THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA
OFFICE OF THE SUPERINTENDENT

TUESDAY, SEPTEMBER 1, 2026 5:00 PM
Kathleen C. Wright Building
600 Southeast Third Avenue, Board Room
Fort Lauderdale, Florida 33301

District Educational Facilities Plan (DEFP)

AGENDA FOR SPECIAL SCHOOL BOARD MEETING

SPECIAL SCHOOL BOARD MEETING CAN BE VIEWED VIA LIVE STREAM OVER THE INTERNET ON THE DISTRICT'S WEBSITE (www.browardschools.com).

School Board meetings will be held with Board Members being physically present and via electronic communication. This advertised Special School Board Meeting will be accessible virtually. **Public Written Agenda Comments - Members of the public may submit public written comments by selecting the eComments tab at the following District webpage: https://www.browardschools.com/Page/55263. Public Written Agenda Comments must be submitted no later than 1:00 p.m. the day before the published date of the School Board Meeting or Workshop. Anonymous comments will not be accepted; therefore, written comments must include the person's name, city of residence, and zip code. Written agenda comments may not exceed a maximum of twenty-two hundred and fifty (2250) characters.** Pursuant to School Board Policy 1020, the public may speak a total of twelve (12) minutes during any single meeting, not including committee reports. Additionally, in the event a large group of individuals (ten (10) or more) sign-up to speak on any one agenda item, the Board Chair has the authority to adjust the time limit for each speaker to speak less than the three (3) minutes usually permitted or limit the overall time speakers will be heard on that item.

Free guest parking is available at the southeast 3rd Avenue parking lot on all School Board meeting dates.

CALL TO ORDER

PLEDGE OF ALLEGIANCE TO THE FLAG OF THE UNITED STATES OF AMERICA

ADDED / CHANGED ITEMS

CLOSE AGENDA

PURPOSE OF MEETING

For The School Board of Broward County, Florida to conduct official business of the District, and any other items the Board deems necessary.

SUPERINTENDENT'S RECOMMENDATION(S)

1. **Adopted District Educational Facilities Plan Fiscal Year 2026 - 2027**
   Approve the Fiscal Year 2026-2027 (FY27) Adopted District Educational Facilities Plan (DEFP) for the five years ending June 30, 2031. District-wide

ADJOURNMENT

The School Board of Broward County, Florida, prohibits any policy or procedure which results in discrimination on the basis of age, color, disability, gender identity, gender expression, genetic information, marital status, national origin, race, religion, sex or sexual orientation. The School Board also provides equal access to the Boy Scouts and other designated youth groups. Individuals who wish to file a discrimination and/or harassment complaint may call the Director, Equal Educational Opportunities/ADA Compliance Department & District's Equity Coordinator/Title IX Coordinator at 754-321-2150 or email eeo@browardschools.com.

Individuals with disabilities requesting accommodations under the Americans with Disabilities Act Amendments Act of 2008, (ADAAA) may call Equal Educational Opportunities/ADA Compliance Department at 754-321-2150 or email eeo@browardschools.com. Language Interpretation/Translation Services are available for the public upon request to the Bilingual/ESOL Department by emailing ESOLRequests@browardschools.com.

Any person who decides to appeal any decision made at a meeting(s) announced by this Notice with respect to any matter considered at such meeting(s) will need a record of the proceedings and for such purpose may need that a verbatim record of the proceeding is made, which records testimony and evidence upon which the appeal is to be based.

Telephone conferencing or other telecommunications technology may be used in conducting this public meeting to permit absent Board Members to participate in discussions, to be heard by other School Board Members and the public, and to hear discussions taking place during the meeting.

Notice is hereby given that two or more Board Members of The School Board of Broward County, Florida, may be participating.

EXECUTIVE SUMMARY

Adopted District Educational Facilities Plan Fiscal Year 2026-27

Board Meeting Date: September 1, 2026

Requested Action:
Approve the fiscal year 2026-27 Adopted District Educational Facilities Plan (DEFP) for the five years ending June 30, 2031

General Information

The following information outlines the governing authority, districtwide implications, historical background, strategic alignment with the 2027 goals and guardrails, and the anticipated measurable outcomes and return on investment related to this agenda item.

District-zone Impact/Board Member: District-wide	
School Board Policy Requirement	• Policy 3203
Statutory Requirement	• Florida Statute 1013.35 (2)(d)
If the School Board votes "Yes"	• Staff will continue the preparation of the Adopted District Educational Facilities Plan and incorporate recommendations made by the Board.
If the School Board votes "No"	• Per Florida Statute 1013.61, the Board "shall adopt a capital outlay budget for the ensuing year in order that the capital outlay needs of the board for the entire year may be well understood by the public."
Alignment to the 2027 Strategic Goals and Guardrails	• Business Operations
Measurable Outcome(s)/Return on Investment	• The District will implement the $4.1 billion capital plan over the next five years, beginning July 1, 2026 and ending June 30, 2031.

Background/History

Annually, the District prepares the District Educational Facilities Plan. This is a requirement per Florida Statute 1013.35 (2)(d)

Agreement Terms and Financial Impact

The following information provides a detailed summary of the contract agreement summary, financial impact of this item, including funding allocation, budget authority, fiscal year expenditures, and any current or future financial obligations.

Table A: Agreement Summary, Multi-Year Analysis, and Procurement Method
This table summarizes the contract agreement terms, including the multi-year financial breakdown and total projected cost, and identifies the procurement method used in accordance with District purchasing requirements.

Agreement Term:	N/A
Multi-Year Agreement:	N/A
Procurement Method:	**Piggyback Agreement** (Yes/No): N/A **Acquisition Method**: N/A

Table B: Financial Impact, Funding Source, and Budget Authority
This table summarizes the financial impact of the requested Board action, including the contract agreement authority being approved and the budget sources supporting that request.

Budget Impact Summary Statement:

1. The financial impact of this item is to approve the $4.1 billion fiscal year 2026-27 Adopted District Educational Facilities Plan (ADEFP) for the five years ending June 30, 2031.
2. The first year of the ADEFP will be incorporated in the District's 2026-27 budget.

New / Current Requested Agreement Authority

Agreement Authority Terms	Length of Agreement Terms	Total Agreement Amount
N/A	N/A	N/A

Budget Authority Request(s)
This section identifies the budget sources that support the requested contract agreement authority, including current-year budget availability and any anticipated funding in future fiscal years, subject to the School Board's annual budget approval.

Current Fiscal Year Budget Authority

Fiscal Year	Length of Agreement Terms	Budget Fund	Amount	Included in Budget (Y/N)
2027	N/A	Capital	$1.3 Billion	Y

Future Fiscal Year Budget Authority *(Subject to Board Budget Approval)*

Future Fiscal Year(s)	Length of Agreement Terms	Budget Fund	Amount
2028	N/A	Capital	$653 Million
2029	N/A	Capital	$680 Million
2030	N/A	Capital	$703 Million
2031	N/A	Capital	$740 Million

School Impact, Stakeholder Engagement, and Implementation Considerations

This section outlines how the proposed item will impact schools, including the selection and prioritization process where applicable, as well as stakeholder and end-user input. It also addresses technology and capital asset life cycles, replacement planning, and any additional operational details necessary to provide the Board with a comprehensive understanding of implementation.

Impact on Schools	Tailor budget and financial information to departments with capital projects/programs to support schools and the District's academic goals.
School Selection /Prioritization	Allocate capital resources equitably based on the District's capital needs that best support the strategic plan by creating and maintaining safe, secure, and supportive environments.
Community/ Stakeholder Engagement	Engage stakeholders to gather feedback, develop partnerships, and continue to build trust through a transparent budget process and quality financial information.
End-User Input	Engage the Board and Cabinet in a decision-making process that prioritizes needs based on the District's Guardrails of safety and equity and school support that sustains the District's academic goals.
Technology/Capital Expected Lifecycle/Replacement Cycle	The DEFP-FY27 sustains funding for districtwide maintenance, student and staff computers, school buses, and white fleet vehicles. The plan also funds the District's debt service for past and current financings, as well as funding for building leases, capital outlay staff, and charter school capital outlay.

Additional Backup:

Funding for Capital Outlay Needs

This District Educational Facilities Plan (DEFP-FY27) covers the five-year period beginning July 1, 2026, and ending June 30, 2031. This plan accelerates the work on several facilities and sustains funding for projects that were approved in the DEFP adopted on September 3, 2025.

The DEFP-FY27 continues funding for districtwide maintenance, student and staff computers, school buses, and white fleet vehicles. The plan also funds the District's debt service for financing, as well as funding for building leases, capital outlay staff, and charter school capital outlay.

New funding recommendations totaling $273.9 million over 5 years and $137.1 million for FY27 is summarized in the table below:

Division	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30	FY 2030-31	Total Budgeted
Athletics	5,500,000	5,500,000	5,500,000	5,500,000	5,500,000	27,500,000
Environmental Health and Safety	4,350,000	-	2,770,000	3,500,000	2,310,000	12,930,000
Equipment	5,574,800	1,991,000	1,991,000	1,991,000	1,991,000	13,538,800
Facilities	68,740,000	9,132,000	850,000	850,000	850,000	80,422,000
Fire Department Operations	15,000	15,000	15,000	15,000	15,000	75,000
Information Systems	24,238,572	31,338,000	22,638,000	6,038,000	6,038,000	90,290,572
Physical Plant Operations	23,266,467	-	-	16,309,333	10,517,834	50,093,634
Portables	2,050,000	-	-	-	-	2,050,000
SSEP	2,714,000	2,180,000	1,550,000	890,000	820,000	8,154,000
Transportation	611,642	1,072,880	1,467,573	(7,561,866)	(6,793,127)	(11,202,898)
Grand Total	**137,060,481**	**51,228,880**	**36,781,573**	**27,531,467**	**21,248,707**	**273,851,108**

Highlights of the new funding recommendation for FY 27 are:

Facilities Projects/Initiatives

- Additional funding for Coral Glades Auditorium $9.0 million
- Additional funding for Parkway Middle replacement: $19.5 million
- Additional funding for C. Robert Markham ES building replacement $7.5 million
- HVAC replacements for Crystal Lake Middle, Watkins Elementary, Sandpiper Elementary, and Riverside Elementary: $15.3 million
- New River Middle heat pump replacement $3.4 million
- Schematic design for prototype MS $1 million

Physical Plant Operations

- Additional funding for HVAC projects, structural repairs, school painting, and beautification: $23.3 million

Environmental Health and Safety

- Additional funding for drainage and storm water modifications $4.3 million

Information Systems

- Additional funding for ERP subscription cost, moved to Capital; this is a $6.0 million savings to the General Fund, and additional network and server

equipment, $2.2 million

- New ERP system implementation $13.3 million

Athletics

- Additional funding for scoreboard replacements, turf fields, and annual track replacements districtwide, $5.5 million

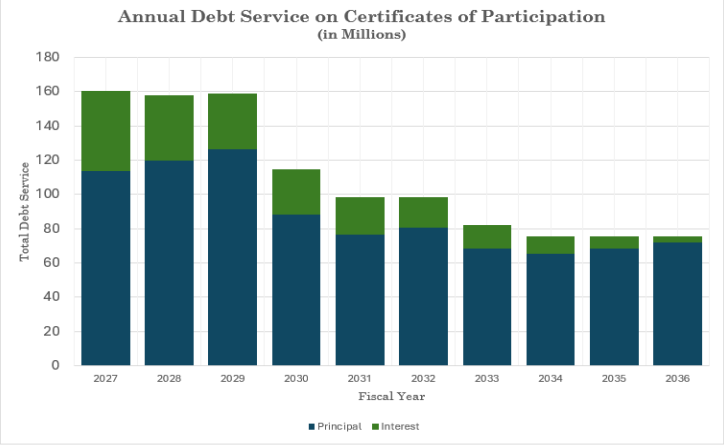

Long Range Planning – Facility Condition Assessment & Redefining Our Schools

The long-range facilities plan will provide a comprehensive view of the District's facility needs and serve as an essential element in fiscal planning. The District cannot fund all of its facility needs and will need to prioritize limited financial resources to best meet the most critical of those needs. To assist with this effort, a Facility Condition Assessment (FCA) can help identify specific building deficiencies and determine feasibility using facility data during the assessment. The District has the opportunity to utilize the FCA data, along with demographic data and stakeholder feedback, to further develop options that can redefine how our schools serve our students and staff. The DEFP can be amended if needed once proposed projects are developed through this process.

