there's been some systems put in place, as said earlier, we can't rely on down the road. It's certainly a plausible explanation as to what a long-term corrective action would be, but in the immediacy of it when it's identified, you know, within the individual groups. So, for instance, because it's decentralized the individual administrator would be responsible for finding ways to mitigate the problem moving forward, if it, in fact, is an error that's identified. Certainly, we do these types of reviews, periodically, so that we do have some sort of accounting and have the opportunity to intervene or at least have a corrective action measure put in place by the management associated with these particular responsibilities. So those things going forward and us producing this report as we have, then we look forward to Management to make the determination of how they would want to influence the corrective measure and create objectives for those people to, you know, remediate.

MR. GILBERT: One follow-up. Also to the -- the sub-question to that is, just as I heard earlier, that, of course, a lot of the staff gets

paid off of planned versus actual. Where, okay, hey, I signed off, I worked these hours, okay, if I got paid for hours I did not work, would I necessarily raise my hand because I got paid off a plan but I was out that week? You know, so when we do catch errors or gaps like that, then what is the resolve for that? Because, again, someone was overpaid, you know, for work they did not do. And then on the other hand someone was underpaid for work that they did do. So how do we close those gaps? And as Ms. Muriel pointed out, in the meantime, it's like, okay, when I go back and reconcile and say, hey, whoa, I'm missing some hours, but yet still there's a 90-day, you know, close date on you reconciling that to say, okay, hey, no, I'm missing a few hours? So how do we close those gaps?

MS. FERTIG: We have Ms. Johnson here now and we did have a question to start off with about how far do you go back to recoup time? And I think probably a lot of us, thanks for bringing that up, were thinking, you know, if you didn't pay them they're probably going to say something, but if you overpaid them, maybe they're not.

But, anyway, the question was the timeliness

of documenting the time and when people discover they weren't paid, how far back do you go to correct those errors?

MS. JOHNSON: We go as far back as necessary if we owe compensation. That's our policy, to go back. If you're owed compensation we have to reconcile that. The problem is, with this payroll is, for one, our ERP system is not coordinating properly. So we do need to change out our ERP system. We're going to be doing that in the future.

Most errors come from the end users when they put the time into the system. It's really not payroll. So payroll is, they process what's in the system. So I want to -- we talk about payroll, but payroll pays what's in the system. They try to catch as many errors as possible, but it's really on the end users in the hours they put in; right? So it's hard for -- we have -- we've got to change our schedule. We want to put plugs in the system right now. It will be temporary plugs, but it's changing the structure how we operate. We've only got half a day to roll payroll out; right? So you're not -- you've only got a limited amount of people that are

pushing out that payroll. So you guys document the number of staff, we only have a limited number of staff. So we definitely need an ERP system to start monitoring and put in those hours so we can run reports to see what's going on. Right? So it's -- by the time we roll out that payroll there's a lot of errors. We give a lot of stipends out, too. We've got to have a controlled environment. And we need to see what we're paying stipends for. Somebody needs to be reconciling them before being actually put into the system. But we've got every sight putting in different types of stipends and we need a formal reconciliation.

So, to say this is going to happen overnight, it is not going to happen overnight. And we're hoping we can roll out as part of the ERP system, we're getting those bids in now, that's going to be a top priority. Because this district loses a lot of time and I don't like to put people in a pay system that you owe me -- I'm not a bank; right? My thing is not to go into the banking business because we can't charge interest and if they separate from the district we don't get that money back. And the people are mad when we start

taking the end of their check, their last check, to pay for stuff they know they owe the district. You would be pissed, too, if you're separating go and we said, oh, you're not getting this check back; right? And then people are going to be put on a payment plan. You might owe 9,000, you want $25 coming out of your check? You're never going to pay that 9,000 back unless you stay here for a long season with the district.

So there's a lot of things that we know that's a problem, but it's payroll pays. Now, we did implement some form of AI tool, that AI starts asking some questions in the payroll so we can catch some of these errors that was obvious errors that the tool is saying answer the questions that we can't see visually, but the tool will go in and say what we have issues with. The AI can pick up and we can look at those records. We have found a lot of errors by doing that, implementing that. That's the only thing we can do. Because right now I would need to have cut off -- now, we've got hourly workers versus salary workers. Hourly workers you've got to be paid -- in the week you do that time we've got to definitely pay you. If you've got

overtime and all that, then we will be in trouble with the Department, right, of Labor. And we have to be in compliance with that. So there is a lot of things we have to be in compliance with. I was trying to think about things that we can, on the salary side, we can definitely roll out, but any other exceptions, like stipends and other pay, we can be more conscious about what's going on, because the base salary should be the base salary. But then we've got to be conscious about deducting your vacations, your sick time. It's a lot of things that makes up this payroll. And we've got to have a timeline that we've got to educate all people, all people that are putting in payroll responsible for at these sites, the timeline you've got to put this in the system, so that's where we're lacking; right? The tools, like the vacation time, when they got to be in. We've got to set up a schedule. If people take a vacation, we need that piece of paper, that documentation right to payroll so we can make sure that it's actually authorized. Because we do that after the fact. We pay the payroll, then we've got to go back and make those adjustments.

So there's a lot of things that we are -- I

mean, based on what he wrote up is exactly what I observed when I first came and we've been trying to fix it. But I don't want to compare you all with -- I don't want to compare this district with a ship, because when I compared it before -- well, this is a big organization and it takes time and we've got to do it together and we've got to mix a lot of training to change the process; right? So we're going to have to actually commit to that, work with HR. Because HR is the keeper of those records, payroll pays. Right? So that's why we work in partnership, in tandem. We've got to set up a schedule saying, hey, we need your time card by this time and everybody's got to follow those rules and we have to implement and have some accountability. Because you can implement something, if you don't have any accountability in the system it won't get done.

MS. FERTIG: Okay. So are you done, Mr. Gilbert?

MR. GILBERT: Yes, thank you.

MS. FERTIG: Okay. And, Mariah, I know you came in, did you have -- we've asked a lot of questions. Are you good with where we are?

MS. RABIDEAU: Most of them were answered. I did have just a couple, just maybe two.

MS. FERTIG: Okay. Yeah, we're going to wrap this up pretty quickly because we need to get to the next one and I think we need to talk about how we want to transmit this. So --

MS. RABIDEAU: Okay. So thank you for pointing out, I'm not sure who pointed out page 13, though, and we asked about the error rates.

MS. FERTIG: Yeah, we did cover that; yeah.

MS. RABIDEAU: So in this view we're saying there's potential payroll errors of between 41 million to 91 million district wide. The budget update, and I know we're going to get to that later, simultaneously showed a $56 million salary over expenditure. So before we treat that $56 million structural budget gap requiring the position eliminations that has been recently brought to the board, has there been analysis done to see how much of that 56 million may be attributed to payroll errors that are identified in this audit?

MR. HARVEY: So let me jump in. First, thank you so much for that question. Our schedule in chart 2 was for illustrative purposes only. We

did not find a 10 percent or 20 percent error rate. There are some discussions, so I'll just tell you that our sample was 100 transactions, and from that we made our determination. We cannot and it should not be inferred that the error rate from our 100 transactions should be assigned to the total. So the secondary thing I would want to say is, I would not have a person assign this to a budgetary discussion; right? The budgetary discussion should stand on its own. It should not be linked, in my professional opinion, to this discussion. I think to approach this report it should be taken prima facie, on the face, for the seven findings and the six observations as things that can be discussed by the CFO and Mr. Lozano, things that can be done forward looking to strengthen the district and how it currently runs a decentralized payroll. But to try to determine an error rate with specificity and assign a dollar value I don't think should be done from this.

MS. RABIDEAU: I appreciate that.

Okay. My next question is around the -- the same sheet, though, and so maybe you can just clarify a little bit. For the error rates, it's

showing 0 percent for the executive population in here. I want to go back to the sample size, because there was a question earlier about was the sample size enough and we mentioned it's 100. Do you know the sample size that was drawn from the executive category?

MR. HARVEY: You're own page 13?

MS. RABIDEAU: Yes.

MR. HARVEY: Oh.

MS. RABIDEAU: Do we know if it was a meaningful test of that category?

MR. HARVEY: Great question. Well, mathematically, let me just address this. So it says percent of a category. So it says zero because it's not shown to the nth decimal point; right? Because just of the size of those employees, 20 over a total population of employees of 31,000. So that's why -- I defer.

MS. JOHNSON: Okay. On executive, it's easy for us to look at executives because they don't get no other stipends or anything outside of their regular pay. So the one-time referendum, where we no longer get referendums, so it's easy for me to look at those executive individuals and pull a sample. Any pay outside of the normal

rate will not happen. The percentage will not be there because we don't get stipends, we don't get this, we don't get certain perks, anything except for our base pay. So it's easy to track. All of the other organizations that get overtime and different types of stipends that can happen that can cause that we need to monitor a little bit more tighter.

MS. RABIDEAU: Less room for error there.

MS. JOHNSON: Correct. That's why the error rate is less.

MS. FERTIG: Okay. Thank you so much. There is so much here. And I just have to comment on the very first thing that caught my eye, only on a limited number of cases is it evidenced that approval was obtained from a non-authorized -- from an authorized individual. And I just find it astounding that we are at this point. That seems like it would have been an easy fix somewhere along the way. And it's somewhat alarming that that's going on. But I see that you are planning to, whichever one of you, are going to take care of this so that we actually see the printed name of the person who's authorizing.

Okay. Thank you. There's a lot here. I just want to quickly go to the audit committee, as we transmit this, are there recommendations you want to make?

MR. MAYERSOHN: Yeah.

MS. FERTIG: Okay. Go ahead. Take a stab at a motion?

MR. MAYERSOHN: Obviously, a motion to transmit, but whatever department is responsible, whether it's payroll or whatever department is responsible for the -- addressing those findings, come back to us and report on a quarterly basis that they've addressed the findings, whether or not you've had success, not had success, have done 20 departments and you're still working on the rest, just to give us an update. Because, as you said, Ms. Johnson, this is a big lift. It's not just three people. I would -- again, before you got here I would strongly suggest reaching out to other systems, such as Broward County, other governmental agencies that have the same payroll issues, in general, but yet they're automated, which is another issue besides that. But as our chief auditor said, we're not going today to an electronic system. It's going to

take a while to get there even if it was approved today. You still have to tweak it and put it all together and then train everybody and get everybody on the same system. But I would like to see a progress report, quarterly progress report, on how you're addressing these findings or any other findings that might, you know, be a problem with internal controls. As I said before, I think the major -- at least for me, one of the major hits is each employee should be signing off on this is what I submitted so somebody can't come back and four weeks later and say you didn't pay me for this or I took a day off here but it's not recorded. You know, to Mr. Gilbert's point is that, hey, I took a day off, you paid me for it, it's not recorded in the system, and, yet, when I'm done, I'm going to get compensated for it. So how do you address those things, to me is, like I said, moving forward what progress you're making.

MS. FERTIG: So is it good to put that on our follow-up list and --

MR. MAYERSOHN: Well, I'd like to see it as not just a follow-up, but come back every quarter and give us a progress report as part of our

motion to transmit.

MS. FERTIG: Okay.

MS. RABIDEAU: Can I just add that it be in a standardized format; is that possible?

MR. MAYERSOHN: Are you making a friendly amendment?

MS. RABIDEAU: Yes. Is that possible? Because I just noticed that, you know, all of these different reports are in different formats and so you have to reorient every time what are the key details. So I think having it standardized if we're bringing it back on a regular basis.

MR. MAYERSOHN: I'm okay with the friendly amendment.

MS. RABIDEAU: Thank you.

MS. FERTIG: Okay. Is there any interest in you adding something about encouraging them to move ahead with the new system as --

MR. MAYERSOHN: Well, that could be the second part. In essence of moving forward with an electronic system, which we support, we also encourage to fix what's in the current system as it is. So we need a progress report to determine how that process is moving forward.

MS. FERTIG: Okay. So your motion is to transmit with the recommendation to monitor quarterly the progress on fixing the current issues --

MR. MAYERSOHN: In a standardized format.

MS. FERTIG: -- in a standardized format while also moving as quickly as possible to implement a new --

MR. MAYERSOHN: An electronic system.

MS. FERTIG: Okay. Did we get that good enough, Mr. Magli?

MR. MAGLI: Yes, I think so. But, you know, do we have to separate those things out or are those things collective?

MS. FERTIG: I think that's one motion. That's one motion; right?

MR. MAGLI: Okay. And relative to standardized format we can certainly put something -- this is an internal thing, so it's something that we'll be able to coordinate with the engaged parties to make sure we can come up with something that's reasonable for you guys to look at.

MS. FERTIG: Okay. And Mr. Mayersohn made the motion.

MR. NAYLOR: Second.

MS. FERTIG: Lew seconded the motion.

Any conversation?

(No response.)

MS. FERTIG: All in favor?

COMMITTEE MEMBERS: Aye.

MS. FERTIG: Opposed?

(No response.)

MS. FERTIG: Okay. Thank you so much. Great audit.

MS. THEOPHIN-ATILUS: Mary, I think I want to -- I'm so sorry, guys, if I can make another motion?

MS. FERTIG: Oh, certainly. I'm sorry. Go ahead.

MS. THEOPHIN-ATILUS: No, you're fine. So I want to motion that the memos from Runcie back on 2018-2019 are enforced, for sure enforced, until we do get this new system, and then I would like a report to come back to us on the increase of pay that we have to pay out after the updates in the agreements, because the agreements are still on 2018-19.

MR. MAGLI: I'm sorry. Could you clarify for me what you mean?

MS. THEOPHIN-ATILUS: So motion is to, that the memo of the instructions on how to go forward that were given in 2018-19 from that memo, I motion that this gets enforced, that we make sure it's enforced until we get this system that would help out a lot.

MS. FERTIG: And that's on page 43 and 44.

MS. THEOPHIN-ATILUS: Yeah. And then I'm asking that we receive a report, updated report on the increase of pay that happened, because right now it says that the agreement that they're getting paid off of is from 2018-19.

MR. LOZANO: And she's talking about the comp -- Superintendent Runcie at the time put out a memo on comp time. So that's what she's referencing.

MS. THEOPHIN-ATILUS: Well, it was more than one. There was one also about getting approval, but, yeah.

MR. MAGLI: So, Madam Chair; if I may?

MS. FERTIG: Yeah.

MR. MAGLI: In review of this, and when we're talking about coming back with this, you know, certainly, again, I'm sure Dr. Lozano and Ms. Johnson there will be a coordinated discussion

here. It might be something that we need to bring to the superintendent, himself, might be a better idea to see what his interpretation and the current status might be, rather than kind of going back -- that's for you to decide. But, you know, based on the timing of it, for us to track an antiquated sort of older thing looking for new sort of solutions I think could be a bit of a challenge. So I'm just saying if that's something that you would want to ponder or discuss, that's something that, maybe, might make some sense.

MS. FERTIG: Would it make sense to ask for -- to just bring to the superintendent -- I mean, it's in here, the memo from 2018-19 and ask for current status of?

MS. THEOPHIN-ATILUS: What is the current status based off -- based off the agreement from 2018-19 there should be new updated agreements; right? And so I'm thinking the terms of agreement is you sign off on how much you're getting paid and stuff like that. So if it has not been updated since 2018-19, that's what we're still using, how much do we owe these staff members then? Because the agreements need to be

updated. So that's what I'm also asking for, a report to come back to let us know how much we're going to have to pay out if we're still using the old agreement?

MS. JOHNSON: Every time we negotiate we make the correction in the system. So that memo might not be effective at all. So I'm just quite sure when we negotiate, we implement it through the system what we are negotiating. That memo might be outdated. I'm quite sure we don't owe any one individual money because they would be coming to the table asking for money. So I'm going to let the HR speak to that because they go to the table and negotiate contracts. So we follow contracts and that might be outdated and we just need to update it to state where we are now. Because we don't owe anyone money, but we just need to update the language.

MS. THEOPHIN-ATILUS: Page 19, the first paragraph, it says compensation agreement provided by the schools updated for fiscal year 2018-19 and then the agreement outlines a three-year performance period and specifies payment terms applied during that timeframe. However, no updated or renewed agreements

applicable to fiscal year 25 was provided.

So out of the 100, I mean --

MS. JOHNSON: Can you give us a copy of that? We'll come back and respond to that, especially the HR Department. Oh, it's in the findings? Okay.

MS. FERTIG: It's here and it's also an exhibit on pages 43 and 44.

MS. JOHNSON: So that's some of the things that we asked to address how we're going to -- these findings, how we're going to resolve them. So that's an HR finding and we're going to have to definitely communicate what we're going to do to resolve those findings. So I think that's going to be part of the ask; right; to come back and update how we're addressing those findings?

MS. FERTIG: And if there is a more current document, I think she's asking that --

MS. JOHNSON: Provide it.

MS. FERTIG: Provide that as part of this audit. Actually, before you transmit it to the board, provide, you know -- yes. Is that good, Muriel; does that work for us?

MS. THEOPHIN-ATILUS: Yeah, that would be fine.

MS. FERTIG: Okay. So we don't need to vote on it, you're going to get those documents. You're going to get us the status and it's on our follow-up.

MS. JOHNSON: All right. Thank you.

MS. FERTIG: Okay.

MR. GILBERT: Point of clarification, Madam Chair?

MS. FERTIG: Yeah.

MR. GILBERT: Just to make sure I just followed the backflow, I'm pretty sure I'm clear on it, but I just want to make sure everyone is.

MS. FERTIG: Yeah.

MR. GILBERT: So we just want to make sure that, although the document may be dated, the compensation has been updated, but we just want to verify that the two are bridged; correct?

MS. FERTIG: Right.

MR. GILBERT: Thank you.

MS. FERTIG: Thank you.

MR. GILBERT: Mm-hmm.

MS. FERTIG: You got all that; right?

Okay. Thank you all, and we're going to move, if it's okay, to the Internal Audit of Human Resources.

Dr. Howard Hepburn, Superintendent of Schools

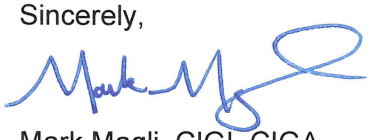
Ladies and Gentlemen,

We have audited the Statement of Changes in Fund Balances for the Internal Funds of forty (40) schools pursuant to the Florida State Board of Education, Administrative Rule 6A-I.00 I and School Board Policy 1700. Each school is responsible for the preparation of the Statement of Changes in Fund Balances. Our responsibility is to express an opinion on these statements based on our audits.

We conducted our audits in accordance with generally accepted government auditing standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform these audits to obtain reasonable assurance that the financial statements are free of material misstatements. The audit at these schools included an examination of the Internal Funds.

An audit includes evaluating and examining, on a test basis, the financial statements and supporting documents. In planning and performing our audits of the schools' financial statements, we considered the internal control structures. Our review of the internal control structures facilitates the development of the audit procedures and the expression of an opinion on the financial statements. We believe our audits provide a reasonable basis for our opinion.

The schools' records were maintained in conformity with the School Board's accounting procedures for Internal Funds. These accounting procedures require all financial transactions be recorded on a cash basis method, with no records maintained on accounts receivables, accounts payable, or accruals. Accordingly, the Statements of Changes in Fund Balances, as shown in this report, do not present the financial position or the results of operations of the school in the manner required by generally accepted accounting principles.



Established 1915
BROWARD
County Public Schools

Our audits indicated that thirty-six (36) schools in this report generally complied with prescribed policies and procedures. The four (4) remaining schools' reports contained audit exceptions.

In our opinion, the Statement of Changes in Fund Balances for the schools present fairly the changes in fund balances of the schools' Internal Funds, arising from cash transactions.

We wish to express our appreciation to the administration and staff for their cooperation and courtesies extended during our audit.

Sincerely,

Mark Magli, CIGI, CIGA

INTERNAL AUDITOR'S REPORT

AUTHORIZATION

State Board of Education Rule 6A-1.1001, Florida Administrative Code, requires District School Boards to provide for audits of Internal Funds. In accordance with School Board Policy 1700 and the Audit Plan for the 2025-26 fiscal year, the Office of the Chief Auditor has audited the financial statements for the location listed in the Table of Contents section of this report. The financial statements were prepared on the basis of cash receipts and disbursements, which is a comprehensive basis of accounting other than generally accepted accounting principles. These financial statements are the responsibility of the Principal/Director. Our responsibility is to express an opinion on these financial statements based on our audits.

SCOPE, OBJECTIVES, AND METHODOLOGY

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. We selected and tested a representative sample of receipts and disbursements for the audited location. We also analyzed selected activities where the location generated significant revenues. An audit also includes assessing the accounting principles and significant estimates made by the administration, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

We perform our audits with the objectives of:

- expressing an opinion on the financial statements of the location.
- evaluating compliance by the location with the policies and procedures prescribed by the Standard Practice Bulletins.
- evaluating the internal control structure at the location to determine the extent to which selected control environment factors promote compliance with the policies and procedures prescribed by the Standard Practice Bulletins.

We conducted our audits in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States. Those standards require we plan and perform these audits to obtain reasonable assurance that the financial statements are free of material misstatements.

Statement of Changes in Fund Balances

In our opinion, the statements of changes in fund balance contained in these audit reports present fairly, in all material respects, the changes in fund balances arising from cash transactions reflected in the financial statements of the location, on the cash basis of accounting.

Compliance

We also tested compliance with selected policies and procedures prescribed by the Florida Department of Education Financial and Program Cost Accounting & Reporting for Florida Schools and The School Board of Broward County.

Internal Control Structure

In planning and performing our examinations, we obtained an understanding of the:

- internal control structure established by the administration.
- operational internal control policies and procedures relevant to cash receipts and disbursements.
- assessed level of controlled risk to determine the nature, timing, and extent of substantive tests for compliance with applicable laws, administrative rules, and district policies; including the reliability of financial records and the safeguarding of assets.

The scope of our audits also included an assessment of the controls in place at the location to promote compliance with the Standard Practice Bulletins, which contain the procedures established to control the use of the Internal Funds. A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that material errors or irregularities in the location's financial records, cash receipts, and disbursements, may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

The results of our audit for the individual locations are included within the report.

In accordance with State Board of Education Rule 6A-1.001, Florida Administrative Code, and School Board Policy 1700, we have audited the financial statement of Glades Middle School for the 2024-25 fiscal year. We conducted our audit in accordance with generally accepted government auditing standards, issued by the Comptroller General of the United States. The financial statement of the school presents fairly, in all material respects, the changes in fund balances arising from cash transactions during the 2024-25 fiscal year, on the cash basis of accounting. With respect to the items tested, the school generally complied with various Florida Statutes, Board Policies and particularly the Standard Practice Bulletins. Our assessment of the controls in place to promote compliance with the School Board's policies and procedures indicated the internal control structure at the school generally functioned as designed by the District administration.

AUDIT EXCEPTIONS

YEARBOOKS

Per the *Financial & Program Cost Accounting & Reporting for Florida Schools* ("Red Book") Chapter 8, 1.2 Bank Accounts, each school shall have only one checking account and all monies received by the school will be deposited intact as collected into this account, and all disbursements will be made by checks drawn on this account. Standard Practice Bulletin ("SPB") I-101, General Policy Section VII. Cooperative School Organizations states, cooperative school organizations are independent legal entities separate from the district school board and schools. To avoid violations of School Board Policy, activities of cooperating school organizations should be conducted in a manner that clearly distinguishes them from student activities which are extracurricular activities or an extension of the district school program. Additionally, all monies collected or disbursed by district school employees for the benefit of that school shall be recorded in the school's Internal Funds accounts.

A review of *Account 4882-0000 Yearbook* FY2025 activity indicated that a deposit was paid to the yearbook vendor, on November 12, 2024, in the amount of $4,900.00 for invoice 501711-0. The funds used for the deposit were from the carryover balance of yearbook activity from previous years. The auditor requested the final invoice for the yearbooks; however, a final invoice was not provided. The school bookkeeper indicated that all sales were processed through the vendor's website.

A request for the sales data from the vendor indicated that a refund was issued to the school in the amount of $4,980.00, which was comprised of the initial $4,900.00 deposit and $80.00 in profits from online sales, in August 2025. The auditor could not locate the deposit in the school's bookkeeping system or bank records. Upon inquiry, the school's bookkeeper informed the auditor that the funds were deposited with Broward Education Foundation. The Principal explained, "the funds were deposited into the Broward Education Foundation GMS Fund rather than the schools Internal Account to provide greater flexibility in spending to take advantage of cost-saving measures when purchasing items and resources for our students." Per District Policy 3410 Internal Funds, all monies collected or disbursed by school personnel or by students within a school, in connection with the school program, for the benefit of that school, a class, club, department, employee or student, shall be recorded in the school's internal funds.

Recommendation

The Office of the Chief ("OCA") recommends that the Principal review the requirements of Red Book Chapter 8, Policy 3410 and SPB I-101 as they relate to funds received for student activity accounts and ensure they are deposited into the school's designated Internal Funds bank account. Additionally, the school's internal funds must not be commingled with a cooperative school organization's funds.

The OCA recommends that the Business Support Center provide the Principal with additional support in implementing formal procedures and controls. The additional support should include comprehensive training for relevant staff and the Bookkeeper/Budget Support Specialist on their responsibilities and requirements.

SUBJECT: **RESPONSE - AUDIT REPORT ON INTERNAL ACCOUNTS - FISCAL YEAR 2024-25**

This correspondence acknowledges receipt and review of the Internal Audit Report for Glades Middle School for Fiscal Year 2024–2025. The audit identified one exception related to the handling and deposit of yearbook funds.

During FY 2024–2025, the school utilized a School Allied Group (SAG) to manage yearbook activities; however, prior to this transition, an initial deposit of $4,900.00 was made to the vendor using carryover funds from the Yearbook Club account. At the conclusion of sales, the vendor issued a refund totaling $4,980.00, which included the original deposit and $80.00 in net proceeds.

The refunded funds were inadvertently directed to the Broward Education Foundation (BEF) Glades Middle School Fund rather than being deposited into the school's Internal Funds account. This action was not in compliance with District Policy 3410, which requires all funds associated with school-related activities to be recorded within the school's Internal Funds and prohibits commingling with external entities.

Corrective action has been implemented. The funds were returned by the Broward Education Foundation and deposited into the school's Yearbook Internal Funds account on May 27, 2026, and recorded accordingly.

To prevent recurrence, administration and financial staff have been reminded of the requirements of District Policy 3410, the Red Book, and SPB I-101. The Business Support Center will provide continued guidance and oversight to ensure proper handling, recording, and deposit of all Internal Funds transactions. Additionally, the school acknowledges that if a SAG is utilized in the future, all financial transactions must be managed independently by the SAG.

In accordance with State Board of Education Rule 6A-1.001, Florida Administrative Code, and School Board Policy 1700, we have audited the financial statement of Norcrest Elementary School for the 2024-25 fiscal year. We conducted our audit in accordance with generally accepted government auditing standards, issued by the Comptroller General of the United States. AUDIT EXCEPTIONS

BEFORE AND AFTER CARE

Per *Financial & Program Cost Accounting & Reporting for Florida Schools* ("Red Book") Chapter 8, 2.4 Trust Accounts, b. "Trust Funds shall be expended only for the purpose for which collected. When the purpose of the trust funds has been accomplished or becomes inoperative, unused trust funds shall be returned to the persons from whom collected, if practicable… Funds that cannot be returned shall be handled in accordance with district school board policies".

The School Board Operated ("SBO") Before and After School Child Care ("BASCC") Operational Handbook is written in accordance with School Board Policy 4390, Child Care Programs. Per the handbook, in addition to a monthly BASCC fee, the SBO programs may charge a monthly BASCC activity fee for snacks, materials, supplies as well as field trips and activities on and off campus. The activity fees can only be used for BASCC students and every effort must be used to expend fees during the year collected. Per the handbook, if the activity fee ending balance carries over more than two pay periods of fees, the program must lower the activity fee charged by 20% in the following year.

In fiscal year 2025, *Account 6005-0000 Afterschool Care - Activity Fee* ended with a balance of $8,108.43 which significantly exceeded the acceptable carryover limit of two pay period of fees, approximately $2,400.00. Additionally, the $15.00 monthly activity fee charge was not reduced as required. As of April 2026, the balance of *Account 6005-0000 Afterschool Care - Activity Fee* was $16,911.50.

Norcrest Elementary Activity Fee	Beginning Balance	Collections	Usage	Ending Balance
FY2025	$920.23	$12,100.60	$4,912.40	$8,108.43

Recommendation

The Office of the Chief Auditor ("OCA") recommends that the Principal and the school's BASCC program director review the SBO Before and After School Child Care Operational Handbook in accordance with School Board Policy 4390 to ensure that the activity fee charged is adjusted to the planned usage for BASCC program activities.

SUBJECT: **RESPONSE- AUDIT REPORT ON INTERNAL ACCOUNTS-FISCAL YEARS 2024 - 2025**

This correspondence acknowledges receipt and prompt review of the findings from the Internal Audit performed for fiscal years (FY) 2024-25 for Norcrest Elementary School. The audit identified one exception related to the location's Before and After School Child Care (BASCC) activity fee.

In response to the recommendations from the Office of the Chief Auditor (OCA), the following actions have been taken:

- The school has reduced the FY 2025-26 activity fee to comply with the program handbook requirements.
- As the pricing and use of activity fees fall outside the BSC's scope, the BSC consulted with the Principal and the Director of the BASCC program regarding appropriate corrective measures. It was agreed that BASCC district leadership will continue to lead monitoring and communicating with principals about activity fee balances, allowable carryover limits, and ensuring all fees align with handbook guidelines. Principals will determine the appropriate actions, when needed, and the BSC will support their implementation as it relates to our role and responsibilities.

After further review, the principal indicated that they did not receive the electronic communication, as they were not included on the BAS_NorcrestES_Principal distribution list (BAS_NorcrestES_Principal@browardschools.com). To remedy this, the Director of Before and After School Child Care was notified to confirm and update the mailing group.

The BSC takes these audit findings seriously and remains committed to supporting schools in maintaining sound financial operations. We are confident these corrective actions will help prevent similar audit exceptions in the future.

Please contact me directly at 754-321-0668 if I may be of further assistance.

The North Regional Office has reviewed the audit findings and recommendations regarding the Before and After School Child Care (BASCC) activity fee account at Norcrest Elementary School.

We concur with the recommendation provided by the Office of the Chief Auditor and support the corrective actions outlined by the principal and BASCC program leadership. The school administration will review the School Board Operated Before and After School Child Care Operational Handbook and ensure that activity fee collections, expenditures, and carryover balances are aligned with School Board policies and established procedures.

To ensure continued compliance, the North Regional Office will monitor the school's implementation of corrective actions through regularly scheduled meetings with the principal. Attention will be given to the oversight of aftercare program operations, activity fee utilization, and account balances to ensure that funds are expended for their intended purpose and that future activity fee assessments are appropriately aligned to planned program expenditures.

In accordance with State Board of Education Rule 6A-1.001, Florida Administrative Code, and School Board Policy 1700, we have audited the financial statement of Nova Blanche Forman Elementary School for the 2024-25 fiscal year. We conducted our audit in accordance with generally accepted government auditing standards, issued by the Comptroller General of the United States. The financial statement of the school presents fairly, in all material respects, the changes in fund balances arising from cash transactions during the 2024-25 fiscal year, on the cash basis of accounting. With respect to the items tested, the school generally complied with various Florida Statutes, Board Policies and particularly the Standard Practice Bulletins. Our assessment of the controls in place to promote compliance with the School Board's policies and procedures indicated the internal control structure at the school generally functioned as designed by the District administration.

AUDIT EXCEPTIONS

Money Collections

Per *Financial & Program Cost Accounting & Reporting for Florida Schools* ("Red Book") Chapter 8, 1.4 Cash Collections, and Deposits a. "All money collected by the school must be substantiated by pre-numbered receipts, consecutively numbered class receipt records, reports of monies collected, prenumbered tickets, reports of tickets issued and sold, or other auditable records." Standard Practice Bulletin ("SPB") I-302 Cash Collections states that all receipting documents and pre-numbered tickets shall be maintained on perpetual inventories and the collection amounts are reconciled to the amounts recorded on receipting documentation and in Great Plains, financial accounting system.

During our review of receipting documents, we noted eight (8) BC-40P receipts books were not provided for audit. SPB I-404 Certificates of Loss requires schools to complete a *Certificate of Loss* to document the circumstances surrounding the loss of the receipt books and to promptly notify the school's Principal.

Recommendation

The Office of the Chief Auditor ("OCA") recommends that the school Principal review Red Book Chapter 8, SPB I-302 and SPB I-404 to develop proper controls over receipting documents.

The OCA recommends that the Business Support Center provide the Principal with additional support in implementing formal procedures and controls. The additional support should include comprehensive training for staff on their responsibilities and requirements

Subject: **Internal Accounts Audit Report for Fiscal Year 2025**

During our recent Internal Accounts Audit conducted by the Office of the Chief Auditor, it was noted that eight (8) BC-40P receipt books were not available for review during the audit process. The absence of these receipt books was the result of significant water damage caused by a school flood that occurred in July 2024.

As a result of the flooding, multiple classrooms, furniture, storage areas, and closets required replacement or reconstruction. In addition, numerous materials and records sustained irreparable water damage and had to be discarded. The vault in which the receipt books were stored required complete demolition and restoration. At the time of the flood, the receipt books were stored in a box on the floor of the vault and were extensively damaged by water exposure. The damaged receipt books were subsequently sent for destruction in December 2024.

It is also important to note the following:

· The last activity associated with the eight receipt books occurred in 2020.

· Our school discontinued accepting cash payments in 2020 following the COVID-19 pandemic.

To ensure continued compliance with established protocols and guidelines, we will implement the following corrective actions:

· I will conduct a thorough review of Red Book Chapter 8, SPB I-302, and SPB I-404 to reinforce and refine proper controls related to receipting documents.

· We will collaborate with the Business Support Center to strengthen formal procedures and internal controls, including comprehensive training for both the principal and bookkeeper regarding responsibilities and compliance requirements.

· We will continue our current practice of not accepting cash payments.

· We will complete and submit a Certificate of Loss for each of the eight BC-40P receipt books and will ensure that any future lost or missing items are documented immediately through the completion of a Certificate of Loss form.

Please feel free to contact me if you require any additional information or clarification.

SUBJECT: NOVA BLANCHE ELEMENTARY SCHOOL INTERNAL AUDIT – FY 2025

This correspondence acknowledges receipt and review of the audit findings for fiscal year 2025 for Nova Blanche Elementary School. I have read the response to the findings as well. In addition to the corrective measures the principal is instituting, the Office of the Central Regional Superintendent will provide the following support and oversight in assisting the school in this area:

- The director will review Redbook Chapter 8, and Standard Practice Bulletins I-302 and I-404 with the principal to develop proper controls over receipting documents.
- The director will ensure the principal is provided with support from the Business Support Center in implementing formal procedures and controls, as well as comprehensive training for staff regarding their responsibilities and requirements.
- The director will include a review of the school procedures in the regularly scheduled site visits with the principal and provide appropriate guidance and support for improvement.

The Office of the Central Regional Superintendent recognizes the seriousness of these audit findings. We will work with the school to develop, implement, and monitor sound business practices that should prevent further occurrences of this nature. As always, I may be reached at 754-321-3000 for additional information.

ROCK ISLAND ELEMENTARY SCHOOL
AUDIT REPORT
FOR THE 2024-25 FISCAL YEAR
JULY 1, 2024 THROUGH JUNE 30, 2025

PROFILE OF THE SCHOOL

Region:	School Transformation Office

Director:	Francine Baugh-Stewart
Principal:	Cormic Priester

CASH AND INVESTMENT SUMMARY

Cash Account:	6/30/25
Checking Account – JP Morgan Chase Bank	$ 27,605.46
TOTAL	$ 27,605.46

In accordance with State Board of Education Rule 6A-1.001, Florida Administrative Code, and School Board Policy 1700, we have audited the financial statement of Rock Island Elementary School for the 2024-25 fiscal year. We conducted our audit in accordance with generally accepted government auditing standards, issued by the Comptroller General of the United States. The financial statement of the school presents fairly, in all material respects, the changes in fund balances arising from cash transactions during the 2024-25 fiscal year, on the cash basis of accounting. With respect to the items tested, the school generally complied with various Florida Statutes, Board Policies and particularly the Standard Practice Bulletins. Our assessment of the controls in place to promote compliance with the School Board's policies and procedures indicated the internal control structure at the school generally functioned as designed by the District administration.

AUDIT EXCEPTIONS

Money Collections

Per *Financial & Program Cost Accounting & Reporting for Florida Schools* ("Red Book") Chapter 8, 1.4 Cash Collections, and Deposits a. "All money collected by the school must be substantiated by pre-numbered receipts, consecutively numbered class receipt records, reports of monies collected, prenumbered tickets, reports of tickets issued and sold, or other auditable records." Standard Practice Bulletin ("SPB") I-302 Cash Collections states that all receipting documents and pre-numbered tickets shall be maintained on perpetual inventories and collection amounts are reconciled to the amounts recorded on receipting documentation and in Great Plains.

During the inventory and analysis of collections recorded in BC-40P Receipt Books and Monies Collection Envelopes, BC-40P Book #2309 (6124701) was not made available for audit. There was no indication that this book was signed out on the log and no *Certificate of Loss* was completed prior to the audit.

Recommendation

The Office of the Chief Auditor ("OCA") recommends that the school Principal review Redbook Chapter 8 and Standard Practice Bulletin I-302 and develop proper controls over receipting instruments.

The OCA recommends that the Business Support Center provide the Principal with additional support in implementing formal procedures and controls. The additional support should include comprehensive training for staff on their responsibilities and requirements.

SUBJECT: **RESPONSE - AUDIT REPORT ON INTERNAL ACCOUNTS - FISCAL YEAR 2024-25**

This correspondence acknowledges receipt and review of the Internal Audit Report for Rock Island Elementary School for Fiscal Year 2024–2025. The audit identified one exception related to a missing receipt book.

In alignment with the Office of the Chief Auditor's (OCA) recommendations, the following corrective actions will be taken to provide additional support to the location.

- The Bookkeeper assigned to the location will attend mandatory training on cash collections and receipting standards by **July 31, 2026.**
- The Supervisor of Internal Funds will perform two site visits before **October 1, 2026,** to confirm the school is operating within established standards for receipting processes and inventory verification.
- The Principal will ensure all sponsors complete required District training prior to assuming sponsor responsibilities and will replace any sponsor who fails to adhere to established standards and procedures.

In addition to these actions, documentation and follow-up actions consistent with District standards have been completed, as applicable, to reinforce compliance with internal accounts controls.

The Business Support Center and Rock Island Elementary School take these findings seriously and remain committed to maintaining sound financial practices and ensuring full compliance with District policies and applicable guidelines.

In accordance with State Board of Education Rule 6A-1.001, Florida Administrative Code, and School Board Policy 1700, we have audited the financial statement of North Andrews Gardens Elementary School for the 2024-25 fiscal year. We conducted our audit in accordance with generally accepted government auditing standards, issued by the Comptroller General of the United States. The financial statement of the school presents fairly, in all material respects, the changes in fund balances arising from cash transactions during the 2024-25 fiscal year, on the cash basis of accounting. With respect to the items tested, the school generally complied with various Florida Statutes, Board Policies and particularly the Standard Practice Bulletins. Our assessment of the controls in place to promote compliance with the School Board's policies and procedures indicated the internal control structure at the school generally functioned as designed by the District administration.

In accordance with State Board of Education Rule 6A-1.001, Florida Administrative Code, and School Board Policy 1700, we have audited the financial statement of Silver Lakes Elementary School for the 2024-25 fiscal year. We conducted our audit in accordance with generally accepted government auditing standards, issued by the Comptroller General of the United States. The financial statement of the school presents fairly, in all material respects, the changes in fund balances arising from cash transactions during the 2024-25 fiscal year, on the cash basis of accounting. With respect to the items tested, the school generally complied with various Florida Statutes, Board Policies and particularly the Standard Practice Bulletins. Our assessment of the controls in place to promote compliance with the School Board's policies and procedures indicated the internal control structure at the school generally functioned as designed by the District administration.

The financial statement of the school presents fairly, in all material respects, the changes in fund balances arising from cash transactions during the 2024-25 fiscal year, on the cash basis of accounting. With respect to the items tested, the school generally complied with various Florida Statutes, Board Policies and particularly the Standard Practice Bulletins. Our assessment of the controls in place to promote compliance with the School Board's policies and procedures indicated the internal control structure at the school generally functioned as designed by the District administration.

General Information on Internal Funds

The total year-end balance of Broward's non-Charter schools' Internal Funds (including the Technical Colleges and Community Schools) was $24.2M in June 2024 and $25.1M in June 2025. During fiscal year 2025, the combined total of inflows was approximately $109M, and the combined total of outflows was $110M.

Although Internal Funds are not available to the School Board to support the general operating expenses of the District, they are reported in the District's Annual Comprehensive Financial Report (ACFR). Student Activities finances are reported in the ACFR in the Fiduciary - Custodial Fund (fund 8920). The Bookstore activities at the Technical Colleges are reported in the ACFR in the Non-Major Special Revenue Funds as Other Special Revenue (fund 4980).

If a school is fortunate enough to have a large balance in its Internal Funds checking account (each school is limited to one checking account by Florida Department of Education regulation) they may withdraw money from the checking account and transfer it to an account for the school in the Treasurer's Pooled Funds. This allows the school to accrue a bit more interest income, while avoiding the possibility of exceeding FDIC deposit insurance limits. The Treasurer's Office periodically disburses interest payments to each school that has a Treasurer's Pooled Funds Account, and the interest payments are receipted into each school's Internal Funds. The Internal Funds invested in the Treasurer's Pool at fiscal year-end 2025 totaled $13.3M.

Internal Funds (also known as Internal Accounts or Student Activity Funds) are monies generated and used within a school, in contrast to the tax-derived funds that support school budgets and the general operations of the District. Any money collected or handled by any SBBC employee in connection with a school activity is required to be deposited into the school's Internal Funds.

Funding and Financial Reporting for Florida Schools (Redbook) Chapter 8 *Internal Funds* contains the Florida Department of Education's published regulatory guidelines, as well as the accounting structure, for public school Internal Funds. The District's Internal Accounts policies and Standard Practice Bulletins are based on this FDOE regulation.

The specified Internal Accounts funds are:

- 1000's Athletics
- 2000's Music
- 3000's Classes
- 4000's Clubs
- 5000's Departments
- 6000's Trusts
- 7000's General.

The **Athletics** fund may contain an Athletic Account and smaller accounts belonging to Cheerleaders and particular sports teams or clubs. Athletic event ticket sales revenues are recorded in an account in the Athletics fund. High Schools have occasionally received reimbursements from the Athletics and Student Activities Department, for certain Athletics expenses that were originally paid from the school's Internal Funds.

The **Music** fund holds money collected for Band and Orchestra instrument rental fees, and any other fundraising proceeds, ticket sales, or collections by a school's Chorus, Band, or Orchestra.

Class accounts typically record funds collected and disbursed by each grade level. In a High School, the Senior Class Account typically shows higher revenues and disbursements than the other class accounts due to activities such as the Homecoming Dance and Senior Prom. The Class Accounts may hold collections related to any project, activity or field trip pursued by any grade level.

Club accounts record the money raised and disbursed by various Clubs. The Class and Club sponsors authorize expenditures from the accounts belonging to organizations they sponsor. Yearbook sales are accounted for in the Club Accounts. Most schools have Faculty Club Accounts to receive Faculty Club dues collected and vending machine commissions derived from machines in Teacher-designated areas of the school. These funds are disbursed in accordance with Faculty Club voting and authorization.

Department accounts may hold, for example, Library collections for lost Library books or Book Fair proceeds, or donations given to the school for use by a particular school department, such as ESE or Guidance. A Physical Education Department Account could be used to record revenues and expenditures related to the purchase and sale of PE Uniforms.

Trust accounts hold money that is to be used for a specific purpose, or that is required to be remitted to the District.

After-School Care collections and Summer Camp collections from parents, Facility Rental collections from lessees, and Sales Taxes due on fundraisers are accounted for in the Trust accounts. Small grants and donations may also be recorded in Trust accounts to be used for donor-designated purposes.

Elementary schools, middle schools, alternative schools and centers receive a categorical allocation in their budgets for the Supplemental Arts and Sciences Program, which is placed in each recipient school's Internal Funds checking account by the District's Treasurer. Schools may use these funds to pay approved field trip vendors directly, and unused funds are returned to the District at the end of each school year.

Vending machine commissions are also initially receipted in a Trust Account, before being transferred to other Internal Funds accounts. Staff Appreciation is a Trust Account that is permitted to receive up to 25% of the school's vending machine commissions.

The Promotions/Public Relations and Hospitality Trust Accounts hold money transferred in from the General Account, that is subject to annual maximums and restricted in purpose. Unused funds must be transferred back to the General Account at the end of each fiscal year.

The **General** Account records funds to be used for the general welfare of the student body, including donations without a specified purpose.

Limited funds may be transferred from the General Account to the Promotions/Public Relations and Hospitality Accounts and the School Improvement Trust Account at the beginning of each school year.

Financial and Program Cost Accounting and Reporting for Florida Schools 2021 (published by the Office of Funding and Financial Reporting – Florida Department of Education) Chapter 8 *School Internal Funds,* Section III – Standards, Practices and Procedures states:

> "3.4 RESTRICTED EXPENDITURES The following expenditures from internal funds are deemed inappropriate and shall not be made except from trust funds collected for a specifically identified purpose.
>
> a. Equipment, supplies, forms and postage for curricular or classroom use. The exception is for revenues derived from career education production shops, which may be used for this purpose.
>
> b. Curricular-related travel. The exception is for revenues derived from career education production shops, which may be used for this purpose.
>
> c. Professional, technical or consultant services. The exception is for revenues derived from career education production shops, which may be used for these purposes.
>
> d. Articles for the personal use of any student, employee or other person, except those items that are identifiable as being in recognition of service or promotion of school activities and those items identified under rule 6A-1.0143, F.A.C., Promotion and Public Relations Funding.
>
> e. Personal memberships or subscriptions.
>
> f. Salaries or other compensation for duties or assignments that are the responsibility of the school district.
>
> g. Loans, credit or accommodation purchases for anyone.
>
> h. Repairs and maintenance of district school board equipment for which district school board funds are available. The exception is for revenues derived from career education production shops, which may be used for these purposes."

Expenditures that are paid from a school's budget by the Accounts Payable Department may be reimbursed by the school's Internal Funds, if appropriate. For example:

- Employees who work as gate help at a school Football game must be paid via Payroll, so money from the school's Internal Funds Athletic Account is remitted to the Treasurer's Office to cover these payments to SBBC employees.

- Equipment should be purchased through SAP, with the assistance of the Procurement Department. If Internal Funds are the source of payment, the money is remitted to the Treasurer's Office so that the invoice may be paid by the District's Accounts Payable Department, and the item is added to the school's Property Inventory.

- Schools may engage the Transportation Department to provide buses for field trips, so Internal Funds money may be remitted by the school to the Treasurer's Office to pay Transportation for services.

Any money collected or disbursed in association with a school field trip must flow through the school's Internal Funds. Booster Clubs and PTOs may donate money to their schools to enable the schools to pay the bills for field trips.

The following pages are excerpts of the draft minutes of the Audit Committee Meeting of June 18, 2026 that are specifically related to Internal Audit Report – Audit of the Internal Funds of Selected Locations.

The complete minutes, which include Committee discussion on matters not related to this item, are scheduled for Committee discussion and approval at their next scheduled meeting on July 16, 2026.

I appreciate that.

MS. FERTIG: Okay. We have the Audit of the Internal Funds of Selected Schools. We are -- we have 40 minutes left and several items, so I'm just going to probably do the same thing with this report. There were exceptions on four locations; as I recall. Let me go to the actual page to make sure I'm right.

MR. MAGLI: Yes, ma'am, there were 40 audits conducted, four audit exceptions.

MS. FERTIG: And I just am going to just quickly call them out, ask if you have a question on that and then we will move on.

Glades Middle; anybody have a comment on that? If not, I have one question. Was there an explanation for how they happened to transfer funds from their account to Broward Education Foundation? And does that happen with other schools?

MR. MAGLI: I'll let Nakia answer that. But I have not seen that happen before, but I'll let her speak to it.

MS. GOULDBOURNE: Nakia Gouldbourne. They did explain that they had done an initial deposit to the vendor for the yearbooks but they had sold

enough yearbooks to cover the invoice, so when the amount was going to be refunded to the school it was instead refunded to the Broward Education Foundation. I don't have any more explanation as to why, but we were looking for the refund in the school and when we didn't see it we asked where it went and that's when we found out it went to the Broward Education Foundation.

MS. FERTIG: So it actually was the vendor who did it and not the school?

MS. GOULDBOURNE: I'm not really sure exactly because the check was just made out to Glades Middle School. And so our other question was how does the Broward Education Foundation deposit a Glades Middle School check, but -- so I don't know if they have individual accounts for the schools. But the check was made out to Glades Middle School, so I'm not sure how Broward Education --

MS. FERTIG: That was a new one. I hadn't seen that one before.

Okay. Anybody else on Glades?

(No response.)

MS. FERTIG: Norcrest?

(No response.)

MS. FERTIG: Nova Blanche Forman Elementary?

(No response.)

MS. FERTIG: And Rock Island Elementary; any questions on these?

(No response.)

MS. FERTIG: Okay. If not, is there anything in general about the report or are we ready for a motion to transmit?

MR. MAYERSOHN: Motion to transmit.

MR. NAYLOR: Second.

MS. FERTIG: Okay. All in favor?

COMMITTEE MEMBERS: Aye.

MS. FERTIG: Opposed?

(No response.)

MS. FERTIG: Thank you.

Okay. We're going to number 10, the Property and Inventory Audit of Selected Locations. I think there were two exceptions on this. Let me go to that page.

MR. MAGLI: There were 11 locations, three had exceptions.

MS. FERTIG: Oh, three, I'm sorry, I -- okay. Maybe I'm looking at the wrong thing. Oh, I see, over here. Okay.

All right. So, again, we'll take them by --

Ladies and Gentlemen:

We have performed a review of the Property and Inventory Controls for eleven (11) locations, pursuant to Florida Statute 274, Florida Administrative Code 69I-73, and Business Practice Bulletin O-100.

Each Property Custodian (Department Director/School Principal) is responsible for the safekeeping and proper use of the property entrusted to his or her care, are required to implement corrective actions, and comply with applicable laws, regulations, and School Board policies.

Our responsibility is to perform audits in accordance with generally accepted government auditing standards and to provide recommendations that improve operations, strengthen internal controls, and ensure compliance.

We have reviewed, on a test basis, the property and inventory records disclosed from District accounts and determined that eight (8) locations audited complied with prescribed laws, codes, policies, and procedures. At three (3) of the locations audited, exceptions were identified relating to unaccounted equipment and material internal control deficiencies.

Audit findings represent issues that may involve a deficiency in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; or instances of fraud. Elements of a finding generally include criteria, condition, cause, and effect or potential effect, and relevant recommendations.

Established 1915
BROWARD
County Public Schools

Audit findings result from significant internal control weaknesses and unaccounted-for property that meet or exceed the following materiality thresholds, based on either the asset's historical purchase value or the severity of internal control deficiencies (quantity):

- Monetary (based on historical cost per item):
  - $2,500 or more for Standard property items
  - $1,500 or more for SMART Bond assets
- Internal control deficiency (quantity-based):
  - 10 or more unaccounted-for property items, regardless of individual cost or net book value

We wish to express our appreciation to the administration and staff of the various locations for their cooperation and courtesies extended during our audits.

Sincerely,

Mark Magli
Chief Auditor

Scope, Objectives, and Methodology

The Office of the Chief Auditor conducts compliance audits, on a test basis, of selected schools and departments to provide the School Board, property custodians, and other stakeholders with unbiased, timely, and relevant information for promoting accountability and improving internal controls.

We conducted these compliance audits in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on the audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

We performed our audits with the objectives of:

- Evaluating compliance with current laws, rules, and district policies and procedures.
- Examining internal controls established by the location.
- Detecting indicators of fraud, waste, and abuse.

In conducting our test-based audit, we:

- Reviewed current laws, rules, and district policies and procedures.
- Physically verified selected property to ensure accurate accountability.
- Examined documentation supporting recorded property to confirm proper transfers, surplus procedures, and temporary removal of property by staff members.
- Reviewed the purchasing system to ensure all purchased property is appropriately recorded on property records.
- Prepared and submitted findings, discrepancies, and recommendations requiring management response. Management responses are detailed in Section III of this report.

Authority

The audits were conducted in accordance with Generally Accepted Government Auditing Standards ("Yellow Book") and School Board Policy 1700. The audit criteria referenced Section 274 of the Florida Statutes, Rules 69I-73 and 69I-71 of the Florida Administrative Code, as well as the Broward County Public Schools ("District") Business Practice Bulletin ("BPB") O-100.

Summary

A total of eleven (11) internal audits of tangible personal property were conducted, with each district location representing a separate audit engagement. The audits were performed to assess compliance with applicable property and inventory control requirements. Eight (8) of these locations had unaccounted for property items. At three (3) of the locations audited, exceptions were identified relating to unaccounted equipment and material internal control deficiencies. For the eleven (11) locations audited, 2,675 property items were sampled, with a combined historical purchase value of $4,312,644.53. Seventy-nine (79) of these items were unaccounted for, representing a combined historical value of $104,788.34 and with a current netbook value of $8,653.21.

As a result of the property and inventory audit conducted at Tropical Elementary, it was determined that some internal controls over inventory and the management of tangible personal property were not compliant with the District's policies and procedures.

The school's property custodian is responsible for the safekeeping and proper use of property at their assigned location, in accordance with Section 274.03, F.S., Florida Administrative Code and Business Practice Bulletin O-100.

