Thomas C. Nielsen, P.E., LEED AP, over thirty-five years of experience in all phases of mechanical engineering analysis and design. He is versed in design of Heating, Ventilation and Air Conditioning (HVAC), Plumbing, and Fire Sprinkler systems. His experience includes engineering mechanical systems for hospitals, nursing homes, assisted and independent living facilities, correctional facilities, educational facilities, commercial offices, and retail spaces.

PARKER MYNCHENBERG & ASSOCIATES, INC.
PROFESSIONAL ENGINEERS

Most recent jobs PQH has collaborated with PMA:

ERAU Residence Halls: Phase 1, 2 & 3
ERAU Garage, Post Office, & Security Office
Daytona State College Dormitory

Parker Mynchenberg & Associates was incorporated in 1984 by Parker Mynchenberg, P.E., R.L.A. and has served clients throughout Volusia and Flagler Counties as one of the area's leading Civil Engineering and Landscape Architecture design firms. We provide a full range of services for public and private clients including engineering services for project planning, design, permitting, bidding, and construction phase services. As a small local engineering firm, we work closely with our clients to deliver successful projects. Parker Mynchenberg & Associates currently serves clients through eight continuing services contracts including the Cities of Daytona Beach, New Smyrna, Ormond Beach, South Daytona and Volusia County School Board.

Parker Mynchenberg & Associates will provide Civil site design and Landscape Architecture services for this contract. Our Engineers, CAD Technicians and support staff have been involved in design and permitting for projects throughout Volusia and Flagler Counties. The design and permitting work completed by the company over the past 38 years has included many site plans, roadways, utilities, landscape plans and stormwater systems. These projects have been permitted by FDOT, St. Johns River Water Management District, FDEP, Volusia County and U.S. Army Corps of Engineers.

PROJECT EXPERIENCE

- Civil Site Design
- Transportation
- Roadways
- Sidewalks
- Pedestrian Crossings
- Supervisory Control and Data Acquisition (SCADA)
- Stormwater Treatment Design & Permitting
- Stormwater System Permitting
- Stormwater Modeling
- Evaluation of Existing Stormwater Systems
- Potable Water Treatment Plant Design & Permitting
- Stage II Disinfection by Product Rule Compliance Assistance
- Storage Tanks and Pump Stations
- Potable Water Wells, Upper and Lower Floridan Aquifer
- Water Reclamation Facility Design & Permitting
- Reclaimed Water Disposal Systems
- Utility Planning and CIP Development
- Instrumentation and Controls
- Bidding Public Projects
- Contract Administration
- Construction Engineering and Inspection

Registration

Registered Professional Engineer #32645; Registered Landscape Architect #0001553;
General Contractor #C02195; Commercial Pool Contractor #CP C048220;
Real Estate Broker #BK 0349954

Parker Mynchenberg, P.E., R.L.A, founded Parker Mynchenberg & Associates in 1984 and has served as the Principal in Charge since the firm's founding. Parker is one of the areas leading Civil Engineers with a proven track record of successful projects for public and private clients within Volusia and Flagler Counties. Parker's design and permitting experience includes hundreds of utility systems constructed within the City of Daytona Beach.

Project Experience

Beach St. Streetscape
City of Daytona Beach, FL
Redevelopment of the main thoroughfare in downtown Daytona Beach. Phase 1 of the project is complete from Orange Ave to Bay St and Parker Mynchenberg & Associates was selected for Phase 2 from Bay St. to Fairview Ave and MMB form Beach St to US-1. The Phase 1 project included roadways design, lighting, parking, sidewalks, landscaping, storm water improvements, water and sewer improvements.

Embry-Riddle Aeronautical University Welcome Center
City of Daytona Beach, FL
Design of Jim W. Henderson Administration and Welcome Center. The project consisted of a 2-story, 37,454 SF welcome center building with eight (8) covered parking stalls, 45 additional parking stalls, additional drainage, utility, ornamental pond, landscape, irrigation, and reuse improvements.

Plantation Oaks of Ormond Beach
City of Ormond Beach, FL
Senior Civil Engineer: Residential subdivision of 1,577 single family units over 1,000 acres. The water and wastewater utility systems include a regional expansion of the City's utility system. The water system includes looping of the potable water system North from US-1 along Plantation Oaks Blvd. The wastewater collection system includes eight (8) lift stations with a manifolded force main system and a master lift station.

Tomoka North
Daytona Beach, FL
Senior Civil Engineer: Commercial subdivision located north of LPGA Blvd west of Williamson Blvd. The design includes new roadways, sidewalks, stormwater, landscaping, water and sewer system improvements. The water system includes 7,700 LF of 12" PVC water main. The wastewater collection system includes 5,000 LF of gravity collections system, a portion of the development is served by and existing City lift station and the remainder is served by one (1) new lift station. The force main improvements include 8" PVC force main to tie-in to the City's 12" force main in the Williamson right-of-way. Total cost of this project is $11,200,000.

Tomoka Town Center
Daytona Beach, FL
Senior Civil Engineer: Commercial subdivision of 209 acres. The design includes new roadways, sidewalks, storm water, landscaping, water and sewer system improvements. The water system includes more than 5,400 LF of potable water main. The wastewater collection system includes the gravity collection system extensions and pump station calculations to demonstrate that the existing adjacent lift station can serve the new development. Total cost of this project is $12,000,000.

Embry Riddle Aeronautical University Student Union
Daytona Beach, FL
Senior Civil Engineer: Design of a 4-story, 178,077 SF student union with associated water, sewer, paving, drainage, landscape, irrigation, hardscape and lighting improvements. Total cost of this project is $30,000,000.

Kevin Lee, P.E.

Project Engineer
Years of Experience: 14

PARKER MYNCHENBERG & ASSOCIATES, INC. PROFESSIONAL ENGINEERS

Education

BS, Environmental Engineering, University of Florida, 2005
ME, Environmental Engineering, University of Florida, 2006

Registration

Registered Professional Engineer #71501

Kevin Lee, P.E., serves as a project engineer for Parker Mynchenberg & Associates, his duties include project management and technical engineering on site designs, water and wastewater utility projects. His experience ranges from planning, evaluation studies, conceptual design, permitting, design, construction administration and inspection. Kevin has been the engineer of record for hundreds projects throughout Volusia, Flagler and Brevard Counties.

Project Experience

McDonald Road Sidewalk

City of Port Orange, FL

Sidewalk improvements along a City of Port Orange roadway to improve pedestrian safety around Sugar Mill Elementary School. The project was FDOT LAP funded and included sidewalk, roadway, stormwater and a rapid flashing beacon crosswalk. Kevin was the project manager for the construction phase services including grant compliance.

Victoria Gardens Sidewalk

City of Port Orange, FL

Sidewalk improvements along a City of Port Orange roadway to improve pedestrian safety around Sweetwater Elementary School. The project was FDOT LAP funded and included sidewalk, roadway and stormwater improvements. Kevin was the project manager for the construction phase services including grant compliance.

LPGA Gray Hawk Unit II

City of Daytona Beach, FL

Residential subdivision including 44 single family lots on approximately 20 acres. The design includes roadway, stormwater and utilities. The stormwater system includes conveyance and treatment in a dry retention pond system. The system discharges to an adjacent wetland and the ultimate receiving waterbody is the Tomoka River.

East Thomas Street

City of Edgewater, FL

The project included rework of an existing residential area to add paved roads, gravity sewer and stormwater improvements. The project is within the Indian River north watershed and was partially funded by a SJRWMD cost share grant for nutrient removal. The stormwater system included dry retention and exfiltration trench for treatment. The septic tank elimination and stormwater improvements reduced loading to the Indian River Lagoon by approximately 1,498 pounds per year total nitrogen and 257 pounds per year total phosphorus.

Ken Bern Reclaimed Water Augmentation

City of Port Orange, FL

Senior Civil Engineer: Commercial subdivision of 209 acres. The design includes new roadways, sidewalks, storm water, landscaping, water and sewer system improvements. The water system includes more than 5,400 LF of potable water main. The wastewater collection system includes the gravity collection system extensions and pump station calculations to demonstrate that the existing adjacent lift station can serve the new development. Total cost of this project is $12,000,000.

Embry Riddle Aeronautical University Student Union

Daytona Beach, FL

This project included stormwater harvesting and treatment to augment the City's reclaimed water supply. The project consisted of an intake screen structure, withdrawal pumps, stormwater force main and treatment system for TSS removal. The project was partially funded by an FDEP 319h grant. The professional services scope included grant application assistance, design, permitting, bidding, construction administration, inspection, QAPP report and on-site monitoring for grant compliance.

Steve Buswell, P.E., R.L.A

Senior Project Engineer
Years of Experience: 26

PARKER MYNCHENBERG & ASSOCIATES, INC. PROFESSIONAL ENGINEERS

Education

BS, Environmental Engineering, University of Florida, 1994
ME, Environmental Engineering, University of Florida, 1995

Registration

Professional Engineer #53985
Registered Landscape Architect #6667011

Steve Buswell, P.E., R.L.A, is a Professional Engineer and Registered Landscape Architect specializing in land development and utility design. Steve's responsibilities include project management, technical design and permitting for public and private clients. Steve excels at administration of municipal projects including bidding services, construction administration and closeout document coordination. Steve specializes in permitting and stormwater modeling, having designed and permitted hundreds of stormwater treatment systems within the City of Daytona Beach.

Project Experience

Osprey Pointe Apartments

City of Port Orange, FL

Design of a 360 unit multifamily project with clubhouse. The site design included roadway, stormwater, utilities and landscape architecture. The stormwater treatment system meets nutrient removal criteria through dry retention ponds and wet detention ponds designed in series. The ultimate receiving waterbody is Spruce Creek; therefore, the OFW design standards were utilized for this stormwater system.

Plantation Oaks of Ormond Beach

City of Ormond Beach, FL

Residential subdivision of 1,577 single family units over 1,000 acres. The water and wastewater utility systems include a regional expansion of the City's utility system. The water system includes looping of the potable water system North from US-1 along Plantation Oaks Blvd. The wastewater collection system includes eight (8) lift stations with a manifolded force main system and a master lift station.

Napier Apartments

City of Daytona Beach, FL

Design of a 260 unit multifamily project. The project includes two phases, totaling 19 apartment buildings and associated site improvements. The stormwater treatment system includes conveyance and treatment of the stormwater as a single post development basin. The stormwater treatment method is wet detention and the ultimate receiving waterbody is the Tomoka River. Therefore, the OFW criteria was used during the treatment system design.

Tomoka Town Center

Daytona Beach, FL

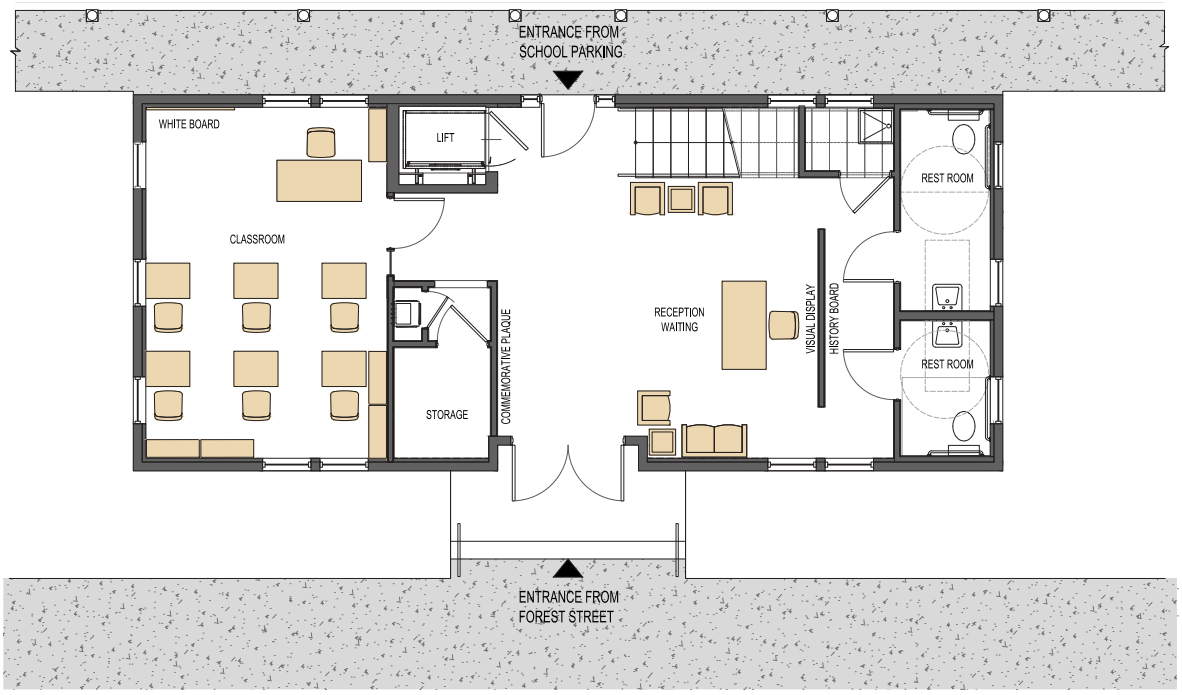
Commercial subdivision of 209 acres. The design includes new roadways, sidewalks, storm water, landscaping, water and sewer system improvements. The water system includes more than 5,400 LF of potable water main. The wastewater collection system includes the gravity collection system extensions and pump station calculations to demonstrate that the existing adjacent lift station can serve the new development. Total cost of this project is $12,000,000.

First Step Shelter

City of Daytona Beach, FL

Steve completed the site design, permitting and construction phase services for the First Step Shelter. The total acreage of the development is 10.34 acres. The stormwater system design and modeling includes three (3) drainage basins, including compensatory storage. The treatment includes one dry pretreatment pond and one wet detention pond to meet nutrient removal requirements.

D. Grant experience: Provide a list of grant applications previously applied for other clients and three that were successfully awarded.



The Owner, John Rood of Vestcor Companies applied for a grant for an outparcel building. The Outparcel would be built on the North West corner of Jacksonville Classical Academy's Campus. PQH provided plans and renderings for the grant application.

PROJECT APPROACH /MANAGEMENT

A-PROJECT APPROACH

COMMUNICATION

The most important aspect of our Design Approach and Management is communication. We believe that our best Projects are those where the client's needs and aspirations are translated into a built reality in the form of Architecture. Our primary tasks are to listen and understand the Owner's and User's needs. Applying our knowledge, experience and understanding of Design are the tools we bring to the Owner to interpret their program and to realize the vision of what the project should look like.

INFORMATION GATHERING & PROGRAMMING

Our Design Process begins by listening to the Owner's Staff and Stakeholders goals and objectives, it is followed by assisting the Owner in quantifying and analyzing their program needs. After the Program Analysis is completed, we evaluate the Budget Parameters and verify that the Project Funding is in line with the Programmatic Requirements and Aesthetic Objectives for the project. Throughout this interactive process, PQH is continuously exchanging input and feedback with the Owner to confirm the scope parameters for the Project.

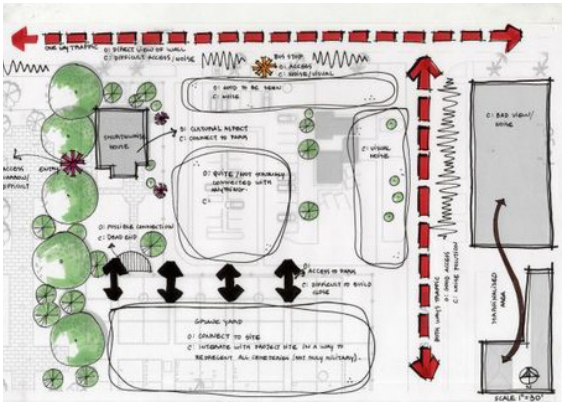
EXISTING FACILITY EVALUATIONS WHEN REQUIRED

PQH has extensive experience in feasibility assessment of existing buildings including projects with historic significance. A sampling of projects in the last 5 years where feasibility evaluations of the building and site were required include the following:

- SJC - Courthouse Renovation
- SJC - Medical Examiner
- SJC - Maintenance and Warehouse Expansion
- SJC - Cart Storage and Clubhouse
- JEA -Interior Program Changes and Renovations, Multiple Projects
- FSCJ - Dental Training Program
- JEA -Interior Program Changes and Renovations, Multiple Projects

SITE ANALYSIS

Site Analysis can be a critical part of the evaluation process that helps define the parameters of a project. It entails weighting the natural features of a site against the program requirements for the project and finding the proper balance between preserving and protecting the ecosystem while meeting the goals and objectives for the desired building program. Site Analysis and Evaluation are comprised of two main elements, The Natural Environment and the Built Environment.



Natural Site Elements Include:

- Topography
- Tree Coverage
- Wetlands
- Site Orientation
- Existing Surrounding Ecosystem
- Views & Amenities

Built Environment Elements Include:

- Roads & Sidewalks
- Utilities
- Existing Surrounding Buildings and Context

A well thought out site analysis blends maximizing the potential development of the site with conservation of Natural Resources in a cost effective way that is complementary with the Existing Ecosystem.

CONCEPTUAL DESIGN REVIEWS AND OWNER INPUT

Based on the Owners overall program and objectives, a series of Conceptual Design ideas are presented for review and consideration. From these conceptual ideas a preferred concept is selected for evaluation and development. The process of developing and refining the concept is the most important aspect of this phase of the project. Once the concept is determined it becomes the catalyst for all other design decisions, much like DNA in the development of life.

PRELIMINARY DESIGN AND OWNER REVIEW

The Design Team articulates the selected concept into an Architectural Building envelope. The Floor plan is shaped to reflect the program needs and spatial adjacencies. The building volume is shaped along with its Aesthetic Character. During this process, the Owner has the opportunity to review the architectural components of the building and provide input with regards to the program functions and spatial relationships. In addition, the exterior character studies are discussed in an ongoing basis to assure that the Aesthetic Character and Branding of the exterior are in line with the Owner's objectives and aspirations.

CONSTRUCTION DOCUMENTS

Once system selections are made and materials are selected, the final component is developing a comprehensive set of documents that coordinates all building elements into a cohesive design. This process entails strict coordination between engineering disciplines to ensure build-ability and adherence to the project budget. The Owner is provided with updated plans at 60%, 90% and 100% to review for overall layout and provide specific input in detail areas such as millwork design, location of communication and power outlets, specialty aspects such as audio visual, lighting and stage requirements.

As part of this phase, a binder of product cut sheets, including lighting and plumbing fixtures and other specialty items are prepared to allow the Owner to review for appropriateness and aesthetic compatibility with the overall concept and budget parameters. The goal of this phase is to produce a set of documents that depict the Owner's vision in a concrete, tangible way that allows for permitting and bidding the project and ultimately constructing a building that correlates with the Owner's vision and objectives.

POST CONSTRUCTION PHASE

These services usually start after substantial completion has been achieved; however, in many situations where the Owner needs to occupy parts of the facility as they become available (Beneficial Occupancy) this post construction period may spare various phases of construction. The usual tasks include:

- Punch List Preparation
- Assistance with Occupancy and Start Up
- Assistance with Guaranteed Performance Issues
- Maintenance, Warranty and Operating Personnel Program
- Assembling all Close-out Documentation
- Final Completion Inspections
- Assistance with Warranty Period Issues
- One year Warranty Inspection

QUALITY CONTROL CHECKLIST REPORT

Prepared by our Construction Administrator to monitor and report field activities - including:

- Review of specified project submittals/shop drawing for general conformance
- Site observation visits and reports during construction, on a weekly or as-needed basis
- Compliance with schedule and other general conditions
- Review of contractor's requests for information
- Review of contractor's applications for payment per the schedule of values
- Prepare Punchlist
- Final inspection

CONTRACT ADMINISTRATION

Our office is committed to each project from design through construction. We have a full-time Construction Administrator (CA) who constantly monitors all construction activities by making periodic visits to the job site, writing reports and answering questions. The CA process for this project will be headed by Roger Chastain. He is a registered general contractor with over 30 years of industry experience. Our CA Team will work with the A/E design and document production team in the areas of systems applicability/selection, constructibility, value management, cost control and schedule management. The CA Team will monitor the A/E's opinion of probable cost throughout the design process.

PQH's Design and CA Team will be involved with this project from inception through its completion by performing constructibility reviews of working design documents as well as cost monitoring. In addition, the Team will oversee that the project is completed on time and within budget will also assist in preparing that pertinent quality control measures are followed, and meet overall Project Goals.

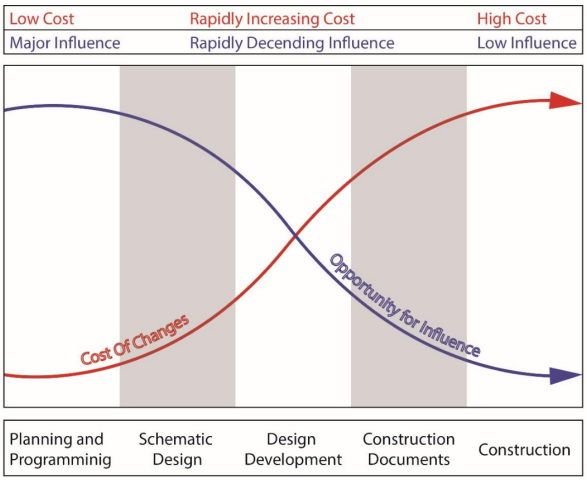
B. SCHEDULE MANAGEMENT

PQH is accustomed to working in a fast pace environment where clients have time frame expectations that need to be met. A relevant example is the design and construction of Jacksonville Classical Academy; A K-12 school with close to 90,000 SF designed in the span of 5 months and built in less than 11 months in time for the start of the 2020 school year.

PQH also monitors construction progress against the proposed schedule to ensure the project is progressing at the proper pace and to assist the contractor in identifying areas that may need to be addressed in order to make up for any delays encountered.

Other examples include Residential Hall facilities which have a tight Delivery Time Frame in order to open in time for the school year, as represented in the chart below.

PROJECT	DESIGN TIME FRAME	CONSTRUCTION TIMELINE
Jacksonville Classical Academy	5	11
North Florida School For Special Education	6	10
Florida Polytechnic University Dorms Phase 1	3	8
Florida Polytechnic University Dorms Phase 2	5	11
ERAU Daytona Phase 1	6	12
ERAU Daytona Phase 2	7	14
ERAU Prescott	5	11



C. BUDGET AND COST CONTROL

PQH has earned a reputation for being committed stewards of our client's budget. During all stages of design, PQH Construction Estimating Staff prepares an Opinion of Probable Cost (OPC), starting with conceptual design and through all stages of the Construction Document phase. During each stage, we work with our valued clients to fine tune the project scope and update the OPC to align within the budget in order to provide maximum scope of work with optimum dollar expenditures.
Our Team brings together the benefits of an in-house contractor that is continuously pricing projects, is up to date on building construction materials, labor market prices, and has access to sub-contractor pricing as well as an Architect that has experience in Construction Management and Design Built Delivery Methods. This allows for us to be conscious of cost implications, which we consider an integral part of the design process.

During the Design Phases, our team works closely together to identify Materials and Systems in the context of the design intent, initial cost, durability, maintenance and life cycle cost implications for the project. Products and systems are evaluated and sorted out in relation to cost and applicable design criteria. That information is then discussed with the client to get their input and preference. This process allows the client the opportunity to be informed and participate in the decision making and cost control process. Once an initial budget is set after schematic design, it gets reviewed and adjusted after each phase of design for any design modifications or changes in scope.
During the Design Process, our Team is also able to provide cost information for alternative materials and systems for the client to consider. As well as evaluate the design options for alternates and additional building program areas. Our goal is to create an efficient and productive process for the creation of affordable projects.

BUDGET AND COST FORECASTING

Budgeting and Cost Estimating/ Opinion of Probable Cost are a critical component of our designs.
Budgeting and cost estimating are intended to provide a basis upon which evaluations of the Project criteria are evaluated against the Owner's overall Project budget. Our experience has allowed us to recognize the importance for including proper contingencies for design, bidding, construction phase, and price escalation with the owner.

PRELIMINARY ESTIMATE

When Project Criteria requirements have been sufficiently identified, PQH prepares a preliminary estimate of the overall Project cost and the Anticipated Cost for Construction.

UPDATED ESTIMATE

As the Project Criteria requirements become more clearly articulated, PQH updates and refines the preliminary estimate of probable cost for the overall Project and the Cost of the Work.

ADVISE ON ADJUSTMENTS TO PREVIOUS ESTIMATES

PQH is proactive in the process to advise the Owner of any adjustments to previous estimates of overall Project cost based on changes and refinements in Project requirements or general market conditions.

D. WHY IS PQH A GOOD FIT FOR THIS PROJECT

PQH has a long history of working in "Continuing Professional Architectural Services" our experience spans multiple clients and overr 20 years of services incluyding several renewal contracts with Agencies and Muncipalities. PQH takes pride in the fact that most of our clients chose to renew our Continuing Service Contracts over and over, including the following Agencies:

ST. JOHNS COUNTY FLORIDA

+20 Years
5 Contracts

Samples of projects include:

- Medical Examiner's Office
- Landrum Senior Center
- Administration Building
- Health Center
- Library Feasibility Study
- Utility Warehouse Expansion
- Fire Station #5,9, 11, 18
- Department of Veteran Affairs
- Courthouse Renovations, Phase 1 & 2

UNF

+9 Years
3 Contracts

Samples of projects include:

- Build 8/Osprey Hall Dormitory Build-Out
- Recreation Center Remodel
- Tennis Complex New Construction
- Baseball Stadium Study
- Student Life Center/Cafeteria Reno

JEA

+9 Years
3 Contracts

Samples of projects include:

- Waterworks Building
- Sun beam Crew Station
- Randall Substation
- Visitors Center
- JUTC Training Center Design Criteria Package
- Southside Service Center Design Criteria Package

UNITED STATES POSTAL SERVICE

+15 Years
5 Contracts

Samples of projects include:

- Melbourne Station
- Cocoa Branch
- Palm Coast Branch
- Daytona Beach Lobby Reno
- Ocala Lobby Reno
- Pottsburg Station Post Office
- Lake Jackson Station

FDOT

+16 Years
4 Contracts

Samples of projects include:

- District Office CADD Room Renovation
- Ellis Rd. Office/Training Renovation
- Ellis Rd. Bridge Drivers Building
- Jacksonville Urban Office
- District II Server room Upgrade

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(A), FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

1. THIS SWORN STATEMENT IS SUBMITTED TO City of New Smyrna Beach

by Ricardo Quiñones, AIA, LEED AP BD+C, President
(Print Individual's Name and Title)
for PQH Group Design, Inc.
(Print Name of Entity Submitting Sworn Statement)
whose business is Architecture / Interior Design Services

and (if applicable) its Federal Employer Identification Number (FEIN) is 47-2933964

2. I understand that a "public entity crime" as defined in Paragraph 287.133 (1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

    a. A predecessor or successor of a person convicted of a public entity crime; or

    b. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provisions of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders,

employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Indicate which statement applies).

X Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, nor any affiliates of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (Attach a copy of the final order).

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES, FOR A CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

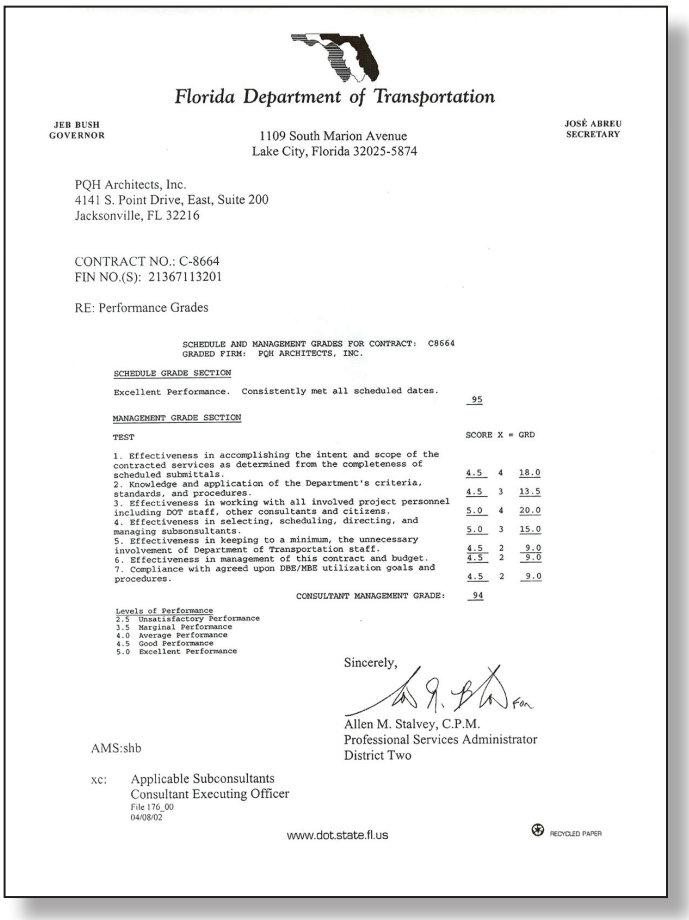
RE: St. Johns County Annual Contract

Dear Jose:

I would like to commend your firm's outstanding efforts on our current projects.



Your responsiveness to our office as well as your timeliness with deadlines has been extremely precise. We appreciate your constant attention to detail as well as taking into consideration the User's special needs when designing our facilities.

We are pleased to be working with you and your staff and look forward to a long lasting relationship between PQH and the St. Johns County Construction Services office.

