

THE MIDTOWN URBAN RENEWAL BOARD OF BOZEMAN, MONTANA

MURB AGENDA

Thursday, July 20, 2023

How to Participate

If you are interested in commenting in writing on items on the agenda please send an email to agenda@bozeman.net or by visiting the Public Comment Page prior to 12:00pm on the day of the meeting.

Public comments will also be accepted in-person and through Video Conference during the appropriate agenda items.

As always, the meeting will be streamed through the <u>Commission's video page</u> and available in the City on cable channel 190.

For more information please contact David Fine, dfine@bozeman.net

A. Call meeting to order at 4:30

This meeting will be held both in-person and also using an online videoconferencing system. You can join this meeting:

Via Video Conference:

Click the Register link, enter the required information, and click submit.

Click Join Now to enter the meeting.

Via Phone: This is for listening only if you cannot watch the stream, channel 190, or attend in-

person

United States Toll +1 253 205 0468

- B. Disclosures
- C. Changes to the Agenda
- D. Public Service Announcements
- E. Approval of Minutes
 - E.1 Approval of Minutes (DiTommaso)

F. Public Comment

This is the time to comment on any matter falling within the scope of the Midtown Urban Renewal District Board. There will also be time in conjunction with each agenda item for public comment relating to that item but you may only speak once per topic.

Please note, the Board cannot take action on any item which does not appear on the agenda. All persons addressing the Board shall speak in a civil and courteous manner and members of the

audience shall be respectful of others. Please state your name and place of residence in an audible tone of voice for the record and limit your comments to three minutes.

G. Action Items

G.1 Recommendation on designation of the Lumberyard Project as an Urban Renewal Project.(Fine)

H. FYI/Discussion

H.1 North 7th Avenue LIHTC Project Discussion & HRDC Presentation (Fleishman)

I. Adjournment

Committee meetings are open to all members of the public. If you have a disability and require assistance, please contact the City for ADA coordination, 406.582.2306 (TDD 582-2301).

In order for this Board to receive all relevant public comment in time for this meeting, please submit via the Commission Comment Page or by emailing agenda@bozeman.net no later than 12:00 PM on the day of the meeting. Public comment may be made in person at the meeting as well.

BOZEMAN^{MT}

Memorandum

REPORT TO: Midtown Urban Renewal Board

FROM: Susan Fraser, board member

Jesse DiTommaso, economic development specialist David Fine, economic development program manager

SUBJECT: Approval of Minutes

MEETING DATE: July 20, 2023

AGENDA ITEM TYPE: Minutes

RECOMMENDATION: I move to approve the March 2, 2023 Midtown Urban Renewal Meeting

minutes.

STRATEGIC PLAN: 1.2 Community Engagement: Broaden and deepen engagement of the

community in city government, innovating methods for inviting input from

the community and stakeholders.

BACKGROUND: In accordance with Commission Resolution 5323 and the City of Bozeman's

Citizen Advisory Board Manual, all boards must have minutes taken and approved. Prepared minutes will be provided for approval by the board at the next regularly scheduled meeting. Staff will make any corrections identified to the minutes before submitting to the City Clerk's Office.

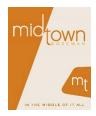

UNRESOLVED ISSUES: Non

ALTERNATIVES: As recommended by the Board.

FISCAL EFFECTS: None.

Attachments: Mar 2 notes.pdf

Report compiled on: March 15, 2023

Unapproved minutes from March 2, 2023 board meeting City Hall's commission room

TO DO List:

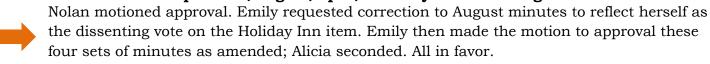

Everyone

attend April 6 board meeting

In attendance: Alicia Ruiz, Nolan Campbell, Susan Fraser, Emily Talago, David Fine

- **A. Call to Order** Nolan called the meeting to order at 4:35pm.
- **B.** Disclosers none.
- C. Changes to agenda none.
- **D. Public Service Announcements** none.

E. Minutes for September/August/April/February 2022 meetings

F. Public Comment

Two community members in the audience, Katie Dolan (sp) and child, residing on Boylan Road and owner of kids' school at The Cannery. Attending as interested in what the board is doing and the assistance opportunities. David offered chat with Katie after the meeting about how to apply.

G. Action Item - FY24 work plan and budget

David presented working document (see Attachment A) for board's initial feedback with plans to make edits and bring back to the April board meeting for final adoption.

Discussion. The 'workforce housing project' line item is connected to the 9TEN project and the board should hear the proposal at the April meeting. Discussion continued.

David will make edits and bring back for board's approval at the April meeting.

H. FYI/Discussion

Nolan asked about bond status. David explained MURB pays 25yr obligation. Nolan asked David to bring potential needs for more bonding to upcoming meetings.

David shared about the apartment project on N. 3rd, 214 units.

Emily noted she thought her term on the board had expired. David explained that due to the pending merging of MURB into the new community board, scheduled for mid-summer, it was OK for Emily to continue serving as-is.

I. Adjournment

Nolan adjourned meeting at 5:51pm.

BOZEMAN^{MT}

Memorandum

REPORT TO: Midtown Urban Renewal Board

FROM: David Fine, Economic Development Manager

SUBJECT: Midtown Urban Renewal District Work Plan and Budget for Fiscal Year 2024

MEETING DATE: March 2, 2023

AGENDA ITEM TYPE: Citizen Advisory Board/Commission

RECOMMENDATION: Discuss Midtown Urban Renewal District Work Plan and Budget for Fiscal

Year 2024 and provide feedback to staff.

STRATEGIC PLAN: 2.2 Infrastructure Investments: Strategically invest in infrastructure as a

mechanism to encourage economic development.

BACKGROUND: Economic Development staff compiled a preliminary budget for discussion

purposes and feedback from the Board. Our intention is that the Board will provide guidance and feedback at this meeting and vote on a final budget at

the regular April meeting.

UNRESOLVED ISSUES: Staff is refining final revenue projection, which could impact the amount

available for spending.

ALTERNATIVES: As suggested by the Board.

FISCAL EFFECTS: Staff is proposing a \$3.373 million dollar budget that expends undesignated

fund balance on projects that create affordable housing and net new taxable

value.

Report compiled on: July 18, 2023

Staff Report

To: Midtown Urban Renewal Board

From: David Fine, Economic Development Manager

Renata Munfrada, Community Housing Coordinator

Meeting Date: July 20, 2023

Subject: Lumberyard Project, Midtown TIF Assistance Application

TIF Assistance Program Overview

The Bozeman City Commission created the Midtown TIF Assistance Program in 2017 to support redevelopment activity and advance the goals of the 2015 Midtown Urban Renewal Plan. The City Commission amended the Program in January 2019. The Midtown TIF Assistance Program supports projects that contribute to the following five goals of the Midtown Urban Renewal Plan: 1) Promote economic development; 2) Improve multimodal transportation; 3) Improve, maintain, and support innovation in infrastructure; 4) Promote unified, human scale urban design; and 5) Support compatible urban density mixed land uses. These goals, as required by statute, focus on mitigating blighting conditions in the urban renewal area. Each of these five goals is further refined with particular criteria for a total of seventeen categories that can receive points. Point awards demonstrate specific compliance with the criteria, but are not the only factors the board may consider in recommending an incentive award. For example, the board may also consider new taxable value created by the project, whether the project would be feasible without a public incentive, and the project's provision of amenities and services that contribute to walkability and quality of life in the district and surrounding neighborhoods.

Staff Recommendation

The City Commission created the Midtown Urban Renewal District in 2006 with the vision of a walkable pedestrian centric area with compact urban density. The Commission adopted 2017 Midtown Action Plan reinforced this vision and named five elements for targeted redevelopment that would help implement the urban renewal plan. These targeted private investment elements included 1) infill, 2) increased building density, 3) encouraging multimodal transportation, 4) retail that serves surrounding residents, and 5) providing housing to support commerce in the area. These goals are represented in the criteria for the Midtown TIF

<u>Assistance Program</u>, whose goal is to promote projects that meet these criteria, drive growth in taxable value, and create demand for market driven redevelopment. At this phase of Midtown's redevelopment lifecycle, few projects containing the target elements are financially feasible, but for TIF incentives. Incentives may create the potential for higher returns to mitigate higher risk, which will likely attract investment that would not occur without these incentives.

Bozeman struggles, given current market dynamics, to facilitate the construction of workforce housing at attainable prices. Recently approved urban renewal projects with a major housing component, such as the Ruh Building and Aspen Crossing required significant assistance to attain feasibility as market rate projects. The addition of affordable units makes the projects even more difficult. The 9TEN urban renewal project became financially untenable and did not proceed.

Virga Capital's Lumberyard Flats Project provides affordable and market rate rentals by using multiple sources of funding including local and federal sources to create a project with market rate rentals and affordable housing. Virga Capital is undertaking the horizontal development and installation of major public infrastructure. Virga Capital also plans to complete the market rate, taxable portion of the project with 285 proposed units. Virga Capital is also delivering on the community need for affordable units by selling one of the new lots created by the installation of public infrastructure to a developer that plans to build at-least 90 units of affordable housing. To ensure long-term affordability, the City would require a restrictive covenant that runs with the land on the affordable parcel to require affordability at at-least 80% AMI for 30 years for at-least 90 units. (The likely affordable project, Reuter Walton's 155-unit, low income housing tax credit project, has submitted a site plan application for review [Application, 23170]). The financial elements of the project have altered significantly through the course of staff negotiations with the developer and entitlement review. The attached memorandum from Baker Tilly includes the most recent request for assistance.

The Midtown TIF Assistance Program allows the payment of eligible costs of development to incentivize development that meets the goals of the Midtown Urban Renewal Plan. The applicant identified several eligible cost areas totaling \$9,639,613. Staff scored the application based on the program criteria. Based on our review and the application materials presented, the project received 34 of 55 available points. The application scored points toward five of five goals of the Midtown Urban Renewal Plan. The project advances the District goal of creating urban density land uses and providing increased housing stock within the District to drive further development.

The appropriate use of public funds necessitates careful financial review of requests for TIF assistance. To ensure that the level of assistance makes the project feasible, but does not provide unreasonable returns to the developer, staff hired Baker Tilly (BT) to provide a third-party assessment of the development pro forma. Staff contracts for this component of the review process to assess the reasonableness of each applicant's incentive request.

The Applicant, Virga Capital, is requesting \$7,581,061 to mitigate the costs of public infrastructure and other TIF eligible fees for the project. The project meets several goals of the urban renewal plan and makes productive use of a poorly located piece of property. Given that this project includes at least 90 units of workforce housing, and restrictions on short term rentals, and Baker Tilly has identified an appropriate level of incentive, Staff recommends that the Board consider an incentive award for the Lumberyard Project

Baker Tilly completed a financial analysis of the project to help staff evaluate the application for creation of new taxable value. Their report helps staff determine whether the project meets the District's goals related to return on investment (ROI), estimated payback period for the public assistance and proposed target metrics for the ratio of private investment to public assistance. The Midtown TIF Assistance Program targets a private investment to public assistance ratio of 10:1 or greater for multi-family projects; the ratio for this project is greater than 14.4:1 for the taxable portion of the project and much higher if the non-taxable LIHTC project is included.

Baker Tilly also created a tax generation model for the Midtown URD. According to their model, the project would produce net new annual taxes of at least \$421,745, which would allow TIF assistance to be paid back in 17.85 years without accounting for the cost of capital. We note that the developer estimates that new annual taxes from the project as closer to \$900,000 annually. This expectation gap makes a pay-go structure particularly well-suited for the project. If developer assumptions on tax payments are more accurate, they will be repaid more quickly; the District, however, does not need to cover debt service based on best-case-scenario assumptions.

Criteria for TIF Assistance

Goal Number 1: Promote Economic Development

Tax Generation: The project will increase the taxable value within the District. The increase
in taxable value due to new construction & rehabilitation is estimated by the County
Assessor's office or State Department of Revenue to determine tax increment generation.
Submit documentation of estimated tax projections to receive points for these criteria.

The project catalyzes development on land that has not been developed due to infrastructure constraints, complex legacy planned unit development rules that needed to be unwound and challenging ownership issues. Based on Baker Tilly's report, we expect annual net new tax revenue between \$421,745 and \$709,469. The Developer is expecting more than \$900,000 per year in annual taxes. At any level, this represents a massive increase in taxable value for the district.

[4 of 4]

2. Elimination of Blight: The project's direct and indirect impact on the physical and fiscal deterioration within the Tax Increment Financing District and the community. Projects that redevelop underutilized properties will be given priority. The characteristics of an underutilized site include land on which development occupies only a small amount, and/or land or buildings that are or have been vacant for some time. Submit information showing current conditions of property.

The project is proposed on undeveloped infill parcel with significant development challenges. The lack of appropriate public infrastructure in this urban setting meets 3 criteria related to the statutory definition of blight including, "substantially impairs or arrests the sound growth of municipalities"; "retards the provision of housing accommodations"; and "aggravates traffic problems". The public infrastructure installed for the project includes the northward extension of N. 15th Ave., a collector, to Tschache Ln., an important through street providing additional east-west connectivity.

[3 of 4]

3. Employment Generation: Total employment generated by the project assessed in terms of new permanent and part-time jobs, and construction jobs. Submit documentation of estimated new jobs to receive points for this criterion.

Long-term employment generation at the site will be minimal, with the primary employment driver being temporary construction jobs. The applicant did not provide sufficient documentation to support this criterion.

[0 of 3]

Goal Number 2: Improve Multi-Modal Transportation

4. Facilitates Public Health and Mobility: Project will construct or improve ADA access to and within existing structures. Provide detailed information demonstrating that the current condition inhibits public health and mobility and the proposed improvements benefit accessibility.

There are no existing structures on the property to which ADA access could be provided.

[0 of 1]

5. Reduces Resource Demand: Project promotes the use of transit, ride sharing, or car sharing. Provide plans, agreements or other methods to demonstrate reduction of resource demand.

The project does not provide adequate documentation to support this criterion.

[0 of 1]

6. Promotes Active Transportation: Project promotes bicycling as an active transportation option by constructing or improving bike lanes, providing covered bike parking, and/or participating in a bike share program. Provide plans, agreements or other methods that demonstrates the project goes beyond the minimum Bozeman UDC requirements for site development.

"The project promotes bicycling as an active transportation option, specifically for exercise on paths near and through the site and for accessing the N 19th Avenue commercial corridor. The project will include ample bicycle parking for residents, visitors, and employees. 11th Avenue and 15th Avenue as collectors include bike lanes. The proximity of the site to neighborhood services encourages active transportation." The extension of the multi-use path on Tschache Ln. and the installation of the bike lane on N. 15th Ave. qualifies the project for points under this criterion.

[2 of 2]

Goal Number 3: Improve, Maintain, and Support Innovation in Infrastructure

7. Infrastructure Improvements: Project promotes innovation in infrastructure and/or reduces long term costs of maintenance. Examples include low impact development for Stormwater, incorporation of green roof design into building architecture, or car charging stations. Low impact development (LID) incorporates designs such as bio retention facilities, rain gardens and permeable pavers. Does the project enable better connectivity or provide critical infrastructure for the community? Provide plans and descriptions of innovations proposed.

Staff supports the Applicant's description of the project's infrastructure improvements:

The project includes both innovation in infrastructure as well as reduction of long-term maintenance. We have low-impact development for Stormwater, as well as car charging stations. Our LID features include bio-retention facilities and permeable pavers. The project enables better connectivity as current right-of-ways do not exist and the project has a ... shared-use path extending east-west connecting two existing trails. The project provides long-awaited key connections of the 11th Avenue & 15th Avenue to Tschache and the N. 19th Avenue commercial corridor. These connections allow continued connectivity and future development in the area of the TIF district.

[2 of 2]

Goal Number 4: Promote Unified Human Scale Urban Design

8. Vehicular Access Points: The project reduces the number of vehicular access points to the property and improves the pedestrian experience. Provide plans, agreements or other methods to demonstrate reduction.

The project does not currently have vehicular access points and, therefore, cannot reduce them.

[0 of 2]

Street Orientation: The project enhances the North 7th Ave. entryway corridor by having buildings oriented toward the street and designed to provide interest and activity.

The project does not front the N. 7th Ave corridor and is not eligible for points under this criterion.

[0 of 2]

10. Pedestrian Experience: The project enhances the pedestrian experience by using a storefront block frontage (BMC 38.510) as a component of the project. Key elements of the frontage would include façade transparency, building articulation, street furniture and/or landscaping. Submit plans and details that address this criterion.

The project enhances the pedestrian experience through the addition of a multi-use path. It does not utilize a storefront block frontage.

[1 of 2]

11. Quality of the Development Exceeds Minimum Requirements: The quality of development and overall aesthetics (architectural, site design, landscaping, etc.) are beyond that which is minimally required by the UDC. Provide a narrative and submit documentation to demonstrate compliance with this criterion.

Staff concurs with the Applicant's description of compliance with this criterion:

The design intends to exceed the Bozeman UDC requirements to deliver a vibrant, cohesive neighborhood comprised of multifamily and LIHTC housing. Additionally the project promotes walkability and connectivity via multiple pathways and delivers ample open space across the landscaped site for residents to enjoy.

[1 of 1]

Goal Number 5: Support Compatible Urban Density Mixed Land Uses

12. Increases Housing Units: The project increases housing units within the District. Submit plans demonstrating an increase in the number of housing units.

The project proposes 285 conventional apartment units and at least 90 workforce housing units meeting the City's definition of affordable rentals for a total of 375 new housing units. The development includes a mix of studio, one-bedroom, two-bedroom, and three-bedroom floorplans.

[6 of 6]

13. Mix of Uses Including Residential: The project is a mix of residential and commercial. Commercial uses include retail, restaurant, office and services. Hotels would not be supported unless included with a project that included residential development. Submit plans detailing the proposed mix of uses within the project.

The overall development includes a cohesive residential community that serves multiple income levels. However, there are no commercial uses within the project.

[0 of 6]

14. Shared Parking: The project shares parking among compatible uses. Provide details demonstrating compliance with the UDC and as well as total number of parking spaces reduced because of a shared arrangement.

The project does not have a formal shared parking agreement or lend itself to compatible shared uses of parking.

[0 of 2]

15. Affordable Dwelling Units: The project provides affordable dwelling units. For the purposes of this criterion, an affordable dwelling unit is defined as a unit that requires no more than 33 percent of a household's income for housing payments based on a designated percentage of area median income (AMI). Eligible rental units shall be affordable at 80% AMI and eligible for sale units shall be affordable at 120% AMI, as defined by the most recent Affordable Housing Ordinance. Condominium units are eligible as for sale units. Additional points may be awarded for projects that provide on-site housing for the proposed workforce.

Eligible rental dwellings to be constructed in the proposed residential development shall be provided by long-term contractual obligation to an affordable housing agency, for a period of not less than 30 years, with a written plan assuring ongoing affordability guidelines and subsequent revisions establish affordability and eligibility. To receive 3 points under this criterion, 10% of all units must meet the affordability criteria. To receive 6 points under this criterion, 20% of all units must meet the affordability criteria.

The project includes conventional multifamily housing and Low-Income Housing Tax Credit (LIHTC) housing. The West Block will restrict affordability by covenant that runs with the land and deliver a minimum of 90 working housing units meeting the City's definition of affordable rentals at 80% AMI for a period of 30 years from the certificate of occupancy. There is currently a LIHTC developer under contract to provide the units and if that contract falls through, the land will continue to be restricted for affordable housing. As a result, the Lumberyard project will have a least 24% long-term affordable units and will satisfy this criterion.

Overall District Relevance

16. Relevance to the Midtown Urban Renewal Plan: Documentation of the project's impact in relation to the goals and objectives of the Midtown Urban Renewal Plan, particularly mixeduse development. Urban design elements are also considered, including pedestrian emphasis and quality of design.

