Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
Registry ID: 110002874541

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

| Site History: | Historic operations at the site by the former IERC included metal finishing and manufacturing a thermal management products. IERC occupied the site between 1956 and 2000. A CWC section 13267 Order No. R4-2013-0027 for a technical report was issued to the site. A Subsurface Soil Investigation Report dated August 22, 2014 was submitted to the Regional Board. Soil borings were advanced to 25 feet below ground surface at 5 locations across the site. Hexavalent chromium was not detected above laboratory reporting limits in any of the samples. Total chromium concentrations ranged from 4.31 milligrams per kilogram (mg/kg) to 36.0 mg/kg. A Notice of Opportunity to Comment on a No Further Requirements for Soils was issued to interested parties on December 18, 2015. No comments were received during the 30-day comment period and the case was issued a |

| Site History: | The property at 163 West Magnolia was part of the former International Electronic Research Corporation (IERC) facility that occupied the site between 1956 and 2000. Historic operations at the site by IERC included metal finishing and manufacturing of thermal management products. The Site along with other properties with the addresses 135 through 163 West Magnolia Boulevard were under the Regional Water Quality Control Board (RWQCB) oversight for the evaluation of soil and groundwater contamination by heavy metals including total chromium and hexavalent chromium, and eventually received closure for soils on February 1, 2016. However, a Subsurface Soil Vapor Survey Report dated September 21, 2015 submitted to the Regional Board detected PCE concentrations in the top five feet below |

**TOP RANK COLLISION (Continued)** **S121132550**

ground surface in excess of the soil vapor CHHSL for PCE in industrial/commercial soils. The soil vapor report along with the Johnson and Ettinger model run data were submitted to OEHHA for review. Two rounds of indoor air sampling events were performed within the buildings in December 2015 and August 2016. No PCE or TCE was detected in any of the samples during the second sampling event. Based on Regional Board s review of the information provided and OEHHA s evaluation, the Regional Board concludes that the residual PCE vapor concentrations remaining in the shallow soil beneath the Site do not appear to pose a significant threat to human health for the intended land use. The Regional Board s NFR determinations previously issued are still applicable.

Environmental Interest/Information System:
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
Registry ID: 110071777648

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
Registry ID: 110071780629

| RWQCB Region: | LOS ANGELES RWQCB (REGION 4) |
| Site History: | The Site contained an industrial building built in 1956 used for anodizing processes and chemical storage. Chromium waste and other chemicals were released to the subsurface. Environmental assessment and cleanup activities have been conducted at the Site since 2007. The Regional Board has determined that the total chromium contamination in the top 14 feet of soil has been removed. The remaining hexavalent chromium in deeper soils and in the underlying groundwater have not been addressed due to financial hardship of the Irma King Trust (responsible party). The Regional Board will continue to oversee the remaining investigation and cleanup efforts to address chromium contamination in the deeper soils at the Site. A land use covenant and environmental restriction (deed restriction) has been recorded with the County. |

Environmental Interest/Information System:

The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently

**ARTCRAFT PLATING & FINISHING COMPANY, INC (Continued)** **1000180808**

implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

aerospace instruments. Their operations included use and storage of PCE, TCA, chromic acid, and sodium dichromate. Under the Regional Board's order, soil vapor extraction (SVE) system operated for several months in 1998 and again in 1999 to remove VOCs. In 2000, CIS' consultant submitted a report that found maximum soil concentrations of chromiurm and lead were 3930 mg/kg and 28,000 mg/kg, respectively. In 2001, the Regional Board issued a letter of No Further Action for VOCs only. In 2013, the Regional Board issued a 13267 order to MAG Investments (which owned CIS) and Night-Prov (the current property owner) requiring subsurface soil investigation of heavy metals at the site. As of 10/12/2015, both parties were issued a Notice of Violation for failure to perform the investigative work ordered.

Environmental Interest/Information System:
The Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on Brownfields properties assessed or cleaned up with grant funding, as well as information on Targeted Brownfields Assessments (TBA) performed by EPA Regions.
California's Department of Toxic Substances Control's (DTSC's)-EnviroStor database is an online search and Geographic Information System (GIS) tool for identifying sites that have known contamination or sites for which there may be reasons to investigate further. The EnviroStor database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites.

| Feature Description: | Early In 1941 Menasco Entered Into The Production Of Aircraft Landing Gear. This Subsequently Became The Principal Wartime Activity At The Company. The Need For Additional Strut Manufacturing Facilities On The West Coast Resulted In Expanding The Manufacturing Facilities At Menasco Via The Medium Of The Dpc Plancor Under The Sponsorship Of The Army Air Forces. A Lease Agreement Was Signed Between The Dpc And Menasco On July 25, 1941. The Lease Also Provided For The Sale To The Dpc By Menasco, A Portion Of Its Land And The Existing Building That Was Being Used At The Time For Strut Manufacturing And Various Strut Manufacturing Equipment. On December 17, 1941, The Dpc, Acquired Title Of Parcel 1 (Lots 15 And 16 Of Tract No. 5102)And Parcel 2 (Portions Of Lots 2 And 3, In Block 101 Of The Rancho Providencia And Scott Tract) In The City Of Burbank. This Land Was Identified As Plancor 183. |

| RWQCB Region: | LOS ANGELES RWQCB (REGION 4) |
| Site History: | The RWQCB issued a CAO to Coltec Industries, inc.'on July 5, 2002. This facility has been named a Responsible Party by the USEPA for discharging contaminants to the Glendale North Operable Unit. Additionally, the USEPA has issued a General Notice Letter and a 104E Letter and the facility is considered a Principle Responsible Party for the Glendale Chromium Operable Unit. The facility's former industrial activities involved machining, manufacturing, metal plating, anodizing of parts and equipment used by the U.S. Department of Defense for various aerospace applications. Volatile Organic Compounds (VOCs) including TCE, PCE, 1,1-Dichloroethylene (1,1-DCE) 1,1,1-Trichloroethane (1,1,1 TCA) and hexavalent chromium have been detected in the subsurface soil and in the groundwater underlying the |

**MENASCO AEROSYSTEM DIVISION (Continued)** **S104406383**

site.Recently constructed offsite groundwater monitoring wells are being sampled quarterly. The amended General Waste Discharge Requirement (WDR) permit was approved and the facility has completed a pilot study for the remediation of hexavalent chromium in the soil and groundwater. The facility is now implementing a site-wide program to remediate the hexavalent chromium. The facility has operated a Soil Vapor Extraction (SVE) system to remediate the VOCs. A risk assessment report was submitted, reviewed, and the results approved by OEHHA and the Regional Board. . Groundwater monitoring continues on a semi-annual basis.

| Site History: | In September 2014, IKEA proposed to redevelop multiple parcels comprising approximately 22.9 acres in Burbank, California into a retail store. The proposed IKEA development includes properties with addresses of 725 and 805 - 807 S. San Fernando Boulevard; 112 and 116 E. Cedar Avenue; 60-100, 75 and 99 E. Providencia Avenue; and 80 and 84 E. Santa Anita Avenue. The largest property at 805 - 807 S. San Fernando Boulevard is currently under the regulatory oversight of the Regional Board as the former Menasco Aerospace Division Site (SCP File No. 109.0842 designated as the "Menasco Property"). The redevelopment itself has been assigned SCP File No. 109.0842A. The proposed redevelopment requires temporary suspension of onsite |

**MENASCO INC/CALIF DIVISION (Continued)** **S101587283**

perched groundwater remediation activities and modifying scheduled sampling/reporting requirements to accommodate construction from late 2014 through 2016, and make changes to existing onsite remedial components to integrate them into IKEA's development (which will include well abandonment/replacement).

CA Enviroscreen 4 Score: 75-80%
Military DOD Site: No
Facility Project Subtype: Not reported
RWQCB Region: LOS ANGELES RWQCB (REGION 4)
Site History: The Site consists of an approximately 8-acre lot in the City of Burbank, California. From 1961 to 1991, the Site was owned by Zero Corporation, whose operations included fabrication and metal coating that included extensive use of hexavalent chromium. Zero Corporation ceased operations onsite in 1991 and sold the Site in 1998. The Site has been unoccupied since 2002, and onsite buildings were demolished in 2004. The Site is currently under potential redevelopment. Historical operations performed at the Site have caused releases of volatile organic compounds (VOCs) into the subsurface. The predominant VOCs detected beneath the Site were tetrachloroethene (PCE) and trichloroethene (TCE). Cleanup activities were performed at the Site by Zero Corporation and its successor, APW North America, Inc. (APW), from approximately 1998 - 2001. Between 1998 and 1999, a soil vapor extraction (SVE) system remediated chlorinated VOCs in shallow soil. Between 1999 and 2000, a deeper SVE system with air sparging wells remediated PCE and TCE contamination in deep soil. Approximately 8,000 pounds of VOCs were from removed from soil via SVE. Following completion of these cleanup activities, the Regional Board issued a No Further Requirements (NFR) letter for VOCs in soil to APW in November 2001, and a Certificate of Completion to APW in July 2002. In 2011, the Regional Board required additional soil investigation to characterize the potential releases of hexavalent chromium to subsurface soils and groundwater. Soil sampling data suggested that the Site did not represent a significant source of hexavalent chromium in soil or a threat to groundwater. However, a 2009 soil investigation suggested that VOC concentrations in the subsurface have rebounded significantly since the Site was remediated in 2001. In connection with the potential redevelopment of the Site, additional environmental investigations conducted at the Site revealed that elevated, residual concentrations of VOCs, primarily PCE and TCE, in soil gas remain present beneath the Site. A Response Plan is being prepared to protect human health and the environment for the proposed future use of the Site.

Environmental Interest/Information System:
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES

Registry ID: 110000477181

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

| SIC Code 2: | Not reported |
| Primary Waste Type: | Designated/Influent or Solid Wastes that pose a significant threat to water quality because of their high concentrations (E.G., BOD, Hardness, TRF, Chloride). 'Manageable' hazardous wastes (E.G., inorganic salts and heavy metals) are included in this category. |
| Primary Waste: | STORMS |
| Waste Type2: | Not reported |
| Waste2: | Stormwater Runoff |
| Primary Waste Type: | Designated/Influent or Solid Wastes that pose a significant threat to water quality because of their high concentrations (E.G., BOD, Hardness, TRF, Chloride). 'Manageable' hazardous wastes (E.G., inorganic salts and heavy metals) are included in this category. |
| Secondary Waste: | Not reported |
| Secondary Waste Type: | Not reported |
| Design Flow: | 0 |
| Baseline Flow: | 0 |
| Reclamation: | No reclamation requirements associated with this facility. |
| POTW: | The facility is not a POTW. |
| Treat To Water: | Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality. |
| Complexity: | Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds. |

| Description: | The former Dynamic Plating Facility Site (Site) is located at 1102 West Isabel Street, Burbank, California. The nearest residential area is located about 450 feet to the west, and the nearest school is about 3000 feet to the northeast. The Site was a metal plating shop that operated between 1959 and 1990. The operation was housed in an approximately 4,000 square foot building. The plating shop was closed by local authorities, Burbank Public Works revoked facility Industrial Waste Discharge Permit, and in January of 1990 due to improper waste water discharge facility business license also revoked.. Previous investigation at the Site conducted in September 1989 reported the presence of volatile organic compounds (VOC's), cyanide and metals in soils underlying the Site. The VOC's that have been identified include PCE, TCE and 1,1,1-TCA. The metals include chromium, cadmium and zinc. These contaminants are directly related to chemicals/waste stored or used onsite. US/EPA in response to request from the Burbank Fire Department performed a removal at the Site from September 21 to October 8, 2002. The removal focused on the demolition and removal of the contaminated structure, concrete foundations, paving, and shallow subsurface soils (2 feet below ground surface). In February 2008, Department of Toxic Substances Control (DTSC) assumed the lead regulatory oversight for further investigation at the Site. In April 2007, DTSC issued am Imminent and Substantial Endangerment Determination for further investigation at the Site. After the completion of the site investigation and human health risk assessment, DTSC determined that a Land Use Covenant (LUC) was required to limit the use of the property for commercial and Industrial use only, and in addition, required an Operation and |

Maintenance Agreement to periodically monitor the groundwater impacted with volatile organic compounds. On December 7, 2020, DTSC issued an Imminent and Substantial Endangerment and Order and Remedial Action Order (Order) for the Site to the property owner with the effective on December 14, 2020. DTSC will public notice the remedy proposal for LUC and long-term operation and maintenance at the site on May 10, 2021 for the period of thirty days before selecting the remedy.

| Feature Description: | The Magnolia Housing Project Was Used By The War Relocation Authority (Wra) For Temporary Housing. The Parcels Of Land Underlying The Housing Project Were Leased By The United States Of America From The Property Owners. These Leases Were Made Between February 7 And March 9, 1942. The Buildings And Fixtures On The Site Constructed By The Government Were Declared Surplus Real Property By The Wra To The War Assets Administration (Waa) On April 16, 1946 And Vacated Between May 7 And May 15, 1946. The Lessors Of The Project Land Refused To Accept Improvements From The Government Or To Negotiate For Cash In Lieu Of Restoration, And Demanded Restoration Of Their Property To Its Original Condition. The Government Entered A Contract With The City Of Burbank On July 7, 1947, To Restore The Site To A Similar Condition That Existed At The Time The Government Took Possession Of The Property. After The Improvements Were Removed And Restoration Completed, The Waa Terminated The Leases And Obtained Releases, Returning The Property To The Lessors. A Letter From The Waa Dated October 20, 1947, States That All Of The Buildings At The Site Have Been Demolished And There Are No Existing Leases At The Facility. |

Hazardous Waste Summary:
Waste Code: D002
Waste Description: Corrosive Waste

Waste Code: D003
Waste Description: Reactive Waste

Waste Code: D006
Waste Description: Cadmium

Waste Code: D007
Waste Description: Chromium

Waste Code: D008
Waste Description: Lead

Waste Code: F006
Waste Description: Wastewater Treatment Sludges From Electroplating Operations, Except From The Following Processes: (1) Sulfuric Acid Anodizing Of Aluminum; (2) Tin Plating On Carbon Steel; (3) Zinc Plating (Segregated Basis) On Carbon Steel; (4) Aluminum Or Zinc-Aluminum Plating On Carbon Steel; (5) Cleaning/Stripping Associated With Tin, Zinc, And Aluminum Plating On Carbon Steel; And (6) Chemical Etching And Milling Of Aluminum.

Waste Code: F007
Waste Description: Spent Cyanide Plating Bath Solutions From Electroplating Operations.

the regional board and/or EPA.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System:
The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
The National Pollutant Discharge Elimination System (NPDES) module of

Elevation | Site | MAP FINDINGS | Database(s) | EDR ID Number EPA ID Number

**HASKEL INTERNATIONAL, LLC (Continued)** **1000268569**

the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

| Feature Description: | In 1942 The U.S. Acquired 279.78 Acres In Burbank, California, By Lease Agreement. In 1947, 88.87 Acres Were Acquired In Fee For The Purpose Of Establishing An Air Force Plant (Afp-14). In 1954, 151.01 Acres Were Acquired For The Purpose Of Establishing Afp-14 Annex. The Plant Was Activated In 1947 And Was Used For The Manufacturing, Repair And Overhaul Of Aircraft, Aircraft Engines, Or Other Components. The Area Was Known As Air Force Plant 14. Lockheed And Several Other Potentially Responsible Parties Are Leading The Environmental Remediation At This Site. Lockheed Has Installed A Pump And Treat Facility (Not Currently Functional), And They Have Agreed To Settle With All Other Potential Responsible Parties, So The U.S. Need Deal Only With Lockheed For Cost Allocation. Lockheed Had Many Government Contracts To Produce Airplanes. A Government-Owned And Contractor-Operated Facility Was Also Operated In The Lockheed Plant B-1/Air Force Plant 14 Area. These Two Plants Overlapped In Aerial Extent. The Groundwater Is Contaminated With Tce And Pce. Lockheed Is Seeking Cost Recovery. |

| | |
|---|---|
| Fiscal Year: | 2013 |
| Federal Facility ID: | CA9799F5304 |
| RAB: | Not reported |
| NPL Status: | Listed |
| Description: | Air Force Plant 14 is located in the San Fernando Valley in Burbank, California, and consists of 279.78 acres. It makes up part of the San Fernando Valley Superfund Site along with Lockheed's facilities and other potential responsible parties. The property is owner by private entities. |
| History: | In 1942 the U.S. acquired 279.78 acres in Burbank, California, by lease agreement. In 1947, 88.87 acres were acquired in fee for the purpose of establishing an Air Force Plant (AFP-14). In 1954, 151.01 acres were acquired for the purpose of establishing AFP-14 Annex. The plant was activated in 1947 and was used for the manufacturing, repair and overhaul of aircraft, aircraft engines, or other components. The area was known as Air Force Plant 14. Lockheed and several other potentially responsible parties are leading the environmental remediation at this site. Lockheed has installed a pump and treat facility (not currently functional), and they have agreed to settle with all other potential responsible parties, so the U.S. need deal only with Lockheed for cost allocation. Lockheed had many government contracts to produce airplanes. A government-owned and contractor-operated facility was also operated in the Lockheed Plant B-1/Air Force Plant 14 area. These two plants overlapped in aerial extent. The groundwater is contaminated with TCE and PCE. Lockheed is seeking cost recovery. |

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

**STANDARD ENVIRONMENTAL RECORDS**

***Lists of Federal NPL (Superfund) sites***

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

***Lists of Federal Delisted NPL sites***

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

***Lists of Federal sites subject to CERCLA removals and CERCLA orders***

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 09/22/2025
Date Data Arrived at EDR: 09/23/2025

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

***Lists of Federal CERCLA sites with NFRAP***

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

***Lists of Federal RCRA TSD facilities***

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

***Lists of Federal RCRA generators***

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

***Lists of state- and tribal hazardous waste facilities***

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

**ADDITIONAL ENVIRONMENTAL RECORDS**

***Local Brownfield lists***

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing
Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans
When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System
RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

CHROME PLATING: Chrome Plating Facilities Listing

This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region’s active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## EDR HIGH RISK HISTORICAL RECORDS

### *EDR Exclusive Records*

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

SAN FRANCISCO MAHER: Maher Ordinance Property Listing
A listing of properties that fall within a Maher Ordinance, for all of San Francisco. The Maher Ordinance requires San Francisco Department of Public Health (DPH) oversight for the characterization and mitigation of hazardous substances found in soil, soil vapor, and groundwater in areas designated within the Maher map. The Maher map includes areas with current or historical industrial use or zoning; areas within 100 feet of current or historical underground tanks; filled former Bay, marsh, or creek areas; or areas within 150 feet of a current or former elevated highway. City of San Francisco Planning.

**OTHER DATABASE(S)**

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991

| Latitude (North): | 34.176336 - 34° 10' 34.81'' |
| Longitude (West): | 118.312693 - 118° 18' 45.69'' |
| Universal Tranverse Mercator: | Zone 11 |
| UTM X (Meters): | 379020.0 |
| UTM Y (Meters): | 3782291.5 |
| Elevation: | 558 ft. above sea level |

**USGS TOPOGRAPHIC MAP**

| | |
|---|---|
| Target Property Map: | 50006498 BURBANK, CA |
| Version Date: | 2022 |

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

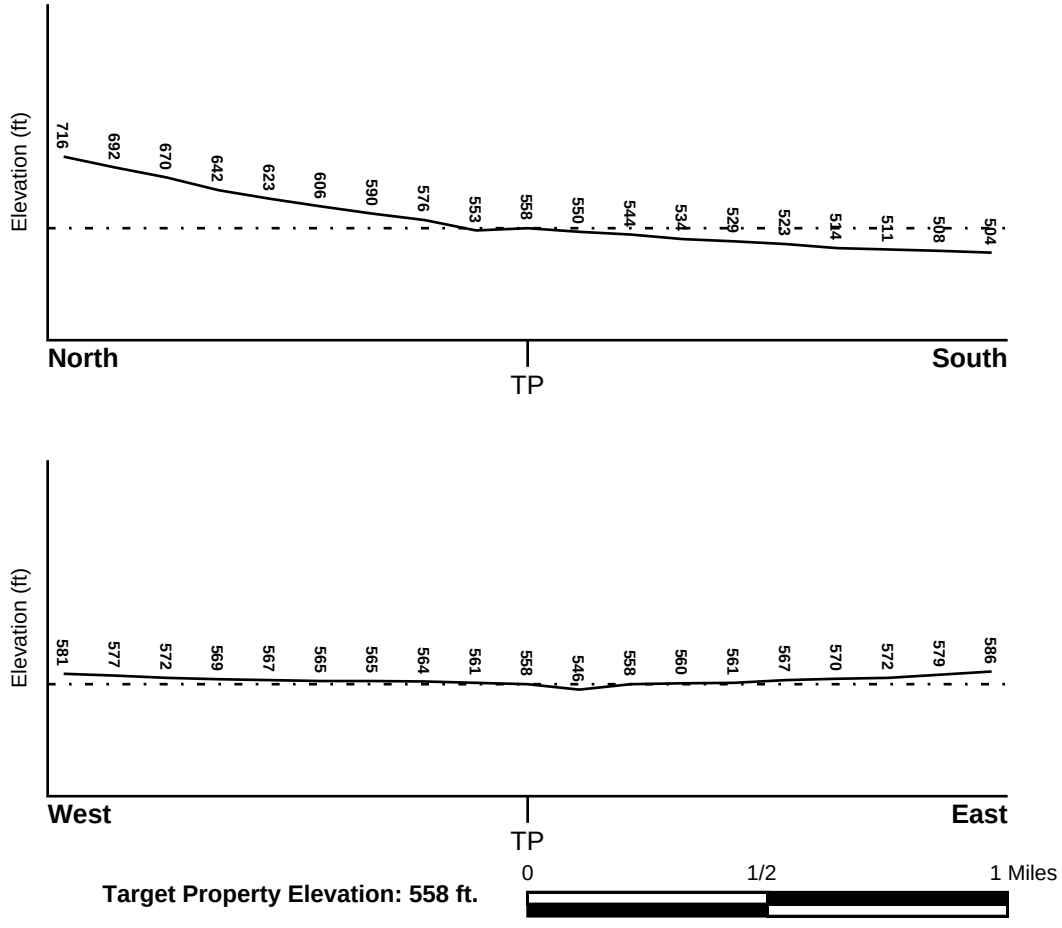
1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**GROUNDWATER FLOW DIRECTION INFORMATION**

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).



**TOPOGRAPHIC INFORMATION**

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

**TARGET PROPERTY TOPOGRAPHY**

General Topographic Gradient: General South

**SURROUNDING TOPOGRAPHY: ELEVATION PROFILES**

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

## FEMA FLOOD ZONE

| Flood Plain Panel at Target Property | FEMA Source Type |
|---|---|
| 06037C1337F | FEMA FIRM Flood data |

| Additional Panels in search area: | FEMA Source Type |
|---|---|
| 06037C1335F | FEMA FIRM Flood data |
| 06037C1329F | FEMA FIRM Flood data |
| 06037C1345F | FEMA FIRM Flood data |

## NATIONAL WETLAND INVENTORY

| NWI Quad at Target Property | NWI Electronic Data Coverage |
|---|---|
| BURBANK | YES - refer to the Overview Map and Detail Map |

## HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

***Site-Specific Hydrogeological Data*:***

| | |
|---|---|
| Search Radius: | 1.25 miles |
| Location Relative to TP: | 1/2 - 1 Mile ESE |
| Site Name: | HASKELL INC |
| Site EPA ID Number: | CAD008490377 |
| Groundwater Flow Direction: | SE ON A REGIONAL BASIS AT AN ESTIMATED RATE OF 300 TO 500 FEET PER YEAR IN THE EASTERN SAN FERNANDO VALLEY. |
| Inferred Depth to Water: | approximately 60 feet. |
| Hydraulic Connection: | The site is underlain by coarse sediments with localized lenses of clay and silt to a depth of up to 1,200 feet. |
| Sole Source Aquifer: | No information about a sole source aquifer is available |
| Data Quality: | Information is inferred in the CERCLIS investigation report(s) |

## AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

| MAP ID | LOCATION FROM TP | GENERAL DIRECTION GROUNDWATER FLOW |

| 1G | 1/2 - 1 Mile South | NW |

For additional site information, refer to Physical Setting Source Map Findings.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**GROUNDWATER FLOW VELOCITY INFORMATION**

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

**GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY**

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

**ROCK STRATIGRAPHIC UNIT**

| | |
|---|---|
| Era: | Cenozoic |
| System: | Quaternary |
| Series: | Quaternary |
| Code: | Q *(decoded above as Era, System & Series)* |

**GEOLOGIC AGE IDENTIFICATION**

Category: Stratifed Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

**DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY**

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: URBAN LAND

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 10 inches

Depth to Bedrock Max: > 10 inches

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

| Soil Layer Information | | | | | | | |
|---|---|---|---|---|---|---|---|
| | Boundary | | | Classification | | | |
| Layer | Upper | Lower | Soil Texture Class | AASHTO Group | Unified Soil | Permeability Rate (in/hr) | Soil Reaction (pH) |
| 1 | 0 inches | 6 inches | variable | Not reported | Not reported | Max: 0.00<br>Min: 0.00 | Max: 0.00<br>Min: 0.00 |

**OTHER SOIL TYPES IN AREA**

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures:
loam
clay
silt loam
loamy sand
sandy loam
fine sand
clay loam
gravelly - sandy loam
coarse sand
gravelly - sand
sand

Surficial Soil Types:
loam
clay
silt loam
loamy sand
sandy loam
fine sand
clay loam
gravelly - sandy loam
coarse sand
gravelly - sand
sand

Shallow Soil Types:
fine sandy loam
gravelly - loam
sand
silty clay

Deeper Soil Types:
stratified
clay loam
silty clay loam
gravelly - sandy loam
coarse sand
sand
weathered bedrock
very fine sandy loam

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

## WELL SEARCH DISTANCE INFORMATION

# PHYSICAL SETTING SOURCE RECORDS SEARCHED

## TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

## HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

## HYDROGEOLOGIC INFORMATION

AQUIFLOW$^{R}$ Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

## GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

# PHYSICAL SETTING SOURCE RECORDS SEARCHED

## LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

## OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

Orphan Well Prioritization Listing
California Department of Conservation
Telephone: 916-445-9686
Includes locations of wells included in the California State Well Plugging and Sealing Project, managed by CalGEM (California Geologic Energy Management Division).

Geothermal Wells Listing
Department of Conservation
Telephone: 916-445-9686
Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservations Geologic Energy Management Division (CalGEM, formerly DOGGR).

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

COVENANT AND AGREEMENT

TO INSTALL SPRINKLER SYSTEM

STATE OF CALIFORNIA )
COUNTY OF LOS ANGELES ) ss.

WHEREAS, Borrman Steel Company, a California corporation, is the owner and possessor of, and the only party having record title to, the following described real property, located in the City of Burbank, County of Los Angeles, State of California:

PARCEL 1:

That portion of lot 1 of Fawke's Subdivision in the city of Burbank, county of Los Angeles, state of California, as per map recorded in book 70 pages 58 and 59 of Miscellaneous Records, in the office of the county recorder of said county, lying northwesterly of the northwest line of a strip of land 17 feet wide conveyed to the Southern Pacific Railroad Company and described in Parcel 1 of the deed recorded in book 2296 page 399 of Official Records.

ALSO the northeasterly one-half of the vacated alley, 20 feet wide, lying adjacent to the southwesterly line of the above described land, bounded southeasterly by the northwest line of the above mentioned 17 foot strip of land.

EXCEPT that portion of said lot 1, which is included within the lines of the land described in Parcel 94 of the decree of condemnation filed in Case No.47441 Superior Court of said county, a certified copy of said decree being recorded in book 19786 page 381 of Official Records of said county.