Sincerely,

Michael B. Rubin

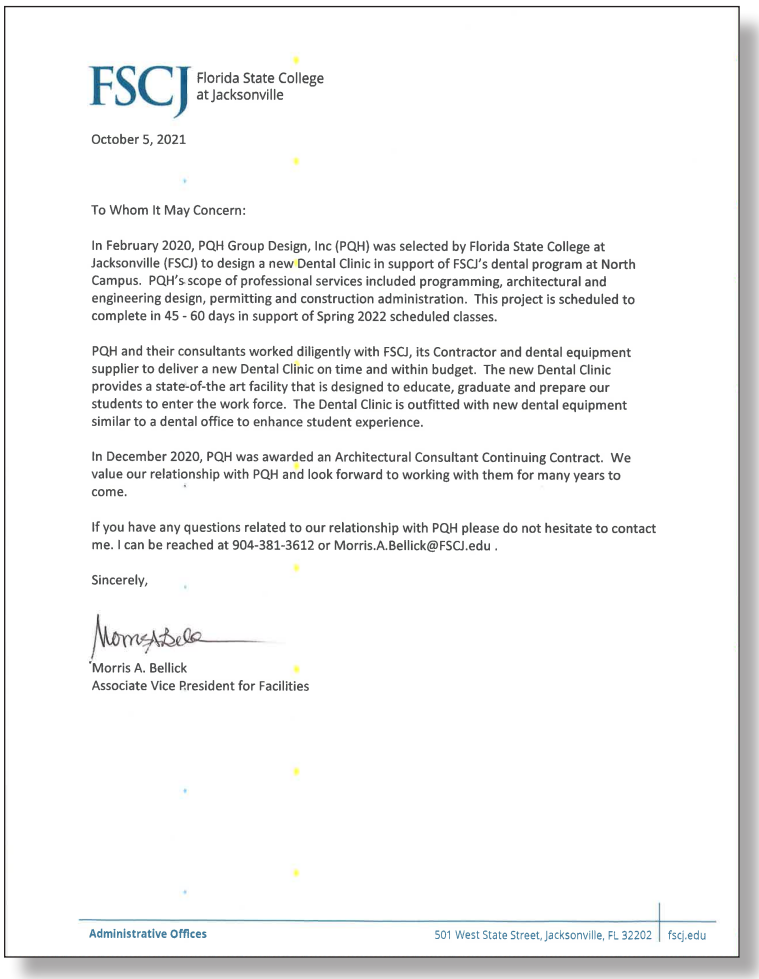
RE: JEA Term Contract Criteria Documents

Dear Rob,

I would like to commend your firm's outstanding efforts on the schematic site planning and building renovation plans that were used for the 10% Criteria Documents for our JEA Joint Use Training Center facility near the Northside Generation Station.

Your responsiveness to our office as well as your timeliness with deadlines allowed us to make an informed decision to purchase the property. We appreciate your constant attention to detail as well as taking into consideration the User's special needs when designing the Schematic plans that were used for the Design/Build Criteria Package provided to the bidders.

Sincerely,



Gregg R Griffin for JEA

Florida State College of Jacksonville (FSCJ) Continued Services Contract

A. Morris A. Bellick
B. 904-381-3612
morris.a.bellick@fscj.edu
C. 2020-Present
D. Currently PQH is completing the construction of the FSCJ North Campus Dental Program Renovation. PQH has also been assigned to complete the FSCJ College-wide Master Planning

FSCJ Florida State College at Jacksonville

October 5, 2021

To Whom It May Concern:

In February 2020, PQH Group Design, Inc (PQH) was selected by Florida State College at Jacksonville (FSCJ) to design a new Dental Clinic in support of FSCJ's dental program at North Campus. PQH's scope of professional services included programming, architectural and engineering design, permitting and construction administration. This project is scheduled to complete in 45 - 60 days in support of Spring 2022 scheduled classes.

PQH and their consultants worked diligently with FSCJ, its Contractor and dental equipment supplier to deliver a new Dental Clinic on time and within budget. The new Dental Clinic provides a state-of-the art facility that is designed to educate, graduate and prepare our students to enter the work force. The Dental Clinic is outfitted with new dental equipment similar to a dental office to enhance student experience.

In December 2020, PQH was awarded an Architectural Consultant Continuing Contract. We value our relationship with PQH and look forward to working with them for many years to come.

If you have any questions related to our relationship with PQH please do not hesitate to contact me. I can be reached at 904-381-3612 or Morris.A.Bellick@FSCJ.edu .

Sincerely,

Morris A. Bellick
Associate Vice President for Facilities

DRUG-FREE WORKPLACE CERTIFICATION

A. The below Firm certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violation of such prohibition.

(b) Establishing an on-going drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace.
(2) The employer's policy of maintaining a drug-free workplace.
(3) Any available drug counseling, rehabilitation, and employee assistance programs, and
(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

(c) Making it a requirement that each employee to be engaged in the performance of this contract be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under this contract, the employee will:

(1) Abide by the terms of the statement; and

(2) Notify the Employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the City of New Smyrna Beach, in writing, within 10 calendar days after receiving notice under subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Consultants of convicted employees must provide notice, including position and title to: City Clerk/Administrator, City of New Smyrna Beach, 210 Sams Avenue, New Smyrna Beach, FL 32168.

(f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is convicted.

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended, or

(2) Requiring such employee to participate satisfactorily in drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State or local health, law enforcement, or other appropriate agency.

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

B. The Firm may insert in the space provided below the site(s) for the performance of work done in connection with the specific contract:

RFQ 10-22-ENG: CONTINUING PROFESSIONAL ARCHITECTURAL SERVICES

Revised Addendum 1: February 2, 2022

TO ALL PROPOSERS:

Notice is hereby given to all Proposers that this is **Addendum 1** to RFQ 10-22-ENG, Continuing Professional Architectural Services, released on January 15, 2022.

This addendum is issued to answer vendor questions, clarify, add, delete, correct and/or change the proposal documents to the extent indicated and is hereby made a part of the above noted RFQ documents. Any modifications/changes made by this addendum affect only the portions or paragraphs specifically identified herein; all remaining portions of the proposal are to remain in force. It is the responsibility of all Applicants to conform to this addendum. Please note, questions are recorded as they are received, including grammar and spelling errors.

This addendum shall be considered part of the Contract Documents for the above mentioned solicitation as though it had been issued at the same time, and incorporated integrally therewith. Where provisions of the following supplementary data differ from those of the original document, this addendum shall govern and take precedence. All other terms, conditions, and regulations will apply.

This addendum **impacts all vendors interested in submitting proposals for this solicitation.**

The Bid opening remains February 14, 2022 at 3:00 PM.

VENDOR QUESTIONS:

1. Can the City provide a list of Capital Improvement Projects that they anticipate being performed under this professional services agreement?

   Answer: At this time a list of capital improvement projects is not readily available

ALL OTHER AREAS OF THE BID DOCUMENT REMAINS THE SAME

Instructions:

This page of Addendum #1 shall be signed and returned with the proposal. Please provide a signed copy of this addendum with your proposal.

Form **W-9**
(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give Form to the requester. Do not send to the IRS.

Print or type. See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.
PQH Group Design, Inc.

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only one of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☑ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ _____

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is not disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.
4141 Southpoint Drive East, Suite 200

Requester's name and address (optional)

6 City, state, and ZIP code
Jacksonville, FL 32216

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number
[ ][ ][ ] - [ ][ ] - [ ][ ][ ][ ]

or

Employer identification number
4 7 - 2 9 3 3 9 6 4

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person ▶ _____ Date ▶ 2-3-22

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

THE CITY OF NEW SMYRNA BEACH - ENGINEERING

CONSIDER THE AWARD BARRACUDA BOULEVARD ROADWAY ENHANCEMENT PROJECT CONTRACT TO HALIFAX PAVING, INC.

May 27, 2025

Background:

As part of the roadway enhancement project along Barracuda Boulevard from the North Causeway to Middle Way the upgrades were on hold until the bridge replacement project was complete. With the bridge project finalized and open to both vehicular and pedestrian traffic the City advertised the Barracuda Boulevard Roadway enhancement project to address an array of concerns pertaining to drainage related issues (standing water for extended periods of time), pavement condition and profile, traffic management with access and temporary parking provided for the adjacent businesses as well as water quality and landscape improvements for the area.

Findings:

The project was advertised March 13th and bids were opened April 21st with a total of six (6) contractors submitting proposals indicating a good response and competitive prices.

Halifax Paving submitted the lowest bid at $300,556.00 which was significantly lower than the second bid (Note: Usually the lowest couple of bids are within 10% of each other) so the consultant did some follow up to make sure the entire scope of work was understood and provided the attached recommendation.

Staff has worked with Halifax Paving in the past including the Airport, Maintenance Operations and Engineering so are confident they have the ability to provide the necessary equipment and manpower for the required level of workmanship. As such staff recommends awarding the contract to Halifax Paving, Inc. in the amount of $300,556.00.

Fiscal Analysis:

With the bids coming in lower than anticipated there are sufficient funds in account #302.54101.563203.22BAR to support the project cost.

Strategic Plan Item:

No

I. Introduction

Thank you in advance for your interest in doing business with the City of New Smyrna Beach.

If you are interested in preparing a response to this solicitation, please read the bid package in its entirety prior to submitting a bid response. Your response is considered a binding offer to perform in the manner described in the bid response and shall remain a firm offer for a period of ninety (90) days from public opening.

All Bidders are advised that under Chapter 119, Florida Statutes, all responses to this solicitation are deemed a public record and are open to the public as provided for in said Statute.

The successful Bidder(s) must demonstrate in their submittal to be the lowest, most responsible and responsive Bidder which best meets the specifications and serves the overall needs of the city. Bids should be prepared in accordance with the instructions herein and all bid prices are rechecked thoroughly. Failure to provide the response in the manner prescribed herein may be grounds for disqualification of the submittal. The city reserves the right to waive any and all technicalities, formalities and to reject any or all bid submittals or to re-advertise for bid submittals for these commodities/services. The city may withdraw all or part of this ITB at any time to protect the interests of the city.

The awarded Contractor must be registered with the Florida Department of State and licensed to do business in the State of Florida.

I.A Summary

The City of New Smyrna Beach is seeking sealed bids from qualified and licensed Contractors for the Barracuda Boulevard Roadway Enhancement. Barracuda Boulevard is a two-lane bi-directional roadway maintained by the city. Additional information is provided in Section IV of this document.

All required documents shall be completed and submitted through the City's eProcurement Portal.

I.B Background

The City serves an area of 41.6 square miles in size and serves a population of approximately 33,402. It is located off of Florida's East Coast, in the County of Volusia, just north of Cape Canaveral with easy access to both Interstate 95 and Interstate 4. The City's fiscal year begins on October 1st and ends on September 30th.

The City was created in 1887 by adoption of its first charter, which was replaced by the present charter through Chapter 224.08, Special Acts of Florida, 1943.

The legislative branch of the city is composed of an elected five-member City Commission consisting of the mayor and four commissioners. The City Commission is governed by the City

Charter and by state and local laws and regulations. The City Commission is responsible for the establishment and adoption of policy. The execution of such policy is the responsibility of the Commission-appointed City Manager.

More detailed information on the government and can be found in City of New Smyrna's Comprehensive Annual Financial Report (CAFR). This report may be viewed on https://www.cityofnsb.com/105/Financial-Reports.

II. General Definitions

The following is a list of definitions for common purchasing terms. These terms are defined to provide a common understanding. Terms "Consultant", “Contractor”, “Company”, “Firm”, “Corporation”, “Business”, “Proposer,” “Respondent”, and/or “Vendor,” are used interchangeably within solicitations and are in reference to the person or entity submitting a response to a solicitation.

A complete, comprehensive reference guide for public purchasing terms and concepts can be found on the National Institute Government Purchasing (NIGP) website.

II.A Definitions

Agreement: An understanding, usually in writing, between two or more competent parties, under which one party agrees to certain performance as defined in the agreement and the second party agrees to compensation for the performance rendered in accordance with the conditions of the agreement. Agreements and contracts are sometimes used synonymously.

Bid: A quotation of price for commodity or service in response to an invitation to offer a price for commodity or service. These quotations may be formal or informal as defined herein.

CCNA: Consultants Competitive Negotiation Act. Services Florida Statute 287.055. Professional services provided by Engineers, Surveyors, Architects and Landscape Architects.

City: City of New Smyrna Beach.

Claims and Notices: A notice is defined to be information rendered by either party to the other upon a condition becoming known pursuant to the following requirements. All claims, requests, substitutions, changes, notices, delays, and all other forms of notices or claims by the Contractor to the Owner must be in writing and promptly presented to the City Manager or designee. If none is so made, it is irrefutably presumed not to have been given by the contractor to the Owner.

Competitive Sealed Bids: The receipt of one or more sealed bids or proposals submitted by responsive and qualified bidders or offerors.

Construction: The process of utilizing labor to build, alter, repair, improve, or demolish any structure, building or public improvement; generally, does not apply to routine maintenance, repair, or operation of existing real property.

Consultant: A person or company that possesses unique qualifications that allow them to perform specialized advisory services usually for a fee.

Contract: The agreement executed by the Owner and the Contractor covering the work to be performed and including all Contract Documents.

Contractor: A person or firm who contracts to sell commodities or contractual services to the City.

Debarment: 1. Prohibits a seller or contractor from bidding on future requirements for cause for a certain period of time. 2. A sanction brought against a seller whereby they may not engage in future procurement actions. 3. To exclude or shut out of future solicitations and contracting opportunities.

Drawings: The drawings listed and described in the Contract Documents.

Engineer: For this project, reference to the Engineer shall refer to City Engineer, Kyle Fegley or his designee.

Evaluation Committee: A committee established to conduct an evaluation of proposals, interviews, and negotiations during the solicitation process for a specific product or service. Usually composed of representatives from the functional area identified in the solicitation. May also be described as a Review Committee.

Firm: A partnership or business unit of two or more persons not recognized as a corporation.

Formal Bid: A written quotation of price for a commodity or service submitted in response to a written invitation or legal advertisement to offer a price for said commodity or service. Such quotations are submitted in a sealed envelope and opened at a specified time and place. Also known as a Solicitation.

Informality or Waiver: The act of disregarding minor informalities, errors, or technical nonconformance in the bid or proposal that will not adversely affect the competition or prejudice one bidder in favor of another.

Owner: City of New Smyrna Beach

Professional Services: Services within the scope of the practice of architecture, professional engineering, landscape architecture, or registered surveying and mapping, as defined by the laws of the state, or those performed by any architect, professional engineer, landscape architect, or registered surveyor and mapper in connection with his or her professional employment or practice. Florida Statute 287.055.

Projects: The entire construction, installation or work to be performed as set forth in the Contract Documents.

Protest: A written objection by an interested party to a solicitation or award of a contract with the intention of receiving a remedial result.

Request for Proposals/Qualifications: A written request for proposals or qualifications from interested vendors and service providers that may or may not ask for pricing information. Also known as an RFP or RFQ.

Specifications: A clear, complete, and accurate statement of the technical requirements descriptive of an item and if applicable, the procedure to be followed to determine if the requirements have been met.

Subcontractor: Any person, firm or corporation other than the Contractor supplying material or labor for work at the site of the project. Such person or firm has contractual relations with the Contractor, but not with the Owner.

Sunbiz: Sunbiz.org is a web site for companies to register to transact business in the State of Florida. It is run by the Florida Department of State, Division of Corporations.

Sunshine Law: A law that requires public disclosure of a government act. Laws that require state and local agencies to conduct their business in the sunshine. In 1992, Florida voters reaffirmed the right to open government by approving an amendment adoption Article 1, [section] 24(6) of the Florida Constitution, which "grant[ed] constitutional status to the public's right of access to all levels of government." Many other states have also adopted similar laws. Public officials have a duty to conduct meetings in the sunshine. They also have a duty to protect the trade secrets of the suppliers with whom they do business.

Surety: Any person, firm or corporation that has executed as Surety.

Vendor: A person or entity that provides goods and/or services, usually for low-cost, low-risk, and short-term engagements.

III. General Information

III.A Acceptance of Conditions

Within ninety (90) days after the opening of the bids, the City shall accept one of the bids or shall act in accordance with Information for Bidders Right to accept and reject Bids. Bids shall be awarded in accordance with the Federal, State and Local regulations. The project shall be awarded to the lowest, most responsive, and responsible bidder whose bid meets the specifications. Before an award of the contract, the City reserves the right to request additional information to clarify a bid submittal.

III.B Ambiguity, Conflict, or Other Errors

If a bidder discovers any ambiguity, conflict, discrepancy, omission, or any other errors in this document, the bidder shall immediately notify the Purchasing Agent, noted herein, of such error in writing and request a modification or clarification of the document. The Purchasing Agent shall make modifications by issuing an addendum and shall post to the City's e-Procurement portal and give written notice to all parties who have received this document. No interpretation shall be considered binding unless provided in writing by the City of New Smyrna Beach.

The bidder is responsible for clarifying any ambiguity, conflict, discrepancy, omission, or other error in this document prior to submitting a response or it shall be waived.

III.C Americans with Disabilities Act

Persons with disabilities needing special accommodation at public meetings should contact the Purchasing Department at 386-410-2654, no later than seven (7) days prior to the appropriate date on which the accommodation is requested.

III.D Assignment

The Bidder shall not assign or transfer any contract resulting from this solicitation, including any rights title or interest therein, or its power to execute such contract to any person, company, or corporation without the prior written consent of the City.

III.E Bid Opening

Electronic bids will remain sealed until the time of the opening listed in the Timeline of Section II.D of this document. Through Microsoft Teams, the received bids will be publicly opened, and the Bidders' names read aloud at that time. No discussion of the proposals will occur at this time. It is important to note that this is public meeting, and the meeting will be recorded.

Click on the link to join the meeting: Join the meeting

Meeting id: 288-111 348 12

or dial in by phone: 786-636-1338. Phone ID: 784 766 635#

Bidders may also contact the City's Purchasing Agent to obtain information to view the live bid opening.

III.F Cancellation

The City reserves the right to cancel, in whole or in part, any solicitation when it is in the best interest of the City. Availability of all information related to a cancelled solicitation is subject to Chapter 119, Florida Statutes.

III.G City's Rights

The Owner reserves the unqualified right, in the Owner’s sole and absolute discretion, to reject any and all bids, to waive any irregularities, or to accept that bid or combination of bids, which in the Owner’s sole and absolute judgment, shall, under all circumstances, best serve the public interest.

Any bid may be rejected which contains any omissions, erasures, alterations, additions, irregularities of any kind, or items not called for, or which does not contain prices set opposite to each of the several items in the bid form, or in which any of the prices are obviously unbalanced, or which shall in any manner fail to conform to the conditions of the published notice inviting bids.

The City also reserves the right to award a contract based on experience and qualifications or to award only a portion of the services specified, if deemed to be in the City’s best interest.

III.H Collusion

More than one (1) bid from an individual, firm, partnership, corporation, or association under the same or different names will not be considered. Reasonable grounds for believing that a

Bidder is involved in more than one bid will be cause for rejection of all bids in which such Bidders are believed to be involved. Any or all bids will be rejected if there is reason to believe that collusion exists between Bidders. Bids in which the prices obviously are unbalanced will be subject to rejection.

The Bidder, by affixing its signature to a submitted bid, certifies that its bid is made without previous understanding, agreement, or connection with any person, firm or corporation submitting making a bid for the same item(s), and is in all respects fair, without outside control, collusion, fraud, or otherwise illegal action.

III.I Completeness and Compliance

Submitted Bids shall contain the information as required in this solicitation. Failure to submit the required information, or bids that are incomplete and/or lack key information, may be rejected by the City.

All items contained in the bid must be in total compliance with the specifications of this solicitation. Alternate bids will not be considered unless specifically called for in this solicitation. Bidders' attention is specifically called to the terms, conditions, and special provisions of this solicitation. Please be aware that, under the competitive process, the stipulations set forth herein are fully binding on the Bidder to the extent that you confirm acceptance by your electronic submission.

By submitting a bid response, the Bidder certifies that the Bidder has fully read and understands this solicitation document and has full knowledge of the scope, nature, quantity, and quality of work to be performed; the detailed requirements of the services to be provided; and the conditions under which the services are to be performed.

III.J Contract

The City shall evaluate the received submittals prior to execution of contract or submittal of a recommendation of contract or agreement to the City Commission.

A contract resulting from this solicitation shall be subject to the terms and conditions set forth in a standard City agreement. The City reserves the right to include in any contract document such terms and conditions as it deems necessary for the proper protection of the rights of the City. The City shall not be obligated to sign any contracts, maintenance and/or service agreements, or other documents supplied by the bidder.

The successful Bidder shall execute and return the agreement to the City, within fourteen (14) days after receipt. Component Parts of the Contract are outlined in the draft contract, which is available as an attachment to this solicitation.

In no event shall an agreement be considered binding upon the City until it has been properly executed by all parties.

In conjunction with the agreement, a purchase order or other form of payment will be established by the City prior to the start of any project, service, or work by the Bidder.

Failure on the part of the successful Bidder to execute an Agreement(s) as required will be just cause for the rescindment of the award. In this event, the Bidder shall forfeit his bid guarantee to the City in the manner previously described herein. The award may then be made to the next lowest most responsive and responsible bidder, or the City may opt to re-advertise the work if found to be in its overall best interest.

In the event of a conflict in the interpretation of the Contract or the terms of the Contract, the interpretation most favorable to the Owner shall prevail.

III.K Cone of Silence/Lobbying

Lobbying is defined as any action taken by an individual, firm, association, joint venture, partnership, syndicate, corporation, and/or all other groups who seek to influence the governmental decision of a City Commission Member, the City Manager, any requesting or evaluating Department/Division/Office Personnel, concerning an active solicitation during the black-out period.

A lobbying black-out period commences upon the issuance of this solicitation document.

If a recommendation to award is presented to City Commission for approval or for a request to provide authorization to negotiate a contract and the City Commission refers the item back to the City Manager, Procurement Department and/or the requesting Department for further review or otherwise and does not take action on the item, the cone of silence/lobbying black-out period will be reinstated until such time as the City Commission meets to consider the item for action.

Bidders, proposers, potential vendors, service providers, lobbyists, consultants, or vendor representatives shall not contact any City Commission member, the City Manager, City Staff, and/or any member of the evaluation committee concerning an active solicitation during the cone of silence/lobbying black-out period.

III.L Conflict of Interest

The award of any contract hereunder is subject to the provisions of Chapter 112, Florida Statutes. Bidders must disclose with their proposal the name of any officer, director, partner, proprietor, associate, or agent who is also an officer or employee of the City or any of its agencies. Further, all Bidders must disclose the name of any officer or employee of the City who owns, directly or indirectly, any interest in the Offeror's firm or any of its branches or affiliate companies.

III.M Cost of Submittal

The Bidder understands that any and all costs related to the submittal of a proposal is considered an operational cost to the Bidder and shall not be passed on to or be borne by the City. By submission of a bid, the Bidder agrees that any and all costs associated with the preparation of the bid will be the sole responsibility of the Bidder. The Bidder also agrees that the City shall bear no responsibility for any costs associated with the preparation of the bid

including but not limited to any administrative or judicial proceedings resulting from the solicitation process.

III.N Determining Responsibility

The determination as to whether a Bidder is considered responsible shall be at the sole discretion of the City. The City may request information relating to contracts similar to the requirements of this solicitation.

The City also reserves the right to reject the bid of a bidder who has previously failed to perform properly or complete projects timely, whose investigations show bidder is not in a position to perform the contract.

In determining responsibility, the following qualifications, in addition to price, may be considered:

A. The Bidder's ability, capacity, and skill to provide the goods or to perform the service within the time specified;

B. The character, integrity, reputation, judgement, experience and efficiency of the Bidder;

C. The quality of performance of previous contracts or services including previous performance with the City;

D. The sufficiency of financial resources to meet the obligations of the required contract and to perform the services;

E. Quality Control Program.

F. Contract claims, litigation filed against the Bidder or filed by the Bidder for equitable adjustment; Reprimand of any nature or suspension by the Department of professional Regulation or any other regulatory agency or professional association in the past five (5) years.

G. Ability to provide future maintenance, service, and support of the goods/services under contract; and,

H. Whether the Bidder is in arrears to the City on a debt or a contract or is a defaulter on surety to the City; or whether the Bidder's taxes or assessments are delinquent.

I. Such other information as may be relevant or secured.

III.O Due Date

Electronic bids shall be received prior to 5:00 pm on Thursday, April 17, 2025 via the City's e-Procurement Portal.

Submittals will not be permitted or accepted after this date and time. There is no expressed or implied obligation for the City of New Smyrna Beach to reimburse responding bidders for any expenses incurred in preparing a response to this solicitation.

Contact OpenGov technical support at support@opengov.com if technical difficulties arise during bid submission.

Received bids are subject to the conditions specified herein and on any attached sheets, specifications, special conditions, or vendor notes.

The City is not responsible for the failure of a Bidder or the Bidder's agent to submit responses in a timely manner. Bid submittals by email, telephone or fax shall be rejected as non-responsive.

III.P Evaluation of Bids

If a recommendation of an award is made, it shall be made to the most responsive and responsible bidder whose bids are determined to be the most advantageous to the City, taking into consideration the evaluation factors set forth herein.

III.Q Federal and State Tax

In accordance with Section 607.150 of the Florida Statutes, and provided an exemption is not available, a foreign corporation may not transact business in Florida until it obtains a certificate of authority from the Florida Department of State.

Foreign corporations may submit bids or proposals prior to obtaining a certificate of authority from the Florida Department of State. A foreign corporation must be in compliance with F.S. 607.150, prior to entering into a Contract with the City.

III.R Governing Law/Jurisdiction

The interpretation, effect, and validity of any contract resulting from this solicitation shall be governed by the laws and regulations of the State of Florida. In the event that a suit is brought for the enforcement of any term of the contract, venue of any court action shall be in Volusia County, Florida.

III.S Immigration Reform and Control Act

Bidder acknowledges, and without exception or stipulation, any bidder receiving an award shall be fully responsible for complying with the provisions of the Immigration Reform and Control Act of 1986 as located at 8 U.S.C. 1324, et seq. and regulations relating thereto, as either may be amended. Failure by the awarded bidder to comply with the laws referenced herein shall constitute a breach of the award agreement and the City shall have the discretion to unilaterally terminate said agreement immediately.

III.T Inquiries

To ensure fair consideration for all parties, the city prohibits communication to or with any department, division, employee, or city representative from the issuance date of this solicitation until the City's final action. Unauthorized contact regarding this solicitation with any employee, and/or elected city officials of the City of New Smyrna Beach other than purchasing may result in disqualification from this procurement process of the contacting individual/firm submittal.

All questions related to this solicitation shall be submitted in writing via the OpenGov Question/Answer Tab via the City's e-Procurement portal, on or before 5:00 pm on Tuesday, April 8, 2025. Please include the section title for each question, if applicable, in order to ensure that questions asked are responded to correctly.

When asking questions, be sure to enter each question separately.

Bidders must clearly understand that the only official answer or position of the City shall be the one stated in writing by the City.

All responses to questions will be in the form of an addendum that will be posted on OpenGov. Bidders are required to acknowledge receipt of the posted addendums, if any, by signing a posted addendum and submitting a signed copy with a submitted bid.

It is the responsibility of the prospective respondents to check OpenGov for addendum(s) and other important information pertaining to this solicitation. The City reserves the right to make a written request for additional information from a Contractor/Vendor to assist in understanding or clarifying a Bid Proposal. The responses are to be provided in writing.

The City is not responsible for the content of any public solicitation package received through any 3rd party bid service or any source not listed above. It is the sole responsibility of the contractor to ensure the completeness of the documents received from any 3rd party. The City is not responsible for errors and omissions occurring in the transmission or downloading of any specifications from our or any website.

III.U Joint Ventures

Bidders that are intending to submit a bid as a joint venture are required to have filed proper documents with the Division of Corporations, and/or any other State or local licensing agency prior to submitting a bid. Please refer to Section 489.119 Florida Statutes.

Joint venture bidders must provide an affidavit attesting to the formulation of a joint venture and provide either proof of incorporation as a joint venture or a copy of the formal Joint Venture Agreement between all joint venture parties, indicating their respective roles, responsibilities, and levels of participation for the project or services outlined herein.

III.V Judgements/Legal Findings

By submitting a bid for consideration, the bidder affirms that they currently have no judgements or other legal findings nor have any pending judgements or other legal findings against the company or any of its executives, with any federal, state or local governmental entities that in any way could impact or have the potential to impact their ability to complete any contract awarded them as a result of this solicitation. Failure to disclose any such judgments and/or findings will result in the termination of any contracts and other penalties as deemed legal and appropriate by the City.

III.W Legal Requirements

Federal, State, County and local laws, ordinances, rules, and regulations that in any manner affect the item(s) covered herein apply. Lack of knowledge by the bidder will in no way be cause for relief from responsibility.

III.X Liability

The City of New Smyrna Beach assumes no responsibility for the cost of preparing a response to this solicitation. The awarded bidder shall hold and save the City of New Smyrna Beach, its officers, agents, and employees harmless from liability of any kind in the performance of or fulfilling the requirements of a contract which may result from award of this solicitation.

Neither party shall be held responsible for failure to complete contract due to causes beyond its control, including, but not limited to, work stoppage, fires, civil disobedience, riots, rebellions, acts of nature and similar occurrences making performance impossible or illegal.

The bidder shall hold and save the City of New Smyrna Beach, its officers, agents, and employees harmless against claims by third parties resulting from the bidder's breach of contract or negligence, including all attorney's fees and costs, and shall pay any and all damages, fees, and costs assessed on behalf of the City. The City expressly reserves all rights, privileges, and benefits of sovereign immunity.

III.Y Method of Source Selection

The City of New Smyrna Beach is using the competitive sealed bid methodology of source selection for this procurement, as authorized by the City Purchasing Policy.