COPs Debt Capacity

The District has debt capacity to undertake certain types of large-scale projects that can be collateralized in a Certificate of Participation (COPs) financing. These resources can be responsibly leveraged well below the statutory ceiling, since the District currently has a much lower COPs debt-to-millage ratio than its target maximum in Policy 3120.

The chart below shows the District's outstanding principal and interest on COPs debt. This shows that the District begins to rapidly pay down its outstanding debt beginning in FY2030, freeing up a future stream of revenue that can be leveraged to provide resources for large-scale facility projects such as those developed using the data in the FCA.

Proposed COPs Financing

Project	Currently Approved	Additional Funding	Total
Parkway MS - Replace Buildings	$ 41.5	$ 19.5	$ 61.0
Coral Glades HS - New Auditorium	36.9	9.0	45.9
Mary Bethune ES - New Building	16.1	-	16.1
Subtotal Collateral Projects	**$ 94.5**	**$ 28.5**	**$ 123.0**
Districtwide Comprehensive Needs			40.6
Planning and Contingency			12.3
Total Proposed COPs Financing			**$ 175.9**

Given the District's future debt capacity and capital needs identified in the FCA, the FY 27 DEFP includes the District borrowing approximately $176 million through Certificates of Participation (COPs) in order to fund the replacement of buildings at Parkway Middle School, a new auditorium at Coral Glades High School, a new administration building at Mary Bethune Elementary School, as well as districtwide comprehensive needs.

Capital Reserves

The District sustains unallocated reserves to stabilize the capital projects and other capital programs in the DEFP. These reserves protect ongoing projects over the duration of the capital program so that changes in the economic environment and other risks are mitigated. These reserves are shown on the Appropriations page, and details of the approved transactions that impact the reserve funds are shown in the Appendix.

Funds that are allocated using the capital reserve require the Board's approval, and all future amounts are subject to change based on economic conditions and the results of annual legislative action.

Cost Index – Risk Projections

Each fiscal year provides funding for projected cost increases using a calculated cost index. This cost index is to mitigate the inflationary costs of goods and services for those items subject to such increases. The Cost Index is a 10-year average of the U.S. Bureau of Labor and Statistics CPI-U and for this plan is 3.18% shown in the table below.

	U.S. City Average											
	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Percent change from 12 months ago												
2016	1.4	1.0	0.9	1.1	1.0	1.0	0.8	1.1	1.5	1.6	1.7	2.1
2017	2.5	2.7	2.4	2.2	1.9	1.6	1.7	1.9	2.2	2.0	2.2	2.1
2018	2.1	2.2	2.4	2.5	2.8	2.9	2.9	2.7	2.3	2.5	2.2	1.9
2019	1.6	1.5	1.9	2.0	1.8	1.6	1.8	1.7	1.7	1.8	2.1	2.3
2020	2.5	2.3	1.5	0.3	0.1	0.6	1.0	1.3	1.4	1.2	1.2	1.4
2021	1.4	1.7	2.6	4.2	5.0	5.4	5.4	5.3	5.4	6.2	6.8	7.0
2022	7.5	7.9	8.5	8.3	8.6	9.1	8.5	8.3	8.2	7.7	7.1	6.5
2023	6.4	6.0	5.0	4.9	4.0	3.0	3.2	3.7	3.7	3.2	3.1	3.4
2024	3.1	3.2	3.5	3.4	3.3	3.0	2.9	2.5	2.4	2.6	2.7	2.9
2025	3.0	2.8	2.4	2.3	2.4	2.7	2.7	2.9	3.0		2.7	2.7
2026	2.4	2.4	3.3	3.8								

Footnotes
(1) Data unavailable due to the 2025 lapse in appropriations

Completed Projects

Completed projects are those projects that have had financial activity, and the scope of the project is complete. There may be some additional financial activity on these projects as the final payments are made and all the purchase orders are closed out. Remaining balances for completed projects will be returned to the unallocated reserve until the Board takes action to re-prioritize the funds for other District needs.

School-by-School Projects

Within the DEFP, there is a schedule of the detailed projects for each school in the District. This is a funding schedule and does not represent the project construction schedules. As of this year's DEFP adoption, nearly all the projects within the School-by-School schedules were funded prior to fiscal year 2027 (FY27). Therefore, you will not see funding listed in FY27 through FY31 for most of the construction projects in this DEFP. All projects that are shown in the DEFP are funded as indicated by the Budgeted column.

Hallandale High School			
Project Type	Fiscal Year	Budgeted	Scope
Renovation	FY15	64,666	Improvements to Building Envelope, Electrical, Fire Alarm, Fire Sprinklers, HVAC, STEM Lab, and Media Center
Renovation	FY26	73,058	Additional Funding For Electrical Renovations HVAC, STEM Lab, and Media Center
Renovation	FY26	197,213	Additional funding for Renovations
Renovation	FY26	716,774	Improvements to Building Envelope, Electrical, Fire Alarm, Fire Sprinklers, HVAC, STEM Lab, and Media Center
School Total		1,051,711	

In summary, the DEFP is a funding plan and should not be used for construction timelines or schedules.

Appendices

The Appendix section includes other information that is required by Section 1013.35, Florida Statutes, and the Citizens Concerned about our Children (CCC) Settlement Agreement to be included in the DEFP. The appendix schedules include the Portable Transition Plan, the Public School Concurrency Plan (including the Level of Service Plan), the Allocation of Resources - 10 and 20-Year Plan, the Reserve Activity Report, SMART Projects Rolling Into DEFP, Completed Projects, a list of schools that have new funding for playgrounds, Physical Plant Operation Districtwide Projects, and Environmental Health & Safety Districtwide Projects.

Capital Budget Department

Fiscal Year 2026-27 Adopted District Educational Facilities Plan

September 1, 2026
Special School Board Meeting

Omar Shim, Chief Financial Officer, Task Assigned
Rafiki Brown, Director of Capital Budget, Task Assigned

Established 1915 BROWARD County Public Schools | A RATED SCHOOL DISTRICT

INTRODUCTION

Presentation Rationale:	**District Educational Facilities Plan (DEFP)** The District prepares the DEFP to comply with Florida Statute 1013.35, which requires school districts to annually adopt a comprehensive, long-range facilities plan—supported by an educational plant survey under Section 1013.31—that guides capital planning and ensures facility needs are identified and addressed.
Purpose:	To orient all School Board members on the recommendations for the Fiscal Year 2026-2027 DEFP.
Connection to the Strategic Plan:	The Superintendent shall ensure that the District operates within a robust accountability framework for policy implementation, incorporating clear expectations, performance evaluation, transparency, and continuous improvement. The DEFP will align with the District's guardrails of Safety, Equity, School Support, and Accountability.
Request to the School Board:	Please review the recommendation for the Fiscal Year 2026-2027 DEFP and provide direction to the Superintendent. **Financial Impact:** The financial impact of the recommendation is to approve the $4.1 billion fiscal year 2026-27 Adopted DEFP for the five years ending June 30, 2031.

REVENUE AND FINANCING
(in millions)

Revenue & Financing Sources	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
Local Capital Millage	$519.3	$549.3	$580.9	$613.9	$649.9	$2,913.3
Certificates of Participation (COPs Financing)	175.9					175.9
Local Sources (Impact Fees / Land Sale)	23.7	9.1	8.1	7.1	7.2	55.2
Intercom Systems Lease Financing	10.0	10.0	5.0	5.0	5.0	35.0
Technology Devices and Refresh Lease Financing	16.9	16.9	16.9	16.9	16.9	84.5
Vehicle Lease Financing (Bus & White Fleet)	21.5	22.8	23.8	14.8	15.7	98.6
State	45.1	45.1	45.1	45.1	45.1	225.5
Subtotal New Revenue Sources	**$812.4**	**$653.2**	**$679.8**	**$702.8**	**$739.8**	**$3,588.0**
Carryover Allocated to Capital Projects & Programs	415.6					415.6
Unallocated Carryover (as of 6/30/2026)	59.0					59.0
Total Revenue Sources	**$1,287.0**	**$653.2**	**$679.8**	**$702.8**	**$739.8**	**$4,062.6**

- Millage revenue increased by 4% over the prior year's millage revenue, based on the Broward County Property Appraiser's (BCPA) certified property values as of July 1, 2025.

APPROPRIATIONS
(in millions)

Appropriation Category	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
COPs, Equipment, and Building Leases	$ 190.2	$ 202.0	$ 205.1	$ 167.6	$ 151.3	$ 916.2

DESCRIPTION OF REQUESTS

Fiscal Year 2026–2027 Requests by Division include funding for the following:

•**Facilities projects**,

- Additional Funding for Coral Glades Auditorium – $9.0M
- Additional Funding for Parkway Middle Replacement – $19.5M
- Additional Funding for C. Robert Markham Elementary Building Replacement – $7.5M
- HVAC Replacements for Crystal Lake Middle, Watkins Elementary, Sandpiper Elementary, and Riverside Elementary – $15.3M
- New River Middle Heat Pump replacement - $3.4M
- Schematic Design for Prototype Middle School - $1M

•**Additional funding for Physical Plant Operations (PPO)**, primarily for HVAC, structural repairs, school painting, and beautification – $23.3M

•**Additional Environmental Health and Safety projects**, including drainage and stormwater modifications – $4.3M

•**Additional funding for Information Technology Systems**, including ERP subscription cost, moved to Capital; this is a savings to the General Fund – $6.0M, and additional network and server equipment $2.2M

•**Athletic projects,** including scoreboard replacements, additional funding for turf fields, and annual track replacements districtwide – $5.5M

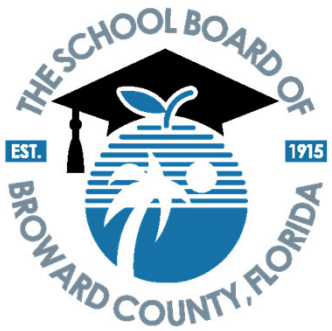

•**New ERP System,** including implementation - $13.3M

Future Funding Considerations

- **Future funding considerations include the following,**
  - Redefining Schools – next steps yet to be determined
  - New Maintenance Funding – additional funding to sustain planned maintenance schedules
  - Increase Capital Transfer to General Fund for Eligible Projects
  - Long-Range Facilities Plan – new Facilities projects yet to be identified
- **Debt Capacity,**
  - The District possesses the debt capacity to begin funding future capital projects

DISTRICT 2 HIGHLIGHTS

Superintendent Spotlight

As superintendent of the nation's sixth-largest school district – with over 236,000 students in 239 schools and nearly 28,000 employees – Broward County Public Schools Superintendent Dr. Howard Hepburn is committed to Educating Today's Students to Succeed in Tomorrow's World.

Dr. Hepburn, an esteemed educator with over two decades of experience, served BCPS as the Deputy Superintendent of Teaching and Learning. Among his many accomplishments, Dr. Hepburn is recognized as a change leader, dedicated to implementing strategies that raise awareness and bridge learning gaps in socio-economically challenged communities, thereby empowering them to surpass expectations.

Throughout his career, Dr. Hepburn has held pivotal roles, including classroom teacher, coach, dean, assistant principal, principal and instructional superintendent. He has actively contributed to numerous district committees aimed at enhancing student achievement and ensuring equitable learning opportunities.

With a focus on closing achievement gaps and expanding student access to accelerated courses, Dr. Hepburn has served as an instructional leader in large urban school districts in Florida, notably the School District of Palm Beach County.

There, he served as Instructional Superintendent for the Glades Region, and subsequently the South Region, supporting secondary principals and leadership teams in navigating intricate school environments. His expertise focuses on implementing effective strategies to foster continuous student achievement while nurturing instructional and leadership capacity to tackle complex challenges.