Unaccounted-for Property

During a test-based audit of property and inventory at Tropical Elementary, thirty-three (33) items were unaccounted for. The property custodian was unable to locate these assets and did not provide supporting documentation to reconcile the missing items or substantiate their final disposition. The lack of adequate documentation and effective controls over the safeguarding of equipment and accountability of property increases the risk of assets being lost, stolen, or the risk of inaccurate reporting of property.

Business Practice Bulletin ("BPB") O-100 Section E states, "*All locations must take appropriate measures to ensure the safekeeping of all tangible personal property. This includes securing all high-theft equipment during hours of non-operation.*"

Purchasing Tangible Personal Property

The property custodian (school principal) stated that the ANCHOR 472100 AN-MINI SYSTEM, identified as unaccounted-for, was not received from the vendor. However, supporting documentation was not provided regarding this matter. The Master Files of Capital Assets database for tangible personal property indicated

that the item was acquired on January 1, 2024, and subsequently recorded as an asset.

BPB O-100 Section A.1 states *"When tangible personal property is received on-line, the individual must process the goods receipt for each item separately and record the unique serial number for each property item within the system. If the tangible personal property has not been received at the location, and the asset record was mistakenly created for this location, the property custodian should immediately notify Accounting & Financial Reporting - Capital Assets to correct the discrepancy in a timely manner."*

Conducting Semi-Annual Inventories

A review of the location's semi-annual inventory forms, submitted through BCPS[1] Central, revealed that for Fiscal Year 2024–2025, both required semi-annual inventories were completed and submitted with no unaccounted-for tangible personal property reported. However, as noted, thirty-three (33) property items were not located during the audit.

The inability to locate these assets despite the completion of the required semi-annual inventories indicated that inventory reconciliation procedures were not performed effectively or that discrepancies identified during the inventory process were not adequately investigated and resolved during the semi-annual. Effective inventory reconciliations are essential to ensuring the accuracy of property records and the timely identification of missing, misplaced, or improperly recorded assets.

As a result, the location demonstrated weaknesses in its controls over the safeguarding and accountability of tangible personal property.

Recommendations

The Office of the Chief Auditor suggests "hands on all" item reconciliation be completed at all schools/departments to ensure staff maintains an accurate physical accounting of designated assets. Additionally, the OCA recommends the following oversight and monitoring measures to the property custodian:

- Establish internal controls to improve accountability and the safeguarding of the District's assets.
- Review BPB O-100 Procedures for Property and Inventory Control with the designated property team members and all other related staff to ensure compliance with all applicable policies and procedures.

[1] BCPS Central is maintained by Application Services Division of the Information Technology Department.

- Implement internal control procedures that include periodic review and reconciliation of asset records, at a minimum, during semi-annually inventories conducted in accordance with District policies and procedures for property control, as prescribed in BPB O-100.
- Assemble a property and inventory team and provide all staff with the inventory management procedures and expectations as implemented by the property custodian.
- Enroll designated property team members to participate in the Information Technology Department's *Inventory Process & Tips* training.

Continue school efforts to locate the remaining unaccounted for items and report any asset recoveries to Accounting and Financial Reporting-Capital Assets immediately.

Subject: **PROPERTY AND INVENTORY AUDIT RESPONSE- TROPICAL ELEMENTARY (0731)**

In response to the Property and Inventory Control Audit conducted from October 6-10, 2025, please see my responses that address the findings by the Office of the Chief Auditor.

1. Summary of Unaccounted-for Assets

The assets identified on the attached 03290 Tangible Loss Form were determined to be unaccounted for during the January 2025 and May 2025 semi-annual inventory reviews. Despite extensive efforts to locate these assets and reconcile inventory records, the items remain unaccounted for.

2. Explanation of Asset Status

The following information provides a summary of the circumstances surrounding the unaccounted-for assets and the reasons property records may require adjustment.

PROPERTY AND INVENTORY AUDIT RESPONSE- TROPICAL ELEMENTARY (0731)

a. Following the January 2025 inventory review, a comprehensive effort was undertaken to locate the missing assets. Classrooms, offices, storage rooms, closets, and other areas throughout the school were searched. In addition, available inventory records, historical files, and supporting documentation were reviewed in an effort to determine the disposition of the assets.

b. During the review process, information obtained from available records and discussions with former employees indicated that some B-Stock transactions completed prior to 2017 may not have been fully reconciled within the district's inventory system. Supporting documentation for certain asset disposals and transfers could not be located despite extensive efforts to obtain such records.

c. Documentation reviewed from a 2017 school audit reflects ongoing communication among Audit Services, Capital Assets, B-Stock personnel, and prior school administration regarding assets that had reportedly been transferred, disposed of, or collected through the B-Stock process but remained listed on inventory reports. Available information suggests that documentation associated with certain B-Stock transactions may have been unavailable or incomplete, preventing the appropriate adjustment of inventory records.

d. One asset presents a unique circumstance. The item was purchased in 2023 and reportedly delivered in 2024; however, neither the school nor the vendor has been able to locate documentation confirming delivery. In addition, the original quotation references Tropical Elementary in Brevard County rather than Broward County. Although the purchase order was issued through Broward County Public Schools and the invoice was processed through BCPS Accounting, no current staff members have knowledge of receiving, utilizing, or storing the device. Despite efforts to verify delivery and locate the asset, no evidence has been found indicating that the item was physically received at the school.

3. Efforts to Locate the Assets

The following actions were taken to locate or recover the missing assets:

a. Conducted extensive searches of classrooms, offices, storage areas, closets, and other locations throughout the school.

b. Reviewed available inventory records, purchase documentation, historical files, and supporting paperwork related to asset transfers and disposals.

PROPERTY AND INVENTORY AUDIT RESPONSE- TROPICAL ELEMENTARY (0731)

c. Searched for documentation associated with prior B-Stock transactions and attempted to reconcile records with available information.

d. Reviewed obsolete and surplus equipment located on campus to determine whether any missing assets had been improperly identified, stored, or recorded.

e. Worked with Capital Assets personnel to verify inventory records, serial numbers, and documentation where available.

Despite these efforts, the assets have not been located.

4. Preventive Measures

The following procedures have been implemented to strengthen inventory accountability and reduce the likelihood of future discrepancies:

a. Continued collaboration with Capital Assets to verify and update inventory records when discrepancies are identified.

b. Review and correction of inventory information, including serial numbers and asset descriptions, when supporting documentation is available.

c. Organization, documentation, and preparation of obsolete and broken equipment for future B-Stock processing.

d. Maintenance of supporting documentation related to inventory transfers, disposals, and B-Stock transactions.

e. Follow-up with appropriate departments to confirm receipt and processing of inventory-related documentation.

5. Request for Inventory Adjustment

The Immediate Notification Form (SIU Report) has been submitted to BCPS Police and is included in this package. Based on the extensive efforts undertaken to locate the assets and reconcile inventory records, and in the absence of documentation establishing the current location of the items, Tropical Elementary School respectfully requests that the assets be classified as "Missing" in accordance with district procedures and applicable regulations. If the assets are not recovered

PROPERTY AND INVENTORY AUDIT RESPONSE- TROPICAL ELEMENTARY (0731)

within the applicable retention period, we request that the property records be adjusted accordingly.

6. Record Retention

A copy of this letter and all supporting documentation will be maintained at Tropical Elementary School in accordance with district record retention requirements and for future audit purposes.

As a result of the property and inventory audit conducted at Nova Dwight D. Eisenhower Elementary, it was determined that some internal controls over inventory and the management of tangible personal property were not compliant with the District's policies and procedures.

The school's property custodian (school principal) is responsible for the safekeeping and proper use of property at their assigned location, in accordance with Section 274.03, F.S., Florida Administrative Code and Business Practice Bulletin O-100.

Unaccounted-for Property

During a test-based audit of property and inventory at Nova Dwight D. Eisenhower Elementary, seven (7) property items remained unaccounted for after the property custodian provided physical locations and supporting documentation for other assets as part of the audit response. The property custodian was unable to locate the seven remaining assets and did not provide sufficient supporting documentation to reconcile the missing items or substantiate their final disposition. The lack of adequate documentation and effective controls over the safeguarding of equipment and accountability of property increases the risk of assets being lost, stolen, or the risk of inaccurate reporting of property.

BPB O-100 Section E states, "*All locations must take appropriate measures to ensure the safekeeping of all tangible personal property. This includes securing all high-theft equipment during hours of non-operation.***"**

Conducting Semi-Annual Inventories

A review of the location's semi-annual inventory forms, submitted through BCPS Central, revealed that no semi-annual inventory reports were submitted for Fiscal Year 2024–2025. As a result, the property custodian was unable to demonstrate that the required semi-annual inventories were conducted and certified.

The failure to complete and submit the required semi-annual inventory forms indicated that the property custodian did not comply with BPB O-100. Failing to comply with the property and inventory policies and procedures weakens accountability over District assets and increases the risk that employee errors, theft, or misuse of assets may go undetected. Additionally, Semi-annual inventory review and reconciliation allow the school to promptly detect and resolve mistakes, discrepancies, or other asset record inconsistencies.

Recommendations

The Office of the Chief Auditor suggests "hands on all" item reconciliation be completed at all schools/departments to ensure staff maintains an accurate physical accounting of designated assets. Additionally, the OCA recommends the following oversight and monitoring measures to the property custodian:

- Establish internal controls to improve accountability and the safeguarding of the District's assets.
- Review BPB O-100 Procedures for Property and Inventory Control with the designated property team members and all other related staff to ensure compliance with all applicable policies and procedures.
- Implement internal control procedures that include periodic review and reconciliation of asset records, at a minimum, during semi-annually inventories conducted in accordance with District policies and procedures for property control, as prescribed in BPB O-100.
- Assemble a property and inventory team and provide all staff with the inventory management procedures and expectations as implemented by the property custodian.
- Enroll designated property team members to participate in the Information Technology Department's *Inventory Process & Tips* training.

Continue school efforts to locate the remaining unaccounted for items and report any asset recoveries to Accounting and Financial Reporting-Capital Assets immediately.

Subject: Response to the 2025–2026 Property Compliance Audit Questionnaire & Property Audit Results Letter

Dear Property Compliance Team,

Thank you for the comprehensive review conducted as part of the **2025–2026 Property Compliance Audit Questionnaire** and for the **Property Audit Results Letter dated May 15, 2026**, identifying 24 unaccounted-for assets totaling $35,387.13. We appreciate the opportunity to respond to the findings and outline the corrective actions already implemented to strengthen internal controls and ensure full compliance moving forward.

Following the audit, our administrative team conducted an internal review of all findings and took immediate steps to address each area of concern. During this review, we determined that **all but two items listed in the attached questionnaire are now accounted for**. The **two remaining unaccounted-for items predate the current administration team, Micro Tech, and head custodian**, and appear to have been missing prior to 2020. Additionally, several of the items originally flagged as missing were part of a **district-coordinated property pickup in 2020**, initiated due to a Health Department concern. Email documentation confirming this removal was located and shared with the assigned auditor.

All property passes were reviewed and updated to ensure they now meet district requirements. We have implemented a new process in which passes are completed at the time equipment is issued, submitted immediately, and stored in a designated folder for principal review and signature.
To ensure long-term compliance, we have established new internal controls involving the assistant principal and Micro Tech, including monthly inventory reviews, serial number verification for all new items, and structured procedures for semi-annual inventories and disposal documentation.
We remain committed to maintaining accurate, transparent, and compliant property records and appreciate the guidance provided through this audit process.

Summary of Corrective Actions and Audit Findings

Missing Property Items

- **All but two items** listed in the audit questionnaire are now accounted for.
- The **two unaccounted-for items predate** the current administration, MicroTech, and head custodian.
- Several items were removed during a **2020 district property pickup** due to a Health Department concern (email documentation provided).
- Internal review confirmed that only two items lack physical verification on campus:
  - 02-16948 Floor Stripper – no documentation of delivery
  - 03-07007 Lexmark Printer – no documented proof of receipt
- Multiple items were misclassified due to serial number discrepancies, replacements, or documentation gaps.
- Older printers and devices (2002–2015) were likely disposed or replaced; documentation gaps contributed to misclassification.
- One item (#13) is currently accounted for and in possession of staff member Mr. Balmori.
- Continued reconciliation with Capital Assets is underway.

Property Pass Compliance

- All property passes were reviewed and corrected after the audit.
- New internal control process implemented:
  - Property passes completed at the time equipment is issued
  - Passes immediately submitted to the front office
  - Passes stored in a designated folder for principal review and signature
  - No equipment leaves its assigned location without a fully completed pass

Serial Number Accuracy

- Multiple items listed as "OMISSION" were verified and corrected with updated serial numbers submitted to Capital Assets.
- Micro Tech now verifies all serial numbers for new items.
- Monthly joint review of asset entries by the assistant principal and Micro Tech.
- Any discrepancies corrected immediately and reported to Capital Assets.

Laptop Cart Replacement

- One laptop cart was damaged and replaced with serial **LEN98808**, supported by packing list and email documentation.

Semi-Annual Inventories

- Inventory was completed and signed on 2/2/2024; improved documentation procedures implemented.

- Assistant principal and Micro Tech will jointly conduct and document both required inventories each fiscal year.
- Recurring calendar reminders established to ensure timely completion.
- Documentation stored digitally and in hard copy for audit readiness.

Disposal Documentation

- Assistant principal and MicroTech will verify all Form 3290A submissions for completeness.
- Items will not be sent to B-Stock until documentation is fully verified.
- A tracking log will ensure all removed items are reconciled with the inventory report.

Ongoing Internal Controls

- Monthly inventory review meetings between the assistant principal and MicroTech.
- Principal oversight of property passes and disposal documentation.
- Expansion of the secondary database to include all high-risk items under $1,000.
- Spot checks of high-risk items conducted throughout the year.
- Improved documentation retention and staff training on asset procedures.

Conclusion

While 24 items were initially identified as unaccounted for, **all but two have been fully reconciled**, with the remaining two items predating the current administrative and custodial teams. The majority of discrepancies were attributable to documentation gaps, serial number updates, or historical replacements rather than confirmed loss. The school has taken immediate corrective action and implemented sustainable internal controls to ensure full compliance moving forward.

We remain committed to safeguarding district property and maintaining accurate, transparent inventory records. If additional information or documentation is needed, we are prepared to provide it.

Sincerely,

Kristi B. Rippo

As a result of the property and inventory audit conducted at Manatee Bay Elementary, it was determined that some internal controls over inventory and the management of tangible personal property were not compliant with the District's policies and procedures.

The school's property custodian (school principal) is responsible for the safekeeping and proper use of property at their assigned location, in accordance with Section 274.03, F.S., Florida Administrative Code and Business Practice Bulletin O-100.

Unaccounted-for Property

During a test-based audit of property and inventory at Manatee Bay Elementary, nineteen (19) items were unaccounted-for. The property custodian was unable to locate these assets and did not provide supporting documentation to reconcile the missing items or substantiate their final disposition. The lack of adequate documentation and effective controls over the safeguarding of equipment and accountability of property increases the risk of assets being lost, stolen, or the risk of inaccurate reporting of property.

BPB O-100 Section E states, "*All locations must take appropriate measures to ensure the safekeeping of all tangible personal property. This includes securing all high-theft equipment during hours of non-operation.***"**

Conducting Semi-Annual Inventories

A review of the location's semi-annual inventory forms submitted through BCPS Central revealed that both required semi-annual inventories were completed and submitted during the fiscal year. However, the results of the audit indicate weaknesses in the effectiveness of the inventory process, as nineteen (19) property items were identified as unaccounted for during audit.

The inability to locate these assets despite the completion of the required semi-annual inventories indicates that inventory reconciliation procedures were not performed effectively or that discrepancies identified during the inventory

process were not adequately investigated and resolved during the semi-annual. Effective inventory reconciliations are essential to ensuring the accuracy of property records and the timely identification of missing, misplaced, or improperly recorded assets.

As a result, weaknesses exist in the controls designed to safeguard and maintain accountability over tangible personal property

Recommendations

The Office of the Chief Auditor suggests "hands on all" item reconciliation be completed at all schools/departments to ensure staff maintains an accurate physical accounting of designated assets. Additionally, the OCA recommends the following oversight and monitoring measures to the property custodian:

- Establish internal controls to improve accountability and the safeguarding of the District's assets.
- Review BPB O-100 Procedures for Property and Inventory Control with the designated property team members and all other related staff to ensure compliance with all applicable policies and procedures.
- Implement internal control procedures that include periodic review and reconciliation of asset records, at a minimum, during semi-annually inventories conducted in accordance with District policies and procedures for property control, as prescribed in BPB O-100.
- Assemble a property and inventory team and provide all staff with the inventory management procedures and expectations as implemented by the property custodian.
- Enroll designated property team members to participate in the Information Technology Department's *Inventory Process & Tips* training.

Continue school efforts to locate the remaining unaccounted for items and report any asset recoveries to Accounting and Financial Reporting-Capital Assets immediately.

Subject: **Property and Inventory Audit Response Manatee Bay Elementary School**

This memorandum is in response to the Property and Inventory Control Audit conducted at Manatee Bay Elementary School on September 29–30, 2025. The audit documented nineteen (19) unaccounted-for assets totaling $29,652.16 and identified discrepancies related to inventory procedures and semi-annual inventory reporting.

We acknowledge the findings outlined in the audit report and understand the importance of maintaining accurate property records and adhering to all applicable requirements outlined in Florida Statute Chapter 274, Florida Administrative Codes 69I-71 and 69I-73, and Business Practice Bulletin O-100.

Since receiving the audit results, the school has begun reviewing inventory procedures, verifying records, and investigating the status and location of the identified assets. Efforts will continue to reconcile discrepancies and update records with the Accounting & Financial Reporting Department – Capital Assets, as appropriate.

To strengthen accountability and improve compliance with property and inventory procedures, Manatee Bay Elementary School will implement the following corrective actions:

• Internal controls will be strengthened to ensure all property assets are stored in secure locations with access limited to authorized personnel only.

• A standardized process will be implemented requiring the use of check-in/check-out logs or property passes for any equipment temporarily removed from its assigned location to ensure accurate tracking of all assets.

• Semi-annual inventories will be conducted with increased oversight to ensure all assets are physically verified and discrepancies are identified, investigated, and reported promptly to Capital Assets.

• A review process will be established prior to certification of semi-annual inventory submissions to verify the accuracy and completeness of all records.

• Periodic spot checks of high-risk and frequently used equipment will be conducted throughout the school year to identify missing, lost, or misplaced items in a timely manner.

• Property and inventory procedures will be reviewed with all staff responsible for school equipment to reinforce BCPS expectations regarding accountability, proper handling, storage, transfers, and reporting protocols.

• The property and inventory team will review and revise internal procedures related to receiving, transferring, surplusing, and releasing equipment to ensure all documentation is completed accurately and timely.

• Quarterly reviews will be conducted to monitor inventory documentation, including property passes, transfers, surplus documentation, acquisitions, and inventory certifications.

• Property and Inventory compliance will be included as a standing discussion item during administrative and staff meetings to maintain awareness and accountability.

• Team members responsible for inventory procedures will review Business Practice Bulletin O-100 and participate in additional training related to Property and Inventory Controls to ensure compliance with district policies and procedures.

Manatee Bay Elementary School remains committed to improving inventory accountability practices and maintaining compliance with all district and state requirements. We appreciate the guidance and recommendations provided through the audit process and will continue working collaboratively to address all outstanding discrepancies.

MS. FERTIG: Nova Blanche Forman Elementary?

(No response.)

MS. FERTIG: And Rock Island Elementary; any questions on these?

(No response.)

MS. FERTIG: Okay. If not, is there anything in general about the report or are we ready for a motion to transmit?

MR. MAYERSOHN: Motion to transmit.

MR. NAYLOR: Second.

MS. FERTIG: Okay. All in favor?

COMMITTEE MEMBERS: Aye.

MS. FERTIG: Opposed?

(No response.)

MS. FERTIG: Thank you.

Okay. We're going to number 10, the Property and Inventory Audit of Selected Locations. I think there were two exceptions on this. Let me go to that page.

MR. MAGLI: There were 11 locations, three had exceptions.

MS. FERTIG: Oh, three, I'm sorry, I -- okay. Maybe I'm looking at the wrong thing. Oh, I see, over here. Okay.

All right. So, again, we'll take them by --

by school with the exceptions; if that's okay with everybody. The first was Tropical Elementary.

MR. NAYLOR: Mary?

MS. FERTIG: Yes.

MR. NAYLOR: Just a general question. When the criteria for identifying an exception includes SMART Bond over $1,500, correct, none of the -- none of these really identify if they were using SMART Bond funds. Is there a way to identify that?

MR. MAGLI: I believe there is. It's coded into the BPI with an S; correct? Yes. So if the BPI has an S in front of it, it would be a SMART Bond program.

MR. NAYLOR: Okay. Thank you.

MS. FERTIG: And just looking at the age of some of these things, I mean, it was a long time ago on some of them.

MR. MAGLI: Yes, we've spoken to that and we know that there's still a cleanup process happening in locations that I hope they'll catch up on soon.

MS. FERTIG: Yeah. No, but I'm just saying, if it's settled, it's not a SMART Bond; right?

Okay. Is there a motion to transmit?

MR. NAYLOR: Just a question.

MS. FERTIG: Oh, yeah, go ahead. I'm sorry.

MR. NAYLOR: On the Tropical Elementary there's four items that indicate an S, so that is is what're saying would be SMART Bond; using SMART Bond funds?

MR. MAGLI: Yes. Yes.

MR. NAYLOR: Okay. Thank you.

MS. FERTIG: Okay. Anything else?

(No response.)

MS. FERTIG: Okay. Is there a motion to transmit?

MR. MAYERSOHN: Motion to transmit.

MS. FERTIG: Okay. Thank you.

MR. NAYLOR: Second.

MS. FERTIG: Moved and seconded to transmit the Property and Inventory Audit of Selected locations. All in favor?

COMMITTEE MEMBERS: Aye.

MS. FERTIG: Opposed?

EXECUTIVE SUMMARY

Internal Audit of Human Resources Function

Board Meeting Date: July 28, 2026

Requested Action: Receive Carr, Riggs, & Ingram (CRI) – Internal Audit of Human Resources Function June 2026

General Information

The following information outlines the governing authority, districtwide implications, historical background, strategic alignment with the 2027 goals and guardrails, and the anticipated measurable outcomes and return on investment related to this agenda item.

District-zone Impact/Board Member: District-wide	
School Board Policy Requirement	• Policy 1700 Office of the Chief Auditor
Statutory Requirement	• Fla. Stat. §1001.42(12)(l) Powers and Duties of District School Board, requires the district school board to establish an internal audit function that reports directly to the Board and evaluates internal controls, financial accountability, and compliance within the school system.
If the School Board votes "Yes"	• The School Board would receive the audit report on the Internal Audit of Human Resources Function directly from the internal auditor in accordance with Florida Statute and SBBC policy.
If the School Board votes "No"	• The Board would not formally receive the audit report as required by Florida statute, which could result in noncompliance with statutory oversight requirements.
Alignment to the 2027 Strategic Goals and Guardrails	• This item aligns with Guardrail 4: Accountability, which includes expectations, evaluation, transparency, and continuous improvement.
Measurable Outcome(s)/Return on Investment	• Continued improvement of internal control effectiveness and strengthened compliance with regulatory requirements and School Board policies and procedures.

Background/History

Carr, Riggs & Ingram, L.L.C. conducted an internal audit to evaluate the adequacy and effectiveness of internal controls over the Human Resources (HR) function, including recruiting, selection and hiring, compensation, and termination processes. The

audit reviewed transactions and activities occurring between July 1, 2024 and April 30, 2025, and assessed compliance with applicable laws, School Board Policies, and procedures. The HR function utilizes SAP and HR Connect to support workforce administration and employee lifecycle management.

Summary of Findings

#	Finding	Rating	Summary of Issue	Management Action
1	Recruiting – Job Posting Accuracy and Data Alignment	**Moderate**	Job profile inconsistencies. Minimum qualification discrepancies. Missing Compensation information.	Implemented controls to align job profiles with approved job descriptions and improve monitoring of postings.
2	Recruiting – Veterans' Preference	**High**	Missing DD-214 documentation and lack of interview documentation for applicants claiming Veterans' Preference.	Enhanced HR Connect controls, staff training, and compliance monitoring.
3	New Hires – Drug Testing	**High**	Two employee files lacked evidence of completed pre-employment drug testing.	Drug testing verification and documentation are now required before candidate approval.
4	Employee Termination – Notification Documentation	**Moderate**	Board notification deficiencies. Incomplete employee notification documentation.	HR Connect now centralizes termination processing and documentation.
5	Employee Termination – State Reportable	**Moderate**	Roles, responsibilities, and procedures for identifying reportable termination events were not sufficiently defined or consistently understood.	The Professional Standards Department was created to centralize oversight and reporting processes.
6	Employee Termination – Return of Assets	**Moderate**	District-issued assets (badges and keys) were not returned in several cases, and tracking was decentralized.	Standardized checklists and future ERP-based tracking enhancements planned.
7	Employee Termination – System Access	**Moderate**	Audit trail limitations prevented verification that system access was removed timely for sampled terminated employees.	HR Connect now automates termination processing and access removal.
8	Employee Records Storage	**High**	Employee records are maintained across multiple locations and formats, creating inefficiencies and increasing record retention risks.	District plans centralized electronic record storage through future ERP implementation.

The audit concluded that the Human Resources function received an overall rating of **Needs Improvement**. While key processes and controls are in place, the audit identified weaknesses in the consistency of execution, documentation, record retention, and oversight. Several findings involved compliance-related and record management issues that increase operational and compliance risks.

Overall, the control environment is in place; however, enhancements in organization, standardization, and execution are needed to support more effective and consistent operations.

The Audit Committee reviewed and approved the transmission of this report to the School Board at the June 18, 2026, Audit Committee meeting.

Executive Summary

Overview

The Human Resources function ("HR") at the School Board of Broward County ("SBBC") is responsible for administering key workforce processes, including recruitment and hiring, onboarding, compensation administration, and employee separation. HR oversees the coordination of these processes in accordance with School Board policies, collective bargaining agreements, and applicable Florida Statutes and Federal Laws.

Using centralized HR systems and standardized procedures, HR supports accurate employee data management, ensures proper authorization of employment actions, and facilitates compliance throughout the employee lifecycle.

SBBC utilizes an integrated Human Resources Information Systems (HRIS) environment to support workforce management, personnel administration, and related HR operations. The primary systems supporting these functions are SAP SuccessFactors and HR Connect. Together, these systems support the full employee lifecycle and provide the foundational data used for payroll processing, benefits administration, reporting, and downstream system integrations. During the internal audit, SBBC transitioned to HR Connect, which was fully implemented for the 2025–2026 school year. The audit scope period covered activity prior to the transition; however, testing procedures were performed after the implementation of HR Connect and therefore relied upon the transfer of data to HR Connect and retained in previous system and/or departmental shared network drives as applicable.

Objective

The objective of this internal audit was to evaluate the adequacy and effectiveness of controls over the recruitment, selecting and hiring, compensation, and termination processes to ensure positions are properly authorized, candidates are selected in a fair and consistent manner, and hiring, compensation, and termination activities comply with applicable laws, School Board policies, and procedures.

Executive Summary Cont.

We identified the following observations:

Observations		Risk Rating
1.	Recruiting - Job Posting Accuracy and Data Alignment	**Moderate**
2.	Recruiting – Veterans Preference	**High**
3.	New Hires – Drug Testing	**High**
4.	Employee Termination – Notification Documentation	**Moderate**
5.	Employee Termination – State Reportable	**Moderate**
6.	Employee Termination – Return of Assets	**Moderate**
7.	Employee Termination – System Access	**Moderate**
8.	Employee Records Storage	**High**

Please refer to pages 17 through 32 for additional detail regarding the observations summarized above. Management's responses are presented with each observation and are also provided in a separate memorandum prepared by Management at page 33.

Observation ratings are a subjective evaluation of the severity of the concern and the potential impact on the operations. Risk ratings are defined as follows:

> High – Items are of immediate concern and could cause significant operational issues or non-compliance if not addressed soon; the risk of reoccurrence is high.
>
> Moderate – Items pose a risk of operational issues or non-compliance. These items do not require immediate attention but should be addressed as soon as possible; the risk of reoccurrence is likely.
>
> Low – Items could escalate into operational or compliance issues but can be addressed through the normal course of conducting business; risk of reoccurrence is low.

The overall rating of the report is rated as one of the following three categories:

The **Satisfactory** rating indicates that the system of internal controls included those procedures considered necessary for the achievement of the objectives listed above. Compliance with such procedures provided effective internal control.

The **Needs Improvement** rating indicates that the system of internal controls included those procedures considered necessary for the achievement of the objectives listed above and compliance with such procedures provided effective internal control. We identified various control weaknesses; however, these did not rise to the level of rendering the system of internal controls ineffective.

The **Unsatisfactory** rating indicates that the system of internal controls did not include those procedures considered necessary for the achievement of the objectives listed above. Unsatisfactory rating includes observations of such magnitude that it renders the system of internal controls ineffective.

The results of our procedures indicate that the Human Resources function is **Needs Improvement** to achieve management objectives and comply with applicable laws, rules, and regulations. While processes are in place across recruiting, hiring, compensation, and termination, several observations identified gaps in how consistently those processes are executed.

Executive Summary Cont.

Many of the issues noted were related to documentation, recordkeeping, and the decentralized nature of activities across multiple departments and systems, which contributed to inconsistencies and execution gaps. Additionally, certain higher-risk observations, particularly related to compliance and record management, further highlight the need for improved consistency and oversight.

Overall, the control environment is in place; however, enhancements in organization, standardization, and execution are needed to support more effective and consistent operations.

Refer to the Observations Matrix section of the report for detailed explanations of the observations, risks, and related recommendations and management responses.

Testing Procedures & Results

For the following Testing Procedures and Results, see legend below and detailed results of exceptions noted are in the Observations Matrix section on pages 17 through 32. Management's responses are presented with each observation and are also provided in a separate memorandum prepared by Management at page 33.

Background

Staffing

The Human Resources Talent Management function is organized within the Human Resources Department and is overseen by the Executive Director - Talent Management [1].

[1] *Organization structure effective as of fieldwork sample testing.*

Recruitment and onboarding

The School Board of Broward County's recruitment and onboarding processes are designed to ensure that qualified instructional and non-instructional personnel are hired in a timely, compliant, and consistent manner to support educational and operational needs. The recruitment lifecycle involves multiple departments and stakeholders and is executed through a series of defined phases.

HR Recruitment includes the following phases:

- New Job Requisition
- Job Requisition Open
- Recruiting
- Onboarding

New Job Requisition phase

The process begins with the New Job Requisition phase, initiated by the Hiring Manager. During this phase, the need for a position is identified and reviewed for budget availability, compensation alignment, and authorization. Key stakeholders involved include the Hiring Manager, HR Action Processor, Budget, Compensation, IT Security, and Human Resources. This phase ensures positions are appropriately approved and aligned with organizational and financial requirements prior to posting.

Job Requisition Open phase

Once approved, the process moves to the Job Requisition Open phase. Human Resources Talent Acquisition Operations (HR TAO), including both instructional and non-instructional administrative and support staff, are responsible for opening and preparing the requisition for recruitment. This phase includes validating position details, job classifications, and posting requirements to ensure accuracy and compliance with School Board policies and applicable regulations.

Recruiting phase

The Recruiting phase involves active candidate sourcing, screening, and selection. Responsibilities are shared among HR TAO, HR Action Processors, Hiring Managers, screeners, interview panel members, and the applicable school or location. Activities during this phase include application review, candidate screening, interviews, and selection of qualified candidates in accordance with equal employment opportunity requirements and internal hiring policies.

Onboarding phase

The final phase, Onboarding, begins after a candidate is selected. HR TAO coordinates onboarding activities, which include board approval where required, security and background clearance, and completion of employee documentation. This phase also involves coordination with the employee to ensure all pre-employment and onboarding requirements are satisfied before the employee begins work.

The onboarding process flow includes the following:

a) Documents are submitted to Compensation and HRSS for processing.

b) School/department conducts site specific orientation.

c) ID badges are sent directly to location or non-instructional for distribution.

Overall, the recruitment and onboarding processes rely on standardized procedures, defined roles and responsibilities, and multiple control points to promote compliance with federal and state employment laws, School Board policies, collective bargaining agreements, and record retention requirements. Due to the volume of hiring activity and the involvement of multiple stakeholders, effective coordination and oversight are critical to ensuring timely hiring, proper documentation, and regulatory compliance.

Compensation

The County School Board's compensation and employment processes are governed through a defined structure of roles and responsibilities shared among the School Board, Managers and Supervisors, and the Compensation Department. This governance framework is designed to promote consistency, transparency, compliance with applicable laws and regulations, and alignment with District compensation philosophy and budgetary constraints.

The Board approves new or updated job descriptions that define position responsibilities and qualifications, annual salary schedules, salary budgets, and employment contracts. These approvals provide formal authorization and oversight for compensation and employment decisions across the District.

Managers and Supervisors are responsible for developing and implementing compensation-related decisions within their respective areas in accordance with approved District policies, compensation philosophy, and budget limitations. Managers and Supervisors are expected to coordinate with Human Resources to ensure compensation decisions are applied consistently and are appropriate based on position requirements and employee qualifications.

The Compensation Department serves in an advisory and oversight role by providing expert guidance to support appropriate compensation decisions. Responsibilities include analyzing and advising on proposed pay changes, job descriptions, salary schedules, and compensation policies, as well as reviewing compensation actions to identify significant variations in practices across the District. The department also maintains responsibility for keeping the School Board and District management informed of compensation programs and relevant external trends.

Termination

The termination process at the SBBC is designed to ensure employee exits are managed in compliance with Board policies, collective bargaining agreements, Florida Statutes, and applicable federal and state regulations. These processes are particularly sensitive due to the District's instructional environment, statutory requirements for educators, and the involvement of multiple oversight bodies, including the Superintendent, Professional Standards & Labor Relations, Legal Services, and the School Board.

Effective administration of the termination process helps mitigate legal, financial, operational, and reputational risks, while safeguarding student welfare and ensuring due process for employees.

Types of Terminations

Employee termination at SBBC generally fall into the following categories:

1. **Voluntary Separation**

    - Resignation
    - Retirement
    - End of temporary, seasonal employment

2. **Involuntary Termination**

    - Probationary release
    - Termination for cause (misconduct, policy violations, or performance deficiencies)
    - Reduction in force (RIF) or layoff due to budgetary, enrollment, or organizational changes
    - Non-renewal of annual contracts for instructional employees

3. **Administrative Separation**

    - Separation due to failure to maintain required certification or licensure
    - Statutory disqualification or ineligibility
    - Separation resulting from investigation outcomes (criminal or non-criminal matters)

HR Systems Environment

SBBC utilizes an integrated Human Resources Information Systems (HRIS) environment to support workforce management, personnel administration, and related HR operations. The primary systems supporting these functions are SAP SuccessFactors and HR Connect. Together, these systems support the full employee lifecycle and provide the foundational data used for payroll processing, benefits administration, reporting, and downstream system integrations. During the internal audit, SBBC transitioned to HR Connect, which was fully implemented for the 2025–2026 school year. The audit scope period covered activity prior to the transition; however, testing procedures were performed after the implementation of HR Connect and therefore relied upon the transfer of data to HR Connect and retained in previous systems and/or departmental shared network drives as applicable.

SAP – Core Human Resources System of Record

SAP serves as SBBC's primary system of record for employee data and official employment actions. It maintains authoritative records for both current and former employees and supports the following key functions:

- Employment status and classification
- Job, position, and organizational assignments
- Hire dates, effective dates, and employment actions
- Compensation and payroll-related information
- Historical personnel records

SAP is relied upon as the authoritative source for employment data across the District. Information recorded in SAP is used for payroll processing, statutory reporting, benefits eligibility, and integration with other enterprise systems. Because SAP data is relied upon by multiple downstream processes, the accuracy and timeliness of data entry into SAP are critical internal control considerations.

HR Connect (SAP SuccessFactors) – Talent and Workforce Management System

HR Connect is SBBC's cloud-based human capital management platform built on SAP SuccessFactors. HR Connect supports talent management and workforce-related HR functions that complement SAP's core HR capabilities. Primary HR Connect functions include:

- Recruitment and applicant tracking
- Job requisitions and posting management
- Candidate selection and hiring workflows
- New hire onboarding and employee data capture
- Performance management and evaluations
- Employee and manager self-service functions

HR Connect is typically used during the pre-employment and early employment phases. Information collected in HR Connect during recruitment and onboarding is interfaced to SAP once hiring actions are finalized, allowing SAP to maintain the official employment record.

System Integration and Data Flow

SAP and HR Connect are integrated to facilitate the automated exchange of employee data. This is currently the process, which occurred during the internal audit, and was fully implemented for the 2025/2026 school year. Key characteristics of the system integration include:

- HR Connect initiates certain employee lifecycle events, such as new hires and job changes.
- SAP receives and stores finalized employment actions and effective dates.
- SAP data is used by other District systems for reporting and operational purposes.

The reliability of the interface between HR Connect and SAP is essential to ensuring data completeness, consistency, and accuracy across the HR systems environment.

Objectives & Approach

Objectives

The objective of this internal audit was to evaluate the adequacy and effectiveness of controls over the recruitment, selecting and hiring, compensation, and termination processes to ensure positions are properly authorized, candidates are selected in a fair and consistent manner, and hiring and onboarding activities comply with applicable laws, School Board policies, and procedures.

Approach

Our internal audit approach consisted of four phases.

Phase 1 – Planning

During this Phase, we collaboratively worked with the Chief Auditor - Task Assigned - to create a risk-based work plan to assist in achieving the above objectives for execution in Phases 2 and 3.

Phase 2 - Understanding and Documentation of the Process

During this phase, we held an entrance conference with key personnel involved with the Human Resources processes to discuss the scope and objectives of the preliminary work plan developed in Phase 1, obtain preliminary data, and establish working arrangements. We reviewed the primary laws, rules and policies that govern the District's Human Resources function within the scope of this internal audit including Florida Statutes, Florida Department of Education Rules, SBBC's Policies and Procedures. We gained an understanding and documented the recruiting, hiring and selection, new hire compensation, and employee termination/separation processes and related sub processes and related internal controls. We conducted interviews with management and staff and documented their respective roles in the processes.

Phase 3 - Detailed Testing & Benchmarking

The purpose of this phase was the execution of the work plan in Phase 1, based on our understanding of the Human Resources processes obtained in Phase 2, to meet the objectives stated above. Our detailed procedures included inquiry, walkthrough, and testing a sample of transactions in assessing compliance and the related internal controls over the steps in the Human Resources processes which included:

Recruiting

- Job Posting and Advertising
- Job Descriptions
- Organizational and Board Approvals

Selection & Hiring

- Candidate evaluation
- Screening
- Interviews
- References and qualifications
- Organizational and Board Approvals
- New hire paperwork

Compensation

- Determination of position compensation
- Initial compensation/negotiation process
- Supplements and stipends
- Salary Grades

Employee Termination

- Final compensation
- State Reporting
- Removal of logical access to systems
- Return of assets

Phase Four – Reporting and Recommendations

We documented our observations and recommendations. We conducted an exit conference with management and have incorporated management's responses into our report. We provided copies of our report to appropriate District personnel.

1. Recruiting - Job Posting Accuracy and Data Alignment	**Rating: Moderate**

Observation

We selected a risk-based sample of 23 job requisitions created between July 1, 2024, through April 30, 2025, covering both instructional and non-instructional positions across various personnel areas and application status categories.

Our review identified the following exceptions:

Job Profile Inconsistencies (3 of 23)
The job profile templates in HR Connect did not include all relevant information when compared to the approved job descriptions maintained in the Job Database.

- Three (3) Campus Monitor Positions

Minimum Qualification Discrepancies (2 of 23)
Minimum requirements in HR Connect were not updated to reflect the revised and approved job descriptions in the Job Database.

- Technology Support Specialist II
- Information Management Specialist

Missing Compensation Information (5 of 23)
Job advertisements did not include hourly rate or salary information. While this was previously a manual process, the implementation of the Token system has automated this step; however, existing job profiles in HR Connect have not been consistently updated to reflect this enhancement.

- Three (3) Campus Monitor Positions
- Secondary School Counselor
- School Social Worker

These inconsistencies increase the risk of non-compliance with District policies, reduce transparency in the recruitment process, and may lead to confusion among applicants and hiring stakeholders.

Recommended Action

We recommend that management strengthen controls over the job requisition and posting process by:

a) **Standardizing Data Alignment**
Ensure that all job profiles in HR Connect are reviewed and aligned with the approved job descriptions in the Job Database, including roles, responsibilities, and required qualifications.

b) **Implementing Update Controls**
Establish a formal process to promptly update HR Connect job profiles whenever job descriptions are revised and approved.

Observations Matrix

1. Recruiting - Job Posting Accuracy and Data Alignment Cont.	**Rating: Moderate**

c) **Enhancing System Utilization**
Require talent aquisition staff to review and update existing job profiles to ensure salary/hourly rate information is accurately reflected, leveraging the automated Token functionality.

d) **Periodic Monitoring**
Implement periodic quality assurance reviews to verify completeness and accuracy of job postings across systems.

These actions will help improve data consistency, ensure compliance with policies, and enhance transparency and effectiveness in the recruitment process.

Management Response

Management agrees with the recommendations and has taken corrective action to address these inconsistencies. Over the past year, Compensation and Budget have reviewed each job class tied to a job profile to ensure that every job description is linked to a unique job class and position record. This project is expected to be completed by June 30, 2026. A unique job class ensures that position attributes, such as salary or hourly rate, are accurately integrated into HRConnect. Because HRConnect has character limitations that prevent the full job description from appearing in the posting, the vendor's solution is to provide a link to the job description database using a unique code. Candidates can use that link to access the complete job description.

To strengthen controls, Budget, Compensation, and Talent Acquisition implemented a process that outlines the required action steps after a job description is approved or amended. The Talent Management systems team also runs reports to verify the completeness of job postings, address identified issues and provide training to impacted staff as needed.

2. Recruiting – Veterans Preference	**Rating: High**

Observation

We reviewed all 23 job requisitions in our sample and identified five (5) positions, encompassing nine (9) employees, where applicants claimed Veterans' Preference. For these five instances, we performed detailed testing and noted the following exceptions:

Missing Required Documentation (1 of 9 employees)
One instance where a DD Form 214 (Certificate of Release or Discharge from Active Duty) was not obtained to support the applicant's eligibility for Veterans' Preference.

Lack of Interview Documentation (4 of 9 employees)
In four instances, interviews conducted for applicants claiming Veterans' Preference were not documented, limiting evidence Veterans' Preference requirements were properly considered during the hiring process.

These issues increase the risk of non-compliance with Florida Statutes related to Veterans' Preference and reduce transparency and auditability of hiring decisions.

Recommended Action

We recommend that management strengthen controls over Veterans' Preference compliance by:

a) **Requiring Verification Documentation**
Ensure required documentation (e.g., DD214) is obtained and retained before granting Veterans' Preference.

b) **Documenting Interview Processes**
Require consistent documentation of all interviews, particularly for applicants claiming Veterans' Preference. This also includes the storing of materials related to the interviews.

c) **Enhancing Training**
Provide targeted training to HR personnel and hiring managers on Veterans' Preference requirements.

d) **Implementing Compliance Monitoring**
Perform periodic reviews to confirm adherence to documentation and interview requirements.

These actions will help improve data consistency, ensure compliance with policies, and enhance transparency and effectiveness in the recruitment process.

2. Recruiting – Veterans Preference Cont.	**Rating: High**

Management Response

a) Management has implemented procedures to ensure the District complies with veterans' preference rules and guidelines. With the implementation of HRConnect, the process was enhanced to make it easier to identify veterans and review the required supporting documentation, including DD214. Locations were trained on how to identify veterans and verify the required documentation.

b) Interview Documentation: HRConnect uses pipelines to track candidates throughout the recruitment process. Locations are required to follow established procedures for candidates in the interview pipeline. They have also been reminded that all interview-related documents for every candidate must be retained for four years.

c) Training: With the implementation of HRConnect, all training materials were updated and posted on the HRConnect Resource Hub/SharePoint. In-depth training was also provided at launch in July 2024, and monthly collaborative sessions continue to be offered.

d) Compliance Monitoring: Talent Management has implemented compliance monitoring to ensure veterans' preference rules are consistently applied.

3. New Hires – Drug Testing	**Rating: High**

Observation

We selected a risk-based sample of 23 new hires for the period July 1, 2024, through April 30, 2025, and noted that two employees did not have evidence of a completed drug test. The lack of evidence increases the risk that pre-employment drug screening procedures may not have been consistently performed or documented in accordance with established requirements. The lack of evidence also increases the risk of non-compliance with District hiring policies and may result in inconsistencies in the application of pre-employment screening procedures.

Recommended Action

We recommend that management strengthen controls over pre-employment drug testing by:

a) **Requiring Documentation Prior to Hire**
Ensure that evidence of completed drug testing is obtained and documented before finalizing the hiring decision.

b) **Standardizing Record Retention**
Implement a consistent process for retaining drug test results or confirmations within employee personnel files.

c) **Enhancing Review Procedures**
Establish a review control to verify that all pre-employment requirements, including drug testing, are completed and documented prior to onboarding.

d) **Providing Training**
Provide guidance and training to HR personnel on documentation requirements and expectations for pre-employment screening.

These actions will help improve consistency, ensure adherence to District policies, and strengthen overall hiring controls.

Observations Matrix Cont.

3. New Hires – Drug Testing Cont.	**Rating: High**

Management Response

Management acknowledges that drug testing was not completed for selected candidates in these specific non-instructional positions. However, the applicable departments did comply with random drug screening requirements for affected employees.

Once the issue was identified during the audit, Talent Acquisition immediately took corrective action and implemented steps to ensure compliance.

All recommendations have been implemented. Talent Acquisition now coordinates with the hiring location and Risk Management to confirm that drug test results are completed and uploaded to the recommended candidate's file. No candidate will be approved until those results are received. All applicable staff and departments have also been provided training and written guidance.

4. Employee Termination – Notification Documentation	**Rating: Moderate**

Observation

We selected a risk-based sample of 23 terminated employees, including instructional, non-instructional, and administrative personnel, for the period of July 1, 2024, through April 30, 2025. We performed detailed testing to assess compliance with District policies related to employee separation procedures. Based on our testing, we noted the following exceptions:

Board Notification Deficiencies (5 of 23 employees)
In five instances, Board notification of termination was not provided to demonstrate proper approval or oversight of the separation.

Incomplete Employee Notification Documentation (2 of 23 employees)
In two instances, the resignation letter, termination notice, or related employee notification documentation was not sufficient or properly maintained.

These issues increase the risk of non-compliance with District policies and reduce transparency, accountability, and auditability over employee termination processes.

Recommended Action

We recommend that management strengthen controls over employee separation procedures by:

a) **Enhancing Board Approval Controls**
Ensure terminations are properly documented and included in Board agenda items with clear, sufficient detail to evidence approval.

b) **Standardizing Documentation Requirements**
Require complete and consistent retention of all resignation letters, termination notices, and supporting documentation within personnel files.

c) **Implementing Review Procedures**
Establish supervisory or HR review processes to verify that all required documentation and approvals are completed prior to finalizing separations.

d) **Providing Training**
Provide training to HR personnel and administrators on required termination procedures, documentation standards, and Board reporting requirements.

These actions will help improve compliance, strengthen internal controls, and enhance the accuracy and completeness of employee separation records.

Observations Matrix Cont.

4. Employee Termination – Notification Documentation Cont.	**Rating: Moderate**

Management Response

Management has implemented measures to improve consistency, timeliness, and reporting accuracy in the termination process, strengthening compliance and accountability. With the implementation of HRConnect, all terminations are now processed through a single department, eliminating prior inconsistencies. This centralized approach improves tracking and helps ensure the appropriate documentation is attached to each action and aligned with the corresponding Board action.

5. Employee Termination – State Reportable	**Rating: Moderate**

Observation

We reviewed all employee terminations in the sample, when applicable, for state reportable requirements, including the filing of Statements of Good Faith and completion of the Affidavit of Separation (DQ-6) form.

Statement of Good Faith

Section 1012.796(1)(d), Florida Statutes, requires each school district to "file in writing with the department all legally sufficient complaints within 30 days after the date on which subject matter of the complaint comes to the attention of the school district. A complaint is legally sufficient if it contains ultimate facts that show a violation has occurred as provided in s. 1012.795, F.S. and defined by rule of the State Board of Education. The school district shall include all information relating to the complaint which is known to the school district at the time of filing."

Affidavit of Separation (DQ-6)

Section 1012.31(2)(a), Florida Statutes, requires the execution of an Affidavit of Separation by a school district when separation of an employee is due to termination or resignation in lieu of termination. The statute requires that the affidavit describe the reasons for separation and disclose when the separation is due to a report of sexual misconduct with a student.

During our review, we noted that while procedures exist, the overall process for identifying and reporting state reportable terminations is not clearly defined or consistently understood across departments. Specifically, responsibilities for identifying and evaluating reportable terminations span multiple departments, including Human Resources, the Office of Professional Practices (PPS), and the Police Department, among others. Determining whether a termination met state reporting criteria required multiple discussions with various personnel, and in all instances inquired, it was indicated that the terminations did not qualify for reporting. Due to the cross-functional nature of the process and lack of clearly documented criteria and procedures, there is an increased risk that reportable incidents may not be identified, documented, or reported timely in accordance with applicable requirements.

These conditions reduce transparency, create inconsistencies in the process, and increase the risk of non-compliance with reporting requirements.

Observations Matrix Cont.

5. Employee Termination – State Reportable Cont.	**Rating: Moderate**

Recommended Action

We recommend that management strengthen controls over state reportable termination processes by:

a) **Clarifying Roles and Responsibilities**
Clearly define and communicate departmental responsibilities for identifying, evaluating, and reporting terminations that may meet state reporting criteria.

b) **Further Documenting Standardized Procedures**
Enhance and further document formal, written procedures outlining the end-to-end process for evaluating terminations, including required documentation, decision criteria, review steps, and timelines.

c) **Establishing Clear Criteria**
Provide clear guidance and reference materials to assist all personnel in determining when a termination qualifies as reportable, including examples and decision frameworks.

d) **Centralizing Oversight**
Designate a responsible function (e.g., HR or PPS) to perform a final review of all terminations to ensure reportable cases are properly identified and filed.

These actions will help improve consistency, ensure timely and accurate reporting, and strengthen overall compliance and accountability within the termination process.

Management Response

In 2024, The HR Division created a Professional Standards Department. This Department coordinates all discipline and termination. This realignment has removed the disconnect of several departments handing discipline and corrective action. The procedures and process for terminating an employee has been documented and training provided to departments and staff. In addition, monthly Board review meetings occur immediately following the Board meeting to ensure all actions and documents have been collected and distributed to appropriate entities.

6. Employee Termination – Return of Assets	**Rating: Moderate**

Observation

We selected a risk-based sample of 23 terminated and separated employees, including instructional, non-instructional, and administrative personnel, for the period of July 1, 2024, through April 30, 2025. We performed detailed testing to assess internal controls over the return of District-issued assets (e.g., computers, keys, badges). Based on our testing, we noted the following exceptions:

Missing Asset Returns (3 of 23 employees):
In three instances, required assets were not returned upon separation, including two instances involving employee badges and one instance involving keys.

Additionally, we noted that responsibility for tracking and confirming the return of assets is not centralized. Verification required multiple follow-ups by HR and Internal Audit with individual schools and departments, and responses were primarily obtained through email after several communications.

These conditions reduce accountability and increase the risk of asset loss and incomplete records.

Recommended Action

We recommend that management strengthen controls over the employee separation asset return process by:

a) **Implementing a Standardized Checklist**
Develop and require the use of a formal separation checklist to document all assets assigned to employees and confirm their return prior to final separation.

b) **Centralizing Tracking and Documentation**
Establish a centralized system or process to track issued assets and their return status, accessible to HR and relevant departments.

c) **Defining Roles and Responsibilities**
Clearly assign responsibility to specific departments or personnel for verifying and documenting the return of assets during the separation process.

d) **Requiring Timely Verification**
Implement procedures requiring confirmation of asset return prior to finalizing termination processing, including escalation protocols for missing items.

These actions will help improve accountability, reduce the risk of asset loss, and enhance the completeness and reliability of separation records.

6. Employee Termination – Return of Assets Cont.	**Rating: Moderate**

Management Response

Management agrees with the report's recommendations and recognizes that stronger accountability measures are needed to reduce the risk of asset loss.

a) HR will work with each division to ensure the standardized checklist is used whenever an employee separates from the District.

b) A centralized tracking system is not currently in place, and each location remains responsible for monitoring employee assets. The District plans to implement a new ERP system in the near future, and the need for centralized asset tracking has been identified as a high priority.

c) HR will partner with the department responsible for property management and asset control to update procedures and guidance for tracking assets.

7. Employee Termination – System Access	**Rating: Moderate**

Observation

We inspected a risk-based sample of 23 terminated and separated employees, including instructional, non-instructional, and administrative personnel, for the period of July 1, 2024, through April 30, 2025. We conducted testing to verify that employee access to systems (e.g., email, databases, and core systems) was revoked on or before the termination date. The District utilizes an automated process whereby an iForm is completed in SAP, triggering updates to employee status. This status change feeds into the Identity Management System on an hourly basis, which disables accounts in Active Directory when an employee is marked as "withdrawn." Disabled status is then synced to Microsoft Azure, preventing system access. Microsoft Azure is a cloud-based platform that provides identity and access management services, enabling centralized control and enforcement of user authentication and system access across connected applications.

We were provided with screenshots demonstrating an example of how a termination is processed through the system and how access is removed. Based on this, we requested the iForm for all employees in our sample to compare the date the form was completed to the respective termination date. However, we noted that in 14 of the 23 instances, the iForm was not completed, as those terminations were processed manually by HR. Additionally, due to system log retention limitations, we were unable to validate access removal timing for all sampled employees.