The Applicant demonstrates that the Lumberyard Flats Project meets all 5 goals of the Midtown Urban Renewal Plan. In addition, the project serves the number one focus area of the Midtown Action Plan, which is to build housing adjacent to the corridor to add the urban density that is necessary to support vibrant and walkable commercial centers. The high number of workforce housing units, including at least 90 and possibly 155 units of affordable housing is of particular benefit in providing long-term affordability for the City as a whole.

[5 of 5]

17. Private / Public Investment Ratio: The investment of public funds in the project results in a leverage ratio of at least 10:1 for multifamily, 8:1 for commercial, or 5:1 for family wage jobs.

The investment of public funds results in a 14.4:1 leverage ratio.

[4 of 4]

Total Points (34/55)

Memorandum

To: David Fine, City of Bozeman

From: Mikaela Huot, Director

Date: June 15, 2023

Subject: Review of Request for Financial Assistance through Tax Increment Financing

(TIF) District for Virga Capital (The Lumberyard Flats Project)

Executive Summary

The City of Bozeman (the "City") received an application from Virga Venture I LLC / Virga Capital (the "Developer") for financial assistance through Tax Increment Financing (TIF) to assist with offsetting a portion of the development costs related to the construction of a new market rate multifamily housing project (the "Lumberyard Flats Project"). The original application included an approximate 303-305-unit housing project with 18,000 square feet of commercial space on the first floor and a total development cost of \$145 million. The project also included a proposal that would dedicate Block 2 for construction of a 90-unit Low-Income Housing Tax Credit (LIHTC) project at 80% area median income (AMI) for a period of 15 years from the certification of occupancy. The original application for TIF Assistance from the Developer was approximately \$8,785,605.

Since the original application was submitted, the scope of the project has evolved as related to 1) total number of units (reduced from 303-305 housing units with commercial space to a revised estimate of 285 housing units and no commercial space) and 2) total development cost – reduced from original estimate of \$145 million to \$109 million. The LIHTC project details have also evolved, and the project is now proposed as a 155-unit housing development project with all of the units at 60% AMI. Total investment for both Projects is over \$160 million. The Developer initially requested \$8,785,605 of financial assistance through tax increment financing (TIF) to assist with offsetting a portion of the development costs including Public Infrastructure Costs, Impact Fees, CILP, CILW, Franchise Utility Fees, and Bozeman Fiber Optic. The identified TIF-eligible costs and request for assistance increased to \$9,639,613 as of May 2023 to include the financing needs for the Lumberyard Flats and LIHTC Projects.

As a component of approvals for the Lumberyard Flats Project and the corresponding Development Agreement between the City and Developer for the public assistance package as further described in the memo, the Developer will be required to place a restrictive covenant on the adjacent parcel (Block 2) to include the construction of an affordable housing project (minimum 90-unit development with income levels of occupants no greater than 60% area median income). Reuter Walton is proposing the construction of a 155-unit affordable housing project (the LIHTC Project) that would meet that requirement. After review of the TIF application and supporting financial details of the Lumberyard Flats Project, the recommended level of assistance is \$7,581,016 to offset a portion of the requested TIF-eligible project costs and to incorporate the financing needs for the LIHTC project.

Prior to providing financial assistance, there are findings that need to be made by the City that include: 1) determination that a project qualifies and 2) determination that the project as proposed would not proceed without public assistance (meeting the "but-for" test). It can also be beneficial to make a determination that the estimated market value created on the site with tax increment financing assistance is greater than what would be created without assistance. When reviewing requests for financial assistance it is important to understand how the level of financial assistance would impact the ability of the project to proceed as proposed and maximize new value created on the current project site. The Developer applied for financial assistance including a description of the market rate housing project with supporting financials and other financing assumptions

including financial projections for future cash flow performance of both the multifamily and affordable housing developments.

The purpose of this memorandum is to provide a summary of Baker Tilly's review of the project costs and operating pro forma, as provided by the Developer to assist the City with making a determination if the project, as proposed, would be unlikely to proceed "but-for" the requested assistance, and to determine the appropriate amount, if any, of public assistance. A summary of the analysis related to the LIHTC Project is written as a separate memo.

Following review of the Developer's identified financial gap and need for public assistance, and projected financial performance of the project upon completion, we can recommend support of providing financial assistance for the project up to the requested amount of \$7,581,016. Additional details regarding the proposed financial assistance package are included within Project Financing on page 2.

Developer Request for Assistance

The Developer is proposing an approximate \$109 million market rate housing project that would be funded initially with an estimated \$38.2 million of Developer equity (35%) and \$70.8 million of private financing (65%). City upfront funding of \$2.0 million would reduce the permanent upfront equity investment. We may see typical lending standards for similar projects in the 65-75% range, subject to terms of debt (interest rate and number of years) and availability of net operating income to support debt service payments. Project costs not supported by debt financing will be supported through equity or other funding (public) sources. It is possible based on the actual funding structures that the levels of debt and equity may adjust based on financial performance. Financial assistance from the City of Bozeman has been requested to reduce the permanent equity commitment for a portion of the extraordinary costs to meet minimum equity requirements and debt coverage ratios. The Developer's request for assistance has included the City financing a portion of the TIF-eligible project development costs as reimbursement through bond issuance and pay-as-you-go financing following requirements of project completion via terms of the Development Agreement between the City and Developer. The Developer's request for tax increment assistance is comprised of two tiers.

- 1) upfront lump-sum financing for part of the eligible off-site infrastructure costs associated with the construction of N 15th Ave, Tschache Lane, and N 14th Ave upon substantial completion and concurrent deed restriction of the West Block as further described below. The first tier of recommended assistance is upfront financing of \$2,000,000 (subject to terms of the Development Agreement).
- 2) take-out financing for the balance of eligible costs associated with the development upon the certificate of occupancy of the Lumberyard Flats and LIHTC Projects. The second tier of recommended assistance is pay-as-you-go financing of \$5,581,016 (subject to terms of the Development Agreement).

The Developer stated in the application for assistance that the offsite infrastructure for this project would enable future development opportunities of surrounding land and has provided tax increment revenue estimates for additional completed developments in the District. The Developer indicates these projects would benefit from the off-site infrastructure improvements, in addition to the proposed Lumberyard Flats and LIHTC Projects. For purposes of our analysis, we are focusing solely on the need for financial assistance for the Lumberyard Flats Project based on the Developer's submitted financing information.

We may expect to see certain development costs associated with new construction projects including acquisition, site development and improvement costs, enhanced infrastructure improvement costs and structured/underground/enhanced parking. For this project, the Developer has indicated that tax increment financing assistance is necessary for the Project to proceed, as well as provide additional development opportunities in the area, and has identified several TIF-eligible development costs as requested be supported by the City. Extraordinary development costs that cannot be supported solely by the project alone typically may justify the need for some type of public financial assistance. The Developer's total development cost budget and funding sources for the Lumberyard Flats Project are listed below.

Sources	Amount	Development Costs	Amount
External Partners Equity	\$34,342,859	Land	\$7,575,000
Debt	\$70,171,676	Construction Hard Costs	\$68,909,139
Virga Capital Equity	\$3,815,873	Eligible Infrastructure Costs	\$5,208,009
		Eligible Impact & Cash-in-Lieu Fees	\$2,913,573
TIF Upfront		Soft Costs	\$9,495,848

TIF PayGO *		Financing Costs	\$5,543,124
		Owner Contingency	\$4,845,378
		Developer Fee	\$3,175,485
		Municipal Fees	\$1,359,787
Total Sources	\$109,024,929	Total Development Cost	\$109,025,343

^{*} Public assistance through TIF as PayGO (up to the requested \$5,581,016) would be used to reduce the level of permanent equity and/or increase level of debt service (pay-as-you-go) with additional annual cash flow provided through future tax increment revenues

The Developer's request for financial assistance from the City for construction of the project and sale of property for the LIHTC project is in the table below identifying both the requested amount for individual categories as well as the suggested potential costs that could be supported by the Lumberyard Flats Project.

Categories of Costs (both Market Rate and LIHTC Project)	TIF-Requested Project Costs
Offsite Costs	•
Offsite Infrastructure Costs	\$2,825,335
Civil and Design	\$151,299 *
Virga Construction Management Fee	\$141,267 *
CA	\$312,100
Northwest Energy/Bozeman Fiber	\$705,000
Interest on Offsites	\$78,149
Subtotal Offsite Costs	\$4,213,149
Overall Project Costs	
Water/Sewer (Onsite)	\$746,860
Subtotal Overall Project Costs	\$746,860
Total Offsite and Overall Project Costs	\$4,960,009
Onsite Costs	
Flats Project	
Impact Fees and CIL of Water	\$2,495,084
Cash-in-Lieu of Parks	\$280,472

Flats Subtotal	\$2,913,573
LIHTC Project	
Impact Fees and CIL of Water	1,296,646
Cash-in-Lieu of Parks	\$148,373
Municipal Fees Contingency	\$73,012
LIHTC Subtotal	\$1,518,031
Total Onsite and Municipal Fees Costs	\$4,431,604
Total Project Contingency	\$248,000
Total TIF Eligible Costs	\$9,639,613
Total TIF-Eligible TIF-Requested Project Costs	\$7,873,582
* Less: Non-Eligible TIF-Requested Project Costs	\$292,566
Total Recommended TIF Assistance	\$7,581,016

Project Financing

There are different ways in which financial public assistance can be provided for development projects and historically the City has provided assistance through the issuance of tax increment revenue bonds upon some or all of project completion (take-out financing). This method can reduce the risk of debt issuance of the City as the development being completed is the source of revenue for which the tax increments are generated to repay the debt service. Alternate financing approaches to be considered (and as further described) may include upfront (prior to project completion) and/or on a pay-as-you-go basis (Developer financed and reimbursed over time with future increments).

With take-out financing, the Developer is responsible for financing all costs upfront through private investment (or other funding sources) and the City would reimburse a portion of those costs through bond issuance upon completion of the project (or determined level of private investment made or development completed) to generate sufficient revenues for debt repayment.

With upfront financing, the City would finance a portion of the Developer's initial project costs through the issuance of bonds or as an internal loan. This is generally done prior to construction commencement and used as a funding source when the Developer is unable to obtain sufficient upfront funds to pay all project costs. In certain cases, not all project costs generate revenues, and a development may experience a value gap, in which upfront funding is necessary to support all project costs. In this scenario, future tax increments generated by the new development would be collected by the City and used to pay debt service on City-issued bonds or repayment of an internal loan (subject to actual financing terms).

With pay-as-you-go financing, the Developer would finance all project costs upfront and would be reimbursed over time for a portion of those costs as revenues are available. Pay-as-you-go-financing is generally more acceptable than upfront financing for the City because it shifts the risk for repayment to the Developer. If tax increment revenues are less than originally projected, the Developer receives less and therefore bears the risk of not being reimbursed the full amount of their financing. However, in some cases pay as you go financing may not be financially feasible. With bonds, the City would still need to make debt service payments and would have to use other sources to fill any shortfall of tax increment revenues. With internal financing, the City reimburses the loan with future revenue collections and may risk not repaying itself in full if tax increment revenues are not sufficient.

The recommended structure of City assistance to the developer includes upfront bond financing to pay for a portion of the identified TIF-eligible costs (up to \$2,000,000) as deemed necessary for development of the project. The remaining assistance (\$5,581,016) would be provided as pay-as-you-go following the Developer incurring the actual project costs subject to reimbursement by the City with collection of future TIF revenues. Review of the Developer's cash flow performance and discussions with the Developer have indicated financial assistance through pay-as-you-go would be financially feasible based on current market conditions.

Financing Assumptions

The assumption is that future tax increment revenues generated from the new housing development would be the source of repayment for the new project bond debt service. The property is currently paying taxes of approximately \$43,000. The Developer provided total existing taxes of closer to \$48,443 that also includes adjacent parcels. Upon development of the Projects, the Developer has estimated the new tax amount would be closer to \$900,000. Additional analysis of the estimated total revenues and estimated increment amounts is listed in the table below. These estimates are based on the Lumberjack Flats Projects as the LIHTC Project is not expected to pay taxes. Certain assumptions were used to estimate the projected available property taxes and applicable tax increment revenues to assist with understanding feasibility of the project to support debt repayment up to the recommended assistance amount to support a portion of the infrastructure improvements. For purposes of our analysis, we are using estimates of total construction cost and comparison estimates to provide a range of projected taxable values of the project upon completion. Using the available information that has been provided and making some additional projections and assumptions, the table below illustrates a potential range of estimated valuations and corresponding revenues. We anticipate there may be adjustments as additional project details become available and building construction commences.

	Scenario 1	Scenario 2	Scenario 3	Scenario 4
Total Development Cost	\$109,025,343	\$109,025,343	\$109,025,343	\$109,025,343
Total Construction Cost	\$68,909,139	\$68,909,139	\$68,909,139	\$68,909,139
Basis for Taxable Value	90% Dev Cost	100% Const Cost	\$250,000/unit	\$200,000/unit
Estimated Market Value	\$98,122,809	\$68,909,139	\$71,250,000	\$57,000,000
Estimated Tax Revenues	\$752,406	\$528,395	\$546,345	\$437,076
Existing Taxes	\$42,936	\$42,936	\$42,936	\$42,936
Estimated Annual Incremental Tax	\$709,469	\$485,459	\$503,409	\$421,745
Estimated Available Annual Revenues (80%)	\$567,576	\$388,367	\$402,727	\$337,396

Developer Pro forma Analysis including But-For

Upon approval of a TIF project, the City must make several findings, including the "but for" test: that the proposed development would not reasonably be expected to occur solely through private investment within the reasonably foreseeable future. The Developer has stated the assistance is necessary due to the high costs of developing the site, that includes acquisition of the property and installation of infrastructure, along with the inability of the project to support those costs upon completion. The current estimated project costs (\$109,025,343) are in excess of the estimated future value of the building upon development (estimated range of \$57-\$98 million). Based on the Developer's stated position relative to the need for tax increment financing assistance, the City could make its "but for" finding and provide tax increment assistance.

We recommend, however, that the City also consider an appropriate level and type of TIF assistance for the project based on the information submitted by the Developer. The recommended level of assistance of \$7.5 million is approximately 7% of total development costs. We understand that due to the Developer's desire and vision for development of the project site (including sale of adjacent parcel and need to facilitate subsequent construction of the new affordable housing project) that there are additional costs to be incurred that enable the Lumberyard Flats and LIHTC Projects to proceed. Not all those costs will equate to increased value to the Developer, as represented by the total estimated taxable value upon completion.

Following thorough evaluation of the project as provided allows the City to be prepared to make an informed "but-for" decision based on the likelihood of the project needing assistance, as well as the appropriate level of assistance. To complete this analysis, we reviewed the Developer's provided operating proforma and constructed similar ten-year project proformas, showing a result if the Developer received the assistance and showing a result if the Developer did not receive assistance. Our analysis of the proformas included a review of the development budget, projected operating revenues and expenditures, and the project's capacity to support annual debt service on outstanding debt. The purpose of evaluating the operating proformas is to understand the potential returns to the Developer through initial development and completion of the project (stabilization) and the operation of the enterprise over a 10-year period. The Developer is analyzing performance based on annual returns.

Generally, should the rates of return lie below a reasonable range without assistance; we could assume the project as proposed would not move forward without assistance. Should the returns lie within a reasonable range with the assistance, we could assume the amount of assistance tested is appropriate for the project. All such estimates should be viewed as general indicators of performance and not exact forecasts. The number of current and future variables affecting these estimates and actual results are great. There is no set rate of return benchmarks that dictate whether a project needs TIF assistance or not; however, there are market industry standards for certain types of projects, as well as more specific investor/Developer thresholds that need to be achieved.

An additional measure of project feasibility is the Debt Coverage Ratio (DCR), which is a calculation detailing the ratio by which operating income exceeds the debt-service payments for the project. If the DCR is greater than 1.0 it indicates the project has operating income that is greater than the debt-service payment by some margin; conversely if the DCR is less than 1.0 it indicates the project is incapable of meeting its debt-service payment and would need to seek additional revenue sources in order to pay its debt. Typical lending standards will require a DCR of significantly greater than 1.0 as a measure of cushion in the event actual revenues and expenses are different than projected. The Developer's operating proforma includes meeting minimum DCR of closer to 1.15x, which could be considered reasonable for this type of project. It also illustrates that the project would not be able to support additional debt as a potential means of reducing the required level of equity and increasing the projected rate of returns.

Our review of the operating proformas both with and without assistance, as well as modifications to the operating assumptions, provides a projected range of equity returns to the Developer including annual cash-on-cash upon project stabilization, yield on cost, and both leveraged and unleveraged internal rate of return (IRR). Testing the assumptions used to prepare the operating proformas assists with understanding how adjustments made to the upfront levels of debt and equity amounts, and operating details that include annual revenues

generated from the new housing units and other supporting uses, vacancy rates and operating expenses for the project and annual revenue and expense inflators are expected to impact the projected Developer returns.

The Developer has provided projected annual cash-on-cash returns of the project without financial assistance resulting in projected below market returns. Financial assistance from the City would increase the projected returns as it would reduce the Developer's permanent equity investment in the project. This is based on information provided by the Developer regarding the annual operating assumptions for revenues and expenditures and debt service payments. The analysis includes assumptions relative to the multifamily housing industry terms including projected lease rates and other operating revenues, vacancy rates and operating expenses to understand net operating income (NOI) as a function of availability of revenues to support debt service to meet minimum debt coverage ratios and equity investor returns. Based on the Developer's assumptions used in the original operating proforma illustrating projected cash flow of the project upon completion, public assistance would be considered necessary to increase the Developer's projected annual cash-on-cash rate of return.

Review of the operating proformas based on with assistance and with no assistance provides an understanding of the potential range of financial feasibility for this project and what the estimated gap would be without assistance. It is important to note that certain assumptions were made based on the applicant's provided information and market industry standards for annual lease rates, vacancy rates and annual revenue and operating expense inflators to provide an understanding of the project performance. Adjustments made to those assumptions assist in determining potential impacts on project performance and what a required level of assistance (type and total amounts) may be. Below is a summary of the applicant's financial assumptions related to the operating proforma:

- 1) 2% annual revenue and 2% expense inflator
- 2) 5% vacancy rate
- 3) 33% operating expense ratio
- 4) 285 rental units average \$2.54/SF rent
- 5) Parking income
 - a. Ranging from \$35/month for car ports (87 spaces) to \$125/month for tuck under (69 spaces)

To understand viability of the project and need for an appropriate level of public assistance, we provided a sensitivity analysis to the proformas with adjustments made to the total project costs (including land/building acquisition, construction costs, soft costs, Developer and other related construction management fees and contingency) and corresponding funding sources, as well as projected annual lease rates and operating expenses. Realizing any adjustments is all subject to market conditions. The purpose of the sensitivity analysis is to test the level of assistance that may be needed using those assumptions to understand if the recommended level of assistance could be consistent with the City's objectives resulting in less assistance than what has been requested. We have also reviewed the project assumptions in light of the adjustments made to the project details as described under the Executive Summary.

Conclusion

The Developer is proposing a \$109 million project comprising of development of the project site including construction of 2 multifamily housing projects (one market rate with 285 units and one affordable with 155 units). Financial assistance of approximately \$7.5 million has been recommended from the City of Bozeman to finance a portion of the development costs including public infrastructure costs, impact Fees, cash-in-lieu for parks, cash-in-lieu for water, franchise utility fees, and fiber optic as related to the project. The Developer's application and supporting financial data illustrate a need for public assistance to reduce Developer equity and increase the projected rates of returns. Additional due diligence review of the provided financial information with sensitivity analysis of the assumptions based on market data has resulted in support for the need for public assistance. However, following review of the financial project components of the project, it has been determined that providing financing for certain development costs would be consistent with the city's use of tax increment financing, but not to the full requested level, based on what is considered extraordinary for the project. It is also important to understand that the projected performance of the project will be dictated by actual market and financial conditions. Should actual lease rates and net operating income greatly exceed current and forecasted market trends, project performance would be expected to increase, but not to a level significant enough to reduce the need for public assistance. Costs that could be considered to be supported for reimbursement through TIF are listed below as Potential TIF Costs.