Guided by the principles of empathy, culture, value and aggregate efficiency, Dr. Hepburn ensures that his support strategies remain student-centered. He holds a Bachelor of Science in Science Education and a Master of Education in Educational Leadership from the University of Central Florida, and a Doctor of Education in Educational Leadership from Florida Southern College.

Dr. Hepburn has been happily married for 20 years and has three beautiful children.

DISTRICT 3 HIGHLIGHTS

Welcome!

An "A" rated school District, Broward County Public Schools (BCPS) is the **sixth-largest** school system in the nation and the **second-largest** in the state of Florida. BCPS is Florida's **first fully accredited school system** since 1962, serving more than **236,000 K-12 students** and approximately **125,000** adult students in **239** schools, centers and technical colleges, and **86** charter schools.

BCPS supports a diverse student population, representing **174** different countries and speaking **157** languages.

DISTRICT EDUCATIONAL FACILITIES PLAN OVERVIEW
FISCAL YEARS 2026-27 THROUGH 2030-31

The law requires each district to prepare its tentative district educational facilities plan as required by s. 1013.35. Annually, before the adoption of the district school budget, each district school board shall prepare a tentative district educational facilities plan that includes long-range planning for facilities needs over 5-year, 10-year, and 20-year periods.

District Educational Facilities Plan (DEFP) – Strategic Plan Objectives

To support the District's strategic plan, the DEFP process is aligned with the strategic plan guardrails as follows:

Guardrails	Capital Budget Process Objective
✓ Safety ✓ Equity	• Allocate capital resources equitably based on the District's capital needs that best support the strategic plan by creating and maintaining safe, secure, and supportive environments.
✓ Safety ✓ Equity ✓ School Support	• Engage the Board and Cabinet in a decision-making process that prioritizes needs based on the District's Guardrails of safety and equity and school support that sustains the District's academic goals.
✓ School Support	• Tailor budget and financial information to departments with capital projects/programs to support schools and the District's academic goals.
✓ Accountability	• Engage stakeholders to gather feedback, develop partnerships, and continue to build trust through a transparent budget process and quality financial information.

The process of Adopting the DEFP allows the public to provide input into the plan and meets the District's guardrails of safety, equity, school support, accountability, and wellness support. Funding for capital construction projects, technology and academic equipment, buses, and support vehicles provides the means to create and maintain a Safe & Supportive Environment and allows the District's educational professionals to have the appropriate classroom environments to provide high-quality instruction.

STUDENTS FIRST

2022 - 2027 STRATEGIC PLAN

The School Board of Broward County, Florida has adopted a student outcomes-focused approach to governing to improve what students know and can do with the knowledge and skills Broward County Public Schools provides to succeed in the future.

GOALS

Early Literacy Proficiency
The percent of grade 3 students who demonstrate grade-level performance or above on the state English Language Arts (ELA) assessment will grow from 52% in June 2022 to 65% by June 2027.

Algebra Proficiency
The percent of students who met the Algebra graduation testing requirement by the end of grade 9 will grow from 53% in June 2022 to 63% by June 2027.

Science Proficiency
The percent of grade 8 students who demonstrate grade-level performance or above on the Florida Statewide Science Assessment or Biology EOC will grow from 47% in June 2022 to 55% by June 2027.

College & Career Readiness
The percent of graduates who earned any combination of two from the following list: College credit on an AP exam, IB exam, AICE exam, or dual enrollment course; Industry certification; CTACE internship; will grow from 41% in June 2022 to 51% by June 2027.

GUARDRAILS

Safety
The Superintendent may not allow a breach of safety policies and procedures that result in an increase in threatening or unsafe circumstances for students and staff.

Equity
The Superintendent may not allow resources to be allocated without firm evidence of their equitable distribution.

School Support
The Superintendent may not allow classrooms in C, D, F or Unsatisfactory rated schools to go without essential material and human resources.

Accountability
The Superintendent may not allow the District to operate without an accountability system for policy implementation that includes expectations, evaluation, transparency and continuous improvement.

Wellness Support
The Superintendent may not make decisions without ensuring students and staff are connected with necessary wellness resources.

Funding for Capital Outlay Needs

This District Educational Facilities Plan (DEFP-FY27) covers the five-year period beginning July 1, 2026, and ending June 30, 2031. This plan accelerates the work on several facilities and sustains funding for projects that were approved in the DEFP adopted on September 3, 2025.

The DEFP-FY27 continues funding for districtwide maintenance, student and staff computers, school buses, and white fleet vehicles. The plan also funds the District's debt service for financing as well as funding for building leases, capital outlay staff, and charter school capital outlay.

New funding recommendations totaling $273.9 million over 5-years and $137.1 million for FY27 is summarized in the table below:

Division	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30	FY 2030-31	Total Budgeted
Athletics	5,500,000	5,500,000	5,500,000	5,500,000	5,500,000	27,500,000
Equipment	5,574,800	1,991,000	1,991,000	1,991,000	1,991,000	13,538,800
Facilities	68,740,000	9,132,000	850,000	850,000	850,000	80,422,000
Fire Department Operations	15,000	15,000	15,000	15,000	15,000	75,000
Information Systems	24,238,572	31,338,000	22,638,000	6,038,000	6,038,000	90,290,572
Physical Plant Operations	23,266,467	-	-	16,309,333	10,517,834	50,093,634
Portables	2,050,000	-	-	-	-	2,050,000
SSEP	2,714,000	2,180,000	1,550,000	890,000	820,000	8,154,000
Sustainability & Compliance	4,350,000	-	2,770,000	3,500,000	2,310,000	12,930,000
Transportation	611,642	1,072,880	1,467,573	(7,561,866)	(6,793,127)	(11,202,898)
Grand Total	**137,060,481**	**51,228,880**	**36,781,573**	**27,531,467**	**21,248,707**	**273,851,108**

Highlights of the new funding recommendation for FY 27 are:

Facilities Projects/Initiatives

- Additional funding for Coral Glades Auditorium $9.0 million
- Additional funding for Parkway Middle replacement $19.5 million
- Additional funding for C. Robert Markham ES building replacement $7.5 million
- HVAC replacements for Crystal Lake Middle, Watkins Elementary, Sandpiper Elementary, and Riverside Elementary $15.3 million
- New River Middle heat pump replacement $3.4 million

- Schematic design for prototype MS $1 million

Physical Plant Operations

- Additional funding for HVAC projects, structural repairs, school painting and beautification $23.3 million

Sustainability & Compliance

- Additional funding for drainage and storm water modifications $4.3 million

Information Systems

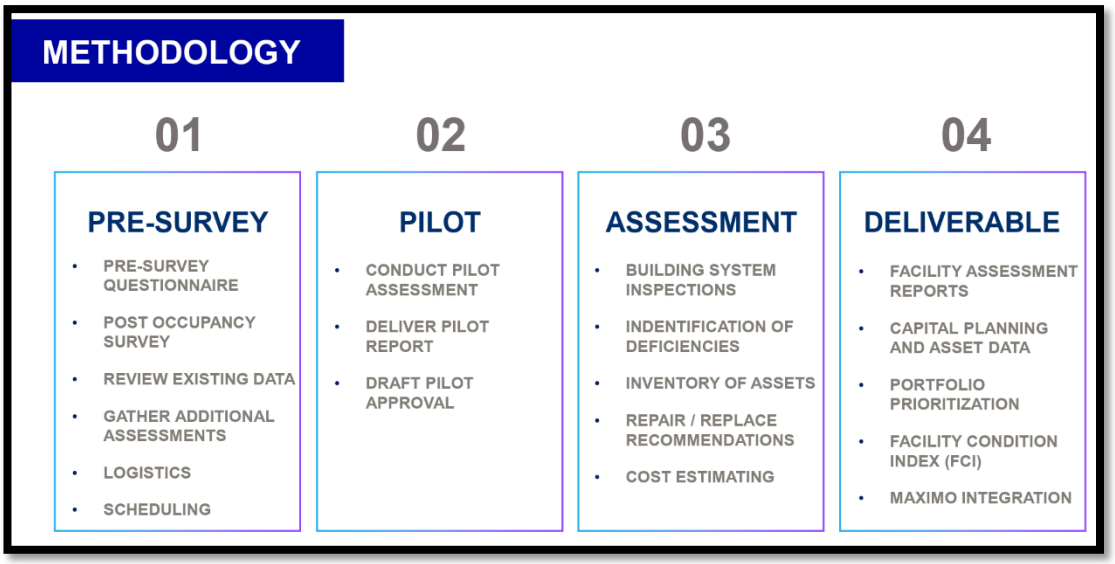

- Additional funding for ERP subscription cost, moved to Capital; this is a $6.0 million savings to the General Fund, and additional network and server equipment $2.2 million
- New ERP system implementation $13.3 million

Athletics

- Additional funding for scoreboard replacements, turf fields, and annual track replacements districtwide $5.5 million

Long Range Planning – Facility Condition Assessment & Redefining Our Schools

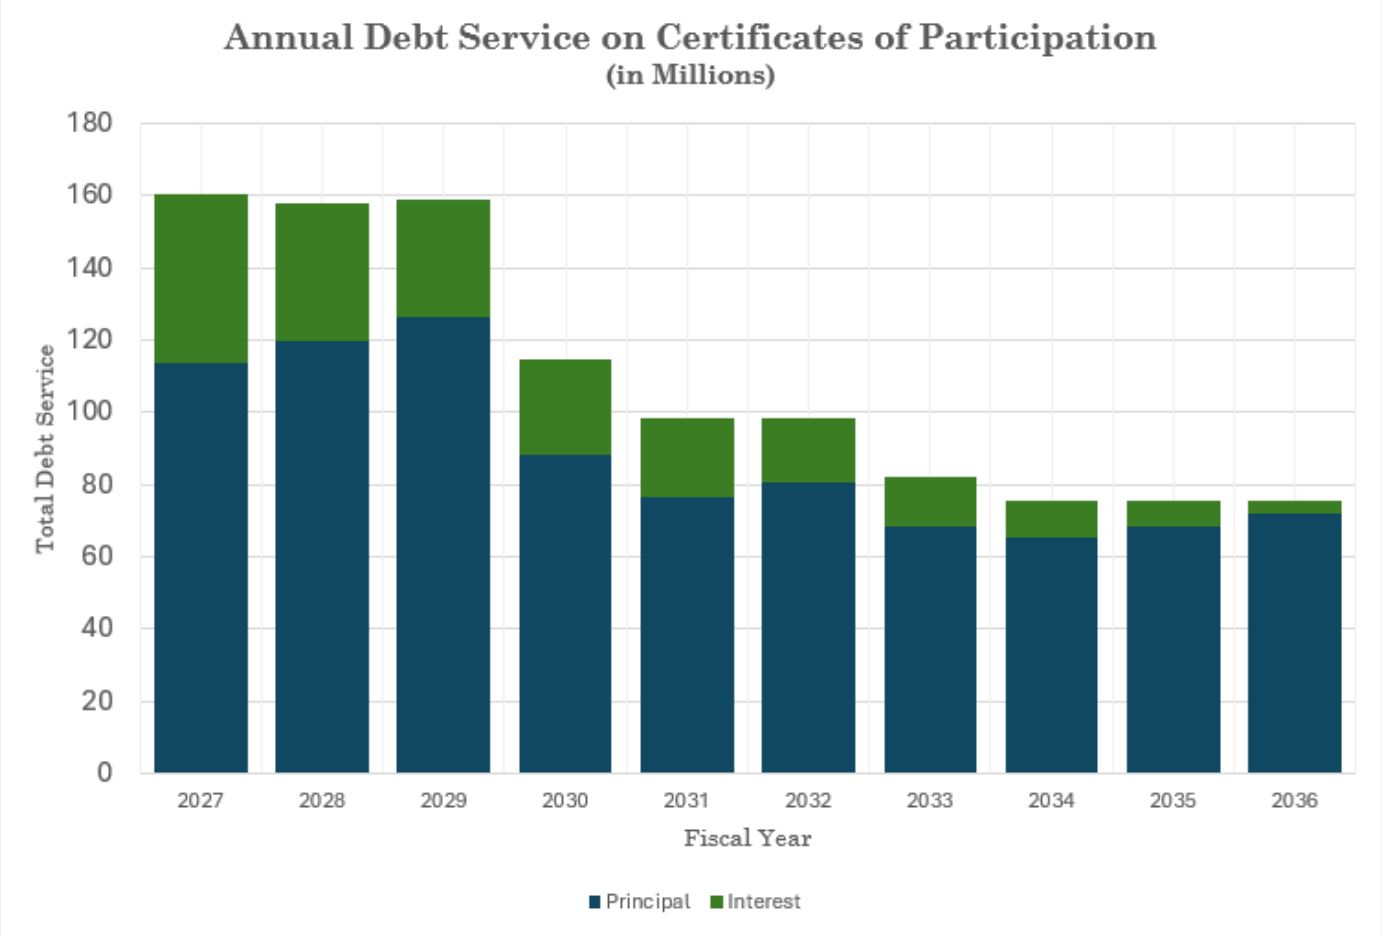

The long-range facilities plan will provide a comprehensive view of the District's facility needs and serve as an essential element in fiscal planning. The District cannot fund all of its facility needs and will need to prioritize limited financial resources to best meet the most critical of those needs. To assist with this effort, a Facility Condition Assessment (FCA) can help identify specific building deficiencies and determine feasibility using facility data during the assessment. The District has the opportunity to utilize the FCA data, along with demographic data and stakeholder feedback to further develop options that can redefine how our schools serve our students and staff. The DEFP can be amended if needed once proposed projects are developed through this process.

