Mountain View

MONICA LY

Principal Planner/Planning Manager

EDUCATION

B.A., Sociology, California State University of Fullerton

Dual Master's Degrees in Urban Planning and Public Administration,

PROFESSIONAL EXPERIENCE

Monica Ly has over 20 years of experience spanning government, non-profit, and private sectors, with the past decade focused on planning and housing. Her experience includes supervising a Planning and Code Enforcement Division, managing complex development applications, overseeing current and long-range planning efforts, administering housing programs, and code enforcement.

Most recently, Monica served as the Planning Manager for the City of Foster City. Monica led the Planning and Code Enforcement Division, supervising staff and guiding planners and the code enforcement officer on complex projects and code enforcement cases. She managed commercial and residential development applications, ensuring compliance with local, state,

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

University of Southern California

and federal regulations, including CEQA. Monica played a key role in long-range planning efforts such as Housing Element implementation, the development of Single-Family Objective Design Standards and facilitated amendments to Accessory Dwelling Unit (ADU) and SB 9 ordinances to align with state laws.

MEMBERSHIPS

American Planning Association

Previously, as a Senior Planner for the City of San Rafael, Monica reviewed and processed commercial and housing development applications, ensuring compliance with city policies and state regulations, including SB 330, SB 35, AB 168, and SB 9. She prepared and presented staff reports to the City Council, Planning Commission, and other governing bodies, ensuring informed decision-making. Monica compiling data for the General Plan Annual Progress Report and Housing Element Progress Report, presenting findings and submitting them to HCD and OPR. She conducted Zoning Administrator hearings, processed Conditional Use Permits, Environmental and Design Review Permits, and resolved municipal code violations in collaboration with the Code Enforcement Division. Monica developed a Plan of Action to transition the Below Market Rate Rental Housing Program from Marin Housing Authority to city administration. She audited housing program files and improved processes.

Earlier in her career with Foster City, Monica worked as an Associate and Assistant Planner, where she managed planning projects and housing programs. She created and implemented affordable housing programs such as the Early Relocation Assistance Program (ERAP) and the Emergency Rent Subsidy Program (ERSP) for 74 households facing displacement. She oversaw programs including the Existing Unit Purchase Program, Below Market Rate Program, First-Time Homebuyer Loan Program, and Workforce Housing Program while managing agreements for City-owned properties and multi-family housing developments. She also provided program direction to consultants, assisted in tax increment calculations and budget projections, and represented the City in community outreach efforts such as “Home is Foster City” community engagement and town hall meetings.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

PROJECT EXPERIENCE HIGHLIGHTS

- Single-Family Objective Design Standards – Foster City
- Amendments to Sign, ADU and SB 9 Ordinances – Foster City
- SB 2 Planning Grant ($160,000) and PLHA Grant ($643,646) – Foster City
- General Plan and Housing Element Progress Report APR – San Rafael
- Commercial and Housing Development Review – San Rafael
- Subdivisions and Lot Line Adjustments – San Rafael
- Housing Element Implementation – Foster City

RALPH ROBINSON, AICP

Senior Planner

PROFESSIONAL EXPERIENCE

Ralph Robinson joined Good City in 2021. As Senior Planner, he works extensively with local communities on current development proposals—from initial conception through City review, CEQA compliance, and final public hearing. His current planning experience includes single-family and small multi-family projects, affordable and marketing rate housing developments of several hundred units, big box and small-scale retail, and one million square foot plus life science laboratory and office buildings. He has written and taken Zoning Code, General Plan and Housing Element updates from initial conception through public hearing and adoption to address conformance with changes to state law. Between his regular project work, Ralph also serves as an additional resource for assistant and associate level planners with our client cities and as a point of contact for the public. He has experience in San Bruno, Burlingame, San Mateo, San Carlos, Burlingame, Alameda, Portola Valley and Atherton.

Ralph received his master's in urban planning at San Jose State University, where he was recognized with an APA (American

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

Planning Association) Outstanding Planning Student Award. He achieved American Insititute of Certified Planners (AICP) certification in 2024.

PROJECT EXPERIENCE HIGHLIGHTS

- Tanforan Redevelopment Project, San Bruno, CA
- Guadalupe Quarry Redevelopment Project, Brisbane, CA
- Sierra Point Towers and Sierra Point Hotel & Life Science Development, Brisbane, CA
- 1200-1340 Bayshore Highway, 12-acre Office + Life Science Redevelopment, Burlingame, CA
- SB 9 Zoning Code Amendments, Atherton, Alameda and San Carlos, CA
- Objective Design Standard Zoning Code Amendments, San Carlos, CA
- Single and Multi-Family Entitlements, Subdivisions, Annexations, Zoning Code and General Plan Amendments
- Housing Element Update, Atherton, CA

CHRISTOPHER DACUMOS

Senior Planner

PROFESSIONAL EXPERIENCE

Chris Dacumos has 15 years of experience working for federal, county, special district, and city agencies. His areas of focus are current- and long-range planning, budgeting, revenue generation, project management and grant management.

Chris provides senior planner services for the City of San Carlos and City of East Palo Alto, management analyst services for the Town of Portola Valley, project management for the City of San Leandro, and is assisting with the development of a Specific Plan for the City of Belmont. With the City of San Carlos, Chris reviewed and processed plans for single family homes, planned development amendment requests, a master plan, life science projects and a hotel. In the City of East Palo Alto, Chris is working closely with staff and the City's Specific Plan consultant to review and oversee development projects and their environmental

review, while the City simultaneously goes through a Specific Plan update process to revise development standards.

Chris's past experience includes working as a Congressional Aide and as an analyst or planner for the San Mateo County Transit District, Peninsula Corridor Join Powers Board (Caltrain), Transportation Authority, Town of Hillsborough, and City of Redwood City. Chris was born in Vallejo, California and, while at Princet University, was a Public Policy Fellow and was nominated by the United States Department of State for a Fulbright Scholarship.

PROJECT EXPERIENCE HIGHLIGHTS

» 330,000 sf, six-story life science project
188-room hotel development
70-unit school district workforce housing development
1.2 million square feet (sf) of office project
Mixed-use development consisting of 800,000 of office, life-science, research development, and 95 units of housing
52-acre development including open space, parks, office, research and development, and housing

SABINA MORA, CEcD

Economic Development Lead

PROFESSIONAL EXPERIENCE

Sabina Mora has 15+ years of experience working for state, regional, and municipal agencies in communities across New York, Texas, and California, with the last six years in the Bay Area. Her areas of focus are community and economic development and long-range planning with expertise in housing policy development and implementation, downtown and commercial corridor revitalization, and civic engagement. She brings innovative approaches to each project, prioritizing community concerns, promoting collaboration, and fostering the type of placemaking that supports quality of life of local businesses and residents.

EDUCATION

B.A., History, University of Texas

5. PRICING PROPOSAL

To align with the City's RFP Vendor Questionnaire and responses to the Q&A, Good City has included a rate sheet and uploaded it separately.

This includes all basic services, reimbursable expenses, overtime, and travel costs. Good City can provide staff both remotely and at City facilities to meet project needs and preferences for interaction, collaboration, or public engagement.

The following billing rates are reflective of each team member's classification and are based on Good City's current professional fee structure.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

Billing Rates

Good City prides itself on being a cost-effective solution for public sector agencies. Staff retains detailed timesheets and works efficiently to ensure the client is getting the best value for the services.

TITLE	2025 Hourly Rate
» **Principal/Partner**	$270
» **Planning Director**	$240
» **Economic Development Director**	$240
» **Principal Planner/Planning Manager**	$205
» **Public Policy Lead**	$195
» **Economic Development Lead**	$195
» **Senior Planner/Project Manager**	$176
» **Senior Economic Development Planner**	$176
» **Housing Services Consultant**	$176
» **Associate Planner**	$150
» **Economic Development Associate**	$150
» **Assistant Planner**	$135
» **Planning Technician**	$105
» **Marketing Specialist/Graphic Designer**	$105
» **Administrative Specialist**	$95

Billing rates subject to annual cost of living increase.

Overtime = 1 ½ billing rate.

Travel = ½ billing rate and includes mileage reimbursement.

Subconsultant Contracts Direct Billing + 10% oversight fee.

6. PRIOR LITIGATION/CLAIMS

6.1. Litigation

Good City has not had any litigation or claims filed against or by the firm in the past five years.

6.2. Failed Project Completions

Good City has successfully completed all contracts awarded in the past five years. No projects have been terminated or left incomplete.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

7. FINANCIAL AND RELATED INFORMATION

7.1. Financial Statements

Good City confirms its financial qualifications and can provide reviewed financial statements for the past three fiscal years upon request.

7.2. Insurance Broker Letter

Good City has reviewed the City's insurance requirements as described in section 10.2 of the RFP. We confirm our coverages meet the City's requirements and confirm can provide a letter from our insurance brokers verifying coverage upon request.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

8. SUPPLEMENTAL MATERIALS

The following materials are examples of projects managed by Good City Company that highlight our substantive experience in current- and advanced-planning, housing programs and policies, and project management.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

SHOREWAY OFFICE PARK - BELMONT

Good City Company is the project manager for the City of Belmont's review and entitlement of the Shoreway Office Park, located at 1301 Shoreway Road. The project proposes two office buildings (7 and 8 stories), totaling 542,035 square feet, and a nine-level detached parking structure on a 6.9-acre site.

The scope of work includes planning and zoning compliance review, coordinating interdepartmental review, vetting project comments, managing environmental review and architectural review subconsultants, and resolving issues with the project throughout the review process. The project will rely on a Planned Development Permit to allow for site specific standards which would exceed the current zoning. These standards include height limits and parking standards.

The project requires multiple agency approvals. The project site is also located along Belmont Creek and requires review and approval of the project within the San Francisco Bay Conservation & Development Commission (BCDC) jurisdiction. It also requires land use and height approval from the City/County Associate of Governments of San Mateo County (C/CAG) due to its proximity to the San Carlos Airport. Good City staff will lead the C/CAG, Planning Commission, and City Council approval process, including preparing and presenting reports, exhibits, resolutions, ordinances, and public hearing presentations.

501 Industrial Road - San Carlos

Good City Company was the project manager for the City of East Palo Alto's review and entitlement of Hotel Indigo, a six-story 188-room hotel consisting of 119,036 in east San Carlos. The project, located at 501 Industrial Road, is at the intersection of Industrial Road and Holly avenue and was designed to be piece of landmark architecture reflecting the intersection as a gateway into the City. The project included design review, a planned development permit, grading and dirt haul permit, and transportation demand management plan.

Good City recommended the preparation of an Environmental Impact Review given issues raised by community members in the area of the history of industrial businesses in the neighborhood. Good City managed the EIR consultant, and assisted in the negotiations for community benefits in which the applicant contributed funding towards City objectives and also made available the conference/banquet room to be available at no cost for a limited number of events identified by the City.

PACIFICA SCHOOL DISTRICT WORKFORCE HOUSING

Good City Company was brought in on the project after the original project planner left the City. Chris served as the project planner and managed the environmental impact report through project entitlement. As project planner, Chris worked as an extension of City staff and coordinated the environmental review with the City's consultant, North County Fire Authority, and City building and engineering departments and supported the Community Development Director during the negotiation of the Development Agreement.

The project applicant was the Pacifica School District (District) and the project involved redevelopment of a closed school site. The project consists of 70-unit workforce housing development, including 20 Below Market Rate (BMR) units, spread out over seven two-story residential buildings, residence commons, a property management office, bike storage, and trash enclosure. Additionally the project included a building provided as a community benefit that supported use of existing fields and sports courts maintained and provided by the District.

SINGLE FAMILY RESIDENTIAL DEVELOPMENT REVIEW

Good City staff assists various jurisdictions in reviewing new single-family residential development including single-family home additions. Our staff is adept at facilitating the development review process including; interdepartmental review; reviewing applications for conformance with zoning regulations and general plan policies; providing design guidance; preparing letters of incompletion; and preparing notices, staff reports, and presentations for discretionary review by Architectural Review Boards, Planning Commissions and City Councils.

Good City Company can also help your jurisdiction optimize and streamline the project review process for both City staff and applicants and ensure compliance with Local and State legislation.

Brisbane Objective Design And Development Standards

Good City Company led the development of Objective Design and Development Standards for multifamily and mixed use areas of the city, establishing a new permit type and review process, and significant revisions to the zoning ordinance to reflect these changes.

Community outreach, education and understanding was a critical component of this initiative, as the standards, code changes, and development review process marked significant changes to what the community and policy makers were familiar with. Two city-wide surveys were conducted, including an initial visual preference survey, and a subsequent objective standards survey.

Multiple workshops and pop up events were also conducted to educate and consult with the community. Good City also produced virtual walking tour video. The objective design and development standards process served as an important mechanism to advance community discussion on a wide variety of zoning reforms in pursuit of vibrant, mixed-use communities.

PEER REVIEWS: URBAN DESIGN AND DESIGN STANDARDS

Good City provides peer review across a wide variety of urban design and design guidelines and standards, specific plans, urban design chapters of general plans, and other professional planning documents developed by local agency staff and external consultants. Our staff leverages extensive experience with the creation of design guidelines and their application in discretionary and objective design review before Architectural Review Boards, Planning Commissions, City Councils, and Zoning Administrator determinations. In-house staff peer reviews have evaluated City of San Carlos Objective Design Standards for Multifamily and Mixed-Use (currently in progress), City of San Mateo Multifamily Objective Development Standards, and Town of Scotts Valley's Design Guidelines for Scotts Valley Town Center.

Good City Company also frequently engages the assistance of subconsultants with extensive expertise in architecture, urban design, landscape, complete streets, etc. Selected subconsultants and partners we have collaborated with in peer review and similar projects include: Plan to Place, Urban Field Studio, and independent contractors Gene Sparling and Larry Cannon. Their expertise includes new construction (including high-rise), renovations, adaptive re-use, historic structures for public and private sector clients.

ONE SHORELINE PLANNING POLICY GUIDANCE

Good City prepared the first-ever Planning Policy Guidance document for OneShoreline. The Guidance Document is a standardized, yet evolving, resource for cities and the County to account for anticipated increases in flooding, sea level rise, and shallow groundwater rise due to climate change in two key areas:

1. Planning documents (general and specific plans, zoning ordinances), and
2. Approvals of new private development projects in areas near the Bay subject to these foreseeable climate impacts.

Good City developed template general plan, specific plan, and zoning amendment text aimed at protecting new developments from the water-related impacts of climate change. GCC also worked with comprehensive group of stakeholders and representatives from San Mateo County Jurisdictions to incorporate specialized local feedback into the document. The project also included creation of model project review procedures and communications between jurisdictions and OneShoreline; and establishing a project review checklist and Conditions of Approval to aid jurisdictions in processing new development proposals.

Good City also conducted GIS analysis to understand land uses most at risk to Sea Level Rise throughout San Mateo County, both holistically and jurisdiction by jurisdiction.

San Carlos Objective Design Standards

Good City Company is leading the development of Objective Design Standards for multifamily and mixed-use development in partnership with Van Meter Williams Pollack (VMWP). The project also includes significant updates to the review procedures for project applications under the new ODS.

The project conducted extensive analysis of existing development standards, including using site-specific test fits to inform the development of new ODS.

Stakeholder engagement with architects and market-rate and affordable housing developers has been an important aspect to ensuring ODS are tailored to ensure high-quality design without unduly limiting the development potential of sites in key areas of the city.

PACIFICA HOUSING ELEMENT

Good City has served as the prime consultant, project manager and technical lead on the update of the City of Pacifica's Housing Element Update.

Key services included:

- Good City completed the sites inventory and analysis, including site identification, suitability assessment, and capacity determination.
- Good City developed detailed recommendations regarding rezoning and land use amendments to meet RHNA and modernize Pacifica's development regulations.
- Developed affordable housing strategies that promote affordable housing development and preserve existing stock, a fair housing plan, AFFH policies and analyzed fair housing issues.
- Coordination with HCD included maintaining communication and responding to multiple rounds of comments.
- Responsible for engagement with City Council and Planning Commission, including developing and leading presentations and answering questions at meetings.
- The Pacifica HE is in compliance with State Housing Law and Good City has recently transitioned to assist Pacifica with implementation of a comprehensive rezoning program as well as other HE implementation activities.

CITY OF SAN BRUNO FAIR HOUSING ASSESSMENT AND ACTION PLAN

Our firm provided technical assistance to the City of San Bruno as part of their Housing Element update. This project involved a comprehensive analysis of housing needs, fair housing issues, contributing factors, and development of strategies to affirmatively further fair housing (AFFH).

Key services included:

- Developing a detailed fair housing analysis that met the rigorous requirements of the California Housing and Community Development Department.
- Geographic analysis of the sites inventory and its relationship to addressing housing disparities.
- Development of a Fair Housing Action Plan to address fair housing issues.
- Authored the fair housing assessment, housing needs assessment, and housing plan of the housing element, in consultation with City staff.
- Good City staff led weekly meetings with City staff. Outcomes included a data-driven housing plan with actionable strategies. This work demonstrates our expertise in conducting complex fair housing analyses and developing housing policy.

OUTREACH AND IMPLEMENTATION FOR SAN MATEO HOUSING ELEMENT

Our firm played a key role in the City of San Mateo's Housing Element update by leading community outreach efforts, with a focus on engaging hard-to-reach populations. We also provided advisory services during the Housing Element update process as well as support on Housing Element implementation.

Key services included:

- Developed and executed a targeted outreach strategy to effectively connect with diverse and historically underrepresented communities.
- Culturally sensitive outreach materials were created in multiple languages to maximize accessibility and comprehension.
- Met biweekly with the Housing Element team over 28 months to provide ongoing advisory services.
- Supported the City on Housing Element implementation items, including adopting multifamily and mixed-use ODS, and analysis of potential revisions to their inclusionary housing policies.
- This consistent engagement allowed us to provide expertise and support throughout the complex Housing Element process.

South San Francisco Housing Element

Our firm provided comprehensive planning services to the City of South San Francisco for their Housing Element update. This involved close collaboration with city staff over 18 months, with weekly meetings to ensure consistent progress and communication, to deliver a compliant and forward-thinking plan.

Key services included:

- Collaborated with staff on the development of the Housing Element, including authoring the introduction, housing needs, and fair housing chapters, and crafting effective policies and programs.
- Assisted with the development of a detailed sites inventory to meet Regional Housing Needs Allocation (RHNA) requirements, including analysis to ensure the inventory affirmatively furthers fair housing.
- Completed a detailed Fair Housing Assessment and Action Plan, meeting California Housing and Community Development Department standards.

BURLINGAME SB 9 DEVELOPMENT STANDARDS

While serving as Community Development Director, Kevin Gardiner prepared development standards to comply with California Senate Bill (SB) 9. Known as the Two-Unit Residential Overlay (R-1-2), the regulations were among the first to be adopted by a jurisdiction in California.

The R-1-2 standards are patterned on the R-1 single unit dwelling standards, which have proven to be effective in shaping new development to fit within the context of existing neighborhoods. The R-1-2 standards allow the same lot coverage, floor area ratio and building height as a single-unit dwelling, but with the allowance that the development may include between two to four units. On a 5,000 square foot infill lot, the standards allow two 1,350 square foot units or four 675 square foot units. By basing the R-1-2 Two-Unit Residential objective standards on those for the R-1 Single-Unit Residential standards, new two- to four-unit developments will be compatible with neighboring homes.

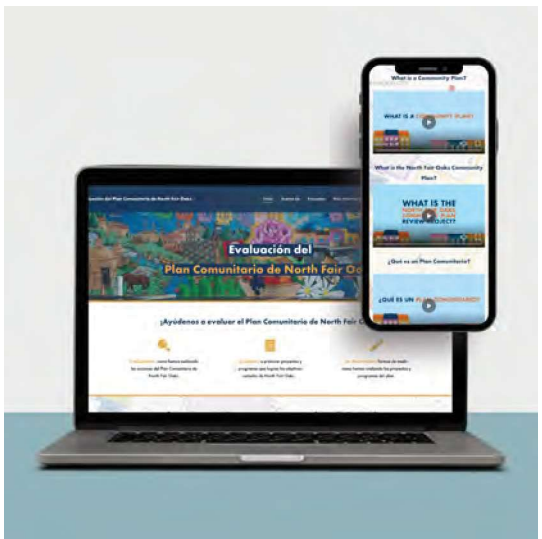
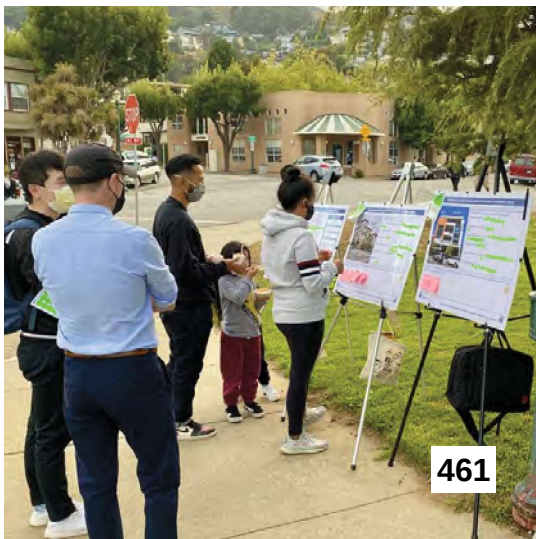
STATEMENT OF QUALIFICATIONS





Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

OUR BACKGROUND

Good City Company is a local government and land use consulting firm headquartered in Downtown Redwood City. Initially founded in 1972 as Neal Martin & Associates, the company was re- established in 2019 as Good City Company (Good City). The company is a California Corporation owned and operated by Lisa Costa Sanders and Aaron Aknin, AICP.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

WHAT WE DO

Good City has a long track record of serving public sector clients. Our Northern California based history uniquely positions the company to provide technical services tailored to the local area. Our key services include local government staffing, current planning, policy planning, economic development, and city manager's office services as detailed below:

Planning

- **Policy Planning and Implementation:** Creation and facilitation of policy planning documents such as General Plans, Specific Plans, Master Plans, Downtown/Transit Corridor Plans, Objective Design and Development Standards, and Zoning Codes. Program implementation, application, and tracking of policy planning documents.
- **Major Projects:** Complex project review and project management including major corporate campuses, office/life science projects, large mixed-use and multi-family developments, residential developments, large and small in-fill single-family subdivisions, and commercial shopping mall redevelopment. CEQA consultant management of Environmental Impact Reports, Mitigated Negative Declarations, and Negative Declarations.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

- **In-House Staffing:** Development application project management, including application completeness review, design review, interdepartmental coordination, CEQA coordination, and all components of approval hearings, including staff reports and presentations. Planning, City Manager's Office, Economic Development, Housing, Building Official and front counter staffing (short and long-term staffing available).
- **Community Engagement/Outreach:** Facilitate community meetings, workshops, charettes, and open houses.

Housing

- **Housing Element Updates:** Prepare Housing Element updates, including conducting comprehensive community consultation and analyzing fair housing issues, housing needs, and constraints. Developing housing plans, identifying and substantiating housing opportunity sites, formulating goals, policies, and programs, and creating fair housing plans.
- **Housing Element Program Implementation:** Translate policies to actions by supporting cities with analysis, zoning code amendments and other policy development to implement programs, including fair housing programs.
- **Affordable Housing Strategy:** Assist cities in developing strategies to produce more housing for all income levels, including affordable housing plans and strategies.
- **State Law Guidance and Implementation:** Review policy documents and local regulations for state law consistency and assess needed amendments.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

Economic Development

- **Economic Development Strategy Plans:** Preparation of downtown and neighborhood economic development plans, economic revitalization strategies, research and analysis of economic development and revenue- generating opportunities.
- **Economic Development Project Management and Implementation:**
  - Advise clients on economic development initiatives and program implementation;
  - Project management for economic development programs, including small business assistance and advocacy, small business training and outreach, and business recruitment, and expansion programs;
  - Identification of timeframes and staffing resources required for program implementation;
  - Identification of sources of capital and incentives for small businesses (grant opportunities, loans, tax credits, etc.).
  - Advise clients on best practices in equitable economic development strategies and approaches that address equity, sustainability, and environmental justice.
  - Program implementation for placemaking and developing community amenities (I.e. public art programs, community events, safety ambassador programs, community gardens, etc.).

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

City Manager/Executive Office Services

- **Special Projects Lead:** Lead and manage projects for City/ County Manager's Offices, parks departments, transportation agencies, and other public sector entities.
- **Priority Setting:** Facilitate goal- and priority-setting processes and retreats.
- **Organizational Assessments:** Review and make recommendations related to optimizing development and project review processes consistent with State law and best practices.
- **RFP Facilitation:** Prepare Requests for Proposals and manage interview, consultant selection, and contracting process.
- **Fee Study Management Services:** Prepare solicitations for fee preparations, calculate certain fees, and draft staff reports and resolutions to assist the City in its cost-recovery efforts.
- **Social Media and Communication:** Prepare informational videos, graphics, and marketing materials and develop campaign strategies for public agencies.

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

OUR EXPERIENCE

Good City has extensive experience in successfully guiding policy and development projects in Northern California. Working with jurisdictions, Good City has provided the professional direction to assure that projects are completed successfully in a streamlined fashion with careful attention to both local and State requirements.

OUR TEAM

AARON AKNIN, AICP

Principal, Owner Good City Company

PROFESSIONAL EXPERIENCE

Aaron is a Partner at Good City, where he helps lead the day-to-day operations and client relations for the company. Since joining Good City, he has served as Principal for projects and policy documents in numerous local government agencies. Aaron has more than two decades of Bay Area municipal experience, including serving in an executive capacity in several cities. Aaron has frequently spoken at regional events, as well as served on panels at national conferences on topics related to development, downtown planning, transportation, parking, affordable housing, and related issues.

Aaron most recent municipal position was with the City of Redwood City, where he served as the Assistant City Manager and Community Development Director. In this capacity, he oversaw a 70+ member department, which included the Planning, Housing, Engineering, Transportation, Front Counter Services, and Code Enforcement divisions. As the Assistant City Manager, he led key Citywide initiatives, Economic Development and also served as Interim City Manager. Aaron was in Redwood City during a time of unprecedented growth and community involvement (2014-2019). During his half-decade with the City, the City reviewed and processed over 4,000 new housing units, as well as several million square feet of office space. In addition, Aaron oversaw the implementation and amendments to the Redwood City Downtown Precise Plan. Aaron helped shape a first of its kind community benefits program ("Partnership Redwood City"), adoption of several key affordable housing initiatives including an inclusionary housing ordinance, an Airbnb affordable housing tax and renter protections, and the adoption the Citywide Transportation Plan.

Prior to coming to Redwood City, Aaron was with the City of Palo Alto in 2012-2014. He served as both the Assistant and Interim Director of Planning and Community Environment Department. In this capacity, he led the Planning and Transportation Divisions within the City. Key projects included the formation of the first Downtown Residential Permit Program (RPP), leading the downtown development cap process, providing direction related to the Comprehensive Plan (General Plan), being the Planning Commission liaison, and overseeing several Stanford related developments. During his time in Palo Alto, Aaron focused much of his efforts on transparency by increasing the amount of available (and understandable) public information and building a connection within the community.

Aaron "grew up" as a local government professional in the City of San Bruno. He began his career in San Bruno in 2002 as an Assistant Planner, and left in

2012, after spending the last 5 years as the Community Development Director. As Community Development Director, he was in charge of the Planning, Building, and the Code Enforcement divisions, and staffed the Planning Commission.

During his time in San Bruno, the Shops at Tanforan mall was renovated for the first time in generations, and over 1,500 residential units were constructed citywide. This included over 1,000 units at "The Crossing" (former Navy Base) which included 315 affordable units. During Aaron's tenure as Director, the first General Plan in 25 years was adopted, and the draft Transit Corridor Plan was released. Most importantly, Aaron served as the Plan Section Chief during the PG&E Pipeline Explosion and worked closely with property owners during the immediate aftermath and in the months and years following the disaster.

OUR TEAM

DAVID BAFUMI

Assistant Planner, AICP Candidate

EDUCATION

B.A, International Studies, Arcadia University

B.S., Urban Planning, Arizona State University

PROFESSIONAL EXPERIENCE

David Bafumi joined Good City in June 2024. As an Assistant Planner, he primarily works on current planning projects in the City of San Carlos.

David has previous experience in current planning as an intern for the City of Orinda. In addition to this experience, David was an intern for Fehr & Peers, as his team conducted a transportation study to support the design of a new shuttle program at Big Basin Redwoods State Park. He was also a Residential Planting Coordinator for Our City Forest in San Jose and worked for over 5 years as a teacher and soccer coach in Connecticut.

In May 2024, David passed the AICP exam, earning him the AICP Candidate designation. David is a few credits away from earning a Master of Urban Planning (MUP) from San Jose State University (SJSU). At SJSU, he has focused on Community Design and Development and Applications of Technology in Planning. David previously earned a Bachelor of Science in Urban Planning from Arizona State University and a Bachelor of Arts in International Studies from Arcadia University.

JAMIE BOURNE

Associate Planner

EDUCATION

B.A, Environmental Analysis and Design, Urban and Regional Planning Minor, University of California, Irvine

MEMBERSHIPS

American Planning Association

PROFESSIONAL EXPERIENCE

Jamie is an urban planning professional with over ten years combined experience in Current Planning, Watershed Management, Construction site Best Management Practice compliance, and Affordable Housing programming. She has been with Good City Company since 2022 and provided contract planning services to the City of San Carlos, Belmont, Portola Valley, and San Leandro.

Currently, Jamie manages development projects throughout the entitlement process in Portola Valley. As such her duties include counter service, design review and Zoning conformance review, and preparing and presenting staff reports before various design review boards. Jamie serves as a deputy project manager in the City of San Leandro for a Cost Allocation Plan, User Fee Study, and Development Impact Fee Study. She is also involved with policy research and community outreach for the Harbor Industrial Area Specific Plan in the City of Belmont.

During college, Jamie interned for the California Coastal Commission Enforcement Division, City of Westminster, and Comprehensive Housing Services specializing in affordable housing services throughout Southern California.

After college, Jamie provided counter service for the Building and Planning department in the City of Newport Beach. Shortly after, she began in the Watershed Management division at Fuscoe Engineering in Irvine, CA. At Fuscoe, she prepared Storm Water Pollution Prevention Plans, Water Quality Management Plans, and complex environmental reports. Jamie also served as the lead consultant and assisted with the development of the City of Yorba Linda's stormwater management program.

Jamie also previously owned Bourne 2 Organize, a professional residential organizing company that specialized in move management, downsizing, and general residential organizing services.

PROJECT EXPERIENCE HIGHLIGHTS

- Current planning services throughout various jurisdictions within CA
- Project Management for Cost Allocation Plan, User Fee Study, and Development Impact Fee Study, San Leandro, CA
- Belmont Harbor Area Industrial Area Specific Plan, Belmont, CA
- Stormwater Management Program Development & Implementation, City of Yorba Linda

SANDY COUNCIL

Housing Services Consultant

EDUCATION

B.S. Housing, Oregon State University

PROFESSIONAL EXPERIENCE

Sandy Council has 35+ years of experience in program design, implementation, and administration of a wide range of housing and community development programs. This work has involved extensive collaboration with city councils and commissions, all municipal departments, legal counsel, consultants, developers and builders, and community based and neighborhood organizations. She has served on numerous committees and task forces and is a current board member of The Leslie Senior Communities, a provider of affordable senior housing in San Mateo County.

She has worked closely with both nonprofit and market rate housing developers supporting the acquisition, rehab and construction of new affordable housing units, including drafting RFPs, selecting developer teams, negotiating of agreements, pricing of affordable units, and ongoing monitoring of rental and ownership units, especially in conjunction with local inclusionary and state density bonus legal requirements.

She is proficient in working with a number of municipal finance tools: administering federal Community Development Block Grant and Home programs, former redevelopment housing funds, local trust funds, and partnering with developers to obtain other local funds, Low Income Housing Tax Credits, and multiple State of California financing programs.

She also has considerable experience with housing policy development, assisting with the preparation of several Housing Elements, and assisting with implementation of housing related legislation.

Recent work has included assisting cities of Burlingame, Belmont, San Leandro, and Menlo Park with housing related program support.

PROJECT EXPERIENCE HIGHLIGHTS

- City of San Mateo Affordable Housing Programs Manager, San Mateo, CA
- Pacifica Housing Element, Housing Section Team Advisor, Pacifica, CA
- Kiku Crossing Affordable Housing, development by Mid Pen Housing, Co- Project Manager for City, San Mateo, CA
- Montara Affordable Housing, development by Bridge Housing, Project Manager for City, San Mateo, CA

OUR TEAM

PAUL CHYTLA-HINZE

Assistant Planner

PROFESSIONAL EXPERIENCE

Paul Chytla-Hinze is an Assistant Planner helping with current planning projects. Paul earned his Bachelor of Science degree in City and Regional Planning from California Polytechnic University where he focused on issues related to housing affordability and healthy communities.

Until joining Good City Company, Paul worked for the City of San Bruno focused on current planning where he took projects before the Architectural Review Committee (ARC) and Planning Commission, reviewed business license applications, conducted plan review for building permits, reviewed sign permits, and supported the development of objective design standards for San Bruno's transit corridors.

Paul's academic experience includes conducting research on regional innovation in Redwood City and the Peninsula to address the shortage of moderate-income housing; and using interactive community engagement techniques to develop a new health element of the general plan for Santa Fe Springs, California.

PROJECT EXPERIENCE HIGHLIGHTS

- Senior project on regional housing innovation and addressing moderate-income housing affordability
- Community engagement for Santa Fe Springs Health Element
- Research and drafting of objective design standards for San Bruno's transit corridors*

STEPHANIE DAVIS, AICP

Principal Planner / Planning Manager

EDUCATION

B.S., Geography/Land Use, Oregon State University

MEMBERSHIPS

American Institute of Certified Planners

American Planning Association

PROFESSIONAL EXPERIENCE

Stephanie Davis has 25+ years of extensive project management experience. Her planning portfolio includes project management of high-level, multi-faceted commercial, multi-family, industrial, mixed-use and single-family residential development applications, wireless telecommunications, residential annexations, due diligence site analysis, Municipal Code Ordinances – both updates and new ordinances, Housing Element and General Plan updates, and other long-range planning studies.

Stephanie also has extensive experience with the California Environmental Quality Act (CEQA) from exemptions to Negative and Mitigated Declarations to Environmental Impact Reports. Her experience includes preparation, compliance, implementation, coordination, and management of outside environmental consultants and their technical sub-consultants.

She served as lead staff planner in the comprehensive preparation of General Plan, Climate Action Plan and Zoning Ordinance updates for several cities which involved extensive community outreach, active research, and plan preparation efforts in the development of policy direction, as well as coordination and management of third-party consultants.

Stephanie's breadth of experience carries over into the field of housing with direct work including the administration and implementation of housing programs, affordable housing and first-time homebuyer loan programs, Housing Element preparation, and a comprehensive update of an inclusionary housing Ordinance.

She is experienced in preparing comprehensive reports, planning studies, and presentation of materials to decision-making boards, commissions, and community members.

Stephanie has served as a Principal Planner for the Towns of Atherton, Portola Valley, and City of San Carlos. She has provided specific project management for the City of Belmont, City of Millbrae, City of Menlo, County of San Mateo, City of Sunnyvale and Town of Woodside. As a Principal Planner, she has actively provided supervisory guidance and technical assistance to staff, served as the staff liaison to Planning Commissions, City Councils, and other appointed community committees and commissions, prepared process manuals and protocols for both internal staff and the public, and directly assisted in the preparation of annual Department work programs and fee study analysis.

GOOD CITY COMPANY

Docusign Envelope ID: AA2D38E6-A10D-4194-AA86-5CA567C7B96E

For private clients, she has prepared due diligence site analyses and technical assistance in both the preparation of materials, and navigation of, development process through other jurisdictions. She is skilled in Geographical Information Systems (GIS), electronic mapping, and quantitative analysis.

PROJECT EXPERIENCE HIGHLIGHTS

- Proposed Stanford Campus Conceptual Development Plan and Development Agreement, City of Belmont
- Transit Village, City of San Carlos
- Historical Preservation Ordinance, Town of Atherton
- Comprehensive General Plan and Zoning Ordinance Updates, City of San Carlos
- Below Market Rate Housing Ordinance, City of San Carlos
  Climate Action Plan, Town of Atherton
- Proposed Portola Terrace Housing Development, Town of Portola Valley

OUR TEAM

BRANDON H. DELUCAS

Senior Planner

EDUCATION

Masters of Public Administration, San Francisco State University

Bachelors in Geographic Science and Community Planning, Northern Arizona University

PROFESSIONAL EXPERIENCE

Brandon H DeLucas is a Senior Planner for Good City Company, bringing over six years of dedicated experience in land use planning, Geographic Information Systems (GIS), and program implementation. He has worked professionally in several San Francisco Bay Area and Arizona cities.

Brandon is skilled at managing diverse stakeholders, building partnerships, and developing solutions for complex problems. His current planning experience includes overseeing various development projects, from new single-family homes to large commercial/industrial developments. Brandon has played a supportive role in reviewing large multi-family developments and has led Comprehensive zoning text amendments. These amendments aimed to reformat chapters for ease of use, update standards, and streamline planning review processes.

With a master's degree in public administration and a background in data collection, analysis, and research, Brandon has spearheaded process and system improvements, developed small business assistance programs, and trained new staff.

In his recent role with the City of Union City, Brandon has successfully reformatted and updated the City's Industrial Districts Chapter to establish new performance and design standards. He managed a city-wide GIS system migration and implementation and was crucial in creating objective design standards for single-family projects, including accessory dwelling units (ADUs) and SB9.

PROJECT EXPERIENCE HIGHLIGHTS

- Industrial Districts Chapter Update, Union City, CA
- City-wide GIS System migration and implementation, Union City, CA
- Zoning and General Plan Map Amendments, Union City, CA
- Single-family, ADU and SB (9) Design and Development Standards, Union City, CA
- La Terra Fina Expansion, Union City, CA
- COVID-19 Temporary Outdoor Operations Program, Union City CA
- Mobile Store Ordinance, Colma CA

MATT FLYNN

Project Manager

PROFESSIONAL EXPERIENCE

Matt Flynn joined Good City in January 2025. As a Senior Planner, he primarily works on advance planning projects.

Matt has previous experience as a project manager for a range of advance planning projects. These include downtown plans for Burlingame, California and Scottsdale, Arizona; design guidelines for a historic district in Tempe, Arizona; and a comprehensive plan for Logansport, Indiana. In addition to this experience, Matt has worked for numerous years as a Project Manager on Real Estate Projects.

For his undergraduate studies Matt Studied Interior Design at Ball State University in Indiana. He also holds a Land Use and Environmental Planner Certificate from UC Davis, an Urban Design Certificate from "The City" Program at Simon Frazer University in Vancouver, BC and a Business Certificate from City College in San Francisco.

EDUCATION

Land Use and Environmental Planner Certificate, University of California at Davis, Davis CA

Urban Design Certificate, "The City" Program at Simon Frazer University, Vancouver, BC

Interior Design, Ball State University, Muncie, IN

JACOB GARCIA

Senior Planner

EDUCATION

B.S., Environmental Science, Technology and Policy, California State University, Monterey Bay

Masters in Urban Planning with a certificate in Real Estate Development, San Jose State University

MEMBERSHIPS

American Planning Association (APA)

PROFESSIONAL EXPERIENCE

Jacob Garcia is a Senior Planner with a background in land use planning, natural resource planning, and Geographic Information Systems (GIS). He has been with Good City Company since 2019 and provides contract planning services to the City of San Carlos, City of Pacifica, City of Belmont and the Town of Portola Valley.

Jacob currently manages development projects throughout the entitlement process. As such his duties include current planning assistance, design review and Zoning conformance review, and preparing and presenting staff reports before various design review boards, planning commissions and city councils. He assists jurisdictions with zoning amendments and policy research and implementation. He takes pride in providing excellent customer service and serving as a liaison to community groups and residents on behalf of cities and their various committees.

Jacob also has experience supporting the management of sustainability programs, staffing cities' environmental committees, and facilitating wet weather construction site inspections and annual stormwater reporting. Before joining Good City, Jacob worked for multiple public and private land management agencies providing natural resource and conservation planning services such as public outreach, data collection, data analysis, and research.

PROJECT EXPERIENCE HIGHLIGHTS

- Stanford University, Belmont Campus, Conceptual Development Plan (CDP), Belmont, CA
- Willow Commons, Supportive Housing and Density Bonus Project, Portola Valley, CA
- Fairmont Shopping Center, Master Use List, Zoning Amendment, Pacifica, CA
- Monitoring Urban Wildlife Corridors in San Diego County, Center for Natural Lands Management (CNLM), CA*
- Ten Mile Canyon ACEC Draft Watershed Management and Monitoring Plan, Bureau of Land Management (BLM) Moab Field Office, UT*

OUR TEAM

VERA GIL

Housing Specialist

PROFESSIONAL EXPERIENCE

Vera Gil is a highly experienced professional with over 35 years of expertise in municipal government, specializing in affordable housing. In her most recent role, Vera served as a Project Manager for Affordable Housing at the City of Mountain View where she successfully managed 500-units of affordable housing from conception to construction. She was responsible for the administration of the City's Notice of Funding Availability (NOFA) for affordable housing funds and played an integral part in the loan closing process for affordable housing developments.

Throughout her career, Vera has demonstrated her ability to communicate complex concepts effectively. She has prepared staff reports and delivered presentations to various committees and governing bodies, including the NOFA Review Committee, Planning Commission and City Council. Her skills in presenting technical information in a clear and concise manner have proven valuable in advocating for affordable housing initiatives.

Vera's dedication to affordable housing extends beyond project management. She actively participated in developing the Housing Element of the General Plan. Vera Gil's extensive experience, collaborative nature, and passion for affordable housing make her a highly qualified professional dedicated to advancing affordable housing initiatives in municipal government. Her expertise in project management, funding administration, and compliance, coupled with her ability to communicate complex ideas effectively, position her as a valuable asset in achieving housing goals.

PROJECT EXPERIENCE HIGHLIGHTS

- HCD Pro-housing Designation Application Project Management, Campbell, CA
- Housing Program Underwriting Guidelines, Mountain View, CA*
- Long-term Lease Affordable Housing Negotiation with Santa Clara Valley Transportation Authority (VTA), Mountain View, CA*
- Affordable Housing Tax Credit Loan Closings, Mountain View, CA*

NICK HAMILTON

Public Policy Lead

EDUCATION

B.A., Architecture, UC Berkeley

M.I.A., Economic and Political Development, Urban and Social Policy, Columbia University

MEMBERSHIPS

Consortium for Sustainable Urbanization, Board Member

PROFESSIONAL EXPERIENCE

Nick Hamilton is an urban development and policy professional bringing 15+ years of experience in leading plan development and launching programs to advance equity, sustainability, and shared prosperity in communities across the U.S. and internationally.

Recent long-range planning experience includes General Plan and Housing Element updates and municipal code updates to further Objective Design and Development Standards. Recent current planning experience includes coordinating local jurisdiction review of the redevelopment of former school sites into housing, high density Transit Oriented Development (TOD) projects, and associated CEQA (California Environmental Quality Act) environmental reviews. He has also lent his expertise in community engagement and outreach to several initiatives for the cities of Brisbane, San Mateo, and San Bruno.

Nick brings a long track record establishing collaborative community revitalization initiatives in communities across the U.S. through his previous work for the Lincoln Institute of Land Policy, and as Director of Urban Policy at Columbia University's The American Assembly. His architectural, urban design, and planning expertise was cultivated during his time at Davis Brody Bond, a nationally recognized architectural firm headquartered in New York. Projects there included multiple overseas diplomatic facilities for the US Department of State, Columbia University Northwest Corner Building, and the Lenox Terrace Apartments superblock infill project. Nick has also taught graduate-level housing policy as an adjunct.

PROJECT EXPERIENCE HIGHLIGHTS

- Housing Element Update, Pacifica, CA
- Housing Element Update, San Mateo, CA
- General Plan Update, San Mateo, CA
- Airport Land Use Compatibility Plan Zoning Updates, San Carlos, CA
- Objective Design & Development Standards, Brisbane, CA
- Public Facility Modernization and Housing Development Opportunities Study, San Bruno, CA
- 300 Piedmont and 2101 Sneath Lane Housing Development Entitlement Review and CEQA Project Management, San Bruno, CA
- Harbor Industrial Area Specific Plan, Belmont, CA

OUR TEAM

MICAELA HELLMAN-TINCHER

Housing Specialist

EDUCATION

M.A., International Policy Studies, Stanford University

B.A., Economics and International Affairs, George Washington University

PROFESSIONAL EXPERIENCE

Micaela has extensive experience in local government, largely focused on housing and social services. Micaela has a unique understanding of both the programmatic and political issues facing local governments, having worked as both a city staffer and as the staffer for an elected County Supervisor.

As Housing and Neighborhood Services Manager at the City of Mountain View, Micaela oversaw the City's affordable housing work, including a robust pipeline of locally funded affordable housing developments and a below-market-rate inclusionary housing program. She also oversaw the City's CDBG and HOME grants programs, as well as its state grants programs. While at the City, she worked on innovative efforts relating to displacement prevention, convening legal, economic, and zoning experts, as well as community stakeholders, to provide input. Micaela also worked extensively with the City's Planning Division to update the City's Housing Element and review development proposals, including large master plans.

As Policy Director for Santa Clara County Supervisor Joe Simitian, Micaela oversaw the implementation of the Supervisor's policy goals. This role allowed her to gain experience and insight on a range of issues facing local governments, from senior services to criminal justice reform to hospital oversight. Her portfolio included housing, homelessness, social services, behavioral health, COVID response, immigration, and non-profit partnerships. Her housing work included a number of innovative endeavors, including the affordable housing preservation effort at the Buena Vista Mobile Home Park in Palo Alto, and a teacher housing project. She also worked closely with County staff on responding to homelessness via sheltering programs, safe parking programs, and rental assistance programs.

Prior to her time at the County, Micaela had a fellowship at Tipping Point, working on innovative approaches to affordable childcare. She also previously worked in advocacy in Washington, DC, focusing on economic justice issues and human rights, including federal housing programs.

Micaela has a master's degree in International Policy Studies from Stanford University and an undergraduate degree in Economics and International Affairs from George Washington University.

OUR TEAM

ROBERT MCDONALD

Project Manager

PROFESSIONAL EXPERIENCE

Bob McDonald has had many roles working as a planner and project manager in the public sector. Starting as a planning technician with the County of San Mateo, Bob went on to become an assistant planner with the County of Solano, an associate planner with the City of San Mateo and later as a Senior/Long Range Planner with the City and County of San Francisco's Recreation and Parks Department. His local government experience includes:

- Project, environmental, landscape and architectural review of current planning projects
- Administrator for a parking and improvement district
- Long range planner and administrator for an open space program and advisory board
- Project and land acquisitions manager for complex public/private land developments

With the City and County of San Francisco's Recreation and Parks Department, Bob managed, coordinated and unified the development and entitlements for the DeYoung Museum, Music Concourse, Academy of Sciences and underground parking projects. He also worked on the environmental, landscape and architectural review for complex public works projects such as the Union Square and the Harding/Fleming Golf Course renovation at Lake Merced. He also played a primary role as the long-range planner and administrator for the Open Space Program and Advisory Board.

Mr. McDonald's strengths are working on complex development plans, assessing, and identifying architectural and environmental impacts, developing/administering mitigation and monitoring the first Downtown Residential Permit Program (RPP), leading the downtown development cap process, providing direction related to the Comprehensive Plan (General Plan). Mr. McDonald has served as a Design Review and Historic Preservation Commissioner and Planning Commissioner for the City of Sonoma.

PROJECT EXPERIENCE HIGHLIGHTS

- City of San Mateo Planner: prepared amendments to the Zoning Code related to Recycling, Parking and Sign Code. Updates*
- City of Sonoma Planning Commissioner: reviewed, commented and made recommendations to the City Council for Zoning Code Amendments related to Vacation Rental, Lodging, ADUs, Subdivision, Affordable Housing, Design Reviews and Parking Code updates*

*Work completed at a previous place of employment

EDUCATION

B.A., Communication, Allegheny College,

Minor in Social Psychology, Cum Laude Graduate

MEMBERSHIPS & CERTIFICATIONS

Building Industry Association of the Bay Area (BIA)

APA Member

Urban Land Institute-Foundations of Real Estate Certification (FoRE)

PROFESSIONAL EXPERIENCE

Arianna O'Connell serves as an Associate Planner for Good City Company. Arianna has spent the last 6+ years working for both large development companies and small non-profit businesses, both focused on providing needed housing to communities in both California and Pennsylvania. Arianna is an urban development and housing policy professional with experience in real estate entitlements, policy and legislative research, community engagement, Affordable Housing programming, and plan compliance.

Arianna previously worked for Lendlease LLC in a partnership with Google where she pushed forward the entitlements process for three large master-planned community projects in the Bay Area. Within this role, she led research on external policy and legislative issues, staying abreast of key regional policy shifts and local political issues to ensure that the development projects incorporated the desires and concerns of the local community and public officials. Additionally, Arianna managed the entitlements schedule for the Moffett Park Project, organizing a team of over 40 members of in-house staff, consultants, to prepare and submit CEQA documents and provide key comments on the Moffett Park Specific Plan and Moffett Park Draft EIR.

After graduating from Allegheny College in Pennsylvania, Arianna worked for three non-profit companies in rural Western PA focused on finding stable housing for individuals with disabilities and behavioral health challenges. In her role, she revitalized the public image of each company through raising public awareness around federal and state housing policy issues, fair housing laws, and the realities of homelessness in rural communities.

PROJECT EXPERIENCE HIGHLIGHTS

- Zoning Text Amendments and Research and Development Performance Standards, Belmont, CA
- Island Park Life Sciences Campus, Belmont, CA
- 1301 Shoreway Office Development, Belmont, CA
- BeamReach Life Sciences Campus, Belmont, CA
- Harbor Industrial Area Specific Plan, Belmont, CA
- Google Middlefield Park Master Plan, Mountain View, CA*
- Google East Whisman Master Plan, Mountain View, Sunnyvale, CA*
- Google Moffett Park Master Plan, Sunnyvale, CA*

LESLIE PARKS

Economic Development Director

PROFESSIONAL EXPERIENCE

Leslie Parks has 30+ years' experience as a practitioner and consultant in the fields of economic development, redevelopment, and workforce development. She has developed and administered a diverse range of programs that include business retention and expansion initiatives, community benefits, sales/use tax revenue assessment, workforce training and job placement, affordable housing, and public/private partnerships.

As a consultant, Leslie assisted with economic development strategies and marketing plans for the cities of Honolulu, Anchorage, Santa Rosa San Francisco, and the counties of Solano County, Merced County, and San Mateo County. Leslie also served as Director of Downtown and Industrial Development for the San Jose Redevelopment Agency, Director of Economic Development for the City of San Jose, and Director of Community Services for the City of San Carlos. She has served as the director of two Workforce Investment Boards.

Leslie's recent experience includes implementation of economic development programs for the cities of Foster City, Redwood City, and Campbell.

She joins Good City Company as Economic Development Director supporting several cities on the Peninsula and in Silicon Valley. Specific programs and projects include development of small business action plans, economic development strategies, marketing plans, retail strategies, and economic development program and staffing audits.

PROJECT EXPERIENCE HIGHLIGHTS

- Economic Development Strategy and Program Implementation, Campbell, CA
- Parklet Grant Program, Campbell, CA
- Economic Development Program Assessment, Palo Alto, CA
- COVID Business Recovery Plan, Vacaville, CA*
- Small Business Action Plan, Mountain View, CA*

MARK SULLIVAN, AICP

Housing Specialist

PROFESSIONAL EXPERIENCE

Mark is an urban planner with 25 years of experience in long-range and current planning with a focus on land use and housing policy.

Mark retired from the public sector in 2018 after serving as planning, redevelopment and housing manager for the City of San Bruno for 17 years. Before that, Mark was an economist at Seifel Associates working on redevelopment and housing projects for many California communities.

Mark has significant experience preparing and implementing land use plans and housing regulations, analyzing the economics of housing projects, managing housing efforts (including monitoring of affordable units) and overseeing the entitlement and environmental review process of complex development projects.

Notable projects he has successfully completed include: adoption of land use plans including the Transit Corridors Specific Plan (promotes high-density mixed-use TOD) and passage of an associated ballot measure to increase building heights and density, several housing elements, general plan amendments, parking management plan, and downtown facade improvement program; adoption of housing- related regulations including inclusionary housing and housing impact fee ordinances, emergency shelter zoning, accessory dwelling unit ordinance, and; managed the approval of over 1,100 housing units, a 150-room hotel, and over 15,000 square feet of commercial space.

Mark believes strongly that smart growth principles can enhance social equity, environmental conservation, and healthy communities. Mark is most interested in promoting land use solutions that can enable communities to adapt to the changing economic and demographic conditions currently facing the San Francisco Bay Area and balancing the needs of new worker households and families while preserving the quality of life of existing residents.

DAVID TALGO

Assistant Planner

PROFESSIONAL EXPERIENCE

David Talgo joins Good City as a Planning Technician, where he will focus on advanced planning projects, contributing to long-term urban planning efforts and initiatives that shape cities' future development.

Previously, David gained experience as an Intern Field Organizer on a congressional campaign, where he practiced different canvassing techniques and worked closely with residents to address local needs. This experience provided him with valuable insights into community engagement and competing goals, strategies, and interests.

David holds a Bachelor of Arts in Political Science from New York University, with a minor in Urban Design. In his Urban Design program, he developed proposals for a multi-use development on the Brooklyn waterfront and a pedestrian-oriented street redesign adjacent to Fort Greene Park. He also studied the relationship between urban planning and climate change policy and politics.

PROFESSIONAL SERVICES MASTER AGREEMENT (ON-CALL PLANNING)

BETWEEN

CITY OF BENICIA AND

PlaceWorks, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and PlaceWorks, Inc., a California Corporation located at 3 MacArthur Place, Suite 1100, Santa Ana, California 92707, licensed to do business in California, ("CONTRACTOR") relating to PlaceWorks - Planning Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Current Planning Development Review

B. Land Use Economics

C. Environmental Review

D. Housing Programs and Policies

E. Grant Applications and Management

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

Docusign Envelope ID: 471E22E2-1D1A-4F56-8924-7BB96143ABFC

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website

Docusign Envelope ID: 471E22E2-1D1A-4F56-8924-7BB96143ABFC

[http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR

Docusign Envelope ID: 471E22E2-1D1A-4F56-8924-7BB96143ABFC

shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this

Docusign Envelope ID: 471E22E2-1D1A-4F56-8924-7BB96143ABFC

Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for

Docusign Envelope ID: 471E22E2-1D1A-4F56-8924-7BB96143ABFC

services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

Docusign Envelope ID: 471E22E2-1D1A-4F56-8924-7BB96143ABFC

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: 471E22E2-1D1A-4F56-8924-7BB96143ABFC

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Kara Kosel

Vice President, Finance

kkosel@placeworks.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: 471E22E2-1D1A-4F56-8924-7BB96143ABFC

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between PlaceWorks, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: 471E22E2-1D1A-4F56-8924-7BB96143ABFC

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or

Docusign Envelope ID: 471E22E2-1D1A-4F56-8924-7BB96143ABFC

reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

Docusign Envelope ID: 471E22E2-1D1A-4F56-8924-7BB96143ABFC

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 471E22E2-1D1A-4F56-8924-7BB96143ABFC

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

QUESTIONNAIRE

1. Project Organization

1.1. Name of Subcontractors (if using)

If using subcontractors, you must fill in their information in the below box following this format for each subcontractor:

1. Name of Subcontractors
2. Address,
3. Telephone number(s),
4. Email,
5. Name of responsible corporate officer(s),
6. Office location where the majority of the day-to-day work will be accomplished.

PlaceWorks is not proposing any subconsultants as part of this effort, but we would be happy to add team members, or coordinate with other City consultants, at the City's direction, based on the specific assignment.

1.2. Project Organization Chart*

PlaceWorks_Org_Chart.pdf

1.3. Description of responsibilities*

Brief description of responsibilities of key professional personnel, emphasizing experience directly related to responsibilities on this project.

Mark Teague, AICP, Managing Principal, Environmental Services. Mark will serve as the City's primary contact and will be available to serve as principal-in-charge on future projects. In this role, Mark will ensure that all products are produced on-time, on-budget, and meet the highest standards of quality. Additionally, he will be available to facilitate public workshops and critical meetings throughout the process.

In over 35 years of public- and private-sector experience, Mark has worked throughout California in agencies large and small and is considered an innovative problem solver. His projects include planned communities, shopping center EIRs, general plan and zoning code updates, impact fees, and public outreach for projects highly scrutinized by the public. His experience as a planning director, staff liaison, and ability to see the whole of the project, ensures that every document meets the need of the client. He has served as on-call extension of staff for numerous cities throughout northern and southern California including Anderson, Mount Shasta, Wildomar and Eastvale. Mark is also an excellent public speaker and regularly presents at the League of California Cities Planning Commissioner's Academy on topics such as design guidelines, CEQA compliance, and how to read an EIR. He also teaches planning to staff with a focus on how new legal decisions affect daily activity. With a great deal of experience in smaller communities, Mark has experience using available resources to meet the clients needs.

Charlie Knox, Principal. Charlie has more than 30 years of experience in public and private sector planning and has a thorough understanding of how to manage and coordinate staff and stakeholder efforts to best serve municipal staff, local citizens, city councils, and communities. Charlie's expertise includes shepherding high-profile projects through the entitlement process, including mixed-use developments and municipal energy-conservation projects. He also specializes in local and regional transportation and transit initiatives to help shorten commutes, reduce single-occupant vehicle travel, support Transit-Oriented Development, establish local Transportation Demand Management programs, and reduce Vehicle-Miles Traveled to meet City, regional, and State objectives. Prior to joining PlaceWorks, Charlie led the City of Benicia Public Works and Community Development Departments and used innovative leadership skills to provide superior customer service to residents despite significant resource constraints.

Terri McCracken, Principal. Terri is an extremely organized and efficient planner with a detailed understanding of the environmental review process. With 20 years of environmental planning experience, she is a valuable asset to any project team. Terri is responsible for the day-to-day management of environmental review projects, maintaining regular contact with clients, coordinating subconsultants, and attending meetings. Terri's work at PlaceWorks has focused on the application of CEQA, NEPA, as well as other State and federal environmental regulations and guidelines. Terri effortlessly manages, coordinates, reviews, and conducts research for various types of environmental review documents for a broad range of projects, including long-range plans, municipal codes, residential, commercial, industrial, recreational, resort, and public works. She is responsible for the preparation of environmental constraints, feasible mitigation measures, and viable project alternatives, as well as for responding to public and agency comments on environmental documents. She is also responsible for facilitating public meetings and managing project schedules in order to provide work products on time and within budget.

Nicole Vermilion, Principal, Air Quality/Energy/GHG/Noise Services. Nicole oversees project staffing and timing for the air quality, GHG, and noise technical team's impact evaluations under CEQA. She is responsible for expanding and fine-tuning the team based on changes in technology, legislation, and client needs and for ensuring that PlaceWorks' air quality and GHG studies are defensible and consistent with recent case law. She closely follows the rapid changes in requirements and the latest information on CEQA thresholds and analysis methodology. She has performed numerous greenhouse gas emissions inventories for individual projects as well as citywide emissions inventories for general plans. Nicole frequently presents at conferences, including the California chapters of both APA and AEP. She is a beta tester for the CalEEMod program. As a member of AEP's Climate Change Committee, Nicole has contributed to white papers addressing GHG emissions inventories for climate action plans and general plans, post-2020 GHG thresholds, and Friant Ranch.

Isabelle Minn, ASLA, LEED AP, Principal. Isabelle has over twenty years of experience in community-based design and planning. Her work has focused on landscape architecture and urban design, with an emphasis on the protection of open space and natural resources, as well as on improving and greening our urban areas. She has managed a wide range of projects from large, open space master plans to urban forestry plans and site planning and design projects. She strives to create a balance between protecting resources and increasing public access. Isabelle has developed multi-disciplinary studies addressing physical, biological, cultural, and policy issues that affect watersheds. She has also managed many trail planning and design projects, from large-scale trail master plans to construction documents, and she is an expert on the development of urban greening projects. Recently, Isabelle's work has emphasized meeting park and open space needs in park poor communities.

Jennifer Gastelum, Principal. Jennifer has over 20 years of experience specializing in various housing programs and public outreach for municipalities across California, Nevada, and Washington. As a recognized leader in the field, she has managed updates to over 100 housing elements since 2008. Her experience also includes preparing HUD consolidated plans, action plans, analyses of impediments to fair housing choice, housing condition surveys, and housing market studies. Jennifer has significant experience overseeing grant management of State and federal programs, such as the Community Development Block Grant (CDBG) program, CalHOME, and HOME. She is also experienced in federal labor standard compliance review and monitoring. Jennifer is committed to continuing education and training, and she has considerable experience leading project management and business development training. Other project experience includes specific plans, general plans, environmental impact reports, and initial studies/negative declarations.

Colin Drukker, Principal. Colin's unique skill set includes knowledge of governmental policy, land use planning, transportation planning, and CEQA at all scales, gained through his experience with the public and private sectors. From fine-tuning project approaches to producing final documents, Colin sets high standards for himself, his team, and his projects. He draws on over 25 years of planning experience to tackle problems inventively and efficiently. His body of work includes leadership and technical expertise on general plans, regional planning, corridor planning, affordable housing, environmental justice, mixed-use/TOD, specific plans, GIS, websites, and database development. Colin leads and organizes groups of public staff and consultants to consistently bring complex projects to successful completion. He possesses the knowledge to understand and, if necessary, conduct nearly all phases of planning projects. In all of his projects, Colin uses his understanding of policy and land use planning to balance fiscal sustainability, preserve community lifestyle, and achieve community vision.

Alexis Mena, LEED AP, Associate Principal. A team member of PlaceWorks team since 2008, Alexis brings valuable experience in both the public and private sectors. As a project manager, she is organized and detail-oriented, works collaboratively with her clients, thinks strategically, and maintains a flexible and responsive work process. She is highly committed to providing high-quality graphic and written products on schedule and on budget. Alexis' work at PlaceWorks has focused on environmental review and planning for a range of land use, smart growth, transportation, and sustainability projects. She is currently serving as the Principal in Charge for program-level documents such as the General Plan Update EIR for the City of Salinas, the Stanford University Belmont Conceptual Development Plan EIR for the City of Belmont, and the General Plan Reset EIR for the City of San Carlos. She is also serving as

Principal in Charge for several Bay Area development projects. Alexis previous managed the 808 Alameda de las Pulgas EIR for the City of San Carlos, which was award an Environmental Analysis Document Merit Award from the California Association of Environmental Planners; and the Martial Cottle Park EIR for the Santa Clara County Parks and Recreation Department, which was awarded the Innovation in Green Community Planning Award from the Northern California Section of the APA.

Steve Gunnells, Chief Economist. Steve's career spans the spectrum of community planning and economic development. As PlaceWorks' in-house economist, he plays a role in a great many of the firm's active projects. He focuses on crafting plans, policies, and development projects that are grounded in regional and global economic realities. He helps his clients leverage market forces to achieve their goals. And most importantly, he uses his grasp of economics and real estate markets not only to overcome existing challenges but to help communities create visionary plans that capitalize on the possibilities, not just past trends. Steve works with communities to bridge the gap between long-range planning policies and economic development—with community organizations and special districts to fund and implement priority projects—and with developers to guide project decision-making and obtain entitlements based on sound economic and market analysis. Steve has also served as the field director for a consulting team on a World Bank project in Yemen, an Economic Development Fellow with the International Economic Development Council, a county planning director in Virginia, and a planning and economic consultant in Michigan and Ohio.

Erika Lindstrom, AICP, Senior Associate. Erika brings a wide variety of skills through her education and nearly ten years of professional planning and housing experience in both the public and private sectors. Her passion for planning is driven by her desire to envision and create unique, enjoyable, and healthy places for all, especially community members who have historically been excluded. At PlaceWorks, Erika manages and assists with a range of comprehensive planning projects, including zoning code updates, general plan updates, housing element implementation, and community engagement campaigns. She is currently working on Zoning Code updates for the City of Pittsburg and Contra Costa County, General Plan updates for the Cities of Modesto and Salinas, development of a Specific Plan for the City of Salinas, and entitlement review for the Cities of San Carlos and Benicia. She also recently managed and completed an update to Sacramento County's Infill Program and targeted zoning updates for the City of Cupertino.

Greg Goodfellow, Senior Associate. Greg is a valuable analytical and outreach asset on any team. He has worked in both the public and private sectors, has contributed to industry journals and white papers. He draws on over a decade of planning experience to tackle problems in an innovative and efficient manner. Greg has built a foundation of comprehensive planning work into expertise in equitable housing and transportation policy. His recent work on objective design standards, regional growth strategies, urban rezonings and technical assistance for local jurisdictions has helped guide PlaceWorks' services related to evolving housing and transportation law in California. Greg has become an effective leader by managing projects at the intersection of state law, regional strategy, county management and local policy. He has managed numerous outreach-based plans for equitable transportation and facilitated all forms of multi-lingual, digital and traditional outreach. Greg enjoys the professional training process, having managed the Smart Parking Training Program for MTC and lead county-wide digital workshops for VMT ordinance adoption. Greg continues to hone his speaking and leadership skills on volunteer planning and community projects. He has instructed students as part of the Urban Land Institute's (ULI) UrbanPlan high school teaching program. He is currently a team planner for ConnectOakland, a group advocating for the transformation of Interstate 980 in Oakland into a multi-modal thoroughfare.

Angelica Garcia, Senior Associate. Angelica has experience working on a wide range of planning projects, including general plans, neighborhood plans, community outreach campaigns, housing elements, objective design standards, and zoning code updates. She has over nine years of experience and brings a wide variety of skills through her work experience and education. Her interest in urban planning stems from her desire to help create healthier communities. She enjoys working on plans that reflect the unique needs of each community. Angelica is currently the project manager for the General Plan Update in Sonoma County, Placer County, and the City of Soledad. She is also working

on Environmental Justice Element for the County of San Mateo and recently helped update three Neighborhood focused Housing Action Plans for the City of Stockton. She also assisted with the General Plan Update for the City of San Mateo which was adopted this year.

Jennifer Kelley, Senior Associate. Jennifer is a skilled environmental professional with nine years of experience leading CEQA and NEPA analyses for development and infrastructure projects. Jennifer has managed CEs, MNDs, and EAs for mixed-use, infill development projects from the proposal stage through entitlement, and served as a deputy project manager on large-scale EIRs. Jennifer's management expertise includes senior-level review of documents; coordination with clients, subconsultants, and public agencies; keeping project schedules and budgets on track; and supervising analyses prepared by junior staff. Prior to joining PlaceWorks, Jennifer served in environmental planning and management roles where she used her background in urban planning and environmental design to lead numerous comprehensive land use and aesthetics compatibility analyses and produced supporting visual graphics. She is also proficient in producing quantitative studies to measure cumulative impacts on public services and utilities using local, regional, and state-level data.

Chris Shields, INCE-USA, Senior Associate. Chris possesses a strong background in noise control, noise propagation, frequency analysis and engineering practices, coupled with extensive noise synthesis computer-modeling experience. His work experience includes the preparation of technical studies and related sections of CEQA and NEPA documents for commercial, industrial, residential, mixed-use recreation, educational, infrastructure, and other development projects. Chris' experience includes noise analyses for federal, state, and local agencies with the use of computer models published by the EPA, FHWA, and Caltrans.

Dina El Chammas Gass, PE, QSD, Senior Engineer. Dina is a member of the Environmental Planning team and Technical Services Group. She provides technical support related to hydrology, water quality, geology and soils, hazards and hazardous materials, and utilities, including third-party peer reviews, water supply assessments, written verifications of water supply, and utility capacity reports. Dina also has experience performing quantitative health risk assessments and pipeline safety hazard assessments. Dina processes, oversees, and manages CEQA projects; contributes research, analysis, and review—particularly in the fields of water quality, hydrology, utilities, geology and soils, and hazards and hazardous materials; and prepares CEQA compliant documents. Dina came to PlaceWorks with eclectic experience in the fields of sustainability, environmental engineering, and sustainable watershed management. She was an assistant professor of sustainability and an environmental engineer in the Gulf and Caspian regions, where she prepared and implemented environmental management plans; pollution prevention plans; and management plans for waste, water, and wastewater.

Cynthia Walsh, Senior Associate. Cynthia Walsh has almost 20 years' experience working on long-range planning documents, specializing in policy writing for housing element updates, housing element annual reports, and Housing Element implementation. She prepared housing elements during the 4th through 7th cycles and has worked closely with staff at the California Department of Housing and Community Development to achieve certification for her clients. She also has experience with comprehensive zoning code and General Plan updates. Cynthia also has experience with preparation of analyses of impediments to fair housing choice documents, consolidated plans, and action plans. She is experienced with State and federal grant programs, and she is well versed in federal (Davis-Bacon) and state labor standards compliance.

Lance Park, Senior Associate, Air Quality/Energy/GHG. Lance has nearly six years of experience as an air quality analyst preparing CEQA analyses for individual land use development projects and long-range planning documents. As an air quality scientist, he has prepared extensive emissions modeling and calculations consistent with different California air district methodologies, including but not limited to the BAAQMD, South Coast AQMD, SJVAPCD, and Sac Metro AQMD. With PlaceWorks, he functions as a leading expert in air quality, greenhouse gas emissions, health risk, and energy CEQA analyses; trains air quality technical staff; attends and directs client kick-off calls and attorney consultation; attends public hearings; and offers strategic insight into different CEQA document types and streamlining

opportunities with project clients and lead agencies. Lance is also 40-hour HAZWOPER certified, is currently attaining his Certified Professional in Erosion and Sediment Control-In Training accreditation, and has several years' experience conducting Phase I and Phase II Site Assessments and SWPPP Construction Site Monitoring.

Nicole West, AICP, Senior Associate. Nicole has over 18 years of experience in planning, with specialties in housing and community development; parks, open space and trails; and community outreach with diverse populations. Nicole is skilled at synthesizing quantitative and qualitative data, identifying key findings and developing effective plans, policies and programs. She enjoys sharing these insights and ideas by providing presentations to the public, committees and elected officials. Nicole provides mentorship and training for junior staff. As a project manager for complex public sector planning projects, Nicole leads multidisciplinary teams, develops and implements multifaceted community engagement efforts and ensures budgetary compliance.

Amy Sinsheimer, AICP, Senior Associate. Amy has over 20 years of experience managing and preparing long-range planning and policy documents, with a specialty in housing. She has significant experience in public outreach for complex projects involving multiple agencies, stakeholders, and team members. Amy prepared housing elements during the 3rd through 7th cycles and has worked closely with staff at the California Department of Housing and Community Development to achieve certification for her clients. She also has comprehensive zoning code and General Plan Update experience.

Andrea Howard, Senior Associate. Andrea is a skilled project manager with experience leading a variety of complex projects, including general plans, regional housing needs allocation (RHNA) plans, community engagement campaigns, and more. Prior to joining PlaceWorks in 2019, Andrea spent several years working for regional government and the private and nonprofit sectors. Andrea's cross-sectoral background affords her unique insights into project opportunities, needs, and stakeholder perspectives Andrea has undergone advanced training in community engagement and has led development of outreach plans; curated outreach materials, including informational videos, webpages, and print materials; presented to community members in a variety of formal and informal settings; and hosted in-person and web-based workshops, open houses, focus group meetings, and pop-up events. Through all outreach activities, Andrea works to ensure that efforts result in equitable and meaningful engagement, better informed stakeholders, and community-driven outcomes.

Cory Witter, Senior Associate. Cory's background in public health and community-based participatory research adds to his unique perspective on the planning world. His wide project experience so far has just intensified his passion for long-range planning, economic development, and community engagement. He views planning dilemmas as an intersection of the social and physical environments and chooses to search upstream for solutions rather than downstream—to fix the causes of problems instead of just their effects. To add to his experience and abilities with comprehensive planning projects, especially general plans, Cory is venturing further into the field of land use economics. He is interested in economic growth and development—particularly in how all the pieces fit together so that cities can make land use decisions with lasting social and economic benefits. Cory's recent experience includes serving as project manager for the Barstow General Plan Update and assistant project manager on the Fountain Valley General Plan Update. He also assisted with multiple 6th-cycle housing elements in San Bernardino and Riverside Counties. He is currently working with multiple jurisdictions to evaluate and adopt inclusionary housing ordinances.