III.Z On-line Provider Disclaimer

The City of New Smyrna Beach is the official source to obtain information relating to the City solicitations.

All documents regarding this solicitation are posted utilizing an online bid management system, OpenGov. There is no charge to register with OpenGov and/or to participate in the solicitation process.

It is recommended that bidders register and maintain their registration with OpenGov at www.OpenGov.com. This is a third-party provider that provides a platform to communicate solicitation information to the Public. OpenGov does not represent the City nor does communications through this provider constitute communications to the City. The City of New Smyrna Beach is not responsible for errors and omissions occurring in the transmission or downloading of any documents from the online website.

In the event of any discrepancy between information on this website and the hard copy specifications, the terms of the hard copy specification will control.

III.AA Payment

Florida Statute 218.70, et seq, known as the "Florida Prompt Payment Act" sets forth "the policy of this state that payment for all purchases by local governmental entities is made in a timely manner". This is also the policy of the City of New Smyrna Beach.

III.BB Pre-Bid Meeting

There will be a virtual non-mandatory pre-bid meeting for this project. Attendance is strongly encouraged to understand the requirements of the Scope of Work.

The date and time of the pre-bid site visit is provided in Section II.D, Timeline.

Click on the link to join the meeting: Join the meeting

or dial in by phone: 786-636-1338. Phone ID: 792 079 932#

Bidders may also contact the City's Purchasing Agent to obtain information to view the live bid opening.

III.CC Prohibition of Gifts to City Employees

No organization or individual shall offer or give, either directly or indirectly, any favor, gift, loan, fee, service, or other item of value to any City employee, as set forth in Chapter 112, Part III, Florida Statutes, the current City Ethics Ordinance, and City Administrative Policy. Violation of this provision may result in one or more of the following consequences:

A. Prohibition by the individual, contractor, and/or any employee of the contractor from contact with City staff for a specified period of time;

B. Prohibition by the individual and/or contractor from doing business with the City for a specified period of time, including but not limited to: submitting bids, proposals, responses, and/or quotes and;

C. Immediate termination of any contract held by the individual and/or bidder for cause.

III.DD Proposal, Presentation, and Protest Costs

The City shall not be liable in any way for any costs incurred by any bidder in the preparation of its bid or proposal in response to this solicitation, nor for the presentation of its bid or proposal and/or participation in any discussions, negotiations, or, if applicable, any protest procedures.

III.EE Proprietary Information

In accordance with Chapter 119 of the Florida Statutes (Public Records Law), and except as may be provided by other applicable State and Federal Law, all bidders should be aware that Invitation to Bids and the responses thereto are in the public domain. However, the bidders are requested to identify specifically any information contained in their proposals which they

consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing, specifically the applicable exempting law.

A generic notation that information is “confidential” is not sufficient. Failure to provide the Procurement Agent with a detailed explanation and justification including statutory cites and specific reference to your bid submittal detailing what provisions, if any, you believe are exempt from disclosure, may result in your entire bid submittal being subject to disclosure in accordance with Chapter 119 of the Florida Statutes

All proposals received from bidders in response to this Invitation to Bid will become the property of the City of New Smyrna Beach and will not be returned to the bidders. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the City.

III.FF Protest Procedures

A. Bidders or proposers who do not agree with the City's recommendation for award shall be afforded the opportunity to protest the recommendation by submitting written notice to the Purchasing Division. Bids or proposals not meeting the minimum published requirements, including specifications, Scope of Services, or required documents, are not subject to protest.

B. Such notice shall be given within three (3) business days after the City posts its notice of intent to award.

C. A formal written protest shall be made to the Purchasing Division within five (5) working days after filing the notice of protest, which shall state the grounds for the protest and the action requested.

D. The formal written protest shall include with it a bid protest bond in the amount of one percent (1%) of the estimated contract amount, as provided in Florida Statutes § 287.042(2)(c) and Rule 28-110.005 of the Florida Administrative Code. The notice of protest must be either hand-delivered and date and time stamped by the Finance Department, or sent via Certified U.S. mail, return receipt requested. Failure to file a protest within the timeframe specified herein shall constitute a full waiver of all rights to protest the City’s decision regarding award of the bid. For full bid protest guidance, consult Section 9.1, Notice of Protest, of the City of New Smyrna Beach’s purchasing policy.

III.GG Public Entity Crimes

Pursuant to Section 287.133(12)(a) of the Florida Statutes, “A person or affiliate, who has been placed on the convicted vendor list following a conviction for a public entity crime, may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or contractor under a contract with any

public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO ($25,000) for a period of 36 months from the date of being placed on the convicted vendor list."

III.HH Public Records Act

All material submitted regarding this solicitation becomes the property of the City. Solicitation documents may be reviewed by any person ten (10) days after the public opening. The proposer should take special note of this as it relates to any proprietary information that might be included in its offer. Any resulting contract may be reviewed by any person after the contract has been executed by the City.

The City has the right to use any or all information/material submitted in response to this solicitation and/or any resulting contract from same. Disqualification of a proposer does not eliminate this right. This section is further subject to F.S. 119.01 et. seq.

IF THE CONSTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CITY'S CUSTODIAN OF PUBLIC RECORDS, CITY CLERK, AT 386/410-2630, CLERK@CITYOFNSB.COM, CITY OF NEW SMYRNA BEACH, 210 SAMS AVENUE, NEW SMYRNA BEACH, FL 32168.

The contractor is required to comply with public records laws, specifically to:

A. Keep and maintain public records required by the public agency to perform the service.

B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.

C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the public agency.

D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the contractor or keep and maintain public records required by the public agency to perform the service. If the contractor transfers all public records to the public agency upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

III.II Relation of City

It is the intent of the parties hereto that the contractor shall be legally considered an independent contractor, and that neither the contractor nor their employees shall, under any circumstances, be considered employees or agents of the City, and that the City shall be at no time legally responsible for any negligence on the part of said contractor, their employees or agents resulting in either bodily or personal injury or property damage to any individual, consultant, or corporation.

III.JJ Requests for Clarification

The City may, as it deems necessary, conduct discussions with responsible bidders for the purpose of clarification to assure full understanding of, and responsiveness to solicitation requirements.

Requests by the Purchasing Agent to a bidder for clarification of a submittal shall be in writing. Bidder's failure to respond to request for clarification may deem proposer to be non-responsive and may be just cause to reject its bid.

III.KK Single Proposal

Each bidder must submit, with their bid, the required forms included in this solicitation. Only one bid from a legal entity as a primary shall be considered. A legal entity that submits a bid as a primary or as part of a partnership or joint venture submitting as primary may not then act as a sub-contractor to any other bidder submitting under the same solicitation.

The received bids in violation of this requirement shall be deemed non-responsive and rejected from further consideration.

III.LL State Registration Requirements

Bidders submitting a bid in response to this solicitation shall either be registered or have applied for registration with the Florida Department of State in accordance with the provisions of Chapter 607, Florida Statutes. A copy of the registration/application may be required prior to award of a contract.

Any partnership submitting a response to this Solicitation shall have complied with the applicable provisions of Chapter 620, Florida Statutes. For additional information on these requirements, please contact the Florida Secretary of State's Office, Division of Corporations at (800) 755-5111 or visit the following website: (http://www.dos.state.fl.us).

III.MM Title VI

No person shall on the basis of race, color, national origin, sex, age, disability, family or religious status, as provided by Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, the Florida Civil Rights Act of 1992 and other nondiscrimination authorities, be excluded

from participation in, be denied the benefits of, or be otherwise subjected to discrimination or retaliation under any program or activity of the City of New Smyrna Beach.

III.NN Unbalanced Bids

As determined by the City, the city may consider a solicitation response irregular and reject it if any of the prices are excessively unbalanced (either above or below the amount of a reasonable response) to the potential detriment of the City. The City further reserves the right to require backup documentation from the respondent if, in the City's opinion, the prices are, or appear to be, excessively unbalanced.

III.OO Certification of Independent Price Determination

By submission of a response, the Bidder certifies that in connection with this bid submittal:

A. The pricing and/or fees associated with this bid submittal have been arrived at independently, without consultation, collusion, communication, or agreement for the purpose of restricting competition, as to any matter relating to such prices with any other Bidder or with any competitor.

B. Unless otherwise required by law, the prices which have been quoted on this bid have not been knowingly disclosed by the Bidder and will not knowingly be disclosed by the Bidder prior to opening, directly or indirectly to any other Bidder or to any competitor.

C. No attempt has been made or shall be made by the Bidder to induce any other person or Bidder to submit or not submit a bid for the purpose of restricting competition.

III.PP Corporate Standing and Authorized Signatory

The Proposer must demonstrate that the company is in good standing and that the person signing this proposal is an authorized signatory on behalf of the Proposer to negotiate and/or sign contracts, agreements, amendments and related documents to which the Proposer will be duly bound. Examples of satisfactory demonstration documents include:

A. A copy of your Articles of Incorporation listing the approved signatories of the corporation.

B. A letter from a corporate officer listing the members of staff that are authorized signatories for the company.

Failure to sign and witness the Proposer's signature form may result in disqualification of the bid. Please be sure the bid is signed, properly witnessed, and sealed.

III.QQ Human Trafficking

Compliant with Florida Statutes, 787.06.

A contract resulting from this solicitation is subject to the terms, conditions, provisions and requirements of Section 787.06 of the Florida Statutes and Contractor hereby represents,

warrants, and certifies that Contractor does not use coercion for labor or services as defined in Section 787.06, Florida Statutes and that Contractor has provided a complete Human Trafficking Affidavit provided in the Attachment Section of this document.

III.RR Bid Bond

The bid response shall be accompanied by a Bid Security of no less than ten (10%) percent of the amount of the Bid Proposal. Failure of the Bidder to supply same, in the amount and type required, shall automatically render the Bidder as non-responsive resulting in the disqualification from further consideration of their bid response.

The Bid Security Bond shall be submitted in the form of a Bid Bond in the amount of ten (10%) percent of the total Bid price, made payable to the City of New Smyrna Beach, issued by a surety firm and through a reputable and responsible surety bond agency licensed to do business in the State of Florida.

The surety must be rated as "A" or better as to strength by Best's Insurance Guide, published by A. M. Best Company, Inc., located at 1 Ambest Road, Oldwick, New Jersey 08858. For the latest ratings and Insurance Guide, access www.ambest.com.

In lieu of a Bid Bond, the Bidder may submit cash (U.S. currency only), money order, certified or cashier's check drawn from a national or state bank whose deposits are insured by the Federal Deposit Insurance Corporation (FDIC), in the amount of ten (10%) percent of the total Bid price. Money orders and checks must be made payable to the City of New Smyrna Beach.

The terms of the ITB Security Bond shall be:

A. The Bidder shall enter into an agreement if awarded to the Bidder;

B. The surety (or alternate form of security forfeit) shall be responsible for the costs resulting from the failure of the Bidder to enter into an Agreement if awarded to the Bidder; including the increased costs associated with awarding to the next most responsive, responsible Bidder and costs associated with conducting the Bid process and letting the agreement;

C. To promptly enter into an agreement to perform the work and furnish the required Performance and Payment Bond, if applicable; and

D. Any interest earned as a result of the City depositing the accepted money order, certified or cashier's check, or cash received as bid security bond into an interest-bearing account, shall be retained by the City.

A copy of the bid bond must be uploaded with the proposal response in the form of a Bid bond, certified funds or an irrevocable letter of credit in a sum equal to the amount of ten (10%) percent of the amount of the bid proposal. The contractor shall guarantee the total proposal price for a period of 90 days from the date of the proposal opening.

If the contractor selects to submit a cashiers' check or cash bond it must be received by the City no later than 5:00 pm on Thursday, January 9, 2025. Please submit in a sealed envelope to the following address:

City of New Smyrna Beach

210 Sam's Avenue

New Smyrna Beach, Florida 32168

Attention: Purchasing Department

Return of Bid Security Bond: As soon as the bid responses have been evaluated, the City may, at its sole discretion, return or release the bid security bonds accompanying such bid responses, which in its sole judgment, would not likely be considered for award. All other Bid Security Bonds will be held until award of this project and the agreement has been executed by the successful Bidder; after which any remaining Bid Security Bonds will be returned to the respective Bidders. It shall be the sole responsibility of the Bidder to request in writing from the City the return of the Bid Security Bond or alternative form of security used. Bid Security Bond or alternative form of security used shall not be returned unless requested by the Bidder in writing.

IV. Project Specific

IV.A Project Description

Barracuda Boulevard is a two-lane bi-directional roadway maintained by the City. The project limits are between Middle Way southward to the N. Causeway (approximately 350 feet in length). The existing median is currently the same elevation as the roadway. The median is becoming a bioswale. The project involves regrading of the roadway for drainage to the bioswale. This enhancement will supplement the recent bridge replacement project.

As such, the improvements include the following activities:

- Milling of pavement restoration
- Removal of central median vegetation and regrading of the median and roadway
- Installation of two (2) drainage structures and approximately 100 linear feet of 15-inch RCP pipes from the median to the existing ditch along the North Causeway
- Resurfacing of the regraded area
- Installation of plants in the median
- Other ancillary work includes installation of environmental curb, driveway installations, signage and striping, sodding of any adjacent disturbed areas, and Maintenance of Traffic (MOT).

IV.B Drawings

Drawings are provided in the Attachment Section of this document and are incorporated by reference to the awarded agreement, which contains technical specifications for the work to be

completed, in addition to drawings and other terms and conditions with which Contractor shall comply.

Drawings: The general character and scope of the work are illustrated by the drawings titled as follows:

07-25-CIP, Barracuda Boulevard Roadway Enhancement

CITY OF NEW SMYRNA BEACH, FLORIDA

Checking of Drawings and Dimensions:

A. The Contractor shall check all drawings and specifications immediately upon their receipt and shall promptly notify the Owner, in writing, of any discrepancies.

B. The Contractor shall compare all drawings and verify the figures before laying out the work and shall be responsible for any errors, which might have been reasonably avoided thereby. When the type of equipment selected affects dimensions on the drawings, the Contractor shall adjust such dimensions as conditions may require to achieve the intent of the bid specifications.

Copies of Drawings and Specifications Furnished: The Owner shall furnish to the Contractor an electronic file of drawings and specifications necessary for the execution of the work. One complete set of all drawings and specifications shall be maintained at the job site and shall be available to the Engineer at all times.

IV.C Changes

Compliance with Specifications and Drawings: All specifications and drawings and terms of the Contract shall be strictly complied with by the Contractor except as specifically provided in these Contract Documents.

Changes in the Work:

A. The Owner, without invalidating the Contract, may order extra work or make changes by altering, adding to, or deducting from the work. If applicable, the Contract total amount will be adjusted accordingly. All such work shall be executed under the conditions of the original Contract except that any claim for extensions of time caused thereby shall be adjusted at the time of ordering such changes.

B. The value of any such extra work or change shall be determined in one or more of the following ways: (a) by contract unit prices or (b) by an agreed lump sum price. In the event that the contract unit prices are not available and a lump sum price is not agreed upon, then the value of the extra work shall be determined by (c) the actual cost of: Labor, including foremen; Materials entering permanently into the work; The rental cost of equipment during the time of use on the extra work; Power and consumable supplies for the operation of power equipment; Insurance; Social Security, Old Age and Unemployment Contributions.

C. As a result of the preceding requirements, a Change Order shall be prepared in a form to be approved by the Owner.
The value of the extra work or change shall be determined at the time that the Change Order is authorized and agreed upon. In the event that the Change Order is of such nature as to fall under a Contract unit price, the Contract unit price shall be the value of such extra work, whether representing a deletion, or an addition, and method (b) or (c) shall be employed only if there is not an applicable Contract unit price. To the cost under (c), there shall be added a fixed fee to be agreed upon, but not to exceed fifteen percent (15%) of the actual cost of the work. The fee shall be compensation to cover the cost of supervision, overhead, bond, profit, and any other general expenses.

D. It is the Contractor's responsibility to notify this Surety of any changes affecting the general scope of the work or change in the Contact Price and the amount of the applicable Bonds shall be adjusted accordingly. The Contractor shall furnish proof of such adjustment to the Owner.

E. No change orders that are a result of the Contractor's failure to reasonably anticipate any difficulties or complexities in the Project shall be the responsibility of Owner to pay.

IV.D Clean-up

The Contractor shall keep the construction site free of rubbish and waste materials and shall restore to it to its original condition or better those portions of the site disrupted by the construction. Clean-up and restoration shall be accomplished on a continuing basis throughout the contract period and in such a manner as to maintain a minimum of nuisance and interference to the Owner, residents, and works at or adjacent to the project site. The Contractor shall also remove, when no longer needed, all temporary structures and equipment used in his operations. It is the intent of this specification that the construction areas and those other areas not designed for alteration by the contract documents shall be restored to their original condition as nearly as possible.

IV.E Existing Underground Utilities

Representation of underground utilities is shown from information received from the various utility owners. The locations or elevations of utilities are not represented to be exact and are shown for the convenience of the Contractor. The Contractor shall contact the utility owner concerned for any available additional information and coordinate his construction activities accordingly. The utilities known to exist are listed in the Supplemental General Conditions, along with a list of their Owners. Any cost incurred for the protection of and/or damages to existing underground utilities shall be considered as part of the applicable Contract price for stage excavation and backfill and no additional compensation shall be paid to the Contractor. If, in the judgment of the Engineer, it is impossible to construct a given improvement in the location shown on the drawings as a result of underground utility or utilities, either the utility owner shall move the existing underground utility, or an appropriate Change Order shall be executed for the moving by the Contractor.

The following is a list of utilities, which may be located within the public rights-of-way of the City of New Smyrna Beach:

- Gas Mains – Florida Public Utilities Company
- Electric and Power Lines and Underground Cable - Utilities Commission, City of New Smyrna Beach
- Telephone Lines and Underground Cable - AT&T
- Water Mains and Sanitary Sewers - Utilities Commission City of New Smyrna Beach, Florida
- Storm Sewers - City of New Smyrna Beach, Florida
- Cable TV and Underground Cable - Spectrum

IV.F Inspection and Testing of Materials and Equipment

If applicable, the Contractor shall pay for all laboratory or environmental tests required at the project site or all laboratory tests required on material already delivered to the site. Copies of test or certifications on pipe, brick or other materials made at the factory shall be furnished in triplicate to the Engineer. The Engineer shall approve test reports on equipment before the equipment covered by the test is delivered to the project site. Test requirements are set out in the detailed specifications for the particular material.

IV.G Minimum Qualifications

Bidders responding to this ITB must demonstrate experience and qualifications in performing work similar in size and complexity to this project. Each Bidder must submit the following required information:

- Previous experience and references: Firms must demonstrate a minimum of five (5) years of experience in performing work similar in size and scope as detailed herein. Provide a brief description of work, including location, dates of contract, names, addresses, email addresses and telephone numbers of owners by completing the Reference Form included herein.
- Evidence of authority to conduct commercial business in the State of Florida: Provide Sunbiz report showing your company registered as “Active”
- Professional Licenses: Provide all licenses that qualify the firm for the type of work as identified herein.
- Bonds: Provide applicable bond documents, when required.
- Financial Capacity: The Bidder may be required to provide financial performance information upon request by the City. The financial information must be received by the City within five Days (5) of Bidder receiving the written request. Submittals requested pursuant to this subsection may be in addition to those required elsewhere.

Note: If you are not a single prime contractor, you will be required to list all subcontractors to be used for this project and their professional licenses.

The City of New Smyrna Beach reserves the right to require the bidder to submit such evidence of his/her qualifications and experience as it may deem necessary and may consider any evidence available to it of the financial, technical and other qualifications and abilities of a bidder.

V. Total Bid Proposal

The City of New Smyrna Beach reserves the right to evaluate the bids received and award the lowest, qualified bidder as determined to be in the best interest of the City and their funding partners.

The uploaded price proposal in Section IX must be the same price submitted below. There shall be no hidden costs associated with this project. Full disclosure of nature and amount of all fees and charges is mandatory.

VI. Terms and Conditions

VI.A Claims and Damages

Requirement for Notice: Any requirements of the Contract Documents for notice of direction to the City shall be a condition precedent to be complied with by the Contractor before any claim for extra compensation can be made. See definition of Notice To Proceed.

Claims for Extra Cost: If the Contractor claims that any instructions in writing or by drawings or otherwise involve extra cost under this Contract, the Contractor shall give the City written notice on a form to be furnished by the City within a reasonable time after the receipt of such

instructions, and in any event before proceeding to execute the work, except in emergency of endangering life or property. A decision by the City shall then be made as specified in "The Authority and Duties of the City - Status of the City" of this division. If this decision requires a Change Order, the procedure shall be as provided for in "Changes in the Work" Section. See definition of Terms and Conditions. No claim shall be valid unless so made.

Claims for Damages: Any claims for damages by the Contractor against the City arising under this Contract shall be made in writing to the party liable within thirty (30) days of the first observance of such damage, except as expressly stipulated otherwise in the case of faulty work or materials and shall be adjusted by agreement validated by a Change Order. Any claim not reported within thirty (30) days shall not be considered valid. See definition in Terms and Conditions.

Liquidated Damages: If the Contractor refuses or fails to prosecute the work, or any separable part thereof, with such diligence as shall insure its completion within the time specified in the bid, or any extension thereof, or fails to complete said work within such time, the Owner may, by written notice to the Contractor, terminate his right to proceed with the work or such part of the work on which there has been delay. In such event, the Owner may take over the work and prosecute the same to completion by Contract or otherwise, and the Contractor and his Sureties shall be liable to the Owner for any excess cost occasioned the Owner thereby. If the Contractor's right to proceed is so terminated, the Owner may take possession of and utilize in completing the work such materials, and appliances as may be on the site of the work, or contained within any storage facility. If the Owner does not terminate the right of the Contractor to proceed, the Contractor shall pay to the Owner the sum specified in the Supplemental General Conditions as fixed, agreed, and liquidated damages for each calendar day of the delay until the work is finally accepted by the Owner, and the Contractor and his Sureties shall be liable to the Owner for any excess cost occasioned the Owner thereby.

The amount of and provision for liquidated damages as specified in this solicitation and as otherwise set forth in the Contract Document, shall be ONE THOUSAND ONE HUNDRED NINETY-SEVEN ($1,197.00) FOR EACH CALENDAR DAY of the delay until the work is completed or accepted. Said amount is agreed upon because the injury that the Owner may sustain by reason of contracting breach would be impossible to ascertain or estimate; such sum is agreed upon as liquidated damages and is intended as compensation for the injury suffered by the Owner, rather than as a penalty.

Additional Owner Expense:

Should the Contractor fail to complete the work during the specified number of calendar days, it is agreed that for each day of overrun until final completion, all expenses of engineering supervision and inspection furnished by the City shall be at the expense of the Contractor and /or Surety. Such engineering expense shall be considered to be equal to the job payroll of the City plus One Hundred Fifty (150%) Percent thereof for overhead, plus on-the-job mileage. Such engineering expense shall be deducted from monies due the Contractor. The amount of such expenses shall be construed to be in addition to other damages for delays that might be assessed by the City.

VI.B Commencement of Work

The bidder agrees to commence work within TEN (10) CALENDAR DAYS after the date of the Notice to Proceed letter and shall complete the work within ONE HUNDRED TWENTY (120) CALENDAR DAYS thereafter.

The City understands that lead times are becoming an issue throughout the construction industry. Consideration for extensions will be made for documented delays on purchase orders and substantiated lead time provided by suppliers.

VI.C Effectiveness and Duration

The draft agreement provided in the "Attachment" Section of this document will be the contracting mechanism for the bid award. The agreement may not be amended, and any exceptions noted by the bidder to this document will not be considered. The draft agreement is provided as an example and shall not be included as part of your submittal.

An executed agreement or contract alone will not authorize the work or purchase of materials or require the City to place any orders for work or materials.

During the term of a contract, the City may require changes which alter the contract specifications provided that such changes are within the general scope of the contract. The parties agree to renegotiate to comply with any applicable current or revised state laws, regulation, or increases/decreases in allocations making any changes in the contract necessary.

Modifications of provisions shall only be valid through execution of a formal contract amendment, and duly signed by both parties. There are no obligations to agree by either party.

VI.D Notice to Proceed

When the contract has been executed on the part of the Owner, it shall be forwarded to the Contractor together with the Notice to Proceed. The Notice to Proceed shall include the time for completion. The Contractor shall begin construction operations at the site within ten (10) days after the date of such notice. The contact time shall begin ten (10) days after the date of the Notice to Proceed.

VI.E Off-Site Liability Coverage

In addition to all other terms, covenants and conditions, the Contractor agrees that in the event the structure is moved off-site, and during said move, the said structure either collapses or otherwise cannot be moved in the normal and customary manner, he shall be responsible for all costs to the City and any liability, tort or otherwise, imposed by law, and shall secure a policy of insurance to cover such an event in an amount of at least one million dollars and shall have the City of New Smyrna Beach as co-insured on said policy of insurance.

VI.F Payments to the Contractor

Monthly Payments to the Contractor: The Contractor shall plan his work for construction on the basis of monthly pay periods. So long as the work is prosecuted in compliance with the provisions of the contract, the Contractor shall, on or about the last day of the pay period, make an approximate estimate, in writing on a form approved by the Engineer, of the proportionate value of the work done, items and locations of the work performed up to and including the last day of the period then ending. The Contractor is responsible for all payments for stored material, and no payment shall be included in the Pay Request for stored materials. The Engineer shall then review said estimate and make the necessary revisions so that the estimate can receive his approval. If the Contractor and the Engineer do not agree on the approximate estimate of the proportionate value of the work done for any pay period, the determination of the Engineer shall be binding. The amount of said estimate, after deducting the retainage and all previous payments, shall be due and payable to the Contractor within thirty (30) days after presentation of the estimate to the Owner. Any Periodical Pay Estimate signed by the Contractor shall be final as to the Contractor for any or all work covered by the Periodical Pay Estimate.

Contractor's Warranty of Title:

A. The Contractor warrants and guarantees that title to all work, materials and equipment covered by an application for payment, whether incorporated in the project or not, shall pass to the Owner at the time of payment, free and clear of all liens, claims, security interests and encumbrances (hereafter referred to as "Liens" in these General Conditions).

B. The Contractor agrees to furnish an affidavit stating that all laborers, materialmen and subcontractors have been paid on the project for work covered by the application for payment and that a partial or complete release of lien, as may be necessary, be properly executed by the material men, laborers and subcontractors on the project for the work covered by the application for payment, sufficient to secure the Owner from any claim whatsoever arising out of the aforesaid work.

Correction of Work Before Final Payment:

A. The Contractor shall promptly remove from the premises all material condemned by the Engineer as failing to conform to the Contract whether incorporated in the work or not, and the Contractor shall promptly replace and re-execute his own work in accord with the Contract and without expense to the Owner and shall bear the expense of making good all work of other Contracts destroyed or damaged by such removal or replacement.

B. If the Contractor does not remove such condemned work and materials within a reasonable time, fixed by written notice, the Owner may remove them and may store the materials at the expense of the Contractor. If the Contractor does not pay the expense of such removal within ten (10) days time thereafter, the Owner may, upon ten (10) days written notice, sell such materials at auction or at private sale and shall account for the net proceed thereof after deducting all the cost and expenses that should have been borne by the Contractor.

Liens: Neither the final payment nor any part of the retained percentage shall become due until the Contractor shall deliver to the Owner a complete release of all liens arising out of this Contract, or receipts in full in lieu thereof. In addition, thereto, in either case, the Contractor shall provide an affidavit that so far as the Contractor has knowledge or information, all includes receipts or releases for all the labor and material for which a lien could be filed. The Contractor may, should any subcontractor refuse to furnish a release or receipt in full, furnish a bond satisfactory to the Owner to indemnify that payments are made. The Contractor shall refund to the Owner all money payments that the latter may be compelled to pay in discharging such a lien, including all interest, costs, and reasonable attorney's fees.

Final Inspections: When the Contractor has completed the work in compliance with the terms of Contract Documents, the Contractor shall notify the Engineer in writing that the project is ready for final inspection.

The City shall then advise the Contractor as to the arrangements for final inspection and what work, if any, is required to prepare the project or a portion thereof for final inspection. When the Engineer determines the project or portion thereof is ready for final inspection, the Engineer shall perform the same. Upon completion of the final inspection, the City shall prepare a list of errors of either commission or omission by the Contractor, reasonably observable, and determined under the conditions governing and restricting said final inspection. When all such errors have been corrected, a final re-inspection shall be made. The process shall be repeated until, in the opinion of the City, the project has been completed in compliance with the terms of the Contract Documents as can best and reasonable be observed and determined under the conditions governing and restricting said final inspection. The Engineer shall, pursuant to such inspection and re-inspection, certify to the City as to the completion of the final inspection. It is understood that the certification covers only those items which can be physically inspected, and the Engineer's certification indicates compliance within the standards of the construction industry, as interpreted by the Engineer.

Final Acceptance: When the City shall certify the completion of the final inspection, the Contractor may make request for final payment. With the request for final payment, the Contractor shall furnish evidence satisfactory to the Owner's legal advisors that the Contractor has fully paid all debts for labor, materials and equipment incurred in connection with the work. The Contractor must provide all evidence required by the Contract to assure the Owner of complete compliance with all terms of the Contract. When the Owner has acknowledged the compliance with the terms of the Contract, and has received certification of final inspection, the Owner shall notify the Contractor of final acceptance by the Owner. The date of final acceptance shall be assumed as the date of final completion of the project, unless the Owner, with the Contractor, has made previous agreement.

Final Payment: When the Owner has made final acceptance, the City shall then review the amount of final request for payment and certify the amount of this approval. Upon approval by the Engineer, the Owner shall make final payment of the contract amount, plus all approved additions, less approved deductions and previous payments made.