COPs Debt Capacity

The District has debt capacity to undertake certain types of large-scale projects that can be collateralized in a Certificate of Participation (COPs) financing. These resources can be responsibly leveraged well below the statutory ceiling, since the District currently has a much lower COPs debt-to-millage ratio than its target maximum in Policy 3120.

The chart below shows the District's outstanding principal and interest on COPs debt. This shows that the District begins to rapidly pay down its outstanding debt beginning in FY2030, freeing up a future stream of revenue that can be leveraged to provide resources for large-scale facility projects such as those developed using the data in the FCA.

Proposed COPs Financing

Project	Currently Approved	Additional Funding	Total
Parkway MS - Replace Buildings	$ 41.5	$ 19.5	$ 61.0
Coral Glades HS - New Auditorium	36.9	9.0	45.9
Mary Bethune ES - New Building	16.1	-	16.1
Subtotal Collateral Projects	**$ 94.5**	**$ 28.5**	**$ 123.0**
Districtwide Comprehensive Needs			40.6
Planning and Contingency			12.3
Total Proposed COPs Financing			**$ 175.9**

Given the District's future debt capacity and capital needs identified in the FCA, the FY 27 DEFP includes the District borrowing approximately $176 million through Certificates of Participation (COPs) in order to fund the replacement of buildings at Parkway Middle School, a new auditorium at Coral Glades High School, a new administration building at Mary Bethune Elementary School, as well as districtwide comprehensive needs.

Capital Reserves

The District sustains unallocated reserves to stabilize the capital projects and other capital programs in the DEFP. These reserves protect ongoing projects over the duration of the capital program so that changes in the economic environment and other risks are mitigated. These reserves are shown on the Appropriations page, and details of the approved transactions that impact the reserve funds are shown in the Appendix.

Funds that are allocated using the capital reserve require the Board's approval, and all future amounts are subject to change based on economic conditions and the results of annual legislative action.

Cost Index – Risk Projections

Each fiscal year provides funding for projected cost increases using a calculated cost index. This cost index is to mitigate the inflationary costs of goods and services for those items subject to such increases. The Cost Index is a 10-year average of the U.S. Bureau of Labor and Statistics CPI-U and for this plan is 3.18% shown in the table below.

U.S. City Average												
	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Percent change from 12 months ago												
2016	1.4	1.0	0.9	1.1	1.0	1.0	0.8	1.1	1.5	1.6	1.7	2.1
2017	2.5	2.7	2.4	2.2	1.9	1.6	1.7	1.9	2.2	2.0	2.2	2.1
2018	2.1	2.2	2.4	2.5	2.8	2.9	2.9	2.7	2.3	2.5	2.2	1.9
2019	1.6	1.5	1.9	2.0	1.8	1.6	1.8	1.7	1.7	1.8	2.1	2.3
2020	2.5	2.3	1.5	0.3	0.1	0.6	1.0	1.3	1.4	1.2	1.2	1.4
2021	1.4	1.7	2.6	4.2	5.0	5.4	5.4	5.3	5.4	6.2	6.8	7.0
2022	7.5	7.9	8.5	8.3	8.6	9.1	8.5	8.3	8.2	7.7	7.1	6.5
2023	6.4	6.0	5.0	4.9	4.0	3.0	3.2	3.7	3.7	3.2	3.1	3.4
2024	3.1	3.2	3.5	3.4	3.3	3.0	2.9	2.5	2.4	2.6	2.7	2.9
2025	3.0	2.8	2.4	2.3	2.4	2.7	2.7	2.9	3.0		2.7	2.7
2026	2.4	2.4	3.3	3.8								

Footnotes
(1) Data unavailable due to the 2025 lapse in appropriations

Completed Projects

Completed projects are those projects that have had financial activity and the scope of the project is done. There may be some additional financial activity on these projects as the final payments are made and all the purchase orders are closed out. Remaining balances for completed projects will be returned to the unallocated reserve until the Board takes action to re-prioritize the funds for other District needs.

School-by-School Projects

Within the DEFP, there is a schedule of the detailed projects for each school in the District. This is a funding schedule and does not represent the project construction schedules. As of this year's DEFP adoption, nearly all the projects within the School-by-School schedules were funded prior to fiscal year 2027 (FY27). Therefore, you will not see funding listed in FY27 through FY31 for most of the construction projects in this DEFP. All projects that are shown in the DEFP are funded as indicated by the Budgeted column.

Hallandale High School			
Project Type	Fiscal Year	Budgeted	Scope
Renovation	FY15	64,666	Improvements to Building Envelope, Electrical, Fire Alarm, Fire Sprinklers, HVAC, STEM Lab, and Media Center
Renovation	FY26	73,058	Additional Funding For Electrical Renovations HVAC, STEM Lab, and Media Center
Renovation	FY26	197,213	Additional funding for Renovations
Renovation	FY26	716,774	Improvements to Building Envelope, Electrical, Fire Alarm, Fire Sprinklers, HVAC, STEM Lab, and Media Center
School Total		1,051,711	

In summary, the DEFP is a funding plan and should not be used for construction timelines or schedules.

Appendices

The Appendix section includes other information that is required by Section 1013.35, Florida Statutes, and the Citizens Concerned about our Children (CCC) Settlement Agreement to be included in the DEFP. The appendix schedules include the Portable Transition Plan, the Public School Concurrency Plan (including the Level of Service Plan), the Allocation of Resources - 10 and 20-Year Plan, the Reserve Activity Report, SMART Projects Rolling Into DEFP, Completed Projects, a list of schools that have new funding for playgrounds, Physical Plant Operation Districtwide Projects, and Sustainability & Compliance Districtwide Projects.

DISTRICT 4 HIGHLIGHTS

Broward County Public Schools

Glossary of Terms

1. **Adopted District Educational Facilities Plan (ADEFP)**

   The ADEFP is a five-year capital improvement plan and budget planning document that is revised annually and adopted by the School Board. The first year of the ADEFP is incorporated into the District's capital budget. The ADEFP and the budget is a projection of revenues and a plan to appropriate funding for anticipated expenditures.

2. **Building Replacement**

   Requires additional analysis by the Design Professional hired to determine if a building is in a condition that would warrant replacement or if the building is sufficiently structurally sound that would make improvements appropriate.

3. **Capital Millage**

   On an annual basis, the School Board of Broward County considers a measure to continue to impose a 1.5 mill property tax to fund District capital projects including construction, remodeling, maintenance, renovation, repair, motor vehicle purchases, new and replacement equipment/software, lease-purchase agreements for facilities/sites, rental payments for facilities/sites, loan payments, environmental compliance, property and casualty insurance, bus drivers salaries/benefits, and charter school capital outlay projects.

4. **Certificates of Participation (COPs)**

   COPs serve as a form of collateral-based, long-term, lease purchase financing paid from the Capital Millage 1.5 mill property tax to fund new or replacement school facilities, as well as significant renovation projects. Pursuant to Section 1011.71(2)(e), Florida Statutes, a district may allocate up to 75 percent of its 1.5 mill revenue towards (COP) obligations.

5. **Districtwide Funding**

   Funding/project(s) for locations other than schools, or projects/programs that effect larger populations of schools.

6. **Fiscal Years**

   The District's Fiscal Year begins on July 1 each year and ends on June 30 in the following calendar year. For example, the fiscal year beginning July 1, 2026 and ending June 30, 2027 is referred to as "Fiscal Year 2027," "Fiscal Year 27," or "FY27".

7. **SMART Program Projects Rolling Into DEFP**

The District's remaining SMART Program projects have been incorporated into the FY27 DEFP.

DISTRICT 6 HIGHLIGHTS

Portable Transition Plan

Part I: Inspection, Disposition, Demolition

Currently, Broward County Public Schools (BCPS) maintains an inventory of 734 portable buildings districtwide. Of this total, 102 portable buildings have been identified by the Building Department, in coordination with the Physical Plant Operations (PPO) Department, as either Unsatisfactory or Failed Standards and have been recommended for disposition and demolition. The PPO Department is currently coordinating the planning, budgeting, and implementation activities associated with the removal of these portable buildings.

The distribution of portable buildings within the BCPS inventory and their respective conditions is presented in Table 1. In accordance with Florida Department of Education (FDOE) requirements, portable buildings classified as Failed Standards or Unsatisfactory are not eligible for instructional use and may be considered for disposition and demolition. Prior to demolition, such facilities must be declared surplus by The School Board of Broward County, Florida (SBBC) in accordance with applicable statutes, policies, and administrative procedures.

Table 1 - Portable Conditions – Fiscal Year 2026/2027

Facility Type	Total Portables Remaining in the District's Inventory	Total Portables in Satisfactory Condition	Total Portables 20 Years and Older (1958-2006)	Total Portables Deemed Unsatisfactory and Recommended for Funding and Disposal in FY 2026-2027 (1) - (2)
Elementary	229	158	229	36
Middle	176	120	150	31
High	190	115	164	31
Centers	100	85	100	2
Administration	39	34	39	2
TOTAL	**734**	**512**	**682**	**102**

[1]Portables were deemed to Failed Standards by the Florida Department of Education (FDOE) because these portables did not meet some of the FDOE 17 criteria. Therefore, such portables were not affixed with the required DCA (Department of Community Affairs) insignia by the FDOE.

[2] Portables deemed Unsatisfactory: Are typically due to compromising effects on the structural integrity, or excessive physical deterioration of the portable facility.

The portable buildings identified in Table 1 were evaluated based on information provided by the Building Department and the Physical Plant Operations (PPO) Department during April and May 2026. Following a comprehensive review of the condition assessments and supporting documentation, a total of one hundred and two (102) portable buildings were determined to be in Unsatisfactory condition and/or classified as Failed Standards. These portable buildings are distributed as follows: thirty-six (36) at elementary schools, thirty-one (31) at middle schools, thirty-one (31) at high schools, two (2) at centers, and two (2) at administrative sites.

BCPS subsequently conducted its established administrative review process to evaluate the eligibility of the identified portable buildings for disposition and demolition. Upon completion of this review, all one hundred and two (102) portable buildings were determined to be eligible for demolition during Fiscal Year (FY) 2026/2027. The review, analysis, project development, and preparation of supporting documentation for inclusion in the District Educational Facilities Plan (DEFP) were coordinated by the Office of Capital Programs, Pre-Construction Department, in collaboration with the Building Department, Physical Plant Operations (PPO), Information Technology, and other District stakeholders. BCPS is requesting funding in the amount of $2,050,000 to support the demolition, removal, technology infrastructure modifications, and associated site restoration activities for the portable buildings identified in Table 2.