Steve Bush, PE, Engineer. A member of both the Environmental Sciences and the CEQA teams, Steve's eclectic skill set covers a wide range of technical services. He leads our risk assessment practice, providing air toxics/health risk, pipeline safety, railroad safety, and EMF risk analyses for schools. As a member of the CEQA team's hydrology and engineering group, Steve has completed hydrology, water supply assessment and utilities systems analyses for a variety of projects, including residential development, industrial warehousing, and schools projects. Steve coordinates regularly with public agencies regarding pipeline risk analyses, flooding impacts, and other safety hazards for the preparation of CEQA sections. Additionally, Steve is proficient in different air quality modeling software such as CalEEMod, AERMOD, and HARP.

Vivian Kha, Associate. As a member of PlaceWorks' Environmental Planning team, Vivian has impressed project managers with how quickly she orients herself to a wide variety of projects and tasks—and she always seems to ask the right questions. Vivian has proven to be a great asset to the team— highly capable, reliable, and efficient. She assists with the research, processing, analyzing of data, and report writing on numerous types of CEQA documents, including initial studies, exemptions, addenda, and EIR topical sections. She is also skilled in GIS.

Rachel Goren, Associate. Rachel is passionate about the environment and works to lesson human impact and increase resiliency within this changing climate. She has over 4 years of experience working in both the private and public sector. As an associate at PlaceWorks, Rachel works on a variety of CEQA and planning documents for a wide range of projects. She has proved to be a dedicated and beneficial asset to the team. Rachel possesses a comprehensive understanding of the environmental analysis and CEQA process with experience working on a wide range of projects. She has the skills to effectively analyze both developmental and programmatic level environmental review. She has managed or been key staff on several environmental analysis projects.

Madeline Miller, Associate. Madeline has multiple years of experience in the environmental realm. Working within a public agency has given her valuable insight that she uses to support her team, clients, and projects while also harnessing her skills to foster relationships between private, local, state, and federal agencies. She has worked on a variety of projects pertaining to the California Environmental Quality Act and regularly prepares non-technical sections of EIRs while coordinating with staff and ensuring internal consistency.

Jose Ayala, Associate. Jose has over five years of experience working on Housing Element updates, including policy writing for Housing Element updates in addition to reviewing Housing Elements for consistency with State Housing Element law. Jose contributes to analyzing data and updating Housing Elements for various jurisdictions throughout California. Jose also has experience with other State housing laws, including accessory dwelling unit (ADU) law, the Housing Accountability Act, and experience in providing technical assistance.

Rachel Jacobson, Associate. Rachel's interests in open space and community merge in her work at PlaceWorks as a project manager. Her experience managing complex projects and coordinating collaborators demonstrates her ability to integrate diverse interests to achieve project goals. Her focus on planning and facilitating thoughtful, meaningful meetings and translating the outcomes into action advance every project she serves on. She specializes in process development, offering visual and interactive methods to engage parties in project planning. Rachel is committed to countering systemic inequities in the purpose, processes, and outcomes of her work. Her experience centers on protecting natural systems and providing public access through parks and open space planning and programmatic work, including developing a Volunteer Management System for the Los Angeles County Department of Parks and Recreation, managing the City of Richmond's collaborative application to the Transformative Climate Communities grant as well as managing the post-award consultation process and supporting grant implementation, and guiding process development for the Richmond Park Equity Project with the Hellman Foundation.

Jenny Yu, AICP, Associate. Jenny is a versatile urban planner with over eight years of professional experience in the public and private sectors. Her work encompasses placemaking, comprehensive planning, parks planning, and multimodal transportation, and she focuses on advancing equity in underserved communities through community engagement and empowerment. She has experience with developing long-range plans, project management, community outreach, and graphic design. The projects that she worked on won many awards, including several from the American Planning Association, and she has given presentations to large audiences throughout California on her work. Jenny's work as a land use planner is heavily informed by her years of experience in multimodal transportation planning. She understands the urgent need for land use planners to work closely with transportation planners to address land use and transportation issues together. Therefore, she strives to use her experience in multimodal transportation planning to advance better comprehensive planning policies that will achieve a more sustainable future for the communities of tomorrow.

Julia Schnell, Project Planner. At PlaceWorks, Julia has supported housing and land use policy and program development. She has provided program administration assistance to the City of Emeryville to support affordable homeownership, rental, and loan programs. Additionally, she has worked with the City of Rohnert Park to administer affordable housing program compliance monitoring for below market-rate projects and mobile home parks. Through her knowledge of fair housing issues and strategies to address said issues, Julia has supported jurisdictions across the state in conducting fair housing analyses. Julia's skills in GIS and Excel have also allowed her to conduct analyses of numeric and spatial data and to build analytical tools.

Hazel Choi, Project Planner. Hazel has experience in comprehensive and long-range planning, with a specific focus on policy development for housing element updates. She has been contributing to analyzing data and updating housing elements for various local jurisdictions throughout California. She has significant experience in the preparation of analysis of Housing Needs Assessment, ensuring clients are consistent with the guidelines and requirements outlined in HUD and HCD. Hazel has expertise in developing Regional Transportation Plans, Community Needs Assessments, Corridor Plans, Evacuation Plans, and Active Transportation Plans for different local jurisdictions. Hazel has also dedicated her efforts to preparing grant applications and facilitating those programs managed by both the State and Federal. Hazel has actively participated in numerous community outreach and surveys, as well as preparing a range of visual materials that enhance the community's understanding of various projects. Additionally, she has an expertise in GIS, allowing her to effectively prepare exhibits and analyze geospatial data for grant applications and planning documents. She is also proficient in Adobe applications, such as Photoshop, Illustrator, and InDesign

Zixuan Liu, Planner. Zixuan supports Comprehensive Planning projects at PlaceWorks by leveraging her prior experiences in housing policy and community development within non-profit and public sectors. With strong writing, research, and policy analysis skills, she has been contributing to General Plan updates, regional transportation policy documents, and Housing Element Implementation. Her background in the design and history of architecture informs her interdisciplinary planning process at the intersection of the aesthetics and social impact of the built environment. Her approach prioritizes equity, focusing on empowering underserved communities through inclusive outreach and engagement.

Jay Scott, LEED Green Associate, Planner. Jay holds the professional credential of LEED Green Associate. Jay has conversational skills and document translation abilities in French and technical software experience working with ArcGIS, SketchUp, and Adobe Suite. While at PlaceWorks, Jay has worked on General Plans for many cities, including Fountain Valley, Barstow, San Bernardino, and Santa Ana. Jay helped build infrastructure for the web-based version of Santa Ana's General Plan and created visually engaging focus area StoryMaps. In addition, Jay has worked on environmental justice issues for many cities, creating maps and other visualizations. For the Western Riverside County of Governments, Jay helped to develop a tool for member jurisdictions to easily incorporate their feedback into SCAG's local data exchange.

1.4. Team Members*

Indicate which team members will participate in each area of the work.

Current Planning Development Review/Long-Range Planning Policy and Strategies:

Charlie Knox, AICP, Principal

Erika Lindstrom, AICP, Senior Associate

Greg Goodfellow, Senior Associate

Angelica Garcia, AICP, Senior Associate

Zixuan Liu, Planner

Land Use Economics:

Steve Gunnells, Chief Economist

Colin Drukker, Principal

Cory Witter, Senior Associate

Jay Scott, LEED Green Associate, Planner

Environmental Review:

Mark Teague, AICP, Managing Principal, Environmental Services

Terri McCracken, Principal

Alexis Mena, LEED AP, Associate Principal

Jennifer Kelley, Senior Associate

Vivian Kha, Associate

Rachel Goren, Associate

Madeline Miller, Associate

Nicole Vermilion, Principal, Air Quality/Energy/GHG/Noise Services

Chris Shields, INCE-USA, Senior Associate

Steve Bush, PE, Engineer

Dina El Chammas Gass, PE, QSD, Senior Engineer

Lance Park, Senior Associate, Air Quality/Energy/GHG

Housing Programs and Policies:

Jennifer Gastelum, Principal

Cynthia Walsh, Senior Associate

Nicole West, AICP, Senior Associate

Amy Sinsheimer, AICP, Senior Associate

Jose Ayala, Associate

Julia Schnell, Project Planner

Hazel Choi, Project Planner

Grant Applications and Management:

Isabelle Minn, ASLA, LEED AP, Principal

Andrea Howard, Senior Associate

Rachel Jacobson, Associate

Jenny Yu, AICP, Associate

---

2. Approach

2.1. Provide an approach for completing the scope of work. Discuss any unique ideas/concerns related to the project.*

PlaceWorks' approach to all projects focuses on collaboration. Our planners work as an integrated team to prepare analysis and technical documents that address regulations at the local, regional, and state level. We also understand the importance of listing and addressing community concerns on projects, even if not in direct alignment with 'technical' needs. Whether managing public outreach, analyzing environmental impacts, or crafting practical, cost-effective mitigation, we serve as integral partners in a host of environmental and planning processes. We pride ourselves on innovative problem solving, accuracy, and attention to detail.

In this role, our senior project management team will function as an extension of the City's management team with a focus on the overall vision, budget impacts, and timeline. In this role, it will be necessary to coordinate both with the City staff and members of the consulting bench assigned to various project components. The overarching responsibility will be to help chart a course for projects to move forward, ensure that there are resources assigned to overcome roadblocks, and keep the process moving forward. Communication with all members of the team is essential to this task. We have decades of experience working with other consultants (including direct competitors) to achieve a mutual goal. When we serve in this capacity, we serve the City and advise on actions best suited to meet the City's vision.

Meetings

PlaceWorks will participate in regular management meetings. Typically, recurring meetings are set for the entire City/Consultant team to review changes to the projects, results of technical analysis, and identification of issues in sufficient time to avoid delays as they are being resolved. We will attend these meetings, follow up on assignments, and direct other team members as appropriate. As work products are drafted, we will review and edit them to ensure that the resulting product is in line with City expectations. Issues raised during the review will be discussed at the senior level before providing direction. Because institutional memory is so important, major interpretations or decisions will be documented for the file to enable research on decisions after the fact.

Staff Reports and Presentations

All products will be reviewed by senior PlaceWorks managers before submittal. PlaceWorks will use the City's format for all products, or work with the City to develop a format if one does not exist. All staff reports will include graphics, photographs, analysis, and findings, and all attachments will be available for posting on the internet. We understand that there may be more than one reviewer for products, and we are ready to work with the City and reviewers to consolidate, reconcile, and make edits as appropriate. To the extent that we will learn both what information is essential and how it should be presented in City format, our goal will be to ensure documents are ready with a minimum of review from the City.

Our staff will ensure that all documents are suitable for posting on the City's website and follow through to ensure that the posting(s) are complete. Our staff will also assist as needed in preparing ordinances, resolutions, and approval letters to complete the project. As part of this task, PowerPoint slides and/or other presentations will be prepared to assist the Commission and Council consider the project

Quality Assurance Plan

PlaceWorks prides itself on its high-quality work products and recognizes the role that this quality plays in securing repeat business. Elements of our QA/QC program are described below.

Personnel and Responsibilities: For most projects, associate-level staff members compile and sort data, perform routine field activities, and prepare initial drafts of documents. This is both cost-effective for the client and provides necessary training and experience for our staff. To ensure the success of this approach, however, our project

managers stay involved with the project and carefully review all work products, including administrative drafts, before they are transmitted for review. Documents also undergo review by one of the company's principals as part of the PlaceWorks commitment to quality.

Preparation of Documents. PlaceWorks understands the importance of complete, reader-friendly, technically accurate work products. Before finalization, all documents are submitted to the firm's word processing and editing team, which is responsible for putting the document into a standard or custom format (depending on the project) and performing a series of systematic checks on the document (e.g., spell-check, headers/footers, table of contents). The document is then sent to a technical editor, who reviews it for consistency, readability, grammar, and graphics or typographical errors. After these issues have been corrected, the document is reviewed by another senior project manager or one of the firm's principals.

Budget and Schedule Control

Schedule Control. Communication is the best means of ensuring that projects remain on task and budget. Each project has similar milestones that must be met, such as project completeness letter, technical analysis, CEQA, conditions of approval, staff report, and presentation materials. PlaceWorks schedules regular conference calls and meetings to allow rapid and frequent checks on progress

If the schedule starts to slip, we first try and determine the reason. If it is a PlaceWorks staff resources issue, we can bring more staff into the project to meet the requirement. If the issue is outside of our control, then finding out early can help us recommend solutions to getting things back on track. Ultimately, it comes back to communication and making sure the City is aware of the schedule and our commitment.

Budget and Funding Requirements. PlaceWorks prepares monthly invoices detailed to billing codes and based on task orders, work authorizations, and funding sources. We will make any changes to the assignments following discussion with the City and ensure that the monthly billings follow the corrected weekly reports. Each new assignment will have a project number and a series of labor codes based on milestones or tasks. PlaceWorks will keep the City apprised of the work progress and budget as part of the weekly and monthly reports

---

2.2. Level of Effort Letter*

Upload a copy of a level of effort estimate indicating an estimate of hours to complete the tasks outlined in the Scope above. The estimate should be an itemized staffing breakdown in spreadsheet form, indicating personnel classification and hours for each consultant team member and sub-consultant for each work task.

PlaceWorks_Pricing_Proposal.pdf

---

3. References

Provide at least two (2) references for the key individuals on the project team.

3.1. References*

Make sure to include phone and/or email contact information at a minimum for each reference.

To provide the City with a better understanding of our past work, we have provided project write-ups to accompany each reference. References can speak to the staff identified within each area of work.

Current Planning Development Review

Benicia Rose Estates Staff Support Services for the City of Benicia. PlaceWorks will assist the City of Benicia Community Development Department with entitling and conducting California Environmental Quality Act (CEQA) review for the "Rose Estates" planning application. The project is on the 527 "North Study Area" property and consists

of 1,080 dwelling units (20% lower-income units, including transitional and supportive housing), approximately 20 acres of commercial and office space, and 280 acres of open space and parks. The existing General Plan land use designations for the almost 530-acre project site are Limited Industrial and General Commercial. Surrounding land uses include the City of Benicia Water Treatment Plant, General Industrial, General Open Space, and unincorporated County land. Acting as consulting project manager, PlaceWorks staff will be responsible for: Managing the review process; Coordinating with the project team and applicant; Conducting review for completeness and zoning compliance in accordance with the Permit Streamlining Act; Preparing the required CEQA documentation; and Preparing public hearing materials.

2127-2159 Dwight Way Use Permit for the City of Berkeley. PlaceWorks assisted the City of Berkeley with the entitlement review for 2127-2159 Dwight Way in the South Area Commercial zoning district. The project utilized SB 330 and State Density Bonus Law for a Use Permit to allow the demolition of two existing residential buildings and the construction of a 66-unit multi-family residential building. PlaceWorks was responsible for managing the review process in accordance with the Permit Streamlining Act, conducting review for completeness and Code compliance, coordinating CEQA review, preparing necessary public hearing documents, and attending the Zoning Adjustments Board (ZAB) public hearing for the project. The project was approved in one ZAB hearing.

Reference: Allison Reimer, Associate Planner, City of Berkeley | *510.981.7439* | *ariemer@berkeleyca.gov*

Vista Del Grande Development Entitlement and CEQA Review for the City of San Carlos. PlaceWorks is assisting the City of San Carlos with entitling and conducting California Environmental Quality Act (CEQA) review for the “Vista del Grande” planning application. The approximately 12-acre project consists of 85 dwelling units, with a mix of single-family residential and duplex units, and is utilizing State Density Bonus Law. Acting as consulting project manager, PlaceWorks staff is responsible for: Managing the review process; Coordinating with City staff, the PlaceWorks CEQA team, and the project applicant team; Conducting review for completeness and zoning compliance in accordance with the Permit Streamlining Act; Preparing the required CEQA documentation; and Preparing public hearing materials.

Reference: Lisa Costa Sanders, Principal Planner, City of San Carlos | *650.802.4207* | *lcostasanders@cityofsancarlos.org*

Waterfront District Design Review for the City of Hercules. PlaceWorks assisted City staff with design review for six blocks within the Village Neighborhood District in the Waterfront District Master Plan area in the City of Hercules. This is a new mixed use neighborhood planned for residential and commercial uses around a planned Amtrak stop and ferry terminal. Development is regulated by a Form-Based Code adopted in 2008 and amended in 2012 and 2016. It is intended to be a pedestrian-oriented housing area with character derived from the City of Hercules’ industrial past. PlaceWorks was engaged by the City to review development submittals to ensure high quality architectural design, streetscapes and open spaces.

The first project, called “Block N”, borders John Muir Parkway and Refugio Creek. It is a 162 unit apartment building between John Muir Parkway and a natural creek open space area. It includes retail at the ground floor and a set of 10 townhomes along the creek. PlaceWorks Associate Principal Bruce Brubaker, a registered architect, reviewed project submittals for completeness, attended meetings with applicant and staff, analyzed the submittal for conformity to the Form Based Code, and provided guidance to staff and the applicant on architectural issues. Associate Principal Sarah Gronquist reviewed drawings for site landscape issues and Principal Charlie Knox reviewed compliance with environmental mitigations. The applicant revised the submittal according to input and the project was approved by the Hercules Planning Commission in May 2017. Since the Block N project was approved PlaceWorks has reviewed subsequent projects for Blocks Q & R in 2018 and Blocks M, O, and P in 2019.

Long Range Planning Policy and Strategies

Santa Rosa General Plan Update and EIR for the City of Santa Rosa. PlaceWorks is leading a comprehensive update to Santa Rosa's General Plan built on multi-faceted, meaningful engagement to help the community "bounce forward" to redesign physical and social structures damaged by the 2017 Tubbs Fire, impacts of COVID-19, and racial injustice, with the goal of becoming more resilient and cohesive than ever before. The four-year project commenced in Spring 2020 with a community-driven refinement of the project's comprehensive Community Involvement Strategy to connect with all segments of the community, including those often excluded from civic processes. With the Community Involvement Strategy as a foundation, we've employed a nimble mix of high-touch and high-tech engagement tools and methods—a comprehensive project website, informational videos in English and Spanish, interactive online surveys, paper surveys, school-based projects included in local high school curriculums, in-person and virtual workshops and open houses, pop-up events—to reach community members with diverse backgrounds and points of view for each phase of the project completed to date. This summer, we will release the Draft General Plan that is built around the previously created Preferred Alternative and Community Vision for the future which emphasize health, equity, resilience, and adaptation to climate change.

Subregional Action Plans for Contra Costa Transportation Authority. PlaceWorks updated the five subarea Action Plans, which comprise a unique framework statewide. The effort involved a complex combination of analysis, agency facilitation, community engagement, and policy/action development. PlaceWorks staff successfully led intensive coordination among diverse stakeholders, the community, and staff and elected and appointed officials from more than 20 jurisdictions. The updated plans include a host of actions to ensure that local jurisdictions and CCTA can meet their targeted goals and ensure the Contra Costa transportation system serves everyone equitably.

Reference: John Hoang, Director of Planning, Contra Costa Transportation Authority } 925.256.4729 | *jhoang@ccta.net*

San Mateo General Plan Update for the City of San Mateo. PlaceWorks led a multi-disciplinary team to update the City's General Plan and prepare an EIR. General Plan 2040 was adopted in March 2024 and identifies solutions to address the critical need for housing, traffic congestion, improving transportation connections citywide for all modes of travel, and plans for a future that after the current voter-enacted height and density limit has sunset or is overturned by voters. Joanna Jansen was the Principal in Charge and led all phases of the project: establishing the vision and values for the future; creating and evaluating a range of land use and circulation alternatives; updating the goals and policies; and creating a user-friendly General Plan and associated EIR. The City emphasized equitable outreach throughout the process and PlaceWorks worked closely with the Peninsula Conflict Resolution Center to reach Spanish-speaking and low income residents. The General Plan team collected input through face-to-face and virtual community meetings, pop-ups, intercepts, self-guided open houses, presentations to community and neighborhood groups, project website, online surveys, and online engagement tools. Joanna also served as the lead facilitator at all community workshops and General Plan Subcommittee meetings.

PlaceWorks helped lead a General Plan update that covered eight elements and ten large ideas within San Mateo that will guide the next 20 years of San Mateo. The General Plan was adopted on March 18 2024. The elements in the General Plan included Land Use, Circulation; Community Design and Historic Resources; Conservation; Open Space, and Recreation; Public Services and Facilities; Safety; and Noise.

Title 17 Zoning Code Comprehensive Update and Accessory Dwelling Unit Ordinance for Tuolumne County. Following adoption of the Tuolumne County General Plan in 2019, PlaceWorks assisted the County with a comprehensive update of the Zoning Code. The Zoning Code Update focused on changes needed to implement the

land use policy direction from the General Plan, including focusing growth and development into established communities, streamlining housing development, and promoting economic development in the county. The update also responded to new State law requirements, including recent legislation regarding housing production, accessory dwelling units, and other new residential requirements. Through the Zoning Code Update, PlaceWorks modernized the code and improved its user-friendliness and established a more logical and streamlined development review process. PlaceWorks worked closely with multiple committees, the Planning Commission, and Board of Supervisors to ensure the process aligned with County and Board priorities.

Land Use Economics

Dana Point Economic and Market Profile for the City of Dana Point. Dana Point is essentially built out; economic growth and compliance with state housing law necessitates reuse, redevelopment, and/or intensification of existing buildings and developed areas. As a precursor to a general plan update, the Economic and Market Profile provided a common factual foundation for discussing trade-offs between various types of development in a limited number of opportunity areas.

The profile's economic analysis elucidated the economy in Dana Point and quantified the current and projected market demand for office and industrial development for 5-, 10-, and 20-year horizons. The retail market demand analysis projected demand for retail stores, personal services, dining, lodging, entertainment, and commercial recreation and identified strategies to capture leaked retail spending and attract more consumer spending from beyond the city. The profile also included a residential market demand analysis describing the current residential market and how Dana Point participates in the regional market. Finally, the report analyzed several opportunity sites to determine the types of development that would be financially feasible.

Reference: Kelly Reenders, Assistant City Manager/Economic Development & Community Services Director, City of Dana Point | *949.248.3500* | *kreenders@danapoint.org*

Housing for Middle-Income Households for the City of Elk Grove. During its housing element update, Elk Grove asked why the market was not producing missing-middle housing types and how well the market provided housing for middle-income households. PlaceWorks' market analysis summarized trends that influenced demand, described the regional market of middle-income households, and analyzed the development feasibility of missing-middle housing products.

PlaceWorks analyzed the financial feasibility of 12 types of missing-middle housing with densities of 10.2 to 30 units per acre. The analysis found that small lot/small detached products would be affordable to 50.2 percent of middle-income households. The other 11 product types would not be affordable to the majority of middle-income households.

The report recommended:

- Establish standards for small-lot middle-income housing.
- Establish landscaped open space standards for middle-income housing.
- Limit unit sizes for middle-income housing.
- Reduce development fees for middle-income housing.
- Expand first-time home buyers to include middle-income households.
- Promote regional housing development for middle-income households.

Riverside County SED Analysis for the Western Riverside Council of Governments. Over the course of three projects, PlaceWorks analyzed land use and socioeconomic data for the entirety of Riverside County. The first project disaggregated and analyzed socioeconomic data from the Southern California Association of Governments' (SCAG)

Tier 2 Traffic Analysis Zone (TAZ) geography so that they could be distributed among the County's much-smaller Tier 3 TAZs. The process hinged on PlaceWorks' ability to associate each of the 40 socioeconomic factors—from household size to type of employment—with existing land uses whose data we compiled from city and county sources. The TAZ land use data later became the foundation of the Riverside County Transportation Model.

For the second and third projects, we analyzed the future conditions based on planned land uses in county and city general plans and mapped them to the Tier 3 TAZs. After validating the distributions, we analyzed the future condition dataset compared to SCAG's projections in Tier 2 TAZs to identify "hotspots." These were TAZs where SCAG's projected growth was not feasible because, for example, the TAZ was already built out or was planned for different land uses. The TAZ data, including hotspots, were then depicted visually in an ArcGIS Web App so that jurisdiction staff could review the results. PlaceWorks also met with multiple jurisdictions to explain the analysis in greater detail before delivering the final data package.

Environmental Review

808 Alameda de las Pulgas Townhome Development EIR for the City of San Carlos. PlaceWorks led a multidisciplinary team to complete environmental review of an 87-unit townhome development in San Carlos, California. The project site is a nearly undeveloped wooded hillside that includes a natural spring. The location required careful analyses of hydrological and stormwater runoff, geology and soil stability, viewshed impacts, and biological resources, including rare plant surveys. The PlaceWorks team performed thorough historical and subsurface cultural analyses to assess potential impacts related to existing structures on the site and the previous use of the site as a bottled water facility. In addition, a second planned townhome development on the adjacent hillside property required careful cumulative assessments of traffic, connectivity, emergency access, and safety. PlaceWorks staff is currently conducting the environmental review for this adjacent development, as well as providing staff support to the City of San Carlos to manage the project. The 808 Alameda de las Pulgas Townhome Development Project EIR was selected by the California AEP for the 2024 Merit Award under the Environmental Analysis Document category.

Reference: Lisa Costa Sanders, Principal Planner, City of San Carlos | *650.805.4207* | *lcostasanders@cityofsancarlos.org*

Stanford University Belmont Campus EIR for the City of Belmont. In 2022, Stanford University submitted an application to the City of Belmont for a Conceptual Development Plan and Development Agreement to renovate and revitalize over a phased, 30-year timeframe a 45-acre campus that was formerly home to Notre Dame de Namur University. PlaceWorks served as the prime consultant to prepare the Environmental Impact Report until February 2025, when Stanford University opted to step away from the option to purchase the site. PlaceWorks provided thorough peer review of technical studies provided by the university's consultant team, prepared and published the Draft EIR, and conducted the scoping and public review processes. Key issues analyzed include aesthetics, air quality, biological resources, and historic resources.

Westport Mixed-Use Project Environmental Impact Report and Addendum for the City of Cupertino. PlaceWorks prepared an EIR for a residential mixed-use project. The 8.1-acre project site was identified as Priority Housing Element Site A3 (The Oaks Shopping Center) in the City of Cupertino General Plan (Community Vision 2015-2040). The site was developed with a one-story shopping center (The Oaks Shopping Center) consisting of five buildings occupied with retail stores, restaurants, and offices, which were built between 1973 and 1976. Existing development on the site consisted of an approximately 71,250-square-foot shopping center that was 85 percent occupied. The project demolished the existing buildings on-site and constructed 18 new buildings, that included 242 residential units and 20,000 square feet of retail space, as well as below- and at-grade parking, and associated landscape and hardscape areas. The residential component consisted of 3 rowhouse buildings, 13 townhouse buildings (attached

homes), and 2 mixed-use (residential and retail) buildings, including market-rate units and senior housing. The retail component is on the ground level of the two mixed-use residential buildings. The project generates fewer vehicle miles traveled (VMT) than the prior conditions and therefore creates less water demand, fewer GHG emissions, less noise from vehicles, and fewer air quality pollutants. The EIR included mitigation measures for construction-related impacts associated with air quality, biological resources, and cultural resources. Following certification of the EIR and approval of the project, the applicant made minor modifications to the project which included the removal of the subterranean parking and the addition of more residential units. PlaceWorks prepared an Addendum to the EIR to evaluate the impacts of the modified project.

Housing Program and Policies

Solano County REAP Collaborative and 2023-2031 Solano County Multijurisdictional Housing Element Preparation for the Solano Transportation Authority. Solano County Transportation Agency contracted with PlaceWorks in 2021 to manage the Solano County Regional Early Action Plan (REAP) Collaborative which included the cities of Benicia, Dixon, Fairfield, Rio Vista, Suisan City, Vacaville, Vallejo, and unincorporated Solano County. The first task for the REAP Collaborative focused on preparing regional sections for all the cities and the county for their State required Housing Element updates. This work included preparing a regional housing needs assessment, regional fair housing assessment, and completing outreach efforts that consisted of a countywide survey, and community meetings via zoom allowing residents from across the county to participate. Each city and the county were able to incorporate these three regional sections into the 2021- 2029 Housing Element. As a part of this work effort PlaceWorks also assisted with preparing housing elements for the cities of Benicia, Dixon, Rio Vista, Suisan City, Vacaville, Vallejo, and unincorporated Solano County. Each cities' Housing Element includes an individual site inventory, a local analysis of fair housing, an analysis of governmental and non-governmental constraints, and policies and programs specific to address the housing needs of each community. As a part of the Housing Element update process PlaceWorks acted as the liaison with the California Department of Housing and Community Development (HCD) to ensure each Housing Element met all statutory requirements. PlaceWorks also prepared the accompanying CEQA document for each housing element update. Once the cities and the county wrapped up their housing element updates the Collaborative transitioned into assisting with Housing Element implementation. These tasks included providing the jurisdictions with updated zoning code amendment language to address new state laws. Hosting a countywide Planning Commission training to get up to speed on new laws and share ideas. PlaceWorks also worked with Solano Economic Development Corporation to host a countywide developer forum and partnered with the Housing Collaborative to create a countywide ADU resource webpage. REAP 2.0 tasks for the Collaborative include a prohousing assessment for seven of the eight jurisdictions, a GIS based APR tracker to assist with annual housing element progress reports and tracking no net loss and an affordable housing forum.

Benicia Housing Element Implementation for the City of Benicia. PlaceWorks prepared the general plan amendment and rezoning necessary to enable the City to meet the affirmatively furthering fair housing (AFFH) requirements associated with HCD's compliance direction for the 6th cycle Housing Element. The project required creating a new land use designation and zone district for one of the Housing Element sites identified in the Housing Element EIR. The project was preceded by a detailed development potential review of three other project sites before the Council selected the project site.

Grant Applications and Management

Transformative Climate Communities Richmond Rising for the City of Richmond. PlaceWorks supported the City of Richmond by coordinating the City's application to Round 4 of the Transformative Climate Communities grant program managed by the California Strategic Growth Council. PlaceWorks also assisted with the post-award consultation process after the successful application, as well as supported City staff through the launch of the grant. By ensuring that each of the six partners and 15 community-led, climate-centered projects was able to navigate the State's grant processes, PlaceWorks helped the City secure and begin implementation of a $35 million grant.

5. Pricing Proposal

The Pricing Proposal shall be for the provision of all Services under the PSA. The Pricing Proposal shall comply with the following requirements:

1. PRICING PROPOSAL. A not-to-exceed dollar amount for all basic services required under the PSA, based on the parameters set forth in this RFP and the PSA. If Respondent believes other parameters are required to provide a not-to-exceed amount, Respondent shall specifically identify them in its Pricing Proposal.
2. REIMBURSABLE EXPENSES. All reimbursable expenses must be included in the not-to-exceed proposed price.
3. ADDITIONAL SERVICES. Billing rates for additional services.
4. OVERTIME. Overtime must be included in Respondent's not-to-exceed proposed price.
5. TRAVEL. Travel time must be included in Respondent's not-to-exceed proposed price.
6. SIGNATURE. The handwritten or digital signature of the Respondent.

5.1. Upload pricing proposal here*

PlaceWorks_Pricing_Proposal.pdf

---

6. Prior Litigation / Claims

1. Provide a description of any litigation or claims threatened or filed, or filed then settled, against Respondent in the past five years. Provide a description of any litigation or claims threatened or filed by your firm, or filed then settled, in the past five years. If the litigation or claim has been resolved, describe the resolution. If the litigation or claim is pending, describe the status.
2. Respondent must also provide a list of all projects for which Respondent failed to complete any work awarded, with explanation of circumstances.

6.1. Litigation Claims*

Provide a description of any litigation or claims threatened or filed, or filed then settled, against Respondent in the past five years. Provide a description of any litigation or claims threatened or filed by your firm, or filed then settled, in the past five years. If the litigation or claim has been resolved, describe the resolution. If the litigation or claim is pending, describe the status.

PlaceWorks does not have any bankruptcies, liens, stop payment notices, judgments, lawsuits, arbitrations, mediations, foreclosures, or similar actions pending.

In March of 2021, PlaceWorks was named in a cross-complaint, and a settlement was reached and the lawsuit was dismissed with no admission of fault on our part in March of 2024. The original complaint was filed in 2019 against the City of Oakland for breach of contract by Flatiron West Inc., the general contractor for the Embarcadero Bridge Replacement project. The City of Oakland cross-complained against T.Y. Lin International Group and AECOM in July of 2020. T.Y. Lin/AECOM subsequently filed a cross-complaint against DC&E/PlaceWorks. DC&E was acquired by PlaceWorks in 2011, and our preconstruction planning role on the project ended in 2007.

6.2. Failed Project Completions*

Respondent must also provide a list of all projects for which Respondent failed to complete any work awarded, with explanation of circumstances.

n/a

7. Financial and Related Information

1. Respondent is required to demonstrate that it is financially qualified to undertake the Services defined by this RFP. If selected, a proposing firm shall supply reviewed financial statements for the last 3 fiscal years if requested by the City.
2. Respondent must also provide a letter from its insurance broker attesting to the willingness to provide the required insurance coverages described in the Professional Services Agreement.

7.1. Audited and/or reviewed financial statements*

Respondent is required to demonstrate that it is financially qualified to undertake the Services defined by this RFP. If selected, a proposing firm shall supply, upon request, reviewed financial statements for the last 3 fiscal years if requested by the City.

☑ Confirmed

7.2. Letter from its insurance broker*

Respondent must confirm they're willing and able, upon request, to provide a letter from its insurance broker attesting to the willingness to provide the required insurance coverages described in the Professional Services Agreement.

☑ Confirmed

8. Discretionary Supplemental Materials

Respondent may include in its Proposal submittal, on a discretionary basis, other materials that it believes may improve the quality of its Proposal. Respondent must include an explanation of the relevancy of the other materials to the Proposal. Marketing brochures (if applicable to the specific Services for this Project) may be provided as a separate submittal.

8.1. Discretionary Supplemental Materials

Please upload all Supplemental Materials here

No response submitted

9. Agreement Requirements

9.1. Vendor hereby agrees to sign Professional Services Agreement substantially similar to the form of Professional Services Agreement attached to the RFP, or has attached proposed modifications to the form of Professional Services Agreement as an upload to this confirmation of Acceptance.*

☑ Confirmed

9.2. Proposed Changes to Professional Services Agreement Terms

If Vendor has proposed changes to the Professional Services Agreement, you must attach them to this upload, using strikeout or underline format.

No response submitted

9.3. MyCOI Registration for Insurance Tracking*

Vendor hereby acknowledges that if they are selected, they will register with the City's digital insurance tracking platform, MyCOI, and are responsible for ensuring their insurance documentation is correctly uploaded to the system, whether by the Vendor or its insurance agent. Registration invite will be sent during agreement approval stage.

☑ Confirmed

10. Forms

10.1. Proposal Authorization Form*

Please upload a signed Proposal Authorization form (Attachment D) here

PlaceWorks_Proposal_Authorization_Form.pdf

10.2. Materials Upload

You may use this area to upload a copy of your full submission packet, or any other miscellaneous materials. However please note, you will still need to fully answer all other questions and upload requirements to be deemed a responsive bidder.

No response submitted

Pricing Proposal

PlaceWorks' hourly rate sheet is shown in Table 1, followed by our administrative costs in Table 2. Our rates increase by a small percentage each year, and if selected, PlaceWorks can provide rates for subsequent years. For on-call services, we are flexible in adjusting our rates depending on the duration of the contract. We bill on a monthly time-and-materials compensation schedule.

Table 1. PlaceWorks 2025 Standard Fee Schedule

Staff Level	Hourly Bill Rate
Principal	$210-$345
Associate Principal	$195-$285
Senior Associate II	$170-$270
Senior Associate I	$160-$235
Associate II	$135-$200
Associate I	$125-$185
Project Planner	$105-$175
Planner	$90-$155
Graphics Specialist	$90-$165
Administrator	$135-$245
Clerical/Word Processing/Technical Editor	$45-$170
Intern	$80-$125

Subconsultants are billed at cost plus 10%.
Mileage reimbursement rate is the standard IRS-approved rate.
Possible Yearly Increase of 5% on bill rates.

PROFESSIONAL SERVICES MASTER AGREEMENT (ON-CALL PLANNING)

BETWEEN

CITY OF BENICIA AND

Raimi + Associates

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and Raimi + Associates, a California Corporation located at 1900 Addison St, Suite 200, Berkeley, California 94704, licensed to do business in California, ("CONTRACTOR") relating to Raimi + Associates - Planning Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Long-Range Planning Policy and Strategies

B. Housing Programs and Policies

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit B, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, and subject to the limitations described below, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

1. Notwithstanding the above, in the event the Indemnitees, individually or collectively, are made party to any action, lawsuit, or other adversarial proceeding arising from the performance of the services encompassed by this Agreement, the duty to indemnify does

not include the duty to provide an upfront immediate defense against unproven claims or allegations. Contractor will reimburse Indemnitees its reasonable defense costs caused by Contractor's negligence not to exceed its proportionate percentage of fault and as awarded by a court or arbitrator of competent jurisdiction. This indemnification obligation is not limited in any way by any limitation on the amount or type of damages or compensation payable to or for Contractor or its agents under workers' compensation acts, disability benefits acts, or other employee benefit acts.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the Services will be performed consistent with but limited to, that degree of skill and care ordinarily used by other reputable members of Consultant's profession, practicing in the same or similar locality and under similar circumstances. Nothing in this Agreement shall be interpreted to require CONTRACTOR to meet any higher standard of care, and this paragraph shall control over any such contrary provision. CONTRACTOR makes no warranties, guarantees, express or implied, under this Agreement or otherwise in connection with CONTRACTOR's services.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY or CONTRACTOR may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall endeavor to comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services. However, the Parties acknowledge, understand and agree that while timely completion of any task is of critical importance to CITY. CONTRACTOR's services shall be performed as expeditiously as is consistent applying professional skill, judgment and care and taking into account an orderly progress of the Project that is within CONTRACTOR's control.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Matt Raimi

President/CEO

matt@raimiassociates.com

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between Raimi + Associates, hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per claim and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Benicia, CA 94510

Subject: Cover Letter for On-Call Planning Services

Raimi + Associates (R+A) is excited to submit our proposal to the City of Benicia regarding its request for On-Call Planning Services.

Established in Berkeley, CA in 2006, R+A is an award-winning multidisciplinary firm that brings to all projects a unique specialty in community planning emphasizing health, equity, sustainability, authentic engagement, and high-quality urban design. R+A has worked extensively across California and the Bay Area. Our recent and ongoing Bay Area experience includes general plans for South San Francisco, Petaluma, and East Palo Alto, area plans, notably the North Walnut Creek Downtown Specific Plan, Downtown Watsonville Specific Plan, and Sunnyvale Moffett Park Specific Plan, objective design standards for the cities of Palo Alto, Milpitas, and Marina, and housing elements for the cities of Berkeley, Milpitas, and Petaluma, and multiple community engagement efforts.

We are requesting that we be considered for the following categories of professional services:

4.3: Long-Range Planning Policy and Strategies

4.7: Housing Programs and Policies

R+A has a talented team with expertise in comprehensive and community planning, urban design, land use policy and analysis, GIS mapping, community engagement, public health, sustainability, and graphic design to support the City on a variety of project needs. We are confident that our strengths and core competencies in planning, zoning, urban design, and community engagement will align well with the needs of the City of Benicia.

We have reviewed the City of Benicia Professional Services Agreement and we can comply with the requirements except as noted in the Professional Services Agreement Proposed Modifications section of this proposal and the separately uploaded document proposing changes to the Agreement. If you need any additional information, please do not hesitate to ask. Thank you for the opportunity to submit our qualifications.

Sincerely,

Matt Raimi

Firm Profile

Firm Description

Raimi + Associates, an S-Corporation established in 2006, is an award-winning multidisciplinary urban design, planning, policy, and research firm with offices in Berkeley and Los Angeles. Over the years, we have served dozens of communities in California and across the nation as trusted advisors, skilled practitioners, imaginative problem solvers, and effective communicators. We help communities achieve their long-term visions by listening to and learning from ordinary people, partnering closely with our clients, and relying on our keen eye for place.

Our firm's planning and urban design expertise is complemented and informed by our focus on public health, equity, sustainability, and program evaluation. To address the complexity of communities, Raimi + Associates integrates a host of interrelated subjects — land use and design, sustainability and green building, public health and social equity, and public engagement and visioning — into planning and social research efforts at a variety of scales. Our work focuses on six practice areas:

- **COMPREHENSIVE PLANNING**, including citywide general and comprehensive plans, community plans, TOD plans, and vision plans.
- **URBAN DESIGN + AREA PLANNING,** including specific plans, neighborhood plans, vision plans, urban design studies, form-based codes, design guidelines, zoning codes and corridor plans.
- **PUBLIC HEALTH + EQUITY,** including health and environmental justice elements and policy, community wellness surveys, Health Impact Assessments (HIAs), Health in All Policies Initiatives (HiAP), mapping and analysis, and healthy development checklists.
- **SUSTAINABILITY + CLIMATE CHANGE**, including climate action plans, GHG emissions inventories, LEED-H, LEED-ND, and LEED-CC certification, and sustainability policy and analysis.
- **EVALUATION, ASSESSMENT + STRATEGIC PLANNING**, including community assessments, impact and developmental evaluation, and organizational strategic planning.
- **ENGAGEMENT, COMMUNICATION, + TECHNICAL ASSISTANCE,** including community engagement programs, meeting facilitation, policy/program strategy, skills training, branding, graphic design, and website design.

Whether it's updating a city's comprehensive plan, developing health and sustainability objectives, creating a targeted neighborhood retrofit plan, guiding a project through the green building process, or generating a vision for a multi-jurisdictional corridor, we think holistically and examine the physical, environmental, health, and socioeconomic challenges of planning and design. This approach allows us to successfully develop, assess, and implement community plans, implementation programs, community outreach strategies, and policy framework for the cities and communities we work in.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

Planning Approach

"Place-Based" Approach

R+A structures comprehensive plan processes and content based on the specifics of place, recognizing that each area of the town is unique and serves a specific role in the community. We will consider Benicia's components – its neighborhoods, corridors, and center – and work with the community to identify where future change should and should not occur. This "place-based" structure will form the basis for any land use analysis and then area-specific goals, policies, and programs.

Authentic Engagement

Our approach is "meet people where they are" by engaging a wide variety of residents and groups – not just those that are typically involved in planning – using methods that are convenient for them. We develop systematic community engagement strategies that outline a transparent process, identify key populations throughout the city to strengthen existing bridges between residents and decision-makers, and ensures that the community feels ownership of the Plan moving into the future. Key is to use easy-to understand materials and to offer a wide array of ways to participate in the process – social media, online surveys, large and small group meetings, strategies for "going to the people."

Environmental Justice

R+A was founded for the specific purpose of integrating health and equity into the planning process. R+A has prepared dozens of reports, studies, and plans that address the intersection between planning, health and equity. Notable documents are the Plan for a Healthy Los Angeles, the first guidance document on incorporating health in California general plans ("How to Create and Implement Healthy General Plans" with ChangeLab) and nationally recognized publication on health and climate change for the US Sustainability Directors Network (USDN). With our long history guiding us, we will weave health, environmental justice, and equity considerations into General Plan Updates to ensure positive outcomes can be generated through coordinated land use and transportation planning, economic development, pollution reduction, and public facilities siting, among other strategies.

Technical Expertise

We bring impeccable professional credentials to the project. R+A is an established leader in comprehensive planning and environmental justice, and our team includes experts in land use and community design.

Implementation-focused

We craft plans with the primary users in mind – lay community members, City staff and decision-makers, and property owners and development professionals. We prepare plans that articulate a compelling vision, provide precise policy direction, and prioritize key implementation actions.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

Project Management Approach

At R+A, we specialize in managing large, complex projects. We regularly serve as the prime consultant for projects of all scales, and we are very comfortable leading projects with tight timeframes and those with multi-year schedules. Our approach includes the following key elements:

Commitment

Raimi + Associates is a mission-driven group of professionals. We are selective about the type of work we choose to pursue, and we care deeply about the success, quality, and impact of every project we agree to complete. When you hire R+A, you get a dedicated partner, and your projects are our top priority. We consider a contract to be an ethically binding agreement to provide the services we promised and are known for going out of our way to do so, even when it requires extra effort, flexibility, or coordination on our part. We have built our national reputation on delivering the highest quality work products and deliverables.

Senior-Level Experience

The project will be led by senior leadership who combine managerial expertise with advanced technical knowledge spanning a range of topics. We understand how to produce the highest quality deliverables, efficiently facilitate the workflow, and meaningfully engage stakeholders along the way. The principals we have put forth in this proposal will be the ones actually creating and coordinating the work you need. You will get personalized service and commitment, not a rotating cast of unfamiliar project managers.

Work as an Extension of Staff

We know from experience that management success turns on effective communication and a close working relationship between the consultant team and the client. Therefore, our goal is to form a seamless team with the client's staff, who have invaluable knowledge about the community, its stakeholders, and their vision. This approach works because our style is collaborative, personalized, flexible, and easy to work with. As a result, we have developed strong long-term relationships with clients throughout the state and across the country.

R+A will incorporate the City's Project Manager into project team working meetings to share ideas and create solutions to complex planning challenges. We commit to weekly or bi-weekly check-ins and a series of staff and team working meetings at critical junctions in the process.

Leverage the Value of Teamwork

Complex projects require extensive hands-on management and coordination of staff working across a wide breadth of topics through each phase of the project. Our principals leading the project know how to elicit efficient, thorough, and thoughtful work from our team and staff by creating and maintaining a collaborative work environment. Team members will be assigned to working groups responsible for technical topics, community engagement, and project management and administration. There will be some standing working groups, while others will be ad hoc or temporary, but all will have a designated lead who will both coordinate the group and liaise with other groups and leads. This approach works because of our well-established relationships within the team.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

Clear Roles and Project Organization

We also focus on clear roles and responsibilities. So that staff understand where they fit into the larger picture during each phase of the project, we identify primary responsibilities for technical analysis, product development, coordination, key interfaces, and decisions. A clear picture of accountabilities and relationships helps the project team work efficiently, reducing the time a project manager must spend revisiting and clarifying basic responsibilities.

R+A will use several tools to ensure that roles and responsibilities during each phase of the project are apparent to all team members. A team roster will describe each person's position, responsibilities, and working group assignments. To complement the roster, a project organization chart will show the positions within each working group and how they fit within the project structure. Finally, the project work plan will identify the specific work products that individuals and working groups are responsible for during each phase of the project.

Workflow Control

Our internal management processes ensure that resources are being activated and focused per the project scope to ensure maximum value and efficient delivery. These processes include a work breakdown structure, a work plan, a project schedule, specific task orders, and project status reports. The work breakdown structure is a visual diagram of the workflow between the interim work products needed to produce final project deliverables. To develop the work breakdown structure, we reverse engineer. This starts with an outline of the final project deliverables and how they will be used to advance implementation. Working backwards from there, the work breakdown structure divides the final deliverables into smaller, more manageable work products, shows dependencies among work products, and identifies the decisions and decision-makers associated with each work product and step.

The project schedule transposes the work breakdown structure onto the project timeline. It specifies timeframes for project work product development, client review, community engagement, and meetings. The project schedule is updated, as needed, throughout the duration of the project. Day-to-day operations are guided by the project work plan. The work plan translates the work breakdown structure and project schedule into a table showing specific tasks, work products, task leads, due dates, and task status. The work plan will be a living document, updated throughout the project process.

For each task in the work plan, the Project Manager drafts a task order with a detailed scope, staffing allocation, budget, and interim and final due dates. Monthly status reports summarize the project status by work product.

Quality Control

Quality control and quality assurance (QA/QC) procedures are ingrained in our production of technical materials as well as in our review and refinement of any sub-consultant work. The protocols conclude with the systematic, independent review of deliverables by qualified professionals not directly involved in production.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

Firm Capacity and Resources

Raimi + Associates employs 25 professionals in a wide array of specialties within the urban planning, design, and research sectors. We have the capacity and resources in-house to support the City of Benicia with the on-call planning services specified.

Prior Litigation

Since our founding in 2006, Raimi + Associates has never been involved in any litigation for any project. R+A has not failed to complete any work awarded.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

Qualifications and Expertise by Service Area

4.3: Long-Range Planning Policy and Strategies

R+A frequently works in areas that require a thoughtful and sensitive integration of land use policy, regulatory planning, and urban design. Over the past 18 years, R+A has worked closely with numerous City and County agencies to complete general plans, specific plans, design standards and guidelines, policy frameworks, visioning, implementation programs, and technical analysis. While we tailor our approach to each project, we think holistically. Each of our efforts addresses the dynamic between growth and land use change and brings to the forefront issues of diversity, equity, socioeconomic opportunity, public health, sustainability, and quality of life. Whether planning for a city, district, or street, we use proven urban design principles that foster pedestrian-friendly environments, human-scaled spaces, and attractive buildings in which companies, workers, residents, and visitors truly want to be.

Land Use and Urban Design Approach

R+A's approach to land use planning and urban design begins with an in-depth understanding of both the site and the existing physical, regulatory and political context. We do this through spatial analysis, a literature review of relevant plans and policies, engagement, evaluation of past planning efforts, and best practice research. Informed by community engagement processes, R+A then works to identify opportunities and constraints, upon which we develop planning and policy solutions that are contextualized to the needs and goals of the community.

In our area planning work, we frequently prepare project alternatives for consideration by the client, stakeholders and the community *(Figure 1)*. The alternatives consider and accentuate the differing priorities and allow for all parties to better understand the trade-offs associated with

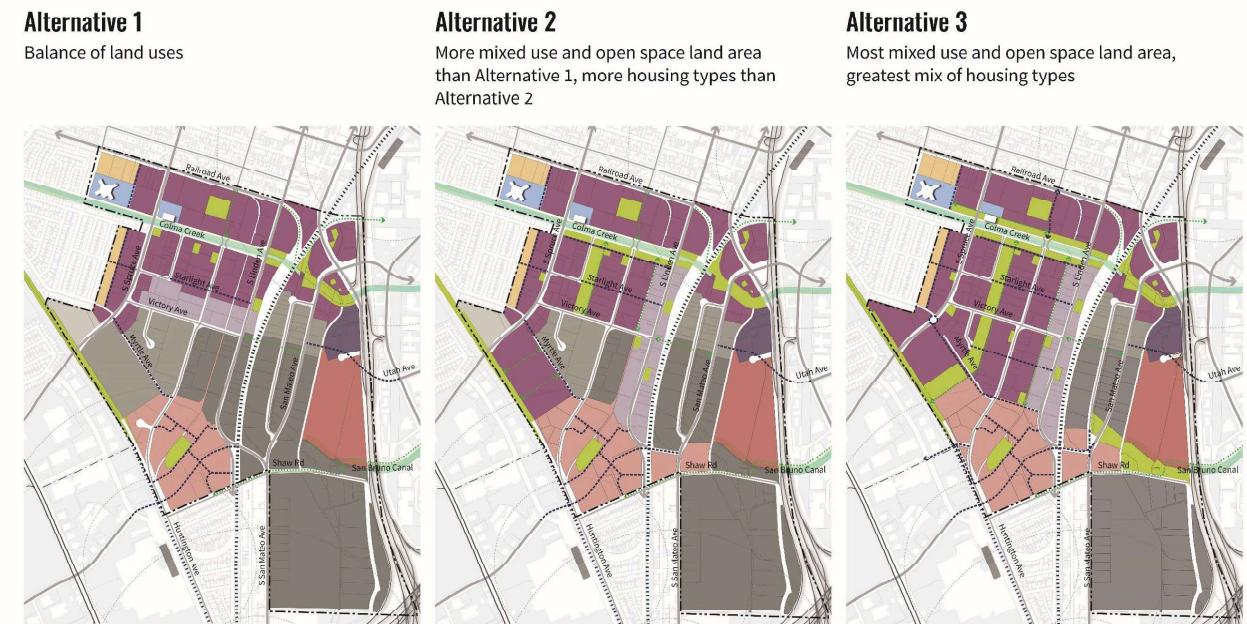

Figure 1 Lindenville Specific Plan Alternatives

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

various goals, priorities, and community benefits in each option. Using educational tools and interactive activities, the R+A team then works to ensure that proposed alternative, plans, and policies are prioritized and refined by the community and are feasible for implementation.

Zoning Code and Urban Design Regulations Approach

Raimi + Associates has ongoing and recent experience preparing zoning code amendments, design guidelines, and objective design standards in many communities across the State. In our design standards and guidelines work, R+A's approach understands that to encourage high-quality, human-scaled, and context-sensitive design, standards need to consider development at multiple scales, from large scale strategies to fine-grained architectural strategies *(Figure 2)*. To complement development and design standards, R+A often pairs the standards with design guidance or intent statements that allow the code to elaborate on the purpose of specific design standards. Together, this approach ensures a simple, understandable, easy-to-use, and implementable policy that will result in high-quality design. Our approach also provides both certainty and flexibility to project applicants while allowing for a diversity of project design and ease of review for city staff.

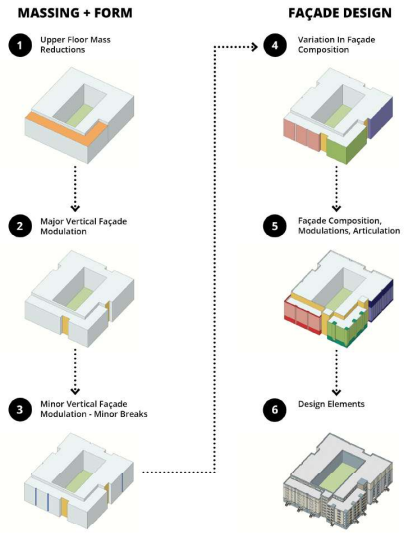

Figure 2 Palo Alto Objective Design Standards

Further, R+A staff have a thorough understanding of the development review process - from creating policies in General and Specific Plans to preparing codes and guidelines to master plans and building design projects. Our staff is trained in architecture to test the standards for how they result in a physical, built form and have the visual communication skills to translate complex regulations into visuals that the public can understand.

Community Engagement and Presentations

At Raimi + Associates, we believe that engaging the public and stakeholders in the decision-making process is essential for planning projects to be successful. R+A specializes in developing and implementing multi-faceted, inclusive and evolving community engagement tools and processes that are tailored to and integrated in each step of the development of a plan. At its core, our approach is "meet people where they are." We engage with a wide variety of residents and groups and prioritize the voices of those who have been historically excluded from the planning process. This approach has allowed us to build consensus on some of the most intractable challenges faced by communities.

Meeting facilitation is a cornerstone of our work. We provide meeting facilitation between community members, businesses, working groups, and decision makers. We regularly facilitate meetings on contentious issues with opposing groups through our planning, evaluation, and engagement work. Our team is skilled at managing conflict and guiding productive conversations around community development topics.

Project Experience

Long-range planning is the cornerstone of R+A's community planning work, and we have led an impressive roster of general and area plans throughout the state over the past decade. Our firm has a proven ability to develop creative planning solutions that balance the preservation of existing quality of life with the need to accommodate new development, with an emphasis on health, equity, and sustainability. The following lists a selection of our project experience, followed by descriptions of select projects. More information is available in Appendix B: Supporting Documents.

R+A General and Area Plan Experience

- Petaluma General Plan Update
- East Palo Alto General Plan Update
- Marina General Plan Update
- South San Francisco General Plan Update*
- South San Francisco Lindenville Specific Plan
- Walnut Creek North Downtown Specific Plan
- Sunnyvale Moffett Park Specific Plan*
- Mountain View East Whisman Precise Plan*
- Mountain View North Bayshore Precise Plan*
- Downtown Watsonville Specific Plan*
- San Jose Diridon Station Area Plan
- Santa Clara El Camino Real Specific Plan
- Mountain View El Camino Real Precise Plan*
- Thousand Oaks Downtown Core Master Plan
- San Leandro Bay Fair TOD Specific Plan*

**Denotes APA award-winning plan*

Zoning Code Experience

- Culver City Zoning Code Update
- Indio Comprehensive Zoning Code Update
- Palmdale Comprehensive Zoning Code Update
- Fremont City Center Community Plan and Form-Based Zoning Code
- Beaverton, OR Downtown Design District Development Code
- Vancouver, WA Design Guidelines

Design Standards, Guidelines, and Visualizations Experience

- Walnut Creek Design Standards + Guidelines
- North Berkeley and Ashby BART Objective Design Standards and TOD Planning
- Milpitas Objective Design Standards
- Marina Objective Design Standards
- Palo Alto Contextual Design Criteria and Objective Design Standards
- Palo Alto Zoning Analysis

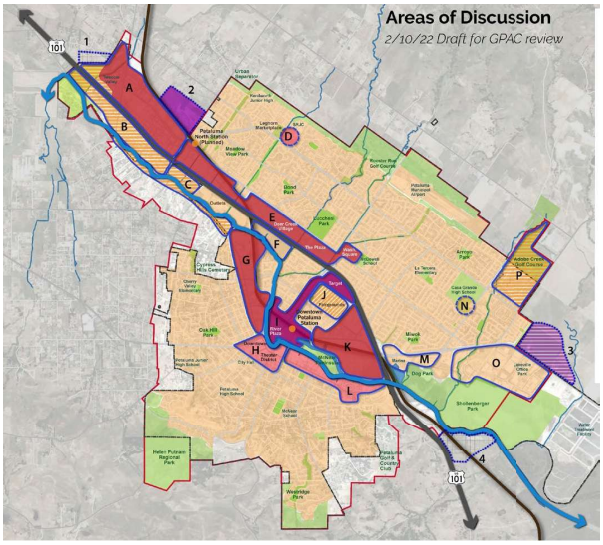
Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

South San Francisco General Plan Update

Raimi + Associates led a multi-disciplinary team of consultants to prepare comprehensive updates for the City of South San Francisco's General Plan, Climate Action Plan, Environmental Impact Report, and Zoning Code. The City of South San Francisco is home to over 65,000 people with many family-friendly neighborhoods and beautiful parks. It is also the hub of the region's biotech industry and home to many other large employers.

Through a robust and inclusive community engagement process, the City and its partners engaged residents in a meaningful discussion about balancing economic development, sustainability, and quality of life. The General Plan Update covers a broad range of topics, including Land use + Community Design, Mobility + Circulation, Housing, Economic Development, Social Equity, Parks + Recreation, Conservation + Open Space, Public Facilities, Services + Infrastructure, Noise, Sustainability + Climate Change Adaptation, and Community Safety + Public Health. The completed General Plan includes a vision and guiding principles and a detailed implementation action plan, which was developed with City departments. The R+A team met with the City Council at study sessions and hearings throughout the process to ensure that the vision reflected the values and ideas of the community. The final General Plan, available in PDF format and as an interactive e-plan, is available here.

Petaluma General Plan Update



Raimi + Associates is leading a team of consultants to provide a comprehensive update to the City of Petaluma's General Plan, in addition to preparing a Climate Action and Adaptation Plan (CAAP). Located in Sonoma County, Petaluma is a vibrant river town known for its historic neighborhoods, agricultural traditions, and preserved open spaces. The General Plan Update and the CAAP will serve as a road map for the future of development in the city and address the community's concerns about climate change, affordable housing, and public health. For these reasons, Raimi + Associates is helping the City prepare a comprehensive update of the General Plan and its associated Environmental Impact Report. In addition to the nine topics mandated by the State, the General Plan Update will touch on additional themes such as economic development, health and equity, arts and culture, and sustainability and climate change. Throughout the process, Raimi + Associates will support City staff and residents in identifying and articulating the right path forward.

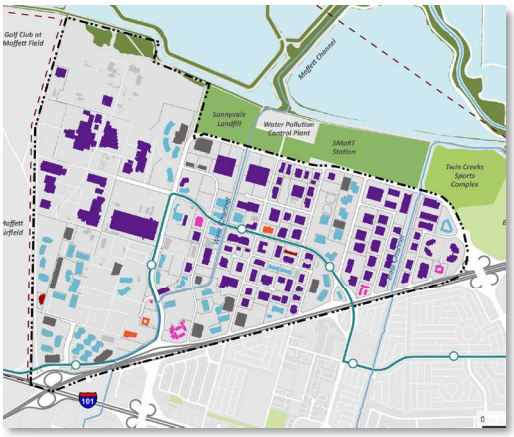
Moffett Park Specific Plan Update



Moffett Park represents a vital part of the City of Sunnyvale's economic and social identity, having for decades served as a pivotal business center for the region's high-tech demographic, while also providing recreational access to the San Francisco Bay and crucial conservation areas along the city's northern-most border. The Plan covers approximately 1,300 acres, including 20 million square feet of office and industrial space that is part of the lively mixed-use district. R+A, along with SE, DJP&A, BKF, and I&R, a team of diverse and creative thinkers, approached the area with a critical lens that balanced the preservation and continuity of existing infrastructure. The vision of creating an eco-innovation district is integrated into the Plan to steward the natural environment, enhance climate resilience, and support biodiverse native ecosystems and local community health. By collaborating with stakeholders, community members, and City Council members over the course of six interactive City Council study sessions, the Plan centers community voices, establishes community benefits, and identifies infrastructure needs for redevelopment to maximize utilization and long-term growth.

Walnut Creek Design Review Standards and Guidelines

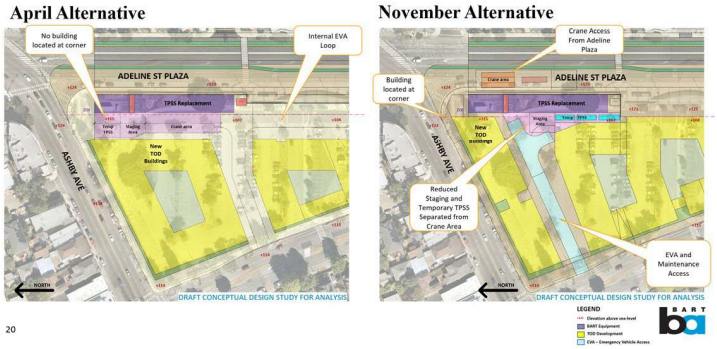
R+A assisted the City of Walnut Creek with a comprehensive update of their Citywide Design Review Standards and Guidelines. The update addressed recent California State legislation, including SB330, requiring objective design standards for administrative approval of residential projects, as well as an optional discretionary pathway with design guidelines. Beginning with an extensive assessment of the existing design standards and guidelines, R+A took a critical look at how to transform existing subjective design guidelines into a comprehensive set of objective standards that both encourages sound design practices and balances the need for standardization with local context-based conditions. Standards and guidelines, as well as accompanying diagrams and graphics were developed for both residential and non-residential development projects, broken into two separate booklets. Each book covers a wide range of topics including site design and circulation, massing and articulation, frontage design, neighborhood compatibility, open space, landscaping, and parking, among others. The project included targeted educational outreach to the development community as well as usability testing of the draft standards and guidelines.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

North Berkeley and Ashby BART Objective Design Standards and TOD Planning

Raimi + Associates is contracted with BART to support site analysis, develop a circulation framework, analyze development proposals, and write objective design standards for TOD Development at both North Berkeley and Ashby BART Stations. The North Berkeley project involved supporting the City of Berkeley in writing the Objective Design Standards in consultation with BART staff, the NBHP developer team, and architecture design teams. The Ashby Station work is underway and has involved in-depth design work and coordination on infrastructure and station emergency access. R+A has worked closely with BART Fire & Life Safety, Mechanical & Engineering, and Real Estate Development to work toward creative design solutions to complex problems to ensure quality design that meets community needs and expectations.

TPSS Access Comparison



Palo Alto Zoning Analysis

R+A worked with Lexington Planning and the City of Palo Alto to perform an analysis of proposed zoning changes in the downtown, mixed-use, and corridor zoning districts. The analysis included architectural models, floor plans, in-context renderings, and project statistics for three sites. Each site was modeled with existing zoning and proposed zoning controls. The analysis provided supporting information for decision makers to adopted zoning with increased density in the three zoning districts that supported the City's goal to increase housing in the high resource areas of Palo Alto.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

4.7: Housing Programs and Policies

Over the past few years, Raimi + Associates has worked on a number of housing policy and implementation projects throughout the State. These include Housing Elements, objective design standards, and housing overlay zones and zoning updates. This experience has resulted in a deep familiarity with the recent State legislation that affects the implementation of housing policy at the local level.

Project Experience

Petaluma Housing Element

Raimi + Associates, in collaboration with Veronica Tam Associates, helped the City of Petaluma draft its Housing Element Update for the 2023-2031 (Sixth Cycle) period. The comprehensive process examined housing needs, constraints, policy priorities, and strategies to facilitate new housing construction and preservation of existing housing to meet RHNA. As the City's housing plan, the Housing Element will guide decision-making around housing development and how best to meet housing needs inclusive of all incomes and special needs populations. Raimi + Associates also led an engagement process in conjunction with the General Plan Update process to gain insights and input from residents and stakeholders. The team hosted two interactive public workshops, a city-wide survey, and stakeholder interviews specifically for the Housing Element Update. The Housing Element was adopted by the City Council on March 20, 2023, and certified by the California Department of Housing and Community Development (HCD) on May 18, 2023.

Berkeley Housing Element and Corridors Zoning Update Project

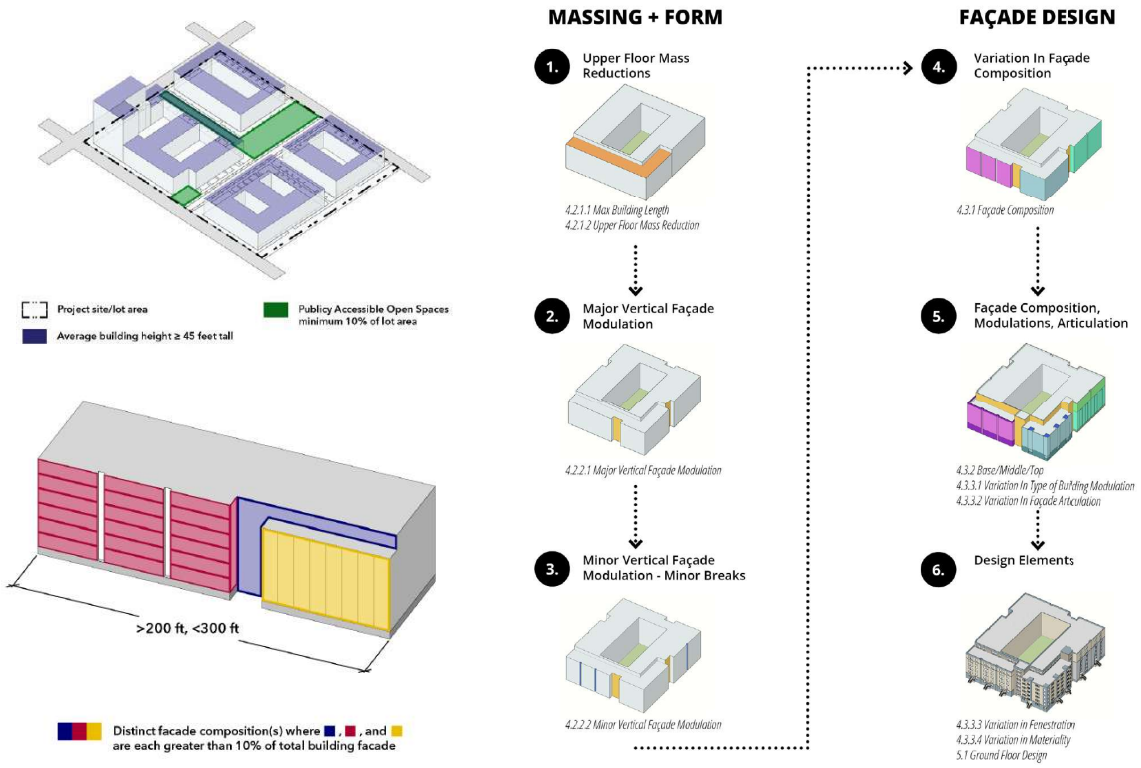
Raimi + Associates, in collaboration with Veronica Tam Associates, prepared the 6th Cycle Housing Element for the City of Berkeley. The comprehensive process examined housing needs, constraints, policy priorities, and strategies to facilitate new housing construction and preservation of existing housing to meet RHNA. As the City's housing plan, the Housing Element will guide decision-making around housing development and how best to meet housing needs inclusive of all incomes and special needs populations. R+A led the sites inventory process by establishing site selection criteria and assigning realistic capacities. R+A also led the community engagement and overall project management. The Housing Element was adopted by the City Council on January 18, 2023, and certified by the California Department of Housing and Community Development (HCD) on February 28, 2023.

Following the adoption of the Housing Element, R+A began leading the Corridors Zoning Update Project as an implementation of the updated Housing Element. Three corridors were identified as priority areas in the Housing Element that are vital hubs for hosuing, commerce, and transit. This initiative aims to increase housing capacity, address development challenges, and promote equity while preserving the unique character of each corridor. Updating the zoning of these corridors ensures they remain accessible for housing and transit needs, reflect the community's values and aspirations, and continue to support local businesses and enhance quality of life.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

Milpitas Housing Element, Objective Design Standards, and Housing Opportunity Districts

The City of Milpitas retained R+A to develop the city's first Objective Design Standards for residential and mixed-use projects. Following the preparation of the City's 6th Cycle Housing Element, R+A is currently leading the Housing Opportunity Districts project. The project includes updating the zoning for the Town Center (TC) and Neighborhood Commercial Mixed-use (NCMU) land use designations of the General Plan to foster the development of mixed-use neighborhoods. The project aims to implement General Plan goals and policies, incentivize affordable housing, help meet current and future regional housing goals, support revitalization of aging shopping centers, and create a net positive on City revenue. The project will amend the General Plan land-use designation and draft new zoning standards for the NCMU and TC to include sub-districts to allow flexible and feasible mixed-use development.



Concord Affirmatively Furthering Fair Housing Rezoning Project

Raimi + Associates was retained by the City of Concord to work on the Concord Affirmatively Furthering Fair Housing Rezoning Project (Project) which implements Program 8.6 of the 2023-2031 Housing Element. Program 8.6 aims to rezone a minimum of 20 acres of land in moderate- and high-resource areas of the City to accommodate at least 1,000 additional multi-family housing units accessible to lower-income households. The project includes identifying sites, preparing rezoning alternatives, developing General Plan and Zoning Amendments for the preferred rezoning alternative, conducting an environmental impact report, facilitating community engagement, and offering additional services to implement the rezoning.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

Downtown Watsonville Specific Plan and 6th Cycle Housing Element Implementation

R+A worked with the City of Watsonville and a multi-disciplinary team to create a vision for Downtown Watsonville. The proposed downtown core is stitched together by Main Street which also acts as a major regional corridor (152) that is partially owned by Caltrans. This area includes the city's main plaza in addition to City Hall, the city-owned parking structure, and the police station. The plan creates a vision and identity for the area, design strategies for the public realm, mobility strategies, and implementation strategies and actions for decision makers to undertake to make Downtown Watsonville a reality. R+A is currently working with the City of Watsonville to implement the changes to their zoning code to implement the programs in the 6th Cycle Housing Element including changes to the ADU ordinance, Density Bonus chapter and addressing a multitude of recent housing laws.

Key Staff

The section below provides an overview of key personnel proposed for the Benicia On-Call Planning list. Our team includes experts in the areas of land use planning, urban design, zoning and development regulations, community engagement, health and environmental justice, climate change and sustainability, graphic design, and research and evaluation. Specific staffing would be determined based on the scope of work released for future projects. References for each team member are included below.

MATT RAIMI, AICP | CEO and Principal | *Land Use Planning*

Matt, the founder of Raimi + Associates, has over twenty-five years of experience in planning across the country. He has directed numerous comprehensive plans, specific plans, corridor plans, vision plans, healthy community plans, and other complex planning projects. Examples include the East Palo Alto Ravenswood Specific Plan, North Bayshore Precise Plan, Mountain View Downtown Plan, and Ventura General Plan, among others. He is an expert in creating inclusive and authentic public planning processes and creating more equitable, resilient, and sustainable cities.

- Rachel Dimond, Community Development Director, City of Ventura | (805) 654-7800 | rdimond@cityofventura.ca.gov

SIMRAN MALHOTRA, AICP, Associate AIA | Principal | *Land Use Planning, Urban Design, and Zoning*

Simran has a background in planning, urban design and architecture and brings a distinct design perspective to all her projects, leading to the creation of vibrant, attractive, and thriving places. She has authored plans for many types of urban environments, in particular, TOD/mixed-use districts, downtowns, historic and residential neighborhoods, commercial corridors, industrial areas, and educational campuses. These efforts have resulted in community-based planning and urban design innovations that have achieved notable implementation.

RON WHITMORE, PhD, AICP | Principal | *Land Use Planning, Climate Change, Community Engagement*

Ron brings over twenty years of public sector planning and private consulting experience. He has led a variety of complex projects ranging from Community Development Plans and General Plan Updates to sustainability and economic development programs, in addition to leading the housing elements for the cities of Petaluma and Berkeley. Ron specializes in designing participatory, knowledge-driven, transparent planning processes that produce actionable plans to deliver multi-goal co-benefits. An enterprising leader, Ron directs complex projects, facilitates outcome-focused meetings, and navigates comfortably across community, business, government, and higher education environments.