Termination of Contractor's Responsibility: The Owner shall consider the Contract complete when all work has been finished, the final Inspection certified by the City, and the project finally

accepted in writing. The Contractor's responsibility shall then terminate except as otherwise required and set out in the Contract Documents.

VI.G Performance Bond, Material Bond, and Warranty of Title

A. Within fourteen (14) days upon acceptance of the bid by City Commission, the successful bidder shall deliver to the Owner a Performance Bond and a Labor and Material Payment Bond, each in an amount equal to 100 percent of the Contract Price.

The Bonds shall be secured from a surety company acceptable to the City. The forms of the Bonds the successful Bidder will be required to execute are included in the Bidding Documents. The Bonds shall name the City as obligee and shall be in such form and by sureties of financial standing having a rating from A.M. Best Company (or other equivalent rating company) equal to or better than A- Class VI and must be included on the approved list of sureties issued by the United States Department of Treasury. Each Bond shall be accompanied by an effectively dated Power of Attorney. The successful Bidder shall, before commencing the work, record said Payment and Performance Bond in the public records of Volusia County where the improvement is located in accordance with Chapter 255.05 of the Florida Statutes.

B. If the Contractor is a partnership, the bond shall be signed by each of the individuals who are partners. If the Contractor is a corporation, the bond shall be signed in the correct corporate name by a duly authorized officer, agent, or attorney-in-fact. There shall be executed an appropriate number of counterparts of the bond corresponding to the number of counterparts in the Contract. Each executed bond shall be accompanied by the (a) appropriate acknowledgement of the respective parties; (b) appropriate duly certified copy of the Power-of-Attorney or other certification of authority where the bond is executed by the agent, officer or other representative of the Contractor or Surety; (c) duly certified extract from By-Laws or resolutions of Surety under which the Power-of-Attorney, or other certificate of authority of its agent, officer or representative was issued.

C. Upon completion of the project, the Contractor shall provide the Owner with the Warranty of Title.

VI.H Preconstruction Conference

Prior to starting the work, a preconstruction conference shall be held to review the work schedules, to establish procedures for processing periodical pay estimates, and such other matters as may be pertinent to the project.

VI.I Progress and Control of the Work

Schedules and Progress Reports: The Contractor must submit a proposed schedule of the work at the preconstruction conference. The purpose of this schedule is to enable the Owner to govern the work, to protect the functions of the local government and its citizens, and to aid in providing appropriate surveillance. The Owner shall have the right to reschedule work provided such rescheduling is in accordance with the remainder of the terms of this Contract. The

schedule shall show, as a minimum, the approximate dates on which each segment of the work is expected to be started and finished, the anticipated earnings by the Contractor for each month, and the approximate number of crews and equipment to be used. The Engineer shall review and approve the schedule. If rescheduling is needed, then a new updated schedule should be provided to the Engineer for approval. The Contractor shall also forward to the Owner, as soon as practicable after the first day of each month, a summary report of the progress of the various parts of the work under the Contract, stating the existing status, estimated time of completion, and cause of delay, if any. Together with the summary report, the Contractor shall submit any necessary revisions to the original schedule for the Engineer's review and approval. The Engineer, for purpose of evaluation, may require additional more detailed schedules.

Approval of Subcontracts:

A. The Contractor shall, as soon as practicable after the signing of the Contract, notify the Owner in writing of the names of subcontractors, including material suppliers proposed for the work, and shall not employ any that have not been approved by the Owner.

B. The Contractor agrees to be fully responsible to the Owner for the acts and omissions of subcontractors and for payment of services rendered by the subcontractor.

C. Nothing contained in the contract Documents shall create any contractual relationship between any subcontractor and the Owner.
The Contractor shall furnish the Owner copies of any and all contracts entered into with subcontractors for performance of any work identified in the Contract Documents.

Prosecution of Work:

A. The work shall be prosecuted at such time and in or on such part or parts of the project with such forces of workers, materials, and equipment as may be ordered by the Engineer, in writing, to complete the project as contemplated in the drawings, specifications, Contract, and schedules. If, at any time, the materials and equipment to be used appear to the Engineer as insufficient or improper for securing the quality of work required, or the required rate of progress, he may order the Contractor to increase his efficiency or to improve the character of his work, and the Contractor shall conform to such an order. The failure of the Engineer to demand any increase of such efficiency or any improvement shall not release the Contractor from his obligation to secure the quality of work or the rate of progress necessary to complete the work within the limits imposed by the Contract.

B. Contractor shall perform the work and take such precautions as he may deem necessary to complete the project so all work shall be in first-class and acceptable condition within the Contract time according to the schedule.

Workmanship, Material, and Workmen:

A. Unless otherwise stated in the detailed specifications, all workmanship, materials, and articles incorporated in the work covered by this Contract shall be of the most suitable grade of their respective kinds for the purpose and acceptable to the Engineer. The Engineer shall decide the question of quality where the expression "or approved equal" is

used in the specifications following reference to a specific manufacturer of equipment or materials. If the contractor wishes to make a substitution request for an alternate material or installation procedure, he will need to present to the Engineer for approval prior to proceeding with said alternate. Samples of materials shall be submitted for approval when so directed. Machinery, materials, articles installed or used, or unusual methods of work used without such approval shall be at the risk of subsequent rejection.

B. The Engineer or the Owner may require the Contractor to remove from the work such employees as the Engineer or the Owner deems incompetent, careless, insubordinate, or otherwise objectionable, or whose continued employment on the work is deemed to be contrary to the Owner's interest.

Delays and Extension of Time:

A. If the Contractor is delayed at any time in the progress of the work by any act or neglect of the Owner or his employees, or by any other Contractor employed by the Owner, or by changes ordered in the work, or by strikes, fire, lockouts, unusual delay in transportation, unavoidable causalities or by delay authorized by the Owner pending arbitration, or by any cause which the Owner shall decide to justify the delay, then the time of completion may be reasonably extended by the Owner.

B. No extension shall be made for delay unless notice of a claim is made by the Contractor in writing to the Owner within seven (7) days of the event or incident causing the delay and as otherwise provided by the definition of "notice", referenced in "Definitions and Terms".

C. The article does not exclude the recovery of damages for delay by owner under the liquidated damages clause.

NO CLAIM FOR DAMAGES OR ANY CLAIM OTHER THAN FOR AN EXTENSION OF TIME SHALL BE MADE OR ASSERTED AGAINST THE CITY BY REASON OF ANY DELAYS. The CONTRACTOR shall not be entitled to an increase in the Contract Sum or payment or compensation of any kind from the City for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference or hindrance from any cause whatsoever; provided, however, that this provision shall not preclude recovery or damages by the CONTRACTOR for hindrances or delays due solely to fraud, bad faith or active interference on the part of the City or its agents. Otherwise, the CONTRACTOR shall be entitled only to extensions of the Contract Time as the sole an exclusive remedy for such resulting delay, in accordance with and to the extent specifically provided above.

VI.J Rights and Responsibilities of the Owner During Construction

Surveys and Lands for Work:

A. The Owner shall provide the lands upon which the work under this Contract is to be done; additional land will not be provided for storing materials.

B. Except that the Contractor shall provide all necessary additional land required for the erection of temporary construction facilities and storage of his material, together with right-of-access to the same. The Owner shall furnish all land surveys for this project.

C. The Contractor shall provide the Owner the information as to where material(s) are stored, the right of access to the material(s), and if applicable, keys to access locked areas.

Use of Completed Portions: The Owner shall have the right to take possession of and use any completed portions of the work, although the time for completing the entire work or such portions may not have expired, but such taking possession and use shall not be deemed an acceptance of any work not completed in accordance with the Contact Documents.

The Owner's Right to Do Work: If the Contractor should neglect to prosecute the work properly or fail to perform any provision of this Contract, the Owner, after seven (7) days written notice to the Contractor, may, without prejudice to any other remedy available to the Contractor, make good such deficiencies and may deduct the cost thereof from the payment then or thereafter due the Contractor.

Right to Retain Imperfect Work: If any part or portion of the work done or material furnished under this Contract shall prove defective and not in accord with the plans and specification, and if the Owner decides that any part or portion of the imperfect work is not of sufficient magnitude or importance as to make the work dangerous or undesirable, or if the Engineer decides that removing the work is warranted for whatever reason, then the owner has the right to reject and hold the contractor accountable for its removal and corrective action.

Suspension of Work:

A. If the work is defective, or the Contractor fails to supply sufficient skilled workmen or suitable materials or equipment, or if the Contractor fails to make prompt payments to subcontractors or for labor, material, or equipment, or if the Contractor fails to comply with work schedules, the Owner or Engineer may order the Contractor to stop all work, or any portion thereof, and terminate payments to the Contractor until the cause for such order has been eliminated. No extension of contract time shall be allowed for this suspension.

B. The Owner or Engineer may, at any time and without cause, suspend the work or any portion thereof for a period of not more than ninety (90) days by notice in writing to the Contractor, which notice shall fix the date on which the work shall be resumed. The Contractor shall resume the work on the date so fixed. The Contractor shall be allowed an increase in contract price or an extension of the contract time directly attributable to any suspension if he makes a claim therefore as provided in the section of this Contract titled: Progress and Control of the Work, Delays and Extension of Time.

Termination of the Contract:

A. If the Contractor is adjudged as bankrupt or insolvent, or if makes a general assignment for the benefit of his creditors, or if a trustee or receiver is appointed for the Contractor or for any of his property, or files a petition to take advantage of any debtor's act, or to

reorganize under the bankruptcy or similar laws, or if repeatedly fails to supply sufficient skilled workmen or suitable materials or equipment, or repeatedly fails to make prompt payments to subcontractors for labor, materials, or equipment, or disregards laws, ordinances, rules, regulations, or orders of any public body having jurisdiction, or disregards the authority of the Engineer, or otherwise violates any provision of the Contract Documents, then the Owner may, without prejudice to any other right or remedy and after giving the Contractor and the Contractor's surety seven (7) days written notice, terminate the services of the Contractor and take possession of the project and of all materials, equipment, tools, construction equipment, and machinery thereon owned by the Contractor, and finish the work by whatever method the Owner may deem expedient. In cases where the actual cost of the work to be done by the Owner exceeds the amount in the Performance Bond, then the Contractor shall pay such to the owner.

B. Where the Contractor's services have been so terminated by the Owner, said termination shall not affect any rights of the Owner against the Contractor then existing or which may thereafter accrue. Any retention or payment of monies by the Owner due the Contractor shall not release the Contractor from liability.

C. Upon seven (7) days written notice to the Contractor, the Owner may, without cause and without prejudice to any other right or remedy, elect to abandon the project and terminate the agreement. In such case, the Contractor shall be paid for all work executed and any expense sustained plus a reasonable profit not to exceed five (5%) percent over the cost incurred.

VI.K Royalties and Patents

The Contractor shall pay all royalties and license fees for equipment or processes in conjunction with the equipment that the Contractor is furnishing. The Contractor shall defend all suits or claims for infringement of any patented right and shall save the City harmless from loss on account thereof and cost and attorney's fees incurred, therefore.

VI.L Safety and Health Regulations

A. The Contractor shall comply with the Department of Labor Safety and Health Regulations for construction promulgated under the Occupational Safety and Health Act of 1970 (PL-91-596) and under Section 107 of the Contract Work Hours and Safety Standards Act (PL-91-54).

B. The Contractor shall allow representatives of the Department of Labor full access to the project for inspection.

VI.M Sanitary Regulations

Adequate sanitary conveniences for the use of persons employed on the work site shall be provided at Contractor's expense and shall be properly secluded from public observations. The

Contractor shall construct and maintain the sanitary facilities in such a manner and at such points as approved by the Owner. These conveniences shall be maintained at all times without nuisance and their use shall be strictly enforced. Upon completion of the work, they shall be removed from the premises, leaving all clean and free from nuisance.

VI.N Save Harmless Clause

The Contractor covenants and agrees to indemnify and save harmless the City, its employees, officials, and agents, and defend them from all costs, expenses, damages, attorney's fees, injury or loss, to which the City may be subject by any person, firm, corporation or organization by reason of any wrongdoing, misconduct, want or need of care or skill, negligence or default or breach of Contract, guaranty or warranty, by the Contractor, his employees, his agents or assigns.

VI.O Termination

Termination for Convenience: The City reserves the right to terminate the Agreement in whole or part at any time without penalty or cause, which termination date shall not be less than thirty (30) days after the date of such written notice. Upon receipt of the written notice, the Contractor shall immediately stop all work as directed in the notice, notify all subcontractors of the effective date of the termination and minimize all further costs to the City. In the event of termination under this provision, all goods, materials, documents, data and reports prepared by the Contractor under the Agreement shall become the property of and delivered to the City. The Contractor shall be entitled to receive just and equitable compensation for work in progress, work completed, and materials accepted before the effective date of termination. Such compensation shall be the Contractor's sole remedy against the City in the event of termination under this provision.

Termination for Cause or Default: The City reserves the right to terminate the Agreement in whole or in part due to the failure of the Contractor to comply with any term or condition of the Agreement, including failure to acquire and maintain all required insurance policies, bonds, licenses and permits, or to make satisfactory progress in performing the Agreement. The City shall provide written notice of the termination and the reasons for it to the Contractor. Upon termination under this provision, all goods, materials, documents, data and reports prepared by the Contractor under the Agreement shall become the property of and be delivered to the City on demand. The City may, upon termination of the Agreement, procure, on terms and in the manner that it deems appropriate, materials, or services to replace those under the Agreement. The Contractor shall be liable to the City for any excess costs incurred by the City in re-procuring the materials or services.

Contractor's Right to Terminate: If the work should be stopped for a period of three (3) months, under any order of any court or public authority, other than by the Owner, through no act of fault of the Contractor or of anyone employed by the Contractor, then the Contractor may, upon thirty (30) days written notice to the Owner, terminate the Contract and recover from the Owner payment for all work executed and any expense sustained plus a reasonable profit thereon.

Force Majeure: No Party shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement, except for any obligations to make payments to the other party hereunder, when and to the extent such failure or delay is caused by or results from acts beyond the impacted party's control, including but not limited to, the following force majeure events:

a) Acts of God

b) A natural disaster (fires, explosions, earthquakes, hurricanes, flooding, storms, infestations, epidemic or pandemic)

c) War, invasion, hostilities (regardless if war is declared or not), terrorist threats or acts, riots or other civil unrest

d) Government order or law

e) Actions, embargoes or blockades in effect on or after the date of this Agreement

f) Action by any governmental authority

g) National or regional emergency

h) Strikes, labor stoppages or slowdowns or other industrial disturbance, and

i) Shortage of adequate power or transportation facilities

The Impacted Party shall give notice within two (2) days of the Force Majeure Event to the other party, stating the period of time the occurrence is expected to continue. The impacted party shall use diligent efforts to end the failure or delay and ensure the effects of such Force Majeure Event are minimized. The Impacted Party shall resume the performance of its obligations as soon as reasonably practicable after the removal of the cause. In the event that the Impacted Party's failure or delay remains uncured for a period of sixty (60) days following Notice given by it, then either party may thereafter terminate this Agreement upon Notice

Notwithstanding the foregoing, any pandemic or epidemic, including but not limited to those related to COVID-19 and its mutations, and related issued executive orders and/or administrative orders by any federal, state, or local government entity related to any pandemic or epidemic, shall NOT be considered a force majeure and is expressly excluded from that definition herein and said even shall not prevent CONTRACTOR from timely performing its functions under this Agreement.

VI.P Warranty and Guarantee Provisions

All materials and equipment furnished by the Contractor and all construction work and workmanship involved in the Contract is hereby guaranteed and warranted by the Contractor for a period of one (1) year from written final acceptance by the Owner as defined here in to be free from defects due either to faulty materials, equipment and/or faulty workmanship, and all materials, equipment and /or workmanship furnished, installed and performed by the Contractor is warranted and guaranteed by the Contractor to the Owner to be such as to meet the required standards and to accomplish the purposes and functions of the project as defined, detailed and

specified in these Contract Documents. The Owner shall, following discovery thereof, promptly give written notice to the Contractor of faulty materials, equipment, and/or workmanship within the period of the guarantee. Any part of the warranty and guarantee shall be promptly replaced by the Contractor at his own cost and without cost to the Owner. These warranty and guarantee provisions create no limitations on the Owner as to any claims or actions for breach of guarantee or breach of warranty that the Owner might have against parties other than the Contractor, and do not constitute exclusive remedies of the Owner against the Contractor and are not intended to, and shall not limit any other rights, remedies or causes of action which the Owner might exercise against the Contractor, and shall not alter nor modify the application of the Statute of Limitations as established by the Statutes of the State of Florida. This Contract is governed by the Laws of the State of Florida.

VI.Q Work by Others

The Owner reserves the right to allow the continuation and/or creation of other contracts it deems necessary at the site of the work subject to this Contract, provided such do not unreasonably burden or impair the work anticipated in the Contract. The Contractor shall afford other Contractors reasonable opportunity for the introduction and storage of their materials and execution of their work and shall promptly connect and coordinate this work with theirs.

VII.B Cancellation

Thirty (30) days written notice of cancellation is required to:

Certificate Holder:

City of New Smyrna Beach

210 Sams Avenue

New Smyrna Beach, FL 32168

ATTN: Purchasing Coordinator

VII.C Worker's Compensation Insurance

The Contractor shall procure and shall maintain during the life of this Contract, Worker's Compensation Insurance for all employees to be engaged in work on the project under this Contract, and in case any such work is sublet, the Contractor shall require the subcontractor similarly to provide Worker's Compensation Insurance for all of the latter's employees to be engaged in such work unless such employees are covered by the protection afforded by the contractor's Worker's Compensation Insurance. In case any class of employees engaged in hazardous work on the project under this Contract is not protected under the Workmen's Compensation statue, the Contractor shall provide and shall cause each subcontractor to provide employer's general liability insurance for the protection of the subcontractor's employees not otherwise protected under such provisions.

VII.D Contractor's Public Liability and Property Damage Insurance

The Contractor shall procure and shall maintain during the life of this Contract, Contractor's Public Liability and Property Damage Insurance naming the Owner as an additional insured in the amounts not less than those specified in the Supplemental General Conditions. A certificate of such insurance is to be filed with the Owner before any work begins.

VII.E Subcontractor's Public Liability and Property Damage Insurance

The Contractor shall require each of his subcontractors to procure and to maintain during the life of the subcontract, Subcontractor's Public Liability and Property Damage Insurance of the type and in the amount specified for the Contractor naming the contractor and Owner as the

Additional Insured. A certificate of such insurance is to be filed with the Owner before any work begins.

VII.F Scope of Insurance and Special Hazards

The insurance required in this solicitation shall provide adequate protection for the Contactor and Subcontractors, respectively, against damage claims which may arise from operations under this Contract, whether such operations be by the insured or by anyone directly or indirectly employed the Contractor, and also against and of the special hazards which may be encountered in the performance of this Contract.

VII.G Proof of Carriage of Insurance

The Contractor shall furnish the Owner with satisfactory proof of carriage of the insurance as required above.

VII.H Subcontractor Insurance Requirements

The Contractor shall either (a) require each Subcontractor to procure and maintain during the life of the Subcontractor, the Subcontractor's Public Liability and Property Damage of the type and in the same amounts as in the preceding paragraphs; or (b) insure the activities of the Subcontractors in his own policy.

VII.I Off-Site Liability Coverage

In addition to all other terms, covenants and conditions, the Contractor agrees that in the event the structure is moved off-site, and during said move, the said structure either collapses or otherwise cannot be moved in the normal and customary manner, he shall be responsible for all costs to the City and any liability, tort or otherwise, imposed by law, and shall secure a policy of insurance to cover such an event in an amount of at least one million dollars and shall have the City of New Smyrna Beach as co-insured on said policy of insurance.

VIII. Contractor Specific

VIII.A Authority and Duties of the Engineer

Status of the Engineer: The work shall be subject at all times to the review of the Engineer or designee. The Engineer shall decide any and all questions which may arise as to the quality and acceptability of materials furnished, work performed, rate of progress of work, areas of work, maintenance of schedules, interpretation of drawings and specifications, and all questions as to the acceptable fulfillment of the Contract on the part of the Contractor. In case of differences between the drawings and specifications, the Engineer shall make a determination as to whether the specifications or drawings represent the intent of the Contract, and such determinations

shall be communicated to the Contractor in writing. All claims of the Contractor shall be made in writing within a reasonable time. All decisions of the Engineer shall be final except in cases where time and/or financial considerations are involved. See definition of “Notice”, referenced in "Definitions and Terms".

Inspection and Examination of the Work:

A. The Engineer and authorized assistants shall have free access to the work of the Contractor at any time for purposes of inspection.

B. Duly authorized inspectors, who shall perform their duties periodically on the project, may be assigned to the project or any part thereof at any time. The number of inspectors shall be at the discretion of the Owner. The presence or absence of an inspector shall in no way lessen the responsibility of the Contractor to perform properly the Contractor’s duties to the Owner under these Contract Documents. An inspector is not authorized to revoke, alter, enlarge, relax, release or amend any of the specifications or requirements thereof, nor to issue any instructions on, nor to approve or accept any portion of the work, or materials, or equipment which are contrary to the drawings and specifications; nor are any of his actions to be construed as doing so.

C. All materials shall be subject to inspection; examination and test by the Engineer at any time during manufacture, and at all places where such manufacture is being carried on. The right is reserved to reject defective materials during manufacture or before they have been incorporated into work. If the contractor fails to replace defective work or rejected materials, the Owner may replace such materials or correct such defective work and charge the cost thereof to the Contractor or may terminate the right of the Contractor to proceed as addressed in Terms and Conditions.

D. Since no inspection, either final or interim, can be complete within itself, no final inspection, acceptance of work, materials or equipment of final or interim acceptance of same by the Owner, or certificate of Engineer, shall relieve the obligation of the Contractor to the Owner to do the work in a good workmanlike manner, and to furnish proper, specified equipment and materials, and to perform properly all and any obligations and duties to the Owner under the terms of the Contract Documents.

VIII.B Contractors and Subcontractors

A. Contractors and all subcontractors shall maintain financial records and reports relating to funds paid to any parties for work on the matters which are the subject of this project and submit reports to the Division of Economic Development, State of Florida, or the Owner.

B. Contractors and all subcontractors shall maintain books, records, documents and other evidence according to generally accepted accounting principles, procedures and practices which sufficiently and properly reflects all costs of any nature expended in the

performance of the contract, and retain said copies for a period of three (3) years after termination of the contract.

C. All subcontracts shall include the aforementioned audit and record keeping requirements.

VIII.C Contractor's Representative

The Contractor shall keep a competent superintendent and any necessary assistants, all satisfactory to the Owner at all times during the execution of the work. The superintendent shall not be changed without the consent of the Owner unless the superintendent proves to be unsatisfactory to the Contractor and ceases to be employed. The superintendent shall represent the Contractor in Contractor's absence, and all directions given to the superintendent shall be as binding as if given to the Contractor. The Contractor shall give sufficient supervision to the work, using his best skill and attention.

VIII.D Contractor's Right to Terminate

If the work should be stopped for a period of three (3) months, under any order of any court or public authority, other than by the Owner, through no act of fault of the Contractor or of anyone employed by Contractor, then the Contractor may, upon thirty (30) days written notice to the Owner, terminate his Contract and recover from the Owner payment for all work executed and any expense sustained plus a reasonable profit thereon.

VIII.E Contractor's Understanding

A. It is understood and agreed that the Contractor is familiar with the nature and location of the work, the confirmation of the ground, the character, quality and quantity of the materials to be encountered, the character of equipment and facilities needed preliminary to and during the persecution of the work, the general and local conditions, and all other matters which can in any way affect the work under this Contract. No verbal agreement or conversation with any officer, agent or employee of the Owner, either before or after the execution of this Contract, shall affect or modify any of the terms or obligations herein contained.

B. If the Contractor, in the course of the work, finds any discrepancy between the drawings and the physical conditions of the locality, or any error or omissions in the drawings or in the layout as given by points and instructions, or discovers unforeseen underground or above-ground conditions or any other unexpected conditions requiring additional work by the Contractor, it shall be Contractor's duty to immediately inform the Engineer, in writing, and the Engineer shall promptly check the accuracy of the information. Any work done after such discovery, until any necessary changes are authorized, shall be done at the Contractor's risk. See definitions in Terms and Conditions.

C. If any part of the Contractor's work depends for proper execution or results upon the work of another Contractor, the Contractor shall inspect and measure work already in place and shall at once report to the Engineer any discrepancy between the executed work and the drawings. The

Contractor is at all times fully responsible for the work of the subcontractor as if it were the Contractor's own work.

VIII.F E-Verify (Verification of Employment Status)

The E-Verify System means an internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees.

Pursuant to Florida Statute 448.095, any new contract or renewal with a public agency requires the vendor and any subcontractor thereof to register with and use the E-Verify system to verify the work authorization status of all new employees working in the state of Florida or the United States. If the contractor or vender enters into a contract with a subcontractor, the subcontractor must provide an affidavit to the contractor or vendor that states that the subcontractor does not employ any unauthorized alien in Florida or the United States. The contractor shall provide and maintain proof of compliance with this statute upon request.

Information on registration for and use of the E-Verify System can be obtained via the internet at the Department of Homeland Security Web site: http://www.dhs.gov/E-Verify.

Every Vendor shall, upon request, provide evidence of compliance with this provision to the Owner. Failure to comply with this provision is a material breach of an Agreement, and the Owner may choose to terminate the Agreement at its sole discretion. The Vendor may be liable for all costs associated with the Owner securing the same services, inclusive, but not limited to, higher costs for the same services and rebidding costs (if necessary).

VIII.G Permits, Licenses, Taxes and Regulations

A. All permits and licenses necessary for the prosecution of the work shall be secured and paid for by the Contractor.

B. The Contractor shall give all notices and comply with all laws, ordinances, rules and regulations bearing on the conduct of the work as drawn and specified. If the Contractor observes that the drawings and specifications are at variance therewith, he shall promptly notify the Engineer in writing, and any necessary changes shall be adjusted as provided in the Contract under Paragraph VIIJ, Changes in the Work. If the Contractor performs any work contrary to such laws, ordinances, rules and regulations, and does not comply with the aforesaid procedure, he shall bear all cost incident to such violation.

VIII.H Protection of Work, Persons and Property

A. The Contractor shall continuously maintain adequate protection of all his work from damage and shall protect all property from injury or loss arising in connection with the Contract. He shall make good any such damage, injury or loss, except such as may be directly due to errors in Contract Documents or caused by agents or employees of the

Owner. He shall adequately protect adjacent property as provided by law and the Contract Documents. He shall provide and maintain all passageways, guard fences, lights and other facilities for protection required by public authority or local conditions. He shall provide reasonable maintenance of traffic ways for public and preservation of the continuation of the Owner's business, taking into full consideration all local conditions. He shall comply with the Florida Dept. of Commerce Safety Regulations and any local safety regulations.

B. In case of failure on the part of the Contractor to promptly restore damaged property, or make good such damage or injury, the Owner may, after 48 hours' notice to the Contractor, proceed to repair, rebuild or otherwise restore such property as may be deemed necessary and the cost thereof shall be deducted from any monies due or which may become due the Contractor under this Contract.

VIII.I Quality of Material, Equipment or Work

When any material or equipment not conforming to the requirements of the specifications and drawings has been delivered to the project, or incorporated in the work of the project, or whenever any work performed is of inferior quality, then such material or equipment or work, whether known or unknown to the Owner, shall be considered to be defective, and shall be removed and replaced, or made satisfactory to the Owner at no cost to the Owner.

VIII.J Removal of Equipment

In the case of annulment of this Contract before completion, from any cause, except that stated in Contractor's Right to Terminate, the Contractor, if notified to do so by the Owner, shall promptly remove any part of all of his equipment and supplies at the expense of the Contractor.

VIII.K Responsibility for the Work

Prior to the completion of the work by the Contractor and the acceptance thereof by the Owner and/or final recommendation of the Engineer, the work shall remain at the risk of the Contractor and said Contractor shall be required to repair, replace, renew and make good at his own expense all damages cause by force or violence of the elements or any cause whatsoever provided, however, that in such cases the Contractor shall be entitled to a reasonable extension of time within which to complete said work. If the cause of the delay shall be due to the negligence, fault, or omission of the Contractor, the Contractor shall not be entitled to the extension of time mentioned in the said paragraph.

VIII.L Scope of the Contractor's Service

A. Unless otherwise stipulated, the Contractor shall provide and pay for all bonds, insurance, materials, labor, tools, equipment, light, power, water, transportation and other facilities necessary for the execution and completion of the work.

B. The Contractor shall furnish free of charge all labor, stakes, surveys, batter boards for structures, grade lines and other materials and supplies and shall set construction stakes and batter boards for establishing lines, position of structure, slopes and other controlling points necessary for the proper prosecution of the construction work. The Engineer shall check the stakes, as set, before construction is commenced. These stakes and marks shall constitute the field control by and in accord with which the Contractor shall govern and execute the work. The Contractor shall be held responsible for the preservation of all stakes, marks, and, if for any reason, any of the stakes, marks or batter boards becomes destroyed or disturbed, they shall be immediately and accurately replaced by the Contractor.

IX. Required Responses

IX.A Public Records Act*

Applicant must respond confirming they have received a copy of the Public Records Act, located in the attachment section.

☐ Yes
☐ No
*Response required

IX.B Company Name and Address*

By submitting this response, you hereby designate the company name and address listed here as the office to which notices may be delivered or mailed.

*Response required

IX.C Employer Identification Number*

Provide the Employer Identification Number

*Response required

IX.D Professional License *

Upload as one (1) PDF the appropriate required licenses related to the type of work as identified herein.

