A customer will receive a standard 12/18 warranty on new equipment (basically a parts only warranty). Government entities can buy two different types of warranties thru Trane after the equipment has been shipped:

Option 1: Extended Service Warranty

- Warranty: All parts and labor warranty from Trane factory.
- Requirements: Trane Affiliated Service Company must do a minimum of four inspections.
- Eligible equipment: Trane equ*ipment that is still at least 2 months within standard 12/18 warranty with no major failures. Warranty must be purchased within 6 months of startup but not later than 16 months from shipment*
- Labor (and refrigerant) warranties must be purchased prior to i*nitial unit startup*

Option 2: Extended Service Warranty- Expanded

- Warranty: Parts warranty from Trane factory and Labor warranty from Trane Affiliated
- Service Company (good for the 2nd-5th year or 6th-10th year extended warranties).
- Requirements: Trane Affiliated Service Company must do a minimum of six inspections.
- Eligible equipment: Trane equipment that is either just out of the standard 12/18-month warranty OR will soon be out of an extended warranty (for example 2nd-5th year extended parts warranty). Warranty must be purchased within 6 months of startup but not later than 16 months from shipment
- Labor (and refrigerant) warranties must be purchased prior to initial unit startup
- After we complete the upgrades and construction for a Turnkey Contracting Services project, Trane will deliver the documentation needed to keep the investment working properly. We will provide one preliminary copy of as-built drawings—floor plans showing the actual building layouts—and an advance copy of the Operations & Maintenance (O&M) manual. Once these deliverables are reviewed and approved, Trane will submit two copies of final O&M documents, including:
  - As-built system or installation drawings (or both)
  - Equipment submittals
  - Service and maintenance procedure *manuals*
  - User and technical manu*als*

O&M Summary

Trane eliminates confusion and complexity about who is responsible for maintenance, repair which rest with the customer. As a large global company, we have the leverage to keep costs down for replacement parts—our own and those of other manufacturers. Our integrated approach means that

© 2022 Trane. All rights reserved.

Trane engineers and technicians are trained to work with many brands of equipment, and our extensive network ensures that we have resources close to your building.

At the same time, we have local expertise throughout the country – people who understand the climate, economy, utilities and issues your organization faces. They are your most valuable advisors.

Long-Term Operations and Maintenance Support

Upgraded building systems are meant to save money on energy and cost less to maintain for many, many years. Trane stands by customers to help keep systems working at top efficiency, reduce the chances of equipment failure, and give facilities management the expertise to reach new levels of efficiency. Trane offers a variety of ongoing support opportunities, including training in the optimal operation of HVAC systems. Trane can also provide remote systems monitoring and performance reporting.

DEFECTIVE PRODCTS

- Describe the process for replacement or repair of defective products and warranty related issues.

Process Steps For Replacement / Repair Of Defective Products & Warranty Related Issues

1. Determine if the problem is a unit or system problem.
2. If a unit problem, determine level of urgency—nonfunctioning, intermittent, etc.,
3. Parts or parts with labor?
4. Work with local office to schedule repair. We will ship all U.S. Communities projects with 1st year parts and labor warranties.

Parts and Labor Warranty. Parts Warranty – 12/18

- Trane new equipment warranty terms call for the replacement of defective parts discovered within 12 months of initial start-up or 18 months from date of shipment (12/18 terms), whichever is less.
- Extended parts warranties are also available

Trane Standard Warranty – 12/18

- Standard warranty states that our products will be free from defects in material and workmanship and have the capacities and ratings set forth in the submitted literature, provided that no warranty is made against corrosion, erosion, or deterioration.
- Same 12/18 terms as above

Quick Ship Option

Trane Quick Ship option provides shorter delivery leads for time critical jobs such as replacement or "fast-track" jobs with tight construction cycles.

UNIT REPAIR VS. UNIT REPLACEMENT

- Describe how Bidder evaluates and determines unit repair versus unit replacement.

Unit repair versus unit replacement is primarily based in pre-established warranties mutually agreed upon within the contract. One year from date of purchase is standard, additional extended warranties are available for purchase.

The following HVAC extended warranties are available for purchase before the ship date of the applicable equipment to give you added peace of mind:

Types of Extended Warranties

An extended Trane warranty is available for purchase before the ship date of the equipment.

- **Delayed Start-Up**: When start-up of new equipment will be delayed beyond six months after shipment, the delayed start-up warranty will postpone the commencement date of the first-year part warranty.
- **Whole Unit Parts Warranty**: The extended whole unit parts warranty begins at the expiration of the standard warranty. And like the standard warranty, the whole unit parts warranty will replace any covered part that is found to be defective in material or manufacture.
- **Compressor Warranty**: In the event a part in the compressor assembly of a Trane unit or a part in the motor/compressor assembly of a Trane centrifugal chiller covered by this warranty is found to be defective, this warranty will provide for a replacement compressor or part (at the discretion of Trane).
- **Labor Warranty**: When a part covered under warranty is found to be defective, the labor warranty will provide for labor to install the replacement part. Note that 'compressor only' labor warranty covers labor to replace applicable parts on that assembly only. Only a Trane commercial warranty agent may perform warranted repairs under the labor warranty.
- **Refrigerant Warranty**: The refrigerant warranty will provide for replacement refrigerant to restore a unit to the proper refrigerant charge if a warranted part on the Trane unit is found to be defective.
- **Low Voltage Controls Parts Warranty**: The low voltage controls parts warranty is offered on CSAA air handlers ordered with a Pre-Packaged Solution (PPS). The parts warranty begins at the expiration of the standard warranty and covers the low voltage controls components included in the PPS which are found to be defective in material or manufacture.
- **Low Voltage Controls Labor Warranty**: The low voltage controls labor warranty is offered on CSAA air handlers ordered with a Pre-Packaged Solution (PPS). This warranty covers labor to repair/replace low voltage controls components included in the PPS option only. When a part covered under warranty fails, this warranty will provide labor to repair/replace the covered component. Only a Trane commercial warranty agent may perform warranted repairs under the labor warranty.

INVOLVEMENT OF OTHER COMPANIES

- Identify all other companies that may be involved in processing, handling, shipping, products and/or services.

Trane utilizes multiple carriers/modes across North America (and beyond) in the process of moving product from our plants and warehouses/distribution centers to our customers. We partner with carriers who meet our requirements and/or industry standards for quality and service performance. Carrier specifics vary by mode, origin/destination points and customer requirements.

DISTRIBUTION FACILITIES

- Provide the number, size and location of Bidder's distribution facilities, warehouses, and retail network as applicable.

Trane has 6 express warehouses, 2 Global parts warehouses, 11 plant sites, 25 retail parts centers, and 205 parts/supply facilities.

ORDER INFORMATION

- Provide order information to include available ordering methods and available payment terms.

Trane offices utilize a myriad of systems with which to conduct and manage the businesses. For commercial equipment, services, installations, energy services, etc., the offices utilize Sales Force for initial data entry and tracking. The information is then transferred into other online systems, depending on the project type.

Equipment projects begin with online selection tools that define unit capacity based on jobsite conditions. These tools also define the electrical requirements, weights, unit sizes and such. Once each unit is selected, the system then transfers these selections to online pricing tools and ultimately, to the manufacturing plants themselves for fabrication. Trane has many manufacturing plants located throughout North America. The type of equipment determines which plant will be used for fabrication as well as the necessary materials required, manufacturing timelines, labor resources, etc. Once the fabrication is complete, all items for a particular project are consolidated for shipment and ultimate delivery to the jobsite.

Service projects begin with an online estimating tool that helps define the necessary labor resources required to fulfil a specific task. Each task is the compiled into a complete job portfolio which then defines the ultimate size and scope of the service project. Service projects can vary in both size and complexity, involving a single or multiple technical resources as well as outside expertise.

Installation projects begin with an online estimating tool that will help define the overall project scope, necessary jobsite resources, materials necessary to fulfill a given scope of work, identified project risks, non-company labor trades required, etc. This tool will also help develop the overall project timeline, Gantt charting, material ordering points, etc.

Service repair parts are managed through an online system that determines product availability, stocking locations, unit pricing, stock replenishment points, etc. Service parts are available from local Trane commercial sales offices as well as several national parts stocking points. These retail outlets work with both the internal and external customers, such as agencies working through a Racine cooperative contract.

Most projects are extended net-30-day status for credit terms. Open terms are established based on the agency's credit worthiness and payment history. Agencies are encouraged to work with their assigned

© 2022 Trane. All rights reserved.

Trane account manager if other needs are required. Trane also offers pre-payment discount options should agencies wish to explore those project investment opportunities.

SUPPORT CENTERS

- Provide the number and location of support centers (if applicable).

Trane has 124 Project/Sales offices and 205 parts/supply facilities. Please note: some parts/supply facilities are located at the same address as project sales offices.

CUSTOMER SERVICE

- Describe Bidder's customer service department staffing levels, hours of operation and other relevant details.

Each office has its own 24/7/365 Emergency call number. Our goal is to answer each call within 30 seconds of receipt, 90% of the time. Our goal is to respond to all emergency calls within 4 hours or less.

ORDERING PROCESS

- Describe the process for ordering when supply of a unit and installation is involved, specifically addressing whether one purchase order is required for the entire project, or if separate purchase orders are required for ordering the product and securing installation services.

We prefer a single purchase order but will accept multiple purchase orders.

The process for receiving a PO is based upon a request (equipment, contracting, service) by a customer, an account manager will research the desired outcome from a systems perspective, suggest a solution and possible alternatives, and include a pricing scenario within a Trane proposal. Should the customer accept and sign the proposal, the order is entered and submitted to Financial Services for credit approval.

Alternatively, if the customer submits its contract/PO, utilizing pricing information provided by an account manager, an order is entered, any attached terms and conditions are reviewed by the Contract Management Department, and submitted to Financial Services for credit approval.

ORDER MANAGEMENT

- Describe Bidder's internal management system for processing orders from point of customer contact through delivery and billing. Please state if Bidder uses single system or platform for all phases of ordering, processing, delivery, and billing.

Trane uses an Oracle-based platform for all phases of ordering, processing, delivery, and billing.

REPORTING

- Describe the capacity of Bidder to provide management reports, i.e., commodity histories, procurement card histories, green spend, etc. for each Participating Public Agency.

Trane can provide account procurement history including project type, dollars spent, purchase frequency and payment type. Trane does not have the ability of providing a "green spend" report format unless the project is identified as LEED during the purchase or construction phase.

© 2022 Trane. All rights reserved.

E. Bid Form Criteria

All pricing submitted using the Bid Form (Attachment C) or a document using the same requested information in the same format.

Trane response includes a product list price discount schedule identified by unit product code. Each product either manufactured or represented by Trane is identified by a unique product code and associated list price discount. Trane does not publish a "list price book" for Commercial HVAC products since product list price is project specific and is determined by unit type, size, electrical requirements, options, and warranty options. Trane's response also includes hourly labor rates, by trade type and geographic location. In addition:

- Trane will be responsible for compliance with any federal, state, or local prevailing wage laws.
- Trane's discount schedule will remain fixed for the duration of the contract, except for product obsoletion or new product introduction. Trane will request the addition of new products and services to the lead agency through a formal request, as opportunities present themselves.

ADDENDUM 1
INVITATION FOR BID
IFB #RC2022-1001
HVAC PRODUCTS, INSTALLATION, LABOR BASED SOLUTIONS, AND RELATED PRODUCTS AND SERVICES

This Addendum has been prepared by:
Racine County
Duane McKinney
Date: Wednesday July 6, 2022

To the Bidder of Record:

This Addendum is issued as stated in the original Invitation for Bid on page 2 in section B. to address questions received from Bidders in writing requesting clarification from Racine County on the specifications provided for the above subject bid and to correct an item in the solicitation. Acknowledge receipt of this addendum by entering the Addendum number and issue date on the space provided below.

Clarification

1. There is a modification included in this Addendum to correct a sentence located under Section B. Term. See below for details.

Questions and Answers

1. Question:
   Attachment D – National Cooperative Contract states "The following documents are used in reviewing and administering national cooperative contracts and are included for Supplier's review and bid." Page 12 states: "The Successful Bidder(s) will be required to sign Attachment D – National Cooperative Contract to be Administered by OMNIA Partners, Exhibit B – Administration Agreement. Contractors should have any reviews required to sign the document prior to submitting a response." Please confirm that the following documents are for Successful Bidder(s) and do not need be executed/signed and included with this proposal response:
   - Exhibit B – Administration Agreement, Example
   - Exhibit C – Master Intergovernmental Cooperative Purchasing Agreement, Example
   - Exhibit D – Principal Procurement Agency Certificate, Example
   - Exhibit E – Contract Sales Reporting Template
   - Exhibit F – Federal Funds Certifications

- Exhibit G – New Jersey Business Compliance

Exhibit H – Advertising Compliance Requirement

Answer: The following documents are informational only:

- *Exhibit C – Master Intergovernmental Cooperative Purchasing Agreement, Example*
- *Exhibit D – Principal Procurement Agency Certificate, Example*
- *Exhibit E – Contract Sales Reporting Template*
- *Exhibit H – Advertising Compliance Requirement*

The documents below are to be completed by the Successful Bidder(s). While the documents below do not need to be submitted as part of the Bidder's initial response, it may quicken the award process if they are included:

- *Exhibit B – Administration Agreement, Example*
- *Exhibit F – Federal Funds Certifications*
- *Exhibit G – New Jersey Business Compliance*

2. Question:
Please confirm that there is no specific Value Add requirement and no scoring associated with Value Add.

Answer: There is no specific Value Add requirement and no scoring associated with Value Add products and/or services.

3. Question:
Please confirm if "G.ADDITIONAL DATA WITH BID, Bidders may include any additional information deemed advantageous to Racine County" should be submitted within the main body of the Complete Bid Package or if this information needs to be submitted under separate cover in the Value Add area on Demand Star

Answer: Yes, Bidders may include any additional information deemed advantageous to Racine County with their bid. This can be submitted either within the main body of the Complete Bid Package or as a separate cover/area in Demand Star.

4. Question:
Please provide clarification on the Supplemental Documents/Added Value upload area and if there is any scoring associated with a separate Added Value.

Answer: See Answers to Questions 2 and 3 above. There is no separate scoring associated with Added Value products and/or services.

<u>Modification</u>

1. Page 13 - Remove the first sentence of Section B. Term and replace with the following:

The term of the Master Agreement will be for five (5) years following the contract award date with the option to renew for one (1) additional five (5) year period.

The rest of this section shall remain.

This Addendum is three (3) pages in its entirety with no additional attachments.

Please sign, date and attach a copy of this Addendum to your bid.

Firm: **Trane U.S. Inc.**

Signature: _____

Date: **July 8, 2022**

Appendix 2

Exhibit A, Response for National Cooperative Contract

Exhibit A
Response for National Cooperative Contract

1.0 Scope of National Cooperative Contract

Capitalized terms not otherwise defined herein shall have the meanings given to them in the Master Agreement or in the Administration Agreement between Vendor (sometimes referred to as 'Supplier') and OMNIA Partners.

1.1 Requirement

Racine County, Wisconsin (hereinafter defined and referred to as "Principal Procurement Agency"), on behalf of itself and the National Intergovernmental Purchasing Alliance Company, a Delaware corporation d/b/a OMNIA Partners, Public Sector ("OMNIA Partners"), is requesting bids for HVAC Products, Installation, Labor Based Solutions, and Related Products and Services. The intent of this Invitation for Bid is any contract between Principal Procurement Agency and Vendor resulting from this Invitation for Bid ("Master Agreement") be made available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies"), through OMNIA Partners' cooperative purchasing program. The Principal Procurement Agency has executed a Principal Procurement Agency Certificate with OMNIA Partners, an example of which is included as Exhibit D, and has agreed to pursue the Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners as a Participating Public Agency in OMNIA Partners' cooperative purchasing program. Registration with OMNIA Partners as a Participating Public Agency is accomplished by Public Agencies entering into a Master Intergovernmental Cooperative Purchasing Agreement, an example of which is attached as Exhibit C, and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, whether pursuant to the terms of the Master Intergovernmental Purchasing Cooperative Agreement or as otherwise agreed to. The terms and pricing established in the resulting Master Agreement between the Vendor and the Principal Procurement Agency will be the same as that available to Participating Public Agencies through OMNIA Partners.

All transactions, purchase orders, invoices, payments etc., will occur directly between the Vendor and each Participating Public Agency individually, and neither OMNIA Partners, any Principal Procurement Agency nor any Participating Public Agency, including their respective agents, directors, employees or representatives, shall be liable to Vendor for any acts, liabilities, damages, etc., incurred by any other Participating Public Agency. Vendor is responsible for knowing the tax laws in each

state.

This Exhibit A defines the expectations for qualifying Vendors based on OMNIA Partners' requirements to market the resulting Master Agreement nationally to Public Agencies. Each section in this Exhibit A refers to the capabilities, requirements, obligations, and prohibitions of competing Vendors on a national level in order to serve Participating Public Agencies through OMNIA Partners.

These requirements are incorporated into and are considered an integral part of this IFB. OMNIA Partners reserves the right to determine whether to make the Master Agreement awarded by the Principal Procurement Agency available to Participating Public Agencies, in its sole and absolute discretion, and any party submitting a response to this IFB acknowledges that any award by the Principal Procurement Agency does not obligate OMNIA Partners to make the Master Agreement available to Participating Procurement Agencies.

1.2 Marketing, Sales and Administrative Support

During the term of the Master Agreement OMNIA Partners intends to provide marketing, sales, partnership development and administrative support for Vendor pursuant to this section that directly promotes the Vendor's products and services to Participating Public Agencies through multiple channels, each designed to promote specific products and services to Public Agencies on a national basis.

OMNIA Partners will assign the Vendor a Director of Partner Development who will serve as the main point of contact for the Vendor and will be responsible for managing the overall relationship between the Vendor and OMNIA Partners. The Director of Partner Development will work with the Vendor to develop a comprehensive strategy to promote the Master Agreement and will connect the Vendor with appropriate stakeholders within OMNIA Partners including, Sales, Marketing, Contracting, Training, and Operations & Support.

The OMNIA Partners marketing team will work in conjunction with Vendor to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through channels that may include:

A. Marketing collateral (print, electronic, email, presentations)

B. Website

C. Trade shows/conferences/meetings

D. Advertising

E. Social Media

The OMNIA Partners sales teams will work in conjunction with Vendor to promote the Master Agreement to both existing Participating Public Agencies and

prospective Public Agencies through initiatives that may include:

A. Individual sales calls
B. Joint sales calls
C. Communications/customer service
D. Training sessions for Public Agency teams
E. Training sessions for Vendor teams

The OMNIA Partners contracting teams will work in conjunction with Vendor to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through:

A. Serving as the subject matter expert for questions regarding joint powers authority and state statutes and regulations for cooperative purchasing
B. Training sessions for Public Agency teams
C. Training sessions for Vendor teams
D. Regular business reviews to monitor program success
E. General contract administration

~~Vendors are required to pay an Administrative Fee of 3% of the greater of the Contract Sales under the Master Agreement and Guaranteed Contract Sales under this Invitation for Bid. Vendor will be required to execute the OMNIA Partners Administration Agreement (Exhibit B).~~

Trane has demonstrated its ability to deliver significant growth with a 2% administration fee and feels an increase will result in loss of business to other, lowered fee cooperative contracts.

1.3 Estimated Volume

The dollar volume purchased under the Master Agreement is estimated to be approximately $500M annually. While no minimum volume is guaranteed to Vendor, the estimated annual volume is projected based on the current annual volumes among the Principal Procurement Agency, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made available to them through OMNIA Partners, and volume growth into other Public Agencies through a coordinated marketing approach between Vendor and OMNIA Partners.

1.4 Award Basis

The basis of any contract award resulting from this IFB made by Principal Procurement Agency will, at OMNIA Partners' option, be the basis of award on a

national level through OMNIA Partners. If multiple Vendors are awarded by Principal Procurement Agency under the Master Agreement, those same Vendors will be required to extend the Master Agreement to Participating Public Agencies through OMNIA Partners. Utilization of the Master Agreement by Participating Public Agencies will be at the discretion of the individual Participating Public Agency. Certain terms of the Master Agreement specifically applicable to the Principal Procurement Agency (e.g., governing law) are subject to modification for each Participating Public Agency as Vendor and such Participating Public Agency may agree without being in conflict with the Master Agreement as a condition of the Participating Agency's purchase and not a modification of the Master Agreement applicable to all Participating Agencies. Participating Agencies may request to enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in the Master Agreement (e.g., governing law, invoice requirements, order requirements, specialized delivery, diversity requirements such as minority and woman owned businesses, historically underutilized business, etc.) ("Supplemental Agreement"). It shall be the responsibility of the Vendor to comply, when applicable, with the prevailing wage legislation in effect in the jurisdiction of the Participating Agency. It shall further be the responsibility of the Vendor to monitor the prevailing wage rates as established by the appropriate department of labor for any increase in rates during the term of the Master Agreement and adjust wage rates accordingly. In instances where supplemental terms and conditions create additional risk and cost for Vendor, Vendor and Participating Public Agency may negotiate additional pricing above and beyond the stated contract not-to-exceed pricing so long as the added price is commensurate with the additional cost incurred by the Vendor. Any supplemental agreement developed as a result of the Master Agreement is exclusively between the Participating Agency and the Vendor (Contract Sales are reported to OMNIA Partners).

All signed Supplemental Agreements and purchase orders issued and accepted by the Vendor may survive expiration or termination of the Master Agreement. Participating Agencies' purchase orders may exceed the term of the Master Agreement if the purchase order is issued prior to the expiration of the Master Agreement. Vendor is responsible for reporting all sales and paying the applicable Administrative Fee for sales that use the Master Agreement as the basis for the purchase order, even though Master Agreement may have expired.

1.5 Objectives of Cooperative Program

This IFB is intended to achieve the following objectives regarding availability through OMNIA Partners' cooperative program:

A. Provide a comprehensive competitively solicited and awarded national agreement offering the Products covered by this solicitation to Participating

Public Agencies;

B. Establish the Master Agreement as the Vendor's primary go to market strategy to Public Agencies nationwide;

C. Achieve cost savings for Vendor and Public Agencies through a single solicitation process that will reduce the Vendor's need to respond to multiple solicitations and Public Agencies need to conduct their own solicitation process;

D. Combine the aggregate purchasing volumes of Participating Public Agencies to achieve cost effective pricing.

2.0 REPRESENTATIONS AND COVENANTS

As a condition to Vendor entering into the Master Agreement, which would be available to all Public Agencies, Vendor must make certain representations, warranties and covenants to both the Principal Procurement Agency and OMNIA Partners designed to ensure the success of the Master Agreement for all Participating Public Agencies as well as the Vendor.

2.1 Corporate Commitment

Vendor commits that (1) the Master Agreement has received all necessary corporate authorizations and support of the Vendor's executive management, (2) the Master Agreement is Vendor's primary "go to market" strategy for Public Agencies, (3) the Master Agreement will be promoted to all Public Agencies, including any existing customers, and Vendor will transition existing customers, upon their request, to the Master Agreement, and (4) that the Vendor has read and agrees to the terms and conditions of the Administration Agreement with OMNIA Partners and will execute such agreement concurrent with and as a condition of its execution of the Master Agreement with the Principal Procurement Agency. Vendor will identify an executive corporate sponsor and a separate national account manager within the IFB response that will be responsible for the overall management of the Master Agreement.

2.2 Pricing Commitment

Vendor commits the not-to-exceed pricing provided under the Master Agreement pricing is its lowest available (net to buyer) to Public Agencies nationwide and further commits that if a Participating Public Agency is eligible for lower pricing through a national, state, regional or local or cooperative contract, the Vendor will match such lower pricing to that Participating Public Agency under the Master Agreement.

2.3 Sales Commitment

Vendor commits to aggressively market the Master Agreement as its go to market strategy in this defined sector and that its sales force will be trained, engaged and committed to offering the Master Agreement to Public Agencies through OMNIA Partners nationwide. Vendor commits that all Master Agreement sales will be accurately and timely reported to OMNIA Partners in accordance with the OMNIA Partners Administration Agreement. Vendor also commits its sales force will be compensated, including sales incentives, for sales to Public Agencies under the Master Agreement in a consistent or better manner compared to sales to Public Agencies if the Vendor were not awarded the Master Agreement.

3.0 VENDOR BID

Vendor must supply the following information for the Principal Procurement Agency to determine if Vendor is qualified and responsible to extend the resulting Master Agreement to Participating Public Agencies through OMNIA Partners.

3.1 Company

A. Brief history and description of Vendor to include experience providing similar products and services.

Trane U.S. Inc. (Trane), a wholly owned subsidiary of Trane Technologies (NYSE: TT), provides systems and services that enhance and leverage the infrastructure of our clients to provide quality, comfort, strong financial impacts, and sustainable outcomes of buildings around the world. Trane's 100-year history as a trusted provider of superior products and services has resulted in a global network of project offices and service/parts locations.

Trane began in 1885 as a family plumbing business in La Crosse, Wisconsin and became the Trane Company in 1913. Over the next hundred years, Trane established its position as a pioneer in climate control. In 1931, the company patented its first air conditioner. Seven years later, Trane launched Turbovac, a new type of water chiller that fundamentally altered the industry's approach to large-building air conditioning systems. These early innovations paved the way for Trane's industry-leading commercial air conditioner, CenTraVac™—the highest efficiency, lowest emissions, most reliable chiller on the market. Throughout the second half of the Twentieth century, Trane expanded its offerings to customers. With the acquisition of Sentinel Electronics in the late 1970s, and General Electric's Central Air Conditioning Division in 1982, Trane expanded both its residential and energy management offerings and entered the building automation system market. In 1984, American Standard Companies, Inc., acquired the Trane Company, and four years later, launched the American Standard Heating & Air Conditioning Brand. Throughout the 1990s and early 2000s, the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED®) building rating program grew—which

influenced building, system, and product design. In addition, control system integration and capabilities increased due to ASHRAE Standard requirements as well as the desire to reduce system energy use.

Trane became a qualified U.S. Department of Energy ESCO in 1999. Since that time, Trane has managed energy services performance contracting (ESPC) programs for federal government agencies, including the Department of Energy, Department of State, Navy, Army, Air Force, and the General Services Administration. Trane's Federal ESPC portfolio includes $641 million in DOE ESPC projects. In 2004, Trane became a NAESCO Accredited Energy Service Provider. By 2007, annual air conditioning sales and services topped $7.4 billion. Trane, Inc., became a public entity after American Standard Companies divested other portions of its business. In December 2007, it was announced that Trane would merge with Ingersoll Rand. The merger became final in June of 2008. System and product investment and introduction continued during this time as the company again responded to customer and standard requirements, as well as the impact of the sustainability movement. Trane's Renewable and Resilient Energy and Power Systems Team focused on developing Smart Grid, Solar Power, Wind Power, and Generator capabilities. In 2013, Trane launched a series of commercial products that reduce carbon emissions by 99.9%. After completing a successful Reverse Morris Trust Transaction with former parent company Ingersoll Rand in March 2020, Trane Technologies and is now listed on the New York Stock Exchange.

Trane's History with Cooperative Contracting

Trane has been participating in regional and national public sector cooperative purchasing contracts since 1998. Originally managed through the Hunton Trane office, the first contract was awarded from TCPN (Texas Cooperative Purchasing Network) and ESC Region 4 and lasted until 2002. At that time, Trane U.S. was awarded a second contract from TCPN and ESC Region 4. These contracts were awarded based on best value and included all the products and services available from the Company at that time. Beginning in 2005, Trane was awarded our third contract from TCPN (Contract R4668) and was in effect thru 2010. Beginning in 2010, Trane was awarded our fourth contract from TCPN (R5045) which ran a total of 7 years in duration. Finally, in 2015, Trane was given another contract under TCPN (R150502) which lasted until 2019. For over 20 years, Trane was a vendor in good standing with TCPN and provided exceptional value and services to agencies piggybacking onto the contracts.

In 2015, Trane also began a relations with Harford County Public Schools and U.S. Communities with the award of 15-JLP-023. This contract ran in parallel with the TCPN award but was deemed the primary contract for use in North America. This contract was applicable in all 50 states and pertained to both the Company owned and independent commercial franchise offices. This

contract was fully executed thru it's 7-year potential plus an additional 6 months. In this time, Trane has seen exceptional year over year growth, delivering value to agencies utilizing the contract.

Trane was also awarded and Energy Services Contract from the Port of Portland and U.S. Communities. This contract, #1153, was initially awarded in 2017 and will run through 2023. At that time, the Port of Portland has the option to extend this contract for an additional five-years. Under this contract, agencies have the ability to secure Energy Services or Performance Contracting from Trane, improving their facility operational costs and savings.

Trane has demonstrated our ability to perform in the public sector markets using public procurement contracts similar to this RFP. We are anxious to help agencies achieve the same results utilizing the contract under Racine County.

B. Total number and location of salespersons and/or project managers employed by Vendor to help support Participating Public Agencies. See table below.

C. Number and location of support centers (if applicable) and location of corporate office.
Trane's Corporate Office is located at 800-E Beaty Street, Davidson, NC 28036. See table below for support center numbers/locations.

Trane Region/ Franchise	Salespersons	Project Managers	Number of Support Centers	
			Project/Sales Offices	Trane Supply Stores
Florida Region	106	38	8	19
Great Lakes Region	119	43	11	18

Seiberlich Trane Franchise, DE	11	10	3	1

D. Annual sales for the three previous fiscal years.

2019: $4.414B

2020: $4.408B

2021: $4.722B

a. Submit FEIN and Dunn & Bradstreet report.

Trane U.S. Inc. FEIN number is 25-0900465. A Dunn & Bradstreet report is provided as Attachment A.

E. Describe any green or environmental initiatives or policies. Trane's Gigaton challenge, LEED buildings, etc.

The Gigaton Challenge is Trane's commitment to eliminate one billion metric tons of CO2e from our customers' footprint by 2030. We lead by example and are committed to carbon-neutral operations and zero waste to landfills by 2030 and pledging to give back more water than used in water-stressed areas. Trane achieved our first set of science-based targets in 2018—two years early—and set bold new commitments for 2030. Our emissions reduction commitments align with the Paris Climate Accord net-zero targets consistent with limiting global temperature rise to no more than 1.5°C.

Energy Star Certification Trane's team includes a wide range of support services that help our customers project energy savings and sustainability successes. Our customers have access to Trane's internal resources for marketing, website development, living learning labs, energy accreditation programs, and grant or report preparation.

- **Marketing & Promotion of Energy Programs**: Trane has dedicated Public Relations resources to support our customer projects with press releases, media outreach, awards, and speaking engagements.
- **Application for an ENERGY STAR Label & LEED Certification**: Trane is actively involved with the Energy Star initiative and has helped customers achieve Energy Star status for their facilities. Trane also supports LEED initiatives and employs over 1,100 LEED Accredited Professionals companywide.
- **Calculation & Reporting of Emissions Reductions**: TRACE™ ® 700

software provides energy modeling of facilities, including an Environmental Impact Analysis designating CO2, SO2, and NOX impact on the environment. Active monitoring through TIS offerings will allow Trane to identify potential operational adjustments or new energy savings opportunities.

Trane's LEED Certified Facilities

Trane has been involved in hundreds of projects to help clients with LEED certification. Our corporate sustainability commitment has led us to LEED certification standards at several of our sites around the world.

- Trane San Antonio District Office, San Antonio, TX – LEED CI 2.0 (Silver)
- Trane Taicang Facility Building, Taicang, China – LEED NC 2.2 (Certified)
- Trane Taicang Office Building, Taicang, China – LEED NC 2.2 (Gold)
- Tozour Trane, King of Prussia, PA – LEED CI v2009 (Certified)
- Trane Arkansas Sales Suite, Little Rock, AR – LEED CI 2.0 (Certified)
- Trane 45 Earhart Drive, Buffalo, NY – LEED EB O&M (Certified)
- Trane St. Paul, St. Paul, MN – LEED EB O&M (Gold)

F. Describe any diversity programs or partners Vendor does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program. If there are any diversity programs, provide a list of diversity alliances and a copy of their certifications.

Diversity is a business imperative at Trane and ingrained in our core values. Trane's corporate-level Supplier Diversity Program includes qualified diverse-owned businesses includes both large and small minority, woman, veteran, disabled, gay, lesbian, bisexual, and transgender owned businesses. At the local level, Trane has implemented a New England United (NEU) Diversity and Inclusion (D&I) network for Trane employees to participate in and help drive change in and outside of the company. All team members proposed for this project participate in these programs. Trane's M/WBE outreach efforts include:

- Contacting M/WBE small business trade associations/business development organizations and using the Small Business Administration's (SBA) website to identify potential partners
- Attending local, regional, and national small and minority business trade shows, Industry Days, and procurement conferences.
- Requesting sources from the System for Award Management (www.sam.gov) Dynamic Small Business Search.
- Documenting flow-down requirements to all subcontractors for small businesses utilization to maximize participation when practical
- Pledged commitment to inclusive sourcing through WEConnect International

G. Indicate if Vendor holds any of the below certifications in any classified areas and include proof of such certification in the response:

a. Minority Women Business Enterprise

☐ Yes ☒ No

If yes, list certifying agency: _____

b. Small Business Enterprise (SBE) or Disadvantaged Business Enterprise (DBE)

☐ Yes ☒ No

If yes, list certifying agency: _____

c. Historically Underutilized Business (HUB)

☐ Yes ☒ No

If yes, list certifying agency: _____

d. Historically Underutilized Business Zone Enterprise (HUBZone)

☐ Yes ☒ No

If yes, list certifying agency: _____

e. Other recognized diversity certificate holder

☐ Yes ☒ No

If yes, list certifying agency: _____

H. List any relationships with subcontractors or affiliates intended to be used when providing services and identify if subcontractors meet minority-owned standards. If any, list which certifications subcontractors hold and certifying agency.

Trane will work directly with public agencies, as required, to determine the diversity spend required for each purchase. Once established, Trane will partner with agency approved local sub-contractors and ensure diversity requirements are met. Trane will report diversity spend as required. At the project level, Trane does the following to promote Small Business Participation:

- Trane will break out contract work requirements into economically feasible units, as appropriate, to facilitate small business participation.
- Trane will conduct market research to identify subcontractors and suppliers through all reasonable means, such as performing online searches on the certified lists and holding pre-bid conferences.
- Trane will provide interested businesses with adequate and timely information about the plans, specifications, and requirements for performance of the prime contract to assist them in submitting a timely offer for the subcontract.
- Trane will direct businesses that need additional assistance to various state and county programs which assists in obtaining bonding, lines of credit, required insurance, necessary equipment, supplies, materials, or

services.

- Trane will solicit small business concerns as early in the acquisition process as practicable to allow them sufficient time to submit a timely offer for the subcontract.
- Trane will utilize the available services of small business associations; local, state, and federal small business assistance offices, and other organizations to encourage small business entities to certify and register with the state and local governments.
- Trane will participate in the formal mentor-protégé program with one or more small business protégés that results in developmental assistance to the protégé(s).
- Trane will advertise subcontracting opportunities in local newspapers.
- Trane will advertise subcontracting opportunities by sending emails to small business concerns local to that particular jobsite.
- Trane will keep the playing field level, allowing all bidders reasonable time to respond and providing the same information to all prospective subcontractors.

I. Describe how Vendor differentiates itself from its competitors.

Trane's experience with cooperative contracting began in 1998 with the Region 4 ESC (Formerly TCPN) contract. In 2015, we were selected to provide products/services under the Harford County Public Schools and U.S. Communities Contract (15-JLP-023) and have executed work under this contract through the seven-year term plus an additional six months. In 2017, Trane secured the Port of Portland and U.S. Communities Contract. Trane® has been a qualified DOE ESCO since 1999 and has completed complex Energy Savings Performance Contracts (ESPC) for the Federal Government. An ESPC is a proven, cash flow neutral financing mechanism that pays for facility improvements that can be paid back over time based on future utility bill saving. Trane's Core Products – HVAC Equipment and Controls – drive one-third of total ESPC savings. Trane's incident (OSHA) rates are consistently 67-86% below the industry average and our current Experience Modification Rate (EMR) is 0.61. Trane has leveraged this experience to deliver dozens of ESPC projects under the Port of Portland contract.

Trane has the capacity to provide a wide range of services and products to support agencies across the country. Our 100-year history as a trusted provider of superior products and services and has resulted in a robust national infrastructure. Our project offices are staffed with factory-trained service technicians that provide operational oversight, O&M, service-repair, and installation support. Trane stocks service-repair parts (over 20,000 SKUs per location), equipment, and supplies right in our customer's communities. We also have established relationships with local designers, suppliers, and subcontractors–including small/disadvantaged businesses. Trane has booked

$1.4B+under our Harford and Port of Portland OMNIA contracts since 2018 and has delivered services and products in 43 states.

Trane has a global network of offices and service/parts locations to deliver services. This offers the following advantages:

- Robust supply chain to sustain operations and rapidly restore service during emergencies
- 2,750 community-based, factory-trained service technicians provide local operational oversight, O&M, service-repair, and installation support
- Established relationships with local designers, suppliers, and subcontractors–including small/disadvantaged businesses
- Reduced travel and lodging costs to save agencies and taxpayers money

As one of the world's largest manufacturers/integrators of energy efficient HVAC equipment and Building Automation Systems (BAS)/Energy Management Control Systems (EMCS), Trane has the technical expertise to optimize energy efficiency, peak demand, and renewable power generation in public facilities. We build, test, certify, implement, and service best-in-class equipment with optimized full and part-load efficiency.

Trane is also a vendor neutral company, and we manage, install, commission, and service other manufacturer's systems. Trane provides BAS/EMCS system integration through both open (i.e. BACnet, LON, Modbus) and proprietary control protocols. We leverage our controls expertise to connect the resilient systems that modern sites rely on.

Trane® has been a qualified DOE ESCO since 1999 and has completed complex Energy Savings Performance Contracts for the Federal Government. Through these efforts, we have developed repeatable, best practice processes. In addition, Trane's Core Products – HVAC Equipment and Controls – drive one-third of total ESPC savings[1]

J. Describe any present or past litigation, bankruptcy or reorganization involving Vendor.

Trane U.S. Inc. is a multi-billion-dollar company and enters hundreds of transactions on an annual basis and, as such, become involved in claims and disputes that arise in the ordinary course of its businesses. As a large company, claims and suits are numerous as many claimants are hoping to tap the deep pockets of a large company. Many of these are unwarranted claims which often result in dismissal. Company-wide compiled data of this scope is not readily

[1] Data extrapolated from: Slattery, T. (2017). Reported Energy and Cost Savings from the Federal DOE ESPC Program: FY 2015 (ORNL/TM -2017/18).

available, and this information cannot be accurately ascertained without extensive and burdensome research. It is the policy of our company to settle claims and disputes amicably and to the satisfaction of our customers. Due to the large volume and because information related to settlements are confidential, we are unable to disclose detailed information on all litigation and claim matters. However, no such dispute or litigation is likely or expected to adversely affect Trane U.S. Inc.'s ability to perform hereunder. Trane has not been involved in a bankruptcy. Trane U.S. Inc. was recently re-formed due to reorganization under Trane Technologies, a $14B company. Although originally established in 1929, our new date of incorporation is May 1, 2020, in Delaware.

K. Felony Conviction Notice: Indicate if the Vendor

~~a. is a publicly held corporation and this reporting requirement is not applicable;~~

b. is not owned or operated by anyone who has been convicted of a felony; or

~~c. is owned or operated by and individual(s) who has been convicted of a felony and provide the names and convictions.~~

L. Describe any debarment or suspension actions taken against Vendor
Not applicable

3.2 Distribution, Logistics

A. Each offeror awarded under this IFB may offer their complete product and service offering/a balance of line. Describe the full line of products and services offered by Vendor.

See the "Product Information Matrix" for the full line of products and services offered by Trane.

B. Describe how Participating Agencies are ensured they will receive the Master Agreement pricing; include all distribution channels such as direct ordering, retail or in-store locations, through distributors, etc. Describe how Participating Agencies verify and audit pricing to ensure its compliance with the Master Agreement.

Trane's regional sales representatives are located in our 124 Project/Sales offices across the country. Trane has pricing forms that are used for OMNIA projects and support the Master Agreement. We will provide pricing validation forms to verify pricing upon request.

C. Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.

Trane utilizes multiple carriers/modes across North America (and beyond) in the process of moving product from our plants and warehouses/distribution centers to our customers. We partner with carriers who meet our requirements and/or industry standards for quality and service performance.

Carrier specifics vary by mode, origin/destination points, and customer requirements.

D. Provide the number, size and location of Vendor's distribution or other operations facilities, warehouses, and/or retail network as applicable.

Trane services products from our 124 sales/project offices and distributes through our 205 parts/supply locations, 6 express warehouses, and 11 manufacturing plant sites.

3.3 Marketing and Sales

A. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as Vendor's primary go to market strategy for Public Agencies to Vendor's teams nationwide, to include, but not limited to:

i. Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days

ii. Training and education of Vendor's national sales force with participation from the Vendor's executive leadership, along with the OMNIA Partners team within first 90 days

The Trane offices have been associated with a national cooperative since it's inception and are intimately involved with a contract that encompasses HVAC equipment and services. Trane has a Cooperative Contracting Team dedicated to Sales and Marketing. This team drives marketing and sales messaging throughout North America and Canada and educates our sales teams with cooperative purchasing positioning. Our detailed plan for the first 90 days includes:

- Announcement in our quarterly Omnia newsletter, which is distributed to over 750 Trane employees and affiliates.
- Announcement on the Trane Commercial internal portal
- We will add information to the Trane Technologies Omnia Hub page where we place important documentation such as due diligence items, pricing, Power Points, contract award letters, newsletters and any pertinent information relevant to the topic.
- Our Omnia program managers will meet with individual sales offices, helping them to understand cooperative markets, targeted sales strategies and presenting the Trane story to the marketplace.
- Conduct regional workshops designed to promote the cooperative contracts, legal statutes, product and services pricing methodology, marketing tools and other topics designed to promote the contract(s). All training will be recorded and posted on our intranet site. The training will focus on educating our sales force on what types of customers can use the contract, the benefits of the contract to Trane and the customer, pricing,

and will ensure our sales teams are educated on how to drive sales in compliance with OMNIA Partners rules.

- One-on-one office visits

B. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Vendor, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to:

i. Creation and distribution of a co-branded press release to trade publications

ii. Announcement, Master Agreement details and contact information published on the Vendor's website within first 90 days

iii. Design, publication and distribution of co-branded marketing materials within first 90 days

iv. Commitment to attendance and participation with OMNIA Partners at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, Regional Cooperative Summits, etc.) and supplier-specific trade shows, conferences and meetings throughout the term of the Master Agreement

v. Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by OMNIA Partners for partner Vendors. Booth space will be purchased and staffed by Vendor. In addition, Vendor commits to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by OMNIA Partners.

vi. Design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement

vii. Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, promotions, etc.)

viii. Dedicated OMNIA Partners internet web-based homepage on Vendor's website with:

- OMNIA Partners standard logo;
- Copy of original Invitation to Bid;
- Copy of Master Agreement and amendments between Principal Procurement Agency and Vendor;
- Summary of Products and pricing;
- Marketing Materials
- Electronic link to OMNIA Partners' website including the online

registration page;

- A dedicated toll-free number and email address for OMNIA Partners

Trane will partner with OMNIA Partners to ensure Participating Agencies and our customers are aware of the awarded contract through multiple marketing and communication campaigns. Trane's 90 plan to market the Master Agreement to participating public agencies will include:

- An email to over 80,000 direct customer contacts that receive Trane E-mail communications
- A co-branded press release within first 30 days-this would be both internal to Trane and sent to national publications and targeted industry publications
- Announcement of award through all applicable social media sites; these include Trane's Facebook presence, Trane Twitter presence and Trane's LinkedIn presence
- Direct mail campaigns
- Co-branded collateral pieces
- Advertisement of contract in regional or national publications
- Participation in trade shows
- Dedicated Omnia internet web-based homepage with:
    - Omnia Logo
    - Link to Omnia website
    - Summary of contract and services offered
    - Due Diligence Documents including a copy of solicitation, copy of contract and any amendments, marketing materials

Co-developing a case study and pursue article placements with key publications

C. Describe how Vendor will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through OMNIA Partners. Include a list of current cooperative contracts (regional and national) Vendor holds and describe how the Master Agreement will be positioned among the other cooperative agreements.

Trane uses the software application Salesforce to manage sales pursuit. For every customer that is eligible for OMNIA Partners pricing, we will notate the eligibility in Salesforce. Upon renewal of existing services, the account owner is then able to offer OMNIA Partners pricing to the customer, except in cases where the customer decides to put the job up for bid. Trane intends to position OMNIA Partners as a top tier cooperative partner.

D. Acknowledge Vendor agrees to provide its logo(s) to OMNIA Partners and

agrees to provide permission for reproduction of such logo in marketing communications and promotions. Acknowledge that use of OMNIA Partners logo will require permission for reproduction, as well.

Trane will provide its logo to OMNIA Partners and agrees to permit reproduction of the logo in marketing communications and promotions. We understand that use of the OMNIA Partners logo requires permission for reproduction.

E. Confirm Vendor will be proactive in direct sales of Vendor's goods and services to Public Agencies nationwide and the timely follow up to leads established by OMNIA Partners. All sales materials are to use the OMNIA Partners logo. At a minimum, the Vendor's sales initiatives should communicate:

   i. Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency

   ii. Best government pricing

   iii. No cost to participate

   iv. Non-exclusive

   As stated in our marketing plan, Trane can confirm these requirements will be met.

F. Confirm Vendor will train its national sales force on the Master Agreement. At a minimum, sales training should include:

   i. Key features of Master Agreement

   ii. Working knowledge of the solicitation process

   iii. Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners

   iv. Knowledge of benefits of the use of cooperative contracts

   As stated in our marketing plan, Trane can confirm these requirements will be met.

G. Provide the name, title, email and phone number for the person(s), who will be responsible for:

   i. Executive Support:
   Greg Spencer, gsspencer@trane.com, 469-442-6055

   ii. Marketing:
   Greg Spencer, gsspencer@trane.com, 469-442-6055

   iii. Sales:
   Greg Spencer, gsspencer@trane.com, 469-442-6055

iv. Sales Support:
Chris Teller, cteller@trane.com, 917-440-2808
Jeremy Lee, Jeremy.lee@trane.com, 913-599-4664
Tina Bossen, tina.bossen@trane.com, 480-490-4502

v. Financial Reporting:
Amanda Dawson, Amanda.dawson@trane.com, 832-551-7999

vi. Accounts Payable:
Amanda Dawson, Amanda.dawson@trane.com, 832-551-7999

vii. Contracts:
Greg Spencer, gsspencer@trane.com, 469-442-6055

H. Describe in detail how Vendor's national sales force personnel and/or project managers are structured, including contact information for the highest-level executive in charge of the sales and/or project management team. Trane has a dedicated Strategic Programs team that drives the use of cooperatives for sales. Leading the group is Aaron Tanck, Director of Strategic Programs. Aaron oversees Greg Spencer, our Cooperative Program Manager. Aaron reports to Amber Mulligan, Vice President, Strategic Sales, who is the highest-level executive in charge of sales for Cooperative contracts. Amber.Mulligan@tranetechnologies, 910-233 -3594.

I. Explain in detail how the sales or project management teams will work with the OMNIA Partners team to implement, grow and service the national program. Trane's Cooperatives team is dedicated to drives sales through our cooperative agreements. This team anticipates working with OMNIA Partners to promote the contract vehicle and provide efficient public service to our customers across the U.S. While we expect to do the majority of the marketing work through our marketing and sales departments, we hope OMNIA Partners can assist with launching our internal training program and occasionally fielding questions from our field teams as they are trained and mobilized. We also hope OMNIA Partners will be able to support us with new opportunities, such as new member sign-up and answering compliance questions.

I. Explain in detail how Vendor will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.contract administration, etc.

Our OMNIA Partners marketing plan includes a coordinated effort between Trane and OMNIA Partners. We will continue to market the OMNIA Partners program both internally and externally via training, corporate SharePoint site, customer meetings, marketing materials, and tradeshows. All marketing materials will be available in hard copy and electronic format. Our Strategic

Program Leader, Greg Spencer, will continue to oversee the program, driving growth throughout the term of the Master Agreement.

J. State the amount of Vendor's Public Agency sales for the previous fiscal year. Provide a list of Vendor's top 3 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

Trane's Public Agency sales under the OMNIA agreement for 2021 was $368.4M. Our top three Public Agency customers/total bookings for 2021 are as follows:

Customer Name	Total Bookings for 2021	Key Contact
Roanoke City Public Schools	$20,601,056.80	Jeff Shawver – Chief of Physical Plants Phone: 540-853-6306
Berwick Area School District	$20,300,560.00	Brent Crispell – Director of Building and Grounds
Hall County Board of Commissioners	$9,696,634.20	Phone: 570-759-6400
Suffolk Public Schools	$7,052,958.50	Brett Jockell – Superintendent and Director

K. Describe Vendor's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

Trane account managers use Trane Select Assist (previously known as TOPSS) to quote and provide technical information for equipment sales. Additionally, our greater sales organization uses multiple Oracle based internal programs to facilitate contracting, equipment (both OEM Trane and buysell), service, controls, and parts orders. Trane maintains a customer focused approach with Salesforce.

L. Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Vendor ~~will guarantee~~ projects each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

Trane projects, but does not guarantee, OMNIA contract sales during the first three years to be:

$50M in year one (2022)

$200M in year two (2023)
$300M in year three (2024)

To the extent Vendor guarantees minimum Contract Sales, the Administrative Fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

Current supply chain environments will have an impact on these projections in addition to inflationary pressures, funding mechanisms, etc.

M. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.

i. Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners).

ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Vendor may respond with lower pricing through the Master Agreement. If Vendor is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners under the Master Agreement.

iii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners).

iv. If alternative or multiple bid and/or proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional bid/proposal.

Detail Vendor's strategies under these options when responding to a solicitation.

Trane, Inc. U.S. continues to offer competitive pricing to the public sector per the cooperative contract guidelines. Currently, these pertain to the Harford County Public Schools Contract 15-JLP-023 and the Port of Portland contract # 1153. Trane has established a strict process to assure agencies receive the correct pricing for the specific contract. This begins with assigning a specific cooperative quote number that identifies the agency as well as project being addressed. The process then dictates that the pricing follow strict contract guidelines including list price discounts for equipment, set hourly rates by trade for labor solutions and fixed mark-up guidelines for non-Trane materials being furnished to meet the project's scope. A combination of these assure that the agency is being provided the correct price for the specified scope of work.

Risk Assessment

D&B RISK ASSESSMENT

OVERALL BUSINESS RISK

HIGH	MODERATE-HIGH	MODERATE	LOW-MODERATE	LOW

Dun & Bradstreet thinks...

- Overall assessment of this organization over the next 12 months: **SOME-FINANCIAL-STRESS-CONCERNS**
- Based on the predicted risk of business discontinuation: **MODERATELY-HIGHER-THAN-AVERAGE-RISK-OF-FINANCIAL-STRESS**
- Based on the predicted risk of severely delinquent payments: **MODERATE POTENTIAL FOR SEVERELY DELINQUENT PAYMENTS**

MAXIMUM CREDIT RECOMMENDATION

US$ 2,000,000

The recommended limit is based on a moderately high probability of severe delinquency or business failure.

D&B VIABILITY RATING SUMMARY

The D&B Viability Rating uses D&B's proprietary analytics to compare the most predictive business risk indicators and deliver a highly reliable assessment of the probability that a company will go out of business, become dormant/inactive, or file for bankruptcy/insolvency within the next 12 months. The D&B Viability Rating is made up of 4 components:

Viability Score
Compared to All US Businesses within the D&B Database:

- Level of Risk:**Low Risk**
- Businesses ranked **4** have a probability of becoming no longer viable: **5** %
- Percentage of businesses ranked **4: 14** %
- Across all US businesses, the average probability of becoming no longer viable:**14** %

Portfolio Comparison
Compared to All US Businesses within the same MODEL SEGMENT:

- Model Segment :**Established Trade Payments**
- Level of Risk:**Moderate Risk**
- Businesses ranked **5** within this model segment have a probability of becoming no longer viable: **5** %
- Percentage of businesses ranked **5** with this model segment: **11** %
- Within this model segment, the average probability of becoming no longer viable:**5** %

Data Depth Indicator
Data Depth Indicator:

- ✓ Rich Firmographics
- ✓ Extensive Commercial Trading Activity
- ✓ Basic Financial Attributes

Greater data depth can increase the precision of the D&B Viability Rating assessment.
To help improve the current data depth of this company, you can ask D&B to make a personalized request to this company on your behalf to obtain its latest financial information. To make the request, click the link below. Note, the company must be saved to a folder before the request can be made.

OTHER PAYMENT CATEGORIES

Other Payment Categories	Experience	Total Amount
Cash experiences	103	US$ 222,300
Payment record unknown	14	US$ 419,350
Unfavorable comments	1	US$ 2,500
Placed for collections	5	US$ 0
Total in D&B's file	715	US$ 64,846,750

Accounts are sometimes placed for collection even though the existence or amount of the debt is disputed. Payment experiences reflect how bills are met in relation to the terms granted. In some instances payment beyond terms can be the result of disputes over merchandise, skipped invoices etc. Each experience shown represents a separate account reported by a supplier. Updated trade experiences replace those previously reported.

Corporate Linkage

Increase your understanding of the links and risks between your customers and suppliers with D&B's Interactive Global Family Tree

The public record items contained in this report may have been paid, terminated, vacated or released prior to the date this report was printed. This information may not be reproduced in whole or in part by any means of reproduction.

There may be additional UCC Filings in D&Bs file on this company available by contacting 1-800-234-3867.

There may be additional suits, liens, or judgments in D&B's file on this company available in the U.S. Public Records Database, also covered under your contract. If you would like more information on this database, please contact the Customer Resource Center at 1-800-234-3867.

If it is indicated that there are defendants other than the report subject, the lawsuit may be an action to clear title to property and does not necessarily imply a claim for money against the subject.

A lien holder can file the same lien in more than one filing location. The appearance of multiple liens filed by the same lien holder against a debtor may be indicative of such an occurrence.

COMPANY EVENTS

The following information was reported on: 02/24/2022

The Delaware Secretary of State's business registrations file showed that Trane U.S. Inc. was registered as a Corporation on March 26, 1929, under the file registration number 255803. The name was changed from American Standard Inc. to Trane U.S. Inc. by charter amendment on November 8, 2007.

Business started 1929. 100% of capital stock is owned by the parent company.

All of its outstanding common stock is owned by Trane Inc (Formerly : American Standard Companies Inc, name changed in Nov 1994 from ASI Holding Corporation) that was formed in 1988 by Kelso & Company LP to effect the acquisition of American Standard Inc.

On June 5, 2008 Trane was acquired by Ingersoll-Rand for $10.1 billion.

RECENT EVENTS:.

On July 5, 2012, Mary Beth Martin, Productivity Manager for Americas Accounting, stated that Trane Comfort Solutions, Inc., Piscataway, NJ, has merged with and into Trane U.S., Inc., Piscataway, NJ, last July 1, 2012. With the merger, Trane Comfort Solutions, Inc. has ceased to exist as a legal entity, and all its branches would now operate as Trane U.S., Inc. locations. No further details are available.

DAVE REGNERY. July 2021-present active here.

According to a published report dated May 29, 2009, the Massachusetts Attorney General Martha Coakley's Office has reached an agreement with Trane U.S. Inc, of Piscataway, New Jersey, and its treasurer, David S Kuhl, for violating the Massachusetts Wage and Hour Laws.

As part of the settlement agreement, Trane and Kuhl will pay $38,000 in restitution to 15 employees who worked on numerous public projects in Massachusetts between Aug 2005 and May 2009. The company and Kuhl also agreed to pay a $10,000 fine to the Commonwealth for failing to pay the prevailing wage and failing to submit certified payroll records in violation of the law.

Business address has changed from 3600 Pammel Creek Rd, La Crosse, WI, 54601 to 800-e Beaty St, Davidson, NC, 28036.

Exhibit B – Administration Agreement, Example

Exhibit B
Administration Agreement, Example

ADMINISTRATION AGREEMENT

THIS ADMINISTRATION AGREEMENT (this "**Agreement**") is made this 8 day of July 2022 between National Intergovernmental Purchasing Alliance Company, a Delaware corporation d/b/a OMNIA Partners, Public Sector ("**OMNIA Partners**"), and **Trane U.S. Inc.** ("**Supplier**").

RECITALS

WHEREAS, the _____ (the "**Principal Procurement Agency**") has entered into a Master Agreement effective _____, Agreement No_____, by and between the Principal Procurement Agency and Supplier, (as may be amended from time to time in accordance with the terms thereof, the "**Master Agreement**"), as attached hereto as Exhibit A and incorporated herein by reference as though fully set forth herein, for the purchase of _____ (the "**Product**");

WHEREAS, said Master Agreement provides that any or all public agencies, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit (collectively, "**Public Agencies**"), that register (either via registration on the OMNIA Partners website or execution of a Master Intergovernmental Cooperative Purchasing Agreement, attached hereto as Exhibit B) (each, hereinafter referred to as a "**Participating Public Agency**") may purchase Product at prices stated in the Master Agreement;

WHEREAS, Participating Public Agencies may access the Master Agreement which is offered through OMNIA Partners to Public Agencies;

WHEREAS, OMNIA Partners serves as the cooperative contract administrator of the Master Agreement on behalf of Principal Procurement Agency;

WHEREAS, Principal Procurement Agency desires OMNIA Partners to proceed with administration of the Master Agreement; and

WHEREAS, OMNIA Partners and Supplier desire to enter into this Agreement to make available the Master Agreement to Participating Public Agencies and to set forth certain terms and conditions governing the relationship between OMNIA Partners and Supplier.

NOW, THEREFORE, in consideration of the payments to be made hereunder and the mutual covenants contained in this Agreement, OMNIA Partners and Supplier hereby agree as follows:

DEFINITIONS

1. Capitalized terms used in this Agreement and not otherwise defined herein shall have the meanings given to them in the Master Agreement.

TERMS AND CONDITIONS

2. The Master Agreement and the terms and conditions contained therein shall apply to this Agreement except as expressly changed or modified by this Agreement. Supplier acknowledges and agrees that the covenants and agreements of Supplier set forth in the solicitation and Supplier's response thereto resulting in the Master Agreement are incorporated herein and are an integral part hereof.

3. OMNIA Partners shall be afforded all of the rights, privileges and indemnifications afforded to Principal Procurement Agency by or from Supplier under the Master Agreement, and such rights, privileges and indemnifications shall accrue and apply with equal effect to OMNIA Partners, its agents, employees, directors, and representatives under this Agreement including, but not limited to, Supplier's obligation to obtain appropriate insurance.

4. OMNIA Partners shall perform all of its duties, responsibilities and obligations as the cooperative contract administrator of the Master Agreement on behalf of Principal Procurement Agency as set forth herein, and Supplier hereby acknowledges and agrees that all duties, responsibilities and obligations will be undertaken by OMNIA Partners solely in its capacity as the cooperative contract administrator under the Master Agreement.

5. With respect to any purchases by Principal Procurement Agency or any Participating Public Agency pursuant to the Master Agreement, OMNIA Partners shall not be: (i) construed as a dealer, re-marketer, representative, partner or agent of any type of the Supplier, Principal Procurement Agency or any Participating Public Agency; (ii) obligated, liable or responsible for any order for Product made by Principal Procurement Agency or any Participating Public Agency or any employee thereof under the Master Agreement or for any payment required to be made with respect to such order for Product; and (iii) obligated, liable or responsible for any failure by Principal Procurement Agency or any Participating Public Agency to comply with procedures or requirements of applicable law or the Master Agreement or to obtain the due authorization and approval necessary to purchase under the Master Agreement. OMNIA Partners makes no representation or guaranty with respect to any minimum purchases by Principal Procurement Agency or any Participating Public Agency or any employee thereof under this Agreement or the Master Agreement.

6. OMNIA Partners shall not be responsible for Supplier's performance under the Master Agreement, and Supplier shall hold OMNIA Partners harmless from any liability that may arise from the acts or omissions of Supplier in connection with the Master Agreement.

7. Supplier acknowledges that, in connection with its access to OMNIA Partners confidential information and/or supply of data to OMNIA Partners, it has complied with and shall continue to comply with all laws, regulations and standards that may apply to Supplier, including, without limitation: (a) United States federal and state information security and privacy statutes, regulations and/or best practices, including, without limitation, the Gramm-Leach-Bliley Act, the Massachusetts Data Security Regulations (201 C.M.R. 17.00 et. seq.), the Nevada encryption statute (N.R.S. § 603A), the California data security law (Cal. Civil Code § 1798.80 et. seq.) and California Consumer Privacy Act (Cal. Civil Code § 1798.100 et. seq.); and (b) applicable industry and regulatory standards and best practices (collectively, "**Data Regulations**").

With regard to Personal Information that Supplier collects, receives, or otherwise processes under the Agreement or otherwise in connection with performance of the Agreement, Supplier agrees that it will not: (i) sell, rent, release, disclose, disseminate, make available, transfer, or otherwise

communicate orally, in writing, or by electronic or other means, such Personal Information to another business or third party for monetary or other valuable consideration; or (ii) retain, use, or disclose such Personal Information outside of the direct business relationship between Supplier and OMNIA Partners or for any purpose other than for the specific purpose of performance of the Agreement, including retaining, using, or disclosing such Personal Information for a commercial purpose other than for performance of the Agreement. By entering into the Agreement, Supplier certifies that it understands the specific restrictions contained in this Section 7 and will comply with them. For purposes hereof, "**Personal Information**" means information that identifies, relates to, describes, is reasonably capable of being associated with, or could reasonably be linked, directly or indirectly, with a particular consumer or household, and includes the specific elements of "personal information" as defined under Data Regulations, as defined herein. Supplier will reasonably assist OMNIA Partners in timely responding to any third party "request to know" or "request to delete" (as defined pursuant to Data Regulations) and will promptly provide OMNIA Partners with information reasonably necessary for OMNIA Partners to respond to such requests. Where Supplier collects Personal Information directly from Public Agencies or others on OMNIA Partners' behalf, Supplier will maintain records and the means necessary to enable OMNIA Partners to respond to such requests to know and requests to delete.

8. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, OMNIA PARTNERS EXPRESSLY DISCLAIMS ALL EXPRESS OR IMPLIED REPRESENTATIONS AND WARRANTIES REGARDING OMNIA PARTNERS' PERFORMANCE AS A CONTRACT ADMINISTRATOR OF THE MASTER AGREEMENT. OMNIA PARTNERS SHALL NOT BE LIABLE IN ANY WAY FOR ANY SPECIAL, INCIDENTAL, INDIRECT, CONSEQUENTIAL, EXEMPLARY, PUNITIVE, OR RELIANCE DAMAGES, EVEN IF OMNIA PARTNERS IS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

TERM OF AGREEMENT; TERMINATION

9. This Agreement shall be in effect so long as the Master Agreement remains in effect, provided, however, that the provisions of Sections 3 – 8 and 11 – 22, hereof and the indemnifications afforded by the Supplier to OMNIA Partners in the Master Agreement, to the extent such provisions survive any expiration or termination of the Master Agreement, shall survive the expiration or termination of this Agreement.

NATIONAL PROMOTION

10. OMNIA Partners and Supplier shall publicize and promote the availability of the Master Agreement's products and services to Public Agencies and such agencies' employees. Supplier shall require each Public Agency to register its participation in the OMNIA Partners program by either registering on the OMNIA Partners website (www.omniapartners.com/publicsector) or executing a Master Intergovernmental Cooperative Purchasing Agreement prior to processing the Participating Public Agency's first sales order. Upon request, Supplier shall make available to interested Public Agencies a copy of the Master Agreement and such price lists or quotes as may be necessary for such Public Agencies to evaluate potential purchases.

11. Supplier shall provide such marketing and administrative support as set forth in the solicitation resulting in the Master Agreement, including assisting in development of marketing materials as reasonably requested by Principal Procurement Agency and OMNIA Partners. Supplier shall be responsible for obtaining permission or license of use and payment of any license fees for all content and images Supplier provides to OMNIA Partners or posts on the OMNIA Partners website.

Supplier shall indemnify, defend and hold harmless OMNIA Partners for use of all such content and images including copyright infringement claims. Supplier and OMNIA Partners each hereby grant to the other party a limited, revocable, non-transferable, non-sublicensable right to use such party's logo (each, the "**Logo**") solely for use in marketing the Master Agreement. Each party shall provide the other party with the standard terms of use of such party's Logo, and such party shall comply with such terms in all material respects. Both parties shall obtain approval from the other party prior to use of such party's Logo. Notwithstanding the foregoing, the parties understand and agree that except as provided herein neither party shall have any right, title or interest in the other party's Logo. Upon termination of this Agreement, each party shall immediately cease use of the other party's Logo.

ADMINISTRATIVE FEE, REPORTING & PAYMENT

12. An "Administrative Fee" shall be defined and due to OMNIA Partners from Supplier in the amount of 2 percent (2%) ("**Administrative Fee Percentage**") multiplied by the total purchase amount paid to Supplier, less refunds, credits on returns, rebates and discounts, for the sale of products and/or services to Principal Procurement Agency and Participating Public Agencies pursuant to the Master Agreement (as amended from time to time and including any renewal thereof) ("**Contract Sales**"). From time to time the parties may mutually agree in writing to a lower Administrative Fee Percentage for a specifically identified Participating Public Agency's Contract Sales.

13. Supplier shall provide OMNIA Partners with an electronic accounting report monthly, in the format prescribed by OMNIA Partners, summarizing all Contract Sales for each calendar month. The Contract Sales reporting format is provided as Exhibit C ("**Contract Sales Report**"), attached hereto and incorporated herein by reference. Contract Sales Reports for each calendar month shall be provided by Supplier to OMNIA Partners by the 10th day of the following month. Failure to provide a Contract Sales Report within the time and manner specified herein shall constitute a material breach of this Agreement and if not cured within thirty (30) days of written notice to Supplier shall be deemed a cause for termination of the Master Agreement, at Principal Procurement Agency's sole discretion, and/or this Agreement, at OMNIA Partners' sole discretion.

14. Administrative Fee payments are to be paid by Supplier to OMNIA Partners at the frequency and on the due date stated in Section 13, above, for Supplier's submission of corresponding Contract Sales Reports. Administrative Fee payments are to be made via Automated Clearing House (ACH) to the OMNIA Partners designated financial institution identified in Exhibit D. Failure to provide a payment of the Administrative Fee within the time and manner specified herein shall constitute a material breach of this Agreement and if not cured within thirty (30) days of written notice to Supplier shall be deemed a cause for termination of the Master Agreement, at Principal Procurement Agency's sole discretion, and/or this Agreement, at OMNIA Partners' sole discretion. All Administrative Fees not paid when due shall bear interest at a rate equal to the lesser of one and one-half percent (1 1/2%) per month or the maximum rate permitted by law until paid in full.

15. Supplier shall maintain an accounting of all purchases made by Participating Public Agencies under the Master Agreement. OMNIA Partners, or its designee, in OMNIA Partners' sole discretion, reserves the right to compare Participating Public Agency records with Contract Sales Reports submitted by Supplier for a period of four (4) years from the date OMNIA Partners receives such report. In addition, OMNIA Partners may engage a third party to conduct an independent audit of Supplier's monthly reports. In the event of such an audit, Supplier shall provide all materials reasonably requested relating to such audit by OMNIA Partners at the location designated by OMNIA Partners. In the event an underreporting of Contract Sales and a resulting underpayment of

Administrative Fees is revealed, OMNIA Partners will notify the Supplier in writing. Supplier will have thirty (30) days from the date of such notice to resolve the discrepancy to OMNIA Partners' reasonable satisfaction, including payment of any Administrative Fees due and owing, together with interest thereon in accordance with Section 13, and reimbursement of OMNIA Partners' costs and expenses related to such audit.

GENERAL PROVISIONS

16. This Agreement, the Master Agreement and the exhibits referenced herein supersede any and all other agreements, either oral or in writing, between the parties hereto with respect to the subject matter hereto and no other agreement, statement, or promise relating to the subject matter of this Agreement which is not contained or incorporated herein shall be valid or binding. In the event of any conflict between the provisions of this Agreement and the Master Agreement, as between OMNIA Partners and Supplier, the provisions of this Agreement shall prevail.

17. If any action at law or in equity is brought to enforce or interpret the provisions of this Agreement or to recover any Administrative Fee and accrued interest, the prevailing party shall be entitled to reasonable attorney's fees and costs in addition to any other relief to which it may be entitled.

18. This Agreement and OMNIA Partners' rights and obligations hereunder may be assigned at OMNIA Partners' sole discretion to an affiliate of OMNIA Partners, any purchaser of any or all or substantially all of the assets of OMNIA Partners, or the successor entity as a result of a merger, reorganization, consolidation, conversion or change of control, whether by operation of law or otherwise. Supplier may not assign its obligations hereunder without the prior written consent of OMNIA Partners.

19. All written communications given hereunder shall be delivered by first-class mail, postage prepaid, or overnight delivery on receipt to the addresses as set forth below.

A. OMNIA Partners:

OMNIA Partners
Attn: President
840 Crescent Centre Drive
Suite 600
Franklin, TN 37067

B. Supplier:

Trane U.S. Inc.
800 Beaty Street
Davidson, NC 28036-6924

20. If any provision of this Agreement shall be deemed to be, or shall in fact be, illegal, inoperative or unenforceable, the same shall not affect any other provision or provisions herein contained or render the same invalid, inoperative or unenforceable to any extent whatever, and this Agreement will be construed by limiting or invalidating such provision to the minimum extent necessary to make such provision valid, legal and enforceable.

21. This Agreement may not be amended, changed, modified, or altered without the prior written consent of the parties hereto, and no provision of this Agreement may be discharged or waived, except by a writing signed by the parties. A waiver of any particular provision will not be deemed a waiver of any other provision, nor will a waiver given on one occasion be deemed to apply to any other occasion.

22. This Agreement shall inure to the benefit of and shall be binding upon OMNIA Partners, the Supplier and any respective successor and assign thereto; subject, however, to the limitations contained herein.

23. This Agreement will be construed under and governed by the laws of the State of Delaware, excluding its conflicts of law provisions and any action arising out of or related to this Agreement shall be commenced solely and exclusively in the state or federal courts in Williamson County Tennessee.

24. This Agreement may be executed in counterparts, each of which is an original but all of which, together, shall constitute but one and the same instrument. The exchange of copies of this Agreement and of signature pages by facsimile, or by .pdf or similar electronic transmission, will constitute effective execution and delivery of this Agreement as to the parties and may be used in lieu of the original Agreement for all purposes. Signatures of the parties transmitted by facsimile, or by .pdf or similar electronic transmission, will be deemed to be their original signatures for any purpose whatsoever.

Exhibit F – Federal Funds Certifications

Exhibit F
Federal Funds Certifications

FEDERAL CERTIFICATIONS
ADDENDUM FOR AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

DEFINITIONS

Contract means a legal instrument by which a non–Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non–Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non–Federal entity that, consistent with 31 U.S.C. 6302–6305:

(a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non–Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;

(b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non–Federal entity in carrying out the activity contemplated by the Federal award.

(c) The term does not include:

(1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or

(2) An agreement that provides only:

(i) Direct United States Government cash assistance to an individual;

(ii) A subsidy;

(iii) A loan;

(iv) A loan guarantee; or

(v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non–Federal entity

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

(a)(1) The Federal financial assistance that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or

(2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.

(b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.

(c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).

(d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non–Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

(a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

(b) Is not organized primarily for profit; and

(c) Uses net proceeds to maintain, improve, or expand the operations of the organization.

Obligations means, when used in connection with a non–Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non–Federal entity during the same or a future period.

Pass-through entity means a non–Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Recipient means a non–Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

Simplified acquisition threshold means the dollar amount below which a non–Federal entity may purchase property or services using small purchase methods. Non–Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is $250,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Subrecipient means a non–Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Termination means the ending of a Federal award, in whole or in part at any time prior to the planned end of period of performance.

The following provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Per FAR 52.204-24 and FAR 52.204-25, solicitations and resultant contracts shall contain the following provisions.

52.204-24 Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment (Oct 2020)

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in paragraph (c)(1) in the provision at 52.204-26, Covered Telecommunications Equipment or Services—Representation, or in paragraph (v)(2)(i) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Items. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it "does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services" in paragraph (c)(2) of the provision at 52.204-26, or in paragraph (v)(2)(ii) of the provision at 52.212-3.

(a) *Definitions.* As used in this provision—

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) *Prohibition.*

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) *Procedures.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (https://www.sam.gov) for entities excluded from receiving federal awards for "covered telecommunications equipment or services".

(d) *Representation.* The Offeror represents that—

(1) It □ will, □ will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds "will" in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that—

It □ does, ☒ does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds "does" in paragraph (d)(2) of this section.

(e) *Disclosures.*

(1) Disclosure for the representation in paragraph (d)(1) of this provision. If the Offeror has responded "will" in the representation in paragraph (d)(1) of this provision, the Offeror shall provide the following information as part of the offer.

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded "does" in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the PSC of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

52.204-25 Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment (Aug 2020).

(a) *Definitions.* As used in this clause—

Backhaul means intermediate links between the core network, or backbone network, and the small subnetworks at the edge of the network (*e.g.*, connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (*e.g.*, fiber optic, coaxial cable, Ethernet).

Covered foreign country means The People's Republic of China.

Covered telecommunications equipment or services means–

(1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);

(2) For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);

(3) Telecommunications or video surveillance services provided by such entities or using such equipment; or

(4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Critical technology means–

(1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;

(2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled-

(i) Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or

(ii) For reasons relating to regional stability or surreptitious listening;

(3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);

(4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);

(5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or

(6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

Interconnection arrangements means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately delivered (*e.g.*, connection of a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

Reasonable inquiry means an inquiry designed to uncover any information in the entity's possession about the identity of the producer or provider of covered telecommunications equipment or services used by the entity that excludes the need to include an internal or third-party audit.

Roaming means cellular communications services (e.g., voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

Substantial or essential component means any component necessary for the proper function or performance of a piece of equipment, system, or service.

(b) *Prohibition*.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. The Contractor is prohibited from providing to the Government any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract, or extending or renewing a contract, with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract.

(c) *Exceptions*. This clause does not prohibit contractors from providing—

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) Reporting requirement.

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at https://dibnet.dod.mil. For indefinite delivery contracts, the Contractor shall report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order or, in the case of the Department of Defense, identify both the indefinite delivery contract and any affected orders in the report provided at https://dibnet.dod.mil.

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause

(i) Within one business day from the date of such identification or notification: the contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) *Subcontracts*. The Contractor shall insert the substance of this clause, including this paragraph (e) and excluding paragraph (b)(2), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial items.

The following certifications and provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Pursuant to 2 C.F.R. § 200.326, all contracts, including small purchases, awarded by the Participating Agency and the Participating Agency's subcontractors shall contain the procurement provisions of

Appendix II to Part 200, as applicable.

APPENDIX II TO 2 CFR PART 200

(A) Contracts for more than the simplified acquisition threshold currently set at $250,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Pursuant to Federal Rule (A) above, when a Participating Agency expends federal funds, the Participating Agency reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(B) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

Pursuant to Federal Rule (B) above, when a Participating Agency expends federal funds, the Participating Agency reserves the right to immediately terminate any agreement in excess of $10,000 resulting from this procurement process in the event of a breach or default of the agreement by Offeror as detailed in the terms of the contract.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 CFR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

Pursuant to Federal Rule (C) above, when a Participating Agency expends federal funds on any federally assisted construction contract, the equal opportunity clause is incorporated by reference herein.

Does offeror agree to abide by the above? YES _____ Initials of Authorized Representative of offeror

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non - Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

Pursuant to Federal Rule (D) above, when a Participating Agency expends federal funds during the term of an award for all contracts and subgrants for construction or repair, offeror will be in compliance with all applicable Davis-Bacon Act provisions.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, offeror certifies that offeror will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act during the term of an award for all contracts by Participating Agency resulting from this procurement process.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Pursuant to Federal Rule (F) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror agrees to comply with all applicable requirements as referenced in Federal Rule (F) above.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA)

Pursuant to Federal Rule (G) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency member resulting from this procurement process, the offeror agrees to comply with all applicable requirements as referenced in Federal Rule (G) above.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the Executive Office of the President Office of Management and Budget (OMB) guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Pursuant to Federal Rule (H) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency. If at any time during the term of an award the offeror or its principals

becomes debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency, the offeror will notify the Participating Agency.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(l) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Pursuant to Federal Rule (l) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term and after the awarded term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror certifies that it is in compliance with all applicable provisions of the Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). The undersigned further certifies that:

(1) No Federal appropriated funds have been paid or will be paid for on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with the awarding of a Federal contract, the making of a Federal grant, the making of a Federal loan, the entering into a cooperative agreement, and the extension, continuation, renewal, amendment, or modification of a Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all covered sub-awards exceeding $100,000 in Federal funds at all appropriate tiers and that all subrecipients shall certify and disclose accordingly.

RECORD RETENTION REQUIREMENTS FOR CONTRACTS INVOLVING FEDERAL FUNDS

When federal funds are expended by Participating Agency for any contract resulting from this procurement process, offeror certifies that it will comply with the record retention requirements detailed in 2 CFR § 200.333. The offeror further certifies that offeror will retain all records as required by 2 CFR § 200.333 for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF COMPLIANCE WITH THE ENERGY POLICY AND CONSERVATION ACT

When Participating Agency expends federal funds for any contract resulting from this procurement process, offeror certifies that it will comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.; 49 C.F.R. Part 18).

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF COMPLIANCE WITH BUY AMERICA PROVISIONS

To the extent purchases are made with Federal Highway Administration, Federal Railroad Administration, or Federal Transit Administration funds, offeror certifies that its products comply with all applicable provisions of the Buy America Act and agrees to provide such certification or applicable waiver with respect to specific products to any Participating Agency upon request. Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF ACCESS TO RECORDS – 2 C.F.R. § 200.336

Offeror agrees that the Inspector General of the Agency or any of their duly authorized representatives shall have access to any documents, papers, or other records of offeror that are pertinent to offeror's discharge of its obligations under the Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to offeror's personnel for the purpose of interview and discussion relating to such documents.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF APPLICABILITY TO SUBCONTRACTORS

Offeror agrees that all contracts it awards pursuant to the Contract shall be bound by the foregoing terms and conditions.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

Offeror agrees to comply with all federal, state, and local laws, rules, regulations and ordinances, as applicable. It is further acknowledged that offeror certifies compliance with all provisions, laws, acts, regulations, etc. as specifically noted above.

FEMA SPECIAL CONDITIONS

Awarded Supplier(s) may need to respond to events and losses where products and services are needed for the immediate and initial response to emergency situations such as, but not limited to, water damage, fire damage, vandalism cleanup, biohazard cleanup, sewage decontamination, deodorization, and/or wind damage during a disaster or emergency situation. By submitting a bid, the Supplier is accepted these FEMA Special Conditions required by the Federal Emergency Management Agency (FEMA).

"Contract" in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as the "Master Agreement".

"Contractor" in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as "Supplier" or "Awarded Supplier".

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3. i. FEMA considers a "financial interest" to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an "apparent" conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency ("NFE") must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE's may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE's written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE's employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

Contractor Integrity

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended, as described in and subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension), must be rejected and cannot receive contract awards at any level.

Public Policy

A contractor must comply with the public policies of the Federal Government and state, local government, or tribal government. This includes, among other things, past and current compliance with the:

a. Equal opportunity and nondiscrimination laws

b. Five affirmative steps described at 2 C.F.R. § 200.321(b) for all subcontracting under contracts supported by FEMA financial assistance; and FEMA Procurement Guidance June 21, 2016 Page IV- 7

c. Applicable prevailing wage laws, regulations, and executive orders

Affirmative Steps

Version April 12, 2022

For any subcontracting opportunities, Contractor must take the following Affirmative steps:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Prevailing Wage Requirements

When applicable, the awarded Contractor (s) and any and all subcontractor(s) agree to comply with all laws regarding prevailing wage rates including the Davis-Bacon Act, applicable to this solicitation and/or Participating Public Agencies. The Participating Public Agency shall notify the Contractor of the applicable pricing/prevailing wage rates and must apply any local wage rates requested. The Contractor and any subcontractor(s) shall comply with the prevailing wage rates set by the Participating Public Agency.

Federal Requirements

If products and services are issued in response to an emergency or disaster recovery the items below, located in this FEMA Special Conditions section of the Federal Funds Certifications, are activated and required when federal funding may be utilized.

2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

1. REMEDIES

a. Standard. Contracts for more than the simplified acquisition threshold, currently set at $250,000, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate. See 2 C.F.R. Part 200, Appendix II(A).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

2. TERMINATION FOR CAUSE AND CONVENIENCE

a. Standard. All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity, including the manner by which it will be effected and the basis for settlement. See 2 C.F.R. Part 200, Appendix II(B).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

3. EQUAL EMPLOYMENT OPPORTUNITY

When applicable:

a. Standard. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R.

§ 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. § 60- 1.4(b), in accordance with Executive Order 11246, *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41 C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II(C).

b. Key Definitions.

i. Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a "federally assisted construction contract" as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.

ii. Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines "construction work" as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

c. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

d. Required Language. The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided,* That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

4. DAVIS-BACON ACT

a. Standard. All prime construction contracts in excess of $2,000 awarded by non- Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction). See 2 C.F.R. Part 200, Appendix II(D). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.

b. Applicability. The Davis-Bacon Act applies to the Emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program.

c. Requirements. If applicable, the non-federal entity must do the following:

i. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

ii. Additionally, pursuant 2 C.F.R. Part 200, Appendix II(D), contracts subject to the Davis-Bacon Act, must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti- Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person

employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

iii. Include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction").

Suggested Language. The following provides a sample contract clause:

Compliance with the Davis-Bacon Act.

a. All transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.

b. Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.

c. Additionally, contractors are required to pay wages not less than once a week.

5. COPELAND ANTI-KICKBACK ACT

a. Standard. Recipient and subrecipient contracts must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States").

b. Applicability. This requirement applies to all contracts for construction or repair work above $2,000 in situations where the Davis-Bacon Act also applies. It DOES NOT apply to the FEMA Public Assistance Program.

c. Requirements. If applicable, the non-federal entity must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). Each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA. Additionally, in accordance with the regulation, each contractor and subcontractor must furnish each week a statement with respect to the wages paid each of its employees engaged in work covered by the Copeland Anti-Kickback Act and the Davis Bacon Act during the preceding weekly payroll period. The report shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work.

Sample Language. The following provides a sample contract clause:

Compliance with the Copeland "Anti-Kickback" Act.

a. Contractor. The contractor shall comply with 18 U.S.C. §874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

b. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

c. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. §5.12."

6. CONTRACT WORK HOURS AND SAFETY STANDARDSACT

a. Standard. Where applicable (see 40 U.S.C. §§ 3701-3708), all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II(E). Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Further, no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous.

b. Applicability. This requirement applies to all FEMA contracts awarded by the non- federal entity in excess of $100,000 under grant and cooperative agreement programs that involve the employment of mechanics or laborers. It is applicable to construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

c. Suggested Language. The regulation at 29 C.F.R. § 5.5(b) provides contract clause language concerning compliance with the Contract Work Hours and Safety Standards Act. FEMA suggests including the following contract clause:

Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation

of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of
$27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) *Withholding for unpaid wages and liquidated damages.* The Federal agency or loan/grant recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

7. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT ORAGREEMENT

a. Standard. If the FEMA award meets the definition of "funding agreement" under 37C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non- Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II(F).

b. Applicability. This requirement applies to "*funding agreements*," but it DOES NOT apply to the Public Assistance, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as FEMA awards under these programs do not meet the definition of "funding agreement."

c. Funding Agreements Definition. The regulation at 37 C.F.R. § 401.2(a) defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

8. CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROLACT

a. Standard. If applicable, contracts must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q.) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II(G).

b. Applicability. This requirement applies to contracts awarded by a non-federal entity of amounts in excess of $150,000 under a federal grant.

c. Suggested Language. The following provides a sample contract clause.

Clean Air Act

1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

9. DEBARMENT AND SUSPENSION

a. Standard. Non-Federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and*

Suspension (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

c. Requirements.

i. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II(H); and 2 C.F.R. § 200.213. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530.

ii. In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipients.

iii. Specifically, a covered transaction includes the following contracts for goods or services:

1. The contract is awarded by a recipient or subrecipient in the amount of at least $25,000.

2. The contract requires the approval of FEMA, regardless of amount.

3. The contract is for federally-required audit services.

4. A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of $25,000.

d. Suggested Language. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified.

Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2

C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and2 C.F.R. pt. 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by the Participating Public Agency. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Participating Public Agency, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

10. BYRD ANTI-LOBBYING AMENDMENT

a. Standard. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. FEMA's regulation at 44 C.F.R. Part 18 implements the requirements of 31 U.S.C. § 1352 and provides, in Appendix A to Part 18, a copy of the certification that is required to be completed by each entity as described in 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the Federal awarding agency.

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs. Contractors that apply or bid for a contract of $100,000 or more under a federal grant must file the required certification. See 2 C.F.R. Part 200, Appendix II(I); 31 U.S.C. § 1352; and 44 C.F.R. Part 18.

c. Suggested Language.

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

d. Required Certification. If applicable, contractors must sign and submit to the non-federal entity the following certification.

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor Trane U.S. Inc., certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. Chap. 38, Administrative Remedies for False Claims and Statements, apply to this certification and disclosure, if any.

Date

11. PROCUREMENT OF RECOVERED MATERIALS

a. Standard. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. See 2 C.F.R. Part 200, Appendix II(J); and 2 C.F.R. §200.322.

b. Applicability. This requirement applies to all contracts awarded by a non- federal entity under FEMA grant and cooperative agreement programs.

c. Requirements. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds
$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

d. Suggested Language.

i. In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—

1. Competitively within a timeframe providing for compliance with the contract performance schedule;
2. Meeting contract performance requirements; or
3. At a reasonable price.

ii. Information about this requirement, along with the list of EPA- designated items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program.

iii. The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act."

12. ACCESS TO RECORDS

a. Standard. All recipients, subrecipients, successors, transferees, and assignees must acknowledge and agree to comply with applicable provisions governing DHS access to records, accounts, documents, information, facilities, and staff. Recipients must give DHS/FEMA access to, and the right to examine and copy, records, accounts, and other documents and sources of information related to the federal financial assistance award and permit access to facilities, personnel, and other individuals and information as may be necessary, as required by DHS regulations *and* other applicable laws or program guidance. See DHS Standard Terms and Conditions: Version 8.1 (2018). Additionally, Section 1225 of the Disaster Recovery Reform Act of 2018 prohibits FEMA from providing reimbursement to any state, local, tribal, or territorial government, or private non-profit for activities made pursuant to a contract that purports to prohibit audits or internal reviews by the FEMA administrator or Comptroller General.

Access to Records. The following access to records requirements apply to this contract:

i. The Contractor agrees to provide Participating Public Agency, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

ii. The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

iii. The Contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.

iv. In compliance with the Disaster Recovery Act of 2018, the Participating Public Agency and the Contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

13. CHANGES

a. Standard. To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope.

b. Applicability. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

14. DHS SEAL, LOGO, AND FLAGS

a. Standard. Recipients must obtain permission prior to using the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials. See DHS Standard Terms and Conditions: Version 8.1 (2018).

b. Applicability. FEMA recommends that all non-Federal entities place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

c. "The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

15. COMPLIANCE WITH FEDERAL LAW, REGULATIONS, AND EXECUTIVE ORDERS

a. Standard. The recipient and its contractors are required to comply with all Federal laws, regulations, and executive orders.

b. Applicability. FEMA recommends that all non-Federal entities place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable Federal law, regulations, executive orders, and FEMA policies, procedures, and directives.

c. "This is an acknowledgement that FEMA financial assistance will be used to fund all or a portion of the contract. The contractor will comply with all applicable Federal law, regulations, executive orders, FEMA policies, procedures, and directives."

16. NO OBLIGATION BY FEDERAL GOVERNMENT

a. Standard. FEMA is not a party to any transaction between the recipient and its contractor. FEMA is not subject to any obligations or liable to any party for any matter relating to the contract.

b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

c. "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

17. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS

a. Standard. Recipients must comply with the requirements of The False Claims Act (31 U.S.C. §§ 3729-3733) which prohibits the submission of false or fraudulent claims for payment to the federal government. See DHS Standard Terms and Conditions: Version 8.1 (2018); and 31 U.S.C. §§ 3801-3812, which details the administrative remedies for false claims and statements made. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

c. "The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this contract."

Offeror agrees to comply with all terms and conditions outlined in the FEMA Special Conditions section of this solicitation.

Offeror's Name: Trane U.S. Inc.

Address, City, State, and Zip Code: 800 Beaty Street, Davidson, NC, 28036-6924

PINE BROOK **NJ** **07058**

ELIZABETH MAHER MUOIO
State Treasurer

P.L. 1995, c. 127 (N.J.A.C. 17:27)
MANDATORY AFFIRMATIVE ACTION LANGUAGE

PROCUREMENT, PROFESSIONAL AND SERVICE CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. The contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisement for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation.

The contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to P.L. 1975, c. 127, as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to attempt in good faith to employ minority and female workers trade consistent with the applicable county employment goal prescribed by N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time or in accordance with a binding determination of the applicable county employment goals determined by the Affirmative Action Office pursuant to N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time.

The contractor or subcontractor agrees to inform in writing appropriate recruitment agencies in the area, including employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of it testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the state of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

The contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and lay-off to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and conform with the applicable employment goals, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor and its subcontractors shall furnish such reports or other documents to the Affirmative Action Office as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Affirmative Action Office for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of $17,500 that are **not awarded** pursuant to a "fair and open" process (N.J.S.A. 19:44A-20.7).

2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.

3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.

4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.

    a. The Division has prepared model disclosure forms for each county. They can be downloaded from the "County PCD Forms" link on the Pay-to-Play web site at http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12. They will be updated from time-to-time as necessary.
    b. A public agency using these forms **should edit them to properly reflect the correct legislative district**(s). As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
    c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
    d. The form may be used "as-is", subject to edits as described herein.
    e. The "Contractor Instructions" sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
    f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.

5. It is recommended that the contractor also complete a "Stockholder Disclosure Certification." This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
    - of the public entity awarding the contract
    - of that county in which that public entity is located
    - of another public entity within that county
    - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed $300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Required Pursuant to N.J.S.A. 19:44A-20.26

This form or its permitted facsimile must be submitted to the local unit no later than 10 days prior to the award of the contract.

Part I – Vendor Information

Certification of Non-Involvement in Prohibited Activities in Iran

Pursuant to N.J.S.A. 52:32-58, Offerors must certify that neither the Offeror, nor any of its parents, subsidiaries, and/or affiliates (as defined in N.J.S.A. 52:32 – 56(e) (3)), is listed on the Department of the Treasury's List of Persons or Entities Engaging in Prohibited Investment Activities in Iran and that neither is involved in any of the investment activities set forth in N.J.S.A. 52:32 – 56(f).

Offerors wishing to do business in New Jersey through this contract must fill out the Certification of Non-Involvement in Prohibited Activities in Iran here: http://www.state.nj.us/humanservices/dfd/info/standard/fdc/disclosure_investmentact.pdf.

Offerors should submit the above form completed with their proposal.

DISCLOSURE OF INVESTMENT ACTIVITIES IN IRAN FORM

STATE OF NEW JERSEY
DEPARTMENT OF THE TREASURY - DIVISION OF PURCHASE AND PROPERTY
33 WEST STATE STREET, P.O. BOX 230 TRENTON, NEW JERSEY 08625-0230

BID SOLICITATION # AND TITLE: Racine County, RFB-RC2022-1001-0-2022/DM

VENDOR NAME: **Trane U.S. Inc. New Jersey Branch**

Pursuant to N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4) any person or entity that submits a bid or proposal or otherwise proposes to enter into or renew a contract must certify that neither the person nor entity, nor any of its parents, subsidiaries, or affiliates, is identified on the New Jersey Department of the Treasury's Chapter 25 List as a person or entity engaged in investment activities in Iran. The Chapter 25 list is found on the Division's website at https://www.state.nj.us/treasury/purchase/pdf/Chapter25List.pdf. Vendors/Bidders must review this list prior to completing the below certification. If the Director of the Division of Purchase and Property finds a person or entity to be in violation of the law, s/he shall take action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

CHECK THE APPROPRIATE BOX

☑ I certify, pursuant to N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4), that neither the Vendor/Bidder listed above nor any of its parents, subsidiaries, or affiliates is listed on the New Jersey Department of the Treasury's Chapter 25 List of entities determined to be engaged in prohibited activities in Iran.

OR

☐ I am unable to certify as above because the Vendor/Bidder and/or one or more of its parents, subsidiaries, or affiliates is listed on the New Jersey Department of the Treasury's Chapter 25 List. I will provide a detailed, accurate and precise description of the activities of the Vendor/Bidder, or one of its parents, subsidiaries or affiliates, has engaged in regarding investment activities in Iran by completing the information requested below.

Entity Engaged in Investment Activities _____
Relationship to Vendor/ Bidder _____
Description of Activities _____
_____
_____
Duration of Engagement _____
Anticipated Cessation Date _____

**Attach Additional Sheets If Necessary.*

CERTIFICATION

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the State of New Jersey is relying on the information contained herein, and that the Vendor is under a continuing obligation from the date of this certification through the completion of any contract(s) with the State to notify the State in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I may be subject to criminal prosecution under the law, and it will constitute a material breach of my contract(s) with the State, permitting the State to declare any contract(s) resulting from this certification void and unenforceable.

MACBRIDE-PRINCIPLES

STATE OF NEW JERSEY DEPARTMENT OF THE TREASURY
DIVISION OF PURCHASE AND PROPERTY

33 WEST STATE STREET, P.O. BOX 230
TRENTON, NEW JERSEY 08625-0230

MACBRIDE PRINCIPALS FORM

BID SOLICITATION #: RFB-RC2022-1001-0-2022/DM **VENDOR/BIDDER:** Trane U.S. Inc.

VENDOR'S/BIDDER'S REQUIREMENT
TO PROVIDE A CERTIFICATION IN COMPLIANCE WITH THE MACBRIDE PRINCIPALS AND NORTHERN IRELAND ACT OF 1989

Pursuant to Public Law 1995, c. 134, a responsible Vendor/Bidder selected, after public bidding, by the Director of the Division of Purchase and Property, pursuant to N.J.S.A. 52:34-12, must complete the certification below by checking one of the two options listed below and signing where indicated. If a Vendor/Bidder that would otherwise be awarded a purchase, contract or agreement does not complete the certification, then the Director may determine, in accordance with applicable law and rules, that it is in the best interest of the State to award the purchase, contract or agreement to another Vendor/Bidder that has completed the certification and has submitted a bid within five (5) percent of the most advantageous bid. If the Director finds contractors to be in violation of the principals that are the subject of this law, he/she shall take such action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

I, the undersigned, on behalf the Vendor/Bidder, certify pursuant to N.J.S.A. 52:34-12.2 that:

CHECK THE APPROPRIATE BOX

☐ The Vendor/Bidder has no business operations in Northern Ireland; or

OR

☒ The Vendor/Bidder will take lawful steps in good faith to conduct any business operations it has in Northern Ireland in accordance with the MacBride principals of nondiscrimination in employment as set forth in section 2 of P.L. 1987, c. 177 (N.J.S.A. 52:18A-89.5) and in conformance with the United Kingdom's Fair Employment (Northern Ireland) Act of 1989, and permit independent monitoring of its compliance with those principals.

CERTIFICATION

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor/Bidder, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the State of New Jersey is relying on the information contained herein, and that the Vendor/Bidder is under a continuing obligation from the date of this certification through the completion of any contract(s) with the State to notify the State in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I will be subject to criminal prosecution under the law, and it will constitute a material breach of **my** agreement(s) with the State, permitting the State to declare any contract(s) resulting from this certification to be void and unenforceable.

6 City, state, and ZIP code

DAVIDSON, NC 28036

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–			–				

or

Employer identification number

2	5	–	0	9	0	0	4	6	5

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person ▶ _____ Date ▶ 1/4/2022

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

HVAC Products, Installation, Labor Based Solutions and Related Product and Services Contract 2022

AMENDMENT NO. ONE (1)

This Amendment No. One (1) is effective January 1, 2023 and is to modify the HVAC Products, Installation, Labor Based Solutions and Related Product and Services Contract 2022 agreed upon by Racine County, Wisconsin, 730 Wisconsin Avenue, Racine, Wisconsin 53403 ("County") and Trane U.S. Inc., 800 Beaty Street, Davidson, North Carolina 28036-6924 ("Contractor") (hereinafter each a "Party" and collectively referred to as "Parties") on August 16, 2022 ("Contract").

The Parties hereby agree to amend the Contract as follows:

1. **WORK:**

   To modify pricing as necessary to account for market changes, and labor and material increases..

   Details are provided in Attachment A of this Amendment No. 1.

2. **PRICE:**

   The County agrees to the revised prices.

   Details are located in Attachment A.

ALL OTHER PROVISIONS OF THE CONTRACT SHALL REMAIN IN THEIR ENTIRETY.

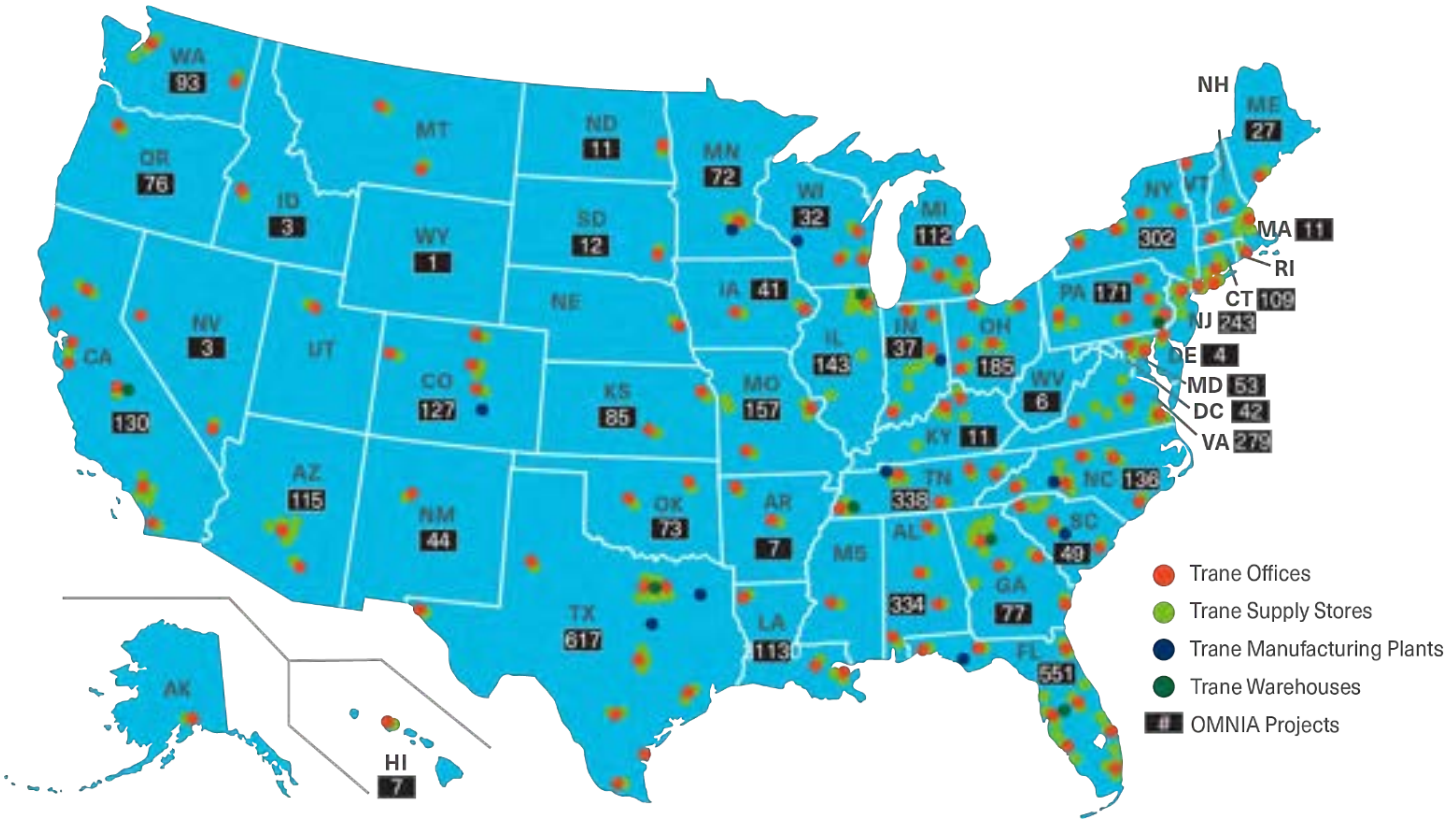
C. Executive Summary

Limit to one or two pages. Briefly state the Bidder's understanding of the service to be provided and a positive commitment to perform the services as defined in the IFB.

Trane has presented 122 high-level products/equipment options and 48 labor classifications and services for your consideration, and are ready to provide HVAC Equipment and Products, Installation, and Services, and other Related Products/Solutions in response to this IFB.