In administering the Portable Transition Plan (PTP), it is important to recognize that certain portable facilities consist of quadruple and sextuplex configurations. Although these structures may be interconnected beneath a common roof system, each individual portable unit is assigned a unique Florida Inventory of School Houses (FISH) number and maintained as a separate facility record within the Educational Facilities Information System (EFIS) administered by the Florida Department of Education (FDOE). Furthermore, the PPO Department has advised that demolition costs are calculated on a per-unit basis rather than by the overall portable complex. This methodology ensures consistency in budgeting, regulatory compliance, and facility inventory management.

Following approval of the funding request contained herein by The School Board of Broward County, Florida (SBBC), the Office of Capital Programs (OCP) will initiate the necessary administrative actions to obtain School Board approval declaring the identified portable buildings as surplus property. Upon completion of this action, the PPO Department will proceed with the required due diligence activities associated with the demolition and removal of the subject portable buildings.

Upon completion of the demolition process, all applicable facility records and inventory databases will be updated to reflect the removal of the portable buildings from the BCPS inventory. These updates will include, but not be limited to, the District's Planning Tool for School Enrollment and Capacity, FISH inventory records, EFIS records, and other related facility management systems.

Criteria to Select by the Order of Priority Portables Deemed as Unsatisfactory and Slated for Demolition

A portable may be considered for demolition if it meets one or more of the following criteria:

- The portable buildings are more than twenty (20) years old.
- The portables are located at schools that are identified as under-enrolled (≤75%).
- The portables are arranged in a cluster setting.
- The portable buildings are utilized for non-instructional purposes, such as storage, are underutilized, or are no longer in use.
- The portables pose safety and security issues at their location.

Upon the selection of the portables, ONLY portables listed in year 1 of the Five (5) Year Portable Demolition Plan Distribution will be recommended for funding and demolition. Therefore, the Five (5) Year Portable Demolition Plan Distribution shall reflect portables slated for demolition, in each five (5) year cycle of an effective DEFP.

Table 4 – Five (5) Year Portable Demolition Plan Distribution

STEP 1	INITIAL PORTABLE DISPOSITION DISTRIBUTION LIST Process will continue each year to add additional portables to the list that could be deemed as Unsatisfactory and qualified to be disposed					
	FY 2026/2027	YEAR 1	YEAR 2	YEAR 3	YEAR 4	YEAR 5
Total portables identified as Unsatisfactory and meet one or more of the criteria points	102	20%	20%	20%	20%	20%

The Five-Year Portable Demolition Plan is intended to support the systematic identification, disposition, and removal of portable buildings deemed Unsatisfactory or Failed Standards through the annual District Educational Facilities Plan (DEFP) process. However, due to the significant number of deteriorated portable buildings identified throughout the District and the need to expedite their removal, funding is being requested for all one hundred two (102) portable buildings identified in the FY 2026/2027 DEFP, rather than distributing the projects over the five-year planning horizon.

BCPS will continue to conduct annual evaluations of portable buildings in coordination with school administrators, the Building Department, Physical Plant Operations (PPO), and other relevant stakeholders. Portable buildings determined to be Unsatisfactory, Failed Standards, or beyond feasible repair may be incorporated into future DEFP cycles as warranted.

The Annual Portable Inspection and Disposition Plan establishes the District's framework for the inspection, evaluation, funding, surplus declaration, and demolition of portable buildings. Under this process, the Building Department performs annual inspections and identifies portable buildings requiring significant repairs or exhibiting conditions that may warrant an Unsatisfactory designation. The Building Department then coordinates with PPO to assess the feasibility of repairs. Portable buildings determined to be beyond feasible repair are recommended for disposition and demolition.

The list of Unsatisfactory portable buildings is provided to the Office of Capital Programs (OCP) for further evaluation and incorporation into the applicable DEFP. This process includes the development of project documentation, cost estimates, funding requests, and supporting analyses necessary to facilitate demolition and associated site restoration activities.
Upon approval of funding through the DEFP process, portable buildings designated for removal are declared surplus and scheduled for demolition in accordance with established District procedures.

Annual Portable Inspection and Disposition Plan

To manage the inspection, use determination, and demolition of portables effectively, BCPS follows the Annual Portable Inspection and Disposition Plan. This plan ensures a systematic approach to maintaining the safety and functionality of portable units across the district. It includes:

1. **Data Verification**: Verification of the current utilization, condition, and inventory status of all portable buildings.
2. **Determining Use**: Reviewing and finalizing the list of portables designated for instructional and administrative use.
3. **Communicating Findings**: Notifying relevant departments and schools about the status and next steps for portables deemed Unsatisfactory.

4. **Implementing Actions**: Allocating funding and commencing the demolition process for portables that fail to meet safety and usability standards.

Portable Transition Plan

Part II: Construction of Covered Walkways at Identified Schools

The Portable Transition Plan is required by the State Requirements for Educational Facilities (SREF) and must address the provision of covered walkways for qualifying portable buildings located on school campuses. To comply with this requirement, the criteria outlined below were developed to identify schools with portable buildings that may be eligible for funding consideration for the construction of covered walkways.

The primary purpose of the criteria contained in this DEFP is to ensure that the subject portable buildings continue to serve an educational need and are expected to remain in use for instructional purposes. Accordingly, these criteria provide a prudent framework for identifying and prioritizing portable buildings for covered walkway improvements. A brief explanation of the criteria is provided below.

Criteria for the selection of the schools

1. **Identify portables needed for instructional purposes (Completed)**

   The identification of these portables is determined during the portable inspection process depicted in the BCPS established Annual Portable Inspection and Disposition Plan, whereby the Building Department inspects and determines the condition of all BCPS portables, especially those portables needed for instructional purposes.

2. **Examination of the five-year student enrollment projections and Level of Service Standard (LOS) (Completed)**

   The review of Level of Service (LOS) standards and projected student enrollment data is conducted to verify the availability of viable capacity at the school and to determine whether portable buildings remain necessary to support student instruction.

3. **Determination of the youngest portables at the school site or those purchased after 1998 (Completed)**

   This criterion aligns with the applicable Florida Statute, which is to ensure that the selected covered walkways are not installed on portables that are older than 20 years.

4. **The portables are arranged in a cluster type setting (Completed)**

   This criterion is to ensure that it is more cost effective to install a covered walkway on the greatest number of portables that are arranged in a large cluster setting.

This analysis determined that the schools listed below met the above selection criteria and as such, are eligible for funding consideration for covered walkway improvements at their campuses.

Table 5 – List of Schools Slated for Covered Walkways

	Schools	Number of Portables	Estimated Cost[1]	Anticipated Completion Date
Approved in FY 2022/23	Deerfield Beach Elementary*	3	In progress	12/8/2025
Approved in FY 2023/24	Tradewinds Elementary*	8	In progress	2027
Approved in FY 2024/25	Castle Hill Elementary	12	In progress	2027
Year 1	Coconut Creek High	11	$1,265,000	TBD
Year 2[2]	Pinewood Elementary	5	TBD	TBD
Year 3[2]	Dania Beach Elementary	3	TBD	TBD
Year 4[2]	South Plantation High	9	TBD	TBD

[2] Year 2 through Year 4 may change based on annual enrollment projections.
* Project is still in progress. (Source Office of Capital Programs).

Under the current approved DEFP, Coconut Creek High School is identified as the next eligible school for the construction of a covered walkway and is programmed in Year 1 of the Plan. Accordingly, Coconut Creek High School has been included in Year 1 of the FY 2026/2027 DEFP for covered walkway improvements.

Upon approval of the FY 2026/2027 DEFP, the Office of Capital Programs (OCP) will initiate the necessary due diligence activities associated with the project, including, but not limited to, vendor procurement, project development, design coordination, permitting, and other administrative processes required for the construction of the covered walkway.

DISTRICT 7 HIGHLIGHTS

PUBLIC SCHOOL CONCURRENCY

Background

In Florida state law, concurrency means the implementation of a system whereby the provision of public facilities and services that are needed to serve proposed development is available at the time the impact of the development occurs. In Broward County, residential development cannot be approved until a determination from the School District has been issued, which indicates there is sufficient school capacity available to serve the proposed development. This requirement is codified in the Third Amended and Restated Interlocal Agreement for Public School Facility Planning (TRILA), a contract between the School Board, Broward County, and 27 municipalities, which establishes a public school concurrency management system. The purpose of this system is to create a mechanism that provides for the coordination of planning among the school district, county, and municipalities to meet the purposes of concurrency. In compliance with the amended School Board Policy 1161 (which delineates the School District's public school concurrency management system) and which became effective on January 15, 2008, the School District commenced the implementation of public school concurrency on February 1, 2008. Subsequently, certain municipalities (currently 27) in Broward County adopted public school concurrency (PSC) into their comprehensive plans.

Comprehensive Plan

For information purposes, a comprehensive plan prescribes the principles, guidelines, and standards for the orderly and balanced future economic, social, physical, environmental, and fiscal development of a jurisdiction (such as a county or municipality). Each comprehensive plan must contain several "elements" that address key issues such as land use, capital improvements, sewer and solid waste, potable water, housing, and intergovernmental coordination. Also, each county and municipality that chooses to implement PSC must add a public school facilities element to their comprehensive plan, and amend any other existing elements that relate to the school facilities element.

Because PSC is implemented district-wide, the public school facilities element must be consistent with those adopted by the other local governments within the county and must be based upon data and analyses that address, among other items, how the Level of Service (LOS) Standard will be achieved and maintained. The element also contains goals that establish the long-term end toward which public school programs and activities are ultimately directed, contains measurable objectives for each goal that mark progress toward the goal, and contains policies for each objective that establish the way programs and activities will be conducted to achieve the goal.

School Board Policy 1161 and Land Development Regulations

The School Board does not adopt a comprehensive plan; therefore, the implementation authority for PSC is established in School Board Growth Management Policy 1161, and for the Municipalities and Broward County, through the land development regulations in their respective land development codes. There, the details of the development review process are articulated based on the mutually agreed-upon parameters for PSC as contained in the TRILA.

PUBLIC SCHOOL CONCURRENCY (CONT'D)

Level of Service Standard

To assure the uniform district-wide implementation of PSC and in compliance with Section 163.3174, Florida Statutes (FS), the TRILA requires the establishment and adoption of a LOS, which is further codified in the Public School Facilities Element and School Board Policy 1161. Therefore, the LOS means the standard at which a public school facility is expected to operate based upon the "capacity of the facility". Such LOS, upon adoption and codified as the adopted LOS, in the municipal/county land development regulation and School Board Policy 1161, is then established and recognized as the operating LOS for PSC purposes.

For informational purposes, Permanent Capacity is the total number of student stations contained in structures built with fixed foundations and having permanently attached walls, roofs, and floors, multiplied by a utilization rate specific to the level and type of school. The permanent capacity percentage for a school is calculated by dividing the current/projected student enrollment number by its permanent capacity number.

Furthermore, Gross Capacity is the total capacity of designated permanent, modular, and relocatable (portable) capacity at a school site. The gross capacity percentage for a school is calculated by dividing the current/projected student enrollment number by its gross capacity number.

The LOS Standard was established jointly in the TRILA by the School Board, Broward County, and 27 Municipalities within the County in 2008. The initial adopted LOS Standard was 110% permanent Florida Inventory of School Houses (FISH) capacity. However, since the LOS was first adopted in 2008 at 110% of permanent FISH capacity, the adopted LOS Standard has been amended three times. In 2010, the then-effective Interlocal Agreement (ILA) was amended (Second Amended ILA) to change the adopted LOS Standard from 110% permanent FISH capacity to 100% gross FISH capacity. Additionally, in 2018, it was amended for the third time from the 100% gross FISH capacity to the alternate LOS.

Under the current TRILA, which became effective in 2018, the adopted LOS Standard is defined as follows: "the higher of 110% permanent FISH capacity or 100% gross capacity." This concept, known as the Alternate LOS Concept, blends both LOS standards previously adopted in the TRILA and enables schools to benefit by avoiding potential school boundary changes to meet the LOS requirements of public school concurrency when the schools have available relocatable capacity onsite. The Alternate LOS Concept is further explained below.