PARCEL 2:

That portion of lot 2 of Fawke's Subdivision, in the city of Burbank, county of Los Angeles, state of California, as per map recorded in book 70 pages 58 and 59 of Miscellaneous Records, in the office of the county recorder of said county lying northwesterly of the northwest line of the strip of land 17 feet wide, conveyed to the Southern Pacific Railroad Company, and described in Parcel 1 of the deed recorded in book 2296 page 399 of Official Records of said county.

ALSO the southwesterly one-half of the vacated alley, 20 feet wide, lying adjacent to the northeasterly line of the above described land, bounded southeasterly by the northwest line of the above mentioned 17 foot strip of land.

ALSO a strip of land 50 feet in width lying southwesterly of and contiguous with the southwesterly line of said lot 2 and marked "Harrison Street"

(now vacated) on said map, lying between the southwesterly prolongation of the southeasterly and northwesterly lines respectively of said lot 2.

EXCEPT from said 50 foot strip of land that portion lying southeasterly of the northwesterly line of the 17 foot strip of land conveyed to the Southern Pacific Railroad Company, described as Parcel 1 in the deed recorded in book 2296 page 399 of Official Records of said county;

and,

WHEREAS, said Borrmann Steel Company is erecting an addition to its present building on said property and will be required to install a sprinkler system therein under Section 506 of the Uniform Building Code unless waiver of said requirement is obtained pursuant to Section 13-106.8 of the Burbank Municipal Code, which reads as follows:

"SECTION 13-106.8. CONSTRUCTION ADJACENT TO PUBLICLY-OWNED PROPERTY OR RAILROAD RIGHT OF WAY. Publicly-owned property and property used for railroad right of way purposes, or any portion thereof, insofar as not occupied by buildings or structures may be considered as public space within the meaning of Sections 506, 1803, 1903, 2003, 2103 and Table 5A of the Uniform Building Code as to adjoining private property the owner of which has executed and recorded an agreement satisfactory to the Superintendent of the Building Department and approved as to form by the City Attorney, in which he agrees for himself, his heirs, successors, and assigns that the provisions of Sections 506, 1803, 1903, 2003, 2103 and Table 5A of the Uniform Building Code will be promptly and fully complied with without regard to this section should public ownership of the publicly-owned property terminate or should any building or structure be located within the area deemed to be public space under this section."

and,

WHEREAS, the property adjacent to said Borrmann Steel Company is publicly owned and/or used for railroad right of way purposes and sufficiently vacant to qualify said property for relief under said Section 13-106.8 of the Burbank Municipal Code;

NOW, THEREFORE, said Borrman Steel Company does hereby promise, covenant and agree to and with the City of Burbank, a municipal corporation, and the Superintendent of the Building

Department of said City, that it will promptly install a sprinkler system on its said property and otherwise fully comply with Sections 506, 1803, 1903, 2003, 2103 and Table 5A of the City of Burbank Uniform Building Code should any of the adjacent property considered as public space under said Section 13-106.8 for the purposes of this agreement become privately owned, no longer used for railroad right of way purposes, or occupied in whole or part by any building or structure.

DATED this _____ day of _____, 1958.

BORRMANN STEEL COMPANY, a California corporation

By _____
George R. Borrmann, President

By _____
Secretary

STATE OF CALIFORNIA }
COUNTY OF LOS ANGELES } SS.

Borrmann

Mr. Samuel Gorlick, Asst. City Attorney — January 28, 1958

William J. Watterson

COVENANT REQUIRED FOR BORRMAN STEEL

Borrman Steel Company has contacted this department for the proper form to be used for the covenant to tie in the adjacent property that the City is acquiring for the City Yards, as specified in Section 13-1068. As you know, this is a new section that allows a property owner to make use of adjacent public property for the purposes of side yards, as required by the Building Code. The present form was set up for property under common ownership and I believe should be amended to suit the Borrman case.

William J. Watterson, Superintendent
Building Department

EXCEPT from said 50 foot strip of land that portion lying southeasterly of the northwesterly line of the 17 foot strip of land conveyed to the Southern Pacific Railroad Company, described as Parcel 1 in the deed recorded in book 2296, page 399, of Official Records of said county.

Legal Description

110 W. Olive

Borrman Steel Co.

City of Burbank, Geo. R. Borrmann Property

COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, DESCRIBED AS:

"B"

Lots 1 and 2 of the Replat of Fawke's Subdivision, in the City of Burbank, County of Los Angeles, State of California, as per map recorded in Book 70 Pages 58 and 59 of Miscellaneous Records, in the office of the County Recorder of said County. Also a strip of land 20 feet in width lying between said Lots 1 and 2, and marked "alley" (now vacated) on said map.

Also a strip of land 50 feet in width lying southwesterly of and contiguous with the southwesterly line of said Lot 2 and marked "Harrison Street" (now vacated) on said map, lying between the southwesterly prolongation of the southeasterly and northwesterly lines respectively of said Lot 2.

Excepting from said property those portions included within the 17 foot Strip of land conveyed to the Southern Pacific Railroad Company and described as Parcel 1 in the Deed recorded in Book 2296 Page 399 of official Records of said County.

ALSO EXCEPTING from said property those portions included within the lines of Parcel No. 94 as described in the Notice of Action in Superior Court Case No. 474741 in and for said County, as recorded in Book 19238 page 154 of official Records of said County.

"C"

1. Rights of way over and through said premises for all purposes pertaining to irrigating ditches or pipes that may be required, also a reservation of any and all artesian water that may be developed on said premises and not used thereon, as reserved in deeds recorded in Book 470 Page 83 and in Book 698 Page 314 of Deeds.

2. An agreement relating to drill switching, spur and industrial tracks over strips of approximately 15 feet in width lying on either side and contiguous to the 17 foot strip described as Parcel 1, in the deed to the Southern Pacific Railroad Company, recorded in Book 2296 Page 399 of Official Records, together with the real property necessary to maintain slopes and embankments and cuts, over, upon and across the adjoining premises, in such manner and to such width as said first parties may deem necessary for the safe, suitable or convenient operation of said industrial spur tracks, excepted by and between Southern Pacific Company a Corporation, and Southern Pacific Railroad Company, a corporation, parties of the first part, and J. M. Fawkes party of the second part, recorded March 28, 1924 in Book 3118 Page 288 of official Records.

3. A permanent easement and right of way over the northwesterly 20 feet of said land, for public road, highway and street purposes as granted to City of Burbank, a municipal Corporation, by deed recorded in Book 19213 Page 253 of Official Records.

For appeal and record of Board of Building andFire Code Appeals refer to Minutes book of the Board, under date of November 16, 1956

November 20, 1956

Mr. George Borrmann, President
Borrmann Steel Company
110 West Olive Avenue
Burbank, California

Dear Mr. Borrmann:

Your request for consideration of an appeal concerning relief from the yards and interior sprinkler requirements required by the Building Code for a building of the size proposed, has been considered by the Board of Building and Fire Code Appeals in a meeting on November 16, 1956 which you and Mr. Cochran attended. The action of the Board by motion, duly seconded and carried was: That the Board having heard all the statements, finds and determines that the recommendation of the Building Superintendent, to provide on the westerly and southerly walls of the proposed structure at 110 West Olive Avenue, Burbank, an approved fire curtain on the exterior walls, and that the sprinklered exterior walls and side yards be considered an alternate material as provided for in the Uniform Building Code.

This letter confirms action of the Board and you may proceed with the building plans in accordance therewith.

Yours truly,

William J. Watterson, Superintendent
Building Department

November 5, 1956

City of Burbank
Board of Appeals
Building Department
City Hall
Burbank, California

Gentlemen:

In further reference to application for a permit to construct an addition to our building in Burbank, we would like to make an appeal to get permission for this building permit.

Our building will have 47' 4 1/4" space on the west end of our property and approximately 37' on the south end. On the north end our building faces Olive Avenue and on the east end it faces Flower Street and the Burbank wash.

As (we) advised you the sprinkling system in our building, which we understand is called for by the code, would be worse than the fire for us. On the two sides there is less than the required spacing and we would be willing to put a fire screen on the outside wall.

We, therefore, request that our appeal be granted.

Yours very truly,

BORRMAN STEEL COMPANY

Attention: Mr. Robert P. Pettitt

Gentlemen:

Thank you for your letter of October 9, 1962 in which you request an interpretation as to whether or not the City Code requires a separate fire service and meter for supplying water to the "Water Curtain" which you are installing at Borrman Steel Company at 110 West Olive Avenue here in Burbank.

It is quite clear that while the Code does not specifically demand installation of a separate fire service in cases of this kind, the Code does authorize our Manager of our Public Service (Water) Department to require a separate fire service if in his opinion, it would be in the City's interest to do so.

The matter has been thoroughly discussed with Mr. Foy, Manager of our Public Service Department, Mr. Taylor, Fire Chief, and Mr. Watterson, Building Department Superintendent, all of whom agree that under the circumstances outlined in your letter, the City should not require installation of a separate fire service in this case.

I am therefore pleased to inform you that a 2" domestic service as originally planned by you will be sufficient to meet our requirements in this case.

We sincerely hope that this will solve your problem.

Very truly yours,

H. R. BENNETT, CITY MANAGER

cc: Mr. Foy, General Manager
Mr. Taylor, Fire Chief
Mr. Watterson, Bldg. Dept. Supt.

CITY OF BURBANK
Inter-Office Memo

Date November 2, 1962

To Mr. R. R. Bennett, City Manager

From W. J. Taylor, Fire Chief

Subject: Water Curtain Installation at Bormann Steel Company
110 West Olive Avenue, Burbank, California

The requirement of a water curtain in this particular instance is in lieu of providing building separation standards. It has been determined by the Building and Fire Departments that this type of installation meets the Building and Fire Code requirements.

The Fire Department has no concern as to how the water service is connected to the water curtain system as long as it supplies the proper gallons per minute for this purpose.

W. J. Taylor
Chief of Fire Department

CITY OF BURBANK

Inter-Office Memo

Date October 30, 1962

To Mr. H. R. Bennett, City Manager

From William J. Watterson, Supt. Bldg. Dept.

Subject: WATER CURTAIN INSTALLATION AT BORRMAN STEEL - 110 W. OLIVE AVE.

This letter is in reference to your memorandum of October 25 concerning the above subject. In the past six or seven years this department has approved a water curtain or deluge system inlieu of the building code requirements for self-closing fire doors in fire walls. The installation requirements are based on the requirements of the National Board of Fire Underwriters for a junior system. These requirements are identical with those of the City of Los Angeles and our building code. Amendment, therefore, would not be necessary to make this comply with the City of Los Angeles.

It is my understanding that the present problem concerns the service charge for the water used by this system as specified in the Public Service Department's fire protection service schedule WF-1. This schedule states in part that water used by a fire extinguishing system shall be paid for at a less rate than the rest of the water in the building, that a separate detector check valve by-pass meter should be placed on the system in order to determine the amount of water used in the event of a fire.

This installation has not been used in the past, is not required by the Fire Underwriters nor the building code and is an expensive addition to a junior fire extinguishing system. I do not believe that this extra installation is justified, as any water used from the domestic line either for fire or other purposes will be paid for by an existing meter.

William J. Watterson, Superintendent
Building Department

Proposed "Water Curtain" Installation at Herrman Steel Company - and Size of Water Service and Meter required for same.
Scott M. Campbell Company's letter to us dated October 9, 1962

I am forwarding to you herewith a Verifax copy of the subject letter.

Please let me have the following information:

1. Do the Building Department, Fire Department, and City Attorney concur in the "code interpretation" referred to in the subject letter?

2. Is there any reason why we should not amend our Code so as to parallel City of Los Angeles requirements in this matter?

Please let me have any suggestions you may have regarding this matter.

7673 MELROSE AVENUE
LOS ANGELES 46, CALIF.
OL-1-4040

October 9, 1962

City of Burbank
275 East Olive Avenue
Burbank, California.

Att: Mr. Harmon Bennett, City Manager

Dear Sir:

We have a contract to install a water curtain at the Borman Steel Company, 110 West Olive Street, Burbank, California and have run into a small problem in making this installation.

We checked with your Water Department before submitting our bid and after receiving the job contract, we submitted a check for $120.00 to the Water Company for the installation of a 2" Domestic meter to come off Olive Street. The Water Company then called me and said that their interpretation of the Code was that this would require a fire service and the installation of a detector check instead of the Domestic service. It was then suggested that we contact you for the interpretation of the Code.

I would like to explain that this water curtain we are installing would be installed in a galvanized line to a deluge valve which is a check valve and this line would also supply the Domestic water for the existing building. This is not an uncommon sutuation as it is done all the time in the City of Los Angeles, both for regular sprinkler systems and for a deluge system of this type when there are less than twenty heads.

We have also installed one in the City of Burbank at the Burbank Canning Company and there are numerous other occasions where small sprinkler systems or deluge type sprinkler systems are taken off the Domestic. Technically, this deluge system is not a fire sprinkler system. This is a water curtain that is being installed in lieu of some type of fire wall. It does not have an alarm or a pumper connection on the system, so that it is very

FIRE PROTECTION ENGINEERING & CONTRACTING

similar to a standpipe line which is taken off a Domestic water service.

The requirement of a fire service would not only be an additional expense for the installation, but the owner would have the additional standby charge on two services instead of one.

We hope you will take this under consideration as soon as possible to clarify this for both the Water Company and us.

Yours very truly,

SCOTT E. CAMPBELL CO.

Re: Building for
George R. Borrmann
Burbank, California

Gentlemen:

I have been informed that the City of Burbank recognizes the Uniform Building Code by the Pacific Coast Building Officials Conference. On the above-mentioned job, inasmuch as the Uniform Code does not allow a stress in excess of 20,000 p.s.i. on Columns, we offer to substitute 8WF35 or 10WF33 Columns instead of the 8WF31 as shown on the Drawings. We prefer to use the 8WF35 as that section is readily available while the 10WF33 is difficult to get.

Yours truly

WILL G. CORLETT

## - IMPORTANT DECLARATION -
(please read before signing)

I hereby acknowledge that I have read this application and that the information stated hereon is true. I agree to comply with all ordinances and State laws regulating heating, air conditioning, ventilation and refrigeration installations.

I hereby certify that I am properly registered and/or licensed as required by the City of Burbank and/or State of California, or that I am the legal owner of the above described property, and I certify that in the performance of the work for which this permit is issued I shall not employ any person who does not possess these contractors licenses required by law.

I further certify that I shall not employ any person to perform any work hereunder so as to become subject to the California Workers' Compensation Laws, or that if I employ any person to perform work hereunder, I will maintain a current policy of Workers' Compensation Insurance pursuant to the laws of the State of California during the life of this permit. No work will commence hereunder by any other person, partnership, association or corporation that employs others until they first file their own copy of a current Certificate of Workers' Compensation Insurance with the City of Burbank.

I understand and agree that should I fail to comply with the above, this permit shall be deemed revoked.

COVENANT AND AGREEMENT

TO INSTALL SPRINKLER SYSTEM

STATE OF CALIFORNIA )
COUNTY OF LOS ANGELES ) SS.

WHEREAS, Borrmann Steel Company, a California corporation, is the owner and possessor of, and the only party having record title to, the following described real property, located in the City of Burbank, County of Los Angeles, State of California:

PARCEL 1:

That portion of lot 1 of Fawke's Subdivision in the city of Burbank, county of Los Angeles, state of California, as per map recorded in book 70 pages 58 and 59 of Miscellaneous Records, in the office of the county recorder of said county, lying northwesterly of the northwest line of a strip of land 17 feet wide conveyed to the Southern Pacific Railroad Company and described in Parcel 1 of the deed recorded in book 2296 page 399 of Official Records.

ALSO the northeasterly one-half of the vacated alley, 20 feet wide, lying adjacent to the southwesterly line of the above described land, bounded southeasterly by the northwest line of the above mentioned 17 foot strip of land.

EXCEPT that portion of said lot 1, which is included within the lines of the land described in Parcel 94 of the decree of condemnation filed in Case No.47441 Superior Court of said County, a certified copy of said decree being recorded in book 19786 page 381 of Official Records of said county.

PARCEL 2:

That portion of lot 2 of Fawke's Subdivision, in the city of Burbank, county of Los Angeles, state of California, as per map recorded in book 70 pages 58 and 59 of Miscellaneous Records, in the office of the county recorder of said county lying northwesterly of the northwest line of the strip of land 17 feet wide, conveyed to the Southern Pacific Railroad Company, and described in Parcel 1 of the deed recorded in book 2296 page 399 of Official Records of said county.

ALSO the southwesterly one-half of the vacated alley, 20 feet wide, lying adjacent to the northeasterly line of the above described land, bounded southeasterly by the northwest line of the above mentioned 17 foot strip of land.

ALSO a strip of land 50 feet in width lying southwesterly of and contiguous with the southwesterly line of said lot 2 and marked "Harrison Street"

(now vacated) on said map, lying between the southwesterly prolongation of the southeasterly and northwesterly lines respectively of said lot 2.

EXCEPT from said 50 foot strip of land that portion lying southeasterly of the northwesterly line of the 17 foot strip of land conveyed to the Southern Pacific Railroad Company, described as Parcel 1 in the deed recorded in book 2296 page 399 of Official Records of said county;

and,

WHEREAS, said Borrmann Steel Company is erecting an addition to its present building on said property and will be required to install a sprinkler system therein under Section 506 of the Uniform Building Code unless waiver of said requirement is obtained pursuant to Section 13-106.8 of the Burbank Municipal Code, which reads as follows:

"SECTION 13-106.8. CONSTRUCTION ADJACENT TO PUBLICLY-OWNED PROPERTY OR RAILROAD RIGHT OF WAY. Publicly-owned property and property used for railroad right of way purposes, or any portion thereof, insofar as not occupied by buildings or structures may be considered as public space within the meaning of Sections 506, 1803, 1903, 2003, 2103 and Table 5A of the Uniform Building Code as to adjoining private property the owner of which has executed and recorded an agreement satisfactory to the Superintendent of the Building Department and approved as to form by the City Attorney, in which he agrees for himself, his heirs, successors, and assigns that the provisions of Sections 506, 1803, 1903, 2003, 2103 and Table 5A of the Uniform Building Code will be promptly and fully complied with without regard to this section should public ownership of the publicly-owned property terminate or should any building or structure be located within the area deemed to be public space under this section."

and,

WHEREAS, the property adjacent to said Borrmann Steel Company is publicly owned and/or used for railroad right of way purposes and sufficiently vacant to qualify said property for relief under said Section 13-106.8 of the Burbank Municipal Code;

NOW, THEREFORE, said Borrman Steel Company does hereby promise, covenant and agree to and with the City of Burbank, a municipal corporation, and the Superintendent of the Building

Department of said City, that it will promptly install a sprinkler system on its said property and otherwise fully comply with Sections 506, 1803, 1903, 2003, 2103 and Table 5A of the City of Burbank Uniform Building Code should any of the adjacent property considered as public space under said Section 13-106.8 for the purposes of this agreement become privately owned, no longer used for railroad right of way purposes, or occupied in whole or part by any building or structure.

DATED this _____ day of _____, 1958.

BOXRMAN STEEL COMPANY, a California corporation

By _____
George R. Borrmann, President

By _____
Secretary

STATE OF CALIFORNIA )

Mr. Samuel Gorlick, Asst. City Attorney January 28, 1958

William J. Watterson

COVENANT REQUIRED FOR BORRMAN STEEL

Borrman Steel Company has contacted this department for the proper form to be used for the covenant to tie in the adjacent property that the City is acquiring for the City Yards, as specified in Section 13-1068. As you know, this is a new section that allows a property owner to make use of adjacent public property for the purposes of side yards, as required by the Building Code. The present form was set up for property under common ownership and I believe should be amended to suit the Borrman case.

William J. Watterson, Superintendent
Building Department

PARCEL 1:

That portion of Lot 1 of Fawke's Subdivision in the City of Burbank, County of Los Angeles, State of California, as per map recorded in Book 70, pages 58 and 59 of Miscellaneous Records, in the office of the County Recorder of said county, lying northwesterly of the northwest line of a strip of land 17 feet wide conveyed to the Southern Pacific Railroad Company and described in Parcel 1 of the deed recorded in book 2296, page 399 of Official Records.

ALSO the northeasterly one-half of the vacated alley, 20 feet wide, lying adjacent to the southwesterly line of the above described land, bounded southeasterly by the northwest line of the above mentioned 17 foot strip of land.

EXCEPT that portion of said Lot 1, which is included within the lines of the land described in Parcel 54 of the decree of condemnation filed in Case No. 47441 Superior Court of said county, a certified copy of said decree being recorded in Book 19786, page 381 of Official Records of said county.

PARCEL 2:

That portion of Lot 2 of Fawke's Subdivision, in the City of Burbank, County of Los Angeles, State of California, as per map recorded in Book 70, pages 58 and 59 of Miscellaneous Records, in the office of the County Recorder of said county lying northwesterly of the northwest line of the strip of land 17 feet wide, conveyed to the Southern Pacific Railroad Company, and described in Parcel 1 of the deed recorded in book 2296, page 399 of Official Records of said county.

ALSO the southwesterly one-half of the vacated alley, 20 feet wide, lying adjacent to the northeasterly line of the above described land, bounded southeasterly by the northwest line of the above mentioned 17 foot strip of land.

ALSO a strip of land 50 feet in width lying southwesterly of and contiguous with the southwesterly line of said Lot 2 and marked "Harrison Street" (now vacated) on said map, lying between the southwesterly prolongation of the southeasterly and northwesterly lines respectively of said Lot 2.

EXCEPT from said 50 foot strip of land that portion lying southeasterly of the northwesterly line of the 17 foot strip of land conveyed to the Southern Pacific Railroad Company, described as Parcel 1 in the deed recorded in book 2296, page 399, of Official Records of said county.

Legal Description

110 W. Olive

Borrman Steel Co.

City of Burbank, Geo. R. Borrmann Property

COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, DESCRIBED AS:

"B"

Lots 1 and 2 of the Replat of Fawke's Subdivision, in the City of Burbank, County of Los Angeles, State of California, as per map recorded in Book 70 Pages 58 and 59 of Miscellaneous Records, in the office of the County Recorder of said County. Also a strip of land 20 feet in width lying between said Lots 1 and 2, and marked "alley" (now vacated) on said map.

Also a strip of land 50 feet in width lying southwesterly of and contiguous with the southwesterly line of said Lot 2 and marked "Harrison Street" (now vacated) on said map, lying between the southwesterly Prolongation of the southeasterly and northwesterly lines respectively of said Lot 2.

Excepting from said property those portions included within the 17 foot Strip of land conveyed to the Southern Pacific Railroad Company and described as Parcel 1 in the Deed recorded in Book 2296 Page 396 of official Records of said County.

ALSO EXCEPTING from said property those portions included within the lines of Parcel No. 94 as described in the Notice of Action in Superior Court Case No. 474741 in and for said County, as recorded in Book 19238 Page 124 of Official Records of said County.

"C"

1. Rights of way over and through said premises for all purposes pertaining to irrigating ditches or pipes that may be required, also a reservation of any and all artesian water that may be developed on said premises and not used thereon, as reserved in deeds recorded in Book 470 Page 83 and in Book 698 Page 314 of Deeds.

2. An agreement relating to drill switching, spur and industrial tracks over strips of approximately 15 feet in width lying on either side and contiguous to the 17 foot strip described as Parcel 1, in the deed to the Southern Pacific Railroad Company, recorded in Book 2296 Page 399 of Official Records, together with the real property necessary to maintain slopes and embankments and cuts, over, upon and across the adjoining premises, in such manner and to such width as said first parties may deem necessary for the safe, suitable or convenient operation of said industrial spur tracks, excepted by and between Southern Pacific Company a Corporation, and Southern Pacific Railroad Company, a corporation, parties of the first part, and J. W. Fawkes party of the second part, recorded March 28, 1924 in Book 3118 Page 288 of official Records.

3. A permanent easement and right of way over the northwesterly 20 feet of said land, for public road, highway and street purposes as granted to City of Burbank, a municipal Corporation, by deed recorded in Book 19213 Page 253 of Official Records.

INSPECTION $ 10.00, paid
ANNUAL $ None
Receipt No. 636894-0 Attached

BY AUTHORITY OF THE BOARD OF SUPERVISORS DATED March 20, 1962

M. E. SALSBURY, CHIEF ENGINEER.

BY Oliver D. Hall
Oliver D. Hall
Supervising Civil Engineer, Project Planning

THIS PERMIT IS SUBJECT TO THE PROVISIONS LISTED ON THE REVERSE SIDE HEREOF EXCEPT AS EXPRESSLY MODIFIED BY THE PROVISIONS LISTED BELOW:

1. PERMITTEE MUST NOTIFY D. L. Patton, BY TELEPHONE [illegible] AT LEAST 24 HOURS BEFORE STARTING ANY WORK UNDER THIS PERMIT. FAILURE TO DO SO MAY RESULT IN REVOCATION OF PERMIT. SHOULD PERMITTEE FAIL TO ACTIVELY AND DILIGENTLY PROSECUTE THE WORK OF THIS PERMIT WITHIN XXXX DAYS FROM DATE OF ISSUANCE, THE PERMIT MAY BE REVOKED.
2. Exercise of this permit is contingent upon permittee acquiring [illegible] reasonable period of time with the District retaining an easement for flood control purposes over the southwesterly 22 feet of that portion of District right of way lying between Olive Avenue on the westerly side and the Southern Pacific Railroad [illegible] easterly side, or remove his facilities and vacate the property within such time.
3. Backfill within the channel right of way shall be obtained from [illegible] additional material shall be similar. Organic material, [illegible] pavement, large boulders and other objectionable material shall not be used. Backfill shall be compacted to at least 95 per cent AASHO density. Flooding or jetting shall not be permitted.
4. Construction equipment in excess of H-10 shall not be operated [illegible] within a distance equal to the wall height of the channel.
5. After completion of construction, the area within the channel right of way shall be free of debris.
6. Attention is directed to General Provisions "G" and "H" on the reverse side hereof.
7. Should it become necessary for the District to enter upon its right of way for construction or reconstruction of its structures, or for flood control purposes, permittee shall at his expense revise, remove or relocate any structures or improvements on the right of way which interfere with District activities, or shall in lieu thereof reimburse the District for any increased cost of such activities by reason of the existence of his structures or improvements in place.

cc: District Engineer

ACCEPTANCE OF THIS PERMIT SHALL INDICATE ACCEPTANCE OF AND AGREEMENT TO ALL PROVISIONS HEREOF. VIOLATION OF ANY PROVISION SHALL BE CAUSE FOR IMMEDIATE REVOCATION OF THIS PERMIT.

For appeal and record of Board of Building andFire Code Appeals refer to Minutes book of the Board, under date of November 16, 1956

November 20, 1956

Mr. George Borrmann, President
Borrmann Steel Company
110 West Olive Avenue
Burbank, California

Dear Mr. Borrmann:

Your request for consideration of an appeal concerning relief from the yards and interior sprinkler requirements required by the Building Code for a building of the size proposed, has been considered by the Board of Building and Fire Code Appeals in a meeting on November 16, 1956 which you and Mr. Cochran attended. The action of the Board by motion, duly seconded and carried was: That the Board having heard all the statements, finds and determines that the recommendation of the Building Superintendent, to provide on the westerly and southerly walls of the proposed structure at 110 West Olive Avenue, Burbank, an approved fire curtain on the exterior walls, and that the sprinklered exterior walls and side yards be considered an alternate material as provided for in the Uniform Building Code.

This letter confirms action of the Board and you may proceed with the building plans in accordance therewith.