Categories of Costs (both Market Rate and LIHTC Project)	TIF-Requested Project Costs
Offsite Costs	į
Offsite Infrastructure Costs	\$2,825,335
Civil and Design	\$151,299 *
Virga Construction Management Fee	\$141,267 *
CA	\$312,100
Northwest Energy/Bozeman Fiber	\$705,000
Interest on Offsites	\$78,149
Subtotal Offsite Costs	\$4,213,149
Overall Project Costs	
Water/Sewer (Onsite)	\$746,860
Subtotal Overall Project Costs	\$746,860
Total Offsite and Overall Project Costs	\$4,960,009
Onsite Costs	
Flats Project	
Impact Fees and CIL of Water	\$2,495,084
Cash-in-Lieu of Parks	\$280,472
Municipal Fees Contingency	\$138,017
Flats Subtotal	\$2,913,573
LIHTC Project	
Impact Fees and CIL of Water	1,296,646
Cash-in-Lieu of Parks	\$148,373
Municipal Fees Contingency	\$73,012
LIHTC Subtotal	\$1,518,031
Total Onsite and Municipal Fees Costs	\$4,431,604
Total Project Contingency	\$248,000
Total TIF Eligible Costs	\$9,639,613
Total TIF-Eligible TIF-Requested Project Costs	\$7,873,582
	4000 700
* Less: Non-Eligible TIF-Requested Project Costs	\$292,566
Total Recommended TIF Assistance	\$7,581,016

Without public assistance the project is expected to generate below market investor returns. With assistance at the recommended level, the project performance is expected to increase, but still be on the low range of market returns. The financial analysis demonstrates that public assistance through TIF from the City of Bozeman has a positive impact on the project and the level of financial assistance to be considered could be considered a reasonable level and provide for a financially feasible project. Based on financial performance of the project following new construction and stabilization, it appears public assistance for certain costs could be provided as either takeout financing (City debt issuance) or pay-as-you-go reimbursement financing. The ability of the Developer to obtain financing and using future tax increment revenues for repayment will be subject to credit and marketability of the project. Development of the project site is expected to result in the increase of property values and taxes generated from the site. The projected range of taxable values and correlating tax estimates is included in the chart under Financing Assumptions. The incremental taxes generated from the new taxable value would be used to finance the TIF-eligible costs of the Projects.

PROPERTY INFORMATION

Property Address:	NW Corner of Patrick St and N 11 th Ave
Property Owner / Developer	Virga Venture I LLC / Virga Capital
Legal Description	Parcel 1: Lot 3A of the Amended Plat of Lot 3, Block 3 and Lot 6A of PT Land Phase 2 Subdivision, City of Bozeman, Gallatin County, Montana, according to the official plat thereof on file and of record in the office of the County Clerk and Recorder of Gallatin County, Montana. (Plat Reference: J-498A) Parcel 2: Lots 1 and 2 of Block 3 of PT Land Phase 2 Subdivision, City of Bozeman, Gallatin County, Montana, according to the official plat thereof on file and of record in the office of the County Clerk and Recorder of Gallatin County, Montana. (Plat Reference: J-498)
	Parcel 3: Easements and other rights contained in Declaration of Covenants and Restrictions PT Land Subdivision, recorded March 27, 2008, Document No. 2295422, and Amended Declaration of Covenants, Conditions and Restrictions PT Land Subdivision, recorded August 28, 2015, records of Gallatin County, Montana. Note: While the TIF is being reviewed, the property will go through a Common Boundary Relocation (CBR). Moving forward, any reference in this application will be based on the future lot configuration. Once the Common Boundary Relocation is complete, the site will comprise two lots on the West Block (Block 2) for the Commercial and Deed Restricted affordability project and one large lot on
	the East Block (Block 3) for the Flats.

PROPERTY INFORMATION

	legal@virgacapital.com

COMPANY PROFILE

Business Location:	The project site is a vacant, undeveloped parcel located at the northwest corner of Patrick and 11 th Avenue.
Year Business Established:	2020
Type of business:	Virga Venture I LLC is a real estate holding entity.

PROJECT DETAIL

Property Status:	Vacant undeveloped land.
Type of Assistance Sought:	Public Infrastructure Costs, Impact Fees, CILP, CILW, Franchise Utility Fees, Bozeman Fiber Optic
Value of TIF Assistance Sought:	Approx. \$8,785,605
Will this project proceed if TIF assistance is not granted?	The project will not move forward as presently designed.

INSERT SIGNED APPLICATION

Please attach a list of all other property owners, business partners, developers and/or investors associated with this project, with the above information provided for each.

This application must be signed by both the applicant(s) and the property owner(s) (if different).

I (we), by signature below, certify that the information supplied in this application is, to the best of my (our) knowledge, true, accurate, and complete, and is provided for the purpose of obtaining approval to participate in the Midtown Urban Renewal District TIF assistance program. I (we) understand that failure to comply with the terms of the TIF assistance program may result in revocation of an award.

I (we) understand the work to be undertaken must be in accordance with all applicable requirements of the Bozeman Municipal Code and any special conditions established by the approval authority and must receive all required approvals prior to commencing the work. I (we) understand if approved for TIF assistance, the work to be performed must also be in accordance with TIF assistance program procedures and the general design guidelines for the District, as well as the specific plans approved for the project. I (we) acknowledge that the City has an Impact Fee Program and impact fees may be assessed for my project. Further, I (we) agree to grant City personnel and other review agency representative's access to the subject site during the course of the review process (Section 38.34.050, BMC).

PROJECT NARRATIVE

The Lumberyard is a planned ground-up development located at the northwest corner of N. 11th Avenue and Patrick Street, extending west to N. 15th Avenue and north to Tschache Lane. The project site, situated in the Midtown Urban Renewal District, is currently a vacant parcel of land. The project will deliver a mix of uses at completion, including conventional multifamily housing and LIHTC housing.

The project aims to promote a high quality of life and a healthier lifestyle. The project site is centered around a privately maintained, shared-use walking path, with access and storage for bicycles throughout the site. To the project's west is the Bridger Peaks Town Center, which features a grocer, several banks, restaurants, and clothing stores. The shopping center is less than 900 feet from the project site promoting walkability and bike-ability for future residents.

In addition to walkability and bike-ability, the project encourages the reduction of a carbon footprint through the use of public transit and electric vehicles. Within two blocks are one current and one future Blue line bus stop, which feature connectivity to the 19th Street corridor, the 7th Street corridor, and downtown Bozeman.

Proposed Uses

East Block ("Block 3")

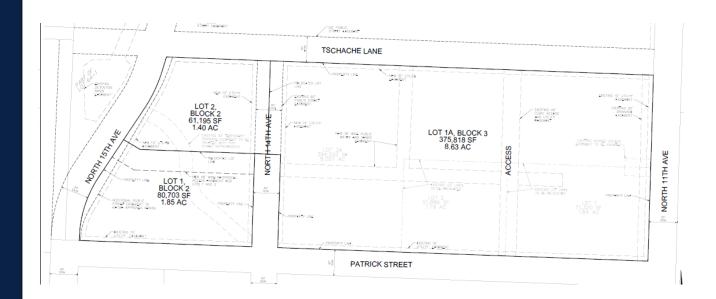

This project will be comprised of five 4-story 57-plex buildings along with six 2-story 3-plex carriage houses and a central amenity/leasing center (~6000 SF) for its residents for a total of 303 residences. The residences will be a mix of studio, 1-, 2- and 3-bedroom homes with tuck-under parking. The project's amenity/leasing center will feature flexible indoor recreation, gathering, and fitness areas indoors and will include multiple private gathering areas, outdoor game activity areas, and shared green space. There will also be dog runs placed accordingly on the property. The residences have been arranged on-site to take advantage of the unique location of the parcel. Multiple buildings in a small auto court configurations help to organize the site. The exterior design of the buildings will promote a distinctive multi-family style with materials, massing, and details that are compatible with the surrounding neighborhoods. The four-story massing is broken up with a variety in detailing, materials, color, and elevation forms.

West Block ("Block 2")

The West Block (Block 2) is still in the initial planning phase and will include a Low-Income Housing Tax Credit (LIHTC) community. We are proposing to deed restrict Block 2 with 90 LIHTC units at 80% AMI for a period of 15 years from the certificate of occupancy.

PROJECT NARRATIVE continued

Below is a preliminary civil set that outlines the blocks referred to above.

Projected Timeline

Y	Site Acquisition:	July 2021
Y	Zoning Change from B2 to B2-M:	April 2022
>	Off-Site Construction Start:	Summer 2022
	LIHTC Construction Start:	Winter 2024
	Flats Construction Start:	Winter 2024

Promote Economic Development

1.	Tax Generation: At construction completion, the project will greatly increase the tax base for the site. Once the offsite infrastructure is completed and the project catalyzes the streetscape and surrounding area, we expect rising surrounding property values and additional development to follow on adjacent parcels.	4/4
2.	Elimination of Blight: Currently, the 11.89-acre site is vacant land, and the surrounding streets: Tschache Lane, N 14th Avenue, and N 15th Avenue, are undeveloped. Once construction is complete, the project site will feature a cohesive and robust development, built-out streets, and updated pedestrian access in the form of sidewalks and walking paths. Further, the completion of Tschache provides connectivity between Midtown and the 19th Avenue commercial corridor.	4/4
3.	Employment Generation: Employment generation at the site will be long-lasting. A local team of consultants and contractors will design and construct the project. During construction, the project could employ up to 50+ people at a given time. The multifamily will be a long-term employer of multiple onsite staff including property managers, maintenance staff, as well as third-party contractors.	3/3

Improve Multi-Modal Transportation

4.	Facilitates Public Health and Mobility: The project promotes accessibility as the current site is undeveloped and restricts connections between existing streets and trails. The proposed project will provide connectivity across the property with a privately maintained shared-use path, beginning at the southwest corner through the center of the property and ending at the northwest corner. This trail will be a privately maintained shared-use path available for multi-modal transportation. Additionally, all portions of the project will have ADA-accessible features. The proposed project will provide spaces for active recreation.	1/1
5.	Reduces Resource Demand: The project promotes the use of transit as our shared-use path directs users to (2) nearby transit stops within 800' of the site. (1) transit stop is currently existing, while the second is proposed and not currently built due to the undeveloped streets in the area. The proximity of the site to neighborhood services promotes efficient use of resources. Additionally, the proposed development aims to include electric vehicle charging stations with the flexibility to add more as EV adoption becomes more prevalent.	1/1
6.	Promotes Active Transportation: The project promotes bicycling as an active transportation option, specifically for exercise on paths near and through the site and for accessing the N 19th Avenue commercial corridor. The project will include ample bicycle parking for residents, visitors, and employees. 11th Avenue and 15th Avenue as collectors include bike lanes. The proximity of the site to neighborhood services encourages active transportation.	2/2

Improve, Maintain and Support Innovation in Infrastructure

7. **Infrastructure Improvements:**

The project includes both innovation in infrastructure as well as reduction of long-term maintenance. We have low-impact development for stormwater, as well as car charging stations. Our LID features include bio-retention facilities and permeable pavers. The project enables better connectivity as current rightof-ways do not exist and our project has a privately maintained shared-use path extending east-west connecting (2) existing trails. The project provides long-awaited key connections of 11th Avenue & 15th Avenue to Tschache and the N 19th Avenue commercial corridor. These connections allow continued connectivity and future development in the area of the TIF district.

Promote Unified Human Scale Urban Design

8. Reduce Vehicular Access: 2/2 The project improves the pedestrian experience through the construction of sidewalks around the site's perimeter and the walking path that bisects the property. Additionally, the improvements on Tschache Lane, N 15th Avenue, and N 14th Avenue reduces the impact on existing infrastructure. 9. **Enhances North 7th Ave Entryway Corridor:** 2/2 The project would be the first of its kind in the Midtown Urban Renewal District, a predominantly commercial use district. The addition of residents will benefit businesses and improve walkability of the neighborhood tremendously. 10. **Street Frontage:** 2/2 Thoughtful site planning with the inclusion of parking interior to the site, allowing buildings to front the exterior give the feeling of the Storefront Block Frontage Standards. Additionally, we will introduce building articulation, landscaping throughout the site, and building access from the streetscape to engage street frontage.

2/2

Promote Unified Human Scale Urban Design

11. Quality of Development and Overall Aesthetics: The design intends to exceed the Bozeman UDC requirements to deliver a vibrant, cohesive neighborhood comprised of multifamily and LIHTC housing. Additionally, the project promotes walkability and connectivity via multiple pathways and delivers ample open space across the landscaped site for residents to enjoy.

Support Compatible Urban Density Mixed Land Uses

12.	Increases Housing Units: The project proposes 303 conventional apartment units and 90 LIHTC housing units for a total of 393 new housing units. Throughout the development, we've included a mix of studio, one-bedroom, two-bedroom, and three-bedroom floorplans.	6/6
13.	Mixed Use: The overall development includes a cohesive residential community that serves multiple income levels.	6/6
14.	Shared Parking: Internal parking lends itself to being easily shareable between communities.	2/2

Support Compatible Urban Density Mixed Land Uses

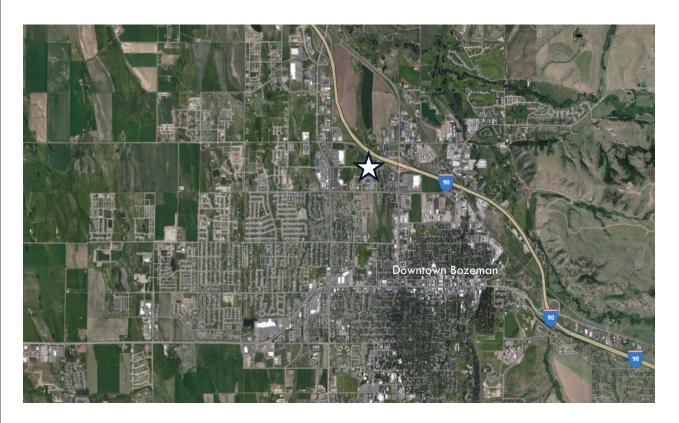

15.	Affordable Dwelling Units:	3/3
	The West Block will deed restrict and deliver a minimum of 90 LIHTC housing	
	units for a period of 15 years.	

Overall District Relevance

16.	Relevance to the Midtown Urban Renewal Plan: The Lumberyard's mixed-use program aligns with all goals of the MURP. The residential programs promote mixed land uses, in a unified development, focused on human-centric site design, that connects users not just of the residential components, but outside the community to the commercial uses on-site that lead to the economic development of this area. In addition, the development adds critically needed street infrastructure.	5/5
17.	Public Fund Leverage Ratio: The investment of public funds results in a 15.5:1 leverage ratio. \$8,785,605 public / \$136,851,339 private investment, 55% higher than the minimum leverage ratio for multifamily of 10:1.	4/4

TOTAL POINTS:	52/52
---------------	-------

SITE MAPS AND BUILDING PLANS

TIF REQUEST

Our TIF request is comprised of two tiers.

In the first tier, we seek upfront lump-sum financing for part of the eligible off-site infrastructure costs associated with the construction of N 15th Ave, Tschache Lane, and N 14th Ave upon substantial completion and concurrent deed restriction of the West Block as further described below. The first tier of requested upfront financing is \$2,700,000.

In the second tier, we are requesting take-out financing for the balance of eligible costs associated with the development upon the certificate of occupancy of the Lumberyard Flats and LIHTC community. The second tier of requested take-out financing is \$6,085,605.

In-Place Taxes	
Projected RE Taxes 2022	\$48,251
Future Annual Taxes from Development	
Future Taxes Multifamily	\$909,000
Future LIHTC Taxes	\$0
Total Future Annual Taxes	\$909,000
Direct Annual Increment Created	\$860,749

Above is an estimate of future property taxes versus what the property currently pays as raw land. At the completion of the overall project, it's reasonable to estimate there is roughly \$860,749 of additional property taxes to be paid by the property on an annual basis.

Overview

PART 2 FOR PROJECTS REQUESTING OVER \$50,000 IN ASSISTANCE

Project Financial Information

In order for the Midtown Urban Renewal District Board to adequately review applications seeking TIF assistance, the following information must be submitted with the application. This information will be used to perform a third-party financial analysis to determine the project's anticipated return on investment (ROI) and reasonableness of developer profit. The goal of the Midtown TIF Assistance program is to make projects financially feasible. Therefore, projects that demonstrate financial need for public funding will be given priority.

1. Sources & Uses of Funds

- a. Identify the sources of funds used to finance the project. Typical sources include equity, lender financing, mezzanine financing, other anticipated types of public assistance, and any other types or methods of financing. Describe the sources of equity and include a term sheet for lender financing, if available.
- b. TIF assistance is available as a reimbursement after the project is complete. Thus, the project budget must identify the up-front sources intended to finance the development costs of the project. If determined, specify the specific line items of the project budget that each source will finance.
- c. Summarize the uses of funds. General categories to be identified include acquisition and related site costs, hard construction costs, and a breakdown of soft costs.

2. <u>Development Budget</u>

Provide an accurate and detailed development budget for the project that includes a detailed breakdown of significant line item costs consistent with the sample included in the application packet. The budget should be arranged to identify acquisition and site related costs, hard costs, and soft costs. Also, identify all line items that are performed by the developer, owner, or related entities.

3. Budget of TIF Eligible Expenses

Identify which of the development budget costs are eligible for reimbursement as allowed by 7-15-4288, MCA.

4. Financial Commitments

Submit commitment letters and/or term sheets from all lenders for proposed debt (such as construction, mezzanine, permanent, and government financing) and all other financial sources of the project (such as grants, and tax credits). Commitment letters must clearly specify the nature and terms of the obligations.

Sources and Uses of Funds

USES	
Line Item	Amount
Land (FMV)	9,825,000
Total Hard Costs	99,460,444
Total Soft Costs	21,163,382
TIF Eligible Costs	
Eligible Infrastructure Costs	4,919,472
Eligible Impact and CIL Fees	3,866,133
Total TIF Eligible Costs	8,785,605
Virga Management Fee for the Offsites	131,373
Financing Costs	6,402,513
Total Project Costs	145,636,943

SOURCES

Municipal Fee Contingencies	\$184,102
Total Onsite Costs	\$3,866,133
Total TIF Eligible Costs	\$8,785,605

Offsite Infrastructure Effects

The offsite infrastructure for this project will catalyze future development of surrounding land. Two projects in particular to the parcel's north and west propose significant multifamily and hotel developments. To the subject property's north, the project named PT LAND SUBDIVISION PHASE 3 PP proposes up to three phases of hotel and retail development badly needed in Bozeman. To the subject property's west, the project named BOZEMAN EAST MIXED-USE DEVELOPMENT MASP proposes up to 305 apartments with 18,000+ SF of ground-floor commercial. These projects, combined with the subject property, are reliant on the off-site infrastructure improvements and unlock millions of dollars of future tax revenue, hundreds of jobs, and over 600 units to help combat the growing and present lack of housing in Bozeman.

In-Place Taxes

	In-Place Taxes at Subject and Adjacent Parcels	\$48,443
Additional Property Taxes on Adjacent Developments		
	Lumberyard Annual Taxes	\$909,000
	PT Land Subdivision Phase 3	\$385,000
	Bozeman East Mixed-Use Development MASP	\$915,000
Total Future Annual Taxes \$		\$2,209,000
	Total Increment Created	\$2,160,557

BOZEMAN^{MT}

Memorandum

REPORT TO: Midtown Urban Renewal Board

FROM: Renata Munfrada, Community Housing Program Coordinator

SUBJECT: North 7th Avenue LIHTC Project Discussion & HRDC Presentation

MEETING DATE: July 20, 2023

AGENDA ITEM TYPE: Citizen Advisory Board/Commission

RECOMMENDATION: North 7th Avenue LIHTC Project Discussion & HRDC Presentation

STRATEGIC PLAN: 4.5 Housing and Transportation Choices: Vigorously encourage, through a

wide variety of actions, the development of sustainable and lasting housing options for underserved individuals and families and improve mobility

options that accommodate all travel modes.