As a result, we were unable to verify that access was revoked on or before the termination date in all cases.

Recommended Action

We recommend that management strengthen controls over access deprovisioning by:

a) **Extending Log Retention**
Enhance system log retention periods to ensure sufficient history is available for monitoring and validation of access revocation timing.

b) **Standardizing Termination Processing**
Require consistent use of the iForm or equivalent standardized process for all terminations, including those processed manually, to ensure a complete audit trail.

c) **Implementing Monitoring Controls**
Establish periodic reviews or automated reports to verify that access is disabled timely based on termination dates.

d) **Enhancing Documentation**
Maintain clear documentation evidencing the date and time of access removal for each terminated employee.

These actions will help improve transparency, strengthen internal controls, and ensure timely and consistent removal of system access.

7. Employee Termination – System Access Cont.	**Rating: Moderate**

Management Response

Management agrees that there were inconsistencies in the termination and separation process in ECC/SAP when iForms were used; however, those issues have been resolved with the implementation of HRConnect. In HRConnect, iForms are no longer used, and terminations are processed immediately upon submission with no workflow delays.

Employee access to systems such as email and databases is removed within 24 hours. Information Systems also runs scheduled integrations with HRConnect to ensure separated employees no longer have access. This report includes the dates access was removed.

8. Employee Records Storage	**Rating: High**

Observation

During our procedures, we noted that employee-related documentation and supporting records are maintained across multiple locations, including individual schools, departments, and various functional areas throughout the District. While a centralized Human Resources function exists, key processes involve multiple departments, resulting in information being stored in separate and, in many cases, manual or paper-based formats.

As a result, obtaining necessary documentation requires multiple requests, follow-ups, and coordination with different personnel, with responses often provided through informal means such as email. The lack of centralized and electronic storage of records reduces the efficiency of information retrieval and increases the risk that documentation may be incomplete, inconsistent, or not readily available when needed.

These conditions reduce transparency, hinder timely access to critical information, and increase the risk of non-compliance with District policies due to inconsistent recordkeeping practices.

Recommended Action

We recommend that management strengthen controls over record management and documentation practices by:

a) **Centralizing Documentation Storage**
Implement a centralized system for storing employee-related records to ensure all documentation is maintained in a single, accessible location.

b) **Transitioning to Electronic Records**
Reduce reliance on paper-based processes by digitizing records and maintaining documentation in a secure electronic format.

c) **Standardizing Recordkeeping Requirements**
Establish consistent requirements for documentation retention, including what records must be maintained, where they should be stored, and timelines for retention.

d) **Defining Roles and Responsibilities**
Clearly assign responsibility for maintaining and updating records to ensure accountability across departments involved in HR-related processes.

e) **Improving Accessibility and Retrieval**
Ensure that authorized personnel can easily access necessary documentation in a timely manner for operational, compliance, and audit-trail purposes.

These actions will help improve efficiency, enhance transparency, and strengthen overall internal controls related to record management.

8. Employee Records Storage Cont.	**Rating: High**

Management Response

Management agrees that improvements are needed to increase the efficiency of employee records storage. The District plans to implement a new ERP system soon, and digitizing employee records through a centralized repository has been identified as a high priority. Until that system is in place, locations will be reminded of proper records retention requirements.

SUBJECT: MANAGEMENT RESPONSE TO INTERNAL AUDIT OF HUMAN RESOURCES FUNCTION MAY 2026

The Human Resources Department appreciates the internal audit and values the opportunity to strengthen its processes through continuous improvement. During the 2024–25 reorganization, the Division recognized inconsistencies and opportunities to streamline operations. As a result, the Instructional and Non-Instructional Staffing Departments were combined into a single Talent Acquisition Department under one leader. This realignment helped address inconsistencies and implement solutions to close gaps identified in the report. In addition, the implementation of HRConnect, a new human capital management system that includes applicant tracking, recruiting, and onboarding, has helped resolve several process gaps. Management agrees with the report's recommendations. Overall, the audit confirmed that a control environment is in place, and Human Resources remains committed to strengthening organization, standardization, and execution to support more effective and consistent operations.

1. Recruiting – Job Posting Accuracy and Data Alignment

Management agrees with the recommendations and has taken corrective action to address these inconsistencies. Over the past year, Compensation and Budget have reviewed each job class tied to a job profile to ensure that every job description is linked to a unique job class and position record. This project is expected to be completed by June 30, 2026. A unique job class ensures that position attributes, such as salary or hourly rate, are accurately integrated into HRConnect. Because HRConnect has character limitations that prevent the full job description from appearing in the posting, the vendor's solution is to provide a link to the job description database using a unique code. Candidates can use that link to access the complete job description.

To strengthen controls, Budget, Compensation, and Talent Acquisition implemented a process that outlines the required action steps after a job description is approved or amended. The Talent Management systems team also runs reports to verify the completeness of job postings, address identified issues and provide training to impacted staff as needed.

Management has implemented procedures to ensure the District complies with veterans' preference rules and guidelines. The following pages are excerpts of the draft minutes of the Audit Committee Meeting of June 18, 2026 that are specifically related to Internal Audit of Human Resources Function.

The complete minutes, which include Committee discussion on matters not related to this item, are scheduled for Committee discussion and approval at their next scheduled meeting on July 16, 2026.

And, Mr. Magli, do you want to introduce our -- Mr. Broline?

MR. MAGLI: Yes, thank you. Here with CRI for us today are Rob Broline and Mark Smith who work with our staff and key staff from the district to analyze this particular - the components of this audit, which is a review of several -- to review the adequacy and effectiveness of the controls over recruitment, hiring, onboarding, compensation and termination processes. So I will allow him to kind of introduce himself.

MR. BROLINE: Thank you. So I'm Rob Broline, the overall engagement partner. You guys have seen me many times. Some of you are new faces. I see some new faces on the audit committee. It's nice to meet you all. I'll let Mark introduce himself.

MR. MARK SMITH: I'm Mark Smith, partner with CRI. I worked on this audit with the OCA team and the district.

MR. BROLINE: So, as Mark pointed out, I'm just going to in terms of page reference, I'm on page 2, we summarize the overall, give you kind of a high-level view of our internal audit. It

was, as Mark pointed out, very comprehensive in covering all the key processes related to the human resources function. And, as he said, just to emphasize from, really from, you know, as we say cradle to grave, recruitment and hiring onboarding, certain aspects of compensation. Obviously, there's a lot in there. You've had reports very focused on payroll, so we look at certain aspects of that not of all of the compensation, that's its own whole internal audit, itself, and then also employee separation. We did a look at such things as to make sure that, looking at the controls related to those processes, also looking at compliance with the applicable school board policies, collective bargaining agreements, which are many, and the applicable Florida statutes and federal laws.

It is a centralized system and HR -- with HR and they do have standardized procedures to oversee this function. And then looking now, I just want to emphasize, as well, I'm looking at the third paragraph on that page in the Overview, it's important because there was a change that took place during our internal audit. They do use an integrated Human Resources Information

System, HRIS is the acronym, to support the workforce management, personnel administration, and related HR operations. But the primary system in support of these functions are SAP SuccessFactors and HR Connect. So these two together support the full employee lifecycle that we looked at, including payroll processing, the benefits reporting and all those downstream integrations.

Finally what I want to point out here is that during the internal audit the district transitioned to HR Connect, which was fully implemented for the 25-26 school year. So based on where we started our process engagement, the audit scope period covered the activity prior to that transition. However, in order to also, you know, to have that as part of our coverage, the testing procedures were performed after the implementation of HR Connect and therefore relied upon this transfer that took place of data to HR Connect and retained in previous systems and/or departmental shared network drives as applicable. So there was a lot of data moving around in different places. That sounds like maybe a common theme there. And our objective there was

to look at the control environment and look for compliance as it relates to each of these processes. And that's what our objective says.

So then going to page 3, and so you see we have a total of eight observations, you see the risk ratings there. We had one, two, three, four, five moderates and three highs. And we just make a short blurb there, obviously, later in the report, as you know, as we get into the details of what the nature of each of those observations, you can see though in what areas, we had two in recruiting, one in new hires and several related to employee termination. And then finally we had one related to records storage.

And so summarizing there you see we have a high, moderate and low scale and that has to do with prioritization; okay? It doesn't mean, you know, oh, my goodness, it has to be addressed today or tomorrow, but from a prioritization standpoint these are the ones we're saying are more critical in being addressed as soon as feasible that the management seeks to implement their responses and their corrective actions. And in looking down there we give you the

definitions of what each of those -- in terms of our ratings. We do have an overall rating that we come to. You see we have definitions of what constitutes satisfactory, needs improvement, unsatisfactory.

Satisfactory means that all controls in place appear to be working properly. They're achieving those objectives that we would expect them to achieve and providing for an effective internal control.

Needs improvement means we've identified some weaknesses, some findings and some issues that are of the nature to render the system and internal controls ineffective, but not so much as to end up to be unsatisfactory, but they fall under the category of needs improvement.

And, of course, unsatisfactory, the significance of what we found would deem to then render the system and the controls as a whole for this function as being ineffective.

You see then where we landed on the results of our procedures was that the function we judged to be needs improvement to achieve those objectives and to comply with the laws, rules and regulations in terms of effective controls.

Now, we give rationale for that, which I want to point out to you. So, what we're saying is, while processes are in place, it's important to emphasize that, there were -- processes are in place and controls across recruiting, hiring, compensation and termination, those processes we looked at, as noted above, several observations we did identify gaps and how consistently those processes associated and the controls related to that are in effect. And we give kind of a summary really of what we detail below and we want to emphasize, and this is how I think we would say it's landed on needs improvement as opposed to unsatisfactory is, and here's the rationale for that. Many of the issues or observations noted were related to documentation, recordkeeping, and just the decentralized nature of activities across multiple departments and systems. This contributed into the inconsistencies and some of the execution gaps that we noted below. Also, some of those higher-risk observations we noted related to compliance record management and further highlight the need to improve that consistency and oversight.

So we, overall then we're saying the control environment is in place, however, there are enhancements in organization, standardization, and execution in order to support and kind of rise that level we would judge to be an effective and consistent control structure; in other words, to get to satisfactory.

And as I said, below then in the detail, the observation, in the observation matrix, we have the detail of each of those observations.

We summarize on page -- pages 5 and following, there you can see it outlines the different testing attributes we applied to each of those areas. And so you can see those. I will not read those. And then you've read the report, and what we did there is you can see there in a very transparent way, here's the attribute we tested within these areas and here is whether we had an observation or whether our testing resulted in no exceptions. And you can see that's what's put in front of you as you move through pages 5 and 6, really all the way through, all those processes through page 9.

Now, I can go in into -- if you like I can go into, I'll have my colleague go into just kind of

highlight, drop down and look at the observations themselves and kind of highlight those for, if you'd like, spend a little time doing that, and, of course, obviously, answer any questions you would have, whatever would be your preference. Happy to proceed how you'd like.

MS. FERTIG: What's your preference? Are you all -- do you have a list of questions; do you want to start with those?

MR. MAYERSOHN: Yeah, I'm comfortable just going with -- I mean, we got a general overview, which is very helpful. I think it's just a matter of questions and answers.

MS. FERTIG: Actually, at this time I was wondering if I could -- if everybody's agreeable, we'll start with the attributes and the -- and just go down page number by page -- start at the beginning and work through. Is that good with everybody? And if you have a comment --

So I'm going to start on page 5. Thank you, this is great. And it's very easy to follow, so thank you for that.

MR. BROLINE: You're welcome.

MS. FERTIG: We can start on page 5 or I can start in the back, whichever way you all want to

do it, but why don't we just start with -- I was going to say I could also go to page -- I'm looking to see what the first one is. I think it's 15, but, no.

Start on 17 or 5, anyone have any comments on the observation? Well, let's just start on the observations on page 17. Any comments on page 17 through 18?

MR. MAYERSOHN: I mean, I guess my only question is, going back here to page 33, it says the project is expected to be completed by June 30th, 2026, that's for Management agrees with the recommendation, and they're going to complete, obviously, any gaps by June 30th, 2026. Is that on target?

MS. TYGHTER: Yes, we're on target, our compensation team and working with budget to make that correction.

MR. MAYERSOHN: Okay.

MS. FERTIG: Okay. I'll go to number 2 on page 19; any questions; comments?

MS. RABIDEAU: I do.

MS. FERTIG: Yes, go ahead. One of you two go ahead.

MR. THIRUVENKEDAM: On page 19 that is a

section of Lack of Interview Documentation 4 of 9 employees, which is like almost 50 percent, when I see the same, like, you know, whenever the rating is high I'm looking into those numbers, if there is anything documented, like whether those gaps are now fixed subsequently for those employees are still pending? So we are seeing some recommendations, but it looks like in general for the future, but whether the existing ones are fixed? Like I'm talking about -- not just talking about the Veterans' Preference as well as the existing, also?

MS. TYGHTER: We're addressing it with the location. So just for clarity, you're asking if the interview documents from the four people that were identified in the audit, if we're making sure the locations follow up and have the documents for the reported amount of time; yes, we're following up to make sure that they indeed reconcile and have those documents on file.

MR. THIRUVENKEDAM: Okay. Thank you.

MS. RABIDEAU: Yeah, this is sort of the same thing, but just maybe framing it a little bit differently. What assurance do we have, I know we have outlines of Management response on the

same Veterans' Preference question, but, you know, Veterans' Preference, that's a legal compliance situation there, so I just want to make sure that if something can be brought back to us just to show that the Management response and if some of it says it was implemented, but this ongoing monitoring of it, I want to be sure that we're making sure that the Veterans' Preference is being honored, especially with the changes to the new system.

MS. TYGHTER: Yeah, so already in the process of this audit we hold monthly trainings with our locations, both our school-based locations and our district departments. In fact, we just had one yesterday with our school locations. And even though the hiring, depending on what's happening within the time period might be -- the session might be location specific because there is different hiring needs at different times, we share all of that information. And so we try to target our training in smaller groups and update our centralized HR SharePoint sites where the most related information is there. In addition, the HR Connect system now allows each hiring manager and the supervisor to enable Veterans'

Preference in a more user-friendly way. So to the previous point about using the digital tools and kind of shying away from paper, all of those things now have to be uploaded by the veteran, every applicant has to be screened. So in the process of the audit we were already implementing those changes and now have the checks and balances to go back. And if a location, by some chance, because there's human error, misses, when it comes to Talent Acquisition and we're verifying the hiring process, we can now direct to go back and we've actually had to stop one or two because we've gotten much better. So all of those processes are in place and the technology tools are helping us to help the humans have a better accuracy rate.

MS. RABIDEAU: I love hearing that about technology. Thank you.

MR. MAYERSOHN: So just -- just as a follow-up to the training aspect of it, is it it's required training?

MS. TYGHTER: Yes, it's required training and it's also recorded for those who might not be there.

MR. MAYERSOHN: Okay. So if somebody misses

it they can go back?

MS. TYGHTER: Yes.

MR. MAYERSOHN: Is that held in some database where they can go back every two months if they're not sure and revisit the, whether it's a tutorial, or a talking head, or whatever it may be?

MS. TYGHTER: So all of our training is done on Teams, just in terms of just maximizing efficiency and also having the capability to record and then using the AI tools to also provide a summary and follow-up tasks. So the trainings are recorded where all of the departments and school locations are in a centralized team that all of the training recordings are there for perpetuity that they can go back. We also send out an email because we know everybody's schedule is busy. So after the training wraps and we kick all the people out of the Teams meeting, because people forget and they linger, we send a recording to everyone that was required to be there. So we have multiple ways to ensure that. And we also involve the chiefs to say, please, reiterate that if somebody was absent so we can go back and also check

attendance logs.

MR. MAYERSOHN: And do you develop a list of FAQs?

MS. TYGHTER: Yes.

MR. MAYERSOHN: Okay. Okay.

MS. RABIDEAU: Can I follow up really quick?

MS. FERTIG: Yeah.

MS. RABIDEAU: So you're saying that everyone -- you're making sure that they get it; right? But is there also a control mechanism to see, like an attestation of some sort or like a Quizlet at the end of this training to show that they've mastered and understand the content of this?

MS. TYGHTER: There's no quiz, usually. We do some Q&As during the training to reiterate, and so we'll pause. We have an extensive Q&A session at the end of the training, but there's typically not a quiz, because we cover so many various topics.

Michael wants to add something.

MR. SALMERI: Good morning. Michael Salmeri. I also wanted to add in the enhancement of our recruiting system from SuccessFactors to HR Connect we did a Broward launch of having

representatives from the district, they're called HR Connectors, that also help out office managers, hiring managers, to understand the new system. And there is a repository in the district called the HR Connect Resource Hub that outlines different processes, different actions to complete these actions which also include for the recruitment pipeline to train people on how to make sure and ensure that Veterans' Preference is turned on for every single requisition application they go through to ensure that the screening hiring managers are going through the screening process and ensuring that all candidates and veterans are screened properly.

I just wanted to put that out there as well. So they have that resource to them available at any time.

MS. RABIDEAU: Thank you. That's helpful. I just want to make sure that there's still an outreach element and, you know, attestation somehow of you're making sure that they're understanding fully. If that's, you know, one on one, that's great.

MS. TYGHTER: Yes. Absolutely.

MS. FERTIG: Okay. I'm going to go to number

3 on page 21. Anybody?

MS. THEOPHIN-ATILUS: I'm sorry, can I -- I'm so sorry. You didn't see me when I raised my hand; if I could go back a little?

MS. FERTIG: Oh, I'm sorry, go ahead.

MS. THEOPHIN-ATILUS: HR Connect, kind of like what Bob said -- asked with the software and each person has their own -- each employee has their own login and whatnot. And what I see that -- well, first, are you guys transferring all documents to HR Connect to make it electronic based or we're still going to have to paper, we're going to be hybrid, paper on old files? Because it did -- the audit did show that we're missing resignation letters, termination, incomplete notifications, all of that was found in the audit. And then also there's an error in the details of job postings. But, regardless, with HR Connect, if I have my login, let's just say, you know, I got reprimanded for something, will the status and also the documentation of what I got written up for be able to be viewed by me in my HR Connect? And then, again, just the fact that things are missing, are you guys going to turn everything into the -- bring everything

to the HR Connect software or is it going to be hybrid?

DR. LOZANO: So that's why we're looking at -- again, Dr. Lozano, Chief Human Resources Officer, we never bought, when we bought the original 20-plus years ago, every module. So the corrective action process is handled through Professional Practices and that's -- there she is, and that's not part of HR Connect; right? So that's not a module we purchased as a district as part of the ERP system. And that's, again, while we talk about there is decentralized pieces because HR Connect we didn't purchase to handle every function like that, so all those different systems read together and an employee goes in and has a comprehensive view of everything, to your point, if they ever had a corrective action or anything like that. So we do house the corrective actions, but they're housed in the Professional Practices department. And these are all the conversation we're going to have in the next few months when we look at the new ERP system and what is critical as part of it and what pieces may not be. Because, you know, each module has a cost and we have to decide as a

district how we're going to move forward with the next iteration of ERP.

MS. THEOPHIN-ATILUS: Thank you for that. And I'll just once again say what Bob said. We really need to get electronic. Because we're really wasting a lot of money doing it like this. And so, therefore, again, if I have a corrective action plain, I should be able to log into my HR Connect and view it. You know, it's things like that. And with us not doing that, we're really -- like Ms. Johnson says, we're a ship. I mean, we're sinking. Our ship is sinking. So it's -- you know.

MS. FERTIG: What would be the rationale for having those in two different locations?

DR. LOZANO: So, again, we didn't purchase the module to handle corrective action.

MS. FERTIG: I mean, you can't go back and look at what somebody else was thinking, but --

DR. LOZANO: If we don't --if we don't have it we have to build our own system to monitor the corrective action processes and document it. So when we originally went out to bid that wasn't part of the scope, the module for corrective action, so that was never a piece of what the

district purchased in the old ERP systems.

MS. FERTIG: Okay. All right. So now we're on -- we are on page --

MR. GILBERT: Madam Chair, I had one question before we move on.

MS. FERTIG: I'm sorry. I'll let you go. Just yell out.

MR. GILBERT: Yeah, I know. We're going to keep it moving. I just had one question. With the Veterans' Preference, is there any known current open items regarding someone who reaped the benefit or was denied the benefit of the Veterans' Preference in the hiring process that you all are working through? Is there any current open items to be aware of?

MS. TYGHTER: On every recruitment there is detailed screening to make sure that if a veteran applies that the Veterans' Preference guidelines are implemented.

MR. GILBERT: Okay. Because -- that's what I'm saying. Because from reading the outline it's saying that there was a lack of documentation to support that status. That's why I asked. Because, again, if someone got hired but did not have the supporting documentation for

their status, is that an issue? Or if someone who is legitimately a veteran but somehow was remitted from the process but they're documentation is present, that's why I was asking.

MS. TYGHTER: So if we missed someone and they submit their documents we would correct it. But right now there is no pending outstanding issues of that nature.

MR. GILBERT: Appreciate it. Thank you.

MS. FERTIG: Okay. Page 20. Are we good to go to number 3, page 21?

Okay. Anything? Anybody?

(No response.)

MS. FERTIG: Okay. I'm going to go to number 4, Employee Termination Notification Documentation on page 23; any comments; questions?

(No response.)

MS. FERTIG: Okay. Number 5, Employee Termination - State Reportable on page 25; any questions anybody?

(No response.)

MS. FERTIG: Okay. Employee Termination - Return of Assets on page 27?

Yes, Lew, go ahead.

MR. NAYLOR: Yeah. On, where it talked about the missing assets returned it talks about the items, employee badges, computers, things like that. One of the things that we identified during the property audit -- the property audit was we had recommended that there be an audit of the property that that person was responsible for. Should that -- can that be included in here? Is that something that should be included in here? And I think I could defer to the district on that?

MS. FERTIG: Okay. Who's got a -- who wants to respond?

MS. JOHNSON: Can you repeat the question, please?

MR. NAYLOR: Yeah. You know, one of the recommendations we did when we reviewed the property audit at the locations was that there was really no exit audit performed when somebody left the district.

MS. JOHNSON: Laptops.

MR. NAYLOR: Right. So here, though, it looks like they're checking to see if they turned their personal stuff in, but not the items that

they're personally responsible for, which would also help with the property audits.

DR. LOZANO: So it's my understanding a laptop would be part of the asset and they didn't find a case where the laptop wasn't returned. To me, as I read this, the only assets that weren't turned in were employee badges and keys. The district was able to receive the laptops and items that belonged to the district.

MR. NAYLOR: But you didn't review the property that that person was responsible for. Say in a teacher's classroom, you've got printers, you've got --

DR. LOZANO: Correct.

MR. NAYLOR: So my question is, we had already made a recommendation that that audit should be done upon their termination or separation. I don't know if that's something that should be included here or are we holding those two in two different silos; do you see what I'm saying? One is property audit the other one is the termination of an employee.

MS. JOHNSON: I would think that would be in two different silos. Because at the time, teachers, we don't expect them to bring in a

printer, so we don't expect them to leave with one also. So when the -- we're making sure that if someone's leaving the district they're not touching any of our equipment that we audit as far as printers, chairs. Whatever is our property is the district's property does not belong to no individual. So we're not -- what we give to them as ownership is cell phones or it would be a computer, they must turn that into HR before they exit.

MR. NAYLOR: Okay.

DR. LOZANO: She says HR, but she means their site supervisor.

MS. JOHNSON: Right. Or whoever is responsible.

MS. FERTIG: I like the way she keeps passing the baton to you.

MS. JOHNSON: No, I'm just saying that that's part of their exit process.

DR. LOZANO: She loves her principals so she just puts it on us.

MR. NAYLOR: But we're not stipulating that the person has taken them, but she's responsible -- that person is responsible.

MS. JOHNSON: But the principal should be

doing the audit of their classroom when they're leaving. And they should not be leaving with anything that belongs to stay in the classroom as part of our possession. So if a person exits, I don't expect them to be going and taking a box full of computer laptops or anything like that.

MR. NAYLOR: Well, we've had audits where they have not had -- they have not been able to identify in a terminated employee's room where the items went to. So those have been exceptions.

MS. JOHNSON: So we can add that to the checklist that the principals need to be conscious of what's in their actual room.

MR. NAYLOR: Correct. And that's my only suggestion, that maybe we could --

MS. JOHNSON: We can add that. Thank you.

MR. SMITH: And I think we have that -- we have that in a recommendation, look at A and B, of having that checklist when things are assigned so you can track it, and then when they're terminated you should be able to take that and then make sure that you've receive all the keys, laptops, anything else that was issued, and then centrally track it. So during this we had, Raysa

and Michael helped out a lot, having to reach out to all the different schools because they're the ones keeping track of what was returned, what wasn't, whereas it was difficult to just centrally locate, okay, here's a checklist, yep, everything was turned in, it's signed off, that wasn't the case. So that's what the recommendations aim at.

MR. NAYLOR: Okay. But it's not assigned to the employee, it's assigned to the location.

MS. FERTIG: So when a teacher leaves a classroom look around and make sure that what was there when they came is there when they leave is what you're saying. And then we don't get it on your -- on the other report; yeah.

MR. MAGLI: Madam Chair?

MS. FERTIG: Yeah.

MR. MAGLI: So specific to the school locations the principal is the custodian. So if schools are conducting things as certain bulletins and things have guided them to do they would have an accounting of each -- of all assets and high-risk items. It may not include badges and things like that, but the recommendation for a checklist, what we came up with the last time

we had that discussion was whether we had a systemic tracking of that, like say through SAP or something like that, that those assets were put in there. No information I've received has said that that is the case. I was curious myself as to whether that module had ever been implemented and it hasn't. So sort of to what Dr. Lozano says, in some cases they didn't implement that or choose to incorporate that in the module. Relative to each location, they should know what they have at the location and they should recover those things. But a checklist at any level upon exit, but like I said, if someone leaves and let's say it wasn't -- it was a termination or something like that and they're not as likely to sit through, say, an exit conference or go through the final process like somebody who would be retiring would be happy to do, you know, that presents its own problems. But each -- each location -- and department's also, by the way, this is not just schools, so departments, as well, have to be responsible for all their -- their equipment. And they should be tracking everything. So they should know that and they should be cognizant of

what they have and getting about from an employee to the best of their ability. And if, in fact, they don't have cooperation, well, that would be another situation that they might elevate. Or maybe Dr. Lozano would say, I don't know if there is something in place for potentially, or police, I don't know, but we would look to have those locations track that equipment and get it back. Items that are assigned to people should be on an annual property pass, which would be an accounting of what, in fact, is in their possession as a documented version of it; yes, sir.

MR. NAYLOR: But these are items that are not assigned to an individual.

MS. FERTIG: Yeah, I think -- I think Ms. Johnson has -- just add this as another item, take a look around the room.

Yeah, okay. Yes, Bob, go ahead.

MR. MAYERSOHN: So, again, getting back to this electronic age, when I see the word "keys", I mean, it's -- to me everybody should just have a swipe card to get into where they're assigned or whatever it may be. So if somebody doesn't return a, quote-unquote, ID badge that has the

ability to swipe in, you just deactivate it and don't have to worry about chasing them. Again, time, money, effort; all those things. And that's, you know, my own -- again, one person, maybe they have 25 million keys because they're the, you know, head custodian and they happened to leave and you couldn't collect it, but, again, trying to move towards that electronic age I think really solves a lot of these issues of not returning something or whatever it may be. So that's just my two cents.

MS. FERTIG: Yes, Muriel.

MS. THEOPHIN-ATILUS: Again, we're asking for electronics and so -- also for the items to be centralized. But I also want to know, who was responsible for each step, like, if that could be outlined to us? Because a lot of -- a few things were -- there were documentation gaps, which is a compliance risk. And then also, again, the expectations and the storage within HR Connect, if we can get that, you know, centralized with these documents, it would help out.

And then also, like how were there inconsistencies with the drug tests? You know, how is that -- you know, as she mentioned the

Veterans' Preference that's a legal matter, as well -- I'm so sorry, guys. That's a legal matter as well. So, again, if the employee has access to HR Connect to properly upload the documentation that's needed, you know, certification or whatnot, I think that would be something that would be really good. Because right now all these inconsistencies does not look good. Like how do you have inconsistencies on a drug test? A drug test. That's all I'm saying.

MS. FERTIG: Okay.

MS. THEOPHIN-ATILUS: Yeah, I mean, a drug test. Who's responsible for, you know -- yeah.

DR. LOZANO: So, Ms. Tyghter, do you want to talk about what we do with that particular one, with drug testing to follow up and go back and ensure the employees who needed to be drug tested and move them forward, how we tightened up that process, please?

MR. SALMERI: Good morning again. So when we were doing the audit and that was identified we -- as of HR, we immediately rectified the situation to identify the misfalls, what was happening with the screening process of those specific job requisitions that required the drug

and alcohol testing on it. We took immediate action and brought together all of the associated departments, risk management, transportation, to review the job descriptions to ensure that the drug and alcohol testing was required on those and then took immediate action to no longer have those being occurring. So since the audit we have had no other instances of anybody missing the drug and alcohol testing. As well as the risk management department oversees the drug and alcohol testing and I believe in the audit report they have randomizers where they also drug and alcohol test people that were not tested or continue to go through the testing randomly. So those people that possibly could have been missed through the initial hiring have already been drug tested and alcohol tested.

MS. THEOPHIN-ATILUS: Thank you. But I just feel like HR is slipping, because you went back and looked at the drug test that was not done after the audit was complete. That should have been something that was checked off with the steps with the employee. And it makes me wonder if you guys aren't doing, I won't even call it simple, but if you guys aren't following through

with staff drug tests; what about the background checks? Because, remember, that one person that was arrested, because they were contracted and so they would have never passed a background. So if you drop the ball on one, you're going to drop it on two. Hopefully not, but it just seems that way. Or you guys have, actually.

MS. TYGHTER: So we have a multilayered HR process. So based on the various CBAs, job descriptions, and all of our processes in terms of making hiring efficient and getting folks into their positions in the most expeditious way possible, prior to July 1, 2024 HR was divided in terms of instructional and non-instructional staffing. Effective July 1, 2024 Talent Acquisition was created to streamline and ensure that there are more efficient and more accurate processes. In that process our own internal review identified where some of our satellite locations where there is a Talent Acquisition and HR administrator, prior to the combination of the department they were not necessarily receiving all of the updated training and following all of the procedures with 100 percent accuracy. So some of the instances where the situation was

missed was in the previous iteration of what HR looked like. And so we've taken all of that into account. And so we meet frequently in this room to bring all of our satellite locations in. We actually just had a meeting last week where there are new processes, new findings, and doing not only training before we share with the locations with our initiators of the jobs where I can get in the candidates to pipeline, but making sure that what we call our satellite locations that primarily handle those types of recruitments, that they are up to date and as accurate with all of the procedures and following to date everything that needs to be completed. So while there were missed steps and errors, which is not our goal ever, since July 1st, 2024 that we're a merged department, we have regular, consistent internal checks and balances, internal training for our staff to be able to support the administrators that are working on specific bargaining unit hiring and making sure that those errors don't occur in the future.

MS. THEOPHIN-ATILUS: I appreciate that. I just would like to say I still feel as though, I don't -- of course, I can't pin it on one person

but that department was slipping or is slipping. Because, again, I'll reiterate, even for myself as a parent advocate I have to do the ethics training every year or I can't attend a meeting. But, yet, these are things that are slipping that should be checked off and making sure they were done before that staff member's first day. And so it's just something that, you know, I understand you guys are doing internal audits now, but it's definitely something that I feel we need to come back and look at to see, maybe another audit be done or whatnot, but that's something that it just should not have happened, in my opinion as a parent.

DR. LOZANO: We're 100 percent in agreement with you. As the HR department there should never be a time that an employee who needs a drug test starts a job without that drug test. And this staff, this current staff in HR's responsibility and job is to ensure that any job description that requires a drug test prior to start happens or the employee doesn't start. And Ms. Tyghter was trying-- you know, she was explaining how she put processes in place with her team to ensure we're in 100 percent

compliance with that particular task of completing drug testing when it's required prior to employment.

MS. FERTIG: And let me just say, having been on this committee for a while, that one of the things we do with our audits, as we have them, is periodically you're going to see this type of audit, you're going to see audits on P-cards and other things, and that's because over time things do happen and this gives the departments an opportunity to see where they need to increase their training. Often when we get something like this that's one of our recommendations, do training. I can tell you're doing a lot of training, so, hopefully, you're catching those. But as we go along it's important, periodically, and I'm glad you're calling it out, it's important to say, hey, more training on this, and then with time -- you know, in four years you could see them back and something else may have happened. But it's a great opportunity -- I look at audits as a way to make sure we're doing business correctly. So, anyways --

Mariah, did you have something on this one or are we ready to go to 7?

MS. RABIDEAU: Are we on 5 still?

MS. FERTIG: Actually, we were on 6 getting ready to go to 7, but we backed up.

MS. RABIDEAU: Okay. Let me -- I just -- I noticed something on 5 that I wanted to -- I had jotted it down earlier and forgot to ask. So just really quickly, going back to the Veterans' Preference item, I noticed in item number 5 we have listed the statutes, the relevant Florida statutes related to these requirements. I wanted to ask if the next time this was brought we can include the veterans' related statute, federally and state, when we're explaining that? I think that will help give us a picture of when HR says, we're meeting this, are we compliant with the statutes; not just, you know, we're making the process better?

And then the second question, same as Bob, but related to this overall is digital verification, now that we have this great HR Connect system, looking into the digital connection for identification of veterans. Because the VA and the federal system already has a lot of those opportunities instead of just a paper DD-214, which for some veterans can be

challenging to get.

MS. TYGHTER: Thank you.

MS. FERTIG: Okay. We are now on page 29, number 7, Employee Termination - System Access. I see in 14 of 23 instances the form was not completed. Were there questions on this particular finding?

(No response.)

MS. FERTIG: Okay. I'm going to go to number 8, Employee Records Storage.

We're back to the same thing, I just envision storage -- storage containers throughout the county, you know, we've storage facilities and we have a lot of boxes in it. And I actually know that's been true with some things over the years.

So as you're going to this new system can we assume that we could potentially be scanning records in and organizing them and maybe not have so much paper?

DR. LOZANO: So that's another tract the IT department is currently looking at, digitizing recordkeeping. So that's a process that's also underway right now, is moving to a digitized process for these records.

MS. FERTIG: And I have some familiarity with

the price of the storage of records when they're paper and I think it's kind of a national crisis, actually, because it's piled up, so to speak. But, I'm just wondering what the annual cost -- I know this is just -- you don't have to answer this, but what's the annual cost of doing this?

DR. LOZANO: I'm not sure the annual cost but that department has 11 employees that have to manually scan. When we get records requests, because we get thousands of records requests. When people want to purchase a home or this and that and need certain verifications, the number of records our HRSS department has to deal with, maintain, and then provide to other entities is astounding. And it's a definite human capital cost when it's a manual paper process versus having a digitized process for the storage of employee records.

MS. FERTIG: So you have as many people for that as you have for payroll. That's kind of an interesting thing. Okay. Yes.

MR. MAYERSOHN: So is -- is there a maximum statutory limitation on how long you have to keep a record?

DR. LOZANO: Yeah, there's different

classifications of records and there's different years for different types of records.

MR. MAYERSOHN: So have the ones that have expired, let's say it's 10 years for X, Y and Z, have they been purged?

DR. LOZANO: Correct. The district has a process to ensure that happens both at schools and in departments.

MS. FERTIG: Okay. All right. So you're on top of this. You're getting a new system, everything's going to be scanned and the next time we see a report we'll -- okay. Any other comments? Yeah, Mr. Gilbert.

MR. GILBERT: One comment before moving to the records retention. Kudos to you because what I did hear is that what you're doing is a big endorsement for us centralizing a lot of our processes. Because, of course, what we identified on the report was a result of the centralization of that process and then you internally identify those gaps, so, you know, thank you for that. That's letting us know that the process is working and it will be perfected by a centralized process. So that's a huge endorsement to that end.

Regarding the record retention, I know it's forthcoming, so have we started now at least scanning, a bridge, so when it is fully implemented, the in-process is implemented, the transfer can be as smooth versus, let's say, you're scanning for Microsoft but then you're transitioning it over into Apple? So do we have a complimenting process in that in preparation for the --

DR. LOZANO: So that's what the work group is working on right now, to talk about all those specific things to ensure it's a process we can implement that will account for those variabilities of different, you know, documents and different formats and things like that.

MR. GILBERT: Right.

DR. LOZANO: So that's the work group right now that's working on that. And they're also looking at that, I believe, for student records, as well. So it's a comprehensive process right now for both student records and employee records.

MR. GILBERT: Because, again, the size and scale of it, you know, it would be an exercise in futility if what you set up to transition is

noncompliant, they don't speak to each other. So I just want to make sure.

DR. LOZANO: 100 percent.

MR. GILBERT: Okay. Thank you.

DR. LOZANO: Appreciate that.

MS. FERTIG: Okay. Are we ready to transmit? You have recommendations; does someone have a motion? Yes.

MR. MAYERSOHN: Just one -- I'm ready to make a motion to transmit, but just one thing. I do want to thank Dr. Lozano for his diligence, his work, his efforts, all -- and, obviously, as your iteration as you went from A to where you are now, he's been very receptive off-line. Anything I need, any questions I've had, he's not strayed away from saying I can't answer that question, or even if he doesn't know the answer, I'll get somebody to work on it and it's done in a short period of time. So I just want to thank you for that and greatly appreciate it, so --

DR. LOZANO: Thank you.

MS. FERTIG: And to your team, too, and to Ms. Johnson, it's been great. Mark, these are two wonderful, these audits I think are really going to help the district.

MR. MAYERSOHN: So I'd like to make a motion to transmit.

MS. FERTIG: Okay.

MR. NAYLOR: Second.

MR. MAYERSOHN: Without any friendly amendments.

MS. FERTIG: Okay. All in favor of transmitting the Human Resources Function Internal Audit to the board please indicate by saying aye.

COMMITTEE MEMBERS: Aye.

MS. FERTIG: Opposed?

(No response.)

MS. FERTIG: Great. Thank you, Mr. Broline, Mr. Smith, everybody -- everybody from the departments. We are now going to move --

We are now going to move --

MR. BROLINE: You're welcome. Thank you for your time.

MS. FERTIG: Thank you. That was great. And especially, Mark, I mean these two on the same agenda I think was really helpful.

MR. MAGLI: It was a matter of circumstance, but they worked hard with our team and our team really worked to get this through to the end, so

I appreciate that.

MS. FERTIG: Okay. We have the Audit of the Internal Funds of Selected Schools. We are -- we have 40 minutes left and several items, so I'm just going to probably do the same thing with this report. There were exceptions on four locations; as I recall. Let me go to the actual page to make sure I'm right.

MR. MAGLI: Yes, ma'am, there were 40 audits conducted, four audit exceptions.

MS. FERTIG: And I just am going to just quickly call them out, ask if you have a question on that and then we will move on.

Glades Middle; anybody have a comment on that? If not, I have one question. Was there an explanation for how they happened to transfer funds from their account to Broward Education Foundation? And does that happen with other schools?

MR. MAGLI: I'll let Nakia answer that. But I have not seen that happen before, but I'll let her speak to it.

MS. GOULDBOURNE: Nakia Gouldbourne. They did explain that they had done an initial deposit to the vendor for the yearbooks but they had sold

Recommended Action

Approve Change Order #10 which includes 1,088 days.

District-zone Impact: District 5

Impact if the Board Voted Yes or No

-If the Board votes "Yes": The Contractor will be granted 1,088 days of delays that were beyond its control.

-If the Board votes "No": The Contractor will be unfairly assessed for delays and subject to possible liquidated damages.

Construction Contract Summary:

ORIGINAL BASE CONTRACT:	$	7,683,274.87	600 Days
DIRECT OWNER PURCHASE(S):	$	(1,173,479.93)	0 Days
PREVIOUSLY APPROVED CO'S:	$	801,285.58	145 Days
CURRENT CO REQUEST:	$	0.00	1,088 Days
CURRENT REVISED CONTRACT:	$	**7,311,080.52**	**1,833 Days**

Status of Work:

The construction phase is 98% complete. The project is expected to achieve Substantial Completion by January 31, 2027, and Final Completion by March 02, 2027. This is not the final change order for this Project.

Background/History
The scope of work for this project includes safety and security upgrades, ADA restroom renovation, STEM lab improvements, and building envelope improvements.

Change Order Items:
Item #1 – (COI #55) Time Extension Request Due to Canopy for Walkway and E-Curbs: During construction, the Contractor issued a Request for Information (RFI) to resolve a conflict between the conduit and lightweight concrete at Building 2's canopy. Additionally, the RFI's that were issued to address the concealed conditions on Building 6 required AE-directed adjustments. The Architect's subsequent fluid-applied roofing directive, combined with unexpected site conditions and a revised roof directive in Building 6, disrupted the work sequence and delayed substantial completion. (Consultant Error - $0.00; Add 1,088 Days)

Action Plan:
This change order has been reviewed for entitlement by AECOM. The above-referenced Change Order Item, COI #55 was recommended for approval by the Change Order Review Panel (CORP). **This change order is being presented to the School Board for approval because the Superintendent's cumulative change order approval limit (10 percent of the Board approved construction contract) under Policy 8000 has been reached.**

The request for additional time is supported by a Time Impact Analysis (TIA), which has been analyzed and recommended for approval by an Independent Claims Analyst Forensic Scheduler. See Exhibit 3 – Time Impact Analysis (TIA).

The Contractor requested a 1,008-day extension based on a broad grouping of delays, but an independent Time Impact Analysis found that this approach did not accurately reflect the delays that actually controlled project completion; instead, the reviewer applied a critical path analysis and determined that two design-related delay paths - Building 2 canopy and Building 6 E-curbs - continuously drove the schedule through March 2026, resulting in a total impact of 1,088 days, meaning the additional 80 days reflects a more accurate, fully supported measurement of the time the project was actually delayed.

Alignment to 2027 Goals and Guardrails
Business Operations.

Measurable Outcome(s)/Return on Investment
There is no measurable outcome or return on investment associated with this item. This item ensures that the Contractor is granted days for delays that were beyond its control.

Financial Impact
There is no financial impact to the current project budget.

2. Executive Summary

2.1 PCO 55

The Contractor submitted PCO-55 on 30-Jan-26 requesting a 1008-day extension to Substantial Completion (SC) due to multiple delays spanning the full project duration, including, among others, Canopy for walkways - Building 2 and Building 6 E-Curbs, which impacted the overall schedule.

2.2 Analyst Recommendation

The Analyst reviewed the TIA submitted with PCO-55 along with project records, conducted an independent TIA, and recommends,

- Granting an excusable, non-compensable time extension of 1088 days to the Substantial Completion (SC) date;
- Adjusting Final Completion (FC) to 30 days following SC;
- Not granting compensation for General Conditions.

The breakdown of responsibility for this time extension is as follows:

Delay Event	Days	Responsibility
Canopy for walkways - Building 2 and Building 6 E-Curbs (parallel events)	1088	**AE**

2.3 Justification for Recommendation

2.1 **Canopy for walkways - Building 2** (RFI #67, RFI #73, RFI #76, ASI #PC3, PCO #45)**:** This sequence of delay events begins with RFIs addressing conduit/LWC conflicts at the Building 2 canopy, followed by the AE's fluid-applied roofing directive in ASI #PC3, and finally the monetary closure in PCO #45. The entire sequence is on the critical path and a key driver of the SC, and therefore delayed the Substantial Completion by 1088 days. This is an AE delay, as determined by the ORPM, because the original design did not fully resolve coordination requirements between canopy system and roof assembly, which required a revised design.

2.2 **Building 6 E-Curbs** (RFI #37, RFI #75, RFI #92, ASI #21, PCO #49)**:** This sequence of delay events begins with RFIs addressing the concealed conditions on Building 6 (drains, stands, pitch pockets, flashing), followed by the AE's recovery-roof directive in ASI #21, and finally the monetary closure in PCO #49. The entire sequence is on the critical path and a key driver of the SC, and therefore delayed the Substantial Completion by 1088 days. This is an AE delay, as determined by the ORPM, because resolving the uncovered field conditions required AE-directed adjustments to the roof assembly and curb details to align with the final design. This runs in parallel with the delay described in 2.1.

2.3 The parallel delay windows, Building 2 Canopy and Building 6 E-Curbs, began before the current contractual Substantial Completion date of 18-Mar-23 and remained unresolved, critical, and driving the project until their monetary closures on 10-Mar-26, the scheduled Board approval date of the related PCOs, making them the two longest and most impactful drivers of the Substantial Completion.

2.4 All other delays mentioned in the Contractor's narrative were excluded from the analysis, as they fall inside the current contractual window, and the few that extend beyond that also fall within the critical path already captured in this analysis. Without contractor-submitted proof of independent critical impact, no additional time can be justified for these other delays.

2.5 AECOM does not recommend defining any delays mentioned above as compensable based on Article 6.05 of the Project Manual which was incorporated into the Construction Contract. The

contract is subject to a no damage for delay clause which is enforceable except in the case of fraud, bad faith or active interference by the Owner which is not the cause of the delay in question.

3. Background & Submission

3.1 Project Background

1. NTP was issued on 3-Mar-21. The original contract duration was 600 days from NTP to SC, and an additional 30 days from SC to FC, which is 630 days in total. A 145-day time extension was previously approved via CO #1.

4. Analysis

4.1 Quantitative

1. As the Reviewer was not able to validate the TIA submitted by the Contractor, an independent TIA was performed by the Reviewer.
2. PCO-55 includes numerous delays spanning the full project duration, resulting in an over-aggregated delay package submission that makes traditional fragnet-based review infeasible. Given the absence of usable pre-impact updates and the scale of overlapping issues, the only defensible approach was to construct a high-level longest-path Primavera (P6) Delay Impact Model incorporating all major delays to determine the impact to Substantial Completion.
3. The P6 model serves as the backbone of this alternative method by consolidating every documented delay into a single logical Gantt chart, allowing an assessment of which delays are the key drivers of Substantial Completion.
4. The P6 model exposed two parallel delay paths as the longest and key drivers of the Substantial Completion:
    a. **Canopy for walkways - Building 2** (RFI #67, RFI #73, RFI #76, ASI #PC3, PCO #45): This sequence of delay events begins with RFIs addressing conduit/LWC conflicts at the Building 2 canopy, followed by the AE's fluid-applied roofing directive in ASI #PC3, and finally the monetary closure in PCO #45.
    b. **Building 6 E-Curbs** (RFI #37, RFI #75, RFI #92, ASI #21, PCO #49): This sequence of delay events begins with RFIs addressing the concealed conditions on Building 6 (drains, stands, pitch pockets, flashing), followed by the AE's recovery-roof directive in ASI #21, and finally the monetary closure in PCO #49.
5. The parallel delay paths, Building 2 Canopy and Building 6 E-Curbs, began before the current contractual Substantial Completion date of 18-Mar-23 and remained unresolved, critical, and driving the project until their monetary closures on 10-Mar-26, the scheduled Board approval date of their corresponding PCOs, making them the two longest and most impactful drivers that extended the Substantial Completion by 1088 days.

5. Definition

1. The term “longest-path” is defined as the interconnected chain of critical activities in which the total duration of that path is longer than any other path. For continuity of understanding across all present and forthcoming parties to view this document, the term “critical” will be used as the short form of the term “longest path.”
2. The term “unimpacted schedule” can be defined as the “base” schedule or latest Owner-accepted schedule prior to the start of the subject delay event.
3. The term “Excusable Delays” is defined as delays that are unforeseeable and beyond the control of the Contractor.
4. The term “Non-Excusable Delays” is defined as delays that are foreseeable or within the Contractor's control.
5. The term “days” refers to calendar days unless otherwise specified.

As the scope of work consisted solely of exterior improvements, the project did not involve building occupancy.

The sections that follow summarize the factors that affected the project schedule during construction and

present a post-completion evaluation of overall Contract Time, including reconciliation of the final duration based on a comprehensive review of the project record, in support of project acceptance and release of retainage.

Contract Time Overview: Baseline, Modifications, and Completion

The Notice to Proceed (NTP) for this project was issued on April 29, 2024, establishing a contractual Substantial Completion date of April 29, 2025, based on the 365-calendar-day duration defined in the NTP.

During construction, LEGO Construction was granted a 57-calendar-day excusable, non-compensable time extension associated with additional site/civil work, including asphalt adjustments, striping revisions, sodding, and related site utility modifications. The additional work was limited in scope and did not prevent the project from being used for its intended purpose.

Substantial Completion was certified in writing by the Project Consultant on April 28, 2025, in accordance with Document 00700: General Conditions of the Contract.

Although the Project Consultant certified Final Completion in writing on May 28, 2025, Article 1.05 of Document 00700: General Conditions of the Contract states that Final Completion does not occur until all governmental authorities with jurisdiction over the Work have inspected, approved, and certified it. Because the Chief Building Official executed the Certificate of Final Inspection (OEF 209) on April 22, 2026, that date has been established as the date of Final Completion.

Post-Completion Contract Time Analysis:

Pursuant to the NTP, Final Completion was required within 30 calendar days following Substantial Completion. Substantial Completion was certified on April 28, 2025, establishing a contractual Final Completion date of May 28, 2025.

The OEF 209 was executed by the Chief Building Official on April 22, 2026. Accordingly, Final Completion occurred 329 calendar days beyond the contractual closeout period.

The project was functionally complete and available for use on May 28, 2025. The Building Final Inspection was approved, and the Certificate of Occupancy was issued on June 25, 2025. No additional construction work occurred after that date.

The remaining duration to formal closeout was administrative in nature and related to completion of final documentation, processing and approval of outstanding change orders, and incorporation of the adjusted final contract amount into the closeout record. Once those administrative items were finalized on April 20, 2026, the OEF 209 was submitted to the Building Department for review and executed on April 22, 2026.

Based on the review of the project record, the elapsed duration between the Project Consultant's certification of Final Completion and execution of the OEF 209 is attributable to closeout processing activities and not to incomplete construction work or contractor-controlled delay.

Recommendation:

As outlined in the sections above, the documented schedule impacts support reconciliation of Contract

Time. Based on the project record, reconciliation through approval of a 329-day extension between Substantial and Final Completion is supported. It is therefore recommended that Contract Time be accepted as reconciled and that the remaining retainage of $186,752.91 be released to LEGO Construction as final payment for Project No. P.002893, Blanche Ely High School Bus Loop Renovations.

Agreement Terms and Financial Impact

The following information provides a summary of the Construction Services Agreement, including the procurement method and Agreement term, and outlines the proposed modification and associated financial and/or time impact.

Table A: Procurement Method and CSA Summary
This table identifies the procurement method, outlines the agreement term, summarizes prior Board actions and amendments, presents the requested Board action, and reflects the resulting total agreement amount.

Procurement Method:	ITB FY21-115 was a competitively solicited, multi-award continuing services agreement for CSMP. Multiple prequalified firms were awarded by trade category, with projects assigned on an as-needed basis through issuance of an Estimating Order and NTP.
Agreement Term:	LEGO Construction's Open-End CSMP Agreement was approved on November 4, 2020, for an initial three-year term through November 3, 2023, then two additional one-year renewals through November 3, 2025. Under this Agreement, a NTP authorized construction of the Blanche Ely High School Bus Loop Renovations Project to commence on April 29, 2024, establishing 365 calendar days to Substantial Completion and 30 calendar days to Final Completion. This item finalizes project closeout.
Multi-Year Agreement:	Yes. This is a multi-year Open-End CSMP Agreement under which individual projects are authorized by separate NTPs.

Construction Services Agreement

The following summary reflects the original agreement value and all prior approved adjustments, as well as the final reconciliation of Contract Time. The Total Agreement Amount represents full compensation for the Work.

EXECUTIVE SUMMARY

Final Acceptance, Release of Retainage – Forest Glen MS, P.001865, Thornton

Board Meeting Date: July 28, 2026

Requested Action:
Approve Final Acceptance of the Forest Glen Middle School Project, P.001865; authorize release of final retainage to Thornton Construction Company, Inc. (Thornton Construction); and approve a 761-calendar-day time extension to Substantial Completion and a 217-calendar-day time extension from Substantial to Final Completion to reconcile the Contract Time.

General Information

The following information outlines the governing authority, Districtwide implications, historical background, strategic alignment with the 2027 goals and guardrails, and the anticipated measurable outcomes and return on investment related to this agenda item.

District-zone Impact: District 4	
School Board Policy Requirement	• SBBC Policy 7005 requires formal SBBC acceptance and completion of all required closeout documentation prior to release of final payment.
Statutory Requirement	• Pursuant to Section 1013.50, Florida Statutes, final payment may not be issued until the project is formally accepted by SBBC.
If the School Board votes "Yes"	• The project will be formally accepted, closed out, and the final retainage will be released in accordance with applicable SBBC policy and state statutes.
If the School Board votes "No"	• Final payment will remain withheld, project closeout will be delayed, and additional SBBC action may be required to resolve the matter.
Alignment to 2027 Goals and Guardrails	• Business Operations
Measurable Outcome(s)/Return on Investment	• Formal project closeout confirms completion of all contractual requirements, regulatory approvals, and required documentation, allowing final payment to be released in compliance with SBBC Policy 7005 and Section 1013.50, Florida Statutes. • Success is measured by formal SBBC acceptance, reconciliation of final Contract Time, and administrative completion of all required closeout documentation.

Background/History
This Board item is submitted to obtain formal SBBC acceptance of the completed project and authorization to release the remaining retainage as final payment to Thornton Construction. SBBC approval confirms that all contractual closeout requirements have been satisfied and that the project is eligible for release of retainage.

The sections that follow summarize the factors that affected the project schedule during construction and present a post-completion evaluation of overall Contract Time, including reconciliation of the final

duration based on a comprehensive review of the project record, in support of project acceptance and release of retainage.