ERIC YURKOVICH | Principal | *Land Use Planning, Climate Change, Sustainability*

Eric has over twenty years of experience as a community planner focused on issues of land use, housing, climate change, environmental justice, and equitable development. He led the development of the South San Francisco General Plan Update, area plans for Moffett Park, North Bayshore, East Whisman, Downtown Castro Valley, Redwood Life, Mountain View Terra Bella, and South San Francisco Lindenville, in addition to the Milpitas Housing Element and Concord's Affirmatively Furthering Fair Housing Project. He brings a strong technical background to support policy and plan development.

MEGAN MCNULTY, AICP | Associate | *Land Use and Parks Planning*

Meghan is a planner with experience developing community plans for cities throughout the west coast, from small-scale downtown plans to comprehensive plan updates. She is skilled with all steps of plan development, from analyzing existing conditions and conducting community engagement, to developing plan alternatives and plan policy. She holds a Bachelor of Arts degree from Northwestern University and a Master's degree in Urban Planning from Harvard University.

MICHELLE HERNANDEZ, LEED Green Associate | Intermediate Planner II | *Land Use Planning, Community Engagement*

Michelle is a planner and designer with experience working on comprehensive and specific plans, community engagement strategies, climate change planning, and LEED green building certifications. She has a passion for interdisciplinary approaches that incorporate sustainability into all areas of planning and placemaking. She believes that equitable collaboration is necessary in designing adaptive and resilient communities. Michelle is also fluent in Spanish.

VATSAL BHAVESH SHAH | Intermediate Urban Designer I | *Land Use Planning, Urban Design*

Vatsal Shah is an urban designer and an architect with key interests in policy-based design explorations and collaborative community-driven approaches that enhance the urban built environment. Through his professional and research experience he has developed key insights into devising inventive solutions by integrating sustainable planning practices and fostering community engagement. He holds a degree in Master of Science in Urban Design from The University of Texas at Austin. He is a licensed architect in India and received his Bachelor of Architecture from Kamla Raheja Vidyanidhi Institute for Architecture and Environmental Studies, Mumbai.

- Jason Nortz, Development Review Manager, City of Vancouver, WA | (360) 487-7844

SASHA CHEECHOV | Intermediate Planner I | *GIS Mapping*

Sasha is a planner who specializes in mapping, data analysis, and community engagement. She leverages GIS and technology to conduct environmental analysis, visualize demographics and socioeconomic data, create detailed land use and zoning maps, and provide interactive products to connect our clients and the public to data in innovative ways. Sasha is passionate about sustainability for the benefit of both people and planet, and values an authentic and equitable approach to community outreach and engagement. She believes in the positive impact of communities designed with intention and innovation.

Professional Services Agreement Proposed Modifications

Raimi + Associates has reviewed the City of Benicia Consulting Services Agreement included with the RFP. We can comply with the requirements except as noted below. If selected, Raimi + Associates would like to work together to execute a mutually acceptable contract. We would like to further discuss the following sections:

Section 1.3.C. SERVICES CONSULTANT AGREES TO PERFORM

We are requesting the following additional language be included in this section:

> *However, the Parties acknowledge, understand and agree that while timely completion of any task is of critical importance to City, Consultant's services shall be performed as expeditiously as is consistent applying professional skill, judgment and care and taking into account an orderly progress of the Project that is within Consultant's control.*

Section 1.4.D. COMPENSATION

We are requesting the Standard of Care be the basis on which the City accepts completed services per the following edits in this section:

> *Final payment will be made when all Services required under this Agreement have been completed per the Standard of Care provisions in Section 1.7.C. ~~to the reasonable satisfaction of City~~ including, without limitation, Consultant's transmittal of all deliverables to City required by Attachment A, and Services Consultant Agrees to Perform.*

Section 1.7.C. REPRESENTATIONS

We are requesting the following replacement language be used to reflect customary standard of care:

> *Consultant represents that it possesses all necessary training, licenses and permits to perform the Services. ~~and that its performance of the Services will conform to the standards of practice of a professional having experience and expertise in performing professional services of like nature and complexity of the Services working on similar, successfully completed projects.~~ Consultant represents to City that the Services will be performed consistent with but limited to, that degree of skill and care ordinarily used by other reputable members of Consultant's profession, practicing in the same or similar locality and under similar circumstances. Nothing in this Agreement shall be interpreted to require Consultant to meet any higher standard of care, and this paragraph shall control over any such contrary provision. Consultant makes no warranties, guarantees, express or implied, under this Agreement or otherwise in connection with Consultant's services.*

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

Section 1.8. INDEMNIFICATION AND GENERAL LIABILITY.

We request that the duty to defend is proportional to the Consultant's proportionate percentage of fault. Additionally, the Consultant should only be held responsible for the Consultant's errors, omissions or negligent acts. We request the following language be added as Subsection C:

> *Notwithstanding the above, in the event the Indemnitees, individually or collectively, are made party to any action, lawsuit, or other adversarial proceeding arising from the performance of the services encompassed by this Agreement, the duty to indemnify does not include the duty to provide an upfront immediate defense against unproven claims or allegations. Consultant will reimburse Indemnitees its reasonable defense costs caused by Consultant's negligence not to exceed its proportionate percentage of fault and as awarded by a court or arbitrator of competent jurisdiction. This indemnification obligation is not limited in any way by any limitation on the amount or type of damages or compensation payable to or for Consultant or its agents under workers' compensation acts, disability benefits acts, or other employee benefit acts.*

Section 1.14. TERMINATION OF AGREEMENT FOR CONVENIENCE

We request that termination for convenience section be available to the Consultant as well.

Section 1.20.A. OTHER OBLIGATIONS

We are requesting the following modification to the language in this section:

> *To the extent applicable, Consultant shall endeavor to comply with all federal, state and local laws (including, without limitation, non-conflicting City ordinances, rules and regulations) regarding non-discrimination, equal employment opportunity, affirmative action and occupational-safety-health concerns, shall endeavor to comply with all applicable rules and regulations thereunder, and shall comply with same as each may be amended from time to time.*

GENERAL PLANS

- **East Palo Alto General Plan and Westside Area Plan (East Palo Alto, CA)**
  Project Manager and Principal-in-Charge. Lead a multi-disciplinary team to develop a General Plan that includes policies and regulations for infill development, economic development, health, sustainability and social equity. Developed an Area Plan for a 160-area section of the City with detailed policies on anti-displacement, tenant rights and affordable housing. Lead an extensive public outreach effort that included two advisory committees, citywide workshops, neighborhood meetings and social media activities.

- **Mountain View General Plan (Mountain View, CA)**
  Served as Project Manager and Principal-in-Charge (in coordination with MIG). Duties included generating land use and urban design content, helping structure General Plan, and served as strategic advisor to the City.

- **Ventura General Plan Update (Ventura, CA)**
  Serving as Principal-in-Charge for Ventura's comprehensive Plan Update. The Plan will address critical topics affecting Ventura including housing, sea level rise, health and equity, mobility, and wildfire risk. Project includes extensive community engagement, including a diverse General Plan Advisory Committee, pop-up workshops, focus groups, stakeholder interviews, and public workshops.

- **Thousand Oaks General Plan (Thousand Oaks, CA)**
  Served as Principal-in-Charge for first comprehensive update to the city's General Plan. The plan incorporates new state laws and recent local planning efforts, and land use and mobility alternatives analysis. Project included complex planning and growth discussions and extensive community engagement program such as General Plan Advisory Committee, focus groups, stakeholder interviews, pop-ups, office hours, and virtual and in-person workshops.

- **Hermosa Beach General Plan (Hermosa Beach, CA)**
  Served as Principal-in-Charge. Worked with stakeholders, advisory committee, and community members to comprehensively update the General Plan and integrated Local Coastal Plan with the goal of reaching carbon neutrality.

- **Coachella General Plan Update (Coachella, CA)**
  Principal-in-Charge. Led a multidisciplinary team of consultants for the Coachella General Plan Update and Climate Action Plan. The implementation-focused Plan included a "place-based" approach to urban design and placemaking and a standalone community health and wellness element.

- **West Hollywood General Plan (West Hollywood, CA)**
  Principal-in-Charge and Project Manager. Completed a comprehensive General Plan update focusing on corridor revitalization and improved quality of life. The project focused on infill development along the major transportation corridors, advancing social services and equity, and achieving significant reductions in GHG emissions.

- **South Gate General Plan (South Gate, CA)**
  Principal-in-Charge and Project Manager. Developed one of the first "form-based" General Plans and stand-alone public health elements in the country and a strong focus on urban design, economic development, social equity and environmental sustainability. Process included extensive community engagement, a design charrette, and managing a multi-disciplinary technical team.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

- **Land Use and Circulation Element (Santa Monica, CA)**
  Project Manager and extension of staff. Prepared draft element content, developed the land use map and policies, and created a chapter on health and sustainability.

SPECIFIC PLANS AND PRECISE PLANS

- **Eastside Community Plan (West Hollywood, CA)**
  Project Manager and Principal-in-Charge. Worked with a community advisory committee to develop an implementation-focused community plan for the Eastside of West Hollywood. Topics included urban design, transportation, community identity, public safety, and economic development. The project included a community event that drew hundreds of Eastside residents to celebrate the identity of the neighborhood and provide input on the plan.

- **Orange Line BRT Sustainable Corridor Plan (City of Los Angeles, CA)**
  Project Manager and Principal-in Charge. Developed implementation-focused plan that included detailed station-specific and corridor-wide strategies for 13 stations along this active BRT corridor. Led to funding for multiple specific plans for stations along the corridor.

- **Thousand Oaks Downtown Core Master Plan (Thousand Oaks, CA)**
  Principal-in-Charge. Completed a Master Plan for a 60-acre area in and around the Thousand Oaks City Hall and Civic Arts Plaza to create a pedestrian-focused vibrant downtown in a traditional, auto-oriented suburban city. Led a team of real estate economists, architects and transportation experts in creating a design framework with four primary actions for success, all which are implementable by the City.

- **North Bayshore Precise Plan (Mountain View, CA)**
  Principal-in-Charge and Co-Project Manager. Responsibilities included managing a multi-disciplinary team, creating form based development standards and regulations that convert a suburban office park into a 21st century mixed use district with office, residential and retail. Created standards for green buildings and to preserve natural habitat and endangered species. Included an innovative community benefits program that tied the allocation of office development to the construction of residential units and significant advances in green buildings.

- **Fresno Central Southeast Area Specific Plan (Fresno, CA)**
  Project Manager and Principal in Charge. Leading a team of consultants on a specific plan for the Central Southeast neighborhood of Fresno, a 2,220 acre area southeast of Downtown. The Specific Plan addresses a wide range of topics that impact the quality of life in the community including affordable housing, jobs and economic development, transportation, parks and open space, and a healthy environment.

- **El Camino Real Precise Plan (Mountain View, CA)**
  Principal-in-Charge. Developed form-based standards and regulations for infill development along this iconic corridor. Plan identifies building heights, build-to lines, setbacks and stepbacks and other regulations to enhance walkability and improve connections with adjacent residential areas.

- **Fremont City Center Precise Plan (Fremont, CA)**
  Served as Principal-in-Charge. Led a multi-disciplinary team to transform a suburban commercial area into a downtown. Plan includes identification of sub-areas, topic-specific policies, street standards, and a form-based code.

HEALTH, EQUITY AND ENVIRONMENTAL JUSTICE

- **Plan for a Healthy Los Angeles: General Plan Health Element and Implementation Ordinances (Los Angeles, CA)**
  Project Manager and Principal-in-Charge. Responsibilities included project coordination, writing sections of the health element, creating interactive web site on existing health conditions and developing implementation programs and ordinances.

- **Riverside County Health Element (Riverside, CA)**
  Project Manager and Principal-in-Charge. Responsibilities included developing topic-specific fact sheets; working with a technical advisory committee and writing the health element, one of the first county-level health elements in the State.

- **Santa Clara County Health Element (Santa Clara County, CA)**
  Principal-in-Charge. Responsibilities included project management, developing detailed existing conditions report, coordinating a community advisory committee and a department/agency advisory committee; and writing portions of the Health Element.

- **El Monte Health and Wellness Element (El Monte, CA)**
  Project Manager and Principal-in-Charge. Led a health element for the General Plan, one of the first in the State. Process included bi-lingual engagement, detailed existing conditions contrasting health conditions in different sub-areas of the City and detailed policies and implementation programs.

SIMRAN MALHOTRA, AICP, ASSOCIATE AIA

VICE PRESIDENT | PRINCIPAL

Simran Malhotra, with a background in planning, urban design and architecture, brings a distinctive design perspective to all her projects leading to the creation of vibrant, attractive, and thriving places. She has authored plans for many types of urban environments, in particular, TOD/mixed-use districts, downtowns, historic and residential neighborhoods, commercial corridors, industrial areas, and educational campuses. These efforts have resulted in community-based planning and urban design innovations that have achieved notable implementation. For over twenty years, Ms. Malhotra's academic and professional interests have coalesced into an effective design and planning process, one that balances community concerns and objectives with market and financial feasibility. Her hands-on involvement in each project, with particular emphasis on generating and developing high-quality design, policy and regulatory documents, ensures that each assignment is completed to the highest level of client satisfaction.

KEY PROJECTS

- **Palmdale Zoning Code (Palmdale, CA)**
  Simran was the project manager for the Palmdale Zoning Code project which updates the City's development regulations to meet current best practices and in compliance with the newly adopted General Plan.

- **Marina Objective Design Standards (Marina, CA)**
  Simran is leading the preparation of Objective Design Standards for the City of Marina to conform to recent housing legislation related to objective standards and streamlined project review.

- **Milpitas Objective Design Standards (Milpitas, CA)**
  Simran was the Principal-in-charge for the preparation of Objective Design Standards for the City of Milpitas.

- **Ventura Overlay Zones (Ventura, CA)**
  Simran led the preparation of new overlay zoning districts to implement the recommendations of the City's Housing Element. The project includes working with the City's Design Review Board, local stakeholders, housing developers and advocates.

- **Beaverton Downtown Zoning Code (Beaverton, OR)**
  Simran worked with SERA Architects to prepare a Development Code for Downtown Beaverton that builds on the Urban Design Framework and Design Principles that were developed in Phase 1 of the project. This Development Code establishes the zones, use regulations, development and design standards for the parcels within the Downtown area to promote quality site planning and building design, facilitate development. The Development Code meets the State of Oregon requirements for providing a non-discretionary pathway with Clear and Objective Standards for housing projects as well as an option to gain design flexibility with a limited discretionary review.

- **Culver City Zoning Code Update (Culver City, CA)**
  Simran is leading the update of the City's development code to implement the recommendations of the City's ongoing General Plan and the recently adopted Housing Element.

- **Indio Unified Development Code (Indio, CA)**
  Simran led the effort for updating the City of Indio's zoning code to achieve consistency with the recently adopted General Plan. The project included creation of new zoning districts and updated review processes, as well as a single user-friendly Unified Development Code document.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

- **Coachella Zoning Consistency Update (Coachella, CA)**
  Simran led the preparation of a focused update to the City's zoning code. This effort incorporated the General Plan and recently adopted Pueblo Viejo Implementation Strategy Plan into streamlined zoning districts. Simran led the effort to prepare updated Zoning Code sections, Zoning map, General Plan map, and a General Plan Amendment.

- **Nason Street Corridor Phase II (Moreno Valley, CA)**
  Simran led the SCAG-funded effort to develop a comprehensive design strategy for a town center on a 60-acre parcel of City-owned property in Moreno Valley. The project included extensive community engagement and visioning that led to two distinct design alternatives. The City has since selected a developer to implement the Plan.

- **Watsonville Downtown Specific Plan (Watsonville, CA)**
  Working with City staff, an Advisory Committee, and a team of consultants, Simran is leading the preparation of Specific Plan for Downtown Watsonville. The Downtown Watsonville Specific Plan articulates a community vision for an active, 24/7 mixed use environment, and provides the regulatory framework for guiding development over the next 20-30 years.

- **River Road Design Framework and Development Code (Eugene, OR)**
  Simran worked with SERA Architects to implement the vision of the River Road/Santa Clara Community Plan in the City of Eugene through the writing of a new Special Area Zone and associated development code for the River Road Corridor in the City of Eugene. The River Road Development Code engages critically with the development of "middle housing" types and the implementation of H.B. 2001 in Oregon.

- **Palmdale General Plan Update (Palmdale, CA)**
  Simran was the Principal-in-charge and project manager for the Palmdale General Plan Update project, which was recently adopted after extensive community engagement over 3 years. The City of Palmdale is positioned to draw new residents, employees, and visitors with planned employment growth and infrastructure investments. The Plan includes economic development strategies and a "place-based" approach to urban design and placemaking.

- **Ventura General Plan Update (Ventura, CA)**
  Simran is working on the update of the Ventura General Plan and the preparation of new zoning districts to implement the proposed land use designations. Project includes extensive community engagement, including a diverse General Plan Advisory Committee, pop-up workshops, focus groups, stakeholder interviews, and public workshops.

- **Santa Fe Depot TOD Specific Plan (Orange, CA)***
  Simran led a multi-disciplinary design team in preparing an update of the Santa Fe Depot Specific Plan to transform the Depot into a vibrant transit-oriented district while strengthening its connections to adjacent residential neighborhoods, Chapman University, and the Old Towne Historic District.

- **South Lake Avenue Concept Plan and Design Project, (Pasadena, CA)***
  Retained by the South Lake Business Association, Simran led a design team to continue the ongoing revitalization efforts for South Lake Avenue. Several of the Plan's recommendations for improvements in various elements of the public realm have been implemented. These include street furniture, planter boxes, tree grates and median planting. Other long-term improvements have been initialized with the formation of a property-based business improvement district and implementation of an aggressive retail recruitment strategy.

- **Tweedy Boulevard and Hollydale Village (TOD) Specific Plans (South Gate, CA)***
  Simran was the project lead on two Specific Plans funded by a Strategic Growth Council grant. Under her direction, the Specific Plans presented an innovative hybrid approach to form based codes, recommendations for Complete Street improvements, unique urban design and streetscapes designs and implementation strategies. Expanding regional connections with the Los Angeles River and Bikeway is an important element of both plans. The Hollydale Plan is centered on the arrival of the future Eco-Rapid Transit line that is expected to extend 40 miles across the region, from Burbank to Artesia. The plans were prepared with extensive bilingual community outreach including community workshops, stakeholder interviews, study sessions and hands-on input from steering committee members.

TEACHING AND SPEAKING ENGAGEMENTS

- Panelist, Riverside APA California Conference Session, *Objective Design Standards*
- Panelist, California Natural Resources Agency Earth Day Forum, *Fostering Nature-Based Solutions*
- Panelist, Santa Barbara California APA Conference Session, *Housing By Right, Right*
- Instructor, Visalia California APA Conference, Pre-Conference Workshop: *Urban Design for Planners*

Bachelor of Arts, Geography, 2000

AFFILIATIONS

Member. American Planning Association

EXPERIENCE

Raimi+Associates
Berkeley, CA
Principal, 2012-present

National Oceanic and Atmospheric Administration/Pew Center on Climate Change
Oakland, CA
Climate Change Researcher, 2010-2012

Calthorpe Associates
Berkeley, CA
Senior Planner, 2002-2008

GENERAL PLANS

- **South San Francisco General Plan Update (South San Francisco, CA)**
  Served as Project Manager for a comprehensive update to the General Plan. Led land use policy, climate adaptation, environmental justice, and public engagement.

- **Culver City General Plan Update (Culver City, CA)**
  Serving as Project Manager. Leading land use policy and public engagement for the General Plan Update. Managing work plan, documentation, and oversight of CEQA process.

- **Seaside General Plan (Seaside, CA)**
  Serving as Project Manager. Assisting with land use policy, environmental assessment, and public engagement for the General Plan Update. Managing work plan, documentation and oversight of CEQA process.

- **Indio General Plan Update & Climate Action Plan (Indio, CA)**
  Led the City's second effort to Update their General Plan and Climate Action Plan. Managed multiple subconsultants in sifting through technical analysis and updating where necessary. Wrote Climate Action Plan including GHG forecasts and evaluated GHG reduction measures.

- **Milpitas Housing Element and Environmental Justice Element Update (Milpitas, CA)**
  Served as Project Manager. Lead a team of consultants throughout the Housing Element Update process. Managed work plan, community outreach, development, and documentation.

EQUITY & ENVIRONMENTAL JUSTICE

- **San Bernardino County Transportation Authority Senate Bill 1000 Equity Toolkit (San Bernardino, CA)**
  Served as Project Manager. Developed an online toolkit to support local jurisdictions with implementation of Senate Bill 1000 (environmental justice elements), including data analysis tools to support with the disadvantaged communities screening analysis.

- **Loma Linda Environmental Justice Element (Loma Linda, CA)**
  Serving as Project Manager. Leading an update to the Environmental Justice Element of the City of Loma Linda. Development of environmental justice analysis, policies, and community engagement strategies.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

- **Santa Clara County Heath Element (Santa Clara, CA)**
  Worked on the development of a Health Element for the Santa Clara County General Plan. The element addresses neighborhood- and regional-scale community health and wellness topics.

- **Plan for Healthy Los Angeles (Los Angeles, CA)**
  Led the development of a Health Atlas and interactive mapping tool to explore neighborhood health conditions and disparities. Wrote sections of the health element.

SPECIFIC PLANS

- **Moffett Park Specific Plan Update (Sunnyvale, CA)**
  Served as Project Manager. Led urban design, land use policy, climate adaption strategies, and public engagement for the Specific Plan Update.

- **East Whisman Precise Plan (Mountain View, CA)**
  Served as Project manager of a small area plan for a transit oriented development district around a light rain station. Wrote detailed design standards, guidelines, and implementation guide for the city.

- **North Bayshore Precise Plan (Mountain View, CA)**
  Worked as Deputy Project Manager on a plan and development code to transition a suburban employment district into a model of sustainable development. Wrote portions of the plan, including an incentive-based framework to encourage project- and district-level sustainability and incorporation of housing into the precise plan.

- **Lindenville Specific Plan (Sotuh San Francisco, CA)**
  Served as Project Manager. Led a team of consultants to develop a specific plan that implements the adopted General Plan and introduces mixed-uses in a historically industrial area of South San Francisco.

- **Castro Valley Business District Specific Plan (Castro Valley, CA)**
  Leading urban design analysis, land use vision development, and public engagement for the Specific Plan.

KEY PROJECTS

- **Petaluma General Plan Update and Climate Adaptation Plan (Petaluma, CA)**
  Project Manager: Leading a large team of staff and subconsultants in an ambitious update of the City's general plan in coordination with the development of a Climate Action and Adaptation Plan. In addition to required elements, the plan includes retail, economic development, arts, and historic resource elements. Led stakeholder interviews, design advisory group meetings, and coordinated area, pop-up, and communitywide workshops. Coordinated existing conditions analysis and the development of a community vision, guiding principles, a key strategies diagram, and policy frameworks. Presents updates and work products to various commissions and the City Council.

- **Ojai General Plan Update (Ojai, CA)**
  Project Manager: Leading a team of staff and subconsultants in a focused update of the City's Land Use, Housing, Circulation, Safety, and Environmental Justice elements. Led stakeholder interviews, focus groups, a survey, and community workshops. Coordinated existing conditions analysis;, a review of current general plan policies; the development of a community vision, guiding principles, and land use, mobility, and safety policy options; and preparation of draft elements.

- **Santa Maria General Plan Update (Santa Maria, CA)**
  Project Manager: Leading a team of staff and subconsultants in a comprehensive update of the City's general plan. Design and facilitate technical and department advisory group meetings, led two community surveys and a community workshop, and present updates and work products to the Planning Commission and City Council. Coordinated the review of existing plans, a City evaluation of the current general plan, existing conditions analysis, the development of a community vision, guiding principles, and an areas of change map, and the development and analysis of land use alternatives.

- **Berkeley Housing Element (Berkeley, CA)**
  Project Manager: Led the 6th Cycle Housing Element update in cooperation with the City and subconsultants.

- **Kaua'i Climate Action & Adaptation Plan (County of Kaua'i, HI)**
  Project Manager: Leading a team of staff and subconsultants crafting Kaua'i's first climate action and adaptation plan, including extensive community engagement. The project includes a climate hazards study, a vulnerability and equity assessment, a GHG reduction anaylsis, funding and financing strategies, and an adaptation plan tailored to facilitate implementation by County agencies.

Docusign Envelope ID: 7B3BD602-7522-41B3-882F-7D9100DEA9CD

- **San Joaquin Valley Housing Production Trends (San Joaquin Valley, CA)**
  Impediments, and Best Practices Report, SJV Regional Early Action Program (REAP) Committee, Project Manager: Led stakeholder interviews and facilitated regional workshops. Oversaw preparation of the existing conditions analysis focused on the different population, economic, and housing trends within the Valley as well as the characteristics that distinguish the Valley from other parts of the state. Oversaw the compilation of "best practice" strategies to stimulate Valley housing production, including land use policy, housing site availability, regulatory mechanisms, and funding and financing.
- **General Plan Program (County of Hawai'i, HI)***
  Program Manager: Designed, led, and managed the comprehensive review, including staff, contracts, and consultants. Oversaw demographic, housing, and economic trends and forecasts analysis; GIS-based modeling of housing and non-residential development allocations; development suitability studies; and element-specific research. Led public engagement design and implementation. Cross-walked General Plan and Community Development Plans. Managed interim amendments and annual reports.
- **Community Development Planning (CDP) program (County of Hawai'i, HI)***
  Program Manager: Led a team of long range planners, guiding them through CDP and public engagement redesign. Facilitated re-orientation toward community-based implementation, the establishment of a community engagement "community of practice," and a partnership with a nonprofit intermediary.
- **Ka'ū Community Development Plan (County of Hawai'i, HI)***
  Project Manager: Designed, led, and managed planning process and wrote award-winning rural plan. Led public engagement design and facilitation. Innovated stakeholder input, background analysis, decision matrices, transparent rationale, and implementation manuals.
- **Capital Improvement Program (County of Hawai'i, HI)***
  Program Manager: Led annual development of the inter-agency capital budget and six-year capital program. Evaluated proposed projects relative to the General Plan and Community Development Plans. Managed and developed the annual report for the Fair Share (impact/mitigation fee) program.
- **Sustainability Program (County of Hawai'i, HI)***
  Program Manager: Coordinated and integrated energy, mobility, and greenhouse gas mitigation programs. Oversaw intervention in Public Utilities Commission dockets. Represented the County with the electric utility and in state, national, and international networks.
- **Kīlauea Volcano Disaster Recovery (County of Hawai'i, HI)***
  Deputy Manager: Led Emergency Support Function 12 (Energy) and related missions at the Emergency Operations Center during the four-month eruption. Core member of Mayor's Recovery Leadership Team. Scoped and secured funding and consultants for volcanic risk assessment, economic recovery, and recovery scenario planning.
- **NorthWest Initiative (Lansing, MI)***
  Executive Director: Founded comprehensive, "healthy communities" community development corporation. Built and funded programs and team to advance neighborhood planning, corridor revitalization, health outreach, food systems improvement, community promotion, and leadership development.

**Denotes projects completed while serving as key staff at other organizations.*

ADDITIONAL PROJECT AWARDS, PRESENTATIONS, AND APPOINTMENTS

- Scenario Planning Consortium Conference: A Novel Linkage of Land Use and Hazard Planning
- Best Practice Award, American Planning Association, Hawai'i Chapter
- Urban Sustainability Directors Network (USDN) representative, County of Hawai'i

KEY PROJECTS

- **Santa Maria General Plan Update (Santa Maria, CA)**
  Serving as key staff for Imagine Santa Maria, the City's comprehensive General Plan update. Prepared materials for and facilitated community engagement activities, including technical advisory committee meetings and commmunity workshops. Wrote existing conditions reports, community engagement reports, and community surveys. Conducted technical analysis to shape the development of three land use alternatives.

- **Ojai General Plan Update (Ojai, CA)**
  Serving as key staff for the Ojai General Plan Update. Facilitated community engagement, developed land use alternatives, and wrote the Land Use Element for the General Plan.

- **Culver City General Plan Update (Culver City, CA)**
  Served as deputy project manager for Picture Culver City, the City of Culver City's comprehensive General Plan Update for the year 2045. Assisted in day-to-day project management. Wrote existing conditions reports, calculated growth projections, and wrote General Plan Elements. Designed outreach materials and facilitated community engagement events, including workshops, technical advisory committee meetings, and stakeholder interviews.

- **South San Francisco General Plan Update (South San Francisco, CA)**
  Served as key staff for the Shape SSF, the comprehensive update to the City of South San Francisco's General Plan. Facilitated community engagement, wrote existing conditions analysis, and wrote General Plan elements.

- **Central Maui Community Plan Update (Maui, HI)**
  Serving as deputy project manager for the for the Central Maui Community Plan Update. Leads day-to-day project management, will conduct a land capacity analysis, and will develop policy to guide the future of Central Maui.

- **Lindenville Specific Plan (South San Francisco, CA)**
  Served as deputy project manager for the Lindenville Specific Plan. Facilitated community engagement and wrote land use policy and the General Plan amendment. Conducted technical analysis, including a study of existing land use and urban design conditions and airport land use compatibility.

KEY PROJECTS

- **East Palo Alto City Council Strategic Priorities and Work Plan (East Palo Alto, CA)**
  Serving as key staff for the development of East Palo Alto's City Council Strategic Priorities and Work Plan that will guide priority project implementation in East Palo Alto for the next four years. Leading background research and outreach materials preparation. Facilitating community discussions on the city's strengths, issues, and priorities.
- **Petaluma General Plan Update (Petaluma, CA)**
  Serving as key staff for Petaluma's comprehensive General Plan update. Leading the development of community engagement strategies and materials related to land use, environmental justice, and more. Facilitates discussions in both English and Spanish, including advisory committee meetings, pop-ups, and community workshops. Supports project management and task coordination internally and with a team of subconsultants.
- **Concord Affirmatively Furthering Fair Housing Rezone (Concord, CA)**
  Serving as key staff, supporting the identification of sites to be rezoned for higher density multifamily housing in moderate- and high-resource areas of Concord. Preparing outreach materials and facilitating community engagement activities, including English and Spanish-language stakeholder meetings and community workshops.
- **Selma Downtown Strategic Plan (Selma, CA)**
  Served as key staff, supported project coordination and strategy and priority project development for the Strategic Plan. Developed community engagement material, coordinated outreach events, and facilitated community discussions.
- **Lindenville Specific Plan (South San Francisco, CA)**
  Served as key staff, supporting the development of the Lindenville Specific Plan and related community engagement activities. Led the development of maps and graphics, developed and translated community engagement materials, and coordinated outreach events.
- **South San Francisco General Plan + Climate Action Plan Update (South San Francisco, CA)**
  Served as key staff, prepared maps, graphics, and analysis for the General Plan and the Climate Action Plan, in addition to authoring the Our Plan section of the General Plan. Supported the development and implementation of community engagement activities. Aided in the design of the Digital General Plan and maintained the website.
- **Alameda Climate Action and Resiliency Plan Update (Alameda, CA)**
  Supported the mid-cycle update of the Climate Action and Resiliency Plan. Reviewed existing strategies for consistency with State law and industry practices, coordinated and facilitated staff working group meetings and community discussions, and supported the development of new and revised climate action strategies.

KEY PROJECTS

- **Vancouver Downtown Design Guidelines (Vancouver, WA)**
  Worked on the development of the Vancouver Downtown Design Guidelines Manual (VDDG), a comprehensive update to the 1995 guidelines. Contributed to establishing clear, user-friendly guidelines to support cohesive, sustainable urban development in the Downtown Plan Area, in alignment with zoning ordinances and comprehensive planning goals.

- **Lerdo Residential Project (Shafter, CA)**
  Worked on the Lerdo Residential Project, focusing on innovative placemaking strategies to enhance community living. Emphasized the creation of adequate open spaces and improved last-mile connectivity within the neighborhood to foster accessibility and social interaction. Designed solutions that promote vibrant, sustainable, and well-connected residential environments.

- **Fort Duncan Economic Development Plan (Eagle Pass, TX) ***
  Designed and drafted economic development plan for adaptive reuse of vacant buildings in Fort Duncan area in Eagle Pass, Texas as part of studio project. The project was in consultation with planning and economic development staff from the City of Eagle Pass. The proposal was presented to the Eagle Pass City Council.

- **City of El Paso 2044 Vision Plan (El Paso, TX) ***
  Conducted research and analysis for preparing a community inventory report and prepared future land use planning scenarios for neighborhoods in El Paso,Texas. Developed a vision plan for 2044 with vision statement, goals, objectives and policies that would govern the future land use plan.

- **Milbrae Station Transit Oriented Development (Milbrae, CA) ***
  Designed a proposal to redevelop Milbrae station and the surrounding neighborhood as a transit oriented development. Proposed a new district with increased density, mixed-use typology and accessible green public spaces.

- **Northwest Industrial District Revitalization (Portland, OR) ***
  Worked on a design proposal for Northwest Industrial District in Portland,Oregon as part of urban design studio. Developed revitalization strategies and land remediation toolkit to preserve light industrial economy and integrate mixed-use typologies.

- **City Center Urban Renewal Plan (Chandigarh, India) ***
  Proposed amendment to existing heritage laws in India to accomdate for flexible policy framework for sustainble future of modern architecture in India. Demonstrated polices through implementation of urban design strategies as part of urban renewal plan for the city center of Chandigarh, that is protected under current heritage laws.

  (Denotes projects completed while working at other organizations)*

KEY PROJECTS

- **City of Ventura General Plan Update (Ventura, CA)**
  Supports growth projections and development of land use map. Creates engagement materials and tools to facilitate public feedback on General Plan decisions. Developed Parks and Open Space element for General Plan Update to address the improvement and management of parks and open spaces within the city. Authored Process chapter of General Plan.
- **Concord Affirmatively Furthering Fair Housing (AFFH) Rezoning Project (Concord, CA)**
  Leads GIS and mapping efforts for the project. Creates collateral materials for community engagement and workshops. Facilitates stakeholder meetings and small group discussions. Worked on development of site selection criteria, analysis of parcel data to determine sites for rezoning, and creation of alternatives.
- **TRPA Tahoe Living: Cultivating Community, Conserving the Basin (Lake Tahoe Basin, CA)**
  Develops collateral materials and outreach tools for community engagement. Conducts review and research of existing data and literature to inform project decisions. Supports engagement activities for stakeholders and the general public.
- **Thousand Oaks General Plan Update (Thousand Oaks, CA)**
  Assisted with development and completion of land use map. Led land use mapping, managed and maintained parcel database, and created maps for general plan.
- **Culver City General Plan Update & Zoning Code Update (Culver City, CA)**
  Managed GIS analysis of zoning code update. Created maps and interactive products to educate public on GPLU and zoning changes. Supported community engagement efforts to gather feedback on General Plan Update.
- **Beaumont Climate Action Plan (Beaumont, CA)**
  Developed maps and graphics for vulnerability assessment and supported research and analysis pertaining to climate hazards and social vulnerability..
- **City of Marina General Plan Update & Climate Vulnerability Assessment (Marina, CA)**
  Assisted with mapping for the General Plan. Developed maps and graphics and supported research and analysis regarding climate hazards and social vulnerability.
- **Loma Linda Environmental Justice Element (Loma Linda, CA)**
  Conducted environmental justice mapping to inform community needs and locate disadvantaged communities within the city. Assisted with developing project collateral.
- **SANDAG Social Equity Analysis Methodology Development (San Diego County, CA)**
  Analyzed social equity methodology in Regional Transportation Improvement Plans and developed best practices for SANDAG. Leveraged GIS to create process and methodology analyzing distribution of project funds across the county.

SOUTH SAN FRANCISCO GENERAL PLAN UPDATE

SOUTH SAN FRANCISCO, CA

2023 APA NORTHERN CALIFORNIA - COMPREHENSIVE PLAN, SMALL JURISDICTION AWARD OF EXCELLENCE

DESCRIPTION

The City of South San Francisco is home to over 65,000 people with many family-friendly neighborhoods and beautiful parks. It is also the hub of the region's biotech industry and home to many other large employers. While the biotech industry thrives, many residents suffer from higher rates of poverty and lower health care access than the County as a whole. Coupled with an anticipated increased in flooding and sea level rise, these intersecting issues present complex challenges that require dedication and planning.

Raimi + Associates led a multi-disciplinary team of consultants to prepare comprehensive updates for the City's General Plan, Climate Action Plan, Environmental Impact Report, and Zoning Code. Through a robust and inclusive community engagement process, the City and its partners engaged residents in a meaningful discussion about balancing economic development, sustainability, and quality of life. The General Plan Update covers a broad range of topics, including Land use + Community Design, Mobility + Circulation, Housing, Economic Development, Social Equity, Parks + Recreation, Conservation + Open Space, Public Facilities, Services + Infrastructure, Noise, Sustainability + Climate Change Adaptation, and Community Safety + Public Health.

PETALUMA GENERAL PLAN UPDATE AND CLIMATE ACTION & ADAPTATION PLAN

PETALUMA, CA

DESCRIPTION

Raimi + Associates is leading a team of consultants to provide a comprehensive update to the City of Petaluma's General Plan, in addition to preparing a Climate Action and Adaptation Plan (CAAP). Located in Sonoma County, Petaluma is a vibrant river town known for its historic neighborhoods, agricultural traditions, and preserved open spaces. The General Plan Update and the CAAP will serve as a road map for the future of development in the city and address the community's concerns about climate change, affordable housing, and public health.

For these reasons, Raimi + Associates is helping the City prepare a comprehensive update of the General Plan and its associated Environmental Impact Report. In addition to the nine topics mandated by the State, the General Plan Update will touch on additional themes such as economic development, health and equity, arts and culture, and sustainability and climate change. Throughout the process, Raimi + Associates will support City staff and residents in identifying and articulating the right path forward.

HIGHLIGHTS

- Advancing economic opportunity for disadvantaged/vulnerable communities through bold action in the areas of housing, transportation, and intergenerational and multi-cultural programs
- Preserving Petaluma's distinct sense of place and riverfront character
- Creating a community plan for and actively working on adaptation of future riverine flooding and sea level rise impacts
- Conducting an inclusive and transparent community engagement process
- Clear and illustrative supporting graphics and images

MOFFETT PARK SPECIFIC PLAN UPDATE

SUNNYVALE, CA

DESCRIPTION

Moffett Park represents a vital part of the City of Sunnyvale's economic and social identity, having for decades served as a pivotal business center for the region's hightech demographic, while also providing recreational access to the San Francisco Bay and crucial conservation areas along the city's northern-most border. The Plan covers approximately 1,300 acres, including 20 million square feet of office and industrial space that is part of the lively mixed-use district. Raimi + Associates, along with a team of diverse and creative thinkers, approached the area with a critical lens that balanced the preservation and continuity of existing infrastructure. The vision of creating an eco-innovation district is integrated into the Plan to steward the natural environment, enhance climate resilience, and supporting biodiverse native ecosystems and local community health. By collaborating with stakeholders, community members, and City Council members over the course of six interactive City Council study sessions, the Plan centers community voices, establishes community benefits, and identifies infrastructure needs for redevelopment to maximize utilization and long-term growth.

HIGHLIGHTS

- Extensive civic engagement and community visioning
- Close collaboration with local property owners to integrate individual development proposals with plan-wide goals for open space, community access, and housing
- Comprehensive strategy balancing commercial activity and facilities with housing, multi-modal transportation options, and ecological interventions
- Allocation of 20,000 housing units, 10 million net new square feet of office space, and 500,000 square feet of neighborhood serving commercial
- Focus on urban ecology, over 200 acres of new open spaces
- Development requirement of creation/innovation spaces

WALNUT CREEK DESIGN REVIEW STANDARDS + GUIDELINES

WALNUT CREEK, CA

DESCRIPTION

R+A assisted the City of Walnut Creek with a comprehensive update of their Citywide Design Review Standards and Guidelines. The update addressed recent California State legislation, including SB330, requiring objective design standards for administrative approval of residential projects, as well as an optional discretionary pathway with design guidelines. Beginning with an extensive assessment of the existing design standards and guidelines, R+A took a critical look at how to transform existing subjective design guidelines into a comprehensive set of objective standards that both encourages sound design practices and balances the need for standardization with local context-based conditions. Standards and guidelines, as well as accompanying diagrams and graphics were developed for both residential and non-residential development projects, broken into two separate booklets. Each book covers a wide range of topics including site design and circulation, massing and articulation, frontage design, neighborhood compatibility, open space, landscaping, and parking, among others. The project included targeted educational outreach to the development community as well as usability testing of the draft standards and guidelines.

DESCRIPTION
Raimi + Associates is contracted with BART to support site analysis, develop a circulation framework, analyze development proposals, and write objective design standards for TOD Development at both North Berkeley and Ashby BART Stations. The North Berkeley project involved supporting the City of Berkeley in writing the Objective Design Standards in consultation with BART staff, the NBHP developer team, and architecture design teams. The Ashby Station work is underway and has involved in-depth design work and coordination on infrastructure and station emergency access. R+A has worked closely with BART Fire & Life Safety, Mechanical & Engineering, and Real Estate Development to work toward creative design solutions to complex problems to ensure quality design that meets community needs and expectations.

HIGHLIGHTS
- Extensive revisions to existing design guidelines towards clear and objective standards
- Targeted outreach and usability testing of the draft standards
- Development of clear and succinct supporting graphics

DESCRIPTION
Raimi + Associates worked with Lexington Planning and the City of Palo Alto to perform analysis of proposed zoning changes in the downtown, mixed-use, and corridor zoning districts. The analysis included architectural models, floor plans, in-context renderings, and project statistics for three sites. Each site was modeled with existing zoning and proposed zoning controls. The analysis provided supporting information for decision makers to adopted zoning with increased density in the three zoning districts that supported the City's goal to increase housing in the high resource areas of Palo Alto.

HIGHLIGHTS
- Architecture Models of Zoning Alternatives
- Infill Development
- Zoning Analysis

PETALUMA HOUSING ELEMENT UPDATE

PETALUMA, CA

DESCRIPTION

Raimi + Associates, in collaboration with Veronica Tam Associates, helped the City of Petaluma draft its Housing Element Update for the 2023-2031 (Sixth Cycle) period. The comprehensive process examined housing needs, constraints, policy priorities, and strategies to facilitate new housing construction and preservation of existing housing to meet RHNA. As the City's housing plan, the Housing Element will guide decision-making around housing development and how best to meet housing needs inclusive of all incomes and special needs populations.

Raimi + Associates developed the City's Site Inventory by conducting a thorough city-wide assessment to identify sites that can accommodate density and additional units towards meeting the City's Regional Housing Needs Allocation (RHNA) goals. Raimi + Associates also led an engagement process in conjunction with the General Plan Update process to gain insights and input from residents and stakeholders. The team hosted two interactive public workshops, a city-wide survey, and stakeholder interviews specifically for the Housing Element Update. The Housing Element was adopted by the City Council on March 20, 2023, and certified by the California Department of Housing and Community Development (HCD) on May 18, 2023.

MILPITAS HOUSING ELEMENT UPDATE

MILPITAS, CA

DESCRIPTION

Raimi + Associates led a team of consultants to prepare the 6th Cycle Housing Element for the City of Milpitas that will shape and guide housing development from 2023 through 2031. The Housing Element Update includes analyzing governmental and non-governmental constraints to housing development through a thorough review of the City's Plans and Zoning Ordinance, evaluating the City's resources, and reviewing past housing accomplishments. The Housing Element also includes an assessment of the City's capacity to accommodate the Regional Housing Need Allocation (RHNA) goals while affirmatively furthering fair housing.

Throughout the project, the team conducted targeted outreach and coordination with the community, stakeholders, property owners, and city staff through workshops, pop-ups, and focus group meetings. The final Housing Plan includes housing goals, policies, and actions to meet the diverse housing needs of the community.

HIGHLIGHTS

- Identify vacant and underutilized sites to accommodate the Regional Housing Needs Allocation (RHNA) goals
- Develop housing goals, policies, and programs to ensure compliance with latest State laws
- Engage community members through workshops, stakeholder interviews, pop-ups, and online surveys, among others

DESCRIPTION
Raimi + Associates is leading the Housing Opportunity Districts (HOD) project for the City of Milpitas. The project includes updating the zoning for the Town Center (TC) and Neighborhood Commercial Mixed-use (NCMU) land use designations of the General Plan to foster the development of mixed-use neighborhoods. The project aims to implement General Plan goals and policies, incentivize affordable housing, help meet current and future regional housing goals, support revitalization of aging shopping centers, and create a net positive on City revenue.

Raimi + Associates analyzed existing conditions, conducted stakeholder interviews, and reviewed and summarized nation-wide best practices in housing opportunity and overlay zones. The team also conducted site tests to model current development standards and proposed zoning standards for each zone. The project will amend the General Plan land-use designation and draft new zoning standards for the NCMU and TC to include sub-districts to allow flexible and feasible mixed-use development.

HIGHLIGHTS
- Conduct a comprehensive analysis of existing conditions
- Conduct stakeholder interviews and shared informational videos to incorporate community perspectives
- Research and summarize best practices from across the nation in the realm of housing opportunity and overlay zones
- Test existing and proposed development standards on select sites through 3D modelling
- Update NCMU and TC General Plan definitions and zoning standards to allow mixed-use development

CONCORD AFFIRMATIVELY FURTHERING FAIR HOUSING REZONING PROJECT

CONCORD, CA

DESCRIPTION

Raimi + Associates was retained by the City of Concord to work on the Concord Affirmatively Furthering Fair Housing Rezoning Project (Project) which implements Program 8.6 of the 2023-2031 Housing Element. Program 8.6 aims to rezone a minimum of 20 acres of land in moderate- and high-resource areas of the City to accommodate at least 1,000 additional multi-family housing units accessible to lower-income households.

The project includes identifying sites, preparing rezoning alternatives, developing General Plan and Zoning Amendments for the preferred rezoning alternative, conducting an environmental impact report, facilitating community engagement, and offering additional services to implement the rezoning.

HIGHLIGHTS

- Implement Program 8.6 of the Housing Element through updated zoning
- Develop General Plan and Zoning amendments for the preferred rezoning alternative
- Conduct feasibility analysis of development standards through site tests

City of Concord
April 2024
Affirmatively Furthering Fair Housing Rezoning Project

Frequently Asked Questions

What is this project?
Concord's Affirmatively Furthering Fair Housing Rezoning Project is an inclusive public planning process that involves rezoning select properties in higher-resource neighborhoods to allow multi-family development. While the project is being completed under mandates from the State of California, the overarching goal is to partner with the community to address housing inequities and improve quality of life in Concord.

What is AFFH?
AFFH stands for Affirmatively Furthering Fair Housing. It is a provision of the Fair Housing Act, Title VIII of the Civil Rights Act of 1968, and a piece of federal legislation that prohibits discrimination in the sale, rental, and financing of housing and ensures equal opportunity in housing for all. While federal law prohibited overt forms of housing discrimination, residential segregation has remained and persists in California today.

California Assembly Bill 686 created new requirements for cities to affirmatively further fair housing as a part of a jurisdiction's planning process, and to take meaningful actions that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity.

What are higher-resource neighborhoods?
The California Tax Credit Allocation Committee (TCAC) identifies neighborhoods of the state that have been shown to have positive educational, economic, and health outcomes for low-income families. These neighborhoods are characterized by quality schools, safety, plentiful community amenities, and economic opportunity.

Why is this project happening now?
The City's recently adopted Housing Element is a State-mandated plan to meet the housing needs of everyone in the community. It maps out how the City of Concord facilitates a variety of housing types for all income groups, assists in the development of lower and moderate-income housing, removes constraints to housing, improves existing housing, and promotes fair housing. California law requires that each county and city in the state develop and adopt a revised Housing Element every eight years and report progress on program accomplishment each year.

The California Department of Housing and Community Development (HCD) certified the City's 2023-2031 Housing Element Update in October 2023. The housing element contains many programs, including Program 8.6 Fair Housing, which aims to increase housing supply, choices, and affordability in higher-resource neighborhoods of the city.

justin.meek@cityofwatsonville.gov

DESCRIPTION
Raimi + Associates worked with the City of Watsonville and a multi-disciplinary team of subconsultants to create a vision for Downtown Watsonville. The City of Watsonville is in the Pajaro Valley of Santa Cruz County and is approximately six square miles in size. Watsonville is a productive agricultural area with a rich history that presents a unique opportunity to leverage its existing charm to create a vibrant downtown experience.

The proposed Downtown Core is stitched together by Main Street which also acts as a major regional corridor (152) that is partially owned by Caltrans. This area includes the City's main Plaza in addition to City Hall, the city owned parking structure and the police station. The area also contains various opportunity sites that are ripe for redevelopment. These assets are key building blocks for the creation of Downtown which will be a charming, walkable, historic, vibrant, safe, and activity-oriented center in the Pajaro Valley. The plan creates a vision and identity for the area, design strategies for the public realm, mobility strategies, and implementation strategies and actions for decision makers to undertake to make Downtown Watsonville a reality.

HIGHLIGHTS
- Design framework with character area designations
- Historic Core as the heart of Downtown Watsonville
- Identify vacant and underutilized sites
- Integrate street network improvements to reduce travel lanes on Main Street
- Utilize online engagement techniques

PROFESSIONAL SERVICES MASTER AGREEMENT (ON-CALL PLANNING)

BETWEEN

CITY OF BENICIA AND

Raney Planning & Management

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and Raney Planning & Management, a California Corporation located at 1501 Sports Drive, Suite A, Sacramento, California 95834, licensed to do business in California, ("CONTRACTOR") relating to Raney - Planning Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Long-Range Planning Policy and Strategies

B. Environmental Review

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of

apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity,

including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective

date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

   1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

   2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Nick Pappani

Vice President

npappani@Raneymanagement.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between Raney Planning & Management, hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in

the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

1.3 Description of Responsibilities

Environmental Services

Vice President/Air Quality Specialist, Rod Stinson, will serve as the Project Director and will be responsible for overseeing the environmental review process and providing quality control. Mr. Stinson would be assisted by Division Manager/Air Quality Specialist, Angela DaRosa, who would serve as the Project Manager. The Project Manager will be responsible for providing the environmental review services, as well as coordinating with City staff and the applicant throughout the process.

Rod Stinson – Vice President/Air Quality Specialist

2005-Present

Role: Project Director/Air Quality and GHG Technical Analysis

Mr. Stinson brings over 19 years of environmental experience to the Raney team with a background in CEQA, air quality, and water resources. As Raney's Vice President, Mr. Stinson has served as the Project Manager in the preparation of numerous environmental and planning projects, including CEQA Initial Studies and EIRs as well as NEPA Categorical Exclusions and Environmental Assessments. Mr. Stinson has managed projects ranging from complex mining, solar, and infill projects to large-scale specific plans and general plans as well as standard residential, affordable housing, mixed-use, commercial, industrial, and infrastructure projects. In addition, Mr. Stinson serves as Raney's in-house Air Quality Specialist, with over ten years of experience in preparing air quality analyses for a variety of development projects. Mr. Stinson has completed numerous air quality impact and greenhouse gas analyses, working closely with lead agencies and local air districts throughout northern and southern California. In addition, Mr. Stinson has prepared CAPs for the cities of Wheatland and Galt and a CAP/SAP for the Cosumnes CSD, and is in the process of preparing a CAP for the City of Manteca. Mr. Stinson holds a Bachelor of Science degree in Forestry and Natural Resources Management with a concentration in Environmental Management from California Polytechnic State University, San Luis Obispo.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

ANGELA DAROSA – DIVISION MANAGER/ AIR QUALITY SPECIALIST

2010-Present

Role: Project Manager/Air Quality and GHG Technical Analysis

Ms. DaRosa brings 14 years of environmental experience to the Raney team with a background in CEQA, air quality, and engineering. Ms. DaRosa graduated from California Polytechnic State University, San Luis Obispo, with a Bachelor of Science degree in Environmental Engineering. Ms. DaRosa's background in engineering and technical writing allows her to analyze complex technical studies and integrate them into each project.

As Division Manager with Raney, Ms. DaRosa provides project management and assists in the preparation and processing of various environmental and planning documents, such as EIRs, Initial Studies, NEPA compliance documents, and environmental land use and planning documents. Ms. DaRosa has successfully management several envionrmental review projects, including, but not limited to, the Creekside Vineyards EIR and East and West 18th Street Warehouse Initial Studies for the City of Antioch; Lippi Ranch EIR for the City of Galt; the Mace Ranch Innovation Center EIR and UMall Redevelopment Consistency Checklist for the Cty of Davis; and the Brady Vineyard Subdivision EIR for Placer County. As an Air Quality Specialist, Ms. DaRosa works closely with Raney's in-house Air Quality Technician to prepare air quality and greenhouse gas analyses, including Health Risk Assessments, for Initial Studies and EIRs, as well as stand-alone analyses for various private-sector clients.

In addition, Ms. DaRosa has prepared CAPs for the cities of Wheatland and Galt and a CAP/SAP for the Cosumnes CSD, and is in the process of preparing a CAP for the City of Manteca. Ms. DaRosa prepared analyses for projects located within the jurisdictional boundaries of a number of air districts throughout the State including, but not limited to, the YSAQMD, BAAQMD, SMAQMD, PCAPCD, and SJVAPCD. Project types for which Ms. DaRosa has prepared analyses include residential and mixed-use developments, fitness centers, industrial parks, shopping centers, warehouse expansions, medical centers, offices, and photovoltaic systems. Ms. DaRosa is proficient in the use of current air quality models, including CalEEMod, AERSCREEN, AERMOD, and HARP RAST.

Mr. Stinson and Ms. DaRosa have worked together as Project Director and Project Manager on numerous projects over their long tenure at Raney. Raney has included an example of one such project below. For additional examples, please see the *Supplementary Project Examples* document uploaded in *Section 8.1. Discretionary Supplemental Materials*.

Alhambra Boulevard Redevelopment Project IS/MND

City of Sacramento, California

The Alhambra Boulevard Redevelopment Project IS/MND included the demolition of existing on-site structures, the removal of on-site trees and Chinatown Alley, and the development of a six-story mixed-use complex comprised of 332,310 square feet (sf) of residential space including 332 residential units, 110,080 sf of garage space, and a 2,400-sf coffee shop located on the ground

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

floor. The original brick façade of the warehouse buildings along Alhambra Boulevard were preserved as structures of historical character. The project required approval of a Conditional Use Permit; Site Plan and Design Review; and a Tree Permit.

Project support will be provided by President, Tim Raney, AICP; Vice President, Nick Pappani; and Raney's Associate staff. Raney has included resumes of the key team members in Section 4.

PLANNING SERVICES

President, Tim Raney, AICP, will serve as the Project Director and would be responsible for overseeing the review process, coordinating with lead agency staff, and providing quality control. Senior Planner, Kevin Valente, AICP, will serve as the Project Manager and will be responsible for managing the day-to-day planning services, coordinating with the client, outside agencies, and project team.

TIMOTHY RANEY, AICP – PRESIDENT

1999-Present

Role: Project Support

As the President of Raney Planning & Management, Inc., Mr. Raney serves as the leader of the Raney team. Mr. Raney specializes in CEQA processing, planning, and public facilitation, bringing thirty years of experience to each project. Mr. Raney currently serves as the Community Development Director to the City of Wheatland and, together with Raney staff, has been providing contract planning services to the City since 2004. In addition, Mr. Raney previously served as the Interim Community Development Director for the City of Oakley while the City was completing its General Plan Update.

Since establishing the firm in 1999, Mr. Raney has successfully processed numerous CEQA, NEPA, and planning projects, including Initial Studies, Environmental Impact Reports, Environmental Assessments, and special planning projects such as the APA Award-winning Community Vision for the City of Wheatland. Mr. Raney's diverse experience includes unique and complex projects such as marinas, military base conversions, mining, and solar to large-scale specific plans, master plans, zoning code updates, and numerous private development projects for residential, commercial, mixed-use, industrial, and infrastructure/roadway.

Mr. Raney also has diverse experience in local government, including being Councilmember and Mayor of the City of Citrus Heights, Planner in the City of Sacramento's Planning Department, and previously serving on the Board of the Sacramento Metro Chamber Metro PAC and the Sacramento Tree Foundation. Mr. Raney has been involved in local government issues with the League of California Cities, the Commission on Local Governance for the 21st Century, and the Citrus Heights Chamber of Commerce. This experience gives Mr. Raney a better understanding of the needs and requirements of local government. Mr. Raney has a Bachelor of Science degree in Agricultural Economics from the University of California, Davis.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

KEVIN VALENTE, AICP – SENIOR ASSOCIATE

2013-Present

Role: Project Manager

Mr. Valente has been with Raney for 12 years bringing his planning knowledge and design background to the processing of development projects and the preparation of larger policy documents and various CEQA documents. Mr. Valente serves as Raney's Senior Planner and has provided contract planning services to the cities of Antioch, Elk Grove, Galt, Lincoln, Live Oak, Oakley, Pacifica, Sacramento, and Wheatland, as well as Butte County, El Dorado County, and Yolo County. Mr. Valente currently assists Yolo County with processing Conditional Use Permits for various cannabis-related projects, including reviewing applications and consulting with agencies and County departments. Under contract with the City of Sacramento, Mr. Valente provided planning services to the Design Review staff, as well as, the Zoning Administrator and has processed over 75 Cannabis Production and Cannabis Dispensary Conditional Use Permits and over 50 minor modifications. Serving as contract planner to the cities of Antioch, Elk Grove, Galt, and Lincoln, as well as Butte County and El Dorado County, Mr. Valente drafts staff reports, writes conditions of approval, conducts plan checks, and presents to the Planning Commission, City Council, and Board of Supervisors. Mr. Valente is also responsible for reviewing development applications; preparing public notices; and coordinating with City and County planning staff, the applicant team, and pertinent local and State agencies.

Moreover, Mr. Valente assists Company President Tim Raney who serves as the Community Development Director for the City of Wheatland, and together the two serve as the City's Planning Department staff. Mr. Valente processes current planning applications, and prepares long range planning documents for the city, such as the Bikeway Master Plan, Downtown Corridor Improvement Plan, Community Development Design Standards, and the Wheatland Housing Element. As contract Planning Director for the City of Live Oak, Mr. Valente assisted with the drafting and adoption of an employment zoning district text and map amendment, which included the creation of two separate Employment Zoning Districts to promote the development of professional offices, businesses, and parks and related campus services, as well as auto service centers, development parks, and construction industries. Mr. Valente recently completed the Live Oak Community Vision and Housing Element Update. In addition to reviewing and processing land use applications, Mr. Valente has answered day-to-day community inquiries, reviewed business license requests, and regularly attended Planning Commission and City Council hearings.

Mr. Raney and Mr. Valente have worked extensively together in the City of Wheatland as the City's Community Development Director and Senior Planner, respectively. Mr. Valente has also worked extensively with Senior Vice President, Cindy Gnos, AICP, in jurisdictions throughout the Bay Area. As Ms. Gnos will be on-call as needed for projects in the City of Benicia, Raney has included projects she and Mr. Valente have worked together on in the *Supplementary Project Examples* document uploaded in *Section 8.1. Discretionary Supplemental Materials*.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

Pottery World/Avoca Orchards Project

City of Wheatland, California

The Pottery World/Avoca Orchards Project consisted of the annexation of the approximately 30-acre Pottery World project site and the approximately 110-acre Avoca Orchards project site (140 acres total) into the City of Wheatland. Raney both provided planning services and prepared the IS/MND for the project. The project required approval of Annexation from Yuba County into the City of Wheatland; a General Plan Amendment for the Pottery World site; and Pre-Zoning of both sites.

1.4 Team Members

Environmental Services

Vice President/Air Quality Specialist, Rod Stinson, will serve as the Project Director and will be responsible for overseeing the environmental review process and providing quality control. Mr. Stinson would be assisted by Division Manager/Air Quality Specialist, Angela DaRosa, who would serve as the Project Manager. The Project Manager will be responsible for providing the environmental review services, as well as coordinating with City staff and the applicant throughout the process.

Project support will be provided by President, Tim Raney, AICP; Vice President, Nick Pappani; and Raney's Associate staff. Raney has included resumes of the key team members in the resume section of this submittal.

Planning Services

President, Tim Raney, AICP, will serve as the Project Director and would be responsible for overseeing the review process, coordinating with lead agency staff, and providing quality control. Senior Planner, Kevin Valente, AICP, will serve as the Project Manager and will be responsible for managing the day-to-day planning services, coordinating with the client, outside agencies, and project team.

The project management team will be assisted throughout the planning process by Senior Vice President, Cindy Gnos, AICP; Vice President, Nick Pappani; Vice President/Air Quality Specialist, Rod Stinson; Associate Planners; and Administrative support staff.

Subconsultants

Raney has assembled a team of subconsultants to provide the following services:

Monk and Associates (Monk)

Monk and Associates would provide biological resource evaluation services and associated technical reports.

Eileen Barrow and Associates (Barrow)

Barrow would provide cultural resource evaluation services and associated technical reports.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

Geocon
Geocon would provide geology and soils evaluation measures and associated technical reports.

West Yost
West Yost would provide water quality/supply assessments and stormwater/wastewater control and management evaluation services, including associated technical reports.

Saxelby Acoustics
Saxelby would provide noise evaluation services and associated technical reports.

Fehr and Peers
Fehr and Peers would provide transportation evaluation services and associated technical reports.

For subconsultant key personnel, please refer to the resume section of this submittal.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

2. APPROACH

ENVIRONMENTAL SERVICES

Raney's approach to preparing environmental documents is to utilize the most efficient and cost-effective process possible. For every environmental document, Raney works directly with the lead agency having the principal responsibility for carrying out or approving a project to determine if the project will require environmental review or if the project is exempt from CEQA because the standard of review is substantiated evidence rather than fair argument, as is the case with an MND. Raney coordinates closely with the lead agency to determine the level of environmental review necessary to meet the requirements of CEQA, including the preparation of an IS/ND, IS/MND, or an EIR. Raney will work with the City of Benicia to identify the appropriate level of environmental review for each project. Raney will then provide the City of Benicia with a complete scope of services, including schedule and budget for review and approval. All Draft and Final environmental documents and related work products will be prepared in accordance with the criteria, standards, and provisions of CEQA, Section 21000 et seq. of the Public Resources Code and the State CEQA Guidelines (California Code of Regulations Section 15000 et seq.), NEPA, if applicable, and the regulations, requirements, and procedures of the City of Benicia.

Raney is dedicated to providing our clients with interactive services using a hands-on, direct, and problem-solving approach. Raney firmly believes that early anticipation and constant communication between the lead agency, community stakeholders, and local citizens is the key to the success of a project. Raney will work closely with City staff at the beginning of the process to identify which issues are of greatest concern to the City of Benicia and the public, as well as establishing communication protocols. By identifying these issues early in the process, Raney can ensure that those issues are adequately addressed. Should problems arise during the project review, Raney's policy would be to immediately contact the City in order to discuss the most appropriate means of addressing the issue. Raney will never conduct out-of-scope work without prior written authorization from the client. In any instance where out-of-scope work is required, Raney will prepare a detailed summary of tasks to be completed, a schedule, and budget for the City's review and approval.

For each City of Benicia project, Raney will designate a project management team to oversee all aspects of the preparation of the environmental document. The project management team will remain in place for the duration of the project and will consist of key management staff, including a Project Director and Project Manager. Vice President/Air Quality Specialist, Rod Stinson, will serve as the Project Director for projects requiring environmental review services and would be responsible for overseeing the review process, coordinating with lead agency staff, and providing quality control. Division Manager/Air Quality Specialist, Angela DaRosa, will serve as Project Manager and will be responsible for managing the day-to-day preparation of the environmental document, coordinating with City staff, managing any technical sub-consultants, and responding to inquiries on the environmental document and the process. The project management team will be assisted throughout the environmental review process by President Tim Raney, AICP; Vice President, Nick Pappani, as well as Associate and Administrative support staff.

As previously mentioned, rather than conducting all of the necessary technical studies in-house, Raney believes it is more efficient and effective to team with the known technical experts who specialize in a particular field. In this way, Raney can organize a unique team of consultants for

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

each project, who can bring their expertise "to the table" and provide the client with the most defensible documentation and reporting in the timeliest manner. The exception to this is Air Quality and GHG Analyses which Raney prepares in-house, instead of sub-contracting. Raney will select each sub-consultant based upon the unique characteristics associated with each project in order to ensure the most qualified technical assistance. Raney will coordinate with the City to determine the appropriate sub-consultants based upon project-specific needs.

Air Quality and Greenhouse Gas Analysis

Raney will conduct Air Quality and Greenhouse Gas (AQ/GHG) analyses in-house. Each AQ/GHG analysis would be conducted by an Air Quality Specialist and Air Quality Technician, and directed by Vice President/Air Quality Specialist, Rod Stinson. Raney's reports can be utilized as stand-alone documents in conformance with CEQA/NEPA or prepared in a manner that is easily incorporated into a larger CEQA/NEPA document, such as an Initial Study or EIR. Raney works closely with the lead agency, the air district, and the applicant, as appropriate, to ensure that the mitigation measures are feasible, easy to understand, implementable, and straightforward to sign-off by the lead agency. All air quality and GHG studies are prepared consistent with the regulations and requirements of CEQA, the local air district, and the lead agency.

In addition, Raney has completed numerous Health Risk Assessments (HRAs) for projects that have the potential to expose nearby sensitive receptors, such as residential developments, to increased health risk impacts from toxic air contaminants associated with gas dispensing facilities, diesel truck trips, and/or construction equipment, among other contaminants.

Sub-Consultants

With respect to providing CEQA compliance, rather than conducting all of the necessary technical studies in-house, Raney believes it is more efficient and effective to team with the known technical experts who specialize in a particular field. In this way, Raney can organize a unique team of consultants for each project, who can bring their expertise "to the table" and provide the client with the most defensible documentation and reporting in the timeliest manner. The exception to this is Air Quality and GHG Analyses which Raney prepares in-house, instead of sub-contracting.

Raney has provided a list of sub-consultants with whom Raney has contracted in the past for preparation of technical studies to support CEQA documents. Raney will work with the City of Benicia in selecting each sub-consultant based upon the unique characteristics associated with each project in order to ensure the most qualified technical assistance. Further, Raney is amenable to seeking other sub-consultants to meet the needs of the City, if necessary.

Planning Services

Raney understands that many local jurisdictions may become inundated with a high volume of planning related projects in need of review, processing, routing, and analysis, or a combination of these tasks. Raney's approach to planning services is to act as an extension of City staff to review the development application for completeness, assist with agency consultation, as well as noticing and attending meetings. Raney will work closely with the City to identify the appropriate level of planning review and develop a detailed scope of work, schedule, and budget accordingly for each project. The scope of work will be customized to meet the needs of the City and the unique issues

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

associated with the proposed project. All planning documents will be prepared in accordance with the regulations, requirements, and procedures of the City of Benicia. Raney will remain objective in serving as planning consultants to the City and will coordinate with City staff to make the ultimate determination on conclusions. For each project, Raney will coordinate extensively with City Departments to ensure a complete and thorough review of the application. Raney will serve as the City's point of contact with the applicant team, if desired.

Raney is dedicated to providing our clients with interactive services using a hands-on, direct, and problem-solving approach. Raney firmly believes that early anticipation and constant communication between the lead agency, community stakeholders, and local citizens is the key to the success of a project. Raney will work closely with City staff at the beginning of the process to identify which issues are of greatest concern to the City of Benicia and the public, as well as establishing communication protocols. By identifying these issues early in the process, Raney can ensure that those issues are adequately addressed. Should problems arise during the project review, Raney's policy would be to immediately contact the City in order to discuss the most appropriate means of addressing the issue. Raney will never conduct out-of-scope work without prior written authorization from the client. In any instance where out-of-scope work is required, Raney will prepare a detailed summary of tasks to be completed, a schedule, and budget for the City's review and approval.

For each City of Benicia project, Raney will designate a project management team to oversee the processing of the development application. The project management team will remain in place for the duration of the project and will consist of key management staff, including a Project Director and Project Manager. President, Tim Raney, AICP, will serve as the Project Director and would be responsible for overseeing the review process, coordinating with lead agency staff, and providing quality control. Senior Planner, Kevin Valente, AICP, will serve as the Project Manager and will be responsible for managing the day-to-day planning services, coordinating with the client, outside agencies, and project team. The project management team will be assisted throughout the planning process by Senior Vice President, Cindy Gnos, AICP; Vice President, Nick Pappani; Vice President/Air Quality Specialist, Rod Stinson; Associate Planners; and Administrative support staff.

It is of the upmost importance that Raney makes every effort to adapt our services to the specific and unique needs of each jurisdiction and to continuously be mindful of Raney's role as an extension of City staff, and thus as a representation of the City of Benicia. Moreover, Raney understands that planning services could range from staff level review of applications to ghost writing staff reports to processing project entitlements. If selected to provide contract services for land development projects within the City of Benicia, Raney would work with the City to determine the most effective way to provide all necessary services outlined by the City.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

2.2 LEVEL OF EFFORT LETTER

A scope, schedule, and budget will be prepared and approved by the City for each of these types of projects and invoices to the City will clearly identify the project and work accomplished. The tasks will be summarized in the Technical Scope of Services and costs by task will be included in a cost spreadsheet. The costs will be based on the estimates of time for each task provided in the chart. Costs will be billed on a time and materials basis up to the maximum established budget for each phase, following Raney standard billing rates as outlined in section 5.1 of this Statement of Qualifications.

Categorical Exemption Memorandum .....$11,000 – $15,000

Initial Study/Mitigated Negative Declaration (IS/MND) .....$15,000 – $25,000

Environmental Impact Report (EIR).....$100,000 – $150,000

Environmental Assessment (EA).....$15,000 – $25,000

Air Quality/Greenhouse Gas (AQ/GHG) Technical Analysis $3,000-8,000

AQ/GHG Health Risk Assessment (HRA)..... $5,000-12,000

Planning Services* .....$10,000 – 20,000

*i.e., zoning clearances, sign permitting, processing of development applications, hearing attendance and presentation, etc.

Advance Planning Services ..... $20,000 - $50,000**

**i.e., policy development, general plan element updates, community engagement tasks, hearing attendance and presentation, etc.

It should be noted that the cost estimates outlined above do not include costs associated with the preparation of technical reports, which are often required for comprehensive environmental analysis. Such reports may be provided by the project applicant or Raney may contract with sub-consultants to prepare the technical reports. Should it be necessary for Raney to contract with a sub-consultant, the sub-consultant's cost to prepare the technical report and Raney's 10% administrative fee, would be additive to the cost estimates outlined above for the environmental document.

Factors that could potentially increase the scope of work and estimated costs include:

- Attendance at additional public meetings;
- Printing of additional copies of reports;
- Analysis of additional issues above those discussed in a proposal or a more detailed level of analysis than described in a proposal;
- Changes in the project requiring reanalysis or rewriting of report sections;
- Collection of data required for the environmental documents beyond that described in a proposal;

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

- Tribes requesting in-person consultation pursuant to AB-52 or SB-18;
- Attendance at additional virtual or in-person meetings beyond those budgeted; and
- Excessive comments on the environmental documents.

Raney would propose to renegotiate these items, if required, or charge on a time-and-materials basis.

On the following page, please find sample cost estimate spreadsheets for an IS/MND, EIR, development application processing, and a zoning ordinance amendment. For each project proposal, Raney includes a cost estimate spreadsheet and a not-to-exceed budget. It should be noted that the sample cost estimates for the IS/MND and EIR include labor for Air Quality and GHG Technical Analysis. In addition, if planning and environmental services are required for the same project, meetings and public hearings would overlap and could result in a reduced cost.

3. REFERENCES

Raney has included references for Vice President/Air Quality Specialist, Rod Stinson, Project Director for environmental services; and President, Tim Raney, AICP, Project Director for planning services. The City has indicated in the Question and Answer informational tab of their bid posting that references are only required for team leaders. References for other members of Raney's team are available upon request.

4. RESUMES

See Appendix A for Raney and Sub-consultant resumes.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

5.1: Pricing Proposal

A scope, schedule, and budget will be prepared and approved by the City for each of these types of projects and invoices to the City will clearly identify the project and work accomplished. The tasks will be summarized in the Technical Scope of Services and costs by task will be included in a cost spreadsheet. The costs will be based on the estimates of time for each task provided in the chart.

Costs will be billed on a time and materials basis up to the maximum established budget for each phase, following Raney standard billing rates. Raney charges overtime at 1.5 times the standard billing rate. However, if overtime is required, Raney would still operate under the proposed hours and budget until the depletion of the budget is unavoidable. In such an event, Raney would propose to amend the contract accordingly.

Environmental and Planning Services 2025 Billing Rates

The following is a summary of Raney, a division of Raney Planning & Management, Inc., billing rates for the provision of environmental review services. Please note that Raney will provide a complete scope of services and cost estimate by task based on hours, upon request.