BACKGROUND: Human Resource Development Council, District IX (HRDC) will present the

proposed development of a 40-unit affordable multi-family rental housing complex known as 7th and Aspen at 706 North 7th Avenue, Bozeman, MT 59715. The project is a Low Income Housing Tax Credit (LIHTC) project located in the Midtown Urban Renewal District. The complex will consist of 24 one-bedroom, 10 two-bedroom, and 6 three-bedroom units for families.

The project team intends to submit to the Montana Board of housing for

Federal Tax Credit financing in August 2023.

UNRESOLVED ISSUES: None.

ALTERNATIVES: As recommended by the Midtown Urban Renewal Board.

FISCAL EFFECTS: None at this time.

NOTICE REGARDING APPLICABLE VERSION OF QAP

This 2023 QAP will govern the Montana Board of Housing's award of low-income housing tax credits ("Housing Credit" or "Credit") allocated to the Montana Board of Housing by the federal government for 2023. The process for award of 2023 Housing Credits begins with the deadline for submission of Letters of Intent.

The Applicable QAP for certain other processes, procedures and fees may be the QAP for an earlier or later year.

Please contact MBOH staff with questions regarding the Applicable QAP.

I. INTRODUCTION AND APPLICABLE QAP

The Low Income Housing Tax Credit is established under Section 42 of the Internal Revenue Code of 1986 (Section 42). Montana Board of Housing (MBOH) is responsible for allocation the Housing Credit.

This qualified allocation plan (QAP) is established by the MBOH Board.

The plan was released for public comment on September 15, 2021, a public hearing was held on October 27, 2021 and was approved by MBOH at it's November 15, 2021 public meeting.

The Governor of Montana, Greg Gianforte, approved the plan as the final 2023 QAP on February 14, 2022.

A. APPLICABLE QAP

The Applicable QAP means:

- 1. The QAP for the Housing Credit year for which the Application is or was submitted, evaluated and Awarded HCs:
 - for purposes of substantive issues relating to: Award; Development Evaluation Criteria; Scoring; Selection Criteria; and Selection Standard for such Award; and
 - for purposes of the fee amounts charged for: Letter of Intent; Application; Reservation Agreement; Carryover Allocation (Initial Allocation); 10% Cost Certification; and Final Allocation;
- 2. The most recently adopted QAP for purposes of: Project changes; Reservation Agreement (other than the fee amount); Declaration of Restrictive Covenants; Carryover Allocation (Initial Allocation) (other than the fee amount); 10% Cost Certification (other than the fee amount); Final Allocation (other than the fee amount); Compliance requirements and compliance audits; any post-Award procedures; and fees and fee amounts for post-Credit Refresh Project changes, Reservation Agreement, Declaration of Restrictive Covenants, Carryover Allocation (Initial Allocation), 10% Cost Certification and Final Allocation.
- 3. The QAP most recently adopted as of the date of submission of a Credit Refresh application for purposes of: a Credit Refresh application; consideration and determination regarding a Credit Request application; payment of MBOH legal fees relating to or required as a result of a Credit Refresh application or Credit Refresh; and Post-Credit Refresh Project changes, Reservation Agreement, Declaration of Restrictive Covenants, Carryover Allocation (Initial Allocation), 10% Cost Certification and Final Allocation (not including fees and fee amounts for such post-award items).
- 4. For purposes of Application, evaluation, and Awarding Housing Credits with respect to 4% Projects, the Applicable QAP is the version of the QAP most recently and finally adopted as of the date of Application submission.

B. REQUIRED FORMS

All forms submitted to MBOH in or as part of the application, development, underwriting, allocation, cost certification, compliance, or other processes under this QAP must be the most current version available on the MBOH website.

II. ELIGIBLE APPLICANTS AND LIMITS

Each Application and Letter of Intent ("LOI") will identify an Applicant who is and will remain responsible to MBOH for the LOI and Application.

A. FIRST HOUSING CREDIT PROJECT MUST BE COMPLETED

An Applicant who previously received an Award for its first 9% Housing Credit Project in Montana, including projects in which it has an Identity of Interest (the "In-Process Project"), may not receive an Award for another Housing Credit Project until the In-Process Project has been either issued Form(s) 8609 or the Credits have been returned/rescinded. The foregoing rule does not apply to a subsequent Housing Credit Application if the Developer partners with an Experienced Developer who will be entitled under a written agreement to receive at least 50% of the Developer Fee on the subsequent Project.

B. PROJECT AND DEVELOPER MAXIMUMS

The maximum award to any one Project is \$6,500,000. MBOH will award no more than \$6,500,000 to any one Developer based on the percentage of the Developer Fee specified in a written development agreement.

C. APPLICANT CANNOT EXCEED CUMULATIVE CREDIT MAXIMUM

An Applicant is not eligible to submit a LOI or a full Application for 9% Credits if an Award of Credits for the Applicant Project would cause the Applicant's Cumulative Credit amount to exceed the Cumulative Credit Maximum of \$25 million in total 9% Credits. The Cumulative Credit Maximum applies in addition to the Maximum Credit Award provisions. For purposes of the Cumulative Credit Maximum:

- An Applicant's cumulative Credit amount is the sum of: (1) the Applicant's share(s) of the ten-year amount of Credits awarded to any In-Process Project(s), and (2) the Applicant's share of the ten-year amount of Credits requested for the Applicant Project.
- The Applicant's share of the ten-year amount of Credits awarded to any In-Process Project is 100%, unless the Applicant is a co-Developer, co-Owner or Consultant; in such event, the Applicant's share is the same percentage of the Project's ten-year Credit amount as the percentage of Developer Fee the Applicant is entitled to receive or the percentage interest that Applicant owns in the Project.
- Applicant must provide any documents and information as requested by MBOH for purposes
 of determining whether an Applicant is eligible under this Cumulative Credit Maximum to
 submit a LOI or Application.

D. OTHER DISQUALIFYING CONDITIONS

The Applicant is not eligible to apply for Credits if the Applicant or any member of the Applicant's Development Team is debarred from federal programs or Federal Home Loan Bank or prohibited from applying by another state HFA for disciplinary reasons.

If any member of the Development Team has delinquent late fees due and payable to MBOH at any time from submission of LOI through the Award Board meeting, the LOI or Application will be ineligible for an Award of Credits until such fees are paid in full. If such late fees are not paid in full within ten (10) business days of written notice, the Application will receive no further consideration.

MBOH may reject any Application containing a Development Team member involved in a request for a qualified contract in Montana.

III. APPLICATION/AWARD PROCESS

A. LETTERS OF INTENT AND APPLICATIONS

Applicants may apply for an Award of 9% Credits (including an Award for a Project combining 9% Credits and other Credit sources) by submitting a LOI no later than 5:00 pm Mountain Time on the applicable deadline.

Only those Applicants invited to do so by the Board may submit Applications. Applicants must complete and submit the Uniform Application, all Threshold Requirements, full market study and full Application fee by the applicable deadline to be eligible for further consideration.

A single Applicant may apply for Credits by submission of a single Application that combines sub-applications for each property/Credit request included in the Project (for example, Twinned 4%/9% Projects or Housing Credits and another Credit source). Each sub-application must include a separate UniApp that provides the Project numbers attributable to the sub-application's Credit source.

Applicants may not change the general project location(city/town), type (e.g., family or elderly), Applicant and Developer specified in the LOI in any resulting Application unless approved by MBOH. MBOH will consider other information in the LOI (e.g., cost information, number of units, unit sizes, income targeting, rents, hard and soft loan sources) to be the Applicant's best estimates which may be changed in the Application.

B. INCOMPLETE LETTER OF INTENT OR APPLICATION

Applicant must respond to a written MBOH request (including but not limited to any email request) within 10 working days, unless the request specifies a different time period. Failure to respond within such time period may result in the Application being deemed ineligible and/or negative points.

MBOH staff may ask an Applicant to submit additional information for either an LOI or Application with an incomplete or missing threshold item. Failure to submit the information and paying the applicable fee within the specified time will result in MBOH not considering the Application further.

C. FIRST AWARD ROUND

The following First Award Round deadlines and events are scheduled in calendar year 2022:

Letter of Intent Submission

2nd Monday in April

Applicant Presentations/Board Invitations to Apply

May MBOH Board Meeting

Application Submission

First Monday in August

Award Determination
 Late October MBOH Board Meeting

In the event that any deadline falls upon a weekend or holiday observed by Montana State government, the submission deadline will be the next business day thereafter.

D. SECOND AWARD ROUND (IF ANY)

The Board may decide in its discretion to hold a second award round that is any one or a combination of the following:

- limited to those Applicants that submitted a LOI in the First Award Round but not invited to submit a full Application (a "Semi-Open Round");
- limited to those Applicants invited to submit an Application but not awarded Housing Credits in the first award round (a "Closed Round"); or
- open to submission of LOIs by any interested party (an "Open Round").

MBOH will announce such round on its website, including all applicable submission requirements and deadlines/dates.

E. CHANGES AND WAIVERS

MBOH may extend or change any of the deadlines and dates in the QAP by posting on MBOH's website. The MBOH Board, in its discretion, may waive any requirement of this QAP if it determines such waiver to be in the best interests of MBOH or the Credit program.

F. BOARD CONSIDERATION AND DETERMINATION

1. LETTER OF INTENT

MBOH staff will present LOIs at the Board meeting in the month specified or established in accordance with the QAP schedule. The Board will provide an opportunity for both Applicants to present and for public comment on proposed Projects and Applications. The Board may ask questions of Applicants and discuss proposed Projects, but such questions, answers and discussions shall not be binding upon MBOH in any later Award determination or other MBOH process. Applicant presentations will include any comments from any party on the Development Team, videos, and presentation materials. Public comment will include in-person comments, live

conference call comments and written comments. Comments are subject to reasonable limitation by the Chair.

After considering the LOIs, presentations, questions and answers and discussion, the Board will select eight Projects to submit Applications based upon consideration of any of the Selection Criteria permitted to be considered for purposes of an Award under this QAP, but no evaluation or scoring of LOIs will be done or considered. The Board may invite more if Congress authorizes an increase in Housing Credits.

2. AWARD

At the Award Determination Meeting, MBOH staff will provide Project Application information. Applicants should be available to the Board to answer questions regarding their respective Applications but there will be no Applicant presentations. MBOH will provide an opportunity for public comment on proposed Projects and Applications. Applicants will have a brief opportunity to make comments and respond to any information presented regarding their Applications.

MBOH staff materials provided to the Board will show Tribal and Small Rural Projects and other Projects in separate groupings. In considering Applications for Award, the Board may first consider Tribal or Small Rural Projects. After any such initial consideration, the Board will consider Award of remaining Credits to any Applicant. The Board may but is not required by this provision to select any Tribal or Small Rural Project for an Award.

G. REMAINING CREDITS AND WAITLIST

If the remaining amount of available Credits is insufficient to fully fund an additional Project, before Awarding a Project in an amount less than requested by the Applicant (except for any de minimis reduction) the Board may:

- prioritize the remaining Projects for an Award from the remaining Credits;
- make any remaining Credits available in a future cycle;
- increase the amount of Housing Credits reserved for a previously Awarded Project based upon the Project's application for an increase submitted under Section K;
- elect to Award less than all available Credits;
- elect to not Award any Credits; or
- adopt any other reasonable option permitted under this QAP.

The first priority Project for an Award will be allowed 30 days to re-submit its Application resized to the amount of Credits remaining available. If MBOH determines that the development is financially feasible, it will enter into a Reservation Agreement. If the first priority Project fails to submit or is not feasible, MBOH will invite the next priority Project(s).

If all of the authorized Credits are Awarded after a particular cycle, MBOH may place qualifying Applications which did not receive an Award on a waiting list for potential Award in the event Credits become available at a later date.

H. FORWARD COMMITTMENTS

MBOH does not commit Credits from future years, except:

- during the current year full Application cycle as the Board determines necessary in an amount up to 10% of the Credits requested to fully fund a Project; or
- at any time outside the competitive cycle for purposes of funding repair or replacement of a Project building due to a life/safety emergency as determined by MBOH.

The Applicant must submit a LOI and the Board must invite the Applicant to submit an Application before making an Award. The Application must meet all QAP requirements.

I. AMOUNT OF HOUSING CREDIT ALLOCATION

An Award of Housing Credits under this QAP will be limited to the amount of Credits that MBOH, deems necessary to make the development financially feasible and viable as a qualified affordable Housing Credit Project throughout the Compliance Period.

In determining the amount of Credits necessary, MBOH will consider:

- The Sources and Uses of funds and the total financing planned for the Project. Federal funds may be loaned by or through a parent organization to a Project pursuant to a bona fide loan agreement.
- Grants made with federal funds directly to a Project, which will reduce basis.
- Any proceeds or receipts expected to be generated by the Housing Credits.
- The reasonableness of the development and operational costs of the Project.

A similar analysis will be done at the time of 10% Cost Certification and at Final Cost Certification prior to issuing IRS Form(s) 8609. Neither the selection of a Project to receive an Award of Housing Credits nor the amount of Credits to be allocated constitutes a representation or warranty that the Owner or Developer should undertake the development, or that no risk is involved for the Investor.

J. 4% CREDIT APPLICATIONS FOR TAX EXEMPT BOND/LOAN FINANCED PROJECTS

Projects with tax-exempt financing under the volume limitation on private activity bonds ("4% Projects") may be submitted at any time. However, MBOH must receive complete Applications and the fee at least 6 weeks before the scheduled MBOH Board meeting at which the Application is to be considered. Changes to the Application that require MBOH to reunderwrite the Application will restart the minimum 6-week period.

Applicants must submit a LOI with the Bond Inducement Resolution Request Form (no fee or mini-market study is required).

Final Allocation of 4% Credits is subject to payment in full of the applicable fees.

Except as specifically otherwise provided in this QAP, Applications for 4% Projects (including 4% Project Applications that are part of a Twinned 4%/9% Project) must meet all requirements of the Applicable QAP to receive an Allocation of Housing Credits.

K. REQUEST FOR INCREASE IN AMOUNT OF CREDIT RESERVATION

MBOH may use returned or unreserved Housing Credits to increase the amount reserved for a Project after making the first round Awards based on the following factors:

- The nature and amount of additional costs, loss of anticipated funding sources or other gap in available Project funding.
- Significant factors leading to the need for additional Credits.
- Availability and Applicant's use of measures to mitigate or obtain alternative funding sources to address any funding gap.
- The need for the additional Credits to make the Project feasible.
- Availability of returned or unreserved Housing Credits.
- Any anticipated potential need for returned or unreserved Credits to fund Projects that would otherwise be funded or require greater funding under the Corrective Award set aside.

An Applicant seeking an increase must apply in writing before the Board meeting at which the Applicant seeks consideration. The request must include new financials, supporting documentation for the cost increases (e.g., higher bids than expected, material costs), and supporting documentation addressing each of the above-specified factors. Staff will present a recommendation at a later MBOH Board meeting for consideration. MBOH will not approve any increase beyond that necessary to make the Project feasible.

L. CREDIT REFRESH REQUIREMENTS

To request a Credit Refresh, the Owner must submit a Credit Refresh application, along with the fee as specified in the Fee Schedule. Upon receipt of the application and staff evaluation, the application will be placed on the agenda for consideration at the next MBOH Board meeting. The Owner or its representative should appear at the meeting to answer Board questions regarding the application and the factors leading to the submission of the application.

The MBOH Board may approve or deny the Credit Refresh or may defer action on the application pending additional information or compliance with specified conditions. The Board may place any one or more conditions on approval or further consideration of an application.

IV. APPLICABLE FEES

The amount(s) of and due dates for all fees required or imposed by this QAP are as specified in the most current MBOH Housing Credit Fee Schedule (Fee Schedule). All fee amounts may be adjusted by MBOH from time to time and are nonrefundable unless otherwise specified.

The Developer/Owner of any Project awarded Credits will be required to reimburse MBOH for legal fees and other expenses incurred by MBOH with respect to any non-standard request, change, document, or other matters relating to aspects of qualifying for or obtaining Housing Credits. Such fees and expenses must be paid within 30 days of MBOH's submission of an invoice. MBOH shall not be required to complete any pending process, approval or other action until such fees and expenses are paid in full.

V. SET ASIDES

A. NON-PROFIT

Unless otherwise specifically provided in the Board's Award resolution, MBOH will meet the 10% non-profit set-aside requirement by the first Award to a Project involving a Qualified Nonprofit Organization ("nonprofit") receiving at least 10% of Montana's Credit ceiling (or if more than one such Project, the one appearing first in an alphabetical list). If no Awarded Project involves a nonprofit, MBOH will hold back 10% of the state's Credit ceiling. By submitting an Application involving a nonprofit, the Applicant consents to designation of such Project as the Project receiving the non-profit set aside.

B. CORRECTIVE AWARD

Such portion of the state's annual federally-allocated Credit ceiling is reserved and set-aside as is necessary for any Project submitted in a prior round or year, if:

- a final order of a court of competent jurisdiction determines or declares that such Applicant
 was entitled to an Award in such prior round or year or requires MBOH to make an Award or
 Allocation of Tax Credits to such Project;
- a final order of a court of competent jurisdiction invalidates or sets aside an Award to an approved Project from such prior round or year and a Reservation Agreement was executed by MBOH and such Applicant prior to issuance of such court order, unless such court order determines that such Project was not eligible or qualified under the applicable QAP to receive an Award of Tax Credits; or
- MBOH, upon further consideration of any Award determination as required by and in accordance with the order of a court of competent jurisdiction, determines that such Project was entitled to an Award in such prior round or year.

All requirements and conditions of this Corrective Award set aside provision must be met to receive an Award under this set aside. The amount of any Corrective Award shall be as specified by the court, or if no Award amount is specified by the court, as determined by MBOH in accordance with this QAP. The Corrective Award set aside shall be funded first from returned or unreserved Credits from a prior year. Awards under this Corrective Action set aside may be made from returned or unreserved Credits from a prior year and/or the current year's Credits at any MBOH Board meeting after the final court order has been issued and presented to MBOH. Such Award need not await the annual Application and Award cycle.

Where a court orders that an amount of the current year's Credits be set aside for a Project pending the decision of the court, if the court's decision is not received before the end of the current year, the Credits set aside will become classified as the next year's Credits.

If the court orders MBOH to Award Credits to any Project under this set-aside, the Project must submit an updated Application so MBOH can verify that the amount of Credits requested or some other amount is justified, unless otherwise ordered by the court.

C. GENERAL RULES REGARDING SET ASIDES

MBOH will determine in which set-aside a Project will be reviewed (subject to its eligibility), regardless of its eligibility for any other set-aside.

In the event there are insufficient Tax Credits available to fully fund all set aside categories, the respective set asides categories shall be funded in the following order of priority: (1) Non-Profit; and (2) Corrective Award.

VI. THRESHOLD REQUIREMENTS

Threshold Requirements are mandatory for all LOIs and Applications. Except as provided, LOIs and Applications received not meeting all Threshold Requirements or other requirements of this QAP will receive no further consideration.

