SECTION 3 – INTRODUCTION AND GENERAL INFORMATION

3.1 INTRODUCTION: The School Board of Broward County, Florida (hereinafter referred to as "SBBC") desires to receive proposals for structured cabling and enterprise network systems (E-Rate) as described herein. SBBC seeks a partner to ensure the success of our main objective, which is to effectively support student achievement by providing a communications infrastructure that is reliable, scalable, upgradeable and cost-effective. This RFP relates to design, implementation, monitoring, managing and maintaining the following systems:

2	Enterprise Networking	Goods and services required to install and maintain the electronics needed to provide access to the Internet and other digital resources for computers and other peripherals on school campuses and District offices. Includes Local Area Networks and Wireless Local Area Networks.

SBBC will apply for Universal Service Funds discounts where possible as allowed for by E-Rate rules and in conformance with SBBC business practices. Awardee agrees to indemnify and hold harmless SBBC, its officers and employees of any liability in the form of physical or mental injury, death or property damage resulting in Awardee's failure to comply with the requirements of this section or Sections 1012.32 and 1012.465, Florida Statutes.

SBBC shall provide the estimated contract amount to the Proposer within 72 hours, excluding Saturdays, Sundays and other days during which SBBC administration is closed, of receipt of notice of intent to protest. Upon payment of such costs and charges by the protestant, the bond shall be returned. 7.42 **AUDIT AND INSPECTION OF AWARDEE'S DOCUMENTS AND RECORDS:** The District or its representative reserves the right to inspect and/or audit all the Awardee's documents and records as they pertain to the products and services delivered under this agreement. (See Special Conditions of the RFP)

7.43 **CREDIT CARDS:** Individual schools and departments may place some orders and utilize, as the form of payment, a District-issued credit card to the extent authorized by the School Board. These orders will be made via phone or fax for direct delivery and billing to the requesting work location. Please note that credit card purchases will benefit all vendors by providing immediate payment (i.e. within 48-72 hours), thereby eliminating the need to submit an invoice to the District's Accounts Payable Department or reconcile receivable balances. For credit card purchases, all vendors must have the capability to accept fax orders, which must be confirmed by calling back the requesting work location to verify prices and obtain a credit card number. Only actual items shipped/delivered can be charged to the credit card account (i.e., no back-orders). All purchase deliveries must include a packing slip or receipt/invoice listing the items and prices of goods delivered. For security reasons, the credit card charge receipt showing the work location's credit card number cannot be attached to the packing slip or receipt/invoice submitted as part of the purchase delivery. 7.44 **NONCONFORMANCE TO CONTRACT CONDITIONS:** Items or services offered may be tested for compliance with RFP conditions and specifications at any time. Items delivered, not conforming to RFP conditions or specifications, may be rejected and returned at vendor's expense. Services not conforming to RFP specifications shall be corrected and performed again to meet the specifications of the RFP at the expense of the Awardee. Goods or services not delivered as per delivery date in RFP and/or Purchase Order may be rejected upon delivery and/or may be purchased on the open market. Any increase in cost may be charged against the Awardee. Any violation of these stipulations may also result in:

a) Cancellation and default of contract;
b) For a period of two years, any proposal submitted by vendor will not be considered and will not be recommended for award.
c) All departments being advised not to do business with vendor.

7.45 **CONE OF SILENCE:** Any proposer, or lobbyist for a proposer, is prohibited from having any communications (except as provided in this rule) concerning any solicitation for a competitive procurement with any School Board member, the Superintendent, any Evaluation Committee Member, or any other School District employee after Procurement and Warehousing Services releases a solicitation to the General Public. All communications regarding this solicitation shall be directed to the designated Purchasing Agent unless so notified by Procurement and Warehousing Services. This "Cone of Silence" period shall go into effect and shall remain in effect from the time of release of the solicitation until the contract is awarded by the School Board. Further, any vendor, its principals, or their lobbyists shall not offer campaign contributions to School Board Members or offer contributions to School Board Members for campaigns of other candidates for political office during the period in which the vendor is attempting to sell goods or services to the School Board. This period of limitation of offering campaign contributions shall commence at the time of the "cone of silence" period for any solicitation for a competitive procurement as described by School Board Policy 3320, Part II, Section GG as well as School Board Policy 1007, Section 5.4 – Campaign Contribution Fundraising. **Any vendor or lobbyist who violates this provision shall cause their Proposal (or that of their principal) to be considered non-responsive and therefore be ineligible for award.**

7.46 **TERMINATION:** This contract award may be terminated with or without cause by SBBC during the term hereof thirty (30) days after the Superintendent gives written notice to the other parties that a recommendation will be made to the School Board for the contract award's termination.

7.47 **PACKING SLIPS:** It will be the responsibility of the Awardee to attach all packing slips to the OUTSIDE of each shipment. It is the responsibility of all interested parties to assure they have received all necessary documents, including Addenda and have included all necessary information within their response. SBBC is not responsible for Proposer's failure to obtain complete bidding documents from DemandStar. SBBC reserves the right to reject any bid as non-responsive for failure to include all necessary documents or required Addenda. For information regarding the above referenced solicitation, contact the designated Purchasing Agent as stated herein.

7.53 **PRICE REDUCTIONS:** If, from the date of proposal opening, the Awardee either bids the same products and/or services at a lower price than offered to SBBC or reduces the price of the proposed product or service, the lowest of these reduced prices will be extended to SBBC.

7.54 **LOBBYIST ACTIVITIES:** In accordance with SBBC Policy 1100B, as currently enacted or as amended from time to time, persons acting as lobbyists must state, at the beginning of their presentation, letter, telephone call, e-mail or facsimile transmission to School Board Members, Superintendent or Members of Senior Management, the group, association, organization or business interest she/he is representing.

7.59 **CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY OR VOLUNTARY EXCLUSION – Lower Tier Covered Transactions:** Executive Order 12549, as currently enacted or as amended from time to time, provides that, to the extent permitted by law, Executive departments and agencies shall participate in a government-wide system for non-procurement debarment and suspension. A person who is debarred or suspended shall be excluded from Federal financial and non-financial assistance and benefits under Federal programs and activities. Except as provided in § 85.200, Debarment or Suspension, § 85.201, Treatment of Title IV HEA participation, and § 85.215, Exception Provision, debarment or suspension of a participant in a program by one agency shall have government-wide effect. A lower tier covered transaction is, in part, any transaction between a participant [SBBC] and a person other than a procurement contract for goods or services, regardless of type, under a primary covered transaction; and any procurement contract for goods or services between a participant and a person, regardless of type, expected to equal or exceed the Federal procurement small purchase threshold fixed at 10 U.S.C. 2304(g) and 41 U.S.C. 253(g) (currently $100,000) under a primary covered transaction; or any procurement contract for goods or services between a participant and a person under a covered transaction, regardless of amount, under which that person shall have a critical influence on or substantive control over that covered transaction. A participant may rely upon the certification of a prospective participant in a lower tier covered transaction that it and its principals are not debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. Each participant shall require participants in lower tier covered transactions to include the certification for it and its principals in any bid submitted in connection with such lower tier covered transactions.

CERTIFICATION:

a) The prospective lower tier participant certifies, by submission of this RFP, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

b) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this bid.

7.60 **PUBLIC INSPECTION OF PROPOSALS:** Pursuant to Section 119.071 (1)(b), Florida Statutes, responses received as a result of this RFP shall be exempt from public inspection and copying until thirty (30) days after the opening of the proposals or until posting of the recommendation for intended award, whichever is earlier. If SBBC rejects all proposals and concurrently provides notice of its intent to reissue the competitive solicitation, the rejected proposals shall remain exempt from public inspection and copying until such time as SBBC posts notice of an intended decision concerning the reissued competitive solicitation or until SBBC withdraws the reissued competitive solicitation.

If a Proposer contends that any portion of its response to the RFP is confidential and exempt from public inspection and copying, it is the Proposer's responsibility to clearly label each such portion of its proposal as confidential and specify the applicable statutory exemption from public inspection and copying on such portion(s) of its proposal. Confidential or exempt portions of any proposal must also be submitted in a separate sealed envelope and marked as such. A failure by the Proposer to prepare and label the confidential or exempt portions of its proposal in the manner specified in this section of the RFP shall constitute a waiver by Proposer of any applicable exemptions from disclosure or any confidential status including ones that may be applicable to trade secrets under Florida law.

SBBC will promptly provide a Proposer's contact person with written notice if a public records request has been made for any portions of Proposer's response to the RFP. SBBC will provide for the inspection or copying any non-exempt portions of any proposal in its possession in accordance with applicable law. If a Proposer wishes to preclude the inspection or copying of any non-exempt portions of its response to the RFP or if a dispute exists as to whether such portions are entitled to an exemption, the Proposer must obtain a protective order from a court of competent jurisdiction prohibiting the inspection or copying of the requested materials. The failure to timely initiate such legal proceedings shall constitute a waiver by the Proposer of any applicable exemption or confidential status of the requested materials. By submitting a response to this RFP, the Proposer agrees to waive any cause of action or claim for damages it may have against SBBC for its release of records in response to a public record other than those that are prepared and labeled as confidential or exempt as described in this section. The Proposer agrees to hold SBBC harmless from any award to a plaintiff for damages, costs or attorney's fees based upon SBBC's non-disclosure of portions of Proposer's response that have been prepared and labeled as confidential or exempt from public inspection and further agrees to reimburse SBBC for any attorney's fees and costs it may incur in the defense of such nondisclosure.

SECTION 8 – SCOPE OF WORK & PERFORMANCE SPECIFICATIONS

Section 8 specifies the minimum requirements that meet the current educational and business needs of SBBC's environment, and those that will provide new solutions in the future. All technical and special conditions are mandatory requirements that Awardee is required to comply with in order to satisfy the terms and conditions of the RFP.

GROUP 1 – STRUCTURED CABLING SYSTEMS
GROUP 2 – ENTERPRISE NETWORKING (LOCAL AREA NETWORKS (LAN) & WIRELESS LOCAL AREA NETWORKS (WLAN))

8.1 **GROUP 1 – STRUCTURED CABLING:** The scope of work requirements includes the procurement of communications wiring and related hardware, conduits and related cable management infrastructure and all related components required for a fully functional communications infrastructure for the following:

a. Adds, moves and changes to the existing communications infrastructure at schools and District offices
b. Installation of communications infrastructure to support data, voice and video at new schools and District offices
c. Communications infrastructure in relocatable classrooms
d. Communications infrastructure in Building renovations and additions
e. Dedicated Technician services

SBBC's intent with this contract is to, in accordance with E-rate guidelines, establish a not to exceed rate for these Structured Cabling services. The rates would be in force through the term of the agreement.

8.1.1 **GROUP 1 CURRENT CONDITIONS:** SBBC employs a communications transport system to support the transmission of voice, data, surveillance and multimedia applications. The communications transport system is based on a structured wiring design of (normally) four pair, plenum, Category 5e and/or Category 6, unshielded twisted pair (UTP) cables to each communications outlet (CO) location in a quad, dual or single port configuration. Quad COs consist of four, 8-pin modular jacks, Category 5e and/or Category 6, Dual COs consists of two, 8-pin modular jacks, Category 5e and/or Category 6 and Single COs consist of one, 8-pin modular jack Category 5e and/or Category 6. Quad, dual or single CO locations originate from a main equipment room (ER) usually located in the Media Center or a communications closet (TR). Rooms located outside the distance limitations of the ER, or in outlying buildings. Voice cabling infrastructure is fed from communication closets connected to the main ER via a category 3/5 voice grade, copper backbone cable and optical multi-mode fiber cable. All CO location cables are directly home run to the nearest TR or the ER and terminated on Category 5e and/or Category 6, 8-pin modular patch panels with 110-type connecting hardware. This conforms to SBBC's Standards and all current Building Industry Consulting Service International (BICSI) standards and specifications.

8.2. **GROUP 2 – ENTERPRISE NETWORK:** The scope of work requirements includes the procurement of enterprise network equipment needed to provide or expand Local Area Network (LAN) and Wireless Local Area Network (WLAN) solutions on school campuses and other District facilities and includes:

a. Network equipment infrastructure at new schools and/or Department sites
b. Upgrade of existing network infrastructure at schools and District offices not already upgraded or partially upgraded
c. Procurement of parts and equipment needed to maintain all existing Hewlett Packard network equipment installed throughout the District.

While procurement amounts for the Enterprise Network are estimated for bidding purposes, SBBC reserves the right to amend these estimates on an annual basis with the filing of the FCC Form 471. There are no guaranteed minimums of orders.

GROUP 2 CURRENT ENVIRONMENT

8.2.1 All of SBBC's 265-plus facilities, both schools and administrative sites, are connected via a Wide Area Network (WAN) in a hub and spoke topology back to the technology center utilizing Multiprotocol Label Switching routing technique (MPLS) with six class-of-services to provide the proper quality of service for real time, voice, video and other selective traffic. Open Shortest Path First (OSPF) and Border Gateway Protocol (BGP) routing protocols are responsible to propagate reachability information through the entire network. MPLS bandwidth at locations is varied from gigabit to multi-gigabit connections with multiple ten gigabit connections at the hub location. At each site, the WAN connects to each site's Local Area Network (LAN). LANs are installed using a hierarchical star topology with a single core layer switch and multiple access layer switches and wireless access points.

EXHIBIT 1

8.2.2 Network Equipment and Uninterruptable Power Supply (UPS) devices are deployed at approximately 2,166 IDF/MDF locations across the District. In most cases, 2-post or 4-post networking network racks are located in wired closets, but in some cases racks with network equipment are located at a school office or media center.

8.2.3 The table below represents the current SBBC network closets classification from the standpoint of the amount of copper and fiber ports.

8.2.4 SBBC's LANs are composed of HP Aruba network equipment, Aerohive Wireless Access Points (APs) and multi-branded Uninterruptable Power Supply (UPS) devices. All wiring closets utilize standard 19" 2-post racks. Switch ports support 10/100 Mbps and gigabit connections via UTP CAT 5e or CAT 6 copper RJ-45 connectors and either 62.5 or 50-micron multimode fiber.

8.2.5 Wireless Access Point models deployed at the locations are principally Aerohive AP230; approximately 15,400 units deployed. There are also approximately 2000 Aerohive AP330 units that are primarily deployed at Administration locations and some schools. The most recent Wireless Access Point model deployed in high-density areas is Aerohive AP250. The HP Aruba switch models deployed most frequently are the HP Aruba 5400R Layer 3 modular chassis-based switch and the HP 5400 zl Layer 3 modular chassis-based switch. In areas where a large amount of ports are not needed, smaller stackable models of HP Layer 3 switches are deployed.

8.2.6 The LAN network backbones between switches are gigabit or multi-gigabit fiber or copper. A minimum of switched Fast Ethernet to the desktop for all ports with the majority of desktop-facing ports are gigabit with Power over Ethernet (PoE) for VoIP phones. The network switches support both Layer II and Layer III switching, IPv4 routing, OSPF & BGP dynamic routing protocols, 802.1q VLAN distribution on all backbones and segments, Multicast routing and delivery with IP PIM sparse, IGMPv2, IGMPv3, DHCP snooping, Bonjour gateway, Access Control List (ACL) and Quality of Service (QoS) capabilities.

8.2.7 Core switches located in the main Communications Equipment Room (CER or MDF) are utilized as full-function routers performing IPv4 routing, participating in OSPF and BGP dynamic routing exchange, performing PIM Sparse and Bonjour gateway. To improve performance, security and administrative control, a large campus network is segmented into smaller logical networks with 802.1q Virtual LAN technique. Currently, each campus has eight VLANs.

8.2.8 Edge switches are enterprise-class managed switches. They are layer 2-4 capable, which allows the implementation of IPv4 routing, QoS, DHCP-snooping, ACLs at the edge as technology needs dictate. These switches support both 10/100 mbps and gigabit connections via UTP Cat 5e and/or Cat 6 copper RJ-45 connectors to the desktop. In most installs

EXHIBIT 1

modular, chassis-based switches are utilized versus stackable switches. This allows for higher port densities; a common, faster backbone; greater ease-of-management and cleaner installs. At sites where VoIP is implemented (around 220 sites) power over Ethernet features are utilized to power up IP phones. Wireless Access Points are utilizing advanced power over Ethernet features.

8.2.9 Managed UPSs are located in each wiring closet and are sized-based on the network equipment they support. They are outfitted with network management cards for remote management over the network. SNMPv3 is utilized to provide capabilities for proactive network management at the District's Network Operation Center (NOC). All switches and UPS devices are centrally managed and monitored via encrypted protocols such as SNMPv3, HTTPs and/or SSH.

8.2.10 All schools have 100% complete wireless coverage throughout their facilities. SBBC's wireless network consists of over 17,575 Aerohive Wireless Access Points centrally managed by the Network Operations Center via Aerohive's central management solution "HiveManager." The wireless network currently utilizes a "one AP per classroom" deployment scheme. Special locations which have a high density of users (such as media centers and cafeterias) have a heavier deployment footprint. Wireless Networks are deployed across the entire 2.4GHz and 5GHz radio frequency bands and support 802.11a/g/n/ac wireless standards. Deployment is performed based on 20MHz – wide radio channel in 1 to 1 areas with 40MHz utilized elsewhere on the 5Ghz band.

8.2.11 Four wireless networks (WLANs) are serving different categories of users and devices. WPA2-Enterprise authentication protocol with 802.1x authentication method is used on all major WLANs with additional device control mechanism deployed at Access Points, which enables the recognition of device/user combinations and properly places wireless devices on the proper network segment, with the additional ability to apply proper access restrictions directly on the Access Point and class of service on the network switch. The Wireless Guest network for outside users is deployed by utilizing an open Captive Portal mechanism, with the ability to perform self-onboarding and the ability to receive temporary access credentials via SMS gateway message on a cell phone. Any access to the Internet is controlled by an enterprise-class web filtering solution, application control and intrusion detection services. Users on a Guest WLAN are not allowed to access District internal network resources.

8.2.12 The daily peak average load of wired and wireless clients generally exceeds 260,000 - 320,000 connected devices, from which wireless clients generally exceeds 170,000 - 210,000 connected devices. The total number of unmanaged District-owned devices which may not support 802.1x is approximately 85,000. These are devices such as IP phones, Wireless APs, IP cameras, UPS systems, printers, class collaboration, video collaboration and IoT devices. The maximum total amount of wired and wireless devices on the network during peak times currently approaches 400,000. The current flow rate at the centralized Netflow collector is approximately 55,000 flows per second.

8.2.13 The centralized DNS/DHCP/IPAM solution that is deployed at the District level is based on an Infoblox solution that serves all clients. Wireless Access Points receive IP addresses dynamically from a centralized DHCP server. At 250-plus locations, the DHCP lease time on wireless networks is 42 hours. Eight large school locations have a lease time of eight hours on wireless network segments. Lease time for non-wireless devices is over 72 hours.

8.2.14 Currently during new deployments of network switches, new devices are configured based on a predefined configuration blueprint which specifies most global parameters, such as the amount of VLANs, VLAN IDs, ACLs, QoS, DHCP snooping and many others. A switch configured with a static IP address is predefined by the Network Operations Center prior to installation. Trunk ports facing other switches or Access Points are configured with 802.1q VLAN tagging for all VLANS. All other switch ports, except trunks, are configured as untagged on data VLAN and tagged on voice VLAN. After the initial deployment, some ports are manually tuned to reflect special purposed devices (ie: security cameras). Currently 802.1X is not widely deployed on switch ports, which creates management overhead.

Awardee is completely and solely responsible for the coordination and completion of all repairs, including

EXHIBIT 1

pickup at site and reinstallation of any equipment. Upon request, equivalent loaner equipment will be made available if repairs cannot be completed at the location (school/department/center). Manufacturer's standard warranty must be provided on all RFP items. Warranty must begin after delivery and acceptance made by an authorized representative of the School Board. List warranty of all equipment proposed. Awardee must maintain an adequate supply of complement spare parts at their local service facility during warranty period to fulfill the guarantee of the items covered in this RFP. Awardee must mark and disconnect all cables, remove faulty equipment from site where it's installed, install replacement equipment at the same site location and connect all cables back in the same order and test to make sure equipment is functional. Warranty replacement equipment must be in the same functional state equal to the state in which equipment was before the failure. Awardee must restore configuration files to the equipment, add replacement equipment in SBBC network monitoring tools and any other steps to bring faulty equipment or replacement equipment back online after failure. SBBC will not pay for warranty or any activities related to warranty replacements. Awardee must provide replacement equipment free of charge to SBBC.

8.5.5 All new network switches, as well as existing HP Aruba 5400R switches with v3 modules, must have the ability to dynamically enforce role-based access on individual ports during the device connectivity phase or later, based on control from the proposed SEC ORCH. Wireless Access Points must have the ability to dynamically enforce role-based access on WLAN during the device connectivity phase or later, based on control from SEC ORCH. **Note:** For this requirement, "dynamically" means that the SEC ORCH will need to download to the switch (HPE Aruba 5400R) the required ACLs and interface configuration.

8.5.6 All ports on all new network switches and existing HP Aruba 5400R switches with v3 modules must have a unified light configuration that prevents unauthorized access to the environment when not connected. During the connectivity phase, all ports must first pass through a device identification process. If the proposed network solution is unable to detect the device during the connectivity phase, the device is treated as a guest device.

8.5.7 All new switches, new Access Points and existing HP Aruba 5400R switches with v3 modules must have the ability to centrally define policies based on roles, and must be applied uniformly across the WLAN and LAN. This eliminates the need to configure per-switch ACLs, VLANs and subnets.

8.5.8 The network solution must support network segmentation with no less than 20 VLANs per school.

8.5.9 The network solution must have the ability to dynamically place any client devices connected via WLAN on a new wireless access point, wired switch port on new switches or wired switch port on existing HP Aruba 5400R switches with v3 modules on a specified preconfigured VLAN, based on the solution's ability to identify a connected device based on any combination of the following parameters:

8.5.10 The NMS/NAC must include a minimum of one (1) onsite, full-time staff augmentation resource for the first year to design, implement, train SBBC staff and manage the solution. The ability to maintain this resource must be provided after the first year only as a management / monitoring resource which will be at a lower skill-set and certified in the product. The cost for this full-time resource should be included in the proposed pricing model (Sec Orch-Erate Ineligible tab). Pricing must include a flow collection software with cloud or on-premise pricing.

8.5.11 If the Sec Orch-Erate Ineligible Awardee is initially outsourced to SBBC, the Awardee must provide SBBC with an outsourcing price for informational purposes.

8.5.80 UPS device must utilize relatively easy battery replacement procedure which can be done by SBBC Physical Plant Operations (PPO) personnel without going through additional vendor certification.

NETWORK SECURITY AUTOMATION, ORCHESTRATION (SEC ORCH – E-RATE INELIGIBLE) MINIMUM REQUIREMENTS

General and K12 Specific Design Criteria SEC ORCH design must consider the following K-12 environment specifics which exist in SBBC. SEC ORCH must be sized to support such peaks without noticeable delays on the user side.

A. At the conclusion of the school day, up to 85 percent of all devices are disconnected from the network and simultaneously reconnected to the network the next day, creating a noticeable peak activity time at the beginning of the day for protocols responsible for device attachment to the network.

EXHIBIT 1

B. The solution must support an environment where thousands of devices simultaneously wake up from sleep mode and cause noticeable peak activity for protocols responsible for device attachment to the network.

C. The five (5) year projection is 660,000 devices. Due to known peaks 80% from the total amount of devices must be used as the maximum supported concurrent session's number in a proposed SEC ORCH. Within the next 3-5 years, 528,000 devices must be used as the maximum supported concurrent session number in a SEC ORCH solution.

D. SBBC's three (3) year projection for unmanaged District-owned devices, which may not support 802.1x and require advanced mechanism of device identification is 115,000 devices. The five (5) year projection is 140,000.

E. SEC ORCH may be either hardware appliances or virtual deployment running on VMware ESXi 6.5+. Proposers offering virtual deployment must not include compute resources cost in the price, but must include compute resources requirement information needed to run the solution. **Note:** SEC ORCH can be cloud-based.

NETWORK SECURITY AUTOMATION, ORCHESTRATION (SEC ORCH) General Requirements

8.5.81 SEC ORCH equipment manufacturer must be the same manufacturer as the equipment proposed for Wired or Wireless Networking Equipment.

8.5.82 The SEC ORCH equipment manufacturer must be recognized by Gartner as a Leader in the Wired and Wireless LAN Access Infrastructure category for either 2018, 2019 or 2020 year reports which must be available to validate at time of release of RFP, and provide documentation of this designation to SBBC.

8.5.83 SEC ORCH must be designed not to experience over 30 seconds service interruption if a single server or component fails or stops functioning. Service or role recovery must occur automatically during component failure.

8.5.84 SEC ORCH must be designed not to lose more than 20% in required sizing variables if a single server or component fails or stops functioning. For example - if the maximum concurrent sessions number supported by the proposed SEC ORCH is 530,000, then during a single component failure, the solution must still support 424,000 concurrent sessions.

8.5.85 All new network switches and wireless access points must be able to be fully pre-configured before deployment in SEC ORCH. During physical deployment, the device which is configured for the DHCP IP address must pull individual specific configuration from SEC ORCH over the network and become fully functional without the installation team performing additional configuration steps.

8.5.86 All new network switches and all new wireless access points must support a self-provisioning deployment (a minimum configuration is placed on the switch, which allows the switch to contact SEC ORCH for the remaining configuration). Devices are to be pre-configured in SEC ORCH before deployment and automatically pull configuration from the central management solution during the first connection to the SBBC network.

8.5.87 SEC ORCH must support PEAP EAP-MSCHAPv2, EAP-TLS, PAP EAP-GTC, EAP-TTLS and EAP-GTC methods.

8.5.88 SEC ORCH must support the mechanism to dynamically update an active client session with a new user policy that is sent in RADIUS packets (such as Change-of-Authorization attribute).

8.5.89 In order to dynamically place some District-owned devices, which are not supporting 802.1x on needed network segment, SEC ORCH must have a traffic pattern learning mechanism that is based on the flow collection method, and the ability to make decisions based on identified traffic patterns.
For example, some Interactive Monitors used in education have an Android-based OS, but must be separated from regular Android-based smartphones, based on traffic from them to specific centralized cloud-based management system. The proposed SEC ORCH must be able to accomplish such a task, and place devices correctly on the proper network segments. SEC ORCH can utilize either an existing SBBC flow solution or have a flow collector as part of SEC ORCH. SBBC's three (3) year projection for total flows per second is 100,000. The five-year projection is 150,000 flows per second. This is critical for SBBC, as part of the compliance with this requirement, SBBC requires the Awardee to provide technical materials which show the technical details on how the recommended solution, SEC ORCH, will perform this task. Not providing said information may lead the technical committee to not have a clear understanding, which will result in a zero score.

EXHIBIT 1

8.5.90 Wireless guest solution must support true SMS messaging, which works without asking carrier information from guests.

8.5.91 SEC ORCH must be able to send a copy of Radius Accounting Information, which is received from existing and new switches and Access Points to an SBBC-owned security solution (FortiAuthenticator).

SEC ORCH Sizing Design Requirements: The Network Security Automation & Orchestration Solution sizing must be done based on the following metrics:

8.5.92 SEC ORCH must support up to 530,000 concurrent devices/sessions.

8.5.93 The solution design must have room for growth to later support up to 660,000 concurrent devices/sessions, by adding additional appliances or virtual hardware.

8.5.94 SEC ORCH must support up to 140,000 devices which do not support 802.1x, and will require an advanced method of identification.

8.5.95 The SEC ORCH component, which performs identification based on flows tracking information, must support up to 150,000 flows per second.

8.5.96 The solution must be able to centrally manage all existing and new Access Points and switches, while scaling to support up to 120% from the currently proposed amount of access points and switches by adding additional appliance or virtual hardware.

8.5.97 The solution must support automatic provisioning deployment for new Access Points with bulk information input for up to 200 new Access Points at a time.

Requirements for RADIUS Component of SEC ORCH

8.5.98 RADIUS Component of the solution must support up to the following amount of authentications per second for the different methods listed below:

a) Up to 3000 PAP EAP-GTC Active Directory authentications per second.
b) Up to 3000 PEAP Active Directory authentications per second.
c) Up to 2500 PEAP EAP-MSCHAPv2 Active Directory authentications per second.
d) Up to 3000 AP-TTLS EAP-GTC Active Directory authentications per second.
e) Up to 2500 EAP-TLS Active Directory authentications per second.

SEC ORCH Ability to Manage and Control Access on SBBC's Existing Network Switches

The proposed SEC ORCH must be able to perform the following functions with existing SBBC-owned HP Aruba 5400R switches with v3 modules.

8.5.99 SEC ORCH must be able to manage existing HP Aruba 5400R switches with v3 modules, so the SBBC team is able to deploy the same network access policies across the entire switching environment.

8.5.100 For 802.1x clients, SEC ORCH must be able to control the switch to the point of placing clients on a specific pre-configured VLAN, and change placement based on additional information collected by SEC ORCH later.

8.5.101 Based on an 802.1x client request and additional information, an HP Aruba 5400R switch with v3 modules can provide SEC ORCH, which must order switch which a preconfigured local user role client must be assigned. SBBC requires that user roles are centrally managed and downloadable from SEC ORCH, eliminating the need to preconfigure user roles at the switch level.

8.5.102 The proposed SEC ORCH must be able to perform the same functions as existing SBBC-owned Aerohive/Extreme Access Points models.

8.5.103 Based on 802.1x client request and by utilizing Radius Vendor Specific Attributes, SEC ORCH must order the Access Point to configure a wireless client based on a locally-configured user group.

SECTION 9 – Q&A

As stated in the opening letter for this RFP, SBBC is including some of the vendor questions and SBBC answers from the previous bid (FY21-180) below. SBBC answers below are binding and Section 9 supersedes all other sections within this RFP in the event of a conflict.

- **QUESTION #1:** The next generation of the 5400 series, is the CX 6400 line. Aruba Networks highly suggests customers consider the CX 6400 series instead of the 5400 series. Due to the more modern and robust feature set would the district like to see pricing on the new CX6400 series?

  ANSWER TO QUESTION #1: The District prefers chassis-based, therefore either of the two listed above are technically acceptable.

- **QUESTION #2:** Based on the longevity of the contract, (5 1/2 years, plus the option of 2 ½ years of extensions), will price increases for labor and/or materials be allowed per year?

  ANSWER TO QUESTION #2: No. Please see RFP Section 3.4 for price adjustments and 3.3 for the correct contract term.

- **QUESTION #3:** On the Request for Proposal sheet, you state to include a PDF version of the proposal on a flash drive. Do you want the pricing spreadsheets in Excel format and PDF, or just PDF?

  ANSWER TO QUESTION #3: Include both in Excel (on flash drive) and a printed copy with your proposal.

- **QUESTION #4:** UPS section – Limited Lifetime that is for the UPS and NOT the battery, Correct? Battery is a consumable in UPS's

  ANSWER TO QUESTION #4: See RFP Section 8.5.60, which addresses the UPS battery.

- **QUESTION #5:** All maintenance for all Software and Hardware is 5 years. Correct?

  ANSWER TO QUESTION #5: Yes, the Wireless and/or Network Security Automation, Orchestration (Sec Orch) specify 5 years.

- **QUESTION #6:** What manufacture of UPS do you currently use?

  ANSWER TO QUESTION #6: APC or Liebert

- **QUESTION #7:** Approximately what percentage of UPS units are installed in 2 post vs 4 post racks.

  ANSWER TO QUESTION #7: The vast majority are 2 post with an extremely low amount of 4 post.

- **QUESTION #8:** What is BGP function in the network? Edge MPLS and internet only? Internal route propagation?

  ANSWER TO QUESTION #8: Border Gateway Protocol (BGP) is to propagate reachability information through the entire network – both external and internal.

- **QUESTION #9:** In some of the switch requirements in both the spreadsheet and the RFP, there are requirements for an *"Extra Management Module."* Since the second module is non-active (passive / stand-by) it is not e-ratable (i.e. cell B81 in **Type 1** tab) will SBBC be issuing a new XLS spreadsheet removing the extra module requirement from all of the configurations? We noticed the part is already included on the "Current Part List?"

  ANSWER TO QUESTION #9: SBBC will accept chassis-based switches or switch stacks without redundancy in management function "only if" switches proposed for closets with over 80 POE port requirements will have ability to add redundant management module. Price for additional management module is listed on "erate-Ineligible" tab in XLS spreadsheet.

- **QUESTION #10:** Regarding Section 8.3.2 TECHNOLOGY OBSOLESCENCE: Does SBBC expect the Awardee to physically replace any equipment that has been discontinued for sale but is still supported with hardware and software updates or does SBBC mean that the awardee must make available the replacement product as stated in section 8.3.5 for future purchases?

  ANSWER TO QUESTION #10: See revised RFP Section 8.3.2 and further explanation as follows: SBBC expects that network equipment manufacturer will release End of Life (EOL) Announcement at least 6 months prior to End of Sale (EOS) date and at least 5 ½ years from End of Life / End of Support

EXHIBIT 1

(EOL/EOST) date. SBBC expects that after EOL Announcement date all new SBBC orders for network equipment will not contain equipment listed in EOL Announcement and instead only contain alternative equipment which is similar or better in technical specifications, meet minimum requirements listed in this RFP which are applicable to a specific equipment and closet, have over 6 months prior to EOS date and at least 5 ½ years from EOL/EOST date. SBBC understand that sometimes direct line-by-line comparison is not possible between old and new network switches, but expect that such alternative new network switches will be proposed at same or higher discount level as network switches which are subject for replacement, so it will not cost SBBC more per closet than prices listed in this RFP for the same network closet type. SBBC expects that alternative new wireless access point will be proposed at the same or higher discount level as wireless access point which are subject for replacement, so it will not cost SBBC more per access point. If EOL Announcement occurs after network equipment was quoted, but before it was installed at SBBC site, such network equipment must be replaced before installation date to network equipment which is similar or higher in technical specifications, meet minimum requirements listed in this RFP which are applicable to a specific equipment and closet, and have over 6 months prior to EOS date and at least 5 ½ years from EOL/EOST date. Within the entire contract period, Awardee shall not quote or supply EOL/EOST within the 5 ½ years or EOS within 6 months of installation date at SBBC. In the event of the supplied network equipment being declared as EOL/EOST within the 5 ½ year or EOS within 6 months of installed date at SBBC by the Awardee, during the entire contract period, the Awardee must immediately replace such network equipment with network equipment which is similar or higher in technical specifications, meet minimum requirements listed in this RFP which are applicable to a specific equipment and closet, and have over 6 months prior to EOS date and at least 5 ½ years from EOL/EOST date.

- **QUESTION #11:** For the tab "Current Part List" is it for informational purposes only?

  ANSWER TO QUESTION #11: Yes

- **QUESTION #12a:** Do we have to satisfy all components on the 'current part list' to be compliant? (For example: the 300' patch cable is not a common part and is typically a drop cable.)

  ANSWER TO QUESTION #12a: Current part list is for "Informational Purposes Only", and it is beneficial for the Proposer to let SBBC know that they are able to fulfill all the parts on this list.

- **QUESTION #12b:** Can we use the Item Description field to describe different part numbers/description relevant to the solutions we are providing?

  ANSWER TO QUESTION #12b: Yes. That is its purpose.

- **QUESTION #13:** If it's found that the solution quoted in the response will not work as designed, will you hold the responding vendor financially responsible for all costs to make the responded solution work?

  ANSWER TO QUESTION #13: Yes. SBBC expects that Proposers are technical experts in solutions being offered. ALL minimum requirements listed in this RFP must be met by proposed solution and Awardee will be held financially responsible to modify and expand solution with technical elements and/or products needed to meet minimum requirements of this RFP and such modification and expansion must come at a zero $0.00 cost to SBBC.

- **QUESTION #14:** Will the awardee be responsible for managing pre-existing Aruba equipment, or will all equipment be replaced as part of this award?

  ANSWER TO QUESTION #14: SBBC manages all Network Switches and Wireless APs with in-house staff. The Awardee will be responsible for replacing any parts or network / wireless equipment that is still under Manufacturer Warranty (and within five years of installation). SBBC intends to maintain the existing infrastructure and will replace equipment as needed through attrition, based on the needs of SBBC.

- **QUESTION #15:** Is the "unit price installed" cell on each tab supposed to include installation services only?

  ANSWER TO QUESTION #15: "Unit price installed" cell does not include just installation services. This cell represents combined total price in single quantity equivalent for a particular piece of equipment or equipment bundle which includes cost of equipment itself together with installation services, mounting hardware, licenses, support subscriptions and other maintenance services, as well as anything else which is needed for this equipment to be functioning in SBBC environment for the duration of 5 years since installation date at the level listed in minimum requirements listed in this RFP. For the period of 5 years from date of installation date, SBBC will not spend any additional money on top of that listed in this cell to maintain and support this equipment.

- **QUESTION #16:** Is "unit price installed" full deployment services by the awardee, or just the physical racking and stacking of the equipment?

  ANSWER TO QUESTION #16: SBBC expects equipment to be installed and working on the SBBC Network. Installation services must include physical deployment and all needed configuration services on equipment itself, central management platform and SBBC network monitoring systems. At the end of deployment, equipment must be fully functioning, managed, and monitored in according to SBBC network management standards for newly deployed network equipment.

EXHIBIT 1

- **QUESTION #17:** Is the awardee responsible for adds, moves, and changes for the wireless, NMS, and switching for the duration of the contract?

  ANSWER TO QUESTION #17: Requirements are detailed within Section 8 – Scope of Work (closely review RFP Section 8.3). The remainder of the question is not specific enough to provide a response to.

- **QUESTION #18:** Is the awardee responsible for code upgrades for the duration of the contract?

  ANSWER TO QUESTION #18: No, but SBBC expects Awardee to work with manufacturer and SBBC to make recommendations based on security updates and critical firmware updates for SBBC In-house technology staff to perform tasks.

- **QUESTION #19:** Break / fix will be done by the OEM, but is it the awardee's responsibility to coordinate break/fix with OEM?

  ANSWER TO QUESTION #19: See RFP Section 8.3 - GROUP 1 & 2 REQUIREMENTS of the RFP

- **QUESTION #20a:** Is it SBBC's expectation that the awarded vendor will provide 1st line of support for the duration of the contract (5 ½ years), and coordinate all support tickets and repairs on NMS, wireless, and switching equipment for SBBC? If the answer is yes, this sounds like a managed service contract. If SBBC is not calling it managed services, what would SBBC say the difference is between what is expected of the vendor and a managed services contract?
  ANSWER TO QUESTION #20a: Awardee will not coordinate all support tickets on NMS, wireless, and switching equipment for SBBC or provide 1st line of support for equipment troubleshooting. Awardee is responsible for all procedures related to equipment repair and replacement after equipment which was in place less than 5 years since installation date was identified as failed by SBBC network team which will base troubleshooting process on equipment manufacturer best practices for troubleshooting. Please read 8.3-GROUP 1 & 2 REQUIREMENTS for additional information. SBBC network team will always do their best to minimize amount of false/positive situation when Awardee will be involved for equipment repair and replacement process.

- **QUESTION #20b:** To expand on that previous question, is the awarded vendor only used to install? And then once installed, SBBC will utilize the manufacturer for opening cases and repairs/replacements? For example, Cisco has what is called TAC support, which SBBC would have complete access to for repairs and replacements if Cisco was their OEM provider. For example, if there is an issue with a part, SBBC would be provided with online or phone support via TAC, to diagnose issues and determine a fix or replacement. We just want to make sure that as a responder/partner our services pricing that we add to the " unit cost installed" cell don't overlap with manufacturer standard support services, and effect the pricing. (the reason for these questions is the variance of install pricing from the lowest bidder and all other bidders in Round 1 of this RFP)
  ANSWER TO QUESTION #20b: Please read 8.3-GROUP 1 & 2 REQUIREMENTS and answer to above question. SBBC has an in-house centralized IT NOC staff who remotely monitors and supports the wireless and LAN network, but Awardee ill handle repair and replacement of faulty equipment.

- **QUESTION #21:** In Section 8.5.4 Repairs, you state that the "awardee" after being notified, must have repairs started within 4 hours? Can this be performed by the winning OEM, not the awardee?
  ANSWER TO QUESTION #21: SBBC cannot dictate to the Awardee how to organize their support model. SBBC will contact the Awardee for repairs as stated in the RFP.

- **QUESTION #22:** Can the local repair station and local service facility be the OEM's?

  ANSWER TO QUESTION #22: See answer to question above.

- **QUESTION #23:** If responder is an SBBC certified vendor and we are filling in #00470, do we just state on the sheet 100% self-performing? Is that the only thing we need to do to fulfill the requirements and receive the full points available?

  ANSWER TO QUESTION #23: SBBC Certified MWBE Vendor/Proposers responding to this RFP must submit the Document 00470 and Document 00475 listing the Percentage and scope of work to be performed. Also, A Copy of the SBBC MWBE Certificate or SBBC Letter of M/WBE Certification must be included. Please refer to page 11 of RFP document that states that "M/WBE Proposer who are self-performing must identify themselves by completing Form 00470 and 00475. SBBC MWBE Certificate or SBBC Letter of M/WBE Certification must be included. The Statement of Intent submitted with the proposal reflects the intent to self-perform. Additionally, it will detail the scope of work and dollar. Forms 00470 and 00475 must be submitted with the bid/proposal".

- **QUESTION #24:** On the Sec-Orch tab, what term support and subscription is required for the "unit price without installation" (**cell G 10**), which correlates directly to a responders total price? Is it supposed to be a 1 year price? Or a 5 year price? SBBC asks "for informational purposes" the annual maintenance and subscription

EXHIBIT A

cost allocation for years 2, 3, 4 & 5 in the box right next to it, so it is confusing as to if cell **G10** should be filled in with a 1 year price or if it should be more. Exactly what term support and subscription should be filled in for **cell G10** on Sec-Orch tab so all responders are apples to apples?

ANSWER TO QUESTION #24: The term of support and subscription is the same with or without installation. SBBC wants to see the difference of price between installed and not installed. Both prices must include 5yr price with License, maintenance/support or subscription included. Cell "I9" is for SBBC to know the fractional price allocation for SBBC, on how much you are charging for years 2,3,4,5 for annual maintenance and support after 1 year for information purposes only.

- **QUESTION #25a:** SBBC specifies that all maintenance for SW and HW is for 5 years for Wireless and Sec Orch, but what about the switching? Does the 5 years also apply to the switching components?

  ANSWER TO QUESTION #25a: Yes

- **QUESTION #25b:** If so, does it also apply to services/support or licensing or both?

  ANSWER TO QUESTION #25b: Both

- **QUESTION #26:** On the Wireless tab **Cell J 14** Annual Maintenance and Subscription Price for Each Additional Year (Beyond initial term) What is the initial term length?

  ANSWER TO QUESTION #26: Prices must include 5-year License, maintenance/support or subscription. Cell "J14" is for SBBC to know the fractional price allocation for SBBC, on how much you are charging for years 2,3,4,5 for annual maintenance and support after 1 year for information purposes only.

- **QUESTION #27:** Will there be a negative scoring impact if non chassis-based is proposed?

  ANSWER TO QUESTION #27: Today, SBBC uses chassis-based and has had a good experience; and will score the solution based on many factors and not specifically on any specific one.

- **QUESTION #28:** The minimum discount tab (OTHER tab) added to the pricing workbook is very general and will be difficult to answer. Every product has different discount levels, and so does services. For example, a services discount average may by 10%, where a product discount is 65%. What would SBBC like to see in this cell, as we can only input one number? Or can a separate row be created for a services discount and then a separate row for HW discount, and a separate row for SW/Subscription discount?

  ANSWER TO QUESTION #28: The minimum discount in the example above is 10%. This item is for information purposes only and sets a base level.

- **QUESTION #29:** What is Flow Collection software on the Sec Orch tab?

  ANSWER TO QUESTION #29: As listed in RFP Sections 8.5.9 (a) and 8.5.89 The Network Security Automation, Orchestration solution must have the ability to make decisions based on identified traffic patterns. Flow Collection is a feature related to the solutions ability to collect and analyze traffic flow information. Today, SBBC has a Flow Collector solution in place, but SBBC welcomes responders to provide their own Flow Collector solution if needed as part of Network Security Automation, Orchestration solution or separately on Cell B12 on tab "Sec Orch" which can be used to separate the solution in case the Proposer wants to list it separately instead of including this feature in the bundle. Proposer must open bundle components in area below row 19. In any case this feature must be provided. As mentioned in the area title (row 7) all line items are presenting are a "Sample Design" only, so Proposers don't have to follow them in their design / recommendation and may utilize alternative items columns or specify zero price for this particular line item and specify in the "Notes" column that this line is not in use because feature provided as part of the bundle listed in other line. This component is very important for SBBC, and SBBC looks forward to responder to provide technical materials which describe technical details how suggested Network Security Automation, Orchestration solution will do this.

- **QUESTION #30:** Regarding Section 8.5.2 WARRANTIES…No separate extended warranty or special arrangement…: Some products do not come with the specified warranty by default though the manufacturer provides a commercially available warranty extension. Will this Manufacturer's extended warranty be accepted so long as it is part of their generally available warranty options and not a special offer?

  ANSWER TO QUESTION #30: It must be a Standard Manufacturer Warranty that is not a separate line item or have a separate cost.

- **QUESTION #31:** Regarding Section 8.5.3 CERTIFICATION(S): As written this would require the Awardee to support warranty work including RMA and truck roll for all aspects of the SBBC network including those items not covered under this proposed agreement. Please refine the scope of work intended to be covered under this requirement.

EXHIBIT 1

ANSWER TO QUESTION #31: Awardee is responsible for rolling the trucks 5 years from installation date, no matter in what year of the contract. Awardee is also responsible for currently installed network equipment which is under the 5 years of installation date. Awardee will not coordinate all support tickets on NMS, wireless, and switching equipment for SBBC or provide 1st line of support for equipment troubleshooting. Awardee will only be responsible for all procedures related to equipment repair and replacement after equipment which was in place less than 5 years since installation date was identified as failed by SBBC network team which will base troubleshooting process on equipment manufacturer best practices for troubleshooting. Please read 8.3 - GROUP 1 & 2 REQUIREMENTS for additional information. SBBC network team will always do their best to minimize amount of false/positive situation when Awardee will be involved for equipment repair and replacement process.

- **QUESTION #32a:** Regarding Section 8.5.60 UPS WARRANTY: This section requires that the awardee include battery replacements as a warranty item. While some UPS manufacturers classify their batteries in this way, others do not. Does this statement preclude proposing current SBBC UPS vendors if they do not warrant batteries for 5 years?

  ANSWER TO QUESTION #32a: SBBC will accept UPS BATTERIES for UPS devices listed on spreadsheet tabs Type1 to Type 20 to come with a standard manufacturer limited warranty of 3 years at ZERO cost. Additional 2 year can be added in the separate line items in the area below row 19 on "Sec Orch - Erate Ineligible" tab in the spreadsheet.

- **QUESTION #32b:** Regarding Section 8.5.60 UPS WARRANTY: Are replacement batteries considered an eligible Erate item?

  ANSWER TO QUESTION #32b: Replacement batteries service (outside of standard manufacturer warranty) is considered as Erate ineligible.

- **QUESTION #33:** Regarding PDU's: Are PDUs to be mounted horizontal or vertical?

  ANSWER TO QUESTION #33: Horizontally

- **QUESTION #34:** Regarding PDU's: Which type of PDU is preferred? Basic, Metered or Switched PDU?

  ANSWER TO QUESTION #34: SBBC requires rack mountable Metered or Switched PDUs. Power strips cannot be considered as substitute to PDU.

- **QUESTION #35:** Installation may require a complete shutdown of the UPS and connected load. Is an after-hours installation preferred or can a shutdown occur during normal business hours 7:30-3:30 Monday through Friday?

  ANSWER TO QUESTION #35: After hours or with permission from the school or Site Administration at an agreed time.

- **QUESTION #36:** Is there any existing, depleted equipment the installing technicians should remove and dispose of as part of the UPS installation service? If so, please provide details (model number, serial number, equipment type, weight, battery info.)

  ANSWER TO QUESTION #36: Awardee must remove old equipment as new becomes available to replace. Awardee will work with site regarding storage location of old equipment and comply with SBBC standard installation/removing procedures, including completion of SBBC paperwork. No disposal services are required, as there is a separate disposal service that SBBC has a contract with.

- **QUESTION #37:** Please provide details regarding school board-provided device configuration listed in 8.5.42. Is there equipment, other than the UPS units, the installing technicians will be responsible for migrating?

  ANSWER TO QUESTION #37: 8.5.42 pertains to basic configuration of the UPS provided by SBBC network team. If new UPS deployment is performed as a replacement task, Awardee will ensure all equipment connected to the old UPS must be migrated to new UPS during installation process. Also, part of UPS installation is to connect UPS to SBBC network and add new UPS in SBBC central management platform (if such exists for the UPS model) and network monitoring systems.

- **QUESTION #38:** Regarding Monitoring & Dispatch: Would The School Board of Broward County like to have included, as part of the bid, a service beyond the scope of a standard factory or extended warranty which would provide faster response to UPS / battery alerts, streamline communication so that it is direct with the UPS manufacturer, cover parts and labor for five years total, offer analytics to lead to predictive maintenance rather than reactive alert response? If yes, where do we submit?

  ANSWER TO QUESTION #38: Proposer may submit any additional service or items as a separate line item in the area below row 19 on "Sec Orch - Erate Ineligible" tab, in the spreadsheet.

EXHIBIT 1

- **QUESTION #39:** Are proposers allowed to submit 2 different proposals?

  ANSWER TO QUESTION #39: Proposers may submit as many different proposals as they want. Just submit the proposals separately and clearly identified to avoid confusion.

- **QUESTION #40:** Would the district be open to network topology modifications within each closet type to maximize value, resiliency, and performance?

  ANSWER TO QUESTION #40: SBBC will accept equivalent bids and Proposers should use the "alternative equipment" spaces in the tab to propose. All solutions must meet same minimum requirements listed in this RFP.

- **QUESTION #41:** Regarding 4.2.4 FOR ALL GROUPS: Does this apply to only for those responding with equivalent?

  ANSWER TO QUESTION #41: All Proposers must provide a minimum of three (3) customer references.

- **QUESTION #42a:** Regarding 7.23 – "actively marketed product" – please expand. Can respondent propose product that currently is not announced?

  ANSWER TO QUESTION #42a: No

- **QUESTION #42b:** Or not available?

  ANSWER TO QUESTION #42b: No

- **QUESTION #42c:** Must the product be commercially available at the time of bid submittal?

  ANSWER TO QUESTION #42c: Yes

- **QUESTION #43:** Will the District accept Electronic Signatures for forms and notarization -?

  ANSWER TO QUESTION #43: Yes

- **QUESTION #44:** Regarding 8.3.5 – how does this differ from 8.3.2?

  ANSWER TO QUESTION #44: 8.3.5 DISCONTINUATION AND SUBSTITUTION FOR RFP ITEMS, 8.3.2 TECHNOLOGY OBSOLESCENCE is a more robust explanation of 8.3.5. See answer to question #10 above for additional information.

- **QUESTION #45:** Regarding 8.5.35 – Is the intent of the user experience sensor to provide analytics of users currently connected to WLAN such as how long DNS resolutions took, how long DHCP took, etc? Or is the intent to provide an out of band sensor that has the capability to connect to the WLAN network and provide real time feedback of what a client would be experiencing by authenticating to the network and accessing network services?

  ANSWER TO QUESTION #45: SBBC wants to provide analytics of users currently connected to WLAN

- **QUESTION #46:** Regarding 8.5.67 The UPS device must support SNMPv3, SSH and SSL communications protocols. Since this contract does not go into effect January 2021, will the District accept the feature being available Jan/2021 and only in testing phase now?

  ANSWER TO QUESTION #46: Requirements must be available now, when the RFP was released.

- **QUESTION #47:** Regarding 8.5.68 The UPS device must have the ability to utilize RADIUS method of login authentication. Since this contract does not go into effect January 2021, will the District accept the feature being available Jan/2021 and only in testing phase now?

  ANSWER TO QUESTION #47: Requirements must be available now, when the RFP was released.

- **QUESTION #48:** It has been a policy of Broward School District Procurement that if the RFP stated, "must have" or "must do" (etc.) and it was not provided, it would be grounds for disqualification. Is this still the case? Or has the District relaxed that definition?

EXHIBIT 1

ANSWER TO QUESTION #48: Please see section 4.2, which specifies the grounds which cause Procurement to disqualify a proposal. No, the District has not relaxed on any. For Example, item 4.2.10 states: At the time of bid opening, Proposer must have a valid and current Florida State Specialty Contractor (low-voltage) license.. So, Proposers who do not have this license will be disqualified (for Group 1).

- **QUESTION #49:** Is there a matrix for scoring for "Experience and Qualification" and for "Scope of Work"? or is this purely subjective award of points by the evaluator?

  ANSWER TO QUESTION #49: A rubric may be supplied to the evaluators, but the only scoring requirement that evaluators must adhere to is the maximum point possible, as defined within the RFP.

- **QUESTION #50:** Are the evaluators responsible for ensuring the bids meet the technical requirements?

  ANSWER TO QUESTION #50: Yes, as stated in RFP Section 5.2, step 3.

- **QUESTION #51:** UPS section – Limited Lifetime that is for the UPS and NOT the battery-Correct? Battery is a consumable in UPS

  ANSWER TO QUESTION #51: See RFP Section 8.5.60 which addresses the UPS battery.

- **QUESTION #52:** Will SBC accept extended warranty to support the 5 yr Limited HW Warranty on UPS Batteries?

  ANSWER TO QUESTION #52: Yes, Proposer must validate the standard manufacturer warranty is 3 years and utilize the E-rate Ineligible section of the Excel spreadsheet.

- **QUESTION #53:** What manufacturer of UPS units were the specs based off of?

  ANSWER TO QUESTION #53: They are general UPS requirements from SBBC, not specific to any manufacturer.

- **QUESTION #54:** The UPS specs do not look like Liebert, please confirm.

  ANSWER TO QUESTION #54: Provider UPS specification requirements are based not on a specific manufacturer specification, but on common parameters for all UPS industry leaders. Values for technical parameters selected based on consideration that network equipment expands and is sensitive electronic equipment which requires appropriate power protection levels. Many UPS industry leaders have products which will meet the specification requirements.

- **QUESTION #55:** Does SBBC plan to procure Network Security Automation, Orchestration solution (Sec Orch Tab) in single purchase in a way it is listed in cell B10 based on Bill of Material listed below row 19? Or does SBBC planning to procure some separate components of Network Security Automation, Orchestration solution before other components?

  ANSWER TO QUESTION #55: SBBC is planning to procure Network Security Automation, Orchestration solution in different phase depending on the financial position of SBBC and if the components in the sections can be deployed to function in a phased approach, independently from each other. The first phase will include components of Network Security Automation, Orchestration solution which are required for deployment of the (with and without auto provisioning), management and maintenance for wired and wireless network equipment. Second phase will include remaining components of Network Security Automation, Orchestration solution which are required to build a solution based on minimum requirements listed in this RFP.

- **QUESTION #56:** In the XLS spreadsheet Sec-Orch tab on cell "B11" listed "One (1) Full Time Staff Augmentation Resource". Can you clarify in which tab we should list price for this item because installation terminology does not apply on this item?

  ANSWER TO QUESTION #56: Since installation does not apply on this item please list same price in both columns G and H.

- **QUESTION #57:** Please provide clarity on how important it is to add detailed Bill of Material in sections of XLS tabs dedicated for detailed information on bundle components. For ex. on the spreadsheet tab Sec-Orch area below row 19.

  ANSWER TO QUESTION 57: Since many of the items listed in the price section are bundles, it is important for responders to list bundle components in these sections. This will give SBBC evaluation team a good understanding to properly evaluate the suggested solution. The Committee will review and discuss all technical components of provided solution and score solutions based on understanding how suggested solution meets SBBC technical needs, in-house expertise and ability to effectively support the SBBC network environment. The Committee will prioritize responses which

EXHIBIT 1

provide detailed technical language in a clear manner, explaining all technical aspects of the suggested solution. The Proposer missing any technical information on the solution components, will lead the Committee to not be able to clearly understand the technical solution.

- **QUESTION #58:** On the tab "Sec Orch – Erate Ineligible" below row 19; according to the section title, is intended for the bundle components list. Also, this section lists other items such as: Wireless User Experience device – can you provide a clarity on this area and which items need to be listed in this area?

  ANSWER TO QUESTION #58: Since many of the items listed in the price section are bundles, it is important for Proposers to list bundle components in this section. This information will give the SBBC evaluation Committee information to help understand and evaluate suggested solution. Information in this section is also for "informational purposes only". Spreadsheet Tab "Sec Orch – Erate Ineligible" is intended for information on Network Security Automation, Orchestration Solution and also for information on all other Erate Ineligible items such as redundant power supplies, redundant management modules, etc … SBBC didn't create separate area on this tab for other erate ineligible items.

- **QUESTION #59:** On spreadsheet tabs Type 1 to Type 20, UPS devices listed with specific parameters for load, such as "1080-Watt 80% load". Are such parameters mandatory or provided as part of Sample Design?

  ANSWER TO QUESTION #59: The item descriptions and parameters are part of a "Sample Design – only", and parameters are listed in the minimum section requirements as mandatory to meet. Column notes can be used to provide comments on differences in values, as well as specific models with different descriptions. If UPS model is completely different such as model 2500 VA vs 2200 VA, please use Alternative Equipment fields to specify model and UPS information.

  For example –UPS devices of same model categories may have minor differences in maximum load value, so if equipment that this UPS is intended to support is less than 80% from that value of UPS, it will be an acceptable solution in this example.

- **QUESTION #60:** Will the district supplement the evaluation team's review the technical specifications?

  ANSWER TO QUESTION #60: The District is considering adding a technical consultant to provide a review/analysis of the technical responses, as is done with some other RFPs which have highly technical specifications. The consultant would provide an unbiased, factual review of technical response.

The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion-Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Non-procurement List (Telephone Number).
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntary excluded from participation in this transaction, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

ATTACHMENT G – EXCEL SPREADHSEETS

SPREADSHEET: Proposer **must** fill out the Excel attachments electronically. No handwritten summary sheets will be accepted. Complete the Excel files and submit in .xls type format with your proposal response on the flash drive.

This RFP contains two (2) groups. Each group has an accompanying Excel Spreadsheet available for download via DemandStar or the E-rate Productivity Center (EPC). Each spreadsheet contains multiple tabs. Carefully review each tab to ensure all required content is populated.

Proposers must submit pricing for all items requested. Failure to include a price offer for each and every item included on the pricing sheet will be construed by SBBC to indicate that the Proposer is unable to provide that item (with the exception as those identified as "for information purposes only"). Additionally, the omission of a price offer for any item listed on the pricing sheet will eliminate the possibility of scoring this Section equitably among multiple Proposers. For these two reasons, any proposal that does not contain a price offer for each line item listed, will result in a rejection of the entire proposal by SBBC as being incomplete and non-responsive. Cells marked "For Information Purposes Only" are not used for scoring purposes.

The quantities listed on the Excel pricing sheets are estimated quantities to be ordered throughout the contract period and are not a guarantee. Actual quantities ordered throughout the contract period may be greater or less than the estimates and shall be furnished at the fixed contract price. Purchases shall be requested as needed throughout the contract period and as few as one item each may be ordered at one time.

NOTE: Carefully review each tab to ensure all applicable spaces are completed. **The following is** a list of all tabs along with screenshots.

Pricing shall include both installed and non-installed options as indicated on the Excel pricing file.

FOR GROUP 1 (STRUCTURED CABLING): The following additional provision shall be added to Section 2 of the Agreement resulting from this RFP because the Awardee will need access to site maps:

In order to conduct the scope of work covered by the VENDOR's Agreement, the VENDOR has requested access to various SBBC documents ("SBBC Records") including, without limitation, certain documents that contain information relating to the security systems for property owned or leased by SBBC or that depict the internal layout and structural elements of SBBC-owned or leased buildings. All of VENDOR's records and notes regarding the work performed under the VENDOR's Agreement shall be referred to herein as "VENDOR's Documents."

The VENDOR hereby acknowledges that the SBBC Records and VENDOR's Documents are public records. Pursuant to Section 119.0701, Florida Statutes, VENDOR shall keep and maintain all public records required to perform the services required under this Agreement. The VENDOR acknowledges that VENDOR shall not release any SBBC Records or any VENDOR's Documents to anyone other than SBBC's Superintendent of Schools or to the designee of said Superintendent.

The VENDOR hereby acknowledges that some or all of SBBC Records and of VENDOR's Documents are confidential and exempt from public inspection under state law and VENDOR acknowledges VENDOR's duty and obligation to preserve the confidential and exempt nature of such materials. Specifically, Section 119.071(3)(b)1, Florida Statutes, states in pertinent part as follows: "Building plans, blueprints, schematic drawings, and diagrams... which depict the internal layout and structural elements of a building... or other structure owned or operated by an agency are exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution [the provisions commonly referred to as the public records laws]." In addition, Section 281.301(1), Florida Statutes, states in pertinent part as follows: "Information relating to the security systems for any property owned by or leased to the state or any of its political subdivisions... including all records, information,... schematic diagrams... are confidential and exempt from ss. 119.07(1) and 286.011 and other laws and rules requiring public access or disclosure."

VENDOR shall immediately notify SBBC's custodian of public records of any request received by VENDOR from any third person for the inspection or copying of public records. The VENDOR shall not directly deliver any public records to any third person, but rather shall immediately provide SBBC's custodian of public records with copies of any public records that have been requested by any third party. VENDOR shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the VENDOR's Agreement's term and following completion of the VENDOR's Agreement if VENDOR does not transfer the public records to SBBC. Upon completion of the VENDOR's Agreement, VENDOR shall transfer, at no cost, to SBBC all public records in possession of VENDOR required to perform the services under the VENDOR's Agreement. Upon VENDOR's transfer to SBBC of all public records upon completion of the services required under the Consultant's Agreement, VENDOR shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If VENDOR keeps and maintains any public records upon completion of the VENDOR's Agreement with SBBC, VENDOR shall meet all applicable requirements for retaining public records and preserving any applicable confidentiality or exemptions. All records stored electronically must be provided to SBBC, upon request from SBBC's custodian of public records, in a format that is compatible with SBBC's information technology systems.

IF THE VENDOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO ITS DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE AGREEMENT, THE VENDOR SHALL CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT 754-321-1900, RECORDREQUESTS@BROWARDSCHOOLS.COM, RISK MANAGEMENT DEPARTMENT, PUBLIC RECORDS DIVISION, 600 SOUTHEAST THIRD AVENUE, FORT LAUDERDALE, FLORIDA 33301.

The VENDOR agrees to comply with the foregoing requirements governing the custody of and access to public records and to confidential and exempt information under applicable law.

ADDENDUM NO. 1

RFP FY21-188

BID NAME: Structured Cabling & Enterprise Networking (E-rate)

TO ALL PROPOSERS:

Amend the above-referenced RFP in the following particulars only:

Attached are the responses to the questions received.

This Addendum is for informational purposes only and need not be returned with your proposal. By virtue of signing the "Bidder Acknowledgement", Section 1 of RFP FY21-188 Proposer certifies acceptance of this Addendum.

Sincerely,

Harmoni Clealand
Purchasing Agent IV

EXHIBIT 1

- **QUESTION #1:** How does 8.3.19 apply to Group 2? Permits are being pulled by Awarded Vendor in Group #1 for cables and closet electrical. What permits will be required for Group #2?

  ANSWER TO QUESTION #1: No permits have been required or pulled for APs, UPSs or Network equipment in the past five (5) years, but permitting requirements are set by others within the District and subject to change.

- **QUESTION #2:** Can we assume all the Q&A from FY21-180 were addressed in this version? Were all the corrections made? Can we assume the Answers are the same?

  ANSWER TO QUESTION #2: Yes, changes from FY21-180 have been incorporated in FY21-188. Most Q&A from FY21-180 was added to Section 9 of FY21-188. FY21-180 Questions that resulted in a correction to the RFP were omitted from Section 9 to avoid confusion since the update occurred in the RFP.

- **QUESTION #3:** Have there been any changes between network bid fy21-180 and the new one fy21-188?

  ANSWER TO QUESTION #3: FY21-188 includes the changes and updates accomplished by Addendums for FY21-180.

- **QUESTION #4:** Would SBBC consider an alternate solution proposal to include a service provider for managed internal broadband services that includes the operation, management and monitoring of the E-Rate eligible components of the District's LANs and Wireless LANs if it offered a superior value over the existing request for break/fix services enabling the district to Maximize Cat 2 E-Rate?

  ANSWER TO QUESTION #4: No

- **QUESTION #5:** Can SBBC please clarify if there will be negative scoring impact to a responder on the scope of work section if the proposed design does not fully comply or can only comply with "stated deviation"? For example, if we proposed a best practice solution that was different from the minimum requirements listed in the RFP but would save the school district money and still give them the functionality they want/need, would that solution be at risk for receiving a lower score?

  ANSWER TO QUESTION #5: See RFP Section 9, Answer to Question 57.

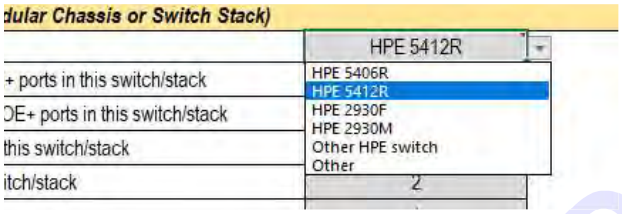
EXHIBIT 1

- **QUESTION #6:** Will points for the bid be deducted if an alternate solution is submitted, based on the specifications?

  ANSWER TO QUESTION #6: See RFP Section 9, Answer to Question 57.

- **QUESTION #7:** Based on the number of modules SBBC is asking for, Shouldn't Type 1 Closet Switch 1 should be a 5412R and that Type 17 Closet Switch 1 should be a 5406R?

  ANSWER TO QUESTION #7: Correct, Type 1 closet should be 5412R rather than a 5406R. Since this is a pull-down menu within the Excel spreadsheet, Proposers can make this change (see screenshot below). Type 17 closet was changed from a 5406R to a 5412R to comply with RFP Section 8.5.16.



- **QUESTION #8:** Will the "Current Parts List" be part of any of the scoring?

  ANSWER TO QUESTION #8: See RFP Section 9, Answer to Question #11.

- **QUESTION #9:** The following part numbers are End of Sale (EoS) in the "current parts list": Does SBBC want refurbished / used product quoted?
  J9550A
  J9537A
  J9536A
  J9534A
  J9535A
  J9538A
  J9731A

  ANSWER TO QUESTION #10: No. See section 7.23 of the RFP.

- **QUESTION #10:** I am writing to see if you have more than one of these out for bid. RFP-FY21-188-0-2021/HC and RFP-FY21-180-0-2021/HC.

  ANSWER TO QUESTION #10: FY21-180 was canceled. After the cancellation of FY21-180, the replacement, FY21-188 was released. FY21-188 is the only active bid currently for Structured Cabling & Enterprise Networking (E-rate).

EXHIBIT 1

- **QUESTION #11:** Is this a new or using the old RFP: FY21-039 Structured Cabling and Netwokring (E-rate)?

  ANSWER TO QUESTION #11: All bids for FY21-039 were rejected. RFP FY21-180 was subsequently issued to replace FY21-039 and then FY21-188 was issued to replace FY21-180.

This concludes Addendum No. 1 for RFP FY21-188 – Structured Cabling & Enterprise Networking (E-rate) – All other Terms and conditions Remain the Same.

2.10 **Background Screening.** UCS shall comply with all requirements of Sections 1012.32 and 1012.465, Florida Statutes, and all of its personnel who (1) are to be permitted access to school grounds when students are present, (2) will have direct contact with students, or (3) have access or control of school funds, will successfully complete the background screening required by the referenced statutes and meet the standards established by the statutes. This background screening will be conducted by SBBC in advance of UCS or its personnel providing any services under the conditions described in the previous sentence. UCS shall bear the cost of acquiring the background screening required by Section 1012.32, Florida Statutes, and any fee imposed by the Florida Department of Law Enforcement to maintain the fingerprints provided with respect to UCS and its personnel. The parties agree that the failure of UCS to perform any of the duties described in this section shall constitute a material breach of this Agreement entitling SBBC to terminate immediately with no further responsibilities or duties to perform under this Agreement. UCS agrees to indemnify and hold harmless SBBC, its officers and employees from any liability in the form of physical or mental injury, death or property damage resulting from UCS' failure to comply with the requirements of this section or with Sections 1012.32 and 1012.465, Florida Statutes.

2.11 **Public Records.** The following provisions are required by Section 119.0701, Florida Statutes, and may not be amended. UCS shall keep and maintain public records required by SBBC to perform the services required under this Agreement. Upon request from SBBC's custodian of public records, UCS shall provide SBBC with a copy of any requested public records or to allow the requested public records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law. UCS shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement's term and following completion of the Agreement if UCS does not transfer the public records to SBBC. Upon completion of the Agreement, UCS shall transfer, at no

cost, to SBBC all public records in possession of UCS or keep and maintain public records required by SBBC to perform the services required under the Agreement. If UCS transfers all public records to SBBC upon completion of the Agreement, V shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If UCS keeps and maintains public records upon completion of the Agreement, UCS shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to SBBC, upon request from SBBC's custodian of public records, in a format that is compatible with SBBC's information technology systems.

IF A PARTY TO THIS AGREEMENT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO ITS DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT 754-321-1900, RECORDREQUESTS@BROWARDSCHOOLS.COM, RISK MANAGEMENT DEPARTMENT, PUBLIC RECORDS DIVISION, 600 SOUTHEAST THIRD AVENUE, FORT LAUDERDALE, FLORIDA 33301.

2.12 **Liability**. This section shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

(a) By SBBC: SBBC agrees to be fully responsible up to the limits of Section 768.28, Florida Statutes, for its acts of negligence, or its employees' acts of negligence when acting within the scope of their employment and agrees to be liable, up to the limits of Section 768.28, Florida Statutes, for any damages resulting from said negligence.

(b) By UCS: UCS agrees to indemnify, hold harmless and defend SBBC, its agents, servants and employees from any and all claims, judgments, costs, and expenses including, but not limited to, reasonable attorney's fees, reasonable investigative and discovery costs, court costs and all other sums which SBBC, its agents, servants and employees may pay or become obligated to pay on account of any, all and every claim or demand, or assertion of liability, or any claim or action founded thereon, arising or alleged to have arisen out of the products, goods or services furnished by UCS, its agents, servants or employees; the equipment of UCS, its agents, servants or employees while such equipment is on premises owned or controlled by SBBC; or the negligence of UCS or the negligence of UCS' agents when acting within the scope of their employment, whether such claims, judgments, costs and expenses be for damages, damage to property including SBBC's property, and injury or death of any person whether employed by UCS, SBBC or otherwise.

2.13 **Insurance Requirements**. UCS shall comply with the following insurance requirements throughout the term of this Agreement:

(f) Verification of Coverage. Proof of the required insurance must be furnished by UCS to SBBC's Risk Management Department by Certificate of Insurance within fifteen (15) days of the date of this Agreement. To streamline this process, SBBC has partnered with EXIGIS Risk Management Services to collect and verify insurance documentation. All certificates (and any required documents) must be received and approved by SBBC's Risk Management Department before any work commences to permit UCS to remedy any deficiencies. UCS must verify its account information and provide contact details for its Insurance Agent via the link provided to it by email.

(g) Required Conditions. Liability policies must include the following terms on the Certificate of Insurance:

1) The School Board of Broward County, Florida, its members, officers, employees and agents are added as additional insured.

(b) As part of such compliance, UCS shall not discriminate on the basis of race, color, religion, ancestry or national origin, sex, age, marital status, sexual orientation, or on the basis of disability or other unlawful forms of discrimination in the solicitation, selection, hiring, or commercial treatment of subcontractors, vendors, suppliers, or commercial customers, nor shall UCS retaliate against any person for reporting instances of such discrimination. UCS shall provide equal opportunity for subcontractors, vendors, and suppliers to participate in all of its public sector and private sector subcontracting and supply opportunities, provided that nothing contained in this clause shall prohibit or limit otherwise lawful efforts to remedy the effects of marketplace discrimination that have occurred or are occurring in the SBBC's relevant marketplace. UCS understands and agrees that a material violation of this clause shall be considered a material breach of this Agreement and may result in termination of this Agreement, disqualification of the company from participating in SBBC Agreements, or other sanctions. This clause is not enforceable by or for the benefit of, and creates no obligation to, any third party.

2.15 **Annual Appropriation**. The performance and obligations of SBBC under this Agreement shall be contingent upon an annual budgetary appropriation by its governing body. If SBBC does not allocate funds for the payment of services or products to be provided under this Agreement, this Agreement may be terminated by SBBC at the end of the period for which funds have been allocated. SBBC shall notify the other party at the earliest possible time before such termination. No penalty shall accrue to SBBC in the event this provision is exercised, and SBBC shall not be obligated or liable for any future payments due or any damages as a result of termination under this section.

ARTICLE 3 – GENERAL CONDITIONS

3.01 **No Waiver of Sovereign Immunity**. Nothing herein is intended to serve as a waiver of sovereign immunity by any agency or political subdivision to which sovereign immunity may be applicable or of any rights or limits to liability existing under Section 768.28,

Florida Statutes. This section shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

3.02 **No Third Party Beneficiaries**. The parties expressly acknowledge that it is not their intent to create or confer any rights or obligations in or upon any third person or entity under this Agreement. None of the parties intend to directly or substantially benefit a third party by this Agreement. The parties agree that there are no third party beneficiaries to this Agreement and that no third party shall be entitled to assert a claim against any of the parties based upon this Agreement. Nothing herein shall be construed as consent by an agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of any Agreement.

3.03 **Independent Contractor**. The parties to this Agreement shall at all times be acting in the capacity of independent contractors and not as an officer, employee or agent of one another. Neither party or its respective agents, employees, subcontractors or assignees shall represent to others that it has the authority to bind the other party unless specifically authorized in writing to do so. No right to SBBC retirement, leave benefits or any other benefits of SBBC employees shall exist as a result of the performance of any duties or responsibilities under this Agreement. SBBC shall not be responsible for social security, withholding taxes, contributions to unemployment compensation funds or insurance for the other party or the other party's officers, employees, agents, subcontractors or assignees.

3.04 **Default**. The parties agree that, if either party is in default of its obligations under this Agreement, the non-defaulting party shall provide to the defaulting party (30) days' written notice to cure the default. However, if said default cannot be cured within said thirty (30) day period and the defaulting party is diligently attempting in good faith to cure same, the time period shall be reasonably extended to allow the defaulting party additional cure time. Upon the occurrence of a default that is not cured during the applicable cure period, this Agreement may be terminated by the non-defaulting party upon thirty (30) days' notice. This remedy is not intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or future exercise thereof. Nothing in this section shall be construed to preclude termination for convenience pursuant to Section 3.05.

3.05 **Termination**. This Agreement may be canceled with or without cause by SBBC during the term hereof upon thirty (30) days' written notice to the other parties of its desire to terminate this Agreement. In the event of such termination, SBBC shall be entitled to a *pro rata* refund of any pre-paid amounts for any services scheduled to be delivered after the effective date of such termination. SBBC shall have no liability for any property left on SBBC's property by any party to this Agreement after the termination of this Agreement. Any party contracting with SBBC under this Agreement agrees that any of its property placed upon SBBC's facilities pursuant to this Agreement shall be removed within ten (10) business days following the termination, conclusion or cancellation of this Agreement and that any such property remaining upon SBBC's facilities after that time shall be deemed to be abandoned, title to such property shall pass to SBBC, and SBBC may use or dispose of such property as SBBC deems fit and appropriate.

3.06 **Compliance with Laws**. Each party shall comply with all applicable federal, state and local laws, SBBC policies, codes, rules and regulations in performing its duties, responsibilities and obligations pursuant to this Agreement.

3.07 **Place of Performance**. All obligations of SBBC under the terms of this Agreement are reasonably susceptible of being performed in Broward County, Florida and shall be payable and performable in Broward County, Florida.

3.08 **Governing Law and Venue**. This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Any controversies or legal problems arising out of this Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted exclusively to the jurisdiction of the State courts of the Seventeenth Judicial Circuit of Broward County, Florida or to the jurisdiction of the United States District Court for the Southern District of Florida. Each party agrees and admits that the state courts of the Seventeenth Judicial Circuit of Broward County, Florida or the United States District Court for the Southern District of Florida shall have jurisdiction over it for any dispute arising under this Agreement.

3.09 **Entirety of Agreement**. This document incorporates and includes all prior negotiations, correspondence, conversations, agreements and understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, the parties agree that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

3.10 **Binding Effect**. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.

3.11 **Assignment**. Neither this Agreement nor any interest herein may be assigned, transferred or encumbered by any party without the prior written consent of the other party. There shall be no partial assignments of this Agreement including, without limitation, the partial assignment of any right to receive payments from SBBC.

3.12 **Captions**. The captions, section designations, section numbers, article numbers, titles and headings appearing in this Agreement are inserted only as a matter of convenience, have no substantive meaning, and in no way define, limit, construe or describe the scope or intent of such articles or sections of this Agreement, nor in any way affect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

3.13 **Severability**. In the event that any one or more of the sections, paragraphs, sentences, clauses or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable or void in any respect, such shall not affect the remaining portions of this Agreement and the same shall remain in full force and effect as if such invalid, illegal, unlawful, unenforceable or void sections, paragraphs, sentences, clauses or provisions had never been included herein.

EXHIBIT 2

3.14 **Preparation of Agreement**. The parties acknowledge that they have sought and obtained whatever competent advice and counsel as was necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

3.15 **Amendments**. No modification, amendment, or alteration in the terms or conditions contained herein shall be effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

3.16 **Waiver**. The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement shall not be deemed a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver shall only be effective as to the specific instance for which it is obtained and shall not be deemed a continuing or future waiver.

3.17 **Force Majeure**. Neither party shall be obligated to perform any duty, requirement or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage, accident, flood, acts of God, strikes, or other labor disputes, riot or civil commotions, epidemics, pandemics, government regulations, and the issuance or extension of existing government orders of the United States, the State of Florida, or local county and municipal governing bodies, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). In no event shall lack of funds on the part of either party be deemed Force Majeure.

3.18 **Survival**. All representations and warranties made herein, indemnification obligations, obligations to reimburse SBBC, obligations to maintain and allow inspection and audit of records and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds shall survive the termination of this Agreement.

3.19 **Agreement Administration**. SBBC has delegated authority to the Superintendent of Schools or his/her designee to take any actions necessary to implement and administer this Agreement.

3.20 **Counterparts and Multiple Originals**. This Agreement may be executed in multiple originals, and may be executed in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same Agreement.

3.21 **Authority**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of

the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the date first above written.

SECTION 3 – INTRODUCTION AND GENERAL INFORMATION

3.1 **INTRODUCTION:** The School Board of Broward County, Florida (hereinafter referred to as "SBBC") desires to receive proposals for structured cabling and enterprise network systems (E-Rate) as described herein. SBBC seeks a partner to ensure the success of our main objective, which is to effectively support student achievement by providing a communications infrastructure that is reliable, scalable, upgradeable and cost-effective. This RFP relates to design, implementation, monitoring, managing and maintaining the following systems:

Group #	Group Title	Group Description
1	Structured Cabling	Goods and services required to build and maintain low voltage voice, video and data cabling systems
2	Enterprise Networking	Goods and services required to install and maintain the electronics needed to provide access to the Internet and other digital resources for computers and other peripherals on school campuses and District offices. Includes Local Area Networks and Wireless Local Area Networks.

SBBC will apply for Universal Service Funds discounts where possible as allowed for by E-Rate rules and in conformance with SBBC business practices. The E-Rate program provides discounts on a variety of eligible goods and services needed to connect SBBC's students and staff to each other and the vast world of digital resources available across the Internet. Proposer is required to be a registered service provider with Schools and Libraries Division and be an active participant in the E-RATE program for the duration of the contract. Additional information on E-Rate is available at http://www.usac.org/sl/ .

See RFP Section 8 for Scope of Work and Performance Specifications.

3.2 **QUESTIONS AND INTERPRETATIONS:** Any questions concerning any portion of this RFP must be submitted, in writing, to Harmoni Clealand**, Procurement & Warehousing Services Department,** via e-mail harmoni.clealand@browardschools.com. Any questions which require a response which amends the RFP document in any manner will be answered via Addendum by the Procurement & Warehousing Services Department and provided to all Proposers via DemandStar and the E-rate Productivity Center (EPC). No information given in any other matter will be binding on SBBC.

Any questions concerning any condition or requirement of this RFP must be received in the Procurement & Warehousing Services Department, in writing, **on or before 5:00 p.m. ET 10/5/2020**. Questions received after this date and time will be responded to with, "I'm sorry, but the question and answer period has concluded". Submit all questions to the attention of the individual stated above. If necessary, an Addendum will be issued. Any verbal or written information, which is obtained other than by information in this RFP document or by Addenda, shall not be binding on SBBC.