Yours truly,

William J. Watterson, Superintendent
Building Department

November 5, 1956

City of Burbank
Board of Appeals
Building Department
City Hall
Burbank, California

Gentlemen:

In further reference to application for a permit to construct an addition to our building in Burbank, we would like to make an appeal to get permission for this building permit.

Our building will have 47' 4 1/4" space on the west end of our property and approximately 37' on the south end. On the north end our building faces Olive Avenue and on the east end it faces Flower Street and the Burbank wash.

As (we) advised you the sprinkling system in our building, which we understand is called for by the code, would be worse than the fire for us. On the two sides there is less than the required spacing and we would be willing to put a fire screen on the outside wall.

We, therefore, request that our appeal be granted.

Yours very truly,

BORRMAN STEEL COMPANY

Attention: Mr. Robert F. Pettitt

Gentlemen:

Thank you for your letter of October 9, 1962 in which you request an interpretation as to whether or not the City Code requires a separate fire service and meter for supplying water to the "Water Curtain" which you are installing at Borrman Steel Company at 110 West Olive Avenue here in Burbank.

It is quite clear that while the Code does not specifically demand installation of a separate fire service in cases of this kind, the Code does authorize our Manager of our Public Service (Water) Department to require a separate fire service if in his opinion, it would be in the City's interest to do so.

The matter has been thoroughly discussed with Mr. Foy, Manager of our Public Service Department, Mr. Taylor, Fire Chief, and Mr. Watterson, Building Department Superintendent, all of whom agree that under the circumstances outlined in your letter, the City should not require installation of a separate fire service in this case.

I am therefore pleased to inform you that a 2" domestic service as originally planned by you will be sufficient to meet our requirements in this case.

We sincerely hope that this will solve your problem.

Very truly yours,

H. R. BENNETT, CITY MANAGER

cc: Mr. Foy, General Manager
Mr. Taylor, Fire Chief
Mr. Watterson, Bldg. Dept. Supt.

CITY OF BURBANK
Inter-Office Memo

Date November 2, 1962

To Mr. H. R. Bennett, City Manager

From W. J. Taylor, Fire Chief

Subject: Water Curtain Installation at Hermann Steel Company
110 West Olive Avenue, Burbank, California

The requirement of a water curtain in this particular instance is in lieu of providing building separation standards. It has been determined by the Building and Fire Departments that this type of installation meets the Building and Fire Code requirements.

The Fire Department has no concern as to how the water service is connected to the water curtain system as long as it supplies the proper gallons per minute for this purpose.

W. J. Taylor
Chief of Fire Department

CITY OF BURBANK
Inter-Office Memo

Date October 30, 1962

To Mr. H. R. Bennett, City Manager

From William J. Watterson, Supt. Bldg. Dept.

Subject: WATER CURTAIN INSTALLATION AT BORRMAN STEEL - 110 W. OLIVE AVE.

This letter is in reference to your memorandum of October 25 concerning the above subject. In the past six or seven years this department has approved a water curtain or deluge system inlieu of the building code requirements for self-closing fire doors in fire walls. The installation requirements are based on the requirements of the National Board of Fire Underwriters for a junior system. These requirements are identical with those of the City of Los Angeles and our building code. Amendment, therefore, would not be necessary to make this comply with the City of Los Angeles.

It is my understanding that the present problem concerns the service charge for the water used by this system as specified in the Public Service Department's fire protection service schedule WF-1. This schedule states in part that water used by a fire extinguishing system shall be paid for at a less rate than the rest of the water in the building, that a separate detector check valve by-pass meter should be placed on the system in order to determine the amount of water used in the event of a fire.

This installation has not been used in the past, is not required by the Fire Underwriters nor the building code and is an expensive addition to a junior fire extinguishing system. I do not believe that this extra installation is justified, as any water used from the domestic line either for fire or other purposes will be paid for by an existing meter.

William J. Watterson, Superintendent
Building Department

Proposed "Water Curtain" Installation at Borrman Steel Company - and Size of Water Service and Meter required for same.
Scott E. Campbell Company's letter to me dated October 9, 1962

I am forwarding to you herewith a Verifax copy of the subject letter.

Please let me have the following information:

1. Do the Building Department, Fire Department, and City Attorney concur in the "code interpretation" referred to in the subject letter?

2. Is there any reason why we should not amend our Code so as to parallel City of Los Angeles requirements in this matter?

Please let me have any suggestions you may have regarding this matter.

Burbank, California.

Att: Mr. Harmon Bennett, City Manager

Dear Sir:

We have a contract to install a water curtain at the Borman Steel Company, 110 West Olive Street, Burbank, California and have run into a small problem in making this installation.

We checked with your Water Department before submitting our bid and after receiving the job contract, we submitted a check for $120.00 to the Water Company for the installation of a 2" Domestic meter to come off Olive Street. The Water Company then called me and said that their interpretation of the Code was that this would require a fire service and the installation of a detector check instead of the Domestic service. It was then suggested that we contact you for the interpretation of the Code.

I would like to explain that this water curtain we are installing would be installed in a galvanized line to a deluge valve which is a check valve and this line would also supply the Domestic water for the existing building. This is not an uncommon sutuation as it is done all the time in the City of Los Angeles, both for regular sprinkler systems and for a deluge system of this type when there are less than twenty heads.

We have also installed one in the City of Burbank at the Burbank Canning Company and there are numerous other occasions where small sprinkler systems or deluge type sprinkler systems are taken off the Domestic. Technically, this deluge system is not a fire sprinkler system. This is a water curtain that is being installed in lieu of some type of fire wall. It does not have an alarm or a pumper connection on the system, so that it is very

FIRE PROTECTION ENGINEERING & CONTRACTING

similar to a standpipe line which is taken off a Domestic water service.

The requirement of a fire service would not only be an additional expense for the installation, but the owner would have the additional standby charge on two services instead of one.

We hope you will take this under consideration as soon as possible to clarify this for both the Water Company and us.

Yours very truly,

SCOTT E. CAMPBELL CO.

Re: Building for
George R. Borrmann
Burbank, California

Gentlemen:

I have been informed that the City of Burbank recognizes the Uniform Building Code by the Pacific Coast Building Officials Conference. On the above-mentioned job, inasmuch as the Uniform Code does not allow a stress in excess of 20,000 p.s.i. on Columns, we offer to substitute 8WF35 or 10WF33 Columns instead of the 8WF31 as shown on the Drawings. We prefer to use the 8WF35 as that section is readily available while the 10WF33 is difficult to get.

Yours truly

WILL G. CORLETT

### - IMPORTANT DECLARATION -
(please read before signing)

I hereby acknowledge that I have read this application and that the information stated hereon is true. I agree to comply with all ordinances and State laws regulating plumbing installations.

I hereby certify that I am properly registered and/or licensed as required by the City of Burbank and/or State of California, or that I am the legal owner of the above described property, and I certify that in the performance of the work for which this permit is issued I shall not employ any person who does not possess these contractors licenses required by law.

I further certify that I shall not employ any person to perform any work hereunder so as to become subject to the California Workers' Compensation laws, or that if I employ any person to perform work hereunder, I will maintain a current policy of Workers' Compensation insurance pursuant to the laws of the State of California during the life of this permit. No work will commence hereunder by any other person, partnership, association or corporation that employs others until they first file their own copy of a current Certificate of Workers' Compensation Insurance with the City of Burbank.

I understand and agree that should I fail to comply with the above, this permit shall be deemed revoked.

COVENANT AND AGREEMENT

TO INSTALL SPRINKLER SYSTEM

STATE OF CALIFORNIA )
COUNTY OF LOS ANGELES ) ss.

WHEREAS, Borrman Steel Company, a California corporation, is the owner and possessor of, and the only party having record title to, the following described real property, located in the City of Burbank, County of Los Angeles, State of California:

PARCEL 1:

That portion of lot 1 of Fawke's Subdivision in the city of Burbank, county of Los Angeles, state of California, as per map recorded in book 70 pages 58 and 59 of Miscellaneous Records, in the office of the county recorder of said county, lying northwesterly of the northwest line of a strip of land 17 feet wide conveyed to the Southern Pacific Railroad Company and described in Parcel 1 of the deed recorded in book 2296 page 399 of Official Records.

ALSO the northeasterly one-half of the vacated alley, 20 feet wide, lying adjacent to the southwesterly line of the above described land, bounded southeasterly by the northwest line of the above mentioned 17 foot strip of land.

EXCEPT that portion of said lot 1, which is included within the lines of the land described in Parcel 94 of the decree of condemnation filed in Case No.47441 Superior Court of said county, a certified copy of said decree being recorded in book 19786 page 381 of Official Records of said county.

PARCEL 2:

That portion of lot 2 of Fawke's Subdivision, in the city of Burbank, county of Los Angeles, state of California, as per map recorded in book 70 pages 58 and 59 of Miscellaneous Records, in the office of the county recorder of said county lying northwesterly of the northwest line of the strip of land 17 feet wide, conveyed to the Southern Pacific Railroad Company, and described in Parcel 1 of the deed recorded in book 2296 page 399 of Official Records of said county.

ALSO the southwesterly one-half of the vacated alley, 20 feet wide, lying adjacent to the northeasterly line of the above described land, bounded southeasterly by the northwest line of the above mentioned 17 foot strip of land.

ALSO a strip of land 50 feet in width lying southwesterly of and contiguous with the southwesterly line of said lot 2 and marked "Harrison Street"

(now vacated) on said map, lying between the southwesterly prolongation of the southeasterly and northwesterly lines respectively of said lot 2.

EXCEPT from said 50 foot strip of land that portion lying southeasterly of the northwesterly line of the 17 foot strip of land conveyed to the Southern Pacific Railroad Company, described as Parcel 1 in the deed recorded in book 2296 page 399 of Official Records of said county;

and,

WHEREAS, said Borrmann Steel Company is erecting an addition to its present building on said property and will be required to install a sprinkler system therein under Section 506 of the Uniform Building Code unless waiver of said requirement is obtained pursuant to Section 13-106.8 of the Burbank Municipal Code, which reads as follows:

"SECTION 13-106.8. CONSTRUCTION ADJACENT TO PUBLICLY-OWNED PROPERTY OR RAILROAD RIGHT OF WAY. Publicly-owned property and property used for railroad right of way purposes, or any portion thereof, insofar as not occupied by buildings or structures may be considered as public space within the meaning of Sections 506, 1803, 1903, 2003, 2103 and Table 5A of the Uniform Building Code as to adjoining private property the owner of which has executed and recorded an agreement satisfactory to the Superintendent of the Building Department and approved as to form by the City Attorney, in which he agrees for himself, his heirs, successors, and assigns that the provisions of Sections 506, 1803, 1903, 2003, 2103 and Table 5A of the Uniform Building Code will be promptly and fully complied with without regard to this section should public ownership of the publicly-owned property terminate or should any building or structure be located within the area deemed to be public space under this section."

and,

WHEREAS, the property adjacent to said Borrmann Steel Company is publicly owned and/or used for railroad right of way purposes and sufficiently vacant to qualify said property for relief under said Section 13-106.8 of the Burbank Municipal Code;

NOW, THEREFORE, said Borrman Steel Company does hereby promise, covenant and agree to and with the City of Burbank, a municipal corporation, and the Superintendent of the Building

Department of said City, that it will promptly install a sprinkler system on its said property and otherwise fully comply with Sections 506, 1803, 1903, 2003, 2103 and Table 5A of the City of Burbank Uniform Building Code should any of the adjacent property considered as public space under said Section 13-106.8 for the purposes of this agreement become privately owned, no longer used for railroad right of way purposes, or occupied in whole or part by any building or structure.

Mr. Samuel Gorlick, Asst. City Attorney — January 28, 1958

William J. Watterson

COVENANT REQUIRED FOR BORRMAN STEEL

Borrman Steel Company has contacted this department for the proper form to be used for the covenant to tie in the adjacent property that the City is acquiring for the City Yards, as specified in Section 13-1068. As you know, this is a new section that allows a property owner to make use of adjacent public property for the purposes of side yards, as required by the Building Code. The present form was set up for property under common ownership and I believe should be amended to suit the Borrman case.

William J. Watterson, Superintendent
Building Department

For appeal and record of Board of Building andFire Code Appeals refer to Minutes book of the Board, under date of November 16, 1956

November 20, 1956

Mr. George Borrmann, President
Borrmann Steel Company
110 West Olive Avenue
Burbank, California

Dear Mr. Borrmann:

Your request for consideration of an appeal concerning relief from the yards and interior sprinkler requirements required by the Building Code for a building of the size proposed, has been considered by the Board of Building and Fire Code Appeals in a meeting on November 16, 1956 which you and Mr. Cochran attended. The action of the Board by motion, duly seconded and carried was: That the Board having heard all the statements, finds and determines that the recommendation of the Building Superintendent, to provide on the westerly and southerly walls of the proposed structure at 110 West Olive Avenue, Burbank, an approved fire curtain on the exterior walls, and that the sprinklered exterior walls and side yards be considered an alternate material as provided for in the Uniform Building Code.

This letter confirms action of the Board and you may proceed with the building plans in accordance therewith.

Yours truly,

William J. Watterson, Superintendent
Building Department

City of Burbank
Board of Appeals
Building Department
City Hall
Burbank, California

Gentlemen:

In further reference to application for a permit to construct an addition to our building in Burbank, we would like to make an appeal to get permission for this building permit.

Our building will have 47' 4 1/4" space on the west end of our property and approximately 37' on the south end. On the north end our building faces Olive Avenue and on the east end it faces Flower Street and the Burbank wash.

As (we) advised you the sprinkling system in our building, which we understand is called for by the code, would be worse than the fire for us. On the two sides there is less than the required spacing and we would be willing to put a fire screen on the outside wall.

We, therefore, request that our appeal be granted.

Yours very truly,

BORRMAN STEEL COMPANY

Attention: Mr. Robert P. Pettitt

Gentlemen:

Thank you for your letter of October 9, 1962 in which you request an interpretation as to whether or not the City Code requires a separate fire service and meter for supplying water to the "Water Curtain" which you are installing at Borrman Steel Company at 110 West Olive Avenue here in Burbank.

It is quite clear that while the Code does not specifically demand installation of a separate fire service in cases of this kind, the Code does authorize our Manager of our Public Service (Water) Department to require a separate fire service if in his opinion, it would be in the City's interest to do so.

The matter has been thoroughly discussed with Mr. Foy, Manager of our Public Service Department, Mr. Taylor, Fire Chief, and Mr. Watterson, Building Department Superintendent, all of whom agree that under the circumstances outlined in your letter, the City should not require installation of a separate fire service in this case.

I am therefore pleased to inform you that a 2" domestic service as originally planned by you will be sufficient to meet our requirements in this case.

We sincerely hope that this will solve your problem.

Very truly yours,

H. R. BENNETT, CITY MANAGER

cc: Mr. Foy, General Manager
Mr. Taylor, Fire Chief
Mr. Watterson, Bldg. Dept. Supt.

CITY OF BURBANK
Inter-Office Memo

Date November 2, 1962

To Mr. R. R. Bennett, City Manager

From W. J. Taylor, Fire Chief

Subject: Water Curtain Installation at Bormann Steel Company
110 West Olive Avenue, Burbank, California

The requirement of a water curtain in this particular instance is in lieu of providing building separation standards. It has been determined by the Building and Fire Departments that this type of installation meets the Building and Fire Code requirements.

The Fire Department has no concern as to how the water service is connected to the water curtain system as long as it supplies the proper gallons per minute for this purpose.

W. J. Taylor

CITY OF BURBANK

Inter-Office Memo

Date October 30, 1962

To Mr. H. R. Bennett, City Manager

From William J. Watterson, Supt. Bldg. Dept.

Subject: WATER CURTAIN INSTALLATION AT BORRMAN STEEL - 110 W. OLIVE AVE.

This letter is in reference to your memorandum of October 25 concerning the above subject. In the past six or seven years this department has approved a water curtain or deluge system inlieu of the building code requirements for self-closing fire doors in fire walls. The installation requirements are based on the requirements of the National Board of Fire Underwriters for a junior system. These requirements are identical with those of the City of Los Angeles and our building code. Amendment, therefore, would not be necessary to make this comply with the City of Los Angeles.

It is my understanding that the present problem concerns the service charge for the water used by this system as specified in the Public Service Department's fire protection service schedule WF-1. This schedule states in part that water used by a fire extinguishing system shall be paid for at a less rate than the rest of the water in the building, that a separate detector check valve by-pass meter should be placed on the system in order to determine the amount of water used in the event of a fire.

This installation has not been used in the past, is not required by the Fire Underwriters nor the building code and is an expensive addition to a junior fire extinguishing system. I do not believe that this extra installation is justified, as any water used from the domestic line either for fire or other purposes will be paid for by an existing meter.

William J. Watterson, Superintendent
Building Department

Proposed "Water Curtain" Installation at Herrman Steel Company - and Size of Water Service and Meter required for same.
Scott E. Campbell Company's letter to us dated October 9, 1962

I am forwarding to you herewith a Verifax copy of the subject letter.

Please let me have the following information:

1. Do the Building Department, Fire Department, and City Attorney concur in the "code interpretation" referred to in the subject letter?

2. Is there any reason why we should not amend our Code so as to parallel City of Los Angeles requirements in this matter?

Please let me have any suggestions you may have regarding this matter.

Att: Mr. Harmon Bennett, City Manager

Dear Sir:

We have a contract to install a water curtain at the Borman Steel Company, 110 West Olive Street, Burbank, California and have run into a small problem in making this installation.

We checked with your Water Department before submitting our bid and after receiving the job contract, we submitted a check for $120.00 to the Water Company for the installation of a 2" Domestic meter to come off Olive Street. The Water Company then called me and said that their interpretation of the Code was that this would require a fire service and the installation of a detector check instead of the Domestic service. It was then suggested that we contact you for the interpretation of the Code.

I would like to explain that this water curtain we are installing would be installed in a galvanized line to a deluge valve which is a check valve and this line would also supply the Domestic water for the existing building. This is not an uncommon sutuation as it is done all the time in the City of Los Angeles, both for regular sprinkler systems and for a deluge system of this type when there are less than twenty heads.

We have also installed one in the City of Burbank at the Burbank Canning Company and there are numerous other occasions where small sprinkler systems or deluge type sprinkler systems are taken off the Domestic. Technically, this deluge system is not a fire sprinkler system. This is a water curtain that is being installed in lieu of some type of fire wall. It does not have an alarm or a pumper connection on the system, so that it is very

FIRE PROTECTION ENGINEERING & CONTRACTING

similar to a standpipe line which is taken off a Domestic water service.

The requirement of a fire service would not only be an additional expense for the installation, but the owner would have the additional standby charge on two services instead of one.

We hope you will take this under consideration as soon as possible to clarify this for both the Water Company and us.

Yours very truly,

SCOTT E. CAMPBELL CO.

Re: Building for
George R. Borrmann
Burbank, California

Gentlemen:

I have been informed that the City of Burbank recognizes the Uniform Building Code by the Pacific Coast Building Officials Conference. On the above-mentioned job, inasmuch as the Uniform Code does not allow a stress in excess of 20,000 p.s.i. on Columns, we offer to substitute 8WF35 or 10WF33 Columns instead of the 8WF31 as shown on the Drawings. We prefer to use the 8WF35 as that section is readily available while the 10WF33 is difficult to get.

Yours truly

WILL G. CORLETT

## Conditions

EMERGENCY EGRESS: All bedroom windows, when replaced with windows of different size or operation must meet the minimum emergency egress requirements in California Building Code Section 310.4 (Refer to City of Burbank handout for specific dimensions)

NPDES CERTIFICATION: National Pollution Discharge Elimination System (NPDES) is the portion of the Clean Water Act that applies to protection of receiving waters. Under permits from the Los Angeles regional Water Quality Control Board (RWQCB), certain activities are subject to RWQCB enforcement. To meet the requirements of the Los Angeles County Municipal Storm water Permit (CAS614001), the City of Burbank has adopted minimum requirements for storm water runoff management from development construction activities. These include requirements for sediment control, erosion control, and construction activities control to be implemented on each project site.

In compliance with the above requirements, I certify that I understand and will comply with the minimum requirements noted above.

## Building Permit

Job Address: **110 W OLIVE AVE**

PRE :
Entered By : fmuller

Signature of Applicant

WINDOW REPLACEMENT: The NFRC label identifying the U-Factor and SHGC of the installed windows must remain on the window until the final inspection has been completed. For replacement windows, the maximum values permitted by the California Energy Commission are: U-Factor = 0.67 and SHGC = 0.40.

CONSTRUCTION FENCING AND DEBRIS: All construction sites shall be fenced and secured. All construction debris shall be stored and contained so as not to create a public nuisance.

DIG ALERT: The permit applicant is responsible for verifying that all utilities have been disconnected prior to starting demolition. Call Underground Service Alert of Southern California (DigAlert) at: 800-227-2600.

INSPECTION REQUIREMENTS: Approval of the plans or issuance of any permit does not preclude any additional submittals required by the Building Inspector.

PLANS ON SITE: The approved set of plans, specifications and job card must be at job site during construction and available to the building inspector. It is unlawful to alter or change the approved plans, or deviate there from, without approval of the Building Division. The stamping of the plans and specifications shall not be held to permit or to be an approval of the violation of any provision of the City Ordinance or State law. The approval does not waive any required approvals from other Divisions, Departments, and Agencies having jurisdiction.

SETBACK CERTIFICATION REQUIRED: A California State licensed surveyor is required to certify the location and setbacks of all new construction prior to the first foundation inspection. A copy of the certification shall be available to the Building Division inspector for the job file prior to the first inspection.

STORMWATER POLLUTION PREVENTION: All Construction Best Management Practices must be installed prior to, and maintained during, construction. These include requirements for sediment control, erosion control, and construction activities control to be implemented on each project site.

WINDOWS: The NFRC label identifying the U-Factor and SHGC of the installed windows must remain on the window until the final inspection has been completed.

ASBESTOS ABATEMENT: The South Coast Air Quality Management District adopted Rule 1403 (copy available at Building Division Counter) ? Asbestos Emissions From Demolition/Renovation Activities. This rule specifies work practice requirements for demolition and renovation activities and the associated disturbance of asbestos-containing waste material. If there is asbestos, a building permit will not be issued until the notification procedure is completed. Failure to comply with the provisions of this rule may result in a penalty or fine. Demolition or renovation operators must contact the AQMD (909-396-2000) for compliance information for the following requirements: Notification; Removal techniques for asbestos-containing material; Clean-up procedures; and Waste storage and disposal requirements.

There is ____/ is not X asbestos in the building.

I HAVE READ THE S.C.A.Q.M.D. RULE 1403 REQUIREMENTS. IF NOTIFICATION IS REQUIRED, THE APPLICATION MUST BE FILED WITH THE S.C.A.Q.M.D. 10 DAYS PRIOR TO START OF ANY RENOVATION OR DEMOLITION WORK.

CONSTRUCTION HOURS: The project shall comply with the following construction hour restrictions: 1) All projects other than single-family residential construction, within 500 ft. of any residential zone: Monday-Friday 7am-7pm; Saturday 8am-5pm; Sunday and Holidays Not Allowed; 2) Single-family residential construction: 7am-10pm.

INSPECTION REQUEST: To request an inspection call 818-238-5220 between 8am-5pm Monday-Friday. The permit number must be provided when requesting an inspection.

PLAN APPROVAL: Plans are in full compliance with relevant building codes of the City of Burbank, and the Building Official issues the building permit solely on that finding. Neither the Building Official not the City of Burbank has made a determination whether the plans comply with other State or Federal laws or private contractual and/or property rights.

DETERMINATION OF PROPERTY LINES: It is the responsibility of the applicant to verify the location of all property lines. You may be required to provide a boundary survey or other certification by a California licensed surveyor, in addition to any required building setback certification, as requested by the Building Inspector.

## IMPORTANT DECLARATION

(Please Read Before Signing)

I hereby acknowledge that I have read this application and that the information stated hereon is true. I agree to comply with all ordinances and State laws regulating building, plumbing, electrical, mechanical, sign and grading construction and installation.

I hereby certify that I am a properly registered and /or licensed as required by the City of Burbank and/or the State of California, or that I am the legal owner of the above described property, and I certify that in the performance of the work for which this permit is issued, I shall not employ any person who does not posses these contractors licenses required by law. I further certify that I shall not employ any person to perform any work hereunder so as to become subject to the California Workers' Compensation Laws, or that if I employ and person to perform work hereunder, I will maintain a current policy of Workers' Compensation Insurance pursuant to the laws of the State of California during the life of this permit. No work will commence hereunder by any other person, partnership, association, or corporation that employs others until they first file their own copy of a current Certificate of Workers' Compensation Insurance with the City of Burbank. I understand and agree that should I fail to comply with the above, this permit shall be deemed revoked.

Application is hereby made to the Building Official for a permit subject to the conditions and reasons set forth on this application. Each person upon whose behalf this application is made and each person at whose request and for whose benefit work is performed under or pursuant to any permit issued as a result of this application agrees to, and shall, indemnify and hold harmless the City of Burbank, its officers, agents and employees.

I agree not to occupy or allow occupancy of any buildings authorized by this permit until final building inspection approval has been received. I certify that I have read this application and state that the above information is correct. I agree to comply with all City, and State laws relating to the building construction, and hereby authorize representatives of the City to enter upon the above-mentioned property for inspection purposes.

Signature of Permittee_____ Application Approved by_____

**NOTE:**

When property validated, this form constitutes a building permit. This permit expires and becomes null and void should work not be commenced within 180 days from validation date or should authorized construction be suspended or abandoned or not receive an inspection for a period of 180 days after work is commenced. A request for an extension of time must be made in writing to the Building Official within the first 180 days of the Permit Issue date.

***FOR INSPECTION CALL (818) 238-5220 7:00 AM TO 5:00 PM***

***Fax in your inspection requests to (818) 238-5242 or request online at www.burbankca.org/building***

# BUSINESS PLAN ANNUAL RENEWAL CERTIFICATION

## Hazardous Materials Inventory

I have reviewed my inventory and certify the following:

- ☐ **Add:** Complete one **Hazardous Materials Inventory—Chemical Description Form** checking the "Add" box to add each hazardous material that you have not previously disclosed. Submit one form per chemical.
- ☐ **Delete:** Write "delete" across the **Hazardous Materials Inventory—Chemical Description Form** checking the "Delete" box to delete any previously disclosed hazardous material that is no longer used. Submit one form per chemical.
- ☐ **Revise:** Write the correct amounts, locations, or container type that has changed checking the "Revise" box to reflect the accuracy of any previously reported hazardous material on each **Hazardous Materials Inventory—Chemical Description Form.** Submit one form per chemical.
- ☐ **EPCRA Compliance:** Fill in the EPCRA field on the **Hazardous Materials Inventory—Chemical Description Form** and **sign** for any hazardous material type and quantity identified on 40 CFR Part 355, Appendix A—The List of Extremely Hazardous Substances and Their Threshold Planning Quantities.
- ☒ **No Change:** The previously submitted inventory is accurate.

## Consolidated Contingency Plan (CCP)

I have reviewed the CCP and certify that the CCP on file with your agency is accurate and current in accordance with the following conditions:

- ☐ **Modification:** Significant changes in facility personnel or operations required a revision of the CCP. Complete, **sign**, and submit a new CCP with this form.
- ☒ **No Change:** There have not been any significant changes in the facility's personnel and operations that require a revision to the current CCP.

## Cal-ARP Program

I reviewed the threshold quantities in Section 2770.5 of Title 19 of the California Code of Regulations and certify that any regulated substance complies with the following registration requirement:

- ☐ **Add:** Complete the **Cal-ARP Program Regulated Substance Registration** form only if the regulated substance is at or above the threshold quantity (TQ). Submit one form per chemical.
- ☒ **No Change:** The previously submitted registration for regulated substance(s) is accurate.