Trane's experience with cooperative contracting began in 1998 with the Region 4 ESC (Formerly TCPN) contract. In 2015, we were selected to provide products/services under the **Harford County Public Schools and U.S. Communities Contract** (15-JLP-023) and have executed work under this contract through the seven-year term plus an additional six months. In 2017, **Trane secured the Port of Portland and U.S. Communities Contract.** Trane® has been a qualified DOE ESCO since 1999 and has completed complex Energy Savings Performance Contracts (ESPC) for the Federal Government. An ESPC is a proven, cash flow neutral financing mechanism that pays for facility improvements that can be paid back over time based on future utility bill saving. Trane's Core Products – HVAC Equipment and Controls – drive one-third of total ESPC savings. Trane's incident (OSHA) rates are consistently 67-86% below the industry average and our current Experience Modification Rate (EMR) is 0.61. Trane has leveraged this experience to deliver dozens of ESPC projects under the Port of Portland contract.

Trane has the capacity to provide a wide range of services and products to support agencies across the country. Our 100-year history as a trusted provider of superior products and services has resulted in a robust national infrastructure. Our project offices are staffed with factory-trained service technicians that provide operational oversight, O&M, service-repair, and installation support. Trane stocks service-repair parts (over 20,000 SKUs per location), equipment, and supplies right in our customer's communities. We also have established relationships with local designers, suppliers, and subcontractors–including small/disadvantaged businesses. **Trane has booked $1.4B+under our Harford and Port of Portland OMNIA contracts since 2018 and has delivered services and products in 43 states.**

Alabama	$22,282,635.39	**Kentucky**	$1,349,239.50	**Oklahoma**	$9,834,236.76

Kansas	$12,782,043.21	**Ohio**	$47,018,541.70		

© 2022 Trane. All rights reserved.

Trane's robust national infrastructure includes: 124 project offices, 205 parts/supply facilities, 6 express warehouses, and 11 manufacturing plant sites. Trane has 2,138 Salespersons and Project Managers available to support the Racine Contract.

Trane will work with OMNIA Partners so all participating agencies are aware of our contract award via a 90 day plan that includes emailing over 80,000 direct customer contacts, a co-branded press release, and publicity campaigns via our dedicated OMNIA website, direct mail, social media, and trade show promotion.

Our experienced Cooperative Contracting group is well-positioned to help Racine County—and the agencies that will piggyback off this contract—secure the goods and services they need to support their communities. With over 100 years of collective experience, Trane's Cooperative Contract Team brings to Racine County extensive knowledge and diverse know-how in navigating public procurement contracting. We look forward to bringing this experience to Racine County and its public procurement partners.

We sincerely appreciate your consideration.

D. Responsible Bidder

Minimum Criteria

The following minimum criteria shall be met to be eligible for this contract:

- Bidders shall demonstrate that they are financially stable;
- Bidder shall have been in business providing similar service for at least the last three (3) years;
- Bidders should have the capability of providing a combination of products, services, consulting, or other labor-based solutions to accommodate the range of products and services utilized by Participating Public Agencies; and
- Bidders shall be properly licensed and incorporated to do business in the State of Wisconsin.

Trane U.S. Inc. meets all the minimum criteria to be eligible for this contract:

- Trane is a $14B corporation that has been in business for over 100 years. Our most recent balance sheet is shown below.
- Trane has held a cooperative contract since 1998 and has held the Harford County Public Schools and U.S. Communities Contract since 2015.
- Trane is properly licensed and incorporated to do business in the State of Wisconsin.

1. Detailed Response to Attachment D, Exhibit A

1. Include a detailed response to Attachment D, Exhibit A, OMNIA Partners Response for National Cooperative contract, to show proof of organizational capacity, equipment, and technical competency.

Please see Appendix 2 for Trane's detailed response to Exhibit A under Attachment D.

a. Racine County makes no representation or warranty concerning the use of the Master Agreement by any other Participating Public Agency.

Trane acknowledges that Racine County makes no representation or warranty concerning the use of the Master Agreement by any other Participating Public Agency.

b. The lowest responsible Bidder(s) will be required to sign Attachment D, Exhibit B, OMNIA Partners Administration Agreement.

Trane acknowledges that The lowest responsible Bidder(s) will be required to sign Attachment D, Exhibit B, OMNIA Partners Administration Agreement.

c. If applicable, provide a sample of additional agreements that Participating Public Agencies may be asked to sign.

Trane will not require additional agreements from Participating Public Agencies.

2. Positive Balance Sheet

2. Provide proof of a positive balance sheet and profitable business operations for two (2) of the last three (3) years.

Wisconsin Contractor Re-Certification

STATE OF WISCONSIN
DEPARTMENT OF ADMINISTRATION
Tony Evers, Governor
Kathy Blumenfeld, Secretary-designee
Naomi De Mers, Division Administrator

March 28, 2022

Trane U.S., Inc.
Attn: Tyler Schmitz
5302 Voges Rd.
Madison, WI 53718

Dear Tyler:

Thank you for applying for Division of Facilities Development (DFD) contractor re-certification.

DFD reviewed your updated application and has issued a re-certification decision.

Trane U.S., Inc. is re-certified to bid in the following divisions of work up to the following thresholds:

Division of Work	Bid Threshold (Per Project)
General	$20,000,000
Mechanical	$20,000,000
Other:	
Equipment Supplier	$4,000,000

Please note that you are also re-certified to bid on projects in the Small Project Program (total project budget of $300,000 or less).

When submitting your bids, please use your company name (Trane U.S., Inc.) as certified. Please do not submit bids outside of your certified divisions of work and/or over your certified bid amount thresholds (per project) as these bids will be rejected. Your new certification is valid until March 28, 2024. At that point, you will need to apply again for re-certification.

We look forward to your continued business. Please email us at dfdcertification@wisconsin.gov if you have any questions.

Sincerely,

Division of Facilities Development

Wisconsin Department of Administration

Facilities Development, PO Box 7866, Madison, WI 53707-7866

5. Bonding Capacity

5. Bonding capacity and capability of securing high dollar Performance Bonds.

Trane can consider single projects up to $100 million within an aggregate limit of $300 million.

6. W-9

6. Completed and signed W-9 Request for Taxpayer Identification Number and Certification form.

Form **W-9**
(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give Form to the requester. Do not send to the IRS.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.
TRANE U.S. INC.

2 Business name/disregarded entity name, if different from above

Print or type. See Specific Instructions on page 3.

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only **one** of the following seven boxes.
☐ Individual/sole proprietor or single-member LLC ☑ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate
☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶
Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is **not** disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.
☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):
Exempt payee code (if any) 5
Exemption from FATCA reporting code (if any)
(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.
800-E BEATY STREET

Requester's name and address (optional)

6 City, state, and ZIP code
DAVIDSON, NC 28036

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number
– –

or

Employer identification number
25 – 0900465

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person ▶ Date ▶ 1/4/2022

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

Cat. No. 10231X Form **W-9** (Rev. 10-2018)

7. Background Information

7. Furnish background of Bidder, including such information as size of the firm, legal status (corporation or partnership, etc.) lines of business, management and technical expertise, financial position, and years in business. Include any unique approaches or techniques developed and used by the firm.

Trane U.S. Inc. (Trane) is a wholly owned subsidiary of Trane Technologies (NYSE: TT) and was incorporated in 1929. Trane is a global climate innovator with over $14 billion in annual revenue. We offer a wide range of products and services known for high-performance efficiency and sustainability. These prominent brands include Trane, Thermo King, and a host of other category-leading brands.

Trane first received NAESCO Accreditation in 2004 and is one of only 13 NAESCO Accredited Energy Service Providers. The ESP designation is defined as: "The technical and managerial competence to provide energy supply through the development and implementation of build/own/operate distributed generation, cogeneration or combined heat and power (CHP) projects or the firm contracting energy supply."

In addition, Trane has been a qualified DOE ESCO since 1999 and has managed energy services performance contracting programs for the Defense Logistics Agency, Department of State, Navy, Army, Air Force, US Forest Service, US Geological Survey, and the General Services Administration. Trane has been hired for six follow-on ESPC projects at three DOD locations and our Federal ESPC projects have achieved a 30% average energy reduction from baseline. Trane has received multiple awards, including the Federal Energy Management Program Award of the Year and the Presidential Award for Leadership in Federal Energy Management. Additional awards/recognitions include:

- 2022, Fortune magazine World's Most Admired Companies — 10th consecutive year
- 2022, Lifestory Research "America's Most Trusted® HVAC Brand"—8th consecutive year

Size of Firm

Trane has over 34,000 employees worldwide. In the United States, Trane employs over 11,000 salaried employees and 13,500 hourly employees.

Legal Status

Trane is a corporation.

Lines of Business

Trane has a 100+ year history as a trusted provider of superior HVAC equipment and Building Automation Systems (BAS)/Energy Management Control Systems (EMCS) products and services. We have a global network of offices and service/parts locations to support energy conservation projects. Our local service organization will provide 24/7 technical support and access to a robust national supply chain. This community-based approach will help keep your operations running smoothly and provide rapid response in case of emergency. Our lines of business are provided under **Lines of Business: Trane Services** and **Lines of Business: Trane Building Systems and Technologies.**

Management and Technical Expertise

LOCAL PROJECT MANAGEMENT APPROACH

Trane's projects are managed locally. Each Trane office has the qualifications and hands-on relevant experience to deliver across all project phases. Trane offers vast in-house capabilities for design, equipment, contracting, controls, service, and project financing. A qualified and dedicated Project Manager (PM) is assigned to manage the day-to-day installation and construction activities ECMs at the project site in accordance with the design, costs, schedule, safety protocols, and QC processes. The PM leads and manages the installation team, including subcontractors, and is responsible for the Project Schedule. The following corporate management/technical resource pool is available to support the local delivery team:

© 2022 Trane. All rights reserved.

After the project is constructed, Trane's local service and maintenance team ensures optimum operations. Through the innovative use of data trending and analytics, Trane can provide opportunities for continuous system improvement optimization**. Most companies do not directly employ HVAC or Controls Service Personnel**. When a customer needs service, a locally based service company will respond on their behalf. Trane's truck-based service personnel promptly respond to any request. These service experts will show up in a Trane van, wearing a Trane uniform. They are direct employees of Trane. Their experience level ranges from journeymen to experienced senior technicians and supervisors – some of whom possess more than 30 years of HVAC industry experience. Our service technicians are skilled in maintaining and repairing not only Trane equipment, but nearly every manufacturer in the industry.

Trane's local project delivery model offers the following advantages:

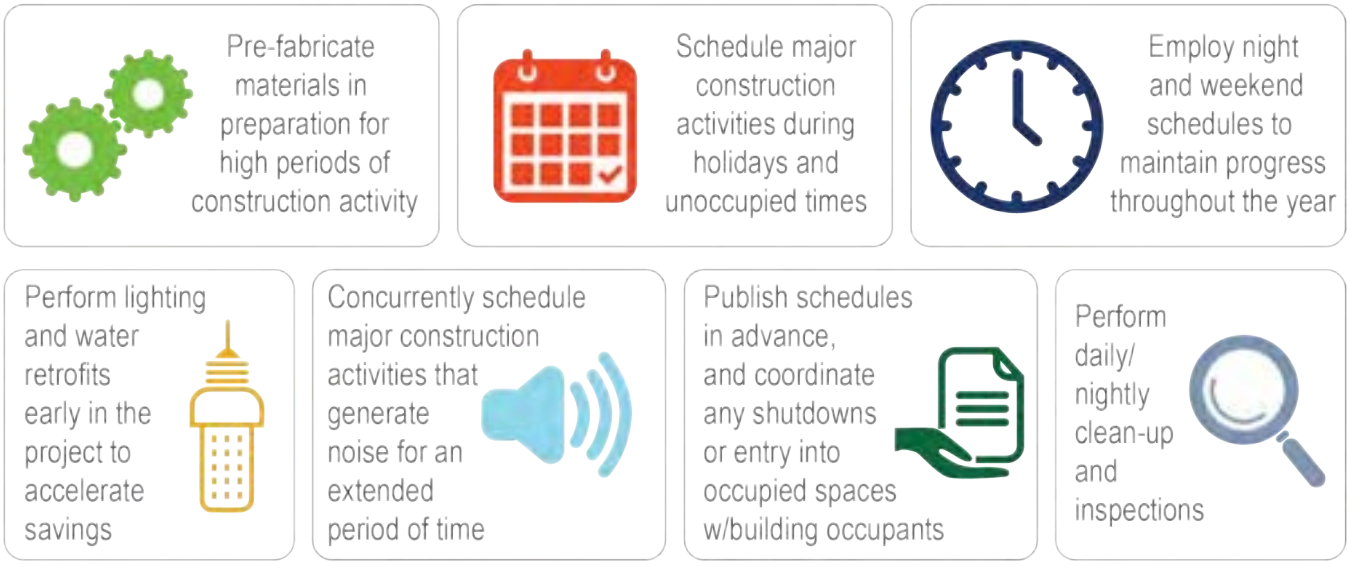
- **A local service organization to provide 24/7 technical support and a robust national supply chain.** Our service technicians are skilled in maintaining and repairing not only Trane equipment, but nearly every manufacturer in the industry.
- **Intelligent Services/BAS technicians** to analyze building data and provide scheduled and on-call local service support. This will contribute to uptime for ongoing operations and provide rapid response in case of emergency.
- **Established relationships** with local designers, suppliers, and subcontractors–including small/disadvantaged businesses. Our network includes a pool of pre-qualified sub-contractors to perform work such as electrical, piping, rigging, etc.
- **Expertise to perform system upgrades and replacements**, including major mechanical equipment such as chillers, cooling towers, air handlers, pumps, and coils. Trane's local offices have dedicated professionals in each of the following areas:
    - **Contracting Solutions:** Total comprehensive solutions, including guaranteed energy savings performance contracting and large turnkey installation projects.
    - **Trane Equipment:** Energy-efficient, environmentally friendly HVAC equipment for both comfort and process applications.
    - **Controls:** State-of-the-art building automation systems. Our local offices are complete with dedicated Controls Demonstration Centers for client education and training.
    - **Service:** Our service technicians are skilled in maintaining and repairing not only Trane equipment, but HVAC systems from nearly every manufacturer in the industry.
    - **Supply:** Full line of Trane parts, non-Trane parts, maintenance supplies, safety equipment, refrigeration, and maintenance/service tools warehoused locally.
    - **Training:** Fully equipped training facilities for seminars and training on industry issues Awards

SAFETY APPROACH

Safety Planning is woven into Trane's Construction/Installation Approach. See Section: "Trane's Safety Policy" for additional information.

© 2022 Trane. All rights reserved.

MITIGATING DISRUPTIONS TO DAILY OPERATIONS



Virtually all our projects feature construction activities across multiple buildings and work in occupied spaces. Our local teams are experienced in scheduling work activities and implementing projects in a way that minimizes disruption to daily operations. We work with our customers to develop an effective project schedule and coordinate all implementation activities with project site representatives. For work performed in occupied areas – such as lighting and water conservation upgrades – we will attempt to schedule installation during low-occupancy times, as well as publish work schedules and estimated completion times well in advance.

Trane will schedule installations in occupied areas – such as lighting and water conservation upgrades – during low-occupancy times and create/publish work schedules with estimated completion times in advance. We will also develop a detailed facility phasing plan for customer review prior to the start of construction. This phasing plan will include allowable work hours, days of the week that will be completed, and acceptable shutdown times for each occupied space.

Trane will coordinate with facility leadership and create signage that notifies occupants of upcoming work and shutdowns. Trane will actively manage all aspects of construction and will provide site supervision to manage crews and immediately respond to any occupant issues or questions. Trane will hold meetings with the facility occupants to keep the Trane team informed of the access and scheduling requirements for the proposed efficiency measures which impact implementation cost estimates and phasing plans.

Based on input from each building manager, we will develop a detailed phasing plan for each facility for your team's review prior to the start of construction. This phasing plan will include allowable work hours, days of the week that work is to be completed, and acceptable shutdown times for each occupied space.

To keep your project on track and to minimize disruption to day-to-day activities, our team will:

Financial Position

Trane Technologies is a $14B public corporation with a strong investment grade rating as indicated by Moody's and S&P (Baa2/BBB). Thus, our financial strength allows us to meet our energy performance guarantees. Trane has and can use escrow accounts where needed with scheduled construction draws as appropriate. In addition, we have a dedicated team of energy engineers that track project performance on a detailed ECM basis and take corrective actions if needed or appropriate.

The Income Statement and Balance Sheet from our most recent annual report is included in Section D.2. of this response. Trane's entire annual report can be viewed at the following web address along with all other financial documents: https://investors.tranetechnologies.com/financial-information/financial-summary/default.aspx. A letter from J.P. Morgan summarizing their experience with Trane is provided below.

January 21, 2022

Ladies and Gentlemen:

At the request of Trane Technologies (the "Company"), the parent company of Trane US, Inc., we are forwarding a resume of our banking experience when dealing with the Company.

JPMorgan Chase Bank, N.A. and our related affiliates, have had a significant banking relationship with the Company dating back several decades. Currently we accommodate the Company with credit facilities which include a low 10 figure unsecured revolving credit facility. Trane US, Inc. has also maintained a U.S. $ checking account with the J.P. Morgan Chase Bank, N.A. in New York for over 10 years. Our dealings over the years with the Company have always been handled in a very satisfactory manner.

JPMorgan Chase Bank, N.A. considers the Company to be a valued client and the organization is highly regarded by us.

We are furnishing this letter and the information contained herein to you as an accommodation to the Company and on the condition that this letter and the information contained herein is treated as confidential, that it is not intended to be, and does not constitute, representations regarding the general condition of the Company, its management or its future ability to meet its obligations, that neither we nor any of our officers, employees and agents shall have any liability or responsibility in connection herewith.

Best regards,

Executive Director

THE INFORMATION IN THIS LETTER IS PROVIDED AT THE REQUEST OF TRANE TECHNOLOGIES. THIS LETTER AND ANY INFORMATION PROVIDED IN CONNECTION THEREWITH ARE FURNISHED ON THE CONDITION THAT THEY ARE STRICTLY CONFIDENTIAL, THAT NO LIABILITY OR RESPONSIBILITY WHATSOEVER IN CONNECTION HEREWITH SHALL ATTACH TO JPMORGAN CHASE BANK, N.A., ANY OF ITS SUBSIDIARIES AND/OR AFFILIATES, OR ANY OF THEIR OFFICERS, EMPLOYEES OR AGENTS, THAT THIS LETTER MAKES NO REPRESENTATIONS REGARDING THE GENERAL CONDITION OF THE SUBJECT, ITS MANAGEMENT, OR ITS FUTURE ABILITY TO MEET ITS OBLIGATIONS, AND THAT ANY INFORMATION PROVIDED IS SUBJECT TO CHANGE WITHOUT NOTICE. ALL PERSONS ARE INFORMED THAT THIS RESPONSE IS A STRICTLY CONFIDENTIAL RESPONSE TO A REQUEST AND MAY BE INCOMPLETE. ANY STATEMENT ON THE PART OF JPMORGAN CHASE BANK, N.A., OR ANY OF ITS OFFICERS, AS TO THE RESPONSIBILITY OR STANDING OF ANY PERSON, FIRM OR CORPORATION, OR AS THE VALUE OF ANY SECURITIES, IS GIVEN AS A MERE MATTER OF OPINION FOR WHICH NO RESPONSIBILITY, IN ANY WAY, IS TO ATTACH JPMORGAN CHASE BANK, N.A. OR ANY OF ITS OFFICERS. FURTHERMORE, NO OFFER OR SOLICITATION ON OUR PART WITH RESPECT TO THE SALE OF PURCHASE OF SECURITIES IS INTENDED OR TO BE IMPLIED.

Years in Business

Trane has been manufacturing world-class HVAC equipment for over 100 years.

Unique Approaches or Techniques Developed and Used by Firm

Trane began in 1885 as a family plumbing business in La Crosse, Wisconsin. Joined by his son Reuben, a mechanical engineer, James Trane developed an innovative low-pressure steam heating system. By 1913, the family had incorporated as The Trane Company. Over the next hundred years, Trane established its position as a pioneer in climate control by patenting its first air conditioner in 1931 then launching the Turbovac, a new type of water chiller that fundamentally altered the industry's approach to large-building air conditioning systems. These early innovations paved the way for Trane's industry-leading commercial air conditioner, CenTraVac™— the highest efficiency, lowest emissions, most reliable chiller on the market. Today Trane is an HVAC OEM operating worldwide, providing products and services unmatched in the industry. Just a few of Trane's unique approaches include:

- Building automation systems providing continuous commissioning
- Design, and energy simulation software used by many of the world's top design firms
- Intelligent systems that can help provide predictive failure analysis
- P3 partnerships providing educational opportunities,
- Thermal storage systems allowing load shedding and off-peak utility optimization
- Innovative partnerships with VRF technology

Lines of Business: Trane Services

Trane Services help optimize building performance by connecting building and machine data to deliver the knowledge and power needed to manage buildings. Our offerings include:

ENERGY & SUSTAINABILITY

- **Energy Conservation Measures** Trane has been an accredited Energy Services Company (ESCO) since 1999 and has **executed almost $3.5 billion in guaranteed Energy Savings Performance Contracting (ESPC) work**. We solve energy problems holistically with top digital and analytical tools, engineering expertise, and a full portfolio of products and services. ESPC projects allow building owners to pay for significant building upgrades that improve energy efficiency via future energy savings that are guaranteed by Trane, eliminating the need for a significant capital expense. In addition to our work in the Commercial/State & Local/K-12/Higher Education vertical markets, Trane has been a Trane® has been a qualified DOE ESCO since 1999 and has implemented Federal ESPCs for the Defense Logistics Agency, Department of State, Navy, Army, Air Force, US Forest Service, US Geological Survey, and the General Services Administration.
- **Energy Monitoring & Analysis** Trane uses intelligent tools to monitor, track, predict, and optimize building operations. We offer a complete energy management solution that delivers improved building performance and reduced operating costs. Trane's software-driven energy

© 2022 Trane. All rights reserved.

load management and predictive analytics tools forecast, plan, and manage energy consumption to avoid higher electricity prices. Trane Intelligent Services has four major components:

Building Performance

Trane building professionals analyze data and equipment behavior in the context of the overall system, discovering hidden information and opportunities for improvement.

Energy Performance

Trane professionals maintain 24/7 watch over your critical building systems, proactively detecting issues and analyzing alarms, and initiating responses according to your specific rules of engagement.

Active Monitoring

Trane Energy Optics® and Trane Energy Analyzer—illustrate your building's energy use. Because if we can see a problem, we can change it.

Energy Assessment

Trane's cloud-based building energy management system (BEMS) service uncovers energy waste in every corner of your building.

- **Active Energy Management** Trane develops and implements integrated Active Energy Management programs that can lower energy costs, build sustainability, and reduce dependence on the electrical grid.
    - Renewable Energy & Distributed Energy Resources Trane can develop distributed energy resources (DER) to improve sustainability and resilience. Our services include onsite installations and renewable energy purchasing strategies, including virtual power purchasing agreements (VPPA). Trane's dedicated Renewable and Resilient Energy and Power Systems Team can implement solar PV, solar hot water heating, rainwater harvesting, biomass heating plants, geothermal heat pumps, cogeneration biogas, water/wastewater, and smart grid technology.
- **Financing & Energy Services Contracting** Trane's Financing Group provides expertise in grants, utility rebates, performance contracts, energy services agreements, and public-private partnerships that fund sustainability programs. Trane experts help customers select the best tool for their goals. Trane experts also help customers increase their buying power as part of a purchasing cooperative or group. Trane is a member of the nation's leading cooperative and group purchasing organizations supporting public, non-profit, and health care organizations.

© 2022 Trane. All rights reserved.

OPERATE, MAINTAIN & REPAIR

- **Connectivity and Cloud Services** Trane provides secure and scalable solutions via Trane's building optimization tools that reduce operating costs and improve comfort and efficiency. Trane Connect is a cloud-based customer portal that offers secure, firewall-protected access to building systems for remote monitoring and routine maintenance. Trane's Tracer Ensemble Building Management System is a premier web-based building management system that eliminates the complexity of managing multiple building systems across multiple sites. Tracer manages sites from a PC, tablet, or smart phone. Trane works closely with IT teams to help ensure our connected building management systems provide secure access for authorized users, and only authorized users. Trane provides seamless integration of any open standard protocol building system so that sub-systems work together and share vital information.
- **HVAC System Management** Trane develops warranty and maintenance programs that improve budget planning, save energy, and minimize downtime. Offerings include start-up services to ensure a new system is performing to spec., service agreements to extend system life, extended warranties that provide longer duration/comprehensive coverage, and predictive services to detect issues early.
- **HVAC System Repair** Trane provides locally based, factory-trained technicians to service Trane systems as well as any other brand of HVAC equipment.
- **Rental Solutions** Trane Rental Services provides 24/7/365 local service, engineering expertise and an expansive fleet of rental chillers, air conditioners, cooling towers, air handlers, portable heaters, power generators, and ancillary products for planned or unplanned, simple, or complex, and short- or long-term needs.
- **Parts and Supplies** Trane Supply provides HVAC service professionals with parts, supplies, and replacement equipment to help them serve their customers via a network of more than 360 locations throughout the United States and Canada.

DESIGN, UPGRADE & MODERNIZE

- **Upgrading Existing Equipment** Trane upgrades help HVAC systems operate more efficiently and environmentally friendly. Typical upgrades include controls, variable frequency drives, and refrigerant conversions.
- **Building Systems Design and Upgrades** Trane maintains high performing buildings by keeping building automation, HVAC, lighting, and central plants up to date with the latest BAS innovations.
- Trane has expertise in Central Plant Design. Examples include:
    - Clemson University Central Energy Plant, Clemson, SC – Feasibility Study, Design, Construction

© 2022 Trane. All rights reserved.

- Georgia World Congress Center, Atlanta, GA – 30 MBTU of new condensing boilers and a new Central Energy Plant that includes new energy efficient chillers, boilers, and pumping systems.
- Hillsborough County Central Energy Plant, Tampa, FL – Design, Construction, Operation and Maintenance of a 3,900-ton central energy plant with 84 thermal ice storage tanks and extensive underground piping system connecting seven county buildings.
- Pinellas County Central Energy Plant, Clearwater, FL – Feasibility Study, Design, Construction, and Operations and Maintenance
- Pueblo County Courthouse, Pueblo, CO – EarthWise® Ice-Enhanced, Air-Cooled Chiller Plant
- Tampa Housing Authority and Bank of America Development, Tampa, FL – Encore Central Energy Plant

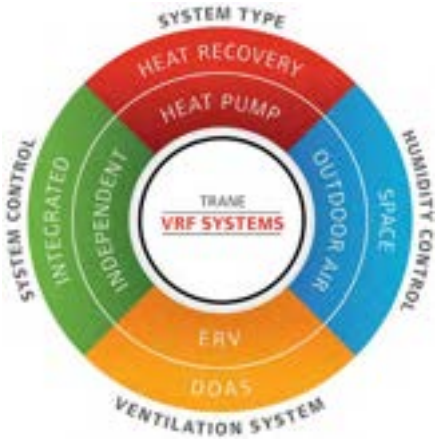
- Trane has experience working with municipal owners and their design consultants on Wastewater Treatment Plant Equipment and Maintenance projects. Examples include:
  - City of Bremerton, WA, Wastewater Treatment Plant
  - City of Lakota, WA, Wastewater Treatment Plant
  - City of Lynwood, WA, Wastewater Treatment Plant
  - City of Monroe, WA, Wastewater Treatment Plant
  - City of Santa Rosa, CA, Wastewater Treatment Plant
  - LOTT Cleanwater Alliance, Budd Inlet, Tacoma, WA, 335kW digester methane gas driven cogeneration systems and Treatment Plant
- **HVAC System Retrofits** Trane evaluates whether a retrofit or replacement will provide the better return on investment. Trane provides the service and support from conception to completion to select the ideal equipment and controls for buildings and can implement the installation as mechanical contractor.
- **Indoor Air Quality (IAQ)** Trane's IAQ Assessments include a fact-based, comprehensive review of building results and a straightforward report of condition. We can make recommendations on how to improve building air quality to meet the latest industry guidelines and implement the changes. Trane also provides ongoing IAQ monitoring. Trane's system improvements meet industry guidelines and reduce energy costs. Our solutions include:
  - Ultraviolent Lamps in Ductwork to prevent microbial buildup on air filters, cooling coils, drain pans, and duct surfaces.

© 2022 Trane. All rights reserved.

- Dynamic Air Cleaners to ensure that your HVAC system not only heats and cools—but cleans the air.
- Synexis® Dry Hydrogen Peroxide (DHP™) to fight viruses, bacteria, mold, odors, and insects.

Trane's recent K-12 IAQ experience includes:

- City of Des Peres, MO
- San Felipe Del Rio Consolidated Independent School District, TX
- Mason Public Schools, MI



The following K-12 IAQ initiatives were completed under Trane's OMNIA agreement:

- Normandy School District, MO
- Muhlenberg County Schools, KY
- Danville Independent Schools, KY
- Webster County Schools, KY

Lines of Business: Trane Building Systems and Technologies

VARIABLE REFRIGERANT FLOW (VRF) AND DUCTLESS SYSTEMS

Variable Refrigerant Flow (VRF) technology is taking the HVAC industry by storm. VRF technology is a popular choice for a variety of building sizes and uses by offering higher energy efficiency, smaller footprints, and greater flexibility. Additionally, VRF heat pumps and heat-recovery systems are popular strategic electrification solutions as part of the greater drive towards the decarbonization of HVAC systems.

Trane has paired applications knowledge and expertise with its extensive equipment and controls offerings to provide variable refrigerant flow (VRF) systems solutions. This fully integrated, high-performing HVAC system solution is designed to deliver customized comfort throughout any commercial space. Regardless of the capacity, energy efficiency, functionality, or performance-monitoring requirements, our VRF Systems Solutions, featuring Trane® / Mitsubishi Electric VRF Technology, are designed to exceed the comfort and sustainability goals established for commercial building projects.

- **N-Generation CITY MULTI® VRF** Trane® / Mitsubishi Electric VRF products include a variety of outdoor units, indoor units, ventilation solutions, controls, and more to design a complete VRF system for any building.
- **Trane®/ Mitsubishi Electric P Series** Ductless, boundless, and full of Potential, the P Series systems are highly efficient and the right solution for your light commercial applications. Outdoor cooling units. Indoor units. Ductless controls.

© 2022 Trane. All rights reserved.

- **Nv Series Zoned Cooling and Heating Solutions** Ductless with a difference, the Nv series affords user-friendly, zoned cooling and heating solutions for single- or multi-room applications.
- **Nv Series Zoned Cooling and Heating Solutions** Ductless with a difference, the Nv series affords user-friendly, zoned cooling and heating solutions for single- or multi-room applications.

CHILLERS — LEGENDARY RELIABILITY, QUIET SOUND, AMAZING ENERGY EFFICIENCY.

- **Comprehensive Chilled Water Systems** Trane's comprehensive chilled-water systems employ best practices in chiller plant design that align with current industry guidance for achieving high performance cooling, heating, and ventilation, all while reducing first cost.
- **Comprehensive Chiller-Heater Systems** Trane Comprehensive Chiller-Heater systems — featuring electric heat pumps — provide cost-effective, energy-efficient, reliable cooling and heating, while reducing carbon emissions. Ideal for larger buildings, especially those with a central plant, these pre-engineered system solutions make electrified HVAC systems easier to specify and implement.
- **Intelligent Variable Air Systems** Our Intelligent Variable Air systems simplify the design and implementation of systems that HVAC designers typically consider complicated and time-consuming. With new technologies and optimized controls, these systems are 20% to 30% more efficient than traditional multiple-zone VAV systems.
- **Water-Cooled Chillers** We have optimized our fleet of water-cooled chillers to help customers maximize efficiency, benefit the environment, and reduce operating expenses. With HVAC costs making up 40% of commercial building energy consumption, the right chiller represents an incredible opportunity to reduce the energy intensity.
- **Air Cooled Chillers** High efficiency and low noise are the hallmarks of all Trane's air-cooled chillers. Our robust portfolio features a wide operating map, so you can find the just-right solution for your building. We offer an array of tonnage sizes, efficiencies, and performance features to meet your requirements. Whether you need a classic chiller with dependable performance or an environmentally conscious chiller with next generation refrigerant, there's a Trane model for every customer.
- **Modular Chillers** MiniMod™, SuperMod™, PolyTherm™ and Manhattan™ Gen II chillers represent the line-up of Trane's modular chillers. Trane is committed to manufacturing products that are highly efficient, reliable, serviceable and cost effective. Our proven performance is backed by careful engineering.
- **Cold Generator Scroll Chillers** The Cold Generator Scroll Chillers are a family of traditional capacity and compact expandable capacity Scroll chillers suitable for a range of comfort and process cooling applications. Concise footprints and doorway friendly design make them an ideal solution for new construction, retrofit and replacement applications

© 2022 Trane. All rights reserved.

TRANE® PACKAGED UNITS AND SPLIT SYSTEMS

Whether for a large data center, a complex commercial concern or a small business, Trane offers sustainable options to deliver customized comfort and efficiency.

- **CoolSense® Integrated Outdoor Air Systems** The CoolSense® pre-packaged HVAC design system combines a dedicated outdoor-air system (DOAS) with chilled-water sensible-cooling terminal units to deliver a flexible, energy-efficient solution that enhances comfortable spaces and simplifies maintenance.
- **Intelligent Variable Air Systems** Trane Intelligent Variable Air systems simplify the design and implementation of systems that HVAC designers typically consider complicated and time-consuming. With new technologies and optimized controls, these systems are 20% to 30% more efficient than traditional multiple-zone VAV systems.
- **Zoned Rooftop Systems** Ideal for small buildings, Trane® Zoned Rooftop Systems provide cost-effective options to increase comfort and energy efficiency, while simplifying operation and maintenance. These packaged systems make advanced functionality affordable and easy for non-technical users to operate.
- **Rooftop Units** Small to Large Commercial Rooftop Units: 2 - 162 Tons. Our broad portfolio of solutions can meet any building's footprint requirements and are easy to install and maintain.
- **Split Systems** Trane offers the broadest selection of split system components. Design the system you need for a corner retail shop, light commercial application, office building, hotel, school and more. Choose from gas furnace and indoor coil options for smaller buildings to a full line of air handler units and compressors with capacities from 6 - 120 tons.
- **Self-Contained Systems** For new construction or retrofit, Trane self-contained HVAC systems are a great fit. Some projects can make installation of HVAC systems tricky. With a complete line of self-contained HVAC systems from 20 - 110 tons of capacity, Trane can satisfy any new construction or retrofit application with reliable, energy efficiency comfort.
- **Water Source Heat Pumps** Fully compatible with geothermal technology, Axiom™ water source heat pumps from Trane offer higher efficiencies — up to 40 EER on select configurations — than other conventional heat-pump technologies, along with precise space heating and cooling capabilities for superior comfort. Available eFlex variable-speed control minimizes on/off system cycling, temperature swings, noise, and energy use. Axiom™ durability, performance and efficiency means exceptionally low life-cycle costs to boot. Building owners can also take advantage of a 10% federal tax credit on qualifying installation costs if geothermal system placed in service before Jan. 1, 2022.
- **Dedicated Outdoor Air Solutions** Trane® dedicated outdoor air systems condition 100 percent outdoor air — improving indoor air quality, controlling relative humidity, and reducing the load on other HVAC equipment in a building.

© 2022 Trane. All rights reserved.

AIR HANDLERS, TERMINAL DEVICES, VAV AND FAN COILS

- **CoolSense® Integrated Outdoor Air Systems** The CoolSense® pre-packaged HVAC design system combines a dedicated outdoor-air system (DOAS) with chilled-water sensible-cooling terminal units to deliver a flexible, energy-efficient solution that enhances comfortable spaces and simplifies maintenance.
- **Terminal Devices** The Trane® portfolio of fan coil, unit ventilator and blower coil solutions are designed to make installations faster and easier, and to maximize HVAC system performance. Using advanced technology, these systems reliably and efficiently deliver the comfort your building occupants need. We are the only manufacturer that offers factory-commissioned, single-zone VAV systems integrated with Tracer® UC400 controllers, delivering up to 66 percent higher efficiency, temperature stability, quiet operation, and dehumidification advantages for varying-occupancy spaces. Trane fan coil, unit ventilator and blower coil solutions deliver efficiency and comfort to a wide variety of buildings, applications, and people — quietly and dependably — day after day, year after year.
- **Sensible-Cooling (DOAS) Terminal Units** These terminal units reduce energy use and operating costs with Electronically Commutated Motor (ECM) and modulating airflow control algorithms. Trane sensible-cooling terminal units are constructed with a 10.5 inches casing height and are an excellent choice when plenum spaces are tight.
- **Variable-Air-Volume Units** VariTrane™ variable-air-volume units (VAV) are among the industry leaders in quality and reliability and are designed to meet the specific needs of today's applications. This generation of VariTrane units builds upon Trane's history of quality and reliability and expands the products into one of the most complete variable-air-volume units offering in the industry. Our units feature rugged variable-air-volume units construction, are available in several different profiles to suit the space available, and all utilize digital controls for energy-efficiency and to facilitate interface with building management systems.
- **Performance Climate Changer® Air Handlers** Trane® Performance Climate Changer® air handlers can help HVAC systems achieve higher energy efficiency and indoor air quality while reducing maintenance requirements – adding life to buildings and improving the lives of people within them. From the most straightforward needs to wide-ranging demands for air cleaning, dehumidification and energy savings, there's a Trane Performance Climate Changer® air handling unit to deliver everything your project requires.
- **Air Handler Technologies** Trane continually invests in air handler research and development of new products to adapt the changing needs of today's HVAC market. Our focus on whole systems has led to the design of many custom options that can be incorporated into standard cataloged air handler, providing a more cost-effective solution than a completely custom-built unit. These custom-engineered air handler solutions are offered as offered as factory-packaged specials that deliver Trane quality, enable simplified on-site installation, and provide proven, tested performance. The air handler solutions address such issues as humidity control, energy recovery, special acoustical needs, air filtration and the use of optional fuel sources.

© 2022 Trane. All rights reserved.

- **Unit Heaters** The Trane electric architectural forced-air wall unit heaters combine quiet, reliable heating with an attractive cabinet design. Their ease of installation, rugged construction and architectural styling particularly suits them for space heating applications in commercial, industrial, and institutional applications. These unit heaters range from smaller room-sized electric heaters to large indoor and outdoor duct furnaces.

VARIABLE FREQUENCY DRIVES (VFD)

Trane TR200 Series drives play an important role in a system to reduce energy usage, extend motor life, optimize AC motor speed control, maximize occupant comfort, and reduce costs.

- **TR200 Series Variable Frequency Drives** Trane TR200 Series drives' support of open standard protocols make them compatible with virtually all HVAC equipment and building automation systems. They can also be ordered specifically for a project and easily installed on-site for new and retrofit applications. With a complete range available from 1½ to 1350 HP, the features and flexibility of TR200 Series drives make them ideal for stand-alone control of cooling towers, exhaust fans, pumps, and a variety of air handlers.

ENERGY STORAGE

- **Thermal Battery Systems** Trane Thermal Battery™ systems are premier HVAC plants that provide a distributed resource for our changing grid. Their ability to store thermal energy enables your building to reliably modify HVAC operations to optimize for carbon reduction or energy cost savings.
- **Thermal Energy Storage Solutions** Leveraging Trane energy storage technologies can help improve how power supply is managed, creating a more resilient energy system by increasing your building's energy agility for greater sustainability and profitability, while reducing grid dependency. Trane offers a number of energy storage solutions to help our customers meet their objectives. Solutions include thermal energy storage (ice or chilled water storage), batteries, and industrial process and flow management solutions.

PRECISION COOLING

Precision cooling is essential for mission critical applications such as data centers and indoor agriculture. With industry-leading expertise and a wide array of solutions and services, Trane — a holistic provider — can help customers ensure mission critical facilities are highly reliable, efficient, and sustainable. Trane's application engineering expertise and systems approach allows for efficient, flexible, and scalable integrated designs, meeting specific customer needs that ensure uptime and performance.

- **Precision Temperature and Humidity Control** Trane delivers a broad range of cooling capacities for mission critical applications, from a small technology room to the largest data centers –all supported by the local services organization with global footprint wherever and whenever you need it.

© 2022 Trane. All rights reserved.

Trane Building Management and Automation

At the base of every system, we provide an integrated and secure solution that meets the needs of your project or building, with the ability to optimize your HVAC equipment, lighting and more. Take back control of your building and achieve the operational excellence you and your customers are seeking.

- **Solutions for Large Buildings and Campuses** Design and manage smarter buildings. Our Tracer® Ensemble® technology provides the ultimate user experience by combining custom reporting and dashboards to view and optimize assets. Easily access alarms, setpoints, and schedules from virtually anywhere through a secure remote access. Additionally, with Ensemble you have access to Tenant Services™ and Work Order Management to maximize your occupants' comfort while minimizing stressful procedures. Tracer® SC+ with its easy-to-use Synchrony® Interface is a powerful building automation system for your facility that will integrate systems to simplify command and give you better control over comfort and energy efficiency. Lighting Solutions: control over half of your building's energy use by integrating your lighting system with one simple-to-use interface. With Air-Fi® Wireless, you can create the reliable, flexible system you want without the wires. It also allows for easy Building Automation System infrastructure updates by allowing a phased approach based on your timeline.
- **Small Building Solutions** Our Pivot® Smart Thermostat System allows you to maintain an ideal environment that works for you with an easy-to-use interface. Smart thermostat features enable you to easily manage comfort as a natural part of your day. Does your business have multiple buildings or locations? Pivot provides the ability to control multiple buildings, so your occupants can thrive in every location. Pivot® Smart Thermostat system now integrates with Tracer® Ensemble® Cloud! This new integration brings the capabilities of an enterprise management system to include buildings that are only thermostat-controlled equipment.
- **Air-Fi® Wireless Communications** A communicating and sensing technology that allows the different parts of a building system, from your HVAC and building controllers, to communicate wirelessly. Cut the wires — and get comfortable with Trane® Air-Fi® wireless.
- **Lighting Solutions** Trane has a dedicated lighting group that provides a holistic approach to procure, design, and implement lighting solutions that maximize energy conservation and save money. HVAC and lighting are two of the biggest energy users in commercial and industrial buildings. Together they consume approximately 52% of a typical building's energy use. HVAC and lighting also have many similarities in their relationship to building occupancy and use, so it makes sense to manage them holistically to maximize energy conservation. Trane's team has overseen the installation of more than $150 million annually in lighting solutions for a wide range of clients. This massive volume of lighting projects affords Trane the ability to purchase Tier 1 lighting products cost

Trane uses strictly **Tier 1** quality lighting products. Only seven of the hundreds of thousands of lighting manufacturers in the world are considered **Tier 1.**

Most of these products are made in the US, Canada, and Mexico.

© 2022 Trane. All rights reserved.

effectively. We can integrate lighting to HVAC systems via your Building Automation System (BAS).

- **Controls Solutions for Light Commercial Contractors** Bringing innovative technology and solutions to your customers is more important than ever. Achieve new levels of productivity, energy efficiency, reliability, and preparedness by partnering with Trane.

Trane Design and Analysis Software Tools

- **Design Tools** TRACE® 3D Plus Load Design, Trane® Design Assist™, VariTrane Duct Designer, Pipe Designer are among some of the applications in this portfolio.
- **Analysis Tools** Among 3 applications in this category, TRACE® 3D Plus is our next generation building design and analysis software program that delivers faster, more accurate results through a seamless workflow that closely aligns with today's building process. The latest HVAC systems and controls can be modeled quickly, precisely and with the intricacies of today's many building applications. TRACE 3D Plus is built on the U.S. Department of Energy's EnergyPlus engine and enhanced with Trane's industry leading expertise to help designers validate and interpret projects with confidence and clarity. All of these new features plus a more robust support experience to get you up and running quickly.
- **Selection Tools** Trane's product selection program formerly known as TOPSS™, is now Trane® Select Assist™. Users can now access this flexible and powerful tool on their PC, tablet, or smartphone. Our selection program guides users through the process of configuring Trane equipment to meet or exceed the project specifications.
- **Complimentary Calculators and Charts** Trane software range features a variety of free tools that make your design and analysis tasks easier. These calculators include software to calculate your potential LEED compliance.

Additional Information Advantageous to Racine County

CREATIVE FUNDING

Power Purchasing Agreements

A Power Purchasing Agreement (PPA) is typically used for renewable technologies or energy-generating infrastructure. This structure is generally considered off-balance sheet and is not debt for the end user. In this structure, Trane would install the renewable, micro-grid, or energy-generating assets and create a long-term contract with the public agency to purchase the power generated by the infrastructure installed. The capital to fund this project is provided by Trane directly or through a third-party financier or owner. The asset would then be offered to the public agency at the end of the contract term in form of a purchase option (fair market value).

This structure is advantageous because it allows the third-party owner of the asset to take advantage of depreciation and tax credits (in the case of renewables). This can significantly lower the total operating cost of the infrastructure, which makes your operating contract less costly. This financing structure is beneficial for public agencies looking to lock in a low and consistent utility rate in exchange for hosting

© 2022 Trane. All rights reserved.

energy generating assets, supports the public agencies sustainability initiatives, and is owned by a third party.

Energy Services Agreement

An energy services agreement (ESA) is an alternative that has the opportunity to be considered as credit-neutral structure from an accounting point of view. Under an ESA, a customer agrees to make contingent payments based on the energy savings or other contractual allowances realized, rather than a fixed debt-service payment. In this way, the customer is assured that the payment it makes is always less than or equal to the corresponding reduction in operating cost. As a result, there is a neutral or positive impact on your cash flow. Using an ESA assures that there is a direct relationship between the payment and the verified energy savings realized:

- This model leverages third-party ownership of an asset to be eligible for federal and state tax benefits that would not be traditionally available to the public sector
- Structured as a service contract to relieve capital budget burden
- Zero capital outlay
- Zero balance sheet impact
- Payable from operating funds
- Preserves capital and borrowing

Energy-as-a-Service (EaaS)

Similar to an ESA structure, under Energy as a Service (EaaS) model, the project assets are owned by a third party. Trane takes on the performance risk, and the customer pays for the services provided by the project. EaaS is a fee for service model designed for customers to pay per unit of energy they consume subject to the availability of the installed equipment. Much like electricity generated from a solar PPA, efficiency savings from installed equipment such as chillers, boilers, lighting, etc. can be structured much like a Power Purchase Agreement ("PPA").

The structure is outcome based with the customer receiving agreed upon key performance indicators (KPIs) and savings as applicable, and/or any combination thereof. The customer payments will be reflective of the project performance. Working with the Trane, the SPE sets a certain level of performance. If the performance isn't realized, the Trane will make up any shortfall. At the expiration of the contract, the customer will have the option of extending the contract term, paying the fair market value for the project assets, or returning the project assets to the SPE owner. The abandon in place option is at the discretion of the SPE owner. All these options will be negotiated between the parties.

Public-Private Partnerships (P3)

Under a public-private partnership (P3) model, the customer can assign to Trane or a third-party certain risks that are normally borne by the public owner under a traditional arrangement like a design-build contract. These risks include the design, construction, and maintenance of the project.

© 2022 Trane. All rights reserved.

This financing arrangement allows the customer to assign construction, performance, and maintenance risks components to a third party, while minimizing financial impacts. This can provide you with an expected and secured annual operating cost over the term of the contract. It will also spell out the end-of-term customer options.

In this public-private partnership, the delivery model requires an agreement between a public owner and a private sector partner for the design, construction, funding, and operations and maintenance of the assets by the private sector partner over an agreed upon amount of time. A P3 normally uses a performance-based methodology for the technical requirements and specifications. This allows the customer an opportunity to leverage Trane's experience and expertise to guarantee a defined level of performance of an asset throughout the life of the agreement. Financing can be a combination of equity and debt.

Under this P3 arrangement, the operations, maintenance, removal, and performance risks are wholly shifted to Trane in order to supply the credit support required by private sector equity providers. Trane can assume complete O&M responsibility with a corresponding assignment of risk, or we can offer operations management supervision –with O&M provided by your workforce with less risk transfer.

ANTICIPATION DISCOUNT PROGRAM

The Trane Anticipation Discount Program can give you the opportunity to add value to your HVAC Supplies by reducing the cost of purchase by making payment prior to shipment. With this program you can reduce your costs while financing the project at an attractive rate, gain immediate order approval and enhance your credit standing.

The Trane Anticipation Discount Program can be customized for each project you are planning, using any Trane HVAC supplies, allowing for variable payment amounts in addition to variable payment dates.

The amount of your final discount is based on a formula that incorporates several factors including payment amount, time of payment, current discount rate and sipping dates.

OPPORTUNITIES FOR K-12 ENERGY EDUCATION

As a leading global provider of indoor comfort systems and services, Trane feels a responsibility to educate students on the importance and benefits of energy efficiency. Trane has several educational opportunities for school administrators:

The BTU Crew™

Trane's **BTU Crew** is an educational program that teaches kids easy ways to save energy. The program promotes STEM careers by showing students how much fun science and energy can be. When you invest in your school's infrastructure, you invest in your students' futures as well. We can help you create a better learning environment where the school becomes a living, hands-on learning lab and provides relevant program curriculum to round out your student education with practical skills for when they graduate.

© 2022 Trane. All rights reserved.

Trane provides this feature for one building at no cost. Trane's educational emphasis:

- Teaches students of all levels the basics of energy
- Creates passion for a future career in science, technology, engineering, and math (STEM)
- Engages students in decisions impacting their school's energy use
- Builds real-life skills in technical education with industry-recognized certifications

Promotes an Early Interest in Energy and STEM

Studies show that kids can develop life-long preferences at an early age. By the fourth grade, one-third of boys and girls have lost an interest in science. By eighth grade, almost half have lost interest or deemed it irrelevant to their education or future plans.

That's why Trane's educational offerings begin early in a student's life. The BTU Crew™ encourages interest in STEM, and helps students learn how to increase energy efficiency. The BTU Crew™ is:

- Interactive and engaging
- Customizable and adaptable
- Available in Grade 4+ and Grade 8+ versions

Provides Hands-On Learning Through Digital Solutions

Easy-to-use interactive digital tools give students an engaging, visual way to learn the concepts of energy efficiency and sustainability by understanding the energy use in their own school. Students can design the dashboard metrics and track results toward energy and carbon footprint goals, giving them a deep understanding of the dynamics of energy – while advancing their analytical and problem-solving skills.

Students Gain Knowledge on Energy and Learn How to Make a Difference

Over the course of six lessons, your students will learn about energy, energy efficiency, careers, and ways to act.

- **Energy 101:** Students learn about energy, energy transformations and energy usage.
- **I Spy…Energy Efficiency:** Students learn what energy efficiency means and how to be energy-efficient through hands-on experiments.
- **Careers:** Students learn what different types of engineers do, specifically concerning energy usage.
- **Energy Audit:** Students conduct a preliminary energy audit of their school using Trane's web-based tool to view real results.
- **What's Our Energy Score:** Students analyze the results of the energy audit.
- **Expand the BTU Crew™:** Students act by presenting findings or writing a letter to a local legislator.

NC3 – The National Coalition of Certification Centers

Trane is a proud sponsor of **NC3**, a national network of educational institutions working with industry, trade, and professional organizations to develop and implement industry driven, portable certifications. Trane's NC3 initiatives focus on technical education and workforce development in the HVAC and energy efficiency sectors. NC3 provides curriculum and associated certifications that high school students can earn. These certifications are designed for integration into an existing technical program to enhance what is already being taught. NC3 certifications can be applied across several different industries, therefore creating flexible, stackable, and relevant credentials to students and a wide variety of employers.

Integrating industry certifications into an academic course combines the best of both worlds by enhancing teacher skills, delivering the professional development that technical educators look for, and providing students with more opportunities and relevant job-ready skills.

NC3 National Signing Day

NC3, working with companies like Trane, also delivers innovation – an example being NC3 National Signing Day. This is where students, many of whom are in their last year of high school, are recognized at their chosen Technical College like how athletes sign letters of intent for Division I colleges. In this case, students are recognized for choosing to pursue a technical education.

Trane has many capabilities that make us different than our competition. We work with our education partners to strategically use everything that Trane has in our portfolio of services. Detailed on the following pages are just a few of the offerings that Trane feels would interest to school districts.

We Will Help You Spread the Good News

Trane regularly collaborates with our customers to promote projects, milestones, and results – with customer consent, collaboration, and approval every step of the way. We work with our customers to determine what, when and how to promote milestones that mutually benefit both parties and showcase a shared commitment to innovation, energy efficiency and sustainability. Sample promotional opportunities include:

- Social media posts
- News releases on key project milestones
- Joint events and speaking engagements
- Written or video case studies
- Website or annual report feature
- Customer awards and recognition

We also regularly honor customers that demonstrate the highest levels of commitment to energy efficiency and sustainability through our customer awards program, which includes our Energy Efficiency Leader Award and Climate Stewardship Award. Promotional elements for recognition vary based on customer preferences, but often include some combination of an employee or public event / award presentation; written and video case studies; news release; building tour; media outreach; and social media posts and internal employee communications.

River Trails District 26 honored for sustainability efforts

Daily Herald report Updated: 10/19/2021 10:15 AM

River Trails Elementary School District 26 in Mount Prospect recently received a Reducing the Energy Intensity of the World Award for its sustainability commitments, including a significant reduction in energy consumption at its facilities, officials announced this week.

The award from Trane Technologies coincided with the christening of the newly renovated Prairie Trails School, Mount Prospect's first net-zero energy consumption facility. Net-zero energy consumption buildings use a total amount of energy annually that is equal to or less than the amount of renewable energy created on-site.

Prairie Trails School is on track to save more than $32,000 a year in gas and electricity costs while offering optimized indoor air quality and reliable, energy efficient performance, officials say. Solar panels, combined with other energy saving design elements, are offsetting the building's annual electricity consumption.

"The renovation of Prairie Trails School was a significant project for our district," said Lyndl Schuster, assistant superintendent for business services. "Not only did we require an upgrade to our facilities in order to best serve our students, we also wanted to remain committed to a districtwide sustainability initiative."

Williamson County Schools, TN

Presentation for Association of County Mayors in , Tennessee, *Infrastructure Improvement and Energy Conservation Program funded with Guaranteed Savings – In Tennessee*, Aug. 30, 2021, features quote about Williamson County project that Trane completed*

9. Proof of Performance

a. Services Bidder Can Perform

9. To further demonstrate similar experience and provide proof of performance:
    a. Include a detailed description of the Services Bidder can perform, including training, start-up and commissioning services, installation, maintenance, turn-key services, project approach to Indoor Environmental Quality (IEQ), repair services, rentals, leases, equipment upgrades, and any other services provided by the Bidder.

Trane provided service information in the Lines of Business: Trane Services (pages 23-33). Additional information is provided on the following pages.

Below is a list of categories provided under this contract and, by no means, is restricted to just these items. Detailed descriptions of training, start-up and commissioning services, installation, maintenance, turn-key services, IEQ, repair services, rentals, leases, and equipment upgrades are provided on the following pages.

HVAC Equipment and Products:

- All Trane commercial equipment including all applied, unitary, terminal units and heating products procured domestically
- Cooling Towers
- Frequency Drives
- Ductless split systems & VRF products
- Pumps
- Boilers, hot water heaters and water specialties
- Modular chillers
- Dust collection systems & servicing
- TAS packaged central plants
- Evaporcool evaporative process cooling
- Dynamic air filtration
- Genesis conversion (photo catalytic oxidation) technology
- Heat recovery air handlers
- Unit ventilators
- Trane parts in conjunction with Trane contracted repair and retrofit of existing Trane equipment as well as over the counter purchases
- Outsourcing of chilled and hot water by providing plants owned by Trane and leased to the governmental entity
- Adsil coatings as required on all HVAC equipment
- Indoor Air Quality services such as appraisals, filtration analysis and remediation

Installation and Services

- Lighting and retrofits
- Equipment startups and warranty support

© 2022 Trane. All rights reserved.

- HVAC, refrigeration, and plumbing installation including complete turnkey replacements, new construction, renovation, and new construction projects
- Included are any ancillary labor tasks, related to HVAC, refrigeration, or plumbing installations.
- Predictive maintenance such as oil, refrigerant, and vibration analysis
- Many types of repair services with coverage (full, partial, and preventive) on existing Trane HVAC equipment types as well other OEM brand names and plumbing fixtures and systems
- Remanufacturing services **including Trane's exclusive R'Newal programs**
- All turnkey contracting including engineering, architectural and general contract work as it relates to the HVAC, refrigeration, plumbing requirements, and other mechanical systems
- Municipal services including wastewater treatment plant work, pump stations, and heat transfer systems

Related Products, Solutions, and Other Services:

- Trane building automation equipment to the extent that it is coupled with installation of both new and/or retrofit of BAS systems
- Training-both local and factory providing skill building, educational programs, and certifications
- System commissioning and reporting analytics
- Many types of monitoring such as man-in-attendance, BAS remote monitoring and Intelligent Services
- Maintenance services including full and preventive maintenance contracts including time & material contracts
- Equipment modifications as it relates to either a new construction or retrofit project including custom fabrication
- Filter change outs, contract maintenance and over the counter sales
- Warranty services and extended parts and labor warranties
- Air and water balancing
- Building Automation analytics and Energy Optics programs
- Financial services such as leasing (all types), prompt pay discounting, anticipation discounting, guaranteed savings programs and long-term financing solutions.
- Site surveys of existing facilities
- Rental HVAC equipment from Trane Rental Services
- System analysis of existing facilities including modeling and payback analysis
- Project management services such as contract managing and analysis of bids and budget prioritization
- Long range school planning and facility audits
- Data management services of existing facilities via ComfortSite
- Estimating resources for budgeting of projects
- Engineering and architectural services such as MEP, structural and civil
- Contracting for packaged enhanced solutions
- Facilities Management program
- Airport HVAC systems including localized jet-bridge air conditioners

TRAINING

Trane offers a variety of training programs to choose from. These can be conducted at your location, at a nearby Trane office, at our national training centers, or through training manuals. We can include any combination of these resources, depending on your preference.

Our course instructors have strong controls and HVAC service backgrounds. They draw on the expertise of Trane applications engineers, product engineers, technical support engineers and product development teams to provide the best training possible.

On-Site/Virtual Training

This training is designed around applications specific to your facilities. Examples include:

- System training to understand chillers, dehumidification, and rooftop variable air volume units.
- Controls training to obtain the best performance from your building automation system.
- Boiler plant efficiency and maintenance, lighting, and water conservation measures.
- Shadowing Trane technicians while we provide contracted maintenance services.

Office Training

Trane can customize training for your employees at our offices. This includes the material covered in our Trane University courses listed below.

Trane University

Trane University offers Building Systems and Controls training in St. Paul, MN and Technical Service training in La Crosse, WI. These courses also can be conducted at Trane offices throughout North America. In either case, our instruction will further advance your staff's understanding of systems and the interaction between various components. Well-trained facility managers and technicians will minimize service costs by efficiently identifying and correcting problems.

- ***Building System and Controls training*** offers a comprehensive portfolio of technical courses to help you effectively monitor and coordinate your HVAC equipment and systems using your Trane building automation system. This will be provided by the Controls Vendor, CSO as referenced below.
- ***Technical Service training*** offers factory training for commercial systems service, maintenance, and operation. These courses are designed to increase technician competence and confidence when servicing HVAC and controls systems.

© 2022 Trane. All rights reserved.

Trane A/C Clinics

Trane has developed several training manuals to support our in-person training efforts, including an A/C Clinic. This comprehensive course covers the fundamentals of heating, ventilating, and air conditioning. Each clinic includes a student workbook, with corresponding quiz questions/problems.

START-UP AND COMMISSIONING SERVICES

Trane has a strong local presence, and we service what we install with our own service technicians. Trane follows a process called Contracting to Service Transition, where the local Trane technicians' part of the start-up and commissioning so that they are prepared to support the facility once implemented. Our strong local presence and this process using our own service technicians allows us to have the fastest possible response times when a need for service should arise. In addition to providing on-site service from our local team, Trane local remote monitoring capabilities and can leverage the data that we gather with the knowledge of the Trane technicians and account team that are responsible for your facility. This approach adds to Trane's ability to provide fast and proactive service, at times identifying and starting to resolve issues prior to the customer knowing about it. Trane's maintenance services include:

- **Elite Start Services** – Give your new system the assurance of optimal performance and a long-life cycle
- **Repair Services** – Trane technicians can service all brands and types of HVAC units
- **Scheduled Agreement** – Periodic maintenance of systems to ensure peak operating performance
- **Select Agreement** – Added protection against unexpected equipment failures
- **Remote Diagnostics** – Ability to monitor your critical building systems remotely and quickly troubleshoot as necessary

INSTALLATION

A qualified and dedicated Project Manager (PM) is assigned to manage the day-to-day installation and construction activities at the project site in accordance with the design, costs, schedule, safety protocols, and QC process. The PM leads and manages the installation team, including subcontractors, and is responsible for Project Schedule. Trane has a nationwide resource pool of 133 construction managers available to provide support to the assigned PM.

MAINTENANCE

To help optimize the performance of your building systems, our service technicians and other professionals will assist at whatever level you desire. Whether you're installing new equipment, maintaining an existing system, or completely upgrading your infrastructure, we can provide the expertise to match your specific needs.

Choose from among the following services

- **Scheduled Agreement** – Periodic maintenance of systems to ensure peak operating performance

© 2022 Trane. All rights reserved.

- **Select Agreement** – Added protection against unexpected equipment failures
- **Remote Diagnostics** – Ability to monitor your critical building systems remotely and quickly troubleshoot as necessary

Scheduled Agreement

Under our Scheduled Agreement offering, factory authorized service technicians perform the periodic maintenance required to keep your systems operating at their peak, so you no longer must plan, schedule, or manage routine maintenance. We are fully trained to perform maintenance on Trane HVAC equipment and other brands within your facilities.

Under a Scheduled Agreement, your building systems are maintained by our knowledgeable service technicians using Six Sigma maintenance procedures to deliver the highest level of quality. Clients often experience lower maintenance costs under a Scheduled Agreement because impending equipment failures can be identified and resolved before they become major problems.

Select Agreement

With a Select Agreement, you receive all the benefits of a Scheduled Agreement, plus parts and labor coverage for maintainable equipment selected by your team – and approved by Trane.

We will work with you to select the major components and systems in your facility that you want Trane to maintain. We cover the cost of repairing your systems or replacing the pre-selected components, should they fail. We will help you consider acceptable performance ranges, reliability, and risk tolerance to determine the level of coverage you require for your HVAC maintenance needs.

Remote Diagnostics

Quickly detect failures in your building with round-the-clock monitoring from the Trane Intelligent Services center, where our building professionals provide support 24 hours a day, 365 days a year. Beyond alarm detection, Trane building professionals with deep industry expertise analyze each incoming alarm and initiate action to resolve the issue, thereby maintaining efficiency and peak performance. The ability to address some problems remotely can reduce the need for service calls – and the amount of time your staff spends on facility-related problems.

TURNKEY SERVICES

Trane creates comprehensive solutions based on a thorough understanding of your business goals as well as your infrastructure needs. With our full knowledge of the interrelated workings of your building or buildings, we can recommend adjustments in equipment and services for maximum efficiency and cost-savings. We call this corner-to-corner approach Turnkey Contracting Services.

Even before you sign a contract, Trane ranks your building's performance to see how it compares to your competitions'. Because we are the largest OEM of HVAC equipment, we have a global database of information regarding thousands of installed systems— including buildings belonging to other organizations in your industry. We can measure how your building stacks up with a roughly apples-to-apples comparison.

© 2022 Trane. All rights reserved.

Once you've contracted for Trane Turnkey Services, we customize project solutions to fit your unique operational and performance needs. An environmentally sensitive industry such as biomedical engineering, for example, may demand carefully managed temperature, humidity, air particulates or air filtration. Our solutions may also include:

- Mechanical, electrical, lighting systems specifications, retrofit and optimization
- Building lifecycle planning
- Total cost of ownership reduction through energy-saving system specifications and operating cost optimization
- Addressing environmental and operating cost concerns through enterprise energy management systems including:
- On-site generation
- Water conservation
- Energy purchasing options
- Renewable technologies
- Code and regulations compliance
- Ongoing maintenance and repair

With Trane Turnkey Contracting Services, you reduce energy and operating costs while maintaining efficient operation.

PROJECT APPROACH TO INDOOR ENVIRONMENTAL QUALITY (IEQ)

Wellsphere™ from Trane is a holistic approach to building wellness. It addresses the four elements of indoor environmental quality (IEQ):

Air Quality

Improving indoor air quality (IAQ) is one of the most effective ways to address airborne health risks in your building. Indoor pollutants can be invisible to our senses, yet harmful to our health and productivity. Trane can perform an IAQ assessment of your facilities and fully vet the three solutions that Trane currently supports:

- Ultraviolet lamps in ductwork
- Synexis (dry hydrogen peroxide gas)
- Dynamic air cleaners.

Thermal Comfort

Create an indoor atmosphere that's comfortable and stimulating while balancing your energy efficiency and sustainability needs. When the right HVAC equipment and control strategies are in place, occupants can feel more comfortable and be more productive.

Lighting

The lighting design of indoor spaces can affect peoples' mood, productivity and even the rhythms of their bodies. Today's more intelligent lighting systems have significant potential to improve safety,

© 2022 Trane. All rights reserved.

comfort, and productivity. By integrating controls over lighting and HVAC, Trane can make it easier to manage more of what is happening inside your building—from one easy-to-use user interface.

Acoustics

Good acoustic design can enhance concentration and focus by eliminating noise, improving sound privacy and much more. Trane is an industry leader in providing accurate, comprehensive acoustical data for our products and system designs within the building context. Quiet products are only the beginning of Trane's scientific approach to building acoustics.

REPAIR SERVICES

Chances are your facilities have HVAC and controls systems from several different manufacturers. Trane technicians are proficient in servicing all brands and types of HVAC and controls systems. These are among the comfort systems that our local technicians maintain, repair, or replace:

- Air filtration and air handlers
- Chillers (air-cooled and water-cooled)
- Chilled water and condenser water pumps
- Controls (digital and pneumatic)
- Cooling towers and evaporative coolers
- Condensing units
- Fans and humidification
- Motors and motor starters
- Rooftop and unitary HVAC units (electric and gas-fired)
- Variable frequency drives

Knowledgeable Trane technicians will troubleshoot your equipment using data compiled from experiences with clients around the world. They are trained to look beyond the immediate problem by also identifying weaknesses or potential areas of unreliability.

Rentals

If you need temporary cooling or other equipment during a retrofit, we have the resources in place to quickly deliver a solution. Trane Rental Services has been providing temporary equipment solutions for more than 25 years. Our fleet includes Water- and Air-Cooled Chillers, Package Air Conditioning Units, Air Handling Units, Diesel Power Generators, Oil-Free Compressed Air, Heaters, and ancillary equipment to support our customers.

You will have access to 24/7/365 customer service, equipment monitoring and technical support. With 25 locations in the United States and Canada, **we can deliver temporary equipment solutions to every major metropolitan market within hours**. In addition to providing solutions for emergency needs, we can also help customers with their seasonal supplemental needs, planned shutdowns and special events.

© 2022 Trane. All rights reserved.

LEASES

Trane's Financial Services includes leasing (all types), prompt pay discounting, anticipation discounting, guaranteed savings programs and long-term financing solutions.

EQUIPMENT UPGRADES

- All Trane commercial equipment including all applied, unitary, terminal units and heating products procured domestically
- Trane building automation equipment to the extent that it is coupled with installation of both new and/or retrofit of BAS systems.
- Lighting & retrofits
- Cooling Towers
- Frequency Drives
- Ductless split systems & VRF products
- Pumps
- Boilers, hot water heaters and water specialties
- Modular chillers
- Dust collection systems & servicing
- TAS packaged central plants
- Evaporcool evaporative process cooling
- Dynamic air filtration
- Genesis conversion (photo catalytic oxidation) technology
- Heat recovery air handlers
- Unit ventilators
- Trane parts in conjunction with Trane contracted repair and retrofit of existing Trane equipment as well as over the counter purchases.

OTHER SERVICES

- **Energy Services** - Energy Tracking, Energy Analysis, Evaluation of Potential Upgrades, demand response, rebates and other
- **System analysis** of existing facilities including modeling and payback analysis
- **Design Build Contracting** for upgrading and improving efficiency within municipal infrastructure including but not limited to city buildings, wastewater treatment plants, conveyance systems, water treatment facilities, metering system, and lighting, etc.

PRODUCTS AND BRANDS SUPPORTED BY TRANE

- Identify the manufacturer products/brands the Bidder can service and support.

While Trane is the industry expert on Trane equipment, we service all brands and most models of HVAC equipment. Trane technicians are sent to other competitive OEM schools across the industries (Carrier,

© 2022 Trane. All rights reserved.

York, etc.) for certification. Trane is a vendor-neutral company with experience installing, maintaining, and repairing a variety of products and brands including:

Products – water-cooled chillers, air-cooled chillers, air handlers, boilers, pumps, piping, cooling towers, VAV systems, variable frequency drives, constant volume systems, building energy management systems, roof top unit air handlers, make up air unit air handlers, VRF and ductless systems, building automation systems, all heating and cooling valves, air balancing, back flow/cooling/heating valves, heat exchangers, and refrigeration.

Brands – AAON, American Standard, Amana, AO Smith, Artichill, Aurora, BAC, Bard, Bell and Gossett, Bosch, Bryant, Carrier, Coleman, Daiken, Desert-Aire, Distech, Edpac, Energy Logic, Evapco, Honeywell, Hydrother, Ingersoll-Rand, Johnson Controls/York, Lennox, Liebert, Lochnivar, Marley/Evapco, Marvair, McQuay, Mitsubishi, Multistack, Paco, Patterson-Kelly, Pool Pac, Raypack, RBI, Trane, and Vertiv.

MINIMUM WORK CREW

- Stipulate the minimum work crew that will be made available at all times, ensuring timely and effective project completion. A project foreman, fluent in English, must be onsite during all construction activities and have authority to act on behalf of the Bidder. Each site work crew must have at least one journeyman assigned.

The minimum work crew is addressed based on project type. All contracting jobs will have a project foreman (typically lead mechanic) fluent in English that has the authority to act on behalf of Trane. Each site will have at least one journeyman assigned.

SUBCONTRACTOR SELECTION

- Describe how Bidder selects sub-contractors for service and/or installation and how Bidder ensures customer satisfaction related to the sub-contractors.

Trane utilizes our Subcontractor Qualification Process to formalize screening. The standard request for proposal (RFP) process includes a two-step process of pre-qualification that is managed via Appruv (https://appruv.com). Prequalification criteria includes financial stability, licenses, small business certification, resource capacity, skillset, work quality, safety rating, and legal standing. Evaluation criteria defined in the solicitation will be used to support best value selection.

All potential subcontractors complete Trane's Contractor Qualification Statement. Our Project Manager (PM), Quality Control (QC), and Environmental Health and Safety (EH&S) Specialists complete a Contractor Evaluation Form for the screening and final selection process.

Upon completion of the subcontractor qualifications, Trane follows the steps listed below to ensure best value:

- **Bid Packages**: Bid packages are prepared by the PM with support from Development Team engineers. The bid packages describe the scope of work to be performed, drawings and sketches, the nature of the bid (i.e., design build, no change order), and the bid response format (e.g., required detail, taxes, bonds).
- **Separate Walkthroughs**: Subcontractor site visits are a prerequisite. Whenever practical, we conduct separate walkthroughs with each contractor, rather than in large groups to increase engagement and questions.

© 2022 Trane. All rights reserved.

- **Multiple Bidders**: Trane solicits pricing from a minimum of three subcontractors for most scopes of work. We carefully review the list of subcontractors available, acknowledging those with proven history with Trane and our client. We then compare them to the requirements to assure they are the best subcontractors for the project.

Trane keeps tight cost controls through close oversight of subcontractors and monitors performance and quality control through onsite supervision, quality inspections, and cost and schedule progress reporting. Subcontractors participate in weekly and monthly project review meetings, and daily work progress reports showing hours worked and activities completed are required. Trane has Equipment Engineers on staff in our sales office who work with the local design engineering community daily, and these same engineers will be working with the designers for the optimal selections on Trane equipment, as well as non-Trane equipment needed for the project.

TESTING, ADJUSTING, AND BALANCING

- Describe Bidder's company's process for submitting a test and balance report for each piece of equipment installed, including items that will be covered in the test and balance report.

The purpose of testing, adjusting, and balancing (TAB) is to assure that an HVAC system is providing maximum occupant comfort at the lowest energy cost possible.

Pre-planning for TAB work includes making certain that all the necessary parties and individuals to conduct the work are onboard. The type of building and systems to be tested and a realistic evaluation of what skills the TAB technician possesses are key planning elements.

- Often, a controls specialist will be needed to operate the system for the TAB technician.
- The representatives from the original equipment suppliers may be needed as a resource, at a minimum, but for complex equipment and systems or in a new building startup a manufacturer's representative may be required at the site to operate the mechanical equipment.
- If the building has a facilities manager that individual is typically the most important participant with which the on-site TAB technicians will work. Facility managers have a substantial vested interest in ongoing customer satisfaction—the people who work or live in the building are actual end- use customers—and their satisfaction will ultimately be the key measure of success.

Occasionally, a system cannot be balanced or made to perform in accordance with the contract's design specifications regardless of the number of balancing dampers or valves that can be installed. Competent TAB technicians should be prepared for this possibility and work with the appropriate individuals to formulate recommendations as part of the final TAB report.

It should be made clear that the TAB work is not "commissioning." Most commissioning services are completed by firms having technicians experienced with each of the individual building systems—HVAC, lighting, plumbing, electrical, and security systems.

Commissioning services for any new building construction or renovation are intended to verify all the above systems—operate properly and meet performance criteria.

Commissioning also includes the testing of all building controls for each mode of operation to verify all systems are being sequenced correctly with each other and that all interlocks are functioning. The commissioning agent must document the results of each equipment test performed as it is completed.

© 2022 Trane. All rights reserved.

These firms will usually subcontract the services of an independent TAB contractor to verify HVAC system balancing as part of their more inclusive commissioning contract.

New Buildings

Testing, adjusting, and balancing of all HVAC systems in a new building is needed to complete the installation and to make the system perform as the designer intended. Assuming that the system design and installation meets the comfort needs of the building occupants, testing, adjusting, and balancing of the HVAC system fine tunes occupant comfort levels while keeping energy use to the lowest level possible. This is extremely important in this era of rising energy costs.

It is important to make sure that all factory equipment startup service has been completed before beginning any TAB work. Most specifications on new building construction usually require a factory representative to be present during the initial startup and adjustment of the mechanical equipment—central boilers, chillers, large variable-speed motor drives, and cooling towers. This initial equipment checkout is also usually required to activate the factory warranties and is not part of the TAB contractor's responsibility. After this initial startup service has been completed, the TAB contractor should be informed that the systems are operating properly, that all safety interlocks and protective devices are functioning, and the systems are ready to be balanced. The TAB phase of any building construction or renovation is intended to verify that all HVAC water- and airflows and pressures meet the design intent and equipment manufacturer's operating requirements. It is rare to find an HVAC system of any size that will perform completely satisfactorily without the benefit of final adjustments. Therefore it is considered a "best practice" for the designer to specify that TAB work be part of the overall HVAC system installation.

Existing Buildings

There are few buildings in existence that have not experienced changes in internal loads and space layout changes since they were designed and built. These buildings should periodically have their HVAC systems rebalanced to achieve maximum operating performance, efficiency, and comfort.

The TAB Technician

TAB technician designates the person in charge of the TAB work being done on the HVAC system. TAB procedures on a complicated HVAC system require that the TAB technician must be a well-trained, highly skilled, and knowledgeable individual. This person must know the fundamentals of airflow, hydronic flow, refrigeration, and electricity and be familiar with all types of HVAC temperature controls and refrigeration systems. They must also know how to take pressure, temperature, and flow measurements and be able to perform effective troubleshooting.

The TAB Team

There are TAB jobs that can be done by one person. However, many HVAC systems need a TAB team to complete the TAB work efficiently and in a reasonable time period. It is equally important that the other members of the TAB team be trained and knowledgeable in the basic fundamentals and procedures of TAB work.

© 2022 Trane. All rights reserved.

Energy Costs and Occupant Comfort

TAB work conducted on existing buildings will often hold opportunities for the attentive TAB technician to identify additional equipment or work for the system being balanced that will increase occupant comfort and decrease building operating costs. An obvious example would be the replacement of single-speed electric fan motors with newer computer-controlled equipment that can more closely follow the required airflow needs over the changing seasons and load variations. Variable-speed electric motors are a relatively new product and the older the building the greater the likelihood and potential for energy-saving and comfort-enhancing opportunity. In some instances, variable-speed motors may consume just 15% of the electricity on an annual basis as an older single-speed motor.

Another example would be when the TAB technician is asked to provide a rebalance of an individual zone due to shifts in internal use. Often, this is a good opportunity to examine the benefits of a complete review of the building's mechanical system and possibly provide complete-building TAB services. Also, changes in one building zone will often result in changes throughout or at least in other parts of the building.

TAB Instruments

Airflow Measuring Instruments

- Manometers—Used to measure pressure drops which can be translated into flow rates. Available in tube types, both U-Tube and inclined-vertical use a fluid in a tube to represent the difference in pressure between two points.
- Digital manometers—Can provide very accurate readings at very low-pressure differentials, such as across air filters and expansion cooling coils. Can automatically adjust for barometric pressure, store readings with recall in average or total numbers, and some can provide additional functions such as temperature measurements.
- Anemometers—Available in several configurations—rotating vane, deflecting vane, thermal—and used primarily to measure air velocities at registers, grilles, hoods, coils, etc.
- Flow measuring hoods—Directly measures CFM of air distribution devices.

Temperature Measuring Instruments

- Glass tube and dial thermometers—Measurement of air and fluid temperatures
- Thermocouples—Measures surface temperatures
- Psychrometers and electronic thermo-hygrometers—Determines relative humidity.

TAB Reporting Forms

The proper use of a consistent set of reporting forms assures that TAB work is being done in a systematic manner that produces documented test results that can be easily understood. The following list is an example of forms with a brief description of each to illustrate the steps in the TAB process. Each project may require fewer or more forms and steps depending upon the TAB project goals and the system complexity. Forms include:

© 2022 Trane. All rights reserved.

- **System Diagram**—A schematic that depicts the system to be tested, its major components, distribution system sizes, the quantities of flow, the location of regulating devices and terminal units and other relevant data.
- **Apparatus Test Report**—Provides details of actual measured flow rates, motor loads and other information that will be useful to compare design to actual system component performance.
- **Coil Test Report**—Used to record performance of chilled or hot water, steam, DX, or other types of energy exchange coils.
- **Gas/Oil-Fired Apparatus Test Report**—Tracks performance of unit heaters, furnaces, and boilers for use in comparison and as a supplement to factory-provided data.
- **Duct Heater Test Report**—Provides documentation of airflow rates across electric furnaces and heater coils and verifies min./max. airflow rates as per required by manufacturers.
- **Duct Transverse Reports**—Used as a worksheet for recording velocity pressures in a prescribed manner to determine actual airflow for duct— round and rectangular.
- **Air Outlet Test Report**—Provides documentation of preliminary and final air distribution devices and possible reasons for deviations from design.
- **Terminal Unit Test Report**—Used to check and document the performance of terminal units.
- **Major Equipment Test Reports**—Each major mechanical HVAC device that is present and part of the TAB project—Chiller/Packaged HVAC/Compressor/Condenser/Cooling Tower/Pump/Boiler—is tested and the results recorded according to industry-recognized procedures. Specific test requirements may be requested for any major component to verify operating performance or efficiency.
- **Instrument Calibration Report**—Documents the tested accuracy of the instruments used to conduct the TAB project.

RELEVANT CODES AND STANDARDS

- **Energy Systems Analysis & Management**—Presents an updated level of technical information necessary for energy conservation and retrofits of today's commercial facilities. This new manual provides building owners, facility managers, contractors, and system designers with the tools needed to evaluate an existing facility for energy savings potential. Items of special interest include performance contracting, CFC refrigeration regulation, and new automation system open protocols. Other topics covered include HVAC heat recovery, energy auditing, operation and maintenance, and indoor air quality.
- **HVAC Systems - Commissioning Manual**—A practical how-to guide for contractors, owners, and engineers interested in learning about commissioning for new buildings and re-commissioning for existing buildings. Separate chapters are devoted to the different levels of commissioning, including b g basic, comprehensive, and critical system commissioning. A thorough explanation of re-commissioning leads one through the preliminary investigation, survey and documentation phase, the design and installation of system modifications, and the actual re- commissioning test.

© 2022 Trane. All rights reserved.

- **HVAC Systems - Testing, Adjusting, & Balancing**—Presents the basic fundamentals, methods, and procedures, including the necessary tables and charts, to adequately balance a complete HVAC system. A tutorial on air and hydronic systems as well as equipment performance and operation, this comprehensive text covers motor operation, fan curves, pump curves, and fluid flow losses in ducts, fittings, pipes, and air terminals. In addition, variable frequency drives, direct digital control systems, lab hood exhaust balancing and the latest balancing equipment and procedures are presented.
- **TAB Procedural Guide**—The TAB Procedural Guide is intended for trained TAB technicians to assure that the appropriate procedures are employed in an effective manner. This new publication includes general as well as specific guidance for both air-and water-side HVAC system adjusting and balancing. Variable air volume, multi-zone, dual duct, and exhaust air systems are examples of the systems specifically covered and time-saving forms are included for precise record keeping during the conduct of a TAB project. The guide assists TAB technicians with preplanning and establishing teams so that energy use is minimized whether the work is done in new or existing buildings.

COMMISSIONING PLAN

- Describe Bidder's company's process for delivering a comprehensive commission plan at least two (2) weeks prior to start-up, including details of what will be covered in the plan.

This Commissioning Plan establishes the framework for how commissioning will be handled and managed on a given project and custom to that project's Scope of Work. The commissioning process is applicable anytime Trane performs work, either in a primary contracting capacity or as a sub-contractor within the projects' delivery model. The commissioning planning process begins with a kick-off meeting to determine the project's scope, breadth of work, participating trades, timelines, etc. At this meeting, the Trane Project Manager (PM) in conjunction with the Customer Agency will discuss the commissioning process, schedule, team and team member responsibilities, communication structures, and develop a general description of the systems to be commissioned. The Commissioning Plan is custom to the project's unique Scope of Work. A Commissioning Plan typically includes the following and takes place well before equipment is ordered or work begun, which could be weeks or months prior to the project's completion:

Introduction	Purpose and general summary of the Plan.
General Project Information	Overview of the project, emphasizing key project information and delivery method characteristics.
Commissioning Scope	The commissioning scope including which building assemblies, systems, subsystems, and equipment will be commissioned on this project.
Team Contacts	Project specific Commissioning Team members and contact information.
Communication Plan& Protocols	Documentation of the communication channels to be used throughout the project.

© 2022 Trane. All rights reserved.

Commissioning Process	Detailed description of the project specific tasks to be accomplished during the Planning, Design, Construction, and Tenant Occupancy Stages with associated roles & responsibilities.
Commissioning Documentation	List of commissioning documents required to identify expectations, track conditions and decisions and validate/certify performance.
Commissioning Schedule	Specific sequences of events and relative timeframes, dates, and durations.

TRANE'S APPROACH TO PREVENTATIVE MAINTENANCE

- Describe Bidder's company's scope of work for preventative maintenance work.

Trane's service team members use specific software and standard processes in place to schedule service calls, complete preventative maintenance, invoice jobs, and track inventory. With a comprehensive range of service capabilities and in-house expertise—delivered by an extensive service network always on call—Trane delivers the most reliable and cost-effective performance from day one. Once a Service Agreement is in place, Trane technicians will complete field reports that include all recommendations for maintaining a high-performance facility.

Trane's Preventative Maintenance program typically consists of four quarterly site visits: with one annual inspection and three routine inspections. The number of site visits can vary according to the system needs. By planning ahead and addressing maintenance needs on a systematic, scheduled basis, customers can virtually eliminate unplanned downtime and save a lot on repair costs. As maintenance tasks are performed, technicians record and detail each asset's condition to determine the appropriate timeframe for an inspection, cleaning, lubrication, any calibration, or adjustment, including possible part replacement.

The work performed is recorded electronically via technician's mobile device. The data is stored and backed up on a secure data network. At completion of the work, customers receive an electronic report of the tasks executed. In addition (for service agreement customers only) work reports can be accessed on a Trane customer portal (https://mybuilding.trane.com).

We're fully trained, using proprietary Six Sigma maintenance procedures, to service both Trane HVAC equipment as well as that of other brands.

Trane's industry exclusive service flow process includes detailed, documented procedures that identify steps for: safety, sequence of execution, quality control, work validation, parts, materials, tools, and environmental compliance. Where applicable, **Trane's exclusive service process meets or exceeds ASHRAE 180-2008 Standard Practice for Inspection and Maintenance of Commercial Building HVAC Systems.**

To prolong an asset's useful life and lessening the likelihood of failure, Trane offers a preventative approach that can leverage predictive technology as well as regular monitoring of your HVAC operations. Our standard Preventative Maintenance package involves planning ahead and addressing maintenance needs on a systematic, scheduled basis. However, we can add value with optional state-of

© 2022 Trane. All rights reserved.

the-art add-on services — such as Predictive Service, Active Monitoring, Critical Systems Audit, or Rental Reserve.

Trane's overall approach to Preventative Maintenance revolves around 7 Service pillars:

Knowledge Transfer

Work performed on your equipment will be documented by our technician and reviewed with you at the completion of each service visit. Trane Technicians will review operating sequences and practices for the equipment covered by the agreement and advise you of operational improvement opportunities. Concurrent with annual start-up, the dedicated Trane Technician will instruct your Facility staff on how to operate the equipment covered by the agreement.

Quality Guarantee

Trane provides a guarantee of performance based on testing conditions — as specified in both AHRI (Air Conditioning, Heating and Refrigeration Institute) and ASHRAE (American Society of Heating, Refrigerating and Air-Conditioning Engineers). Trane then backs up this performance with the industry's premier warranty and service support to ultimately provide the best value for each customer. Within the controls and automation teams, for example, Trane has adopted the mantra of "no bad jobs". This business mindset is prevalent throughout Trane — from the factory to the field sales office. Trane products have utilized several such initiatives to provide cost saving areas for customers. For example:

- **ICS (Integrated Control Systems).** The controls that come with Trane products all offer an open computer control technology protocol. This allows a client to feel comfortable that with every Trane product that is purchased, their existing Building Automation System will be able to communicate or if there is not a Building Automation System (BAS) in place, Trane can provide our BAS system **at a packaged program price**.
- **D.F.T. (Demand Flow Technology).** A mathematically based business strategy that encompasses the entire Trane organization: marketing, sales, order entry, engineering manufacturing, suppliers, and finance. Demand Flow Technology manages every aspect of the product cycle from the time the product is ordered, until it is shipped. Its sophisticated procedures ensure that customers receive fast availability of a wide selection of Trane standard products as well as custom and modified ones.

Technology

Scheduling, Service History — ComfortSite

ComfortSite — our web-based asset management system — is used for scheduling of Service calls and provides customers with free access to their Service history, technical reports, parts identification tools, product literature and other relevant information. In addition to these options, ComfortSite also enables owners to manage local parts inventory and equipment replacement plans. ComfortSite offers these advantages:

- Asset and maintenance management software
- 24/7 internet-based access
- Trane enters HVAC equipment data

© 2022 Trane. All rights reserved.

- No software integration or process changes required
- Ability to enter non-HVAC equipment into the database
- Multi-level username and password access
- Multiple output file formats available for upload

Chiller Plant Optimization

Chiller Plant Optimization validates that the chiller plant is operating appropriately. It helps manage the multiple system inputs and confirms set-up accuracy.

Advantages:

- Maintain comfort, reliability, and uptime
- Prevent premature failure of the system or components
- Identify anomalies that waste energy

Implementation:

- Review chiller plant control parameters and search for inefficiencies in cycling and stating
- Check loop tuning and provide a quote, if necessary
- Reset routines to design specifications

Predictive Service

Trane will analyze the condition of your HVAC equipment to detect physical conditions that can lead to system inefficiencies and catastrophic failures. Early detection by Trane Field Service Technicians enables you to arrange maintenance procedures and overhauls during planned downtime instead of experiencing unplanned system outages and emergency repair delays and costs.

- Infrared Thermography
- Combustion Testing
- Vibration Testing
- Eddy Current Tube Testing
- Ultrasonic Testing other than tubes, bearing, etc.
- Air Quality Monitoring
- Air Balance
- Water Balance

Energy Performance

Energy Performance provides real-time energy monitoring, displayed through a set of online dashboards and tools, to reveal where and when a building consumes energy. It provides the ongoing, real-time insight that's needed to drive measurable results. This advanced cloud-based building energy management system (BEMS) service provides visual tools and analytics that uncover hidden causes of

© 2022 Trane. All rights reserved.

energy waste. Energy Performance pairs advanced technology with the extensive expertise of Trane building professionals who recommend energy conservation measures (ECMS) based on building data.

Advantages:

- Leverage spectral analysis to visualize energy usage or demand over a select period
- Monitor building performance and view progress on sustainability goals using intuitive dashboards
- Access analytics to identify times of excessive energy consumption
- Report and track the ongoing improvements gained by proactively managing your building

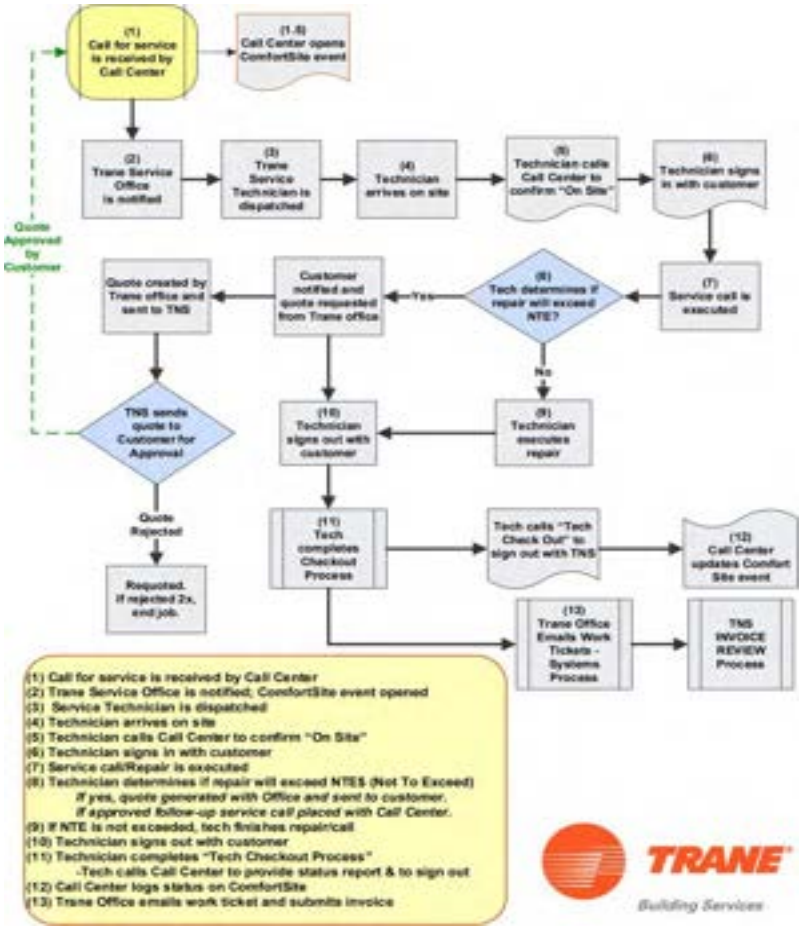
Implementation:

- Cloud-based building energy management system provided through Software as a Service (SaaS)
- Access to online dashboards, reports, alerts, and trending tools
- Interpretation by technical specialists
- Real-time energy data monitoring and aggregation from multiple sources: utility meters, sub-meters, sensors and building automation system all linked to your local energy costs to track your energy spend more accurately
- Software support, online help, and documentation
- Site set-up and data

The Environment and Sustainability

Trane procedures for handling refrigerants are compliant with Federal and State laws and regulations — in respect to the proper handling, storage, and repair of leaks of ozone-depleting refrigerants as well as their substitutes, according to Environmental Protection Agency regulation 40 CFR Part 82. Trane service technicians are Universal-certified and use only certified recovery equipment.

Trane maintains and uses our Refrigerant Management Software (RMS) to capture, manage and report Refrigerant Activity. The Refrigerant Activity Report Form is used by the technician to record all



© 2022 Trane. All rights reserved.

refrigerant activity that has occurred on each piece of equipment. The form data is entered into RMS after it is submitted to and checked by central office personnel. Annually, Trane prints a report from RMS of all Refrigerant activity that has occurred at each site. The report details all refrigerant activity performed by Trane Building Services Technicians for each piece of equipment and can be used to satisfy reporting requirements. In terms of Oil disposal, we remove used oil from your refrigeration units and dispose of it in accordance with applicable environmental regulations. Trane has a national contract with a leading provider of used oil services to recycle used oil, where allowed, and properly dispose of used oil which does not meet recycling requirements (in states where used oil is a hazardous waste,

Trane will remove used oil from refrigeration units for the customer to arrange disposal).

Documented Processes to Safeguard Uniform Service Delivery

All Trane personnel follow documented processes to enable and safeguard uniform service delivery.

Specific Work Steps

The following illustrates Trane's procedure for each call for service:

Emergency Response within 4 hours — 24/7, 365 days a year

Priority Emergency Response is available on a 24-hour-per-day basis. Trane is able to perform emergency services outside of normal business hours when requested. Each Trane office has its own Emergency hotline for seven (7) days a week, twenty-four (24) hours a day, three hundred sixty-five

© 2022 Trane. All rights reserved.

(365) days per year. Our goal is to answer each call within 30 seconds of receipt, 90% of the time. And our goal is to respond to all emergency calls within 4 hours or less.

Trane's team of Service technicians has a rotational, on-call schedule, and someone is always available to handle an after-hours or an emergency call.

Emergency Parts Service

Trane's Parts order system provides an ability for both emergency and rush orders. This system is unique in that it allows the flexibility of integrating rush orders into the standard order system without disruptions or excessive costs.

The State-of-the-Art Rental Reserve Add-on Service

Whether it's extra cooling needed during extreme weather conditions or a short-term replacement following an emergency, buildings sometimes require equipment to cool an indoor environment on a temporary basis. Trane Rental Services can provide fast, safe, and cost-effective solutions using modern and reliable equipment. A temporary cooling system will keep your business operational whilst you repair, replace, or upgrade your existing system. Rely on temporary solutions from the name you trust. Our team of account managers, engineers, service technicians and logistics professionals can rapidly transform the equipment you need into a smoothly functioning system that will exceed your expectations.

Every rental delivers state-of-the-art Trane equipment and expertise. We'll be your one-stop solutions provider when you are:

- Short on time — A temporary system allows you the ability to continue your business operations while you take the time to find the best permanent solution.
- Short on funds — Capital improvement budgets are shrinking these days. A rental from Trane can allow you to optimize the use of your funds.
- Risk averse — Knowing when and where temporary solutions are available can speed deployment time in an emergency and limit associated financial losses.
- Experiencing temporary spikes — A rental is a cost-effective solution for a short-term situation, such as a spike in production or peak design conditions that lasts two months or less.

Other Maintenance and Repair (OMR)

If the Technician finds an issue that needs to be fixed, they will communicate that to the customer and record their findings in a report, requesting a quote from Trane — to be approved by the customer ahead of the repair, replacement, or any other maintenance work.

Customers often opt for Trane's exclusive HVAC Rental Reserve program. The Rental Reserve Program is intended to protect against unplanned needs caused by customer's HVAC equipment outages. It is designed to minimize the impact of downtime by providing cooling system redundancy. The program provides year-round availability of rental chiller equipment within a 24-/48-hour notice to Trane — to proceed with delivery and connection of the rental equipment. Included in the price of the add-on option is a customized and executable HVAC rental emergency plan maintained by Trane as well as suitable equipment for speedy connection at the site.

© 2022 Trane. All rights reserved.

The rental emergency plan provided by Trane would contain a typical chilled water system plan, for example, where we will identify:

- Location, type, and tonnage of the rental chiller;
- Applicable electrical, chilled water, tower water connections as necessary for chiller connection;
- Necessary system upgrades to accommodate the Trane Rental chiller package

Warranties — Workmanship, Equipment

The workmanship warranty (labor portion of the Maintenance Services and Additional Work) is **90 days from the date of completion.** Trane's obligation under the Warranty is limited to correcting any labor improperly performed by Trane. Defects must be reported to Trane within the 90-day period.

The parts and equipment warranty (the material manufactured by Trane and provided to the customer in performance of the Services) is **12 months from the earlier date of equipment start-up or replacement.** Trane's obligation under the Warranty is limited to repairing or replacing the defective part at its option. Defects must be reported to Trane within the 12-month period.

Should it be necessary to replace or repair any non-Trane equipment provided by Trane as part of a service to the state, Trane will extend to the Customer the benefits of any warranty Trane receives from the manufacturer.

ADDITIONAL CHARGES FOR MAINTENANCE

- Describe and define all scenarios in which additional charges would apply outside of routine preventive maintenance.

The primary goal of maintenance is to avoid or mitigate the consequences of failure of equipment. This may be by preventing the failure before it occurs which Planned Maintenance and Condition Based Maintenance helps to achieve. It is designed to preserve and restore equipment reliability by replacing worn components before they fail. Preventive maintenance activities include partial or complete overhauls at specified periods, oil changes, lubrication, minor adjustments, and so on. In addition, workers can record equipment deterioration, so they know to replace, or repair worn parts before they cause system failure. The ideal preventive maintenance program would prevent all equipment failure before it occurs, however additional charges would apply if these parts were not included up front.

REPAIR AND UPGRADE RECOMMENDATIONS

- Describe Bidder's methodologies for assisting Participating Public Agencies with recommendations on repairs and upgrades from defining the repair/upgrade through the completion of work.

With a comprehensive range of service capabilities and in-house expertise, delivered by an extensive service network always on call, Trane service solutions ensure the most reliable and cost-effective performance from HVAC systems from day one – and on through their complete lifecycle. Once a Service Agreement is in place, Trane Technicians will complete field reports that include all recommendations for maintaining a high-performance facility. Below are descriptions of our service capabilities, from start up through advanced remote monitoring and contingency cooling.

© 2022 Trane. All rights reserved.

Start Up

Trane Elite Start™ - Commissioning service

Trane Service Engineers validate HVAC installation, following a tried and tested checklist for optimal start-up conditions, verifying, and recording design operational parameters.

Trane Extended Start - Assure the highest level of performance for the HVAC system's crucial first year. HVAC systems are typically sold with a standard factory warranty terms and conditions. Trane Extended Start goes above and beyond the standard warranty to provide eight value-added services which will create a system performance baseline.

Operate and Maintain

Genuine Parts and Repair Services - The right parts and the OEM expertise quickly available. From precision-crafted original Trane items to generic parts, Trane offers a comprehensive parts inventory with 6,500 references to answer quickly to customers' needs. Trane efficient logistics and factory authorized technicians also ensure expert replacements and fixes.

Trane Chiller Health Check Program - OEM chiller performance analysis The reliability and efficiency of a water chiller are directly related to how it is maintained and operated. Appropriate maintenance can help avoid severe malfunctions and costly breakdown. Trane Chiller Health Check Program provides the real time status and performance of equipment and recommends proactive measures to restore a safe, reliable, and efficient operation of chillers.

Trane Service Agreements - Reduce operating costs and optimize equipment life with planned maintenance from Trane. By planning and addressing maintenance needs on a systematic, scheduled basis, your client can save significantly and virtually eliminate unplanned downtime. Trane will help define the service agreements best suited to your client's applications and business needs.

Improve Cost of Ownership

Trane Select™ Contracts - Head off problems before they affect operation Four customizable HVAC service contracts designed to provide operating efficiency, maximize the system life, and help cut costs. From preventive maintenance plans to fully comprehensive solutions, Trane Select Contracts offer fixed costs making them more valuable the longer the contract period. All contracts come with free compressor coverage.

Trane Controls Services - Keeps HVAC settings fine-tuned for optimal performance. Buildings are a complex, inter-related set of systems. Over time, adjustments can change HVAC configurations that were fine-tuned on installation. Trane Controls Services offer four levels of servicing to regularly review the building control system, ensure it maintains its designed comfort level and is always up to date with your clients' current needs – operating as efficiently as possible.

Upgrade and Improve

Trane Care™ Services - Restore the performance of HVAC equipment and maximize its lifecycle. No matter where your clients' equipment is in its life cycle, Trane Care™ will turn HVAC systems into business advantages in terms of reliability, energy, and environment to help their buildings perform at its best and sustain it day in and day out. A Trane Care™ upgrade of HVAC installations will enhance

© 2022 Trane. All rights reserved.

equipment reliability, reduce operating costs, optimize equipment life, and ensure compliance with environmental regulations.

Advanced Remote Analytics

Trane Intelligent Services - Close remote building system monitoring and analysis of system trends. Trane Intelligent Services provide always-on, automated monitoring powered by a suite of leading technologies backed by Trane's team of technical experts. They give building operators high-end capability to help minimize the occurrence and severity of system failures through early detection of alarms and performance issues. Whether your clients require continuous monitoring and automated notification, monitoring plus an action plan for remediation services, Trane can provide a cost-effective solution to establish critical points, appropriate parameters, actions, and procedures.