A. MATERIALS AND INFORMATION SUBMITTED

LOIs must include:

- LOI Fee
- LOI Narrative
- LOI Attachment
- Mini-Market Study & Summary Sheet for 9% Credit projects (MBOH will not accept full market studies)

Applications must include:

- 1. Application Fee
- 2. Cover Letter
 - a. Summarize the Project, limited to 2 pages.
- 3. Uniform Application (UniApp)
 - a. Complete all required fields in the Funding Portal.
 - b. Fully complete all tabs needed for housing credits.
- 4. Land or Property Control
- 5. Zoning
 - Documentation from the city or county affirmatively stating how zoning requirements are met or addressed.
 - b. Acquisition/Rehabilitation Projects may provide documentation that the Project will not require a change in zoning requirements.
- 6. Utilities

- a. Letter or email from providers verifying:
 - Utilities are or will be available to the property.
 - The provider has the capacity to handle the load to be added by the Project.
 - Present proximity of utilities to the Project location.
- b. Documentation must address water, sewer, electricity, and as appropriate, gas, propane, and garbage pickup.
- c. Acquisition/Rehabilitation Projects need only provide a letter or email from the utility provider documenting the expected utility load and the providers' ability to meet such additional load.
- d. Documentation must not be older than 18 months from application date.
- e. MBOH staff may in its discretion require the Applicant to provide updated documentation.
- f. Applicants must submit a copy of any updated letters at Reservation or with the next submitted quarterly report.
- 7. Preliminary Financing Letter
 - a. The lender will indicate the proposed terms and conditions of the loan.
 - b. The letter must formally express interest in financing the Project sufficient to support the terms and conditions represented in the Application.
- 8. Equity Letter
 - a. Letter of interest with the anticipated price based on the market at time of the Application.
- 9. Novogradac Rent Limits
 - a. Provide Novogradac Rent and Income Calculator results for the project (Novogradac calculator available on MBOH's website).
- 10. Utility Schedule
 - a. Copy of schedule used in uniapp.
- 11. Qualified Management Company Agreement
 - a. Provide a copy of the written agreement evidencing the company's commitment to provide management services.
 - b. Upon written notice from MBOH that the Management Company is not a Qualified Management Company, the Applicant must submit to MBOH within ten (10) days a written designation of a Qualified Management Company and a copy of the written agreement.
- 12. Management Education Certifications
- 13. Full Market Study
 - a. Prepared and signed by a disinterested third-party analyst.
 - b. Market Studies must be completed within six (6) months prior to the submission date of the Application, must have the market analyst complete a physical inspection of the market area within one (1) year of the Application and must adhere to minimum market study requirements in the MBOH Market Study Requirements.
- 14. Market Analyst Certification Form
- 15. Market Study Summary Sheet
- 16. CMA / Appraisal

- a. A comparative market analysis (CMA) or appraisal done by an independent (non-related party) Montana-licensed real estate professional.
- b. A CMA is required regardless of the manner or method of Acquisition and must cover all real estate.
- c. Land and existing building values must be listed separately.
- d. A CMA is not required if the Application includes documentation demonstrating that a CMA or appraisal is not available for the property.

17. Site Plan

18. Preliminary Floor Plan

a. Design Professional's preliminary floor plan and elevations/photos of existing properties for the Project.

19. Legal Ownership Entity

 Organizational document of the entity that will have legal ownership of the project from the state where it is registered or other documents acceptable to Montana Housing.

20. Broadband

- a. Explain how the project will meet the broadband requirements.
- b. Infrastructure installation is required for all New Construction and Substantial Rehabilitation developments. If this requirement is unfeasible the Applicant must submit a waiver request. This request must contain justification and detailed documentation.

21. Narrative

- a. Addressing each of the Development Evaluation Criteria, demonstrating how the Application meets each of these criteria, and providing a specific explanation and justification of the points sought for each scoring item.
- b. Narrative references to the Market Study must cite the specific page and paragraph of the Market Study.
- c. The uniapp tab "HC Scoring must include the Applicant's own proposed total score for each scoring item in the Development Evaluation Criteria.

22. Public Housing Authority Waiting List

a. Documentation of the number of households on the current Housing Choice Voucher waiting list from the local public housing authority and/or the contracted HCV provider in which the Project is located.

23. Public Notice

- a. A copy of the public notice, proof of publication from the publisher, and copies of document the notice was published in.
- b. An Applicant must place a notice in the local newspaper of the intent to apply for Housing Credits encouraging submission of public comment to MBOH and including name of Project, number of units, location of Project, for-profit or non-profit status, and, if applicable, intent to request tax-exempt status.
- c. The notice will be placed as a box advertisement in the newspaper within 90 days prior to the due date of the Application and must allow 30 days of submission of comments to MBOH.
- d. The notice must be published twice, with an interval of at least 14 days between the 2 publication dates.

e. Example of Public Notice:

(Name of Developer, address, telephone number), a (for-profit/non-profit) organization, hereby notifies all interested persons of (city, town, community name) that we are planning to develop, (Name of Project) an affordable multi- family rental housing complex on the site at (street location). This complex will consist of (number) (one bedroom, two bedroom, or three bedroom) units for (elderly persons/families). This Project (will/will not) be exempt from property taxes.

An Application (will be/has been) submitted to the Montana Board of Housing for federal Tax Credits financing. You are encouraged to submit comments regarding the need for affordable multi-family rental housing in your area to the Montana Board of Housing, PO Box 200528, Helena, MT 59620-0528; FAX (406) 841-2841, or electronically at https://housing.mt.gov/Contact Comments will be accepted until 5 PM on (specify the date 3 weeks before the MBOH Board Award Determination Meeting (see schedule in Section III.C).

24. Sponsor Application Indemnification & Certification Form

25. Non-Profit Set-aside

- a. For Applications seeking to qualify for the non-profit set aside.
 - A copy of the IRS determination letter documenting such organization's 501(c)(3) or (4) status.
 - An affidavit by the organization's managing partner or member certifying that the organization is not and during the Compliance Period will not be affiliated with or controlled by a for-profit organization.
 - Documentation that one of the exempt purposes of the organization includes the fostering of low-income housing.

26. Developer Fee Agreement:

- a. If the project has co-developers or a consultant, provide a copy of the executed Developer Fee agreement, Consultant Fee agreement, or other documentation demonstrating how the fees will be split or paid.
- 27. Release of Information Form: For Applicants including a Developer with no previous history with the Montana Housing Credit Program.
- 28. QCT / DDA Map
- 29. Discretionary Basis Boost: Explanation and justification for a request for discretionary basis boost, if applicable.
- 30. Elderly Exemption: If the Project is an Elderly Property, specify which exemption for housing for older persons will apply.

31. CNA

- a. A Capital Needs Assessment (CNA) for rehabilitation applications on the USDA Rural Development Capital Needs Assessment template or similar form
- b. A minimum of a 15-year projection for all capital needs that will be replaced, refinished, repaired, upgraded, or otherwise rehabilitated.
- c. Detailed narrative explaining the scope, details, and expectations of the Rehabilitation.

- d. All items will be listed and identified by unit number.
- e. The CNA must be less than 1 year old as of the date of Application submission or include an update within the most recent 6 months.
- 32. Relocation Plan: For Applications proposing Rehabilitation or replacement of existing units
 - a preliminary relocation plan addressing the logistics of moving tenants out of their residences and providing temporary housing during the Rehabilitation, and
 - the probable length time tenants will be out of their units, and/or replacement and returning tenants to their residences upon completion of the Rehabilitation or replacement.

33. Property Tax Exemption

- a. For Applications proposing a property tax exemption for rental housing providing affordable housing to lower-income tenants pursuant to Mont. Code Ann. § 15-6-221, include documentation of intent to request that the local government unit where the property is located conduct a public hearing as required.
- b. If the Application does not include such documentation, MBOH will underwrite the Project as if no exemption was or will be received.
- c. The Application must also affirmatively commit to providing a minimum of 50% of the Units to tenants at 50% of the area median income, with rents restricted to a maximum of 30% of 50% of area median income, as calculated under Section 42 (does not apply to 4% New Construction Projects, including the 4% Project of Twinned 4%/9% New Construction Projects).

34. Operating Reserve Letter

a. If the operating reserve requirement is not met, an acceptable third-party source document is required.

35. Eventual Homeownership

a. For Projects targeted for Eventual Homeownership, provide the documents and information specified in the Eventual Home Ownership section.

B. OTHER REQUIREMENTS

In addition to Applications or Projects failing to meet other requirements, MBOH will return and will not consider for an Award of Credits:

- Projects for which the Market Study and other available market information fails to demonstrate adequate market need within the proposed community.
- Projects that are not financially feasible based upon MBOH underwriting standards.
- An Application submitted by an entity with a demonstrated poor track record in completion of development or management of housing, whether in Montana or another state.
- Applications submitted by Applicants with current Project(s) that have/had numerous or unresolved substantial non-compliance issues or IRS 8823s.

C. MINIMUM SCORING THRESHOLD

Developments not scoring the minimum Development Evaluation Criteria score of 1,000 points (or 800 points for non-competitive 4% Credit bond deals) will not receive further consideration.

VII. DEVELOPMENT EVALUATION CRITERIA AND SELECTION

MBOH will use the Development Evaluation Criteria, other QAP Selection Criteria and information submitted or obtained with respect to Projects to assist the Board in evaluating and comparing Projects.

A. DEVELOPMENT EVALUATION CRITERIA

Development Evaluation Criteria scoring is only one of several considerations the MBOH Board takes into account and does not control the selection of Projects that will receive an Award of Tax Credits. For purposes of this QAP and Awards and Allocations, the Selection Criteria include all the requirements, considerations, factors, limitations, Development Evaluation Criteria, set asides, priorities and data set forth in this QAP and all federal requirements.

1. EXTENDED LOW INCOME USE (100 POINTS POSSIBLE)

An Application in which the Applicant agrees to maintain units for low income occupancy beyond the federal Extended Use Period will receive points as indicated below and must incorporate these restrictions into the Restrictive Covenants. All projects must have an additional 35 years of affordability.

Years beyond initial 15

35 or more years 100 points (50 years i.e. total extended use period)

Eventual Home Ownership Applications must also specify an Extended Use Period and will receive points for the Extended Use Period as provided above.

2. LOWER INCOME TENANTS (200 POINTS POSSIBLE)

INCOME AND RENT LEVEL TARGETING

A Project with any minimum set aside will be awarded points based on the weighted average income targeted according to the following:

- 53% or below 200 pts
- 55% or below 100 pts
- 60% or below 50 pts

Rents at 40% are allowed to income qualify to 49% AMI. Rents at 50% are allowed to income qualify to 55% AMI (40-60 election must apply).

If the Applicant elects Average Income, MBOH will score the Application under the criteria and points schedule in this subsection.

If the project has a manager's unit, it will be considered a 60% unit and calculated as such.

3. PROJECT LOCATION (100 POINTS POSSIBLE)

An Application will be awarded points with respect to an amenity or service if a grocery store (convenience store does not count); or medical services appropriate and available to all prospective tenants (e.g., hospital, doctor offices, etc.) and are one of the following:

- a. A Project is located within 1½ miles of the specified amenity or essential service.
- Public or contracted transportation (not including taxi or school bus service) is reasonably available to the specified amenity or service (i.e., the Project is located within ¼ mile of fixed bus stop or on a same day call basis) (or letter from provider committing to establish such service); or
- c. Where applicable, the specified amenity or service is available via a no-charge delivery service to the Project Location (all distances must be as specified in the Project's market study).
- *- For scattered site projects, all site locations must meet the criteria for any points to be awarded.

4. HOUSING NEEDS CHARACTERISTICS (100 POINTS POSSIBLE)

Development meets area affordable housing needs and priorities and addresses area market concerns, such as public housing waiting lists (for all units and tenants), vacancy rate, and type of housing required.

LOCAL COMMUNITY INPUT (30 POINTS POSSIBLE)

30 points will be awarded if the Application includes documentation of at least one of the following forms of Local Community Input, as shown by evidence provided in the Application:

- local neighborhood meetings held expressly for this Application with attendance rosters and minutes;
- local charrettes held expressly for this Application with supporting documents, concept drawings, and input from local community;
- other appropriate form of local community input specifically designed to gather local community input for this Application; and/or
- City or County Commission meeting.

In order to obtain the available points under any item, there must be actual local community input in some form. If a community meeting is held but there is no attendance, another form of local community input must be used. No points will be awarded if the meeting or charrette is part of another public or design meeting, unless the minutes demonstrate that a portion of the

meeting was specifically dedicated to community input for this Application. No points will be awarded if the Application does not provide evidence of qualifying local community input, including minutes of any meeting, charrette or other form of local community input and copies of any written or electronic comments received. Documentation of community outreach efforts to inform and invite community members to attend any of the community input events must be included. All meetings, charrettes and other Local Community input events must be held within 6 months before the Application deadline.

APPROPRIATE SIZE (35 POINTS POSSIBLE)

Points will be awarded for the appropriateness of size of the development for market needs and concerns as reflected in the Market Study. 35 points will be awarded if the number of units being proposed is 50% or less than the number of units needed as projected by the Project's Market Study. No points will be awarded if the number of units being proposed is more than 50% of the number of units needed as projected by the Project's Market Study. For projects developed, rehabilitated, or constructed in a location that is not within the city limits of Billings, Bozeman, Butte, Great Falls, Helena, Kalispell, or Missoula, no points will be awarded if the number of units being proposed is more than 75% (rather than 50%) of the number of units needed as projected by the Project's Market Study. If the Project is existing in the community, the number of units in the Project will be added to the new units needed and the above test will be applied. The Application narrative must address this scoring item with citations to the relevant pages and paragraphs of the market study.

MARKET NEED (35 POINTS POSSIBLE)

The Application will be awarded 35 points based upon the required Market Study's documentation that the Project meets the market needs of the community, as follows:

- Vacancy Rate is at or below 7%; and
- Absorption Rate is less than 5 months; and
- Rents are at least 10% below adjusted market rents.

Narrative references to the Market Study must cite the referenced page and paragraph of the Market Study.

5. PROJECT CHARACTERISTICS (200 POINTS POSSIBLE)

100 POINTS FOR ANY ONE OF THE FOLLOWING FOUR ITEMS:

AFFORDABLE HOUSING STOCK

The Application proposes either the preservation of existing affordable housing stock (including as part of a local (not national, state or regional) community revitalization plan or similar plan) or increases the affordable housing stock, through the use of funds from other sources (e.g., donation of land, other substantial donations, reduction in taxes through tax abatement (other than non-profit exemption) or impact fees) to leverage the Tax Credit dollars.

QUALIFIED CENSUS TRACT/LOCAL COMMUNITY REVITALIZATION PLAN

The Project is located in a qualified census ract ("QCT"), and its development contributes to or involves existing housing as part of a local (not national, state or regional) community revitalization plan or similar plan. The Application must include any such local community revitalization plan and identify where in the plan such existing housing may be found.

HISTORIC PRESERVATION

The Application proposes the Acquisition and/or Rehabilitation of buildings with local, state, tribal and/or federal historic preservation designations.

PROJECT-BASED RENTAL SUBSIDY

The Project has project-based rental subsidy for at least 50% of the units. The Application must provide a copy of the relevant contract or other documentary proof of subsidy from the provider. MBOH staff will verify claimed subsidies with the funding source.

100 POINTS FOR GREEN BUILDING AND ENERGY CONSERVATION STANDARDS:

Applicant's justification for green building and energy conservation includes but is not limited to Energy Star building and appliance initiatives, water saving devices and green construction and materials. For New Construction and Rehabilitation, the Application will be awarded 100 points if the Project will include at least 10 of the items as listed and described on the MBOH Green Building and Energy Form. The Application must include the completed MBOH Green Building and Energy Form. The Applicant's architect, who is qualified with respect to energy and green building standards, must provide a letter confirming the listed green building items, as shown in the MBOH Green Building and Energy Form, are incorporated into the Project. For all Projects (New Construction and Rehab), the Form must list each scoring item and specify how many units will receive those items. The Applicant's architect also must provide certification at Final Cost Certification for 8609(s) purposes confirming that the initiatives were incorporated.

6. DEVELOPMENT TEAM CHARACTERISTICS (400 POINTS POSSIBLE)

Applications meeting all of the requirements of this Section will be awarded 400 points.

DEVELOPMENT TEAM EXPERIENCE

Participation by an entity with a demonstrated track record of quality experience in completed development or management of Tax Credit Projects. MBOH will consider

- the Applicant, Owner, Developer, General Partner, Management Company, and HC Consultant and whether housing Projects have been developed and operated with the highest quality either in Montana or another state,
- existing Projects,
- amount of active local community participation used to develop Projects, and
- a management entity with a good compliance track record and specialized training.

If a new Developer, this requirement may be met through a partner who was a member of the Development Team on a prior Tax Credit Project that has achieved 100% qualified occupancy

and for which the applicable state housing finance agency has conducted a compliance audit which revealed no significant problems.

MANAGEMENT EDUCATION

One member of the Management Company meets the education requirement and one member of the Development Team (other than the Management Company) who is directly and actively involved with the Project has been trained by a Nationally Recognized LIHTC Compliance Training Company. For MBOH purposes, to maintain certification, the person must attend a complete class with a Nationally Recognized LIHTC Compliance Training Company at least once every four years (certificates must be attached with each Application). MBOH annual compliance training does not qualify for Credit under this category.

COLD WEATHER DEVELOPMENT EXPERIENCE

The Project's Developer or Consultant who is actively involved in the actual construction process has experience with Cold Weather Development and Construction (defined as one or more Projects located above the 40 degrees north parallel), as reported on the MBOH Cold Weather Experience Form.

The application must list all affordable housing including low-income housing Tax Credit Projects in Montana or any other state developed, owned, managed, or consulted on by Applicant and any member of the Development Team, whether or not such Projects were successfully completed. All Development Team members must sign, and the Application must include the completed and signed UniApp Supplement Tax Credit Information Release Form, providing consent to the release of information by other third parties.

7. PARTICIPATION OF LOCAL ENTITY (60 POINTS POSSIBLE)

For purposes of this scoring item, a local entity includes a provider serving the Project locality from a physical office in the region of the state where the Project is located even if the provider does not maintain a local office in the locality.

COMMUNICATION/RELATIONSHIPS (30 POINTS POSSIBLE)

30 points will be awarded if the Application includes documentation in the form of a detailed and descriptive narrative, confirmed in writing by the local entity, indicating that the Owner/Developer has met with one or more local entities to discuss the local entities' participation in the Project through provision of any of the following:

- screening and referring of individuals as prospective tenants;
- providing on-site services to Project tenants;
- donation of land or sale at a reduced price to enhance affordability;
- use of grant money to develop infrastructure or for other uses;
- significant fee waivers on local government fees; or
- other forms of significant monetary or in-kind support.

SERVICE COMMITMENTS/UNDERSTANDINGS (30 POINTS POSSIBLE)

30 points will be awarded if the Application includes a narrative in which the Owner/Developer commits to provide or arrange for provision of one or more specifically described supportive services for the duration of the Extended Use Period. The narrative must provide evidence of how such described supportive services will benefit the Project. The same component of participation by a local entity may not be counted toward more than one item, and may be given Credit by an award of points only once.

Points will not be awarded for the same item in both this Participation of Local Entity section and the Project Characteristics/Affordable Housing Stock section.

8. TENANT POPULATIONS WITH SPECIAL HOUSING NEEDS (100 POINTS POSSIBLE)

An Application will be awarded 10 points for each 5% of the units targeting or meeting the following identified needs up to a maximum of 100 points. The Application must specify the number of units targeted for or meeting each category. MBOH will use Units Accessibility in the UniApp to calculate the score for this item. Units may not be counted more than once or in more than one category for purposes of awarding points.

- Units targeted specifically for individuals with children or large families (units with 2 or more bedrooms).
- Units targeted specifically as Section 504 fully accessible units exceeding minimum fair housing requirements.
- Units targeted specifically for persons with disabilities (points limited to a maximum of 25% of units in the Project) (Application must describe the strategy that will be used to market available units to disabled persons throughout the Extended Use Period).
- Units targeted to veterans (points limited to a maximum of 25% of units in the Project).
- Units targeted to victims of domestic violence (points limited to a maximum of 25% of units in the Project).
- Units that provide Permanent Supportive Housing (points limited to a maximum of 25% of units in the Project).

If the Project is an Elderly Property as defined in federal law, the Application will receive 100 points under this provision.