## ANNUAL CERTIFICATION

I certify under penalty of law that I have personally examined the information submitted herein and believe the submitted information is complete, accurate, and up to date. Also, no hazardous materials subject to the inventory requirements of this Chapter, (California Health & Safety Code Chapter 6.95) are being handled that are not listed on the most recently submitted annual inventory form.

FIRE DEPARTMENT

January 10, 2008

MICHELLE PINTINI
BORRMANN METAL CENTER
110 W OLIVE AVE
BURBANK CA 91502

Subject: **00404 – BORRMANN STEEL CO**
**110 W OLIVE AVE**

California Health & Safety Code, Chapter 6.95, Article 1 and Burbank Municipal Code §15-1-2701-5.1 require all businesses that store, use, or handle hazardous materials in quantities that meet or exceed the thresholds established in Health & Safety Code §25503.6 (as indicated below), to submit a completed Hazardous Materials Inventory Disclosure Statement annually. Our records indicate that you meet these requirements.

The established thresholds are a hazardous material or a mixture containing a hazardous material in an aggregate quantity at any one time during the reporting year equal to or greater than a ***TOTAL weight of 500 pounds***, or a ***TOTAL volume of 55 gallons***, or a ***TOTAL volume of 200 cubic feet*** at standard temperature and pressure for compressed gas, or the threshold quantity (if less than 500 pounds) for regulated substances. A mixture that contains one percent (1%) or more of a hazardous ingredient is a hazardous material. A mixture that contains one tenth of one percent (.1%) or more of a carcinogen is a hazardous material. The *California Accidental Release Prevention (CalARP) Program* requires all regulated substance handlers to register with the Burbank Fire Department. Our records indicate that you meet these requirements.

These Hazardous Materials Inventory Disclosure forms are currently part of a Consolidated Permit Package issued by the Los Angeles County Certified Unified Program Agency (LACoCUPA). Please carefully read the instructions, complete the enclosed forms, and sign where indicated. Return ***ORIGINAL*** forms to the Burbank Fire Department with original signatures by ***March 1, 2008***. Failure to submit a properly completed and signed Business Plan Annual Renewal Certification statement, signed Business Owner / Operator Identification page, and Business Activities page by the due date could result in civil penalties. A self-addressed envelope is enclosed for your convenience.

**BE SURE TO RETAIN A COPY FOR YOUR RECORDS.**

See attached schedule for your submittal requirements.

| If you have … | Then complete, sign, and submit the following forms: |
|---|---|
| no changes to your inventory or Consolidated Contingency Plan, | 1. Business Plan Annual Renewal Certification Form – signed;<br>2. HazMat Owner and Operator Identification page – signed; and<br>3. HazMat Business Activities page |
| no changes to your inventory or Consolidated Contingency Plan, but you are subject to EPCRA, | 1. Business Plan Annual Renewal Certification Form – signed;<br>2. HazMat Owner and Operator Identification page – signed;<br>3. HazMat Business Activities page; and<br>4. Hazardous Materials Inventory Statement — sign each hazardous material being reported as an extremely hazardous substance. |
| changes to your inventory, | 1. Business Plan Annual Renewal Certification Form – signed;<br>2. HazMat Owner and Operator Identification page – signed;<br>3. HazMat Business Activities page; and<br>4. Hazardous Materials Inventory — Chemical Description Form to add new reportable hazardous materials. Make as many copies as you need to disclose each reportable hazardous material that you will handle in 2008; |
| changes to your Consolidated Contingency Plan, | 1. Business Plan Annual Renewal Certification Form – signed;<br>2. HazMat Owner and Operator Identification page – signed;<br>3. HazMat Business Activities page; and<br>4. A revised Consolidated Contingency Plan form. |
| a chemical that is at or above the threshold quantity for a regulated substance. | 1. Business Plan Annual Renewal Certification Form – signed;<br>2. HazMat Owner and Operator Identification page – signed;<br>3. HazMat Business Activities page; and<br>4. A Cal-ARP Program Regulated Substances Registration form. |

**Forms can now be downloaded from our website at *http://www.Burbankfire.US/Mainpage.Htm*. These forms may be completed on your computer by using Microsoft Word. If you are unable to download the required forms from our website, or have questions, or need assistance, please contact the Fire Prevention Bureau at (818) 238-3473.**

Thank you for your cooperation.

Jorge Martinez, Fire Safety Analyst

# HAZARDOUS MATERIALS REPORTING FORMS

Enclosed is your most recent Hazardous Materials Inventory Statement based on the latest information available. Please carefully review it for accuracy. The requirements for submitting a consolidated Contingency Plan have changed (see * on page 1). If you require assistance in completing these forms, please feel free to contact the Burbank Fire Department, Hazardous Materials Division, at (818) 238-3475, Monday through Friday 7:30 to 9:00 AM and 1:00 to 4:00 PM.

*Return to the Burbank Fire Department this Re-Certification Procedure Page signed and dated along with a newly completed and signed Business Activities Form, Business Owner/Operator Identification Form, and any other appropriate and/or requested forms on or before March 1.* ***Failure to complete and return these forms by March 1 may result in fines and penalties.*** *Keep a copy of the entire package for your records. To avoid late penalties, this Department recommends use of CERTIFIED MAIL to ensure delivery of these forms before the March 1 deadline.*

## RE-CERTIFICATION PROCEDURE

*Please check the appropriate box(es)*

**HAZARDOUS MATERIALS:**

☐ **Delete:** If you no longer handle a material on the Inventory Statement provided, ***draw a line*** through the discontinued material, and ***complete a Chemical Description form writing "DELETE"*** across the form for each material you no longer handle.

☐ **Add:** If you are handling materials not previously disclosed, ***make copies of Chemical Description form and complete*** all information on the form (one form per material).

☐ **Revise/Update:** Cross out any errors on the Inventory Statement and Clearly Print the correct information. ***Make copies of Chemical Description form and complete*** all information on the form ***indicating "REVISE"*** (one form per material).

☑ **No Change:** There has been no change in the quantity of any hazardous material as reported, ***return the Inventory Statement we provided*** along with a newly completed and signed ***Business Activities Form, Business Owner/Operator Identification Form***, and this ***Re-Certification Procedure page*** signed and dated.

**CONSOLIDATED CONTINGENCY PLAN:**

☐ **Change:** Mark this Box if you are updating the Consolidated Contingency Plan.

☑ **No Change:** Mark this box if the Consolidated Contingency Plan on file is correct and complete.

**REGULATED SUBSTANCE REGISTRATION:**

☐ **Regulated Substance Registration:** If you are handling a Regulated Substance not previously disclosed, you must also ***complete the Regulated Substance Registration Form***. Complete only if substance is at or above threshold Quantity (TQ). A list of Regulated Substances is attached for reference.

RECEIVED
26 FEB 07 15 31
BURBANK FIRE DEPT.

*THE SUBMITTAL OF THE HAZARDOUS MATERIALS BURBANK REPORTING FORMS CONTAIN ALL OF THE REQUIRED STATE & FEDERAL INVENTORY INFORMATION AND SATIFIES THE REQUIREMENTS OF BOTH STATE & FEDERAL REGULATIONS.*

## ANNUAL CERTIFICATION

I certify under penalty of law that I have personally examined the information submitted herein and believe the submitted information is complete, accurate, and up to date. Also, no hazardous materials subject to the inventory requirements of this chapter, (California Health & Safety Code Chapter 6.95) are being handled that are not listed on the most recently submitted annual inventory form.

FIRE DEPARTMENT

January 10, 2007

Michelle Pitini
Borrmann Metal Center
110 W Olive Ave
Burbank CA 91502

SUBJECT: **00404 - BORRMANN METAL CENTER**
**110 W OLIVE AVE**

In July 1997, the City of Burbank became part of the Los Angeles County Certified Unified Program Agency (LACoCUPA). The LACoCUPA consolidates six environmental programs. The City of Burbank is responsible for the management of four of these six programs. They include Underground Storage Tanks, Hazardous Materials Disclosure and Response, Risk Management, and enforcement of the Hazardous Materials Management requirements of the Fire Code.

California Health & Safety Code, Chapter 6.95, Article 1 and Burbank Municipal Code §15-1-8001-3.3 require all businesses that store, use, or handle hazardous materials in quantities that meet or exceed the thresholds established in Health & Safety Code §25503.6, must submit a completed Hazardous Materials Inventory Disclosure Statement annually. Our records indicate that you meet these requirements.

Enclosed you will find the following forms which you are required to complete and submit to us by March 1, 2007:

✓ **The Hazardous Materials Annual Re-Certification Procedure**
A list of the hazardous materials identified at your facility may be included in the package. Review it carefully. You may complete and sign and submit the Annual Re-Certification Procedure for the Hazardous Materials Disclosure Report only, provided you can attest to the following:

- The most recent information submitted to the Burbank Fire Department is complete, accurate and up to date. (See attached list)
- There have been no changes in the quantities of hazardous materials as reported in the most recent submittal.
- No hazardous materials subject to the inventory reporting requirements are being handled that are not listed in the most recently submitted inventory report.
- The most recently submitted annual inventory report contains information required by Section 11022 of Title 42 of the United States Code.

✓ **The Facility Information Section**
***Everyone*** is required to submit their signed Facility Information for 2007. This form has been filled out with the information we currently have on file. If there are any blanks, please complete this information. If there are any changes, please cross out the filled in information and write in your new information.

✓ **The Hazardous Materials Section**
These forms are provided for your convenience to be completed if you have added any new Hazardous Materials, deleted any Hazardous Materials, or if there are any changes in quantities or substances to be reported.

These Hazardous Materials Inventory Disclosure forms are currently part of a Consolidated Permit Package issued by the Los Angeles County Certified Unified Program Agency (LACoCUPA). Please carefully read the instructions, complete the appropriate forms, and sign where indicated. Return ***ORIGINAL*** forms to the Burbank Fire Department by ***March 1, 2007***. Failure to submit a properly completed Inventory or signed Annual Re-Certification Statement by the due date could result in civil penalties. A self-addressed envelope is enclosed for your convenience. **BE SURE TO RETAIN A COPY FOR YOUR RECORDS.**

You can now request the Hazardous Materials and the Consolidated Contingency Plan forms to be sent to you by Email. These forms may be completed on your computer by using Microsoft Word. If you have any questions, or if we can be of any assistance, please contact the Fire Prevention Bureau at (818) 238-3475.

Thank you for your cooperation.

Jorge Martinez, Fire Safety Analyst

UNIFIED PROGRAM (UP) FORM

# CONSOLIDATED CONTINGENCY PLAN

## COVER PAGE

For Year

### FACILITY IDENTIFICATION

| BUSINESS NAME 3 | | FACILITY ID # 1 |
|---|---|---|
| Borrmann Metal Center | | AR0019160 |
| SITE ADDRESS 103 | CITY 104 | ZIP CODE 105 |
| 110 W. Olive Avenue | Burbank | 91502 |

The Consolidated Contingency Plan provides businesses a format to comply with the emergency planning requirements of the following three written hazardous materials emergency response plans required in California:

- ϖ Hazardous Materials Business Plan (HSC Chapter 6.95 Section 25504 (b) and 19 CCR Sections 2729-2732),
- ϖ Hazardous Waste Generator Contingency Plan (22 CCR Section 66264.52), and,
- ϖ Underground Storage Tank Emergency Response Plan and Monitoring Program (23 CCR Sections 2632 and 2641).

This format is designed to reduce duplication in the preparation and use of emergency response plans at the same facility, and to improve the coordination between facility response personnel and local, state, and federal emergency responders during an emergency. Use the chart below to determine which sections of the Consolidated Contingency Plan need to be completed for your facility. If you are unsure as to which programs your facility is subject to, refer to the Business Activities Page.

| PROGRAMS | SECTION(S) TO BE COMPLETED |
|---|---|
| Hazardous Materials Business Plan (HMBP) | Cover Page, Section I, and Site Map(s) |
| Hazardous Waste Generator (HWG) | Cover Page, Section I, and Site Map(s) |
| Underground Storage Tank (UST) | Cover Page, Sections I and II, and Site Map(s) |
| HMBP, HWG, UST | Cover Page, Sections I and II, and Site Map(s) |

**A copy of the plan shall be submitted to your local CUPA and at least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency.** Describe below where a copy of your Contingency Plan, including the hazardous material inventories and Site Map(s), is located at your business:

Lock Box at front door of office

### PLAN CERTIFICATION

*I certify under penalty of law that I have personally examined and I am familiar with the information provided by this plan and to the best of my knowledge the information is accurate, complete, and true.*

| PRINTED NAME OF OWNER/OPERATOR | TITLE OF OWNER/OPERATOR |
|---|---|
| Robert G. Wedeen | CO - President |
| SIGNATURE OF OWNER/OPERATOR | DATE |
| Robert G Wedeen | 1/20/06 |

We appreciate the effort of local businesses in completing these plans and will assist in every possible way. If you have any questions, please contact your local CUPA or PA.

| OFFICIAL USE ONLY | DATE RECEIVED | REVIEWED BY | | |

| | | | | |

# ADVISORY

The site-specific Contingency Plan is the facility's plan for dealing with emergencies and shall be implemented immediately whenever there is a fire, explosion, or release of hazardous materials that could threaten human health and/or the environment. The Contingency Plan shall be reviewed, and immediately amended, if necessary, whenever:

- the plan fails in an emergency,
- the facility changes in its design, construction, operation, maintenance, or other circumstances in a way that materially increases the potential for fires, explosions, or releases of hazardous waste or hazardous waste constituents, or changes the response necessary in an emergency,
- the list of emergency coordinators changes, or
- the list of emergency equipment changes.

Submit a copy of any updates or changes to your local CUPA or PA.

*UST owners/operators be advised that the local UST agency, CUPA or PA, must be notified within 30 days of any changes to the monitoring procedures listed in the UST Emergency Response and Monitoring Plan as found Section II of the Consolidated Contingency Plan.*

### III. EMERGENCY RESPONSE PLANS AND PROCEDURES

**A. *Notifications***

Your business is required by State Law to provide an immediate verbal report of any release or threatened release of a hazardous material to local fire emergency response personnel, this Unified Program Agency (CUPA or PA), and the Office of Emergency Services. If you have a release or threatened release of hazardous materials, immediately call:

**FIRE / PARAMEDICS / POLICE / SHERIFF PHONE: 911**

**AFTER** the local emergency response personnel are notified, you shall then notify this Unified Program Agency and the Office of Emergency Services.

Local Unified Program Agency: (818) 238-3475
State Office of Emergency Service: (800) 852-7550 or (916) 262-1621
National Response Center: (800) 424-8802

Information to be provided during Notification:

- Your name and the telephone number from where you are calling.
- Exact address of the release or threatened release.
- Date, time, cause, and type of incident (e.g. fire, air release, spill etc.)
- Material and quantity of the release, to the extent known.
- Current condition of the facility.
- Extent of injuries, if any.
- Possible hazards to public health and/ or the environment outside of the facility.

**B. *Emergency Medical Facility***

List the local emergency medical facility that will be used by your business in the event of an accident or injury caused by a release or threatened release of hazardous material

| HOSPITAL/CLINIC: Providence St. Joseph Occupational | PHONE: (818) 953-4400 |
|---|---|
| ADDRESS: 3413 Pacific Avenue | |
| CITY: Burbank | ZIP CODE: 91505 |

### D. *Arrangements With Emergency Responders*

If you have made special (i.e. contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements on the lines below:

### E. *Evacuation Plan*

1. The following alarm signal(s) will be used to begin evacuation of the facility *(check all which apply)*:

☑ Verbal ☐ Telephone *(including cellular)* ☐ Alarm System ☐ Public Address System ☐ Intercom
☐ Pagers ☐ Portable Radio ☐ Other *(specify)*:

2. ☐ Evacuation map is prominently displayed throughout the facility.

3. ☐ Individual(s) responsible for coordinating evacuation including spreading the alarm and confirming the business has been evacuated:

Roberto Siordia / Warehouse Supervisor.
Robert G. Wedeen / CC - President (Back-up)

### F. *Earthquake Vulnerability*

Identify areas of the facility where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☑ Hazardous Waste/ Hazardous Materials Storage Areas ☐ Production Floor ☐ Process Lines
☐ Bench / Lab ☐ Waste Treatment ☐ Other

Identify mechanical systems where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☑ Utilities ☑ Sprinkler Systems ☑ Cabinets ☐ Shelves
☑ Racks ☐ Pressure Vessels ☑ Gas Cylinders ☑ Tanks
☑ Process Piping ☑ Shutoff Valves ☐ Other:

UNIFIED PROGRAM (UP) FORM
# CONSOLIDATED CONTINGENCY PLAN

## SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

**G. *Emergency Procedures***

Briefly describe your business standard operating procedures in the event of a release or threatened release of hazardous materials:

Evacuate area, Call fire department

1. **PREVENTION** (prevent the hazard) - Describe the kinds of hazards associated with the hazardous materials present at your facility. What actions would your business take to prevent these hazards from occurring? You may include a discussion of safety and storage procedures.

1) Propane: Fire hazard only. Evacuate area and call fire dept. Storage is clearly marked and a fire extinguisher is located near area.

2) Acetylene: Fire hazard only. Bottles are stored in approved rack. Evacuate area and call fire dept.

2. **MITIGATION** (reduce the hazard) - Describe what is done to lessen the harm or the damage to person(s), property, or the environment, and prevent what has occurred from getting worse or spreading. What is your immediate response to a leak, spill, fire, explosion, or airborne release at your business?

Reduce the amount of hazardous material being stored by having the bottles refilled or replaced more often.

Evacute immediately the area effected and call the fire dept.

3. **ABATEMENT** (remove the hazard) - Describe what you would do to stop and remove the hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your facility?

If leaking occurred we would remove container and let it empty itself in a well Ventilated area. Keeping all employees well away from the leaking container.

### IV. EMERGENCY EQUIPMENT

22 CCR, Section 66265.52(e) [as referenced by Section 66262.34(a)(3)] requires that emergency equipment at the facility be listed. Completion of the following Emergency Equipment Inventory Table meets this requirement

*EMERGENCY EQUIPMENT INVENTORY TABLE*

| 1. Equip Category | 2. Equipment Type | 3. Location * | 4. Description** |
|---|---|---|---|
| Personal Protective Equipment, Safety Equipment, and First Aid Equipment | ☐ Cartridge Respirators | | |
| | ☐ Chemical Monitoring Equipment *(describe)* | | |
| | ☐ Chemical Protective Aprons/Coats | | |
| | ☐ Chemical Protective Boots | | |
| | ☐ Chemical Protective Gloves | | |
| | ☐ Chemical Protective Suits *(describe)* | | |
| | ☐ Face Shields | | |
| | ☑ First Aid Kits/Stations *(describe)* | A,C | Bandages, Spray Cleaner etc |
| | ☑ Hard Hats | A,C | plastic Hats |
| | ☐ Plumbed Eye Wash Stations | | |
| | ☑ Portable Eye Wash Kits *(i.e. bottle type)* | A,C | cleaning eye Solution |
| | ☐ Respirator Cartridges *(describe)* | | |
| | ☑ Safety Glasses/~~Splash Goggles~~ | A | plastic eye wear |
| | ☐ Safety Showers | | |
| | ☐ Self-contained Breathing Apparatuses (SCBA) | | |
| | ☐ Other *(describe)* | | |
| Fire Extinguishing Systems | ☑ Automatic Fire Sprinkler Systems | C | water Sprinkler |
| | ☐ Fire Alarm Boxes/Stations | | |
| | ☐ Fire Extinguisher Systems *(describe)* | | |
| | ☐ Other *(describe)* | | |
| Spill Control Equipment and Decontamination Equipment | ☑ Absorbents (describe) | A,D | granulated Clay |
| | ☐ Berms/Dikes (describe) | | |
| | ☐ Decontamination Equipment (describe) | | |
| | ☐ Emergency Tanks (describe) | | |
| | ☐ Exhaust Hoods | | |
| | ☐ Gas Cylinder Leak Repair Kits (describe) | | |
| | ☐ Neutralizers (describe) | | |
| | ☐ Overpack Drums | | |
| | ☐ Sumps (describe) | | |
| | ☐ Other (describe) | | |
| Communications and Alarm Systems | ☐ Chemical Alarms (describe) | | |
| | ☐ Intercoms/ PA Systems | | |
| | ☐ Portable Radios | | |
| | ☐ Telephones | | |
| | ☐ Underground Tank Leak Detection Monitors | | |
| | ☐ Other (describe) | | |
| Additional Equipment (Use Additional Pages if Needed.) | | | |
| | | | |
| | | | |
| | | | |
| | | | |

* *Use the Location Codes (LC) from the Site Map(s) prepared for your Contingency Plan.*

** *Describe the equipment and its capabilities. If applicable, specify any testing/maintenance procedures/intervals. Attach additional pages, numbered appropriately, if needed.*

CITY OF BURBANK

FAX (818) 238-3479

FIRE DEPARTMENT

January 9, 2006

Michelle Pitini
BORRMANN METAL CENTER
110 W Olive Ave
Burbank CA 91502

**SUBJECT: 00404 - BORRMANN METAL CENTER**
**110 W OLIVE AVE, BURBANK**

In July 1997, the City of Burbank became part of the Los Angeles County Certified Unified Program Agency (LACoCUPA). The LACoCUPA consolidates six environmental programs. The City of Burbank is responsible for the management of four of these six programs. They include Underground Storage Tanks, Hazardous Materials Disclosure and Response, Risk Management, and enforcement of the Hazardous Materials Management requirements of the Fire Code.

California Health & Safety Code, Chapter 6.95, Article 1 and Burbank Municipal Code § 9-2-8001-3.3 require all businesses that store, use, or handle hazardous materials in quantities that meet or exceed the thresholds established in Health & Safety Code §25503.5, must submit a completed hazardous materials inventory disclosure statement annually. Our records indicate that you meet these requirements.

Enclosed you will find the following forms which you are required to complete and submit to us by March 1, 2006:

**THE FACILITY INFORMATION SECTION**
***Everyone*** is required to submit their signed Facility Information for 2006. This form has been filled out with the information we currently have on file. If there are any blanks, please complete this information. If there are any changes, please cross out the filled in information and write in your new information.

**THE HAZARDOUS MATERIALS SECTION**
***Everyone*** is required to complete and submit their Hazardous Materials Inventory for 2006 (once every three years). Our last general request for these forms was in 2000. **Once we have received these properly completed forms**, we will send you a letter each year asking you to certify that the information previously submitted is currently correct. Only comprehensive Hazardous Materials Inventory Reports are to be submitted. No recertification forms are to be submitted in 2006. Please refer to the Notes below to facilitate completing the forms correctly.

*NOTE #1:* The Largest Container (Box #215) should reflect the amount of your largest container for a particular chemical, i.e., if you have three different size containers for window cleaner which are 5 Gallons, 10 Gallons, and a 55 Gallon Drum, your largest container would be 55 Gallons.

*NOTE #2:* The Maximum Daily Amount (Box #218) for the above referenced chemical would be 70 Gallons, which would be the total of the three containers (55+10+5). Even if your containers are not full, this would be the Maximum Daily Amount because it is the maximum amount you could have if the containers were full.

**THE CONSOLIDATED CONTINGENCY PLAN SECTION w/SITE MAP**
***Everyone*** is required to properly complete, sign, and submit a Consolidated Contingency Plan and Site Map for 2006 (once every three years). Our last general request for these forms was in 2003.

These Hazardous Materials Inventory Disclosure forms are currently part of a Consolidated Permit Package issued by the Los Angeles County Certified Unified Program Agency (LACoCUPA). Please carefully read the instructions, complete the appropriate forms, and sign where indicated. Return **ORIGINAL** forms to the Burbank Fire Department by **March 1, 2006**. Failure to submit properly completed Hazardous Materials Disclosure forms by the due date could result in civil penalties. A self-addressed envelope is enclosed for your convenience. **BE SURE TO RETAIN A COPY FOR YOUR RECORDS.**

If you have any questions or if we can be of any assistance, please contact the Fire Prevention Bureau at (818) 238-3475.

Thank you for your cooperation.

MICHELLE PITINI
BORRMANN METAL CENTER
110 W OLIVE AVE
BURBANK CA 91502

Subject: **00404 – BORRMANN METAL CENTER**
**110 W OLIVE AVE**

As a hazardous materials handler your business is required to submit a completed hazardous materials inventory disclosure statement annually in accordance with the Section 25509 of the California Health & Safety Code. Hazardous Materials equal to or greater than the amounts of ***a total weight of 500 pounds, or a total volume of 55 gallons or 200 cubic feet*** qualify your business as a Hazardous Materials Handler.

Please review the following attached forms:

- Business Plan Annual Renewal Certification
- Business Owner / Operator Identification
- Business Activities

**If there are changes or if there are no changes** to your "Hazardous Materials Inventory" or "Consolidated Contingency Plan" or "Site Map" please review and follow the directions on the back of this letter.

**BE SURE TO RETAIN A COPY OF ALL FORMS FOR YOUR RECORDS.**

*Please note you have 30 days from the date of this notice to complete and return the required information.
***THIS LETTER IS YOUR ONLY NOTICE. No further notices will be issued.***

**Failure to submit the required inventory disclosure statement is a misdemeanor criminal violation** of both the California Health & Safety Code and the Burbank Municipal Code. Each violation is punishable by a maximum of six months in jail and/or a **$1,000 fine**, not including penalty assessments.

Additionally, if the city also elects to pursue civil enforcement of this matter, any business that violates these provisions can be assessed a civil penalty of up to two thousand ($2,000) dollars for each day of the violation. If the business is determined to have knowingly failed to comply after reasonable notice of the violation, they are civilly liable for up to five thousand ($5,000) dollars for each day in which the violation occurs.

**Forms can now be downloaded from our website at** *www.Burbankfire.US*. **These forms may be completed on your computer by using *Adobe Reader*. If you are unable to download the required forms from our website, or have questions, or need assistance, please contact the Fire Prevention Bureau at (818) 238-3473.**

Thank you for your cooperation.

Jorge Martinez, Deputy Fire Marshal

**See schedule below for your submittal requirements.**

| If you have ... | Then complete, sign, and submit the following forms: |
|---|---|

## BUSINESS PLAN ANNUAL RENEWAL CERTIFICATION 2012

John Porchas, 818-846-7171, 9/14/11, KP

### Hazardous Materials Inventory

I have reviewed my inventory and certify the following:

☐ **Add:** Complete one **Hazardous Materials Inventory—Chemical Description Form** checking the "Add" box to add each hazardous material that you have not previously disclosed. Submit one form per chemical.

☐ **Delete:** Write "delete" across the **Hazardous Materials Inventory—Chemical Description Form** checking the "Delete" box to delete any previously disclosed hazardous material that is no longer used. Submit one form per chemical.

☐ **Revise:** Write the correct amounts, locations, or container type that have changed checking the "Revise" box to reflect the accuracy of any previously reported hazardous material. Submit one form per chemical.

☒ **No Change:** The previously submitted inventory is accurate.

### Consolidated Contingency Plan (CCP)

I have reviewed the CCP and certify that the CCP on file with your agency is accurate and current in accordance with the following conditions:

☐ **Modification:** Significant changes in facility personnel or operations require a revision of the CCP. Complete, sign, and submit a new CCP with this form.

☒ **No Change:** There have not been any significant changes in the facility's personnel or operations that require a revision to the current CCP.

### ANNUAL CERTIFICATION

I certify under penalty of law that I have personally examined the information submitted herein and believe the submitted information is complete, accurate, and up to date. Also, no hazardous materials subject to the inventory requirements of this Chapter, (California Health & Safety Code Chapter 6.95) are being handled that are not listed on the most recently submitted annual inventory form.