Contingency Cooling

Trane Rental Services - Cooling solutions for all temporary needs Temporary cooling needs covered to keep your clients' businesses operational during repair, replacement, or upgrade of the existing systems: from breakdowns to extra seasonal capacity requirements, planned service work, facility renovation, specialty events and more. Trane provides fast, safe, and cost-effective solutions using modern and reliable equipment for all building purposes.

NOTIFICATION OR PERSONNEL IN FACILITY

- Describe Bidder's firm's process for notifying a Participating Public Agency when personnel are going to be in a facility, arrival and departure time and the work performed. How does Bidder handle requirements for sign-off of work prior to leaving a facility?

The Trane service coordinator notifies customer when Technician is scheduled to arrive. Upon arrival Technician checks in with designated site contact. Upon departure Trane technician reviews work and secures signature from site contact.

© 2022 Trane. All rights reserved.

b. Ability to Provide Temporary Cooling

b. Describe Bidder's ability to provide temporary cooling/chiller units.

Whether it is extra cooling needed during extreme weather conditions or a short-term replacement following an emergency, businesses sometimes require equipment to cool an indoor environment on a temporary basis. Trane Rental Services can provide fast, safe, and cost-effective solutions using modern and reliable equipment. A temporary cooling system will keep your business operational whilst you repair, replace, or upgrade your existing system. Rely on temporary solutions from the name you trust. Our team of account managers, engineers, service technicians and logistics professionals can rapidly transform the equipment you need into a smoothly functioning system that will exceed your expectations. A rental is a cost-effective solution for a short-term situation, such as a spike in production or peak design conditions that lasts two months or less.

- **Fast** - Because speed of unit installation can be extremely important to your business, all Trane rental equipment has been fitted with enhancements that save installation time.
- **Safe and reliable** - Whilst getting your system up and running is of utmost importance to your operation, safety and reliability of the equipment provided are equally important. You can depend on Trane modern equipment.
- **Cost-effective** - Whatever the application, Trane can provide a cost-effective temporary cooling solution for your organization until you are able to repair or replace your existing equipment.

Every rental delivers state-of-the-art Trane equipment and expertise. We will be your one-stop solutions provider when you are: Short on time: A temporary system allows you the ability to continue your business operations while you take the time to find the best permanent solution. Short on funds: Capital improvement budgets are shrinking these days. A rental from Trane can allow you to optimize the use of your funds. Risk averse: Knowing when and where temporary solutions are available can speed deployment time in an emergency and limit associated financial losses.

c. Products and Services Provided by Trane

c. Describe in detail the depth of product and services Bidder provides and any related products or services being offered. Include:

Trane's products and services are provided on the "Product Information Matrix" on pages 75-92.

DESCRIPTION OF THE PRODUCTS

- A description of the Products, including all related components and parts to be provided by the major product category.

1. HVAC Equipment and Products

Chillers

- Air-cooled chillers
- Water-cooled chillers
- Compressor chillers
- Ancillary chiller water plant equipment
- Absorption liquid chillers
- HVAC Refrigeration Type- Rotary, Centrifugal, Scroll, Reciprocating, Absorption

Unitary systems that combine heating, cooling, and fan sections

- Rooftop systems
- Split systems
- Self-contained systems
- Water source heat pumps
- **Unitary** Type-rooftops, split systems, VRFs, Heat Pumps, PTACs, water- source, mini-splits

Air handling systems

- Performance air handlers
- Blowercoil air handlers
- Make-up air gas heating system
- Air handler options and air cleaning options, Type- central station-manufactured or custom makeup air, fan, filter, coil sections

Terminal devices

- Unit heaters
- Unit ventilators
- Fan coil units
- Ventilation fans and variable air volume
- Air Terminal Devices and Heating Products Type-VAV, Fin Tube Radiation/Convectors

Ductless variable refrigerant volume units

© 2022 Trane. All rights reserved.

Dedicated outdoor air systems

Replacement coils

Automation equipment

Parts and aftermarket product

- **Cooling Towers** Type- open, closed, evaporative, other
- **Pumps** Type- single stage, split case, end suction, inline, circulator, turbines
- **Invertors**
- **Boilers & Water Heaters** Type- modulating, condensing, cast iron, water tube, packaged and other
- **HVAC Specialty Products** Type - modular, outside/inside, S&T Heat Recovery, Humidity Control, Heat Wheel, Heat Pipe, Heat Exchangers

Other HVAC products

- **Indoor Air Quality Products and Devices** Type- Active polarization, non- ionizing, electronic air cleaning systems intended to replace passive filtration, any other.

2. Installation and Services

Installation of new equipment

- **Startup & Commissioning Services** Type - equipment startups, system checkouts, control verification, retro commissioning, M & V verifications, rebate auditing, other

Maintenance of existing systems

- **Service & Maintenance** Type- preventative and full maintenance contracts, man-at attendance, remote monitoring, annuals, emergency services, regulatory compliance, cleaning (e.g., duct, coils, and filters), scheduled maintenance (e.g., oil, chemical and vibration analysis) and other

Upgrading of existing infrastructure

Turnkey services

- **Installation and Turnkey Contracting** Type- retrofit, new construction, energy retrofit, controls new- and upgrade and other

Other installation and services offered by Bidder

- **Warranty Services** Type- Extended parts & labor (define maximum number of years available), delayed start-up and other
- **Professional Services** Type- Engineering, Design, Drafting, Architectural, Project Management and other
- **Site Surveys** Type- Equipment, system analysis, operational, architectural, and other

3. Related Products, Solutions, and Other Services

New, and/or retrofitting older products and solution

HVAC equipment controls

© 2022 Trane. All rights reserved.

- Type-core components, end devices, lighting, panels

Ancillary Services

Thermostats

Sensors

Energy programs

Design and analysis tools

Commissioning

Building management and/or certifications

Enterprise management

Rental and lease services

- Type-chillers, pumps, transformers, terminal units, generators, cooling towers, packaged unitary and other

Financial services

- Type- leasing, prompt, and pre-payment discounts, guaranteed savings and other

Training and/or educational services

Municipal services

Other related products and services

CATALOG OR BROCHURE TYPE INFORMATION

- A catalog or brochure type information as applicable.

Trane has detailed catalog information for all equipment. A National Line Card is provided on the following pages.

National Line Card

PRODUCTS & SYSTEMS SOLUTIONS

TRANE

APPROACH

We take a creative approach to every project; treating each project uniquely so we can collaborate to understand objectives and goals. Trane delivers outcomes; we start from the beginning and follow the process through. Plus, we always keep indoor environment quality and energy efficiencies top of mind.

SERVICE & SOLUTIONS

Our capabilities include commercial systems, energy services & solutions, contracting, controls/building automation, rentals and service.

Trane Wellsphere™ is a holistic approach to building wellness that cultivates healthier indoor spaces. It brings together unmatched experience and expertise to take a holistic approach to optimizing building's indoor environmental quality (IEQ).

HVAC SYSTEMS
Sustainable and scalable solutions for maintaining ideal system performance

OPTIMIZED EQUIPMENT
Applied Chilled and Hot Water, Air Handling, Large and Light Packaged, VRF, VAV, Zone Terminal, Pre-Packaged Systems with Controls

RENTAL SERVICES
Promptly provides temporary, scalable HVAC and power from standard applications to complex solutions

BUILDING SERVICES
Reliable, preventative and proactive scheduled maintenance and repair by factory trained technicians

ENERGY SERVICES
Managing your energy supply and demand to reduce cost, optimize performance and improve sustainability

BUILDING AUTOMATION SYSTEMS
Making precise control easier, mobile and data-rich

TRANE TECHNOLOGIES

© 2022 Trane. All rights reserved.

Trane Building Automation Systems

Tracer® SC+
Scalable building automation system solution

Tracer Concierge®
Light commercial control system

Pivot® Smart Thermostat
Wi-Fi & Ethernet thermostat for light commercial applications

Factory & Field
Mounted BACnet® & LonTalk® Unit Controllers, Integrates with BACnet MSTP, LonTalk Certified, BACnet/IP, Modbus® Protocols

Wireless Solutions
Wireless comms, BACnet/ Zigbee®, temperature & humidity sensors

Trane Building Management Systems

Tracer® Ensemble®
Enterprise level building management software

Tracer® Synchrony®
Web-based facility management software

Tracer® Concierge®
Occupant user interface for non-technical user

Tracer® Mobile Apps
Concierge, Trane BAS Operator Suite

Trane Intelligent Services

Aggregates data collected in a building. Provides analytic tools to make real-time, near term, and long term decisions that maximize the way buildings are managed and maintained.

Lighting Solutions

Control more than half of your building energy use when you integrate Trane lighting solutions into your EAS.* The Trane difference offers increased energy savings, improved comfort and flexibility, and a higher quality design - all within your customer's budget. Lighting science can support productivity, performance, safety, and well being. Utilizing intelligent lighting solutions as your infrastructure for smart buildings unlocks the capabilities of asset tracking, contact tracing, emergency assistance, and more!

Trane® / Mitsubishi VRF & Ductless

N-Generation CITY MULTI®
Energy efficient, all electric VRF system available in Standard, High Efficiency, and H2i®(R) (Hyper-Heat)

Nv Series
Ductless system for maximum energy efficiency and quality control with precise zone control to distribute heat or air conditioning only to spaces in use

P Series
Light commercial ductless system for superior comfort, flexibility and reliability with precise 1:1 outdoor to indoor connections for efficient zone management

Indoor Units
A variety of indoor units available to meet any application and design requirements, including ceiling cassettes, wall mounted, concealed and more

LEV Kit
The power to connect Trane® / Mitsubishi Electric CITY MULTI® Products to Trane Air Handlers; Allows for higher airflows, higher static pressure, larger capacity, customized products, and DOAS configurations; Available in multiple tonnage sizes

Trane Precision Cooling

Single Circuit DX
Single circuit DX; vertical floor mounted; 5 - 10 Ton; tandem compressor options; EC fan technology

Dual Circuit DX
Dual circuit DX series; vertical floor mounted; 15 - 30 Tons

Centrifugal Chillers

Model TACW
Oil-free; 60 - 1400 Tons; R-134a and R-513A

Agility® Model HDWA
150 - 450 Ton; 60 Hz, 50 Hz; Symbio® 800 controller; uses either R-513A or R-134A

CenTraVac® Model CVHE
3-Stage Compressor; Symbio® 800 controller; 150 - 600 Tons; R-514A

CenTraVac® Model CVHF
2-Stage Compressor; Symbio® 800 controller; 325 - 2000 Tons; R-514A

CenTraVac® Model CVHH
Multi-stage; Dual Compressor; Symbio® 800 controller; 900 - 2000 Tons; R-1233zd

CenTraVac® Series S™ Model CVHM
Oil-Free Compressor; Symbio® 800 controller; 170 - 390 Tons; R-514A

CenTraVac® Model CDHF
Multi-Stage Dual Compressor; Symbio® 800 controller; 1450 - 3950 Tons; R-514A

CenTraVac® Model CDHH
Multi-stage; Dual Compressor; Symbio® 800 controller; 1800 - 4000 Tons; R-1233zd

Water-Cooled Chillers

Cold Generator™ Model CGWR
Scroll Compressors; 20 - 75 Tons; R-410A

Series R® Model RTWD
Helical Rotary Compressor; 60 - 260 Tons; R-134a or R-513a

Optimus™ Model RTHD
Optional Variable Speed Helical Rotary Compressor; 150 - 430 Tons; R-134a; or R-513a for fixed speed only

Series R® Model RTUD
Helical Rotary Compressor with remote air-cooled condenser; 80 - 250 Tons; R-134a

Air-Cooled Chillers

Cold Generator™ Model CCAR
Scroll Compressor with Air-Cooled Condenser; 20 - 70 Tons; R-410A

Model CGAM
Scroll Compressor; 20 - 130 Tons; R-410A

Ascend® Model ACS
Scroll Compressor; 140 - 230 Tons; R-410A

Series R® RTAC
Helical Rotary Chiller; 140 - 600 Tons; R-134a

Sintesis® Model RTAF
Variable Speed Helical Rotary Compressor; 115 - 500 Tons; R-134a or next gen R-513A

Ascend® Model ACR
Free Cooling; Symbio® 800 controller; 150 - 550 Tons; R-134a

Model TACA
Oil Free Centrifugal; 60 - 440 Tons; R-134a or R-513A

*U.S. Energy Information Administration, 2020

© 2022 Trane. All rights reserved.

Ascend™ Model ACX
Energy efficient, all electric heating and cooling; Symbio™ 800 controller; 130-240 Tons; R-410A

MiniMod™
Water-Cooled; Oil Free Centrifugal; R-134a and R-513A; 60 - 135 Tons (1000 Ton Arrays)

Cold Generator™ Model CICD
Water-cooled; Heat Recovery; 20-80 Ton (600 ton Arrays)

Modular Chillers

Manhattan™ Gen II
Air-Cooled and Water-cooled Heat Pump; Heat recovery and Free Cooling; 15 - 80 Tons (800 Ton Arrays)

SuperMod™
Air-Cooled and Water-Cooled; 20 - 40 Tons (400 Ton Arrays)

PolyTherm™
Water-Cooled; Simultaneous Heating and Cooling; 30 - 60 Tons (480 Ton Arrays)

Packaged Units

Impack™
Cooling, Gas/Electric, Heat Pump & Dual-Fuel; Multiple Efficiency Levels; Up to 16 SEER; 2 - 5 Tons

Foundation™
Cooling, Gas/Electric; Adapts to Competitors Roof Curbs; 3 - 5 Tons; 7.5 - 12.5 Tons; 15 - 25 Tons

Precedent™ 17 Plus
Cooling & Gas/Electric; Up to 17.5 SEER; 3 - 5 Tons

Precedent™ & Precedent™ with eFlex™
Cooling, Gas/Electric, Heat Pump & Dual-Fuel; Multiple Efficiency Levels ; eFlex Variable Speed Compressor; Up to 23.5 SEER; 3 - 10 Tons

Voyager™ 2 & Voyager 2 with eFlex
Cooling, Gas/Electric & Heat Pump; Multiple Efficiency Levels (Up to 20.1 IEER, 12.5 - 25 Tons), eFlex Variable Speed Compressor (12.5 - 17.5 Tons)

Zoned Rooftop Systems
Pre-designed for small building comfort; Includes Precedent or Voyager rooftop unit, VAV terminal units, Tracer™ Concierge™ system control & Air-Fi™ wireless controls & sensors; 3 - 25 Tons

Voyager 3
Cooling, Gas/Electric; eStage™ Multi-Staged Compressors; Full & part load efficiencies; Up to 14.7 IEER; 27.5 - 60 Tons

IntelliPak™ I
Cooling, Gas/Electric, Hot Water, Steam; 20 - 130 Tons; Available with eFlex Variable Speed Compressor; 40 - 75 Tons

IntelliPak™ II
Cooling, Gas/Electric, Hot Water, Steam; Air-Cooled and Evaporative Condenser; Available with eFlex Variable Speed Compressor; Tracer™ SC+ controls; VariTrane™ VAV terminals; 90 - 162 Tons;

IntelliPak™ 3
Cooling, Gas/Electric, Hot Water, Steam; 20 - 75 Tons; Avail. with eFlex Variable Speed Compressor; Available connectivity; Symbio controller; Up to 17.8 IEER

Self-Contained Units

IntelliPak™ Modular Series
Split apart construction, easy transport & installation; Factory-installed digital controls; Up to 13.9 EER, 17.9 IEER; Water Cooled 20 - 35 Tons; Remote Air Cooled - 32 Tons

IntelliPak™ Signature Series
Up to 14.1 EER, 19.3 IEER; Floor by floor system; Factory-installed digital controls; Air-Cooled 20-60 Tons; Water-cooled 20 - 110 Tons

Modular Self Contained System
Smallest Footprint on the Market; Water-Cooled System; Variable speed compressors and fans; Full and part load efficiencies; Industry-leading Part Load Efficiency - Up to 20.8 IEER; 40 - 80 Tons

Water-Source Heat Pumps

Axiom™ Standard Efficiency GEH/GEV Models
Horizontal (0.5 - 15T) or vertical (0.5 - 25T); Quiet operation; Multiple airflow configurations; 0.5 - 25 Tons

Axiom High Efficiency Single-Stage EXH/EXV Models
Horizontal or vertical; Electronically Commuted Motor (ECM); Rotary or scroll compressor; 0.5 - 6 Tons

Axiom High Efficiency Two-Stage DXH/DXV Models
Horizontal or vertical; 2-Stage compressor; Deluxe sound option for quiet operation; Meets LEED EAc4 requirement; 2 - 6 Tons

Axiom Variable Speed VSH/VSV Models
Horizontal or vertical; eFlex™ Variable Speed compressors and fans; Single and three phase voltage; 2 - 5 Tons

Axiom High Efficiency Console GEC Model
ASHRAE 62 indoor air quality compliant; Quiet operation; 0.5 - 1.5 Tons

Axiom Vertical Stack GET Model
Multiple capacities & cabinet sizes; Available in PSC or ECM motors; Flexible air supply options; Integrated controls; 0.75 - 3 Tons

Axiom Water-to-Water EXW Model
Co-axial heat exchanger; Rackable modular design; 5, 10, 20 Tons

Axiom Rooftop GWS Model
Boiler/Tower or Geothermal applications; Multiple configuration options; Microprocessor controls; 3 - 20 Tons

Air Handling Units

Performance Climate Changer™ - Catalog
Indoor or Outdoor; Up to 15000 CFM; 2" R-13 Foam Insulated Panels; Factory-Engineered & Mounted Controls

Performance Climate Changer™ - Semi-custom
Indoor or Outdoor; Up to 60000 CFM; ; up to +/-10.0 inches w.g.; 2", R-13 or 3", R-19; Foam Insulated Wall panels; Flexible Dimensions

Trane Custom Models TCFS & TCPA
Indoor & Outdoor; 1500 - 200,000 CFM; -12.0 to +12.0 inches w.g.; Thermal Performance with R-Values up to 26

Terminal Units

Compact Vertical Blower Coil Model BCCD
Indoor; 800-2000 CFM; ECM Motors, Factory-Engineered & Mounted Controls

Blower Coil Model BCHD/BCVD
Indoor; 400 - 3000 CFM; ECM motors; Factory-Engineered & Mounted Controls

CoolSense™ Terminal Unit
Up to 1300 CFM; Variable speed ECM or constant-fan speed; Tracer™ UC400 controller (available with Air-Fi wireless)

VariTrane™ Model VC*F
Single Duct Variable Air Volume Boxes; 25 - 8000 CFM

VariTrane™ Model VDDF
Dual Duct Variable Air Volume Boxes; 80 - 8000 CFM

© 2022 Trane. All rights reserved.

VariTrane® Model VF**
Fan-Powered Variable Air Volume Boxes; 200 - 3300 CFM; Parallel or Series Configuration

VariTrane® Model LF**
Low Height Fan-Powered Variable Air Volume Boxes; 100 - 1800 CFM; Parallel or Series Configuration

VariTrane® Model VRRF
Round Inlet/Round Outlet RetroFit Variable Air Volume Boxes; 25 - 4000 CFM

UniTrane® Model FC*B
Horizontal or Vertical Fan Coil; Cabinet, Recessed or Compact Configurations; 200 - 1200 CFM

UniTrane® Model FCV
Vertical High Rise Fan Coil Units Vertical stack fan coil; 300 - 1200 CFM

Force-Flo™ Model FF*B
Horizontal or Vertical Cabinet Heater; Concealed or Recessed Configurations; 200-1200 CFM

Model VUVE
Vertical Unit Ventilators; 750 - 1500 CFM

Model HUVC
Horizontal Unit Ventilators; 750 - 2000 CFM

Model UHS/UHP
Propeller Unit Heaters; Hydronic & Steam

Model UHWA/UHAA/UHRA/ UHXA/UHEC/UHCA
Electric Unit Heaters

Indoor Gas Heating Units
Unit Heaters & Duct Furnaces

Split Systems

Split Systems
Cooling & Heat Pump; Gas, Electric, or Hot Water Heat; 1.5 - 5 Tons

Odyssey™ with Symbio™
Symbio Connectivity & phone app; Full & part load efficiencies; Up to 13.1 IEER; 6 - 25 Tons

RAUI
Air-Cooled Condensing Units; Available with Remote Chiller Evaporators; 20 - 120 Tons

CAUI
Air-Cooled Condensers; 20 - 120 Tons

Dedicated Outdoor Air

Horizon® DOAS
DX Packaged (Air and Water Cooled)
- Low Dew Point capability
- ERV
- AHRI 920

Mixed Air Unit
- Brings in up to 100% fresh air
- ASHRAE 90.1 compliance
- Provides adequate dehumidification at full load conditions
- Double walled-insulation with insulated base ban

Make-Up Air Gas Heating Units

Model GSAA
Indoor Gas-Fired Make-Up Air Handlers; Standard & High Efficiency; 100 - 1200 MBH

Model GRAA
Outdoor Gas-Fired Make-Up Air Handlers; 100 - 1200 MBH

Model AHOA
Packaged Air Handlers; Cooling, Make-Up Air, & Ventilation

VFD

Trane TR150/TR200 Variable Frequency Drives; 6, 12, 18 Pulse

Engineered Systems

Controls and Equipment
- Comprehensive Chilled Water
- Central Geothermal
- Thermal Battery™ Air-cooled Chiller Plant
- Thermal Battery™ Cooling and Heating
- Intelligent Variable Air System
- Zoned Rooftop System
- Variable Refrigerant Flow
- CoolSense™ Integrated Outdoor System

Energy Services

We partner with our clients to understand how energy impacts their business and sustainability goals. Leveraging deep expertise and cutting edge technology, we help optimize energy purchasing strategies, energy sourcing, energy storage, consumption, and overall network efficiency with validated results.

IAQ Solutions

Today there are more ways than ever to manage and monitor indoor air quality, while keeping your goals for cost and sustainability in sight. Trane is a leader in indoor air quality. We can help you align with air quality guidelines set by the Centers for Disease Control using innovative technologies and proven solutions.

Trane Building Services

Help reduce operating costs and extend the life of your equipment with planned maintenance from Trane.

Consulting Engineer Portal

Trane offers expert HVAC systems, solutions, and support for every stage of a building lifecycle, including quick links to design and analysis tools, education and training, BIM and CAD drawings, prepackaged solutions, and energy analysis tools.
Visit www.traneengineer.com

Trane Rental Services

Water-Cooled Chillers, Air-Cooled Chillers, Temporary Power, Cooling Towers, Packaged A/C Units, Air Handlers, Portable A/C Units

Trane Creative Solutions

Customized Trane Equipment Modifications including: Multizone Replacements, Water-Side Economizer Coils for Air-Cooled Chillers, Packaged Air-Cooled Ice Storage Systems, Acoustical Attenuation

PRODUCT INFORMATION MATRIX

- A matrix breaking out product information on all products, options, accessories such as product type, capacity range, standard warranty information, extended warranty information, estimated lead time/delivery time, etc.

1. HVAC Equipment and Products

Product Type		Trane Model	Link to Trane Website	Capacity Range	Standard Warranty Information	Extended Warranty Information	Est. Lead Time / Delivery Time, etc.
CHILLERS							
Air-cooled chillers	Air-Cooled Scroll Chillers	CGAM	Scroll Chiller Model CGAM (trane.com)	20 to 130 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, Delayed Start-Up	Contact Trane Office
Air-cooled chillers	Series R Helical Rotary Chillers	RTAC	Series R® Helical Rotary Chiller Model RTAC (trane.com)	140 to 500 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, Delayed Start-Up	Contact Trane Office
Air-cooled chillers	Sintesis Air-Cooled Chillers	RTAF	Sintesis® Air-Cooled Chillers (trane.com)	115 to 520 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Air-cooled chillers	Ascend Air-Cooled Chillers	ACS	Ascend™ Air-Cooled Chillers Model ACS (trane.com)	140 to 230 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Air-cooled chillers	Ascend Air-Cooled Chillers with Integrated Free Cooling	ACR	Ascend® ACR Chillers (trane.com)	150 to 550 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Air-cooled chillers	Air-Cooled Oil-Free Magnetic Bearing Chillers	TACA	Air-Cooled Oil-Free Magnetic Bearing Chillers (trane.com)	60 to 440 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Air-cooled chillers	Ascend Air-to-Water Heat Pump	ACX	Ascend® ACX Chillers (trane.com)	140 to 230 tons cooling; 1500 to 2500 MBh heating	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Air-cooled chillers	SuperMod	PACV	SuperMod chiller (trane.com)	10-60 to 960 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Air-cooled chillers	Manhattan Gen II	TPAC	Manhattan™ Gen II Modular Chillers (trane.com)	15 to 80 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Water-cooled chillers	Water-Cooled Oil-Free Magnetic Bearing Chillers by Arctic	ARTC	Water-Cooled Oil-Free Magnetic Bearing Chillers by Arctic (trane.com)	60 to 1500 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office

Product Type		Trane Model	Link to Trane Website	Capacity Range	Standard Warranty Information	Extended Warranty Information	Est. Lead Time / Delivery Time, etc.
Water-cooled chillers	Water-Cooled Helical Rotary Chiller	RTUD, RTWD, RTHD	Water-Cooled Helical Rotary Chiller (trane.com)	80 to 450 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Water-cooled chillers	CenTraVac Water-Cooled Chiller	CVHE, CVHF, CVHH, CVHM, CDHG, CDHH, CDHF	CenTraVac Water-Cooled Chiller (trane.com)	120 to 4000+ tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Water-cooled chillers	Agility Centrifugal Water-Cooled Chiller	HDWA	Agility® Centrifugal Water-Cooled Chillers (trane.com)	175 to 425 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Water-cooled chillers	Thermafit™ MiniMod™	ACW	Trane Modular Chiller Model TACA	60 to 1000 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Water-cooled chillers	SuperMod	PWCV	SuperMod chiller (trane.com)	10-60 to 960 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Water-cooled chillers	PolyTherm	V30-V60	PolyTherm™ modular chiller (trane.com)	30 to 480 tons cooling; 450 to 7,200 Mbh heating	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Water-cooled chillers	Manhattan Gen II	TPWC	Manhattan™ Gen II Modular Chillers (trane.com)	15 to 80 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
Compressor chillers	Cold Generator Scroll Chillers	CICD, CGWR, CCAR	Cold Generator Scroll Chillers (trane.com)	CCID 20 to 85 tons; CGWR/CCAR 20 to 75 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant Delayed Start-Up	Contact Trane Office
UNITARY SYSTEMS THAT COMBINE HEATING, COOLING, AND FAN SECTIONS							
Rooftop systems	Impack - 14 SEER, 15 SEER, 16 SEER	4*CC4, 4* CY4; 4* CY5; 4* CZ6	Impack (trane.com)	2 to 5 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, 2-10 Year Heat Exchanger Delayed Start-Up	Contact Trane Office
Rooftop systems	Foundation®	EBC, GBC	Foundation® (trane.com)	3 to 5 tons; 7.5 to 12.5 tons; 15 to 25 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, 2-10 Year Heat Exchanger Delayed Start-Up	Contact Trane Office
Rooftop systems	Voyager® 2 & 3	T*D, T*H, Y*D, Y*H; TC,TE, YC	Voyager® Rooftop Units (trane.com)	12.5 to 25 tons; 27.5 to 50 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, 2-10 Year Heat Exchanger Delayed Start-Up	Contact Trane Office

Product Type		Trane Model	Link to Trane Website	Capacity Range	Standard Warranty Information	Extended Warranty Information	Est. Lead Time / Delivery Time, etc.
Rooftop systems	Precedent®	TS*,YS*; TSJ,YSJ; WS*, DS*; TH*, YH*; WH*,DH*; TZ*, YZ*	Precedent® Rooftop Units (trane.com)	3 to 25 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, 2-10 Year Heat Exchanger Delayed Start-Up	Contact Trane Office
Rooftop systems	IntelliPak®	S*HL, S*HK	IntelliPak (trane.com)	20 to 162 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, 2-10 Year Heat Exchanger Delayed Start-Up	Contact Trane Office
Split systems	Smaller Split Systems	4TTA3, 4TTA4, 4TTA7, 4TTL6, 4TTR3, 4TTR4, 4TTR6, 4TTR7; 4YWA4, 4TWA7, 4TWL6, 4TWR5, 4TWR6, 4TWR4, 4TWR7; GAF2, GAM5, TAM6, EM4, TEM6	Split System Air Conditioners and Heat Pumps (trane.com)	1.5 to 5 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, Delayed Start-Up	Contact Trane Office
Split systems	Gas Furnaces and coils	S8X1, S8X2, S9V2-PS, S9V2-VS, S9X1, S9X2, TDD2-9B, TUD2-9B, 4PXA-U, 4PXC-U/D, 4TXC-DS, 4TXF	Gas Furnaces and Indoor Coils (trane.com)	1.5 to 5 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, Delayed Start-Up	Contact Trane Office
Split systems	Odyssey™	TTA, TWA, TWE	Odyssey™ Split Systems with Symbio Controls (trane.com)	6 to 25 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, Delayed Start-Up	Contact Trane Office
Split systems	Large Split Systems	RAUJ, CAUJ	Large Commercial Condensers (RAUJ CAUJ) (trane.com)	20 to 120 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, Delayed Start-Up	Contact Trane Office
Self-contained systems	Intellipak® Modular Series	SCW/R; SIW/R	Intellipak® Modular Series (trane.com)	20 to 35 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, 2-10 Year Heat Exchanger Delayed Start-Up	Contact Trane Office
Self-contained systems	Modular Self Contained™	SCWM	Modular 40 to 80 Tons (trane.com)	40 to 80 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, 2-10 Year Heat Exchanger Delayed Start-Up	Contact Trane Office
Self-contained systems	IntelliPak™ Signature Series	SC/I - W/R	Signature 20 to 110 Tons (trane.com)	20 to 110 tons WC, 25 to 60 tons AC	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, 2-10 Year Heat Exchanger Delayed Start-Up	Contact Trane Office

Product Type		Trane Model	Link to Trane Website	Capacity Range	Standard Warranty Information	Extended Warranty Information	Est. Lead Time / Delivery Time, etc.
Water source heat pumps	Axiom™ High-Efficiency Console WSHP	GEC	Console WSHP (trane.com)	.5 to 1.5 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, Delayed Start-Up	Contact Trane Office
Water source heat pumps	Axiom™ Horizontal and Vertical WSHP	EXHV/DXHV; VSHV; GEHV	Axiom™ Horizontal and Vertical Water Source Heat Pumps (trane.com)	.5 to 25 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, Delayed Start-Up	Contact Trane Office
Water source heat pumps	Trane® Axiom™ Rooftop WSHP	GWS	Rooftop WSHP (trane.com)	3 to 20 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, Delayed Start-Up	Contact Trane Office
Water source heat pumps	Axiom™ Vertical Stack WSHP	GET	Axiom™ Vertical Stack Water Source Heat Pump (trane.com)	.75 to 3 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, Delayed Start-Up	Contact Trane Office
Water source heat pumps	Trane® Axiom™ Water-to-Water WSHP	EXW	Axiom Water-to-Water WSHP (trane.com)	5, 10 & 20 tons	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-5 Year Refrigerant, Delayed Start-Up	Contact Trane Office
AIR HANDLING SYSTEMS							
Performance Air Handlers	Catalog Air Handlers	UCCA	Catalog Air Handlers | Industrial HVAC Heating and Cooling (trane.com)	3 thru 30	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor Delayed Start-up	Contact Trane Office
Performance Air Handlers	Semi-Custom Air Handlers	CSAA	Semi-Custom Air Handlers | HVAC Air Conditioning Units and Systems (trane.com)	3 thru 120	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor Delayed Start-up	Contact Trane Office
Performance Air Handlers	Custom Air Handlers	CSAA, PSCA, TCFS, TCPA	Custom Air Handlers | Industrial HVAC Cooling and Heating Systems (trane.com)	10,000 to 200,000+ CFM	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor Delayed Start-up	Contact Trane Office
Blower coil air handlers	Blower Coil Air Handlers	BCHD, BCVD, BCCD	Blower Coil Air Handlers | Terminal Devices, Blower Coils, Unit Heaters (trane.com)	400 to 3000 CFM	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor Delayed Start-up	Contact Trane Office
Make-up air gas heating systems	Indirect Fired Make-Up Air	GGAA/GZAA	Indirect FiredMake-Up Air Gas Heating System (trane.com)	100 to 1,200 Mbh	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-10 Year Heat Exchanger Delayed Start-up	Contact Trane Office
Air handler options	Motorized Impeller Fan Array	MI	Motorized Impeller Fan Array (trane.com)	Up to 15 Fans	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, Delayed Startup	Contact Trane Office
Air handler options	Sensible Assisted Membrane	SAM	Sensible Assisted Membrane (trane.com)	Customized Airflow	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, Delayed Startup	Contact Trane Office
Air cleaning options (IAQ)	Trane Catalytic Air Cleaning System	TCATS	Trane Catalytic Air Cleaning System	3 thru 120	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, Delayed Startup	Contact Trane Office

Air cleaning options (IAQ)	CDQ® Desiccant Dehumidification	CDQ	CDQ® Desiccant Dehumidification (trane.com)	3 thru 120	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, Delayed Startup	Contact Trane Office
TERMINAL DEVICES							
Unit heaters	High Efficiency Gas Heaters	HI-050 to 400	High Efficiency Gas Heaters (trane.com)	50 to 400 Mbh	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-10 Year Heat Exchanger, Delayed Startup	Contact Trane Office
Unit heaters	S & P Unit Heaters	UHSB, UHPB	S&P Unit Heaters (trane.com)	8 to 705.6 Mbh	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, Delayed Startup	Contact Trane Office
Unit heaters	Electric Unit Heaters	UHEC, UHXA, UHRA, UHWA, UHAA	Electric Unit Heaters (trane.com)	2 TO 100 Kw	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, Delayed Startup	Contact Trane Office
Unit heaters	Gas Unit Heaters	GRAA, GFAA, GSAA	Gas Unit Heaters (trane.com)	100 to 400 MBh	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-10 Year Heat Exchanger, Delayed Startup	Contact Trane Office
Unit heaters	Gas Unit Heaters	GT, GH, GA, GB, GK	Gas Unit Heaters (trane.com)	30 to 400 MBh	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-10 Year Heat Exchanger, Delayed Startup	Contact Trane Office
Unit heaters	Gas Unit Heaters	GLNE, GMNE, GNNE, GTNE, GUNE, GVNE	Gas Unit Heaters (trane.com)	30 to 400 MBh	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-10 Year Heat Exchanger, Delayed Startup	Contact Trane Office
Unit heaters	Gas Unit Heaters	GGAA	Gas Unit Heaters (trane.com)	100 to 800 MBh	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-10 Year Heat Exchanger, Delayed Startup	Contact Trane Office
Unit heaters	Gas Unit Heaters	AHAA/AHBA	Gas Unit Heaters (trane.com)	1500 to 14,000 CFM	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, 2-10 Year Heat Exchanger, Delayed Startup	Contact Trane Office
Unit ventilators	Classroom Unit Ventilators	HUVC, VUVC	Classroom Unit Ventilators (trane.com)	750 to 2000 CFM - Horz. 750 to 1500 CFM Vert.	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, Delayed Startup	Contact Trane Office
Fan coil units	UniTrane® Fan Coil	FCAB, FCBB, FCCB, FCDB, FCEB, FCHB, FCJB, FCPB	UniTrane® Fan Coil	200 to 1200 CFM	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, Delayed Startup	Contact Trane Office
Fan coil units	Vertical High Rise Fan Coil	FCVA	Vertical High Rise Fan Coil (trane.com)	300 to 1200 CFM	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, Delayed Startup	Contact Trane Office
Fan coil units	Sensible Cooling Terminal Units	LDCF, LDEF, LDWF	Sensible-Cooling Terminal Devices | Terminal Device Solutions (trane.com)	4" to 8" Primary	12 mo from start up, or 18 mo from shipment	2-5 Year Parts and Labor, Delayed Startup	Contact Trane Office

TECHNICAL INFORMATION

- All necessary technical information relating to operation of equipment and systems, along with list of spare parts recommended by manufacturers with part numbers needed to maintain and efficiently run the systems and equipment.

All necessary technical information relating to the operation of equipment and systems, along with a list of spare parts recommended by manufacturers with part numbers to maintain and efficiently run the systems and equipment **are furnished by product type per job**. We do not furnish parts lists anymore as it is now maintained electronically. In order to save valuable time and paper resources, we have chosen to provide a sample of how we provide this information to our customers. Additional information is provided via link in the Product Information Matrix.

d. Record Keeping and Processing System

d. Describe Bidder's record keeping and processing system for work performed.

ONLINE ACCESS TO RECORDS

- Bidder's ability to provide online access to records.

Trane's ComfortSite requires a login and password (provided to a customer by a local Trane Parts location) and provides free access to technical tools and information, literature, parts identification tools, online ordering and online warranty and credit request entry. Our parts identification tool has search options for model, serial, part, vendor part, description and more. Information returned includes parts lists, graphics, where used information, supersede information, literature, warranty information and sales order information. Literature and graphics can easily be printed or emailed, and parts lists exported to Excel. Customer pricing and availability is also in the tool, and items can be added to the cart with one click. Orders submitted online flow to the local Parts location for fulfillment. In addition to these options, ComfortSite also allows Owners the ability to manage local parts inventory, equipment replacement plans and schedule services.

EXPEDITING DELIVERY OF PRODUCT

- State any options for expediting delivery of product.

Trane's product order entry system, TOPPS, provides the ability of both emergency and rush orders. This system is unique in that it allows the flexibility of integrating the ERO (rush) orders into the standard order system without disruptions or excessive costs.

Operational Excellence (OpEx) is part of our Path to Premier Performance. It is a philosophy and collection of tools to drive out waste from our processes. While many aspects of Lean Manufacturing are involved in OpEx, the skillset also includes Six Sigma and other tools needed to solve both simple and complex problems that keep us from delivering premier performance to our customers, our shareholders, and our employees.

Quick Ship Option Trane Quick Ship option provides shorter delivery leads for time critical jobs such as replacement or "fast-track" jobs with tight construction cycles.

Ever had the need to have cooling equipment available in a quick time frame, either for a specific fast-track project, replacement, retrofit job or emergency breakdown? Trane has an extensive stock of air-

© 2022 Trane. All rights reserved.

cooled **Packed Stock Product** and water- cooled chillers, rooftops, ducted split systems to suit your needs for immediate delivery. Each factory carries stocked product that is available to ship within 24 hours. Stock is limited to common options, sizes, and configurations.

BACKORDER POLICY

- State backorder policy. Does Bidder fill or kill order and require Participating Public Agency to reorder if item is backordered?

Trane strives to provide on-time delivery for all orders placed. Occasionally the Company is unable to immediately fill an order. In these instances, the back- ordered items or materials are automatically scheduled and delivered once the fill- rate is complete. In most instances, the Participating Public Agency would not be required to re-order items and would automatically receive the items when available.

RESTOCKING PROCEDURES FOR RETURNS

- State restocking procedures for returning products, if applicable.

Returns must have prior written approval by Company and are subject to restocking charge where applicable.

SPECIAL PROGRAMS

- Describe any special programs offered that will improve customers' ability to access Products and Services, on-time delivery, or other innovative strategies.

Comfortsite

ComfortSite requires a login and password (provided to a customer by a local Trane Parts location) and provides free access to technical tools and information, literature, parts identification tools, online ordering and online warranty and credit request entry. Our parts identification tool has search options for model, serial, part, vendor part, description and more. Information returned includes parts lists, graphics, where used information, supersede information, literature, warranty information and sales order information. Literature and graphics can easily be printed or emailed, and parts lists exported to Excel. Customer pricing and availability is also in the tool, and items can be added to the cart with one click. Orders submitted online flow to the local Parts location for fulfillment. In addition to these options, Comfortsite also allows Owners the ability to manage local parts inventory, equipment replacement plans and schedule services.

TOPPS

Trane's product order entry system, TOPPS, provides the ability of both emergency and rush orders. This system is unique in that it allows the flexibility of integrating the ERO (rush) orders into the standard order system without disruptions or excessive costs.

Operational Excellence (OpEx) is part of our Path to Premier Performance. It is a philosophy and collection of tools to drive out waste from our processes. While many aspects of Lean Manufacturing are involved in OpEx, the skillset also includes Six Sigma and other tools needed to solve both simple and complex problems that keep us from delivering premier performance to our customers, our shareholders, and our employees.

Each factory carries stocked product that is available to ship within 24 hours. Stock is limited to common options, sizes, and configurations.

TRANE'S CAPACITY TO BROADEN CONTRACT SCOPE

- Describe the capacity of Bidder to broaden the scope of the contract and keep the product and service offerings current and ensure the latest products, standards and technology for HVAC Products, Installation, Labor Based Solutions, and Related Products and Services.

Whenever a new product offering or service becomes available to the field, Trane will provide documentation for inclusion onto the HVAC Equipment and Services contract. This submission would include such information as suggested price discounting, market analysis, expected market penetration, related marketing materials for various vertical areas and technologies included. Once added the contract, Trane would market the additions thru internal eNewsletters, webinars, local seminars, and direct contact.

TRANE'S SAFETY POLICY

- Describe your Bidder's safety policy and/or program, including how the policy is communicated to employees, whether the employees are evaluated on safety, and if any employees are dedicated to safety.

Safety Program and OSHA Practices Trane's incident (OSHA) rates are consistently 67-86% below the industry average and our current Experience Modification Rate (EMR) is 0.61.

Safety Planning is woven into Trane's Construction/Installation Approach. An Environmental, Health and Safety (EH&S) Specialist is assigned to every project. This position is organizationally-independent and has the authority to stop work — or material in process — that does not meet quality installation and safety standards. The EH&S Specialist is responsible for standards (procedures, programs, and guidance) and compliance throughout all phases of project delivery.

The EH&S Specialist is involved in recurring review meetings to ensure unbiased assessments of the health of the project. The EH&S Specialist works with onsite personnel to monitor EH&S programs and ensure compliance with Trane's Safety program and Federal, state, and local regulatory requirements. He/she oversees that the site safety inspections, audits, site safety action register, reporting, and personnel safety training are accurate and up to date.

A wide range of safety training and resources are available to Trane technicians, including:

- Safety training — 20 hours per year
- Electrical safety — NFPA 70E compliant, electrical PPE
- Fall protection

© 2022 Trane. All rights reserved.

- Ergonomics
- Smith System Safe Driving Program
- USDOT compliance
- Refrigerant management training

Subcontractors are thoroughly pre-screened and qualified to fully vet their safety records and ratings, citation history for the last five years, OSHA (Occupational Safety and Health Administration) logs for the past three years, history of payment to vendors, financial viability, bonding capacity, proof of insurance, review of their company safety policy including employee commitment and involvement, worksite analysis, hazard control and training. Trane requires all subcontractors to hold **weekly safety meetings** to address any anticipated safety concerns or any outstanding safety issues that need to be addressed. Trane's safety department requires strict compliance with the company's safety policies and all OSHA requirements

QUALITY CONTROL

- Describe Bidder's quality control processes.

Trane leverages industry-leading systems including ISO, Lean-Six Sigma, UL, CE, and other internal/external quality standards to ensure top quality products are provided to customers. Quality policy and programs are coordinated by our corporate functions and completed on a by product line and site of manufactured basis. Specific policy can be reviewed by specific area when required. Incremental to these key programs that are reviewed monthly by leadership team members, Trane products also have utilized four (4) initiatives to provide cost saving areas for our customer: ICS: Integrated Control Systems. The controls that come with Trane products all offer an open computer control technology protocol. This allows a client to feel comfortable that with every Trane product that is purchased, their existing Building Automation System will be able to communicate or if there is not a Building Automation System in place, Trane can provide our BAS system at a packaged program price.; D.F.T.: Demand Flow Technology, a mathematically based business strategy that encompasses the entire Trane organization: marketing, sales, order entry, engineering manufacturing, suppliers, and finance. Demand Flow Technology manages every aspect of the product cycle from the time the product is ordered, until it is shipped. Its sophisticated procedures ensure that customers receive fast availability of a wide selection of Trane standard products as well as custom and modified ones.

Six Sigma

Trane has adopted Six-Sigma initiatives at all levels of the company to improve the processes managed by our business units. All employees in each manufacturing process are trained to QC manufacturing steps. Statistical samples of finished goods are routinely inspected to monitor product quality. Corporate keeps open dialogue with employees and distributors to monitor our quality of service and response.

Quality Guarantee

Trane provides a guarantee of performance based on testing conditions as specified in both ARI as well as ASHRAE. Trane then follows this performance with the industry's premier warranty and service

© 2022 Trane. All rights reserved.

support to ultimately provide the best value to the end users. Within the controls and automation teams, for example, Trane has adopted the mantra of "no bad jobs". This business mindset is prevalent throughout Trane, from the factory to the field sales offices.

Our engineers are committed to continuous improvement across all our product lines. They work tirelessly to increase energy efficiency and performance for all our systems, from light commercial to large, applied solutions. It's our depth of experience that makes Trane commercial systems the best in the business.

Our approach to each customer is unique in that we are interested in creating a customer for life rather than selling widgets. That ensures we set expectations with the customer and work to meet or exceed those expectations. Product warranties are in place to make sure the quality is met.

PROBLEM ESCALATION

- Describe Bidder's problem escalation process.

Trane has a strong reputation for customer satisfaction and strives to be a leader in this category, reinforced by eliciting customer feedback through customer satisfaction surveys, identifying root cause of problems, and working to solve problems with finality.

Operational Excellence (OpEx) is part of our Path to Premier Performance. It is a philosophy and collection of tools to drive out waste from our processes. While many aspects of Lean Manufacturing are involved in OpEx, the skillset also includes Six Sigma and other tools needed to solve both simple and complex problems that keep us from delivering premier performance to our customers, our shareholders, and our employees.

The process used to expedite a service call to a service repair quotation starts with the initial service request. The Call Center time and date stamps each service call entry as well as informing the project manager, assigned to the account, of the service request. Once the technician is on the job and has identified the problem, he contacts the project manager and explains the problem and the recommended solution. Our project manager will then contact the customer's representative with the verbal repair quotation, estimated time for repair and request for approval. If the repair can be made at the time the technician is at the jobsite, he will be informed to perform the repair; if not, the project manager will inform the customer's representative with the scheduled repair date. All the project managers carry cell phones and are easily reached any time of the day or night. As an added means of assuring customer satisfaction, the communication center will call each customer location after each scheduled maintenance and quoted repair service. The results of this satisfaction survey are electronically returned to the Trane Project Manager and if further actions are required, they will be immediately addressed. The results are compiled and submitted for the customer's review on a predetermined time frame.

After Hours

The after-hours call center has an escalation process should the primary on-call technician not acknowledge the first call within 15 minutes. If the secondary technician fails to respond in 15 minutes, the area service manager is that contacted. During normal business hours, the service dispatcher will initially assess the call priority. The customer has the option to engage with the service manager if they have issues, concerns or questions with the call response or repairs(s) performed.

CUSTOMER COMPLAINTS

- Describe how customer complaints are measured and categorized. What processes are in place to know that a problem has been resolved?

Customer Satisfaction Survey

Trane has a strong reputation for customer satisfaction and strives to be a leader in this category, reinforced by eliciting customer feedback through customer satisfaction surveys, identifying root cause of problems, and working to solve problems with finality.

Key Drivers for Fulfillment / Project Management:

- Functionality of the equipment/systems installed on the job
- Follow-up and follow through on commitments
- Labor resources assigned to the job
- Communication of schedule status
- Resolving issues as they come up

Key Drivers for Sales/Account Management:

- Level in expertise in developing solutions
- Responsiveness of account managers to questions and inquiries
- Time it took to provide a quote that met project requirements

A four-day Customer Satisfaction Training is delivered over 12 months to all offices. Below you will see the full training schedule:

Day 1

- Management Engagement
- Module 1: Understanding Expectations
- Module 2: Speak the Language of Excellence in Service

Day 2

- Module 3: Become a Master Communicator
- Module 4: Listening for Service Opportunities
- Module 5: The Power of a Good Question

Day 3

- Module 6: Dealing with Problems, Complaints and Concerns
- Module 7: Dealing with that Difficult Person
- Module 8: Restore and Rebuild Broken Relationships

Day 4

- Module 9: Communicating Under Pressure – How to be Calm and Effective
- Module 10: How to be a Customer Service Superstar
- Module 11: Achieve Customer Loyalty and Advocacy

© 2022 Trane. All rights reserved.

These surveys are analyzed, scored, and reviewed monthly. Low scores are immediately handled by Contracting Leaders. Area Service Managers are provided a score and trend quarterly. Low scores are immediately handled by the Service Manager. All employees have metrics in place to measure their role in customer satisfaction as well. District scores are published within the company, breeding a friendly-competition and best practice sharing for continuous improvement.

POST-INSTALLATION SUPPORT

- Describe Bidder's post-installation support and warranty specifics. Include both product and installation warranty information.

Optimizing HVAC System

To help you ensure that the customer's new system is properly installed and operating at maximum efficiency during the critical first years of operations, Trane B*uilding Services provides startup services with comprehensive HVAC Startup Services and HVAC warranty service agreements.*

HVAC Warranty Service Agreements

Trane provides a variety of extended warranties to allow customers another opportunity to manage their ongoing costs of operations. The nature of Trane HVAC equipment, and truly any mechanical equipment, means that it requires service as it operates. While they receive a standard parts warranty as the original purchaser, our extended warranties help them project their costs and protect their business against increases in material and/or labor costs.

Operating and Maintaining Building

Trane offers HVAC unit repair services that assure continued efficient operation of equipment. Trane can also provide proactive HVAC service plans with scheduled service, select service, and extended warranties to help reduce unplanned repair expenses and to reduce the risk of catastrophic system failure.

Upgrade and Improve Existing System

Compressor and control renewal options offered by Trane Building Services can help bring older chiller systems up to current standards. You can also upgrade chillers with the latest Trane HVAC upgrades. Add value to buildings by addressing energy management, environmental impact, compliance issues, and building lifetime planning through commercial HVAC contracting services and solutions. For temporary or special occasion cooling needs, Trane Building Services provides temporary chillers and rental options. We can also set up cooling contingency plans as part of an overall emergency preparedness plans for scheduled or emergency outages in buildings.

Building Services Commitment

The service professionals of Trane Building Services are committed to ensuring the equipment functions at its highest level of efficiency. With over a century of experience in the industry, Trane Building Services has a clear understanding of how facility management needs change as business and as technology changes. You can always trust Trane Building Services to deliver on promises and provide the highest level of industry knowledge and service for the government entities' equipment.

© 2022 Trane. All rights reserved.

First year parts and labor warranty support is offered by the Trane service group on Centrifugal chillers and water-cooled Rotary Chillers. All other equipment has a one-year parts warranty (unless extended warranties are purchased) and a labor warranty by Trane as part of the standard contract terms with U.S. Communities. Optional extended parts and labor warranties are offered and must be purchased prior to the units being started.

A customer will receive a standard 12/18 warranty on new equipment (basically a parts only warranty). Government entities can buy two different types of warranties thru Trane after the equipment has been shipped:

Option 1: Extended Service Warranty

- Warranty: All parts and labor warranty from Trane factory.
- Requirements: Trane Affiliated Service Company must do a minimum of four inspections.
- Eligible equipment: Trane equ*ipment that is still at least 2 months within standard 12/18 warranty with no major failures. Warranty must be purchased within 6 months of startup but not later than 16 months from shipment*
- Labor (and refrigerant) warranties must be purchased prior to i*nitial unit startup*

Option 2: Extended Service Warranty- Expanded

- Warranty: Parts warranty from Trane factory and Labor warranty from Trane Affiliated
- Service Company (good for the 2nd-5th year or 6th-10th year extended warranties).
- Requirements: Trane Affiliated Service Company must do a minimum of six inspections.
- Eligible equipment: Trane equipment that is either just out of the standard 12/18-month warranty OR will soon be out of an extended warranty (for example 2nd-5th year extended parts warranty). Warranty must be purchased within 6 months of startup but not later than 16 months from shipment
- Labor (and refrigerant) warranties must be purchased prior to initial unit startup
- After we complete the upgrades and construction for a Turnkey Contracting Services project, Trane will deliver the documentation needed to keep the investment working properly. We will provide one preliminary copy of as-built drawings—floor plans showing the actual building layouts—and an advance copy of the Operations & Maintenance (O&M) manual. Once these deliverables are reviewed and approved, Trane will submit two copies of final O&M documents, including:
  - As-built system or installation drawings (or both)
  - Equipment submittals
  - Service and maintenance procedure *manuals*
  - User and technical manu*als*

O&M Summary

Trane eliminates confusion and complexity about who is responsible for maintenance, repair which rest with the customer. As a large global company, we have the leverage to keep costs down for replacement parts—our own and those of other manufacturers. Our integrated approach means that

© 2022 Trane. All rights reserved.

Trane engineers and technicians are trained to work with many brands of equipment, and our extensive network ensures that we have resources close to your building.

At the same time, we have local expertise throughout the country – people who understand the climate, economy, utilities and issues your organization faces. They are your most valuable advisors.

Long-Term Operations and Maintenance Support

Upgraded building systems are meant to save money on energy and cost less to maintain for many, many years. Trane stands by customers to help keep systems working at top efficiency, reduce the chances of equipment failure, and give facilities management the expertise to reach new levels of efficiency. Trane offers a variety of ongoing support opportunities, including training in the optimal operation of HVAC systems. Trane can also provide remote systems monitoring and performance reporting.

DEFECTIVE PRODCTS

- Describe the process for replacement or repair of defective products and warranty related issues.

Process Steps For Replacement / Repair Of Defective Products & Warranty Related Issues

1. Determine if the problem is a unit or system problem.
2. If a unit problem, determine level of urgency—nonfunctioning, intermittent, etc.,
3. Parts or parts with labor?
4. Work with local office to schedule repair. We will ship all U.S. Communities projects with 1st year parts and labor warranties.

Parts and Labor Warranty. Parts Warranty – 12/18

- Trane new equipment warranty terms call for the replacement of defective parts discovered within 12 months of initial start-up or 18 months from date of shipment (12/18 terms), whichever is less.
- Extended parts warranties are also available

Trane Standard Warranty – 12/18

- Standard warranty states that our products will be free from defects in material and workmanship and have the capacities and ratings set forth in the submitted literature, provided that no warranty is made against corrosion, erosion, or deterioration.
- Same 12/18 terms as above

Quick Ship Option

Trane Quick Ship option provides shorter delivery leads for time critical jobs such as replacement or "fast-track" jobs with tight construction cycles.

© 2022 Trane. All rights reserved.

UNIT REPAIR VS. UNIT REPLACEMENT

- Describe how Bidder evaluates and determines unit repair versus unit replacement.

Unit repair versus unit replacement is primarily based in pre-established warranties mutually agreed upon within the contract. One year from date of purchase is standard, additional extended warranties are available for purchase.

The following HVAC extended warranties are available for purchase before the ship date of the applicable equipment to give you added peace of mind:

Types of Extended Warranties

An extended Trane warranty is available for purchase before the ship date of the equipment.

- **Delayed Start-Up**: When start-up of new equipment will be delayed beyond six months after shipment, the delayed start-up warranty will postpone the commencement date of the first-year part warranty.
- **Whole Unit Parts Warranty**: The extended whole unit parts warranty begins at the expiration of the standard warranty. And like the standard warranty, the whole unit parts warranty will replace any covered part that is found to be defective in material or manufacture.
- **Compressor Warranty**: In the event a part in the compressor assembly of a Trane unit or a part in the motor/compressor assembly of a Trane centrifugal chiller covered by this warranty is found to be defective, this warranty will provide for a replacement compressor or part (at the discretion of Trane).
- **Labor Warranty**: When a part covered under warranty is found to be defective, the labor warranty will provide for labor to install the replacement part. Note that 'compressor only' labor warranty covers labor to replace applicable parts on that assembly only. Only a Trane commercial warranty agent may perform warranted repairs under the labor warranty.
- **Refrigerant Warranty**: The refrigerant warranty will provide for replacement refrigerant to restore a unit to the proper refrigerant charge if a warranted part on the Trane unit is found to be defective.
- **Low Voltage Controls Parts Warranty**: The low voltage controls parts warranty is offered on CSAA air handlers ordered with a Pre-Packaged Solution (PPS). The parts warranty begins at the expiration of the standard warranty and covers the low voltage controls components included in the PPS which are found to be defective in material or manufacture.
- **Low Voltage Controls Labor Warranty**: The low voltage controls labor warranty is offered on CSAA air handlers ordered with a Pre-Packaged Solution (PPS). This warranty covers labor to repair/replace low voltage controls components included in the PPS option only. When a part covered under warranty fails, this warranty will provide labor to repair/replace the covered component. Only a Trane commercial warranty agent may perform warranted repairs under the labor warranty.

© 2022 Trane. All rights reserved.

INVOLVEMENT OF OTHER COMPANIES

- Identify all other companies that may be involved in processing, handling, shipping, products and/or services.

Trane utilizes multiple carriers/modes across North America (and beyond) in the process of moving product from our plants and warehouses/distribution centers to our customers. We partner with carriers who meet our requirements and/or industry standards for quality and service performance. Carrier specifics vary by mode, origin/destination points and customer requirements.

DISTRIBUTION FACILITIES

- Provide the number, size and location of Bidder's distribution facilities, warehouses, and retail network as applicable.

Trane has 6 express warehouses, 2 Global parts warehouses, 11 plant sites, 25 retail parts centers, and 205 parts/supply facilities.

ORDER INFORMATION

- Provide order information to include available ordering methods and available payment terms.

Trane offices utilize a myriad of systems with which to conduct and manage the businesses. For commercial equipment, services, installations, energy services, etc., the offices utilize Sales Force for initial data entry and tracking. The information is then transferred into other online systems, depending on the project type.

Equipment projects begin with online selection tools that define unit capacity based on jobsite conditions. These tools also define the electrical requirements, weights, unit sizes and such. Once each unit is selected, the system then transfers these selections to online pricing tools and ultimately, to the manufacturing plants themselves for fabrication. Trane has many manufacturing plants located throughout North America. The type of equipment determines which plant will be used for fabrication as well as the necessary materials required, manufacturing timelines, labor resources, etc. Once the fabrication is complete, all items for a particular project are consolidated for shipment and ultimate delivery to the jobsite.

Service projects begin with an online estimating tool that helps define the necessary labor resources required to fulfil a specific task. Each task is the compiled into a complete job portfolio which then defines the ultimate size and scope of the service project. Service projects can vary in both size and complexity, involving a single or multiple technical resources as well as outside expertise.

Installation projects begin with an online estimating tool that will help define the overall project scope, necessary jobsite resources, materials necessary to fulfill a given scope of work, identified project risks, non-company labor trades required, etc. This tool will also help develop the overall project timeline, Gantt charting, material ordering points, etc.

Service repair parts are managed through an online system that determines product availability, stocking locations, unit pricing, stock replenishment points, etc. Service parts are available from local Trane commercial sales offices as well as several national parts stocking points. These retail outlets work with both the internal and external customers, such as agencies working through a Racine cooperative contract.

Most projects are extended net-30-day status for credit terms. Open terms are established based on the agency's credit worthiness and payment history. Agencies are encouraged to work with their assigned

© 2022 Trane. All rights reserved.

Trane account manager if other needs are required. Trane also offers pre-payment discount options should agencies wish to explore those project investment opportunities.

SUPPORT CENTERS

- Provide the number and location of support centers (if applicable).

Trane has 124 Project/Sales offices and 205 parts/supply facilities. Please note: some parts/supply facilities are located at the same address as project sales offices.

CUSTOMER SERVICE

- Describe Bidder's customer service department staffing levels, hours of operation and other relevant details.

Each office has its own 24/7/365 Emergency call number. Our goal is to answer each call within 30 seconds of receipt, 90% of the time. Our goal is to respond to all emergency calls within 4 hours or less.

ORDERING PROCESS

- Describe the process for ordering when supply of a unit and installation is involved, specifically addressing whether one purchase order is required for the entire project, or if separate purchase orders are required for ordering the product and securing installation services.

We prefer a single purchase order but will accept multiple purchase orders.

The process for receiving a PO is based upon a request (equipment, contracting, service) by a customer, an account manager will research the desired outcome from a systems perspective, suggest a solution and possible alternatives, and include a pricing scenario within a Trane proposal. Should the customer accept and sign the proposal, the order is entered and submitted to Financial Services for credit approval.

Alternatively, if the customer submits its contract/PO, utilizing pricing information provided by an account manager, an order is entered, any attached terms and conditions are reviewed by the Contract Management Department, and submitted to Financial Services for credit approval.

ORDER MANAGEMENT

- Describe Bidder's internal management system for processing orders from point of customer contact through delivery and billing. Please state if Bidder uses single system or platform for all phases of ordering, processing, delivery, and billing.

Trane uses an Oracle-based platform for all phases of ordering, processing, delivery, and billing.

REPORTING

- Describe the capacity of Bidder to provide management reports, i.e., commodity histories, procurement card histories, green spend, etc. for each Participating Public Agency.

Trane can provide account procurement history including project type, dollars spent, purchase frequency and payment type. Trane does not have the ability of providing a "green spend" report format unless the project is identified as LEED during the purchase or construction phase.

© 2022 Trane. All rights reserved.

E. Bid Form Criteria

All pricing submitted using the Bid Form (Attachment C) or a document using the same requested information in the same format.

Trane response includes a product list price discount schedule identified by unit product code. Each product either manufactured or represented by Trane is identified by a unique product code and associated list price discount. Trane does not publish a "list price book" for Commercial HVAC products since product list price is project specific and is determined by unit type, size, electrical requirements, options, and warranty options. Trane's response also includes hourly labor rates, by trade type and geographic location. In addition:

- Trane will be responsible for compliance with any federal, state, or local prevailing wage laws.
- Trane's discount schedule will remain fixed for the duration of the contract, except for product obsoletion or new product introduction. Trane will request the addition of new products and services to the lead agency through a formal request, as opportunities present themselves.

ADDENDUM 1
INVITATION FOR BID
IFB #RC2022-1001
HVAC PRODUCTS, INSTALLATION, LABOR BASED SOLUTIONS, AND RELATED PRODUCTS AND SERVICES

This Addendum has been prepared by:
Racine County
Duane McKinney
Date: Wednesday July 6, 2022

To the Bidder of Record:

This Addendum is issued as stated in the original Invitation for Bid on page 2 in section B. to address questions received from Bidders in writing requesting clarification from Racine County on the specifications provided for the above subject bid and to correct an item in the solicitation. Acknowledge receipt of this addendum by entering the Addendum number and issue date on the space provided below.

Clarification

1. There is a modification included in this Addendum to correct a sentence located under Section B. Term. See below for details.

Questions and Answers

1. Question:
   Attachment D – National Cooperative Contract states "The following documents are used in reviewing and administering national cooperative contracts and are included for Supplier's review and bid." Page 12 states: "The Successful Bidder(s) will be required to sign Attachment D – National Cooperative Contract to be Administered by OMNIA Partners, Exhibit B – Administration Agreement. Contractors should have any reviews required to sign the document prior to submitting a response." Please confirm that the following documents are for Successful Bidder(s) and do not need be executed/signed and included with this proposal response:
   - Exhibit B – Administration Agreement, Example
   - Exhibit C – Master Intergovernmental Cooperative Purchasing Agreement, Example
   - Exhibit D – Principal Procurement Agency Certificate, Example
   - Exhibit E – Contract Sales Reporting Template
   - Exhibit F – Federal Funds Certifications

- Exhibit G – New Jersey Business Compliance

Exhibit H – Advertising Compliance Requirement

Answer: The following documents are informational only:

- *Exhibit C – Master Intergovernmental Cooperative Purchasing Agreement, Example*
- *Exhibit D – Principal Procurement Agency Certificate, Example*
- *Exhibit E – Contract Sales Reporting Template*
- *Exhibit H – Advertising Compliance Requirement*

The documents below are to be completed by the Successful Bidder(s). While the documents below do not need to be submitted as part of the Bidder's initial response, it may quicken the award process if they are included:

- *Exhibit B – Administration Agreement, Example*
- *Exhibit F – Federal Funds Certifications*
- *Exhibit G – New Jersey Business Compliance*

2. Question:
Please confirm that there is no specific Value Add requirement and no scoring associated with Value Add.

Answer: There is no specific Value Add requirement and no scoring associated with Value Add products and/or services.

3. Question:
Please confirm if "G.ADDITIONAL DATA WITH BID, Bidders may include any additional information deemed advantageous to Racine County" should be submitted within the main body of the Complete Bid Package or if this information needs to be submitted under separate cover in the Value Add area on Demand Star

Answer: Yes, Bidders may include any additional information deemed advantageous to Racine County with their bid. This can be submitted either within the main body of the Complete Bid Package or as a separate cover/area in Demand Star.

4. Question:
Please provide clarification on the Supplemental Documents/Added Value upload area and if there is any scoring associated with a separate Added Value.

Answer: See Answers to Questions 2 and 3 above. There is no separate scoring associated with Added Value products and/or services.

<u>Modification</u>

1. Page 13 - Remove the first sentence of Section B. Term and replace with the following:

The term of the Master Agreement will be for five (5) years following the contract award date with the option to renew for one (1) additional five (5) year period.

The rest of this section shall remain.

This Addendum is three (3) pages in its entirety with no additional attachments.

Please sign, date and attach a copy of this Addendum to your bid.

Firm: **Trane U.S. Inc.**

Signature: _____

Date: **July 8, 2022**

Appendix 2

Exhibit A, Response for National Cooperative Contract

Exhibit A
Response for National Cooperative Contract

1.0 Scope of National Cooperative Contract

Capitalized terms not otherwise defined herein shall have the meanings given to them in the Master Agreement or in the Administration Agreement between Vendor (sometimes referred to as 'Supplier') and OMNIA Partners.

1.1 Requirement

Racine County, Wisconsin (hereinafter defined and referred to as "Principal Procurement Agency"), on behalf of itself and the National Intergovernmental Purchasing Alliance Company, a Delaware corporation d/b/a OMNIA Partners, Public Sector ("OMNIA Partners"), is requesting bids for HVAC Products, Installation, Labor Based Solutions, and Related Products and Services. The intent of this Invitation for Bid is any contract between Principal Procurement Agency and Vendor resulting from this Invitation for Bid ("Master Agreement") be made available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies"), through OMNIA Partners' cooperative purchasing program. The Principal Procurement Agency has executed a Principal Procurement Agency Certificate with OMNIA Partners, an example of which is included as Exhibit D, and has agreed to pursue the Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners as a Participating Public Agency in OMNIA Partners' cooperative purchasing program. Registration with OMNIA Partners as a Participating Public Agency is accomplished by Public Agencies entering into a Master Intergovernmental Cooperative Purchasing Agreement, an example of which is attached as Exhibit C, and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, whether pursuant to the terms of the Master Intergovernmental Purchasing Cooperative Agreement or as otherwise agreed to. The terms and pricing established in the resulting Master Agreement between the Vendor and the Principal Procurement Agency will be the same as that available to Participating Public Agencies through OMNIA Partners.

All transactions, purchase orders, invoices, payments etc., will occur directly between the Vendor and each Participating Public Agency individually, and neither OMNIA Partners, any Principal Procurement Agency nor any Participating Public Agency, including their respective agents, directors, employees or representatives, shall be liable to Vendor for any acts, liabilities, damages, etc., incurred by any other Participating Public Agency. Vendor is responsible for knowing the tax laws in each

state.

This Exhibit A defines the expectations for qualifying Vendors based on OMNIA Partners' requirements to market the resulting Master Agreement nationally to Public Agencies. Each section in this Exhibit A refers to the capabilities, requirements, obligations, and prohibitions of competing Vendors on a national level in order to serve Participating Public Agencies through OMNIA Partners.

These requirements are incorporated into and are considered an integral part of this IFB. OMNIA Partners reserves the right to determine whether to make the Master Agreement awarded by the Principal Procurement Agency available to Participating Public Agencies, in its sole and absolute discretion, and any party submitting a response to this IFB acknowledges that any award by the Principal Procurement Agency does not obligate OMNIA Partners to make the Master Agreement available to Participating Procurement Agencies.

1.2 Marketing, Sales and Administrative Support

During the term of the Master Agreement OMNIA Partners intends to provide marketing, sales, partnership development and administrative support for Vendor pursuant to this section that directly promotes the Vendor's products and services to Participating Public Agencies through multiple channels, each designed to promote specific products and services to Public Agencies on a national basis.

OMNIA Partners will assign the Vendor a Director of Partner Development who will serve as the main point of contact for the Vendor and will be responsible for managing the overall relationship between the Vendor and OMNIA Partners. The Director of Partner Development will work with the Vendor to develop a comprehensive strategy to promote the Master Agreement and will connect the Vendor with appropriate stakeholders within OMNIA Partners including, Sales, Marketing, Contracting, Training, and Operations & Support.

The OMNIA Partners marketing team will work in conjunction with Vendor to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through channels that may include:

A. Marketing collateral (print, electronic, email, presentations)

B. Website

C. Trade shows/conferences/meetings

D. Advertising

E. Social Media

The OMNIA Partners sales teams will work in conjunction with Vendor to promote the Master Agreement to both existing Participating Public Agencies and

prospective Public Agencies through initiatives that may include:

A. Individual sales calls
B. Joint sales calls
C. Communications/customer service
D. Training sessions for Public Agency teams
E. Training sessions for Vendor teams

The OMNIA Partners contracting teams will work in conjunction with Vendor to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through:

A. Serving as the subject matter expert for questions regarding joint powers authority and state statutes and regulations for cooperative purchasing
B. Training sessions for Public Agency teams
C. Training sessions for Vendor teams
D. Regular business reviews to monitor program success
E. General contract administration

~~Vendors are required to pay an Administrative Fee of 3% of the greater of the Contract Sales under the Master Agreement and Guaranteed Contract Sales under this Invitation for Bid. Vendor will be required to execute the OMNIA Partners Administration Agreement (Exhibit B).~~

Trane has demonstrated its ability to deliver significant growth with a 2% administration fee and feels an increase will result in loss of business to other, lowered fee cooperative contracts.

1.3 Estimated Volume

The dollar volume purchased under the Master Agreement is estimated to be approximately $500M annually. While no minimum volume is guaranteed to Vendor, the estimated annual volume is projected based on the current annual volumes among the Principal Procurement Agency, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made available to them through OMNIA Partners, and volume growth into other Public Agencies through a coordinated marketing approach between Vendor and OMNIA Partners.

1.4 Award Basis

The basis of any contract award resulting from this IFB made by Principal Procurement Agency will, at OMNIA Partners' option, be the basis of award on a

national level through OMNIA Partners. If multiple Vendors are awarded by Principal Procurement Agency under the Master Agreement, those same Vendors will be required to extend the Master Agreement to Participating Public Agencies through OMNIA Partners. Utilization of the Master Agreement by Participating Public Agencies will be at the discretion of the individual Participating Public Agency. Certain terms of the Master Agreement specifically applicable to the Principal Procurement Agency (e.g., governing law) are subject to modification for each Participating Public Agency as Vendor and such Participating Public Agency may agree without being in conflict with the Master Agreement as a condition of the Participating Agency's purchase and not a modification of the Master Agreement applicable to all Participating Agencies. Participating Agencies may request to enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in the Master Agreement (e.g., governing law, invoice requirements, order requirements, specialized delivery, diversity requirements such as minority and woman owned businesses, historically underutilized business, etc.) ("Supplemental Agreement"). It shall be the responsibility of the Vendor to comply, when applicable, with the prevailing wage legislation in effect in the jurisdiction of the Participating Agency. It shall further be the responsibility of the Vendor to monitor the prevailing wage rates as established by the appropriate department of labor for any increase in rates during the term of the Master Agreement and adjust wage rates accordingly. In instances where supplemental terms and conditions create additional risk and cost for Vendor, Vendor and Participating Public Agency may negotiate additional pricing above and beyond the stated contract not-to-exceed pricing so long as the added price is commensurate with the additional cost incurred by the Vendor. Any supplemental agreement developed as a result of the Master Agreement is exclusively between the Participating Agency and the Vendor (Contract Sales are reported to OMNIA Partners).

All signed Supplemental Agreements and purchase orders issued and accepted by the Vendor may survive expiration or termination of the Master Agreement. Participating Agencies' purchase orders may exceed the term of the Master Agreement if the purchase order is issued prior to the expiration of the Master Agreement. Vendor is responsible for reporting all sales and paying the applicable Administrative Fee for sales that use the Master Agreement as the basis for the purchase order, even though Master Agreement may have expired.

1.5 Objectives of Cooperative Program

This IFB is intended to achieve the following objectives regarding availability through OMNIA Partners' cooperative program:

A. Provide a comprehensive competitively solicited and awarded national agreement offering the Products covered by this solicitation to Participating

Public Agencies;

B. Establish the Master Agreement as the Vendor's primary go to market strategy to Public Agencies nationwide;

C. Achieve cost savings for Vendor and Public Agencies through a single solicitation process that will reduce the Vendor's need to respond to multiple solicitations and Public Agencies need to conduct their own solicitation process;

D. Combine the aggregate purchasing volumes of Participating Public Agencies to achieve cost effective pricing.

2.0 REPRESENTATIONS AND COVENANTS

As a condition to Vendor entering into the Master Agreement, which would be available to all Public Agencies, Vendor must make certain representations, warranties and covenants to both the Principal Procurement Agency and OMNIA Partners designed to ensure the success of the Master Agreement for all Participating Public Agencies as well as the Vendor.

2.1 Corporate Commitment

Vendor commits that (1) the Master Agreement has received all necessary corporate authorizations and support of the Vendor's executive management, (2) the Master Agreement is Vendor's primary "go to market" strategy for Public Agencies, (3) the Master Agreement will be promoted to all Public Agencies, including any existing customers, and Vendor will transition existing customers, upon their request, to the Master Agreement, and (4) that the Vendor has read and agrees to the terms and conditions of the Administration Agreement with OMNIA Partners and will execute such agreement concurrent with and as a condition of its execution of the Master Agreement with the Principal Procurement Agency. Vendor will identify an executive corporate sponsor and a separate national account manager within the IFB response that will be responsible for the overall management of the Master Agreement.

2.2 Pricing Commitment

Vendor commits the not-to-exceed pricing provided under the Master Agreement pricing is its lowest available (net to buyer) to Public Agencies nationwide and further commits that if a Participating Public Agency is eligible for lower pricing through a national, state, regional or local or cooperative contract, the Vendor will match such lower pricing to that Participating Public Agency under the Master Agreement.

2.3 Sales Commitment

Vendor commits to aggressively market the Master Agreement as its go to market strategy in this defined sector and that its sales force will be trained, engaged and committed to offering the Master Agreement to Public Agencies through OMNIA Partners nationwide. Vendor commits that all Master Agreement sales will be accurately and timely reported to OMNIA Partners in accordance with the OMNIA Partners Administration Agreement. Vendor also commits its sales force will be compensated, including sales incentives, for sales to Public Agencies under the Master Agreement in a consistent or better manner compared to sales to Public Agencies if the Vendor were not awarded the Master Agreement.

3.0 VENDOR BID

Vendor must supply the following information for the Principal Procurement Agency to determine if Vendor is qualified and responsible to extend the resulting Master Agreement to Participating Public Agencies through OMNIA Partners.

3.1 Company

A. Brief history and description of Vendor to include experience providing similar products and services.

Trane U.S. Inc. (Trane), a wholly owned subsidiary of Trane Technologies (NYSE: TT), provides systems and services that enhance and leverage the infrastructure of our clients to provide quality, comfort, strong financial impacts, and sustainable outcomes of buildings around the world. Trane's 100-year history as a trusted provider of superior products and services has resulted in a global network of project offices and service/parts locations.

Trane began in 1885 as a family plumbing business in La Crosse, Wisconsin and became the Trane Company in 1913. Over the next hundred years, Trane established its position as a pioneer in climate control. In 1931, the company patented its first air conditioner. Seven years later, Trane launched Turbovac, a new type of water chiller that fundamentally altered the industry's approach to large-building air conditioning systems. These early innovations paved the way for Trane's industry-leading commercial air conditioner, CenTraVac™—the highest efficiency, lowest emissions, most reliable chiller on the market. Throughout the second half of the Twentieth century, Trane expanded its offerings to customers. With the acquisition of Sentinel Electronics in the late 1970s, and General Electric's Central Air Conditioning Division in 1982, Trane expanded both its residential and energy management offerings and entered the building automation system market. In 1984, American Standard Companies, Inc., acquired the Trane Company, and four years later, launched the American Standard Heating & Air Conditioning Brand. Throughout the 1990s and early 2000s, the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED®) building rating program grew—which

influenced building, system, and product design. In addition, control system integration and capabilities increased due to ASHRAE Standard requirements as well as the desire to reduce system energy use.

Trane became a qualified U.S. Department of Energy ESCO in 1999. Since that time, Trane has managed energy services performance contracting (ESPC) programs for federal government agencies, including the Department of Energy, Department of State, Navy, Army, Air Force, and the General Services Administration. Trane's Federal ESPC portfolio includes $641 million in DOE ESPC projects. In 2004, Trane became a NAESCO Accredited Energy Service Provider. By 2007, annual air conditioning sales and services topped $7.4 billion. Trane, Inc., became a public entity after American Standard Companies divested other portions of its business. In December 2007, it was announced that Trane would merge with Ingersoll Rand. The merger became final in June of 2008. System and product investment and introduction continued during this time as the company again responded to customer and standard requirements, as well as the impact of the sustainability movement. Trane's Renewable and Resilient Energy and Power Systems Team focused on developing Smart Grid, Solar Power, Wind Power, and Generator capabilities. In 2013, Trane launched a series of commercial products that reduce carbon emissions by 99.9%. After completing a successful Reverse Morris Trust Transaction with former parent company Ingersoll Rand in March 2020, Trane Technologies and is now listed on the New York Stock Exchange.

Trane's History with Cooperative Contracting

Trane has been participating in regional and national public sector cooperative purchasing contracts since 1998. Originally managed through the Hunton Trane office, the first contract was awarded from TCPN (Texas Cooperative Purchasing Network) and ESC Region 4 and lasted until 2002. At that time, Trane U.S. was awarded a second contract from TCPN and ESC Region 4. These contracts were awarded based on best value and included all the products and services available from the Company at that time. Beginning in 2005, Trane was awarded our third contract from TCPN (Contract R4668) and was in effect thru 2010. Beginning in 2010, Trane was awarded our fourth contract from TCPN (R5045) which ran a total of 7 years in duration. Finally, in 2015, Trane was given another contract under TCPN (R150502) which lasted until 2019. For over 20 years, Trane was a vendor in good standing with TCPN and provided exceptional value and services to agencies piggybacking onto the contracts.

In 2015, Trane also began a relations with Harford County Public Schools and U.S. Communities with the award of 15-JLP-023. This contract ran in parallel with the TCPN award but was deemed the primary contract for use in North America. This contract was applicable in all 50 states and pertained to both the Company owned and independent commercial franchise offices. This

contract was fully executed thru it's 7-year potential plus an additional 6 months. In this time, Trane has seen exceptional year over year growth, delivering value to agencies utilizing the contract.

Trane was also awarded and Energy Services Contract from the Port of Portland and U.S. Communities. This contract, #1153, was initially awarded in 2017 and will run through 2023. At that time, the Port of Portland has the option to extend this contract for an additional five-years. Under this contract, agencies have the ability to secure Energy Services or Performance Contracting from Trane, improving their facility operational costs and savings.

Trane has demonstrated our ability to perform in the public sector markets using public procurement contracts similar to this RFP. We are anxious to help agencies achieve the same results utilizing the contract under Racine County.

B. Total number and location of salespersons and/or project managers employed by Vendor to help support Participating Public Agencies. See table below.

C. Number and location of support centers (if applicable) and location of corporate office.
Trane's Corporate Office is located at 800-E Beaty Street, Davidson, NC 28036. See table below for support center numbers/locations.

Trane Region/ Franchise	Salespersons	Project Managers	Number of Support Centers	
			Project/Sales Offices	Trane Supply Stores
Florida Region	106	38	8	19
Great Lakes Region	119	43	11	18
Greater Northeast Region	185	51	14	22
Kentucky/Indiana Region	29	23	3	6
Mid-America Region	117	51	11	14
Mid-Atlantic Region	92	30	6	10

Seiberlich Trane Franchise, DE	11	10	3	1

D. Annual sales for the three previous fiscal years.

2019: $4.414B

2020: $4.408B

2021: $4.722B

a. Submit FEIN and Dunn & Bradstreet report.

Trane U.S. Inc. FEIN number is 25-0900465. A Dunn & Bradstreet report is provided as Attachment A.

E. Describe any green or environmental initiatives or policies. Trane's Gigaton challenge, LEED buildings, etc.

The Gigaton Challenge is Trane's commitment to eliminate one billion metric tons of CO2e from our customers' footprint by 2030. We lead by example and are committed to carbon-neutral operations and zero waste to landfills by 2030 and pledging to give back more water than used in water-stressed areas. Trane achieved our first set of science-based targets in 2018—two years early—and set bold new commitments for 2030. Our emissions reduction commitments align with the Paris Climate Accord net-zero targets consistent with limiting global temperature rise to no more than 1.5°C.

Energy Star Certification Trane's team includes a wide range of support services that help our customers project energy savings and sustainability successes. Our customers have access to Trane's internal resources for marketing, website development, living learning labs, energy accreditation programs, and grant or report preparation.

- **Marketing & Promotion of Energy Programs**: Trane has dedicated Public Relations resources to support our customer projects with press releases, media outreach, awards, and speaking engagements.
- **Application for an ENERGY STAR Label & LEED Certification**: Trane is actively involved with the Energy Star initiative and has helped customers achieve Energy Star status for their facilities. Trane also supports LEED initiatives and employs over 1,100 LEED Accredited Professionals companywide.
- **Calculation & Reporting of Emissions Reductions**: TRACE™ ® 700

software provides energy modeling of facilities, including an Environmental Impact Analysis designating CO2, SO2, and NOX impact on the environment. Active monitoring through TIS offerings will allow Trane to identify potential operational adjustments or new energy savings opportunities.

Trane's LEED Certified Facilities

Trane has been involved in hundreds of projects to help clients with LEED certification. Our corporate sustainability commitment has led us to LEED certification standards at several of our sites around the world.

- Trane San Antonio District Office, San Antonio, TX – LEED CI 2.0 (Silver)
- Trane Taicang Facility Building, Taicang, China – LEED NC 2.2 (Certified)
- Trane Taicang Office Building, Taicang, China – LEED NC 2.2 (Gold)
- Tozour Trane, King of Prussia, PA – LEED CI v2009 (Certified)
- Trane Arkansas Sales Suite, Little Rock, AR – LEED CI 2.0 (Certified)
- Trane 45 Earhart Drive, Buffalo, NY – LEED EB O&M (Certified)
- Trane St. Paul, St. Paul, MN – LEED EB O&M (Gold)

F. Describe any diversity programs or partners Vendor does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program. If there are any diversity programs, provide a list of diversity alliances and a copy of their certifications.

Diversity is a business imperative at Trane and ingrained in our core values. Trane's corporate-level Supplier Diversity Program includes qualified diverse-owned businesses includes both large and small minority, woman, veteran, disabled, gay, lesbian, bisexual, and transgender owned businesses. At the local level, Trane has implemented a New England United (NEU) Diversity and Inclusion (D&I) network for Trane employees to participate in and help drive change in and outside of the company. All team members proposed for this project participate in these programs. Trane's M/WBE outreach efforts include:

- Contacting M/WBE small business trade associations/business development organizations and using the Small Business Administration's (SBA) website to identify potential partners
- Attending local, regional, and national small and minority business trade shows, Industry Days, and procurement conferences.
- Requesting sources from the System for Award Management (www.sam.gov) Dynamic Small Business Search.
- Documenting flow-down requirements to all subcontractors for small businesses utilization to maximize participation when practical
- Pledged commitment to inclusive sourcing through WEConnect International

G. Indicate if Vendor holds any of the below certifications in any classified areas and include proof of such certification in the response:

a. Minority Women Business Enterprise

☐ Yes ☒ No

If yes, list certifying agency: _____

b. Small Business Enterprise (SBE) or Disadvantaged Business Enterprise (DBE)

☐ Yes ☒ No

If yes, list certifying agency: _____

c. Historically Underutilized Business (HUB)

☐ Yes ☒ No

If yes, list certifying agency: _____

d. Historically Underutilized Business Zone Enterprise (HUBZone)

☐ Yes ☒ No

If yes, list certifying agency: _____

e. Other recognized diversity certificate holder

☐ Yes ☒ No

If yes, list certifying agency: _____

H. List any relationships with subcontractors or affiliates intended to be used when providing services and identify if subcontractors meet minority-owned standards. If any, list which certifications subcontractors hold and certifying agency.

Trane will work directly with public agencies, as required, to determine the diversity spend required for each purchase. Once established, Trane will partner with agency approved local sub-contractors and ensure diversity requirements are met. Trane will report diversity spend as required. At the project level, Trane does the following to promote Small Business Participation:

- Trane will break out contract work requirements into economically feasible units, as appropriate, to facilitate small business participation.
- Trane will conduct market research to identify subcontractors and suppliers through all reasonable means, such as performing online searches on the certified lists and holding pre-bid conferences.
- Trane will provide interested businesses with adequate and timely information about the plans, specifications, and requirements for performance of the prime contract to assist them in submitting a timely offer for the subcontract.
- Trane will direct businesses that need additional assistance to various state and county programs which assists in obtaining bonding, lines of credit, required insurance, necessary equipment, supplies, materials, or

services.

- Trane will solicit small business concerns as early in the acquisition process as practicable to allow them sufficient time to submit a timely offer for the subcontract.
- Trane will utilize the available services of small business associations; local, state, and federal small business assistance offices, and other organizations to encourage small business entities to certify and register with the state and local governments.
- Trane will participate in the formal mentor-protégé program with one or more small business protégés that results in developmental assistance to the protégé(s).
- Trane will advertise subcontracting opportunities in local newspapers.
- Trane will advertise subcontracting opportunities by sending emails to small business concerns local to that particular jobsite.
- Trane will keep the playing field level, allowing all bidders reasonable time to respond and providing the same information to all prospective subcontractors.

I. Describe how Vendor differentiates itself from its competitors.

Trane's experience with cooperative contracting began in 1998 with the Region 4 ESC (Formerly TCPN) contract. In 2015, we were selected to provide products/services under the Harford County Public Schools and U.S. Communities Contract (15-JLP-023) and have executed work under this contract through the seven-year term plus an additional six months. In 2017, Trane secured the Port of Portland and U.S. Communities Contract. Trane® has been a qualified DOE ESCO since 1999 and has completed complex Energy Savings Performance Contracts (ESPC) for the Federal Government. An ESPC is a proven, cash flow neutral financing mechanism that pays for facility improvements that can be paid back over time based on future utility bill saving. Trane's Core Products – HVAC Equipment and Controls – drive one-third of total ESPC savings. Trane's incident (OSHA) rates are consistently 67-86% below the industry average and our current Experience Modification Rate (EMR) is 0.61. Trane has leveraged this experience to deliver dozens of ESPC projects under the Port of Portland contract.

Trane has the capacity to provide a wide range of services and products to support agencies across the country. Our 100-year history as a trusted provider of superior products and services and has resulted in a robust national infrastructure. Our project offices are staffed with factory-trained service technicians that provide operational oversight, O&M, service-repair, and installation support. Trane stocks service-repair parts (over 20,000 SKUs per location), equipment, and supplies right in our customer's communities. We also have established relationships with local designers, suppliers, and subcontractors–including small/disadvantaged businesses. Trane has booked

$1.4B+under our Harford and Port of Portland OMNIA contracts since 2018 and has delivered services and products in 43 states.

Trane has a global network of offices and service/parts locations to deliver services. This offers the following advantages:

- Robust supply chain to sustain operations and rapidly restore service during emergencies
- 2,750 community-based, factory-trained service technicians provide local operational oversight, O&M, service-repair, and installation support
- Established relationships with local designers, suppliers, and subcontractors–including small/disadvantaged businesses
- Reduced travel and lodging costs to save agencies and taxpayers money

As one of the world's largest manufacturers/integrators of energy efficient HVAC equipment and Building Automation Systems (BAS)/Energy Management Control Systems (EMCS), Trane has the technical expertise to optimize energy efficiency, peak demand, and renewable power generation in public facilities. We build, test, certify, implement, and service best-in-class equipment with optimized full and part-load efficiency.

Trane is also a vendor neutral company, and we manage, install, commission, and service other manufacturer's systems. Trane provides BAS/EMCS system integration through both open (i.e. BACnet, LON, Modbus) and proprietary control protocols. We leverage our controls expertise to connect the resilient systems that modern sites rely on.

Trane® has been a qualified DOE ESCO since 1999 and has completed complex Energy Savings Performance Contracts for the Federal Government. Through these efforts, we have developed repeatable, best practice processes. In addition, Trane's Core Products – HVAC Equipment and Controls – drive one-third of total ESPC savings[1]

J. Describe any present or past litigation, bankruptcy or reorganization involving Vendor.

Trane U.S. Inc. is a multi-billion-dollar company and enters hundreds of transactions on an annual basis and, as such, become involved in claims and disputes that arise in the ordinary course of its businesses. As a large company, claims and suits are numerous as many claimants are hoping to tap the deep pockets of a large company. Many of these are unwarranted claims which often result in dismissal. Company-wide compiled data of this scope is not readily

[1] Data extrapolated from: Slattery, T. (2017). Reported Energy and Cost Savings from the Federal DOE ESPC Program: FY 2015 (ORNL/TM -2017/18).

available, and this information cannot be accurately ascertained without extensive and burdensome research. It is the policy of our company to settle claims and disputes amicably and to the satisfaction of our customers. Due to the large volume and because information related to settlements are confidential, we are unable to disclose detailed information on all litigation and claim matters. However, no such dispute or litigation is likely or expected to adversely affect Trane U.S. Inc.'s ability to perform hereunder. Trane has not been involved in a bankruptcy. Trane U.S. Inc. was recently re-formed due to reorganization under Trane Technologies, a $14B company. Although originally established in 1929, our new date of incorporation is May 1, 2020, in Delaware.

K. Felony Conviction Notice: Indicate if the Vendor

~~a. is a publicly held corporation and this reporting requirement is not applicable;~~

b. is not owned or operated by anyone who has been convicted of a felony; or

~~c. is owned or operated by and individual(s) who has been convicted of a felony and provide the names and convictions.~~

L. Describe any debarment or suspension actions taken against Vendor
Not applicable

3.2 Distribution, Logistics

A. Each offeror awarded under this IFB may offer their complete product and service offering/a balance of line. Describe the full line of products and services offered by Vendor.

See the "Product Information Matrix" for the full line of products and services offered by Trane.

B. Describe how Participating Agencies are ensured they will receive the Master Agreement pricing; include all distribution channels such as direct ordering, retail or in-store locations, through distributors, etc. Describe how Participating Agencies verify and audit pricing to ensure its compliance with the Master Agreement.

Trane's regional sales representatives are located in our 124 Project/Sales offices across the country. Trane has pricing forms that are used for OMNIA projects and support the Master Agreement. We will provide pricing validation forms to verify pricing upon request.

C. Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.

Trane utilizes multiple carriers/modes across North America (and beyond) in the process of moving product from our plants and warehouses/distribution centers to our customers. We partner with carriers who meet our requirements and/or industry standards for quality and service performance.

Carrier specifics vary by mode, origin/destination points, and customer requirements.

D. Provide the number, size and location of Vendor's distribution or other operations facilities, warehouses, and/or retail network as applicable.

Trane services products from our 124 sales/project offices and distributes through our 205 parts/supply locations, 6 express warehouses, and 11 manufacturing plant sites.

3.3 Marketing and Sales

A. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as Vendor's primary go to market strategy for Public Agencies to Vendor's teams nationwide, to include, but not limited to:

i. Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days

ii. Training and education of Vendor's national sales force with participation from the Vendor's executive leadership, along with the OMNIA Partners team within first 90 days

The Trane offices have been associated with a national cooperative since it's inception and are intimately involved with a contract that encompasses HVAC equipment and services. Trane has a Cooperative Contracting Team dedicated to Sales and Marketing. This team drives marketing and sales messaging throughout North America and Canada and educates our sales teams with cooperative purchasing positioning. Our detailed plan for the first 90 days includes:

- Announcement in our quarterly Omnia newsletter, which is distributed to over 750 Trane employees and affiliates.
- Announcement on the Trane Commercial internal portal
- We will add information to the Trane Technologies Omnia Hub page where we place important documentation such as due diligence items, pricing, Power Points, contract award letters, newsletters and any pertinent information relevant to the topic.
- Our Omnia program managers will meet with individual sales offices, helping them to understand cooperative markets, targeted sales strategies and presenting the Trane story to the marketplace.
- Conduct regional workshops designed to promote the cooperative contracts, legal statutes, product and services pricing methodology, marketing tools and other topics designed to promote the contract(s). All training will be recorded and posted on our intranet site. The training will focus on educating our sales force on what types of customers can use the contract, the benefits of the contract to Trane and the customer, pricing,

and will ensure our sales teams are educated on how to drive sales in compliance with OMNIA Partners rules.

- One-on-one office visits

B. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Vendor, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to:

i. Creation and distribution of a co-branded press release to trade publications

ii. Announcement, Master Agreement details and contact information published on the Vendor's website within first 90 days

iii. Design, publication and distribution of co-branded marketing materials within first 90 days

iv. Commitment to attendance and participation with OMNIA Partners at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, Regional Cooperative Summits, etc.) and supplier-specific trade shows, conferences and meetings throughout the term of the Master Agreement

v. Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by OMNIA Partners for partner Vendors. Booth space will be purchased and staffed by Vendor. In addition, Vendor commits to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by OMNIA Partners.

vi. Design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement

vii. Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, promotions, etc.)

viii. Dedicated OMNIA Partners internet web-based homepage on Vendor's website with:

- OMNIA Partners standard logo;
- Copy of original Invitation to Bid;
- Copy of Master Agreement and amendments between Principal Procurement Agency and Vendor;
- Summary of Products and pricing;
- Marketing Materials
- Electronic link to OMNIA Partners' website including the online

registration page;

- A dedicated toll-free number and email address for OMNIA Partners

Trane will partner with OMNIA Partners to ensure Participating Agencies and our customers are aware of the awarded contract through multiple marketing and communication campaigns. Trane's 90 plan to market the Master Agreement to participating public agencies will include:

- An email to over 80,000 direct customer contacts that receive Trane E-mail communications
- A co-branded press release within first 30 days-this would be both internal to Trane and sent to national publications and targeted industry publications
- Announcement of award through all applicable social media sites; these include Trane's Facebook presence, Trane Twitter presence and Trane's LinkedIn presence
- Direct mail campaigns
- Co-branded collateral pieces
- Advertisement of contract in regional or national publications
- Participation in trade shows
- Dedicated Omnia internet web-based homepage with:
    - Omnia Logo
    - Link to Omnia website
    - Summary of contract and services offered
    - Due Diligence Documents including a copy of solicitation, copy of contract and any amendments, marketing materials

Co-developing a case study and pursue article placements with key publications

C. Describe how Vendor will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through OMNIA Partners. Include a list of current cooperative contracts (regional and national) Vendor holds and describe how the Master Agreement will be positioned among the other cooperative agreements.

Trane uses the software application Salesforce to manage sales pursuit. For every customer that is eligible for OMNIA Partners pricing, we will notate the eligibility in Salesforce. Upon renewal of existing services, the account owner is then able to offer OMNIA Partners pricing to the customer, except in cases where the customer decides to put the job up for bid. Trane intends to position OMNIA Partners as a top tier cooperative partner.

D. Acknowledge Vendor agrees to provide its logo(s) to OMNIA Partners and

agrees to provide permission for reproduction of such logo in marketing communications and promotions. Acknowledge that use of OMNIA Partners logo will require permission for reproduction, as well.

Trane will provide its logo to OMNIA Partners and agrees to permit reproduction of the logo in marketing communications and promotions. We understand that use of the OMNIA Partners logo requires permission for reproduction.

E. Confirm Vendor will be proactive in direct sales of Vendor's goods and services to Public Agencies nationwide and the timely follow up to leads established by OMNIA Partners. All sales materials are to use the OMNIA Partners logo. At a minimum, the Vendor's sales initiatives should communicate:

   i. Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency

   ii. Best government pricing

   iii. No cost to participate

   iv. Non-exclusive

   As stated in our marketing plan, Trane can confirm these requirements will be met.

F. Confirm Vendor will train its national sales force on the Master Agreement. At a minimum, sales training should include:

   i. Key features of Master Agreement

   ii. Working knowledge of the solicitation process

   iii. Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners

   iv. Knowledge of benefits of the use of cooperative contracts

   As stated in our marketing plan, Trane can confirm these requirements will be met.

G. Provide the name, title, email and phone number for the person(s), who will be responsible for:

   i. Executive Support:
   Greg Spencer, gsspencer@trane.com, 469-442-6055

   ii. Marketing:
   Greg Spencer, gsspencer@trane.com, 469-442-6055

   iii. Sales:
   Greg Spencer, gsspencer@trane.com, 469-442-6055

iv. Sales Support:
Chris Teller, cteller@trane.com, 917-440-2808
Jeremy Lee, Jeremy.lee@trane.com, 913-599-4664
Tina Bossen, tina.bossen@trane.com, 480-490-4502

v. Financial Reporting:
Amanda Dawson, Amanda.dawson@trane.com, 832-551-7999

vi. Accounts Payable:
Amanda Dawson, Amanda.dawson@trane.com, 832-551-7999

vii. Contracts:
Greg Spencer, gsspencer@trane.com, 469-442-6055

H. Describe in detail how Vendor's national sales force personnel and/or project managers are structured, including contact information for the highest-level executive in charge of the sales and/or project management team. Trane has a dedicated Strategic Programs team that drives the use of cooperatives for sales. Leading the group is Aaron Tanck, Director of Strategic Programs. Aaron oversees Greg Spencer, our Cooperative Program Manager. Aaron reports to Amber Mulligan, Vice President, Strategic Sales, who is the highest-level executive in charge of sales for Cooperative contracts. Amber.Mulligan@tranetechnologies, 910-233 -3594.

I. Explain in detail how the sales or project management teams will work with the OMNIA Partners team to implement, grow and service the national program. Trane's Cooperatives team is dedicated to drives sales through our cooperative agreements. This team anticipates working with OMNIA Partners to promote the contract vehicle and provide efficient public service to our customers across the U.S. While we expect to do the majority of the marketing work through our marketing and sales departments, we hope OMNIA Partners can assist with launching our internal training program and occasionally fielding questions from our field teams as they are trained and mobilized. We also hope OMNIA Partners will be able to support us with new opportunities, such as new member sign-up and answering compliance questions.

I. Explain in detail how Vendor will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.contract administration, etc.

Our OMNIA Partners marketing plan includes a coordinated effort between Trane and OMNIA Partners. We will continue to market the OMNIA Partners program both internally and externally via training, corporate SharePoint site, customer meetings, marketing materials, and tradeshows. All marketing materials will be available in hard copy and electronic format. Our Strategic

Program Leader, Greg Spencer, will continue to oversee the program, driving growth throughout the term of the Master Agreement.

J. State the amount of Vendor's Public Agency sales for the previous fiscal year. Provide a list of Vendor's top 3 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

Trane's Public Agency sales under the OMNIA agreement for 2021 was $368.4M. Our top three Public Agency customers/total bookings for 2021 are as follows:

Customer Name	Total Bookings for 2021	Key Contact
Roanoke City Public Schools	$20,601,056.80	Jeff Shawver – Chief of Physical Plants Phone: 540-853-6306
Berwick Area School District	$20,300,560.00	Brent Crispell – Director of Building and Grounds
Hall County Board of Commissioners	$9,696,634.20	Phone: 570-759-6400
Suffolk Public Schools	$7,052,958.50	Brett Jockell – Superintendent and Director

K. Describe Vendor's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

Trane account managers use Trane Select Assist (previously known as TOPSS) to quote and provide technical information for equipment sales. Additionally, our greater sales organization uses multiple Oracle based internal programs to facilitate contracting, equipment (both OEM Trane and buysell), service, controls, and parts orders. Trane maintains a customer focused approach with Salesforce.

L. Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Vendor ~~will guarantee~~ projects each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

Trane projects, but does not guarantee, OMNIA contract sales during the first three years to be:

$50M in year one (2022)

$200M in year two (2023)
$300M in year three (2024)

To the extent Vendor guarantees minimum Contract Sales, the Administrative Fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

Current supply chain environments will have an impact on these projections in addition to inflationary pressures, funding mechanisms, etc.

M. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.

i. Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners).

ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Vendor may respond with lower pricing through the Master Agreement. If Vendor is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners under the Master Agreement.

iii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners).

iv. If alternative or multiple bid and/or proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional bid/proposal.

Detail Vendor's strategies under these options when responding to a solicitation.

Trane, Inc. U.S. continues to offer competitive pricing to the public sector per the cooperative contract guidelines. Currently, these pertain to the Harford County Public Schools Contract 15-JLP-023 and the Port of Portland contract # 1153. Trane has established a strict process to assure agencies receive the correct pricing for the specific contract. This begins with assigning a specific cooperative quote number that identifies the agency as well as project being addressed. The process then dictates that the pricing follow strict contract guidelines including list price discounts for equipment, set hourly rates by trade for labor solutions and fixed mark-up guidelines for non-Trane materials being furnished to meet the project's scope. A combination of these assure that the agency is being provided the correct price for the specified scope of work.