3.3 **CONTRACT TERM:** The purpose of this RFP is to establish a contract beginning December 29, 2020 through June 30, 2026. In the event that the Proposer identified for award is NOT the incumbent, the contract may commence earlier, to allow for a transition period. The term of the contract may, by mutual agreement between SBBC and the Awardee, be extended for two additional one-year periods and, if needed, 180 days beyond the expiration date of the renewal period. Procurement & Warehousing Services Department, will, if considering renewing, request a letter of intent to renew from each Awardee, prior to the end of the current contract period. The Awardee will be notified when the recommendation has been acted upon by the School Board. All costs and minimum discount percentages shall be firm for the term of the contract. The Proposer agrees to this condition by signing its proposal.

3.4 **PRICE ADJUSTMENTS: Prices offered shall not increase through the contract term.** E-rate will not reimburse for price increases, therefore pricing cannot increase during the term of the contract. The E-rate program does allow price decreases during the term of the contract upon mutual agreement of the parties. The Proposer agrees to this firm pricing condition by signing its proposal. For vendors on State contract, if the price of the State contract for like equipment falls below the contract price with SBBC, SBBC is charged the lower price. Refer to Section 7.53 of this RFP for additional information.

3.5 **SUBMITTAL OF PROPOSAL:** Submit proposals in accordance with Section 4. Proposals should be organized and shall include necessary information as to be in full compliance with this Section. In order to facilitate the proposal evaluation process, special

attention should be paid to organizing proposals in a manner consistent with Section 4. SBBC reserves the right to reject and not consider any proposal that is not submitted in accordance with Section 4 or that does not include any necessary information.

3.6 **EVALUATION AND AWARD:** All proposals received must meet the Minimum Eligibility Requirements as stated in Section 4.2 of the RFP in order to be further considered for evaluation. Failure to meet the Minimum Eligibility Requirements shall result in disqualification of entire proposal and shall not be considered for further evaluation. Those proposals which meet the minimum requirements shall be further evaluated and scored by an Evaluation Committee. **General Condition 7.1, Liability, is NOT subject to negotiation and any proposal that fails to accept these conditions will be rejected as "non-responsive."**

Group 1: The M/WBE Subcontracting Program
Group 2: The Voluntary M/WBE Distributorship Development Program

Address for submitting invoices is included on Purchase Order.

7.36 **PURCHASE AGREEMENT:** This RFP, written Agreement, and the corresponding Purchase Orders will constitute the complete agreement. SBBC will not accept proposed terms and conditions that are different than those contained in this RFP, including pre-printed text contained on catalogs, price lists, other descriptive information submitted or any other materials. Awardee agrees to indemnify and hold harmless SBBC, its officers and employees of any liability in the form of physical or mental injury, death or property damage resulting in Awardee's failure to comply with the requirements of this section or Sections 1012.32 and 1012.465, Florida Statutes.

SBBC shall provide the estimated contract amount to the Proposer within 72 hours, excluding Saturdays, Sundays and other days during which SBBC administration is closed, of receipt of notice of intent to protest. The estimated contract amount is not subject to protest pursuant to Section 120.57(3), Florida Statutes. In lieu of a bond, SBBC may accept a cashier's check, official bank check or money order in the amount of the bond.

If, after completion of the Administrative Hearing process and any appellate court proceedings, SBBC prevails, SBBC shall recover all costs and charges which shall be included in the Final Order or judgment, including charges made by the Division of Administrative Hearings, but excluding attorney's fees. Upon payment of such costs and charges by the protestant, the bond shall be returned. If the protestant prevails, then the protestant shall recover from the School Board all costs and charges which shall be included in the Final Order or judgment, excluding attorney's fees. **All documentation necessary for the protest proceedings will be provided electronically by SBBC.**

Failure to file a notice of protest or to file a formal written protest within the time prescribed by Section 120.57(3), Florida Statutes, or a failure to post the bond or other security required by SBBC Policy 3320 within the time allowed for filing a bond, shall constitute a waiver of proceedings. 7.42 **AUDIT AND INSPECTION OF AWARDEE'S DOCUMENTS AND RECORDS:** The District or its representative reserves the right to inspect and/or audit all the Awardee's documents and records as they pertain to the products and services delivered under this agreement. Such rights will be exercised with notice to the Awardee to determine compliance with and performance of the terms, conditions and specifications on all matters, rights and duties, and obligations established by this agreement. Documents/records in any form shall be open to the District or State's representative and may include but are not limited to all correspondence, ordering, payment, inspection, and receiving records, contracts or sub-contracts that directly or indirectly pertain to the transactions between the District and the Awardee(s). (See Special Conditions of the RFP)

7.43 **CREDIT CARDS:** Individual schools and departments may place some orders and utilize, as the form of payment, a District-issued credit card to the extent authorized by the School Board. These orders will be made via phone or fax for direct delivery and billing to the requesting work location. Please note that credit card purchases will benefit all vendors by providing immediate payment (i.e. within 48-72 hours), thereby eliminating the need to submit an invoice to the District's Accounts Payable Department or reconcile receivable balances. For credit card purchases, all vendors must have the capability to accept fax orders, which must be confirmed by calling back the requesting work location to verify prices and obtain a credit card number. Only actual items shipped/delivered can be charged to the credit card account (i.e., no back-orders). All purchase deliveries must include a packing slip or receipt/invoice listing the items and prices of goods delivered. For security reasons, the credit card charge receipt showing the work location's credit card number cannot be attached to the packing slip or receipt/invoice submitted as part of the purchase delivery. District work locations may request that a vendor maintains secure records of the credit card account assigned an alias or password, to avoid divulging the actual credit card number upon every purchase.

7.44 **NONCONFORMANCE TO CONTRACT CONDITIONS:** Items or services offered may be tested for compliance with RFP conditions and specifications at any time. Items delivered, not conforming to RFP conditions or specifications, may be rejected and returned at vendor's expense. Services not conforming to RFP specifications shall be corrected and performed again to meet the specifications of the RFP at the expense of the Awardee. Goods or services not delivered as per delivery date in RFP and/or Purchase Order may be rejected upon delivery and/or may be purchased on the open market. Any increase in cost may be charged against the Awardee. Any violation of these stipulations may also result in:

a) Cancellation and default of contract;
b) For a period of two years, any proposal submitted by vendor will not be considered and will not be recommended for award.
c) All departments being advised not to do business with vendor.

7.45 **CONE OF SILENCE:** Any proposer, or lobbyist for a proposer, is prohibited from having any communications (except as provided in this rule) concerning any solicitation for a competitive procurement with any School Board member, the Superintendent, any Evaluation Committee Member, or any other School District employee after Procurement and Warehousing Services releases a solicitation to the General Public. All communications regarding this solicitation shall be directed to the designated Purchasing Agent unless so notified by Procurement and Warehousing Services. This "Cone of Silence" period shall go into effect and shall remain in effect from the time of release of the solicitation until the contract is awarded by the School Board. Further, any vendor, its principals, or their lobbyists shall not offer campaign contributions to School Board Members or offer contributions to School Board Members for campaigns of other candidates for political office during the period in which the vendor is attempting to sell goods or services to the School Board. This period of limitation of offering campaign contributions shall commence at the time of the "cone of silence" period for any solicitation for a competitive procurement as described by School Board Policy 3320, Part II, Section GG as well as School Board Policy 1007, Section 5.4 – Campaign Contribution Fundraising. **Any vendor or lobbyist who violates this provision shall cause their Proposal (or that of their principal) to be considered non-responsive and therefore be ineligible for award.**

7.46 **TERMINATION:** This contract award may be terminated with or without cause by SBBC during the term hereof thirty (30) days after the Superintendent gives written notice to the other parties that a recommendation will be made to the School Board for the contract award's termination.

7.47 **PACKING SLIPS:** It will be the responsibility of the Awardee to attach all packing slips to the OUTSIDE of each shipment. Packing slip must reference SBBC Purchase Order number/control number. Failure to provide packing slip attached to the outside of shipment will result in refusal of shipment at vendor's expense.

7.48 **USE OF OTHER CONTRACTS:** SBBC reserves the right to utilize any other SBBC contract, any State of Florida Contract, any contract awarded by any other city or county governmental agencies, other school boards, other community college/state university system cooperative bid agreement, or to directly negotiate/purchase per School Board policy and/or State Board Rule 6A-1.012, as currently enacted or as amended from time to time, in lieu of any offer received or award made as a result of this bid if it is in its best interest to do so.

7.52 **DISTRIBUTION:** DemandStar by Onvia, www.demandstar.com, is the official method approved by Procurement and Warehousing Services for the distribution of all competitive solicitations including ITBs and RFPs. It is the responsibility of all interested parties to assure they have received all necessary documents, including Addenda and have included all necessary information within their response. SBBC is not responsible for Proposer's failure to obtain complete bidding documents from DemandStar. SBBC reserves the right to reject any bid as non-responsive for failure to include all necessary documents or required Addenda. For information regarding the above referenced solicitation, contact the designated Purchasing Agent as stated herein.

7.53 **PRICE REDUCTIONS:** If, from the date of proposal opening, the Awardee either bids the same products and/or services at a lower price than offered to SBBC or reduces the price of the proposed product or service, the lowest of these reduced prices will be extended to SBBC.

7.54 **LOBBYIST ACTIVITIES:** In accordance with SBBC Policy 1100B, as currently enacted or as amended from time to time, persons acting as lobbyists must state, at the beginning of their presentation, letter, telephone call, e-mail or facsimile transmission to School Board Members, Superintendent or Members of Senior Management, the group, association, organization or business interest she/he is representing.

Included as a part of the RFP documents is a Form entitled **SWORN STATEMENT PURSUANT TO CHAPTER 287.087, FLORIDA STATUTES, AS CURRENTLY ENACTED OR AS AMENDED FROM TIME TO TIME, ON PREFERENCE TO BUSINESSES WITH DRUG-FREE WORKPLACE PROGRAMS.** This form will be used by the Proposer to certify that it has implemented a drug-free workplace program. The confidential information cannot be disclosed unless valid consent is obtained from the students or their legal guardians. Both parties agree to protect these records in compliance with FERPA, HIPAA, and the District's policy. To the extent permitted by law, nothing contained herein shall be construed as precluding either party from releasing such information to the other so that each can perform its respective responsibilities.

7.59 **CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY OR VOLUNTARY EXCLUSION – Lower Tier Covered Transactions:** Executive Order 12549, as currently enacted or as amended from time to time, provides that, to the extent permitted by law, Executive departments and agencies shall participate in a government-wide system for non-procurement debarment and suspension. A person who is debarred or suspended shall be excluded from Federal financial and non-financial assistance and benefits under Federal programs and activities. Except as provided in § 85.200, Debarment or Suspension, § 85.201, Treatment of Title IV HEA participation, and § 85.215, Exception Provision, debarment or suspension of a participant in a program by one agency shall have government-wide effect. A lower tier covered transaction is, in part, any transaction between a participant [SBBC] and a person other than a procurement contract for goods or services, regardless of type, under a primary covered transaction; and any procurement contract for goods or services between a participant and a person, regardless of type, expected to equal or exceed the Federal procurement small purchase threshold fixed at 10 U.S.C. 2304(g) and 41 U.S.C. 253(g) (currently $100,000) under a primary covered transaction; or any procurement contract for goods or services between a participant and a person under a covered transaction, regardless of amount, under which that person shall have a critical influence on or substantive control over that covered transaction. A participant may rely upon the certification of a prospective participant in a lower tier covered transaction that it and its principals are not debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. Each participant shall require participants in lower tier covered transactions to include the certification for it and its principals in any bid submitted in connection with such lower tier covered transactions.

CERTIFICATION:

a) The prospective lower tier participant certifies, by submission of this RFP, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

b) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this bid.

7.60 **PUBLIC INSPECTION OF PROPOSALS:** Pursuant to Section 119.071 (1)(b), Florida Statutes, responses received as a result of this RFP shall be exempt from public inspection and copying until thirty (30) days after the opening of the proposals or until posting of the recommendation for intended award, whichever is earlier. If SBBC rejects all proposals and concurrently provides notice of its intent to reissue the competitive solicitation, the rejected proposals shall remain exempt from public inspection and copying until such time as SBBC posts notice of an intended decision concerning the reissued competitive solicitation or until SBBC withdraws the reissued competitive solicitation.

If a Proposer contends that any portion of its response to the RFP is confidential and exempt from public inspection and copying, it is the Proposer's responsibility to clearly label each such portion of its proposal as confidential and specify the applicable statutory exemption from public inspection and copying on such portion(s) of its proposal. Confidential or exempt portions of any proposal must also be submitted in a separate sealed envelope and marked as such. A failure by the Proposer to prepare and label the confidential or exempt portions of its proposal in the manner specified in this section of the RFP shall constitute a waiver by Proposer of any applicable exemptions from disclosure or any confidential status including ones that may be applicable to trade secrets under Florida law.

SBBC will promptly provide a Proposer's contact person with written notice if a public records request has been made for any portions of Proposer's response to the RFP. SBBC will provide for the inspection or copying any non-exempt portions of any proposal in its possession in accordance with applicable law. If a Proposer wishes to preclude the inspection or copying of any non-exempt portions of its response to the RFP or if a dispute exists as to whether such portions are entitled to an exemption, the Proposer must obtain a protective order from a court of competent jurisdiction prohibiting the inspection or copying of the requested materials. The failure to timely initiate such legal proceedings shall constitute a waiver by the Proposer of any applicable exemption or confidential status of the requested materials. By submitting a response to this RFP, the Proposer agrees to waive any cause of action or claim for damages it may have against SBBC for its release of records in response to a public record other than those that are prepared and labeled as confidential or exempt as described in this section. SECTION 8 – SCOPE OF WORK & PERFORMANCE SPECIFICATIONS

Section 8 specifies the minimum requirements that meet the current educational and business needs of SBBC's environment, and those that will provide new solutions in the future. The technical specifications for specific services included in the RFP may be modified as needed by SBBC throughout the term of the contract as technology changes and SBBC's business and operational requirements shift. All technical and special conditions are mandatory requirements that Awardee is required to comply with in order to satisfy the terms and conditions of the RFP.

GROUP 1 – STRUCTURED CABLING SYSTEMS
GROUP 2 – ENTERPRISE NETWORKING (LOCAL AREA NETWORKS (LAN) & WIRELESS LOCAL AREA NETWORKS (WLAN))

8.1 GROUP 1 – STRUCTURED CABLING: The scope of work requirements includes the procurement of communications wiring and related hardware, conduits and related cable management infrastructure and all related components required for a fully functional communications infrastructure for the following:

a. Adds, moves and changes to the existing communications infrastructure at schools and District offices
b. Installation of communications infrastructure to support data, voice and video at new schools and District offices
c. Communications infrastructure in relocatable classrooms
d. Communications infrastructure in Building renovations and additions
e. Dedicated Technician services

SBBC's intent with this contract is to, in accordance with E-rate guidelines, establish a not to exceed rate for these Structured Cabling services. The rates would be in force through the term of the agreement.

8.1.1 **GROUP 1 CURRENT CONDITIONS:** SBBC employs a communications transport system to support the transmission of voice, data, surveillance and multimedia applications. The communications transport system is based on a structured wiring design of (normally) four pair, plenum, Category 5e and/or Category 6, unshielded twisted pair (UTP) cables to each communications outlet (CO) location in a quad, dual or single port configuration. Quad COs consist of four, 8-pin modular jacks, Category 5e and/or Category 6, Dual COs consists of two, 8-pin modular jacks, Category 5e and/or Category 6 and Single COs consist of one, 8-pin modular jack Category 5e and/or Category 6. Quad, dual or single CO locations originate from a main equipment room (ER) usually located in the Media Center or a communications closet (TR). Rooms located outside the distance limitations of the ER, or in outlying buildings. Voice cabling infrastructure is fed from communication closets connected to the main ER via a category 3/5 voice grade, copper backbone cable and optical multi-mode fiber cable. All CO location cables are directly home run to the nearest TR or the ER and terminated on Category 5e and/or Category 6, 8-pin modular patch panels with 110-type connecting hardware. This conforms to SBBC's Standards and all current Building Industry Consulting Service International (BICSI) standards and specifications.

8.2. GROUP 2 – ENTERPRISE NETWORK: The scope of work requirements includes the procurement of enterprise network equipment needed to provide or expand Local Area Network (LAN) and Wireless Local Area Network (WLAN) solutions on school campuses and other District facilities and includes:

a. Network equipment infrastructure at new schools and/or Department sites
b. Upgrade of existing network infrastructure at schools and District offices not already upgraded or partially upgraded
c. Procurement of parts and equipment needed to maintain all existing Hewlett Packard network equipment installed throughout the District.

While procurement amounts for the Enterprise Network are estimated for bidding purposes, SBBC reserves the right to amend these estimates on an annual basis with the filing of the FCC Form 471. There are no guaranteed minimums of orders.

GROUP 2 CURRENT ENVIRONMENT

8.2.1 All of SBBC's 265-plus facilities, both schools and administrative sites, are connected via a Wide Area Network (WAN) in a hub and spoke topology back to the technology center utilizing Multiprotocol Label Switching routing technique (MPLS) with six class-of-services to provide the proper quality of service for real time, voice, video and other selective traffic. Open Shortest Path First (OSPF) and Border Gateway Protocol (BGP) routing protocols are responsible to propagate reachability information through the entire network. MPLS bandwidth at locations is varied from gigabit to multi-gigabit connections with multiple ten gigabit connections at the hub location. At each site, the WAN connects to each site's Local Area Network (LAN). LANs are installed using a hierarchical star topology with a single core layer switch and multiple access layer switches and wireless access points.

EXHIBIT 1

8.2.2 Network Equipment and Uninterruptable Power Supply (UPS) devices are deployed at approximately 2,166 IDF/MDF locations across the District. In most cases, 2-post or 4-post networking network racks are located in wired closets, but in some cases racks with network equipment are located at a school office or media center.

8.2.3 The table below represents the current SBBC network closets classification from the standpoint of the amount of copper and fiber ports.

Total	**288,242**	**13,300**	**2,166**

Note: SBBC cannot dictate network designs or diagrams of closet types due to E-Rate Guidelines.

8.2.4 SBBC's LANs are composed of HP Aruba network equipment, Aerohive Wireless Access Points (APs) and multi-branded Uninterruptable Power Supply (UPS) devices. All wiring closets utilize standard 19" 2-post racks. Switch ports support 10/100 Mbps and gigabit connections via UTP CAT 5e or CAT 6 copper RJ-45 connectors and either 62.5 or 50-micron multimode fiber.

8.2.5 Wireless Access Point models deployed at the locations are principally Aerohive AP230; approximately 15,400 units deployed. There are also approximately 2000 Aerohive AP330 units that are primarily deployed at Administration locations and some schools. The most recent Wireless Access Point model deployed in high-density areas is Aerohive AP250. The HP Aruba switch models deployed most frequently are the HP Aruba 5400R Layer 3 modular chassis-based switch and the HP 5400 zl Layer 3 modular chassis-based switch. In areas where a large amount of ports are not needed, smaller stackable models of HP Layer 3 switches are deployed.

8.2.6 The LAN network backbones between switches are gigabit or multi-gigabit fiber or copper. A minimum of switched Fast Ethernet to the desktop for all ports with the majority of desktop-facing ports are gigabit with Power over Ethernet (PoE) for VoIP phones. The network switches support both Layer II and Layer III switching, IPv4 routing, OSPF & BGP dynamic routing protocols, 802.1q VLAN distribution on all backbones and segments, Multicast routing and delivery with IP PIM sparse, IGMPv2, IGMPv3, DHCP snooping, Bonjour gateway, Access Control List (ACL) and Quality of Service (QoS) capabilities.

8.2.7 Core switches located in the main Communications Equipment Room (CER or MDF) are utilized as full-function routers performing IPv4 routing, participating in OSPF and BGP dynamic routing exchange, performing PIM Sparse and Bonjour gateway. To improve performance, security and administrative control, a large campus network is segmented into smaller logical networks with 802.1q Virtual LAN technique. Currently, each campus has eight VLANs.

8.2.8 Edge switches are enterprise-class managed switches. They are layer 2-4 capable, which allows the implementation of IPv4 routing, QoS, DHCP-snooping, ACLs at the edge as technology needs dictate. These switches support both 10/100 mbps and gigabit connections via UTP Cat 5e and/or Cat 6 copper RJ-45 connectors to the desktop. In most installs

EXHIBIT 1

modular, chassis-based switches are utilized versus stackable switches. This allows for higher port densities; a common, faster backbone; greater ease-of-management and cleaner installs. At sites where VoIP is implemented (around 220 sites) power over Ethernet features are utilized to power up IP phones. Wireless Access Points are utilizing advanced power over Ethernet features.

8.2.9 Managed UPSs are located in each wiring closet and are sized-based on the network equipment they support. They are outfitted with network management cards for remote management over the network. SNMPv3 is utilized to provide capabilities for proactive network management at the District's Network Operation Center (NOC). All switches and UPS devices are centrally managed and monitored via encrypted protocols such as SNMPv3, HTTPs and/or SSH.

8.2.10 All schools have 100% complete wireless coverage throughout their facilities. SBBC's wireless network consists of over 17,575 Aerohive Wireless Access Points centrally managed by the Network Operations Center via Aerohive's central management solution "HiveManager." The wireless network currently utilizes a "one AP per classroom" deployment scheme. Special locations which have a high density of users (such as media centers and cafeterias) have a heavier deployment footprint. Wireless Networks are deployed across the entire 2.4GHz and 5GHz radio frequency bands and support 802.11a/g/n/ac wireless standards. Deployment is performed based on 20MHz – wide radio channel in 1 to 1 areas with 40MHz utilized elsewhere on the 5Ghz band.

8.2.11 Four wireless networks (WLANs) are serving different categories of users and devices. WPA2-Enterprise authentication protocol with 802.1x authentication method is used on all major WLANs with additional device control mechanism deployed at Access Points, which enables the recognition of device/user combinations and properly places wireless devices on the proper network segment, with the additional ability to apply proper access restrictions directly on the Access Point and class of service on the network switch. The Wireless Guest network for outside users is deployed by utilizing an open Captive Portal mechanism, with the ability to perform self-onboarding and the ability to receive temporary access credentials via SMS gateway message on a cell phone. Any access to the Internet is controlled by an enterprise-class web filtering solution, application control and intrusion detection services. Users on a Guest WLAN are not allowed to access District internal network resources.

8.2.12 The daily peak average load of wired and wireless clients generally exceeds 260,000 - 320,000 connected devices, from which wireless clients generally exceeds 170,000 - 210,000 connected devices. The total number of unmanaged District-owned devices which may not support 802.1x is approximately 85,000. These are devices such as IP phones, Wireless APs, IP cameras, UPS systems, printers, class collaboration, video collaboration and IoT devices. The maximum total amount of wired and wireless devices on the network during peak times currently approaches 400,000. The current flow rate at the centralized Netflow collector is approximately 55,000 flows per second.

8.2.13 The centralized DNS/DHCP/IPAM solution that is deployed at the District level is based on an Infoblox solution that serves all clients. Wireless Access Points receive IP addresses dynamically from a centralized DHCP server. At 250-plus locations, the DHCP lease time on wireless networks is 42 hours. Eight large school locations have a lease time of eight hours on wireless network segments. Lease time for non-wireless devices is over 72 hours.

8.2.14 Currently during new deployments of network switches, new devices are configured based on a predefined configuration blueprint which specifies most global parameters, such as the amount of VLANs, VLAN IDs, ACLs, QoS, DHCP snooping and many others. A switch configured with a static IP address is predefined by the Network Operations Center prior to installation. Trunk ports facing other switches or Access Points are configured with 802.1q VLAN tagging for all VLANS. All other switch ports, except trunks, are configured as untagged on data VLAN and tagged on voice VLAN. After the initial deployment, some ports are manually tuned to reflect special purposed devices (ie: security cameras). Currently 802.1X is not widely deployed on switch ports, which creates management overhead.

8.5.2.1 **MANUFACTURER'S LIMITED HARDWARE WARRANTY**: If the Awardee's standard equipment Warranty does not include a Manufacturer's limited lifetime hardware warranty, limited to five (5) years from the end of the sale date announcement the Awardee must list the actual limited Warranty terms in its proposal. The limited warranty must apply to all network switches, access points and UPS devices procured through this RFP. All Limited hardware warranty provisions for all equipment must be confirmed with equipment manufacturer documentation covering all suggested models. SBBC will not accept additional warranty agreements which are specific to this RFP as a substitute for manufacturer offered limited hardware warranty.

If the Awardee's standard bundled warranty does not include free standard shipping to and from the Awardees merchandise authorization (RMA) center, the Awardee must list in its proposal its actual terms and conditions for RMA item shipping in its proposal. This must apply to all switches, wireless access points, UPS and all other equipment purchased under this RFP.

Warranty for all equipment starts from the SBBC on-prem installation date.

8.5.2.2 **MANUFACTURER HARDWARE LIFETIME WARRANTY:** All Network switches procured through this RFP must include a Manufacturer's lifetime hardware warranty. Lifetime hardware warranty for equipment must be confirmed with equipment manufacturer documentation covering all suggested models. SBBC will not accept additional warranty agreements which are specific to this RFP as a substitute for manufacturer offered lifetime hardware warranty.

If the Awardee's standard bundled warranty does not include free standard shipping to and from the Awardees merchandise authorization (RMA) center, the Awardee must list in its proposal its actual terms and conditions for RMA item shipping in its proposal. This must apply to all switches, wireless access points, UPS and all other equipment purchased under this RFP.

8.5.3 **CERTIFICATION(S):** Proposer must provide verification of their company's current certification to install, maintain, and perform all warranty work as part of the scope of services and technical specifications stated within the RFP. SBBC's existing network infrastructure under warranty is to be maintained by the Awardee. Awardee shall not allow certification to lapse during term of contract. Certified means personnel working on equipment must hold in his/her possession a certificate of training stating the manufacturer has trained, and is authorized to install, maintain and perform warranty work on that manufacturer's equipment. Awardee must make available to SBBC systems engineers for Dedicated Technician Services that are fully certified and qualified to manage and maintain wired and wireless equipment and systems procured through this RFP award in ways that efficiently manage and maintain the install base and protect warranty coverage of systems.

8.5.4 **REPAIRS:** The Awardee, after being notified, must have all needed repairs started within four (4) business hours (business hours are defined as Monday through Friday, between the hours of 7:30 am to 5 pm). Awardee is responsible for all warranty work & parts, including new equipment purchased under this RFP and/or SBBC's existing networking infrastructure (under warranty). The local repair station must be authorized by the manufacturer and be staffed with in-house factory trained and certified personnel. If the proposal submitted is from other than the manufacturer, then proof that the local repair station is authorized and certified by the manufacturer must be submitted with proposal or upon request. For the purpose of this RFP "local" repair station means a location in Broward, Miami-Dade or Palm Beach County. Factory and or manufacturer-trained and certified means personnel working on equipment must hold in his/her possession a certificate of training stating manufacturer has trained and is authorized to install, maintain and perform warranty work on that manufacturer's equipment. Repairs can be made either at the school/department/center or at the local repair station. If repairs cannot be accomplished at the location, the Awardee is responsible for transporting equipment to and from the original location. Awardee is completely and solely responsible for the coordination and completion of all repairs, including

EXHIBIT 1

pickup at site and reinstallation of any equipment. Upon request, equivalent loaner equipment will be made available if repairs cannot be completed at the location (school/department/center). Manufacturer's standard warranty must be provided on all RFP items. Warranty must begin after delivery and acceptance made by an authorized representative of the School Board. List warranty of all equipment proposed. Awardee must maintain an adequate supply of complement spare parts at their local service facility during warranty period to fulfill the guarantee of the items covered in this RFP. Awardee must mark and disconnect all cables, remove faulty equipment from site where it's installed, install replacement equipment at the same site location and connect all cables back in the same order and test to make sure equipment is functional. Warranty replacement equipment must be in the same functional state equal to the state in which equipment was before the failure. Awardee must restore configuration files to the equipment, add replacement equipment in SBBC network monitoring tools and any other steps to bring faulty equipment or replacement equipment back online after failure. SBBC will not pay for warranty or any activities related to warranty replacements. Awardee must provide replacement equipment free of charge to SBBC.

8.5.5 All new network switches, as well as existing HP Aruba 5400R switches with v3 modules, must have the ability to dynamically enforce role-based access on individual ports during the device connectivity phase or later, based on control from the proposed SEC ORCH. Wireless Access Points must have the ability to dynamically enforce role-based access on WLAN during the device connectivity phase or later, based on control from SEC ORCH. **Note:** For this requirement, "dynamically" means that the SEC ORCH will need to download to the switch (HPE Aruba 5400R) the required ACLs and interface configuration.

8.5.6 All ports on all new network switches and existing HP Aruba 5400R switches with v3 modules must have a unified light configuration that prevents unauthorized access to the environment when not connected. During the connectivity phase, all ports must first pass through a device identification process. If the proposed network solution is unable to detect the device during the connectivity phase, the device is treated as a guest device.

8.5.7 All new switches, new Access Points and existing HP Aruba 5400R switches with v3 modules must have the ability to centrally define policies based on roles, and must be applied uniformly across the WLAN and LAN. This eliminates the need to configure per-switch ACLs, VLANs and subnets.

8.5.8 The network solution must support network segmentation with no less than 20 VLANs per school.

8.5.9 The network solution must have the ability to dynamically place any client devices connected via WLAN on a new wireless access point, wired switch port on new switches or wired switch port on existing HP Aruba 5400R switches with v3 modules on a specified preconfigured VLAN, based on the solution's ability to identify a connected device based on any combination of the following parameters:

a) Device - specific traffic patterns learned via provided Netflow information
b) Device - specific WMI information
c) Device - specific SNMP information
d) TCP/UDP port scanning information
e) ARP information learned from campus switches
f) Values in DHCP Option 55
g) DHCP Option values
h) Fingerprint information provided by site access switches – LLDP, DHCP, HTTP, CDP
i) Vendor MAC address information
j) Device Category
k) Device OS family
l) Device OS name

8.5.10 The NMS/NAC must include a minimum of one (1) onsite, full-time staff augmentation resource for the first year to design, implement, train SBBC staff and manage the solution. The ability to maintain this resource must be provided after the first year only as a management / monitoring resource which will be at a lower skill-set and certified in the product. The cost for this full-time resource should be included in the proposed pricing model (Sec Orch-Erate Ineligible tab). Pricing must include a flow collection software with cloud or on-premise pricing.

8.5.11 If the Sec Orch-Erate Ineligible Awardee is initially outsourced to SBBC, the Awardee must provide SBBC with an outsourcing price for informational purposes.

NETWORK SECURITY AUTOMATION, ORCHESTRATION (SEC ORCH – E-RATE INELIGIBLE) MINIMUM REQUIREMENTS

General and K12 Specific Design Criteria SEC ORCH design must consider the following K-12 environment specifics which exist in SBBC. SEC ORCH must be sized to support such peaks without noticeable delays on the user side.

A. At the conclusion of the school day, up to 85 percent of all devices are disconnected from the network and simultaneously reconnected to the network the next day, creating a noticeable peak activity time at the beginning of the day for protocols responsible for device attachment to the network.

EXHIBIT 1

B. The solution must support an environment where thousands of devices simultaneously wake up from sleep mode and cause noticeable peak activity for protocols responsible for device attachment to the network.

C. The five (5) year projection is 660,000 devices. Due to known peaks 80% from the total amount of devices must be used as the maximum supported concurrent session's number in a proposed SEC ORCH. Within the next 3-5 years, 528,000 devices must be used as the maximum supported concurrent session number in a SEC ORCH solution.

D. SBBC's three (3) year projection for unmanaged District-owned devices, which may not support 802.1x and require advanced mechanism of device identification is 115,000 devices. The five (5) year projection is 140,000.

E. SEC ORCH may be either hardware appliances or virtual deployment running on VMware ESXi 6.5+. Proposers offering virtual deployment must not include compute resources cost in the price, but must include compute resources requirement information needed to run the solution. **Note:** SEC ORCH can be cloud-based.

NETWORK SECURITY AUTOMATION, ORCHESTRATION (SEC ORCH) General Requirements

8.5.81 SEC ORCH equipment manufacturer must be the same manufacturer as the equipment proposed for Wired or Wireless Networking Equipment.

8.5.82 The SEC ORCH equipment manufacturer must be recognized by Gartner as a Leader in the Wired and Wireless LAN Access Infrastructure category for either 2018, 2019 or 2020 year reports which must be available to validate at time of release of RFP, and provide documentation of this designation to SBBC.

8.5.83 SEC ORCH must be designed not to experience over 30 seconds service interruption if a single server or component fails or stops functioning. Service or role recovery must occur automatically during component failure.

8.5.84 SEC ORCH must be designed not to lose more than 20% in required sizing variables if a single server or component fails or stops functioning. For example - if the maximum concurrent sessions number supported by the proposed SEC ORCH is 530,000, then during a single component failure, the solution must still support 424,000 concurrent sessions.

8.5.85 All new network switches and wireless access points must be able to be fully pre-configured before deployment in SEC ORCH. During physical deployment, the device which is configured for the DHCP IP address must pull individual specific configuration from SEC ORCH over the network and become fully functional without the installation team performing additional configuration steps.

8.5.86 All new network switches and all new wireless access points must support a self-provisioning deployment (a minimum configuration is placed on the switch, which allows the switch to contact SEC ORCH for the remaining configuration). Devices are to be pre-configured in SEC ORCH before deployment and automatically pull configuration from the central management solution during the first connection to the SBBC network.

8.5.87 SEC ORCH must support PEAP EAP-MSCHAPv2, EAP-TLS, PAP EAP-GTC, EAP-TTLS and EAP-GTC methods.

8.5.88 SEC ORCH must support the mechanism to dynamically update an active client session with a new user policy that is sent in RADIUS packets (such as Change-of-Authorization attribute).

8.5.89 In order to dynamically place some District-owned devices, which are not supporting 802.1x on needed network segment, SEC ORCH must have a traffic pattern learning mechanism that is based on the flow collection method, and the ability to make decisions based on identified traffic patterns.
For example, some Interactive Monitors used in education have an Android-based OS, but must be separated from regular Android-based smartphones, based on traffic from them to specific centralized cloud-based management system. The proposed SEC ORCH must be able to accomplish such a task, and place devices correctly on the proper network segments. SEC ORCH can utilize either an existing SBBC flow solution or have a flow collector as part of SEC ORCH. SBBC's three (3) year projection for total flows per second is 100,000. The five-year projection is 150,000 flows per second. This is critical for SBBC, as part of the compliance with this requirement, SBBC requires the Awardee to provide technical materials which show the technical details on how the recommended solution, SEC ORCH, will perform this task. Not providing said information may lead the technical committee to not have a clear understanding, which will result in a zero score.

EXHIBIT 1

8.5.90 Wireless guest solution must support true SMS messaging, which works without asking carrier information from guests.

8.5.91 SEC ORCH must be able to send a copy of Radius Accounting Information, which is received from existing and new switches and Access Points to an SBBC-owned security solution (FortiAuthenticator).

SEC ORCH Sizing Design Requirements: The Network Security Automation & Orchestration Solution sizing must be done based on the following metrics:

8.5.92 SEC ORCH must support up to 530,000 concurrent devices/sessions.

8.5.93 The solution design must have room for growth to later support up to 660,000 concurrent devices/sessions, by adding additional appliances or virtual hardware.

8.5.94 SEC ORCH must support up to 140,000 devices which do not support 802.1x, and will require an advanced method of identification.

8.5.95 The SEC ORCH component, which performs identification based on flows tracking information, must support up to 150,000 flows per second.

8.5.96 The solution must be able to centrally manage all existing and new Access Points and switches, while scaling to support up to 120% from the currently proposed amount of access points and switches by adding additional appliance or virtual hardware.

8.5.97 The solution must support automatic provisioning deployment for new Access Points with bulk information input for up to 200 new Access Points at a time.

Requirements for RADIUS Component of SEC ORCH

8.5.98 RADIUS Component of the solution must support up to the following amount of authentications per second for the different methods listed below:

a) Up to 3000 PAP EAP-GTC Active Directory authentications per second.
b) Up to 3000 PEAP Active Directory authentications per second.
c) Up to 2500 PEAP EAP-MSCHAPv2 Active Directory authentications per second.
d) Up to 3000 AP-TTLS EAP-GTC Active Directory authentications per second.
e) Up to 2500 EAP-TLS Active Directory authentications per second.

SEC ORCH Ability to Manage and Control Access on SBBC's Existing Network Switches

The proposed SEC ORCH must be able to perform the following functions with existing SBBC-owned HP Aruba 5400R switches with v3 modules.

8.5.99 SEC ORCH must be able to manage existing HP Aruba 5400R switches with v3 modules, so the SBBC team is able to deploy the same network access policies across the entire switching environment.

8.5.100 For 802.1x clients, SEC ORCH must be able to control the switch to the point of placing clients on a specific pre-configured VLAN, and change placement based on additional information collected by SEC ORCH later.

8.5.101 Based on an 802.1x client request and additional information, an HP Aruba 5400R switch with v3 modules can provide SEC ORCH, which must order switch which a preconfigured local user role client must be assigned. SBBC requires that user roles are centrally managed and downloadable from SEC ORCH, eliminating the need to preconfigure user roles at the switch level.

8.5.102 The proposed SEC ORCH must be able to perform the same functions as existing SBBC-owned Aerohive/Extreme Access Points models.

8.5.103 Based on 802.1x client request and by utilizing Radius Vendor Specific Attributes, SEC ORCH must order the Access Point to configure a wireless client based on a locally-configured user group.

EXHIBIT 1

SECTION 9 – Q&A

As stated in the opening letter for this RFP, SBBC is including some of the vendor questions and SBBC answers from the previous bid (FY21-180) below. SBBC answers below are binding and Section 9 supersedes all other sections within this RFP in the event of a conflict.

- **QUESTION #1:** The next generation of the 5400 series, is the CX 6400 line. Aruba Networks highly suggests customers consider the CX 6400 series instead of the 5400 series. Due to the more modern and robust feature set would the district like to see pricing on the new CX6400 series?

  ANSWER TO QUESTION #1: The District prefers chassis-based, therefore either of the two listed above are technically acceptable.

- **QUESTION #2:** Based on the longevity of the contract, (5 1/2 years, plus the option of 2 ½ years of extensions), will price increases for labor and/or materials be allowed per year?

  ANSWER TO QUESTION #2: No. Please see RFP Section 3.4 for price adjustments and 3.3 for the correct contract term.

- **QUESTION #3:** On the Request for Proposal sheet, you state to include a PDF version of the proposal on a flash drive. Do you want the pricing spreadsheets in Excel format and PDF, or just PDF?

  ANSWER TO QUESTION #3: Include both in Excel (on flash drive) and a printed copy with your proposal.

- **QUESTION #4:** UPS section – Limited Lifetime that is for the UPS and NOT the battery, Correct? Battery is a consumable in UPS's

  ANSWER TO QUESTION #4: See RFP Section 8.5.60, which addresses the UPS battery.

- **QUESTION #5:** All maintenance for all Software and Hardware is 5 years. Correct?

  ANSWER TO QUESTION #5: Yes, the Wireless and/or Network Security Automation, Orchestration (Sec Orch) specify 5 years.

- **QUESTION #6:** What manufacture of UPS do you currently use?

  ANSWER TO QUESTION #6: APC or Liebert

- **QUESTION #7:** Approximately what percentage of UPS units are installed in 2 post vs 4 post racks.

  ANSWER TO QUESTION #7: The vast majority are 2 post with an extremely low amount of 4 post.

- **QUESTION #8:** What is BGP function in the network? Edge MPLS and internet only? Internal route propagation?

  ANSWER TO QUESTION #8: Border Gateway Protocol (BGP) is to propagate reachability information through the entire network – both external and internal.

- **QUESTION #9:** In some of the switch requirements in both the spreadsheet and the RFP, there are requirements for an *"Extra Management Module."* Since the second module is non-active (passive / stand-by) it is not e-ratable (i.e. cell B81 in **Type 1** tab) will SBBC be issuing a new XLS spreadsheet removing the extra module requirement from all of the configurations? We noticed the part is already included on the "Current Part List?"

  ANSWER TO QUESTION #9: SBBC will accept chassis-based switches or switch stacks without redundancy in management function "only if" switches proposed for closets with over 80 POE port requirements will have ability to add redundant management module. Price for additional management module is listed on "erate-Ineligible" tab in XLS spreadsheet.

- **QUESTION #10:** Regarding Section 8.3.2 TECHNOLOGY OBSOLESCENCE: Does SBBC expect the Awardee to physically replace any equipment that has been discontinued for sale but is still supported with hardware and software updates or does SBBC mean that the awardee must make available the replacement product as stated in section 8.3.5 for future purchases?

  ANSWER TO QUESTION #10: See revised RFP Section 8.3.2 and further explanation as follows: SBBC expects that network equipment manufacturer will release End of Life (EOL) Announcement at least 6 months prior to End of Sale (EOS) date and at least 5 ½ years from End of Life / End of Support

EXHIBIT 1

(EOL/EOST) date. SBBC expects that after EOL Announcement date all new SBBC orders for network equipment will not contain equipment listed in EOL Announcement and instead only contain alternative equipment which is similar or better in technical specifications, meet minimum requirements listed in this RFP which are applicable to a specific equipment and closet, have over 6 months prior to EOS date and at least 5 ½ years from EOL/EOST date. SBBC understand that sometimes direct line-by-line comparison is not possible between old and new network switches, but expect that such alternative new network switches will be proposed at same or higher discount level as network switches which are subject for replacement, so it will not cost SBBC more per closet than prices listed in this RFP for the same network closet type. SBBC expects that alternative new wireless access point will be proposed at the same or higher discount level as wireless access point which are subject for replacement, so it will not cost SBBC more per access point. If EOL Announcement occurs after network equipment was quoted, but before it was installed at SBBC site, such network equipment must be replaced before installation date to network equipment which is similar or higher in technical specifications, meet minimum requirements listed in this RFP which are applicable to a specific equipment and closet, and have over 6 months prior to EOS date and at least 5 ½ years from EOL/EOST date. Within the entire contract period, Awardee shall not quote or supply EOL/EOST within the 5 ½ years or EOS within 6 months of installation date at SBBC. In the event of the supplied network equipment being declared as EOL/EOST within the 5 ½ year or EOS within 6 months of installed date at SBBC by the Awardee, during the entire contract period, the Awardee must immediately replace such network equipment with network equipment which is similar or higher in technical specifications, meet minimum requirements listed in this RFP which are applicable to a specific equipment and closet, and have over 6 months prior to EOS date and at least 5 ½ years from EOL/EOST date.

- **QUESTION #11:** For the tab "Current Part List" is it for informational purposes only?

  ANSWER TO QUESTION #11: Yes

- **QUESTION #12a:** Do we have to satisfy all components on the 'current part list' to be compliant? (For example: the 300' patch cable is not a common part and is typically a drop cable.)

  ANSWER TO QUESTION #12a: Current part list is for "Informational Purposes Only", and it is beneficial for the Proposer to let SBBC know that they are able to fulfill all the parts on this list.

- **QUESTION #12b:** Can we use the Item Description field to describe different part numbers/description relevant to the solutions we are providing?

  ANSWER TO QUESTION #12b: Yes. That is its purpose.

- **QUESTION #13:** If it's found that the solution quoted in the response will not work as designed, will you hold the responding vendor financially responsible for all costs to make the responded solution work?

  ANSWER TO QUESTION #13: Yes. SBBC expects that Proposers are technical experts in solutions being offered. ALL minimum requirements listed in this RFP must be met by proposed solution and Awardee will be held financially responsible to modify and expand solution with technical elements and/or products needed to meet minimum requirements of this RFP and such modification and expansion must come at a zero $0.00 cost to SBBC.

- **QUESTION #14:** Will the awardee be responsible for managing pre-existing Aruba equipment, or will all equipment be replaced as part of this award?

  ANSWER TO QUESTION #14: SBBC manages all Network Switches and Wireless APs with in-house staff. The Awardee will be responsible for replacing any parts or network / wireless equipment that is still under Manufacturer Warranty (and within five years of installation). SBBC intends to maintain the existing infrastructure and will replace equipment as needed through attrition, based on the needs of SBBC.

- **QUESTION #15:** Is the "unit price installed" cell on each tab supposed to include installation services only?

  ANSWER TO QUESTION #15: "Unit price installed" cell does not include just installation services. This cell represents combined total price in single quantity equivalent for a particular piece of equipment or equipment bundle which includes cost of equipment itself together with installation services, mounting hardware, licenses, support subscriptions and other maintenance services, as well as anything else which is needed for this equipment to be functioning in SBBC environment for the duration of 5 years since installation date at the level listed in minimum requirements listed in this RFP. For the period of 5 years from date of installation date, SBBC will not spend any additional money on top of that listed in this cell to maintain and support this equipment.

- **QUESTION #16:** Is "unit price installed" full deployment services by the awardee, or just the physical racking and stacking of the equipment?

  ANSWER TO QUESTION #16: SBBC expects equipment to be installed and working on the SBBC Network. Installation services must include physical deployment and all needed configuration services on equipment itself, central management platform and SBBC network monitoring systems. At the end of deployment, equipment must be fully functioning, managed, and monitored in according to SBBC network management standards for newly deployed network equipment.

EXHIBIT 1

- **QUESTION #17:** Is the awardee responsible for adds, moves, and changes for the wireless, NMS, and switching for the duration of the contract?

  ANSWER TO QUESTION #17: Requirements are detailed within Section 8 – Scope of Work (closely review RFP Section 8.3). The remainder of the question is not specific enough to provide a response to.

- **QUESTION #18:** Is the awardee responsible for code upgrades for the duration of the contract?

  ANSWER TO QUESTION #18: No, but SBBC expects Awardee to work with manufacturer and SBBC to make recommendations based on security updates and critical firmware updates for SBBC In-house technology staff to perform tasks.

- **QUESTION #19:** Break / fix will be done by the OEM, but is it the awardee's responsibility to coordinate break/fix with OEM?

  ANSWER TO QUESTION #19: See RFP Section 8.3 - GROUP 1 & 2 REQUIREMENTS of the RFP

- **QUESTION #20a:** Is it SBBC's expectation that the awarded vendor will provide 1st line of support for the duration of the contract (5 ½ years), and coordinate all support tickets and repairs on NMS, wireless, and switching equipment for SBBC? If the answer is yes, this sounds like a managed service contract. If SBBC is not calling it managed services, what would SBBC say the difference is between what is expected of the vendor and a managed services contract?
  ANSWER TO QUESTION #20a: Awardee will not coordinate all support tickets on NMS, wireless, and switching equipment for SBBC or provide 1st line of support for equipment troubleshooting. Awardee is responsible for all procedures related to equipment repair and replacement after equipment which was in place less than 5 years since installation date was identified as failed by SBBC network team which will base troubleshooting process on equipment manufacturer best practices for troubleshooting. Please read 8.3-GROUP 1 & 2 REQUIREMENTS for additional information. SBBC network team will always do their best to minimize amount of false/positive situation when Awardee will be involved for equipment repair and replacement process.

- **QUESTION #20b:** To expand on that previous question, is the awarded vendor only used to install? And then once installed, SBBC will utilize the manufacturer for opening cases and repairs/replacements? For example, Cisco has what is called TAC support, which SBBC would have complete access to for repairs and replacements if Cisco was their OEM provider. For example, if there is an issue with a part, SBBC would be provided with online or phone support via TAC, to diagnose issues and determine a fix or replacement. We just want to make sure that as a responder/partner our services pricing that we add to the " unit cost installed" cell don't overlap with manufacturer standard support services, and effect the pricing. (the reason for these questions is the variance of install pricing from the lowest bidder and all other bidders in Round 1 of this RFP)
  ANSWER TO QUESTION #20b: Please read 8.3-GROUP 1 & 2 REQUIREMENTS and answer to above question. SBBC has an in-house centralized IT NOC staff who remotely monitors and supports the wireless and LAN network, but Awardee ill handle repair and replacement of faulty equipment.

- **QUESTION #21:** In Section 8.5.4 Repairs, you state that the "awardee" after being notified, must have repairs started within 4 hours? Can this be performed by the winning OEM, not the awardee?
  ANSWER TO QUESTION #21: SBBC cannot dictate to the Awardee how to organize their support model. SBBC will contact the Awardee for repairs as stated in the RFP.

- **QUESTION #22:** Can the local repair station and local service facility be the OEM's?

  ANSWER TO QUESTION #22: See answer to question above.

- **QUESTION #23:** If responder is an SBBC certified vendor and we are filling in #00470, do we just state on the sheet 100% self-performing? Is that the only thing we need to do to fulfill the requirements and receive the full points available?

  ANSWER TO QUESTION #23: SBBC Certified MWBE Vendor/Proposers responding to this RFP must submit the Document 00470 and Document 00475 listing the Percentage and scope of work to be performed. Also, A Copy of the SBBC MWBE Certificate or SBBC Letter of M/WBE Certification must be included. Please refer to page 11 of RFP document that states that "M/WBE Proposer who are self-performing must identify themselves by completing Form 00470 and 00475. SBBC MWBE Certificate or SBBC Letter of M/WBE Certification must be included. The Statement of Intent submitted with the proposal reflects the intent to self-perform. Additionally, it will detail the scope of work and dollar. Forms 00470 and 00475 must be submitted with the bid/proposal".

- **QUESTION #24:** On the Sec-Orch tab, what term support and subscription is required for the "unit price without installation" (**cell G 10**), which correlates directly to a responders total price? Is it supposed to be a 1 year price? Or a 5 year price? SBBC asks "for informational purposes" the annual maintenance and subscription

EXHIBIT A

cost allocation for years 2, 3, 4 & 5 in the box right next to it, so it is confusing as to if cell **G10** should be filled in with a 1 year price or if it should be more. Exactly what term support and subscription should be filled in for **cell G10** on Sec-Orch tab so all responders are apples to apples?

ANSWER TO QUESTION #24: The term of support and subscription is the same with or without installation. SBBC wants to see the difference of price between installed and not installed. Both prices must include 5yr price with License, maintenance/support or subscription included. Cell "I9" is for SBBC to know the fractional price allocation for SBBC, on how much you are charging for years 2,3,4,5 for annual maintenance and support after 1 year for information purposes only.

- **QUESTION #25a:** SBBC specifies that all maintenance for SW and HW is for 5 years for Wireless and Sec Orch, but what about the switching? Does the 5 years also apply to the switching components?

  ANSWER TO QUESTION #25a: Yes

- **QUESTION #25b:** If so, does it also apply to services/support or licensing or both?

  ANSWER TO QUESTION #25b: Both

- **QUESTION #26:** On the Wireless tab **Cell J 14** Annual Maintenance and Subscription Price for Each Additional Year (Beyond initial term) What is the initial term length?

  ANSWER TO QUESTION #26: Prices must include 5-year License, maintenance/support or subscription. Cell "J14" is for SBBC to know the fractional price allocation for SBBC, on how much you are charging for years 2,3,4,5 for annual maintenance and support after 1 year for information purposes only.

- **QUESTION #27:** Will there be a negative scoring impact if non chassis-based is proposed?

  ANSWER TO QUESTION #27: Today, SBBC uses chassis-based and has had a good experience; and will score the solution based on many factors and not specifically on any specific one.

- **QUESTION #28:** The minimum discount tab (OTHER tab) added to the pricing workbook is very general and will be difficult to answer. Every product has different discount levels, and so does services. For example, a services discount average may by 10%, where a product discount is 65%. What would SBBC like to see in this cell, as we can only input one number? Or can a separate row be created for a services discount and then a separate row for HW discount, and a separate row for SW/Subscription discount?

  ANSWER TO QUESTION #28: The minimum discount in the example above is 10%. This item is for information purposes only and sets a base level.

- **QUESTION #29:** What is Flow Collection software on the Sec Orch tab?

  ANSWER TO QUESTION #29: As listed in RFP Sections 8.5.9 (a) and 8.5.89 The Network Security Automation, Orchestration solution must have the ability to make decisions based on identified traffic patterns. Flow Collection is a feature related to the solutions ability to collect and analyze traffic flow information. Today, SBBC has a Flow Collector solution in place, but SBBC welcomes responders to provide their own Flow Collector solution if needed as part of Network Security Automation, Orchestration solution or separately on Cell B12 on tab "Sec Orch" which can be used to separate the solution in case the Proposer wants to list it separately instead of including this feature in the bundle. Proposer must open bundle components in area below row 19. In any case this feature must be provided. As mentioned in the area title (row 7) all line items are presenting are a "Sample Design" only, so Proposers don't have to follow them in their design / recommendation and may utilize alternative items columns or specify zero price for this particular line item and specify in the "Notes" column that this line is not in use because feature provided as part of the bundle listed in other line. This component is very important for SBBC, and SBBC looks forward to responder to provide technical materials which describe technical details how suggested Network Security Automation, Orchestration solution will do this.

- **QUESTION #30:** Regarding Section 8.5.2 WARRANTIES…No separate extended warranty or special arrangement…: Some products do not come with the specified warranty by default though the manufacturer provides a commercially available warranty extension. Will this Manufacturer's extended warranty be accepted so long as it is part of their generally available warranty options and not a special offer?

  ANSWER TO QUESTION #30: It must be a Standard Manufacturer Warranty that is not a separate line item or have a separate cost.

- **QUESTION #31:** Regarding Section 8.5.3 CERTIFICATION(S): As written this would require the Awardee to support warranty work including RMA and truck roll for all aspects of the SBBC network including those items not covered under this proposed agreement. Please refine the scope of work intended to be covered under this requirement.

EXHIBIT 1

ANSWER TO QUESTION #31: Awardee is responsible for rolling the trucks 5 years from installation date, no matter in what year of the contract. Awardee is also responsible for currently installed network equipment which is under the 5 years of installation date. Awardee will not coordinate all support tickets on NMS, wireless, and switching equipment for SBBC or provide 1st line of support for equipment troubleshooting. Awardee will only be responsible for all procedures related to equipment repair and replacement after equipment which was in place less than 5 years since installation date was identified as failed by SBBC network team which will base troubleshooting process on equipment manufacturer best practices for troubleshooting. Please read 8.3 - GROUP 1 & 2 REQUIREMENTS for additional information. SBBC network team will always do their best to minimize amount of false/positive situation when Awardee will be involved for equipment repair and replacement process.

- QUESTION #32a: Regarding Section 8.5.60 UPS WARRANTY: This section requires that the awardee include battery replacements as a warranty item. While some UPS manufacturers classify their batteries in this way, others do not. Does this statement preclude proposing current SBBC UPS vendors if they do not warrant batteries for 5 years?

  ANSWER TO QUESTION #32a: SBBC will accept UPS BATTERIES for UPS devices listed on spreadsheet tabs Type1 to Type 20 to come with a standard manufacturer limited warranty of 3 years at ZERO cost. Additional 2 year can be added in the separate line items in the area below row 19 on "Sec Orch - Erate Ineligible" tab in the spreadsheet.

- QUESTION #32b: Regarding Section 8.5.60 UPS WARRANTY: Are replacement batteries considered an eligible Erate item?

  ANSWER TO QUESTION #32b: Replacement batteries service (outside of standard manufacturer warranty) is considered as Erate ineligible.

- QUESTION #33: Regarding PDU's: Are PDUs to be mounted horizontal or vertical?

  ANSWER TO QUESTION #33: Horizontally

- QUESTION #34: Regarding PDU's: Which type of PDU is preferred? Basic, Metered or Switched PDU?

  ANSWER TO QUESTION #34: SBBC requires rack mountable Metered or Switched PDUs. Power strips cannot be considered as substitute to PDU.

- QUESTION #35: Installation may require a complete shutdown of the UPS and connected load. Is an after-hours installation preferred or can a shutdown occur during normal business hours 7:30-3:30 Monday through Friday?

  ANSWER TO QUESTION #35: After hours or with permission from the school or Site Administration at an agreed time.

- QUESTION #36: Is there any existing, depleted equipment the installing technicians should remove and dispose of as part of the UPS installation service? If so, please provide details (model number, serial number, equipment type, weight, battery info.)

  ANSWER TO QUESTION #36: Awardee must remove old equipment as new becomes available to replace. Awardee will work with site regarding storage location of old equipment and comply with SBBC standard installation/removing procedures, including completion of SBBC paperwork. No disposal services are required, as there is a separate disposal service that SBBC has a contract with.

- QUESTION #37: Please provide details regarding school board-provided device configuration listed in 8.5.42. Is there equipment, other than the UPS units, the installing technicians will be responsible for migrating?

  ANSWER TO QUESTION #37: 8.5.42 pertains to basic configuration of the UPS provided by SBBC network team. If new UPS deployment is performed as a replacement task, Awardee will ensure all equipment connected to the old UPS must be migrated to new UPS during installation process. Also, part of UPS installation is to connect UPS to SBBC network and add new UPS in SBBC central management platform (if such exists for the UPS model) and network monitoring systems.

- QUESTION #38: Regarding Monitoring & Dispatch: Would The School Board of Broward County like to have included, as part of the bid, a service beyond the scope of a standard factory or extended warranty which would provide faster response to UPS / battery alerts, streamline communication so that it is direct with the UPS manufacturer, cover parts and labor for five years total, offer analytics to lead to predictive maintenance rather than reactive alert response? If yes, where do we submit?

  ANSWER TO QUESTION #38: Proposer may submit any additional service or items as a separate line item in the area below row 19 on "Sec Orch - Erate Ineligible" tab, in the spreadsheet.

EXHIBIT 1

- **QUESTION #39:** Are proposers allowed to submit 2 different proposals?

  ANSWER TO QUESTION #39: Proposers may submit as many different proposals as they want. Just submit the proposals separately and clearly identified to avoid confusion.

- **QUESTION #40:** Would the district be open to network topology modifications within each closet type to maximize value, resiliency, and performance?

  ANSWER TO QUESTION #40: SBBC will accept equivalent bids and Proposers should use the "alternative equipment" spaces in the tab to propose. All solutions must meet same minimum requirements listed in this RFP.

- **QUESTION #41:** Regarding 4.2.4 FOR ALL GROUPS: Does this apply to only for those responding with equivalent?

  ANSWER TO QUESTION #41: All Proposers must provide a minimum of three (3) customer references.

- **QUESTION #42a:** Regarding 7.23 – "actively marketed product" – please expand. Can respondent propose product that currently is not announced?

  ANSWER TO QUESTION #42a: No

- **QUESTION #42b:** Or not available?

  ANSWER TO QUESTION #42b: No

- **QUESTION #42c:** Must the product be commercially available at the time of bid submittal?

  ANSWER TO QUESTION #42c: Yes

- **QUESTION #43:** Will the District accept Electronic Signatures for forms and notarization -?

  ANSWER TO QUESTION #43: Yes

- **QUESTION #44:** Regarding 8.3.5 – how does this differ from 8.3.2?

  ANSWER TO QUESTION #44: 8.3.5 DISCONTINUATION AND SUBSTITUTION FOR RFP ITEMS, 8.3.2 TECHNOLOGY OBSOLESCENCE is a more robust explanation of 8.3.5. See answer to question #10 above for additional information.

- **QUESTION #45:** Regarding 8.5.35 – Is the intent of the user experience sensor to provide analytics of users currently connected to WLAN such as how long DNS resolutions took, how long DHCP took, etc? Or is the intent to provide an out of band sensor that has the capability to connect to the WLAN network and provide real time feedback of what a client would be experiencing by authenticating to the network and accessing network services?

  ANSWER TO QUESTION #45: SBBC wants to provide analytics of users currently connected to WLAN

- **QUESTION #46:** Regarding 8.5.67 The UPS device must support SNMPv3, SSH and SSL communications protocols. Since this contract does not go into effect January 2021, will the District accept the feature being available Jan/2021 and only in testing phase now?

  ANSWER TO QUESTION #46: Requirements must be available now, when the RFP was released.

- **QUESTION #47:** Regarding 8.5.68 The UPS device must have the ability to utilize RADIUS method of login authentication. Since this contract does not go into effect January 2021, will the District accept the feature being available Jan/2021 and only in testing phase now?

  ANSWER TO QUESTION #47: Requirements must be available now, when the RFP was released.

- **QUESTION #48:** It has been a policy of Broward School District Procurement that if the RFP stated, "must have" or "must do" (etc.) and it was not provided, it would be grounds for disqualification. Is this still the case? Or has the District relaxed that definition?

EXHIBIT 1

ANSWER TO QUESTION #48: Please see section 4.2, which specifies the grounds which cause Procurement to disqualify a proposal. No, the District has not relaxed on any. For Example, item 4.2.10 states: At the time of bid opening, Proposer must have a valid and current Florida State Specialty Contractor (low-voltage) license.. So, Proposers who do not have this license will be disqualified (for Group 1).

- **QUESTION #49:** Is there a matrix for scoring for "Experience and Qualification" and for "Scope of Work"? or is this purely subjective award of points by the evaluator?

  ANSWER TO QUESTION #49: A rubric may be supplied to the evaluators, but the only scoring requirement that evaluators must adhere to is the maximum point possible, as defined within the RFP.

- **QUESTION #50:** Are the evaluators responsible for ensuring the bids meet the technical requirements?

  ANSWER TO QUESTION #50: Yes, as stated in RFP Section 5.2, step 3.

- **QUESTION #51:** UPS section – Limited Lifetime that is for the UPS and NOT the battery-Correct? Battery is a consumable in UPS

  ANSWER TO QUESTION #51: See RFP Section 8.5.60 which addresses the UPS battery.

- **QUESTION #52:** Will SBC accept extended warranty to support the 5 yr Limited HW Warranty on UPS Batteries?

  ANSWER TO QUESTION #52: Yes, Proposer must validate the standard manufacturer warranty is 3 years and utilize the E-rate Ineligible section of the Excel spreadsheet.

- **QUESTION #53:** What manufacturer of UPS units were the specs based off of?

  ANSWER TO QUESTION #53: They are general UPS requirements from SBBC, not specific to any manufacturer.

- **QUESTION #54:** The UPS specs do not look like Liebert, please confirm.

  ANSWER TO QUESTION #54: Provider UPS specification requirements are based not on a specific manufacturer specification, but on common parameters for all UPS industry leaders. Values for technical parameters selected based on consideration that network equipment expands and is sensitive electronic equipment which requires appropriate power protection levels. Many UPS industry leaders have products which will meet the specification requirements.

- **QUESTION #55:** Does SBBC plan to procure Network Security Automation, Orchestration solution (Sec Orch Tab) in single purchase in a way it is listed in cell B10 based on Bill of Material listed below row 19? Or does SBBC planning to procure some separate components of Network Security Automation, Orchestration solution before other components?

  ANSWER TO QUESTION #55: SBBC is planning to procure Network Security Automation, Orchestration solution in different phase depending on the financial position of SBBC and if the components in the sections can be deployed to function in a phased approach, independently from each other. The first phase will include components of Network Security Automation, Orchestration solution which are required for deployment of the (with and without auto provisioning), management and maintenance for wired and wireless network equipment. Second phase will include remaining components of Network Security Automation, Orchestration solution which are required to build a solution based on minimum requirements listed in this RFP.

- **QUESTION #56:** In the XLS spreadsheet Sec-Orch tab on cell "B11" listed "One (1) Full Time Staff Augmentation Resource". Can you clarify in which tab we should list price for this item because installation terminology does not apply on this item?

  ANSWER TO QUESTION #56: Since installation does not apply on this item please list same price in both columns G and H.

- **QUESTION #57:** Please provide clarity on how important it is to add detailed Bill of Material in sections of XLS tabs dedicated for detailed information on bundle components. For ex. on the spreadsheet tab Sec-Orch area below row 19.

  ANSWER TO QUESTION 57: Since many of the items listed in the price section are bundles, it is important for responders to list bundle components in these sections. This will give SBBC evaluation team a good understanding to properly evaluate the suggested solution. The Committee will review and discuss all technical components of provided solution and score solutions based on understanding how suggested solution meets SBBC technical needs, in-house expertise and ability to effectively support the SBBC network environment. The Committee will prioritize responses which

EXHIBIT 1

provide detailed technical language in a clear manner, explaining all technical aspects of the suggested solution. The Proposer missing any technical information on the solution components, will lead the Committee to not be able to clearly understand the technical solution.

- **QUESTION #58:** On the tab "Sec Orch – Erate Ineligible" below row 19; according to the section title, is intended for the bundle components list. Also, this section lists other items such as: Wireless User Experience device – can you provide a clarity on this area and which items need to be listed in this area?

  ANSWER TO QUESTION #58: Since many of the items listed in the price section are bundles, it is important for Proposers to list bundle components in this section. This information will give the SBBC evaluation Committee information to help understand and evaluate suggested solution. Information in this section is also for "informational purposes only". Spreadsheet Tab "Sec Orch – Erate Ineligible" is intended for information on Network Security Automation, Orchestration Solution and also for information on all other Erate Ineligible items such as redundant power supplies, redundant management modules, etc … SBBC didn't create separate area on this tab for other erate ineligible items.

- **QUESTION #59:** On spreadsheet tabs Type 1 to Type 20, UPS devices listed with specific parameters for load, such as "1080-Watt 80% load". Are such parameters mandatory or provided as part of Sample Design?

  ANSWER TO QUESTION #59: The item descriptions and parameters are part of a "Sample Design – only", and parameters are listed in the minimum section requirements as mandatory to meet. Column notes can be used to provide comments on differences in values, as well as specific models with different descriptions. If UPS model is completely different such as model 2500 VA vs 2200 VA, please use Alternative Equipment fields to specify model and UPS information.

  For example –UPS devices of same model categories may have minor differences in maximum load value, so if equipment that this UPS is intended to support is less than 80% from that value of UPS, it will be an acceptable solution in this example.

- **QUESTION #60:** Will the district supplement the evaluation team's review the technical specifications?

  ANSWER TO QUESTION #60: The District is considering adding a technical consultant to provide a review/analysis of the technical responses, as is done with some other RFPs which have highly technical specifications. The consultant would provide an unbiased, factual review of technical response.

INSTRUCTIONS FOR CERTIFICATION – SUPPLEMENT FOR ATTACHMENT D

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
5. The prospective lower tier participant agrees by submitting this proposal that, must the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion-Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Non-procurement List (Telephone Number).
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntary excluded from participation in this transaction, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

ATTACHMENT G – EXCEL SPREADHSEETS

SPREADSHEET: Proposer **must** fill out the Excel attachments electronically. No handwritten summary sheets will be accepted. Complete the Excel files and submit in .xls type format with your proposal response on the flash drive.

This RFP contains two (2) groups. Each group has an accompanying Excel Spreadsheet available for download via DemandStar or the E-rate Productivity Center (EPC). Each spreadsheet contains multiple tabs. Carefully review each tab to ensure all required content is populated.

Proposers must submit pricing for all items requested. Failure to include a price offer for each and every item included on the pricing sheet will be construed by SBBC to indicate that the Proposer is unable to provide that item (with the exception as those identified as "for information purposes only"). Additionally, the omission of a price offer for any item listed on the pricing sheet will eliminate the possibility of scoring this Section equitably among multiple Proposers. For these two reasons, any proposal that does not contain a price offer for each line item listed, will result in a rejection of the entire proposal by SBBC as being incomplete and non-responsive. Cells marked "For Information Purposes Only" are not used for scoring purposes.

The quantities listed on the Excel pricing sheets are estimated quantities to be ordered throughout the contract period and are not a guarantee. Actual quantities ordered throughout the contract period may be greater or less than the estimates and shall be furnished at the fixed contract price. Purchases shall be requested as needed throughout the contract period and as few as one item each may be ordered at one time.

NOTE: Carefully review each tab to ensure all applicable spaces are completed. The following is a list of all tabs along with screenshots.

Pricing shall include both installed and non-installed options as indicated on the Excel pricing file.

FOR GROUP 1 (STRUCTURED CABLING): The following additional provision shall be added to Section 2 of the Agreement resulting from this RFP because the Awardee will need access to site maps:

In order to conduct the scope of work covered by the VENDOR's Agreement, the VENDOR has requested access to various SBBC documents ("SBBC Records") including, without limitation, certain documents that contain information relating to the security systems for property owned or leased by SBBC or that depict the internal layout and structural elements of SBBC-owned or leased buildings. All of VENDOR's records and notes regarding the work performed under the VENDOR's Agreement shall be referred to herein as "VENDOR's Documents."

The VENDOR hereby acknowledges that the SBBC Records and VENDOR's Documents are public records. Pursuant to Section 119.0701, Florida Statutes, VENDOR shall keep and maintain all public records required to perform the services required under this Agreement. The VENDOR acknowledges that VENDOR shall not release any SBBC Records or any VENDOR's Documents to anyone other than SBBC's Superintendent of Schools or to the designee of said Superintendent.

VENDOR shall immediately notify SBBC's custodian of public records of any request received by VENDOR from any third person for the inspection or copying of public records. The VENDOR shall not directly deliver any public records to any third person, but rather shall immediately provide SBBC's custodian of public records with copies of any public records that have been requested by any third party. VENDOR shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the VENDOR's Agreement's term and following completion of the VENDOR's Agreement if VENDOR does not transfer the public records to SBBC. Upon completion of the VENDOR's Agreement, VENDOR shall transfer, at no cost, to SBBC all public records in possession of VENDOR required to perform the services under the VENDOR's Agreement. Upon VENDOR's transfer to SBBC of all public records upon completion of the services required under the Consultant's Agreement, VENDOR shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. ADDENDUM NO. 1

RFP FY21-188

BID NAME: Structured Cabling & Enterprise Networking (E-rate)

TO ALL PROPOSERS:

Amend the above-referenced RFP in the following particulars only:

Attached are the responses to the questions received.

This Addendum is for informational purposes only and need not be returned with your proposal. By virtue of signing the "Bidder Acknowledgement", Section 1 of RFP FY21-188 Proposer certifies acceptance of this Addendum.

Sincerely,

Harmoni Clealand
Purchasing Agent IV

EXHIBIT 1

- **QUESTION #1:** How does 8.3.19 apply to Group 2? Permits are being pulled by Awarded Vendor in Group #1 for cables and closet electrical. What permits will be required for Group #2?

  ANSWER TO QUESTION #1: No permits have been required or pulled for APs, UPSs or Network equipment in the past five (5) years, but permitting requirements are set by others within the District and subject to change.

- **QUESTION #2:** Can we assume all the Q&A from FY21-180 were addressed in this version? Were all the corrections made? Can we assume the Answers are the same?

  ANSWER TO QUESTION #2: Yes, changes from FY21-180 have been incorporated in FY21-188. Most Q&A from FY21-180 was added to Section 9 of FY21-188. FY21-180 Questions that resulted in a correction to the RFP were omitted from Section 9 to avoid confusion since the update occurred in the RFP.

- **QUESTION #3:** Have there been any changes between network bid fy21-180 and the new one fy21-188?

  ANSWER TO QUESTION #3: FY21-188 includes the changes and updates accomplished by Addendums for FY21-180.

- **QUESTION #4:** Would SBBC consider an alternate solution proposal to include a service provider for managed internal broadband services that includes the operation, management and monitoring of the E-Rate eligible components of the District's LANs and Wireless LANs if it offered a superior value over the existing request for break/fix services enabling the district to Maximize Cat 2 E-Rate?

  ANSWER TO QUESTION #4: No

- **QUESTION #5:** Can SBBC please clarify if there will be negative scoring impact to a responder on the scope of work section if the proposed design does not fully comply or can only comply with "stated deviation"? For example, if we proposed a best practice solution that was different from the minimum requirements listed in the RFP but would save the school district money and still give them the functionality they want/need, would that solution be at risk for receiving a lower score?

  ANSWER TO QUESTION #5: See RFP Section 9, Answer to Question 57.

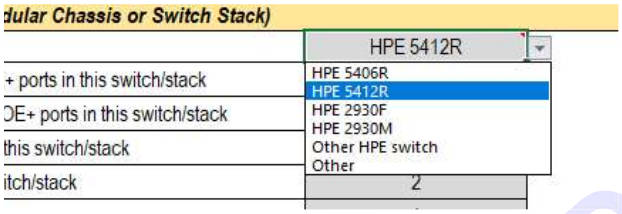
EXHIBIT 1

- **QUESTION #6:** Will points for the bid be deducted if an alternate solution is submitted, based on the specifications?

  ANSWER TO QUESTION #6: See RFP Section 9, Answer to Question 57.

- **QUESTION #7:** Based on the number of modules SBBC is asking for, Shouldn't Type 1 Closet Switch 1 should be a 5412R and that Type 17 Closet Switch 1 should be a 5406R?

  ANSWER TO QUESTION #7: Correct, Type 1 closet should be 5412R rather than a 5406R. Since this is a pull-down menu within the Excel spreadsheet, Proposers can make this change (see screenshot below). Type 17 closet was changed from a 5406R to a 5412R to comply with RFP Section 8.5.16.



- **QUESTION #8:** Will the "Current Parts List" be part of any of the scoring?

  ANSWER TO QUESTION #8: See RFP Section 9, Answer to Question #11.

- **QUESTION #9:** The following part numbers are End of Sale (EoS) in the "current parts list": Does SBBC want refurbished / used product quoted?
  J9550A
  J9537A
  J9536A
  J9534A
  J9535A
  J9538A
  J9731A

  ANSWER TO QUESTION #10: No. See section 7.23 of the RFP.

- **QUESTION #10:** I am writing to see if you have more than one of these out for bid. RFP-FY21-188-0-2021/HC and RFP-FY21-180-0-2021/HC.

  ANSWER TO QUESTION #10: FY21-180 was canceled. After the cancellation of FY21-180, the replacement, FY21-188 was released. FY21-188 is the only active bid currently for Structured Cabling & Enterprise Networking (E-rate).

EXHIBIT 1

- **QUESTION #11:** Is this a new or using the old RFP: FY21-039 Structured Cabling and Netwokring (E-rate)?

  ANSWER TO QUESTION #11: All bids for FY21-039 were rejected. RFP FY21-180 was subsequently issued to replace FY21-039 and then FY21-188 was issued to replace FY21-180.

This concludes Addendum No. 1 for RFP FY21-188 – Structured Cabling & Enterprise Networking (E-rate) – All other Terms and conditions Remain the Same.

This section shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until such time as any proceeding brought on account of this Agreement is barred by any applicable statute of limitations.

3.02 **No Third Party Beneficiaries**. The parties expressly acknowledge that it is not their intent to create or confer any rights or obligations in or upon any third person or entity under this Agreement. None of the parties intend to directly or substantially benefit a third party by this Agreement. The parties agree that there are no third party beneficiaries to this Agreement and that no third party shall be entitled to assert a claim against any of the parties based upon this Agreement. Nothing herein shall be construed as consent by an agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of any Agreement.

3.03 **Independent Contractor**. The parties to this Agreement shall at all times be acting in the capacity of independent contractors and not as an officer, employee or agent of one another. Neither party or its respective agents, employees, subcontractors or assignees shall represent to others that it has the authority to bind the other party unless specifically authorized in writing to do so. No right to SBBC retirement, leave benefits or any other benefits of SBBC employees shall exist as a result of the performance of any duties or responsibilities under this Agreement. SBBC shall not be responsible for social security, withholding taxes, contributions to

However, if said default cannot be cured within said thirty (30) day period and the defaulting party is diligently attempting in good faith to cure same, the time period shall be reasonably extended to allow the defaulting party additional cure time. Upon the occurrence of a default that is not cured during the applicable cure period, this Agreement may be terminated by the non-defaulting party upon thirty (30) days' notice. This remedy is not intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or future exercise thereof. Nothing in this section shall be construed to preclude termination for convenience pursuant to Section 3.05.

3.05 **Termination**. This Agreement may be canceled with or without cause by SBBC during the term hereof upon thirty (30) days' written notice to the other party of its desire to terminate this Agreement. In the event of such termination, SBBC shall be entitled to a *pro rata* refund of any pre-paid amounts for any services scheduled to be delivered after the effective date of such termination. SBBC shall have no liability for any property left on SBBC's property by any party to this Agreement after the termination of this Agreement. Any party contracting with SBBC under this Agreement agrees that any of its property placed upon SBBC's facilities pursuant to this Agreement shall be removed within ten (10) business days following the termination, conclusion or cancellation of this Agreement and that any such property remaining upon SBBC's facilities after that time shall be deemed to be abandoned, title to such property shall pass to SBBC, and SBBC may use or dispose of such property as SBBC deems fit and appropriate.

3.06 **Compliance with Laws**. Each party shall comply with all applicable federal, state and local laws, SBBC policies, codes, rules and regulations in performing its duties, responsibilities and obligations pursuant to this Agreement.

3.07 **Place of Performance**. All obligations of SBBC under the terms of this Agreement are reasonably susceptible of being performed in Broward County, Florida and shall be payable and performable in Broward County, Florida.

3.11 **Assignment**. Other than assignment by JDL to its parent (Communications Systems, Inc.) or a wholly owned subsidiary of its parent, neither this Agreement nor any interest herein may be assigned, transferred or encumbered by any party without the prior written consent of the other party. 3.13 **Severability**. In the event that any one or more of the sections, paragraphs, sentences, clauses or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable or void in any respect, such shall not affect the remaining portions of this Agreement and the same shall remain in full force and effect as if such invalid, illegal, unlawful, unenforceable or void sections, paragraphs, sentences, clauses or provisions had never been included herein.

3.14 **Preparation of Agreement**. The parties acknowledge that they have sought and obtained whatever competent advice and counsel as was necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to herein expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.

3.15 **Amendments**. No modification, amendment, or alteration in the terms or conditions contained herein shall be effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by each party hereto.

3.16 **Waiver**. The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement shall not be deemed a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. A written waiver shall only be effective as to the specific instance for which it is obtained and shall not be deemed a continuing or future waiver.

3.17 **Force Majeure**. Neither party shall be obligated to perform any duty, requirement or obligation under this Agreement if such performance is prevented by fire, hurricane, earthquake, explosion, wars, sabotage, accident, flood, acts of God, strikes, or other

labor disputes, riot or civil commotions, epidemics, pandemics, government regulations, and the issuance or extension of existing government orders of the United States, the State of Florida, or local county and municipal governing bodies, or by reason of any other matter or condition beyond the control of either party, and which cannot be overcome by reasonable diligence and without unusual expense ("Force Majeure"). In no event shall lack of funds on the part of either party be deemed Force Majeure.

3.18 **Survival**. All representations and warranties made herein, indemnification obligations, obligations to reimburse SBBC, obligations to maintain and allow inspection and audit of records and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds shall survive the termination of this Agreement.

3.20 **Counterparts and Multiple Originals**. This Agreement may be executed in multiple originals, and may be executed in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same Agreement.

3.21 **Authority**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

EXECUTIVE SUMMARY

Recommendation to Approve Additional Spending Authority
AGR25-084 - Barry University, Inc. Emergency Medical Technician (EMT)

Board Meeting Date: February 10, 2026

Requested Action:
Approve the Additional Spending Authority of $358,850 for the Agreement between The School Board of Broward County, Florida (SBBC), and Barry University, Inc. (Barry).

School Board Policy Requirement/Authority: Not Applicable

Statutory Requirement/Authority: Not Applicable

District-Zone Impact: District-wide

Impact if the Board Voted Yes or No
-If the Board votes "Yes": Enrollment capacity in the EMT Academy will expand to serve up to two hundred twenty-five (225) students, across ten (10) schools, providing significantly more students with access to EMT training and eligibility for the Florida EMT exam. This expansion will strengthen college and career readiness by aligning with state and local workforce demands in healthcare and emergency services.
-If the Board votes "No": Enrollment will remain limited to South Plantation High School, limiting student access to a high-demand program, reducing the District's ability to respond to increased demand from high schools, and constraining student opportunities for EMT licensure and related career pathways.

Background/History
The original agreement provided spending authority for one (1) school. Due to overwhelming student demand and strong school-level interest, SBBC now seeks approval for additional spending authority to expand access to nine (9) additional high schools. This expansion ensures equitable opportunities for students across the District to pursue healthcare pathways that lead directly into high-wage, high-demand fields.

Barry and SBBC will offer the current Emergency Medical Technician program at multiple high schools, including **Boyd Anderson High School, Charles Flanagan High School, Cooper City High School, Coral Springs High School, Deerfield Beach High School, Dillard 6-12 Magnet, Hallandale High School, Nova High School, and West Broward High School.** Additional spending authority is required to add the new schools requesting an addition to the program. This Agreement allows Barry to operate at multiple site locations and provides an opportunity for students to enroll in its Emergency Medical Technician program. Upon successful completion of the program, students will be qualified to take the State of Florida EMT Exam in compliance with Barry's licensure and accreditation with the State of Florida, Department of Health, and Bureau of Emergency Medical Services. The program prepares students for multiple career pathways, including employment as firefighter-paramedics, law enforcement officers, military service members, and emergency room technicians. Students gain both classroom instruction and hands-on clinical field experiences through Barry's established partnerships with fire departments, ambulance services, and hospitals across the region.

Agreement Term: December 17, 2024, through June 30, 2026; Emerging/Small/Minority/Veteran/Women Business Enterprise Vendor(s): None.

Alignment to 2027 Goals and Guardrails
Goal 4: College & Career Readiness
Guardrail 2: Equity

Measurable Outcome(s)/Return on Investment
Expanding the EMT Academy to the additional nine (9) schools will increase enrollment in a high-demand healthcare pathway, with more students becoming eligible for the Florida EMT certification exam. The program provides measurable workforce outcomes by preparing students with the skills and clinical experience needed for immediate employment or continued postsecondary study.