**Submit this packet to the above address before *October 10, 2011* to avoid penalties or other enforcement options (see back).**
Obtain additional forms from our website at ***www.burbankfire.us***
or from the Burbank Fire Department at (818) 238-3473.

# CITY OF BURBANK FIRE DEPARTMENT
## Business Plan and Hazardous Materials Management

***PURPOSE OF THE BUSINESS PLAN. The Health and Safety Code requires that your business plan gives the first responders, such as firefighters, information on the location, quantity, and health risks for the hazardous materials at your facility.***

**CERTIFICATION OF YOUR BUSINESS PLAN** – The Hazardous Materials Division intends to simplify your annual certification by providing you an Owner Operator Identification Form completed with the information as it currently appears in our database. Download additional unified program forms from our website at ***www.BurbankFire.US***.

**HAZARDOUS MATERIALS INVENTORY** – Every three years each Hazardous Materials Handler is required to disclose the names, amounts, locations, and mixtures containing hazardous materials to this Department if the container amount equals or exceeds the following quantities at any one time during the reporting year: ***a total weight of 500 pounds, or a total volume of 55 gallons, or 200 cubic feet.*** When changes are made, you are required to send a new Chemical Description form with the annual certification. Download blank Hazardous Materials Chemical Description forms from our website at ***www.Burbankfire.US***.

**CONSOLIDATED CONTINGENCY PLAN** – Every three years the Hazardous Materials Handler shall submit to the Burbank Fire Department the current personnel, owner, and business name, including the current and effective procedures that trained personnel would implement in the event of a hazardous materials release from an operation or storage condition at the site. When changes are made, you are required to send a new CCP with the annual certification. Furthermore, you must train the personnel about the revised procedures, because the Health and Safety Code requires a training program for employees on hazardous materials safety procedures in the event of a release or threatened release of hazardous materials. Download a blank CCP form from our website at ***www.BurbankFire.US***.

**SITE MAPS** – A site map is included in the CCP form. The map is given to the firefighters. Therefore indicate the hazardous materials storage areas and operations on the map. Please use the site map grid that is included with the CCP form; blue prints will not be accepted. The site map may be multiple pages depending on the size of the facility. Download a blank Site Map form from our website at ***www.BurbankFire.US***.

**BUSINESS PLAN AMENDMENTS** – Submit a Hazardous Materials Inventory—Chemical Description form to this Department within 30 days of the following changes: 100% of an increase of a previously disclosed hazardous material, or handling of a hazardous material that was not previously disclosed. Submit a CCP to this department within 30 days if there is a change of owner or operator at a facility that has reportable quantities of hazardous materials (required by the new owner/operator), if the operations change in a way that compromise the procedures towards any release of a hazardous materials that are specified in the previously submitted CCP.

**VIOLATIONS AND FINES** – Any business that violates any Health and Safety Code Sections that pertain to hazardous materials reporting may be civilly liable for up to $2,000 for each day of the violation. Any business that knowingly violates these provisions may be liable for up to $5,000 for each day of the violation. Any person or business that, upon discovery of a release or threatened release, fails to immediately report to the Burbank Fire Department, may be fined up to $25,000 per day of violation and/or be sentenced up to one (1) year in County jail. Furthermore, if the violation results in, or significantly contributes to, any emergency, including a fire, to which the county or city is required to respond, the person shall also be assessed the full cost of the county or city emergency response, as well as the cost of cleaning up and disposing of the hazardous material (Section 25514.5).

**EXEMPTIONS**- A retail store, including the interior receiving and stockroom areas, that handles hazardous materials contained solely in a consumer product for direct distribution to and use by the general public is exempt from the State reporting requirements, unless the individual container size equals or exceeds the reportable quantities in State Law. Railcars or tankers containing hazardous materials if the mode of power (i.e. locomotive or tractor) is disconnected. Railroad cars containing hazardous materials remaining within the same railroad facility or business facility for more than thirty (30) days are deemed stored at that location and are subject to all reporting requirements.

This Department, upon written application, may exempt a handler from any portion of the Business Plan and/or exempt a hazardous material, if it is determined this exemption does not pose a significant hazard to human health, safety, or the environment.

**FACILITY MODIFICATIONS** – If you are the owner or operator of a new facility or your facility is being modified in a way that results in any change to the safe operating limits or that introduces a new hazard, you must contact the Burbank Fire Department as soon as possible.

# BUSINESS OWNER/OPERATOR IDENTIFICATION

Please submit the Business Activities page, the Business Owner/Operator Identification page, and Hazardous Materials - Chemical Description for all hazardous materials inventory submissions. For the inventory to be considered complete, this page must be signed by the appropriate individual. Please number all pages of your submittal. This helps your CUPA or PA identify whether the submittal is complete and if any pages are separated.

1. FACILITY ID NUMBER This number is assigned by the CUPA. This is the unique number which identifies your facility.
3. BUSINESS NAME Enter the full legal name of the business.
100. BEGINNING DATE Enter the beginning year and date of the report (YYYYMMDD, ex. 1999/07/01).
101. ENDING DATE Enter the ending year and date of the report (YYYYMMDD, ex. 2000/06/30).
102. BUSINESS PHONE Enter the phone number, area code first, and any extension.
103. BUSINESS SITE ADDRESS Enter the street address where the facility is located. No post office box numbers are allowed.
104. CITY Enter the city or unincorporated area in which the business site is located.
105. ZIP CODE - Enter the zip code of the business site. The extra 4 digits in the zip code may also be added.
106. DUN & BRADSTREET Enter the Dun and Bradstreet number for the facility. The Dun & Bradstreet number may be obtained by calling (610) 882-7748 or by visiting Dun and Bradstreet on the internet at www.dnb.com.
107. SIC CODE Enter the primary Standard Industrial Classification Code number for the primary business activity. Report only the first four digits.
108. COUNTY Enter the county in which the business site is located.
109. BUSINESS OPERATOR NAME Enter the name of the person who is the business operator.
110. BUSINESS OPERATOR PHONE Enter business operator's phone number including any extension, if different from the business phone.
111. OWNER NAME Enter name of the business owner, if different from the business operator.
112. OWNER PHONE Enter the business owner's phone number if different from the business phone, area code first, and any extension.
113. OWNER MAILING ADDRESS Enter the owner's mailing address if different from the business site address.
114. OWNER CITY Enter the name of the city for the owner's mailing address.
115. OWNER STATE Enter the 2 character state abbreviation for the owner's mailing address.
116. OWNER ZIP CODE Enter the zip code for the owner's address. The extra 4 digits in the zip code may also be added.
117. ENVIRONMENTAL CONTACT NAME Enter the name of the person, if different from the Business Owner or Operator, who receives all environmental correspondence and will respond to enforcement activity.
118. CONTACT PHONE Enter the phone number at which the environmental contact can be contacted including any extension.
119. CONTACT MAILING ADDRESS Enter the mailing address where all environmental contact correspondence should be sent.
120. CITY Enter the name of the city for the environmental contact's mailing address.
121. STATE Enter the 2 character state abbreviation for the environmental contact's mailing address.
122. ZIP CODE Enter the zip code for the environmental contact's mailing address. The extra 4 digits in the zip code may also be added.
123. PRIMARY EMERGENCY CONTACT NAME Enter the name of a representative that can be contacted in case of an emergency involving hazardous materials at the business site. The contact shall have FULL facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
124. TITLE Enter the title of the primary emergency contact.
125. BUSINESS PHONE Enter the business number for the primary emergency contact, area code first, and any extensions.
126. 24-HOUR PHONE Enter a 24-hour phone number for the primary emergency contact. The 24-hour phone number must be one answered 24 hours a day. If it is not the contact's home phone number, then the service answering the phone must be able to immediately contact the individual stated above.
127. MOBLE NUMBER Enter the mobile number for the primary emergency contact, if available.
128. SECONDARY EMERGENCY CONTACT NAME Enter the name of a secondary representative that can be contacted in the event that the primary emergency contact is not available. The contact shall have FULL facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
129. TITLE Enter the title of the secondary emergency contact.
130. BUSINESS PHONE Enter the business telephone number for the secondary emergency contact, area code first, and any extension.
131. 24-HOUR PHONE Enter a 24-hour phone number for the secondary emergency contact. The 24-hour phone number must be one which is answered 24 hours a day. If it is not the contact's home phone number, then the service answering the phone must be able to immediately contact the individual stated above.
132. PAGER NUMBER Enter the pager number for the secondary emergency contact, if available.
133a. UNINCORPORATED AREA Check "Yes" if your facility is located in an unincorporated area of the County (ex. East LA, Marina Del Rey etc.).
133b. NUMBER OF EMPLOYEES Enter the number of employees working at your facility.
133c. TAX IDENTIFICATION NUMBER (TIN) Enter your business's tax identification number or social security number. The TIN number may be obtained from the Internal Revenue Service (IRS).
133d. MAILING/BILLING ADDRESS Enter the address that all correspondence and bills should be sent.
133e. MAILING/BILLING CITY Enter the city for the mailing/billing address.
133f. MAILING/BILLING STATE Enter the 2 character state abbreviation for the mailing/billing address.
133g. MAILING/BILLING ZIP CODE Enter the zip code for the mailing/billing address. The extra 4 digit s in the zip code may also be added.
133h. MAILING/BILLING CONTACT Enter the name of the person who is your Mailing/Billing contact.
133i. MAILING/BILLING NAME Enter the Name of the company or department for Mailing/Billing.
133j. MAILING/BILLING PHONE Enter the Mailing/Billing phone number.

SIGNATURE OF OWNER/ OPERATOR OR DESIGNATED REPRESENTATIVE The Business Owner/Operator, or officially designated representative of the Owner/Operator, shall sign in the space provided. This signature certifies the signer is familiar with the information submitted, and based on the signer's inquiry of those individuals responsible for obtaining the information, it is the signer's belief that the information is true, accurate, and complete.

134. DATE Enter the date that the document was signed (YYYYMMDD, ex. 1999/07/01).
135. NAME OF DOCUMENT PREPARER Enter the full name of the person who prepared the inventory submittal information.
136. NAME OF SIGNER Enter the full printed name of the person signing the page.
137. TITLE OF SIGNER Enter the title of the person signing the page.

# UNIFIED PROGRAM (UP) FORM ATTACHMENT 6 - 2651 00404
# BUSINESS ACTIVITIES

YEAR **2012**

## I. FACILITY IDENTIFICATION

| FACILITY ID# (CUPA #) | AR0019160 | 1 | EPA ID # (Hazardous Waste Only) | 2 |
|---|---|---|---|---|

BUSINESS NAME (Same as Facility Name of DBA-Doing Business As) 3

**Borrmann Metal Center**

## II. ACTIVITIES DECLARATION

**NOTE: Please submit the Business Owner/Operator Identification Form with this Page**

| Does your facility . . . | | If Yes, please complete these pages of the UPCF. . . |
|---|---|---|
| **A. HAZARDOUS MATERIALS**<br>Have on site (for any purpose) hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70? | ☑ YES ☐ NO 4 | ✓ HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESC<br>✓ CONSOLIDATED CONTINGENCY PLAN (Section I and Site Map(s))<br>✓ TRAINING PLAN |
| **B. UNDERGROUND STORAGE TANKS (USTs)** | | |
| 1. Own or operate underground storage tanks? | ☐ YES ☑ NO 5 | ✓ UST FACILITY<br>✓ UST TANK (one page per tank) |
| 2. Intend to upgrade existing or install new USTs? | ☐ YES ☑ NO 6 | ✓ UST FACILITY<br>✓ UST TANK (one per tank)<br>✓ UST INSTALLATION - CERTIFICATE OF COMPLIANCE (one page per tank) |
| 3. Need to report closing a UST? | ☐ YES ☑ NO 7 | ✓ UST TANK (closure portion –one page per tank) |
| **C. ABOVE GROUND PETROLEUM STORAGE TANKS (ASTs)**<br>Own or operate ASTs above these thresholds:<br>any tank capacity is greater than 660 gallons, or<br>the total capacity for the facility is greater than 1,320 gallons? | ☐ YES ☑ NO 8 | NO FORM REQUIRED TO CUPA |
| **D. HAZARDOUS WASTE** | | |
| 1. Generate hazardous waste? | ☐ YES ☑ NO 9 | ✓ EPA ID NUMBER – provide at the top of this page.<br>✓ As a generator, answer YES to Item E2b and complete Waste Generator Form. |
| 2. Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)? | ☐ YES ☑ NO 10 | ✓ RECYCLABLE MATERIALS REPORT |
| 3. Treat hazardous waste on site? | ☐ YES ☑ NO 11 | ✓ ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY<br>✓ ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit) |
| 4. Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)? | ☐ YES ☑ NO 12 | ✓ CERTIFICATION OF FINANCIAL ASSURANCE |
| 5. Consolidate hazardous waste generated at a remote site? | ☐ YES ☑ NO 13 | ✓ REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION |
| 6. Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site? | ☐ YES ☑ NO 14 | ✓ HAZARDOUS WASTE TANK CLOSURE CERTIFICATION |
| **E. LOCAL REQUIREMENTS** | | In addition to Hazardous Materials requirements, complete: 15 |
| 1. REGULATED SUBSTANCES<br>Have Regulated Substances (RS) including Extremely Hazardous Substances (EHS) stored on site at greater than the threshold planning quantities established by the California Accidental Release Program (CalARP)? | ☑ YES ☐ NO 15a | ✓ REGULATED SUBSTANCE REGISTRATION<br>✓ RISK MANAGEMENT PLAN (when required) |
| 2. OTHER REQUIREMENTS | | |
| a. Have hazardous materials stored on site at or above a threshold amount established by a CUPA's or PA's local ordinance? | ☑ YES ☐ NO 15b | ✓ Consult local CUPA or PA for added reporting requirements. |
| b. Required by a CUPA or PA to provide other information? | ☑ YES ☐ NO 15c | ✓ WASTE GENERATOR FORM (LA County) |

INSTRUCTIONS FOR THE UNFIED PROGRAM (UP) FORM

# BUSINESS ACTIVITIES ATTACHMENT 6 - 2652

Please submit the Business Activities page, the Business Owner/Operator Identification page, and Hazardous Materials Inventory - Chemical Description pages for all submissions. Please number all pages of your submittal. This helps your CUPA or PA identify whether the submittal is complete and if any pages are separated.

1. FACILITY ID NUMBER Leave this blank. This number is assigned by the Certified Unified Program Agency (CUPA) and identifies your facility.
2. EPA ID NUMBER If you generate, recycle, or treat hazardous waste, enter your facility's 12-character U.S. Environmental Protection Agency (U.S. EPA) or California Identification number. For facilities in California, the number usually starts with the letters "CA". If you do not have a number, contact the Department of Toxic Substances Control (DTSC) at (916) 324-1781, (800) 61-TOXIC or (800) 61-86942, to obtain one.
3. BUSINESS NAME Enter the full legal name of the business. This is the same as the terms "Facility Name" or "DBA - Doing Business As".
4. HAZARDOUS MATERIALS ON-SITE Check the box to indicate whether you have hazardous materials on-site. You have a hazardous material if:
   - It is handled in quantities equal to or greater than 500 pounds, 55 gallons, or 200 cubic feet of gas (calculated at standard temperature and pressure),
   - It is handled in quantities equal to or greater than the applicable federal threshold planning quantity for an extremely hazardous substance listed in 40 CFR Part 355, Appendix A,
   - Radioactive materials are handled in quantities for which an emergency plan is required to be adopted pursuant to Part 30, Part 40, or Part 70 of Chapter 10 of 10 CFR, or pursuant to any regulations adopted by the state in accordance with these regulations.

   If you have hazardous materials on-site, then you must complete the Business Owner/Operator Identification page (OES Form 2730) and the Hazardous Materials Inventory - Chemical Description page (OES Form 2731), as well as an Emergency Response Plan (i.e. Consolidated Contingency Plan) and Training Plan. Do not answer "YES" to this question if you exceed only a local threshold, but do not exceed the state threshold.
5. OWN OR OPERATE UNDERGROUND STORAGE TANK (UST) Check the appropriate box to indicate whether you own or operate USTs containing hazardous substances as defined in Health and Safety Code (HSC) §25316. If "YES", then you must complete one UST Facility page and UST Tank pages for each tank. **You must also submit a plot plan and a monitoring program plan.**
6. UPGRADE / INSTALL UST Check the appropriate box to indicate whether you intend to install or upgrade USTs containing hazardous substances as defined in HSC §25316. If "YES", then you must complete the UST Installation - Certificate of Compliance page in addition to UST Facility and Tank pages, plot plan, and monitoring program plan.
7. UST CLOSURE Check the appropriate box if you are closing a UST and complete the closure portion of the UST Tank pages for each tank.
8. OWN OR OPERATE ABOVEGROUND PETROLEUM STORAGE TANK (APST) Check the appropriate box to indicate whether there are APSTs on-site which exceed the regulatory thresholds. (There is no UPCF page for APSTs.) This program applies to all facilities storing petroleum in aboveground tanks. Petroleum means crude oil, or any fraction thereof, which is liquid at 60 degrees Fahrenheit temperature and 14.7 pounds per square inch absolute pressure (HSC §25270.2 (g) ). The facility must have a single tank greater than 660 gallons, or cumulative storage capacity greater than 1,320 gallons for all APSTs. An aboveground petroleum storage tank (APST) facility with one or more of the following (see HSC §25270.2 (k) ) is not subject to this act and is exempt:
   - A pressure vessel or boiler which is subject to Division 5 of the Labor Code,
   - A storage tank containing hazardous waste if a hazardous waste facility permit has been issued for the storage tank by DTSC,
   - An aboveground oil production tank which is regulated by the Division of Oil and Gas,
   - Certain oil-filled electrical equipment including but not limited to transformers, circuit breakers, or capacitors.
9. HAZARDOUS WASTE GENERATOR Check the appropriate box to indicate whether your facility generates hazardous waste. A generator is the person or business whose acts or processes produce a hazardous waste or who causes a hazardous substance or waste to become subject to State hazardous waste law. If your facility generates hazardous waste, you must obtain and use an EPA Identification number (ID) in order to properly transport and dispose of it. Report your EPA ID number in #2. Hazardous waste means a waste that meets any of the criteria for the identification of a hazardous waste adopted by DTSC pursuant to HSC §25141. "Hazardous waste" includes, but is not limited to, federally regulated hazardous waste. Federal hazardous waste law is known as the Resource Conservation and Recovery Act (RCRA). Unless explicitly stated otherwise, "hazardous waste" also includes extremely hazardous waste and acutely hazardous waste.
10. RECYCLE Check the appropriate box to indicate whether your facility recycles more than 100 kilograms per month of recyclable material under a claim that the material is excluded or exempt per HSC §25143.2. Check "YES" and complete the Recyclable Materials Report pages, if you either recycled on-site or recycled excluded recyclable materials which were generated offsite. Check "NO" if you only send recyclable materials to an offsite recycler; you do not need to report.
11. ON-SITE HAZARDOUS WASTE TREATMENT Check the appropriate box to indicate whether your facility treats hazardous waste on-site. "Treatment" means any method, technique, or process which is designed to change the physical, chemical, or biological character or composition of any hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose. "Treatment" does not include the removal of residues from manufacturing process equipment for the purposes of cleaning that equipment. Amendments (effective 1/1/99) add exemptions from the definition of "treatment" for certain processes under specific, limited conditions. Refer to HSC §25123.5 (b) for these specific exemptions. Treatment of certain laboratory hazardous wastes do not require authorization. Refer to HSC §25200.3.1 for specific information. Please contact your CUPA to determine if any exemptions apply to your facility. If your facility treats hazardous waste on-site, complete the On-site Hazardous Waste Treatment Notification - Facility page and one set of On-site Hazardous Waste Treatment Notification - Unit pages for each unit
12. FINANCIAL ASSURANCE Check the appropriate box to indicate whether your facility is subject to financial assurance requirements for closure of an on-site treatment unit. Unless they are exempt, Permit by Rule (PBR) and Conditionally Authorized (CA) operations are required to provide financial assurance for closure costs (per 22 CCR §67450.13 (b) and HSC §25245.4). If your facility is subject to financial assurance requirements or claiming an exemption, then complete the Certification of Financial Assurance page.
13. REMOTE WASTE CONSOLIDATION SITE Check the appropriate box to indicate whether your facility consolidates hazardous waste generated at a remote site. Answer "YES" if you are a hazardous waste generator that collects hazardous waste at remote sites and transports the hazardous waste to a consolidation site you also operate. You must be eligible pursuant to the conditions in HSC §25110.10. If your facility consolidates hazardous waste generated at a remote site, then complete the Remote Waste Consolidation Site Annual Notification page.
14. HAZARDOUS WASTE TANK CLOSURE Check the appropriate box to indicate whether the tank being closed would be classified as hazardous waste after its contents are removed. Classification could be based on your knowledge of the tank and its contents, the mixture rule, testing of the tank, the listed wastes in 40 CFR 261.31 or 40 CFR 261.32, or inability to remove hazardous materials stored in the tank If the closed tank would be classified as hazardous waste, then complete the Hazardous Waste Tank Closure Certification page.

15a. LOCAL REQUIRED INFORMATION: REGULATED SUBSTANCES (RS) Check the box to indicate whether Regulated Substances (RS) are stored on-site. An RS is any substance, listed in CCR, Title 19, Section 2770.5. See attached Regulated Substance list. If you handle an RS at greater than the threshold planning quantities then complete the Regulated Substance Registration in addition to forms required under item number 4.

15b. LOCAL HAZARDOUS MATERIALS THRESHOLD Check the appropriate box to indicate if you are subject to reporting hazardous materials at a level established by your local CUPA or PA. Check with your local CUPA or PA for details.

15c. LOCAL REQUIRED INFORMATION: HAZARDOUS WASTE Check the "yes" box if your facility answered yes to item number 9 and generates hazardous waste. If you checked the "Yes" box, complete the Hazardous Waste Generator Form (LA County).

## BUSINESS PLAN ANNUAL RENEWAL CERTIFICATION 2011

Bill Sherwood 818-846-7171 KK 10/12/10

### Hazardous Materials Inventory

I have reviewed my inventory and certify the following:

☐ **Add:** Complete one **Hazardous Materials Inventory—Chemical Description Form** checking the "Add" box to add each hazardous material that you have not previously disclosed. Submit one form per chemical.

☐ **Delete:** Write "delete" across the **Hazardous Materials Inventory—Chemical Description Form** checking the "Delete" box to delete any previously disclosed hazardous material that is no longer used. Submit one form per chemical.

☐ **Revise:** Write the correct amounts, locations, or container type that have changed checking the "Revise" box to reflect the accuracy of any previously reported hazardous material. Submit one form per chemical.

☑ **No Change:** The previously submitted inventory is accurate.

### Consolidated Contingency Plan (CCP)

I have reviewed the CCP and certify that the CCP on file with your agency is accurate and current in accordance with the following conditions:

☐ **Modification:** Significant changes in facility personnel or operations require a revision of the CCP. Complete, sign, and submit a new CCP with this form.

☒ **No Change:** There have not been any significant changes in the facility's personnel or operations that require a revision to the current CCP.

### ANNUAL CERTIFICATION

I certify under penalty of law that I have personally examined the information submitted herein and believe the submitted information is complete, accurate, and up to date. Also, no hazardous materials subject to the inventory requirements of this Chapter, (California Health & Safety Code Chapter 6.95) are being handled that are not listed on the most recently submitted annual inventory form.

BURBANK FIRE DEPT.
12 OCT 10 11 56

**Submit this packet to the above address before *October 10, 2009* to avoid penalties or other enforcement options (see back).**
Obtain additional forms from our website at ***www.burbankfire.us***
or from the Burbank Fire Department at (818) 238-3473.

# Business Plan and Hazardous Materials Management

***PURPOSE OF THE BUSINESS PLAN. The Health and Safety Code requires that your business plan gives the first responders, such as firefighters, information on the location, quantity, and health risks for the hazardous materials at your facility.***

**CERTIFICATION OF YOUR BUSINESS PLAN** – The Hazardous Materials Division intends to simplify your annual certification by providing you an Owner Operator Identification Form completed with the information as it currently appears in our database. Download additional unified program forms from our website at ***www.BurbankFire.US***.

**HAZARDOUS MATERIALS INVENTORY** – Every three years each Hazardous Materials Handler is required to disclose the names, amounts, locations, and mixtures containing hazardous materials to this Department if the container amount equals or exceeds the following quantities at any one time during the reporting year: ***a total weight of 500 pounds, or a total volume of 55 gallons, or 200 cubic feet.*** When changes are made, you are required to send a new Chemical Description form with the annual certification. Download blank Hazardous Materials Chemical Description forms from our website at ***www.Burbankfire.US***.

**CONSOLIDATED CONTINGENCY PLAN** – Every three years the Hazardous Materials Handler shall submit to the Burbank Fire Department the current personnel, owner, and business name, including the current and effective procedures that trained personnel would implement in the event of a hazardous materials release from an operation or storage condition at the site. When changes are made, you are required to send a new CCP with the annual certification. Furthermore, you must train the personnel about the revised procedures, because the Health and Safety Code requires a training program for employees on hazardous materials safety procedures in the event of a release or threatened release of hazardous materials. Download a blank CCP form from our website at ***www.BurbankFire.US***.

**SITE MAPS** – A site map is included in the CCP form. The map is given to the firefighters. Therefore indicate the hazardous materials storage areas and operations on the map. Please use the site map grid that is included with the CCP form; blue prints will not be accepted. The site map may be multiple pages depending on the size of the facility. Download a blank Site Map form from our website at ***www.BurbankFire.US***.

**BUSINESS PLAN AMENDMENTS** – Submit a Hazardous Materials Inventory—Chemical Description form to this Department within 30 days of the following changes: 100% of an increase of a previously disclosed hazardous material, or handling of a hazardous material that was not previously disclosed. Submit a CCP to this department within 30 days if there is a change of owner or operator at a facility that has reportable quantities of hazardous materials (required by the new owner/operator), if the operations change in a way that compromise the procedures towards any release of a hazardous materials that are specified in the previously submitted CCP.

**VIOLATIONS AND FINES** – Any business that violates any Health and Safety Code Sections that pertain to hazardous materials reporting may be civilly liable for up to $2,000 for each day of the violation. Any business that knowingly violates these provisions may be liable for up to $5,000 for each day of the violation. Any person or business that, upon discovery of a release or threatened release, fails to immediately report to the Burbank Fire Department, may be fined up to $25,000 per day of violation and/or be sentenced up to one (1) year in County jail. Furthermore, if the violation results in, or significantly contributes to, any emergency, including a fire, to which the county or city is required to respond, the person shall also be assessed the full cost of the county or city emergency response, as well as the cost of cleaning up and disposing of the hazardous material (Section 25514.5).

**EXEMPTIONS**- A retail store, including the interior receiving and stockroom areas, that handles hazardous materials contained solely in a consumer product for direct distribution to and use by the general public is exempt from the State reporting requirements, unless the individual container size equals or exceeds the reportable quantities in State Law. Railcars or tankers containing hazardous materials if the mode of power (i.e. locomotive or tractor) is disconnected. Railroad cars containing hazardous materials remaining within the same railroad facility or business facility for more than thirty (30) days are deemed stored at that location and are subject to all reporting requirements.

This Department, upon written application, may exempt a handler from any portion of the Business Plan and/or exempt a hazardous material, if it is determined this exemption does not pose a significant hazard to human health, safety, or the environment.

**FACILITY MODIFICATIONS** – If you are the owner or operator of a new facility or your facility is being modified in a way that results in any change to the safe operating limits or that introduces a new hazard, you must contact the Burbank Fire Department as soon as possible.