The scores and ratings included in this report are designed as a tool to assist the user in making their own credit related decisions, and should be used as part of a balanced and complete assessment relying on the knowledge and expertise of the reader, and where appropriate on other information sources. The score and rating models are developed using statistical analysis in order to generate a prediction of future events. Dun & Bradstreet monitors the performance of thousands of businesses in order to identify characteristics common to specific business events. These characteristics are weighted by significance to form rules within its models that identify other businesses with similar characteristics in order to provide a score or rating.

Dun & Bradstreet's scores and ratings are not a statement of what will happen, but an indication of what is more likely to happen based on previous experience. Though Dun & Bradstreet uses extensive procedures to maintain the quality of its information, Dun & Bradstreet cannot guarantee that it is accurate, complete or timely, and this may affect the included scores and ratings. Your use of this report is subject to applicable law, and to the terms of your agreement with Dun & Bradstreet.

Risk Assessment

D&B RISK ASSESSMENT

OVERALL BUSINESS RISK

HIGH	MODERATE-HIGH	MODERATE	LOW-MODERATE	LOW

Dun & Bradstreet thinks...

- Overall assessment of this organization over the next 12 months: **SOME-FINANCIAL-STRESS-CONCERNS**
- Based on the predicted risk of business discontinuation: **MODERATELY-HIGHER-THAN-AVERAGE-RISK-OF-FINANCIAL-STRESS**
- Based on the predicted risk of severely delinquent payments: **MODERATE POTENTIAL FOR SEVERELY DELINQUENT PAYMENTS**

MAXIMUM CREDIT RECOMMENDATION

US$ 2,000,000

The recommended limit is based on a moderately high probability of severe delinquency or business failure.

D&B VIABILITY RATING SUMMARY

The D&B Viability Rating uses D&B's proprietary analytics to compare the most predictive business risk indicators and deliver a highly reliable assessment of the probability that a company will go out of business, become dormant/inactive, or file for bankruptcy/insolvency within the next 12 months. The D&B Viability Rating is made up of 4 components:

Viability Score
Compared to All US Businesses within the D&B Database:

- Level of Risk:**Low Risk**
- Businesses ranked **4** have a probability of becoming no longer viable: **5** %
- Percentage of businesses ranked **4: 14** %
- Across all US businesses, the average probability of becoming no longer viable:**14** %

Portfolio Comparison
Compared to All US Businesses within the same MODEL SEGMENT:

- Model Segment :**Established Trade Payments**
- Level of Risk:**Moderate Risk**
- Businesses ranked **5** within this model segment have a probability of becoming no longer viable: **5** %
- Percentage of businesses ranked **5** with this model segment: **11** %
- Within this model segment, the average probability of becoming no longer viable:**5** %

Data Depth Indicator
Data Depth Indicator:

- ✓ Rich Firmographics
- ✓ Extensive Commercial Trading Activity
- ✓ Basic Financial Attributes

Greater data depth can increase the precision of the D&B Viability Rating assessment.

OTHER PAYMENT CATEGORIES

Other Payment Categories	Experience	Total Amount
Cash experiences	103	US$ 222,300
Payment record unknown	14	US$ 419,350
Unfavorable comments	1	US$ 2,500
Placed for collections	5	US$ 0
Total in D&B's file	715	US$ 64,846,750

Accounts are sometimes placed for collection even though the existence or amount of the debt is disputed. Payment experiences reflect how bills are met in relation to the terms granted. In some instances payment beyond terms can be the result of disputes over merchandise, skipped invoices etc. Each experience shown represents a separate account reported by a supplier. Updated trade experiences replace those previously reported.

Corporate Linkage

Increase your understanding of the links and risks between your customers and suppliers with D&B's Interactive Global Family Tree

The public record items contained in this report may have been paid, terminated, vacated or released prior to the date this report was printed. This information may not be reproduced in whole or in part by any means of reproduction.

There may be additional UCC Filings in D&Bs file on this company available by contacting 1-800-234-3867.

There may be additional suits, liens, or judgments in D&B's file on this company available in the U.S. Public Records Database, also covered under your contract. If you would like more information on this database, please contact the Customer Resource Center at 1-800-234-3867.

If it is indicated that there are defendants other than the report subject, the lawsuit may be an action to clear title to property and does not necessarily imply a claim for money against the subject.

A lien holder can file the same lien in more than one filing location. The appearance of multiple liens filed by the same lien holder against a debtor may be indicative of such an occurrence.

COMPANY EVENTS

The following information was reported on: 02/24/2022

The Delaware Secretary of State's business registrations file showed that Trane U.S. Inc. was registered as a Corporation on March 26, 1929, under the file registration number 255803. The name was changed from American Standard Inc. to Trane U.S. Inc. by charter amendment on November 8, 2007.

Business started 1929. 100% of capital stock is owned by the parent company.

All of its outstanding common stock is owned by Trane Inc (Formerly : American Standard Companies Inc, name changed in Nov 1994 from ASI Holding Corporation) that was formed in 1988 by Kelso & Company LP to effect the acquisition of American Standard Inc.

On June 5, 2008 Trane was acquired by Ingersoll-Rand for $10.1 billion.

RECENT EVENTS:.

On July 5, 2012, Mary Beth Martin, Productivity Manager for Americas Accounting, stated that Trane Comfort Solutions, Inc., Piscataway, NJ, has merged with and into Trane U.S., Inc., Piscataway, NJ, last July 1, 2012. With the merger, Trane Comfort Solutions, Inc. has ceased to exist as a legal entity, and all its branches would now operate as Trane U.S., Inc. locations. No further details are available.

DAVE REGNERY. July 2021-present active here.

According to a published report dated May 29, 2009, the Massachusetts Attorney General Martha Coakley's Office has reached an agreement with Trane U.S. Inc, of Piscataway, New Jersey, and its treasurer, David S Kuhl, for violating the Massachusetts Wage and Hour Laws.

As part of the settlement agreement, Trane and Kuhl will pay $38,000 in restitution to 15 employees who worked on numerous public projects in Massachusetts between Aug 2005 and May 2009. The company and Kuhl also agreed to pay a $10,000 fine to the Commonwealth for failing to pay the prevailing wage and failing to submit certified payroll records in violation of the law.

Business address has changed from 3600 Pammel Creek Rd, La Crosse, WI, 54601 to 800-e Beaty St, Davidson, NC, 28036.

BUSINESS ACTIVITIES AND EMPLOYEES

The following information was reported on: 02/24/2022

Business Information

Trade Names	(SUBSIDIARY OF TRANE INC., PISCATAWAY, NJ); TRANE

Exhibit B – Administration Agreement, Example

Exhibit B
Administration Agreement, Example

ADMINISTRATION AGREEMENT

THIS ADMINISTRATION AGREEMENT (this "**Agreement**") is made this 8 day of July 2022 between National Intergovernmental Purchasing Alliance Company, a Delaware corporation d/b/a OMNIA Partners, Public Sector ("**OMNIA Partners**"), and **Trane U.S. Inc.** ("**Supplier**").

RECITALS

WHEREAS, the _____ (the "**Principal Procurement Agency**") has entered into a Master Agreement effective _____, Agreement No_____, by and between the Principal Procurement Agency and Supplier, (as may be amended from time to time in accordance with the terms thereof, the "**Master Agreement**"), as attached hereto as Exhibit A and incorporated herein by reference as though fully set forth herein, for the purchase of _____ (the "**Product**");

WHEREAS, said Master Agreement provides that any or all public agencies, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit (collectively, "**Public Agencies**"), that register (either via registration on the OMNIA Partners website or execution of a Master Intergovernmental Cooperative Purchasing Agreement, attached hereto as Exhibit B) (each, hereinafter referred to as a "**Participating Public Agency**") may purchase Product at prices stated in the Master Agreement;

WHEREAS, Participating Public Agencies may access the Master Agreement which is offered through OMNIA Partners to Public Agencies;

WHEREAS, OMNIA Partners serves as the cooperative contract administrator of the Master Agreement on behalf of Principal Procurement Agency;

WHEREAS, Principal Procurement Agency desires OMNIA Partners to proceed with administration of the Master Agreement; and

WHEREAS, OMNIA Partners and Supplier desire to enter into this Agreement to make available the Master Agreement to Participating Public Agencies and to set forth certain terms and conditions governing the relationship between OMNIA Partners and Supplier.

NOW, THEREFORE, in consideration of the payments to be made hereunder and the mutual covenants contained in this Agreement, OMNIA Partners and Supplier hereby agree as follows:

DEFINITIONS

1. Capitalized terms used in this Agreement and not otherwise defined herein shall have the meanings given to them in the Master Agreement.

TERMS AND CONDITIONS

2. The Master Agreement and the terms and conditions contained therein shall apply to this Agreement except as expressly changed or modified by this Agreement. Supplier acknowledges and agrees that the covenants and agreements of Supplier set forth in the solicitation and Supplier's response thereto resulting in the Master Agreement are incorporated herein and are an integral part hereof.

3. OMNIA Partners shall be afforded all of the rights, privileges and indemnifications afforded to Principal Procurement Agency by or from Supplier under the Master Agreement, and such rights, privileges and indemnifications shall accrue and apply with equal effect to OMNIA Partners, its agents, employees, directors, and representatives under this Agreement including, but not limited to, Supplier's obligation to obtain appropriate insurance.

4. OMNIA Partners shall perform all of its duties, responsibilities and obligations as the cooperative contract administrator of the Master Agreement on behalf of Principal Procurement Agency as set forth herein, and Supplier hereby acknowledges and agrees that all duties, responsibilities and obligations will be undertaken by OMNIA Partners solely in its capacity as the cooperative contract administrator under the Master Agreement.

5. With respect to any purchases by Principal Procurement Agency or any Participating Public Agency pursuant to the Master Agreement, OMNIA Partners shall not be: (i) construed as a dealer, re-marketer, representative, partner or agent of any type of the Supplier, Principal Procurement Agency or any Participating Public Agency; (ii) obligated, liable or responsible for any order for Product made by Principal Procurement Agency or any Participating Public Agency or any employee thereof under the Master Agreement or for any payment required to be made with respect to such order for Product; and (iii) obligated, liable or responsible for any failure by Principal Procurement Agency or any Participating Public Agency to comply with procedures or requirements of applicable law or the Master Agreement or to obtain the due authorization and approval necessary to purchase under the Master Agreement. OMNIA Partners makes no representation or guaranty with respect to any minimum purchases by Principal Procurement Agency or any Participating Public Agency or any employee thereof under this Agreement or the Master Agreement.

6. OMNIA Partners shall not be responsible for Supplier's performance under the Master Agreement, and Supplier shall hold OMNIA Partners harmless from any liability that may arise from the acts or omissions of Supplier in connection with the Master Agreement.

7. Supplier acknowledges that, in connection with its access to OMNIA Partners confidential information and/or supply of data to OMNIA Partners, it has complied with and shall continue to comply with all laws, regulations and standards that may apply to Supplier, including, without limitation: (a) United States federal and state information security and privacy statutes, regulations and/or best practices, including, without limitation, the Gramm-Leach-Bliley Act, the Massachusetts Data Security Regulations (201 C.M.R. 17.00 et. seq.), the Nevada encryption statute (N.R.S. § 603A), the California data security law (Cal. Civil Code § 1798.80 et. seq.) and California Consumer Privacy Act (Cal. Civil Code § 1798.100 et. seq.); and (b) applicable industry and regulatory standards and best practices (collectively, "**Data Regulations**").

With regard to Personal Information that Supplier collects, receives, or otherwise processes under the Agreement or otherwise in connection with performance of the Agreement, Supplier agrees that it will not: (i) sell, rent, release, disclose, disseminate, make available, transfer, or otherwise

communicate orally, in writing, or by electronic or other means, such Personal Information to another business or third party for monetary or other valuable consideration; or (ii) retain, use, or disclose such Personal Information outside of the direct business relationship between Supplier and OMNIA Partners or for any purpose other than for the specific purpose of performance of the Agreement, including retaining, using, or disclosing such Personal Information for a commercial purpose other than for performance of the Agreement. By entering into the Agreement, Supplier certifies that it understands the specific restrictions contained in this Section 7 and will comply with them. For purposes hereof, "**Personal Information**" means information that identifies, relates to, describes, is reasonably capable of being associated with, or could reasonably be linked, directly or indirectly, with a particular consumer or household, and includes the specific elements of "personal information" as defined under Data Regulations, as defined herein. Supplier will reasonably assist OMNIA Partners in timely responding to any third party "request to know" or "request to delete" (as defined pursuant to Data Regulations) and will promptly provide OMNIA Partners with information reasonably necessary for OMNIA Partners to respond to such requests. Where Supplier collects Personal Information directly from Public Agencies or others on OMNIA Partners' behalf, Supplier will maintain records and the means necessary to enable OMNIA Partners to respond to such requests to know and requests to delete.

8. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, OMNIA PARTNERS EXPRESSLY DISCLAIMS ALL EXPRESS OR IMPLIED REPRESENTATIONS AND WARRANTIES REGARDING OMNIA PARTNERS' PERFORMANCE AS A CONTRACT ADMINISTRATOR OF THE MASTER AGREEMENT. OMNIA PARTNERS SHALL NOT BE LIABLE IN ANY WAY FOR ANY SPECIAL, INCIDENTAL, INDIRECT, CONSEQUENTIAL, EXEMPLARY, PUNITIVE, OR RELIANCE DAMAGES, EVEN IF OMNIA PARTNERS IS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

TERM OF AGREEMENT; TERMINATION

9. This Agreement shall be in effect so long as the Master Agreement remains in effect, provided, however, that the provisions of Sections 3 – 8 and 11 – 22, hereof and the indemnifications afforded by the Supplier to OMNIA Partners in the Master Agreement, to the extent such provisions survive any expiration or termination of the Master Agreement, shall survive the expiration or termination of this Agreement.

NATIONAL PROMOTION

10. OMNIA Partners and Supplier shall publicize and promote the availability of the Master Agreement's products and services to Public Agencies and such agencies' employees. Supplier shall require each Public Agency to register its participation in the OMNIA Partners program by either registering on the OMNIA Partners website (www.omniapartners.com/publicsector) or executing a Master Intergovernmental Cooperative Purchasing Agreement prior to processing the Participating Public Agency's first sales order. Upon request, Supplier shall make available to interested Public Agencies a copy of the Master Agreement and such price lists or quotes as may be necessary for such Public Agencies to evaluate potential purchases.

11. Supplier shall provide such marketing and administrative support as set forth in the solicitation resulting in the Master Agreement, including assisting in development of marketing materials as reasonably requested by Principal Procurement Agency and OMNIA Partners. Supplier shall be responsible for obtaining permission or license of use and payment of any license fees for all content and images Supplier provides to OMNIA Partners or posts on the OMNIA Partners website.

Supplier shall indemnify, defend and hold harmless OMNIA Partners for use of all such content and images including copyright infringement claims. Supplier and OMNIA Partners each hereby grant to the other party a limited, revocable, non-transferable, non-sublicensable right to use such party's logo (each, the "**Logo**") solely for use in marketing the Master Agreement. Each party shall provide the other party with the standard terms of use of such party's Logo, and such party shall comply with such terms in all material respects. Both parties shall obtain approval from the other party prior to use of such party's Logo. Notwithstanding the foregoing, the parties understand and agree that except as provided herein neither party shall have any right, title or interest in the other party's Logo. Upon termination of this Agreement, each party shall immediately cease use of the other party's Logo.

ADMINISTRATIVE FEE, REPORTING & PAYMENT

12. An "Administrative Fee" shall be defined and due to OMNIA Partners from Supplier in the amount of 2 percent (2%) ("**Administrative Fee Percentage**") multiplied by the total purchase amount paid to Supplier, less refunds, credits on returns, rebates and discounts, for the sale of products and/or services to Principal Procurement Agency and Participating Public Agencies pursuant to the Master Agreement (as amended from time to time and including any renewal thereof) ("**Contract Sales**"). From time to time the parties may mutually agree in writing to a lower Administrative Fee Percentage for a specifically identified Participating Public Agency's Contract Sales.

13. Supplier shall provide OMNIA Partners with an electronic accounting report monthly, in the format prescribed by OMNIA Partners, summarizing all Contract Sales for each calendar month. The Contract Sales reporting format is provided as Exhibit C ("**Contract Sales Report**"), attached hereto and incorporated herein by reference. Contract Sales Reports for each calendar month shall be provided by Supplier to OMNIA Partners by the 10th day of the following month. Failure to provide a Contract Sales Report within the time and manner specified herein shall constitute a material breach of this Agreement and if not cured within thirty (30) days of written notice to Supplier shall be deemed a cause for termination of the Master Agreement, at Principal Procurement Agency's sole discretion, and/or this Agreement, at OMNIA Partners' sole discretion.

14. Administrative Fee payments are to be paid by Supplier to OMNIA Partners at the frequency and on the due date stated in Section 13, above, for Supplier's submission of corresponding Contract Sales Reports. Administrative Fee payments are to be made via Automated Clearing House (ACH) to the OMNIA Partners designated financial institution identified in Exhibit D. Failure to provide a payment of the Administrative Fee within the time and manner specified herein shall constitute a material breach of this Agreement and if not cured within thirty (30) days of written notice to Supplier shall be deemed a cause for termination of the Master Agreement, at Principal Procurement Agency's sole discretion, and/or this Agreement, at OMNIA Partners' sole discretion. All Administrative Fees not paid when due shall bear interest at a rate equal to the lesser of one and one-half percent (1 1/2%) per month or the maximum rate permitted by law until paid in full.

15. Supplier shall maintain an accounting of all purchases made by Participating Public Agencies under the Master Agreement. OMNIA Partners, or its designee, in OMNIA Partners' sole discretion, reserves the right to compare Participating Public Agency records with Contract Sales Reports submitted by Supplier for a period of four (4) years from the date OMNIA Partners receives such report. In addition, OMNIA Partners may engage a third party to conduct an independent audit of Supplier's monthly reports. In the event of such an audit, Supplier shall provide all materials reasonably requested relating to such audit by OMNIA Partners at the location designated by OMNIA Partners. In the event an underreporting of Contract Sales and a resulting underpayment of

Administrative Fees is revealed, OMNIA Partners will notify the Supplier in writing. Supplier will have thirty (30) days from the date of such notice to resolve the discrepancy to OMNIA Partners' reasonable satisfaction, including payment of any Administrative Fees due and owing, together with interest thereon in accordance with Section 13, and reimbursement of OMNIA Partners' costs and expenses related to such audit.

GENERAL PROVISIONS

16. This Agreement, the Master Agreement and the exhibits referenced herein supersede any and all other agreements, either oral or in writing, between the parties hereto with respect to the subject matter hereto and no other agreement, statement, or promise relating to the subject matter of this Agreement which is not contained or incorporated herein shall be valid or binding. In the event of any conflict between the provisions of this Agreement and the Master Agreement, as between OMNIA Partners and Supplier, the provisions of this Agreement shall prevail.

17. If any action at law or in equity is brought to enforce or interpret the provisions of this Agreement or to recover any Administrative Fee and accrued interest, the prevailing party shall be entitled to reasonable attorney's fees and costs in addition to any other relief to which it may be entitled.

18. This Agreement and OMNIA Partners' rights and obligations hereunder may be assigned at OMNIA Partners' sole discretion to an affiliate of OMNIA Partners, any purchaser of any or all or substantially all of the assets of OMNIA Partners, or the successor entity as a result of a merger, reorganization, consolidation, conversion or change of control, whether by operation of law or otherwise. Supplier may not assign its obligations hereunder without the prior written consent of OMNIA Partners.

19. All written communications given hereunder shall be delivered by first-class mail, postage prepaid, or overnight delivery on receipt to the addresses as set forth below.

A. OMNIA Partners:

OMNIA Partners
Attn: President
840 Crescent Centre Drive
Suite 600
Franklin, TN 37067

B. Supplier:

Trane U.S. Inc.
800 Beaty Street
Davidson, NC 28036-6924

20. If any provision of this Agreement shall be deemed to be, or shall in fact be, illegal, inoperative or unenforceable, the same shall not affect any other provision or provisions herein contained or render the same invalid, inoperative or unenforceable to any extent whatever, and this Agreement will be construed by limiting or invalidating such provision to the minimum extent necessary to make such provision valid, legal and enforceable.

21. This Agreement may not be amended, changed, modified, or altered without the prior written consent of the parties hereto, and no provision of this Agreement may be discharged or waived, except by a writing signed by the parties. A waiver of any particular provision will not be deemed a waiver of any other provision, nor will a waiver given on one occasion be deemed to apply to any other occasion.

22. This Agreement shall inure to the benefit of and shall be binding upon OMNIA Partners, the Supplier and any respective successor and assign thereto; subject, however, to the limitations contained herein.

23. This Agreement will be construed under and governed by the laws of the State of Delaware, excluding its conflicts of law provisions and any action arising out of or related to this Agreement shall be commenced solely and exclusively in the state or federal courts in Williamson County Tennessee.

24. This Agreement may be executed in counterparts, each of which is an original but all of which, together, shall constitute but one and the same instrument. The exchange of copies of this Agreement and of signature pages by facsimile, or by .pdf or similar electronic transmission, will constitute effective execution and delivery of this Agreement as to the parties and may be used in lieu of the original Agreement for all purposes. Signatures of the parties transmitted by facsimile, or by .pdf or similar electronic transmission, will be deemed to be their original signatures for any purpose whatsoever.

Exhibit F – Federal Funds Certifications

Exhibit F
Federal Funds Certifications

FEDERAL CERTIFICATIONS
ADDENDUM FOR AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

DEFINITIONS

Contract means a legal instrument by which a non–Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non–Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non–Federal entity that, consistent with 31 U.S.C. 6302–6305:

(a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non–Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;

(b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non–Federal entity in carrying out the activity contemplated by the Federal award.

(c) The term does not include:

(1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or

(2) An agreement that provides only:

(i) Direct United States Government cash assistance to an individual;

(ii) A subsidy;

(iii) A loan;

(iv) A loan guarantee; or

(v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non–Federal entity

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

(a)(1) The Federal financial assistance that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or

(2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.

(b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.

(c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).

(d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non–Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

(a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

(b) Is not organized primarily for profit; and

(c) Uses net proceeds to maintain, improve, or expand the operations of the organization.

Obligations means, when used in connection with a non–Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non–Federal entity during the same or a future period.

Pass-through entity means a non–Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Recipient means a non–Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

Simplified acquisition threshold means the dollar amount below which a non–Federal entity may purchase property or services using small purchase methods. Non–Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is $250,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Subrecipient means a non–Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Termination means the ending of a Federal award, in whole or in part at any time prior to the planned end of period of performance.

The following provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Per FAR 52.204-24 and FAR 52.204-25, solicitations and resultant contracts shall contain the following provisions.

52.204-24 Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment (Oct 2020)

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in paragraph (c)(1) in the provision at 52.204-26, Covered Telecommunications Equipment or Services—Representation, or in paragraph (v)(2)(i) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Items. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it "does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services" in paragraph (c)(2) of the provision at 52.204-26, or in paragraph (v)(2)(ii) of the provision at 52.212-3.

(a) *Definitions.* As used in this provision—

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) *Prohibition.*

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) *Procedures.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (https://www.sam.gov) for entities excluded from receiving federal awards for "covered telecommunications equipment or services".

(d) *Representation.* The Offeror represents that—

(1) It □ will, □ will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds "will" in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that—

It □ does, ☒ does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds "does" in paragraph (d)(2) of this section.

(e) *Disclosures.*

(1) Disclosure for the representation in paragraph (d)(1) of this provision. If the Offeror has responded "will" in the representation in paragraph (d)(1) of this provision, the Offeror shall provide the following information as part of the offer.

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded "does" in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the PSC of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

52.204-25 Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment (Aug 2020).

(a) *Definitions.* As used in this clause—

Backhaul means intermediate links between the core network, or backbone network, and the small subnetworks at the edge of the network (*e.g.*, connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (*e.g.*, fiber optic, coaxial cable, Ethernet).

Covered foreign country means The People's Republic of China.

Covered telecommunications equipment or services means–

(1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);

(2) For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);

(3) Telecommunications or video surveillance services provided by such entities or using such equipment; or

(4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Critical technology means–

(1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;

(2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled-

(i) Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or

(ii) For reasons relating to regional stability or surreptitious listening;

(3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);

(4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);

(5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or

(6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

Interconnection arrangements means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately delivered (*e.g.*, connection of a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

Reasonable inquiry means an inquiry designed to uncover any information in the entity's possession about the identity of the producer or provider of covered telecommunications equipment or services used by the entity that excludes the need to include an internal or third-party audit.

Roaming means cellular communications services (e.g., voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

Substantial or essential component means any component necessary for the proper function or performance of a piece of equipment, system, or service.

(b) *Prohibition*.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. The Contractor is prohibited from providing to the Government any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract, or extending or renewing a contract, with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract.

(c) *Exceptions*. This clause does not prohibit contractors from providing—

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) Reporting requirement.

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at https://dibnet.dod.mil. For indefinite delivery contracts, the Contractor shall report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order or, in the case of the Department of Defense, identify both the indefinite delivery contract and any affected orders in the report provided at https://dibnet.dod.mil.

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause

(i) Within one business day from the date of such identification or notification: the contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) *Subcontracts*. The Contractor shall insert the substance of this clause, including this paragraph (e) and excluding paragraph (b)(2), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial items.

The following certifications and provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Pursuant to 2 C.F.R. § 200.326, all contracts, including small purchases, awarded by the Participating Agency and the Participating Agency's subcontractors shall contain the procurement provisions of

Appendix II to Part 200, as applicable.

APPENDIX II TO 2 CFR PART 200

(A) Contracts for more than the simplified acquisition threshold currently set at $250,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Pursuant to Federal Rule (A) above, when a Participating Agency expends federal funds, the Participating Agency reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(B) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

Pursuant to Federal Rule (B) above, when a Participating Agency expends federal funds, the Participating Agency reserves the right to immediately terminate any agreement in excess of $10,000 resulting from this procurement process in the event of a breach or default of the agreement by Offeror as detailed in the terms of the contract.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 CFR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

Pursuant to Federal Rule (C) above, when a Participating Agency expends federal funds on any federally assisted construction contract, the equal opportunity clause is incorporated by reference herein.

Does offeror agree to abide by the above? YES _____ Initials of Authorized Representative of offeror

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non - Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

Pursuant to Federal Rule (D) above, when a Participating Agency expends federal funds during the term of an award for all contracts and subgrants for construction or repair, offeror will be in compliance with all applicable Davis-Bacon Act provisions.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, offeror certifies that offeror will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act during the term of an award for all contracts by Participating Agency resulting from this procurement process.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Pursuant to Federal Rule (F) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror agrees to comply with all applicable requirements as referenced in Federal Rule (F) above.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA)

Pursuant to Federal Rule (G) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency member resulting from this procurement process, the offeror agrees to comply with all applicable requirements as referenced in Federal Rule (G) above.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the Executive Office of the President Office of Management and Budget (OMB) guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Pursuant to Federal Rule (H) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency. If at any time during the term of an award the offeror or its principals

becomes debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency, the offeror will notify the Participating Agency.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(l) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Pursuant to Federal Rule (l) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term and after the awarded term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror certifies that it is in compliance with all applicable provisions of the Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). The undersigned further certifies that:

(1) No Federal appropriated funds have been paid or will be paid for on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with the awarding of a Federal contract, the making of a Federal grant, the making of a Federal loan, the entering into a cooperative agreement, and the extension, continuation, renewal, amendment, or modification of a Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all covered sub-awards exceeding $100,000 in Federal funds at all appropriate tiers and that all subrecipients shall certify and disclose accordingly.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

RECORD RETENTION REQUIREMENTS FOR CONTRACTS INVOLVING FEDERAL FUNDS

When federal funds are expended by Participating Agency for any contract resulting from this procurement process, offeror certifies that it will comply with the record retention requirements detailed in 2 CFR § 200.333. The offeror further certifies that offeror will retain all records as required by 2 CFR § 200.333 for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF COMPLIANCE WITH THE ENERGY POLICY AND CONSERVATION ACT

When Participating Agency expends federal funds for any contract resulting from this procurement process, offeror certifies that it will comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.; 49 C.F.R. Part 18).

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF COMPLIANCE WITH BUY AMERICA PROVISIONS

To the extent purchases are made with Federal Highway Administration, Federal Railroad Administration, or Federal Transit Administration funds, offeror certifies that its products comply with all applicable provisions of the Buy America Act and agrees to provide such certification or applicable waiver with respect to specific products to any Participating Agency upon request. Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF ACCESS TO RECORDS – 2 C.F.R. § 200.336

Offeror agrees that the Inspector General of the Agency or any of their duly authorized representatives shall have access to any documents, papers, or other records of offeror that are pertinent to offeror's discharge of its obligations under the Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to offeror's personnel for the purpose of interview and discussion relating to such documents.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF APPLICABILITY TO SUBCONTRACTORS

Offeror agrees that all contracts it awards pursuant to the Contract shall be bound by the foregoing terms and conditions.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

Offeror agrees to comply with all federal, state, and local laws, rules, regulations and ordinances, as applicable. It is further acknowledged that offeror certifies compliance with all provisions, laws, acts, regulations, etc. as specifically noted above.

FEMA SPECIAL CONDITIONS

Awarded Supplier(s) may need to respond to events and losses where products and services are needed for the immediate and initial response to emergency situations such as, but not limited to, water damage, fire damage, vandalism cleanup, biohazard cleanup, sewage decontamination, deodorization, and/or wind damage during a disaster or emergency situation. By submitting a bid, the Supplier is accepted these FEMA Special Conditions required by the Federal Emergency Management Agency (FEMA).

"Contract" in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as the "Master Agreement".

"Contractor" in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as "Supplier" or "Awarded Supplier".

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3. i. FEMA considers a "financial interest" to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an "apparent" conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency ("NFE") must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE's may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE's written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE's employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

Contractor Integrity

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended, as described in and subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension), must be rejected and cannot receive contract awards at any level.

Public Policy

A contractor must comply with the public policies of the Federal Government and state, local government, or tribal government. This includes, among other things, past and current compliance with the:

a. Equal opportunity and nondiscrimination laws

b. Five affirmative steps described at 2 C.F.R. § 200.321(b) for all subcontracting under contracts supported by FEMA financial assistance; and FEMA Procurement Guidance June 21, 2016 Page IV- 7

c. Applicable prevailing wage laws, regulations, and executive orders

Affirmative Steps

Version April 12, 2022

For any subcontracting opportunities, Contractor must take the following Affirmative steps:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Prevailing Wage Requirements

When applicable, the awarded Contractor (s) and any and all subcontractor(s) agree to comply with all laws regarding prevailing wage rates including the Davis-Bacon Act, applicable to this solicitation and/or Participating Public Agencies. The Participating Public Agency shall notify the Contractor of the applicable pricing/prevailing wage rates and must apply any local wage rates requested. The Contractor and any subcontractor(s) shall comply with the prevailing wage rates set by the Participating Public Agency.

Federal Requirements

If products and services are issued in response to an emergency or disaster recovery the items below, located in this FEMA Special Conditions section of the Federal Funds Certifications, are activated and required when federal funding may be utilized.

2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

1. REMEDIES

a. Standard. Contracts for more than the simplified acquisition threshold, currently set at $250,000, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate. See 2 C.F.R. Part 200, Appendix II(A).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

2. TERMINATION FOR CAUSE AND CONVENIENCE

a. Standard. All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity, including the manner by which it will be effected and the basis for settlement. See 2 C.F.R. Part 200, Appendix II(B).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

3. EQUAL EMPLOYMENT OPPORTUNITY

When applicable:

a. Standard. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R.

§ 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. § 60- 1.4(b), in accordance with Executive Order 11246, *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41 C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II(C).

b. Key Definitions.

i. Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a "federally assisted construction contract" as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.

ii. Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines "construction work" as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

c. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

d. Required Language. The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided,* That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

4. DAVIS-BACON ACT

a. Standard. All prime construction contracts in excess of $2,000 awarded by non- Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction). See 2 C.F.R. Part 200, Appendix II(D). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.

b. Applicability. The Davis-Bacon Act applies to the Emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program.

c. Requirements. If applicable, the non-federal entity must do the following:

i. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

ii. Additionally, pursuant 2 C.F.R. Part 200, Appendix II(D), contracts subject to the Davis-Bacon Act, must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti- Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person

employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

iii. Include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction").

Suggested Language. The following provides a sample contract clause:

Compliance with the Davis-Bacon Act.

a. All transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.

b. Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.

c. Additionally, contractors are required to pay wages not less than once a week.

5. COPELAND ANTI-KICKBACK ACT

a. Standard. Recipient and subrecipient contracts must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States").

b. Applicability. This requirement applies to all contracts for construction or repair work above $2,000 in situations where the Davis-Bacon Act also applies. It DOES NOT apply to the FEMA Public Assistance Program.

c. Requirements. If applicable, the non-federal entity must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). Each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA. Additionally, in accordance with the regulation, each contractor and subcontractor must furnish each week a statement with respect to the wages paid each of its employees engaged in work covered by the Copeland Anti-Kickback Act and the Davis Bacon Act during the preceding weekly payroll period. The report shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work.

Sample Language. The following provides a sample contract clause:

Compliance with the Copeland "Anti-Kickback" Act.

a. Contractor. The contractor shall comply with 18 U.S.C. §874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

b. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

c. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. §5.12."

6. CONTRACT WORK HOURS AND SAFETY STANDARDSACT

a. Standard. Where applicable (see 40 U.S.C. §§ 3701-3708), all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II(E). Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Further, no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous.

b. Applicability. This requirement applies to all FEMA contracts awarded by the non- federal entity in excess of $100,000 under grant and cooperative agreement programs that involve the employment of mechanics or laborers. It is applicable to construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

c. Suggested Language. The regulation at 29 C.F.R. § 5.5(b) provides contract clause language concerning compliance with the Contract Work Hours and Safety Standards Act. FEMA suggests including the following contract clause:

Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation

of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of
$27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) *Withholding for unpaid wages and liquidated damages.* The Federal agency or loan/grant recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

7. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT ORAGREEMENT

a. Standard. If the FEMA award meets the definition of "funding agreement" under 37C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non- Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II(F).

b. Applicability. This requirement applies to "*funding agreements*," but it DOES NOT apply to the Public Assistance, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as FEMA awards under these programs do not meet the definition of "funding agreement."

c. Funding Agreements Definition. The regulation at 37 C.F.R. § 401.2(a) defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

8. CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROLACT

a. Standard. If applicable, contracts must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q.) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II(G).

b. Applicability. This requirement applies to contracts awarded by a non-federal entity of amounts in excess of $150,000 under a federal grant.

c. Suggested Language. The following provides a sample contract clause.

Clean Air Act

1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

9. DEBARMENT AND SUSPENSION

a. Standard. Non-Federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and*

Suspension (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

c. Requirements.

i. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II(H); and 2 C.F.R. § 200.213. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530.

ii. In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipients.

iii. Specifically, a covered transaction includes the following contracts for goods or services:

1. The contract is awarded by a recipient or subrecipient in the amount of at least $25,000.

2. The contract requires the approval of FEMA, regardless of amount.

3. The contract is for federally-required audit services.

4. A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of $25,000.

d. Suggested Language. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified.

Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2

C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and2 C.F.R. pt. 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by the Participating Public Agency. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Participating Public Agency, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

10. BYRD ANTI-LOBBYING AMENDMENT

a. Standard. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. FEMA's regulation at 44 C.F.R. Part 18 implements the requirements of 31 U.S.C. § 1352 and provides, in Appendix A to Part 18, a copy of the certification that is required to be completed by each entity as described in 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the Federal awarding agency.

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs. Contractors that apply or bid for a contract of $100,000 or more under a federal grant must file the required certification. See 2 C.F.R. Part 200, Appendix II(I); 31 U.S.C. § 1352; and 44 C.F.R. Part 18.

c. Suggested Language.

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

d. Required Certification. If applicable, contractors must sign and submit to the non-federal entity the following certification.

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor Trane U.S. Inc., certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. Chap. 38, Administrative Remedies for False Claims and Statements, apply to this certification and disclosure, if any.

Date

11. PROCUREMENT OF RECOVERED MATERIALS

a. Standard. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. See 2 C.F.R. Part 200, Appendix II(J); and 2 C.F.R. §200.322.

b. Applicability. This requirement applies to all contracts awarded by a non- federal entity under FEMA grant and cooperative agreement programs.

c. Requirements. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired by the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

d. Suggested Language.

i. In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—

1. Competitively within a timeframe providing for compliance with the contract performance schedule;
2. Meeting contract performance requirements; or
3. At a reasonable price.

ii. Information about this requirement, along with the list of EPA- designated items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program.

iii. The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act."

12. ACCESS TO RECORDS

a. Standard. All recipients, subrecipients, successors, transferees, and assignees must acknowledge and agree to comply with applicable provisions governing DHS access to records, accounts, documents, information, facilities, and staff. Recipients must give DHS/FEMA access to, and the right to examine and copy, records, accounts, and other documents and sources of information related to the federal financial assistance award and permit access to facilities, personnel, and other individuals and information as may be necessary, as required by DHS regulations *and* other applicable laws or program guidance. See DHS Standard Terms and Conditions: Version 8.1 (2018). Additionally, Section 1225 of the Disaster Recovery Reform Act of 2018 prohibits FEMA from providing reimbursement to any state, local, tribal, or territorial government, or private non-profit for activities made pursuant to a contract that purports to prohibit audits or internal reviews by the FEMA administrator or Comptroller General.

Access to Records. The following access to records requirements apply to this contract:

i. The Contractor agrees to provide Participating Public Agency, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

ii. The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

iii. The Contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.

iv. In compliance with the Disaster Recovery Act of 2018, the Participating Public Agency and the Contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

13. CHANGES

a. Standard. To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope.

b. Applicability. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

14. DHS SEAL, LOGO, AND FLAGS

a. Standard. Recipients must obtain permission prior to using the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials. See DHS Standard Terms and Conditions: Version 8.1 (2018).

b. Applicability. FEMA recommends that all non-Federal entities place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

c. "The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

15. COMPLIANCE WITH FEDERAL LAW, REGULATIONS, AND EXECUTIVE ORDERS

a. Standard. The recipient and its contractors are required to comply with all Federal laws, regulations, and executive orders.

b. Applicability. FEMA recommends that all non-Federal entities place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable Federal law, regulations, executive orders, and FEMA policies, procedures, and directives.

c. "This is an acknowledgement that FEMA financial assistance will be used to fund all or a portion of the contract. The contractor will comply with all applicable Federal law, regulations, executive orders, FEMA policies, procedures, and directives."

16. NO OBLIGATION BY FEDERAL GOVERNMENT

a. Standard. FEMA is not a party to any transaction between the recipient and its contractor. FEMA is not subject to any obligations or liable to any party for any matter relating to the contract.

b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

c. "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

17. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS

a. Standard. Recipients must comply with the requirements of The False Claims Act (31 U.S.C. §§ 3729-3733) which prohibits the submission of false or fraudulent claims for payment to the federal government. See DHS Standard Terms and Conditions: Version 8.1 (2018); and 31 U.S.C. §§ 3801-3812, which details the administrative remedies for false claims and statements made. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

c. "The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this contract."

Offeror agrees to comply with all terms and conditions outlined in the FEMA Special Conditions section of this solicitation.

Offeror's Name: Trane U.S. Inc.

Address, City, State, and Zip Code: 800 Beaty Street, Davidson, NC, 28036-6924

Appendix 5

Exhibit G, New Jersey Business Compliance

NEW JERSEY BUSINESS COMPLIANCE

Suppliers intending to do business in the State of New Jersey must comply with policies and procedures required under New Jersey statues. All offerors submitting proposals must complete the following forms specific to the State of New Jersey. Completed forms should be submitted with the offeror's response to the IFB. Failure to complete the New Jersey packet will impact OMNIA Partners' ability to promote the Master Agreement in the State of New Jersey.

DOC #1	Ownership Disclosure Form
DOC #2	Non-Collusion Affidavit
DOC #3	Affirmative Action Affidavit
DOC #4	Political Contribution Disclosure Form
DOC #5	Stockholder Disclosure Certification
DOC #6	Certification of Non-Involvement in Prohibited Activities in Iran
DOC #7	New Jersey Business Registration Certificate
DOC #8	EEOAA Evidence
DOC #9	MacBride Principals Form

New Jersey suppliers are required to comply with the following New Jersey statutes when applicable:

- all anti-discrimination laws, including those contained in N.J.S.A. 10:2-1 through N.J.S.A. 10:2-14, N.J.S.A. 10:5-1, and N.J.S.A. 10:5-31 through 10:5-38;
- Prevailing Wage Act, N.J.S.A. 34:11-56.26, for all contracts within the contemplation of the Act;
- Public Works Contractor Registration Act, N.J.S.A. 34:11-56.26; and
- Bid and Performance Security, as required by the applicable municipal or state statutes.

STATEMENT OF OWNERSHIP DISCLOSURE

N.J.S.A. 52:25-24.2 (P.L. 1977, c.33, as amended by P.L. 2016, c.43)

This statement shall be completed, certified to, and included with all bid and proposal submissions. Failure to submit the required information is cause for automatic rejection of the bid or proposal.

State Treasurer

P.L. 1995, c. 127 (N.J.A.C. 17:27)
MANDATORY AFFIRMATIVE ACTION LANGUAGE

PROCUREMENT, PROFESSIONAL AND SERVICE CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. The contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisement for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation.

The contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to P.L. 1975, c. 127, as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to attempt in good faith to employ minority and female workers trade consistent with the applicable county employment goal prescribed by N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time or in accordance with a binding determination of the applicable county employment goals determined by the Affirmative Action Office pursuant to N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time.

The contractor or subcontractor agrees to inform in writing appropriate recruitment agencies in the area, including employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of it testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the state of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

The contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and lay-off to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and conform with the applicable employment goals, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor and its subcontractors shall furnish such reports or other documents to the Affirmative Action Office as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Affirmative Action Office for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of $17,500 that are **not awarded** pursuant to a "fair and open" process (N.J.S.A. 19:44A-20.7).

2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.

3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.

4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.

    a. The Division has prepared model disclosure forms for each county. They can be downloaded from the "County PCD Forms" link on the Pay-to-Play web site at http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12. They will be updated from time-to-time as necessary.
    b. A public agency using these forms **should edit them to properly reflect the correct legislative district**(s). As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
    c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
    d. The form may be used "as-is", subject to edits as described herein.
    e. The "Contractor Instructions" sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
    f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.

5. It is recommended that the contractor also complete a "Stockholder Disclosure Certification." This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
    - of the public entity awarding the contract
    - of that county in which that public entity is located
    - of another public entity within that county
    - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed $300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Required Pursuant to N.J.S.A. 19:44A-20.26

This form or its permitted facsimile must be submitted to the local unit no later than 10 days prior to the award of the contract.

Certification of Non-Involvement in Prohibited Activities in Iran

Pursuant to N.J.S.A. 52:32-58, Offerors must certify that neither the Offeror, nor any of its parents, subsidiaries, and/or affiliates (as defined in N.J.S.A. 52:32 – 56(e) (3)), is listed on the Department of the Treasury's List of Persons or Entities Engaging in Prohibited Investment Activities in Iran and that neither is involved in any of the investment activities set forth in N.J.S.A. 52:32 – 56(f).

Offerors wishing to do business in New Jersey through this contract must fill out the Certification of Non-Involvement in Prohibited Activities in Iran here: http://www.state.nj.us/humanservices/dfd/info/standard/fdc/disclosure_investmentact.pdf.

Offerors should submit the above form completed with their proposal.

DISCLOSURE OF INVESTMENT ACTIVITIES IN IRAN FORM

STATE OF NEW JERSEY
DEPARTMENT OF THE TREASURY - DIVISION OF PURCHASE AND PROPERTY
33 WEST STATE STREET, P.O. BOX 230 TRENTON, NEW JERSEY 08625-0230

BID SOLICITATION # AND TITLE: Racine County, RFB-RC2022-1001-0-2022/DM

VENDOR NAME: **Trane U.S. Inc. New Jersey Branch**

Pursuant to N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4) any person or entity that submits a bid or proposal or otherwise proposes to enter into or renew a contract must certify that neither the person nor entity, nor any of its parents, subsidiaries, or affiliates, is identified on the New Jersey Department of the Treasury's Chapter 25 List as a person or entity engaged in investment activities in Iran. The Chapter 25 list is found on the Division's website at https://www.state.nj.us/treasury/purchase/pdf/Chapter25List.pdf. Vendors/Bidders must review this list prior to completing the below certification. If the Director of the Division of Purchase and Property finds a person or entity to be in violation of the law, s/he shall take action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

CHECK THE APPROPRIATE BOX

☑ I certify, pursuant to N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4), that neither the Vendor/Bidder listed above nor any of its parents, subsidiaries, or affiliates is listed on the New Jersey Department of the Treasury's Chapter 25 List of entities determined to be engaged in prohibited activities in Iran.

OR

☐ I am unable to certify as above because the Vendor/Bidder and/or one or more of its parents, subsidiaries, or affiliates is listed on the New Jersey Department of the Treasury's Chapter 25 List. MACBRIDE PRINCIPALS FORM

BID SOLICITATION #: RFB-RC2022-1001-0-2022/DM **VENDOR/BIDDER:** Trane U.S. Inc.

VENDOR'S/BIDDER'S REQUIREMENT TO PROVIDE A CERTIFICATION IN COMPLIANCE WITH THE MACBRIDE PRINCIPALS AND NORTHERN IRELAND ACT OF 1989

Pursuant to Public Law 1995, c. 134, a responsible Vendor/Bidder selected, after public bidding, by the Director of the Division of Purchase and Property, pursuant to N.J.S.A. 52:34-12, must complete the certification below by checking one of the two options listed below and signing where indicated. If a Vendor/Bidder that would otherwise be awarded a purchase, contract or agreement does not complete the certification, then the Director may determine, in accordance with applicable law and rules, that it is in the best interest of the State to award the purchase, contract or agreement to another Vendor/Bidder that has completed the certification and has submitted a bid within five (5) percent of the most advantageous bid. If the Director finds contractors to be in violation of the principals that are the subject of this law, he/she shall take such action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

I, the undersigned, on behalf the Vendor/Bidder, certify pursuant to N.J.S.A. 52:34-12.2 that:

CHECK THE APPROPRIATE BOX

☐ The Vendor/Bidder has no business operations in Northern Ireland; or

OR

☒ The Vendor/Bidder will take lawful steps in good faith to conduct any business operations it has in Northern Ireland in accordance with the MacBride principals of nondiscrimination in employment as set forth in section 2 of P.L. 1987, c. 177 (N.J.S.A. 52:18A-89.5) and in conformance with the United Kingdom's Fair Employment (Northern Ireland) Act of 1989, and permit independent monitoring of its compliance with those principals.

CERTIFICATION

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor/Bidder, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the State of New Jersey is relying on the information contained herein, and that the Vendor/Bidder is under a continuing obligation from the date of this certification through the completion of any contract(s) with the State to notify the State in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I will be subject to criminal prosecution under the law, and it will constitute a material breach of **my** agreement(s) with the State, permitting the State to declare any contract(s) resulting from this certification to be void and unenforceable.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person ▶ _____ Date ▶ 1/4/2022

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

THE CITY OF NEW SMYRNA BEACH - FIRE DEPARTMENT

CONSIDER THE APPROVAL OF THE INTERLOCAL AGREEMENT BETWEEN THE SOUTHEAST VOLUSIA COUNTY FIRE AGENCIES FOR FIRE RESCUE MUTUAL AID.

April 8, 2025

Background:

Those fire rescue and medical emergency agencies from the City of Daytona Beach Shores, City of Edgewater, City of New Smyrna Beach, Town of Ponce Inlet, City of Port Orange, and City of South Daytona, have a long-standing history of cooperation in providing emergency services to residents in the Southeast Volusia County community. The purpose of this Interlocal Agreement is to provide for the continuation of the Fire Rescue and Emergency Medical Services Automatic Aid and Closest Unit Response System established under the Prior Agreement, as well as identify other areas of cooperative efforts that would further enhance emergency services in Southeast Volusia County.

Fiscal Analysis:

None

Southeast Volusia Cooperative Agreement.docx

INTERLOCAL AGREEMENT BETWEEN THE SOUTHEAST VOLUSIA COUNTY FIRE AGENCIES FOR FIRE RESCUE MUTUAL AID

THIS INTERLOCAL AGREEMENT for the continuation of the Fire Rescue and Emergency Medical Services Automatic Aid and Closest Unit Response System in Southeast Volusia County is entered into between the Municipalities executing this Agreement, as defined herein (collectively, the "Parties").

WITNESSETH

WHEREAS, § 163.01, Florida Statutes, authorizes local governments to make the most efficient use of their powers by enabling them to cooperate with other localities on a basis of mutual advantage and thereby to provide services and facilities that will harmonize geographic, economic, population, and other factors influencing the needs and development of local communities; and

WHEREAS, in 2004, the Parties entered into an interlocal agreement establishing an automatic aid via closest unit response system for fire rescue and emergency medical services to enhance public safety and emergency response in the southeastern region of Volusia County (the "Prior Agreement"); and

WHEREAS, since then, the Parties have successfully implemented and maintained the mutual aid services established under the Prior Agreement; and

WHEREAS, the Parties desire to continue the mutual aid services established under the Prior Agreement while expanding cooperative efforts to further enhance the quality and scope of essential public safety services provided to their respective communities; and

WHEREAS, the Parties agree that the continuation and expansion of these cooperative services are in the best interest of the public and will promote a coordinated response to life-threatening emergencies and an efficient use of resources.

NOW, THEREFORE, in consideration of the mutual covenants and provisions contained herein, the Parties hereto agree as follows:

1. **Recitals**. The above recitals are true and correct and are hereby incorporated herein by reference.

2. **Definitions.**

   2.1 "Automatic Aid" shall mean the automatic dispatch of, and response by, fire suppression units to an emergency within the identified service area, as identified in by the map, Attachment "A", without the initiation of a Mutual Aid request.

2.2 "Emergency Services" shall include, but not be limited to, fire suppression, emergency medical, hazardous material, and technical rescue. Other related emergency services not expressly identified in this Agreement may also be provided if mutually agreed upon by the Parties.

2.3 "Municipalities" shall mean the following municipal incorporations, each of which is organized under the laws of the State of Florida and is a signatory to this Agreement: City of Daytona Beach Shores, City of Edgewater, City of New Smyrna Beach, Town of Ponce Inlet, City of Port Orange, and City of South Daytona.

2.4 "Mutual Aid" shall mean assistance dispatched upon request by one Party to one or more other Parties, in which the lending Party approves such request to lend assistance across jurisdictional boundaries for a particular incident.

2.5 "Southeast Volusia County" region shall mean the entire geographical land area within the political subdivisions of City of Daytona Beach Shores, the City of Edgewater, the City of New Smyrna Beach, the Town of Ponce Inlet, the City of Port Orange, and the City of South Daytona.

2.6 "Responding Party" shall mean the agency providing assistance to another agency that has declared an emergency incident.

2.7 "Receiving Party" shall mean the agency receiving assistance from another agency to mitigate an emergency incident.

3. **Background; Purpose.** Those fire rescue and medical emergency agencies from the City of Daytona Beach Shores, City of Edgewater, City of New Smyrna Beach, Town of Ponce Inlet, City of Port Orange, and City of South Daytona (hereafter referred to as the "Southeast Volusia Fire Agencies" or "SVFA"), have a long-standing history of cooperation in providing emergency services to residents in the Southeast Volusia County community. The purpose of this Interlocal Agreement (hereafter known as the "Agreement") is to provide for the continuation of the Fire Rescue and Emergency Medical Services Automatic Aid and Closest Unit Response System established under the Prior Agreement, as well as identify other areas of cooperative efforts that would further enhance emergency services in Southeast Volusia County.

4. **Effective Date.** This Agreement shall become effective upon approval and execution by the elected governing bodies of the Parties and filing with the Clerk of the Circuit Court in and for Volusia County, Florida. However, the failure of any individual Party to approve or execute this Agreement shall not affect its validity or enforceability among the Parties that have duly approved and executed it. The participating Parties acknowledge that this Agreement may be amended or supplemented in the future to include additional local government agencies upon their approval and execution.

5. **Term.** Upon proper execution and recordation as provided herein, this Agreement shall

remain in full force and effect for 5 years, unless terminated earlier as provided herein. At the end of this initial term, this Agreement may be renewed or extended by mutual written consent of the Parties wishing to continue participation. Any Party may choose to opt out of the renewal or extension, in which case the Agreement will remain in effect among the consenting Parties, subject to any necessary amendments or modifications. Any Party may withdraw from this Agreement as outlined in the termination provisions, without affecting its validity among the remaining participants.

6. **Acknowledgement.** The Parties acknowledge that the ability to fully comply with the provisions of this Agreement may vary due to the differences in organizational nature, authority, scope of service, and operational capability of each fire rescue and emergency medical service agency providing Emergency Services under this Agreement. As such, the Parties agree to provide such reciprocal assistance on a mutual-aid basis based on the availability of the providing Party's resources at the time. Further, each Party commits to making reasonable efforts to enhance their respective capacity and strive toward full compliance with the provisions of this Agreement in the future.

7. **Joint Operational Coordination.** The Parties agree to work collaboratively to coordinate the delivery of Emergency Services under this Agreement, including, but not limited to, the following:

   7.1 Cross-utilization of command staff for emergency incident management.

   7.2 Cross-utilization of administrative staff to coordinate and provide fire and EMS training.

   7.3 Cross-utilization of support staff to provide IT and other technical support.

   7.4 Cross-utilization of fire inspection and fire investigation resources.

   7.5 Coordination of EMS and fire equipment purchasing to ensure maximum purchasing power.

   7.6 Coordination of fire resource deployment within Southeast Volusia County to ensure maximum geographical coverage during periods of high call volume.

   7.7 Collaborative strategic planning for the future placement of apparatuses to maximize flexibility of available resources.

   7.8 Coordination of training activities to achieve maximum participation with minimal impact on overtime.

   7.9 Coordination in the development of emergency operational guidelines to maximize the effectiveness, efficiency, and consistency of regional service delivery.

8. **Automatic Aid.**

   8.1 To provide the highest level of protection possible within the defined response area the

Parties agree to provide Automatic Aid in a closest unit response mode for all emergency fire and EMS-related incidents. The term "closest unit" shall mean all closest units, including but not limited to, fire engine, pumper, ladder truck, tower, squad or other support vehicles, to the emergency at hand regardless of jurisdiction. Response by fire, rescue and other support vehicles units will be the closest units of appropriate type to provide the configuration for the mitigation of emergency incidents regardless of jurisdiction and will be dispatched in accordance with established Fire and EMS protocols as agreed to by the Fire Chiefs and as otherwise required by law. It is further agreed that the first arriving unit will establish incident command and manage the incident in accordance with established procedures until mitigation of the incident or relieved by an officer having authority within the jurisdiction where the incident occurred. Mitigation of the incident shall include closest unit response necessary to provide support to the jurisdictions responding to the emergency incident. Automatic Aid shall be the immediate response of emergency personnel by the Responding Party to the scene of an emergency in the Receiving Party's jurisdiction on behalf of, or along with, the Receiving Party, without regard to jurisdictional boundaries. The Parties agree that Automatic Aid responses will apply exclusively to emergency fire and EMS-related incidents. All emergency incidents that are not classified as emergency fire or EMS-related will be classified as Mutual Aid requests.

8.2 The Parties shall establish and maintain predefined unit response assignments for Automatic Aid emergency events through a collaborative process led by the fire chiefs or their designees. This process shall include:

1. Assessment and Development – The fire chiefs shall evaluate response areas, resource availability, and incident types to develop appropriate unit response assignments.
2. Dispatch Coordination – The assignments shall be integrated with dispatch systems to ensure efficient deployment of resources.
3. Review and Agreement – The fire chiefs shall review and mutually agree upon the assignments, documenting them in the Automatic Aid operational procedures.
4. Ongoing Evaluation – Response assignments shall be reviewed at least every three (3) years or as needed based on operational changes, with updates made by mutual agreement.

Response by fire, rescue, and other support units will be the closest units of appropriate type to provide the response to the emergency incident and will be dispatched in accordance with established fire and EMS protocols as mutually agreed upon by the respective fire chiefs of the Parties, and as may be otherwise required by law.

8.3 Each Party to this Agreement shall retain primary responsibility for determining the most appropriate response resources utilized within its respective jurisdiction; however,

the Parties acknowledge the desirability for standardization for common incident types is desirable.

8.4 Requests for Automatic Aid may be made by telephone, radio, or via a computer network. Records, reports, and other relevant information pertaining to Automatic Aid incidents will be maintained by the Volusia County Emergency Operations and Sheriff's Communications Center ("Center") in accordance with the Center's established policies and procedures. Lawful access to such records, reports, and information by the appropriate Party shall be upon request in accordance with the Center's established policies and procedures, or as otherwise provided by law.

8.5 The Parties understand and agree that the Incident Command System ("ICS"), as defined by the National Incident Management System ("NIMS"), is the framework for controlling and managing Automatic Aid incidents within a given jurisdiction. The first arriving officer on scene, regardless of jurisdiction, shall be in charge of the incident and responsible for tactical coordination of all personnel and equipment used to control an active incident, until command is transferred to an appropriate command officer.

8.6 The Parties agree to collaboratively participate in the development, implementation, and ongoing evaluation of Automatic Aid operational policies and procedures. These policies and procedures shall comprehensively address, but are not limited to, dispatch procedures, communications, apparatus response, tactical operations, medical control, EMS protocols, incident command, and incident reporting.

Each Party shall maintain copies of all current and updated operational policies and procedures, ensuring they are readily accessible to command staff, emergency personnel, and dispatch centers. Additionally, the Parties shall ensure that all relevant personnel receive appropriate training and updates regarding any modifications to these procedures.

These operational policies and procedures shall be formally reviewed no less than every three (3) years by the respective fire chiefs of the Parties, or their designees. This review process shall assess the effectiveness of existing procedures, identify areas for improvement, and incorporate lessons learned from joint operations and evolving best practices. Any necessary updates or revisions shall be mutually agreed upon and documented, with revised policies distributed to all affected personnel in a timely manner.

9. Reimbursement.

9.1 All costs associated with providing aid as contemplated under this Agreement shall be the responsibility of the Responding Party except as otherwise expressly stated in this Agreement or any other written agreement between the applicable Parties, or, for a declared emergency only, the applicable respective funding responsibilities per Federal Emergency Management Agency requirements. Any other agreements relating to

payment for fire protection and emergency medical services shall remain in effect.

9.2 Except as otherwise expressly provided in this Agreement, each Party is solely responsible for the wages, salaries, cost of workers' compensation or other insurance premiums and benefits, and retirement and other job benefits to any of its employees or contractors, whether said persons provided any services to any other Party under this this Agreement.

9.3 Except as otherwise expressly provided in this Agreement, the Responding Party furnishing any equipment pursuant to this Agreement shall bear the cost of any loss or damage to its equipment and shall be solely responsible for any expenses incurred in the operation or maintenance of such equipment.

9.4 Any Responding Party that provides transport service may require reimbursement for the transport service from the transported patient to the extent permitted by law. The Responding Party will handle billing, insurance claims, and collection in accordance with their policies and procedures and any applicable laws and regulations, including the latest federal Medicare guidelines, if applicable. The requesting Party shall receive, upon request, a copy of any such invoices or other documentation, provided that neither Party shall use or disclose Protected Health Information ("PHI") or Electronic Protected Health Information ("ePHI") except as permitted by the Health Insurance Portability and Accountability Act or the Health Information Technology for Economic and Clinical Health Act ("HITECH"), each as amended, and the regulations promulgated thereunder (collectively "HIPAA"), and any other applicable laws and regulations, all as may be amended from time to time.

9.5 In the event of minor discrepancies in cost under this Agreement, the Parties agree to make reasonable efforts to resolve such differences through "in-kind reimbursement." The process for determining the form and timing of in-kind reimbursement shall involve a mutual agreement process, which includes:

1. **Notification** – The Party identifying the discrepancy shall notify the other Party in writing, providing a clear explanation of the cost variance and any supporting documentation.
2. **Review and Discussion** – Both Parties shall review the discrepancy and engage in a discussion to assess the nature and extent of the difference, considering operational impacts and equitable resolution options.
3. **Proposal of In-Kind Reimbursement** – Each Party shall have the opportunity to propose a form of in-kind reimbursement that is appropriate and proportionate to the discrepancy, ensuring the exchange maintains the spirit of fairness and operational feasibility.
4. **Mutual Agreement** – The Parties shall negotiate in good faith to reach a mutual agreement on the in-kind reimbursement, documenting the agreed-upon terms, including the specific services, goods, or other forms of compensation to be provided, along with the timeline for fulfillment.

Implementation and Confirmation – The agreed-upon in-kind reimbursement shall be implemented within the established timeframe, with both Parties confirming in writing once the resolution has been completed to mutual satisfaction.

10. Indemnity.

10.1 To the extent permitted and as limited by § 768.28, Florida Statutes, the Parties shall each individually defend any action or proceeding brought against their respective agency and shall be individually responsible for all of its own costs, attorney's fees, expenses, and liabilities incurred as a result of any such claims, demands, suits, actions, damages, and causes of action, including the investigation of the defense thereof and any appellate proceedings, and from and against any orders, judgments, or decrees that may be entered as a result thereof.

10.2 Each Party shall bear its own responsibility and be liable for any claims, demands, suits, actions, damages, and causes of actions arising out of or occurring during travel to or from its own incident or emergency or from an incident or emergency covered by this Agreement.

10.3 The Parties agree that this Agreement does not require any Party to provide, nor entitle any Party to demand, indemnification, defense, or hold harmless relating to any claims, demands, damages, or causes of action that may be brought against any Party pursuant to this Agreement.

10.4 Any existing privileges and immunities, limitations from liability, exemptions from laws, ordinances, and rules, and all pensions, benefits, and other relief, disability, workers' compensation, and other benefits that apply to the officers, agents, or employees of the Parties hereto when performing their respective functions and duties within their respective territorial limits for their respective agencies, shall apply to the same degree and extent to the performance of those functions and duties of such officers, agents, or employees extraterritorially under the provisions of this Agreement.

10.5 Nothing herein shall be construed as a waiver of either party's sovereign immunity under § 768.28, *Florida Statutes*. Any indemnification shall be limited to the monetary thresholds of Two Hundred Thousand Dollars ($200,000.00) for any single claim and Three Hundred Thousand Dollars ($300,000.00) for aggregate claims, as set forth in § 768.28, *Florida Statutes*, or any applicable amendment. This provision shall survive the natural expiration or earlier termination of this Agreement.

11. Modification. This Agreement may be amended only by a written instrument. Any proposed amendment, modification, or change to this Agreement must be distributed in writing to all Parties for review. Approval must be documented and signed by the authorized representatives of each Party. Modifications shall be considered effective only upon the full consent of all Parties to this Agreement.

12. **Termination.** Any Party may terminate participation in this Agreement by providing written notice of withdrawal to all other Parties hereto. The notice shall be provided at least ninety (90) days prior to the effective date of withdrawal and state the reason for withdrawal.

13. **Assignment.** No Party hereto shall assign, delegate, or otherwise transfer its rights and obligations as set forth in this Agreement to any other entity without the prior written consent of all Parties to this Agreement.

14. **Third-Party Beneficiaries.** The Parties expressly acknowledge and agree that this Agreement is intended solely for the benefit of the Parties hereto and shall not be construed to create any rights, benefits, or causes of action in any third parties. No person or entity other than the Parties to this Agreement shall have any legal or equitable right, remedy, or claim under this Agreement.

15. **Entire Agreement.** This Agreement constitutes the entire agreement and understanding of the Parties regarding the subject matter hereof and supersedes any prior discussions, agreements, or understandings, whether oral or written.

16. **Amendment; Assignment.** This Agreement may be amended only by a written instrument signed by authorized representatives of all parties. Neither party shall assign, delegate, or otherwise transfer its rights and obligations as set forth in this Agreement to any other entity without the prior written consent of the other.

17. **Severability.** If any provision of this Agreement is held to be invalid, illegal, or unenforceable by a court of competent jurisdiction, this Agreement shall be construed as if such invalid, illegal, or unenforceable provision were omitted, and all other provisions will remain in full force and effect.

18. **Waiver.** No failure of the parties to insist upon strict performance of any of the covenants, terms, provisions, or conditions of this Agreement or to exercise any right or option herein contained, shall be construed as a waiver or a relinquishment for the future of any such covenant, term, provision, or condition, or right of election, but same shall remain in full force and effect.

19. **Dispute Resolution.** If the Parties to this Agreement fail to resolve any conflicts related to issues covered in this Agreement, such dispute shall be resolved in accordance with governmental conflict resolution procedures specified in the Florida Governmental Conflict Resolution Act, Fla. Stat. §§ 164.l01-164.1061. If these efforts are unsuccessful, the matter shall be submitted to a court of appropriate jurisdiction within Volusia County, Florida.

20. **Governing Law; Severability.** Notwithstanding any conflict of laws, this Agreement shall be construed in accordance with and governed by the laws of the State of Florida. In the event any provision hereof is determined to be unenforceable or invalid, such unenforceability or

invalidity shall not affect the remaining provisions of this Agreement, which shall remain in full force and effect. To that extent, this Agreement is deemed severable.

[signatures on following page]

THE CITY OF NEW SMYRNA BEACH - LEISURE SERVICES

SPECIAL EVENT: CONSIDER THE APPROVAL OF THE LAGOONIGAN FISHING TOURNAMENT AFTER PARTY AT THE MARINE DISCOVERY CENTER, TO BE HELD ON SATURDAY JUNE 14, 2025.

April 8, 2025

Background:

The Bajio Sunglasses Company requests approval to present the 2025 Lagoonigan fishing tournament after party at the Marine Discovery Center, to be held on Saturday June 14, 2025. The event will start at 6pm and end at 9pm, with final breakdown completed no later than 10pm. The event will be held on the grounds of the Marine Discovery Center at 520 Barracuda Blvd. There will be no admission fee; fees will be collected pre-event, with an anticipated 150 attendees. The Life on Mars live band will be performing. The live band will perform starting at 6pm until 9pm with their own sound equipment. The event will have Bajio Sunglasses as the title event sponsor. Alcohol sales will be provided by J and T Bartending. All alcohol sales will be conducted within a designated and controlled fenced area. The event will not require the closure of any sidewalks or roads around the event area. Security for the event is TBD.

Findings:

Staff recommends the approval of the Lagoonigan Fishing Tournament after party at the Marine Discovery Center, to be held on Saturday June 14, 2025.

Fiscal Analysis:

The following permit and event fees will be collected by the city:

Building Dept Major Event Permit Fee: $305.24

Leisure Services Major Event Fee: $532.50

Strategic Plan Item:

No

OWNER'S AFFIDAVIT
OWNER/BUILDER USE ONLY

I CERTIFY THAT ALL THE FOREGOING INFORMATION IS ACCURATE AND THAT ALL WORK WILL BE DONE IN COMPLIANCE WITH LL APPLICABLE LAWS REGULATING CONSTRUCTION AND ZONING.

Florida Statutes, 489.103(7):
State law requires construction to be done by licensed contractors. You have applied for a permit under an exemption to that law. The exemption allows you, as the owner of your property, to act as your own contractor with certain restrictions even though you do not lane a license. You must provide direct, onsite supervision of the construction yourself. You may build or improve a one-family or two-family residence or a farm building. You may also build or improve a commercial building, provided your costs do not exceed $25,000. The building or residence must be for your own use or occupancy. It may not be built or substantially improved for sale or lease. If you sell or lease a building you have built or substantially improved yourself within 1 year after construction is complete, the law will presume that you built or substantially improved it for sale or lease, which is a violation of this exemption. You may not hire an unlicensed person to act as your contractor or to supervise people working on your building. It is your responsibility to make sure that people employed by you have licensed required by state law and by county or municipal licensing ordinances. You may not delegate the responsibility for supervising work to a licensed contractor who is not licensed to perform the work being done. Any person working on your building who is not licensed must work under your direct supervision and must be employed by you, which means that you must deduct F.I.C.A. and withholding tax and provide workers' compensation for that employee, all as prescribed by law. Your construction must comply with all applicable laws, ordinances, building codes, and zoning regulations.

General Terms

1. The customer shall not assign or otherwise transfer this agreement or any right or obligation herein without the prior written consent of the City. The customer shall indemnify, to the extent permitted by law, defend and hold harmless the City, its officers, employees and agents, from and against any and all loss, damage, injury, claim, cause of action, or liability of any kind whatsoever resulting from or arising out of the actions or omissions of the customer.

2. The provision of Fire Department Units under this contract are subject to availability of extra duty personnel. The City shall not be liable for failure to provide services under this contract.

3. No amendment or modification of this contract shall be valid unless in writing and signed by the parties hereto. However, the City may, in its sole discretion, reduce or increase the level of service upon the oral request of the person who has signed this contract on behalf of the customer, or at the discretion of a Fire Department supervisor as deemed necessary to provide for operational readiness or protect public safety.

4. Payment for services rendered under this agreement shall be by monthly billing through the Finance Department and shall be due on receipt of billing unless otherwise prepaid under this contract. The Finance Department shall have sole discretion in requiring prepayment of special detail services. In the event the customer fails to pay within two weeks of the billing date, the City may immediately terminate this agreement and cancel any further special details scheduled for the customer.

5. This agreement is subject to the following City regulations (available from the New Smyrna Beach Fire Department):

   A. The rules, regulations, policies and procedures of the New Smyrna Beach Fire Department. All as may be amended from time to time.

6. The customer understands and agrees that Fire/Medical Stand-by Units constitute a mobile auxiliary resource and may be recalled from extra duty activities to respond to city needs in accordance with the above-referenced City regulations. In the event the unit(s) are recalled, the customer shall not be liable for payment of fees for the time that Unit(s) are absent.

Special Events Comments

Event Name/Date: _____

1. During all special events the Fire Department shall require adherence to all applicable Florida Fire Prevention Code standards by all event organizers and vendors and make site inspections as needed
2. The event coordinator(s) shall take all necessary measures to ensure continuous access and egress for emergency vehicles throughout the entire event and this shall include response routes along secondary roads to e event to ensure event parking does not impede emergency vehicle access or victim transport away from the incident at any time
3. Events requiring road closures should organize tents, stages and displays so that an emergency vehicle can drive equipment down the centerline of all streets and measures must be taken to ensure that no intersections or access roads are blocked and at all times are accessible and useable by large fire apparatus
4. The event coordinator(s) shall ensure that the Volusia County Sheriff's Dispatch Center has been notified of any road closings related to the event no less than 24 hours prior to the start of the event at (386) 252-4911 and provide notification as soon as the roads have been re-opened
5. Anytime that transportation shuttles are required, or any other event with unique characteristics may impede the most expeditious provision of fire/rescue/emergency medical services to event participants, regularly staffed fire and rescue services will be supplemented to meet the additional demand caused by the event and will be funded by the event organizers

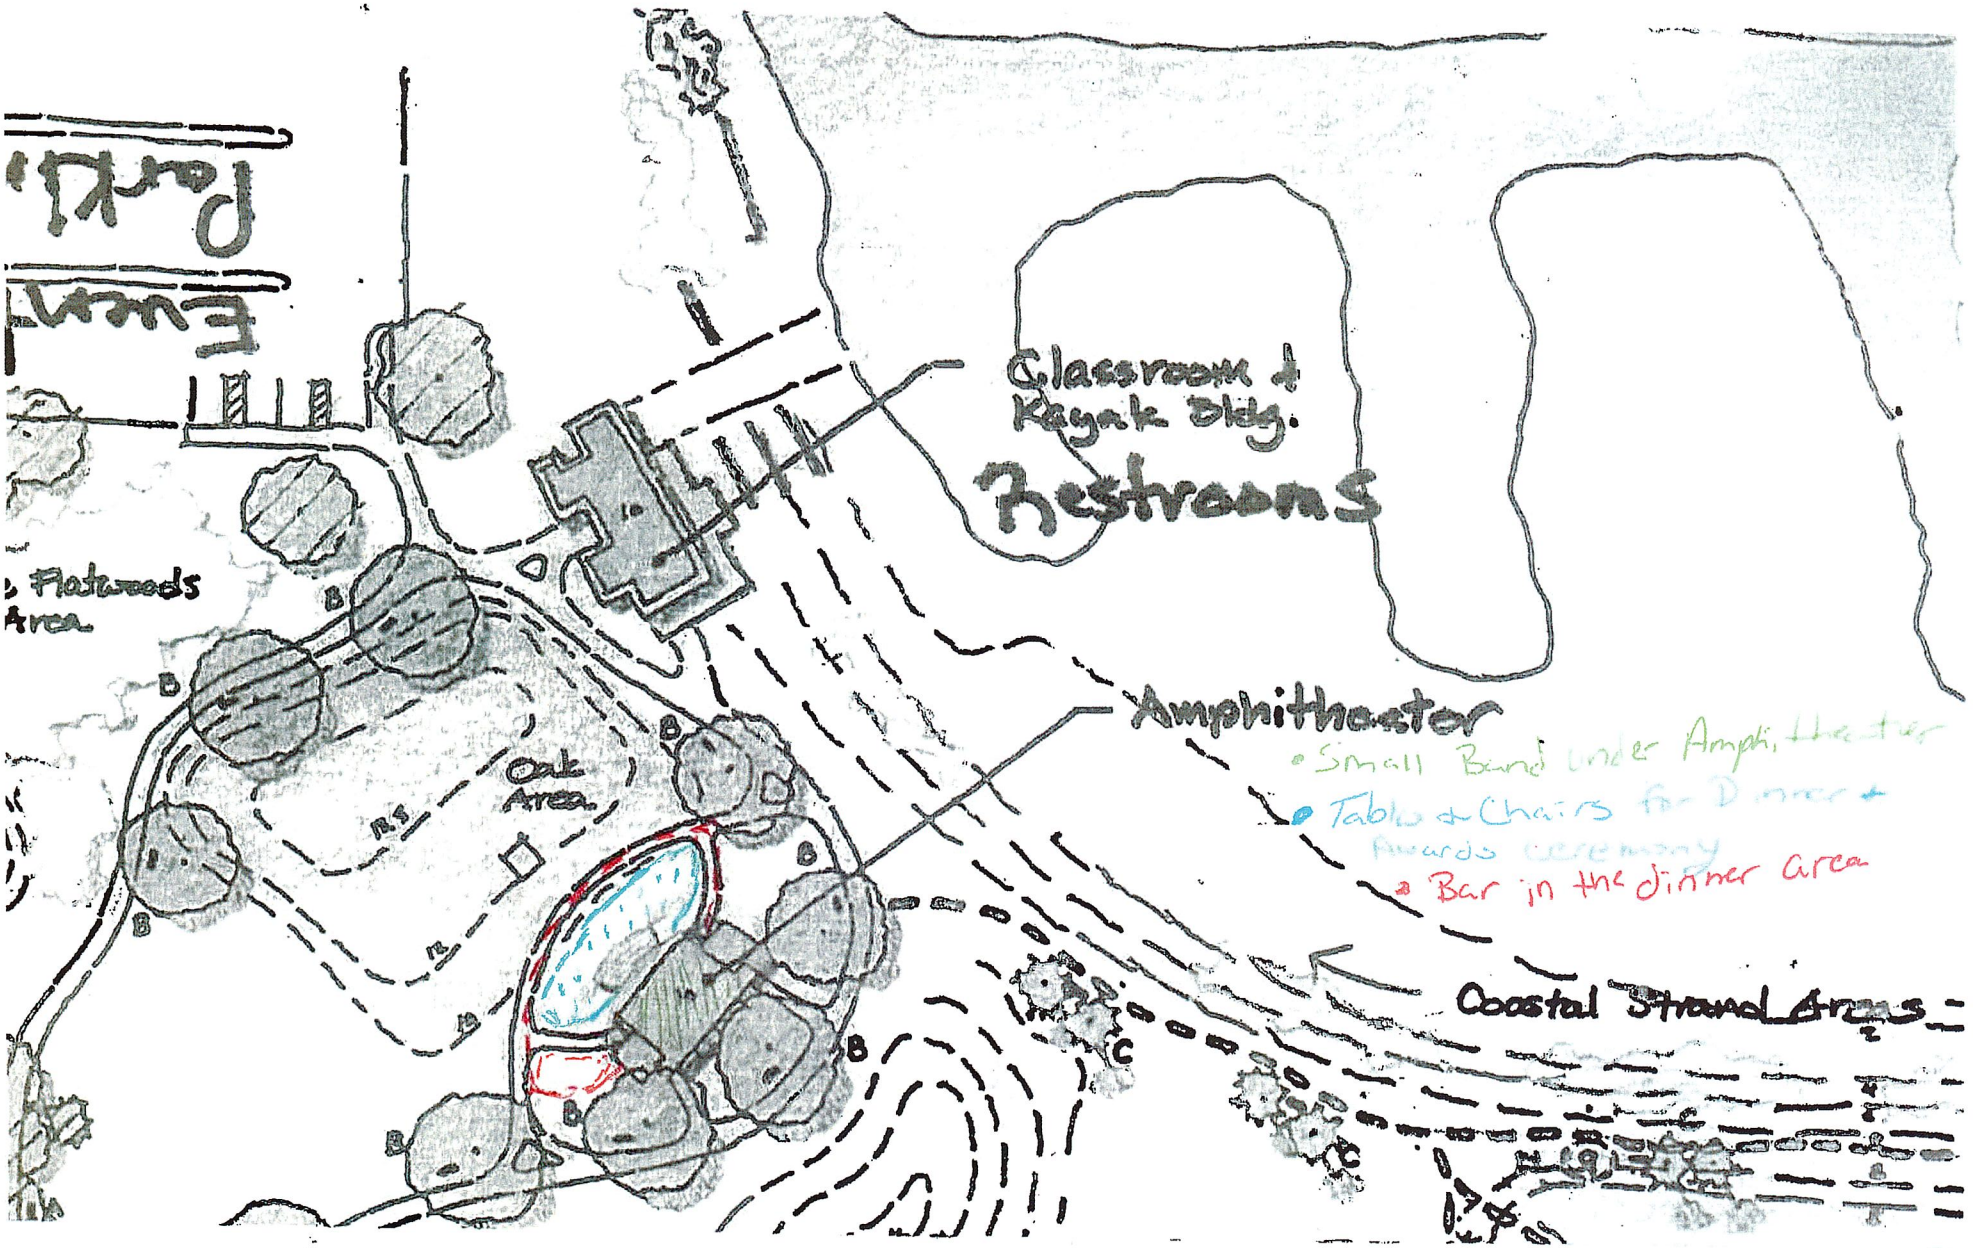
General Terms

1. The customer shall not assign or otherwise transfer this agreement or any right or obligation herein without the prior written consent of the City. The customer shall indemnify, to the extent permitted by law, defend and hold harmless the City, its officers, employees and agents, from and against any and all loss, damage, injury, claim, cause of action, or liability of any kind whatsoever resulting from or arising out of the actions or omissions of the customer.

2. The provision of police officers under this contract is subject to availability of extra duty officers. The City shall not be liable for failure to provide services under this contract.

3. No amendment or modification of this contract shall be valid unless in writing signed by the parties hereto. However, the City may in its sole discretion, reduce or increase the level of service upon the oral request of the person who has signed this contract on behalf of the customer, or at the discretion of a police supervisor as deemed necessary to keep the peace, restore order, or protect public safety.



4. Payment for services rendered under this agreement shall be by monthly billing through the Finance Department and shall be due on receipt of billing unless otherwise prepaid under this contract. The Finance Department shall have sole discretion in requiring prepayment of special detail services. In the event the customer fails to pay within two weeks of the billing date, the City may immediately terminate this agreement and cancel any further special details scheduled for the customer.

5. This agreement is subject to the following City regulations (available from the New Smyrna Beach Police Department):

   A. The rules, regulations, policies and procedures of the New Smyrna Beach Police Department Directives Manual pertaining to Extra Duty Activities.

All as may be amended from time to time.

6. The customer understands and agrees that extra duty officers constitute a mobile auxiliary police force and may be recalled from extra duty activities to respond to city needs in accord with the above-referenced City regulations. In the event the officers are recalled, the customer shall not be liable for payment of fees for the time that officers are absent.

THE CITY OF NEW SMYRNA BEACH - LEISURE SERVICES

SPECIAL EVENT: CONSIDER THE APPROVAL OF THE NSB SHRIMP & SEAFOOD FOOD FESTIVAL 2025, TO BE HELD ON THURSDAY AUGUST 7, 2025.

April 8, 2025

Background:

The FABA Hospitality Group requests approval to present their 2025 New Smyrna Beach Shrimp & Seafood Food Festival to be held on Thursday August 7, 2025 starting at 5pm and ending at 8pm. The festival will be held on Flagler Avenue between N. Atlantic Avenue and Pine Street, which will be closed to vehicle traffic. The intersection of Pine Street at Flagler Avenue will remain open to traffic, with barricades at the Eastern perimeter. Set up for the festival will start at 3pm with the closure of Flagler Avenue from N Atlantic Avenue westbound to Pine Street. Festival breakdown will be complete, and Flagler Avenue will be reopened to traffic by 10pm. This event has been held annually in NSB. There will be no admission charge to the festival, with an anticipated 1,000 attendees. The festival does not allow the sale or consumption of alcoholic beverages on Flagler Avenue or on any City Right of Way. There will be music provided by individual retailers along Flagler Avenue, between 5pm and 10pm. The Fire Department will inspect all food vendors. The festival will have 10'x10' tents aligned on Flagler Avenue, between N. Atlantic Avenue and Pine Street. Security for the event will be provided by NSB Police Department officers. The Fire Department will inspect all food vendors for fire safety.

Findings:

Staff recommends approval of the NSB Shrimp & Seafood Food Festival 2025, to be held on Thursday August 7, 2025.

Fiscal Analysis:

The following permit and event fees will be collected by the city:

Building Dept Major Event Permit Fee: $319.30

Leisure Services Major Event Fee: $532.50

Banner Fee (2): $53.25

Strategic Plan Item:

No

Special Event Application

PORT-O-LETS & SANITATION:

How many Port-O-Lets will be on-site?

0

The location of the Port-O-Lets must be included on the site plan.RECOMMENDATION: One toilet is recommended for every 300 people attending an event. If public toilets are not available at the event site, one ADA accessible toilet is required for the first 300 people, and a minimum of 5% of the restrooms must be ADA accessible. If there is a beer/ alcohol being served at the event, the recommended ratio for toilets per is 1:150 people. Existing park toilets count towards the toilet per anticipated attendee ratio. If dumpster service is needed it is required that refuse service be provided through the Cityâ€™s Public Works Department. The dumpster service, fee schedule, and information pertaining to recycling can be obtained by contacting the Public Works Department at 386-424-2212. Payment arrangements should be made prior to the event though the Public Works Department. Trash receptacles and recycling containers are to be provided by the applicant and must be located not only on event grounds, but in parking areas as well. Event grounds must be completely cleared of trash and all receptacles removed by the end of the event and is the sole responsibility of the applicant.

I acknowledge the above Port-O-Lets & Sanitation requirements:

yes

SECURITY/EMERGENCY FIRE/MEDICAL SERVICES:

What are your plans for providing security at the event?

NSB PD

The New Smyrna Beach Police and Fire Department will evaluate the events security measures to determine if the measures are sufficient to run a safe event. The New Smyrna Beach Police and Fire Department reserve the right to require additional security measures.There will be a minimum requirement of five (5) business days to evaluate the event requirements.NOTE: All events held on City/Public property require the use of City Police and Fire personnel if additional security measures are required.

CONFIRMATION:

Event Contact Information: Please provide the name of the contact person who will be available on-site at all times. Depending on the length of the event, this may require several people. Please list the contact person for each period of time. (Please Print)

There is a 2 week maximum time that banners may stay up. Location of banner placement is not guaranteed. Due to increase in demand, the Leisure Services Department will do its best to accommodate special requests, but they are not guaranteed.

Banner Requirements (Banners must meet these requirements)

1. Banner size should be **vertical** 4x6 with a 3" hem on the top and bottom, along with a grommet on each corner just above the hem. They must also be **double sided**.
2. Banners must be built to withstand a minimum of 25 MPH winds.
3. Number of banners and placement are based on availability with a **Maximum of 2** banners per event.
4. Banners are only installed and taken down on **Mondays**. They must be delivered to the Leisure Service Department the **Friday** before they are scheduled to go up. Banners must be picked up at the Leisure Services Department within **2 days after** they are taken down. The Leisure Services Department does not have a place to store your banners.
5. If your banners are not delivered on time, you may forfeit your reservation.

I have read and understand the requirements for banner specifications and placement. I further understand that the number and placement of banners is strictly up to the discretion of the Leisure Services Department.

THE CITY OF NEW SMYRNA BEACH - LEISURE SERVICES

SPECIAL EVENT: CONSIDER THE APPROVAL OF THE NEW SMYRNA BEACH FOOD FESTIVAL 2025, TO BE HELD ON THURSDAY APRIL 17, 2025.

April 8, 2025

Background:

The Flagler Avenue Business Association Hospitality Group (FABA) is requesting approval to hold their 2025 New Smyrna Beach Food Festival on Thursday, April 17, 2025. The event will start at 5:00 pm and end at 8:00 pm, with a set up time from 3:00 pm to 5:00 pm and a breakdown from 8:00 pm to 10:00 pm. FABA is requesting the closure of Flagler Avenue from N. Atlantic Avenue westbound to the eastern intersection perimeter of Pine Street. The festival does not allow the sale or consumption of alcoholic beverages on Flagler Avenue or in any City Right of Way. The Fire Department will inspect all food vendors. The event will have ten 10x10 tents on Flagler Avenue. Security for the event will be provided by the NSB Police Department.

Findings:

Staff recommends the approval of the 2025 New Smyrna Beach Food Festival, to be held on Thursday April 17, 2025.

Fiscal Analysis:

The following permit and event fees will be collected by the city:

Building Dept Major Event Permit Fee: $319.30

Leisure Services Major Event Fee: $532.50

Will normal traffic patterns be altered by the event?

Yes

Will there be any road closures?

Yes

If yes, City Commission approval will be required.

If yes, list road name(s):

Flagler Avenue from N. Atlantic to Pine Street

Will public parking areas, streets, sidewalks, etc., be restricted or obstructed?

No

Special Event Application

PORT-O-LETS & SANITATION:

How many Port-O-Lets will be on-site?

0

The location of the Port-O-Lets must be included on the site plan.RECOMMENDATION: One toilet is recommended for every 300 people attending an event. If public toilets are not available at the event site, one ADA accessible toilet is required for the first 300 people, and a minimum of 5% of the restrooms must be ADA accessible. If there is a beer/ alcohol being served at the event, the recommended ratio for toilets per is 1:150 people. Existing park toilets count towards the toilet per anticipated attendee ratio. If dumpster service is needed it is required that refuse service be provided through the Cityâ€™s Public Works Department. The dumpster service, fee schedule, and information pertaining to recycling can be obtained by contacting the Public Works Department at 386-424-2212. Payment arrangements should be made prior to the event though the Public Works Department. Trash receptacles and recycling containers are to be provided by the applicant and must be located not only on event grounds, but in parking areas as well. Event grounds must be completely cleared of trash and all receptacles removed by the end of the event and is the sole responsibility of the applicant.

I acknowledge the above Port-O-Lets & Sanitation requirements:

yes

SECURITY/EMERGENCY FIRE/MEDICAL SERVICES:

What are your plans for providing security at the event?

NSB PD

The New Smyrna Beach Police and Fire Department will evaluate the events security measures to determine if the measures are sufficient to run a safe event. The New Smyrna Beach Police and Fire Department reserve the right to require additional security measures.There will be a minimum requirement of five (5) business days to evaluate the event requirements.NOTE: All events held on City/Public property require the use of City Police and Fire personnel if additional security measures are required.

CONFIRMATION:

Event Contact Information: Please provide the name of the contact person who will be available on-site at all times. Depending on the length of the event, this may require several people. Please list the contact person for each period of time. (Please Print)

THE CITY OF NEW SMYRNA BEACH - LEISURE SERVICES

SPECIAL EVENT: CONSIDER THE APPROVAL OF THE SEASIDE FIESTA 2025, TO BE HELD ON THURSDAY JUNE 19, 2025.

April 8, 2025

Background:

The FABA Hospitality Group requests approval of their 2025 Seaside Fiesta Event to be held on Thursday June 19, 2025, starting at 5pm and ending at 8pm. The event will be held on Flagler Avenue between N Atlantic Avenue and the eastern perimeter of the intersection of Peninsula Avenue, which will be closed to vehicle traffic. Event set-up will start at 3pm with the closure of Flagler Avenue, all event breakdown will be complete and Flagler Avenue will be reopened to traffic by 10pm. This is an event which is held in NSB annually. There will be no admission charge, with an anticipated 1,000 attendees. The event does not allow any sales or consumption of alcoholic beverages on Flagler Avenue or on any City Right of Way. Ten 10'x10' tents for the event will be aligned on Flagler Avenue, between N Atlantic Avenue and Peninsula Avenue. Security for the event will be provided by NSB Police Department Officers. The Fire Department will inspect all food vendors for fire safety.

Findings:

Staff recommends the approval of the Seaside Fiesta 2025, to be held on Thursday June 19, 2025.

Fiscal Analysis:

The following permit and event fees will be collected by the city:

Building Dept Major Event Permit Fee: $319.30

Leisure Services Major Event Fee: $532.50

Banner Fee (2): $53.25

Strategic Plan Item:

No

SPECIAL EVENT: CONSIDER THE APPROVAL OF THE LIGHT UP FLAGLER EVENT 2025, TO BE HELD ON FRIDAY DECEMBER 5, 2025.

April 8, 2025

Background:

The Flagler Avenue Business Association (FABA) is requesting approval for their Light Up Flagler Event 2025, to be held on Friday, December 5, 2025. The event will start at 5:00pm and end at 8:00pm, with a set up time from 3:00pm to 5:00pm and a breakdown from 8:00pm to 10:00pm. The event will include a block party, pop-up pooch parade at 6:30pm, and a golf cart parade at 7:15pm to be held within the confines of the barricaded area. There will be no alcohol sales or consumption on Flagler Avenue or in any City right of way during the event. This event will require the closure of Flagler Avenue, from the eastern intersection perimeter of Peninsula Avenue eastbound to N. Atlantic Avenue. Security for the event will be provided by NSB Police Department Officers.

Findings:

Staff Recommends the approval of the Light Up Flagler Event 2025, to be held on Friday December 5, 2025.

Fiscal Analysis:

The following permit and event fees will be collected by the city:

Building Dept Major Event Permit Fee: $319.30

Leisure Services Major Event Fee: $532.50

Banner Fee (2): $53.25

THE CITY OF NEW SMYRNA BEACH - LEISURE SERVICES

SPECIAL EVENT: CONSIDER THE APPROVAL OF THE SHARK BITE EXPO, FEEDING FRENZY 5K, HALF MARATHON AND 5K, TO BE HELD ON SATURDAY, JANUARY 17, 2026 AND SUNDAY JANUARY 18, 2026.

April 8, 2025

Background:

UPDATE: Leisure Services Director and Special Event Sergeant spoke with event organizer on March 31st following the event being tabled at the March 25th City Commission Meeting until the April 8th meeting. Organizer agreed to move event time for 5K on Saturday up to 8 am from 9 am. Additionally, the event organizer will work with the Police Department to deploy water barricades at intersections impacted by the race route and have a police vehicle trailing the last runner to act as a vehicle barricade. Roads will be opened strategically as the last runner passes. Event setup and end time move up one hour to accommodate proposed change.

Following the last race participant north turning onto Riverside Drive, the water barricades which have closed 5th St. thru 8th St. will be drained and moved, making these streets accessible to residents. The course closure will be moved up to 5th St. until the race concludes.

PD will not escort people across the street to go to or from residences while streets are closed.

An alternate 5k route utilizing Magnolia Street was considered but deemed less effective than the original closed route along Riverside Drive.

****

Red Pointer Productions requests approval to present their 2026 Shark Bite Expo, Half Marathon and 5k along with the Feeding Frenzy 5k. The weekend event is scheduled for Saturday January 17th and Sunday January 18, 2026. The Expo/Packet Pickup will be on Saturday, January 17th, from 7am-12:00pm on North Orange Street between Julia and Canal Streets. Parking on Saturday will be located in/around the whole Canal Street District. The Feeding Frenzy 5k will also be held on Saturday January 17th from 9:00am to 10:30am on a fully closed road course. This course will require closing Canal Street starting at US 1 continuing eastbound to Riverside Drive, proceeding southbound to 8th Street. The left southbound US 1 turning lane onto Canal Street and Canal Street

between Orange St and US 1 will be closed from 5am until 12pm. The course will be reopened on a rolling basis as the last runner gets closer to Canal Street and Riverside Drive. All side streets intersecting the racecourse will be barricaded for runner safety.

The Shark Bite Half Marathon and 5k on Sunday, January 18th, will be held from 7:30am to 11:30am; with various closures required along the course and the course will have some portions open to vehicle traffic during the race. At both day's event locations each will have a DJ playing music between 7am until 12pm for attendees. The following streets will be closed during the half marathon and 5k event: Buenos Aires(all morning) where the race will begin at the beach approach under the "Flagler Ave." sign proceeding westbound on Flagler Avenue to Riverside Drive turning northbound to Wayne Ave, turning Southbound through the downtown area then returning over the South Causeway(break down lane/one lane) to Saxon Blvd turn left to 27th and S. Atlantic Avenue from 27th to 3rd (one lane). The event will have alcoholic beverage sales and consumption within the fenced boardwalk parking lot beer garden area with designated entry/exit points. Required event security and emergency services will be provided by City of NSB Police and Fire services to include traffic control. Sunday parking will be located in/around the whole Flagler Avenue District.

Findings:
Staff recommends the approval of the Shark Bite Expo, Feeding Frenzy 5k, Half Marathon and 5k, to be held on Saturday January 17 and Sunday January 18, 2026.

Fiscal Analysis:

The following permit and event fees will be collected by the city:

Building Dept Major Event Permit Fee: $319.30

Leisure Services Major Event Fee: $532.50

Banner Fee (2): $53.25

Strategic Plan Item:
No

REQUIRED ACCESS FOR INSPECTIONS NOTICE:

Issuance of this building permit automatically conveys to the City of New Smyrna Beach, and/or its authorized agents, the authority to enter the premises at reasonable hours for the purposes of inspecting the project for adherence to the terms of the permit, until such time as the project is complete **AND** the final inspections are approved.

NOTICE OF COMMENCEMENT INFORMATION:

If the cost of the proposed work has a value of $2,500 or more ($7,500 for HVAC) a Notice of Commencement must be recorded with the Volusia County Clerk of Courts. A copy of the recorded Notice of Commencement must be posted on the job site prior to receiving an inspection.

WARNING TO OWNER: ***YOUR FAILURE TO RECORD A NOTICE OF COMMENCEMENT MAY RESULT IN YOUR PAYING TWICE FOR IMPROVEMENTS TO YOUR PROPERTY. A NOTICE OF COMMENCEMENT MUST BE RECORDED AND POSTED ON THE JOB SITE BEFORE THE FIRST INSPECTION. IF YOU INTEND TO OBTAIN FINANCING, CONSULT WITH YOUR LENDER OR AN ATTORNEY BEFORE RECORDING YOUR NOTICE OF COMMENCEMENT***

OWNER'S AFFIDAVIT
OWNER/BUILDER USE ONLY

I CERTIFY THAT ALL THE FOREGOING INFORMATION IS ACCURATE AND THAT ALL WORK WILL BE DONE IN COMPLIANCE WITH LL APPLICABLE LAWS REGULATING CONSTRUCTION AND ZONING.

Florida Statutes, 489.103(7):
State law requires construction to be done by licensed contractors. You have applied for a permit under an exemption to that law. The exemption allows you, as the owner of your property, to act as your own contractor with certain restrictions even though you do not lane a license. You must provide direct, onsite supervision of the construction yourself. You may build or improve a one-family or two-family residence or a farm building. You may also build or improve a commercial building, provided your costs do not exceed $25,000. The building or residence must be for your own use or occupancy. It may not be built or substantially improved for sale or lease. If you sell or lease a building you have built or substantially improved yourself within 1 year after construction is complete, the law will presume that you built or substantially improved it for sale or lease, which is a violation of this exemption. You may not hire an unlicensed person to act as your contractor or to supervise people working on your building. It is your responsibility to make sure that people employed by you have licensed required by state law and by county or municipal licensing ordinances. You may not delegate the responsibility for supervising work to a licensed contractor who is not licensed to perform the work being done. Any person working on your building who is not licensed must work under your direct supervision and must be employed by you, which means that you must deduct F.I.C.A. and withholding tax and provide workers' compensation for that employee, all as prescribed by law. Your construction must comply with all applicable laws, ordinances, building codes, and zoning regulations.

GENERAL TERMS

1. The customer shall not assign or otherwise transfer this agreement or any right or obligation herein without the prior written consent of the City. The customer shall indemnify, to the extent permitted by law, defend and hold harmless the City, its officers, employees and agents, from and against any and all loss, damage, injury, claim, cause of action, or liability of any kind whatsoever resulting from or arising out of the actions or omissions of the customer.

2. The provision of Fire Department Units under this contract are subject to availability of extra duty personnel. The City shall not be liable for failure to provide services under this contract.

3. No amendment or modification of this contract shall be valid unless in writing and signed by the parties hereto. However, the City may, in its sole discretion, reduce or increase the level of service upon the oral request of the person who has signed this contract on behalf of the customer, or at the discretion of a Fire Department supervisor as deemed necessary to provide for operational readiness or protect public safety.

4. Payment for services rendered under this agreement shall be by monthly billing through the Finance Department and shall be due on receipt of billing unless otherwise prepaid under this contract. The Finance Department shall have sole discretion in requiring prepayment of special detail services. In the event the customer fails to pay within two weeks of the billing date, the City may immediately terminate this agreement and cancel any further special details scheduled for the customer.

5. This agreement is subject to the following City regulations (available from the New Smyrna Beach Fire Department):

   A. The rules, regulations, policies and procedures of the New Smyrna Beach Fire Department. All as may be amended from time to time.

6. The customer understands and agrees that Fire/Medical Stand-by Units constitute a mobile auxiliary resource and may be recalled from extra duty activities to respond to city needs in accordance with the above-referenced City regulations. In the event the unit(s) are recalled, the customer shall not be liable for payment of fees for the time that Unit(s) are absent.

Special Events Comments

Event Name/Date: Shark Bite Half Weekend 1/17 & 1/18 2026

1. During all special events the Fire Department shall require adherence to all applicable Florida Fire Prevent ion Code standards by all event organizers and vendors and make site inspections as needed
2. The event coordinator(s) shall take all necessary measures to ensure continuous access and egress for emergency vehicles throughout the entire event and this shall include response routes along secondary roads to e event to ensure event parking does not impede emergency vehicle access or victim transport away from the incident at any time
3. Events requiring road closures should organize tents, stages and displays so that an emergency vehicle can drive equipment down the centerline of all streets and measures must be taken to ensure that no intersections or access roads are blocked and at all times are accessible and useable by large fire apparatus
4. The event coordinator(s) shall ensure that the Volusia County Sheriff's Dispatch Center has been notified of any road closings related to the event no less than 24 hours prior to the start of the event at (386) 252-4911 and provide notification as soon as the roads have been re-opened
5. Anytime that transportation shuttles are required, or any other event with unique characteristics may impede the most expeditious provision of fire/rescue/emergency medical services to event participants, regularly staffed fire and rescue services will be supplemented to meet the additional demand caused by the event and will be funded by the event organizers

Additional Requirements:

1 unit & 2 personnel at both finish lines

1/17 - 8:30 am - 10:30 am Canal & Orange

1/18 - 7:00 am - 12:00 noon Flagler Ave Boardwalk Parking Lot

Shark Bite Half Marathon & 5k, Feeding Frenzy 5k, Shark Bite Expo

When:

January 17 & 18, 2026
New Smyrna Beach, FL

Start Times:

Shark Bite Expo/Packet Pickup
Saturday January 17, 2026
7:00 am - 12:00 noon

- In front of Fleet Feet Sports on Orange Ave between Canal & Julia
- Expecting 1000+ Runners and Spectators
- Runners can pick up packets and check out various local & running related vendors

Feeding Frenzy 5k
Saturday January 17, 2026
9:00 am - 10:30 am

- Start/Finish corner of Canal & Orange
- Course Open 9:00 am - 10:30 am (road will reopen behind the last runner)
- Expecting 1000+
- This is a fully closed course. We are requesting to close Canal (US-1 to Riverside) and Riverside (Canal to 8th). This offers the participants the safest possible route to run showcasing NSB beauty. We will be barricading off all of the side streets along route to keep local traffic out.
- Area on Canal, between Orange Ave & US1, will close at 7:30 to prepare to set up for the Start/Finish Line, barricades, etc. This area will remain closed until 12:00 (noon) to allow for post race safety during awards and post race activities. This will open back up to free flowing traffic then.

Shark Bite Half & 5k
Sunday, January 18, 2026
Half - 7:30 am 5k - 7:40 am

- Half Marathon starts 7:30 am (Course Open 7:30 - 11:30 am)
- Half expecting 1000 - 1500 runners
- 5k starts 7:40 (Course Open 7:40 - 9:15 am)
- 5k expecting 800-1000 runners
- Runners will be notified and sent information about road closures and parts of the course that are open to traffic, etc.
- There will be multiple road closures:
    - Buenos Aires - duration of event

- South Causeway - Saxon - this will only be a small section of S. Causeway (from Bouchelle Island and into Saxon by the pedestrian trail). Other sections will only be break down lane in areas, or the pedestrian trail.
- S. Atlantic from 27th to 3rd. The furthest northbound eastern lane.
- At Saxon and Sandpiper, Police officers will be managing the traffic flow. They will be letting cars go between runners when they deem safe.
- At 27th & S. Atlantic, Police officers will be managing the traffic flow. They will be letting cars go between runners when they deem safe.