School Type A: A bounded elementary, middle, or high school that has the equivalent of at least 10% of its permanent Florida Inventory of School Houses (FISH) capacity available onsite in relocatables. The LOS for School Type A shall be 100% gross capacity (including relocatables).

School Type B: A bounded elementary, middle, or high school that has less than the equivalent of 10% of its permanent FISH capacity available onsite in relocatables. The LOS for School Type B shall be 110% permanent FISH capacity.

PUBLIC SCHOOL CONCURRENCY (CONT'D)

The Role of the Adopted Five-Year District Educational Facilities Plan

Under PSC, the School District must create a five-year Capital Improvement Plan (CIP) regarding the provision of needed capacity (classroom additions and/or improvements to existing schools, and new schools) to meet the adopted LOS Standard. This plan must show where and when capacity additions will be built and must show exactly where the money to build the additions or new schools will come from.

The five-year CIP, therefore, must contain enough capacity improvements necessitated to achieve and maintain the adopted LOS Standard by at least the fifth year of the CIP. In Broward County, the School Board, Broward County, and pertinent municipalities have agreed that the School Board's Five-Year District Educational Facilities Plan (DEFP) shall serve as the CIP and shall be adopted into Broward County's and pertinent municipalities' comprehensive plans.

The TRILA requires the District to annually transmit the Tentative DEFP to local governments for review to determine the consistency of the Tentative DEFP with pertinent local government comprehensive plans. Subsequently, the TRILA requires that each year, after the formal adoption of the DEFP by the School Board, the District will transmit the DEFP to the County and municipalities for adoption and incorporation into their respective comprehensive plans.

Level of Service Plan

The LOS Plan is a matrix titled "Broward County Public Schools Level of Service Plan for Capital Planning" contained herein, to demonstrate each elementary, middle, and high school's ability to meet the adopted LOS Standard during each DEFP period by calculating the projected enrollment divided by the LOS capacity of the facility. The LOS Plan therefore shows the projected enrollment for each of the five years covered by the DEFP, divided by the LOS capacity of each school. To be deemed a financially feasible plan, the DEFP must demonstrate that the adopted LOS Standard can be achieved and maintained at each (bounded) elementary, middle, and high school over the five-year period of each adopted DEFP.

PUBLIC SCHOOL CONCURRENCY (CONT'D)

The LOS maps that accompany the LOS Plan depict the LOS status of the school in the fifth year of the DEFP, and any school boundaries with a projected LOS capacity deficit are indicated in red with a negative number indicating the shortfall of student stations needed to meet the LOS, and any school with a projected LOS surplus is indicated in green with a positive number indicating the school meets the adopted LOS in the fifth year of the DEFP.

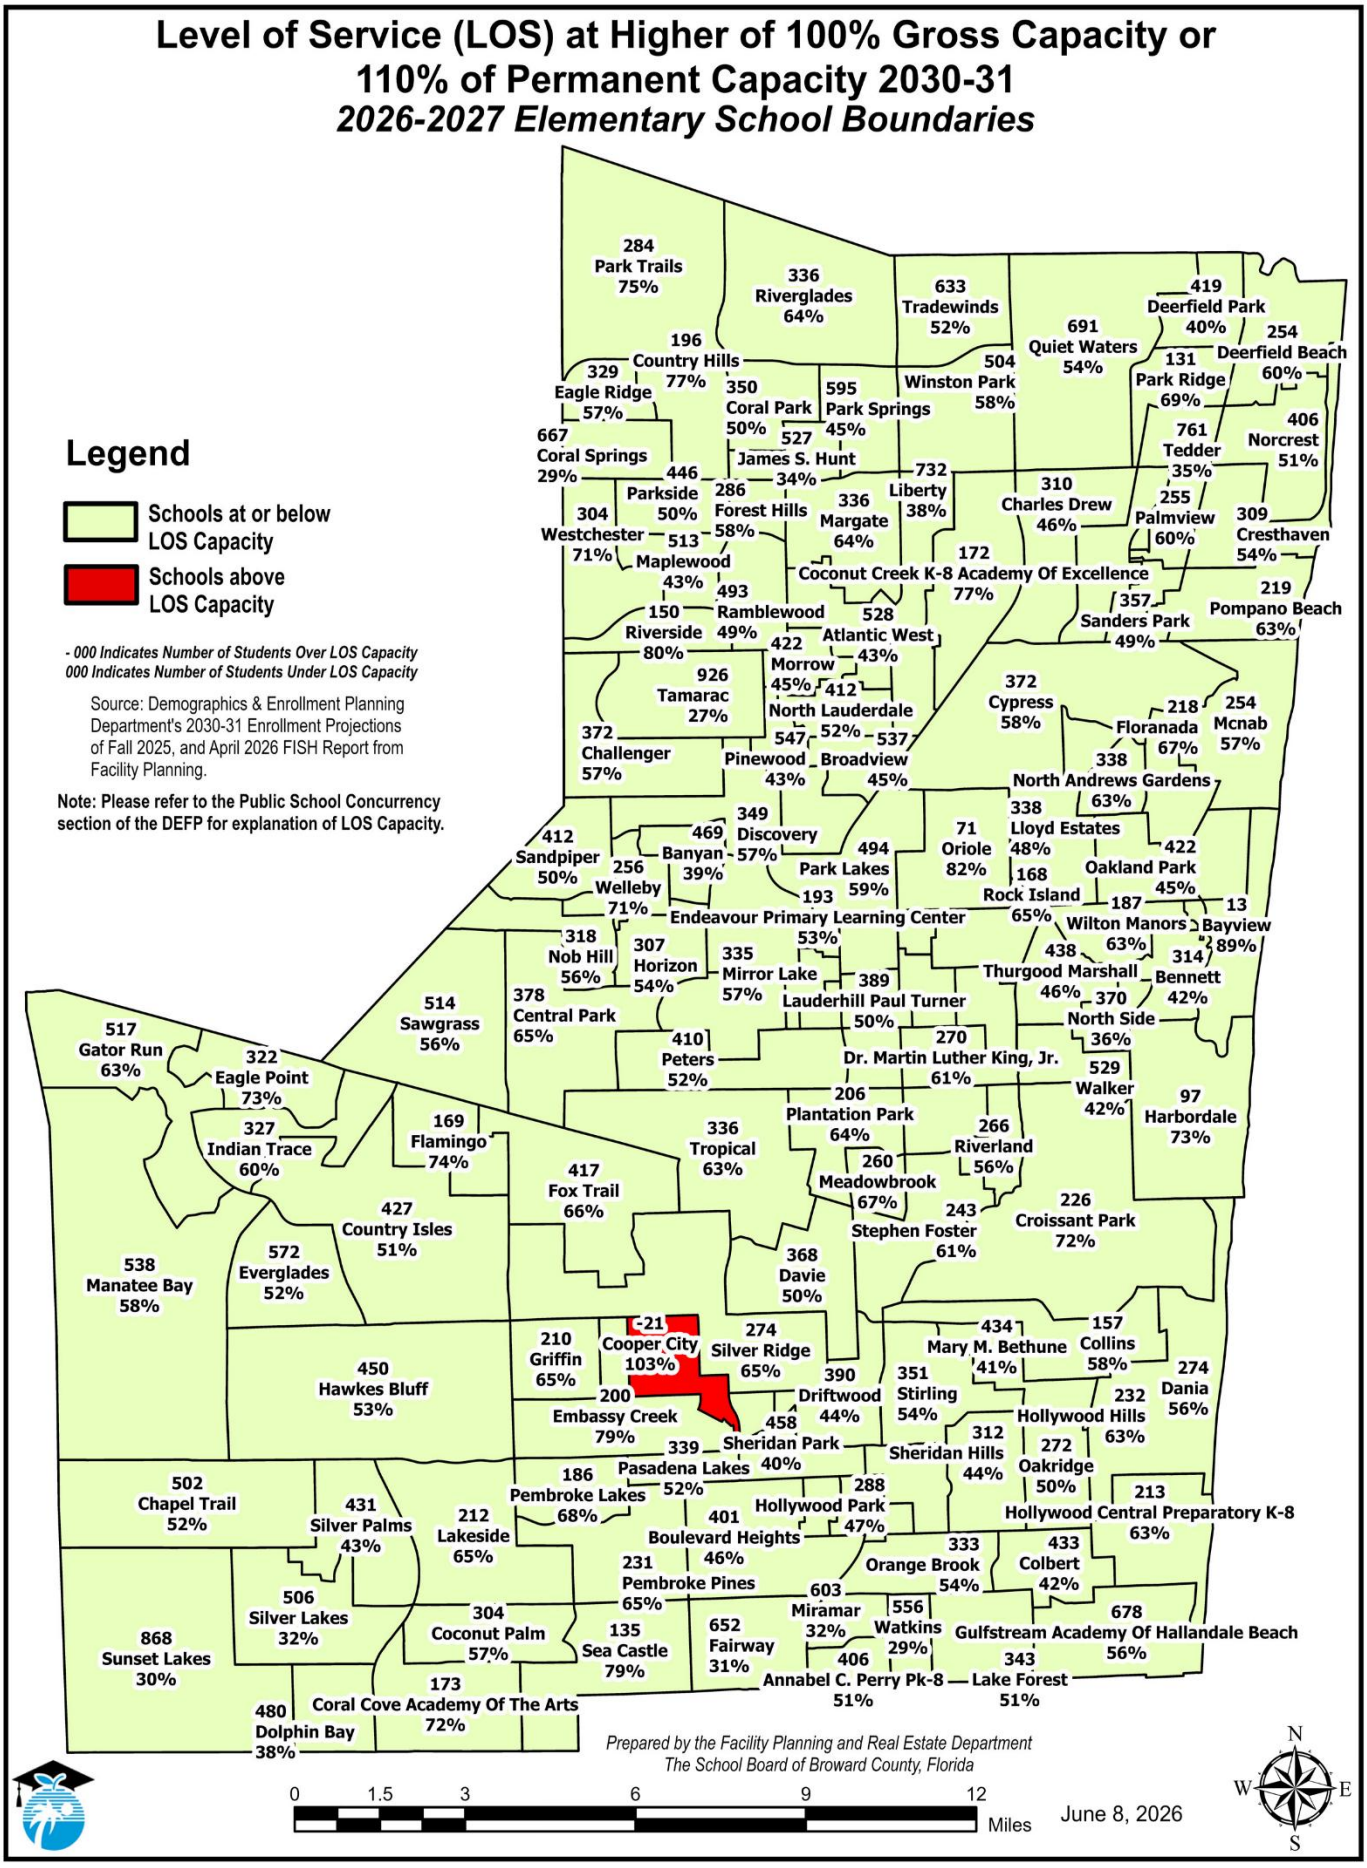

Per the TRILA and School Board policy 1161, consistent with PSC requirements, Broward County Public School (BCPS) staff issues a School Capacity Availability Determination (SCAD) report for the proposed development in Broward County. The report is transmitted to the pertinent local government. Based on the information contained in the SCAD report, a local government may approve a development if adequate public school facilities are available as follows: at the time of review; at the primarily impacted school levels; or adjacent school levels located within the same Planning Area as the primarily impacted schools; or if capacity is available within the first 3 years of the adopted DEFP. These facilities are expected to be in place or under actual construction within three (3) years after the development receives final approval. Subsequently, if the SCAD report indicates adequate public school facilities are not available, then a developer may pay, if accepted by the School Board, the cost of the improvement (proportionate to the demand that the project is generating, otherwise known as proportionate share mitigation) needed to satisfy the demand created by that development, and if accepted by the School Board, the development may receive approval by the local government. Thereafter, upon acceptance of the "proportionate share mitigation" by the School Board, the School Board must amend the Five-Year DEFP to incorporate that improvement within the first three (3) years of the Plan and provide the capacity associated with the improvement within three years after the proposed development receives final approval from the local government.

Long Term Plan

The TRILA requires the School District to review proposed residential developments regarding changes to future land use comprehensive plans and rezoning applications that may impact public schools, against a long-term (ten-year) planning horizon. Also, the law requires school districts to create a long-term plan to enable such analysis and planning for future needed public facilities (capacity additions or new schools). To meet this requirement, the DEFP includes capacity improvements, if necessitated, anticipated over the long-term planning horizon (10 years).