Example:

- 2 2 bdrm units meet family requirement 20% 40 points
- 2 1 bdrm units exceed section 504 20% 40 points
- 1 1 bdrm unit targeted to mental illness 10% 20 points
- 5-1 bdrm units with no targeting 50% 0 points
- 10 Total units in Project 100 total points received

9. DEVELOPER KNOWLEDGE AND RESPONSIVENESS (*UP TO MINUS (-) 400 POINTS POSSIBLE*)

If an entity or individual participating in a Project as a member of the Development Team identified in an Application has a demonstrated poor track record or demonstrated past management weaknesses with respect to developments in Montana or in another state, or has

failed in the past to respond timely to an MBOH letter of inquiry with respect to a Project, MBOH may assign negative points.

MBOH will provide written notice within thirty (30) days of MBOH learning of any event that will result in a negative point assignment. If MBOH learns of the event after Application submission and prior to the MBOH Board's Award meeting, MBOH will provide written notice to the Applicant within five (5) business days. The written notice must describe the event giving rise to the negative point assignment and specify the Development Team member or members affected by the negative point assignment, the number of negative points to be assigned and the number of future Applications to which negative points will be assigned. If MBOH has learned of the event after Application submission and prior to the MBOH Board's Award meeting, the notice must be provided to the Applicant and affected members of the Development Team and inform such persons or entities that they may respond in writing to MBOH within five (5) business days of the date of the notice or, if earlier, by 3 days prior to the MBOH Board's Award meeting. If MBOH learns of the event outside the period from Application submission to MBOH Board Award meeting, the notice must be provided to the particular Development Team member affected and inform such Development Team member that they may respond in writing to MBOH within thirty (30) days of the date of the notice.

DEMONSTRATED POOR TRACK RECORD

For purposes of determining a participant's track record, MBOH may contact community officials, Development Team or Development Team member references, Credit bureaus, other state Tax Credit administering agencies and any other sources as MBOH deems appropriate. Up to minus (-) 100 points may be assigned for each of the following: (i) demonstrated poor track record with respect to developments in Montana or in another state, and/or (ii) failure to respond within 10 working days of MBOH letter of inquiry. (*Up to Minus (-) 200 points possible*)

DEMONSTRATED MANAGEMENT WEAKNESSES

Development Team members with past demonstrated management weaknesses, including but not limited to those management weaknesses listed below may be assigned negative points for this section (*Up to Minus (-) 200 points possible*), for example:

- Has not followed-through on the development of a Project from Application to rent-up and operation;
- Has not complied with MBOH submission, compliance or other requirements applicable during Project development, construction and Extended Use Period;
- Has not maintained a Project to Section 42 or other program standards;
- Has or had numerous or outstanding substantial non-compliance issues or IRS 8823s;
- Has not completed required training in a certified compliance training program;
- Has not completed required management compliance retraining at least every four years;
- Has requested income targeting changes that are not supported by unanticipated hardship;

- For Projects Awarded Credits for 2018 or later years, has a debt coverage ratio at 10% cost certification or final allocation that has changed significantly from the debt coverage ratio as underwritten by MBOH at Application;
- Has requested additional Credits more than once;
- Has failed to comply with the Substantial Changes requirements;
- Has significantly diminished the quality and long term viability of a previous Project by lowering costs below a reasonable level;
- Has delinquent late fees due and payable to MBOH;
- Has intentionally provided false information to MBOH in connection with an Application,
 Project or any related Board inquiry or process;
- Has been a member of the Development Team for a prior Project that exceeded maximum Hard Cost Per Unit or Total Project Cost Per Unit at Final Cost Certification; or
- Has been a member of the Development Team for a prior Project Awarded Credits from 2018 or later years that exceeded the applicable maximum Soft Cost Ratio at Final Cost Certification.

Negative points may not be assigned for the same matter under both Section 9(a) and 9(b).

METHOD OF ASSIGNING NEGATIVE POINTS

Any negative points will be assigned as follows:

The factors that will be considered in determining whether to assign negative points and the number of any negative points to be assigned with respect to poor track record items, management weaknesses and failure to response to MBOH letters of inquiry, include:

- The nature and seriousness of the incident(s);
- The frequency of such incidents;
- The incidents were or were not within the control of the individual or entity;
- The degree and timeliness to and with which the entity or individual responded to correction and educational efforts;
- The responsiveness of the individual or entity in responding timely to fees, penalties and other sanctions imposed;
- The cost or financial harm caused to the Project, the Tax Credit agency or third parties;
- The nature and extent of inconvenience and harm caused to Project tenants;
- The nature and extent of damage or expense caused to Project property;
- The extent to which the Project as completed failed to comply with the Project as represented in the Application or in approved Project changes;
- The extent to which the incident would have affected scoring of the Project Application if known as the time (although no such effect on Application scoring need be shown to justify an assignment of negative points);
- The extent to which completion of a Project that received an Award of Credits was substantially delayed or prevented;
- The extent to which Credits that were Awarded were recaptured;
- The extent to which unreasonable or excessive fees, profits or other improper remuneration was derived improperly from a Credit Award or Project; and
- The presence of any other relevant factors or considerations.

Except as otherwise provided in this Section, MBOH will assign negative points on the next competitive 9% Credit Application (or multiple Applications in the same competitive round) which includes as part of its Development Team any person or entity that participated as a Development Team member in the Project or Projects giving rise to the negative point assignment.

If multiple and/or repeat instances of poor performance, management weakness or fail to respond occur or have occurred, MBOH may assign negative points with respect to a Development Team member for not only the first competitive round in which an Application involving such member participates but may also be assigned for such Applications in multiple future years or competitive rounds.

If MBOH assigns negative points as a result of poor track record, management weakness or failure to respond that occurred as part of the development/construction/rehabilitation process prior to beginning of lease-up activities or other involvement of the Qualified Management Company, negative points will not be assigned with respect to such Qualified Management Company.

If more than one Development Team member subject to a negative point assignment from a prior Project is part of the Development Team on a current or future Project Application, the total negative points assigned to the Application will be the greatest number of negative points assigned with respect to any one such participating Development Team member.

If the Project giving rise to the negative points would have received a lower Development Evaluation Criteria score under the QAP under which the Project initially was evaluated, scored and awarded Credits had the poor track record, management weakness or failure to respond been known as of Application scoring, the negative points assigned with respect to a Development Team member from the earlier Application will be the number of points corresponding to the difference in scoring that would have resulted. Such point difference shall be converted as appropriate and necessary to correspond to the current QAP point scoring system.

B. AWARD DETERMINATION

The MBOH Board will select Applications to receive an Award that it determines best meet the most pressing affordable housing needs of low-income people in Montana, taking into consideration:

- all of the requirements, considerations, factors, limitations, Development Evaluation Criteria, set asides, priorities and data (including without limitation the statistical data in the MBOH Statistical Data Form) set forth in this QAP and all federal requirements (together referred to in this QAP as the "Selection Criteria");
- the Development Evaluation Criteria scoring; and
- all other information provided to the MBOH Board regarding the applicant Projects.

The awarding of points to Projects pursuant to the Development Evaluation Criteria is for purposes of determining that the Projects meet at least the minimum Development Evaluation Criteria required for further consideration and to assist the MBOH Board in evaluating and comparing Projects. Development Evaluation Criteria scoring is only one of several considerations taken into account by the MBOH Board and does not control the selection of Projects that will receive an Award of Housing Credits.

In addition to any other Selection Criteria, the MBOH Board may consider the following factors in selecting Applications for an Award:

- 1. The geographical distribution of Housing Credit Projects;
- 2. The rural or urban location of the Projects;
- 3. The overall income levels targeted by the Projects (including deeper targeting of income levels);
- 4. The need for affordable housing in the community, including but not limited to current Vacancy Rates;
- 5. Rehabilitation of existing low-income housing stock;
- 6. Sustainable energy savings initiatives;
- 7. Financial and operational ability of the Applicant to fund, complete and maintain the Project through the Extended Use Period;
- 8. Past performance of an Applicant in initiating and completing Tax Credit Projects;
- 9. Cost of construction, land and utilities, including but not limited to costs/Credits per square foot/unit;
- 10. The Project is being developed in or near a historic downtown neighborhood;
- 11. The frequency of Awards in the respective areas where Projects are located;
- 12. Preserving project rental assistance or have or are planning to add Section 811 units to an existing project; and/or
- 13. Augmentation and/or sources of funds.

If the MBOH Board Awards Credits to an Applicant where the Award is not in keeping with the Selection Criteria of this QAP, it will publish a written explanation that will be made available to the general public.

VIII. UNDERWRITING ASSUMPTIONS AND LIMITATIONS

These underwriting assumptions will be used at Application, 10% Cost Certification and Final Cost Certification.

A. PRO-FORMA COMPONENTS

1. OPERATING EXPENSES

MBOH will evaluate Operating Expenses and Vacancy Rate underwriting assumptions for all Projects for reasonableness, taking into account the type of housing, unit sizes, intended target group of the housing and location. Staff may require the Applicant to provide additional justification and documentation.

2. DEBT COVERAGE RATIO

The ratio of net operating income (rental income less Operating Expenses, not including expenses for amortization, depreciation or mortgage-related interest, and reserve payments) to foreclosable, currently amortizing debt service obligations ("Debt Coverage Ratio" or "DCR") should be between:

- 1.15 and 1.35 in the first year of normal operation if projected to trend upward;
- 1.10 and 1.50 during the entire first 15 years of normal operation if projected to trend downward.

Applications must justify DCRs outside these ranges in a narrative. MBOH will consider the reasonableness of the Project's proposed rent levels, Operating Expenses, reserve payments, projected Vacancy Rates, debt service obligations, Soft Costs and amount of Credits requested. If the DCR, as underwritten by MBOH at Application, is above the ranges specified above without acceptable justification, MBOH will reduce the amount of Credits requested or the rent levels proposed.

3. TOTAL EXPENSE RATIO

MBOH will consider, on a case by case basis, projects which materially deviate from a 1.10 ratio.

4. OPERATING RESERVES

Owners must establish and maintain minimum operating reserves in an amount equal to at least four months of projected Operating Expenses, debt service payments, and annual replacement reserve payments. The specific requirements for reserves, including the term for which reserves must be held, must be included in the limited partnership or operating agreement. Using an acceptable third party source, this requirement can be met by cash, bond, letter of Credit from a financial institution, or a Developer guarantee that a syndicator has accepted the responsibility for a reserve.

5. REPLACEMENT RESERVES

Owners must contribute replacement reserves in an amount equal to at least \$300 per unit annually. Exceptions may be made for certain special needs or supportive housing developments. Exceptions must be documented and will be reviewed on a case by case basis. The specific requirements for reserves, including the term for which reserves must be held, must be included in the limited partnership or operating agreement.

6. UTILITY ALLOWANCES

The Montana Department of Commerce Section 8 Utility Allowances are the only acceptable utility allowances for Applications, unless otherwise provided by USDA Rural Development or an MBOH-approved allowance using the HUD Utility Model (HUSM). Projects may use their own calculated HUSM from LOI to Placed in Service, but as of Placed in Service must have obtained MBOH prior approval of HUSM.

7. ADDITIONAL UNDERWRITING ASSUMPTIONS

MBOH will use the following underwriting assumptions for underwriting all Applications:

- Vacancy rates: 10% 20 units and less, 7% more than 20 and up to 50 units, 5%- more than 50 units or 100% project based rental assistance;
- Income Trending: 2%;
- Expense Trending: 3%;
- Reserves Trending: as proposed in Application but not to exceed 3%;
- Structured Debt for pro-forma not allowed; and
- Operating expenses per unit: \$3,000-\$6,000 annually.

8. SOURCES AND USES CERTIFICATION

Applicants must certify that they have disclosed all of a project's sources and uses, as well as its total financing, and must disclose to MBOH in writing any future changes in sources and uses over 10% in any UniApp section or any increase in Soft Costs throughout the development period (until 8609's are received).

B. SUBSTANTIAL REHABILITATION

Montana's minimum Substantial Rehabilitation standard is expenditures the greater of

- \$35,000 of Hard Cost Per Unit for 9% Projects (\$30,000 for 4% Projects), or
- an amount which is not less than 30% of the adjusted eligible basis of the building during a 24-month or shorter period.

Rehabilitation 9% Projects must meet all requirements of the capital needs assessment and the Application must also include a list of items in each unit that will be replaced, refinished, repaired, upgraded, or otherwise rehabilitated.

C. PROJECTS SEEKING PROPERTY TAX EXEMPTIONS

Applications proposing a property tax exemption for rental housing providing affordable housing to lower-income tenants pursuant to Mont. Code Ann. § 15-6-221 must affirmatively commit to providing a minimum of 50% of the Units in the property to tenants at 50% of the area median income, with rents restricted to a maximum of 30% of 50% of area median income, as calculated under Section 42. This requirement does not apply to 4% Projects, including the 4% Project in Twinned Projects.

D. EVENTUAL HOME OWNERSHIP

Projects wishing to convert to homeownership at the end of the 15 year compliance period may do so under the provisions of the Code. MBOH will accept no more than one application per calendar year that intends to convert to homeownership. As these projects will be rental housing for a minimum of 15 years, they will be underwritten as a rental project, and are subject to the same underwriting criteria as full-term projects.

The following conditions generally apply:

- The units must be single family detached, townhouse, or condominium;
- Intention to convert must be expressed at time of application;

- Applicant must submit a comprehensive plan that includes, but is not limited to, provisions
 for repair or replacement of heating system, water heater, and roof prior to sale; limitation on
 equity upon subsequent sales; homeownership classes for potential homebuyers; and
 requirements for extent of stay in rental unit to be eligible for purchase;
- Purchaser must occupy unit as primary residence;
- Units must be initially marketed to existing rental resident. Remaining units not sold to existing renter households must be sold to households earning 80 percent or less of AMI;
- Low income units that are not sold to their residents must remain rental units; subject to low income and rent restrictions for the term of the LURA.

E. 130% BASIS BOOST

Applications for Projects not located in an area designated by HUD as a difficult development area ("DDA") or a QCT may request Housing Credits calculated at up to 130% of eligible basis. The documentation must explain why the Project would not be feasible without the boost. MBOH also may consider any one of the following factors:

- a Tribal or Small Rural Project;
- Qualification of the building for Rural Development funding;
- targeting of more than 75% of Project units to 50% or below area median income level;
- includes historical preservation, preservation or replacement of an existing affordable housing Project (replacement must replace the same Project with the same or similar affordability requirements); or
- for purposes of financial feasibility.

F. NON-HOUSING AMENITIES

Projects may include swimming pools, golf courses, and other similar amenities only if funded by sources other than Housing Credits (this requirement does not apply to garages or car ports).

G. HOUSING CREDIT PROCEEDS

Applications must estimate expected Credit proceeds. Within 60 days after the partnership or operating agreement is signed by all parties, the Applicant must provide MBOH with a copy of the executed agreement to avoid a late fee. Prior to issuance of IRS Form 8609(s), MBOH will require the accountant's certification to include gross syndication proceeds and costs of syndication.

H. DEVELOPMENT COST LIMITATIONS

1. HARD COSTS

All Applications must provide justification for development costs. Even for those projects meeting specific QAP limitations, MBOH will evaluate Cost Per Unit and Cost Per Square Foot for all Projects for reasonableness, taking into account the type of housing, other development costs, unit sizes, the intended target group of the housing, where the Project will be located, and other relevant factors.

MBOH may decline to Award Credits to a Project where it determines that costs do not reflect the optimal use of Housing Credits.

TOTAL COST PER UNIT LIMIT.

Total Project Cost Per Unit may not exceed \$280,000.

For purposes of applying this limit to Applications for the 4% and 9% Projects in Twinned 4%/9% Projects, Total Project Cost Per Unit will be calculated as an average of the Total Project Cost Per Unit amounts for the included 4% Project(s) and 9% Project(s).

Applications exceeding this limit will receive no further consideration. Projects must meet this limit at LOI, Application, 10% Cost Certification and Final Cost Certification. MBOH will assess negative points in the future if a Project exceeds this limit at Final Cost Certification. This negative points assessment will apply only prospectively to Projects Awarded Credits in the 2017 or later Award rounds.

The \$280,000 limit amount also applies to Projects awarded Credits in prior years and for which an IRS Form 8609 has not yet been issued, if MBOH staff approves such limit amount based upon submission of a written request with supporting justification for cost.

Applicants must submit requests for exception to the Total Cost Per Unit limit no later than thirty (30) day prior to the LOI submission deadline. MBOH will consider exceptions based upon documented justification. The MBOH Board may grant exceptions in its sole discretion. The board may not consider waivers for greater than \$320,000 per unit.

COMMUNITY SERVICES FACILITY COST EXCLUSION

For purposes of the Total Project Cost Per Unit limit, costs of Community Service Facilities may be deducted from Total Project Costs if the Application includes:

- a calculation of the costs of the Community Service Facility(ies) that is reasonable and consistent with the UniApp for the Project and that specifically itemizes the costs reasonably attributable or allocable to such building or partial building;
- a written certification that the Project's Total Cost Per Unit will be within the limit in this QAP upon exclusion of such Community Service Facility costs;
- the Applicant's agreement that, upon request, it will provide MBOH staff with supporting cost documentation, a CPA certification or other information to support the cost calculation, and will pay the cost of an independent third party expert analysis if required by MBOH; and
- Applicant's agreement that MBOH will deny an exclusion if staff determines that such cost calculation is unreasonable or not supported by appropriate documentation or certification.

2. ADDITIONAL COST LIMITATIONS

To the extent an Application exceeds the following cost limitations, as calculated in UniApp, MBOH will reduce the excess for all purposes under the Housing Credit program.

BUILDER'S OVERHEAD

Builder's Overhead, the builder's overhead shown in the Applicant's properly completed UniApp Supplement (Cost Limitations and Requirements), is limited to a maximum of 2% of Construction Costs.

GENERAL REQUIREMENTS

General Requirements are limited to a maximum of 6% of Construction Costs.

BUILDER PROFIT

Builder Profit, the builder's profit shown in the Applicant's properly completed UniApp Supplement (Cost Limitations and Requirements), will be limited to a maximum of 6% of Construction Costs.

DEVELOPER FEES

Developer Fees will be limited to a maximum of 15% of Total Project Costs.

For purposes of this Developer Fee limit, Total Project Costs do not include Developer Fees, Project reserves or land costs. HC Consultant fees (amount must be disclosed) will be included as part of and subject to the limit on Developer Fees. Architectural, engineering, and legal services are considered to be professional services, and fees for such services are not included as Developer Fees for purposes of this limitation.

DISCLOSURE OF TRANSACTIONS INVOLVING RELATED PARTIES

Applicants and Owners must disclose all transactions with Related Parties; failure to do so may result in the Project not receiving an Award. MBOH may reduce Developer Fees, Builder Profit or other Soft Costs on Projects involving Related Party transactions.

LIMITATION ON SOFT COSTS

The Soft-Cost-to-Hard-Cost Ratio ("Soft Cost Ratio") for the Project, based upon the Application's UniApp, may not exceed:

- 32% for projects with more than 24 units;
- 37% for projects with 24 or fewer units or Small Rural Projects; or
- 40% for stand-alone 4% Credit Projects.

For Twinned 4%/9% Projects, the Soft Cost ratio is calculated based upon the combined costs for the 4% and 9% Projects and the applicable 32% Large Project limit or 37% Small Rural Project limit. If the Soft Cost Ratio for a Project exceeds the applicable maximum, MBOH will allow the Applicant to specify how and by what amount its Soft Costs will be reduced in writing within ten (10) business days. The Application will reflect such adjustments for all purposes under the HC program. If the Applicant fails to communicate its adjustments within the required time, MBOH will return the Application. Projects must meet this limit at LOI Intent, Application, 10% Cost Certification and Final Cost Certification. MBOH will assess negative points to Projects Awarded Credits for 2018 or later years exceeding this limit at Final Cost Certification.