If the respondent to this solicitation is not a single prime contractor a list all subcontractors to be used for this project and their professional licenses must also be included.

*Response required

IX.E Solicitation Document Review*

The bidder hereby represents that he has carefully examined the drawings and the Contract, including all Contract Documents, and shall execute the Contract and perform all its items,

covenants and conditions, all in strict compliance with the requirements of the specifications and drawings. The bidder, by and through the submission of his bid, agrees that he has examined and that he shall be held responsible for having heretofore examined the site, the location and route of all proposed work and for having satisfied himself as to the character of the route, the location, surface and underground obstruction, the nature of the ground water conditions, and all other physical characteristics of the work, in order that he may include the prices which he bid, all costs pertaining to the work and hereby provide for the satisfactory completion thereof, including the removal, relocation or replacement of any objects or obstructs which shall be encountered in doing the proposed work.

☐ Please confirm
*Response required

IX.F Bid Bond*

Each bid shall be accompanied by a Bid Security of no less than 10% (percent) of the amount of the Bid Proposal.

The Bid Security shall consist of a Certified Check, a Cashier's Check or a Bid Bond payable to the City of New Smyrna Beach ("Owner.)

A copy of the bid bond must be uploaded with the proposal response in the form of a Bid bond, certified funds or an irrevocable letter of credit in a sum equal to the amount of 10% (percent) of the amount of the bid proposal. The proposer shall guarantee the total proposal price for a period of 90 days from the date of the proposal opening.

If requested by the City, the lowest responsible/responsive bidder agrees to produce the hard copy of the original Bid Bond prior to the Notice of Recommendation or Commission Meeting. Failure to do so may result in the bid being deemed non-responsive.

Alternately a cash bond or cashiers' check will be acceptable. All checks shall be made payable to the City of New Smyrna Beach on a bank or trust company located in the State of Florida and insured by the Federal Deposit Insurance Corporation, as a guarantee that the proposer, if its proposal is accepted, will promptly execute the Agreement.

If the vendor selects to submit a cashiers' check or cash bond it must be received by the City no later than 5:00 pm on Thursday, April 17, 2025. Please submit in a sealed envelope to the following address:

City of New Smyrna Beach

210 Sam's Avenue

New Smyrna Beach, Florida 32168

Attention Finance Department

*Response required

IX.G Contract Execution, Payment Bond, and Performance Bond*

The contract shall be executed by the successful bidder and shall be returned, together with the Payment Bond, Performance Bond and Certificate(s) of Insurance to City of New Smyrna Beach so that it is received within 14 working daysafter the bidder has received the contract for execution. Failure to do so shall be just cause for forfeiture of the proposal guaranty.

IX.H Potential Conflict of Interest

Upload any documentation/information which may be a potential conflict of interest due to other clients, contracts, or property interest for this project here.

IX.I Drug-Free Workplace Certification*

A. The below Firm certifies that it will or will continue to provide a drug-free workplace by:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violation of such prohibition.

2. Establishing an on-going drug-free awareness program to inform employees about:

a. The dangers of drug abuse in the workplace.

b. The employer's policy of maintaining a drug-free workplace.

c. Any available drug counseling, rehabilitation, and employee assistance programs, and

d. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

3. Making it a requirement that each employee to be engaged in the performance of this contract be given a copy of the statement required by paragraph (a);

4. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under this contract, the employee will:

a. Abide by the terms of the statement; and

b. Notify the Employer in writing of any arrest for a violation of a criminal drug statute or driving under the influence no later than five calendar days after such arrest;

5. Notifying the City of New Smyrna Beach, in writing, within 10 calendar days after receiving notice under subparagraph (4)(b) from an employee or otherwise receiving actual notice of such arrest Consultants of arrested employees must provide notice, including position and title to: City Clerk/Administrator, City of New Smyrna Beach, 210 Sams Avenue, New Smyrna Beach, FL 32168.

6. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is arrested.

a. Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended, or

b. Requiring such employee to participate satisfactorily in drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State or local health, law enforcement, or other appropriate agency.

7. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (1), (2), (3), (4), (5) and (6).

As a duly authorized representative of the Vendor, I hereby certify that the Firm will comply with the above certifications.

PUBLIC RECORDS

All material submitted regarding this solicitation becomes the property of the City. Solicitation documents may be reviewed by any person ten (10) days after the public opening. The Respondent should take special note of this as it relates to any proprietary information that might be included in its offer. Any resulting contract may be reviewed by any person after the contract has been executed by the City.

The City has the right to use any or all information/material submitted in response to this solicitation and/or any resulting contract from same. Disqualification of a Professional Consultant does not eliminate this right. This section is further subject to F.S. 119.01 et. seq.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CITY'S CUSTODIAN OF PUBLIC RECORDS, CITY CLERK, AT 386/410-2630, CLERK@CITYOFNSB.COM, CITY OF NEW SMYRNA BEACH, 210 SAMS AVENUE, NEW SMYRNA BEACH, FL 32168.

The contractor is required to comply with public records laws, specifically to:

1. Keep and maintain public records required by the public agency to perform the service.
2. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.
3. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the public agency.
4. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the contractor or keep and maintain public records required by the public agency to perform the service. If the contractor transfers all public records to the public agency upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

CONSTRUCTION CONTRACT

CITY OF NEW SMYRNA BEACH
VOLUSIA COUNTY, FLORIDA

This Agreement, dated this ____ day of _ _ _ _ _ _, 2025, by and between the **CITY OF NEW SMYRNA BEACH**, hereinafter called the **OWNER**, and _____ Inc. (a corporation organized and existing under the laws of the State of Florida and hereinafter called the **CONTRACTOR,** is awarded as a result of solicitation **ITB 07-25-CIP, Barracuda Boulevard Roadway Enhancement.**

WITNESSETH: The Owner and the Contractor, for the consideration stated herein, agree as follows:

ARTICLE I: Scope of Work

The Contractor shall perform all required work and shall provide and furnish all labor, materials, necessary tools, expendable equipment, and all utility and transportation services required to complete the construction of and all appurtenant work thereto, described in the following document, hereby fully incorporated into this Contract:

ITB 07-25-CIP, Barracuda Boulevard Roadway Enhancement
City of New Smyrna Beach, Florida

All work shall be in strict compliance with the drawings and specifications, including any and all Addenda, and together with all Contract Documents hereinafter enumerated and made a part thereof.

It is understood and agreed that said labor, materials, tools, equipment, and service shall be furnished and said work performed and completed subject to the approval of the Owner.

ARTICLE II: Contract Price

The Owner shall pay the Contractor for performance of the work in accordance with the Contract Documents in current funds as follows:

$ _____

Spelled out: _____

Payment will be made in accordance to the awarded bid proposal and the above negotiated agreed upon Contract Price. Change orders, including additions and deductions, must be approved in writing by the Owner. Any change, where the Contractor has materially deviated from the proposed design shall be borne by the Contractor unless such deviation is agreed to in writing by Owner.

ARTICLE III: Contract Time

The Contractor agrees to commence work within **Ten (10) CALENDAR DAYS** after the date of

the Notice to Proceed letter and shall achieve Substantial Completion within **One Hundred Twenty** (120) consecutive calendar days thereafter. The Contractor shall have an additional thirty (30) consecutive calendar days from the date of Substantial Completion to achieve Final Completion.

ARTICLE IV: Inspection by Contractor

The undersigned Contractor agrees that he has carefully inspected all Contract Documents and is familiar with same; the Contractor agrees that he is responsible for having heretofore examined the site, the location and route of all the proposed work and for having satisfied himself as to the character of the route, the location, surface and under-ground obstructions and nature thereof, the nature of the groundwater conditions and other physical characteristics of the work and work area in order that he may include in the prices which he has bid and the prices of the Contract, all costs pertaining to the work and thereby provide for the satisfactory completion thereof and determination of the Contract prices herein agreed upon, and that this Contract price is based upon these inspections and examination.

ARTICLE V: Liquidated Damages

If the work is not completed within the time specified in Article III of this Contract, the Contractor shall pay the Owner, as liquidated damages, the sum of **ONE THOUSAND ONE HUNDRED NINETY-SEVEN DOLLARS ($1,197.00)** for each consecutive calendar day thereafter until the work is completed, and as outlined in the Supplemental General Conditions.

ARTICLE VI: Right to Require Performance

The failure of the City at any time to require performance by the Contractor of any provision hereof shall in no way affect the right of the City thereafter to enforce same or be considered a waiver of such provision, nor shall a waiver by the City of any breach of any provision hereof be taken or held to be a waiver of any succeeding breach of such provision or as a waiver of any provision itself.

ARTICLE VII: Component Parts of the Contract

This Contract consists of the following Contract Documents, all of which are hereby made a part hereof as if herein set out in full and all of which are familiar to the Contractor:

- City Advertised Bid with addendums, Construction Specifications, and Drawings
- Awarded Bid Proposal with Bid Bond

The Contractor must provide the following documents within fourteen (14) days upon acceptance of the bid by City Commission. All of which are familiar to the Contractor and are component parts of the contract.

- Certificate of Insurance
- Performance/Payment Bond

Upon completion of the project, the Contractor shall provide the Owner with the Warranty of Title.

DRAFT

ARTICLE VIII: Severability

Should any term, covenant, condition, provision or sentence or part thereof of this Contract, including all Contract Documents which comprise the entire agreement, be held invalid or unenforceable by any court of competent jurisdiction, the remaining terms and provisions shall nevertheless remain in full force and effect.

ARTICLE IX: Force Majeure

No Party shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement, except for any obligations to make payments to the other party hereunder, when and to the extent such failure or delay is caused by or results from acts beyond the impacted party's control, including but not limited to, the following force majeure events:

a) Acts of God
b) A natural disaster (fires, explosions, earthquakes, hurricanes, flooding, storms, infestations, epidemic or pandemic)
c) War, invasion, hostilities (regardless if war is declared or not), terrorist threats or acts, riots or other civil unrest
d) Government order or law
e) Actions, embargoes or blockades in effect on or after the date of this Agreement
f) Action by any governmental authority
g) National or regional emergency
h) Strikes, labor stoppages or slowdowns or other industrial disturbance, and
i) Shortage of adequate power or transportation facilities

The Impacted Party shall give notice within two (2) days of the Force Majeure Event to the other party, stating the period of time the occurrence is expected to continue. The impacted party shall use diligent efforts to end the failure or delay and ensure the effects of such Force Majeure Event are minimized. The Impacted Party shall resume the performance of its obligations as soon as reasonably practicable after the removal of the cause. In the event that the Impacted Party's failure or delay remains uncured for a period of sixty (60) days following Notice given by it, then either party may thereafter terminate this Agreement upon Notice

Notwithstanding the foregoing, any pandemic or epidemic, including but not limited to those related to COVID-19 and its mutations, and related issued executive orders and/or administrative orders by any federal, state, or local government entity related to any pandemic or epidemic, shall NOT be considered a force majeure and is expressly excluded from that definition herein and said even shall not prevent CONTRACTOR from timely performing its functions under this Agreement

ARTICLE X: Human Trafficking

This Contract is subject to the terms, conditions, provisions and requirements of Section 787.06 of the Florida Statutes and Contractor hereby represents, warrants, and certifies that Contractor does not use coercion for labor or services as defined in Section 787.06, Florida Statutes and that Contractor has provided the Human Trafficking Affidavit.

DRAFT

ARTICLE XI: Construction

The headings and subheadings used throughout the Contract Documents are for convenience only and have no other significance in the interpretation of the body of the Contract Document.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the date written above for execution by the City of New Smyrna Beach.

Form **W-9**
(Rev. October 2007)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give form to the requester. Do not send to the IRS.

Print or type See **Specific Instructions** on page 2.

Name (as shown on your income tax return)

Business name, if different from above

Check appropriate box: ☐ Individual/Sole proprietor ☐ Corporation ☐ Partnership
☐ Limited liability company. Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ▶ .....
☐ Other (see instructions) ▶

☐ Exempt payee

Address (number, street, and apt. or suite no.)

Requester's name and address (optional)

City, state, and ZIP code

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number

or

Employer identification number

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here **Signature of U.S. person** ▶ **Date** ▶

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2. Certify that you are not subject to backup withholding, or

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

STATEMENT OF INSURANCE COMPLIANCE

The undersigned firm agrees to obtain prior to award, if selected, the insurance and levels in accordance to the requirements as set forth in the Invitation for Proposal, Invitation to Bid, or Invitation for Qualifications, or draft agreement, attached hereto.

Policies other than State Issued Worker's Compensation shall be issued only by companies authorized by maintaining certificates of authority issued to the companies by the Department of Insurance of the State of Florida to conduct business in the State of Florida and which maintain a Rating of "A" or better and a Financial Size category of "VII" or better according to the A.M. Best Company. Policies for Worker's Compensation may be issued by companies authorized as a group self-insurer by F.S. 440.57, Florida Statutes.

***THIS FORM MUST BE COMPLETED AND RETURNED WITH YOUR BID**

DRUG-FREE WORKPLACE CERTIFICATION FORM

IDENTICAL TIE BIDS-In accordance with Florida State Statutes Section 287.087, preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids, which are equal with respect to price, quality, and service, are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violation of such prohibition.

2. Establishing an on-going drug-free awareness program to inform employees about:
   a. The dangers of drug abuse in the workplace.
   b. The employer's policy of maintaining a drug-free workplace.
   c. Any available drug counseling, rehabilitation, and employee assistance programs, and
   d. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

3. Making it a requirement that each employee to be engaged in the performance of this contract be given a copy of the statement required by paragraph (a);

4. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under this contract, the employee will:
   a. Abide by the terms of the statement; and
   b. Notify the Employer in writing of any arrest for a violation of a criminal drug statute or driving under the influence no later than five calendar days after such arrest;

5. Notifying the City of New Smyrna Beach, in writing, within 10 calendar days after receiving notice under subparagraph (4)(b) from an employee or otherwise receiving actual notice of such arrest Consultants of arrested employees must provide notice, including position and title to: City Clerk/Administrator, City of New Smyrna Beach, 210 Sams Avenue, New Smyrna Beach, FL 32168.

6. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is arrested.
   a. Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended, or
   b. Requiring such employee to participate satisfactorily in drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State or local health, law enforcement, or other appropriate agency.

7. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (1), (2), (3), (4), (5) and (6).

As a duly authorized representative of the Vendor, I hereby certify that the Firm will comply with the above certifications.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

****THIS FORM MUST BE COMPLETED AND RETURNED WITH YOUR BID**

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(A), FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

1. THIS SWORN STATEMENT IS SUBMITTED TO City of New Smyrna Beach

by _____
(Print Individual's Name and Title)
for _____
(Print Name of Entity Submitting Sworn Statement)
whose business is _____

and (if applicable) its Federal Employer Identification Number (FEIN) is _____

2. I understand that a "public entity crime" as defined in Paragraph 287.133 (1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

    a. A predecessor or successor of a person convicted of a public entity crime; or

    b. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provisions of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders,

employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Indicate which statement applies).

_____ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, nor any affiliates of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (Attach a copy of the final order).

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES, FOR A CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

COMPLIANCE WITH EMPLOYMENT ELIGIBILITY REQUIREMENTS

(§448.095, Florida Statutes – E-Verify)

The E-Verify system is an internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees. Florida Statutes §448.095 provides that any person or entity that has entered or is attempting to enter into a contract with the City of New Smyrna Beach to provide labor, supplies or services must register with and use the E-Verify system to verify the work authorization status of all employees hired after January 1, 2021. Further, the consultant must maintain certain required employment compliance records of sub consultants for the duration of the contract with the City of New Smyrna Beach.

Consultant Name: _____

Consultant E-Verify Registration Number: _____

The undersigned, on behalf of the consultant referenced above, after first being duly sworn, states as follows:

1. That said consultant understands that the consultant must comply with §448.095, Florida Statutes.
2. That the consultant uses the E-Verify system to verify the work eligibility status of employees.
3. That the consultant has enrolled in the E-Verify system under the registration number referenced above and will verify the work eligibility status of employees hired after January 1, 2021 through said registration number throughout the contract period of any and all contracts with the City of New Smyrna Beach.
4. That the consultant will maintain affidavits of sub consultants engaged to perform work on any and all contracts with the City of New Smyrna Beach.
5. That said consultant further understands that violation of §448.095, Florida Statutes may result in lawful termination of a contract by the City of New Smyrna Beach, subjecting the consultant to liability for additional costs incurred by the City of New Smyrna Beach as a result of the termination of the contract.

CITY OF NEW SMYRNA BEACH
ACKNOWLEDGEMENT OF SMOKE FREE WORKPLACE

The City strives to improve working conditions and protect the health of employees and the general public. In accordance with the "Florida Clean Air Act" (Florida Statutes, Chapter 386), it is policy of the City to provide a healthy, comfortable, and safe environment in all respects by prohibiting use of all tobacco products in all City buildings, City properties (including rights-of-way), and in all City vehicles.

- Smoking or using a vapor-generating electronic device is prohibited in all City owned or leased buildings, including offices, hallways, waiting rooms, restroom, and break rooms.

- Smoking is not prohibited on City grounds. Those who choose to smoke must do so on their regularly scheduled breaks, or meal periods, off of City property.

All employees assigned to this contract shall acknowledge, sign and comply with the City's Non-Tobacco use policy.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

BID BOND

KNOW ALL MEN BY THESE PRESENTS, that we _____ ,

(hereinafter called Principal) and _____
(hereinafter called the Surety) a corporation chartered and existing under the Laws of the State of_____, with its principal offices in the City of _____, authorized to do business in the State of Florida, in the full and just sum of _____ Dollars ($_____), good and lawful money of the United State of America, to be paid upon demand of the _____, Florida, to which payment well and truly to be made we bind ourselves, our heirs, executors, administrators, and assigns, jointly and severally and firmly by these presents,

WHEREAS, the Principal is about to submit, or has submitted to the _____, Florida, a bid for the construction of _____in, and for the said City, and

WHEREAS, the Principal desires to file this bond in accordance with the law, in lieu of a Certified or Cashier's Check otherwise required to accompany this Bid,

NOW, THEREFORE, the conditions of this obligation are such that if the Bid be accepted, the Principal shall within ten (10) days after the receipt of notification of the acceptance thereof, execute a contract in accordance with the Bid and upon the terms, conditions and unit or lump sum prices set forth therein, in the form and manner required by the Owner, and execute a sufficient and satisfactory Contract Bond payable to the Owner, in an amount not less than the total contract price, as indicated by the approximate quantities shown in the Bid, in form and with security satisfactory to the said City, then this obligation to be void; otherwise to be and remain in full force and virtue in law; and the Surety shall upon the failure of the Principal to comply with any or all of the foregoing requirements within the time specified above, immediately pay to the aforesaid City upon demand the amount hereof in good and lawful money of the United States of America, not as a penalty, but as liquidated damages.

IN TESTIMONY WHEREOF, the Principal and Surety have caused these presents to be duly signed and sealed this _____ day of _____, 20_____.

SECTION 01 00 00
GENERAL REQUIREMENTS

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work: The Work to be done consists of the furnishing of all labor, materials and equipment, and the performance of all Work included in this Contract. The summary of the Work is presented in Section 01 11 00: Summary of Work.

B. Work Included:

1. The Contractor shall furnish all labor, superintendence, materials, plant power, light, heat, fuel, water, tools, appliances, equipment, supplies, and means of construction necessary for proper performance and completion of the Work. The Contractor shall obtain and pay for all necessary local building permits. The Contractor shall perform and complete the work in the manner best calculated to promote rapid construction consistent with safety of life and property and to the satisfaction of the Engineer, and in strict accordance with the Contract Documents. The Contractor shall clean up the Work and maintain it during and after construction, until accepted, and shall do all Work and pay all costs incidental thereto. He shall repair or restore all structures and property that may be damaged or disturbed during performance of the Work.

2. The cost of incidental work described in these Project Requirements, for which there are no specific Contract Items, shall be considered as part of the general cost of doing the Work and shall be included in the prices for the various Contract Items. No additional payment will be made therefore.

3. The Contractor shall provide and maintain such modern plant, tools, and equipment as may be necessary, in the opinion of the Engineer, to perform in a satisfactory and acceptable manner all the Work required by this Contract. Only equipment of established reputation and proven efficiency shall be used. The Contractor shall be solely responsible for the adequacy of their workmanship, materials, and equipment, prior approval of the Engineer notwithstanding.

C. Public Utility Installations and Structures:

1. Public utility installations and structures shall be understood to include all poles, tracks, pipes, wires, conduits, vaults, manholes, and all other appurtenances and facilities pertaining thereto whether owned or controlled by the Owner, other

governmental bodies, or privately owned by individuals, firms, or corporations, used to serve the public with transportation, traffic control, gas, electricity, telephone, sewerage, drainage, water, or other public or private property which may be affected by the Work shall be deemed included hereunder.

2. The Contract Documents contain data relative to existing public utility installations and structures above and below the ground surface. These data are not guaranteed as to their completeness or accuracy and it is the responsibility of the Contractor to make their own investigations to inform himself fully of the character, condition, and extent of all such installations and structures as may be encountered and as may affect the construction operations.

3. The Contractor shall protect all public utility installations and structures from damage during the Work. Access across any buried public utility installation or structure shall be made to avoid any damage to these facilities. All required protective devices and construction shall be provided by the Contractor at their expense. All existing public utilities damaged by the Contractor shall be repaired by the Contractor, at their expense. No separate payment shall be made for such protection or repairs to public utility installations or structures.

4. Public utility installations or structures owned or controlled by the Owner or other governmental body which are shown on the Drawings to be removed, relocated, replaced, or rebuilt by the Contractor shall be considered as a part of the general cost of doing the Work and shall be included in the prices bid for the various Contract Items; therefore, no separate payment shall be made.

5. Where public utility installations of structures owned or controlled by the Owner or other governmental body are encountered during the course of the Work, and are not indicated on the Drawings or in the Specifications, and when, in the opinion of the Engineer, removal, relocation, replacement, or rebuilding is necessary to complete the Work under this Contract, such Work shall be accomplished by the utility having jurisdiction, or such Work may be ordered, in writing by the Engineer, for the Contractor to accomplish. If such work is accomplished by the utility having jurisdiction it will be carried out expeditiously, and the Contractor shall give full cooperation to permit the utility to complete the removal, relocation, replacement, or rebuilding as required. If such work is accomplished by the Contractor, it will be paid for as extra work as provided in the Agreement.

6. The Contractor shall, at all times in performance of the Work, employ acceptable methods and exercise reasonable care and skill so as to avoid unnecessary delay, injury, damage, or destruction of public utility installations and structures; and shall, at all times in the performance of the Work, avoid unnecessary interference with,

or interruption of, public utility services, and shall cooperate fully with the owners thereof to that end.

7. The Contractor shall give written notice to Owner and other governmental utility departments and other owners of public utilities of the location of their proposed construction operations, at least forty-eight (48) hours in advance of breaking ground in any area or on any unit of the Work.

8. The maintenance, repair, removal, relocation, or rebuilding of public utility installations and structures, when accomplished by the Contractor as herein provided, shall be done by methods approved by the owners of such utilities.

1.02 DRAWINGS AND PROJECT MANUAL

A. Drawings: When obtaining data and information from the Drawings, figures shall be used in preference to scaled dimensions, and large-scale drawings in preference to small-scale drawings.

B. Supplementary Drawings:

1. When, in the opinion of the Engineer, it becomes necessary to explain more fully the Work to be done or to illustrate the Work further or to show any changes which may be required, drawings known as Supplementary Drawings, with specifications pertaining thereto, will be prepared by the Engineer, and the Contractor will be furnished an electronic copy of the plans and project manual.

2. The Supplementary Drawings shall be binding upon the Contractor with the same force as the Contract Drawings. Where such Supplementary Drawings require either less or more than the estimated quantities of Work, credit to the Owner or compensation therefore to the Contractor shall be subject to the terms of the Agreement.

C. Contractor to Check Drawings and Data:

1. The Contractor shall verify all dimensions, quantities, and details shown on the Drawings, Supplementary Drawings, schedules, Specifications, or other data received from the Engineer, and shall notify him of all errors, omissions, conflicts, and discrepancies found therein. Failure to discover or correct errors, omissions, conflicts, or discrepancies shall not relieve the Contractor of full responsibility for unsatisfactory work, faulty construction, or improper operation resulting there from, nor from rectifying such conditions at their own expense. He will not be allowed to take advantage of any errors or omissions, as full instructions will be furnished by the Engineer, should such errors or omissions be discovered.

2. All schedules are given for the convenience of the Engineer and the Contractor and are not guaranteed to be complete. The Contractor shall assume all responsibility or the making of estimates of the size, kind, and quality of materials and equipment included in work to be done under the Contract.

D. Specifications: The Technical Specifications consist of three (3) parts: General, Products, and Execution. The General part of a Specification contains General Requirements which govern the Work. The Products and Execution parts modify and supplement the General Requirements by detailed requirements for the Work and shall always govern whenever there appears to be a conflict.

E. Intent:

1. All Work called for in the Specifications applicable to this Contract, but not shown on the Drawings in their present form, or vice versa, shall be of like effect as if shown or mentioned in both. Work not specified in either the Drawings or in the Specifications but involved in carrying out their intent or in the complete and proper execution of the Work, is required and shall be performed by the Contractor as though it were specifically delineated or described.

2. The apparent silence of the Specifications as to any detail, or the apparent omission from them of a detailed description concerning any work to be done and materials to be furnished, shall be regarded as meaning that only the best general practice is to prevail and that only material and workmanship of the best quality is to be used, the interpretation of these Specifications shall be made upon that basis.

1.03 MATERIALS AND EQUIPMENT

A. Manufacturer:

1. All transactions with the manufacturers or subcontractors shall be through the Contractor, unless the Contractor shall request and at the Engineer's option, that the manufacturer or subcontractor deal directly with the Engineer. Any such transactions shall not in any way release the Contractor from their full responsibility under this Contract.

2. Any two (2) or more pieces of material or equipment of the same kind, type, or classification, and being used for identical types of service, shall be made by the same manufacturer.

B. Delivery:

1. The Contractor shall deliver materials in ample quantities to ensure the most speedy and uninterrupted progress of the Work so as to complete the Work within the allotted time.

2. The Contractor shall also coordinate deliveries in order to avoid delay in, or impediment of, the progress of the work of any related Contractor.

C. Tools and Accessories:

1. The Contractor shall, unless otherwise stated in the Contract Documents, furnish with each type, kind, or size of equipment, one (1) complete set of suitably marked high grade special tools and appliances which may be needed to adjust, operate, maintain, or repair the equipment. Such tools and appliances shall be furnished in approved painted steel cases, properly labeled and equipped with good grade cylinder locks and duplicate keys.

2. Spare parts shall be furnished as specified herein and as recommended by the manufacturer necessary for the operation of the equipment, not including materials required for routine maintenance.

3. Each piece of equipment shall be provided with a substantial nameplate, securely fastened in place and clearly inscribed with the manufacturer's name, year of manufacture, serial number, weight, and principal rate data.

D. Service of Manufacturer's Engineer:

1. The Contract Prices for equipment shall include the cost of furnishing a competent and experienced Engineer or superintendent who shall represent the manufacturer and shall assist the Contractor, when required, to install, adjust, test, and place in operation, the equipment in conformity with the Contract Documents.

2. After the equipment is placed in permanent operation by the Owner, such Engineer or superintendent shall make all adjustments and tests required by the Engineer to prove that such equipment is in proper and satisfactory operating condition, and shall instruct such personnel as may be designated by the Owner in the proper operation and maintenance of such equipment.

1.04 INSPECTION AND TESTING

A. General:

1. For tests specified to be made by the Contractor, the testing personnel shall make the necessary inspections and tests, and the reports thereof shall be in such form as will facilitate checking to determine compliance with the Contract Documents. One (1) original and one (1) electronic copy of the reports shall be submitted, and authoritative certification thereof must be furnished to the Engineer as a prerequisite for the acceptance of any material or equipment.

2. If, in the making of any test of any material or equipment, it is ascertained by the Engineer that the material or equipment does not comply with the Contract Documents, the Contractor will be notified thereof, and he will be directed to refrain from delivering said material or equipment, or to remove it promptly from the site or from the Work and replace it with acceptable material, without cost to the Owner.

3. Tests of electrical and mechanical equipment and appliances shall be conducted in accordance with the recognized test codes of the ANSI, ASME, or the IEEE, except as may otherwise be stated herein.

4. The Contractor shall be fully responsible for the proper operation of equipment during testing and instruction periods and shall neither have nor make any claim for damage which may occur to equipment prior to the time when the Owner formally takes over the operation thereof.

B. Costs:

1. All inspection and testing of materials furnished under this Contract will be provided by the Contractor, unless otherwise expressly specified.

2. The cost of shop and field tests of equipment and of certain other tests specifically called for in the Contract Documents shall be borne by the Contractor, and such costs shall be deemed to be included in the Contract Price.

3. Materials and equipment submitted by the Contractor as the equivalent to those specifically named in the Contract may be tested by the Owner for compliance. The Contractor shall reimburse the Owner for the expenditures incurred in making such tests of materials and equipment which are rejected for non-compliance.

C. Certificate of Manufacture:

1. Contractor shall furnish to Engineer authoritative evidence in the form of a certificate of manufacture that the materials to be used in the Work have been manufactured and tested in conformity with the Contract Documents.

2. These certificates shall be notarized and shall include copies of the results of physical tests and chemical analyses, where necessary, that have been made directly on the product or on similar products of the manufacturer.

D. Shop Tests:

1. Each piece of equipment for which pressure, duty, capacity, rating, efficiency, performance, function, or special requirements are specified shall be tested in the shop of the maker in a manner which shall conclusively prove that its characteristics comply fully with the requirements of the Contract Documents.