Tim Raney, AICP, President	$235/hour
Cindy Gnos, AICP, Senior Vice President	$215/hour
Nick Pappani, Vice President	$195/hour
Rod Stinson, Vice President	$195/hour
Angela DaRosa, Division Manager	$175/hour
Kevin Valente, Senior Planner	$155/hour
Senior Associate	$155/hour
Associate	$135/hour
Administrative	$85/hour

Air Quality and GHG Analysis 2025 Billing Rates

The following is a summary of the billing rates for the provision of air quality and GHG analysis services. Please note that Raney will provide a complete scope of services and cost estimate by task based on hours, upon request.

Rod Stinson, Air Quality Specialist	$175/hour
Angela DaRosa, Air Quality Specialist	$175/hour
Air Quality Technician	$155/hour

Other Cost Information

- Overhead charges for technical sub-consultants, travel, and copying/printing: 10%
- Travel: Billed at cost
    - It should be noted that Raney charges mileage at the Federal Standard Mileage Rate provided by the IRS.
- Copying and Printing: Billed at cost

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

- Black & White (8.5" x 11"): 15¢ per page
- Color (8.5" x 11"): 30¢ per page
- Oversized prints (11" x 17"): 30¢ per page

SUBCONSULTANTS

Please see Attachments A through F for subconsultant billing rates.

ESTIMATED COST OF SERVICES

Categorical Exemption Memorandum .....$11,000 – $15,000

Initial Study/Mitigated Negative Declaration (IS/MND) .....$15,000 – $25,000

Environmental Impact Report (EIR).....$100,000 – $150,000

Environmental Assessment (EA).....$15,000 – $25,000

Air Quality/Greenhouse Gas (AQ/GHG) Technical Analysis $3,000-8,000

AQ/GHG Health Risk Assessment (HRA)..... $5,000-12,000

Planning Services* .....$10,000 – 20,000

*i.e., zoning clearances, sign permitting, processing of development applications, hearing attendance and presentation, etc.

Advance Planning Services ..... $20,000 - $50,000**

**i.e., policy development, general plan element updates, community engagement tasks, hearing attendance and presentation, etc.

It should be noted that the cost estimates outlined above do not include costs associated with the preparation of technical reports, which are often required for comprehensive environmental analysis. Such reports may be provided by the project applicant or Raney may contract with sub-consultants to prepare the technical reports. Should it be necessary for Raney to contract with a sub-consultant, the sub-consultant's cost to prepare the technical report and Raney's 10% administrative fee, would be additive to the cost estimates outlined above for the environmental document.

Factors that could potentially increase the scope of work and estimated costs include:

- Attendance at additional public meetings;
- Printing of additional copies of reports;
- Analysis of additional issues above those discussed in a proposal or a more detailed level of analysis than described in a proposal;
- Changes in the project requiring reanalysis or rewriting of report sections;
- Collection of data required for the environmental documents beyond that described in a proposal;
- Tribes requesting in-person consultation pursuant to AB-52 or SB-18;

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

- Attendance at additional virtual or in-person meetings beyond those budgeted; and
- Excessive comments on the environmental documents.

Raney would propose to renegotiate these items, if required, or charge on a time-and-materials basis.

Raney Planning and Management, Inc

Signed by: Cindy Gnos

SCHEDULE OF CHARGES

March 2025

Hourly Rates

Principal Biologist	Field Work/Permitting/Agency Negotiations	$210/hour
Principal Biologist	Testimony/Public Hearings/Affidavits	$350/hour in 4-hour increments.
Senior Associate Biologist	Field/Office Work	$200/hour
Associate Biologist	Field/Office Work	$190/hour
Senior Botanist	Field/Office Work	$171/hour
Senior Biologist	Field/Office Work	$171/hour
Project Botanist	Field/Office Work	$155/hour
Project Biologist II	Field/Office Work	$155/hour
Project Biologist I	Field/Office Work	$148/hour
Staff Biologist	Field/Office Work	$120/hour
Office Manager		$110/hour
Graphics		$148/hour
Sub-contracting Biologists	Field Work	$120 to $210/hour

- Any Biological Construction Monitoring performed on weekends will be billed at 1.5 times the hourly rate.

Other Expenses (Flat Rates)

Any payments submitted through 3rd Party Online Portal: 15% of invoice amount may require a budget amendment or change order.

Any weekly Zoom calls, Microsoft Teams calls, or conference calls would require a budget amendment or change order.

Per Diem: $150/day/per person)

Vehicles: Passenger vehicle: Current IRS standard mileage rate.
Bridge & Toll Roads Cost plus 10 percent

Oversize Maps $2.00/square foot.

Color Photographs (laser printed, $2.00 per page).

Materials/Supplies Cost plus 15 percent

Advanced Permit & Fees Payments : Amount plus 10 percent

Equipment Rentals: GPS (sub-meter accuracy) $50/day. Surveillance Cameras $15/day each; rodent traps 0.20/day each; Burrowing owl eviction doors at $5.00/day each; medium- size mammal traps $5.00/day each. Spotlight charged at $5.00/day. Other equipment is priced on a job basis by the approved proposal.

SOIL AND AGGREGATE PROPERTIES

#200 Wash (D1140/C117)	$100/ea.
Wet Sieve Analysis to #200 (D422/CAL202)	130/ea.
Dry Sieve Analysis, 1.5"+ Aggregate (D6913)	350/ea.
Hydrometer Analysis (D422)	200/ea.
Sieve Analysis with Hydrometer (D422)	250/ea.
Specific Gravity, Soil (T100)	110/ea.
Specific Gravity Coarse Aggregate (C127)	100/ea.
Specific Gravity Fine Aggregate (C128)	110/ea.

SHEAR STRENGTH

Unconfined Compression (D2166)	$125/ea.
Direct Shear (3 points) (D3080)	375/ea.
Unconsolidated-Undrained Triaxial Shear (D2850)	150/pt.
Unconsolidated-Undrained Triaxial Staged (D2850)	200/ea.
Consolidated-Undrained Triaxial Shear (D4767)	350/pt.
Consolidated-Undrained Triaxial Staged (D4767)	450/ea.
Consolidated-Drained Triaxial Shear (EM1110)	400/pt.
Consolidated-Drained Triaxial Staged (EM1110)	600/ea.

PERMEABILITY, CONSOLIDATION AND EXPANSION

Permeability, Flexible Wall (D5084)	$375/ea.
Permeability, Rigid Wall (D5856)	375/ea.
Consolidation (D2435)	75/pt.
Expansion Index (D4829/UBC 29-2)	250/ea.
Swell/Collapse (D4546)	175/pt.

AGGREGATE QUALITY

Sieve Analysis to #200 (C136)	$130/ea.
L.A. Rattler Test (500 rev.) (C131)	225/ea.
Durability Index (D3744/CAL229)	165/ea.
Fine Aggregate Angularity (CAL 234)	125/ea.
Flat and Elongated Particles (D4791/CAL 235)	150/ea.
Percent Crushed Particles (CAL205)	150/ea.
Moisture Determination, tube sample (D2216)	$20/ea.
Moisture Determination and Unit Weight (D2937)	40/ea.
Atterberg Limits: Plasticity Index (D4318)	225/ea.
Sand Equivalent (D2419/CAL217)	125/ea.
pH and Resistivity (CAL643)	125/ea.
Sulfate Content (CAL417)	100/ea.
Chloride Content (CAL422)	75/ea.
Organic Content (D2974)	85/ea.
Cut/Extract Shelby Tube	100/ea.

CONCRETE / SHOTCRETE / MASONRY / REINFORCING STEEL

Compressive Strength, Cast Cylinders (C39)	$35/ea.
Compressive Strength, Cores (C42)	100/ea.
Flexural Strength Beam (C78/C293)	100/ea.
Splitting Tensile Test (C496)	100/ea.
DSA Masonry Shear (DSA-207)	100/ea.
Shotcrete Panel Coring and Comp. Strength (C1140)	125/ea.
Rebar Tensile/Bend (up to #11/#11 and larger)	425/500/ea.
CMU Compressive Strength (C140)	100/ea.
Compressive Strength, Grout (C1019/UBC 21-19)	35/ea.
Compressive Strength, Mortar (C109/UBC 21-15,16)	35/ea.
CMU Unit Wt., Dimen., Absorption (C140)	75/ea.
Compressive Strength, Masonry Prism (C1314)	250/ea.

HOT MIX ASPHALT

HMA Air Voids, Gyratory (T269)	$550/ea.
Hamburg Wheel Tracker (T324)	1,000/ea.
Theoretical Max. Specific Gravity (D2041/CAL309)	200/ea.
Ignition/Sieve Analysis (C136/CAL202)	225/ea.
HMA Core Unit Weight (D1188/CAL308)	100/ea.
% Asphalt, Ignition Method (D6307/CAL382)	150/ea.
% Asphalt, Ignition Calibration (D6307/CAL382)	450/ea.
Tensile Strength Ratio (T283)	1,000/ea.

***2X surcharge on rush turnaround for laboratory testing**

TERMS AND CONDITIONS

1. Listed are typical charges for the services most frequently performed by Geocon. Prices for unlisted services as well as special quotations for programs involving volume work will be provided upon request. Laboratory test prices shown are for laboratory work only, and include reporting of routine results not calling for comments, recommendations or conclusions.
2. Sampling and testing is conducted in substantial conformance with the latest applicable or designated specifications of the American Society for Testing and Materials, Caltrans, American Association of State Highway and Transportation Officials, or other pertinent agencies.
3. Saturday, night work, and overtime hours are charged at time and one-half; Sundays and holidays at double time. Per diem may apply when location of work dictates.
4. Equipment and materials will be billed at cost plus 15%. Outside services including subcontractors and rental of special equipment are billed at cost plus 15%. Hourly services are billed portal to portal from closest office in accordance with the stated hourly rates herein, with a minimum four-hour charge.
5. Invoices will be submitted at four-week intervals. Terms of payment are met upon presentation of invoice. Invoices become delinquent thirty (30) days from invoice date and subject to one and one-half percent (1-1/2%) service charge per month, or the maximum rate allowed by law, whichever is lower. If Client objects to all or any portion of any invoice, Client will so notify Geocon in writing within fourteen (14) calendar days of the invoice date, identify the cause of disagreement, and pay that portion of the invoice not in dispute. The parties will immediately make every effort to settle the disputed portion of the invoice. Payment on delinquent invoices will first be applied to accrued interest and then to the principal amount. All time spent and expenses incurred (including any attorney's fees and costs) in connection with collection of any delinquent amount will be paid by Client to Geocon per Geocon's current fee schedule.
6. Client and Geocon shall allocate certain of the risks so that, to the fullest extent permitted by law, Geocon's (the term "Geocon" includes Geocon's partners, officers, directors, employees, agents, affiliates, subcontractors and subconsultants) total aggregate liability to Client *is limited to the greater of* ***$50,000*** *or the total compensation received from Client by Geocon for services rendered on this project, for any and all of Client's injuries, damages, claims, losses, expenses, or claim expenses arising out of this Agreement from any cause or causes, including attorneys' fees and costs which may be awarded to the prevailing party, and Client agrees to indemnify and hold harmless Geocon from and against all liabilities in excess of the monetary limit established above.*

   Client and Geocon shall allocate certain of the other risks so that, to the fullest extent permitted by law, Client shall limit Geocon's total aggregate liability to all third parties, including contractors, subcontractors of all tiers, materialmen, and others involved in Client's project, as well as persons and other entities not involved in the project, to *the greater of* ***$100,000*** *or the total compensation received from Client by Geocon for services rendered on this project, for any and all injuries, damages, cause or causes, including attorneys' fees and costs which may be awarded to the prevailing party, and Client agrees to indemnify and hold harmless Geocon from and against all liabilities in excess of the monetary limit established above, including all liability incurred by Geocon for acts, errors, or omissions, pursuant to entering into agreements with third parties on behalf of Client in order to obtain access or entry onto property not owned by Client. Client agrees to notify all contractors and subcontractors of any limitation of Geocon's liability to them, and require them to abide by such limitation for damages suffered by any contractor or subcontractor arising from Geocon's actions or inactions. Neither the contractor nor any subcontractor assumes any liability for damages to others which may arise on account of Geocon's actions or inactions.*

6. LITIGATION CLAIMS

A. Raney has never filed a claim or had a claim filed in court against them. However, it should be noted that Raney has prepared several EIRs for highly controversial projects where the lead agency has been subject to CEQA lawsuits. Raney has provided a summary of lawsuits filed against the lead agencies for the documents prepared by Raney in the last five years and associated findings below:

Wine Country Inn IS/MND, City of Livermore
Raney prepared the IS/MND for the Wine Country Inn project in the City of Livermore. The IS/MND was adopted and the project approved. A lawsuit was filed; however, the trial court denied the petition.

Vista Mar IS/MND, City of Pacifica
Raney prepared the IS/MND for the Vista Mar project in the City of Pacifica. The IS/MND was adopted and the project approved. A lawsuit, however, was filed in December 2021. In 2023, the judge ruled that an IS/MND did not sufficiently address the project's significant environmental impacts. All City approvals were set aside and the project was placed on hold pending the completion of an EIR.

Bridle Gate EIR, City of Brentwood
Raney prepared the Draft and Final EIR for the Bridle Gate project in the City of Brentwood. The EIR was certified and the project approved. A lawsuit, however, was filed in February 2025.

6.2. FAILED PROJECT COMPLETIONS

B. Raney has never failed to complete any awarded work, and has never defaulted on a contract or had a claim filed in court against them for failure to complete any contracted work. Raney has not had any litigation or claim therefore on file, or filed then settled in the last five years.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

8.1: Statement on Proposed Change to Insurance Coverage

Raney has reviewed the City's sample contract and is able to enter into the agreement with one exception. The City's business automobile liability insurance requirement stipulates, under section 2.4 of the sample Professional Services Agreement provided by the City, that the minimum automobile liability insurance coverage shall "be at least two million dollars ($2,000,000) each occurrence." Raney's insurance only covers up to $1,000,000, but our umbrella coverage ($2,000,000 each occurrence/aggregate) should meet the City's requirements.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

8.2: EXCEPTION TO AUDITED FINANCIAL STATEMENTS

Raney Planning & Management, Inc. is not an audited organization and, therefore, does not have audited financial statements.

As discussed throughout this submittal, Raney Planning & Management, Inc. was established in 1999 by Company President Tim Raney, AICP, to provide professional contract planning and environmental services throughout California. Raney Planning & Management is located in Sacramento, California, and is proud to remain a respected and privately-owned professional services firm that has been providing high quality professional services for over 26 years. Together with Senior Vice President Cindy Gnos, AICP, Mr. Raney has built a reputation for the company as one of the most trusted, experienced, and highly regarded small planning and environmental firms in northern California.

10. PROPOSAL AUTHORIZATION FORM

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

Exhibit D

PROPOSAL AUTHORIZATION

NAME OF RESPONDENT Raney Planning & Management, Inc

1. The above-named Respondent is a Respondent to the Request for Qualifications / Request for Proposals of the City of Benicia for professional services to prepare [Current Planning and Environmental Review] and possesses the legal authority to submit this Proposal.

2. The undersigned is authorized to conduct all negotiations for and legally bind the Respondent in all matters relating to this Proposal submittal.

3. The undersigned has reviewed, understands, is able to comply with and agrees to be bound by the General Conditions Governing the RFP described in Section 7 of the RFP.

4. The undersigned grants the City a right to conduct reference checks and reasonable investigation of all information provided by Respondent.

5. The undersigned certifies that this Proposal is irrevocable until 120 days after its submission date.

Mr. Raney has over 30 years of local government, planning, and CEQA/NEPA experience, during which he has actively managed many of the region's most controversial projects.

PRESIDENT

Raney Planning & Management, Inc. (1999-Present)

As President of Raney, Mr. Raney provides a wide range of planning, management, and economic development services to public and private sector clients. Mr. Raney specializes in project coordination and management, CEQA processing and documentation, land use analysis, business district information, and public facilitation. With over twenty-five years of planning experience, he has developed a diverse and expanding network of clients, including developers, agency representatives, and state and local decision-makers. His diverse background enables him to advise his clients on effective strategies regarding government permitting processing, public involvement, and agency coordination. Mr. Raney provides quality client services, ensuring legally and procedurally accurate documentation while strictly adhering to all schedules and budgets.

COMMUNITY DEVELOPMENT DIRECTOR

City of Wheatland (2004-Present)

As the Community Development Director for the City of Wheatland, Mr. Raney provides professional guidance and technical assistance to the City Manager, City Council, Planning Commission, and the public regarding immediate and long-range planning while working extensively with the development community, local business owners, and community residents. Mr. Raney monitors City growth and oversees implementation of the City's General Plan, processing of development applications, and makes recommendation to City Council regarding applications and development projects. Over the past 18 years, Mr. Raney has been instrumental in developing the City's Infrastructure Work Program, Community Vision, and Capital Improvement Program as well as developing and implementing the City's General Plan.

COUNCILMEMBER/MAYOR

City of Citrus Heights, CA (1997-2002)

Elected to serve on the first City Council, Mr. Raney was instrumental in creating the initial government structure of the City of Citrus Heights. While on City Council, Mr. Raney participated in the preparation and adoption of the City's first General Plan as well as developing a city staff to be responsible for its implementation. Mr. Raney served as Mayor of Citrus Heights in 2000 winning numerous awards for his exceptional leadership skills. This experience behind the dais has given Mr. Raney the ability to understand projects from a variety of perspectives, thereby allowing him to provide a unique skill set to Raney's clients.

Ms. Gnos brings to Raney Planning & Management a wide range of public sector planning, management, and economic development services. Ms. Gnos specializes in land use analysis, project coordination and management, public facilitation, and CEQA processing and documentation. With nearly twelve years of public sector planning experience, she has developed an understanding of the diverse aspects of planning and community development within local governments. Her background enables her to advise clients on effective strategies regarding government permit processing, public involvement, and agency coordination.

SENIOR VICE PRESIDENT

Raney Planning & Management, Inc. (2000-Present)

As the principal contact for most of Raney's projects, Ms. Gnos provides high-quality, uniquely personal services to Raney's clients. Serving as Project Director for many of Raney's projects, Ms. Gnos is exceptionally organized and skilled at providing project management services to Raney's clients. In addition to project management, Ms. Gnos is responsible for the quality and content of Raney's documents, thoroughly reviewing every document before sending it out for client review. Ms. Gnos provides the energy that keeps the Raney team running in top condition, thereby ensuring that its clients receive the very best of what Raney has to offer.

SENIOR PLANNER

City of Dixon, California (1994-2000)

Ms. Gnos served as a planner for the City of Dixon, overseeing the planning, environmental review, and development of numerous residential, commercial, and industrial projects. Ms. Gnos coordinated the City of Dixon's downtown revitalization efforts through the management of the creation of the Dixon Downtown Revitalization Plan, and through personal participation in special downtown events. She implemented the Downtown Facade Improvement Program using Redevelopment funds. Ms. Gnos also oversaw the Community Development Block Grant (CDBG) Program for the City of Dixon which included Planning/Technical Assistance Grants and a Business Revolving Loan Fund. Ms. Gnos served as the housing coordinator for implementation of the City's Housing Element, including the use of Redevelopment Funds and HOME funds in a first-time homebuyer program.

ASSOCIATE PLANNER

City of Sacramento, California (1988-1994)

As a land use planner for the City of Sacramento, Ms. Gnos was responsible for processing development applications. This included pre-application meetings, environmental review, coordination with the City, developer, and neighborhoods, as well as reports and presentations to the Planning Commission and City Council. During her tenure at the City of Sacramento, she also chaired the Subdivision Review Committee.

ROD STINSON

Vice President/Air Quality Specialist

EDUCATION
B.S., Forestry and Natural Resources
California Polytechnic State University, San Luis Obispo

CERTIFICATIONS
Certified in River Restoration and Natural Channel Design

AFFILIATIONS
Sacramento Metro EDGE
Urban Land Institute

Mr. Stinson brings to Raney Planning & Management, Inc. his technical writing and project management skills to every project. As Vice President with Raney, Mr. Stinson assists Senior Vice President Cindy Gnos and President Tim Raney in the day-to-day management of the office, which includes overseeing the processing of various environmental and planning projects, management of office staff, and coordination with agency personnel and project applicants. In addition, Mr. Stinson serves as Raney's in-house Air Quality Specialist.

VICE PRESIDENT/AIR QUALITY SPECIALIST

Raney Planning & Management, Inc. (2005-Present)

As Vice President, Mr. Stinson is responsible for assisting Senior Vice President Cindy Gnos and company President Tim Raney in the day-to-day coordination of the Raney team and its efforts. Since arriving at Raney, Mr. Stinson has been involved in the writing and managing of numerous environmental and planning projects and has served as the project manager for over 350 CEQA and NEPA projects. In addition, Mr. Stinson has managed numerous special planning projects as well as provided environmental and land use planning services for various jurisdictions during his time at Raney, including extensive use of GIS in the analysis and presentation of data.

Mr. Stinson also serves as Raney's in-house Air Quality Specialist, preparing air quality and greenhouse gas analyses for Initial Studies and Environmental Impact Reports as well as air quality and greenhouse gas studies and health risk assessments for various private-sector clients. Mr. Stinson trained under Donald Ballanti, Certified Consulting Meteorologist for several years and has prepared over thirty air quality analyses for various public and private sector projects. Through his work with various air districts in the region, Mr. Stinson has become a leading expert in preparing air quality and greenhouse gas analyses.

ESTIMATOR/ENVIRONMENTAL SPECIALIST

Thunder Mountain Enterprises, Inc. (2003-2005)

Mr. Stinson began at Thunder Mountain Enterprises, Inc. preparing Stormwater Pollution Prevention Plans utilizing erosion and sediment control Best Management Practices. In this position Mr. Stinson was trained in AutoCAD and expanded his knowledge of hydrology and fluvial processes. After four months with the company Mr. Stinson was promoted to department head of the Estimating Department where he developed and managed procedures for the department. Mr. Stinson was tasked to develop new markets for the company while maintaining their existing workflow market. In addition, Mr. Stinson set the budgets for the 2004 and 2005 fiscal years as well as secured over $600,000 of revenue in the first year of existence. As Estimator, Mr. Stinson performed sales, estimating, project management, and contract administration.

PROFESSIONAL DEVELOPMENT

Mr. Stinson is also actively involved in the Sacramento Metro Chamber as a graduate of the Leadership Class of 2012. As a part of the 2012 class project, Mr. Stinson participated in fundraising and outreach activities for the design and construction of the new Soil Born Farms outdoor classroom.

NICK PAPPANI

Vice President

EDUCATION
B.S., Wildlife Biology, cum laude
California State University, Humboldt

AFFILIATIONS
The Wildlife Society, Western Section
Urban Land Institute

Mr. Pappani has been part of Raney Planning & Management's team since 2002. As current Vice President, Mr. Pappani is part of the management core of Raney, working directly with Senior Vice President Cindy Gnos and President Tim Raney to provide hands-on planning and CEQA services to a variety of clients.

VICE PRESIDENT

Raney Planning & Management, Inc. (2002-Present)

Mr. Pappani focuses on client interaction and business marketing, given his network of satisfied clients within the industry. Mr. Pappani also manages the preparation of CEQA documents and regularly attends meetings with lead agency staff to identify and problem-solve environmental issues so that the EIR process can be streamlined and simplified to the greatest extent feasible. In addition, Mr. Pappani works with Division Manager Rod Stinson, in the day-to-day coordination of the Raney team and its efforts. Since his arrival at Raney, Mr. Pappani has been involved in the writing and managing of numerous environmental documents and has served as the project manager for over 550 CEQA and NEPA projects. In addition to his project management experience, Mr. Pappani has provided contract planning services for various jurisdictions during his time at Raney, including serving as an extension of lead agency staff in reviewing development and use permit applications, preparing staff reports and conditions of approval, and presenting before boards, commissions, councilmembers, and the general public.

WILDLIFE TECHNICIAN

Grand Canyon National Park, Arizona (May to August 1999 and 2000)

Mr. Pappani utilized his field research skills obtained at Humboldt State University to collect pertinent wildlife data for the Park Service. In addition to conducting numerous field studies for special-status species and keeping detailed records of all collected data, Mr. Pappani was appointed as crew leader in the absence of the acting crew leader, which involved appointing tasks to other staff and managing their workload.

FIELD TECHNICIAN

LBJ Enterprises, Eureka, California (May to August 1998)

Mr. Pappani conducted research for an environmental consulting firm located in Eureka, California. Mr. Pappani's primary duties included conducting detailed plant and animal surveys throughout Six Rivers National Forest. The animal surveys focused on detecting the presence/absence of the Federally Threatened Marbled Murrelet within Six Rivers National Forest.

ANGELA DAROSA

Division Manager/Air Quality Specialist

EDUCATION

B.S., Environmental Engineering
California Polytechnic State University, San Luis Obispo

Ms. DaRosa graduated from California Polytechnic State University, San Luis Obispo, with a Bachelor of Science degree in Environmental Engineering. Ms. DaRosa's background in engineering and technical writing allows her to analyze complex technical studies and integrate them into each project. As Division Manager with Raney, Ms. DaRosa provides project management and assists in the preparation and processing of various environmental and planning documents. As an Air Quality Specialist, Ms. DaRosa works closely with Raney's in-house Air Quality Technician to conduct detailed air quality analyses.

DIVISION MANAGER/AIR QUALITY SPECIALIST

Raney Planning & Management, Inc. (2010-Present)

Since joining Raney, Ms. DaRosa has been involved in the writing of numerous EIRs, including the Johnson Rancho and Hop Farm Annexation EIR in Wheatland, CA; the Newman Ridge EIR in Amador County, CA; the Brentwood Boulevard Specific Plan Recirculated EIR in Brentwood, CA; and the Terra Ranch Subdivision EIR in Manteca, CA. Ms. DaRosa has also written numerous Initial Studies for cities including, but not limited to, Wheatland, Woodland, Sacramento, Pinole, Brentwood, Kings County, and Lathrop. In addition to CEQA documentation experience, Ms. DaRosa has also been involved in the preparation of NEPA compliance documents including Environmental Assessments for projects such as Kingsburg Senior Village in Kinsburg, CA; Heritage Commons in Dixon, CA; Las Palmeras Apartments in Imperial, CA; and North Biggs Estates in Biggs, CA. Ms. DaRosa has also provided environmental and land use planning services for various jurisdictions, most prominently the City of Wheatland, including preliminary coordination and preparation of city planning documents such as the City of Wheatland Bikeway Master Plan, and use of GIS and other mapping tools for the analysis and presentation of data.

Ms. DaRosa contributes her environmental engineering background by working closely with Raney's in-house Air Quality Technician to prepare air quality and greenhouse gas analyses for Initial Studies and EIRs, as well as stand-alone air quality and greenhouse gas impact assessments for various private-sector clients. Ms. DaRosa has prepared air quality and greenhouse gas analyses for projects located within the jurisdictional boundaries of a variety of air districts throughout the State. Ms. DaRosa is proficient in the use of current air quality models, including CalEEMod, AERSCREEN, AERMOD, and HARP RAST.

PROJECT ENGINEER

RMC Water and Environment (2008-2009)

Ms. DaRosa worked at RMC Water and Environment as a key member of the design team on various projects. Ms. DaRosa was able to contribute her specialized knowledge of wastewater treatment by acting as an affiliate of the company's internal Wastewater Treatment Technical Committee. While at RMC, Ms. DaRosa was able to expand her AutoCAD skills by preparing basic infrastructure and design drawings, and was trained in GIS to prepare supportive plans and diagrams. During her time at RMC, Ms. DaRosa honed her technical writing skills through the preparation of a variety of design technical memoranda and reports, design specifications, environmental permits, and EIR sections.

EDUCATION

B.S., City and Regional Planning
California Polytechnic State University, San Luis Obispo

Associates in Architectural Design
Cuesta College, San Luis Obispo

AFFILIATIONS

American Institute of Certified Planners (AICP)
American Planning Association (APA)

SENIOR ASSOCIATE

Raney Planning & Management, Inc. (2013-Present)

As Senior Associate, Mr. Valente brings his planning knowledge and design background to the preparation of` larger policy documents and various CEQA documents. Mr. Valente serves as Raney's Senior Planner and has provided contract planning services to the cities of Antioch, Live Oak, Pacifica, Sacramento, and Wheatland. Under contract with the City of Sacramento, Mr. Valente provided planning services to the Design Review staff, as well as, the Zoning Administrator and processed over 75 Cannabis Production and Cannabis Dispensary Conditional Use Permits and over 50 minor modifications. Serving as contract planner to the City of Antioch and Pacifica, Mr. Valente drafts staff reports, writes conditions of approval, conducts plan checks, and presents to the Planning Commission and City Council, if necessary.

Additionally, Mr. Valente has served as the Project Manager for a number of projects involving contract planning and CEQA compliance in the City of Antioch, such as the Rocketship School project, Almond Knolls Apartments project, and East 18th Street Apartments project. Mr. Valente's experience providing planning consulting services includes conducting plan check reviews and writing conditions of approvals, conducting Ad Hoc Committee Workshops, and preparing staff reports and noticing for Planning Commission and City Council hearings, as well as conducting staff presentations to Planning Commissions and City Councils. Mr. Valente additionally assists Tim Raney, Community Development Director for the City of Wheatland, with provision of day-to-day planning services, including responding to requests from the public, as well as the preparation of various long-range planning documents, including the Downtown Corridor Improvement Plan, updating the Community Design Standards, updating the Housing Element, a Zoning Ordinance Amendment, and the Climate Action Plan. Mr. Valente has played key role in the development of various planning policy documents.

Currently, Mr. Valente serves as the Planning Manager of the City of Live Oak and manages and processes all current and long-range planning projects. As Planning Manager for the City of Live Oak, Mr. Valente assisted with the drafting and adoption of an employment zoning district text and map amendment, which included the creation of two separate Employment Zoning Districts to promote the development of professional offices, businesses, and parks and related campus services, as well as auto service centers, development parks, and construction industries. In addition to reviewing and processing land use applications, Mr. Valente answers day-to-day community inquiries, reviews business license requests, and regularly attends Planning Commission and City Council hearings.

SARAH M. LYNCH
PRINCIPAL BIOLOGIST

Ms. Lynch is a biologist experienced in the fields of wildlife biology, botany, wetlands ecology and delineation, and threatened and endangered species surveys. She has worked as a biological consultant for over 25 years. Her passion for both wildlife and plants, and her strong education in both technical disciplines, has resulted in developing her expertise in both fields, wildlife and botany, with years of experience working with both. Her technical expertise includes: amphibian and fairy shrimp surveys; rare plant surveys; bird censusing; small mammal trapping; multiparameter wetland assessments; biological constraints analysis and impact analysis pursuant to CEQA and NEPA. Ms. Lynch prepares permit application packages for submittal to local, state, and federal resource agencies. She is involved in agency negotiation and mitigation development as part of the permit application process and oversees permitting of a project from start to completion. She prepares long-term management plans, mitigation and monitoring plans, PAR analyses, and permit compliance reports as part of the permit process.

EDUCATION

B.S., Environmental and Systematic Biology
California Polytechnic State University, San Luis Obispo 1990

CERTIFICATIONS

Certified Wildlife Biologist - Certification from The Wildlife Society, Washington, D.C.

PERMITS/AGENCY AUTHORIZATIONS

Authorized by the U.S. Fish and Wildlife Service as an Independent Researcher on M&A's federal 10(a)(1)(A) Recovery Permit to survey for and handle the federally listed California red-legged frog (*Rana draytonii*), California tiger salamander (*Ambystoma californiense*) (all Distinct Population Segments), vernal pool Branchiopods (*Branchinecta* spps. and *Lepidurus packardi*).

Authorized by the California Department of Fish and Wildlife under a Memorandum of Understanding (MOU) to survey for and handle the California tiger salamander and foothill yellow-legged frog (*Rana boylii*).

Authorized by the California Department of Fish and Wildlife under a Plant Voucher Collecting Permit to collect voucher specimens of State- listed plant species for accession to an herbarium.

REPRESENTATIVE EXPERIENCE

Botanical and Wildlife Studies

Habitat Monitoring and Special-status Amphibian and Vernal Pool Branchiopod Surveys for the East Contra Costa Habitat Conservancy. Since 2006, Ms. Lynch has been providing biological survey support for the East Contra Costa Habitat Conservancy on their acquired land preserves. This survey support includes monitoring created seasonal wetland and restored creek habitats for special-status amphibians, surveying for federally- listed vernal pool branchiopods, surveying for special-status plant species, and monitoring the overall condition of the plant communities and wildlife habitats to see if any remedial efforts are necessary (for example, invasive weed eradication).

Special-Status Amphibian Surveys. 1991-Present. Authorized under a federal Recovery Permit (TE-776608) and State MOU (and Scientific Collector's Permit) to conduct surveys for federally listed and state listed amphibians. Conducted diurnal (daytime) surveys and nocturnal (night time) surveys for special-status amphibian species including the California tiger salamander (*Ambystoma californiense*) (all Distinct Population Segments), California red-legged frog (*Rana draytonii*), foothill yellow-legged frog (*Rana boylii*), and western spadefoot toad (*Spea hammondii*). Survey methods employed include visual surveys, spotlighting surveys, dip-netting, seining, funnel trapping, and pitfall trapping. Surveys followed California Department of Fish and Wildlife and U.S. Fish and Wildlife Service protocols.

Rare Plant Surveys. 1991-Present. Conducted systematic transect surveys in a variety of plant communities in northern and central California, including coastal dune scrub, coastal salt marsh, chaparral, oak woodland, redwood forest, and vernal pools in the Santa Rosa Plain of Sonoma County and California's Central Valley. All surveys followed California Department of Fish and Wildlife and U.S. Fish and Wildlife Service recommended guidelines and survey protocols.

Provided Environmental Permitting Assistance and Conducted Two Years of Nesting Bird Surveys for common and special-status bird species at the Bobcat Flat Phase III River Restoration Project on the Tuolumne River east of Waterford, CA. Surveys conducted in accordance with EPIMS-STA-13719-R4. Surveys included U.S. Fish and Wildlife (USFWS) protocol-level surveys for nesting Least Bell's Vireo (*Vireo bellii pusillus*) which require eight surveys between April and July, as well as CDFW protocol-level surveys for nesting Swainson's Hawks (*Buteo swainsoni*) which requires six surveys over two survey periods. Other special-status birds surveyed for included the Tricolored Blackbird (*Agelaius tricolor*) and the Bald Eagle (*Haliaeetus leucocephalus*). These surveys resulted in a positive identification of two Swainson's Hawk nests, a Cooper's Hawk (*Accipiter cooperii)* nest, a White-tailed Kite (*Elanus leucurus*) nest, and three Red-tailed Hawk (*Buteo jamaicensis*) nests among other more common nesting bird species. All nesting attempts were successful. Also prepared environmental permit applications for submittal to state and federal regulatory agencies and obtained a U.S. Army Corps of Engineers Section 404 permit (Nationwide Permit 27), a California Regional Water Quality Control Board Section 401 water quality certification, and a California Department of Fish and Wildlife Section 1602 Streambed Alteration Agreement for the river restoration work. 2018- 2023. Client: Tuolumne River Conservancy.

Conducted One Year of Western Pond Turtle Presence and Nesting Surveys at the Bobcat Flat Phase III River Restoration Project on the Tuolumne River east of Waterford, CA. Surveys conducted in accordance with EPIMS-STA-13719-R4. Surveys for nesting pond turtles were conducted in all upland locations near the Tuolumne River, away from the river, and in all upland locations outside of the river and its backwater sloughs. Several western pond turtles as well as multiple red-eared sliders were observed and documented. Western pond turtle observations were reported to the CNDDB.

Biological Constraints Analysis and Special-Status Plant and Wildlife Surveys, Doolan Ranch Preserve, Alameda County, California. Completed a biological constraints analysis of this approximately 1,200-acre

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

rural project site located in the hills east of Livermore. This constraints analysis provided the project proponent with information on the biological resources found on the project site and how these resources could pose a constraint to development. Following preparation of the constraints analysis, M&A completed four months of special-status plant surveys on the project site following California Department of Fish and Wildlife and the California Native Plant Society's "Rare Plant Survey Guidelines," as well as protocol level surveys for federally-listed vernal pool Branchiopods and the state and federally-listed California tiger salamander. Findings: two special-status plants, the California red-legged frog, and the California tiger salamander were identified on the project site.

Biological Support and Peer Review Services, Contra Costa County, Community Development Department, Martinez, CA. 2002 – 2021, 2023. On-call services. Between 2002 and 2021, and again 2023 assisted the County of Contra Costa, Community Development Department, with the peer review of biological constraints analysis reports and special-status species survey reports prepared for proposed development projects in the County. Assist Community Development Department personnel in the preparation of Initial Studies and the Biological Resource sections of Mitigated Negative Declarations for proposed projects. Assist Community Development Department staff in identifying project impacts to biological resources and crafting adequate mitigation measures to offset the impact to a less than significant level pursuant to CEQA.

Highway 37 Sonoma Creek Bridge Widening Project and SMHM Trapping, Sonoma County, CA. Monk & Associates, Inc. (M&A) assisted CalTrans with acquisition of a Federal Engineered Species Act Incidental Take Permit for project impacts to the federally listed (and state listed) salt marsh harvest mouse (*Reithrodontomys raviventris*). M&A had to assist with installation of rodent exclusion fencing, and trapped all rodents from within the enclosed areas clearing the way for CalTrans to complete the Highway 37 Bridge widening project. SMHM trapped were relocated to another portion of the Highway 37 marsh under authorization of the USFWS BO (Trapping personnel: Geoff Monk, Sarah Lynch, Dr. Phil Leitner). Client: CalTrans.

Salt Marsh Harvest Mouse Presence/Absence Trapping Survey, Shell Pipeline Corporation - Pipeline Repair Site Martinez, Contra Costa County, California. In June 2008, M&A (Sarah Lynch and Hope Kingma) completed a trapping study in the Shell Marsh and live-trapped 4 salt marsh harvest mice on the second trap night. In addition, 43 western harvest mouse (*Reithrodontomys megalotis*) (not including re-captures) were captured during the 2-day trapping study. Other small mammals captured during this study included the California meadow vole (*Microtus californicus*) (n = 158), house mice (*Mus musculus*) (n = 70), and the deer mouse (*Peromyscus maniculatus*) (n = 1).

Salt Marsh Harvest Mouse Presence/Absence Survey, Avon To Vine Hill Pipeline Construction Project, Contra Costa County, CA. M&A biologists Geoff Monk and Sarah Lynch conducted a SMHM presence/absence survey over an eight day period from July 10, 1995 through July 18, 1995. A total of 300 Sherman live-traps were set each night in the three most suitable SMHM habitats along the Chevron R/W. A total of 300 trap-nights per night or 1,200 trap-nights over the entire survey duration were completed. A total of 257 rodents were captured during the trapping effort. The house mouse *(Mus musculus*) was the most common mouse species captured (n= 117), followed by western harvest mouse *(R. megalotis*) (n=96), California meadow vole (*Microtus californicus*) (n=42) and finally brown rat *(Rattus norvegicus*).

Environmental Permitting, Safe Routes to School Program, Town of Fairfax, Marin County, CA. Assisted Moffatt & Nichol Engineering and the Town of Fairfax with environmental permit applications for the repair and reconstruction of a bridge over Fairfax Creek in the Town of Fairfax. Met with California Department of Fish and Wildlife personnel on the project site and acquired a streambed alteration agreement from Fish and Wildlife in accordance with Section 1602 of California Fish and Game Code. Client: Moffatt & Nichol Engineering, Walnut Creek, CA.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

Burrowing Owl, California Red-Legged Frog, California Tiger Salamander, and Rare Plant Surveys. Martinelli Ranch, Petaluma, CA. Conducted focused surveys on 600 acres for special-status animals and plants in order to comply with a State Water Resources Control Board requirement for a pending Water Rights Permit application. Focused surveys were conducted on portions of the ranch proposed for water diversion and place of use (vineyard planting). Ms. Lynch identified the federally listed species, Contra Costa goldfields (*Lasthenia conjugens*) on the property which was a known range extension for this species. Identified the California red-legged frog onsite. Prepared several reports for the State Water Board to assist them with their water rights application. A California red-legged frog and burrowing owl survey report was prepared, a special-status plant survey report was prepared, and a California tiger salamander larval survey report was prepared. Client: Mr. Dave Martinelli.

California Red-Legged Frog Surveys and Bird Point Count Surveys. Charles Krug's Willow Lake Ranch, Napa, CA. Charles Krug received a Water Rights Permit from the State Water Resources Control Board for the enlargement of two existing ponds (reservoirs) and creation of a third off-stream reservoir on their Willow Lake Ranch site. One of the Water Rights Permit conditions was for a biologist to conduct California red-legged frog surveys prior to enlargement of the existing reservoirs and construction of a third reservoir. Ms. Lynch participated in the focused surveys for this federally listed frog species. These surveys followed the U.S. Fish and Wildlife Service's survey protocol. No California red-legged frogs were identified in the existing ponds. A report with these findings was prepared and submitted to the U.S. Fish and Wildlife Service, and no further survey work or mitigation was required. Dawn surveys for bird population census was also conducted. Ms. Lynch and Dr. Monte Kirven conducted a series of point counts over several months along the riparian corridor to document bird use. Client: Charles Krug Winery, Peter Mondavi Family.

California Department of Fish and Game monitor for all biological surveys conducted along a 100-mile spread of the PGT/PG&E pipeline expansion project in Shasta, Siskiyou, and Modoc Counties, California. Responsibilities included monitoring activities of consulting biologists conducting special-status raptor surveys along the pipeline, monitoring construction activities, attending interagency meetings, and reviewing all biological survey status reports and mitigation plans. Client: Michael Sotak & Associates

Raptor (birds of prey) nesting/occurrence surveys. 1991 to Present. Conducted nesting/occurrence surveys for golden eagle, Cooper's hawk, sharp-shinned hawk, white-tailed kite, and burrowing owl for proposed developments in the San Francisco Bay Area and the Central Valley. All surveys follow regulatory agency protocols. Clients: Various.

Conducted kit fox den surveys along a 60-mile spread of the Westley-Tracy transmission line project in San Joaquin County, California. Surveys were conducted in order to determine alternative routes for the transmission line. Client: Transmission Agency of Northern California.

<u>Environmental and Regulatory</u>

Permit Acquisition and Biological Resources Analysis, Clearwater at Windsor, Town of Windsor, Sonoma County, California. Prepared a Biological Resources Analysis for inclusion in the Initial Study/Mitigated Negative Declaration prepared by the Town of Windsor. Prepared permit application packages for submittal to state and federal regulatory agencies and obtained a U.S. Army Corps of Engineers Nationwide Permit pursuant to Section 404 of the Clean Water Act, a California Regional Water Quality Control Board Section 401 water quality certification, a U.S. Fish and Wildlife Service Biological Opinion, a National Marine Fisheries Service Biological Opinion, and a California Department of Fish and Wildlife Streambed Alteration Agreement pursuant to Section 1600 of California Fish and Game Code. Prepared a Long-term Management Plan and PAR Analysis for a 15.59-acre Conservation Easement area on the project site and related CE deed.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

Biological Resources Analysis, Santa Rosa Rancheria, Kings County, California. Conducted field surveys to document baseline biological conditions on three parcels proposed for development: a 20-acre, 200-acre, and a 400-acre parcel. Prepared a biological resources analysis for the 200-acre parcel. This biological resources analysis was incorporated into a National Environmental Policy Act (NEPA) Environmental Assessment. Currently working on reports for the 20 and 400-acre parcels. Each report documents existing conditions on the parcel, discusses potential special-status species and "waters of the United States" issues, summarizes potential project-related impacts to biological resources, and suggests mitigation measures to minimize these impacts.

Biological Resources Analysis for inclusion in an Environmental Impact Report, Gillrie Property, Alameda County, CA. Completed a wildlife inventory, rare plant surveys, a wetland delineation, and protocol California red-legged frog surveys on this 78-acre property proposed for residential development. Prepared a biological resources setting, impacts, and mitigations section for Alameda County Planning Department for incorporation into the Environmental Impact Report being prepared for the project. Client: Alameda County Planning Department.

Oak Manor Development, Alameda County, California - Environmental permitting. Secured permits for impacts to U.S. Army Corps of Engineers jurisdictional “waters of the United States” pursuant to Section 404 of the Clean Water Act, and obtained a waiver of water quality from the California Regional Water Quality Control Board (pursuant to Section 401 of the Clean Water Act). Also, obtained a Streambed Alteration Agreement, pursuant to Section 1603 of California Fish and Game Code, for proposed impacts to intermittent creeks from construction of the housing development. Prepared an oak tree management plan for distribution to new home owners to assist them with the care and maintenance of native oak trees on their property. Client: Branaugh Excavating, Inc., Livermore, California.

Castlewood Water and Sewer System Rehabilitation Project, Alameda County, California. Prepared a biological constraints analysis for the proposed rehabilitation of an existing water and sewer system in the Castlewood County Service Area. Also conducted surveys for special-status plants within the proposed water and sewer easements area. Client: Alameda County Planning Department, Alameda County, California.

Delineated over 30 vernal pools and swales on a 110-acre site proposed for landfill expansion in Merced County, California. Prepared a report for submittal to the U.S. Army Corps of Engineers and obtained a U.S. Army Corps of Engineers jurisdictional determination for the delineation. Arranged mitigation for proposed impacts to vernal pools and habitat for the Federally listed threatened vernal pool fairy shrimp (*Branchinecta lynchi*).

CHRISTINA OWENS
ASSOCIATE BIOLOGIST

Ms. Owens is a biologist experienced in the fields of botany, wetlands ecology and delineation and habitat assessment. She has more than 15 years of environmental consulting experience. Ms. Owens' experience includes conducting rare plant surveys, wetland delineations, vegetation mapping, habitat assessments, mitigation monitoring and management of project compliance as well as mitigation wetland design/construction. Ms. Owens' graduate work focused on the flora of constructed and natural vernal pools, specifically on the distribution of plant communities within those pools. She has extensive field experience in the Central Valley, the Bay Area, including the Santa Rosa Plain's vernal pool communities, and in most of the major habitat types in northern California. She routinely prepares technical documents including special-status plant mitigation and monitoring plans, weed management plans, long-term management plans, deed restrictions/conservation easements, biological resource assessments for environmental impact analysis and biological constraints analyses pursuant to CEQA as well as permitting packages for submittal to the U.S. Army Corps of Engineers, the California Regional Water Quality Control Board, the California Department of Fish and Wildlife, the United States Fish and Wildlife Service and the National Marine Fisheries Service. Ms. Owens also has experience conducting special-status wildlife surveys and/or compliance monitoring for special-status species including California red-legged frog, western pond turtle, foothill yellow-legged frog, Western Burrowing Owl, nesting birds and assisting with California tiger salamander population monitoring on habitat preserves as well as surveying for native bumble bees including the CESA candidate species, Crotch's bumble bee. Ms. Owens is a permitted volunteer for the California Bumble Bee Atlas and has experience catching and IDing various bumble bee species in California.

EDUCATION

M.A. University of California, Davis, in Geography, 2008
B.S. University of California, Davis, in Environmental Horticulture and Urban Forestry, 2001

EMPLOYMENT HISTORY

2020 – Present: Monk & Associates, Associate Biologist

2016 – 2020: Monk & Associates, Senior Biologist

2012 – 2016: Monk & Associates, Project Biologist II

2010 – 2012: ICF International, Sacramento, CA, Botanist

2010: University of California at Davis, Davis, CA, Botanist

2009 – 2010: Ecohydrology Research, Inc., Davis, CA, Botanist

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

PERMIT AUTHORIZATIONS

- Permitted volunteer for the California Bumble Bee Atlas [California Department of Fish and Wildlife SCP #S-210530001-21053-001 and the associated Memorandum of Understanding (MOU)]

WORKSHOPS/TRAININGS

- Attended The Western Section of The Wildlife Society Bumblebee Workshop at Turtle Rock Community Center, Markleeville, Alpine County, California. July 21-23, 2023.

- Attended a Bumble Bee Atlas Field Training at Cosumnes Preserve in Sacramento County, California. Led by Lief Richardson (Xerces Society) on April 28, 2025.

- Three 8-hour bumblebee trainings in the field with permitted bumblebee Biologist Dr. Jaymee Marty conducting preconstruction surveys, with multiple identifications of Crotch's bumblebee (*Bombus crotchii*) foraging on buttonwillow (*Cephalanthus occidentalis*), both male and female, as well as multiple other common bumble bee species. La Grange, Stanislaus County, California. May 11 and 29, July 1 2024.

- Attended a weekend field trip with the California Bumblebee Atlas. Netted, captured and IDed multiple bumblebee species. Hope Valley, Alpine County, California. August 2024.

REPRESENTATIVE EXPERIENCE

Napa Logistics Park and Napa Logistics Preserve, City of American Canyon, California. Conducted a wetland delineation over 176 acres, prepared Biological Resources Analysis report for the CEQA document. Acquired permits from the U.S. Army Corps of Engineers (Corps), California Regional Water Quality Control Board (RWQCB), and California Department of Fish and Wildlife (CDFW). Oversaw permit compliance, preconstruction surveys for special-status plant and wildlife. Assisted with the design of mitigation wetlands and was onsite during the construction of 5 mitigation wetlands within the Napa Logistics Preserve. Conduct annual hydrological and vegetation monitoring and prepare annual reports to the resource agencies in compliance with issued permits.

Tri-Dam. Beardsley Afterbay Dam Maintenance Repair Project, Tuolumne County, California. Permit acquisition from Corps, RWQCB, and CDFW. Oversaw permit compliance and coordinated with project engineering and construction team to ensure that onsite work was completed in accordance with regulatory agency permits. Provided construction monitoring.

Dewberry | Drake Haglan, Storm Drain Zone 36/Zone 39 Improvement Project, Manteca, California. Permit acquisition from Corps, RWQCB, and CDFW. Prepared Biological Assessments to the National Marine Fisheries Service (NMFS) and the U.S. Fish and Wildlife Service (USFWS) for Biological Consultation pursuant to Section 7 of FESA by and between the Corps and the NMFS and USFWS. Prepared a Biological Resources Analysis for a CEQA Mitigated Negative Declaration.

Newport Pointe, Discovery Bay, Contra Costa County, California. Permit acquisition from USFWS, Corps, RWQCB, and CDFW. Prepare permit amendments and renewals as necessary. Conducted special-status plant surveys and assisted with the design of an onsite mitigation preserve to protect identified

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

special-status plant surveys. Oversaw permit compliance and directed junior staff construction monitoring.

Propriis. Kawana Meadows, Santa Rosa, California. Permit acquisition from Corps, RWQCB, and CDFW. Permit renewal and mitigation negotiation.

Kennedy Wilson. 38 Degrees North Phase 2, Santa Rosa, California. Permit acquisition from USFWS, Corps, RWQCB, and CDFW. Oversaw permit compliance and wetland design/creation.

Ajaib Bhadare. Todd Road, Santa Rosa, California. Permit acquisition from USFWS, Corps, RWQCB, and CDFW. Sourcing of mitigation credits for California tiger salamander.

Townsend Capital Partners, LLC. 7515 Alder Avenue Project, Cotati, California. Permit acquisition from USFWS, Corps, RWQCB, and CDFW.

Phillips 66 Line 200 Repairs Project, multiple counties, California. Permit acquisition from USFWS, Corps, RWQCB, and CDFW. Prepare permit amendments and renewals. Conducted special-status rare plant and wildlife surveys. Oversaw permit compliance and construction monitoring. Sources mitigation credits.

Assisted Senior Associate Biologist with presence/absence surveys for foothill yellow-legged frogs in Tuolumne County, California.

Assisted Senior Associate Biologist with adult and larval surveys for California red-legged frogs at the CRLF Preserve in American Canyon, CA. Observed 15-20 sub-adult and adult CRLFs, as well as approximately 10 larvae. Trained on identification of adult and larval CRLF by Mr. Geoff Monk (10(a)(1)(A) permittee).

Construction monitoring experience at several sites in East Contra Costa County and provided environmental training for species including San Joaquin kit fox, California tiger salamander, California tiger salamander and western burrowing owl.

Approved by USFWS for construction monitoring at site in Livermore with potential for CRLF to occur.

Trained on identification of adult and larval California Tiger Salamander by Mr. Geoff Monk and Ms. Sarah Lynch (10(a)(1)(A) permittee). Assisted Senior Associate Biologist with larval surveys for CTS.

Surveyed for presence of burrowing owls under supervision of senior staff Ms. Hope Kingma and Ms. Sarah Lynch in Antioch. Provided construction monitoring in Brentwood at site Western burrowing owl occupied burrows to ensure construction activities did not disturb multiple nesting pairs.

Monitored wells and mapped wetland features to provide a baseline pattern of inundation and dry-down of mitigation and impacted wetlands in Willits, CA. Assessed mitigation wetlands in Willits, CA using the California Rapid Assessment Method (CRAM) and conducted population-level data collection for rare species.

Collaborated with hydrologist to create experimental design for research contracts. Prepared written documentation for Demonstration Plans, CWA Section 404 and 401 permits and Biological Assessments for Section 7 consultation for research contracts.

Conducted botanical surveys in Creosote scrub and near the Carrizo Plain in southern California.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

Conducted ground truthing of GIS data for both physical and vegetation community features as well as an informal survey of late-season rare plants and wildlife in the San Joaquin valley.

Mapped the 2010 extent of the invasive plant red sesbania (*Sesbania punicea*) in California using existing information from multiple sources to identify gaps in previous surveys and identify areas of population spread. Recorded population and ecological data for all sightings including associate taxa. Assisted with post-processing of data and analysis using a weed prioritization model to select weed population targets for successful eradication.

Assisted with plant identification of vernal pool and grassland specimens collected during fieldwork and editing of field data sheets for vernal pool classification. Entered biotic and abiotic data and reviewed for quality control. Conducted botanical fieldwork for grant data collection in constructed and natural vernal pools.

FIELD EXPERIENCE

Knowledge of major California plant communities and plant taxa with extensive experience in vernal pool, seasonal wetland, annual grassland, coastal and saltbush scrub, wet meadow, riparian woodland, foothill woodland and riparian corridor habitats.

Habitat/plant association surveying and mapping experience for rare plant surveys and biological inventories.

PROFESSIONAL SKILLS

Wetland delineation using the USACOE 1987 Manual and the Arid West Manual and wetland assessment using the California Rapid Assessment Method (CRAM).

Experience with CEQA/NEPA, EIR process and permitting processes (CCWA Section 404 and 401 and Section 7 consultation).

GEOCON

JOSH EWERT, PG

SENIOR GEOLOGIST

EDUCATION
- BS, Geology, California State University, Sacramento (2007)

REGISTRATIONS
- CA: Professional Geologist, No. 9096 (2013)

CERTIFICATIONS
- OSHA: 40-Hour Health and Safety Training
- OSHA: 8-Hour Refresher Training
- OSHA: 8-Hour Supervisor Training

Mr. Ewert is a principal geologist of Geocon with over 18 years of experience in environmental services. His experience includes conducting and managing Phase II Environmental Site Assessments (ESAs); performing site reconnaissance; designing, conducting, and evaluating results from field sampling programs; coordinating drilling activities; installing, operating, and maintaining soil and groundwater remediation systems; and preparing health and safety plans, workplans, and site investigation reports. In addition, Mr. Ewert has extensive experience investigating and evaluating soil vapor and indoor air concerns, including performing human health risk assessments.

401 MARINA VISTA AVENUE REDEVELOPMENT, MARTINEZ, CA

Geocon performed Phase I and Phase II Environmental Site Assessments (ESA), a limited asbestos and deteriorated lead-containing paint (LCP) survey and a geophysical investigation at 401 Marina Vista Avenue, in Martinez, California. The Phase I ESA was performed to assess the potential presence of hazardous substances and/or petroleum product impacts at the site prior to the City exploring redevelopment/renovation options for the site. At the time of our assessment, the site was occupied by former train depot, adjacent to the Amtrak Capitol Corridor railroad tracks. The geophysical investigation was conducted to locate and map a number of petroleum pipelines and also to look for Underground Storage Tanks (USTs) and identify former UST locations. The Phase II ESA was performed to assess if sub-slab vapor beneath the former Amtrak train depot building was impacted by a potential release from nearby current and former petroleum pipelines and assess the presence of a possible underground storage tank at a location identified by the geophysical survey. Based on specialized knowledge acquired during the Phase I ESA identifying the potential presence of asbestos containing materials (ACM) and lead containing paint (LCP) at the site, Geocon also performed a limited asbestos and lead-containing paint survey at the former train depot. Mr. Ewert provided internal consultation and general project oversight.

LEGACY @ LIVERMORE, MIXED-USE REDEVELOPMENT SITE, LIVERMORE, CA

Geocon provided environmental and geotechnical consulting services for the Legacy @ Livermore Mixed-Use Project in Livermore, California. The project involved the construction of an at-grade podium structure with ground-level retail and residential units above. Prior to redevelopment, the site was occupied by commercial structures, asphalt parking, and driveways situated onsite from a previous automotive dealership, which closed in 2011. An automotive repair shop was also operating in the northern parcel, and several commercial buildings were present throughout the southern parcel. These buildings and site improvements were demolished to accommodate the new development. Geocon was retained by the owner to provide environmental consulting services, including project management and agency coordination; a pre-demolition asbestos and deteriorated lead-containing paint (LCP) survey of existing retail and service facilities; soil vapor sampling; a Phase I Environmental Site Assessment (ESA); and the development of a site work plan (SWP) and soil and groundwater management plan. Mr. Ewert provided project support and geologic consultation.

CITY OF NAPA, PROPOSED PUBLIC SAFETY BUILDING/ AFFORDABLE HOUSING, NAPA, CA

Geocon performed a combined Geotechnical Investigation/ Phase II Environmental Site Assessment (ESA) for the redevelopment of the City of Napa Corporation Yard. Our scope of services included a design-level geotechnical investigation and environmental sampling for a proposed new 25,000 square foot Public Safety building and site improvements at the Corporation Yard. Environmental soil sampling we

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

performed was to provide a preliminary characterization of soils anticipated for export from the site and included CAM 17 metals, total petroleum hydrocarbons, chlorinated pesticides, and asbestos. Based on the presence of a former UST onsite and surrounding land use, Geocon also performed soil vapor sampling at the potential locations of the new building and along the northern margin of the site for potential future affordable housing. Mr. Ewert conducted air sampling, drilling oversight, and provided consultation.

RIVERPARK SHOPPING CENTER REDEVELOPMENT, NAPA, CA

Geocon performed a range of environmental services for the Riverpark Shopping Center redevelopment. Prior to purchase of the property the project developer retained Geocon to conduct a Phase I ESA. We performed the ESA to provide information regarding the potential for existing hazardous substances or petroleum impacts at the Site as part of the due diligence process prior to acquisition. Geocon also conducted a limited asbestos survey of seven pre-existing (occupied) commercial structures at the site, and later performed a supplemental asbestos survey of a vacant, single-story building where building materials were identified to contain asbestos. During abatement of the asbestos containing building materials, Geocon performed asbestos clearance visual inspection and air sampling. Mr. Ewert provided project support.

TOWN OF LOOMIS STREETSCAPE PROJECT, LOOMIS CA

The Loomis Streetscape project provided improvements along Taylor Road, a main thoroughfare through the Town of Loomis and a vital link between Rocklin, Penryn, and Newcastle. The purpose of the project was to improve connectivity with the historic section of town to the east, as well as improve pedestrian and bicycle access. Improvements included new sidewalks, curbs, gutters, streetlights, high-visibility pedestrian crossings, re-striping for bike paths, and parking. Geocon provided quality assurance materials testing services. Mr. Ewert provided field engineering services.

424 12TH STREET AND 1117 E STREET REDEVELOPMENT, SACRAMENTO, CA

Geocon performed additional investigation of environmental conditions at the contiguous properties at 424 12th Street and 1117 E Street. The City of Sacramento funded the investigation for the private developer, Gateway Development, who intended to purchase the Site and redevelop it with a multi-story residential building. Our investigation assessed the Site for the potential presence of volatile organic compounds (VOC) in soil vapor and undocumented underground storage tanks and/or other subsurface equipment related to the past operation of gas stations and a dry cleaners on the Site. Additionally, we assessed the health risk posed to future residential site occupants by exposure to lead in soil on the Site. Our investigation found that VOCs in soil vapor are unlikely to create an unacceptable health risk in indoor air for future site residents and workers and that the proposed development will eliminate the potential human health risk from lead-impacted soil. Mr. Ewert was the senior geologist and provided general consultation.

TOWNSHIP 9 REDEVELOPMENT SITE, SACRAMENTO, CA

Mr. Ewert performed a soil vapor survey for this Brownfields redevelopment project just south of the American River. The purpose of the soil vapor survey was to determine if VOCs in soil vapor beneath the proposed residential units might pose a threat to human health via vapor intrusion to indoor air. The results of the soil vapor survey were that concentrations of VOCs did not exceed regulatory screening levels for shallow soil gas in residential or commercial land use scenarios. As a result of this soil vapor survey, the client was able to avoid having to install a costly passive soil vapor venting system beneath the site.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

GEOCON

CORD DENNIG, CAC

PROJECT SCIENTIST

EDUCATION
- BS, Environmental Toxicology, University of California, Davis

CERTIFICATIONS
- CA: Certified Asbestos Consultant, No. 11-6915
- CDPH: Lead-based Paint Inspector/Assessor, No. LRC-2374
- NEHA: Residential Radon Measurement Provider, No. 107459RT
- OSHA: 40-hour Health and Safety Training
- OSHA: 8-Hour Refresher Training
- OSHA: 8-Hour Supervisor Training
- OSHA: Asbestos Cement Pipe and Refresher Training

Mr. Dennig has over 14 years of experience in the public and private sectors providing environmental due diligence, subsurface investigations, remediation, and compliance application services. He is a California Occupational Safety and Health Administration (Cal/OSHA) Certified Site Surveillance Technician (CSST) and a California Department of Public Health (CDPH) Certified Lead-Based Paint Inspector/Assessor. He routinely conducts Phase I and Phase II environmental site assessments (ESAs), pre-demolition building hazardous materials surveys, underground storage tank (UST) investigations, in-situ subsurface remediation, industrial air emissions monitoring, and environmental compliance services for federal, state, and public agencies, and various private entities.

401 MARINA VISTA AVENUE REDEVELOPMENT, MARTINEZ, CA

Geocon performed Phase I and Phase II ESAs, a limited asbestos and deteriorated lead-containing paint (LCP) survey and a geophysical investigation at 401 Marina Vista Avenue in Martinez. The Phase I ESA was performed to assess the potential presence of hazardous substances and/or petroleum product impacts at the site prior to the City exploring redevelopment/renovation options for the site. Based on specialized knowledge acquired during the Phase I ESA, Geocon also performed a limited asbestos and lead-containing paint survey at the site. Mr. Dennig conducted environmental sampling.

CITY OF NAPA, PROPOSED PUBLIC SAFETY BUILDING/ AFFORDABLE HOUSING, NAPA, CA

Geocon performed a combined geotechnical/Phase II environmental investigation for the redevelopment of the City of Napa Corporation Yard. Our scope of services included a design-level geotechnical investigation and environmental sampling for a new 25,000 square foot Public Safety building and site improvements at the Corporation Yard. Environmental soil sampling we performed was to provide a preliminary characterization of soils anticipated for export from the site and included CAM 17 metals, total petroleum hydrocarbons, chlorinated pesticides, and asbestos. Based on the presence of a former UST onsite and surrounding land use, Geocon also performed soil vapor sampling at the potential locations of the new building and along the northern margin of the site for potential future affordable housing. Mr. Dennig performed vapor extraction sampling.

CITY OF NAPA PARKING GARAGES, NAPA, CA

Geocon was retained by the City's architect to perform asbestos, lead-containing paint (LCP), polychlorinated biphenyl (PCB) compounds, and universal waste surveys of the multiple parking structures in Napa proposed for demolition. Our scope of services included surveying the designated site structures for suspect asbestos containing materials, deteriorated LCP, PCBs, and universal waste and suspect hazardous building materials, collecting bulk samples, and submitting the samples to laboratories for analysis. Mr. Dennig performed the surveys as part of Geocon's hazmat team.

PETALUMA FRENCH CLEANERS, SUB-SLAB VAPOR INVESTIGATION, PETALUMA, CA

Mr. Dennig performed soil vapor sampling in conjunction with a sub-slab vapor investigation that Geocon conducted at a dry-cleaning shop in Petaluma. Preliminary analytical results indicated that tetrachloroethylene and trichloroethylene were detected in the sub-slab vapor samples from beneath the store at concentrations that prompted that prompt prioritization of indoor air sampling. Based on

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

results, Geocon advised the client of their options for a subsequent indoor air assessment only, or the option to perform an additional sub-slab vapor and groundwater assessment.

SAN RAMON FIRE PROTECTION DISTRICT HEADQUARTERS, SAN RAMON, CA

Prior to demolition of the San Ramon Fire Protection District Headquarters building Geocon performed an asbestos, LCP, PCB compounds, and universal waste survey. We surveyed the approximate 20,000-square-foot, single-story office building and associated asphalt paved parking lot at the site to assess the potential presence and quantity of asbestos, deteriorated LCP, and universal waste and suspect hazardous building materials. We also performed destructive sampling to identify and quantify asbestos, deteriorated LCP, PCB-containing materials, and universal waste and suspect-hazardous building materials.

NORTHWEST LAND PARK BIKE AND PEDESTRIAN TRAIL, SACRAMENTO COUNTY, CA

This rail to trail project involved the proposed development of a new bike and pedestrian trail on a site located along inactive railroad tracks. Geocon conducted a limited assessment of soil, railroad ballast, and soil vapor along the railroad tracks at the proposed site. The purpose of the sample collection and analysis conducted by Geocon was to assess the potential presence of contaminants of concern (COCs) in soil, ballast material, and soil vapor at the Site and if their concentrations pose a threat to human health or the environment. A written summary of our sampling and analysis was provided to the client, along with recommendations for addressing lead and diesel- and oil-range organics (DRO) detected in samples. Mr. Dennig conducted environmental soil sampling.

CITY OF VISALIA, SANTA FE TRAIL, VISALIA, CA

Geocon conducted Phase I and II ESAs for the Santa Fe Trail Project - an approximate 100-foot-wide by 5,300-foot-long abandoned railroad right of way (ROW) extending north-south between Houston and Riggin Avenues, in Visalia, California. The Phase I ESA determined the presence of environmental site impacts to the soil and soil stockpiles resulting from historical railroad operations. After a limited Phase II ESA was performed, the presence of elevated arsenic was found in several of the soil samples (none of the other COCs were detected at concentrations exceeding regulatory screening levels or at levels requiring further investigation). A supplemental Phase II ESA was performed to further evaluate onsite soil with respect to elevated arsenic, where we determined that the elevated arsenic impacts were generally limited to the elevated rail embankment. We provided recommendations with respect to managing and capping impacted soil during construction of the planned trail and future City street. Recommendations included development of a soil management plan prior to construction of planned improvements. Mr. Dennig conducted environmental sampling.

MACDOEL PROPERTY, SISKIYOU COUNTY, CA

Geocon performed a Phase I and II ESA of the Macdoel property (the Site) located approximately 1.75 miles north of Macdoel, Siskiyou County. We performed the Phase I and II ESA for the Department of General Services (DGS) on behalf of CalFire to assess the potential for existing hazardous substances and/or petroleum product impacts at the Site prior to the DGS purchasing the Site. The approximate 36.7-acre Site is undeveloped inactive agricultural land in Siskiyou County in an area known as Butte Valley, approximately 1.75 miles north of the unincorporated town of Macdoel. The Site is bounded on the north, south, and west by undeveloped sagebrush/grassland, and to the east by US Route 97 and the Union Pacific Railroad Company's mainline. Mr. Dennig conducted the soil sampling for this project.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

GEOCON

NICK RICE, CAC

PROJECT SCIENTIST

Education

- BA, Geology, California State University, Sacramento

Certifications

- CA: Certified Asbestos Consultant, No. 24-7578
- CDPH: Lead-based Paint Inspector/ Assessor, No. LRC-13870; Sampling Technician, No. LRC-10048
- Micro Certified Mold Inspector, No. 86010
- OSHA: 40 HAZWOPER

Mr. Rice is a Cal/OSHA Certified Asbestos Consultant (CAC) and CDPH Certified Lead-Based Paint Sampling Technician with over six years of experience managing environmental projects. He has conducted pre renovation/demolition asbestos and LCP surveys for wide variety of projects in Northern California. He provides field services for transportation infrastructure, commercial developments, redevelopment, educational and institutional facilities, and water/wastewater infrastructure projects. His experience also includes conducting site reconnaissance, soil and groundwater sampling, and Phase I ESAs.

CITY OF FOLSOM, COMMUNITY DEVELOPMENT DEPARTMENT PERMIT CENTER, FOLSOM, CA

Geocon conducted an asbestos and lead-containing paint (LCP) survey for the Community Development Department (CDD) permit center of the Folsom City Hall. The purpose of our services was to assess the presence and quantity of asbestos and LCP at the site prior to interior renovation activities. No asbestos was detected in the samples collected. Mr. Rice performed the limited asbestos and LCP survey and co-authored the limited asbestos survey report for this project.

CENTRAL CONTRA COSTA COUNTY SANITARY DISTRICT, SOLIDS HANDLING FACILITY, MARTINEZ, CA

Under an on-call blanket agreement, Geocon has provided the Central Contra Costa County Sanitary District with hazardous materials testing services for the District's treatment plant, pump stations, and pipeline projects. Services include hazardous soil sampling and analysis, hazardous materials surveys, hazardous materials testing, and reporting. Geocon has conducted asbestos surveys and provided environmental consultation for a number of projects. Mr. Rice conducted hazardous asbestos sampling for improvements at the Solids Handling Facility.

GRASS VALLEY 2022 BROWNFIELDS REDEVELOPMENTS - CONDON PARK CARETAKER'S HOME, GRASS VALLEY, CA

Geocon conducted an asbestos, lead-containing paint (LCP), polychlorinated biphenyl (PCB) compounds, and universal waste survey at the Condon Park Caretaker's Home, located at 660 Minnie Street in Grass Valley, Nevada County, California, prior to the planned demolition of the structure. The project was funded by the USEPA Brownfields Assessment Grant #98T42301, part of the City of Grass Valley's 2022 Community-Wide Assessment. The survey involved inspection of the site to identify potential asbestos-containing materials, deteriorated LCP, PCBs, and universal waste. Mr. Rice assisted with project reporting.

FORMER MOTEL 6 AND DETACHED RESTAURANT, SOUTH LAKE TAHOE, CA

Geocon performed an asbestos-containing material, lead-containing paint (LCP), and Universal Waste (UW) survey at a former Motel 6 and detached restaurant located at 2375 and 2397 Lake Tahoe Boulevard, South Lake Tahoe, California, prior to planned demolition activities. Nick Rice, CAC, along with a California-Certified Site Surveillance Technician (CSST), performed the demolition survey, which involved identifying suspect asbestos-containing materials, potential LCP, and UW. Bulk samples of suspect materials were collected and submitted to accredited laboratories for analysis. The survey covered areas expected to be impacted by the demolition, as outlined in the site drawings provided by the Department of General Services (DGS). Mr. Rice also co-authored the Hazardous Materials Survey Report.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

GEOCON

NICK RICE, CAC

PROJECT SCIENTIST

GERBER VINEYARDS REDEVELOPMENT SITE, SACRAMENTO, CA

Geocon was retained to conduct a Phase I Environmental Site Assessment (ESA) for the Gerber Vineyards Project in Sacramento County, California. We conducted the ESA on behalf of the client to assess the site for the potential presence of recognized environmental conditions (REC). Our client requested the Phase I ESA as part of their environmental due diligence prior to developing the site into a single-family residential subdivision. Mr. Rice assisted in evaluating the site and contributed to the final ESA report that summarized the findings of our assessment.

PETALUMA POLICE DEPARTMENT, HAZARDOUS WASTE SURVEY, PETALUMA, CA

Retained by the project civil design engineer for this project, Geocon performed an asbestos, lead-containing paint (LCP), and universal waste survey of the Petaluma Police Department proposed for renovations. Geocon performed the survey to provide information regarding the potential for suspect hazardous materials at the site prior to renovations. Our scope of services included surveying the site structure for suspect asbestos containing materials, deteriorated LCP, and universal waste and suspect hazardous building materials, collecting bulk samples, and submitting the samples to laboratories for analysis. Mr. Rice performed asbestos sampling.

CAL FIRE CALIFORNIA NORTHERN REGION HEADQUARTERS, HYDRAULIC LIFT STATION, SANTA ROSA, CA

Geocon performed a soil and groundwater assessment of California Department of Forestry and Fire Protection's (CAL FIRE) California Northern Region (CNR) Headquarters building (the site) at 135 Ridgway Avenue in Santa Rosa, California. CAL FIRE requested a soil and groundwater assessment in the area around a former in-ground vehicle hydraulic lift and aboveground hydraulic reservoir as part of their environmental due diligence prior to backfilling the former lift pit. Mr. Rice performed reporting.