PROFESSIONAL FEES

The UniApp must address and provide justification for professional fees. MBOH will compare these fees as a percentage to construction costs for reasonableness.

ADDITIONAL DUE DILIGENCE

MBOH may require due diligence in the form of additional cost certification for Projects MBOH considers to be at high risk for unreasonable costs. This additional due diligence may include audits of contracts among or between Development Team members or contractors and/or sampling of subcontractor invoices to verify consistency with the developer cost certification.

IX. MBOH COMMUNICATIONS

MBOH may communicate with Applicants to provide interpretive guidance or for purposes of clarifying, verifying or confirming any information.

MBOH may query an Applicant or other persons regarding any concerns related to an Application or the management, construction or operation of a proposed or existing low-income housing Project. Questionable or illegal housing practices or management, or insufficient or inadequate response may be grounds for Disqualification of an Application.

MBOH may contact local community officials to discuss relevant evaluation criteria. MBOH may also contact any other third parties to confirm or seek clarification regarding any information in the Application.

MBOH will provide notice of the Project to the chief executive officer (or the equivalent) of the local jurisdiction within which the Project is proposed to be located and provide such individual a reasonable opportunity to comment on the Project.

X. RESERVATION, CARRYOVER ALLOCATION, CREDIT REFRESH AND FINAL ALLOCATION

The requirements in this Section apply to all Projects Awarded Credits.

A. RESERVATION AGREEMENT

After an Award of Credits, MBOH will provide a Reservation Agreement to the Owner. Once the Owner enters into a Reservation Agreement with MBOH, the Owner must then meet the requirements and conditions described and provide the required documentation before it receives a Carryover Allocation (Initial Allocation) or Final Allocation of Housing Credits.

MBOH will revoke an approved Reservation and terminate the Reservation Agreement when a Project fails to make successful progress toward completion or otherwise fails to perform its obligations.

If an unsuccessful Applicant, or a party associated with such Applicant, commences any legal action or proceeding challenging MBOH's Award determination or process, MBOH will make a Carryover Allocation (Initial Allocation) or Final Allocation of Housing Credits as required by an executed Reservation Agreement to the same extent it would have been bound to do in absence of the legal challenge, unless the court determines that such Applicant was not eligible or qualified under the applicable QAP to receive an Award of Housing Credits or MBOH otherwise determines that it is precluded by Court order from doing so. If a court determines in any such action or proceeding that MBOH must Award Credits to one or more unsuccessful Applicants from such round or year, such Award or Awards will be made using any available returned or unreserved Housing Credits or current year's Credits.

B. CARRYOVER ALLOCATION

MBOH will issue a Carryover Allocation Agreement to the Owner for execution and return to MBOH by December 1 of the year for which the Credits are being Awarded.

To receive a Carryover Allocation, the Owner must submit the executed Reservation Agreement, proof of ownership (evidence of title or right to possession and use of the project property for the duration of the Compliance Period and the Extended Use Period plus one year, e.g., a recorded deed or an executed lease agreement), executed and recorded Restrictive Covenants, and the Reservation fee.

C. 10% TEST

Deadline for submission of the required 10% information is the first anniversary of the date on which MBOH executed the Carryover Allocation Agreement. Failure to pay the required fee, submit certification for 10% documentation, or to meet the 10% Test will cause forfeiture of Awarded, reserved or allocated Housing Credits. Refer to the 10% checklist on the MBOH website for the most current checklist of requirements.

D. LURA/DECLARATION OF RESTRICTIVE COVENANTS

When submitted to MBOH, the executed and recorded Declaration of Restrictive Covenants/ Land Use Restriction Agreement (Restrictive Covenants or LURA) must be accompanied by a copy of the most current ALTA survey (if available) and title commitment (if available) for the Project real property. These documents must be submitted by December 1 of the year for which the Award of Credits was made. If not available at such time, these documents must be submitted as soon as available (except where unavailable for tribal trust land).

By execution and recording of the LURA the Owners waives the right to request that MBOH locate a non-profit qualified buyer (the "qualified contract process"). The Extended Use Period specified in the LURA may not be terminated early through the qualified contract process and the Owner must for the entire Extended Use Period as provided in the LURA.

Prior to issuance of 8609, documentation must be submitted evidencing the first priority position of the Restrictive Covenants. If such evidence does not show that the Restrictive Covenants are

in a first priority position, MBOH will require a subordination agreement from the owner or holder of any prior-recorded lien or encumbrance as a condition of issuance of IRS Form 8609, unless such prior lien or encumbrance is required by a federal agency to have priority over the Restrictive Covenants or MBOH otherwise determines in writing that subordination is not required.

For Projects constructed or to be constructed on leased ground, the LURA is not required to have priority over the ground lease. However, the LURA and ground lease shall include such provisions as are satisfactory to MBOH to assure to the greatest practicable extent that the Project will be subject to all LURA restrictions for the full Extended Use Period.

E. REFRESHING CREDITS

MBOH may approve conversion of previously awarded Credits from the original Credit year of the Credits Awarded to a more recent Credit year ("Credit Refresh") for Projects that have been issued a Carryover Allocation (Initial Allocation) and for which MBOH has approved such 10% Cost Certification.

The amount of Credits reserved through a Credit Refresh shall not exceed the amount of Credits originally allocated or the maximum Credit Award under the Applicable QAP.

In making its determination, MBOH may consider any or all of the following:

- The diligence, or lack of diligence, by the Development Team, Owner or other Project
 participant in seeking to complete the development, approval, construction and opening of
 the Project;
- Any factors beyond the control of the Development Team, Owner or other Project participant, significantly contributing to the need for the Credit Refresh;
- The likelihood that the Project will be completed and Placed in Service within a reasonable time, under the circumstances, if approved;
- The likelihood that the Project will not be completed or Placed in Service if denied;
- The need for the Project, as determined in the original Application and Award processes;
- Any significant changes in market conditions or other factors that affect the financial feasibility of or need for the Project; and
- Any other factor or factors that the Board deems relevant to the determination

MBOH may place any one or more conditions on approval or further consideration of an application.

All requirements of the Applicable QAP and applicable law shall apply as if such Reservation were the original.

F. FINAL ALLOCATIONS/8609

Refer to the 8609 checklist on the MBOH website for the most current checklist of items due.

MBOH will assess a late fee if it does not receive the paperwork within 6 months of the last building Placed in Service date. MBOH may make a site visit and conduct a file audit prior to issuance of Form 8609(s). Owners must send a copy of each completed and signed Form 8609 back to MBOH within 3 months of issuance.

G. PUBLIC NOTIFICATION

Any public relations actions by a recipient of Tax Credits must specifically state that a portion of the funding is from MBOH, including radio, television, and printed advertisements (excluding rental ads), public notices, and signs at construction sites.

H. CHANGES TO PROJECT OR APPLICATION

MBOH must approve any changes in the Implementation Schedule greater than 60 days. Owners must submit notification in writing with justification to MBOH within 10 business days of the change.

MBOH must specifically approve any of the following Substantial Changes in the project as set forth in the Application. The Applicant must notify MBOH in writing at least 30 days before implementing Substantial Changes.

- A member of the Development Team, including the Applicant, occurring prior to Placed in Service;
- A change or amendment to the Developer Fee agreement or Consultant Fee agreement;
- Participating local entity;
- Quality or durability of construction;
- Number of units or unit composition;
- Site or floor plan;
- Square footage of Project building(s);
- · Project amenities;
- Income or rent targeting;
- Rental subsidies;
- Addition of any mandatory tenant obligation (e.g., adding payment of utilities);
- Target group;
- Project location;
- Sources and Uses (to the extent any line item of the Sources of Funds or any section of the Uses of Funds of the UniApp changes by 10% or more);
- Common Space square footage, location or purposes;
- Housing Credits required for the Project;
- Extended Use Period:
- Any Application item or information required by the Applicable QAP;
- Any item that would have resulted in a lower Development Evaluation Criteria Score under the Applicable QAP; and
- Any other significant feature, characteristic or aspect of the Project.

If MBOH staff denies approval of any Project Change, the Applicant may request Board review and must inform MBOH staff if the proposed change requires immediate or urgent review and approval. Any requested changes may incur additional fees.

XI. QUARTERLY REPORTS

All Applicants receiving Reservations must provide written status reports for each calendar quarter pursuant to the terms of the Reservation Agreement.

Refer to the Quarterly Report Form on the MBOH website for the most current checklist of items and applicable due dates.

XII. QUALIFIED CONTRACT PROCESS

MBOH has adopted certain requirements and procedures applicable to the qualified contract process. These requirements and procedures are set forth in a separate Montana Board of Housing publication entitled the Montana Board of Housing, Qualified Contract Process(INSERT DATE) (the "Qualified Contract Process" or "QCP"). The QCP governs eligibility, submission, consideration, determination and other aspects of a request for a qualified contract as provided in Section 42.

MBOH may update and revise the QCP from time to time through the administrative rule adoption process. Any updated or revised version of the QCP adopted as rule will replace and supersede the **INSERT DATE** version of the QCP as provided in the adopted rule. The current version of the QCP is available on the MBOH website.

APPENDIX A: DEFINITIONS

Terms used in this QAP shall have the same meaning as in Section 42 and implementing regulations unless otherwise indicated. As used in this QAP, the following definitions apply unless the context clearly requires a different meaning:

"4% Credits" means HCs that may be Awarded in accordance with the applicable QAP to Projects with tax-exempt financing under the volume limitation on private activity bonds and, except as otherwise provided by this QAP for Applications combining 4% and 9% Credits, outside the competitive allocation process applicable to 9% Credits.

"9% Credits" means HCs that may be Awarded through the competitive allocation process in accordance with the Applicable QAP.

"Absorption Rate" means the number of months projected in the Application's market study for a Project to become fully leased, using the calculations listed in MBOH's full market study requirements.

"Acquisition" means obtaining title, lease or other Land and Property Control over a property for purposes of an HC Project. Acquisition includes purchase, lease, donation or other means of obtaining Land or Property Control.

"Acquisition/Rehab" means Acquisition of a property with one or more existing buildings and renovation meeting Montana's minimum Rehabilitation standard for existing buildings on the property that are part of an HC Project.

"Allocation" means an Initial Allocation or a Final Allocation.

"Available Annual Credit Allocation" is defined as the Credit ceiling allocated to MBOH by the federal government for the previous calendar year.

"Common Area" means any space in the building(s) on the Project property that is not in the units (except manager units), i.e. hallways, stairways, community rooms, laundry rooms, garages/carports, manager units, etc.

"Community Service Facility" means a building or part of a building constructed and included as part of and on the same tract of land as a Project: (a) that provides services designed to serve primarily individuals whose income is within the percentage(s) of area median income to be served by the Project (but are not limited to serving such individuals or Project residents exclusively); and (b) that charges service fees, if any, which are affordable to individuals whose income is within the percentage(s) of area median income to be served by the Project. Community Service Facilities are not required to meet Section 42 Community Service Facility requirements for inclusion in adjusted basis in order to qualify for the cost exclusion under Section 3.F.1 this QAP (except as included in this definition).

"Construction Costs" means all costs listed on the UniApp, Section C, Uses of Funds, under the Site Work and Construction and Rehab sections.

"Consultant" or "HC Consultant" means an individual or entity advising a Developer or Owner with respect to the HC Application and/or development process.

"Design Professional" means a housing/building design professional.

"Developer" means the individual(s) and/or entity(ies) specifically listed and identified as the developer in the Uniform Application, Section A - Applicant Developer/Sponsor, responsible for development, construction and completion of an HC Project.

"Development Evaluation Criteria" means the evaluation and scoring criteria set forth in QAP VII. Development Evaluation Criteria and selection.

"Development Team" means and includes the Applicant, Owner, Developer, General Partner, Qualified Management Company, and HC Consultant identified as such in the Application.

"Disqualify" or "Disqualification" means, with respect to an Application, that the Application is returned to the Applicant by MBOH without scoring and without consideration for an Award of HCs, as authorized or required by this QAP.

"Elderly Property" means a Project for which a Fair Housing Act exemption for housing for older persons will apply.

"Expense Coverage Ratio" means, with respect to a Project with no hard debt included in the UniApp, the ratio of the Project's operating income to expenses.

"Experienced Developer" means a Developer who was entitled by written agreement to receive at least 50% of the Developer Fees on a prior low-income housing Tax Credit Project that has achieved 100% qualified occupancy and for which the applicable state housing finance agency has conducted a compliance audit which revealed no significant problems.

"Final Allocation" means, with respect to HCs, MBOH issuance of an IRS Form 8609(s) (Low Income Housing Credit Allocation Certificate) for a Project after building construction or Rehabilitation has been completed according to the Project Application and any MBOH or MBOH Board-approved changes and the building has been Placed in Service.

"Form" means the most current version of any MBOH Form referenced in this QAP. All Forms are available on the MBOH website or the Funding Portal.

"Funding Portal" means the electronic system designated by MBOH for submission of Applications and related documents, as identified and described on the MBOH website.

"General Requirements" means the contractor's miscellaneous administrative and procedural activities and expenses that do not fall into a major-function construction category and are Project-specific and therefore not part of the contractor's general overhead, categorized in accordance with NCSHA standards and shown in the Applicant's properly completed UniApp Supplement, Section C, Limitations and Requirements.

"Gut Rehab" means a Project that includes the replacement and/or improvement of all major systems of the building, including (a) removing walls/ceilings back to the studs/rafters and replacing them; (b) removing/replacing trim, windows, doors, exterior siding and roof; (c) replacing HVAC, plumbing and electrical systems; and (d) replacing and/or improving the building envelope (i.e., the air barrier and thermal barrier separating exterior from interior space) by either removing materials down to the studs or structural masonry on one side of the exterior walls and subsequently improving the building envelope to meet the whole-building energy performance levels for the project type, or creating a new thermal and air barrier around the building.

"Hard Costs" means and includes building Acquisition costs, Site Work costs and Construction and Rehab costs, as shown in the Applicant's properly completed UniApp, Section C, Uses of Funds.

"Identity of Interest" between an Applicant and an In-Process Project means that the Applicant or a member of the Development Team for the Applicant Project: (i) has an interest in the ownership or developer fee payable for the In-Process Project; (ii) is the sole General Partner or the Managing General Partner of an entity formed for purposes of the In-Process Project; or (iii) is a Housing Credit Consultant for the development or construction phase of the In-Process Project and is entitled to receive a portion of the Developer Fee. The Applicant does not have an Identity of Interest with an In-Process Project solely because a person or entity involved in or providing support for the Applicant Project is or was also involved in or providing support for the In-Process Project, e.g., participating as a non-profit entity for purposes of obtaining a tax exemption, or providing community or supportive services for the Project, so long as such person or entity is not entitled to a portion of the Developer Fee.

"Initial Allocation" means the Carryover Allocation by MBOH of HCs from a particular year's federal LIHTC allocation to the state for purposes of later Final Allocation to a particular Project, as documented by and subject to the requirements and conditions set forth in a written Reservation Agreement, the Applicable QAP and federal law.

"In-Process Project" means any 9% Credit Project for which MBOH and the taxpayer previously have entered into and executed a Reservation Agreement but for which BOH has not issued Form(s) 8609 or for which MBOH has not rescinded the Credits or the Applicant has not returned the Credits.

"Land or Property Control" means legally binding documentation of title or right to possession and use of the property, or the right to acquire title or right to possession and use of the property, for purposes the Project, including but not limited to documentation of fee ownership, lease, buy/sell agreement, option to purchase or lease, or other right, title or interest that will allow the Owner to acquire Proof of Ownership for purposes of Carryover.

"Large Project" means, for purposes of the Soft Cost Ratio limitation in Section 3.F, a Project with more than 24 Housing Credit units.

"Letter of Intent" or "LOI" means a letter and attachment submitted to MBOH on the MBOH Letter of Intent Form.

"New Construction" means construction of one or more new buildings, and includes Gut Rehab.

"Owner" means the legal entity that owns the Project.

"Project Square Footage" means such portion of the total square feet applicable to low-income Units and Common Areas and used for the applicable square footage calculation in the UniApp under Section B - Program Information, Part X, "Project Uses." Project Square Footage includes all building square footage available to or serving tenants, including units, management

unit(s) and offices, Common Area, balconies, patios, storage and parking structures; and should reflect measurement to include total building envelope from outside wall to outside wall.

"Proof of Ownership" means title or right to possession and use of the property for the duration of the Compliance Period and any Extended Use Period plus one year, e.g., a recorded deed or an executed lease agreement.

"Qualified Management Company" means a Management Company that meets the education requirements specified in Appendix B, and is not disqualified by MBOH to serve as a Management Company on existing, new or additional Tax Credit Properties or Projects, based upon the company's: (a) failure to complete timely any required training; (b) failure to have or maintain any required certification; (c) record of noncompliance, or lack of cooperation in correcting or refusal to correct noncompliance, on or with respect to any Tax Credit or other publicly subsidized low-income housing property; or (d) delinquent MBOH late fees (unless the Management Company demonstrates to the satisfaction of MBOH that such noncompliance or lack of cooperation was beyond such company's control).

"Qualified Nonprofit Organization" means, with respect to a Project, an organization exempt from federal income tax under Section 501(c) (3) or (4) of the Internal Revenue Code, which is not and during the Compliance Period will not be affiliated with or controlled by a for-profit organization, whose exempt purposes include the fostering of low income housing, which owns an interest in the Project, which will materially participate in the development and operation of the Project throughout the Compliance Period, and which is not affiliated with or controlled by a for-profit organization.

"Related Party" means an individual or entity whose financial, family or business relationship to the individual or entity in question permit significant influence over the other to an extent that one or more parties might be prevented from fully pursuing its own separate interests. Related parties include but are not limited to: (a) family members (sibling, spouse, domestic partner, ancestor or lineal descendant); (b) a subsidiary, parent or other entity that owns or is owned by the individual or entity; (c) an entity with common control or ownership (e.g., common officers, directors, or shareholders or officers or directors who are family members of each other); (d) an entity owned or controlled through ownership or control of at least a 50% interest by an individual (the interest of the individual and individual's family members are aggregated for such purposes) or the entity (the interest of the entity, its principals and management are aggregated for such purposes); and (e) an individual or entity who has been a Related Party in the last year or who is likely to become a Related Party in the next year.

"Reservation" means the conditional setting aside by MBOH of HCs from a particular year's federal LIHTC allocation to the state for purposes of later Carryover Allocation (Initial Allocation) and/or Final Allocation to a particular Project, as documented by and subject to the requirements and conditions set forth in a written Reservation Agreement, the Applicable QAP and federal law.

"Selection Criteria" means and includes all of the requirements, considerations, factors, limitations, Development Evaluation Criteria, set asides and priorities set forth in this QAP and all federal requirements.

"Selection Standard" means the standard for selection of Projects to receive an Award of HCs set forth in the Award Determination subsection, i.e., the MBOH Board's determination that one or more Projects best meet the most pressing affordable housing needs of people within the state of Montana as more specifically set forth in such subsection.

"Small Project" means, for purposes of the Soft Cost Ratio limitation in Section H.2, a Project with 24 or fewer Housing Credit units.

"Small Rural Project" means a Project: (a) for which the submitted Tax Credit Application requests Tax Credits in an amount up to but no more than 12.5% of the state's Available Annual Credit Allocation, and (b) proposed to be developed and constructed in a location that is not within the city limits of Billings, Bozeman, Butte, Great Falls, Helena, Kalispell, or Missoula.

"Soft Costs" means the costs of professional work and fees, interim costs, financing fees and expenses, syndication costs, soft costs and Developer's fees as shown in the Applicant's properly completed UniApp, Section C - Uses of Funds. Soft Costs do not include operating or replacement reserves.

"Soft-Cost-to-Hard-Cost Ratio" or "Soft Cost Ratio" means total Soft Costs divided by the sum of total Hard Costs (as calculated in the UniApp) and land value (the highest value of what is shown in a comparative market analysis, appraisal or arm's length sale). Land value is added regardless of whether land is donated, leased, purchased or otherwise acquired.