Saturday Start/Finish Line

- Located at the corner of Canal and Orange
- Course will be closed for duration of race (9:00 am - 10:30 am). Parts of Canal will close from 7:30 - 12:00 noon.
- Side roads will be barricaded to close off course and protect runners

Sunday Start/Finish Line

- Start Line will be under "Flagler Ave" arch near beach approach
- Finish Line is on Buenos Aires near the corner of Flagler & Buenos Aires
- Flagler Ave Boardwalk Parking Lot will be the Festival/Finish Line zone: packet pickup, vendors, awards, etc will be located in the lot

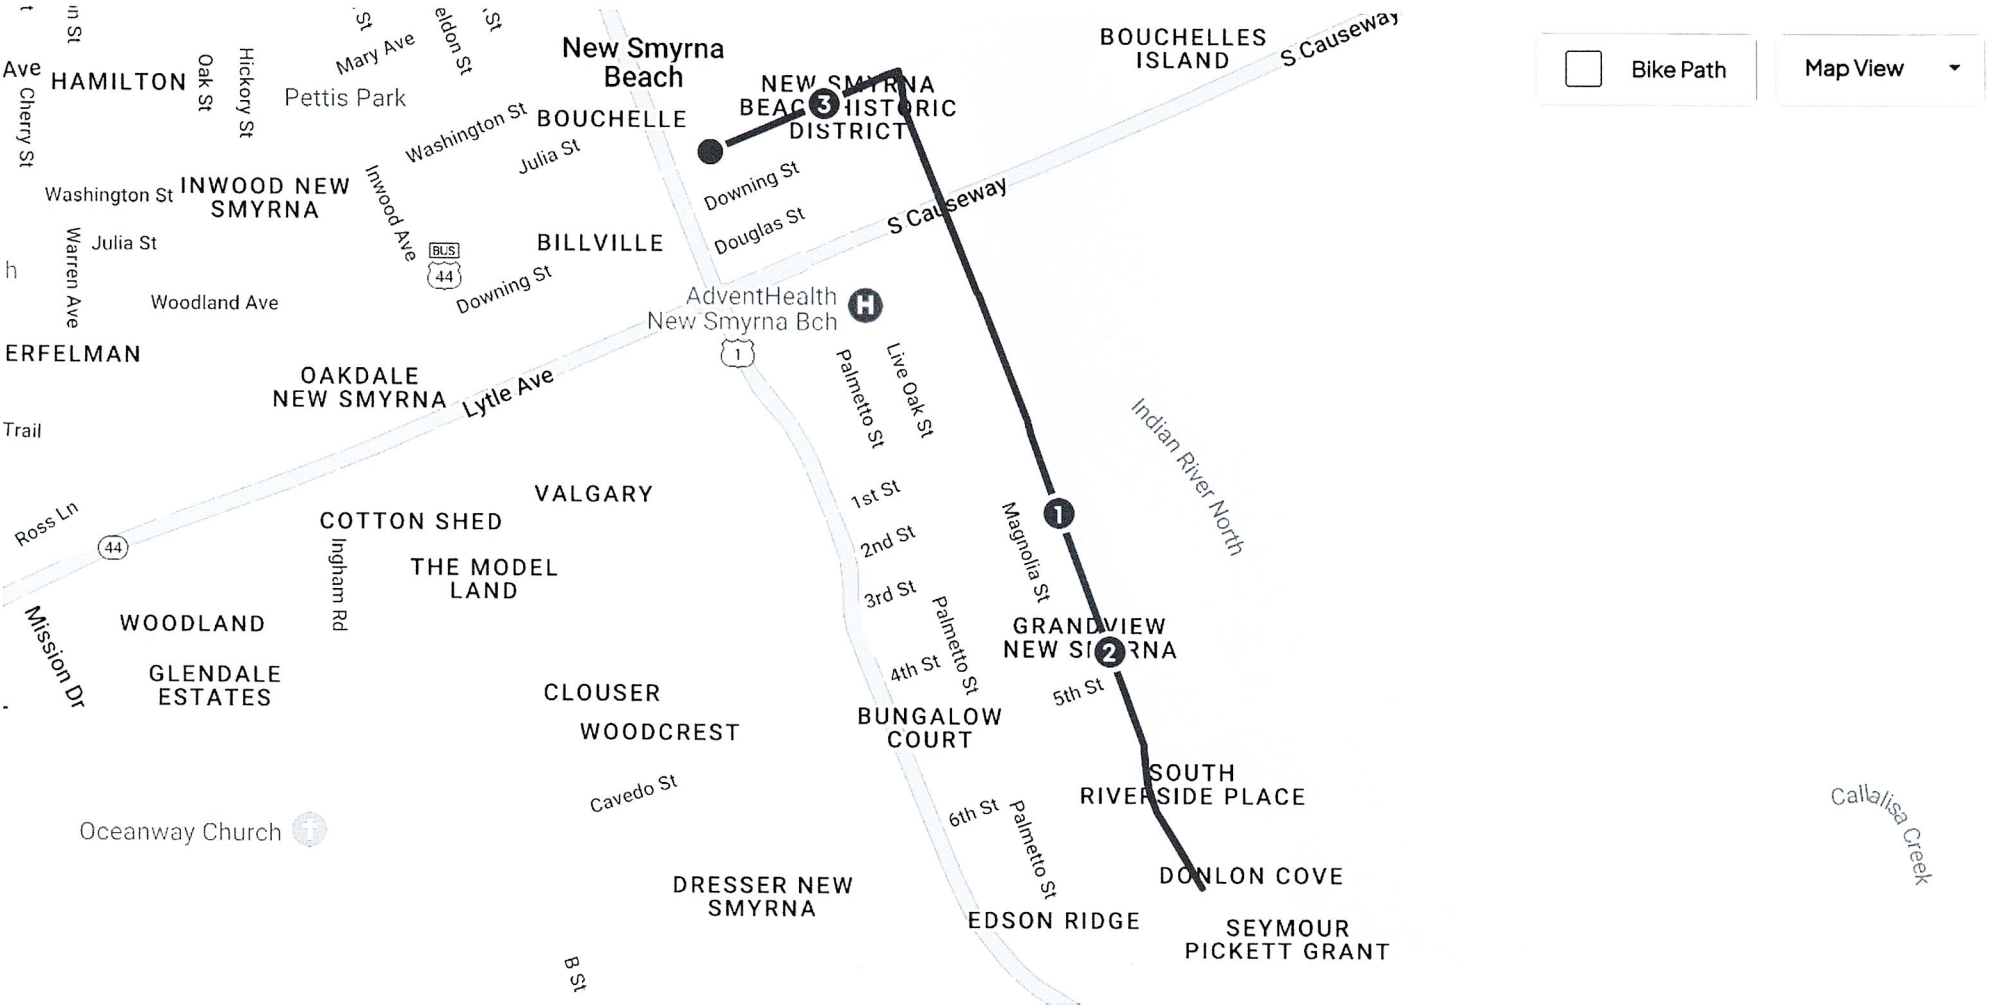
Courses:

- Course Maps will be attached
- As per NSB PD - NSB PD, COPs, and course Marshalls will be throughout the course.
- Marshalls and Water Stops will have Race Directors number in case of an emergency. They will help inform residents of event, keep participants on course.
- Police and COPs will help with traffic control at important intersections.
- There will be a lead bike/vehicle leading each race.
- Saturday course is open for 1.5 hours, Sunday course is open for 4 hours

Important Locations:

Saturday

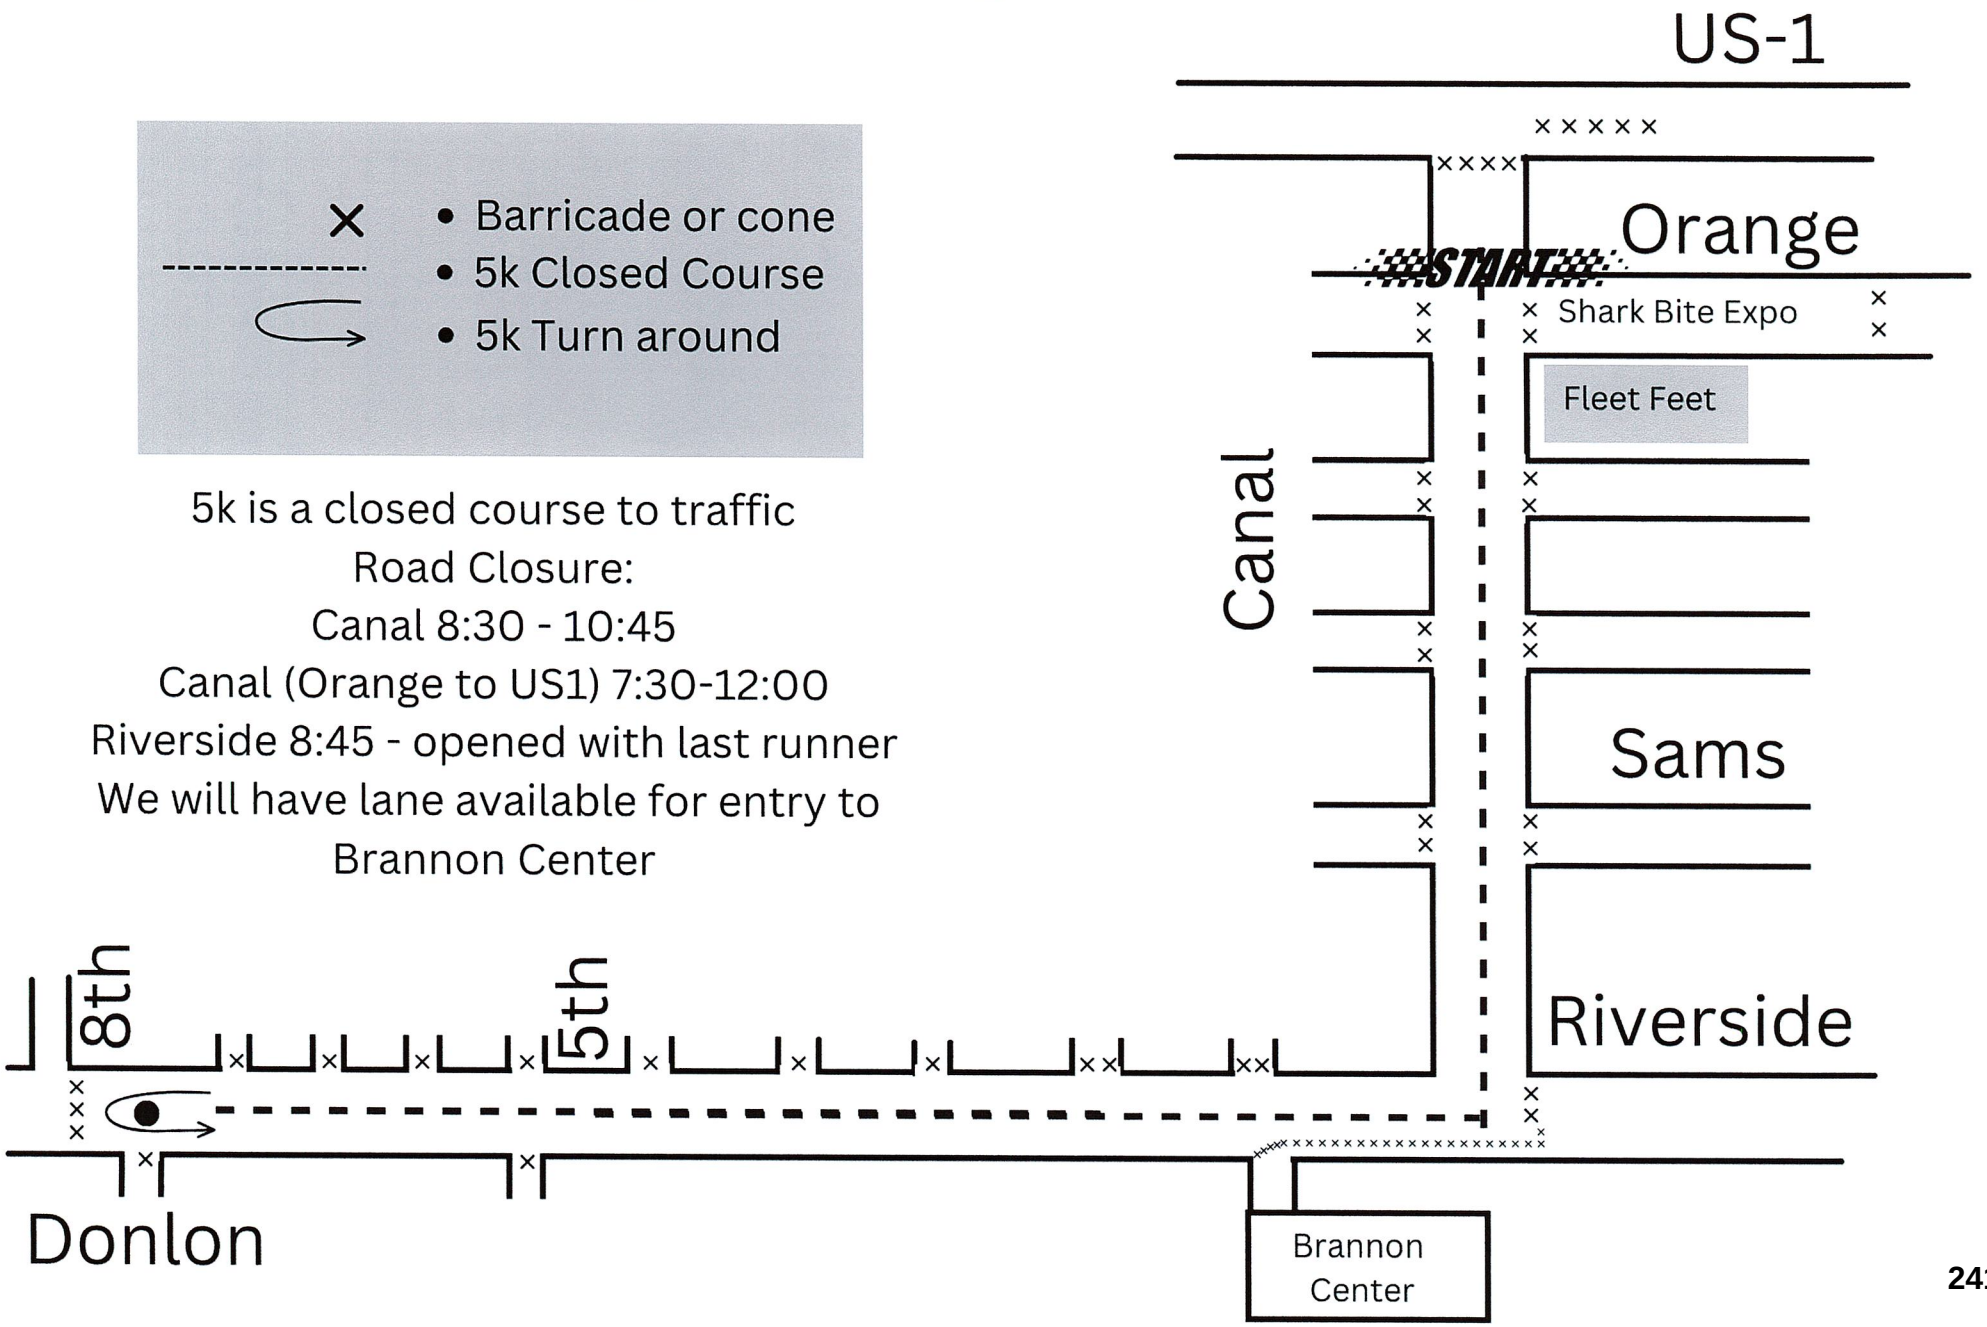
- Parking will be located in/around the Canal St District
- There will be 1 water station on the 5k course at the turn around point
- There will be EMS services requested for standby at the Start/Finish area



Sunday

- Parking will be located in/around the Flagler Ave District
- There will be water stations every 2 miles on Half course (including portolet) and 1 on the 5k course.
- There will be EMS services requested for standby at the Start/Finish area

Parking



- Parking on Saturday will be throughout the Historic Canal Street District. The participants will need to abide by all the normal posted parking parameters of the area.
- Parking on Sunday will be throughout the Historic Flagler Ave District. The participants will need to abide by all the normal posted parking parameters of the area.

- Cone off most east lane of A1A from 27th St to S. Atlantic fork. Keeping participants in the furthest east Northbound lane.

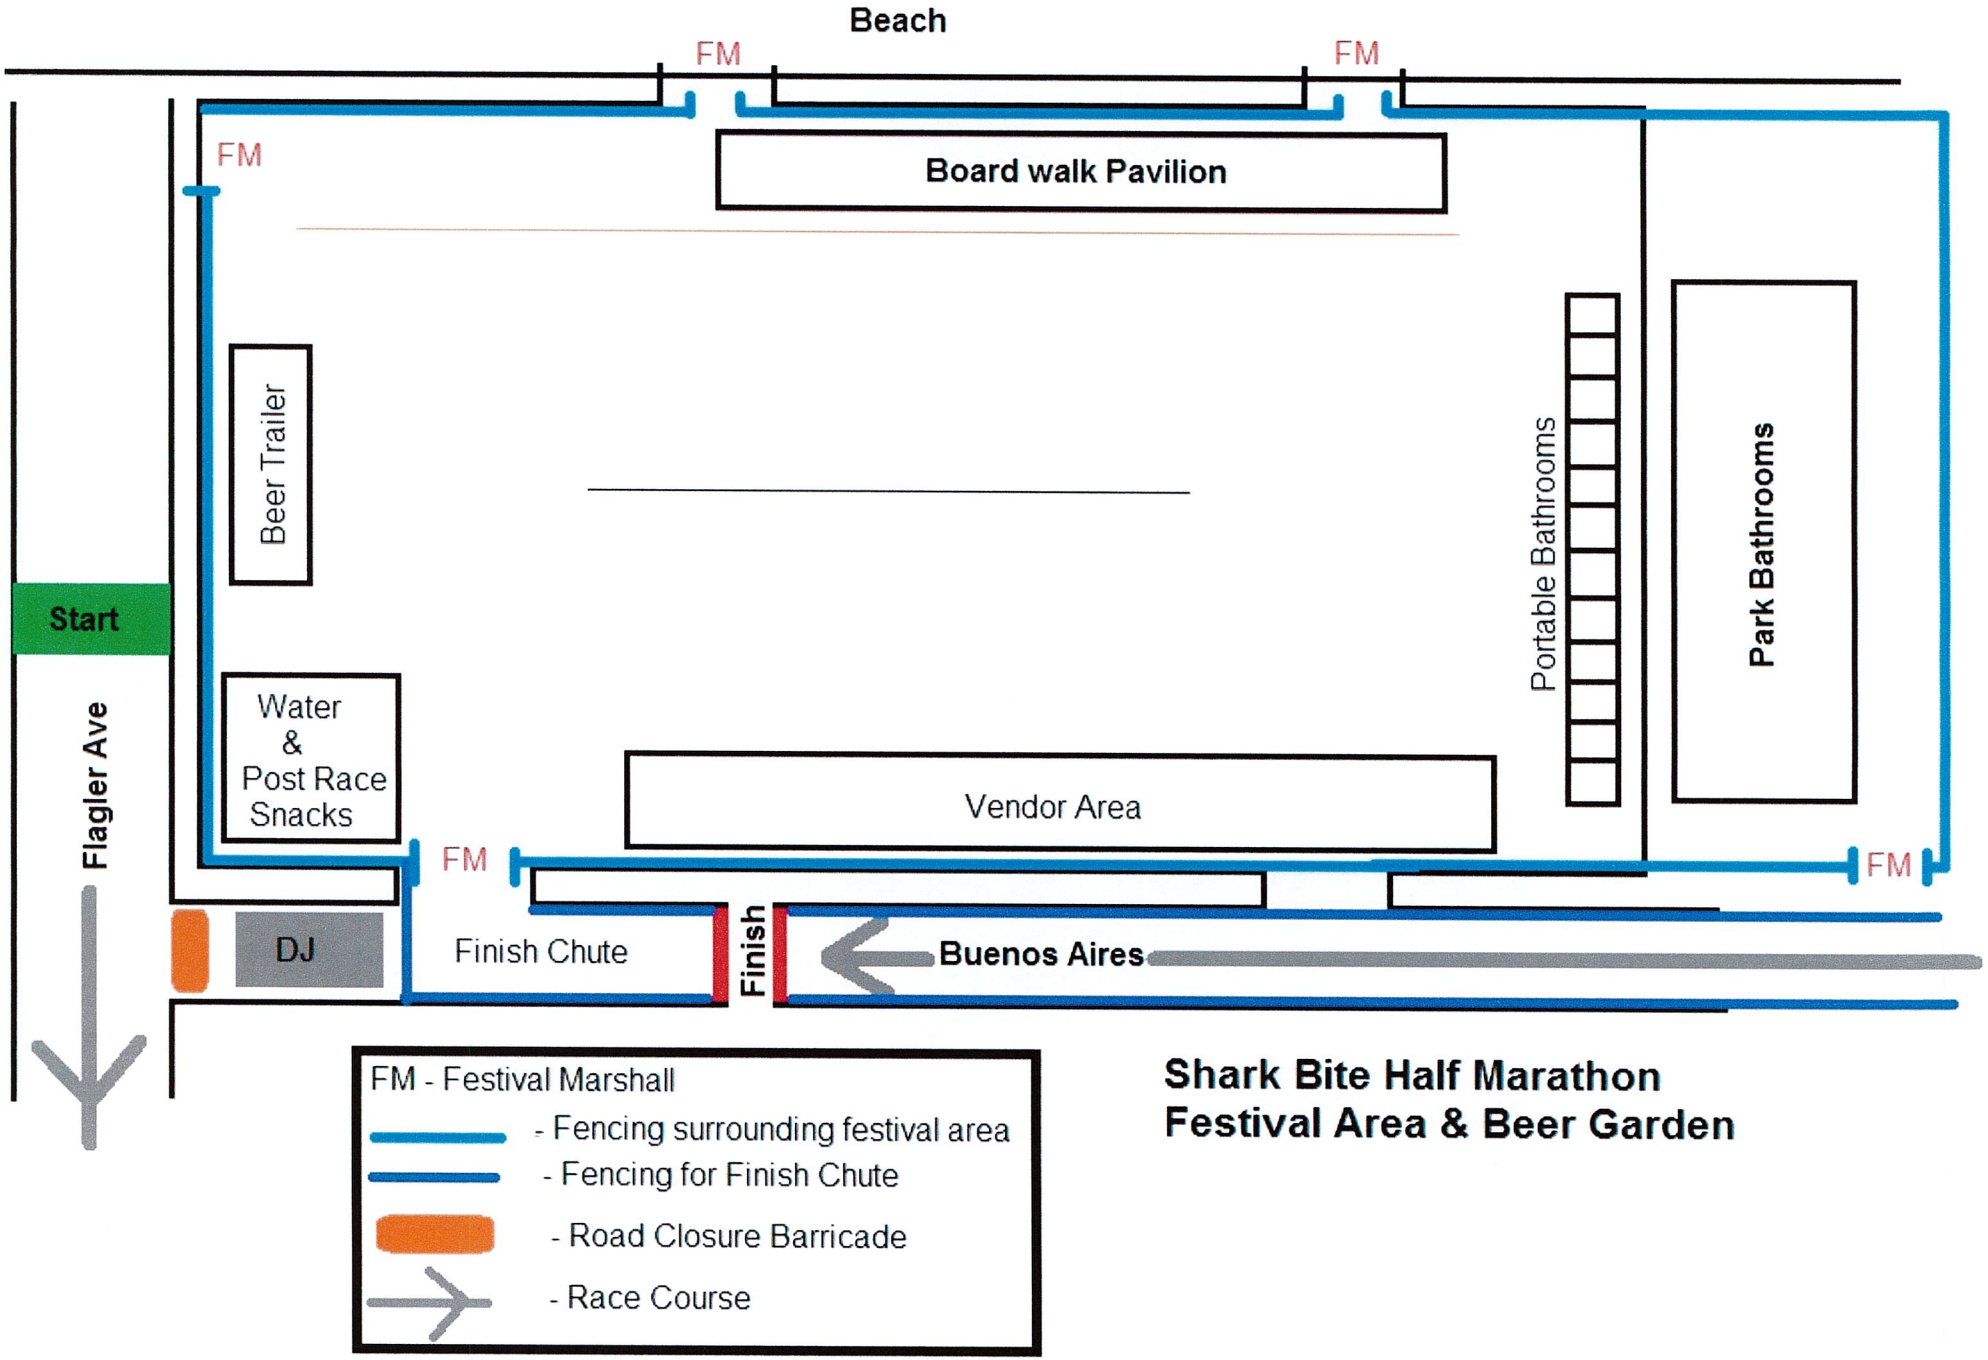
Shark Bite 5k Course

Shark Bite Half Marathon 2026

Alcohol Safety and Security Plan

Beer will be served from a portable beer trailer (rented or supplied by distributor). The beer taps will be connected to trailer and all other beer not in use will be stored in the same beer trailer.

The area designated for beer consumption will be located at the Flagler Avenue Boardwalk parking lot. See the map of festival/beer garden area. As indicated on the map, the whole parking lot will be barricaded/fenced in with impassable fencing and act as our beer garden.



There will be 5 entry points in/out of the festival/beer area. Each entrance will be manned by Festival Marshal (FM). THese marshals will be responsible for not allowing alcoholic beverages to exit the designated consumption area. No open containers will be allowed outside this designated area approved by the city.

All individuals that are of age will receive a tear off upon packet pickup. If the individuals serving the alcohol think a participant without a wristband is younger than 40 years of age, they will be required to show photo ID. For all non-registered participants wanting beer they will be required to show photo ID to receive.

Alcohol will be served in a clear plastic up or in a container that clearly designates it as an alcoholic beverage.

The individuals serving alcohol will not serve to anyone whose normal faculties appear to be affected by the consumption of alcohol or who appear to be causing a disturbance of any type.

ACA enriches lives through the joy and power of the arts.

Mission:
ACA inspires and nurtures creativity through interdisciplinary artist residencies, dynamic artist collaborations, community engagement, and self-discovery within the experience of nature.

Values:
We believe in the values that our founder Doris Leeper embraced.
- The creative spirit must be nurtured.
- There is a powerful connection between the arts and the natural environment.
- Supporting artists creates innovation and capacity, both locally and globally.

These are the values that Atlantic Center for the Arts continues to preserve and protect.

Hi Jennifer,

Please provide security plan where alcohol sales are going to be located and how its going to be contained. Need to have personnel located at entrances/exits to ensure alcohol is contained to the specific area. Please provide a site map where everything is located in the event.

Thank you,

Sergeant William Helms #1572

CITY OF NEW SMYRNA BEACH SPECIAL EVENT APPLICATION

SPECIAL EVENTS: A Special Event is an event which, by itself or in conjunction with other events occurring during the same time (such as during a community wide event), is likely to have an impact on the community, including but not limited to factors such as traffic, noise, or other aspects of public health, safety and welfare. Special Events must be approved in advance by the City Commission at which time staff will make their recommendation. Application for Special Events must be submitted at least thirty (30) days in advance of the requested event. This application is not a permit to conduct a special event.

Will public parking areas, streets, sidewalks, etc., be restricted or obstructed?

No

Special Event Application

PORT-O-LETS & SANITATION:

How many Port-O-Lets will be on-site?

none

The location of the Port-O-Lets must be included on the site plan.RECOMMENDATION: One toilet is recommended for every 300 people attending an event. If public toilets are not available at the event site, one ADA accessible toilet is required for the first 300 people, and a minimum of 5% of the restrooms must be ADA accessible. If there is a beer/ alcohol being served at the event, the recommended ratio for toilets per is 1:150 people. Existing park toilets count towards the toilet per anticipated attendee ratio. If dumpster service is needed it is required that refuse service be provided through the Cityâ€™s Public Works Department. The dumpster service, fee schedule, and information pertaining to recycling can be obtained by contacting the Public Works Department at 386-424-2212. Payment arrangements should be made prior to the event though the Public Works Department. Trash receptacles and recycling containers are to be provided by the applicant and must be located not only on event grounds, but in parking areas as well. Event grounds must be completely cleared of trash and all receptacles removed by the end of the event and is the sole responsibility of the applicant.

I acknowledge the above Port-O-Lets & Sanitation requirements:

yes

SECURITY/EMERGENCY FIRE/MEDICAL SERVICES:

What are your plans for providing security at the event?

hiring security

The New Smyrna Beach Police and Fire Department will evaluate the events security measures to determine if the measures are sufficient to run a safe event. The New Smyrna Beach Police and Fire Department reserve the right to require additional security measures.There will be a minimum requirement of five (5) business days to evaluate the event requirements.NOTE: All events held on City/Public property require the use of City Police and Fire personnel if additional security measures are required.

CONFIRMATION:

Event Contact Information: Please provide the name of the contact person who will be available on-site at all times. Depending on the length of the event, this may require several people. Please list the contact person for each period of time. (Please Print)

Bar services ends at 9:00 pm

Gate automatically closes on exit with no re-entry access

Staff security through out the event. Paid contract security will be hired if required.

THE CITY OF NEW SMYRNA BEACH - PLANNING DEPARTMENT

CONDUCT A QUASI-JUDICIAL PUBLIC HEARING TO REVIEW AND CONSIDER THE APPROVAL OF A SPECIAL EXCEPTION TO ALLOW A BOAT AND RV STORAGE FACILITY TO OPERATE IN THE B-3 ZONING DISTRICT, LOCATED AT 666 DORA STREET.

April 8, 2025

Background:

A. Applicant: Jennifer Cornelius, 307 Columbus Avenue, New Smyrna Beach, FL 32169
B. Property Owner: NSB Boat and RV Storage, LLC , 307 Columbus Avenue, New Smyrna Beach, FL 32169
C. Request: Special Exception approval to allow a boat and RV storage facility to operate in the B-3 zoning district
D. Site Information: The parcel is zoned B-3, Highway Service Business District and is located on the west side of Dora Street, with Pecan Street to the west, Wayne Avenue to the north, and Vineyard Lane to the south.
E. Exhibits:
Exhibit A: Location Map
Exhibit B: Aerial Map
Exhibit C: Pictures

Findings:

The Planning and Zoning Board voted 4-1 (two members were absent) to recommend the City Commission approve the Special Exception application at their March 3, 2025 meeting. At this point in time, what is requested to be approved is the boat and RV storage *use*; there will still be a site plan review and approval process that will require a landscape plan and stormwater requirements to be met.

One issue that is not proposed to be met by the applicant is a requirement of the B-3 zoning district regarding fencing around a boat and RV storage facility. The applicant has already installed a fence around the parcel that does *not* meet the minimum requirements. Boat and RV storage facilities are required to have a "fence or wall at least six feet high, the bottom four feet being solid and the top two feet being open." The fence is "open" for the entirety of its 6' of height, thus there is no buffer between the business and the adjacent residential units. The applicant proposes a landscape buffer in lieu of the fence, as detailed below.

The remainder of the staff report is the same as the Planning and Zoning Board reviewed, with the difference being that recommendation has been altered to only address the

fence/buffer issue.

Two phone calls have been received from people on the street opposed to the Special Exception. One received a notification of the meeting, and another was further down the street but heard about the Special Exception request from another person that received a notification. The former's concern was mainly opposed boats potentially being pulled in and out of the lot at all hours, and the other expressed concern about the potential for fires in the boats that close to people's residences.

A. The applicant purchased 666 Dora Street in April, 2024. The property had a house on it with several accessory structures, which all but one shed have been torn down. To the north and south are properties with single-family houses. This area is zoned B-3 Highway Service Business District, which does not include single-family homes as a permitted use, thus all of the remaining single-family homes in the zoning district are now non-conforming uses, which means that they are permitted to remain on the property but could not be rebuilt as a residential use if removed voluntarily.

B. The parcel is 100' X 170', 17,000 square, or 0.39 acres. The intent of the B-3 zoning district is "intended for application along highways carrying large volumes of traffic where establishments may locate to serve large sections of the city and the persons traveling in vehicles." Dora Street is one block west of US 1. To the west is Pecan Street, which is directly across from the railroad tracks.

C. The applicant applied for a permit to put a solid, 6.0’ tall fence around the perimeter of the lot. The City’s Land Development Regulations do not allow solid fences to be built directly along front property line, as it obstructs the “visibility triangle,” essentially a zone that requires site lines to not be blocked by an obstruction such as a shrub or a solid fence. As there are private residences to the north and south, a solid fence would block their view of traffic-either vehicular or pedestrian- going down the street. Instead of erecting a fence that allowed visibility near the front property lines, the applicant put in fencing 6.0’-tall rail fencing around the whole lot, at the property line.

D. Unfortunately, per the Special Exception requirements to allow outdoor storage in the B-3 zoning district, “outdoor display, storage, or sale of vehicles, or other equipment or material, provided that in the interest of safety to children and adjacent property, outdoor storage areas *will be encompassed by a fence or wall at least six feet high, the bottom four feet being solid and the top two feet being open*.” As noted above, the

property does not have a fence that is solid for the first 4.0’ of height, with the top two feet open. There is a vertical rail fence along the perimeter of the property, thus this requirement is not currently met. Please see **Exhibit C** for pictures of the parcel.

E. In an effort to comply with the intent of the Special Exception requirement for fencing, the applicant proposes to add landscaping on the inside of the fence. The proposed plant is Clusia, which forms a solid hedge and will grow more than 4.0' tall. In the visibility triangle, the vegetation cannot exceed 3.0' in height, to not obstruct lines of sight. In addition to the current lack of required buffer for the neighbors. A 5.0'-wide buffer is required along the front property lines. Further, the parcel is 17,000 square feet in size. The LDR requires parcels to have at least 1 tree per every 2,500 square feet. There are currently no trees on the parcel. Planting 7 trees is a recommended condition of approval.

F. Another issue that will have to be addressed at site plan will be a stormwater plan, reviewed and approved by the City's engineering department. This too is a recommended condition of approval.

G. The proposed site plan is included as **Exhibit D**. There is a roll gate along Pecan Street, which will facilitate traffic further from the adjacent houses along Dora Street.

H. In addition to the fence requirement in the Special Exception requirements, there are three criteria that must be met for all Special Exceptions. These include:

a. The requested use is listed among the special exceptions in the district for which application is made;
b. The requested use will not impair the character of the surrounding or adjoining districts, nor be detrimental to the public health, morals, or welfare; and
c. Adequate utilities, access roads, drainage, sanitation, and/or other necessary services and facilities are, or will be, available or provided for the proposed use.

I. The proposed use meets items a. and c., the second criteria, regarding impairing the character of the surrounding or adjoining districts, nor be detrimental to the public health, morals, or welfare is debatable. Currently, the parcel is devoid of trees, has no stormwater system, and does not have the necessary fencing so adjacent houses to buffer the moving of boats and RVs in close proximity to private residences.

Recommendation:

As noted above, the fence that is in place *does not* meet the Special Exception

requirements, as the "outdoor display, storage, or sale of vehicles, or other equipment or material, provided that in the interest of safety to children and adjacent property, outdoor storage areas will be encompassed by a fence or wall at least six feet high, the bottom four feet being solid and the top two feet being open. A fence or wall at least six feet high, the bottom four feet being solid and the top two feet being open." There is also a 3' buffer requirement on the sides, but the fence is built to the property lines, therefore the landscape buffer, which is proposed to be inside the fence, in lieu of installing the required fencing, will be inside the fence, instead of outside of a fence that is solid for the first 4' of height.

Staff can recommend approval of the project provided one of two modifications to the site plan are met prior to the business beginning to operate. These include either developing a landscape plan that includes a vegetative buffer (with irrigation) at least 4' in height when planted (with irrigation), or add a 4' tall fence outside the visibility triangles along Dora and Pecan Street, in conformance with the B-3 requirement for boat and RV storage facilities.

Fiscal Analysis:

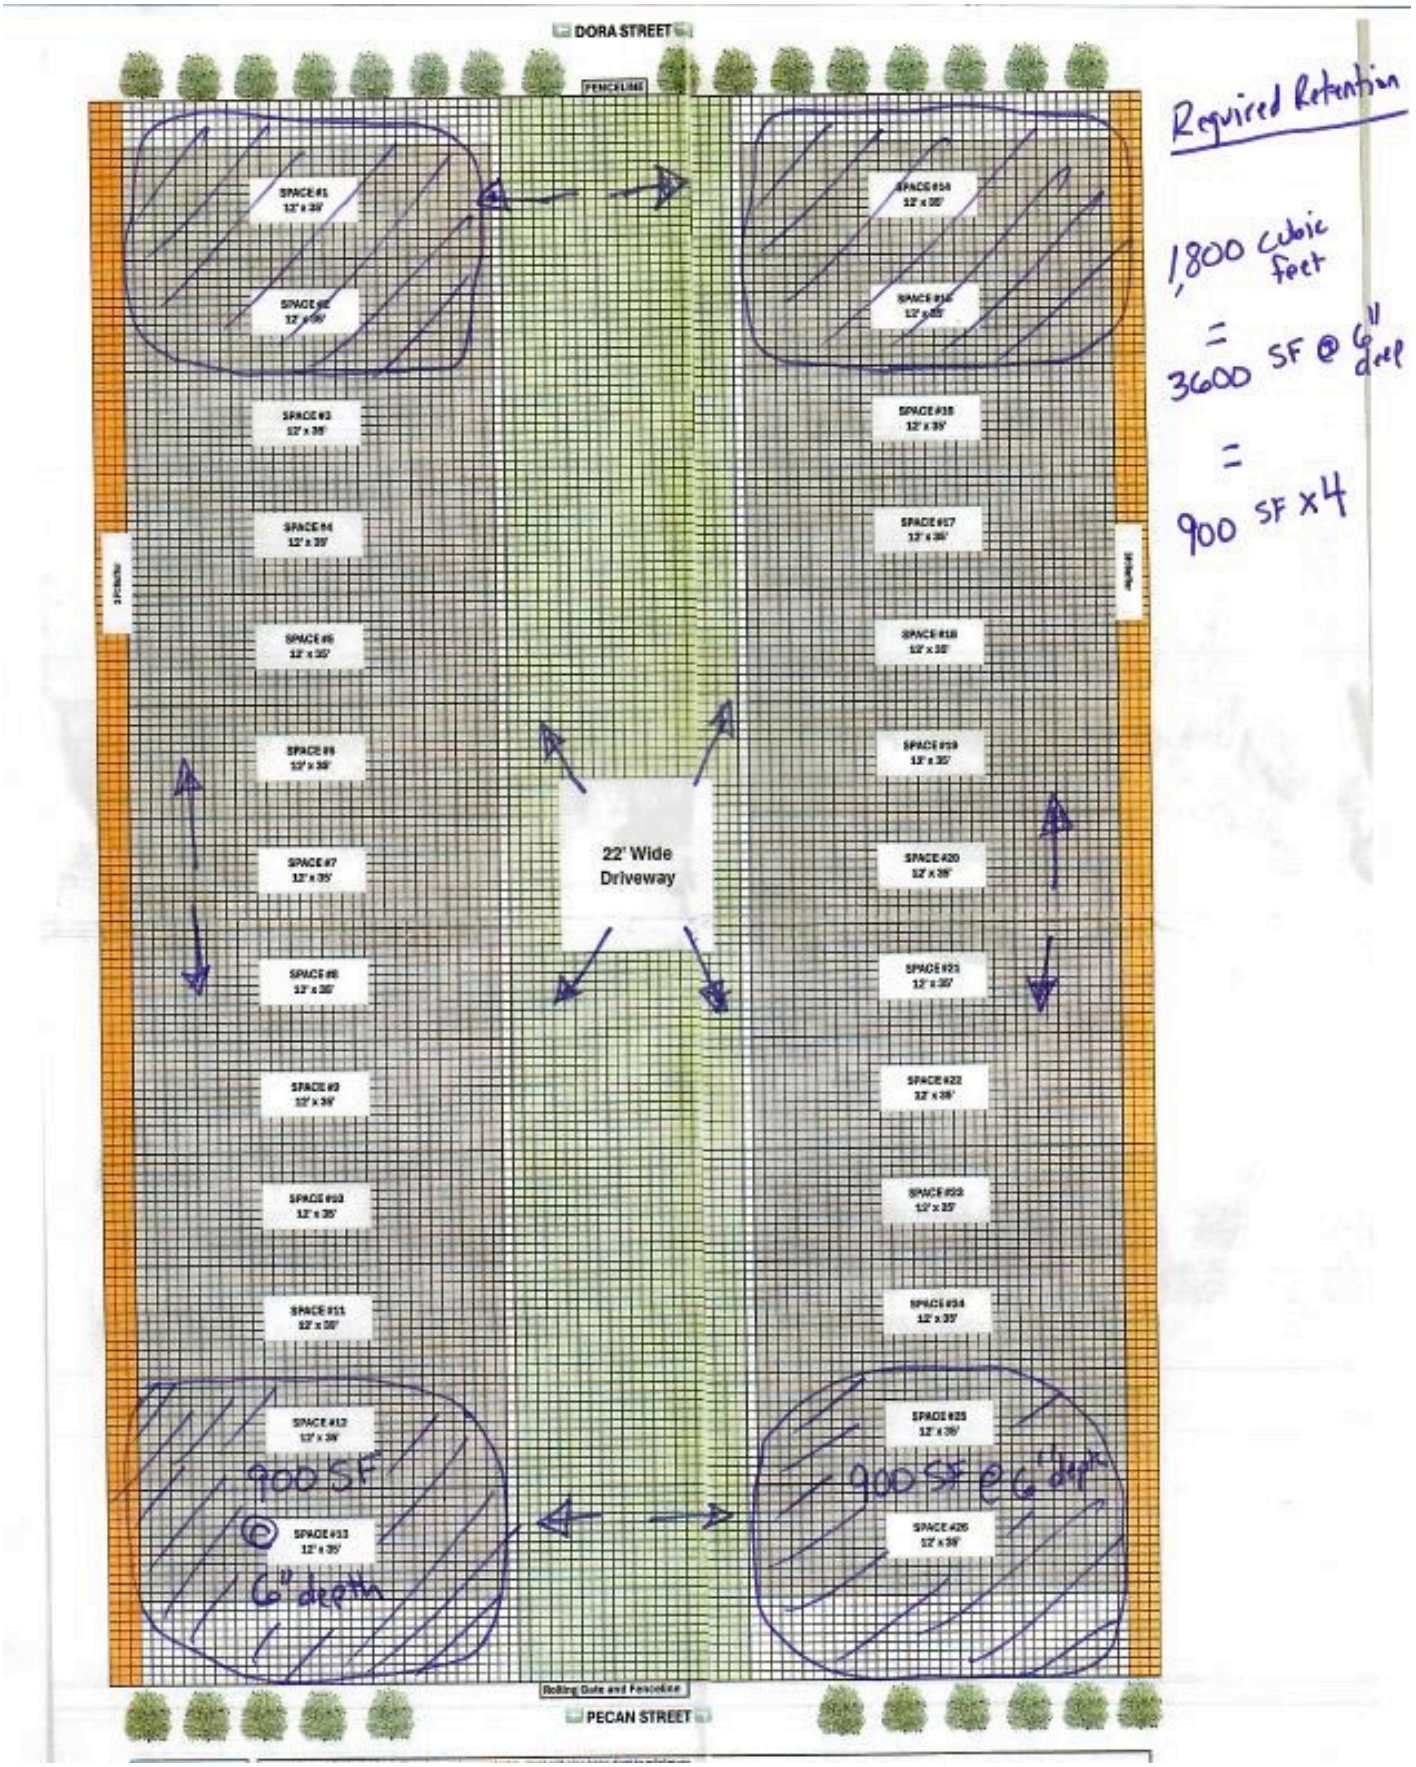
Aerial looking west (12/25/24)



From south side of Dora

666 Dora St - Site Plan

666 Dora St - Stormwater Drainage Plan

Planned Site Use:

We plan to store small boats and trailers only.

Fencing Requirements:

The fencing that was installed on all 4 sides of the lot has been permitted and approved by the City of NSB. Since we have now been told that the fence should be solid the first 4' up we are proposing to add a privacy covering to the existing fence. The weatherproof covering as pictured below is durable and designed to withstand UV rays, intense winds, freezing temperatures, rain and humidity. The top 2 ft of fence on all sides will remain open as required.

THE CITY OF NEW SMYRNA BEACH - MAINTENANCE OPERATIONS

ORDINANCE NO. 16-25: CONDUCT THE SECOND READING AND PUBLIC HEARING OF AN ORDINANCE, WHICH, IF ADOPTED, WOULD GRANT A NON-EXCLUSIVE FRANCHISE AGREEMENT TO CLIFF BERRY INC.

April 8, 2025

Background:

Section 66-111, Franchise Requirement, of the City's Code of Ordinances provides that: "No person shall provide construction and demolition debris-removal services, as defined by F.S. 403.703(6), in the City without being awarded a non-exclusive franchise agreement with the City if they wish to continue to provide construction & demolition (C & D) debris removal services within our City limits." Attached is Cliff Berry Inc's Non-Exclusive Franchise Ordinance application form and applicable attachments. Cliff Berry Inc meets all the requirements and staff is proposing that such a franchise agreement be issued to Cliff Berry Inc.

Fiscal Analysis:

This is a revenue generating item as the franchise agreement requires the hauler to pay the City $20.00 per roll off container haul to the County's landfill. No business impact statement is required under SB 170 because this ordinance relates to procurement of collection and disposal of construction and demolition debris services.

Strategic Plan Item:

No

ENDORSEMENT #007

This endorsement, effective 12:01 a.m., December 31, 2024, forms a part of

Policy No. AEC0067537 issued to CLIFF BERRY, INC.

by XL Specialty Insurance Company.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

AUTOMATIC ADDITIONAL INSURED

This endorsement modifies insurance provided under the following:

BUSINESS AUTO COVERAGE FORM
MOTOR CARRIER COVERAGE FORM
AUTO DEALERS COVERAGE FORM

A. **COVERED AUTOS LIABILITY COVERAGE, Who Is An Insured,** is amended to include as an "insured" any person or organization you are required in a written contract to name as an additional insured, but only for "bodily injury" or "property damage" otherwise covered under this policy caused, in whole or in part, by the negligent acts or omissions of:

1. You, while using a covered "auto"; or

2. Any other person, except the additional insured or any employee or agent of the additional insured, operating a covered "auto" with your permission;

Provided that:

a. The written contract is in effect during the policy period of this policy;

b. The written contract was signed by you and executed prior to the "accident" causing "bodily injury" or "property damage" for which liability coverage is sought; and

c. Such person or organization is an "insured" solely to the extent required by the contract, but in no event if such person or organization is solely negligent.

B. The Limits of Insurance provided for the Additional Insured shall not be greater than those required by contract and, in no event shall the Limits of Insurance set forth in this policy be increased by the contract.

C. **General Conditions, Other Insurance** is amended as follows:

Any coverage provided hereunder shall be excess over any other valid and collectible insurance available to the additional insured whether such insurance is primary, excess, contingent or on any other basis unless the contract specifically requires that this policy be primary.

All terms, conditions, exclusions and limitations of this policy shall apply to the liability coverage provided to any additional insured, and in no event shall such coverage be enlarged or expanded by reason of the contract.

All other terms and conditions of this policy remain unchanged.

ENDORSEMENT #012

This endorsement, effective 12:01 a.m., December 31, 2024 forms a part of

Policy No. PEC0067544 issued to CLIFF BERRY, INC.

by Indian Harbor Insurance Company.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

ADDITIONAL INSURED SCHEDULE FOR JOB SITE COVERAGE

This endorsement modifies insurance provided under the following:

PROFESSIONAL AND POLLUTION LEGAL LIABILITY POLICY

It is agreed that this Policy is amended as follows:

SECTION III - DEFINITIONS, M. **Insured**, Subsection 9., is amended to include the following:

Solely with regard to SECTION I - INSURING AGREEMENTS, B.1. Job Site Coverage - Occurrence, each person or entity listed in the Schedule below, but only for:

a. a **Pollution Condition** caused by **Contracting Services**; and

b. the liability of the person or entity that results from the performance of the **Named Insured's Contracting Services**.

Schedule:
CLIFF BERRY & ASSOCIATES, INC.
CB-SIX, INC.
CLIFF BERRY FAMILY LTD. PARTNERSHIP
C-2 HOLDINGS, INC.

All other terms and conditions remain the same.

© 2018 X.L. America, Inc. All Rights Reserved.
May not be copied without permission.

L. Severability

Except with respect to the Limits of Liability and the Self-Insured Retention Amount, and any rights or duties specifically assigned in this Policy to the **First Named Insured**, this insurance applies:

1. as if each **Named Insured** were the only **Named Insured**; and

2. separately to each **Insured** against whom a **Claim** is made.

Any misrepresentation, act or omission that is in violation of a duty, term or condition under this Policy by one **Insured** shall not by itself affect coverage for another **Insured** under this Policy. However, this exception shall not apply to the **Insured** who is a parent, subsidiary or affiliate of the **Insured** which committed the misrepresentation, act or omission referenced above.

M. Sole Agent

The **First Named Insured** shall act on behalf of all **Insureds** for the payment or return of premium, receipt and acceptance of any endorsement issued to form a part of this Policy, giving and receiving notice of cancellation or non-renewal and the exercise of the rights provided in SECTION VI – OPTIONAL EXTENDED REPORTING PERIOD.

N. Subrogation and Recoupment

In the event of any payment under this Policy, we shall have the right to seek recoupment against you in the event we determine no coverage exists and/or be subrogated to all of your rights of recovery against any person or entity and you will execute and deliver instruments and papers and do whatever else is necessary to secure such rights.

Any recovery as a result of subrogation proceedings under this Policy shall accrue first to you to the extent of your payments in excess of the Limits of Liability of this Policy; then to us to the extent of our payment under this Policy; and then to you to the extent of your payment of the Self-Insured Retention Amount. Expenses incurred in such subrogation proceedings shall be apportioned among the interested parties in the recovery in the proportion that each interested party's share in the recovery bears to the total recovery amount.

We shall have priority in any recovery, and any amounts recovered in excess of our total payment and the cost of recovery shall be paid to you. You shall do nothing at any time to prejudice our subrogation rights.

However, we waive our right of recovery against any person or entity, except for a **Design Professional** or **Subcontractor**, including **Subcontractors** and subconsultants, as referenced in SECTION I – INSURING AGREEMENTS, A.3. Protective Loss Coverage and B.4. Pollution Protective Loss Coverage, if and to the extent you agreed to waive your right of recovery against such person or entity in a written agreement signed by the **Named Insured** prior to:

1. the negligent act, error or omission in **Professional Services** out of which the **Claim** or request for **Rectification Expense** arises under SECTION I - INSURING AGREEMENTS, A. Professional Coverages; or

2. the first commencement of a **Pollution Condition** out of which the **Claim** or request for **Emergency Remediation Expense** or **Pollution Loss** arises under SECTION I - INSURING AGREEMENTS, B. Pollution Coverages.

O. Territory

This Policy applies to **Professional Services** and **Contracting Services** rendered worldwide, provided that the **Claim**, **Protective Claim** or **Pollution Protective Claim** is first brought, and at all times maintained, within the United States, its territories and possessions, or in Canada.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

ADDITIONAL INSURED – OWNERS, LESSEES OR CONTRACTORS – SCHEDULED PERSON OR ORGANIZATION

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s)	Location(s) Of Covered Operations
Any person or organization where required by written contract provided that such contract was executed prior to the date of loss.	All Locations as required per written contract.
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.	

A. **Section II – Who Is An Insured** is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or
2. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured(s) at the location(s) designated above.

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and
2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to "bodily injury" or "property damage" occurring after:

1. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or
2. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

 © Insurance Services Office, Inc., 2018

C. With respect to the insurance afforded to these additional insureds, the following is added to **Section III – Limits Of Insurance:**

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or

2. Available under the applicable limits of insurance;

whichever is less.

This endorsement shall not increase the applicable limits of insurance.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

ADDITIONAL INSURED – OWNERS, LESSEES OR CONTRACTORS – COMPLETED OPERATIONS

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
PRODUCTS/COMPLETED OPERATIONS LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s)	Location And Description Of Completed Operations
Any person or organization where required by written contract provided that such contract was executed prior to the date of loss.	All Locations as required per written contract.,
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.	

A. **Section II – Who Is An Insured** is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury" or "property damage" caused, in whole or in part, by "your work" at the location designated and described in the Schedule of this endorsement performed for that additional insured and included in the "products-completed operations hazard".

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and
2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following is added to **Section III – Limits Of Insurance:**

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or
2. Available under the applicable limits of insurance;

whichever is less.

This endorsement shall not increase the applicable limits of insurance.

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US (WAIVER OF SUBROGATION)

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
ELECTRONIC DATA LIABILITY COVERAGE PART
LIQUOR LIABILITY COVERAGE PART
POLLUTION LIABILITY COVERAGE PART DESIGNATED SITES
POLLUTION LIABILITY LIMITED COVERAGE PART DESIGNATED SITES
PRODUCTS/COMPLETED OPERATIONS LIABILITY COVERAGE PART
RAILROAD PROTECTIVE LIABILITY COVERAGE PART
UNDERGROUND STORAGE TANK POLICY DESIGNATED TANKS

SCHEDULE

Name Of Person(s) Or Organization(s): Any person or organization where required by written contract provided that such contract was executed prior to the date of loss (as permissable by law)
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

The following is added to Paragraph **8. Transfer Of Rights Of Recovery Against Others To Us** of **Section IV – Conditions:**

We waive any right of recovery against the person(s) or organization(s) shown in the Schedule above because of payments we make under this Coverage Part. Such waiver by us applies only to the extent that the insured has waived its right of recovery against such person(s) or organization(s) prior to loss. This endorsement applies only to the person(s) or organization(s) shown in the Schedule above.

 © Insurance Services Office, Inc., 2018

(Ed. 4-84)

WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule. (This agreement applies only to the extent that you perform work under a written contract that requires you to obtain this agreement from us.)

This agreement shall not operate directly or indirectly to benefit anyone not named in the Schedule.

Schedule

Where required by written agreement signed prior to loss.

This endorsement changes the policy to which it is attached and is effective on the date issued unless otherwise stated.

Business Impact Estimate

This form should be included in agenda packet for the item under which the proposed ordinance is to be considered, and must be posted on the City of New Smyrna Beach website by the time notice of the proposed ordinance is published.

Proposed ordinance's title/reference:
ORD 16-25 Non-Exclusive Franchise - Cliff Berry, Inc.

This Business Impact Estimate is provided in accordance with section 166.041(4), *Florida Statutes*. If one or more boxes are checked below, this means the City of New Smyrna Beach is of the view that a business impact estimate is not required by state law[1] for the proposed ordinance, but the City of New Smyrna Beach is, nevertheless providing this Business Impact Estimate as a courtesy and to avoid any procedural issues that could impact the enactment of the proposed ordinance. This Business Impact Estimate may be revised following its initial posting.

- ☐ The proposed ordinance is required for compliance with Federal or State law or regulation;
- ☐ The proposed ordinance relates to the issuance or refinancing of debt;
- ☐ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
- ☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant, or other financial assistance accepted by the municipal government.
- ☐ The proposed ordinance is an emergency ordinance;
- ☑ The ordinance relates to procurement; or
- ☐ The proposed ordinance is enacted to implement the following:
    a. A development order or development permit, as defined in s. 163.3164, F.S.; a development agreement as authorized by ss. 163.3220-163.3243, F.S.; or a comprehensive plan amendment or land development regulation amendment initiated by an application by a private party other than the municipality;
    b. Sections 190.005 and 190.046, *Florida Statutes*, regarding community development districts;
    c. Section 553.73, *Florida Statutes*, relating to the *Florida Building Code*; or
    d. Section 633.202, *Florida Statutes*, relating to the *Florida Fire Prevention Code*.

In accordance with the provisions of controlling law, even notwithstanding the fact that, an exemption noted above may apply, the City of New Smyrna Beach hereby publishes the following information:

[1] *See* Section 166.041(4)(c), *Florida Statutes*.

1. Summary of the proposed ordinance (must include statement of the public purpose, such as serving the public health, safety, morals, and welfare):

Ord. No. 16-25 authorizes Cliff Berry, Inc to provide demolition debris removal services within the City.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the City of New Smyrna Beach, if any:
(a) An estimate of direct compliance costs that businesses may reasonably incur;
(b) Any new charge or fee imposed by the proposed ordinance, or for which businesses will be financially responsible; and
(c) An estimate of the City of New Smyrna Beach's regulatory costs, including estimated revenues from any new charges or fees to cover such costs.

N/A

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:
One, Cliff Perry, Inc.

4. Additional information the governing body deems useful (if any):
[*You may wish to include in this section the methodology or data used to prepare the Business Impact Estimate. For example: City of New Smyrna Beach staff solicited comments from businesses in the City of New Smyrna Beach as to the potential impact of the proposed ordinance by contacting the chamber of commerce, social media posting, direct mail or direct email, posting on City of New Smyrna Beach website, public workshop, etc. You may also wish to include efforts made to reduce the potential fiscal impact on businesses. You may also wish to state here that the proposed ordinance is a generally applicable ordinance that applies to all persons similarly situated (individuals as well as businesses) and, therefore, the proposed ordinance does not affect only businesses.*).

N/A

ORDINANCE NO. 16-25

AN ORDINANCE OF THE CITY OF NEW SMYRNA BEACH GRANTING A NON-EXCLUSIVE FRANCHISE TO CLIFF BERRY, INC., TO PROVIDE CONSTRUCTION AND DEMOLITION DEBRIS REMOVAL SERVICES WITHIN THE CITY OF NEW SMYRNA BEACH; OUTLINING FRANCHISEE'S DUTIES; PROVIDING TERMS AND CONDITIONS UNDER WHICH SUCH FRANCHISE SHALL OPERATE; PROVIDING FOR SEVERABILITY; PROVIDING FOR CONFLICTING ORDINANCES; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, there is an immediate and continuing need for the collection and disposal of construction and demolition debris from organizations, firms or entities (Service) within the City of New Smyrna Beach (City) with the use of "roll-off" containers; and

WHEREAS, Cliff Berry, Inc., a Florida Profit Corporation (Franchisee), represents that it has the necessary equipment, personnel and experience to properly perform the Service; and

WHEREAS, the City Commission deems that it is in the best interest of the citizens of New Smyrna Beach to award Cliff Berry, Inc., a nonexclusive right and franchise to provide the service within the City limits upon the terms and conditions recited below.

NOW, THEREFORE, BE IT ENACTED BY THE CITY COMMISSION OF THE CITY OF NEW SMYRNA BEACH:

SECTION 1: ***Award of Non-Exclusive Franchise.*** The City of New Smyrna Beach hereby awards Cliff Berry, Inc., a nonexclusive right and franchise to provide roll-off service within the City limits upon the terms and conditions recited below. ***This Franchise shall not become effective until this ordinance and franchise agreement is accepted in writing by, Cliff Berry, Inc.***

SECTION 2: ***Definitions.***

A. *Construction and demolition debris* shall have the same definition and meaning as defined in §403.703, Florida Statute.

B. *Service* encompasses the use of "roll-on" and "roll-off" containers (Containers) as used with mechanical pickup or compaction devices, or both of these devices.

C. *Containers* means either open-top/scow-type used only for non-putrescible materials, or enclosed containers such as the kind typically used with compaction devices, of ten (10) cubic yards capacity or larger.

SECTION 3: ***Franchisee's Authority.***

A. Franchisee is hereby empowered and authorized to provide roll-off service. Franchisee will either furnish all necessary trucks and other equipment to perform such services or will contract with other persons or companies duly licensed or franchised by the City for the furnishing of trucks and equipment, provided, however, that at all times the trucks and equipment shall comply with the requirements provided herein for equipment owned and operated by Franchisee.

B. Franchisee may contract to provide the Service (Contract) with any person, organization, firm or entity (Entities) within the City, if such Entities have first requested the Service. Such contracts where containers are placed on public property must be approved by the Maintenance Operations Director or his designee prior to or within one (1) week (7 calendar days) of the placement of the Container for Service. For each Container placed on public property for service without a contract having been submitted to the Maintenance Operations Director by Franchisee, a thirty dollar ($30.00) inspection and administration late fee shall be paid by Franchisee to the City. The Contract shall not exceed the term of the Franchise.

Franchisee agrees to provide the Maintenance Operations Director with the location of its Containers and the name and address of and number of pickups to be made for each of the Entities. Franchisee also recognizes that any contract between Franchisee and the Entities has no effect whatsoever upon the City's decision to grant the Franchise, or any renewal decision made thereafter. If the Maintenance Operations Director disapproves a contract for containers placed on public property and the subject Container remains in service more than forty-eight (48) hours after telephone or written notice by the City to Franchisee to remove the Container, or if any Container should remain in service at any location more than forty-eight (48) hours after telephone or written notice from the City to Franchisee to remove the Container, then, in either or both cases, Franchisee shall pay the City fifty dollars ($50.00) per day until the Container is removed.

C. Franchisee shall provide the equipment and frequency of service as needed by the Entities and as approved by the Maintenance Operations Director.

D. All lease or purchase arrangements for compaction equipment and for maintenance or service charges for the Containers agreed upon between Franchisee and the Entities shall be set forth in the Contract between Franchisee and the Entities and approved by the Maintenance Operations Director pursuant to this section.

SECTION 4: ***Payments.***

A. Franchisee shall pay the City twenty dollars ($20.00) for each Container pickup. The charge shall be paid monthly and shall be based upon the number of Container pickups by Franchisee from the Entities during the preceding month.

B. Franchisee shall furnish the Maintenance Operations Director with an original and one (1) copy of an annual report on or before the forty-fifth (45th) day following Franchisee's fiscal year end. The report date shall be submitted to the Maintenance Operations Director on the date of Franchisee's acceptance of this Franchise, and the report shall be prepared in accordance with generally accepted auditing standards. The report shall reflect the accuracy of Franchisee's payments to the City as defined in this ordinance, and shall ensure and include, but not be limited to, the following:

(1) all City accounts are properly coded to reflect charges accrued to the City;
(2) the number of City-related Container pickups are correctly reported to the City;
(3) all City payments are correctly computed and remitted to the City on a timely basis, or the interest-payment provision of Subsection C, below, shall apply.

During the term of this Franchise and its renewal, Franchisee shall make its records available to the City at all reasonable times. Failure to furnish the City with the report shall be considered a material breach of this Franchise, and the City shall be entitled to terminate this Franchise and to collect any damages resulting therefrom.

C. Franchisee shall have the sole responsibility for the billing and collection of all charges described herein. Billings shall be monthly and payable on or before the fifteenth (15th) day of the succeeding month. In the event bills are not paid within this time, Franchisee shall have the right (provided that Franchisee may otherwise legally do so) to discontinue all Services for nonpayment.

All statements of fees and charges by Franchisee, and the remittance thereof, shall be submitted to the City Finance Director on or before the fifteenth (15th) day following Franchisee's fiscal month end. These statements shall specify the previous month's account activities as specified herein, and shall include account names, account numbers, the number of Container pickups during the month, and all discontinued accounts. Failure to submit any remittance specified or referred to in this section on or before the fifteenth (15th) day of each month as required shall result in a liability for interest at the rate of one percent (1%) per month. Failure to submit any statement shall be considered a breach of this Franchise and shall allow the City to terminate the Franchise as may be further provided in Section 10 below.

SECTION 5: ***Term.***

A. The term of this Franchise shall commence on the date of adoption of this ordinance and end three (3) years upon approval of both parties after adoption of this ordinance. An acceptance of the provisions, conditions and stipulations of this Franchise shall: (1) be in writing; (2) contain Franchisee's local address; and (3) be filed with the City Clerk within fifteen (15) days of the adoption of this Franchise.

B. The term may be extended for an additional one (1) year, upon approval of both parties, by written notice not less than thirty (30) days prior to the expiration of the current term.

SECTION 6: ***Default.*** In the event Franchisee fails to provide adequate Services to the Entities by reason of any (1) unknown emergency, catastrophe, natural disaster, war, labor strike, act of God, or similar event; (2) breach of contract; or (3) negligent failure to adequately perform the duties and obligations of this ordinance (as determined solely by the City), the City may, at its sole option, terminate this Franchise (Option I), or take over the roll-off services (Option II), or both of these options. In the event the City chooses Option II, it shall receive all charge amounts regardless of the amounts normally retained by Franchisee.

SECTION 7: ***Default by Other Franchisees.*** In the event that other Franchisees default or otherwise fail to provide adequate Services (in the sole determination of the City), and the City chooses Option II as provided in Section 6 above, Franchisee agrees, if requested by the City, to provide the Services or temporary Services, or both of these types of Service, if Franchisee may reasonably do so, given: (1) Franchisee's equipment and schedule; and (2) that a reasonable price can be determined by Franchisee, the City and the entity for the Service's undertaking and completion.

SECTION 8: ***Liability.***

A. The privileges herein are granted upon the express condition that Franchisee shall be liable for all damages and injuries to persons and property caused by its neglect or mismanagement, or by the actions of any of its employees while engaged in the Services during the term of this Franchise. Should the City be sued therefrom, Franchisee shall be notified of and have the duty to defend such suit, provided, however, that the City has the sole option (Option III) to defend itself or to hire independent counsel, and thereafter to tax all such defense costs and fees to Franchisee. Franchisee specifically agrees to pay any such judgment rendered against the City in any such case, and to reimburse the City, in full, for all costs and fees on appeal.

B. The attorneys chosen by Franchisee to represent the City in any suit concerning matters included within this section shall be approved by the City unless the City chooses to represent itself as defined above. Franchisee shall indemnify and hold harmless the City, its agents, elected or appointed officials, officers and employees from any and all liability, claims, demands, damages, expenses, fees, penalties, suits, proceedings, actions and costs of actions (including costs and attorney's fees, and costs and attorney's fees on appeal), of any kind or nature, arising out of, resulting from, or in any way connected with Franchisee's activities permitted under this Franchise.

C. Franchisee further agrees to purchase public liability and property damage insurance in the amount of $1,000,000 (per accident, public liability), and $250,000 (property damage), and naming the City as an additional insured under the policy. The policy must provide that the City shall be given thirty (30) days' written notice prior to cancellation or modification, and a copy of the policy (or a certificate of insurance) shall be filed with the City Clerk on or before the effective date of this Franchise and on or before the effective date of each policy renewal period.

SECTION 9: ***Licenses.*** Franchisee shall, at its sole expense, procure from all local, state and federal governmental and agency authorities (having jurisdiction over the operations of Franchisee) all licenses, certificates, permits or other authorizations which may be necessary for the conduct of Franchisee's operations. Franchisee shall pay all taxes, and license, certification, permit and examination fees, and all excises which may be assessed, levied, exacted or imposed upon its property, operations, gross receipts, or all or any combination of these assets, and upon this Franchise and the rights and privileges granted herein, and shall make all applications, reports, and returns required in connection therewith to all respective governmental and agency authorities.

SECTION 10: ***Termination.*** The privileges granted herein to the Franchisee may be terminated by the City prior to the expiration of the term if anyone (1) or more of the following events occur:

A. Franchisee fails: (1) to pay the sums, fees or charges due to the City in a timely manner (Failure I); or (2) Franchisee fails to keep, perform or observe each and every other promise, covenant, and condition designated to it under this ordinance (Failure II). In the event of a Failure II, the Maintenance Operations Director shall notify Franchisee in writing of such failure, and Franchisee shall have thirty (30) days from the receipt of such notice to correct the condition giving rise to such notice. If the correction is not made to the Maintenance Operations Director's satisfaction within the period, the Maintenance Operations Director shall give written notice to Franchisee that the privileges granted herein are terminated as of the date of such notice.

B. If and when Franchisee shall liquidate, dissolve or sell substantially all of its assets.

C. If and when there is a transfer of fifty percent (50%) or more of Franchisee's voting stock which results in a change in Franchisee's control.

D. If and when Franchisee becomes insolvent or makes a general assignment for the benefit of its creditors, or if an action or petition is filed by or against Franchisee under any part of the Federal Bankruptcy Act or other law relating to the alleged insolvency of Franchisee, and such action or petition is not dismissed within thirty (30) days of the date of its filing.

In the event any of the privileges granted herein are terminated pursuant to this Section, any liability of the Franchisee to the City accruing thereby, and any liability of Franchisee to the City arising out of any act or event occurring prior to the termination, shall immediately become due and payable to the City without further notice.

SECTION 11: ***Notices.*** All notices herein required to be given by the City to Franchisee, except where specifically provided otherwise, may be effected either by hand delivery to any Franchisee employee, or by United States mail (postage prepaid), addressed to Franchisee at its last-known business address. All notices required to be given to the City shall be given to both the Maintenance Operations Director and the City Clerk either by hand delivery or by United

States mail (postage prepaid), addressed to the Maintenance Operations Director, City of New Smyrna Beach, 210 Sams Avenue, New Smyrna Beach, Florida 32168, and the City Clerk, City of New Smyrna Beach, 210 Sams Avenue, New Smyrna Beach, Florida 32168.

SECTION 12: ***Remedies, Attorney's Fees and Costs.*** All remedies provided in this Franchise shall be deemed cumulative and additional and not in lieu of or exclusive of each other, or of any other remedy available to the City, at law or in equity. In the event the City shall prevail in any action arising hereunder, Franchisee shall pay the City's costs, and any and all attorney's fees thereafter charged to the City.

SECTION 13: ***Equipment.***

A. Franchisee agrees that it shall procure and maintain sufficient equipment, or that it shall arrange on a contractual basis with other persons owning or leasing equipment in compliance with the requirements of this Franchise, to insure that Franchisee shall at all times be in a position to properly maintain its schedules and to otherwise perform all duties, responsibilities and conditions required under this ordinance.

B. All trucks utilized by Franchisee and all Containers owned or leased by Franchisee shall be prominently identified on both the left and right sides with Franchisee's name in letters not less than six inches (6") in height, and Franchisee's business telephone number in numbers not less than three inches (3") in height, either painted on or attached by signs to such trucks and Containers.

C. All of Franchisee's trucks, containers and equipment shall conform to all City safety and sanitation requirements for refuse-collection vehicles, and the equipment must be approved by the Maintenance Operations Director. Franchisee specifically agrees that the Maintenance Operations Director shall have the right to inspect the trucks or the equipment, or both of these items, at all reasonable times and after having endeavored to give reasonable written or oral notice that such an inspection shall take place.

SECTION 14: ***Nonassignability.*** This Franchise shall not be assignable by Franchisee without the prior written consent of the City Commission as evidenced by an ordinance authorizing and approving such an assignment.

SECTION 15: ***Effective Area.*** This Franchise shall be effective within the City's corporate limits as they may from time to time exist.

SECTION 16: ***Hours of Operation***. The hours of operation for the Franchise shall be weekdays and Saturdays from 7:00 a.m. to 7:00 p.m. The Franchise shall not provide Service on Sundays.

SECTION 17: ***Headings.*** The paragraph headings of this Franchise are for purposes of convenience only and shall not be deemed to expand or limit the provisions contained in such paragraphs or sections.

SECTION 18: ***Warranty of Franchisee.*** Franchisee represents and warrants to the City that no appointed or elected City official, officer, employee or agent has any interest, either directly or indirectly, in the business of Franchisee to be conducted herein.

SECTION 19: ***Noncompliance.*** If Franchisee shall at any time fail to comply with any of the provisions of this Franchise (unless such failure is beyond Franchisee's control because of matters deemed to be an act of God), the City, after thirty (30) days' written notice to Franchisee, may revoke this Franchise and render it void and of no further effect.

SECTION 20: ***Amendment.*** The City reserves the right to amend this Franchise at any time, and in any manner that the City deems necessary for the health, safety or welfare of the public. The City also reserves the right to prescribe, from time to time, reasonable rules and regulations further governing Franchisee's operations herein, including, but not limited to, hours and frequency of Container pickup. These rules may be issued through the Maintenance Operations Director, the City Manager or his/her designee, and they need not be memorialized in an ordinance revision or other formal action by the City Commission, the City Commission's approval of this ordinance being an approval that the regulations should be so issued.

SECTION 21: ***Public Hearing.*** That a public hearing considering the adoption of this ordinance held April 8, 2025, in the Commission Chambers, 214 Sams Avenue, New Smyrna Beach, Florida, after notice published, is found to comply with §166.041(3)(a), Fla. Stat.

SECTION 22: ***Administrative Correction of Scrivener's Errors.*** The administrative correction of typographical and/or scrivener's errors in this Ordinance which do not affect the intent may be authorized by the City Manager or designee, without need of public hearing, by filing a corrected or recodified copy of same with the City Clerk.

SECTION 23: ***Severability.*** If any section, sentence, clause or phrase of this ordinance is held to be invalid or unconstitutional by any court of competent jurisdiction, then said holding shall in no way affect the validity of the remaining portion of this ordinance.

SECTION 24: ***Conflicting Ordinances.*** Any ordinances that are in conflict with this ordinance are hereby rescinded and repealed.

SECTION 25: ***Effective Date.*** That this ordinance shall take effect immediately upon its final adoption.

THE CITY OF NEW SMYRNA BEACH - PLANNING DEPARTMENT

ORDINANCE NO. 15-25: CONDUCT THE FIRST READING OF AN ORDINANCE, WHICH IF ADOPTED AT THE SECOND READING AND PUBLIC HEARING, WOULD REPEAL AND REPLACE SECTION 604.04 LANDSCAPING REQUIREMENTS AND 604.051 TREE PRESERVATION OF THE LAND DEVELOPMENT REGULATION.

April 8, 2025

Background:

The Planning Department retained Vanasse Hangen Brustlin (VHB) to update Section 604.04, Landscaping Requirements and 604.051, Tree Preservation of the Land Development Code (LDR). At the July 1, 2024, City Commission Workshop, the Commission reviewed and discussed updating Section 604.04 and 604.051 of the LDR and directed staff to move forward with the proposed updates.

At its regularly scheduled meeting on March 3, 2025, the Planning and Zoning Board voted, 5-0, to give a positive recommendation to City Commission to approve the requested Land Development Regulation amendment.

Exhibit A: NSB Landscape Code Recommended Language Underlined
Exhibit B: NSB Landscape Code Recommended Language Clean
Exhibit C: Landscape Code Crosswalk Narrative

Findings:

The intent of these changes is to enhance the city's landscaping standards, promote tree protection, and ensure sustainable development practices.

Highlights of the new Section 604.04 Landscaping Requirements and 604.051 Tree Preservation includes:

- Establish minimum standards for landscaping and buffers with a focus on tree protection, enhancing the aesthetic and environmental quality of the city.
- Outline specific requirements for landscape plans across different types of

developments, ensuring consistency and adherence to city standards.
- Mandate the use of Florida-friendly landscaping practices to promote water conservation, reduce maintenance costs, and support native ecosystems.
- Update requirements for landscape buffer areas based on current zoning districts to enhance compatibility between different land uses.
- Enhance tree preservation standards to protect existing trees during development.
- Introduce incentives for developers to retain mature trees and incorporate them into site designs.
- Define clear procedures for tree removal permits and replacement requirements.

The proposed changes to Sections 604.04 and 604.05 aim to create a more sustainable and aesthetically pleasing urban environment. By adopting these standards, the city will promote responsible development practices that prioritize environmental stewardship and community well-being.

Recommendation:

Staff recommends the City Commission conduct the First Reading of Ordinance No. 15-25 and advance it for adoption at Second Reading.

604.04 Landscaping

A. Intent:

The intent of this section is to provide minimum standards for landscaping, buffers, and tree protection for the City. The provision and enforcement of these standards enhance the health, safety, and welfare of the citizens of New Smyrna Beach and are designed to meet the following goals:

1. Improving the appearance of the City;
2. Maintaining and protecting property values;
3. Providing an acceptable degree of buffering between abutting property uses;
4. Providing appropriate barriers and relief from traffic, noise, heat, glare, and the spread of dust and debris;
5. Providing for the protection and preservation of trees and native vegetation;
6. Ensuring the local stock of native trees and vegetation is preserved;
7. Encouraging Florida-Friendly landscaping principles into landscape design; and
8. Protecting local waterways through the development of environmentally sustainable landscaping practices.

B. Applicability:

1. The types of development listed below, unless exempted, shall comply with the requirements of this code:
    a. All new construction;
    b. Any change of use which results in an increase in the required off-street parking, as determined by the standards in the City's Land Development Regulations (LDR);
    c. All non-residential redevelopment which results in an increased building footprint, reconfiguration or expansion of parking areas (including increasing or decreasing parking spaces), or development of outparcels within an existing shopping center;
    d. Clearing of any site, including root-rake clearing, shall be subject to the requirements for tree protection, submittal of a tree survey or a tree inventory prepared by a certified arborist or surveyor, and obtaining a tree removal permit;

e. An application for a building permit for a single-family or two-family dwelling proposed on an existing parcel shall include a tree survey or a tree inventory that illustrates the species and diameter at breast height of all trees on site; and

f. The removal of Category I invasive trees as identified on the Florida Invasive Species Council Invasive Plant list, as amended, shall require administrative waiver by the Development Services Director or his/her designee.

2. The following situations are exempt from the requirements of this landscaping code:

a. Development that occurs within the Corridor Overlay Zone (COZ) zoning district;

b. Any interior construction, renovation, or remodeling which does not increase the footprint of the building;

c. Licensed plant or tree nurseries or botanical gardens with respect to those plants and trees grown for sale to the general public in the ordinary course of the licensed business or for public purposes; and

d. The removal of underbrush and trees less than four (4) inches measured at DBH.

C. General Requirements:

1. Landscape Plan:

a. *Single Lot: One and Two Family*

(1) The name, address, and telephone number of the applicant, as well as a licensed landscape architect or landscape designer (if applicable);

(2) Tree survey illustrating the species, size, and location of all existing trees on site to be removed or preserved; and,

(3) Landscape plan illustrating;

i. Type, size, and location of all plant materials, in accordance with this code;

ii. Landscape area protection structures (i.e. curbs, planters, or other similar structures);

iii. Plans and specifications for any proposed irrigation system; and

iv. Required landscape buffer areas per this LDR.

b. *Subdivision, Multi-Family (3 or more units), or Commercial and Industrial*

(1) The name, address, and telephone number of the applicant, as well as a licensed landscape architect (if applicable);

(2) Tree survey illustrating the species, size, and location of all existing trees on site to be removed or preserved; and,

(3) Landscape plan signed and sealed by a licensed landscape architect illustrating:

i. Type, size, and location of all plant materials, in accordance with this code;

ii. Landscape area protection structures (i.e. curbs, planters, or other similar structures);

iii. Plans and specifications for an irrigation system; and

iv. Required landscape buffer areas, in accordance with the City's LDR.

(4) The final landscape plan shall be reviewed by the Development Services Director or his/her designee and no building permit shall be issued by the Building Department until the plan is approved and the following steps have been taken:

i. A land clearing permit has been issued by the City Engineer; and,

ii. Existing trees and vegetation to remain on the property have been flagged by the developer, or his/her designee, and verified by the Development Services Director or his/her designee.

(5) A Certificate of Occupancy cannot be issued until the Development Services Director or his/her designee has verified to the Building Official, in writing, that all landscape and irrigation improvements have been completed in accordance with the approved landscape plan.

c. *Existing Residential, Commercial, or Industrial Property*

The entire replacement of existing landscaping for existing residential, commercial, or industrial property with an existing primary structure, shall at that time be treated as new construction and meet all current landscaping regulations under Article VI. The plan shall indicate the following:

(1) The name, address, and telephone number of the applicant, as well as the registered landscape architect or landscape designer;

(2) Type, size, and location of all plant materials, in accordance with the City's Land Development Regulations (LDR);

(3) Landscape area protection structures (i.e. curbs, planters, or other similar structures);

(4) Plans and specifications for an irrigation system; and

(5) Required landscape buffer areas, in accordance with the City's LDR.

2. Landscape Materials Standards:

a. One hundred percent (100%) of all required landscaping shall be Florida-Friendly Landscaping™ (FFL). The Florida Friendly Landscaping program is a partnership between the University of Florida, Institute of Food and Agricultural Sciences Extension (UF/IFAS Extension) and the Florida Department of Environmental Protection. Detailed information for FFL standards can be found on the IFAS program website or by contacting the Volusia County's local IFAS Extension office at 3100 East New York Avenue, DeLand.

b. All plant materials shall be healthy, well proportioned, disease-free, and pest-free. Additionally, all plant materials shall be Florida No. 1 grade, or better, according to the current "Grades and Standards for Nursery Plants," State of Florida Department of Agriculture, Tallahassee, except where in the discretion of the Development Services Director or his/her designee, natural vegetation is adequate to provide the necessary visual screening.

c. Trees:

(1) Canopy trees shall be a minimum of twelve (12) feet in height and have a minimum caliper of three (3) inches when measured six (6) inches above ground level.

(2) Understory Trees shall be a minimum of eight (8) feet in height and have a minimum caliper of two (2) inches when measured at six (6) inches above ground level.

(3) Trees planted within twelve (12) feet of publicly maintained streets or other improvements shall be selected from Florida-Friendly Landscaping™ or shall be a tree species approved by the Development Services Director or his/her designee.

(4) Driveways and parking areas may be placed under the branches of trees so long as the impervious surface does not exceed fifty percent (50%) of the total area under the drip line of the tree. Impervious areas may be no closer than two (2) feet for palm trees and four (4) feet for all other species of trees.

d. Shrubs shall be a minimum of two (2) feet in height, immediately after planting. Plants for the purpose of creating hedges shall be spaced no more than three (3) feet apart measured from center to center, maintaining a minimum of thirty inches (30") in height after the first year of planting.

e. Ground covers may include any plant materials that reach an average height of not more than twelve (12) inches. They may be used in lieu of grass. Ground covers must present a finished appearance and provide reasonably complete coverage at time of planting.

f. Grassed areas shall be planted with any of the following species of grass common to central Florida: St. Augustine (Stenotaphrum secundatum), Bermuda (Cynodon Dactylon), Zoysia (Zoysia Japonica) and Bahia (Paspalum notatum). Such areas shall be sodded, plugged, or sprigged. Sod is required in swales or other areas subject to erosion.

g. Stone, gravel, pine straw, bark, or a mulch approved by the Development Services Director or his/her designee shall be used in combination with other plants. Cypress bark is not an approved material.

h. Synthetic plants or artificial material in the form of trees, shrubs, ground covers or vines shall not be used in lieu of plant requirements in this section.

3. Maintenance Requirements:

a. All plantings must be maintained in an attractive and healthy condition. Maintenance must include, but not be limited to, watering, tilling, mowing, weeding, removal of litter and dead plant material, and necessary pruning and trimming.

b. All trees may be pruned to maintain shape and promote their shade-giving qualities and to remove diseased or dying portions in areas where falling limbs could be a hazard. Trees shall be pruned only as necessary to promote healthy growth or to avoid power lines. Pruning shall comply with current International Society of Arboriculture (ISA) standards. No more than 20% of the crown shall be removed within a one (1)-year period.

c. It is the responsibility of the property owner, renter, lessee, or agent, adjacent to the right-of-way to maintain all areas within the right-of-way which do not contain the road, curb, median, or sidewalk, to maintain the sod or other materials approved by the city engineer.

d. All landscaped areas and irrigation systems must be maintained in perpetuity by the property owner, tenant, or agent according to these regulations at a minimum. Any property owner who does not maintain the landscaped areas in a healthy, neat, and orderly fashion, free from refuse and debris, is subject to action from the Code Compliance department.

4. Sodding:

a. All landscaped common spaces, whether used for water retention or not, shall be sodded.

b. It is the responsibility of the property owner, renter, lessee, or agent, adjacent to the right-of-way to sod all areas within the right-of-way which do not contain the road, curb, or sidewalk prior to the city issuing a certificate of occupancy for a home or other building.

5. Non-Vegetative Materials.

a. Stone, gravel, artificial turf and rock beds may be used as an accent but shall not be considered permanent landscaping.

b. Stone, gravel, artificial turf and rock beds may be used as an accent but shall not require a permit unless they exceed five hundred (500) square feet.

c. Stone, gravel, artificial turf and rock beds that exceed five hundred (500) square feet are permitted subject to obtaining a permit from the Building Department and compliance with the following provisions:

(1) The installation of artificial turf is permitted in all zoning districts and limited to play areas of public/private parks and institutions.

(2) All artificial turf shall, at a minimum, be installed according to the manufacturer's specifications and shall be subject to City stormwater requirements.

(3) Installation of artificial turf within public and private rights-of-way is prohibited.

(4) Artificial turf shall not be visible from rights-of-way on residentially zoned properties.

(5) Artificial turf may not be installed within fifty (50) feet of any artificial or natural water body with the exception of swimming pools.

(6) Artificial turf is prohibited within drainage features (e.g. retention ponds, swales, and etc.).

(7) Artificial turf must be installed outside of the drip line of any tree.

(8) Artificial turf shall be considered one hundred percent (100%) impervious surface unless an acceptable maximum impervious area is submitted to and approved by the City Engineer. The quantity of artificial turf to be incorporated into the landscaping of a property shall be limited by the maximum impervious area for the subject property within the applicable zoning district and location requirements above.

(9) Artificial turf shall consist of materials that appear natural in appearance and color. The use of indoor/outdoor plastic or nylon carpeting as an installation of artificial turf is prohibited.

6. Utilities:

a. Required plantings shall avoid utility easements unless approved by the New Smyrna Beach Utilities.

b. Where the height and location of overhead powerlines requires the planting of small or low growing trees, planting under or adjacent to powerlines shall be approved by New Smyrna Beach Utilities.

c. Required canopy tree plantings in buffer areas that fall within utility easements may be reduced to understory trees at a rate of two (2) understory trees per required canopy tree.

d. Plant materials shall be selected to minimize potential root system damage or interference with public utilities.

7. Minimum Landscape Standards:

a. Irrigation:

(1) Excepting single family lots, all landscaped areas shall be irrigated with a workable underground irrigation system. Areas left in their natural state do not need to be irrigated.

(2) All multi-family developments containing more than ten (10) units shall use a non-potable water irrigation system for watering landscaped areas if available.

b. Residential:

(1) Each residential lot shall contain a minimum of one (1) tree for every 2,000 square feet of lot area or portion thereof (rounded to the nearest whole number. If a lot contains an insufficient number of existing trees to meet this requirement, replacement trees shall be provided. A minimum of 50% of the trees provided must be a canopy tree, as defined by Florida-Friendly Landscaping™. In addition, a minimum of ten (10) shrubs preserved or planted on the property.

(2) Trees located within setbacks may only be removed upon obtaining necessary removal permits in accordance with all other sections of this code. Prior to the issue of an approved building permit the following trees shall be preserved if located within required setbacks.

i. All historic trees.

ii. All specimen trees

iii. All other non-invasive trees meeting the landscape material standards as described in this code

c. New subdivisions:

(1) Subdivisions that create new streets shall provide a landscaped entrance buffer having minimum dimensions of twenty (20) feet in width, fifty (50) feet in depth, and 1,000 square feet in area on both sides of the main vehicular entranceway to the subdivision.

(2) Platted lots shall have a minimum of one (1) tree for every,2,000 square feet of lot area or portion (rounded to the nearest whole number) and a minimum of ten (10) shrubs preserved or planted on the property. Fifty percent (50%) of the trees provided must be canopy trees. No less than eight (8) of the shrubs shall be located in front of the home. No Certificate of Occupancy shall be issued until this requirement has been met.

(3) All recreation areas within a subdivision shall be landscaped except those with natural vegetation or conservation areas. Recreation areas having trails for walking, jogging or biking in a corridor or lineal type fashion, and having a length of at least 250 feet and a width of at least fifteen (15) feet may be left natural, stabilized, or paved.

(4) Fifteen percent (15%) of the gross area of any new subdivision shall be designated for the protection of trees. The area required to protect specimen trees as defined in this LDR's Definitions section may be included to satisfy this requirement.

d. Multi-family and Non-residential:

(1) A minimum of fifteen percent (15%) of the total gross land area of any development site shall be designated for the protection of trees. This area shall be inclusive of required landscaping, buffer areas, and preserved natural areas. This requirement may be reduced to ten percent (10%) at the discretion of the Development Services Director or his/her designee, if a site is demonstrated to have site constraints limiting access or functionality or due to existing third-party easement.

e. Parking Areas:

(1) All off-street parking lots with eight (8) or more required parking spaces and vehicular use areas (access driveways, service drives, and loading areas) are required to include landscaping.

(2) All landscaped areas, whether on private property or public right-of-way, shall be curbed to protect the landscaping from traffic. If the elevation of a grassed landscaped area is the same as the surrounding impervious area, then curbing shall be gapped to allow flow of water into and through the grassed landscaped area.

(3) Required off-street parking areas with parking spaces for eight (8) vehicles or more shall have interior landscaped areas covering ten (10%) percent of the total off-street parking area.

(4) Shopping centers in the B-5, Planned Shopping Center District, shall have interior landscaped areas covering 20 percent of the total off-street parking area.

(5) Interior landscaped areas are exclusive of any required landscaped buffer areas. No more than 25 percent of the required interior landscaped area shall be placed in any one location except as necessary for minimum area requirements.

(6) Interior landscaped area, excepting landscaped islands, shall include a minimum of one tree per 100 square feet or fraction thereof. Interior landscaped areas shall have a minimum area of 75 square feet with no dimensions less than six feet.

(7) Each landscaped area shall include at least one tree. The remaining area shall be landscaped with shrubs (less than four feet high), grass, or a ground cover, and all plants shall be mulched.

(8) A minimum of one (1) landscaped island shall be provided for every ten (10) parking spaces, as follows:

i. Each island shall contain a minimum of one canopy tree as defined by the Florida-Friendly Landscaping™. For the purpose of accent or landscape design, other trees may be used if approved by the Development Services Director or his/her designee.

ii. Islands shall divide parking spaces in order to relieve large expanses of paved areas.

iii. The size of the island shall be a minimum width of nine (9) feet, as measured from the interior side of the curb, and a minimum area of one hundred sixty (160) square feet. A reduction in width may be allowed on a case-by-case basis, down to six (6) feet wide, and one hundred (100) square feet of area upon approval of the Development Services Director or his/her designee.

iv. Parking lot islands are required at all terminal ends of parking space rows, regardless of whether they have more than ten (10) parking spaces in that row.

v. A waiver of the required ten (10) parking spaces without an island can be authorized by the Development Services Director or his/her designee, if in support of existing tree preservation. In no case shall there be more than fifteen (15) parking spaces without an island. Should a waiver be approved, landscaped islands shall be provided at a minimum width of ten (10') feet wide, as measured form the interior side of curb, and have a minimum area of one hundred eighty (180) square feet.

(9) Tree preservation in parking areas. Preservation and planting of trees in parking lots shall be approved by the Development Services Director or his/her designee in accordance with this LDR. The preservation of trees in parking areas having a diameter of four (4) inches DBH or larger qualify for a reduction in required parking spaces at the discretion of the Development Services Director or his/her designee, when the reduction in parking spaces will preserve approved species of trees. A reduction of up to fifteen percent (15%) of the required parking spaces may be approved, the total reduction in parking spaces shall not exceed fifty (50) spaces. The reduction in parking spaces shall be subject to the following:

i. The number of parking spaces and the percentage of parking reduction requested shall be provided on each site plan application.

ii. The required number of parking spaces shall be designated on an approved site plan.

D. Additional Requirements for Specific Uses:

The following uses require additional considerations beyond the minimum requirements listed above:

1. Adult congregate living facilities: In addition to the LDR Section 504.00 requirements, twenty five percent (25%) of the yard shall be covered with grass or other vegetation. Vegetation or plants other than grass shall be approved by the Development Services Director or his/her designee.

2. Airport Industrial Park: All unpaved lot areas shall be tastefully landscaped with an effective combination of trees, shrubbery, and ground cover. Decorative plazas, pools, flower beds, rock gardens, and other decorative treatments, may be incorporated. Landscaping is to be accomplished using quality materials and workmanship.

3. Child day care on church property: Play areas shall be fenced and landscaped. The landscaping shall include a vegetative hedge planted at least four (4) feet in height, three (3) feet on center, and be six (6) feet in height within two years.

4. Construction and demolition debris disposal facility, materials recovery facility, recovered materials facility or off-site disposal of land clearing debris facility: Perimeter landscape buffers shall be established prior to initiation of the activity and shall be a minimum of fifty (50) feet adjacent to all boundaries.

E. Landscape Buffers:

Where a landscaped buffer area is required, the following regulations shall apply:

1. In General:

a. Buffer areas shall consist of a combination of trees, shrubs, and groundcover. The number of required minimum plantings for trees and shrubs shall conform to Buffer Table 2. A minimum of 20% of the buffer area shall be planted with groundcover.

b. The property owner shall be responsible for the creation and maintenance of all required buffer areas.

c. Some uses may require screening from adjacent properties in the form of opaque fencing, masonry walls, or vegetative hedges.

d. If plant materials are used for screening they shall be at least three (3) feet tall at time of planting.

e. If a decorative wall or fence is used for screening, it shall be six (6) feet high with shrubs planted abutting the side of the wall or fence facing the adjoining property or street. Shrubs shall be planted at intervals of no more than six (6) feet.

f. Any proposed landscape buffer plantings within a utility easement shall be approved by New Smyrna Beach Utilities.

g. A fence or wall included in a buffer screen shall be constructed with the side of the fence or wall with the finished appearance facing the use of lesser intensity or right-of-way.

h. Access through buffer areas to facilitate pedestrian or vehicular traffic between adjacent properties shall not reduce the requirement for plantings based upon linear feet.

i. Access for pedestrian paths or bike trails through a buffer shall be a maximum of one (1) foot wider than the path or trail and located not less than 100 feet apart.

j. A buffer may incorporate stormwater low impact development (LID) best management practices (BMPs) as long as the required plantings are also provided, the landscaping does not interfere with proper functioning of the stormwater system, and the design water depth does not harm the viability of such plantings.

k. Street lighting may be incorporated into the buffer area.

l. Vertical construction, parking, storage, active recreation and loading areas shall not be permitted to encroach a designated buffer area, except for approved pedestrian and bike path access as described above.

2. A buffer shall be required between zoning districts according to the standards set forth in Buffer Table 1. The existence of public or private right-of-way along a property boundary shall not be construed as meeting any part of the buffer requirement, nor as relieving the applicant from providing the required buffer.

Buffer Table 1.

Intensity of Use	1	2	3	4	5
1: A-1C, A-2, A-3, A-4, FR, C, RA, R	No Buffer	Low	Low	Medium+	High
2: RE, R-1, R-2, R-2A, R-3, R-3A, , R-1CO, R-3CO	Low	No buffer	Low	Medium	High
3: R-3B, R-4, R-5, R-6z, MH-1, MH-1CO, MH-2, MH-4	Low	Low	Low	Medium	Medium +
4: MU*, B-2, B-3**, B-4, B-5, B-6, B-6A, CM, I-1	Medium+	Medium	Medium	Low	Medium +
5: I-2, I-3, I-4	High	High	High	Medium+	Medium

*MU zoning district is exempt from buffers except for a five (5) foot buffer around parking areas or when adjacent to residentially zoned properties.

**B-3 zoned parcels may provide a minimum buffer width of five (5') feet abutting other B-3 zoned parcels. B-3 zoned parcels may provide a minimum buffer width of five (5') feet abutting residentially zoned properties when a six (6') foot tall block wall is provided. These buffered areas shall require two (2) canopy trees and thirty-three (33) shrubs planted per 100 linear feet and 20% of the buffer area planted with groundcover.

3. Where a buffer is required it shall conform to the standards set forth in Buffer Table 2.

Buffer Table 2.

Buffer Type	Buffer Width	Required minimum plantings per 100 linear feet
Low	10 Feet	Two (2) Canopy Trees, 66 Shrubs
Medium	15 Feet	Two (2) Canopy Trees, four (4) Understory Trees, 100 Shrubs
Medium +	15 Feet	Two (2) Canopy Trees, four (4) Understory Trees, 100 Shrubs Unbroken hedge, fence, or wall.
High	20 Feet	Three (3) Canopy Trees, Four (4) Understory Trees, 133 Shrubs Unbroken hedge, fence, or wall.

604.051 Tree Preservation:

A. In General:

1. It is unlawful for any person to cut down, move, remove or destroy any tree without first obtaining a tree removal permit, as required by the standards of this landscaping code, from the City's Development Services Department. No permit to cut down, move, remove or destroy any tree shall be issued for any property unless the property owner has an active building permit, or land clearing permit, or water management permit.

2. Fees to cut down, move, remove or destroy any tree shall be as established by resolution of the City Commission.

3. Removal of mangrove trees shall require a permit from the Florida Department of Environmental Protection.

4. This section shall apply to trees that are four (4) inches or greater in diameter at DBH.

5. Trees with a multi-stem trunk system with a well-developed crown at least fifteen (15) feet high as measured from its base shall be subject to the provisions of this section.

6. The removal of Category I invasive trees as identified on the Florida Invasive Species Council Invasive Plant list, as amended, shall require administrative waiver by the Development Services Director or his/her designee.

7. The tree regulations for the city shall be generally in three groups: residential, commercial and industrial, and agriculture zoning classifications. The specific zoning classifications that are covered within each of these groups are set forth in each individual group.

B. Residential Areas:

1. *Residential zoning classifications.* The following tree removal and replacement requirements shall apply in all land zoned for residential uses. This provision shall apply in the RE, R-1, R-2, R-2A, R-3, R-3A, R-3B, R-4, R-5, R-6, R1-CO, R3-CO, MH-1, MH-2, MH1-CO, MH2-CO, zoning districts.

2. *Minimum tree coverage standard.* All properties zoned for residential uses shall have no less than one (1) tree for every 2,000 square feet of property or portion thereof (rounded to the nearest whole number). Example: 8,900 sf: 4 trees, 9,100: 5 trees.

   If any lot contains an insufficient number of existing trees to meet this requirement replacement trees shall be provided by the owner.

3. Time to come into compliance with minimum tree coverage standard.

   a. New construction:

      (1) New construction on vacant property zoned for residential uses shall comply with the minimum tree coverage standards prior to issuance of a certificate of occupancy.

(2) All residential lots shall be fully landscaped no longer than 60 days after a certificate of occupancy has been issued for the dwelling unit.

b. Existing nonconforming properties shall comply with the minimum tree coverage standard when all of the existing structures on the property are replaced with new structures. An Alternative to this requirement is described in Section (7), below.

4. *Fifteen percent of development set aside for trees.* Fifteen percent (15%) of the area of any subdivision shall be designated for the protection of trees. The area required to protect specimen trees may be included to satisfy this requirement. This required area may be constituted as one or more sub-areas within the development. Said area may include any landscape buffer or other landscape areas required by the LDR for a development. Such designated areas shall contain sufficient land area to comply with minimum tree protection standards to adequately protect the trees contained within the areas. A minimum of fifty percent (50%) of the required minimum number of trees as provided in section (5) below shall consist of existing trees within said area. This requirement does not apply to single-family lots in approved subdivisions or additions, remodeling or similar modification of existing multi-family or non-residential development.

5. *Specimen tree protection.* The following table sets forth the minimum requirements for the protection of specimen trees:

No. of Specimen Trees	**Minimum Specimen Tree Protection Requirement**
Less than 3 per acre	80% of all specimen trees
3.0 to 5.0 per acre	65% of all specimen trees
5.1 to 8.0 per acre	50% of all specimen trees
8.0 or more per acre	30% or 6, whichever is greater, specimen trees per acre

6. *Legal mechanism to protect specimen trees.* The developer of a subdivision shall provide legal mechanisms which ensure the protection of specimen trees after construction has occurred. Such mechanisms may include but shall not be limited to conservation easements, common open space, tree protection easements, deed restrictions and homeowner's association documents. Specimen tree protection on residential lots shall only apply in the designated setback areas. Said legal mechanisms shall be reviewed and approved by the City Attorney.

7. As an alternative to meeting the minimum number of required trees on-site, owners of nonconforming properties shall be allowed to pay into the city's tree mitigation fund. The cost of replacement is outlined in in the Tree Removal and Replacement subsection, below. Properties having made an application for building or development permits prior to the adoption of this section and active at the time of adoption of this section shall comply with

the tree regulations in force at the time the building or development permit application was made.

C. Commercial and Industrial Areas:

1. *Commercial and industrial zoning classifications*. The following tree removal and replacement requirements shall be required in all land zoned for commercial and industrial uses. This provision shall apply in the MU, B-2, B-3, B-4, B-5, B-6, B-6A, CM, I-1, I-2, I-3, I-4, BBH, COZ, PUD, HBOD, C, R and PUD zoning districts.

2. *Minimum tree coverage standard.* All properties zoned for commercial and industrial uses shall have no less than one (1) tree for every 2,000 square feet of property or as required by an approved site plan. A minimum of fifteen percent (15%) of the total gross land area of any development site shall be designated for the protection of trees. This area shall be inclusive of required landscaping, buffer areas, and preserved natural areas. This requirement may be reduced to ten percent (10%) at the discretion of the Development Services Director or his/her designee, if a site is demonstrated to have site constraints limiting access or functionality or due to existing third-party easement.

3. *Time to come into compliance with minimum tree coverage standard*. New construction shall comply with the minimum tree coverage standards prior to issuance of a certificate of occupancy. All nonconforming properties shall comply with the minimum tree coverage standard when all of the existing structures on the property are replaced with new structures. Properties having made an application for building or development permits prior to the adoption of this section and active at the time of the adoption of this section shall comply with the tree regulations in force at the time the building or development permit application was made.