CDFA MEADOWVIEW WAREHOUSE ROOF REPLACEMENT, SACRAMENTO, CA

Geocon conducted a limited asbestos and LCP survey of the California Department of Food and Agriculture (CDFA) building at 3292 Meadowview Road in Sacramento. We performed our services to provide information regarding the potential for asbestos and lead at the site prior to planned roof replacement activities. Our scope of services included a limited survey of the site building roofs for suspect asbestos containing materials and potential LCP, and collecting bulk samples, and submitting the samples to laboratories for analyses. A written limited asbestos and LCP survey report was provided to DGS, summarizing the services performed by Geocon, and the results of laboratory analyses. Mr. Rice performed asbestos sampling and reporting. Mr. Rice conducted asbestos sampling.

CALIFORNIA CONSERVATION CORPS TAHOE CENTER, CMU WALL SPALLING, SOUTH LAKE TAHOE, CA

Geocon performed a limited asbestos and LCP survey of renovation areas in the residence building at the California Conservation Corps Tahoe Center. The survey included interior areas adjacent to the concrete masonry unit wall and fire rated doors on the first floor. Our scope included a limited survey of designated portions of the building for suspect ACM materials and potential LCP, collecting bulk samples, and submitting the samples to laboratories for analyses. Mr. Rice collected asbestos and lead samples for the survey and co-authored the Limited Asbestos and Lead-Containing Paint Survey Report.

Elizabeth's expertise is in water resources engineering and multi-disciplinary project teams. She has experience leading water resources planning studies and design projects and specializes in water supply and infrastructure master planning. She has prepared more than 24 water and utility master plans, more than 20 water supply assessments, and more than 30 urban water management plans. She has also prepared many other studies and plans for clients including groundwater studies, drought response and water shortage contingency plans, facility operations plans, and emergency operations plans involving the evaluation of existing facilities, evaluation of existing and future water demands, identification of system deficiencies and needs, evaluation of water supply alternatives, and development of recommendations for capital improvements. She has prepared preliminary and detailed designs for water supply facilities such as pipelines, pump stations, reservoirs, and canals. Elizabeth is a West Yost Vice President and currently serves as West Yost's Chief Engineer-Scientist, overseeing the firm's Technical Resources Program.

EXPERIENCE

2015 and 2020 Urban Water Management Plans, Various Clients: Served as the leader and coordinator of West Yost's 2015 and 2020 Urban Water Management Plan (UWMP) development team, responsible for review and interpretation of Department of Water Resources (DWR) UWMP requirements and tools (including UWMP standard tables, population tool and AWWA water audit software), development of practical approaches for UWMP preparation, understanding of information and data requirements, development of standardized document outlines and templates, liaison with DWR's UWMP staff, team coordination and communications, and quality assurance/quality control. Under Elizabeth's leadership, the West Yost team prepared sixteen 2015 UWMPs, all of which were determined by DWR to address the requirements of the California Water Code. As summarized below, 2015 UWMPs were prepared for the cities of Antioch, Modesto, Pleasanton, Roseville, Sacramento, San Bruno, Santa Rosa, Turlock, Ukiah, and Woodland, as well as the Coastside County Water District, Dublin San Ramon Services District, Fontana Water Company, Mountain House Community Services District, Olivehurst Public Utility District, and Woodland-Davis Clean Water Agency. 2020 UWMPs were prepared for the cities of Lincoln, Modesto, Napa, Petaluma, Pleasanton, Sacramento, San Bruno, Santa Rosa, Stockton, Turlock, and Woodland, as well as the Coastside County Water District, Dublin San Ramon Services District, Fontana Water Company, Mountain House Community Services District, Rincon Del Diablo Municipal Water District, Woodland-Davis Clean Water Agency, and Zone 7 Water Agency.

Water Supply Assessment for Pleasanton Downtown Specific Plan, Pleasanton, CA: Project Manager for the preparation of a Water Supply Assessment for the City of Pleasanton Downtown Specific Plan Update. Tasks included projection of water demands for the project, evaluation of water supply availability and reliability, and preparation of a Water Supply Assessment report in compliance with the requirements of SB 610.

Water Supply Assessments for Transit District and Downtown Precise Plan Projects, City of Redwood City, CA: Project Manager for the preparation of Water Supply Assessments in accordance with the requirements of California Senate Bill 610 for the City of Redwood

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

City's proposed Transit District and Downtown Precise Plan projects in the City's downtown area. The projects, if approved, will served from the City's potable water and recycled water systems.

Local Water Supply Enhancement Study, North Marin Water District, Novato, CA.: Principal-in-Charge for the preparation of a study to identify feasible water supply sources that the District may implement to supplement supply it receives from its wholesaler, Sonoma Water. The study will review potential alternatives including recycled water system expansion, water treatment plant efficiency improvements, stormwater capture, reservoir capacity increase, and desalination. Potential alternatives will be evaluated based on the following considerations: cost, water quality, hazards and risks, political and institutional, and operational. Working with the District, feasible alternatives will be selected based on evaluation results. West Yost will include recommended next steps towards project implementation.

Water Supply Evaluation for San Jose City College Facility Management Plan, San Jose, CA: Project Manager for the preparation of a Water Supply Evaluation to support the preparation of an Environmental Impact Report for an update to the San Jose City College (SJCC) Facility Management Plan (FMP). The purpose of the Water Supply Evaluation was to provide an evaluation of the availability and reliability of water supplies to serve existing facilities and future planned development that is proposed under the SJCC FMP. This evaluation was based on existing SJCC water demands, recent water use trends, projected water demands for the future planned development under the SJCC FMP, and the availability and reliability of water supplies from the San Jose Water, the water supplier to the SJCC campus.

Water Supply Evaluation for UC Santa Cruz Long- Range Development Plan, Santa Cruz, CA: Project Manager for the preparation of a Water Supply Evaluation for the update of the UC Santa Cruz Long Range Development Plan. Work included review of existing water supply agreements between the campus and the City of Santa Cruz and an evaluation of the availability and reliability of water supplies from the City to meet future campus needs.

2040 General Plan Update, City of Sacramento, CA: Principal-in-Charge and QC Reviewer for the preparation of water, sewer and storm drain components for the update of the City's General Plan. Work included the development of background reports for each system, development of future demand and flow conditions based on the City's future development plans, and evaluation of future infrastructure needs.

Mare Island Infrastructure Assessment Project, City of Vallejo and Vallejo Flood & Wastewater District, CA: QC Reviewer for the Mare Island Infrastructure Assessment (MIIA) Project which is assessing all infrastructure systems on Mare Island so the City and VFWD have a complete understanding of improvements needed to successfully serve the island, to ensure the Island's future is not constrained by infrastructure limitations, and to allow the full potential of Mare Island to be achieved.

Storm Water Resource Plan, Russian River Watershed Association, Santa Rosa, CA: QC Reviewer for the development of a Storm Water Resource Plan (SWRP) for the Russian River Watershed Association (RRWA). RRWA is a coalition of eleven cities, counties, and special districts in the Russian River Watershed that are jointly coordinating regional programs for clean water, habitat restoration, and watershed enhancement. Tasks included review of draft work products to ensure content and format of all work products was clear, concise, and addresses applicable requirements and needs.

2050 Napa Valley Water Resources Study, Napa County Public Works, CA: Project Engineer for the preparation of the 2050 Napa Valley Water Resources Study for the Napa County Flood Control and Water Conservation District. The Project was developed to assist in the development of an integrated water resources plan to serve water demands projected through 2050. The effort included refinement of the estimates of the County's total existing untreated and treated water demands, and projections of untreated and treated water demands for future demand areas. The primary focus was on agricultural areas, rural residential, and M&I growth consistent with approved General Plans. West Yost quantified the yield available from local surface water (existing reservoirs, direct diversion and use, and direct diversion and storage in a new or expanded reservoir), imported surface water, recycled water, and groundwater. Alternatives were developed and analyzed to base decisions for future expenditures on infrastructure, including improvements to the imported water system, recycled water and treated water storage and distribution facilities throughout the valley, and groundwater banking and production facilities.

Sacramento River Water Reliability Study, Phase I, Placer County Water Agency, Auburn, CA: Project Engineer for a multi-agency study involving stakeholders throughout the Sacramento area. The goal of the project is to regionally enhance water supply diversity and reliability, increase sustainability of regional groundwater supplies, and increase environmental protection in the American River watershed. The Phase I Study is a conceptual plan for the implementation and funding of the project and includes project phasing, project alternatives, and estimated planning-level costs. Tasks included evaluation of required pipeline diameters, alternative alignments and potential phasing and conceptual costs for transmission mains from the proposed river diversion to two alternative water treatment plant locations (raw water pipelines) and from the water treatment plant locations to proposed project participants (treated water pipelines).

- American Society of Civil Engineers, Sacramento Section 2011 Small Flood Control Project of the Year – Dry Creek Levee Relocation at the Wastewater Treatment Plant, City of Roseville

Doug Moore is an engineer with experience in storm drainage facility master planning, stormwater computer modeling, facilities planning, preliminary design, design and specifications, construction and capital cost estimating, project permitting, and project management. He has hydrologic and hydraulic modeling expertise with XPSWMM (1- and 2-dimensional modeling), Sacramento SWMM, HEC-1, HEC-2, HEC-HMS, HEC-RAS, MOUSE, MIKE URBAN, and RiverFLO-2D. He has provided initial planning, detailed design, and construction period engineering services for four large detention basin projects, each of which created significant wildlife habitat areas. Doug has performed wastewater treatment plant planning and facility evaluations. He has prepared potable water demand estimates and facility evaluations. He is skilled at preparing potable water, wastewater, and stormwater evaluations for development specific plans, city and county wide general plans, and environmental impact reports. Doug is particularly skilled at quickly developing infrastructure concepts and plans that minimize construction costs without compromising system performance.

EXPERIENCE

Stormwater Management Flood Mitigation Plan, City of Benicia, CA: Project Manager for developing the city-wide Stormwater Management Flood Mitigation Plan (SWMFMP). The SWMFMP included conducting site investigations, updating the City's GIS database, developing land use planning information, developing engineering design criteria and performance criteria to use in evaluating system compliance, evaluating and recommending hydraulic modeling software to use, and developing hydrologic and hydraulic models in the selected XPSWMM software.

Clover Valley Environmental Impact Report (EIR) - Raney Planning and Management, City of Rocklin, CA: Doug prepared the hydrology/flood control, stormwater quality, and groundwater segments of an EIR for the Clover Valley development in the City of Rocklin. The development project originally included two on-line detention basins along Clover Valley Creek by constructing restrictive culverts under proposed roadways. The EIR analysis determined that these on-line basins would cause deposition of sediment within the creek channel upstream of the restrictive culverts and scouring of the channel just downstream of the restrictive culverts. Doug recommended use of off-creek basins and identified potential sites for off-creek basins. These off-creek basins resolved many of the concerns expressed by the Regional Water Quality Control Board and local environmental organizations. Ultimately, the online basins were selected, but they were modified to eliminate the impacts identified in the EIR analysis. The EIR analysis also included evaluation of the effectiveness of the proposed water quality treatment vaults, and several additional water quality best management practices were required as mitigation measures. Minimal groundwater impacts were identified, and mitigation measures were developed to reduce the impacts to less than significant levels.

CEQA Peer Review of City of Davis, Cannery Park Water, Wastewater, and Stormwater Master Plans, De Novo Planning Group/City of Davis, CA: The Cannery Park Development in Davis included 100-acres of residential and commercial development. The project developer had prepared water, wastewater, and stormwater master plans. West Yost provided peer reviews of each master plan. Through the peer review of the

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

water master plan, we concluded the City has adequate water supplies for the development project. The wastewater master plan included several infeasible sewer options, and through the peer review these infeasible options were identified and eliminated from further evaluation. We also identified several modeling errors that were artificially resulting in stormwater impacts that wouldn't actually occur. We prepared peer review comment letters and conducted in-person and telephone meetings with City staff and the project developer. The master plans were revised to address the peer review comments.

Wastewater, and Stormwater CEQA Support for Innovation Centers, City of Davis, CA: Project Manager for CEQA support for three innovation centers considered for development in the City of Davis, including the Davis Innovation Center (DIC), the Mace Ranch Innovation Center (MRIC), and the Nishi Project (NP) (collectively: the ICs). The City's sewer system capacity was evaluated to determine if there was adequate conveyance capacity for the ICs. A mitigation measure was prepared that required payment of standard impact fees and a future contribution for expansion of the WWTP if needed. Compliance with FEMA floodplain requirements was also evaluated for each site. Each site was evaluated for compliance with the California Urban Level of Flood Protection (ULOP) requirements (200-year level of flood protection). It was found that the ULOP applied for the DIC but not for the MRIC or the NP.

General Plan Update, De Novo Planning Group/City of Atwater, CA: Quality Assurance/Quality Control reviewer for the Infrastructure Analysis for the City of Atwater General Plan Update. West Yost is a subconsultant to De Novo, providing a planning-level analysis of the potable water and wastewater collection systems. The analysis includes an evaluation of the City's potable water and wastewater infrastructure under existing conditions, three General Plan Land Use alternatives, and a Preferred Land Use Plan selected by the City. The evaluations are used in preparation of the Environmental Impact Report (EIR).

Alamo Place Environmental Impact Report, City of Vacaville, CA: Evaluated impacts of a new 500-home development on existing sewer and storm drain facilities using existing master plans and the HEC-1 computer model. Wrote the sewer and storm drainage sections of the EIR/EIS.

2040 General Plan Update, Dyett and Bhatia/City of Sacramento, CA: Project Manager for potable water, sewer, storm drainage, and flood control infrastructure support for the City of Sacramento General Plan Update. Our team participated in the City's kickoff workshops, prepared infrastructure background reports to evaluate infrastructure needs for three land use alternatives and a preferred land use plan, prepared the utilities sections of the Environmental Impact Report for the General Plan Update.

Storm Drainage Master Plan, Vallejo Sanitation & Flood Control District (VFWD), Vallejo, CA: Project Manager for the Storm Drainage Master Plan (SDMP) and personally performed about 20 percent of the modeling and technical work. The project included field surveys of over 5,000 storm drain facilities using a GPS system; developed computer models of four watersheds using the MOUSE hydrologic/hydraulic model package; developed comparison level alternatives evaluation and selected a preferred project for 32 flooding problems (including cost estimates); developed a capital improvement plan, provided PowerPoint presentation of the SDMP to the VFWD Citizens Advisory Committee, and prepared a four volume SDMP.

H Street Pump Station Watershed Drainage Study, City of Davis, CA: Project Manager for a study to determine if the FEMA floodplain south of Covell Boulevard could be removed through a Letter of Map Revision (LOMR) or Conditional Letter of Map Revision (CLOMR). West Yost developed an XP-SWMM two-dimensional surface flow model linked to a one-dimensional model of the trunk storm drain system to quickly evaluate the adequacy of the existing pump station to pump the peak flows that reach the pump station. The H Street PS Watershed was subdivided into about 119 subwatersheds for the hydrologic analysis. For the hydraulic analysis, about 140 segments of trunk storm drain were included in the model. The model also included the H Street Pump Station and the downstream channel along the railroad to the Covell Drain. The LiDAR topographic mapping was used to define the two-dimensional ground surface in XP-SWMM model. The storm drain system was defined with record drawings and through field measurements taken by City and West Yost staff. The model was calibrated with the February 4, 2017, storm event using the flood photographs and the recorded wet well water level and pump operation data at the H Street Pump Station. The 100-year floodplain was delineated. Five alternatives were developed and evaluated to further reduce the existing flooding and prevent flooding of houses during the 100-year event. Based on the calibrated model results, a LOMR application was submitted and approved by FEMA.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

Rhodora N. Biagtan, PE

Staff Title: Principal Engineer II

Office Location: Sacramento, CA

Years of Experience: 29

Years with West Yost: 5

Professional Registrations

- Professional Civil Engineer, California No. 59371

Education

- BS, Civil Engineering and Materials Science & Engineering, University of California, Davis

Professional Affiliations

- WateReuse California – Northern California Chapter
  - California Conference Technical Committee Co-chair (2022)
  - Board of Trustee Representative (2019 and 2020)
  - President (2017 and 2018)
- WateReuse California – Central Valley/Sierra Foothills Chapter
- California Water Environment Association
- Bay Area Water Works Association

Rhodora N. Biagtan specializes in master planning, recycled water program planning and implementation, water conservation, development permitting, and project management. She has 29 years of experience in the water and wastewater industry, including almost 24 years working in a public utilities district that provided potable water, recycled water, and wastewater services. Almost three of those years were as the interim engineering services manager and district engineer, where she managed the agency's capital improvement program, utility planning, development services, permitting, asset management, GIS/mapping, environmental compliance, and water conservation. She has experience working in collaborative relationships with other agencies and organizations and has served in leadership roles in water-focused organizations.

EXPERIENCE

Fairfield Potable Water Utility Master Plan, City of Fairfield, Fairfield, CA: As task lead over policy review, Rhodora is working collaboratively with City water utility manager and staff to update the Water Code section of the Fairfield Municipal Code. The revisions will incorporate the City's adopted water shortage contingency plan and demand management, State-adopted water conservation legislation, and State regulations associated with water service to accessory dwelling units. The City's current policies and practices are also being considered during revisions of the City's municipal code.

2020 Urban Water Management Plan, Various Clients: The Urban Water Management Planning Act was updated in 2018 to include significant legislative requirements associated with drought planning in response to the 2012 to 2016 statewide drought. Rhodora served as a technical resource for West Yost's 2020 Urban Water Management Plan (UWMP) development team, responsible for interpreting and addressing updated legislative requirements associated with Water Shortage Contingency Plan, compliance with Delta Plan Policy WR P1 on demonstration of reduced Delta Reliance, and drought resiliency planning. Rhodora developed a framework to address new requirements associated with Water Shortage Contingency Planning and drought risk assessment. She also provided guidance on demand management measures. As requested by agencies, Rhodora reviewed municipal and district codes associated with water conservation and water shortage emergency and suggested revisions so that they are consistent with new legislative requirements and their updated Water Shortage Contingency Plans. Rhodora provided Quality Assurance/Quality Control (QA/QC) review of several UWMPs for conformance with the Department of

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

Water Resources' UWMP Guidebook 2020. Rhodora supported the preparation of thirteen of the nineteen 2020 UWMPs prepared by the team for the Cities of Lincoln, Modesto, Napa, Pleasanton, Sacramento, San Bruno, Stockton, and Turlock; Dublin San Ramon Services District; Fontana Water Company; Rincon Del Diablo Municipal Water District; Woodland-Davis Clean Water Agency; and Zone 7 Water Agency.

Grandpark Potable Water Master Plan, MacKay and Somps, Unincorporated Sacramento County, CA: As project lead, Rhodora prepared a potable water master plan for a proposed 21,000-home master planned community in West Sacramento. She worked with staff hydraulic modelers to develop and size a potable water distribution system, including tanks, pump stations, and pipelines, that would provide adequate fire flow and service demand. She reviewed potential surface water and groundwater sources and sited a centralized surface water treatment plant and groundwater wells. The report was finalized to the satisfaction of the property owner and is ready for submittal to the County of Sacramento as part of the project's specific plan submission.

2016 Water Master Plan Update, Dublin San Ramon Services District, Dublin, CA: Rhodora was the District's project manager for the preparation of this update. This project was prepared to align with the District's two-year Capital Improvement Program Budget and Operating Budget, Rate Study and Capacity Reserve Fee (aka Connection Fee) Study. The Rate Study and Capacity Reserve Fee studies were incorporated into the Water Master Plan Update effort for consistency with existing and planned services. Rhodora coordinated with internal staff to provide GIS, asset management data, SCADA data, and other field operational information to the selected consultant. Rhodora reviewed the hydraulic modeling results and the master plan report, provided input on service delivery criteria, and provided comments for inclusion in the final document. She also coordinated training of hydraulic modeling for key District staff. Rhodora collaborated with the District Finance Officer to prepare the rate study and fee study, providing service projections and recommending projects to be included for consideration in funding and implementation. As the District's project manager, Rhodora prepared the capital improvement project budget, monitored and updated the project budget and schedule, procured a consultant through a Request for Proposal Process, and negotiated and administered consultant contracts.

Water Supply Assessment for AT Dublin Development Project, Dublin San Ramon Services District, Dublin, CA: Rhodora was the project lead for the preparation of a Water Supply Assessment (WSA) for the proposed AT Dublin Development conforming to the requirements of SB 610. The WSA evaluated the projected water demands for the AT Dublin development and assessed whether adequate water supplies were available to serve the project under normal, single dry and multiple dry year conditions, using the District's Urban Water Management Plan. The WSA was adopted by the District Board of Directors and is planned for inclusion in the Draft EIR for the AT Dublin Project.

2019 Wastewater Collection System Master Plan Update, Dublin San Ramon Services District, Dublin, CA: As a principal engineer and division manager, Rhodora managed the preparation the wastewater collection system master plan, which has not been updated since 2005. In anticipation of a record wet year, Rhodora obtained a separate contract to conduct flow monitoring to capture infiltration/inflow of storm water into the wastewater collection system. The data was used as part of the study and incorporated in the resulting hydraulic model. Rhodora coordinated with internal staff to provide GIS, asset management data, and operational information to the selected consultant. Rhodora provided planned landuse development projections, provided input on service criteria, reviewed the hydraulic modeling results, and provided review comments to the substantially complete the master plan report. As the District's project manager, Rhodora prepared the capital improvement project budget, monitored and updated the project budget and schedule, procured a consultant through a Request for Proposal Process, and negotiated and administered consultant contracts.

Professional Affiliations

- American Society of Civil Engineers

Bonnie Robison is a civil engineer with a focus in water resource and water supply planning. Her project experience includes preparation of water system master plans, water supply assessments, urban water management plans, and hydraulic studies for new developments. She has previously worked in a municipal utilities department that provided potable water and wastewater services. While there, her project experience included preparation of water planning documents; project management for master planning, design, and construction projects; and review of land development projects. She has experience using ArcGIS and InfoWater.

EXPERIENCE

Marin County Drought Resilience Plan, County of Marin, CA: Project engineer for the preparation of Marin County's Drought Resiliency Plan in conformance with the requirements of State Senate Bill 552 (Drought Planning for Small Water Suppliers and Rural Communities). The Plan will assess the varied impacts of recent droughts, primarily in areas served solely by domestic wells and state small water systems. Bonnie provided guidance and worked with staff engineers to evaluate the area's drought vulnerability and assess drought risk. The Plan will also develop short-term and long-term strategies to mitigate drought impacts. Preparation of the plan involves public and stakeholder outreach. As the County's initial Drought Resilience Plan, it will be prepared as a stand-along plan and policy document to identify information gaps and outline future actions.

Sonoma County Drought Resilience Plan, Sonoma Water, Santa Rosa, CA: Project engineer for the preparation of Sonoma County's Drought Resiliency Plan in conformance with the requirements of State Senate Bill 552 (Drought Planning for Small Water Suppliers and Rural Communities). The Plan assesses the varied impacts of the 2013-2015 drought and the 2020-2022 drought primarily in areas that are not served by Sonoma County Water Agency and its contractors, focused on those areas served by state small water systems and domestic wells. Bonnie evaluated the Study Area's drought vulnerability and assessed drought risk based on information gathered from existing County documents and stakeholder outreach with the County's five Supervisorial Districts. As the County's initial Drought Resilience Plan, it will be prepared as a stand-along plan and policy document to identify information gaps and outline future actions.

Water Supply Assessment for The Campus Project, Dixon, CA: Project engineer for the preparation of a Water Supply Assessment for the proposed Campus Project within the City of Dixon in accordance with the requirements of California Senate Bill 610. The proposed project includes approximately 1,041 new residential dwelling units and 2.5 acres of commercial development in northeast Dixon. If approved, the proposed project will be served from the City's existing groundwater supplies.

Water Supply Assessment for Fresno South Central Specific Plan, City of Fresno, CA: Project engineer for the preparation of a Water Supply Assessment for the City of Fresno's proposed South Central Specific Plan in accordance with the requirements of California Senate Bill 610. The proposed project includes approximately 3,365 acres of industrial development, 1,034 acres of commercial development, and 270 acres of residential development in south Fresno. If approved, the proposed project will be served from the City's existing surface water and groundwater supplies.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

Water Supply Assessment, County of Santa Clara, CA: Project engineer for the preparation of a Water Supply Assessment for the County of Santa Clara's Housing Element Update 2023-2031. The proposed project included up to 8,440 potential units of new, multi-family residential development. Tasks included development of water demand projections, evaluation of available water supplies from available SFPUC, groundwater, and surface water supplies, and preparation of the Water Supply Assessment.

2020 Urban Water Management Plan, City of Vacaville, CA: Project manager for the preparation of the City's 2020 UWMP Update. Bonnie reviewed legislative updates to the Urban Water Management Planning Act to identify new requirements for the UWMP. She was responsible for documenting the City's current and project population, calculating and projecting water supply and water demand, reporting on the City's compliance with its SB X7-7 per capita water use target for 2020, assessing supply reliability, and preparing the City's drought risk assessment in response to the 2012 to 2016 statewide drought. Plan preparation included coordination with various City departments as well as with the City's wholesaler. The UWMP was adopted by the City Council and submitted to DWR on schedule.

Water Supply and Facility Master Plan Update, California Water Service, Chico-Hamilton City District: Deputy project manager for an update to Cal Water's previous Water Supply and Facility Master Plan for the Chico-Hamilton City District. The project was a collaborative effort with Cal Water staff to obtain planning data developed by Cal Water (demand projections, supply plans, asset management plans, hydraulic model, etc.) and then provide a summary and analysis in the updated plans. Provided guidance to staff engineers in assessing the District's water system facilities for condition and capacity, as well as preparing a prioritized capital improvement plan for addressing future demand growth and system improvement requirements. The plan also included a high-level evaluation of centralized treatment for groundwater and an evaluation of existing property available for recommended facilities. The goal of the plan is to provide an updated Capital Improvement Plan to support the next two General Rate Cases.

Water Supply and Facility Master Plan Update, California Water Service, Oroville District: Project engineer providing support for an update to Cal Water's previous Water Supply and Facility Master Plan for the Oroville District. The project was a collaborative effort with Cal Water staff to obtain planning data developed by Cal Water (demand projections, supply plans, asset management plans, etc.) and then provide a summary and analysis in the updated plans. Provided guidance to staff engineers in assessing the District's water system facilities for condition and capacity, as well as preparing a prioritized capital improvement plan for addressing future demand growth and system improvement requirements. The goal of the plan is to provide an updated Capital Improvement Plan to support the next two General Rate Cases.

Water Master Plan, City of Petaluma, CA: Project engineer for the update to the City of Petaluma's Water Master Plan. The City's previous water master plan had been completed several years earlier, and since then the City had refined growth estimates and experienced changes in water use patterns. Bonnie evaluated the City's future water supply plan and existing facilities compared to recommended criteria.

Water Master Plan, Suisun-Solano Water Authority, Solano County, CA: Project engineer for the development of the Suisun-Solano Water Authority's (SSWA) Water Master Plan. Work included analysis of existing system demands, development of future demand projections, demand allocation for use in calibrating SSWA's hydraulic model, and system evaluation against defined performance criteria. Bonnie provided guidance to staff engineers in assessing the capacity of SSWA's water system facilities in both current and future conditions. Bonnie's work also included using the results from capacity analyses and hydraulic evaluations to develop a comprehensive capital improvement program.

Water Master Plan Update, City of Vacaville, CA: Staff engineer for the update to the City of Vacaville's Water Master Plan. The City's previous water master plan had been completed two years prior, and since then the City had refined growth estimates and experienced changes in water use patterns. Bonnie evaluated and summarized the City's future water supply plan and developed a recommended capital improvement program based on the recommended system improvements under existing and future demand projections.

Water and Wastewater Facilities Planning, Berryessa Point Marina, Napa County, CA: Project manager/engineer for the development of a conceptual plan and a basis of design for water and wastewater systems for the redevelopment of a marina at Lake Berryessa. The water facilities included an on-site treatment system designed to treat water from Lake Berryessa at approximately 150,000 gallons per day, as well as associated distribution system pipelines, pump stations, and a storage tank. Wastewater facilities include on-site treatment for approximately 99,000 gallons per day, as well as collection system pipelines, a lift station, and on-site disposal using evaporation and percolation ponds with an underground leach field. A conceptual-level cost estimate was also prepared for the proposed facilities.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

Melissa M. Duffy, PE

Staff Title: Senior Engineer II

Office Location: Sacramento, CA

Years of Experience: 14

Years with West Yost: 7

Professional Registrations

- Professional Civil Engineer, California No. 87217

Education

- BS, Civil Engineering, Loyola Marymount University, Los Angeles, California

Professional Affiliations

- California Stormwater Quality Association
- Floodplain Management Association

Melissa Duffy is a civil engineer with a focus on hydrologic and hydraulic modeling and analysis for storm drainage master plans, drainage analyses, and FEMA Letter of Map Change applications. Melissa provides engineering analysis and design for pipeline, open channel, pump station, detention basin, and levee projects. Melissa's construction management experience includes treatment plants, electrical systems, and health care facilities. Melissa is proficient in AutoCAD, Civil 3D, and ArcGIS. She has developed hydrologic and hydraulic models using HEC-RAS, HEC-HMS, Sacramento County Hydrologic Calculator, XPSWMM, PCSWMM, and MIKE URBAN.

EXPERIENCE

Stormwater Management Flood Mitigation Plan, City of Benicia, CA: Staff Engineer for the city-wide Stormwater Management Flood Mitigation Plan (SWMFMP). The SWMFMP included conducting site investigations, updating the City's GIS database, developing land use planning information, developing engineering design criteria and performance criteria to use in evaluating system compliance, evaluating and recommending hydraulic modeling software to use, and developing hydrologic and hydraulic models in the selected XPSWMM software.

General Plan Update, De Novo Planning Group/City of Atwater, CA: Project Manager for the Infrastructure Analysis for the City of Atwater General Plan Update. West Yost is a subconsultant to De Novo, providing a planning-level analysis of the potable water and wastewater collection systems. The analysis includes an evaluation of the City's potable water and wastewater infrastructure under existing conditions, three General Plan Land Use alternatives, and a Preferred Land Use Plan selected by the City. The evaluations are used in preparation of the Environmental Impact Report (EIR).

General Plan Update, Dyett and Bhatia/City of Fairfield, CA: The City of Fairfield is currently updating their General Plan. Melissa is serving as the Project Manager for potable water, sewer, storm drainage, and flood control infrastructure support for the General Plan Update. This support has included preparing the utilities section of the existing conditions report and evaluating three General Plan Land Use alternatives, including estimated infrastructure costs, to help select a preferred l and use alternative. The alternatives evaluation included projecting the water demands, wastewater flows, and stormwater runoff rates for each alternative. Once the preferred alternative is selected, West Yost will prepare a preliminary utility plan to be used for the EIR that identifies utility impacts resulting from the General Plan growth and if possible, mitigation measures that reduce the impacts to a less-than significant level.

On-Call Drainage Engineering Services, City of Rancho Cordova, CA: Project Manager for peer reviews of drainage studies and drainage infrastructure designs prepared by other consultants for compliance with County and City standards.

Storm Drain Master Plan, City of Pinole, CA: Project Manager responsible for developing a Storm Drain Master Plan for the City of Pinole. The project includes delineating subwatersheds for each outfall to Pinole Creek and the bay, managing the survey subconsultant to obtain data for the City's infrastructure, updating the City's GIS

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

database, and developing new hydrologic/hydraulic models in PCSWMM software. The models will be used to identify deficiencies and recommend capital improvement projects.

Basin 67 Hydrologic and Hydraulic Analysis, City of Sacramento, CA: Project Manager for the evaluation of the City's Basin 67 drainage shed. The project included reviewing record drawings and GIS data to develop a hydrologic and hydraulic model in XPSWMM software. The model was used in the evaluation of the existing storm drain system, identification of system deficiencies during the 10- and 100-year design storm events, and an alternatives analysis to evaluate pump station and detention basin alternatives. West Yost provided a technical memorandum to the City with a comparison of the model results for the existing conditions and proposed alternatives and a recommendation for improvements.

Basin 111 Hydrologic and Hydraulic Analysis, City of Sacramento, CA: Project Manager for the evaluation of the City's Basin 111 drainage shed. The project includes reviewing record drawings and GIS data to develop a hydrologic and hydraulic model in Innovyze ICM software. The model has been used to evaluate the existing infrastructure under existing and 2040 General Plan land use types to identify deficiencies in the 10- and 100-year design storm events. The model is also being used to evaluate improvement alternatives including pump station upgrades, pipe upsizing, and detention storage.

Residences East and West, Baker Williams Engineering Group, Rancho Murrieta, CA: Project Manager for the hydrologic and hydraulic analysis of the proposed 145-acre Residences East and West project. The analysis included the evaluation of pre-project, post-project, and interim grading conditions using a hydrologic and hydraulic model developed in XPSWMM software. The analysis and results were summarized in a Level 4 Drainage Study and approved by the County of Sacramento.

Rancho Cordova Storm Drain Master Plan, City of Rancho Cordova, CA: Lead Project Engineer responsible for coordinating field assessments, developing hydrologic and hydraulic models, and identifying recommended improvements. West Yost prepared a stormwater master plan to evaluate the City's trunk storm drain system. Services included data collection and condition assessment field work; preparing hydrologic and hydraulic modeling for the trunk system to identify capacity deficiencies; and evaluating potential low impact development projects that can help reduce runoff and improve water quality.

Drainage Support for the Sunrise Boulevard Widening, City of Rancho Cordova, CA: Project Manager serving as the drainage subconsultant to Dewberry. West Yost is preparing a comprehensive hydrologic and hydraulic analysis for the widening of a section of Sunrise Boulevard from Kiefer Boulevard to Jackson Highway. Widening the existing two-lane Sunrise Boulevard to four-lanes and ultimately six lanes will likely increase stormwater flows discharging to Laguna Creek due to added impervious surfaces. West Yost is completing a drainage evaluation for the proposed drainage facilities, including detention basins, stormwater pipelines, ditches, and culverts.

Rocklin City Tributary Letter of Map Revision (LOMR) Application, City of Rocklin, CA: Project Manager and Lead Project Modeler for the hydrologic and hydraulic analysis and LOMR submittal for the Rocklin City Tributary. Developed a hydrologic model in HEC-HMS software, in accordance with Placer County Standards. The resulting hydrographs were routed through the City's storm drain system using XPSWMM software. Peak flows were used as input to the revised FEMA HEC-RAS model. The hydrologic and hydraulic analysis was used to submit a LOMR application to FEMA, including a certified topographic work map with modified floodplain boundaries. The updated analysis corrected the floodplain boundary to remove multiple houses from FEMA flood hazard zones.

Storm Drain Master Plan Update, City of Dixon, CA: Deputy Project Manager for the City's Storm Drain Master Plan Update. The update includes developing and populating a GIS database of the City's storm drain system, performing a condition assessment of the City's storm drain system, developing a City-wide hydrologic and hydraulic model in XPSWMM software, identifying deficiencies, and developing recommended capital improvement projects.

Storm Drain Master Plan Update, City of Tracy, CA: Project Manager for the Storm Drain Master Plan Update. West Yost is tasked with evaluating detention basin design criteria for the City based on criteria for surrounding agencies, developing a new hydrologic/hydraulic model in PCSWMM software and updating it based on the established basin design criteria, evaluating dual-use detention basins, and providing and updated City-wide Storm Drain Master Plan document.

Conditional Letter of Map Revision Based on Fill (CLOMR-F) Application for the Proposed PEP Housing Property, PEP Housing, Vacaville, CA: Project Manager for the hydraulic analysis and CLOMR-F submittal to remove the proposed development from the FEMA Zone A floodplain. A two-dimensional hydraulic model was developed using HEC-RAS software to evaluate the existing and proposed conditions and determine the mitigation necessary to minimize the impact to the surrounding area. The conditions were compared by exporting and evaluating the results in ArcGIS, and the results were used to submit a CLOMR-F application to FEMA.

SAXELBY ACOUSTICS RESUMES

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

Qualifications and Experience

Key Staff

LUKE SAXELBY, INCE Bd. Cert.

Principal Consultant at Saxelby Acoustics

915 Highland Pointe Drive, Suite 250 | (916) 760-8821 | Luke@SaxNoise.com | SaxNoise.com

Mr. Saxelby has been practicing acoustic and noise control engineering for the past 18 years and is a Board-Certified member of the Institute of Noise Control Engineering (INCE). He is an expert in the requirements of the California Environmental Quality Act (CEQA) relating to noise impacts and has been involved in the preparation of hundreds of noise studies, including CEQA Environmental Impact Reports (EIR) and Mitigated Negative Declarations (MND). He is also a recognized expert witness in issues relating to building acoustics and noise control and has given testimony on various legal projects including construction defect claims and CEQA litigation.

Mr. Saxelby has extensive experience in the use of complex noise modeling programs including the Federal Highway Administration (FHWA) Traffic Noise Model (TNM), the CadnaA (Computer Aided Noise Abatement) sound prediction model, SoundPLAN acoustic model, the Federal Aviation Administration's (FAA) Integrated Noise Model (INM), and the Enhanced Acoustic Simulator for Engineers (EASE) model. He has also developed many custom computer models used in his practice. Special interests and areas of practice include the application of noise control techniques for mechanical systems, building noise control design, low noise HVAC systems, and architectural acoustics.

KEY EXPERIENCE

- Airstrip/Helipad Noise Assessment
- Architectural Acoustics Design and Testing
- Community Noise Ordinance Development
- Compliance Monitoring
- Construction Noise/Vibration Analysis
- EIR / MND / EIS / HUD Noise Assessments
- Expert Witness
- General Plan Noise Element Development
- Green Building Code Analysis
- Industrial Noise Control
- Low Noise HVAC Design
- Master Plan / Community Plan Noise
- Mining Noise Assessment
- Peer Review
- Transportation Noise Studies
- Wind Turbine Noise Analyses

PROFESSIONAL EXPERIENCE

- Vice President & Senior Consultant | j.c. brennan & associates, Inc. | 2006-2017
- Consultant | Bollard Acoustical Consulting | 2005
- Consultant & Technician | Bollard & Brennan, Inc. | 2002-2005

EDUCATION/TRAINING/PROFESSIONAL AFFILIATIONS

- Institute of Noise Control Engineering (INCE) | Board Certified (2011)
- FHWA Traffic Noise Model (TNM) Training Course | Burlington, MA (2005
- B.S. Mechanical Engineering | California State University | Sacramento, California (1999-2004)
- Board for Professional Engineers and Land Surveyors: Engineer-In-Training (EIT) #116045 (2003)

PUBLICATIONS

- *Noise Control for a Metal Shredder and Recycling System* | Sound & Vibration Magazine | August 2012

PROJECT EXPERIENCE – ACOUSTICAL DESIGN AND NOISE CONTROL ENGINEERING

- **4045 Broadway Multi-Family Development. Oakland, California.** Consulted with the project architect during design of the project. Provided review and recommendations for sound isolation at common party walls, floor/ceiling assemblies, stairwells, rooftop patios, garbage chutes, rooftop HVAC equipment, and mechanical shafts. Conducted construction inspections to ensure that acoustic details were being implemented correctly and consistently. Conducted final acoustic testing to verify required performance ratings.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

- **401 29th Street Multi-Family Development. Oakland, California.** Consulted with the project architect during design of the project. Provided review and recommendations for sound isolation at common party walls, floor/ceiling assemblies, stairwells, rooftop patios, garbage chutes, rooftop HVAC equipment, and mechanical shafts. Conducted construction inspections to ensure that acoustic details were being implemented correctly and consistently.

- **Scotia Apartments Multi-Family Development. San Jose, California.** Consulted with the project architect during design of the project. Provided review and recommendations for sound isolation at common party walls, floor/ceiling assemblies, stairwells, rooftop patios, garbage chutes, rooftop HVAC equipment, and mechanical shafts. Conducted construction inspections to ensure that acoustic details were being implemented correctly and consistently.
- **California School for the Deaf Acoustical Design. Riverside, California.** Designed acoustic and noise control measures to limit the potential for noise intrusion in classrooms designed for deaf and hearing impaired students. Gave recommendations for specific acoustical wall treatments and noise control measures for HVAC systems.
- **Jackson Street Multi-Family Housing. Seattle, Washington.** Conducted an analysis of interior noise levels from the adjacent Interstate 5 highway on the proposed high rise residential development. Specific wall and window design recommendations were given to minimize noise infiltration into the proposed residential units.

PROJECT EXPERIENCE – ENVIRONMENTAL NOISE ASSESSMENT

- **Bethel Church Collyer Drive Campus. City of Redding, California.** Responsible for preparing the Noise and Vibration study for the project EIR. Conducted measurement of existing ambient noise levels and analyzed potential noise and vibration impacts at the nearest residential receptors. Analysis included assessment of off-site traffic, parking lot noise, use of amplified sound, HVAC mechanical equipment, and outdoor congregation of people.
- **Isabella Dam Safety Modification EIS. Lake Isabella, California.** Responsible for preparing the Noise and Vibration study for the Army Corps of Engineers proposed modifications and/or replacement of the Lake Isabella Main and Auxiliary dam structures. Prepared a technical noise study report for the project EIS addressing potential noise and vibration impacts associated with the proposed project at sensitive receptors located around the project. Recommended noise control measures where necessary to reduce the potential impacts.
- **Central Trunk Sewer Rehabilitation Construction Project. Sacramento, California**. Responsible for conducting noise and vibration monitoring and development of Noise/Vibration Reduction Plan prior to, and during, construction. Worked with the Sacramento Area Sewer District and the project contractor to develop noise reduction measures for construction equipment during the project stages and to respond to various noise complaints.

PROJECT EXPERIENCE – EXPERT WITNESS

- **Arden Owners Association v. BOSA Development California II, Inc.** San Francisco, California. Retained by Lorber, Greenfield & Polito, LLP. Provided expert witness review of plaintiff's acoustical testing of wall, floor/ceiling, and plumbing sound transmission claims. Case pending.
- **Foo 1996 Trust v. Matarozzi Pelsinger Builders, Inc.** San Francisco, California. Retained by Green & Hall LLP. Provided expert witness review of plaintiff's acoustical testing of wall, floor/ceiling, and plumbing sound transmission claims. Provided expert deposition. Case settled.
- **Davis v. AOAO Ko'olina Kai Golf Estates and Villas.** Ko'olina, Hawaii. Retained by Jenny Davis. Conducted acoustic testing for plaintiff and provided expert witness deposition and testimony at arbitration. Case settled.
- **Blue Lake Rancheria v. Wright Development-California, Inc. et al**. Humboldt County, California. Retained by Green & Hall LLP. Provided expert witness review of plaintiff's acoustical testing of wall and floor/ceiling sound transmission. Settled out of court.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

- **Dani Garrett, et al. v. K. Hovnanian, Inc. et al.** Sacramento, California. Retained by Green & Hall LLP. Provided expert witness review of plaintiff's acoustical testing of wall and floor/ceiling sound transmission. Settled out of court.
- **La Paloma HOA v. IREC/Buffalo, Inc., et al.** Las Vegas, Nevada. Retained by Springel & Fink LLP. Conducted visual inspections, provided expert witness review of plaintiff's acoustical testing of wall and floor/ceiling sound transmission, HVAC noise, and plumbing noise. Gave expert testimony at arbitration hearing. Settled out of court.
- **Tanamera Resort Condominiums v. Fleur De Lis HOA, et al.** Reno, Nevada. Retained by Springel & Fink LLP. Conducted visual inspections, provided expert witness review of plaintiff's acoustical testing of wall and floor/ceiling sound transmission, HVAC noise, and plumbing noise**.** Settled out of court.
- **Mantova Community Association v. LLV-IRC, LLC.** Las Vegas, Nevada. Retained by Springel & Fink LLP. Conducted visual inspections, provided expert witness review of plaintiff's acoustical testing of wall and floor/ceiling sound transmission, HVAC noise, and plumbing noise. Settled out of court.
- **Galt Citizens for Sensible Planning, et al. v. City of Galt, et al.** Galt, California. Retained by Kronick, Moskovitz, Tiedemann, & Girard. Responded to comments on noise studies. Provided expert testimony to City Council. Settled out of court.
- **Riva/Del Rio v. Nevada Pacific West Builders**. Sacramento, California. Retained by Bullivant Houser Bailey PC and Springel & Fink LLP. Conducted visual inspections, provided expert witness review of plaintiff's acoustical testing of wall and floor/ceiling sound transmission, HVAC noise, and plumbing noise. Settled out of court.

EXPERTISE

- Transportation Planning and Impact Analysis for Developments, Specific Plans, Master Plans, and General Plans
- SB 743 Implementation
- Transit System Planning and Design
- Corridor Studies
- Traffic and Transit Facility Planning and Engineering
- Traffic Signal and Lighting Design
- Pedestrian and Bicycle Planning and Design
- Traffic Operations Analyses for Roadway Infrastructure Projects

ABOUT

Bill has more than 30 years of experience in the planning and design of transportation systems. A registered Civil and Traffic Engineer, his experience ranges from transportation planning studies of region-wide significance to the planning and design of improvements to local intersections and roadways. Bill has prepared the transportation and circulation sections for numerous environmental documents including environmental assessments, mitigated negative declarations, environmental impact reports (EIRs), and environmental impact statements (EISs) and is adept at ensuring that impacts are identified and that mitigation measures are adequately addressed. Bill's recent work in Brentwood includes the 4th Middle School, Lone Tree Way widening, Vineyards Amphitheater, and Sand Creek Road Regional Sports Complex transportation assessments.

PROJECT EXPERIENCE

City of Antioch Housing Element Update and SB 743 Implementation
Bill Is currently serving as project manager for the City of Antioch's Housing Element Update and SB 743 Implementation project. Fehr & Peers is serving as the transportation consultant preparing the technical analysis supporting the City's update to the General Plan's Housing Element. As part of this work, the firm is preparing analysis supporting the development of housing plans and programs that will result in beneficial VMT outcomes. In a separate but linked piece of work Fehr & Peers is preparing the analysis and updates to the City's transportation guidelines for the full implementation of SB 743 and the use of VMT to evaluate projects within the city.

City of Benicia Housing Element Update and VMT Guidelines
Fehr & Peers assisted the City of Benicia in developing VMT analysis methodology, metrics, and thresholds of significance for purposes of CEQA impact evaluation. Bill served as principal in charge for this effort. The project developed a tool to process model output to generate VMT metrics and other attributes for activity-based travel demand models including the MTC and SNABM models. As part of the work, Grace and Fehr & Peers prepared the transportation impact assessment evaluating the potential impacts of the City's Housing Element Update, 6th Cycle.

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

Brentwood Boulevard & Downtown Brentwood Specific Plan Updates

Bill is currently managing the transportation planning work for the updates to the Brentwood Boulevard and Downtown Brentwood Specific Plans. As part of the projects the team is developing and assessing land use and transportation infrastructure options for re-envisioning the future of these areas of the City of Brentwood. Multi-modal transportation plans reflecting bicycle, pedestrian, transit, and vehicular circulation options are under development with the project team.

City of Pittsburg On-Call Traffic Engineering Services

Fehr & Peers is extremely proud to have provided the City of Pittsburg with on-call transportation and traffic engineering services since 2012. Bill Burton has served as project manager on this assignment for the last five years. Recent work has included the preparation of successful grant applications for the Clean California grant and multimodal improvements to the Delta De Anza trail. In the past year we have also assisted in the development of new guidelines for the preparation of Transportation Impact Analyses (TIA) and the implementation of Vehicle Miles Traveled (VMT) for projects in the city.

A key project completed for Pittsburg under the on-call agreement was an evaluation of Railroad Avenue within the vicinity of the newly opened BART station to identify potential multimodal safety and access improvements. As part of this project, Fehr & Peers conducted a safety evaluation to identify any apparent safety concerns that could be addressed, which was accomplished by evaluating recent collision reports and performing a near-miss analysis. Fehr & Peers retained Brisk Synergies to conduct the near-miss analysis using their conflict detection algorithms. Fehr & Peers will provide recommended improvements to address identified safety concerns, which will be vetted through microsimulation operational analysis, and will provide recommended programmatic solutions for reducing single occupant vehicle travel in the project area. Selected improvements will be laid out in a conceptual plan. In addition, Fehr & Peers evaluated if the Courtyard by Marriott planned development would impact operations of the Railroad Avenue and Center Drive intersection and reviewed the project's frontage on Railroad Avenue.

BART On-Call Planning (San Francisco Bay Area, CA)

Project manager responsible for overall contracting and performance on the On-Call Planning and Environmental Services contract for the San Francisco Bay Area Rapid Transit District. As part of task orders for BART, Bill served as Project Manager to develop conceptual station modernization plans for the Coliseum and 19th Street Stations. The work included assessments of existing and future conditions at the stations, including the potential for a large-scale "Coliseum City" development adjacent the Coliseum Station to include new sporting venues.

Fehr & Peers is currently leading the BECCAP that is a collaborative effort of BART and the cities of Berkeley and El Cerrito to identify station access strategies for communities served by the El Cerrito Plaza, North Berkeley, Downtown Berkeley, and Ashby BART stations before 2500 mixed-income apartments are built on the three parking lots. The goal of the plan is to develop strategies that equitably distribute investments in walking, rolling, biking, riding transit, driving, and parking. The plan will incorporate and balance stakeholder input for these interrelated stations in a way that is consistent with Berkeley's and El Cerrito's adopted community plans as well as BART'S TOD and Station Access policy goals and performance metrics.

High Speed Rail – San Jose to Central Valley Transportation Technical Report and Station Access Plans (California)

Bill is managing the preparation of a Transportation Technical Report for the Central Valley to San Jose section of the California High Speed Rail section. The transportation assessment addresses planned stations in Gilroy and San Jose, a planned maintenance facility in Gilroy, and 25 at-grade crossings along the corridor.

As part of the project, Bill led the Fehr & Peers team that developed station access plans for the Diridon, Gilroy and East Gilroy station alternatives. Each plan was developed within the context of the local station areas, which are quite different for each location. A station access hierarchy for each modal user group (transit, bicycle, pedestrian, TNCs, taxis, rental cars, automobiles) was developed and used to assign real estate in and around the stations. Integration with other transit providers, such as BART, VTA light rail and various other user groups was key to the plans. TNCs are playing an ever-increasing role in urban mobility and the provision of adequate curb space in appropriate areas was a central element in the development of each station area plan.

Roddy Ranch Reuse Transportation Assessment (Antioch, CA)

Fehr & Peers prepared the transportation assessment for an environmental document to evaluate the potential impacts of the reuse of the Roddy Ranch Golf Course as an East Bay Regional Park. The evaluation focused on the safety and adequacy of site access and internal circulation. Detailed safety analysis pertaining to the project's access intersection on Deer Valley Road is being undertaken. In addition, the project's effects on area Vehicle Miles of Travel are being assessed in accordance with SB 743 requirements.

EXPERTISE

- Travel Demand Modeling
- Wildfire Evacuation Analyses
- VMT & CEQA
- Traffic Analysis

LANGUAGES

- Mandarin Chinese

ABOUT

Grace is passionate about exploring the intersection between natural and social sciences, and she was first drawn to the transportation industry because of its ability to bridge these two fields. Prior to joining Fehr & Peers, Grace was a technical specialist for the Taipei City Government's Department of Transportation, allowing her to apply international best practices and perspective to her work. Grace is based in Fehr & Peers' Walnut Creek office, and focuses her work on modeling, forecasting, and climate-related studies. For Fehr & Peers internally, she leads the Bay Area Climate/Resiliency Working Group, for topics ranging from climate adaptation, evacuation, to zero-emission vehicles. Her experience at Fehr & Peers includes travel demand modeling, VMT and CEQA analysis, wildfire evacuation analysis, and traffic operations analysis, throughout the Bay Area and Northern California. Grace's software experience includes ArcGIS, R, Python, Cube, Adobe Illustrator, TransCAD, and Synchro.

PROJECT EXPERIENCE

City of Benicia Housing Element Update (Benicia, CA)
Fehr & Peers assisted the City of Benicia in developing VMT analysis methodology, metrics, and thresholds of significance for purposes of CEQA impact evaluation. Grace developed a tool to process model output to generate VMT metrics and other attributes for activity-based travel demand models including the MTC and SNABM models. As part of the work, Grace and Fehr & Peers prepared the transportation impact assessment evaluating the potential impacts of the City's Housing Element Update, 6th Cycle.

Benicia Eastern Gateway Mixed-Use Traffic Study (Benicia, CA)
Fehr & Peers conducted a transportation impact analysis for a proposed new land use district in a portion of eastern Benicia. The company's work included development of an approach to evaluate the VMT impacts of the project, and

Docusign Envelope ID: 961DD555-BED9-4B34-B0A9-4E480CFA60C7

preparation of the CEQA transportation impact analysis for the project. Grace was a key staff person in the execution of the study.

Koi Nation Shiloh Resort Casino Evacuation EIS Analysis (Windsor, CA)
Fehr & Peers is completing an evacuation time estimate analysis for the proposed Koi Nation Casino project at Shiloh Road/Old Redwood Highway. Grace is the Project Manager leading this effort.

Sonoma County Airport Specific Plan (Sonoma County, CA)
Fehr & Peers is conducting the CEQA EIR analysis for the Sonoma County Airport Specific Plan. This work includes recommendations for MTC PDA requirements, CEQA transportation assessment (VMT, other CEQA multimodal analysis, evacuation analysis) and non-CEQA circulation system analysis. SCTA model validation and calibration will also be conducted. Grace is the Project Manager for this ongoing effort.

Fairfield General Plan Update (Fairfield, CA)
Fehr & Peers conducted the existing conditions, trends, and opportunities assessment, as well as the transportation analysis for various general plan alternatives. We are supporting the Draft General Plan writing and the Environmental Impact Report (EIR) preparation. Grace is serving as the analyst for the travel demand modeling efforts.

Mare Island Master Planning & Specific Plan (Vallejo, CA)
Fehr & Peers is assisting in the master plan refinement and the development of the transportation element for the Specific plan. We are also preparing the transportation section for the Environmental Impact Report (EIR). Grace is serving as the analyst for the travel demand modeling efforts.

Railroad Avenue/East Tabor Avenue Realignment (Suisun City, CA)
Fehr & Peers assessed the operations along the East Tabor Avenue corridor regarding the Railroad Avenue Widening and Realignment project in the City of Suisun City, as proposed in the City's General Plan Vehicular Transportation Network. Fehr & Peers had studied many different aspects of the Railroad Avenue project since 2016, with the latest study evaluating the feasibility of removing the Railroad Avenue realignment from East Tabor Avenue to Olive Avenue from the General Plan in 2020. The 2020 study concluded the elimination of the Railroad Avenue realignment at East Tabor Avenue would not cause internal inconsistencies within the General Plan Transportation Element. Since the latest studies completion, the City has requested Fehr & Peers conduct further operations study to evaluate the East Tabor Avenue corridor under existing, near-term, and cumulative conditions that consider the existing conditions, realignment, and alternative designs. Grace served as the lead analyst for the cumulative conditions travel demand forecasting.

Dermody Industrial TIA (Fairfield, CA)
With Grace as Project Manager, Fehr & Peers worked on the Dermody Industrial Project for the administrative use permit application for Buildings 2 and 3 of an industrial development at the corner of Beck Avenue and Cordelia Road in the City of Fairfield, California. The size of the buildings are 428,241 square feet in total (Building 2 is 260,022 square feet and Building 3 is 168,219 square feet). Fehr & Peers will prepare a trip generation analysis, a queueing analysis, and truck turning templates at the Project driveways.

Rio Vista General Plan Update (Rio Vista, CA)
Fehr & Peers is working to update Rio Vista's General Plan. Our scope of work includes circulation element support, VMT for CEQA transportation analysis, a general plan buildout analysis, and a traffic study to reduce congestion along Highway 12. Grace served as the lead analyst for the cumulative conditions travel demand forecasting.

Lagoon Valley TIA (Vacaville, CA)
Fehr & Peers is assisting triad Lagoon Valley with a VMT analysis and a LOS analysis for a residential development in the City of Vacaville. The project proposes to include up to 350 multi-family residential homes. Grace is the Project Manager for this effort.

Wiseman Campus Lane Apartments (Fairfield, CA)
With Grace as Project Manager, Fehr & Peers completed an initial transportation study for the Campus Lane Apartments, which is a multi-family residential project that proposes to construct up to 84 three-story dwelling units. The study includes an estimation of project trip generation, a preliminary LOS analysis, and a VMT analysis.

PROFESSIONAL SERVICES MASTER AGREEMENT (ON-CALL PLANNING)

BETWEEN

CITY OF BENICIA AND

Ratcliffe Consulting

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and Ratcliffe Consulting, a California Corporation located at PO Box 6101 1191 Solano Avenue, Albany, California 94706, licensed to do business in California, ("CONTRACTOR") relating to Ratcliffe Consulting - Planning Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Current Planning Development Review

B. Long-Range Planning Policy and Strategies

C. Grant Applications and Management

D. Rapid Response Services

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

   1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Christina Ratcliffe

Principal

christina@ratcliffe.net

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between Ratcliffe Consulting, hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

RATCLIFFE CONSULTING
PLANNING-MANAGEMENT

April 6, 2025

Suzanne Thorsen,
Community Development Director
City of Benicia

RE: Proposal No. 25-063 On-Call Planning Services

Thank you for your time and attention in reviewing this Proposal. I am truly excited at the possibility of working in Benicia again.

In June of 2024, after over 30 years of Planning experience with a private firm (the former PMC) and jurisdictions in the Bay Area, I began Ratcliffe Consulting. The goal of this venture is to leverage my decades of experience in Northern California land use planning to assist select jurisdictions, agencies and nonprofits in the creation of housing and catalyst projects that contribute to economic growth and sustainability.

Over the last thirty years I have:

- Served as Director of Planning, Building, Engineering, Code Enforcement and Economic Development Departments,
- Facilitated countless workshops and community meetings,
- Staffed and presented before numerous Boards, Councils and Commissions,
- Managed numerous complex discretionary planning projects, including shepherding them through the CEQA/NEPA process,
- Written Zoning Code, General and Specific Plan amendments and updates,
- Created and implemented COVID response operational protocols for City of Martinez Planning, Building and Engineering Departments,
- Opened and managed the Oakland office for a private firm supplying planners to jurisdictions in the Bay Area.
- Successfully applied for and managed multiple grants,
- And other duties as needed.

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

I bring a wealth of experience in managing complex projects and Departments, (including when I served as Director for Benicia) as well as implementing meaningful community outreach, ensuring that the project helps to achieve the community's goals and vision.

I am also part of the Team working on the Port of Benicia Facilities and Infrastructure Modernization project. I will be completing the Industrial Design Guidelines Update and associated Zoning Code Amendments.

Following is my understanding and approach to the work, more detailed information about my qualifications and experience, and other information as requested by the RFP.

I believe that my experience in Bay Area planning, my familiarity with Benicia and my geographic location and availability would be an excellent fit for the City's needs.

If there are any questions about this proposal, please reach out and I will be happy to assist.

Best,

Christina

Christina Ratcliffe, AICP (she/her)
Principal

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

Project Understanding and Approach

It is my understanding that the City of Benicia is compiling a list of consultants who are pre-qualified for specific tasks and can respond to a request for services on short notice. This would allow the City flexibility and agility to respond in a timely manner in processing projects.

Ratcliffe Consulting is submitting for consideration to provide services for:

4.2 Current Planning Development Review
4.3 Long-Range Planning Policy and Strategies
4.8 Grant Applications and Management
4.9 Rapid Response Service

I am an experienced planner, having begun as an intern for the City of Berkeley and worked my way up to the position of Director in three different cities, including Benicia. In shepherding projects through the process, whether ministerial or discretionary, timelines and thoroughness is key.

4.2 Current Planning Development Projects

For current Planning Development Projects, this would begin with a review of the project in relation to the application checklist, applicable City and State codes, CEQA/NEPA, General and Specific Plans and the Subdivision Map Act. The submittal must be checked for accuracy, completeness and a complete/incomplete letter issued in a timely manner.

Density Bonus Projects, whether ministerial or discretionary must be evaluated against the ever-changing State regulations as well as Benicia's affordable housing requirements, and likewise processed in a timely manner, ensuring that CEQA and/or NEPA processes are followed.

If the project goes before a decision-making body, then one or more staff reports are required. These should follow City template and be written in a clear and concise manner, being mindful of the decision-making body. The report needs to speak to the understanding and authority of the given Board, Commission, Committee or Council.

If the project does go to a public meeting or hearing, consultant presence and presentations is key in walking the community through the project, clearly presenting the submittal, and explaining how it was reviewed and the purview of the review authority. This usually involves a PPT presentation and taking questions from the deciding body and/or the community.

I am accustomed to speaking in public at informal workshops as well as public hearings. I am an experienced presenter and endeavor to listen to questions and respond in a thoughtful manner.

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

In the review and processing of submittals, tracking deadlines is extremely important. Whether it is the PSA letter, publication deadlines, CAO review or packet day, keeping on top of these is a priority.

More important than meeting deadlines is being consistent and transparent with the applicant, the community, and, as a consultant with the City.

4.3 Long-Range Planning Policy and Strategies

A clear understanding of the goal of the planning policy or strategy is key to developing a document that is clear and can be implemented seamlessly with existing City documents. In addition, meaningful community outreach and input ensures a document that is responsive to the City's specific needs.

As with current planning projects, adherence to timelines established by the City and transparent, clear communication are key. As noted in my experience, I have dealt with many such projects and seen them through to completion and implementation.

4.8 Grant Application and Management
The most important aspect of writing and applying for grants is reading the application thoroughly and understanding the requirements and being able to match the City's goals with the grant. In this way, one can write the grant so that the City has the best chance a successful application. Also key is gathering information from all relevant Departments in the City, presenting a unified vision and clearly identifying the City's contribution to the work and how it furthers the City's goals and meets the grant requirements.

After the grant is won, it is necessary to maintain a calendar of milestones and deliverables and working with Departments, especially Finance, to accurately track staff time and other reporting requirements of the grant.

4.9 Rapid Response Service
I am available to assist Benicia on one to two days' notice after an emergency in preparing amendments to the City's Municipal Code to facilitate rebuilding and the expedited review and processing of planning and construction permits. I have experience with successfully processing amendments to both zoning and building code sections of the municipal code.

In the event of an emergency, I can work with the City Attorney and City staff to streamline the process and get permits issued in an expedited manner while maintaining the integrity and safety of the City and individual structures.

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

Qualifications and Experience

A primary reason I started Ratcliffe Consulting was to use my experience to aid cities in the creation of housing and catalyst projects that contribute to economic growth and sustainability. I have years of experience reviewing and processing both current and advanced planning projects. Most recently, as a Director, I have helped to guide planners through the review process and encouraged them to be curious about the project, and understand the final goal with a mind to finding a path forward within the confines of the code.

Attached is a highlighted list of my qualifications and experience.

Costs and Assumptions

Hourly billing rate is $195.

Hourly rate is subject to a 5% increase or the current year's Consumer Price Index (CPI) increase for the San Francisco Bay Area, whichever is lower.

Work can be performed remotely or on-site, as needed. It is clearly understood that Ratcliffe Consulting LLC is a contractor to the City and is not an employee.

It is anticipated that any work product will be delivered electronically. Any requirement for hard copies will be billed at cost plus 20%.

Invoices will detail work in 30-minute increments, or as directed by the City. Invoices will be submitted monthly and shall reference the project title and application number (if applicable) and will include a running tab of the remaining budget.

It is assumed that:

- The City will make available templates for all required Notices, Staff Reports, Conditions of Approval, Resolutions and Ordinances.
- All Codes and Plans are accessible on-line or will be provided
- The City will publish and mail any required public hearing notices.
- Work will be performed either on-site or remotely, as agreed upon by the City and Ratcliffe Consulting.

Christina Ratcliffe, AICP (she/her)
Principal

Christina@Ratcliffe.net
510-666-7097

Experience and Qualifications

I have over thirty years of experience managing planning and economic development programs and projects. This includes experience with Planning, Building, Engineering, Code Enforcement and Economic Development Divisions in various cities. I also have experience managing multiple offices for a private consulting firm serving public agencies. I have worked on both sides of the counter in conjunction with elected officials, senior management, line staff, community groups, state and regional agencies, developers and nonprofits to define community goals and move projects forward to achieve those goals.

Below are highlights of relevant experience.

Update City of Benicia's Industrial Design Guidelines and associated Zoning Code Amendments

Part of the team awarded the Port of Benicia Facilities and Infrastructure Modernization project.

Overall work includes preparation of a Port of Benicia Facilities and Infrastructure Modernization Plan with key deliverables for the Planning Commission and City Council to adopt as a roadmap for infrastructure improvements, investments and modernization revitalizing the Port as a key part of Benicia's Priority Production Area. This includes extensive public engagement, and recommended updates to the City's Industrial Design Guidelines and Zoning Regulations, as well as an environmental review document commensurate with capital plan project definition.

My work on the project will dovetail into the Modernization Plan and recommend updates to the Industrial Design Guidelines and Industrial Zoning regulations, and identify needed updates to land use classifications, development standards and/or

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

performance standards to facilitate recruitment and retention of employment-generating uses, particularly focused on renewable energy and related infrastructure, in the Port and Industrial Park.

Contract Planning Assistance

City of San Rafael, April, 2025-present
Currently processing an SB 330 application for the City of San Rafael. This is a residential project consisting of a seven-story building with five floors of residential. The project consists of 250 residential units, ranging from one to two-bedroom apartments. A total of 132 vehicle parking spaces are provided, accessible via two entry points, with the main entry located adjacent to Northgate Drive. The total building area is approximately 257,057 square feet. At the time of this writing the formal submittal is under review.

Contract Planning Assistance

City of Rohnert Park, December, 2024-present
Serving in a part time advisory capacity to the Development Services Director and training/mentoring planners during the Planning Manager's leave. Work includes processing development review applications, Zoning Code Amendments and the LHMP update and supporting the Housing Division on a Project Homekey application.

Contract Planning-Assistance

City of Vallejo July, 2024-January, 2025

Review and develop City's comments to a Bureau of Indian Affairs of an Environmental Assessment (EA) for a conversion of land to trust lands for a casino, housing and tribal administration structures. This project involves wetlands, waters of the US and species of concern, as well as wildfire, safety, and geotechnical concerns. Bringing forward Zoning Code Amendments to Design Review Board, Planning Commission and City Council. This involves substantive as well as clean-up items, as well as amendments mandated by HCD.

Planning and Development Director

City of Vallejo ~ 2020-2024

Management of Planning, Building and Code Enforcement Divisions with a full-time staff of 35 plus several consultants. Work included budget projections and management, coordination with other departments, elected officials and outside agencies, as well as extensive community outreach. Key projects included:

- Three-Element Update: Safety, Environmental Justice and Housing Elements
- Transition Code Enforcement Division into the Department
- Wrote Successful Grants for Waterfront and Downtown Specific Plan updates

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

- Coordination with Mare Island Developer on Specific Plan Update
- Comprehensive Zoning Code update (first since early 90's)
- Staffed City Council and four Commissions/Boards
- Shepherded several controversial projects:
  Project Homekey: ministerial, wrote grant to partially fund project, there was a legal challenge, which failed
  Navigation Center: ministerial, assisted in identifying appropriate City-owned property
  Elite School in Downtown: Planning Commission approval, appealed to Council, who ultimately denied the project

Community and Economic Development Director

City of Martinez ~ 2017-2020

Responsible for all aspects of Planning, Building, Engineering and Economic Development Divisions (CED Department), including budget, hiring, training, and managing of staff. Key accomplishments included:

- Developed and implemented COVID policies and protocols for Department as well as operational changes to the City Hall Building
- Worked with Executive Team on budget reductions, including freezing positions and layoffs in response to COVID revenue losses
- General Plan Update/FEIR
- Assisted in drafting Measure F (2019)
- Oversight and Preparation of Economic Development Action Plan
- Preparation of new ADU and Objective Design Standards ordinances
- Preparation and adoption of Commercial Cannabis Ordinance
- Oversaw timely preparation and submittal of Trust Lands Use Plan to State Lands Commission
- Coordinated purchase of property to create a City-owned block for future development
- Lobbying WETA to re-establish Ferry service
- Northern Waterfront Economic Development Initiative (NWEDI): Regional cluster-based economic development strategy with Contra Costa County and seven partner cities

Community Development Director

City of Benicia ~ 2015-2017

Responsible for all aspects of development, including management of full-time staff of nine and up to six consultants in the Planning and Building Divisions. Duties include overseeing working with other departments on streamlining economic development and improving customer service, budget and projections, training and retention of staff, coordination between departments on development projects, public presentations to Council, Commissions and Boards and staff to five Commissions. Accomplishments in the last year of service include:

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

- Crude By Rail: Difficult and prolonged project with an amazing amount of public participation
- Northern Gateway application and workshops: A sensitive political project with a lot of public interest.
- Vulnerability Assessment and Adaptation Plan: Multiple meetings and revisions to this multi-year plan, accepted by the Council in 2016.
- TEC Plan/IS/MND: multi-year project that should be adopted by City Council in June 2017.
- LAFCO MSR update
- Cool California Challenge: Responsible for organizing and outreach efforts Benicia placed 3rd.
- Water Reuse Project: Work with Public Works Department's CEQA consultant on IS/MND
- LHMP
- Mills Act Program workshops: possible revisions to the program
- CDBG funds distribution: tentatively June, 2017
- Downtown Parking discussion/issues in coordination with ED, PD, PW and Chamber and Main Street
- FEMA map update workshops/outreach
- Building Division changes to organization/policies and procedures

Ordinance/GP amendments:

- Complete Streets and ALUC GP Updates
- Floodplain ordinance update
- Medical Marijuana ordinance
- Large Family Day Care ordinance
- Density Bonus ordinance
- Building Code update
- CalGreen/Recycling ordinance

Previous related experience:

Senior Associate

Pacific Municipal Consultants (PMC)

Opened the Bay Area and Arizona offices for this 200+ planning consulting firm. Hired, trained and supervised up to 30 planners, including Project Managers for various CEQA projects, General Plans, Conservation and Resource Management projects, Redevelopment services, Specific Plans, Staffing contracts, and other projects. Lead marketing and business development for Bay area and Arizona service areas. Part of PMC's management team, and one of the founding members of the sustainability group within PMC.

- **City of Sunnyvale CAP/LUTE EIR.** Project Manager for the Program EIR evaluating the updated Land Use and Transportation Element for Sunnyvale. A complex project coordinating development of a Climate

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

Action Plan and EIR with significant public outreach. With a very involved citizenry, aggressive time line and limited budget, this was an interesting project.

- **City of Pinole, General Plan Update.** Served as Project Manager for this Sustainable General Plan Update. Pinole's focus is on enhancing and sustaining their small-town feel, expanding walkability and access to the Bay and Creek.

- **City of Pinole, Three Corridor Specific Plan** Served as Project Advisor for these three Specific Plans to address not only circulation issues and focusing redevelopment efforts, but addressing commercial/housing balance and design.

- **Transportation 2035- Change In Motion.** Served as facilitator for the San Francisco Bay Area MTC, ABAG, BCDC, BAAQMD group outreach effort to form regional policies and actions to reduce greenhouse gas emissions by focused planning between local and regional agencies. Ongoing facilitation work with groups of 12 to 100 decision makers.

- **City of Tracy, Walmart Expansion EIR.** Served as Project Director for this expansion project. A politically sensitive project, this required clear and frequent communication and coordination with the City, sub-consultants and the community on this high profile project.

- **City of Tracy, Tracy Youth Sports Facility EIR.** Served as Project Director for the Initial Study and EIR for the development of 55 ball fields on a 200-acre site. Duties included refining the project description and working with several City and County agencies involved in the process. Environmental issues include neighborhood land use compatibility, possible displacement of endangered species, and impacts to local circulation patterns.

Pricing Proposal for On-Call Planning Services for City of Benicia

Ratcliffe Consulting is a one-person organization, with Christina Ratcliffe, AICP as the sole consultant.

Ratcliffe Consulting is submitting for consideration to provide services for:

4.2 Current Planning Development Review
4.3 Long-Range Planning Policy and Strategies
4.8 Grant Applications and Management
4.9 Rapid Response Service

A. Pricing

At this time, it is not possible to provide an exact price, as the projects are not known. When the City requests assistance on specific projects, a scope responsive to individual projects will be submitted for City review and approval.

Hourly billable rate for Christina Ratcliffe is $195.00.

Hourly rate is subject to a 5% increase or the current year's Consumer Price Index (CPI) increase for the San Francisco Bay Area, whichever is lower.

Work can be performed remotely or on-site, as needed. Ratcliffe Consulting will use its own equipment (computer, phone, WiFi, copy machine, office supplies, etc.) It is clearly understood that Ratcliffe Consulting is a contractor to the City and is not an employee.