"Total Project Cost" means all costs shown in UniApp Section C, Part II, Uses of Funds line "Total Projects Costs without Grant Admin" (except as provided in Section 3.F.1. with respect to exclusion of Community Service Facility costs). Total Project Cost does not include grant administration costs.

"Tribal" means an application sponsored by a Tribally Designated Entity(TDHE).

"Twinned Projects" or "Twinned 4%/9% Projects" means one or more 4% Projects and one or more 9% Projects developed and constructed on a coordinated basis by a single Development Team where each of the included Projects is legally separate and distinct, physically distinct (e.g., separate buildings, located on separate fee or ground lease parcels, separate condominium units, etc.), financed, developed and constructed pursuant to separate contracts or contract schedules, managed and maintained under separate contracts and with separate accounting and finances, all in accordance with applicable IRS requirements, and where the 4% and 9% Projects share access to and use of facilities, such as for parking, common areas, reciprocal utility or maintenance easements or other similar items, pursuant to recorded covenants, conditions, restrictions, agreements and/or easements providing for or based upon a reasonable allocation of costs between the Projects in accordance with applicable

IRS requirements. This definition is intended to be descriptive rather than to establish separate Montana requirements for such Projects, which Projects must meet all applicable IRS and other legal requirements.

"UniApp" means the most current Uniform Application available on the MBOH website at: https://housing.mt.gov/Multifamily-Development/Uniform-Application.

"Unit" means any residential apartment or single-family home.

"Vacancy Rate" means percentage of vacant affordable units in the Application's market area or in the prope

APPENDIX B: DESIGN REQUIREMENTS

A. PROJECT ACCESSIBILITY REQUIREMENTS

The Fair Housing Act, including design and accessibility requirements, applies to HC properties. In addition to meeting Fair Housing Act requirements, MBOH requires that all New Construction units and common areas and Rehabilitation that at least replaces interior walls and doors must incorporate the following:

For Rehab, items 3 and 4 below apply to all units and all floors where moving walls, removing wall coverings, or doing new wiring or rewiring.

- 1. 36 inch doors for all living areas (except pantry, storage, and closets).
- 2. All door hardware must comply with Fair Housing Act standards for all units.
- 3. Outlets mounted not less than 18 inches above floor covering.
- 4. Light switches, control boxes and/or thermostats mounted from 36 to 48 inches above floor covering.
- 5. Walls adjacent to toilets, bath tubs and shower stalls must be reinforced for later installation of grab bars.
- 6. All faucets must be lever style.
- 7. A minimum of a ground floor level half-bath with a 30X48 inch turn space (also required in Rehabilitation unless waived by staff for structural limitations or excessive cost, etc.) (does not apply if there is no living space on the ground floor level).
- 8. No-step entry to all ground floor level units.

9. Compliance with accessibility requirements must be certified in the architect's letter of certification submitted with the 8609(s) submission. It is suggested but not required that Projects also include parking for caregivers for tenants with disabilities and that a lease addendum provide for moving a household without tenants with disabilities from a handicapped accessible unit to a regular unit if the handicapped accessible unit is needed for rental to a tenant with a disability.

B. ENERGY, GREEN BUILDING AND OTHER INITIATIVES, GOALS AND REQUIREMENTS

The following items in Subparagraphs 1 through 12 specify voluntary initiatives and goals which MBOH encourages Developers to consider in the planning and development of Projects, as well as certain Project requirements. These items are required only where so indicated by the use of mandatory language (e.g., "must"). Such initiatives, goals and requirements are subject to any further applicable provisions of this QAP.

1. INTEGRATED DESIGN PROCESS AND COMMUNITY CONNECTIVITY

Project development and design includes a holistic approach. Processes include neighborhood and community involvement to ensure Project acceptance and enhancement. Integrated design processes ensure higher quality finish Project. Existing neighborhood edges, characteristics, fabric are considered in the Project design. Some considerations may include but are not limited to a community design charrette, incorporating Project into neighborhood fabric, energy modeling, commissioning, infrared testing, etc. (see Required Infrared Testing for Projects Awarded Credits, below).

2. VISITABILITY AND UNIVERSAL DESIGN PRINCIPLES

Applicants should consider inclusion of visitability and universal design principles in development of the Project. MBOH encourages strong advertising of accessible features when advertising new construction through the Multiple listing services or through MontanaHousingSearch.com.

3. SUSTAINABLE SITE, LOCATION AND DESIGN

The building(s) and Project site, including the surrounding area, provide opportunities for education, alternative transportation, services, and community facilities. This is evidenced, for example, by Projects using existing infrastructure, reusing a building or existing housing, redeveloping a greyfield/brownfield, or developing in an existing neighborhood. Design elements use the site's characteristics and reduce impact on the site allowing for open space and other amenities, such as infill projects, rehabilitating existing building(s), rehabilitating existing housing, providing carpooling opportunities, using well water for landscaping, etc.

4. PASSIVE HOUSE STANDARD

Passive House is a voluntary international building standard developed by the Passive House Institute (PHI), located in Darmstadt, Germany (referred to as the "Passive House Standard").

The Passive House Standard is composed of several strict performance requirements for new building construction. For the renovation of existing buildings, PHI developed a similar if slightly more lenient performance standard. The resulting performance represents a roughly 90% reduction in heating and cooling energy usage and up to a 75% reduction in primary energy usage from existing building stock.

5. ENERGY AND WATER CONSERVATION

Design features, product selection and renewable energy options directly reduce use of resources and result in cost savings. Design and product selection exceed applicable energy codes in performance. Examples include but are not limited to Energy Star appliances, drip irrigation, low flow fixtures, dual flush or composting toilets, ground source heat, duct sealing, rainwater collection, and low water consumption plants. At the time of replacement, all appliances must be Energy Star rated.

6. MATERIAL AND RESOURCE EFFICIENCY

Material selections are better quality, designed for durability and long term performance with reduced maintenance. Products used are available locally and/or contain recycled content. Construction waste is reduced in the Project through efficient installation or recycling waste during construction. Considerations include but are not limited to construction waste management specification, recycled content products, local materials, reuse existing building materials, certified lumber, and sustainable harvest lumber.

7. AMENITIES

Applicants may consider for inclusion in the Project the amenities listed in the Amenities Form to be provided at no charge to tenants in the Project. Luxury amenities will not be considered or funded with Tax Credits. Items deemed luxury amenities include, but are not limited to swimming pools, golf courses, and similar amenities. The added costs of the Project attributable to higher quality amenities will be considered on a Project by Project basis for a cost to benefit assessment, and the cost of each amenity will be calculated on a per unit basis as shown in the applicable Application worksheet.

Amenities provided will not be used for Commercial Purposes, which means use of any Project Amenities, common space or other Project property or facilities by others than Project tenants for which the Project owner or management receives any compensation (e.g., rent payments) for such use, whether in cash or in kind. Commercial Purposes do not include the shared use of Project Amenities under a cost sharing agreement for shared use by limited populations that is reasonable in type, scope and nature, considering the type, capacity and nature of the amenities and shared use in question (e.g., the type of amenities, the number of additional tenants having access and the nature of shared use must not substantially reduce the ability of Project tenants to use and enjoy the amenities as originally provided), where the basis and costs of such amenities are allocated reasonably based upon a documented methodology in accordance with applicable laws, regulations and requirements, and where approved in writing by MBOH staff. All Projects previously Awarded Tax Credits are subject to this restriction but

are grandfathered only to the extent Commercial Purposes were specifically included in the Application.

8. HEALTHY LIVING ENVIRONMENTS (INDOOR ENVIRONMENTAL QUALITY)

Materials and design contribute to a healthy and comfortable living environment. Mechanical system design, construction methods and materials preserve indoor air quality during construction as well as the long term performance such as fresh air circulation and exhaust fans, bathroom and kitchen fans exhausting air and moisture, material selection with low toxicity and low VOC (volatile organic compounds) paints, sealants, and adhesives.

9. SMOKE-FREE HOUSING

Promoting healthy behaviors can also have a large impact on residents at no additional cost to the Developer. Smoke-free policies protect residents against the harmful health impacts of tobacco smoke, greatly reduce the risk of fires, and prevent damage to units caused by tobacco smoke. Such policies also make properties more attractive to those who do not allow smoking in their own homes.

For New Construction Projects, the Owner (and any Management Company) must establish and implement a written policy that prohibits smoking in the units and the indoor Common Areas of the Project, including a non- smoking clause in the lease for every Project unit. The Owner (and any Management Company) rather than MBOH will be responsible to establish, implement and enforce such written policy and lease clause. The Owner and Management Company also must make educational materials on tobacco treatment programs, including the phone number for the Montana Tobacco Quit Line, available to all tenants of the Project. The Montana Tobacco Use Prevention Program Smokefree Housing Project can provide educational materials and smokefree signage to property owners and managers free of charge, as requested. If smoking is allowed outside on the Project property, it is recommended that the written smoking policy require that smoking be restricted to areas no closer than 20 feet from all building entrances and exits. The written policy must provide appropriate exceptions for bona fide cultural or religious practices.

10. STATE OF MONTANA BUILDING CODE

All Projects must comply with State of Montana Building Code, whether or not the State of Montana building code has been adopted in the Project's jurisdiction.

11. REQUIRED INFRARED TESTING FOR PROJECTS AWARDED CREDITS

For Rehabilitation Projects Awarded HCs: Infrared tests are required on at least 10% of units and a representative sampling of Common Areas both before and after the Rehabilitation. At the time of testing there must be at least 20 degrees temperature difference from outdoors to inside the Unit. Infrared testing must be performed by a certified tester. Testing must demonstrate that improvement has been achieved. MBOH staff may approve changes to the sample size selected. A summary of such testing demonstrating compliance with these requirements must be submitted to MBOH within 30 days of testing and reviewed by MBOH to qualify for issuance of IRS Form 8609.

12. BROADBAND

Infrastructure installation is required for all New Construction and Substantial Rehabilitation developments. If this requirement is unfeasible the Applicant must submit a waiver request. This request must contain justification and detailed documentation.

APPENDIX C: COMPLIANCE MONITORING

The following compliance processes and requirements apply to all projects awarded credits.

MAXIMUM RENTS AND TENANT OBLIGATIONS

Rents and total tenant obligations to the landlord, including any mandatory tenant-paid items, must be limited to the levels and items specified in the Application and/or Declaration of Restrictive Covenants, and dictated by the applicable HUD income and rent levels.

For existing tenants, rent increases in any calendar year shall not exceed the lesser of any rent increases permitted as a result of any increase in the Area Median Income ("AMI") or five percent (5%) of the then-current rent amount.

MBOH staff may grant exceptions to this limit as necessary to reflect actual cost increases. Exception requests, together with supporting cost and rent documentation, must be submitted at least ninety (90) days in advance of the desired effective date of any requested rent increase in excess of the limit.

Rent increases (whether or not in excess of the foregoing limits) based upon the addition of any mandatory tenant obligation (*e.g.*, adding tenant payment of utilities where not so specified in the Application) are also subject to MBOH approval.

COMPLIANCE FEES

The compliance monitoring fee is payable annually at the time of the Owner's Submission of the Owner's Certificate of Continuing Program Compliance for the time period being submitted. Refer to the Fee Schedule on the website for current fees.

A late fee will be assessed if the complete Annual Compliance Package is not received by the deadline. Failure to submit corrections on noncompliance by the deadline set by MBOH will result in an initial late fee and an additional per-week fee until all required documentation is received by MBOH. A one-time extension may be granted if a written request is submitted to MBOH no later than 10 days prior to the deadline. If an extension is granted and the extension deadline passes without MBOH receipt of the complete documentation, a per-week fee will be imposed until all required documentation is received by MBOH.

DATA COLLECTION

The Owner must assist MBOH in meeting federal reporting requirements by collecting and submitting information annually concerning the race, ethnicity, family composition, age, income, use of rental assistance under section 8(o) of the United States Housing Act of 1937 or other similar assistance, disability status, and monthly rental payments of all qualified households. All property Owners must submit operating income and cost information for the property's latest fiscal period, including a current balance of replacement and operating reserve accounts and, at least annually and upon the request of MBOH, copies of the project's most current financial statements (including profit and loss statement and balance sheet).

ANNUAL COMPLIANCE SUBMISSION

The Owners Certificate of Continuing Program Compliance must be submitted annually throughout the Extended Use Period for each property. The certificate must be signed by the Owner and notarized.

Owners must file annual certifications on the Form provided by MBOH. MBOH may file an IRS Form 8823 if the Owner fails to submit an annual certification before the deadline.

A checklist of the materials required for submission follows:

- Annual Owner's Certification
- Income/Expense Report
- Reserves Form
- Property Contact Information Form
- HC/Fair Housing Certifications
- Tenant Recertification
- Paying compliance fees

These materials must be submitted to MBOH by the deadline for the property's annual reporting period. Management company policy will outline which staff members are responsible for each of the tasks. This manual will address each of these tasks in some detail.

The Owners Certificate of Continuing Program Compliance, Tenant Income Certifications (TIC) and other Annual Compliance package items must be submitted on or before the 25th of the month following the assigned annual period. Federal regulations stipulate there must be no more than 12 months between certifications.

MANAGEMENT CHANGES

Written notification of changes to property management companies, managers, site managers, or changes to points of contact must be submitted to MBOH prior to or immediately upon implementation of the change. Changes not received by MBOH prior to change or immediately upon change, or within a 15-day grace period, will result in an initial late fee and monthly late fees thereafter until written notification is received.

Replacement of a Management Company with a company that is not a Qualified Management Company or failure to timely submit such notification to MBOH may trigger issuance of an IRS Form 8823.

OWNERSHIP CHANGES

Prior to a sale, transfer or exchange, the Owner must notify in writing and obtain the written agreement of any buyer, successor or other person acquiring the project or any interest therein that such acquisition is subject to the requirements of the Restrictive Covenants, Section 42 and the applicable QAP.

The following forms available on MBOH's website are due prior to the sale:

- Property Change Information Form
- Purchaser Agreement
- Release of Information Form

The Owner must provide MBOH with at least 120 days advance written notice prior to offering or listing any project property for sale, assignment, transfer or exchange or entering into any agreement for such transaction. MBOH may notify prospective buyers who may submit offers to purchase such property. The Owner shall notify MBOH within ten business days of the filing of any judicial foreclosure action, receipt of any notice of trustee's sale or receipt or submission of any proposal for a deed in lieu of foreclosure with respect to any project or project property and provide MBOH with copies of the complaint, notice of trustee's sale or deed in lieu of foreclosure proposal, as applicable. MBOH may notify the United States Secretary of the Treasury if it has reason to believe that any potential foreclosure sale or deed in lieu of foreclosure is part of an arrangement to terminate the LURA restrictions.

Such form, executed by the buyer, successor or other person acquiring the project must be submitted to MBOH prior to closing of the sale, transfer or exchange. The Board may void any sale, transfer or exchange of the project if the buyer, successor or other person fails to assume in writing the requirements of this Agreement and the requirements of Section 42 of the Code.

EDUCATION REQUIREMENTS

Management Company personnel responsible for providing or explaining information for tenant qualification or qualifying tenants and verifying compliance must be certified in LIHTC compliance by one of the Nationally-Recognized LIHTC Compliance Training Companies. Personnel must must attend a certification class with a Nationally-Recognized LIHTC Compliance Training Company at least once every four years. For each of the other three years, all property managers and property Management Company personnel are strongly encouraged to attend annual MBOH compliance training.

The property Management Company and site manager for an HC property must be trained and certified before the property is Placed in Service. New site managers hired for existing HC properties must be certified within six months. New property management companies hired for existing properties must be certified before they assume management of a property. Training requirements must be met to maintain Qualified Management Company status.

Persons responsible for qualifying tenants and verifying compliance must also attend Fair Housing training at least once every four years. The manager for a HC property must complete such training before the property is Placed in Service.

Such Fair Housing training must include and cover the following subjects and requirements:

- 1. Protected Classes:
- 2. Accessibility requirements;
- 3. Reasonable accommodation/modification;
- 4. Applicant screening;
- Disparate impact;
- 6. Domestic violence issues;
- 7. Occupancy standards;
- 8. Section 504; and
- 9. Service Animals.

In the event a Management Company fails to meet the certification or training requirements MBOH will notify the Management Company and the Owner of such noncompliance and the date by which such noncompliance must be corrected. If such noncompliance is not corrected by such date, the Owner will be required to pay the applicable fees specified in the Fee Schedule for each week that such noncompliance remains uncorrected.

APPENDIX D: LEGAL/TECHNICAL REQUIREMENTS

MINIMUM SET ASIDE

A Project must meet the federally-required minimum set aside requirements, i.e., the 20-50 test, 40-60 test or income averaging (IA). IA is available only to the extent permitted and subject to the procedures, restrictions and other requirements specified in MBOH compliance materials.

EX PARTE COMMUNICATIONS

MBOH Board members should refrain from ex parte communications with interested persons or parties, or their representatives, who may be affected by any matter on which members may take official Board action. Ex parte communications may include communications that take place outside a duly noticed meeting or hearing of the Board, relate to a matter on which the Board may take action to determine to rights or obligations of the person or party, and which convey information or may otherwise influence the Board member regarding the matter.

If a Board member is unable to avoid such communications, the member will be required to disclose at a public meeting of the Board the full content of such communication and the identity of the person making the communication. In addition, the Board member may be disqualified from participating in Board action on the matter. Such communications may also subject the Board to challenge regarding its action on the matter.

Ex parte communications do not include communications regarding general matters of housing, funding for low-income housing, or other Board policy, and do not include Board member speaking appearances, conferences, consulting engagements or other events or settings to the extent not involving communications such as those described above.

The foregoing statement is provided as general information. Ex parte communications are addressed in further detail and governed by the MBOH Ex Parte Communication Policy, available on the MBOH website.

DISCLAIMER

MBOH is charged with allocating no more Housiong Credits to any given project than is required to make that project economically feasible. This decision shall be made solely at the discretion of MBOH, but in no way represents or warrants to any Applicant, investor, lender, or others that the project is feasible or viable.

MBOH reviews documents submitted in connection with this QAP for its own purposes. In allocation of Housing Credits, MBOH makes no representations to the Owner or anyone else regarding adherence to the Internal Revenue Code, Treasury regulations, or any other laws or regulations governing Housing Credits.

No member, officer, agent, or employee of MBOH shall be personally liable concerning any matters arising out of, or in relation to, allocation of Housing Credits.

If it is determined that an Applicant or any member of the Development Team has intentionally submitted false information, a credit Award may be withdrawn or credits may be recaptured and the Applicant or any Applicant involving any related parties or any individual or entity supplying the false information will be ineligible to apply for credits for the next five years or may be assessed negative points as provided in this QAP.

MBOH POLICY ON CIVIL RIGHTS COMPLIANCE

The Owner, Developer, borrowers and any of their employees, agents, or sub-contractors, in doing business with the Montana Board of Housing understand and agree that it is the responsibility of the Owner(s) and such other persons and entities to comply with all applicable Federal Civil Rights laws and regulations, including without limitation applicable provisions of the Fair Housing Laws and Americans With Disabilities Act, and any applicable State and local Civil Rights Laws and regulations. Should requirements, such as design, not be specified by MBOH, it is nonetheless the Owner(s) responsibility to be aware of and comply with all applicable non-discrimination provisions related to any protected class under Federal or Montana law, including design requirements for construction or Rehabilitation, Equal Opportunity in regard to marketing and tenant selection and reasonable accommodation and modification for those tenants covered under the Laws.

PUBLIC INFORMATION REQUESTS

Information Requests and Release Policy Requests for information and documents from MBOH will be handled in accordance with and subject to the Department of Commerce Public Information Requests Policy. Visit our our <u>Public Information Requests page</u> on the Department of Commerce Legal Affairs website to submit a request.