D. *Tree Protection During Construction*

1. *Marking trees.* Prior to the commencement of construction, any tree or tree groups to be maintained shall be clearly marked and the markings shall remain in place during construction. Any land clearing equipment shall be operated in a manner as not to injure or destroy any trees designated to remain on the site.

2. *Temporary barriers.* During the period of construction, a temporary barrier at least three (3) feet in height shall be formed a minimum of seven (7) feet from the base of the tree or trees and it shall include at least fifty percent (50%) of the area under the drip line of the tree(s).

3. *Natural soil level.* Except for palm trees, all trees and replacement stock shall have their natural soil level maintained. Tree wells and/or planter islands shall be provided if necessary to maintain the natural existing soil level.

E. Tree Removal and Replacement:

1. *Residential, Commercial, and Industrial Zoned Property.* All tree removal on land zoned for residential, commercial, and industrial zoned uses shall be in compliance with this provision.

   a. Trees not requiring permits or mitigation.

      The trees listed on the Florida Invasive Species Council list of Category I trees may be removed with an administrative waiver issued by the Development Services Director or his/her designee and replacement trees shall not be required to replace trees that have been removed, provided that the removal of the tree or trees does not result in the number of the trees on the property falling below the minimum tree coverage standards. If the removal of a tree or trees results in the number of the trees on the property falling below the minimum tree coverage standard replacement trees are required.

   b. Trees requiring permits for removal and do not require mitigation.

      All dead, dying and diseased trees, per an arborist report, may be removed with a permit from the city and replacement trees shall not be required to replace trees that have been removed, provided that the removal of the tree or trees does not result in the number of the trees on the property falling below the minimum tree coverage standard of no less than one (1) tree for every 2,000 square feet of property. If the removal of a tree or trees results in the number of the trees on the property falling below less than one (1) tree for every 2,000 square feet of property replacement trees are required.

   c. Trees requiring permits for removal and may require mitigation.

      The trees listed below may be removed with a permit from the city and replacement trees shall be required to replace trees that have been removed.

      (1) All specimen trees.

      (2) All historic trees (permit must be issued by City Commission.)

      (3) All other trees not described in (1) or (2) above.

2. *Agriculture Zoning Classifications.* This provision shall apply in the A-1, A-2 and FR zoning districts, and property on which trees were planted and grown for sale to the general public or some public purposes, and licensed plant or tree nurseries, and botanical gardens. Trees located on agricultural cultivation or grazing land, or on commercial plant nursery sites are exempt from the provisions of this section, with the following conditions:

   a. Any property owner who removes or destroys trees from agricultural cultivation or grazing land, or commercial plant nursery sites within three (3) years of filing an

application for rezoning to a non-agricultural classification, applying for subdivision approval, or filing for special exception approval shall be presumed to have performed such removal or destruction of trees with the intent of developing the land for a non-agricultural use and shall not be exempt from the provisions of this section. Said presumption shall be a legally rebuttable presumption.

b. The applicant shall submit with its application for an exemption to the tree replacement requirement copies of any and all contracts, agreements, deeds and all usual and customary business records that would be reasonably necessary for the city to review to determine whether or not the applicant is entitled to an exemption. The applicant shall not fraudulently withhold any document. See generally, section 50 of the Volusia County Code of Ordinances.

c. The property owner shall have rebutted the presumption that the removal or destruction of trees on his property was with the intent of developing the land for a non-agricultural use by filing a sworn and notarized affidavit with the city attesting that any trees that were removed in the past three years from the subject property were removed in conformity with recognized agricultural management or production practices and not merely for the purpose of avoiding the requirements of this section.

The affidavit filed by the property owner may be challenged by the city within thirty (30) days of filing the affidavit.

In the event that the city elects to challenge the property owner's affidavit, the exemption may be denied by the city upon showing by substantial competent evidence that the trees were not removed in conformance with recognized agricultural management or production practices. The city shall have the burden of proof to refute the affidavit filed by the property owner.

d. Any decision to deny an exemption under this provision shall be in writing, state the factors considered in denying the exemption, state the reasons for denying the exemption, and be signed by the Development Services Director or his/her designee.

(1) The city shall consider, among any and all other relevant factors, the following when reviewing any request for an exemption under this provision:

(2) The specific reasons stated by the property owner for removal of the trees.

(3) The length of time the land has been in agricultural production.

(4) Whether the agricultural use has been continuous.

(5) The size of the area as it relates to efficient agricultural production.

(6) Whether the land has been sufficiently and adequately cared for within accepted commercial practices of the dominant type of production.

(7) Whether the land is under lease and if so, the type and terms of said lease.

(8) Whether the tree removal was done in the ordinary course of business.

(9) Any contract for sale in existence at the time the affidavit is submitted.

(10) Other factors that are relevant to the determination of good faith land use.

(11) See generally, section 50 of the Volusia County Code of Ordinances.

3. Replacement Trees.

a. Approved trees. Only trees listed on the Florida-Friendly Landscaping™ shall be planted to meet the minimum tree requirements of this section and be used as replacement trees:

b. Historic and specimen trees shall be replaced with trees of like species unless like species are not reasonably available.

c. Trees listed as Category I invasive species by the Florida Exotic Pest Plant Council are prohibited.

d. Replacement of trees shall be calculated based on the replacement of 40% of the total DBH inches of the protected tree(s) permitted for removal. Single trees may be replaced with two (2) or more trees meeting the standards of this code For one and two-family residences, replacement trees are to be provided based on one replacement tree for each protected tree 12-inches or less DBH and two replacement trees for each tree in excess of 12-inches DBH.

e. To encourage the retention of existing large trees in the city, the following credits shall be applied to reduce the number of replacement trees required by this section:

(1) Preserved specimen trees will be credited at 15% of DBH inches of each tree.

(2) Preserved historic trees will be credited at 20% of DBH inches of each tree.

f. Replacement trees shall adhere to the minimum tree standards in this code. Credited trees shall not reduce the number of required onsite plantings below the minimum requirements of this code.

g. Replacement trees shall be selected from Florida-Friendly Landscaping™. Historic and specimen trees must be replaced with trees of like species unless like species are not reasonably available.

h. Palms may be used as replacement stock up to the full DBH inches of palms being removed from the site and up to one-fifth of the DBH inches of non-palm.

i. Where non-palm species are proposed as replacements for palm trees, the replacements shall be done according to the following chart:

DBH of Palm	DBH of Non-Palm Species
6 inches	1.5 inches
8 inches	2 inches
10 inches	2.5 inches
12 inches	3 inches
14 inches	3.5 inches
16 inches	4 inches

j. When replacement trees are required, the replacement trees shall be installed prior to the issuance of a certificate of occupancy. If there is no certificate of occupancy required for the site, then the replacement trees shall be installed within sixty (60) days of the date when notice is provided that replacement trees are required.

k. Survival of replacement trees shall be guaranteed for one year. Replacement trees that die during the first year after planting must be replaced.

l. Alternate Placement of Replacement Trees

(1) In the event that a property has existing tree canopy coverage of thirty percent (30%) or greater of the property, the property owner may request to place required replacement trees on the public right-of-way immediately adjacent to the property owner's property, or on the publicly-owned neighborhood park or recreation area servicing the property owner's property. Said park or recreation area must be within the incorporated boundaries of the city. The city may grant permission when the proposed tree planting is accompanied by an approved landscape plan and associated maintenance and guarantee agreement between the developer requesting the plantings and the city department that would be responsible for the area in which the trees would be placed. This provision shall in no way affect a property owner's right to seek and receive a general variance granted by the planning and zoning board from the tree preservation requirements.

(2) If replacement trees cannot be placed within public rights-of-way or parks, the developer shall provide a payment to the city for the cost of the remaining replacement trees. The developer shall pay these fees into the city Tree Mitigation Fund.

(3) The cost of replacement trees shall be assessed at the following rates:

i. One hundred thirty-five dollars ($135.00) per DBH inch if verified on-site;

ii. Three hundred twenty-five dollars ($325.00) per DBH inch for impacts to specimen trees;

iii. Seven hundred fifty dollars ($750.00) per DBH inch for impacts to any permit identified historic tree.

(4) If needed, an amendment to this Code will be brought to the planning and zoning board in February of each calendar year. Costs shall be based upon average costs per tree as established by local nurseries selling trees that meet the minimum size requirements outlined in this section.

(5) Funds deposited into the Tree Mitigation Fund shall be appropriated in accordance with the annual adopted budget of the city for, but not limited to, the following projects:

i. Planting native trees, shrubs and plants on city-owned property.

ii. Purchasing environmentally sensitive land for permanent preservation.

iii. Purchasing a vacant parcel that could be planted with replacement trees.

iv. Removing invasive species from city-owned property.1 Raising community awareness about the care of the natural environment.

v. Funding of matching grants for projects involving vegetative plantings.

vi. Designing and planting right-of-way beautification projects

4. *Permitting.*

The tree removal application shall be made in the following manner:

a. Class I Site Plans. If a resident applies to remove a tree from a developed lot, a survey of the lot indicating the location, size and number of trees required to meet the standards of this code shall be provided.

(1) The survey shall confirm that there is at least 1 tree for every 2,000 square feet. If the site is heavily wooded, note that on the application.

(2) In instances of existing developed lots, a sketch plan may be prepared and submitted by the property owner and/or applicant in lieu of a tree survey.

(3) No permit to clear or grade shall be issued until the required survey or sketch is filed with an approved building permit.

b. Class II or Class III Site Plans. Sites requiring Technical Review Staff-approval shall be required to provide a survey of the property prepared by a surveyor registered with the State of Florida showing existing features of the property including elevations, buildings, structures, trees over six (6) inches in trunk diameter at 4.5 feet above ground level, all specimen and historic trees, streets, utility easement rights-of-way, and land use. For properties east of the Indian River the survey must show trees over four (4) inches in

diameter at 4.5 feet above ground level. Credit for trees between 2.5" to 6" in diameter can be given if indicated on the survey in lieu of having to provide mitigation or replacement trees.

(1) A sample size of 20% of a site may be surveyed in lieu of a full survey, or a similar suitable size, based on the discretion of the Development Services Director.

(2) No permit to clear or grade shall be issued until the required survey or sketch is filed with an engineering permit.

c. The location of all trees on the site, designating the trees to be retained, removed, relocated or replaced along with their name (botanical) must be illustrated on the site plan.

d. In the case of partial development, show only those areas and items affected.

e. Upon receipt of the application and fee for tree removal permit, the Development Services Director or his/her designee shall review the plans and may inspect the site.

f. If the work described in submitted tree removal permit is not begun within one (1) year from the date of issuance of the permit for tree removal, said permit shall be void. The Development Services Director or his/her designee reserves the right to extend or rescind the tree removal permit if conditions warrant.

g. Historic trees in all zoning districts shall be removed only upon a tree removal permit granted by the City Commission at a quasi-judicial public hearing, after a finding that the evidence presented is more compelling for the removal of the historic tree than for it to remain.

(1) Petitioners wishing to obtain a permit must show:

i. The tree is currently damaging or is posing an imminent danger to an existing structure; or

ii. The tree is damaging and/or interfering with the installation, operation, and/or maintenance of existing or proposed public infrastructure; or

iii. The tree is dead, diseased, structurally unsound, or severely injured such that the tree is likely to die within two years; or

iv. Other extraordinary circumstance or hardship where the applicant has demonstrated that no other feasible option exists to preserve the tree.

(2) Applications for historic tree removals shall be accompanied by a written tree evaluation report prepared by an ISA certified arborist which identifies the tree's location, size, species, condition, and basis for meeting one or more of the listed removal conditions.

h. Specimen trees 24-inches DBH or greater shall be removed only upon a tree removal permit approved by the Development Services Director or his/her designee, based on the proposed tree removal meeting one (1) of the four (4) conditions listed in Section 8 (a) above. Appeals of the Director's decision may be made to the City Commission as a quasi-judicial matter.

5. *Violations and penalties.*

a. Any person, organization, society, association, or corporation or any agent or representative, who shall violate the provisions of this section shall, upon a finding of violation by the-Development Services Director or his/her designee, be required to replace all removed trees with a number of trees equal to the total DBH inches of the tree(s) removed. The violator may, at the discretion of the Development Services Director or their designee, pay into the Tree Mitigation Fund at the rates described below, after demonstrating that minimum onsite planting requirements have been met, in lieu of meeting the requirements for replacement of damaged or removed trees, in whole, or in part. The replacement of trees or required payments under this section shall not preclude the imposition of any other penalties provided by law or ordinance for the violation. Replacement trees shall be maintained and guaranteed survival for one (1) year.

b. Payments into the Tree Mitigation Fund for violations to this code shall be made at the following rates:

(1) One hundred thirty-five dollars ($135.00) per DBH inch if verified on-site;

(2) Three hundred twenty-five dollars ($325.00) per DBH inch for impacts to specimen trees;

(3) Seven hundred fifty dollars ($750.00) per DBH inch for impacts to any permit identified historic tree.

(4) Four hundred dollars ($400.00) per DBH inch for impacts to any tree identified as to be preserved in permits or landscape plans in addition to the rates above;

(5) If no evidence exists on site to calculate the DBH of the tree(s) removed, then each tree shall be presumed to be a minimum of a 24-inch preserved specimen tree. It is the property owner's responsibility to prove otherwise.

c. No certificate of occupancy or certificate of completion shall be issued for any development until all applicable administrative fines or civil penalties, and permits have been paid, accepted, approved, and verified by the Development Services Director or his/her designee.

6. *Appeal.*

Within thirty (30) days after any decision made by the Development Services Director in the administration and interpretation of this section, but not thereafter, the applicant may appeal to the Planning and Zoning Board, who by majority vote may affirm, reverse or modify the decision of the Development Services Director. The Planning and Zoning Board's review of the Development Services Director's decision shall be de novo with notice to all interested parties at least ten days prior to the hearing on the appeal. Notice shall be made by the City Clerk by U.S. mail and by publication in a newspaper of general circulation in the city of the time and place of the hearing. Any decision by the Planning and Zoning Board shall constitute final administrative action, and appeals must be filed within 30 days of the boards written order of rendition in the circuit court of Volusia County.

7. *Stop work orders.*

The city shall issue a stop work order to any person found in the act of cutting down, destroying, damaging or removing trees in violation of this section.

604.04 Landscaping

A. Intent:

The intent of this section is to provide minimum standards for landscaping, buffers, and tree protection for the City. The provision and enforcement of these standards enhance the health, safety, and welfare of the citizens of New Smyrna Beach and are designed to meet the following goals:

1. Improving the appearance of the City;
2. Maintaining and protecting property values;
3. Providing an acceptable degree of buffering between abutting property uses;
4. Providing appropriate barriers and relief from traffic, noise, heat, glare, and the spread of dust and debris;
5. Providing for the protection and preservation of trees and native vegetation;
6. Ensuring the local stock of native trees and vegetation is preserved;
7. Encouraging Florida-Friendly landscaping principles into landscape design; and
8. Protecting local waterways through the development of environmentally sustainable landscaping practices.

B. Applicability:

1. The types of development listed below, unless exempted, shall comply with the requirements of this code:
    a. All new construction;
    b. Any change of use which results in an increase in the required off-street parking, as determined by the standards in the City's Land Development Regulations (LDR);
    c. All non-residential redevelopment which results in an increased building footprint, reconfiguration or expansion of parking areas (including increasing or decreasing parking spaces), or development of outparcels within an existing shopping center;
    d. Clearing of any site, including root-rake clearing, shall be subject to the requirements for tree protection, submittal of a tree survey or a tree inventory prepared by a certified arborist or surveyor, and obtaining a tree removal permit;

e. An application for a building permit for a single-family or two-family dwelling proposed on an existing parcel shall include a tree survey or a tree inventory that illustrates the species and diameter at breast height of all trees on site; and

f. The removal of Category I invasive trees as identified on the Florida Invasive Species Council Invasive Plant list, as amended, shall require administrative waiver by the Development Services Director or his/her designee.

2. The following situations are exempt from the requirements of this landscaping code:

a. Development that occurs within the Corridor Overlay Zone (COZ) zoning district;

b. Any interior construction, renovation, or remodeling which does not increase the footprint of the building;

c. Licensed plant or tree nurseries or botanical gardens with respect to those plants and trees grown for sale to the general public in the ordinary course of the licensed business or for public purposes; and

d. The removal of underbrush and trees less than four (4) inches measured at DBH.

C. General Requirements:

1. Landscape Plan:

a. *Single Lot: One and Two Family*

(1) The name, address, and telephone number of the applicant, as well as a licensed landscape architect or landscape designer (if applicable);

(2) Tree survey illustrating the species, size, and location of all existing trees on site to be removed or preserved; and,

(3) Landscape plan illustrating;

i. Type, size, and location of all plant materials, in accordance with this code;

ii. Landscape area protection structures (i.e. curbs, planters, or other similar structures);

iii. Plans and specifications for any proposed irrigation system; and

iv. Required landscape buffer areas per this LDR.

b. *Subdivision, Multi-Family (3 or more units), or Commercial and Industrial*

(1) The name, address, and telephone number of the applicant, as well as a licensed landscape architect (if applicable);

(2) Tree survey illustrating the species, size, and location of all existing trees on site to be removed or preserved; and,

(3) Landscape plan signed and sealed by a licensed landscape architect illustrating:

i. Type, size, and location of all plant materials, in accordance with this code;

ii. Landscape area protection structures (i.e. curbs, planters, or other similar structures);

iii. Plans and specifications for an irrigation system; and

iv. Required landscape buffer areas, in accordance with the City's LDR.

(4) The final landscape plan shall be reviewed by the Development Services Director or his/her designee and no building permit shall be issued by the Building Department until the plan is approved and the following steps have been taken:

i. A land clearing permit has been issued by the City Engineer; and,

ii. Existing trees and vegetation to remain on the property have been flagged by the developer, or his/her designee, and verified by the Development Services Director or his/her designee.

(5) A Certificate of Occupancy cannot be issued until the Development Services Director or his/her designee has verified to the Building Official, in writing, that all landscape and irrigation improvements have been completed in accordance with the approved landscape plan.

c. *Existing Residential, Commercial, or Industrial Property*

The entire replacement of existing landscaping for existing residential, commercial, or industrial property with an existing primary structure, shall at that time be treated as new construction and meet all current landscaping regulations under Article VI. The plan shall indicate the following:

(1) The name, address, and telephone number of the applicant, as well as the registered landscape architect or landscape designer;

(2) Type, size, and location of all plant materials, in accordance with the City's Land Development Regulations (LDR);

(3) Landscape area protection structures (i.e. curbs, planters, or other similar structures);

(4) Plans and specifications for an irrigation system; and

(5) Required landscape buffer areas, in accordance with the City's LDR.

2. Landscape Materials Standards:

a. One hundred percent (100%) of all required landscaping shall be Florida-Friendly Landscaping™ (FFL). The Florida Friendly Landscaping program is a partnership between the University of Florida, Institute of Food and Agricultural Sciences Extension (UF/IFAS Extension) and the Florida Department of Environmental Protection. Detailed information for FFL standards can be found on the IFAS program website or by contacting the Volusia County's local IFAS Extension office at 3100 East New York Avenue, DeLand.

b. All plant materials shall be healthy, well proportioned, disease-free, and pest-free. Additionally, all plant materials shall be Florida No. 1 grade, or better, according to the current "Grades and Standards for Nursery Plants," State of Florida Department of Agriculture, Tallahassee, except where in the discretion of the Development Services Director or his/her designee, natural vegetation is adequate to provide the necessary visual screening.

c. Trees:

(1) Canopy trees shall be a minimum of twelve (12) feet in height and have a minimum caliper of three (3) inches when measured six (6) inches above ground level.

(2) Understory Trees shall be a minimum of eight (8) feet in height and have a minimum caliper of two (2) inches when measured at six (6) inches above ground level.

(3) Trees planted within twelve (12) feet of publicly maintained streets or other improvements shall be selected from Florida-Friendly Landscaping™ or shall be a tree species approved by the Development Services Director or his/her designee.

(4) Driveways and parking areas may be placed under the branches of trees so long as the impervious surface does not exceed fifty percent (50%) of the total area under the drip line of the tree. Impervious areas may be no closer than two (2) feet for palm trees and four (4) feet for all other species of trees.

d. Shrubs shall be a minimum of two (2) feet in height, immediately after planting. Plants for the purpose of creating hedges shall be spaced no more than three (3) feet apart measured from center to center, maintaining a minimum of thirty inches (30") in height after the first year of planting.

e. Ground covers may include any plant materials that reach an average height of not more than twelve (12) inches. They may be used in lieu of grass. Ground covers must present a finished appearance and provide reasonably complete coverage at time of planting.

f. Grassed areas shall be planted with any of the following species of grass common to central Florida: St. Augustine (Stenotaphrum secundatum), Bermuda (Cynodon Dactylon), Zoysia (Zoysia Japonica) and Bahia (Paspalum notatum). Such areas shall be sodded, plugged, or sprigged. Sod is required in swales or other areas subject to erosion.

g. Stone, gravel, pine straw, bark, or a mulch approved by the Development Services Director or his/her designee shall be used in combination with other plants. Cypress bark is not an approved material.

h. Synthetic plants or artificial material in the form of trees, shrubs, ground covers or vines shall not be used in lieu of plant requirements in this section.

3. Maintenance Requirements:

a. All plantings must be maintained in an attractive and healthy condition. Maintenance must include, but not be limited to, watering, tilling, mowing, weeding, removal of litter and dead plant material, and necessary pruning and trimming.

b. All trees may be pruned to maintain shape and promote their shade-giving qualities and to remove diseased or dying portions in areas where falling limbs could be a hazard. Trees shall be pruned only as necessary to promote healthy growth or to avoid power lines. Pruning shall comply with current International Society of Arboriculture (ISA) standards. No more than 20% of the crown shall be removed within a one (1)-year period.

c. It is the responsibility of the property owner, renter, lessee, or agent, adjacent to the right-of-way to maintain all areas within the right-of-way which do not contain the road, curb, median, or sidewalk, to maintain the sod or other materials approved by the city engineer.

d. All landscaped areas and irrigation systems must be maintained in perpetuity by the property owner, tenant, or agent according to these regulations at a minimum. Any property owner who does not maintain the landscaped areas in a healthy, neat, and orderly fashion, free from refuse and debris, is subject to action from the Code Compliance department.

4. Sodding:

a. All landscaped common spaces, whether used for water retention or not, shall be sodded.

b. It is the responsibility of the property owner, renter, lessee, or agent, adjacent to the right-of-way to sod all areas within the right-of-way which do not contain the road, curb, or sidewalk prior to the city issuing a certificate of occupancy for a home or other building.

5. Non-Vegetative Materials.

a. Stone, gravel, artificial turf and rock beds may be used as an accent but shall not be considered permanent landscaping.

b. Stone, gravel, artificial turf and rock beds may be used as an accent but shall not require a permit unless they exceed five hundred (500) square feet.

c. Stone, gravel, artificial turf and rock beds that exceed five hundred (500) square feet are permitted subject to obtaining a permit from the Building Department and compliance with the following provisions:

(1) The installation of artificial turf is permitted in all zoning districts and limited to play areas of public/private parks and institutions.

(2) All artificial turf shall, at a minimum, be installed according to the manufacturer's specifications and shall be subject to City stormwater requirements.

(3) Installation of artificial turf within public and private rights-of-way is prohibited.

(4) Artificial turf shall not be visible from rights-of-way on residentially zoned properties.

(5) Artificial turf may not be installed within fifty (50) feet of any artificial or natural water body with the exception of swimming pools.

(6) Artificial turf is prohibited within drainage features (e.g. retention ponds, swales, and etc.).

(7) Artificial turf must be installed outside of the drip line of any tree.

(8) Artificial turf shall be considered one hundred percent (100%) impervious surface unless an acceptable maximum impervious area is submitted to and approved by the City Engineer. The quantity of artificial turf to be incorporated into the landscaping of a property shall be limited by the maximum impervious area for the subject property within the applicable zoning district and location requirements above.

(9) Artificial turf shall consist of materials that appear natural in appearance and color. The use of indoor/outdoor plastic or nylon carpeting as an installation of artificial turf is prohibited.

6. Utilities:

a. Required plantings shall avoid utility easements unless approved by the New Smyrna Beach Utilities.

b. Where the height and location of overhead powerlines requires the planting of small or low growing trees, planting under or adjacent to powerlines shall be approved by New Smyrna Beach Utilities.

c. Required canopy tree plantings in buffer areas that fall within utility easements may be reduced to understory trees at a rate of two (2) understory trees per required canopy tree.

d. Plant materials shall be selected to minimize potential root system damage or interference with public utilities.

7. Minimum Landscape Standards:

a. Irrigation:

(1) Excepting single family lots, all landscaped areas shall be irrigated with a workable underground irrigation system. Areas left in their natural state do not need to be irrigated.

(2) All multi-family developments containing more than ten (10) units shall use a non-potable water irrigation system for watering landscaped areas if available.

b. Residential:

(1) Each residential lot shall contain a minimum of one (1) tree for every 2,000 square feet of lot area or portion thereof (rounded to the nearest whole number. If a lot contains an insufficient number of existing trees to meet this requirement, replacement trees shall be provided. A minimum of 50% of the trees provided must be a canopy tree, as defined by Florida-Friendly Landscaping™. In addition, a minimum of ten (10) shrubs preserved or planted on the property.

(2) Trees located within setbacks may only be removed upon obtaining necessary removal permits in accordance with all other sections of this code. Prior to the issue of an approved building permit the following trees shall be preserved if located within required setbacks.

i. All historic trees.

ii. All specimen trees

iii. All other non-invasive trees meeting the landscape material standards as described in this code

c. New subdivisions:

(1) Subdivisions that create new streets shall provide a landscaped entrance buffer having minimum dimensions of twenty (20) feet in width, fifty (50) feet in depth, and 1,000 square feet in area on both sides of the main vehicular entranceway to the subdivision.

(2) Platted lots shall have a minimum of one (1) tree for every,2,000 square feet of lot area or portion (rounded to the nearest whole number) and a minimum of ten (10) shrubs preserved or planted on the property. Fifty percent (50%) of the trees provided must be canopy trees. No less than eight (8) of the shrubs shall be located in front of the home. No Certificate of Occupancy shall be issued until this requirement has been met.

(3) All recreation areas within a subdivision shall be landscaped except those with natural vegetation or conservation areas. Recreation areas having trails for walking, jogging or biking in a corridor or lineal type fashion, and having a length of at least 250 feet and a width of at least fifteen (15) feet may be left natural, stabilized, or paved.

(4) Fifteen percent (15%) of the gross area of any new subdivision shall be designated for the protection of trees. The area required to protect specimen trees as defined in this LDR's Definitions section may be included to satisfy this requirement.

d. Multi-family and Non-residential:

(1) A minimum of fifteen percent (15%) of the total gross land area of any development site shall be designated for the protection of trees. This area shall be inclusive of required landscaping, buffer areas, and preserved natural areas. This requirement may be reduced to ten percent (10%) at the discretion of the Development Services Director or his/her designee, if a site is demonstrated to have site constraints limiting access or functionality or due to existing third-party easement.

e. Parking Areas:

(1) All off-street parking lots with eight (8) or more required parking spaces and vehicular use areas (access driveways, service drives, and loading areas) are required to include landscaping.

(2) All landscaped areas, whether on private property or public right-of-way, shall be curbed to protect the landscaping from traffic. If the elevation of a grassed landscaped area is the same as the surrounding impervious area, then curbing shall be gapped to allow flow of water into and through the grassed landscaped area.

(3) Required off-street parking areas with parking spaces for eight (8) vehicles or more shall have interior landscaped areas covering ten (10%) percent of the total off-street parking area.

(4) Shopping centers in the B-5, Planned Shopping Center District, shall have interior landscaped areas covering 20 percent of the total off-street parking area.

(5) Interior landscaped areas are exclusive of any required landscaped buffer areas. No more than 25 percent of the required interior landscaped area shall be placed in any one location except as necessary for minimum area requirements.

(6) Interior landscaped area, excepting landscaped islands, shall include a minimum of one tree per 100 square feet or fraction thereof. Interior landscaped areas shall have a minimum area of 75 square feet with no dimensions less than six feet.

(7) Each landscaped area shall include at least one tree. The remaining area shall be landscaped with shrubs (less than four feet high), grass, or a ground cover, and all plants shall be mulched.

(8) A minimum of one (1) landscaped island shall be provided for every ten (10) parking spaces, as follows:

i. Each island shall contain a minimum of one canopy tree as defined by the Florida-Friendly Landscaping™. For the purpose of accent or landscape design, other trees may be used if approved by the Development Services Director or his/her designee.

ii. Islands shall divide parking spaces in order to relieve large expanses of paved areas.

iii. The size of the island shall be a minimum width of nine (9) feet, as measured from the interior side of the curb, and a minimum area of one hundred sixty (160) square feet. A reduction in width may be allowed on a case-by-case basis, down to six (6) feet wide, and one hundred (100) square feet of area upon approval of the Development Services Director or his/her designee.

iv. Parking lot islands are required at all terminal ends of parking space rows, regardless of whether they have more than ten (10) parking spaces in that row.

v. A waiver of the required ten (10) parking spaces without an island can be authorized by the Development Services Director or his/her designee, if in support of existing tree preservation. In no case shall there be more than fifteen (15) parking spaces without an island. Should a waiver be approved, landscaped islands shall be provided at a minimum width of ten (10') feet wide, as measured form the interior side of curb, and have a minimum area of one hundred eighty (180) square feet.

(9) Tree preservation in parking areas. Preservation and planting of trees in parking lots shall be approved by the Development Services Director or his/her designee in accordance with this LDR. The preservation of trees in parking areas having a diameter of four (4) inches DBH or larger qualify for a reduction in required parking spaces at the discretion of the Development Services Director or his/her designee, when the reduction in parking spaces will preserve approved species of trees. A reduction of up to fifteen percent (15%) of the required parking spaces may be approved, the total reduction in parking spaces shall not exceed fifty (50) spaces. The reduction in parking spaces shall be subject to the following:

i. The number of parking spaces and the percentage of parking reduction requested shall be provided on each site plan application.

ii. The required number of parking spaces shall be designated on an approved site plan.

D. Additional Requirements for Specific Uses:

The following uses require additional considerations beyond the minimum requirements listed above:

1. Adult congregate living facilities: In addition to the LDR Section 504.00 requirements, twenty five percent (25%) of the yard shall be covered with grass or other vegetation. Vegetation or plants other than grass shall be approved by the Development Services Director or his/her designee.

2. Airport Industrial Park: All unpaved lot areas shall be tastefully landscaped with an effective combination of trees, shrubbery, and ground cover. Decorative plazas, pools, flower beds, rock gardens, and other decorative treatments, may be incorporated. Landscaping is to be accomplished using quality materials and workmanship.

3. Child day care on church property: Play areas shall be fenced and landscaped. The landscaping shall include a vegetative hedge planted at least four (4) feet in height, three (3) feet on center, and be six (6) feet in height within two years.

4. Construction and demolition debris disposal facility, materials recovery facility, recovered materials facility or off-site disposal of land clearing debris facility: Perimeter landscape buffers shall be established prior to initiation of the activity and shall be a minimum of fifty (50) feet adjacent to all boundaries.

E. Landscape Buffers:

Where a landscaped buffer area is required, the following regulations shall apply:

1. In General:

a. Buffer areas shall consist of a combination of trees, shrubs, and groundcover. The number of required minimum plantings for trees and shrubs shall conform to Buffer Table 2. A minimum of 20% of the buffer area shall be planted with groundcover.

b. The property owner shall be responsible for the creation and maintenance of all required buffer areas.

c. Some uses may require screening from adjacent properties in the form of opaque fencing, masonry walls, or vegetative hedges.

d. If plant materials are used for screening they shall be at least three (3) feet tall at time of planting.

e. If a decorative wall or fence is used for screening, it shall be six (6) feet high with shrubs planted abutting the side of the wall or fence facing the adjoining property or street. Shrubs shall be planted at intervals of no more than six (6) feet.

f. Any proposed landscape buffer plantings within a utility easement shall be approved by New Smyrna Beach Utilities.

g. A fence or wall included in a buffer screen shall be constructed with the side of the fence or wall with the finished appearance facing the use of lesser intensity or right-of-way.

h. Access through buffer areas to facilitate pedestrian or vehicular traffic between adjacent properties shall not reduce the requirement for plantings based upon linear feet.

i. Access for pedestrian paths or bike trails through a buffer shall be a maximum of one (1) foot wider than the path or trail and located not less than 100 feet apart.

j. A buffer may incorporate stormwater low impact development (LID) best management practices (BMPs) as long as the required plantings are also provided, the landscaping does not interfere with proper functioning of the stormwater system, and the design water depth does not harm the viability of such plantings.

k. Street lighting may be incorporated into the buffer area.

l. Vertical construction, parking, storage, active recreation and loading areas shall not be permitted to encroach a designated buffer area, except for approved pedestrian and bike path access as described above.

2. A buffer shall be required between zoning districts according to the standards set forth in Buffer Table 1. The existence of public or private right-of-way along a property boundary shall not be construed as meeting any part of the buffer requirement, nor as relieving the applicant from providing the required buffer.

Buffer Table 1.

Intensity of Use	1	2	3	4	5
1: A-1C, A-2, A-3, A-4, FR, C, RA, R	No Buffer	Low	Low	Medium+	High
2: RE, R-1, R-2, R-2A, R-3, R-3A, , R-1CO, R-3CO	Low	No buffer	Low	Medium	High
3: R-3B, R-4, R-5, R-6z, MH-1, MH-1CO, MH-2, MH-4	Low	Low	Low	Medium	Medium +
4: MU*, B-2, B-3**, B-4, B-5, B-6, B-6A, CM, I-1	Medium+	Medium	Medium	Low	Medium +
5: I-2, I-3, I-4	High	High	High	Medium+	Medium

*MU zoning district is exempt from buffers except for a five (5) foot buffer around parking areas or when adjacent to residentially zoned properties.

**B-3 zoned parcels may provide a minimum buffer width of five (5′) feet abutting other B-3 zoned parcels. B-3 zoned parcels may provide a minimum buffer width of five (5′) feet abutting residentially zoned properties when a six (6′) foot tall block wall is provided. These buffered areas shall require two (2) canopy trees and thirty-three (33) shrubs planted per 100 linear feet and 20% of the buffer area planted with groundcover.

3. Where a buffer is required it shall conform to the standards set forth in Buffer Table 2.

Buffer Table 2.

Buffer Type	Buffer Width	Required minimum plantings per 100 linear feet
Low	10 Feet	Two (2) Canopy Trees, 66 Shrubs
Medium	15 Feet	Two (2) Canopy Trees, four (4) Understory Trees, 100 Shrubs
Medium +	15 Feet	Two (2) Canopy Trees, four (4) Understory Trees, 100 Shrubs Unbroken hedge, fence, or wall.
High	20 Feet	Three (3) Canopy Trees, Four (4) Understory Trees, 133 Shrubs Unbroken hedge, fence, or wall.

604.051 Tree Preservation:

A. In General:

1. It is unlawful for any person to cut down, move, remove or destroy any tree without first obtaining a tree removal permit, as required by the standards of this landscaping code, from the City's Development Services Department. No permit to cut down, move, remove or destroy any tree shall be issued for any property unless the property owner has an active building permit, or land clearing permit, or water management permit.

2. Fees to cut down, move, remove or destroy any tree shall be as established by resolution of the City Commission.

3. Removal of mangrove trees shall require a permit from the Florida Department of Environmental Protection.

4. This section shall apply to trees that are four (4) inches or greater in diameter at DBH.

5. Trees with a multi-stem trunk system with a well-developed crown at least fifteen (15) feet high as measured from its base shall be subject to the provisions of this section.

6. The removal of Category I invasive trees as identified on the Florida Invasive Species Council Invasive Plant list, as amended, shall require administrative waiver by the Development Services Director or his/her designee.

7. The tree regulations for the city shall be generally in three groups: residential, commercial and industrial, and agriculture zoning classifications. The specific zoning classifications that are covered within each of these groups are set forth in each individual group.

B. Residential Areas:

1. *Residential zoning classifications.* The following tree removal and replacement requirements shall apply in all land zoned for residential uses. This provision shall apply in the RE, R-1, R-2, R-2A, R-3, R-3A, R-3B, R-4, R-5, R-6, R1-CO, R3-CO, MH-1, MH-2, MH1-CO, MH2-CO, zoning districts.

2. *Minimum tree coverage standard.* All properties zoned for residential uses shall have no less than one (1) tree for every 2,000 square feet of property or portion thereof (rounded to the nearest whole number). Example: 8,900 sf: 4 trees, 9,100: 5 trees.

   If any lot contains an insufficient number of existing trees to meet this requirement replacement trees shall be provided by the owner.

3. Time to come into compliance with minimum tree coverage standard.

   a. New construction:

      (1) New construction on vacant property zoned for residential uses shall comply with the minimum tree coverage standards prior to issuance of a certificate of occupancy.

(2) All residential lots shall be fully landscaped no longer than 60 days after a certificate of occupancy has been issued for the dwelling unit.

b. Existing nonconforming properties shall comply with the minimum tree coverage standard when all of the existing structures on the property are replaced with new structures. An Alternative to this requirement is described in Section (7), below.

4. *Fifteen percent of development set aside for trees.* Fifteen percent (15%) of the area of any subdivision shall be designated for the protection of trees. The area required to protect specimen trees may be included to satisfy this requirement. This required area may be constituted as one or more sub-areas within the development. Said area may include any landscape buffer or other landscape areas required by the LDR for a development. Such designated areas shall contain sufficient land area to comply with minimum tree protection standards to adequately protect the trees contained within the areas. A minimum of fifty percent (50%) of the required minimum number of trees as provided in section (5) below shall consist of existing trees within said area. This requirement does not apply to single-family lots in approved subdivisions or additions, remodeling or similar modification of existing multi-family or non-residential development.

5. *Specimen tree protection.* The following table sets forth the minimum requirements for the protection of specimen trees:

No. of Specimen Trees	**Minimum Specimen Tree Protection Requirement**
Less than 3 per acre	80% of all specimen trees
3.0 to 5.0 per acre	65% of all specimen trees
5.1 to 8.0 per acre	50% of all specimen trees
8.0 or more per acre	30% or 6, whichever is greater, specimen trees per acre

6. *Legal mechanism to protect specimen trees.* The developer of a subdivision shall provide legal mechanisms which ensure the protection of specimen trees after construction has occurred. Such mechanisms may include but shall not be limited to conservation easements, common open space, tree protection easements, deed restrictions and homeowner's association documents. Specimen tree protection on residential lots shall only apply in the designated setback areas. Said legal mechanisms shall be reviewed and approved by the City Attorney.

7. As an alternative to meeting the minimum number of required trees on-site, owners of nonconforming properties shall be allowed to pay into the city's tree mitigation fund. The cost of replacement is outlined in in the Tree Removal and Replacement subsection, below. Properties having made an application for building or development permits prior to the adoption of this section and active at the time of adoption of this section shall comply with

the tree regulations in force at the time the building or development permit application was made.

C. Commercial and Industrial Areas:

1. *Commercial and industrial zoning classifications*. The following tree removal and replacement requirements shall be required in all land zoned for commercial and industrial uses. This provision shall apply in the MU, B-2, B-3, B-4, B-5, B-6, B-6A, CM, I-1, I-2, I-3, I-4, BBH, COZ, PUD, HBOD, C, R and PUD zoning districts.

2. *Minimum tree coverage standard.* All properties zoned for commercial and industrial uses shall have no less than one (1) tree for every 2,000 square feet of property or as required by an approved site plan. A minimum of fifteen percent (15%) of the total gross land area of any development site shall be designated for the protection of trees. This area shall be inclusive of required landscaping, buffer areas, and preserved natural areas. This requirement may be reduced to ten percent (10%) at the discretion of the Development Services Director or his/her designee, if a site is demonstrated to have site constraints limiting access or functionality or due to existing third-party easement.

3. *Time to come into compliance with minimum tree coverage standard*. New construction shall comply with the minimum tree coverage standards prior to issuance of a certificate of occupancy. All nonconforming properties shall comply with the minimum tree coverage standard when all of the existing structures on the property are replaced with new structures. Properties having made an application for building or development permits prior to the adoption of this section and active at the time of the adoption of this section shall comply with the tree regulations in force at the time the building or development permit application was made.

D. *Tree Protection During Construction*

1. *Marking trees.* Prior to the commencement of construction, any tree or tree groups to be maintained shall be clearly marked and the markings shall remain in place during construction. Any land clearing equipment shall be operated in a manner as not to injure or destroy any trees designated to remain on the site.

2. *Temporary barriers.* During the period of construction, a temporary barrier at least three (3) feet in height shall be formed a minimum of seven (7) feet from the base of the tree or trees and it shall include at least fifty percent (50%) of the area under the drip line of the tree(s).

3. *Natural soil level.* Except for palm trees, all trees and replacement stock shall have their natural soil level maintained. Tree wells and/or planter islands shall be provided if necessary to maintain the natural existing soil level.

E. Tree Removal and Replacement:

1. *Residential, Commercial, and Industrial Zoned Property*. All tree removal on land zoned for residential, commercial, and industrial zoned uses shall be in compliance with this provision.

   a. Trees not requiring permits or mitigation.

      The trees listed on the Florida Invasive Species Council list of Category I trees may be removed with an administrative waiver issued by the Development Services Director or his/her designee and replacement trees shall not be required to replace trees that have been removed, provided that the removal of the tree or trees does not result in the number of the trees on the property falling below the minimum tree coverage standards. If the removal of a tree or trees results in the number of the trees on the property falling below the minimum tree coverage standard replacement trees are required.

   b. Trees requiring permits for removal and do not require mitigation.

      All dead, dying and diseased trees, per an arborist report, may be removed with a permit from the city and replacement trees shall not be required to replace trees that have been removed, provided that the removal of the tree or trees does not result in the number of the trees on the property falling below the minimum tree coverage standard of no less than one (1) tree for every 2,000 square feet of property. If the removal of a tree or trees results in the number of the trees on the property falling below less than one (1) tree for every 2,000 square feet of property replacement trees are required.

   c. Trees requiring permits for removal and may require mitigation.

      The trees listed below may be removed with a permit from the city and replacement trees shall be required to replace trees that have been removed.

      (1) All specimen trees.

      (2) All historic trees (permit must be issued by City Commission.)

      (3) All other trees not described in (1) or (2) above.

2. *Agriculture Zoning Classifications*. This provision shall apply in the A-1, A-2 and FR zoning districts, and property on which trees were planted and grown for sale to the general public or some public purposes, and licensed plant or tree nurseries, and botanical gardens. Trees located on agricultural cultivation or grazing land, or on commercial plant nursery sites are exempt from the provisions of this section, with the following conditions:

   a. Any property owner who removes or destroys trees from agricultural cultivation or grazing land, or commercial plant nursery sites within three (3) years of filing an

application for rezoning to a non-agricultural classification, applying for subdivision approval, or filing for special exception approval shall be presumed to have performed such removal or destruction of trees with the intent of developing the land for a non-agricultural use and shall not be exempt from the provisions of this section. Said presumption shall be a legally rebuttable presumption.

b. The applicant shall submit with its application for an exemption to the tree replacement requirement copies of any and all contracts, agreements, deeds and all usual and customary business records that would be reasonably necessary for the city to review to determine whether or not the applicant is entitled to an exemption. The applicant shall not fraudulently withhold any document. See generally, section 50 of the Volusia County Code of Ordinances.

c. The property owner shall have rebutted the presumption that the removal or destruction of trees on his property was with the intent of developing the land for a non-agricultural use by filing a sworn and notarized affidavit with the city attesting that any trees that were removed in the past three years from the subject property were removed in conformity with recognized agricultural management or production practices and not merely for the purpose of avoiding the requirements of this section.

   The affidavit filed by the property owner may be challenged by the city within thirty (30) days of filing the affidavit.

   In the event that the city elects to challenge the property owner's affidavit, the exemption may be denied by the city upon showing by substantial competent evidence that the trees were not removed in conformance with recognized agricultural management or production practices. The city shall have the burden of proof to refute the affidavit filed by the property owner.

d. Any decision to deny an exemption under this provision shall be in writing, state the factors considered in denying the exemption, state the reasons for denying the exemption, and be signed by the Development Services Director or his/her designee.

   (1) The city shall consider, among any and all other relevant factors, the following when reviewing any request for an exemption under this provision:

   (2) The specific reasons stated by the property owner for removal of the trees.

   (3) The length of time the land has been in agricultural production.

   (4) Whether the agricultural use has been continuous.

   (5) The size of the area as it relates to efficient agricultural production.

   (6) Whether the land has been sufficiently and adequately cared for within accepted commercial practices of the dominant type of production.

   (7) Whether the land is under lease and if so, the type and terms of said lease.

(8) Whether the tree removal was done in the ordinary course of business.

(9) Any contract for sale in existence at the time the affidavit is submitted.

(10) Other factors that are relevant to the determination of good faith land use.

(11) See generally, section 50 of the Volusia County Code of Ordinances.

3. Replacement Trees.

a. Approved trees. Only trees listed on the Florida-Friendly Landscaping™ shall be planted to meet the minimum tree requirements of this section and be used as replacement trees:

b. Historic and specimen trees shall be replaced with trees of like species unless like species are not reasonably available.

c. Trees listed as Category I invasive species by the Florida Exotic Pest Plant Council are prohibited.

d. Replacement of trees shall be calculated based on the replacement of 40% of the total DBH inches of the protected tree(s) permitted for removal. Single trees may be replaced with two (2) or more trees meeting the standards of this code For one and two-family residences, replacement trees are to be provided based on one replacement tree for each protected tree 12-inches or less DBH and two replacement trees for each tree in excess of 12-inches DBH.

e. To encourage the retention of existing large trees in the city, the following credits shall be applied to reduce the number of replacement trees required by this section:

(1) Preserved specimen trees will be credited at 15% of DBH inches of each tree.

(2) Preserved historic trees will be credited at 20% of DBH inches of each tree.

f. Replacement trees shall adhere to the minimum tree standards in this code. Credited trees shall not reduce the number of required onsite plantings below the minimum requirements of this code.

g. Replacement trees shall be selected from Florida-Friendly Landscaping™. Historic and specimen trees must be replaced with trees of like species unless like species are not reasonably available.

h. Palms may be used as replacement stock up to the full DBH inches of palms being removed from the site and up to one-fifth of the DBH inches of non-palm.

i. Where non-palm species are proposed as replacements for palm trees, the replacements shall be done according to the following chart:

DBH of Palm	DBH of Non-Palm Species
6 inches	1.5 inches
8 inches	2 inches
10 inches	2.5 inches
12 inches	3 inches
14 inches	3.5 inches
16 inches	4 inches

j. When replacement trees are required, the replacement trees shall be installed prior to the issuance of a certificate of occupancy. If there is no certificate of occupancy required for the site, then the replacement trees shall be installed within sixty (60) days of the date when notice is provided that replacement trees are required.

k. Survival of replacement trees shall be guaranteed for one year. Replacement trees that die during the first year after planting must be replaced.

l. Alternate Placement of Replacement Trees

(1) In the event that a property has existing tree canopy coverage of thirty percent (30%) or greater of the property, the property owner may request to place required replacement trees on the public right-of-way immediately adjacent to the property owner's property, or on the publicly-owned neighborhood park or recreation area servicing the property owner's property. Said park or recreation area must be within the incorporated boundaries of the city. The city may grant permission when the proposed tree planting is accompanied by an approved landscape plan and associated maintenance and guarantee agreement between the developer requesting the plantings and the city department that would be responsible for the area in which the trees would be placed. This provision shall in no way affect a property owner's right to seek and receive a general variance granted by the planning and zoning board from the tree preservation requirements.

(2) If replacement trees cannot be placed within public rights-of-way or parks, the developer shall provide a payment to the city for the cost of the remaining replacement trees. The developer shall pay these fees into the city Tree Mitigation Fund.

(3) The cost of replacement trees shall be assessed at the following rates:

i. One hundred thirty-five dollars ($135.00) per DBH inch if verified on-site;

ii. Three hundred twenty-five dollars ($325.00) per DBH inch for impacts to specimen trees;

iii. Seven hundred fifty dollars ($750.00) per DBH inch for impacts to any permit identified historic tree.

(4) If needed, an amendment to this Code will be brought to the planning and zoning board in February of each calendar year. Costs shall be based upon average costs per tree as established by local nurseries selling trees that meet the minimum size requirements outlined in this section.

(5) Funds deposited into the Tree Mitigation Fund shall be appropriated in accordance with the annual adopted budget of the city for, but not limited to, the following projects:

i. Planting native trees, shrubs and plants on city-owned property.

ii. Purchasing environmentally sensitive land for permanent preservation.

iii. Purchasing a vacant parcel that could be planted with replacement trees.

iv. Removing invasive species from city-owned property.1 Raising community awareness about the care of the natural environment.

v. Funding of matching grants for projects involving vegetative plantings.

vi. Designing and planting right-of-way beautification projects

4. *Permitting*.

The tree removal application shall be made in the following manner:

a. Class I Site Plans. If a resident applies to remove a tree from a developed lot, a survey of the lot indicating the location, size and number of trees required to meet the standards of this code shall be provided.

(1) The survey shall confirm that there is at least 1 tree for every 2,000 square feet. If the site is heavily wooded, note that on the application.

(2) In instances of existing developed lots, a sketch plan may be prepared and submitted by the property owner and/or applicant in lieu of a tree survey.

(3) No permit to clear or grade shall be issued until the required survey or sketch is filed with an approved building permit.

b. Class II or Class III Site Plans. Sites requiring Technical Review Staff-approval shall be required to provide a survey of the property prepared by a surveyor registered with the State of Florida showing existing features of the property including elevations, buildings, structures, trees over six (6) inches in trunk diameter at 4.5 feet above ground level, all specimen and historic trees, streets, utility easement rights-of-way, and land use. For properties east of the Indian River the survey must show trees over four (4) inches in

diameter at 4.5 feet above ground level. Credit for trees between 2.5" to 6" in diameter can be given if indicated on the survey in lieu of having to provide mitigation or replacement trees.

(1) A sample size of 20% of a site may be surveyed in lieu of a full survey, or a similar suitable size, based on the discretion of the Development Services Director.

(2) No permit to clear or grade shall be issued until the required survey or sketch is filed with an engineering permit.

c. The location of all trees on the site, designating the trees to be retained, removed, relocated or replaced along with their name (botanical) must be illustrated on the site plan.

d. In the case of partial development, show only those areas and items affected.

e. Upon receipt of the application and fee for tree removal permit, the Development Services Director or his/her designee shall review the plans and may inspect the site.

f. If the work described in submitted tree removal permit is not begun within one (1) year from the date of issuance of the permit for tree removal, said permit shall be void. The Development Services Director or his/her designee reserves the right to extend or rescind the tree removal permit if conditions warrant.

g. Historic trees in all zoning districts shall be removed only upon a tree removal permit granted by the City Commission at a quasi-judicial public hearing, after a finding that the evidence presented is more compelling for the removal of the historic tree than for it to remain.

(1) Petitioners wishing to obtain a permit must show:

i. The tree is currently damaging or is posing an imminent danger to an existing structure; or

ii. The tree is damaging and/or interfering with the installation, operation, and/or maintenance of existing or proposed public infrastructure; or

iii. The tree is dead, diseased, structurally unsound, or severely injured such that the tree is likely to die within two years; or

iv. Other extraordinary circumstance or hardship where the applicant has demonstrated that no other feasible option exists to preserve the tree.

(2) Applications for historic tree removals shall be accompanied by a written tree evaluation report prepared by an ISA certified arborist which identifies the tree's location, size, species, condition, and basis for meeting one or more of the listed removal conditions.

h. Specimen trees 24-inches DBH or greater shall be removed only upon a tree removal permit approved by the Development Services Director or his/her designee, based on the proposed tree removal meeting one (1) of the four (4) conditions listed in Section 8 (a) above. Appeals of the Director's decision may be made to the City Commission as a quasi-judicial matter.

5. *Violations and penalties.*

a. Any person, organization, society, association, or corporation or any agent or representative, who shall violate the provisions of this section shall, upon a finding of violation by the-Development Services Director or his/her designee, be required to replace all removed trees with a number of trees equal to the total DBH inches of the tree(s) removed. The violator may, at the discretion of the Development Services Director or their designee, pay into the Tree Mitigation Fund at the rates described below, after demonstrating that minimum onsite planting requirements have been met, in lieu of meeting the requirements for replacement of damaged or removed trees, in whole, or in part. The replacement of trees or required payments under this section shall not preclude the imposition of any other penalties provided by law or ordinance for the violation. Replacement trees shall be maintained and guaranteed survival for one (1) year.

b. Payments into the Tree Mitigation Fund for violations to this code shall be made at the following rates:

(1) One hundred thirty-five dollars ($135.00) per DBH inch if verified on-site;

(2) Three hundred twenty-five dollars ($325.00) per DBH inch for impacts to specimen trees;

(3) Seven hundred fifty dollars ($750.00) per DBH inch for impacts to any permit identified historic tree.

(4) Four hundred dollars ($400.00) per DBH inch for impacts to any tree identified as to be preserved in permits or landscape plans in addition to the rates above;

(5) If no evidence exists on site to calculate the DBH of the tree(s) removed, then each tree shall be presumed to be a minimum of a 24-inch preserved specimen tree. It is the property owner's responsibility to prove otherwise.

c. No certificate of occupancy or certificate of completion shall be issued for any development until all applicable administrative fines or civil penalties, and permits have been paid, accepted, approved, and verified by the Development Services Director or his/her designee.

6. *Appeal*.

Within thirty (30) days after any decision made by the Development Services Director in the administration and interpretation of this section, but not thereafter, the applicant may appeal to the Planning and Zoning Board, who by majority vote may affirm, reverse or modify the decision of the Development Services Director. The Planning and Zoning Board's review of the Development Services Director's decision shall be de novo with notice to all interested parties at least ten days prior to the hearing on the appeal. Notice shall be made by the City Clerk by U.S. mail and by publication in a newspaper of general circulation in the city of the time and place of the hearing. Any decision by the Planning and Zoning Board shall constitute final administrative action, and appeals must be filed within 30 days of the boards written order of rendition in the circuit court of Volusia County.

7. Stop work orders.

The city shall issue a stop work order to any person found in the act of cutting down, destroying, damaging or removing trees in violation of this section.

Landscape Code Crosswalk

Intent

This section is entirely new. It provides general basis for the application of this code and it's underlying principles.

Applicability

This section is entirely new. It identifies applicability for this code as well as exemptions.

General Requirements

Landscape Plan: New sections to detail what should be provided as part of a landscape plan for new and existing single lots, subdivisions, multi-family, commercial, and industrial uses. How it is reviewed (an existing process).

Landscape Material Standards: This is a new section that describes the quality of landscape materials, it consolidates existing standards with updated language for new trees, shrubs, and ground covers. This section expands on Florida Friendly Landscaping (FFL) requirements, tree standards, and what types of grasses are approved, and synthetic materials.

Maintenance: maintenance responsibilities are existing requirements of the code. Additional requirements have been added to include a general requirement to maintain landscaping in healthy condition and directions for tree pruning.

Sodding: These is existing requirements for common spaces. Minimal changes.

Non-Vegetative Materials: fully new section to provide guidance for the use of stone, gravel, and artificial turf as part of a landscaping plan.

Utilities: Fully new section to provide guidance for landscaping near utility easements. This guidance is to generally avoid utility areas, but also allows for reductions to other sections of this code if avoidance is not possible/desirable.

Minimum Landscape Standards: This section defines the landscaping requirements for a given use. It is a mix of existing code and new requirements.

Two change to this section for single family residences is the increase in the required plantings for single family lots, including a requirement for canopy tree plantings. Additionally, a prohibition on the removal of trees from the setbacks of single family lots has been added.

Minimal changes have been proposed with regard to the planting requirements for new subdivisions.

Multifamily and non-residential requirements are new text that specify a percentage of minimum landscape area.

Parking area requirements are mostly existing text. A new section has been added to define when landscape islands are required, their size, and planting requirements.

Special uses: This is a section that consolidates any special landscaping requirements that exist within the zoning code. It is primarily existing language, except where a standard needed to be made uniform for hedges near day cares.

Landscape Buffers

This section is almost entirely new. It describes buffer areas, who is responsible for them, planting and access requirements. This section also includes a matrix of zoning districts that describes the minimum buffer width and planting requirements (per 100 linear foot of the buffer area) for adjacent properties.

Tree Preservation

Most tree preservation requirements have been maintained. Expanded this section's applicability and added an allowance for removal of invasives with administrative approval. Minor edits for organization and consistency are also in this section.

Tree Removal and Replacement: minor changes to applicability section for clarity sake additional changes were made for consistency with minimum replacement trees in non-agricultural zones. Minimal changes for agricultural classifications.

Replacement Trees: Changed the replacement tree calculation, added a new section to allow credit for tree preservation, and clarified replacement tree requirements for consistency. This section also changes the cost of replacement tree assessment rates.

Permitting: A new section for tree removal application requirements for singular lots has been added. Removal guidelines for Class II and III site plans has been expanded upon. The majority of the permitting section is existing or only slightly modified text.

Violations and Penalties: This section has been heavily modified to provide guidance for assessing the damages for tree removal violations. A new section for payments into the City's Tree Mitigation Fund has been created.

Appeals: This section has only been minorly edited for consistency.

Other Areas of the LDC

These changes allow for the removal of several sections of other articles due to consolidation with the into a singular landscaping code.

Article VIII: Individualized landscaping standards tied to specific uses are moved from sections 801.02 – 801.30 to the new Landscaping Code. Other codes that reference the Landscaping Code (604.04) or Tree Preservation Code (604.051).

Article X: Subdivision Landscaping improvements (1006.00) have been consolidated in the Landscaping Code.

Article XI: Minimum Site Improvements (1105.00) have been included the Landscaping Code.

ORDINANCE NO. 15-25

AN ORDINANCE OF THE CITY OF NEW SMYRNA BEACH AMENDING THE LAND DEVELOPMENT REGULATIONS; REPEALING AND REPLACING ARTICLE VI, DEVELOPMENT DESIGN AND IMPROVEMENT STANDARDS, SECTION 604.04, LANDSCAPING REQUIREMENTS AND SECTION 604.51, TREE PRESERVATION, TO UPDATE AND ENHANCE LANDSCAPING AND TREE PRESERVATION REQUIREMENTS; PROVIDING FOR CODIFICATION; PROVIDING FOR PUBLIC HEARINGS; PROVIDING FOR CONFLICTING ORDINANCES; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of New Smyrna Beach, 210 Sams Avenue, New Smyrna Beach, Florida, has requested administrative text amendments to the Land Development Regulations Article VI, Development Design and Improvement Standards, Section 604.04, Landscaping Requirements and Section 604.51, Tree Preservation to update and enhance landscaping and tree preservation; and

WHEREAS, the Planning and Zoning Board, at its regular meeting on March 3, 2025, by a vote of 5-0, recommended that the City Commission approve the text amendments; and

WHEREAS, the City Commission deems it is in the best interests of the citizens of the City of New Smyrna Beach to amend the Land Development Regulations as more particularly set forth hereinafter.

NOW, THEREFORE, BE IT ENACTED BY THE CITY COMMISSION OF THE CITY OF NEW SMYRNA BEACH, FLORIDA:

SECTION 1: ***Amendment.*** That New Smyrna Beach Land Development Regulations, Article VI, Development Design and Improvement Standards, Section 604.04, Landscaping Requirements, is hereby repealed and replaced to read as follows: **(Note: Omissions from text are indicated by [...], deletions from text are indicated by ~~strikethrough~~ and additions to text are indicated by underline.)**

. . .

ARTICLVI. DEVELOPMENT DESIGN AND IMPROVEMENT STANDARDS

604.04 Landscaping requirements.

SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF.

SECTION 2: ***Amendment.*** That New Smyrna Beach Land Development Regulations, Article VI, Development Design and Improvement Standards, Section 604.051, Tree Preservation, is hereby repealed and replaced to read as follows: **(Note: Omissions from text are indicated by [...], deletions from text are indicated by ~~strikethrough~~ and additions to text are indicated by underline.)**

ARTICLVI. DEVELOPMENT DESIGN AND IMPROVEMENT STANDARDS

604.501 Tree preservation.

SEE EXHIBIT "B" ATTACHED HERETO AND MADE A PART HEREOF.

. . .

SECTION 3: ***Codification.*** Following adoption of this ordinance, the City Clerk shall transmit a copy of this ordinance to Municipal Code Corporation of Tallahassee, Florida, to be codified into the City's Code of Ordinances. Municipal Code Corporation's usual and customary fee for said codification service is hereby approved.

SECTION 4: ***Public Hearing.*** That the public hearing considering the adoption of this ordinance shall be held at 6:30 p.m. on April 22, 2025 in the City Commission Chamber, 214 Sams Avenue, New Smyrna Beach, Florida, after notice published pursuant to §166.041(3)(a), F.S.

SECTION 5: ***Administrative Correction of Scrivener's Errors.*** The administrative correction of typographical and/or scrivener's errors in this Ordinance which do not affect the intent may be authorized by the City Manager or designee, without need of public hearing, by filing a corrected or recodified copy of same with the City Clerk.

SECTION 6: ***Conflicting Ordinances.*** That all ordinances or parts thereof that are in conflict with this ordinance shall be and the same are hereby rescinded and repealed.

SECTION 7: ***Severability.*** That if any section, sentence, clause or phrase of this ordinance is held invalid or unconstitutional by any court of competent jurisdiction, then said holding shall in no way affect the validity of the remaining portions of this ordinance.

SECTION 8: ***Effective Date.*** That this ordinance shall take effect immediately upon its final adoption.

APPROVED AS TO FORM AND CORRECTNESS:

Carrie Avallone

CARRIE AVALLONE
City Attorney

DATE: 4/2/2024

~~604.04. *Landscaping requirements.*~~

~~A. *Shrubs*. Each residential lot within a subdivision developed after the effective date of this LDR shall have a minimum of ten shrubs preserved or planted on the property. No less than eight of the shrubs shall be located in front of the home. The shrubs shall be a minimum of 18 inches in height. No certificate of occupancy shall be issued until this requirement has been met.~~

~~B. *Landscape plan.* A landscape plan, signed and sealed by a landscape architect, shall be submitted with each site plan. The plan shall indicate the type, size, and location of plant materials, and shall include plans and specifications for an irrigation system. Two sketch landscape plans shall be prepared at the site by the architect or engineer in collaboration with the city manager or his/her designee. One plan is then given to the city manager or his/her designee and the other plan is used by the architect or engineer in preparing the final landscape plan to be submitted with the site plans to the planning department.~~

~~The final landscape plan shall be reviewed by the city manager or his/her designee and no building permit shall be issued by the building department for any building until the plan is approved and the following steps have been taken: (1) a land clearing permit has been issued by the city engineer; (2) existing trees and vegetation to remain on the property have been flagged by the developer, or his/her designee, and verified by the city manager or his/her designee. A certificate of occupancy cannot be issued until the city manager or his/her designee has verified to the building official, in writing, that all landscape and irrigation improvements have been completed in accordance with the approved landscape plan.~~

~~Any existing residential, commercial, or industrial property that has an existing primary structure, that is replacing the entire existing landscaping, shall at this time meet all current landscaping regulations under Article VI.~~

~~The following regulations shall apply to the landscape plans:~~

~~(1) All plant materials shall be Florida No. 1 grade, or better, according to the current "Grades and Standards for Nursery Plants," State of Florida Department of Agriculture, Tallahassee, except where in the discretion of the city manager or his designee, natural vegetation is adequate to provide the necessary visual screening.~~

~~(2) Tree species shall be a minimum of nine feet in height and have a minimum caliper of two and one-half inches when measured six inches above ground level. Also, trees planted within 12 feet of publicly maintained streets or other improvements shall be selected from a "List of Trees" available at the parks and recreation department or shall be a tree species approved by the city manager or his designee.~~

~~(3) Shrubs and hedges shall be a minimum of two feet in height, immediately after planting. Plants shall be spaced no more than three feet apart measured from center to center.~~

(4) Ground covers may include any plant materials that reach an average height of not more than 12 inches. They may be used in lieu of grass. Ground covers must present a finished appearance and provide reasonably complete coverage at time of planting.

(5) Grassed areas shall be planted with any species of grass common to central Florida. Such areas shall be sodded, plugged, or sprigged. Sod is required in swales or other areas subject to erosion.

(6) Stone, gravel, cypress mulch, bark, or a mulch approved by the city manager or his designee shall be used in combination with other plants.

C. *Landscaped buffer requirements*. Where a landscaped buffer area is required, the following regulations shall apply:

(1) A landscaped buffer area shall be provided in zoning districts as required in article V. Such buffer shall be not less than seven feet in width unless otherwise specified, measured at right angles to the property line and landscaped with 20 percent trees, 60 percent shrubs and hedges, and 20 percent any combination of materials described in [sub]section 604.05 B.(2), (3), (4), and (6).

(2) When a landscaped buffer area abuts a single-family or two-family zoning classification, it shall include a visual screen constructed of materials as described in [sub]section 604.05 C.(3) or a decorative screening wall or fence.

(3) If plant materials are used for screening, they shall be selected and located to provide, within two years, a visual barrier that is three feet to six feet above the average ground level of the buffer area.

(4) If a decorative wall or fence is used for screening, it shall be six feet high with shrubs or vines planted abutting the side of the wall or fence facing the adjoining property or street. Shrubs and vines shall be planted at intervals of no more than ten feet.

(5) All required landscape buffer plantings shall be placed outside any utility easement.

D. *Commercial buffers.* Required off-street parking areas having off-street parking spaces for more than eight vehicles shall have interior landscaped areas covering ten percent of the total off-street parking area; however, shopping centers in the B-5, Planned Shopping Center District, shall have interior landscaped areas covering 20 percent of the total off-street parking area. Interior landscaped areas are exclusive of any required landscaped buffer areas. No more than 25 percent of the required interior landscaped area shall be placed in any one location except as necessary for minimum area requirements. The interior landscaped area shall include a minimum of one tree per 100 square feet or fraction thereof. Interior landscaped areas shall have a minimum area of 75 square feet with no dimensions less than six feet.

Each landscaped area shall include at least one tree. The remaining area shall be landscaped with shrubs (less than four feet high), grass, or a ground cover, and all plants shall be mulched.

E. *Irrigation*. All landscaped areas shall be irrigated with a workable underground irrigation system except that areas left natural do not need to be irrigated.

~~F. *Multi-family irrigation*. All multi-family developments containing more than ten units shall use a non-potable water irrigation system for watering landscaped areas.~~

~~G. *Failure to maintain irrigation system*. All landscaped areas and irrigation systems must be maintained in perpetuity by the property owner, tenant, or agent according to these regulations at a minimum. Any property owner who does not maintain the landscaped areas in a healthy, neat, and orderly fashion, free from refuse and debris, is subject to action from the code enforcement officer and citizens code enforcement board.~~

~~H. *Common space sodding requirement*. All common space, whether used for water retention or not, shall be sodded and irrigated.~~

~~I. *Residential sodding within 90 days*. All residential lots shall be fully landscaped no longer than 90 days after a certification of occupancy has been issued for the dwelling unit.~~

~~J. *Property owner's duty to sod right-of-way*. It is the responsibility of the property owner, renter, lessee, or agent, adjacent to the right-of-way to sod all areas within the right-of-way which do not contain the road, curb, or sidewalk prior to the city issuing a certificate of occupancy for a home or other building. It is the responsibility of the property owner, renter, lessee, or agent, adjacent to the right-of-way to maintain all areas within the right-of-way which do not contain the road, curb, or sidewalk, to maintain the sod or other approved materials approved by the city engineer.~~

~~K. *Curb to protect landscaping*. All landscaped areas, whether on private property or public right-of-way, shall be curbed to protect the landscaping from traffic. If the elevation of a grassed landscaped area is the same as the surrounding impervious area, than curbing shall be gapped to allow flow of water into and through the grassed landscaped area.~~

604.04 Landscaping

A. Intent:

The intent of this section is to provide minimum standards for landscaping, buffers, and tree protection for the City. The provision and enforcement of these standards enhance the health, safety, and welfare of the citizens of New Smyrna Beach and are designed to meet the following goals:

1. Improving the appearance of the City;
2. Maintaining and protecting property values;
3. Providing an acceptable degree of buffering between abutting property uses;
4. Providing appropriate barriers and relief from traffic, noise, heat, glare, and the spread of dust and debris;
5. Providing for the protection and preservation of trees and native vegetation;
6. Ensuring the local stock of native trees and vegetation is preserved;
7. Encouraging Florida-Friendly landscaping principles into landscape design; and

8. Protecting local waterways through the development of environmentally sustainable landscaping practices.

B. Applicability:

1. The types of development listed below, unless exempted, shall comply with the requirements of this code:

   a. All new construction;

   b. Any change of use which results in an increase in the required off-street parking, as determined by the standards in the City's Land Development Regulations (LDR);

   c. All non-residential redevelopment which results in an increased building footprint, reconfiguration or expansion of parking areas (including increasing or decreasing parking spaces), or development of outparcels within an existing shopping center;

   d. Clearing of any site, including root-rake clearing, shall be subject to the requirements for tree protection, submittal of a tree survey or a tree inventory prepared by a certified arborist or surveyor, and obtaining a tree removal permit;

   e. An application for a building permit for a single-family or two-family dwelling proposed on an existing parcel shall include a tree survey or a tree inventory that illustrates the species and diameter at breast height of all trees on site; and

   f. The removal of Category I invasive trees as identified on the Florida Invasive Species Council Invasive Plant list, as amended, shall require administrative waiver by the Development Services Director or his/her designee.

2. The following situations are exempt from the requirements of this landscaping code:

   a. Development that occurs within the Corridor Overlay Zone (COZ) zoning district;

   b. Any interior construction, renovation, or remodeling which does not increase the footprint of the building;

   c. Licensed plant or tree nurseries or botanical gardens with respect to those plants and trees grown for sale to the general public in the ordinary course of the licensed business or for public purposes; and

   d. The removal of underbrush and trees less than four (4) inches measured at DBH.

C. General Requirements:

1. Landscape Plan:

   a. *Single Lot: One and Two Family*

      (1) The name, address, and telephone number of the applicant, as well as a licensed landscape architect or landscape designer (if applicable);

(2) Tree survey illustrating the species, size, and location of all existing trees on site to be removed or preserved; and,

(3) Landscape plan illustrating;

i. Type, size, and location of all plant materials, in accordance with this code;

ii. Landscape area protection structures (i.e. curbs, planters, or other similar structures);

iii. Plans and specifications for any proposed irrigation system; and

iv. Required landscape buffer areas per this LDR.

b. *Subdivision, Multi-Family (3 or more units), or Commercial and Industrial*

(1) The name, address, and telephone number of the applicant, as well as a licensed landscape architect (if applicable);

(2) Tree survey illustrating the species, size, and location of all existing trees on site to be removed or preserved; and,

(3) Landscape plan signed and sealed by a licensed landscape architect illustrating:

i. Type, size, and location of all plant materials, in accordance with this code;

ii. Landscape area protection structures (i.e. curbs, planters, or other similar structures);

iii. Plans and specifications for an irrigation system; and

iv. Required landscape buffer areas, in accordance with the City's LDR.

(4) The final landscape plan shall be reviewed by the Development Services Director or his/her designee and no building permit shall be issued by the Building Department until the plan is approved and the following steps have been taken:

i. A land clearing permit has been issued by the City Engineer; and,

ii. Existing trees and vegetation to remain on the property have been flagged by the developer, or his/her designee, and verified by the Development Services Director or his/her designee.

(5) A Certificate of Occupancy cannot be issued until the Development Services Director or his/her designee has verified to the Building Official, in writing, that all landscape and irrigation improvements have been completed in accordance with the approved landscape plan.

c. *Existing Residential, Commercial, or Industrial Property*

The entire replacement of existing landscaping for existing residential, commercial, or industrial property with an existing primary structure, shall at that time be treated as new construction and meet all current landscaping regulations under Article VI. The plan shall indicate the following:

(1) The name, address, and telephone number of the applicant, as well as the registered landscape architect or landscape designer;

(2) Type, size, and location of all plant materials, in accordance with the City's Land Development Regulations (LDR);

(3) Landscape area protection structures (i.e. curbs, planters, or other similar structures);

(4) Plans and specifications for an irrigation system; and

(5) Required landscape buffer areas, in accordance with the City's LDR.

2. Landscape Materials Standards:

a. One hundred percent (100%) of all required landscaping shall be Florida-Friendly Landscaping™ (FFL). The Florida Friendly Landscaping program is a partnership between the University of Florida, Institute of Food and Agricultural Sciences Extension (UF/IFAS Extension) and the Florida Department of Environmental Protection. Detailed information for FFL standards can be found on the IFAS program website or by contacting the Volusia County's local IFAS Extension office at 3100 East New York Avenue, DeLand.

b. All plant materials shall be healthy, well proportioned, disease-free, and pest-free. Additionally, all plant materials shall be Florida No. 1 grade, or better, according to the current "Grades and Standards for Nursery Plants," State of Florida Department of Agriculture, Tallahassee, except where in the discretion of the Development Services Director or his/her designee, natural vegetation is adequate to provide the necessary visual screening.

c. Trees:

(1) Canopy trees shall be a minimum of twelve (12) feet in height and have a minimum caliper of three (3) inches when measured six (6) inches above ground level.

(2) Understory Trees shall be a minimum of eight (8) feet in height and have a minimum caliper of two (2) inches when measured at six (6) inches above ground level.

(3) Trees planted within twelve (12) feet of publicly maintained streets or other improvements shall be selected from Florida-Friendly Landscaping™ or shall be a tree species approved by the Development Services Director or his/her designee.

(4) Driveways and parking areas may be placed under the branches of trees so long as the impervious surface does not exceed fifty percent (50%) of the total area under the drip line of the tree. Impervious areas may be no closer than two (2) feet for palm trees and four (4) feet for all other species of trees.

d. Shrubs shall be a minimum of two (2) feet in height, immediately after planting. Plants for the purpose of creating hedges shall be spaced no more than three (3) feet apart measured from center to center, maintaining a minimum of thirty inches (30") in height after the first year of planting.

e. Ground covers may include any plant materials that reach an average height of not more than twelve (12) inches. They may be used in lieu of grass. Ground covers must present a finished appearance and provide reasonably complete coverage at time of planting.

f. Grassed areas shall be planted with any of the following species of grass common to central Florida: St. Augustine (Stenotaphrum secundatum), Bermuda (Cynodon Dactylon), Zoysia (Zoysia Japonica) and Bahia (Paspalum notatum). Such areas shall be sodded, plugged, or sprigged. Sod is required in swales or other areas subject to erosion.

g. Stone, gravel, pine straw, bark, or a mulch approved by the Development Services Director or his/her designee shall be used in combination with other plants. Cypress bark is not an approved material.

h. Synthetic plants or artificial material in the form of trees, shrubs, ground covers or vines shall not be used in lieu of plant requirements in this section.

3. Maintenance Requirements:

a. All plantings must be maintained in an attractive and healthy condition. Maintenance must include, but not be limited to, watering, tilling, mowing, weeding, removal of litter and dead plant material, and necessary pruning and trimming.

b. All trees may be pruned to maintain shape and promote their shade-giving qualities and to remove diseased or dying portions in areas where falling limbs could be a hazard. Trees shall be pruned only as necessary to promote healthy growth or to avoid power lines. Pruning shall comply with current International Society of Arboriculture (ISA) standards. No more than 20% of the crown shall be removed within a one (1)-year period.

c. It is the responsibility of the property owner, renter, lessee, or agent, adjacent to the right-of-way to maintain all areas within the right-of-way which do not contain the

road, curb, median, or sidewalk, to maintain the sod or other materials approved by the city engineer.

d. All landscaped areas and irrigation systems must be maintained in perpetuity by the property owner, tenant, or agent according to these regulations at a minimum. Any property owner who does not maintain the landscaped areas in a healthy, neat, and orderly fashion, free from refuse and debris, is subject to action from the Code Compliance department.

4. Sodding:

a. All landscaped common spaces, whether used for water retention or not, shall be sodded.

b. It is the responsibility of the property owner, renter, lessee, or agent, adjacent to the right-of-way to sod all areas within the right-of-way which do not contain the road, curb, or sidewalk prior to the city issuing a certificate of occupancy for a home or other building.

5. Non-Vegetative Materials.

a. Stone, gravel, artificial turf and rock beds may be used as an accent but shall not be considered permanent landscaping.

b. Stone, gravel, artificial turf and rock beds may be used as an accent but shall not require a permit unless they exceed five hundred (500) square feet.

c. Stone, gravel, artificial turf and rock beds that exceed five hundred (500) square feet are permitted subject to obtaining a permit from the Building Department and compliance with the following provisions:

(1) The installation of artificial turf is permitted in all zoning districts and limited to play areas of public/private parks and institutions.

(2) All artificial turf shall, at a minimum, be installed according to the manufacturer's specifications and shall be subject to City stormwater requirements.

(3) Installation of artificial turf within public and private rights-of-way is prohibited.

(4) Artificial turf shall not be visible from rights-of-way on residentially zoned properties.

(5) Artificial turf may not be installed within fifty (50) feet of any artificial or natural water body with the exception of swimming pools.

(6) Artificial turf is prohibited within drainage features (e.g. retention ponds, swales, and etc.).

(7) Artificial turf must be installed outside of the drip line of any tree.

(8) Artificial turf shall be considered one hundred percent (100%) impervious surface unless an acceptable maximum impervious area is submitted to and approved by

the City Engineer. The quantity of artificial turf to be incorporated into the landscaping of a property shall be limited by the maximum impervious area for the subject property within the applicable zoning district and location requirements above.

(9) Artificial turf shall consist of materials that appear natural in appearance and color. The use of indoor/outdoor plastic or nylon carpeting as an installation of artificial turf is prohibited.

6. Utilities:

a. Required plantings shall avoid utility easements unless approved by the New Smyrna Beach Utilities.

b. Where the height and location of overhead powerlines requires the planting of small or low growing trees, planting under or adjacent to powerlines shall be approved by New Smyrna Beach Utilities.

c. Required canopy tree plantings in buffer areas that fall within utility easements may be reduced to understory trees at a rate of two (2) understory trees per required canopy tree.

d. Plant materials shall be selected to minimize potential root system damage or interference with public utilities.

7. Minimum Landscape Standards:

a. Irrigation:

(1) Excepting single family lots, all landscaped areas shall be irrigated with a workable underground irrigation system. Areas left in their natural state do not need to be irrigated.

(2) All multi-family developments containing more than ten (10) units shall use a non-potable water irrigation system for watering landscaped areas if available.

b. Residential:

(1) Each residential lot shall contain a minimum of one (1) tree for every 2,000 square feet of lot area or portion thereof (rounded to the nearest whole number. If a lot contains an insufficient number of existing trees to meet this requirement, replacement trees shall be provided. A minimum of 50% of the trees provided must be a canopy tree, as defined by Florida-Friendly Landscaping™. In addition, a minimum of ten (10) shrubs preserved or planted on the property.

(2) Trees located within setbacks may only be removed upon obtaining necessary removal permits in accordance with all other sections of this code. Prior to the

issue of an approved building permit the following trees shall be preserved if located within required setbacks.

i. All historic trees.

ii. All specimen trees

iii. All other non-invasive trees meeting the landscape material standards as described in this code

c. New subdivisions:

(1) Subdivisions that create new streets shall provide a landscaped entrance buffer having minimum dimensions of twenty (20) feet in width, fifty (50) feet in depth, and 1,000 square feet in area on both sides of the main vehicular entranceway to the subdivision.

(2) Platted lots shall have a minimum of one (1) tree for every,2,000 square feet of lot area or portion (rounded to the nearest whole number) and a minimum of ten (10) shrubs preserved or planted on the property. Fifty percent (50%) of the trees provided must be canopy trees. No less than eight (8) of the shrubs shall be located in front of the home. No Certificate of Occupancy shall be issued until this requirement has been met.

(3) All recreation areas within a subdivision shall be landscaped except those with natural vegetation or conservation areas. Recreation areas having trails for walking, jogging or biking in a corridor or lineal type fashion, and having a length of at least 250 feet and a width of at least fifteen (15) feet may be left natural, stabilized, or paved.

(4) Fifteen percent (15%) of the gross area of any new subdivision shall be designated for the protection of trees. The area required to protect specimen trees as defined in this LDR's Definitions section may be included to satisfy this requirement.

d. Multi-family and Non-residential:

(1) A minimum of fifteen percent (15%) of the total gross land area of any development site shall be designated for the protection of trees. This area shall be inclusive of required landscaping, buffer areas, and preserved natural areas. This requirement may be reduced to ten percent (10%) at the discretion of the Development Services Director or his/her designee, if a site is demonstrated to have site constraints limiting access or functionality or due to existing third-party easement.

e. Parking Areas:

(1) All off-street parking lots with eight (8) or more required parking spaces and vehicular use areas (access driveways, service drives, and loading areas) are required to include landscaping.

(2) All landscaped areas, whether on private property or public right-of-way, shall be curbed to protect the landscaping from traffic. If the elevation of a grassed landscaped area is the same as the surrounding impervious area, then curbing shall be gapped to allow flow of water into and through the grassed landscaped area.

(3) Required off-street parking areas with parking spaces for eight (8) vehicles or more shall have interior landscaped areas covering ten (10%) percent of the total off-street parking area.

(4) Shopping centers in the B-5, Planned Shopping Center District, shall have interior landscaped areas covering 20 percent of the total off-street parking area.

(5) Interior landscaped areas are exclusive of any required landscaped buffer areas. No more than 25 percent of the required interior landscaped area shall be placed in any one location except as necessary for minimum area requirements.

(6) Interior landscaped area, excepting landscaped islands, shall include a minimum of one tree per 100 square feet or fraction thereof. Interior landscaped areas shall have a minimum area of 75 square feet with no dimensions less than six feet.

(7) Each landscaped area shall include at least one tree. The remaining area shall be landscaped with shrubs (less than four feet high), grass, or a ground cover, and all plants shall be mulched.

(8) A minimum of one (1) landscaped island shall be provided for every ten (10) parking spaces, as follows:

i. Each island shall contain a minimum of one canopy tree as defined by the Florida-Friendly Landscaping™. For the purpose of accent or landscape design, other trees may be used if approved by the Development Services Director or his/her designee.

ii. Islands shall divide parking spaces in order to relieve large expanses of paved areas.

iii. The size of the island shall be a minimum width of nine (9) feet, as measured from the interior side of the curb, and a minimum area of one hundred sixty (160) square feet. A reduction in width may be allowed on a case-by-case basis, down to six (6) feet wide, and one hundred (100) square feet of area upon approval of the Development Services Director or his/her designee.

iv. Parking lot islands are required at all terminal ends of parking space rows, regardless of whether they have more than ten (10) parking spaces in that row.

v. A waiver of the required ten (10) parking spaces without an island can be authorized by the Development Services Director or his/her designee, if in support of existing tree preservation. In no case shall there be more than fifteen (15) parking spaces without an island. Should a waiver be approved,

landscaped islands shall be provided at a minimum width of ten (10') feet wide, as measured form the interior side of curb, and have a minimum area of one hundred eighty (180) square feet.

(9) Tree preservation in parking areas. Preservation and planting of trees in parking lots shall be approved by the Development Services Director or his/her designee in accordance with this LDR. The preservation of trees in parking areas having a diameter of four (4) inches DBH or larger qualify for a reduction in required parking spaces at the discretion of the Development Services Director or his/her designee, when the reduction in parking spaces will preserve approved species of trees. A reduction of up to fifteen percent (15%) of the required parking spaces may be approved, the total reduction in parking spaces shall not exceed fifty (50) spaces. The reduction in parking spaces shall be subject to the following:

i. The number of parking spaces and the percentage of parking reduction requested shall be provided on each site plan application.

ii. The required number of parking spaces shall be designated on an approved site plan.

D. Additional Requirements for Specific Uses:

The following uses require additional considerations beyond the minimum requirements listed above:

1. Adult congregate living facilities: In addition to the LDR Section 504.00 requirements, twenty five percent (25%) of the yard shall be covered with grass or other vegetation. Vegetation or plants other than grass shall be approved by the Development Services Director or his/her designee.

2. Airport Industrial Park: All unpaved lot areas shall be tastefully landscaped with an effective combination of trees, shrubbery, and ground cover. Decorative plazas, pools, flower beds, rock gardens, and other decorative treatments, may be incorporated. Landscaping is to be accomplished using quality materials and workmanship.

3. Child day care on church property: Play areas shall be fenced and landscaped. The landscaping shall include a vegetative hedge planted at least four (4) feet in height, three (3) feet on center, and be six (6) feet in height within two years.

4. Construction and demolition debris disposal facility, materials recovery facility, recovered materials facility or off-site disposal of land clearing debris facility: Perimeter landscape buffers shall be established prior to initiation of the activity and shall be a minimum of fifty (50) feet adjacent to all boundaries.

E. Landscape Buffers:

Where a landscaped buffer area is required, the following regulations shall apply:

1. In General:

a. Buffer areas shall consist of a combination of trees, shrubs, and groundcover. The number of required minimum plantings for trees and shrubs shall conform to Buffer Table 2. A minimum of 20% of the buffer area shall be planted with groundcover.

b. The property owner shall be responsible for the creation and maintenance of all required buffer areas.

c. Some uses may require screening from adjacent properties in the form of opaque fencing, masonry walls, or vegetative hedges.

d. If plant materials are used for screening they shall be at least three (3) feet tall at time of planting.

e. If a decorative wall or fence is used for screening, it shall be six (6) feet high with shrubs planted abutting the side of the wall or fence facing the adjoining property or street. Shrubs shall be planted at intervals of no more than six (6) feet.

f. Any proposed landscape buffer plantings within a utility easement shall be approved by New Smyrna Beach Utilities.

g. A fence or wall included in a buffer screen shall be constructed with the side of the fence or wall with the finished appearance facing the use of lesser intensity or right-of-way.

h. Access through buffer areas to facilitate pedestrian or vehicular traffic between adjacent properties shall not reduce the requirement for plantings based upon linear feet.

i. Access for pedestrian paths or bike trails through a buffer shall be a maximum of one (1) foot wider than the path or trail and located not less than 100 feet apart.

j. A buffer may incorporate stormwater low impact development (LID) best management practices (BMPs) as long as the required plantings are also provided, the landscaping does not interfere with proper functioning of the stormwater system, and the design water depth does not harm the viability of such plantings.

k. Street lighting may be incorporated into the buffer area.

l. Vertical construction, parking, storage, active recreation and loading areas shall not be permitted to encroach a designated buffer area, except for approved pedestrian and bike path access as described above.

2. A buffer shall be required between zoning districts according to the standards set forth in Buffer Table 1. The existence of public or private right-of-way along a property boundary shall not be construed as meeting any part of the buffer requirement, nor as relieving the applicant from providing the required buffer.

Buffer Table 1.

Intensity of Use	1	2	3	4	5
1: A-1C, A-2, A-3, A-4, FR, C, RA, R	No Buffer	Low	Low	Medium+	High
2: RE, R-1, R-2, R-2A, R-3, R-3A, , R-1CO, R-3CO	Low	No buffer	Low	Medium	High
3: R-3B, R-4, R-5, R-6z, MH-1, MH-1CO, MH-2, MH-4	Low	Low	Low	Medium	Medium +
4: MU*, B-2, B-3**, B-4, B-5, B-6, B-6A, CM, I-1	Medium+	Medium	Medium	Low	Medium +
5: I-2, I-3, I-4	High	High	High	Medium+	Medium

*MU zoning district is exempt from buffers except for a five (5) foot buffer around parking areas or when adjacent to residentially zoned properties.

**B-3 zoned parcels may provide a minimum buffer width of five (5') feet abutting other B-3 zoned parcels. B-3 zoned parcels may provide a minimum buffer width of five (5') feet abutting residentially zoned properties when a six (6') foot tall block wall is provided. These buffered areas shall require two (2) canopy trees and thirty-three (33) shrubs planted per 100 linear feet and 20% of the buffer area planted with groundcover.

3. Where a buffer is required it shall conform to the standards set forth in Buffer Table 2.

Buffer Table 2.

Buffer Type	Buffer Width	Required minimum plantings per 100 linear feet
Low	10 Feet	Two (2) Canopy Trees, 66 Shrubs
Medium	15 Feet	Two (2) Canopy Trees, four (4) Understory Trees, 100 Shrubs
Medium +	15 Feet	Two (2) Canopy Trees, four (4) Understory Trees, 100 Shrubs Unbroken hedge, fence, or wall.
High	20 Feet	Three (3) Canopy Trees, Four (4) Understory Trees, 133 Shrubs Unbroken hedge, fence, or wall.

Exhibit "B"

604.051 Tree Preservation:

A. *In general - Tree removal.* It is unlawful for any person to cut down, move, remove or destroy any tree in violation of the rules of this section. It is unlawful for any person to cut down, move, remove or destroy any tree without first obtaining a tree removal permit (if a permit is required) from the city's development services department. No permit to cut down, move, remove or destroy any tree (if a permit is required) shall be issued for any property unless the property owner has an active building permit or land clearing and water management permit. Fees to cut down, move, remove or destroy any tree shall be as established by resolution of the city commission. Removal of mangrove trees shall require a permit from the Florida Department of Environmental Protection (if a permit is required). West of the Indian River, this section shall apply to trees that are six inches or greater in diameter measuring four feet above ground level and trees with a multi-stem trunk system with a well developed crown at least 15 feet high as measured from its base shall be subject to the provisions of this section. East of the Indian River, this section shall apply to trees that are four inches or greater measured four feet above ground level. Trees smaller than the aforesaid trees (to wit: saplings) are specifically excluded and shall not be subject to the provisions of this section. The tree regulations for the city shall be generally in three groups: residential, commercial and industrial, and agriculture zoning classifications. The specific zoning classifications that are covered within each of these groups are set forth in each individual group.

(1) *Residential zoning classifications.* The following tree removal and replacement requirements shall apply in all land zoned for residential uses. This provision shall apply in the RE, R-1, R-2, R-2A, R-3, R-3A, R-3B, R-4, R-5, R-6, MH-1, MH-2 zoning districts.

a. Minimum tree coverage standard. All properties zoned for residential uses shall have no less than one tree for every 2,500 square feet of property.

b. Time to come into compliance with minimum tree coverage standard.

1. New construction on vacant property zoned for residential uses shall comply with the minimum tree coverage standards prior to issuance of a certificate of occupancy.
2. Existing nonconforming properties shall comply with the minimum tree coverage standard when all of the existing structures on the property are replaced with new structures. As an alternative to planting the minimum number of required trees on-site, owners of nonconforming properties shall be allowed to pay into the city's tree mitigation fund. The cost of replacement shall be as outlined in subsection B., below. The option to provide a payment into the tree mitigation fund shall only apply to properties zoned or used exclusively for single-family and two-family residential uses. Properties having made an application for building or development permits prior to the adoption of this section and active at the time of adoption of this section shall comply with the tree regulations in force at the time the building or development permit application was made.

c. Permit and tree replacement requirement.

1. Residentially zoned property. All tree removal on land zoned for residential uses shall be in compliance with this provision.

(a) Trees that may be removed without a permit and no replacement trees are required. The trees listed on the Florida Exotic Pest Plant Council (FLEPPC) list may be removed from land zoned for residential uses without obtaining a permit from the city and replacement trees shall not be required to replace trees that have been removed, provided that the removal of the tree or trees does not result in the number of the trees on the property falling below the minimum tree coverage standard of no less than one tree for every 2,500 square feet of property. If the removal of a tree or trees results in the number of the trees on the property falling below less than one tree for every 2,500 square feet of property replacement trees are required.

(b) Trees that permits for removal are required and replacement trees are not required. The trees listed below may be removed from land zoned for residential uses with a permit from the city and replacement trees shall not be required to replace trees that have been removed, provided that the removal of the tree or trees does not result in the number of the trees on the property falling below the minimum tree coverage standard of no less than one tree for every 2,500 square feet of property. If the removal of a tree or trees results in the number of the trees on the property falling below less than one tree for every 2,500 square feet of property replacement trees are required.

i. All dead, dying and diseased trees.

(c) Trees requiring permits for removal and replacement trees are required. The trees listed below may be removed from land zoned for residential uses with a permit from the city and replacement trees shall be required to replace trees that have been removed. However, if the removal of a tree or trees does not result in the number of trees on the property falling below the minimum tree coverage standard of no less than one tree for every 2,500 square feet of property, no replacement trees shall be required.

i. All healthy specimen trees.

ii. All healthy historic trees (permit must be issued by city commission.)

iii. All healthy trees other than the invasive exotic trees listed in (1)c.1.(a) above.

(2) *Commercial and industrial zoning classifications.* The following tree removal and replacement requirements shall be required in all land zoned for commercial and industrial uses. This provision shall apply in the MU, B-2, B-3, B-4, B-5, B-6, B-6A, CM, I-1, I-2, I-3, I-4, BBH, COZ, PUD, HBOD, C, and R zoning districts.

a. *Minimum tree coverage standard.* All properties zoned for commercial and industrial uses shall have no less than one tree for every 2,500 square feet of property or as required by an approved site plan.

b. *Time to come into compliance with minimum tree coverage standard.* New construction shall comply with the minimum tree coverage standards prior to issuance of a certificate of occupancy. All nonconforming properties shall comply with the minimum tree coverage standard when all of the existing structures on the property are replaced with new structures. Properties having made an application for building or development permits prior to the adoption of this section and active at the time of the adoption of this section shall comply with the tree regulations in force at the time the building or development permit application was made.

c. *Permit and tree replacement requirement.*

1. Commercial and industrial zoned property. All tree removal on land zoned for other than residential uses shall be in compliance with this section.

(a) Trees that may be removed without a permit and no replacement trees are required. The trees listed on the Florida Exotic Pest Plan Council (FLEPPC) list may be removed from land zoned for commercial and industrial uses without obtaining a permit from the city and replacement trees shall not be required to replace trees that have been removed, as long as the removal of the tree or trees does not result in the number of the trees on the property falling below the minimum tree coverage standard of no less than one tree for every 2,500 square feet of property or as required by an approved site plan. If the removal of a tree or trees results in the number of the trees on the property falling below less than one tree for every 2,500 square feet of property or removal of the trees is required by an approved site plan, replacement trees are required.

See, section 169(a)(6) of the Volusia County Code of Ordinances for list of exempt species of trees.

(b) Trees that permits for removal are required and replacement trees are not required. The trees listed below may be removed from land zoned for commercial and industrial uses with a permit from the city and replacement trees shall not be required to replace trees that have been removed, so long as the removal of the tree or trees does not result in the number of the trees on the property falling below the minimum tree coverage standard of no less than one tree for every 2,500 square feet of property or as required by an approved site plan. If the removal of a tree or trees results in the number of the trees on the property falling below less than one tree for every 2,500 square feet of property or removal of the trees is required by an approved site plan, replacement trees are required.

i. All dead, dying and diseased trees.

See, section 169(a)(3) of the Volusia County Code of Ordinances.

(c) Trees requiring permits for removal and replacement trees are required. The trees listed below may be removed from land zoned for commercial and

industrial uses with a permit from the city and replacement trees shall be required to replace trees that have been removed.

i. All healthy specimen trees.

ii. All healthy historic trees (permit must be issued by city commission.)

iii. All healthy trees other than the invasive exotic trees listed in (2)c.1.(a) above.

(3) *Agriculture zoning classifications.* Trees located on agricultural cultivation or grazing land, or on commercial plant nursery sites are exempt from the provisions of this section. This provision shall apply in the A-1, A-2 and FR zoning districts, and property on which trees were planted and grown for sale to the general public or some public purposes, and licensed plant or tree nurseries, and botanical gardens (See, section 169(a)(5) [of the] Volusia Code of Ordinances). The exemption in this provision shall be subject to the following condition. Any property owner who removes or destroys trees from agricultural cultivation or grazing land, or commercial plant nursery sites within three years of filing an application for rezoning to a non-agricultural classification, applying for subdivision approval, or filing for special exception approval shall be presumed to have performed such removal or destruction of trees with the intent of developing the land for a non-agricultural use and shall not be exempt from the provisions of this section. Said presumption shall be a legally rebuttable presumption. The property owner shall have rebutted the presumption that the removal or destruction of trees on his property was with the intent of developing the land for a non-agricultural use by filing a sworn and notarized affidavit with the city attesting that any trees that were removed in the past three years from the subject property were removed in conformity with recognized agricultural management or production practices and not merely for the purpose of avoiding the requirements of this section. The affidavit filed by the property owner may be challenged by the city within 30 days of filing the affidavit. In the event that the city elects to challenge the property owner's affidavit, the exemption may be denied by the city upon showing by substantial competent evidence that the trees were not removed in conformance with recognized agricultural management or production practices. The city shall have the burden of proof to refute the affidavit filed by the property owner. Any decision to deny an exemption under this provision shall be in writing, state the factors considered in denying the exemption, state the reasons for denying the exemption, and be signed by the city manager or his designee. The city shall consider, among any and all other relevant factors, the following when reviewing any request for an exemption under this provision:

a. The specific reasons stated by the property owner for removal of the trees.

b. The length of time the land has been in agricultural production.

c. Whether the agricultural use has been continuous.

d. The size of the area as it relates to efficient agricultural production.

e. Whether the land has been sufficiently and adequately cared for within accepted commercial practices of the dominant type of production.

f. Whether the land is under lease and if so, the type and terms of said lease.

g. Whether the tree removal was done in the ordinary course of business.

h. Any contract for sale in existence at the time the affidavit is submitted.

i. Other factors that are relevant to the determination of good faith land use.

The applicant shall submit with its application for an exemption to the tree replacement requirement copies of any and all contracts, agreements, deeds and all usual and customary business records that would be reasonably necessary for the city to review to determine whether or not the applicant is entitled to an exemption. The applicant shall not fraudulently withhold any document.

See generally, section 169(a)(2) of the Volusia County Code of Ordinances.

(4) *Reserved.*

B. *Replacement trees.*

(1) Approved trees. Only the following trees shall be planted to meet the minimum tree requirements of this section and as replacement trees:

See Exhibit "A" attached hereto and by reference made a part hereof.

Historic and specimen trees shall be replaced with trees of like species unless like species are not reasonably available.

(2) Prohibited trees. The following trees may not be planted to meet the minimum tree requirements and shall be removed when new construction is undertaken on a parcel.

All trees listed as Category I invasive species by the Florida Exotic Pest Plant Council are prohibited.

(3) Replacement of trees shall be calculated based on the replacement of one-tenth of the total cross-sectional area of the trunk(s) of the protected tree(s) permitted for removal. Cross-sectional area shall be measured at the DBH of the tree. Single trees may be replaced with two or more trees meeting the standards as set forth in the following paragraph. For one and two-family residences, replacement trees are to be provided based on one replacement tree for each protected tree 12 inches or less DBH and two replacement trees for each tree in excess of 12 inches DBH.

(4) Replacement trees shall be a minimum of nine feet in height and have a minimum caliper of two and one-half inches when measured six inches above ground level. Replacement trees must be maintained in good condition.

(5) Replacement trees shall be selec ted from the tree list included as section B.(1), above. Historic and specimen trees must be replaced with trees of like species unless like species are not reasonably available.

(6) Palms may be used as replacement stock up to the full cross-sectional area of palms being removed from the site and for up to one-third of the cross-sectional

area for replacement of non-palm species at the ratio of 16 square inches of replacement cross-sectional area of palms for each square inch of required non-palm species replacement. Where non-palm species are proposed as replacements for palm trees, the replacements shall be done according to the following chart:

DBH of Palm	DBH of Non-Palm Species
6 inches	1.5 inches
8 inches	2 inches
10 inches	2.5 inches
12 inches	3 inches
14 inches	3.5 inches
16 inches	4 inches

(7) When replacement trees are required, the replacement trees shall be provided prior to the issuance of a certificate of occupancy. If there is no certificate of occupancy required for the site, then the replacement trees shall be installed within 60 days of the date when notice is provided that replacement trees are required.

(8) Survival of replacement trees shall be guaranteed for one year. Replacement trees that die during the first year after planting must be replaced.

(9) In the event that a property has existing tree canopy coverage of 30 percent or greater of the property, the property owner may elect to place required replacement trees on the public right-of-way immediately adjacent to the property owner's property, or on the publicly-owned neighborhood park or recreation area servicing the property owner's property. Said park or recreation area must be within the incorporated boundaries of the city. The type of trees to be planted and the location of the trees must be approved by the city department responsible for the operation of the public right-of-way, park, or recreation area. The city may grant permission when the proposed tree planting is accompanied by an approved landscape plan and associated maintenance and guarantee agreement between the developer requesting the plantings and the city department that would be responsible for the area in which the trees would be placed. This provision shall in no way affect a property owner's right to seek and receive a general variance granted by the planning and zoning board from the tree preservation requirements.

(10) Except as exempted in [sub]section 604.051(B)(9), above, tree replacement shall occur on-site, if there is adequate space to plant the replacement trees. If there is not sufficient space on-site, the developer shall then plant replacement trees within public rights-of-way immediately adjacent to the property owner's

property, or on the publicly-owned neighborhood park or recreation area servicing the property owner's property, provided such park is within the incorporated boundaries of the city. If replacement trees cannot be placed within public rights-of-way or parks, the developer shall provide a payment to the city for the cost of the remaining replacement trees. The developer shall pay these fees into the city Tree Mitigation Fund.