B. Reimbursable Expenses

It is anticipated that any work product will be delivered electronically. Any requirement for hard copies will be billed at cost plus 20%.

Docusign Envelope ID: 1B961BA4-42E9-4A4B-8936-D1316F229C84

Invoices will detail work in 30-minute increments, or as directed by the City. Invoices will be submitted monthly and shall reference the project title and application number (if applicable) and will include a running tab of the remaining budget.

It is assumed that:

- The City will make available templates for all required Notices, Staff Reports, Conditions of Approval, Resolutions and Ordinances.
- All Codes and Plans are accessible on-line or will be provided
- The City will publish and mail any required public hearing notices
- Work will be performed either on-site or remotely, as agreed upon by the City and Ratcliffe Consulting.

C. Additional Services

No additional services are proposed.

D. Overtime

No overtime will be charged.

E. Travel

Ratcliffe Consulting will not charge for travel, mileage or tolls unless required to travel to locations outside of Benicia. In that event, current IRS mileage charges and actual tolls will apply.

F. Signature

AGENDA ITEM
CITY COUNCIL MEETING DATE – JULY 1, 2025
CONSENT CALENDAR

TO : City Manager

FROM : Assistant City Manager

SUBJECT : **ACCEPTING THE PROPOSALS FOR BUILDING SAFETY ON-CALL SERVICES AND AWARDING BUILDING SAFETY MASTER SERVICE AGREEMENTS**

EXECUTIVE SUMMARY:

The Community Development Department recommends awarding master service agreements to establish a list of pre-qualified, contracted on-call firms to provide professional services for building safety development reviews, staff augmentation, specialty refinery services, and rapid response services. The agreement period is two years, commencing July 1, 2025, through June 30, 2027, with one optional two-year renewal.

RECOMMENDATION:

Move to adopt a resolution (Attachment 1) accepting the proposals for building safety on-call services (Exhibit A), authorizing the City Manager to sign agreements on behalf of the City with seven firms for a two-year term expiring June 30, 2027, not to exceed $325,000 per firm with the option for up to one 2-year renewal and authorizing the City Manager or designee to execute any task order, without further action by the City Council that is within the total authority of the master service agreement.

BUDGET INFORMATION:

The not-to-exceed amount for each agreement is $325,000 over two years. Services or projects based on a defined scope of work would be executed by task order upon approval of the City Manager or designee. Funding for said contracts shall be provided on the basis of passthrough fees and reimbursement agreements for applicable projects (such as large-scale projects requiring extensive contract support). The anticipated expenditures pursuant to the agreements has been included as part of budget development for FY26 and FY27. Projects administered on a reimbursement basis would be initiated by task order, following the execution of a reimbursement agreement and receipt of a deposit (25% of the bid amount. These projects would require the project applicant to fully reimburse consultant costs, plus a 15% administrative fee for staff oversight and management.

BACKGROUND:
In December 2021, the City Council authorized the execution of five-year agreements for on-call building safety professional services. The agreements, which were $300,000 per firm, provided a resource of consultant expertise for a range of building safety services, including plan review, staff augmentation, and specialty services. These agreements are set to expire in December 2026.

The City of Benicia Building Safety Division utilizes consulting services to support plan reviews, provide on-call coverage during staff absences or vacancies, and assist with specialized technical projects. Consultants are crucial to maintaining current customer service levels and achieving the City Council's economic development goals. They help ensure timely plan review turnaround, support staffing flexibility, and prevent delays in permit approvals and construction activities. Additionally, consultants bring specialized expertise to complex projects, thereby enhancing the Division's technical capabilities. Without consultant support, plan review timelines would increase, negatively impacting development schedules and economic growth within the City.

Requests for Proposals (RFP) for building safety professional services and staff augmentation was released on March 17, 2025, with a response deadline of April 14, 2025. The City received ten proposals for professional services; the top-scoring firms were interviewed by staff, and four (4) firms were selected to provide on-call services, which are listed below.

4LEAF, Inc.	TRB and Associates, Inc.
CSG Consultants, Inc.	True North Compliance Services, Inc.

The City received eight proposals for staff augmentation; the top-scoring firms were interviewed by staff, and three (3) firms were selected to provide on-call staff augmentation, which are listed below.

4LEAF, Inc.	TRB and Associates, Inc.
CSG Consultants, Inc.	

An RFP for building safety specialty refinery professional services was released on March 24, 2025, with a response deadline of April 21, 2025. The City received three proposals; the top-scoring firms were interviewed by staff, and one (1) firm was selected to provide on-call specialty refinery services, which are listed below.

TRB and Associates, Inc.

Exhibit A provides a breakdown of each firm's on-call building safety service areas. The master service agreements for the seven firms are listed under the attachment section (Attachments 2-8).

NEXT STEPS:
Following the City Council's adoption of the resolution, the City Manager will execute agreements for on-call planning services.

ALTERNATIVE ACTIONS:
The City Council may decline to adopt the resolution. If the City Council takes this action, then any future building safety consultant task, such as for development review services, specialty refinery services, or staff augmentation, would require a RFP and subsequent selection, including City Council approval for contracts exceeding $100,000.

CEQA Analysis	Authorization of contracts for On-Call Building Safety Services is not a project under Section 15378 (b) of the CEQA Guidelines, which excludes administrative activities of governments. The proposed contracts merely authorize pre-selected, pre-contracted firms to complete various work tasks related to building permit review, refinery services, and staffing and would not result in direct or indirect physical changes in the environment. Therefore, the requested action is not subject to CEQA under Guidelines Section 15060 (c).

PROFESSIONAL SERVICES MASTER AGREEMENT (BUILDING SAFETY - PROFESSIONAL SERVICES)

BETWEEN

CITY OF BENICIA AND

4LEAF, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and 4LEAF, Inc., a California Corporation located at 2126 Rheem Drive, Pleasanton, California 94588, licensed to do business in California, ("CONTRACTOR") relating to 4Leaf: Building Safety Professional Services - Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Building Plan Review

B. Certified Access Specialist Professional (CASp) Review

C. California Water Efficiency Landscape Ordinance (WELO) Review

D. Certified Floodplain Manager (CFM) Review

E. Building Official Support Services

F. Rapid Response Services

G. Specialty Services

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

[http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subcontractors shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert contractors or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required during the term of this Agreement.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Kevin J. Duggan

President

kduggan@4leafinc.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between 4LEAF, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

RE: Proposal to Provide On-Call Building Safety – Professional Services to the City of Benicia

4LEAF, Inc. (4LEAF) is pleased to present our proposal to provide On-Call Building Safety – Professional Services to the City of Benicia (City). 4LEAF has been providing plan check, inspection, and other related services to numerous public clients throughout California for over 24 years. We look forward to the opportunity to provide these services to the City. 4LEAF is uniquely qualified and is an ideal consultant choice for the following reasons:

☑ Familiar Consultant and Local Presence

4LEAF is currently working with the City of Benicia to provide On-Call Building Plan Review, Inspection, and Development Engineering Services. This has allowed us to become familiar with the department's processes and procedures. In addition to serving the City, 4LEAF has provided services to numerous bay area municipalities. As such, our firm has the necessary local staff to address any needs the City may have. Some of 4LEAF's local clients include:

- City of Oakland
- City of El Cerrito
- City of San Leandro
- City of Newark
- City of Union City
- City of Richmond
- City of Pinole
- City of Brentwood
- City of Pittsburg
- City of Berkeley
- City of Walnut Creek
- City of San Pablo
- County of Alameda
- County of Contra Costa
- County of San Mateo

☑ Full-Service Firm

As a full-service firm, 4LEAF can provide departmental services to aid with high project workloads that require additional staff assistance. We provide jurisdictions with Building, Planning, Public Works, and Fire Department services and have qualified staff available to serve the City with remote, on-site, part-time, or full-time project needs. For the scope of this contract, our services include:

- **Plan Review:** 4LEAF is an industry leader in Plan Review services and has a team of Structural Engineers, Accessibility Specialists, and Mechanical/Electrical/Plumbing/Fire Plans Examiners. We provide courier services that guarantee less than 24-hour pickup and delivery of all plan reviews performed off-site, and we also offer electronic and expedited plan review services upon request.
- **Fire:** Our team is comprised of Fire Protection Engineers and Fire Plans Examiners who specialize in Fire/Life Safety Plan Review. 4LEAF also specializes in additional Fire Prevention disciplines such as Fire Inspection, Fire Investigation, Hazardous Materials (HAZMAT), and other related services.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

- **Code Enforcement:** 4LEAF staff have experience working with property owners and other responsible parties to bring properties and conditions into compliance. Our Code Enforcement team is skilled in using processes including issuing administrative citations to establish whether violations of law exist on a property and ensuring compliance.

☑ Management Team Snapshot

Craig Tole: With nearly 20 years of building department experience, Craig has the requisite experience to manage all as-needed requests from the City of Benicia. Craig will ensure that 4LEAF provides curated staff to meet the City's specific plan review and inspection needs.

Lowell Brown: Lowell has over 40 years of experience in the Regulatory Building Industry, working across both public and private sectors. His expertise in code compliance allows clients to rely on 4LEAF for technical guidance, while also understanding the challenges faced by the development team.

Michael Loomis, SE, CBO, CASp, PMP: As 4LEAF's Director of Structural Engineering, Michael is responsible for managing 4LEAF's Plan Review clientele. He will be responsible for all expedited requests, quality control, and performance of critical plan reviews assigned by the City.

Scott Martin, PE: Scott is a veteran plan check engineer with decades of experience providing plan check for various project types. He serves as 4LEAF's Quality Control Manager, playing a vital part in our quality control process and ensuring plan checks meet proper standards.

Vanessa Morales: As Plan Review Coordinator Manager, Vanessa supervises the internal routing and completion of plan reviews. Additionally, she is responsible for the training of 4LEAF's permit technician staff to ensuring staff are prepared to meet the needs of the municipality they are assigned.

☑ Leadership

The contract with the City of Benicia will be managed by Craig Tole and Lowell Brown. Together, they bring over 60 years of experience in the Community Development industry, equipping them with the expertise needed to provide our municipal clients with top-tier staff for their projects and personnel needs.

DESCRIPTION OF RESPONSIBILITES

4LEAF, INC

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

SECTION 3: DESCRIPTION OF RESPONSIBILITIES

We understand that the City of Benicia seeks a qualified firm with the capacity to deliver plan review services for projects of all sizes and complexities. As leaders in the Community Development industry, we are confident in our ability to meet the City's plan review needs.

With extensive experience providing plan review services for a wide range of community development projects, we have a strong understanding of the regulatory frameworks that govern construction in California. Our team includes licensed professional engineers and plans examiners who are well-versed in the requirements of both Federal and State codes, as well as City-specific regulations, ensuring that we can effectively manage and oversee complex construction projects.

Proven Track Record of Timely and Accurate Plan Reviews

4LEAF has a proven history of providing timely, thorough, and precise plan review services. Our approach emphasizes accuracy, clear communication, and collaboration with City staff and applicants to resolve any challenges or discrepancies early in the process. This proactive approach ensures that potential delays are minimized and that all plans are in full compliance with the relevant regulations.

Commitment to Timeliness

Our team is fully committed to ensuring timeliness in all aspects of our work. We ensure initial plan reviews are returned within 10 days, and resubmittal reviews are completed within 5 days, ensuring a swift and efficient process while upholding the highest standards of quality.

Identification and Knowledge of Applicable Regulations

Our team is well-versed in the most current Federal, State, and local regulations that affect Plan Review projects in California. This includes, but is not limited to, compliance with the following:

- California Water Efficiency Landscape Ordinance (WELO) Compliance
- Americans with Disabilities Act (ADA) Standards
- California Building Standards Code (CBSC)
- California Fire Code (CFC)
- City of Benicia Municipal Codes

We will ensure that all plans are reviewed in accordance with the latest versions of these and any other required regulations and that our recommendations and comments are based on these standards.

Additional and Special Services

4LEAF also has the capabilities and understanding to provide additional and specialty services as requested by the City, including Building Official, Fire, and Code Enforcement Services.

SECTION 4: TEAM MEMBERS

Management Team

Craig Tole – Exec. Project Manager / Vice President, Community Development

Craig has served Community Development Departments for the past 20 years under the supervision of the company President. Among Craig's responsibilities include the day-to-day contact with many of 4LEAF's clients in the Building & Safety, Engineering, and Construction Management industries. Craig has successfully managed a multitude of inspection projects ranging from $1 million to $6 Billion. Craig also manages numerous County IOR programs including San Mateo County PDU, Santa Clara County FAF, Alameda County GSA, and Santa Cruz County GSD.

Office - (925) 462-5959 | Cell - (925) 580-4055 | Email - CTole@4leafinc.com

Lowell Brown – Project Manager

Lowell brings over 40 years of experience in the regulatory building industry, having worked in both public and private sectors. His expertise in site development and building systems allows for project coordination that aligns with the best interests of our clients. While managing Architectural, Mechanical, Electrical, and Plumbing plan reviews, Lowell has simultanisly represented 4LEAF on major projects for jurisdictions from Power Generating Stations, Hydrogen Facilities, Chip Manufacturing to Data Centers. His philosophy centers on training and supporting both staff and clients as their liaison to ensure compliance and to maintain flourishing relationships throughout the plan review and construction phase.

Office - (925) 462-5959 | Cell - (925) 890-9979 | Email - LBrown@4leafinc.com

Michael Loomis, SE, CBO, CASp, PMP – Director of Structural Engineering

With more than 28 years of expertise in the industry, Michael has an excellent working knowledge of all types of construction, including architectural, structural, electrical, mechanical, and plumbing systems. Michael is extremely committed and has shown dedication by obtaining multiple certifications through the International Code Council (ICC), and is a Certified Access Specialist, (CASp). Michael is an adaptable leader that quickly identifies departmental issues and solves them by utilizing his ample experience.

Office - (925) 462-5959 | Cell - (831) 620-2305 | Email – MLoomis@4leafinc.com

Pete Roque – National Director of Code Enforcement

Pete brings with him over 19 years of experience in Code Enforcement and has served in the capacities of Code Enforcement Administrator, Code Enforcement Manager, and Community Development Inspector II for multiple municipalities. Pete is proficient in conflict resolution and has a wealth of knowledge in the subjects of permit regulations, City codes, housing investigations, citation issuance, and lien appeals.

Office – (253) 203-3366 | Cell – (562) 569-0098 | Email – PRoque@4leafinc.com

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

Scott Martin, PE – Quality Control Manager / Senior Plan Review Engineer

Scott has over 27 years of engineering experience and has performed a multitude of plan review for many different project types including commercial structures, residential structures, schools, hospitals, and various municipal reviews for clients throughout the country. Scott's duties include the review of plans submitted to local jurisdictions, creation and submission of plan review letters, and constant communication with all project stakeholders.

Office - (925) 462-5959 | Cell - (559) 348-7101 | Email – SMartin@4leafinc.com

Vanessa Morales – Plan Review Coordinator Manager

Vanessa serves as 4LEAF's Plan Review Coordinator Manager, supervising the internal routing and completion of plan reviews, ensuring that all projects are handled efficiently and in compliance with regulations. Vanessa is also responsible for training 4LEAF's permit technician staff, equipping them with the skills and knowledge needed to meet the specific needs of the municipalities they serve.

Office – (925) 462-5959 | Cell - (925) 789-9917 | Email - VMorales@4leafinc.com

Agustin (Augie) Cerdan, FPE – Fire Prevention Manager

Augie has over 35 years of experience as a Fire Protection Engineer and has a successful history of holding management level positions. He is extremely knowledgeable about the Fire Prevention industry and also has experience providing building department services. Augie specializes in performing fire-related engineering reviews to ensure compliance with safety ordinances and codes of practice. The knowledge that he's accumulated through his decades of experience in tandem with his hard-working mentality and ability to work others makes Augie a true asset to any team he works with.

Office - (925) 462-5959 | Email – ACerdan@4leafinc.com

On-Call Supporting Staff

Jay Shih, PE, CBO, CASp – Senior Plan Review Engineer / Accessibility Specialist / Building Official

Jay is a Building Inspector, Building Official, Accessibility Specialist, and Construction Manager with over 38 years of experience in the industry. Given his background in various specialties, Jay is an ideal team member who can adapt to any project, team, and municipality he is assigned. He has spent the entirety of his professional career working for public agencies and consulting companies providing highly skilled design, plan review, and construction management for buildings, sewers, storm drains, streets, sidewalk, curb ramps, grading, SWPPP, and WQMPs.

David Rashe – MWELO Specialist / Building Official / Accessibility Specialist

David is a highly skilled and dedicated code professional and project manager, with over 35 years of experience working with municipal building departments. David has held various Building Department positions including Civil Engineer, Chief Building Official, Permit Center Manager, and Program Coordinator. Most recently, David has provided Civil Engineering plan review services to the City of Oakland's Department of Transportation for their 5G project where he oversees all plans including traffic control, small cell, fiber pull, and monument verification.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

Joseph Leonard, SE – Structural Plan Review Engineer

Joseph is a professional and driven licensed professional structural engineer with over 20 years of plan review experience. He has a great understanding of current California Building Standards Codes, especially the Building, Plumbing, Mechanical, Fire, Title 24, CalGreen, and municipal codes of various jurisdictions. Joseph has served in a number of senior positions, providing him with valuable leadership and interpersonal skills. In addition, Joseph has tremendous customer services skills, always leaving clients he works with satisfied. Joseph is a remarkably dedicated and determined team member, and his depth of knowledge makes him an asset to any team he is added to.

Eriselda (Eddy) Nanchy – Senior Plans Examiner

Eriselda is a dependable and talented professional with over 8 years of plans examining experience. She has the knowledge and skills to examine plans and specifications for Residential and Commercial projects to ensure compliance with Residential, Building, Mechanical, Plumbing, Electrical, and Energy codes, regulations, and ordinances. Her most recent assignments have been with the cities of Algona, Port Orchard, South Lake Tahoe, and Sacramento where she's worked on plans detailing single-family dwellings, duplexes, Solar/PV, ADU's, remodels, additions, signage, and TI's. Eriselda has a demonstrated history of working with plans examination, engineering, and public works civil engineering, along with her willingness to expand her knowledge and experience to add to her continued growth in the industry, making Eriselda a valuable asset for any project.

Dan Skubal – Fire Plans Examiner / Fire Inspector / Fire Marshal

With over 24 years of experience, Dan is a certified Fire Marshal, Plans Examiner, Inspector, and Fire Prevention Officer. He brings expert-level skills in fire protection services, specializing in reviewing fire plans, ensuring compliance with safety codes, and resolving complex site and regulatory issues. Dan's extensive experience spans California, where he has collaborated with various teams and departments, showcasing his strong communication and coordination abilities. As a leader, he sets the standard for fire safety professionals, making him a valuable asset to any team or project in need of a highly qualified fire protection expert.

Michael (Mike) Torres – Code Enforcement Supervisor

Michael is a highly efficient professional with 13+ years of customer service experience and 16+ years of related industry experience in working with building departments. Michael is a resolute team player with a strong suit in problem solving abilities, logistical planning, managing projects, and ensuring project completion while working with stakeholders. His professional and scholastic knowledge and experience with Code Enforcement Units has equipped him with the knowledge needed to respond to blight and nuisance complaints, schedule abatement clean-ups in collaboration with code units, and successfully assist in bringing properties into compliance. Michael is a professional guided by his integrity along with his diligence and ensuring tasks are completed efficiently and timely, making him an asset to any department.

Full Resumes, including qualifications, education, and professional certifications, for Management and On-Call Supporting Staff have been submitted to the corresponding questionnaire via the City's procurement portal.

SECTION 5: APPROACH

Plan Review Services

4LEAF will provide Plan Review for any and all types of structures to ensure compliance with all adopted codes, local ordinances (including Tier 1 of Cal Green, if required) and State and federal laws that pertain to Building and Safety, and for compliance with the adopted International Code Council (ICC) Building, Plumbing, Electrical, Mechanical, National Fire Protection codes and standards, and the Accessibility and Noise and Energy Conservation requirements as mandated by the State of California Title 24, State of California Water Efficient Landscape Ordinance, the State of California Certified Access Specialist (CASp) compliance, and all other applicable ordinances. We provide these services for project types including Single-Family Dwellings, large Multi-Family Mixed-Use Dwelling Units, Commercial, and Industrial.

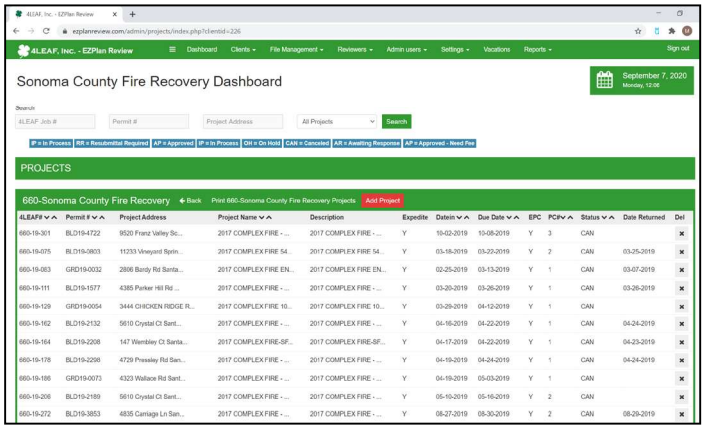
Approach

We understand that the specific building plan review responsibilities will include, but are not limited to:

- Examining plans, drawings, specifications, computations documents, soils reports, and additional data;
- Ascertaining whether projects are in accordance with applicable building and fire codes, and City ordinances, including but not limited to Title 24 and Title 25;
- Performing such reviews as structural, MEP, green building, fire and life safety, grading and drainage;
- Reviewing plans to ensure conformity to the required strengths, stresses, strains, loads, and stability as per the applicable laws;
- Reviewing plans to ensure conformity with use and occupancy classification, general building heights and areas, types of construction, fire resistance construction and protection systems, means of egress, accessibility, structural design, soils and foundations; and masonry;
- Providing additional plan review services as requested by the City;
- Conducting all plan review at the City Department or at a site mutually agreed upon in writing and;
- Supplying all plan review staff with all code books and other basic professional references.

4LEAF's EZPlan Review

EZPlan Review is our in-house tracking software that acts as a communication tool between 4LEAF and the jurisdictions we work with. The use of EZPlan makes communication easy. This web portal allows users visualize project due dates, notes, and status updates so that projects can be followed from start to finish. Additionally, 4LEAF provides electronically stamped and uploaded copies of approved project plans, a value which saves clients time and resources. With the use of EZPlan, 4LEAF hopes to provide a level of ease and transparency during the off-site plan review process.



Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

QA/QC Review Process

Task 1 – Project Tracking Set-up

The first step of our process will be to set up the project in our system to enable 4LEAF and the City each to track the progress of the review. Our plan tracking procedures are designed to track each submittal throughout the review process and maintain accurate and comprehensive records for each submittal.

Task 2 - Complete Submittal Review

Upon receiving the plans from the City, 4LEAF will triage (preliminary plan review performed by 4LEAF plan review project lead) the submittal to verify that the submittal received is complete (i.e., all pertinent plans, calculations, reports, and other related documents) in order that we can begin our review. If the submitted package is incomplete, we will communicate with the City to discuss the deficient documents needed to proceed with our review.

Task 3 - Plan Review Assignment

After the triage process is performed and a complete package is verified, the project will be assigned to the most qualified Plans Examiner and a turnaround time will be established. We will log each application into our database the same day the plans are received to assure that they are routed in a timely manner and to allow for daily project tracking.

Task 4 - Plan Review

4LEAF will provide the project contact (Developer, Contractor, Architect, or Engineer) desired by the City with a list of any items needing correction and clarification to comply with applicable building codes, ordinances, and regulations. A correction list will be created based on the missing codes and ordinances.

Task 5 - Quality Control

Prior to submitting the plan review correction list to the City, the designated plan review project lead will review the correction list for adherence to applicable codes and ordinances as well as for accuracy and completeness. After completion of our quality control review a correction list will be e-mailed to a designated staff member at the City or as directed by the City. The correction list and a 4LEAF transmittal form will include the following information: a description of the work, type of construction, occupancy group, square footage, number of floors, and sprinkler requirements.

Task 6 - Plan Review Rechecks

Plans received for rechecks will be reviewed for conformance. Our goal is to actively work with the designers to resolve all unresolved issues after our second review. If it appears that there are complicated issues that might cause a project to go beyond our second review, we will communicate directly with the designer to resolve these concerns.

Task 7 - Project Approval

Once the final plan reviews are completed and ready for approval, 4LEAF will organize the plans and supporting documents per the City processing requirements and return them to the City, along with our letter of completion.

Turn-Around Times

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

4LEAF has a tremendous reputation for completing projects on-time and under budget. 4LEAF's plan review team is widely recognized for quick turn-around times and prompt service. Off-site plan reviews are performed at our office, with plans transmitted by personal delivery or overnight service. The standard turn-around time is within 10 business days for residential plan reviews and within 10 days for commercial/industrial plan reviews; however, these timeframes are negotiable based on your needs. **4LEAF also provides Fire Plan Review services**.

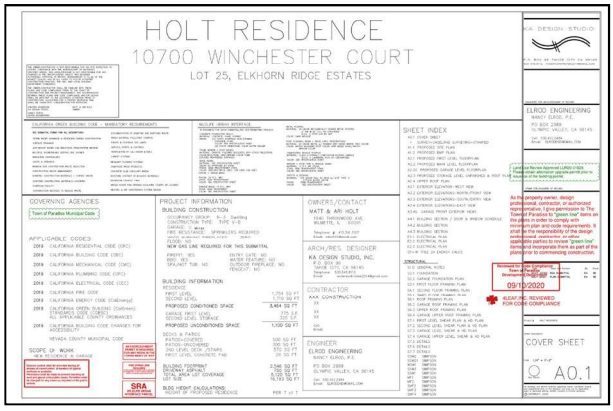
Type of Plans	Transportation	Initial Review	Resubmittal Review	Resubmittal Review #2	Expedited Review	Expedited Resubmittal
*Residential	< 24 Hours (pick up & delivery)	< 10 Days	< 5 Days	< 5 Days	< 5 Days	< 3 Days
**Multi-Family	< 24 Hours (pick up & delivery)	< 10 Days	< 5 Days	< 5 Days	< 5 Days	< 3 Days
Commercial	< 24 Hours (pick up & delivery)	< 10 Days	< 5 Days	< 5 Days	< 5 Days	< 3 Days
***Large Commercial > 15,000 s.f.	< 24 Hours (pick up & delivery)	Negotiable	Negotiable	Negotiable	Negotiable	Negotiable

***Larger complex plan reviews can be negotiated to achieve the best possible pricing. 4LEAF has a proven track record of working with municipalities to provide expedited reviews with special discounted pricing.**

Pick-up of all plans will be performed by 4LEAF staff within 24 hours of the City's phone call or e-mail at no additional cost, 4LEAF staff will transport the plans to and from the City upon a phone call to the 4LEAF office or simply e-mail pickup@4leafinc.com.

Document Control

When plans and documents are received for review, 4LEAF's Plan Review Manager and Document Control Technician analyze the project, creates a job number, and completes a Job Setup Sheet. This form highlights both the jurisdiction, applicable contact information, and all project specific design criteria and notes. Jobs are then transmitted through 4LEAF's easily accessed EZPlan Review Portal which tracks initial and subsequent reviews and is open for view by the client. The City and their customers can view 4LEAF's plan review control log through 4LEAF's EZPlan Review Portal.



Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

Plans then get distributed for review to a 4LEAF team consisting of Plan Review Engineers, Architect (a licensed state professional) and/or an ICC Certified Plans Examiner, as applicable. Our staff then performs his or her function of analyzing the plans and documentation for effective conformance to the state codes, referenced construction standards, and City amendments. 4LEAF's code review methodology is "The Effective Use of the Codes" reinforced through proprietary and jurisdictional checklists. When complete, the Plan Review Manager overviews the project for quality control purposes and forwards comments or approvals to the client's pre-designated contacts.

On- and Off-Site Review

4LEAF can supply Registered Professional Engineers to the City to work on-site performing structural plan review and non-structural reviews at the jurisdiction's discretion. Our experience includes checking for compliance with the structural, life-safety, accessibility, plumbing, mechanical, electrical, fire, and local codes/ordinances.

Off-Site Electronic Plan Review

Digital plan review allows 4LEAF the ability to review, markup and transport plans of any size electronically. We strongly encourage this service for our clients. This process delivers a high degree of cost effectiveness, time efficiency and a "green" and environmentally friendly system. Through our strong focus on utilizing this digital capability, we offer full access to all 4LEAF engineers and plans examiners company-wide, from any of our office locations. A protected online portal will be established to allow property owners, contractors, developers, businesses, designers, and stakeholders to submit plans electronically for review. Access to the online portal will be given to City staff for immediate access to information regarding project status during the review process.

4LEAF has successfully implemented and used **Bluebeam** for electronic review of files to help eliminate the use of paper and take the plan review workflow to a whole new level. 4LEAF's offices are equipped with large scale monitors for easy review of plans. Bluebeam Revu combines powerful PDF editing, markup, and collaboration technology with reliable file creation. Bluebeam integrates flawlessly with our Green Line approach for electronic and timely turnarounds resulting in permit issuance within 5-7 business days.

Process Mapping

4LEAF aims to bring departmental processes together by identifying and eliminating obstacles to streamline processes. Our subject-matter experts visit each department within a jurisdiction to conduct an analysis of existing processes, identify how best to streamline separate departmental processes to improve workflow, and provide guidance and recommendations on an improved work plan. 4LEAF implementation staff work both on- and off-site during this process and offer extensive training to existing municipal staff members on the use of a jurisdiction's preferred permitting software.

Additional Technologies

Having served more than 400 jurisdictions, 4LEAF and our staff are knowledgeable and have experience working with a variety of different technologies for Electronic Plan Review, Permit Tracking, and Building Inspections. 4LEAF's experience with tracking technologies includes, but is not limited to:

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

Building Department Services

4LEAF has a proven track record of providing Permit Technician/Counter staff and Building Officials to jurisdictions. 4LEAF can deploy such staff on short notice and offer training programs for department staff, if required. Our staff encompasses the right combination of experience, education, and certifications.

Permit Technician

4LEAF Permit Technician Staff must be experienced and dedicated to serving the public at the Planning and Building Department counter. 4LEAF has numerous Permit/Counter Technicians on staff, many who are currently assigned to Building Departments throughout the state. All staff will have the materials, resources, tools, and training required to perform the job. Typical Permit Technician duties include:

- Accepting plans for plan check
- Verification that plans are accurate and complete
- Calculating permit fees
- Explaining ordinances and procedures to owners, contractors, developers, architects, and the public
- Assisting with preparation of permit applications
- Receiving plans for Planning and Building permits and route to various agencies (if requested)
- Accepting complaints on code violations, process, and record complaints
- Answering phone calls for field and office staff
- Processing inspection requests
- Maintaining files for building permits
- Operating the Building Department's computerized information system
- Inputting a variety of information, including building permits and inspections
- Completing related duties and responsibilities as assigned by Building Official and Senior staff members

Building Official

The 4LEAF Interim Building Official can provide in-house plan reviews to the City, limiting the amount of projects distributed to outside consultants and helping the City achieve significant cost savings. The Building Official will act as an adjunct staff member to the City and work with City personnel and various departments to perform professional building services including but not limited to plan review, permit technician, building inspection, and code enforcement.

Staff qualifications for this role include evaluating and documenting projects for compliance with applicable building standards and housing codes, on- and off-site plan review, staff augmentation, and other building department related tasks. Proposed staff for this role will be appropriately trained and certified for all work.

Placement Schedule

Building Department Staff	Interim	Full-Time
Permit Technician (ICC Certified)	< 2 Days	< 5 Days
Assistant Permit Technician/ Counter Staff	< 2 Days	< 5 Days
Building Official	< 2 Days	< 15 Days

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

Fire Prevention Services

4LEAF understands that the City is seeking a consultant who is highly experienced in providing commercial and residential fire plan review and inspection services. The City would like to contract with a dependable firm who can conduct external plan reviews and provide inspection services as needed by the City in an effort to provide a timely, efficient, and professional service to the needs of the City. Additional services might include professional personnel such as Fire Marshals, Fire Protection Engineers, Fire Inspectors, Fire Prevention Officers, permit technicians, in-house/remote fire plans examiners, and other Fire Prevention personnel as needed. 4LEAF is a qualified fire consultant who can provide:

- ✓ Complete Fire Prevention Services
- ✓ Construction Related Fire Plan Reviews and Inspections
- ✓ Web-based digital platform for Fire Plan Review Permit Tracking
- ✓ Fire Prevention Division Staff Augmentation
- ✓ Annual Fire Inspections
- ✓ Administrative support

Approach

Our Fire team is comprised of experienced Fire Prevention Officers, Fire Inspectors, Fire Investigators, Fire Plans Examiners, Fire Protection Engineers, Fire Marshals, and Fire Chiefs. 4LEAF's Fire Prevention personnel are **professionally licensed, ICC Certified, and/or CSFM Certified** and experienced working within a public and private work environment. Our team can provide complete Fire Prevention services for all types of occupancies and construction types to ensure compliance with all adopted codes, local ordinances and state and federal laws, ordinances, regulations, and standards that pertain to Fire/Life Safety including, but not limited to:

- CA Code of Regulations, Titles 19 & 24
- All NFPA Standards
- Local amendments to the CA Fire Code
- Municipal Codes, Standards, and Policies
- California Health and Safety Code
- National Fire & Building Referenced Standards

4LEAF is a Fire and Life Safety industry leader in Fire Prevention. Our Fire Prevention services include, but are not limited to:

Complete Fire Code New Construction Services:

- Emergency Site Access Compliance
- Fire Flow Water Supply Compliance
- Building Fire and Life Safety Compliance
- Hazardous Materials Code Compliance
- Fire Suppression, Fire Alarm and Gas Detection System Compliance
- Hazardous Occupancies, High Piled Storage, Energy Storage Systems and Plant Processing and Extraction Compliance
- Cause & Origin Investigation
- Emergency Responder Radio Communication System Compliance
- Wildland-Urban Interface Compliance
- Review of Alternative Materials and Methods of Construction
- Review of Performance-Based Code Compliance
- New Construction Acceptance Testing and Inspections
- In-House & Off-Site Plan Review
- Code Adoption

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

Complete Fire Prevention Division Services:

- Fire Code Operational Permits
- Annual Business Inspections
- Fire Investigations
- Hazardous Materials Inspections
- Wildland-Urban Interface Compliance
- Codes and Standards Development
- Public Education
- Safety Training
- Special Events Permits

Fire Plan Review

Fire Plans are all reviewed by 4LEAF's Fire Plan Review team for compliance with locally adopted codes and ordinances, State of California Building & Fire Codes, CA Code of Regulations, Titles 19 & 24, and any other applicable nationally recognized standards. We provided these services for all project types including Single-Family Dwellings, large Multi-Family Mixed-Use Dwelling Units, Commercial, and Industrial.

Fire Inspection

4LEAF maintains the largest database of qualified inspectors of varied qualifications. Fire inspectors vary from current full-time inspection staff, idle staff (temporarily between assignments), and pre-qualified staff which include inspectors who are available subject to client demand. 4LEAF's fire inspectors are all ICC Certified and experienced working within a municipal work environment. 4LEAF will provide fire inspectors with all the necessary tools, equipment, and current code books sufficient to facilitate all required inspections.

4LEAF can provide interim or full-time fire inspectors same-day or within one business day — simply call, email, or text our assigned Project Manager for an immediate response. Our on-call database is utilized for all our clients for as-needed requests.

Periodic Fire Inspection Services	→	**Available Next Day**
Part-Time Fire Inspection Services	→	**Available Next Day**
Full-Time Fire Inspection Services	→	**Available Two Days or Less**
Project Specific Fire Inspection Services	→	**Available Two Days or Less**

Fire Investigation

Fire investigations require a unique mix of knowledge, experience, and skills, utilizing a very technical and scientific approach. 4LEAF has qualified Fire Investigators on staff that are able to perform cause and origin investigations to truly determine how a fire was started, regardless of its size or severity. In order to identify the root cause and ignition sequence of a fire, 4LEAF Fire Investigation personnel will collaborate with other professionals to collect, preserve, analyze, and document evidence left at the burn site.

In the event that the origin of the fire is deemed unlawful, 4LEAF is able to equip the City with an experienced investigator that has the ability to assist in any prosecutions, lawsuits, or litigations that may take place. Investigators can assist by providing expert witness testimonies and presenting any evidence discovered in court.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

Code Enforcement Services

Our Code Enforcement personnel are certified through the **International Code Council, CACEO, and various training programs offered through accredited institutions**. In addition, most of our personnel hold a PC832, ICC Property Maintenance and Housing Inspector, and/or CACEO.

4LEAF staff have experience in collaborating with property owners and other responsible parties to bring properties into compliance with regulatory standards. Our team is entrusted with the responsibility of ensuring adherence to local, state, and federal laws, codes, ordinances, and regulations pertaining to various aspects of community development and public safety. Our Code Enforcement team possesses a diverse skill set and expertise covering a wide area, including building construction, zoning, land use, property maintenance, health and sanitation, environmental protection, and public nuisances. Our Code Enforcement team is adept at utilizing various procedural mechanisms, such as issuing administrative citations, investigating potential violations and ensuring prompt resolution while upholding legal integrity. At 4LEAF, our primary goal for our code enforcement team is to promote and maintain the health, safety, and welfare of residents and visitors within the municipality or jurisdiction we serve.

4LEAF Code Enforcement Officers have experience in writing criminal citations and in working with legal counsel to assist in the successful prosecution of Code Enforcement cases either in criminal or civil courts when necessary. We focus on nearly every area of Code Enforcement including, but not limited to, the following categories detailed below.

Scope of Services & Areas of Enforcement

Standard Operating Procedures

4LEAF's Code Enforcement Directors have an extensive history with Cities and Counties in preparing Standard Operating Procedures (SOP's) to ensure consistency while performing code enforcement duties. This will provide guidelines for Code Enforcement personnel to implement and achieve voluntary compliance. These SOP's are specific to each community's needs and we help establish a uniform set of guidelines for consistency and efficiency. Some of these areas include:

- Training guidelines for new Code Enforcement Officers
- Safety guidelines (including Officer Safety Procedures or compliance with SB246)
- Hearings
- Testimony

Blight Enforcement

Our team works to identify and enforce state and local laws pertaining to the maintenance of private property. Through field contact with tenants and property owners, our team works efficiently in providing guidance to address blighted conditions such as overgrown weeds, trash, debris, and graffiti.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

Classroom Training with CEUs

You can often find members of 4LEAF training nationally for organizations such as the International Code Council (ICC), American Association of Code Enforcement (AACE), California Association of Code Enforcement Officers (CACEO), and other nationally recognized affiliations of these chapters. 4LEAF's training leads include Pete Roque, Kenneth Eckman, and Alejandra Molina. Our instructors are nationally accredited and offer Continuing Education Credits (CEUs).

Our trainers currently cover topics such as:

- 10 Most Common Complaints
- Accessible Parking
- ADU Legislation
- Agency Promotion Community Relations
- Banner and Sign Enforcement
- Basic Ethics
- Basic Ethics and Inspections
- Basic Ethics, Authority, and Inspections
- Basic Inspection Protocol
- Basic Report Writing
- Basic Residential Construction
- Blueprint Reading
- Building And Safety Presentation
- Building Blocks for Code Enforcement Officer Success
- Building Code
- Building Inspections and Code Enforcement – A Powerful Duo
- Case Documentation
- Case Management from Start to Finish
- Code Enforcement 101
- Code Enforcement Culture
- Courtroom Testimony and Demeanor
- Dealing With Difficult People
- Effective Communications – Bridging the Gap with External and Internal Customers
- Ensuring Short-Term Rental Reg. Compliance
- Essentials for Short-Term Rental Enforcement
- Ethics
- Hoarding
- Individual Awareness and Preparation
- Inspection Protocol
- Interior Inspections
- Intermediate Communications
- Interview And Interrogation
- Interview And Report Writing
- Investigative Report Writing
- IPMC 2021 or 2018 Exam Prep
- IPMC 2021 Overview
- Landlord Tenant Disputes
- Legal Aspects
- Marketing Your Code Enforcement
- Mobile Vending
- Mold, Lead, Asbestos, & Vectors Enforcement
- Multi-Agency Task Forces
- Officer Safety – Drug Awareness for the Code Enforcement Officer
- Officer Safety – Encountering Mental Illness in the field of Code Enforcement (Self-Care)
- Officer Safety – Field Inspection Protocols for the Code Enforcement Officer
- Officer Safety – Gang Awareness for the Code Enforcement Officer
- Officer Safety – Hazardous Building Safety for the Code Enforcement Officer
- Planning And Zoning Basics
- Property Maintenance

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

Community Outreach

4LEAF will review current outreach and engagement initiatives and make appropriate recommendations to the City. Items typically reviewed include:

- Opportunities for involvement in community events
- Creation of pamphlets and marketing material
- Social media engagement
- News media outlets
- Municipal Code Enforcement web page
- Review of frequently asked questions

Department Assessments

4LEAF is working with many Community Development Departments to provide assessments of their code units reviewing closely staffing levels, Standard Operating Procedures (including branding/rebranding, target issues, prioritization of existing Code Enforcement cases, community engagement strategies, written materials such as compliance notices, postings and door hangers, data entry, inspection response time management, and training programs. Additionally, 4LEAF provides in-house assessments and regular meetings with directors and municipal stakeholders for plan implementation and execution.

Hearing Officers

4LEAF has Hearing Officers available for contracted municipalities. Our seasoned officers are trained to understand the existing Municipal Code as well as other adopted codes and make a knowledgeable determination regarding the validity of a violation. Results may include the issuance of fines or granting additional time for compliance for respondents with unusual hardships.

Inspections

4LEAF can provide certified and qualified staff to perform inspections in a lawful manner that respects the reasonable expectations of privacy and security of residents and their properties. Inspections conducted will determine if conditions on the properties are compliant with applicable sections of the current editions of the International Property Maintenance Code (IPMC), Municipal Code, Zoning Code, California Health and Safety Codes, Uniform Housing Code, Uniform Code for the Abatement of Dangerous Building, CA Residential Code, CA Building Code, and trade codes. Upon assignment, 4LEAF's Code Enforcement staff will be ready to respond and provide compliance solutions to code cases, new and existing, with minimal impact to current processes.

4LEAF Code Enforcement Inspectors are qualified to do the following:

- Perform inspections for violations of Building Codes and Ordinances as adopted by the municipality.
- Research properties for prior approvals, permits, and general information relating to violations.
- Investigate and take necessary action when a violation of municipal codes exists.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

- Consult with the City Council as required, when requested by the Code Enforcement Manager/Director, and when escalated enforcement may be required.
- Comply with the City's procedures for reporting inspection results and deficiencies.
- Use City inspection correction forms.
- Complete necessary digital entries that capture site inspection results, case status communications and any documentation of notices provided to responsible parties and stakeholders.
- Conduct follow-up inspections as needed.
- Notify the responsible parties of other agency approvals prior to closing a Code Enforcement action.
- Maintain records as needed for the efficient and effective operation of the City.
- Meet with members of the public and municipal staff on a daily basis as needed.

Short-Term Rental Programs

One of the fastest-growing programs within Code Enforcement Divisions is short-term rentals. 4LEAF assists with compliance with municipal short-term rental ordinances that require property owners to adhere to several rules, including limiting the number of daytime and overnight guests, prohibiting events and amplified sound, and posting specific rules and emergency information, among others. Short-term rentals are presenting challenges within our communities. While these rentals offer unique opportunities for travelers and hosts, they have also brought forth various concerns that warrant immediate attention. Housing availability, neighborhood dynamics, and safety considerations have raised valid apprehensions among residents. 4LEAF understands these issues and is pleased to present a comprehensive scope of services designed to regulate short-term rentals effectively, fostering a harmonious coexistence for all stakeholders involved. Our proposed solution encompasses meticulous research, the development of fair regulations, stringent compliance inspections, and a robust enforcement system to address illegal postings and operations. With these measures in place, we can resolve the prevailing issues and create a sustainable short-term rental ecosystem that benefits the entire community. We look forward to collaborating with you all in implementing this solution and achieving a positive and lasting impact on our neighborhoods. These are scopes of services that we provide, including but not limited to:

1. Research and Analysis: Conducting a thorough study of the local short-term rental market is crucial to understanding the current landscape and potential impact on the community. This data-driven approach enables your jurisdiction to make informed decisions and design effective regulations tailored to your specific needs.

2. Developing Regulations and Policies: Developing clear and well-defined regulations is essential for creating a level playing field for all short-term rental operators. These policies help establish guidelines, standards, and boundaries that ensure the industry operates responsibly, benefiting both residents and hosts alike.

3. Licensing and Registration: Implementing a licensing and registration system ensures that only eligible and responsible operators are allowed to offer short-term rentals. This process helps your jurisdiction track and communicate with operators, making it easier to enforce regulations and ensure compliance with safety and tax requirements.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

4. Compliance Inspections: Regular compliance inspections are vital to guarantee the safety and quality of short-term rental properties. By verifying adherence to regulations, your jurisdiction can maintain community safety, prevent potential hazards, and protect the rights of both guests and neighbors.

5. Enforcement and Penalties: A robust enforcement mechanism, including penalties for non-compliant operators, serves as a deterrent against illegal or irresponsible practices. By imposing consequences for violations, authorities can discourage unlawful behavior and encourage operators to adhere to the established regulations.

6. Data Monitoring and Reporting: Implementing or ensuring that proper documentation is completed is standard operating procedure for 4LEAF. A proper data monitoring system provides insights into the short-term rental market's impact on housing and the local economy. It enables evidence-based decision-making, helping your jurisdiction adjust regulations if necessary and fostering transparency in the regulatory process.

7. Public Awareness and Education: Public awareness campaigns educate both short-term rental operators and residents about their respective rights and responsibilities. By promoting best practices and addressing concerns, these campaigns foster a sense of community understanding and cooperation, reducing potential conflicts.

8. Collaborative Partnerships: Partnering with short-term rental platforms and law enforcement agencies fosters cooperation and facilitates compliance. Data sharing and joint efforts between these stakeholders help streamline the enforcement process and address challenges more effectively.

9. Complaint Resolution: a complaint resolution empowers residents to report issues and complaints related to short-term rentals. Swift and fair resolution of complaints helps maintain harmony within the community and ensures that any problems are addressed promptly.

10. Periodic Review: Regularly reviewing and updating regulations allows your jurisdiction to keep pace with changes in the short-term rental industry and adapt to new challenges or opportunities. This flexibility ensures that the regulatory framework remains relevant and effective in achieving its intended goals.

Lead Abatement

Although lead-based legislation has been around since the 1950s, nationwide regulation was not enforced until 1971 with the introduced of the Lead-Based Paint Poisoning Prevention Act (LBPPPA), which prohibited the use of lead-based paint in residential structures constructed or rehabilitated by the Federal government or with Federal assistance. In 1973, an amendment to the LBPPPA stated that lead-based paint should be removed from pre-1950 housing and structures. Our Code Enforcement team follows the requirements set forth by the State of California to ensure proper lead safe practices are taking place in removal of lead-based paint to protect citizens from exposure.

Additionally, our team participated at the National Healthy Homes Conference in 2022 in Baltimore, MD, where we spoke on the importance of Code Enforcement for Lead Paint Abatement Programs to safeguard communities.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

Massage Parlor Enforcement

This scope can often be utilized for undercover stings with partnering agencies for businesses that not only violate criminal laws but also building code violations, licensing requirements, and potential massage parlor ordinances in the City. Early detection is vital in these cases and steps include background checks and other reasonable means of identification and clearances. Our team has championed programs specializing in identifying and mitigating illegal actions in massage parlors.

Parking Enforcement

4LEAF has the capabilities of providing parking enforcement. This includes:

- Enforcement of state and municipal parking regulations.
- Removal of abandoned and nuisance vehicles from the public right-of-way.
- Issuance of parking citations and review of contested citations.

Policy Review

4LEAF shall review and read current policies and procedures and define policy clearly to set the tone for your municipality's Code Enforcement Program. A clear policy communicates defined expectations to stakeholders whether it's how they handle complaints, how Code Enforcement Officers conduct compliance reviews, or any other aspect that the municipality needs to have communicated and consistently followed. 4LEAF will develop a well-defined user-friendly format.

Program Analysis

4LEAF understands that Code Enforcement is an essential part of a community's public health and safety, providing a regulatory mechanism to ensure the public's overall wellbeing. Addressing the community's concerns in a timely and efficient manner is paramount to a successful Code Enforcement Program. 4LEAF personnel will perform the following:

- Conduct investigative inspections of unpermitted activities.
- Create standard operating procedures, if required.
- Conduct review of all administrative/misdemeanor citations.
- Provide guidance for resolution of high case load along commercial corridors.
- Assist with complex code enforcement cases.
- Provide guidance for resolution of existing cases.
- Provide in-house and/or field training of traditional Code Enforcement protocols.
- Create an outreach plan to address and deter unpermitted vending/commercial corridor violations.

Program Development

4LEAF project managers have experience in working collaboratively with clients to further develop and enhance their Code Enforcement Program when requested. Our project managers are currently working with local jurisdictions to revise and strengthen Code Enforcement Programs to gain voluntary compliance, provide resident education, and effectively communicate with the public. 4LEAF staff takes an approach in recommending, implementing, and executing program assessments, creation of policies and procedures, creation of training manuals for new hires, providing educational materials for the public, providing staff with up-to-date training, teaching current Code Enforcement staff options for compliance using adopted ordinances, and providing

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

recommendations to cases that may require specialized expertise that may be sensitive in nature. 4LEAF staff also has designated staff tracking recent legislation to ensure the municipality follows state regulations and clients are aware of upcoming legislation that may affect their Code Enforcement Program.

Project-Specific Assignments

Our Code Enforcement Directors are often brought on board by municipalities to provide consulting for long-standing cases that need a fresh set of eyes and assessment. The Code Enforcement team at 4LEAF will lend their considerable expertise in bringing those difficult cases into compliance. We will review your most challenging cases, assess the work done to date, and confer with the Municipal Code and your department's Standard Operating Procedures. Once our analysis is complete, 4LEAF will provide you with a detailed report of our findings and specific step-by-step strategies to get those cases off the active roster. 4LEAF personnel will be available to speak with stakeholders such as Department Heads, Council, and other elected officials. If necessary, we can also provide Expert Witness Testimony.

Rental Housing Enforcement

Our team will assist with the inspection of residential rental properties on a routine and comprehensive basis to assure the overall quality of the unit meets the requirements of the Health and Safety Code and property maintenance guidelines. This includes educating property owners, property managers, and tenants about those requirements.

Review and Develop SOPs

4LEAF routinely works with Code Enforcement Divisions to review the current Standard Operating Procedures and provide suggestions for enhancing SOPs. Our staff can also help implement and train the existing municipal personnel in these changes. Currently, we are providing these services for California municipalities such as the cities of Escondido, Del Mar, and San Diego.

Staff Augmentation (After-Hours / On-Call Officers)

4LEAF specializes in providing personnel to municipalities on a part-time or full-time basis. At your request, our staff arrives at your door with training opportunities, study materials, company phones, and energy- saving fleet vehicles. When necessary, ***4LEAF is capable of providing Code Enforcement staff outside of normal business hours to improve response times, address code violations, and improve response times and maintain public space integrity***. 4LEAF's Code Enforcement Staff Augmentation personnel categories include:

- Department Director
- Department Manager
- Code Enforcement Manager and Training Officer
- Senior Code Enforcement Officer

Stormwater Enforcement

4LEAF provides Stormwater Enforcement. This includes the visual inspection of infrastructure dedicated to the management of rainwater. Violations would include having inadequate erosion/sediment controls for property, failing to conduct/document inspections, illegal dumping, overgrowth of vegetation, and flooding.

Substandard Housing

One of the major areas of code enforcement throughout the U.S. is the inspection of Substandard Housing. 4LEAF Code Enforcement Officers routinely inspect and report any violations to housing codes including substandard and uninhabitable conditions, un-permitted construction, unlawfully created units or spaces, inadequate or non-existent heating, accumulated trash and debris, lack of utilities, property maintenance, mold, and rodent/insect infestations.

Tobacco Enforcement

These programs ensure that retailers are properly licensed/permitted for the sale of tobacco and such establishments are posting proper notification such as STAKE Act stickers at each point of sale. In addition, we can assist in compliance with work-place smoking and vaping prohibitions.

Vendor Enforcement

In many areas across California, unlawful street vending has become a pressing concern. These vendors, offering a wide variety of products, often operate without adhering to established regulations, leading to challenges such as littering, public right of way obstructions, and unfair competition with authorized businesses. While California has taken commendable steps, such as the introduction of Senate Bill 946 and Senate Bill 972, both of which are designed to regulate and decriminalize certain aspects of street vending, there remains much work to do. Many vendors, driven more by economic desperation than defiance, continue to bypass these regulations, resulting in a surge of potentially unsafe vending operations, many of which are food vendors. This not only jeopardizes public health but also diminishes the state's regulatory efforts.

4LEAF is an experienced solution-oriented firm that recognizes the complexities of this issue. Beyond mere law enforcement, the 4LEAF team understands the socio-economic intricacies driving vendors towards this livelihood. Our tailored programs are designed to address the root causes, ensuring vendors have pathways to legitimate operations while helping jurisdictions maintain public safety and order. Through a partnership with the City, 4LEAF is poised to offer a comprehensive strategy and service that not only aligns with state regulations but also provides sustainable solutions for the challenges of unlawful street vending.

SECTION 6: LEVEL OF EFFORT LETTER

Given the on-call nature of this contract, the actual tasks and corresponding hours may vary depending on the specific needs that arise during the term of the agreement. To satisfy the City's request, we have provided a preliminary estimate of level of effort in the itemized spreadsheet below. This includes personnel classifications and estimated hours as a percentage of total time expected. Please note that these estimates are based on current assumptions and are subject to change based on project demands and the scope of work requested by the City throughout the contract.

Name	Personnel Classification	Estimated Hours (Percentage of Time)
Craig Tole	Executive Project Manager	5%
Lowell Brown	Project Manager	10%
Michael Loomis	Director of Structural Engineering	5%
Pete Roque	Director of Code Enforcement	5%
Scott Martin	Quality Control Manger	10%
Vanessa Morales	Plan Review Coordinator Manager	5%
Augie Cerdan	Fire Prevention Manager	10%
Jay Shih	Plan Review Engineer, CASp, Building Official	10%
David Rashe	MWELO Specialist	5%
Joseph Leonard	Structural Plan Review Engineer	10%
Eriselda Nanchy	Plans Examiner	10%
Dan Skubal	Fire Plans Examiner	10%
Michael Torres	Code Enforcement Supervisor	5%

City of Palo Alto

Plan Review, Permit Technician, Building Official, and Building Inspection Services

Since 2007, 4LEAF has provided several combination inspectors to assist the City staff with routine daily inspections for commercial and residential properties located throughout Palo Alto. Our inspection services vary from full-time to temporary part-time staff to help augment vacation or extended absences to due illness and/or market demand.

Since 2010, 4LEAF has provided on-site plans examiners for the City of Palo Alto. Our Plans Examiners are registered Engineers in the State of California and ICC Certified, who are responsible for reviewing larger projects ranging between $100,000 to $100,000,000 under the direction of the Chief Building Official. Some reviewed and inspected projects include Skype, Stanford Medical Center, Technology Credit Union, and VMware. 4LEAF is currently reviewing and inspecting the following projects:

Public Safety Building, $84 Million (Essential Services Facility)

New three-story, 136,873 SF City of Palo Alto Public Safety Building will have 2 levels of underground parking and will house the Police Department, 911 Emergency Dispatch Center, the Emergency Operations Center, the Office of Emergency Services, and the administration needs of the Fire Department.

Stanford Biomedical Innovation Building, $126 Million

New research laboratory building for Stanford University School of Medicine. Four-story above garage and one below grade for a total of 216,647 SF. Wet-bench research laboratories and associate support spaces, faculty offices and open office spaces workstations, conference rooms and staff amenity spaces.

744 San Antonio Rd., $42 Million

Courtyard by Marriott and an AC Hotel by Marriott. Two, five-story hotels (164,764 SF) hotels offering a combined 294 rooms with surface and underground parking.

ISO 1 Rating

With approximately 13 full-time personnel working in the City, 4LEAF was instrumental in the implementation of the ISO Program achieving the ISO 1 Rating. In March of 2015, Palo Alto became the 8th City in the Country out of 14,000 Building Departments to achieve this status.

Project Development Unit (PDU) – County of San Mateo

Building and Fire Plan Check, Fire Inspection, and Inspector of Record Services

4LEAF is currently performing Plan Check and Inspector of Record services for multiple projects on behalf of the County of San Mateo's Project Development Unit. This $1.2 billion program consists of up to 18 projects over the course of more than five years. 4LEAF is responsible for the combination building inspections, fire inspections, fire plan check and inspection reports related to all projects including:

County Office Building III – LEED Platinum

The 208,000-square-foot County Office Building III consists of a unique mass timber structure, glulam columns/beams and CLT flooring. The 5-story low-rise building provides business office workspace with exceptional access to daylight, for a variety of county departments including the Board of Supervisors. In addition, there will be assembly spaces on Level One for the Board of Supervisors Chambers and support program associated, press room, conference center, as well as a gym and café.

Regional Operations Center

The new 37,000-square-foot, two-story Regional Operations Center (ROC) will be located on the County Center campus where the motor pool was once located. The Center will house 911 Public Safety Dispatchers, an Emergency Operations Center, and the Office of Emergency Services. The ROC will serve as a hub for public safety responders during major catastrophic events. The building will achieve LEED Silver certification from the U.S. Green Building Council and is the largest project funded to date by Measure K.

Skylonda Fire Station #58

This project consists of a barracks/office building consolidating the functions and operations of two existing structures into a single structure. The building will contain administrative offices and related support spaces, conference and training rooms, a kitchen and dining room, dayroom, dorm rooms, fitness rooms, showers, and restrooms. A new primary vehicular access connection shall be to facilitate improved traffic sightlines and vehicle turning radiuses.

Additional Projects

- Animal Shelter
- Cordilleras
- South San Francisco Health Center
- Parking Structure #2
- San Mateo Medical Center
- La Honda Fire Station
- Portola House
- Pescadero Fire Station
- Pine Street Project

City of Cupertino

On-Call Building Inspection and Plan Review Services

4LEAF performs on-call building inspection and plan review services for the City of Cupertino. 4LEAF has completed numerous residential and commercial plan reviews on behalf of the City.

Apple Park

4LEAF provided the Building, Fire, and Public Works Department Inspection services on the largest private commercial construction project in the Country. 4LEAF was tasked with mobilizing a **project team of more than 20** Building, Fire, and Public Works Inspectors, Project Administration Staff, and Engineering team for this more than **$8 Billion project**. 4LEAF was responsible for coordinating the inspections in relation to the City's permits and ultimately packaging milestones of the project for occupancy approval from the City's Chief Building Official.

- **Main Building –** The Main Building accommodates up to 12,000 employees and comprises approximately 2.8 million square feet.
- **Corporate Fitness Center –** Comprising approximately 100,000 square ft.
- **Corporate Auditorium –** Comprising approximately 120,000 square feet and will hold up to 1,000 people.
- **North and South Parking Structures –** Two above-grade parking structures of approximately 6,000 spaces.
- **Central Utility Plant –** Integrated parking structure and serves all buildings on the Main Building site.
- **Phase 2 Research and Development Buildings –** 600,000 square feet of office, research, and development and two separate above ground parking garages.

Plan Review Services

North and South Parking Structures – 4LEAF reviewed the above grade Parking Garages (2) for Apple Park. The 4LEAF team performed Structural, Architectural, Fire-Life-Safety, Mechanical, Electrical, and Plumbing. The garages included two – 3 story and 300,000 Sq. Ft. structures which included Photovoltaic Array on the rooftops. Both garages will be connected by bridges and spine ramp.

4LEAF was selected to perform inspections for the $2.2 Billion Vallco project. The Vallco project will provide approximately 430,939 square feet of new retail along with 2,402 residential units and 1,981,447 square feet of office with eleven (11) 22-story mixed-use high-rise buildings connected by a 30-acre green roof spanning the majority of the Vallco property.

City of Vallejo

On-Call Building Inspection, Building Official, Permit Support, Planning, Plan Review, Code Enforcement

4LEAF is providing On-Call full Building & Community Development Department services for the City. We are providing on- and off-site plan review for all building codes, including architectural, structural, plumbing, mechanical, and electrical plan check. We currently staff positions including Permit Technicians, Inspectors, Plans Examiners, Planners, and Code Enforcement Officers, ensuring that all project deadlines are delivered as per the City's contract.

Scopes of work include:

- Providing on-call personnel to the Building Department including construction inspectors, building inspectors, building officials, permit technicians, on-site plans examiners/engineers, civil engineers, and code enforcement personnel.
- Providing Building and Civil Plan Review as needed.
- Provide on-call personnel to the Planning Department including Assistant Planners, Planning Technicians, Associate Planners, Senior Planners, Planning Managers, and Planning Directors.
- Reviewing plans and supporting documents submitted for projects.
- Checking for compliance with all applicable codes adopted by the City, including, but not limited to California Building, Mechanical, Plumbing, and Electrical Codes, Uniform Solar Energy Code, and any applicable adopted local amendments, State of California codes or regulations.
- Confirming building use, occupancy, and type of construction, and reviewing construction of buildings and structures to determine satisfaction of safety requirements.
- Coordinating building permit requirements and interfacing with City Departments and other agencies, including but not limited to the Public Works Department and Planning Division.
- Enforcing conditions of approval associated with discretionary permits regarding building and safety regulations, as adopted by the City.
- Providing special inspections by qualified inspectors and conduct investigations as directed by the City, including field and office research and the preparation of letters and/or documents.
- Preparing inspection logs, notice of violations and other documents of building and safety code violation cases for submittal to the City Attorney's office when prosecution action is necessary to obtain compliance with the above codes and regulations.
- Receiving, processing, and issuing building permits and coordinate the plan check and inspection process, including the tracking, routing and storage of building plans and the filing of building permit applications. Input information into the City's computer tracking system.

BASIS OF CHARGES

Rates are inclusive of "tools of the trade" such as forms, telephones, and consumables.

- All invoicing will be submitted monthly.
- Staff Augmentation work (excluding plan review) is subject to 4-hour minimum charges unless stated otherwise. Services billed in 4-hour increments.
- Most plan reviews will be done in 10 business days or less and 5 business days or less for re-checks. This is not inclusive of holidays or the day of the pick-up of plans.
- Expedited reviews will be billed at 1.5x the plan review fee listed in the fee schedule. Return time will be within seven (7) days of receipt of the plans from the City.
- Plan review of deferred submittals & revisions will be billed at the hourly rates listed.
- All plan review services will be subject to a $262.00 minimum fee if percentage-based fee or 2-hour minimum charge if hourly rates apply.
- Larger complex plan reviews can be negotiated to achieve the best possible pricing.
- All plan review services will be subject to 2-hour minimum fee.
- All plan review services are billed on a percentage basis and include the initial review and 2 rechecks.
    - Plan reviews will be billed on an hourly basis only after the initial review and 2 rechecks unless otherwise agreed upon on a case-by-case basis.
    - Fire and Civil Reviews are billed on an hourly basis and are not included in our plan review percentage.
- 4LEAF assumes that these rates reflect the FY2025-2026 contract period. There will be a 3% escalation for each subsequent Fiscal Year. (i.e. FY2026-2027, FY2027-2028, and so forth)
- Overtime and Premium time will be charged as follows:
    - *Regular time (work begun after 5AM or before 4PM)* — *1 x hourly rate*
    - *Nighttime (work begun after 4PM or before 5AM)* — *1.125 x hourly rate*
    - *Overtime (over 8-hour M-F or Saturdays)* — *1.5 x hourly rate*
    - *Overtime (over 8 hours Sat or 1st 8-hour Sun)* — *2 x hourly rate*
    - *Overtime (over 8 hours Sun or Holidays)* — *3 x hourly rate*
- Overtime will only be billed with prior authorization of the Director or other designated City personnel.
- All work with less than 8 hours rest between shifts will be charged the appropriate overtime rate.
- Mileage driven during the course of Inspections will be charged at cost plus 20%.
- Payment due on receipt. All payments over 30 days will be assessed a 1.5% interest charge.
- Client shall pay attorneys' fees, or other costs incurred in collecting delinquent amounts.
- Client agrees that 4LEAF's liability will be limited to the value of services provided.
- In accordance with California's Meal Break and Rest Break Law requirements, Client will be billed one (1) additional hour per day at the regular rate for each missed meal or rest break due to Client-directed tasks or requirements. Client should allow 4LEAF's non-exempt, hourly employees the opportunity to take their entitled rest and meal breaks during each work shift.

Docusign Envelope ID: 05116BFB-CE69-41B0-B0B3-883BE54E779D

BASIS OF CHARGES – PREVAILING WAGE

- Rates shown assume the projects will require compliance with California Prevailing Wage rate requirements and assumes the Client will be filing a PWC-100 Form to the California Department of Industrial Relations (DIR) for the projects.
- Rates for prevailing wage categories are subject to annual escalations in accordance with the bi-annual wage determinations from the California DIR.
- Per the new requirements being enforced under SB 854 and because it is assumed that a PWC-100 Form will be filed by the Client to the CA DIR for each project, 4LEAF is required to notify an authorized Apprenticeship Committee through submittal of a DAS-140 form. We are then required to make an official request to an authorized Apprenticeship Committee for an apprentice by submitting a DAS-142 form. We are not assured the apprenticeship committee will be able to provide a suitable / qualified apprentice for the project. Per the apprenticeship requirements, the hours worked by the apprentice must be in a ratio of 1:5 for apprentice to journeyman hours. 4LEAF will not know the labor classification of the Public Works Apprentice until an Apprentice is dispatched to the site; therefore, the rates for the five Periods listed under the California DIR's Wage determination for Building Construction Inspector were used to determine the range of hourly rates for Public Works Inspector Apprentice.
- Pre-approved Overtime and Premium hours for labor categories subject to Prevailing Wage requirements will be charged per the following:
  - *- Nighttime (work begun after 4PM or before 5AM) 1.125 x hourly rate*
  - *- Overtime (over 8 hour M-F or Saturdays) 1.35 x hourly rate*
  - *- Overtime (over 8 hours Sat or 1st 8 hour Sun) 1.85 x hourly rate*
  - *- Overtime (over 8 hours Sun or Holidays) 2.35 x hourly rate*
- All invoicing will be submitted monthly.
- All work with less than 8 hours rest between shifts will be charged the appropriate overtime rate.
- Project-related mileage for inspections will be billed at the allowable IRS Rate plus an additional 20%.
- Payment due on receipt. All payments over 30 days will be assessed a 1.5% interest charge.
- Client shall pay attorneys' fees, or other costs incurred in collecting delinquent amounts.
- Client agrees that 4LEAF's liability will be limited to the value of services provided.
- In accordance with California's Meal Break and Rest Break Law requirements, Client will be billed one (1) additional hour per day at the regular rate for each missed meal or rest break due to Client-directed tasks or requirements. Client should allow 4LEAF's non-exempt, hourly employees the opportunity to take their entitled rest and meal breaks during each work shift.

26-022

PROFESSIONAL SERVICES MASTER AGREEMENT (BUILDING SAFETY - PROFESSIONAL SERVICES)

BETWEEN

CITY OF BENICIA AND

CSG Consultants, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and CSG Consultants, Inc., a California Corporation located at 550 Pilgrim Drive, Foster City, California 94404, licensed to do business in California, ("CONTRACTOR") relating to CSG: Building Safety Professional Services - Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Building Plan Review

B. Certified Access Specialist Professional (CASp) Review

C. California Water Efficiency Landscape Ordinance (WELO) Review

D. Certified Floodplain Manager (CFM) Review

E. Building Official Support Services

F. Rapid Response Services

G. Specialty Services

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes. CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website

[http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR

shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this

Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for

services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and
2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Cyrus Kianpour

President

cyrus@csgengr.com

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between CSG Consultants, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Business Automobile Liability Insurance

Automobile Liability Insurance against claims of Personal Injury (including bodily injury and death) and Property Damage covering any vehicle and/or all owned, leased, hired and non-owned vehicles used in the performance of Services pursuant to this Agreement with coverage equal to the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence.

2.5. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.6. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.7. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.8. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.9. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for

the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Benicia, CA 94510

Re: Proposal for On-Call Professional Services (Building Safety) – RFP #25-064

Dear Ms. Thorsen,

CSG Consultants, Inc. (CSG) would like to thank the City of Benicia (City) for the opportunity to submit our proposal for on-call building safety professional services. Having provided a variety of engineering services to the City in the past, we look forward to the opportunity to work in concert with the City in any new capacity where our services are needed. CSG offers a talented, dynamic, and experienced team that possesses both the technical expertise and customer service skills to support the City's on-call professional service needs.

We understand the City is seeking qualified firms to provide on-call professional services for building safety, specifically to perform plan reviews during periods of high volume, as well as on-call coverage when Building Division staff is unavailable or vacancies exist. CSG can readily provide all of the requested services with the personnel proposed herein. ***No subconsultants will be used.*** CSG personnel are registered engineers and/or ICC certified, with additional qualifications including CASp, CACEO, and SAP experience and certification. Many of our proposed team members are cross-trained in multiple service levels, enabling delivery of efficient, seamless services and the ability to respond to the City's fluctuating needs. We understand the scope of work to include:

- *Building Plan Review*
- *Certified Access Specialist Professional (CASp) Review*
- *California Water Efficiency Landscape Ordinance (WELO) Review*
- *Certified Floodplain Manager (CFM) Review*
- *Building Official Support Services*
- *Rapid Response Services*
- *Specialty Services (Code Enforcement, Fire Protection, etc.)*

CSG, an employee-owned company, currently furnishes building and safety, public works, fire prevention, code enforcement, planning, and other services municipal services to over 250 public agency clients throughout California. For more than 30 years (since 1991), we have had a solutions-oriented approach to our work, leveraging our team's depth and breadth of experience and technical expertise to address code compliance challenges for our clients. In addition to our prior work with the City, CSG also provides similar services to regional client agencies that include the Cities of Richmond, Alameda, South San Francisco, Brisbane, Mill Valley, Hayward, Albany, Elk Grove, Sacramento, and Mountain House.

Brian Frenger, CBO, will serve as the primary point of contact for the City on all correspondence and communications pertaining to the requested services. His contact information is provided below:

> **Brian Frenger, CBO,** Regional Building Services Director
> (530) 300-0322 ***Mobile*** | (916) 492-2275 ***Office*** | brianfrenger@csgengr.com ***Email***

We greatly look forward to the opportunity to continue to partner with the City in serving the community of Benicia together.

Sincerely,

Cyrus Kianpour, PE, PLS
President, CSG Consultants, Inc.

SECTION 10.1.3

RELEVANT PROJECTS – BUILDING SERVICES

The following is a small sampling of projects for which proposed CSG staff have provided services for directly related to the scope of work:

SUNNYVALE CIVIC CENTER | CITY OF SUNNYVALE, CA

Building Plan Review, Fire Plan Review & CASp (2022-2023)

CSG provided building plan review, fire plan review, and CASp review for the Sunnyvale Civic Center, a 4-story, 117,000 square foot structure that will serve as Sunnyvale's new city hall. The project received an LEED Platinum rating and a Net Zero carbon footprint—the first city hall in the nation to be recognized for attaining both of these standards–and is now recognized as **"America's Greenest City Hall."** The all-electric building is powered by roof-top solar panels, but also features floor-to-ceiling bird-safe windows, light wells and a unique orientation that allows for maximum use of natural light. The new city hall also includes a revamped public safety emergency operations center, with plans to add six acres of public open space, an outdoor amphitheater, and an expanded library. The project was divided into six phases—with CSG being heavily involved in plan reviews for each phase. Throughout each step in the process, CSG helped ensure that all required building, mechanical, electrical, plumbing, and accessibility requirements were met in all six phases. Before the building ever opened to the public, it was recognized as one the Business Journal's 2022 Structures for public/civic projects.

GOOGLE BORREGAS OFFICE | CITY OF SUNNYVALE, CA

Building Plan Review (2021-2022)

CSG provided building plan review services for Google's new office at 1265 Borregas Ave. in Sunnyvale, CA. This 182,500 square foot, 5-story office building is the first mass timber structure in Google's expansive Sunnyvale campus and features a curtainwall façade that will allow the public to view the wooden ceilings. CSG also performed plan review services for the parking lots (1190/1196 Borregas Ave.) that will serve Google employees and visitors at this office location.