Financial Impact, Funding Source & Budget Status
The additional spending authority requested is $358,850. The new total award amount will be $447,000. This program is being funded by Career and Professional Education (CAPE) funding.

ACTION	BOARD DATE	Budgeted in Current FY Yes/No	Funding Source(s) and Code(s)	AMOUNT	TERM (months)
Agreement - original spending authority request	12/17/2024	Yes	CAPE Funds Fund: 1000	$88,150	18
Additional spending authority	2/10/2026	Yes	CAPE Funds Fund: 1000	$358,850 (FY25-26)	N/A
Total Agreement Amount				**$447,000**	**18**

The financial impact amount represents an estimated Agreement value; however, the amount authorized will not exceed the estimated Agreement award amount.

Multi-year agreement: Yes/No
Yes. The original Agreement is for eighteen (18) months from December 17, 2024, through June 30, 2026, with two (2) one (1) year renewal options. The total for eighteen (18) months is now $447,000. Pricing is based on a cost per student of $2150 for a Barry University Instructor, $1250 for a High school-provided Instructor, and assumes two hundred twenty-five (225) students.

Agreement Term: December 17, 2024, through June 30, 2026; Emerging/Small/Minority/Veteran/Women Business Enterprise Vendor(s): None.

Procurement Method:
Pursuant to Purchasing Policy 3800, and Section III, D and E, as authorized by Rule 6A-1.012 11(b) and 14, Florida Administrative Code, the requirement of requesting competitive solicitations from three or more sources is hereby waived for the purchase of educational services and any type of copyrighted materials, including, without limitation, educational tests, computer software, and information technology.

Impact on Schools:
Expands EMT program access, ensuring equitable opportunities for students across the District to pursue healthcare pathways that lead directly into high-wage, high-demand fields.

If there is an impact on schools, how will schools be selected/prioritized:
All high schools were given the opportunity to show interest in bringing this program to their schools. As the schools are incurring the cost of the program, there was no prioritization in school selection.

Stakeholder Engagement/End-User Input: All high school principals were surveyed in January of 2025 to determine interest in adding the Barry University EMT program to their course offerings. Ten (10) school principals responded and have added the programs.

EXECUTIVE SUMMARY

Recommendation to Approve Agreement with CEV Multimedia, LLC
AGR26-121 - CEV Multimedia, LLC (iCEV)

Board Meeting Date: February 10, 2026

Requested Action:
Approve the Agreement between The School Board of Broward County, Florida (SBBC), and CEV Multimedia, LLC (iCEV), and the spending authority of $1,200,000.

School Board Policy Requirement/Authority: Not Applicable

Statutory Requirement/Authority: Not Applicable

District-Zone Impact: District-wide

Impact of the School Board's Vote:
- If the School Board votes "Yes": Schools will continue to provide Career Technical Education (CTE) aligned online curriculum and certification opportunities through iCEV, ensuring students have access to high-quality instructional content and credentialing platforms that support college and career readiness.
- If the School Board votes "No": Students and teachers would lose access to the curriculum platform required to support numerous CTE programs and industry certification exams, impacting classroom instruction and student acceleration opportunities.

Background/History
iCEV is an online educational platform that delivers Career, Technical, Adult, & Community Education (CTACE) Department, Magnet, and Innovative curriculum programs District-wide. The curriculum aligns with the Florida Curriculum Frameworks and supports over one hundred thirty (130) career-themed courses for grades 6-12. Content is developed through collaboration with subject matter experts and educators.

iCEV provides teacher licenses for course access and serves as a testing platform for sixteen (16) career and industry certifications offered by twelve (12) industry partners.

Agreement Term: Board approval, through January 31, 2028; Small/Minority/Veterans/Women Business Enterprise Vendor(s): None.

Alignment to 2027 Goals and Guardrails:
Goal 4: College & Career Readiness
Guardrail 2: Equity

Measurable Outcome(s)/Return on Investment: The iCEV platform is expected to support more than 11,000 students annually, resulting in measurable increases in the number of industry certifications earned and improved acceleration rates District-wide. Student performance and certification data will be tracked through 2025–2026 to establish a year-over-year growth benchmark. In the 2024–2025 school year, the Ducks Unlimited Ecology & Conservation Certification had 3,895 student passers with a district pass rate of approximately 70%, generating an ROI of $1,947,500. The American Meat Science Association (AMSA) Food Safety & Science Certification had 179 student passers with a district pass rate of 60%, resulting in an ROI of $89,500. Together, these industry certifications provided significant acceleration opportunities and substantial Career and Professional Education Act (CAPE) funding returns for our district.

Financial Impact, Funding Source & Budget Status:
The total cost for this Agreement is $1,200,000 and is funded through CAPE funds.

ACTION	BOARD DATE	Budgeted in Current FY Yes/No	Funding Source(s) and Code(s)	AMOUNT	TERM (months)
Agreement - original spending authority request	2/10/26	Yes	Fund: 1000 Cost Center: 2715097810 Functional Area: 5652630620000000 G/L Account: 57330000	$1,200,000 (FY 25-26 $600,000) (FY 26-27 $600,000)	24
Total Agreement Amount				**$1,200,000**	**24**

The financial impact amount represents an estimated Agreement value; however, the amount authorized will not exceed the estimated Agreement award amount.

Multi-year agreement: Yes
Having a multi-year Agreement is beneficial because it provides pricing stability and predictability, which helps us plan budgets more effectively and avoid unexpected cost fluctuations. This approach also ensures continuity in service without the need for frequent renegotiations.

Agreement Term: February 10, 2026, through January 31, 2028, with the option to extend for two (2) additional one (1) year periods; Small/Minority/Veterans/Women Business Enterprise Vendor(s): None.

Procurement Method:
Pursuant to Purchasing Policy 3800, and Section 6A-1.012(11)(b), Florida Administrative Code, competitive solicitations are not required for the purchase of educational services and any type of copyrighted materials, including, without limitation, educational tests, textbooks, printed instructional materials, computer software, films, filmstrips, videotapes, DVDs, disc or tape recordings, digital recordings, or similar audio-visual materials, and for library and reference books, and printed library cards where such materials are purchased directly from the producer or publisher, the owner of the copyright, and exclusive agent within the state, a governmental agency, or a recognized educational institution.

Impact on Schools:
All middle and high schools offering CTE programs may access the platform, ensuring consistency in curriculum delivery and certification testing across the District.

If there is an impact on schools, how will schools be selected/prioritized:
There will be no prioritization needed, as all high schools, technical colleges, and non-traditional centers will have full access to the iCEV curriculum.

Stakeholder Engagement/ End-User Input:
A survey was conducted. Results indicate that over eleven thousand (11,000) students across Broward County are enrolled in Environmental Science courses that are linked to the iCEV industry certifications. This data will be used to determine the number of vouchers needed per school, support pacing recommendations, and ensure accurate distribution of resources to maximize certification success.

required to permit VENDOR to cure such default and no further responsibilities or duties for SBBC to perform under this Agreement. VENDOR agrees to indemnify and hold harmless SBBC, its officers and employees from any liability in the form of physical or mental injury, death or property damage resulting from VENDOR's failure to comply with the requirements of this section or with Sections 1012.32, 1012.465, 1012.467, and 1012.468, Florida Statutes. The contracting party shall name the party requesting the documents or materials as a defendant and will not name SBBC as a party to the action, but will provide SBBC with notice of such proceedings. The contracting party agrees to indemnify SBBC for any costs, expenses, and attorney's fees SBBC may incur with regard to any legal proceedings and judgments that may arise from the request for the contracting party's public records that are subject to claims of confidential or exempt status. A failure to timely initiate the legal action required by this paragraph is a waiver of any claim that the requested information is confidential and exempt from public disclosure. Accordingly, the parties agree that no deviation from the terms hereof is predicated upon any prior representations or agreements, whether oral or written.

3.10 **Binding Effect**. This Agreement is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns.

3.11 **Assignment**. Neither this Agreement nor any interest herein may be assigned, transferred, or encumbered by any party without the prior written consent of the other party. There shall be no partial assignment of interests under this Agreement including, without limitation, the partial assignment of any right to receive payments from SBBC.

3.12 **Captions**. The captions, section designations, section numbers, article numbers, titles, and headings appearing in this Agreement are inserted only as a matter of convenience, have no substantive meaning, and in no way define, limit, construe, or describe the scope or intent of such articles or sections of this Agreement, nor in any way affect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

3.13 **Severability**. If any one or more of the sections, paragraphs, sentences, clauses, or provisions contained in this Agreement is held by a court of competent jurisdiction to be invalid, illegal, unlawful, unenforceable, or void in any respect, such does not affect the remaining portions of this Agreement and the same remain in full force and effect as if such invalid, illegal, unlawful, unenforceable, or void sections, paragraphs, sentences, clauses, or provisions had never been included.

3.14 **Preparation of Agreement**. The parties acknowledge that they have sought and obtained whatever competent advice and counsel necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. 3.16 **Waiver**. The parties agree that each requirement, duty and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. Any party's failure to enforce any provision of this Agreement is not a waiver of such provision or modification of this Agreement unless the waiver is in writing and signed by the party waiving such provision. 3.18 **Rights and Remedies**. The duties and obligations imposed by this Agreement and the rights and remedies available thereunder are in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law.

3.19 **Survival**. All representations and warranties made herein, indemnification obligations, obligations to reimburse SBBC, obligations to maintain and allow inspection and audit of records and property, obligations to maintain the confidentiality of records, reporting requirements, and obligations to return public funds survive the termination of this Agreement.

3.21 **Counterparts and Multiple Originals**. This Agreement may be executed in multiple originals, and may be executed in counterparts, each of which is an original, but all of which, taken together, shall constitute one and the same Agreement.

EXECUTIVE SUMMARY

Resolution No. 26-126 – Energy Lease Purchase Financing #5

Board Meeting Date: February 10, 2026

Requested Action: Adopt Resolution No. 26-126 – Energy Lease Purchase Financing #5

School Board Policy Requirement/Authority: Not Applicable

Statutory Requirement/Authority: Not Applicable

District-zone Impact: District-wide

Impact of the School Board's Vote:

- If the School Board votes "Yes": This will allow the District to provide the financing structure required for Energy Lease Purchase Financing Schedule #5 (Phase V), which is accompanied by Procurement's February 10, 2026 RSBM agenda item OO-1. This item RR-1 is contingent upon approval of Procurement's February 10, 2026 RSBM agenda item OO-1. (This is the financing component of agenda item OO-1.)

- If the School Board votes "No": This will not allow the District to provide the financing structure required for Energy Lease Purchase Financing Schedule #5 (Phase V), which is required in conjunction with Procurement's February 10, 2026 RSBM agenda item OO-1. This item RR-1 is contingent upon approval of Procurement's February 10, 2026 RSBM agenda item OO-1.

Background/History: The original Master Energy Lease financing was approved in conjunction with Procurement's May 19, 2020 RSBM agenda item E-10. Recommendation for Master Services Contract for Guaranteed Energy Performance Contracting Services (Phase 1) with Johnson Controls, Inc (JCI). This was authorized by Section 1013.23 Florida Statutes, entitle "Energy Efficiency Contracting."

Energy Lease Purchase Financing #2 (Phase II) was approved in conjunction with Procurement's December 14, 2021 RSBM agenda item OO-1.

Energy Lease Purchase Financing #3 (Phase III) was approved in conjunction with Procurement's February 15, 2023 RSBM agenda item OO-3.

Energy Lease Purchase Financing #4 (Phase IV) was approved in conjunction with Procurement's July 23, 2024 RSBM agenda item OO-6.

The District unanimously approved the next phase of services (Phases V - IX). The Project Development Plan (PDP) entered into by the District and JCI approved by the Board on August 19, 2025 RSBM agenda item OO-18, allows JCI to perform work related to the installation of improvement measures, which shall reduce energy consumption and produce a cost savings at certain facilities.

Alignment to 2027 Goals and Guardrails: Business Operations

Measurable Outcome(s)/Return on Investment:
The Energy Lease Purchase Financing (ELPF) has a similar structure to the District's current master equipment lease with Banc of America Public Capital Corp (BAPCC) for the current lease financing technology, buses, vehicles, etc. (i.e., escrow agreement, master lease, lease schedules, etc.). The unique relationship between this financing and the guaranteed energy cost savings by JCI dictates that we utilize BAPCC for the ELPF.

The following terms were offered by BAPCC for ELPF #5:

- Fixed Rate
- 15 years
- 4.264% interest rate
- Amount of lease: $14,760,460

The interest rate received is competitive based on recent comparable transactions of similar size and terms. The District's long-standing partnership with BAPCC provides the District with the most favorable rates.

Financial Impact, Funding Source & Budget Status: Approximately $45,000 in Bond and Special Tax Counsel fees will be paid from the Treasurer's Office budget. Once Phases V construction is completed, the guaranteed utility savings is projected to offset or exceed the payments on this lease; therefore, making it a cost neutral or positive savings for the District.

NOW, THEREFORE, BE IT AND IT IS HEREBY RESOLVED by The School Board of Broward County, Florida as follows:

Section 1. **Findings and Determinations**. It is hereby found and determined that the terms of the Fourth Amended Energy Performance-Based Contract, Schedule No. 5 and the form of Payment Schedule, both attached thereto, and the Escrow Agreement in the forms presented to the Lessee at this meeting, are in the best interests of the Lessee for the acquisition financing and leasing of the Schedule No. 5 Equipment.

Section 2. Approval of the Fourth Amended Energy Performance-Based Contract. The form, terms and provisions of the Fourth Amended Energy Performance-Based Contract as provided therein are hereby approved in substantially the form presented at this meeting as **Exhibit A**, with such insertions, omissions and changes as shall be approved by the Superintendent of Schools of Lessee, the execution of such document being conclusive evidence of such approval; and the Chair of Lessee is hereby authorized and directed to execute, and the Secretary of Lessee is hereby authorized and directed to attest and countersign, the Escrow Agreement and to deliver the Escrow Agreement to the Energy Performance Contractor, and the Secretary of Lessee is hereby authorized to affix the seal of Lessee to such document.

Section 3. Approval of Schedule No. 5. Lessee hereby approves the execution of Schedule No. 5 for an amount not to exceed $14,760,460. The form, terms and provisions of the Master Lease, Schedule No. 5 and the Payment Schedule as provided therein, are hereby approved in substantially the form presented at this meeting as **Exhibit B**, with such insertions, omissions and changes as shall be approved by the Superintendent of Schools of Lessee, the execution of such document being conclusive evidence of such approval; and the Chair of Lessee is hereby authorized and directed to execute, and the Secretary of Lessee is hereby authorized and directed to attest and countersign, the Schedule No. 5 to the Master Lease and to deliver the Schedule No. 5 to the Master Lease to Lessor, and the Secretary of Lessee is hereby authorized to affix the seal of Lessee to such document.

Section 4. Approval of Escrow Agreement. The form, terms and provisions of the Escrow Agreement as provided therein are hereby approved in substantially the form presented at this meeting as **Exhibit C**, with such insertions, omissions and changes as shall be approved by the Superintendent of Schools of Lessee, the execution of such document being conclusive evidence of such approval; and the Chair of Lessee is hereby authorized and directed to execute, and the Secretary of Lessee is hereby authorized and directed to attest and countersign, the Escrow Agreement and to deliver the Escrow Agreement to the respective parties thereto, and the Secretary of Lessee is hereby authorized to affix the seal of Lessee to such document.

Section 5. Private Negotiated Financing. It is hereby found and declared that a private negotiated financing through the Schedule No. 5 of the Master Lease is in the best interest of Lessee and is found to be necessary on the basis of the following reasons, as to which specific findings are hereby made:

Due to (i) the volatility of the market for "annual appropriation" securities such as the Master Lease, (ii) the unique program of the Energy Performance Contractor under which energy savings will offset the cost of the Schedule No. 5 Equipment, (iii) the limited number of institutions engaged in the business of financing governmental equipment leases and the limited remedies under the Master Lease, the Lessee must be able to execute transactions at the most advantageous times, rather than at specific advertised dates, thereby permitting Lessee to obtain the best possible price and other terms for the Schedule No. 5 of the Master Lease.

Section 6. Other Actions Authorized. The officers and employees of Lessee including, without limitation, the Chair, Vice Chair, Secretary, Superintendent, the Chief Financial Officer, the Treasurer and the Office of the General Counsel are hereby authorized to take all action necessary or reasonably required by the parties to the Fourth Amended Energy Performance-Based Contract, the Schedule No. 5 to the Master Lease and the Escrow Agreement to carry out, give effect to and consummate the transactions contemplated thereby (including the execution and delivery of one or more Schedules of Property, Acceptance Certificates, Incumbency Certificates, Payment Schedules, Disbursement Requests and any tax certificates and agreements, as contemplated in the Master Lease) and to take all action necessary in conformity therewith, including, without limitation, the execution and delivery of any closing and other documents required to be delivered in connection with such documents.

Section 7. No General Liability. Nothing contained in this Resolution, the Fourth Amended Energy Performance-Based Contract, the Master Lease, the Escrow Agreement nor any other instrument shall be construed with respect to Lessee as incurring a pecuniary liability or charge upon the general credit of Lessee or against its taxing power, nor shall the breach of any agreement contained in this Resolution, the Fourth Amended Energy Performance-Based Contract, the Master Lease, Schedule No. 5, the Escrow Agreement or any other instrument or document executed in connection therewith impose any pecuniary liability upon Lessee or any charge upon its general credit or against its taxing power, except to the extent that the rental payments payable under the Master Lease are special limited obligations of Lessee, subject to annual appropriation as provided in the Master Lease.

Section 8. Appointment of Authorized Lessee Representatives. The Superintendent, the Chief Financial Officer and the Treasurer of Lessee are each hereby designated to act as authorized representatives of Lessee for purposes of the Master Lease and Schedule No.

5 until such time as Lessee shall designate any other or different authorized representative for purposes of the Master Lease.

Section 9. Severability. If any section, paragraph, clause or provision of this Resolution shall for any reason be held to be invalid or unenforceable by any court of competent jurisdiction, the invalidity or unenforceability of such section, paragraph, clause or provision shall not affect any of the remaining provisions of this Resolution.

Section 10. Repealer. All resolutions or parts thereof, inconsistent herewith, are hereby repealed to the extent of such inconsistency.

Section 11. Open Meetings. It is hereby found and determined that all formal actions of Lessee concerning and relating to the adoption of this Resolution and the consummation of the transactions contemplated by this Resolution, and all deliberations of Lessee that resulted in such formal action were adopted in compliance with all legal requirements, including, without limitation, the provisions of Chapter 286, Florida Statutes.

Section 12. Effective Date. This Resolution shall be effective immediately upon its approval and adoption.

Adopted this 10th day of February, 2026.

Lighting Inclusions:

1. Lenses and troffer pans of existing affected fixtures will be wiped down during installation. Fixtures that have been retrofitted with new TLEDs will receive a caution label identifying the fixture as a line voltage fixture.
2. Repair or replacement of damaged, cracked, missing, or yellowed lenses (not to exceed 200 pieces) for fixtures affected by the Scope of Work.
3. Maintenance stock of one and a half percent (1.5%) shall be provided for TLED tubes & LED lamps ONLY by JCI after completion of installation to help accommodate any warranty period failures. Manufacturer warranties of lamps and/or fixtures installed are covered by the individual manufacturers published policies and shall be transferred to the Customer. JCI shall provide contact information for each manufacturer. Alleged defective product may be required for return to factory for analysis.
4. Workmanship is warranted for one (1) year from date of installation.
5. Predominant types of tubular LED lamps (TLEDs) will have a five (5) year limited manufacturer warranty.
6. Predominant types of screw-in LED lamps are warranted for three (3) years by the manufacturer.
7. Predominant types of troffer retrofit kits are warranted for 10 years by the manufacturer.
8. Predominant types of sensors and control components are warranted for 5 years by the manufacturer
9. New fixtures warranties vary by manufacturer and will be provided in the Project IOM manuals.
10. In all cases, warranties shall be transferred to the Customer for customer to make warranty claims.
11. Existing lamps, ballasts and other materials will be removed from the site by JCI in accordance with Federal, State, and Local regulations in effect at the time of execution of the Agreement. Recycling of lamps and ballasts will be in compliance with applicable regulations existing at the time of execution of the Agreement.
12. JCI--acting as an agent for Customer--will ensure the proper disposal of hazardous waste generated during the installation of this FIM in accordance with the Federal, State, and Local laws and regulations in effect at the time of execution of the Agreement.
13. Design illumination levels: In the absence of code-mandated lighting requirements, industry standards have been used as a guide, primarily the 10th edition of the Lighting Handbook, published by the Illuminating Engineering Society of North America (IESNA), IESNA Recommended Practice documents and IESNA Design Guides.
14. Existing lighting systems were presumed to be designed based on IESNA recommended practices. In the event current light levels are above IESNA recommendations for the space type (i.e., over-lit), light levels will be reduced. In the event light levels are below IESNA recommendations for the space type, JCI will meet or exceed current light levels. If the space is under-lit due to inadequate spacing or quantity of fixtures from initial design, which requires adding fixtures, adding circuits, reconfiguration or new construction, this will be brought to the attention of the customer. LED fixtures or components specified for the project are based on comparable original lumen outputs of existing equipment rather than depreciated light output values.
15. Existing and post-installation illumination levels have been/will be measured in accordance with procedures recommended by IESNA using a calibrated light meter.
16. Photometrics will be provided for spaces per the building department requirements defined on 3-27-2024.
    Phase 5:
    - Gyms and parking lot lights submittals/photometric plans, will continue to be signed/sealed, prepared by a Professional Engineer.
    - For parking lot light submittals, Customer to provide information on parking lot lights indicating how they are controlled (EMS system, time clock or other).
    - Photometric plans for auditoriums, cafeterias, specialty areas (media centers, science labs, large classrooms/spaces), will be provided for each school.
    - Typical classrooms spaces photometric plans will be completed as in Phase 3 (Third Amendment).
    - Photometric plans for Covered Walkways showing both normal and emergency lighting.

General Lighting Exclusions:

1. Replacement or repair of concrete pole footings or rusted bolts on footings.
2. Existing light poles will be re-used. Repair of wiring to poles, if required, is not included.
3. Pole mounted lighting is reusing existing poles. Customer is responsible for pole maintenance, repair, and replacement throughout the term of the guarantee.
4. Lighting Poles will be checked for contact voltage. If any hazardous voltage is noted, work on that pole will be stopped and the customer and/or the utility company will be notified immediately to correct the fault before any work will be performed.
5. Existing task lighting and table type light fixtures unless specified in FIM-1 Appendix, room by room description of work.
6. Removal or replacement of ceiling tiles unless specified in FIM-1 Appendix, room by room description of work.
7. Existing decorative and stage light fixtures unless noted in FIM-1 Appendix, room by room description of work.
8. The addition of lighting fixtures in areas with existing illumination deficiencies is not covered under this scope of work unless otherwise noted in FIM-1 Appendix, room by room description of work. If foot-candle levels do not meet minimum standards, the customer will be notified.
9. Existing fluorescent dimming systems or fixtures will remain “as is” unless otherwise noted in FIM-1 Appendix, room by room description of work
10. Reconfiguration of existing fixture layout unless otherwise noted in FIM-1 Appendix, room by room description of work.
11. Replacement of existing wiring and/or electrical issues in exterior fixtures.
12. Existing fixtures that are not in a well-maintained condition including, but not limited to, rusted or embrittled in a manner which would impede retrofit.
13. Any electrical wiring other than that required for the retrofit or replacement within the existing lighting fixtures, the installation of new fixtures as scheduled, the installation of occupancy sensors and other controls.
14. Double or bi-level switching of in-board and out-board sockets is not included unless specified in FIM-1 Appendix, room by room description of work.
15. Repair, replacement and adjustments of existing sensors, time clocks, switches or energy management systems unless otherwise noted in FIM-1 Appendix, room by room description of work.

FIM–2: Water Conservation

This Scope of Work includes materials and labor for the following:

- This FIM will replace or modify specified existing fixtures at the Customer's schools with new water-efficient fixtures and/or fixture components. The intent of this measure is to reduce water consumption and wastewater production, as well as reduce heating energy used to produce hot water. The scope of work includes the one-for-one replacement of select existing sanitary fixtures in restrooms, or the retrofit of inefficient existing fixtures and valves to decrease water usage. Water fixtures will operate as before but consume less water.
- The Scope of Work summary table is presented below. For a by room fixture count please see *FIM-2 Appendix.*

Water Conservation Exclusions:

1. Repair or replacement of defective piping, isolation valves, or plumbing fixtures is not included unless otherwise specified in the Scope of Work;
2. Repair or replacement of inoperable or leaking water riser or isolation valves or repair or replacement of inoperable or leaking hot water circulating valves unless otherwise specified in the Scope of Work
3. Any conditions not meeting applicable codes or existing deficiencies in the Customer's plumbing system will be brought to the Customer's attention. Any work required to upgrade code violations or plumbing system deficiencies will be at an additional cost to the Customer.
4. It is the owner's responsibility to provide water pressure to all plumbing fixtures in the range of 25 to 85 psi. Deviations from this range will require installation of booster pumps or pressure reducing valves external to the scope of work provided.
5. Tile work, flange repairs, wall mount broken carriers, commercial angle-stop replacement, and floor or wall repairs are not included unless otherwise specified in the Scope of Work. This SOW includes up to 5% (8 total for this SOW) of the floor mounted flanges to be replaced as needed. Above this percentage will be performed at additional cost as required.
6. It is the owner's responsibility to ensure that plumbing infrastructure flow capacity (i.e. the ability for the water supply to meet peak demands of water use) is adequate to support a high efficiency plumbing fixture retrofit. Additionally, liability for water hammer and other infrastructure related conditions are excluded from this scope of work. Should such conditions be identified or arise, we will work with customer and/or Johnson Controls to provide potential solutions that would require a change order to this scope of work.
7. The responsibility for repair of defective, previously damaged, degraded, or faulty infrastructure related to water supply or sanitary drain lines is not included. The scope of work begins at the angle stop and ends at the flange connections of toilets, urinals and sinks. Any repairs outside of this scope of work are to be addressed by owner or by change order.
8. Painting, tile work, and wall repair outside of footprint related patching are excluded from our price. Pre-existing damage to walls or flooring will be brought to the attention of customer and/or Johnson Controls and the best course of action will be determined. Johnson Controls will repair any damages caused by the installations. Johnson Controls will attempt to match the existing conditions, but where unique tile or paint is present it may require the Customer to supply material.
9. Installation beyond the plumbing fixtures described in the scope of work contained herein
10. Repair of existing faucets, sinks, shower handles, valves and sink basins or leaks
11. Prior to construction, the owner will identify isolation valves. Isolation valves should be in working order, failed valves are the owner's responsibility to repair or replace.
12. Replacement of angle stops for flush valves associated with toilets and urinals will be replaced completely. All other angle stops will not be replaced as part of this SOW.
13. Replacement or modification of existing floor and wall coverings
14. Any and all ADA bathroom partitions, grab bars, extensions, sink faucet actuators, piping insulation, or other ADA requirements are hereby excluded from this proposal. JCI does not take responsibility for any existing or future ADA compliance issues and if required to modify bathrooms or fixtures to meet an ADA code this will be completed for an additional cost.

FIM–3: Compactors

This Scope of Work includes design, materials and labor for the following:

- This FIM will provide and install new commercial roll on/roll off compactors at the customer schools. The intent of this measure is to reduce operational costs related to the existing commercial dumpsters and SOMAT machines that are currently used at each school.
- The schools that will receive new compactors are
    - Attucks MS
    - Bair MS
    - Croissant Park ES
    - Falcon Cove MS
    - Lakeside ES
    - Lauderhill 6-12
- The scope of work for the compactors is detailed in design drawings in FIM-3 Appendix: 50% Compactor Construction Documents
    - Construction Documents to be completed for permitting upon project execution.
    - Surveys of area being improved
    - Ground Penetrating Radar (GPR) of areas being improved.
- Removal of fluids from grease trap system (one time) during installation of piping connections.
- Training on compactor operation and waste collection service changes will be provided for up to eight hours and scheduled with school staff for each site.
- Scope of Work Overview by School

School	Scope Category	Description

Non-Measured Operational and Maintenance(O&M) Benefits Details

FIM-1: Lighting Material Savings

Customer will see a reduction in the cost of lighting materials as a direct result of the implementation of FIM-1. O&M cost avoidance for lighting materials derive from the installation of new lighting equipment which include cost avoidance from reduced expenses for lamps and ballasts realized as a result of the replacement of existing fluorescent lamps with LED lamps and the elimination of existing ballast materials. LED lamps have longer rated lives with warranties as indicated in the warranty submittal.

Material savings were calculated by the following equations:

Material Savings (Project Term)
Lamp Unit Cost per Hour = Average Lamp Cost ÷ Average Lamp Life.
Ballast Unit Cost per Hour = Average Ballast Cost ÷ Average Ballast Life.
Existing Annual Lamp Material Cost = Existing Burn Hours × Quantity of Lamps × Lamp Unit Cost per Hour.
Existing Annual Ballast Material Cost = Existing Burn Hours × Quantity of Ballasts × Ballast Unit Cost per Hour.
Proposed Annual Lamp Material Cost = Existing Burn Hours × Quantity of Lamps × Lamp Unit Cost per Hour.
Proposed Annual Ballast Material Cost = Existing Burn Hours × Quantity of Ballasts × Ballast Unit Cost per Hour.
Proposed Annual Material Cost = Proposed Burn Hours × ((Quantity of Lamps × Lamp Unit Cost per Hour) + (Quantity of Ballasts × Ballast Unit Cost per Hour)).

Annualized Project Term Material Savings = ((Project Term × (Existing Annual Lamp Material Cost + Existing Annual Ballast Material Cost)) - ((Project Term - Proposed Lamp Warranty Period) × Proposed Annual Lamp Material Cost) + ((Project Term - Proposed Ballast Warranty Period) × Proposed Annual Ballast Material Cost))) ÷ Project Term.

This O&M cost avoidance derives from a reduction of repair materials for the FIM-2 fixtures that are listed for replacement or upgrade. The new fixtures will have warranties as indicated in the warranty submittal.

Material savings are summarized by site in the following table:

These savings are determined based on the following:

FIM-3: Compactors - SOMAT machines O&M Savings

The customer shall see a reduction in the cost of repair materials for existing SOMAT pulping machines as a direct result of the implementation of FIM-3. This O&M cost avoidance derives from an elimination of repair costs for the FIM-3 sites listed for compactor installations. The SOMAT repair savings were derived from information provided by Environmental Conservation/Utility Management group on the existing cost of SOMAT machines throughout the district.

Repair savings are summarized per site in the following table:

FIM-1: HVAC Impact - Interior Lighting Savings

Additional electrical savings will be achieved because the reduced lighting load will in turn reduce cooling loads at the facilities. Heating loads will similarly increase. These impacts were calculated using Rundquist Method: (HVAC Impact: Cooling Benefit - Heating Penalty).

Fraction of Lighting Savings as Air Cooling Savings = A × B ÷ C.
Where: A = Fraction of Year of Cooling Season, Estimated at 0.96.
B = Fraction of the Lighting Load met by Mechanical Cooling (87%).
C = Cooling system's coefficient of Performance; Average of 2.7.

Extra Heat required (BTU) = D × E × F ÷ G
Where: D = Heating Season = 1 - A.
E = Fraction of the Lighting Reduction that has to be made up by heating. A portion of the lighting heat is released at night. Estimated at 0%.
F = Annual BTU Equivalent of Lighting Saved. Annual Saved kWh × 3414 = BTU.
G = Seasonal Heating Efficiency estimate of basic efficiency of heating system, assumed 100%.

Interactive HVAC Net Benefit/Penalty = Annual kWh Savings × Fraction of Lighting Savings as Air Cooling Savings) - (Extra Heat Required × Average Fuel Rate per BTU).

NOTE: The HVAC savings only applied to lighting retrofits in the conditioned spaces.

*Per SPC 75S SOMAT Manual (Included in Appendix 3)

Customer agrees that the Non-Measured Project Benefits are reasonable and that the installation of the Improvement Measures will enable Customer to take actions that will result in the achievement of such Non-Measured Project Benefits.

III. MEASUREMENT AND VERIFICATION METHODOLOGIES

The following is a brief overview of the measurement and verification methodologies applicable to the Improvement Measures set forth below. JCI shall apply these methodologies, as more fully detailed in the guidelines and standards of the International Measurement and Verification Protocol (IPMVP) in connection with the provision of M&V Services hereunder.

Option A
Retrofit Isolation: Key Parameter Measurement

Measured Project Benefits are determined by partial field measurement of the energy use of the system(s) to which an Improvement Measure was applied separate from the energy use of the rest of the facility.

Partial measurement means that some but not all parameters will be measured. Careful review of the design and installation of Improvement Measures is intended to demonstrate that the stipulated values fairly represent the probable actual values. Agreed-upon values will be shown in the measurement and verification plan. Engineering calculations using measurements and stipulations are used to calculate Measured Project Benefits for the duration of the Guarantee Term.

Measured Project Benefits from the following Improvement Measures will be calculated using Option A:

FIM-1 - LED Lighting Upgrades
FIM-2 – Water Conservation
FIM-3 - Compactors

Option B
Retrofit Isolation: All Parameter Measurement

Measured Project Benefits are determined by field measurement of the energy use of the systems to which an Improvement Measure was applied separate from the energy use of the rest of the facility. Short-term, long-term or continuous measurements are taken throughout the pre and post-retrofit periods. Engineering calculations using short term, long-term or continuous pre and post-retrofit measurements are used to calculate the Measured Project Benefits for the duration of the Guarantee Term.

Measured Project Benefits from the following Improvement Measures will be calculated using Option B:

None

Option C
Whole Facility

Option C involves use of utility meters or whole building sub-meters to assess the energy performance of a total building. Option C assesses the impact of any type of Improvement Measure, but not individually if more than one is applied to an energy meter. This option determines the collective Measured Project Benefits of all Improvement Measures applied to the part of the facility monitored by the energy meter. Also, since whole building meters are used, Measured Project Benefits reported under Option C include the impact of any other change made in facility energy use (positive or negative).

Measured Project Benefits from the following Improvement Measures will be calculated using Option C:

None

Option D
Calibrated Simulation

Option D involves the use of computer simulation software to predict energy use. Such simulation model must be "calibrated" so that it predicts an energy use and demand pattern that reasonably matches actual utility consumption and demand data from either the base-year or a post-retrofit year.

Option D may be used to assess the performance of all Improvement Measures in a facility, akin to Option C. However, different from Option C, multiple runs of the simulation tool in Option D allow estimates of the Measured Project Benefits attributable to each Improvement Measure within a multiple Improvement Measure project.

Option D may also be used to assess just the performance of individual systems within a facility, akin to Options A and B. In this case, the system's energy use must be isolated from that of the rest of the facility by appropriate meters.

Measured Project Benefits from the following Improvement Measures will be calculated using Option D:

None

CHANGES IN USE OR CONDITION; ADJUSTMENT TO BASELINE AND/OR ANNUAL PROJECT BENEFITS

Customer agrees to notify JCI, within fourteen (14) days, of (i) any actual or intended change, whether before or during the Guarantee Term, in the use of any facility, equipment, or Improvement Measure to which this Schedule applies; (ii) any proposed or actual expansions or additions to the premises or any building or facility at the premises; (iii) a change to utility services to all or any portion of the premises; or (iv) any other change or condition arising before or during the Guarantee Term that reasonably could be expected to change the amount of Project Benefits realized under this Agreement.

Such a change, expansion, addition, or condition would include, but is not limited to:(a) changes in the primary use of any facility, Improvement Measure, or portion of the premises; (b) changes to the hours of operation of any facility, Improvement Measure, or portion of the premises; (c) changes or modifications to the Improvement Measures or any related equipment; (d) changes to the M&V Services provided under this Agreement; (e) failure of any portion of the premises to meet building codes; (f) changes in utility suppliers, utility rates, method of utility billing, or method of utility purchasing; (g) insufficient or improper maintenance or unsound usage of the Improvement Measures or any related equipment at any facility or portion of the premises (other than by JCI); (h) changes to the Improvement Measures or any related equipment or to any facility or portion of the premises required by building codes or any governmental or quasi-governmental entity; or (i) additions or deletions of Improvement Measures or any related equipment at any facility or portion of the premises.

Such a change or condition need not be identified in the Baseline in order to permit JCI to make an adjustment to the Baseline and/or the Annual Project Benefits. If JCI does not receive the notice within the time period specified above or travels to either Customer's location or the project site to determine the nature and scope of such changes, Customer agrees to pay JCI, in addition to any other amounts due under this Agreement, the applicable hourly consulting rate for the time it took to determine the changes and to make any adjustments and/or corrections to the project as a result of the changes, plus all reasonable and documented out-of pocket expenses, including travel costs. Upon receipt of such notice, or if JCI independently learns of any such change or condition, JCI shall calculate and send to Customer a notice of adjustment to the Baseline and/or Annual Project Benefits to reflect the impact of such change or condition, and the adjustment shall become effective as of the date the change or condition first arose. Should Customer fail to promptly provide JCI with notice of any such change or condition, JCI may make reasonable estimates as to the impact of such change or condition and as to the date on which such change or condition first arose in calculating the impact of such change or condition, and such estimates shall be conclusive.

Description of Measurement and Verification Methodologies by FIMs:

FIM-1: LED Lighting Upgrades

Option A: Measurement and Verification Plan for Interior Lighting Improvements

The savings associated with this FIM will be verified using IPMVP Core Concepts, EVO 10000 -1:2016, Option A, Retrofit Isolation with Key Parameter Measurement. The savings for this FIM are generated through a reduction in energy used by the lighting system; therefore, the measurement boundary is the lighting system itself.

Key Parameter	Measurement Frequency	Measurement Description
Pre- and Post-retrofit Fixture Power Draw (kW)	One-time	The pre-retrofit power draw on a sample of fixtures meeting the 80/20 sampling plan – assuming a coefficient of variance of 0.5 – has been measured using a true RMS meter during the Phase 5 Development audit phase between 11/18/2025 and 11/20/2025. Fixtures with similar lamps and ballasts, counts and types were grouped together with a lamp/ballast code. Measured wattages were used when possible. In some situations, such as when a certain type of lighting fixture was not available by itself on a switch, typical wattages as published by ANSI (American National Standards Institute) were used. The post-retrofit wattage of the impacted fixtures will be measured one time on a sample of fixtures meeting the same sampling criteria. The savings will be updated.
Estimated Parameter	**Assumed Value**	**Justification, Source and Description**
Burn Hours	Refer to the table below	The existing lighting burn hours for a sample of space types meeting the 80/20 sampling plan – assuming a coefficient of variance of 0.5 were measured. Data loggers were installed from 02/17/20 through 03/06/20 during the Phase 1 project. It is agreed that this time period represents typical usage for the lighting systems. In some situations where occupancy loggers were not possible to deploy, auditing efforts support defined values with local customer interview as source of data. The measured burn hours were then extrapolated to annual burn hours by multiplying the measured hours by the ratio of weeks that school is in session to measured weeks. The hours were then averaged by space type. The table below shows the average annual baseline burn hours by space type. These values will not be measured again.
Coincident Factor	Refer to the table below	The coincident factor is estimated based on the number of fixtures in a given space type that were estimated to be operating at the same time during the on peak period and is agreed to remain at the same value after the retrofit. The coincident factors by room/space types are as listed in the table below with pre and post burn hours.

Following table summarizes existing fixture codes and corresponding average power draws.

Performance Period M&V Activities:

- Onsite visual Inspections in random samples of approximately 5% (maximum) of this FIM's Scope of Work annually in no more than five affected schools per year to verify operating conditions.
- Review and inspect O&M Records provided by customer during each performance year.
- Review and verify product specifications for replaced equipment during the project's guarantee period.

- Update annual savings calculations and reconciliation in annual M&V value report.

Equations for Calculating Lighting Retrofit Savings

Demand (kW)

$$Connected\ kW\ Saving = \sum_u [\ (kW/Fixture_{baseline} \times Quantity_{baseline} - kW/Fixture_{post} \times Quantity_{post})]_{t,u}$$

$$Actual\ kW\ Savings = \sum_u [\ Connected\ kW\ Savings_u \times Coincident\ Factor_u]_{t,u}$$

where:

$kW/fixture_{baseline}$=	lighting baseline demand per fixture for usage group *u*
$kW/fixture_{post}$=	lighting demand per fixture during post-installation period for usage group
$Quantity_{baseline}$=	quantity of affected fixtures before the lighting retrofit for usage group *u*
$Quantity_{post}$=	quantity of affected fixtures after the lighting retrofit for usage group *u*
$Coincident\ Factor_u$=	*Coincident* Factor is a multiplier to account for Demand Diversity of each specific usage group *u*.

Energy (kWh)

$$kWh\ Savings_{Lighting} = \sum_u [Connected\ kW\ Savings_u \times Burn\ Hours]_{t,u}$$

where:

$kW\ Savings_u$ =	kilowatt savings realized during the post-installation time for usage group *u*
Burn Hours =	number of operating hours during the time period *t* for the usage group *u*

The expected measured savings for this FIM are as follows, at the rates and escalations as noted in Article 2, Section IV.

FIM ID	Measured Benefits		
	Electric Consumption	Electric Demand	Natural Gas
FIM-1	5,561,769 kWh	1,865 kW	0 Therms

Refer to FIM-1 Appendix LED Lighting Upgrades (electronic attachment) for the detailed expected savings calculations for FIM-1.

FIM-2: Water Conservation

Option A: Measurement and Verification Plan for Domestic Water Conservation

The savings for this FIM will be verified using IPMVP Core Concepts, EVO 10000 -1:2016, Option A, Retrofit Isolation with Key Parameter Measurement. The savings for this FIM are generated through a reduction in water used by the domestic water systems (and the associated water heating fuel for hot water savings), therefore, the measurement boundary is the domestic water systems.

Key Parameter	Measurement Frequency	Measurement Description
Pre- and Post-retrofit Fixture gallons/flush gallons/minute	One-Time	**Pre-retrofit & Post-retrofit** A statistically valid sampling of domestic plumbing fixtures under a 90/20 sampling plan – assuming a coefficient of variance of 0.5 was determined prior to conducting formal measurement and verification in both, baseline conducted between 9/9/2025 and 9/11/2025 and post-installation measurements as follow: **TOILETS & URINALS** Wet-vac Method – used for formal M&V documentation. • This method involves plugging the toilet/urinal trap way with an inflatable rubber test ball and vacuuming existing water out of fixture to be discarded. The fixture is then flushed and again, water is vacuumed out of the fixture and transferred to a calibrated bucket to verify flush volume. The weight is then documented as well for an accurate determination of flush volume by utilizing the conversion factor of 8.33 lbs per gallon. **FAUCETS** Calibrated Flow Bag Method • A calibrated flow bag is used to determine the flow rate of a fixture. The bag is designed to capture a 5 second flow of water from an open-source water end-use, with volumetric markings on the bag that essentially convert the volume collected in the bag over a 5 second sampling into a gallon per minute flow rate. Volume Conversion Method • A fixed volume sample of water is obtained, and a stopwatch is used to determine the amount of time required to fill the fixed volume. The flow rate is then obtained utilizing the following formula: Flow rate (gpm) = Fixed volume (gallons) / time to fill (seconds) X 60 (seconds/min)

Performance Period M&V Activities:

- Onsite visual Inspections in random samples of approximately 5% (maximum) of this FIM's Scope of Work annually in no more than five affected schools per year to verify operating conditions.
- Review and inspect O&M Records provided by customer during each performance year.
- Review and verify product specifications for replaced equipment during the project's guarantee period.

Equations for Calculating Savings

Spreadsheet based calculations were developed to simulate pre- and post-retrofit performance of this FIM. Equipment nameplate and manufacturer information, as well as short-term measurements, were used to calculate pre-retrofit system performance. Post-FIM manufacturer data and control parameters were input into the calculation to estimate post-FIM consumption.

The water and energy savings for this FIM are estimated by the following formulae:

Water Scope Savings Calculation

Water Savings

Water Reduction $= \sum_{type}$ [(Usage $Rate_{baseline}$ - Usage $Rate_{post}$) x $AAUF_{type}$ x $Quantity_{type}$] / 1000
where:

Water Reduction =	water savings realized in kilogallons (kGal). These savings will result in water and sewer dollars saved.
Usage $Rate_{baseline}$ =	baseline fixture use rate in gpm or gpf
Usage $Rate_{post}$ =	post installation fixture use rate in gpm or gpf
AAUF =	average annual use per fixture; faucets in minutes per year toilets or urinals in flushes per year
Quantity =	quantity of affected fixtures

Hot Water Heating Fuel Project Benefits

Energy Reduction = Water Reduction 1000 gal/kGal x ($Temp_{hot}$ - $Temp_{cold}$) x Specific $Heat_{H2O}$ x $Density_{H2O}$ x Source Conversion / Efficiency
where:

Energy Reduction =	fuel savings (units vary)
Water Reduction=	water savings in kGal
$Temp_{hot}$ =	average hot water usage temperature
$Temp_{cold}$ =	average cold-water temperature
Specific Heat =	1 Btu / (lbm) (°F) for water
$Density_{H2O}$	8.34 lbm/gal
Source Conversion	Electric: 1 kWh/3412 Btu NG: 1 Therm/100000Btu
Efficiency =	Water heating efficiency expressed as a fraction
Electric Efficiency =	98%

Description of Measurement and Verification Methodologies by FIMs:

FIM-3: Compactors

Option A: Measurement and Verification Plan for Compactors (Waste Management)

The savings associated with this FIM will be verified using IPMVP Core Concepts, EVO 10000 -1:2016, Option A, Retrofit Isolation with Key Parameter Measurement. The savings for this FIM are generated through a reduction in waste management costs by the utilization of trash compactors; therefore, the measurement boundary is the trash compactor system itself.

Student Count	Refer to the table below	The pre-retrofit and post-retrofit Student Count per impacted site have been analyzed with customer collaboration using defined values with local customer interview as source of data during the Phase 5 Development audit phase. Details provided on the table below. Significant deviation in total student count during Performance Period years may have an impact on post-retrofit ECM operation (respect to monthly compacted tons picked up and disposed and/or monthly waste pick up frequency). Equations for Verified Compactors Savings during Performance Period

Annually, the total verified compactors savings will be reconciled during the Performance Period according to the following:

Upon receiving from customer and analyzing actual post-retrofit operational data, Johnson Controls will evaluate the following factors for each site to determine any applicable adjustments in the school operation where there is noted increased post-retrofit waste management operational data compared to the baseline levels.

$$Annual\ verified\ compactor\ savings\ (\$) = Annual\ Baseline\ Dumpster\ Cost\ (\$) - Annual\ adjusted\ Post-retrofit\ Compactor\ Cost\ (\$)$$

Where:

Annual Baseline Dumpster Cost ($) corresponds to annual baseline Annual Existing Waste Disposal Cost (escalated to corresponding performance period Year in accordance with Section IV rates escalation) per definitions on table above.

$$Annual\ adjusted\ post-retrofit\ Compactor\ Cost\ (\$) = \sum_{i=1}^{12} Actual\ Compactor\ waste\ disposal\ cost\ i\ \text{- (Annual Excess Pickup Cost + Annual Excess Disposal Cost)}$$

Where:
Actual Compactor waste disposal cost i is the corresponding monthly cost invoiced to each site including compactor pickups costs and tonnage disposal costs during the month i.

Annual Excess Pickup cost is the cost difference between Annual Actual Pickup Costs and (Proposed Compactor Monthly Pickups x Compactor per Haul Charge Cost) as shown on the table above for each respective site under ECM, escalated to corresponding performance period Year.

Annual Excess Disposal cost is the cost difference between Annual Actual Disposal costs and (Proposed full month solid waste (tons) x Compactor per Ton Cost ($/ton) x Average Monthly Service Usage (%) x 12) as shown on the table above for each respective site under ECM, escalated to corresponding performance period Year.

$$Annual\ ECM\ Waste\ disposal\ Cost\ Savings\ (\$) = \sum_{s=1}^{6} Sites\ i\ \ Annual\ verified\ Compactor\ Savings\ (\$)$$

Adjustments in costs savings due to excess costs post-retrofit may reflect normalization adjustments, based on variation respect to agreed-upon applicable Proposed (post-retrofit) Waste Disposal Operational Data. Operational post-retrofit deviations observed in the course of each performance period will be noted in the corresponding annual M&V report. Any operational third-party (service provider on waste disposal) increases in rate increases beyond annual ceiling escalation in accordance with Rates described in Section V, are factors for potential savings adjustments. Details on annualized post-retrofit factors including but not limited to total annualized pickup cost variations, total annualized tonnage disposal cost variation as effect from local operational changes beyond the proposed and agreed conditions in table above (such as increases in total annual pickup frequencies, increases in total annual site tonnage generation) will convey the corresponding annual savings adjustments in its annual reconciliation not incurring in a performance shortfall as effect of it.

If post-retrofit monthly data (including waste disposal invoices, costs, tonnage disposed, actual pickup frequency) required to convey the reconciliation, calculation and any operational adjustments associated with any ECM-site under scope is not provided or not available, in the ordinary course of system operation which shall be used and relied upon by Johnson Controls in connection with Project Benefit calculations, Johnson Controls will use commercially reasonable efforts to ensure the integrity of the data

provided by Broward County Public Schools to calculate the required metrics. In the event data are lost due to equipment failure, power failure or other interruption in data collection, transmission or storage, Johnson Controls will use reasonable engineering methods to estimate the impact of or replace the lost data.

During unforeseen events or times periods where post-retrofit monthly data is not captured by Broward County Public Schools internal systems and procedures, and data become unavailable on any site impacted by this ECM, Johnson Controls will utilize proposed estimated post-retrofit data points agreed in advance, in order to reconcile those times periods where actual post-retrofit data were not captured and consequently unavailable for benefits reconciliation, without incurring in any performance shortfall as effect of it. Estimated proposed post-benefits in such time periods will be deemed achieved for purposes of the Performance Guarantee reconciliation, accordingly.

The expected savings for this FIM are as follows, at the rates and escalations as noted in Article 2, Section IV.

FIM ID	Measured Benefits				
	Electric Consumption*	Electric Demand*	Natural Gas	Water*	Calculated Year 1 Waste Management Cost*
FIM-3	0 kWh	0 kW	0 Therms	0 kgal.	$150,912

(Y1 values above carry 2.5% escalation from Base Year rates)

Refer to FIM-3 Appendix for the detailed expected savings calculations for FIM-3.

*SOMAT machines on each ECM-site removed from operation as part of the ECM scope implementation (agreed-in-advance by customer) and its implications on expected O&M savings and water use reduction are described under non-measured benefits sections**.**

*Utilization of trash compactors operation and SOMAT machines operations utility units have been agreed in advance to be similar and cancelling each other due to addition/removal in these equipment categories under ECM scope. Net utility units' effects is deemed to be minimal and it's defined as negligent. Accordingly, it will not be measured nor calculated any impact on ECM Measured Benefits as noted in communications between Broward County Public Schools team and JCI Development team.

Non-Measured benefits associated with Total Annual O&M SOMAT Repair Cost Savings ($), Total Annual Compactor Maintenance Cost ($), Total Annual SOMAT Water use Cost Savings ($) are presented in the non-measured Benefits sections accordingly.

As part of the ECM implementation of trash compactors it is anticipated and previously discussed with customer collaboration and local customer interview as source of data during the Phase 5 Development audit phase, a maintenance cost allocation of $2,000 is expected to be covered by customer per site per year in order to address preventive and corrective maintenance for compactor equipment. These maintenance cost allocations will not be measured and are excluded from above-mentioned waste management cost benefits.

IV. BASELINE CALCULATIONS AND UTILITY RATES

The unit utility costs for the Baseline period are set forth below as “Base Utility Cost” and shall be used for all calculations made under this Schedule. The Base Utility Cost shall be escalated annually by the actual utility cost escalation, but such escalation shall be no less than the mutually agreed “floor” escalation rate of three percent (3.0%) for electric and water utility. Baseline utility consumptions/demand for electricity, natural gas, and water/sewer are based on the period of August 2024 through July 2025. Baseline utility costs are based on current utility rate structures. Compactor Hauling Charge (Base) Rates defined below correspond to rates provided by Broward School District Environmental Conservation/Utility Management group. For purposes of the annual performance guarantee reconciliation the Compactor Hauling Charge (Base) Rates will be escalated a minimum of 2.5% annually (for both pre-retrofit (baseline) costs and verified waste disposal post-retrofit costs reconciliation). Rate structures and analyses are included in the Utilities Appendix. Year 1 rates level corresponds to escalation of one (1) period from Base rates to account for utility escalation anticipated during the 16-month construction period.

The Rental Payments shall be in such amounts and payable on such Rental Payment Dates as set forth in the Payment Schedule attached to this Equipment Schedule as Exhibit A hereto and incorporated herein by this reference, subject to adjustment upon the occurrence of an Event of Taxability as provided in Section 4.06 of the Agreement. Lessee's obligation to pay Rental Payments under the Lease created hereby shall commence on the earlier of (i) the date on which the Equipment listed in this Equipment Schedule is accepted by Lessee in the manner described in Section 5.01 of the Agreement, as evidenced by the Final Acceptance Certificate executed by Lessee and substantially in the form of Exhibit E attached to the Agreement, or (ii) the date on which the Acquisition Amount is deposited in an Escrow Account for the purpose of acquiring and installing the Equipment listed in this Equipment Schedule pursuant to Section 3.04(c) of the Agreement (the earlier of such two dates being herein referred to as the "Commencement Date").

(a) Lessee agrees that it shall (a) proceed promptly, at its expense, to protect its rights and exercise its remedies under any warranty then in effect with respect to the Equipment under this Equipment Schedule; and (b) replace or rebuild any component of the Equipment under this Equipment Schedule that becomes permanently unfit for normal use or inoperable during the Lease Term of this Equipment Schedule (herein, the "Inoperable Component") in order to keep the Equipment as a whole in good repair and working order during the Lease Term of this Equipment Schedule. Lessee shall promptly notify Lessor in writing when any component of the Equipment

under this Equipment Schedule is reasonably expected within forty-five (45) days to become an Inoperable Component. Lessee shall promptly replace or rebuild the Inoperable Component under this Equipment Schedule with a similar component of comparable or improved make and model that has at least the equivalent value and utility of the applicable Inoperable Component, a remaining useful life of no less than the remaining Lease Term under this Equipment Schedule and such replacement or rebuilt component shall be in good operating condition.

(b) If Lessee elects to replace any item of the Equipment with Replacement Equipment pursuant to Section 8.01 of the Agreement, in addition to the other requirements set forth in Section 8.01, the Replacement Equipment shall also provide at least the same level of energy and/or operational savings expected in the aggregate from the Replaced Equipment prior to such casualty, destruction or condemnation.

9. *Liability Insurance*. 10. *Surety Bonds; Lessee to Pursue Remedies Against Contractors and Sub-Contractors and Their Sureties*. Best Company of "A-" or better, and otherwise satisfactory to Lessor and naming Lessor as a co-obligee in a sum equal to the entire amount to become payable under each Vendor Agreement. Each bond shall be conditioned on the completion of the work in accordance with the plans and specifications for the Equipment listed in this Equipment Schedule and upon payment of all claims of subcontractors and suppliers. Lessee shall cause the surety company to add Lessor as a co-obligee on each Surety Bond, and shall deliver a certified copy of each Surety Bond to Lessor promptly upon receipt thereof by Lessee. Any proceeds from a Surety Bond shall be applied in accordance with such Surety Bond to the payment and performance of the Vendor's obligations in accordance with the related Vendor Agreement and, if for whatever reason such proceeds are not so applied, first to amounts due Lessor under this Equipment Schedule, and any remaining amounts shall be payable to Lessee.

In the event of a material default of any Vendor under any Vendor Agreement in connection with the acquisition, construction, maintenance and/or servicing of the Equipment listed in this Equipment Schedule or in the event of a material breach of warranty with respect to any material workmanship or performance guaranty with respect to such Equipment, Lessee will promptly proceed to exhaust its remedies against the Vendor in default. Lessee shall advise Lessor of the steps it intends to take in connection with any such default. Any amounts received by Lessee in

respect of damages, refunds, adjustments or otherwise in connection with the foregoing shall be paid to Lessor and applied against Lessee's obligations under this Equipment Schedule.

As a prerequisite to the performance by Lessor of any of its obligations under this Equipment Schedule, Lessee shall deliver to Lessor, in form and substance satisfactory to Lessor, a certified copy of each Surety Bond satisfying the conditions set forth in this Section 10, or, at Lessor's sole discretion, such Surety Bonds may be provided after the Commencement Date of this Equipment Schedule, provided however, that no "Disbursement Request" pursuant to the Escrow Agreement for this Equipment Schedule shall be authorized by Lessor until such Surety Bonds satisfying the conditions set forth in this Section 10 have been delivered to Lessor.

Equipment which constitutes "fixtures" and which is located at the Leased Facilities, which are set forth in Exhibit B hereto, shall constitute "Exempt Equipment" hereunder. Notwithstanding anything to the contrary contained in the Master Equipment Lease, including, without limitation, Section 12.02 thereof, upon an Event of Default or an event of non-appropriation under Section 3.03 of the Master Equipment Lease, Lessee shall be under no obligation to transfer possession of and/or title to any Exempt Equipment, to the Lessor, and the Lessor shall have no right under this Lease to involuntarily dispossess the Lessee of the use and enjoyment of or title to any of the Exempt Equipment. Lessor's sole remedy with respect to the Exempt Equipment shall be to seek a judgment against the Lessee for the unpaid balance of the Rental Payments and other amounts due under this Lease, which judgment shall be enforceable solely against Lessee's legally available funds, as provided in Section 12.02(b) of the Master Equipment Lease.

Form of Escrow Agreement

ESCROW AGREEMENT

This ESCROW AGREEMENT (this *"Agreement"*), dated as of [_____], 2026, by and among BANC OF AMERICA PUBLIC CAPITAL CORP, a Kansas corporation (together with its successors and assigns, hereinafter referred to as *"Lessor"*), THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA, a political subdivision existing under the laws of the State of Florida (hereinafter referred to as *"Lessee"*) and ARGENT INSTITUTIONAL TRUST COMPANY, a Florida trust company (hereinafter referred to as *"Escrow Agent"*).

Reference is made to that certain Equipment Schedule No. 5 – Energy Services Equipment, dated [_____], 2026 to Master Equipment Lease/Purchase Agreement dated as of May 29, 2020, between Lessor and Lessee, (hereinafter referred to as the *"Lease"*), covering the acquisition and lease of certain Equipment described therein (the *"Equipment"*). It is a requirement of the Lease that the Acquisition Amount in the amount of $[14,760,460.00] be deposited into a segregated escrow account under terms satisfactory to Lessor, for the purpose of fully funding the Lease, and providing a mechanism for the application of such amounts to the purchase of and payment for the Equipment.

NOW, THEREFORE, in consideration of the mutual promises contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Creation of Escrow Account.

(a) There is hereby created an escrow fund to be known as the "The School Board of Broward County, Florida, Master Lease (Schedule No. 5) Escrow Account" (the *"Escrow Account"*) to be held by the Escrow Agent for the purposes stated herein, for the benefit of Lessor and Lessee, to be held, disbursed and returned in accordance with the terms hereof.

(b) Lessee may, from time to time, provide written instructions for Escrow Agent to use any available cash in the Escrow Account to purchase any money market fund or liquid deposit investment vehicle that Escrow Agent from time to time makes available to the parties hereto. Such written instructions shall be provided via delivery to Escrow Agent of a signed and completed Escrow Account Investment Selection Form (such form available from Escrow Agent upon request). All funds invested by Escrow Agent at the direction of Lessee in such short-term investments (as more particularly described in Escrow Agent's Escrow Account Investment Selection Form) shall be deemed to be part of the Escrow Account and subject to all the terms and conditions of this Agreement. If any cash is received for the Escrow Account after the cut-off time for the designated short-term investment vehicle, the Escrow Agent shall hold such cash uninvested until the next Business Day. In the absence of written instructions from Lessee (on Escrow Agent's Escrow Account Investment Selection Form) designating a short-term investment of cash in the Escrow Account, cash in the Escrow Account shall remain uninvested and it shall not be collateralized. Escrow Agent shall have no obligation to pay interest on cash in respect of any period during which it remains uninvested. Lessee shall be solely responsible for ascertaining that all proposed investments and reinvestments are Qualified Investments and that they comply with federal, state and local laws, regulations and ordinances governing investment of such funds and for providing appropriate notice to the Escrow Agent for the reinvestment of any maturing

investment. Accordingly, neither the Escrow Agent nor Lessor shall be responsible for any liability, cost, expense, loss or claim of any kind, directly or indirectly arising out of or related to the investment or reinvestment of all or any portion of the moneys on deposit in the Escrow Account, and Lessee agrees to and does hereby release the Escrow Agent and Lessor from any such liability, cost, expenses, loss or claim. Interest on the Escrow Account shall become part of the Escrow Account, and gains and losses on the investment of the moneys on deposit in the Escrow Account shall be borne by the Lessee. The Escrow Agent shall have no discretion whatsoever with respect to the management, disposition or investment of the Escrow Account. The Escrow Agent shall not be responsible for any market decline in the value of the Escrow Account and has no obligation to notify Lessor and Lessee of any such decline or take any action with respect to the Escrow Account, except upon specific written instructions stated herein. For purposes of this Agreement, "Qualified Investments" means any investments which meet the requirements of Section 218.415, Florida Statutes.

(c) Unless the Escrow Account is earlier terminated in accordance with the provisions of paragraph (d) below, amounts in the Escrow Account shall be disbursed by the Escrow Agent in payment of amounts described in Section 2 hereof upon receipt of written instruction(s) from Lessor, as is more fully described in Section 2 hereof. If the amounts in the Escrow Account are insufficient to pay such amounts, Lessee shall provide any balance of the funds needed to complete the acquisition of the Equipment. Any moneys remaining in the Escrow Account on or after the earlier of (i) the expiration of the Acquisition Period or (ii) the date on which Lessee executes an Acceptance Certificate shall be applied as provided in Section 4 hereof.

(d) The Escrow Account shall be terminated at the earliest of (i) the final distribution of amounts in the Escrow Account, (ii) the date on which Lessee executes a Final Acceptance Certificate or (iii) written notice given by Lessor of the occurrence of an Event of Default under the Lease or termination of the Lease due to an Event of Non-appropriation. Notwithstanding the foregoing, this Agreement shall not terminate nor shall the Escrow Account be closed until all funds deposited hereunder have been disbursed.

(e) The Escrow Agent may act in reliance upon any writing or instrument or signature which it, in good faith, believes to be genuine and may assume the validity and accuracy of any statement or assertion contained in such a writing or instrument. The Escrow Agent shall not be liable in any manner for the sufficiency or correctness as to form, manner of execution, or validity of any instrument nor as to the identity, authority, or right of any person executing the same; and its duties hereunder shall be limited to the receipt of such moneys, instruments or other documents received by it as the Escrow Agent, and for the disposition of the same in accordance herewith. Notwithstanding and without limiting the generality of the foregoing, concurrent with the execution of this Agreement, Lessee and Lessor, respectively, shall deliver to the Escrow Agent an authorized signers form in the form of Exhibit A-1 (Lessee) and Exhibit A-2 (Lessor) attached hereto. Notwithstanding the foregoing sentence, the Escrow Agent is authorized to comply with and rely upon any notices, instructions or other communications believed by it to have been sent or given by the parties or by a person or persons authorized by the parties. The Escrow Agent specifically allows for receiving direction by written or electronic transmission from an authorized representative with the following caveat, Lessee and Lessor agree to indemnify and hold harmless the Escrow Agent against any and all claims, losses, damages, liabilities, judgments, costs and expenses (including reasonable attorneys' fees) (collectively, *"Losses"*) incurred or sustained by

the Escrow Agent as a result of or in connection with the Escrow Agent's reliance upon and compliance with instructions or directions given by written or electronic transmission given by each, respectively, provided, however, that such Losses have not arisen from the gross negligence or willful misconduct of the Escrow Agent, it being understood that forbearance on the part of the Escrow Agent to verify or confirm that the person giving the instructions or directions, is, in fact, an authorized person shall not be deemed to constitute gross negligence or willful misconduct.

In the event conflicting instructions as to the disposition of all or any portion of the Escrow Account are at any time given by Lessor and Lessee, the Escrow Agent shall abide by the instructions or entitlement orders given by Lessor without consent of the Lessee.

(f) Unless the Escrow Agent is guilty of gross negligence or willful misconduct with regard to its duties hereunder, Lessee agrees to and does hereby release and indemnify the Escrow Agent and hold it harmless from any and all claims, liabilities, losses, actions, suits or proceedings at law or in equity, or any other expenses, fees or charges of any character or nature, which it may incur or with which it may be threatened by reason of its acting as Escrow Agent under this Agreement; and in connection therewith, does to the extent permitted by law, indemnify the Escrow Agent against any and all expenses, including reasonable attorneys' fees and the cost of defending any action, suit or proceeding or resisting any claim.

(g) If Lessee and Lessor shall be in disagreement about the interpretation of the Lease, or about the rights and obligations, or the propriety of any action contemplated by the Escrow Agent hereunder, the Escrow Agent may, but shall not be required to, file an appropriate civil action including an interpleader action to resolve the disagreement. The Escrow Agent shall be reimbursed by Lessee for all costs, including reasonable attorneys' fees, in connection with such civil action, and shall be fully protected in suspending all or part of its activities under the Lease until a final judgment in such action is received.

(h) The Escrow Agent may consult with counsel of its own choice and shall have full and complete authorization and protection with the opinion of such counsel. The Escrow Agent shall otherwise not be liable for any mistakes of fact or errors of judgment, or for any acts or omissions of any kind unless caused by its willful misconduct.

(i) Lessee shall reimburse the Escrow Agent for all reasonable costs and expenses, including those of the Escrow Agent's attorneys, agents and employees incurred for non-routine administration of the Escrow Account and the performance of the Escrow Agent's powers and duties hereunder in connection with any Event of Default under the Lease, any termination of the Lease due to an Event of Non-appropriation or in connection with any dispute between Lessor and Lessee concerning the Escrow Account.

(j) The Escrow Agent or any successor may at any time resign by giving mailed notice to Lessee and Lessor of its intention to resign and of the proposed date of resignation (the *"Effective Date"*), which shall be a date not less than 60 days after such notice is delivered to an express carrier, charges prepaid, unless an earlier resignation date and the appointment of a successor shall have been approved by the Lessee and Lessor. After the Effective Date, the Escrow Agent shall be under no further obligation except to hold the Escrow Account in accordance with

the terms of this Agreement, pending receipt of written instructions from Lessor regarding further disposition of the Escrow Account.

(k) The Escrow Agent shall have no responsibilities, obligations or duties other than those expressly set forth in this Agreement and no implied duties, responsibilities or obligations shall be read into this Agreement.

2. Acquisition of Property.

(a) Acquisition Contracts. Lessee will arrange for, supervise and provide for, or cause to be supervised and provided for, the acquisition of the Equipment, with moneys available in the Escrow Account. Lessee represents the estimated costs of the Equipment are within the funds estimated to be available therefor, and Lessor makes no warranty or representation with respect thereto. Lessor shall have no liability under any of the acquisition or construction contracts. Lessee shall obtain all necessary permits and approvals, if any, for the acquisition, equipping and installation of the Equipment, and the operation and maintenance thereof. Escrow Agent shall have no duty to monitor or enforce Lessee's compliance with the foregoing covenant.

(b) Authorized Escrow Account Disbursements. It is agreed as between Lessee and Lessor that disbursements from the Escrow Account shall be made for the purpose of paying (including the reimbursement to Lessee for advances from its own funds to accomplish the purposes hereinafter described) the cost of acquiring the Equipment.

(c) Requisition Procedure. No disbursement from the Escrow Account shall be made unless and until Lessor has approved such requisition. Prior to disbursement from the Escrow Account there shall be filed with the Escrow Agent a requisition for such payment in the form of Disbursement Request attached hereto as Schedule 1, stating each amount to be paid and the name of the person, firm or corporation to whom payment thereof is due. All disbursements shall be made by wire transfer. The Escrow Agent is authorized to obtain and rely on confirmation of such Disbursement Request and payment instructions by telephone call-back to the person or persons designated for verifying such requests on Exhibit A-2 (such person verifying the request shall be different than the person initiating the request). The Lessor and Lessee hereby confirm that any call-back performed by Escrow Agent to verify a disbursement instruction pursuant to a Disbursement Request submitted pursuant to this Section 2(c) before release, shall be made to Lessor only and Escrow Agent shall have no obligation to call-back Lessee.

Each such Disbursement Request shall be signed by an authorized representative of Lessee (an *"Authorized Representative"*) and by Lessor, and shall be subject to the following conditions, which Escrow Agent shall conclusively presume have been satisfied at such time as a requisition executed by Lessee and Lessor is delivered to it:

1. Delivery to Lessor of an executed Disbursement Request in the form attached hereto as Schedule 1; and

2. Delivery to Lessor of copies of invoices (and proofs of payment of such invoices, if Lessee seeks reimbursement) and bills of sale (if title to such Equipment has passed to Lessee) therefor as required by Section 3.04 of the Lease and any additional documentation reasonably requested by Lessor.

Lessee and Lessor agree that their execution of the form attached hereto as Schedule 1 and delivery of the executed form to Escrow Agent confirms that all of the requirements and conditions with respect to disbursements set forth in this Section 2 have been satisfied.

3. Deposit to Escrow Account. Upon satisfaction of the conditions specified in Section 3.04 of the Lease, Lessor will cause the Acquisition Amount to be deposited in the Escrow Account. Lessee agrees to pay any costs with respect to the Equipment in excess of amounts available therefor in the Escrow Account.

4. Excessive Escrow Account. Upon receipt of written instructions from Lessor including a representation that one of the following conditions has been satisfied (upon which representation Escrow Agent shall conclusively rely), any funds remaining in the Escrow Account on or after the earlier of (a) the expiration of the Acquisition Period or (b) the date on which Lessee executes an Acceptance Certificate, or upon a termination of the Escrow Account as otherwise provided herein, shall be distributed by the Escrow Agent to the Lessor in order for the Lessor to apply such funds to amounts owed by Lessee under the Lease in accordance with Section 4.07 of the Lease.

5. Information Required Under USA PATRIOT ACT. The parties acknowledge that in order to help the United States government fight the funding of terrorism and money laundering activities, pursuant to Federal regulations that became effective on October 1, 2003 (Section 326 of the USA PATRIOT Act) all financial institutions are required to obtain, verify, record and update information that identifies each person establishing a relationship or opening an account. The parties to this Agreement agree that they will provide to the Escrow Agent such information as it may request, from time to time, in order for the Escrow Agent to satisfy the requirements of the USA PATRIOT Act, including but not limited to the name, address, tax identification number and other information that will allow it to identify the individual or entity who is establishing the relationship or opening the account and may also ask for formation documents such as articles of incorporation or other identifying documents to be provided.

This Agreement may not be amended except in writing signed by all parties hereto. This Agreement may be executed in one or more counterparts, each of which shall be deemed to be an original instrument and each shall have the force and effect of an original and all of which together constitute, and shall be deemed to constitute, one and the same instrument. Notices hereunder shall be made in writing and shall be deemed to have been duly given when personally delivered or when deposited in the mail, first class postage prepaid, or delivered to an express carrier, charges prepaid, or sent by facsimile with electronic confirmation, addressed to each party at its address below.

Notices and other communications hereunder may be delivered or furnished by electronic mail provided that any formal notice be attached to an email message in PDF format and provided further that any notice or other communication sent to an e-mail address shall be deemed received upon and only upon the sender's receipt of affirmative acknowledgement or receipt from the intended recipient. Schedule to the Master Tax-Exempt Lease/Purchase Transaction and Proposal Offer for: Broward County School District, FL

Purpose: The purpose of this transaction is to provide financing to the Lessee for the acquisition of certain energy efficiency improvements and other equipment (collectively, the "*Equipment*") procured by the Lessee.

Structure: This transaction will be structured as a schedule to the master tax-exempt equipment lease purchase agreement ("*Lease/Purchase*") between Lessee and Lessor. The Lease/Purchase will be a net financial lease, and all expenses, including but not limited to insurance, maintenance, and taxes, will be for the account of Lessee. Subject to annual appropriation, repayment of the Lease/Purchase will be made from the Lessee's General Fund plus any other legally available funds of the Lessee.

Security: Per Florida statutes, the Lessor will not retain a first priority security interest in the Equipment. In the event of nonappropriation or default, the Lessee will be required to return the Equipment to Lessor. Lessee shall be required to maintain the Equipment free and clear of other liens, to insure the Equipment (public liability and property damage insurance), to promptly repair or replace any damaged or destroyed Equipment and to pay any applicable taxes.

Approximate Proceeds:

* Assuming Lessor's Counsel is not providing any opinions on behalf of the Lessee and that Lessor's documents are used without considerable edit.

Funding: Proceeds from the Schedule to the Lease/Purchase will be deposited into an escrow fund ("Escrow Fund") which will be acceptable to Lessor. Lessee will be required to direct investments in the Escrow Fund and any interest earned will be for the benefit of Lessee. Anticipated Escrow Agent: TBD

Lease Payments and Term: Approximately Fifteen (15) years. Please see the attached draft amortization schedule for additional details. Feel free to request additional repayment scenarios from Lessor.

Closing Date: Purely for purposes of this proposal, funding was calculated to be March 1, 2026.

Interest Rate:

15 years semiannual payments: 4.264%

The calculation for the Tax-Exempt Interest Rate above is:

x Year SOFR Swap Rate X 79% + Applicable Spread Below:*

Lease Term Years	Swap Index Term	Swap Index Rate*	x 79%	+ Spread	Tax-Exempt Interest Rate
15	9 Years	3.85%	3.04%	1.221%	4.264%

**SOFR Rates as of January 16, 2026 on Refinitiv page USDSROIS=*

Index Succession: In the event the SOFR swap index ceases (a) to be determined and made available through the applicable Refinitiv screen page (or comparable source selected by Lessor), (b) to be a representative index for approximating movements in Lessor's costs of funding fixed-rate transactions, or (c) to be the generally accepted swap index in the marketplace, Lessor may in its discretion use another replacement swap index applicable to U.S. Dollar collateralized funding that is generally accepted in the commercial credit marketplace as a comparable substitute for the index.

Rate Lock Procedure: If this proposal is accepted within eight (8) days, Lessor will hold the rate above for closing for 90 days from the date of this proposal. If closing of the transaction occurs after such rate lock expiration, the Indicative Fixed Interest Rate for the transaction are subject to repricing *at the discretion of Lessor per the above grid.*

IF LESSEE ASKS LESSOR TO LOCK THE RESPECTIVE INTEREST RATE ABOVE FOR FUNDING, LESSEE AGREES NOT TO SEEK FUNDING FOR THE PROJECT

WITH ANOTHER LESSOR FOR A PERIOD OF SIX MONTHS AS A MEANS TO CIRCUMVENT THE RATE THAT LESSEE HAS ASKED LESSOR TO HOLD.

PLEASE BE ADVISED THAT THE PROPOSED INDICATIVE PRICING SET FORTH ABOVE IS ONLY AVAILABLE FOR A TRANSACTION THAT IS FULLY FUNDED OR FOR SPECIFIC EQUIPMENT THAT HAS COMMENCED FUNDING UNDER THE AGREEMENT PURSUANT TO THIS PROPOSAL WITHIN 180 DAYS. THEREAFTER, LESSOR MAY AT ITS DISCRETION ADJUST ITS PRICING TO REFLECT ADVERSE CHANGES IN ITS COST OF FUNDS OR CHANGES GENERALLY IN MARKET CREDIT MARGINS.

PLEASE NOTE THAT THE PRICING AND RATE ABOVE ARE BASED ON THE AVERAGE LIFE OF THE ATTACHED DRAFT AMORTIZATION SCHEDULE. TO THE EXTEXT THAT THE AVERAGE LIFE OF THE FINAL SELECTED AMORTIZATION SCHEDULE CHANGES, THE RESPECTIVE RATE IS SUBJECT TO MODIFCATION BY LESSOR TO ACCOUNT FOR ANY LENGTHENING OF THE AVERAGE LIFE OF THE FINAL TRANSACTION SCHEDULE.

Please contact Lessor if you have any questions regarding the fixed interest rate determination and lock and process.

Closing Costs: Lessee will be responsible for its own closing costs, including its own legal costs for providing a legal/validity and tax opinion(s) for the transaction. Lessor will not allocate a legal fee for its own legal expense to the costs of issuance of the transaction.

IV. Repayment, Prepayment and Other Terms

Prepayment: With 30 days advance notice, Lessee will have the option to prepay the individual schedule of the MTELP for the proposed transaction in whole but not part on any principal and interest payment date by paying the applicable Termination Value which shall be calculated as 102% of the outstanding principal balance of the transaction.

Documents: The documents for the proposed transaction will be provided by Lessor. All transaction documents, including individual lease schedule documents are subject to review and approval by Lessor.

Payment and Performance Bonds: For each energy project and/or other equipment that will be built out or delivered over time, Lessor will require to be named as dual obligee on the payment and performance bond(s) provided by Vendor(s). All payment and performance bonds and dual-obligees rider are subject to review and approval by Lessor.

Anticipated Lender's Counsel: Emily Magee of Butler & Snow, LLP.

Opinion of Counsel: Counsel to Lessee shall deliver a legal/validity and tax opinion(s) to Lessor (to the extent that a tax opinion is required, see "Closing Costs" above), such opinions must be in a form and substance that is satisfactory to Lessor.

Tax Exempt Lease/Purchase: The rental payments have been calculated on the following assumptions and representations by Lessee that Lessee:

1. is a state or political subdivision of a state within the meaning of Section 103(c) of the Internal Revenue Code (the "Code") and duly created and validly existing under the laws of the State of Florida;

2. is authorized under the laws of the State of Florida to enter into the Lease/Purchase and the transactions contemplated thereby and to perform all of Lessee's obligations thereunder; and

3. has duly authorized the execution and delivery of the Lease/Purchase under the terms of a resolution of its governing body or by other appropriate official approval, and all requirements and procedures have been satisfied in order to ensure the enforceability of the Lease/Purchase, and Lessee has complied with all applicable public bidding requirements.

Lessee shall provide Lessor with such evidence as Lessor may request to substantiate and maintain such tax status, and shall make such further representations and certifications as are customary in tax exempt transactions.

In the event Lessor suffers a loss of Federal income tax exemption of the interest portion of the rental payments because of the use or acts or omissions of Lessee, Lessee will pay Lessor amounts calculated at a taxable rate sufficient to maintain Lessor's yield in the Lease/Purchase. Lessee shall comply with the filing requirements of Section 149(e) of the Code.

Final Approval: This proposal and the terms set forth herein are an indication of interest in the transaction, and are not and should not be construed as a commitment nor obligation of Lessor or its affiliates to provide any financing(s). The proposed transaction(s) and the terms set forth herein are subject to all credit, risk, documentation and legal approvals of Lessor as well as execution and delivery of documentation acceptable to all parties. All disbursements are subject to no material adverse change in the financial condition of Lessee.

Assignment: Without prior consent of the Lessee, Lessor shall be entitled to assign its right, title and interest in the Lease/Purchase schedules and leased equipment on a private placement basis to qualified purchasers. In addition, Lessor shall be entitled to assign its right, title and interest in the Lease/Purchase schedules to a trustee for the purpose of issuing certificates of participation or other forms of certificates evidencing an undivided interest in such Lease/Purchase schedules, provided such certificates are sold only on a private placement basis (and not pursuant to any "public offering") to a purchaser(s) who represent that (I) such purchaser has sufficient knowledge and experience in financial and business matters to be able

to evaluate the risks and merits of the investment (ii) such purchaser understands neither the Lease/Purchase or certificates will be registered under the Securities Act of 1933, (iii) such purchaser is either an "accredited investor" within the meaning of Regulation D under the Securities Act of 1933, or a qualified institutional buyer within the meaning of Rule 144A, and (iv) that it is the intention of such purchaser to acquire such certificates (A) for investment for its own account or (B) for resale in a transaction exempt from registration under the Securities Act of 1933. At any time, Lessor may sell, assign or encumber all or any part of its right title and interest in the Lease/Purchase schedules; however, in no event shall the Lessor assign this agreement as a public offer of participation. Lessee consents to a private placement transaction within the meaning of applicable federal securities laws.

"Non-Bank Qualified": This proposal assumes the transactions will be deemed "Non-Bank Qualified" for federal tax purposes.

Proposal Expiration Date: This proposal must be accepted within eight (8) business days to be valid.

Market Disruption: NOTWITHSTANDING ANYTHING CONTAINED HEREIN TO THE CONTRARY, IN THE EVENT ANY MATERIAL CHANGE SHALL OCCUR IN THE FINANCIAL MARKETS AFTER THE DATE OF THIS PROPOSAL LETTER, INCLUDING BUT NOT LIMITED TO ANY GOVERNMENTAL ACTION OR OTHER EVENT WHICH MATERIALLY ADVERSELY AFFECTS THE EXTENSION OF CREDIT BY BANKS, LEASING COMPANIES OR OTHER LENDING INSTITUTIONS, LESSOR MAY MODIFY THE INDEX PRICING DESCRIBED ABOVE.