The cost of replacement trees shall be $500.00 per 2.5-inch caliper hardwood tree, measured six inches above grade level or 8-inch caliper palm tree measured four feet above grade. The cost per tree shall be reviewed beginning January 1st of each calendar year. Costs shall be based upon average costs per tree as established by local nurseries selling trees that meet the minimum size requirements outlined in this section. If needed, an amendment to the Code will be brought to the planning and zoning board in February of each calendar year.

Funds deposited into the Tree Mitigation Fund shall be appropriated in accordance with the annual adopted budget of the city for, but not limited to, the following projects:

- Planting native trees, shrubs and plants on city-owned property.
- Purchasing environmentally sensitive land for permanent preservation.
- Purchasing a vacant parcel that could be planted with replacement trees.
- Removing invasive species from city-owned property.
- Raising community awareness about the care of the natural environment.
- Funding of matching grants for projects involving vegetative plantings.
- Designing and planting right-of-way beautification projects.

C. *Tree protection during construction.*

(1) Marking trees. Prior to the commencement of construction any tree or tree groups to be maintained shall be clearly marked and the markings shall remain in place during construction. Any land clearing equipment shall be operated in a manner as not to injure or destroy any trees designated to remain on the site.

(2) Temporary barriers. During the period of construction a temporary barrier at least three feet in height shall be formed a minimum of seven feet from the base of the tree or trees and it shall include at least 50 percent of the area under the drip line of the tree(s). (Driveways and parking areas may be placed under the branches of trees so long as the impervious surface does not exceed 50 percent of the total area under the drip line of the tree. The impervious area may not be located closer than six feet from the trunk of the tree.)

(3) Natural soil level. Except for palm trees, all trees and replacement stock shall have their natural soil level maintained. Tree wells and/or planter islands shall be provided if necessary to maintain the natural existing soil level.

D. *Variances.* The following variances shall be allowed as variances to the minimum tree standards provided for in this section. Variances shall be reviewed and approved by the development services director or his designee.

(1) Variances allowing removal without replacement. Trees may be removed without replacement for the following purposes:

a. Trees in areas needed for a septic tanks and drain field (must be approved by health department and the septic tank and drain field can not reasonably be moved to another location).

b. Trees in the areas that need to be de-mucked to stabilize soils. Future development on the property must comply with the general minimum tree standards.

c. Trees in the building foot print plus ten feet around the foot print of a single-family or two-family residence or permitted accessory structures (For example: driveways, sidewalks, patios, and swimming pools) for a single family or two-family residence.

d. Trees need to be removed to construct a golf course. Historic and specimen trees must be replaced in accordance with the provisions for replacing historic and specimen trees.

e. Trees need to be removed to construct an athletic field.

(2) Variances allowing removal with replacement. Trees may be removed with replacement for the following purposes.

a. Trees in building foot print for multi-family residential structures.

b. Trees in building foot print for commercial structures.

c. Trees in building foot print for industrial structures.

E. *Exemptions.* The following exemptions shall apply to this section. Exemptions shall be reviewed and approved by the development services director or his designee.

(1) Storm threat to a residential structure. Residential structure exemption from tree protection.

Notwithstanding any provision to the contrary in this section, any tree that could fall on a residential structure is exempt from all city tree preservation requirements and may be removed at any time with the permission of the owner. To qualify for this exemption, the residential structure subject to being hit by the tree must be located on a lot zoned and used for single-family dwellings. The removal of a tree under this provision requires the tree owner's written authorization and a tree removal permit issued by the city. Trees removed under this provision are exempt from all tree replacement requirements.

(2) Public safety and sanitary exemptions. Trees may be removed without replacement for the following purposes:

a. Trees threatening air safety.

b. Trees in public rights-of-way for either construction or maintenance. (Note: Specimen trees on the public rights-of-way must be replaced with a replacement

tree at the closest location on public right-of-way available. See section 50-169(4) of the Volusia Code of Ordinances.)

c. Trees interfering with the construction of utilities, so long as the removal of the trees does not reduce landscape buffer plantings below the minimum requirements. If the placement of utilities results in a reduction of plantings below the minimum buffer requirements, the plantings must be replaced by the person granted the tree removal permit for new development, or by the utility responsible for the removal of the trees for utility construction, reconstruction or maintenance on all other properties. The replacement rate shall be ten percent of the cross-sectional area of the trees to be removed.

d. Trees and vegetation posing a fire hazard which threaten life or property may be removed by written authorization of the fire chief or his designee.

F. *Permitting.* The tree removal application shall be made in the following manner:

(1) Sites requiring plan review committee (class II or class III site plans) approval shall be required to provide a survey of the property prepared by a surveyor registered with the State of Florida showing existing features of the property including elevations, buildings, structures, trees over six inches in trunk diameter at 4.5 feet above ground level, all specimen and historic trees, streets, utility easement rights-of-way, and land use. For properties east of the Indian River the survey must show trees over four inches in diameter at 4.5 feet above ground level. In lieu of a tree survey an applicant may submit any generally accepted method of calculating the number of trees.

Class I site plans may submit a sketch in place of a tree survey.

No permit to clear or grade shall be issued until either the required survey or sketch is filed.

(2) The location of all trees on the site, designating the trees to be retained, removed, relocated or replaced. Groups of trees in close proximity may be designated as "clumps" of trees with the estimated number shown. Historic trees, specimen trees, and those trees to be removed, relocated or replanted must be named (botanical) on the site plan.

(3) In the case of partial development, show only those areas and items affected.

(4) Upon receipt of the application and fee for tree removal permit, the city manager or his designee shall review the plans and may inspect the site.

(5) If the work described is not begun within one year from the date of issuance of the permit for tree removal, said permit shall be void. The city manager or his designee reserves the right to extend or rescind the tree removal permit if conditions warrant.

(6) Historic trees in all zoning districts shall be removed only upon a tree removal permit granted by the city commission at a quasi-judicial public hearing, after a finding that the evidence presented is more compelling for the removal of the historic tree than for it to remain.

a. Petitioners wishing to obtain a permit must show:

i. The tree is currently damaging or is posing an imminent danger to an existing structure; or

ii. The tree is damaging and/or interfering with the installation. operation, and/or maintenance of existing or proposed public infrastructure; or

iii. The tree is dead, diseased, structurally unsound, or severely injured such that the tree is likely to die within two years; or

iv. Other extraordinary circumstance or hardship where the applicant has demonstrated that no other feasible option exists to preserve the tree.

b. Applications for historic tree removals shall be accompanied by a written tree evaluation report prepared by an ISA certified arborist which identifies the tree's location, size, species, condition, and basis for meeting one or more of the listed removal conditions.

(7) Specimen trees 24 inches DBH or greater shall be removed only upon a tree removal permit approved by the Development Services Director, based on the proposed tree removal meeting one of the four conditions listed in Section 604.051(F)(6)(a). Appeals of the Director's decision may be made to the City Commission as a quasi-judicial matter.

G. *Appeal.* Within 30 days after any decision made by the city manager or his designee in the administration and interpretation of this section, but not thereafter, the applicant may appeal to the city commission, who by majority vote may affirm, reverse or modify the decision of the city manager or his designee. The city commission's review of the city manager's decision shall be de novo with notice to all interested parties at least ten days prior to the hearing on the appeal. Notice shall be made by the city clerk by U.S. mail and by publication in a newspaper of general circulation in the city of the time and place of the hearing. Any decision by the city commission shall be subject to review by the circuit court of appeal.

H. *Violations and penalties.* Any person, organization, society, association, or corporation or any agent or representative thereof, who shall violate the provisions of this section shall, upon a finding of violation by the code enforcement board, be required to replace all trees with trees chosen from the "Large and Medium Trees" section of the "New Smyrna Beach Tree List" provided as Exhibit A, necessary to provide the total cross-sectional area of the tree(s) removed, provided that no individual replacement tree shall have a diameter of less than six inches when measured four feet above ground level, a height of no less than 15 feet and a crownspread of not less than ten feet. The replacement of trees under this section shall not preclude the imposition of any other penalties provided by law or ordinance for the violation. Replacement trees shall be maintained and guaranteed survival for one year.

I. *Stop work orders.* The city shall issue a stop work order to any person found in the act of cutting down, destroying, damaging or removing trees in violation of this section (See, section 50-165 of the Volusia Code of Ordinances.)

J. *Tree preservation in parking areas.* Preservation and planting of trees in parking lots shall be approved by the city horticulturist in accordance with section 604.051. If trees

having a diameter of six inches or larger on the mainland, or four inches or larger on the beachside are preserved in parking areas, a reduction in required parking spaces shall be allowed, when the reduction in parking spaces will preserve species of trees other than species listed in section 604.051B(2). The city horticulturist shall approve the reduction of required parking spaces as provided below. The reduction in parking spaces shall not exceed 50 spaces. The reduction in parking spaces shall be subject to the following limitations:

(1) The required number of parking spaces shall be designated on an approved site plan.

(2) The reduction of required parking spaces shall be allowed as set forth below. In no event shall the reduction in spaces exceed 50 parking spaces.

Required Parking Spaces	Maximum Reduction in Spaces
1—40	0
5—41	1
15—24	2
25 or more	10% rounded to the nearest whole number, not to exceed 50 spaces

A. In General:

1. It is unlawful for any person to cut down, move, remove or destroy any tree without first obtaining a tree removal permit, as required by the standards of this landscaping code, from the City's Development Services Department. No permit to cut down, move, remove or destroy any tree shall be issued for any property unless the property owner has an active building permit, or land clearing permit, or water management permit.

2. Fees to cut down, move, remove or destroy any tree shall be as established by resolution of the City Commission.

3. Removal of mangrove trees shall require a permit from the Florida Department of Environmental Protection.

4. This section shall apply to trees that are four (4) inches or greater in diameter at DBH.

5. Trees with a multi-stem trunk system with a well-developed crown at least fifteen (15) feet high as measured from its base shall be subject to the provisions of this section.

6. The removal of Category I invasive trees as identified on the Florida Invasive Species Council Invasive Plant list, as amended, shall require administrative waiver by the Development Services Director or his/her designee.

7. The tree regulations for the city shall be generally in three groups: residential, commercial and industrial, and agriculture zoning classifications. The specific zoning

classifications that are covered within each of these groups are set forth in each individual group.

B. Residential Areas:

1. *Residential zoning classifications.* The following tree removal and replacement requirements shall apply in all land zoned for residential uses. This provision shall apply in the RE, R-1, R-2, R-2A, R-3, R-3A, R-3B, R-4, R-5, R-6, R1-CO, R3-CO, MH-1, MH-2, MH1-CO, MH2-CO, zoning districts.

2. *Minimum tree coverage standard.* All properties zoned for residential uses shall have no less than one (1) tree for every 2,000 square feet of property or portion thereof (rounded to the nearest whole number). Example: 8,900 sf: 4 trees, 9,100: 5 trees.

   If any lot contains an insufficient number of existing trees to meet this requirement replacement trees shall be provided by the owner.

3. Time to come into compliance with minimum tree coverage standard.

   a. New construction:

      (1) New construction on vacant property zoned for residential uses shall comply with the minimum tree coverage standards prior to issuance of a certificate of occupancy.

      (2) All residential lots shall be fully landscaped no longer than 60 days after a certificate of occupancy has been issued for the dwelling unit.

   b. Existing nonconforming properties shall comply with the minimum tree coverage standard when all of the existing structures on the property are replaced with new structures. An Alternative to this requirement is described in Section (7), below.

4. *Fifteen percent of development set aside for trees.* Fifteen percent (15%) of the area of any subdivision shall be designated for the protection of trees. The area required to protect specimen trees may be included to satisfy this requirement. This required area may be constituted as one or more sub-areas within the development. Said area may include any landscape buffer or other landscape areas required by the LDR for a development. Such designated areas shall contain sufficient land area to comply with minimum tree protection standards to adequately protect the trees contained within the areas. A minimum of fifty percent (50%) of the required minimum number of trees as provided in section (5) below shall consist of existing trees within said area. This requirement does not apply to single-family lots in approved subdivisions or additions, remodeling or similar modification of existing multi-family or non-residential development.

5. *Specimen tree protection.* The following table sets forth the minimum requirements for the protection of specimen trees:

No. of Specimen Trees	Minimum Specimen Tree Protection Requirement
Less than 3 per acre	80% of all specimen trees
3.0 to 5.0 per acre	65% of all specimen trees
5.1 to 8.0 per acre	50% of all specimen trees
8.0 or more per acre	30% or 6, whichever is greater, specimen trees per acre

6. *Legal mechanism to protect specimen trees.* The developer of a subdivision shall provide legal mechanisms which ensure the protection of specimen trees after construction has occurred. Such mechanisms may include but shall not be limited to conservation easements, common open space, tree protection easements, deed restrictions and homeowner's association documents. Specimen tree protection on residential lots shall only apply in the designated setback areas. Said legal mechanisms shall be reviewed and approved by the City Attorney.

7. As an alternative to meeting the minimum number of required trees on-site, owners of nonconforming properties shall be allowed to pay into the city's tree mitigation fund. The cost of replacement is outlined in in the Tree Removal and Replacement subsection, below. Properties having made an application for building or development permits prior to the adoption of this section and active at the time of adoption of this section shall comply with the tree regulations in force at the time the building or development permit application was made.

C. Commercial and Industrial Areas:

1. *Commercial and industrial zoning classifications.* The following tree removal and replacement requirements shall be required in all land zoned for commercial and industrial uses. This provision shall apply in the MU, B-2, B-3, B-4, B-5, B-6, B-6A, CM, I-1, I-2, I-3, I-4, BBH, COZ, PUD, HBOD, C, R and PUD zoning districts.

2. *Minimum tree coverage standard.* All properties zoned for commercial and industrial uses shall have no less than one (1) tree for every 2,000 square feet of property or as required by an approved site plan. A minimum of fifteen percent (15%) of the total gross land area of any development site shall be designated for the protection of trees. This area shall be inclusive of required landscaping, buffer areas, and preserved natural areas. This requirement may be reduced to ten percent (10%) at the discretion of the Development Services Director or his/her designee, if a site is demonstrated to have site constraints limiting access or functionality or due to existing third-party easement.

3. *Time to come into compliance with minimum tree coverage standard.* New construction shall comply with the minimum tree coverage standards prior to issuance of a certificate of occupancy. All nonconforming properties shall comply with the minimum tree coverage standard when all of the existing structures on the property are replaced with new structures. Properties having made an application for building or development

permits prior to the adoption of this section and active at the time of the adoption of this section shall comply with the tree regulations in force at the time the building or development permit application was made.

D. *Tree Protection During Construction*

1. *Marking trees.* Prior to the commencement of construction, any tree or tree groups to be maintained shall be clearly marked and the markings shall remain in place during construction. Any land clearing equipment shall be operated in a manner as not to injure or destroy any trees designated to remain on the site.

2. *Temporary barriers.* During the period of construction, a temporary barrier at least three (3) feet in height shall be formed a minimum of seven (7) feet from the base of the tree or trees and it shall include at least fifty percent (50%) of the area under the drip line of the tree(s).

3. *Natural soil level.* Except for palm trees, all trees and replacement stock shall have their natural soil level maintained. Tree wells and/or planter islands shall be provided if necessary to maintain the natural existing soil level.

E. Tree Removal and Replacement:

1. *Residential, Commercial, and Industrial Zoned Property.* All tree removal on land zoned for residential, commercial, and industrial zoned uses shall be in compliance with this provision.

   a. Trees not requiring permits or mitigation.

      The trees listed on the Florida Invasive Species Council list of Category I trees may be removed with an administrative waiver issued by the Development Services Director or his/her designee and replacement trees shall not be required to replace trees that have been removed, provided that the removal of the tree or trees does not result in the number of the trees on the property falling below the minimum tree coverage standards. If the removal of a tree or trees results in the number of the trees on the property falling below the minimum tree coverage standard replacement trees are required.

   b. Trees requiring permits for removal and do not require mitigation.

      All dead, dying and diseased trees, per an arborist report, may be removed with a permit from the city and replacement trees shall not be required to replace trees that have been removed, provided that the removal of the tree or trees does not result in the number of the trees on the property falling below the minimum tree coverage standard of no less than one (1) tree for every 2,000 square feet of property. If the removal of a tree or trees results in the number of the trees on the property falling below less than one (1) tree for every 2,000 square feet of property replacement trees are required.

c. Trees requiring permits for removal and may require mitigation.

The trees listed below may be removed with a permit from the city and replacement trees shall be required to replace trees that have been removed.

(1) All specimen trees.

(2) All historic trees (permit must be issued by City Commission.)

(3) All other trees not described in (1) or (2) above.

2. *Agriculture Zoning Classifications.* This provision shall apply in the A-1, A-2 and FR zoning districts, and property on which trees were planted and grown for sale to the general public or some public purposes, and licensed plant or tree nurseries, and botanical gardens. Trees located on agricultural cultivation or grazing land, or on commercial plant nursery sites are exempt from the provisions of this section, with the following conditions:

a. Any property owner who removes or destroys trees from agricultural cultivation or grazing land, or commercial plant nursery sites within three (3) years of filing an application for rezoning to a non-agricultural classification, applying for subdivision approval, or filing for special exception approval shall be presumed to have performed such removal or destruction of trees with the intent of developing the land for a non-agricultural use and shall not be exempt from the provisions of this section. Said presumption shall be a legally rebuttable presumption.

b. The applicant shall submit with its application for an exemption to the tree replacement requirement copies of any and all contracts, agreements, deeds and all usual and customary business records that would be reasonably necessary for the city to review to determine whether or not the applicant is entitled to an exemption. The applicant shall not fraudulently withhold any document. See generally, section 50 of the Volusia County Code of Ordinances.

c. The property owner shall have rebutted the presumption that the removal or destruction of trees on his property was with the intent of developing the land for a non-agricultural use by filing a sworn and notarized affidavit with the city attesting that any trees that were removed in the past three years from the subject property were removed in conformity with recognized agricultural management or production practices and not merely for the purpose of avoiding the requirements of this section.

The affidavit filed by the property owner may be challenged by the city within thirty (30) days of filing the affidavit.

In the event that the city elects to challenge the property owner's affidavit, the exemption may be denied by the city upon showing by substantial competent evidence that the trees were not removed in conformance with recognized agricultural management or production practices. The city shall have the burden of proof to refute the affidavit filed by the property owner.

d. Any decision to deny an exemption under this provision shall be in writing, state the factors considered in denying the exemption, state the reasons for denying the exemption, and be signed by the Development Services Director or his/her designee.

(1) The city shall consider, among any and all other relevant factors, the following when reviewing any request for an exemption under this provision:

(2) The specific reasons stated by the property owner for removal of the trees.

(3) The length of time the land has been in agricultural production.

(4) Whether the agricultural use has been continuous.

(5) The size of the area as it relates to efficient agricultural production.

(6) Whether the land has been sufficiently and adequately cared for within accepted commercial practices of the dominant type of production.

(7) Whether the land is under lease and if so, the type and terms of said lease.

(8) Whether the tree removal was done in the ordinary course of business.

(9) Any contract for sale in existence at the time the affidavit is submitted.

(10) Other factors that are relevant to the determination of good faith land use.

(11) See generally, section 50 of the Volusia County Code of Ordinances.

3. *Replacement Trees.*

a. Approved trees. Only trees listed on the Florida-Friendly Landscaping™ shall be planted to meet the minimum tree requirements of this section and be used as replacement trees:

b. Historic and specimen trees shall be replaced with trees of like species unless like species are not reasonably available.

c. Trees listed as Category I invasive species by the Florida Exotic Pest Plant Council are prohibited.

d. Replacement of trees shall be calculated based on the replacement of 40% of the total DBH inches of the protected tree(s) permitted for removal. Single trees may be replaced with two (2) or more trees meeting the standards of this code For one and two-family residences, replacement trees are to be provided based on one replacement tree for each protected tree 12-inches or less DBH and two replacement trees for each tree in excess of 12-inches DBH.

e. To encourage the retention of existing large trees in the city, the following credits shall be applied to reduce the number of replacement trees required by this section:

(1) Preserved specimen trees will be credited at 15% of DBH inches of each tree.

(2) Preserved historic trees will be credited at 20% of DBH inches of each tree.

f. Replacement trees shall adhere to the minimum tree standards in this code. Credited trees shall not reduce the number of required onsite plantings below the minimum requirements of this code.

g. Replacement trees shall be selected from Florida-Friendly Landscaping™. Historic and specimen trees must be replaced with trees of like species unless like species are not reasonably available.

h. Palms may be used as replacement stock up to the full DBH inches of palms being removed from the site and up to one-fifth of the DBH inches of non-palm.

i. Where non-palm species are proposed as replacements for palm trees, the replacements shall be done according to the following chart:

DBH of Palm	**DBH of Non-Palm Species**
6 inches	1.5 inches
8 inches	2 inches
10 inches	2.5 inches
12 inches	3 inches
14 inches	3.5 inches
16 inches	4 inches

j. When replacement trees are required, the replacement trees shall be installed prior to the issuance of a certificate of occupancy. If there is no certificate of occupancy required for the site, then the replacement trees shall be installed within sixty (60) days of the date when notice is provided that replacement trees are required.

k. Survival of replacement trees shall be guaranteed for one year. Replacement trees that die during the first year after planting must be replaced.

l. Alternate Placement of Replacement Trees

(1) In the event that a property has existing tree canopy coverage of thirty percent (30%) or greater of the property, the property owner may request to place required replacement trees on the public right-of-way immediately adjacent to the property owner's property, or on the publicly-owned neighborhood park or recreation area servicing the property owner's property. Said park or recreation area must be within the incorporated boundaries of the city. The city may grant permission when the proposed tree planting is accompanied by an approved landscape plan and associated maintenance and guarantee agreement between the developer requesting the plantings and the city department that would be responsible for the area in which the trees would be placed. This provision shall in no way affect a property owner's right to seek and receive a general variance granted by the planning and zoning board from the tree preservation requirements.

(2) If replacement trees cannot be placed within public rights-of-way or parks, the developer shall provide a payment to the city for the cost of the remaining replacement trees. The developer shall pay these fees into the city Tree Mitigation Fund.

(3) The cost of replacement trees shall be assessed at the following rates:

i. One hundred thirty-five dollars ($135.00) per DBH inch if verified on-site;

ii. Three hundred twenty-five dollars ($325.00) per DBH inch for impacts to specimen trees;

iii. Seven hundred fifty dollars ($750.00) per DBH inch for impacts to any permit identified historic tree.

(4) If needed, an amendment to this Code will be brought to the planning and zoning board in February of each calendar year. Costs shall be based upon average costs per tree as established by local nurseries selling trees that meet the minimum size requirements outlined in this section.

(5) Funds deposited into the Tree Mitigation Fund shall be appropriated in accordance with the annual adopted budget of the city for, but not limited to, the following projects:

i. Planting native trees, shrubs and plants on city-owned property.

ii. Purchasing environmentally sensitive land for permanent preservation.

iii. Purchasing a vacant parcel that could be planted with replacement trees.

iv. Removing invasive species from city-owned property.1 Raising community awareness about the care of the natural environment.

v. Funding of matching grants for projects involving vegetative plantings.

vi. Designing and planting right-of-way beautification projects

4. *Permitting.*

The tree removal application shall be made in the following manner:

a. Class I Site Plans. If a resident applies to remove a tree from a developed lot, a survey of the lot indicating the location, size and number of trees required to meet the standards of this code shall be provided.

(1) The survey shall confirm that there is at least 1 tree for every 2,000 square feet. If the site is heavily wooded, note that on the application.

(2) In instances of existing developed lots, a sketch plan may be prepared and submitted by the property owner and/or applicant in lieu of a tree survey.

(3) No permit to clear or grade shall be issued until the required survey or sketch is filed with an approved building permit.

b. Class II or Class III Site Plans. Sites requiring Technical Review Staff-approval shall be required to provide a survey of the property prepared by a surveyor registered with the State of Florida showing existing features of the property including elevations, buildings, structures, trees over six (6) inches in trunk diameter at 4.5 feet above ground level, all specimen and historic trees, streets, utility easement rights-of-way, and land use. For properties east of the Indian River the survey must show trees over four (4) inches in diameter at 4.5 feet above ground level. Credit for trees between 2.5" to 6" in diameter can be given if indicated on the survey in lieu of having to provide mitigation or replacement trees.

(1) A sample size of 20% of a site may be surveyed in lieu of a full survey, or a similar suitable size, based on the discretion of the Development Services Director.

(2) No permit to clear or grade shall be issued until the required survey or sketch is filed with an engineering permit.

c. The location of all trees on the site, designating the trees to be retained, removed, relocated or replaced along with their name (botanical) must be illustrated on the site plan.

d. In the case of partial development, show only those areas and items affected.

e. Upon receipt of the application and fee for tree removal permit, the Development Services Director or his/her designee shall review the plans and may inspect the site.

f. If the work described in submitted tree removal permit is not begun within one (1) year from the date of issuance of the permit for tree removal, said permit shall be void. The Development Services Director or his/her designee reserves the right to extend or rescind the tree removal permit if conditions warrant.

g. Historic trees in all zoning districts shall be removed only upon a tree removal permit granted by the City Commission at a quasi-judicial public hearing, after a finding that the evidence presented is more compelling for the removal of the historic tree than for it to remain.

(1) Petitioners wishing to obtain a permit must show:

i. The tree is currently damaging or is posing an imminent danger to an existing structure; or

ii. The tree is damaging and/or interfering with the installation, operation, and/or maintenance of existing or proposed public infrastructure; or

iii. The tree is dead, diseased, structurally unsound, or severely injured such that the tree is likely to die within two years; or

iv. Other extraordinary circumstance or hardship where the applicant has demonstrated that no other feasible option exists to preserve the tree.

(2) Applications for historic tree removals shall be accompanied by a written tree evaluation report prepared by an ISA certified arborist which identifies the tree's location, size, species, condition, and basis for meeting one or more of the listed removal conditions.

h. Specimen trees 24-inches DBH or greater shall be removed only upon a tree removal permit approved by the Development Services Director or his/her designee, based on the proposed tree removal meeting one (1) of the four (4) conditions listed in Section 8 (a) above. Appeals of the Director's decision may be made to the City Commission as a quasi-judicial matter.

5. *Violations and penalties.*

a. Any person, organization, society, association, or corporation or any agent or representative, who shall violate the provisions of this section shall, upon a finding of violation by the Development Services Director or his/her designee, be required to replace all removed trees with a number of trees equal to the total DBH inches of the tree(s) removed. The violator may, at the discretion of the Development Services Director or their designee, pay into the Tree Mitigation Fund at the rates described below, after demonstrating that minimum onsite planting requirements have been met, in lieu of meeting the requirements for replacement of damaged or removed trees, in whole, or in part. The replacement of trees or required payments under this section shall not preclude the imposition of any other penalties provided by law or ordinance for the violation. Replacement trees shall be maintained and guaranteed survival for one (1) year.

b. Payments into the Tree Mitigation Fund for violations to this code shall be made at the following rates:

(1) One hundred thirty-five dollars ($135.00) per DBH inch if verified on-site;

(2) Three hundred twenty-five dollars ($325.00) per DBH inch for impacts to specimen trees;

(3) Seven hundred fifty dollars ($750.00) per DBH inch for impacts to any permit identified historic tree.

(4) Four hundred dollars ($400.00) per DBH inch for impacts to any tree identified as to be preserved in permits or landscape plans in addition to the rates above;

(5) If no evidence exists on site to calculate the DBH of the tree(s) removed, then each tree shall be presumed to be a minimum of a 24-inch preserved specimen tree. It is the property owner's responsibility to prove otherwise.

c. No certificate of occupancy or certificate of completion shall be issued for any development until all applicable administrative fines or civil penalties, and permits have been paid, accepted, approved, and verified by the Development Services Director or his/her designee.

6. *Appeal.*

Within thirty (30) days after any decision made by the Development Services Director in the administration and interpretation of this section, but not thereafter, the applicant may appeal to the Planning and Zoning Board, who by majority vote may affirm, reverse or modify the decision of the Development Services Director. The Planning and Zoning Board's review of the Development Services Director's decision shall be de novo with notice to all interested parties at least ten days prior to the hearing on the appeal. Notice shall be made by the City Clerk by U.S. mail and by publication in a newspaper of general circulation in the city of the time and place of the hearing. Any decision by the Planning and Zoning Board shall constitute final administrative action, and appeals must be filed within 30 days of the boards written order of rendition in the circuit court of Volusia County.

7. *Stop work orders.*

The city shall issue a stop work order to any person found in the act of cutting down, destroying, damaging or removing trees in violation of this section.

. . .

Business Impact Estimate

This form should be included in agenda packet for the item under which the proposed ordinance is to be considered and must be posted on the City of New Smyrna Beach website by the time notice of the proposed ordinance is published.

Proposed ordinance's title/reference:

ORD 15-25 LDR Amendment Article VI, Section 604.04 Landscaping Requirements and 604.051 Tree Preservation

This Business Impact Estimate is provided in accordance with section 166.041(4), Florida Statutes. If one or more boxes are checked below, this means the City of New Smyrna Beach is of the view that a business impact estimate is not required by state law1 for the proposed ordinance, but the City of New Smyrna Beach is, nevertheless providing this Business Impact Estimate as a courtesy and to avoid any procedural issues that could impact the enactment of the proposed ordinance. This Business Impact Estimate may be revised following its initial posting.

- ☐ The proposed ordinance is required for compliance with Federal or State law or regulation;
- ☐ The proposed ordinance relates to the issuance or refinancing of debt;
- ☐ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
- ☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant, or other financial assistance accepted by the municipal government.
- ☐ The proposed ordinance is an emergency ordinance;
- ☐ The ordinance relates to procurement; or
- ☐ The proposed ordinance is enacted to implement the following:
  a. A development order or development permit, as defined in s. 163.3164, F.S.; a development agreement as authorized by ss. 163.3220-163.3243, F.S.; or a comprehensive plan amendment or land development regulation amendment initiated by an application by a private party other than the municipality;
  b. Sections 190.005 and 190.046, *Florida Statutes*, regarding community development districts;
  c. Section 553.73, *Florida Statutes*, relating to the *Florida Building Code*; or
  d. Section 633.202, *Florida Statutes*, relating to the Florida *Fire Prevention Code*.

In accordance with the provisions of controlling law, even notwithstanding the fact that, an exemption noted above may apply, the City of New Smyrna Beach hereby publishes the following information:

[1] *See Sec?on 166.041(4)(c), Florida Statutes.*

1. Summary of the proposed ordinance (must include statement of the public purpose, such as serving the public health, safety, morals, and welfare):

The intent of these changes is to enhance the city's landscaping standards, promote tree protection, and ensure sustainable development practices. Establish minimum standards for landscaping and buffers with a focus on tree protection, enhancing the aesthetic and environmental quality of the city. Outline specific requirements for landscape plans across different types of developments, ensuring consistency and adherence to city standards. Mandate the use of Florida-friendly landscaping practices to promote water conservation, reduce maintenance costs, and support native ecosystems. Update requirements for landscape buffer areas based on current zoning districts to enhance compatibility between different land uses. Enhance tree preservation standards to protect existing trees during development.

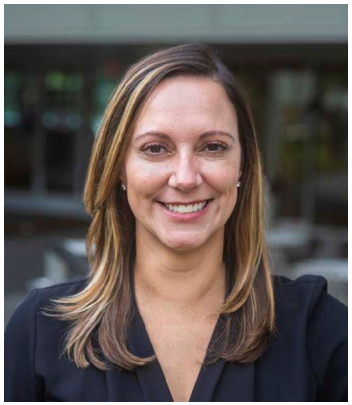
2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the City of New Smyrna Beach, if any:

(a) An estimate of direct compliance costs that businesses may reasonably incur; **There is no new direct cost**.
(b) Any new charge or fee imposed by the proposed ordinance, or for which businesses will be financially responsible; and **There are no additional fees or new charges**
(c) An estimate of the City of New Smyrna Beach's regulatory costs, including estimated revenues from any new charges or fees to cover such costs.
There are no new regulatory costs that will be incurred with the adoption of the ordinance.

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:
This will impact mostly undeveloped, redeveloped and vacant parcels within the city.

4. Additional information the governing body deems useful (if any):

This amendment is proposed to help with clarity of direction for landscaping and tree removal while also to promote tree protection and tree canopy.



City of New Smyrna Beach

Landscape Code Update

April 8, 2025

James Hartsfield, AICP
Community Planner

Project Team

Roberta Fennessy, AICP, AIA

Project Manager

James Hartsfield, AICP

Community Planner

Project Goals

Perform a comprehensive review and update of landscape standards in the Land Development Regulations

- Incorporate code language reflective of best practices and Florida native plant specifications
- Emphasize maintenance and operations–minded regulations
- Provide relevant illustrations for clarity when appropriate
- Revise payments and penalties

Intent and Applicability

New sections

- Guides decision-making for reviewers
- Clearly identifies who is subject to the landscaping requirements

General Requirements

Landscape Plans

- What goes on it and who reviews it?

Landscape Materials Standards

- What can you plant? Existing standards updated and expanded.

Maintenance Requirements

- General requirements

General Requirements

Sodding Requirements

- Sodding requirements for common areas

Non-vegetative Materials

- Guidance for the use of stone, gravel and artificial turf

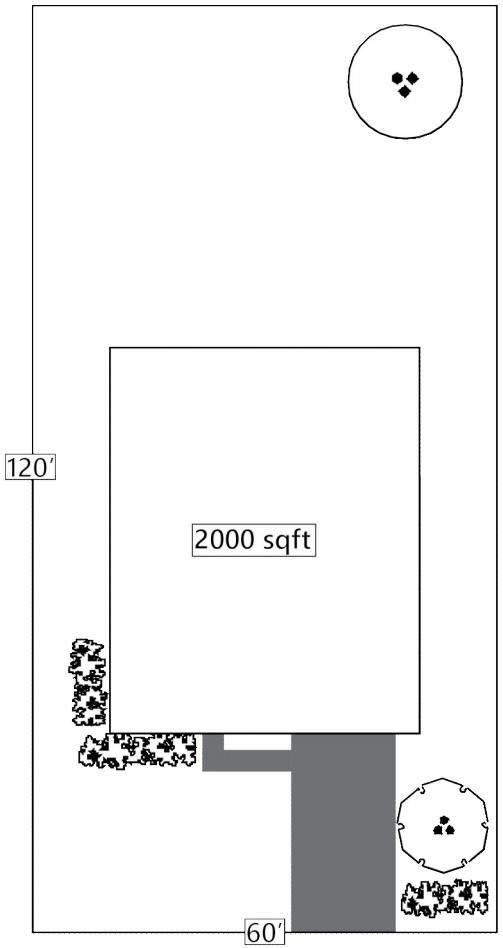
Utilities

- Guidance for landscaping in/near utility areas

General Requirements

Minimum Landscaping Standards

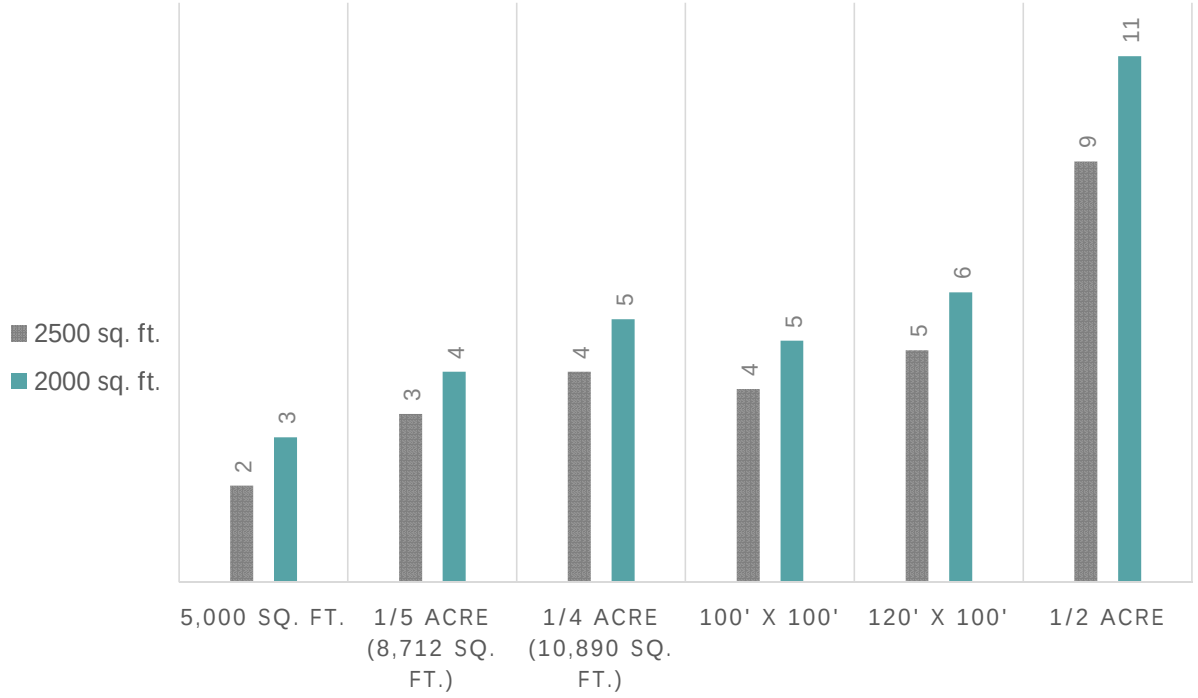
- Landscaping requirements for single family lots, new subdivisions, multifamily, and non-residential areas



Parking Areas

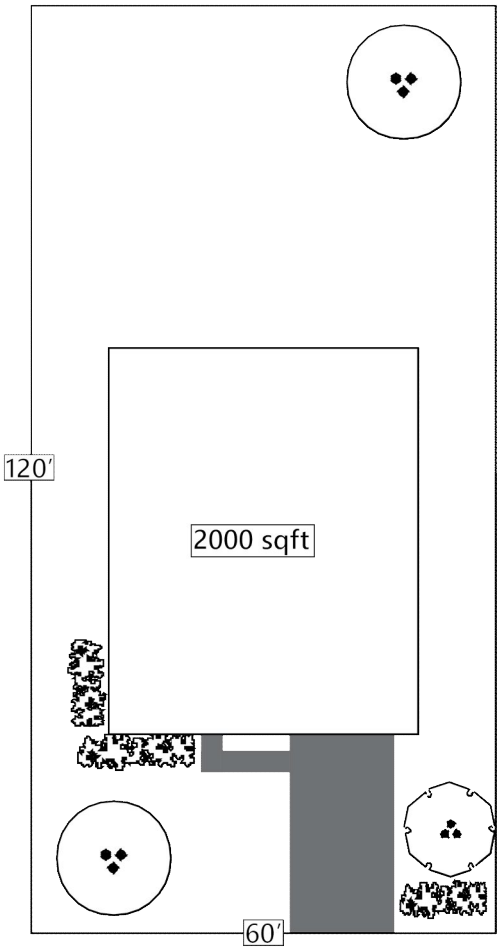
- Landscaping in parking areas, including landscape islands

Special Uses



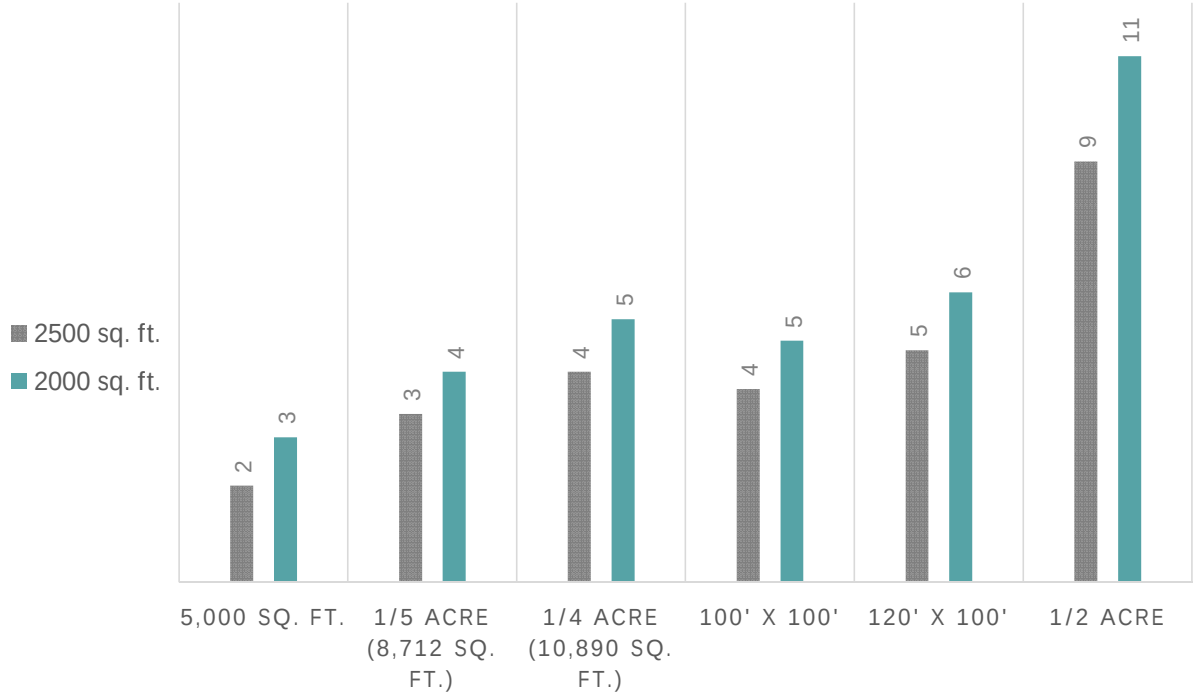
- Identifies special landscaping requirements from the zoning code

Single-Family Minimum Landscape Requirements



Current Requirements

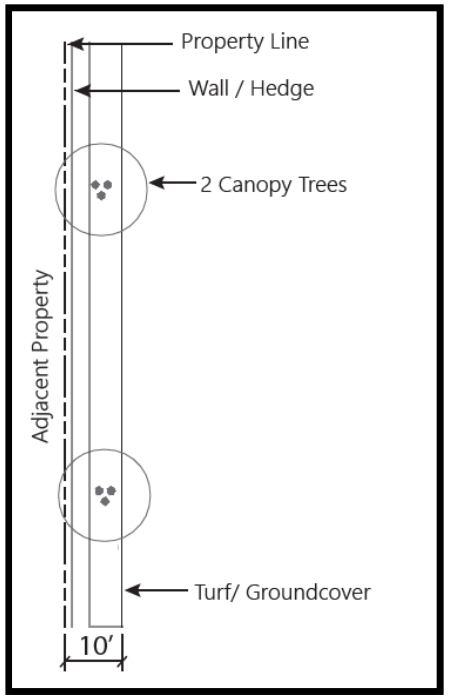
- 1 Tree per 2,500 square feet



Single-Family Minimum Landscape Requirements

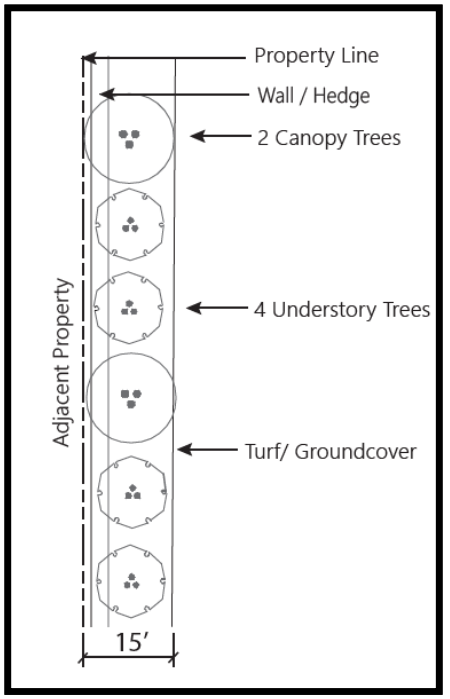
Current Requirements

- 1 Tree per 2,000 square feet



Buffers

Minimum Standards



Responsibilities

Planting Requirements

Access Requirements

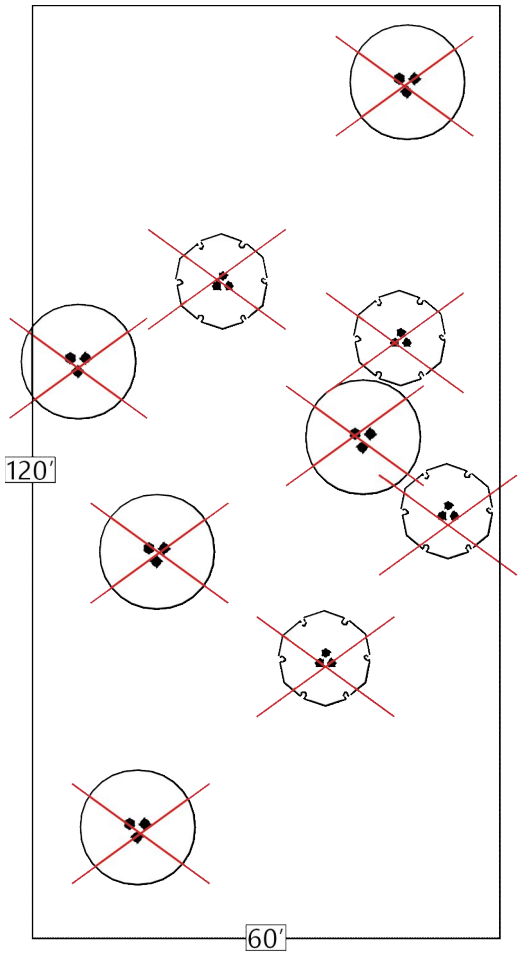
Buffer Type	Buffer Width	Minimum plantings per 100 linear feet
Low	10 Feet	Two (2) Canopy Trees, 66 Shrubs

Buffer Type	Buffer Width	Minimum plantings per 100 linear feet
Medium +	15 Feet	Two (2) Canopy Trees, four (4) Understory Trees, 100 Shrubs Unbroken hedge, fence, or wall.

Tree Preservation

General

- Prohibition on tree removal without permits, establishment of trees, special cases, and tree coverage standards for residential, commercial, industrial, and agriculture areas



Tree Removal and Replacement

- Which trees require permits for removal

Replacement Trees

- Replacement tree calculation, replacement tree standards, tree mitigation fund, fees

Tree Removal and Replacement

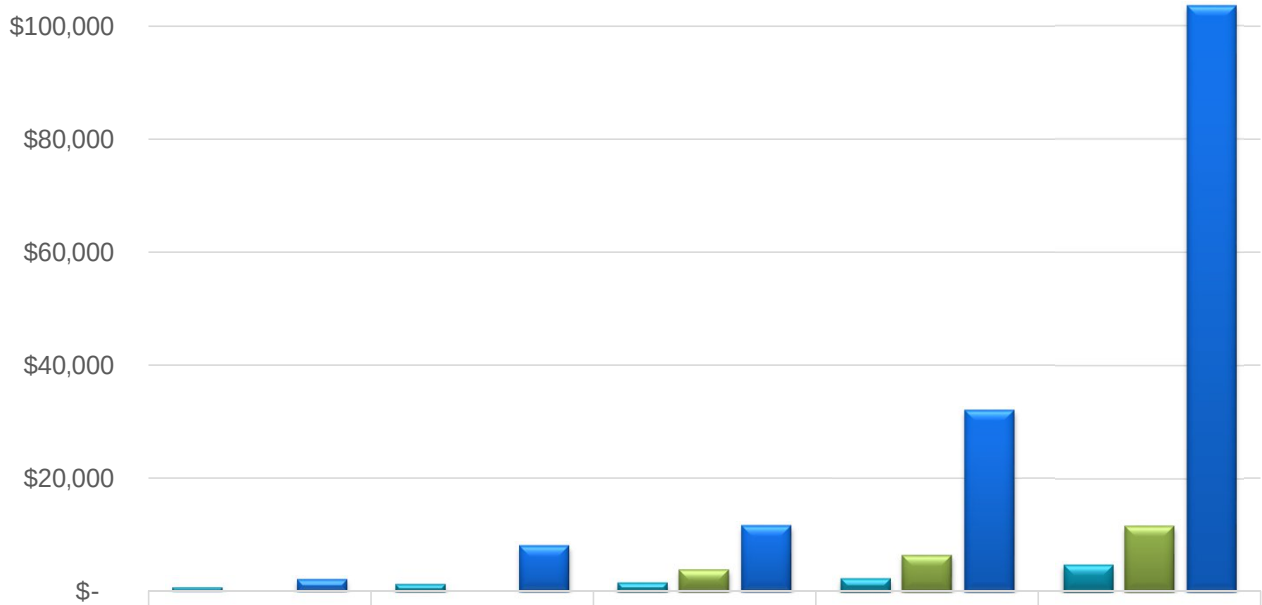
9 Trees, non-specimen

Total DBH Inches = 56”

Replacement DBH Inches = 22.4”

If satisfied with new plantings:

3-5 trees on site (totaling 22.4”).



If satisfied with minimum plantings + payment to tree mitigation fund:

3 trees on site + payment of $1,201

Tree Removal and Replacement

All costs are per DBH inch

- $135 – Verified on-site trees impacted
- $325 – Specimen Trees
- $750 – Historic Trees

	5" DBH	10" DBH	12" DBH	20" DBH	36" DBH
Revised Non-Specimen	$675	$1,350	$1,620	$2,430	$4,860
Revised Specimen	0	0	$3,900	$6,500	$11,700
Current Costs	$1,998	$7,994	$11,511	$31,976	$103,601

Violations to the Tree Preservation Section

All costs are per DBH inch

- $135 – Verified on-site trees impacted
- $325 – Specimen Trees
- $750 – Historic Trees
- +$400 – Trees Identified as “Preserved” (in addition to the above rates)

- If tree size cannot be determined it is assumed to be a 24” preserved specimen tree ($17,400)

Tree Preservation

Permitting

- Details on tree removal applications, timing, and restrictions

Violations and Penalties

- Penalties and fees for violating tree removal provisions

Appeals

- Timeline and procedures for appealing decisions related to this code

City of New Smyrna Beach

Landscape Code Update

THE CITY OF NEW SMYRNA BEACH - PLANNING DEPARTMENT

ORDINANCE NO. 17-25: CONDUCT A FIRST READING OF AN ORDINANCE, IF ADOPTED AT A SECOND READING AND PUBLIC HEARING, WOULD ANNEX APPROXIMATELY 9.13 ± ACRES OF LAND LOCATED AT 2061 PAIGE AVENUE.

April 8, 2025

Background:

Applicant and Property Owners: Robert J and Patricia A Malecki, 3086 Log Cabin Lane, Edgewater, Florida 32132

Request: Voluntary annexation:

- **From:** Un-Incorporated Volusia County.
- **To:** City of New Smyrna Beach.

Site Information:

- **Size:** 9.13 ± acres
- **Location:** Northside of Paige Avenue, across from Trophy Hunter Trail.

Tax I.D. Number: 7343-06-00-0740

Findings:

On April 23, 2013, the City Commission adopted an Interlocal Service Boundary Agreement (ISBA). The ISBA, which is permitted under Chapter 171, Part II, Florida Statutes, allows the City of New Smyrna Beach to annex any parcels that are within the designated annexation area, even if they are not contiguous to the current municipal boundaries. The agreement, which is between the County of Volusia and the City, was also approved by the County on May 2, 2013. A new agreement was approved on May 2, 2022.

The subject property is within the annexation area designated in the ISBA. The subject property at 2061 Paige Avenue is developed with a single-family house and accessory structures. A location map is attached as **Exhibit A** and an aerial map is attached as **Exhibit B**. Existing land uses are shown on the map attached as **Exhibit C.**

The established City Commission policy is that when properties are annexed into the City, the City will assign Future Land Use categories and zoning designations that would be as similar as possible to existing County designations. The existing County FLU category is Urban Medium Intensity. The existing County zoning designation is R-4, Urban Single Family Residential and R-4A, Urban Single Family Residential. The proposed City Future Land Use category is Medium Density Residential. The proposed City zoning designation is R-2, Single Family Residential.

This annexation request is within the City's annexation area and within the City's water and sewer service area **(Exhibit D).** The parcel at 2061 Paige Avenue has a 12-inch PVC water main and a 20-inch PVC water main in the Paige Avenue right-of-way, there is also a 4-inch dedicated PVC sewer force main, and an 8-inch dedicated Clay sewer force main and a 20-inch reclaimed water main, but local sewer and reclaim services are not available.

A map of the soil limitations for septic systems is attached as **Exhibit E**.

The *Land Development Regulations* requires any proposed development to conform to the Concurrency Management System. That system includes traffic, parks and recreation, potable water, wastewater treatment, solid waste collection, storm-water management, and public-school facilities. The subject property at 2061 Paige Avenue is developed with a single-family house and accessory structures with no increased density proposed for this property. Therefore, staff did not prepare a concurrency analysis table for this case.

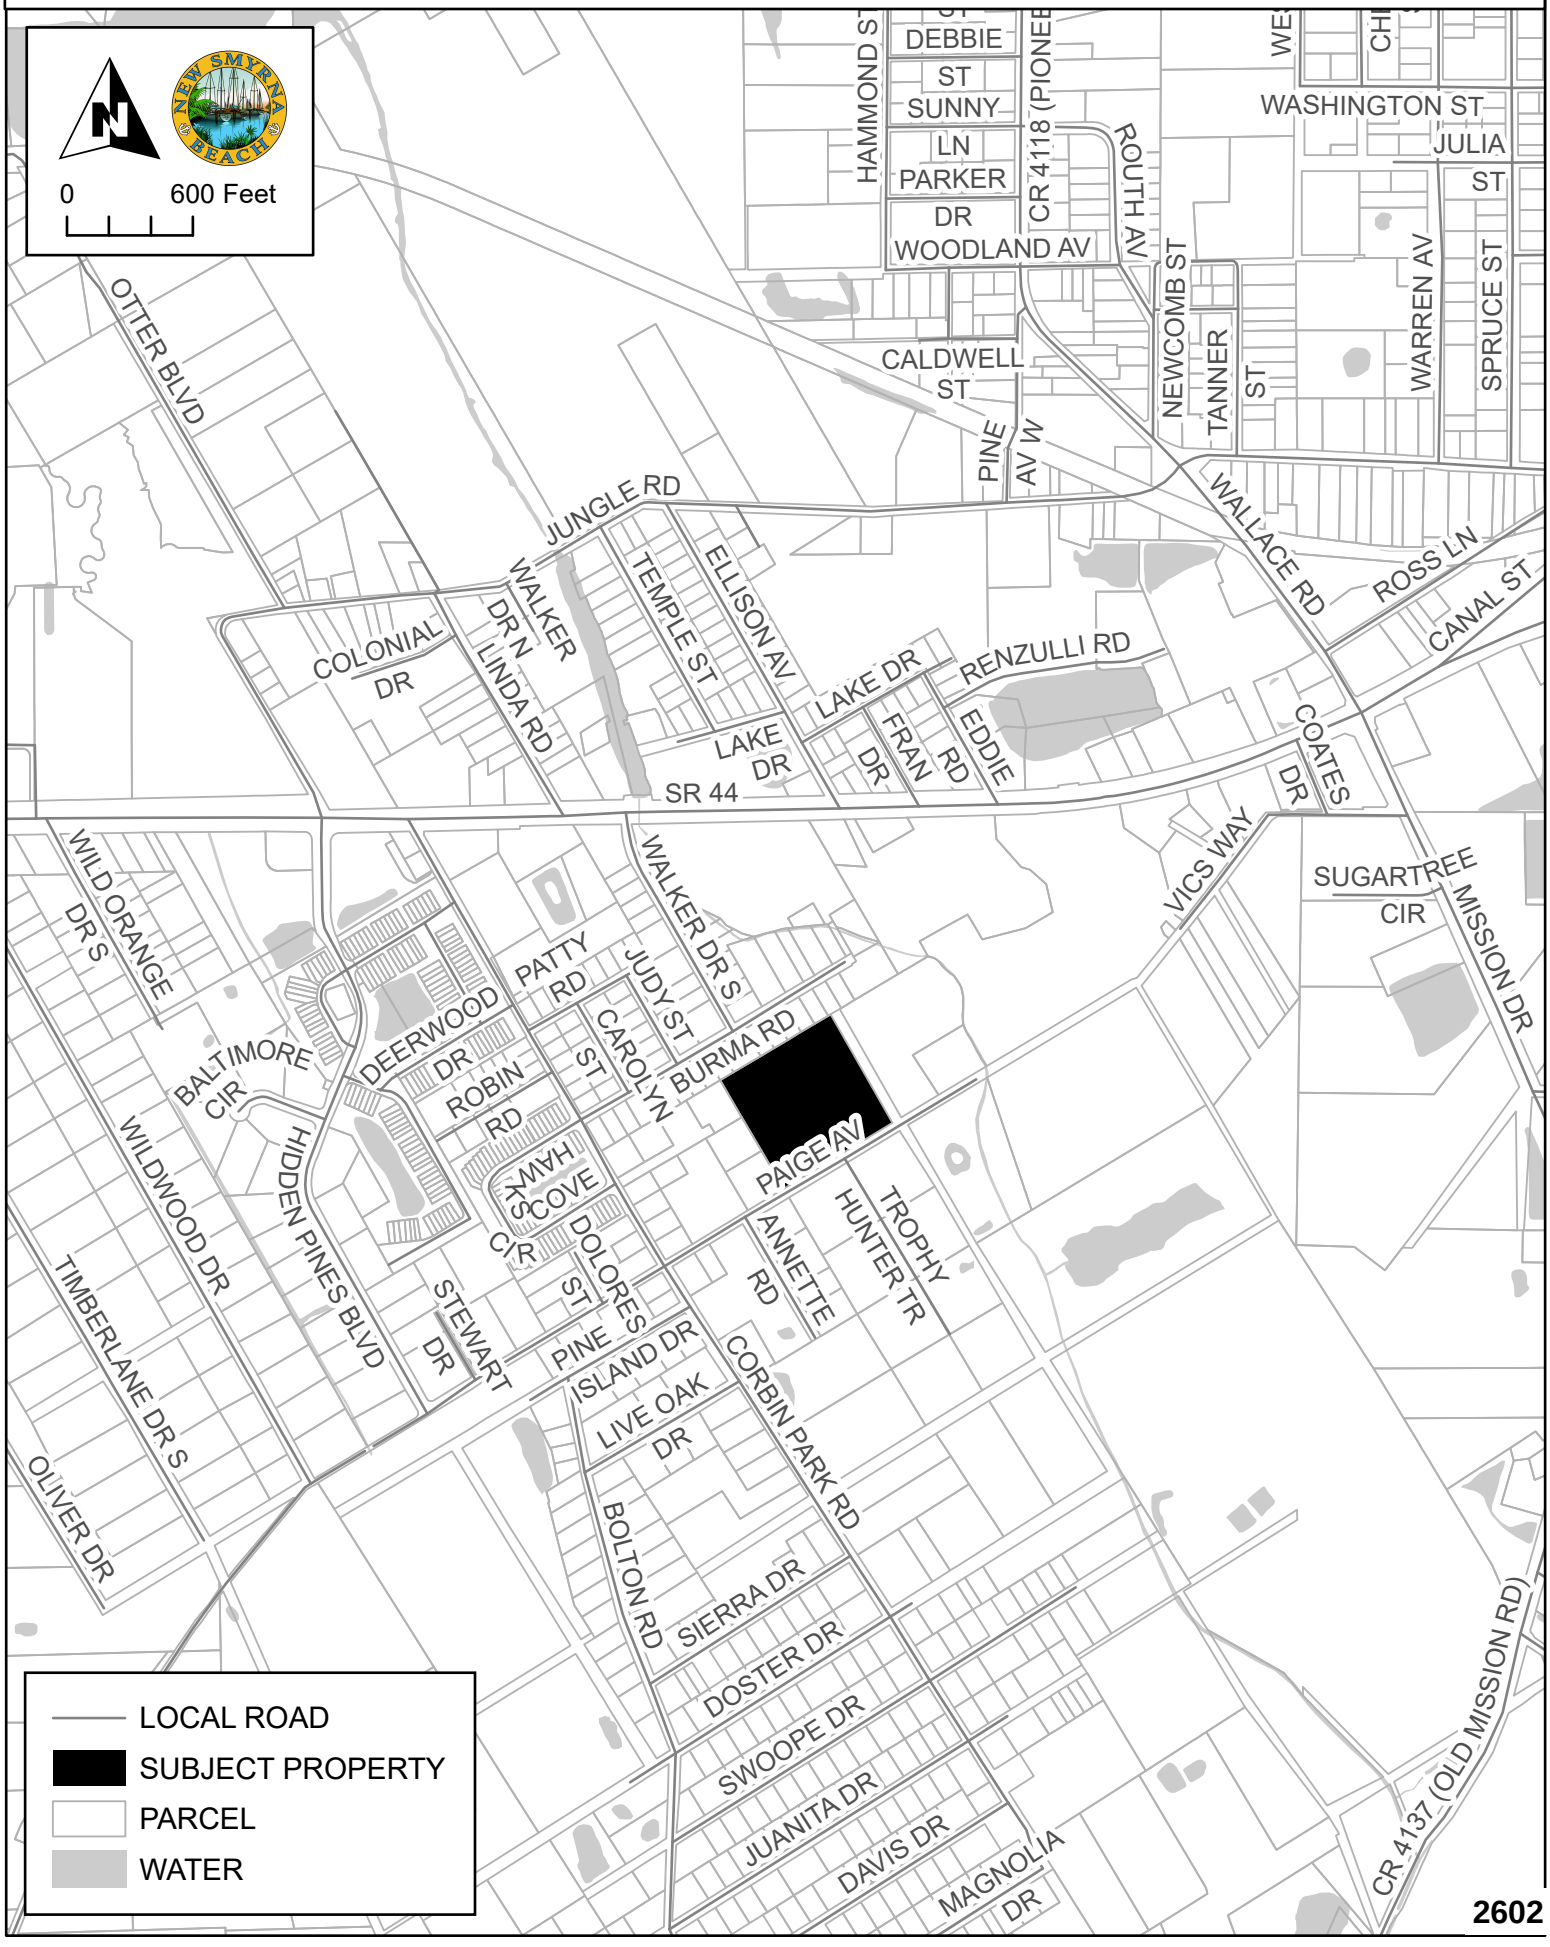
A map showing the subject properties incorporated into Commission Zone 1 is attached as **Exhibit F**. The ISBA map is attached as **Exhibit G**. The legal description and Warranty Deed are attached as **Exhibits H** and **I**.

Recommendations:

At its regular scheduled meeting on March 3, 2025 the Planning and Zoning Board voted, 5-0, to give the City Commission a positive recommendation to **approve** the annexation application.

The Planning Department recommends that the Commission to **approve** the requested annexation application.

Fiscal Analysis:
N/A



Strategic Plan Item:
Yes

Business Impact Estimate

This form should be included in agenda packet for the item under which the proposed ordinance is to be considered, and must be posted on the City of New Smyrna Beach website by the time notice of the proposed ordinance is published.

Proposed ordinance's title/reference:

ORD 17-25 Annexing 2061 Paige Ave.

This Business Impact Estimate is provided in accordance with section 166.041(4), *Florida Statutes*. If one or more boxes are checked below, this means the City of New Smyrna Beach is of the view that a business impact estimate is not required by state law[1] for the proposed ordinance, but the City of New Smyrna Beach is, nevertheless providing this Business Impact Estimate as a courtesy and to avoid any procedural issues that could impact the enactment of the proposed ordinance. This Business Impact Estimate may be revised following its initial posting.

- ☐ The proposed ordinance is required for compliance with Federal or State law or regulation;
- ☐ The proposed ordinance relates to the issuance or refinancing of debt;
- ☐ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
- ☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant, or other financial assistance accepted by the municipal government.
- ☐ The proposed ordinance is an emergency ordinance;
- ☐ The ordinance relates to procurement; or
- ☑ The proposed ordinance is enacted to implement the following:
  a. A development order or development permit, as defined in s. 163.3164, F.S.; a development agreement as authorized by ss. 163.3220-163.3243, F.S.; or a comprehensive plan amendment or land development regulation amendment initiated by an application by a private party other than the municipality;
  b. Sections 190.005 and 190.046, *Florida Statutes*, regarding community development districts;
  c. Section 553.73, *Florida Statutes*, relating to the *Florida Building Code*; or
  d. Section 633.202, *Florida Statutes*, relating to the *Florida Fire Prevention Code*.

In accordance with the provisions of controlling law, even notwithstanding the fact that, an exemption noted above may apply, the City of New Smyrna Beach hereby publishes the following information:

[1] *See* Section 166.041(4)(c), *Florida Statutes*.

1. Summary of the proposed ordinance (must include statement of the public purpose, such as serving the public health, safety, morals, and welfare):

N/A

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the City of New Smyrna Beach, if any:
(a) An estimate of direct compliance costs that businesses may reasonably incur;
(b) Any new charge or fee imposed by the proposed ordinance, or for which businesses will be financially responsible; and
(c) An estimate of the City of New Smyrna Beach's regulatory costs, including estimated revenues from any new charges or fees to cover such costs.

N/A

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

N/A

4. Additional information the governing body deems useful (if any):
[*You may wish to include in this section the methodology or data used to prepare the Business Impact Estimate. For example: City of New Smyrna Beach staff solicited comments from businesses in the City of New Smyrna Beach as to the potential impact of the proposed ordinance by contacting the chamber of commerce, social media posting, direct mail or direct email, posting on City of New Smyrna Beach website, public workshop, etc. You may also wish to include efforts made to reduce the potential fiscal impact on businesses. You may also wish to state here that the proposed ordinance is a generally applicable ordinance that applies to all persons similarly situated (individuals as well as businesses) and, therefore, the proposed ordinance does not affect only businesses.*).

N/A

ORDINANCE NO. 17-25

AN ORDINANCE OF THE CITY OF NEW SMYRNA BEACH ANNEXING 9.1± ACRES OF PROPERTY GENERALLY LOCATED EAST OF CORBIN PARK ROAD, NORTH OF PAIGE AVENUE AND TROPHY HUNTER TRAIL, ADDRESSED AS 2061 PAIGE AVENUE; PROVIDING FOR REDEFINING BOUNDARIES OF THE CITY; DESIGNATING THE PROPERTY WITHIN COMMISSION ZONE 1; PROVIDING FOR PUBLIC HEARING; PROVIDING FOR REQUIRED FILINGS; PROVIDING FOR CONFLICTING ORDINANCES; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, Robert J. and Patricia A. Malecki, 3086 Log Cabin Lane, Edgewater, Florida 32132, applicants and property owners, have requested the annexation of 9.1± acres of property generally located east of Corbin Park Road, north of Paige Avenue and Trophy Hunter Trail, addressed as 2061 Paige Avenue; and

WHEREAS, the Planning and Zoning Board, at its regularly scheduled meeting on March 3, 2025, by a vote of 5-0, recommended that the City Commission approve the requested annexation; and

WHEREAS, the City Commission of the City of New Smyrna Beach is desirous of annexing the real property described in the first paragraph above, and the City Commission hereby finds and determines that the petition for annexation bears the signature of the owner of the property in the area proposed to be annexed, and the property is within the Interlocal Service Boundary Agreement area.

NOW, THEREFORE, BE IT ENACTED BY THE CITY COMMISSION OF THE CITY OF NEW SMYRNA BEACH, FLORIDA:

SECTION 1: ***Annexation.*** That the real property is located in Volusia County, State of Florida, legally described as:

SEE EXHIBIT "A" LEGAL DESCRIPTION AND LOCATION MAP ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

and to the centerline of all surrounding rights-of-way shall be and the same is hereby annexed into the City of New Smyrna Beach and made a part hereof pursuant to §171.044(1)-(2) and §171.204, F.S.

SECTION 2: ***Boundary Adjustment.*** That the boundary lines of the City of New Smyrna Beach shall be and the same are hereby redefined and shall hereinafter read as follows:

SEE EXHIBIT "B" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 3: ***Commission Zone.*** That the real properties annexed shall become a part of Zone 1. New Smyrna Beach Charter, §3.07.

SEE EXHIBIT "C" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 4: ***Public Hearing.*** It is hereby found that a public hearing held by the City Commission to consider adoption of this ordinance on April 22, 2025 at 6:30 p.m. in the City Commission Chambers, 214 Sams Avenue, New Smyrna Beach, Florida, after notice published once a week for two consecutive weeks and provided to the County Council by certified mail is deemed to comply with Section 171.044, F.S.

SECTION 5: ***Filing.*** That within SEVEN (7) days after adoption, this ordinance shall be filed by the City Clerk with the Clerk of the Circuit Court, the County Manager and the Florida Department of State. The City Clerk shall file with this ordinance a map which clearly shows the annexed area and a complete legal description of that area by metes and bounds. §171.044(3), F.S.

SECTION 6: ***Charter Revisions to the Department of State.*** The Charter Boundary Article shall be revised to reflect the changes in the municipal boundaries resulting from this annexation and shall be filed as a revision of the City Charter with the Florida Department of State within THIRTY (30) days. A copy of such revision must be submitted to the Office of Economic and Demographic Research along with a statement specifying the population census effect and the affected land area. §171.091, F.S.

SECTION 7: ***Conflicting Ordinances.*** That all ordinances or parts thereof that are in conflict with this ordinance shall be and the same are hereby rescinded and repealed.

SECTION 8: ***Administrative Correction of Scrivener's Errors.*** The administrative correction of typographical and/or scrivener's errors in this Ordinance which do not affect the intent may be authorized by the City Manager or designee, without need of public hearing, by filing a corrected or recodified copy of same with the City Clerk.

SECTION 9: ***Severability.*** That if any section, sentence, clause or phrase of this ordinance is held invalid or unconstitutional by any court of competent jurisdiction, then said holding shall in no way affect the validity of the remaining portions of this ordinance.

SECTION 10: ***Effective Date.*** That this ordinance shall become effective 60 days after its final adoption.

APPROVED AS TO FORM AND CORRECTNESS:

THE CITY OF NEW SMYRNA BEACH - PLANNING DEPARTMENT

ORDINANCE NO. 18-25: CONDUCT A FIRST READING OF AN ORDINANCE, IF ADOPTED AT A SECOND READING AND PUBLIC HEARING, WOULD GENERATE A SMALL-SCALE *COMPREHENSIVE PLAN* AMENDMENT CHANGING THE FUTURE LAND USE CATEGORY TO MEDIUM DENSITY RESIDENTIAL FOR PROPERTY LOCATED AT 2061 PAIGE AVENUE AS PART OF AN OVERALL ANNEXATION APPLICATION.

April 8, 2025

Background:

Applicant and Property Owners: Robert J and Patricia A Malecki, 3086 Log Cabin Lane, Edgewater, Florida 32132

Request: Small-Scale *Comprehensive Plan* amendment:

- **From:** Volusia County Future Land Use (FLU) designation of Urban Medium Intensity.
- **To:** City FLU designation of Medium Density Residential.

Site Information:

- **Size:** 9.13 ± acres
- **Location:** Northside of Paige Avenue, across from Trophy Hunter Trail.

Tax I.D. Number: 7343-06-00-0740

Findings:

On April 23, 2013, the City Commission adopted an Interlocal Service Boundary Agreement (ISBA). The ISBA, which is permitted under Chapter 171, Part II, Florida Statutes, allows the City of New Smyrna Beach to annex any parcels that are within the designated annexation area, even if they are not contiguous to the current municipal boundaries. The agreement, which is between the County of Volusia and the City, was also approved by the County on May 2, 2013. A new agreement was approved on May 2, 2022.

The subject property is within the annexation area designated in the ISBA. The subject property at 2061 Paige Avenue is developed with a single-family house and accessory structures. A location map is attached as **Exhibit A** and an aerial map is attached as **Exhibit B**.

The existing Volusia County Future Land Use (FLU) category of the subject property is shown on the following map as **Exhibit C**. The text description of the existing Future Land Use category for the subject property is attached as **Exhibit D**. Existing land uses are shown on the map attached as **Exhibit E.**

The established City Commission policy is that when properties are annexed into the City, the City will assign future land use categories and zoning designations that would be as similar as possible to existing County designations. As discussed above, the existing County FLU category is Urban Medium Intensity. The existing County zoning designation is R-4, Urban Single Family Residential and R-4A, Urban Single Family Residential. The proposed City FLU category is Medium Density Residential. The proposed City zoning designation is R-2, Single Family Residential. A text description of the proposed City Medium Density Residential Future Land Use category is attached as **Exhibit F,** with a map of this proposed change also attached as **Exhibit G**.

This annexation request is within the City's annexation area and within the City's water and sewer service area **(Exhibit H).** The parcel at 2061 Paige Avenue has a 12-inch PVC water main and a 20-inch PVC water main in the Paige Avenue right-of-way, there is also a 4-inch dedicated PVC sewer force main and an 8-inch dedicated Clay sewer force main and a 20-inch reclaimed water main, but local sewer and reclaim services are not available.

A map of the soil limitations for septic systems is attached as **Exhibit I**.

The *Land Development Regulations* requires any proposed development to conform to the Concurrency Management System. That system includes traffic, parks and recreation, potable water, wastewater treatment, solid waste collection, storm-water management,

and public-school facilities. The subject property at 2061 Paige Avenue is developed with a single-family house and accessory structures with no increased density proposed for this property. Therefore, staff did not prepare a concurrency analysis table for this case.

There are numerous *Comprehensive Plan* maps that must be amended to incorporate the subject property into the *Comprehensive Plan* (see **Exhibits J through V)**. A map showing the subject properties incorporated into Commission Zone 1 is attached as **Exhibit W**. The ISBA map is attached as **Exhibit X**. The legal description and Warranty Deed are attached as **Exhibits Y** and **Z**.

Recommendations:

The Planning and Zoning Board met at a regular schedule meeting on March 3, 2025 and voted, 5-0, to give the City Commission a positive recommendation to **approve** the Small-Scale *Comprehensive Plan* amendment changing the Future Land Use category to Medium Density Residential as part of an overall annexation application.

Staff recommends that the City Commission to **approve** the requested Small Scale *Comprehensive Plan* amendment changing the Future Land Use category to City Medium Density Residential as part of an overall annexation application.

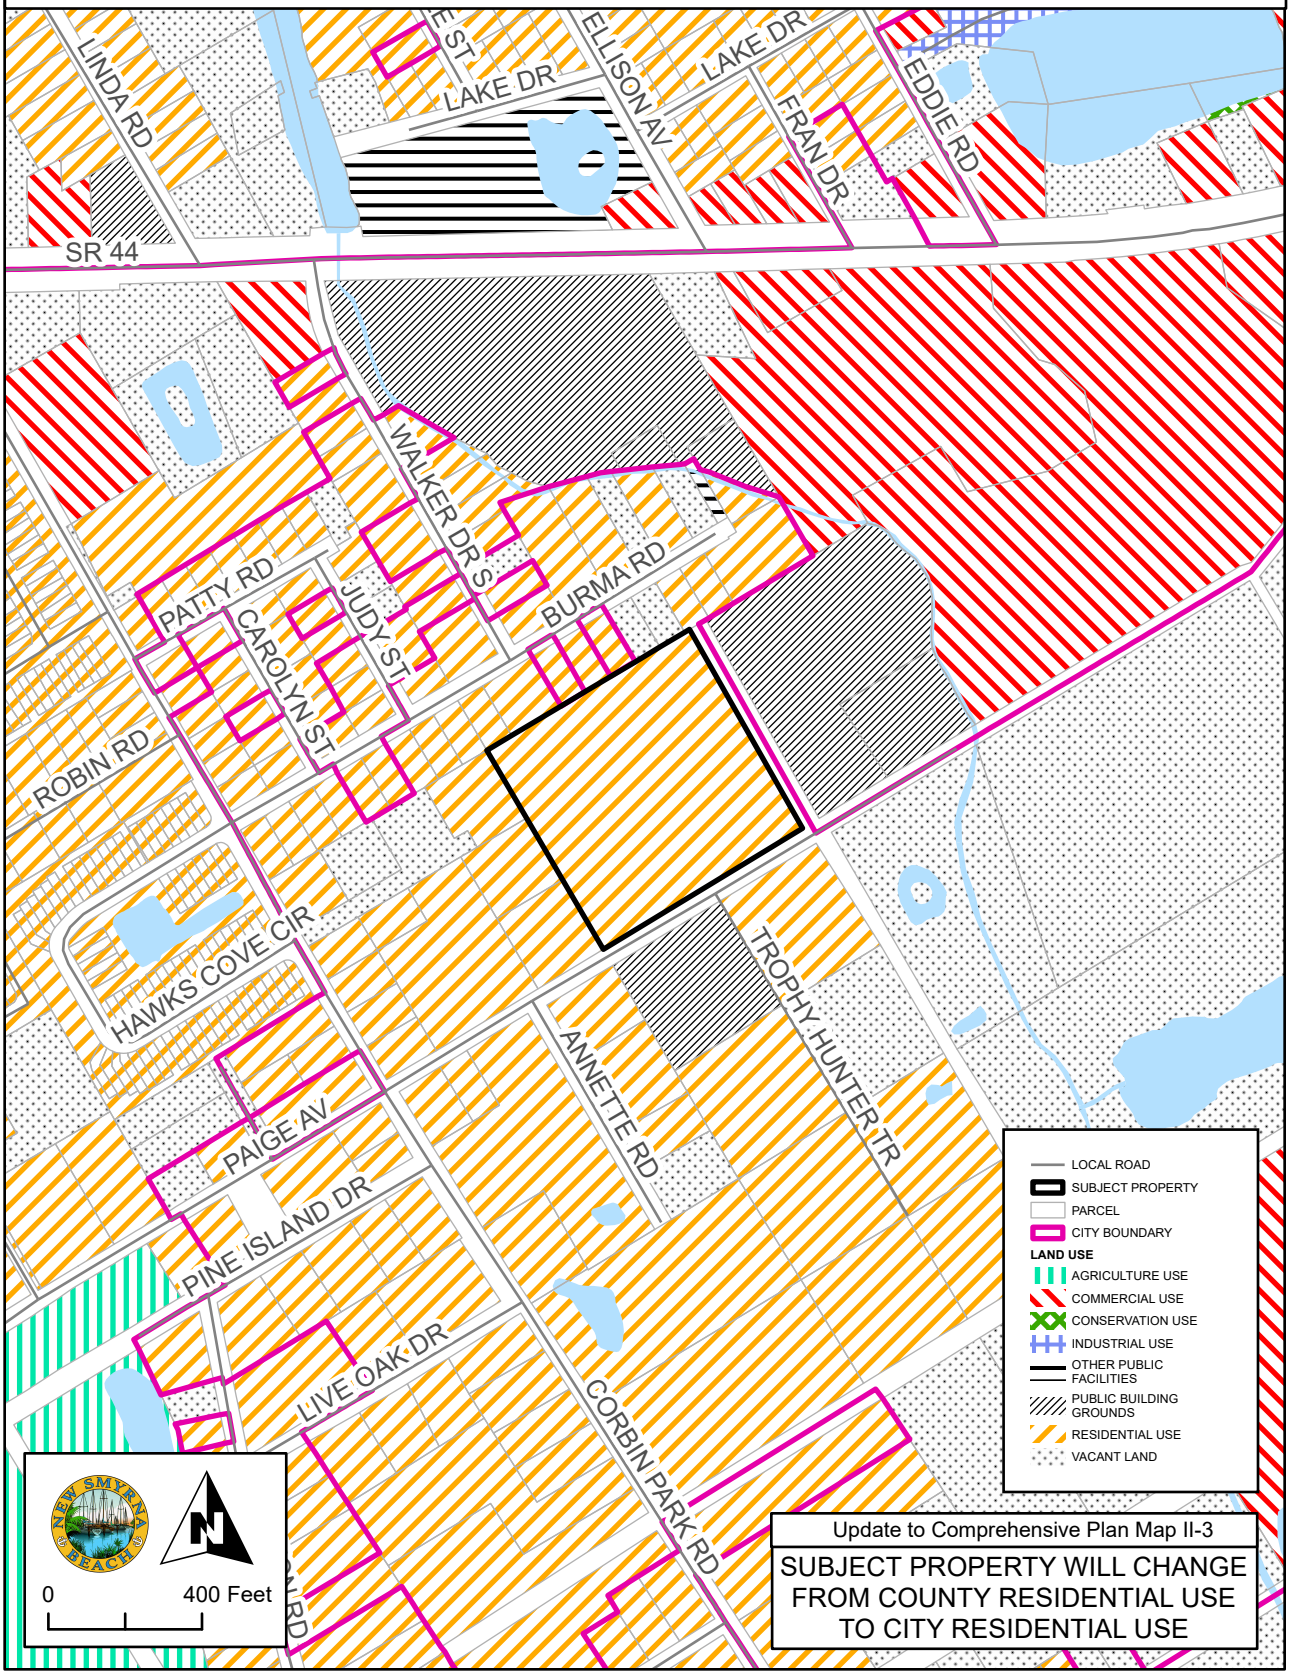
EXISTING FUTURE LAND USE DESIGNATIONS

A-2-25

Urban Medium Intensity (UMI) –



Areas that contain residential development at a range of greater than four (4) to eight (8) dwelling units per acre. The types of housing typically found in areas designated urban medium intensity include single family homes, townhouses and low-rise apartments.

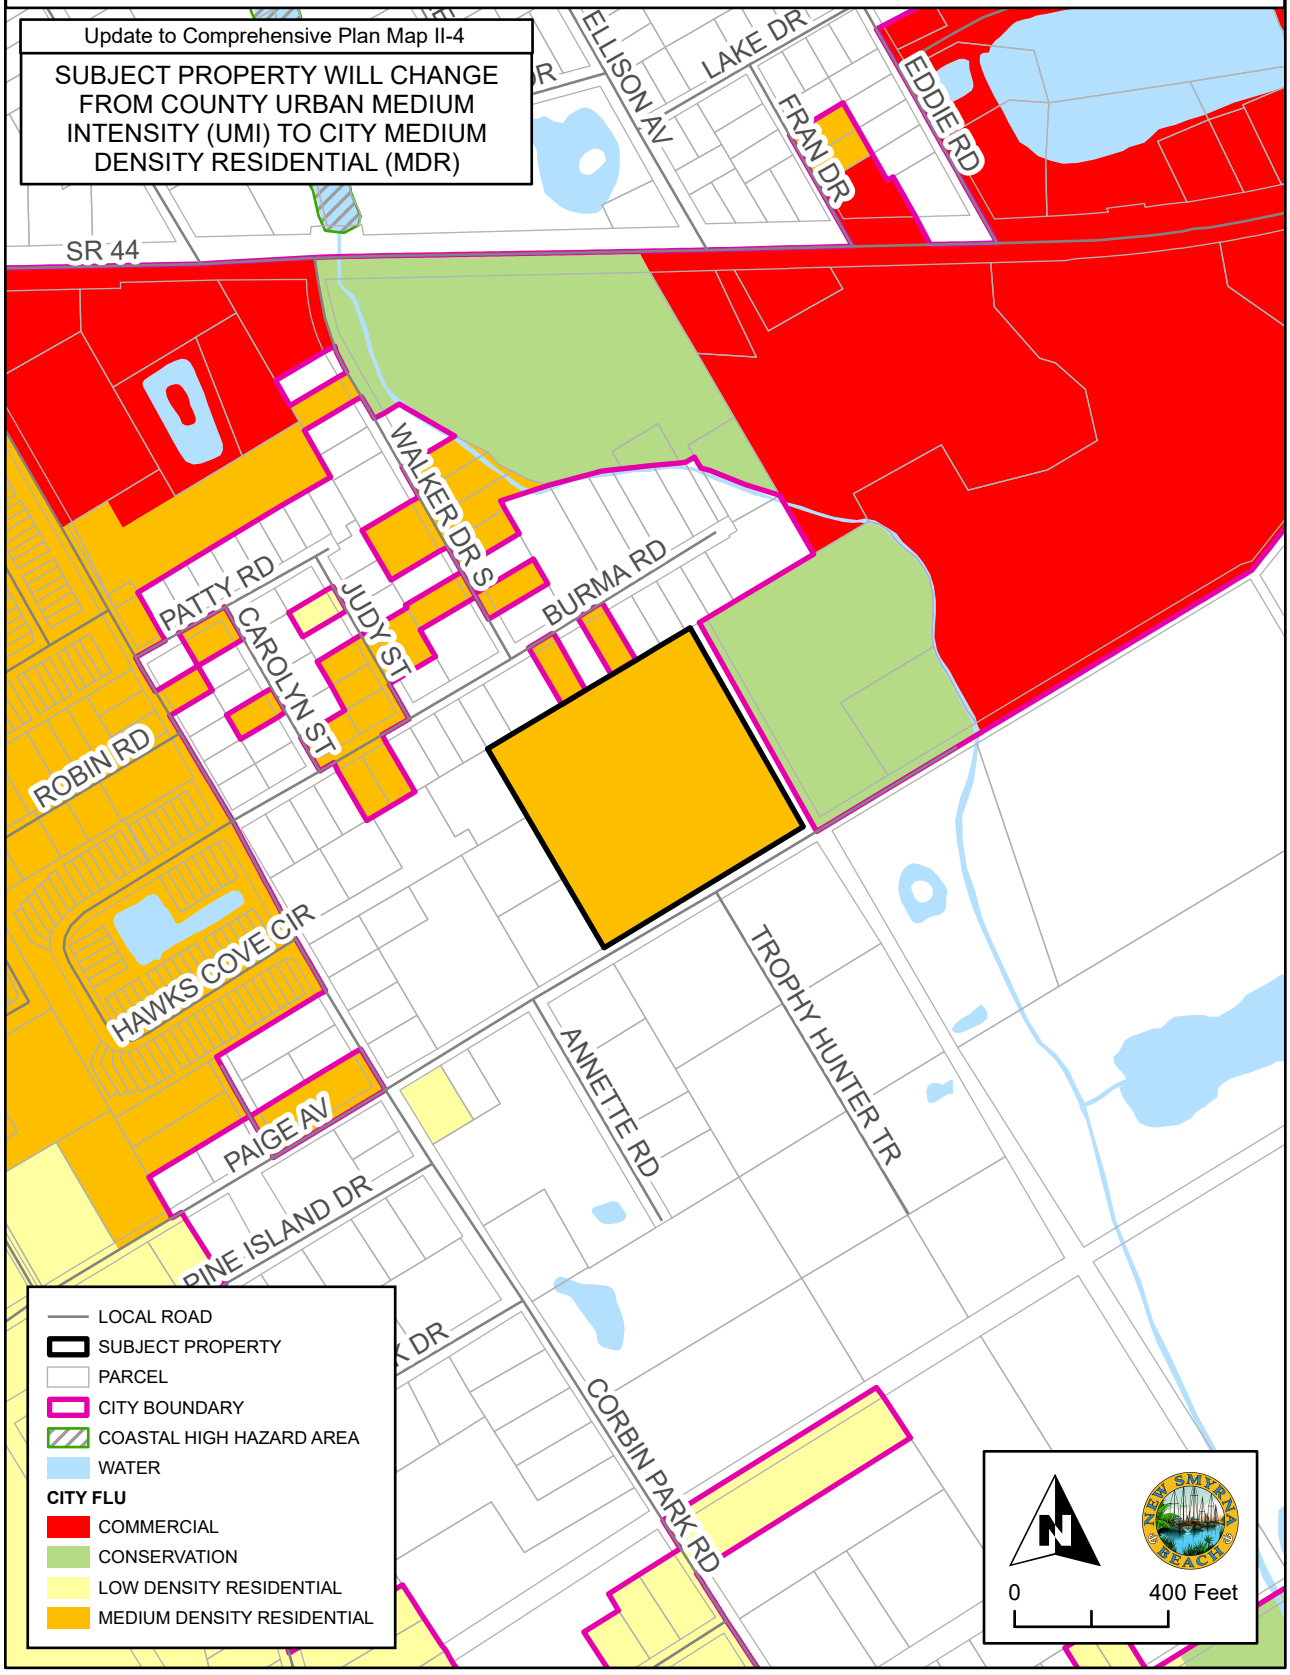
The UMI designation is primarily a residential designation but may allow neighborhood business areas (see Shopping Center definition in Chapter 20) and office development that meet the Comprehensive Plan's location criteria. The commercial intensity shall be no more than a fifty percent Floor Area Ratio (0.50 FAR) and shall be limited in a manner to be compatible with the allowable residential density. In order to be considered compatible, the commercial development should reflect similar traffic patterns, traffic generation, building scale, landscaping and open space, and buffers. More intensive commercial use, other than neighborhood business areas, shall be reserved to areas designated for Commercial.

All requests for nonresidential uses within one- quarter (¼) mile of another jurisdiction shall require notification to that jurisdiction.

EXISTING LAND USE DESIGNATIONS

A-2-25

MEDIUM-DENSITY RESIDENTIAL



Maximum allowed density: 5.01 to eight [8] dwelling units per acre

Non-residential development permitted by special exception shall be at a maximum Floor Area Ration (FAR) of 0.5.

Intent: This use is intended to provide a buffer between low-density residential uses and more intense uses, such as a high-density residential or commercial. It is also suitable at major intersections when adequate buffering from highway can be provided.

Parcel Identification Number: **734306000740**

Subject to all reservations, covenants, conditions, restrictions and easements of record and to all applicable zoning ordinances and/or restrictions imposed by governmental authorities, if any.

GRANTEE HEREIN IS PROHIBITED FROM CONVEYING CAPTIONED PROPERTY FOR ANY SALES PRICE FOR A PERIOD OF 30 DAYS FROM THE DATE OF THIS DEED. AFTER THIS 30 DAY PERIOD, GRANTEE IS FURTHER PROHIBITED FROM CONVEYING THE PROPERTY FOR A SALES PRICE GREATER THAN 120% OF THE SHORT SALE PRICE UNTIL 90 DAYS FROM THE DATE OF THIS DEED. THESE RESTRICTIONS SHALL RUN WITH THE LAND AND ARE NOT PERSONAL TO THE GRANTEE.

Together with all the tenements, hereditaments and appurtenances thereto belonging or in any way appertaining.

To Have and to Hold, the same in fee simple forever.

And the grantor hereby covenants with said grantee that the grantor is lawfully seized of said land in fee simple; that the grantor has good right and lawful authority to sell and convey said land; that the grantor hereby fully warrants the title to said land and will defend the same against the lawful claims of all persons whomsoever; and that said land is free of all encumbrances except taxes accruing subsequent to December 31st of 2015.

In Witness Whereof, the grantor has hereunto set their hand(s) and seal(s) the day and year first above written.

Business Impact Estimate

This form should be included in agenda packet for the item under which the proposed ordinance is to be considered, and must be posted on the City of New Smyrna Beach website by the time notice of the proposed ordinance is published.

Proposed ordinance's title/reference:

ORD 18-25 Small Scale 2061 Paige Ave.

This Business Impact Estimate is provided in accordance with section 166.041(4), *Florida Statutes*. If one or more boxes are checked below, this means the City of New Smyrna Beach is of the view that a business impact estimate is not required by state law[1] for the proposed ordinance, but the City of New Smyrna Beach is, nevertheless providing this Business Impact Estimate as a courtesy and to avoid any procedural issues that could impact the enactment of the proposed ordinance. This Business Impact Estimate may be revised following its initial posting.

- ☐ The proposed ordinance is required for compliance with Federal or State law or regulation;
- ☐ The proposed ordinance relates to the issuance or refinancing of debt;
- ☐ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
- ☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant, or other financial assistance accepted by the municipal government.
- ☐ The proposed ordinance is an emergency ordinance;
- ☐ The ordinance relates to procurement; or
- ☑ The proposed ordinance is enacted to implement the following:
  a. A development order or development permit, as defined in s. 163.3164, F.S.; a development agreement as authorized by ss. 163.3220-163.3243, F.S.; or a comprehensive plan amendment or land development regulation amendment initiated by an application by a private party other than the municipality;
  b. Sections 190.005 and 190.046, *Florida Statutes*, regarding community development districts;
  c. Section 553.73, *Florida Statutes*, relating to the *Florida Building Code*; or
  d. Section 633.202, *Florida Statutes*, relating to the *Florida Fire Prevention Code*.

In accordance with the provisions of controlling law, even notwithstanding the fact that, an exemption noted above may apply, the City of New Smyrna Beach hereby publishes the following information:

[1] *See* Section 166.041(4)(c), *Florida Statutes*.

1. Summary of the proposed ordinance (must include statement of the public purpose, such as serving the public health, safety, morals, and welfare):

N/A

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the City of New Smyrna Beach, if any:
(a) An estimate of direct compliance costs that businesses may reasonably incur;
(b) Any new charge or fee imposed by the proposed ordinance, or for which businesses will be financially responsible; and
(c) An estimate of the City of New Smyrna Beach's regulatory costs, including estimated revenues from any new charges or fees to cover such costs.

N/A

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

N/A

4. Additional information the governing body deems useful (if any):
[*You may wish to include in this section the methodology or data used to prepare the Business Impact Estimate. For example: City of New Smyrna Beach staff solicited comments from businesses in the City of New Smyrna Beach as to the potential impact of the proposed ordinance by contacting the chamber of commerce, social media posting, direct mail or direct email, posting on City of New Smyrna Beach website, public workshop, etc. You may also wish to include efforts made to reduce the potential fiscal impact on businesses. You may also wish to state here that the proposed ordinance is a generally applicable ordinance that applies to all persons similarly situated (individuals as well as businesses) and, therefore, the proposed ordinance does not affect only businesses.*).

N/A

ORDINANCE NO. 18-25

AN ORDINANCE OF THE CITY OF NEW SMYRNA BEACH AMENDING THE COMPREHENSIVE PLAN; CHANGING THE FUTURE LAND USE DESIGNATION OF 9.1± ACRES OF PROPERTY GENERALLY LOCATED EAST OF CORBIN PARK ROAD, NORTH OF PAIGE AVENUE AND TROPHY HUNTER TRAIL, ADDRESSED AS 2061 PAIGE AVENUE, FROM VOLUSIA COUNTY *URBAN MEDIUM INTENSITY* TO CITY *MEDIUM DENSITY RESIDENTIAL*; PROVIDING FOR AMENDMENT OF THE ASSOCIATED COMPREHENSIVE PLAN MAPS TO SHOW THE AREA INCORPORATED INTO THE CITY; PROVIDING FOR PUBLIC HEARING; PROVIDING FOR CONFLICTING ORDINANCES; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, Robert J. and Patricia A. Malecki, 3086 Log Cabin Lane, Edgewater, Florida 32132, applicants and property owners, have requested the City of New Smyrna Beach amend its Comprehensive Plan, Future Land Use Map II-4 to change the land use designation of 9.1± acres of property generally located east of Corbin Park Road, north of Paige Avenue and Trophy Hunter Trail, addressed as 2061 Paige Avenue, from Volusia County *Urban Medium Intensity* to City *Medium Density Residential*; to amend City Neighborhood Map II-1 to show the subject property is located within the S. R. 44 Corridor Neighborhood; to amend Flood Prone Areas Map II-2 to show the subject property is within the FEMA Flood Zone AE; to amend Existing Land Use Designations Map II-3 to show the subject property will change from Volusia County *Residential Use* to City *Residential Use* to amend Existing Level of Service-2009 Map III-1 to show the subject property is served by a Class B level of service roadway to the north and a local road to the south; to amend Existing Traffic Lanes-2009 Map III-2 to show the subject property is served by a 4-lane roadway to the north and a local road to the south; to amend Public Transit Routes Map III-3 to show the subject property is served by public transit routes located throughout the City; to amend Bicycle and Pedestrian Facilities Map III-4 to show the subject property is served by bicycle and pedestrian facilities located throughout the City; to amend Airport Runway Protection Zones Map III-5 to show the subject property is within the height notification zone, and is not within the noise impact zone, the building restriction zone, or the runway protection zone; to amend Evacuation Routes Map III-6 to show the subject property is served by evacuation routes located throughout the City; to amend Level of Service-2025 Map III-7 to show the subject property is served by Class D level of service roadway to the north and a local road to the south; to amend Number of Traffic Lanes-2025 Map III-8 to show the subject property is served by a 4-lane roadway to the north and a local road to the south; amend Water & Sewer Service Area Map VII-1 to show the subject property is within the City and inside the New Smyrna Beach water and sewer service area; to amend Soil Limitation for Septic Systems Map VII-2 to show the subject property is within the slight limitations; to amend Coastal High Hazard Area Map VII-4 to show the subject property is not within the Coastal High Hazard Area; to amend Boat Slip Siting Map VIII-2 to show the subject property is not located within a

boat slip siting restricted zone; to amend City Parks Map X-1 to show the subject property is within the City and served by neighborhood and community parks; to amend Commission Zones Map Z-1 to show the subject property is located in City Commission Zone 1; and

WHEREAS, the Planning and Zoning Board, sitting as the City's Local Planning Agency, held an advertised public hearing pursuant to §163.3174(4), Fla. Stat., on March 3, 2025, and by a vote of 5-0 recommended that the City Commission approve the proposed Plan Amendment; and

WHEREAS, the proposed Amendment is from Volusia County *Urban Medium Intensity* to City *Medium Density Residential* land use of FIFTY (50) acres or fewer. §163.3187(1)(a), Fla. Stat.; and

WHEREAS, the proposed Amendment does not involve a text change to the goals, policies, and objectives of the City's Comprehensive Plan, but only propose a land use change to the future land use map for a site-specific small-scale development activity. §163.3187(1)(c), Fla. Stat.; and

WHEREAS, the proposed Amendment is not located within an area of critical state concern. §163.3187(1)(d), Fla. Stat.; and

WHEREAS, the City Commission finds that the proposed Amendment qualifies as a Plan Amendment directly related to small-scale development activities within the meaning of §163.3187(1), Fla. Stat.; and

WHEREAS, the City Commission deems it is in the best interests of the citizens of the City of New Smyrna Beach to amend its Comprehensive Plan as more particularly set forth hereinafter.

NOW, THEREFORE, BE IT ENACTED BY THE CITY COMMISSION OF THE CITY OF NEW SMYRNA BEACH, FLORIDA:

SECTION 1: ***Land Use Amendment.*** That the Comprehensive Plan, **Future Land Use Map II-4**, is hereby amended by changing the land use designations for real property located in Volusia County, Florida, described as:

SEE EXHIBIT "A" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

from Volusia County *Urban Medium Intensity* to City *Medium Density Residential.*

SECTION 2: ***Map Amendment.*** That the Comprehensive Plan, **Neighborhoods Map II-1**, is hereby amended to show the subject property is within the S.R. 44 Corridor Neighborhood.

SEE EXHIBIT "B" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 3: ***Map Amendment.*** That the Comprehensive Plan, **Flood Prone Area Map II-2**, is hereby amended to show the subject property is within FEMA Flood Zone AE.

SEE EXHIBIT "C" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 4: ***Map Amendment.*** That the Comprehensive Plan, **Existing Land Use Designations Map II-3**, is hereby amended to show the subject property will change from County *Residential Use* to City *Residential Use.*

SEE EXHIBIT "D" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 5: ***Map Amendment.*** That the Comprehensive Plan, **Existing Level of Service-2009 Map III-1**, is hereby amended to show the subject property is served by a Class B level of service roadway to the north and a local road to the south.

SEE EXHIBIT "E" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 6: ***Map Amendment.*** That the Comprehensive Plan, **Existing Traffic Lanes-2009 Map III-2,** is hereby amended to show the subject property is served by a 4-lane roadway to the north and a local road to the south.

SEE EXHIBIT "F" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 7: ***Map Amendment.*** That the Comprehensive Plan, **Public Transit Routes Map III-3,** is hereby amended to show the subject property is served by public transit routes located throughout the City.

SEE EXHIBIT "G" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 8: ***Map Amendment.*** That the Comprehensive Plan, **Bicycle and Pedestrian Facilities Map III-4**, is hereby amended to show the subject property is served by bicycle and pedestrian facilities located throughout the City.

SEE EXHIBIT "H" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 9: ***Map Amendment.*** That the Comprehensive Plan, **Airport Runway Protection Zones Map III-5**, is hereby amended to show the subject property is within the height notification zone, and is not within the noise impact zone, the building restriction zone, or the runway protection zone.

SEE EXHIBIT "I" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 10: ***Map Amendment.*** That the Comprehensive Plan, **Evacuation Routes Map III-6**, is hereby amended to show the subject property is served by evacuation routes located throughout the City.

SEE EXHIBIT "J" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 11: ***Map Amendment.*** That the Comprehensive Plan, **Level of Service-2025 Map III-7**, is hereby amended to show the subject property is served by a Class D level of service roadway to the north and a local road to the south.

SEE EXHIBIT "K" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 12: ***Map Amendment.*** That the Comprehensive Plan, **Number of Traffic Lanes-2025 Map III-8**, is hereby amended to show the subject property is served by a 4-lane roadway to the north and a local road to the south.

SEE EXHIBIT "L" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 13: ***Map Amendment.*** That the Comprehensive Plan, **Water and Sewer Service Area Map VII-1** is hereby amended to show the subject property is within the City and inside the New Smyrna Beach Water and Sewer Service Area.

SEE EXHIBIT "M" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 14: ***Map Amendment.*** That the Comprehensive Plan, **Soil Limitation for Septic Systems Map VII-2** is hereby amended to show the subject property is within the soils with slight limitations.

SEE EXHIBIT "N" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 15: ***Map Amendment.*** That the Comprehensive Plan, **Coastal High Hazard Areas Map VII-4** is hereby amended to show the subject property is not within the Coastal High Hazard Area.

SEE EXHIBIT "O" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 16: ***Map Amendment.*** That the Comprehensive Plan, **Boat Slip Siting Map VIII-2** is hereby amended to show the subject property is not located within a boat slip siting restricted zone.