# INSTRUCTIONS FOR THE UNFIED PROGRAM (UP) FORM
# BUSINESS OWNER/OPERATOR IDENTIFICATION

Please submit the Business Activities page, the Business Owner/Operator Identification page, and Hazardous Materials - Chemical Description for all hazardous materials inventory submissions. For the inventory to be considered complete, this page must be signed by the appropriate individual. Please number all pages of your submittal. This helps your CUPA or PA identify whether the submittal is complete and if any pages are separated.

1. FACILITY ID NUMBER This number is assigned by the CUPA. This is the unique number which identifies your facility.
3. BUSINESS NAME Enter the full legal name of the business.
100. BEGINNING DATE Enter the beginning year and date of the report (YYYYMMDD, ex. 1999/07/01).
101. ENDING DATE Enter the ending year and date of the report (YYYYMMDD, ex. 2000/06/30).
102. BUSINESS PHONE Enter the phone number, area code first, and any extension.
103. BUSINESS SITE ADDRESS Enter the street address where the facility is located. No post office box numbers are allowed.
104. CITY Enter the city or unincorporated area in which the business site is located.
105. ZIP CODE - Enter the zip code of the business site. The extra 4 digits in the zip code may also be added.
106. DUN & BRADSTREET Enter the Dun and Bradstreet number for the facility. The Dun & Bradstreet number may be obtained by calling (610) 882-7748 or by visiting Dun and Bradstreet on the internet at www.dnb.com.
107. SIC CODE Enter the primary Standard Industrial Classification Code number for the primary business activity. Report only the first four digits.
108. COUNTY Enter the county in which the business site is located.
109. BUSINESS OPERATOR NAME Enter the name of the person who is the business operator.
110. BUSINESS OPERATOR PHONE Enter business operator's phone number including any extension, if different from the business phone.
111. OWNER NAME Enter name of the business owner, if different from the business operator.
112. OWNER PHONE Enter the business owner's phone number if different from the business phone, area code first, and any extension.
113. OWNER MAILING ADDRESS Enter the owner's mailing address if different from the business site address.
114. OWNER CITY Enter the name of the city for the owner's mailing address.
115. OWNER STATE Enter the 2 character state abbreviation for the owner's mailing address.
116. OWNER ZIP CODE Enter the zip code for the owner's address. The extra 4 digits in the zip code may also be added.
117. ENVIRONMENTAL CONTACT NAME Enter the name of the person, if different from the Business Owner or Operator, who receives all environmental correspondence and will respond to enforcement activity.
118. CONTACT PHONE Enter the phone number at which the environmental contact can be contacted including any extension.
119. CONTACT MAILING ADDRESS Enter the mailing address where all environmental contact correspondence should be sent.
120. CITY Enter the name of the city for the environmental contact's mailing address.
121. STATE Enter the 2 character state abbreviation for the environmental contact's mailing address.
122. ZIP CODE Enter the zip code for the environmental contact's mailing address. The extra 4 digits in the zip code may also be added.
123. PRIMARY EMERGENCY CONTACT NAME Enter the name of a representative that can be contacted in case of an emergency involving hazardous materials at the business site. The contact shall have FULL facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
124. TITLE Enter the title of the primary emergency contact.
125. BUSINESS PHONE Enter the business number for the primary emergency contact, area code first, and any extensions.
126. 24-HOUR PHONE Enter a 24-hour phone number for the primary emergency contact. The 24-hour phone number must be one answered 24 hours a day. If it is not the contact's home phone number, then the service answering the phone must be able to immediately contact the individual stated above.
127. MOBLE NUMBER Enter the mobile number for the primary emergency contact, if available.
128. SECONDARY EMERGENCY CONTACT NAME Enter the name of a secondary representative that can be contacted in the event that the primary emergency contact is not available. The contact shall have FULL facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
129. TITLE Enter the title of the secondary emergency contact.
130. BUSINESS PHONE Enter the business telephone number for the secondary emergency contact, area code first, and any extension.
131. 24-HOUR PHONE Enter a 24-hour phone number for the secondary emergency contact. The 24-hour phone number must be one which is answered 24 hours a day. If it is not the contact's home phone number, then the service answering the phone must be able to immediately contact the individual stated above.
132. PAGER NUMBER Enter the pager number for the secondary emergency contact, if available.
133a. UNINCORPORATED AREA Check "Yes" if your facility is located in an unincorporated area of the County (ex. East LA, Marina Del Rey etc.).
133b. NUMBER OF EMPLOYEES Enter the number of employees working at your facility.
133c. TAX IDENTIFICATION NUMBER (TIN) Enter your business's tax identification number or social security number. The TIN number may be obtained from the Internal Revenue Service (IRS).
133d. MAILING/BILLING ADDRESS Enter the address that all correspondence and bills should be sent.
133e. MAILING/BILLING CITY Enter the city for the mailing/billing address.
133f. MAILING/BILLING STATE Enter the 2 character state abbreviation for the mailing/billing address.
133g. MAILING/BILLING ZIP CODE Enter the zip code for the mailing/billing address. The extra 4 digit s in the zip code may also be added.
133h. MAILING/BILLING CONTACT Enter the name of the person who is your Mailing/Billing contact.
133i. MAILING/BILLING NAME Enter the Name of the company or department for Mailing/Billing.
133j. MAILING/BILLING PHONE Enter the Mailing/Billing phone number.

SIGNATURE OF OWNER/ OPERATOR OR DESIGNATED REPRESENTATIVE The Business Owner/Operator, or officially designated representative of the Owner/Operator, shall sign in the space provided. This signature certifies the signer is familiar with the information submitted, and based on the signer's inquiry of those individuals responsible for obtaining the information, it is the signer's belief that the information is true, accurate, and complete.

134. DATE Enter the date that the document was signed (YYYYMMDD, ex. 1999/07/01).
135. NAME OF DOCUMENT PREPARER Enter the full name of the person who prepared the inventory submittal information.
136. NAME OF SIGNER Enter the full printed name of the person signing the page.

# BUSINESS ACTIVITIES

YEAR **2011**

## I. FACILITY IDENTIFICATION

| FACILITY ID# (CUPA #) | AR0019160 | 1 | EPA ID # (Hazardous Waste Only) | 2 |
|---|---|---|---|---|

BUSINESS NAME (Same as Facility Name of DBA-Doing Business As) 3

**Borrmann Metal Center**

## II. ACTIVITIES DECLARATION

**NOTE: Please submit the Business Owner/Operator Identification Form with this Page**

| Does your facility . . . | If Yes, please complete these pages of the UPCF. . . | |
|---|---|---|
| **A. HAZARDOUS MATERIALS**<br>Have on site (for any purpose) hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70? | ☑ YES ☐ NO 4 | ✓ HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESC<br>✓ CONSOLIDATED CONTINGENCY PLAN (Section I and Site Map(s))<br>✓ TRAINING PLAN |
| **B. UNDERGROUND STORAGE TANKS (USTs)** | | ✓ UST FACILITY |
| 1. Own or operate underground storage tanks? | ☐ YES ☑ NO 5 | ✓ UST TANK (one page per tank) |
| 2. Intend to upgrade existing or install new USTs? | ☐ YES ☑ NO 6 | ✓ UST FACILITY<br>✓ UST TANK (one per tank)<br>✓ UST INSTALLATION - CERTIFICATE OF COMPLIANCE (one page per tank) |
| 3. Need to report closing a UST? | ☐ YES ☑ NO 7 | ✓ UST TANK (closure portion –one page per tank) |
| **C. ABOVE GROUND PETROLEUM STORAGE TANKS (ASTs)**<br>Own or operate ASTs above these thresholds:<br>any tank capacity is greater than 660 gallons, or<br>the total capacity for the facility is greater than 1,320 gallons? | ☐ YES ☑ NO 8 | NO FORM REQUIRED TO CUPA |
| **D. HAZARDOUS WASTE** | | |
| 1. Generate hazardous waste? | ☐ YES ☑ NO 9 | ✓ EPA ID NUMBER – provide at the top of this page.<br>✓ As a generator, answer YES to Item E2b and complete Waste Generator Form. |
| 2. Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)? | ☐ YES ☑ NO 10 | ✓ RECYCLABLE MATERIALS REPORT |
| 3. Treat hazardous waste on site? | ☐ YES ☑ NO 11 | ✓ ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY<br>✓ ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit) |
| 4. Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)? | ☐ YES ☑ NO 12 | ✓ CERTIFICATION OF FINANCIAL ASSURANCE |
| 5. Consolidate hazardous waste generated at a remote site? | ☐ YES ☑ NO 13 | ✓ REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION |
| 6. Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site? | ☐ YES ☑ NO 14 | ✓ HAZARDOUS WASTE TANK CLOSURE CERTIFICATION |
| **E. LOCAL REQUIREMENTS** | | In addition to Hazardous Materials requirements, complete: 15 |
| 1. REGULATED SUBSTANCES<br>Have Regulated Substances (RS) including Extremely Hazardous Substances (EHS) stored on site at greater than the threshold planning quantities established by the California Accidental Release Program (CalARP)? | ☑ YES ☐ NO 15a | ✓ REGULATED SUBSTANCE REGISTRATION<br>✓ RISK MANAGEMENT PLAN (when required) |
| 2. OTHER REQUIREMENTS | | |
| a. Have hazardous materials stored on site at or above a threshold amount established by a CUPA's or PA's local ordinance? | ☑ YES ☐ NO 15b | ✓ Consult local CUPA or PA for added reporting requirements. |
| b. Required by a CUPA or PA to provide other information? | ☑ YES ☐ NO 15c | ✓ WASTE GENERATOR FORM (LA County) |

# BUSINESS ACTIVITIES

Please submit the Business Activities page, the Business Owner/Operator Identification page, and Hazardous Materials Inventory - Chemical Description pages for all submissions. Please number all pages of your submittal. This helps your CUPA or PA identify whether the submittal is complete and if any pages are separated.

1. FACILITY ID NUMBER Leave this blank. This number is assigned by the Certified Unified Program Agency (CUPA) and identifies your facility.
2. EPA ID NUMBER If you generate, recycle, or treat hazardous waste, enter your facility's 12-character U.S. Environmental Protection Agency (U.S. EPA) or California Identification number. For facilities in California, the number usually starts with the letters "CA". If you do not have a number, contact the Department of Toxic Substances Control (DTSC) at (916) 324-1781, (800) 61-TOXIC or (800) 61-86942, to obtain one.
3. BUSINESS NAME Enter the full legal name of the business. This is the same as the terms "Facility Name" or "DBA - Doing Business As".
4. HAZARDOUS MATERIALS ON-SITE Check the box to indicate whether you have hazardous materials on-site. You have a hazardous material if:
   - It is handled in quantities equal to or greater than 500 pounds, 55 gallons, or 200 cubic feet of gas (calculated at standard temperature and pressure),
   - It is handled in quantities equal to or greater than the applicable federal threshold planning quantity for an extremely hazardous substance listed in 40 CFR Part 355, Appendix A,
   - Radioactive materials are handled in quantities for which an emergency plan is required to be adopted pursuant to Part 30, Part 40, or Part 70 of Chapter 10 of 10 CFR, or pursuant to any regulations adopted by the state in accordance with these regulations.

   If you have hazardous materials on-site, then you must complete the Business Owner/Operator Identification page (OES Form 2730) and the Hazardous Materials Inventory - Chemical Description page (OES Form 2731), as well as an Emergency Response Plan (i.e. Consolidated Contingency Plan) and Training Plan. Do not answer "YES" to this question if you exceed only a local threshold, but do not exceed the state threshold.
5. OWN OR OPERATE UNDERGROUND STORAGE TANK (UST) Check the appropriate box to indicate whether you own or operate USTs containing hazardous substances as defined in Health and Safety Code (HSC) §25316. If "YES", then you must complete one UST Facility page and UST Tank pages for each tank. **You must also submit a plot plan and a monitoring program plan.**
6. UPGRADE / INSTALL UST Check the appropriate box to indicate whether you intend to install or upgrade USTs containing hazardous substances as defined in HSC §25316. If "YES", then you must complete the UST Installation - Certificate of Compliance page in addition to UST Facility and Tank pages, plot plan, and monitoring program plan.
7. UST CLOSURE Check the appropriate box if you are closing a UST and complete the closure portion of the UST Tank pages for each tank.
8. OWN OR OPERATE ABOVEGROUND PETROLEUM STORAGE TANK (APST) Check the appropriate box to indicate whether there are APSTs on-site which exceed the regulatory thresholds. (There is no UPCF page for APSTs.) This program applies to all facilities storing petroleum in aboveground tanks. Petroleum means crude oil, or any fraction thereof, which is liquid at 60 degrees Fahrenheit temperature and 14.7 pounds per square inch absolute pressure (HSC §25270.2 (g) ). The facility must have a single tank greater than 660 gallons, or cumulative storage capacity greater than 1,320 gallons for all APSTs. An aboveground petroleum storage tank (APST) facility with one or more of the following (see HSC §25270.2 (k) ) is not subject to this act and is exempt:
   - A pressure vessel or boiler which is subject to Division 5 of the Labor Code,
   - A storage tank containing hazardous waste if a hazardous waste facility permit has been issued for the storage tank by DTSC,
   - An aboveground oil production tank which is regulated by the Division of Oil and Gas,
   - Certain oil-filled electrical equipment including but not limited to transformers, circuit breakers, or capacitors.
9. HAZARDOUS WASTE GENERATOR Check the appropriate box to indicate whether your facility generates hazardous waste. A generator is the person or business whose acts or processes produce a hazardous waste or who causes a hazardous substance or waste to become subject to State hazardous waste law. If your facility generates hazardous waste, you must obtain and use an EPA Identification number (ID) in order to properly transport and dispose of it. Report your EPA ID number in #2. Hazardous waste means a waste that meets any of the criteria for the identification of a hazardous waste adopted by DTSC pursuant to HSC §25141. "Hazardous waste" includes, but is not limited to, federally regulated hazardous waste. Federal hazardous waste law is known as the Resource Conservation and Recovery Act (RCRA). Unless explicitly stated otherwise, "hazardous waste" also includes extremely hazardous waste and acutely hazardous waste.
10. RECYCLE Check the appropriate box to indicate whether your facility recycles more than 100 kilograms per month of recyclable material under a claim that the material is excluded or exempt per HSC §25143.2. Check "YES" and complete the Recyclable Materials Report pages, if you either recycled on-site or recycled excluded recyclable materials which were generated offsite. Check "NO" if you only send recyclable materials to an offsite recycler; you do not need to report.
11. ON-SITE HAZARDOUS WASTE TREATMENT Check the appropriate box to indicate whether your facility treats hazardous waste on-site. "Treatment" means any method, technique, or process which is designed to change the physical, chemical, or biological character or composition of any hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose. "Treatment" does not include the removal of residues from manufacturing process equipment for the purposes of cleaning that equipment. Amendments (effective 1/1/99) add exemptions from the definition of "treatment" for certain processes under specific, limited conditions. Refer to HSC §25123.5 (b) for these specific exemptions. Treatment of certain laboratory hazardous wastes do not require authorization. Refer to HSC §25200.3.1 for specific information. Please contact your CUPA to determine if any exemptions apply to your facility. If your facility treats hazardous waste on-site, complete the On-site Hazardous Waste Treatment Notification - Facility page and one set of On-site Hazardous Waste Treatment Notification - Unit pages for each unit
12. FINANCIAL ASSURANCE Check the appropriate box to indicate whether your facility is subject to financial assurance requirements for closure of an on-site treatment unit. Unless they are exempt, Permit by Rule (PBR) and Conditionally Authorized (CA) operations are required to provide financial assurance for closure costs (per 22 CCR §67450.13 (b) and HSC §25245.4). If your facility is subject to financial assurance requirements or claiming an exemption, then complete the Certification of Financial Assurance page.
13. REMOTE WASTE CONSOLIDATION SITE Check the appropriate box to indicate whether your facility consolidates hazardous waste generated at a remote site. Answer "YES" if you are a hazardous waste generator that collects hazardous waste at remote sites and transports the hazardous waste to a consolidation site you also operate. You must be eligible pursuant to the conditions in HSC §25110.10. If your facility consolidates hazardous waste generated at a remote site, then complete the Remote Waste Consolidation Site Annual Notification page.
14. HAZARDOUS WASTE TANK CLOSURE Check the appropriate box to indicate whether the tank being closed would be classified as hazardous waste after its contents are removed. Classification could be based on your knowledge of the tank and its contents, the mixture rule, testing of the tank, the listed wastes in 40 CFR 261.31 or 40 CFR 261.32, or inability to remove hazardous materials stored in the tank If the closed tank would be classified as hazardous waste, then complete the Hazardous Waste Tank Closure Certification page.

15a. LOCAL REQUIRED INFORMATION: REGULATED SUBSTANCES (RS) Check the box to indicate whether Regulated Substances (RS) are stored on-site. An RS is any substance, listed in CCR, Title 19, Section 2770.5. See attached Regulated Substance list. If you handle an RS at greater than the threshold planning quantities then complete the Regulated Substance Registration in addition to forms required under item number 4.

15b. LOCAL HAZARDOUS MATERIALS THRESHOLD Check the appropriate box to indicate if you are subject to reporting hazardous materials at a level established by your local CUPA or PA. Check with your local CUPA or PA for details.

15c. LOCAL REQUIRED INFORMATION: HAZARDOUS WASTE Check the "yes" box if your facility answered yes to item number 9 and generates hazardous waste. If you checked the "Yes" box, complete the Hazardous Waste Generator Form (LA County).

BORRMANN METAL CENTER
110 W OLIVE AVE
BURBANK CA 91502

Subject: **00404 – BORRMANN METAL CENTER**
**110 W OLIVE AVE**

As a hazardous materials handler your business is required to submit a completed hazardous materials inventory disclosure statement annually in accordance with the Section 25509 of the California Health & Safety Code and Section 9-2-2701.5.1 of the Burbank Municipal Code. Hazardous Materials equal to or greater than the amounts of ***a total weight of 500 pounds, or a total volume of 55 gallons or 200 cubic feet*** qualify your business as a Hazardous Materials Handler.

Please review the following attached forms:

- Business Plan Annual Renewal Certification
- Business Owner / Operator Identification
- Business Activities

**If there are no changes** to your "Hazardous Materials Inventory" or "Consolidated Contingency Plan" or "Site Map" please review and follow the directions on the back of this letter.

**If there are changes** to your "Hazardous Materials Inventory" or "Consolidated Contingency Plan" or "Site Map" please review and follow the directions on the back of this letter.

**BE SURE TO RETAIN A COPY OF ALL FORMS FOR YOUR RECORDS.**

*Please note you have 30 days from the date of this notice to complete and return the required information. **THIS LETTER IS YOUR ONLY NOTICE**. No further notices will be issued.

**FAILURE TO SUBMIT THE REQUIRED INVENTORY DISCLOSURE STATEMENT IS A MISDEMEANOR CRIMINAL VIOLATION** OF BOTH THE CALIFORNIA HEALTH & SAFETY CODE AND THE BURBANK MUNICIPAL CODE. EACH VIOLATION IS PUNISHABLE BY A MAXIMUM OF SIX MONTHS IN JAIL AND/OR A **$1,000 FINE**, NOT INCLUDING PENALTY ASSESSMENTS.

ADDITIONALLY, IF THE CITY ALSO ELECTS TO PURSUE CIVIL ENFORCEMENT OF THIS MATTER, ANY BUSINESS THAT VIOLATES THESE PROVISIONS CAN BE ASSESSED A CIVIL PENALTY OF UP TO TWO THOUSAND ($2,000) DOLLARS FOR EACH DAY OF THE VIOLATION. IF THE BUSINESS IS DETERMINED TO HAVE KNOWINGLY FAILED TO COMPLY AFTER REASONABLE NOTICE OF THE VIOLATION, THEY ARE CIVILLY LIABLE FOR UP TO FIVE THOUSAND ($5,000) DOLLARS FOR EACH DAY IN WHICH THE VIOLATION OCCURS.

**Forms can now be downloaded from our website at *www.Burbankfire.US*. These forms may be completed on your computer by using *Adobe Reader*. If you are unable to download the required forms from our website, or have questions, or need assistance, please contact the Fire Prevention Bureau at (818) 238-3473.**

Thank you for your cooperation.

Jorge Martinez, Deputy Fire Marshal

**See schedule below for your submittal requirements.**

## BUSINESS PLAN ANNUAL RENEWAL CERTIFICATION 2010

Robert Wedeen 818-846-7171 9/23 (KC)

### Hazardous Materials Inventory

I have reviewed my inventory and certify the following:

☐ **Add:** Complete one **Hazardous Materials Inventory—Chemical Description Form** checking the "Add" box to add each hazardous material that you have not previously disclosed. Submit one form per chemical.

☐ **Delete:** Write "delete" across the **Hazardous Materials Inventory—Chemical Description Form** checking the "Delete" box to delete any previously disclosed hazardous material that is no longer used. Submit one form per chemical.

☐ **Revise:** Write the correct amounts, locations, or container type that have changed checking the "Revise" box to reflect the accuracy of any previously reported hazardous material. Submit one form per chemical.

☒ **No Change:** The previously submitted inventory is accurate.

### Consolidated Contingency Plan (CCP)

I have reviewed the CCP and certify that the CCP on file with your agency is accurate and current in accordance with the following conditions:

☐ **Modification:** Significant changes in facility personnel or operations require a revision of the CCP. Complete, sign, and submit a new CCP with this form.

☒ **No Change:** There have not been any significant changes in the facility's personnel or operations that require a revision to the current CCP.

### ANNUAL CERTIFICATION

**I certify under penalty of law that I have personally examined the information submitted herein and believe the submitted information is complete, accurate, and up to date. Also, no hazardous materials subject to the inventory requirements of this Chapter, (California Health & Safety Code Chapter 6.95) are being handled that are not listed on the most recently submitted annual inventory form.**

**Submit this packet to the above address before *October 10, 2009* to avoid penalties or other enforcement options (see back).**

Obtain additional forms from our website at *www.burbankfire.us* or from the Burbank Fire Department at (818) 238-3473.

# CITY OF BURBANK FIRE DEPARTMENT
## Business Plan and Hazardous Materials Management

***PURPOSE OF THE BUSINESS PLAN. The Health and Safety Code requires that your business plan gives the first responders, such as firefighters, information on the location, quantity, and health risks for the hazardous materials at your facility.***

**CERTIFICATION OF YOUR BUSINESS PLAN** – The Hazardous Materials Division intends to simplify your annual certification by providing you an Owner Operator Identification Form completed with the information as it currently appears in our database. Download additional unified program forms from our website at *www.BurbankFire.US*.

**HAZARDOUS MATERIALS INVENTORY** – Every three years each Hazardous Materials Handler is required to disclose the names, amounts, locations, and mixtures containing hazardous materials to this Department if the container amount equals or exceeds the following quantities at any one time during the reporting year: ***a total weight of 500 pounds, or a total volume of 55 gallons, or 200 cubic feet.*** When changes are made, you are required to send a new Chemical Description form with the annual certification. Download blank Hazardous Materials Chemical Description forms from our website at *www.Burbankfire.US*.

**CONSOLIDATED CONTINGENCY PLAN** – Every three years the Hazardous Materials Handler shall submit to the Burbank Fire Department the current personnel, owner, and business name, including the current and effective procedures that trained personnel would implement in the event of a hazardous materials release from an operation or storage condition at the site. When changes are made, you are required to send a new CCP with the annual certification. Furthermore, you must train the personnel about the revised procedures, because the Health and Safety Code requires a training program for employees on hazardous materials safety procedures in the event of a release or threatened release of hazardous materials. Download a blank CCP form from our website at *www.BurbankFire.US*.

**SITE MAPS** – A site map is included in the CCP form. The map is given to the firefighters. Therefore indicate the hazardous materials storage areas and operations on the map. Please use the site map grid that is included with the CCP form; blue prints will not be accepted. The site map may be multiple pages depending on the size of the facility. Download a blank Site Map form from our website at *www.BurbankFire.US*.

**BUSINESS PLAN AMENDMENTS** – Submit a Hazardous Materials Inventory—Chemical Description form to this Department within 30 days of the following changes: 100% of an increase of a previously disclosed hazardous material, or handling of a hazardous material that was not previously disclosed. Submit a CCP to this department within 30 days if there is a change of owner or operator at a facility that has reportable quantities of hazardous materials (required by the new owner/operator), if the operations change in a way that compromise the procedures towards any release of a hazardous materials that are specified in the previously submitted CCP.

**VIOLATIONS AND FINES** – Any business that violates any Health and Safety Code Sections that pertain to hazardous materials reporting may be civilly liable for up to $2,000 for each day of the violation. Any business that knowingly violates these provisions may be liable for up to $5,000 for each day of the violation. Any person or business that, upon discovery of a release or threatened release, fails to immediately report to the Burbank Fire Department, may be fined up to $25,000 per day of violation and/or be sentenced up to one (1) year in County jail. Furthermore, if the violation results in, or significantly contributes to, any emergency, including a fire, to which the county or city is required to respond, the person shall also be assessed the full cost of the county or city emergency response, as well as the cost of cleaning up and disposing of the hazardous material (Section 25514.5).

**EXEMPTIONS**- A retail store, including the interior receiving and stockroom areas, that handles hazardous materials contained solely in a consumer product for direct distribution to and use by the general public is exempt from the State reporting requirements, unless the individual container size equals or exceeds the reportable quantities in State Law. Railcars or tankers containing hazardous materials if the mode of power (i.e. locomotive or tractor) is disconnected. Railroad cars containing hazardous materials remaining within the same railroad facility or business facility for more than thirty (30) days are deemed stored at that location and are subject to all reporting requirements.

This Department, upon written application, may exempt a handler from any portion of the Business Plan and/or exempt a hazardous material, if it is determined this exemption does not pose a significant hazard to human health, safety, or the environment.

**FACILITY MODIFICATIONS** – If you are the owner or operator of a new facility or your facility is being modified in a way that results in any change to the safe operating limits or that introduces a new hazard, you must contact the Burbank Fire Department as soon as possible.

INSTRUCTIONS FOR THE UNFIED PROGRAM (UP) FORM

# BUSINESS OWNER/OPERATOR IDENTIFICATION

Please submit the Business Activities page, the Business Owner/Operator Identification page, and Hazardous Materials - Chemical Description for all hazardous materials inventory submissions. For the inventory to be considered complete, this page must be signed by the appropriate individual. Please number all pages of your submittal. This helps your CUPA or PA identify whether the submittal is complete and if any pages are separated.

