**COUNTY COMMISSIONERS OF CHARLES COUNTY, MARYLAND
RESOLUTION NO. 2022-19**

A RESOLUTION providing for the approval of the Watershed Protection and Restoration Program Financial Assurance Plan, a copy of which is attached hereto.

WHEREAS, Charles County has been issued a national pollutant discharge elimination system Phase I Municipal Separate Storm Sewer System Permit ("Permit") for discharges from its storm drain outfalls; and

WHEREAS, the Fiscal Year 2023 Charles County Budget was adopted on May 17, 2022, by the County Commissioners of Charles County, Maryland; and

WHEREAS, § 4-202.1(j)(1) of the Environment Article of the Annotated Code of Maryland requires that on or before July 1, 2016, and every 2 years thereafter on the anniversary date of the issuance of its Permit, a county must file a Financial Assurance Plan describing projected actions, and sources of revenue to meet permit requirements; and

WHEREAS, § 4-202.1(j)(3) of the Environment Article of the Annotated Code of Maryland provides that the Financial Assurance Plan may not be filed until the local governing body of the county has held a public hearing and approved the Financial Assurance Plan; and

WHEREAS, the County Commissioners held a public hearing on October 26, 2022 to consider comments on the Financial Assurance Plan.

NOW, THEREFORE, upon motion made, duly seconded, and carried, it is this ____ day of October 2022, RESOLVED, that the Financial Assurance Plan is hereby approved and shall be submitted to the Maryland Department of the Environment for its review.

COUNTY COMMISSIONERS OF
CHARLES COUNTY, MARYLAND

Reuben B. Collins, II, Esq., President

Bobby Rucci, Vice President

Gilbert O. Bowling, III

ATTEST:

DRAFT

Watershed Protection and Restoration Program
Financial Assurance Plan
Charles County, Maryland
Fiscal Year 2023

Executive Summary

Background

This Financial Assurance Plan (FAP) is prepared to fulfill requirements specified in the Annotated Code of Maryland (COMAR), Environment Article, § 4-202.1.

The purpose is to describe actions and revenue necessary to implement impervious surface restoration requirements of Charles County's National Pollutant Discharge Elimination System Municipal Separate Storm Sewer System (MS4) Permit Number MD0068365 and demonstrate sufficient funding for the 2-year period immediately following the filing date of the FAP. Although the County's new MS4 permit has not been issued, the public comment period has closed, and final determination is expected in 2022. The data in the FAP correlates to the new permit.

State law requires that the County hold a public hearing and approve the FAP prior to filing with Maryland Department of Environment.

Summary of Charles County FAP

Five elements are specified in COMAR as necessary to demonstrate financial assurance and are each represented by a corresponding table attached hereto. Information included on the FAP tables is prior actual costs and projections. The FAP is an evaluation tool, and not used for adopting new budgets or authorizing new projects. A summary of each table follows.

Table 1: All actions necessary to meet the Impervious Surface Restoration Plan (ISRP).

Current and future actions to achieve the ISRP are itemized into two parts: (1) obligations from the previous permit that must be continued totaling 138 acres, and (2) restoration required for the new permit totaling 1,083 acres. (Completed actions are on Table 5.)

Under the first part: 'Operational Programs' include storm drain vacuuming and septic pump-out programs, which will be maintained at prior levels. A 'Capital Project' is also included to replace street sweeping that was previously credited. The acres of restoration generated by operational programs are averaged over the permit term and the annual average is credited.

Under the second part: 'Capital Projects' to be implemented by the County are listed with status, and 'Other' projects to be implemented by private parties, non-profits, other agencies, and the County are listed. These include connection of septic systems to public sanitary

sewer systems, installation of septic system denitrification units, and nutrient trading from oyster restoration.

Table 2: Projected annual and 5-year costs to meet the ISRP.

This table includes Operational and Capital expenditures from the second half of FY 2020 through FY 2027. The total ISRP costs except debt service through FY 2027 are projected to be \$38.2 million.

Table 3: Projected annual and 5-year revenues and other funds that will be used to meet the costs of the ISRP.

By FY 2025, total revenue appropriated for the ISRP is projected to be \$59.2 million.

Table 4: Sources of funds that will be utilized by the County to meet the entire MS4 permit

Table 4 shows the funding to implement all requirements of the MS4 permit, which includes: permit administration, legal authority, permit geodatabase, stormwater management program, sediment and erosion control program, illicit discharge program, litter management, good housekeeping on County properties, public education and outreach, impervious surface restoration, watershed management and restoration plans, water quality monitoring, and program funding.