USA Patriot Act Compliance: The Lessee acknowledges that pursuant to the requirements of the USA Patriot Act (Title III of Pub. L. 107-56 (signed into law October 26, 2001)) (the "Patriot Act"), the Lender is required to obtain, verify and record information that identifies the Lessee, which information includes the name and address of the Lessee and other information that will allow the Lender to identify the Lessee in accordance with the Patriot Act.

EXECUTIVE SUMMARY

Resolution No. 26 – 127 – General Obligation School Bonds, Series 2026

Board Meeting Date: February 10, 2026

Requested Action: Adopt Resolution No. 26-127 – General Obligation School Bonds (GOSBs), Series 2026, in an amount no to exceed $36,565,000, which will refund GOSB, Series 2015 through a negotiated sale and based on the current market expected to generate approximately $1.1 million in savings.

School Board Policy Requirement/Authority: Policy 3120

Statutory Requirement/Authority: Not Applicable

District-zone Impact: District-wide

Impact of the School Board's Vote:
- If the School Board votes "Yes": The District will be able to reduce its debt service obligation by approximately $1.1 million, adding cost savings to the overall budget.
- If the School Board votes "No": Cost savings of approximately $1.1 million will not materialize and no reduction to the District's debt service obligation will occur.

Background/History: The District's General Obligation School Bonds, Series 2015 are currently callable, which provides the District with the opportunity to currently refund its Series 2015 GOSBs for present value savings.

Current market analysis indicates that the District is expected to generate more than three (3) percent savings if refunding occurs. Our debt policy requires three (3) percent or above in order to proceed with a refunding. Proceeding with this refunding will directly lower each homeowner's tax liability and is expected to generate approximately $1.1 million in savings if market conditions continue to be favorable. While it may not be a financial windfall to the homeowner, it is a prudent step to be fiduciarily responsible.

Alignment to 2027 Goals and Guardrails: Business Operations

Measurable Outcome(s)/Return on Investment: It is fiscally prudent for the District to exercise the call feature in order to generate the expected savings of approximately three (3) percent, which translates to approximately $1.1 million if market conditions are favorable.

Financial Impact, Funding Source & Budget Status: The Board approval will reduce the Debt Service for the GOSBs program by approximately $1.1 million dollars.

NOW THEREFORE, BE IT RESOLVED BY THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA THAT:

SECTION 1. AUTHORITY FOR RESOLUTION. This resolution is adopted pursuant to and is subject to the Constitution and laws of the State of Florida, particularly, Section 1010.40 through 1010.54, Florida Statutes, together with other relevant sections of Chapters 1000-1013, Florida Statutes (hereinafter referred to collectively as the "**Act**"), and pursuant to the provisions of the Master Resolution of the School Board referred to above (this resolution and the Master Resolution, as modified and supplemented by this resolution are sometimes hereinafter

collectively referred to as the "**Resolutions**"). This resolution shall constitute a Series Resolution (as defined in the Master Resolution) contemplated by Section 22 of the Master Resolution.

SECTION 2. DEFINITIONS. Any capitalized term used herein and not otherwise defined shall have the definition for such term provided in the Master Resolution. In addition, the following terms shall have the following meanings herein, unless the text otherwise expressly requires:

"**Debt Service Requirement**" for any Calendar Year, as applied to the Series 2026 Bonds shall mean the sum of:

(1) The amount required to pay the interest becoming due on the Series 2026 Bonds during such Calendar Year; and

(2) The aggregate amount required to pay the principal becoming due on the Series 2026 Bonds for such Calendar Year. For purposes of this definition the stated maturity date of any Series 2026 Bonds which are Term Bonds shall be disregarded and the Amortization Installment applicable to such Series 2026 Bonds which are Term Bonds in such Calendar Year shall be deemed to mature in such Calendar Year.

"**Interest Payment Date**" shall mean the date or dates determined by the Superintendent on which interest on the Series 2026 Bond shall be due and payable.

"**Series 2026 Cost of Issuance Account**" shall mean the Series 2026 Cost of Issuance Account of the Project Fund established pursuant to Section 5 hereof.

"**Series 2026 Debt Service Account**" shall mean the Series 2026 Debt Service Account of the Debt Service Fund established pursuant to Section 6 hereof.

SECTION 3. SERIES 2026 BONDS; AUTHORITY TO ISSUE THE SERIES 2026 BONDS AND CURRENT REFUND THE REFUNDED BONDS; ELECTION TO CALL AND

REDEEM REFUNDED BONDS. An amount not exceeding $37,000,000 aggregate principal amount of the Bonds is hereby authorized to be issued at this time and shall be designated "**Series 2026 Bonds**" for the purpose of current refunding the Refunded Bonds. The School Board hereby elects to call and redeem the Refunded Bonds in accordance with the Escrow Deposit Agreement. The Escrow Agent is hereby authorized and directed, in the name of the School District, to give notice of the call for redemption of the Refunded Bonds as required by law and the terms of the Refunded Bonds and in accordance with the Master Resolution and the Escrow Deposit Agreement. The Series 2026 Bonds shall be dated, shall pay interest on each Interest Payment Date, shall be issued in denominations of $5,000 or integral multiples thereof, shall mature, and shall bear interest at rates determined pursuant to Section 7 hereof.

(b) Redemption Provisions of Series 2026 Bonds. The Series 2026 Bonds shall be subject to optional redemption, and the Series 2026 Bonds which are Term Bonds, if any, shall be subject to mandatory redemption, upon the terms and conditions and at the times determined pursuant to Section 7 hereof.

(c) Findings and Determinations.

(i) The Refunded Bonds were issued on June 18, 2015 for the principal purposes of acquiring, building, enlarging, furnishing or otherwise improving buildings and school grounds within the District, including safety enhancements and instructional technology upgrades in schools throughout the District. The full faith, credit and taxing power of the District are pledged to the payment of the principal of, redemption premium, if any, and interest on the Refunded Bonds.

(ii) It is necessary, desirable and in the best interest of the District that the Series 2026 Bonds be issued to current refund the Refunded Bonds.

(iii) The District is authorized under the Act to issue refunding bonds and to deposit the proceeds thereof in escrow to provide for the payment when due of the principal of, interest on and redemption premiums, if any, in connection with the Refunded Bonds.

(iv) The Series 2026 Bonds shall only be issued at a lower net average interest cost rate than the average net interest cost rate of the Refunded Bonds, and the rate of interest borne by the Series 2026 Bonds shall not exceed the maximum interest rate established pursuant to the terms of Section 132.35, Florida Statutes. The present value of the total debt service savings anticipated to accrue to the District from the issuance of the Series 2026 Bonds, calculated in accordance with Section 132.35(2), Florida Statutes, shall be at least three percent (3.00%) of the aggregate principal amount of the Refunded Bonds.

(v) The principal amount of the Series 2026 Bonds shall not exceed an amount sufficient to pay the sum of the principal amount of the Refunded Bonds that are outstanding on the date of issuance of the Series 2026 Bonds, the aggregate amount of unmatured interest payable on the Refunded Bonds to and including either the applicable maturity date thereof or the date that they are called for redemption, the applicable redemption premiums, if any, related to the Refunded Bonds that are called for redemption, and the "refunding expenses" of the Series 2026 Bonds, as defined in the Act, including, but not limited to, original issue discount, if any, all in accordance with Section 132.35, Florida Statutes.

(vi) The sum of the present value of the total payments of principal of and interest to become due on the Series 2026 Bonds (excluding all such principal and interest payments as will be made from the principal of and interest on moneys held by the Escrow Agent under the Escrow Deposit Agreement) and the present value of costs of issuance of the Series 2026

Bonds, if any, not paid with proceeds of the Series 2026 Bonds, will be less than the present value of the principal and interest payments to become due at their stated maturities, or earlier mandatory redemption dates, on the Refunded Bonds.

(vii) The net interest cost rate for the Series 2026 Bonds shall not exceed the interest rate limitation contained in Section 215.84, Florida Statutes.

(viii) The Series 2026 Bonds shall in no event mature later than the final maturity of the Refunded Bonds (July 1, 2040).

(ix) The Series 2026 Bonds shall not be issued until such time as the Chief Financial Officer or Treasurer of the District shall have filed a certificate with the School District setting forth the present value of the total debt service savings which will result from the issuance of the Series 2026 Bonds to refund the Refunded Bonds, computed in accordance with the terms of Section 132.35, Florida Statutes, which certificate shall demonstrate achievement of the minimum savings set forth in Section 7(f) hereof and shall demonstrate mathematically that the Series 2026 Bonds are issued at a lower net average interest cost rate than the Refunded Bonds.

(x) It is hereby found and declared that a negotiated sale of the Series 2026 Bonds is in the best interest of the District and is found to be necessary on the basis of the following reasons, as to which specific findings are hereby made:

1) Due to the volatility of the municipal market, the School District must be able to enter the market at the most advantageous times, rather than at specific advertised dates, thereby permitting the School District to obtain the best possible prices and interest rates to be represented by the Series 2026 Bonds; and

2) The nature of the refinancing of the Series 2026 Bonds is a complex transaction and the structure of the issue and the current demand for this type of security support a negotiated sale; and

3) The Underwriters have participated in structuring the issuance of the Series 2026 Bonds and can assist the School District in obtaining the most attractive financing for the School District; and

4) The underwriters shall be the underwriters named in a bond purchase agreement (the "**Underwriters**").

5) The School District will not be adversely affected if the Series 2026 Bonds are not sold pursuant to a competitive sale.

SECTION 4. FORM OF SERIES 2026 BONDS. The text of the Series 2026 Bonds shall be substantially in the form set forth in **Exhibit A** attached hereto, with such omissions, insertions and variations as may be necessary and desirable.

SECTION 5. APPLICATION OF PROCEEDS OF SERIES 2026 BONDS.

The proceeds derived from the sale of the Series 2026 Bonds net of accrued interest, if any, shall be deposited by the District with the Escrow Agent pursuant to the Escrow Deposit Agreement for deposit in the Escrow Deposit Fund for the defeasance of the Refunded Bonds, and the balance of the proceeds shall be paid to the District, deposited into a Cost of Issuance Account in the Project Fund and used to pay the costs of issuing the Series 2026 Bonds, subject to the provisions of Section 16 of the Master Resolution.

The Registered Owners of the Series 2026 Bonds issued hereunder shall have no responsibility for the use of the proceeds of the Series 2026 Bonds, and the use of such proceeds

by the School District shall in no way affect the rights of such Registered Owners. The School District shall be irrevocably obligated to continue to levy and collect the ad valorem taxes as provided herein and to timely pay the principal of and interest on the Series 2026 Bonds notwithstanding any failure of the School District to use and apply such Series 2026 Bond proceeds in the manner provided herein.

SECTION 6. SERIES 2026 DEBT SERVICE ACCOUNT OF THE DEBT SERVICE FUND. There is hereby created and established by the School District an account within the Debt Service Fund to be known as the "**Series 2026 Debt Service Account**" (the "**Series 2026 Debt Service Account**"), to be held and administered by the School District solely for the purpose of paying the principal of, premium, if any, and interest on the Series 2026 Bonds as they become due, whether at maturity, or upon redemption or purchase for cancellation, or to reimburse the School District for paying such amounts.

SECTION 7. NEGOTIATED SALE OF SERIES 2026 BONDS; BOND PURCHASE AGREEMENT. As provided in Section 3 herein, it is hereby found, ascertained, determined and declared by the School Board that a negotiated sale of the Series 2026 Bonds in the aggregate principal amount of not exceeding $37,000,000 is in the best interest of the School District and is hereby authorized. Each of the Superintendent, the Chief Financial Officer of the School District and the Treasurer of the School District is hereby authorized to award the Series 2026 Bonds to the Underwriters and the Chair is hereby authorized to execute and deliver the Bond Purchase Agreement, substantially in the form attached hereto as Exhibit B and presented at the meeting at which this resolution was considered, subject to such other insertions, modifications and changes therein as may be necessary to evidence the terms of the Series 2026 Bonds and such additional changes as may be approved by the Superintendent, the Chief Financial Officer of the School

District and the Treasurer of the School District, after consultation with the Financial Advisor and the General Counsel. The Underwriters' compensation (which does not include original issue discount) for the Series 2026 Bonds shall be determined by the Treasurer of the School District, after consultation with the Chief Financial Officer and the Financial Advisor, but shall not be more than 0.3% of the principal amount of the Bonds. The execution and delivery of the Bond Purchase Agreement by the Chair or Vice Chair shall constitute conclusive evidence of the approval thereof.

The Representative named in the Bond Purchase Agreement, on behalf of itself and the Underwriters will provide the District with a truth-in-bonding statement containing the information required by Section 218.385(2), Florida Statutes, in connection with the execution of the Bond Purchase Agreement for the purchase the Series 2026 Bonds, together with an Affidavit in compliance with Section 787.06 Florida Statutes.

The School District and its officers are hereby authorized and directed to take such action as the School District or its officers, in consultation with the School District's Financial Advisor, deem necessary or desirable to obtain a securities rating for the Series 2026 Bonds from Moody's, S&P and/or Fitch.

Execution of the Bond Purchase Agreement and the delegation of the School District is subject to the following additional requirements:

(a) the aggregate principal amount of the Series 2026 Bonds shall not exceed $37,000,000;

(b) the final maturity of the Series 2026 Bonds shall not be later than July 1, 2040;

(c) the price at which the Series 2026 Bonds shall be sold to the Underwriters shall not be less than 99.7% of the face amount thereof exclusive of original issue discount;

(d) the first installment of principal of the Series 2026 Bonds shall mature not later than July 1, 2037, the first stated maturity of the Refunded Bonds occurring after the issuance of the Series 2026 Bonds; and

(e) the yield represented by the Series 2026 Bonds as calculated for arbitrage purposes shall not exceed the maximum legal rate; and

(f) the net present value of the total savings anticipated to accrue to the School District upon the refunding of the Refunded Bonds and the issuance of the Series 2026 Bonds, including any amounts contributed to the escrow deposit fund from sources other than Series 2026 Bonds proceeds, shall be at least 3.00% of the aggregate principal amount of the Refunded Bonds.

SECTION 8. PRELIMINARY OFFICIAL STATEMENT; OFFICIAL STATEMENT.

The form of the Preliminary Official Statement attached to this resolution as **Exhibit C** is hereby approved, and the School Board hereby authorizes the distribution and use of the Preliminary Official Statement in connection with the sale of the Series 2026 Bonds. If between the date hereof and the mailing of the Preliminary Official Statement it is necessary to make insertions, modifications and changes to the Preliminary Official Statement, each of the Chair, the Vice Chair, the Superintendent, Chief Financial Officer and the Treasurer is hereby authorized to approve such insertions, modifications and changes, and each of the Chair, the Vice Chair, the Superintendent, Chief Financial Officer and the Treasurer is hereby authorized to deem the Preliminary Official Statement "final" within the meaning of the Rule, in the form as mailed, and in furtherance thereof to execute a certificate evidencing the same substantially in the form attached hereto as **Exhibit D** ("**Deemed Final Certificate**"). The execution and delivery of the Deemed Final Certificate shall constitute conclusive evidence of the approval of any modifications to the Preliminary Official Statement.

The Superintendent is hereby authorized to have prepared and each of the Chair or Vice Chair is hereby authorized to execute a final Official Statement and within seven (7) business days from the date of the execution of the Bond Purchase Agreement, to deliver the same to the Underwriters for use by them in connection with the sale of the Series 2026 Bonds. The Official Statement shall be substantially in the form of the Preliminary Official Statement, with such changes as shall be approved by the Superintendent, Chief Financial Officer or the Treasurer as necessary to conform the details of the Series 2026 Bonds and such other insertions, modifications and changes as may be approved by the Superintendent, Chief Financial Officer or the Treasurer. The execution and delivery of the Official Statement by the Chair or Vice Chair shall constitute conclusive evidence of the approval thereof. The School Board hereby authorizes the Official Statement and the information contained therein to be used in connection with the sale of the Series 2026 Bonds.

SECTION 9. EXECUTION OF ADDITIONAL DOCUMENTS; INCIDENTAL ACTIONS. The Chair, Vice Chair and Secretary, and the Superintendent are authorized and directed to execute and deliver all documents, contracts, instruments and certificates, and to take all actions and steps on behalf of the School Board which are necessary or desirable in connection with the issuance of the Series 2026 Bonds or refunding and defeasance of the Refunded Bonds, and which are not inconsistent with the provisions of the Resolutions.

The School Board hereby authorizes the execution and delivery of any documents, contracts, and certificates in connection with the issuance of the Series 2026 Bonds to be sent by electronic mail (i.e., in PDF format) or signed electronically via an electronic signature provider used in the place of original signatures, as set forth in Section 668.50, Florida Statutes. The execution and delivery of any documents, contracts, and certificates shall constitute conclusive

evidence of (i) the parties' intention to be bound by the signatures of the electronically mailed or signed signatures and the delivery of the same shall be effective as delivery of an original executed counterpart of any documents, contracts, and certificates executed in connection with the Series 2026 Bonds and (ii) the parties' waiver of any defenses to the enforcement of the terms of such documents, contracts, and certificates based on the form of the signature, and such electronically mailed or signed signatures shall be conclusive proof, admissible in judicial proceedings, of the parties' execution of such documents.

SECTION 10. CONTINUING DISCLOSURE. The School District hereby covenants and agrees that, in order to provide for compliance by the School District with the secondary market disclosure requirements of the Rule, if applicable, it will comply with and carry out all of the provisions of a Disclosure Dissemination Agent Agreement for the Series 2026 Bonds (the "**Disclosure Agreement**") between the School District and Digital Assurance Certification LLC, as it may be amended from time to time in accordance with the terms thereof. The Disclosure Agreement shall be substantially in the form attached hereto as **Exhibit E** with such changes, amendments, modifications, omissions and additions as shall be approved by the Chair or Vice Chair who is hereby authorized to execute and deliver the Disclosure Agreement. The execution of the Disclosure Agreement by the Chair or Vice Chair and the Secretary shall constitute conclusive evidence of the approval thereof. Notwithstanding any other provision of this resolution, failure of the School District to comply with the Disclosure Agreement shall not be considered an event of default; provided, however, any holder of a Series 2026 Bond may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the School District to comply with its obligations under this Section 10 and the Disclosure Agreement.

SECTION 11. ESCROW DEPOSIT AGREEMENT. The form of the Escrow Deposit Agreement attached hereto as **Exhibit F** is hereby approved, with such insertions, modifications and changes as may be approved by the Superintendent, and the Chair or Vice Chair and the Secretary, upon such approval by the Superintendent, are hereby authorized and directed to execute and deliver the Escrow Deposit Agreement. The execution of the Escrow Deposit Agreement by the Chair or Vice Chair and the Secretary shall constitute conclusive evidence of the approval thereof.

SECTION 12. MUNICIPAL BOND INSURANCE. The School Board hereby authorizes the payment of the principal and interest on all, a portion or none of the Series 2026 Bonds (the "**Insured Bonds**"), whichever is determined by the Superintendent to be in the District's best interests based on the advice of the Financial Advisor, pursuant to a Bond Insurance Policy that guarantees the scheduled payment when due of principal of and interest on the Insured Bonds issued by a municipal bond insurer (the "**Insurer**"). The Chair and the Superintendent are each hereby authorized to execute such documents and instruments necessary to cause the Insurer to insure the Insured Bonds. With respect to the Insured Bonds, the Insurer shall be deemed to be the "Insurer" as such term is used and defined in the Master Resolution.

SECTION 13. OPEN MEETINGS. It is hereby found and determined that all formal actions of the School Board concerning and relating to the adoption of this resolution and the consummation of the transactions contemplated by this resolution were adopted in open meetings of the School Board, and that all deliberations of the School Board that resulted in such formal action were in meetings open to the public, in compliance with all legal requirements.

SECTION 14. SEVERABILITY. If any one or more of the covenants, agreements or provisions of this resolution shall be held contrary to any express provision of law or contrary to

the policy of express law, though not expressly prohibited, or against public policy, or shall for any reason whatsoever be held invalid, then such covenants, agreements or provisions shall be null and void and shall be deemed separate from the remaining covenants, agreements or provisions, and in no way affect the validity of all the other provisions of this resolution or of the Series 2026 Bonds issued hereunder.

SECTION 15. REPEALER. All resolutions or portions thereof previously adopted by the School Board which are inconsistent with the provisions of this resolution are hereby repealed to the extent of such inconsistency.

SECTION 16. EFFECTIVE DATE. This resolution shall be effective immediately upon its adoption.

Reference is made to the Series 2026 Bond Resolution for the provisions, among others, relating to the terms, lien and security for the Series 2026 Bonds, the custody and application of the proceeds of the Series 2026 Bonds, the rights and remedies of the holders of the Series 2026 Bonds, and the extent of and limitations on the School District's rights, duties, and obligations, to all of which provisions the registered owner hereof assents by acceptance hereof.

This Series 2026 Bond shall be issued initially pursuant to a book-entry-only system administered by The Depository Trust Company ("DTC"), which shall act as securities depository for the Series 2026 Bonds, with no physical distribution of certificates to be made. Any provisions of the Series 2026 Bond Resolution or of the Series 2026 Bonds requiring physical delivery of the Series 2026 Bonds shall, under the book-entry-only system, be deemed to be satisfied by a notation on the records maintained by DTC of ownership interests of its participants ("Direct Participants") and other institutions that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). Direct Participants and Indirect Participants will be responsible for maintaining records with respect to the beneficial ownership interests of individual purchasers of the Series 2026 Bonds (the "Beneficial Owners").

This Series 2026 Bond shall initially be registered in the name of Cede & Co. as nominee for DTC, and so long as this Series 2026 Bond is held in book-entry-only form, Cede & Co. shall be considered the registered holder for all purposes hereof, including the payment of principal of and interest hereon. Payments to Direct Participants shall be the responsibility of DTC. Payments by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to individual Beneficial Owners shall be the responsibility of Direct Participants and Indirect Participants and not of DTC, the Co-Paying Agents or the School District.

This Series 2026 Bond shall constitute a general obligation of the School District, the prompt payment of the principal of and interest on which is secured by the full faith and credit and ad valorem taxing power of the School District. This Series 2026 Bond is payable solely from and secured by a prior lien upon and a pledge of the proceeds of the levy and collection of a direct annual tax, without limitation as to rate or amount, upon all taxable property within the School District sufficient to pay the principal of, and interest on this Series 2026 Bond as the same, respectively, shall become due and payable and to provide for probable failures of collection of such tax in such year, which tax shall be levied and collected at the same time and in the same manner as other ad valorem taxes are assessed, levied and collected for operating expenses of the

School District and shall be in addition to all other taxes authorized to be levied by the School District.

Except when this Series 2026 Bond is registered in book-entry-only form, this Series 2026 Bond may be transferred only upon the books of the School District kept by the Co-Bond Registrar upon surrender thereof at the corporate trust office of the Co-Bond Registrar, U.S. Bank Trust Company, National Association, Fort Lauderdale, Florida, with an assignment duly executed by the registered owner or duly authorized attorney, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the Series 2026 Bond Resolution, and upon surrender and cancellation of this Series 2026 Bond. Upon any such transfer, there shall be executed, and the Co-Bond Registrar shall deliver, a new fully registered Series 2026 Bond or Series 2026 Bonds, payable to the transferee, in authorized denominations and in the same aggregate principal amount, series, maturity and interest rate as this Series 2026 Bond.

In like manner, subject to and upon the payment of such charges, if any, the Registered Owner of this Series 2026 Bond may surrender the same (together with a written authorization for exchange satisfactory to the Co-Bond Registrar duly executed by the Registered Owner or his duly authorized attorney) in exchange for an equal aggregate principal amount of fully registered Series 2026 Bonds in authorized denominations and of the same series, maturity and interest rate as this Series 2026 Bond.

This Series 2026 Bond is and has all the qualities and incidents of a negotiable instrument under the laws of the State of Florida.

The Series 2026 Bonds are subject to redemption prior to maturity as follows: [The Series 2026 Bonds maturing on or after July 1, 20[__] are subject to optional redemption prior to maturity by the District, in whole or in part on any date on or after July 1, 20[___], and if in part, in such order of maturities and in such principal amounts as the District shall select and by lot within a maturity, at a redemption price equal to the principal amount of the Series 2026 Bonds to be redeemed plus accrued interest to the date of redemption.]

It is hereby certified and recited that this Series 2026 Bond is authorized by and is issued in conformity with the requirements of the Constitution and statutes of the State of Florida, that all acts, conditions and things required to exist, to happen and to be performed precedent to the issuance of this Series 2026 Bond exist, have happened and have been performed in regular and due form and time as required by the laws and Constitution of the State of Florida applicable hereto, and that the issuance of the Series 2026 Bonds of this issue does not violate any constitutional or statutory limitation or provision.

This Series 2026 Bond shall not be valid or become obligatory for any purpose or be entitled to any security or benefit under the Series 2026 Bond Resolution until the certificate of authentication hereon shall have been executed by a Co-Bond Registrar.

The School Board of Broward County, Florida
600 S.E. Third Avenue, 2nd Floor
Fort Lauderdale, Florida 33301

Ladies and Gentlemen:

The undersigned, J.P. Morgan Securities LLC (the "Underwriter"), hereby offers to enter into this Bond Purchase Agreement with The School Board of Broward County, Florida (the "School Board") for the purchase and sale by the Underwriter of the School District of Broward County, Florida General Obligation School Refunding Bonds, Series 2026 (the "Series 2026 Bonds").

Unless otherwise agreed to in writing by the Underwriter and the School Board, this offer is made subject to acceptance by the School Board prior to 12:00 p.m. (Eastern Daylight Time) on the date hereof. Upon such acceptance, this Bond Purchase Agreement will be in full force and effect in accordance with its terms and will be binding on the School Board and the Underwriter. If this offer is not so accepted, it is subject to withdrawal by the Underwriter upon written notice delivered by the Underwriter to the School Board at any time prior to such acceptance. Capitalized terms used herein that are not normally capitalized, unless otherwise defined, shall have the meanings ascribed to such terms in the Resolutions (hereinafter defined). In conformance with the provisions of Section 218.385, *Florida Statutes*, as amended, the Underwriter hereby deliver the Disclosure and Truth-in-Bonding Statement attached hereto as Exhibit "A."

1. Purchase and Sale. (a) Upon the terms and conditions and upon the basis of the representations and warranties set forth herein, the Underwriter hereby agrees to purchase all (but not less than all) of the $[par].00 aggregate principal amount of the Series 2026 Bonds for a purchase price equal to $_____ (which purchase price is the aggregate original principal amount of the Series 2026 Bonds, [plus][minus] original issue [premium][discount] of $_____ and minus an Underwriter's discount of $_____). The Series 2026 Bonds will be executed and delivered pursuant to the Constitution and laws of the State of Florida, including Sections 1010.40 through 1010.54, and Chapter 132, Florida Statutes, together with other relevant sections of Chapters 1001-1013, Florida Statutes and other applicable provisions of law (the "Act") and secured by the General Obligation School Bond Master Resolution No. 15-

101 duly adopted by the School Board on December 9, 2014 (the "Master Resolution"), as supplemented by Resolution No. 26-___ adopted by the School Board on February [10], 2026 (the "Series 2026 Supplemental Resolution," and collectively with the Master Resolution, the "Resolutions"). The Series 2026 Bonds will mature on such dates and in such amounts, be subject to redemption, bear interest from the date of the Series 2026 Bonds at the rates, and have such other terms and provisions as set forth in Exhibit "B" attached hereto.

(b) The Series 2026 Bonds are being issued for the purposes of (i) refunding, on a current basis, the portion of the School Board's outstanding General Obligation School Bonds, Series 2015 (the "Series 2015 Bonds") maturing [on and after July 1, 20__ to and including July 1, 20__], as provided in the Escrow Deposit Agreement dated as of the date of the Closing (hereinafter defined) (the "Escrow Deposit Agreement") by and between the School Board and U.S. Bank Trust Company, National Association, as escrow agent thereunder (the "Escrow Agent"), and more particularly described in the Official Statement (hereinafter defined) (the "Refunded Bonds"), and (ii) paying certain costs associated with the issuance of the Series 2026 Bonds[, including the premium for the Policy (hereinafter defined)].

(c) [The scheduled payment of principal of and interest on the Series 2026 Bonds, when due, will be guaranteed under a municipal bond insurance policy (the "Policy") to be issued concurrently with the delivery of the Series 2026 Bonds by Assured Guaranty Inc. (the "Insurer").]

2. Good Faith Wire. The Underwriter shall deliver to the order of the School Board an amount equal to $_____ by wire transfer to be received by the School Board no later than 5:00 p.m. Eastern Daylight Time, on the date of execution of this Bond Purchase Agreement (such wire transfer being hereinafter referred to as the "Good Faith Wire"). If the Good Faith Wire is not received in the amount and at the time set forth in this paragraph, the School Board reserves the right to cancel this Bond Purchase Agreement. In the event the School Board does not accept this offer or upon the failure of the School Board to deliver the Series 2026 Bonds at the Closing, or if the School Board shall be unable to satisfy the conditions to the obligations of the Underwriter contained in this Bond Purchase Agreement, the Good Faith Wire shall be immediately returned to the Underwriter. If the offer is hereby accepted, the School Board agrees to hold the Good Faith Wire until Closing as security for the performance by the Underwriter at the Closing, and the Good Faith Wire shall be applied to the purchase price for the Series 2026 Bonds. Interest on the Good Faith Wire shall accrue solely to the benefit of the School Board and shall not offset the amount due from the Underwriter at Closing or be payable to the Underwriter in the event the Good Faith Wire is returned to the Underwriter. In the event the Underwriter fails to purchase the Series 2026 Bonds at the Closing, unless such failure is permitted as herein provided, the Good Faith Wire and the interest accrued thereon shall be retained by the School Board as full liquidated damages for such failure and, except as set forth in Section 9 hereof, neither party hereto shall have any further rights against the other hereunder.

3. Official Statement. (a) The School Board agrees to deliver or cause to be delivered to the Underwriter, at such addresses as the Underwriter specifies, as many copies of the final Official Statement for the Series 2026 Bonds, dated the date hereof (including the cover page and all appendices, exhibits, reports and statements included therein or attached thereto, and including

any supplements or stickers thereto delivered prior to Closing), executed on behalf of the School Board (the "Final Official Statement") as the Underwriter reasonably requests as necessary to comply with paragraph (b)(4) of Rule 15c2-12 of the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended (the "Rule") and with Rule G-32 and all other applicable rules of the Municipal Securities Rulemaking Board (the "MSRB"). The School Board agrees to deliver the Final Official Statement as soon as practicable after the date hereof but in any event within seven (7) business days after the date hereof, or in such shorter period of time as shall be requested by the Underwriter to accompany any confirmation that requests payments from any customer and to comply with paragraph (b)(4) of the Rule and with Rule G-32 and all other applicable rules of the MSRB.

(b) In accordance with the Rule and Rule G-32 of the MSRB, the Underwriter agrees to file the Final Official Statement with the MSRB at http://emma.msrb.org, in an electronic format as prescribed by the MSRB, not later than one (1) business day after receipt of the Final Official Statement from the School Board and, in any event, no later than the date of the Closing. The Underwriter also agrees to maintain such books and records as required by Rule G-8 of the MSRB with respect to the filing of the Final Official Statement. The School Board hereby agrees and covenants to comply with the Disclosure Dissemination Agent Agreement dated the date of delivery of the Series 2026 Bonds (the "Disclosure Agreement") executed and delivered by the School Board and Digital Assurance Certification LLC, as Disclosure Dissemination Agent under the Disclosure Agreement, in connection with the issuance of the Series 2026 Bonds.

(c) The Underwriter will give the School Board notice of the date after which no "participating underwriter," as such term is defined in the Rule, remains obligated to deliver Official Statements pursuant to paragraph (b)(4) of the Rule; provided, however, that unless otherwise notified by the Underwriter, the School Board shall assume that the "end of the underwriting period," as such term is defined in the Rule, is the date of the Closing and Official Statements shall be required to be delivered up to 25 days after the date of the Closing.

(d) The School Board has approved and authorized the distribution (in printed and electronic format) of the Preliminary Official Statement dated February [24], 2026 (the "Preliminary Official Statement") and hereby approves and authorizes the execution, delivery and distribution (in printed and electronic format) of the Final Official Statement (the Final Official Statement and any amendments or supplements that may be authorized for distribution with respect to the Series 2026 Bonds are herein referred to collectively as the "Official Statement") in connection with the public offering and sale of the Series 2026 Bonds.

4. Representations and Warranties of the School Board. The School Board represents and warrants to and agrees with the Underwriter that:

(a) both at the time of its acceptance hereof and at all times during the period from the date hereof up to and including a date which is the later of (i) receipt of notice from the Underwriter pursuant to Section 3(c) hereof that the Official Statement is no longer required to be delivered under the Rule or (ii) 90 days after the date of the Closing (or 25 days after the date of the Closing if the Final Official Statement is filed with the MSRB in electronic format at or prior to Closing), the statements and information contained in the Official Statement with respect to the

(c) if the Official Statement is supplemented or amended pursuant to Section 8 hereof, at the time of each supplement or amendment thereto and (unless subsequently again supplemented or amended pursuant to Section 8 hereof) at all times during the period from the date of such supplement or amendment to and including a date which is the later of (i) receipt of notice from the Underwriter pursuant to Section 3(c) hereof that the Official Statement is no longer required to be delivered under the Rule or (ii) 90 days after the date of the Closing (or 25 days after the date of the Closing if the Final Official Statement is filed with the MSRB in electronic format at or prior to Closing), the Official Statement as so supplemented or amended will not contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements contained therein, in the light of the circumstances under which they were made, not misleading;

(e) except as otherwise described in the Preliminary Official Statement and the Official Statement and except as may be required by the "blue sky" or other securities laws of any of the jurisdictions where the Series 2026 Bonds may be sold, the School Board has received and there remain currently in full force and effect, or will receive prior to the delivery of the Series 2026 Bonds, all governmental consents and approvals that would constitute a condition precedent to, or the absence of which would materially adversely affect, the performance by the School Board of its obligations under the Resolutions, the Disclosure Agreement, the Escrow Deposit Agreement, or any agreement entered into by the School Board with U.S. Bank Trust Company, National Association (the "Co-Registrar and Co-Paying Agent") to provide the terms for such entity to serve as Co-Registrar and Co-Paying Agent for the Series 2026 Bonds (the "Registrar and

Paying Agent Agreement");

(f) the School Board will cooperate with the Underwriter and its counsel in taking all necessary action to qualify the Series 2026 Bonds for offer and sale under the securities or "blue sky" laws of such jurisdictions as the Underwriter may reasonably request; provided however that the School Board will not be required to execute a special or general consent to service of process, pay any fee or qualify as a foreign corporation in connection with such qualification;

(h) since June 30, 2025, there has been no material adverse change in the financial position, results of operations or condition, financial or otherwise, of the School Board and the District and the School Board has not incurred liabilities that would materially adversely affect the ability of the School Board to discharge its obligations under this Bond Purchase Agreement, the Series 2026 Bonds, the Disclosure Agreement, the Escrow Deposit Agreement, the Registrar and Paying Agent Agreement, and any other agreements required to be executed by the School Board relating thereto, or the Resolutions (collectively, the "School Board Documents"), direct or contingent, other than as set forth in or contemplated by the Preliminary Official Statement and the Official Statement;

(i) the approval, execution and delivery by the School Board of the School Board Documents, adoption of the Resolutions and compliance with the provisions thereof, under the circumstances contemplated thereby, do not and will not conflict with, constitute a breach of or default under, or result in the creation of a lien on any property of the District or the School Board (except as contemplated therein) pursuant to applicable law or any indenture, bond resolution, deed of trust, mortgage, agreement or other instrument to which the District or the School Board is a party, except as described in the Preliminary Official Statement and the Official Statement, or conflict with or violate any applicable law, administrative rule, regulation, judgment, court order or consent decree to which the School Board is subject which, in any such event, would have a material adverse effect on the redemption of the Refunded Bonds, issuance of the Series 2026 Bonds or any of the transactions contemplated thereby;

(j) except as disclosed in the Preliminary Official Statement and the Official Statement, there is no claim, action, suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, governmental agency, or public board or body, pending or, to the best of its knowledge, threatened (i) contesting the corporate existence or powers of the School Board or the titles of the officers of the School Board to their respective offices, (ii) seeking to prohibit, restrain or enjoin the collection of revenues by the School Board, redemption of the Refunded Bonds, or the application of the proceeds of the Series 2026 Bonds in the manner described or

contemplated herein and in the Preliminary Official Statement and the Official Statement, in which an unfavorable decision, ruling or finding would materially adversely affect the financial position of the District or the School Board or the operation of its facilities or the validity or enforceability of any of the School Board Documents, (iii) contesting or affecting the validity of any of the School Board Documents, (iv) contesting in any way the completeness or accuracy of the Preliminary Official Statement or the Official Statement (nor, to the best knowledge of the School Board, is there any basis therefor), or (v) challenging the right of the School Board to refund the Refunded Bonds or to issue the Series 2026 Bonds;

(k) when duly executed and delivered by the other parties thereto, as applicable, the School Board Documents will have been duly authorized, executed and delivered by the School Board, the Resolutions have been duly adopted by the School Board and, on the date of the Closing and thereafter, each will constitute a legal, valid and binding obligation of the School Board, enforceable in accordance with its terms (except insofar as the enforcement thereof may be limited by bankruptcy, insolvency or similar laws relating to the enforcement of creditors' rights and by general principles of equity);

(l) the School Board is in compliance with its continuing disclosure undertakings pursuant to the Rule in connection with all outstanding obligations for which the School Board has agreed to undertake continuing disclosure obligations. In the past five (5) years, except as otherwise described in the Preliminary Official Statement and the Official Statement, the School Board has never failed to comply with any prior agreement to provide continuing disclosure information pursuant to the Rule;

At 10:00 a.m. (Eastern Daylight Time) on April [6], 2026, or at such earlier or later time or date as we mutually agree upon (herein called the "Closing"), the School Board will cause to be delivered to, or for the benefit of, the Underwriter, at the offices of the School Board in the City of Fort Lauderdale, Florida, or at such other place upon which the parties hereto may agree, all of the Series 2026 Bonds in the form of one typewritten certificate for each interest rate of each maturity, with CUSIP identification numbers printed thereon, duly executed and authenticated and registered in the name of Cede & Co., as nominee of The Depository Trust Company ("DTC"). At the Closing, the School Board will deliver or cause to be delivered to the Underwriter the other documents hereinafter mentioned. At the Closing, the Underwriter will accept delivery of the Series 2026 Bonds and pay the purchase price of the Series 2026 Bonds (net of the Good Faith Wire [and any amount paid directly to the Insurer, at the direction of the School Board, to provide for payment of the premium for the Policy]) with federal or other immediately available funds by wire transfer of funds to or for the account of the School Board. The Series 2026 Bonds shall be made available to the Underwriter for inspection as soon as practicable, but at least one (1) business day prior to the Closing, at such place as the Underwriter and the School Board may agree.

6. Conditions to Closing. The Underwriter has entered into this Bond Purchase Agreement in reliance upon the representations and agreements of the School Board herein and the performance by the School Board of its obligations hereunder, both as of the date hereof and as of the date of the Closing. The Underwriter's obligations under this Bond Purchase Agreement are and will be subject to the following further conditions:

(a) at the time of the Closing (i) the School Board Documents will be in full force and effect and will not have been amended, modified or supplemented except as may have been agreed to in writing by the Underwriter, (ii) the proceeds of the sale of the Series 2026 Bonds will be applied as described in the Official Statement, and (iii) the School Board will have duly adopted and there shall be in full force and effect such resolutions as, in the opinion of Greenberg Traurig, P.A. and Edwards & Feanny, P.A. (b) the Underwriter shall have the right to cancel its obligations to purchase the Series 2026 Bonds, by notice from the Underwriter to the School Board of its election to do so, if between the date hereof and the Closing:

(i) legislation shall have been enacted by the Congress of the United States or adopted by either House thereof or favorably reported for passage to either House of the Congress by any committee of such House to which such legislation shall have been referred for consideration, or enacted by the Florida Legislature or adopted by either House thereof or favorably reported for passage to either House of the Florida Legislature by any

committee of such House to which such legislation shall have been referred for consideration, or a decision shall have been rendered by a court of the United States or of the State of Florida or by the Tax Court of the United States, or any stop order, release, regulation or no-action letter by or on behalf of the Securities and Exchange Commission or any other governmental agency having jurisdiction, shall occur or be introduced, enacted or adopted, or a ruling or an official statement shall have been made or a regulation shall have been proposed or made by or on behalf of the Treasury Department of the United States or the Internal Revenue Service or other federal or Florida authority, with respect to federal or Florida taxation upon revenues or other income of the general character to be derived by the School Board or by any similar body, or upon interest on obligations of the general character of the Series 2026 Bonds, or the tax treatment thereof for federal income tax purposes, or (in the case of Florida authorities only) with respect to Florida taxation on the Series 2026 Bonds as intangible personal property, or other action or events shall have transpired that, in the reasonable judgment of the Underwriter, would have the purpose or effect, directly or indirectly, of changing the federal income tax consequences or Florida tax consequences of any of the transactions contemplated in connection herewith, and that, in the reasonable judgment of the Underwriter, affects materially and adversely the market price or the marketability of the Series 2026 Bonds or the ability of the Underwriter to enforce contracts for the sale of the Series 2026 Bonds; or

(ii) any event shall have occurred, or any condition shall exist that, in the reasonable judgment of the Underwriter, either (A) makes untrue or incorrect in any material respect any statement or information contained in the Official Statement or (B) is not reflected in the Official Statement but should be reflected therein in order to make the statements and the information contained therein, in light of the circumstances under which they were made, not misleading in any material respect and, in either such event, the School Board refuses to permit the Official Statement to be supplemented or amended in accordance with Section 8 hereof to supply such statement or information; or

(iii) there shall have occurred any outbreak or escalation of hostilities, or declaration of war by the United States, or other local, national or international emergency, calamity or crisis, including financial crisis, the effect of which on the financial markets of the United States, in the reasonable judgment of the Underwriter, materially and adversely impairs the marketability or market price of the Series 2026 Bonds or the ability of the Underwriter to enforce contracts for the sale of the Series 2026 Bonds; or

(iv) there shall be in force a general suspension of trading on the New York Stock Exchange or minimum or maximum prices for trading shall have been fixed and be in force, or maximum ranges for prices of securities shall have been required and be in force on the New York Stock Exchange, or by order of the Securities and Exchange Commission or any other governmental authority having jurisdiction, or there shall be in force a suspension of trading in any outstanding securities of the School Board; or

(v) a general banking moratorium shall have been declared by federal, Florida or New York authorities having jurisdiction and be in force, or any new restriction on transactions in securities materially affecting the free market for securities such as the

Series 2026 Bonds (including the imposition of any limitation on interest rates) or the extension of credit by, or a change to the net capital requirements of, Underwriter established by the New York Stock Exchange, the Securities and Exchange Commission, any other federal or Florida agency or the Congress of the United States, or by executive order, which, in the reasonable judgment of the Underwriter, materially and adversely impairs the marketability or market price of the Series 2026 Bonds; or

(vi) legislation shall be enacted, or a decision by a court of the United States shall be rendered that, in the opinion of Underwriter's Counsel, has the effect of requiring the contemplated distribution of the Series 2026 Bonds or any action or instrument pertaining thereto to be registered under the Securities Act of 1933, as amended, or under Florida law, or of requiring either of the Resolutions, or any instrument or act pertaining thereto, to be qualified under the Trust Indenture Act of 1939, as amended; or

(vii) there shall have been any materially adverse change in the affairs of the School Board that, in the reasonable judgment of the Underwriter, materially and adversely affects the market price or marketability of the Series 2026 Bonds or the ability of the Underwriter to enforce contracts for the sale of the Series 2026 Bonds; or

(c) Any of the expenses described in this Section may be paid in the form of the inclusion of such expenses in the expense component of the Underwriter's discount.

10. Establishing Issue Price. The Underwriter, on behalf of the Underwriter, agrees to assist the School Board in establishing the issue price of the Series 2026 Bonds and shall execute and deliver to the School Board at Closing an "issue price" or similar certificate, together with the supporting pricing wires or equivalent communications, substantially in the form attached hereto as Exhibit "C," with such modifications as may be appropriate or necessary, in the reasonable judgment of the Underwriter, the School Board and Co-Bond Counsel, to accurately reflect, as applicable, the sales price or prices or the initial offering price or prices to the public of the Series 2026 Bonds.

(a) The School Board will treat the first price at which 10% of each maturity of the Series 2026 Bonds (the "10% test") is sold to the public as the issue price of that maturity. At or promptly after the execution of this Bond Purchase Agreement, the Underwriter shall report to the School Board the price or prices at which the Underwriter has sold to the public each maturity of Series 2026 Bonds. For purposes of this Section 10, if Series 2026 Bonds mature on the same date but have different interest rates, each separate CUSIP number within that maturity will be treated as a separate maturity of the Series 2026 Bonds. [insert hold the price disclosure, if applicable]

(b) The Underwriter confirms that the Underwriter has offered the Series 2026 Bonds to the public on or before the date of this Bond Purchase Agreement at the offering price or prices (the "initial offering price"), or at the corresponding yield or yields, set forth in Schedule A to Exhibit "C" attached hereto, except as otherwise set forth therein.

The School Board acknowledges that, in making the representation set forth in this subsection, the Underwriter will rely on (i) the agreement of each Underwriter to comply with the requirements for establishing the issue price of the Series 2026 Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2026 Bonds, as set forth in an agreement among Underwriter and the related pricing wires, (ii) in the

event a selling group has been created in connection with the initial sale of the Series 2026 Bonds to the public, the agreement of each dealer who is a member of the selling group to comply with the requirements for establishing the issue price of the Series 2026 Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2026 Bonds, as set forth in a selling group agreement and the related pricing wires, and (iii) in the event that an Underwriter or dealer who is a member of the selling group is a party to a third-party distribution agreement that was employed in connection with the initial sale of the Series 2026 Bonds to the public, the agreement of each broker-dealer that is a party to such agreement to comply with the requirements for establishing the issue price of the Series 2026 Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2026 Bonds, as set forth in the third-party distribution agreement and the related pricing wires. The School Board further acknowledges that each Underwriter shall be solely liable for its failure to comply with its agreement regarding the requirements for establishing the issue price of the Series 2026 Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2026 Bonds, and that no Underwriter shall be liable for the failure of any other Underwriter, or of any dealer who is a member of a selling group, or of any broker-dealer that is a party to a third-party distribution agreement, to comply with its corresponding agreement to comply with the requirements for establishing the issue price of the Series 2026 Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2026 Bonds.

(c) The Underwriter confirms that:

(i) any agreement among Underwriter, any selling group agreement and each third-party distribution agreement (to which the Underwriter is a party) relating to the initial sale of the Series 2026 Bonds to the public, together with the related pricing wires, contains or will contain language obligating each Underwriter, each dealer who is a member of the selling group, and each broker-dealer that is a party to such third-party distribution agreement, as applicable, to (A) (1) report the prices at which it sells to the public the unsold Series 2026 Bonds of each maturity allotted to it, whether or not the Closing has occurred, until either all Series 2026 Bonds of that maturity allocated to it have been sold or it is notified by the Underwriter that the 10% test has been satisfied as to the Series 2026 Bonds of that maturity, provided that, the reporting obligation after the Closing may be at reasonable periodic intervals or otherwise upon request of the Underwriter, and (2) comply with the hold-the-offering-price rule, if applicable, if and for so long as directed by the Underwriter and as set forth in the related pricing wires, (B) promptly notify the Underwriter of any sales of the Series 2026 Bonds that, to its knowledge, are made to a purchaser who is a related party to an underwriter participating in the initial sale of the Series 2026 Bonds to the public (each such term being used as defined below), and (C) acknowledge that, unless otherwise advised by the Underwriter, dealer or broker-dealer, the Underwriter shall assume that each order submitted by the Underwriter, dealer or broker-dealer is a sale to the public; and

(ii) any agreement among Underwriter or selling group agreement relating to the initial sale of the Series 2026 Bonds to the public, together with the related pricing wires, contains or will contain language obligating each underwriter or dealer that

is a party to a third-party distribution agreement to be employed in connection with the initial sale of the Series 2026 Bonds to the public to require each broker-dealer that is a party to such third-party distribution agreement to (A) report the prices at which it sells to the public the unsold Series 2026 Bonds of each maturity allotted to it, whether or not the Closing has occurred, until either all Series 2026 Bonds of that maturity allocated to it have been sold or it is notified by the Underwriter or such underwriter or dealer that the 10% test has been satisfied as to the Series 2026 Bonds of that maturity, provided that, the reporting obligation after the Closing may be at reasonable periodic intervals or otherwise upon request of the Underwriter or such underwriter or dealer, and (B) comply with the hold-the-offering-price rule, if applicable, if and for so long as directed by the Underwriter or the underwriter or dealer and as set forth in the related pricing wires.

(d) The Underwriter acknowledge that sales of any Series 2026 Bonds to any person that is a related party to an underwriter participating in the initial sale of the Series 2026 Bonds to the public (each such term being used as defined below) shall not constitute sales to the public for purposes of this section. Further, for purposes of this Section 10:

(i) "public" means any person other than an underwriter or a related party,

(ii) "underwriter" means (A) any person that agrees pursuant to a written contract with the School Board (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Series 2026 Bonds to the public and (B) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (A) to participate in the initial sale of the Series 2026 Bonds to the public (including a member of a selling group or a party to a third-party distribution agreement participating in the initial sale of the Series 2026 Bonds to the public), and

(iii) a purchaser of any of the Series 2026 Bonds is a "related party" to an underwriter if the underwriter and the purchaser are subject, directly or indirectly, to (A) more than 50% common ownership of the voting power or the total value of their stock, if both entities are corporations (including direct ownership by one corporation of another), (B) more than 50% common ownership of their capital interests or profits interests, if both entities are partnerships (including direct ownership by one partnership of another), or (C) more than 50% common ownership of the value of the outstanding stock of the corporation or the capital interests or profit interests of the partnership, as applicable, if one entity is a corporation and the other entity is a partnership (including direct ownership of the applicable stock or interests by one entity of the other).

(f) The School Board is proposing to issue $[par] of debt or obligation for the primary purpose of providing for the refunding, on a current basis, of the portion of the School Board's outstanding General Obligation School Bonds, Series 2015 maturing on and after July 1, 20__ to and including July 1, 20__, (the "Refunded Bonds"), as more particularly described in the Official Statement dated March [11], 2026 delivered in connection with the issuance of the Series 2026 Bonds. The debt or obligation is expected to be repaid over a period of approximately _____ (__) years. At a forecasted true interest cost of _____% per annum, total interest to be paid over the life of the debt or obligation will be $_____.

(g) The source of repayment or security for this proposal is the ad valorem taxes levied and collected in the School District of Broward County, Florida (the "District") for payment of the Series 2026 Bonds. Authorizing this debt or obligation will result in approximately $_____ (representing the average annual debt service on the Series 2026 Bonds) of such ad valorem taxes being used to pay debt service on the Series 2026 Bonds each year for approximately _____ (__) years but such use will not affect the funds available to finance other services of the District because (i) taxes were already pledged for the repayment of the Refunded Bonds and such taxes may be levied only to pay debt service on general obligation bonds of the District and (ii) issuance of the Series 2026 Bonds will result in a net present value debt service savings of approximately $_____, although such savings will not be realized in an equal amount each year the Series 2026 Bonds are outstanding.

We understand that you do not require any further disclosure from the Underwriter pursuant to Section 218.385, *Florida Statutes*, as amended.

Very truly yours,

1. Sale of the Series 2026 Bonds. As of the date of this Certificate, for each Maturity of the Series 2026 Bonds, the first price at which at least 10% of such Maturity of the Series 2026 Bonds was sold to the Public is the respective price listed in Schedule A.[add hold-the-price representations if applicable]

2. Defined Terms.

A person is a "Related Party" to an Underwriter if the Underwriter and the person are subject, directly or indirectly, to (i) more than 50% common ownership of the voting power or the total value of their stock, if both entities are corporations (including direct ownership by one corporation of another), (ii) more than 50% common ownership of their capital interests or profits interests, if both entities are partnerships (including direct ownership by one partnership of another), or (iii) more than 50% common ownership of the value of the outstanding stock of the corporation or the capital interests or profit interests of the partnership, as applicable, if one entity is a corporation and the other entity is a partnership (including direct ownership of the applicable stock or interests by one entity of the other).

All terms not defined herein shall have the same meanings as in the Arbitrage and Tax Certificate with respect to the Series 2026 Bonds (the "Tax Certificate"), to which this Certificate is attached. Nothing in this Certificate represents the Underwriter's interpretation of any laws, including specifically Sections 103 and 148 of the Internal Revenue Code of 1986, as amended, and the Treasury Regulations thereunder (collectively, the "Code") and we make no warranty regarding the sufficiency of the foregoing representations for purposes of such provisions of the Code. The undersigned understands that the foregoing information will be relied upon by the Issuer with respect to certain of the representations set forth in the Tax Certificate and with respect to compliance with the federal income tax rules affecting the Series 2026 Bonds, and by Greenberg Traurig, P.A. and Edwards & Feanny, P.A., Co-Bond Counsel, in connection with rendering their opinion that the interest on the Series 2026 Bonds is excluded from gross income for federal income tax purposes, the preparation of Internal Revenue Service Form 8038-G, and other federal income tax advice they may give to the Issuer from time to time relating to the Series 2026 Bonds. FORM OF PRELIMINARY OFFICIAL STATEMENT

PRELIMINARY OFFICIAL STATEMENT DATED FEBRUARY __, 2026

NEW ISSUE--BOOK-ENTRY ONLY **RATINGS: See "Ratings" herein**

In the opinion of Greenberg Traurig, P.A. and Edwards & Feanny P.A., Co-Bond Counsel, assuming the accuracy of certain certifications and continuing compliance with certain tax covenants, under existing statutes, regulations, rulings and court decisions, (i) interest on the Series 2026 Bonds is excludable from gross income for federal income tax purposes; and (ii) interest on the Series 2026 Bonds is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals. In the case of the alternative minimum tax imposed by Section 55(b)(2) of the Internal Revenue Code of 1986, as amended (the "Code"), on applicable corporations (as defined in Section 59(k) of the Code), interest on the Series 2026 Bonds is not excluded from the determination of adjusted financial statement income. See "TAX EXEMPTION" herein for a description of certain other federal tax consequences of ownership of the Series 2026 Bonds. Co-Bond Counsel is further of the opinion that the Series 2026 Bonds and the interest thereon are not subject to taxation under the laws of the State of Florida, except as to estate taxes, and taxes under Chapter 220, Florida Statutes, on interest, income or profits on debt obligations owned by corporations as defined in said Chapter 220. See "TAX EXEMPTION" herein.

GENERAL OBLIGATION SCHOOL REFUNDING BONDS,
SERIES 2026

INTRODUCTION

This Official Statement, including the cover page, inside cover page and the Appendices hereto, is furnished with respect to the sale of $[POS PAR]* aggregate principal amount of School District of Broward County, Florida General Obligation School Refunding Bonds, Series 2026 (the "Series 2026 Bonds") being issued by the School District of Broward County, Florida (the "District"), acting through The School Board of Broward County, Florida (the "School Board"), its governing body.

The Series 2026 Bonds are being issued pursuant to the Constitution and the laws of the State of Florida, including Sections 1010.40 through 1010.54, Florida Statutes and Chapter 132, Florida Statutes, together with other relevant sections of Chapters 1001-1013, Florida Statutes and other applicable provisions of law (the "Act") and General Obligation School Bond Master Resolution No. 15-101 duly adopted by the School Board on December 9, 2014 (the "Master Resolution"), as supplemented, particularly as supplemented by Resolution No. 26-___ adopted by the School Board on February 10, 2026 (the "Series 2026 Supplemental Resolution," and collectively with the Master Resolution, the "Resolution"). Capitalized terms used, but not otherwise defined herein, shall have the meaning assigned thereto in the Resolution included as "APPENDIX C – COPY OF RESOLUTION" hereto.

Pursuant to a referendum election held on November 4, 2014, the qualified electors of the District approved the issuance of various series of new money general obligation bonds pursuant to the Master Resolution in the total amount of not exceeding $800,000,000 for the purpose of acquiring, building, enlarging, furnishing or otherwise improving school buildings and school grounds within the District, including safety enhancements and instructional technology upgrades in schools throughout the District, as more particularly described in the District's Educational Facilities Plan (the "District's Educational Facilities Plan" or "DEFP"). The District previously issued $155,055,000 aggregate principal amount of General Obligation School Bonds, Series 2015 (the "Series 2015 Bonds") on June 18, 2015, $174,750,000 aggregate principal amount of General Obligation School Bonds, Series 2019 (the "Series 2019 Bonds") on February 13, 2019, $207,465,000 aggregate principal amount of General Obligation School Bonds, Series 2021 (the "Series 2021 Bonds") on February 16, 2021, $262,730,000 aggregate principal amount of General Obligation School Bonds, Series 2022 (the "Series 2022 Bonds") on May 18, 2022 and $69,455,000 aggregate principal amount of General Obligation School Refunding Bonds, Series 2025 (the "Series 2025 Bonds") on June 9, 2025. Upon issuance of the Series 2022 Bonds, the District had issued the full $800,000,000 of new money general obligation bonds authorized by the voters in the District in the November 4, 2014 referendum. However, General Obligation School Refunding Bonds (such as the Series 2025 Bonds and the Series 2026 Bonds) may still be issued to refund the previously issued new money General Obligation School Bonds. The Series 2026 Bonds, together with the Series 2015 Bonds not constituting Refunded Bonds (as defined herein), if any, the Series 2019 Bonds, the Series 2021 Bonds, the Series 2022 Bonds, the Series 2025 Bonds and any Additional Bonds issued from time to time for refunding purposes pursuant to the Master Resolution, are referred to herein as the "Bonds." See "AUTHORITY

* Preliminary, subject to change.

FOR AND PURPOSE OF ISSUANCE; VALIDATION," "PLAN OF REFUNDING" and "THE EDUCATIONAL FACILITIES PLAN" herein.

The Series 2026 Bonds are being issued for the principal purposes of (i) refunding, on a current basis, **[**all or a portion**]** of the outstanding Series 2015 Bonds, as more particularly described herein (the "Refunded Bonds"), and (ii) paying certain costs associated with the issuance of the Series 2026 Bonds. See "PLAN OF REFUNDING" and "ESTIMATED SOURCES AND USES OF FUNDS" herein.

The Series 2026 Bonds are general obligations of the District, the prompt payment of the principal of, premium, if any, and interest on which is secured by the full faith and credit and ad valorem taxing power of the District. The Series 2026 Bonds are payable solely from and secured by a prior lien upon and a pledge of the proceeds of the levy and collection of a direct annual tax, without limitation as to rate or amount, upon all taxable property within the District sufficient to pay the principal of, premium, if any, and interest on the Series 2026 Bonds as the same shall become due and payable and to provide for probable failures of collection of such tax in such year, which tax will be levied and collected at the same time and in the same manner as other ad valorem taxes are assessed, levied and collected for operating expenses of the District and will be in addition to all other taxes authorized to be levied by the District. See "SECURITY FOR THE SERIES 2026 BONDS" herein.

[Based on market conditions in existence at the time of pricing, the District will determine whether or not to purchase insurance on all of the Series 2026 Bonds, some of the Series 2026 Bonds or none of the Series 2026 Bonds. In the event the District deems it in its best interest to insure all or a portion of the Series 2026 Bonds, the scheduled payment of the principal of and interest on such insured Series 2026 Bonds when due will be guaranteed under a municipal bond insurance policy (the "Policy") to be issued concurrently with the delivery of the Series 2026 Bonds by **[**INSURER**]** ("**[**INSURER SHORT NAME**]**" or the "Insurer"). See "BOND INSURANCE OPTION" and "BOND INSURANCE RISK FACTORS" herein.**]**

The District has agreed and undertaken for the benefit of the holders of the Series 2026 Bonds, to provide certain financial information and operating data relating to the District and the Series 2026 Bonds on a continuing basis pursuant to Rule 15c2-12 of the Securities and Exchange Act of 1934, as amended. See "CONTINUING DISCLOSURE" herein.

This introduction is not a summary of this Official Statement. It is only a brief description of and guide to, and is qualified by, more complete and detailed information contained in the entire Official Statement, including the cover page, inside cover page and Appendices hereto, and the documents summarized or described herein. A full review should be made of the entire Official Statement. The offering of the Series 2026 Bonds is made only by means of this Official Statement and is subject in all respects to the information contained herein. For a complete description of the terms and conditions of the Series 2026 Bonds, reference is made to the copy of the Resolution in APPENDIX C of this Official Statement.

AUTHORITY FOR AND PURPOSE OF ISSUANCE; VALIDATION

The Series 2026 Bonds are being issued pursuant to the Act and the Resolution for the purposes of (i) refunding, on a current basis, the Refunded Bonds and (ii) paying the costs of issuance with respect to the Series 2026 Bonds, including the Policy premium, if any. The issuance of Bonds pursuant to the Resolution was validated by the Circuit Court of the Seventeenth Judicial Circuit, in and for Broward County, pursuant to a Final Judgment entered on March 23, 2015. The appeal period for such Final

Judgment expired on April 23, 2015, without an appeal having been filed. See "ESTIMATED SOURCES AND USES OF FUNDS" and "THE EDUCATIONAL FACILITIES PLAN" herein.

PLAN OF REFUNDING

The Refunded Bonds will be called for redemption on **[**April 30, 2026**]** (the "Redemption Date") at a redemption price equal to 100% of the par amount of the Refunded Bonds, plus accrued interest to the redemption date. Simultaneously with the delivery of the Series 2026 Bonds, the School Board will deposit a portion of the proceeds of the Series 2026 Bonds in an escrow fund with U.S. Bank Trust Company, National Association, Fort Lauderdale, Florida, as escrow agent (the "Escrow Agent") pursuant to a Series 2015 Escrow Deposit Agreement (the "Escrow Deposit Agreement") to be applied to the purchase of certain United States Treasury Obligations (the "Escrow Securities"), which together with interest earnings thereon and a cash deposit therein, will be sufficient to pay the principal of, and interest on, the Refunded Bonds to the Redemption Date. Co-Bond Counsel will render their opinion to the effect that, assuming the deposit and application of such proceeds in accordance with the terms of the Escrow Deposit Agreement provision having been made for the payment of the Refunded Bonds, the Refunded Bonds will be deemed to be paid and will no longer be outstanding under the Resolution. Such opinions will be rendered in reliance upon the verification report of _____, _____, _____, independent certified public accountants described under the heading "VERIFICATION OF MATHEMATICAL COMPUTATIONS" herein.

VERIFICATION OF MATHEMATICAL COMPUTATIONS

The accuracy of the arithmetic computations showing the adequacy of the maturing principal of and interest on the Escrow Securities to be acquired with a portion of the proceeds of the Series 2026 Bonds**[**,together with other legally available funds for such purpose,**]** to pay the principal of, and interest on, the Refunded Bonds, as described under "PLAN OF REFUNDING" above and the yields on the Series 2026 Bonds and the Escrow Securities have been verified by _____, _____, _____.

DESCRIPTION OF THE SERIES 2026 BONDS

General

The Series 2026 Bonds will be dated the date of delivery, will mature in the years and principal amounts and accrue interest at the interest rates set forth on the inside cover page of this Official Statement. Interest on the Series 2026 Bonds is payable semi-annually on each July 1 and January 1, commencing **[**July 1, 2026**]** (each an "Interest Payment Date") until maturity or earlier redemption. The Series 2026 Bonds will initially be issued exclusively in "book-entry" form and ownership of one fully registered bond certificate for each maturity as set forth on the inside cover page, each in the aggregate principal amount of such maturity, will be initially registered in the name of "Cede & Co." as nominee of DTC. The principal of and interest on the Series 2026 Bonds are payable in the manner set forth under " - Book-Entry Only System" herein. Individual purchases of the Series 2026 Bonds will be made in increments of $5,000 or integral multiples thereof.

Redemption Provisions

Optional Redemption. The Series 2026 Bonds maturing on and after July 1, 20__ are subject to optional redemption prior to maturity by the District, in whole or in part on any date on or after July 1, 20__, and if in part, in such principal amount as the District shall select and by lot within a maturity, at a redemption price equal to the principal amount of the Series 2026 Bonds to be redeemed plus accrued interest to the date of redemption.

Notice of Redemption

Notice of redemption will be given by deposit in the U.S. mail, of a copy of a redemption notice, first class and postage prepaid, at least 30 and not more than 60 days before the redemption date to all registered owners of the Series 2026 Bonds or portions of the Series 2026 Bonds to be redeemed at their addresses as they appear on the registration books to be maintained in accordance with the provisions of the Resolution. Failure to mail any such notice to a registered owner of a Series 2026 Bond, or any defect in such notice, will not affect the validity of the proceedings for redemption of any Series 2026 Bond or portion of any Series 2026 Bond with respect to which no failure or defect occurred. Any notice mailed as provided in the Resolution will be conclusively presumed to have been duly given, whether or not the owner of such Series 2026 Bond receives such notice.

Each redemption notice will set forth the date fixed for redemption, the rate of interest borne by each Series 2026 Bond being redeemed, the name and address of the Registrar and Paying Agent, the redemption price to be paid, if less than all of the Series 2026 Bonds then Outstanding will be called for redemption, the distinctive numbers and letters, including CUSIP numbers, if any, of such Series 2026 Bonds to be redeemed and, in the case of Series 2026 Bonds to be redeemed in part only, the portion of the principal amount to be redeemed. If any Series 2026 Bond is to be redeemed in part only, the notice of redemption which relates to such Series 2026 Bond will also state that on or after the redemption date, upon surrender of such Series 2026 Bond, a new Series 2026 Bond or Series 2026 Bonds in a principal amount equal to the unredeemed portion of such Series 2026 Bond will be issued. Notwithstanding any other provision of the Resolution, notice of optional redemption pursuant to the Resolution may be conditioned upon the occurrence or non-occurrence of such event or events as shall be specified in such notice of optional redemption and may also be subject to rescission by the District if expressly set forth in such notice.

Selection of Series 2026 Bonds to be Redeemed

The Series 2026 Bonds shall be redeemed only in the principal amount of $5,000 each and integral multiples thereof. For purposes of any redemption of less than all of the Series 2026 Bonds then Outstanding of a single maturity, the particular Series 2026 Bonds or portions of Series 2026 Bonds to be redeemed shall be selected not more than thirty-five (35) days prior to the redemption date by the Registrar, from the Outstanding Series 2026 Bonds of the maturity or maturities designated by the District by such method as the Registrar shall deem fair and appropriate and which may provide for the selection for redemption of the Series 2026 Bonds or portions of the Series 2026 Bonds in principal amounts of $5,000 and integral multiples thereof.

Effect of Calling Series 2026 Bonds for Redemption

The Series 2026 Bonds or portions of Series 2026 Bonds called for redemption shall, on the redemption date designated in the redemption notice, be due and payable at the redemption price provided for in such notice. On the redemption date, provided moneys are on deposit with the Paying Agent, interest on the Series 2026 Bonds or portions of the Series 2026 Bonds called for redemption shall cease to accrue,

such Series 2026 Bonds or portions of Series 2026 Bonds shall cease to be entitled to any lien, benefit or security under the Resolution and shall be deemed paid and the registered owners of such Series 2026 Bonds or portions of Series 2026 Bonds shall have no further rights except to receive payment of the redemption price and to receive Series 2026 Bonds for any unredeemed portions of the Series 2026 Bonds as provided in the Resolution.

DTC Procedures Relating to Partial Redemptions

Investors should note that while DTC is the registered owner of the Series 2026 Bonds, partial redemptions of the Series 2026 Bonds will be determined in accordance with DTC's procedures. The District intends that redemption allocations made by DTC, the DTC Participants or such other intermediaries that may exist between the District and the Beneficial Owners of the Series 2026 Bonds be made in accordance with the method of selection of Series 2026 Bonds for a partial redemption described above. However, the selection of the Series 2026 Bonds for redemption in DTC's book-entry only system is subject to DTC's practices and procedures as in effect at the time of any such partial redemption. The District can provide no assurance that DTC or the DTC Participants or any other intermediaries will allocate redemptions among Beneficial Owners in accordance with the method of selection of Series 2026 Bonds for a partial redemption described above.

Book-Entry Only System

THE INFORMATION IN THIS SECTION CONCERNING DTC AND DTC'S BOOK-ENTRY ONLY SYSTEM HAS BEEN OBTAINED FROM SOURCES THAT THE DISTRICT BELIEVES TO BE RELIABLE, BUT THE DISTRICT TAKES NO RESPONSIBILITY FOR THE ACCURACY THEREOF.

DTC will act as securities depository for the Series 2026 Bonds. The Series 2026 Bonds will be issued as fully-registered bonds registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered bond certificate will be issued for each maturity of the Series 2026 Bonds and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants (the "Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (the "Indirect Participants"). DTC has a Standard and Poor's rating of AA+. The DTC rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of the Series 2026 Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for such Series 2026 Bonds on DTC's records. The ownership interest of each actual purchaser of each Series 2026 Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2026 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of the Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Series 2026 Bonds, except in the event that use of the book-entry system for the Series 2026 Bonds is discontinued.

To facilitate subsequent transfers, all Series 2026 Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Series 2026 Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2026 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Series 2026 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping an account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements made among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Redemption notices shall be sent to DTC. If less than all of the Series 2026 Bonds are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such Series 2026 Bonds, as the case may be, to be redeemed. Beneficial Owners of Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2026 Bonds, such as defaults, and proposed amendments to the documents. For example, Beneficial Owners of Series 2026 Bonds may wish to ascertain that the nominee holding the Series 2026 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the Registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Series 2026 Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Series 2026 Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Series 2026 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions, and dividend payments on the Series 2026 Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts, upon DTC's receipt of funds and corresponding detail information from the District or the Registrar on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of

customers in bearer form or with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Registrar or the District, subject to any statutory and regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District and/or the Paying Agent for the Series 2026 Bonds. Disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of the Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Series 2026 Bonds at any time by giving reasonable notice to the District. Under such circumstances, in the event that a successor securities depository is not obtained, Series 2026 Bond certificates are required to be printed and delivered.

The District may decide to discontinue use of the book-entry transfers through DTC (or a successor securities depository). In that event, Series 2026 Bond certificates will be printed and delivered to DTC.

Payment of Series 2026 Bonds Upon Discontinuance of Book-Entry Only System

Upon discontinuance of the book-entry only system for the Series 2026 Bonds, the principal portion or redemption price of the Series 2026 Bonds will be payable at the designated corporate trust office of U.S. Bank Trust Company, National Association, Fort Lauderdale, Florida (together with the Treasurer of the District, the "Co-Paying Agents"). Upon such discontinuance, interest on the Series 2026 Bonds will be payable by check or draft of the Co-Paying Agents, mailed to the registered owner at the address shown on the Series 2026 Bond register maintained by the Co-Paying Agents as of the 15th day of the month preceding the applicable Interest Payment Date (the "Record Date"). Such interest may be paid by wire transfer within the United States to registered owners of $1,000,000 or more in aggregate principal amount of Series 2026 Bonds, upon their written request received no later than the Record Date prior to an Interest Payment Date.

SECURITY FOR THE SERIES 2026 BONDS

General

The Series 2026 Bonds constitute general obligations of the District, the prompt payment of the principal of, premium, if any, and interest on which is secured by the full faith and credit and ad valorem taxing power of the District. Pursuant to the Act, there will be levied and collected upon all property within the District subject to taxation for such purpose, in each year while any of the Bonds remain outstanding, a direct tax sufficient to pay the principal of, premium, if any, and interest on the Bonds as the same, respectively, become due and payable, and to provide for probable failures of collection of such tax in such year. Such tax will be levied and collected at the same time and in the same manner as ad valorem taxes levied for operating expenses of the District and will be in addition to all other taxes authorized to be levied by the District.

The proceeds of the tax to be levied to pay the principal of, premium, if any, and interest on the Bonds, when collected, shall be deposited in the Debt Service Fund. If the tax levy of the District, together with monies on deposit in the Debt Service Fund to make payments on the Bonds, shall ever be insufficient to make such payments when due, current funds of the District will be used to overcome such deficiency and reimbursement of such current funds shall be made out of subsequent taxes levied and collected by the District.

Whenever the School Board shall, in any year, have irrevocably deposited in the Debt Service Fund from which principal of and interest on the Bonds are payable any monies derived from sources other than the aforementioned property tax, said property tax may be correspondingly diminished, but any such diminution must leave available an amount of such taxes, after allowance for anticipated delinquencies in collection, which shall be fully sufficient, with such monies so deposited from other sources, to assure the prompt payment of principal of, premium, if any, and interest on the Bonds becoming due prior to the time that the proceeds of the next annual property tax levy will be available.

Debt Service Fund

Pursuant to the Master Resolution, there was created and established by the District a trust fund known as the "Debt Service Fund" and within such Fund a separate Account for each Series of Bonds issued pursuant to the Master Resolution, including an Account for the Series 2026 Bonds established pursuant to the Series 2026 Supplemental Resolution, which will be held and administered by the School Board solely for the purpose of paying the principal of, premium, if any, and interest on the Series 2026 Bonds as they become due, whether at maturity, or upon redemption or purchase for cancellation pursuant to the Resolution, or to reimburse the District for paying such amounts. In accordance with Sections 1011.04 and 1011.21, Florida Statutes, and the Resolution, in each year while any Bonds are outstanding, there shall be levied and collected a tax without limitation as to rate or amount on all taxable property within the District, sufficient in amount to pay the principal of, premium, if any, and interest on all such Bonds, together with Administration Expenses after deducting therefrom any other funds which may be available for such payments and which shall actually be so applied. The proceeds of such tax, other than amounts payable to the District as reimbursement for prior payments or amounts to be deposited in the Project Fund as reimbursement for amounts transferred in accordance with the Resolution (as described in the following paragraph) shall be deposited into the Debt Service Fund and used solely for the payment of such principal, premium, if any, and interest on the Bonds and Administration Expenses.

At the option of the School Board, an amount of Bond proceeds and/or investment earnings thereon not exceeding the amount of interest on the Bonds which will become due prior to the estimated receipt of sufficient proceeds of the first ad valorem tax to be levied after issuance of a Series of Bonds may be withdrawn from the related Series Account in the Project Fund and deposited in the related Series Account of the Debt Service Fund.

BOND INSURANCE OPTION

THE INFORMATION IN THIS SECTION CONCERNING THE POLICY AND **[**INSURER SHORT NAME**]** HAS BEEN OBTAINED FROM **[**INSURER SHORT NAME**]**. NONE OF THE DISTRICT OR THE UNDERWRITER TAKE RESPONSIBILITY FOR THE ACCURACY THEREOF.

All or a portion of the scheduled payment of the principal of and interest on the Series 2026 Bonds when due may be guaranteed under the Policy to be issued concurrently with the delivery of the Series 2026 Bonds by **[**INSURER SHORT NAME**]**. The District will make the determination whether to purchase a Policy to insure all or a portion of the Series 2026 Bonds, if any, at the time the Series 2026 Bonds are priced. See "BOND INSURANCE RISK FACTORS" herein.

[TO COME**]**

BOND INSURANCE RISK FACTORS

At pricing, the School Board will determine whether to provide for a Policy for all, a portion or none of the Series 2026 Bonds. If a Policy is purchased, the following are risk factors related to municipal bond insurance.

In the event of default of the scheduled payment of debt service on the Series 2026 Bonds, when all or some becomes due, the Paying Agent on behalf of owners of such Series 2026 Bonds will have a claim under the Policy for such payments. However, in the event of any acceleration of the Series 2026 Bonds resulting from default or otherwise, the payments are to be made in such amounts and at such times as such payments would have been due had there not been any such acceleration. The Policy will not insure prepayment premium, if any.

Under most circumstances, default of payment of the principal of and interest on the Series 2026 Bonds does not obligate extraordinary redemption of the obligations of the Insurer without appropriate consent. The Insurer may direct and must consent to any remedies and the Insurer's consent may be required in connection with amendments to any applicable Series 2026 Bond documents.

In the event the Insurer is unable to make payment of the principal of and interest on the Series 2026 Bonds as such payments become due under the Policy, such Series 2026 Bonds are payable solely from the moneys received pursuant to the Resolution. In the event the Insurer becomes obligated to make payments with respect to the Series 2026 Bonds, no assurance is given that such event will not adversely affect the market price of the Series 2026 Bonds or the marketability (liquidity) for the Series 2026 Bonds.

The long-term ratings on the Series 2026 Bonds are dependent in part on the financial strength of the Insurer and its claims paying ability. The Insurer's financial strength and claims paying ability are predicated upon a number of factors which could change over time. No assurance is given that the long-term ratings of the Insurer and of the ratings on any Series 2026 Bonds insured by the Insurer will not be subject to downgrade and such event could adversely affect the market price of the Series 2026 Bonds or the marketability (liquidity) for the Series 2026 Bonds.

The obligations of the Insurer are unsecured obligations of the Insurer and in an event of default by the Insurer, the remedies available may be limited by applicable bankruptcy law or other similar laws related to insolvency. See "RATINGS" herein.

AD VALOREM TAX PROCEDURES

The following information is provided in view of the fact that the security for the Bonds is derived exclusively from ad valorem taxation.

Property Assessment and County Property Appraiser

General. Ad valorem taxes may be levied only by counties, school districts, municipalities, and certain special districts (railroad properties are centrally assessed at the State level). No State ad valorem taxes shall be levied upon real estate or tangible personal property. State law requires that all ad valorem taxation be assessed at a uniform rate within each taxing unit and, with certain exceptions, that real and personal property subject to ad valorem taxation be assessed at 100% of its just value. See "– Limitation on Increase in Assessed Value of Property" below. The following property is generally subject to taxation in the manner provided by law: (a) all real and personal property in the State and all personal property belonging to persons residing in the State; and (b) all leasehold interests in property of the United States, of the State, or any political subdivision, municipality, agency, authority, or other public body corporate of the State. Pursuant to the Constitution of the State of Florida and State law, certain of such property may be exempt from ad valorem taxation. See "– Exemptions from Ad Valorem Taxation" below.

Determination of Property Valuation. The Property Appraiser of the County (the "Property Appraiser") determines property valuation on real and tangible personal property subject to ad valorem taxation as of January 1 of each year. By July 1 of each year, the Property Appraiser notifies the County, the School Board, each municipality within the County, and each other legally constituted special taxing district within the County as to its just valuation, the legal adjustments and exemptions, and the taxable valuation. The taxable valuation is then used by each taxing body to calculate its ad valorem millage for the budget year. See "– Limitation on Increase in Assessed Value of Property" and "– Millage Set by Local Governing Body" below for limitations on increases in assessed value of property.

Limitation on Increase in Assessed Value of Property. The Constitution of the State of Florida limits the increases in assessed value of homestead property to the lower of (a) 3% of the assessment for the prior year or (b) the percentage change in the Consumer Price Index for all urban consumers, U.S. City Average, all items 1967=100, or successor reports for the preceding calendar year as initially reported by the United States Department of Labor, Bureau of Labor Statistics. The accumulated difference between the assessed value and the just (market) value is known as the "Save Our Homes Benefit." Further, upon any change of ownership of homestead property or termination of homestead status such property shall be reassessed at just value as of January 1 of the year following the year of sale or change of status; new homestead property shall be assessed at just value as of January 1 of the year following the establishment of the homestead; and changes, additions, reductions or improvements to the homestead shall initially be assessed as provided for by general law.

Owners of homestead property may transfer up to $500,000 of their Save Our Homes Benefit to a new homestead property purchased within three years of the sale of their previous homestead property to which such benefit applied if the just value of the new homestead is greater than or is equal to the just value of the prior homestead. If the just value of the new homestead is less than the just value of the prior homestead, then owners of homestead property may transfer a proportional amount of their Save Our Homes Benefit, such proportional amount equaling the just value of the new homestead divided by the just value of the prior homestead multiplied by the assessed value of the prior homestead.

For all levies other than school district levies, assessment increases for specified non-homestead real property may not exceed 10% of the assessment for the prior year. See also "- Legislation Relating to Ad Valorem Taxation – Recent Amendments Relating to Ad Valorem Taxation" below.

Preparation of Tax Roll. The Property Appraiser applies the final certified millage of each taxing body to the assessed valuation on each item of real and tangible personal property, and prepares the final tax roll which is certified to the Tax Collector of the County (the "Tax Collector") by October 1. This permits the printing of tax bills for delivery on November 1 of each year. The tax bills contain all of the overlapping and underlying millages set by the various taxing bodies. All ad valorem taxes are collected by the Tax Collector and distributed to the various taxing bodies. See "– Tax Collection and Distribution by County Tax Collector" below.