1. FACILITY ID NUMBER This number is assigned by the CUPA. This is the unique number which identifies your facility.
3. BUSINESS NAME Enter the full legal name of the business.
100. BEGINNING DATE Enter the beginning year and date of the report (YYYYMMDD, ex. 1999/07/01).
101. ENDING DATE Enter the ending year and date of the report (YYYYMMDD, ex. 2000/06/30).
102. BUSINESS PHONE Enter the phone number, area code first, and any extension.
103. BUSINESS SITE ADDRESS Enter the street address where the facility is located. No post office box numbers are allowed.
104. CITY Enter the city or unincorporated area in which the business site is located.
105. ZIP CODE - Enter the zip code of the business site. The extra 4 digits in the zip code may also be added.
106. DUN & BRADSTREET Enter the Dun and Bradstreet number for the facility. The Dun & Bradstreet number may be obtained by calling (610) 882-7748 or by visiting Dun and Bradstreet on the internet at www.dnb.com.
107. SIC CODE Enter the primary Standard Industrial Classification Code number for the primary business activity. Report only the first four digits.
108. COUNTY Enter the county in which the business site is located.
109. BUSINESS OPERATOR NAME Enter the name of the person who is the business operator.
110. BUSINESS OPERATOR PHONE Enter business operator's phone number including any extension, if different from the business phone.
111. OWNER NAME Enter name of the business owner, if different from the business operator.
112. OWNER PHONE Enter the business owner's phone number if different from the business phone, area code first, and any extension.
113. OWNER MAILING ADDRESS Enter the owner's mailing address if different from the business site address.
114. OWNER CITY Enter the name of the city for the owner's mailing address.
115. OWNER STATE Enter the 2 character state abbreviation for the owner's mailing address.
116. OWNER ZIP CODE Enter the zip code for the owner's address. The extra 4 digits in the zip code may also be added.
117. ENVIRONMENTAL CONTACT NAME Enter the name of the person, if different from the Business Owner or Operator, who receives all environmental correspondence and will respond to enforcement activity.
118. CONTACT PHONE Enter the phone number at which the environmental contact can be contacted including any extension.
119. CONTACT MAILING ADDRESS Enter the mailing address where all environmental contact correspondence should be sent.
120. CITY Enter the name of the city for the environmental contact's mailing address.
121. STATE Enter the 2 character state abbreviation for the environmental contact's mailing address.
122. ZIP CODE Enter the zip code for the environmental contact's mailing address. The extra 4 digits in the zip code may also be added.
123. PRIMARY EMERGENCY CONTACT NAME Enter the name of a representative that can be contacted in case of an emergency involving hazardous materials at the business site. The contact shall have FULL facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
124. TITLE Enter the title of the primary emergency contact.
125. BUSINESS PHONE Enter the business number for the primary emergency contact, area code first, and any extensions.
126. 24-HOUR PHONE Enter a 24-hour phone number for the primary emergency contact. The 24-hour phone number must be one answered 24 hours a day. If it is not the contact's home phone number, then the service answering the phone must be able to immediately contact the individual stated above.
127. MOBLE NUMBER Enter the mobile number for the primary emergency contact, if available.
128. SECONDARY EMERGENCY CONTACT NAME Enter the name of a secondary representative that can be contacted in the event that the primary emergency contact is not available. The contact shall have FULL facility access, site familiarity, and authority to make decisions for the business regarding incident mitigation.
129. TITLE Enter the title of the secondary emergency contact.
130. BUSINESS PHONE Enter the business telephone number for the secondary emergency contact, area code first, and any extension.
131. 24-HOUR PHONE Enter a 24-hour phone number for the secondary emergency contact. The 24-hour phone number must be one which is answered 24 hours a day. If it is not the contact's home phone number, then the service answering the phone must be able to immediately contact the individual stated above.
132. PAGER NUMBER Enter the pager number for the secondary emergency contact, if available.
133a. UNINCORPORATED AREA Check "Yes" if your facility is located in an unincorporated area of the County (ex. East LA, Marina Del Rey etc.).
133b. NUMBER OF EMPLOYEES Enter the number of employees working at your facility.
133c. TAX IDENTIFICATION NUMBER (TIN) Enter your business's tax identification number or social security number. The TIN number may be obtained from the Internal Revenue Service (IRS).
133d. MAILING/BILLING ADDRESS Enter the address that all correspondence and bills should be sent.
133e. MAILING/BILLING CITY Enter the city for the mailing/billing address.
133f. MAILING/BILLING STATE Enter the 2 character state abbreviation for the mailing/billing address.
133g. MAILING/BILLING ZIP CODE Enter the zip code for the mailing/billing address. The extra 4 digit s in the zip code may also be added.
133h. MAILING/BILLING CONTACT Enter the name of the person who is your Mailing/Billing contact.
133i. MAILING/BILLING NAME Enter the Name of the company or department for Mailing/Billing.
133j. MAILING/BILLING PHONE Enter the Mailing/Billing phone number.

SIGNATURE OF OWNER/ OPERATOR OR DESIGNATED REPRESENTATIVE The Business Owner/Operator, or officially designated representative of the Owner/Operator, shall sign in the space provided. This signature certifies the signer is familiar with the information submitted, and based on the signer's inquiry of those individuals responsible for obtaining the information, it is the signer's belief that the information is true, accurate, and complete.

134. DATE Enter the date that the document was signed (YYYYMMDD, ex. 1999/07/01).
135. NAME OF DOCUMENT PREPARER Enter the full name of the person who prepared the inventory submittal information.
136. NAME OF SIGNER Enter the full printed name of the person signing the page.
137. TITLE OF SIGNER Enter the title of the person signing the page.

| 1. REGULATED SUBSTANCES<br>Have Regulated Substances (RS) including Extremely Hazardous Substances (EHS) stored on site at greater than the threshold planning quantities established by the California Accidental Release Program (CalARP)? | ☑ YES ☐ NO 15a | ✓ REGULATED SUBSTANCE REGISTRATION<br>✓ RISK MANAGEMENT PLAN (when required) |
| 2. OTHER REQUIREMENTS | | |
| a. Have hazardous materials stored on site at or above a threshold amount established by a CUPA's or PA's local ordinance? | ☑ YES ☐ NO 15b | ✓ Consult local CUPA or PA for added reporting requirements. |
| b. Required by a CUPA or PA to provide other information? | ☑ YES ☐ NO 15c | ✓ WASTE GENERATOR FORM (LA County) |

INSTRUCTIONS FOR THE UNFIED PROGRAM (UP) FORM

# BUSINESS ACTIVITIES

Please submit the Business Activities page, the Business Owner/Operator Identification page, and Hazardous Materials Inventory - Chemical Description pages for all submissions. Please number all pages of your submittal. This helps your CUPA or PA identify whether the submittal is complete and if any pages are separated.

1. FACILITY ID NUMBER Leave this blank. This number is assigned by the Certified Unified Program Agency (CUPA) and identifies your facility.
2. EPA ID NUMBER If you generate, recycle, or treat hazardous waste, enter your facility's 12-character U.S. Environmental Protection Agency (U.S. EPA) or California Identification number. For facilities in California, the number usually starts with the letters "CA". If you do not have a number, contact the Department of Toxic Substances Control (DTSC) at (916) 324-1781, (800) 61-TOXIC or (800) 61-86942, to obtain one.
3. BUSINESS NAME Enter the full legal name of the business. This is the same as the terms "Facility Name" or "DBA - Doing Business As".
4. HAZARDOUS MATERIALS ON-SITE Check the box to indicate whether you have hazardous materials on-site. You have a hazardous material if:
   - It is handled in quantities equal to or greater than 500 pounds, 55 gallons, or 200 cubic feet of gas (calculated at standard temperature and pressure),
   - It is handled in quantities equal to or greater than the applicable federal threshold planning quantity for an extremely hazardous substance listed in 40 CFR Part 355, Appendix A,
   - Radioactive materials are handled in quantities for which an emergency plan is required to be adopted pursuant to Part 30, Part 40, or Part 70 of Chapter 10 of 10 CFR, or pursuant to any regulations adopted by the state in accordance with these regulations.

   If you have hazardous materials on-site, then you must complete the Business Owner/Operator Identification page (OES Form 2730) and the Hazardous Materials Inventory - Chemical Description page (OES Form 2731), as well as an Emergency Response Plan (i.e. Consolidated Contingency Plan) and Training Plan. Do not answer "YES" to this question if you exceed only a local threshold, but do not exceed the state threshold.
5. OWN OR OPERATE UNDERGROUND STORAGE TANK (UST) Check the appropriate box to indicate whether you own or operate USTs containing hazardous substances as defined in Health and Safety Code (HSC) §25316. If "YES", then you must complete one UST Facility page and UST Tank pages for each tank. **You must also submit a plot plan and a monitoring program plan.**
6. UPGRADE / INSTALL UST Check the appropriate box to indicate whether you intend to install or upgrade USTs containing hazardous substances as defined in HSC §25316. If "YES", then you must complete the UST Installation - Certificate of Compliance page in addition to UST Facility and Tank pages, plot plan, and monitoring program plan.
7. UST CLOSURE Check the appropriate box if you are closing a UST and complete the closure portion of the UST Tank pages for each tank.
8. OWN OR OPERATE ABOVEGROUND PETROLEUM STORAGE TANK (APST) Check the appropriate box to indicate whether there are APSTs on-site which exceed the regulatory thresholds. (There is no UPCF page for APSTs.) This program applies to all facilities storing petroleum in aboveground tanks. Petroleum means crude oil, or any fraction thereof, which is liquid at 60 degrees Fahrenheit temperature and 14.7 pounds per square inch absolute pressure (HSC §25270.2 (g) ). The facility must have a single tank greater than 660 gallons, or cumulative storage capacity greater than 1,320 gallons for all APSTs. An aboveground petroleum storage tank (APST) facility with one or more of the following (see HSC §25270.2 (k) ) is not subject to this act and is exempt:
   - A pressure vessel or boiler which is subject to Division 5 of the Labor Code,
   - A storage tank containing hazardous waste if a hazardous waste facility permit has been issued for the storage tank by DTSC,
   - An aboveground oil production tank which is regulated by the Division of Oil and Gas,
   - Certain oil-filled electrical equipment including but not limited to transformers, circuit breakers, or capacitors.
9. HAZARDOUS WASTE GENERATOR Check the appropriate box to indicate whether your facility generates hazardous waste. A generator is the person or business whose acts or processes produce a hazardous waste or who causes a hazardous substance or waste to become subject to State hazardous waste law. If your facility generates hazardous waste, you must obtain and use an EPA Identification number (ID) in order to properly transport and dispose of it. Report your EPA ID number in #2. Hazardous waste means a waste that meets any of the criteria for the identification of a hazardous waste adopted by DTSC pursuant to HSC §25141. "Hazardous waste" includes, but is not limited to, federally regulated hazardous waste. Federal hazardous waste law is known as the Resource Conservation and Recovery Act (RCRA). Unless explicitly stated otherwise, "hazardous waste" also includes extremely hazardous waste and acutely hazardous waste.
10. RECYCLE Check the appropriate box to indicate whether your facility recycles more than 100 kilograms per month of recyclable material under a claim that the material is excluded or exempt per HSC §25143.2. Check "YES" and complete the Recyclable Materials Report pages, if you either recycled on-site or recycled excluded recyclable materials which were generated offsite. Check "NO" if you only send recyclable materials to an offsite recycler; you do not need to report.
11. ON-SITE HAZARDOUS WASTE TREATMENT Check the appropriate box to indicate whether your facility treats hazardous waste on-site. "Treatment" means any method, technique, or process which is designed to change the physical, chemical, or biological character or composition of any hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose. "Treatment" does not include the removal of residues from manufacturing process equipment for the purposes of cleaning that equipment. Amendments (effective 1/1/99) add exemptions from the definition of "treatment" for certain processes under specific, limited conditions. Refer to HSC §25123.5 (b) for these specific exemptions. Treatment of certain laboratory hazardous wastes do not require authorization. Refer to HSC §25200.3.1 for specific information. Please contact your CUPA to determine if any exemptions apply to your facility. If your facility treats hazardous waste on-site, complete the On-site Hazardous Waste Treatment Notification - Facility page and one set of On-site Hazardous Waste Treatment Notification - Unit pages for each unit
12. FINANCIAL ASSURANCE Check the appropriate box to indicate whether your facility is subject to financial assurance requirements for closure of an on-site treatment unit. Unless they are exempt, Permit by Rule (PBR) and Conditionally Authorized (CA) operations are required to provide financial assurance for closure costs (per 22 CCR §67450.13 (b) and HSC §25245.4). If your facility is subject to financial assurance requirements or claiming an exemption, then complete the Certification of Financial Assurance page.
13. REMOTE WASTE CONSOLIDATION SITE Check the appropriate box to indicate whether your facility consolidates hazardous waste generated at a remote site. Answer "YES" if you are a hazardous waste generator that collects hazardous waste at remote sites and transports the hazardous waste to a consolidation site you also operate. You must be eligible pursuant to the conditions in HSC §25110.10. If your facility consolidates hazardous waste generated at a remote site, then complete the Remote Waste Consolidation Site Annual Notification page.
14. HAZARDOUS WASTE TANK CLOSURE Check the appropriate box to indicate whether the tank being closed would be classified as hazardous waste after its contents are removed. Classification could be based on your knowledge of the tank and its contents, the mixture rule, testing of the tank, the listed wastes in 40 CFR 261.31 or 40 CFR 261.32, or inability to remove hazardous materials stored in the tank If the closed tank would be classified as hazardous waste, then complete the Hazardous Waste Tank Closure Certification page.

15a. LOCAL REQUIRED INFORMATION: REGULATED SUBSTANCES (RS) Check the box to indicate whether Regulated Substances (RS) are stored on-site. An RS is any substance, listed in CCR, Title 19, Section 2770.5. See attached Regulated Substance list. If you handle an RS at greater than the threshold planning quantities then complete the Regulated Substance Registration in addition to forms required under item number 4.

15b. LOCAL HAZARDOUS MATERIALS THRESHOLD Check the appropriate box to indicate if you are subject to reporting hazardous materials at a level established by your local CUPA or PA. Check with your local CUPA or PA for details.

15c. LOCAL REQUIRED INFORMATION: HAZARDOUS WASTE Check the "yes" box if your facility answered yes to item number 9 and generates hazardous waste. If you checked the "Yes" box, complete the Hazardous Waste Generator Form (LA County).

CITY OF BURBANK
311 E. ORANGE GROVE AVENUE, BURBANK CALIFORNIA 91502-1221

FAX (818) 238-3483

FIRE DEPARTMENT

September 10, 2009

## *IMMEDIATE RESPONSE REQUIRED**

MICHELLE OINTINI
BORRMANN METAL CENTER
110 W OLIVE AVE
BURBANK CA 91502

Subject: **00404 – BORRMANN METAL CENTER**
**110 W OLIVE AVE**

As a hazardous materials handler your business is required to submit a completed hazardous materials inventory disclosure statement annually in accordance with the Section 25509 of the California Health & Safety Code and Section 9-2-2701.5.1 of the Burbank Municipal Code. Hazardous Materials equal to or greater than the amounts of ***a total weight of 500 pounds, or a total volume of 55 gallons or 200 cubic feet*** qualify your business as a Hazardous Materials Handler.

Please review the following attached forms:

- Business Plan Annual Renewal Certification
- Business Owner / Operator Identification
- Business Activities

**If there are no changes** to your "Hazardous Materials Inventory" or "Consolidated Contingency Plan" or "Site Map" please review and follow the directions on the back of this letter.

**If there are changes** to your "Hazardous Materials Inventory" or "Consolidated Contingency Plan" or "Site Map" please review and follow the directions on the back of this letter.

**BE SURE TO RETAIN A COPY OF ALL FORMS FOR YOUR RECORDS.**

*Please note you have 30 days from the date of this notice to complete and return the required information. **THIS LETTER IS YOUR ONLY NOTICE.** No further notices will be issued.

**FAILURE TO SUBMIT THE REQUIRED INVENTORY DISCLOSURE STATEMENT IS A MISDEMEANOR CRIMINAL VIOLATION** OF BOTH THE CALIFORNIA HEALTH & SAFETY CODE AND THE BURBANK MUNICIPAL CODE. EACH VIOLATION IS PUNISHABLE BY A MAXIMUM OF SIX MONTHS IN JAIL AND/OR A **$1,000 FINE**, NOT INCLUDING PENALTY ASSESSMENTS.

ADDITIONALLY, IF THE CITY ALSO ELECTS TO PURSUE CIVIL ENFORCEMENT OF THIS MATTER, ANY BUSINESS THAT VIOLATES THESE PROVISIONS CAN BE ASSESSED A CIVIL PENALTY OF UP TO TWO THOUSAND ($2,000) DOLLARS FOR EACH DAY OF THE VIOLATION. IF THE BUSINESS IS DETERMINED TO HAVE KNOWINGLY FAILED TO COMPLY AFTER REASONABLE NOTICE OF THE VIOLATION, THEY ARE CIVILLY LIABLE FOR UP TO FIVE THOUSAND ($5,000) DOLLARS FOR EACH DAY IN WHICH THE VIOLATION OCCURS.

**Forms can now be downloaded from our website at *www.Burbankfire.US*. These forms may be completed on your computer by using *Adobe Reader*. If you are unable to download the required forms from our website, or have questions, or need assistance, please contact the Fire Prevention Bureau at (818) 238-3473.**

Thank you for your cooperation.

Jorge Martinez, Deputy Fire Marshal

**See schedule below for your submittal requirements.**

| If you have ... | Then complete, sign, and submit the following forms: |
|---|---|
| A. **no changes** to your Hazardous Materials Inventory or Consolidated Contingency Plan, | 1. Business Plan Annual Renewal Certification Form – signed;<br>2. HazMat Owner and Operator Identification page – signed; and<br>3. HazMat Business Activities page |
| B. **changes** to your Hazardous Materials Inventory, | 1. In addition to submitting all items under A.,<br>2. Chemical Description Form to add, revise, or delete reportable hazardous materials. Make as many copies as you need to disclose each reportable hazardous material that you will handle in 2010; |
| C. **changes** to your Consolidated Contingency Plan, | 1. In addition to all items under A.,<br>2. A revised signed Consolidated Contingency Plan form. |
| D. **changes** to your Site Map | 1. In addition to all items under A.,<br>2. A revised Site Map. |

# HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION

(one page per material per building or area)

☐ ADD ☐ DELETE ☐ REVISE REPORTING YEAR 2009 200 PAGE 1 OF 9

## I. FACILITY INFORMATION

| | |
|---|---|
| BUSINESS NAME (Same as FACILITY NAME or DBA – Doing Business As) 3: Borrmann Metal Center | |
| CHEMICAL LOCATION 201: Southwest Corner of Warehouse | CHEMICAL LOCATION CONFIDENTIAL (EPCRA) 202: ☐ Yes ☑ No |
| FACILITY ID # AR-001-9160 | MAP# (optional) 203 / GRID# (optional) 204 |

## II. CHEMICAL INFORMATION

| | |
|---|---|
| CHEMICAL NAME 205: Compressed Argon / $CO_2$ 75% - 25% | TRADE SECRET (If Subject to EPCRA, refer to instructions) 206: ☐ Yes ☑ No |
| COMMON NAME 207: 25% Carbon dioxide 75% Argon | EHS (RS)* 208: ☐ Yes ☑ No |
| CAS# 209: N/A | *If EHS (RS) is "Yes", all amounts below must be in Lbs. |

FIRE CODE HAZARD CLASSES (Complete if required by CUPA) 210: Non-Flammable

| | | |
|---|---|---|
| HAZARDOUS MATERIAL TYPE (Check one item only) 211: ☐ a. PURE ☑ b. MIXTURE ☐ c. WASTE | RADIOACTIVE 212: ☐ Yes ☑ No | CURIES 213 |
| PHYSICAL STATE (Check one item only) 214: ☐ a. SOLID ☐ b. LIQUID ☑ c. GAS | LARGEST CONTAINER 215: 295 CF | |

FED HAZARD CATEGORIES (Check all that apply) 216: ☐ a. FIRE ☐ b. REACTIVE ☑ c. PRESSURE RELEASE ☐ d. ACUTE HEALTH ☐ e. CHRONIC HEALTH

| AVERAGE DAILY AMOUNT 217 | MAXIMUM DAILY AMOUNT 218 | ANNUAL WASTE AMOUNT 219 | STATE WASTE CODE 220 |
|---|---|---|---|
| 295 CF | 590 CF | 0 | N/A |

UNITS* (Check one item only) * If EHS (RS), amount must be in pounds. 221: ☐ a. GALLONS ☑ b. CUBIC FEET ☐ c. POUNDS ☐ d. TONS

DAYS ON SITE: 222: 365

STORAGE CONTAINER 223:

| | | | | |
|---|---|---|---|---|
| ☐ a ABOVE GROUND TANK | ☐ e. PLASTIC/NONMETALLIC DRUM | ☐ i. FIBER DRUM | ☐ m. GLASS BOTTLE | ☐ q. RAIL CAR |
| ☐ b. UNDERGROUND TANK | ☐ f. CAN | ☐ j. BAG | ☐ n. PLASTIC BOTTLE | ☐ r. OTHER |
| ☐ c. TANK INSIDE BUILDING | ☐ g. CARBOY | ☐ k. BOX | ☐ o. TOTE BIN | |
| ☐ d. STEEL DRUM | ☐ h. SILO | ☑ l. CYLINDER | ☐ p. TANK WAGON | |

STORAGE PRESSURE 224: ☑ a. AMBIENT ☐ b. ABOVE AMBIENT ☐ c. BELOW AMBIENT

STORAGE TEMPERATURE 225: ☑ a. AMBIENT ☐ b. ABOVE AMBIENT ☐ c. BELOW AMBIENT ☐ d. CRYOGENIC

| | %WT | HAZARDOUS COMPONENT (For mixture or waste only) | EHS (RS) | CAS # |
|---|---|---|---|---|
| 1 | 226 | 227: N/A | 228: ☐Yes ☐No | 229 |
| 2 | 230 | 231 | 232: ☐Yes ☐No | 233 |
| 3 | 234 | 235 | 236: ☐Yes ☐No | 237 |
| 4 | 238 | 239 | 240: ☐Yes ☐No | 241 |
| 5 | 242 | 243 | 244: ☐Yes ☐No | 245 |

If more hazardous components are present at greater than 1% by weight if non-carcinogenic, or 0.1% by weight if carcinogenic, attach additional sheets of paper capturing the required information.

# CONSOLIDATED CONTINGENCY PLAN

## COVER PAGE

For Year

### FACILITY IDENTIFICATION

| BUSINESS NAME 3 | | FACILITY ID # 1 |
|---|---|---|
| Bokhann Metal Center | | AR0019160 |
| SITE ADDRESS 103 | CITY 104 | ZIP CODE 105 |
| 110 W. Olive Avenue | Burbank | 91502 |

The Consolidated Contingency Plan provides businesses a format to comply with the emergency planning requirements of the following three written hazardous materials emergency response plans required in California:

- Hazardous Materials Business Plan (HSC Chapter 6.95 Section 25504 (b) and 19 CCR Sections 2729-2732),
- Hazardous Waste Generator Contingency Plan (22 CCR Section 66264.52), and,
- Underground Storage Tank Emergency Response Plan and Monitoring Program (23 CCR Sections 2632 and 2641).

This format is designed to reduce duplication in the preparation and use of emergency response plans at the same facility, and to improve the coordination between facility response personnel and local, state, and federal emergency responders during an emergency. Use the chart below to determine which sections of the Consolidated Contingency Plan need to be completed for your facility. If you are unsure as to which programs your facility is subject to, refer to the Business Activities Page.

| PROGRAMS | SECTION(S) TO BE COMPLETED |
|---|---|
| Hazardous Materials Business Plan (HMBP) | Cover Page, Section I, and Site Map(s) |
| Hazardous Waste Generator (HWG) | Cover Page, Section I, and Site Map(s) |
| Underground Storage Tank (UST) | Cover Page, Sections I and II, and Site Map(s) |
| HMBP, HWG, UST | Cover Page, Sections I and II, and Site Map(s) |

**A copy of the plan shall be submitted to the Burbank Fire Department at 311 E Orange Grove Ave, Burbank CA 01502, and at least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the Burbank Fire Department.** Describe below where a copy of your Contingency Plan, including the hazardous material inventories and Site Map(s), is located at your business:

Lock Box at Front door of office

### PLAN CERTIFICATION

*I certify under penalty of law that I have personally examined and I am familiar with the information provided by this plan and to the best of my knowledge the information is accurate, complete, and true.*

| PRINTED NAME OF OWNER/OPERATOR | TITLE OF OWNER/OPERATOR |
|---|---|
| Robert Wedeen | President |
| SIGNATURE OF OWNER/ OPERATOR | DATE |
| Robert Wedeen | 12/22/08 |

We appreciate the effort of local businesses in completing these plans and will assist in every possible way. If you have any questions, please contact your local CUPA or PA.

UNIFIED PROGRAM (UP) FORM ATTACHMENT 6 - 2702

# CONSOLIDATED CONTINGENCY PLAN

## SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

### I. FACILITY IDENTIFICATION

| BUSINESS NAME 3 | | FACILITY ID # 1 |
|---|---|---|
| Borrmann Metal Center | | AR0019160 |
| SITE ADDRESS 103 | CITY 10 | ZIP CODE 105 |

### III. EMERGENCY RESPONSE PLANS AND PROCEDURES

**A. *Notifications***

Your business is required by State Law to provide an immediate verbal report of any release or threatened release of a hazardous material to local fire emergency response personnel, this Unified Program Agency (CUPA or PA), and the Office of Emergency Services. If you have a release or threatened release of hazardous materials, immediately call:

**FIRE / PARAMEDICS / POLICE / SHERIFF PHONE: 911**

**AFTER** the local emergency response personnel are notified, you shall then notify this Unified Program Agency and the Office of Emergency Services.

Local Unified Program Agency: (818) 238-3475
State Office of Emergency Service: (800) 852-7550 or (916) 262-1621
National Response Center: (800) 424-8802

Information to be provided during Notification:

- Your name and the telephone number from where you are calling.
- Exact address of the release or threatened release.
- Date, time, cause, and type of incident (e.g. fire, air release, spill etc.)
- Material and quantity of the release, to the extent known.
- Current condition of the facility.
- Extent of injuries, if any.
- Possible hazards to public health and/ or the environment outside of the facility.

**B. *Emergency Medical Facility***

List the local emergency medical facility that will be used by your business in the event of an accident or injury caused by a release or threatened release of hazardous material

| HOSPITAL/CLINIC: | PHONE: |
|---|---|
| Providence St. Joseph Occupational Center | (818) 953-4408 |
| ADDRESS: 3413 Pacific Avenue | |
| CITY: Burbank | ZIP CODE: 91505 |

# CONSOLIDATED CONTINGENCY PLAN

## SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

### C. *Private Emergency Response*

**DOES YOUR BUSINESS HAVE A PRIVATE ON-SITE EMERGENCY RESPONSE TEAM?** ☑ Yes ☐ No

If yes, provide an attachment that describes what policies and procedures your business will follow to notify your on-site emergency response team in the event of a release or threatened release of hazardous materials.

**CLEANUP/DISPOSAL CONTRACTOR**

List the contractor that will provide cleanup services in the event of a release.

| NAME OF CONTRACTOR | PHONE NO |
|---|---|
| | |
| ADDRESS | |
| | |
| CITY | ZIP CODE |
| | |

### D. *Arrangements With Emergency Responders*

If you have made special (i.e. contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements on the lines below:

### E. *Evacuation Plan*

1. The following alarm signal(s) will be used to begin evacuation of the facility *(check all which apply)*:

☑ Verbal ☐ Telephone *(including cellular)* ☐ Alarm System ☐ Public Address System ☐ Intercom
☐ Pagers ☐ Portable Radio ☐ Other *(specify):*

2. ☐ Evacuation map is prominently displayed throughout the facility.

3. ☐ Individual(s) responsible for coordinating evacuation including spreading the alarm and confirming the business has been evacuated:

Roberto Siordia / Warehouse Manager
Robert Wedeen / Co-President (Back-up)

### F. *Earthquake Vulnerability*

Identify areas of the facility where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☑ Hazardous Waste/ Hazardous Materials Storage Areas ☐ Production Floor ☐ Process Lines
☐ Bench / Lab ☐ Waste Treatment ☐ Other

Identify mechanical systems where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☑ Utilities ☑ Sprinkler Systems ☑ Cabinets ☐ Shelves
☑ Racks ☐ Pressure Vessels ☑ Gas Cylinders ☑ Tanks
☑ Process Piping ☑ Shutoff Valves ☐ Other:

SUBSURFACE INVESTIGATION - WELL INVESTIGATION PROGRAM (FILE NO. 104.0197)

Reference is made to your consultants, Environmental Managers and Auditors, Inc., workplan dated September 12, 1990, for Subsurface Investigation at the subject site.

We have reviewed and evaluated your workplan, and have no objections to you implementing it provided that all work is completed as specified in your proposal and complies with the additional requirements listed below, as discussed in a telephone conversation between Mr. Norman Sacro of Environmental Managers and Auditors, and Mr. Yue Rong of this Regional Board staff on September 25, 1990.