Funding to implement these programs is from the following: Watershed Protection and Restoration Fund, General Fund, Inspection and Review Fund, and General Obligation Bonds. The total projected through FY 2027 is \$98 million.

Table 5: Specific actions and expenditures that the county implemented in previous fiscal years to meet the ISRP.

Completed actions to achieve the ISRP are itemized into two parts: (1) obligations from the previous permit that must be continued totaling 138 acres, and (2) restoration required for the new permit totaling 1,083 acres.

Under the first part: ‘Operational Programs’ include storm drain vacuuming and septic pump-out programs, which will be maintained at prior levels. A ‘Capital Project’ is also included to replace street sweeping that was previously credited. To date the acres of restoration generated by operational programs, averaged over the permit term is 170 acres.

Under the second part: ‘Capital Projects’ completed by the County are listed, and ‘Other’ projects completed by private parties, non-profits, other agencies, and the County are listed. These include connection of septic systems to public sanitary sewer systems and installation of septic system denitrification units.

To date, the County has completed 502 acres of impervious surface restoration towards the new permit. This is 46% of the total goal.

Watershed Protection and Restoration Program

Financial Assurance Plan (FAP)

Filing Date: December 26, 2022

The purpose is to describe actions and revenue necessary to implement impervious surface restoration (ISR) requirements of Charles County's National Pollutant Discharge Elimination System Municipal Separate Storm Sewer System (MS4) Permit Number MD0068365 and demonstrate sufficient funding for the 2-year period immediately following the filing date of the FAP.

PUBLIC NOTICE

Municipal Stormwater Permit Financial Assurance Plan

The Charles County Commissioners will conduct a Public Hearing on Wednesday, October 26, 2022, at 6:00 p.m., in a hybrid format, both virtually and in-person, at the Charles County Government Building, 200 Baltimore Street, La Plata, Maryland to consider approval of the Charles County FY 2023 Financial Assurance Plan. This Plan is prepared to fulfill requirements specified in the Annotated Code of Maryland (COMAR), Environment Article, § 4-202.1. The Plan uses prior adopted budgets and projections to demonstrate sufficient funding for the County's municipal stormwater permit over the next two years.

The FY 2023 Financial Assurance Plan document and briefing slides are available online at www.CharlesCountyMD.gov/Watershed. For further information, contact Karen Wiggen, Department of Planning and Growth Management, at 301-645-0683. Individuals or representatives of groups wishing to make oral or written comments are encouraged to attend the hearing.

In-person: Speaker sign-up will begin 30 minutes (1/2 hour) prior to the hearing at the Charles County Government Building (200 Baltimore Street, La Plata) and will end at the commencement of the hearing.

Virtually: Call 301-638-0801 between 8 a.m. to 4 p.m. on October 26 to register to speak. Once registered, citizens will receive a virtual link to testify between 6 p.m. and 9 p.m. after in-person speakers testify. If you are not available to speak when you are called, we have the right to move on to the next caller. In-person and virtual speakers will be allotted three (3) minutes.

Written comments may be submitted in lieu of oral testimony, or to expand upon oral testimony, and will be accepted October 7, 2022, starting at 8 a.m. through October 26, 2022, 5 p.m. for:

E-Comment: Visit <https://www.CharlesCountyMD.gov/Government/Public-Comments/FY23-MS4-FAP>

Phone Message: call 301-645-0652

Mail: Commissioners of Charles County, 200 Baltimore Street, La Plata, Maryland 20646.
Comments sent by mail must be received no later than October 26, 2022.

Those citizens with special needs may contact Maryland Relay Service TDD 1-800-735-2258.

An electronic copy of the documents may be requested by contacting Karen Wiggen, Department of Planning and Growth Management, at (301) 645-0683 or WiggenK@CharlesCountyMD.gov.

BY ORDER OF THE CHARLES COUNTY COMMISSIONERS

Reuben B. Collins, II., Esq., President

In the event the notified meeting is canceled due to inclement weather or acts of nature beyond the control of the County, all items scheduled to be discussed or heard at the meeting will be rescheduled to a later date at 6:00 p.m. in the County Commissioners Meeting Room.

Charles County Government is an Equal Opportunity Employer