Contract Time Overview: Baseline, Modifications, and Completion

The Notice to Proceed (NTP) for this project was issued on September 20, 2019, establishing a contractual Substantial Completion date of November 23, 2020, based on the 430-calendar-day duration defined in the NTP.

During construction, multiple Board-approved time extensions were incorporated into the Agreement to address significant HVAC-related design deficiencies, electrical coordination conflicts, and field compliance issues that materially impacted the critical path of the Work. These extensions included, but were not limited to:

- Outside air ventilation deficiencies identified during Test and Balance, requiring redesign and corrective modifications
- Oversized air handling units requiring coordination adjustments to accommodate existing space constraints
- Electrical design discrepancies requiring conversion to three-phase power, panel replacement, and associated system reconfiguration
- Rooftop equipment anchorage and wind load compliance issues resulting in inspection failures and required tie-down revisions

Resolution of these events required sequential design revisions, regulatory review and approval, material procurement, installation and reinstallation of affected systems, reinspection, and updated testing and balancing prior to continuation of successor activities. Independent Time Impact Analyses (TIAs) were prepared to quantify the effect of each major delay event on the critical path, and the resulting excusable time extensions were incorporated into the Agreement following review and approval.

Upon incorporation of all approved time extensions, the contractual Substantial Completion date was revised from November 23, 2020, to December 16, 2022.

Substantial Completion was certified by the Project Consultant on January 15, 2025, resulting in a variance of 761 calendar days beyond the adjusted contractual Substantial Completion date.

Final Completion was certified on September 19, 2025. Pursuant to the Agreement, Final Completion was required within 30 calendar days following Substantial Completion. Accordingly, Final Completion occurred 217 calendar days beyond the contractual closeout period.

Post-Completion Contract Time Analysis:

Following the achievement of Substantial Completion, the project reflected 761 calendar days beyond the adjusted Substantial Completion date after accounting for all Board-approved time extensions. In addition, 217 calendar days elapsed between Substantial Completion and Final Completion, exceeding the 30-day contractual closeout period. At the time of completion, these days remained unassigned and unexcused, and liquidated damages were contractually assessable and were assessed in accordance with the Agreement.

Subsequent to the assessment, a comprehensive review of the project record was conducted. This review included approved change orders, monthly project update reports, PM-OR and Project Consultant reports, and applicable permitting and inspection documentation. The purpose of the review was to evaluate the underlying causes of the unassigned days and determine whether continued enforcement of liquidated damages was supported by the full project record.

Based on this review, the 761 unassigned calendar days were determined to be attributable to the continuing Outside Air (OA) system deficiency first identified during Test & Balance and commissioning. Following incorporation of all approved time extensions, this deficiency remained the sole controlling critical-path constraint to project closeout. The original mechanical design relied upon existing OA intake assemblies and associated duct infrastructure that were physically incapable of delivering code-required ventilation quantities. As a result, Building Department acceptance and permit closure could not be achieved until the deficient OA system was redesigned and corrected through a separate HVAC carve-out project. The record supports that this duration resulted from design error and omission, and does not support a determination that the 761-day variance was attributable to contractor-controlled delay.

Although the contractual Substantial Completion milestone was certified on January 15, 2025, the unresolved OA code-compliance deficiency continued to prevent permit closure and final certification. Final Completion could not be certified until completion of corrective measures and submission and acceptance of a revised commissioning report documenting compliance. Thornton Construction was therefore unable to close its permit until September 2025, at which time Final Completion was certified. The record does not support a determination that this subsequent period resulted from contractor-controlled delay.

Recommendation:

Although liquidated damages were properly assessed based on the project status at the time of completion, the subsequent comprehensive review of the project record indicates that the underlying causes of delay during both periods were not attributable to Thornton Construction. Accordingly, the totality of the documentation does not support continued enforcement of liquidated damages for the 761 calendar days to Substantial Completion or the 217 calendar days between Substantial and Final Completion.

Based on the findings of this post-assessment review, approval of reconciliation of Contract Time through a 761-calendar-day time extension to Substantial Completion and a 217-calendar-day time extension between Substantial and Final Completion is recommended. Approval of this item will align the Contract Time with the documented delay events and authorize release of the remaining retainage in the amount of $69,485.39 to Thornton Construction as part of final payment and project closeout.

Forest Glen MS – Former SMART Program Renovations – P.001865
Thornton Construction Company, Inc.

MEMORANDUM

The following outlines the findings from our recent detailed review of the documentation and compliance with contractual obligations related to liquidated damages for the item referenced above:

The Current Retainage Held is **$69,485.39**.

A. **Contractor NTP:**	
Contractor NTP Commencement Date	September 20, 2019
Construction Duration to Substantial Completion (SC)	**430**
Contractual SC Date	November 23, 2020
Substantial Completion was achieved on January 15, 2025.	
B. **Number of Days from Contractual SC to Actual SC**	**1,514**
C. **Less Board-Approved Time Extensions:**	
PCO-4/CO-3 Board Approved 2021.07.20 Item # JJ-1	(90)
PCO-7/CO-8 Board Appoved 2024.12.17 Item # JJ-8	(663)
# of Assessed Days from Adjusted SC Date thru the Actual SC Date	**761**

Following the achievement of Substantial Completion, the project reflected a total of 761 calendar days beyond the adjusted Substantial Completion date after accounting for all Board-approved time extensions. In addition, 217 calendar days elapsed between Substantial Completion and Final Completion, exceeding the 30-day contractual closeout period. At the time, these days remained unassigned and unexcused, and liquidated damages were contractually assessable and were assessed in accordance with the contract.

Subsequent to the assessment, a comprehensive review of the project record was conducted. As no contemporaneous time impact documentation was submitted by the Contractor, the delay evaluation was performed through a retrospective analysis of the available project record. This review considered prior approved change orders and Time Impact Analyses (TIAs), monthly project update

reports, commissioning documentation, Test & Balance reports, Building Department inspection records, permit closeout documentation, schedule updates, and associated project correspondence.

Based on the documentation reviewed, the 761 unassigned calendar days were attributable to the continuing Outside Air (OA) system deficiencies previously assessed in PCO-4/CO-8.

Responsibility for the impact is as follows:

Item	Description	Rationale	Duration (CD)	Classification
1	Supplemental OA Deficiency Delay	The OA deficiency would have remained unresolved regardless of contractor performance; existing ductwork assemblies were physically incapable of delivering required airflow; Building Department acceptance remained contingent upon redesign and corrective infrastructure outside the original contract scope.	761	Excusable / Non-compensable
	Total Delay		**761**	

Based on the foregoing review and responsibility allocation summarized above, the 761 unassigned calendar days were attributable to a design deficiency involving the project's Outside Air (OA) ventilation system. The construction documents required the reuse of existing OA intake assemblies. During Test and Balance and commissioning activities, it was determined that those assemblies were incapable of delivering the ventilation quantities required for code compliance.

Because the system could not achieve the required airflow, commissioning could not be finalized, mechanical inspections could not be completed, and the Building Department withheld acceptance. Resolution of the condition required engineering analysis, clarification of the mechanical design approach, permit revisions, and the establishment of a separate corrective HVAC scope to address the non-compliant equipment. Until those corrective measures were defined and accepted by the authority having jurisdiction, Substantial Completion could not be certified.

The same unresolved ventilation condition continued to affect permit closeout following Substantial Completion. Final Completion could not be certified until the Building Department accepted revised documentation clearly delineating the non-compliant mechanical components within the designated corrective project and issued the OEF Form 110b Certificate of Occupancy.

Although isolated contractor performance matters were identified during portions of the review period, the project record does not support a determination that such matters independently controlled the critical path. The controlling constraint to both Substantial Completion and Final Completion remained the unresolved ventilation system deficiency and the associated regulatory approval requirements.

Pursuant to Article 4.04 of the Agreement Form, liquidated damages are assessable at Five Hundred Dollars ($500.00) per calendar day for failure to achieve Substantial Completion within the required time. Article 5.03 provides for liquidated damages of Five Hundred Dollars ($500.00) per calendar day for failure to achieve Final Completion within 30 calendar days thereafter. Based on the project

status at the time of certification, liquidated damages were assessed for a total of 978 calendar days (761 days to Substantial Completion and 217 days to Final Completion), totaling $489,000.

Upon retrospective review of the complete project record, the documentation does not support continued enforcement of those damages. The delays to both milestones resulted from the ventilation system design deficiency and the resulting regulatory requirements, rather than contractor-controlled performance. Accordingly, the full 978 calendar days are properly characterized as excusable, non-compensable delay attributable to design error and omission, and release of the retained funds is recommended.

The undersigned have reviewed the foregoing memorandum and provide direction regarding the recommendation to withhold release of retainage and apply the retained funds toward the assessed liquidated damages.

1. Executive Summary

This Supplemental Time Impact Analysis (TIA) Summary establishes the final schedule position for the Forest Glen Middle School SMART Program Renovation project and documents the factors that contributed to the extended project duration beyond the previously approved CO-8 adjusted Substantial Completion date.

The intent of this memorandum is to:

- Document the continuing delay condition associated with the Outside Air (OA) system deficiencies,
- Establish the relationship between the fragnet delay logic and the critical path,
- Identify excusable and non-excusable delay responsibility,
- Provide justification for additional contract time consideration, and
- Support final reconciliation of Liquidated Damages (LDs) and project closeout.

This review is supplemental to the prior PMOR TIA Review associated with PCO-007 / CO-8 (Rev 02, dated October 2, 2024).

2. Contractual Time and Actual Completion

The Notice to Proceed (NTP) was issued on September 20, 2019.

- **The original Contract required:**
  - Substantial Completion: 430 consecutive days to November 23, 2020
  - Final Completion: 30 days later to December 23, 2020
  - Approved Time Extensions: 753 calendar days resulting in a Revised Substantial Completion date of December 16, 2022
  - Substantial Completion (via BD 110B) was achieved on September 19, 2025.

Previously approved time extensions included:

Change Order	Description	Days
CO-3	A/E Error	90 CD
CO-8	Outside Air / Mechanical Design Deficiency	663 CD
Total Prior Extensions		**753 CD**

The adjusted Substantial Completion date following CO-8 became December 16, 2022.

The project continued to experience critical-path impacts associated with the unresolved Outside Air (OA) deficiency, Test & Balance (T&B) non-compliance, commissioning coordination, and permit closeout activities beyond the adjusted CO-8 milestone.

The 01770e milestone for the project was achieved on January 15, 2025, representing the Contractor's contractual Substantial Completion designation and establishing the primary completion milestone utilized for this supplemental Time Impact Analysis (TIA) review.

The Building Final Inspection for the project was achieved on April 16, 2025, under Inspection #143408, Permit #1730510763, representing formal Building Department acceptance of the primary contract scope.

The Form 110b Certificate of Occupancy was signed by the Building Official on September 19, 2025, completing the final administrative closeout process associated with the primary contract and related carve-out coordination.

The period between the adjusted Substantial Completion date of December 16, 2022, and the contractual 01770e milestone of **January 15, 2025**, represents an additional delay of **761 calendar days** beyond the CO-8 adjusted Substantial Completion date.

Although Building Final and 110b milestones occurred after January 15, 2025, the 01770e milestone was utilized as the contractual endpoint for purposes of delay entitlement analysis.

3. Delay Event Description

The subject delay is associated with continuing Outside Air (OA) system deficiencies identified during Test & Balance (T&B), commissioning, and final Building Department acceptance processes. The original mechanical design specified that the new Air Handling Units (AHUs) would connect to existing OA intake ductwork, dampers, and assemblies that were physically incapable of delivering the required outside air quantities necessary to meet code-compliant ventilation requirements.

The deficiencies resulted in:

- Failed Test & Balance verification,
- Failed commissioning validation,
- Building Department rejection of permit closeout,
- Delayed 110b issuance,
- Multiple redesign and descoping efforts,
- A separate carve-out project for corrective work, and
- Extended critical-path impacts through contractual Substantial Completion and permit closeout activities.

The corrective work ultimately required:

- Demolition and replacement of 43 OA units,
- Installation of new G90 ductwork,
- Installation of 43 dampers,
- Installation of 13 louvers,
- Installation of additional access doors and return air components.

This corrective scope was executed under separate carve-out project P.001865-HVC because the work was not included in the original contract documents.

4. Impact on Critical Path

Pre-Delay Schedule Status (Data Date)

The adjusted Substantial Completion date established by CO-8 was December 16, 2022. The post-CO-8 schedule serves as the pre-impact baseline for this supplemental analysis. The controlling path following the adjusted Substantial Completion date consisted primarily of:

- Startup & Commissioning,
- Test & Balance,
- Final Mechanical Inspections,
- Building Department Acceptance,
- Permit Closure Activities, and
- 110b issuance.

The delay fragnet inserted into the analysis begins on December 17, 2022, and continues through January 15, 2025, representing the unresolved OA deficiency and associated permitting constraints.

The fragnet logic includes:

1. Continued failed T&B verification,
2. Mechanical redesign review,
3. Descoping and permit coordination,
4. Development of carve-out corrective project,
5. Building Department review and acceptance,

6. Contractual Substantial Completion / 01770e milestone achievement.

The delay remained continuously on the critical path because Building Department acceptance and permit closure could not occur until the OA deficiency was resolved.

5. Justification for Recommendation

PMOR reviewed the following project records and supporting documentation:

- Monthly Project Updates (December 2022 through September 2025),
- Prior TIA Review for CO-8,
- Final Commissioning Reports,
- JALRW EOR T&B Review,
- Building Department inspection records,
- Carve-out project documentation,
- GC schedule updates and XER files,
- Plan Change 11 / ASI 12,
- RFI #34,
- Thornton Notice of Default Response,
- Liquidated Damages Memorandum dated April 24, 2026,
- Document 01770e – Project Consultant's Letter Establishing Substantial Completion Date (Substantial Completion achieved January 15, 2025),
- Document 01770h – Project Consultant's Letter Establishing Final Completion Date (Final Completion achieved September 19, 2025).
- PMOR's analysis determined that the OA deficiency remained the sole controlling critical-path constraint throughout the supplemental analysis period..

The following factors support the recommendation:

1.1 A/E Design Deficiency

The original design reused existing OA assemblies that were physically undersized and incapable of delivering required code ventilation quantities.

1.2 EOR Confirmation

The Engineer of Record formally confirmed that the existing OA intake assemblies could not provide required airflow and required enlargement/replacement.

1.3 Carve-Out Project Scope

The corrective work required a separate project because the original contract documents omitted critical OA infrastructure.

1.4 Removal from Original Contract

Plan Change 11 / ASI 12 formally removed the corrective scope from the original contractor's scope of work.

1.5 Critical Path Validation

The Contractor's own contemporaneous schedules identified Startup & Commissioning activities as driving critical path activities.

6. Responsibility Matrix

The following matrix reflects net time impact allocation only associated with the recommended **761-calendar-day extension**. Durations shown represent apportioned responsibility for the net critical path delay after accounting for overlap, concurrency, and float consumption

Delay Component	Start	Finish	Duration	Classification	Responsibility
Original Contract Duration	9/20/19	11/23/20	430 CD	Baseline	—
CO-3 Extension	Various	Various	90 CD	Excusable	A/E
CO-8 Extension	Various	12/16/22	663 CD	Excusable	A/E
Supplemental OA Deficiency Delay	**12/17/22**	**1/15/25**	**761 CD**	**Excusable / non-compensable**	**A/E**

The supplemental fragnet inserted into the post-CO-8 adjusted schedule resulted in a net critical-path impact of 761 calendar days.

7. Concurrent Delay Analysis

PMOR identified limited contractor performance issues during portions of the analysis window, including:

- Incomplete installation of certain bid-set equipment,
- Delayed remobilization activities,
- Delayed pricing response to corrective work requests.

However, these issues did not independently extend the controlling critical path because the OA deficiency and resulting code non-compliance remained unresolved regardless of contractor execution status:

- The OA deficiency would have remained unresolved regardless of contractor performance,
- Existing ductwork assemblies were physically incapable of delivering required airflow,
- Building Department acceptance remained contingent upon redesign and corrective infrastructure outside the original contract scope.

Accordingly, no concurrent contractor-caused delay was found to offset the excusable nature of the delay. The Owner was also not found responsible for any portion of the supplemental delay.

8. Conclusion & Recommendation

This recommendation addresses time entitlement only and does not constitute entitlement to extended General Conditions, acceleration, disruption, or other compensable damages. The Outside Air deficiency attributed to A/E error and omission remained the controlling critical-path constraint from December 17, 2022 through the contractual 01770e Substantial Completion milestone achieved on January 15, 2025.

The project could not achieve acceptance or permit closure until the deficient OA infrastructure was redesigned and corrected through a separate carve-out project.

The delay is fully documented through:

- Monthly Project Updates,
- Building Department records,
- Commissioning reports,
- T&B reviews,
- A/E correspondence,
- Schedule records,
- Permit closeout documentation.

PMOR recommends granting Thornton Construction Company, Inc. an excusable, non-compensable time extension of 761 calendar days through the contractual 01770e milestone achieved on January 15, 2025.

Administrative closeout activities continued beyond January 15, 2025; however, the 01770e milestone was utilized as the contractual endpoint for purposes of delay quantification and entitlement evaluation.

This recommendation is attributable entirely to A/E error and omission. No Owner-caused delay was identified.

9. Definition

1. The term “longest-path” is defined as the interconnected chain of critical activities in which the total duration of that path is longer than any other path. For continuity of understanding across all present and forthcoming parties to view this document, the term “critical” will be used as the short form of the term “longest path.”
2. The term “unimpacted schedule” can be defined as the “base” schedule or latest Owner-accepted schedule prior to the start of the subject delay event.
3. The term “Excusable Delays” is defined as delays that are unforeseeable and beyond the control of the Contractor.
4. The term “Non-Excusable Delays” is defined as delays that are foreseeable or within the Contractor's control.
5. The term “days” refers to calendar days unless otherwise specified.

EXECUTIVE SUMMARY

ROCS Ground Lease Agreement

Board Meeting Date: July 28, 2026

Requested Action:
Approve the Resident on Campus Security (ROCS) Ground Lease Agreement (New Agreement) between the School Board of Broward County, Florida (SBBC), and Nicholas De Quarto (Lessee).

General Information

The following information outlines the governing authority, districtwide implications, historical background, strategic alignment with the 2027 goals and guardrails, and the anticipated measurable outcomes and return on investment related to this agenda item.

District-zone Impact/Board Member: District 1	
School Board Policy Requirement	• N/A
Statutory Requirement	• Section 1013.15, Florida Statutes
If the School Board votes "Yes"	• A "Yes" vote by the SBBC will permit Nicholas De Quarto to reside at the subject leased grounds from the effective date of the New Agreement through February 21, 2031, which aligns the expiration date with the expiration date of the 25 ROCS Ground Lease Agreements that were approved by SBBC at the December 16, 2025 Regular School Board Meeting (RSBM). Additionally, the approval of the New Agreement will allow Mr. De Quarto to perform the obligations of the ROCS officer delineated in the New Agreement.
If the School Board votes "No"	• A "No" vote by the SBBC will prevent the New Agreement from taking effect, thereby prohibiting Nicholas De Quarto from relocating his mobile home onto Broward County Public Schools (BCPS) real property, and residing on the in the mobile home. Additionally, the non-approval of the New Agreement will not allow Mr. De Quarto to perform the obligations of the ROCS officer delineated in the New Agreement, and the subject ROCS location will not have a ROCS officer on site.

Alignment to the 2027 Strategic Goals and Guardrails	• Business Operations
Measurable Outcome(s)/Return on Investment	• ROCS Officer presence on BCPS campus after hours and related benefits of such presence. • Verifiable results that the ROCS Officers satisfied obligations called for in the New Agreement, such as, but not limited to serving as mentors to BCPS students at the school campus.

Background/History

The ROCS program began in the early 1980s to deter theft, vandalism, and trespassing after school hours by allowing law enforcement officers to place their mobile homes on select BCPS campuses. In exchange, the ROCS officers were required to meet certain obligations and did for rent and utilities. At its peak, thirty-two (32) officers participated in the ROCS program.

Following a 2015 Auditor's Report and a subsequent Special Investigative Unit (SIU) presentation to the SBBC at a School Board workshop, the SBBC directed the Facility Planning & Real Estate (FP&RE) Department to modernize the lease forms to reflect audit recommendations and best practices, and thereafter, schedule revised lease agreement between the SBBC and the ROCS officers for its formal action. Thereafter, SBBC approved and executed the revised ground lease agreements with twenty-seven (27) ROCS officers. Key provisions in the agreements included three (3) year terms with one three (3) year renewal option; officer payment of utilities; limited occupancy with background checks for adult residents; vehicle and maintenance requirements; mentoring expectations; monthly reporting to school principals and SIU; indemnification and insurance naming SBBC as additional insured; a 90-day termination clause, and the subsequent removal of the mobile home upon the termination/expiration of the agreements within the timeframe stipulated in the agreements.

In September 2019, SBBC reviewed the ROCS program and agreed to continue the program at their current locations, while formalizing administrative measures for site need and officer vetting. The current Ground Lease Agreements (Agreements) incorporates those requirements plus added provisions: requirement to provide proof of mobile home ownership within 10 days of the SBBC's approval of the Agreements; removal of the mobile home within thirty (30) days after the termination/expiration of the Agreements; and no assignment of the Agreements without SBBC's or designee's approval.

Subsequently on February 4, 2020, the SBBC approved the renewal of twenty-six (26) Agreements (one vacancy later filled), restoring the total to twenty-seven (27) active ROCS placements.

At the November 4, 2022 workshop, the Safety, Security, and Emergency Preparedness Division presented implementation challenges and solutions regarding the ROCS

program. For instance, issues such as corroded transformer/amp discovered during the replacement of a mobile home at a location, and the unforeseen event regarding the death or permanent incapacitation of an officer. Subsequently, additional language was incorporated into the Agreements to address these issues.

At the December 16, 2025 Regular School Board Meeting, the SBBC approved twenty-five (25) ROCS Agreements for renewal. These Agreements represented all existing ROCS participants eligible for renewal at that time. The subject Agreement was not presented to SBBC for its consideration, because the subject ROCS location at that time was vacant.

Mr. De Quarto is the newly vetted ROCS officer that has been selected in conformity with the ROCS replacement process to serve as a ROCS officer at the subject location. Accordingly, this New Agreement is being brought forward separately for the SBBC's consideration now that he has successfully completed the required vetting process.

The FP&RE continues to manage the ROCS Ground Lease Agreement renewals, transfers, and terminations for the SBBC's formal action, while the Division of Safety and Security oversees programmatic compliance and, upon the notice of vacancy and confirmed need, leads successor selection with pertinent school principal participation, the Superintendent's approval, before the FP&RE Department proceeds to process and schedule pertinent ROCS Ground Lease Agreement(s) for the SBBC's consideration and formal action.

Key Changes: ROCS Lease Agreement (2022 vs. 2025 Draft)

The language in the ROCS Lease Agreement, approved by SBBC on December 16, 2025 was developed collaboratively with the attorney for 25 of the ROCS officers, Mr. Gregg Rossman, Esq., and is based on discussions held during the August 19, 2025, RSBM, during which SBBC expressed the desire to: (1) make the lease term in the Agreements five years, and (2) to allow renewal option to be exercisable by officers as long as they are not in default.

The December 16, 2025, SBBC approved ROCS Ground Lease Agreements introduced several substantive updates and clarifications compared to the prior version of the ROCS Lease Agreements. Most notably, the lease term was extended from an initial three-year period with a possible three-year renewal, to a five-year initial term with an automatic five-year renewal unless the lessee opts out or is in default. This change provides greater stability and predictability for both parties.

Utility charges reflect an annual fee, with a provision for a 3% annual adjustment. Maintenance responsibilities are more detailed in the currently SSBC approved ROCS Ground Lease Agreements, now explicitly including all electrical and plumbing connections, routine tree trimming, and compliance with the latest Florida Building Code, reflecting a higher standard of upkeep.

Oversight and reporting structures have shifted as well. The currently SBBC approved ROCS Ground Lease Agreement replaced references to the Chief, Special Investigative Unit with the Chief of Police, Broward County Public Schools, and the Chief Operations Officer, aligning the agreement with current organizational roles. Reporting requirements and points of contact have been updated accordingly.

A significant new provision in the currently SBBC approved ROCS Ground Lease Agreement addresses the impact of school construction, renovation, or improvement projects. SBBC is now required to provide at least 30 days' written notice to the lessee if such projects will affect the mobile home, and the lessee is responsible for all costs associated with any required temporary relocation. This level of detail was not present in the prior version of the ROCS Ground Lease Agreement.

Termination provisions have been clarified and expanded. The currently SBBC approved ROCS Ground Lease Agreements specifies for-cause termination with a 30-day cure period, termination by mutual agreement with at least 90 days' notice, and automatic termination upon the death or permanent incapacity of the lessee. Other updates include a requirement for proof of insurance within 10 days of the Agreement's effective date (rather than occupancy), and various language and role updates to reflect current SBBC structure and the specific site and lessee.

In summary, the currently proposed ROCS Ground Lease Agreements modernizes and clarifies the lease terms, extends the duration, increases utility charges, introduces more comprehensive maintenance and construction impact clauses, and updates oversight and reporting lines. These changes enhance clarity, accountability, and operational alignment for all parties involved.

This Article shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

3.02 **No Third-Party Beneficiaries.** The parties expressly acknowledge that it is not their intent to create or confer any rights or obligations in or upon any third person (including, but not limited to Authorized Occupants) or entity under this Agreement. None of the parties intend to directly or substantially benefit a third party by this Agreement. The parties agree that there are no third-party beneficiaries to this Agreement and that no third party shall be entitled to assert a claim against any of the parties based upon this Agreement. Nothing herein shall be construed as consent by an agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of any contract.

3.03 **Independent Contractor.** The parties to this Agreement shall at all times be acting in the capacity of independent contractors and not as an officer, employee, or agent of one another. Neither party or its respective agents, employees, subcontractors, or assignees shall represent to others that it has the authority to bind the other party unless specifically authorized in writing to do so. No right to SBBC retirement, leave benefits or any other benefits of SBBC employees shall exist as a result of the performance of any duties or responsibilities under this Agreement. SBBC shall not be responsible for social security, withholding taxes, contributions to unemployment compensation funds or insurance. As nothing in this contract is meant to benefit any third party, and the parties are acting as independent contractors the Lessees are not tasked as or considered "caretakers or caregivers" to any students or minors as it relates to this agreement.

3.04 **Equal Opportunity Provision.** The parties agree that no person shall be subjected to discrimination because of age, race, color, disability, gender identity, gender expression marital status, national origin, religion, sex, or sexual orientation in the performance of the parties' respective duties, responsibilities, and obligations under this Agreement.

However, in the event said default cannot be cured within said thirty (30) calendar day period and the defaulting party is diligently attempting in good faith to cure same, the time period shall be reasonably extended to allow the defaulting party additional cure time. Upon the occurrence of a default that is not cured during the applicable cure period, this Agreement may be terminated by the non-defaulting party upon thirty (30) calendar days' notice. This remedy is not intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or future exercise thereof. Nothing in this Article shall be construed to preclude termination pursuant to Article 3.05 of this Agreement.

If the SBBC does not allocate funds for the payment of services or products or otherwise to be provided under this Agreement, this Agreement may be terminated by the SBBC at the end of the period for which funds have been allocated. SBBC shall notify the other party at the earliest possible time before such termination. No penalty shall be accrued to SBBC in the event this provision is exercised, and the SBBC shall not be obligated or liable for any future payments due or any damages as a result of termination under this Article.

3.20 **Preparation of Agreement.** The parties acknowledge that they have sought and obtained whatever competent advice and counsel as was necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

3.21 **Amendments.** No modification, amendment, or alteration in the terms or conditions contained herein shall be effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

3.22 **Waiver.** The parties agree that each requirement, duty, and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement shall not be deemed a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver shall only be effective as to the specific instance for which it is obtained and shall not be deemed a continuing or future waiver.

3.23 **Force Majeure.** Neither party shall be obligated to perform any duty, requirement or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage, accident, flood, acts of God, strikes, or other labor disputes, riot or civil commotions, epidemics, pandemics, government regulations, and the issuance or extension of existing government orders of the United States, the State of Florida, or local county and municipal governing bodies, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). In no event shall a lack of funds on the part of either party be deemed Force Majeure. In the event any of the Leased Grounds and residential Mobile Home, or any part thereof, shall be destroyed by fire or any other cause, or if any other casualty or any unforeseen occurrence shall render the fulfillment of this Agreement by either party impossible, then and thereupon, this Agreement shall be modified to exclude the use of the damaged Leased Grounds and Mobile Home until such time as the owning party, at its discretion, returns the facility to an operable condition.

3.24 **Survival.** All representations and warranties made herein regarding indemnification obligations, obligations to reimburse SBBC, obligations to maintain and allow inspection and audit of records

and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds shall survive the termination of this Agreement.

3.25 **Contract Administration.** SBBC has delegated authority to the Superintendent of Schools or his/her designee to take any actions necessary to implement and administer this Agreement. Such actions shall include, but not be limited to, the immediate suspension of the use or occupancy of any or all SBBC Facilities as a result of the existence or anticipation of imminent existence of any of the conditions listed in Article 3.23 – Force Majeure – hereinabove.

3.26 **Authority**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the Parties hereto have made and executed this Agreement on the date first above written.

EXECUTIVE SUMMARY

Agreement with South Broward Hospital District

Board Meeting Date: July 28, 2026

Requested Action: Approve the Agreement between The School Board of Broward County, Florida (SBBC) and South Broward Hospital District (SBHD), d/b/a Memorial Healthcare System, Joe DiMaggio Children's Hospital, and U18 Sports Medicine for providing five golf carts for on-campus athletic trainers.

General Information

The following information outlines the governing authority, districtwide implications, historical background, strategic alignment with the 2027 goals and guardrails, and the anticipated measurable outcomes and return on investment related to this agenda item.

District-zone Impact/Board Member: Districts 3,5 & 7	
School Board Policy Requirement	• N/A
Statutory Requirement	• N/A
If the School Board votes "Yes"	• Five high schools will be provided golf carts to be used by on-campus athletic trainers. The identified high schools are Blanche Ely, Boyd H. Anderson, Coconut Creek, Pompano Beach, and Stranahan as picked by SBHD. The use of these carts will assist the schools in providing real-time health-related services to student-athletes during practice sessions and competitions.
If the School Board votes "No"	• The golf carts will not be available for use at the five high schools. This may cause a delay in student athletes receiving real-time health-related services during practice sessions and competitions. These delays will have a deleterious impact on the overall health and safety the student-athletes
Alignment to the 2027 Strategic Goals and Guardrails	• Guardrail 3: Safety
Measurable Outcome(s)/Return on Investment	• Athletic trainers at the five selected high schools will have full access to the golf carts to travel between on-campus practice sessions and competitions to provide first aid and transport when needed.

Background/History

The use of golf carts to traverse high school campuses have been a long-standing practice across the school district. They are generally used by school administration,

security, and school facilities personnel. All high schools do not have the inventory or the revenue to provide a designated cart for athletic trainers. As a result, the assignment of carts is at the discretion of the school. The need of a dedicated golf cart for athletic trainers becomes a necessity on days where there are multiple on-campus practices and competitions.

RECITALS

WHEREAS, on October 17, 2023, pursuant to RFP FY-24-063, SBBC and SBHD entered into an Agreement with a term commencing on October 31, 2023 through August 31, 2026, for SBHD to provide SBBC with twenty-nine (29) nationally certified Athletic Trainers through Joe DiMaggio Children's Hospital and U18 Sports Medicine ("Athletic Trainers Agreement"), incorporated into this Agreement by reference; and

WHEREAS, pursuant to the Athletic Trainers Agreement the Athletic Trainers ("Trainers") provide services for prevention, recognition, emergency care, treatment, and rehabilitation of student athletes at twenty-nine (29) SBBC schools; and

WHEREAS, the Trainers are SBHD employees - not SBBC employees; and

WHEREAS, SBHD is willing to provide electric golf carts and any related equipment (collectively the "Carts") to the Trainers who need consistent access to Carts at the SBBC locations specified herein; and

WHEREAS, the parties desire that SBHD provide said Carts for the restricted use of the Trainers providing services to SBBC under the Athletic Trainers Agreement.

NOW, THEREFORE, in consideration of the premises and of the mutual covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

ARTICLE 1 – RECITALS

1.1 **Recitals**. The Parties agree that the foregoing recitals are true and correct and that such recitals are incorporated herein by reference.

ARTICLE 2 – SPECIAL CONDITIONS

2.1 **Term of Agreement**. The term of this Agreement commences upon the date of the last signature below ("Effective Date") and shall coincide with the end of term for the Athletic Trainers Agreement and any extensions of the Athletic Trainers Agreement permitted thereof, unless this Agreement is terminated earlier pursuant to Section 3.5 (Termination).

2.2 **Ownership of Carts**. SBHD is the sole owner and title holder of the Carts. SBBC shall not have or at any time acquire any right, title, or interest in the Carts.

2.3 **SBHD Responsibilities**. For the term of this Agreement, the following shall apply to SBHD:

2.3.1 SBHD shall provide its own Carts for the restricted use of its Trainers providing services pursuant to the Athletic Trainers Agreement, where SBBC does not already provide Trainers with access to SBBC golf carts.

2.3.2 No more than one Trainer may be assigned to any given Cart. Operation of a Cart is at the risk of the Trainer.

2.3.3 SBHD retains full ownership of said Carts and is solely responsible for the maintenance, safety, and operation of the Carts and any associated costs thereof. SBBC shall not be responsible for maintenance, safety, or repairs of the Carts.

2.3.4 If at any time a Cart is not functioning properly, the assigned Trainer shall promptly inform SBHD of any defective equipment or mechanical issues. SBBC shall not be responsible for identifying, discovering, or reporting any such issues to SBHD. If in SBHD's sole discretion it determines that the Cart needs to be repaired or replaced, SBHD shall promptly notify the School Principal of the applicable SBBC school of this determination and repair and/or provide a replacement Cart within fort-eight (48) hours.

2.3.5 All SBHD Carts must be clearly marked with a conspicuous label, decal, or unique identification numbers permanently affixed to the Cart on the front driver's side in the lower corner of the windshield or front hood. Such markings must match an inventory or registry. SBHD agrees not to remove, cover, or alter markings indicating SBHD ownership.

2.3.6 Carts will be driven by Trainers in a safe, slow, and careful manner and shall at no time exceed any posted or designated speed limit on SBBC premises. At all times drivers will yield to pedestrians. Any Trainer observed driving in a careless or unsafe manner will be reported and removed from SBBC's premises and have their Cart driving privileges revoke by SBHD. The Carts are not for personal use or off-roading by Trainers. SBHD agrees to be responsible for compliance with any applicable laws, government regulations, and SBBC rules in the use of the Carts.

2.3.7 Cart usage will not be permitted in SBBC restricted areas or during times not authorized by SBBC. No Carts shall be operated on public roads.

2.3.8 Only Carts that are equipped with factory installed (or equivalent) front headlights and rear running lights may be operated by SBHD Athletic Trainers after daylight hours as appropriate.

2.3.9 Carts shall be parked in an orderly and considerate manner on SBBC premises. If in SBBC's sole discretion a Cart is obstructing an SBBC sidewalk, walkway, ramp, or building exit, the Trainer assigned to that location will promptly move the Cart to an appropriate location at SBBC's direction.

2.3.10 Carts may only be operated by authorized, trained, and licensed Trainers. The number of passengers may not exceed the manufacturer's designed and installed seating capacity. All passengers must remain seated and properly restrained during Cart operation.

2.3.11 Operating a Cart while impaired (including but not limited to alcohol, drugs, physical limitations) is strictly prohibited.

2.3.12 All Carts shall be locked and secured by the Trainers to prevent theft or vandalism when parked and/or not in use on SBBC premises.

2.4 **SBBC's Responsibilities**. For the term of this Agreement, the following shall apply to SBBC:

2.4.1 Where SBHD is providing Carts for use by the Trainers, SBBC shall not provide any additional golf carts or related equipment for the use of those Trainers. This may include but is not limited to ancillary or after-market equipment, comfort/convenience accessories, safety and performance upgrades, or technical enhancements.

2.4.2 SBBC staff shall not operate, maintain, or repair any SBHD Carts at any time or for any reason.

2.4.3 SBBC shall make reasonable efforts to inform Trainers of any restricted areas or times not authorized Cart use.

2.4.4 SBBC shall provide a covered storage area for the Carts when not in use by the Trainers.

2.4.5 SBBC shall provide accessible and dedicated electrical outlets for Cart-charging purposes at no cost to SBHD. SBBC's Facilities Divisions shall be responsible for maintaining and repairing said outlets as needed. Carts shall not be charged indoors.

2.4.5 In the event of a hurricane and/or tropical storm watch or warning, SBBC shall provide indoor storage for the Carts in the loading dock bay of the applicable school.

2.4.6 SBBC shall self-insure against any damage caused by SBBC employees, agents, or students beyond normal wear and tear.

2.5 **SBHD Cart Location and Description.** The information in the table below represents the Cart locations and descriptions under this Agreement. This information may be periodically updated between the Parties as necessary to perform the obligations of this Agreement.

2.7 **Removal of Carts Upon Termination of Agreement**. Upon the expiration or earlier termination of this Agreement, SBHD shall, at its sole cost and expense, remove all Carts, including but not limited to related machinery, tools, accessories, and equipment, from SBBC's Premises no later than thirty (30) calendar days after the expiration or earlier termination of this Agreement, unless otherwise agreed by the Parties, in writing. SBHD shall coordinate such removal of Carts with SBBC to minimize disruption to SBBC students and operations.

2.8 **Inspection of SBHD's Records by SBBC**. SBHD shall establish and maintain books, records, and documents (including electronic storage media) related to this Agreement. All of SBHD's Records, regardless of the form in which they are kept, shall be open to inspection and subject to audit, inspection, examination, evaluation and reproduction, during normal working hours, by SBBC agent or its authorized representative. For the purpose of such audits, inspections, examinations, evaluations, and reproductions, SBBC's agent or authorized representative shall have access to SBHD's Records from the Effective Date of this Agreement, for the duration of the term of the Agreement, and until the later of five (5) years after the termination of this Agreement or five (5) years after the date of final payment by SBBC to SBHD pursuant to this Agreement. SBBC's agent or its authorized representative shall provide SBHD with reasonable advance notice (not to

exceed two (2) weeks) of any intended audit, inspection, examination, evaluation, and reproduction. SBBC's agent or its authorized representative shall have access to the SBHD's facilities and to any and all records related to the Agreement, and shall be provided adequate and appropriate workspace in order to exercise the rights permitted under this section. 2.10 **E-Verify**. Pursuant to Section 448.095, Florida Statutes, **any party contracting with SBBC** shall register with and use the E-Verify system to verify the work authorization for all employees hired during the course of this Agreement. Any such party shall require any subcontractors used to perform the duties and responsibilities under this Agreement to register with and use the E-Verify system to verify the work authorization for all employees that the subcontractor hires during the course of this Agreement. If applicable, any such party must also obtain and retain an affidavit

from a subcontractor stating that the subcontractor does not employ, contract with or subcontract with anyone who is not duly authorized to work in the United States. If SBBC has a good faith belief that any such party has knowingly violated Section 448.09(1), Florida Statutes, SBBC may immediately terminate this Agreement for cause and without notice or an opportunity to cure the violation. Termination by SBBC pursuant to this section is not a breach of this Agreement and may not be considered as such.

2.11 **Background Screening.** SBHD shall comply with all requirements of Sections 1012.32, 1012.465, 1012.467, and 1012.468, Florida Statutes, and all of its personnel who (a) are to be permitted access to school grounds when students are present, (b) will have direct contact with students, or (c) have access or control of school funds, will successfully complete the background screening required by the referenced statutes and meet the standards established by the statutes. Personnel who are subject to background screening include all of SBHD's non-exempt employees, representatives, agents, and sub-contractors performing duties under this Agreement who meet any of the three (3) descriptions listed above. This background screening will be conducted by SBBC in advance of SBHD or its personnel providing any services under this Agreement. SBHD shall bear the cost of acquiring the background screening required by Section 1012.32, Florida Statutes, and any fee imposed by the Florida Department of Law Enforcement (FDLE) to maintain the fingerprints provided with respect to SBHD and its personnel. The Parties agree that the failure of SBHD to perform any of the duties described in this section shall constitute a material breach of this Agreement entitling SBBC to terminate this Agreement immediately for cause and with no opportunity required to permit SBHD to cure such default and no further responsibilities or duties for SBBC to perform under this Agreement. SBHD agrees to indemnify and hold harmless SBBC, its officers and employees from any liability in the form of physical or mental injury, death or property damage resulting from SBHD's failure to comply with the requirements of this section or with Sections 1012.32, 1012.465, 1012.467, and 1012.468, Florida Statutes. SBBC issued identification badges must be worn at all times when on SBBC property or when performing services for SBBC and must be worn where they are visible and easily readable.

2.12 **Public Records**. Any Party contracting with SBBC is required to (a) keep and maintain available for public inspection any records that pertain to services rendered under this Agreement; (b) provide the public with access to public records on the same terms and conditions that SBBC would provide such records and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes or as otherwise provided by law; (c) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as autheorized by law; and (d) meet all requirements for retaining public records and transfer, at no cost to SBBC, all public records in that Party's possession upon termination of its Agreement with SBBC and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All of such Party's records stored electronically must be provided to SBBC in a format that is compatible with SBBC's information technology systems. Each Party shall maintain its own respective records and documents associated with this Agreement in accordance with the records retention requirements applicable to public records. Each Party is responsible for compliance with any public documents request served upon it pursuant to Section 119.07, Florida Statutes, and any resultant award of attorney's fees for non-

compliance with that law. Each Party acknowledges that this Agreement and all attachments thereto are public records and do not constitute trade secrets.

2.13 **Proprietary Information**.

2.13.1 Any documents or materials submitted to SBBC shall be open for inspection by any person in accordance with Section 119.07, Florida Statutes, except as otherwise exempted from disclosure by applicable law. A Party contracting with SBBC must clearly mark, label, designate, or identify any portions of any documents or materials it provides to SBBC which are claimed to be confidential and exempt from public inspection, provided that the confidential or exempt portions of such documents or materials are clearly marked with specific citations of law that provide the asserted confidentiality or exemption. A contracting Party's failure to identify any confidential or exempt portions of documents or materials or to specify the law establishing their confidential or exempt status is a waiver of confidential or exempt status for any such unidentified or unsupported portions of any documents or materials.

2.13.2 If SBBC receives a public record request for documents or materials in its custody under this Agreement which have been properly marked as confidential or exempt, SBBC will notify the contracting Party of the public records request. The notice shall state that the requested materials will be produced by SBBC to the requesting Party within ten (10) calendar days of the date of the written notification, unless the contracting Party has initiated an action at its sole cost and expense in a court of competent jurisdiction to preclude the release of the requested materials. The contracting Party shall name the Party requesting the documents or materials as a defendant and will not name SBBC as a Party to the action, but will provide SBBC with notice of such proceedings. The contracting Party agrees to indemnify SBBC for any costs, expenses, and attorney's fees SBBC may incur with regard to any legal proceedings and judgments that may arise from the request for the contracting Party's public records that are subject to claims of confidential or exempt status. A failure to timely initiate the legal action required by this paragraph is a waiver of any claim that the requested information is confidential and exempt from public disclosure. The contracting Party waives any cause of action against SBBC for the release of materials pursuant to a public records request except for any claims based upon the intentional or grossly negligent conduct of any employee of SBBC.

2.1**4** **Indemnification**. Subject to Section 768.28, Florida Statutes, each Party agrees to be fully responsible for its acts of negligence, or its employees' acts of negligence when acting within the scope of their employment and agrees to be liable for any damages resulting from said negligence. This section shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

2.15 **Insurance Requirements**. Each Party acknowledges without waiving its right of sovereign immunity as provided by Section 768.28, Florida Statutes, that each Party is self-insured for general

liability under Florida Statutes with coverage limits of $200,000 per person and $300,000 per occurrence, or such monetary waiver limits that may change and be set forth by the legislature.

2.16 **Equal Opportunity Provision**. The Parties agree that no person shall be subjected to discrimination because of age, race, color, disability, gender identity, gender expression, marital status, national origin, religion, sex or sexual orientation in the performance of the Parties' respective duties, responsibilities and obligations under this Agreement.

ARTICLE 3 – GENERAL CONDITIONS

3.1 **No Waiver of Sovereign Immunity**. Nothing herein is intended to serve as a waiver of sovereign immunity by any agency or political subdivision to which sovereign immunity may be applicable or of any rights or limits to liability existing under Section 768.28, Florida Statutes. This section survives the termination of all performance or obligations under this Agreement and is fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

3.2 **No Third-Party Beneficiaries**. The Parties expressly acknowledge that it is not their intent to create or confer any rights or obligations under this Agreement in or upon any third person or entity. None of the Parties intend to directly or substantially benefit a third-party by this Agreement. The Parties agree that there are no third-party beneficiaries to this Agreement and that no third-party is entitled to assert a claim against any of the Parties based upon this Agreement. Nothing herein shall be construed as consent by an agency or political subdivision of the State of Florida to be sued by third Parties in any matter arising out of any Agreement.

3.3 **Independent Contractor**. The Parties to this Agreement are acting in the capacity of independent contractors and not as an officer, employee, or agent of one another. Neither Party or its respective agents, employees, subcontractors, or assignees shall represent to others that it has the authority to bind the other Party unless specifically authorized in writing to do so. No right to SBBC retirement, leave benefits, or any other benefits of SBBC employees exists as a result of the performance of any duties or responsibilities under this Agreement. SBBC is not responsible for Social Security, withholding taxes, contributions to unemployment compensation funds or insurance for the other Party or the other Party's officers, employees, agents, subcontractors, or assignees.

3.4 **Default**. Background/History

Since 1991, the SEAS program has served as the cornerstone of the School Board's partnership with the Broward Center for the Performing Arts (BCPA). Through an interlocal agreement, the School Board maintains a forty-year, rent-free lease of the 580-seat Amaturo theater.

What makes the SEAS program truly unique is its commitment to providing educational and artistic opportunities to all students at no cost. Regardless of socioeconomic background, the program is accessible to every school, teacher, and student throughout the district, with no admission fee required for SEAS performances.

The SEAS program offers students meaningful opportunities to become both appreciators and creators of the arts while enriching their educational experience through live performances. During the 2026-2027 season, SEAS is projected to serve over 100,000 students.

Revised 12/12

Broward County Public Schools (BCPS) is one of five founding partners in the public/private partnership that is the Performing Arts Center Authority. Other partners include Broward County, City of Fort Lauderdale, Downtown Development Authority and the Broward Performing Arts Foundation, which represents private donors and corporate supporters. BCPS contributed $8 million to the original construction of the Broward Center for the Performing Arts. The total project cost was $56 million, and the Center opened in 1991. As a condition of its contribution, BCPS was granted a 40-year lease on the Amaturo Theater. The lease allows for BCPS to have access to the theater rent free, paying only for direct user fee expenses (i.e. utilities). The Amaturo Theater became the home for the Student Enrichment in the Arts (SEAS) program. Today, approximately 125,000 students are at the Broward Center annually, participating in a broad range of arts-based educational programs.

The crown jewel of the partnership between BCPS and PACA is the acclaimed SEAS program. The SEAS program has served over 2.5 million public students. For most students, their first exposure to the theater is through SEAS. SEAS has received local and national recognition including:

- National Award of Excellence from the Kennedy Center Alliance for Arts Education
- Greater Fort Lauderdale Alliance "Business Builds Educational Excellence Award"
- Magna Award from the National School Boards Association
- Arts Innovation Award, International Network of Performing & Visual Arts

The partnership between BCPS and PACA also includes: arts integration conferences, Arts for the Future Scholarship program, Broadway workshops for educators and students and Reading Residency through the theater for Head Start.

The five founding partners will fund the Broward Center for the Performing Arts Capital Replacement Renewal Program, which includes the new Miniaci Arts Education Center. The partners will contribute the following amounts:

- Broward County - $12 million, approved by Commissioners, February 28, 2012
- City of Fort Lauderdale - $4.5 million, approved by City Council, July 10, 2012
- Downtown Development Authority, $1 million, approved by DDA, January 30, 2013
- Broward Performing Arts Foundation, $27 million, private donations

The associated agreements are attached to this item.

Under the terms of the agreement, BCPS will contribute $5,750,040 over a ten-year period. Payments of $47,917 per month will commence on October 1, 2015, based on final approved BCPS budget for the 2015-2016 school year. Therefore, there is no financial impact to the School Board for the 2012-13, 2013-14 and 2014-15 school years. The source of funding effective with the first payment on October 1, 2015 shall be from the school system's general fund. Article 2.07 Source of Payments provides that "nothing herein shall obligate SBBC to pay PACA for a period in excess of one year. The payments due hereunder are to be made only from SBBC's available revenues appropriated for such purpose." Section 3.07 permits The School Board to annually determine whether to allocate funds for this program and to terminate the Agreement upon non-appropriation of funds.

BCPS shall have priority use of the Miniaci Arts Education Center for a period of 30 years. BCPS may use the education center to conduct educational programs for district school students and teachers, which may include lectures, seminars, classes and workshops. BCPS shall utilize the Miniaci Arts Education Center rent-free for 30 years. In addition, BCPS shall not be required to pay user fees such as electricity or custodial for use of the education center.

This Agreement has been reviewed and approved as to form and legal content by the Office of the General Counsel. Performing Arts Center Authority agreement will be executed after School Board approval.

10.10 MATERIALITY AND WAIVER OF BREACH

CITY and PACA agree that each requirement, duty, and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof.

PACA shall comply with all applicable federal, state, and local laws, codes, ordinances, rules, and regulations in performing its duties, responsibilities, and obligations pursuant to this Agreement.

10.12 SEVERANCE

EXHIBIT A

I. Project Title: Broward Center Capital Replacement and Renewal Project

II. Scope of Services:

Project Goals. The Projects' primary goals are to:

- Return the Center to *state of the art* status. The latest theater technology will replace existing lighting and sound equipment, designed in the 1980's. This will insure that the Center will continue to attract the world's best artists to its stages.
- Enhance the experience of attendees. Create a more compelling destination in order to maintain the Center's position as a leading cultural/entertainment venue in an increasingly competitive environment.
- Restore the physical plant, including green technologies. Improve operating efficiency and extend the life of the asset.
- Increase capacity for education. Provide additional space for growing educational programs and use new technologies to connect the activity of the Center directly to classrooms through broadcast and web-based distance learning.

Project Timeline. The architectural/engineering phases of the Project began in September 2009 and is on-going with construction estimated to begin in July 2012 and be completed by December 2013. Times are estimates and are subject to change.

Project Funding. The Project cost, estimated at $44 million, excluding fundraising and financing costs, will be funded from private and public partners, including the Broward Performing Arts Foundation, Inc., City of Fort Lauderdale, Broward County, Broward County School Board and the Downtown Development Authority of Fort Lauderdale.

Project Benefits to CITY. While the entire Project will greatly benefit the citizens of Fort Lauderdale, there are three distinct components of the Project which will either directly improve CITY assets or enhance areas specifically targeted to coordinate with the CITY's Public Realm Plan for the activation of the Riverwalk. The estimated value of these Project components is $7,838,000. The components are:

1. **Parking Garage Additions and Restoration**: As the initial on-site impression for the majority of visitors to the Center, the A&E Riverwalk Garage is critical in creating a welcoming gateway for the venue. The Project will improve the access to the upper levels of the garage on the south

side with the introduction of a grand stair, as well as improving the southeast corner of the garage's façade. Estimated cost for this phase of the Project is $474,000.

2. **Hillside Terraces:** Seating terraces will be integrated into the lush landscape of the Broward Center's hillside adjacent to Riverwalk. As suggested by the Public Realm Plan, this will serve to create better connections between the Center's patrons and the Riverwalk and provide a welcome destination for all visitors. The bar in the adjacent Event Pavilion will provide beverage service to the hillside terraces and provide programming to further activate the Riverwalk during performances at the Center and/or during events in Esplanade Park. Estimated cost for this component is $1,017,000.

3. **Riverside Event Pavilion:** One of the centerpieces of the Project will be the introduction of a two-story waterfront event pavilion along the New River on the eastern edge of the Center's campus. The first level will provide beverage service available to not only Center patrons but also to all Riverwalk visitors, and the second level will be a spectacular event pavilion overlooking the New River available for both public and private functions. As a key component in the Riverwalk activation, this west-end anchor is projected at $6,347,000.

IN CONSIDERATION of the mutual terms, conditions, promises, covenants and payments hereinafter set forth, COUNTY and PACA agree as follows:

ARTICLE 1

1.1 Agreement - Agreement shall mean this document and other terms and conditions which are included in the exhibits and documents that are expressly incorporated by reference.

1.2 Board - The Broward County Board of County Commissioners.

1.3 Contract Administrator - The County Administrator or designee. The primary responsibilities of the Contract Administrator are to coordinate and communicate with PACA and to manage and supervise execution and completion of the Scope of Services and the terms and conditions of this Agreement. In the administration of this Agreement, as contrasted with matters of policy, all parties may rely on the instructions or determinations made by the Contract Administrator.

1.4 County Attorney - The chief legal counsel for COUNTY who directs and supervises the Office of County Attorney pursuant to Section 2.10 of the Broward County Charter.

1.5 Project - The Project is defined to mean the approximately $44 Million Dollars capital replacement and renewal plan for the Broward Center for the Performing Arts, which includes the renovation and improvement to the existing theater and building facilities, and the addition of an educational center and event pavilion, all as more specifically described on Exhibit "1" "Project Description" attached hereto and made a part hereof.

ARTICLE 2
SCOPE OF SERVICES

PACA shall undertake and perform all services and obligations identified in this Agreement and as provided on Exhibit "2" attached hereto and made a part hereof, as a condition for eligibility to receive grant funds pursuant to this Agreement. PACA shall provide to COUNTY a Project Evaluation Report for the Project funded through this Agreement on the form attached hereto as Exhibit "3" and made a part hereof. The final Project Evaluation Report shall be filed with the Contract Administrator no later than thirty (30) days after the completion of the Project.