2. Five (5) copies of the manufacturer's actual test data and interpreted results thereof, accompanied by a certificate of authenticity sworn to by a responsible official of the manufacturing company and/or independent laboratory, shall be submitted to the Engineer for approval.

3. The cost of shop tests and of furnishing manufacturer's preliminary and shop test data of operating equipment shall be borne by the Contractor.

E. Start-up Tests:

1. As soon as conditions permit, the Contractor shall furnish all labor, materials, and instruments and shall make start-up tests of equipment.

2. If the start-up tests disclose any equipment furnished under this Contract which does not comply with the requirements of the Contract Documents, the Contractor shall, prior to demonstration tests, make all changes, adjustments, and replacements required. The furnishing Contractor shall assist in the start-up tests as applicable.

F. Demonstration Tests:

1. Prior to Contractor's request for a Substantial Completion inspection, all equipment and piping installed under this Contract shall be subjected to demonstration tests as specified or required to prove compliance with the Contract Documents.

2. The Contractor shall furnish labor, fuel, energy, water, and all other materials, equipment, and instruments necessary for all demonstration tests, at no additional cost to the Owner. Contractor shall assist in the demonstration tests as applicable.

1.05 LINES AND GRADES

A. Grade:

1. All work under this Contract shall be constructed in accordance with the lines and grades shown on the Drawings, or as given by the Engineer. The full responsibility for keeping alignment and grade shall rest upon the Contractor.

2. The vertical bench marks provided is USGS “Public Records” monumentation and the horizontal control is the monumentation on plats contained in the “Public Records of Volusia County.”

B. Surveys:

1. The Contractor shall furnish and maintain, at their own expense, stakes and other such materials.

2. The Contractor shall check such reference marks by such means as he may deem necessary and, before using them, shall call the Engineer's attention to any inaccuracies.

3. The Contractor shall, at their own expense, establish all working or construction lines and grades as required from the reference marks set by the Engineer, and shall be solely responsible for the accuracy thereof. He shall, however, be subject to the check and review by the Engineer.

C. Safeguarding Marks:

1. The Contractor shall safeguard all points, stakes, grade marks, monuments, and bench marks made or established on the Work, bear the cost of re-establishing them if disturbed, and bear the entire expense of rectifying work improperly installed due to not maintaining or protecting or to removing without authorization such established points, stakes, and marks.

2. The Contractor shall safeguard all existing and known property corners, monuments, and marks adjacent to but not related to the Work and shall bear the cost of re-establishing them if disturbed or destroyed.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION (NOT USED)

END OF SECTION

SECTION 01 11 00
SUMMARY OF WORK

PART 1 - GENERAL

1.01 WORK COVERED BY CONTRACT DOCUMENTS

A. This Contract is for the construction of the Barracuda Boulevard Roadway Enhancements project**.** The work consists of furnishing all labor, equipment, and materials for the construction of the facilities consisting of, but not limited to, the following:

1. Construction of a new bioswale serving as the median of Barracuda Boulevard including demolition; drainage pipe; connection to existing FDOT drainage system; stormwater structures; new stormwater manhole; site grading; asphalt restoration; curbing; striping; driveways; boat trailer parking; signage; sodding; landscaping, planting and irrigation; erosion and stormwater pollution control measures; and other incidentals.

B. The Contractor shall furnish all labor, equipment, tools, services and incidentals to complete all Work required by these Specifications and as shown on the Drawings.

C. The Contractor shall perform the Work complete, in place, and ready for continuous service, and shall include repairs, testing, permits, cleanup, replacements and restoration required as a result of damages caused during this construction.

D. All materials, equipment, skills, tools and labor which is reasonably and properly inferable and necessary for the proper completion of the Work in a substantial manner and in compliance with the requirements stated or implied by these Specification or Drawings shall be furnished and installed by the Contractor without additional compensation, whether specifically indicated in the Contract Documents or not.

E. The Contractor shall comply with all City, County, State, Federal, and other codes which are applicable to this Project.

1.02 CONTRACTOR’S USE OF PREMISES

A. The Contractor shall assume full responsibility for the protection and safekeeping of products and materials at the job site. If additional storage or work areas are required, they shall be obtained by the Contractor at no additional cost to the Owner.

1.03 PROJECT SEQUENCE

A. The Contractor shall establish their work sequence based on the use of crews to facilitate completion of construction and testing within the specified Contract time and minimize traffic and business disruptions. Refer to Contract Drawings for Maintenance of Traffic details.

END OF SECTION

SECTION 01 14 13
ACCESS TO SITE

PART 1 – GENERAL

1.02 USE OF WATERWAY, STREET AND PARKING AREAS

A. Waterway, Street and Parking Use: Nothing herein shall be construed to entitle the Contractor to the exclusive use of any public waterway, street, alleyway, or parking area during transportation and performance of the Work hereunder, and it shall so conduct its operations as not to interfere unnecessarily with the authorized use and transportation of public in such waterways, streets, alleyways, or parking areas. No area shall be closed to the public without first obtaining permission from the City and proper governmental authority.

1.03 TRAFFIC CONTROL AND MONITORING

A. For the protection of traffic in waterways, public or private streets, parking and storage areas, the Contractor shall provide, place, and maintain all necessary buoys, barricades, traffic cones, warning signs, lights, and other safety devices in accordance with the requirements of the United States Coast Guards and Manual of Uniform Traffic Control Devices. The Contractor shall take all necessary precautions for the protection of the Work area and the safety of the public. If required by the permit conditions, the Contractor shall station such guards or flaggers and shall conform to such special safety regulations relating to traffic control as may be required by the public authorities within their respective jurisdictions. All signs, signals, and barricades shall conform to the requirements of the OSHA Safety and Health Standards for Construction.

1.04 CONTRACTOR'S WORK AND STORAGE AREAS

A. Storage areas shall be coordinated with the City. Responsibility for protection and safekeeping of equipment and materials at or near the sites shall be solely that of the Contractor and no claim shall be made against the City by reasons of any loss or any act of an employee or trespasser. Should an occasion arise necessitating access to an area occupied by stored equipment and/or materials, the Contractor shall immediately move them. No equipment or materials shall be placed upon the City's property until it is acceptable to the City.

B. If the Contractor requires additional staging area, then the Contractor shall obtain such areas from off-site sources. The Contractor shall pay for any off-site area they requires.

C. Upon completion of the Contract, the Contractor shall remove from the storage areas all of their equipment, temporary fencing, surplus materials, rubbish, etc., and restore the areas

back to existing conditions.

1.05 SAFETY AND SECURITY

A. The Contractor shall be responsible for the safety and security and may choose to employ watchmen and security guards to protect the job site against vandalism, burglary, theft, trespassing, etc. The Contractor shall care for and protect against loss or damage of all material to be incorporated in the construction for the duration of the project and shall repair or replace damaged or lost materials and damage to structures.

PART 2 -- PRODUCTS (NOT USED)

PART 3 -- EXECUTION (NOT USED)

END OF SECTION

SECTION 01 20 00
PRICE AND PAYMENT PROCEDURES

PART 1 – GENERAL

1.01 SCOPE

A. Separate payment will be made only for the items of work described herein and listed on the Bid Form. Any related work not specifically listed, but required for satisfactory completion of the work, shall be considered to be included in the scope of the appropriate listed work items.

B. The Contractor's attention is called to the fact that cleanup is considered a part of the work of construction. No payment will be made until cleanup is essentially complete.

C. No separate payment will be made for the following items and the cost of such work shall be included in the applicable pay items of work if not shown as a separate pay item.

1. Clearing and grubbing.
2. Excavation, including necessary pavement base removal.
3. Shoring and sheeting.
4. Dewatering and disposal of surplus water.
5. Structural fill.
6. Backfill.
7. Grading.
8. Replacement of unpaved roadways, grass, and shrubbery plots.
9. Cleanup.
10. Testing and placing system in operation.
11. Any material and equipment required to be installed and utilized for the test.
12. Pipe, structures, pavement replacement and/or appurtenances included within the limits of lump sum work.
13. Maintaining the existing quality of service during construction.
14. Appurtenant work as required for a complete and operable system.
15. Maintaining or detouring or traffic.

D. No payment shall be made for work constructed outside the authorized limits of work.

E. The Florida Department of Transportation (FDOT) Standard Specifications for Road and Bridge Construction, latest edition, in its entirety will apply to this project, with the exception of the following and other changes, modifications, and/or amendments that are included in the Contract Documents.

PART 2 - MATERIALS AND EQUIPMENT

2.01 Mobilization **Bid Item A1**

The lump sum to complete this item shall be full compensation for the preparatory work and operations in mobilizing for beginning work on the Project including, but not limited to, those operations necessary for the movement of personnel, equipment, supplies and incidentals to the project site, and for the establishment of field office, building, safety equipment and first aid supplies, sanitary and other facilities, as required by these Specifications, and state and local laws and regulations; and any other pre-construction expense necessary for Work; the cost of field engineering including disposal of cleared and grubbed material and debris, construction schedules, project signs, shop drawings, temporary facilities, laydown storage area, construction aids, work associated with Contractor support during Owner/Engineer reviews and inspection, re-inspections, and any other re-work resulting from same, cleaning, operation and maintenance data, and for all other work required for demobilization. The Contractor shall submit invoices substantiating the cost of mobilization and demobilization with each pay request. Five percent (5%) for the cost of mobilization and demobilization will be withheld until acceptance and final payment.

2.02 Pre-Construction Video **Bid Item A2**

Lump sum payment will be made based on delivery to the City of two copies with documentation of the video for the project route. The contract lump sum price shall be full compensation for all materials and work necessary to complete the professional videotaping in accordance with the project specifications. Construction work shall not start until DVD's are delivered and approved by the project representative.

2.03 Hand Locate & Expose Existing Utilities **Bid Item A3**

Payment at the applicable lump sum price will be made based on completion of exposing, as specified in Section 013000, existing City utilities and all other utilities within the contract work limits. The contract lump sum price will be full compensation for all materials and work necessary to complete the item within the right-of-ways or easements shown on the contract plans, and provide a sketch of each major intersection or congested area with the Contractor's proposed solution to conflicts found prior to construction.

2.04 Erosion Control/NPDES Permit Requirements **Bid Item A4**

Payment at the applicable lump sum price will be made based on completion of erosion/turbidity control, silt fencing, floating turbidity barriers, and other means necessary in accordance with the contract plans and specifications. Payment will be full compensation for all materials, labor, equipment, and work necessary to complete the work in accordance with City/State/Federal requirements and the contract plans and specifications. This item includes the cost to obtain NPDES NOI and NOT permit and the cost to prepare a Stormwater Pollution Prevention Plan if disturbance is greater than 1 acre. Tree Protection barricade cost is also included in this item.

2.05 Clearing and Grubbing **Bid Item A5**

Lump sum payment for clearing and grubbing shall include all costs associated with clearing and grubbing the site and removing trees and vegetation scheduled for removal in accordance with FDOT Standard Specification Section 110. This item includes the proper disposal of all cleared materials.

2.06 Construct Drainage Pipe **Bid Item B1**

Payment shall be made at the applicable unit price per linear foot and shall be full compensation for furnishing all plant, labor, materials and equipment and constructing the storm drainage pipe complete and ready for operation as shown on the project plans and described in the specifications. This item includes the cost of pipe trenching, bedding, subgrade, removal of existing storm sewers, and filter fabric wrap of all joints, per FDOT standards.

2.07 Construct Drainage Structures **Bid Item B2**

Payment for drainage structures will be made at the applicable unit price for each structure furnished and installed, and will include full compensation for all excavation, backfill, concrete, brickwork, linings, benches, concrete aprons, grates, and frames and covers and baffles, structures, manholes, and incidentals, all constructed in accordance with the drawings and per FDOT standards. Payment includes demolition and removal of existing inlets.

2.08 Open Cut and Repair Asphalt Pavement **Bid Item C1**

Payment will be made at the contract unit cost per square yard for open cut and repairing asphalt roads. All road and road base repairs shall be as specified per City standards. This item includes saw cutting of edges of existing material, removal and disposal of the areas to be restored. The contract unit price shall be full compensation for all material and work necessary to complete the repair, including temporary and permanent thermoplastic striping. Repair shall be as specified compaction and asphalt wearing surface. This work also includes repairs to roadway in areas where drainage pipe is installed. Insufficiently compacted base shall be removed and reinstalled at no cost to the Owner.

2.09 Mill Asphalt –cv Average Depth 1 ¾” **Bid Item C2**

Payment shall be made at the applicable unit price per square yard for milled asphalt surface as measured in the field per FDOT Specification Section 327. Payment shall be full compensation for furnishing all labor, materials, and equipment necessary to complete the milling, including dust control and disposal of millings. Milling outside of the delineated areas shall not be paid for without prior approval. This item includes replacement of existing striping.

2.10 Rework Base **Bid Item C3**

Payment will be made at contract unit price for each square yard for reworking base. The work will require addition and deletion of base to meet design grades. No additional payment will be made for importing additional base. The work shall conform to FDOT specifications.

2.11 Environmental Curbing – 2’ Wide **Bid Item C4**

Payment will be made at the unit price per linear foot of concrete curb installed in accordance with plans and specifications. The contract unit price will be full compensation for all material and work necessary to complete the installation in accordance with the drawings and FDOT specifications. This item includes the compacted base under the curb and testing as required.

2.12 Asphaltic Concrete w/ Tack Coat and Existing Striping Replacement Bid Item C5

Payment will be made at the contract per square yard unit price for full compensation for all material and work necessary to complete the installation in accordance with the drawings and specifications, including subbase, base, asphalt surface, testing and the raising of any valve boxes or manhole frames and covers to final paving grade. This item includes replacement of existing striping and new markings as depicted on the plans.

2.13 1-1/2" Wearing Surface Bid Item C6

The quantity for which payment is made will be that quantity shown in square feet on the plans. Where the plans have been revised, the quantity to be paid for will be the quantity shown on the revised plans.

The unit bid per square foot will be full compensation for all work covered by this Special Provision and applicable parts of the Standard Specifications, but not limited to furnishing and placing concrete, epoxy coated reinforcing steel, joint filler and sealer, deck drains, bridge scuppers, and any other material; erecting and removing all forms, curing concrete, protecting concrete in wind, rain, low humidity, high temperatures or other unfavorable weather.

2.14 Painted Pavement Markings, Standard, Yellow, Island Nose, 6 Bid Item C7

Price and payment will be full compensation for all work specified in this Section, including, all cleaning and preparing of surfaces, furnishing of all materials, application, curing and protection of all items, protection of traffic, furnishing of all tools, machines and equipment, and all incidentals necessary to complete the work. Final payment will be withheld until all deficiencies are corrected.

2.15 Painted Pavement Markings, Standard, White, Island Nose, 6 Bid Item C8

Price and payment will be full compensation for all work specified in this Section, including, all cleaning and preparing of surfaces, furnishing of all materials, application, curing and protection of all items, protection of traffic, furnishing of all tools, machines and equipment, and all incidentals necessary to complete the work. Final payment will be withheld until all deficiencies are corrected.

2.16 Furnish and Install Sod Bid Item C9

Payment will be made at the unit price per square yard of sod installed to match existing and shall be full compensation for furnishing all plant labor, materials, and equipment necessary to furnish and properly install sod without gaps or overlaps within the limits shown on the drawings. Items shall include watering and maintenance for a one-month period. Dead or insect infested sod shall be replaced by the Contractor at no cost to the Owner if manifestation of damage becomes apparent within the one-month maintenance period.

2.17 Maintenance of Traffic Bid Item C10

Lump sum payment for clearing and grubbing shall include all costs associated with clearing and grubbing the site and removing trees and vegetation scheduled for removal in accordance with FDOT Standard Specification Section 110. This item includes the proper disposal of all cleared materials.

Lump sum payment will be made based on which price and payment shall be full compensation for the material, labor, equipment, and all other related work necessary to complete required traffic control during

the period of construction affecting the flow of traffic within the project area or adjacent collector roads and highways. This item shall include the costs to prepare approved traffic control plans as well as the full cost to implement the approved plans. For areas under County or State control, traffic control shall be provided in accordance with each entity's requirements. Payment shall be made based on the percent of the total construction cost completed.

2.18 "Record" Drawing Preparation Bid Item C11

Lump sum payment will be made based on delivery to the Engineer of two (2) surveyor signed and sealed paper sets and digital files (PDF and AutoCAD files) of "record" drawings. The "record" drawings shall be prepared and signed and sealed by a professional land surveyor, licensed in the State of Florida, showing the invert and manhole top elevations and horizontal locations of the manholes and "sewer lines, water lines or force mains" with respect to the right-of-way lines or other "known features" for the project length. "Known features" are power poles, property corners, or other features which are not easily lost or susceptible to damage, removal or relocation. All water and sewer valves and services as well as fire hydrants shall be located horizontally to "known features" using three way horizontal dimensional "ties" to allow easy recovery of the service locations at a later date. Vertical elevations of new or reconstructed storm sewer structures including flow lines and inlet grates or junction structure tops based on the contract plans datum shall also be provided as part of the "record drawings". New swale areas, reconstructed road edge of pavement on each side, and road crown shall be provided at 100-foot minimum intervals after final paving and sodding. Periodical "record drawings" shall be submitted with each pay estimate on which the Engineer shall rely to ensure the "pay items" are constructed in accordance with the design locations and elevations. Progress payments submitted without updated partial "record drawings" to document work constructed that pay period shall be a basis for rejection of the pay request until such time as the "record drawings" of work completed immediately prior to the current progress pay period are submitted with the pay requests. "Record drawings" shall be neat and clearly readable. Utility "record drawings" shall be on a separate set of drawings and roads, swales, storm sewers, etc. shall be on a separate set of "record drawings". Each "record drawing" set shall have only one (1) surveyor of record.

2.19 Unsuitable Material Excavation Bid Item C12

Where field conditions indicate the necessity for removing unsuitable material or muck from trench or roadway area excavations; and where such excavations require the removal of muck or other unsuitable material as determined by the Engineer, and replacement with suitable material, payment will be made at the contract unit price per cubic yard in situ for such muck or other unsuitable material removed and replaced with clean fill upon the basis of in place measurement of the material removed.

2.20 Bulk Concrete Bid Item C13

Payment shall be made at the contract unit price per cubic yard for completion of concrete encasement, collars, supports or other needs that may arise during construction and are placed in accordance with the contract plans and specifications. Payment will be full compensation for all materials, labor, equipment and work necessary to complete the work in accordance with the contract plans and specifications, including DOT, HRS and FDEP requirements.

2.21 Crushed Rock or Shell Trench Subgrade Material Bid Item C14

Where field conditions necessitate the provision of select subgrade material, payment will be made at the contract unit price per cubic yard for approved crushed rock or shell material placed in trench or structure

excavations if so directed by the Engineer. Payment will be made only when placement of material is directed by the Engineer.

2.22 Disposal of Excess Base Materials **Bid Item C15**

Surplus material and material not suitable for base fill shall be transported off the site to disposal areas obtained by the Contractor.

2.23 Landscaping & Irrigation **Bid Item C16**

The quantity for payment shall be the lump sum for complete installation of the landscaping and irrigation. Payment of the applicable lump sum shall be full compensation for furnishing all labor, materials and equipment necessary to furnish and properly install landscaping and irrigation including plant materials, mulch, staking, fertilizer, soil amendments, watering, trimming, irrigation pipe, sprinklers, irrigation controller and maintenance of material per contract requirements and other required work.

2.24 5/8 Inch Reclaimed Pipe Tap **Bid Item C17**

Service saddles shall be all brass with “CC” threads. Single straps shall have a minimum width of 3 inches and double stainless-steel straps shall have a minimum width of 2 inches.

1. PVC Pipe

   Saddles for 1- and 2-inch services on pipes 12-inch and smaller shall be brass body saddle with controlled OD. Services saddles for 1- and 2-inch services on pipes greater than 12-inch shall be epoxy or nylon-coated ductile iron body with 18-8 type, stainless-steel straps and controlled OD. Services 4-inch and larger shall use mechanical tapping sleeves.

2. Ductile Iron Pipe

   1-inch services shall be tapped directly. Service saddles for 2-inch services shall be epoxy or nylon-coated ductile iron body with 18-8, stainless-steel straps and controlled OD. Services 4-inch and larger shall use mechanical tapping sleeves.

3. Concrete Pressure Pipe

   Concrete pressure pipe taps shall be in accordance with AWWA M-9 and use a strap-type saddle dedicated to concrete cylinder pressure pipe.

4. HDPE

   Saddles for 1- and 2-inch services shall be epoxy or nylon-coated ductile iron body with 18-8, stainless-steel straps and controlled OD. Taps to HDPE pipe require prior approval by the NSBU Engineering Department and shall be on a case-by-case basis. Services 4-inch and larger shall use wide body tapping sleeves with a broad cross section gasket in a retaining groove that increase sealing capability as pressure increases.

5. Steel

   Services of all sizes require welded-on steel sleeves.

2.25 Allowance ($50,000) **Bid Item C18**

Payment shall be made for Owner requested items that are desired or necessary during the period of construction. Payment shall be based on negotiated costs for such items. The cost of items shall not exceed the allowance amount listed in the Schedule of Unit Prices without a change order. Payment shall be full compensation for the material, labor, equipment, and all other related administrative items necessary to fulfil requested additional items. Owner may request itemized costs for materials included in requests.

END OF SECTION

SECTION 01 25 00
SUBSTITUTION PROCEDURES

PART 1 - GENERAL

1.01 REQUESTS FOR REVIEW

A. Requests to review substitute items of material and equipment will not be accepted by the Engineer from anyone other than the Contractor. If the Contractor wishes to furnish or use a substitute or equivalent item of material or equipment, the Contractor shall make written application to the Engineer for acceptance, certifying that the proposed substitute will perform adequately the functions called for by the general design, be similar and of equivalent substance to that specified and be suited to the same use and capable of performing the same function as that specified. The application will state whether or not acceptance of the substitute for use in the work will require a change in Drawings or Specifications to adapt the design to the substitute and whether or not incorporation or use of the substitute in connection with the work is subject to payment of any license fee or royalty. All variations of the proposed substitute from that specified shall be identified in the application and available maintenance, repair and replacement service will be indicated. The application will also contain an itemized estimate of all costs that will result directly or indirectly from acceptance of such substitute, including costs of redesign and claims of other contractors affected by the resulting change, all of which shall be considered by the Engineer in evaluating the proposed substitute. The Engineer may require the Contractor to furnish at the Contractor's expense additional data about the proposed substitute. The Engineer will be the sole judge of acceptability, and no substitute will be ordered or installed without the Engineer's prior written acceptance. The Owner may require the Contractor to furnish at the Contractor's expense, a special performance guarantee or other surety with respect to any substitute.

1.02 SUBSTITUTION AFTER EXECUTION OF AGREEMENT

A. After execution of the Agreement, substitution of materials or equipment supplied by manufacturers or suppliers other than those listed, will be considered only if it is demonstrated by the Contractor that:

1. The material or equipment proposed for substitution is superior in design, construction and/or efficiency to that of the listed manufacturer or supplier;

2. The material proposed for substitution is in every way equal to that of the listed supplier, and that availability and/or delivery of listed materials within the time frame scheduled cannot be met; or

3. The material proposed for substitution is in every way equal to that of the listed supplier and is available at a lower cost. In the event such a substitution is allowed, the Contractor shall accept and execute a Change Order reducing the Contract Price by an amount equal to the cost differential.

1.03 EQUIVALENT MATERIALS AND EQUIPMENT

A. Whenever materials or equipment are specified or described in the Drawings or Specifications by using the name of a proprietary item or the name of a particular manufacturer, fabricator, supplier or distributor, the naming of the item is intended to establish the type, function, and quality required. Unless the name is followed by words indicating that no substitution is permitted, materials or equipment of other manufacturers, fabricators, suppliers or distributors may be accepted by the Engineer. If it is determined that the material or equipment proposed is equivalent to that named.

B. It is not the intent of the Contract Documents to function as proprietary specifications. Where a particular manufacturer make and model are cited and specifically required for interchangeability of parts and/or match existing equipment, this has been so stated in the Specifications.

PART 2 - PRODUCTS

(Not Applicable)

PART 3 - EXECUTION

(Not Applicable)

END OF SECTION

SECTION 01 29 73
SCHEDULE OF VALUES

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work:

1. Submit to the Engineer a Schedule of Values allocated to the various lump sum portions of the Work, at the Pre-Construction Conference, and as otherwise specified or requested to be submitted earlier as evidence of the Apparent Low Bidder's qualifications.

2. Upon request of the Engineer support the values with data which will substantiate their correctness. The data shall include, but not be limited to quantity of materials, all sub-elements of the activity, and their units of measure.

3. The Schedule of Values shall establish the actual value for each activity of the Work to be completed taken from the approved Critical Path Method (CPM) Construction Schedule and shall be used as the basis for the Contractor's Applications for Payment.

B. Related Requirements Described Elsewhere:

1. Conditions of the Construction Contract.
2. Section 00 84 60 - Stored Material Form

1.02 FORM AND CONTENT OF SCHEDULE OF VALUES

A. Identify schedule with:

1. Title of project and location.
2. Owner and purchase order number.
3. Engineer and project number.
4. Name and address of Contractor.
5. Contract designation.
6. Date of submission.

B. Schedule shall list the installed value of the component parts of the Work in sufficient detail to serve as a basis for computing item prices for progress payments during construction.

C. Identify each line item with the number and the title of the respective section of the Specifications.

D. For each major item of the Work, list sub-values of major products or operations under the major item.

E. For the various portions of the Work:

1. The amount for each item shall reflect a total installed cost including a directly proportional amount of the Contractor's overhead and profit.

2. For items on which progress payments will be requested for stored materials, break down the value into:

a. The cost of the materials delivered and unloaded, with taxes paid. Paid invoices are required for materials. Payment for materials shall be limited to the invoiced amount only.

b. The total installed value.

F. Round off figures to nearest dollar amount.

G. The sum of the costs of all items listed in the schedule shall equal the total Contract Price.

H. For each item which has an installed value of more than $15,000, provide a breakdown of costs to list major products or operations under each item.

1.03 SUB-SCHEDULE OF UNIT MATERIAL VALUES

A. Submit a separate schedule of unit prices for materials to be stored on site and for those materials incorporated into the Work for which progress payments will be requested.

B. The unit values for the materials shall be broken down into:

1. Cost of the material, delivered and unloaded at the site, with taxes paid.

2. Copies of paid invoices for component material shall be included with the payment request in which the material first appears.

C. Only materials unique to the project may be billed when stored on site. Materials of standard use such as conduit, wire, small-diameter pipe, steel, etc., shall not be accepted for payment.

D. The installed unit value multiplied by the quantity listed shall equal the cost of that item in the Schedule of Values.

1.04 REVIEW AND RESUBMITTAL

A. After review by Engineer, revise and resubmit Schedule of Values and Schedule of Unit Material Values as required.

B. Resubmit revised schedules in same manner.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION (NOT USED)

END OF SECTION

SECTION 01 29 76
PROGRESS PAYMENT PROCEDURES

PART I - GENERAL

1.01 DESCRIPTION

A. Scope of Work: Submit Application for payment to the Engineer in accordance with schedule established by Conditions of the Contract and Agreement between Owner and Contractor. Contractor shall use the Application and Certificate for Payment Form included in Section 00 84 40 as the official pay request form.

B. Related Requirements Described Elsewhere:

1. Agreement: Section 00 50 00.
2. Section 01 32 16 - Construction Progress Schedules
3. Section 01 29 73 - Schedule of Values
4. Section 01 32 33 - Photographic Documentation
5. Section 01 78 39 - Project Record Documents
6. Section 01 77 00 - Closeout Procedures

1.02 FORMAT REQUIRED

A. Submit applications on the form provided in Division 0, Section 00 84 40: Application and Certificate for Payment Form.

B. Provide itemized data on continuation sheets of format, schedules, line items, and values specified on the Application and Certificate for Payment Form. The Contractor shall use the item descriptions and contract values included in schedule of values, approved and accepted by the Engineer as a basis for preparation of the Application for Payment Form.

1.03 PREPARATION OF APPLICATION FOR EACH PROGRESS PAYMENT

A. Application Form:

1. Fill in required information, including that for Change Orders executed prior to date of submittal of application.

2. Fill in percent complete for each activity and dollar values to agree with respective percents.

3. Execute certification with signature of a responsible officer of Contractor.

B. Continuous Sheets:

1. Fill in total of all scheduled component items of the Work, with item number and schedule dollar value for each item.

2. Fill in dollar value in each column for each scheduled line item when Work has been performed or products stored. Round off values to nearest dollar, or as specified for Schedule of Values.

3. List each Change Order executed prior to date of submission, at the end of the continuation sheets. List by Change Order Number, and description, as for an original component item Work.

4. To receive approval for payment on component material stored on site, submit copies of the original invoices with Application and Certificate for Payment.

5. As provided for in the Application and Certificate for Payment Form, the Contractor shall certify, for each current pay request, that all previous progress payments received from the Owner, under this Contract, have been applied by the Contractor to discharge in full, all obligations of the Contractor in connection with Work covered by prior Applications for Payment, and all materials and equipment incorporated into the Work are free and clear of all liens, claims, security interest, and encumbrances. Contractor shall attach to each Application and Certificate for Payment like affidavits by all Subcontractors.

1.04 SUBSTANTIATING DATA FOR PROGRESS PAYMENTS

A. Contractor shall submit suitable information, with a cover letter identifying:

1. Project.

2. Application number and date.

3. Detailed list of enclosures.

4. For stored products:

   a. Item number and identification as shown on application.

   b. Description of specific material.