CITYLINE | CITY OF SUNNYVALE, CA

Building Plan Review (2021-2024)

CSG is providing continuous building plan review for the Cityline development in downtown Sunnyvale. Structures CSG has provided plan review for to date include:

- **Building 3A (200 W. Washington Avenue)**: Two 7-story core/shell structures, constructed over two levels of below-grade parking. The buildings will house retail space, a lobby, office, and support space and the ground floor level and include office and flex space on the second level.
- **Block 3 South (200 S. Taaffe Street):** Two new 12-story mixed-use apartment buildings that feature a restaurant and retail space on the ground floor, as well as residential amenities and a publicly accessible plaza. The structures will provide 479 residential units, in addition to 470 residential parking spaces that are located in the two basement levels. One unique feature about the project was incorporating five existing heritage redwood trees into the design.
- **Building B (300 S. Mathilda Avenue):** A new 90-foot tall structure that consists of three parking levels, 12,767 square feet of ground level retail, and 153,488 square feet of office space that spans four levels.

MADRONE TERRACE HOUSING & COMMUNITY CENTER | COUNTY OF ALAMEDA, CA

Building Plan Review (2023)

CSG is providing building plan review for the Madrone Terrace Housing and Community Center in the County of Alameda. The project includes building 79 affordable housing units in a 5-story building and features Type IIIA and Type IA construction. The 38,100 sq. ft. site will also include a 9,400 sq. ft. community center and a 2,800 sq. ft. daycare in addition to the residential units—serving occupancy groups R-2, A-3, and E. One of the unique features of the Madrone Terrace Housing & Community Center is a culvert that splits the building at the foundational level.

ALAMEDA LANDING | CITY OF ALAMEDA, CA

Building & Fire Plan Review (2022-2023)

CSG performed building and fire plan review for this large 72-acre development in the City of Alameda which includes 285 single-family homes, townhomes and condominiums, a 50,000 sq. ft. waterfront district of mixed-use/commercial space, and a shopping center featuring a Target and Safeway grocery store. An example of CSG's plan review work includes review of 9 different townhome condominium buildings arranged into 4-plexes, 5-plexes, 6-plexes and 7-plexes. The condominiums include both 2-story (accessible) units and 3-story units. Construction is type V-B occupancies including R-2 and U. All buildings are sprinklered per NFPA 13.

BELLARA SENIOR LIVING COMMUNITY | CITY OF HAYWARD, CA

Building Plan Review (2021-2023)

CSG is providing building plan review for the Bellara Senior Living Community, a five-story licensed residential care facility for the elderly. The facility features 29 memory care guest rooms, 127 assisted living units, common amenities, a back of house area, and an outdoor courtyard. CSG performed initial plan reviews and continues to review deferred submittals that include fall protection systems, seismic anchorage calculations, and bolt-on balconies.

POLICE/FIRE DISPATCH FACILITY | COUNTY OF SAN LUIS OBISPO, CA

Building Plan Review (2024)

CSG provided building plan review for a new 19,500 square foot dispatch facility that will house the San Luis Obispo County Sheriff and CAL FIRE SLO personnel. The facility replaces two antiquated dispatch centers that were reaching capacity and had little room for expansion—while also allowing both Sheriff and CAL FIRE staff to serve the citizens of the County under the same roof. The new facility will centralize dispatch functions and help reduce the time it takes to process both routine calls and major incidents. The County anticipates construction to be completed in the Fall of 2024, and is aiming to be fully operational by Spring of 2025.

POLICE STATION/HEADQUARTERS | CITY OF LOS BANOS, CA

Building & Fire Plan Review (2022-2023)

CSG provided building and fire plan review for the Los Banos Police Station, a 28,000 square foot facility that is expected to be completed in Fall 2023. The new headquarters will include a dispatch center, community outreach/meeting space, and house divisions that include the police department, code enforcement, and detectives. Additional space within the facility includes a briefing room, evidence storage area, locker rooms, a training room, sleeping headquarters and multiple conference rooms. CSG is also providing building and fire plan review for deferred submittals that include a radio tower, impound building, light gauge metal stud framing, and sprinkler systems.

SIERRA POINT PARKWAY DEVELOPMENT| CITY OF BRISBANE, CA

Building & Fire Plan Review, Building Inspection (2000-Ongoing)

CSG has provided building/fire plan review services and inspection for numerous structures in the Sierra Point Parkway since 2000. Currently, CSG is performing building and fire plan check for the Sierra Point Towers project in Brisbane, CA. This 422,000 square foot biotechnology campus consists of three new buildings and a parking structure that will be located north of Sierra Point Parkway and west of Marina Blvd. Below is a brief description for select projects CSG is performing building plan review and building inspection for:

- **SIERRA POINT TOWERS – BUILDING 1:** CSG is providing building and fire plan review, as well as building inspection for Building 1 of the Sierra Point Towers project—a 14-story, 494,340 square foot structure that is located near the northern boundary of the project site.
- **SIERRA POINT TOWERS – BUILDING 2:** CSG is providing building and fire plan review, as well as building inspection for Building 2 of the Sierra Point Towers project—a 9-story, 317,000 square foot structure that is located near the eastern boundary of the project site.
- **SIERRA POINT TOWERS – AMENITY BUILDING:** CSG is providing building plan review and building inspection for the Amenity Building portion of the Sierra Point Towers project, a 2-story building totaling

40,000 square feet. The Amenity Building is located near the southwest corner of the project site and is being built on the site of an existing parking lot.

- **SIERRA POINT TOWERS – PARKING STRUCTURE:** CSG is providing building and fire plan review, as well as building inspection for the proposed 12-story parking structure that will allow vehicle access from both Sierra Point Parkway and Marina Boulevard. The new structure features 3,771 parking spaces and will be located at the site of an existing parking garage after demolition is completed.

GENENTECH DEVELOPMENT | CITY OF SOUTH SAN FRANCISCO, CA

Building Plan Review, Building Inspection (1991-Ongoing)

CSG has been providing building plan review and inspection services for all of the Genentech corporate headquarters campus buildings since 1991. This campus-wide project consists of over 3.6 million sq. ft. of office, research & development and manufacturing operations space spread across over 59 buildings. CSG helped coordinated pre-construction meetings to clarify and resolve all matters prior to plan submittal; provided building plan review services and 24/7 on-call building inspection services; and coordinated and resolved construction issues between the City, project engineer, Genentech project manager and special inspector(s). Notable recent projects include:

- *Campus wide refrigeration water and hydrocarbon upgrade*
- *Building 34 – New four-story employee center totaling 71,672 sq.ft.*
- *Building 35 – New seven-story office building, totaling 255,000 sq.ft.*

FULL-SERVICE BUILDING DEPARTMENT | CITY OF ELK GROVE, CA

Building Official, Deputy Building Official, Building Plan Review, Permit Counter, Inspection

CSG staffs a full-service Building Department for the City of Elk Grove, which includes a Building Official on-site 5-days per week to perform administration and management of plan review, permit counter, and field inspections. CSG's staff provides coordination with the CMO, CDD, Public Works, Engineering, Fire, Code Enforcement, Planning, and Economic Development. Additional Building Department personnel and/or services CSG provides to the City include:

- **Deputy Building Official:** On-site 5-days per week, responsible for the day-to-day field inspection assignments, customer inquiries at the counter/via email, and light plan review.
- **Plan Review:** On-site one day per week, with full-time offsite plan review of all projects.
- **Public Counter Permit Services:** On-site 5 days per week, CSG staff processes all building applications and issues all permits. Additionally, CSG staff provide customer service at the counter and coordinate with applicants and developers via phone and email.
- **Field Inspection:** CSG staff provide field inspections for all residential and commercial permits (5 days per week).

FULL SERVICE BUILDING DEPARTMENT | CITY OF LOS BANOS, CA

Building Plan Review, Building Official, Deputy Building Official, Inspection, Permit Counter

CSG provides a full-service Building Department to the City of Los Banos. This includes a Building Official who oversees the operations of plan reviewers, permit technicians, and inspectors. Depending on workload, CSG has provided various support staff to supplement the Building Official, including a Deputy Building Official, field inspectors, and permit technicians. Plan review for small projects is conducted on-site by the Deputy Building Official and qualified CSG staff. All other plan review is performed off-site by CSG's experienced team of plan reviewers.

RELEVANT PROJECTS – CODE ENFORCEMENT SERVICES

The following is a small sampling of similar projects and/or client agencies for which CSG has provided code enforcement services:

CODE ENFORCEMENT SERVICES | MULTIPLE JURISDICTIONS, CA

Staff Augmentation (2006-Ongoing)

CSG has and continues to provide Code Enforcement Officers to a wide variety of jurisdictions throughout the state. Our work has included inspections, investigative work, and enforcement to ensure public health and safety, including responsive calls for service, various forms of documentation, preparing and processing of all needed correspondences, providing accurate records, and follow up with stakeholders. Our highly qualified staff also interpret, and enforce provisions of the Municipal Code, including the Zoning, Housing, Building, Nuisance and Property Maintenance codes, along with state and other local codes. We have also provided council presentations and updates supporting the impactful work delivered within those communities.

GENERAL CODE ENFORCEMENT | TOWN OF WOODSIDE, CA

Staff Augmentation (2012-Ongoing)

This is one of many instances where CSG provides a Code Enforcement Officer to support and enforce local ordinances. This includes inspections and investigative work that ensures public health and safety, in addition to resolving other or nuanced complaints and violations. This includes responding to citizen calls for service, documentation, preparing all needed correspondence, maintaining accurate records and following up with stakeholders. Our highly qualified staff also interpret and enforce provisions of the Municipal Code, including the Zoning, Housing, Building, Nuisance and Property Maintenance codes.

CODE ENFORCEMENT TRAINING OFFICER | CITY OF GUSTINE, CA

Staff Augmentation (2018)

CSG staff served as a training officer for their code enforcement staff in the City of Gustine. Training of their new officers included addressing municipal code interpretation, inspections, investigations, case management, officer safety practices, business licensing, handling citizen complaints, and exercising sound decision-making at all times.

ACTING CODE ENFORCEMENT SUPERVISOR | CITY OF MODESTO, CA

Staff Augmentation (2022-2023)

CSG staff served as the interim Code Enforcement Supervisor for their Neighborhood Preservation Unit in the City of Modesto. Duties included assisting with case management, officer training, departmental coordination, officer and case management oversight, assessing and helping improve response times, staff morale, and overall improvement to program functions.

"AGED CASES" | CITY OF CAMPBELL, CA

Specialty Program Staff Augmentation (2017-Ongoing)

CSG has a long standing relationship working with the City to focus on the management and closure of older cases. Many of these cases have complexities that include incomplete records, multiple changes in ownership, cross-platform violations, and other challenging characteristics. These cases have required the experience of a veteran officer due to the high level of finesse needed to manage non-compliant responsible parties. A significant number of cases required direct coordination with and approval of various departmental City staff. Our officer has coordinated with outside resources (e.g., County agencies), created a new collaborative model and unified partnership with Building and Planning Departments, and represents the Community Development Department as a seamless extension of the City. CSG's code enforcement officers' work for the City of Campbell has resulted in a substantial caseload reduction and has been able to successfully close "unsolvable" cases.

Through this assignment, CSG has been able to showcase its diversity in problem solving, diplomacy, ability to work with a community, beneficial coordination, organizational approach, supportive documentation abilities, and a capacity to effectively tailor services for communities with distinct needs.

MASSAGE PROGRAM IMPLEMENTATION AND MANAGEMENT, HOUSING INSPECTION, GENERAL CODE ENFORCEMENT | CITY OF SAN RAFAEL, CA

Program Management and Staff Augmentation (2013-Ongoing)

CSG's Code Enforcement staff has assisted the city in the development and ongoing implementation of its highly successful Massage Inspection Program (MIP). The program provides full administrative services in managing and monitoring all permitted massage businesses in San Rafael, and addressing unpermitted activities. This is done in combination with specialized inspections: initial inspections, annual inspections, compliance inspections, sting operations, and after-hour & weekend inspections. Additionally, the staff coordinates the following administrative duties on the City's behalf: new-business intake and certifications, employee registrations (including credential verification), public education, permitting, and issuance of administrative citations. Additionally, we have also provided full service support for City's Housing Inspection Program (HIP), Residential Building Record (RBR) program which addresses current property status in resale situations (and addresses unpermitted construction), and general code enforcement support.

SHORT-TERM RENTAL PROGRAM ENFORCEMENT | COUNTY OF VENTURA, CITIES OF MONTEREY AND SAUSALITO, CA

Program Management and Staff Augmentation (varied from 2016-Ongoing)

CSG provided short-term rental enforcement for the County of Ventura and City of Sausalito, and has a long and continuing partnership with the City of Monterey since 2015. Our inspectors specialize in enforcing short-term rental regulation, as well as proactively identifying rental properties that are in violation. We have handled a large cases that requires taking the appropriate steps through the administrative process and issuance of administrative citations.

PROGRAM ASSESSMENT SERVICES | SAN JOAQUIN COUNTY, CA

Program Review and Training (2020)

CSG performed a comprehensive program evaluation to examine processes to improve operational benchmarks and efficiency. This effort included a thorough review of services and interactions with collaborative departments. A formal report encapsulating the findings and recommendations was provided to the agency for reference.

COMMUNITY DEVELOPMENT BLOCK GRANT | CITIES OF LOS BANOS, LIVINGSTON, CA

Program Management and Staff Augmentation (varied from 2016-2023)

CSG provided Community Development Block Grant (CDBG) sponsored inspection services and assistance, including general code and vehicle abatement support services in the cities of Los Banos and Livingston. Our inspectors effectively specialized in resolving blight and nuisance complaints in these cities by concentrating inspection and nuisance abatement services within the low to moderate income census tracts in block grant cities.

Approach

SECTION 10.2

BUILDING PLAN REVIEW SERVICES

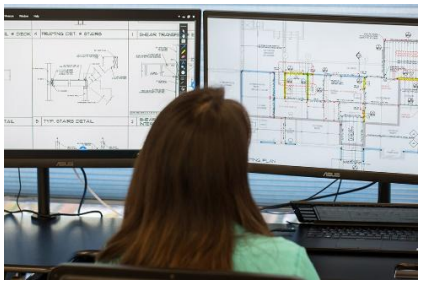
CSG's team of professionals is ready to assist in all aspects of plan review and to focus on the special needs and requirements of each of our clients. We pledge thorough and accurate reviews and prompt turnaround times, and offer proven digital plan review services and comprehensive online status reports. CSG serves as an active partner, working as a seamless extension of our public agency clients in performing the requested services and working closely with the development community and public as directed.

Compliance Standards

Our engineers and plan reviewers carefully review all plans and documents for compliance with building codes, fire codes, energy conservation standards, and accessibility regulations adopted by the State of California, and all local policies and ordinances including but not limited to:

- *California Building Code, Volumes 1 and 2*
- *California Residential Code*
- *California Electrical Code*
- *California Plumbing Code*
- *California Mechanical Code*
- *California Fire Code*
- *California Energy Code*
- *California Green Building Standards Code (CALGreen)*
- *California Existing Building Code*
- *California Health and Safety Code*
- *National Fire Protection Association (NFPA) Standards as adopted and referenced by the State of California (California Code of Regulations, Title-19)*
- *State Historical Building Code*
- *NPDES/WQMP/SWPPP Compliance*
- *Local adopted ordinances and amendments relative to building, fire and municipal codes, including project Conditions of Approval from other agency departments, divisions, and regulating agencies*

Digital Plan Review



CSG has been providing digital plan review services for over 20 years, leading the consultant field with this ground-breaking service. All paper plans submitted to CSG for building and fire plan review are immediately scanned into digital files and stored on CSG's servers for quick and easy access by both our clients and our plan reviewers.

Leading the field in digital plan review services for over 20 years.

Our plan reviewers furnish electronic versions of their plan comments conforming to each client's established correction list templates. Any additional forms utilized by the agency will be incorporated into the correction comments and returned with the appropriate recommendations. Plan check comments can be delivered electronically by email or other agency-approved means, enabling staff to immediately modify CSG's checklist for incorporation with other department comments. We provide convenient, environmentally friendly digital storage of all construction-related documents, and on request, can provide clients with a set of digitally scanned plans at no additional cost.

In addition, for jurisdictions requesting a pure digital plan review workflow, we can enable an applicant to submit digital files—**with no size limitations**—directly to CSG via our web-based application. Our application includes an online portal for the applicant/jurisdiction to retrieve comments and marked-up digital plans including redlines. Importantly, this service tracks the status of all submittals and re-submittals until the plans have been approved. Key features of our digital plan review service include:

- ***Efficient.*** *Plans are pushed to plan review staff the same day they are received.*
- ***User-friendly.*** *CSG developed its own online portal specifically to manage the electronic file submittal process. Through use of this interface, the applicant is no longer faced with size restrictions on email attachments or required to learn complex file transfer settings.*
- ***Proven.*** *We have provided a digital plan review option to our clients for over 20 years.*
- ***Non-Proprietary.*** *CSG's electronic review process is 100% PDF-based with no additional software required to view redlines.*

All paper plans submitted to CSG are immediately scanned into digital files for quick and easy access by our clients and plan reviewers.

Online Plan Check Status

CSG offers a convenient service allowing clients to check plan review status and comments online. By accessing our secure Plan Check Status website, agency staff as well as authorized applicants can view their project documents and plans and communicate with the specific plan checker via e-mail. Staff and authorized applicants can download comments upon completion of the plan check. ***There is no additional cost for this service.***

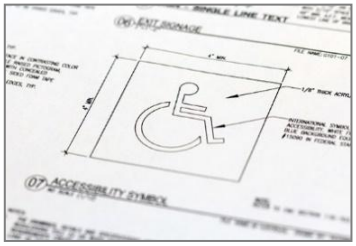
Plans Pickup and Delivery

CSG will coordinate pickup and delivery of plans and other materials from/to the agency via CSG personnel or an approved alternative service.

Green Building and LEED Accreditation

Our Building Division team is experienced in plan review and inspection for compliance with CALGreen and local green building ordinances and includes LEED Accredited Professionals. In addition, CSG Consultants has the qualifications necessary to assist with both the development of policy and the implementation of green and sustainable building practices. CSG's Sustainability Programs division can assist, for example, with construction and demolition debris recycling programs and public outreach to the building industry.

CASp Review Services



We understand California Building Departments are required to have CASp certified staff in place and available for technical questions and interpretations. Our CASp certified team members are knowledgeable of state and federal accessibility laws and regulations and possess the expertise necessary to promote access to facilities for persons with disabilities. When requested and in accordance with current regulations, CSG can provide CASp certified professionals to review plans for accessibility and to facilitate compliance with regulations.

OSHPD 3 Reviews

Our professional engineers and certified plans examiners are well-versed in the differences between CBC and OSHPD 3 facilities and have successfully completed OSHPD 3 plan reviews for multiple client agencies.

Third-Party Plan Review Services

Subject to the Building Official's approval, CSG can offer comprehensive, cost-effective third-party plan review services to our public agency clients on projects for which applicants may be seeking plan review turnaround times that cannot be readily accommodated by building department staff. Under such third-party agreements, and the agency's approval, CSG negotiates plan review fees and review schedules directly with the permit applicant, with CSG's fees paid by the applicant.

PLAN CHECK TURNAROUND TIMES

The following are CSG's proposed plan check turnaround times:

TYPE OF REVIEW	INITIAL REVIEW (BUSINESS DAYS)[2]	RE-CHECK (BUSINESS DAYS)[2]
Residential New Construction	10	5
Residential Additions	10	5
Small Residential Remodels	10	5
Commercial New Construction & Large/Complex Projects[1]	15	10
Commercial Additions	10	5
Small Commercial Remodels/Tenant Improvements	10	5
Expedited[1]	5-10	5
EVCS, PV, ESS		
Residential EVCS	5	5
Commercial/Multifamily EVCS	5	5
Residential PV + ESS (38.4 kw maximum)	3	3
Residential PV + ESS (38.4 kw or greater)	10	5
Commercial/Multifamily PV + ESS (38.4 kw maximum)	5	5
Commercial/Multifamily PV + ESS (38.4 kw or greater)	10	5
Residential ESS	3	3
Commercial/Multifamily ESS	5	5

[1]Turnaround time may vary with the complexity and magnitude of the project. If a review is anticipated to take longer than the maximum turnaround time, CSG will notify the City's representative and negotiate additional time required to ensure an appropriate level of review.

[2] The number of working days associated with the plan check turnaround time is based on time of project submittal. The first working day will be the day the project is received by CSG if submitted by 3:00 PM. For a project that is received by CSG after 3:00 PM, the first working day will be the next business day.

Expedited Plan Check Services

At the City's request, we can perform plan check services on an accelerated schedule based on the fees indicated in our fee schedule.

Office Hours and Meeting Availability

Plan Review

CSG plan checkers are available for inquiries anytime during normal business hours via phone or email, Monday through Friday. Our plan checkers can typically respond to the City for all questions or requests generated during any plan review on the same day, but no later than the following day a request is received. To assist the City, we can also meet in-person with City staff and project stakeholders or can utilize video conferencing with all parties involved. Additionally, we recognize the value of pre-design consultation with prospective applicants and are available to provide this service at no additional cost. Our designated Project Manager and/or technical staff will be available in-person for consultation and meetings with a reasonable lead time.

Inspection

CSG inspectors can be ready to provide services upon request to CSG's designated project manager. We are flexible and can alter our hours to meet the City's needs. Evening and weekend inspections for special construction needs can be accommodated with sufficient notice. CSG staff can typically respond to the City for all questions or requests generated during field inspections on the same day, but no later than the following day a request is received.

BUILDING OFFICIAL SERVICES

CSG's Building Officials are certified and have extensive building industry experience. They have the proven skills, technical knowledge and a well-rounded approach to performing Building Division administration and providing management oversight and direction to plan reviewers, inspectors, and permit technicians. Our Building Officials are well-known for their consummate customer service skills and successful identification of solutions through innovative problem solving. They can be available full-time or part-time as needed. CSG's Building Officials have expertise in providing the following services and can easily adapt to other requests as needed:

- *Building Official Administration, including addressing complex Building Code issues, code interpretation, and resolution of inquiries and complaints*
- *Rapidly familiarizing themselves with local code amendments*
- *Applying knowledge of all aspects of the California Building Codes and local amendments*
- *Making determinations on the approval and use of alternative materials and methods*
- *Staying abreast of ongoing changes to applicable state and federal laws through long-standing industry relationships and associations*
- *Providing technical assistance and educating stakeholders*
- *Building and maintaining relationships with other departments and agencies*
- *Participating in pre-development reviews and providing comments*
- *Processing Planning Commission and Council staff reports*
- *Attending Planning Commission and Council meetings*

FIRE PLAN REVIEW

Our team of professionals is ready to assist in all aspects of plan review and to focus on the special needs and requirements of each of our clients. We pledge thorough and accurate reviews and prompt turnaround times, and offer proven digital plan review services and comprehensive online status reports. CSG serves as an active partner, working as a seamless extension of our clients in performing the requested services and working closely with the development community and public as directed.

Multi-faceted Expertise

CSG furnishes plan review for fire and life safety, fire department access and water supply, wildland urban interface, fire protection systems, and special hazards for all structures with emphasis on the unique needs and requirements of each of our clients. We have expertise in the special requirements and risks associated with industrial and commercial buildings as well as single- and multi-family complexes. All fire plan review and inspection personnel are thoroughly trained in and familiar with jurisdictional processes, working with multiple agency departments, and serving the public.

TURNAROUND TIMES

CSG will ensure that all Fire Life safety duties and follow-up actions will be performed in a timely and responsive manner. If a review is anticipated to take longer than the maximum turnaround timing, CSG will notify the designated representative and negotiate additional time required to ensure an appropriate level of review.

The following are CSG's proposed turnaround times.

REVIEW	TURNAROUND TIME
First Submittal	10 business days
Second Submittal and Subsequent Submittals	5 business days
Accelerated Submittal and Subsequent Submittals	5 business days

Expedited Plan Check Services

At the City's request, we can perform plan check services within an accelerated time frame; with fees negotiated between the City and CSG.

CODE ENFORCEMENT SERVICES

Code enforcement activities are a crucial service to ensure not only public health and safety, but also to enhance economic development throughout a community. Blighted conditions such as graffiti on public and private properties, illegal dumping, vacant lots, overgrown vegetation, deteriorated building exteriors, missing or broken windows and screens, foreclosures, illegal signs, and inoperable vehicles all contribute to a community's negatively to its image and deterioration. Municipal Code standards are enforced to ensure that communities remain attractive, inviting, and safe. Well-kept communities help to maintain or increase values, discourage crime, encourage quality development while preserving the overall quality of life in the community. And supportive education of community members plays an essential role in a jurisdiction's ability to self-regulate and reduce program demand.

As consultants, CSG and its Code Enforcement Officers are driven to provide a high standard of performance and program delivery. CSG staff are highly skilled, experienced, culturally sensitive, and possess various certifications such as PC 832, California Association of Code Enforcement Officers (CACEO) or equivalent. In addition, their computer literacy includes familiarity with Central Square (TrakIt), Accela, iWorQ, Tyler, Microsoft Office programs (Word, Outlook, and Excel), and other current code enforcement databases or supportive platforms. As part of their normal duties, CSG officers enforce state/local laws; issue Administrative Citations; author reports, can testify at hearings, and perform other duties as may be required. CSG has Code Enforcement Officers who are bilingual in Spanish, who can be assigned to meet the City's needs. While each officer has their own background and style, to be successful in their duties, all of CSG's team members are articulate, coachable, driven, effective, and relatable.

CODE ENFORCEMENT OVERVIEW

CSG has and continues to provide Code Enforcement Officers to a wide variety of jurisdictions throughout the state. Our work has included inspections, investigative work, and enforcement to ensure public health and safety, including responsive calls for service, various forms of documentation, preparing and processing of all needed correspondences, providing accurate records, and follow up with stakeholders. Our highly qualified staff also interpret, and enforce provisions of the Municipal Code, including the Zoning, Housing, Building, Nuisance and Property Maintenance codes, along with state and other local codes. We have also provided council presentations and updates supporting the impactful work delivered within those communities.

CSG's Code Enforcement Officers work to identify code violations and engage stakeholders and responsible parties to correct code violations consistent with municipal and state codes tailored to the specific needs of the agency.

Examples of codes and ordinances enforced include:

- *Zoning codes*
- *Building codes*
- *Housing codes*
- *Public nuisance codes*
- *State health & safety codes*
- *Property Maintenance*
- *Special concerns such as noise abatement issues, business licensing and permits, work and safety regulations, short term rental enforcement, massage, and human trafficking, and marijuana dispensaries*

Our Code Enforcement Officers have extensive experience and skills in the following key areas:

- *Bringing flexibility and transferable knowledge from various jurisdictions*
- *Being team oriented and communicating with staff and partner agencies*
- *Interfacing and working collaboratively within communities*
- *Meeting with property owners and guiding them in the pathway obtain compliance*

- *Providing respectful and thorough site inspections*
- *Educating the public and stakeholders regarding the regulations and due process*
- *Providing proper documentation*
- *Operating within the legal framework of the jurisdiction and industry*
- *Communicating and encouraging individuals towards voluntary compliance*
- *Drafting and issuance of required documents and processes*
- *Preparing administrative remedies including issuing notices of violations and citations*
- *Conducting administrative hearings with an Administrative Hearing Officer*
- *Preparing program updates and staff reports, as well as committee and City Council presentations*
- *Coordination of activities with multiple departments including Building, Planning, Community Development, Police and City Attorneys*
- *Providing information on municipal regulations to property owners, residents, businesses, and the public, as well as for agency departments*
- *Performing license and permit application review and processing*
- *Maintaining records of inspections using online databases such as Infor, Trakit, Accela, and Citizenserve*
- *Providing code enforcement program review and analysis*

Although a majority of our results are gained by voluntary compliance, our services include a full range of code enforcement activities, including:

- *Managing administrative abatements and receiverships*
- *Testifying on behalf of clients in administrative hearings and court proceedings*
- *Facilitating settlement agreements*
- *Recommending changes or updates to the code*

In addition, CSG can review existing code enforcement programs to look for efficiencies and help establish appropriate policies and procedures to facilitate the mission of the code enforcement unit.

DANGEROUS BUILDINGS AND PUBLIC NUISANCES

CSG will assist the City in administering the Uniform Code for the Abatement of Dangerous Buildings and Nuisance Chapter of the Municipal Code, including the following services:

- *Conduct preliminary investigations of conditions of property and make initial contact with tenants and property owners as appropriate;*
- *Prepare courtesy notices and warning letters as appropriate;*
- *Conduct inspections and prepare documentation of violations;*
- *Prepare inspection warrants if necessary in order to gain access to conduct inspections;*
- *Prepare "Compliance Orders" and "Notice and Orders;"*
- *Organize appeal hearings if needed;*
- *Conduct follow-up inspections to monitor compliance with "Compliance Orders" and "Notice and Orders;"*
- *Provide support to legal counsel including preparation of declarations and documentation suitable for submission to Court;*
- *Make Court appearances as necessary; and*
- *Prepare documentation for recovery of costs through administrative penalties and recordation of liens.*
- *Appearing as expert witnesses*

HEARING OFFICER SERVICES

If requested, CSG will assist the City with an on-call or designated Administrative Hearing Officer providing the following services:

- ***Conducting Administrative Hearings:*** *CSG's Hearing Officer will preside over administrative hearings and ensure proper conduct during proceedings. CSG's Hearing Officer will hear all parties and review relevant evidence to determine an unbiased decision and/or recommendation based on the facts presented.*
- ***Management of Procedural Issues:*** *This includes ruling on motions, written appeals, and other related evidence. CSG's Hearing Officer also has the authority to administer oaths, receive testimony, and is committed to upholding due process while facilitating an impartial environment where all parties can fairly present their case.*
- ***Records Management:*** *CSG's Hearing Officer will maintain detailed records of all proceedings, compiling all pertinent documents and evidence. Additionally, a transcript of the proceedings can be provided upon request.*
- ***Issuing Decisions:*** *After careful review of the evidence, information, and arguments presented during hearings, CSG's Hearing Officer will issue a written decision detailing the findings and a subsequent order and/or remedy to be executed.*

WILDLAND URBAN INTERFACE (WUI)

CSG can assist the City if it is required to administer California Fire Code Chapter 49 (Requirements for Wildland-Urban Interface Fire Areas). CSG can provide professional services to prepare and implement requirements for fire resistant landscape vegetation and defensible space requirements. Services would include preparing local landscape standards, assisting with outreach to property owners, conducting inspections, and documenting violations.

CODE ENFORCEMENT SUPERVISION

CSG can provide interim staffing to oversee an agency's code enforcement personnel and day-to-day activities ensuring, for example, that procedures are followed, caseloads are managed effectively and that code enforcement officers work fairly and consistently with property owners and reporting parties. Our personnel are adept at serving as liaisons for code enforcement units when interacting with members of other departments. CSG Code Enforcement Managers may be called upon to attend department meetings, committee meetings and County Council meetings as a code enforcement program progresses. They can also be available to assist code enforcement officers, law enforcement and other County staff as well as representatives of other agencies on field visits when needed.

HOUSING INSPECTIONS

Upon request, CSG will conduct inspections in response to complaints about substandard housing consistent with Health and Safety Code Section 17900. Services could include contacting property owners and tenants, conducting inspections, documenting violations, and monitoring repairs.

RAPID RESPONSE SERVICES

CSG offers a deep bench of Safety Assessment Program (SAP) certified staff who can step in to help orchestrate a building department during building-related disasters and/or emergencies. CSG's staff can readily accommodate an influx in permitting activity, which includes setting up special departments to streamline reviews and address unique permitting requirements in such circumstances. Many of our staff members are cross-trained in multiple services levels, as CSG has the breadth and depth of staff to work across departments by utilizing our building, public works, planning, code enforcement, and fire services staff as needed.

When time is of the essence, CSG can provide prompt emergency response services as directed by the City. This could include fast-tracking permits for critical projects in response to an emergency or urgent public need, but also encompasses planning and coordinating a way forward in the aftermath of natural disasters or crises. When faced with these crises, we share a common goal of rebuilding communities to be stronger, more vibrant, and more resilient than before. CSG can work alongside the City to perform expedited reviews in these situations, streamlining the review and processing of construction permits.

WELO REVIEW

CSG will review submitted Landscape Documentation Packages, landscape plans, and irrigation plans for compliance with the local and State Water Efficient Landscape ordinance(s).

CERTIFIED FLOODPLAIN MANAGER REVIEW

CSG will review subdivision proposals and other proposed development applications, including manufactured home parks for work in the Special Flood Hazard Areas (SFHA's) to determine whether such proposals will be reasonably safe from flooding. We will review all plans and documents submitted prior to recommending the issuance of a Floodplain Development Permit as required by the Federal Emergency Management Agency (FEMA) and the local agency floodplain ordinance. The floodplain development permit requirement is intended to allow the City to monitor activities located in the SFHA to ensure the following:

- *Base flood elevations do not significantly change because of development.*
- *Buildings in the SFHA's are constructed and maintained properly.*
- *Substantially damaged/improved buildings are brought into compliance with current floodplain regulations.*
- *All public utilities and facilities, such as sewer, gas, electrical, and water systems are located and constructed to minimize or eliminate flood damage, and*
- *Adequate drainage is provided to reduce exposure to flood hazards.*

CSG will review other FEMA required documents such as: Conditional Letter of Map Revision based on Fill (CLOMR – F); Letter of Map Revision based on Fill (LOMR-F); FEMA Elevation Certificate (2022 edition or most current version); Letter of Map Amendment (LOMA); Letter of Map Revision (LOMR); Substantial Improvements/Substantial Damage (SI/SD) determination, and other types of floodplain applications.

Additionally, CSG will perform other work such as:

- *Review routine building permit applications for development projects within the SFHA.*
- *Coordination with the City staff on issues related to the above review.*
- *Attend meetings with City staff, and applicants, as needed.*
- *Track/maintain a log of the progress of the reviews coming in and out of CSG office.*

Level of Effort Letter

SECTION 10.2.2

CSG has provided hour rates for staff who would be involved with this work in Section 11.5 (Pricing Proposal). Due to the nature of the on-call scope, we cannot accurately estimate the amount of hours until further direction is provided by the City.

Shasta Cascade Chapter of ICC
California Association of Building Officials (CALBO)
International Code Council (ICC)

Mr. Frenger has served in roles that include Chief Building Official, Inspection Manager and Plans Examiner and brings more than 20 years of progressively responsible experience in management and building inspection related services for both the private sector and public sector to CSG. He is a proven leader with a track record of high-quality work and customer service that is proactive, professional, and effective. As a leader, he enjoys making positive changes, increasing efficiency, modernizing processes through implementing new technology, while providing exceptional service. His management style is flexible, collaborative and is compatible with a broad range of personalities and proficiencies. Mr. Frenger is proactive in his partnership with fellow employees, industry peers, consultants, and members of the community to achieve goals and implement change. As CSG's Regional Building Services Manager, he operates with the highest ethical standards that will not be compromised:

- *Commitment to customer satisfaction.*
- *Dedication to excellence in service delivery.*
- *Fostering environments that are conductive to innovation, creativity, & collaboration.*
- *Implementing innovative strategies that promote efficiency.*
- *Enforcing the States minimum Building Standards Codes to protect health, safety, and the welfare of the community while balancing the development community needs.*

RELEVANT EXPERIENCE

Chief Building Official | City of Elk Grove, CA

Mr. Frenger served as the Building Official for the City of Elk Grove, overseeing a staff of 11 for the Building Division that included permit technicians, plans examiners, and inspectors. He also was responsible for attending project and management meetings and coordinating staff for inspection services.

Chief Building Official/Inspection Manager/Plans Examiner | Interwest Consulting Group

Mr. Frenger served as the Building Official for the City of Elk Grove, Angels Camp, United Auburn Indian Tribe, and as the Northern California Building Inspection manager. In addition to his Building Official Services, he planned, managed and directed a comprehensive Building Inspection group of 11 staff for Northern California clients to ensure that they provided excellent customer service and met health and safety requirements specified in the California Building Standards Codes, International Property Maintenance Code and California Health and Safety Code. In these roles, Mr. Frenger built and maintained positive working relationships with co-workers, other City employees, and the public, using principles of good customer service. Additionally, he represented the Division and Department to outside agencies and organizations; participated in outside community and professional groups and committees; provided technical assistance, and other duties as necessary.

Senior Inspector/Fire Inspector| County of Sutter, CA

Mr. Frenger maintained supervision over the Sutter County development services staff, which included permit technician staff, building inspection staff and code enforcement. Throughout his time at Sutter County, he successfully completed supervisor training courses with Liebert Cassidy and Whitmore and California State Association of Counties (CSAC). As a Senior Inspector, he performed plans examiner duties and inspections related to commercial and residential occupancies. He worked closely and in conjunction with the Sutter County Fire Chief as it related to fire code plan review, fire inspections, and Fire Marshal duties. Additionally, Mr. Frenger worked with engineers, architects, contractors, and homeowners to ensure their construction needs were met. Additional contributions include implementing policies and procedures to the building division along with cost effective building and code enforcement software programs that met the Counties budget restraint.

Prior to his employment with the County of Sutter, Mr. Frenger also served as a Code and Construction Compliance Specialist for the City of Oroville (2011-2013), and Building Inspector/Plans Examiner for the County of Yolo (2004-2011).

George Apple CFM

Vice President of Fire Services

LICENSES & CERTIFICATIONS

CSFM Certified Fire Prevention Officer | #000122

CSFM Certified Fire Prevention Specialist | #260-2480

CSFM Certified Plans Examiner | 360-2480

CSFM Certified Fire Investigator I | #092708

CSFM Certified Fire Officer | #150-2180

CSFM Certified Fire Marshal | #460-2480

ICC Certified Fire Inspector II | 528431-67

EDUCATION

Bachelor of Science, Engineering Technology – Fire Protection and Safety
Oklahoma State University | Stillwater, OK

Mr. Apple has over 25 years of fire service experience from having served as a firefighter for the City of Isleton, CA to serving as Assistant Chief-Fire Marshal for the Cosumnes Fire Department and servicing the Cities of Elk Grove and Galt. Currently Mr. Apple serves as the Fire Services Manager for CSG Consultants. In this capacity, Mr. Apple oversees the Fire Services Division. The Fire Services Division is responsible for plan review and inspections of new residential and commercial projects as well as conducting annual inspections, and staff augmentation for various jurisdictions.

He has extensive experience providing plan reviews of architectural, civil, mechanical, and fire suppression and detection plans for new construction and building renovation projects. He has also been responsible for performing fire-related inspections in accordance with appropriate laws, codes, ordinances, regulations, and standards.

Mr. Apple has served on code development committees and is highly experienced with the code development process. He also serves as an adjunct instructor in Careers and Technology at Cosumnes River College, developing curricula and lecturing classes in Fire Prevention, Systems and Equipment; Fire Protection Organization; Tactics and Strategies; Fire Investigation; Combustion and Fire Chemistry; and Fire Law.

Mr. Apple has been conducting fire investigations in his role in the fire service for the past 20 years. He is a Certified Fire Investigator I in the State of California and has completed the Fire Investigation 2 series of instruction through the California State Fire Training System. Mr. Apple is also a Certified Post Blast Investigator through the Federal Bureau of Investigations. Additionally, Mr. Apple is a Peace Officer in accordance with Penal Code Section 830.37(a).

RELEVANT EXPERIENCE

Assistant Chief – Fire Marshal | Cosumnes CSD Fire Department, Elk Grove, CA
As an Assistant Chief - Fire Marshal, Mr. Apple was the Department Liaison with City of Galt and City of Elk Grove officials, and managed day-to-day activities of the Fire Prevention Bureau, including new construction, code enforcement, public education, fire investigations, and global information systems. He ensured that necessary training was provided to maintain proficiency of plan reviewers, inspectors, investigators and public education officers.

Assistant Fire Marshal | Elk Grove CSD Fire Department, Elk Grove, CA
Mr. Apple served in capacities of increasing responsibility within the Elk Grove CSD Fire Department including Fire Inspector II and Assistant Fire Marshal. Mr. Apple developed and managed the budget for the Fire Prevention Bureau as well as the Bureau's day-to-day activities, ensuring that all plan reviews and inspections were completed within the District's goals.

Fire Inspector II | Sacramento Metropolitan Fire District, Sacramento, CA

Fire Protection Engineer | Stanford University, Stanford, CA

Fire Protection Engineer | Mount Prospect Fire Department, Mount Prospect, IL

Fire Inspector/Plan Reviewer | Orland Fire Protection District, Orland Park, IL

Fire Fighter | Isleton Fire Department, Isleton, CA

Society of Women Engineers

Chi Epsilon National Civil Engineering Honor Society

As a Senior Principal Plan Check Engineer, Ms. Prakash reviews plans for all types of construction including, building, electrical, plumbing, and mechanical systems for both commercial and residential structures. She has performed reviews of master plans, new construction, tenant improvements, and new commercial developments. She has a thorough understanding of Green Building and Energy Code regulations, having reviewed numerous projects for LEED status.

Ms. Prakash has worked both in the public and private sectors and has a thorough understanding of all state and local building safety regulations and enforcement of building and life safety codes. She keeps current within the building industry though routine seminar attendance through the International Code Council and the California Building Officials. Ms. Prakash is currently pursuing her CASp (Certified Access Specialist Program) certification.

RELEVANT JURISDICTIONAL EXPERIENCE

Senior Principal Plan Check Engineer/Building Official | Multiple CSG Client Agencies

Ms. Prakash has provided plan review services for the various agencies/jurisdictions including:

- *City of Redwood City*
- *City of Atherton*
- *City of Fremont*
- *City of Millbrae*

Ms. Prakash has also provided Building Official services for the following agencies:

- *City of Millbrae*
- *Town of Woodside*
- *Town of Los Altos Hills*
- *City of Pacifica*
- *Town of Portola Valley*

NOTABLE PROJECT EXPERIENCE

Apple Park (Campus II) | City of Cupertino, CA

Ms. Prakash provided on and off-site plan review for multiple new structures as part of the Apple Campus 2 project. The combined projects were a total of 731,994 sq. ft.

Artisan Crossing – Multi-Family Residential Building | City of Belmont, CA

Ms. Prakash provided plan review for a new 4 story, 319,893 sq. ft., privately funded multi-family residential building over a 1 story below grade parking garage basement.

Gateway at Millbrae – Mixed Use Building | City of Millbrae, CA

Ms. Prakash provided building plan review for the construction on a new 304,531 sq.ft. 6-story mixed-use building. This building is part of a proposed development which includes construction of new residential and hotel/hospitality buildings.

Fair Oaks Commons – Affordable Housing Project | San Mateo County, CA

Ms. Prakash provided building plan review for this affordable housing project which included construction of 67 dwelling units, 51 parking spaces, lobby, mail room, utilities rooms, and an outdoor courtyard.

Amazon Mixed Use Building Tenant Improvement | City of Cupertino, CA

Ms. Prakash was a building plan reviewer for 64, 726 sq. ft. tenant improvement project which consisted of 3 floors of office space in an 8-story building.

Nanosyn Mixed Use Building Tenant Improvement | City of Hayward, CA

Ms. Prakash was a building plan reviewer for the remodel of a lab space, new HVAC structural support, and MEP associated with the improvements.

YouTube | City of San Bruno, CA

Ms. Prakash provided the review of tenant improvements for this six-story office building. Improvements involved the conversion of 196,000 sq. ft. into YouTube's new headquarters.

Thomas **Pallinger**

Senior Plans Examiner

LICENSES & CERTIFICATIONS

Certified California Residential Building Plans Examiner

Certified California Residential Building Inspector

Certified California Residential Plumbing Inspector

Certified California Residential Mechanical Inspector

Certified California Residential Electrical Inspector

ICC 8275248

Safety Assessment Program, SAPC | 78530

Contractor's General B License and Electrical Classification | 652060 (inactive as of 8/1/16)

Mr. Pallinger has over 35 years of experience in the construction field with extensive work experience as a general contractor and building inspector. He brings to the position not only extensive knowledge of the California building codes, applications and practices, but also the expertise gained from hands on construction experience in multiple trade disciplines. He exhibits excellent communication skills in performance of both plan review and inspection work and is adept at working with design professionals to address complex building regulations and code requirements.

RELEVANT EXPERIENCE

Building Inspector | CSG Client Agencies

Mr. Pallinger provides both residential and commercial building inspection services for CSG client agencies, and is currently serving the City of Manteca.

Building Inspector II/III | City of Fairfield, CA

Mr. Pallinger conducted both residential and commercial building inspections for the City of Fairfield.

Building Inspector II / Plans Examiner | Placer County, CA

Mr. Pallinger conducted residential and commercial building inspections as well as plan checks on residential, commercial and multi-family dwellings. In addition, he reviewed fire sprinkler systems and hydraulic calculations for code compliance, conducted safety assessment evaluations on dilapidated and disaster damaged structures through the California Office of Emergency Services, holds in-depth knowledge of the California Energy Code including residential and non-residential compliance manuals, and is knowledgeable of the Tahoe Regional Planning Association rules and regulations and Placer County MOU's for the Lake Tahoe region.

General and Electrical Contractor | Castlewood Construction, Auburn, CA

Mr. Pallinger estimated, scheduled, monitored and inspected all work from conceptual design through project completion, ensured that all work met state and local building code requirements, supervised and managed all construction trades to ensure conformance with plan specifications, and reviewed all architectural drawings and obtained/scheduled all required building permits and inspections.

Superintendent | Alpine Construction, Napa, CA

Mr. Pallinger oversaw all aspects of daily construction activities from employees and subcontractors. He directed all aspects of the building process on both residential and commercial renovation projects including site preparation, foundations, erecting framework, cut and stack roofs and truss systems, finishing carpentry, plumbing, electrical, mechanical and drywall.

Randy **Brumley** ME

Senior Plan Check Engineer

LICENSES & CERTIFICATIONS

Professional Mechanical Engineer
State of California | M39959

ICC Certified Mechanical Plans Examiner

EDUCATION

Bachelor of Science, Mechanical and Aeronautical Engineering, University of California, Davis | Davis, CA

Mr. Brumley is a Senior Plan Check Engineer and will be providing mechanical, electrical, and plumbing plan review for CSG and its clients. He brings over 20 years of engineering experience. He is an innovative problem solver with extensive experience in complex industrial products, creative design, and development. To this role he brings expertise in design engineering and integration, and excellent interpersonal and communication skills.

RELEVANT EXPERIENCE

Mechanical Plans Examiner | Consulting Firm, Roseville, CA
Mr. Brumley performed building plan examinations to ensure commercial and residential building projects complied with Federal, State, and local rules, laws, and regulations. He provided technical expertise for mechanical, plumbing, energy, and green codes. Mr. Brumley also acted as an instructor for building officials, plans examiners, and inspectors for local chapters and established positive relationships with local agencies, City staff, and the public.

Mechanical Engineer | California Energy Commission, Sacramento, CA
Mr. Brumley reviewed, evaluated, and verified Acceptance Test Technician Certification Provider (ATTCP) applications. He conducted oversight of approved ATTCPs and their programs to ensure continued compliance to Title 24 for the installation and maintenance of mechanical systems for nonresidential buildings. He also worked within a team to develop program requirements, refined acceptance test procedures and updated building energy efficiency standards.

Senior Engineer | Aerojet Rocketdyne, Rancho Cordova, CA
Mr. Brumley provided technical expertise for industrial product development. He managed project scope, schedule, and quality while concurrently controlling costs to meet budget requirements. He directed multi-discipline team of engineers including mechanical, composite, electrical, manufacturing, systems, and testing.

Mr. Brumley also served as Lead Designer Engineer for warhead applications. He maintained design performance requirements and trained and mentored colleagues.

Project Engineer | Aerojet Rocketdyne, Rancho Cordova, CA
Mr. Brumley handled product design and user interfaces, analyzed components, reviewed design merits, and reverse-engineered componentry. He reviewed manufacturing assembly processes and coordinated with Quality Assurance and Production teams to ensure production requirements and standards were met. He successfully integrated newly acquired company product lines and reduced manufacturing costs by developing and testing joint bearing strength panels.

Composite/Design Engineer | Aerojet Rocketdyne, Rancho Cordova, CA
Mr. Brumley designed composite pressure vessels and containers for industrial and military use and worked with composite materials. He ensured on-time delivery of test hardware by providing versatile engineering support and reduced tool manufacturing costs. He also improved structural analysis efficiency and time savings by designing and developing graphic user interfaces in Excel.

Member of SEAOSC Quality Assurance Committee (2007-2009)

Member of ICC Los Angeles Basin Structural Committee

SOFTWARE

CSI and EnerGov Permit Software

BlueBeam and Adobe PDF

MS Office, Risa, CMD 19, EnerCalc, RetainPro, Notability, Good Notes

Mr. Lhotsky brings expertise to CSG and its client agencies gained from more than 40 years of municipal building department and private sector experience. Most recently, Mr. Lhotsky served the City of Glendale Building and Safety division as Deputy Building Official, filling a crucial role after the unforeseen retirement of the existing Building Official during the COVID-19 pandemic. Other notable agency experience includes inspection and plan review services with the Cities of Newport Beach and Santa Clarita. In addition to his public agency experience, he has also been highly successful in the private sector, having launched a successful career in structural engineering and building code compliance.

NOTABLE PUBLIC AGENCY EXPERIENCE

Deputy Building Official | City of Glendale, CA

Under the direct supervision of Building Official, Mr. Lhotsky performed direct supervision and management of the plan check group that consisted of eight staff members. This included monitoring production, quality, and consistency of plan review—in addition to training, mentoring, and evaluating staff. In this role, Mr. Lhotsky's functions also included:

- *Complex code interpretations, review and approval of building code modifications.*
- *Assisting staff with challenging plan reviews, resolving conflicts between customers and City staff.*
- *Acted as a liaison regarding policies and requirements with other departments to maintain a smooth flow of Building & Safety operations*
- *Monitored the creation and development of new Building & Safety information bulletins, standard plan check lists, and policy memorandums.*

Acting Building Official | City of Glendale, CA

After an unforeseen retirement by the existing Building Official during the COVID-19 pandemic, Mr. Lhotsky assumed the role of Acting Building Official and was instrumental in maintaining division operations. Working under the direction of the division head and Permit Services Administrator, Mr. Lhotsky's duties included the following:

- *Directly supervised plan check group and indirectly supervised permit technician and inspection groups*
- *Assisted City Attorney's office with City code enforcement cases and represented the City at depositions and in court as an expert witness*
- *Assisted City Attorney's office and Planning Division with preparation of City ordinances for City Council's review and approved implementations of policies related to SB 9 (lot splits, ADU ordinances and approval process), EVCS policy on fast-track approval, and SB 13 requested delay in enforcement.*
- *Collaborated with Sustainability Commission and City Attorney's office to create the City's first reach code requirement for all new buildings (including all electrification, increase in EVCS facilities and required photovoltaic systems on all new commercial and multifamily buildings).*
- *Supervising participant in City's team for the implementation of a new land management software (EnterGov), and the integration of key City departments to establish the City's first virtual permit services center.*

Principal Building Code Specialist | City of Glendale, CA

In this role, Mr. Lhotsky served as plan check supervisor and was responsible for front counter plan check operations that included four staff members. He also assigned projects, mentored/trained staff, resolved conflicts/disagreements, and monitored production/quality of plan checks and staff interactions.

Assistant Plan Check Engineer | City of Santa Clarita

As Assistant Plan Check Engineer, Mr. Lhotsky was responsible for the review of fire and life safety, accessibility, energy, and structural design compliance to the 2007 California Title 24 Codes, City ordinances, and policies.

Bounmy **Soumountha** SE, CBO

Senior Structural Engineer

LICENSES & CERTIFICATIONS

Professional Civil Engineer

Certified Building Official

EDUCATION

Master of Science
Structural Engineering
Washington University | St. Louis, MO

Bachelor of Science, Civil Engineering
UC Berkeley| Berkeley, CA

A.S., Engineering
Santa Rosa Junior College
Santa Rosa, CA

PROFESSIONAL AFFILIATIONS

Structural Engineers' Association of Northern California

California Building Officials

Mr. Soumountha has over 40 years of experience in civil and structural engineering analysis, public works engineering and land development, project development review and approval, and building inspection plan review and permit services. He managed hundreds of projects in his 22 years of service at the City of Santa Clara including the 49ers Stadium, large development projects such as the Gallery at Central Park consisting of 500 plus single family and multifamily buildings and other projects worth more than 200 million dollars of all complexities in terms of fire and life safety and structural engineering systems.

RELEVANT EXPERIENCE

Permit Service Manager | City of Santa Clara, CA

Prior to joining CSG, Mr. Soumountha worked as a Permit Service Manager and managed 3 in-house and outside consultant Plan Check Engineers who were licensed civil and structural engineers, 3 Permit Technicians, and 1 Customers' Representative. He supported and acted on behalf of the Building Official for all functions as assigned or in the Building Official's absence.

Senior Plans Examiner | City of Santa Clara, CA

Mr. Soumountha served as Senior Plans Examiner where he verified, reviewed, inspected and approved construction of all commercial, industrial, and residential structures in the City of Santa Clara, with an annual construction volume valued at over $500 million. His other responsibilities included: comprehensive review of all structural and life-safety aspects of building construction; providing code interpretation to inspection staff, architects and contractors; responding to city council inquiries in matters of urban planning and zoning issues; and assisting in supervision of Building Inspection staff as assigned.

City Engineer I & II | City of Santa Clara, CA

As City Engineer II, Mr. Soumountha supervised the Title Section of the Land and Property Division of the Engineering Department. Some of his responsibilities included:

- Assisting in the formation of assessment districts and redistribution of surplus assessment district funds
- Reviewing and processing agreements for developments for City departments such as Silicon Valley Powers (the City Electric Department)
- Permitting encroachments into public easements and right-of-ways
- Parcel and final maps inspection for the legal subdivision of private and public properties
- Preparing the Engineering Department operating budget for 5 years

Structural Engineering Designer and Code Consultant | Various Jurisdictions

Mr. Soumountha provided structural analysis and design, consultation on construction issues, and code consulting services for numerous projects outside of City of Santa Clara jurisdiction.

NOTABLE CSG PROJECT EXPERIENCE

Apple Park (Campus II) | City of Cupertino, CA

Mr. Soumountha has provided on and off-site plan review for multiple new structures as part of the Apple Campus 2 project. The project was 731,994 sq. ft. in total

Fremont Warm Springs Bart Station | City of Cupertino, CA

Mr Soumountha provided structural plan review for a cable supported pedestrian bridge to cross over railroad tracks.

PRIOR PROJECT EXPERIENCE

- 49ers' Levi Stadium | 49ers' & City Stadium Agency
- 49ers' Levi Stadium Bridges | 49ers' & City Stadium Agency
- NVIDIA | City of Santa Clara, CA

Ms. Jansen is a Principal Plan Check Engineer with over 17 years of engineering experience. Ms. Jansen offers a wealth of California and Nevada Building Code knowledge and project management experience to CSG's clients. To this role, she brings leadership experience, and excellent communication, time management, and customer service skills.

RELEVANT EXPERIENCE

Consultant Plan Review Engineer / Plan Review Coordinator

Ms. Jansen reviewed building plans for compliance with the California building codes and City ordinances for both public and private commercial and residential structures for permit issuance. She also provided structural plan check for projects ranging from small non-habitable structures to complex multi-story commercial buildings. Additional responsibilities included structural plan review coordination and management throughout California and Nevada.

Associate Civil Engineer | City of Sacramento, CA

Ms. Jansen provided building and structural plan check for public and private commercial and residential structures. She also served as an intern supervisor and her responsibilities included processing expedited requests and application extensions, providing over the counter structural plan review, and assisting applicants with code questions.

Civil Engineer | Bureau of Reclamation, Sacramento, CA

Ms. Jansen prepared and reviewed designs and specifications for projects relating to dams and waterway infrastructure in the Central Valley federal waterways. She was also responsible for completing budgets, construction schedules, and inspections for the dams and infrastructures.

Temporary Project Engineer – Single Project | Syblon Reid Engineering Contractor

Ms. Jansen was responsible for general engineering, specification submittals, materials management, site management and oversight, sub-contractor organization, and payroll assistance for a 5-million-dollar project.

Assistant Engineer | Dokken Engineering, Inc., Folsom, CA

Ms. Jansen was responsible for the design, analysis, detailing, specifying, research, calculations, plan check, and planning studies of moderate to complex highway infrastructure assignments.

Intern Engineer | David Evans and Associates, Inc.

Ms. Jansen's responsibilities included roadway modeling, quantities, estimating, creating project reports, utility coordination, public infrastructure design, and the design and analysis of highways and highway interchanges.

Assistant Engineer | Wood Rogers, Inc.

Ms. Jansen's tasks included project coordination, assisting with project and construction management, drafting, submittal processing, and cost estimations for subdivisions, major roadways, and parks.

Intern Engineer | Frayji Design Group

Ms. Jansen's tasks included grading improvement plans, subdivision improvement plans, cost estimations, site design, project coordination and forward planning.

To this role, she brings leadership and management experience, and excellent organizational and time management skills.

RELEVANT EXPERIENCE

Plans Examiner II | Town of Truckee, CA

Ms. Messner performed plan review for residential and commercial plans, specifications, and calculations submitted to the Building Division for structural and non-structural compliance with building codes, regulations, and ordinances. She provided information and assistance to engineers, architects, builders, and the public relating to the codes and regulations. Her responsibilities also included updating forms, checklists, informational handouts, municipal code sections and code petitions as well as training and mentoring Plans Examiner I. Ms. Messner also participated in the Town's Sustainability Committee and Energy Reach Code research.

Owner/Civil Engineer | EcoEngineering, Truckee, CA

Ms. Messner was the sole proprietor of a design and structural engineering practice which specialized in ecologically orientated residential design with an emphasis on straw bale and natural building, passive solar, and green building materials and methods. She provided service for new construction, additions, conversions, and remodels in seismically active, high snow load areas.

Cofounder/ Advisory Board/Technical Consultant | Pakistan Straw Bale and Appropriate Building (PAKSBAB)

Ms. Messner designed an affordable, climate-friendly, and locally appropriate straw bale building system to promote natural and sustainable building for marginalized families in Pakistan. Her responsibilities included organizational oversight, mentoring and training, strategic planning, design and engineering, grant and proposal writing, and presentations. She was also the principal investigator for PAKSBAB's seismic research project.

Civil Engineer | Elise Fett & Associates, Ltd., Incline Village, NV

Ms. Messner performed structural engineering calculations for residential new construction, additions, remodels, and minor commercial projects. She designed retaining walls, custom trusses, and connections and produced architectural and structural plans using AutoCAD. She also created site maps per County and Tahoe Regional Planning Agency (TRPA) coverage, BMP, and permitting requirements.

Project Engineer | Gary Davis Consulting Civil Engineers, Tahoe City, CA

Ms. Messner produced structural engineering calculations for new residences and garages, additions, remodels, retaining walls, decks, covered walkways, re-roofing projects, and docks. She also inspected foundations and framing for engineering conformance. She performed as-builts to document structural layout and coverage, and to create site maps for the TRPA.

Designer/Builder | Messner-Howlett Construction, LLC, Truckee, CA

Ms. Messner was a partner in a residential construction business. She was involved in all phases of construction for two custom houses in Tahoe Donner. She designed and drafted architectural and engineering plans. Ms. Messner was also responsible for agency processing, selecting and ordering materials, evaluating bids, and project scheduling.

Product Design/Development Engineer | Raychem Corporation, Menlo Park, CA

Ms. Messner designed, prototyped, and developed telephone related products with an emphasis on environmentally sealed indoor and outdoor connectors.

EDUCATION

Master of Structural Engineering, Andhra University Visakhapatnam, Andhra Pradesh

Bachelor of Civil Engineering, Andhra University Visakhapatnam, Andhra Pradesh

Mr. Vangala brings over 15 years of plan check experience to CSG and its clients. As Principal Plans Examiner, Mr. Vangala has a wealth of knowledge in various aspects of the California Building Codes, applying his knowledge in California building, mechanical, electrical, plumbing and energy codes, as well as OSHPD (OSHPD3). Mr. Vangala is also well versed in analyzing structural engineering aspects of all designs and calculations, evaluating test reports, and approving plans that comply with California Codes and regulations.

CSG EXPERIENCE

Principal Plans Examiner | Multiple CSG Client Agencies

Mr. Vangala has served as a Principal Plans Examiner for the following CSG client agencies:

- *City of Alameda*
- *City of Oakland*
- *City of Half Moon Bay*
- *City of Foster City*
- *City of Marina*
- *City of Cupertino*
- *City of Hayward*
- *City of Salinas*
- *City of South San Francisco*
- *City of Sunnyvale*
- *City of Redwood City*
- *City of Brisbane*
- *City of San Mateo*
- *City of El Cerrito*

CSG PROJECT EXPERIENCE

Veterans Affairs Department of Defense Outpatient Clinic | City of Marina, CA

Mr. Vangala provided complete building plan review for this integrated Department of Veterans Affairs and Department of Defense 146,000 sq. ft., three-story joint health-care clinic, the first in California. This project achieved LEED Gold certification per the LEED for Healthcare 2009 Edition.

Glen Loma Ranch Town Center Senior Apartments | City of Gilroy, CA

Mr. Vangala was project manager and provided plan review for the project involved a 73,784 sq. ft., three-story, 72-unit apartment with a total of 87 bedrooms and 72 bathrooms.

Facebook B103 Offices | City of Sunnyvale, CA

Mr. Vangala was the project manager and provided plan review for a large tenant improvement of an eight-story building for Facebook.

SoHay Mixed-Use Buildings | City of Hayward, CA

Mr. Vangala was the project manager and provided plan review for two mixed-use buildings with 36 apartments units and 10,000 sq. ft. of commercial space.

Half Moon Village Senior Housing Complex | City of Half Moon Bay, CA

Mr. Vangala provided complete building plan review services for this 115-unit affordable senior housing project.

Lincoln Centre Biomed Campus | City of Foster City, CA

Mr. Vangala provided building review of the redevelopment of an existing 280,000 sq. ft. campus into a nearly 600,000 sq. ft. biomedical and life science research campus.

Atria at Foster Square Mixed-Use Senior Housing | City of Foster City, CA

Mr. Vangala provided building plan review of this six-story new construction building. The senior living mixed-use structure includes 155 senior living units, common space, and courtyards.

Sutter Health Memorial Hospital | City of Los Banos, CA

Mr. Vangala provided building plan review of this 5,153 sq. ft. single story non-residential building with $1,286,742 valuation project.

The Promontory Student Housing at CSU Monterey Bay | City of Marina, CA

Mr. Vangala provided complete building plan review for this 270,000 sq. ft., 174-unit apartment complex.

- *City of Mill Valley*
- *Town of Los Altos Hills*
- *County of Santa Clara*
- *County of San Mateo*
- *Town of Ross*
- *Town of Colma*
- *Town of Hillsborough*

PRIOR EXPERIENCE

Permit Technician | City of San Mateo, CA

Ms. Chiu served as Permit Technician responsible for processing building permit applications; providing plan check review for non-structural over-the-counter permits; and providing information to the public regarding permit process requirements, general building codes and inspection procedures.

Assistant General Contractor | CDX Builders, San Francisco, CA

Ms. Chiu worked closely with the project manager on site to assist with construction scheduling and provide specific instructions for workers to build according to plan details and specifications. Through her work, she gained extensive exposure to construction products and techniques typically used in the industry today, (i.e. Simpson hold down, strong-tie, clips, angles, epoxy grout), special inspections (i.e. ultrasonic test on welded beams & columns, core samples on CMU walls, torque test on electrical mounts, and soil compaction test), rebar placement, concrete pour, structural framing, and interior/exterior finishes.

Summer Intern | Santos & Urrutia Structural Engineers, San Francisco, CA

Ms. Chiu worked closely with multidisciplinary teams in designing and calculating structural beams, moment frames, and generating seismic and geologic evaluation reports for the following projects:

- "Green" Emergency Housing Unit (new portable modular housing to be available throughout the United States)
- Renovation design of a 4-story existing apartment building (San Francisco)
- Structural design on a 5-story new apartment building (Burlingame)

Linh **Tran** PE, CASp

Regional Plan Check Manager

LICENSES & CERTIFICATIONS

Professional Civil Engineer
State of California | 85451

Certified Plans Examiner

EDUCATION

Master of Science, Civil Engineering
San Jose State University, San Jose, CA

Bachelor of Science, Civil Engineering
San Jose State University, San Jose, CA

Mr. Tran is a Senior Plan Check Engineer with over 10 years of engineering experience. Mr. Tran offers a wealth of California Building Code knowledge to CSG's clients. For CSG, he examines plans of single and multi-family projects to determine compliance with the provisions of the California Building, Mechanical, Electrical, Plumbing, Energy, and Green Building Codes.

RELEVANT JURISDICTIONAL EXPERIENCE

Plan Check Engineer | Multiple CSG Client Jurisdictions

Mr. Tran has provided on-site plan check engineer services for multiple jurisdictions in California. He reviewed a variety of projects including residential additions, new construction, and commercial tenant improvements. A sampling of jurisdictions Mr. Linh provided services for are:

- *City of Scotts Valley*
- *City of Gilroy*

NOTABLE PROJECT EXPERIENCE

Office Tenant Improvement | City of South San Francisco, CA

Mr. Tran provided plan review for a tenant improvement of a 43,668 SF office building with a basement and two-stories. The first floor included food services, a gym, and a full-functioning office. The second floor included a full-functioning gym and locker room. And the basement level included a locker room and spa.

Office Tenant Improvement | City of Alameda, CA

Mr. Tran provided plan review of a lower level addition to a three-story building of five residential units, approximately 4,400 square feet, including replacement of existing foundation with new retaining walls.

Camden Place | City of Hayward, CA

Mr. Tran master plan submittal for new tract homes of four different models ranging from 2,300 square feet to 2,900 square feet.

614 Grand Ave | City of South San Francisco, CA

Mr. Tran conducted plan review for a new three-story building of two residential units, approximately 3,300 square feet, with covered parking spaces at the bottom level.

27640 Sherlock Road | Town of Los Altos, CA

Mr Tran performed plan review of first and second floor additions with complete remodel of existing dwelling unit utilizing Wildland Urban Interface in high fire hazard zone. The size of the structure was approximately 5,500 square feet.

739 Clearfield Drive | City of Milbrae, CA

Mr. Tran reviewed plans for a two-story addition with internal remodel utilizing conventional construction.

2135 Leland Avenue | City of Mountain View, CA

Mr. Tran provided plan review of a demolished existing home to building a new one-story house of approximately 3,300 square feet.

Ms. Wong serves as a Principal Plans Examiner in the Plan Review Division of CSG Consultants. Her expertise includes enforcement of Building Codes for several jurisdictions throughout California. Her experience in complex commercial and residential structures provides CSG and our clients with the highest quality plan review.

Prior to her employment with CSG, Ms. Wong developed her skills as a Design Engineer for a structural engineering firm in San Francisco. She was instrumental in developing a wide variety of engineering projects including lateral analysis and design, design of concrete, masonry, steel and wood building elements, design of deep shoring and underpinning systems and preparation of structural assessment reports. Ms. Wong's field work has included building investigations, pre-construction damage surveys and special inspection of deep shoring and underpinning systems.

RELEVANT JURISDICTIONAL EXPERIENCE

Principal Plans Examiner | Multiple CSG Client Agencies

Ms. Wong has provided plan review services to client agencies that include, but are not limited to:

- *City of Colma*
- *City of Hayward*
- *City of Cupertino*
- *City of Marina*
- *City of Carmel by the Sea*
- *City of San Bruno*
- *City of S. San Francisco*
- *County of San Mateo*
- *City of Mountain View*

NOTABLE PROJECT EXPERIENCE

Genentech Development | City of South San Francisco, CA

Ms. Wong has served as the main point of contact between CSG and Genentech for the past 11 years. She provides plan review services (building, mechanical, electrical, plumbing, energy and CALGreen) for all buildings (~65 count) on Genentech's South San Francisco campus.

New Shell Building | City of Hayward, CA

Ms. Wong performed review for this new 1-story shell building of 42,098 sq.ft. with civil improvements (Phase 1).

El Granada Fire Station | County of San Mateo, CA

Ms. Wong performed review of this new single story 12,425 sq.ft. essential services fire station including 7 bunk rooms, 3 drive through apparatus bays, kitchen & dining room, day room, training room, offices, turnouts, fitness room, extractor, laundry, storage room, 72 hour run generator & fueling tank, and trash and recycle containment.

Apple Park (Campus II) | City of Cupertino, CA

Ms. Wong performed review for the new visitor's center and two (2) new reception buildings (named Wolfe and Tantau).

City of San Mateo Regional Operational Center | County of San Mateo, CA

Ms. Wong performed review for new 2 story 35,000 square feet building.

Shops at the Dunes | City of Marina, CA

Ms. Wong performed review for two new buildings with restaurants "Chipotle" and "Deli Delicious".

Southland Mall | City of Hayward, CA

Ms. Wong performed review of tenant improvements for the Southland Mall.

Residential Development | City of Mountain View, CA

Ms. Wong performed review for new three (3) stories 6 units residential development.

Lily Hallett CASp

Associate Plans Examiner

LICENSES & CERTIFICATIONS

Certified Access Specialist | CASp 363

Building Plans Examiner | ICC 8077385

EDUCATION

B.S. Interior Architecture and Design, San Jose State University | San Jose, CA

Ms. Hallett provides building plan review and CASp review services for CSG and its clients. She has over 19 years of experience in construction design and space planning. She is a highly motivated industry professional with extensive knowledge of space planning, plan review for code compliance, and accessibility issues. In performing plan review services for her clients, Ms. Hallett leverages the skills she has gained throughout her prior planning and design work experience.

RELEVANT EXPERIENCE

Building Plans Examiner | CSG Client Agencies

Ms. Hallett is a building plans examiner for CSG Consultants and its client agencies. She is responsible for all aspects of residential building plan review projects including mechanical, electrical, and plumbing reviews.

Designer | Steelwave CDS, San Mateo, CA

Ms. Hallett had an active role in the preparation of space planning and programing and performed field surveys for existing conditions to generate accurate as-built plans. She provided code search and analysis for egress and accessibility compliance prior to developing construction drawings. Additionally, she coordinated with MEP engineers, reviewed constructability with construction project managers as well as coordinated with agency plan reviewers regarding the building permit process.

Designer | Lily Hallett Design, Half Moon Bay, CA

As a designer, Ms. Hallett met with clients to evaluate space requirements, needs and budgets. She also reviewed preliminary plans and developed construction designs for clients. She coordinated with other professionals, such as contractors and MEP engineers to ensure project success. Ms. Hallett also performed CASp inspections for client projects and was also hired by homeowners to perform project surveys to check for any accessibility issues before starting projects.

Designer/Space Planner | SJ Sung and Associates, San Mateo, CA

Ms. Hallett advised clients on interior design factors such as planning, layout and utilization of furnishings or equipment, and color coordination. Her responsibilities also included reviewing shop drawings and using computer-aided drafting (CAD) and related software to produce space plans and construction documents.

Mike Leach CBO

Senior Building Inspector

LICENSES & CERTIFICATIONS

Certified Building Official CB
Building Plans Examiner B3
Building Code Specialist B8
Commercial Combination Inspector C5
Electrical Inspector E5
Combination Inspector C8
Mechanical Inspector M5
Plumbing Inspector P5
Commercial Electrical Inspector E2
Building Inspector B5
Residential Inspector E1

EDUCATION

AA Degree in Construction Technology
Ventura College
Ventura, CA

RELEVANT EXPERIENCE

Building Official | Multiple CSG Clients

Mr. Leach provides Deputy Building Official Services for the City of Elk Grove where he provides administrative management, plan review, and inspection services which include combination inspections for single family residential, commercial, institutional, industrial, and multi-family structures. In addition, Mike has provided services for several CSG clients including Cities of Stockton and Mill Valley, County of Placer, and throughout the County of Napa. Duties include inspections of new residential, commercial, and industrial as well as remodels / additions and tenant improvements to both residential and commercial occupancies.

Chief Building Official | City of Santa Paula, CA

Mr. Leach was responsible for the overall administration and supervision of the Building and Safety and Code Enforcement Departments. Mr. Leach oversaw staff, payroll, evaluations, and customer service for these departments. Some of his responsibilities included review of plans for code compliance prior to permit issuance, collaboration with other city departments to expedite developments, directed the implementation for the recent fee update, code adoption and budget, and helped design and implement a COVID-19 permit issuance and inspection program.

Supervising Inspector | City of Santa Paula, CA

Mr. Leach was responsible for the day-to-day inspections performed by field inspection staff and reporting to the Building Official. Mr. Leach tasks included acting as a lead inspector on more complex projects such as the City's Water recycling Facility, and a multi-story apartment complex with a parking garage. He also performed a limited amount of plan review on regular, light-framed construction.

Building Inspector II | City of Santa Paula, CA

Mr. Leach was responsible both commercial and industrial area inspections under the direction of the Supervising Inspector for new construction. He was also responsible for code enforcement in commercial and industrial properties and enforcement of uninhabitable residential dwellings and property maintenance.