Appealing Property Valuation. Concurrently with notification to the various taxing bodies, the Property Appraiser notifies each property owner of the proposed valuation and the proposed millage on his or her property. If the individual property owner believes that his or her property has not been appraised at just value, the owner may (a) request an informal conference with the Property Appraiser to resolve the issue, (b) file a petition with the clerk of the County value adjustment board (the "Adjustment Board"), or (c) appeal to the Circuit Court within 60 days of the certification for collection of the tax roll or within 60 days of the issuance of a final decision by the Adjustment Board. A petition to the Adjustment Board must be signed by the taxpayer or be accompanied at the time of filing by the taxpayer's written authorization for representation by a qualified person. Property owners appealing the assessed value or assigned classification of their property must make a required partial payment of taxes (generally equal to 75% of the ad valorem taxes due, less the applicable statutory discount, if any) with respect to the properties that will have a petition pending on or after the delinquency date (normally April 1). A property owner's failure to make the required partial payment before the delinquency date will result in the denial of the property owner's petition. A taxpayer receives notice of the hearing and is required to provide the Property Appraiser with a list of evidence, copies of documentation, and summaries of testimony prior to the hearing before the Adjustment Board. The Adjustment Board holds public hearings on such petitions and may make adjustments to the valuations made by the Property Appraiser if such valuations are found not to be fair and at market value. The Adjustment Board must complete all required hearings and certify its decision with regard to all petitions and certify to the Property Appraiser the valuation to be used by June 1 following the tax year in which the assessments were made. The June 1 requirement shall be extended until December 1 in each year in which the number of petitions filed with the Adjustment Board increased by more than 10% over the previous year. These changes are then made to the final tax roll.

Millage Set by Local Governing Body

General. The Constitution of the State of Florida provides that ad valorem taxes shall not be levied in excess of the following millages upon the assessed value of real estate and tangible personal property: for all county purposes, ten mills; for all municipal purposes, ten mills; for all school purposes, ten mills; for water management purposes for the northwest portion of the state lying west of the line between ranges two and three east, 0.05 mill; for water management purposes for the remaining portions of the state, 1.0 mill; and for all other special districts a millage authorized by law approved by voters. With respect to schools, the millage limitation does not apply to taxes approved at referendum by qualified electors in the County for general obligation bonds and certain other short-term, voter approved levies.

As described above, the Property Appraiser is required to certify to each taxing authority the aggregate taxable value of all non-exempt property within the jurisdiction of the taxing authority, as well as the prior year's tax revenues, for use in connection with the determination of the forthcoming budget and millage levy. The form on which such certification is made by the Property Appraiser is required to include instructions to each taxing authority describing the proper method of computing a millage rate, which, exclusive of new construction, additions to structures, deletions and property added due to geographic boundary changes, will provide the same ad valorem tax revenues for each taxing authority as was levied during the prior fiscal year. See "Millage Rollback Legislation" below.

Each respective millage rate, except as limited by law, is set on the basis of estimates of revenue needs and the total taxable property valuation within the taxing authority's respective jurisdiction. Ad valorem taxes are not levied in excess of actual budget requirements. State law requires the Board to adopt and maintain a balanced tentative budget and a balanced final budget, in which anticipated revenues less certain required deductions combined with beginning fund balances equal appropriations. The Board is required to advertise its intent to adopt a tentative budget, including a capital outlay budget, within 29 days following receipt from the Property Appraiser of the preliminary certification of taxable value. The Board holds a public hearing on the tentative budget and the proposed tax rates within five days of its advertisement, and officially adopts the tentative budget and tax rates at the hearing. Thereafter, the Property Appraiser prepares tax millage notices for property owners within the District. The final budget and tax rate are fixed in September of each year, following a final public hearing and in accordance with statutory timelines. The Superintendent is responsible for preparing the preliminary and tentative budgets for recommendation to the School Board. Generally, the final budget is substantially the same as the tentative budget since the School Board's hiring plans and materials purchases have been determined before the final Budget is adopted. The School Board adopted the final budget for Fiscal Year 2025-26 on September 9, 2025.

Millage Rollback Legislation. In 2007, the Florida Legislature adopted a property tax plan that significantly impacted ad valorem tax collections for State local governments (the "Millage Rollback Legislation"). One component of the Millage Rollback Legislation required counties, cities, and special districts to rollback their millage rates for the Fiscal Year 2007-08 to a level that, with certain adjustments and exceptions, would generate the same level of ad valorem tax revenue as in Fiscal Year 2006-07; provided, however, depending upon the relative growth of each local government's own ad valorem tax revenues from 2001 to 2006, such rolled back millage rates were determined after first reducing 2006-07 ad valorem tax revenues by 0% to 9%. In addition, the Rollback Legislation also limited how much the aggregate amount of ad valorem tax revenues may increase in future fiscal years. A local government may override certain portions of these requirements by a supermajority, and for certain requirements, a unanimous vote of its governing body. School districts are not required to comply with the particular provisions of the Millage Rollback Legislation relating to limitations on increases in future years.

District Millage Rates. The Florida Constitution limits the non-voted millage rate that school boards may levy on an annual basis for school purposes to 10 mills ($10 per $1,000 of taxable real and personal property value). The millage limitation does not apply to taxes approved at referendum by qualified electors in the County for general obligation bonds and certain other short-term, voter approved levies. Each respective millage rate, except as limited by law, is set on the basis of estimates of revenue needs and the total taxable property values within the taxing authority's respective jurisdiction. Revenues derived from ad valorem property taxes are budgeted, as required by Florida law, on the application of millage levies to 96% of the non-exempt assessed valuation of property in the County. Ad valorem taxes are not levied in excess of actual budget requirements.

Chapter 1011, Florida Statutes, further limits the non-voted millage levy for operational purposes to an amount established each year by the State appropriations act and finally certified by the Commissioner of the State of Florida Department of Education. Within this operational limit, each school district desiring to participate in the State's allocation of Florida Education Finance Program ("FEFP") funds for current operations must levy a non-voted millage rate that is determined annually by the State Legislature and certified by the Commissioner of the State Department of Education and is referred to herein as the "Required Local Effort." For the Fiscal Year ending June 30, 2026, the District's Required Local Effort millage is 3.072 mills, inclusive of a Prior Period Funding Adjustment Millage of 0.019 mills as required by Section 1011.62(4)(e), Florida Statutes. Such Prior Period millage is levied when the preliminary taxable value for the prior year is greater than the final taxable value for such year, thereby resulting in lower than expected revenues from the required local effort millage.

In addition to the "Required Local Effort," school districts are entitled to levy an additional non-voted current operating "discretionary millage" not to exceed an amount established annually by the Legislature and up to 1.5 mills for capital outlay and maintenance of school facilities. However, the District may levy up to 0.25 mills for capital outlay and maintenance of school facilities in lieu of operating discretionary millage. For Fiscal Year ended June 30, 2026, the District's discretionary operating millage is 0.748 mills. The District did not levy any capital outlay discretionary millage for the Fiscal Year ending June 30, 2026. See "AD VALOREM TAX PROCEDURES - Millage Set by Local Governing Body" herein.

The District, pursuant to authority granted in Section 1011.71(9), Florida Statutes, sought voter approval for the levy of an additional 0.50 mills for operating purposes for a period of four years, commencing with Fiscal Year 2019-20. The voters approved such levy at a special election held on August 28, 2018. The District sought and received voter approval for an increase of such levy from 0.50 mills to 1.0 mills for four additional years at the November 2022 general election. Such increased levy commenced in Fiscal Year 2023-24 and revenues received from such levy must be shared, on a proportionate basis, with charter schools in the District. See " – Millage Set by Local Governing Body" below. See also, "LITIGATION" herein for information regarding a recently settled dispute with charter schools in the District relating to the sharing of revenues from the initial levy of this millage from Fiscal Years 2019-20 to 2022-23. In addition, the District is levying 0.1645 mills for debt service on the currently Outstanding Bonds and the aforementioned 1.00 mills approved by the voters.

In addition to the millage levies for operating purposes, pursuant to Section 1011.71, Florida Statutes, school boards may levy an additional non-voted millage known as the "Capital Improvement Tax" for capital outlay and maintenance purposes of up to 1.50 mills. If the revenues generated from the Capital Improvement Tax are insufficient to make payments under a lease-purchase agreement entered into prior to June 30, 2008, an amount equal to the revenue generated from 0.50 mills of the operating millage levy may be used to make such lease payments. If the revenue from the 1.5 mills is insufficient to make payments due under a lease purchase agreement entered into prior to June 30, 2009, or to meet other critical school district fixed capital outlay needs, a school board may levy up to an additional 0.25 mills of Capital Improvement Tax in addition to the 1.5 mills, in lieu of levying an equivalent amount of the discretionary mills for operations. Prior to July 1, 2012, payment from the Capital Improvement Tax for lease-purchase agreements for educational facilities and sites were not permitted to exceed three-fourths of the proceeds of the Capital Improvement Tax. However, effective July 1, 2012, the 75% limitation on the use of Capital Improvement Tax revenues for lease-purchase agreements originally entered into prior to June 30, 2009 was waived. See also, "RECENT GOVERNMENTAL ACTIONS AND OTHER EVENTS AFFECTING DISTRICT REVENUES - Distribution of Capital Outlay Funds to Charter Schools" for information regarding legislation requiring school districts to share Capital Improvement Tax revenues with charter schools in such school districts. These taxes are not pledged as security for, or available for payment of, the Series 2026 Bonds. The total millage for the 2025-2026 Fiscal Year is 6.4845 mills, including 0.1645 mills for debt service.

Tax Collection and Distribution by Tax Collector

General. All real and tangible personal property taxes are based on assessed values as certified and delivered to the Tax Collector by the Property Appraiser as described above. The Tax Collector mails to each property owner on the tax roll a tax bill for the taxes levied by the various taxing authorities in the County. Taxes may be paid upon receipt of such bill with discounts at the rate of 4% if paid in the month of November, 3% if paid in the month of December, 2% if paid in the month of January, and 1% if paid in the month of February. Taxes paid during the month of March are without discount. Because of the discount in ad valorem taxes for payments made prior to March 1, taxes collected will likely never be 100% of the tax levy.

The Tax Collector is required to distribute the taxes collected to each governmental unit levying the tax. Such distribution is to be made four times during the first two months after the tax roll comes into its possession, and once per month thereafter.

Delinquent Taxes. All unpaid taxes on real and tangible property become delinquent on April 1 of the year following the year in which the taxes were levied. Delinquent real property taxes bear interest at the rate of 18% per year from April 1 until paid, or until payment is no longer required or until a tax certificate is sold at auction (from which time the interest rate shall be as bid by the buyer of the tax certificate). Delinquent tangible personal property taxes also bear interest at the rate of 18% per year from April 1 until paid. Delinquent personal property taxes must be advertised within 45 days after delinquency, and after May 1, the property is subject to warrant, levy, seizure and sale.

Tax Certificates and Tax Deeds. On or before June 1 or the 60th day after the date of delinquency, whichever is later, the Tax Collector must advertise once each week for three weeks and must sell tax certificates on all real property that is the subject of delinquent taxes. The tax certificates are sold to those bidding the lowest interest rate. Such certificates include the amount of delinquent taxes, the penalty interest accrued thereon and the cost of advertising. Delinquent tax certificates not sold at auction become the property of the County. State law provides that real property tax liens are superior to all other liens, except prior Internal Revenue Service liens.

To redeem a tax certificate, the owner of the property must pay all delinquent taxes, the penalty interest that accrued prior to the date of the sale of the tax certificate, charges incurred in connection with the sale of the tax certificate, omitted taxes, if any, and interest at the rate shown on the tax certificate (or interest at the rate of 5%, whichever is higher) from the date of the sale of the tax certificate to the date of redemption. If such tax certificates or liens are not redeemed by the property owner within two years, the holder of the tax certificates can cause the property to be sold to pay off the outstanding certificates and the interest thereon.

At any time after two years have elapsed since April 1 of the year of the issuance of a tax certificate and before the expiration of seven years, the holder of the tax certificate may apply for a tax deed with respect to any tax certificate it holds. Two years after such April 1, the County may make application for a tax deed with respect to any tax certificate it holds. Upon receipt of such applications, a public sale is advertised and held (unless the property is redeemed), and the highest bidder at such sale receives a tax deed for the property. Provisions are also made for the collection of delinquent tangible personal property taxes, but in a different manner, which includes the possible seizure of the tangible personal property.

Exemptions from Ad Valorem Taxation

General. State law provides for numerous exemptions and limitations on ad valorem taxation of real property and tangible personal property. Real property used for the following purposes is generally exempt from ad valorem taxation: religious, educational, literary, charitable, scientific, and governmental uses. Certain additional exemptions and limitations are described below. This description does not purport to describe all exemptions available to property owners in the State, and reference is made to the Constitution of the State of Florida and Chapter 196, Florida Statutes, for a full description of such exemptions. In addition, State law allows for, but does not mandate, the imposition of some exemptions by local governments by ordinance. Certain recent amendments to existing provisions relating to ad valorem tax exemptions are described under "Legislation Relating to Ad Valorem Taxation – Recent Amendments Relating to Ad Valorem Taxation."

Constitutional Exemptions. The Constitution of the State of Florida provides for the following exemptions from ad valorem taxation:

Exempt Entities/Exempt Purposes. The Constitution of the State of Florida provides that all property owned by a municipality and used exclusively by it for municipal or public purposes shall be exempt from taxation. A municipality, owning property outside the municipality, may be required by general law to make payment to the taxing unit in which the property is located. Such portions of property as are used predominantly for educational, literary, scientific, religious or charitable purposes (exempt purposes) may be exempted by general law from taxation. State law provides that all property owned by an exempt entity, including educational institutions, and used exclusively for exempt purposes shall be totally exempt from ad valorem taxation and all property owned by an exempt entity, including educational institutions, and used predominantly for exempt purposes (at least 50%) shall be exempted from ad valorem taxation to the extent of the ratio that such predominant use bears to the nonexempt use.

Household Goods and Personal Effects. The Constitution of the State of Florida provides that there shall be exempt from taxation, cumulatively, to every head of a family residing in the State, household goods and personal effects to the value fixed by general law, not less than $1,000 and to every widow or widower or person who is blind or totally and permanently disabled, property to the value fixed by general law not less than $500. State law exempts from taxation to every person residing and making his or her permanent home in the State, all household goods and personal effects and exempt property up to the value of $500 of every widow, widower, blind person, or totally and permanently disabled person who is a resident of the State.

Tangible Personal Property and Renewable Energy Devices. The Constitution of the State of Florida provides that by general law and subject to conditions specified therein, $25,000 of the assessed value of property subject to tangible personal property tax shall be exempt from ad valorem taxation. Effective January 1, 2018 through December 31, 2037, the assessed value of solar devices or renewable energy source devices subject to tangible personal property tax may be exempt from ad valorem taxation, subject to limitations provided by general law.

Property Dedicated in Perpetuity for Conservation. The Constitution of the State of Florida provides that there shall be granted an ad valorem tax exemption for certain real property dedicated in perpetuity for conservation purposes, including real property encumbered by perpetual conservation easements or by other perpetual conservation protections, as defined by general law.

Homestead Exemption. The Constitution of the State of Florida provides for a homestead exemption. Every person who has the legal title or beneficial title in equity to real property in the State and who resides thereon and in good faith makes the same his or her permanent residence or the permanent residence of others legally or naturally dependent upon such person is eligible to receive a homestead exemption of up to $50,000. The first $25,000 applies to all property taxes, including school district taxes. The additional exemption, up to $25,000, applicable to the assessed value of the property between $50,000 and $75,000, applies to all levies other than school district levies. A person who is receiving or claiming the benefit of an ad valorem tax exemption or a tax credit in another state where permanent residency, or residency of another legally or naturally dependent upon the owner, is required as a basis for the granting of that ad valorem tax exemption or tax credit is not entitled to the homestead exemption.

In addition to the general homestead exemption described above, the following additional homestead exemptions are authorized by State law.

Certain Active Duty Military and Veterans. A military veteran who was honorably discharged, is a resident of the State, and who is disabled to a degree of 10% or more because of injury or while serving during wartime may be entitled to a $5,000 reduction in the assessed value of his or her property. This exemption is not limited to homestead property. Under certain circumstances, the veteran's surviving spouse may be entitled to carry over these exemptions.

Permanently and Totally Disabled Veterans. A military veteran who is a resident of the State and was honorably discharged with a service-related total and permanent disability may be eligible for a total exemption from taxes on property they own and use as their homesteads. A similar exemption is available to disabled veterans confined to wheelchairs. Under certain circumstances, the veteran's surviving spouse may be entitled to carry over these exemptions.

Discounts for Disabled Veterans. Each veteran who is age 65 or older and is partially or totally permanently disabled may receive a discount on the assessed value of the property that the veteran owns and uses as a homestead. The discount is a percentage equal to the percentage of the veteran's permanent, service-connected disability as determined by the United States Department of Veteran's Affairs.

Deployed Military Personnel. Each person who receives a homestead exemption; who was a member of the United States military or military reserves, the United States Coast Guard or its reserves, or the Florida National Guard; and who was deployed during the preceding calendar year on active duty outside the continental United States, Alaska, or Hawaii in support of military operations designated by the Florida Legislature shall receive an additional exemption equal to a percentage of the taxable value of his or her homestead property. The applicable percentage shall be calculated as the number of days during the preceding calendar year the person was deployed on active duty outside the continental United States,

Alaska, or Hawaii in support of military operations designated by the Legislature divided by the number of days in that year.

Exemption for Disabled First Responders. First responders who are totally and permanently disabled as a result of injuries sustained in the line of duty receive ad valorem tax relief on their homestead property. The amount of tax relief, to be defined by general law, can equal the total amount or a portion of the ad valorem tax otherwise owed on the homestead property. Florida defines first responders as law enforcement officers, correctional officers, firefighters, emergency medical technicians and paramedics.

Surviving Spouses of First Responders. Any real estate that is owned and used as a homestead by the surviving spouse of a first responder (law enforcement officer, correctional officer, firefighter, emergency medical technician or paramedic), who died in the line of duty may be granted a total exemption on homestead property if the first responder and his or her surviving spouse were permanent residents of the State on January 1 of the year in which the first responder died.

Certain Totally and Permanently Disabled Persons. Any real estate used and owned as a homestead by a quadriplegic, less any portion used for commercial purposes, is exempt from all ad valorem taxation. Real estate used and owned as a homestead by a paraplegic, hemiplegic, or other totally and permanently disabled person, who must use a wheelchair for mobility or who is legally blind, is exempt from taxation if the gross household income is below statutory limits.

Other Exemptions. Other exemptions include, but are not limited to, nonprofit homes for the aged (subject to income limits for residents), proprietary continuing care facilities, not for profit sewer water/waste water systems, certain hospital facilities and nursing homes for special services, charter schools, certain historic property used for commercial purposes, and certain tangible personal property.

Legislation Relating to Ad Valorem Taxation

Recent Amendments Relating to Ad Valorem Taxation. In recent legislative sessions, several legislative proposals and proposed constitutional amendments were passed (and approved by voters in the case of constitutional amendments) affecting ad valorem taxation, including classification of agricultural lands during periods of eradication or quarantine, deleting requirements that conservation easements be renewed annually, providing that just value of real property shall be determined in the first tax year for income restricted persons age 65 or older who have maintained such property as their permanent residence for at least 25 years, authorizing a first responder who is totally and permanently disabled as a result of injuries sustained in the line of duty to receive relief from ad valorem taxes assessed on homestead property, revising procedures with respect to assessments, hearings and notifications by the value adjustment board, and revising the interest rate on unpaid ad valorem taxes.

Future Amendments Relating to Ad Valorem Taxation. Historically, various legislative proposals and constitutional amendments relating to ad valorem taxation have been introduced in each session of the Florida Legislature. Many of these proposals have provided for new or increased exemptions to ad valorem taxation and limited increases in assessed valuation of certain types of property or otherwise restricted the ability of local governments in the State to levy ad valorem taxes at current levels. There can be no assurance that similar or additional legislative or other proposals will not be introduced or enacted in the current 2025 legislative session or in the future that would have a material adverse effect upon the collection of ad valorem taxes by the District, the District's finances in general or the District's ad valorem taxing power.

[Select Committee on Property Taxes. On April 29, 2025, the Speaker of the Florida House of Representatives announced the creation of the Select Committee on Property Taxes (the "Select Committee") to consider various property tax reforms in the State. On May 2, 2025, the Select Committee

convened for its first meeting to discuss five proposals regarding providing property tax relief, including (i) eliminating foreclosures on homestead properties due to property tax liens, (ii) requiring a referendum on eliminating property taxes on homestead properties, (iii) creating a $500,000 homestead exemption for non-school property taxes, which would increase to $1 million for residents age 65 and older or those who have had a homestead in the State for 30 years or more, (iv) authorizing the legislature to increase the homestead exemption to any value by general law, and (v) changing the caps on annual increases for homestead property. The Select Committee has held subsequent meetings since May, but has not formally recommended any proposals regarding property tax relief. Recommendations from the Select Committee are expected to be considered during the 2026 regular Florida legislative session and, if enacted, placed on the November 26 general election ballot, where they would need to be approved by 60% of the voters. Various bills seeking to reduce or eliminate property taxes have been filed in advance of the 2026 regular session of the Florida Legislature, which commenced in January 2026. While the majority of the pre-filed bills do not seek to reduce or eliminate school district property taxes and only apply to non-school district levies, certain of the other pre-filed bills would apply to school district levies. Notwithstanding the foregoing, there can be no assurance that any such proposals, or similar or additional proposals, will not be introduced or enacted by the legislature or approved by the electors, if applicable, in the future that would or might apply to, or may have a material adverse effect upon, the District's finances in general or the District's ad valorem taxing power and the amount of ad valorem tax revenues collected by the District. However, the District does not expect any such proposals to impair its ability to pay the Series 2026 Bonds, which are secured by the full faith, credit and taxing power of the District. See "SECURITY FOR THE SERIES 2026 BONDS" herein.**]**

RECENT GOVERNMENTAL ACTIONS AND OTHER EVENTS AFFECTING DISTRICT REVENUES

General

During recent years and in the current 2026 legislative session, various other legislative proposals and constitutional amendments relating to ad valorem taxation and District revenues have been introduced in the State Legislature. Many of these proposals provide for new or increased exemptions to ad valorem taxation, limit increases in assessed valuation of certain types of property or otherwise restrict the ability of local governments in the State to levy ad valorem taxes at recent, historical levels. Other proposals have

sought to restrict the ability of local governments to use certain revenues for payment of debt service, to provide for additional procedures and notices to issue tax-supported debt or to require certain local revenues be shared with charter schools in the school district. There can be no assurance that similar or additional legislative or other proposals will not be introduced or enacted in the future that would, or might apply to, or have a material adverse effect upon, the District or its finances.

Reference is also made to "AD VALOREM TAX PROCEDURES – Exemptions from Ad Valorem Taxation" and "AD VALOREM TAX PROCEDURES – Legislation Relating to Ad Valorem Taxation" herein for a discussion of amendments to the Florida Constitution and other legislation affecting ad valorem tax revenues.

Constitutional Amendments Relating to Class Size Reduction

Amendment 9 to the State Constitution required the State Legislature provide funding for sufficient classrooms so that class sizes were reduced to certain constitutional class size maximums by the beginning of the 2010 school year. Amendment 9 and Section 1003.03, Florida Statutes and Section 1013.735, Florida Statutes, relating to the implementation of Amendment 9 are referred to herein as the "Class Size Legislation."

The Class Size Legislation established constitutional class size maximums limiting students per class to no more than 18 for pre-kindergarten through third grade, 22 for grades four through eight and 25 for grades nine through 12. Compliance is determined on a period-by-period basis. School districts not in compliance are required to submit to the Commissioner of Education a corrective action plan that describes specific actions the district will take in order to fully comply with the requirements by October of the following year.

The Class Size Legislation further created an "Operating Categorical Fund for Class Size Reduction," the "Classroom for Kids Program," the "District Effort Recognition Grant Program" and the "Class Size Reduction Lottery Revenue Bond Program" to provide funding for capital outlays and operating expenditures necessary in relation to these mandated class size reductions.

The Class Size Legislation requires each school board to consider implementing various policies and methods to meet these constitutional class sizes, including encouraging dual enrollment courses, encouraging the Florida Virtual School, maximizing instructional staff, reducing construction costs, using joint-use facilities, implementing alternative class scheduling, redrawing attendance zones, implementing evening and multiple sessions and implementing year-round and non-traditional calendars.

Through Fiscal Year 2009-10, the District complied with the requirements of the Class Size Legislation which was based on average class size at each school. Beginning in Fiscal Year 2010-11, the requirements were based on the number of students in each individual classroom and subsequently, schools that provided choice (e.g., charter, magnet, career and technical, etc.) continued to be required to meet average class size at each school. Including charter schools, the District is at 100% compliance with class size requirements for Fiscal Year 2025-26.

Legislative Changes Relating to School Choice

During the State Legislature's 2016 Regular Session, the Florida Legislature enacted House Bill 7029 ("HB 7029"). Among other things, a parent whose child is not subject to a current expulsion or suspension order may seek enrollment in and transport his or her child to any public school in the State, including a charter school, which has not reached capacity. The school district or charter school shall accept and report the student for purposes of funding through the FEFP. The school district or charter school may

provide student transportation at their discretion. HB 7029 requires the capacity determinations of each school district and charter school to be current and identified on their respective school websites. Each school must provide preferential treatment in its controlled open enrollment process to: (1) dependent children of active duty military personnel who moved as a result of military orders, (2) children relocated due to foster care placement in a different school zone, (3) children relocated due to a court ordered change in custody as a result of separation or divorce, or the serious illness or death of a parent, and (4) students residing in the school district. Students residing in the school district may not be displaced by a student from another school district. A student who transfers may remain at the school until the student completes the highest grade level offered. This amendment took effect with the 2017-2018 school year. At present, the impact of the school choice provisions of HB 7029 on the District's finances has been minimal.

House Bill No. 7045 ("HB 7045") was passed during the 2021 Florida legislative session and signed into law by the Governor. HB 7045 merged the State's school choice programs for certain disabled students and expanded eligibility for school voucher programs for low- and middle-income students and students subject to harassment, consolidated existing school-choice programs, increased the amount of State funding for the consolidated school-choice programs to $200 million and allowed the use of scholarship funds for private school tuition and other expenses such as tutoring, computers, and internet access.

HB 1, which significantly expanded the eligibility criteria of the State's school voucher programs, was signed into law by Florida Governor Ron DeSantis on March 27, 2023. HB 1, among other things, expanded eligibility for the Florida Tax Credit Scholarship Program and the Family Empowerment Scholarship Program to any student that is a resident of Florida and is eligible to enroll in kindergarten through grade 12 in a public school. The Family Empowerment Scholarship Program is divided into three programs, the Family Empowerment Scholarship for students attending private schools (the "FES-EO"), the Family Empowerment Scholarship for students with disabilities (the "FES-UA") and the Hope Scholarship Program. HB 1 significantly increased the number of Florida Tax Credit Scholarships that may be awarded each year, and then removes the limits beginning in 2027-28. HB 1, in combination with House Bill 3C which was signed into law and became effective on November 3, 2023, removed the existing limits on the number of FES-EO scholarships that may be given each year. HB 1 also provided that the amount of the Family Empowerment Scholarship is equal to 100% of the school district's FEFP funding per student, including most categorical grants. HB 1 authorized uses of scholarship funds include, among other authorized expenses, tuition and fees for a student to attend eligible private schools. HB 1 took effect on July 1, 2023. House Bill 1403 ("HB 1403") was passed during the 2024 regular Florida legislative session and, among other things, expands eligibility for the Florida Tax Credit Scholarship Program and the Family Empowerment Scholarship Program to include the dependent children of active duty members of the United States Armed Forces who meet certain residency requirements, increases the FES-UA cap from three percent to five percent and repeals the scholarship funding portion of the Hope Scholarship Program. HB 1403 took effect on July 1, 2024. The expansion of the school choice programs in the State could potentially lead to a substantial increase in the number of Florida Tax Credit Scholarships and/or Family Empowerment Scholarship recipients. The District has seen a significant number of eligible students in the District transition to private schools or other scholarship eligible programs, which has had an adverse impact on the District's finances. However, the District is taking steps to address the decline in student enrollment by consolidating schools and decreasing employees to an appropriate number based on such reduced student enrollment. See "THE SCHOOL DISTRICT OF BROWARD COUNTY, FLORIDA – School Facilities Reorganization Plan" and "THE SCHOOL DISTRICT OF BROWARD COUNTY, FLORIDA – State Budget" herein.

Distribution of Capital Outlay Funds to Charter Schools

On May 11, 2023, CS/CS/HB 1259 ("HB 1259") was signed by the Florida Governor Ron DeSantis. HB 1259 modifies the provisions of Section 1013.62, Florida Statutes, relating to Capital Improvement Tax

revenues that are required to be shared with eligible charter schools in each school district in the State. HB 1259 removes a previously existing State funding threshold for purposes of determining whether Capital Improvement Tax revenues must be shared with eligible charter schools in a school district and establishes a five-year glide path of local sharing of Capital Improvement Tax revenues between each school district in the State and eligible charter schools therein. The calculation methodology set forth in HB 1259 first reduces a school district's available Capital Improvement Tax revenues by the school district's annual debt service for obligations incurred as of March 1, 2017, which are being satisfied by Capital Improvement Tax revenues and which have not been subsequently retired. The remaining Capital Improvement Tax revenues are then divided by the sum of (a) the school district's capital outlay FTE students and (b) the total number of FTE students at eligible charter school in the school district to determine a capital outlay allocation per FTE student. Next, such capital outlay allocation per FTE student is multiplied by the total number of FTE students at each eligible charter school in the school district to determine a capital outlay allocation for each charter school in the school district. Next, if applicable, the capital outlay allocation to each charter school is reduced by the total amount of State funds allocated to each charter school in the school district thereby reducing the amount of Capital Improvement Tax revenues required to be shared by the school district. The remaining amount, if any, is the amount the school district must share with eligible charter schools in the school district in such year. However, the legislation provides for a five-year phase in for such amounts so that the amount to be paid by the school district for each year pursuant to the above-described methodology will be multiplied by 20% for Fiscal 2023-24, and increase by 20% each year until Fiscal Year 2027-28 at which time it would equal 100% of the amount described in the preceding sentence. HB 1259 took effect on July 1, 2023. For the Fiscal Year 2025-26, the District is required to share approximately $24.7 million in Capital Improvement Tax revenues with eligible charter schools in the District. Such amount is projected to increase to approximately $64.5 million by Fiscal Year 2029-30. However, the Capital Improvement Tax is not pledged to the repayment of the Series 2026 Bonds and the District does not expect any reduction in Capital Improvement Tax revenues to adversely impact its ability to pay debt service on the Series 2026 Bonds.

Schools of Hope

House Bill 7069 ("HB 7069"), as amended by HB 7070 in 2019, among other things, established the Schools of Hope Program to encourage traditional public schools within the State and charter operators throughout the country to replicate their model and service students from persistently low-performing schools and students who reside in a Florida Opportunity Zone (as defined therein). These provisions of HB 7069, now codified in Section 1002.333, Florida Statutes, provide for the establishment of Schools of Hope, which are charter schools operated by a Hope Operator to service students from one or more persistently low-performing schools; are located within a Florida Opportunity Zone or in the attendance zone of the persistently low-performing school or within a five mile radius of such school, whichever is greater; and is a Title I eligible school. Section 1002.333, Florida Statutes, defines "persistently low-performing schools" as schools that have earned three consecutive school grades below a "C" pursuant to Section 1008.34, Florida Statutes, in at least three of the previous five years and has not earned a school grade of "B" or higher in the most recent two school years, and a school that was closed pursuant to Section 1008.33(4), Florida Statutes, within two years of a notice of intent, and defines "Hope Operators" as nonprofit organizations that operate three or more charter schools with a record of serving students from low-income families and receives such designation from the Florida Department of Education. Pursuant to Section 1002.333, Florida Statutes, the statutory requirements for the application, approval, and contract that apply to charter schools do not apply to Schools of Hope; instead, a Hope Operator submits a notice of intent to a school district in order to open a School of Hope and the school district is required to enter into a performance based agreement with a Hope Operator within 60 days of receiving a notice of intent.

Section 1002.333, Florida Statutes, also (a) provides Schools of Hope with certain statutory authority, including, but not limited to, allowing a School of Hope to be designated as a local educational

agency for the purposes of receiving federal funds; (b) provides that Schools of Hope are exempt from Chapters 1000-1013, Florida Statutes, and all school board policies, except any laws related to (i) the student assessment program and school grading system, (ii) student progression and graduation, (iii) provisions of services to students with disabilities, (iv) civil rights, (v) student health, safety, and welfare, (vi) public meetings, (vii) public records, and (viii) the code of ethics for public officers and employees.; (c) provides provisions for facilities for Schools of Hope; (d) provides provisions for funding Schools of Hope, including that they be funded in accordance with the statutory provisions relating to funding for charter schools and be considered a charter schools for purposes of charter school capital outlay; (e) establishes the School of Hope Program to cover specified operational expenses for Schools of Hope; and (f) establishes the Schools of Hope Revolving Loan Program to help Schools of Hope cover school building construction and startup costs.

On June 30, 2025, Senate Bill 2510 ("SB 2510") was signed into law by the Governor. SB 2510, among other things, modifies the provisions of Section 1002.333, Florida Statutes, relating to the requirements for the establishment of Schools of Hope including adding provisions allowing a school of hope to be located outside of a Florida Opportunity Zone or the attendance zone of the persistently low-performing school under certain circumstances, allowing a Hope Operator seeking to open a school of hope to submit an application to a state university or a Florida College System institution and enter an agreement with such state university of Florida College System institution, and allowing a school of hope to collocate with another school in a public school facility. The school district must permit any school of hope to use all or part of underused, vacant, or surplus school district facilities, and receive facility-related services at no cost. Students enrolled in the school of hope shall be included in the district's total capital outlay full-time equivalent membership for the purpose of Section 1013.62, Florida Statutes, and for calculating the PECO maintenance finds or any other maintenance funds for the facility. To date, the District has received multiple notices from State-approved Schools of Hope operators seeking to use underused, vacant or surplus District facilities. The District has denied all but one of these notices, citing material impracticability regarding the proposed use of the facilities. The sole notice not denied involves KIPP and William Dandy Middle School, which remains under active discussion. At this time, the District is unable to estimate the financial or operational impacts of any potential Schools of Hope co-location within District facilities.

The District currently has six schools identified as "persistently low-performing schools" under Section 1002.333, Florida Statutes.

Public Safety Mandate

In 2018, the Florida Legislature passed Senate Bill 7026 ("SB 7026") which, among other things, includes provisions designed to: enhance school safety policies, procedures, and personnel at the State and local level; improve and expand mental health services; and revise laws and empower law enforcement and the courts to limit access to firearms by young adults or by individuals exhibiting a risk of harming themselves or others. Specifically, SB 7026 requires each school board and superintendent to partner with law enforcement agencies to establish or assign one or more safe-school officers at each school facility within the district by implementing any combination of the following options: (a) establish school resource officer programs through cooperative agreements with law enforcement agencies; (b) commission one or more school safety officers for the protection and safety of school personnel, property, and students within the school district; and (c) at a school district's discretion, and if established by the sheriff's office, participate in the Guardian Program, which allows certain school employees (but not employees who exclusively perform classroom duties as classroom teachers) to carry a firearm on school grounds if such employee volunteers and completes the statutorily required training. During the 2019 Legislative session, the State Legislature passed CS/CS/SB 7030 ("SB 7030") which among other things, removes the prohibition on individuals who perform exclusively classroom duties as a teacher from participating in the Guardian Program. However, the decision to allow teachers to be armed guardians remains with each

individual school board. In 2018, the School Board adopted a resolution which prohibits arming teachers in the District. The School Board intends to comply with SB 7026 and SB 7030 through school resource officers and/or the Guardian Program. The District's estimated cost of complying with the public safety mandates of SB 7026 and SB 7030 for Fiscal Year 2024-25 was approximately $20.1 million and is budgeted to be $19.7 million, net of charter schools, for Fiscal Year 2025-26.

In the wake of the Marjory Stoneman Douglas tragedy, the School Board hired the school safety & security non-profit organization SafeHavens, International ("SafeHavens") to assess the District security programs. Based on recommendations from SafeHavens as well as findings from the Marjory Stoneman Douglas High School Public Safety Commission, the District established an Office of Safety, Security and Emergency Preparedness in order to organize, centralize and enhance safety and security functions within the District. Additionally, in the aftermath of the Marjory Stoneman Douglas tragedy, a statewide grand jury was convened by the Florida Supreme Court to focus largely on safety and security issues statewide. The grand jury has issued three interim reports that made various recommendations to state and local officials relating to improving, among other things, public safety and security in schools. The final grand jury report recommended the removal or suspension of certain School Board members who, in turn, were removed from the School Board by Florida Governor Ron DeSantis.

Coronavirus (COVID-19)

The Novel Coronavirus 2019 ("COVID-19") pandemic, along with various governmental measures taken to protect public health in light of the pandemic, adversely affected the School Board's financial results and resulted in a federally declared "national emergency." The School Board received various disaster relief funds since March 2020, including pursuant to the Coronavirus Aid, Relief and Economic Security Act, which contained the Education Stabilization Fund; the Coronavirus Response and Relief Supplemental Appropriations Act, which included a second Education Stabilization Fund; and The American Rescue Plan Act of 2021. The District received approximately $**[**896.5**]** million in federal funds under such federal programs, collectively, however many of such funds were required to be shared with charter schools and private schools in the County.

COVID-19 is ever evolving and the potential for future resurgence of COVID-19 at a pandemic level is unknown and, should there be a future resurgence of the pandemic or another pandemic, the School Board cannot predict with certainty the impacts of such an outbreak on the School Board's future operations, revenues or expenses.

Climate Change and Natural Disasters

Numerous scientific studies on climate change show that, among other effects on the global ecosystem, sea levels may rise, extreme temperatures may become more common, and extreme weather events may become more frequent as a result of increasing global temperatures attributable to atmospheric pollution. Sea levels may continue to rise in the future due to the increasing temperature of the oceans causing thermal expansion and growing ocean volume from glaciers and ice caps melting into the ocean. Coastal areas like the District are at risk of substantial flood damage over time, affecting private development and public infrastructure, including roads, utilities, emergency services, schools, and parks. As a result, the District could lose considerable tax revenues and many residents, businesses, and governmental operations along the waterfront could be displaced. However, the District is unable to predict whether sea level rise or other impacts of climate change or flooding from a major storm will occur, when they may occur, and if any such events occur, whether, they will have a material adverse effect on the business operations or financial condition of the District. Additionally, climate change concerns have led, and may continue to lead, to new laws and regulations at the federal and State levels (including but not

limited to, air, water, hazardous substances and waste regulations) that could have a material adverse effect on the operations and/or financial condition of the District.

[The District experienced an extremely intense rainstorm in April 2023 resulting in flood damages exceeding $10,000,000. The District received a total net claim settlement in an amount of $9,962,368. Since this event, the District has purchased National Flood Insurance coverages on several District sites. Additionally, the District's Physical Plant Operations Department has implemented corrective measures at these sites.**]**

Cybersecurity

Computer networks and systems used for information transmission and collection are vital to the efficient operations of the District. District systems provide support to departmental operations and District services by collecting and storing sensitive information, including intellectual property, security information, proprietary business process information, information regarding suppliers and business partners, and personally identifiable information of students and employees (collectively, "Computer Information"). The secure processing, maintenance and transmission of Computer Information is critical to effective departmental operations and the appropriate provision of services. Increasingly, governmental entities are being targeted by cyberattacks seeking to obtain Computer Information or disrupt critical services. A rapidly changing cyber risk landscape may introduce new vulnerabilities that attackers and hackers can exploit in their efforts to effect breaches or service disruptions. Employee error and/or malfeasance may also contribute to a loss of Computer Information or other system disruptions. The District has a multilayered information security program with several established protocols and procedures which include Acceptable Usage Policies and Information Security Guidelines. The District has next generation firewalls with unified threat management features enabled which include firewall, application control, web filter, and intrusion detection and prevention. Cybersecurity operations are handled internally. The District periodically faces cyber threats as is to be expected with all network-connected governments and businesses. The District experienced a cyberattack in March 2021, is fully recovered from this event and has not had another compromising cyberattack since the March 2021 event. However, after the March 2021 cyber breach, post-analysis revealed that personal information of some District students and employees may have been compromised in the cyberattack and posted on the dark web. Upon learning of this, the District notified potentially impacted parties and provided free credit monitoring and other safeguards to help the impacted stakeholders protect their identity. Based on currently available information, the District does not expect a significant financial liability to arise as a result of the March 2021 cyberattack. Nevertheless, the District implemented comprehensive measures to fortify its cybersecurity posture and minimize the risk of future incidents. These measures include, but are not limited to, the implementation of Multi-Factor Authentication (MFA) for staff network access to the network, deployment of Privileged Account Management (PAM) for sensitive systems access, installation of Endpoint Detection and Response (EDR) solutions to identify and mitigate malware and other threats, the introduction of managed phishing simulations to educate staff on identifying and responding to phishing attempts, external and internal penetration testing and vulnerability assessments to proactively identify potential cyber threats, and expansion of the District's internal IT security team to enhance the capacity for monitoring and responding to cyber events. There is a mandatory Security and Privacy Awareness training that all District employees must take annually to educate users regarding cyber security threats and ways to avoid becoming a victim as well as learn about protections in the District and ways to minimize vulnerabilities both at work and at home. The District also maintains cyber risk insurance to help mitigate its exposure to security attacks that are known to cripple an organization's technology system and/or fraudulently confiscate funds.

While District cybersecurity and operational safeguards are periodically tested, no assurances can be given that such measures will ensure against all cybersecurity threats or attacks. Cybersecurity breaches could damage or compromise the District's computer network and the confidentiality, integrity, or

availability of the District's computer system or the Computer Information. The potential disruption, access, modification, disclosure or destruction of Computer Information could result in the interruption of District services, the initiation of legal claims or proceedings, liability under laws that protect the privacy of personal information, regulatory penalties, and could cause a material disruption in the District's operations or the appropriate provision of District services. The costs of remedying any such damage or protecting against future attacks could be substantial and in excess of the maximum amount of the District's cyber risk insurance policy. Further, the litigation to which the District could be exposed following a cybersecurity breach could be significant, which could cause the District to incur material costs related to such legal claims or proceedings.

THE EDUCATIONAL FACILITIES PLAN

Section 1013.35, Florida Statutes, requires the development of a continuous five-year District Educational Facilities Plan or DEFP. In each year, the DEFP is reviewed and revised as necessary to reflect the District's long range capital construction program, changes to the capital construction program resulting from student enrollment changes, and improvements and additions to school and non-school sites. An annual update of the DEFP provides, upon approval by the School Board, a continuous five-year program. The most recent annual update of the DEFP was approved by the School Board on September 3, 2025 and provides for a facilities plan totaling approximately $3.9 billion over the next five-year period ending June 30, 2030.

The DEFP is funded from Federal, State and local revenue sources, as well as certificates of participation issued pursuant to the District's master lease program and general obligation bonds. In previous years, the District was faced with significant declines in capital outlay revenues, which had a major impact on the District's ability to fund the DEFP. Recent and projected increases in the Capital Improvement Tax revenues have helped the District undertake a portion of the deferred maintenance and invest in classroom technology equipment and school buses. Additionally, proceeds of the District's approved new money general obligation bonds provided the funding necessary to meet the most critical life-safety, technology and facility needs. There has also been significant investment into music and arts programs as a result of the overall Safety, Music & Arts, Athletics, Renovation, and Technology (SMART) initiative.

The DEFP is based on an analysis of funding initiatives selected because they have a high impact on the District's Strategic Plan Goals and a high potential for favorable operational results. Before implementing the SMART initiative, the District conducted an independent needs assessment of all schools and facilities. The needs assessment provided an objective status of the physical and educational adequacy of the District's schools and administrative sites. This information forms the basis of current and future capital planning efforts. The most critical priorities are identified by the needs assessment and will address safety and security, repairs and renovations, and technology and technology infrastructure. **[**However, many of the projects funded as part of the SMART initiative encountered construction problems, delays and cost overruns. To date, substantial progress has been made across various sectors of the SMART initiative, including technology, safety, athletics and renovations, although some renovation projects are still to be completed. Recently, the Superintendent declared an emergency circumstance regarding construction management of the District's DEFP, which allowed the District to continue using the services of its current construction manager until a new competitive procurement process can be completed for the next construction manager. The prior competitive bidding process resulted in the rejection of all bids due to concerns regarding potential non-compliance with District policies and State law.**]** The DEFP also uses student enrollment projections for the five years 2025-2026 through 2029-2030 to provide a basis for determining capital needs throughout this period. The following table provides historical information

relating to student enrollment in the District and projections for such enrollment. The current enrollment projections are compared to the annual benchmark day figures for the 2024-2025 school year.

Source: School District of Broward County, Florida - Demographics & Enrollment Planning Department as of November 2025.

Total District enrollment is projected to decrease by 28,170 students, including those in centers and charter schools by the 2030-2031 school year. Based on current demographic data, the District projects that elementary enrollment in District-owned facilities will decrease over the next five years by 10,845 students, middle school enrollment will decrease by 5,523 students and high school enrollment will decrease by 9,383 students.

Enrollment in charter schools is 48,820 in 86 charter schools for school year 2025-2026. When new charter schools open, their enrollment is drawn from the traditional public schools. Therefore, the enrollment for charter schools increases while the enrollment at traditional schools decreases. Since charter schools are considered public schools, their enrollment is, however, included in the District's total enrollment. Charter school enrollment is projected to decrease over the next five years by 2,419.

Legislation passed by the Florida Legislature has resulted in an increase in charter schools and charter school enrollment. Charter schools qualifying as "high-performing" are able to increase enrollment, add grade levels, extend their charter terms and even expand into other districts, with fewer restrictions. Local governing authorities' ability to control development criteria for charter schools has been reduced. The impact of this legislation continues to affect charter school enrollment, therefore, the resulting impact on traditional public school enrollment cannot be determined at this time. See also, "RECENT GOVERNMENTAL ACTIONS AND OTHER EVENTS AFFECTING DISTRICT REVENUES – Schools of Hope" herein.

All projections of the District as to student enrollment are based upon estimates and assumptions made by the District, and although considered reasonable by the District utilizing historical data, are inherently uncertain and subject to significant business, economic and competitive uncertainties and contingencies. The outcome of such factors is difficult to predict and many of such factors are beyond the

control of the District. As a result, there can be no assurance that such enrollment rates will occur or be realized as projected.

THE SCHOOL DISTRICT OF BROWARD COUNTY, FLORIDA

The District

Established in 1915, the District is organized under Section 4, Article IX of the Constitution of the State of Florida and Chapter 1001, Florida Statutes. The District covers the same geographic area as the County and provides elementary, secondary and vocational educational services to the unincorporated areas of the County and all of the 31 incorporated municipalities within the County, the largest of which is the City of Fort Lauderdale. The District has a student enrollment that is the second largest in the State and the sixth largest in the United States. As of September 8, 2025, the District served 236,667 students (including 48,820 charter school students) and approximately 125,000 adult students in 236 schools and education centers, three technical colleges and 86 charter schools. The District is the County's largest single employer. As of October 20, 2025, the District had approximately 26,270 permanent employees, including 12,975 classroom instructors.

Management of the District is independent of the County government and local governments within the County. The District is part of the State system of public education operated under the general direction and control of the State Board of Education. The District is governed by the School Board, which consists of nine elected members. The Superintendent of Schools is appointed by the members of the School Board and serves as the executive officer of the District. The District has taxing authority, as more fully described herein under "AD VALOREM TAX PROCEDURES" herein. The County Tax Collector collects ad valorem taxes for the District, but the County exercises no control over expenditures by the District. Additional information concerning the County is contained in "APPENDIX A – GENERAL INFORMATION REGARDING BROWARD COUNTY, FLORIDA" hereto.

Accreditation

All non-charter public schools in the District are fully accredited by Cognia, formerly known as AdvancEd. The District is the second largest fully accredited school district in the nation and is Florida's first fully accredited school system since 1962.

The County

As discussed above, management of the District is separate from the County, but the District covers the same geographic area. Information regarding the County herein is provided for the purpose of providing general information about the geographic area in which the District is located.

Broward County, created in October 1915 by the legislature of the State of Florida, is located on the southeast coast of Florida and has an area of approximately 1,231 square miles. The County is bordered on the south by Miami-Dade County and on the north by Palm Beach County. Located within the County are 31 municipalities. **[**The County ranks second in the State with a 2024 estimated population of approximately 2.0 million.**]** Approximately 50% of the County's population lives in its seven largest cities: Fort Lauderdale, Hollywood, Miramar, Pembroke Pines, Coral Springs, Pompano Beach and Davie. Four airports, including the Fort Lauderdale-Hollywood International Airport, are located in the County. Port Everglades, the State's deepest harbor and a leading international cruise port, is located less than two miles from Fort Lauderdale-Hollywood International Airport.

For a more detailed description of the County, including certain statistical and demographic data concerning the County, see "APPENDIX A – GENERAL INFORMATION CONCERNING BROWARD COUNTY, FLORIDA." The information about the County contained herein and in APPENDIX A has been obtained from the County and is believed to be reliable. No representation is made by the School Board or the Underwriter as to the accuracy or completeness of such information.

The School Board

The School Board is a public body corporate existing under the laws of the State, particularly Section 1001.40, Florida Statutes, and is the governing body of the District. The School Board consists of nine members, two of whom are elected by countywide vote and seven of whom are elected from single member districts, for overlapping four-year terms. Under existing statutes, the School Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property within the District; the development and adoption of a school program for the District; the establishment, organization and operation of schools, including vocational and evening schools and programs for gifted students, handicapped students, including students in residential care facilities; the appointment, compensation, promotion, suspension and dismissal of employees; the establishment of courses of study and the provision of adequate instructional aids; and the establishment of a system to transport students to school or school-related activities.

The School Board also has broad financial responsibilities, including the approval of the annual budget, the adoption of the school tax millage levy, and the establishment of a system of accounting and budgetary controls. Accounting reports and the annual budget must be filed with the State Department of Education.

The Chair of the School Board is elected by the members of the School Board annually. The Superintendent of Schools (the "Superintendent") is the ex-officio Secretary of the School Board. School Facilities Reorganization Plan

Primarily due to declining student enrollment and changing economic factors, the District is considering consolidating a number of underutilized schools in order to decrease costs and increase operational efficiencies. Certain of such underutilized schools were converted into combination schools (K-8 or grade 6-12) which are generally more popular among District families. The consolidations did not result in the elimination of any District programs, however, District staff will be reduced in proportion to student enrollment. Among the plans adopted by the School Board for the 2025-26 school year, is consolidation of Broward Estates Elementary School into Dr. Martin Luther King, Jr. Montessori Academy as a K-5 school; reconfiguration of four elementary schools (Coconut Creek, Coral Cove, Hollywood Central and Silver Shores) into K-8 schools; transferring students from underutilized Silver Shores Elementary School to Silver Lakes Elementary School and Silver Palms Elementary School; and reconfiguring Pines Middle School into a grade 6-12 school. See also, "– State Budget" herein.

Employee Relations

As of October 20, 2025, the School Board employed approximately 26,270 persons (full and part-time), the majority of which are represented by collective bargaining agents. The employee groups, bargaining agents/meet and confer groups and the current union contract expiration dates are set forth in the table below:

Florida Retirement System

Essentially all regular employees of the District are eligible to enroll as members of the Florida Retirement System (the "FRS"). The FRS is a single retirement system administered by the Florida Department of Management Services ("DMS"), and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined-benefit pension plan (the "FRS Pension Plan"), a Deferred Retirement Option Program (the "DROP"), a Retirement Health Insurance Subsidy Plan (the "HIS Plan"), and a defined-contribution plan, referred to as the Florida Retirement System Investment Plan (the "Investment Plan"). A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, information about the FRS's fiduciary net position, and other relevant information, is available from the DMS at: www.dms.myflorida.com.

FRS Pension Plan. The Florida Legislature establishes contribution rates for employers and employees participating in the FRS Pension Plan. The District's contributions (not including employee contributions) to the FRS Pension Plan for Fiscal Year 2024-25 totaled $156.6 million, which was equal to the required contributions for such fiscal year. At June 30, 2025, the District reported a liability of $1.1 billion for its proportionate share of the FRS Pension Plan's net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2024. The District's proportionate share of the net pension liability was based on the District's Fiscal Year 2023-24 contributions relative to the total fiscal year 2023-24 contributions of all participating members. At June 30, 2024, the District's proportionate share was 2.76%, which was a decrease of 0.10% from its proportionate share measured as of June 30, 2023. For the Fiscal Year ended June 30, 2025, the District recognized the FRS Pension Plan pension expense of $155.5 million. In addition, the District reported deferred outflows of resources of $431.9 million and deferred inflows of resources of $129.4 million related to the FRS Pension Plan.

HIS Plan. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. The District's contributions to the HIS Pension Plan totaled $31.1 million for Fiscal Year 2024-25. At June 30, 2025, the District reported a net pension liability of $548.1 million for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of the benefit payments expected to be paid within one year, net of the District's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2024 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2024. The District's proportionate share of the net pension liability was based on the District's Fiscal Year 2023-24 contributions relative to the total fiscal year 2023-24 contributions of all participating members. At June 30, 2024, the District's proportionate share was 3.65%, which was a decrease of 0.10% from its proportionate share measured as of June 30, 2023. For the Fiscal Year ended June 30, 2025, the District recognized pension expense of $13.7 million related to the HIS Plan. In addition, the District reported deferred outflows of resources of $46.1 million and deferred inflows of resources of $100.6 million related to the HIS Plan.

Investment Plan. The District contributes to the Investment Plan for its eligible employees electing to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The District's total contribution to the plan totaled $28 million.

ALL POTENTIAL PURCHASERS OF THE SERIES 2026 BONDS SHOULD REVIEW NOTE 14 OF THE NOTES TO THE BASIC FINANCIAL STATEMENTS AND REQUIRED SUPPLEMENTARY INFORMATION SET FORTH IN "APPENDIX B – EXCERPTED PAGES FROM THE ANNUAL COMPREHENSIVE FINANCIAL REPORT OF THE SCHOOL BOARD

OF BROWARD COUNTY, FLORIDA FOR THE FISCAL YEAR ENDED JUNE 30, 2025" ATTACHED HERETO. SUCH NOTE 14 AND REQUIRED SUPPLEMENTARY INFORMATION CONTAIN DESCRIPTIONS OF THE PENSION PLANS AND MATERIAL FINANCIAL INFORMATION CONCERNING THE PLANS, INCLUDING BUT NOT LIMITED TO, INFORMATION REGARDING CONTRIBUTIONS, COSTS, FUNDED STATUS AND FUNDING PROGRESS.

Other Post-Employment Benefits

In addition to its contributions under the State's retirement plan described above, the District provides other postemployment benefits ("OPEB") for certain of its retired employees in the form of an implicit rate subsidy by providing access to health insurance plans. The offering of this health insurance coverage is required by Section 112.0801, Florida Statutes. In addition, retirees are eligible to continue the District-sponsored term life insurance policy provided by the District.

In June 2015, the Governmental Accounting Standards Board issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions ("GASB No. 75"), which was adopted by the District for the year ended June 30, 2018 and which replaced GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions ("GASB 45"). GASB No. 75 addresses accounting and financial reporting for OPEB provided to employees of state and local government employers; establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expenses; requires governments to report a liability, deferred outflows of resources, deferred inflows of resources, and expenses on the face of the financial statement for the OPEB that they provide; and requires more extensive note disclosures and supplementary information about their OPEB liability.

The District has historically accounted for its OPEB contributions on a pay-as-you-go basis and the District currently plans to continue such pay-as-you-go funding of its OPEB contributions. As of the valuation date, June 30, 2024, there were approximately 25,270 active participants and 561 inactive participants (retirees and beneficiaries) of the District receiving post-employment benefits. The District provided required employer contributions toward the annual OPEB cost in the amount of $6.3 million, comprised of benefit payments made on behalf of retirees for claims expense and retention costs. The pay-as-you-go method of funding OPEB allows the District to continue to pay only the current OPEB costs each Fiscal Year, but will produce a growing unfunded actuarial liability for the future. The District's total OPEB obligation was $163.1 million based on the measurement date of June 30, 2024 and was determined using an actuarial roll-forward on the results of a full actuarial valuation as of June 30, 2024.

Below are the details regarding the total OPEB liability from June 30, 2024 to June 30, 2025 (in thousands):

Budgetary Process

Florida law requires the School Board to adopt in each fiscal year a tentative budget and a final budget, each of which is required to be balanced with available funds. Revenues derived from ad valorem property taxes are budgeted, as required by Florida law, on the application of millage levies to 96% of the non-exempt assessed valuation of property in Broward County.

The Superintendent is responsible for recommending the tentative budget to the School Board. Florida law further requires the School Board to advertise its intent to adopt the tentative budget, including a proposed tax millage, within 29 days after certification of taxable property by the Property Appraiser, which is required by law to occur by July 1, unless extended.

The School Board is required to hold a public hearing on the tentative budget and the proposed tax millage within five days, but not earlier than two days, after advertisement. At the hearing, the School Board adopts a tentative budget and a resolution stating the millage rate to be levied, and sets the date for the public hearing on the final budget. Following the hearing on the tentative budget, all property owners are notified by the County Property Appraiser, usually in mid-August, of the date, time and place of the hearing on the final budget; the proposed millage rate; and the millage rate which would have had to be levied to raise the same ad valorem property tax revenue as was raised in the preceding year.

A public hearing and adoption of the final budget and tax millage are required within 80 days, but not earlier than 65 days, after the taxable property certification by the County Property Appraiser. This public hearing usually occurs early in September. The final public hearing for adoption of the Fiscal Year 2025-26 budget was held on September 9, 2025.

In no event may the millage rate adopted at the final budget hearing exceed the millage rate adopted at the tentative budget hearing unless each taxpayer within the District is sent notice by mail of the taxes under the tentative adopted millage rate and the taxes under the higher rate to be adopted at the final budget hearing. The final budget is submitted to the Department of Education of the State of Florida. After the final budget hearing, the School Board must certify the final millage rate to the County Tax Collector, the County Property Appraiser and the State Department of Revenue. See "AD VALOREM TAX PROCEDURES" herein.

State Budget

A large portion of the District's funding is derived from State sources. A significantly large percentage of such State revenues is generated from the levy of the State sales tax. The amounts budgeted for distribution from the State to the District are subject to change in the event that projected revenues are not realized.

On June 30, 2025, Governor DeSantis approved the State education budget for State Fiscal Year 2025-26, which commenced July 1, 2025, providing for an approximately $945 million or 3.31% increase in State and local FEFP funding for K-12 public schools over State Fiscal Year 2024-2025, reflecting a per-pupil increase of approximately $143 per student or 1.59% over Fiscal Year 2024-2025. The adopted education budget allocates approximately $3.8 billion for funding of the State's expanded voucher/scholarship programs pursuant to HB 1 as part of State FEFP funding. See "RECENT GOVERNMENT ACTIONS AND OTHER EVENTS AFFECTING DISTRICT REVENUES – Legislative Changes Relating to School Choice" herein. However, such funds will be withheld from each school district's FEFP distributions based on the forecasted scholarship students for each school district. For the District, the estimated amount to be withheld is approximately $325.6 million. Based upon the second FEFP calculation, the estimated increase for the District is approximately $56.9 million (inclusive of charter

school students and voucher/scholarship students) in State and local FEFP funds over Fiscal Year 2024-25. However, there can be no assurance that funding for K-12 public schools will increase exactly as provided for in the approved budget.

Based on the legislatively adopted budget for State fiscal year 2025–26, the District anticipates a reduction in State FEFP funding driven by an overall decrease in State funding levels and a projected decline in enrollment within District-operated schools. Since the 2017-18 school year, District student enrollment has decreased by approximately 13 percent, or 30,000 students. Enrollment for District-operated schools in 2025-26 is projected to decline by an additional 9,000 students compared to 2024-25. The combined effect of reduced FEFP revenues and rising operating costs is projected to result in a negative financial impact to the District in excess of $90 million. In response, the District is evaluating and implementing a series of cost-containment measures, including a hiring freeze for central office positions, adjustments to teacher work hours, administrative staffing efficiencies, consolidation of under-enrolled schools, and alignment of staffing levels with student enrollment trends. On March 13, 2025, the School Board approved the Superintendent's 2025-26 organizational chart, which included a reduction in central office positions. Subsequently, on December 8, 2025, the Superintendent announced the immediate implementation of a hard hiring freeze, travel freeze, and overtime reductions. Notwithstanding these financial pressures, the School Board does not anticipate that reductions in State FEFP funding will adversely affect the District's ability to meet its debt service obligations on the Bonds.

Recently, the District has experienced increased internal and external scrutiny regarding its finances and operations, including public statements by the Governor alleging mismanagement. In response, members of the School Board have publicly expressed support for a review by the State's Department of Government Efficiency ("DOGE") team. To date, DOGE has not indicated whether or when it will conduct a review of the District's finances. In the interim, the District continues to fully comply with all financial reporting, transparency, and accountability requirements of the Florida Department of Education and all applicable state oversight agencies.

SELECTED FINANCIAL INFORMATION

Following is selected financial information regarding the District. For more detailed financial information concerning the District, see "APPENDIX B - EXCERPTED PAGES FROM THE ANNUAL COMPREHENSIVE FINANCIAL REPORT OF THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA FOR FISCAL YEAR ENDED JUNE 30, 2025."

General

The Association of School Business Officials International has awarded the District a Certificate of Excellence in Financial Reporting for the past 42 consecutive years and, for the last 29 consecutive years, the District has received a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association of the United States and Canada. Both awards are given to recognize the high quality of financial reporting undertaken by the District.

The financial and accounting procedures of the District are designed to conform to generally accepted accounting principles applied to governmental units. The District's accounting system is organized on the basis of funds. Resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and the means by which spending activities are controlled. The accounts for the governmental fund types are maintained on a modified accrual basis of accounting,

whereby revenues are recognized when they become available and measurable and expenditures are recorded in the accounting period in which the liability is incurred, if measurable, except unmatured interest on general long-term debt, which is recognized when the interest is due. The internal service funds are maintained on the accrual basis of accounting, whereby revenues are recognized when earned and expenses are recognized when incurred. Agency funds, accounted on the accrual basis, are purely custodial in nature (assets equal liabilities) and as such, do not have a measurement focus.

The District's governmental funds are used to account for the programs and activities of the governmental functions of the District. The General Fund serves as the primary operating fund of the District. Local ad valorem taxes, Florida Education Finance Program ("FEFP") funds and selected State categorical programs constitute the primary resources of the General Fund. The Special Revenue Funds of the District are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted or committed to expenditures for specific purposes. Major sources of revenue for these funds are federal grants and food sales. The Debt Service Funds of the District are used to account for the payment of interest and principal on general long-term debt. Major sources of revenue for these funds include the voter-approved millage levy, non-voted special millage levy and the State Board of Education revenue. Capital Project Funds of the District are used to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment. Major sources of revenue for these funds are local ad valorem taxes, educational impact fees, and State distributions.

General Fund Ending Balance Guidelines

Section 1011.051, Florida Statutes, entitled "Guidelines for general funds" requires that if a school district's General Fund ending balance not classified as restricted, committed or nonspendable in the approved operating budget is projected to fall below three percent (3%) of projected General Fund revenues, the Superintendent shall provide written notification to the district school board and the Commissioner of Education. The section further requires that if the General Fund ending balance not classified as restricted, committed or nonspendable is projected to fall below two percent (2%) of projected General Fund revenues, the Superintendent shall provide written notification to the district school board and the Commissioner of Education. Within 14 days after receiving such notification of an ending balance below two percent (2%), if the Commissioner determines that the district does not have a plan that is reasonably anticipated to avoid a financial emergency as determined pursuant to Florida Statutes pertaining thereto, the Commissioner shall appoint a financial emergency board that may take certain delineated steps to assist a district school board in complying with the General Fund requirements. In Fiscal Year 2023-24, the District's General Fund ending balance not classified as restricted, committed or nonspendable was 3.58% of General Fund Revenues. In Fiscal Year 2024-25, the District's General Fund ending balance not classified as restricted, committed or nonspendable was 4.23% of General Fund Revenues and for Fiscal Year 2025-2026 is budgeted to be 3.83% of General Fund Revenues.

LITIGATION

There is no litigation now pending or threatened (i) to restrain or enjoin the issuance of the Series 2026 Bonds; (ii) questioning or affecting the validity of the Series 2026 Bonds, the Resolution or the pledge by the District under the Resolution; or (iii) questioning or affecting the validity of any of the proceedings for the authorization, sale, execution or delivery of the Series 2026 Bonds.

Between September 2023 and April 2024, the School Board faced several lawsuits from charter schools over the distribution of referendum revenue from 2018 to 2022, with the charter schools seeking their alleged proportionate share of revenues from the additional voted millage based on full-time equivalent student enrollment. See "AD VALOREM TAXATION - Millage Set by Local Governing Body - District Millage Rates" herein. On March 7, 2024, the Florida Department of Education notified the Superintendent that an investigation was opened into the District's compliance with State law regarding sharing revenue from the referendum held in 2018 with charter schools in the District. On March 19, 2024, the Florida Commissioner of Education found probable cause that the District was non-compliant and recommended that the State Board of Education require the District to approve and implement a payment plan for charter schools by the start of the 2024-25 school year, with full payment by December 31, 2024, or a later agreed-upon date. The parties settled the claims by agreeing that the District would make three payments totaling approximately $108 million to the charter schools in the District. The settlement agreement was approved by the School Board on June 18, 2024, and provides the District pay charter schools $31.9 million by July 10, 2024, $35.9 million by July 10, 2025, and the remaining $40.4 million by July 10, 2026. The District agreed that $67 million would be paid from referendum dollars approved by voters in 2022 (which was a renewal of the referendum from 2018 for four additional years) and the interest of $41 million would be paid from the District's general fund. Additionally, the School Board considered allocating approximately $14 million over three years to additional charter schools which were not actively involved in litigation. This would increase the total amount paid to charter schools over the three-year period to approximately $123 million. The General Counsel's office, based on the District's Chief Financial Officer's representations, asserts that the impact of the second payment has been built into the Fiscal Year 2025-26 budget approved by the School Board in September 2025.

The District is involved in certain litigation and disputes incidental to its operations. Upon the basis of information presently available, the General Counsel Office and Risk Management Administration to the Board believe that there are substantial defenses to such litigation and disputes and that, in any event, any ultimate liability, in excess of applicable insurance coverage, resulting therefrom will not materially adversely affect the financial position or results of operations of the District.

INDEPENDENT AUDITORS

The Basic Financial Statements of the School Board as of and for the year ended June 30, 2025 included in this Official Statement have been audited by Forvis Mazars, LLP, independent certified public accountants, as stated in their report appearing in "APPENDIX B – EXCERPTED PAGES FROM THE ANNUAL COMPREHENSIVE FINANCIAL REPORT OF THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA FOR FISCAL YEAR ENDED JUNE 30, 2025" herein. Such financial statements are the most recently audited financial statements of the District. The independent auditors did not audit the financial statements of the discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to the independent auditor and the independent auditor's opinion, insofar as it relates to the amounts included for discretely presented component units, is based solely on the reports of other auditors. Forvis Mazars, LLP has not participated in the offering of the Series 2026 Bonds.

The budgeted figures set forth in this Official Statement reflect the School Board's final budget which was adopted on September 9, 2025. The School Board may amend its final budget from time to time in accordance with applicable law.

DISCLOSURE REQUIRED BY FLORIDA BLUE SKY REGULATIONS

Section 517.051, Florida Statutes, and the regulations promulgated thereunder (the "Disclosure Act") require that the District make full and fair disclosures of any bonds or other debt obligations that it has issued or guaranteed and that are or have been in default as to principal or interest at any time after December 31, 1975 (including bonds or other debt obligations for which it has served only as a conduit remarketing such as industrial development or private activity bonds issued on behalf of private businesses). The District is not, and since December 31, 1975 has not been, in default as to principal of and interest on any of its bonds or other debt obligations.

TAX EXEMPTION

[To be reviewed by Co-Bond Counsel**]**

The Internal Revenue Code of 1986, as amended (the "Code"), includes requirements which the District must continue to meet after the issuance of the Series 2026 Bonds in order that the interest on the Series 2026 Bonds be and remain excludable from gross income for federal income tax purposes. The District's failure to meet these requirements may cause the interest on the Series 2026 Bonds to be included in gross income for federal income tax purposes retroactively to the date of issuance of the Series 2026 Bonds. The District has covenanted in the Resolution to take the actions required by the Code in order to maintain the exclusion from gross income for federal income tax purposes of interest on the Series 2026 Bonds.

In the opinion of Bond Counsel, assuming the accuracy of certain representations and certifications of the District and continuing compliance by the District with the tax covenants referred to above, under existing statutes, regulations, rulings and court decisions, (i) the interest on the Series 2026 Bonds is excludable from gross income for federal income tax purposes; (ii) interest on the Series 2026 Bonds is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals; and (iii) in the case of the alternative minimum tax imposed by Section 55(b)(2) of the Code on applicable corporations (as defined in Section 59(k) of the Code), interest on the Series 2026 Bonds is not excluded from the determination of adjusted financial statement income. Bond Counsel is further of the opinion that the Series 2026 Bonds and the interest thereon are not subject to taxation under the laws of the State, except as to estate taxes and taxes under Chapter 220, Florida Statutes, on interest, income, or profits on debt obligations owned by corporations as defined in said Chapter 220. Bond Counsel will express no opinion as to any other tax consequences regarding the Series 2026 Bonds. Prospective purchasers of the Series 2026 Bonds should consult their own tax advisors as to the status of interest on the Series 2026 Bonds under the tax laws of any state other than Florida.

Except as described above, Bond Counsel will express no opinion regarding the federal income tax consequences resulting from the receipt or accrual of the interest on the Series 2026 Bonds, or the ownership or disposition of the Series 2026 Bonds. Prospective purchasers of Series 2026 Bonds should be aware that the ownership of Series 2026 Bonds may result in other collateral federal tax consequences, including (i) the denial of a deduction for interest on indebtedness incurred or continued to purchase or carry the Series 2026 Bonds, (ii) the reduction of the loss reserve deduction for property and casualty insurance companies by the applicable statutory percentage of certain items, including the interest on the Series 2026 Bonds, (iii) the inclusion of the interest on the Series 2026 Bonds in the earnings of certain foreign corporations doing business in the United States for purposes of a branch profits tax, (iv) the inclusion of the interest on the Series 2026 Bonds in the passive income subject to federal income taxation of certain Subchapter S corporations with Subchapter C earnings and profits at the close of the taxable year and (v) the inclusion of interest on the Series 2026 Bonds in the determination of the taxability of certain Social Security and Railroad Retirement benefits to certain recipients of such benefits. The nature and extent of the other tax consequences described above will depend on the particular tax status and situation of each owner of the Series 2026 Bonds. Prospective purchasers of the Series 2026 Bonds should consult their own tax advisors as to the impact of these and any other tax consequences.

Bond Counsel's opinion is based on existing law, which is subject to change. Such opinion is further based on factual representations made to Bond Counsel as of the date hereof. Bond Counsel assumes no duty to update or supplement its opinion to reflect any facts or circumstances that may thereafter come to Bond Counsel's attention, or to reflect any changes in law that may thereafter occur or become effective. Moreover, Bond Counsel's opinions are not a guarantee of a particular result, and are not binding on the IRS or the courts; rather, such opinions represent Bond Counsel's professional judgment based on its review of existing law, and in reliance on the representations and covenants that it deems relevant to such opinion.

Original Issue Discount and Premium

Certain of the Series 2026 Bonds ("Discount Bonds") may be offered and sold to the public at an original issue discount ("OID"). OID is the excess of the stated redemption price at maturity (the principal amount) over the "issue price" of a Discount Bond determined under Code Section 1273 or 1274 (*i.e.*, for obligations issued for money in a public offering, the initial offering price to the public (other than to bond houses and brokers) at which a substantial amount of the obligation of the same maturity is sold pursuant to that offering). For federal income tax purposes, OID accrues to the owner of a Discount Bond over the period to maturity based on the constant yield method, compounded semiannually (or over a shorter permitted compounding interval selected by the owner). The portion of OID that accrues during the period of ownership of a Discount Bond (i) is interest excludable from the owner's gross income for federal income tax purposes to the same extent, and subject to the same considerations discussed above, as other interest on the Series 2026 Bonds, and (ii) is added to the owner's tax basis for purposes of determining gain or loss on the maturity, redemption, prior sale or other disposition of that Discount Bond.

Certain of the Series 2026 Bonds ("Premium Bonds") may be offered and sold to the public at a price in excess of their stated redemption price (the principal amount) at maturity (or earlier for certain Premium Bonds callable prior to maturity). That excess constitutes bond premium. For federal income tax purposes, bond premium is amortized over the period to maturity of a Premium Bond, based on the yield to maturity of that Premium Bond (or, in the case of a Premium Bond callable prior to its stated maturity, the amortization period and yield may be required to be determined on the basis of an earlier call date that results in the lowest yield on that Premium Bond), compounded semiannually (or over a shorter permitted compounding interval selected by the owner). No portion of that bond premium is deductible by the owner of a Premium Bond. For purposes of determining the owner's gain or loss on the sale, redemption (including redemption at maturity) or other disposition of a Premium Bond, the owner's tax basis in the Premium Bond is reduced by the amount of bond premium that accrues during the period of ownership. As a result, an owner may realize taxable gain for federal income tax purposes from the sale or other disposition of a Premium Bond for an amount equal to or less than the amount paid by the owner for that Premium Bond.

Owners of Discount and Premium Bonds should consult their own tax advisers as to the determination for federal income tax purposes of the amount of OID or bond premium properly accruable in any period with respect to the Discount or Premium Bonds and as to other federal tax consequences and the treatment of OID and bond premium for purposes of state and local taxes on, or based on, income.

Possibility of Future Changes in Tax Law

From time to time, there are legislative proposals suggested, debated, introduced or pending in Congress or in the State legislature that, if enacted into law, could alter or amend one or more of the federal tax matters, or state tax matters, respectively, described above, including, without limitation, the excludability from gross income of interest on the Series 2026 Bonds, adversely affect the market price or marketability of the Series 2026 Bonds, or otherwise prevent the holders from realizing the full current benefit of the status of the interest thereon. It cannot be predicted whether or in what form any such proposal

may be enacted, or whether, if enacted, any such proposal would affect the Series 2026 Bonds. Prospective purchasers of the Series 2026 Bonds should consult their tax advisors as to the impact of any proposed or pending legislation.

Information Reporting and Backup Withholding

Interest paid on tax-exempt bonds such as the Series 2026 Bonds is subject to information reporting to the Internal Revenue Service in a manner similar to interest paid on taxable obligations. This reporting requirement does not affect the excludability of interest on the Series 2026 Bonds from gross income for federal income tax purposes. However, in conjunction with that information reporting requirement, the Code subjects certain non-corporate owners of Series 2026 Bonds, under certain circumstances, to "backup withholding" at the rates set forth in the Code, with respect to payments on the Series 2026 Bonds and proceeds from the sale of Series 2026 Bonds. Any amount so withheld would be refunded or allowed as a credit against the federal income tax of such owner of Series 2026 Bonds. This withholding generally applies if the owner of Series 2026 Bonds (i) fails to furnish the payor such owner's social security number or other taxpayer identification number ("TIN"), (ii) furnished the payor an incorrect TIN, (iii) fails to properly report interest, dividends, or other "reportable payments" as defined in the Code, or (iv) under certain circumstances, fails to provide the payor or such owner's securities broker with a certified statement, signed under penalty of perjury, that the TIN provided is correct and that such owner is not subject to backup withholding. Prospective purchasers of the Series 2026 Bonds may also wish to consult with their tax advisors with respect to the need to furnish certain taxpayer information in order to avoid backup withholding.

ENFORCEABILITY OF REMEDIES

The remedies available to the holders of the Series 2026 Bonds upon a monetary or covenant default under the Resolution are in many respects based upon judicial actions which are often subject to discretion and delay. Under existing constitutional and statutory law and judicial decisions, including specifically Title 11 of the United States Code, the remedies specified by the Federal bankruptcy code, the Resolution and the Series 2026 Bonds may not be readily available or may be limited. The various legal opinions to be delivered concurrently with the delivery of the Series 2026 Bonds (including Bond Counsel's approving opinion) will be qualified as to the enforceability of the various legal instruments, by limitations imposed by general principles of equity, bankruptcy, reorganization, insolvency or other similar laws affecting the rights of creditors enacted before or after such delivery.

RATINGS

[In the event any of the Series 2026 Bonds are insured, S&P Global Ratings, a business unit of Standard and Poor's Financial Services LLC ("S&P"), is expected to assign a rating of "___" (_____ outlook) to the insured Series 2026 Bonds with the understanding that upon delivery of the Series 2026 Bonds, the Policy will be issued by **[**INSURER SHORT NAME**]**. Additionally,**]** Moody's Ratings ("Moody's") and Fitch Ratings, Inc. ("Fitch") have assigned underlying ratings of "___" (_____ outlook) and "___" (_____ outlook), respectively, to the Series 2026 Bonds without regard to the Policy. **[**An explanation of the rating and outlook given by S&P may be obtained from S&P at 55 Water Street, New York, New York 10041, (212) 438-2124.**]** An explanation concerning the significance of the rating and outlook given by Moody's may be obtained from Moody's at 7 World Trade Center, 250 Greenwich Street, New York, New York 10007, (212) 553-0300. An explanation of the rating and outlook given by Fitch may be obtained from Fitch at 33 Whitehall Street, New York, New York 10004, (212) 908-0500. Certain information and materials concerning the Series 2026 Bonds, the School Board and the District were

furnished to Moody's and Fitch by the School Board. Any of the rating services may raise, lower or withdraw its rating or outlook at any time. If a downward change or withdrawal should occur, it could have an adverse effect on the resale price of the Series 2026 Bonds.

MUNICIPAL ADVISOR

The School Board has retained PFM Financial Advisors LLC, Orlando, Florida as municipal advisor with respect to the planning, structuring, execution and issuance of the Series 2026 Bonds (the "Municipal Advisor"). The Municipal Advisor will receive fees for services provided in connection with the issuance of the Series 2026 Bonds, which fees are contingent upon the issuance of the Series 2026 Bonds. The Municipal Advisor is not obligated to undertake and has not undertaken to make an independent verification or to assume responsibility for the accuracy, completeness or fairness of the information contained in this Official Statement.

PFM Financial Advisors LLC is an independent municipal advisory firm and is not engaged in the business of underwriting, trading or distributing municipal or other public securities.

UNDERWRITING

The Series 2026 Bonds are being purchased by J.P. Morgan Securities LLC (the "Underwriter"), at an aggregate purchase price of $_____ (which represents the $_____ aggregate principal amount of the Series 2026 Bonds plus a bond premium of $_____ and less an Underwriter's discount of $_____). The offer of the Underwriter to purchase the Series 2026 Bonds provides for the purchase of all of the Series 2026 Bonds if any are purchased. The Series 2026 Bonds may be reoffered and sold by the Underwriter to bond houses, brokers or similar persons or organizations acting in the capacity of Underwriter or wholesalers at prices that are lower than, or yields that are greater than, the stated public offering price or yield shown on the inside cover page hereof. After the initial public offering, the offering price or yield may be changed from time to time by the Underwriter.

J.P. Morgan Securities LLC ("JPMS"), the Underwriter of the Series 2026 Bonds, has entered into negotiated dealer agreements (each, a "Dealer Agreement") with each of Charles Schwab & Co., Inc. ("CS&Co.") and LPL Financial LLC ("LPL") for the retail distribution of certain securities offerings at the original issue prices. Pursuant to each Dealer Agreement, each of CS&Co. and LPL may purchase Series 2026 Bonds from JPMS at the original issue price less a negotiated portion of the selling concession applicable to any Series 2026 Bonds that such firm sells.

The Underwriter and its affiliates are full-service financial institutions engaged in various activities that may include securities trading, commercial and investment banking, municipal advisory, brokerage, and asset management. In the ordinary course of business, the Underwriter and its affiliates may actively trade debt and, if applicable, equity securities (or related derivative securities) and provide financial instruments (which may include bank loans, credit support or interest rate swaps). The Underwriter and its affiliates may engage in transactions for their own accounts involving the securities and instruments made the subject of this securities offering or other offering of the School Board. The Underwriter and its affiliates may make a market in credit default swaps with respect to municipal securities in the future. The Underwriter and its affiliates may also communicate independent investment recommendations, market color or trading ideas and publish independent research views in respect of the Series 2026 Bonds or other offerings of the School Board.

Co-Bond Counsel and Co-Disclosure Counsel may, from time-to-time, serve as counsel to the Underwriter on matters unrelated to the issuance of the Series 2026 Bonds.

CONTINGENT FEES

The School Board has retained Co-Bond Counsel, Municipal Advisor and Co-Disclosure Counsel with respect to the issuance and delivery of the Series 2026 Bonds. Payment of the fees of such professionals are each completely contingent upon the issuance of the Series 2026 Bonds.

FORWARD LOOKING STATEMENTS

This Official Statement contains certain "forward-looking statements" concerning the School Board's or the District's operations, performance and financial condition, including its future economic performance, plans and objectives and the likelihood of success in developing and expanding. These statements are based upon a number of assumptions and estimates which are subject to significant uncertainties, many of which are beyond the control of the School Board or District. The words "may," "would," "could," "budget," "will," "expect," "anticipate," "believe," "intend," "plan," "estimate" and similar expressions are meant to identify these forward-looking statements. Actual results may differ materially from those expressed or implied by these forward-looking statements.