B. Submit one (1) copy of data and cover letter for each copy of application.

C. The Contractor is to maintain an updated set of drawings to be used as record drawings in accordance with Section 01 78 39: Project Record Documents. As a prerequisite for monthly progress payments, the Contractor is to exhibit the updated record drawings for review by the Owner and the Engineer.

D. Each monthly application for payment shall incorporate the corresponding “monthly progress status report” and updated construction schedule, prepared in accordance with the requirements of Section 01 32 16: Construction Progress Schedules.

E. As a prerequisite for payment, Contractor shall submit a duly executed letter from surety consenting to payment due and progress to date.

F. Provide construction photographs in accordance with Section 01 32 33: Photographic Documentation.

1.05 PREPARATION OF APPLICATION FOR FINAL PAYMENT

A. Fill in application form as specified for progress payments. Provide information as required by the General Conditions and Section 01 77 00: Closeout Procedures

B. Furnish evidence of completed operations and insurance in accordance with the General Conditions.

C. Provide Contractor’s Final Release of Lien (Section 00 84 90) and other close-out submittals as required by the General Conditions.

1.06 SUBMITTAL PROCEDURE

A. Submit Application for Payment to the Engineer at the time stipulated in the Agreement, or as agreed to at the pre-construction meeting. Review the percentage complete with the Engineer and resolve any conflict or discrepancies.

B. Application for payment to be submitted electronically in color for processing and payment.

C. When the Engineer finds the Application and Certificate for Payment Form is properly completed and correct, he will execute the Certificate for Payment and transmit the forms to the Owner, with a copy to the Contractor.

PART II - PRODUCTS (NOT USED)

PART III - EXECUTION (NOT USED)

END OF SECTION

SECTION 01 30 00
ADMINISTRATIVE REQUIREMENTS

PART 1 - GENERAL

1.01 The Contractor shall not have any right in property in any materials taken from any excavation and they shall not remove any earth, sand or other material from the lines of the work before the excavation is refilled except upon direction of the Engineer. The provisions of this paragraph shall not be construed as relieving the Contractor of any kind of his obligations to remove and dispose of any of the material excavated, with or without rehandling, at his cost and expense as provided in these specifications.

1.02 From investigations, including surveys made at the site, it is assumed that physical conditions are approximately as indicated on the drawings, but the nature of the materials below the surface, the depth to satisfactory foundations, or the stability of beds or banks or quantity of groundwater are not guaranteed.

1.03 Where reference is made within these documents to government specifications, or those of well-known organizations such as ASTM, ASA, ASME, etc., the latest editions shall be used, any or all references in these documents to earlier stated editions notwithstanding.

1.04 The Contractor shall take all necessary precautions to prevent damage to existing City utilities which are to remain in service during any of his construction operations. Should such utilities be damaged by the Contractor, he shall be required to replace, or repair same, to the satisfaction of the Engineer, at no additional cost to the Owner.

1.05 Certain information regarding the reputed presence, size, character, and location of existing underground structure, pipes and conduits has been shown on the contract drawings. The location of underground structures shown may be inaccurate and other obstructions than those shown may be encountered. The Contractor distinctly agrees that the Engineer and the Owner are not responsible for the correctness or sufficiency of the information given; that in no event is this information to be considered as a part of the Contract; that he shall have no claim for delay or extra compensation on account of incorrectness of information given; or on account of insufficiency or absence of information regarding obstructions either revealed or not revealed by the drawings; and that he shall have no claim for relief from any obligation or responsibility under this Contract, in case the location, size or character of any pipe or other underground structure is encountered that is not shown on the drawings.

1.06 The Contractor agrees that the work shall be started not later than the date indicated in the Notice to Proceed, and that the total work shall be completed within **180** calendar days.

A. The Contractor further agrees that for each calendar day, with the exception of Sundays and legal holidays, that any such work shall remain uncompleted after the completion time stipulated above, the sum of **Five Hundred Dollars ($500)** per day shall be deducted by

the Owner from monies due the Contractor, not as a penalty but as liquidated damages. Charges shall accrue upon failure to achieve final completion target date, unless otherwise approved. If the Contractor is declared in default in accordance with the provisions of the specifications, liquidated damages shall be charged as provided herein, and such amounts shall be deducted from the final amount payable to the Contractor or their Surety. Should the total amount chargeable as liquidated damages exceed the amount due or payable to the Contractor or their Surety, then such excess shall be paid to the Owner by the Contractor or their Surety.

1.07 The City shall provide reference points as shown on the plans. Contractor shall be responsible for having a land surveyor registered in the State of Florida and approved by the Engineer lay out the work, shall protect and preserve the established reference points and shall make no changes or relocations without the prior written approval of the Engineer. Contractor shall report to Engineer whenever such reference point is lost or destroyed or required location because of necessary changes in grades or locations, and the Contractor shall be responsible for replacement or relocation of such reference points by professionally qualified personnel, registered in the State of Florida and approved by the Engineer.

1.08 All dewatering and pumping necessary to accomplish the work of this Contract shall be performed by the Contractor at no extra or additional cost to the Owner. Any permits required shall be the responsibility of the Contractor.

1.09 Before submitting a Bid each Contractor must:

A. Examine the Contract Documents thoroughly.

B. Visit the site to familiarize himself with local conditions that may in any manner affect cost, progress or performance of the work.

C. Familiarize himself with federal, state and local laws, ordinance, rules and regulations that may in any manner affect cost, progress or performance of the work.

D. Study and carefully correlate Bidder's observations with the Contract Documents.

1.10 Attention is directed to the requirements of the following agencies with regard to permits and construction of utilities within their rights of way or jurisdiction.

A. City of New Smyrna Beach.

B. St. Johns River Water Management District Permit.

C. NPDES Stormwater (by Contractor).

D. The Owner will make necessary application for permits to construct such utilities. It shall be, however, the responsibility of the Contractor to construct the utilities in strict accordance with the requirements of the above-mentioned agencies, and no extra or additional payments will be made by the Owner for this work.

1.11 Construction shall be limited to weekday day light working hours. No weekend, night time, or holiday work shall be performed without obtaining permission in advance from the Project Engineer. Certain non-essential items such as clean up, seeding and mulching, sodding, some well pointing operations, saw cutting of pavement, etc. may be performed by the Contractor during the above times by giving the Project Engineer advance notice of such operations.

1.12 Contract Insurance Requirements.

1.13 The Contractor is responsible for recording the Payment and Performance Bond and the Public Construction Bond in the Official Records of Volusia County, Florida. The Contractor shall submit a copy of the bond package to the Engineer *prior to recording*. The Engineer will verify the contract specifics contained on the bonds and submit them to the City Attorney for review and approval. Once approval has been received by the City Attorney, the Engineer will notify the Contractor that the bonds have been approved for recording. The Contractor shall provide copies of the recorded documents and/or the recording receipt from the County Clerk's office to the Engineer prior to the issuance of the Notice to Proceed. The Contractor shall be responsible for paying all costs associated with the recording of these documents and no separate contract payment shall be made to the Contractor for this item. The original bond documents should be annotated RETURN TO the City of New Smyrna Beach.

1.14 The Contractor shall provide an English speaking full time superintendent to supervise sub-contractors and provide direction to field crews. The Engineer's representative shall not be responsible for providing direction to sub-contractor or field crews. The Contractor's superintendent shall not be verbally or physically abusive to citizens or other project personnel. Use of foul language in the presence of or belligerence towards citizens or project representatives shall be grounds for immediate replacement of the superintendent at no cost to the Owner.

1.15 The Contractor acknowledges that he is responsible for complying with all aspects of the Florida Trench Safety Act (90-96, Laws of Fla.) effective October 1, 1990. He assumes all responsibility and costs entailed.

1.16 The proposed pipe alignments indicated on the project plans may require adjustment in the field due to conflicts or field conditions. Field changes shall be paid for at the contact unit price.

1.17 The Contractor is responsible for obtaining a Water Management District Permit for (dewatering) consumptive use if the Contractor's means or methods trip the Agency's thresholds requiring

permits. No separate payment or contract time extension for the Contractor obtaining the permit shall be granted by the City.

1.18 Land disturbed shall have hay bales or turbidity curtains installed around the perimeter to control erosion and sediment runoff where it is likely to occur during construction at no extra cost to the Owner.

1.19 The Contractor shall submit an executed Consent of Surety for Final Payment form, copy of which is included with the Contract Documents, prior to submitting a final request for payment.

1.20 All unit pricing shall remain valid for the duration of the contract.

1.21 Florida Sales Tax on materials, as well as all other customary taxes on construction activities, shall be paid for by the Contractor at no additional expense to the Owner.

1.22 The Contractor shall provide suitable, accurate pressure gauges for conducting hydrostatic pressure tests at all pipe branch/blow-off locations or as a minimum at each end of each section of the line tested between valves. No separate payment will be made for this work. Payment shall be included in the applicable unit price entitled Hydrostatic Testing.

1.23 No thrust blocking shall be used unless specifically authorized by the Engineer. Restrained joint pipe fittings and joint shall be utilized.

1.24 All water main installed under this contract shall be buried with the appropriate marking tape to indicate the service designation. The tape shall be laid directly over the pipe at a depth of 24 inches below proposed finished ground elevation.

1.25 The Contractor shall not sublet, sell, transfer, assign or otherwise dispose of the utility portion thereof, or their right, title or interest therein, without written consent of the Owner.

1.26 Limitations on the Engineer's Responsibilities

A. Neither the Engineer's authority to act under this Paragraph nor any decision made by the Engineer in good faith either to exercise or not exercise such authority shall give rise to any duty or responsibility of the Engineer to the Contractor, any Subcontractor, any of their agents or employees or any other person performing any of the work.

B. The Engineer will not be responsible for the construction means, methods, techniques, sequences or procedures, or the safety precautions and programs incident thereto, and will not be responsible for the Contractor's failure to perform the work in accordance with the Contract Documents.

C. The Engineer will not be responsible for the acts or omissions of the Contractor, any subcontractors, or any of their agents or employees, or any other persons performing any of the work.

1.27 The City subject to availability will make available reasonable amounts of water for Contractor compaction requirements and potable water for flushing and testing requirements at no cost to the Contractor. Abnormally high usage (gross wastage) of provided water by the Contractor's organization shall be subject to City backcharges to the Contractor at established City rates.

1.28 All PVC potable water pipe installed under this contract shall be extruded blue in color to differentiate this pipe from other service designations. Pipe shall be NSF approved AWWA C-900 Class 150.

1.29 Reasonable care shall be taken during construction to avoid damage to vegetation. Ornamental shrubbery and tree branches shall be temporarily tied back, where appropriate, to minimize damage. Trees which receive damage to branches shall be trimmed of those branches to improve the appearance of the tree. Tree trunks receiving damage from equipment shall be treated with a tree dressing.

1.30 Project and completion is defined as pipe materials in place tested and certified for use, and paving and right-of-way restoration as well as fencing complete.

1.31 The Contractor's forces shall be required to hand dig and expose all existing utilities including telephone cables, T.V. cables (both public and private), gas lines, if present, water mains, force mains, sewer services, water services and private sprinklers a minimum of twenty-four (24) hours in advance of the pipe laying operation. City forces and other utilities will mark the approximate location of their utilities when contacted. City crew will not be responsible for hand digging the location of City services. Separate lump sum payment shall be made for this work.

1.32 All existing improved areas disturbed by construction shall be sodded with the same type sod as the existing variety of sod encountered. Separate unit price payment or lump sum payment will be made for this work.

1.33 The Contractor shall utilize restrained joint for bends and required fittings for all pressure pipe shown on the project plans. The restrained PVC pipe lengths shall be in accordance with DIPRA Thrust Resistant Design for Ductile Iron Pipe utilizing laying condition 2 with polyethylene wrap with the type soils and soil depth encountered. Restrained joint pipe specifications shall be strictly adhered to. Piping drawings indicating restraining lengths and calculations shall be submitted to the Engineer for record purposes prior to construction. Responsibility for the adequacy for the restrained joint calculations shall remain with the Contractor and the supplier.

1.34 A City Standard sign shall be provided as shown in the specifications for each area under construction. The sign shall be placed in plain view at a designated location.

1.35 The Contractor shall make their own provisions for materials security. Any City provided work areas shall be returned to its original or better condition upon the completion of the project. Sodding of any disturbed areas utilized by the Contractor for work area will be accomplished by the Contractor at no additional cost to the City. Separate payment for this work will not be made and shall be included in the appropriate contract work items by the Contractor in the bid proposal.

1.36 Attached if issued are the project permits the Contractor shall comply with at no additional cost to the Owner.

1.37 Burning or burying of land clearing debris shall not be permitted. All organic matter and other debris shall be disposed of by the Contractor at an approved landfill.

END OF SECTION

SECTION 01 31 19
PROJECT MEETINGS

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work:

1. The Contractor shall coordinate with the Engineer to schedule and administer the preconstruction meeting, resident meeting, utility coordination, periodic progress meetings, and specifically called meetings throughout the progress of the Work.

2. The Engineer shall:

   a. Prepare agenda for meetings.
   b. Make physical arrangements for meetings.
   c. Preside at meetings.
   d. Take and distribute meeting minutes.

3. The Contractor shall:

   a. Attend all meetings along with pertinent subcontractors and suppliers.
   b. Appoint attendees who are qualified and authorized to act on behalf of the entity each represents.
   c. Provide requested information at meetings.

4. The Owner shall:

   a. Attend meetings to ascertain that the Work is expedited consistent with Contract Documents and construction schedules.

B. RELATED REQUIREMENTS DESCRIBED ELSEWHERE:

1. Section 01 32 16 - Construction Progress Schedules
2. Section 01 33 23 - Shop Drawings, Product Data, and Samples
3. Section 01 78 39 - Project Record Documents

1.02 PRECONSTRUCTION MEETING

A. Purpose: To initiate coordination of contractual requirements prior to start of work.

B. Scheduling: Engineer will schedule a preconstruction meeting after execution of the Contract. Invites shall be sent via electronic mail.

C. Location: A local site, convenient for all parties, designated by the Engineer.

D. Attendance:

1. Owner's representative.
2. Engineer
3. Resident project representative.
4. Contractor and their superintendent.
5. Major subcontractors.
6. Representatives of major suppliers and manufacturers, as appropriate.
7. Governmental and franchised utility representatives, as appropriate.
8. Permit agency representatives, as appropriate.
9. Funding agency representatives, as appropriate.
10. Others as requested by the Contractor, Owner, and Engineer.

E. Suggested Agenda:

1. Introductions and Roles
2. Contract Execution and Dates

    a. Contracts
    b. Contract Time/Dates
    c. Copies of Conformed Documents

3. Communications

    a. Lines of Communication
    b. Coordination Meetings
    c. Contact List
    d. Requests for Information (RFIs)

4. Preconstruction Matters

    a. Submittals
    b. Material Acquisition
    c. Mobilization
    d. Permitting

5. Construction/Coordination

    a. Working Days/Hours
    b. Change Orders
    c. Locating Existing Facilities
    d. Demolition

e. Testing
f. Updated Schedules

6. Pay Requests

a. Process
b. Schedule of Values
c. Stored Materials
d. Preliminary As-Builts

7. Contract Closeout

a. Substantial Completion
b. Punch-list
c. Final Acceptance
d. Warranty
e. Final Payment

1.03 RESIDENT MEETING(S)

A. Purpose: To present construction approach to affected residents and to allow residents to ask questions concerning such.

B. Scheduling: Engineer/Owner will schedule resident meeting(s) after preconstruction meeting is held, but before construction begins. Invites shall be distributed via electronic mail and hard copy flyers. Contractor shall assist in the distribution of flyers.

C. Location: A local site, convenient for all parties, designated by the Engineer/Owner.

D. Attendance:

1. Owner's representative.
2. Engineer.
3. Resident project representative.
4. Contractor and his superintendent.
5. Major subcontractors, as appropriate.
6. Residents.

E. Suggested Agenda: To be determined by Engineer/Owner

1.04 UTILITY COORDINATION MEETING(S)

A. Purpose: To discuss the coordination of the construction with existing and proposed utilities.

B. Scheduling: Engineer will schedule utility coordination meeting(s) as needed. These meetings may be held in conjunction with Progress Meetings. Invites shall be distributed via electronic mail.

C. Location: A local site, convenient for all parties, designated by the Engineer.

D. Attendance:

1. Owner's representative.
2. Engineer.
3. Resident project representative.
4. Contractor and their superintendent.
5. Major subcontractors, as appropriate.
6. Utility representatives.

E. Suggested Agenda: To be determined by Engineer.

1.05 PROGRESS MEETINGS

A. Purpose: To discuss the progress of the construction and projected work activities.

B. Scheduling: Engineer will schedule progress meetings on a regular basis at a maximum frequency of once per week or less frequently, i.e. once per month, depending on the level of communication required for the project. Invites shall be distributed via electronic mail.

C. Location: A local site, convenient for all parties, designated by the Engineer.

D. Attendance:

1. Owner's representative.
2. Engineer and sub-consultants, as appropriate.
3. Resident project representative.
4. Contractor and his superintendent.
5. Major subcontractors, as appropriate.
6. Utility representatives, as appropriate.
7. Permit agency representatives, as appropriate.
8. Funding agency representatives, as appropriate.

E. Suggested Agenda:

1. Work progress since last meeting
2. Work scheduled this period
3. Field observations, problems and conflicts.

4. Construction schedule

    a. Status of current schedule
    b. Issues impacting schedule
    c. Fabrication and delivery schedules
    d. Corrective measures to regain projected schedule

5. Submittals
6. RFIs
7. Pending Changes and Substitutions
8. Quality Control
9. Pay Requests
10. Other Business

PART 2- PRODUCTS (NOT USED)

PART 3 - EXECUTION (NOT USED)

END OF SECTION

SECTION 01 32 16
CONSTRUCTION PROGRESS SCHEDULES

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work:

1. Promptly after award of the Contract, prepare and submit to the Engineer estimated construction progress schedules demonstrating complete fulfillment of all Contract requirements utilizing a Critical Path Method (hereinafter referred to as CPM) in planning, coordinating, and performing the Work under this Contract (including all activities of subcontractors, equipment vendors, and suppliers). The principles and definition of CPM terms used herein shall be as set forth in the Associated General Contractors of America (AGC) publication, The Use of CPM in Construction, A Manual for General Contractors and the Construction Industry, latest edition, but the provisions of this Specification shall govern the planning, coordinating, and performance of the Work.

2. Submit revised progress schedules on a monthly basis. No partial payments shall be approved until there is an approved construction progress schedule on hand.

B. Related Requirements Described Elsewhere:

1. Conditions of the Contract.
2. Section 01 11 00 - Summary of Work
3. Section 01 31 19 - Project Meetings
4. Section 01 29 76 - Progress Payment Procedures
5. Section 01 33 23 - Shop Drawings, Project Data, and Samples
6. Section 01 29 73 - Schedule of Values

1.02 QUALIFICATIONS

A. A statement of computerized CPM capability shall be submitted in writing prior to the award of the Contract and shall verify that either Contractor's organization has in-house capability to use the CPM technique or that Contractor will employ a CPM consultant who is so qualified.

B. In-house capability shall be verified by description of construction projects to which Contractor or Contractor's consultant has successfully applied computerized CPM and shall include at least two (2) projects valued at least half the expected value of this project.

1.03 FORM OF SCHEDULES

A. Prepare schedules in the form of a horizontal bar chart.

1. Provide a separate horizontal bar for each trade or operation within each structure or item.

2. Horizontal time scale:

a. Show starting and completion dates for each activity in terms of the number of days after Notice to Proceed. All completion dates shown shall be within the period specified for contract completion.

b. Identify the first workday of each month.

3. Scale and Spacing: Sufficient to allow space for notations and future revisions.

4. Maximum Sheet Size: 24 inches by 36 inches.

B. Format of Listings: The chronological order of the start of each item of work for each structure.

C. Identification of Listings: By major specification section numbers as applicable and by utility.

D. Construction Progress Schedules shall be computer generated using software offered by Primavera or approved equal.

1.04 CONTENT OF SCHEDULES

A. Construction Progress Schedule:

1. Show the complete sequence of construction by activity and by structure.

2. Show the dates for the beginning and completion of each major element of construction in no more than a two (2) week increment scale. Specifically, list, but do not limit to:

a. Shop Drawing Schedule.
b. Installation of temporary facilities.
c. Clearing.
d. Demolition
e. Subcontractor work

f. Utility Installations
g. Paving
h. Start-Up
i. Project closeout

3. Show projected percentage of completion for each item, as of the first day of each month.

4. Show projected dollar cash flow requirements for each month of construction and for each activity as indicated by the approved Schedule of Values.

B. Submittals for construction progress schedules shall be in accordance with Section 01 33 23: Shop Drawings, Product Data, and Samples. Indicate on the schedule the following:

1. The dates for Contractor's submittals.
2. The date submittals will be required for Owner-furnished products, if applicable.
3. The date approved submittals will be required from the Engineer.

C. A typewritten list of all long lead items (equipment, materials, etc.).

D. To the extent that the progress schedule or any revised progress schedule shows anything not jointly agreed upon or fails to show anything jointly agreed upon, it shall not be deemed to have been approved by the Engineer. Failure to include any element of work required for the performance of this Contract shall not excuse the Contractor from completing all work required within any applicable completion date, notwithstanding the Engineer's approval of the progress schedule.

E. Scheduling Constraints: The work within Owner's property must be completed within the maximum number of days start to finish, as indicated in the Contract. Additionally, work must proceed on a continuous basis, without stoppages, except for nights and weekends. There shall be no lapses between phases of construction.

1.05 PROGRESS REVISIONS

A. Indicate progress of each activity to date of submission.

B. Show changes occurring since previous submission of schedule:

1. Major changes in scope.
2. Activities modified since previous submission.
3. Revised projections of progress and completion.
4. Other identifiable changes.

C. Provide a narrative report as needed to define:

1. Problem areas, anticipated delays, and the impact on the schedule.
2. Corrective action recommended, and its effect.
3. The effect of changes on schedules of other prime contractors.

D. If the Work falls behind the critical path schedule by two (2) weeks or more, the Contractor shall prepare a recovery schedule.

1.06 SUBMISSIONS

A. Submittal Requirements.

1. Logic network and/or time-phased bar chart, computer generated.

2. Computerized network analysis:

a. Sort by early start
b. Sort by float
c. Sort by predecessor/successor

3. Narrative description of the logic and reasoning of the schedule.

B. Time of Submittals.

Within ten (10) working days after Notice to Proceed, Contractor shall submit a network diagram describing the activities to be accomplished in the project and their dependency relationships, (predecessor/successor) as well as a tabulated schedule as herein defined. The total length of time indicated on the initial CPM schedule shall equal the exact number of days in the Contract Time as defined in Agreement. The schedule produced and submitted shall also indicate calendar dates, including project starting and completion dates, based on the Contract Commencement and completion dates indicated in the Notice to Proceed. The Engineer will complete the review of the complete schedule within fifteen (15) working days after receipt. During the review process, the Engineer may meet with a representative of Contractor to review the proposed plan and schedule to discuss any clarifications that may be necessary.

C. Within ten (10) working days after the conclusion of the Engineer's review period, Contractor shall revise the network diagram as required and resubmit the network diagram and a tabulated schedule produced therefrom. The revised network diagram and tabulated schedule shall be reviewed and accepted or rejected by the Engineer within fifteen (15) working days after receipt. The network diagram and tabulated

schedule, when accepted by the Engineer, shall constitute the project work schedule unless a revised schedule is required due to substantial changes in the Work, a change in Contract Time or a recovery schedule is required and requested.

D. Acceptance. The finalized schedule will be acceptable to the Engineer when, in the opinion of the Engineer, it demonstrates an orderly progression of the Work to completion in accordance with the Contract Documents. Such acceptance will neither impose on the Engineer responsibility for the progress or scheduling of the Work nor relieve Contractor from full responsibility, therefore. The finalized schedule of shop drawing submittals will be acceptable to the Engineer when, in the opinion of the Engineer, it demonstrates a workable arrangement for processing the submittals in accordance with the requirements. The finalized Schedule of Values (lump sum price breakdown), as applicable, will be acceptable to the Engineer as to form and content when, in the opinion of the Engineer, it demonstrates a substantial basis for equitably distributing the Contract Price. When the network diagram and tabulated schedule have been accepted, the Contractor shall submit to the Engineer six (6) copies of the time-scaled network diagram, six (6) copies of a computerized tabulated schedule in which the activities have been sequenced by numbers, six (6) copies of a computerized tabulated schedule in which the activities have been sequenced by early starting date, and six (6) copies of a computerized, tabulated schedule in which activities have been sequenced by total float, and six (6) copies sorted by predecessor/successor.

E. Revised Work Schedules. Contractor, if requested by the Engineer, shall provide a revised work schedule if, at any time, the Engineer considers the completion date to be in jeopardy because of "activities behind schedule." The revised work schedule shall include a new diagram and tabulated schedule conforming to the requirements of Paragraph 1.09 herein, designed to show how Contractor intends to accomplish the Work to meet the completion date. The form and method employed by Contractor shall be the same as for the original work schedule. No payment will be made if activities fall more than two (2) weeks behind schedule and a revised work schedule is not furnished.

F. Schedule Revisions. The Engineer may require Contractor to modify any portions of the work schedule that become infeasible because of "activities behind schedule" or for any other valid reason. An activity that cannot be completed by its original latest completion date shall be deemed to be behind schedule. No change may be made to the sequence, duration, or relationships of any activity without approval of the Engineer.

1.07 DISTRIBUTION

A. Distribute copies of the reviewed schedules to:

1. Engineer.
2. Jobsite file.
3. Subcontractors.
4. Other concerned parties.
5. Owner (two copies).

B. Instruct recipients to report promptly to the Contractor, in writing, any problems anticipated by the projections shown in the schedules.

1.08 CHANGE ORDERS

A. Upon approval of a change order, the approved changes shall be reflected in the next scheduled revision or update submittal of the construction progress schedule by the Contractor.

1.09 CPM STANDARDS

A. CPM, as required by this Section, shall be interpreted to be generally as outlined in the Associated General Contractors (AGC) publication, The Use of CPM in Construction, A Manual for General Contractors and the Construction Industry, Copyright 1976.

B. Work schedules shall include a graphic network and computerized, tabulated schedules as described below. To be acceptable the schedule must demonstrate the following:

1. A logical succession of work from start to finish.

2. Definition of each activity. Activities shall be identified by major specification section numbers, as applicable, and by major utility.

3. A logical flow of work crews/equipment (crews are to be defined by manpower category and man-hours; equipment by type and hours).

4. Show all work activities and interfaces including submittals as well as major material and equipment deliveries.

C. Networks.

1. The CPM network, or diagram, shall be in the form of a time-scaled diagram of the customary activity-on-type and may be divided into a number of separate pages with suitable notation relating the interface points among the pages. Notation on each activity line shall include a brief work description and duration, as described in Paragraph 1.09, D. herein.

2. All construction activities and procurement shall be indicted in a time-scaled format, and a calendar shall be shown on all sheets along the entire sheet length. Each activity arrow shall be plotted so the beginning and completion dates of said activity can be determined graphically by comparison with the calendar scale. All activities shall be shown using the symbols that clearly distinguish between critical path activities, non-critical path activities, and float for each non-critical activity. All non-critical path activities shall show estimated performances time and float time in scaled form.

D. The duration indicated for each activity shall be in calendar days and shall represent the single best time considering the scope of the work and resources planned for the activity including time for inclement weather. Except for certain non-labor activities, such as curing concrete or delivering materials, activity durations shall not exceed fourteen (14) days nor be less than one (1) day unless otherwise accepted by the Engineer.

E. Tabulated Schedules. The initial schedule shall include the following minimum data for each activity:

1. Activity Beginning and Ending Numbers (i-j numbers) (single activity numbers may be used).
2. Duration.
3. Activity Description.
4. Early Start Date (Calendar Dated).
5. Late Start Date (Calendar Dated).
6. Early Finish Date (Calendar Dated).
7. Late Finish Date (Calendar Dated).
8. Identified Critical Path.
9. Total Float (Note: No activity may show more than 20 days float).
10. Cost of Activity.
11. Equipment Hours, by type; Man-Power Hours, by crew or trade.

F. Project Information. Each tabulation shall be prefaced with the following summary data:

1. Project Name.
2. Contractor.

3. Type of Tabulation (Initial or Updated).
4. Project Duration.
5. Project Scheduled Completion Date.
6. Effective or Starting Date of the Schedule.
7. New Project Completion Date and Project Status (if an updated or revised schedule).
8. Actual Start Date and Actual Finish Date (for all updated schedules.)

1.10 SCHEDULE MONITORING

A. At not less than monthly intervals or when specifically requested by Engineer, Contractor shall submit to the Engineer a computer printout of an updated schedule for those activities that remain to be completed. Typically, the updated schedule will be submitted with the application for payment as specified below.

B. The updated schedule shall be submitted in the form, sequence, and number of copies requested for the initial schedule.

1.11 PROGRESS MEETINGS

A. For the monthly progress meeting, Contractor shall submit a revised CPM schedule and a three-week look-ahead schedule, showing all activities completed, in progress, uncompleted, or scheduled to be worked during the weeks. The three weeks include the current week plus the next two weeks. All activities shall be from the approved CPM and must be as shown on the CPM unless behind or ahead of schedule. One copy of the revised CPM schedule shall be submitted with each copy of that month's application for payment, electronically in color.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION (NOT USED)

END OF SECTION

SECTION 01 32 33
PHOTOGRAPHIC DOCUMENTATION

PART 1 - GENERAL

1.01 SCOPE OF WORK

A. Scope of Work: The Contractor shall employ a competent photographer to take construction record photographs and video recording prior to start of the Work.