SEE EXHIBIT "P" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 17: ***Map Amendment.*** That the Comprehensive Plan, **City Parks Map X-1** is hereby amended to show the subject property is within the City and served by neighborhood and community parks.

SEE EXHIBIT "Q" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 18: ***Map Amendment.*** That the Comprehensive Plan, **Commission Zones Map Z-1** is hereby amended to show the subject property is located in City Commission Zone 1.

SEE EXHIBIT "R" ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

SECTION 19: ***Public Hearing.*** It is hereby found that a public hearing held by the City Commission to consider adoption of this ordinance on April 22, 2025, at 6:30 p.m. in the City Commission Chambers, 214 Sams Avenue, New Smyrna Beach, Florida, after notice published at least 10 days prior to hearing is deemed to comply with §§163.3187(2) and 166.041(3)(a), Fla. Stat.

SECTION 20: ***Conflicting Ordinances***. That all ordinances or parts thereof that are in conflict with this ordinance shall be and the same are hereby rescinded and repealed.

SECTION 21: ***Administrative Correction of Scrivener's Errors.*** The administrative correction of typographical and/or scrivener's errors in this Ordinance which do not affect the intent may be authorized by the City Manager or designee, without need of public hearing, by filing a corrected or recodified copy of same with the City Clerk.

SECTION 22: ***Effective Date.*** That this ordinance shall become effective THIRTY ONE (31) days following adoption by the City Commission unless a challenge is filed under §163.3187(5), Fla. Stat. In the event that the ordinance is challenged within THIRTY (30) days after adoption,

it shall not become effective until the state land planning agency or the Administration Commission, respectively, issues a final order determining the adopted small scale development amendment is in compliance. §163.3187(5), Fla. Stat. In addition, this ordinance shall not become effective until Volusia Growth Management Commission has issued a Certificate of Consistency. No development orders, development permits, or land uses dependent on these amendments may be issued or commence before they have become effective.

- **From:** Volusia County zoning designation of R-4, Urban Single Family Residential with an "A" attached for Airport Height Notification Zone.
- **To:** City zoning designation of R-2, Single Family Residential with an "A" attached for Airport Height Notification Zone.

Site Information:

- **Size:** 9.13 ± acres
- **Location:** Northside of Paige Avenue, across from Trophy Hunter Trail.

Tax I.D. Number: 7343-06-00-0740

Findings:

On April 23, 2013, the City Commission adopted an Interlocal Service Boundary Agreement (ISBA). The ISBA, which is permitted under Chapter 171, Part II, Florida Statutes, allows the City of New Smyrna Beach to annex any parcels that are within the designated annexation area, even if they are not contiguous to the current municipal

boundaries. The agreement, which is between the County of Volusia and the City, was also approved by the County on May 2, 2013. A new agreement was approved on May 2, 2022.

The subject property is within the annexation area designated in the ISBA. The subject property at 2061 Paige Avenue is developed with a single-family house and accessory structures. A location map is attached as **Exhibit A** and an aerial map is attached as **Exhibit B**.

The existing Volusia County zoning designation of the subject property is shown on the following map as **Exhibit C**. The current zoning text description for the subject property is attached as **Exhibit D**. Existing land uses are shown on the map attached as **Exhibit E**.

The established City Commission policy is that when properties are annexed into the City, the City will assign future land use categories and zoning designations that would be as similar as possible to existing County designations. The existing County Future Land Use category is Urban Medium Intensity. The existing County zoning designation is R-4, Urban Single Family Residential and R-4A, Urban Single Family Residential. The proposed City Future Land Use category is Medium Density Residential. The proposed City zoning designation is R-2, Single Family Residential. A text description of the proposed City R-2, Single Family Residential zoning, and a map of the proposed changes are attached as **Exhibits F** and **G**.

The *Land Development Regulations* requires any proposed development to conform to the Concurrency Management System. That system includes traffic, parks and recreation, potable water, wastewater treatment, solid waste collection, storm-water management, and public-school facilities. The subject property at 2061 Paige Avenue is developed with a single-family house and accessory structures with no increased density proposed for this property. Therefore, staff did not prepare a concurrency analysis table for this case.

The ISBA map is attached as **Exhibit H**. The legal description and Warranty Deed are attached as **Exhibits I** and **J**.

Recommendations:

At its regular scheduled meeting on March 3, 2025 the planning and Zoning Board voted, 5-0, to give the City Commission a positive recommendation to **approve** the rezoning to City R-2, Single-Family Residential with an "A" attached for Airport Height Notification Zone. as part of an overall annexation application.

Staff recommends that the City Commission **approve** the requested rezoning to City R-2, Single Family Residential with an "A" attached for Airport Height Notification Zone.

R-4 URBAN SINGLE-FAMILY RESIDENTIAL CLASSIFICATION

Purpose and intent: The purpose and intent of the R-4 Urban Single-Family Residential Classification is to provide medium-density residential developments, preserving the character of existing or proposed residential neighborhoods.

Permitted principal uses and structures: In the R-4 Urban Single-Family Residential Classification, no premises shall be used except for the following uses and their customary accessory uses or structures:

Cluster and zero lot line subdivisions (refer to subsection 72-304).
Communication towers not exceeding 70 feet in height above ground level.
Essential utility services.
Exempt excavations (refer to subsection 72-293(15)) and/or those which comply with division 8 of the Land Development Code of Volusia County [article III] and/or final site plan review procedures of this article.
Exempt landfills (refer to subsection 72-293(16)).
Fire stations.
Home occupations, class A (refer to section 72-283).
Houses of worship.
Parks and recreational areas accessory to residential developments.
Public schools.
Publicly owned parks and recreational areas.
Publicly owned or regulated water supply wells.
Single-family standard or manufactured modular dwelling.

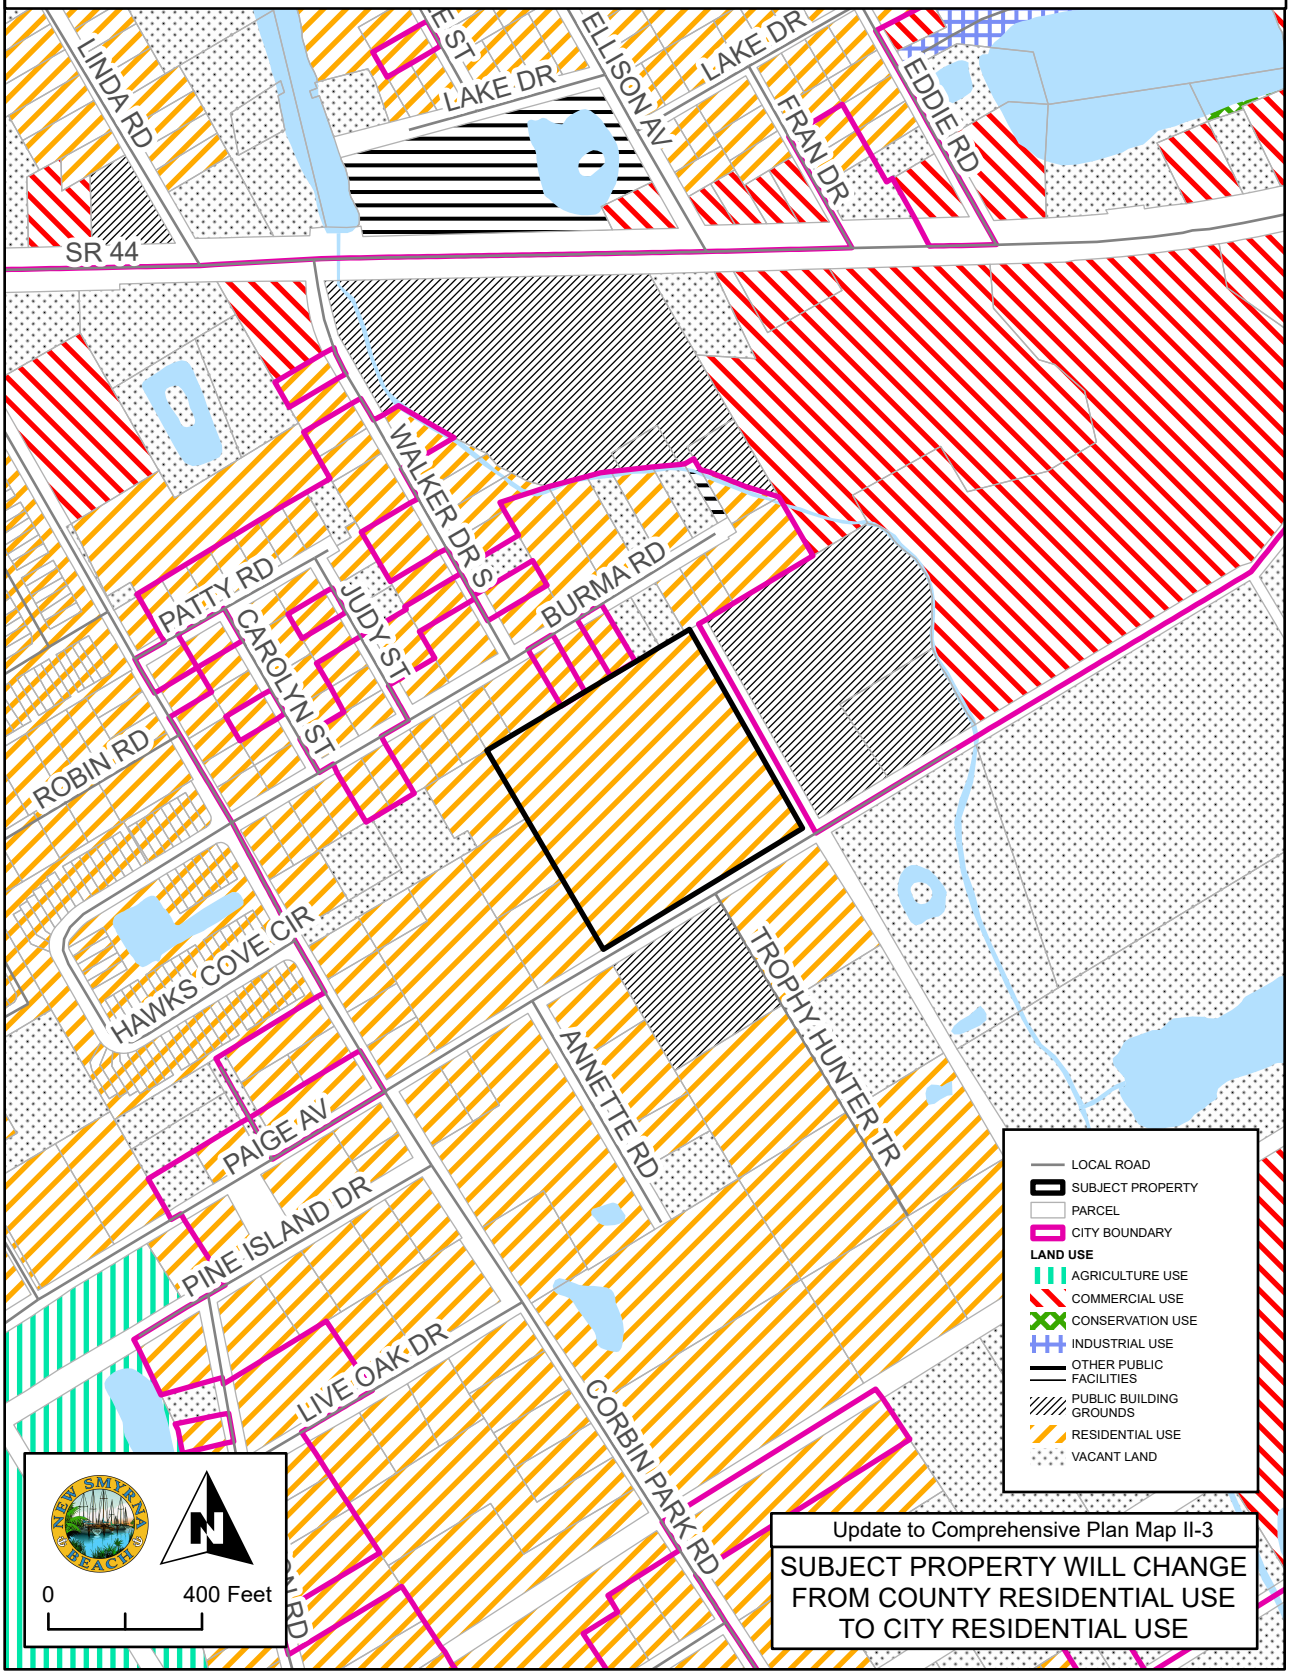
Permitted special exceptions: Additional regulations/requirements governing permitted special exceptions are located in sections 72-293 and 72-415 of this article.

Bed and breakfast (refer to subsection 72-293(19)).
Cemeteries (refer to subsection 72-293(4)).
Communication towers exceeding 70 feet in height above ground level.
Day care centers (refer to subsection 72-293(6)).
Dogs and cats boarded as personal pets exceeding the number permitted in subsection 72-306(a).
Excavations only for stormwater retention ponds for which a permit is required by this article.
Garage apartments.
Off-street parking areas (refer to subsection 72-293(14)).
Public uses not listed as a permitted principal use.
Public utility uses and structures (refer to subsection 72-293(1)).
Recreational areas (refer to subsection 72-293(3)).
Schools, parochial or private (refer to subsection 72-293(4)).

Dimensional requirements:
Minimum lot size:
Area: 7,500 square feet.
Width: 75 feet.

Minimum yard size:
Front yard: 25 feet.
Rear yard: 20 feet.
Side yard: 20 feet combined, minimum of eight feet on any one side.
Waterfront yard: 25 feet.

Maximum building height: 35 feet.



Maximum lot coverage: The total lot area covered with principal and accessory buildings shall not exceed 35 percent.

Minimum floor area: 850 square feet.

Off-street parking and loading requirements: Off-street parking and loading areas meeting the requirements of sections 72-286 and 72-287 shall be constructed.

EXISTING LAND USE DESIGNATIONS

A-2-25

R-2 SINGLE FAMILY RESIDENTIAL DISTRICT

Intent:

The R-2 district is intended to be a single-family residential district for low population densities. Existing development and usage has resulted which is being preserved in order to stabilize the neighborhood. The nature of the residential use of the property throughout the district will enhance the prospects for orderly future residential development.

Permitted Uses:

Playfields
Playgrounds
Public Parks
Recreation Buildings and Complexes for exclusive use by residents and guests in a residential development
Single Family Dwelling Units

Permitted Accessory Uses:

Garages
Gazebos
Incidental Uses
Permitted Home Occupations
Storage Sheds
Swimming pools, private, provided a principal structure exists and the pool is located behind the front plane of the principal structure. Corner lots will be considered to have two front planes, one on each street. If a structure is not constructed squarely on a parcel, the swimming pool must be located at or behind the most restrictive front plane of the principal structure. **Ord. #30-10**
Open Front Porches, up to 10 feet into the front yard setback, subject to the following conditions:
Open Front Porch shall not be enclosed in any manner,
Open Front Porch must be open wall construction without screen,
Open Front Porch shall have a similar roofing material as the primary structure,
Open Front Porch front building line shall be measured from the vertical support column. **Ord. #75-16**

Uses customarily associated with the permitted principal uses

Special Exceptions:

Child day care on a house of worship property, subject to the following additional conditions:

1. The house of worship property shall be located on and be accessible by an arterial or collector roadway.

2. Play areas shall be fenced and landscaped. The landscaping shall have a vegetative hedge that will reach six feet in height within two years that is planted a minimum of three feet on center.

3. Play areas shall be located within all applicable setback dimensions.

4. The house of worship property shall have a vehicular drop off and pickup area with a minimum 100 feet of drive lane outside of the public right-of-way, or sufficient parking area to provide enough space to fit the required parking and provided space for drop off and pick up. **Ord. #04-00**

Facilities owned and/or operated by federal, state, county or municipal government except country clubs and golf courses

Schools and or a house of worship provided all structures are located at least thirty-five (35) feet from all side or rear property lines and off-street parking areas abutting residential property are screened by a buffer meeting the requirements of this LDR. **[Revised 3/27/00]**

Dimensional Requirements:

Minimum Lot Size:

Area	8,625 square feet
Depth	115 feet
Width	75 feet

Minimum Yard Size:

Front yard	30 feet or as required per Section 504.01(M) of this LDR
Rear yard	7.5 feet
Side yard	7.5 feet

Maximum Building Coverage:

The total area covered with buildings on any lot shall not exceed 40% of the total lot area. **Ord. #78-98**

Screen Enclosures:

As an exception to the maximum building coverage provision any parcel may be allowed an additional ten percent (10%) building coverage for only a screen pool enclosure if the following conditions are met:

1. A screen pool enclosure shall only cover the swimming pool and surrounding pool deck and shall have a roof and walls consisting entirely of screening; and
2. There shall be no variances granted to exceed the maximum building coverage or additional coverage allowed for screen enclosures.

Ord. #05-09

Maximum Impervious Lot Coverage:

The total area of the lot that may be covered with impervious material is sixty (60) percent.

Maximum Principal Building Height:

Thirty-five (35) feet.
Three (3) stories.

Minimum Floor Area Requirements:

750 square feet of livable area for one and two-bedroom dwelling units; 1200 square feet of livable area for a three-bedroom dwelling unit; and 1300 square feet livable area for a four-bedroom dwelling unit. **[Revised 7-1-03]**

Corner Lots:

(1) Parcels which front on two streets shall provide a thirty (30) foot front yard on one street frontage and a 15 foot half depth front yard on the other street, or as required per Section 504.01(M) of this LDR.

(2) Parcels fronting on three streets shall provide two thirty (30) foot front yards and a 15 foot half depth front yard on the remaining street or as required per Section 504.01(M) of this LDR. **Ord. #23-00**

Driveway Access

The minimum driveway length shall be 20 feet (excluding portion of a driveway within the public right-of-way). **Ord. #23-00**

Through Lots:

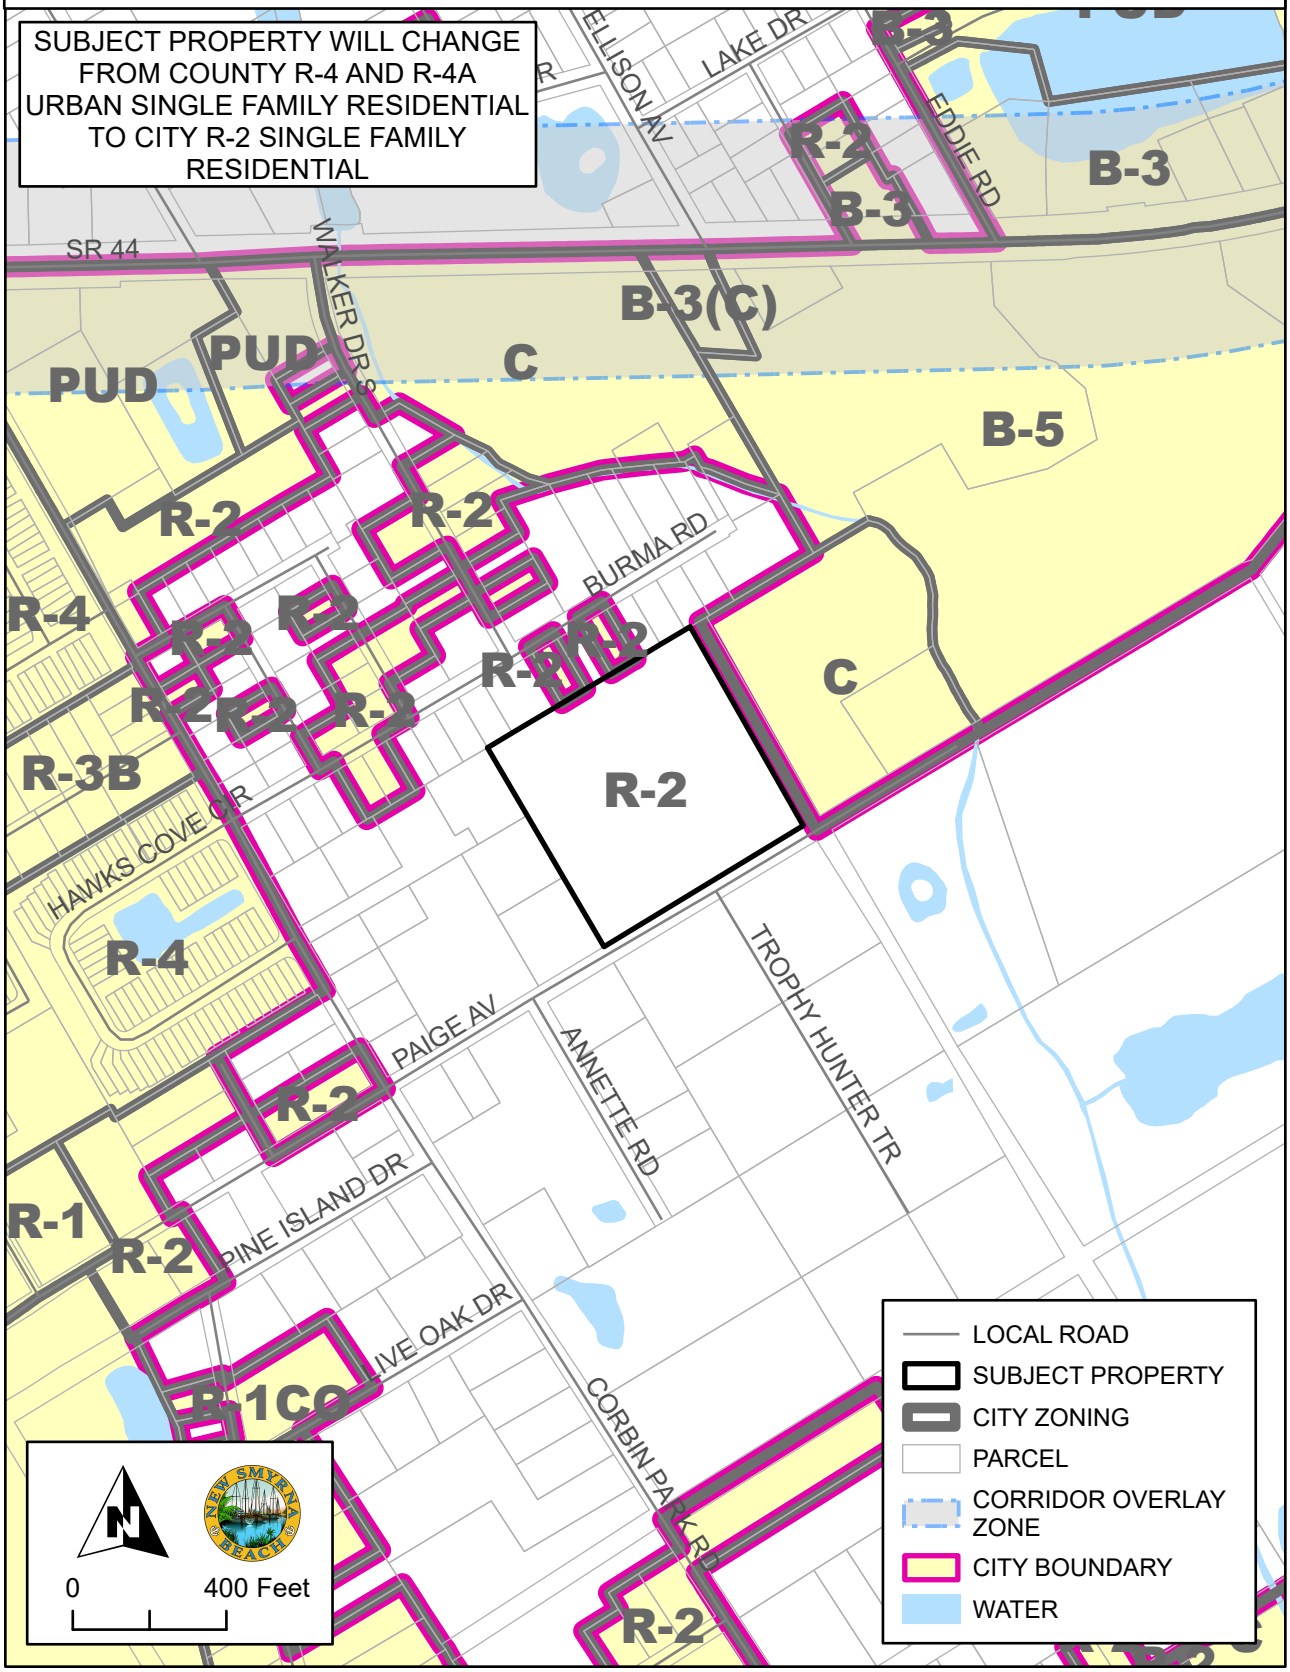
Through lots shall provide a 30-foot front yard on each street, or as required per Section 504.01(M) of this LDR.

Atypical Lots:

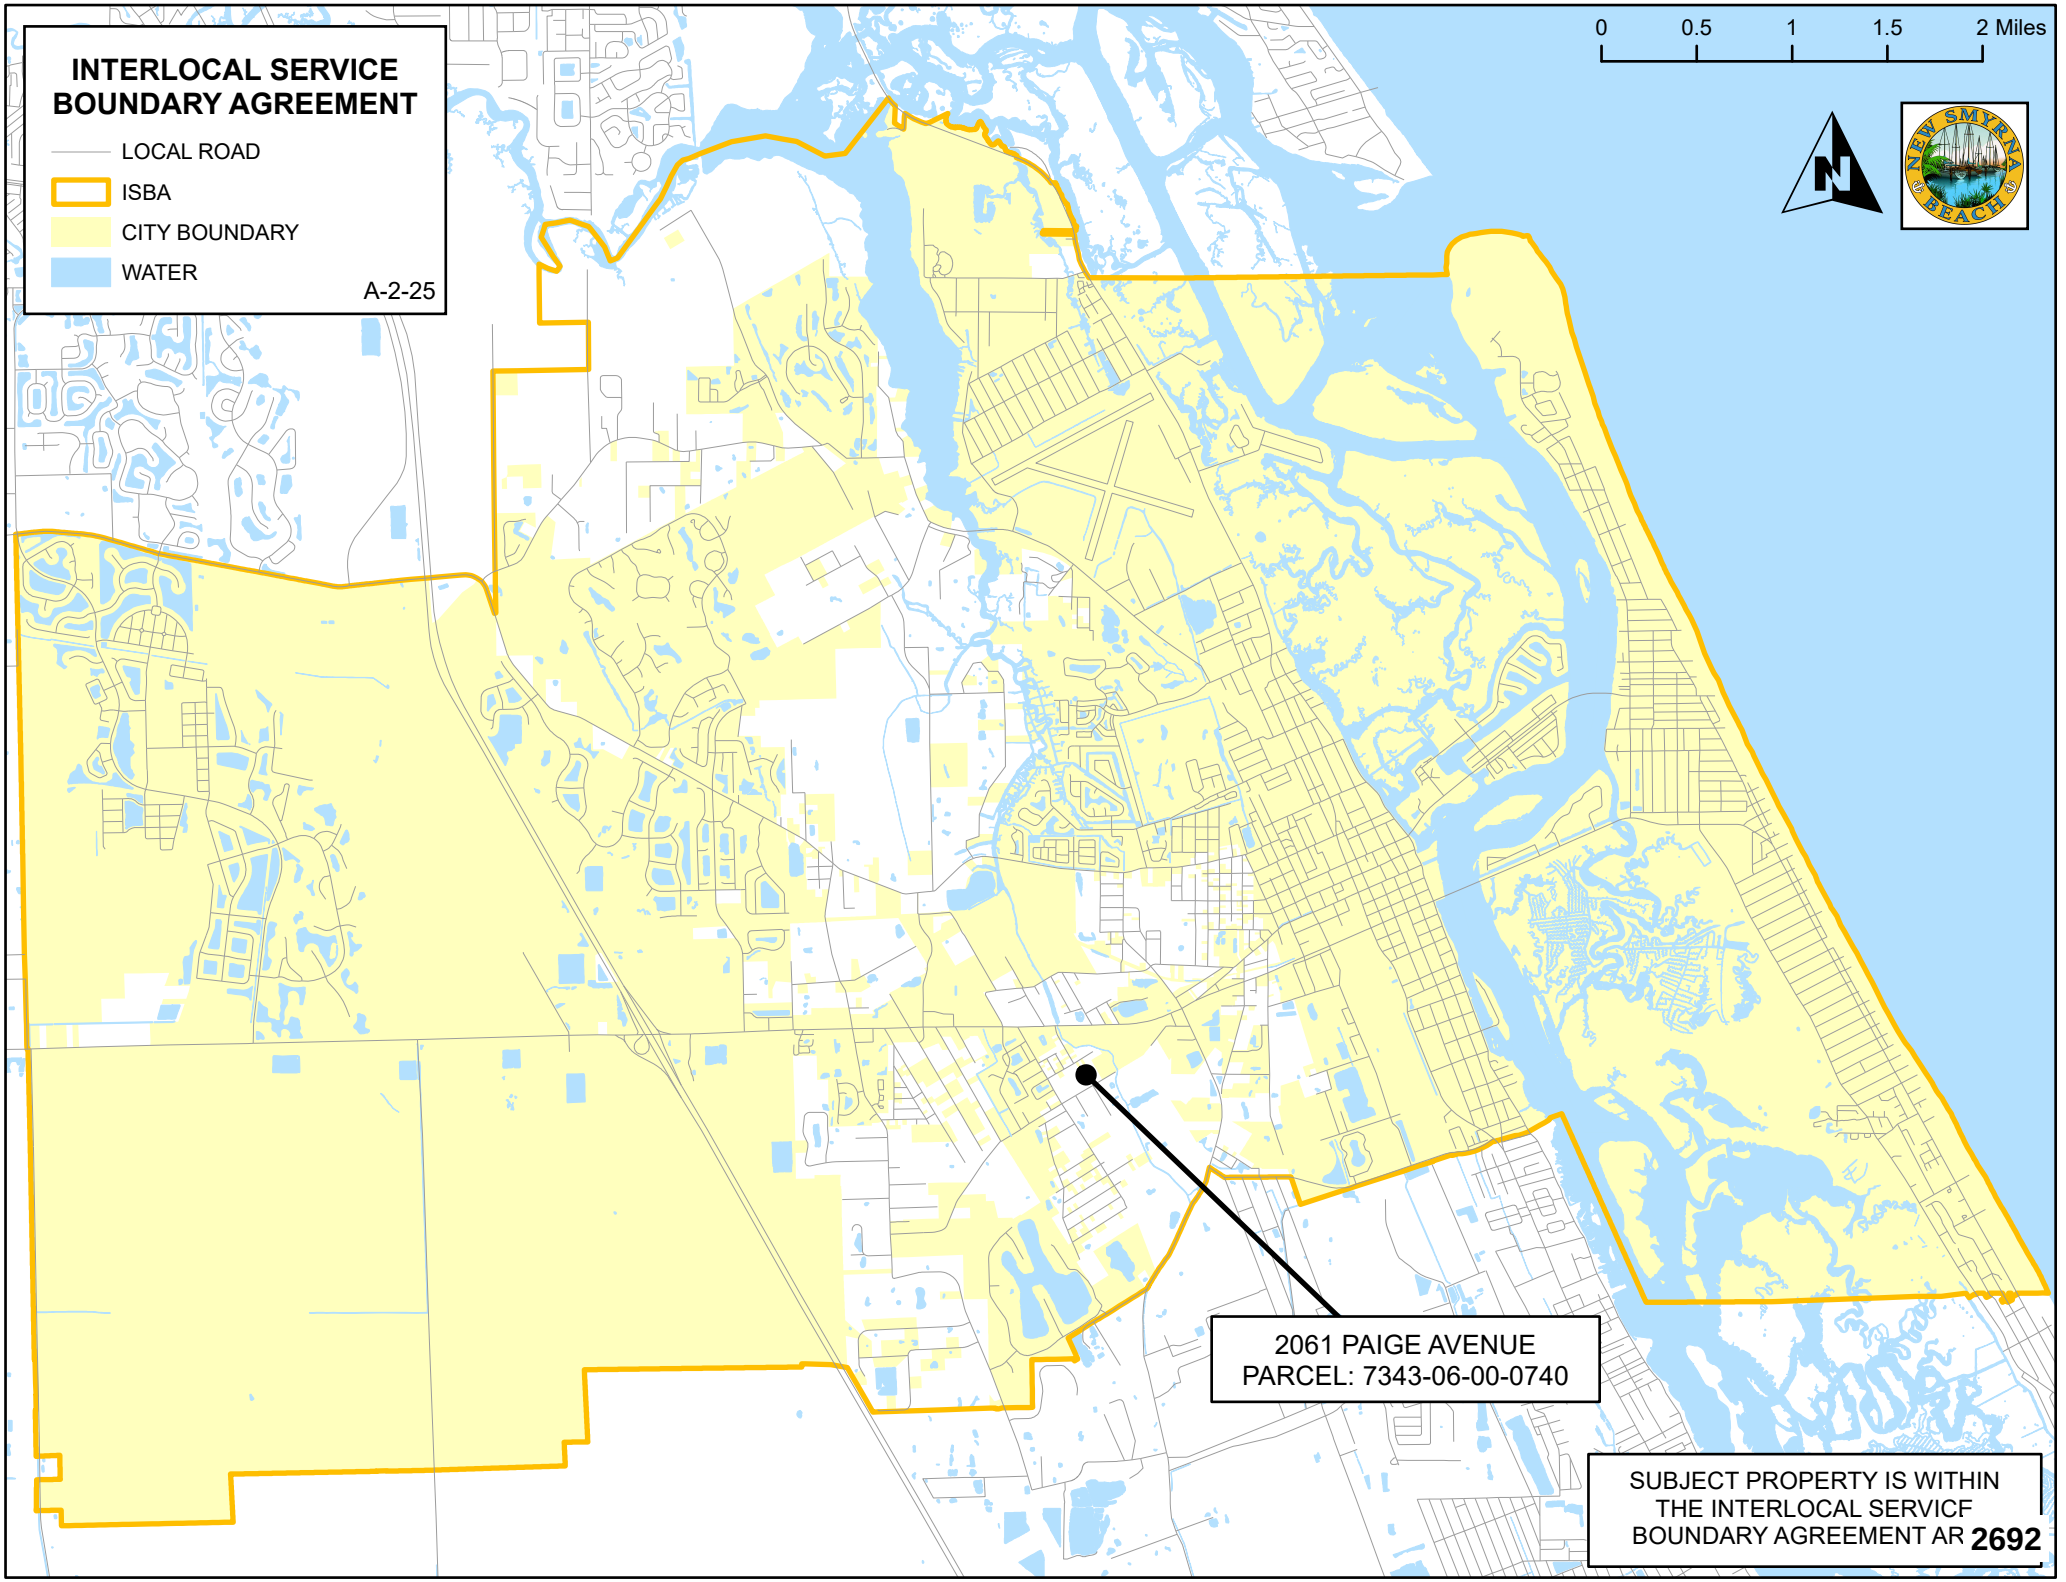
Visibility triangles shall be established at the rear corners of an atypical lot. The visibility triangles shall be those areas formed by a line connecting the points 30 feet from the intersection of the side and rear lot line along the side lot line and 30 feet from the intersection of the side and rear lot line along the rear lot line; no principal or accessory

structure having a height over 4 feet, except for incidental uses, shall protrude into the area of a visibility triangle.

Building Projections:



There shall be no building projections into any required yard except for eaves with a maximum projection of 42 inches, but no closer than 5 feet to a property line; and those structures allowed in Section 804.03.



Visibility at Intersections:

Visibility at intersections shall be provided as required in this LDR. **[Revised 12-18-92]**

Business Impact Estimate

This form should be included in agenda packet for the item under which the proposed ordinance is to be considered, and must be posted on the City of New Smyrna Beach website by the time notice of the proposed ordinance is published.

Proposed ordinance's title/reference:

ORD 19-25 Rezoning 2061 Paige Ave.

This Business Impact Estimate is provided in accordance with section 166.041(4), *Florida Statutes*. If one or more boxes are checked below, this means the City of New Smyrna Beach is of the view that a business impact estimate is not required by state law[1] for the proposed ordinance, but the City of New Smyrna Beach is, nevertheless providing this Business Impact Estimate as a courtesy and to avoid any procedural issues that could impact the enactment of the proposed ordinance. This Business Impact Estimate may be revised following its initial posting.

- ☐ The proposed ordinance is required for compliance with Federal or State law or regulation;
- ☐ The proposed ordinance relates to the issuance or refinancing of debt;
- ☐ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
- ☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant, or other financial assistance accepted by the municipal government.
- ☐ The proposed ordinance is an emergency ordinance;
- ☐ The ordinance relates to procurement; or
- ☑ The proposed ordinance is enacted to implement the following:
  a. A development order or development permit, as defined in s. 163.3164, F.S.; a development agreement as authorized by ss. 163.3220-163.3243, F.S.; or a comprehensive plan amendment or land development regulation amendment initiated by an application by a private party other than the municipality;
  b. Sections 190.005 and 190.046, *Florida Statutes*, regarding community development districts;
  c. Section 553.73, *Florida Statutes*, relating to the *Florida Building Code*; or
  d. Section 633.202, *Florida Statutes*, relating to the *Florida Fire Prevention Code*.

In accordance with the provisions of controlling law, even notwithstanding the fact that, an exemption noted above may apply, the City of New Smyrna Beach hereby publishes the following information:

[1] *See* Section 166.041(4)(c), *Florida Statutes*.

1. Summary of the proposed ordinance (must include statement of the public purpose, such as serving the public health, safety, morals, and welfare):

N/A

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the City of New Smyrna Beach, if any:
(a) An estimate of direct compliance costs that businesses may reasonably incur;
(b) Any new charge or fee imposed by the proposed ordinance, or for which businesses will be financially responsible; and
(c) An estimate of the City of New Smyrna Beach's regulatory costs, including estimated revenues from any new charges or fees to cover such costs.

N/A

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

N/A

4. Additional information the governing body deems useful (if any):
[*You may wish to include in this section the methodology or data used to prepare the Business Impact Estimate. For example: City of New Smyrna Beach staff solicited comments from businesses in the City of New Smyrna Beach as to the potential impact of the proposed ordinance by contacting the chamber of commerce, social media posting, direct mail or direct email, posting on City of New Smyrna Beach website, public workshop, etc. You may also wish to include efforts made to reduce the potential fiscal impact on businesses. You may also wish to state here that the proposed ordinance is a generally applicable ordinance that applies to all persons similarly situated (individuals as well as businesses) and, therefore, the proposed ordinance does not affect only businesses.*).

N/A

ORDINANCE NO. 19-25

AN ORDINANCE OF THE CITY OF NEW SMYRNA BEACH REZONING 9.1± ACRES OF PROPERTY GENERALLY LOCATED EAST OF CORBIN PARK ROAD, NORTH OF PAIGE AVENUE AND TROPHY HUNTER TRAIL, ADDRESSED AS 2061 PAIGE AVENUE, FROM VOLUSIA COUNTY *R-4 A, URBAN SINGLE-FAMILY RESIDENTIAL AIRPORT OVERLAY* TO CITY *R-2, SINGLE FAMILY RESIDENTIAL AIRPORT OVERLAY* ZONING DISTRICT; PROVIDING FOR CONFLICTING ORDINANCES; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, Robert J. and Patricia A. Malecki, 3086 Log Cabin Lane, Edgewater, Florida 32132, applicants and property owners, have requested the annexation of 9.1± acres of property generally located east of Corbin Park Road, north of Paige Avenue and Trophy Hunter Trail, addressed as 2061 Paige Avenue, from Volusia County *R-4, Urban Single-Family Residential Airport Overlay* to City *R-2 A, Single Family Residential Airport Overlay* zoning district; and

WHEREAS, the Planning and Zoning Board, at its regular scheduled meeting on March 3, 2025, by a vote of 5-0, recommended that the City Commission approve the requested rezoning; and

WHEREAS, the City Commission finds that the requested rezoning is consistent with the City Comprehensive Plan; and

WHEREAS, the City Commission deems it is in the best interests of the citizens of the City of New Smyrna Beach to rezone said property as more particularly described hereinafter.

NOW, THEREFORE, BE IT ENACTED BY THE CITY COMMISSION OF THE CITY OF NEW SMYRNA BEACH, FLORIDA:

SECTION 1: ***Rezoning.*** That the 9.1± acres of property located on the northside of Paige Avenue, across from Trophy Hunter Trail, in the City of New Smyrna Beach, Florida, said properties more particularly described as follows:

7343-06-00-0740
2061 Paige Avenue

Lot 75, Block 22, DOUGHERTY'S SUBDIVISION of the Thomas Napier Grant and the North 1/3 of the Ambrose Hull Grant in Township 17 South, Range 33 East, according to the map recorded in Deed Book "M", Page 688 (Also recorded in Map Book 2, Page 42) Public Records of Volusia County, Florida, and subject to the following easements:

The Southerly 50 feet of Lots 74 and 75 for water line road purposes (now existing); a 15-foot easement (now existing) along the Northerly line of said Lots 74 and 75 West of Turnbull Creek for drainage purposes.

shall be and the same is hereby rezoned from Volusia *R-4 A, Urban Single-Family Residential Airport Overlay* to City *R-2 A, Single Family Residential Airport Overlay* zoning district.

SECTION 2: *Quasi-Judicial Public Hearing.* It is hereby found that a quasi-judicial public hearing held by the City Commission to consider adoption of this ordinance on April 22, 2025 at 6:30 p.m. in the City Commission Chambers, 214 Sams Avenue, New Smyrna Beach, Florida, to consider the rezoning request in accordance with *Bd. of Cty. Com'rs of Brevard v. Snyder*, 627 So.2d 469 (Fla. 1993) in a manner to insure that all parties are provided an opportunity to be heard, present evidence and cross-examine witnesses, and to be informed of all the facts upon which the Commission's decision on the rezoning is based, after notice published at least 10 days prior to hearing, is deemed to comply with §166.041(3)(a), Fla.Stat.

SECTION 3: *Conflicting Ordinances.* That all ordinances or parts thereof that are in conflict with this ordinance shall be and the same are hereby rescinded and repealed.

SECTION 4: *Administrative Correction of Scrivener's Errors.* The administrative correction of typographical and/or scrivener's errors in this Ordinance which do not affect the intent may be authorized by the City Manager or designee, without need of public hearing, by filing a corrected or recodified copy of same with the City Clerk.

SECTION 5: *Severability.* That if any section, sentence, clause or phrase of this ordinance is held invalid or unconstitutional by any court of competent jurisdiction, then said holding shall in no way affect the validity of the remaining portions of this ordinance.

SECTION 6: *Effective Date*. That this ordinance shall become effective THIRTY ONE (31) days following adoption of Ordinance No. 18-25, the Small Scale Comprehensive Plan Amendment for the subject property, by the City Commission unless a challenge is filed to said ordinance under §163.3187, F.S. In the event that Ordinance No. 18-25, the Small Scale Comprehensive Plan Amendment, is challenged this ordinance shall become effective upon the state land planning agency or the Administration Commission, respectively, issuing a final order determining that the adopted small scale development amendment is in compliance.

APPROVED AS TO FORM AND CORRECTNESS:

CARRIE AVALLONE
City Attorney

Date: 4/1/2025

THE CITY OF NEW SMYRNA BEACH - CITY CLERK'S OFFICE

BOARD VACANCY NOTICE: THE HOUSING AUTHORITY CURRENTLY HAS ONE (1) UNFILLED FOUR-YEAR TERM LENGTH VACANCY, WHICH WILL EXPIRE ON AUGUST 31, 2027.

April 8, 2025

Background:
The Housing Authority, as defined in the Florida Statutes, is to provide affordable, safe, and decent housing for the state's low-income residents and manage these efforts in a sustainable and effective way.

Creation and Authority: The **Housing Authority** was created under *FSS 421.01,* where public agencies are responsible for addressing housing needs. These authorities are given the power to manage, operate, and finance housing programs and projects.
Duties: The Housing Authority has the power to acquire, construct, and manage public housing projects. They can also issue bonds to finance these projects and receive federal or state assistance for housing programs.
Financials: The Housing Authority can charge rent for the housing it provides, manage finances, and use various funding mechanisms to support its operations.

Findings:
The board meets the second Monday of each month. This is a five (5) member board with term length of four (4) years.
Member Qualifications:

- Must be citizen of New Smyrna Beach
- One (1) member must be a recipient (in good standing) of a rent subsidy administered by the Housing Authority.

This opening is due to a resignation. The board appointment will be conducted at the City Commission regular meeting on Tuesday, April 22, 2025.

Cooperation Agreement.pdf

by laws nsbha.pdf

COOPERATION AGREEMENT

This Agreement entered into this 8th day of January, 1951, by and between THE HOUSING AUTHORITY OF THE CITY OF NEW SMYRNA BEACH, FLORIDA (herein called the "Local Authority") and CITY OF NEW SMYRNA BEACH, FLORIDA (herein called the "Municipality"), witnesseth:

In consideration of the mutual covenants hereinafter set forth, the parties hereto do agree as follows:

1. Whenever used in this Agreement:

(a) The term "Project" shall mean any low-rent housing hereafter developed as an entity by the Local Authority with financial assistance of the Public Housing Administration (herein called the "PHA"); excluding, however, any low-rent housing project covered by any contract entered into prior to March 1, 1949 for loans and annual contributions between the Local Authority and the PHA or its predecessor agencies.

(b) The term "Taxing Body" shall mean the State or any political subdivision or taxing unit thereof in which a Project is situated and which would have authority to assess or levy real or personal property taxes or to certify such taxes to a taxing body or public officer to be levied for its use and benefit with respect to a Project if it were not exempt from taxation.

(c) The term "Shelter Rent" shall mean the total of all charges to all tenants of a Project for dwelling rents and non-dwelling rents (excluding all other income of such Project), less the cost to the Local Authority of all dwelling and non-dwelling utilities.

(d) The term "Slum" shall mean any area where dwellings predominate which, by reason of dilapidation, overcrowding, faulty arrangement or design, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

2. The Local Authority shall endeavor to secure a contract or contracts with the PHA for loans and annual contributions, and shall endeavor to develop and administer one or more Projects. The obligations of the parties hereto shall apply only to Projects

aggregating not more than 300 units of low-rent housing. The Project or Projects shall be located within the corporate limits of the Municipality.

3. (a) Under the constitution and statutes of the State of Florida, all Projects are exempt from all real and personal property taxes and special assessments levied or imposed by any Taxing Body. With respect to any Project, so long as either (i) such Project is owned by a public body or governmental agency and is used for low-rent housing purposes, or (ii) any contract between the Local Authority and the PHA for loans or annual contributions, or both, in connection with such Project remains in force and effect, or (iii) any bonds issued in connection with such Project or any monies due to the PHA in connection with such Project remain unpaid, whichever period is the longest, the Municipality agrees that it will not levy or impose any real or personal property taxes or special assessments upon such Project or upon the Local Authority with respect thereto. During such period, the Local Authority shall make annual payments (herein called "Payments in Lieu of Taxes") in lieu of such taxes and special assessments and in payment for the public services and facilities furnished from time to time without other cost or charge for or with respect to such Project.

(b) Each such annual Payment in Lieu of Taxes shall be made after the end of the fiscal year established for such Project, and shall be in an amount equal to either (i) ten percent (10%) of the aggregate Shelter Rent charged by the Local Authority in respect to such Project during such fiscal year or (ii) the amount permitted to be paid by applicable state law in effect on the date such payment is made, whichever amount is the lower.

(c) No payment for any year shall be made to the Municipality in excess of the amount of the real property taxes which would have been paid to the Municipality for such year if the Project were not exempt from taxation.

(d) Upon failure of the Local Authority to make any Payment in Lieu of Taxes, no lien against any Project or assets of the Local Authority shall attach, nor shall any interest or penalties accrue or attach on account thereof.

4. The Municipality agrees that, subsequent to the date of

initiation (as defined in the United States Housing Act of 1937, as amended) of each Project and within five years after the completion thereof, or such further period as may be approved by the PHA, there has been or will be elimination (as approved by the PHA) by demolition, condemnation, effective closing, or compulsory repair or improvement, of unsafe or insanitary dwelling units situated in the locality or metropolitan area in which such Project is located, substantially equal in number to the number of newly constructed dwelling units provided by such Project; Provided, That, where more than one family is living in an unsafe or insanitary dwelling unit, the elimination of such unit shall count as the elimination of units equal to the number of families accommodated therein; and Provided, further, That this paragraph 4 shall not apply in the case of (i) any Project developed on the site of a Slum cleared subsequent to July 15, 1949, and that the dwelling units eliminated by the clearance of the site of such Project shall not be counted as elimination for any other Project or any other low-rent housing project, or (ii) any Project located in a rural non-farm area.

5. During the period commencing with the date of the acquisition of any part of the site or sites of any Project and continuing so long as either (i) such Project is owned by a public body or governmental agency and is used for low-rent housing purposes, or (ii) any contract between the Local Authority and the PHA for loans or annual contributions, or both, in connection with such Project remains in force and effect, or (iii) any bonds issued in connection with such Project or any monies due to the PHA in connection with such Project remain unpaid, whichever period is the longest, the Municipality without cost or charge to the Local Authority or the tenants of such Project (other than the Payments in Lieu of Taxes) shall:

(a) Furnish or cause to be furnished to the Local Authority and the tenants of such Project public services and facilities of the same character and to the same extent as are furnished from time to time without cost or charge to other dwellings and inhabitants in the Municipality;

(b) Vacate such streets, roads, and alleys within the area of such Project as may be necessary in the development thereof, and convey without charge to the Local Authority such interest as the Munici-

pality may have in such vacated areas; and, insofar as it is lawfully able to do so without cost or expense to the Local Authority or to the Municipality, cause to be removed from such vacated areas, insofar as it may be necessary, all public or private utility lines and equipment;

(c) Insofar as the Municipality may lawfully do so, (i) grant such deviations from the building code of the Municipality as are reasonable and necessary to promote economy and efficiency in the development and administration of such Project, and at the same time safeguard health and safety, and (ii) make such changes in any zoning of the site and surrounding territory of such Project as are reasonable and necessary for the development and protection of such Project and the surrounding territory;

(d) Accept grants of easements necessary for the development of such Project; and

(e) Cooperate with the Local Authority by such other lawful action or ways as the Municipality and the Local Authority may find necessary in connection with the development and administration of such Project.

6. In respect to any Project the Municipality further agrees that within a reasonable time after receipt of a written request therefor from the Local Authority:

(a) It will accept the dedication of all interior streets, roads, alleys, and adjacent sidewalks within the area of such Project, together with all storm and sanitary sewer mains in such dedicated areas, after the Local Authority, at its own expense, has completed the grading, improvement, paving and installation thereof in accordance with specifications acceptable to the Municipality;

(b) It will accept necessary dedications of land for, and will grade, improve, pave, and provide sidewalks for, all streets bounding such Project or necessary to provide adequate access thereto (in consideration whereof the Local Authority shall pay to the Municipality such amount as would be assessed against the Project site for such work if such site were privately owned); and

(c) It will provide, or cause to be provided, water mains, and storm and sanitary sewer mains, leading to such Project and serving the bounding streets thereof (in consideration whereof the Local Authority shall pay to the Municipality such amount as would be assessed against the Project site for such work if such site were privately owned).

7. If by reason of the Municipality's failure or refusal to furnish or cause to be furnished any public services or facilities which it has agreed hereunder to furnish or to cause to be furnished to the Local Authority or to the tenants of any Project, the Local Authority incurs any expense to obtain such services or facilities then the Local Authority may deduct the amount of such expense from any Payments in Lieu of Taxes due or to become due to the Municipality in respect to any Project or any other low-rent housing projects owned or operated by the Local Authority.

8. No Cooperation Agreement heretofore entered into between the Municipality and the Local Authority shall be construed to apply to any Project covered by this Agreement.

9. So long as any contract between the Local Authority and the PHA for loans (including preliminary loans) or annual contributions, or both, in connection with any Project remains in force and effect, or so long as any bonds issued in connection with any Project or any monies due to the PHA in connection with any Project remain unpaid, this Agreement shall not be abrogated, changed, or modified without the consent of the PHA. The privileges and obligations of the Municipality hereunder shall remain in full force and effect with respect to each Project so long as the beneficial title to such Project is held by the Local Authority or by any other public body or governmental agency, including the PHA, authorized by law to engage in the development or administration of low-rent housing projects. If at any time the beneficial title to, or possession of, any Project is held by such other public body or governmental agency, including the PHA, the provisions hereof shall inure to the benefit of and may be enforced by, such other public body or governmental agency, including the PHA.

IN WITNESS WHEREOF the Municipality and the Local Authority have respectively signed this Agreement and caused their seals to be affixed and attested as of the day and year first above written.

City Attorney of the City of New Smyrna Beach, Florida.

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF NEW SMYRNA BEACH, FLORIDA, ENTITLED

A RESOLUTION DECLARING THE NEED FOR A HOUSING AUTHORITY IN THE CITY OF NEW SMYRNA BEACH FLORIDA

WHEREAS - The City Commission of the City of New Smyrna Beach, Florida, deems it to the best interests of the citizens of New Smyrna Beach, Florida, that the City of New Smyrna Beach, avail itself of the benefits of the Housing Authority Law of the State of Florida;

NOW THEREFORE BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF NEW SMYRNA BEACH, FLORIDA, IN REGULAR MEETING ASSEMBLED THIS 28TH DAY OF AUGUST, A.D. 1950:

Section 1. That unsanitary and unsafe inhabited dwelling accommodations exist in the City of New Smyrna Beach, Florida.

Section 2. That there is a shortage of safe and sanitary dwelling accommodations in the City of New Smyrna Beach, Florida, available to families of low income at rentals they can afford.

Section 3. That there is a need for a Housing Authority in the City of New Smyrna Beach, Florida, as defined and set forth in the Housing Authority Law of the State of Florida.

Section 4. That this Resolution shall take effect immediately upon its adoption.

s/ E. E. ALTMAN,
Mayor-Commissioner.

s/ Mary M. Hill,
City Clerk

Adopted August 28, 1950.

I, Mary M. Hill, City Clerk of the City of New Smyrna Beach, Florida, DO HEREBY CERTIFY, that the within and foregoing resolution entitled "A RESOLUTION DECLARING THE NEED FOR A HOUSING AUTHORITY IN THE CITY OF NEW SMYRNA BEACH FLORIDA" is a true and correct copy of the original thereof appears from the official records in my office and of which I am the legal custodian. I DO FURTHER CERTIFY, that the abovesaid Resolution was duly adopted by the City Commission of the City of New Smyrna Beach, Florida, at its regular meeting held on August 28th, 1950.

IN WITNESS WHEREOF I hereunto set my hand and affix the corporate seal of the City of New Smyrna Beach, Florida, this 11th day of September, A. D. 1950

Mary M. Hill

CORPORATE SEAL

MARY M. HILL, - City Clerk of the City of New Smyrna Beach, Florida.

CERTIFICATE OF APPOINTMENT OF COMMISSIONERS OF THE HOUSING AUTHORITY OF THE CITY OF NEW SMYRNA BEACH, FLORIDA, AND DESIGNATION OF THE FIRST CHAIRMAN.

KNOW YE, That pursuant to the provisions of the Laws of the State of Florida, popularly known as the "Housing Authorities Law", the same being Section 421 of the Florida Statutes Annotated, and by virtue of my office as Mayor of the City of New Smyrna Beach, Florida, I DO HEREBY APPOINT the five (5) persons hereinafter named to serve as Commissioners of the Housing Authority of the City of New Smyrna Beach, Florida, and to serve for the number of years appearing after their names, respectively, from the 1st day of September, A. D. 1950.

H. E. Donnelly - Four Years
W. K. Sapp - Four Years
Fred Lynch - Three Years
A. L. Pruitt - Two Years
J. E. Lucas - One Year,

AND I DO HEREBY designate Mr. H. E. Donnelly as the first Chairman of the Housing Authority of the City of New Smyrna Beach, Florida.

IN WITNESS WHEREOF, I have hereunto signed my name as Mayor of the City of New Smyrna Beach, Florida, and caused the official Corporate Seal of the said City of New Smyrna Beach, Florida, to be attached hereto this 1st day of September, A. D. 1950.

s/ E. E. ALTMAN,
Mayor.

Mary M. Hill
MARY M. HILL, - City Clerk of the City of New Smyrna Beach, Florida.

MINUTES OF THE ORGANIZATION MEETING OF THE HOUSING AUTHORITY OF THE CITY OF NEW SMYRNA BEACH, FLORIDA, HELD AT 8 O'CLOCK P.M. ON FRIDAY, SEPTEMBER 15TH, 1950, AT THE CITY HALL OF THE CITY OF NEW SMYRNA BEACH, FLORIDA.

For the purpose of organizing, a meeting of The Housing Authority of the City of New Smyrna Beach, Florida, was held on the 15th day of September, 1950, at 8 o'clock P.M. at the City Hall of the City of New Smyrna Beach, Florida, located on Sams Avenue in said City. All of the members of the Authority were present, as follows:

Mr. H. E. Donnelly, Chairman,
Mr. J. E. Lucas,
Mr. W. K. Sapp,
Mr. Fred Lynch,
Mr. A. L. Pruitt.

Commissioner Donnelly, Chairman of the Authority, presided and Commissioner Fred Lynch was appointed Secretary of the meeting and kept the minutes.

The Secretary read the call of the meeting, which was ordered spread in full upon the minutes, as follows:

"CALL OF MEETING

New Smyrna Beach, Florida,

September 13th, 1950.

TO: Mr. J. E. Lucas,
Mr. W. K. Sapp,
Mr. Fred Lynch,
Mr. A. L. Pruitt.

You and each of you are hereby notified that I have called a meeting of the Housing Authority of the City of New Smyrna Beach, Florida, to be held at the City Hall of the City of New Smyrna Beach, Florida, on Sams Avenue in said City, at the hour of 8 o'clock P.M., Eastern Standard Time on the 15th day of September, 1950, for the purpose of organizing the said Housing Authority, a-dopting by-laws and a seal therefor, electing officers, and to take such other action concerning the organizing of said Housing Authority as the Members thereof may determine.

(signed) H. E. DONNELLY,
Chairman.

CONSENT TO MEETING

We, the undersigned Commissioners of The Housing Authority of the City of New Smyrna Beach, Florida, do hereby accept service of the foregoing Call of Meeting, waiving any and all irregularities in such service and such call, and consent and agree that the said Commissioners of the Housing Authority of the City of New Smyrna Beach, Florida, shall meet at the time and place therein mentioned, and for

the purposes therein stated.

Signed at New Smyrna Beach, Florida, this 13th day of September, 1950.

(signed) Fred Lynch,
(signed) A.L.Pruitt,
(signed) J. E. Lucas,
(signed) W. K. Sapp."

There were presented to the meeting certified copies of the Resolution of the City of New Smyrna Beach, Florida, creating the Authority and the certified copy of the certificate of appointment by the Mayor of the City of New Smyrna Beach, Florida, of the different members of the Authority, duly verified, showing the names, dates of appointment and the times of the commencement and the end of the terms of office; the said certificate of appointment also shows that H. E. Donnelly was designated to serve for four (4) years as the first Chairman of the Authority. The Chairman directed that these several copies be attached to the minutes of this meeting. It also appeared from the statement of the different Commissioners of the Authority that each Commissioner had taken the oath of office and duly accepted the appointment, and the following Commissioners filed their respective oaths of office, H. E. Donnelly, Fred Lynch, A. L. Pruitt, J. E. Lucas and W. K. Sapp. The Chairman directed that these oaths of office be likewise attached to the minutes of this meeting.

It then appearing that there were present all of the Commissioners of The Housing Authority of the City of New Smyrna Beach, Florida, so appointed, the following resolution was then introduced by Commissioner Lucas, read in full by the Secretary, and considered:

"RESOLUTION NO. 1
RESOLVED, that The Housing Authority of the City of New Smyrna Beach, Florida, be and it hereby is organized pursuant to the provisions of Section 421 Florida Statutes Annotated, and is now authorized to transact business and exercise its functions in its area of operation as defined in said law"

After discussion of Resolution No. 1, Commissioner Lucas moved, seconded by Commissioner Sapp, that Resolution No. 1 be finally adopted as introduced and read. The question being put upon the final adoption of the said Resolution No. 1, the roll-call vote of the Authority resulted as follows: Yeas -Lynch, Pruitt, Lucas, Sapp, Donnelly. Nays: none. The Chairman declared the motion carried and the resolution finally adopted.

The following resolution was then introduced by Commissioner Sapp, read in full by the Secretary, and considered by the Authority:

"RESOLUTION NO. 2
BE IT RESOLVED BY THE HOUSING AUTHORITY OF THE CITY OF NEW SMYRNA BEACH, FLORIDA:
That the following by-laws be and they are hereby adopted and approved as and for the by-laws of The Housing Authority of the City of New Smyrna Beach, Florida:

BY-LAWS OF THE HOUSING AUTHORITY
OF THE
CITY OF NEW SMYRNA BEACH, FLORIDA.

ARTICLE I - THE AUTHORITY.

Section 1. - Name of Authority. The name of the Authority shall be "The Housing Authority of the City of New Smyrna Beach, Florida."

Section 2. - Seal of Authority. The seal of the Authority shall be in the form of a circle and shall bear the name of the Authority and the year of its organization.

Section 3. - Office of Authority. The office of the Authority shall be at the City Hall of the City of New Smyrna Beach, Florida, but the Authority may have offices at such other place or places as the Authority may from time to time designate by resolution.

ARTICLE II - O F F I C E R S.

Section 1. - Officers. The officers of the Authority shall be a Chairman, a Vice Chairman and a Secretary-Treasurer (who shall be Executive Director).

Section 2. - Chairman. The Chairman shall preside at all meetings of the Authority. Except as otherwise authorized by resolution of the Authority, the Chairman shall sign all contracts, deeds and other instruments made by the Authority. At each meeting, the Chairman shall submit such recommendations and information as he may consider proper concerning the business affairs and policies of the Authority.

Section 3. - Vice-Chairman. The Vice Chairman shall perform the duties of the Chairman in the absence or incapacity of the Chairman; and in case of the resignation or death of the Chairman the Vice Chairman shall perform such duties as are imposed on the Chairman until such time as the Authority shall appoint a new Chairman.

Section 4. - Secretary-Treasurer. The Secretary-Treasurer shall keep the records of the Authority, shall act as secretary of the meetings of the Authority, and record all votes and shall keep a record of the proceedings of the Authority in a journal of proceedings to be kept for such purpose, and shall perform all duties incident to his office. He shall keep in safe custody the seal of the Authority and shall have power to affix such seal to all contracts and instruments authorized to be executed by the Authority.

He shall have the care and custody of all funds of the Authority and shall deposit the same in the name of the Authority in such bank or banks as the Authority may select. The Secretary-Treasurer shall sign all orders and checks for the payment of money and shall pay out and disburse such moneys under the direction of the Authority. Except as otherwise authorized by resolution of the Authority, all such orders and checks shall be countersigned by the Chairman. He shall keep regular books of account showing receipts and expenditures and shall render to the Authority, at each regular meeting (or oftener when requested), an account of his transactions

and also of the financial condition of the Authority. He shall give such bond for the faithful performance of his duties as the Authority may determine.

The compensation of the Secretary-Treasurer shall be determined by the Authority, provided that a temporary appointee selected from among the Commissioners of the Authority shall serve without compensation (other than the payment of necessary expenses).

Section 5. Executive Director. The Secretary-Treasurer shall be the Executive Director of the Authority and shall have general supervision over the administration of the business and affairs of the Authority, subject to the direction of the Authority. He shall be charged with the management of the housing projects of the Authority.

Section 6. Additional Duties. The officers of the Authority shall perform such other duties and functions as may from time to time be required by the Authority or the by-laws or rules and regulations of the Authority.

Section 7. Election or Appointment. The Chairman and Vice Chairman shall be elected at the annual meeting of the Authority from among the Commissioners of the Authority, and shall hold office for one year or until their successors are elected and qualified; provided, that the first Chairman of the Authority designated by the Mayor of the City of New Smyrna Beach, Florida, shall hold office as Chairman for the length of his initial term as Commissioner of the Authority unless otherwise indicated by said Mayor in his designation of the First Chairman.

The Secretary-Treasurer shall be appointed by the Authority. Any person appointed to fill the office of Secretary-Treasurer, or any vacancy therein, shall have such term as the Authority fixes, but no Commissioner of the Authority shall be eligible to this office except as a temporary appointee.

Section 8. Vacancies. Should the offices of Chairman or Vice-Chairman become vacant, the Authority shall elect a successor from its membership at the next regular meeting, and such election shall be for the unexpired term of said office. When the office of Secretary-Treasurer becomes vacant the Authority shall appoint a successor, as aforesaid.

Section 9. Additional Personnel. The Authority may from time to time employ such personnel as it deems necessary to exercise its powers, duties and functions as prescribed by Chapter or Section 421 Florida Statutes Annotated, and all other laws of the State of Florida, applicable thereto. The selection and compensation of such personnel (including the Secretary-Treasurer), shall be determined by the Authority subject to the Laws of the State of Florida.

ARTICLE III. MEETINGS

Section 1. Annual Meeting. The annual meeting of the Authority shall be held on the 15th day of September at 8 o'clock P.M. at the regular meeting place of the Authority. In the event such date shall fall on a

Sunday or a legal holiday, the annual meeting shall be held on the next succeeding secular day.

Section 2. Regular Meetings. Regular meetings may be held without notice at such times and places as may from time to time be determined by resolutions of the Authority.

Section 3. Special Meetings. The Chairman of the Authority may, when he deems it expedient, and shall, upon the written request of two members of the Authority, call a special meeting of the Authority for the purpose of transacting any business designated in the call. The call for a special meeting may be delivered to each member of the Authority or may be mailed to the business or home address of each member of the Authority at least two days prior to the date of such special meeting. At such special meeting no business shall be considered other than as designated in the call, but if all of the members of the Authority are present at a special meeting any and all business may be transacted at such special meeting.

Section 4. Quorum. At all meetings of the Authority a majority of the members of the Authority shall constitute a quorum for the purpose of transacting business; provided that a smaller number may meet and adjourn to some other time or until a quorum is obtained.

Section 5. Order of Business. At the regular meeting of the Authority the following shall be the order of business:

1. Roll Call
2. Reading and approval of the minutes of the previous meeting.
3. Bills and communications.
4. Report of the Secretary-Treasurer.
5. Reports of Committees.
6. Unfinished business.
7. New Business.
8. Adjournment.

All resolutions shall be in writing and shall be copied in a journal of the proceedings of the Authority.

Section 6. Manner of Voting. The voting on all questions coming before the Authority shall be by roll call, and the yeas and nays shall be entered upon the minutes of such meeting.

ARTICLE IV. AMENDMENTS.

Section 1. Amendments to By-Laws. The by-laws of the Authority shall be amended only with the approval of at least three of the members of the Authority at a regular or special meeting, but no such amendment shall be adopted unless at least seven days written notice thereof has been previously given to all of the members of the Authority.

* * * * * * * * * * * *

After discussion of Resolution No. 2, Commissioner Sapp moved, seconded by Commissioner Pruitt, that said Resolution No. 2 be finally adopted as introduced and read. The question being put on final adoption a roll call vote was had and resulted as follows:

Yeas: Commissioners Donnelly, Lynch, Pruitt, Lucas and Sapp.

Nays: None.

Whereupon the Chairman declared the motion to adopt Resolution No. 2, carried and the resolution finally adopted.

The form of a corporate seal was then submitted to the meeting and the following resolution was then introduced by Commissioner Sapp, read in full by the Secretary and considered by the Authority:

"RESOLUTION NO. 3,

BE IT RESOLVED BY THE HOUSING AUTHORITY OF THE CITY OF NEW SMYRNA BEACH, FLORIDA:

That the form of the corporate seal submitted to this meeting, be and the same is hereby adopted as the seal of this Authority and the acting-Secretary of this Authority be and he is hereby directed and authorized to imprint said seal on the margin of the minutes of this meeting and opposite this resolution.

That the Secretary-Treasurer or acting-Secretary be and is hereby authorized to affix the seal of the authority in and to all appropriate papers and documents."

After discussion of the resolution, Commissioner Sapp moved, seconded by Commissioner Lucas that Resolution No. 3 be finally adopted as introduced and read and the question of such adoption being put, a roll call vote of the Authority resulted as follows:

Yeas Commissioners Donnelly, Lynch, Pruitt, Lucas and Sapp.

Nays - None.

Whereupon the Chairman declared the motion to adopt carried and Resolution No. 3 was adopted as introduced and read.

The Chairman then announced that it was in order to elect the officers of the Authority to serve until the next annual meeting or until their successors are chosen and qualify in their stead.

Commissioner W. K. Sapp having been nominated for the office of Vice-Chairman, and there being no further nominations, it was duly moved by Commissioner Pruitt, seconded by Commissioner Lucas, that the nominations for the office of Vice-Chairman be closed and that the unanimous vote of the Authority be cast for Commissioner W.K.Sapp for the office of Vice-Chairman. A roll call vote being had on said motion, resulted as follows, Yeas - Donnelly, Lynch, Pruitt, Lucas. Nays - none. Not voting - Sapp. The Chairman then declared the motion to be duly carried and Commissioner W.K.Sapp duly elected to the office of Vice Chairman.

It was determined by the Authority, after discussion, that the office of Secretary-Treasurer should not be permanently filled for the present. It was thereupon determined to appoint one of the Commissioners of the Authority to serve as Secretary Treasurer in a temporary capacity, pending the appointment of a permanent Secretary-Treasurer, such temporary Secretary-Treasurer to serve without compensation, other than the payment of his necessary expenses.

Commissioner Fred Lynch having been nominated for the office of tempotary Secretary-Treasurer and there being no further nominations, it was duly moved by Commissioner Lucas, seconded by Commissioner Pruitt, that the nominations for the office of temporary Secretary Treasurer, be closed and that the unanimous vote of the Authority be cast for Commissioner Fred Lynch for the office of temporary Secretary-Treasurer. A roll call vote being had on said motion resulted as follows: Yeas - Donnelly, Lynch, Pruitt, Lucas and Sapp. Nays - none. The Chairman declared the motion to be duly carried and Commissioner Fred Lynch to be duly elected to the office of temporary Secretary Treasurer of the Authority.

It was unanimously agreed by the members of the Authority that the Chairman should cast the unanimous vote of those present for the offices to which they had been nominated, and Chairman Donnelly did then cast the vote of the Authority for W. K. Sapp as Vice-Chairman and for Fred Lynch as temporary Secretary-Treasurer, whereupon the said nominees did officially assume the duties of their respective offices.

A discussion was had by the members of the Authority about the time and place of their regular meeting, and the following Resolution was introduced by Commissioner Pruitt, read by the Secretary in full and considered by the Authority:

"RESOLUTION No. 4
BE IT RESOLVED BY THE HOUSING AUTHORITY OF THE CITY OF NEW SMYRNA BEACH, FLORIDA:

That the members of the Housing Authority of the City of New Smyrna Beach, Florida, shall hereafter meet regularly once each month at the hour of 8 o'clock P.M. on the fourth Tuesday of each month"

After discussion of the above Resolution No. 4 by the Authority it was moved by Commissioner Pruitt, seconded by Commissioner Lucas that the said Resolution No. 4, be finally adopted as introduced and read. A roll call vote being had upon the motion to adopt, resulted as follows: Yeas - Donnelly, Lynch, Pruitt, Lucas, Sapp. Nays - None. Whereupon the Chairman declared the said Resolution No. 4 to be finally adopted.

The Chairman announced that the need for housing in the City of New Smyrna Beach, Florida, had been determined by the City Commission of said City and directed the Secretary-Treasurer to forward to the proper Federal Authorities a transcript of the proceedings thus far taken by the City and this Authority and to seek their help and advice in furtherance of low-cost housing for this area.

It was then moved by Commissioner Sapp that the meeting adjourn and said motion being seconded by Commissioner Pruitt, a roll call vote thereon resulted as follows. Yeas - Donnelly, Lynch, Pruitt, Lucas and Sapp. Nays - None.

ORDINANCE NO. 64-80

AN ORDINANCE TO BE KNOWN AS THE CITIZEN CODE ENFORCEMENT ORDINANCE; CREATING A CITIZEN CODE ENFORCEMENT BOARD; SETTING FORTH THE PURPOSE OF THE SAID BOARD; PROVIDING DEFINITIONS; PROVIDING FOR THE ORGANIZATION OF SAID BOARD; FOR TERMS OF OFFICE AND COMPENSATION; PROVIDING FOR CODE INSPECTORS; PROVIDING FOR ENFORCEMENT PROCEDURES INCLUDING NOTICE OF VIOLATIONS, HEARINGS AND THE CONDUCT THEREOF; PROVIDING FOR TRANSCRIPTION OF HEARINGS AND FOR CLERICAL AND ADMINISTRATIVE PERSONNEL; PROVIDING POWERS OF THE BOARD; PROVIDING FOR FINES AND LIENS; PROVIDING FOR APPEALS; SPECIFYING TYPES OF NOTICE; PROVIDING A SEVERABILITY CLAUSE; PROVIDING FOR THE REPEAL OF CONFLICTING ORDINANCES; PROVIDING FOR PUBLICATION OF THIS ORDINANCE BY TITLE ONLY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, it is the intent of the City Commission, by adoption of this ordinance, to promote, protect and improve the health, safety and welfare of the citizens of this city by providing an equitable, expeditious, effective and inexpensive method of enforcing the various occupational license, fire, building, zoning, sign and related technical codes in force in the City, and

WHEREAS, the Legislature of the State of Florida has authorized the enactment of this ordinance by the City Commission by passage of the "Municipal Code Enforcement Board Act", Chapter 80-300, Laws of Florida, 1980, codified as Part V of Chapter 166, Florida Statutes, consisting of §166.501 to and including §166.512.

NOW, THEREFORE, BE IT ENACTED BY THE CITY COMMISSION OF THE CITY OF NEW SMYRNA BEACH, FLORIDA:

SECTION 1: TITLE. This ordinance shall hereafter be known as the Citizen Code Enforcement Ordinance.

SECTION 2: CREATION. There is hereby created a Citizen Code Enforcement Board.

SECTION 3: PURPOSE. The purpose and intent of the creation of the Citizen Code Enforcement Board is to promote, protect and improve the health, safety and welfare of the citizens of New Smyrna Beach by providing an equitable, expeditious, effective and inexpensive method of enforcing the various occupational license, fire, building, zoning, sign and related technical codes and ordinances presently in force or hereafter adopted.

SECTION 4: DEFINITIONS.

(a) Codes - the Citizen Code Enforcement Ordinance shall apply to the following codes and ordinances in force in the City: standard building, electrical, gas, housing, mechanical, plumbing, and swimming pool codes, together with ordinances applicable thereto; sign ordinance, subdivision ordinance, zoning ordinance, animal control ordinance, fire code, noise abatement ordinance and any other similar code or ordinance which may be passed in the future.

(b) Commission - means the City Commission of the City of New Smyrna Beach, Florida.

(c) Code Inspectors - those authorized persons, agents and representatives of the City of New Smyrna Beach whose duty it is to ensure compliance with the various codes and ordinances enumerated

herein, said inspectors to be designated by the City Manager.

(d) City Attorney - the legal counsel for the City.

(e) Enforcement Board - the Citizen Code Enforcement Board.

SECTION 5: ENFORCEMENT BOARD; ORGANIZATION

(a) The City Commission shall appoint a six (6) member enforcement board. Members of the enforcement board shall be residents of the City of New Smyrna Beach and no member may serve on the enforcement board while serving on any other board or commission of the City of New Smyrna Beach. Appointments shall be made by the City Commission on the basis of experience or interest in the fields of zoning, building control and in the other codes enumerated herein. The membership of the enforcement board shall, whenever possible, consist of an architect, a businessman, an engineer, a general contractor, a sub-contractor and a realtor.

(b) The initial appointments to the enforcement board shall be as follows:

1. Two members appointed for a term of one (1) year.

2. Two members appointed for a term of two (2) years.

3. Two members appointed for a term of three (3) years.

Thereafter, all appointemnts shall be made for a term of three (3) years. Any member may be re-appointed from term to term upon approval of the City Commission. Appointments to fill any vacancy on the enforcement board shall be for the remainder of the unexpired term of office. Members shall serve at the pleasure of the City Commission. Any member who fails to attend two of the three consecutive meetings without cause and without prior approval of the chairman shall automatically forfeit his appointment.

(c) The members of the enforcement board shall elect a chairman and a vice-chairman. The presence of four (4) or more members shall constitute a quorum of the enforcement board. Members shall serve without compensation, but may be reimbursed for such travel, mileage, and per diem expenses as may be authorized by the City Commission.

(d) The City Attorney shall when requested, either be counsel to the Code Enforcement Board or shall represent the City by presenting cases before the board; but, in no case, shall the City Attorney serve in both capacities.

(e) The enforcement board shall be authorized to establish such internal rules and regulations as it shall deem necessary.

SECTION 6: ENFORCEMENT PROCEDURE

(a) It shall be the duty of the code inspector to initiate enforcement proceedings of the various codes; provided, however, no member of the board shall have the power to initiate such enforcement proceedings.

(b) Except as provided in subsection (c), if a violation of a code or ordinance enumerated herein is found, the code inspector shall notify the violator and give him a reasonable time to correct the violation. Should the violatin continue beyond the time specified for correction, the code inspector shall notify the enforce -

ment board and request a hearing pursuant to the procedure in §7. Written notice shall be mailed to said violator as provided herein.

(c) If the code inspector has reason to believe that a violation presents a serious threat to the public health, safety and welfare, the code inspector may proceed directly to the procedure outlined in §7 hereof without notifying the violator.

SECTION 7: CONDUCT OF HEARING.

(a) The Chairman of the enforcement board may call hearings of the enforcement board and hearings may also be called by written notice signed by at least three (3) members of the enforcement board. The enforcement board at any hearing may set a future hearing date. The enforcement board should attempt to convene no less frequently than once every two months, but may meet more often or less often as the demand necessitates. Minutes shall be kept of all hearings by the enforcement board and all hearings shall be open to the public and taped. The City Commission shall provide clerical and administrative personnel as may be reasonably required by the enforcement board for the proper performance of its duties. The respondent brought before the enforcement board on an alleged violation shall have the privilege to challenge the right of a member of the enforcement board to sit on the board in that particular case, and if there is good cause to believe that the said board member shall not be able to render an impartial decision, the challenged member shall recuse himself. If the challenged board member refuses to recuse himself, then the board shall vote on whether or not that particular board member shall sit on the enforcement board for that particular case.

(b) Each case before the enforcement board shall be presented by either the City Attorney or by a member of the administrative staff of the municipality.

(c) The enforcement board shall proceed to hear cases on the agenda for that day. All testimony shall be taken under oath and shall be recorded. The enforcement board shall take testimony from the code inspector and the alleged violator. Formal rules of evidence shall not apply, but fundamental due process shall be observed and govern said proceedings.

(d) At the conclusion of the hearing, the enforcement board shall issue findings of fact, based on evidence of record, and conclusions of law and shall issue an order affording the proper relief consistent with powers granted herein. The findings shall be by motion approved by a majority of those present and voting, except that at least three (3) members of the enforcement board must vote for the action to be official. The record shall be presented to the Court on appeal and shall be subject to review.

SECTION 8: POWERS OF THE ENFORCEMENT BOARD. The enforcement board shall have the power to :

(a) Adopt rules for the conduct of its hearings.

(b) Subpoena alleged violators and witnesses to its hearings. Subpoenas may be served by the police department of the municipality.

(c) Subpoena evidence.

(d) Take testimony under oath.

(e) Issue orders having the force of law commanding whatever steps are necessary to bring the violation into compliance.

SECTION 9: FINES AND/OR LIENS. The enforcement board, upon notification by the code inspector that a previous order of the enforcement board has not been complied with by the set time, may order the violator to pay a fine not to exceed Five Hundred

and No/100 ($500.00) Dollars for each day the violation continues passed the date set for compliance. A certified copy of an order imposing a fine may be recorded in the public records and thereafter shall constitute a lien against the land on which the violation exists. After one year from the filing of any such lien which remains unpaid, the enforcement board may authorize the City Attorney to foreclose on the lien. In addition, and in the event it is impracticable or impossible to impose a lien against land, the City Attorney may be authorized to proceed to reduce the said fine to a judgment before a court of competent jurisdiction.

SECTION 10: APPEAL. An aggrieved party may appeal a ruling or order of the enforcement board by certiorari in the Circuit Court. An appeal shall be filed within thirty (30) days of the execution of the order to be appealed.

SECTION 11: NOTICES. All notices required by this ordinance shall be by certified mail, return receipt requested, where the mail would not be effective, by hand delivery by the code inspector.

SECTION 12: SEVERABILITY CLAUSE. Should any word, phrase, sentence, subsection or section be held by a court of competent jurisdiction to be illegal, void, unenforceable, or unconstitutional, then that word, phrase, sentence, subsection or section so held shall be severed from this ordinance and all other words, phrases, sentences, subsections, or sections shall remain in full force and effect.

SECTION 13: REPEALING CLAUSE. All ordinances or parts thereof that are in conflict with this ordinance be and the same are hereby repealed and rescinded.

SECTION 14: PUBLICATION BY TITLE. This ordinance shall be published by title only at least one time in a newspaper of general circulation in the City of New Smyrna Beach, which said publication shall be not less than seven (7) days prior to its final passage.

SECTION 15: EFFECTIVE DATE. This ordinance shall take effect immediately upon its adoption as provided by law.

APPROVED AS TO FORM AND CORRECTNESS

Charles A. Hall

CHARLES A. HALL, City Attorney

DATED: January 20, 1981

Ordinance No. 64-80 of the City of New Smyrna Beach, Florida, was introduced before the City Commission at its Regular Meeting at the City Hall in said City on the 27th day of January, A.D., 19 81 and read in full by title only. Motion was made by Commissioner Powell to approve Ordinance No. 64-80; which motion having been seconded by Commissioner Sawtelle; the vote thereon being as follows:

MAYOR GEORGE E. MUSSON	Yes
VICE-MAYOR COMR. JAMES D. POWELL	Yes
COMMISSIONER MARY C. HILL	Yes
COMMISSIONER REED J. LaFERRIERE	Yes
COMMISSIONER COURTLAND D. SAWTELLE	Yes

Whereupon, the Mayor did then declare the Ordinance No. 64-80 to be approved on first reading and Public Hearing to be held on February 10, 1981.

Ordinance No. 64-80 was read in full by title only for the second time before the City Commission at its Regular Meeting at the City Hall, in the City of New Smyrna Beach, Florida on the 10th day of February A.D., 1981, and Commissioner Sawtelle moved, seconded by Commissioner Hill that Ordinance No. 64-80 be adopted as introduced and read. A roll-call vote was ordered upon this motion and resulted as follows:

MAYOR GEORGE E. MUSSON	YES
VICE-MAYOR COMR. JAMES D. POWELL	YES
COMMISSIONER MARY C. HILL	YES
COMMISSIONER REED J. LeFERRIERE	YES
COMMISSIONER COURTLAND D. SAWTELLE	YES

The Mayor then did declare the motion to pass Ordinance No. 64-80 was thereby enacted, as introduced and read.

The City Clerk was instructed to note the passage of Ordinance No. 64-80 in the minutes of this meeting by its title only and to record the same in full, in the Ordinance Records of the City at the City Hall, in the City of New Smyrna Beach, Florida, this 11th day of February A.D., 19 81, and has caused the Official Seal of said City to be here-unto affixed, for the purpose of authenticity and as is required by law.

Amended 11/21/1979

CODES ENFORCEMENT BOARD
CITY OF WEST PALM BEACH, FLORIDA

RULES AND REGULATIONS

ARTICLE I — NAME

The name of this Board shall be the "Codes Enforcement Board of the City of West Palm Beach, Florida."

ARTICLE II — JURISDICTION

The Board has jurisdiction over those matters which are set forth in Ordinance No. 1466-79 of the City of West Palm Beach.

ARTICLE III — OFFICERS AND THEIR DUTIES

Section 1: The officers shall be a Chairperson and a Vice Chairperson. The City Clerk shall provide a Recording Secretary.

Section 2: The Chairperson shall preside at all meetings (and hearings) of the Board and shall have the duties normally conferred by parliamentary usage of such officers.

Section 3: The Chairperson shall be one of the members of the Board. The Chairperson shall have the privilege of discussing all matters before the Board and shall have the same voting rights as all Board members.

Section 4: The Vice Chairperson shall act in the absence of the Chairperson.

ARTICLE IV — ELECTION OF OFFICERS

Section 1: Nomination of officers shall be made from the floor at the annual organizational meeting in October each year, and the election shall be held immediately thereafter.

Section 2: A candidate receiving a majority vote shall be declared elected and shall serve a term of one year or until a successor shall take office.

Section 3: Vacancies in office shall be filled immediately by regular election procedure.

ARTICLE V — MEETINGS

Section 1: Regular Meetings:

Regular meetings shall be held at least every two months. The Board may set meetings more frequently if necessary.

Section 2: Special Meetings:

Special meetings may be called by the Chairperson or any two members of the Board by notification to the Board Attorney.

Section 3: Notice

Notice of all meetings, both regular and special, shall be given to all Board members at least twenty-four (24) hours in advance of the meeting.

ARTICLE V MEETINGS (Cont'd)

Section 4: Attendance

a. Members shall notify the Chairperson of the Board if they are not going to attend a meeting.

b. If a member, including the alternate, misses two out of three consecutive meetings without cause and without prior approval of the Chairperson, he shall forfeit his appointment.

c. If a regular member misses a meeting, the first alternate shall vote in his place. If a second regular member misses the same meeting, the second alternate shall vote in his place.

Section 5: Quorum

A quorum of the Board shall consist of three (3) members, including alternates, and an affirmative vote of a majority of those present shall be necessary to pass any motion or adopt any order unless otherwise specified herein.

Section 6: a) Voting

Voting shall be by voice vote and shall be recorded by individual "aye" or "nay."

b) Abstention

Each member present shall cast an "aye" or "nay" vote on each question before the Board, except that if any member has a personal interest in a matter, he may abstain from participating as a member of the Board in that matter and must file a Memorandum of Voting Conflict with the Secretary of the Board within fifteen (15) days after such vote.

ection 7: Records

All regular and special meetings, hearings, and records shall be open to the public.

ection 8: Procedure

Parliamentary procedure in Board meetings shall be governed by Robert's Rules of Order, as amended, and by the Rules and Regulations contained herein.

RTICLE VI ORDER OF BUSINESS

1. Role Call
2. Minutes of previous meetings
3. Public Hearings
4. Unfinished Business
5. Presentation of Filed Affidavits of Violations
6. New Business
7. Adjournment

The order of business may be suspended by a vote of the majority of those members present.

ARTICLE VII — INITIATION OF ACTIONS BEFORE THE BOARD

Section 1: All actions before the Board shall be initiated by filing an Affidavit of Violation (a copy of which is attached hereto) with the Secretary of the Board.

Section 2: The Secretary shall assign a case number and present the case to the Board at its next meeting.

Section 3: The Board shall review the Affidavit and if they feel that action is warranted, set the case for a Hearing to be held at a subsequent meeting of the Board.

Section 4: After a case is set for hearing by the Board, the Secretary shall send out a Notice of Hearing to the alleged violator by certified mail, return receipt requested, or effect personal service upon a party by the police deparment (a copy of which is attached hereto). A copy of said Notice of Hearing shall be sent to the City Prosecutor, the Affiant, and the Attorney for the Board.

Section 5: After a case is set for hearing, the Secretary of the Board shall be empowered to issue subpoenas as requested by the Affiant and the alleged violator. The subpoenas shall be sent to the City police department to be served.

ARTICLE VIII — HEARINGS

Section 1: The following procedures will be observed in hearings before the Board:

a) The Secretary shall read the Notification of Violation for each application.

b) The respondent shall be asked if he wishes to contest the charges.

c) All witnesses shall be sworn in by the Secretary.

d) The City shall present its case and respondent shall present their case. Both parties will have an opportunity to cross-examine all witnesses.

e) The Board or its Attorney may question any witness or call any witnesses as it feels necessary.

f) The right of parties to present rebuttal evidence is discretionary with the Board.

g) The Board may, in its discretion, adjourn a Hearing for a period not to exceed 31 days at any time during the Hearing, and request further information from either party.

h) If a Hearing is adjourned, at the time the Hearing is reconvened, only those Board members that have been present from the beginning of the Hearing may participate in the deliberations and decision making process. (This requirement may be waived by the consent of both parties.)

ARTICLE VIII HEARINGS (Cont'd)

i) Upon completion of all the evidence, the Chairperson shall close the Hearing.

j) The Board may only consider that evidence which is presented at the Hearing and that both parties have had an opportunity to rebut before reaching their decision.

k) The Board shall immediately deliberate in open session before the public.

l) The Board shall orally issue an Order which is approved by a majority of the Board (at least 3 members). The Order shall contain findings of fact and conclusions of law and state the affirmative relief granted by the Board. Said Order shall be reduced to writing with ten (10) days and be mailed to the respondent. (Two form Orders are attached hereto.)

ARTICLE IX ENFORCEMENT

Section 1: After an Order of non-compliance has been issued by the Board and a scheduled date of compliance has been ordered, a designated City Official shall make an inspection to determine if the alleged violation has been corrected.

Section 2: The designated City Official shall then issue an Affidavit of Compliance or Non-Compliance, which shall be filed with the Board. A copy of said Affidavit shall be sent to the violator by Certified mail, return receipt requested.

Section 3: A letter of notification of lien (sample letter attached) shall be mailed to the violator every 45 days, until the condition is corrected or the maximum fine has been imposed.

Section 4: The Board shall hold hearings as necessary to insure the effectiveness of any Order issued by the Board.

ARTICLE X MISCELLANEOUS

Section 1: These Rules and Regulations may be altered in a manner not inconsistent with the City Code during a regular meeting by the affirmative vote of at least (4) members of the Board, provided notice of the proposed change is given to the Board at a preceding regular meeting.

Section 2: The provisions of these Rules and Regulations shall be discussed and/or adopted, or readopted by the Board annually at its regular Organizational meeting.

(Continued on P. 5)

ORDINANCE NO. 10-13

AN ORDINANCE REPEALING IN ITS ENTIRETY CITY CODE CHAPTER 2, ADMINISTRATION, ARTICLE III, BOARDS, COMMISSIONS AND SIMILAR AGENCIES, DIVISION 2, CODE ENFORCEMENT BOARD; AMENDING CHAPTER 26 OF THE CITY CODE (BUILDINGS AND BUILDING REGULATIONS) BY ESTABLISHING A NEW *ARTICLE XVI, CODE ENFORCEMENT BOARD;* ESTABLISHING MEMBERSHIP AND QUALIFICATIONS OF MEMBERS; PROVIDING FOR APPOINTMENT AND QUALIFICATIONS OF SPECIAL MAGISTRATES; PROVIDING FOR POWERS OF THE BOARD AND SPECIAL MAGISTRATES; PROVIDING FOR CODIFICATION; PROVIDING FOR PUBLIC HEARING; PROVIDING FOR CONFLICTING ORDINANCES; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, Chapter 162, F.S., authorizes municipalities to provide for enforcement of City Codes via a code enforcement board and/or a special magistrate; and

WHEREAS, the Chief Building Official desires to utilize several avenues to achieve code compliance, including hearings before a special magistrate; and

WHEREAS, the current provisions of the City Code of Ordinances relating to the City's Code Enforcement Board are in need of revision to clarify and broaden the City's ability to enforce its codes; and

WHEREAS, the City Commission deems it is in the best interests of the citizens of the City of New Smyrna Beach to repeal in its entirety City Code Chapter 2, Administration, Article III, Boards, Commissions and Similar Agencies, Division 2, Code Enforcement Board, and to establish a new Article XVI in Chapter 26 to be entitled, Code Enforcement Board, as more particularly set

forth hereinafter, and to provide for appointment of Special Magistrates to hear cases involving code violations.

NOW, THEREFORE, BE IT ENACTED BY THE CITY COMMISSION OF THE CITY OF NEW SMYRNA BEACH, FLORIDA:

SECTION 1: ***Repeal.*** That Chapter 2, Administration, Article III, Boards, Commissions and Similar Agencies, Division 2, Code Enforcement Board, is hereby repealed in its entirety.

SECTION 2: ***Amendment.*** That New Smyrna Beach Code of Ordinances, Chapter 26, is hereby amended to create a new Article XVI to be entitled *Code Enforcement*, as follows:

Chapter 26
BUILDINGS AND BUILDING REGULATIONS

. . . .

ARTICLE XVI - CODE ENFORCEMENT

Sec. 26-1600 - Purpose and duties.

(a) The code enforcement board is established to promote, protect, and improve the health, safety, and welfare of the citizens of the city by providing an authority to conduct administrative hearings concerning violations of the Land Development Regulations (LDR) and other city codes or ordinances, and impose administrative fines and other noncriminal penalties. It is intended to provide an equitable, expeditious, effective, and inexpensive method of enforcing the LDR and other city codes or ordinances for all parties.

(b) The code enforcement board shall act in accordance with the Local Government Code Enforcement Boards Act, F.S. ch. 162, as it may be amended from time to time, and shall have all of the powers and duties set forth therein. Nothing herein shall prohibit the city from retaining and utilizing one or more special magistrates as authorized pursuant to sections 26-1602 and 26-1603 of this article.

Sec. 26-1601 - Appointment and membership.

(a) The city commission shall appoint a seven-member code enforcement board. Members of the board shall be residents of the city. Appointments shall be made on the basis of experience or interest in the fields of zoning and building control. The membership of the board shall whenever possible include an architect, a business person, an engineer, a general contractor, a subcontractor, and a realtor. The city commission shall appoint qualified individuals. Present duly appointed members are grandfathered, shall serve until the end of their present terms, and are eligible for appointment pursuant to this section thereafter.

(b) Members shall serve without compensation, but may be reimbursed for travel, mileage, and per diem expenses as authorized by the city commission.

(c) Each appointment shall be for a term of three years. A member may be appointed to additional terms by the city commission. A member shall serve until the expiration of the term, or until a successor is appointed and qualified if that be later. When a vacancy occurs before the expiration of a term, the city commission shall appoint a replacement to serve the remainder of the unexpired term of office.

(d) A member may be suspended or removed for cause by the city commission as provided by ordinance.

Sec. 26-1602 - Special Magistrates; appointment; qualifications.

(a) From time to time, based on the city attorney's recommendation, the city commission may appoint one or more special magistrates to perform the functions set forth in this section. All such appointments shall be by resolution. The resolution appointing a special magistrate may fix the terms and conditions of the appointment of the special magistrate, subject to conformance of all such terms with the provisions of this section.

(b) Every special magistrate appointed by the city commission shall be an attorney who has been duly licensed to practice law in the State of Florida for a period of not less than five years and shall be a member in good standing of the Florida Bar.

(c) Each special magistrate shall be subject to removal with or without cause at any time by the city commission.

(d) No special magistrate shall be considered to be a city employee.

(e) The city commission may, by the resolution appointing the special magistrate, establish terms that include compensation to a special magistrate for his or her services, and for his or her costs such as for travel, mileage and per diem expenses, subject to compliance with record-keeping and other documentation requirements of the city, at a rate to be determined by the appointing resolution or, if the resolution is silent as to rates, by administrative order of the city.

Sec. 26-1603 - Jurisdiction; powers.

(a) Every special magistrate appointed pursuant to this section shall have jurisdiction to hear and decide cases involving alleged violations of the municipal codes and ordinances of the City of New Smyrna Beach as provided in F.S. ch. 162, as it may be amended from time to time, and shall have all of the powers and duties of special magistrates as set forth therein. Nothing herein shall prohibit the city from utilizing the code enforcement board to hear and decide such cases in lieu of a special magistrate.

(b) Every special magistrate appointed pursuant to this section shall have all powers granted to the City of New Smyrna Beach Code Enforcement Board by Chapter 162, F.S.

SECTION2: ***Codification.*** Following adoption of this ordinance, the City Attorney shall transmit a copy of this ordinance to Municipal Code Corporation of Tallahassee, Florida, to be codified into the City's Code of Ordinances. Municipal Code Corporation's

usual and customary fee for said codification service is hereby approved.

SECTION 3: ***Public Hearing.*** That a public hearing considering the adoption of this ordinance held March 12, 2013 in the City Commission Chambers, 210 Sams Avenue (south entrance on Julia Street), New Smyrna Beach, Florida, after notice published, is found to comply with §166.041(3)(a), F.S.

SECTION 4: ***Conflicting Ordinances.*** That any ordinances that are in conflict with this ordinance are hereby rescinded and repealed.

SECTION5: ***Severability.*** That if any section, sentence, clause or phrase of this ordinance is held invalid or unconstitutional by any court of competent jurisdiction, then said holding shall in no way affect the validity of the remaining portions of this ordinance.

SECTION 6: ***Effective Date.*** That this ordinance shall take effect immediately upon its final adoption.

APPROVED AS TO FORM AND CORRECTNESS:

FRANK B. GUMMEY, III
City Attorney

DATE: 2/15/13

Ordinance No. 10-13 of the City of New Smyrna Beach, Florida, was introduced before the City Commission at its Regular Meeting February 26, 2013, and read by title only. Motion was made by Commissioner Reiker, and seconded by Commissioner Jones, the vote thereon being as follows:

MAYOR ADAM BARRINGER	Yes
VICE MAYOR J. S. GRASTY	Yes
COMMISSIONER JUDY REIKER	Yes
COMMISSIONER JASON MCGUIRK	Yes
COMMISSIONER KIRK JONES	Yes

Ordinance No. 10-13 was read by title only at the Regular Meeting held by the City Commission on March 12, 2013, Motion was made by Commissioner McGuirk, and seconded by Commissioner Reiker, that Ordinance No. 10-13 be adopted on second and final reading, the vote thereon being as follows:

MAYOR ADAM BARRINGER	Yes
VICE MAYOR J. S. GRASTY	Yes
COMMISSIONER JUDY REIKER	Yes
COMMISSIONER JASON MCGUIRK	Yes
COMMISSIONER KIRK JONES	Yes

The City Clerk noted the passage of Ordinance No. 10-13 in the minutes of this meeting by its title only and recorded the same in full in the Ordinance Records of the City.

As Mayor of the City of New Smyrna Beach, Florida

As City Clerk of the City of New Smyrna Beach, Florida

ORDINANCE NO. 10-13

THE CITY OF NEW SMYRNA BEACH - CITY ATTORNEY'S OFFICE

PROPOSED LEGISLATIVE BILL SUMMARIES, WEEKS FOUR AND FIVE OF FLORIDA'S LEGISLATIVE SESSION.

April 8, 2025

Background:

Florida's legislative session continued over the past two weeks. The majority of the bills previously reported are making their way through the committees and may be altered in the next few weeks. The Florida legislature is halfway through their term. The City Attorney's report highlights a few new bills that are being considered.

Findings:

1st Report: Several property tax bills have been filed, including the bills listed below. At this time, none of the bills have been heard in a committee. The bills could limit or eliminate property taxes. HB 359 Property Tax Exemptions; SB 852 Study on the Elimination of Property Taxes; HB 775 and SB 1092 Revising How Homestead Property is Assessed; HB 787 and SB 996 Revenues from Ad Valorem Taxes; and SB 1018 Increased Homestead Property Exemptions.

HB 301 - Sovereign Immunity/Suits Against the Government: the proposed bill would increase the statutory limits on liability for tort claims against the State (and City) from $200,000 per person and $300,000 per incident to $1 million per person and $3 million per incident. The bill would also remove the need for a claims bill from insurance companies before paying out claims.
2 April Update: The bill was considered in the House Budget Committee and remains active.

HB 991 and SB 1242: Community Redevelopment Agencies – Neither bill has been heard in a committee. HB 991 has two committee references and SB 1242 has three committee references. The bill would prohibit new CRAs in FL; would stop issuance of new projects or debt as of 1 October 2025; and eliminate all CRAs by 2045.
2 April Update: The bill was considered by the Senate Judiciary Committee and remains active.

2nd Report: SB 582 and HB 717: Unlawful Demolition of Historical Buildings and Structures – The bills seek to address concerns that developers are tearing down historic buildings. Current fines for demolition of historic buildings are low and do not creative a substantial deterrent to builders who are willing to pay the fine, and incorporate the cost into the home sale price. The bills would increase the penalty for tearing down a historic

building without a permit.

SB 1118 and HB 1209: Land Use and Development Regulations are broad growth management bills that reduce local government authority over land use and development regulations, favoring developers. The bills prohibit optional elements of local comprehensive plans from restricting development density or intensity. They also require a supermajority vote for any comprehensive plan amendment that increases development restrictions. Additionally, they allow property owners to sue if a local government fails to adopt a requested comprehensive plan amendment within 180 days, requiring courts to determine compliance with state law without deferring to local government interpretation. The bills further limit local authority over impact fees by narrowing the definition of "extraordinary circumstances." They strictly define such circumstances as events beyond local control that prevent the intended use of impact fee funds, making it harder for cities to justify fee increases beyond statutory limits.
2 April Update: The bill was amended and went to the Senate Community Affairs Committee. The bill remains active.

SB 810: Stormwater Management Systems – This bill would require cities to inspect their stormwater systems every year and sign a Division of Emergency Managment form attesting to the state of those systems.
2 April Update: The bill has been revised and would no longer require an annual inspection.

3rd Report: HB 1183 and SB 1576 exempt cities from liability in connection with a cybersecurity incident if the local entity has substantially complied with current training and cybersecurity standards required by section 282.3185, Florida Statutes.

HB 683 and SB 712 prohibit local governments from regulating synthetic turf installed in single-family residential areas one acre or less in size or enforcing any rules that prevent property owners from installing synthetic turf.