ARTICLE 3
PROMOTION OF GREATER FT. LAUDERDALE CONVENTION AND VISITORS BUREAU

PACA agrees that as a condition for entitlement to any grant funding pursuant to this Agreement, PACA shall be required to undertake or furnish to COUNTY annually certain promotional services and benefits to and on behalf of the Greater Ft. Lauderdale Convention and Visitors Bureau (CVB) for a period of Ten (10) years from the date of this Agreement. Such promotional services and benefits are described on Exhibit "4" attached hereto and

made a part hereof. This Section and the obligations of PACA to provide the benefits and perform the services described on Exhibit "4" shall survive the termination of this Agreement.

ARTICLE 4
CBE COMPLIANCE

4.1 In completing this Project, PACA agrees to cause its Managing General Contractor ("MGC") to include a County Business Enterprises (CBE) goal in the award and administration of the construction of the Project. CBE goals shall be applicable to total amount of non-design construction and management costs of the Project which are presently estimated to be approximately $37,507,056 as more particularly described on Exhibit "6", attached hereto and made a part hereof.

4.2 PACA agrees that subcontract awards to CBE firms are important to the achievement of the Project's CBE participation goal. PACA understands that each CBE firm utilized on the Project to meet the participation goal must be certified by the Broward County Office of Economic and Small Business Development. PACA agrees to ensure that its MGC meets the following CBE participation goal, or makes a good faith effort using all reasonable means to achieve the goal:

Total CBE Goal	18 %

4.3 PACA agrees to engage in on-site reviews to monitor MGC's progress in achieving and maintaining CBE participation goals. PACA agrees to report to COUNTY, at a minimum, all expenditures made to achieve compliance with its assigned goal, the name and business address of each CBE firm participating in the construction agreement, a description of the work performed and/or product or service supplied by each CBE firm; the date and amount of each expenditure. Reports to COUNTY shall include an interim report at fifty percent (50%) of project completion and a final report upon completion of the project.

4.4 COUNTY shall have the right to review all records pertaining to the project's CBE participation.

4.5 The following language regarding the CBE goal shall be included in PACA's MGC agreement:

In completing this Project, MGC agrees to include a County Business Enterprises (CBE) goal in the award and administration of the construction of the Project.

MGC agrees that subcontract awards to CBE firms are important to the achievement of the Project's CBE participation goal. MGC understands that each CBE firm utilized on the Project to meet the participation goal must be certified by the Broward County Office of Economic and Small Business Development. MGC agrees to meet the following CBE participation goal, or make a good faith effort using all reasonable means to achieve the goal:

Total CBE Goal	18 %

MGC agrees to submit to PACA monthly CBE Utilization Reports containing a record of payments made to its CBE subcontractors during the term of this agreement.

MGC agrees to submit to PACA the Final CBE Participation Report containing the total amount paid to its CBE subcontractors. This report shall be submitted with the MGC's request for final payment and release of retainage, if applicable.

MGC shall certify to PACA the amounts paid to each CBE involved in the project as either a joint venture partner or pursuant to a subcontract with the CBE businesses. All such certifications shall be signed by both the MGC and CBEs.

MGC agrees that it shall not terminate a CBE subcontractor for convenience and then perform the work with its own forces or its affiliate. If a situation arises that a CBE subcontractor needs to be replaced or removed from the team, MGC must submit a written request to PACA with detailed explanation or justification for the submission of such request.

In the event of MGC's noncompliance with its participation commitment to a CBE firm (including without limitation the unexcused reduction of the CBE firm's participation), the affected CBE firm shall have the right to the following remedies if the noncompliance is or was alleged to be due to no fault of the CBE firm, and alleged to be due to the willful action or omission of MGC:

The affected CBE firm shall be entitled to damages pursuant to its agreement with MGC.

If the CBE firm has the right to arbitrate and institutes arbitration proceedings claiming non-compliance with these participation commitments by MGC, then in such event the CBE firm may submit the dispute to arbitration. However, arbitration shall not be available as to any dispute between MGC and PACA; nor shall PACA incur any cost, fee, or liability relative to any arbitration proceeding.

Nothing under this subsection shall be construed to limit the rights of and remedies available to PACA, including the right to seek its own damages pursuant to this Agreement.

MGC agrees that nonpayment of a CBE subcontractor or CBE supplier as required by the construction agreement shall be a material breach of this Agreement and that PACA's Contract Administrator may, at its option, withhold grant payments unless and until MGC demonstrates timely payments of sums due to such subcontractors or suppliers. MGC agrees that the presence of a "pay when paid" provision in its contract with a CBE firm shall not preclude PACA or its representatives from inquiring into allegations of nonpayment. The foregoing remedies under this subsection shall not be employed when MGC demonstrates that failure to pay results from a bona fide dispute with its CBE subcontractor or supplier.

If MGC fails to comply with the requirements of this construction agreement, PACA shall have the right to exercise any right or remedy provided in this construction agreement or under applicable law, with all such rights and remedies being cumulative.

ARTICLE 5
TERM AND TIME OF PERFORMANCE

The term of this Agreement shall begin on the date it is fully executed by both parties and shall end December 31, 2015; provided, however, if the term of this Agreement extends beyond a single fiscal year of COUNTY, the continuation of this Agreement beyond the end of any fiscal year shall be subject to the appropriation and availability of funds in accordance with Chapter 129, Florida Statues (as may be amended from time to time). The County Administrator is authorized to execute amendments that extend the term of this Agreement, provided all other terms remain the same.

ARTICLE 6
COMPENSATION

6.1 COUNTY agrees to pay PACA, in the manner specified in Exhibit "2" and subsection 6.3, two separate grants in the amount of $8,000,000, and an eight-to-one matching grant in the amount the $4,000,000, for a total possible grant amount of $12,000,000, for work actually performed and completed pursuant to this Agreement. The grant of $8,000,000 shall be paid first, subject to the conditions of this Agreement, in semi-annual payments upon COUNTY's prior receipt of an invoice for the amount requested which includes all supporting documentation which County, in its reasonable discretion may require. The matching grant in the amount of $4,000,000 shall be paid to PACA after the initial $8,000,000 grant has been exhausted, subject to the terms of this Agreement, in semi-annual payments, upon COUNTY's prior receipt of an invoice for the amount requested which includes all supporting documentation which COUNTY, in its reasonable discretion may require. It is acknowledged and agreed by PACA that this amount is the maximum payable and constitutes a limitation upon COUNTY's obligation to compensate PACA for services and expenses related to this Agreement.

6.2 The $8,000,000 Grant payments from County to PACA shall not exceed $5,000,000 in FY 2012 and $3,000,000 in FY 2013. The $4,000,000 Matching Grant payments from County to PACA shall not exceed $2,000,000 in FY 2014 and $2,000,000 in FY 2015.

6.3 METHOD OF BILLING AND PAYMENT

6.3.1 Subject to the budget limitations in Section 6.2, PACA may submit an invoice for compensation no more often than on a semi-annual basis. The final annual invoice must be received no later than sixty (60) calendar days after this Agreement expires.

6.3.2 Invoices shall be certified by PACA'S executive director or an authorized officer.

6.3.3 COUNTY shall pay PACA within thirty (30) calendar days of receipt of PACA's proper invoice, as required by the "Broward County Prompt Payment Ordinance" (Broward County Ordinance No. 89-49, as may be amended from time to time). To be deemed proper, all invoices must comply with the requirements set forth in this Agreement and must be submitted on the form and pursuant to instructions prescribed by COUNTY.

ARTICLE 7
CHANGES IN SCOPE OF SERVICES

7.1 Upon written request by PACA, the Contract Administrator may approve changes as authorized herein.

7.2 The Contract Administrator may approve changes to the Scope of Services, project description provided that the total matching grant awarded remains unchanged, and the revisions do not diminish the quantity or quality of service to be provided.

7.3 Changes to the Scope of Services pursuant to this Article shall be in writing, signed by PACA and the Contract Administrator.

ARTICLE 8
INDEMNIFICATION

GOVERNMENTAL IMMUNITY: Nothing herein is intended to serve as a waiver of sovereign immunity by any party nor shall anything included herein be construed as consent to be sued by third parties in any matter arising out of this Agreement or any other contract. PACA is a political subdivision as defined in Chapter 768.28, Florida Statutes, and agrees to be fully responsible for the acts and omissions of its agents or employees to the extent permitted by law.

ARTICLE 9
TERMINATION

9.1 This Agreement may be terminated for cause by action of Board or by PACA upon ten (10) days' written notice by the party that elected to terminate., This Agreement may also be terminated by Board upon such notice as Board deems appropriate under the circumstances in the event Board determines that termination is necessary to protect the public health, safety, or welfare. Prior to any termination for cause, the non-breaching party shall provide written notice in accordance with the "Notices" section of this Agreement identifying the breach. If the party in breach has not corrected the breach within thirty (30) days after written notice, the non-breaching party may terminate this Agreement as provided for in this section; provided that, if the failure stated in the notice cannot be corrected within the thirty (30) day period, the non-defaulting party will not unreasonably withhold its consent to an extension of such time if corrective action is instituted by the other party within the applicable period and diligently pursued until the default is corrected.

9.2 Cause for termination of this Agreement shall include, but not be limited to, negligent, intentional, or repeated submission for payment of false or incorrect bills or invoices, failure to suitably perform the work, failure to continuously perform the work in a manner calculated to meet or accomplish the objectives as set forth in this Agreement, or multiple breach of this Agreement which has a material adverse effect on the efficient administration of the Project.

9.3 Notice of termination shall be provided in accordance with the "NOTICES" section of this Agreement except that notice of termination by Contract Administrator which

Contract Administrator deems necessary to protect the public health, safety, or welfare may be verbal notice which shall be promptly confirmed in writing in accordance with the "NOTICES" section of this Agreement.

ARTICLE 10
FINANCIAL STATEMENTS

10.1 Pursuant to the Broward County Administrative Code, Section 29.17, if PACA is receiving more than Twenty Five Thousand Dollars ($25,000.00) in any one COUNTY fiscal year, PACA must submit audited and certified financial statements prepared in accordance with Generally Accepted Accounting Principles and audited by an independent Certified Public Accountant. PACA shall provide to Contract Administrator two (2) copies of such annual financial statements. Said annual financial statement shall be submitted to Contract Administrator within one hundred twenty (120) calendar days after the close of each of PACA's fiscal years in which PACA receives from COUNTY funds under this Agreement.

10.2 The financial statements shall include a statement of financial position, a statement of activities, a statement of cash flows, and any management letters thereby generated by or on behalf of PACA during any one COUNTY fiscal year. PACA shall disclose in footnotes or in a certified or notarized statement signed by the Executive Director (or, in the alternative, equivalent authorized director), the source and amount of funding from any other governmental entity providing five percent (5%) or more of total revenues to PACA.

10.3 For each project support grant awarded under this Agreement, the audited financial statements shall include a special report on specific accounts in order to account for services and/or projects during the PACA's fiscal year for which funds were provided. The special report shall be in accordance with Section 623 of the Codification of Statements on Auditing Standards as promulgated by the American Institute of Certified Public Accountants. The special report shall include:

a. The statement, "no funds, including no interest earned on such funds, are due back to the County," or, a statement listing the funds, including interest earned on such funds, which are due back to the COUNTY;

b. An opinion as to whether the funds received under Agreement with COUNTY for the applicable grant have been expended in accordance with this Agreement; and

c. A schedule of project revenues and expenditures including, but not limited to, the following:

i. all revenues relating to the services and/or project classified by the

source of the revenues; and

ii. all expenditures relating to the services and/or project classified by the type of expenditures, to include the classifications as set forth in Exhibits "1" and "5" of this Agreement.

10.4 The financial statements and, where applicable, the special report, shall include all financial requirements for the entire Scope of Services or project covered by this Agreement, even if a part of the services or project was performed during the previous fiscal year(s) or continues past the end of PACA's current fiscal year.

10.5 Any corrections to the financial statements and/or special report requested by the Contract Administrator shall be made and submitted to the Contract Administrator within sixty (60) calendar days after written request is received by PACA.

10.6 Failure of PACA to meet the financial reporting requirements stated in Article 10 herein shall result in suspension of payment under this or any other grant agreement in effect with COUNTY and shall disqualify PACA from obtaining future grant awards until such financial statements are received and accepted by Contract Administrator in writing.

10.7 PACA acknowledges that submission of financial statements and/or special report to any other COUNTY office, agency, or division does not constitute compliance with requirements to submit such material to Contract Administrator for this Agreement.

10.8 PACA shall provide to Contract Administrator the schedule of correction developed in response to said management letter(s) within thirty (30) calendar days of its development.

10.9 PACA agrees to reimburse COUNTY any and all funds not used in strict compliance with this Agreement within ten (10) calendar days after receipt of the requested reimbursement amount from Contract Administrator.

ARTICLE 11
MISCELLANEOUS

11.1 AUDIT RIGHT AND RETENTION OF RECORDS

COUNTY shall have the right to audit the books, records (including financial receipts), and accounts of PACA that are related to this Agreement. PACA shall keep such books, records, and accounts as may be necessary in order to record complete and correct entries related to this Agreement. All books, records, and accounts of PACA shall be kept in written form, or in a form capable of conversion into written form within a reasonable time, and upon request to do so, PACA shall make same available in written form at no cost to COUNTY.

PACA shall preserve and make available, at reasonable times for examination and audit by COUNTY, all financial records, supporting documents, statistical records,

and any other documents pertinent to this Agreement for the required retention period of the Florida Public Records Act, Chapter 119, Florida Statutes, as may be amended from time to time, if applicable, or, if the Florida Public Records Act is not applicable, for a minimum period of three (3) years after earlier termination of this Agreement. If any audit has been initiated and audit findings have not been resolved at the end of the retention period or three (3) years, whichever is longer, the books, records, and accounts shall be retained by PACA until final resolution of the audit findings. If the Florida Public Records Act is determined by COUNTY to be applicable to PACA's records, PACA shall comply with all requirements thereof; however, no confidentiality or non-disclosure requirement of either federal or state law shall be violated by PACA. Any incomplete or incorrect entry in such books, records, and accounts shall be a basis for COUNTY's disallowance and recovery of any payment upon such entry.

PACA shall, by written contract, require its subcontractors to agree to the requirements and obligations of this Section 11.1.

11.2 EQUAL EMPLOYMENT OPPORTUNITY (EEO) COMPLIANCE

PACA shall not unlawfully discriminate on the basis of race, color, national origin, sex, religion, age, marital status, political affiliation, familial status, disability, sexual orientation, pregnancy, or gender identity and expression in the performance of this Agreement, the solicitation for or purchase of goods or services relating to this Agreement, or in subcontracting work in the performance of this Agreement and shall not otherwise unlawfully discriminate in violation of the Broward County Code, Chapter 16½, as may be amended from time to time. PACA shall include the foregoing or similar language in its contracts with any subcontractor or subconsultants, except that any project assisted by the U.S. Department of Transportation funds shall comply with the non-discrimination requirements in 49 C.F.R. Parts 23 and 26, as amended. Failure to comply with the foregoing requirements is a material breach of this Agreement, which may result in the termination of this Agreement or such other remedy as COUNTY deems appropriate.

PACA shall not unlawfully discriminate against any person in its operations and activities or in its use or expenditure of funds in fulfilling its obligations under this Agreement. PACA shall affirmatively comply with all applicable provisions of the Americans with Disabilities Act (ADA) in the course of providing any services funded by COUNTY, including Titles I and II of the ADA (regarding nondiscrimination on the basis of disability), and all applicable regulations, guidelines, and standards. In addition, PACA shall take affirmative steps to ensure nondiscrimination in employment against disabled persons.

By execution of this Agreement, PACA represents that it has not been placed on the discriminatory vendor list (as provided in Section 287.134, Florida Statutes, as may be amended from time to time). COUNTY hereby materially relies on such

representation in entering into this Agreement. An untrue representation of the foregoing shall entitle COUNTY to terminate this Agreement and recover from PACA all monies paid by COUNTY pursuant to this Agreement, and may result in debarment from COUNTY's competitive procurement activities.

11.3 INDEPENDENT CONTRACTOR

PACA is an independent contractor under this Agreement. Services provided by PACA pursuant to this Agreement shall be subject to the supervision of PACA. In providing such services, neither PACA nor its agents shall act as officers, employees, or agents of the COUNTY. No partnership, joint venture, or other joint relationship is created hereby. COUNTY does not extend to PACA or PACA's agents any authority of any kind to bind COUNTY in any respect whatsoever.

11.4 THIRD PARTY BENEFICIARIES

Neither PACA nor COUNTY intends to directly or substantially benefit a third party by this Agreement. Therefore, the parties agree that there are no third party beneficiaries to this Agreement and that no third party shall be entitled to assert a claim against either of them based upon this Agreement.

EXECUTIVE SUMMARY

AGR24-323 – Broward College Preparatory Transition Deferment Program

Board Meeting Date: July 28, 2026

Requested Action:
Approve the First Amendment to the Agreement between The School Board of Broward County, Florida (SBBC), and The District Board of Trustees of Broward College, Florida, for a term that commences on August 1, 2026, and concludes on July 31, 2027, with budget authority in the amount of $10,000.

General Information

The following information outlines the governing authority, districtwide implications, historical background, strategic alignment with the 2027 goals and guardrails, and the anticipated measurable outcomes and return on investment related to this agenda item.

District-zone Impact/Board Member: District-wide	
School Board Policy Requirement	Florida School Districts are required to develop and implement policies that align with state law regarding diploma deferment for students with disabilities. Deferment programs are provided to Students with disabilities under Policy 4800. Local School Boards must ensure that: • Individualized Education Program (IEP) teams discuss diploma options, including deferment, beginning in high school (or at age 14 when transition planning begins). • The student's intent to defer or accept the standard diploma is documented in the IEP. • Eligible students who choose to defer are provided continued Free Appropriate Public Education (FAPE) and transition services until age 21 (or until age 22, depending on birthday and District implementation). The authority for School Boards to implement and govern these policies comes from state statutes governing Exceptional Student Education (ESE) and high school graduation requirements. Districts must adopt procedures consistent with state law but may design their own extended transition programming models.
Statutory Requirement	**Florida Statute §1003.4282(9)(c),** specifically authorizes diploma deferment for eligible students with disabilities. The statute allows a student with a disability who has met the requirements for a standard high school diploma to defer receipt of the diploma to continue receiving special education and related services.

	Additionally, **Florida Statute §1003.5716** requires transition planning to begin no later than age 14, and mandates documentation in the Individualized Education Program (IEP) regarding: • Postsecondary goals; • Diploma pathway; and • The option to defer receipt of the standard diploma. Under these statutes, "Deferment" applies only to students with disabilities who have an active IEP. The decision to defer must be made by the student (or parent, if under 18) in consultation with the IEP team. These services may continue until the student ages out of eligibility for FAPE.
If the School Board votes "Yes"	• SBBC can provide educational and related services for children with disabilities as per the student's Individualized IEP and will meet the State Board of Education rule 6A-6.0361 (F.A.C.) contractual requirements. Students will have the opportunity to participate in Dual Enrollment and enroll in the Broward College Preparatory Transition Deferment program.
If the School Board votes "No"	• SBBC will not be able to provide education and related services for children with disabilities as per the student's IEP and will not meet the State Board of Education rule 6A-6.0361 requirements. Students will not have the opportunity to participate in Dual Enrollment and enroll in the Broward College Preparatory Transition Deferment program, and deferment options in SBBC for students with disabilities will decrease.
Alignment to the 2027 Strategic Goals and Guardrails	• Goal 4: College & Career Readiness • Guardrail: Equity
Measurable Outcome(s)/Return on Investment	• By the end of the academic year, the enrollment rate of students in post-secondary higher education will increase by 20% through the implementation of this College Preparatory Transition Deferment Program. • Quantitative and qualitative data may be collected through evaluations, student surveys, teacher rating scales, and monthly progress monitoring reports.

Background/History

The ESE Transition Department is responsible for developing programs aligned with students' postsecondary goals, as outlined in their Transition IEPs. This includes serving students within SBBC who choose to defer receipt of their standard high school diploma. According to state mandates, students with an IEP that requires special education, transition planning, transition services, or related services may defer graduation and continue receiving services through age 21. Transition Deferment Programs must be part of a results-oriented process that focuses on improving both the academic and functional achievements of students with disabilities. These programs are designed to support a successful transition from school to post-school activities, such as:

- Postsecondary education
- Vocational education
- Integrated and supported employment
- Continuing and adult education
- Adult services
- Independent living
- Community participation

Background/History (continued)
In alignment with this mandate, the ESE Department is proud to offer the only Transition Deferment Program in the State of Florida specifically designed for students with disabilities who are pursuing postsecondary education at an accredited college.

For the past eight years, this innovative program has served up to ten students annually and focuses on strengthening the academic readiness, executive functioning, and social–interpersonal skills necessary for success in a college environment.

Students attend the Broward College campus five days per week, where they receive targeted instruction in reading, writing, mathematics, self-advocacy, and learning strategies designed to support college-level expectations. In addition to this specialized support, students have the opportunity to participate in Dual Enrollment courses, allowing them to explore potential career pathways and academic interests while earning up to nine college credits.

This unique program, currently the only college preparatory transition deferment program of its kind in Florida, is intentionally designed to bridge the gap between high school and higher education. By providing structured academic support and real-world college experiences, the program equips students with disabilities with the skills, confidence, and independence needed to successfully transition into college life.

School Impact, Stakeholder Engagement, and Implementation Considerations

This section outlines how the proposed item will impact schools, including the selection and prioritization process where applicable, as well as stakeholder and end-user input. It also addresses technology and capital asset life cycles, replacement planning, and any additional operational details necessary to provide the Board with a comprehensive understanding of implementation.

Impact on Schools	This program only impacts Nova High School.
School Selection /Prioritization	This deferment program is available to students across the District who apply and are accepted into the Broward College Prep Deferment Program. Once accepted, students will enroll at Nova High School. Nova was strategically selected to ensure that high school students across the District are eligible for transportation services to access this deferment option. This location allows the program to be accessible to all high school

	students with an IEP who choose to defer their standard high school diploma and participate in extended transition services
Community/ Stakeholder Engagement	The development and expansion of this deferment transition program have been guided by meaningful stakeholder engagement and direct end-user input. Feedback has been gathered from students with disabilities, parents and guardians, ESE specialists, job coaches, school administrators, and community partners.
End-User Input	Families consistently express the need for continued, structured transition services beyond traditional high school graduation to better prepare students for employment, post-secondary education, and independent living. Students have shared that additional time building work skills, self-advocacy, travel training, and real-world experiences increases their confidence and readiness for adulthood. According to the Florida Education & Training Information Program (FETPIP) data, we need to increase students with disabilities enrollment into higher education. Transition Deferment options support this goal by allowing students additional time to build the academic, independent living, and self-advocacy skills needed for postsecondary success. These programs help increase the number of students with disabilities graduating from SBBC and successfully enrolling in college.

WHEREAS, BC enters into this Agreement to provide a College Preparatory Transition Deferment Program ("CPTDP") to support District students with disabilities who have deferred their high school diploma to prepare for transition into higher education; and

WHEREAS, District students who complete the CPTDP will have the opportunity to apply for admission into their college of choice as a degree or certificate seeking student; and

WHEREAS, Rule 6A-1.012, 11(b), Florida Administrative Code and School Board Policy 3800, Section III.D., the requirement for requesting competitive solicitations for commodities or contractual services from three or more sources is hereby waived as authorized by Section 1010.04(4)(a), Florida Statutes, for the purchase of educational services.

NOW, THEREFORE, in consideration of the premises and of the mutual covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree as follows:

ARTICLE 1 - RECITALS

1.01 **Recitals**. The parties agree that the foregoing recitals are true and correct and that such recitals are incorporated herein by reference.

ARTICLE 2 – SPECIAL CONDITIONS

2.01 **Term of Agreement**. The term of this Agreement shall commence upon the date of the last signature below and conclude on July 31, 2026; unless terminated earlier pursuant to section 3.05 of this Agreement; and upon the approval of both parties in writing in the form of an Amendment to this Agreement executed by both parties, may be extended for four (4) additional periods of one (1) year each.

2.02 **Description of the BC's CPTDP.**

(a) CPTDP. BC's College Preparatory Transition Deferment Program ("CPTDP") shall take place during the SBBC approved School Calendar each year of the term of this Agreement. The CPTDP shall not take place during the summer months each year during the term of this Agreement.

(b) Qualifications to enter CPTDP.

1) All applicants of the CPTDP must complete all graduation requirements (not on access points) and complete all requirements for a standard high school diploma.
2) All applicants have average to above average adaptive skills, as determined by the interview team, and are otherwise qualified for college.
3) All applicants must follow BC dual enrollment guidelines at the time of application.
4) All applicants must demonstrate the ability to independently meet the BC academic requirements and the behavioral expectations set forth in the BC Student Code of Conduct.
5) The CPTDP is a one (1) year college preparatory program for District students ("students") with disabilities who have deferred their high school diploma to prepare for transition into higher education. Students may only attend CPTDP once.
6) All applicants must be referred by the SBBC transition team and have transition, college bound goals.

(c) CPTDP Recruitment and Application Process.

1) All applications and enrollment requirements for both SBBC and BC must be completed by May 1 of the application year.
2) The interview team will consist of an SBBC Transition Specialist, CPTDP's ESE teacher, and the Senior Director of BC's Accessibility Resources. Delegates may be assigned, as necessary.
3) Application material needed for each applicant may include Transition Individualized Education Plans (TIEPs), psychoeducational evaluations, adaptive skills checklists. The interview team reserves the right to request additional documentation if deemed necessary to determine entry into the CPTDP.
4) While the interview team will make recommendations for acceptance, the final decision for entry into CPTDP is made by BC's Senior Director of Accessibility Resources or their delegate.
5) Once a decision is made on an applicant the SBBC transition team will send the letters of acceptance/denial to applicants.

SBBC shall notify the other party at the earliest possible time before such termination. No penalty shall accrue to SBBC in the event this provision is exercised, and SBBC shall not be obligated or liable for any future payments due or any damages because of termination under this section.

2.21 **Excess Funds**. Any party receiving funds paid by SBBC under this Agreement agrees to promptly notify SBBC of any funds erroneously received from SBBC upon the discovery of such erroneous payment or overpayment. Any such excess funds shall be refunded to SBBC, together with any applicable statutory interest.

ARTICLE 3 – GENERAL CONDITIONS

3.01 **No Waiver of Sovereign Immunity**. Nothing herein is intended to serve as a waiver of sovereign immunity by any agency or political subdivision to which sovereign immunity may be applicable or of any rights or limits to liability existing under Section 768.28, Florida Statutes. This section survives the termination of all performance or obligations under this Agreement and is fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

3.02 **No Third-Party Beneficiaries**. The parties expressly acknowledge that it is not their intent to create or confer any rights or obligations under this Agreement in or upon any third person or entity. None of the parties intend to directly or substantially benefit a third-party by this Agreement. The parties agree that there are no third-party beneficiaries to this Agreement and that no third-party is entitled to assert a claim against any of the parties based upon this

Agreement. Nothing herein shall be construed as consent by an agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of any Agreement.

3.03 **Independent Contractor**. The parties to this Agreement are acting in the capacity of independent contractors and not as an officer, employee, or agent of one another. Neither party or its respective agents, employees, subcontractors, or assignees shall represent to others that it has the authority to bind the other party unless specifically authorized in writing to do so. No right to SBBC retirement, leave benefits, or any other benefits of SBBC employees exists as a result of the performance of any duties or responsibilities under this Agreement. SBBC is not responsible for Social Security, withholding taxes, contributions to unemployment compensation funds or insurance for the other party or the other party's officers, employees, agents, subcontractors, or assignees.

3.04 **Default**. The parties agree that, if either party is in default of its obligations under this Agreement, the non-defaulting party shall provide to the defaulting party (30) calendar days' written notice to cure the default. However, if said default cannot be cured within said thirty (30) calendar day period and the defaulting party is diligently attempting in good faith to cure same, the time period will be reasonably extended to allow the defaulting party additional cure time. Upon the occurrence of a default that is not cured during the applicable cure period, this Agreement may be terminated by the non-defaulting party upon thirty (30) calendar days' notice. This remedy is not intended to be exclusive of any other remedy, and each and every such remedy is cumulative and in addition to every other remedy now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder precludes any other or future exercise thereof. Nothing in this section shall be construed to preclude termination for convenience pursuant to section 3.05.

3.05 **Termination**. This Agreement may be terminated with or without cause by SBBC during the term hereof upon thirty (30) calendar days' written notice to the other parties of its desire to terminate this Agreement. In the event of such termination, SBBC is entitled to a *pro rata* refund of any pre-paid amounts for any services scheduled to be delivered after the effective date of such termination. SBBC has no liability for any property left on SBBC's property by any party to this Agreement after the termination of this Agreement. Any party contracting with SBBC under this Agreement agrees that any of its property placed upon SBBC's facilities pursuant to this Agreement shall be removed within ten (10) business days following the termination, conclusion, or cancellation of this Agreement and that any such property remaining upon SBBC's facilities after that time shall be deemed to be abandoned, that title to such property shall pass to SBBC, and that SBBC may use or dispose of such property as SBBC deems fit and appropriate.

3.06 **Compliance with Laws**. Each party shall comply with all applicable federal, state and local laws, BC or SBBC policies, codes, rules, and regulations in performing its duties, responsibilities, and obligations pursuant to this Agreement.

3.07 **Place of Performance**. All of SBBC's obligations under the terms of this Agreement are reasonably susceptible of being performed in Broward County, Florida and are payable and performable in Broward County, Florida.

3.08 **Governing Law and Venue**. This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Any disputes, controversies, or legal problems arising out of this Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted exclusively to the jurisdiction of the State courts of the Seventeenth Judicial Circuit of Broward County, Florida. Each party agrees and admits that the state courts of the Seventeenth Judicial Circuit of Broward County, Florida shall have jurisdiction over it for any dispute arising under this Agreement.

3.09 **Entirety of Agreement**. This document incorporates and includes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, the parties agree that no deviation from the terms hereof is predicated upon any prior representations or agreements, whether oral or written. Without limitation of the foregoing, the terms and conditions in any Purchase Order issued by SBBC shall not apply to the CPTDP; the only terms and conditions that apply are contained in this Agreement.

3.10 **Binding Effect**. This Agreement is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns.

3.11 **Assignment**. Neither this Agreement nor any interest herein may be assigned, transferred, or encumbered by any party without the prior written consent of the other party. There shall be no partial assignment of interests under this Agreement including, without limitation, the partial assignment of any right to receive payments from SBBC.

3.12 **Captions**. The captions, section designations, section numbers, article numbers, titles, and headings appearing in this Agreement are inserted only as a matter of convenience, have no substantive meaning, and in no way define, limit, construe, or describe the scope or intent of such articles or sections of this Agreement, nor in any way affect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

3.13 **Severability**. If any one or more of the sections, paragraphs, sentences, clauses, or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable, or void in any respect, such does not affect the remaining portions of this Agreement and the same remain in full force and effect as if such invalid, illegal, unlawful, unenforceable, or void sections, paragraphs, sentences, clauses, or provisions had never been included.

3.14 **Preparation of Agreement**. The parties acknowledge that they have sought and obtained whatever competent advice and counsel necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

3.15 **Amendments**. No modification, amendment, or alteration in the terms or conditions contained herein is effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

3.16 **Waiver**. The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement is not a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver is only effective as to the specific instance for which it is obtained and is not a continuing or future waiver.

3.17 **Force Majeure**. Neither party is obligated to perform any duty, requirement, or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage, accident, flood, acts of God, strikes, or other labor disputes, riot or civil commotions, epidemics, pandemics, government regulations, and the issuance or extension of existing government orders of the United States, the State of Florida, or local county and municipal governing bodies, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). In no event shall a lack of funds on the part of either party be deemed Force Majeure.

3.18 **Rights and Remedies.** The duties and obligations imposed by this Agreement and the rights and remedies available thereunder are in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law.

3.19 **Survival**. All representations and warranties made herein, , obligations to pay or reimburse BC or SBBC, obligations to maintain and allow inspection and audit of records and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds survive the termination of this Agreement.

3.20 **Agreement Administration.** SBBC has delegated authority to the Superintendent of Schools or her/his designee to take any actions necessary to implement and administer this Agreement.

3.21 **Counterparts and Multiple Originals.** This Agreement may be executed in multiple originals, and may be executed in counterparts, each of which is an original, but all of which, taken together, shall constitute one and the same Agreement.

3.22 **Authority**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement upon the date of the last signature below.

All certificates (and any required documents) must be received and approved by SBBC's Risk Management Department before any work commences in order to permit VENDOR sufficient time to remedy any deficiencies.

(f) Required Conditions. Liability policies must include the following terms on the Certificate of Insurance:

1) The School Board of Broward County, Florida, its members, officers, employees, and agents are added as additional insureds.

2) All liability policies are primary of all other valid and collectable coverage maintained by The School Board of Broward County, Florida.

3) Certificate Holder: The School Board of Broward County, Florida, 600 SE 3rd Ave, 11th Floor, Fort Lauderdale, FL 33301.

(h) Cancellation of Insurance. Insert Name is prohibited from providing services under this Agreement with SBBC without first obtaining the minimum required insurance coverage and must notify SBBC within two (2) business days if required insurance is cancelled.

(i) SBBC reserves the right to review, reject or accept any required policies of insurance, including limits, coverages, or endorsements herein throughout the term of this Agreement.

2.14 **Equal Opportunity Provision**. The parties agree that no person shall be subjected to discrimination because of age, race, color, disability, gender identity, gender expression, marital

status, national origin, religion, sex or sexual orientation in the performance of the parties' respective duties, responsibilities and obligations under this Agreement.

2.15 **Certification Regarding Scrutinized Activities**. Section 287.135(2)(a), Florida Statutes, prohibits a company from bidding on, submitting a proposal for, or entering into or renewing an Agreement for goods or services of any amount if, at the time of contracting or renewal, the company is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, or is engaged in a boycott of Israel. Section 287.135(2)(b), Florida Statutes, further prohibits a company from bidding on, submitting a proposal for, or entering into or renewing an Agreement for goods or services over One Million Dollars and 00/100 Cents ($1,000,000.00) if, at the time of contracting or renewal, the company is on either the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, both created pursuant to Section 215.473, Florida Statutes, or the company is engaged in business operations in Cuba or Syria. Entering into this Agreement constitutes certification by VENDOR that it is not listed on any of the following: (a) the Scrutinized Companies that Boycott Israel List, (b) Scrutinized Companies with Activities in Sudan List, or (c) the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List. VENDOR further certifies that it is not engaged in a boycott of Israel or engaged in business operations in Cuba or Syria. VENDOR acknowledges that pursuant to Section 287.135, Florida Statutes, the submission of a false certification may subject it to civil penalties, attorney's fees, and/or costs. VENDOR further understands that any Agreement with SBBC for goods or services of any amount may be terminated at SBBC's option if VENDOR (a) is found to have submitted a false certification, (b) has been placed on the List of Scrutinized Companies that Boycott Israel, or (c) is engaged in a boycott of Israel. And, in addition to the foregoing, if the amount of the Agreement is one million dollars ($1,000,000) or more, the Agreement may be terminated at SBBC's option if VENDOR is found to have submitted a false certification, has been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria.

2.16 **Annual Appropriation**. SBBC's performance and obligations under this Agreement is contingent upon an annual budgetary appropriation by its governing body. If SBBC does not allocate funds for the payment of services or products to be provided under this Agreement, this Agreement may be terminated by SBBC at the end of the period for which funds have been allocated. SBBC shall notify the other party at the earliest possible time before such termination. No penalty accrues to SBBC if this provision is exercised, and SBBC is not obligated or liable for any future payments due or any damages as a result of termination under this section.

2.17 **Excess Funds**. Any party receiving funds paid by SBBC under this Agreement agrees to promptly notify SBBC of any funds erroneously received from SBBC upon the discovery of such erroneous payment or overpayment. Any such excess funds shall be refunded to SBBC, together with any applicable statutory interest.

2.18 **Proprietary Information**.

(a) Any documents or materials submitted to SBBC shall be open for inspection by any person in accordance with Section 119.07, Florida Statutes, except as otherwise exempted from disclosure by applicable law. A party contracting with SBBC must clearly mark, label, designate, or identify any portions of any documents or materials it provides to SBBC which are claimed to be confidential and exempt from public inspection, provided that the confidential or exempt portions of such documents or materials are clearly marked with specific citations of law that provide the asserted confidentiality or exemption. A contracting party's failure to identify any confidential or exempt portions of documents or materials or to specify the law establishing their confidential or exempt status is a waiver of confidential or exempt status for any such unidentified or unsupported portions of any documents or materials.

(b) If SBBC receives a public record request for documents or materials in its custody under this Agreement which have been properly marked as confidential or exempt, SBBC will notify the contracting party of the public records request. The notice shall state that the requested materials will be produced by SBBC to the requesting party within ten (10) calendar days of the date of the written notification, unless the contracting party has initiated an action at its sole cost and expense in a court of competent jurisdiction to preclude the release of the requested materials. The contracting party shall name the party requesting the documents or materials as a defendant and will not name SBBC as a party to the action, but will provide SBBC with notice of such proceedings. The contracting party agrees to indemnify SBBC for any costs, expenses, and attorney's fees SBBC may incur with regard to any legal proceedings and judgments that may arise from the request for the contracting party's public records that are subject to claims of confidential or exempt status. A failure to timely initiate the legal action required by this paragraph is a waiver of any claim that the requested information is confidential and exempt from public disclosure. The contracting party waives any cause of action against SBBC for the release of materials pursuant to a public records request except for any claims based upon the intentional or grossly negligent conduct of any employee of SBBC.

2.19 **Affidavit Regarding the Use of Coercion for Labor and Services**. Pursuant to Section 787.06(13), Florida Statutes, all nongovernmental entities executing, renewing, or extending a contract with The School Board of Broward County, Florida must provide an affidavit signed by an officer or representative of the nongovernmental entity under penalty of perjury stating that the nongovernmental entity does not use coercion for labor or services as defined in that statute. The submission of a false affidavit may subject a nongovernmental entity to civil penalties, attorney's fees, and/or costs. Any Agreement with SBBC shall be terminated by SBBC without recourse if a nongovernmental entity is found to have submitted a false affidavit.

ARTICLE 3 – GENERAL CONDITIONS

3.01 **No Waiver of Sovereign Immunity**. Nothing herein is intended to serve as a waiver of sovereign immunity by any agency or political subdivision to which sovereign immunity may be applicable or of any rights or limits to liability existing under Section 768.28, Florida Statutes. This section survives the termination of all performance or obligations under this Agreement and is fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

3.02 **No Third-Party Beneficiaries**. The parties expressly acknowledge that it is not their intent to create or confer any rights or obligations under this Agreement in or upon any third person or entity. None of the parties intend to directly or substantially benefit a third-party by this Agreement. The parties agree that there are no third-party beneficiaries to this Agreement and that no third-party is entitled to assert a claim against any of the parties based upon this Agreement. Nothing herein shall be construed as consent by an agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of any Agreement.

3.03 **Independent Contractor**. The parties to this Agreement are acting in the capacity of independent contractors and not as an officer, employee, or agent of one another. Neither party or its respective agents, employees, subcontractors, or assignees shall represent to others that it has the authority to bind the other party unless specifically authorized in writing to do so. No right to SBBC retirement, leave benefits, or any other benefits of SBBC employees exists as a result of the performance of any duties or responsibilities under this Agreement. SBBC is not responsible for Social Security, withholding taxes, contributions to unemployment compensation funds or insurance for the other party or the other party's officers, employees, agents, subcontractors, or assignees.

3.04 **Default**. The parties agree that, if either party is in default of its obligations under this Agreement, the non-defaulting party shall provide to the defaulting party (30) calendar days' written notice to cure the default. However, if said default cannot be cured within said thirty (30) calendar day period and the defaulting party is diligently attempting in good faith to cure same, the time period will be reasonably extended to allow the defaulting party additional cure time. Upon the occurrence of a default that is not cured during the applicable cure period, this Agreement may be terminated by the non-defaulting party upon thirty (30) calendar days' notice. This remedy is not intended to be exclusive of any other remedy, and each and every such remedy is cumulative and in addition to every other remedy now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder precludes any other or future exercise thereof. Nothing in this section shall be construed to preclude termination for convenience pursuant to section 3.05.

3.05 **Termination**. This Agreement may be terminated with or without cause by SBBC during the term hereof upon thirty (30) calendar days' written notice to the other parties of its desire to terminate this Agreement. In the event of such termination, SBBC is entitled to a *pro rata* refund of any pre-paid amounts for any services scheduled to be delivered after the effective date of such termination. SBBC has no liability for any property left on SBBC's property by any party to this Agreement after the termination of this Agreement. Any party contracting with SBBC under this Agreement agrees that any of its property placed upon SBBC's facilities pursuant to this Agreement shall be removed within ten (10) business days following the termination, conclusion, or cancellation of this Agreement and that any such property remaining upon SBBC's facilities after that time shall be deemed to be abandoned, that title to such property shall pass to SBBC, and that SBBC may use or dispose of such property as SBBC deems fit and appropriate.

3.06 **Compliance with Laws**. Each party shall comply with all applicable federal, state and local laws, SBBC policies, codes, rules, and regulations in performing its duties, responsibilities, and obligations pursuant to this Agreement.

3.07 **Place of Performance**. All of SBBC's obligations under the terms of this Agreement are reasonably susceptible of being performed in Broward County, Florida and are payable and performable in Broward County, Florida.

3.08 **Governing Law and Venue**. This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Any disputes, controversies, or legal problems arising out of this Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted exclusively to the jurisdiction of the State courts of the Seventeenth Judicial Circuit of Broward County, Florida or to the jurisdiction of the United States District Court for the Southern District of Florida. Each party agrees and admits that the state courts of the Seventeenth Judicial Circuit of Broward County, Florida or the United States District Court for the Southern District of Florida has jurisdiction over it for any dispute arising under this Agreement.

3.09 **Entirety of Agreement**. This document incorporates and includes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, the parties agree that no deviation from the terms hereof is predicated upon any prior representations or agreements, whether oral or written.

3.10 **Binding Effect**. This Agreement is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns.

3.11 **Assignment**. Neither this Agreement nor any interest herein may be assigned, transferred, or encumbered by any party without the prior written consent of the other party. There shall be no partial assignment of interests under this Agreement including, without limitation, the partial assignment of any right to receive payments from SBBC.

3.12 **Captions**. The captions, section designations, section numbers, article numbers, titles, and headings appearing in this Agreement are inserted only as a matter of convenience, have no substantive meaning, and in no way define, limit, construe, or describe the scope or intent of such articles or sections of this Agreement, nor in any way affect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

3.13 **Severability**. If any one or more of the sections, paragraphs, sentences, clauses, or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable, or void in any respect, such does not affect the remaining portions of this Agreement and the same remain in full force and effect as if such invalid, illegal, unlawful, unenforceable, or void sections, paragraphs, sentences, clauses, or provisions had never been included.

3.14 **Preparation of Agreement**. The parties acknowledge that they have sought and obtained whatever competent advice and counsel necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

3.15 **Amendments**. No modification, amendment, or alteration in the terms or conditions contained herein is effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

3.16 **Waiver**. The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement is not a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver is only effective as to the specific instance for which it is obtained and is not a continuing or future waiver.

3.17 **Force Majeure**. Neither party is obligated to perform any duty, requirement, or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage, accident, flood, acts of God, strikes, or other labor disputes, riot or civil commotions, epidemics, pandemics, government regulations, and the issuance or extension of existing government orders of the United States, the State of Florida, or local county and municipal governing bodies, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). In no event shall a lack of funds on the part of either party be deemed Force Majeure.

3.18 **Rights and Remedies**. The duties and obligations imposed by this Agreement and the rights and remedies available thereunder are in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law.

3.19 **Survival**. All representations and warranties made herein, indemnification obligations, obligations to reimburse SBBC, obligations to maintain and allow inspection and audit of records and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds survive the termination of this Agreement.

3.20 **Agreement Administration**. SBBC has delegated authority to the Superintendent of Schools or her/his designee to take any actions necessary to implement and administer this Agreement.

3.21 **Counterparts and Multiple Originals**. This Agreement may be executed in multiple originals, and may be executed in counterparts, each of which is an original, but all of which, taken together, shall constitute one and the same Agreement.

3.22 **Authority**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement upon the date of the last signature below.

EXECUTIVE SUMMARY

AGR24-346 – Supplemental Software (J&J Educational, Bootcamp, Inc.)

Board Meeting Date: July 28, 2026

Requested Action:
Approve the Second Amendment to the Agreement between The School Board of Broward County, Florida (SBBC), and J&J Educational Boot Camp, Inc., for a term that commences on August 1, 2026, and concludes on July 31, 2027, with no increase in budget authority.

General Information

The following information outlines the governing authority, districtwide implications, historical background, strategic alignment with the 2027 goals and guardrails, and the anticipated measurable outcomes and return on investment related to this agenda item.

District-zone Impact/Board Member: District-wide	
School Board Policy Requirement	• Not Applicable
Statutory Requirement	• Not Applicable
If the School Board votes "Yes"	• Schools can purchase J&J Educational Boot Camp as a supplemental resource for elementary science instruction. This approval will strengthen the District's Science Proficiency Initiative and support measurable improvements in science academic performance.
If the School Board votes "No"	• Schools will not have the opportunity to purchase J&J Educational Boot Camp as a supplemental resource for elementary science instruction. As a result, schools may search for and utilize other programs that are not District-approved.
Alignment to the 2027 Strategic Goals and Guardrails	• Goal 3: Science Proficiency
Measurable Outcome(s)/Return on Investment	• Sixty-four percent of students who used the J and J Bootcamp program were proficient on the Grade 5 Science Assessment in SY 2025-2026.

Background/History
The science resources provided by J&J Educational Boot Camp are designed as comprehensive, standards-aligned tools that help students build deep scientific understanding through interactive and engaging methods. These resources include a mix of print materials—such as student booklets, laboratory manuals, assessments, and daily practice drills—as well as digital components like interactive games, quizzes, and animated activities delivered through the Basecamp platform. The program emphasizes hands-on learning with lab experiments, visual aids, and kinesthetic activities that support different learning styles, while also reinforcing key concepts from the Next Generation Sunshine State Standards.

Additionally, tools like benchmark drills, vocabulary games, and full-length practice assessments help students strengthen critical thinking and test-taking skills, making the program both an instructional support system and an effective intervention for improving science achievement.

2.15 **Equal Opportunity Provision.** The parties agree that no person shall be subjected to discrimination because of age, race, color, disability, gender identity, gender expression, marital status, national origin, religion, sex or sexual orientation in the performance of the parties' respective duties, responsibilities and obligations under this Agreement.

2.16 **Certification Regarding Scrutinized Activities**. Section 287.135(2)(a), Florida Statutes, prohibits a company from bidding on, submitting a proposal for, or entering into or renewing an Agreement for goods or services of any amount if, at the time of contracting or renewal, the company is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, or is engaged in a boycott of Israel. Section 287.135(2)(b), Florida Statutes, further prohibits a company from bidding on, submitting a proposal for, or entering into or renewing an Agreement for goods or services over One Million Dollars and 00/100 Cents ($1,000,000.00) if, at the time of contracting or renewal, the company is on either the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, both created pursuant to Section 215.473, Florida Statutes, or the company is engaged in business operations in Cuba or Syria. Entering into this Agreement constitutes certification by VENDOR that it is not listed

on any of the following: (a) the Scrutinized Companies that Boycott Israel List, (b) Scrutinized Companies with Activities in Sudan List, or (c) the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List. VENDOR further certifies that it is not engaged in a boycott of Israel or engaged in business operations in Cuba or Syria. VENDOR acknowledges that pursuant to Section 287.135, Florida Statutes, the submission of a false certification may subject it to civil penalties, attorney's fees, and/or costs. VENDOR further understands that any Agreement with SBBC for goods or services of any amount may be terminated at SBBC's option if VENDOR (a) is found to have submitted a false certification, (b) has been placed on the List of Scrutinized Companies that Boycott Israel, or (c) is engaged in a boycott of Israel. And, in addition to the foregoing, if the amount of the Agreement is one million dollars ($1,000,000) or more, the Agreement may be terminated at SBBC's option if VENDOR is found to have submitted a false certification, has been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria.

2.17 **Annual Appropriation.** SBBC's performance and obligations under this Agreement is contingent upon an annual budgetary appropriation by its governing body. If SBBC does not allocate funds for the payment of services or products to be provided under this Agreement, this Agreement may be terminated by SBBC at the end of the period for which funds have been allocated. SBBC shall notify the other party at the earliest possible time before such termination. No penalty accrues to SBBC if this provision is exercised, and SBBC is not obligated or liable for any future payments due or any damages as a result of termination under this section.

2.18 **Excess Funds.** Any party receiving funds paid by SBBC under this Agreement agrees to promptly notify SBBC of any funds erroneously received from SBBC upon the discovery of such erroneous payment or overpayment. Any such excess funds shall be refunded to SBBC, together with any applicable statutory interest.

2.19 **Proprietary Information.**

(a) Any documents or materials submitted to SBBC shall be open for inspection by any person in accordance with Section 119.07, Florida Statutes, except as otherwise exempted from disclosure by applicable law. A party contracting with SBBC must clearly mark, label, designate, or identify any portions of any documents or materials it provides to SBBC which are claimed to be confidential and exempt from public inspection, provided that the confidential or exempt portions of such documents or materials are clearly marked with specific citations of law that provide the asserted confidentiality or exemption. A contracting party's failure to identify any confidential or exempt portions of documents or materials or to specify the law establishing their confidential or exempt status is a waiver of confidential or exempt status for any such unidentified or unsupported portions of any documents or materials.

(b) If SBBC receives a public record request for documents or materials in its custody under this Agreement which have been properly marked as confidential or exempt, SBBC will notify the contracting party of the public records request. The notice shall state that the requested materials will be produced by SBBC to the requesting party within ten (10) calendar days of the date of the written notification unless the contracting party has initiated an action at its sole cost and expense in a court of competent jurisdiction to preclude the release of the requested materials. The contracting party shall name the party requesting the documents or materials as a defendant

and will not name SBBC as a party to the action but will provide SBBC with notice of such proceedings. The contracting party agrees to indemnify SBBC for any costs, expenses, and attorney's fees SBBC may incur with regard to any legal proceedings and judgments that may arise from the request for the contracting party's public records that are subject to claims of confidential or exempt status. A failure to timely initiate the legal action required by this paragraph is a waiver of any claim that the requested information is confidential and exempt from public disclosure. The contracting party waives any cause of action against SBBC for the release of materials pursuant to a public records request except for any claims based upon the intentional or grossly negligent conduct of any employee of SBBC.

2.20 **Affidavit Regarding the Use of Coercion for Labor and Services.** Pursuant to Section 787.06(13), Florida Statutes, all nongovernmental entities executing, renewing, or extending a contract with The School Board of Broward County, Florida must provide an affidavit signed by an officer or representative of the nongovernmental entity under penalty of perjury stating that the nongovernmental entity does not use coercion for labor or services as defined in that statute. The submission of a false affidavit may subject a nongovernmental entity to civil penalties, attorney's fees, and/or costs. Any Agreement with SBBC shall be terminated by SBBC without recourse if a nongovernmental entity is found to have submitted a false affidavit.

ARTICLE 3 - GENERAL CONDITIONS

3.01 **No Waiver of Sovereign Immunity.** Nothing herein is intended to serve as a waiver of sovereign immunity by any agency or political subdivision to which sovereign immunity may be applicable or of any rights or limits to liability existing under Section 768.28, Florida Statutes. This section survives the termination of all performance or obligations under this Agreement and is fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

3.02 **No Third-Party Beneficiaries.** The parties expressly acknowledge that it is not their intent to create or confer any rights or obligations under this Agreement in or upon any third person or entity. None of the parties intend to directly or substantially benefit a third-party by this Agreement. The parties agree that there are no third-party beneficiaries to this Agreement and that no third-party is entitled to assert a claim against any of the parties based upon this Agreement. Nothing herein shall be construed as consent by an agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of any Agreement.

3.03 **Independent Contractor.** The parties to this Agreement are acting in the capacity of independent contractors and not as an officer, employee, or agent of one another. Neither party or its respective agents, employees, subcontractors, or assignees shall represent to others that it has the authority to bind the other party unless specifically authorized in writing to do so. No right to SBBC retirement, leave benefits, or any other benefits of SBBC employees exists as a result of the performance of any duties or responsibilities under this Agreement. SBBC is not responsible for Social Security, withholding taxes, contributions to unemployment compensation funds or insurance for the other party or the other party's officers, employees, agents, subcontractors, or assignees.

3.04 **Default.** The parties agree that, if either party is in default of its obligations under this Agreement, the non-defaulting party shall provide to the defaulting party (30) calendar days' written notice to cure the default. However, if said default cannot be cured within said thirty (30) calendar day period and the defaulting party is diligently attempting in good faith to cure same, the time period will be reasonably extended to allow the defaulting party additional cure time. Upon the occurrence of a default that is not cured during the applicable cure period, this Agreement may be terminated by the non-defaulting party upon thirty (30) calendar days' notice. This remedy is not intended to be exclusive of any other remedy, and each and every such remedy is cumulative and in addition to every other remedy now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder precludes any other or future exercise thereof. Nothing in this section shall be construed to preclude termination for convenience pursuant to section 3.05.