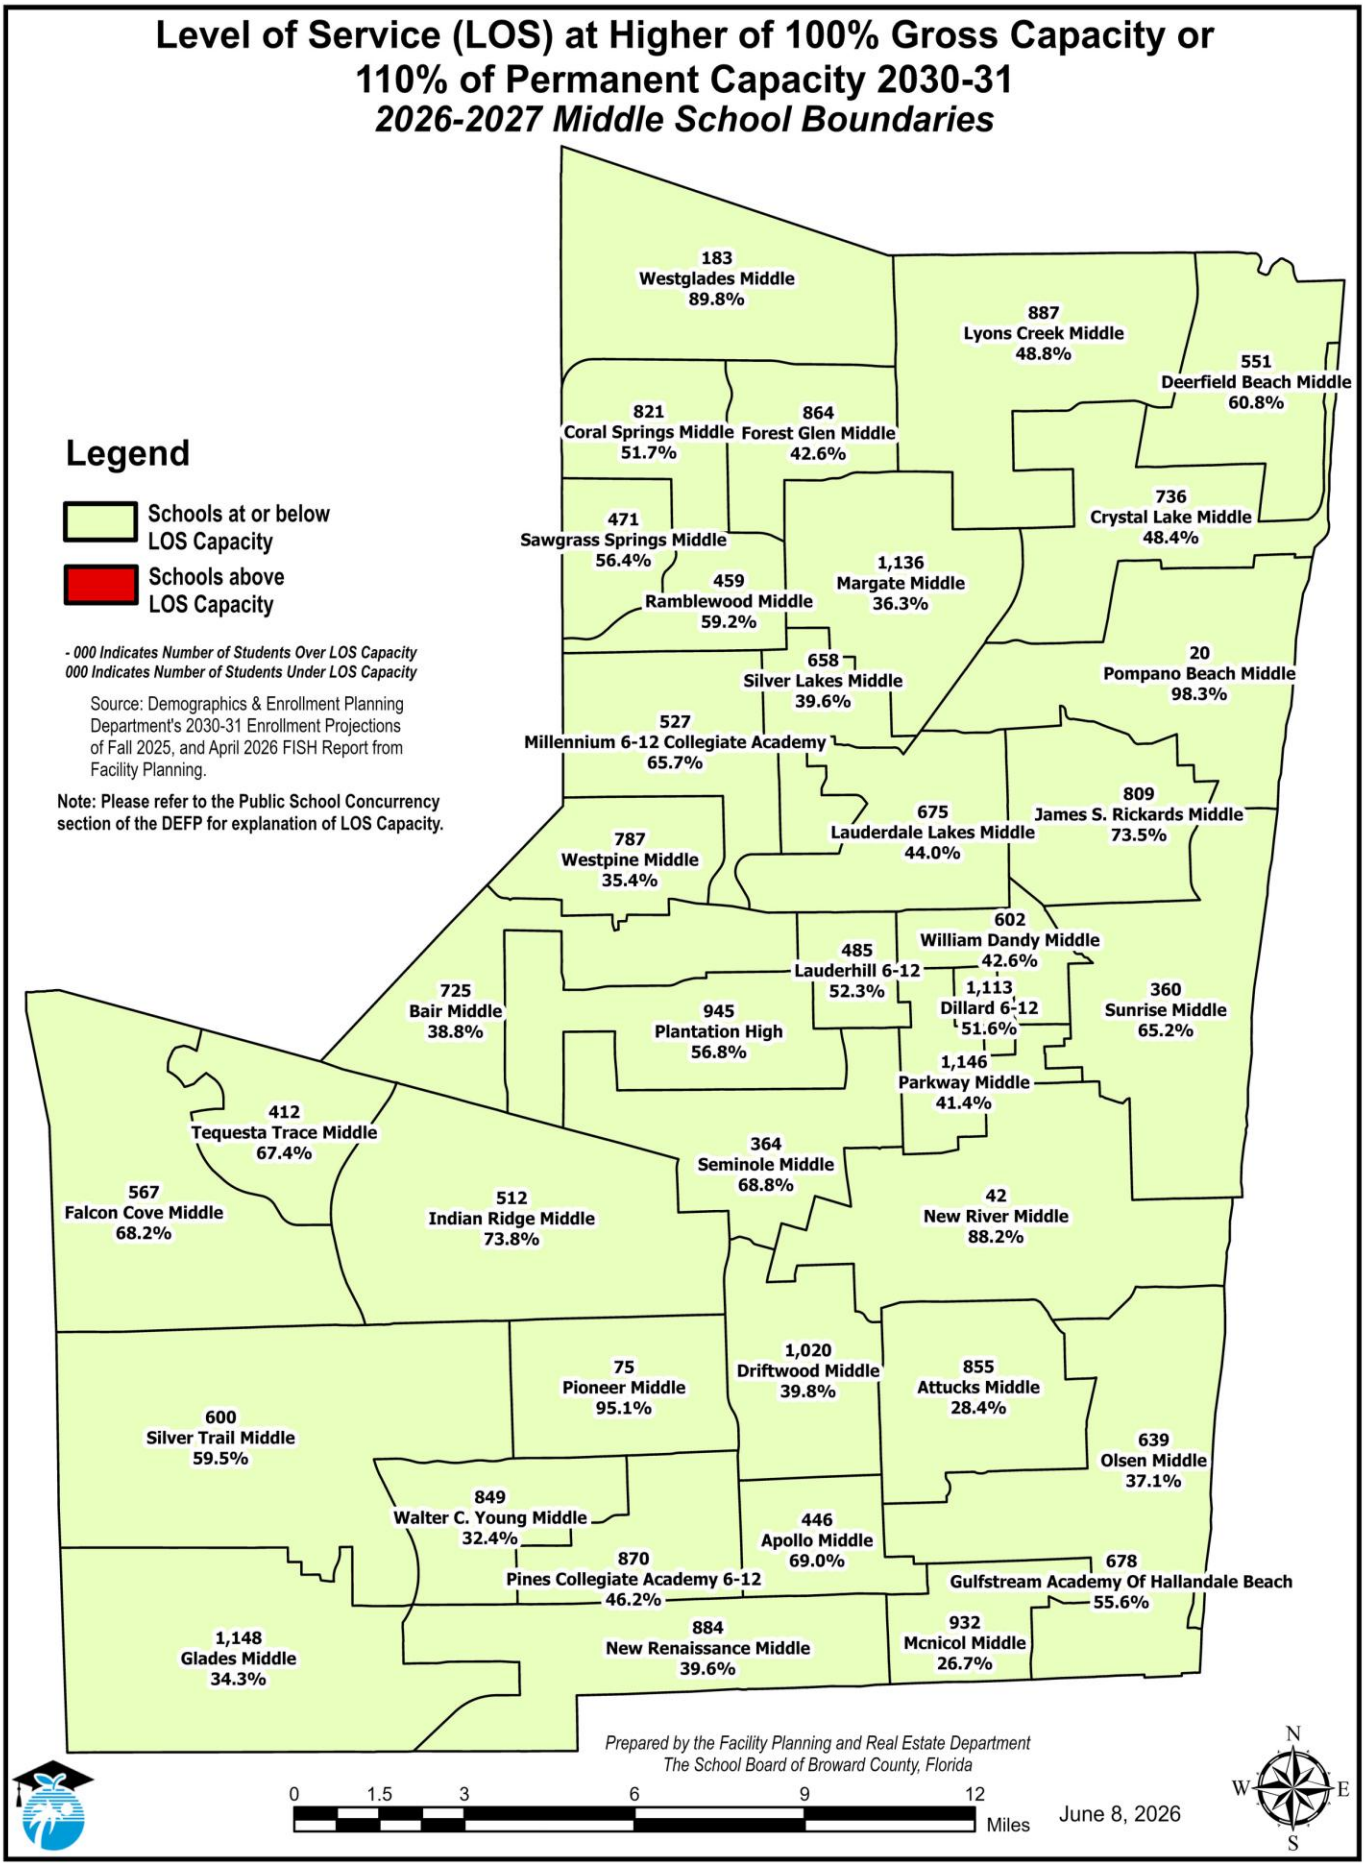

Level of Service (LOS) at Higher of 100% Gross Capacity or 110% of Permanent Capacity 2030-31

2026-2027 Elementary School Boundaries

Data contained within this Level of Service Plan reflects information available at the time of printing.

Level 1 Meets Level of Service
Level 2 Does not meet Level of Service
Projected Enrollment as of Fall 2025
FISH as of April 2026

* LOS will be met via School Board Policy 8010
** Heron Heights and Park Trails Elementary Schools have a shared boundary
LOS Capacity is the higher of: 100% gross (G) or 110% permanent capacity (P)

P - Permanent Capacity
G - Gross Capacity

Data contained within this Level of Service Plan reflects information available at the time of printing.

Level 1 Meets Level of Service
Level 2 Does not meet Level of Service
Projected Enrollment as of Fall 2025
FISH as of April 2026

* LOS will be met via School Board Policy 8010
** Heron Heights and Park Trails Elementary Schools have a shared boundary
LOS Capacity is the higher of: 100% gross (G) or 110% permanent capacity (P)

P - Permanent Capacity
G - Gross Capacity

ALLOCATION OF RESOURCES

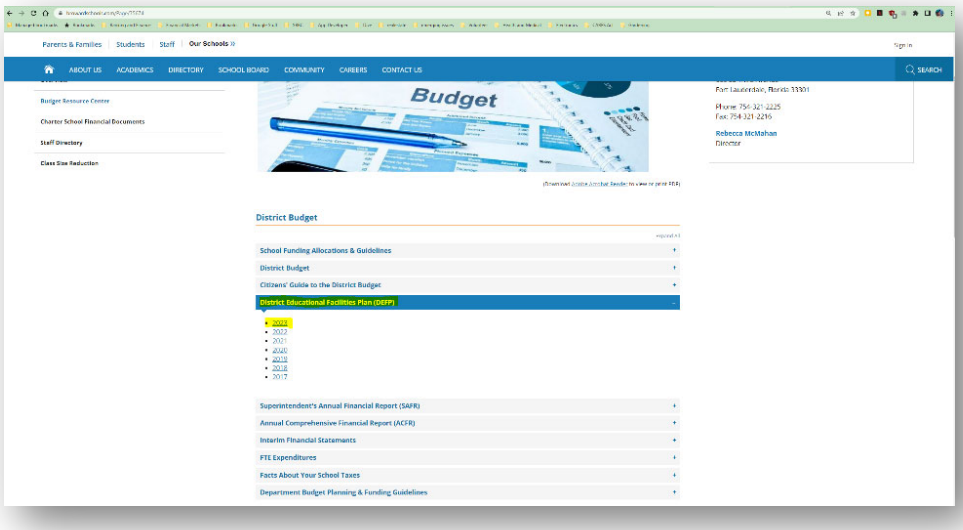

(CCC Settlement Agreement - Condition #8)

The Citizens Concerned about our Children (CCC) Settlement Agreement specifies nine conditions, each of which is intended to ensure that diversity and equity is promoted within Broward County Public Schools. Under each condition of the Agreement, the BCPS with the cooperation of the District's Diversity Committee established standards to address the terms of the Agreement. Condition #8 of the CCC Settlement with the School District requires that the five-year capital plan and subsequent five-year capital plans be developed using a structured public analysis.

The District's needs are far beyond what is allocated in this plan but an effort was made to provide resources to improve existing schools to achieve the District's mission of educating all students to reach their highest potential. This five-year capital plan is an equitable funding plan. All of the dollars allocated in the plan are for schools that are already in operation, to service the debt on the construction financing for many of these schools and to support educational programs at schools throughout the County. The District is committed to updating and upkeeping all schools in a condition that meets the needs of the students and provides benefit to the communities. The District believes that this plan fulfills condition #8 of the CCC Settlement Agreement with regard to the equitable allocation of capital outlay funds.

The Adopted District Educational Facilities Plan is available on the District's Website

https://www.browardschools.com/Page/35674

10 AND 20 YEAR PLAN

Over the next 10 and 20 years, there are many capital funding needs in the Broward County School District. The District will continue to assess and evaluate the capital needs in its determination to renovate, update and modernize its facilities.