EDUCATION

ICC/UBC Certified Building Inspector | Linhart, Peterson, Powers Associates (LP2A) Training Institute (2003)
CSG Academy | Newman, CA

General Education
American River College | North Highlands, CA

Mr. Sandoval is an ICC certified building inspector who brings more than 40 years of building industry experience to CSG and its clients. With more than 20 years of building inspection experience alone, he has developed a deep knowledge base regarding building policies and procedures, codes associated with residential/commercial/multifamily projects, and working with contractors to resolve code compliance issues. During his career, Mr. Sandoval has provided building inspection services for agencies that include the Cities of Oroville, Desert Hot Springs, Elk Grove, Sacramento, Lodi and Yuba City.

CSG EXPERIENCE

Senior Building Inspector | City of Elk Grove, CA
As a CSG Building Inspector, Mr. Sandoval provides inspection services for the City of Elk Grove, inspecting residential, commercial, and multifamily structures.

PRIOR EXPERIENCE

Building Inspector | Interwest
Mr. Sandoval served as a building inspector for Interwest for more than five years, providing inspection services to client agencies.

Building Inspector | City of Oroville, CA
Mr. Sandoval served as a building inspector for the City of Oroville for nearly 10 years.

Building Inspector | Willdan Engineering
Mr. Sandoval served as a building inspector for Wildan Engineering.

Senior Building Inspector | City of Desert Hot Springs, CA
Mr. Sandoval was promoted to Senior Building Inspector with supervisory duties during his time serving the City.

ADDITIONAL INDUSTRY EXPERIENCE

Throughout Mr. Sandoval's 40-year career in the building industry, he has worked in a variety of roles that include the following:

- **Business Owner** – Home Inspector (Grass Valley, CA)
- **Drywall Regional Manager** – Quality Drywall (Temecula, CA)
- **Drywall Superintendent** – WallDesign, Inc. (Irvine, CA)
- **Framing Contractor** – MWB Framing Contractors (Rocklin, CA)
- **Drywall Foreman** – Sierra Wes Drywall (Loomis, CA)

Wayne **Carvalho**

Principal Planner

EDUCATION

Master of Public Administration
California State University, Long Beach
School of Public Policy and Administration

Bachelor of Arts
University of California, Irvine
Environmental Health and Planning
School of Social Ecology

Mr. Carvalho serves as a Senior Planner for CSG and its clients. He has over twenty-seven years of Community Development experience with local municipalities including Current Planning, Advance Planning and Code Enforcement Divisions. His work has included supervising Planning staff and Zoning Counter Operations and he has also facilitated the processing of project entitlement projects to Planning Commission and City Council. He has provided private planning consultative services for land use entitlements and project development, as well as contract planning services for governmental agencies.

RELEVANT EXPERIENCE

Principal | Carvalho & Associates
Mr. Carvalho offered Land Use/Planning Consultant services where he coordinated development projects for private clients including submittal and monitoring of entitlement applications through governmental agencies. He provided clients with land use feasibility studies consisting of conceptual site plan options and zoning conformance review. Additionally, he supplied contract planning services to cities.

Senior Planner |City of Brea
Mr. Carvalho processed planning entitlement applications for various development projects. He also supplied staff support and zoning information to business owners and residents as well as prepared staff reports and represented staff at Planning Commission and Council Committees. He represented city staff in regional organizations including OCCOG.

Department Specialist/Associate Planner |City of Huntington Beach, Planning Division
Mr. Carvalho processed various Planning entitlement applications including General Plan Amendments, Zone Changes, Environmental Impact Reports, Environmental Assessments (Mitigated Negative Declarations), Specific Plans, Master Plans, Tentative Parcel and Tract Maps, Final Maps, Conditional Use Permits, Variances, etc. He represented staff and presented reports to City Council, Planning Commission, Zoning Administrator and other boards and commissions. He coordinated and supplied all plan check review services for the Planning Division, including Building, Zoning, Grading, and Landscaping Plan Check submittals. Mr. Carvalho also supervised 6-8 planning staff and coordinated plan check review. He was the staff liaison to the City's Design Review Board and Environmental Assessment Committee and processed City-sponsored applications to LAFCO and California Coastal Commission.

Senior Project Manager |Civic Solutions Inc.
Mr. Carvalho provided entitlement case processing and plan check services for the City of Anaheim, Planning Services Division. He facilitated environmental (CEQA) review with on-call consultants for preparation of Draft EIRs and Mitigated Negative Declarations. He is proficient in electronic plan check software including Bluebeam, E-PlanSoft and Accela permit software systems.

Contract Planner |RRM Design Group
Mr. Carvalho supplied entitlement case processing and plan check services for the City of Anaheim, Planning Services Division.

Contract Planner |Lilley Planning Group
Mr. Carvalho provided government clients with Planning Services ranging from entitlement processing/case planning, plan check coordination, special projects including preparation of Ordinances, Housing Element updates, Specific Plans, and amendments to General Plans. He was responsible for facilitating Environmental (CEQA) review and processing for all major projects. He coordinated with on-call consultants for the preparation of CEQA compliance documents.

Indiana State University
| Terre Haute, IN

Mr. Kaderi has over 30 years of civil engineering, land development, and planning and development project management experience. His land development experience includes, but is not limited to plan checking, code compliance, and understanding of regional public agency regulations and requirements.

For CSG, Mr. Kaderi has provided development plan review for the Cities of Mountain View, Belmont and Dublin, as well as onsite review for the City of Hayward, Gilroy, and Monte Sereno. Prior to joining CSG, Mr. Kaderi served as an Assistant Civil Engineer to the City of Milpitas for 25 years. For Milpitas, Mr. Kaderi provided plan check of developments and served as the floodplain manager.

RELEVANT EXPERIENCE

Land Development Staff Augmentation | City of Gilroy, CA

Mr. Kaderi performs onsite land development review for the City's development projects. His general duties included providing Conditions of Approval for Planning projects and plan check review of all major and minor private development (residential and commercial) including but not limited to grading plans, public improvement plans, utility improvement plans, tenant improvement plans, and plot plans. Review and process Tentative Maps, Parcel Maps, and Final Maps. Mr. Kaderi has been involved in processing improvement agreements, writing staff report for project approval, processing reimbursement agreements, and notice of completions. Review and approve major tract on-site and off-site improvements. Notable projects Mr. Kaderi was involved in includeded:

- **Hoey North Tract Development** –80Unit hillside single family residential development with Glen Loma Ranch development area.
- **Town Center Development at Glen Loma Ranch** – Mixed development of affordable apartment, single family residential, fire station and community park.
- **Miller Avenue realignment** – Realignment of major collector and related utilities to accommodate Glen Loma Ranch development area.
- **Heartland Garden Tract Development** – Process development of single-family residential tracts within Hecker Pass development area.
- **Heartland Triangle** - Process development of a single-family residential tract within Hecker Pass development area.
- **Harvest Park Tract Development** - Process development of single-family residential tracts within Hecker Pass development area.
- **Hecker Pass Trail and Bike Staging Park** – Process development of the Hecker Pass bike trail along HWY-152 frontage and a community bike staging park.
- **NISSAN Dealership** – Process development of commercial parcel for Nissan dealership entailing vacation of public street and merging of the parcels to accommodate development.

Land Development Staff Augmentation | City of Hayward, CA

Mr. Kaderi performed on-site plan review for reviewing and approving site permits, building permits, and encroachment permits. His general duties included providing plan check and review of all major and minor private developments (residential, commercial, and industrial) including but not limited to tentative maps, tract maps, parcel maps, legal descriptions, grading plans, public improvement plans, on-site improvement plans, tenant improvement plans, and plot plans. Review and provide Engineering Conditions of Approvals for all development projects.

Mr. Kaderi also reviewed and approved pre-construction Storm Water Pollution Prevention Plan (SWPPP) and post-construction Storm Water Control Plans (C.3).

Mr. Myers has over 22 years of experience working as a Fire Code official, during which time he has gained extensive knowledge and expertise in understanding, interpreting and enforcing Fire and Building related codes. He has served on various code development committees and is experienced with the code development process. He applies the skills and knowledge developed through his experience, and is adept at facilitating the development process within reason while maintaining the safety of the public as intended.

RELEVANT EXPERIENCE

Fire Marshal | Chico Fire Rescue, Chico, CA

Mr. Myers managed the Fire Prevention Bureau, providing public education, code interpretation and enforcement, and fire investigation services to the City of Chico. He also performed plan review for fire alarm systems, automatic fire sprinkler systems, fixed suppression systems and various code-related activities requiring a Fire Code permit. Mr. Myers assisted in the development and implementation of electronic inspection and plan review processes. In addition, he oversaw the successful application and implementation of a FEMA grant for public education, successfully obtaining a Fire Prevention Education Trailer and a Bullex Fire Extinguisher Training Prop.

Associate Instructor | Butte Community College. Oroville, CA

Mr. Myers teaches “Fundamentals of Fire Prevention” for the Fire Science program at Butte College.

Fire Prevention Inspector | Chico Fire-Rescue, Chico, CA

As a Fire Prevention Inspector, Mr. Myers enforced Fire and Building Codes in both permitted and non-permitted occupancies. He developed and implemented public education programs utilizing the concept of education through characterization (Fire Clown) for elementary school children. He also developed investigative skills for determining the origin and cause of fires and processing information obtained for prosecution of arson crimes.

Fire Fighter | Chico Fire-Rescue, Chico, CA

Mr. Myers routinely responded to and mitigated emergencies as well as maintained dexterity as a trained firefighter.

Past President Sacramento Regional Fire Prevention Officer's Association

Past President Sacramento Valley Fire Prevention Officer's Association

Northern California Fire Prevention Officer's Association

Past Vice President Solano Napa Fire Chief's Association, Fire Prevention Section

Liaison to Napa County Planning Commission

Ms. Easter has over 35 years of experience in the fire services field. She has served in a variety of fire prevention capacities, held positions of increasing responsibility, and is highly knowledgeable of current codes and procedures. She is adept at identifying fire safety hazards and recommending corrective measures – applying the knowledge developed through her extensive experience.

RELEVANT EXPERIENCE

Fire Inspector II/ Fire Investigator | Cosumnes Fire Department, Elk Grove, CA
As a Fire Inspector, Ms. Easter's responsibilities included reviewing plans and specifications of commercial and residential projects and fire alarm systems, as well as participating in pre-construction conferences with contractors, homeowners, developers, City and County staff. She also tracked, prioritized, and managed fire and life safety submittals utilizing the Permits Plus database.

Fire and Life Safety Officer II | State of California Division of State Architect, Sacramento, CA
Ms. Easter tracked, prioritized, and managed fire and life safety submittals utilizing the e-Tracker database. She also addressed questions from design professional related to fire code and life safety.

Fire Prevention Specialist II | California Department of Forestry and Fire Protection, Sonoma-Lake-Napa Unit, CA
As a Fire Prevention Specialist, Ms. Easter enforced Fire Codes and Regulations and reviewed building, sprinkler and fire alarm systems plans. She also served as an instructor in the Mini JAC Academy and as a liaison with the State Fire Marshal's Office.

Deputy State Fire Marshal | California Department of Forestry and Fire Protection, State Fire Marshal's Office
Ms. Easter's tasks included preparing comprehensive reports and correspondence and conducting Fire and Life Safety inspections for compliance. She also applied and implemented Fire Codes and Regulations, and was responsible for fire plan review of buildings and fire protection systems.

Fire Inspector II | Sacramento Army Depot Fire Department, Sacramento, CA
As a Fire Inspector, Ms. Easter provided Emergency Service Response and instructed Fire Prevention and First Aid classes for Army personnel.

Fire Prevention Assistant | California Department of Forestry and Fire Protection, Nevada-Yuba-Placer Unit
Ms. Easter accumulated statistical data and performed budget management. She also managed the Fire Information Center, and developed Fire Prevention and Life Safety Exhibits. She was also responsible for training and supervising volunteers.

Mr. Itson serves as a fire services specialist for CSG and its client agencies. He has over 25 years of experience in the fire services field. Mr. Itson has served in a variety of fire prevention capacities, held positions of increasing responsibility, and is highly knowledgeable of current codes and procedures.

RELEVANT EXPERIENCE

Fire Services Specialist | Multiple CSG Client Agencies

Mr. Itson has provided plan review services for a number of CSG's clients including the Cities of Tracy, Modesto, and Ceres as well as over-the-counter plan review for the City of Stockton. In addition, he has performed inspections for the Cities of Tracy, Ceres and Dos Palos.

Fire Inspector III | Merced County Fire Department

Mr. Itson conducted plan review and construction inspections of commercial/industrial buildings, and sprinkler and fire alarm systems, and performed code enforcement activities related to local, State, fire and life safety codes and ordinances. In addition, he conducted annual license inspections of day care homes, pre-schools and mental health care institutions ensuring compliance of these buildings with their intended use and with Title 19 of the State Administrative Code.

Campus Fire Marshal (AHJ) | University of California, Berkeley and University of California, San Francisco—Campus and Medical Center

Mr. Itson supervised Deputy Fire Marshals, provided direction to Department Safety Advisors, and acted as a representative of the California State Fire Marshal (by MOU) in enforcement of State rules and regulations concerning fire and life safety. Other duties included conducting plan review and construction inspections at OSFM regulated occupancies as well as OSHPD regulated occupancies. He chaired the Medical Center Fire and Life Safety committee and represented UCSF Medical Center as Fire/Life Safety manager in Joint Commission and California DPH issues. Mr. Itson also supervised fire alarm and fire sprinkler system testing, and completed all State required inspections and reports. In addition, he provided on-going training to staff and students, represented the universities in meetings, and served as a liaison with local authorities.

Various Positions | CAL FIRE, Office of the State Fire Marshal

Mr. Itson served the Office of the State Fire Marshal in positions ranging from **Division Chief** to **Deputy State Fire Marshal**. As a Division Chief for the San Benito–Monterey Unit, Mr. Itson managed financial, personnel, and administrative functions, as well as the Law Enforcement / Fire Prevention Bureau, and supervised Emergency Command Center and Training Bureau Battalion Chiefs. He also authored the Monterey County Fire Plan.

As Battalion Chief and Department Fire Marshal/AHJ, Mr. Itson supervised members of the Law Enforcement/Fire Prevention Bureau; approved all fire prevention, public education and fire inspection/engineering activities; performed detailed plan review and construction inspections; and conducted detailed criminal and internal investigations.

As Captain/Investigator/Fire Prevention Officer for CAL FIRE Santa Clara Unit, Mr. Itson authored the Unit Fire Plan, conducted over 100 fire investigations, and acted as the lead Public Information Officer for CAL FIRE in the San Francisco Bay Area. He also founded the "Diablo" FireSafe Council to help citizens of Alameda and Contra Costa Counties develop fire safe communities.

As a Deputy State Fire Marshal, Mr. Itson's responsibilities included reviewing plans and performing construction inspections on State properties. He was assigned as University Fire Marshal at the University of California, San Francisco where he provided on-site plan review and field inspection of large construction projects at the Medical Center and Campus. Mr. Itson was also assigned as University Fire Marshal for California State University, Monterey Bay and was an instrumental in the successful construction and conversion of the Fort Ord Army Base to the new CSUMB Campus. In addition, he performed detailed plan review and construction inspections at the University of California, Berkeley.

Ms. Holt is a Code Enforcement Manager for CSG Consultants and its public agency clients. Officer Holt has over 25 years of agency and special district experience, serving in a variety of code enforcement, public health, monitoring, and fire capacities. Ms. Holt is widely credentialed; an effective team member and collaborator across departments, agencies and the public; developer of clear, concise and accurate reports, and brings a strategic mindset in delivering solutions for clients. Ms. Holt is perpetually in pursuit expanding her knowledge and training, and elevating the profession and colleagues.

RELEVANT JURISDICTIONAL EXPERIENCE

Code Enforcement Officer | Multiple CSG Client Agencies

Ms. Holt performed comprehensive code enforcement services as well as assisted with targeted programs including vending enforcement, massage ordinance, program review, STR (short-term rental), C4 Storm Water Inspections at commercial and industrial facilities, and provides council updates and presentations. She has provided code enforcement services the following agencies:

- *City of Campbell*
- *City of Half Moon Bay*
- *City of Hercules*
- *City of Larkspur*
- *City of Livingston*
- *City of Los Banos*
- *City of Millbrae*
- *City of Newark*
- *City of Oakdale*
- *City of Rocklin*
- *City of San Rafael*
- *City of Santa Cruz*
- *City of Sausalito*
- *City of Seaside*
- *Town of Colma*
- *Town of Loomis*
- *Town of Portola Valley*
- *County of Marin*
- *County of Ventura*
- *County San Joaquin*

CSG Code Enforcement Training Officer | City of Gustine, CA

Ms. Holt served as the training officer for new staff in the City of Gustine.

CSG Code Enforcement Supervisor | City of Modesto, CA

Ms. Holt served as the acting Supervisor for staff in the City of Modesto.

ADDITIONAL RELATED EXPERIENCE

Water Operator | Yolo County Flood Control, CA

Ms. Holt served as Water Operator ensuring distribution to growers during irrigation season, including water usage and flow calculation. Other responsibilities included setting up SOP's for water quality testing and written protocols (e.g., calibration) for water quality sensors and collection and setting up SCADA (Supervisory Control and Data Acquisition) system.

Fire Fighter | Vacaville Fire Protection District, CA

In addition to responding to fire calls, Ms. Holt assisted in district functions, outreach, recruit training, sponsored events, OES responses; equipment upkeep; and report writing.

Vector Control Technician | City of Berkeley, CA

Ms. Holt's work included maintaining health and safety conditions within the City utilizing local, state, and federal laws. This included providing response to calls for service about sewage, rodents, insects, raccoons (and other wildlife), abandoned/inoperable vehicles, vegetation, mold, and other health-related concerns.

Vector Biologist | Alameda County Mosquito Abatement, CA

Ms. Holt increased coordination between local agencies and businesses within her assigned zone, through outreach, presentations, and education at community events, fairs, and schools, in addition to source management and enforcement of breeding sources.

Review and approve major tract on-site and off-site improvements. Notable projects Mr. Kaderi was involved in includeded:

- **Hoey North Tract Development** –80Unit hillside single family residential development with Glen Loma Ranch development area.
- **Town Center Development at Glen Loma Ranch** – Mixed development of affordable apartment, single family residential, fire station and community park.
- **Miller Avenue realignment** – Realignment of major collector and related utilities to accommodate Glen Loma Ranch development area.
- **Heartland Garden Tract Development** – Process development of single-family residential tracts within Hecker Pass development area.
- **Heartland Triangle** - Process development of a single-family residential tract within Hecker Pass development area.
- **Harvest Park Tract Development** - Process development of single-family residential tracts within Hecker Pass development area.
- **Hecker Pass Trail and Bike Staging Park** – Process development of the Hecker Pass bike trail along HWY-152 frontage and a community bike staging park.
- **NISSAN Dealership** – Process development of commercial parcel for Nissan dealership entailing vacation of public street and merging of the parcels to accommodate development.

Land Development Staff Augmentation | City of Hayward, CA

Mr. Kaderi performed on-site plan review for reviewing and approving site permits, building permits, and encroachment permits. His general duties included providing plan check and review of all major and minor private developments (residential, commercial, and industrial) including but not limited to tentative maps, tract maps, parcel maps, legal descriptions, grading plans, public improvement plans, on-site improvement plans, tenant improvement plans, and plot plans. Review and provide Engineering Conditions of Approvals for all development projects.

Mr. Kaderi also reviewed and approved pre-construction Storm Water Pollution Prevention Plan (SWPPP) and post-construction Storm Water Control Plans (C.3).

Pricing Proposal

SECTION 10.5

CSG CONSULTANTS – FEE SCHEDULE

CSG's proposed fee schedule is provided below.

PERSONNEL / REVIEW TYPE	ALL INCLUSIVE FEE / HOURLY RATE
Building Plan Review by Percentage	
Full Building Plan Review by Percentage (Commercial)	59% of Agency's Building Plan Check Fees
Full Building Plan Review by Percentage (Residential)	75% of Agency's Building Plan Check Fees
Structural Only Plan Review by Percentage	50% of Agency's Building Plan Check Fees
Expedited Plan Review by Percentage	90% of Agency's Building Plan Check Fees
Minimum Plan Review fee per project	$250
Building Plan Review Hourly Rates (minimum 1-hour per submittal)	
Building Plan Review	$150
Structural Only Plan Review	$170
CASp Plan Review/Consultation	$160
Expedited Plan Review (Hourly)	1.5 x Hourly Rate
Building Official Support	
Building Official	$175
Deputy Building Official	$160
Model Water Efficiency Landscape Ordinance (MWELO) Review	
MWELO Plan Review	$235
Certified Floodplain Manager (CFM)	
Certified Floodplain Manager (CFM)	$260
Specialty Services: Code Enforcement & Fire Protection Services	
Code Enforcement Manager	$215
Administrative Hearing Officer	$190
Code Enforcement Supervisor	$180
Senior Code Enforcement Officer	$170
Code Enforcement Officer II	$140
Code Enforcement Officer I	$115
Fire Plan Review	$145
Fire Plan Review (Fire Protection Engineer)	$260
Overtime	1.5 x Hourly Rate

TERMS

- *All plan review based on percentage of the agency's plan check fees includes the initial plan review and two subsequent reviews. Additional reviews, deferred submittals, revisions, and RFIs will be charged at the appropriate hourly rate.*
- *Minimum percentage plan review fee per project excludes Solar, ESS, or EVCS reviews.*
- *RFIs for large developments will be performed at an hourly rate, and turnaround times will be agreed upon in advance with the agency.*
- *Depending on project size and scope, CSG's percentage-based expedited plan review rate may be adjusted if mutually agreed upon between the agency and CSG.*
- *Should the scope of work change or circumstances develop which necessitate special handling, CSG will notify the agency prior to proceeding.*
- *Overtime/services provided outside of normal business hours will be billed at 1.5x the applicable hourly rate.*
- *Services provided on weekends will be billed a 2x the applicable hourly rate.*
- *Hourly rates for publicly funded projects will be based on current prevailing wage rates.*

- *On July 1 of each year following the contract start year, CSG will initiate an hourly rate increase based on change in CPI for the applicable region.*
- *CSG will mail/email an invoice every month for services rendered during the previous month. Unless otherwise agreed, payment terms are 30 days from receipt of invoice.*
- *This fee proposal is valid for a period of 90 days from date of submittal.*
- *If plans are not submitted electronically, CSG will coordinate the pickup and return of all plans to CSG via CSG staff or a licensed courier service.*
- *For hourly projects only, performance of plan review services utilizing the agency's adopted plan review software (e.g., ProjectDox or Bluebeam Studios) to, for example, markup plans with corrections and redlines and/or coordinate with other internal agencies, may involve additional time being added to the plan review time at the associated plan review rate.*

***Administration/Plan Processing** fees are incurred for specific additional services requested by the agency beyond the normally provided CSG administrative services which typically include coordinating the pick-up and return of plans; performing scanning, collating, and tracking; and providing plan review status updates to the agency. Cost for additional services will be negotiated based on the type of request with a minimum fee based on 0.5 hours of service per project.*

Prior Litigation/Claims

SECTION 10.6.1

LITIGATION (PAST FIVE YEARS)

Stephen Estrella v. City of South San Francisco Code Enforcement, a Public Entity, et al. (Case #20-CIV-05257). A CSG employee was driving his personal vehicle and allegedly drove over Stephen Estrella's foot while the CSG employee was working for the City of South San Francisco. A claim was made against the CSG employee's auto insurance, and damages were paid. On November 24, 2020, a lawsuit was filed against the City of South San Francisco and CSG for the same incident. The case was settled for $300,000 and closed on February 23, 2024.

Tilafaiga Taape, Jr. v. Rosemary Hanson and CSG Consultants. The property owner at 34 Visitacion Avenue in Brisbane was named along with CSG for a railing that failed on private property. CSG provides services to the City of Brisbane for building plan review and inspection. CSG was released from the case since it was not involved in the condition of the existing railing on the private property. The CSG dismissal forms for this case were completed on March 2, 2021.

Failed Project Completions

SECTION 10.6.2

CSG has never failed to complete any work it was awarded, nor has CSG ever defaulted on a contract.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

PROFESSIONAL SERVICES MASTER AGREEMENT (BUILDING SAFETY - PROFESSIONAL SERVICES)

BETWEEN

CITY OF BENICIA AND

TRB and Associates, Inc.

This Professional Services Master Agreement ("Agreement") is dated July 1, 2025, and is by and between the City of Benicia, a political subdivision of the State of California ("CITY") and TRB and Associates, Inc., a California Corporation located at 3180 Crow Canyon Place, Suite 216, San Ramon, California 94583, licensed to do business in California, ("CONTRACTOR") relating to TRB: Building Safety Professional Services - Master Service Agreement (FY26-27) Services (“Services").

1. Agreement

1.1. Services Contractor Agrees to Perform

CONTRACTOR shall provide services for specific projects as may be requested by CITY; such services shall be defined, scheduled and authorized in subsequent Task Orders by the City Manager, or designee who is hereby authorized to execute any Task Order and issue a Notice to Proceed, without further action by the City Council, provided the Task Order is within the total authority of this Master Service Agreement. Amendments to this Master Service Agreement require City Council approval.

Services may include, but not be limited to:

A. Building Plan Review

B. Certified Access Specialist Professional (CASp) Review

C. California Water Efficiency Landscape Ordinance (WELO) Review

D. Certified Floodplain Manager (CFM) Review

E. Building Official Support Services

F. Rapid Response Services

G. Specialty Services

CONTRACTOR shall be an independent contractor and shall have responsibilities for and control over the details and means of providing its services under this Agreement. CONTRACTOR agrees that its services shall be performed with due diligence and in accordance with generally accepted engineering practices.

CONTRACTOR shall use its best efforts to perform and coordinate all activities in a timely manner so that the projects will be completed according to the established project schedules.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

1.2. Term of Agreement

A. This Agreement will conclude on June 30, 2027 unless it is extended in accordance with paragraph B below.

B. This Agreement may be extended by mutual agreement of the parties hereto. Any extension shall be in written form, signed by both parties, and shall specify the length of the extension and compensation. The City Manager is authorized to approve the extension.

1.3. Required Licenses, Certificates and Permits

Any licenses, certificates or permits required by the federal, state, CITY or municipal governments for CONTRACTOR to provide the services and work in any Task Order must be procured by CONTRACTOR and be valid at the time CONTRACTOR enters into this Agreement. Further, during the term of this Agreement, CONTRACTOR must maintain such licenses, certificates and permits in full force and effect. Licenses, certificates and permits may include but are not limited to driver's licenses, professional licenses or certificates and business licenses. Such licenses, certificates and permits will be procured and maintained in force by CONTRACTOR at no expense to the CITY.

1.4. Compensation

CONTRACTOR shall be compensated, a total value not to exceed $325,000 under this agreement for services rendered under Section I, as more particularly described in authorized Task Orders and/or Rate Schedule attached as Exhibit A, in accordance with the terms and conditions included therein.

CONTRACTOR may update its Rate Schedule on an annual basis not to exceed 5% or the current year's February change of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the San Francisco-Oakland-Hayward, CA index, whichever is lower, and must seek CITY's authorization for rate changes.

CONTRACTOR may submit monthly statements for services rendered; all statements shall include adequate documentation demonstrating work performed during the billing period and shall conform to Federal Funding invoicing requirements, if applicable. It is intended that payments to CONTRACTOR will be made by CITY within thirty (30) days of receipt of invoice. CONTRACTOR's failure to secure CITY's written authorization for additional compensation or changes to the Scope of Work shall constitute a waiver of any and all right to adjustment in the price or time due, whether by way of compensation, restitution, quantum merit, or similar relief.

1.5. Employee Wages; Records; Apprentices

CONTRACTOR shall comply with the California Prevailing Wage Law to the extent it applies to work performed under this Agreement. If applicable, CONTRACTOR shall pay prevailing wages to its employees and shall comply with the additional provisions set forth below:

A. CONTRACTOR shall pay prevailing wages to its employees on any agreement in excess of $1,000.00, where prevailing wages are required by law. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Agreement, as determined by the Director of the State of California Department of Industrial

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Relations, are on file at the City's Public Works Office and may be obtained from the California Department of Industrial Relations website [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm]. CONTRACTOR shall comply with the 8-hours per day/40 hours per week/overtime/working hours restrictions for all employees, pursuant to the California Labor Code. CONTRACTOR and all subconsultants shall keep and maintain accurate employee payroll records for Work performed under the Agreement. The payroll records shall be certified and submitted as required by law, including Labor Code Sections 1771.4 (if applicable) and 1776, including to the Labor Commissioner no less frequently than monthly. CONTRACTOR shall comply fully with Labor Code Section 1777.5 in the hiring of apprentices for work relating to the Agreement. If the Agreement exceeds $2,000 and is funded with federal funds, then CONTRACTOR shall pay federal Davis Bacon wages and comply with applicable federal requirements.

B. CONTRACTOR shall forfeit, as a penalty to Owner, the penalty or penalties as provided by the California Labor Code, for each laborer, workman, or mechanic employed in performing labor in and about the Work provided for in the Agreement for each day, or portion thereof, that such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under the Agreement by him or her or by any Subcontractors under him or her, in violation of Articles 1 and 2 of Chapter 1 of Part 7 of Division II of the California Labor Code. The sums and amounts which shall be forfeited pursuant to this Paragraph and the terms of the California Labor Code shall be withheld and retained from payments due to CONTRACTOR the California Labor Code, but no sum shall be so withheld, retained or forfeited except from the final payment without a full investigation by either the State Department of Industrial Relations or by Owner. The Labor Commissioner pursuant to California Labor Code § 177 5 shall determine the final amount of forfeiture.

C. CONTRACTOR, where applicable, shall insert in every subcontract or other arrangement which CONTRACTOR may make for performance of Work or labor on Work provided for in the Agreement provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the Work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the California Labor Code.

1.6. Indemnification

A. **Defense, Indemnity and Hold Harmless**: Consistent with Civil Code section 2782.8, CONTRACTOR specifically agrees to indemnify, defend with counsel approved by CITY, and hold harmless CITY, its officers, officials, agents, employees, and volunteers from and against any and all actions, claims, demands, losses, expenses (including attorneys' fees, expert fees and all other costs and fees), damages, and liabilities resulting from injury or death of a person or injury to property, arising out of or in any way connected with CONTRACTOR's negligence, recklessness

or willful misconduct in the performance of this Agreement, excepting only such injury or death as may be caused by the sole active negligence or willful misconduct of CITY. The CONTRACTOR shall pay all costs that may be incurred by CITY in enforcing this indemnity, including reasonable attorneys' fees. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by the insurance obligations contained in this Agreement.

B. **Patent Rights, Copyright, Trade Secrets:** CONTRACTOR shall defend (including providing legal counsel reasonably acceptable to City at no cost to City), indemnify and hold harmless the Indemnitees from all loss, cost, damage, expense, suit, liability or claims, in law or in equity, including attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by City, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

C. **Conflict of Interest:** Should conflict of interest principles preclude a single lawyer from representing both CITY and CONTRACTOR, or should CITY otherwise find CONTRACTOR's legal counsel unacceptable, then CONTRACTOR shall reimburse CITY its costs of defense, including without limitation reasonable attorney's fees, expert fees and all other costs and fees of litigation. CONTRACTOR shall promptly pay any final judgment rendered against CITY (and its officers, officials, agents, employees and volunteers) with respect to claims determined by a trier of fact to have been the result of CONTRACTOR's negligent, reckless or wrongful performance. It is expressly understood and agreed that the foregoing provisions are intended to be as broad and inclusive as is permitted by the law of the State of California artd will survive termination of this Agreement.

D. **Other Claims:** Further, CONTRACTOR will indemnify CITY, and hold it harmless, from an assertion that as a result of providing services to CITY, CONTRACTOR or any of its employees or persons performing work pursuant to this Agreement is entitled to benefits from, or is covered by, the Social Security retirement system or the California Public Employees Retirement Systems. Notwithstanding the foregoing, CONTRACTOR's obligations for any payments to such claimant shall be limited to those payments which CITY may be.

E. **Intellectual Property Indemnification:** CONTRACTOR represents that professional services provided by CONTRACTOR pursuant to this Agreement does not infringe on any other copyrighted work or intellectual property owned by others. CONTRACTOR shall defend, indemnify and hold harmless the CITY from all Liabilities, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in arising from or relating to CONTRACTOR's services provided to the CITY under this Agreement.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

F. **Subcontractor's Agreements**: CONTRACTOR shall place in its agreements with Subcontractors and cause its Subcontractors to agree to the indemnification and insurance provisions in this Agreement in favor of the CITY and the Indemnitees in the exact form and substance as those contained in this Agreement.

G. **Duty to Cooperate:** CONTRACTOR shall notify CITY immediately in writing of any claim or damage related to activities or services performed under this Agreement. CONTRACTOR shall cooperate with CITY in the investigation and disposition of al I Liabilities arising out of the activities or services under this Agreement. Without limiting the foregoing, CONTRACTOR shall take all steps necessary to assist the CITY in the defense of any and all Liabilities brought by a contractor hired to construct the Project regarding any errors, flaws, and/or omissions in the plans or specifications of the Project. Any additional services or work

1.7. Standard of Performance

CONTRACTOR represents to CITY that the services shall be performed in an expeditious manner, and with the degree of skill and care that is required by current, good, and sound procedures and practices. CONTRACTOR further agrees that the services shall be in conformance with generally accepted professional standards prevailing at the time the work is performed.

1.8. Ownership and Maintenance of Documents

All documents furnished by CONTRACTOR pursuant to this Agreement are instruments of CONTRACTOR's services in respect to this project. They are not intended nor represented to be suitable for reuse by others on extensions of this project or on any other project. Any reuse without specific written verification and adoption by CONTRACTOR for the specific purposes intended will be at user's sole risk and without liability or legal exposure and expenses to CONTRACTOR, including attorney's fees arising out of such unauthorized reuse.

CONTRACTOR's records, documents, calculations, and all other instruments of service pertaining to actual project shall be given to CITY at the completion of the project. The CITY reserves· the right to specify the file format that electronic document deliverables are presented to the CITY. Title to all plans, specifications, maps, estimates, reports, manuscripts, drawings, descriptions and other final work products compiled by CONTRACTOR under the Agreement shall be vested in the CITY, none of which shall be used in any manner whatsoever, by any person, firm, corporation or agency without the expressed written consent of the CITY. Basic survey notes and sketches, charts, computations, and other data prepared or obtained under the Agreement shall be made available, upon request, to the CITY without restriction or limitations on their use. CONTRACTOR may retain copies of the above-described information but agrees not to disclose or discuss any information gathered, discussed or generated in any way through this Agreement without the written permission of CITY during the term of this Agreement, unless required by law.

1.9. Suspension of Work

CITY may, at any time, by ten (10) days' written notice, suspend further performance by CONTRACTOR. All suspensions shall extend the time schedule for performance in a mutually satisfactory manner, and CONTRACTOR shall be paid for services performed and reimbursable expenses incurred prior to the

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

suspension date. During the period of suspension, CONTRACTOR shall not receive any payment for services, or expenses, except for reasonable administration expenses, incurred by CONTRACTOR by reason of such suspension.

1.10. Termination

CITY may terminate this Agreement for any reason upon ten (10) days' written notice to the other party. CITY may terminate the Agreement upon five (5) days' written notice if CONTRACTOR breaches this Agreement. In the event of any termination, CONTRACTOR shall promptly deliver to the CITY any and all finished and unfinished reports or other written, recorded, photographic, or visual materials, documents, data and other deliverables ("Work Materials") prepared for the CITY prior to the effective date of such termination, all of which shall become CITY's sole property. After receipt of the Work Materials, CITY will pay CONTRACTOR for the services performed as of the effective date of the termination based on a final invoice from the CONTRACTOR.

1.11. Nondiscrimination

During performance of this Agreement, CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental handicap, medical condition including genetic characteristics), marital status, age, political affiliation, sexual orientation, or sex. CONTRACTOR and its officers, employees, agents, representatives or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the CITY's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections I 101, 1102and1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulations or the Code of Federal Regulations. CONTRACTOR agrees that any and all violation of this provision shall constitute a material breach of the Agreement.

1.12. Conflict of Interest

A. CONTRACTOR covenants and represents that neither it, nor any officer or principal of its firm, has, or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONTRACTOR's performance of services under this Agreement. CONTRACTOR further covenants that in the performance of the Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the CITY. CONTRACTOR agrees to at all times avoid conflicts of interest, or the appearance of any conflicts of interest, with the interests of the CITY in the performance of this Agreement.

B. CONTRACTOR is not a designated employee within the meaning of the Political Reform Act because CONTRACTOR:

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

1. Will conduct research and arrive at conclusions with respect to its rendition of information, advice, recommendation or counsel independent of the control and direction of the CITY or of any CITY official, other than normal contract monitoring; and

2. Possesses no authority with respect to any CITY decision beyond the rendition of information, advice, recommendation or counsel. (2Cal. Code Regs. § l8700(a) (2))

1.13. Independent Contractor

In assuming and performing the services, CONTRACTOR is an independent contractor and shall not be eligible for any benefits, which the CITY may provide its employees, except as expressly provided for in the Agreement. All persons, if any, hired by CONTRACTOR, shall be employees or subcontractors of CONTRACTOR and shall not be construed as employees or agents of the CITY in any respect. CONTRACTOR shall have responsibility for and control over the means of providing services under this Agreement.

1.14. Compliance With Laws

CONTRACTOR shall comply with all applicable federal, State of California, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services.

1.15. Choice of Law

This Agreement shall be administered and interpreted under California law as if written by both parties. If any provision in this Agreement is held by any court to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force. If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in a state court situated in the County of Solano, State of California or, if necessary, in a federal court situated in the City and County of Sacramento, California.

1.16. Enforceability; Interpretation

In the event that any of the provisions or portions of application of any of the provisions of the Agreement are held to be illegal or invalid by a court of competent jurisdiction, CITY and CONTRACTOR shall negotiate an equitable adjustment in the provisions of the Agreement with a view toward affecting the purpose of the Agreement. The illegality or invalidity of any of the provisions or portions of application of any of the provisions of the Agreement shall not affect the legality or enforceability of the remaining provisions or portions of application of any of the provisions of the Agreement. This Agreement shall be interpreted as though it was a product of a joint drafting effort and no provisions shall be interpreted against a party on the ground that said party was solely or primarily responsible for drafting the language to be interpreted.

1.17. Integration

The Agreement contains the entire Agreement and understanding between the parties as to the subject matter of this Agreement. It merges and supersedes all prior or contemporaneous agreements, commitments, representation, writings, and discussions between CONTRACTOR and CITY, whether oral or written.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

1.18. Successors and Assigns: No Third Party Beneficiaries; No Joint Venture

CITY and CONTRACTOR respectively, bind themselves, their successors, assigns, and legal representatives to the terms and obligations of this Agreement. CONTRACTOR shall not assign or transfer any interest in the Agreement without the CITY's prior written consent, which consent shall be in the CITY's sole discretion. Any attempted assignment or transfer in breach of this provision shall be void. This Agreement is not intended and shall not be construed to create any third party benefit the event. This Agreement is not intended and shall not be construed to create a joint venture or partnership between the parties. CONTRACTOR, its officers, employees and agents shall not have any power to bind or commit the CITY to any decision.

1.19. Financial Records

Records of CONTRACTOR's direct labor costs, payroll costs, and reimbursable expenses pertaining to this project covered by this Agreement will be kept on a generally recognized accounting basis and made available to CITY if and when required.

1.20. Non-Waiver

The waiver by either party of any breach of any term, covenant, or condition contained in the Agreement, or any default in their performance of any obligations under the Agreement shall not be deemed a waiver of any other breach or default of the same or any other term, covenant, condition, or obligation, nor shall any waiver of any incident of breach of default constitute a continuing waiver of same.

1.21. Notices

All notices required hereunder shall be in writing by such methods as CITY and CONTRACTOR as designated below. Notice shall be deemed received three (3) days after the date of sending.

To City: Stacy Hofacre

Senior Management Analyst

shofacre@ci.benicia.ca.us

To Contractor: Todd Bailey

Principal

(925) 866-2633

1.22. Non-Liability

No member of the CITY and no other officer, employee or agent of the CITY shall be personally liable to CONTRACTOR or otherwise in the event of any default or breach of the CITY, or for any amount which may become due to CONTRACTOR or any successor in interest, or for any obligations directly or indirectly incurred under the terms of this Agreement.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

1.23. Execution

Each individual or entity executing this Agreement on behalf of CONTRACTOR represents and warrants that he or she or it is duly authorized to execute and deliver this Agreement on behalf of CONTRACTOR and that such execution is binding upon CONTRACTOR.

This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

2. Insurance Requirements

2.1. INSURANCE REQUIREMENTS

This is an Appendix to, and made a part of and incorporated by reference to the Agreement dated July 1, 2025, by and between TRB and Associates, Inc., hereinafter referred to as "Contractor", and the City of Benicia, hereinafter referred to as "City", providing for professional services.

2.2. 1. Contractor's Duty to Show Proof of Insurance

Contractor, in order to protect City and its City Council members, officials, agents, officers, and employees against all claims and liability for death, injury, loss and damage as a result of Contractor's acts, errors, or omissions in connection with the performance of Contractor's obligations, as required in this Agreement, shall secure and maintain insurance as described below. Contractor shall not perform any work under this Agreement until Contractor has obtained all insurance required under this section and the required certificates of insurance and all required endorsements have been filed with the City's authorized insurance tracking platform. Receipt of evidence of insurance that does not comply with all applicable insurance requirements shall not constitute a waiver of the insurance requirements set forth herein. The required documents must be signed by the authorized representative of the insurance company shown on the certificate. Upon request, Contractor shall supply proof that such person is an authorized representative thereof, and is authorized to bind the named underwriter(s) and their company to the coverage, limits and termination provisions shown thereon, Contractor shall promptly deliver to City a certificate of insurance, and all required endorsements, with respect to each renewal policy, as necessary to demonstrate the maintenance of the required insurance coverage for the term specified herein. Such certificates and endorsements shall be delivered to City prior to the expiration date of any policy and bear a notation evidencing payment of the premium thereof if so requested. Contractor shall immediately pay any deductibles and self-insured retentions under all required insurance policies upon the submission of any claim by Contractor or City as an additional insured.

2.3. Insurance Requirements: Commercial General Liability Insurance

Commercial General Liability Insurance including, but not limited to, Contractual Liability Insurance (specifically concerning the indemnity provisions of this Agreement with the City), Products-Completed Operations Hazard, liability for slander, false arrest and invasion of privacy arising out of professional services rendered hereunder, Personal Injury (including bodily injury and death), and Property Damage

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

for liability arising out of Contractor's performance of services under this Agreement. The Commercial General Liability insurance shall contain no exclusions or limitation for independent contractors working on the behalf of the named insured. Contractor shall maintain the Products-Completed Operations Hazard coverage for the longest period allowed by law following termination of this Agreement. The amount of said insurance coverage required by this Agreement shall be the policy limits, which shall be at least two million dollars ($2,000,000) each occurrence and four million dollars ($4,000,000) aggregate.

2.4. Workers' Compensation Insurance

Contractor shall submit written proof that Contractor is insured against liability for workers' compensation in accordance with the provisions of section 3700 of the California Labor Code. Contractor shall require any Subcontractors to provide workers' compensation for all of the Subcontractors' employees, unless the Subcontractors' employees are covered by the insurance afforded by Contractor. If any class of employees engaged in work or services performed under this Agreement is not covered by California Labor Code section 3700, Contractor shall provide and/or require each Subcontractor to provide adequate insurance for the coverage of employees not otherwise covered. Contractor shall also maintain employer's liability insurance with limits of one million dollars ($1,000,000) for bodily injury or disease.

2.5. Professional Liability Insurance

Professional Liability (Errors and Omissions) Insurance, for liability arising out of, or in connection with, all negligent acts, errors or omissions in connection with services to be provided under this Agreement, with no exclusion for claims of one insured against another insured, with coverage equal to the policy limits, which shall not be less than one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate.

2.6. Self-Insured Retention

Any self-insured retentions in excess of $100,000 must be declared on the Certificate of insurance or other documentation provided to City and must be approved by the City Risk Manager.

2.7. Claims-Made Basis Coverage

If any of the insurance coverages required under this Agreement is written on a claims-made basis, Contractor, at Contractor's option, shall either (i) maintain said coverage for at least five (5) years following the termination of this Agreement with coverage extending back to the effective date of this Agreement; (ii) purchase an extended reporting period of not less than five (5) years following the termination of this Agreement; or (iii) acquire a full prior acts provision on any renewal or replacement policy.

2.8. Insurance terms and conditions:

3.1 Cancellation of Insurance

The above stated insurance coverages required to be maintained by Contractor shall be maintained until the completion of all of Contractor's obligations under this Agreement except as otherwise indicated herein. Each insurance policy supplied by Contractor shall not be suspended, voided, cancelled or

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

reduced in coverage or in limits except after ten (10) days written notice by Contractor in the case of non-payment of premiums, or thirty (30) days written notice in all other cases. This notice requirement does not waive the insurance requirements stated herein. Contractor shall immediately obtain replacement coverage for any insurance policy that is terminated, canceled, non-renewed, or whose policy limits have been exhausted or upon insolvency of the insurer that issued the policy.

3.2 All insurance shall be issued by a company or companies admitted to do business in California and listed in the current "Best's Key Rating Guide" publication with a minimum rating of A-; VII Any exception to these requirements must be approved by the City Risk Manager.

3.3 If Contractor is, or becomes during the term of this Agreement, self-insured or a member of a self-insurance pool, Contractor shall provide coverage equivalent to the insurance coverages and endorsements required above. The City will not accept such coverage unless the City determines, in its sole discretion and by written acceptance, that the coverage proposed to be provided by Contractor is equivalent to the above-required coverages.

3.4 For any claims related to the Agreement, the Contractor's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3.5 Insurance coverages in the minimum amounts set forth herein shall not be construed to relieve Contractor for any liability, whether within, outside, or in excess of such coverage, and regardless of solvency or insolvency of the insurer that issues the coverage; nor shall it preclude the City from taking such other actions as are available to it under any other provision of this Agreement or otherwise in law.

3.6 Failure by Contractor to maintain all such insurance in effect at all times required by this Agreement shall be a material breach of this Agreement by Contractor. City, at its sole option, may terminate this Agreement and obtain damages from Contractor resulting from said breach. Alternatively, City may purchase such required insurance coverage, and without further notice to Contractor, City shall deduct from sums due to Contractor any premiums and associated costs advanced or paid by City for such insurance. If the balance of monies obligated to Contractor pursuant to this Agreement are insufficient to reimburse City for the premiums and any associated costs, Contractor agrees to reimburse City for the premiums and pay for all costs associated with the purchase of said insurance. Any failure by City to take this alternative action shall not relieve Contractor of its obligation to obtain and maintain the insurance coverages required by this Agreement.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

3.7 Should any of the required insurance (other than errors and omissions insurance) be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defenses costs be included in such general aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limit specified above.

3.8 City may (but is under no obligation to) secure project-specific insurance, wrap-up insurance, or administer an owner controlled insurance program ("OCIP"), in which case Contractor and its Subcontractors shall communicate this fact to their insurance carriers and request that the risk of this project be excluded from their practice policies. Contractor's fees under this Agreement (and the fee of its Subcontractors under Subcontractor agreements) shall be reduced by the amount of insurance premiums that may be avoided by Contractor and its Subcontractors by virtue of the City's obtaining the project-specific insurance, wrap-up insurance or administering an OCIP, and the exclusion of this project from coverage of Contractor's and Subcontractors policies. Construction Manager and its Subcontractors shall afford City access to their books and records and cooperate with City in verifying the amount of savings realized.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day first mentioned above.

Rachel O'Shea, Deputy Community Development Director | Building Official
City of Benicia | 250 East L Street | Benicia, CA 94510

SUBJECT: TRB and Associates Proposal to Provide On-Call Building Safety - Professional Services

Dear Ms. O'Shea:

TRB and Associates, Inc. (TRB) is pleased to submit this Proposal to Provide On Call Building Services for your consideration. We have reviewed the contents of the City's RFP and are prepared to provide the requested scope of services. We look forward to the opportunity to build on our over 18-year work partnership with the City of Benicia Building and Safety Division providing On-Call Building Safety Professional Services.

For this engagement, **Todd Bailey, P.E., CASp, LEED AP, and MBA** will continue to serve as the **Project Manager** responsible for ensuring timely delivery of quality support services. To confirm, Todd will be managing all services provided to the City from TRB's San Ramon office. Of note, Todd has over 18 years of personal experience providing Building and Safety support services to the City of Benicia. The balance of our proposed key staff is identified within our proposal response.

TRB provides Plan Review, Inspection, Delegate Chief Building Official, and CASp services to municipal building and public works departments throughout California. Our corporation, which comprises over 75 team members, was established in 2006 and has been a growing business since its founding. We specialize and serve exclusively in the code compliance role. We would like to highlight the following about the company:

- Our firm is engaged to provide as-needed Building Department and related services to over 75 municipalities in Northern California: including the City of Benicia. As a result, our team is very familiar with the many region-specific considerations that need to be considered when evaluating code compliance including flood zone, seismic design, wind exposure, soil/liquefaction, wildland urban interface, and landslide criteria.
- As a value-added service, Paul Armstrong will be available to provide code training to City staff and all invited guests on the California Building Codes Standards if desired by the City.
- The staff of TRB includes licensed Civil, Structural, Mechanical, Fire Protection, and Electrical Engineers; Architects; and ICC, CASp, LEED®, and SAP certified individuals who have an average 25 years of experience in the architecture-engineering-construction industry.
- Our staff are active in industry organizations such as ICC, CALBO, CBOAC, ASCE, and SEAOC. Of note, TRB+'s roster includes three ICC Chapter Presidents and a CBOAC Board Member.
- Our firm was recognized as Industry Member of the Year by the County Building Officials Association of California (CBOAC) in 2019.
- We have a strong track record of producing quality results and meeting turnaround goals, and a track record to which our clients will attest.

Our firm looks forward to the opportunity to continue to assist the City of Benicia as a Building Safety Services provider and is prepared to enter into an agreement with the City immediately. In the documentation provided, you will find background information on the company, our building & fire life safety service offerings, representative project experience, professional references, and a fee schedule for your review. If you have questions or need further information, please do not hesitate to contact **Todd Bailey** by phone at **(925) 866-2633** or by email at tbailey@trbplus.com. To confirm, I am authorized to bind the firm contractually. We look forward to hearing your feedback soon.

Sincerely,

TRB + ASSOCIATES, INC.

Company Overview

TRB and Associates, Inc. (TRB) is a California-based building and fire life safety services Corporation with offices in San Ramon, Sacramento, Burlingame, Santa Clara, Long Beach, and Las Vegas. Our firm provides Plan Review, Inspection, Building Department Administration, Delegate Chief Building Official, Disabled Access (CASp) Consulting services to public agencies throughout California.

TRB was established in 2006 and has been a growing business since its founding. The firm is owned by its Principal-in-Charge Todd Bailey, PE, LEED AP, CASp, MBA who has 30 years of experience working in the Building Safety field in California. Our over 75 team members have an average of 25 years of experience in the Architecture-Engineering-Construction industry, encompassing building safety and related services across a full range of code disciplines.

Range of Services

- ✓ Building and Fire Plan Review
- ✓ Building and Fire Inspection
- ✓ Building Department Administration
- ✓ Code Enforcement Inspection
- ✓ Consulting Chief Building Official
- ✓ Disabled Access (CASp) Consulting
- ✓ Building Standards Codes Training
- ✓ Civil & Planning Plan Review and Inspection

Capacity and Resources

TRB has extensive resources and a large pool of licensed engineers and certified building safety experts, equipped to handle a wide range of building department needs. The majority of our services are delivered on an as-needed, ongoing basis. Having a large pool of resources allows us to accommodate existing and future workload effectively. To confirm, we do not have any current or anticipated engagements which would affect our ability to staff for this assignment - we are committed to supporting the City of Manteca and have resources available for the anticipated needs noted in the City RFP.

Qualifications and Technical Capabilities

TRB team members possess multiple certifications and registrations to assure compliance with all requirements mandated by the State and local jurisdiction ordinances. Our team comprises of individuals who are either engineers or architects licensed in the State of California, or who possess ICC certifications in their respective disciplines. Of note, our team includes 8 licensed Structural Engineers. In addition, our staff includes 4 LEED® Accredited Professionals and 6 CASp certified individuals. Most of our staff possesses a combination of these industry-recognized credentials. Information on the qualifications of our proposed personnel and an Organizational Chart is provided in later Sections of our Proposal.

Our staff members are regular instructors and attendees at construction code and standards training offered through the local ICC Chapters, CALBO, CBOAC, SEAOC, AISC, ASCE, NFPA and other building industry organizations. In addition, several of our staff members are current or past board members with industry organizations and as such, are aware of many aspects of the development of relevant construction codes. Staff experience encompasses a full range of construction types and occupancies including the following:

- ✓ ADUs and JADUs
- ✓ Photovoltaic Systems
- ✓ Assembly Occupancies
- ✓ Commercial Tenant Improvements
- ✓ Detention Facilities
- ✓ Distribution Centers
- ✓ Hotels
- ✓ Industrial/Storage Warehouses
- ✓ Manufacturing Facilities
- ✓ Medical Office Buildings
- ✓ REACH Code Projects
- ✓ Battery Energy Storage Systems
- ✓ Mixed-Use Projects
- ✓ Multi-Family Dwellings
- ✓ Office Buildings
- ✓ Parking Structures
- ✓ Power Plant Facilities
- ✓ Recreation/Gymnasium Facilities
- ✓ Restaurants
- ✓ Logistics Centers
- ✓ Gas Stations
- ✓ Cannabis Facilities
- ✓ Hazardous Chemical Facilities
- ✓ High Rise Buildings
- ✓ Hospitals
- ✓ Retail Centers
- ✓ Schools
- ✓ Single Family Dwellings
- ✓ Sports Arenas
- ✓ Theaters

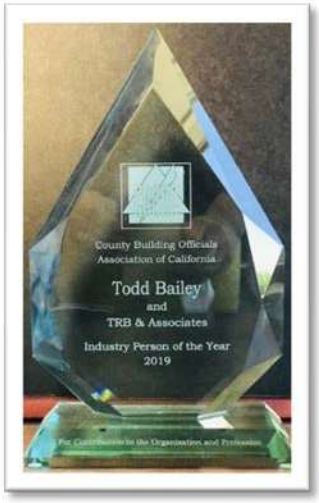
Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Customer Service Philosophy

TRB's customer service philosophy is simple; provide consistent quality services and represent our clients to the best of our ability. The achievement of the City's goals is at the heart of the services we provide. We have been able to consistently meet our clients' goals by implementing the following principles:

- ✓ Garnering a problem-solving attitude
- ✓ Gaining awareness of the issues that affect the community
- ✓ Applying the right expertise in a responsive manner

What you can Expect from Us



Experience

- Comprehensive understanding of the California Building Standards Codes
- Average 25 years' experience

Quality Work

- High technical competence and solutions oriented
- Balanced approach to application of adopted Codes & Standards

Responsiveness

- Close proximity to City Offices
- Staff available on 24/48-hour notice
- Critical-path awareness
- Effective workflow policies and procedures
- Emergency Response Ready

Teamwork

- Consider us your Partner – We work with you

What Sets Us Apart

TRB has a strong track record of production quality results, meeting turnaround goals and client satisfaction. Ask our clients:

> *"TRB has performed Plan-Check services for [our City] for many years now. They review 75% of all my external plan reviews, I can honestly say their services are excellent. I have used several companies over the last 23 years, TRB has outperformed them all. TRB remains responsive and in control, they meet with me and our clients when requested and constantly put in the extra effort to ensure positive outcome."* - California Municipal Chief Building Official

Our Commitment

In our firm's nearly 20 years in business, we have assembled a team of professionals that have been committed to the success of our clients. As the organization continues to grow, we have maintained our core belief in providing a welcoming environment, training, and promotional opportunities, and providing the best service possible to our clients. With TRB, the City of Benicia will continue to receive an experienced team who understands the needs of public agencies and takes pride in delivering outstanding service. Consider us your partner, and as such we are always on call and always available for everything from simple brainstorming sessions to representing you during meetings with stakeholders.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Subconsultants

TRB will be teaming up with two subcontractor firms for this project: **Provost & Pritchard Consulting Group** and **TERP Consulting**. TRB has excellent working relationships with both subconsultant firms, and we have teamed with each successfully on municipal support assignments.

Provost and Pritchard Consulting Group (P&P) will be prepared to provide civil engineering support services on the project. TRB is currently teaming with the firm to provide grading plan reviews for the RELATED Santa Clara Project. P&P has been providing engineering services for over 50 years and possesses over 200 employees throughout California.

KEY PROJECT MEMBERS: Michael Osborn, PE, LEED AP; Brayden Lovik, PE

TERP Consulting will be prepared to provide fire protection engineering and plan review support on the project. TRB has teamed with TERP Consulting on many large-scale projects including the $1.5 billion UC Davis Health Aggie Square and RELATED Santa Clara projects. TRB's work history with TERP spans over 10 years. The firm has extensive experience in fire protection engineering including fire protection systems, master egress systems, fire hazards analysis, and smoke control systems assessments on large-scale construction projects.

KEY PROJECT MEMBERS: Jim Begley FPE, CFM, LEED AP; Bryan Douglass, FPE

Description of Responsibilities of Key Personnel

Mindful of the potential complexity of projects in the City of Benicia, TRB has assembled a team with exceptional qualifications and attentiveness to quality and schedule. Our proposed team is comprised of senior-level professionals who have worked together across many projects and who possess extensive municipal support experience. We are pleased to be able to present a team with this combination of interpersonal familiarity and extensive industry experience.

PROJECT LEADERSHIP

Todd Bailey, PE, LEED AP, CASp, MBA, our company Principal and Founder, is prepared to continue to serve in the role of **Project Manager**. Todd has over 25 years of experience in the industry which includes serving as a Delegate Chief Building Official/Project Principal on over 20 large-scale fast-track design build projects in California having a combined valuation of over $30 billion. Of note, Todd's experience includes overseeing support services provided on the $9 billion RELATED Santa Clara project. Todd will work closely with our team to ensure that project goals are met and that findings are communicated in a timely and clear manner.

PLAN REVIEW TEAM LEADERSHIP

Our plan review group is led by our **Plan Review Services Manager**, **Bing Young, RA**. Bing possesses extensive experience in plan review on both residential and commercial projects and includes more than 25 years of professional experience in production, project management, construction management, energy, and accessibility analysis.

Senior Plan Review Engineer, Dan McLaughlin, PE, CASp will be available to serve as a senior plan review engineer on this assignment. Dan is a registered Civil Engineer, certified CASp, and ICC Certified Plans Examiner. Dan has been with TRB for over 10 years, specializing in plan review coordination with extensive experience on both complex commercial and residential project types.

Senior Plan Review Engineer, Petya McInnis, PE, CASp has over 24 years of experience in engineering and construction, has expertise in design, plan review, and inspection across residential, commercial, and industrial projects. Formerly a Plan Check Engineer for the City of Fairfield, she ensured code compliance, provided technical supervision, and supported Building Inspectors and Officials with code research. Petya's proactive approach has led to effective solutions, process improvements, and policy changes.

Dominic Ma, SE, MPA serves as our **Quality Control Principal**, responsible for ensuring the technical accuracy of all work performed. Dominic has more than 30 years of experience in reviewing building plans and specifications submitted for building permit applications to assure compliance with adopted building codes and reference standards.

INSPECTION AND FIELD SERVICES TEAM LEADERSHIP

Christopher Rose serves as our **Inspection and Field Services Manager**. Chris has over 20 years of inspection, plan review and administration experience serving in both public and private sector roles on a variety of projects. His experience includes serving as Building Manager for Sonoma County and coordinating document control tasks for the Apple World Headquarters project in Cupertino.

TECHNICAL DIRECTOR & INSTRUCTOR

Our **Technical Director - Paul Armstrong, PE, and CBO - is** available to provide expert code interpretation support and code instruction. With more than 30 years of building safety management experience, Paul teaches regularly for California Building Officials (CALBO). As a Chief Building Official, he managed building plan review, counter assistance, and inspection for numerous California agencies. His previous experience at International Code Council (ICC) included leading the Architectural and Engineering Services Department, International Conference of Building Officials (ICBO) Technical Services Department.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Project Understanding & Approach

TRB would like to confirm its intent to provide services in accordance with the Scope of Work identified in the City of Benicia's Request for Proposal (RFP) document. In brief, it is our understanding that the City is seeking qualified consultants to assist with as-**needed On-Call Building Safety Professional Services** on a range of project types. It is understood that plan review tasks would comprise reviewing projects for adherence to the City's latest adopted Municipal Codes and Title 24 California Building Standards Codes covering structural, fire prevention, life safety, disabled access, energy conservation, green building, plumbing, mechanical, and electrical provisions.

TRB has reviewed the Scope of Services as outlined in the City's RFP and is prepared to continue to provide On-Call Building Safety – Professional Plan Review Services including:

- ✓ Building Plan Review
- ✓ Certified Access Specialist Professional (CASp) Review
- ✓ California Water Efficiency Landscape Ordinance (WELO) Review
- ✓ Certified Floodplain Manager (CFM) Review
- ✓ Building Official Support Services
- ✓ Rapid Response Services
- ✓ Specialty Services

TRB would like to confirm that it has staff appropriately certified to provide the requested scope of services. Also to confirm, all work will adhere to industry standards as determined by the California Code of Regulations, Title 24, and the City of Benicia Municipal Code (BMC). The following reflects our proposed work plan for providing the requested scope of services.

Project Approach Overview

Our approach to this engagement is centered on utilizing experienced staff and fostering open communication between our firm and the City. On an ongoing basis, our Project Manager, **Todd Bailey PE, CASp, LEED AP**, will maintain regular communication with City staff to ensure that we are kept informed of current code interpretations and policies, and to enhance our ability to quickly respond to any issues that may arise during permit counter, document review, and/or inspection activities.

We value the importance of the City's projects and are committed to meeting all project service delivery deadlines. We will diligently document and report all plan review findings, tracking information, and other reports, as required by the City.

Throughout this engagement, our key team members will be available to meet with City staff either via phone or in person to address questions that may come up during the course of a project. Our firm is committed to responding to all inquiries within 1 business day. We encourage discussions via in-person meeting, telecon, and/or WebEx/Zoom or similar formats as agreeable and necessary to achieve the most expeditious results.

Quality Control Assurance

Quality and on-time service are of paramount importance to us. Though we employ only experienced plan reviewers and expect their work to be of a high standard, we have instituted a quality control policy to ensure that this standard is maintained. At the core of our quality control approach is having a "two sets of eyes" policy in place. All work performed by staff is reviewed for quality control by senior members of our team. Our Project Manager and Quality Control Principal, **Dominic Ma SE**, hold primary responsibility for ensuring accuracy and consistency (QA/QC) in the application of adopted codes and standards for any City assignments.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Building Code Instruction

As an additional service, TRB is prepared to provide Building Code Instruction support to the City in either classroom or field-type settings on a range of technical subjects. **Paul Armstrong PE** is an award-winning California Building Standards Codes instructor whose accolades include being named CALBO Instructor of the Year. Paul is currently providing extensive training on the California Building and Residential Codes to TRB clients, local ICC Chapters, and CALBO Education Week attendees. Paul will be available to provide tailored training for the City and its invited guests upon request.

ICC PREFERRED EDUCATION PROVIDER

Project Workplan

Project Initialization, Scheduling & Management

From our prior experience supporting municipal building departments and divisions, we know that developing a comprehensive understanding of project construction documents and supporting the timely execution of project schedules is of critical importance. To confirm, for any plan review, inspection, or permit technician assignment, TRB members will possess a thorough understanding of all applicable project documents and processes and will be committed to supporting the City with its specific project schedule needs.

Preliminary Meetings and Project Administration

Shortly after the project award, we are prepared to meet to verify project expectations, deliverables, scheduling, and logistical considerations. Our Project Manager will coordinate with our Plan Review and Inspection Services Managers, to allocate plan review, inspection, and permit technician resources appropriately. The Plan Review Manager will be responsible for oversight of all the plan review services provided, and our Inspection Services Manager will be responsible for monitoring and managing any staff augmentation activities. Regular communication between our Project Manager and the TRB team will be ongoing throughout this engagement to ensure alignment of staffing and schedule needs.

Project Communications

We understand that ongoing communication is essential to ensuring project success. We promote and endorse any tools which help enhance communications between all project participants. We have utilized regularly scheduled calls for instance as a means for TRB, designated project owner, constructor, designer representatives, and others to discuss project schedule and critical path, manpower needs, potential challenges, and other related matters. Having these types of communications allows teams to identify when additional support may be needed and how resources may be best allocated to accommodate the project schedule and critical path. Throughout this engagement, our team members will be available to attend meetings with City staff, as well as design, constructor, and owner teams as needed.

Workload Accommodation | Timeliness of Response

It is understood that there are often periods of time when the workload extends beyond what may be normally expected. We would like to highlight that our firm has a system in order to accommodate such peaks without compromising turnaround or quality. We have many qualified and experienced team members who we access to assist at times of high workload or emergency need. In the event of a local, regional, or national emergency or disaster, our assigned staff are ready and available to immediately respond to a disaster and help as needed.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Plan Review Scope & Approach

TRB is prepared to provide as-needed plan review services for residential, multi-family residential, commercial, and industrial projects encompassing building code, electrical, plumbing, mechanical, fire protection, energy, accessibility, and green building standards; as well as grading, drainage, floodplain, wildland urban interface fire severity zone, CASp, MWELO, CFM, stormwater, grading, hazardous materials, and State housing law Title-25 factory-built structure considerations, as applicable.

Our reviews consider all relevant project documentation including plans, specifications, calculations, and other related correspondence to verify conformance to adopted local codes, ordinances, regulations, and standards, and the current editions of the following California Building Standards Codes:

- California Building Code
- California Residential Code
- California Electrical Code
- California Plumbing Code
- California Mechanical Code
- California Fire Code
- California Energy Code
- California Green Building Standards Code

Alternate Material and Methods

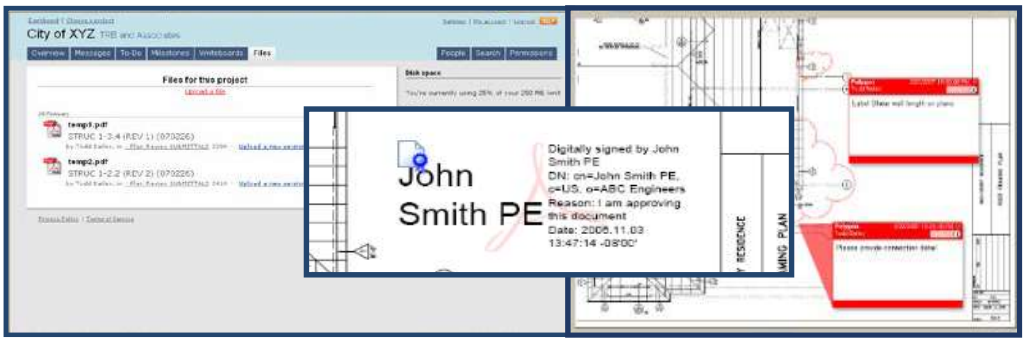
TRB recognizes that there are alternate materials and methods of construction that can be used to satisfy and comply with the provisions of the code. Our experience with the use of alternate materials, alternate design and methods of construction enhances our ability to solve specific issues that arise in design and construction.

Electronic Plan Review

To confirm, TRB is prepared to track and communicate all plan review comments and approvals through the City-designated electronic system, or any future or anticipated electronic review platform. The staff of TRB has been leaders in the field of digital plan review and workflow management; as such, we have the experience and know-how to efficiently manage the review of electronic documents.

Online Plan Check Status and Records

As highlighted earlier, to facilitate access to plan review findings and status information, TRB is prepared to initiate its Project Website, ***Plan Track Plus®*** for use on this assignment. With our project website, all correspondence issued by our team can be posted and maintained for access by City and designated project stakeholder staff. Our postings can include plan review findings (i.e. approval/comment letters), plan review submittal status information, meeting notes, etc.; all of which may be updated on a daily basis. In addition, if so desired by the City, we can also accommodate incoming electronic document postings (i.e. electronic plans, calculations, RFI's, etc.).



Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Plan Review Process

The following process represents an example plan review workflow. Please note that the plan review workflow utilized for the City will align with the City's specific workflow requirements and needs.

Step 1 - Preliminary Discussions:

Prior to beginning our initial plan review project, we are prepared to conduct a meeting or conference call with the City to discuss local code policies, documentation procedures, plan processing protocols, plan review checklist items, and scheduling.

Step 2 - Initial Review:

Upon receipt of a complete set of plan documents, we will perform our plan review in the agreed-upon timeframe, checking for compliance with all applicable code standards. All corrections are identified based on compliance with specified codes and regulations and worded so the designer will know what needs attention and how to respond to the issue stated. To confirm, we will adhere to the City's Plan Review Turnaround timeframes.

In general, plan review turnaround timeframe is ten (10) business days for initial reviews and five (5) business days for rechecks and revisions. Timeframes for large-size projects will be confirmed with City staff prior to proceeding with the review.

Step 3 - Transmittal of Plans and Comment Lists for Plan Review:

At the heart of our approach in delivering our services to you, is the recognition that there must be a coordinated effort to track and coordinate all submittals and requests received. To ensure that submittals are properly coordinated and tracked, TRB and Associates have established an internal plan review coordination process to ensure that each plan received for review is properly handled, processed, and returned on time. Our plan tracking procedures are computerized to track each submittal through the review process and maintain accurate and comprehensive records for each submittal. Upon completion of our review, any comments generated are consolidated into a correction letter in the City's preferred format which is remitted to the City for its reference.

Step 4 - Rechecks:

Upon receipt of the resubmittal package from the applicant, once we have verified that the resubmittal package is complete, we perform a recheck in the agreed-upon timeframe. This process is repeated until the project plan documents are ready to be recommended for approval.

Step 5 - Plan Approval:

When all review comments are satisfied, we will forward all relevant correspondence bearing our company's "Reviewed for Code Compliance" stamp (including plans, calculations, and specifications), along with a transmittal letter indicating our recommendation for project approval, and the project file to the City for processing.

Shipping and Delivery of Plans

TRB provides pre-printed overnight shipping labels and/or pickup services to facilitate the transport of any hardcopy plan submittals to our office. Please note that the pickup, shipment and delivery of plan documents and other relevant correspondence to the City are provided at no additional cost.

Docusign Envelope ID: 5D6C87ED-84FD-4234-A347-F6D95126A1FD

Building Inspection Scope & Approach [Option]

TRB is prepared to perform inspection, referring to building plans, structural plans, and material specifications for structures located within the City limits, upon 48-hour notice. Our inspectors are proficient at verifying project conformance to model code standards (Building, Electrical, Mechanical, Plumbing, Green Building and Energy & Accessibility) and locally adopted ordinances.

TRB provides all labor and technical, administrative, professional, and other personnel; supplies, materials, equipment, and all other resources necessary to perform the specified work. TRB will use existing City forms or can develop correction sheets which meet with the approval of the City and shall maintain written lists of corrections needed to ensure conformance to codes and regulations.

Field Inspection Process

Our experienced team includes individuals with extensive field inspection experience on a range of project assignment types including municipality "Called Inspections," "Clerk of the Works," and "Inspector of Record" roles; our team can assist with a broad range of inspection responsibilities. Our scope of service areas includes residential, commercial, and industrial facilities, capital improvement projects, municipal agency services and infrastructure revitalization.

Our inspectors are careful to document all inspection activities, adhere to agency-adopted protocols, and follow field procedures and policies as dictated by the Building Official. TRB will maintain daily inspection records and all necessary documents on file for reference by the City. To confirm, TRB staff are available for applicant inquiries and/or conferences during normal City business hours.

Our inspections include those identified in the California Model Codes and which would be amended or modified as directed by the City. Our inspection scope includes:

- Foundation Inspection
- Framing Inspection(s)
- Electrical, Mechanical, Plumbing systems inspection
- Lath and/or Gypsum Board Inspection
- Fire Code Inspection, e.g. fire suppression, alarms, etc. (if requested)
- Concrete Slab or under-floor Inspection
- Energy Efficiency Measures Inspections
- Green Building Inspection
- Fire Resistance Rated Construction Inspection
- Floodplain Inspection
- Final Inspection

Remote Virtual Inspection (RVI) Option

Many agencies have engaged in using virtual programs to provide remote inspection services. Several of our clients have successfully implemented virtual inspection programs. We are familiar with using Inspected.com and Blitzz, as well as Facetime, Skype, Google Duo and Microsoft Teams. We are prepared to assist with RVI inspections if desired by the City.