3.05 **Termination.** This Agreement may be terminated with or without cause by SBBC during the term hereof upon thirty (30) calendar days' written notice to the other parties of its desire to terminate this Agreement. In the event of such termination, SBBC is entitled to a *pro rata* refund of any pre-paid amounts for any services scheduled to be delivered after the effective date of such termination. SBBC has no liability for any property left on SBBC's property by any party to this Agreement after the termination of this Agreement. Any party contracting with SBBC under this Agreement agrees that any of its property placed upon SBBC's facilities pursuant to this Agreement shall be removed within ten (10) business days following the termination, conclusion, or cancellation of this Agreement and that any such property remaining upon SBBC's facilities after that time shall be deemed to be abandoned, that title to such property shall pass to SBBC, and that SBBC may use or dispose of such property as SBBC deems fit and appropriate.

3.06 **Compliance with Laws.** Each party shall comply with all applicable federal, state and local laws, SBBC policies, codes, rules, and regulations in performing its duties, responsibilities, and obligations pursuant to this Agreement.

3.07 **Place of Performance.** All of SBBC's obligations under the terms of this Agreement are reasonably susceptible of being performed in Broward County, Florida and are payable and performable in Broward County, Florida.

3.08 **Governing Law and Venue.** This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Any disputes, controversies, or legal problems arising out of this Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted exclusively to the jurisdiction of the State courts of the Seventeenth Judicial Circuit of Broward County, Florida or to the jurisdiction of the United States District Court for the Southern District of Florida. Each party agrees and admits that the state courts of the Seventeenth Judicial Circuit of Broward County, Florida or the United States District Court for the Southern District of Florida has jurisdiction over it for any dispute arising under this Agreement.

3.09 **Entirety of Agreement.** This document incorporates and includes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this

document. Accordingly, the parties agree that no deviation from the terms hereof is predicated upon any prior representations or agreements, whether oral or written.

3.10 **Binding Effect.** This Agreement is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns.

3.11 **Assignment.** Neither this Agreement nor any interest herein may be assigned, transferred, or encumbered by any party without the prior written consent of the other party. There shall be no partial assignment of interests under this Agreement including, without limitation, the partial assignment of any right to receive payments from SBBC.

3.12 **Captions.** The captions, section designations, section numbers, article numbers, titles, and headings appearing in this Agreement are inserted only as a matter of convenience, have no substantive meaning, and in no way define, limit, construe, or describe the scope or intent of such articles or sections of this Agreement, nor in any way affect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

3.13 **Severability.** If any one or more of the sections, paragraphs, sentences, clauses, or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable, or void in any respect, such does not affect the remaining portions of this Agreement and the same remain in full force and effect as if such invalid, illegal, unlawful, unenforceable, or void sections, paragraphs, sentences, clauses, or provisions had never been included.

3.14 **Preparation of Agreement.** The parties acknowledge that they have sought and obtained whatever competent advice and counsel necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

3.15 **Amendments.** No modification, amendment, or alteration in the terms or conditions contained herein is effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

3.16 **Waiver.** The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement is not a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver is only effective as to the specific instance for which it is obtained and is not a continuing or future waiver.

3.17 **Force Majeure.** Neither party is obligated to perform any duty, requirement, or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage, accident, flood, acts of God, strikes, or other labor disputes, riot or civil commotions, epidemics, pandemics, government regulations, and the issuance or extension of

existing government orders of the United States, the State of Florida, or local county and municipal governing bodies, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). In no event shall a lack of funds on the part of either party be deemed Force Majeure.

3.18 **Rights and Remedies.** The duties and obligations imposed by this Agreement and the rights and remedies available thereunder are in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law.

3.19 **Survival.** All representations and warranties made herein, indemnification obligations, obligations to reimburse SBBC, obligations to maintain and allow inspection and audit of records and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds survive the termination of this Agreement.

3.20 **Agreement Administration.** SBBC has delegated authority to the Superintendent of Schools or her/his designee to take any actions necessary to implement and administer this Agreement.

3.21 **Counterparts and Multiple Originals.** This Agreement may be executed in multiple originals, and may be executed in counterparts, each of which is an original, but all of which, taken together, shall constitute one and the same Agreement.

3.22 **Authority.** Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the Effective Date.

EXECUTIVE SUMMARY

AGR25-021 - Dual Enrollment - Florida Atlantic University (FAU)

Board Meeting Date: July 28, 2026

Requested Action:
Approve the First Amendment to the Agreement between The School Board of Broward County, Florida (SBBC), and The Florida Atlantic University of Florida Board of Trustees (FAU), for a term that commences on August 1, 2026, and concludes on July 31, 2028, with budget authority in the amount of $60,000.

General Information

The following information outlines the governing authority, districtwide implications, historical background, strategic alignment with the 2027 goals and guardrails, and the anticipated measurable outcomes and return on investment related to this agenda item.

District-zone Impact/Board Member: District-wide	
School Board Policy Requirement	• Not Applicable
Statutory Requirement	• Supports Florida Statute 1007.21 – Dual Enrollment
If the School Board votes "Yes"	• SBBC students will be able to enroll in Dual Enrollment college courses at FAU, which are creditable toward a high school diploma and a vocational/technical certificate, or an associate or baccalaureate degree.
If the School Board votes "No"	• SBBC students will not be able to enroll in and take advantage of Dual Enrollment college courses at FAU.
Alignment to the 2027 Strategic Goals and Guardrails	• Goal 4: College and Career Readiness
Measurable Outcome(s)/Return on Investment	• Achievement in FAU Dual Enrollment courses provides significant college-credit savings for SBBC students. Each Dual Enrollment course has the potential to earn college-level credit, resulting in $200.08 per credit hour in savings at Florida in-state universities. • During the 2023–2024 School Year (SY), 39 Broward County Public School (BCPS) students enrolled in 68 FAU Dual Enrollment courses earned 203 undergraduate credit hours, resulting in a total tuition cost savings for students and parents of $40,616.24. • During the 2024–2025 SY, 27 BCPS students enrolled in 57 FAU Dual Enrollment courses earned 173 undergraduate credit hours, resulting in a total tuition cost savings for students and parents of $34,613.84.

	• These figures reflect the direct financial benefit of Dual Enrollment participation at Florida Atlantic University. Therefore, a two-year investment of $45,883.11 yields more than $ 75,200.00 in cost savings toward students' college tuition costs.

Background/History
This Agreement will allow students in grades 6-12 to take postsecondary coursework and simultaneously earn credit toward a High School Diploma, a Career Certificate, an Industry Certification, or an Associate or Baccalaureate Degree at a Florida public or eligible private postsecondary institution.
SBBC and FAU wish to offer accelerated mechanisms whereby eligible SBBC students are permitted to enroll in a postsecondary course creditable toward a high school diploma and a vocational/technical certificate, or an associate or baccalaureate degree.

To disclose information from education records to FAU for any other purpose (except as allowable by federal and state law), SBBC shall obtain and maintain written consent of the parent or student age 18 or over.

2.03 **Required Insurance Coverages**. Each party acknowledges without waiving its right of sovereign immunity as provided by Section 768.28, Florida Statutes, that each party is self-insured for general liability under state law with coverage limits of $200,000 per person and $300,000 per occurrence, or such monetary wavier limits that may change and be set forth by the legislature.

2.04 **Existing Articulation Agreements**. Nothing in this Agreement shall negate or supersede any articulation agreements between the parties relating to a specific SBBC school site or program.

ARTICLE 3 – ARTICULATION COMMITTEE

3.01 SBBC and FAU agree to utilize the Articulation Committee (Committee) to monitor the activities established by this Agreement, to recommend enhancements and other changes, and to generally promote articulation. Committee members and/or designees shall be as follows:

Members from SBBC:
Chief Academic Officer
High School Principal Executive Chair
Director of School Counseling and BRACE
Director of Secondary Learning

Members from FAU:
High School Dual Enrollment Coordinator
Executive Director of Undergraduate Admissions
University Registrar
Provost
Assistant Provost, Accreditation and Assessment
Dean of Undergraduate Studies

3.02 The Committee will meet in September and February and other times as needed and mutually agreed upon. All parties agree to abide by any applicable regulatory changes regarding college credit dual enrollment passed during the relevant fiscal year.

ARTICLE 4 - INFORMATION FOR STUDENTS AND PARENTS

4.01 SBBC will provide students and families with informational documents describing the educational benefits and eligibility requirements for the various program acceleration options as required by Section 1007.271(8), Florida Statutes.

4.02 Each high school curriculum guide will describe acceleration options.

4.03 On an annual basis, SBBC will notify the parents of rising 9th graders regarding the importance of rigorous coursework such as Advanced Placement and Dual Enrollment courses.

ARTICLE 5 -APPROVED COURSES

5.01 **Approved Courses**. All courses which meet the terms and conditions of courses that are offered by the FAU catalog shall be eligible for dual enrollment, except as set forth on FAU dual-enrollment website at http://www.fau.edu/registrar/dual-enrollment/#Course. Courses eligible for dual enrollment must be a minimum of three college credits; courses with two or more college credits with a 1.0 or more credit lab are acceptable. If there are co-requisite courses required by FAU, the courses must be taken simultaneously. A delineation of high school credits earned for completion of each dual enrollment course is available at www.FLVC.org under "Degrees and Careers; Accelerated Credit Options; Dual Enrollment and Early Admissions Credit." SBBC dual enrollment students will be limited, and must be approved by SBBC, to register for special programs offered at FAU during the summer semesters.

The foregoing courses and special programs are subject to resource availability including staffing, credentialing, and other constraints, as determined by FAU in its sole yet reasonable discretion. Additionally, FAU does not make any guarantees as to availability or that any specific course or program will be offered every semester.

ARTICLE 6 – STUDENT ELIGIBILITY, ADMISSIONS & REGISTRATION

6.01 FAU Dual Enrollment registration policies and procedures may be found at FAU's dual enrollment website: http://www.fau.edu/registrar/dual-enrollment/. FAU will provide assistance to the designated high school guidance staff to accomplish application and registration requirements; however, it is the responsibility of the student and the high school guidance counselor to complete the required sections of the forms and select eligible courses that are aligned to core subject areas. As educational planning is strongly encouraged, students who bring incomplete dual enrollment applications and/or forms to the FAU Registrar's Office will not be permitted to register for dual enrollment. Additionally, all forms and applications must be submitted by the published deadline each semester. A home education dual enrollment student must be registered with SBBC.

6.02 Students participating in dual enrollment options must meet the following minimum entrance eligibility requirements: (1) enrolled in a course of study which will fulfill requirements for high school graduation; (2) earned four high school credits with at least a 3.0 cumulative un-weighted high school GPA, two of which must be an English Language Arts course and a mathematics course; (3) must earn the minimum standardized college placement scores for college-level courses in all three placement subject areas (Reading, Math, and English), and satisfy the college preparatory testing requirements of Section 1008.30, Florida Statutes, and Rule 6A-

10.0315, Florida Administrative Code; and (4) any additional criteria determined by FAU in its sole discretion and in compliance with state laws and rules.

6.03 Common placement test score (PERT, Accuplacer, SAT, ACT, CLT) requirements are as follows:

Test	Reading/Verbal	Writing/English	Mathematics/Algebra
A.C.T.	19	17	19
Next-Generation Accuplacer (Since August 2022)	256	253	261
P.E.R.T.	106	103	114

Test	Reading/Verbal and Writing	Mathematics
S.A.T.	490	480
C.L.T.	38	16

6.04 SBBC students must be enrolled in any grades 6 through 12 to be eligible for dual enrollment and meet the minimum scores for college readiness as determined by Rule 6A-10.0315, Florida Administrative Code. All prerequisite testing must be completed prior to enrollment. The student or parent/guardian is responsible for all testing fees. High school seniors are not eligible for dual enrollment during the summer term at the end of their senior year. Home Education students must submit a Legal Compliance and Eligibility Form on the FAU website: https://www.fau.edu/registrar/dual-enrollment/ for each term they enroll, validated by the SBBC Home Education Office, at the time of registration.

6.05 Other required documents needed in order to complete the Dual Enrollment admissions process include: (i) test score reports for approved standardized assessments such as ACT, SAT, CLT or the PERT or all sections of a recognized college placement test; and (ii) an official copy of the transcript will be provided by the high school for purpose of GPA verification.

6.06 Eligible students are subject to credit limits prescribed by law, the State Board of Education, the Florida Board of Governors, or any other applicable policy or legal authority. After earning 60 dual enrollment credits or the student turns 19 (whichever occurs first), the student may not be admitted to FAU as a dual enrollment student unless otherwise provided by law.

6.07 All Dual Enrollment students are responsible for officially withdrawing from classes they are no longer attending. Students must receive high school permission to withdraw from a dual enrollment course. The Registrar's office must receive an official withdrawal from a Dual Enrollment course(s) by the deadline published by FAU. Students who do not officially withdraw from a class may receive a failing grade, which becomes a part of their permanent transcript records and could have a negative effect on future college admissions, scholarship opportunities, and/or financial aid.

ARTICLE 7- ADDITIONAL STUDENT ELIGIBILITY REQUIREMENTS

7.01 If the student is projected to graduate from high school before the scheduled completion date of a postsecondary course, the student may not register for that course through dual enrollment/Early Admissions program. However, the student may apply to FAU and pay the required registration, tuition, and fees if the student meets FAU's admissions requirements.

7.02 Regardless of meeting student eligibility requirements for continued enrollment, a student may lose the opportunity to participate in a dual enrollment course if the student is disruptive to the learning process such that the progress of other students or the efficient administration of the course is hindered. Students should adhere to the FAU Student Code of Conduct: https://www.fau.edu/dean/studentconduct/.

7.03 FAU shall enter into a home education articulation agreement with each home school education student seeking enrollment in a dual enrollment course and the student's parent.

7.04 Early Admission shall be a form of dual enrollment through which eligible secondary students enroll in a postsecondary institution on a full-time basis (12 minimum to 18 maximum credit hours) in courses that are creditable toward the high school diploma and associate and/or baccalaureate degree. Students must maintain full-time enrollment (12 credit hours) in order to continue their Early Admission status. Students seeking enrollment under Early Admission status must meet all eligibility requirements for dual enrollment listed within this document and meet FAU Early Admission requirements, including a Freshman Early Admissions Profile, 3.8 high school grade point average and an SAT (all three sections) of 1800, SAT (both two sections) of 1290, a CLT of 91, or an ACT of 27. Unlike dual enrolled students, early admission students may enroll in one or two credit hour courses if required by FAU. Early admission students are allowed to continue in the program as long as their most current FAU term GPA is a minimum of 2.0. In this case, a "D" or "F" grade may be repeated for grade forgiveness with permission from the high school principal/dual enrollment designee. FAU only considers applicants for Early Admissions starting in the Fall term of the senior year. For early admission, students must maintain a 2.0 term grade point average in college level work (18-credit option students must meet GPA/letter grade requirements of their selected graduation option).

7.05 Students enrolled in postsecondary instruction not creditable toward a high school diploma (continuing education and avocational courses) shall not be considered dual enrollment students. Students who choose to enroll in such courses must meet all standard admission requirements for the courses and shall be required to assume the cost of tuition, fees and instructional materials necessary for such courses.

7.06 Special dual enrollment credit programs may have admissions requirements that differ from those stated in this Agreement. Additional eligibility criteria may apply.

7.07 Students in grades 6-9 must have earned four (4) high school credits with at least a 3.5 unweighted GPA, two of which must be an English Language Arts course and a mathematics course per SBBC requirements. All other dual enrollment requirements must also be met.

ARTICLE 8 – UNIVERSITY COURSE EXPECTATIONS

Both FAU and SBBC will collaborate in notifying the students of the options to participate in Dual Enrollment, and will inform students and parents or guardians of university course level expectations, including, but not limited to the following:

8.01 Dual enrollment courses must meet university curricular expectations and are at the same depth and rigor of non-dual enrollment university instruction, including those dual enrollment courses offered on the high school campus. While appropriate for college-level study,

course materials and class discussions may reflect topics not typically included in secondary courses which some parents may find objectionable for minors. Courses will not be modified to accommodate variations in student age and/or maturity.

8.02 Students must maintain a 3.0 cumulative grade point average in other high school academic work and must earn a grade of "C" or better in each college level course in order to continue in the program. Semester hours for dual enrollment will be limited to eight (8) semester hours in each full fall term and spring term, and not to exceed a total of four (4) semester hours in the summer term, regardless of the number of institutions attended. Students may be counted as full-time equivalent students for instruction provided outside the required number of school days if such instruction counts as credit toward a high school diploma. All courses must be at least three (3) credits and be taken for a letter grade, not Pass/Fail or Satisfactory/Unsatisfactory. Dual enrollment students who receive a "C-" or lower will not be allowed to continue in the program; however, all grades are calculated in a student's GPA and will appear on their high school and college transcripts. Students earning a low grade or "W" in a dual enrollment course may find difficulty in meeting future college admissions requirements and the qualifications for financial aid/scholarships, including the Florida Bright Futures Scholarship.

8.03 Dual enrollment students are required to abide by the same guidelines outlined in FAU's Student Handbook: http://www.fau.edu/student/handbook/ which contains the academic calendar, code of conduct, students' rights and responsibilities, grading and evaluation process, academic dishonesty, disciplinary procedures, as well as accommodations provided for students with disabilities. No exceptions to these guidelines will be made for dual enrollment students. It is the students' responsibility to attend all classes in which they are enrolled.

8.04 Students may not register for directed independent study courses, study abroad courses, graduate level course or courses for which prerequisites have not been met. Students may only register for four College of Business courses – ECO 2013 Macroeconomic Principles, ECO 2023 Microeconomic Principles, ISM 2000 Information Systems Fundamentals, and GEB 2011 Introduction to Business. All courses must be at least three (3) credits and be taken for a letter grade, not Pass/Fail or Satisfactory/Unsatisfactory.

ARTICLE 9 – EXCEPTIONS

9.01 There are no grade point average exceptions for FAU dual enrollment.

9.02 There are no exceptions to the professional rules, guidelines, and expectations stated in the faculty handbook for FAU. All faculty members must meet or exceed the academic and professional preparation requirements for teaching at FAU. For SACS-COC accreditation purposes, postsecondary transcripts of all full-time or adjunct faculty teaching dual enrollment and early admissions courses must be on file with FAU, regardless of who actually employs them or pays their salary. It is the responsibility of the faculty to request official faculty credentials and transcripts be sent to FAU (Human Resources). All dual enrollment instructors meet or exceed the minimum qualifications established by SACS-COC. FAU department chairs will observe and monitor all dual enrollment instructors who are employees of SBBC. All such teachers shall be credentialed through FAU's new credentialing process.

9.03 There are no exceptions to the FAU student handbook rules, guidelines, and expectations, including without limitation the FAU Student Code of Conduct.

ARTICLE 10 - SCHOOL DISTRICT RESPONSIBILITIES REGARDING STUDENT ELIGIBILITY & PERFORMANCE MONITORING

10.01 Principals and guidance counselors are responsible for determining student eligibility and monitoring student performance and enrollment status to avoid pitfalls that may prevent students from completing high school graduation requirements.

10.02 SBBC shall annually assess the demand for dual enrollment and provide that information to FAU by December 1st pursuant to Section 1007.271, Florida Statutes.

10.03 Home education dual enrollment students may participate in the dual enrollment program for two consecutive years of academic instruction or until the end of the term in which the student reaches the age of 19. After the two consecutive years are completed or the student turns 19 (whichever occurs first), the home education student may not be admitted as a dual enrollment student unless otherwise provided by law. An SBBC District Home School official will only sign recommendation forms for home education students who have not earned more than 60 total dual enrollment credits regardless of the institution where the credits were taken.

10.04 In the event that a dual-enrolled high school student wants to request accommodations for a disability (based on an Individualized Educational Plan or a 504 Plan), SBBC shall provide the student with copies of the documentation verifying the disability and facilitate contact with the Student Accessibility Services office at FAU. The student will meet with OSD staff so documentation can be reviewed and reasonable accommodations arranged.

10.05 Enrollment and registration holds may be placed on the student's account to prohibit schedule changes outside of the drop/add period. SBBC will not reimburse FAU for classes students drop during the FAU-prescribed drop/add period. If a class is dropped after the drop/add period, standard tuition rates will be assessed to SBBC. A student, with permission from his/her assigned high school, who withdraws from the Dual Enrollment Program, must return to their high school for class assignment by the principal/designee.

ARTICLE 11- TRANSMISSION OF STUDENT GRADES

11.01 SBBC and FAU must weigh dual enrollment courses the same as Advanced Placement, International Baccalaureate, and Advanced International Certificate of Education courses when honor grade point averages (HPA) are calculated. Alternative grade calculation or weighting systems that discriminate against dual enrollment courses are prohibited. Grades may be accessed by students through FAU's online record system. In addition, a transcript of grades is sent to each high school dual enrollment principal/designee at the end of each semester.

ARTICLE 12 - COSTS

12.01 SBBC shall pay the standard tuition rate per credit hour (currently $105.07), including costs for instructional materials to FAU or their designated bookstore agent, from funds provided in the Florida Education Finance Program for providing instruction when such instruction takes place on FAU's campuses/centers, including online courses, during the fall or spring term to cover instructional and support costs incurred by FAU. SBBC shall pay the cost of FAU student identification cards and transportation access fees for dual enrollment students taking courses at

FAU campuses/centers. Subject to annual appropriation in the General Appropriations Act, FAU shall receive an amount of funding equivalent to the standard tuition rate per credit hour for each dual enrollment course taken by a student during the summer term.

12.02 When dual enrollment is provided on the high school site by FAU faculty, SBBC shall reimburse the costs associated with the proportion of salary and benefits incurred by FAU to provide the instruction.

12.03 When dual enrollment is provided on the high school site by SBBC faculty, SBBC will pay for the cost of instructors and is not responsible for payment to FAU.

12.04 It is the responsibility of the Home Education student to purchase any instructional materials required for FAU Dual Enrollment course(s).

12.05 Students are responsible for their own transportation.

12.06 Students are responsible to FAU for all library fines.

13.24 **Force Majeure**. Neither party shall be obligated to perform any duty, requirement or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage, accident, flood, acts of God, strikes, or other labor disputes, riot or civil commotions, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). SBBC shall notify the other party at the earliest possible time before such termination. Section 287.135(2)(a), Florida Statutes, prohibits a company from bidding on, submitting a proposal for, or entering into or renewing an Agreement for goods or services of any amount if, at the time of contracting or renewal, the company is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, or is engaged in a boycott of Israel. Section 287.135(2)(b), Florida Statutes, further prohibits a company from bidding on, submitting a proposal for, or entering into or renewing an Agreement for goods or services over One Million Dollars and 00/100 Cents ($1,000,000.00) if, at the time of contracting or renewal, the company is on either the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, both created pursuant to Section 215.473, Florida Statutes, or the company is engaged in business operations in Cuba or Syria. Entering into this Agreement constitutes certification by VENDOR that it is not listed on any of the following: (a) the Scrutinized Companies that Boycott Israel List, (b) Scrutinized Companies with Activities in Sudan List, or (c) the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List. VENDOR further certifies that it is not engaged in a boycott of Israel or engaged in business operations in Cuba or Syria. VENDOR acknowledges that pursuant to Section 287.135, Florida Statutes, the submission of a false certification may subject it to civil penalties, attorney's fees, and/or costs. VENDOR further understands that any Agreement with SBBC for goods or services of any amount may be terminated at SBBC's option if VENDOR (a) is found to have submitted a false certification, (b) has been placed on the List of Scrutinized Companies that Boycott Israel, or (c) is engaged in a boycott of Israel. And, in addition to the foregoing, if the amount of the Agreement is one million dollars ($1,000,000) or more, the Agreement may be terminated at SBBC's option if VENDOR is found to have submitted a false certification, has been placed on the Scrutinized Companies with

Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria.

2.20 **Annual Appropriation**. The performance and obligations of SBBC under this Agreement shall be contingent upon an annual budgetary appropriation by its governing body. If SBBC does not allocate funds for the payment of services or products to be provided under this Agreement, this Agreement may be terminated by SBBC at the end of the period for which funds have been allocated. SBBC shall notify the other party at the earliest possible time before such termination. No penalty shall accrue to SBBC in the event this provision is exercised, and SBBC shall not be obligated or liable for any future payments due or any damages as a result of termination under this section.

2.21 **Excess Funds**. Any party receiving funds paid by SBBC under this Agreement agrees to promptly notify SBBC of any funds erroneously received from SBBC upon the discovery of such erroneous payment or overpayment. Any such excess funds shall be refunded to SBBC.

2.22 **Proprietary Information.**

(a) Any documents or materials submitted to SBBC shall be open for inspection by any person in accordance with Section 119.07, Florida Statutes, except as otherwise exempted from disclosure by applicable law. A party contracting with SBBC must clearly mark, label, designate, or identify any portions of any documents or materials it provides to SBBC which are claimed to be confidential and exempt from public inspection, provided that the confidential or exempt portions of such documents or materials are clearly marked with specific citations of law that provide the asserted confidentiality or exemption. A contracting party's failure to identify any confidential or exempt portions of documents or materials or to specify the law establishing their confidential or exempt status is a waiver of confidential or exempt status for any such unidentified or unsupported portions of any documents or materials.

(b) If SBBC receives a public record request for documents or materials in its custody under this Agreement which have been properly marked as confidential or exempt, SBBC will notify the contracting party of the public records request. The notice shall state that the requested materials will be produced by SBBC to the requesting party within ten (10) calendar days of the date of the written notification, unless the contracting party has initiated an action at its sole cost and expense in a court of competent jurisdiction to preclude the release of the requested materials. The contracting party shall name the party requesting the documents or materials as a defendant and will not name SBBC as a party to the action, but will provide SBBC with notice of such proceedings. The contracting party agrees to indemnify SBBC for any costs, expenses, and attorney's fees SBBC may incur with regard to any legal proceedings and judgments that may arise from the request for the contracting party's public records that are subject to claims of confidential or exempt status. A failure to timely initiate the legal action required by this paragraph is a waiver of any claim that the requested information is confidential and exempt from public disclosure. The contracting party waives any cause of action against SBBC for the release of materials pursuant to a public records request except for any claims based upon the intentional or grossly negligent conduct of any employee of SBBC.

2.23 **Forced Labor**.

(a) Excluded Vendors - the Forced Labor Vendor List. Section 287.1346, Florida Statutes, prohibits SBBC from awarding a contract or purchase order to, or transacting business

pertaining to the provision of commodities with a vendor on the Forced Labor Vendor List created and maintained by the Florida Department of Management Services, or an entity under the control of such vendor, for a period of three hundred and sixty-five (365) calendar days after the date the vendor was placed on the list (the "Disqualification Period") unless the vendor is removed from the list pursuant to Section 287.1346(5)(d), Florida Statutes. VENDOR understands that any contract or purchase order with SBBC for the provision of commodities of any amount may be terminated during the Agreement Term at SBBC's sole option pursuant to Section 287.1346(4)(a)2.b, Florida Statutes, if VENDOR or an entity under VENDOR's control is placed on the Forced Labor Vendor List created and maintained by the Florida Department of Management Services.

(b) Forced Labor Certification Form. Before entering into a contract or purchase order with SBBC for the provision of commodities, a member of VENDOR's senior management is required by Section 287.1346(4)(b), Florida Statutes, to certify, in writing, that to the best of his or her knowledge the commodities such vendor is offering to the SBBC have not been produced, in whole or in part, by forced labor. "Forced labor" means work or service exacted from any person, including a minor, under the menace of a penalty for nonperformance and for which the worker does not offer himself or herself voluntarily or an activity that violates Section 787.06, Florida Statutes. "Senior management" includes chief executive officers; assistant chief executive officers, including, but not limited to, assistant presidents, vice presidents, or assistant treasurers; chief financial officers; chief personnel officers; or any employee of an entity performing similar functions. The Vendor acknowledges that pursuant to Section 287.1346(4)(f), Florida Statutes, the submission of a false certification may subject it to civil fines and penalties. VENDOR must provide SBBC with an updated and current Forced Labor Certification Form prior to any renewal or extension of this contract or purchase order. The original copy of VENDOR's executed Forced Labor Certification Form will be kept in SBBC's contract file.

ARTICLE 3 – GENERAL CONDITIONS

3.01 **No Waiver of Sovereign Immunity**. Nothing herein is intended to serve as a waiver of sovereign immunity by any agency or political subdivision to which sovereign immunity may be applicable or of any rights or limits to liability existing under Section 768.28, Florida Statutes. This section shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

3.02 **No Third Party Beneficiaries**. The parties expressly acknowledge that it is not their intent to create or confer any rights or obligations in or upon any third person or entity under this Agreement. None of the parties intend to directly or substantially benefit a third party by this Agreement. The parties agree that there are no third-party beneficiaries to this Agreement and that no third party shall be entitled to assert a claim against any of the parties based upon this Agreement. Nothing herein shall be construed as consent by an agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of any Agreement.

3.03 **Independent Contractor**. The parties to this Agreement shall at all times be acting in the capacity of independent contractors and not as an officer, employee or agent of one another. Neither party or its respective agents, employees, subcontractors, or assignees shall represent to others that it has the authority to bind the other party unless specifically authorized in writing to do so. No right to SBBC retirement, leave benefits or any other benefits of SBBC employees shall

exist as a result of the performance of any duties or responsibilities under this Agreement. SBBC shall not be responsible for social security, withholding taxes, contributions to unemployment compensation funds or insurance for the other party or the other party's officers, employees, agents, subcontractors, or assignees.

3.04 **Default**. The parties agree that, if either party is in default of its obligations under this Agreement, the non-defaulting party shall provide to the defaulting party (30) calendar days' written notice to cure the default. However, if said default cannot be cured within said thirty (30) calendar day period and the defaulting party is diligently attempting in good faith to cure same, the time period shall be reasonably extended to allow the defaulting party additional cure time. Upon the occurrence of a default that is not cured during the applicable cure period, this Agreement may be terminated by the non-defaulting party upon thirty (30) calendar days' written notice. This remedy is not intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or future exercise thereof. Nothing in this section shall be construed to preclude termination for convenience pursuant to section 3.05.

3.05 **Termination**. This Agreement may be canceled with or without cause by SBBC during the term hereof upon thirty (30) calendar days' written notice to the other parties of its desire to terminate this Agreement. In the event of such termination, SBBC shall be entitled to a *pro rata* refund of any pre-paid amounts for any services scheduled to be delivered after the effective date of such termination. SBBC shall have no liability for any property left on SBBC's property by any party to this Agreement after the termination of this Agreement. Any party contracting with SBBC under this Agreement agrees that any of its property placed upon SBBC's facilities pursuant to this Agreement shall be removed within ten (10) business days following the termination, conclusion or cancellation of this Agreement and that any such property remaining upon SBBC's facilities after that time shall be deemed to be abandoned, title to such property shall pass to SBBC, and SBBC may use or dispose of such property as SBBC deems fit and appropriate.

3.06 **Compliance with Laws**. Each party shall comply with all applicable federal, state and local laws, SBBC policies, codes, rules and regulations in performing its duties, responsibilities, and obligations pursuant to this Agreement.

3.07 **Place of Performance**. All obligations of SBBC under the terms of this Agreement are reasonably susceptible of being performed in Broward County, Florida and shall be payable and performable in Broward County, Florida.

3.08 **Governing Law and Venue**. This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Any controversies or legal problems arising out of this Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted exclusively to the jurisdiction of the State courts of the Seventeenth Judicial Circuit of Broward County, Florida or to the jurisdiction of the United States District Court for the Southern District of Florida. Each party agrees and admits that the state courts of the Seventeenth Judicial Circuit of Broward County, Florida or the United States District Court for the Southern District of Florida shall have jurisdiction over it for any dispute arising under this Agreement.

3.09 **Entirety of Agreement**. This document incorporates and includes all prior negotiations, correspondence, conversations, agreements and understandings applicable to the

matters contained herein and the parties agree that there are no commitments, agreements, or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, the parties agree that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

3.10 **Binding Effect**. This Agreement is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns.

3.11 **Assignment**. Neither this Agreement nor any interest herein may be assigned, transferred or encumbered by any party without the prior written consent of the other party. Notwithstanding the foregoing, VENDOR may assign this Agreement without the consent of SBBC, in relation to a corporate reorganization in the event of its bankruptcy. Should VENDOR experience a corporate reorganization in the event of its bankruptcy, it shall notify SBBC in writing no later than thirty (30) calendar days and SBBC shall have the option to terminate VENDOR without any liability pursuant to section 3.05. In the event of such termination, SBBC shall be entitled to a *pro rata* refund of any pre-paid amounts for any scheduled services scheduled to be delivered after the effective date of such termination. Nothing in this section 3.11 shall affect SBBC's right to terminate this Agreement under section 3.05 of this Agreement. There shall be no partial assignments of this Agreement including, without limitation, the partial assignment of any right to receive payments from SBBC.

3.12 **Captions**. The captions, section designations, section numbers, article numbers, titles, and headings appearing in this Agreement are inserted only as a matter of convenience, have no substantive meaning, and in no way define, limit, construe, or describe the scope or intent of such articles or sections of this Agreement, nor in any way affect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

3.13 **Severability**. If any one or more of the sections, paragraphs, sentences, clauses or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable or void in any respect, such will not affect the remaining portions of this Agreement and the same will remain in full force and effect as if such invalid, illegal, unlawful, unenforceable or void sections, paragraphs, sentences, clauses, or provisions had never been included herein.

3.14 **Preparation of Agreement**. The parties acknowledge that they have sought and obtained whatever competent advice and counsel as was necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

3.15 **Amendments**. No modification, amendment, or alteration in the terms or conditions contained herein shall be effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

3.16 **Waiver**. The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement shall not be deemed a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver shall only be effective as to the specific instance for which it is obtained and shall not be deemed a continuing or future

waiver.

3.17 **Force Majeure**. Neither party shall be obligated to perform any duty, requirement or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage, accident, flood, acts of God, strikes, or other labor disputes, riot or civil commotions, epidemics, pandemics, government regulations, and the issuance or extension of existing government orders of the United States, the State of Florida, or local county or municipal governing bodies, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). In no event shall a lack of funds on the part of either party be deemed Force Majeure.

3.18 **Survival**. All representations and warranties made herein, indemnification obligations, obligations to reimburse SBBC, obligations to maintain and allow inspection and audit of records and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds shall survive the termination of this Agreement.

3.19 **Agreement Administration**. SBBC has delegated authority to the Superintendent of Schools or his/her designee to take any actions necessary to implement and administer this Agreement.

3.20 **Counterparts and Multiple Originals**. This Agreement may be executed in multiple originals, and may be executed in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same Agreement.

3.21 **Authority**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the date of last execution below.

(c) Acceptability of Insurance Carriers. The insurance policies required under this Agreement shall be issued by companies qualified to do business in the State of Florida and having a rating of at least A- VI by AM Best or Aa3 by Moody's Investor Service.

(d) Verification of Coverage. Proof of the required insurance must be furnished by VENDOR to SBBC's Risk Management Department by Certificate of Insurance within fifteen (15) calendar days of the date of this Agreement. All certificates (and any required documents) must be received and approved by SBBC's Risk Management Department before any work commences in order to permit VENDOR sufficient time to remedy any deficiencies. VENDOR must verify its account information and provide contact details for its Insurance Agent via the link provided to it by email.

(e) Required Conditions. Liability policies must include the following terms on the Certificate of Insurance:

1) The School Board of Broward County, Florida, its members, officers, employees, and agents are added as additional insureds.

2) All liability policies are primary of all other valid and collectable coverage maintained by The School Board of Broward County, Florida.

3) Certificate Holder: The School Board of Broward County, Florida, 600 SE 3rd Ave, Fort Lauderdale, Fl.

(f) Cancellation of Insurance. VENDOR is prohibited from providing services under this Agreement with SBBC without first obtaining the minimum required insurance coverage and must notify SBBC within two (2) business days if required insurance is cancelled.

(g) SBBC reserves the right to review, reject or accept any required policies of insurance, including limits, coverages, or endorsements herein throughout the term of this agreement.

2.19 **Equal Opportunity Provision**. The parties agree that no person shall be subjected to discrimination because of age, race, color, disability, gender identity, gender expression, marital status, national origin, religion, sex or sexual orientation in the performance of the parties' respective duties, responsibilities and obligations under this Agreement.

2.20 **Certification Regarding Scrutinized Activities**. Section 287.135(2)(a), Florida Statutes, prohibits a company from bidding on, submitting a proposal for, or entering into or renewing an Agreement for goods or services of any amount if, at the time of contracting or renewal, the company is on the Scrutinized Companies that Boycott Israel List, created pursuant

to Section 215.4725, Florida Statutes, or is engaged in a boycott of Israel. Section 287.135(2)(b), Florida Statutes, further prohibits a company from bidding on, submitting a proposal for, or entering into or renewing an Agreement for goods or services over One Million Dollars and 00/100 Cents ($1,000,000.00) if, at the time of contracting or renewal, the company is on either the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, both created pursuant to Section 215.473, Florida Statutes, or the company is engaged in business operations in Cuba or Syria. Entering into this Agreement constitutes certification by VENDOR that it is not listed on any of the following: (a) the Scrutinized Companies that Boycott Israel List, (b) Scrutinized Companies with Activities in Sudan List, or (c) the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List. VENDOR further certifies that it is not engaged in a boycott of Israel or engaged in business operations in Cuba or Syria. VENDOR acknowledges that pursuant to Section 287.135, Florida Statutes, the submission of a false certification may subject it to civil penalties, attorney's fees, and/or costs. VENDOR further understands that any Agreement with SBBC for goods or services of any amount may be terminated at SBBC's option if VENDOR (a) is found to have submitted a false certification, (b) has been placed on the List of Scrutinized Companies that Boycott Israel, or (c) is engaged in a boycott of Israel. And, in addition to the foregoing, if the amount of the Agreement is one million dollars ($1,000,000) or more, the Agreement may be terminated at SBBC's option if VENDOR is found to have submitted a false certification, has been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria.

2.21 **Annual Appropriation**. The performance and obligations of SBBC under this Agreement shall be contingent upon an annual budgetary appropriation by its governing body. If SBBC does not allocate funds for the payment of services or products to be provided under this Agreement, this Agreement may be terminated by SBBC at the end of the period for which funds have been allocated. SBBC shall notify the other party at the earliest possible time before such termination. No penalty shall accrue to SBBC in the event this provision is exercised, and SBBC shall not be obligated or liable for any future payments due or any damages as a result of termination under this section.

2.22 **Excess Funds**. Any party receiving funds paid by SBBC under this Agreement agrees to promptly notify SBBC of any funds erroneously received from SBBC upon the discovery of such erroneous payment or overpayment. Any such excess funds shall be refunded to SBBC, together with any applicable statutory interest.

2.23 **Proprietary Information**.

(a) Any documents or materials submitted to SBBC shall be open for inspection by any person in accordance with Section 119.07, Florida Statutes, except as otherwise exempted from disclosure by applicable law. A party contracting with SBBC must clearly mark, label, designate, or identify any portions of any documents or materials it provides to SBBC which are claimed to be confidential and exempt from public inspection, provided that the confidential or exempt portions of such documents or materials are clearly marked with specific citations of law that provide the asserted confidentiality or exemption. A contracting party's failure to identify any confidential or exempt portions of documents or materials or to specify the law establishing their

confidential or exempt status is a waiver of confidential or exempt status for any such unidentified or unsupported portions of any documents or materials.

(b) If SBBC receives a public record request for documents or materials in its custody under this Agreement which have been properly marked as confidential or exempt, SBBC will notify the contracting party of the public records request. The notice shall state that the requested materials will be produced by SBBC to the requesting party within ten (10) calendar days of the date of the written notification unless the contracting party has initiated an action at its sole cost and expense in a court of competent jurisdiction to preclude the release of the requested materials. The contracting party shall name the party requesting the documents or materials as a defendant and will not name SBBC as a party to the action, but will provide SBBC with notice of such proceedings. The contracting party agrees to indemnify SBBC for any costs, expenses, and attorney's fees SBBC may incur with regard to any legal proceedings and judgments that may arise from the request for the contracting party's public records that are subject to claims of confidential or exempt status. A failure to timely initiate the legal action required by this paragraph is a waiver of any claim that the requested information is confidential and exempt from public disclosure. The contracting party waives any cause of action against SBBC for the release of materials pursuant to public records requests except for any claims based upon the intentional or grossly negligent conduct of any employee of SBBC.

2.24 **Affidavit Regarding the Use of Coercion for Labor and Services.** Pursuant to Section 787.06(13), Florida Statutes, all nongovernmental entities executing, renewing, or extending a contract with SBBC must provide an affidavit signed by an officer or representative of the nongovernmental entity under penalty of perjury stating that the nongovernmental entity does not use coercion for labor or services as defined in that statute. The submission of a false affidavit may subject a nongovernmental entity to civil penalties, attorney's fees, and/or costs. Any Agreement with SBBC shall be terminated by SBBC without recourse if a nongovernmental entity is found to have submitted a false affidavit.

ARTICLE 3 – GENERAL CONDITIONS

3.01 **No Waiver of Sovereign Immunity**. Nothing herein is intended to serve as a waiver of sovereign immunity by any agency or political subdivision to which sovereign immunity may be applicable or of any rights or limits to liability existing under Section 768.28, Florida Statutes. This section survives the termination of all performance or obligations under this Agreement and is fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

3.02 **No Third-Party Beneficiaries**. The parties expressly acknowledge that it is not their intent to create or confer any rights or obligations under this Agreement in or upon any third person or entity. None of the parties intend to directly or substantially benefit a third-party by this Agreement. The parties agree that there are no third-party beneficiaries to this Agreement and that no third-party is entitled to assert a claim against any of the parties based upon this Agreement. Nothing herein shall be construed as consent by an agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of any Agreement.

3.03 **Independent Contractor**. The parties to this Agreement are acting in the capacity of independent contractors and not as an officer, employee, or agent of one another. Neither party or its respective agents, employees, subcontractors, or assignees shall represent to others that it has the authority to bind the other party unless specifically authorized in writing to do so. No right to SBBC retirement, leave benefits, or any other benefits of SBBC employees exists as a result of the performance of any duties or responsibilities under this Agreement. SBBC is not responsible for Social Security, withholding taxes, contributions to unemployment compensation funds, or insurance for the other party or the other party's officers, employees, agents, subcontractors, or assignees.

3.04 **Default**. The parties agree that, if either party is in default of its obligations under this Agreement, the non-defaulting party shall provide to the defaulting party (30) calendar days written notice to cure the default. However, if said default cannot be cured within said thirty (30) calendar day period and the defaulting party is diligently attempting in good faith to cure same, the time period will be reasonably extended to allow the defaulting party additional cure time. Upon the occurrence of a default that is not cured during the applicable cure period, this Agreement may be terminated by the non-defaulting party upon thirty (30) calendar days' notice. This remedy is not intended to be exclusive of any other remedy, and each and every such remedy is cumulative and in addition to every other remedy now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder precludes any other or future exercise thereof. Nothing in this section shall be construed to preclude termination for convenience pursuant to section 3.05.

3.05 **Termination**. This Agreement may be terminated with or without cause by SBBC during the term hereof upon thirty (30) calendar days' written notice to the other parties of its desire to terminate this Agreement. In the event of such termination, SBBC is entitled to a *pro rata* refund of any pre-paid amounts for any services scheduled to be delivered after the effective date of such termination. SBBC has no liability for any property left on SBBC's property by any party to this Agreement after the termination of this Agreement. Any party contracting with SBBC under this Agreement agrees that any of its property placed upon SBBC's facilities pursuant to this Agreement shall be removed within ten (10) business days following the termination, conclusion, or cancellation of this Agreement and that any such property remaining upon SBBC's facilities after that time shall be deemed to be abandoned, that title to such property shall pass to SBBC, and that SBBC may use or dispose of such property as SBBC deems fit and appropriate.

3.06 **Compliance with Laws**. Each party shall comply with all applicable federal, state and local laws, SBBC policies, codes, rules, and regulations in performing its duties, responsibilities, and obligations pursuant to this Agreement.

3.07 **Place of Performance**. All of SBBC's obligations under the terms of this Agreement are reasonably susceptible of being performed in Broward County, Florida, and are payable and performable in Broward County, Florida.

3.08 **Governing Law and Venue**. This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Any disputes, controversies, or legal problems arising out of this Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted exclusively to the

jurisdiction of the State courts of the Seventeenth Judicial Circuit of Broward County, Florida or to the jurisdiction of the United States District Court for the Southern District of Florida. Each party agrees and admits that the state courts of the Seventeenth Judicial Circuit of Broward County, Florida or the United States District Court for the Southern District of Florida has jurisdiction over it for any dispute arising under this Agreement.

3.09 **Entirety of Agreement**. This document incorporates and includes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, the parties agree that no deviation from the terms hereof is predicated upon any prior representations or agreements, whether oral or written.

3.10 **Binding Effect**. This Agreement is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns.

3.11 **Assignment**. Neither this Agreement nor any interest herein may be assigned, transferred, or encumbered by any party without the prior written consent of the other party. There shall be no partial assignment of interests under this Agreement including, without limitation, the partial assignment of any right to receive payments from SBBC.

3.12 **Captions**. The captions, section designations, section numbers, article numbers, titles, and headings appearing in this Agreement are inserted only as a matter of convenience, have no substantive meaning, and in no way define, limit, construe, or describe the scope or intent of such articles or sections of this Agreement, nor in any way affect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

3.13 **Severability**. If any one or more of the sections, paragraphs, sentences, clauses, or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable, or void in any respect, such does not affect the remaining portions of this Agreement and the same remain in full force and effect as if such invalid, illegal, unlawful, unenforceable, or void sections, paragraphs, sentences, clauses, or provisions had never been included.

3.14 **Preparation of Agreement**. The parties acknowledge that they have sought and obtained whatever competent advice and counsel necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

3.15 **Amendments**. No modification, amendment, or alteration in the terms or conditions contained herein is effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

3.16 **Waiver**. The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement is not a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver is only effective as to the specific instance for which it is obtained and is not a continuing or future waiver.

3.17 **Force Majeure**. Neither party is obligated to perform any duty, requirement, or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage, accident, flood, acts of God, strikes, or other labor disputes, riot or civil commotions, epidemics, pandemics, government regulations, and the issuance or extension of existing government orders of the United States, the State of Florida, or local county and municipal governing bodies, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). In no event shall a lack of funds on the part of either party be deemed Force Majeure.

3.18 **Rights and Remedies.** The duties and obligations imposed by this Agreement and the rights and remedies available thereunder are in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law.

3.19 **Survival**. All representations and warranties made herein, indemnification obligations, obligations to reimburse SBBC, obligations to maintain and allow inspection and audit of records and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds survive the termination of this Agreement.

3.20 **Agreement Administration.** SBBC has delegated authority to the Superintendent of Schools or her/his designee to take any actions necessary to implement and administer this Agreement.

3.21 **Counterparts and Multiple Originals.** This Agreement may be executed in multiple originals, and may be executed in counterparts, each of which is an original, but all of which, taken together, shall constitute one and the same Agreement.

3.22 **Authority**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the Effective Date.

EXECUTIVE SUMMARY

AGR25-138 – Transition Deferment Program (ARC Broward)

Board Meeting Date: July 28, 2026

Requested Action:
Approve the Agreement between The School Board of Broward County, Florida (SBBC), and ARC Broward Inc., with a budget authority in the amount of $4,699,385.

General Information

The following information outlines the governing authority, districtwide implications, historical background, strategic alignment with the 2027 goals and guardrails, and the anticipated measurable outcomes and return on investment related to this agenda item.

District-zone Impact/Board Member: District-wide	
School Board Policy Requirement	Florida School Districts are required to develop and implement policies that align with state law regarding diploma deferment for students with disabilities. Deferment programs are provided to students with disabilities under Policy 4800. Local School Boards must ensure that: • Individualized Education Plan (IEP) teams discuss diploma options, including deferment, beginning in high school (or at age 14 when transition planning begins). • The student's intent to defer or accept the standard diploma is documented in the IEP. • Eligible students who choose to defer are provided continued Free Appropriate Public Education (FAPE) and transition services until age 21 (or until age 22, depending on birthday and District implementation). • The authority for School Boards to implement and govern these policies comes from state statutes governing exceptional student education (ESE) and high school graduation requirements. Districts must adopt procedures consistent with state law, but may design their own extended transition programming models.
Statutory Requirement	Florida law specifically authorizes diploma deferment for eligible students with disabilities under **Florida Statute §1003.4282(9)(c).** This statute allows a student with a disability who has met the requirements for a standard high school diploma to defer receipt of the diploma in order to continue receiving special education and related services.

	In addition, **Florida Statute §1003.5716 r**equires transition planning beginning no later than age 14, and mandates documentation in the IEP regarding: • Postsecondary goals • Diploma pathway • The option to defer receipt of the standard diploma **Under these statutes:** • Deferment applies only to students with disabilities who have an active IEP. • The decision to defer must be made by the student (or parent, if under 18) in consultation with the IEP team. • Services may continue until the student ages out of eligibility for FAPE. Further, Florida Statute 1003.5716 emphasizes the importance of coordinated transition planning and interagency collaboration to support students with disabilities as they move from school to adult services.
If the School Board votes "Yes"	• SBBC can provide educational and related services for children with disabilities as per the student's Individualized Education Plan (IEP) and will meet the State Board of Education rule 6A-6.0361 (F.A.C.) contractual requirements. Students will have the opportunity to participate in the deferment program at ARC. ARC Broward offers a continuum of supports for individuals with disabilities across the lifespan, including group homes, supported living services, adult day programming, and employment supports. Students enrolled in this deferment program gain early exposure to these adult services and establish connections with the agency prior to exiting the school system. This provides them with a critical pathway to services that are often waitlisted.
If the School Board votes "No"	• SBBC will not be able to provide education and related services for children with disabilities as per the student's IEP and will not meet the State Board of Education rule 6A-6.0361 requirements. Students will not have the opportunity to participate in the ARC transition deferment program. This would significantly impact students with disabilities who require intensive transition support to successfully move from school to adult life. Students would miss out on ARC's specialized transition expertise, community-based learning environments, and connections to adult service providers that cannot be fully replicated within traditional school-based programs.
Alignment to the 2027 Strategic Goals and Guardrails	• Goal 4: College and Career Readiness • Guardrail: Equity
Measurable Outcome(s)/Return on Investment	By the end of the academic year, the program will increase positive postsecondary outcomes for 24 participating students

	with disabilities by improving their readiness for employment, post-secondary education or training, and independent living. • At least 14 of the 24 students (≈60%) will obtain competitive integrated employment, a paid internship, or a work-based learning placement, increasing the current success rate, where fewer than half of the students achieve employment outcomes. • (≈40%) of students aging out or ending deferment will enroll in postsecondary education, career training, or a credentialing program aligned with their career goals. • At least 19 of the 24 students (≈80%) will demonstrate measurable improvement in independent living skills, including time management, organization, financial literacy, transportation use, and household responsibilities, as measured through transition assessments and progress monitoring.

Background/History:
SBBC has maintained a contractual partnership with ARC Broward for the past 12 years to provide a Transition Deferment Program for students with disabilities who defer receipt of their high school diploma. Approximately 24 students participate annually.

Through this partnership, students receive structured transition services that support their movement from school to adult life. The program focuses on job training, self-determination, self-advocacy, executive functioning, independent living skills, community-based experiences, and individualized transition planning. Students are also connected with adult service agencies and community resources that will support them after exiting the school system.

This Agreement provides classroom, vocational, and community-based instruction to students with disabilities enrolled in the Transition Deferment program and ARC. Students develop work-readiness skills through community-based learning, strengthen independent living skills, and build self-determination, self-advocacy, and social skills. The program also provides career exploration opportunities through ARC Broward's industry certificate programs, including entry-level culinary arts and other workforce programs.

Under the Individuals with Disabilities Education Act (IDEA), SBBC is required to provide Transition Services to students with disabilities. Transition Services are defined as a coordinated set of activities that support assessment, planning, education, and community experiences for students with disabilities beginning at age 14, with the goal of promoting positive adult outcomes.

Through this Agreement, ARC Broward provides community-based transition services that align with National Transition Standards and benchmarks. The contract operates on a per-student funding structure and includes transportation as an essential support service to ensure students' access to the program activities.

School Impact, Stakeholder Engagement, and Implementation Considerations

This section outlines how the proposed item will impact schools, including the selection and prioritization process where applicable, as well as stakeholder and end-user input. It also addresses technology and capital asset life cycles, replacement planning, and any additional operational details necessary to provide the Board with a comprehensive understanding of implementation.

Impact on Schools	All SBBC students are eligible to apply for ARC Broward's Transition Deferment Program. However, district-provided transportation is currently limited to students enrolled at the following schools: J.P. Taravella High School, Piper High School, Coconut Creek High School, Coral Glades

	High School, Coral Springs High School, Monarch High School, Marjory Stoneman Douglas High School, and Plantation High School. However, any student who can access their own means of transportation can apply and defer into ARC's transition deferment program.
School Selection /Prioritization	Admission to ARC Broward's Transition Deferment Program is a structured process designed to ensure appropriate student placement and program readiness. Students are first referred to the program through their Individualized Education Program (IEP) team. Following referral, a minimum of two transition assessments are conducted by the high school Exceptional Student Education (ESE) teacher to evaluate the student's readiness, needs, and postsecondary goals. Based on assessment results, eligible students are invited to participate in an interview. The interview is conducted collaboratively by ARC Broward staff, a District Transition Specialist, and a District Job Coach. A standardized rubric is used to evaluate each candidate. Upon completion of the interview process, students may be accepted into the program or provided with recommendations for alternative programs that better align with their needs. Due to program capacity, enrollment is limited to 24 students. As a result, interviews are scheduled based on the number of available seats. Eligible students must meet the following criteria: • Be enrolled in an educational program contracted by SBBC • Have met all graduation requirements • Elect to defer receipt of their standard high school diploma in order to participate in an SBBC Transition Deferment Program, as documented in the student's Individualized Education Program (IEP). • Reside within the attendance boundaries of the following high schools: J.P. Taravella High School, Piper High School, Coconut Creek High School, Coral Glades High School, Coral Springs High School, Monarch High School, Marjory Stoneman Douglas High School, and Plantation High School Students who are otherwise eligible but reside outside of these designated school boundaries may be considered; however, acceptance is contingent upon approval from ARC Broward Transportation Services.
Community/ Stakeholder Engagement	The continuation of this partnership with ARC Broward's Transition Deferment Program has been thoughtfully guided by meaningful stakeholder engagement and direct input from those we serve. Feedback has been consistently gathered from students with disabilities, parents and guardians, and valued community partners to ensure the program remains responsive and impactful. Additionally, fostering strong connections to community agency resources and programs is a vital component of comprehensive transition services and a shared responsibility. Through continued collaboration, we can better support

	students in achieving successful and sustainable transitions into adulthood.
End-User Input	Families consistently express the need for continued, structured transition services beyond traditional high school graduation to better prepare students for adulthood. Student input consistently reflects a strong desire to participate in programs located outside of the traditional high school campus environment. This feedback highlights a critical and ongoing need to expand meaningful post-secondary options for young adults with significant disabilities as they exit SBBC. Providing access to community-based and campus-based transition programs better aligns with students' goals for independence, real-world experience, and continued growth beyond high school, ultimately supporting improved outcomes in employment, post-secondary education, and independent living. Strengthening access to these opportunities is essential to improving long-term outcomes for adults with disabilities transitioning into adult agency programs, which often have long waitlists. Fostering strong connections to community agency resources and programs can help overcome these barriers.