CONTINUING DISCLOSURE

The School Board has covenanted and undertaken for the benefit of the holders of the Series 2026 Bonds to provide certain financial information and operating data relating to the District and the Series 2026 Bonds in each year (the "Annual Report"), and to provide notices of the occurrence of certain enumerated events. Such covenant shall only apply so long as the Series 2026 Bonds remain outstanding. The undertaking shall also terminate upon the termination of the continuing disclosure requirements of S.E.C. Rule 15c2-12(b)(5) (the "Rule") by legislative, judicial or administrative action. The Annual Report will be filed by the School Board with the Municipal Securities Rulemaking Board via its Electronic Municipal Market Access ("EMMA") system described in the Form of Disclosure Dissemination Agent Agreement attached hereto as APPENDIX E. The notices of material events will be filed by the School Board with EMMA. The specific nature of the information to be contained in the Annual Report and the notices of material events are described in "APPENDIX E – FORM OF DISCLOSURE DISSEMINATION AGENT AGREEMENT." These undertakings have been made in order to assist the Underwriter in complying with the Rule.

Due to an administrative oversight, the School Board failed to timely file notices related to the incurrence of various financial obligations since February 2020, as required by certain of the Disclosure Dissemination Agent Agreements to which the School Board is a party. The School Board corrected such failure on May 18, 2023 by filing a notice summarizing the various financial obligations for which it previously failed to file timely notices as required under such existing Disclosure Dissemination Agent Agreements.

Notwithstanding the foregoing, if the amounts deposited in the Series 2015 Escrow Deposit Fund are insufficient to make said payments, the District shall deposit into the Series 2015 Escrow Deposit Fund the amount of any deficiency immediately upon notice from the Escrow Agent, but only on a basis subordinate to the payment of the Outstanding Bonds (as defined in the Master Resolution).

SECTION 2.2 Irrevocable Escrow Created. The deposit of moneys and Government Obligations or other property hereunder in the Series 2015 Escrow Deposit Fund shall constitute an irrevocable deposit of said moneys and Government Obligations and other property hereunder for the benefit of the holders of the Refunded Bonds, subject to the provisions of this Agreement. The holders of the Refunded Bonds shall, subject to the provisions of this Agreement. The holders of the Refunded Bonds shall, subject to the provisions of this Agreement, have an express lien on all moneys and principal of and earnings on the Government Obligations and other property in the Series 2015 Escrow Deposit Fund. The moneys deposited in the Series 2015 Escrow Deposit Fund and the matured principal of the Government Obligations and other property hereunder and the interest thereon shall be held in trust by the Escrow Agent, and shall be transferred in the necessary amounts as hereinafter set forth, for the payment of the principal of, redemption premium, if any, and interest on the Refunded Bonds as the same become due and payable, and upon the optional redemption thereof on the Redemption Date therefor, as specifically set forth in Schedule B hereto.

SECTION 2.3 Purchase of Government Obligations. The Escrow Agent is hereby directed to immediately purchase the Government Obligations listed on Schedule C. The Escrow Agent shall purchase the Government Obligations solely from the moneys deposited in the Series 2015 Escrow Deposit Fund all as provided in Section 2.1 hereof. The Escrow Agent shall apply the moneys deposited in the Series 2015 Escrow Deposit Fund and the Government Obligations purchased therewith, together with all income or earnings thereon, in accordance with the provisions hereof. The Escrow Agent shall have no power or duty to invest any moneys held hereunder or to make substitutions of the Government Obligations held hereunder or to sell, transfer or otherwise dispose of the Government Obligations held hereunder except as provided in this Agreement, nor shall the Escrow Agent have any liability with respect to such investments, including, without limitation, any losses or taxes thereon. In the absence of investment instructions from the District, the Escrow Agent shall hold the moneys held by it hereunder uninvested.

SECTION 2.4 Substitution of Certain Government Obligations.

2.4.1 At the written direction of the District, the Escrow Agent shall accept in substitution for all or a portion of the Government Obligations listed in Schedule C, Government Obligations (the "Substituted Securities"), the principal of and interest on which, together with any Government Obligations listed in Schedule C hereto for which no substitution is made, will meet the requirements of payment of all Basic Lease Payments represented by the Refunded Bonds as set forth in Schedule C hereof. The foregoing notwithstanding, the substitution of Substituted Securities for any of the Government Obligations listed in Schedule B may be effected only upon compliance with Section 2.4.2(a) and (b) below.

2.4.2 At the written direction of the District at any time during the term of this Agreement, and provided that substituted Government Obligations are made available to the Escrow Agent, the Escrow Agent shall, upon receipt of the opinion and verification required by (a) and (b) respectively below, sell, transfer, exchange or otherwise dispose of, or request the redemption of, all or a portion of the Government Obligations then held in the Series 2015 Escrow Deposit Fund, and shall substitute for such Government Obligations other Government Obligations, designated by the District, and acquired by the Escrow Agent with the proceeds derived from the sale, transfer, disposition, redemption of, or by the exchange of, such Government Obligations held in the Series 2015 Escrow Deposit Fund:

(a) The Escrow Agent shall have received an opinion of nationally recognized counsel in the field of law relating to municipal bonds stating that such substitution complies with this Agreement and will not adversely affect the exclusion from gross income for federal income tax purposes of the interest on the Refunded Bonds and the Series 2026 Bonds and is not inconsistent with the statutes and regulations applicable to the Refunded Bonds and the Series 2026 Bonds; and

(b) The Escrow Agent shall have received verification from a nationally recognized independent certified public accountant or firm of accountants stating that the principal of and interest on the substituted Government Obligations, together with any Government Obligations and a stated dollar amount of cash remaining in the Series 2015 Escrow Deposit Fund, if any, will be sufficient without reinvestment, to pay the remaining

principal of, redemption premium, if any, and interest on the Refunded Bonds, as set forth in Schedule B hereof.

Notwithstanding anything to the contrary contained in this Agreement, any moneys resulting from the sale, transfer, disposition or redemption of the Government Obligations held hereunder and the substitution therefor of other Government Obligations which, based on the foregoing verification, are not necessary for the payment of the principal of, redemption premium, if any, and interest on the Refunded Bonds, shall be transferred to the District.

The Escrow Agent may conclusively rely on all specific directions in this Agreement in the investment or reinvestment of the Series 2015 Escrow Deposit Fund. The Escrow Agent shall be under no duty to inquire whether the Government Obligations as deposited in the Series 2015 Escrow Deposit Fund are properly invested under the Code.

SECTION 2.5 Transfers from the Escrow Deposit Funds. As the principal of the Government Obligations set forth in Schedule C shall mature and be paid, and the investment income and earnings thereon are paid, the Escrow Agent shall, no later than the due date for the Refunded Bonds, as specified in Schedule B hereof, transfer to itself as the paying agent for the Refunded Bonds from the Series 2015 Escrow Deposit Fund, amounts sufficient to pay the principal of, redemption premium, if any, and interest on the Refunded Bonds, as specified in Schedule B hereof.

SECTION 2.6 Transfer of Funds After All Payments Required by this Agreement are Made. After all of the transfers by the Escrow Agent for payment of the principal of, redemption premium, if any, and interest on the Refunded Bonds have been made as specified in Schedule B, all remaining moneys and securities, together with any income and interest thereon, in the Series 2015 Escrow Deposit Fund, shall be transferred to the District; provided, however, that no such transfers (except transfers made in accordance with Section 2.5 hereof) shall be made until all of the principal of, redemption premium, if any, and interest on the Refunded Bonds have been paid.

SECTION 2.7 Notice of Defeasance. The Escrow Agent is hereby irrevocably instructed by the District to cause to be mailed, as soon as practicable after the issuance of the Series 2026 Bonds, but in any event no later than 10 Business Days after the date hereof to the registered owners of the Refunded Bonds, a notice of defeasance substantially in the form of Schedule D hereto and to file the same with the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system ("EMMA"). The Escrow Agent shall not have any liability to any party in connection with any failure to timely file such notice and the sole remedy available shall be an action by the holders of such Refunded Bonds, in mandamus for specific performance or similar remedy to compel performance.

SECTION 2.8 Notice of Redemption. The District elects to redeem, pursuant to Section 6 of the 2015 Resolution and Sections 12 through 14 of the Master Resolution, the Refunded Bonds on the Redemption Date and the Escrow Agent is irrevocably instructed by the District to mail to the registered owners of the Refunded Bonds, not less than 30 days before their Redemption Date, a notice of redemption, substantially in the form of Schedule E hereto, in

accordance with the requirements set forth in Section 13 of the Master Resolution, and to file the same with EMMA. The Escrow Agent shall not have any liability to any party in connection with any failure to timely file such notice and the sole remedy available shall be an action by the holders of such Refunded Bonds in mandamus for specific performance or similar remedy to compel performance.

EXECUTIVE SUMMARY

Resolution No. 26 – 128 – Certificates of Participation, Series 2026A

Board Meeting Date: February 10, 2026

Requested Action: Adopt Resolution No. 26-128 - Certificates of Participation (COPs), Series 2026A, in an aggregate principal amount not to exceed $117,255,000, which will refund COPs Series 2016A and 2016B through a negotiated sale and based on the current market is expected to generate approximately $6 million in savings.

School Board Policy Requirement/Authority: Policy 3120

Statutory Requirement/Authority: Not Applicable

District-zone Impact: District-wide

Impact of the School Board's Vote:

- If the School Board votes "Yes": The District will be able to reduce its debt service obligation by approximately $6 million, adding cost savings to the overall budget.

- If the School Board votes "No": Cost savings of approximately $6 million will not materialize and no reduction to the District's debt service obligation will occur.

Background/History: The District's COPs Series 2016A and 2016B are callable on July 1, 2026. Therefore, beginning on April 2, 2026, 90 days before the call date, the District has the opportunity to currently refund its COPs Series 2016A and 2016B for present value savings. If the District chooses not to exercise the 90-day call period (window), the call cannot be completed and any savings will not materialize.

Current market analysis indicates that the District is expected to generate more than five (5) percent savings if refunding occurs. Our debt policy requires three (3) percent or above in order to proceed with a refunding. Proceeding with this refunding is expected to generate above $6 million in savings if market conditions continue to be favorable.

Alignment to 2027 Goals and Guardrails: Business Operations

Measurable Outcome(s)/Return on Investment: It is fiscally prudent for the District to exercise the call feature in order to generate expected savings of more than three (3) percent, which translates to over $6 million if market conditions are favorable.

Financial Impact, Funding Source & Budget Status: The Board approval will reduce the Debt Service for the COPs program by approximately $6 million dollars.

The Financial Advisory Committee approved a motion for the District to issue the COPs at the November 7, 2025 meeting.

Section 5. (a) It is hereby found and declared that a negotiated sale of the Series 2026A Certificates is in the best interest of the School Board and is found to be necessary on the basis of the following reasons, as to which specific findings are hereby made:

(i) Due to the volatility of the municipal market, including the market for "annual appropriation" tax-exempt securities such as the Series 2008A-1 Lease, the Series 2009A-1 Lease and the Series 2009A-2 Lease as evidenced by the Series 2026A Certificates, the School Board must be able to enter the market at the most advantageous times, rather than at specific advertised dates, thereby permitting the School Board to obtain the best possible prices and interest rates to be represented by the Series 2026A Certificates and achieve its savings goals;

(ii) The nature of the refinancing of the Series 2008A-1 Lease, the Series 2009A-1 Lease and the Series 2009A-2 Lease, is a complex transaction and the structure of the issue and the current demand for this type of security support a negotiated sale;

(iii) The Underwriters (hereinafter defined) have participated in structuring the issuance of the Series 2026A Certificates and can assist the School Board in obtaining the most attractive financing for the School Board; and

(iv) The School Board will not be adversely affected if the Series 2026A Certificates are not sold pursuant to a competitive sale.

(b) (i) The underwriters shall be the underwriters named in a certificate purchase contract (the "Underwriters").

(ii) The form of the Certificate Purchase Agreement for the Series 2026A Certificates among the Underwriters, the School Board and the Corporation (the "Purchase Contract") submitted to this meeting and attached hereto as **Exhibit C,** and the sale of the Series 2026A Certificates by the Corporation and the Trustee upon the terms and conditions set forth in the Purchase Contract, is hereby approved, with such insertions, modifications and changes as may be approved by the Superintendent. Any of the Chair, Vice Chair, Superintendent, or Chief Financial Officer, upon such approval by the Superintendent, is hereby authorized and directed to execute the Purchase Contract. The execution and delivery of a Purchase Contract by the Chair, Vice Chair, Superintendent, or Chief Financial Officer shall constitute conclusive evidence of the approval thereof and of the Underwriters named therein.

Execution of the Purchase Contract is subject to the following additional requirements:

(i) the aggregate principal amount of the Series 2026A Certificates shall not exceed $125,000,000;

(ii) the final maturity of the Series 2026A Certificates shall be no later than July 1, 2033;

(iii) the Series 2026A Certificates shall be subject to optional prepayment prior to maturity, if at all, as provided in the Purchase Contract; and

(iv) the price at which the Series 2026A Certificates shall be sold to the Underwriters shall not be less than [98%] of the face amount thereof exclusive of original issue discount; and

(v) the net present value of the total savings anticipated to accrue to the School Board upon the refunding of the Refunded Certificates and the issuance of the Series 2026A Certificates, including any amounts contributed to the escrow deposit fund from sources other than the Series 2026A Certificate proceeds, shall be at least [3.00%] of the aggregate principal amount of the Refunded Certificates;

(vi) the yield represented by the Series 2026A Certificates as calculated for arbitrage purposes shall not exceed the maximum legal rate.

(c) The proceeds from the sale of the Series 2026A Certificates shall be used by the School Board (i) to refinance all or a portion of its obligations under the Series 2008A-1 Lease, the Series 2009A-1 Lease and the Series 2009A-2 Lease, through the refunding of all or a portion of the Series 2016A Certificates and all or a portion of the Series 2016B Certificates, and (ii) to pay the costs associated with the issuance of the Series 2026A Certificates including, but not limited to, rating agencies, financial advisory and attorneys' fees, premium for the Policy, if any, and the cost of preparation and dissemination of the of Preliminary Offering Statement and final Offering Statement for the Series 2026A Certificates.

Section 6. The form of Preliminary Offering Statement submitted to this meeting and attached hereto as **Exhibit D** is hereby approved, and the School Board hereby authorizes the distribution and use of the Preliminary Offering Statement by the Underwriters in connection with the public offering for sale of the Series 2026A Certificates. If, between the date hereof and the mailing of the Preliminary Offering Statement it is necessary to make insertions, modifications and changes in the Preliminary Offering Statement, each of the Chair, the Vice Chair and the Superintendent is hereby authorized to approve such insertions, changes and modifications. Each of the Chair, the Vice Chair, the Superintendent, the Chief Financial Officer and the Treasurer is further authorized to deem the Preliminary Offering Statement "final" within the meaning of Rule 15c2-12 of the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended (the "Rule"), in the form as mailed, and in furtherance thereof to execute a certificate (the "Deemed Final Certificate") evidencing the same substantially in the form attached hereto as **Exhibit E**. The execution and delivery of the Deemed Final Certificate shall constitute conclusive evidence of the approval of any insertions, modifications and changes in the Preliminary Offering Statement.

Section 7. The Superintendent is hereby authorized to have prepared and the Chair or Vice Chair and the Secretary are each hereby authorized to execute a final Offering Statement to be dated as of the date of the execution and delivery of the Purchase Contract and, upon such

execution, to deliver the same to the Underwriters for use by them in connection with the sale and distribution of the Series 2026A Certificates (the "Offering Statement"). The Offering Statement shall be substantially in the form of the Preliminary Offering Statement, with such changes as shall be approved by the Superintendent as necessary to conform to the details of such Series 2026A Certificates and the requirements of the Purchase Contract related to such Series 2026A Certificates and such other insertions, modifications and changes as may be approved by the Superintendent. The execution and delivery of the Offering Statement by the Chair or Vice Chair and the Secretary shall constitute conclusive evidence of the approval thereof. The School Board hereby authorizes the Offering Statement for the Series 2026A Certificates and the information contained therein to be used in connection with the offering and sale of the Series 2026A Certificates.

Section 8. The School Board hereby covenants and agrees that, in order to provide for compliance by the School Board with the secondary market disclosure requirements of the Rule, it will comply with and carry out all of the provisions of the Disclosure Dissemination Agent Agreement between the School Board and Digital Assurance Certification LLC, dated the date of delivery of the Series 2026A Certificates (the "Continuing Disclosure Agreement"), as it may be amended from time to time in accordance with the terms thereof. In addition, to the extent permitted by law, prior to the Completion Date the School Board may release and/or substitute for any Facilities to be acquired, constructed and installed under a particular Schedule other facilities to be acquired, constructed and installed, provided that (1) any substituted facilities satisfy the requirements of clauses (a), (c), (d) and (e) above and (2) following such substitution and/or release, the sum of (x) with respect to Facilities for which a Certificate of Acceptance has not been delivered, the Cost of the acquisition, construction and installation of the Facilities plus (y) with respect to Facilities for which a Certificate of Acceptance has been delivered, the fair market value of the Facilities, financed under the Schedule from which the Facilities are to be substituted and/or released is greater than or equal to the remaining principal portion of Basic Lease Payments due under such Schedule. The related Schedule shall be appropriately amended, and the related Ground Lease shall be amended or canceled and replaced, to reflect such substitution.

There shall also be delivered at the time of substitution an Opinion of Counsel as described in Section 6.1 hereof with respect to the substitute Facility Site.

For purposes hereof, "fair market value" shall be determined on the basis of an MAI appraisal performed by an appraiser jointly selected by the School Board and the Trustee.

J. Release of Series 2008A-1 Facilities. The Purchasers of the Series 2016A Certificates and Series 2026A Certificates shall be deemed to have consented to this amendment.

Notwithstanding anything to the contrary in the Master Lease, one or more Series 2008A-1 Facilities financed by the Series 2008A-1 Lease may be released from the lien of such Lease if after the release of the Facility or Facilities the total construction cost of remaining Series 2008A-1 Facilities exceeds the remaining principal portion of the Basic Lease Payments payable under the Series 2008A-1 Lease. The Series 2008A-1 Facilities released under this Section 9.J. shall be deemed to be paid and fee simple title to such Series 2008A-1 Facilities shall vest in the School Board free and clear of all encumbrances except Permitted Encumbrances.

The Corporation hereby appoints the School Board as its agent to prepare and file or record in appropriate offices such documents as may be necessary to cause record title to such Series 2008A-1 Facilities to vest in

the School Board. The Corporation agrees to immediately execute a warranty deed for the Series 2008A-1 Facilities and an assignment of all its right, title, and interest to such Series 2008A-1 Facilities under the Series 2008A-1 Lease and Series 2008A-1 Ground Lease to the School Board, and shall execute an amendment to Schedule 2008A-1, as well as all other instruments necessary to vest good and marketable fee simple title to the released Series 2008A-1 Facility or Series 2008A-1 Facilities in the School Board subject only to Permitted Encumbrances. The Series 2008A-1 Ground Lease shall then be modified, as provided therein. The Corporation shall request the execution of such instruments by the Trustee as may be necessary to effect the conveyance described herein.

K. **Effective Date**. Schedule 2008A-1, as amended and restated as of April 1, 2026, shall be effective as of April __, 2026.

> (b) Upon the completion of acquisition and construction of the Series 2009A-1 Facilities financed under this Lease and payment of all Costs of the Series 2009A-1 Facilities, the amounts, if any, on deposit in the Tax-Exempt Subaccount of the Series 2009A Acquisition Account shall be transferred to the Tax-Exempt Subaccount of the Series 2009A Lease Payment Account to be applied to applicable

Basic Lease Payments next coming due under this Lease; provided, however, that if, upon delivery by the School Board of a Certificate of Acceptance indicating completion of the acquisition, construction, installation and payment of all costs of the Series 2009A-1 Facilities (including the failure of the School Board to acquire any component of the Series 2009A-1 Facilities), there shall remain in the Tax-Exempt Subaccount of the Series 2009A Acquisition Account an amount greater than the amount of related Basic Lease Payments coming due in the immediately following Fiscal Year under this Lease, such amount shall be retained in the Tax-Exempt Subaccount of the Series 2009A Acquisition Account and applied to pay the Costs of other Facilities, in which case such other Facilities shall become subject to the provisions of this Lease as fully as if they were the originally leased Series 2009A-1 Facilities; provided, however, at the direction of the School Board, upon delivery to the Trustee of a Favorable Opinion, such Net Proceeds shall be deposited in the Tax-Exempt Subaccount of the Series 2009A Lease Payment Account to be credited against the applicable Basic Lease Payments next coming due.

Provided, however, if the School Board has determined that its operations have not been materially affected and that it is not in the best interest of the School Board to repair, restore or replace that portion of the Series 2009A-1 Facilities so damaged, destroyed or condemned, then the School Board shall not be required to comply with the provisions of subparagraph (a) set forth above. If the Net Proceeds are (i) less than ten percent (10%) of the Remaining Principal Portion of the Basic Lease Payments relating to such Series 2009A-1 Facilities and (ii) equal to or less than the amount of Basic Lease Payments coming due in the immediately following Fiscal Year under this Lease, then such Net Proceeds may, at the option of the School Board, (x) be deposited pro rata in the subaccounts of the Series 2009A Lease Payment Account to be credited against Basic Lease Payments next coming due in accordance with Section 3.2(c) hereof or (y) deposited pro rata in the subaccounts of the Series 2009A Acquisition Account and applied to pay the Costs of other Facilities, in which case such other Facilities shall become subject to the provisions of this Lease as fully as if they were the originally leased Series 2009A-1 Facilities. In addition, to the extent permitted by law, prior to the Completion Date the School Board may release and/or substitute for any Facilities to be acquired, constructed and installed under a particular Schedule other facilities to be acquired, constructed and installed, provided that (1) any substituted facilities satisfy the requirements of clauses (a), (c), (d) and (e) above and (2) following such substitution and/or release, the sum of (x) with respect to Facilities for which a Certificate of Acceptance has not been delivered, the Cost of the acquisition, construction and installation of the Facilities plus (y) with respect to Facilities for which a Certificate of Acceptance has been delivered, the fair market value of the Facilities, financed under the Schedule from which the Facilities are to be substituted and/or released is greater than or equal to the remaining principal portion of Basic Lease Payments due under such Schedule. The related Schedule shall be appropriately amended, and the related Ground Lease shall be amended or canceled and replaced, to reflect such substitution.

There shall also be delivered at the time of substitution an Opinion of Counsel as described in Section 6.1 hereof with respect to the substitute Facility Site.

For purposes hereof, "fair market value" shall be determined on the basis of an MAI appraisal performed by an appraiser jointly selected by the School Board and the Trustee.

G. Section 9.4 of the Master Lease. For purposes of the Series 2009A-1 Lease, Section 9.4 of the Master Lease shall read as follows:

Except as otherwise provided herein, the consent of the Holders of at least a majority in principal amount of the Certificates Outstanding who are affected by such waiver, alteration, modification, supplement or amendment shall be required. The Corporation's sole remedy (other than rights and remedies it may have at law against the School Board's legally available funds for compensatory damages as provided below upon the occurrence of an Event of Default under Section 8.1 of the Master Lease) shall be to seek a judgment against the School Board for the unpaid balance of the Purchase Option Price for the Series 2009A-1 Comprehensive Needs Projects, which judgment shall be enforceable solely against the School Board's legally available funds.

Notwithstanding the obligations of the School Board to pay the Purchase Option Price of the Series 2009A-1 Comprehensive Needs Projects, the School Board shall be under no obligation to transfer possession of and/or title to the Series 2009A-1 Comprehensive Needs Projects to the Corporation, and the Corporation shall have no right under the Series 2009A-1 Lease to involuntarily dispossess the School Board of the use and enjoyment of or title to any of the Series 2009A-1 Comprehensive Needs Projects, and the Corporation hereby irrevocably waives any right to specific performance of the School Board's covenants upon any such termination of the Lease Term.

Notwithstanding anything to the contrary herein, nothing shall prevent the Corporation or Trustee from satisfying the payment obligations of the School Board under the Series 2009A-1 Lease with respect to the Series 2009A Certificates from the reletting of any Series 2009A-1 Facilities (other than the Series 2009A-1 Comprehensive Needs Projects) or from any other moneys legally available therefor.

Notwithstanding anything to the contrary in the Master Lease, one or more Series 2009A-1 Facilities financed by the Series 2009A-1 Lease may be released from the lien of such Lease if after the release of the Facility or Facilities the total construction cost of remaining Series 2009A-1 Facilities exceeds the remaining principal portion of the Basic Lease Payments payable under the Series 2009A-1 Lease. The Series 2009A-1 Facilities released under this Section 9.J. shall be deemed to be paid and fee simple title to such Series 2009A-1 Facilities shall vest in the School Board free and clear of all encumbrances except Permitted Encumbrances.

The Corporation hereby appoints the School Board as its agent to prepare and file or record in appropriate offices such documents as may be necessary to cause record title to such Series 2009A-1 Facilities to vest in the School Board. The Corporation agrees to immediately execute a warranty deed for the Series 2009A-1 Facilities and an assignment of all its right, title, and interest to such Series 2009A-1 Facilities under the Series 2009A-1 Lease and Series 2009A-1 Ground Lease to the School Board, and shall execute an amendment to Schedule 2009A-1, as well as all other instruments necessary to vest good and marketable fee simple title to the released Series 2009A-1 Facility or Series 2009A-1 Facilities in the School Board subject only to Permitted Encumbrances. The Series 2009A-1 Ground Lease shall then be modified, as provided therein. The Corporation shall request the execution of such instruments by the Trustee as may be necessary to effect the conveyance described herein.

K. Effective Date. Schedule 2009A-1, as amended and restated as of April 1, 2026, shall be effective as of April __, 2026.

EXHIBIT A TO SCHEDULE 2009A-2

A. General Description of the Series 2009A-2 Facilities to be Lease Purchased:

District Wide Roofing Projects/Hurricane Repair - The District Wide Roofing Program addresses repair/replacement of roofing systems on buildings throughout the District. Due to age and damage as a result of storms, several buildings have been identified as needing repair/replacement. The District Wide Roofing Program has been established to provide a vehicle to accomplish the work. Roofing projects are implemented by means of using term consultants and contractors, as well as other delivery methods, such as Design/Bid/Build, CM@Risk and Total Program Management. Roof repairs and replacements are designed and constructed to the most current code and utilize the latest design criteria and material standards recommended by the District's Design and Building Departments.

District Wide ITV Towers - The District Wide ITV Tower Replacement Program addresses the replacement of BECON Instructional Television towers throughout the District. Due to age and storm damage numerous concrete towers have been identified as needing replacement. These new steel tower projects are designed by the District Design Services Department and constructed by using either an Open End Contractor or Design/Bid/Build delivery methods. All towers are designed and constructed to the most current code and utilize the latest design criteria and material standards recommended by the District's Design and Building Departments.

District Wide Indoor Environmental Quality - The indoor environmental quality program is the result of extensive surveys conducted by Program Managers at the District's school facilities to identify all of the needs related to the resolution and prevention of indoor environmental quality issues. This work includes code compliant design and construction activities such as roof replacement, HVAC system replacement, HVAC system test and balancing, flooring replacement, drainage system corrections, exterior waterproofing, door and window rehabilitation or replacement, interior repairs, field testing and observations to correct current deficiencies and to put systems in place that will prevent future indoor environmental quality problems.

District Wide Modular Buildings/Relocatables - The Type IV (non-combustible construction) modular buildings are one-room classrooms or classrooms contained within a complete modular building. The modular buildings are air-conditioned and placed on engineered grade level foundations. The buildings are of several types of construction, ranging in sizes necessary to meet the educational specifications for the facility they will serve. Interior finishes consist of gypsum walls, acoustical ceilings with fluorescent lighting and vinyl composition tile floors. The Florida Building Code requires a restroom within classrooms that are used for primary grades (kindergarten through third grade). All of these classrooms meet the Florida Building Code requirements for permanent construction.

District Wide ADA Improvements - Title II of the Americans with Disabilities Act (ADA) prohibits public school systems from denying people with disabilities equal opportunity to participate in programs, services and activities because of inaccessible facilities. Consistent with this mandate, the District conducted a survey of its facilities and identified structural barriers that limit physical access to some of its restrooms to individuals with disabilities. The majority of the restrooms that must be retrofitted to comply with the ADA accessibility standards are located in facilities that were built before the inception of the ADA. These restrooms were not built to accommodate individuals with mobility impairments (wheelchairs) or people with other disabilities and will need to go through major renovations to conform to the Florida Accessibility Code for Building Construction. These renovations will not only affect the restrooms immediate area but they will also impact any surrounding space or room, i.e., clinics will have to be enlarged to accommodate a larger restroom and Kindergarten classrooms will lose square footage to a larger restroom. The scope of work includes removal and installation of plumbing fixtures, toilet stall partitions, etc., relocation and replacement of water & sanitary lines, redesign of entrances (including the installation of new doors & signs), demolition of existing and construction of new walls, installation of visual alarms (for hearing impaired individuals) and the redesign of lighting systems.

District Wide BRITE Project - Enterprise Resource Planning (ERP) - SAP System Implementation Services: The BRITE Project Team will implement the mySAP Business Suite software to replace existing district-wide systems. The mySAP implementation will integrate processes, data, and systems covering human resources, payroll, financials, procurement, maintenance, facilities, and transportation.

Deerfield Beach High School - A Regional Athletic Facility at the existing high school located at 910 SW 15th Street in the City of Deerfield Beach. This project will encompass approximately 5.68 acres. This project will serve some 2,402 students currently attending this high school. It will provide a 9 lane 400 meter Track, Field Event pits, a Concession Stand, Ticket Booth, Storage, and Public Restrooms.

[PROVISIONS REGARDING MUNICIPAL BOND INSURANCE POLICY]

SECTION 501. PROVISIONS REGARDING MUNICIPAL BOND INSURANCE POLICY; ADDITIONAL OBLIGATIONS OF THE SCHOOL BOARD. The following provisions relating to the Series 2026A Certificates shall apply so long as the Municipal Bond Insurance Policy is in full force and effect notwithstanding anything in the Related Documents to the contrary:

(a) The Insurer shall be deemed to be the sole Owner of the Series 2026A Certificates for the purpose of exercising any voting right or privilege or giving any consent or direction or taking any other action that the Owners of the Series 2026A Certificates are entitled to take pursuant to the Series 2026A Trust Agreement pertaining to (i) defaults and remedies and (ii) the duties and obligations of the Trustee. In furtherance thereof and as a term of the Series 2026A Trust Agreement and each Series 2026A Certificate, each Owner of the Series 2026A Certificates appoints the Insurer as its agent and attorney-in-fact with respect to the Series 2026A Certificates and agrees that the Insurer may at any time during the continuation of any proceeding by or against the School Board under the United States Bankruptcy Code or any other applicable bankruptcy, insolvency, receivership, rehabilitation or similar law (an "Insolvency Proceeding") direct all matters relating to such Insolvency Proceeding, including without limitation, (A) all matters relating to any claim or enforcement proceeding in connection with an Insolvency Proceeding (a "Claim"), (B) the direction of any appeal of any order relating to any Claim, (C) the posting of any surety, supersedeas or performance bond pending any such appeal, and (D) the right to vote to accept or reject any plan of adjustment. In addition, each Owner of the Series 2026A Certificates delegates and assigns to the Insurer, to the fullest extent permitted by law, the rights of each Owner of the Series 2026A Certificates in the conduct of any Insolvency Proceeding, including, without limitation, all rights of any party to an adversary proceeding or action with respect to any court order issued in connection with any such Insolvency Proceeding. The Trustee acknowledges such appointment, delegation and assignment by each Owner of the Series 2026A Certificates for the Insurer's benefit, and agrees to cooperate with the Insurer in taking any action reasonably necessary or appropriate in connection with such appointment, delegation and assignment. Remedies granted to the Owners shall expressly include mandamus.

(b) No grace period for a covenant default shall exceed thirty (30) days or be extended

for more than sixty (60) days, without the prior written consent of the Insurer. No grace period shall be permitted for payment defaults.

(c) The Insurer is a third-party beneficiary of the Series 2026A Trust Agreement and the other Related Documents.

(d) Upon the occurrence of an extraordinary optional, special or extraordinary mandatory redemption in part, the selection of Series 2026A Certificates to be redeemed shall be subject to the approval of the Insurer. The exercise of any provision of the Series 2026A Trust Agreement which permits the purchase of Series 2026A Certificates in lieu of redemption shall require the prior written approval of the Insurer if any Series 2026A Certificate so purchased is not cancelled upon purchase.

(e) Notwithstanding anything to the contrary in any Related Document, any amendment, supplement, modification to, or waiver of any provision of, the Series 2008A-1 Lease, the Series 2009A-1 Lease, the Series 2009A-2 Lease, the Series 2008A Ground Lease and the Series 2009A Ground Lease, or any other Related Document shall be subject to the prior written consent of the Insurer, including, without limitation, any amendment, supplement, modification to or waiver intended to provide for a release or substitution of all or a portion of the Series 2008A-1 Facilities, the Series 2009A-1 Facilities, the Series 2009A-2 Facilities or the Series 2008A-1 Facility Sites, the Series 2009A-1 Facility Sites or the Series 2009A-2 Facility Sites.

(f) Any amendment, supplement, modification to, or waiver of, the Series 2026A Trust Agreement or any other Related Document shall be subject to the prior written consent of the Insurer.

(g) The rights granted to the Insurer under the Series 2026A Trust Agreement or any other Related Document to request, consent to or direct any action are rights granted to the Insurer in consideration of its issuance of the Insurance Policy. Any exercise by the Insurer of such rights is merely an exercise of the Insurer's contractual rights and shall not be construed or deemed to be taken for the benefit, or on behalf, of the Owners and such action does not evidence any position of the Insurer, affirmative or negative, as to whether the consent of the Owners or any other person is required in addition to the consent of the Insurer.

(h) Only (1) cash, (2) non-callable direct obligations of the United States of America ("Treasuries"), (3) evidences of ownership of proportionate interests in future interest and principal payments on Treasuries held by a bank or trust company as custodian, under which the owner of the investment is the real party in interest and has the right to proceed directly and individually against the obligor and the underlying Treasuries are not available to any person claiming through the custodian or to whom the custodian may be obligated, (4) subject to the prior written consent of the Insurer, pre-refunded municipal obligations rated in the then highest rating category by S&P and Moody's for such obligations, or (5) subject to the prior written consent of the Insurer, any other type of security or obligation which S&P and Moody's have determined to be permitted defeasance securities, shall be used to effect defeasance of the Series 2026A Certificates unless the Insurer otherwise approves.

To accomplish defeasance of the Series 2026A Certificates, the School Board shall cause to be delivered to the Insurer (i) other than with respect to a current refunding that is gross funded,

a report of either a nationally-recognized verification agent or a firm of independent, nationally-recognized certified public accountants as shall be acceptable to the Insurer verifying the sufficiency of the escrow established to pay the Series 2026A Certificates in full on the maturity or redemption date ("Verification"), (ii) an escrow deposit agreement or other irrevocable written instructions (which shall be acceptable in form and substance to the Insurer), (iii) an opinion of nationally-recognized bond counsel to the effect that the Series 2026A Certificates are no longer "Outstanding" under the Series 2026A Trust Agreement and (iv) a certificate of discharge of the Trustee with respect to the Series 2026A Certificates; each Verification and defeasance opinion shall be acceptable in form and substance, and addressed, to the School Board, the Trustee and the Insurer. The Insurer shall be provided with final drafts of the above-referenced documentation not less than five (5) Business Days prior to the funding of the escrow. The Series 2026A Certificates shall be deemed "Outstanding" under the Series 2026A Trust Agreement unless and until they are in fact paid and retired or the above criteria are met.

(i) Amounts paid by the Insurer under the Insurance Policy shall not be deemed paid for purposes of the Series 2026A Trust Agreement and the Series 2026A Certificates relating to such payments shall remain Outstanding and continue to be due and owing until paid in accordance with the Series 2026A Trust Agreement. The Series 2026A Trust Agreement shall not be discharged unless all amounts due or to become due to the Insurer have been paid in full or duly provided for.

(j) The Corporation and the School Board, as applicable, covenant and agree to take such action (including, as applicable, filing of UCC financing statements and continuations thereof) as is necessary from time to time to preserve the priority of the pledge of the Trust Estate, including all Lease Payments under applicable law.

(k) Claims Upon the Insurance Policy and Payments by and to the Insurer.

If, on the third Business Day prior to the related scheduled interest payment date or principal payment date ("Payment Date") there is not on deposit with the Trustee, after making all transfers and deposits required under the Series 2026A Trust Agreement, moneys sufficient to pay the principal of and interest on the Series 2026A Certificates due on such Payment Date, the Trustee shall give notice to the Insurer and to its designated agent (if any) (the "Insurer's Fiscal Agent") by telephone or telecopy of the amount of such deficiency by 12:00 noon, New York City time, on such Business Day. If, on the second Business Day prior to the related Payment Date, there continues to be a deficiency in the amount available to pay the principal of and interest on the Series 2026A Certificates due on such Payment Date, the Trustee shall make a claim under the Insurance Policy and give notice to the Insurer and the Insurer's Fiscal Agent (if any) by telephone of the amount of such deficiency, and the allocation of such deficiency between the amount required to pay interest on the Series 2026A Certificates and the amount required to pay principal of the Series 2026A Certificates, confirmed in writing to the Insurer and the Insurer's Fiscal Agent by 12:00 noon, New York City time, on such second Business Day by filling in the form of Notice of Claim and Certificate delivered with the Insurance Policy.

The Trustee shall designate any portion of payment of principal on Series 2026A Certificates paid by the Insurer, whether by virtue of mandatory sinking fund redemption, maturity or other advancement of maturity, on its books as a reduction in the principal amount of Series

2026A Certificates registered to the then current Owner of the Series 2026A Certificates, whether DTC or its nominee or otherwise, and shall issue a replacement Series 2026A Certificate to the Insurer, registered in the name of Assured Guaranty Inc., in a principal amount equal to the amount of principal so paid (without regard to authorized denominations); provided that the Trustee's failure to so designate any payment or issue any replacement Series 2026A Certificate shall have no effect on the amount of principal or interest payable on any Series 2026A Certificate or the subrogation rights of the Insurer.

The Trustee shall keep a complete and accurate record of all funds deposited by the Insurer into the Policy Payments Account (defined below) and the allocation of such funds to payment of interest on and principal of any Series 2026A Certificate. The Insurer shall have the right to inspect such records at reasonable times upon reasonable notice to the Trustee.

Upon payment of a claim under the Insurance Policy, the Trustee shall establish a separate special purpose trust account for the benefit of Owners of the Series 2026A Certificates referred to herein as the "Policy Payments Account" and over which the Trustee shall have exclusive control and sole right of withdrawal. The Trustee shall receive any amount paid under the Insurance Policy in trust on behalf of Owners of the Series 2026A Certificates and shall deposit any such amount in the Policy Payments Account and distribute such amount only for purposes of making the payments for which a claim was made. Such amounts shall be disbursed by the Trustee to Owners of the Series 2026A Certificates in the same manner as principal and interest payments are to be made with respect to the Series 2026A Certificates under the sections of the Series 2026A Trust Agreement regarding payment of Series 2026A Certificates. It shall not be necessary for such payments to be made by checks or wire transfers separate from the check or wire transfer used to pay debt service with other funds available to make such payments. Notwithstanding anything in the Series 2026A Trust Agreement to the contrary, the Corporation and/or the School Board, as applicable, agree to pay to the Insurer, solely from the Trust Estate, including all Lease Payments (i) a sum equal to the total of all amounts paid by the Insurer under the Insurance Policy (the "Insurer Advances"); and (ii) as an Additional Lease Payment, interest on such Insurer Advances from the date paid by the Insurer until payment thereof in full, payable to the Insurer at the Late Payment Rate per annum (collectively, the "Insurer Reimbursement Amounts"). "Late Payment Rate" means the lesser of (a) the greater of (i) the per annum rate of interest, publicly announced from time to time by JPMorgan Chase Bank at its principal office in The City of New York, as its prime or base lending rate (any change in such rate of interest to be effective on the date such change is announced by JPMorgan Chase Bank) plus 3%, and (ii) the then applicable highest rate of interest on the Series 2026A Certificates and (b) the maximum rate permissible under applicable usury or similar laws limiting interest rates. The Late Payment Rate shall be computed on the basis of the actual number of days elapsed over a year of 360 days. The Corporation and the School Board hereby covenant and agree that the (i) Insurer Advances are secured by a lien on and pledge of the Trust Estate and payable from such Trust Estate on a parity with debt service due on the Series 2026A Certificates and (ii) interest on the Insurer Advances are payable from Additional Lease Payments.

Funds held in the Policy Payments Account shall not be invested by the Trustee and may not be applied to satisfy any costs, expenses or liabilities of the Trustee. The Trustee shall notify the Insurer of any funds remaining in the Policy Payments Account after the Trustee has made the

payments for which a claim was made to the Owners of the Series 2026A Certificates and shall, at the written direction of the Insurer, promptly remit such funds remaining to the Insurer.

(l) The Insurer shall, to the extent it makes any payment of principal of or interest on the Series 2026A Certificates, become subrogated to the rights of the recipients of such payments in accordance with the terms of the Insurance Policy (which subrogation rights shall also include the rights of any such recipients in connection with any Insolvency Proceeding). Each obligation of the Corporation and the School Board to the Insurer under the Related Documents shall survive discharge or termination of such Related Documents.

(m) After payment of reasonable expenses of the Trustee, the application of funds realized upon default shall be applied to the payment of expenses of the School Board or rebate only after the payment of past due and current debt service on the Series 2026A Certificates.

(n) The Insurer shall be entitled to pay principal or interest on the Series 2026A Certificates that shall become Due for Payment but shall be unpaid by reason of Nonpayment by the Issuer (as such terms are defined in the Insurance Policy) and any amounts due on the Series 2026A Certificates as a result of acceleration of the maturity thereof, whether or not the Insurer has received a Notice of Nonpayment (as such terms are defined in the Insurance Policy) or a claim upon the Insurance Policy.

(o) Notices to the Insurer shall be sent to the following address (or such other address as the Insurer may designate in writing):

[Assured Guaranty Inc.

(p) The Insurer shall be provided with the following information by the Trustee:

(iv) Notice of the commencement of any Insolvency Proceeding (as defined in subsection (a) above);

(v) Notice of the making of any claim in connection with any Insolvency Proceeding seeking the avoidance as a preferential transfer of any payment of principal of, or interest on, the Series 2026A Certificates; and

(vi) All reports, notices and correspondence to be delivered to Owners under the terms of the Related Documents.

(q) The Insurer shall have the right to receive such additional information as it may reasonably request.

(r) The Trustee shall notify the Insurer of any known failure of the School Board to provide notices, certificates and other information under the Related Documents that are required to be delivered to the Owners of the Series 2026A Certificates.

(s) Notwithstanding satisfaction of the other conditions to the issuance of Additional Certificates set forth in the Series 2026A Trust Agreement, no such issuance may occur if an Event of Default (or any event which, once all notice or grace periods have passed, would constitute an Event of Default) exists unless such default shall be cured upon such issuance, unless otherwise permitted by the Insurer.

(t) In determining whether any amendment, consent, waiver or other action to be taken, or any failure to take action, under the Series 2026A Trust Agreement would adversely affect the security for the Series 2026A Certificates or the rights of the Owners, the effect of any such amendment, consent, waiver, action or inaction shall be considered as if there were no Insurance Policy.

(u) No contract shall be entered into or any action taken by which the rights of the Insurer or security for or sources of payment of the Series 2026A Certificates may be impaired or prejudiced in any material respect except upon obtaining the prior written consent of the Insurer.

11. Expenses. (a) The Corporation or the School Board will pay, but only from the proceeds of the Series 2026A Certificates or moneys made available pursuant to the Series 2026A Trust Agreement, any expenses incident to the performance of its obligations hereunder, including, without limitation: (i) the cost of the preparation (including printing and distribution in printed and electronic format) of the Preliminary Offering Statement, the Final Offering Statement, any of the Corporation Documents and any of the School Board Documents; (ii) the cost of the preparation, printing and delivery of the Series 2026A Certificates; (iii) the fees and disbursements of Co-Special Tax Counsel and Co-Disclosure Counsel; (iv) the fees and disbursements of S&P, Moody's and Fitch; (v) the fees and disbursements of any other experts or consultants retained by the Corporation, the School Board or the District, including, without limitation, the Trustee, escrow agent and the District's financial advisor; **[(vi) the premium for the Policy and any other fees or charges required to be paid in connection with the delivery of the Policy]** and (vii) any expenses (included in the expenses component of the Underwriters' discount) incurred on behalf of employees or representatives of the School Board or the Corporation in connection with the implementation of this Certificate Purchase Agreement, including, without limitation, meals, transportation and lodging of such representatives or employees and, on behalf of the Underwriters, the fees and expenses of Underwriters' Counsel.

(c) Any of the expenses described in this Section may be paid in the form of the inclusion of such expenses in the expense component of the Underwriters' discount.

12. Establishing Issue Price. The Senior Manager, on behalf of the Underwriters, agrees to assist the School Board in establishing the issue price of the Series 2026A Certificates and shall execute and deliver to the School Board at Closing an "issue price" or similar certificate, together with the supporting pricing wires or equivalent communications, substantially in the form attached hereto as Exhibit "D," with such modifications as may be appropriate or necessary, in the reasonable judgment of the Senior Manager, the School Board and Co-Special Tax Counsel, to accurately reflect, as applicable, the sales price or prices or the initial offering price or prices to the public of the Series 2026A Certificates.

(a) **[Except as otherwise set forth in Schedule A to Exhibit "D" attached hereto,] the Corporation and the School Board will treat the first price at which 10% of each maturity of the Series 2026A Certificates (the "10% test") is sold to the public as the issue price of that maturity. At or promptly after the execution of this Certificate Purchase Agreement, the Senior Manager shall report to the Corporation and the School Board the price or prices at which the Underwriters have sold to the public each maturity of Series 2026A Certificates. [If, at that time, the 10% test has not been satisfied as to any maturity of the Series 2026A Certificates, the Senior Manager agrees to promptly report to the School Board and the Corporation the prices at which Series 2026A Certificates of that maturity have been sold by the Underwriters to the public. That reporting obligation shall continue, whether or not the Closing Date has occurred, until either (i) all Series 2026A Certificates of that maturity have been sold or (ii) the 10% test has been satisfied as to the Series 2026A Certificates of that maturity, provided that, the Underwriters' reporting obligation after the Closing Date may be at reasonable periodic intervals or otherwise upon request of the Senior Manager, the Corporation and the School Board or Bond Counsel.]** For purposes of this section, if Series 2026A Certificates mature on the same date but have different interest rates, each separate CUSIP number within that maturity will be treated as a separate maturity of the Series 2026A Certificates.

(b) The Senior Manager confirms that the Underwriters have offered the Series 2026A Certificates to the public on or before the date of this Certificate Purchase Agreement at the offering price or prices (the "initial offering price"), or at the corresponding yield or yields, set forth in Schedule A to Exhibit “D” attached hereto, except as otherwise set forth therein. **[Schedule A to Exhibit “D” also sets forth, as of the date of this Certificate Purchase Agreement, the maturities, if any, of the Series 2026A Certificates for which the 10% test has not been satisfied and for which the School Board, the Corporation and the Senior Manager, on behalf of the Underwriters, agree that the restrictions set forth in the next sentence shall apply,**

which will allow the School Board to treat the initial offering price to the public of each such maturity as of the sale date as the issue price of that maturity (the "hold-the-offering-price rule"). So long as the hold-the-offering-price rule remains applicable to any maturity of the Series 2026A Certificates, the Underwriters will neither offer nor sell unsold Series 2026A Certificates of that maturity to any person at a price that is higher than the initial offering price to the public during the period starting on the sale date and ending on the earlier of the following:

(1) the close of the fifth (5th) business day after the sale date; or

(2) the date on which the Underwriters have sold at least 10% of that maturity of the Series 2026A Certificates to the public at a price that is no higher than the initial offering price to the public.

The Senior Manager, will advise the Corporation and the School Board promptly after the close of the fifth (5th) business day after the sale date whether it has sold 10% of that maturity of the Series 2026A Certificates to the public at a price that is no higher than the initial offering price to the public.]

The School Board and Corporation acknowledge that, in making the representations set forth in this section, the Senior Manager will rely on (i) the agreement of each Underwriter to comply with the requirements for establishing the issue price of the Series 2026A Certificates, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2026A Certificates, as set forth in an agreement among underwriters and the related pricing wires, (ii) in the event a selling group has been created in connection with the initial sale of the Series 2026A Certificates to the public, the agreement of each dealer who is a member of the selling group to comply with the requirements for establishing the issue price of the Series 2026A Certificates, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2026A Certificates, as set forth in a selling group agreement and the related pricing wires, and (iii) in the event that an Underwriter or dealer who is a member of the selling group is a party to a third-party distribution agreement that was employed in connection with the initial sale of the Series 2026A Certificates to the public, the agreement of each broker-dealer that is a party to such agreement to comply with the requirements for establishing the issue price of the Series 2026A Certificates, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2026A Certificates, as set forth in the third-party distribution agreement and the related pricing wires. The School Board and the Corporation further acknowledge that each Underwriter shall be solely liable for its failure to comply with its agreement regarding the requirements for establishing the issue price of the Series 2026A Certificates, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2026A Certificates, and that no Underwriter shall be liable for the failure of any other Underwriter, or of any dealer who is a member of a selling group, or of any broker-dealer

that is a party to a third-party distribution agreement, to comply with its corresponding agreement to comply with the requirements for establishing the issue price of the Series 2026A Certificates, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2026A Certificates.

(c) The Senior Manager confirms that:

(i) any agreement among underwriters, any selling group agreement and each third-party distribution agreement (to which the Senior Manager is a party) relating to the initial sale of the Series 2026A Certificates to the public, together with the related pricing wires, contains or will contain language obligating each Underwriter, each dealer who is a member of the selling group and each broker-dealer that is a party to such third-party distribution agreement as applicable (A)(1) to report the prices at which it sells to the public the unsold Series 2026A Certificates of each maturity allocated to it, whether or not the Closing has occurred, until either all Series 2026A Certificates of that maturity allocated to it have been sold or it is notified by the Senior Manager that the 10% test has been satisfied as to the Series 2026A Certificates of that maturity, provided that, the reporting obligation after the Closing may be at reasonable periodic intervals or otherwise upon request of the Senior Manager, and (2) to comply with the hold-the-offering-price rule, if applicable, if and for so long as directed by the Senior Manager and as set forth in the related pricing wires, (B) to promptly notify the Senior Manager of any sales of Series 2026A Certificates that, to its knowledge, are made to a purchaser who is a related party to an underwriter participating in the initial sale of the Series 2026A Certificates to the public (each such term being used as defined below), and (C) to acknowledge that, unless otherwise advised by the Underwriter, dealer or broker-dealer, the Senior Manager shall assume that each order submitted by the Underwriter, dealer or broker-dealer is a sale to the public; and

(ii) any agreement among underwriters or selling group agreement relating to the initial sale of the Series 2026A Certificates to the public, together with the related pricing wires, contains or will contain language obligating each underwriter or dealer that is a party to a third-party distribution agreement to be employed in connection with the initial sale of the Series 2026A Certificates to the public to require each broker-dealer that is a party to such third-party distribution agreement to (A) report the prices at which it sells to the public the unsold Series 2026A Certificates of each maturity allocated to it, whether or not the Closing has occurred, until either all Series 2026A Certificates of that maturity allocated to it have been sold or it is notified by the Senior Manager or such underwriter or dealer that the 10% test has been satisfied as to the Series 2026A Certificates of that maturity, provided that, the reporting obligation after the Closing may be at reasonable periodic intervals or otherwise upon request of the Senior Manager or such underwriter or dealer, and (B) comply with the hold-the-offering-price rule, if applicable, if and for so long as directed by the Senior Manager or the underwriter or the dealer and as set forth in the related pricing wires.

(d) The Underwriters acknowledge that sales of any Series 2026A Certificates to any person that is a related party to an underwriter participating in the initial sale of the Series 2026A Certificates to the public (each such term being used as defined below) shall not constitute sales to the public for purposes of this section. Further, for purposes of this Section 12:

(i) "public" means any person other than an underwriter or a related party,

(ii) "underwriter" means (A) any person that agrees pursuant to a written contract with the School Board (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Series 2026A Certificates to the public and (B) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (A) to participate in the initial sale of the Series 2026A Certificates to the public (including a member of a selling group or a party to a third-party distribution agreement participating in the initial sale of the Series 2026A Certificates to the public),

(iii) a purchaser of any of the Series 2026A Certificates is a "related party" to an underwriter if the underwriter and the purchaser are subject, directly or indirectly, to (A) more than 50% common ownership of the voting power or the total value of their stock, if both entities are corporations (including direct ownership by one corporation of another), (B) more than 50% common ownership of their capital interests or profits interests, if both entities are partnerships (including direct ownership by one partnership of another), or (C) more than 50% common ownership of the value of the outstanding stock of the corporation or the capital interests or profit interests of the partnership, as applicable, if one entity is a corporation and the other entity is a partnership (including direct ownership of the applicable stock or interests by one entity of the other), and

Ladies and Gentlemen:

In connection with the proposed execution and delivery of the above-referenced certificates (the "Series 2026A Certificates"), J.P. Morgan Securities LLC, acting for itself and on behalf of BofA Securities, Inc. and Raymond James & Associates, Inc. (collectively, the "Underwriters") have agreed to underwrite a public offering of the Series 2026A Certificates. Arrangements for underwriting the Series 2026A Certificates will include a Certificate Purchase Agreement dated the date hereof (the "Certificate Purchase Agreement") among The School Board of Broward County, Florida (the "School Board"), the Broward School Board Leasing Corp. (the "Corporation") and the Underwriters which will embody the negotiations of the Underwriters, the School Board and the Corporation relating to such underwriting. Capitalized terms used but not defined herein shall have the meaning ascribed to such terms in the Certificate Purchase Agreement.

The purpose of this letter is to furnish, pursuant to the provisions of Section 218.385, *Florida Statutes*, as amended, certain information regarding the arrangements contemplated for the underwriting of the Series 2026A Certificates as follows:

(a) The nature and estimated amount of expenses to be incurred by the Underwriters in connection with the purchase and reoffering of the Series 2026A Certificates are set forth in Schedule B-1 attached hereto.

(b) No person has entered into an understanding with the Underwriters, with the School Board or the Corporation for any paid or promised compensation or valuable consideration, directly or indirectly, expressly or implied to act solely as an intermediary between the School Board or the Corporation and the Underwriters or to exercise or attempt to exercise any influence to effect any transaction in connection with the purchase of the Series 2026A Certificates by the Underwriters.

(c) The underwriting spread will be $_____ ($_____ per $1,000), which includes the following:

	Total	Per $1,000
Underwriters' expenses		
Management Fee		
Average Takedown		
TOTAL:		

(d) Other than as described in the Offering Statement, no other fee, bonus or other compensation is estimated to be paid by the Underwriters in connection with the issuance of the Series 2026A Certificates to any person not regularly employed or retained by the Underwriters, including any "finder," as defined in Section 218.386(1)(a), *Florida Statutes*, as amended.

(e) The name and address of the Senior Managing Underwriter in connection with the issuance of the Series 2026A Certificates is:

J.P. Morgan Securities LLC
1450 Brickell Avenue, 15th Floor
Miami, Florida 33131
Attention: T.J. Whitehouse, Executive Director

(f) The School Board is proposing to issue $**[**PAR AMOUNT**]** of debt or obligation for the primary purpose of refunding the Refunded Certificates. The debt or obligation is expected to be repaid over a period of approximately ___ years. At a true interest cost of _____% per annum, total interest to be paid over the life of the debt or obligation will be $_____.

(g) The source of repayment or security for this proposal is funds appropriated annually for such purpose by the School Board from a levy of non-voted, real and tangible personal property tax millage (known as the local option millage levy) for capital

outlay and maintenance purposes and from other moneys authorized to be appropriated therefor by law and the regulations of the Florida Department of Education. Authorizing this debt or obligation will result in approximately $_____ (representing the average annual Basic Lease Payments to be made pursuant to the Transaction Leases) being paid each year for approximately ____ years but such payments will not affect the funds available to finance other services of the District because (i) such funds were already subject to annual appropriation for the satisfaction of scheduled Basic Lease Payments with respect to the Refunded Certificates and (ii) assuming the full term of the Transaction Leases, issuance of the Series 2026A Certificates will result in a net present value savings of Basic Lease Payments to be made of approximately $_____, although such savings will not be realized in an equal amount each year the Series 2026A Certificates are outstanding.

[Signature on following page]

We understand that you do not require any further disclosure from the Underwriters pursuant to Section 218.385, *Florida Statutes*, as amended.

The initial term of the Series 2009A-2 Lease commenced on June 18, 2009 and continued through and including June 30, 2009, has been automatically renewed annually to date and is automatically renewable annually through June 30, 2029, unless sooner terminated as described herein.

In addition to the Transaction Leases, the School Board (i) has heretofore entered into the Prior Leases (as defined herein) under the Master Lease, and (ii) expects to enter into other Leases under the Master Lease in the future. **For Fiscal Year 2025-26, of the District's [237] total operational schools, there are approximately [23] schools and [128] additions or renovations to schools and related improvements leased under the Master Lease. Based on the District's Pre-K through 12 pupil enrollment of approximately [194,425] students (excluding charter school enrollment and Family Empowerment Scholarship students) for Fiscal Year 2025-26, approximately [57]% of the District's students are attending classes in, or otherwise utilizing, Facilities leased under the Master Lease during the Fiscal Year ending June 30, 2026 (see "THE MASTER LEASE FACILITIES" and "THE REFINANCED FACILITIES" herein).** *To determine the above percentage, the number of students attending each facility was calculated as follows: for schools that are built and operating, the number of students for Fiscal Year 2025-26 was used; for the additions, the number of student stations attributable to each specific classroom or number of students served by such facility for Fiscal Year 2025-26 based on the type of school (elementary, middle or high) or facility (cafeteria, auditorium, gymnasium, etc.) was used. With respect to certain related facilities under the Master Lease (transportation facilities), no student stations were calculated as being attributable to such facilities; for schools or additions currently under construction, the number of student stations for each school or addition was used. Such figures do not include Facilities under the Master Lease which are not subject to surrender and disposition by the Trustee.* When the School Board appropriates Lease Payments for any of its Facilities leased under the Master Lease, it must appropriate Lease Payments for all other Facilities leased under the Master Lease. Failure to appropriate funds to pay Lease Payments under any such Lease, or an event of default under any such Lease, will result in the termination of all Leases, including the Transaction Leases. Upon such termination of all Leases, including the Transaction Leases, the School Board must surrender possession of the Refinanced Facilities (as defined herein), excluding certain designated Facilities and the Series 2009A-2 Facilities (as defined herein), to the Trustee for disposition by sale or re-letting of its interest in such Facilities. The proceeds of such disposition of the Series 2008A-1 Facilities leased under the Series 2008A-1 Lease (other than the Series 2008A-1 Comprehensive Needs Facilities (as defined herein) will

be applied to the payment of the Series 2026A Certificates allocable to the Series 2008A-1 Lease, equally and ratably with the Unrefunded Series 2016A Certificates (as defined herein), after payment of the expenses of the Trustee and then as described in the Series 2008A-1 Lease. In addition, holders of the Series 2026A Certificates will share in the proceeds of the disposition of the Series 2008A-1 Facilities (as defined herein) that are Overlapping Facilities (as defined herein) with holders of other Certificates representing an interest in such Overlapping Facilities upon termination of the Master Lease. The proceeds of the disposition of the Facilities leased under the Series 2009A-1 Lease (other than the Series 2009A-1 Comprehensive Needs Facilities (as defined herein)) will be applied to the payment of the Series 2026A Certificates allocable to the Series 2009A-1 Lease, equally and ratably with the Unrefunded Series 2016B Certificates (as defined herein) allocable to the Series 2009A-1 Lease and the Series 2017B Certificates (as defined herein) allocable to the Series 2009A-1 Lease, after payment of the expenses of the Trustee and then as described in the Series 2009A-1 Lease. In addition, holders of the Series 2026A Certificates will share in the proceeds of the disposition of the Series 2009A-1 Facilities (as defined herein) that are Overlapping Facilities with holders of other Certificates representing an interest in such Overlapping Facilities upon termination of the Master Lease. **The School Board may not be dispossessed of the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities, the Series 2009A-2 Facilities or any personal property refinanced, in whole or in part, with proceeds of Series 2026A Certificates. See "THE REFINANCED FACILITIES" herein.**

Co-Special Tax Counsel will express no opinion as to the tax exemption or the effect of securities laws with respect to the Series 2026A Certificates following an event of non-appropriation or certain events of default under the Master Lease which results in termination of the Lease Terms of the Transaction Leases. Transfers of the Series 2026A Certificates may be subject to compliance with the registration provisions of state and federal securities laws following an event of non-appropriation or certain events of default under the Master Lease which results in termination of the Lease Terms of all the Transaction Leases. See "TAX TREATMENT" and "RISK FACTORS" herein. A non-appropriation of funds or an event of default under the Master Lease which results in termination of the Lease Terms of the Transaction Leases will not result in termination of the municipal bond insurance policy, if any, issued with respect to the Series 2026A Certificates.

INTRODUCTION

This Offering Statement, including the cover page, the inside cover page and appendices hereto, is provided to furnish information in connection with the sale and delivery of $[PAR AMOUNT]* aggregate principal amount of Certificates of Participation, Series 2026A (the "Series 2026A Certificates").

The Series 2026A Certificates evidence undivided proportionate interests of the owners thereof in a portion of the Basic Lease Payments to be made by The School Board of Broward County, Florida (the "School Board") under the Transaction Leases (as defined herein). The Series 2026A Certificates are being executed and delivered pursuant to a Master Trust Agreement, dated as of July 1, 1990, as amended (the "Master Trust"), as supplemented by a Series 2026A Supplemental Trust Agreement, dated as of [MONTH] 1, 2026 (the "Series 2026A Supplemental Trust Agreement," and together with the Master Trust Agreement, the "Trust Agreement"), each between the Broward School Board Leasing Corp., a Florida not-for-profit corporation (the "Corporation"), and U.S. Bank Trust Company, National Association, Fort Lauderdale, Florida, as successor trustee (the "Trustee").

The School Board, as the governing body of the School District of Broward County, Florida (the "District"), entered into a Master Lease Purchase Agreement, dated as of July 1, 1990, as amended, particularly as amended by an Amendment to Master Lease Purchase Agreement, dated as of May 19, 2020 (the "Master Lease") between the Corporation, as lessor, and the School Board, as lessee, for the purpose of providing for the lease-purchase financing and refinancing from time to time of certain educational facilities, sites and equipment (the "Facilities") from the Corporation. Facilities to be leased from time to time are identified on separate schedules (each a "Schedule") attached to the Master Lease. Upon execution and delivery thereof, each Schedule, together with the provisions of the Master Lease, will constitute a separate lease agreement (individually a "Lease" and collectively the "Leases"). Generally, the Facilities subject to each such Lease are financed or refinanced with separate Series of Certificates. However, certain Facilities (the "Overlapping Facilities") are financed or refinanced by more than one Series of Certificates. See "THE REFINANCED FACILITIES – Overlapping Facilities" herein.

[The School Board and the Corporation have authorized certain amendments to Schedule 2008A-1 and Schedule 2009A-1 (each as defined herein) that will only become effective upon the receipt by the School Board of certain consents to such amendments, as described herein. By

Based on market conditions in existence at the time of pricing, the School Board will determine whether or not to purchase insurance on all of the Series 2026A Certificates, some of the Series 2026A Certificates or none of the Series 2026A Certificates. In the event the School Board deems it in its best interest to insure all or a portion of the Series 2026A Certificates, the scheduled payment of the principal and interest represented by such insured Series 2026A Certificates when due will be guaranteed under a municipal bond insurance policy (the "Policy") to be issued concurrently with the delivery of the Series 2026A Certificates by **[**INSURER**]** ("**[**INSURER SHORT NAME**]**" or the "Insurer" or the "Credit Enhancer"). See "CERTIFICATE INSURANCE OPTION" and "CERTIFICATE INSURANCE RISK FACTORS" herein.

PURPOSE OF THE SERIES 2026A CERTIFICATES

The Series 2026A Certificates are being issued for the purpose of providing funds, together with other legally available funds, sufficient to (i) refund, on a current basis, **[**all or a portion**]** of the School Board's outstanding Certificates of Participation, Series 2016A (the "Series 2016A Certificates") maturing on and after July 1, 2027 (the "Refunded Series 2016A Certificates") and thereby refinance a portion of the costs of the Series 2008A-1 Facilities, (ii) refund, on a current basis, **[**all or a portion**]** of the School Board's outstanding Certificates of Participation, Series 2016B (the "Series 2016B Certificates") maturing on and after July 1, 2027 (the "Refunded Series 2016B Certificates," and together with the Refunded Series 2016A Certificates, the "Refunded Certificates") and thereby refinance a portion of the cost of acquisition and construction of the Series 2009A Facilities and (iii) pay costs associated with the issuance of the Series 2026A Certificates**[**, including the Policy premium, if any**]**. **[**The Series 2016A Certificates maturing on July 1, 2026 will not be refunded with proceeds of the Series 2026A Certificates and, together with the Series 2016A Certificates maturing on and after July 1, 2027, if any, not refunded with proceeds of the Series 2026A Certificates, are referred to herein as the "Unrefunded Series 2016A Certificates." The Series 2016B Certificates maturing on July 1, 2026 will not be refunded with proceeds of the Series 2026A Certificates and, together with the Series 2016B Certificates maturing on and after July 1, 2027, if any, not refunded with proceeds of the Series 2026A

Certificates, are referred to herein as the "Unrefunded Series 2016B Certificates."**]** See "THE PLAN OF REFUNDING" and "ESTIMATED SOURCES AND USES OF FUNDS" herein.

THE PLAN OF REFUNDING

The Series 2026A Certificates are being issued in order to provide the funds, together with other legally available funds, necessary to refund, on a current basis, the Refunded Certificates and thereby refinance a portion of the costs of the Refinanced Facilities. The Refunded Certificates are subject to prepayment on July 1, 2026, at a price equal to the par amount of the Refunded Certificates, plus accrued interest to the prepayment date.

Upon the issuance of the Series 2026A Certificates, a portion of the proceeds of the Series 2026A Certificates**[**, together with other legally available funds,**]** will be deposited in separate escrow deposit trust funds created pursuant to a Series 2026A Escrow Deposit Agreement by and between the School Board and U.S. Bank Trust Company, National Association, Fort Lauderdale, Florida, as Escrow Agent (the "Escrow Deposit Agreement"), and such proceeds **[**and other monies**]** will be applied to the purchase of certain United States Treasury obligations (the "Escrow Securities") which, together with the interest earnings thereon and cash deposit therein, will be sufficient to pay the Basic Lease Payments represented by the Refunded Certificates to their date of prepayment. Co-Special Tax Counsel will render their opinions to the effect that, assuming the deposit and application of the Escrow Securities and uninvested cash in accordance with the terms of the Escrow Deposit Agreement provision having been made for the payment of the Basic Lease Payments represented by the Refunded Certificates, the Refunded Certificates will be deemed to be paid and the obligations under the applicable Transaction Leases to pay Basic Lease Payments as represented by the Refunded Certificates will have been released and discharged with respect to the Refunded Certificates. Such opinions will be rendered in reliance upon the verification report of **[**VERIFICATION AGENT**]** described herein under the heading "VERIFICATION OF MATHEMATICAL COMPUTATIONS" herein.

THE SERIES 2026A CERTIFICATES

General

The Series 2026A Certificates will be dated the date of delivery, will mature in the years and principal amounts and accrue interest at the interest rates set forth on the inside cover page of this Offering Statement. The Series 2026A Certificates will initially be issued exclusively in "book-entry" form and ownership of one fully registered Series 2026A Certificate for each maturity as set forth on the inside cover page, each in the aggregate principal amount of such maturity and registered in the name of "Cede & Co." as nominee of DTC. The principal portion and interest portion of Basic Lease Payments represented by the Series 2026A Certificates are payable in the manner set forth under "THE SERIES 2026A CERTIFICATES - Book-Entry Only System" herein. Individual purchases of the Series 2026A Certificates will be made in increments of $5,000 or integral multiples thereof.

The principal portion due on the Series 2026A Certificates payable at maturity represents undivided proportionate interests in the principal portion of the Basic Lease Payments due on each

of the dates set forth in (i) the Series 2008A-1 Lease, equally and ratably with the Unrefunded Series 2016A Certificates and (ii) the Series 2009A Leases, equally and ratably with the Unrefunded Series 2016B Certificates and the Series 2017B Certificates allocable to the Series 2009A Leases. The interest portion due on the Series 2026A Certificates is payable on each July 1 and January 1 (each an "Interest Payment Date"), commencing **[**July 1, 2026**]**, to and including the date of maturity thereof. Such interest portion represents undivided proportionate interests in the interest portion of Basic Lease Payments due on the June 15 and December 15 prior to each Interest Payment Date, commencing **[**June 15**]**, 2026, to and including the maturity of the Series 2026A Certificates, under the Transaction Leases.

The interest portion of the Basic Lease Payments represented by the Series 2026A Certificates will be computed on the basis of a 360-day year based on twelve 30-day months. The principal portion of the Series 2026A Certificates is payable to the registered owner upon presentation at the designated corporate trust office of the Trustee. Except as otherwise provided in connection with the maintenance of a book-entry only system of registration of the Series 2026A Certificates, the interest portion of the Basic Lease Payments represented by the Series 2026A Certificates is payable to the registered owner at the address shown on the registration books maintained by the Trustee as of the 15th day of the month (whether or not a business day) preceding the Interest Payment Date or at the prior written request and expense of any registered owner of at least $1,000,000 in aggregate principal amount of Series 2026A Certificates by bank wire transfer to a bank account in the United States designated in writing prior to the fifteenth day of the month next preceding each Interest Payment Date. Notwithstanding the above, reference is made to the book-entry system of registration described under "BOOK-ENTRY ONLY SYSTEM" below.

Prepayment

No Optional Prepayment. The Series 2026A Certificates are not subject to prepayment prior to maturity at the option of the School Board.

Extraordinary Prepayment. The Series 2026A Certificates shall be subject to prepayment in the event any or all of the Transaction Leases terminate prior to payment in full of all of the Basic Lease Payments due thereunder to the extent the Trustee has moneys available for such purposes pursuant to the Trust Agreement and the Transaction Leases, to the extent and subject to the limitations provided in the Transaction Leases.

No Extraordinary Prepayment in the Event of Damage, Destruction or Condemnation of the Refinanced Facilities. The Series 2026A Certificates are **not** subject to extraordinary prepayment prior to maturity in the event of damage, destruction or condemnation of any of the Refinanced Facilities. See "THE TRANSACTION LEASES - Lease Payments" herein for information regarding the required use of any insurance or condemnation proceeds related to the Refinanced Facilities allocated to the Series 2026A Certificates in the event of damage, destruction or condemnation of such Refinanced Facilities.

Selection of Series 2026A Certificates for Prepayment. If less than all of the Series 2026A Certificates are called for prepayment, the particular Series 2026A Certificates, or portions thereof to be prepaid will be in multiples of $5,000 and, except as otherwise provided in the Trust Agreement, the maturity of the Series 2026A Certificates to be prepaid will be determined by the Trustee. If less than all of the Series 2026A Certificates of like maturity are called for prepayment,

the particular Series 2026A Certificates or portions thereof to be prepaid will be selected by lot by the Trustee in such manner as the Trustee deems fair and appropriate. The portion of any Series 2026A Certificate of a denomination of more than $5,000 to be prepaid will be in the principal amount of $5,000 or an integral multiple thereof, and, in selecting portions of such Series 2026A Certificates for prepayment, the Trustee will treat each such Series 2026A Certificate as representing that number of Series 2026A Certificates in $5,000 denominations which is obtained by dividing the principal amount of such Series 2026A Certificate to be prepaid in part by $5,000.

DTC Procedures. Investors should note that while DTC is the registered owner of the Series 2026A Certificates, partial prepayments of the Series 2026A Certificates will be determined in accordance with DTC's procedures. The School Board intends that prepayment allocations made by DTC, the DTC Participants or such other intermediaries that may exist between the School Board and the Beneficial Owners of the Series 2026A Certificates be made in accordance with the method of selection of Series 2026A Certificates for a partial prepayment described above. However, the selection of the Series 2026A Certificates for prepayment in DTC's book-entry only system is subject to DTC's practices and procedures as in effect at the time of any such partial prepayment. The School Board can provide no assurance that DTC or the DTC Participants or any other intermediaries will allocate prepayments among Beneficial Owners in accordance with the method of selection of Series 2026A Certificates for a partial prepayment described above.

Notice of Prepayment. So long as the Series 2026A Certificates are issued in book-entry-only form, notice of prepayment will be mailed, postage prepaid (not less than five days before the Prepayment Date in the case of extraordinary prepayment resulting from termination of the Transaction Leases as a result of non-appropriation or default by the School Board, unless a different notice period is required by DTC) to Cede & Co., as nominee for DTC, and the Trustee will not mail any prepayment notice directly to the Beneficial Owners of the Series 2026A Certificates. See "BOOK-ENTRY ONLY SYSTEM" herein.

Effect of Prepayment. If, on the Prepayment Date, moneys for the payment of the Prepayment Price of the Series 2026A Certificates or portions thereof to be prepaid are held by the Trustee and available therefor on the Prepayment Date and if notice of prepayment has been given as required, then from and after the Prepayment Date, the interest represented by the Series 2026A Certificates or the portion thereof called for prepayment will cease to accrue. If such moneys are not available on the Prepayment Date, the principal represented by such Series 2026A Certificates or portions thereof will continue to bear interest until paid at the same rate as would have accrued had it not been called for prepayment.

BOOK-ENTRY ONLY SYSTEM

THE FOLLOWING INFORMATION CONCERNING DTC AND DTC'S BOOK-ENTRY ONLY SYSTEM HAS BEEN OBTAINED FROM SOURCES THAT THE BOARD BELIEVES TO BE RELIABLE, BUT THE BOARD TAKES NO RESPONSIBILITY FOR THE ACCURACY THEREOF.

DTC will act as securities depository for the Series 2026A Certificates. The Series 2026A Certificates will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized

representative of DTC. One fully-registered bond certificate will be issued for each maturity of the Series 2026A Certificates, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants (the "Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions, in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (the "Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of the Series 2026A Certificates under the DTC system must be made by or through Direct Participants, which will receive a credit for such Series 2026A Certificates on DTC's records. The ownership interest of each actual purchaser of each Series 2026A Certificate ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2026A Certificates are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of the Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Series 2026A Certificates, except in the event that use of the book-entry system for the Series 2026A Certificates is discontinued.

To facilitate subsequent transfers, all Series 2026A Certificates deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Series 2026A Certificates with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2026A Certificates; DTC's records reflect only the identity of the Direct Participants to whose accounts such Series 2026A Certificates are credited, which

may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping an account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements made among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Series 2026A Certificates may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2026A Certificates, such as defaults, and proposed amendments to the Series 2026A documents. For example, Beneficial Owners of Series 2026A Certificates may wish to ascertain that the nominee holding the Series 2026A Certificates for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the Trustee and request that copies of notices be provided directly to them.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Series 2026A Certificates unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Board as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Series 2026A Certificates are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Distributions and payments on the Series 2026A Certificates will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts, upon DTC's receipt of funds and corresponding detail information from the Board or the Trustee on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Trustee or the Board, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of distributions, and payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Board and/or the Trustee for the Series 2026A Certificates. Disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of the Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Series 2026A Certificates at any time by giving reasonable notice to the Board or its agent. Under such circumstances, in the event that a successor securities depository is not obtained, Series 2026A Certificates are required to be printed and delivered.

The Board may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Series 2026A Certificates will be printed and delivered to DTC.

SECURITY FOR THE SERIES 2026A CERTIFICATES

General

The Series 2026A Certificates evidence undivided proportionate interests in the Basic Lease Payments to be made under (i) the Series 2008A-1 Lease, equally and ratably with the Unrefunded Series 2016A Certificates and (ii) the Series 2009A Leases, equally and ratably with the Unrefunded Series 2016B Certificates and the Series 2017B Certificates allocable to the Series 2009A Leases, to and including the maturity of such Series 2026A Certificates. The Series 2026A Certificates are secured by and payable from the Trust Estate established pursuant to the Trust Agreement (the "Trust Estate"). The Trust Estate consists of all the estate, right, title and interest of the Trustee in and to the Basic Lease Payments under the Transaction Leases allocable to the Series 2026A Certificates and the Transaction Assignments, and all amounts held in the funds and accounts under the Trust Agreement, in accordance with the provisions of the Transaction Leases and the Trust Agreement, including investment earnings thereon, and any and all moneys received by the Trustee pursuant to the Transaction Leases and the Trust Agreement allocable to the Series 2026A Certificates which are not required to be remitted to the School Board, the Corporation or the Trustee pursuant to the Transaction Leases or the Trust Agreement.

Neither the Corporation nor the School Board will mortgage or grant a security interest in their respective interests in the Refinanced Facilities to the Trustee. Upon termination of the Transaction Leases in the case of an event of non-appropriation or in the case of certain events of default, the Transaction Leases provide that the School Board must surrender possession of the Refinanced Facilities (excluding the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities and the Series 2009A-2 Facilities) to the Trustee as assignee of the Corporation for disposition by sale or re-letting of its interest in such Refinanced Facilities as provided in the Trust Agreement. Any proceeds of the disposition of the Refinanced Facilities (other than the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities and the Series 2009A-2 Facilities) leased under (i) the Series 2008A-1 Lease will be applied to the payment of the Series 2026A Certificates allocable to the Series 2008A-1 Lease, equally and ratably with the Unrefunded Series 2016A Certificates (and in the case of disposition of the Overlapping Facilities subject to the Series 2008A-1 Lease, with holders of other Certificates representing an interest therein), after payment of the expenses of the Trustee and then as described in the Series 2008A-1 Lease and (ii) the Series 2009A-1 Lease will be applied to the payment of the Series 2026A Certificates allocable to the Series 2009A-1 Lease, equally and ratably with the Unrefunded Series 2016B Certificates allocable to the Series 2009A-1 Lease and the Series 2017B Certificates allocable to the Series 2009A-1 Lease (and in the case of disposition of the Overlapping Facilities subject to the Series 2009A-1 Lease, with holders of other Certificates representing an interest therein), after payment of the expenses of the Trustee and then as described in the Series 2009A-1 Lease. The School Board may not be dispossessed of the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities, the Series 2009A-2 Facilities or any personal property refinanced, in whole or in part, with proceeds of Series 2026A Certificates. See "THE REFINANCED FACILITIES" herein for a description of the Refinanced Facilities (including the Overlapping Facilities) against which the Trustee may exercise rights on behalf of the Owners of the Series 2026A Certificates. See also "THE TRANSACTION LEASES - Effect of Termination for Non-Appropriation or Default" herein.

Lease Payments

All Lease Payments and all other amounts required to be paid by the School Board under the Transaction Leases, the Prior Leases and all other Leases will be made from funds authorized by law and regulations of the State of Florida Department of Education to be used for such purpose and budgeted and appropriated for such purpose by the School Board. Revenues available to the District for operational purposes and for capital projects such as the Refinanced Facilities are described under "OPERATING REVENUES OF THE DISTRICT" and "AVAILABLE REVENUES FOR CAPITAL OUTLAY PROJECTS" herein. Such revenues are also used to pay other outstanding obligations of the District.

The Master Trust Agreement, as supplemented by the Series 2008A Supplemental Trust Agreement, dated as of June 1, 2008, provides for the establishment and maintenance of a Series 2008A Lease Payment Account for deposit of Basic Lease Payments appropriated and paid under the Series 2008A-1 Lease. The Master Trust Agreement, as supplemented by the Series 2009A Supplemental Trust Agreement, dated as of June 1, 2009, provides for the establishment and maintenance of a Series 2009A Lease Payment Account for deposit of Basic Lease Payments appropriated and paid under the Series 2009A Leases. Separate Lease Payment Accounts are established for each new group of Facilities to be financed by a Series of Certificates issued under the Trust Agreement. Lease Payments due under the schedules to the Master Lease are subject to annual appropriation by the School Board on an all-or-none basis and are payable solely from legally available funds appropriated by the School Board for such purposes; provided that Lease Payments with respect to a particular schedule and Series of Certificates may be additionally and separately secured by a Credit Facility. Such additional Facilities may be financed through the sale of additional Series of Certificates under the Trust Agreement. THE SCHOOL BOARD MAY NOT BUDGET AND APPROPRIATE LEASE PAYMENTS DUE FOR A PORTION OF THE FACILITIES LEASED UNDER THE MASTER LEASE; IT MUST BUDGET AND APPROPRIATE LEASE PAYMENTS FOR ALL PROJECTS OR NONE OF THEM. THERE CAN BE NO ASSURANCE THAT SUFFICIENT FUNDS WILL BE APPROPRIATED OR OTHERWISE BE MADE AVAILABLE TO MAKE ALL OF THE LEASE PAYMENTS DUE UNDER THE MASTER LEASE.