This 5-year capital plan includes funding for a long-range facility plan that identifies capital needs that can be prioritized and will serve to update the 10 and 20 year plan.

5/5/2026	JJ-2	Coral Springs MS	Approve additional funding in the amount of $8,587 and approve Change Order #11 in the amount of $8,586.45. District 4	(8,587)
5/5/2026	JJ-3	Ramblewood ES	Approve additional funding in the amount of $136,433 and approve Change Order #11 in the amount of $136,432.68. District 4	(136,433)
5/5/2026	JJ-7	Atlantic West ES	Approve additional funding of $4,100 for the ADA & Media Center Improvements project at Atlantic West ES. District 7.	(4,100)
5/5/2026		Districtwide	Project Closeout Savings	3,092,978

District Educational Facilities Plan
Capital Funds Reserve Activity

Capital Funds - Unallocated Reserve

Date	Item	Location	Description	Reserve Activity
6/9/2026	JJ-3	Glades MS	Amend the FY26 District Educational Facilities Plan (DEFP) to allocate $400,000 from the Capital Projects Reserve for professional design services necessary to convert Glades Middle School to a K-8 configuration, and direct staff to include $7,800,000 for the associated construction in the FY27 DEFP. District 2.	(400,000)
6/9/2026	GG-3	Districtwide	Approve additional funding of $1,700,000 for the settlement agreement between the School Board of Broward County (SBBC) and Florida International Consulting Engineers (FICE), AECOM Technical Services, and Heery International. Districtwide.	(1,700,000)
6/9/2026		Districtwide	Project Closeout Savings	3,512,430
6/30/2026		Districtwide	Transfer to General Fund.	(31,005,704)
6/30/2026		Districtwide	Savings from decreased Project Management services.	5,752,348
6/30/2026		Districtwide	Additional FY26 year-end revenue.	17,666,703

6/30/2026	**Sub-Total Unallocated Reserve Balance**	**$**	**58,986,686**

6/30/2026	**Grand Total Capital Funds Reserve Balance**	**$**	**58,986,686**

Projects Completed From Fiscal Year 2025-2026

School Name	Project Type	Scope	Budgeted
Anderson, Boyd H. High School	Renovation	Funding reduced for financial close-out. Savings returned to the Capital Reserve.	-35,705
Anderson, Boyd H. High School	Roofing	Roof Replacement	708,000
Bennett Elementary School	Renovation	Building Envelope Improvements (Roof, Window, Ext Wall, etc.)	1,270,000
Bennett Elementary School	Renovation	HVAC Improvements	88,000
Bennett Elementary School	Renovation	Media Center improvements	137,000
Bennett Elementary School	Safety & Security	Fire Alarm	319,000

Taravella, J.P. High School	ADA	ADA Restroom Renovations	618,000
Taravella, J.P. High School	ADA	ADA Restroom Renovations	12,300
Taravella, J.P. High School	Renovation	Building Envelope Improvements (Roof, Window, Ext Wall, etc.)	1,441,000
Taravella, J.P. High School	Renovation	Additional funding for approved scope	4,709,000
Taravella, J.P. High School	Renovation	Media Center improvements	406,000
Taravella, J.P. High School	Renovation	HVAC Improvements	5,798,000
Taravella, J.P. High School	Renovation	STEM Lab improvements	1,044,000
Taravella, J.P. High School	Renovation	Improvements to Building Envelope, HVAC, Media Center, STEM Lab, and Safety/Security	552,581
Taravella, J.P. High School	Safety & Security	Fire Sprinklers	2,236,000
Taravella, J.P. High School	Safety & Security	Safety / Security Upgrade	65,000
Village Elementary School	Renovation	Balcony Railing Replacement	135,000
Wingate Oaks Center	Renovation	Building Envelope Improvements (Roof, Window, Ext Wall, etc.)	902,000
Wingate Oaks Center	Renovation	Media Center improvements	116,000
Wingate Oaks Center	Renovation	Replacement of HVAC equipment in buildings 1,2,4,5.	1,120,000
Wingate Oaks Center	Renovation	Additional funding for approved scope	3,500,217
Wingate Oaks Center	Safety & Security	Fire Alarm	420,000

Playground Projects 5-Yr Plan

The following table lists the identified elementary schools that will receive new playgrounds with DEFP/Capital funding to comply with a minimum standard of two playgrounds.

SCHOOL	PLAYGROUND GRADE-LEVEL NEEDED	PERMITTING & CONSTRUCTION FUNDING YEAR
Bethune Elementary	2-5	FY28
Broadview Elementary	3-5	FY25
Broward Estates Early Learning and Resource Center	Head Start	FY28
Castle Hill Elementary	3-5	FY25
Country Hills Elementary	K-2 (ADA compliance)	FY25
Driftwood Elementary	3-5	FY25
Fairway Elementary	3-5	FY26
Hunt, James Elementary	3-5	FY26
Horizon Elementary	3-5	FY26
Indian Trace Elementary	3-5	FY25
King Jr, Dr. Martin Luther Elementary	3-5	FY27
Lake Forest Elementary	3-5	FY26
Lauderhill P Turner	3-5	FY28
North Andrews Gardens	3-5	FY26
North Side Elementary	K-2 & 3-5	FY26
Oakland Park Elementary	1-2	FY25
Peters Elementary	3-5	FY27
Royal Palm Elementary	3-5	FY27
Sunland Park Academy	3-5	FY28
~~Sunshine Elementary~~	~~2~~	~~FY27~~
Tamarac Elementary	3-5	FY27
Tedder Elementary	3-5	FY25
Walker Elementary	3-5	FY28
Watkins Elementary	2	FY27
ADDED		
Glades MS (K-8 Conversion)	K-2, 3-5	FY27

The 5-year playground plan was initiated in FY24 with the identification of schools and the evaluation of the first seven locations for feasibility and conceptual design. Some initial locaitons were removed due to space availability or accessibility of existing facilities. In FY25, the remaining locations were specified for permitting and construction in a fiscal year based on funding availabilty. The implementation plan will continue until all playground projects are completed over five years. Glades MS was added during FY26 to support the K-8 conversion.

Physical Plant Operations (PPO) Five-Year Project Plan

Overview

The projects included in this appendix represent Physical Plant Operations' five-year capital maintenance and infrastructure renewal plan and support the continued preservation, safety, reliability, and operational effectiveness of District facilities. The plan includes investments in building systems, facility infrastructure, site improvements, athletic facilities, equipment replacement, and other capital renewal projects necessary to maintain District assets and address deferred maintenance needs. The appendix identifies approximately $238 million in planned projects over the five-year planning period.

Project Prioritization

Physical Plant Operations prioritizes projects using a data-driven approach that considers infrastructure and equipment age, facility condition assessments, maintenance and repair history, safety and regulatory requirements, operational impacts, risk of service disruption, and alignment with District goals and long-range facility needs. This methodology is intended to direct available capital resources toward projects that preserve the useful life of District assets, maintain safe and functional learning environments, improve operational reliability, and support the District's educational mission.

Plan Flexibility and Emerging Needs

The projects and schedules reflected in this appendix represent current planning assumptions and priorities. As facility conditions evolve, unforeseen equipment failures occur, project costs change, regulatory requirements are updated, or District priorities shift, projects may be accelerated, deferred, modified, removed, or added. Such adjustments may affect the timing and sequencing of projects identified in the five-year plan.

Project Delivery

Physical Plant Operations will make every effort to complete projects in accordance with the adopted schedule; however, project delivery remains dependent upon available funding, staffing resources, procurement timelines, contractor availability, and other operational considerations. Accordingly, the pace of project implementation may vary throughout the planning period.

Physical Plant Operations

Sustainability & Compliance Department Five-Year Project Plan

Overview

The Sustainability & Compliance Department requests include districtwide capital improvement and infrastructure projects that support regulatory compliance, life safety, environmental stewardship, sustainability, operational reliability, resiliency, resource conservation, and the continuity of educational operations.

The projects included in this appendix represent districtwide initiatives that cannot be fully addressed through routine maintenance actions and require long-term capital planning over the five-year DEFP horizon. As facilities age, regulatory requirements evolve, and weather-related impacts become more significant, these programs provide a structured approach to maintaining critical infrastructure; reducing risks associated with system failure, flooding, environmental releases, and operational disruptions; and advancing sustainability objectives through improved energy efficiency, water conservation, waste reduction, responsible resource management, and the reduction of the District's environmental footprint. These investments support both regulatory compliance and the long-term resilience, efficiency, and occupant comfort of educational facilities.

Building Automation Systems (BAS)

The Building Automation System (BAS)/HVAC/Indoor Air Quality (IAQ) projects in this section are identified through evaluation of HVAC control system data, equipment performance, Indoor Air Quality Assessment findings, and the operational needs of District facilities. Priority is given to facilities where current HVAC equipment and/or control systems limit the District’s ability to effectively manage ventilation, temperature, humidity, or where deficiencies may negatively impact occupant comfort, indoor environmental quality, or system reliability. Over the next five years, these projects will improve ventilation management, temperature and humidity control, occupant comfort, and overall indoor air quality while reducing energy consumption, improving operational efficiency, and supporting the long-term sustainability and resiliency of District facilities.

Surface Water Management (SWM) Maintenance, Licensing, and Drainage Modifications

Surface Water Management (SWM) projects are identified through permit and license renewal schedules, flooding reports, facility work orders, site inspections and engineering assessments, storm/flood event evaluations, and documented impacts to school operations. Projects are prioritized based on emergency shelter designation, frequency and severity of historical flooding events, risk to facilities, operations, and occupants, pending associated capital improvement project support, and engineering recommendations. The five-year program balances compliance obligations with immediate corrective actions for longer-term infrastructure improvements necessary

to maintain safe and functional campuses.

Lead-Based Paint and Asbestos Assessment and Remediation

Projects in this category are identified to support environmental compliance in the assessment and remediation of lead-based paint and/or asbestos containing building materials for planned Physical Plant Operations (PPO) painting and flooring projects. District facilities constructed prior to 1975 for lead-based paint and all district facilities for asbestos building material environmental assessments before renovation activities can proceed. These programs provide required inspections, sampling, consulting oversight, and, when necessary, remediation or stabilization activities to ensure compliance with federal and state regulations governing lead-based paint and asbestos-containing materials. Funding supports the safe execution of these planned PPO projects, minimizes construction delays, protects students, staff, contractors, and building occupants from exposure risks, and reduces potential regulatory and liability concerns associated with renovation activities in aging facilities.

Exterior Emergency Lighting and Means of Egress Improvements

This project addresses exterior emergency lighting and egress pathway deficiencies that were identified during Performance Contracting Phase IV design review. Building Department review determined that additional emergency lighting provisions were required to meet applicable code requirements for safe egress. Due to the increased cost of incorporating these improvements, the exterior lighting scope was removed from Phase IV. These considerations were incorporated into the scope for the current Phase V. Project priorities focus on schools with covered walkways that did not receive LED upgrades, lack emergency circuit connectivity, and require improvements to meet current code requirements

Removal and Replacement of Non-Regulated Aging ASTs and Regulated Aging USTs

The District's non-regulated Aboveground Storage Tanks (ASTs) support emergency generators and operational facilities that are critical during power outages and emergency events. AST replacement projects are identified through environmental compliance inspections, tank integrity testing, age assessments, maintenance records, and evaluations of operational reliability. Priority is assigned based on the condition and age of existing tanks, evidence of deterioration or failed integrity testing, potential environmental liability, impacts on emergency response capabilities, and regulatory requirements associated with petroleum storage systems. The five-year replacement program is designed to reduce environmental risk, maintain emergency readiness, ensure regulatory compliance, and protect District operations from disruptions associated with tank failures.

The Sustainability & Compliance projects presented within this Appendix represent an investment in the District's environmental infrastructure, compliance obligations, resiliency initiatives, and operational sustainability which help protect students, staff, facilities, and the continuity and improve the learning environment.

Sustainability & Compliance
Districtwide Projects

APPENDIX - H

Projects/Schools	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	Total