Personnel who are subject to background screening include all of ARC BROWARD's non-exempt employees, representatives, agents, and sub-contractors performing duties under this Agreement who meet any of the three (3) descriptions listed above. This background screening shall be conducted by SBBC in advance of ARC BROWARD or its personnel providing any services under this Agreement. ARC BROWARD shall bear the cost of acquiring the background screening required by Section 1012.32, Florida Statutes, and any fee imposed by the Florida Department of Law Enforcement (FDLE) to maintain the fingerprints provided with respect to ARC BROWARD and its personnel. The parties agree that the failure of ARC BROWARD to perform any of the duties described in this section shall constitute a material breach of this Agreement entitling SBBC to terminate this Agreement immediately for cause and with no opportunity required to permit ARC BROWARD to cure such default and no further responsibilities or duties for SBBC to perform under this Agreement. ARC BROWARD agrees to indemnify and hold harmless SBBC, its officers and employees from any liability in the form of physical or mental injury, death or property damage resulting from ARC BROWARD's failure to comply with the requirements of this section or with Sections 1012.32, 1012.465, 1012.467, and 1012.468, Florida Statutes. SBBC issued identification badges must be worn at all times when on SBBC property or when performing services for SBBC and must be worn where they are visible and easily readable.

2.24 **Public Records**. The following provisions are required by Section 119.0701, Florida Statutes, and may not be amended. ARC BROWARD shall keep and maintain public records required by SBBC to perform the services required under this Agreement. ARC BROWARD shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement's term and following completion of the Agreement if ARC BROWARD does not transfer the public records to SBBC. Upon completion of the Agreement, ARC BROWARD shall transfer, at no cost, to SBBC all public records in possession of ARC BROWARD or keep and maintain public records required by SBBC to perform the services required under the Agreement. If ARC BROWARD transfers all public

records to SBBC upon completion of the Agreement, ARC BROWARD shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If ARC BROWARD keeps and maintains public records upon completion of the Agreement, ARC BROWARD shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to SBBC, upon request from SBBC's custodian of public records, in a format that is compatible with SBBC's information technology systems.

IF A PARTY TO THIS AGREEMENT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO ITS DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT 754-321-2300, RECORDREQUESTS@BROWARDSCHOOLS.COM, LEGISLATIVE AFFAIRS, PUBLIC RECORDS DIVISION, 600 SOUTHEAST THIRD AVENUE, FORT LAUDERDALE, FLORIDA 33301.

2.25 **Proprietary Information**.

2.25.1 Any documents or materials submitted to SBBC shall be open for inspection by any person in accordance with Section 119.07, Florida Statutes, except as otherwise exempted from disclosure by applicable law. A party contracting with SBBC must clearly mark, label, designate, or identify any portions of any documents or materials it provides to SBBC which are claimed to be confidential and exempt from public inspection, provided that the confidential or exempt portions of such documents or materials are clearly marked with specific citations of law that provide the asserted confidentiality or exemption. A contracting party's failure to identify any confidential or exempt portions of documents or materials or to specify the law establishing their confidential or exempt status is a waiver of confidential or exempt status for any such unidentified or unsupported portions of any documents or materials.

2.25.2 If SBBC receives a public record request for documents or materials in its custody under this Agreement which have been properly marked as confidential or exempt, SBBC shall notify the contracting party of the public records request. The notice shall state that the requested materials shall be produced by SBBC to the requesting party within ten (10) calendar days of the date of the written notification, unless the contracting party has initiated an action at its sole cost and expense in a court of competent jurisdiction to preclude the release of the requested materials. The contracting party shall name the party requesting the documents or materials as a defendant and shall not name SBBC as a party to the action, but shall provide SBBC with notice of such proceedings. The contracting party agrees to indemnify SBBC for any costs, expenses, and attorney's fees SBBC may incur with regard to any legal proceedings and judgments that may arise from the request for the contracting party's public records that are subject to claims of confidential or exempt status. A failure to timely initiate the legal action required by this paragraph is a waiver of any claim that the requested information is confidential and exempt from public disclosure. The contracting party waives any cause of action against SBBC for the release of materials pursuant to a public records request except for any claims based upon the intentional or grossly negligent conduct of any employee of SBBC.

2.26 **Liability**. This section survives the termination of all performance or obligations under this Agreement and is fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

2.26.1 By SBBC. ARTICLE 3 – GENERAL CONDITIONS

3.1 **No Waiver of Sovereign Immunity**. Nothing herein is intended to serve as a waiver of sovereign immunity by any agency or political subdivision to which sovereign immunity may be applicable or of any rights or limits to liability existing under Section 768.28, Florida Statutes. This section survives the termination of all performance or obligations under this Agreement and is fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

3.2 **No Third-Party Beneficiaries**. The parties expressly acknowledge that it is not their intent to create or confer any rights or obligations under this Agreement in or upon any third person or entity. None of the parties intend to directly or substantially benefit a third-party by this Agreement. The parties agree that there are no third-party beneficiaries to this Agreement and that no third-party is entitled to assert a claim against any of the parties based upon this Agreement. Nothing herein shall be construed as consent by an agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of any Agreement.

3.3 **Independent Contractor**. The parties to this Agreement are acting in the capacity of independent contractors and not as an officer, employee, or agent of one another. Neither party or its respective agents, employees, subcontractors, or assignees shall represent to others that it has the authority to bind the other party unless specifically authorized in writing to do so. No right to SBBC retirement, leave benefits, or any other benefits of SBBC employees exists as a result of the performance of any duties or responsibilities under this Agreement. SBBC is not responsible for Social Security, withholding taxes, contributions to unemployment compensation funds or insurance for the other party or the other party's officers, employees, agents, subcontractors, or assignees.

3.4 **Default**. The parties agree that, if either party is in default of its obligations under this Agreement, the non-defaulting party shall provide to the defaulting party (30) calendar days' written notice to cure the default. However, if said default cannot be cured within said thirty (30) calendar day period and the defaulting party is diligently attempting in good faith to cure same, the time period shall be reasonably extended to allow the defaulting party additional cure time. Upon the occurrence of a default that is not cured during the applicable cure period, this Agreement may be terminated by the non-defaulting party upon thirty (30) calendar days' notice.

This remedy is not intended to be exclusive of any other remedy, and each and every such remedy is cumulative and in addition to every other remedy now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder precludes any other or future exercise thereof. Nothing in this section shall be construed to preclude termination for convenience pursuant to section 3.5.

3.5 **Termination**. This Agreement may be terminated with or without cause by SBBC during the term hereof upon thirty (30) calendar days' written notice to the other parties of its desire to terminate this Agreement. In the event of such termination, SBBC is entitled to a *pro rata* refund of any pre-paid amounts for any services scheduled to be delivered after the effective date of such termination. SBBC has no liability for any property left on SBBC's property by any party to this Agreement after the termination of this Agreement. Any party contracting with SBBC under this Agreement agrees that any of its property placed upon SBBC's facilities pursuant to this Agreement shall be removed within ten (10) business days following the termination, conclusion, or cancellation of this Agreement and that any such property remaining upon SBBC's facilities after that time shall be deemed to be abandoned, that title to such property shall pass to SBBC, and that SBBC may use or dispose of such property as SBBC deems fit and appropriate.

3.6 **Compliance with Laws**. Each party shall comply with all applicable federal, state and local laws, SBBC policies, codes, rules, and regulations in performing its duties, responsibilities, and obligations pursuant to this Agreement.

3.7 **Place of Performance**. All of SBBC's obligations under the terms of this Agreement are reasonably susceptible of being performed in Broward County, Florida and are payable and performable in Broward County, Florida.

3.8 **Governing Law and Venue**. This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Any disputes, controversies, or legal problems arising out of this Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted exclusively to the jurisdiction of the State courts of the Seventeenth Judicial Circuit of Broward County, Florida or to the jurisdiction of the United States District Court for the Southern District of Florida. Each party agrees and admits that the state courts of the Seventeenth Judicial Circuit of Broward County, Florida or the United States District Court for the Southern District of Florida has jurisdiction over it for any dispute arising under this Agreement.

3.9 **Entirety of Agreement**. This document incorporates and includes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, the parties agree that no deviation from the terms hereof is predicated upon any prior representations or agreements, whether oral or written.

3.10 **Binding Effect**. This Agreement is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns.

3.11 **Assignment**. Neither this Agreement nor any interest herein may be assigned, transferred, or encumbered by any party without the prior written consent of the other party. There shall be no partial assignment of interests under this Agreement including, without limitation, the partial assignment of any right to receive payments from SBBC.

3.12 **Captions**. The captions, section designations, section numbers, article numbers, titles, and headings appearing in this Agreement are inserted only as a matter of convenience, have no substantive meaning, and in no way define, limit, construe, or describe the scope or intent of such articles or sections of this Agreement, nor in any way affect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

3.13 **Severability**. If any one or more of the sections, paragraphs, sentences, clauses, or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable, or void in any respect, such does not affect the remaining portions of this Agreement and the same remain in full force and effect as if such invalid, illegal, unlawful, unenforceable, or void sections, paragraphs, sentences, clauses, or provisions had never been included.

3.14 **Preparation of Agreement**. The parties acknowledge that they have sought and obtained whatever competent advice and counsel necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

3.15 **Amendments**. No modification, amendment, or alteration in the terms or conditions contained herein is effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

3.16 **Waiver**. The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement is not a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver is only effective as to the specific instance for which it is obtained and is not a continuing or future waiver.

3.17 **Force Majeure**. Neither party is obligated to perform any duty, requirement, or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage, accident, flood, acts of God, strikes, or other labor disputes, riot or civil commotions, epidemics, pandemics, government regulations, and the issuance or extension of existing government orders of the United States, the State of Florida, or local county and municipal governing bodies, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). In no event shall a lack of funds on the part of either party be deemed Force Majeure.

3.18 **Rights and Remedies**. The duties and obligations imposed by this Agreement and the rights and remedies available thereunder are in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law.

3.19 **Survival**. All representations and warranties made herein, indemnification obligations, obligations to reimburse SBBC, obligations to maintain and allow inspection and audit of records and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds survive the termination of this Agreement.

3.20 **Agreement Administration**. SBBC has delegated authority to the Superintendent of Schools or her/his designee to take any actions necessary to implement and administer this Agreement.

3.21 **Counterparts and Multiple Originals**. This Agreement may be executed in multiple originals, and may be executed in counterparts, each of which is an original, but all of which, taken together, shall constitute one and the same Agreement.

3.22 **Authority**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement upon the date of the last signature below.

EXECUTIVE SUMMARY

AGR25-172 – Transportation GPS System and Mobile Application

Board Meeting Date: July 28, 2026

Requested Action:
Approve the Novation Agreement and First Amendment to the Agreement between The School Board of Broward County, Florida (SBBC), Calamp Wireless Networks Corporation, and Synovia Solutions LLC. This is a vendor name change for a previously approved agreement, and as such, there is no financial impact.

General Information

The following information outlines the governing authority, districtwide implications, historical background, strategic alignment with the 2027 goals and guardrails, and the anticipated measurable outcomes and return on investment related to this agenda item.

District-zone Impact/Board Member: District-wide	
School Board Policy Requirement	• Not Applicable
Statutory Requirement	• Not Applicable
If the School Board votes "Yes"	• Continuity of the Agreement will ensure continued safety and efficiency such as GPS tracking and telematics [the combination of telecommunications and informatics (computer science) to send, receive, and store information]for buses, hardware lease, application services, software, licensed technology, student ridership tracking, time and attendance, maintenance and compliance, driving safety, and *Here Comes the Bus*™ routing integration and tools.
If the School Board votes "No"	• Student Transportation & Fleet Services (ST&FS) will lose the ability to provide safe and efficient tracking of buses, route integration, and updated software to manage its bus fleet. This will have a deleterious impact on the department's ability to provide timely updates to parents and schools.
Alignment to the 2027 Strategic Goals and Guardrails	• Guardrail 1: Safety • Guardrail 2: Equity
Measurable Outcome(s)/Return on Investment	• This First Amendment enables the ST&FS Department to continue managing and improving the safety and efficiency of school bus operations by maximizing all areas of functionality using the Platform supported by Synovia (fka CALAMP).

Background/History:
SBBC and CALAMP entered into an Agreement that commenced on May 6, 2025, and expires on May 5, 2028. In a letter dated March 26, 2026, CALAMP advised ST&FS of changes in CALAMP's ownership structure and appointed officers, pursuant to the Omnibus Written Consent of the Board of Directors and the Sole Member. CALAMP warrants that SYNOVIA is able to fully perform all obligations that exist under the Agreement, and therefore, SBBC determined it would be in its best interests to recognize

SYNOVIA as the successor party to the Agreement, and consent to the transfer of the Agreement through this First Amendment.

Agreement Terms and Financial Impact

The following information provides a detailed summary of the contract agreement summary, financial impact of this item, including funding allocation, budget authority, fiscal year expenditures, and any current or future financial obligations.

Table A: Agreement Summary, Multi-Year Analysis, and Procurement Method
This table summarizes the contract agreement terms, including the multi-year financial breakdown and total projected cost, and identifies the procurement method used in accordance with District purchasing requirements.

Agreement Term:	Original Agreement Term: May 6, 2025, through May 5, 2028, with the option of two additional one-year renewal periods. This is a Novation Agreement, and the First Amendment does not extend the Agreement term.
Multi-Year Agreement:	Yes. The initial Agreement is for three years with two one-year renewal options, subject to future Board approval. There is a cost savings for operational efficiency achieved by this multi-year Agreement. A new bid will yield higher prices, based on the current market conditions.
Procurement Method:	**Piggyback Agreement** (Yes/No): No. **Acquisition Method**: Not Applicable. This is a Novation to Agreement and First Amendment to Agreement.

Table B: Financial Impact, Funding Source, and Budget Authority
This table summarizes the financial impact of the requested Board action, including the contract agreement authority being approved and the budget sources supporting that request.

Budget Impact Summary Statement:

School Impact, Stakeholder Engagement, and Implementation Considerations

This section outlines how the proposed item will impact schools, including the selection and prioritization process where applicable, as well as stakeholder and end-user input. It also addresses technology and capital asset life cycles, replacement planning, and any additional operational details necessary to provide the Board with a comprehensive understanding of implementation.

Impact on Schools	The Agreement has and will continue to have a direct and important impact on schools by continuing to support student safety, timely service, and reliable transportation by routing and planning student-assigned bus routes. The software also provides school staff, parents, and students with the ability to locate and determine student-assigned schools based on each student's home address. This reduces and mitigates operational adjustments during the opening of the school year.
School Selection /Prioritization	The Synovia software uses algorithms and data analytics to assign students to routes based on multiple factors such as distance, travel time, bus capacity, and special needs. This allows the District to prioritize students with special needs by ensuring they are routed with appropriate accommodations and vehicle accessibility.
Community/ Stakeholder Engagement	The District engaged Key Stakeholders throughout the development process of the proposal, which included Transportation Services Leadership, School Administrators, IT, and Risk Management Teams. Communication efforts focused on reinforcing the importance of student safety, efficiency, and regulatory compliance. Stakeholder feedback supported the implementation approach and emphasized the importance of clear communication, student ridership, and accountability.
End-User Input	Input from schools, parents, ST&FS, and IT staff directly affected the planning, rollout, and implementation of *Here Comes the Bus*™. Key considerations were given and included notification of route availability, the continued monitoring of feedback, and accessibility, while maintaining communication to parents and all stakeholders.
Technology/Capital Expected Lifecycle/Replacement Cycle	The initiative required significant new technology and capital investments, including but not limited to updating and maintaining software/ hardware, continuing license renewals, while ensuring security and upholding confidentiality.

ARTICLE 3 – SPECIAL CONDITIONS

3.1 **Term of Agreement**. The term of this Agreement commences on May 6, 2025 ("Effective Date") and concludes on May 5, 2028, unless terminated earlier pursuant to Section 4.5 "Termination" of this Agreement, and may be extended for two (2) additional one (1) year periods upon the approval of both parties in writing in the form of an Amendment to this Agreement. There shall be no automatic extensions or renewals of this Agreement.

3.2 **Scope of Services**. CALAMP shall lease to SBBC the Hardware pursuant to this Agreement and the "SBBC Price List" (**Exhibit A**), attached hereto and incorporated into this Agreement by reference. This Agreement shall supersede any of CALAMP's legal documents, policies, or addenda, listed on CALAMP's website at https://www.calamp.com/company/legal/, or elsewhere, regardless of when created, updated, or modified, and SBBC shall not be bound by such, including but not limited to: Terms and Conditions of Supply Chain, Website Terms of Use, Privacy Policy, CalAmp Master Agreement, Data Processing Addendum, Offerings Specific Terms of Use, Service Level Agreement, and Data Privacy Framework Statement.

3.3 **Ownership of Hardware**. CALAMP is the sole owner and title holder to the Hardware. This Agreement constitutes a Hardware lease and is not a sale or the creation of a security interest. SBBC shall not have, or at any time acquire, any right, title or interest in the Hardware, except the right to possession and use as provided in this Agreement, unless such Hardware is abandoned by CALAMP pursuant to Section 4.5 of this Agreement. SBBC shall be entitled to the absolute right to the use, operation, possession, and control of the Hardware during the term of this Agreement, and any extensions thereof.

3.3.1 End of Term Options. At the end of the Agreement term, SBBC shall have the following options:

3.3.1.1 SBBC at its expense shall remove the Hardware in good repair, ordinary wear and tear from proper use thereof alone excepted, by delivering it, packed and ready for shipment, to the place mutually agreed upon by CALAMP and SBBC; or

3.3.1.2 Pursuant to Section 3.1 "Term of Agreement," the parties may extend this Agreement for two (2) additional one (1) year periods upon the approval of both parties in writing in the form of an Amendment, pursuant to Section 4.15 "Amendments." Warranty shall be included with this option pursuant to Section 3.4.6 of this Agreement

3.4 **CALAMP Responsibilities.**

3.4.1 CALAMP shall timely provide SBBC with the Global Positioning System ("GPS") LMU-4233 Location measuring unit and tethered 7P MDT Tablet with the following Software:

3.4.1.1 Core Automatic Vehicle Location ("AVL") Tracking. This Feature provides SBBC with the ability to see in real-time where a vehicle is, what direction the vehicle is heading, and the vehicle's rate of speed.

3.4.1.2 Unlimited Geofences. This Feature provides SBBC with knowledge concerning when a vehicle has arrived or departed from a given location, such as school properties and bus yards. CALAMP shall draw Geofences around SBBC schools and transportation terminals and demonstrate for SBBC how to edit said Geofences, as SBBC will adjust at a later date as needed.

3.4.1.3 Comparative Analysis. Using planned routing data, this Feature provides SBBC with information concerning whether a vehicle is early, on-time, or late at a bus stop or school. CALAMP shall work with SBBC to establish a database connection to download route and student data from the routing system to CALAMP. Routing integration requires SBBC to provide access to routing data as appropriate so that CALAMP can fulfil its obligations under this Agreement.

3.4.1.4 Mobile Data Terminal. This Feature provides SBBC with a multi-faceted on-board "Tab let" which allows employees to log-on to the vehicle for the following: time and attendance reporting, Student Rider Manifest, determination of whether a student is on the right bus, and navigation (similar to Garmin™ or TomTom™) using data as defined in the routing data for substitute drivers.

3.4.1.5 Parent Portal – Here Comes the Bus™. This Feature allows parents or guardians of SBBC students to see when their child's bus is approaching, when the bus has arrived, and when their child has boarded or exited the bus. Parents or guardians only have access to the route information for their child and not to any other transportation information.

3.4.1.5.1 When a bus scheduled for a certain route is not available, CALAMP shall notify parent or guardian via Here Comes the Bus™, that the bus in question is not available, and to disregard the Here Comes the Bus™ data for that particular bus.

3.4.1.6 Student Ridership Verification Pilot Phase. CALAMP shall permit SBBC to review and experience this Feature in a no cost and no obligation pilot phase ("the Pilot") which shall begin on **July 1, 2025** and conclude on **February 28, 2026.** This provision and its subparts shall supersede any previous Order Form concerning the Pilot. This Feature tracks SBBC students as they board and exit a bus by scanning a barcode or RFID card. This Feature ensures that SBBC students get off at the correct bus stop and provides a record for contact tracing. In conjunction with the Parent Portal specified in Section 3.4.1.5, a parent or guardian can see when their child boards or exits the bus as well.

3.4.1.6.1 During the Pilot. CALAMP shall provide SBBC with any necessary Hardware, Software, maintenance, and support needed, to enable SBBC's proper evaluation of this Feature during the specified duration period. SBBC shall keep all shipping boxes/packing materials for any return of such items needed at the conclusion of the Pilot. CALAMP shall comply with all privacy requirements stated in this Agreement during the Pilot. Thirty (30) calendar days prior to the conclusion of the Pilot, CALAMP shall notify SBBC in writing of the approaching conclusion of the Pilot, and CALAMP shall confirm with SBBC in writing whether SBBC wishes to extend the Pilot to SBBC's expanded fleet, or discontinue use of the Feature. Such continued or discontinued use by SBBC shall be in SBBC's sole discretion and as determined by SBBC in its best interests. **An extension of the Pilot to SBBC's expanded fleet, requires an amendment pursuant to Section 4.15 of this Agreement prior to the expiration of the Pilot on February 28, 2026.**

3.4.1.6.2 Conclusion of Pilot. Should SBBC discontinue use of this Feature, CALAMP shall coordinate with SBBC for the return of any Hardware and Software utilized for the Pilot within thirty (30) calendar days of the Pilot's conclusion. CALAMP shall provide SBBC with a return packing label prior to the end of the Pilot, to allow SBBC sufficient time to properly pack and ship those items back to CALAMP within the timeframe specified in this provision. SBBC shall bear the cost of returning such Hardware and Software.

3.4.1.7 Reporting. This Feature provides SBBC with the ability to export a data file (in PDF or XLS format) and review all telematics and transportation data gathered within the system via a standard set of reports.

3.4.1.8 Turn-By-Turn Directions. This Feature provides SBBC with the ability to develop GPS Data into a route. The Feature reads the Turn-by-Turn directions from the routing system and

these are presented via the Mobile Data Terminal in audio or visual format (or both). The driver enters a route and the directions are generated. Implementation can take up to twelve (12) months and is dependent on routing data and waypoints.

3.4.1.9 Kronos - Time and Attendance. CALAMP shall integrate CalAmp Time and Attendance with SBBC's Kronos Time and Attendance system for streamlined driver and staff attendance tracking.

3.4.2 Project Management.

3.4.2.1 CALAMP shall provide and assign a Project Manager ("PM"), Training Manager, and Fleet Advisor to SBBC's account. The PM will provide a detailed project plan after Agreement is approved and initial introductions are complete.

3.4.3 Integration.

3.4.3.1 CALAMP shall integrate the Platform with SBBC's then-current Single Sign-on (SSO) which supports Security Assertation Markup Language (SAML) based SSO.

3.4.3.2 CALAMP shall integrate the Platform with SBBC's Edulog route planning system and Kronos Time and Attendance.

3.4.3.3 CALAMP shall provide an Application Program Interface (API) access with Extensible Markup Language (XML) over Simple Object Access Protocol (SOAP) formatted data, or REST API (Representational State Transfer Application Programming Interface) with JSON (JavaScript Object Notation) formatted response files for SBBC to retrieve data upon request based on defined date ranges.

3.4.4 Reports.

3.4.4.1 CALAMP shall provide scheduled reports in PDF or XLS format, to collect and report on information as specified by SBBC, to include: speeding, hard braking, hard acceleration, idling, on-time buses and late buses. Reports are summarized by groups with group designations per SBBC's preference as follows: Each SBBC bus terminal shall be a "Group" with all vehicles assigned to the terminal being part of that Group.

3.4.5 Troubleshooting and Support.

3.4.5.1 CALAMP shall provide SBBC with technical support for the Platform Monday through Friday, 6:00am – 8:00pm EST.

3.4.5.2 CALAMP shall provide SBBC with training on hardware troubleshooting and return merchandise authorization and unlimited software training available virtually on the website https://www.calamp.com/training-resources/

3.4.5.3 CALAMP shall identify hardware problems with buses related to GPS or any of the software listed in Section 3.4.1 of this Agreement, and provide SBBC with the appropriate

report detailing the issue, recommended solution, and expected time for resolution or repair.

3.4.6 Warranty.

3.4.6.1 CALAMP warrants that the Platform furnished is free from liens and encumbrances, and is free from defects in design, materials, and workmanship. In addition, CALAMP warrants that the Platform is suitable for and will perform in accordance with the ordinary use for which it was intended.

3.4.6.2 For the term of this Agreement and any extensions thereof, CALAMP warrants to provide to SBBC at no additional cost with the following: Automatic quarterly updates with new features, map data, patches and hot fixes; six (6) months of "bread crumb" data, plus two (2) years of historical data.

3.4.6.3 Provided that SBBC maintains a current and active lease, license and maintenance agreement with CALAMP:

1. **Hardware Warranty.** CALAMP shall provide Hardware warranty services in accordance with CALAMP's standard warranty and Return Merchandise Authorization ("RMA") policies. The RMA support can be found at https://www.calamp.com/support/
2. **Spares Availability.** Two percent (2%) of the total Hardware shall be maintained as on-site, with spares, with replacement of any defective spare within forty-eight (48) hours.
3. **Software Issue Resolution.** For software-related issues requiring a repair or resolution, CALAMP shall use reasonable efforts to ensure resolution upon first occurrence. If the same issue reoccurs within thirty (30) calendar days of initial repair or resolution, CALAMP shall issue a credit equivalent to one (1) day's charge for only those specific Hardware devices or applicable Application Services directly impacted by the recurring issue.

3.5 **SBBC's Responsibilities.**

3.5.1 SBBC is responsible for contracting with a wireless data plan provider and all applicable data charges. The process to activate the data on the LMU (GPS Device) is as follows:

3.5.1.1 SBBC contracts with wireless data plan provider for a wireless data plan and pay for applicable data charges.

3.5.1.2 Wireless data plan provider sends list of electronic serial number (ESN) Numbers to CALAMP.

3.5.1.3 CALAMP activates the ESN Numbers.

3.5.1.4 CALAMP scripts and tests the LMU prior to shipping all hardware to SBBC. SBBC agrees and acknowledges that CALAMP:

3.5.1.4.1 Does not have an intimate knowledge of school zones (pick up/drop off locations, parking areas) and termination locations; and

3.5.1.4.2 Accuracy of zones is critical to Plan versus Actual Data and the Here Comes the Bus™ parent application.

3.5.2 SBBC understands the importance of accurately drawn zones and accepts that CALAMP does not guarantee the accuracy of those zones drawn by CALAMP and SBBC will not hold CALAMP responsible for inaccurate zones.

3.5.3 SBBC must provide an Internet connection with sufficient bandwidth and quality to allow trouble-free browsing, data uploading and downloading.

3.5.4 SBBC will provide computers utilizing the latest version of Windows or Mac Operating platforms with Chrome or Firefox browser with the latest security updates.

3.5.5 SBBC will utilize the hardware troubleshooting process in an attempt to resolve hardware problems in a timely manner in order to ensure that stop events are triggered at the student's stop.

3.5.6 SBBC will utilize the hardware troubleshooting process in an attempt to resolve hardware problems in a timely manner in order to ensure that stop events are triggered at the student's stop.

3.5.7 SBBC will verify the current assignment of students to their respective stops and schools in the routing system to ensure that parents will be able to register their children with Here Comes the Bus™ app.

3.5.7.1 To ensure the highest level of accurate parent information and notifications, SBBC will assign substitute buses before the routes begin.

3.5.8 SBBC will ensure zones are correctly drawn around schools to support CALAMP's ability to detect when students are picked up or delivered to schools.

3.5.9 SBBC will ensure zones are correctly drawn around schools to support CALAMP's ability to detect when students are picked up or delivered to schools.

3.5.10 SBBC will modify routes and stops in the routing system (as needed) to reflect how the routes are being driven (for example: bus driver going off assigned route will incorrectly register a stop).

3.5.11 SBBC will designate a technical contact in lieu of granting CALAMP the ability to remotely log into the server containing SBBC's routing system.

3.5.12 SBBC will designate a Here Comes the Bus™ Coordinator to respond to parent or guardian inquiries relating to SBBC route data.

3.5.13 SBBC will designate a System Administrator to assign access and roles to system users.

3.5.13.1 Call CALAMP at (877) 796-6842 or email calamp.com/support to request an appointment to engage CALAMP as routes change (such as from one school year to the next) and provide the path of the planning data in Comparative Analysis.

3.6 **Cost**.

3.6.1 The annual license and maintenance fee for One Thousand Three Hundred Sixty (1,360) Heavy-Duty Vehicle Kits is **Four Hundred Seventy-nine Thousand Eight Hundred Eight and 00/100 Dollars ($479,808.00)**, representing a twenty percent (20%) reduction in product pricing for SBBC pursuant to the SBBC Price List, attached hereto and incorporated into this Agreement by reference as **"Exhibit A."** This price represents an average per vehicle rate of **Three Hundred Fifty-two and 80/100 Dollars ($352.80).** After the payment of the first annual license under this Agreement in the amount of **Four Hundred Seventy-nine Thousand Eight Hundred Eight and 00/100 Dollars ($479,808.00),** the annual fee of each subsequent year during the term of this Agreement will be based on the number of vehicles in the fleet at the start of the school year, taking into account any reduction in SBBC's fleet size, multiplied by the per vehicle rate of **Three Hundred Fifty-two and 80/100 Dollars ($352.80).**

3.6.2 There shall be no additional cost to SBBC for any necessary integration of CALAMP's Platform, with any of SBBC's existing systems.

3.6.3 All delivered Hardware and accessories must be properly packaged. Damaged Hardware and accessories may be rejected. If the damage is not readily apparent at the time of delivery, CALAMP must permit the Hardware and accessories to be returned within a reasonable time at no cost to SBBC. CALAMP must arrange for and pay for the return shipment on Hardware and accessories that arrive in a defective or inoperable condition.

3.7 **Payment.**

3.7.1 Subsequent to the Effective Date of this Agreement SBBC will issue an appropriate purchase order to CALAMP.

3.7.2 CALAMP shall submit proper and appropriate invoices to the following address:

The School Board of Broward County, Florida
Accounting and Financial Reporting Department
Attn: Accounts Payable
600 Southeast 3rd Avenue, 7th Floor

3.7.3.1 After the Effective Date of this Agreement, CALAMP shall submit an invoice to SBBC in the amount of Four Hundred Seventy-nine Thousand Eight Hundred Eight and 00/100 Dollars ($479,808.00), for the Platform.

3.7.3.2 Additional Products Add-ons. During the Term of this Agreement, CALAMP agrees to provide SBBC with quotes for additional product or add-ons on a case-by-case basis as requested by SBBC, and at no obligation to SBBC. Any additional Hardware or services required under this Agreement shall be quoted at CALAMP's then-current pricing available at the time of request. No additional Hardware, software, or services shall be provided or deemed authorized unless and until a written amendment to this Agreement is executed by both parties pursuant to Section 4.15.

3.7.4 SBBC will make payment to CALAMP within thirty (30) calendar days from SBBC's receipt of the proper and appropriate invoice.

3.7.5 CALAMP shall place an Ancillary Block on any and all Features of the Platform that are not included under this Agreement, to prevent SBBC from incurring any unauthorized charges. CALAMP shall not invoice SBBC and SBBC is not responsible for any charges on Features for which CALAMP has placed or should have placed an Ancillary Block.

3.7.6 Upon termination or expiration of any or all Features of the Platform pursuant to this Agreement, or upon the termination of this Agreement in its entirety, CALAMP shall have no further obligation to provide the applicable terminated Feature and SBBC shall have no obligation to pay any future compensation relating to such Feature (other than for or in respect of the Feature already provided in accordance with the terms of this Agreement and received by SBBC prior to such termination).

If SBBC has a good faith belief that any such party has knowingly violated Section 448.09(1), Florida Statutes, SBBC may immediately terminate this Agreement for cause and without notice or an opportunity to cure the violation. Termination by SBBC pursuant to this section is not a breach of this Agreement and may not be considered as such.

3.16 **Affidavit Regarding the Use of Coercion for Labor and Services**. Pursuant to Section 787.06(13), Florida Statutes, CALAMP, when executing, renewing, or extending an agreement with SBBC must provide an

affidavit signed by an officer or representative of CALAMP under penalty of perjury stating that CALAMP does not use coercion for labor or services as defined in that statute. The submission of a false affidavit may subject CALAMP to civil penalties, attorney's fees, and/or costs. Any Agreement with SBBC shall be terminated by SBBC without recourse if CALAMP is found to have submitted a false affidavit. Any delays in delivery or service under this Agreement arising out of, as a result of, or in connection with CALAMP's use of coercion for labor or services as defined by Section 787.06(13), Florida Statutes, is not a Force Majeure event under this Agreement.

The parties agree that the failure of CALAMP to perform any of the duties described in this section shall constitute a material breach of this Agreement entitling SBBC to terminate this Agreement immediately for cause and with no opportunity required to permit CALAMP to cure such default and no further responsibilities or duties for SBBC to perform under this Agreement. CALAMP agrees to indemnify and hold harmless SBBC, its officers and employees from any liability in the form of physical or mental injury,

CALAMP shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement's term and following completion of the Agreement if CALAMP does not transfer the public records to SBBC. Upon completion of the Agreement, CALAMP shall transfer, at no cost, to SBBC all public records in possession of CALAMP or keep and maintain public records required by SBBC to perform the services required under the Agreement. If CALAMP transfers all public records to SBBC upon completion of the Agreement, CALAMP shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. A contracting party's failure to identify any confidential or exempt portions of documents or materials or to specify the law establishing their confidential or exempt status is a waiver of confidential or exempt status for any such unidentified or unsupported portions of any documents or materials.

3.20.2 If SBBC receives a public record request for documents or materials in its custody under this Agreement which have been properly marked as confidential or exempt, SBBC will notify the contracting party of the public records request. The notice shall state that the requested materials will be produced by SBBC to the requesting party within ten (10) calendar days of the date of the written notification, unless the contracting party has initiated an action at its sole cost and expense in a court of competent jurisdiction to preclude the release of the requested materials. The contracting party shall name the party requesting the documents or materials as a defendant

and will not name SBBC as a party to the action, but will provide SBBC with notice of such proceedings. The contracting party agrees to indemnify SBBC for any costs, expenses, and attorney's fees SBBC may incur with regard to any legal proceedings and judgments that may arise from the request for the contracting party's public records that are subject to claims of confidential or exempt status. A failure to timely initiate the legal action required by this paragraph is a waiver of any claim that the requested information is confidential and exempt from public disclosure. The contracting party waives any cause of action against SBBC for the release of materials pursuant to a public records request except for any claims based upon the intentional or grossly negligent conduct of any employee of SBBC.

None of the parties intend to directly or substantially benefit a third-party by this Agreement. The parties agree that there are no third-party beneficiaries to this Agreement and that no third-party is entitled to assert a claim against any of the parties based upon this Agreement. Nothing herein shall be construed as consent by an agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of any Agreement.

4.3 **Independent Contractor**. The parties to this Agreement are acting in the capacity of independent contractors and not as an officer, employee, or agent of one another. Neither party or its respective agents, employees, subcontractors, or assignees shall represent to others that it has the authority to bind the other party unless specifically authorized in writing to do so. No right to SBBC retirement, leave benefits, or any other benefits of SBBC employees exists as a result of the performance of any duties or responsibilities under this Agreement. SBBC is not responsible for Social Security, withholding taxes, contributions to unemployment compensation funds or insurance for the other party or the other party's officers, employees, agents, subcontractors, or assignees.

4.4 **Default**. The parties agree that, if either party is in default of its obligations under this Agreement, the non-defaulting party shall provide to the defaulting party (30) calendar days' written notice to cure the default. However, if said default cannot be cured within said thirty (30) calendar day period and the defaulting party is diligently attempting in good faith to cure same, the time period will be reasonably extended to allow the defaulting party additional cure time. Upon the occurrence of a default that is not cured during the applicable cure period, this Agreement may be terminated by the non-defaulting party upon thirty (30) calendar days' notice. This remedy is not intended to be exclusive of any other remedy, and each and every such remedy is cumulative and in addition to every other remedy now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder precludes any other or future exercise thereof. Nothing in this section shall be construed to preclude termination without cause pursuant to Section 4.5.

4.5 **Termination**. This Agreement may be terminated with or without cause by SBBC during the term hereof upon thirty (30) calendar days' written notice to the other parties of its desire to terminate this Agreement. In the event of such termination, SBBC is entitled to a *pro rata* refund of any pre-paid amounts for any services scheduled to be delivered after the effective date of such termination. SBBC has no liability for any property left on SBBC's property by any party to this Agreement after the termination of this Agreement. Any party contracting with SBBC under this Agreement agrees that any of its property placed upon SBBC's facilities pursuant to this Agreement shall be removed within ten (10) business days following the termination, conclusion, or cancellation of this Agreement and that any such property remaining upon SBBC's facilities after that time shall be deemed to be abandoned, that title to such property shall pass to SBBC, and that SBBC may use or dispose of such property as SBBC deems fit and appropriate.

4.6 **Compliance with Laws**. Each party shall comply with all applicable federal, state and local laws, SBBC policies, codes, rules, and regulations in performing its duties, responsibilities, and obligations pursuant to this Agreement.

4.7 **Place of Performance**. All of SBBC's obligations under the terms of this Agreement are reasonably susceptible of being performed in Broward County, Florida and are payable and performable in Broward County, Florida.

4.8 **Governing Law and Venue**. This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Any disputes, controversies, or legal problems arising out of this Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted exclusively to the jurisdiction of the State courts of the Seventeenth Judicial Circuit of Broward County, Florida or to the jurisdiction of the United States District Court for the Southern District of Florida. Each party agrees and admits that the state courts of the Seventeenth Judicial Circuit of

Broward County, Florida or the United States District Court for the Southern District of Florida has jurisdiction over it for any dispute arising under this Agreement.

4.9 **Entirety of Agreement**. This document incorporates and includes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, the parties agree that no deviation from the terms hereof is predicated upon any prior representations or agreements, whether oral or written.

4.10 **Binding Effect**. This Agreement is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns.

4.11 **Assignment**. Neither this Agreement nor any interest herein may be assigned, transferred, or encumbered by any party without the prior written consent of the other party. There shall be no partial assignment of interests under this Agreement including, without limitation, the partial assignment of any right to receive payments from SBBC.

4.12 **Captions**. The captions, section designations, section numbers, article numbers, titles, and headings appearing in this Agreement are inserted only as a matter of convenience, have no substantive meaning, and in no way define, limit, construe, or describe the scope or intent of such articles or sections of this Agreement, nor in any way affect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

4.13 **Severability**. If any one or more of the sections, paragraphs, sentences, clauses, or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable, or void in any respect, such does not affect the remaining portions of this Agreement and the same remain in full force and effect as if such invalid, illegal, unlawful, unenforceable, or void sections, paragraphs, sentences, clauses, or provisions had never been included.

4.14 **Preparation of Agreement**. The parties acknowledge that they have sought and obtained whatever competent advice and counsel necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

4.15 **Amendments**. No modification, amendment, or alteration in the terms or conditions contained herein is effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

4.16 **Waiver**. The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement is not a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver is only effective as to the specific instance for which it is obtained and is not a continuing or future waiver.

4.17 **Force Majeure**. Neither party is obligated to perform any duty, requirement, or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage,

accident, flood, acts of God, strikes, or other labor disputes, riot or civil commotions, epidemics, pandemics, government regulations, and the issuance or extension of existing government orders of the United States, the State of Florida, or local county and municipal governing bodies, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). In no event shall a lack of funds on the part of either party be deemed Force Majeure.

4.18 **Rights and Remedies**. The duties and obligations imposed by this Agreement and the rights and remedies available thereunder are in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law.

4.19 **Survival**. All representations and warranties made herein, indemnification obligations, obligations to reimburse SBBC, obligations to maintain and allow inspection and audit of records and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds survive the termination of this Agreement.

4.20 **Agreement Administration**. SBBC has delegated authority to the Superintendent of Schools or her/his designee to take any actions necessary to implement and administer this Agreement.

4.21 **Counterparts and Multiple Originals**. This Agreement may be executed in multiple originals, and may be executed in counterparts, each of which is an original, but all of which, taken together, shall constitute one and the same Agreement.

4.22 **Authority**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement upon the date of the last signature below.

General Information

The following information outlines the governing authority, districtwide implications, historical background, strategic alignment with the 2027 goals and guardrails, and the anticipated measurable outcomes and return on investment related to this agenda item.

District-zone Impact/Board Member: District-wide	
School Board Policy Requirement	• Not Applicable
Statutory Requirement	• Not Applicable
If the School Board votes "Yes"	• SBBC would pay the annual membership dues to maintain accreditation for all non-charter schools in the District.
If the School Board votes "No"	• SBBC would not have the ability to maintain accreditation for all non-charter schools in the District and put athletic scholarships and standard diplomas at risk of not being accepted by post-secondary institutions.
Alignment to the 2027 Strategic Goals and Guardrails	• Goal 4: College & Career Readiness
Measurable Outcome(s)/Return on Investment	• Systemwide Cognia Accreditation strengthens Broward County Public Schools' effectiveness by aligning District and school improvement efforts, improving organizational capacity, and sustaining continuous improvement practices that support equitable outcomes for all students, while ensuring the District maintains accreditation with Cognia.

Background/History:
This Agreement provides a District funding arrangement to maintain annual membership dues for District accreditation through Cognia. The accreditation process that SBBC commits to includes three phases over a six-year period: 1) Reflection and Analysis, 2) Engagement, and 3) Progress and Feedback. Accreditation requires systems and institutions to continuously meet Cognia policies, standards, and requirements. Cognia refers to the collective efforts and actions of the institution to continuously meet accreditation expectations as the improvement journey. This journey should progress in ways that are personalized, relevant, and meaningful on behalf of the learners being served. The total amount for school year 2027 includes the $50,000 Accreditation System Fee. This is a one-time fee.

Budget Authority Request(s)

This section identifies the budget sources that support the requested contract agreement authority, including current-year budget availability and any anticipated funding in future fiscal years, subject to the School Board's annual budget approval.

Current Fiscal Year Budget Authority

Fiscal Year	Length of Agreement Terms	Budget Fund	Amount	Included in Budget (Y/N)

Future Fiscal Year Budget Authority *(Subject to Board Budget Approval)*

Future Fiscal Year(s)	Length of Agreement Terms	Budget Fund	Amount
FY28	12 months	School Transformation Office's operating budget	$307,400
FY29	12 months	School Transformation Office's operating budget	$307,400

NOTE: Membership rates are subject to change on an annual basis and may be adjusted each year. Additional fees may apply for Early Learning Institutions. This Agreement acknowledges that the District's number of schools operating may change over the next three (3) years due to potential school closures. As a result, the total cost of certification services shall be subject to adjustment based on the actual number of schools receiving services. Any price adjustments will be calculated using the established "per-school rate" and will ensure that the District is billed only for schools that remain open and require certification during the term of the Agreement.

School Impact, Stakeholder Engagement, and Implementation Considerations

This section outlines how the proposed item will impact schools, including the selection and prioritization process where applicable, as well as stakeholder and end-user input. It also addresses technology and capital asset life cycles, replacement planning, and any additional operational details necessary to provide the Board with a comprehensive understanding of implementation.

Impact on Schools	Cognia accreditation impacts all non-charter schools districtwide by ensuring continued system-level accreditation, which is essential for the validity and acceptance of student diplomas, transcripts, and eligibility for postsecondary admission and athletic scholarships. Directly, schools participate in the continuous improvement cycle, including self-assessment, diagnostics, external reviews, and progress monitoring aligned to Cognia Performance Standards. Indirectly, accreditation supports consistent instructional practices, data-informed decision-making, leadership development, and organizational coherence across schools. All schools are included as part of systemwide accreditation; no schools are excluded based on enrollment, performance, or demographics.
School Selection / Prioritization	This item applies districtwide and is not based on school-by-school selection or prioritization. All non-charter schools are covered under the District's accreditation membership with Cognia.

Community / Stakeholder Engagement	Stakeholder engagement is embedded within the Cognia accreditation process. As part of accreditation reviews and continuous improvement efforts, students, parents, teachers, staff, school leaders, and community representatives may be engaged through interviews, focus groups, and Cognia tools (e.g., eProve surveys and diagnostics). Input gathered through these methods provides feedback on school climate, instructional practices, leadership effectiveness, and organizational capacity. Stakeholder feedback is used to identify strengths, challenges, and improvement priorities and informs District and school-level planning aligned to accreditation expectations.
End-User Input	Not Applicable
Technology / Capital Expected Lifecycle / Replacement Cycle	Cognia accreditation is supported through annual membership and continuous access to an online platform and improvement system, rather than a fixed capital asset. The service is renewed annually as part of the accreditation cycle.

The contracting party agrees to indemnify SBBC for any costs, expenses, and attorney's fees SBBC may incur with regard to any legal proceedings and judgments that may arise from the request for the contracting party's public records that are subject to claims of confidential or exempt status. A failure to timely initiate the legal action required by this paragraph is a waiver of any claim that the requested information is confidential and exempt from public disclosure. 4.4 **Default**. The parties agree that, if either party is in default of its obligations under this Agreement, the non-defaulting party shall provide to the defaulting party (30) calendar days' written notice to cure the default. However, if said default cannot be cured within said thirty (30) calendar day period and the defaulting party is diligently attempting in good faith to cure same, the time period will be reasonably extended to allow the defaulting party additional cure time. Upon the occurrence of a default that is not cured during the applicable cure period, this Agreement may be terminated by the non-defaulting party upon thirty (30) calendar days' notice. This remedy is not intended to be exclusive of any other remedy, and each and every such remedy is cumulative and in addition to every other remedy now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder precludes any other or future exercise thereof. Nothing in this section shall be construed to preclude termination for convenience pursuant to Section 4.5.

4.5 **Termination**. This Agreement may be terminated with or without cause by SBBC during the term hereof upon thirty (30) calendar days' written notice to the other parties of its desire to terminate this Agreement. In the event of such termination, SBBC is entitled to a *pro rata* refund of any pre-paid amounts for any services scheduled to be delivered after the effective date of such termination. SBBC has no liability for any property left on SBBC's property by any party to this Agreement after the termination of this Agreement. Any party contracting with SBBC under this Agreement agrees that any of its property placed upon SBBC's facilities pursuant to this Agreement shall be removed within ten (10) business days following the termination, conclusion, or cancellation of this Agreement and that any such property remaining upon SBBC's facilities after that time shall be deemed to be abandoned, that title to such property shall pass to SBBC, and that SBBC may use or dispose of such property as SBBC deems fit and appropriate.

4.6 **Compliance with Laws**. Each party shall comply with all applicable federal, state and local laws, SBBC policies, codes, rules, and regulations in performing its duties, responsibilities, and obligations pursuant to this Agreement.

4.7 **Place of Performance**. All of SBBC's obligations under the terms of this Agreement are reasonably susceptible of being performed in Broward County, Florida and are payable and performable in Broward County, Florida.

4.8 **Governing Law and Venue**. This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Any disputes, controversies, or legal problems arising out of this Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted exclusively to the jurisdiction of the State courts of the Seventeenth Judicial Circuit of Broward County, Florida or to the jurisdiction of the United States District Court for the Southern District of Florida. Each party agrees and admits that the state courts of the Seventeenth Judicial Circuit of Broward County, Florida or the United States District Court for the Southern District of Florida has jurisdiction over it for any dispute arising under this Agreement.

4.9 **Entirety of Agreement**. This document incorporates and includes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, the parties agree that no deviation from the terms hereof is predicated upon any prior representations or agreements, whether oral or written.

4.10 **Binding Effect**. This Agreement is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns.

4.11 **Assignment**. Neither this Agreement nor any interest herein may be assigned, transferred, or encumbered by any party without the prior written consent of the other party. There shall be no partial assignment of interests under this Agreement including, without limitation, the partial assignment of any right to receive payments from SBBC.

4.12 **Captions**. The captions, section designations, section numbers, article numbers, titles, and headings appearing in this Agreement are inserted only as a matter of convenience, have no substantive meaning, and in no way define, limit, construe, or describe the scope or intent of such articles or sections of this Agreement, nor in any way affect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

4.13 **Severability**. If any one or more of the sections, paragraphs, sentences, clauses, or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable, or void in any respect, such does not affect the remaining portions of this Agreement and the same remain in full force and effect as if such invalid, illegal, unlawful, unenforceable, or void sections, paragraphs, sentences, clauses, or provisions had never been included.

4.14 **Preparation of Agreement**. The parties acknowledge that they have sought and obtained whatever competent advice and counsel necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

4.15 **Amendments**. No modification, amendment, or alteration in the terms or conditions contained herein is effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

4.16 **Waiver**. The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement is not a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver is only effective as to the specific instance for which it is obtained and is not a continuing or future waiver.

4.17 **Force Majeure**. Neither party is obligated to perform any duty, requirement, or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage, accident, flood, acts of God, strikes, or other labor disputes, riot or civil commotions, epidemics, pandemics, government regulations, and the issuance or extension of existing government orders of the United States, the State of Florida, or local county and municipal governing bodies, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). In no event shall a lack of funds on the part of either party be deemed Force Majeure.

4.18 **Rights and Remedies**. The duties and obligations imposed by this Agreement and the rights and remedies available thereunder are in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law.

4.19 **Survival**. All representations and warranties made herein, indemnification obligations, obligations to reimburse SBBC, obligations to maintain and allow inspection and audit of records and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds survive the termination of this Agreement.

4.20 **Agreement Administration**. SBBC has delegated authority to the Superintendent of Schools or her/his designee to take any actions necessary to implement and administer this Agreement.

4.21 **Counterparts and Multiple Originals**. This Agreement may be executed in multiple originals, and may be executed in counterparts, each of which is an original, but all of which, taken together, shall constitute one and the same Agreement.

4.22 **Authority**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement upon the date of the last signature below.

Cognia Policies and Procedures for Accreditation and Certification

The Cognia policies and procedures outlined in this document represent the unified policies and procedures for accreditation and certification from Cognia and its Accreditation Divisions: North Central Association Commission on Accreditation and School Improvement (NCA CASI), Northwest Accreditation Commission (NWAC), and Southern Association of Colleges and Schools Council on Accreditation and School Improvement (SACS CASI), herein collectively referred to as Cognia. These policies are effective July 1, 2025, as approved by the Cognia Global Commission.

Definitions

For the purposes of these policies and procedures, the listed terms are defined as:

Accreditation. A voluntary method of quality assurance developed more than 100 years ago by American universities and secondary schools and designed primarily to distinguish institutions adhering to a set of educational standards and policies. Accreditation applies to an entire institution or system.

Certification. A voluntary process of quality assurance that yields a documented recognition of achievement of a defined process or program. Certification may apply to a process or program of an institution or to an institution as a whole.

Institution. Any educational unit such as a school, association, corporation, charter school authorizer, education service organization, or state education agency that is seeking accreditation or certification as a single entity.

System. Any organization such as a corporation, district, education service agency with schools, or system of institutions that is seeking accreditation for the system as a whole, including the organization's system level and all of the institutions managed and/or operated by the system.

Jurisdiction. The permanent physical location where the institution has appropriate licensure(s) to operate, meets governmental regulations, aligns with state/country educational standards, reporting structures, graduation requirements, and all other applicable requirements.

Manage. Indirect control with a focus on direction and supervision while delegating implementation and execution of the day-to-day functions (strategic oversight, monitoring, and setting framework for execution).

Operate. Direct control and oversight of operational management related to the day-to-day functions of the school.

EXHIBIT A

Policy 1: Policy Management, Applicability and Recognition

1.1 Management. The revision and adoption of the accreditation and certification policies and procedures of Cognia shall be the responsibility of the Cognia Global Commission.

1.2 Applicability. These policies and procedures apply to all institutions or systems seeking Cognia accreditation and/or certification.

1.3 Recognition. Institutions or systems that achieve accreditation and/or certification will be awarded the applicable accreditation and/or certification recognition representative of all three Cognia accreditation and certification divisions.