Limited Obligation of the School Board

THE SCHOOL BOARD IS NOT LEGALLY REQUIRED TO APPROPRIATE MONEYS TO MAKE LEASE PAYMENTS. LEASE PAYMENTS ARE PAYABLE FROM FUNDS APPROPRIATED BY THE SCHOOL BOARD FOR SUCH PURPOSE FROM CURRENT OR OTHER FUNDS AUTHORIZED BY LAW AND REGULATIONS OF THE STATE OF FLORIDA DEPARTMENT OF EDUCATION. NONE OF THE DISTRICT, THE SCHOOL BOARD, THE STATE OF FLORIDA, OR ANY POLITICAL SUBDIVISION OR AGENCY THEREOF IS OBLIGATED TO PAY, EXCEPT FROM SCHOOL BOARD APPROPRIATED FUNDS, ANY SUMS DUE UNDER THE TRANSACTION LEASES FROM ANY SOURCE OF TAXATION, AND THE FULL FAITH AND CREDIT OF THE SCHOOL BOARD, THE DISTRICT, THE STATE OF FLORIDA OR ANY POLITICAL SUBDIVISION OR AGENCY THEREOF IS NOT PLEDGED FOR PAYMENT OF SUCH SUMS DUE THEREUNDER, AND SUCH SUMS DO NOT CONSTITUTE AN INDEBTEDNESS OF THE SCHOOL BOARD, THE DISTRICT, THE STATE OF FLORIDA OR ANY POLITICAL SUBDIVISION OR AGENCY THEREOF WITHIN THE MEANING OF ANY

CONSTITUTIONAL OR STATUTORY PROVISION OR LIMITATION. NONE OF THE CORPORATION, THE TRUSTEE OR ANY CERTIFICATE HOLDER MAY COMPEL THE LEVY OF ANY AD VALOREM TAXES BY THE SCHOOL BOARD, THE DISTRICT, THE STATE OF FLORIDA OR ANY POLITICAL SUBDIVISION OR AGENCY THEREOF TO PAY ANY SUMS, INCLUDING THE BASIC LEASE PAYMENTS, DUE UNDER THE TRANSACTION LEASES. SEE "RISK FACTORS" HEREIN.

Prior Leases and Additional Leases

As noted above, the School Board has entered into the Prior Leases and may enter into other Leases under the Master Lease in addition to the Transaction Leases and the Prior Leases. See "INTRODUCTION" and "THE MASTER LEASE PROGRAM" herein. Failure to appropriate funds to make Lease Payments under any Lease will, and certain events of default under a Lease may result in the termination of the Lease Terms of all Leases, including the Transaction Leases. Upon any such termination of the Lease Terms of all Leases, the School Board must surrender all Facilities, including the Refinanced Facilities (excluding certain designated Facilities such as the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities and the Series 2009A-2 Facilities) to the Trustee for sale or re-letting of the Trustee's interest. The proceeds of the disposition of the Refinanced Facilities (excluding the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities and the Series 2009A-2 Facilities) leased under (i) the Series 2008A-1 Lease will be applied to the payment of the Series 2026A Certificates allocable to the Series 2008A-1 Lease, equally and ratably with the Unrefunded Series 2016A Certificates (and in the case of disposition of the Overlapping Facilities subject to the Series 2008A-1 Lease, with holders of other Certificates representing an interest therein), after payment of the expenses of the Trustee and then as described in the Series 2008A-1 Lease and (ii) the Series 2009A- Lease will be applied to the payment of the Series 2026A Certificates allocable to the Series 2009A-1 Lease, equally and ratably with the Unrefunded Series 2016B Certificates allocable to the Series 2009A-1 Lease and the Series 2017B Certificates allocable to the Series 2009A-1 Lease (and in the case of disposition of the Overlapping Facilities subject to the Series 2009A-1 Lease, with holders of other Certificates representing an interest therein), after payment of the expenses of the Trustee and then as described in the Series 2009A-1 Lease. **The School Board may not be dispossessed of the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities, the Series 2009A-2 Facilities or any personal property financed, in whole or in part, with proceeds of Certificates.** Except as described herein, in no event will owners of the Series 2026A Certificates have any interest in or right to the proceeds of the disposition of Facilities financed or refinanced with the proceeds of another Series of Certificates. There can be no assurance that the remedies available to the Trustee upon any such termination of the Lease Term of all Leases and the disposition of the Refinanced Facilities against which the Trustee has rights will produce sufficient amounts to pay the outstanding Series 2026A Certificates.

For a discussion of remedies available to the Trustee upon the occurrence of a non-appropriation of funds to pay Lease Payments or upon the occurrence of an event of default, see "THE TRANSACTION LEASES - Termination of Lease Term" and "- Effect of Termination for Non-Appropriation or Default" herein and "APPENDIX C - CERTAIN LEGAL DOCUMENTS - Master Lease Purchase Agreement, as amended" hereto.

Prior Certificates and Additional Certificates

As noted above, the School Board has multiple Series of Prior Certificates outstanding relating to the Prior Leases. See "INTRODUCTION" herein. With respect to any Additional Lease, one or more series of Additional Certificates may be authorized by the Corporation at the request of the School Board and executed and delivered by the Trustee for the purpose of: (a) financing the cost of acquisition, construction, installation and equipping of any Facilities; (b) financing the cost of completing the acquisition, construction, installation and equipping of any Facilities; (c) financing the cost of increasing, improving, modifying, expanding or replacing any Facilities; or (d) paying or providing for the payment of the principal portion and interest portion of the Basic Lease Payments with respect to, or the Purchase Option Price (as described under "SECURITY FOR THE SERIES 2026A CERTIFICATES - Optional Prepayment Price" below) of, all or a portion of the Facilities financed from the proceeds of any series of Certificates previously executed and delivered. The aggregate principal amount of Additional Certificates which may be executed and delivered under the provisions of the Master Trust Agreement is not limited, except as may be provided with respect to a particular series of Additional Certificates in any Supplemental Trust Agreement creating such series.

Unless otherwise set forth in a Supplemental Trust Agreement authorizing the issuance of more than one Series of Certificates, each Certificate within a Series of Certificates executed and delivered pursuant to the Trust Agreement shall rank *pari passu* and be equally and ratably secured under the Trust Agreement with each other Certificate of such Series, but not with any Certificates of any other Series, without preference, priority, or distinction of any such Certificate over any other such Certificate, except that to the extent that Basic Lease Payments available for payment to all Certificate holders are less than all amounts owed with respect to all Series of Certificates on any Interest Payment Date, such amounts available shall be applied on a pro rata basis to Certificate holders of all Series in accordance with the ratio that the principal balance of each Series of Certificates outstanding bears to the total amount of Certificates Outstanding under the Trust Agreement.

Optional Prepayment Price

The School Board has the right to prepay all or a portion of the Basic Lease Payments represented by the Series 2026A Certificates and in connection therewith, remove all or a portion of the Refinanced Facilities from the related Transaction Lease and from the lien of the related Transaction Ground Lease, if applicable, by paying the Purchase Option Price for the specific Refinanced Facilities being purchased or, to the extent permitted by law, by substituting other Facilities for the Refinanced Facilities to be released. In such event, Series 2026A Certificates representing an interest in the prepaid Basic Lease Payments would be paid on the next available date for paying the Series 2026A Certificates. The Purchase Option Price, as of each Lease Payment Date, is: (i) the Basic Lease Payment then due plus the amount designated in the related Transaction Lease; (ii) minus any credits pursuant to the provisions of the related Transaction Lease; (iii) plus an amount equal to the interest to accrue with respect to the Series 2026A Certificates and any other Certificates representing an interest in the related Transaction Lease to be paid from such Lease Payment Date to the next available date for paying the Series 2026A Certificates; (iv) plus an amount equal to any other amounts then due and owing under the related Transaction Lease.

Non-Appropriation Risk

THE SCHOOL BOARD IS NOT LEGALLY REQUIRED TO APPROPRIATE MONEYS FOR THE PURPOSE OF MAKING LEASE PAYMENTS. UNDER THE MASTER LEASE THE SCHOOL BOARD MAY NOT BUDGET AND APPROPRIATE AVAILABLE REVENUES TO MAKE LEASE PAYMENTS SELECTIVELY ON A LEASE BY LEASE BASIS, BUT MUST APPROPRIATE SUCH REVENUES FOR ALL LEASES OR NONE OF THEM. FOR A DISCUSSION OF REMEDIES AVAILABLE TO THE TRUSTEE IN THE EVENT OF THE NON-APPROPRIATION OF FUNDS TO PAY LEASE PAYMENTS, SEE "THE TRANSACTION LEASES - TERMINATION OF LEASE TERM" AND "- EFFECT OF TERMINATION FOR NON-APPROPRIATION OR DEFAULT" HEREIN. THERE CAN BE NO ASSURANCE THAT THE REMEDIES AVAILABLE TO THE TRUSTEE IN THE EVENT OF NON-APPROPRIATION WILL PRODUCE SUFFICIENT AMOUNTS TO FULLY PAY THE SERIES 2026A CERTIFICATES FOR PAYING SUCH CLAIMS.

No Reserve Account for Series 2026A Certificates

THERE IS NO RESERVE ACCOUNT ESTABLISHED FOR THE SERIES 2026A CERTIFICATES. Pursuant to a Supplemental Trust Agreement authorizing the issuance of any Series of Certificates, there may be established and maintained a separate Reserve Account to secure the payment of the principal and/or interest portion of the Basic Lease Payments related to such Series of Certificates. Each such Reserve Account shall secure only the Series of Certificates for which it has been established. See "APPENDIX C - CERTAIN LEGAL DOCUMENTS – The Master Trust Agreement" hereto.

AMENDMENTS TO CERTAIN OF THE TRANSACTION SCHEDULES

Each of Schedule 2008A-1 and Schedule 2009A-1 contain certain amendments intended to (i) allow for the substitution of Facilities upon meeting certain conditions (see "THE REFINANCED FACILITIES - Substitution and/or Additions to Refinanced Facilities - Substitution" herein for the requirements for such substitution as contemplated in the amendment provision) and (ii) allow for the release of a Refinanced Facility or Refinanced Facilities from the lien of the related Transaction Lease if after the release of such Refinanced Facility or Refinanced Facilities the total construction cost of the remaining Refinanced Facilities exceeds the remaining principal portion of the Basic Lease Payments payable under the related Transaction Lease (see "THE REFINANCED FACILITIES – Release of Refinanced Facilities" herein). See "APPENDIX C - CERTAIN LEGAL DOCUMENTS - Form of Schedule 2008A-1" and " - Form of Schedule 2009A-1" hereto for the specific amendments.

At the time of issuance of the Series 2026A Certificates, the initial Beneficial Owners of the Series 2026A Certificates, through their purchase of the Series 2026A Certificates, shall be deemed to have consented to the amendments set forth in Schedule 2008A-1 and Schedule 2009A-1. The Series 2026A Certificates will represent ____% and ___% of the Certificates Outstanding under the Series 2008A-1 Lease and the Series 2009A-1 Lease, respectively. As such, the amendments set forth in Schedule 2009A-1 and Schedule 2009A-2 will become effective immediately upon the issuance of the Series 2026A Certificates.

Purchasers of the Series 2026A Certificates should carefully review the proposed amendments. See "APPENDIX C - CERTAIN LEGAL DOCUMENTS - Form of Schedule 2008A-1" and "- Form of Schedule 2009A-1" hereto. Notwithstanding the foregoing, the consent of a majority of Certificate holders evidencing an interest in Schedule 2008A-1 and Schedule 2009A-1, as applicable, will not be required for the release of any related Refinanced Facilities not subject to the exercise of remedies upon an event of default or event of non-appropriation by the School Board (such as the Series 2008A-1 Comprehensive Needs Facilities and the Series 2009A-1 Comprehensive Needs Facilities).

The Underwriters are not providing consent to or approval of the herein described amendments and the School Board will not deem such amendments to have been consented to or approved by the Underwriters as a result of the Underwriters' purchase of the Series 2026A Certificates in their capacity as underwriters as defined in Section 2(a)(11) of the Securities Act of 1933, as amended.

CERTIFICATE INSURANCE OPTION

THE INFORMATION IN THIS SECTION CONCERNING THE POLICY AND **[**INSURER SHORT NAME**]** HAS BEEN OBTAINED FROM **[**INSURER SHORT NAME**]**. NONE OF THE SCHOOL BOARD, THE CORPORATION OR THE UNDERWRITERS TAKE RESPONSIBILITY FOR THE ACCURACY THEREOF.

All or a portion of the scheduled payment of the principal portion and interest portion of Basic Lease Payments represented by the Series 2026A Certificates when due may be guaranteed under the Policy to be issued concurrently with the delivery of the Series 2026A Certificates by [INSURER SHORT NAME]. The School Board will make the determination whether to purchase a Policy to insure all or a portion of the Series 2026A Certificates, if any, at the time the Series 2026A Certificates are priced. See "CERTIFICATE INSURANCE RISK FACTORS" herein.

[TO COME**]**

CERTIFICATE INSURANCE RISK FACTORS

At pricing, the School Board will determine whether to provide for the Policy for all, a portion or none of the Series 2026A Certificates. If the Policy is purchased, the following are risk factors related to municipal bond insurance.

General

In the event of default of the scheduled payment of debt service on the insured Series 2026A Certificates, if any, when all or some becomes due, the Trustee on behalf of owners of such insured Series 2026A Certificates will have a claim under the Policy for such payments. However, in the event of any acceleration of the due date of the principal portion of the insured Series 2026A Certificates resulting from default or otherwise, the payments are to be made in such amounts and at such times as such payments would have been due had there not been any such acceleration. The Policy will not insure prepayment premium, if any.

Under most circumstances, default of payment of the principal and interest portions of the Basic Lease Payments represented by the insured Series 2026A Certificates, if any, does not obligate extraordinary prepayment of the obligations of the Insurer without appropriate consent. The Insurer may direct and must consent to any remedies and the Insurer's consent may be required in connection with amendments to any applicable Series 2026A Certificate documents.

In the event the Insurer is unable to make payment of the principal and interest portions of the Basic Lease Payments represented by the insured Series 2026A Certificates, if any, as such payments become due under a Policy, such insured Series 2026A Certificates are payable solely from the moneys received pursuant to the applicable Series 2026A Certificate documents. In the event the Insurer becomes obligated to make payments with respect to such insured Series 2026A Certificates, no assurance is given that such event will not adversely affect the market price of the insured Series 2026A Certificates or the marketability (liquidity) for the insured Series 2026A Certificates.

The long-term ratings on the insured Series 2026A Certificates, if any, are dependent in part on the financial strength of the Insurer and its claims paying ability. The Insurer's financial strength and claims paying ability are predicated upon a number of factors which could change over time. No assurance is given that the long-term ratings of the Insurer and of the ratings on any Series 2026A Certificates insured by the Insurer will not be subject to downgrade and such event could adversely affect the market price of the insured Series 2026A Certificates or the marketability (liquidity) for the insured Series 2026A Certificates.

The obligations of the Insurer are unsecured obligations of the Insurer and in an event of default by the Insurer, the remedies available may be limited by applicable bankruptcy law or other similar laws related to insolvency. See "RATINGS" herein.

No Right of Insured Series 2026A Certificate Owners to Direct Remedies

Termination of the Master Lease, in and of itself, will not result in termination of the Insurer's Policy. Unless the Insurer is in default in its payment obligations under the Policy, the Insurer is entitled to control and direct any of the rights or remedies of the Trustee with respect to the Series 2026A Certificates it insures, including the right to direct the Trustee as to whether or not to re-let or sell the Refinanced Facilities (except for certain designated Facilities such as the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities and the Series 2009A-2 Facilities). Upon the occurrence of an Event of Default under the Trust Agreement and termination of the Transaction Leases, the Insurer may elect to prepay the maturities of all of the insured Series 2026A Certificates outstanding, in which case the principal and interest represented by such insured Series 2026A Certificates shall become due and payable immediately. If the Insurer does not elect to prepay the maturities of the insured Series 2026A Certificates, the Insurer is obligated to continue to make payments to Certificate Holders in accordance with the original schedule of Basic Lease Payments represented by such insured Series 2026A Certificates. However, the Insurer has no fiduciary responsibility to the Certificate Holders with respect to the direction of such remedies and has no obligation to preserve the exclusion from gross income for federal income tax purpose of amounts paid to Certificate Holders by the Insurer and designated as interest.

THE MASTER LEASE FACILITIES

The Refinanced Facilities are being refinanced under the School Board's existing Master Lease as part of the School Board's master lease purchase program (the "Master Lease Program") with the Corporation. The Facilities financed or refinanced by the School Board under the Master Lease Program are subject to annual appropriation on an all or none basis. **For Fiscal Year 2025-26, of the District's [236] total operational schools, there are approximately [23] schools and [128] additions or renovations to schools and related improvements leased under the Master Lease. Based on the District's Pre-K through 12 pupil enrollment of approximately [197,834] students (excluding charter school enrollment and Family Empowerment Scholarship students) for Fiscal Year 2025-26, approximately [57%] of the District's students are attending classes in, or otherwise utilizing, Facilities leased under the Master Lease during the Fiscal Year ending June 30, 2026.** *To determine the above percentage, the number of students attending each facility was calculated as follows: for schools that are built and operating, the number of students for the Fiscal Year 2025-26 was used; for the additions, the number of student stations attributable to each specific classroom or number of students served by such facility for Fiscal Year 2025-26 based on the type of school (elementary, middle or high) or facility (cafeteria, auditorium, gymnasium, etc.) was used; for schools or additions currently under construction, the number of student stations for each school or addition was used. With respect to certain related facilities under the Master Lease (transportation facilities), no student stations were calculated as being attributable to such facilities. Such figures do not include Facilities under the Master Lease which are not subject to surrender and disposition by the Trustee.* For a complete description of the Facilities under the Master Lease Program see "THE REFINANCED FACILITIES" and "THE PRIOR FACILITIES" herein.

Pursuant to the Master Lease, the School Board does not have the ability to appropriate funds to make Lease Payments on one Facility or some combination of Facilities only. The School Board's annual appropriation for Basic Lease Payments must be for all Facilities under the Master Lease Program. In the event the School Board does not appropriate funds in its annual budget for all of such financed Facilities, the School Board would be required to surrender such Facilities, including the Refinanced Facilities (other than certain designated Facilities such as the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities and the Series 2009A-2 Facilities), to the Trustee for the benefit of the Owners of the Certificates which financed or refinanced such Facilities.

Overlapping Facilities

The Overlapping Facilities described above under "-The Series 2008A-1 Facilities" and "-The Series 2009A-1 Facilities" are the result of the financing of certain Facilities (or more than one Facility) under more than one Lease on the same Facility Site. Accordingly, the disposition of the proceeds, if any, of these Overlapping Facilities upon the termination of the Lease Terms of the Series 2008A-1 Lease and/or Series 2009A-1 Lease, as described herein, will be shared with the owners of the other Series of Certificates, as described in the footnotes under "-The Series 2008A-1 Facilities" and "-The Series 2009A-1 Facilities" above.

In connection with the financing of new Facilities, the School Board may seek to amend the related Transaction Ground Lease to include such new Facilities as the Overlapping Facility, however, such amendment would require the prior consent of the owners of the Certificates representing greater than 50% of the principal portion of the Basic Lease Payments allocable to the Facilities subject to the related Transaction Ground Lease sought to be amended (or a Credit Facility Issuer, if any, that insures such Certificates in lieu of such owners).

Substitution of and Additions to Transaction Facilities

Substitution. **[**The following provision reflects the amendment to Section 6.4 of the Master Lease set forth in the Transaction Schedules. See "CERTAIN LEGAL DOCUMENTS – Master Lease Purchase Agreement, as amended" for the current provision applicable to the Transaction Schedules.**]**

To the extent permitted by law, on or after the Completion Date, the School Board may substitute for any Facilities other facilities owned by the School Board, provided such substituted facilities (a) have the same or a greater remaining useful life, (b) have a fair market value equal to or greater than the Facilities for which they are substituted, (c) are of substantially equal utility as the Facilities to be replaced and provide essential governmental services, (d) are free and clear of all liens and encumbrances, except Permitted Encumbrances and (e) are approved by the State Department of Education, if required under applicable law. In addition, to the extent permitted by law, prior to the Completion Date the School Board may release and/or substitute for any Facilities to be acquired, constructed and installed under a particular Schedule other facilities to be acquired, constructed and installed, provided that (1) any substituted facilities satisfy the requirements of clauses (a), (c), (d) and (e) above and (2) following such substitution and/or release, the sum of (x) with respect to Facilities for which a Certificate of Acceptance has not been delivered, the Cost of the acquisition, construction and installation of the Facilities plus (y) with respect to Facilities for which a Certificate of Acceptance has been delivered, the fair market value of the Facilities, financed under the Schedule from which the Facilities are to be substituted and/or released is greater than or equal to the remaining principal portion of Basic Lease Payments due under such Schedule. In order to effect such substitution, the Facilities to be replaced shall be released from the encumbrance of the related Lease and Ground Lease by appropriate instrument executed by the School Board and the Corporation (or Trustee as assignee of the Corporation) in form sufficient to leave good and marketable fee simple title to such Facilities in the School Board subject only to Permitted Encumbrances, and the Facilities to be substituted shall likewise be incorporated in the

appropriate Lease and Ground Lease modifications. The related Schedule shall be appropriately amended, and the related Ground Lease shall be amended or canceled and replaced, to reflect such substitution.

There shall also be delivered at the time of substitution an Opinion of Counsel as described in the Master Lease with respect to the substitute Facility Site.

Additions. From time to time, the School Board may have remaining funds on deposit in an Acquisition Fund under a particular Lease. This sometimes occurs as a result of a Facility or combination of Facilities being constructed for less than anticipated, a Facility is no longer needed or there are unresolved issues concerning the site on which the Facility is to be built. In such case, the School Board may finance other Facilities under such Lease, in which case such additional Facilities shall be subject to the provisions of the related Lease. In certain cases, such newly added Facilities may be Facilities which are not subject to surrender and disposition by the Trustee.

Release of Refinanced Facilities

[On and after the effective date of the amendments described under "AMENDMENTS TO CERTAIN OF THE TRANSACTION SCHEDULES,"**]** the School Board may cause the release of a particular Refinanced Facility or Refinanced Facilities from the lien of the related Transaction Lease if, after the release of such Refinanced Facility or Refinanced Facilities, the total construction cost of the remaining Refinanced Facilities under the related Transaction Lease exceeds the remaining principal portion of the Basic Lease Payments payable under the related Transaction Lease. Any Refinanced Facilities released as described in the preceding sentence will be deemed to be paid and fee simple title to such Refinanced Facilities shall vest in the School Board free and clear of all encumbrances except Permitted Encumbrances.

The following provides a summarized description of the Facilities being lease-purchased under the Prior Leases and subject to the Master Lease. THE MASTER LEASE PROGRAM

In order to provide for the lease purchase financing and refinancing from time to time of Facilities, the School Board has authorized the execution and delivery of the Master Lease between the School Board and the Corporation. Facilities to be leased from time to time will be identified on separate Schedules to the Master Lease. Upon execution and delivery thereof, each Schedule, together with the provisions of the Master Lease, will constitute a separate Lease. See "APPENDIX C - CERTAIN LEGAL DOCUMENTS - Master Lease Purchase Agreement, as amended" hereto.

The Transaction Leases are three of the Leases entered into under the Master Lease and provide for the leasing of the Refinanced Facilities by the Corporation to the School Board. See "THE TRANSACTION LEASES" and "THE REFINANCED FACILITIES" herein. As noted above, the School Board has previously leased certain Facilities pursuant to the Prior Leases which were funded from the proceeds of the Prior Certificates. See "THE PRIOR FACILITIES" herein. The School Board may arrange for one or more lease purchase financings of additional educational Facilities under the Master Lease in future Fiscal Years. See "SECURITY FOR THE SERIES 2026A CERTIFICATES - Additional Leases" and "- Additional Certificates" herein.

In addition, the School Board has previously entered into and may, in the future, enter into lease purchase arrangements upon terms and conditions other than those in the Master Lease. Failure to make payments under any such lease agreement, or an event of default under any such lease agreement, will not affect the Lease Terms or cause the termination of the Transaction Leases or any other Leases. See "FINANCIAL RESULTS AND LIABILITIES OF THE DISTRICT – Obligations Under Unrelated Lease Purchase Agreements" herein.

THE TRANSACTION LEASES

The following is a brief summary of certain provisions of the Transaction Leases, which is not intended to be definitive. Reference is made to "APPENDIX C - CERTAIN LEGAL DOCUMENTS - Master Lease Purchase Agreement, as amended," "- Form of Schedule 2008A-1," "- Form of Schedule 2009A-1" and "- Form of Schedule 2009A-2" hereto.

Authority

The Transaction Leases are authorized under Chapters 1001-1013, Florida Statutes, for the purpose of providing for the acquisition, construction and lease purchase financing and refinancing of the Refinanced Facilities.

Lease Term

Under the Series 2008A-1 Lease, the Corporation leases the Series 2008A-1 Facilities to the School Board. The initial term of the Series 2008A-1 Lease commenced on June 19, 2008 and continued through and including June 30, 2008, has been automatically renewed annually to date and is automatically renewable annually through June 30, 2033, unless sooner terminated in accordance with the provisions of the Series 2008A-1 Lease.

Under the Series 2009A Leases, the Corporation leases the Series 2009A Facilities to the School Board. The initial term of the Series 2009A-1 Lease commenced on June 18, 2009 and continued through and including June 30, 2009, has been automatically renewed annually to date and is automatically renewable annually through June 30, 2034, unless sooner terminated as described herein. The initial term of the Series 2009A-2 Lease commenced on June 18, 2009 and continued through and including June 30, 2009, has been automatically renewed annually to date and is automatically renewable annually through June 30, 2029, unless sooner terminated as described herein.

Lease Payments

Subject to the conditions stated in the Transaction Leases, the School Board has expressed its current intent to make all Lease Payments due under the Transaction Leases; PROVIDED, HOWEVER, THAT NONE OF THE SCHOOL BOARD, THE DISTRICT, THE STATE OF FLORIDA, OR ANY POLITICAL SUBDIVISION OR AGENCY THEREOF, IS OBLIGATED TO PAY, EXCEPT FROM SCHOOL BOARD APPROPRIATED FUNDS, ANY SUMS DUE UNDER THE TRANSACTION LEASES FROM ANY SOURCE OF TAXATION, AND THE FULL FAITH AND CREDIT OF THE SCHOOL BOARD, THE DISTRICT, THE STATE OF FLORIDA OR ANY POLITICAL SUBDIVISION OR AGENCY THEREOF IS NOT PLEDGED FOR PAYMENT OF SUCH SUMS DUE UNDER THE TRANSACTION LEASES, AND THE SUMS DO NOT CONSTITUTE AN INDEBTEDNESS OF THE SCHOOL BOARD, THE DISTRICT, THE STATE OF FLORIDA OR ANY POLITICAL SUBDIVISION OR AGENCY THEREOF WITHIN THE MEANING OF ANY CONSTITUTIONAL OR STATUTORY PROVISION OR LIMITATION. All Lease Payments due under the Transaction Leases will be made from current or other funds authorized by law and regulations of the State Department of Education and appropriated for such purpose by the School Board.

On **[**June 15, 2026**]**, and thereafter on December 15 and June 15 of each year, the Lease Payment Dates preceding each Interest Payment Date, the School Board is required to pay to the Trustee the Basic Lease Payment allocable to the Series 2026A Certificates due on such date, which amount corresponds to the amount due to Series 2026A Certificate holders on the next succeeding Interest Payment Date. The School Board is also required to pay, when due, Additional Lease Payments, consisting of, among other things, the fees and expenses of the Trustee and the Corporation. Lease Payments due under the Transaction Leases may be reduced, when applicable, by amounts credited as follows:

(a) The Trustee will deposit into the Lease Payment Account established with respect to the Transaction Leases interest income in accordance with the Trust Agreement and apply such interest income as a credit against the next ensuing Lease Payment to the extent provided in the Trust Agreement.

The following reflects the modifications to Section 5.4(b) of the Master Lease as set forth in the Transaction Schedules. See "APPENDIX C - CERTAIN LEGAL DOCUMENTS - Master Lease Purchase Agreement, as amended" hereto for the current provision.

(b) The Trustee will deposit in the applicable Lease Payment Account or Acquisition Account, Net Proceeds realized in the event of damage, destruction or condemnation of Refinanced

Facilities to be applied to the prompt repair, restoration or replacement of such Refinanced Facilities; provided, however, if the School Board has determined that its operations have not been materially affected and that it is not in the best interest of the School Board to repair, restore or replace that portion of the Refinanced Facilities damaged, destroyed or condemned, then the School Board shall not be required to comply with the provisions of the preceding clause. In such case, if the Net Proceeds are (i) less than ten percent (10%) of the Remaining Principal Portion of the Basic Lease Payments relating to such Refinanced Facilities and (ii) equal or less than the amount of Basic Lease Payments coming due in the immediately following Fiscal Year under the related Transaction Lease, then such Net Proceeds may, at the option of the School Board, (x) be deposited into the Lease Payment Account for the Series 2026A Certificates relating to such Refinanced Facilities to be credited against Basic Lease Payments next coming due in accordance with the Master Lease or (y) deposited in the Acquisition Account for the Series 2026A Certificates relating to such Refinanced Facilities and applied to pay costs of other Facilities, in which case such other Facilities shall become subject to the provisions of the applicable Transaction Lease as fully as if they were originally leased Facilities. If the Net Proceeds are (i) equal or greater than ten percent (10%) of the Remaining Principal Portion of the Basic Lease Payments relating to such Refinanced Facilities or (ii) greater than the amount of Basic Lease Payments coming due in the immediately following Fiscal Year under the related Transaction Lease, then the Net Proceeds shall be deposited to the Acquisition Account and applied to pay the Costs of other Facilities, in which case such other Facilities shall become subject to the provisions of the applicable Transaction Lease as fully as if they were the originally leased Facilities; provided, however, at the direction of the School Board, upon delivery to the Trustee of a Favorable Opinion, such Net Proceeds shall be deposited in the related Lease Payment Account to be credited against Basic Lease Payments next coming due under the applicable Transaction Lease.

Assignment of Lease to Trustee

Pursuant to the Transaction Assignments, substantially all right, title and interest of the Corporation in and to the Transaction Ground Leases and in and to the Transaction Leases, including the right to receive Basic Lease Payments thereunder, has been absolutely and unconditionally assigned by the Corporation to the Trustee for the benefit of the owners of the Series 2026A Certificates and any other Certificates representing an undivided proportionate interest in the Basic Lease Payments payable under the Transaction Leases. The School Board has consented to such assignment.

Lease Covenants

Under the Transaction Leases, the School Board is responsible for the acquisition, construction and installation of the Refinanced Facilities pursuant to the specifications of the School Board, including the letting of all contracts for the acquisition, construction and installation of the Refinanced Facilities. In the Transaction Leases, the School Board covenants that it will: (i) maintain the Refinanced Facilities at all times during the Lease Term in good repair and condition; (ii) pay applicable taxes, utility charges and other governmental charges; and (iii) provide applicable insurance coverage, including property and liability insurance, all in accordance with the terms and provisions relating to these requirements, contained in the Transaction Leases.

Budget and Appropriation

The cost and expense of the performance by the School Board of its obligations under the Transaction Leases, under the Prior Leases and any Additional Leases and the incurrence of any liabilities of the School Board under the Transaction Leases, the Prior Leases and any Additional Leases including without limitation, the payment of all Lease Payments and all other amounts required to be paid by the School Board under all Leases, are subject to and dependent on appropriations being duly made from time to time by the School Board for such purposes. The School Board may not budget and appropriate available revenues to make Lease Payments selectively on a Lease by Lease basis, but must appropriate such revenues for all Leases or none of them. Under no circumstances will the failure of the School Board to appropriate sufficient funds in any Fiscal Year constitute a default or require payment of a penalty, or in any way limit the right of the School Board to purchase or utilize educational facilities similar in function to those leased under any Lease including the Transaction Leases.

Unless the School Board, at a public meeting held prior to the end of the then current Fiscal Year, gives notice of its intent not to appropriate the funds necessary to make the Lease Payments coming due in the following Fiscal Year under all Leases, the Superintendent will include in the Superintendent's tentative budget proposal, in a separate line item, the funds necessary to make such Lease Payments, and all Leases will be automatically renewed on June 30 of the current Fiscal Year, for the following Fiscal Year, subject to appropriation being made by the School Board in the final adopted budget. If Lease Payments are due during the period prior to the adoption of the School Board's final official budget for an ensuing Fiscal Year, the Lease Term of all Leases shall be deemed extended only if the tentative budget or extension of the prior budget (whether by School Board action or operation of law) makes available to the School Board monies which may be legally used to make the Lease Payments due under all Leases during such period. If no such appropriation is made in the budget as finally adopted or if no official budget is adopted as of the last day on which a final budget is required to have been adopted under applicable law and regulations, all Leases will terminate as of the date of adoption of the final official budget or the last date on which a final budget is required to have been adopted, whichever is earlier, and under which no appropriation has been made.

If the School Board declares its intent at such public meeting prior to the end of the then current Fiscal Year not to appropriate the funds necessary to make Lease Payments under all Leases, no Leases will be automatically renewed for the following Fiscal Year, but will terminate on June 30 of the current Fiscal Year. For a discussion of the effect of termination of the Lease Term of the Leases, see "THE TRANSACTION LEASES - Effect of Termination for Non-Appropriation or Default" herein.

Termination of Lease Term

The Lease Term of each Lease, including the Transaction Leases, will terminate upon the earliest of any of the following events:

(a) Each Lease will terminate on the latest Lease Payment Date set forth in any Lease;

(b) All Leases will terminate in the event of non-appropriation of funds for the payment of Lease Payments;

(c) All Leases will terminate upon a default by the School Board with respect to any Lease and the termination of the Lease Term of all Leases by the Trustee pursuant to the Master Lease; and

(d) A particular Lease will terminate upon payment by the School Board of the Purchase Option Price of the particular Facilities leased under such Lease by the School Board or upon provision for such payment pursuant to the Master Lease.

Effect of Termination for Non-Appropriation or Default

Upon termination of the Lease Term for the reasons referred to in (b) or (c) under "THE TRANSACTION LEASES - Termination of Lease Term" above, the School Board is required to immediately surrender and deliver possession of all the Facilities financed under all Leases (except for certain designated Facilities such as the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities and the Series 2009A-2 Facilities) to the Trustee in the condition, state of repair and appearance required under the Leases and in accordance with the Trustee's instructions. Upon such surrender, the Trustee (or other transferee) will attempt to sell or re-let its interest in such facilities in such manner and to such person or persons for any lawful purpose or purposes as it, in its sole discretion, determines to be appropriate. The Trustee will pursue such rights and remedies as directed by the Holders of a majority in aggregate principal amount of the Series 2026A Certificates and any other Certificates evidencing an interest in the Transaction Leases. The proceeds derived from any such sale or reletting of the School Board's leasehold interest in such Facilities, if any, will be applied first to the payment of the fees and expenses of the Trustee, second to payment in full of the Series of Certificates relating to such Facilities and then to the payment of other outstanding amounts as described in said Lease(s). For a discussion of the remedies available to the Trustee if the School Board refuses or fails to voluntarily deliver possession of the Facilities to the Trustee, see "APPENDIX C - CERTAIN LEGAL DOCUMENTS - Master Lease Purchase Agreement, as amended" hereto.

There can be no assurance that the remedies available to the Trustee upon any termination of the Lease Terms of all Leases for non-appropriation or default and the disposition of the Refinanced Facilities (except for certain designated Facilities such as the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities and the Series 2009A-2 Facilities) will produce sufficient amounts to pay the Series 2026A Certificates. Federal income tax status of payments made to Series 2026A Certificate holders after such termination may also be adversely affected. See "RISK FACTORS – Tax Effect Upon Termination of Transaction Leases" and "TAX TREATMENT" herein. Further, after such termination of the Lease Terms of all Leases, transfer of Series 2026A Certificates may be subject to the registration provisions of applicable federal and state securities laws. THE SCHOOL BOARD AND THE DISTRICT

General

Established in 1915, the District is organized under Section 4, Article IX of the Constitution of the State of Florida and Chapter 1001, Florida Statutes. The District covers the same geographic area as the County and provides elementary, secondary and vocational educational services to the unincorporated areas of the County and all of the 31 incorporated municipalities within the County, the largest of which is the City of Fort Lauderdale. The District has a student enrollment that is the second largest in the State and the sixth largest in the United States. As of September 8, 2025, the District served 236,667 students (including 48,820 charter school students) and approximately 125,000 adult students in 236 schools and education centers, three technical colleges and 86 charter schools. The District is the County's largest single employer. As of October 20, 2025, the District had approximately 26,270 permanent employees, including over 12,975 classroom instructors.

Management of the District is independent of the County government and local governments within the County. The District is part of the State system of public education operated under the general direction and control of the State Board of Education. The District is governed by the School Board, which consists of nine elected members. The Superintendent of Schools is appointed by the members of the School Board and serves as the executive officer of the District. The District has taxing authority, as more fully described herein under "AD VALOREM TAXATION," "OPERATING REVENUES OF THE DISTRICT – Local Sources" and "AVAILABLE REVENUES FOR CAPITAL OUTLAY PROJECTS – Local Sources" herein. The County Tax Collector collects ad valorem taxes for the District, but exercises no control over the District's tax receipts. Additional information concerning the County is contained in "APPENDIX A – INFORMATION REGARDING BROWARD COUNTY, FLORIDA" hereto.

School Facilities Reorganization Plan

Primarily due to declining student enrollment and changing economic factors, the District is consolidating a number of underutilized schools in order to decrease costs and increase operational efficiencies. Certain of such underutilized schools were converted into combination schools (K-8 or grade 6-12) which are generally more popular among District families. The

consolidations did not result in the elimination of any District programs, however, District staff will be reduced in proportion to student enrollment. Among the plans adopted by the School Board for the 2025-26 school year, is consolidation of Broward Estates Elementary School into Dr. Martin Luther King, Jr. Montessori Academy as a K-5 school; reconfiguration of four elementary schools (Coconut Creek, Coral Cove, Hollywood Central and Silver Shores) into K-8 schools; transferring students from underutilized Silver Shores Elementary School to Silver Lakes Elementary School and Silver Palms Elementary School; and reconfiguring Pines Middle School into a grade 6-12 school. The only school that was consolidated for 2025-26, Broward Estates Elementary, is not subject to the Master Lease Program. **[**However, three schools subject to the Master Lease, including Seagull Alternative High School which is a component of the Series 2009A-1 Facilities, are currently being considered for consolidation and repurposing. See "THE REFINANCED FACILITIES – The Series 2009A-1 Facilities" and "THE PRIOR FACILITIES" herein.**]** See also, "RISK FACTORS – State Revenues" herein.

Accreditation

All non-charter public schools in the District are fully accredited by Cognia, formerly known as AdvancEd. The District is the second largest fully accredited school district in the nation and is Florida's first fully accredited school system since 1962.

The School Board

The School Board is a public body corporate existing under the laws of the State of Florida, particularly Section 1001.40, Florida Statutes, and is the governing body of the District. The School Board consists of nine members, two of whom are elected by Countywide vote and seven of whom are elected from single member districts for overlapping four-year terms.

Under existing statutes, the School Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property within the District; the development and adoption of a school program for the District; the establishment, organization and operation of schools, including vocational and evening schools and programs for gifted students and handicapped students, including students in residential care facilities; the appointment, compensation, promotion, suspension and dismissal of employees; the establishment of courses of study and the provision of adequate instructional aids; and the establishment of a system to transport students to school or school-related activities.

The School Board also has broad financial responsibilities, including the approval of the annual budget, adoption of the school tax millage levy and the establishment of a system of accounting and budgetary controls. The annual budget and accounting reports must be filed with the State of Florida Department of Education.

Budget Process

State law requires the School Board to advertise its intent to adopt a tentative budget, including a capital outlay budget, within 29 days following the Broward County Property Appraiser's official certification of taxable property, which usually occurs on or about July 1. The School Board holds a public hearing on the tentative budget and the proposed tax rates within five days of its advertisement, and officially adopts the tentative budget and tax rates at the hearing. Thereafter, the Broward County Property Appraiser prepares tax millage notices for property owners within the District. The final budget and tax rate are fixed in September of each year, following a final public hearing and in accordance with statutory timelines. The School Board adopted the final budget for the 2025-26 Fiscal Year on September 9, 2025.

As part of the budget process, the District is required to provide advance notice of the purposes for which the District intends to spend budgeted amounts, including those derived from the proceeds of the Local Option Millage Levy, and to adopt a budget which shows the capital outlay expenditures applicable to each project. For information regarding the Local Option Millage Levy see "AVAILABLE REVENUES FOR CAPITAL OUTLAY PROJECTS – Local Sources" herein. The District currently lists in such notice all projects which may begin within the Fiscal Year which are reasonably anticipated to be funded from proceeds of the estimated Local Option Millage Levy (as defined herein). This listing is provided to allow for public input for all capital outlay projects which are reasonably anticipated to be funded from such proceeds.

The Superintendent of Schools is responsible for preparing the preliminary and tentative budgets for recommendation to the School Board. Florida law requires the School Board to adopt and maintain a balanced budget, in which anticipated revenues less certain required deductions combined with beginning fund balances equal appropriations. Generally, the final budget is substantially the same as the tentative budget since the School Board's hiring plans and materials purchases have been determined before the final budget is adopted.

FINANCIAL RESULTS AND LIABILITIES OF THE DISTRICT

The following briefly describes financial results of the District and certain District liabilities. For additional information concerning such matters see "APPENDIX B - EXCERPTED INFORMATION FROM THE ANNUAL COMPREHENSIVE FINANCIAL REPORT OF THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA FOR THE FISCAL YEAR ENDED JUNE 30, 2025" hereto.

Financial Results

The Association of School Business Officials International has awarded the District a Certificate of Excellence in Financial Reporting for the past 42 consecutive years and, for the last 29 consecutive years, the District has received a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association of the United States and Canada. Both awards are given to recognize the high quality of financial reporting undertaken by the District.

The financial and accounting procedures of the District are designed to conform to generally accepted accounting principles applied to governmental units. The District's accounting system is organized on the basis of funds. Resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and the means by which spending activities are controlled. The accounts for the governmental fund types are maintained on a modified accrual basis of accounting, whereby revenues are recognized when they become available and measurable and expenditures are recorded in the accounting period in which the liability is incurred, if measurable, except unmatured interest on general long-term debt, which is recognized when the interest is due. The internal service funds are maintained on the accrual basis of accounting, whereby revenues are recognized when earned and expenses are recognized when incurred. Agency funds, accounted on the accrual basis, are purely custodial in nature (assets equal liabilities) and as such, do not have a measurement focus.

The District's governmental funds are used to account for the programs and activities of the governmental functions of the District. The General Fund serves as the primary operating fund of the District. Local ad valorem taxes, Florida Education Finance Program ("FEFP") funds and selected State categorical programs constitute the primary resources of the General Fund. The Special Revenue Funds of the District are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted or committed to expenditures for specific purposes. Major sources of revenue for these funds are federal grants and food sales. The Debt Service Funds of the District are used to account for the payment of interest and principal on general long-term debt. Major sources of revenue for these funds include the voter-approved millage levy, non-voted special millage levy and the State Board of Education revenue. Capital Project Funds of the District are used to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment. Major sources of revenue for these funds are local ad valorem taxes, educational impact fees, and State PECO distributions.

General Fund Ending Balance Guidelines

Section 1011.051, Florida Statutes, entitled "Guidelines for general funds" requires that if a school district's General Fund ending balance not classified as restricted, committed or nonspendable in the approved operating budget is projected to fall below three percent (3%) of projected General Fund revenues, the Superintendent shall provide written notification to the district school board and the Commissioner of Education. The section further requires that if the General Fund ending balance not classified as restricted, committed or nonspendable is projected to fall below two percent (2%) of projected General Fund revenues, the Superintendent shall provide written notification to the district school board and the Commissioner of Education. Within 14 days after receiving such notification of an ending balance below two percent (2%), if the Commissioner determines that the district does not have a plan that is reasonably anticipated to avoid a financial emergency as determined pursuant to Florida Statutes pertaining thereto, the Commissioner shall appoint a financial emergency board that may take certain delineated steps to assist a district school board in complying with the General Fund requirements. In Fiscal Year 2023-24, the District's General Fund ending balance not classified as restricted, committed or nonspendable was 3.58% of General Fund Revenues. In Fiscal Year 2024-25, the District's General Fund ending balance not classified as restricted, committed or nonspendable was 4.23% of General Fund Revenues and for Fiscal Year 2025-2026 is budgeted to be 3.83% of General Fund Revenues.

For Fiscal Year 2026, all funds have been allocated to Capital Outlay and Other, even though all of such funds are not anticipated to be expensed for such purpose during Fiscal Year 2026. Funds remaining at the end of Fiscal Year 2026 will be carried forward into the Fiscal Year 2027 budget. Based on actual Fiscal Year 2025-26 Revenues and Expenditures to date, the District estimates its actual Fiscal Year 2025-26 End of Year Fund Balance to be approximately $429.0 million.

General Obligation Debt. With the overwhelming support of 73.7% of the voters of the County, an $800 million general obligation bond referendum was approved on the November 4, 2014 ballot. Proceeds from the general obligation bonds are used to modernize and improve the safety of outdated educational facilities and upgrade instructional technology. Issuance of the general obligation bonds allows the District to enhance students' learning environments by focusing on improvements in safety, music, art, athletics, renovations and technology to achieve its long term goals. The District amended the District Educational Facilities Plan to include projects to be funded by the general obligation bonds, when issued. See "DISTRICT EDUCATIONAL FACILITIES PLAN" herein. The District has issued all $800 million of the authorized new money general obligation bonds. Principal and interest on outstanding general obligation bonds will be paid from ad valorem school district taxes levied for such purposes on all taxable real and personal property within the District, excluding exempt property as required by Florida law. The voted millage to be collected by the District in connection with the issuance of general obligation bonds approved on the November 4, 2014 ballot is being levied in the current 2025-26 Fiscal Year of the District and will continue through the final maturity of the general obligation bonds related thereto. See "AD VALOREM TAXATION – Millage Set by Local Governing Body" herein. In order to issue new money general obligation bonds in addition to the $800 million previously authorized and issued, the approval of the majority of the qualified electors of the County voting in a new referendum is required. However, the District may issue general obligation bonds for refunding purposes without voter approval.

Obligations Under Unrelated Lease Purchase Agreements

The School Board has in the past and may, in the future, enter into lease purchase agreements upon terms and conditions other than those in the Master Lease. The School Board has entered into lease purchase agreements to finance buses, vehicles, equipment, computer devices, and software. The current outstanding principal balance of these agreements is $[81,703,916]. The School Board anticipates continuing to finance additional items through similar lease arrangements in the future. These leases are not part of the Master Lease. Unless otherwise expressly provided in this Offering Statement, failure to make payments under any such lease purchase agreements, or an event of default under any such lease purchase agreement, will not affect the Lease Terms or cause the termination of the Transaction Leases or any other Leases. Payments under such lease purchase agreements are expected to be made from Local Option Millage Levy revenues, which are the primary source of repayment for the Series 2026A Certificates. See "AVAILABLE REVENUES FOR CAPITAL OUTLAY PROJECTS – Local Sources – Local Option Millage Levy" herein.

Retirement Programs and Other Post-Employment Benefits

Florida Retirement System. Essentially all regular employees of the District are eligible to enroll as members of the Florida Retirement System (the "FRS"). The FRS is a single retirement system administered by the Florida Department of Management Services ("DMS"), and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined-benefit pension plan (the "FRS Pension Plan"), a Deferred Retirement Option Program (the "DROP"), a Retirement Health Insurance Subsidy Plan (the "HIS Plan"), and a defined-contribution plan, referred to as the Florida Retirement System Investment Plan (the "Investment Plan"). A comprehensive annual financial report of the FRS, which includes its

financial statements, required supplementary information, actuarial report, information about the FRS's fiduciary net position, and other relevant information, is available from the DMS at: www.dms.myflorida.com.

FRS Pension Plan. The Florida Legislature establishes contribution rates for employers and employees participating in the FRS Pension Plan. The District's contributions (not including employee contributions) to the FRS Pension Plan for Fiscal Year 2024-25 totaled $156.6 million, which was equal to the required contributions for such fiscal year. At June 30, 2025, the District reported a liability of $1.1 billion for its proportionate share of the FRS Pension Plan's net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2024. The District's proportionate share of the net pension liability was based on the District's Fiscal Year 2023-24 contributions relative to the total fiscal year 2023-24 contributions of all participating members. At June 30, 2024, the District's proportionate share was 2.76%, which was a decrease of 0.10% from its proportionate share measured as of June 30, 2023. For the Fiscal Year ended June 30, 2025, the District recognized the FRS Pension Plan pension expense of $155.5 million. In addition, the District reported deferred outflows of resources of $431.9 million and deferred inflows of resources of $129.4 million related to the FRS Pension Plan.

HIS Plan. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. The District's contributions to the HIS Pension Plan totaled $31.1 million for Fiscal Year 2024-25. At June 30, 2025, the District reported a net pension liability of $548.1 million for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of the benefit payments expected to be paid within one year, net of the District's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2024 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2024. The District's proportionate share of the net pension liability was based on the District's Fiscal Year 2023-24 contributions relative to the total fiscal year 2023-24 contributions of all participating members. At June 30, 2024, the District's proportionate share was 3.65%, which was a decrease of 0.10% from its proportionate share measured as of June 30, 2023. For the Fiscal Year ended June 30, 2025, the District recognized pension expense of $13.7 million related to the HIS Plan. In addition, the District reported deferred outflows of resources of $46.1 million and deferred inflows of resources of $100.6 million related to the HIS Plan.

Investment Plan. The District contributes to the Investment Plan for its eligible employees electing to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The District's total contribution to the plan totaled $28 million.

ALL POTENTIAL PURCHASERS OF THE SERIES 2026A CERTIFICATES SHOULD REVIEW NOTE 14 OF THE NOTES TO THE BASIC FINANCIAL STATEMENTS AND REQUIRED SUPPLEMENTARY INFORMATION SET FORTH IN "APPENDIX B – EXCERPTED PAGES FROM THE ANNUAL COMPREHENSIVE FINANCIAL REPORT OF THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

FOR THE FISCAL YEAR ENDED JUNE 30, 2025 AND INDEPENDENT AUDITORS' REPORT" ATTACHED HERETO. SUCH NOTE 14 AND REQUIRED SUPPLEMENTARY INFORMATION CONTAIN DESCRIPTIONS OF THE PENSION PLANS AND MATERIAL FINANCIAL INFORMATION CONCERNING THE PLANS, INCLUDING BUT NOT LIMITED TO, INFORMATION REGARDING CONTRIBUTIONS, COSTS, FUNDED STATUS AND FUNDING PROGRESS.

Other Post-Employment Benefits. In addition to its contributions under the State's retirement plan described above, the District provides other postemployment benefits ("OPEB") for certain of its retired employees in the form of an implicit rate subsidy by providing access to health insurance plans. The offering of this health insurance coverage is required by Section 112.0801, Florida Statutes. In addition, retirees are eligible to continue the District-sponsored term life insurance policy provided by the District.

In June 2015, the Governmental Accounting Standards Board issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions ("GASB No. 75"), which was adopted by the District for the year ended June 30, 2018 and which replaced GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions ("GASB 45"). GASB No. 75 addresses accounting and financial reporting for OPEB provided to employees of state and local government employers; establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expenses; requires governments to report a liability, deferred outflows of resources, deferred inflows of resources, and expenses on the face of the financial statement for the OPEB that they provide; and requires more extensive note disclosures and supplementary information about their OPEB liability.

The District has historically accounted for its OPEB contributions on a pay-as-you-go basis and the District currently plans to continue such pay-as-you-go funding of its OPEB contributions. As of the valuation date, June 30, 2024, there were approximately 25,270 active participants and 561 inactive participants (retirees and beneficiaries) of the District receiving post-employment benefits. The District provided required employer contributions toward the annual OPEB cost in the amount of $6.3 million, comprised of benefit payments made on behalf of retirees for claims expense and retention costs. The pay-as-you-go method of funding OPEB allows the District to continue to pay only the current OPEB costs each Fiscal Year, but will produce a growing unfunded actuarial liability for the future. The District's total OPEB obligation was $163.1 million based on the measurement date of June 30, 2024 and was determined using an actuarial roll-forward on the results of a full actuarial valuation as of June 30, 2024.

[Remainder of page intentionally left blank**]**

Below are the details regarding the total OPEB liability from June 30, 2024 to June 30, 2025 (in thousands):

OPERATING REVENUES OF THE DISTRICT

The District derives its operating income from a variety of federal, state and local sources. The major categories of these income sources for the operating funds are briefly described below. **Prospective purchasers should assume that operating funds will not be available to make Lease Payments and that such payments will be made solely from available revenues for capital outlay projects, in particular, the Local Option Millage Levy.** See "AVAILABLE REVENUES FOR CAPITAL OUTLAY PROJECTS" herein.

State Sources

Florida Education Finance Program. The major portion of State support is distributed under the provisions of the Florida Education Finance Program ("FEFP"), which was enacted by the State Legislature in 1973. Basic FEFP funds are provided on a weighted full-time equivalent ("FTE") student basis and through a formula that takes into account: (i) varying program costs; (ii) cost differentials between districts; (iii) differences in per-student costs due to the density of student population; and (iv) the required level of local support. Program cost factors are determined by the State Legislature each year. The amount of FEFP funds disbursed by the State is adjusted four times during each year to reflect changes in FTE and in other variables comprising

the formula, as well as to compensate for increases or decreases in ad valorem tax revenue resulting from adjustments to the valuation of non-exempt property in each county. To participate in FEFP funding, the District must levy a minimum millage for operating purposes, which is set by the State Department of Education. Based on the above formula, District's FEFP receipts from the State for Fiscal Year 2023-24 were approximately $741.1 million, were approximately $728.9 million for Fiscal Year 2024-25 and are budgeted to be approximately $649.1 million in Fiscal Year 2025-26, excluding Florida Empowerment Scholarship funds.

FEFP Categorical Programs. FEFP categorical programs are lump sum appropriations from the State intended to supplement local school district revenues to enhance the delivery of educational and support services by each school district. In recent years, most categorical programs have been eliminated and the funds are now earmarked within the FEFP base student allocation. The only remaining categorical program is class size reduction. The allocation for class size reduction is based on a funding formula. The majority of funds available therefrom require actual appropriation by the School Board for the purposes for which they were provided. Total State categorical aid for class size reduction was $248.7 million for Fiscal Year 2023-24 and $245.8 million for Fiscal Year 2024-25 and is budgeted to be $239.2 million for Fiscal Year 2025-26.

State Lottery Revenues. A portion of the revenues generated from the State lottery is distributed to each Florida school district as Discretionary Lottery revenue and Florida School Recognition Program revenue. The Florida School Recognition program recognizes schools that have received an "A" or improved at least one letter grade from the previous school year and, under Florida Statutes, is required to be used for nonrecurring bonuses for school faculty and staff, nonrecurring expenditures for educational equipment or materials, for temporary personnel to assist schools in maintaining or improving student performance, or any combination of these. The District received $16.4 million in Florida School Recognition revenue in Fiscal Year 2023-24, $22.3 million in Florida School Recognition revenue in Fiscal Year 2024-25 and is budgeted to receive $14.9 million in Florida School Recognition revenue in Fiscal Year 2025-26. The District did not receive any Discretionary Lottery revenues in Fiscal Year 2023-24 and 2024-25 and is not budgeted to receive any Discretionary Lottery revenues in Fiscal Year 2025-26.

Other State Revenues. The District also receives State educational funding from a variety of miscellaneous State programs, the largest of which is Workforce Development. The District received approximately $83.5 million for Workforce Development in Fiscal Year 2023-24, received approximately $84.5 million for Fiscal Year 2024-25 and is budgeted to receive approximately $85.7 million for Fiscal Year 2025-26.

Local Sources

Ad Valorem Taxes. Local revenue for District operating support is derived almost entirely from ad valorem real and tangible personal property taxes. In addition, the District earns interest on cash invested and collects other miscellaneous revenues.

The Florida Constitution limits the non-voted millage rate that school boards may levy on an annual basis for operational funds to 10 mills ($10 per $1,000 of taxable real and personal property value). The millage limitation does not apply to taxes approved at referendum by

qualified electors in the County for general obligation bonds and certain other short-term, voter approved levies. Chapter 1011, Florida Statutes, further limits the millage levy for operational purposes to an amount established each year by the State appropriations act and finally certified by the Commissioner of the State of Florida Department of Education. Within this operational limit, each school district desiring to participate in the State's allocation of FEFP funds for current operations must levy a non-voted millage rate that is determined annually by the State Legislature and certified by the Commissioner of the State of Florida Department of Education and is referred to as the district "Required Local Effort." For the Fiscal Year ending June 30, 2026, the District's required local effort is 3.072 mills, inclusive of a Prior Period Funding Adjustment Millage of 0.019 mills as required by Section 1011.62(4)(e), Florida Statutes. Such Prior Period millage is levied when the preliminary taxable value for the prior year is greater than the final taxable value for such year, thereby resulting in lower than expected revenues from the required local effort millage.

In addition to the "Required Local Effort," school districts are entitled an additional non-voted current operating "discretionary millage" not to exceed an amount established annually by the Legislature and up to 1.5 mills for capital outlay and maintenance of school facilities. However, the District may levy up to 0.25 mills for capital outlay and maintenance of school facilities in lieu of operating discretionary millage. For the Fiscal Year ending June 30, 2026, the District's discretionary operating millage is 0.748 mills. The District did not levy any capital outlay discretionary millage for the Fiscal Year ending June 30, 2026. See "AD VALOREM TAXATION - Millage Rates" and "- Historical Millages" herein.

The District, pursuant to authority granted in Section 1011.71(9), Florida Statutes, sought voter approval for the levy of an additional 0.50 mills for operating purposes for a period of four years, commencing with Fiscal Year 2019-20. The voters approved such levy at a special election held on August 28, 2018. The District sought and received voter approval for an increase of such levy from 0.50 mills to 1.0 mills for four additional years at the November 2022 general election. Such increased levy commenced in Fiscal Year 2023-24 and revenues received from such levy must be shared, on a proportionate basis, with charter schools in the District. See "AD VALOREM TAXATION – Millage Set by Local Governing Body" herein. See also, "LITIGATION" herein for information regarding a recently settled dispute with charter schools in the District relating to the sharing of revenues from the initial levy of this millage from Fiscal Years 2019-20 to 2022-23. In addition, the District levies a debt service millage each year for payment of its general obligation bonds. See "FINANCIAL RESULTS AND LIABILITIES OF THE DISTRICT – Long Term Debt – General Obligation Debt" herein.

[Remainder of page intentionally left blank**]**

The following table sets forth the District's operating millage levies for Fiscal Year 2025-26:

Operating Millage	District Levy	Description	Max
Required Local Effort	3.053 mills	Each school district desiring to participate in the State's allocation of FEFP funds for current operations must levy a non-voted millage rate that is determined annually by the State Legislature	3.053 mills
Prior Period RLE Adjustment	0.019 mills	Non-voted; not to exceed amount established annually by the State	0.019 mills
Current Operating Discretionary Millage	0.748 mills	Non-voted; not to exceed amount established annually by the Legislature	0.748 mills
Additional Operating Millage (Voter Approved)	1.000 mills	School boards may, upon approval by voters in a local referendum or general election, levy an additional millage for operating needs up to an amount that when combined with the non-voted millage does not exceed 10 mills. Such levy shall be for a maximum of four years.	1.000 mills
Debt Service Millage (Voter Approved)	0.1645 mills	Voted millage, without limitation, to pay debt service on the District's general obligation bonds	0.1645 mills

Budgeted revenues from ad valorem taxes are based on applying millage levies to ninety-six percent (96%) of the non-exempt assessed valuation of real and personal property within the County. Ad valorem tax revenue collections for operating levies for Fiscal Year 2023-24 were $1,427.4 million, were $1,506.0 million for Fiscal Year 2024-25 and budgeted revenues for Fiscal Year 2025-26 are $1,606.4 million.

Federal Sources

The District receives certain federal monies, both directly and through the State, substantially all of which are restricted for specific programs. Direct federal revenue sources were approximately $2.6 million in Fiscal Year 2023-24, $2.5 million in Fiscal Year 2024-25 and are budgeted to be $2.0 million in Fiscal Year 2025-26. Federal funds through the State totaled $12.4 million in Fiscal Year 2023-24, were $10.6 million in Fiscal Year 2024-25 and are budgeted to be $12.0 million in Fiscal Year 2025-26.

AVAILABLE REVENUES FOR CAPITAL OUTLAY PROJECTS

The School Board derives its revenues for capital outlay projects from certain State and local sources. The major categories of these revenue sources are briefly described below.

State Sources

PECO. One source of state educational funding contributions to the District's capital outlay requirements is the Florida Public Education Capital Outlay Program ("PECO"). The method of allocation of funds to the district school boards is provided by state law based upon a statutory formula, components of which are the number of students in various districts and the proposed uses of the funds by the various districts. The Commissioner of Education administers the PECO program and allocates or reallocates funds as authorized by law. In recent years, PECO funds have been almost exclusively allocated to charter schools in the State. The District did not receive any non-charter school PECO funds in Fiscal Years 2023-24 or 2024-25 and is not budgeted to receive any non-charter school PECO funds in Fiscal Year 2025-26.

C.O. and D.S. Funds. The District receives a portion of the revenues generated by the State from the sale and renewal of motor vehicle licenses. The distributed revenues are designated as capital outlay and debt service ("CO&DS") funds. CO&DS funds can be used by the District to make Lease Payments, but only if the facilities being lease purchased appear on the project priority list approved by the State Board of Education. None of the Refinanced Facilities appear on the project priority list. The District received $10.9 million of CO&DS funds Fiscal Year 2023-24, $11.2 million for Fiscal Year 2024-25 and is budgeted to receive $10.6 million in CO&DS funds for Fiscal Year 2025-26.

Capital Outlay Bonds. The State of Florida Board of Education Capital Outlay Bonds are serviced entirely by the State using a portion of the District's share of revenue derived from automobile registrations. The annual sinking fund requirements are determined by the State Board of Administration and amounts necessary to retire bonds and pay interest are withheld from amounts due to the District. See "FINANCIAL RESULTS AND LIABILITIES OF THE DISTRICT – Long Term Debt" herein.

Local Sources

Educational Impact Fees. The County has enacted a County-wide educational impact fee program, which imposes educational impact fees on all new residential construction occurring in the County. Revenues generated through educational impact fee levies are deposited into an educational impact fee trust account and must be used solely for the purpose of providing growth-necessitated capital improvements to educational plants and ancillary plants of the District's school system which have been approved by the School Board in its capital budget consistent with the District's school plant survey filed with the Florida Department of Education. Impact fees may only be used to pay for facilities in the service area where the impact fees were collected.

Such revenues are also available to, but not pledged for, the payment of debt service on obligations of the District (including without limitation, lease purchase obligations), the proceeds of which are used to finance the acquisition and construction of qualifying educational and ancillary plants.

The educational impact fees are subject to revision and repeal by the Board of County Commissioners of the County. Further, various bills have been introduced in the Florida Legislature over the past several years that would eliminate the ability of certain governmental entities, including the County or the District, to levy impact fees for the construction or remodeling of educational facilities. To date, such bills have not been passed. However, there can be no assurance that future legislation will not be introduced and enacted that restricts, or eliminates, the District's ability to receive such impact fees.

The following table sets forth the educational impact fee revenues received by the School Board during the last five fiscal years of the District.

Source: Annual Comprehensive Financial Report of The School Board of Broward County, Florida for the Fiscal Year Ended June 30, 2025.

The District budgeted impact fee revenues of approximately $8.0 million for Fiscal Year 2025-26. There can be no assurance that impact fee revenues will be available to the District in the future, as impact fee rates, as well as their levy, are subject to the discretion of the Board of County Commissioners of the County. In addition, revenue collections will also vary depending on the rate at which the impact fees are imposed, the categories of building on which they are imposed and the rate of building in the County, all of which are outside the control of the School Board. The table set forth above does not, therefore, provide a reliable indication of the amount of revenues the School Board can expect to receive in future years from the levy of educational impact fees, nor does it indicate the amount of educational impact fees, if any, available to pay debt service on the Series 2026A Certificates. See "APPENDIX A – INFORMATION CONCERNING BROWARD COUNTY, FLORIDA – Building Permits" hereto.

Local Option Millage Levy. Local revenue for school district support is derived primarily from real and tangible personal property taxes. See also "AD VALOREM TAXATION" herein.

In addition to the millage levies for operating purposes, school boards may levy non-voted millage (the "Local Option Millage Levy") for capital outlay and maintenance purposes, pursuant to Section 1011.71(2), Florida Statutes. Revenues from the Local Option Millage Levy may be used to fund new construction and remodeling projects; maintenance, renovation and repair of existing school plants; purchase, lease-purchase or lease of school buses; purchase, lease-purchase or lease of new and replacement equipment and computer hardware and certain operating software; payment of costs directly related to compliance with state and federal environmental laws;

payment of leasing relocatable educational facilities; payment of the cost of the opening day collection for the library media center of a new school; certain sick or annual leave accrued payments for former employees that transfer to charter schools; payments under lease purchase agreements and certain short-term loans. Currently, the maximum amount of Local Option Millage Levy may be up to 1.50 mills. In the event that revenues generated from the Local Option Millage Levy are insufficient to make payments under a lease-purchase agreement entered into prior to June 30, 2008, an amount equal to the revenue generated from 0.50 mills of the operating levy may be used to make such Lease Payments. Additionally, if the revenue from 1.50 mills is insufficient to make payments under a lease-purchase agreement entered into prior to June 30, 2009 or to meet other critical capital needs, a school board may elect to levy up to 0.25 mills for capital purposes in lieu of a like amount of discretionary operating millage. Prior to July 1, 2012, payments from this millage for lease purchase agreements for educational facilities and sites were not permitted to exceed three-fourths of the proceeds of the Local Option Millage Levy. However, effective July 1, 2012, the three-fourths limitation was waived for lease-purchase agreements originally entered into prior to June 30, 2009. **The Local Option Millage Levy is the School Board's primary source of payment of Basic Lease Payments. The School Board is not required to levy any millage for capital outlay purposes in the future. Since revenues from the levy of the Local Option Millage Levy may be used for, but not pledged to, the payment of Lease Payments under the Leases, the failure of the School Board to levy all of the Local Option Millage Levy would have an adverse effect on Available Revenues from which the School Board may appropriate to make Lease Payments.** See "RECENT GOVERNMENTAL ACTIONS AND OTHER EVENTS AFFECTING DISTRICT REVENUES – Distribution of Capital Outlay Funds to Charter Schools" herein.

The following table sets forth the District's capital outlay levies for Fiscal Year 2024-25:

Capital Outlay Millage	District Levy	Description	Max
Local Option Millage	1.50 mills	Non-voted millage for capital outlay and maintenance purposes.	1.50 mills
Capital Outlay Discretionary Millage	0.00 mills	If revenue from the Local Option Millage is insufficient to make payments due under a lease purchase agreement entered into prior to June 30, 2009, or to meet other critical school district fixed capital outlay needs, a school board may levy up to an additional 0.25 mills of Local Option Millage Levy in addition to the 1.50 mills, in lieu of levying an equivalent amount of the discretionary mills for operations (i.e., Current Operating Discretionary Millage).	0.25 mills

Local Option Millage Levy revenues for Fiscal Year 2023-24 were $434.7 million, for Fiscal Year 2024-25 were $469.5 million and budgeted revenues for Fiscal Year 2025-26 are $499.9 million.

Sharing of Local Option Millage with Charter Schools. On May 1, 2023, CS/CS/HB 1259 ("HB 1259") was signed into law by Florida Governor Ron DeSantis. HB 1259 modifies the provisions of Section 1013.62, Florida Statutes, relating to Local Option Millage Levy revenues that are required to be shared with eligible charter schools in each school district in the State. HB 1259 removes a previously existing State funding threshold for purposes of determining whether Local Option Millage revenues must be shared with eligible charter schools in a school district and establishes a five-year glide path of local sharing of Local Option Millage revenues between each school district in the State and eligible charter schools therein. The calculation methodology set forth in HB 1259 first reduces a school district's available Local Option Millage Levy revenues by the school district's annual debt service for obligations incurred as of March 1, 2017, which are being satisfied by Local Option Millage Levy revenues and which have not been subsequently retired. The remaining Local Option Millage Levy revenues are then divided by the sum of (a) the school district's capital outlay FTE students and (b) the total number of FTE students at eligible charter schools in the school district to determine a capital outlay allocation per FTE student. Next, such capital outlay allocation per FTE student is multiplied by the total number of FTE students at each eligible charter school in the school district to determine a capital outlay allocation for each charter school in the school district. Next, if applicable, the capital outlay allocation to each charter school is reduced by the total amount of State funds allocated to each charter school in the school district thereby reducing the amount of Local Option Millage Levy revenues required to be shared by the school district. The remaining amount, if any, is the amount the school district must share with eligible charter schools in the school district in such year. However, the legislation provides for a five-year phase in for such amounts so that the amount to be paid by the school district for each year pursuant to the above-described methodology was multiplied by 20% for Fiscal 2023-24, and increases by 20% each year until Fiscal Year 2027-28 at which time it would equal 100% of the amount described in the preceding sentence. HB 1259 took effect on July 1, 2023. These provisions of HB 1259 are expected to reduce the amount of Local Option Millage Levy revenues available to the School Board to make Basic Lease Payments on the Series 2026A Certificates and the Prior Certificates. For Fiscal Year 2025-26, the District is required to share approximately $24.7 million in Local Option Millage Levy revenues with eligible charter schools in the District. Such amount is projected to increase to approximately $64.5 million by Fiscal Year 2029-30. However, the School Board does not expect any such reduction to adversely impact its ability to make Basic Lease Payments under the Master Lease in future years.

The following table sets forth the millage levy that would provide 1.00x coverage of the maximum annual Basic Lease Payments represented by the Prior Certificates and the Series 2026A Certificates based on current law, assuming a 96% collection of the taxes levied:

(2) Assumes the Prior Certificates have the financial arrangements, assumptions and accounting practices described in footnotes under "CERTIFICATE PAYMENT SCHEDULE I FOR PRIOR CERTIFICATES" and "CERTIFICATE PAYMENT SCHEDULE II FOR PRIOR CERTIFICATES," which, among other things, assumes the refunding of the Refunded Certificates and takes into account the expected interest subsidies with respect to Direct-Pay Bonds (as defined herein). Also assumes the Series 2026A Certificates are issued in the aggregate principal amount of **[**PAR AMOUNT**]**, with a true interest cost of ___% and a final maturity of July 1, 2033. In addition to the maximum annual payments represented by the Prior Certificates and the Series 2026A Certificates, the District also uses a maximum of approximately **[**0.___**]** mills to make debt service payments on the outstanding balance of its lease purchase agreements outside of the Master Lease, $**[**_____**]** principal amount of which is presently outstanding. These leases are not part of the Master Lease and, in the opinion of Co-Special Tax Counsel, are not included for purposes of calculating the maximum amount of lease payments which can be paid from Local Option Millage Levy revenues. See "FINANCIAL RESULTS AND LIABILITIES OF THE DISTRICT – Obligations under Unrelated Lease Purchase Agreements."

(3) During the 2012 regular session of the Florida legislature, legislation was enacted which waives the 75% limitation on use of the Local Option Millage revenues for lease-purchase agreements originally entered into prior to June 30, 2009. Such legislation became effective on July 1, 2012. See "AD VALOREM TAXATION – Millage Rates" herein. Following the effective date of such legislation, only the Lease Payments with respect to Leases originally entered into after June 30, 2009 are subject to the 75% limitation. Accordingly, as of the date of this Offering Statement, only the Lease Payments related to the Series 2010A Lease, the Series 2020A Leases and the Series 2022B Leases would be subject to such limitation.

(5) Data provided by the Florida Department of Education.

(6) Based on requirements of HB 1259. This figure reflects the amount shared with eligible charter schools in Fiscal Year 2025-26; however, such distributions are phased in over five years so the amount for Fiscal Year 2024-25 is 60% of the $_____ difference between the Estimated Total Allocation of Local Option Millage Levy to Eligible District Charter Schools and Total Amount of State Charter School Capital Outlay Funding Allocated to Eligible District Charter Schools set forth above. At this time, the amount of the Local Option Millage Levy revenues to be shared with eligible charter schools in future years cannot be determined because the amount of State Charter School Capital Outlay Funding, number of eligible charter schools and charter school enrollment are unknown. See "AVAILABLE REVENUES FOR CAPITAL OUTLAY PROJECTS – Local Sources – Local Option Millage Levy" herein.

DISTRICT EDUCATIONAL FACILITIES PLAN

Section 1013.35, Florida Statutes, requires the development of a continuous five-year District Educational Facilities Plan or DEFP. In each year, the DEFP is reviewed and revised as necessary to reflect the District's long range capital construction program, changes to the capital construction program resulting from student enrollment changes, and improvements and additions to school and non-school sites. An annual update of the DEFP provides, upon approval by the School Board, a continuous five-year program. The most recent annual update of the DEFP was approved by the School Board on September 3, 2025 and provides for a facilities plan totaling approximately $3.9 billion over the next five-year period ending June 30, 2030.

The DEFP is funded from Federal, State and local revenue sources, as well as certificates of participation issued pursuant to the District's master lease program and general obligation bonds. In previous years, the District was faced with significant declines in capital outlay revenues, which had a major impact on the District's ability to fund the DEFP. Recent and projected increases in the Local Option Millage Levy revenues have helped the District undertake a portion of the deferred maintenance and invest in classroom technology equipment and school buses. Additionally, proceeds of the District's approved new money general obligation bonds provided the funding necessary to meet the most critical life-safety, technology and facility needs. There has also been significant investment into music and arts programs as a result of the overall Safety, Music & Arts, Athletics, Renovation, and Technology (SMART) initiative.

The DEFP is based on an analysis of funding initiatives selected because they have a high impact on the District's Strategic Plan Goals and a high potential for favorable operational results. Before implementing the SMART initiative, the District conducted an independent needs assessment of all schools and facilities. The needs assessment provided an objective status of the physical and educational adequacy of the District's schools and administrative sites. This information forms the basis of current and future capital planning efforts. The most critical priorities are identified by the needs assessment and will address safety and security, repairs and renovations, and technology and technology infrastructure. **[**However, many of the projects funded as part of the SMART initiative encountered construction problems, delays and cost overruns. To date, substantial progress has been made across various sectors of the SMART initiative, including technology, safety, athletics and renovations, although some renovation projects are still to be completed. Recently, the Superintendent declared an emergency circumstance regarding construction management of the District's DEFP, which allowed the District to continue using the services of its current construction manager until a new competitive procurement process can be completed for the next construction manager. The prior competitive bidding process resulted in the rejection of all bids due to concerns regarding potential non-compliance with District policies and State law.**]** The DEFP also uses student enrollment projections for the five years 2025-2026 through 2029-2030 to provide a basis for determining capital needs throughout this period. The following table provides historical information relating to student enrollment in the District and projections for such enrollment. The current enrollment projections are compared to the annual benchmark day figures for the 2024-2025 school year.

(1) The District historically does not provide projected enrollment for pre-kindergarten and centers. The annual benchmark day enrollment for these programs/schools is carried forward into future year projections, resulting in no enrollment gains or losses.

Source: School District of Broward County, Florida - Demographics & Enrollment Planning Department as of November 2025.

Total District enrollment is projected to decrease by 28,170 students, including those in centers and charter schools by the 2030-2031 school year. Based on current demographic data, the District projects that elementary enrollment in District-owned facilities will decrease over the next five years by 10,845 students, middle school enrollment will decrease by 5,523 students and high school enrollment will decrease by 9,383 students.

Enrollment in charter schools is 48,820 in 86 charter schools for school year 2025-2026. When new charter schools open, their enrollment is drawn from the traditional public schools. Therefore, the enrollment for charter schools increases while the enrollment at traditional schools decreases. Since charter schools are considered public schools, their enrollment is, however, included in the District's total enrollment. Charter school enrollment is projected to decrease over the next five years by 2,419.

Legislation passed by the Florida Legislature has resulted in an increase in charter schools and charter school enrollment. Charter schools qualifying as "high-performing" are able to increase enrollment, add grade levels, extend their charter terms and even expand into other districts, with fewer restrictions. Local governing authorities' ability to control development criteria for charter schools has been reduced. The impact of this legislation continues to affect charter school enrollment, therefore, the resulting impact on traditional public school enrollment cannot be determined at this time. See also, "RECENT GOVERNMENTAL ACTIONS AND OTHER EVENTS AFFECTING DISTRICT REVENUES – Schools of Hope" herein.

All projections of the District as to student enrollment are based upon estimates and assumptions made by the District, and although considered reasonable by the District utilizing

historical data, are inherently uncertain and subject to significant business, economic and competitive uncertainties and contingencies. The outcome of such factors is difficult to predict and many of such factors are beyond the control of the District. As a result, there can be no assurance that such enrollment rates will occur or be realized as projected.

AD VALOREM TAXATION

The following information is provided in view of the fact that a large portion of the Board's revenues are derived from ad valorem taxation.

Property Assessment and County Property Appraiser

General. Ad valorem taxes may be levied only by counties, school districts, municipalities, and certain special districts (railroad properties are centrally assessed at the State level). No State ad valorem taxes shall be levied upon real estate or tangible personal property. State law requires that all ad valorem taxation be assessed at a uniform rate within each taxing unit and, with certain exceptions, that real and personal property subject to ad valorem taxation be assessed at 100% of its just value. See "– Limitation on Increase in Assessed Value of Property" below. The following property is generally subject to taxation in the manner provided by law: (a) all real and personal property in the State and all personal property belonging to persons residing in the State; and (b) all leasehold interests in property of the United States, of the State, or any political subdivision, municipality, agency, authority, or other public body corporate of the State. Pursuant to the Constitution of the State of Florida and State law, certain of such property may be exempt from ad valorem taxation. See "– Exemptions from Ad Valorem Taxation" below.

Determination of Property Valuation. The Property Appraiser of the County (the "Property Appraiser") determines property valuation on real and tangible personal property subject to ad valorem taxation as of January 1 of each year. By July 1 of each year, the Property Appraiser notifies the County, the School Board, each municipality within the County, and each other legally constituted special taxing district within the County as to its just valuation, the legal adjustments and exemptions, and the taxable valuation. The taxable valuation is then used by each taxing body to calculate its ad valorem millage for the budget year. See "– Limitation on Increase in Assessed Value of Property" and "– Millage Set by Local Governing Body" below for limitations on increases in assessed value of property.

Limitation on Increase in Assessed Value of Property. The Constitution of the State of Florida limits the increases in assessed value of homestead property to the lower of (a) 3% of the assessment for the prior year or (b) the percentage change in the Consumer Price Index for all urban consumers, U.S. City Average, all items 1967=100, or successor reports for the preceding calendar year as initially reported by the United States Department of Labor, Bureau of Labor Statistics. The accumulated difference between the assessed value and the just (market) value is known as the "Save Our Homes Benefit." Further, upon any change of ownership of homestead property or termination of homestead status such property shall be reassessed at just value as of January 1 of the year following the year of sale or change of status; new homestead property shall be assessed at just value as of January 1 of the year following the establishment of the homestead;

and changes, additions, reductions or improvements to the homestead shall initially be assessed as provided for by general law.

Owners of homestead property may transfer up to $500,000 of their Save Our Homes Benefit to a new homestead property purchased within three years of the sale of their previous homestead property to which such benefit applied if the just value of the new homestead is greater than or is equal to the just value of the prior homestead. If the just value of the new homestead is less than the just value of the prior homestead, then owners of homestead property may transfer a proportional amount of their Save Our Homes Benefit, such proportional amount equaling the just value of the new homestead divided by the just value of the prior homestead multiplied by the assessed value of the prior homestead.

For all levies other than school district levies, assessment increases for specified non-homestead real property may not exceed 10% of the assessment for the prior year. See also "- Legislation Relating to Ad Valorem Taxation – Recent Amendments Relating to Ad Valorem Taxation" below.

Preparation of Tax Roll. The Property Appraiser applies the final certified millage of each taxing body to the assessed valuation on each item of real and tangible personal property, and prepares the final tax roll which is certified to the Tax Collector of the County (the "Tax Collector") by October 1. This permits the printing of tax bills for delivery on November 1 of each year. The tax bills contain all of the overlapping and underlying millages set by the various taxing bodies. All ad valorem taxes are collected by the Tax Collector and distributed to the various taxing bodies. See "– Tax Collection and Distribution by County Tax Collector" below.