1. The workplan was not signed by the Registered/Certified geotechnical personnel who will be directly overseeing field activities, and is required to sign the Final Report for this project. Prior to commencing any field activities, this individual must provide this Regional Board with a written notification specifying the level of his/her involvement with this project and the duration of his/her field supervision of the drilling and sampling activities onsite.

2. The final report must contain the following minimum laboratory QA/QC data: reagent blanks, matrix spike/matrix spike duplicates, spiking surrogate recoveries concentrations, laboratory control standards, calibration check standards, the extraction procedures utilized, and copies of laboratory extraction sheets.

3. Please provide us with the name of the analytical testing laboratory that will be used for analyses of soil samples prior to commencing any work onsite.

4. Boring logs, together with proper map and diagrams clearly depicting site location and all soil test boring locations onsite must be provided in the final report.

5. All boring locations must be verified in the field with Regional Board staff and your consultant on the day that drilling commences onsite. Please notify us at least one week prior to commencing field work so that we can arrange a staff to be present.

Four copies of the final report are due to this Regional Board by November 16, 1990. If you have any questions, please contact Yue Rong at (213) 266-7528.

July 16, 1990

Mr. Mark Celli
Vice President
Borrmann Steel Company
110 W. Olive Street
Burbank, CA 91502

SUBSURFACE INVESTIGATION - WELL INVESTIGATION PROGRAM (FILE NO. 104.0197)

On May 16, 1990, your facility was inspected by members of this Regional Board staff. The inspection focused mainly on past and present methods used for handling chemicals and wastes at your facility. During the site visit, the inspectors became aware of certain situations that may have resulted in soils and potential ground water pollution. Of primary concern are the areas listed below:

1. Cutting machine areas at your facility. There were obvious signs of waste discharge to the ground throughout these areas, and there were no control mechanisms in place to contain any spilled or leaked material.

2. Maintenance equipment area, where chemical/waste material discharges were observed.

3. Former underground fuel storage tank area previously located at the front of your facility.

The main objective of this Agency's Well Investigation Program (WIP) is to determine possible sources contributing to pollution in nearby drinking water wells. This program is comprehensive since even small discharges may have significant additive effects on the quality of ground water in the area. You are hereby directed to submit a workplan for conducting a Subsurface Investigation to determine whether infiltration of contaminants into soils has occurred at the area of concern identified above. Your workplan must address all items contained within the enclosed Workplan Requirements for Initial Subsurface Engineering/Geologic Soil Investigation and incorporate the site specific requirements listed below.

1. A total of six (6) soil test borings are required at this time, and boring locations are identified below.

   a) One (1) boring is to be completed adjacent to steel cutting machine station located in the north east portion of the workshop.

   b) One (1) boring is to be completed adjacent to steel cutting machine station located in the southern portion of the workshop.

   c) One (1) boring is to be completed adjacent to steel cutting machine station located in the western portion of the workshop. Two (2) are to be drilled immediate outside of the workshop but adjacent to the cutting machine station located in the western portion of the workshop.

   d) One boring is to be completed at in-house maintenance area located in the northern portion of the facility.

2. Soil samples must be taken at 1, 5, and 10 feet below land surface at each test boring location. All soil samples must be analyzed after a protocol is to be developed and to specify all laboratory analysis to be completed. Minimum analyses of all soil samples are to include EPA Method 418.1 for total petroleum hydrocarbons and EPA Methods 8010/8020 or 8260 for volatile organics.

3. In-house maintenance area located in the northern portion of the workshop must be retrofitted in order to prevent waste material from infiltrating through the asphalt concrete surface throughout this area.

4. Please submit a copy of the final report for former underground storage tank removal and related soil testing with your workplan.

Four copies of the workplan containing all of the information identified above are due to this Regional Board by August 17, 1990. If you have any questions concerning this matter, please contact Mr. Yue Rong at (213) 266-7528.

SUBSURFACE INVESTIGATION - WELL INVESTIGATION PROGRAM (FILE NO. 104.0197)

We have received your letter dated July 24, 1990, requesting additional time to submit the required Subsurface Investigation Workplan for the subject site. The additional time is requested due to the tight schedule for your company's upcoming inventory activities onsite. You are hereby granted a time extension until September 17, 1990, to submit your workplan. No further time extension will be granted.

By your request, enclosed is a partial list of consultants available to perform the engineering or geologic subsurface investigation required of you by this Regional Board. This Regional Board in no way endorses or preapproved any consultants on the list. Each consultant requested inclusion on this list and appears to have at least one staff person who meets the registration requirements of our Subsurface Investigation Guidelines. This list is not exclusive, as there are many consultants who meet the registration requirements but did not request to be included. You are free to retain the consultant of your choosing, either from this list or elsewhere.

Please note that retaining a consultant from this list does not assure acceptance of that consultant's work by this Regional Board. The Regional Board reserves the authority to review any consultant's work to assure compliance with all applicable statutes, regulations, guidelines, and orders. It is your responsibility to ascertain that the consultant is professionally qualified and that the required work is adequately performed.

If you have any questions, please contact Yue Rong at (213) 266-7528.

FIRE DEPARTMENT

August 9, 2013

**Michelle Pitini**
**Borrmann Metal Center**
**110 W Olive Ave**
**Burbank CA 91502**

**SUBJECT: FINAL NOTICE CERS COMPLIANCE** **CERS ID 10229686**

**SITE: 00404 - Borrmann Metal Center**
**110 W Olive AVE**

Burbank Fire Department (BFD) records show that the business listed above has not complied with the California Environmental Reporting System (CERS). The mandatory deadline for submission of this information was **May 1, 2013.**

CERS has received portions of your submission, and they have either not been accepted, or not all elements have been received and accepted. See below for status of your submittal. If there is no date under Date Accepted, the submission **still needs to be completed**. If any of the elements are under review, it will be reflected under Date Accepted. We will notify you after our review is completed with any further information that may be needed to complete your submission.

| | Submitted | Date Accepted |
|---|---|---|
| Hazardous Materials Inventory | X | Not Accepted |
| Emergency Response and Training Plans | Not Submitted | |

At this time your company may be civilly liable to the City of Burbank in the amount of $2,000 **per day** for failure to comply with CERS, as required by the California Health and Safety Code Section 25505(a) and 25404(e)(4) and regulations adopted by the California Environmental Protection Agency.

The BFD is providing you with the opportunity to comply with your obligations as required by CERS. Your company has ***30 days to comply***.

**This is your FINAL NOTICE**

If you fail to comply after receipt of this letter, you and/or your company will be deemed to be in **willful** violation of Health and Safety Code Sections 25505(a) and 25404(e). A **willful** violation of these sections may subject you and your company to civil liability in the sum of $5,000 **per day** and potential criminal prosecution.

We expect that you will comply with your legal obligations within the time limits provided by this letter. Failure to comply with your legal obligation will have, as noted, serious consequences.

Sincerely,

Jorge L. Martinez
Deputy Fire Marshal

## CONDITIONS A -- GENERAL

1. Closures shall be carried out such that all applicable regulations from the following agencies are complied with: Los Angeles County, Department of County Engineer-Facilities; Los Angeles County Fire Department, Fire Prevention Division or the appropriate City Fire Department; South Coast Air Quality Management District; and Los Angeles County Department of Health Services.

2. The County Engineer and Fire Departments shall be notified in advance of any closure in accordance with the following:

   a. Removal of tank shall require a three (3) business day advance notification.

   b. Permanent closure of a tank in place or a temporary closure shall require a 30 day written notification.

3. The fee is $141 for the first tank plus $38 for each additional tank.

4. All abandoned wells shall be destroyed in such a way that they will not produce water or act as a channel for interchange of water, when such interchange may result in deterioration of the quality of water in any or all water bearing formations penetrated, or present a hazard to the safety and well-being of people and animals.

5. A well destruction permit issued by the Los Angeles Department of Health Services shall be required for all wells requiring a permit for their initial construction.

6. Well destruction shall be accomplished according to methods described in the latest "Water Well Standards: State of California" by the Department of Water Resources, contained in Bulletin 74-81, December 1981, or any other methods that will provide equivalent or better protection.

7. Plans for the decontamination of a facility shall be submitted to the County Engineer for approval no later than 30 days before the commencement of such operations. Other agencies having jurisdiction shall also be notified. These agencies include the California Regional Water Quality Board, the Los Angeles County Department of Health Services, and the South Coast Air Quality Management District.

8. Decontamination shall require the following, as a minimum:

   a. Cleaning operation shall be done under the supervision of persons who understand the hazardous potential of the original liquid stored and its components.

   b. The personnel shall be sufficiently skilled to safely carry out such operation.

   c. Contaminated materials removed from such facility shall be disposed of at legal point of discharge.

   d. The operation shall be carried out in a manner that will not endanger the health of the public and the environment.

## CONDITIONS B -- TEMPORARY

1. All temporary closures shall be carried out as indicated in Los Angeles County Fire Department, Fire Prevention Division, Supplement #A -- Inspection Guide #6, "Abandonment or Removal of Underground Tanks," Part A and any other applicable Parts.

2. A temporary closure shall not exceed 90 days.

## CONDITIONS C -- PERMANENT, TANK(S) REMOVAL

1. All tank removals shall be carried out as indicated in Los Angeles County Fire Department, Fire Prevention Division, Supplement #A -- Inspection Guide #6, Part D and any other applicable Parts.

2. Owners/operators shall notify the Building Department having jurisdiction at the place of removal if a grading permit is necessary.

3. Removed tanks shall not be transported away from the site until an inspection to establish site integrity is carried by the County Engineer.

4. If an appointment has been arranged with a County Engineer inspector to inspect the removal of a tank, the inspector will only wait at the site a reasonable amount of time (approximately one hour) after arriving for the removal to commence. Another closure fee may be charged if the inspector has to return to the site.

5. After inspection, tanks shall be transported to a legal disposal point.

6. If the tank had stored materials other than motor fuel, fuel oil, or waste oil, site integrity shall be demonstrated using the soil sampling and analysis procedures described in CONDITIONS D below.

7. The site shall be backfilled and recompacted to a relative compaction of 90%.

## CONDITIONS D -- PERMANENT, TANK(S) IN PLACE

1. All permanent closures of tanks in place shall comply with Los Angeles County Fire Department, Fire Prevention Division, Supplement #A -- Inspection Guide #6, Parts B or C, and any other applicable Parts.

2. Owners/operators shall demonstrate part site integrity as follows:

   a. Test borings shall be slant drilled to intercept a point beneath the center of the tank, if possible. If slant drilling is not feasible, the test borings may be drilled vertically and the reason stated in the report in 2.h. below.

   b. For single tanks, a minimum of two test borings will be required, each located on opposite sides of the tank along the major axis of the tank.

   c. For multiple tanks, as a minimum, borings shall be placed at 20 foot intervals around the tank cluster. The actual number and location of borings shall be evaluated on a case-by-case basis. Tanks separated by 20 feet or more shall be considered single tanks for the purposes of test location and placement.

   d. Soil samples shall be taken at depths of 5, 10, 20, 30 and 40 feet below grade level.

   e. A Shelby Tube or a Modified California Sampler shall be utilized for taking all soil samples.

   f. Soil samples shall be capped immediately with teflon or aluminum.

   g. Soil samples shall not be extruded in the field but are to be immediately placed in a refrigerated ice chest and transported to a state certified laboratory for analysis, using suitable methods.

   h. A report containing the results of the above analysis shall be submitted to the County Engineer.

3. If the soil analysis in 2. above indicates the presence of contaminants, the County Engineer shall require a site investigation as described in Chapter V of the County's "Underground Storage of Hazardous Materials -- Guidelines."

4. A report shall be submitted to the County Engineer containing the results of the site investigation.

March 20, 1987

Mr. Mark Celli
Borrmann Steel Co.
110 W. Olive Avenue
Burbank, CA 91502-1987

Dear Mr. Celli:

HAZARDOUS MATERIALS UNDERGROUND STORAGE
CLOSURE PERMIT NO. 2372B
FACILITY AT: 110 W. OLIVE AVENUE

This office has reviewed the soil/groundwater assessment report submitted on March 3, 1987 as required as part of the subject closure procedure. Based on the information submitted, the following action is required:

[ ] The closure is final and no further action is required.

[X] The soils removed during the tank excavation are unrestricted and may be used as backfill material. The closure is final and no further action is required.

[ ] The soils are not suitable as fill material and must be manifested and transported to a hazardous waste disposal facility as required by California Health and Safety Code, Division 20, Chapter 6.2, unless evidence is presented indicating that disposal is proper at a less restricted facility. Copies of all completed manifests shall be submitted to this office indicating legal disposal.

[ ] The permanent closure of the tank(s) in place shall comply with requirements set by the local Fire Department. Verification must be submitted to this office indicating proper closure and completion of all work.

If you have any questions concerning this matter, please contact Ms. Kelsey Schwartz at (213) 226- 4437 .

Very truly yours,

T. A. TIDEMANSON
Director of Public Works

Attn: Ms. Kelsey Schwartz

Subject: Geotechnical Evaluation and Review
Subsurface Tank Removal
Borrman Steel
110 W. Olive Ave., Burbank, CA
for Allied Environmental Management, Inc.

Dear Ms. Schwartz,

This report presents the results of a geotechnical evaluation of the subsurface storage tank removal at the referenced site and a review of the work performed, and summary data presented by Allied Environmental Management, Inc. A total of one 1000-gallon, leaded gasoline tank was removed February 10, 1987, by Allied Environmental Management and transported by Allied for disposal. Local fire department personnel were present to insure proper removal and transportation procedures. A summary of the work performed is presented in the appendix. Vicinity and site maps are presented in Plates 1 & 2. Upon removal of the tank, selected soil samples were taken to determine the degree of contamination in the soils below the tanks. The results of laboratory testing are presented in Plate 4, while the Chain of Custody Record is presented in Plate 5. No subsurface logging was performed.

SITE LOCATION AND GEOLOGY

The subject site is located on the southeast side of Olive Ave. northeast of its junction with Lake St. in the City of Burbank, County of Los Angeles. The present elevation is approximately 560 feet above sea level. The site consists of predominantly alluvial basin fill deposits associated with ephemeral stream deposition within the L.A. basin. The present courses of the Burbank Western Channel and the Los Angeles River are located less than 0.2 mile to the east and 1.5 miles to the south, respectively. The alluvial materials are generally sandy and silty in nature, though some areas contain considerable clay or gravel.

Analysis of ground water contour data on file with the County of Los Angeles indicate the ground-water level in the vicinity of the site to be on the order of 75 feet below the ground surface. No water was encountered in the excavation.

SOIL SAMPLING AND EVALUATION

Selected soil samples were obtained from the earth materials below the tanks. Sample locations were chosen in a manner so as to provide the most complete coverage of the subsurface materials and to provide for a more complete evaluation of potential soil contamination. Special attention was given to geological conditions which may provide for accelerated downward movement of ground water. The sample locations are depicted in Plate 2.

The sample were taken in earth materials below the removed tank. A total of two samples, one from the east end and one from the west end, were taken from below the tank bottom at a depth of 8 feet below surface (Plate 2). The samples were placed in glass container, sealed with tape, placed in ice to chill, and transported to Curtis & Tompkins, Ltd. for laboratory analysis. The samples were tested using EPA method 8015 and for lead. The laboratory test results and the Chain of Custody Record are presented in the appendix (Plates 4 & 5).

CONCLUSIONS

Review of the summary data presented by Allied Environmental Management, Chain of Custody Record, and the laboratory test results indicate the amount of contamination in the earth materials below the tank to be within the guidelines of the County of Los Angeles. No additional removal or treatment of the earth material is deemed necessary.

REMARKS

This investigation was made in accordance with generally accepted geologic procedures and within the limits prescribed by the client. No other warranty, expressed or implied, is made as to the professional evaluation included in this report.

Although no significant variations in bedrock or soil conditions are anticipated, if conditions are encountered during future restoration work, and these conditions appear to be different from those disclosed by this preliminary report, this office shall be notified to consider the need for modification.

The backfill at the site was compacted using on-site equipment. While a relative degree of compaction can be obtained in this manner, the fill was not tested and does not qualify as a certified fill. Should this area be used in the future to support structural loads, steps should be taken to test and insure the competence of the fill.

It should be realized that subsurface excavations are subject to caving and may present a hazard. In this regard, all shoring and bracing, if necessary, shall conform to current standards of the Industrial Accident Commission of the State of California and other public agencies having jurisdiction.

This report is subject to review by controlling public agencies having jurisdiction.

If you have any questions, please contact this office.

Respectfully submitted,

George DeVries
Registered Geologist 3721

A L L I E D
ENVIRONMENTAL MANAGEMENT, INC.
8316 FIRESTONE BLVD.
DOWNEY, CA, 90241.

Borrman Steel, 110 West Olive Ave, Burbank, has maintained the following underground tank(s):
(1) - 1,000 gal. steel tank(s) for leaded gasoline.
They have requested a permanent closure for the present tank(s). The decision was based on the possibility of future tank leakage that would cause a contamination of the soil.

The necessary permits were obtained by an agent of ALLIED and signed from the proper authorities needed:
City / County Fire Department - Permit on file with Dept.
Local Health Services Dept. - Permit #2372-B
The tank(s) had been rendered inert and removed from the site FEB. 10,1987. Tank removal and soil sampling was performed by Allied Industrial Services.

PROCEDURES: After a backhoe had removed soil from the bottom of the excavation floor, total soil sample(s) collected:
(2) - sample(s) taken from the (8) foot level.
All soil samples were transported to Curtis & Tompkins, Ltd, for analysis, using E.P.A. method(s): 8015. The sample jars were sealed, labeled, and stored in ice, including Chain-of-Custody record to insure traceability,(SEE ATTACHED).

LABORATORY RESULTS (ANALYSIS): Analysis of the soil sampling taken from the tankbed(s) revealed the following:(SEE ATTACHED).

According to the County Department of Public Works, the maximum allowable level of contamination in soil is 100 parts per million (p.p.m.). Therefore, in conclusion, there is not any evidence of soil contamination from the original tank bed(s) of Borrman Steel Company in Burbank.

Respectfully submitted,

Todd Ellertson

CLOSURE PERMIT SUPPLEMENT
HAZARDOUS MATERIALS UNDERGROUND STORAGE
LOS ANGELES COUNTY
DEPARTMENT OF PUBLIC WORKS
WASTE MANAGEMENT DIVISION
2250 ALCAZAR STREET
LOS ANGELES, CALIFORNIA 90033

Closure Permit No. 2372 B
File No. I-13289-3E

To satisfy the permanent closure requirements for underground storage tanks previously storing hazardous materials, site integrity must be demonstrated by the analysis of soil samples and, if applicable, groundwater samples as outlined below. These requirements are in addition to the conditions listed on the Application for Closure or contained in an approved Closure Plan.

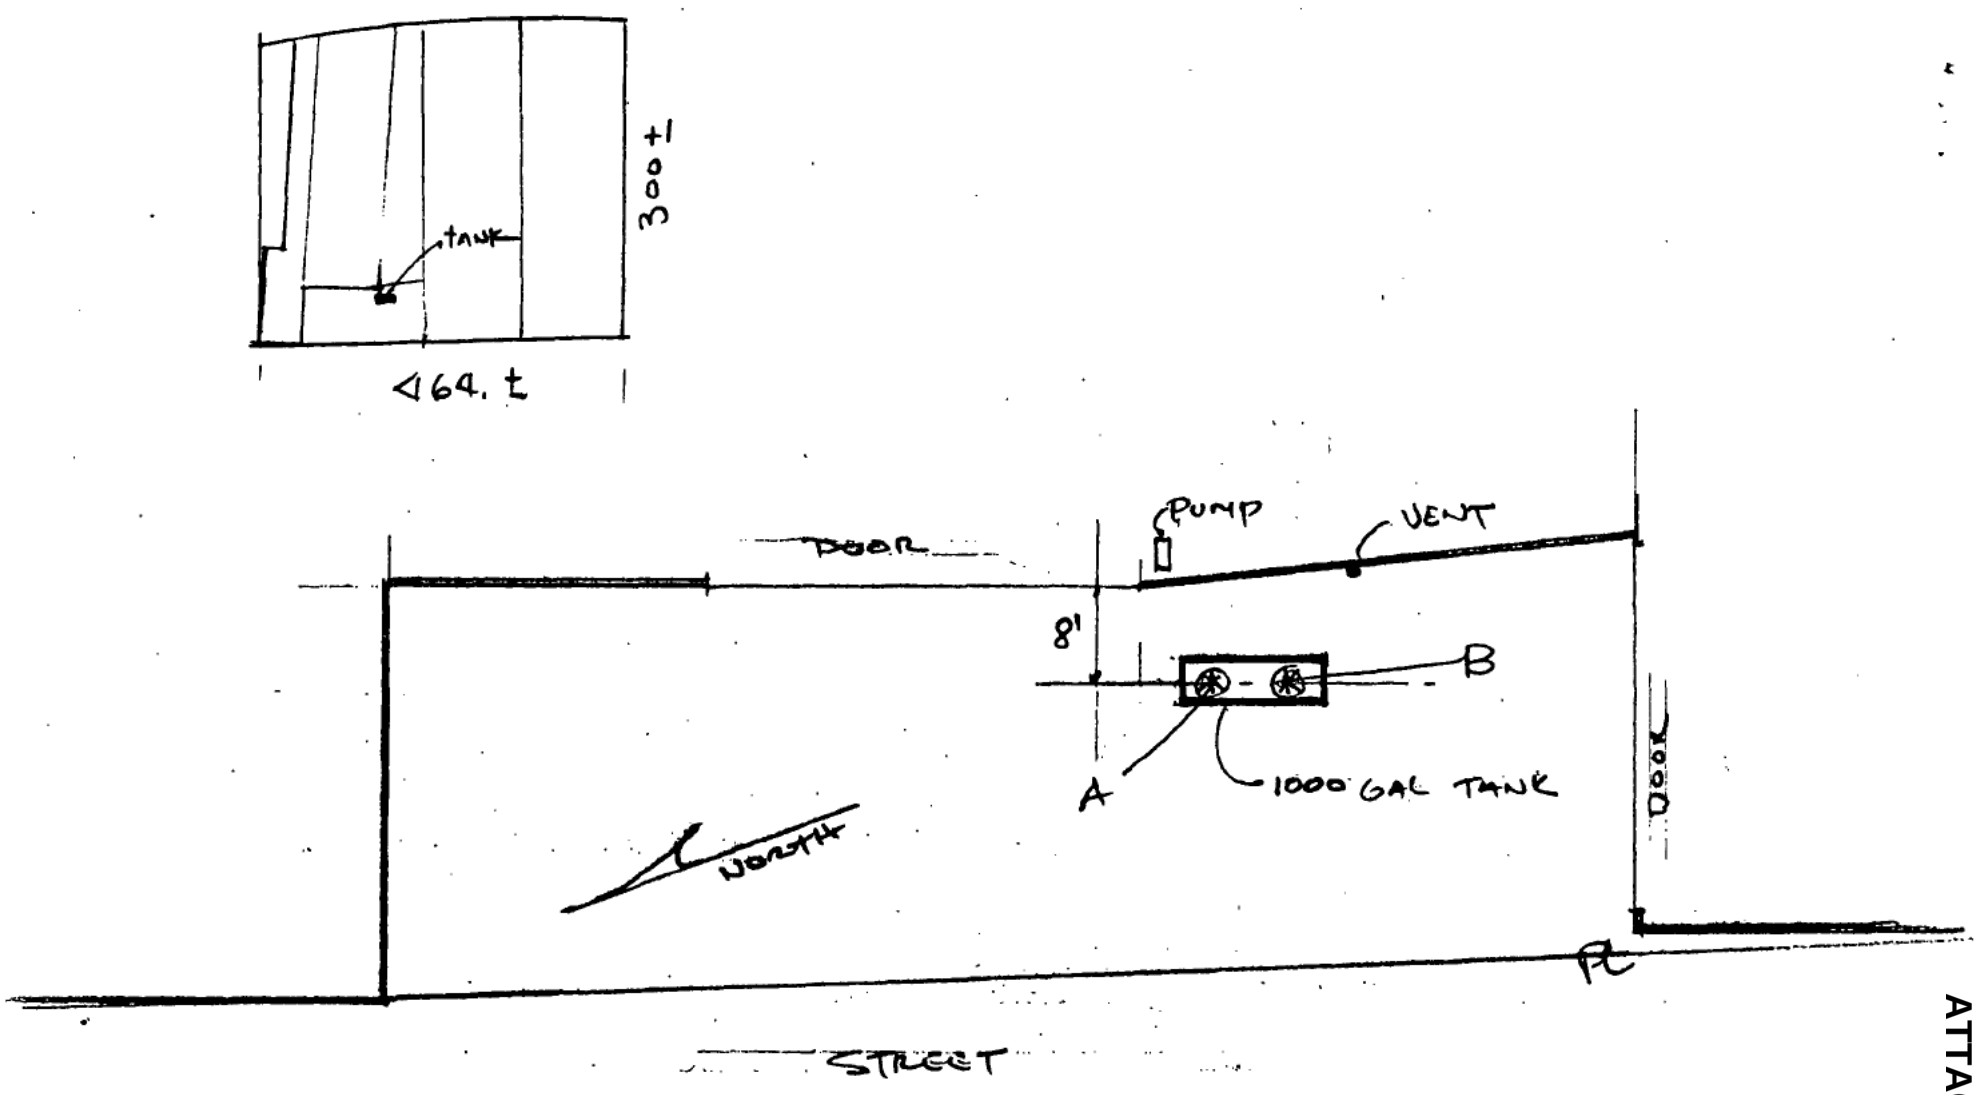
1. Samples shall be obtained at the sampling points (SP) indicated on the attached plot plan.

2. For each SP, samples shall be obtained at the following depths:

| SP | Depth(s) | Compounds | Analysis Method |
|---|---|---|---|
| A | 12 feet | Total Hydrocarbons, organic lead | EPA 8015 |
| B | 12 feet | " | " |
| | | | |
| | | | |
| | | | |

3. All soil samples obtained shall be undisturbed and unexposed prior to analysis. The method used to obtain the samples and the date of sampling shall be included in the final report.

4. If groundwater is encountered during sampling, a groundwater monitoring well shall be established at the most downgradient sampling point. The well shall be developed by removing a minimum of four well volumes and a groundwater sample shall be obtained and analyzed.



5. The analysis results for all soil samples shall be expressed in milligrams per kilogram (mg/kg). Analysis results for groundwater samples shall be expressed in parts per billion (ppb).

6. Analysis results shall be reported on laboratory letterhead and shall include the following information: a) The date the analysis was conducted; b) The method of extraction (if applicable); c) The method of analysis.

7. All soil/groundwater samples obtained shall be handled and transported to a laboratory in strict accordance with applicable EPA regulations utilizing chain-of-custody procedures. Chain-of-custody documentation shall be included in the final report.

8. If the soil/groundwater analysis indicates undefined contamination at the facility, additional sampling shall be required to define the vertical and lateral extent present.

9. A final report that contains all of the above required information shall be submitted to the office above within one (1) month from the sampling date or 180 days from the date of this permit, whichever earlier.

---

In accordance with the Uniform Fire Code of the City of Burbank, a fire safety inspection was made of your facility on this date. Areas not in compliance have been checked with a number. These numbers indicate:

1. Correction was made at time of inspection.
2. A violation that has been called to your attention and you have agreed to correct it without further action from us.
3. A violation that requires further action. You will receive a letter from this Department indicating the variance and advising you of the corrections that must be made.

If none of the above boxes is marked, your premises were found to be fire safe at this time.

Thank you for your cooperation.