Policy 2: Term and Process Requirements of Accreditation and Certification

2.1 Eligibility for Accreditation and Certification.

a. Institutions must have a permanent physical location where the institution has appropriate licensure(s) to operate, meets governmental regulations, aligns with state/country educational standards, reporting structures, graduation requirements, and all other applicable requirements.

b. Accreditation only. Accreditation may be conferred to an institution or a system. For systems accreditation, the system and all schools managed and/or operated by the system must be accredited or in the accreditation process.

c. Certification may be conferred to an institution or a system. Accreditation is a requirement for certification. For system certification, all schools managed and/or operated by the system must be following the educational model of the certification, with system oversight and quality assurance processes to ensure the model is fully embedded in all schools. Certification is conferred under the name of the institution whether the certification was earned by the institution as a whole or by a program(s) within the institution.

d. Simultaneous Accreditation and Certification. An institution may be both accredited and certified. The expiration dates for any accreditation status or any certification status will be aligned to the accreditation term. An institution must earn certification concurrently with accreditation. An institution may lose certification without automatically jeopardizing the status of accreditation, but a loss of accreditation status will result in a loss of certification.

2.2 Term of Accreditation or Certification. The term of accreditation and/or certification is six years as long as the institution or system continues to satisfy the following:

a. General Requirements of Policy 2.3.

b. Accreditation Requirements of Policy 2.4 for institutions or systems seeking to achieve and maintain accreditation.

c. Certification Requirements of Policy 2.5 for institutions seeking to achieve and maintain certification.

d. Additional Requirements of Policy 2.6 for institutions and systems.

EXHIBIT A

2.3 General Requirements. In order to achieve and maintain Cognia accreditation or certification, an institution or system must:

a. Maintain membership in Cognia.

b. Adhere to Cognia policies, Standards, and Assurances for accreditation and/or certification.

c. Maintain a permanent physical location where the institution has appropriate licensure(s) to operate, meets Governmental Regulations as outlined in Policy 2.6, and aligns with state/country educational standards.

d. Submit all required reports and demographic updates within prescribed timeframes.

e. Pay all required fees within prescribed timeframes.

2.4 Accreditation Requirements. In addition to the general requirements, and in order to achieve and maintain accreditation, an institution or system must:

a. Notify Cognia of its intent to pursue accreditation by submitting an application for accreditation.

b. Meet the appropriate set of accreditation Standards and Assurances.

c. Authentically engage in continuous improvement to achieve results.

d. If not yet accredited at any status, the institution or system must host a Candidacy Review.

i. If Cognia determines the institution or system does not possess the capacity to meet the policies, Standards, and Assurances required to achieve accreditation, the institution or system will remain a member of Cognia and must host another Candidacy Review in order to pursue accreditation.

ii. If Cognia determines the institution or system has the capacity to meet policies, Standards, and Assurances required to achieve accreditation, the institution or system will be conferred with the status of Candidate.

e. Participate in required accreditation training within 12 months prior to the Engagement Review.

f. Host an Engagement Review within a timeframe established by Cognia after achieving the status of Candidate and at least once every six years thereafter. An institution/system may request a delay of an Engagement Review for a timeframe not to exceed one year. The request must be submitted to Cognia in writing according to any specifications or guidelines provided by Cognia for requesting a delay.

i. Each Early Learning School within a system must host an individual Engagement Review for accreditation.

g. Submit required documentation to support the Engagement Review within timeframes as prescribed by Cognia.

h. Submit a progress report(s) within timeframes as prescribed by Cognia.

2.5 Certification Requirements. In order to achieve and maintain certification, an institution must meet the following criteria in addition to the general requirements listed in Policy 2.4:

a. Notify Cognia of its intent to pursue certification by submitting an application.

b. Meet the appropriate set of certification Standards.

c. Host a certification review concurrently with the accreditation Engagement Review or within a timeframe established by Cognia and at least once every six years thereafter.

EXHIBIT A

2.6 Additional Requirements. In addition to satisfying the conditions outlined in Policy 2.2, an institution or system must adhere to the following:

a. Compliance with Applicable Governmental Requirements. The institution or system must comply with all applicable governmental requirements, including any requirements for governmental approval, recognition, or accreditation. The system must ensure that all of its institutions also comply with all applicable governmental requirements, including any requirements for governmental approval, recognition, or accreditation. An institution's or system's loss of its governmental approval, recognition, accreditation, or certification may be grounds for an accreditation review, monitoring review, or certification review that may result in a change in accreditation or certification status in accordance with the procedures outlined in this document. In the absence of governmental regulations, or if governmental regulations are less than Cognia's, Cognia shall require the institution or system to meet the guidelines presented in the Cognia Educational Practices Reference Guide.

b. Non-discriminatory Admission of Students. Institutions and systems accredited or certified through Cognia shall not discriminate on the basis of race, creed, color, sex, national or ethnic origin, age, or disabilities or act unlawfully in the administration of their educational policies, scholarship, admission, and loan programs.

Institutions should have clear and transparent policies about their hiring and enrollment practices that are aligned with the institution's purpose, mission, and values. Cognia holds institutions accountable for following their stated policies through enacted procedures, local and national government regulations, as well as our standards and requirements for accreditation.

c. Records Retention. Institutions and systems are required to maintain and implement a records retention system that meets applicable government requirements for all operating, financial, personnel, and student records. If an institution or system is not subject to any governmental requirements, student records must be retained in perpetuity. The records retention system applies to paper and electronic records, includes appropriate back-up systems, and details consistent processes for records destruction.

i. Institutions and systems must have written procedures for the ongoing access and maintenance of all relevant records in the event the institution or system ceases operation.

ii. The institution or system must document to Cognia via the process for Substantive Change the location of where the records will be housed and contact information for that location.

d. Institutional Integrity and Due Process. An institution or system is required to represent itself accurately in all aspects of the accreditation process and certification process. If an institution or system misrepresents itself, including but not limited to the following: misrepresentation of its accreditation or certification status to the public; has any condition that may be detrimental to the students and/or clientele of the institution or system; or falsely reports its compliance with the policies and Standards for accreditation and/or certification; the institution's or system's accreditation and/or certification may be grounds for an accreditation review, monitoring review, or certification review that may result in a change in accreditation or certification status in accordance with the procedures outlined in this document. If an institution's or system's accreditation and/or

EXHIBIT A

certification is recommended to be dropped, the institution or system shall be afforded due process in consideration of such action.

e. Substantive Change. An institution and system must report to Cognia within sixty (60) days of occurrence any substantive change in the institution and system, which changes the scope and/or has an impact on the institution's or system's ability to meet the Cognia Standards and policies. The report of a substantive change must describe the change itself as well as detail the impact of the change on the quality of education in the institution or system. Substantive change areas include, but are not limited to, the following:

- **i.** Cease of operation/closure of the institution or system. Include the location of where student records will be housed and the contact information for that location.
- **ii.** Official name of institution.
- **iii.** Physical location of the institution or system.
- **iv.** Consolidation or reorganization of the institution.
- **v.** Mission and purpose of the institution.
- **vi.** Governance structure of the institution or system, including changing to a charter school or charter school system, being the subject of a governmental takeover, or a change in ownership.
- **vii.** Institution or System Type
- **viii.** Grade levels served by the institution or system.
- **ix.** Student enrollment change greater than 20% increase or decrease.
- **x.** Head of institution and other staff in leadership positions.
- **xi.** Level of funding change greater than 20% increase or decrease.
- **xii.** School day or school year.
- **xiii.** Establishment of an additional location geographically apart from the main campus.

Institution or system failure to submit a substantive change may result in changes to the institution's or system's accreditation and/or certification status or loss of accreditation and/or certification.

f. Credits or Grade Placement. The institution must maintain written policy and procedures for credits and grade placement and should be designed to ensure proper academic placement of the student.

- **i.** The institution shall accept and classify transfer credits earned or grade placement from institutions that are accredited by a recognized national, regional,[1] or state accrediting agency without further validation based on the school's policies and procedures governing such offerings.

[1] Recognized regional accrediting agencies include the North Central Association Commission on Accreditation and School Improvement (NCA CASI), Northwest Accreditation Commission (NWAC), the Southern Association of Colleges and Schools Council on Accreditation and School Improvement (SACS CASI), Western Association of Schools and Colleges (WASC), the Middle States Association of Colleges and Schools Commissions on Elementary and Secondary Schools (MSA CESS), and New England Association of Schools and Colleges (NEASC).

EXHIBIT A

ii. The institution may accept credits or grade placement from non-accredited institutions when validated by one or more of the following procedures: a review of the student's academic record, an analysis of a sending institution's curriculum, a review of a portfolio of student work, or through an assessment of scholastic performance. The receiving institution must maintain policies and procedures to govern the acceptance of credit or grade placement from non-accredited sources.

iii. The institution should provide prompt and accurate transcript services for students entering or leaving the institution in accordance with local policy.

2.7 Cognia Responsibilities. Cognia is responsible for supporting and monitoring institution and system adherence to the Cognia Standards and policies, conducting an Engagement Review to every accredited school or system at least once every six years; conducting a Certification Review to every institution holding a certification at least once every six years; reviewing all institution and system reports; granting an accreditation or certification status for all institutions or systems; responding to complaints by and about institutions and systems; and maintaining accurate, complete, and timely records. In performing its duties, Cognia retains the right to conduct an on-site review of an accredited or certified institution or system regarding any matter at any time.

a. Codes of Conduct. In performing the responsibilities outlined in Policy 2.7, all agents of Cognia shall adhere to the Cognia Code of Ethics, Cognia Conflict of Interest Policy, and Cognia Confidentiality Statement, including Family Educational Rights and Privacy Act (FERPA) Compliance and/or other governmental privacy regulations as applicable.

i. Code of Ethics. Cognia Representatives agree to adhere to the Cognia Code of Ethics. The code outlines the ethical behaviors that are essential to the proper performance of Cognia duties and to the maintenance of confidence in our work by our institutions and systems, other clients, and the public.

1. **Conflicts of Interest.** We conduct ourselves in a manner which seeks to avoid a conflict of interest or any appearance of a conflict of interest. We abide by the Cognia Conflict of Interest Policy.
2. **Impartiality.** We treat all institutions and systems that are or may seek membership, accreditation, or certification services with impartiality and courtesy.
3. **Confidentiality and Privacy.** We treat information obtained through institutions' or systems' participation in the accreditation and/or certification process as confidential and shall not disclose such information except in a manner that is consistent with Cognia policies, governmental regulation, or judicial procedure. We respect the privacy rights of all individuals in the performance of Cognia duties.
4. **Transparency.** We are committed to providing timely, complete, and accurate information to the public and appropriate stakeholders. All information about the organization will fully and honestly reflect the policies and practices of Cognia.
5. **Legal Compliance.** We are knowledgeable of and comply with all applicable laws, regulations, and requirements.

EXHIBIT A

6. **Responsible Stewardship.** We manage the organization and its resources responsibly and prudently. We use organizational resources only for Cognia purposes.
7. **Inclusiveness and Diversity.** We promote inclusiveness and seek diversity in officers, staff, board members, agents, contractors, and volunteers and the institutions, systems, and other clients we serve in order to enrich our effectiveness.

ii. Conflict of Interest Policy.

The Cognia Conflict of Interest Policy is designed to ensure the highest level of ethical conduct of employees, volunteers, and agents of Cognia (hereinafter referred to as "Cognia Representatives" or "Representatives") and to avoid public perceptions and financial consequences detrimental to Cognia that could arise from the misuse, or perception of misuse, of an individual's position or influence.

1. **Conduct.** Cognia adheres to the highest legal and ethical standards applicable in our business. Cognia's business is conducted in the strict observance of both the letter and spirit of all applicable laws and regulations, including the Foreign Corrupt Practices Act and the integrity of each Cognia Representative is of utmost importance. Business dealings that appear to create conflicts of interest between Cognia and a Cognia Representative are unacceptable. A potential or actual conflict of interest occurs whenever a Cognia Representative is in a position to influence a decision that may result in a personal gain for the Cognia

   Representative or an immediate family member as a result of Cognia's business dealings. Cognia Representatives shall conduct themselves in a manner which seeks to avoid a conflict of interest or any appearance of a conflict of interest between their personal interests and interests of Cognia.
2. **Full Disclosure.** Cognia Representatives shall disclose to the Chief Accreditation Officer any possible conflict of interest, at the earliest possible time, in a written disclosure statement. The Chief Accreditation Officer is responsible for reviewing all submitted statements and making decisions concerning resolutions of conflicts.
3. **Conflicts of Interest.** A Cognia Representative shall be considered to have a possible conflict of interest if such individual has an existing or potential financial or other interest which impairs or might appear to impair independent, unbiased judgment in discharging responsibilities on behalf of Cognia.
   a. Such interests may include, but are not limited to:
      i. Any financial or other interests in institutions and systems that are Cognia members or seeking Cognia membership, accredited, seeking accreditation, and/or certified or seeking certification services through Cognia;
      ii. Employment or consulting arrangements with institutions or systems engaged in the accreditation or certification without prior disclosure to the Chief Accreditation Officer;
      iii. Ownership of some or all of an institution or system;

EXHIBIT A

iv. The holding of mortgages, liens, or other debt instruments or interest upon an institution or system engaged in the accreditation and/or certification;

v. Service as an officer or director of an institution or system that is engaged in the accreditation and/or certification; or

vi. The possession of any of the listed interests by a spouse, child, other relative or close friend.

b. While institutions and systems are specifically noted in the above examples (i-vi), conflict of interest may be with any clients, vendors, or matters of Cognia operations where a Cognia Representative is in a position to benefit, directly or indirectly, from his/her dealings with Cognia.

c. If a Cognia Representative is uncertain about whether a particular interest should be declared, the individual shall describe the interest in writing to the Chief Accreditation Officer who will issue a binding ruling as to whether the matter in question constitutes a reportable conflict of interest.

4. **Prohibited Actions.** In circumstances in which a Cognia Representative has a possible conflict of interest, the Representative shall not:

a. Participate in financial or other agreements with any institutions or systems, clients, or vendors where a possible conflict of interest might exist;

b. Participate in any type of Cognia Review of the institutions or systems wherein the conflict of interest may exist or in discussions regarding issues that may involve a possible conflict of interest.

5. **Signing of the Conflict of Interest Statement.** All Cognia Representatives shall be advised of the Conflict of Interest Policy and shall sign the statement using procedures as provided by Cognia.

6. **Violations of the Conflicts of Interest Policy.** If the Chief Accreditation Officer has reasonable cause to believe a Cognia Representative has failed to disclose actual or possible conflicts of interest, he/she shall inform the Representative of the basis for belief and afford the Representative an opportunity to explain the alleged failure to disclose.

a. If, after hearing the Representative's response and after making further investigation as warranted by the circumstances, the Chief Accreditation Officer determines that the Representative has failed to disclose an actual or possible conflict of interest, the Chief Accreditation Officer shall take appropriate disciplinary and/or corrective action.

iii. Confidentiality Statement. As part of the accreditation and/or certification process, or other Cognia member services, institutions and systems submit to Cognia information considered to be of a proprietary and confidential nature. Other than granting a limited license to use said information for the purposes of providing accreditation, certification, and/or other Cognia member service to the institution or system, Cognia recognizes that the submission of information does not transfer ownership of said property to Cognia.

EXHIBIT A

1. Cognia retains all rights, title, and interest in the work product produced, including but not limited to supporting notes, analyses, interpretations, and impressions compiled by agents of Cognia as part of the accreditation and/or certification process and other Cognia member services.
2. Any and all information provided to or collected by Cognia as part of the processes for accreditation, certification, and/or Cognia membership shall be safeguarded in a manner comparable to a standard of reasonable care exercised by other agencies engaged in accreditation and school improvement activities. Cognia will maintain the documentation and evidence submitted by the institution or system in a password controlled, access restricted environment.
3. If Cognia is required by legal, judicial, or administrative process to disclose information beyond the institution's or system's Executive Summary, Engagement Review Report, Certification Review Report, Progress Assessment Report, and any special or interim accreditation or certification reports, Cognia shall promptly notify the institution or system and allow the institution or system a time to oppose such process.
    a. Nothing contained herein shall obligate Cognia to oppose such process, and all cost incurred in opposing said process shall be the responsibility of the school/school system/education provider seeking protection.
4. Information shall not be deemed confidential or proprietary for purposes of this policy, if said information:
    a. Is already known to Cognia at the time of disclosure;
    b. Is or becomes publicly known through no wrongful act of Cognia or its agents; or
    c. Is disclosed by the actions of a non-restricted third party.
5. Nothing contained herein shall interfere with the legal obligation of Cognia to report instances of child abuse, sexual harassment, or discrimination or any other affirmative reporting requirements under any applicable laws and/or governmental regulations.

b. Gifts. Members of Engagement Review Teams, Certification Review Teams, other review teams as conducted by Cognia, and other agents of Cognia who provide services to institutions and systems are prohibited from accepting gifts, other than branded logo items of minimal value, from institutions and systems.

c. Violation Review and Due Process. In performing its duties, Cognia may monitor an accredited or certified institution or system on any matter related to possible violations of Cognia Standards and Policies at any time. Cognia shall use its judgment and discretion in determining whether a complaint rises to a level justifying an evaluation. Evaluations will only be initiated when supported by substantial evidence and when they involve matters that could seriously hinder or disrupt the educational effectiveness of the institution and ability of the institution to meet the Cognia Policies or Standards for accreditation or certification.

All violation evaluations shall be conducted with proper attention to due process, and procedures shall be followed to protect the rights of all parties. The accreditation status of an accredited institution or system or the certification status of a certified

EXHIBIT A

institution or system may be changed as deemed appropriate through the review and evaluation process; and timelines set forth in Policy 3 may not necessarily apply to special reviews and subsequent monitoring reviews. When warranted by a change of status recommendation, the results of an evaluation shall be reported to the Cognia Global Commission.

d. Maintenance of and Public Access to Institution and System Records. Cognia maintains a record retention system that includes procedures for maintenance and access to institution and system records. Cognia retains all institution and system final accreditation and certification reports and official correspondence for a 10-year period, documenting two full terms of accreditation or certification. Cognia makes available for public access the institution's and system's accreditation and certification status, institution's and system's term of accreditation and certification, and institution's and system's date of initial accreditation and certification. Cognia reserves the right to make available for public access the institution's or system's Engagement Review Report, Certification Review Report, and any progress, special, or interim accreditation reports.

Policy 3: Statuses for Accreditation and Certification

3.1 Status. Accreditation or certification status is based on the performance of an institution or system in areas related to policies, Standards, and Assurances. No provisions in Policy 3 prevent an institution's or system's accreditation status from being changed upon a different timeline established due to the findings of a special review and/or possible subsequent monitoring reviews.

a. Accreditation Status. Accreditation status is a designation provided by Cognia that defines the institution's or system's standing relative to the results of an Engagement Review and/or due to the findings of a progress report(s), special review, and/or subsequent monitoring reviews. There are six accreditation statuses that may be conferred on an institution or system. The accreditation status is based on the performance of an institution or system in areas related to the applicable set of accreditation Standards, policies, Assurances, student performance results, and stakeholder feedback.

i. Accredited with Distinction. A status conferred to an institution or system in excellent standing, and based on the most recent Engagement Review, exceeds a substantial number of Standards and criteria, has documented high levels of student performance results in multiple curricular areas, and has earned an Index of Education Quality® (IEQ®) score at an exemplary level. The institution or system having a status of Accredited with Distinction will continue with that status through the assigned expiration date of the six-year accreditation term as long as the institution or system continuously meets the policies, Standards, and Assurances for accreditation. The institution must address any Areas for Improvement in a required Progress report due three years following review.

ii. Accredited with Merit. A status conferred to an institution or system in excellent standing, and based on the most recent Engagement Review, meets or exceeds most Standards and criteria, has documented levels of high student performance results in one or more curricular area, and has earned an IEQ score above expectations. The institution or system having a status of Accredited with Merit will continue with

EXHIBIT A

that status through the assigned expiration date of the six-year accreditation term as long as the institution or system continuously meets the policies, Standards, and Assurances for accreditation. The institution must address any Areas for Improvement in a required Progress report due three years following review.

iii. **Accredited.** A status conferred to an institution or system in good standing, and based on the most recent Engagement Review, meets all or a substantial number of Standards and criteria, has documented student performance results that are average, and has an IEQ score that falls within an acceptable range as determined by Cognia. The institution or system having a status of Accredited will continue with that status through the assigned expiration date of the six-year accreditation term as long as the institution or system continuously meets the policies, Standards, and Assurances for accreditation. The institution must address any Areas for Improvement in a required Progress report due three years following review.

iv. **Accredited Needing Improvement.** A status conferred to an institution or system in fair standing, and based on the most recent Engagement Review, meets some, but falls below several Standards and criteria, has limited documented or poor student performance results, and an IEQ score that falls slightly below an acceptable range as determined by Cognia. The institution or system having a status of Accredited Needing Improvement will continue with that status through the assigned expiration date of the six-year accreditation term or until the institution or system successfully documents adequate progress in Areas for Improvement and/or by providing documented evidence of substantially meeting policies, Standards, and Assurances for accreditation. The institution must address any Areas for Improvement in a required Progress report due three years following review.

v. **Accredited Under Review.** A status conferred to an institution or system in noncompliance with policies, Standards, and Assurances impacting the effective operations of the institution or system; not meeting Cognia's expectations based on the most recent Engagement Review, fails to meet a substantial number of Standards or criteria, may have poor or unsatisfactory student performance results, and/or has an IEQ score that falls below an acceptable range. Additionally, an institution or system may be conferred the status of Accredited Under Review based on the results of a special review or monitoring review wherein the institution or system fails to meet a substantial number of Standards or criteria. An institution or system having a status of Accredited Under Review will submit an annual progress report to Cognia on Areas for Improvement identified in the most recent review report or actions identified by Cognia to achieve compliance, host an onsite monitoring review within one year of the previous review or timelines prescribed by Cognia, and host subsequent monitoring reviews as prescribed by Cognia. An institution or system having a status of Accredited Under Review will continue with that status until the institution or system successfully documents adequate progress in Areas for Improvement and/or by providing documented evidence of substantially meeting policies, Standards, and Assurances for accreditation.

EXHIBIT A

vi. **Accredited Under Conditions.** A status is conferred to an institution or system in poor standing with the following conditions:

1. Has held the status of Accredited Under Review for at least twelve (12) months and,
2. Has failed to demonstrate, with documented evidence, substantive progress in addressing the circumstances for which the institution was conferred the status of Accredited Under Review.

OR

3. Has been found by a special review to no longer adhere to the accreditation Standards, policies, and Assurances (refer to Policy 6.5); fails to cooperate with any special review or request for information; and circumstances warrant such action.

An institution or system having a status of Accredited Under Conditions may be recommended for drop of accreditation.

a. **Intent to File Response.** Within thirty (30) calendar days of the Cognia Global Commission's ratification of the institution's or system's status of Accredited Under Conditions, the institution or system must notify Cognia in writing of its intent to file a written response indicating why the institution or system should not have its accreditation dropped.

b. **Response.** Within sixty (60) calendar days of submitting the intent to file a written response, the institution or system must submit to Cognia a written response indicating that the institution or system should not have its accreditation dropped. The response must be substantiated by documented evidence(s) that address(es) the circumstances for the institution having been conferred the status of Accredited Under Conditions. Additionally, a documented improvement plan, inclusive of strategies, timelines, and dedicated resources targeted toward the identified circumstances, must accompany the response.

c. **Cognia Decision.** Within thirty (30) calendar days of Cognia receiving the institution's or system's written response with substantiating evidence and improvement plan, Cognia will notify the institution or system of Cognia's decision to either:

i. Continue the institution's or system's status of Accredited Under Conditions not to exceed one year from the date of Commission ratification. Cognia may extend the institution's or system's status of Accredited Under Conditions for one year or at a time until the institution or system has successfully documented sufficient progress to warrant a change in status to Accredited Under Review.

EXHIBIT A

b. Certification Status. Certification status is a designation provided by Cognia that defines the standing of an institution or a system relative to the results of a certification review, a special review, and/or subsequent monitoring reviews.

i. There is one certification status that may be conferred on an institution or a system. The certification status is based on the performance of an institution or a system in areas related to the applicable set of certification Standards, policies, and Assurances. In order to maintain certification in good standing, the institution or system must also be accredited.

ii. Certified. A status conferred to an institution or system in good standing, and based on the most recent Certification Review, meets the criteria established by Cognia.

iii. The institution or system having a status of Certified will continue with that status through the assigned expiration date of the six-year accreditation term as long as the institution or system continuously meets the policies, Standards, and Assurances for accreditation and certification.

3.2 Non-accredited or Non-certified Status. There are two non-accredited statuses that may be conferred on an institution or system, which are candidate for accreditation and dropped from accreditation, and one non-certified status that may be conferred on an institution which is dropped from certification. Any Cognia member institution or system that has not yet achieved any accreditation and/or certification status remains as a Cognia member.

a. Candidate for Accreditation. The Cognia member institution or system becomes a candidate once it has hosted a Candidacy Review and the Candidacy Review Team and Cognia find that the institution or system has the capacity to meet the Standards, policies, and Assurances required to earn accreditation, but the institution or system has not yet completed the Engagement Review. Candidate status denotes the institution or system's active and meaningful engagement in continuous improvement toward accreditation. The institution or system must complete the Engagement Review within the timeframe established by Cognia.

i. The institution or system may remain as a Cognia member if it has hosted the Candidacy Review and been found by the Candidacy Review Team and Cognia to not have the capacity to meet the Standards, policies, or Assurances to earn accreditation. In such a case, the institution or system will not be conferred the status of candidate.

ii. The institution or system must host another Candidacy Review if again pursuing accreditation.

b. Dropped.

i. Accreditation. The institution or system will receive a dropped status if it:

1. Does not meet the Standards, policies and/or Assurances of the accreditation process or certification process; or
2. Finds it is no longer able to meet the Cognia accreditation and/or certification Standards, policies and/or Assurances and notifies Cognia that it wishes to have its accredited status or certification status dropped; or
3. Has been Accredited Under Conditions and fails to make substantial progress within the timeframe established by Cognia on the circumstances for the institution having been conferred the status of Accredited Under Review; or

EXHIBIT A

4. Fails to complete the Engagement Review within the timeframe established by Cognia, as outlined in Policy 2.4; or

6. Fails to pay membership and other fees related to accreditation and/or certification within prescribed timelines.

The dropped status is effective on July 1 of the current academic year when membership fees for the current academic year have not been received by the annual subscription date.

a. An institution or system that has been dropped from accreditation must remove all references to its accredited status from institution and/or system diplomas, certificates, websites, buildings, literature, and any other public facing documents or media.

b. A dropped institution or system may seek reinstatement for accreditation within one year of receiving the Cognia notification letter of the dropped status. After one year, the dropped institution or system must reapply and follow the same procedures as new institutions or systems.

ii. Certification. The institution or system will receive a dropped status for certification if it:

1. Does not meet the Standards and/or policies of the certification process; or
2. Finds it is no longer able to meet the Cognia certification Standards and/or policies and notifies Cognia that it wishes to have its certification status dropped; or
3. Is no longer accredited by Cognia.
4. An institution or system that has been dropped from certification must remove all references to its certification status from institution and/or system diplomas, certificates, websites, buildings, literature, and any other public facing documents or media.

c. Future or Expected Status. An institution or system that does not hold a current status of accreditation and/or certification may not project future or expected accreditation or certification status. All candidate institutions or systems are not accredited or certified until such status is officially granted by the Cognia Global Commission. In any public announcements regarding the institution's or system's pursuit of accreditation or certification, the institution or system must avoid any implication that the Cognia membership or candidate status equates with accreditation or certification or automatically leads to accreditation or certification. Cognia's Global Commission shall have full authority and discretion to deny accreditation or certification status to any institution or system determined by Cognia to be in violation of this policy.

d. Ongoing Monitoring. The status of an institution or system is regularly monitored by Cognia and may be changed by the Cognia Global Commission based on new or corrected information provided by the institution or system, Engagement Review Reports, Certification Review Reports, reports from special reviews, complaints submitted, or other sources.

EXHIBIT A

3.3 Reinstatement. Institutions or systems may request reinstatement of their accreditation status in accordance with the following conditions and steps for reinstatement:

a. Within twelve (12) months of the institution's or system's receipt of the Cognia notification letter of the dropped accreditation status by the Cognia Global Commission, Cognia receives the institution's or system's request for reinstatement of accreditation status. The institution may request/access the Request for Reinstatement form from Cognia.

b. The institution or system completes and submits the Request for Reinstatement form for review and approval by Cognia.

c. The institution or system submits the reinstatement fee and Cognia membership fees for all years covered by the reinstatement timeframe. The fees are submitted to the Cognia Finance Department using the instructions provided on the Reinstatement for Reinstatement form.

d. Within fifteen calendar (15) days of receiving the Request for Reinstatement form, all applicable Cognia membership fees, and the reinstatement fee, Cognia contacts the institution or system to confirm receipt of the reinstatement request form and fees.

e. Upon the institution or system being reinstated to the status of accredited, the institution or system is reinstated to the original accreditation term. The institution or system must satisfy all requirements of the accreditation and/or certification term in which it is being reinstated.

i. Within thirty (30) calendar days, the institution or system must submit to Cognia a written rationale for the institution or system to be reinstated to its accreditation status at the time of being dropped. The rationale must be substantiated by documented evidence(s) that address progress toward the circumstances for the institution having been conferred the status of Accredited Under Conditions. Additionally, a documented improvement plan, inclusive of strategies, timelines, and dedicated resources targeted toward the identified circumstances must accompany the rationale.

ii. Within thirty (30) calendar days of receiving the written rationale with substantiating documentation and improvement plan from the institution or system, Cognia forwards the Request for Reinstatement form, the rationale for reinstatement with its substantiating evidence and improvement plan, accreditation actions or recommendations for review, and action to the Cognia Global Commission at the next scheduled Cognia Global Commission meeting.

iii. Upon Cognia Global Commission action to reinstate the institution's or system's accreditation status, the institution or system is reinstated with an expiration date not to exceed one year from the date of Commission action. Cognia may extend the institution's or system's status of Accreditation Under Conditions for one year at a time until the institution or system has successfully documented sufficient progress to warrant a change in status to Accredited Under Review or higher.

g. An institution or system that dropped in its last year of the accreditation term and reinstates must host an Engagement Review for accreditation upon reinstatement.

Upon achievement of candidate status, the institution or system authentically engages in the accreditation process and continuous improvement, submits any required documents, and prepares for its first Engagement Review. In the case of systems, all institutions within the system also authentically engage in the accreditation process and continuous improvement, submit required documents, and participate in the preparations for the system Engagement Review, including participating in school reviews, as may be required.

4.5 For Accreditation – Engagement Review and Accreditation Recommendation. The candidate institution or system completes an Engagement Review within the timeframe established by Cognia. a. The institution (school) completes and submits an application for accreditation.

b. The system verifies that the institution meets Cognia Accreditation Standards, policies, and Assurances and is actively engaged in the system's process for quality Assurance.

c. Upon receiving the system's notification of an additional institution(s), the appropriate Cognia Office makes an accreditation recommendation that is submitted to the Cognia Global Commission for accreditation action

2.11.3 VENDOR and/or VENDOR's subcontractors with access to SBBC data under this Agreement shall, at minimum, annually complete a third-party assessment of their cybersecurity controls showing compliance with acceptable cybersecurity standards. VENDOR shall provide SBBC an attestation of continued compliance by VENDOR and/or VENDOR's subcontractors with access to SBBC data within ten (10) business days of written request by SBBC.

2.12 **Inspection of VENDOR's Records by SBBC**. VENDOR shall establish and maintain books, records, and documents (including electronic storage media) sufficient to reflect all income and expenditures of funds provided by SBBC under this Agreement. All VENDOR's applicable records, regardless of the form in which they are kept, shall be open to inspection and subject to audit, inspection, examination, evaluation, and reproduction, during normal working hours, by SBBC's agent or its authorized representative to permit SBBC to evaluate, analyze, and verify the satisfactory performance of the terms and conditions of this Agreement and to evaluate, analyze, and verify the applicable business records of VENDOR directly relating to this Agreement in order to verify the accuracy of invoices provided to SBBC. Such audit shall be no more than one (1) time per calendar year.

2.12.1 Duration of Right to Inspect. For the purpose of such audits, inspections, examinations, evaluations, and reproductions, SBBC's agent or authorized representative shall have access to VENDOR's records from the Effective Date of this Agreement, for the duration of the term of this Agreement, and until the later of five (5) years after the termination of this Agreement or five (5) years after the date of final payment by SBBC to VENDOR pursuant to this Agreement.

2.12.2 Notice of Inspection. SBBC's agent or its authorized representative shall provide VENDOR reasonable advance written notice [not to exceed two (2) weeks] of any intended audit, inspection, examination, evaluation, and reproduction.

2.12.3 Audit Site Conditions. SBBC's agent or its authorized representative shall have reasonable access to VENDOR's facilities and to any and all records related to this Agreement,

and shall be provided adequate and appropriate work space in order to exercise the rights permitted under this section.

2.12.4 Failure to Permit Inspection. Failure by VENDOR to permit audit, inspection, examination, evaluation, and reproduction as permitted under this section constitute grounds for termination of this Agreement by SBBC for cause and are grounds for SBBC's denial of some or all of any VENDOR's claims for payment.

2.12.5 Overcharges and Unauthorized Charges. If an audit conducted in accordance with this section discloses overcharges or unauthorized charges to SBBC by VENDOR in excess of two percent (2%) of the total billings under this Agreement, the actual cost of SBBC's audit shall be paid by VENDOR. If the audit discloses billings or charges to which VENDOR is not contractually entitled, VENDOR shall pay said sum to SBBC within twenty (20) calendar days of receipt of written demand.

2.12.6 Inspection of Subcontractor's Records. If applicable, VENDOR shall require any and all subcontractors, insurance agents and material suppliers (hereafter referred to as "Payees") providing services or goods with regard to this Agreement to comply with the requirements of this section by insertion of such requirements in any written subcontract. Failure by VENDOR to include such requirements in any subcontract constitute grounds for termination of this Agreement by SBBC for cause and are grounds for the exclusion of some or all of any Payees' costs from amounts payable by SBBC to VENDOR pursuant to this Agreement and such excluded costs shall become the liability of VENDOR.

2.12.7 Inspector General Audits. VENDOR shall comply and cooperate immediately with any inspections, reviews, investigations, or audits deemed necessary by the Florida Office of the Inspector General or by any other state or federal officials.

2.13 **Notice**. When any of the parties desire to give notice to the other, such notice must be in writing, sent by U.S. Mail, postage prepaid, addressed to the party for whom it is intended at the place last specified; the place for giving notice shall remain such until it is changed by written notice in compliance with the provisions of this paragraph. For the present, the parties designate the following as the respective places for giving notice:

To SBBC:	Superintendent of Schools The School Board of Broward County, Florida 600 Southeast Third Avenue Fort Lauderdale, Florida 33301
With a Copy to:	Chief Academic Officer The School Board of Broward County, Florida 600 Southeast Third Avenue Fort Lauderdale, Florida 33301

To VENDOR: Attn: Laura Brown
5600 West 83rd Street, Suite 300
Bloomington, Minnesota 55437

2.14 **E-Verify**. Pursuant to Section 448.095, Florida Statutes, any party contracting with SBBC shall register with and use the E-Verify system to verify the work authorization for all employees hired during the course of this Agreement. Any such party shall require any subcontractors used to perform the duties and responsibilities under this Agreement to register with and use the E-Verify system to verify the work authorization for all employees that the subcontractor hires during the course of this Agreement. If applicable, any such party must also obtain and retain an affidavit from a subcontractor stating that the subcontractor does not employ, contract with or subcontract with anyone who is not duly authorized to work in the United States. If SBBC has a good faith belief that any such party has knowingly violated Section 448.09(1), Florida Statutes, SBBC may immediately terminate this Agreement for cause and without notice or an opportunity to cure the violation. Termination by SBBC pursuant to this section is not a breach of this Agreement and may not be considered as such.

2.15 **Affidavit Regarding the Use of Coercion for Labor and Services**. Pursuant to Section 787.06(13), Florida Statutes, VENDOR, when executing, renewing, or extending an agreement with SBBC must provide an affidavit signed by an officer or representative of VENDOR under penalty of perjury stating that VENDOR does not use coercion for labor or services as defined in that statute. The submission of a false affidavit may subject VENDOR to civil penalties, attorney's fees, and/or costs. Any Agreement with SBBC shall be terminated by SBBC without recourse if VENDOR is found to have submitted a false affidavit. Any delays in delivery or service under this Agreement arising out of, as a result of, or in connection with VENDOR's use of coercion for labor or services as defined by Section 787.06(13), Florida Statutes, is not a Force Majeure event under this Agreement.

2.16 **Certification Regarding Scrutinized Activities**. Section 287.135(2)(a), Florida Statutes, prohibits a company from bidding on, submitting a proposal for, or entering into or renewing an Agreement for goods or services of any amount if, at the time of contracting or renewal, the company is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, or is engaged in a boycott of Israel. Section 287.135(2)(b), Florida Statutes, further prohibits a company from bidding on, submitting a proposal for, or entering into or renewing an Agreement for goods or services over One Million Dollars and 00/100 Cents ($1,000,000.00) if, at the time of contracting or renewal, the company is on either the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, both created pursuant to Section 215.473, Florida Statutes, or the company is engaged in business operations in Cuba or Syria. Entering into this Agreement constitutes certification by VENDOR that it is not listed on any of the following: (a) the Scrutinized

Companies that Boycott Israel List, (b) Scrutinized Companies with Activities in Sudan List, or (c) the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List. VENDOR further certifies that it is not engaged in a boycott of Israel or engaged in business operations in Cuba or Syria. VENDOR acknowledges that pursuant to Section 287.135, Florida Statutes, the submission of a false certification may subject it to civil penalties, attorney's fees, and/or costs. VENDOR further understands that any Agreement with SBBC for goods or services of any amount may be terminated at SBBC's option if VENDOR (a) is found to have submitted a false certification, (b) has been placed on the List of Scrutinized Companies that Boycott Israel, or (c) is engaged in a boycott of Israel. And, in addition to the foregoing, if the amount of the Agreement is One Million Dollars and 00/100 Cents ($1,000,000.00) or more, the Agreement may be terminated at SBBC's option if VENDOR is found to have submitted a false certification, has been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria.

2.17 **Background Screening.** VENDOR shall comply with all requirements of Sections 1012.32, 1012.465, 1012.467, and 1012.468, Florida Statutes, and all of its personnel who (a) are to be permitted access to school grounds when students are present, (b) will have direct contact with students, or (c) have access or control of school funds, will successfully complete the background screening required by the referenced statutes and meet the standards established by the statutes. Personnel who are subject to background screening include all of VENDOR's non-exempt employees, representatives, agents, and sub-contractors performing duties under this Agreement who meet any of the three (3) descriptions listed above. This background screening will be conducted by SBBC in advance of VENDOR or its personnel providing any services under this Agreement. VENDOR shall bear the cost of acquiring the background screening required by Section 1012.32, Florida Statutes, and any fee imposed by the Florida Department of Law Enforcement (FDLE) to maintain the fingerprints provided with respect to VENDOR and its personnel. The parties agree that the failure of VENDOR to perform any of the duties described in this section shall constitute a material breach of this Agreement entitling SBBC to terminate this Agreement immediately for cause and with no opportunity required to permit VENDOR to cure such default and no further responsibilities or duties for SBBC to perform under this Agreement. VENDOR agrees to indemnify and hold harmless SBBC, its officers and employees from any liability in the form of physical or mental injury, death or property damage resulting from VENDOR's failure to comply with the requirements of this section or with Sections 1012.32, 1012.465, 1012.467, and 1012.468, Florida Statutes. SBBC issued identification badges must be worn at all times when on SBBC property or when performing services for SBBC and must be worn where they are visible and easily readable.

2.18 **Public Records**. The following provisions are required by Section 119.0701, Florida Statutes, and may not be amended. VENDOR shall keep and maintain public records required by SBBC to perform the services required under this Agreement. Upon request from SBBC's custodian of public records, VENDOR shall provide SBBC with a copy of any requested public records

or to allow the requested public records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law. VENDOR shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement's term and following completion of the Agreement if VENDOR does not transfer the public records to SBBC. Upon completion of the Agreement, VENDOR shall transfer, at no cost, to SBBC all public records in possession of VENDOR or keep and maintain public records required by SBBC to perform the services required under the Agreement. If VENDOR transfers all public records to SBBC upon completion of the Agreement, VENDOR shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If VENDOR keeps and maintains public records upon completion of the Agreement, VENDOR shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to SBBC, upon request from SBBC's custodian of public records, in a format that is compatible with SBBC's information technology systems.

IF A PARTY TO THIS AGREEMENT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO ITS DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT 754-321-2300, RECORDREQUESTS@BROWARDSCHOOLS.COM, LEGISLATIVE AFFAIRS DEPARTMENT, PUBLIC RECORDS DIVISION, 600 SOUTHEAST THIRD AVENUE, FORT LAUDERDALE, FLORIDA 33301.

2.19 **Proprietary Information**.

2.19.1 Any documents or materials submitted to SBBC shall be open for inspection by any person in accordance with Section 119.07, Florida Statutes, except as otherwise exempted from disclosure by applicable law. A party contracting with SBBC must clearly mark, label, designate, or identify any portions of any documents or materials it provides to SBBC which are claimed to be confidential and exempt from public inspection, provided that the confidential or exempt portions of such documents or materials are clearly marked with specific citations of law that provide the asserted confidentiality or exemption. A contracting party's failure to identify any confidential or exempt portions of documents or materials or to specify the law establishing their confidential or exempt status is a waiver of confidential or exempt status for any such unidentified or unsupported portions of any documents or materials.

2.19.2 If SBBC receives a public record request for documents or materials in its custody under this Agreement which have been properly marked as confidential or exempt, SBBC will notify the contracting party of the public records request. The notice shall state that the requested materials will be produced by SBBC to the requesting party within ten (10) calendar days of the date of the written notification, unless the contracting party has initiated an action at its sole cost and expense in a court of competent jurisdiction to preclude the release of the requested materials. The contracting party shall name the party requesting the documents or

materials as a defendant and will not name SBBC as a party to the action, but will provide SBBC with notice of such proceedings. The contracting party agrees to indemnify SBBC for any costs, expenses, and attorney's fees SBBC may incur with regard to any legal proceedings and judgments that may arise from the request for the contracting party's public records that are subject to claims of confidential or exempt status. A failure to timely initiate the legal action required by this paragraph is a waiver of any claim that the requested information is confidential and exempt from public disclosure. The contracting party waives any cause of action against SBBC for the release of materials pursuant to a public records request except for any claims based upon the intentional or grossly negligent conduct of any employee of SBBC.

2.20 **Liability**. This section survives the termination of all performance or obligations under this Agreement and is fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

2.20.1 By SBBC. SBBC agrees to be fully responsible up to the limits of Section 768.28, Florida Statutes, for its acts of negligence, or its employees' acts of negligence when acting within the scope of their employment and agrees to be liable, up to the limits of Section 768.28, Florida Statutes, for any damages resulting from said negligence.

2.20.2 By VENDOR. VENDOR agrees to indemnify, hold harmless and defend SBBC, its agents, servants and employees from any and all third party claims, judgments, costs, and expenses including, but not limited to, reasonable attorney's fees, reasonable investigative and discovery costs, court costs, and all other sums which SBBC, its agents, servants, and employees may pay or become obligated to pay on account of any, all and every claim or demand, or assertion of liability, or any claim or action founded thereon, arising or alleged to have arisen out of or due to the products, goods, or services furnished by VENDOR, its agents, servants, or employees; the equipment of VENDOR, its agents, servants, or employees while such equipment is on premises owned or controlled by SBBC; or the negligence of VENDOR or the negligence of VENDOR's agents when acting within the scope of their employment, whether such claims, judgments, costs, and expenses are for damages, damage to property including SBBC's property, and injury or death of any person whether employed by VENDOR, SBBC, or otherwise.

The parties agree that no person shall be subjected to discrimination because of age, race, color, disability, gender identity, gender expression, marital status, national origin, religion, sex or sexual orientation in the performance of the parties' respective duties, responsibilities and obligations under this Agreement.

2.23 **Entities of Foreign Concern**. The provisions of this section apply only if this Agreement provides access to an individual's personal identifying information. Terms used in this section that are not otherwise defined in this Agreement shall have the meanings ascribed to such terms in Section 287.138, Florida Statutes.

2.24 **Annual Appropriation**. SBBC's performance and obligations under this Agreement is contingent upon an annual budgetary appropriation by its governing body. ARTICLE 3 – GENERAL CONDITIONS

3.1 **No Waiver of Sovereign Immunity**. Nothing herein is intended to serve as a waiver of sovereign immunity by any agency or political subdivision to which sovereign immunity may be applicable or of any rights or limits to liability existing under Section 768.28, Florida Statutes. This section survives the termination of all performance or obligations under this Agreement and is fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

3.2 **No Third-Party Beneficiaries**. The parties expressly acknowledge that it is not their intent to create or confer any rights or obligations under this Agreement in or upon any third person or entity. None of the parties intend to directly or substantially benefit a third-party by this Agreement. The parties agree that there are no third-party beneficiaries to this Agreement and that no third-party is entitled to assert a claim against any of the parties based upon this Agreement. Nothing herein shall be construed as consent by an agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of any Agreement.

3.3 **Independent Contractor**. The parties to this Agreement are acting in the capacity of independent contractors and not as an officer, employee, or agent of one another. Neither party or its respective agents, employees, subcontractors, or assignees shall represent to others that it has the authority to bind the other party unless specifically authorized in writing to do so. No right to SBBC retirement, leave benefits, or any other benefits of SBBC employees exists as a result of the performance of any duties or responsibilities under this Agreement. SBBC is not responsible for Social Security, withholding taxes, contributions to unemployment compensation funds or insurance for the other party or the other party's officers, employees, agents, subcontractors, or assignees.

3.4 **Default**. The parties agree that, if either party is in default of its obligations under this Agreement, the non-defaulting party shall provide to the defaulting party (30) calendar days' written notice to cure the default. However, if said default cannot be cured within said thirty (30) calendar day period and the defaulting party is diligently attempting in good faith to cure same, the time period will be reasonably extended to allow the defaulting party additional cure time. Upon the occurrence of a default that is not cured during the applicable cure period, this Agreement may be terminated by the non-defaulting party upon thirty (30) calendar days' notice. This remedy is not intended to be exclusive of any other remedy, and each and every such remedy is cumulative and in addition to every other remedy now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder precludes any other or future exercise thereof. Nothing in this section shall be construed to preclude termination for convenience pursuant to section 3.5.

3.5 **Termination**. This Agreement may be terminated with or without cause by SBBC during the term hereof upon thirty (30) calendar days' written notice to the other parties of its desire to terminate this Agreement. In the event of such termination, SBBC is entitled to a *pro rata* refund of any pre-paid amounts for any services scheduled to be delivered after the effective date of such termination. SBBC has no liability for any property left on SBBC's property by any party to this Agreement after the termination of this Agreement. Any party contracting with SBBC under this Agreement agrees that any of its property placed upon SBBC's facilities pursuant to this Agreement shall be removed within ten (10) business days following the termination, conclusion, or cancellation of this Agreement and that any such property remaining upon SBBC's facilities after that time shall be deemed to be abandoned, that title to such property shall pass to SBBC, and that SBBC may use or dispose of such property as SBBC deems fit and appropriate.

3.6 **Compliance with Laws**. Each party shall comply with all applicable federal, state and local laws, SBBC policies, codes, rules, and regulations in performing its duties, responsibilities, and obligations pursuant to this Agreement.

3.7 **Place of Performance**. All of SBBC's obligations under the terms of this Agreement are reasonably susceptible of being performed in Broward County, Florida and are payable and performable in Broward County, Florida.

3.8 **Governing Law and Venue**. This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Any disputes, controversies, or legal problems arising out of this Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted exclusively to the jurisdiction of the State courts of the Seventeenth Judicial Circuit of Broward County, Florida or to the jurisdiction of the United States District Court for the Southern District of Florida. Each party agrees and admits that the state courts of the Seventeenth Judicial Circuit of Broward County, Florida or the United States District Court for the Southern District of Florida has jurisdiction over it for any dispute arising under this Agreement.

3.9 **Entirety of Agreement**. This document incorporates and includes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, the parties agree that no deviation from the terms hereof is predicated upon any prior representations or agreements, whether oral or written.

3.10 **Binding Effect**. This Agreement is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns.

3.11 **Assignment**. Neither this Agreement nor any interest herein may be assigned, transferred, or encumbered by any party without the prior written consent of the other party. There shall be no partial assignment of interests under this Agreement including, without limitation, the partial assignment of any right to receive payments from SBBC.

3.12 **Captions**. The captions, section designations, section numbers, article numbers, titles, and headings appearing in this Agreement are inserted only as a matter of convenience, have no substantive meaning, and in no way define, limit, construe, or describe the scope or intent of such articles or sections of this Agreement, nor in any way affect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

3.13 **Severability**. If any one or more of the sections, paragraphs, sentences, clauses, or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable, or void in any respect, such does not affect the remaining portions of this Agreement and the same remain in full force and effect as if such invalid, illegal,

unlawful, unenforceable, or void sections, paragraphs, sentences, clauses, or provisions had never been included.

3.14 **Preparation of Agreement**. The parties acknowledge that they have sought and obtained whatever competent advice and counsel necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

3.15 **Amendments**. No modification, amendment, or alteration in the terms or conditions contained herein is effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

3.16 **Waiver**. The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement is not a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver is only effective as to the specific instance for which it is obtained and is not a continuing or future waiver.

3.17 **Force Majeure**. Neither party is obligated to perform any duty, requirement, or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage, accident, flood, acts of God, strikes, or other labor disputes, riot or civil commotions, epidemics, pandemics, government regulations, and the issuance or extension of existing government orders of the United States, the State of Florida, or local county and municipal governing bodies, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). In no event shall a lack of funds on the part of either party be deemed Force Majeure.

3.18 **Rights and Remedies**. The duties and obligations imposed by this Agreement and the rights and remedies available thereunder are in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law.

3.19 **Survival**. All representations and warranties made herein, indemnification obligations, obligations to reimburse SBBC, obligations to maintain and allow inspection and audit of records and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds survive the termination of this Agreement.

3.20 **Agreement Administration**. SBBC has delegated authority to the Superintendent of Schools or her/his designee to take any actions necessary to implement and administer this Agreement.

3.21 **Counterparts and Multiple Originals**. This Agreement may be executed in multiple originals, and may be executed in counterparts, each of which is an original, but all of which, taken together, shall constitute one and the same Agreement.

3.22 **Authority**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the date of last signature below.

EXECUTIVE SUMMARY

AGR26-203 – Supplemental Software (Reading Horizons)

Board Meeting Date: July 28, 2026

Requested Action:
Approve the Agreement between The School Board of Broward County, Florida (SBBC), and HEC Software, Inc. (Reading Horizons) with a term that commences on August 1, 2026, and concludes on July 31, 2027, with budget authority in the amount of $100,000.

General Information

The following information outlines the governing authority, districtwide implications, historical background, strategic alignment with the 2027 goals and guardrails, and the anticipated measurable outcomes and return on investment related to this agenda item.

District-zone Impact/Board Member: District-wide	
School Board Policy Requirement	• Not Applicable
Statutory Requirement	• Supports 6A-6.053 District Comprehensive Evidence-Based Reading Plan, Evidence-Based, Tier 2/3 Intensive Interventions
If the School Board votes "Yes"	• Approval will ensure that elementary schools have access to Reading Horizons as an evidence-based intervention aligned to Florida Rule 6A-6.053 and the District's Comprehensive Evidence-Based Reading Plan (CERP). SIPPS directly supports the delivery of evidence-based, intensive interventions for students with foundational reading deficiencies, enabling schools to meet state requirements for differentiated literacy instruction and accelerate student achievement in English Language Arts (ELA).
If the School Board votes "No"	• Non-approval will limit schools' ability to implement Reading Horizons as a targeted, evidence-based intervention, potentially impacting the District's capacity to fully align with Florida Rule 6A-6.053 and the CERP. This may reduce access to structured, systematic supports for students requiring intensive foundational reading interventions, thereby constraining schools' ability to effectively address reading deficiencies and meet state expectations for evidence-based literacy instruction.
Alignment to the 2027 Strategic Goals and Guardrails	• Goal 1: Early Literacy Proficiency

Measurable Outcome(s)/Return on Investment	• Students who attended schools that implemented the Reading Horizons (RH) program demonstrated growth across all grade levels from PM1 to PM3. Kindergarten students showed the largest average increase, gaining 37.46 points, closely aligning with the district average growth of 38.37 points. Grade 2 students increased by an average of 21.89 points, which was comparable to the district average of 22 points. In Grades 3, 4, and 5, students demonstrated average gains of 17.73, 17.03, and 14.31 points, respectively. Growth in Grade 3 was slightly below the district average of 18.55 points, while Grades 4 and 5 slightly exceeded district averages of 16.82 and 13.76 points, respectively.

Background/History
Reading Horizons is a core word recognition intervention program from Broward's Comprehensive Evidence-Based Reading Plan. It has a strong track record of improving all students' decoding ability when used with fidelity as an intensive intervention.

A contracting party's failure to identify any confidential or exempt portions of documents or materials or to specify the law establishing their confidential or exempt status is a waiver of confidential or exempt status for any such unidentified or unsupported portions of any documents or materials.

2.21.2 If SBBC receives a public record request for documents or materials in its custody under this Agreement which have been properly marked as confidential or exempt, SBBC will notify the contracting party of the public records request. The contracting party agrees to indemnify SBBC for any costs, expenses, and attorney's fees SBBC may incur with regard to any legal proceedings and judgments that may arise from the request for the contracting party's public records that are subject to claims of confidential or exempt status. A failure to timely initiate the legal action required by this paragraph is a waiver of any claim that the requested information is confidential and exempt from public disclosure. The contracting party waives any cause of action against SBBC for the release of materials pursuant to a public records request except for any claims based upon the intentional or grossly negligent conduct of any employee of SBBC.