Appealing Property Valuation. Concurrently with notification to the various taxing bodies, the Property Appraiser notifies each property owner of the proposed valuation and the proposed millage on his or her property. If the individual property owner believes that his or her property has not been appraised at just value, the owner may (a) request an informal conference with the Property Appraiser to resolve the issue, (b) file a petition with the clerk of the County value adjustment board (the "Adjustment Board"), or (c) appeal to the Circuit Court within 60 days of the certification for collection of the tax roll or within 60 days of the issuance of a final decision by the Adjustment Board. A petition to the Adjustment Board must be signed by the taxpayer or be accompanied at the time of filing by the taxpayer's written authorization for representation by a qualified person. Property owners appealing the assessed value or assigned classification of their property must make a required partial payment of taxes (generally equal to 75% of the ad valorem taxes due, less the applicable statutory discount, if any) with respect to the properties that will have a petition pending on or after the delinquency date (normally April 1). A property owner's failure to make the required partial payment before the delinquency date will result in the denial of the property owner's petition. A taxpayer receives notice of the hearing and is required to provide the Property Appraiser with a list of evidence, copies of documentation, and summaries of testimony prior to the hearing before the Adjustment Board. The Adjustment Board holds public hearings on such petitions and may make adjustments to the valuations made by the Property Appraiser if such valuations are found not to be fair and at market value. The Adjustment Board must complete all required hearings and certify its decision with regard to all petitions and certify to the Property Appraiser the valuation to be used by June 1 following the tax year in which the assessments were made. The June 1 requirement shall be extended until December 1 in each year in which the

number of petitions filed with the Adjustment Board increased by more than 10% over the previous year. These changes are then made to the final tax roll.

Millage Set by Local Governing Body

General. The Constitution of the State of Florida provides that ad valorem taxes shall not be levied in excess of the following millages upon the assessed value of real estate and tangible personal property: for all county purposes, ten mills; for all municipal purposes, ten mills; for all school purposes, ten mills; for water management purposes for the northwest portion of the state lying west of the line between ranges two and three east, 0.05 mill; for water management purposes for the remaining portions of the state, 1.0 mill; and for all other special districts a millage authorized by law approved by voters. With respect to schools, the millage limitation does not apply to taxes approved at referendum by qualified electors in the County for general obligation bonds and certain other short-term, voter approved levies.

As described above, the Property Appraiser is required to certify to each taxing authority the aggregate taxable value of all non-exempt property within the jurisdiction of the taxing authority, as well as the prior year's tax revenues, for use in connection with the determination of the forthcoming budget and millage levy. The form on which such certification is made by the Property Appraiser is required to include instructions to each taxing authority describing the proper method of computing a millage rate, which, exclusive of new construction, additions to structures, deletions and property added due to geographic boundary changes, will provide the same ad valorem tax revenues for each taxing authority as was levied during the prior fiscal year. See "Millage Rollback Legislation" below.

Each respective millage rate, except as limited by law, is set on the basis of estimates of revenue needs and the total taxable property valuation within the taxing authority's respective jurisdiction. Ad valorem taxes are not levied in excess of actual budget requirements. State law requires the Board to adopt and maintain a balanced tentative budget and a balanced final budget, in which anticipated revenues less certain required deductions combined with beginning fund balances equal appropriations. The Board is required to advertise its intent to adopt a tentative budget, including a capital outlay budget, within 29 days following receipt from the Property Appraiser of the preliminary certification of taxable value. The Board holds a public hearing on the tentative budget and the proposed tax rates within five days of its advertisement, and officially adopts the tentative budget and tax rates at the hearing. Thereafter, the Property Appraiser prepares tax millage notices for property owners within the District. The final budget and tax rate are fixed in September of each year, following a final public hearing and in accordance with statutory timelines. The Superintendent is responsible for preparing the preliminary and tentative budgets for recommendation to the School Board. Generally, the final budget is substantially the same as the tentative budget since the School Board's hiring plans and materials purchases have been determined before the final Budget is adopted. The School Board adopted the final budget for Fiscal Year 2025-26 on September 9, 2025.

Millage Rollback Legislation. In 2007, the Florida Legislature adopted a property tax plan that significantly impacted ad valorem tax collections for State local governments (the "Millage Rollback Legislation"). One component of the Millage Rollback Legislation required counties, cities, and special districts to rollback their millage rates for the Fiscal Year 2007-08 to a level that, with certain adjustments and exceptions, would generate the same level of ad valorem tax revenue as in Fiscal Year 2006-07; provided, however, depending upon the relative growth of each local government's own ad valorem tax revenues from 2001 to 2006, such rolled back millage rates were determined after first reducing 2006-07 ad valorem tax revenues by 0% to 9%. In addition, the Rollback Legislation also limited how much the aggregate amount of ad valorem tax revenues may increase in future fiscal years. A local government may override certain portions of these requirements by a supermajority, and for certain requirements, a unanimous vote of its governing body. School districts are not required to comply with the particular provisions of the Millage Rollback Legislation relating to limitations on increases in future years.

Tax Collection and Distribution by Tax Collector

General. All real and tangible personal property taxes are based on assessed values as certified and delivered to the Tax Collector by the Property Appraiser as described above. The Tax Collector mails to each property owner on the tax roll a tax bill for the taxes levied by the various taxing authorities in the County. Taxes may be paid upon receipt of such bill with discounts at the rate of 4% if paid in the month of November, 3% if paid in the month of December, 2% if paid in the month of January, and 1% if paid in the month of February. Taxes paid during the month of March are without discount. Because of the discount in ad valorem taxes for payments made prior to March 1, taxes collected will likely never be 100% of the tax levy.

The Tax Collector is required to distribute the taxes collected to each governmental unit levying the tax. Such distribution is to be made four times during the first two months after the tax roll comes into its possession, and once per month thereafter.

Delinquent Taxes. All unpaid taxes on real and tangible property become delinquent on April 1 of the year following the year in which the taxes were levied. Delinquent real property taxes bear interest at the rate of 18% per year from April 1 until paid, or until payment is no longer required or until a tax certificate is sold at auction (from which time the interest rate shall be as bid by the buyer of the tax certificate). Delinquent tangible personal property taxes also bear interest at the rate of 18% per year from April 1 until paid. Delinquent personal property taxes must be advertised within 45 days after delinquency, and after May 1, the property is subject to warrant, levy, seizure and sale.

Tax Certificates and Tax Deeds. On or before June 1 or the 60th day after the date of delinquency, whichever is later, the Tax Collector must advertise once each week for three weeks and must sell tax certificates on all real property that is the subject of delinquent taxes. The tax certificates are sold to those bidding the lowest interest rate. Such certificates include the amount of delinquent taxes, the penalty interest accrued thereon and the cost of advertising. Delinquent tax certificates not sold at auction become the property of the County. State law provides that real property tax liens are superior to all other liens, except prior Internal Revenue Service liens.

To redeem a tax certificate, the owner of the property must pay all delinquent taxes, the penalty interest that accrued prior to the date of the sale of the tax certificate, charges incurred in connection with the sale of the tax certificate, omitted taxes, if any, and interest at the rate shown on the tax certificate (or interest at the rate of 5%, whichever is higher) from the date of the sale of the tax certificate to the date of redemption. If such tax certificates or liens are not redeemed by the property owner within two years, the holder of the tax certificates can cause the property to be sold to pay off the outstanding certificates and the interest thereon.

At any time after two years have elapsed since April 1 of the year of the issuance of a tax certificate and before the expiration of seven years, the holder of the tax certificate may apply for a tax deed with respect to any tax certificate it holds. Two years after such April 1, the County may make application for a tax deed with respect to any tax certificate it holds. Upon receipt of such applications, a public sale is advertised and held (unless the property is redeemed), and the highest bidder at such sale receives a tax deed for the property. Provisions are also made for the collection of delinquent tangible personal property taxes, but in a different manner, which includes the possible seizure of the tangible personal property.

Exemptions from Ad Valorem Taxation

General. State law provides for numerous exemptions and limitations on ad valorem taxation of real property and tangible personal property. Real property used for the following purposes is generally exempt from ad valorem taxation: religious, educational, literary, charitable, scientific, and governmental uses. Certain additional exemptions and limitations are described below. This description does not purport to describe all exemptions available to property owners in the State, and reference is made to the Constitution of the State of Florida and Chapter 196, Florida Statutes, for a full description of such exemptions. In addition, State law allows for, but does not mandate, the imposition of some exemptions by local governments by ordinance. Certain recent amendments to existing provisions relating to ad valorem tax exemptions are described under "Legislation Relating to Ad Valorem Taxation – Recent Amendments Relating to Ad Valorem Taxation."

Constitutional Exemptions. The Constitution of the State of Florida provides for the following exemptions from ad valorem taxation:

Exempt Entities/Exempt Purposes. The Constitution of the State of Florida provides that all property owned by a municipality and used exclusively by it for municipal or public purposes shall be exempt from taxation. A municipality, owning property outside the municipality, may be required by general law to make payment to the taxing unit in which the property is located. Such portions of property as are used predominantly for educational, literary, scientific, religious or

charitable purposes (exempt purposes) may be exempted by general law from taxation. State law provides that all property owned by an exempt entity, including educational institutions, and used exclusively for exempt purposes shall be totally exempt from ad valorem taxation and all property owned by an exempt entity, including educational institutions, and used predominantly for exempt purposes (at least 50%) shall be exempted from ad valorem taxation to the extent of the ratio that such predominant use bears to the nonexempt use.

Household Goods and Personal Effects. The Constitution of the State of Florida provides that there shall be exempt from taxation, cumulatively, to every head of a family residing in the State, household goods and personal effects to the value fixed by general law, not less than $1,000 and to every widow or widower or person who is blind or totally and permanently disabled, property to the value fixed by general law not less than $500. State law exempts from taxation to every person residing and making his or her permanent home in the State, all household goods and personal effects and exempt property up to the value of $500 of every widow, widower, blind person, or totally and permanently disabled person who is a resident of the State.

Tangible Personal Property and Renewable Energy Devices. The Constitution of the State of Florida provides that by general law and subject to conditions specified therein, $25,000 of the assessed value of property subject to tangible personal property tax shall be exempt from ad valorem taxation. Effective January 1, 2018 through December 31, 2037, the assessed value of solar devices or renewable energy source devices subject to tangible personal property tax may be exempt from ad valorem taxation, subject to limitations provided by general law.

Property Dedicated In Perpetuity for Conservation. The Constitution of the State of Florida provides that there shall be granted an ad valorem tax exemption for certain real property dedicated in perpetuity for conservation purposes, including real property encumbered by perpetual conservation easements or by other perpetual conservation protections, as defined by general law.

Homestead Exemption. The Constitution of the State of Florida provides for a homestead exemption. Every person who has the legal title or beneficial title in equity to real property in the State and who resides thereon and in good faith makes the same his or her permanent residence or the permanent residence of others legally or naturally dependent upon such person is eligible to receive a homestead exemption of up to $50,000. The first $25,000 applies to all property taxes, including school district taxes. The additional exemption, up to $25,000, applicable to the assessed value of the property between $50,000 and $75,000, applies to all levies other than school district levies. A person who is receiving or claiming the benefit of an ad valorem tax exemption or a tax credit in another state where permanent residency, or residency of another legally or naturally dependent upon the owner, is required as a basis for the granting of that ad valorem tax exemption or tax credit is not entitled to the homestead exemption. In addition to the general homestead exemption described in this paragraph, the following additional homestead exemptions are authorized by State law.

Certain Active Duty Military and Veterans. A military veteran who was honorably discharged, is a resident of the State, and who is disabled to a degree of 10% or more because of injury or while serving during wartime may be entitled to a $5,000 reduction in the assessed value of his or her property. This exemption is not limited to homestead property. Under certain circumstances, the veteran's surviving spouse may be entitled to carry over these exemptions.

Permanently and Totally Disabled Veterans. A military veteran who is a resident of the State and was honorably discharged with a service-related total and permanent disability may be eligible for a total exemption from taxes on property they own and use as their homesteads. A similar exemption is available to disabled veterans confined to wheelchairs. Under certain circumstances, the veteran's surviving spouse may be entitled to carry over these exemptions.

Discounts for Disabled Veterans. Each veteran who is age 65 or older and is partially or totally permanently disabled may receive a discount on the assessed value of the property that the veteran owns and uses as a homestead. The discount is a percentage equal to the percentage of the veteran's permanent, service-connected disability as determined by the United States Veteran's Affairs.

Deployed Military Personnel. Each person who receives a homestead exemption; who was a member of the United States military or military reserves, the United States Coast Guard or its reserves, or the Florida National Guard; and who was deployed during the preceding calendar year on active duty outside the continental United States, Alaska, or Hawaii in support of military operations designated by the Florida Legislature shall receive an additional exemption equal to a percentage of the taxable value of his or her homestead property. The applicable percentage shall be calculated as the number of days during the preceding calendar year the person was deployed on active duty outside the continental United States, Alaska, or Hawaii in support of military operations designated by the legislature divided by the number of days in that year.

Exemption for Disabled First Responders. First responders who are totally and permanently disabled as a result of injuries sustained in the line of duty receive ad valorem tax relief on their homestead property. The amount of tax relief, to be defined by general law, can equal the total amount or a portion of the ad valorem tax otherwise owed on the homestead property. Florida defines first responders as law enforcement officers, correctional officers, firefighters, emergency medical technicians and paramedics.

Surviving Spouse of First Responders. Any real estate that is owned and used as a homestead by the surviving spouse of a first responder (law enforcement officer, correctional officer, firefighter, emergency medical technician or paramedic), who died in the line of duty may be granted a total exemption on homestead property if the first responder and his or her surviving spouse were permanent residents of the State on January 1 of the year in which the first responder died.

Certain Totally and Permanently Disabled Persons. Any real estate used and owned as a homestead by a quadriplegic, less any portion used for commercial purposes, is exempt from all ad valorem taxation. Real estate used and owned as a homestead by a paraplegic, hemiplegic, or other totally and permanently disabled person, who must use a wheelchair for mobility or who is legally blind, is exempt from taxation if the gross household income is below statutory limits.

Other Exemptions. Other exemptions include, but are not limited to, nonprofit homes for the aged (subject to income limits for residents), proprietary continuing care facilities, not for profit sewer water/wastewater systems, certain hospital facilities and nursing homes for special services, charter schools, certain historic property used for commercial purposes, and certain tangible personal property.

Legislation Relating to Ad Valorem Taxation

Recent Amendments Relating to Ad Valorem Taxation. In recent legislative sessions, several legislative proposals and proposed constitutional amendments were passed (and approved by voters in the case of constitutional amendments) affecting ad valorem taxation, including classification of agricultural lands during periods of eradication or quarantine, deleting requirements that conservation easements be renewed annually, providing that just value of real property shall be determined in the first tax year for income restricted persons age 65 or older who have maintained such property as their permanent residence for at least 25 years, authorizing a first responder who is totally and permanently disabled as a result of injuries sustained in the line of duty to receive relief from ad valorem taxes assessed on homestead property, revising procedures with respect to assessments, hearings and notifications by the value adjustment board, and revising the interest rate on unpaid ad valorem taxes.

Future Amendments Relating to Ad Valorem Taxation. Historically, various legislative proposals and constitutional amendments relating to ad valorem taxation have been introduced in each session of the Florida Legislature. Many of these proposals have provided for new or increased exemptions to ad valorem taxation and limited increases in assessed valuation of certain types of property or otherwise restricted the ability of local governments in the State to levy ad valorem taxes at current levels. There can be no assurance that similar or additional legislative or other proposals will not be introduced or enacted in the current 2026 legislative session or in the future that would have a material adverse effect upon the collection of ad valorem taxes by the District, the District's finances in general or the District's ad valorem taxing power.

[Select Committee on Property Taxes. On April 29, 2025, the Speaker of the Florida House of Representatives announced the creation of the Select Committee on Property Taxes (the "Select Committee") to consider various property tax reforms in the State. On May 2, 2025, the Select Committee convened for its first meeting to discuss five proposals regarding providing property tax relief, including (i) eliminating foreclosures on homestead properties due to property tax liens, (ii) requiring a referendum on eliminating property taxes on homestead properties, (iii) creating a $500,000 homestead exemption for non-school property taxes, which would increase to $1 million for residents age 65 and older or those who have had a homestead in the State for 30 years or more, (iv) authorizing the legislature to increase the homestead exemption to any value by general law, and (v) changing the caps on annual increases for homestead property. The Select Committee has held subsequent meetings since May, but has not formally recommended any proposals regarding property tax relief. Recommendations from the Select Committee are expected to be considered during the 2026 regular Florida legislative session and, if enacted, placed on the November 26 general election ballot, where they would need to be approved by 60% of the voters. Various bills seeking to reduce or eliminate property taxes have been filed in advance of the 2026 regular session of the Florida Legislature, which commences in January 2026. While the majority of the pre-filed bills do not seek to reduce or eliminate school district property taxes and only apply to non-school district levies, certain of the other pre-filed bills would apply to school district levies. Notwithstanding the foregoing, there can be no assurance that any such proposals, or similar or additional proposals, will not be introduced or enacted by the legislature or approved by the electors, if applicable, in the future that would or might apply to, or may have a material adverse effect upon, the District's finances in general or the District's ad valorem taxing power and the amount of ad valorem tax revenues collected by the District and the District's ability to make Basic

Lease Payments on the Series 2026A Certificates or the Prior Certificates.**]** See "SECURITY FOR THE SERIES 2026A CERTIFICATES" herein.

RECENT GOVERNMENTAL ACTIONS AND OTHER EVENTS AFFECTING DISTRICT REVENUES

General

During recent years and in the current 2026 legislative session, various other legislative proposals and constitutional amendments relating to ad valorem taxation and District revenues have been introduced in the State Legislature. Many of these proposals provide for new or increased exemptions to ad valorem taxation, limit increases in assessed valuation of certain types of property or otherwise restrict the ability of local governments in the State to levy ad valorem

taxes at recent, historical levels. Other proposals have sought to restrict the ability of local governments to use certain revenues for payment of debt service, to provide for additional procedures and notices to issue tax-supported debt or require certain local revenues be shared with charter schools in the school district. There can be no assurance that similar or additional legislative or other proposals will not be introduced or enacted in the future that would, or might apply to, or have a material adverse effect upon, the District or its finances.

Reference is also made to "AD VALOREM TAXATION – Exemptions from Ad Valorem Taxation" and "AD VALOREM TAXATION – Legislation Relating to Ad Valorem Taxation" herein for a discussion of recent amendments to the Florida Constitution and other legislation affecting ad valorem tax revenues.

Constitutional Amendments Relating to Class Size Reduction

Amendment 9 to the State Constitution required the State Legislature provide funding for sufficient classrooms so that class sizes were reduced to certain constitutional class size maximums by the beginning of the 2010 school year. Amendment 9 and Section 1003.03, Florida Statutes and Section 1013.735, Florida Statutes, relating to the implementation of Amendment 9 are referred to herein as the "Class Size Legislation."

The Class Size Legislation established constitutional class size maximums limiting students per class to no more than 18 for pre-kindergarten through 3rd grade, 22 for grades 4 through 8 and 25 for grades 9 through 12. Compliance is determined on a period-by-period basis. School districts not in compliance are required to submit to the Commissioner of Education a corrective action plan that describes specific actions the district will take in order to fully comply with the requirements by October of the following year.

The Class Size Legislation further created an "Operating Categorical Fund for Class Size Reduction," the "Classroom for Kids Program," the "District Effort Recognition Grant Program" and the "Class Size Reduction Lottery Revenue Bond Program" to provide funding for capital outlays and operating expenditures necessary in relation to these mandated class size reductions.

The Class Size Legislation requires each school board to consider implementing various policies and methods to meet these constitutional class sizes, including encouraging dual enrollment courses, encouraging the Florida Virtual School, maximizing instructional staff, reducing construction costs, using joint-use facilities, implementing alternative class scheduling, redrawing attendance zones, implementing evening and multiple sessions and implementing year-round and non-traditional calendars.

Through Fiscal Year 2009-10, the District complied with the requirements of the Class Size Legislation which was based on average class size at each school. Beginning in Fiscal Year 2010-11, the requirements were based on the number of students in each individual classroom and subsequently, schools that provided choice (e.g., charter, magnet, career and technical, etc.) continued to be required to meet average class size at each school. Including charter schools, the District was at 100% compliance with class size requirements for Fiscal Year 2025-26.

Legislative Changes Relating to School Choice

During the State Legislature's 2016 Regular Session, the Florida Legislature enacted House Bill 7029 ("HB 7029"). Among other things, a parent whose child is not subject to a current expulsion or suspension order may seek enrollment in and transport his or her child to any public school in the State, including a charter school, which has not reached capacity. The school district or charter school is required to accept and report the student for purposes of funding through the FEFP. The school district or charter school may provide student transportation at their discretion. HB 7029 requires the capacity determinations of each school district and charter school to be current and identified on their respective school websites. Each school must provide preferential treatment in its controlled open enrollment process to: (1) dependent children of active duty military personnel who moved as a result of military orders, (2) children relocated due to foster care placement in a different school zone, (3) children relocated due to a court ordered change in custody as a result of separation or divorce, or the serious illness or death of a parent, and (4) students residing in the school district. Students residing in the school district may not be displaced by a student from another school district. A student who transfers may remain at the school until the student completes the highest grade level offered. This amendment took effect with the 2017-2018 school year. At present, the impact of the school choice provisions of HB 7029 on the District's finances has been minimal.

House Bill No. 7045 ("HB 7045") was passed during the 2021 Florida legislative session and signed into law by the Governor. HB 7045 merged the State's school choice programs for certain disabled students and expanded eligibility for school voucher programs for low- and middle-income students and students subject to harassment, consolidated existing school-choice programs, increased the amount of State funding for the consolidated school-choice programs to $200 million and allowed the use of scholarship funds for private school tuition and other expenses such as tutoring, computers, and internet access.

HB 1, which significantly expanded the eligibility criteria of the State's school voucher programs, was signed into law by Florida Governor Ron DeSantis on March 27, 2023. HB 1, among other things, expanded eligibility for the Florida Tax Credit Scholarship Program and the Family Empowerment Scholarship Program to any student that is a resident of Florida and is eligible to enroll in kindergarten through grade 12 in a public school. The Family Empowerment Scholarship Program is divided into three programs, the Family Empowerment Scholarship for students attending private schools (the "FES-EO"), the Family Empowerment Scholarship for students with disabilities (the "FES-UA") and the Hope Scholarship Program. HB 1 significantly increased the number of Florida Tax Credit Scholarships that may be awarded each year, and then removes the limits beginning in 2027-28. HB 1, in combination with House Bill 3C which was signed into law and became effective on November 3, 2023, removed the existing limits on the number of FES-EO scholarships that may be given each year. HB 1 also provided that the amount of the Family Empowerment Scholarship is equal to 100% of the school district's FEFP funding per student, including most categorical grants. HB 1 authorized uses of scholarship funds include, among other authorized expenses, tuition and fees for a student to attend eligible private schools. HB 1 took effect on July 1, 2023. House Bill 1403 ("HB 1403") was passed during the 2024 regular Florida legislative session and, among other things, expands eligibility for the Florida Tax Credit Scholarship Program and the Family Empowerment Scholarship Program to include the dependent children of active duty members of the United States Armed Forces who meet certain residency

requirements, increases the FES-UA cap from three percent to five percent and repeals the scholarship funding portion of the Hope Scholarship Program. HB 1403 took effect on July 1, 2024. The expansion of the school choice programs in the State could potentially lead to a substantial increase in the number of Florida Tax Credit Scholarships and/or Family Empowerment Scholarship recipients. The District has seen a significant number of eligible students in the District transition to private schools or other scholarship eligible programs, which has had an adverse impact on the District's finances. However, the District is taking steps to address the decline in student enrollment by consolidating schools and decreasing employees to an appropriate number based on such reduced student enrollment. See "THE SCHOOL BOARD AND THE DISTRICT – School Facilities Reorganization Plan" and "RISK FACTORS – State Revenues" herein.

Distribution of Capital Outlay Funds to Charter Schools

On May 1, 2023, CS/CS/HB 1259 ("HB 1259") was signed by the Florida Governor Ron DeSantis. HB 1259 modifies the provisions of Section 1013.62, Florida Statutes, relating to Local Option Millage Levy revenues that are required to be shared with eligible charter schools in each school district in the State. HB 1259 removes a previously existing State funding threshold for purposes of determining whether Local Option Millage Levy revenues must be shared with eligible charter schools in a school district and establishes a five-year glide path of local sharing of Local Option Millage Levy revenues between each school district in the State and eligible charter schools therein. The calculation methodology set forth in HB 1259 first reduces a school district's available Local Option Millage Levy revenues by the school district's annual debt service for obligations incurred as of March 1, 2017, which are being satisfied by Local Option Millage Levy revenues and which have not been subsequently retired. The remaining Local Option Millage Levy revenues are then divided by the sum of (a) the school district's capital outlay FTE students and (b) the total number of FTE students at eligible charter schools in the school district to determine a capital outlay allocation per FTE student. Next, such capital outlay allocation per FTE student is multiplied by the total number of FTE students at each eligible charter school in the school district to determine a capital outlay allocation for each charter school in the school district. Next, if applicable, the capital outlay allocation to each charter school is reduced by the total amount of State funds allocated to each charter school in the school district thereby reducing the amount of Local Option Millage Levy revenues required to be shared by the school district. The remaining amount, if any, is the amount the school district must share with eligible charter schools in the school district in such year. However, the legislation provides for a five-year phase in for such amounts so that the amount to be paid by the school district for each year pursuant to the above-described methodology was multiplied by 20% for Fiscal 2023-24, and increases by 20% each year until Fiscal Year 2027-28 at which time it would equal 100% of the amount described in the preceding sentence. HB 1259 took effect on July 1, 2023. For the 2025-2026 Fiscal Year, the District is required to share approximately $24.7 million in Local Option Millage Levy revenues with eligible charter schools in the District. Such amount is projected to increase to approximately $64.5 million by Fiscal Year 2029-30. However, the School Board does not expect any reduction in Local Option Millage Levy revenues to adversely impact its ability to make Basic Lease Payments under the Master Lease in future years.

Schools of Hope

House Bill 7069 ("HB 7069"), as amended by HB 7070 in 2019, among other things, established the Schools of Hope Program to encourage traditional public schools within the State and charter operators throughout the country to replicate their model and service students from persistently low-performing schools and students who reside in a Florida Opportunity Zone (as defined therein). These provisions of HB 7069, now codified in Section 1002.333, Florida Statutes, provide for the establishment of Schools of Hope, which are charter schools operated by a Hope Operator to service students from one or more persistently low-performing schools; are located within a Florida Opportunity Zone or in the attendance zone of the persistently low-performing school or within a five mile radius of such school, whichever is greater; and is a Title I eligible school. Section 1002.333, Florida Statutes, defines "persistently low-performing schools" as schools that have earned three consecutive school grades below a "C" pursuant to Section 1008.34, Florida Statutes, in at least three of the previous five years and has not earned a school grade of "B" or higher in the most recent two school years, and a school that was closed pursuant to Section 1008.33(4), Florida Statutes, within two years of a notice of intent, and defines "Hope Operators" as nonprofit organizations that operate three or more charter schools with a record of serving students from low-income families and receives such designation from the Florida Department of Education. Pursuant to Section 1002.333, Florida Statutes, the statutory requirements for the application, approval, and contract that apply to charter schools do not apply to Schools of Hope; instead, a Hope Operator submits a notice of intent to a school district in order to open a School of Hope and the school district is required to enter into a performance based agreement with a Hope Operator within 60 days of receiving a notice of intent.

Section 1002.333, Florida Statutes, also (a) provides Schools of Hope with certain statutory authority, including, but not limited to, allowing a School of Hope to be designated as a local educational agency for the purposes of receiving federal funds; (b) provides that Schools of Hope are exempt from Chapters 1000-1013, Florida Statutes, and all school board policies, except any laws related to (i) the student assessment program and school grading system, (ii) student progression and graduation, (iii) provisions of services to students with disabilities, (iv) civil rights, (v) student health, safety, and welfare, (vi) public meetings, (vii) public records, and (viii) the code of ethics for public officers and employees.; (c) provides provisions for facilities for Schools of Hope; (d) provides provisions for funding Schools of Hope, including that they be funded in accordance with the statutory provisions relating to funding for charter schools and be considered a charter schools for purposes of charter school capital outlay; (e) establishes the School of Hope Program to cover specified operational expenses for Schools of Hope; and (f) establishes the Schools of Hope Revolving Loan Program to help Schools of Hope cover school building construction and startup costs.

On June 30, 2025, Senate Bill 2510 ("SB 2510") was signed into law by the Governor. SB 2510, among other things, modifies the provisions of Section 1002.333, Florida Statutes, relating to the requirements for the establishment of Schools of Hope including adding provisions allowing a school of hope to be located outside of a Florida Opportunity Zone or the attendance zone of the persistently low-performing school under certain circumstances, allowing a Hope Operator seeking to open a school of hope to submit an application to a state university or a Florida College System institution and enter an agreement with such state university of Florida College System institution, and allowing a school of hope to co-locate with another school in a public school

facility. The school district must permit any school of hope to use all or part of underused, vacant, or surplus school district facilities, and receive facility-related services at no cost. Students enrolled in the school of hope shall be included in the district's total capital outlay full-time equivalent membership for the purpose of Section 1013.62, Florida Statutes, and for calculating the Public Education Capital Outlay Maintenance finds or any other maintenance funds for the facility. To date, the District has received multiple notices from State-approved Schools of Hope operators seeking to use underused, vacant or surplus District facilities. None of the identified facilities are subject to the Master Lease Program. The District has denied all but one of these notices, citing material impracticability regarding the proposed use of the facilities. The sole notice not denied involves KIPP and William Dandy Middle School, which remains under active discussion. At this time, the District is unable to estimate the financial or operational impacts of any potential Schools of Hope co-location within District facilities.

The District currently has six schools identified as "persistently low-performing schools" under Section 1002.333, Florida Statutes.

Public Safety Mandate

In 2018, the Florida Legislature passed Senate Bill 7026 ("SB 7026") which, among other things, includes provisions designed to: enhance school safety policies, procedures, and personnel at the State and local level; improve and expand mental health services; and revise laws and empower law enforcement and the courts to limit access to firearms by young adults or by individuals exhibiting a risk of harming themselves or others. Specifically, SB 7026 requires each school board and superintendent to partner with law enforcement agencies to establish or assign one or more safe-school officers at each school facility within the district by implementing any combination of the following options: (a) establish school resource officer programs through cooperative agreements with law enforcement agencies; (b) commission one or more school safety officers for the protection and safety of school personnel, property, and students within the school district; and (c) at a school district's discretion, and if established by the sheriff's office, participate in the Guardian Program, which allows certain school employees (but not employees who exclusively perform classroom duties as classroom teachers) to carry a firearm on school grounds if such employee volunteers and completes the statutorily required training. During the 2019 Legislative session, the State Legislature passed CS/CS/SB 7030 ("SB 7030") which among other things, removes the prohibition on individuals who perform exclusively classroom duties as a teacher from participating in the Guardian Program. However, the decision to allow teachers to be armed guardians remains with each individual school board. In 2018, the School Board adopted a resolution which prohibits arming teachers in the District. The School Board intends to comply with SB 7026 and SB 7030 through school resource officers and/or the Guardian Program. The District's estimated cost of complying with the public safety mandates of SB 7026 and SB 7030 for Fiscal Year 2024-25 was approximately $20.1 million and is budgeted to be $19.7 million, net of charter schools, for Fiscal Year 2025-26.

In the wake of the Marjory Stoneman Douglas tragedy, the School Board hired the school safety & security non-profit organization SafeHavens, International ("SafeHavens") to assess the District security programs. Based on recommendations from SafeHavens as well as findings from the Marjory Stoneman Douglas High School Public Safety Commission, the District established an Office of Safety, Security and Emergency Preparedness in order to organize, centralize and

enhance safety and security functions within the District. Additionally, in the aftermath of the Marjory Stoneman Douglas tragedy, a statewide grand jury was convened by the Florida Supreme Court to focus largely on safety and security issues statewide. The grand jury has issued three interim reports that made various recommendations to state and local officials relating to improving, among other things, public safety and security in schools. The final grand jury report recommended the removal or suspension of certain School Board members who, in turn, were removed from the School Board by Florida Governor Ron DeSantis.

RISK FACTORS

Each purchaser of Series 2026A Certificates is subject to certain risks and each prospective purchaser of Series 2026A Certificates is encouraged to read this Offering Statement in its entirety. Particular attention should be given to the factors described below which, among others, could affect the market price of the Series 2026A Certificates to an extent that cannot be determined.

Annual Right of the School Board to Terminate the Transaction Leases

Although the School Board has determined that the Refinanced Facilities are necessary to its operations and currently intends to continue the Transaction Leases in force and effect for their respective maximum Lease Term and has covenanted in the Transaction Leases that the Superintendent will include a sufficient amount in the tentative budget to enable the School Board to make the Lease Payments due in each Fiscal Year, the School Board is not required to appropriate funds for Basic Lease Payments due in each Fiscal Year. If for any Fiscal Year the School Board does not approve a final budget which appropriates sufficient funds from legally available revenues in a line item specifically identified for payment of its obligations under the Transaction Leases or any other Leases, or if no final budget is adopted as of the last day upon which a final budget is required to have been adopted under Florida law for payment of its obligations under such Leases, the Master Lease shall terminate as of the date of adoption of the final official budget, or such last day, whichever is earlier.

THE LIKELIHOOD THAT THE TRANSACTION LEASES WILL BE TERMINATED AS THE RESULT OF AN EVENT OF NON-APPROPRIATION IS DEPENDENT UPON CERTAIN FACTORS THAT ARE BEYOND THE CONTROL OF THE SERIES 2026A CERTIFICATE HOLDERS, INCLUDING THE CONTINUING FUTURE UTILITY OF THE REFINANCED FACILITIES AND OTHER FACILITIES OF THE SCHOOL BOARD AND CHANGES IN POPULATION OR DEMOGRAPHICS WITHIN THE DISTRICT.

Limitation Upon Disposition; Ability to Sell or Relet

Following an event of default under the Transaction Leases or non-appropriation of funds, the Trustee as assignee of the Corporation may take possession of the Refinanced Facilities (excluding the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities and the Series 2009A-2 Facilities) and sell or re-let the leasehold interests therein. The Trustee's ability to actually achieve such a disposition of such Refinanced Facilities is limited by its inability to convey fee simple title to the Refinanced Facilities and by the governmental nature of the Refinanced Facilities. Moreover, it is possible that a court of

competent jurisdiction could enjoin the sale or re-letting of the Trustee's interest in such Refinanced Facilities because of the essential governmental nature thereof. There can be no assurance that the remedies available to the Trustee upon any such termination of the Lease Term of all Leases and the disposition of such Refinanced Facilities will produce sufficient amounts to make timely payments of the principal and interest portions due on the outstanding Series 2026A Certificates.

Tax Effect Upon Termination of Transaction Leases

Upon termination of the Transaction Leases, there is no assurance that payments made by the Trustee **[**or the Insurer, if any,**]** with respect to the Series 2026A Certificates and designated as interest will be excludable from gross income for federal income tax purposes. See "TAX TREATMENT" herein.

Applicability of Securities Laws

After termination of the Transaction Leases, the transfer of a Series 2026A Certificate may be subject to or conditioned upon compliance with the registration provisions of applicable federal and state securities laws. Accordingly, there is no assurance that liquidity of the Series 2026A Certificates will not be impaired following termination of the Transaction Leases.

Local Option Millage Levy Revenue

The amount which can be realized by the District derived from the Local Option Millage Levy can be affected by a variety of factors not within the control of the District or the School Board including, without limitation, fluctuations in the level of the assessed valuation of property within the District. Moreover, the School Board is not legally required to impose the Local Option Millage Levy. See "SECURITY FOR THE SERIES 2026A CERTIFICATES – Limited Obligation of the School Board" and "AVAILABLE REVENUES FOR CAPITAL OUTLAY PROJECTS – Local Sources" herein.

The maximum Local Option Millage Levy is also subject to change pursuant to changes in applicable law and is subject to sharing with charter schools in the District. See "AVAILABLE REVENUES FOR CAPITAL OUTLAY PROJECTS – Local Sources" and "RECENT GOVERNMENTAL ACTIONS AND OTHER EVENTS AFFECTING DISTRICT REVENUES – Distribution of Capital Outlay Funds to Charter Schools" herein for information regarding legislation that requires the School Board to share Local Option Millage Levy revenues with charter schools in the District.

Educational Impact Fees

The educational impact fees are subject to revision and repeal by the Board of County Commissioners of the County. Further, various bills have been introduced in the Florida Legislature over the past several years that would eliminate the ability of certain governmental entities, including the County or the District, to levy impact fees for the construction or remodeling of educational facilities. To date, such bills have not been passed. However, there can be no assurance that legislation will not be introduced and enacted in the current or future legislative sessions that restricts, or eliminates, the District's ability to receive such impact fees.

State Revenues

A large portion of the District's funding is derived from State sources. See "FINANCIAL RESULTS AND LIABILITIES OF THE DISTRICT" herein. A significantly large percentage of such State revenues is generated from the levy of the State sales tax. The amounts budgeted for distribution from the State to the District are subject to change in the event that projected revenues are not realized, particularly in light of the economic downturn in the State as a result of the coronavirus pandemic. See "- Coronavirus (COVID-19)" below.

On June 30, 2025, Governor DeSantis approved the State education budget for State Fiscal Year 2025-26, which commenced July 1, 2025, providing for an approximately $945 million or 3.31% increase in State and local FEFP funding for K-12 public schools over State Fiscal Year 2024-2025, reflecting a per-pupil increase of approximately $143 per student or 1.59% over Fiscal Year 2024-2025. The adopted education budget allocates approximately $3.8 billion for funding of the State's expanded voucher/scholarship programs pursuant to HB 1 as part of State FEFP funding. See "RECENT GOVERNMENT ACTIONS AND OTHER EVENTS AFFECTING DISTRICT REVENUES – Legislative Changes Relating to School Choice" herein. However, such funds will be withheld from each school district's FEFP distributions based on the forecasted scholarship students for each school district. For the District, the estimated amount to be withheld is approximately $325.6 million. Based upon the second FEFP calculation, the estimated increase for the District is approximately $56.9 million (inclusive of charter school students and voucher/scholarship students) in State and local FEFP funds over Fiscal Year 2024-25. However, there can be no assurance that funding for K-12 public schools will increase exactly as provided for in the approved budget.

Based on the legislatively adopted budget for State fiscal year 2025–26, the District anticipates a reduction in State FEFP funding driven by an overall decrease in State funding levels and a projected decline in enrollment within District-operated schools. Since the 2017-18 school year, District student enrollment has decreased by approximately 13 percent, or 30,000 students. Enrollment for District-operated schools in 2025-26 is projected to decline by an additional 9,000 students compared to 2024-25. The combined effect of reduced FEFP revenues and rising operating costs is projected to result in a negative financial impact to the District in excess of $90 million. In response, the District is evaluating and implementing a series of cost-containment measures, including a hiring freeze for central office positions, adjustments to teacher work hours, administrative staffing efficiencies, consolidation of under-enrolled schools, and alignment of staffing levels with student enrollment trends. On March 13, 2025, the School Board approved the Superintendent’s 2025-26 organizational chart, which included a reduction in central office positions. Subsequently, on December 8, 2025, the Superintendent announced the immediate implementation of a hard hiring freeze, travel freeze, and overtime reductions. Notwithstanding these financial pressures, the School Board does not anticipate that reductions in State FEFP funding will adversely affect the District’s ability to meet its debt service obligations on the Series 2026A Certificates or the Prior Certificates.

Recently, the District has experienced increased internal and external scrutiny regarding its finances and operations, including public statements by the Governor alleging mismanagement. In response, members of the School Board have publicly expressed support for a review by the State’s Department of Government Efficiency ("DOGE") team. To date, DOGE has not indicated

whether or when it will conduct a review of the District's finances. In the interim, the District continues to fully comply with all financial reporting, transparency, and accountability requirements of the Florida Department of Education and all applicable state oversight agencies.

[INSERT FY 2027 BUDGET DISCLOSURE**]**

Additional Leases

Pursuant to the Master Lease, the School Board has previously entered into the Prior Leases and may enter into other Leases in addition to the Transaction Leases. Failure to appropriate funds to make Lease Payments under any such Lease will, and an event of default under any such Lease may, result in the termination of all Leases, including the Transaction Leases. Upon any such termination of all Leases, the School Board must surrender all Facilities (except certain designated facilities such as the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities and the Series 2009A-2 Facilities) to the Trustee for sale or lease. The proceeds of any such disposition of the Facilities will be applied to the payment of the applicable Series of Certificates. The proceeds derived from any such sale or reletting of the School Board's leasehold interest in such Facilities, if any, will be applied first to the payment of the fees and expenses of the Trustee, second to payment in full of the Series of Certificates relating to such Facilities and then to the payment of other outstanding amounts as described in said Lease(s). The proceeds of the disposition of the Refinanced Facilities (excluding the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities and the Series 2009A-2 Facilities) leased under (i) the Series 2008A-1 Lease will be applied to the payment of the Series 2026A Certificates allocable to the Series 2008A-1 Lease, equally and ratably with the Unrefunded Series 2016A Certificates (and in the case of disposition of the Overlapping Facilities subject to the Series 2008A-1 Lease, with holders of other Certificates representing an interest therein), after payment of the expenses of the Trustee and then as described in the Series 2008A-1 Lease and (ii) the Series 2009A-1 Lease will be applied to the payment of the Series 2026A Certificates allocable to the Series 2009A-1 Lease, equally and ratably with the Unrefunded Series 2016B Certificates allocable to the Series 2009A-1 Lease and the Series 2017B Certificates allocable to the Series 2009A-1 Lease, after payment of the expenses of the Trustee and then as described in the Series 2009A-1 Lease. In no event will owners of the Series 2026A Certificates have any interest in or right to any proceeds of the disposition of Facilities other than the Refinanced Facilities (excluding the Series 2008A-1 Comprehensive Needs Facilities, the Series 2009A-1 Comprehensive Needs Facilities and the Series 2009A-2 Facilities). There can be no assurance that the remedies available to the Trustee upon any such termination of all Leases and the disposition of such Facilities will produce sufficient amounts to pay the applicable outstanding Series 2026A Certificates and the Prior Certificates.

Additional Indebtedness

The School Board may issue additional indebtedness from time to time other than in connection with the Master Lease secured by or payable from available revenues without the consent of the Owners of the Series 2026A Certificates. Incurring such additional indebtedness may adversely affect the School Board's ability to make Lease Payments under the Master Lease. See "FINANCIAL RESULTS AND LIABILITIES OF THE DISTRICT – Obligations Under Unrelated Lease Purchase Agreements" herein.

Legislative Changes

In recent years, legislation has been introduced that has required that certain percentages of school district funding be spent on particular activities and imposed additional funding restrictions and other requirements on school districts. Other proposals have sought to provide for new or increased exemptions to ad valorem taxation, limit increases in assessed valuation of certain types of property or otherwise restrict the ability of local governments in the State to levy ad valorem taxes at historical levels. There can be no assurance that similar or additional legislative or other proposals will not be introduced or enacted in the future that would, or might apply to, or have a material adverse effect upon, the District or its finances. See "RECENT GOVERNMENTAL ACTIONS AND OTHER EVENTS AFFECTING DISTRICT REVENUES" and "AD VALOREM TAXATION – Legislation Relating to Ad Valorem Taxation" herein.

Effect of Sequestration on Lease Payments

Pursuant to the Balanced Budget and Emergency Deficit Control Act, as amended, the President of the United States ordered that certain automatic spending cuts be implemented pursuant to calculations provided by the United States Office of Management and Budget in its Report to the Congress on sequestration dated March 1, 2013. The cuts include mandatory reductions in the amounts scheduled to be paid by the federal government to issuers of Build America Bonds, Qualified Zone Academy Bonds, Qualified School Construction Bonds, New Clean Renewable Energy Bonds and Qualified Energy Conservation Bonds (collectively, "Direct-Pay Bonds") under Section 6431 of the Internal Revenue Code.

Payments to issuers of Direct-Pay Bonds from the budget accounts associated with these bonds were originally subject to an effective reduction of 8.7 percent of the amount budgeted for such payments on and after March 1, 2013 through September 30, 2013. Unless otherwise resolved, sequestration may continue through the end of federal fiscal year 2030, which ends September 30, 2030, with reductions in subsidy payments expected to be 5.7 percent of what would otherwise be received.

For federal fiscal year 2025-2026 (ending September 30, 2026), the School Board anticipates its aggregate annual expected QSCB Interest Subsidies (relating to the Series 2010A Certificates (QSCB)) of $[2,711,363] to be reduced by [5.7]% or $[154,548] resulting in a corresponding increase in interest costs for the District that must be paid from other revenue sources.

Coronavirus (COVID-19)

The Novel Coronavirus 2019 ("COVID-19") pandemic, along with various governmental measures taken to protect public health in light of the pandemic, adversely affected the School Board's financial results and resulted in a federally declared "national emergency." The School Board received various disaster relief funds since March 2020, including pursuant to the Coronavirus Aid, Relief and Economic Security Act, which contained the Education Stabilization Fund; the Coronavirus Response and Relief Supplemental Appropriations Act, which included a second Education Stabilization Fund; and The American Rescue Plan Act of 2021. The District received approximately $951.5 million in federal funds under such federal programs, collectively,

however many of such funds were required to be shared with charter schools and private schools in the County.

COVID-19 is ever evolving and the potential for future resurgence of COVID-19 at a pandemic level is unknown and, should there be a future resurgence of the pandemic or another pandemic, the School Board cannot predict with certainty the impacts of such an outbreak on the School Board's future operations, revenues or expenses.

Climate Change and Natural Disasters

Numerous scientific studies on climate change show that, among other effects on the global ecosystem, sea levels may rise, extreme temperatures may become more common, and extreme weather events may become more frequent as a result of increasing global temperatures attributable to atmospheric pollution. Sea levels may continue to rise in the future due to the increasing temperature of the oceans causing thermal expansion and growing ocean volume from glaciers and ice caps melting into the ocean. Coastal areas like the District are at risk of substantial flood damage over time, affecting private development and public infrastructure, including roads, utilities, emergency services, schools, and parks. As a result, the District could lose considerable tax revenues and many residents, businesses, and governmental operations along the waterfront could be displaced. However, the District is unable to predict whether sea level rise or other impacts of climate change or flooding from a major storm will occur, when they may occur, and if any such events occur, whether, they will have a material adverse effect on the business operations or financial condition of the District. Additionally, climate change concerns have led, and may continue to lead, to new laws and regulations at the federal and State levels (including but not limited to, air, water, hazardous substances and waste regulations) that could have a material adverse effect on the operations and/or financial condition of the District.

[The District experienced an extremely intense rainstorm in April 2023 resulting in flood damages exceeding $10,000,000. The District received a total net claim settlement in an amount of $9,962,368. Since this event, the District has purchased National Flood Insurance coverages on several District sites. Additionally, the District's Physical Plant Operations Department has implemented corrective measures at these sites.**]**

Cybersecurity

Computer networks and systems used for information transmission and collection are vital to the efficient operations of the District. District systems provide support to departmental operations and District services by collecting and storing sensitive information, including intellectual property, security information, proprietary business process information, information regarding suppliers and business partners, and personally identifiable information of students and employees (collectively, "Computer Information"). The secure processing, maintenance and transmission of Computer Information is critical to effective departmental operations and the appropriate provision of services. Increasingly, governmental entities are being targeted by cyberattacks seeking to obtain Computer Information or disrupt critical services. A rapidly changing cyber risk landscape may introduce new vulnerabilities that attackers and hackers can exploit in their efforts to effect breaches or service disruptions. Employee error and/or malfeasance may also contribute to a loss of Computer Information or other system disruptions. The District

has a multilayered information security program with several established protocols and procedures which include Acceptable Usage Policies and Information Security Guidelines. The District has next generation firewalls with unified threat management features enabled which include firewall, application control, web filter, and intrusion detection and prevention. Cybersecurity operations are handled internally. The District periodically faces cyber threats as is to be expected with all network-connected governments and businesses. The District experienced a cyberattack in March 2021, is fully recovered from this event and has not had another compromising cyberattack since the March 2021 event. However, after the March 2021 cyber breach, post-analysis revealed that personal information of some District students and employees may have been compromised in the cyberattack and posted on the dark web. Upon learning of this, the District notified potentially impacted parties and provided free credit monitoring and other safeguards to help the impacted stakeholders protect their identity. Based on currently available information, the District does not expect a significant financial liability to arise as a result of the March 2021 cyberattack. Nevertheless, the District implemented comprehensive measures to fortify its cybersecurity posture and minimize the risk of future incidents. These measures include, but are not limited to, the implementation of Multi-Factor Authentication (MFA) for staff network access to the network, deployment of Privileged Account Management (PAM) for sensitive systems access, installation of Endpoint Detection and Response (EDR) solutions to identify and mitigate malware and other threats, the introduction of managed phishing simulations to educate staff on identifying and responding to phishing attempts, external and internal penetration testing and vulnerability assessments to proactively identify potential cyber threats, and expansion of the District's internal IT security team to enhance the capacity for monitoring and responding to cyber events. There is a mandatory Security and Privacy Awareness training that all District employees must take annually to educate users regarding cyber security threats and ways to avoid becoming a victim as well as learn about protections in the District and ways to minimize vulnerabilities both at work and at home. The District also maintains cyber risk insurance to help mitigate its exposure to security attacks that are known to cripple an organization's technology system and/or fraudulently confiscate funds.

While District cybersecurity and operational safeguards are periodically tested, no assurances can be given that such measures will ensure against all cybersecurity threats or attacks. Cybersecurity breaches could damage or compromise the District's computer network and the confidentiality, integrity, or availability of the District's computer system or the Computer Information. The potential disruption, access, modification, disclosure or destruction of Computer Information could result in the interruption of District services, the initiation of legal claims or proceedings, liability under laws that protect the privacy of personal information, regulatory penalties, and could cause a material disruption in the District's operations or the appropriate provision of District services. The costs of remedying any such damage or protecting against future attacks could be substantial and in excess of the maximum amount of the District's cyber risk insurance policy. Further, the litigation to which the District could be exposed following a cybersecurity breach could be significant, which could cause the District to incur material costs related to such legal claims or proceedings.

LITIGATION

There is no litigation now pending or threatened (i) to restrain or enjoin the issuance or sale of the Series 2026A Certificates; (ii) questioning or affecting the validity of the Transaction Leases or the obligation of the School Board to make Lease Payments: or (iii) questioning or affecting the validity of any of the proceedings for the authorization, sale, execution or delivery of the Series 2026A Certificates.

Between September 2023 and April 2024, the School Board faced several lawsuits from charter schools over the distribution of referendum revenue from 2018 to 2022, with the charter schools seeking their alleged proportionate share of revenues from the additional voted millage based on full-time equivalent student enrollment. See "OPERATING REVENUES OF THE DISTRICT – Local Sources – Ad Valorem Taxes" herein. On March 7, 2024, the Florida Department of Education notified the Superintendent that an investigation was opened into the District's compliance with State law regarding sharing revenue from the referendum held in 2018 with charter schools in the District. On March 19, 2024, the Florida Commissioner of Education found probable cause that the District was non-compliant and recommended that the State Board of Education require the District to approve and implement a payment plan for charter schools by the start of the 2024-25 school year, with full payment by December 31, 2024, or a later agreed-upon date. The parties settled the claims by agreeing that the District would make three payments totaling approximately $108 million to the charter schools in the District. The settlement agreement was approved by the School Board on June 18, 2024, and provides the District pay charter schools $31.9 million by July 10, 2024, $35.9 million by July 10, 2025, and the remaining $40.4 million by July 10, 2026. The District agreed that $67 million would be paid from referendum dollars approved by voters in 2022 (which was a renewal of the referendum from 2018 for four additional years) and the interest of $41 million would be paid from the District's general fund. Additionally, the School Board considered allocating approximately $14 million over three years to additional charter schools which were not actively involved in litigation. This would increase the total amount paid to charter schools over the three-year period to approximately $123 million. The General Counsel's office, based on the representations of the District's Chief Financial Officer, asserts that the impact of the second payment has been built into the Fiscal Year 2025-26 budget approved by the School Board in September 2025.

The School Board is involved in certain litigation and disputes incidental to its operations. Upon the basis of information presently available, the General Counsel Office and Risk Management Administration to the School Board believes that there are substantial defenses to such litigation and disputes and that, in any event, any ultimate liability, in excess of applicable insurance coverage, resulting therefrom will not materially adversely affect the financial position or results of operations of the District, or the School Board and its ability to make Lease Payments.

DISCLOSURE REQUIRED BY FLORIDA BLUE SKY REGULATIONS

Section 517.051, Florida Statutes, and the regulations promulgated thereunder require that full and fair disclosure is made of any bonds or other debt obligations of the District that have been in default as to payment of principal or interest at any time after December 31, 1975. The District is not and has not since December 31, 1975, been in default as to payment of principal and interest on its bonds or other debt obligations.

UNDERWRITING

General

The Series 2026A Certificates are being purchased by J.P. Morgan Securities LLC, acting on behalf of itself, BofA Securities, Inc. and Raymond James & Associates, Inc. (collectively, the "Underwriters"), at an aggregate purchase price of $_____ (which represents the $_____.00 aggregate principal amount of the Series 2026A Certificates, **[**plus/less**]** **[**net**]** bond **[**premium/original issue discount**]** of $_____ and minus an Underwriters' discount of $_____).

The Underwriters will purchase all of the Series 2026A Certificates if any are purchased. The obligation to make such purchase is subject to certain terms and conditions contained in a Certificate Purchase Agreement and to the approval of certain legal matters by counsel.

The Underwriters may offer and sell the Series 2026A Certificates to certain dealers and others at prices lower than the public offering prices. After the initial public offering, the respective offering prices may be changed from time to time by the Underwriters.

The Underwriters and their respective affiliates are full-service financial institutions engaged in various activities that may include securities trading, commercial and investment banking, municipal advisory, brokerage, and asset management. In the ordinary course of business, the Underwriters and their respective affiliates may actively trade debt and, if applicable, equity securities (or related derivative securities) and provide financial instruments (which may include bank loans, credit support or interest rate swaps). The Underwriters and their respective affiliates may engage in transactions for their own accounts involving the securities and instruments made the subject of this securities offering or other offering of the School Board. The Underwriters and their respective affiliates may make a market in credit default swaps with respect to municipal securities in the future. The Underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and publish

independent research views in respect of the Series 2026A Certificates or other offerings of the School Board.

J.P. Morgan Securities LLC ("JPMS"), one of the Underwriters of the Series 2026A Certificates, has entered into negotiated dealer agreements (each, a "Dealer Agreement") with each of Charles Schwab & Co., Inc. ("CS&Co.") and LPL Financial LLC ("LPL") for the retail distribution of certain securities offerings at the original issue prices. Pursuant to each Dealer Agreement, each of CS&Co. and LPL may purchase Series 2026A Certificates from JPMS at the original issue price less a negotiated portion of the selling concession applicable to any Series 2026A Certificates that such firm sells.

BofA Securities, Inc., an Underwriter of the Series 2026A Certificates, has entered into a distribution agreement with its affiliate Merrill Lynch, Pierce, Fenner & Smith Incorporated ("MLPF&S"). As part of this arrangement, BofA Securities, Inc. may distribute securities to MLPF&S, which may in turn distribute such securities to investors through the financial advisor network of MLPF&S. As part of this arrangement, BofA Securities, Inc. may compensate MLPF&S as a dealer for their selling efforts with respect to the Series 2026A Certificates.

Co-Special Tax Counsel and Co-Disclosure Counsel may, from time-to-time, serve as counsel to the Underwriters on matters unrelated to the issuance of the Series 2026A Certificates.

TAX TREATMENT

[To be reviewed by Co-Special Tax Counsel**]**

General

General. The Internal Revenue Code of 1986, as amended (the "Code"), includes requirements which the School Board must continue to meet after the issuance of the Series 2026A Certificates in order that the interest portion of the Basic Lease Payments represented by the Series 2026A Certificates be and remain excludable from gross income of the holders thereof for federal income tax purposes. The School Board's failure to meet these requirements may cause the interest portion of the Basic Lease Payments designated and paid as interest to the Series 2026A Certificate holders to be included in gross income for federal income tax purposes retroactively to the date of execution and delivery of the Series 2026A Certificates. The School Board has covenanted to take the actions required by the Code in order to maintain the excludability from gross income for federal income tax purposes of the interest portion of the Basic Lease Payments designated and paid as interest to the Series 2026A Certificate holders and not to take any actions that would adversely affect that excludability.

In the opinion of Co-Special Tax Counsel, assuming continuing compliance by the School Board with the tax covenants referred to above and the accuracy of certain representations of the School Board, under existing statutes, regulations, rulings and court decisions, the interest portion of the Basic Lease Payments represented by the Series 2026A Certificates will be excludable from gross income for federal income tax purposes; and, further, the interest portion of the Basic Lease Payments represented by the Series 2026A Certificates will not be an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals. In the case of the

alternative minimum tax imposed by Section 55(b)(2) of the Code on applicable corporations (as defined in Section 59(k) of the Code), the portion of the Basic Lease Payments designated and paid as interest to the owners of the Series 2026A Certificates is not excluded from the determination of adjusted financial statement income. No opinion is expressed with respect to the federal income tax consequences of any payments received with respect to the Series 2026A Certificates following termination of the Master Lease as a result of non-appropriation of funds or the occurrence of an event of default thereunder. Co-Special Tax Counsel expects to deliver opinions at the time of issuance of the Series 2026A Certificates substantially in the form set forth in Appendix E.

Co-Special Tax Counsel is further of the opinion that the Series 2026A Certificates and the portion of the Basic Lease Payments designated and paid as interest to the owners of the Series 2026A Certificates will not be subject to taxation under the laws of the State of Florida, except as to estate taxes and taxes under Chapter 220, Florida Statutes, on interest, income or profits on debt obligations owned by corporations as defined therein; provided, however, that no opinion is expressed with respect to tax consequences under the laws of the State of Florida of any payments received with respect to the Series 2026A Certificates following termination of the Master Lease as a result of non-appropriation of funds or the occurrence of an event of default thereunder.

Except as described above, Co-Special Tax Counsel will express no opinion regarding the federal or State income tax consequences resulting from the receipt or accrual of the interest portion of the Basic Lease Payments designated and paid as interest to the Series 2026A Certificate holders or the ownership or disposition of the Series 2026A Certificates. Prospective purchasers of Series 2026A Certificates should be aware that the ownership of Series 2026A Certificates may result in other collateral federal tax consequences, including (i) the denial of a deduction for interest on indebtedness incurred or continued to purchase or carry Series 2026A Certificates or, in the case of a financial institution, that portion of the owner's interest expense allocable to the interest portion of the Basic Lease Payments represented by the Series 2026A Certificates, (ii) the reduction of the loss reserve deduction for property and casualty insurance companies by the applicable statutory percentage of certain items, including the interest portion of the Basic Lease Payments represented by the Series 2026A Certificates, (iii) the inclusion of the interest portion of the Basic Lease Payments represented by the Series 2026A Certificates in the earnings of certain foreign corporations doing business in the United States for purposes of a branch profits tax, (iv) the inclusion of the interest portion of the Basic Lease Payments represented by the Series 2026A Certificates in the passive income subject to federal income taxation of certain Subchapter S corporations with Subchapter C earnings and profits at the close of the taxable year and (v) the inclusion by recipients of certain Social Security and Railroad Retirement benefits of receipts and accrual of the interest portion of the Basic Lease Payments represented by the Series 2026A Certificates in determining whether a portion of such benefits are included in gross income for federal income tax purposes.

Co-Special Tax Counsel's opinion is based on existing law, which is subject to change. Such opinion is further based on factual representations made to Co-Special Tax Counsel as of the date hereof. Co-Special Tax Counsel assumes no duty to update or supplement its opinion to reflect any facts or circumstances that may thereafter come to Co-Special Tax Counsel's attention, or to reflect any changes in law that may thereafter occur or become effective. Moreover, Co-Special Tax Counsel's opinions are not a guarantee of a particular result

and are not binding on the IRS or the courts; rather, such opinions represent Co-Special Tax Counsel's professional judgment based on its review of existing law, and in reliance on the representations and covenants that it deems relevant to such opinion.

Original Issue Discount and Premium. Certain of the Series 2026A Certificates ("Discount Certificates") may be offered and sold to the public at an original issue discount ("OID"). OID is the excess of the stated redemption price at maturity (the principal amount) over the "issue price" of a Discount Certificate determined under Code Section 1273 or 1274 (i.e., for obligations issued for money in a public offering, the initial offering price to the public (other than to bond houses and brokers) at which a substantial amount of the obligation of the same maturity is sold pursuant to that offering). For federal income tax purposes, OID accrues to the owner of a Discount Certificate over the period to maturity based on the constant yield method, compounded semiannually (or over a shorter permitted compounding interval selected by the owner). The portion of OID that accrues during the period of ownership of a Discount Certificate (i) is interest excludable from the owner's gross income for federal income tax purposes to the same extent, and subject to the same considerations discussed above, as other interest on the Series 2026A Certificates, and (ii) is added to the owner's tax basis for purposes of determining gain or loss on the maturity, redemption, prior sale or other disposition of that Discount Certificate.

Certain of the Series 2026A Certificates ("Premium Certificates") may be offered and sold to the public at a price in excess of their stated redemption price (the principal amount) at maturity. That excess constitutes bond premium. For federal income tax purposes, bond premium is amortized over the period to maturity of a Premium Certificate, based on the yield to maturity of that Premium Certificate (or, in the case of a Premium Certificate callable prior to its stated maturity, the amortization period and yield may be required to be determined on the basis of an earlier call date that results in the lowest yield on that Premium Certificate), compounded semiannually (or over a shorter permitted compounding interval selected by the owner). No portion of that bond premium is deductible by the owner of a Premium Certificate. For purposes of determining the owner's gain or loss on the sale, redemption (including redemption at maturity) or other disposition of a Premium Certificate, the owner's tax basis in the Premium Certificate is reduced by the amount of bond premium that accrues during the period of ownership. As a result, an owner may realize taxable gain for federal income tax purposes from the sale or other disposition of a Premium Certificate for an amount equal to or less than the amount paid by the owner for that Premium Certificate.

Owners of Discount and Premium Certificates should consult their own tax advisers as to the determination for federal income tax purposes of the amount of OID or bond premium properly accruable in any period with respect to the Discount or Premium Certificates and as to other federal tax consequences and the treatment of OID and bond premium for purposes of state and local taxes on, or based on, income.

Changes in Federal and State Tax Law. From time to time, there are legislative proposals suggested, debated, introduced or pending in Congress or in the State legislature that, if enacted into law, could alter or amend one or more of the federal tax matters, or state tax matters, respectively, described above, including, without limitation, the excludability from gross income of interest on the Series 2026A Certificates, adversely affect the market price or marketability of the Series 2026A Certificates, or otherwise prevent the holders from realizing the full current

benefit of the status of the interest thereon. It cannot be predicted whether or in what form any such proposal may be enacted, or whether, if enacted, any such proposal would affect the Series 2026A Certificates. Prospective purchasers of the Series 2026A Certificates should consult their tax advisors as to the impact of any proposed or pending legislation.

Information Reporting and Backup Withholding. Interest paid on tax-exempt bonds such as the Series 2026A Certificates is subject to information reporting to the Internal Revenue Service in a manner similar to interest paid on taxable obligations. This reporting requirement does not affect the excludability of interest on the Series 2026A Certificates from gross income for federal income tax purposes. However, in conjunction with that information reporting requirement, the Code subjects certain non-corporate owners of Series 2026A Certificates, under certain circumstances, to "backup withholding" at the rates set forth in the Code, with respect to payments on the Series 2026A Certificates and proceeds from the sale of Series 2026A Certificates. Any amount so withheld would be refunded or allowed as a credit against the federal income tax of such owner of Series 2026A Certificates. This withholding generally applies if the owner of Series 2026A Certificates (i) fails to furnish the payor such owner's social security number or other taxpayer identification number ("TIN"), (ii) furnished the payor an incorrect TIN, (iii) fails to properly report interest, dividends, or other "reportable payments" as defined in the Code, or (iv) under certain circumstances, fails to provide the payor or such owner's securities broker with a certified statement, signed under penalty of perjury, that the TIN provided is correct and that such owner is not subject to backup withholding. Prospective purchasers of the Series 2026A Certificates may also wish to consult with their tax advisors with respect to the need to furnish certain taxpayer information in order to avoid backup withholding.

MUNICIPAL ADVISOR

The School Board has retained PFM Financial Advisors LLC, Orlando, Florida, as Municipal Advisor (the "Municipal Advisor") with respect to the planning, structuring, execution and issuance of the Series 2026A Certificates. The Municipal Advisor will receive fees for services provided in connection with the issuance of the Series 2026A Certificates, which fees are contingent upon the issuance of the Series 2026A Certificates. The Municipal Advisor is not obligated to undertake and has not undertaken to make an independent verification or to assume responsibility for the accuracy, completeness or fairness of the information contained in this Offering Statement.

PFM Financial Advisors LLC is an independent municipal advisory firm and is not engaged in the business of underwriting, trading or distributing municipal or other public securities.

BASIC FINANCIAL STATEMENTS

The Basic Financial Statements of The School Board of Broward County, Florida for the Fiscal Year ended June 30, 2025 and the report thereon of Forvis Mazars, LLP, independent certified public accountants, dated _____, 2026, are included in APPENDIX B of this Offering Statement as part of the public records of the School Board. Forvis Mazars, LLP has not participated in the preparation of this Offering Statement.

The budgeted figures set forth in this Offering Statement reflect the School Board's final budget which was adopted on September 9, 2025. The School Board may amend its final budget from time to time in accordance with applicable law.

CONTINUING DISCLOSURE

The School Board has covenanted for the benefit of Series 2026A Certificate holders to provide certain financial information and operating data relating to the School Board in each year (the "Annual Report"), to provide notices of the occurrence of certain enumerated events, and to comply with and carry out all of the provisions of the Disclosure Dissemination Agent Agreement to be executed by the School Board and Digital Assurance Certification LLC ("DAC") as of the date of issuance of the Series 2026A Certificates, as such Dissemination Agent Agreement may be amended from time to time in accordance with the terms thereof (the "Dissemination Agent Agreement"). Such covenant shall only apply so long as the Series 2026A Certificates are Outstanding, and shall also cease upon the termination of the continuing disclosure requirements of Rule 15c2-12(b)(5) of the Securities and Exchange Commission (the "Rule") by legislative, judicial or administration action. The Annual Report will be filed by the School Board or its dissemination agent, if any, with the Municipal Securities Rulemaking Board (the "MSRB") via its Electronic Municipal Market Access system described in the Dissemination Agent Agreement attached hereto as APPENDIX E hereto. The notices of material events will be filed by the School Board, or its dissemination agent, if any, with the MSRB. The specific nature of the information to be contained in the Annual Report and the notices of material events are described in "APPENDIX E – Form of Disclosure Dissemination Agent Agreement" hereto. Failure of the School Board to comply with the Dissemination Agent Agreement is not considered an event of default under the Transaction Leases, the Trust Agreement or the Series 2026A Certificates; however, any Series 2026A Certificate holder may take such actions as may be necessary and appropriate, including seeking mandamus or specific performance by court order, to cause the School Board to comply with its obligations under the Dissemination Agent Agreement.

The covenants of the School Board in the Dissemination Agent Agreement have been made in order to assist the Underwriters in complying with the Rule. No party other than the School Board is obligated to provide, nor is expected to provide, any continuing disclosure information in connection with the issuance of the Series 2026A Certificates in order to comply with the Rule.

[Due to an administrative oversight, the School Board failed to timely file notices related to the incurrence of various financial obligations since February 2020, as required by certain of the Disclosure Dissemination Agent Agreements to which the School Board is a party. The School Board corrected such failure on May 18, 2023 by filing a notice summarizing the various financial obligations for which it previously failed to file timely notices as required under such existing Disclosure Dissemination Agent Agreements.**]**

SECTION 2.2 Irrevocable Escrow Created. The deposit of moneys and Government Obligations or other property hereunder in the Series 2016A Escrow Deposit Fund and the Series 2016B Escrow Deposit Fund shall constitute an irrevocable deposit of said moneys and Government Obligations and other property hereunder for the benefit of the holders of the Refunded Series 2016A Certificates and the Refunded Series 2016B Certificates, respectively, subject to the provisions of this Agreement. The holders of the Refunded Series 2016A Certificates and the Refunded Series 2016B Certificates shall, subject to the provisions of this Agreement, have an express lien on all moneys and principal of and earnings on the Government Obligations and other property in the Series 2016A Escrow Deposit Fund and the Series 2016B Escrow Deposit Fund, respectively, as applicable. SECTION 2.3 Purchase of Government Obligations. The Escrow Agent is hereby directed to immediately purchase the Government Obligations listed on Schedule C-1 and Schedule C-2. The Escrow Agent shall purchase the Government Obligations solely from the moneys deposited in the Series 2016A Escrow Deposit Fund and the Series 2016B Escrow Deposit Fund, all as provided in Section 2.1 hereof. The Escrow Agent shall apply the moneys deposited in the Series 2016A Escrow Deposit Fund and the Series 2016B Escrow Deposit Fund and the Government Obligations purchased therewith, together with all income or earnings thereon, in accordance with the provisions hereof. The Escrow Agent shall have no power or duty to invest any moneys held hereunder or to make substitutions of the Government Obligations held hereunder or to sell, transfer or otherwise dispose of the Government Obligations held hereunder except as provided in this Agreement, nor shall the Escrow Agent have any liability with respect to such investments, including, without limitation, any losses or taxes thereon. In the absence of investment instructions from the School Board, the Escrow Agent shall hold the moneys held by it hereunder uninvested.

SECTION 2.4 Substitution of Certain Government Obligations.

2.4.1 At the written direction of the School Board, the Escrow Agent shall accept in substitution for all or a portion of the Government Obligations listed in Schedule C-1 and C-2, Government Obligations (the "Substituted Securities"), the principal of and interest on which, together with any Government Obligations listed in Schedule C-1 and C-2 hereto for which no substitution is made, will meet the requirements of payment of all Basic Lease Payments represented by the Refunded Series 2016A Certificates and the Refunded Series 2016B Certificates as set forth in Schedule C hereof. The foregoing notwithstanding, the substitution of Substituted Securities for any of the Government Obligations listed in Schedule B-2 and Schedule B-3 may be effected only upon compliance with Section 2.4.2(a) and (b) below.

2.4.2 At the written direction of the School Board at any time during the term of this Agreement, and provided that substituted Government Obligations are made available to the Escrow Agent, the Escrow Agent shall, upon receipt of the opinion and verification required by (a) and (b) respectively below, sell, transfer, exchange or otherwise dispose of, or request the redemption of, all or a portion of the Government Obligations then held in the Series 2016A Escrow Deposit Fund and/or the Series 2016B Escrow Deposit Fund, and shall substitute for such Government Obligations other Government Obligations, designated by the School Board, and acquired by the Escrow Agent with the proceeds derived from the sale, transfer, disposition, redemption of, or by the exchange of, such Government Obligations held in the Series 2016A Escrow Deposit Fund and/or the Series 2016B Escrow Deposit Fund, as applicable:

(a) The Escrow Agent shall have received an opinion of nationally recognized counsel in the field of law relating to municipal bonds stating that such substitution complies with this Agreement and will not adversely affect the exclusion from gross

income for federal income tax purposes of the portion of the Basic Lease Payments designated as interest and represented by the Refunded Certificates and the Series 2026A Certificates and is not inconsistent with the statutes and regulations applicable to the Refunded Certificates and the Series 2026A Certificates; and

(b) The Escrow Agent shall have received verification from a nationally recognized independent certified public accountant or firm of accountants stating that the principal of and interest on the substituted Government Obligations, together with any Government Obligations and a stated dollar amount of cash remaining in the Series 2016A Escrow Deposit Fund and/or the Series 2016B Escrow Deposit Fund, if any, as applicable, will be sufficient without reinvestment, to pay the remaining Basic Lease Payments represented by the Refunded Series 2016A Certificates and the Refunded Series 2016B Certificates, respectively, as set forth in Schedule B-1 and B-2 hereof.

Notwithstanding anything to the contrary contained in this Agreement, any moneys resulting from the sale, transfer, disposition or redemption of the Government Obligations held hereunder and the substitution therefor of other Government Obligations which, based on the foregoing verification, are not necessary for the payment of Basic Lease Payments represented by the Refunded Certificates, shall be transferred to the School Board.

The Escrow Agent may conclusively rely on all specific directions in this Agreement in the investment or reinvestment of the Series 2016A Escrow Deposit Fund and the Series 2016B Escrow Deposit Fund. The Escrow Agent shall be under no duty to inquire whether the Government Obligations as deposited in the Series 2016A Escrow Deposit Fund or the Series 2016B Escrow Deposit Fund are properly invested under the Code.

SECTION 2.5 Transfers from the Escrow Deposit Funds. As the principal of the Government Obligations set forth in Schedule C-1 and Schedule C-2 shall mature and be paid, and the investment income and earnings thereon are paid, the Escrow Agent shall, no later than the due date for the Refunded Series 2016A Certificates and the Refunded Series 2016B Certificates, as specified in Schedule B-1 and B-2 hereof, transfer to itself as the paying agent for the Refunded Series 2016A Certificates and the Refunded Series 2016B Certificates from the Series 2016A Escrow Deposit Fund and the Series 2016B Escrow Deposit Fund, amounts sufficient to pay the Basic Lease Payments represented by the Refunded Series 2016A Certificates and the Refunded Series 2016B Certificates, as specified in Schedule B-1 and B-2 hereof.

SECTION 2.6 Transfer of Funds After All Payments Required by this Agreement are Made. After all of the transfers by the Escrow Agent for payment of the Basic Lease Payments represented by the Refunded Series 2016A Certificates have been made as specified in Schedule B-1 and B-2, all remaining moneys and securities, together with any income and interest thereon, in the Series 2016A Escrow Deposit Fund, shall be transferred to the School Board, and after all of the transfers by the Escrow Agent for payment of the Basic Lease Payments represented by the Refunded Series 2016B Certificates have been made as specified in Schedule B-1 and B-2, all remaining moneys and securities, together with any income and interest thereon, in the Series 2016B Escrow Deposit Fund, shall be transferred to the School Board; provided, however, that no such transfers (except transfers made in accordance with Section 2.5 hereof) shall be made until

all of the Basic Lease Payments represented by the Refunded Series 2016A Certificates and the Refunded Series 2016B Certificates, as the case may be, have been paid.

SECTION 2.7 Reinvestment of Certain Moneys Remaining in Escrow Deposit Fund. Notwithstanding any provision herein to the contrary, subject to the provisions of Section 2.3, the Escrow Agent shall invest the Escrowed Funds remaining in the Series 2016A Escrow Deposit Fund and the Series 2016B Escrow Deposit Fund upon the maturity of the Government Obligations, at the written direction of the School Board, in additional Government Obligations until such time as they are needed to pay the Prepayment Price of the Refunded Certificates. Such direction shall be accompanied by an opinion from nationally recognized counsel in the field of law relating to municipal bonds, stating that investment of such moneys in such Government Obligations will not adversely affect the rights of the holders of the Refunded Certificates, nor adversely affect the exclusion from gross income for federal income tax purposes of the portion of the Basic Lease Payments designated as interest and represented by the Refunded Certificates, and is not inconsistent with the terms and provisions of the Escrow Deposit Agreement or the statutes and regulations applicable to the Refunded Certificates.

SECTION 2.8 Notice of Defeasance. The Escrow Agent is hereby irrevocably instructed by the School Board to cause to be mailed, as soon as practicable after the issuance of the Series 2026A Certificates, but in any event no later than 10 Business Days after the date hereof to the registered owners of the Refunded Certificates, in accordance with the provisions of Section 801(b) of the Master Trust Agreement, a notice of defeasance substantially in the form attached hereto as Schedule D-1 and D-2 and to file the same with the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system ("EMMA"). The Escrow Agent shall not have any liability to any party in connection with any failure to timely file such notice and the sole remedy available shall be an action by the holders of such Refunded Certificates, in mandamus for specific performance or similar remedy to compel performance.

SECTION 2.9 Notice of Prepayment. The School Board elects to prepay, pursuant to Sections 7.2 and 7.3 of the Master Lease, the principal portion of the Basic Lease Payments represented by the Refunded Certificates on the Prepayment Date and the Escrow Agent is irrevocably instructed by the School Board to mail to the registered owners of the Refunded Certificates, not less than 30 days before their Prepayment Date, a notice of prepayment, substantially in the form attached hereto as Schedule E-1 and Schedule E-2, in accordance with the requirements set forth in Section 315 of the Master Trust Agreement, and to file the same with EMMA. The Escrow Agent shall not have any liability to any party in connection with any failure to timely file such notice and the sole remedy available shall be an action by the holders of such Refunded Certificates in mandamus for specific performance or similar remedy to compel performance.

- If the School Board votes "No": The School Board will not adopt Resolution No. 26-129 in Support of Broward County Public Schools Advancing Education Powered by Artificial Intelligence (AI)

Background/History
As artificial intelligence (AI) technologies rapidly evolve, they are transforming education by enhancing teaching, learning, and school operations. AI offers opportunities for personalized learning, data-driven decision-making, and preparing students for a technology-driven workforce. However, successful integration requires attention to accessibility, responsible use, data privacy, and educator training.

On April 22, 2025, during a Broward School Board Workshop featuring AI, XR, and VR, the term "Broward Powered by AI" was introduced, signaling a bold vision for innovation. Since then, the need for a formal resolution BCPS Advancing Education Powered by AI has grown as technology use expands in classrooms without consistent guidance for educators. While students increasingly interact with AI tools, teachers often lack structured resources and training, creating implementation gaps and potential learning disparities. Concerns about academic integrity, bias, and data security further underscore the urgency for clear ethical standards.

A resolution will:

- Provide structured guidance for responsible AI integration.
- Promote ethical and equitable practices.
- Ensure professional development for educators.
- Prepare students and staff for the demands of a future-ready learning environment.

Alignment to 2027 Goals and Guardrails: Guardrail 1: Safety, Guardrail 2: Equity, Guardrail 3: School Support, and Guardrail 4: Accountability.

Resolution #26-131 in Support of Hands-Free Wireless Communication Device Use While Driving

---

Board Meeting Date: February 10, 2026

Requested Action: Adopt Resolution #26-131 in Support of Hands-Free Wireless Communication Device Use While Driving

School Board Policy Requirement/Authority: N/A

Statutory Requirement/Authority: N/A

District-zone Impact: District-wide

Impact of the School Board's Vote:
- If the School Board votes "Yes": The School Board will adopt resolution #26-131to support hands-free wireless communication device use while driving.
- If the School Board votes "No": The School Board will not adopt resolution #26-131 to support hands-free wireless communication device use while driving.

Background/History
Distracted driving continues to be a leading cause of motor vehicle crashes in the United States, resulting in thousands of injuries and fatalities each year. Data from the National Highway Traffic Safety Administration indicates that the use of handheld wireless devices while driving significantly increases crash risk and is more dangerous than driving under the influence of alcohol. For Broward County Public Schools, distracted driving presents a heightened safety concern for students who travel daily as pedestrians, cyclists, bus riders, and vehicle passengers, particularly in and around school zones and school-related activities. While Florida has enacted laws addressing texting while driving and restricting handheld device use in certain areas, existing measures have proven insufficient. Proposed legislation for the 2026 Florida Legislative Session seeks to prohibit handheld wireless device use while driving statewide, aligning with evidence from other states that hands-free driving laws reduce crashes, injuries, and fatalities and enhance overall roadway and student safety.

RESOLUTION

RESOLUTION IN SUPPORT OF
HANDS-FREE WIRELESS COMMUNICATION DEVICE USE WHILE DRIVING

NO: *26-131*

WHEREAS, distracted driving remains a leading cause of motor vehicle crashes in the United States, contributing to thousands of injuries and fatalities each year; and

WHEREAS, the National Highway Traffic Safety Administration (NHTSA) reports that handheld device interaction while driving increases the risk of crashing by twenty-three (23) times; and

WHEREAS, NHTSA further reports that handheld device interaction while driving is six (6) times more dangerous than driving under the influence of alcohol; and

WHEREAS, a study by Cambridge Mobile Telematics reported a significant increase in screen interaction time while driving of seventeen-point-eight percent (17.8%) from 2020 to 2023; and

WHEREAS, the use of handheld wireless communication devices while driving significantly impairs a driver's ability to safely operate a vehicle by diverting attention from the roadway and increasing reaction time; and

WHEREAS, Broward County Public Schools serves tens of thousands of students who travel daily as pedestrians, cyclists, bus riders, and vehicle passengers to and from school campuses, extracurricular activities, athletic events, and school-sponsored programs; and

WHEREAS, distracted driving poses a heightened risk to student safety in and around school zones, bus loading and unloading areas, crosswalks, sidewalks, and school parking facilities; and

WHEREAS, school bus operators, parents, guardians, staff, and student drivers rely on attentive and responsible driving behavior to ensure safe transportation within the school system; and

WHEREAS, Senate Bill 1152 and House Bill 1241 have been filed by Senator Erin Grall and Representative Omar Blanco, respectively, for the 2026 Florida Legislative Session to prohibit a person from operating a motor vehicle while using a wireless communication device in a handheld manner, thereby closing existing gaps in state law; and

WHEREAS, hands-free driving laws enacted in numerous states have resulted in measurable reductions in traffic crashes, injuries, and fatalities related to distracted driving; and

WHEREAS, The School Board of Broward County, Florida has a responsibility to advocate for laws and policies that promote safe travel conditions for students, employees, families, and the broader school community.