B. Summary: This Section includes administrative and procedural requirements for the following

1. Preconstruction photographs
2. Preconstruction video recordings

C. Related Requirements Described Elsewhere:

1. Section 01 00 00 - General Requirements
2. Section 01 11 00 - Summary of Work
3. Section 01 30 00 - Administrative Requirements
4. Section 01 78 39 - Project Record Documents

D. Photographs and videos shall be taken in conformance with this Section and shall be furnished to the Engineer with each pay request. Failure to comply will result in rejection of pay request.

1.02 INFORMATIONAL SUBMITTALS

A. Key Plan: Submit key plan of the Project site and building with notation of vantage points marked for location and direction of each photograph. Indicate elevation or story of construction. Include the same information as corresponding photographic documentation.

B. Digital Photographs: Submit image files within three (3) days of taking photographs

1. Digital Camera: Minimum sensor resolution of 8 megapixels
2. Format: Minimum 3200 by 2400 pixels, in unaltered original files, with same aspect ratio as the sensor, uncropped, date and time stamped, in folder named by date of photograph accompanied by key plan file.
3. Identification: Provide the following information with each image description in file metadata tag:

a. Name of Project

b. Name and contact information for photographer
c. Name of Architect
d. Name of Contractor
e. Date photograph was taken
f. Description of vantage point, indicating location, direction (by compass point), and elevation or story of construction.
g. Unique sequential identifier keyed to accompanying key plan.

1. Format: electronic submittal to Engineer
2. Identification: With each submittal, provide the following information:

a. Name of Project.
b. Name and contact information for photographer.
c. Name of Architect and Construction Manager.
d. Name of Contractor.
e. Date photograph was taken if not date stamped by camera.
f. Description of vantage point, indicating location, direction (by compass point), and elevation or story of construction.
g. Unique sequential identifier keyed to accompanying key plan.

C. Video Recordings: Submit video recordings within seven (7) days of recording.

1. Submit video recordings in digital video disc format acceptable to Architect by posting to Web-based photographic documentation service provider's Web site.
2. Identification: With each submittal, provide the following information:

a. Name of Project.
b. Name and address of photographer.
c. Name of Architect and Construction Manager.
d. Name of Contractor.
e. Date video recording was recorded.
f. Description of vantage point, indicating location, direction (by compass point), and elevation or story of construction.
g. Weather conditions at time of recording.

1.03 COST OF PHOTOGRAPHY

A. The Contractor shall pay costs for specified ground photography, videography, and web-based documentation.

1.04 QUALITY ASSURANCE

A. Photographer Qualifications: An individual who has been regularly engaged as a professional photographer of construction projects for not less than three years.

B. Digital photographs may be taken by the Contractor's personnel but must be of professional quality as herein specified. Photographs which are deemed unsatisfactory will be rejected and retakes will be required.

C. Web-Based Photographic Documentation Service Provider: A firm specializing in providing photographic equipment, Web-based software, and related services for construction projects with record of providing satisfactory services similar to those required for the Project.

1.05 USAGE RIGHTS

A. Obtain and transfer copyright usage rights from the Photographer to the Owner for unlimited reproduction of photographic documentation.

PART 2 - PRODUCTS

2.01 PHOTOGRAPHIC MEDIA

A. Digital Images: Provide images in JPG format, produced by a digital camera with minimum sensor size of 8 megapixels, and at an image resolution of not less than 3200 by 2400 pixels.

2.02 WEB-BASED PHOTOGRAPHIC DOCUMENTATION

A. Project Camera: Provide fixed exterior camera installation, mounted to provide unobstructed view of construction site from location approved by Architect.

1. Provide fixed-location camera(s), with the following characteristics:

a. Static View, remotely controllable view with mouse click user navigation for horizontal pan, vertical tile and optical zoom of 500 percent minimum.
b. Capable of producing minimum 3.0-megapixel pictures
c. Provide power supply, active high-speed data connection to service provider’s network, and static IP address for each camera.

B. Wireless Hand-Held Cameras: Provide portable camera system capable of producing images complying with requirements in this Section, with wireless transmission to service provider’s network enabling a live image stream viewable by multiple parties.

1. Provide battery charger, spare battery pack, base station hub, and base station connections in a number and distribution adequate to enable wireless camera operation throughout Project site.
2. Provide power supply, active high-speed data connection to service provider's network, and static public IP address at base station hub and base station connections.

PART 3 - EXECUTION

3.01 CONSTRUCTION PHOTOGRAPHS

A. Photographer: Engage a qualified photographer to take construction photographs.

B. General: Take photographs using the maximum range of depth of field, and that are in focus, to clearly show the Work. Photographs with blurry or out-of-focus areas will not be accepted.

1. Maintain key plan with each set of construction photographs that identifies each photographic location.

C. Digital Images: Submit digital images exactly as originally recorded in the digital camera, without alteration, manipulation, editing, or modifications using image-editing software.

1. Date and Time: Include date and time in file name for each image.
2. Field Office Images: Maintain one (1) set of images accessible in the field office at Project site, available always for reference. Identify images in the same manner as those submitted to Architect and Construction Manager.

D. Preconstruction Photographs: Before starting construction, take photographs of Project site and surrounding properties, including existing items to remain during construction, from different vantage points, as directed by Architect and Construction Manager.

1. Flag excavation areas and construction limits before taking construction photographs.
2. Take a minimum of twenty (20) photographs to show existing conditions adjacent to property before starting the Work.
3. Take a minimum of twenty (20) photographs of existing buildings either on or adjoining property to accurately record physical conditions at start of construction.
4. Take additional photographs as required to record settlement or cracking of adjacent structures, pavements, and improvements.

.

3.02 CONSTRUCTION VIDEO RECORDINGS

A. Video Recording Photographer: Engage a qualified videographer to record construction video recordings. Time must be accurate and continuously generated.

B. Recording: Mount camera on tripod before starting recording unless otherwise necessary to show area of construction. Display continuous running time and date. At start of each video recording, record weather conditions from local newspaper or television and the actual temperature reading at Project site.

C. Narration: Describe scenes on video recording by dubbing audio narration off-site after video recording is recorded. Include description of items being viewed, recent events, and planned activities. At each change in location, describe vantage point, location, direction (by compass point), and elevation or story of construction.

1. Confirm date and time at beginning and end of recording.
2. Begin each video recording with name of Project, Contractor's name, videographer's name, and Project location.

D. Transcript: Provide a typewritten transcript of the narration. Display images and running time captured from video recording opposite the corresponding narration segment.

E. Preconstruction Video Recording: Before starting construction, record video recording of Project site and surrounding properties from different vantage points, as directed by Architect and Construction Manager.

1. Flag excavation areas and construction limits before recording construction video recordings.
2. Show existing conditions adjacent to Project site before starting the Work.
3. Show existing buildings either on or adjoining Project site to accurately record physical conditions at the start of construction.
4. Show protection efforts by Contractor.

PART 4 – DELIVERY

4.01 PHOTOGRAPHS AND VIDEOS

A. Photographs and videos will be delivered electronically following specifications above with a coordinating log, to the Engineer as attachment to each Application for Payment.

B. Distribution of construction photographs, as soon as processed, is anticipated to be as follows:

1. Engineer one (1) set.
2. Project record file one (1) set to be stored by Contractor until the end of the project which shall then be delivered with Project Record Documents as specified in Section 01 78 39.
3. Contractor one (1) set.

END OF SECTION

SECTION 01 33 23
SHOP DRAWINGS

PART 1 - GENERAL

1.01 REQUIREMENTS INCLUDED

A. The Contractor shall submit to the Engineer for review and approval, such working drawings, shop drawings, test reports and data on materials and equipment, and material samples materials list, certificates and affidavits as are required for the proper control of work, including but not limited to those working drawings, shop drawings, data and samples for materials and equipment specified elsewhere in the Specifications and in the Contract Drawings.

B. Within twenty (20) calendar days after the Effective Date of the Agreement, the Contractor shall submit to the Engineer a complete materials list of preliminary data on items for which Shop Drawings are to be submitted. Included in this materials list shall be the names of all proposed manufacturers furnishing specified items. Review of this list by the Engineer shall in no way be expressed or implied relief to the Contractor from submitting complete Shop Drawings and providing material, equipment, etc., fully in accordance with the Specifications. This procedure is required in order to expedite final review of Shop Drawings.

C. The Contractor shall maintain an accurate updated submittal log and will bring this log to each scheduled progress meeting with the Owner and the Engineer. This log shall include the following items:

1. Submittal Description and Number assigned.
2. Date submitted to Engineer
3. Date returned to Contractor (from Engineer).
4. Status of Submittal (Approved, Approved as Noted, Not Approved/Resubmit).
5. Date of Resubmittal and Return (as applicable).
6. Date of material release (for fabrication).
7. Projected date of fabrication.
8. Projected date of delivery to site.
9. Status of O&M manuals submitted.
10. Specification Section.
11. Drawings Sheet Number.

D. Related Work Specified Elsewhere

1. Section 01 60 00: Product Requirements

1.02 CONTRACTOR'S RESPONSIBILITY

A. It is the duty of the Contractor to check all drawings, data and samples prepared by or for him before submitting them to the Engineer for review. Each and every copy of the drawings and data shall bear Contractor's stamp and signature showing that they have been so checked. Shop drawings submitted to the Engineer without the Contractor's stamp and signature will be returned to the Contractor for conformance with this requirement. Shop drawings shall indicate any deviations in the submittal from requirements of the Contract Documents. If the Contractor takes exception to the specifications, the Contractor shall note the exception in the letter of transmittal to the Engineer. Shop drawings submittals shall not be used as a vehicle for requesting approval of substitute or alternative equipment and materials. Substitution requests will be considered only when submitted in accordance with the applicable provisions of Section 01 60 00.

B. Determine and Verify:

1. Field measurements.
2. Field construction criteria.
3. Catalog numbers and similar data.
4. Conformance with Specifications.

C. The Contractor shall furnish the Engineer a schedule of Shop Drawings submittals fixing the respective dates for the submission of shop and working drawings, the beginning of manufacture, testing and installation of materials, supplies and equipment. This schedule shall indicate those that are critical to the progress schedule.

D. The Contractor shall not begin any of the work covered by a drawing, data, or a sample returned for correction until a revision or correction thereof has been reviewed and returned to him, by the Engineer, with approval.

E. The Contractor shall submit to the Engineer all drawings and schedules sufficiently in advance of construction requirements to provide no less than thirty (30) calendar days for checking and appropriate action from the time the Engineer receives them.

F. All submittals shall be accompanied by a transmittal letter prepared in duplicate containing the following information:

1. Date.

2. Project Title and Number.
3. Contractor's name and address.
4. Notification of deviations from Contract Documents.
5. Submittal Log Number conforming to Specification Section Numbers.

G. The Contractor shall submit descriptive or product data submittals/drawings electronically to the Engineer. The Engineer will review the submittals/drawings and return marked-up submittals/drawings with appropriate review comments electronically to the Contractor.

H. Once submittals/drawings are approved, they are to be distributed electronically to the Owner, Engineer and Contractor.

I. The Contractor shall be responsible for and bear all costs of damages which may result from the ordering of any material or from proceeding with any part of work prior to the completion of the review by Engineer of the necessary shop drawings.

J. The Contractor shall be fully responsible for observing the need for and making any changes in the arrangement of piping, connections, wiring, manner of installation, etc., which may be required by the materials/equipment he proposed to supply both as pertaining to their own work and any work affected under other parts, headings, or divisions of Drawings and Specifications.

1.03. ENGINEER'S REVIEW OF SHOP DRAWINGS

A. The Engineer's review of drawings, data and samples submitted by the Contractor will cover only general conformity to the Specifications, external connections, and dimensions which affect the installation. The Engineer's review and exceptions, if any, will not constitute an approval of dimensions, quantities, and details of the material, equipment, device, or item shown.

B. The review of drawings and schedules will be general, and shall not be construed:

1. As permitting any departure from the Contract requirements.

2. As relieving the Contractor of responsibility of any errors, including details, dimensions, and materials.

3. As approving departures from details furnished by the Engineer, except as otherwise provided herein.

C. If the drawings or schedules as submitted describe variations and show a departure from the Contract requirements which Engineer finds to be in the interest of the Owner and to be so minor as not to involve a change in Contract Price or time for performance, the Engineer may return the reviewed drawings, without noting an exception.

D. When reviewed by the Engineer, each of the Shop Drawings will be identified as having received such review, being so stamped and dated. Shop Drawings stamped "NOT APPROVED/RESUBMIT" and with required corrections shown will be returned to the Contractor for correction and re-submittal.

E. Resubmittals will be handled in the same manner as first submittals. On Resubmittals the Contractor shall direct specific attention, in writing or on resubmitted Shop Drawings, to revisions other than the corrections requested by the Engineer on previous submissions. The Contractor shall make any corrections required by the Engineer.

F. If the Contractor considers any correction indicated on the drawings to constitute a change to the Contract Drawings or Specifications, the Contractor shall give written notice thereof to the Engineer.

G. Shop Drawings and submittal data shall be reviewed by the Engineer for each original submittal and first Resubmittal; thereafter review time for subsequent Resubmittals shall be charged to the Contractor in accordance with the terms of the Engineer's Agreement with the Owner.

H. When the Shop Drawings have been completed to the satisfaction of the Engineer, the Contractor shall carry out the construction in accordance therewith and shall make no further changes therein except upon written instructions from the Engineer.

I. No partial submittals will be reviewed. Submittals not complete will be returned to the Contractor for Resubmittal. Unless otherwise specifically permitted by the Engineer, make all submittals in groups containing all associated items for:

1. Systems

2. Processes

3. As indicated in Specifications Sections, all drawings, schematics, manufacturer's product data, certifications and other shop drawing submittals required by a system specification shall be submitted at one time as a package to facilitate interface checking.

1.04 SHOP DRAWINGS

A. When used in the Contract Documents, the term "Shop Drawings" shall be considered to mean Contractor's plans for materials and equipment which become an integral part of the Project. These drawings shall be completed and detailed. Shop Drawings shall consist of fabrication, erection and setting drawings and schedule drawings, manufacturer's scale drawing, and wiring and control diagrams. Cuts, catalogs, pamphlets, descriptive literature, and performance and test data shall be considered only as supportive to required shop drawings as defined above. As used herein, the term "manufactured" applied to standard units usually mass-produced; and "fabricate" means items specifically assembled or made out of selected materials to meet individual design requirements.

B. Manufacturer's catalog sheets, brochures, diagrams, illustrations and other standard descriptive data shall be clearly marked to identify pertinent materials, product or models. Delete information which is not applicable to the Work by striking or cross-hatching.

C. Drawings and schedules shall be checked and coordinated with the work of all trades involved, before they are submitted for review by the Engineer and shall bear the Contractor's stamp of approval as evidence of such checking and coordination. Drawings or schedules submitted without this stamp of approval shall be returned to the Contractor for resubmission.

D. Each Shop Drawing shall have a transmittal sheet. The transmittal sheet shall display the following:

1. Project title and number.
2. Name of project building or structure.
3. Number and title of the shop drawing.
4. Date of shop drawing or revision.
5. Name of Contractor and subcontractor submitting drawing.
6. Supplier/manufacturer.
7. Separate detailer when pertinent.
8. Specification number.
9. Drawing number.

A Letter of Transmittal Excel document shall be provided to the Contractor per request.

[Contractor Company Logo]	[Contractor Company Name] [Address] [Address] [Phone #]			**LETTER OF TRANSMITTAL**

ATTN:			**M&H PROJECT NO.**	
			COUNTY BID NO.	
		-	**RE:**	
		-		

SUBMITTAL #	**SPEC SECTION(S) #**	**SHEET(S) #**	**SUBMITTAL DESCRIPTION**

	SUPPLIER/MANUFACTURER

Notification of deviations from Contract Documents:

I hereby certify that the Contractor has satisfied Contractor's obligations under the Contract Documents relative to Contractor's review and approval of this submittal.

Signed:	
Type Name:	

E. If drawings show variations from Contract requirements because of standard shop practice or for other reasons, the Contractor shall describe such variations in his letter of transmittal. If acceptable, proper adjustment in the Contract shall be implemented where appropriate. If the Contractor fails to describe such variations, he shall not be relieved of the responsibility for executing the work in accordance with the Contract, even though such drawings have been reviewed.

F. Data on materials and equipment include, without limitation, materials and equipment lists, catalog data sheets, cuts, performance curves, diagrams, materials of construction and similar descriptive material. Materials and equipment lists shall give, for each item thereon, the name and location of the supplier or manufacturer, trade name, catalog reference, size, finish and all other pertinent data.

G. For all mechanical and electrical equipment furnished, the Contractor shall provide a list including the equipment name, address and telephone number of the manufacturer's representative and service company so that service and/or spare parts can be readily obtained.

H. All manufacturers or equipment suppliers who are proposed to furnish equipment or products shall submit an installation list to the Engineer along with the required shop drawings. The installation list shall include at least five (5) installations where identical equipment has been installed and has been in operation for a period of at least one (1) year.

I. Only the Engineer will utilize the color "red" in marking shop drawing submittals.

1.05 WORKING DRAWINGS

A. When used in the Contract Documents, the term "working drawings" shall be considered to mean the Contractor's plan for temporary structures such as temporary bulkheads, support of open cut excavation, support of utilities, ground water control systems, forming and false work; for underpinning; and for such other work as may be required for construction but does not become an integral part of the project.

B. Copies of working drawings as noted in paragraph 1.05 A. above, shall be submitted to the Engineer where required by the Contract Documents or requested by the Engineer, and shall be submitted at least thirty (30) calendar days (unless otherwise specified by the Engineer) in advance of their being required for work.

C. Working drawings shall be signed by a registered Professional Engineer, currently licensed to practice in the State of Florida and shall convey, or be accompanied by, calculation or other sufficient information to completely explain the structure, machine, or system described and its intended manner of use. Review of working drawings by the Engineer will not relieve the Contractor in any way from their responsibility with regard to the fulfillment of the terms of the Contract. All risks of error are assumed by the Contractor; the Owner and Engineer shall have no responsibility therefore.

1.06 SAMPLES

A. The Contractor shall furnish, for the approval of the Engineer, samples required by the Contract Documents or requested by the Engineer. Samples shall be delivered to the Engineer as specified or directed. The Contractor shall prepay all shipping charges on samples. Materials or equipment for which samples are required shall not be used in work until approved by the Engineer.

B. Samples shall be of sufficient size and quantity to clearly illustrate:

1. Functional characteristics of the product, with integrally related parts and attachment devices.

2. Full range of color, texture and pattern.

3. A minimum of two (2) samples of each item shall be submitted.

C. Each sample shall have a label indicating:

1. Name of project.
2. Name of Contractor and subcontractor.
3. Material or equipment represented.
4. Place of origin.
5. Name of producer and brand (if any).
6. Location in project.
7. Submittal Number.

(Samples of finished materials shall have additional marking that will identify them under the finish schedules).

D. The Contractor shall prepare a transmittal letter in triplicate for each shipment of samples containing the information required in paragraph 1.06 B. above. He shall enclose a copy of this letter with the shipment and send a copy of this letter to the Engineer. Approval of

a sample shall be only for the characteristics or use names in such approval and shall not be construed to change or modify any Contract requirements.

E. Approved samples not destroyed in testing shall be sent to the Engineer or stored at the site of work. Approved samples of the hardware in good condition will be marked for identification and may be used in the work. Materials and equipment incorporated in work shall match the approved samples. Samples which failed testing or were not approved will be returned to the Contractor at their expense, if so, requested at time of submission.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION (NOT USED)

END OF SECTION

SECTION 01 35 13
SPECIAL PROJECT PROCEDURES

PART 1 - GENERAL

1.01 PUBLIC NUISANCE

A. The Contractor shall not create a public nuisance including, but not limited to, encroachment on adjacent lands, flooding of adjacent lands, or excessive noise.

B. Sound levels measured by the Engineer shall not exceed 50 dBA from 7 P.M. to 7 A.M. or 60 dBA 7 A.M. to 7 P.M. This sound level shall be measured at the exterior of the nearest exterior wall of the nearest residence. Levels at the equipment shall not exceed 85 dBA at any time. Sound levels in excess of these values are sufficient cause to have the Work halted until equipment can be quieted to these levels. Work stoppage by the Engineer or Owner for excessive noise shall not relieve the Contractor of the other portions of this Specification including, but not limited to, completion dates and bid amounts.

C. No extra charge may be made for time lost due to work stoppage resulting from the creation of a public nuisance.

1.02 JURISDICTIONAL DISPUTES

A. It shall be the responsibility of the Contractor to pay all costs that may be required to perform any of the Work shown on the Drawings or specified herein in order to avoid any work stoppages due to jurisdictional disputes. The basis for subletting Work in question, if any, shall conform to precedent agreements and decisions on record with the Building and Construction Trades Department, AFL-CIO, dated June, 1973, including any amendments thereto.

1.03 EXCAVATION AROUND AND CONNECTION TO EXISTING UTILITIES

A. It is essential that the Contractor understand that the existing Owner’s facilities must be kept in operation with minimal impact and shut-downs. To this end, the Contractor shall coordinate and consult with the Owner's operating personnel before excavating around or cutting into existing utilities on the site. Existing utilities of major concern are water, sanitary sewer, electrical power conduits, phone and television cables, instrumentation conduits, and cables.

B. Some areas within the construction site may require hand excavation due to the congestion of underground piping systems and/or due to the criticality of piping systems that may be damaged unavoidably during machine excavation.

C. Cover for underground piping shall not be less than that indicated on the Drawings, up to a minimum of 30 inches of cover where obtainable. In areas where other piping conflicts preclude the minimum cover desired, the piping shall be laid to provide the maximum cover obtainable.

D. All connections to existing piping systems shall be made as shown or indicated on the Drawings after consultation, cooperation, and coordination with the Owner's management personnel. Some such connections may have to be made during off-peak hours (late night or early morning hours). The Contractor shall give a minimum of three (3) working days' notice to the Owner when tie-ins with the existing plant utilities are required.

E. For major utility pipeline tie-ins and relocations, the Contractor shall submit a detailed Plan of Action for review and approval by the Owner and the Engineer. No major utility relocation or tie-ins shall proceed until the Plan of Action for that Work is approved.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION (NOT USED)

END OF SECTION

SECTION 01 41 00
REGULATORY REQUIREMENTS

PART 1 - GENERAL

1.01 CODES AND FEES

A. The foregoing "General Requirements" form a part of this contract and all the requirements set forth shall be binding upon this subcontractor.

B. Install in accordance with latest edition of the National Electric Code and the regulations of governing local, State, County and other applicable codes. Pay for all required licenses, fees and inspections.

1.02 STANDARDS

A. All materials shall be new and free of defects, and shall be U.L. listed, bear the U.L. label or be labeled or listed with an approved, nationally recognized Electrical Testing Agency. Where no labeling or listing service is available for certain types of equipment, test data shall be submitted to prove to the Engineer that equipment meets or exceeds available standards.

END OF SECTION

SECTION 01 45 29
TESTING LABORATORY SERVICES

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work:

1. Contractor will employ and pay for services of an Independent testing Laboratory to perform testing specifically indicated on the Contract Documents or specified in the Specifications herein and may at any other time elect to have materials and equipment tested for conformity with the Contract Documents.

2. Contractor shall cooperate with the laboratory to facilitate the execution of its required services.

3. Contractor shall provide Engineer with all test results as indicated herein within five (5) days of receipt.

B. Related Requirements Described Elsewhere:

1. Testing laboratory inspection, sampling and testing is required for, but not limited to the following:

a. Section 31 23 00 - Excavation and Fill

C. The following schedule defines the responsibility for various tests.

Test	Notes	Paid for By
Soil Compaction	Pipe Work: every 300 ft. at each lift of compaction minimum. Beneath Structures: each 500 sq. ft. lift of compaction minimum and each lift around structures.	Contractor
Pressure	As specified in Section 33 05 05.31	Contractor
Bacteriological	As required by local and state agencies.	Contractor
LBR	Each 1500 SF of pavement (minimum).	Contractor
Concrete	Slump test each delivery and compression	

test five cylinders every 50 C.Y. (minimum). Contractor

D. Additional Tests: The Contractor shall pay for first tests as specified herein. In the event that first test samples do not meet the applicable material specification, the Contractor shall take measures to conform the material and equipment to the Specifications. All subsequent tests shall be paid for by the Contractor.

1.02 LABORATORY TESTS

A. The materials listed below shall require advance and periodic laboratory tests as indicated, and shall be sampled in accordance with the methods of the A.S.T.M. and as directed by the Engineer. With the exception of concrete test cylinders and mixing water, duplicate advance samples of all materials requiring laboratory tests shall be submitted to the Engineer, one of which will be certified by the Engineer for submission to the testing laboratory and the other retained on the job site in suitable storage provided by the Contractor. Except as noted below, preliminary samples of materials for advance laboratory tests shall be submitted at least two (2) weeks prior to starting delivery of such materials to the site of the project. The testing laboratory shall furnish both the Engineer and the Contractor with two (2) copies of the reports showing the results of such tests, and the reports shall be considered as sufficient evidence of the acceptance or rejection of the quality of the materials tested. The specifications for, and the method of testing, will be found under the detailed specifications for the particular material involved. All samples shall be properly packed and clearly marked as to source and intended use.

MATERIALS	**TEST FREQUENCY**	**SAMPLE SIZE**	**SHIPPING CONTAINER**
Fine Aggregate	Advance, first shipment then each 100 tons	100 lbs.	Canvas Sack
Coarse Aggregate	Advance, first shipment then each 200 tons	Stone or Gravel 200 lbs.	Strong Sack
Concrete	Advance test using approved materials	4 cylinders per mix, 2 broken at 7 days, 2 at 28 days	
Concrete (b) Air Entrainment	Advance test on trial mix air entraining agent is used. Test as specified under Article 405 (e)		

1.03 TESTS

A. The materials listed below shall be tested at the shop or plant of, and by, the producer. Each manufacturer of such materials shall be fully equipped to carry out the tests herein designated. Upon demand of the Engineer, the manufacturer shall perform such additional number of tests as the Engineer may deem necessary to establish the quality of the material offered for use. The Engineer shall be furnished with the certified records of reports of the results of all tests, such reports of records to contain a sworn statement that the tests have been made as specified.

MATERIAL	TEST METHOD
Cement	ASTM C114
Ductile Iron Pipe (Centrifugally Cast)	As required under ANSI A21.51-1176
Brick	ASTM C-32
Reinforcement	ASTM A-15 & A-305

1.04 FIELD TESTS

A. All sewers, water lines, piping and equipment shall be tested in the field in the presence of the Engineer or his authorized assistant, in the manner prescribed in the sections of these specifications pertaining to such installations. The Engineer may also perform or have performed any other field tests necessary to determine compliance with the Contract requirements. The Contractor shall furnish all necessary labor, equipment, and materials for such tests and, with the exception of the Engineer's expenses, shall bear all the cost thereof.

1.05 PAVING TESTS

A. The following tests will be made, unless otherwise stipulated by the Engineer, by a testing laboratory approved by the Engineer:

Material	Test or Test Method	Frequency
Subbase	1) AASHO T-180 (Modified Proctor Minimum 98% Density)	Every 300 LF
	2) Lime rock Bearing Ratio 40	Every 300 LF
Base	(Soil Cement) (1) Mix Design 350 psi @ 28 days. Mix design required 7 days in advance.	Prior to Mixing Base
	(2) Optimum Moisture content and Maximum Density (AASHTO T-134)	Every 300 LF
	(3) LBR 100	Every 1500 sf
	(4) Depth (6-inch minimum)	Every 300 feet
Paving	(1) Job Mix Formula. Required 7 days in advance and submit to Engineer	Each Job
	(2) Bitumen Content of Mix	Every 2500 SY or fraction thereof
	(3) In Place Density	Every 300' (left, right & center)
	(4) Marshall Field Stability Index	Every 1500 SY or fraction thereof
	(5) Thickness Cores	Every 300' (left, right, & center)

1.06 Basis of Payment

A. All shop tests and mill inspection shall be included in the price of the manufactured article, and no separate or extra payment will be made for such tests and inspection.

B. All laboratory and field tests will be paid for by the Contractor; he shall furnish all necessary labor, equipment and materials for such tests and, with the exception of the Engineer's expenses, shall bear all the costs thereof.

1.07 LABORATORY DUTIES: LIMITATIONS OF AUTHORITY

A. Cooperate with Engineer and Contractor; provide qualified personnel promptly on notice.

B. Perform specified inspections, sampling and testing of materials and methods of construction:

1. Comply with specific standards; ASTM, other recognized authorities, and as specified.

2. Determine and report on compliance with requirements of Contract Documents.

C. Promptly notify the Engineer and Contractor of material or operations which do not meet the specifications.

D. Promptly submit one (1) original and (1) electronic copy of reports of inspections and tests to the Engineer including:

1. Date issued.
2. Project title and Engineer's job number.
3. Testing Laboratory name and address.
4. Name and signature of inspector.
5. Date of inspection of inspector.
6. Date of inspection or sampling.
7. Date of test.
8. Identification of product and Specification section.
9. Location in project.
10. Type of inspection or test.
11. Compliance with Contract Documents or not.

E. Laboratory is not authorized to:

1. Release, revoke, alter, or enlarge on requirements of Contract Documents.

2. Approve or reject any portion of work.

3. Perform any duties of the Contractor.

1.08 CONTRACTOR'S RESPONSIBILITIES

A. Cooperate with laboratory personnel; provide access to Work and manufacture's operations.

B. Secure and deliver to the laboratory adequate representational samples of materials purposed to be used and which require testing.

C. Provide to the laboratory the preliminary design mix proposed to be for concrete, and other materials mixes which require control by the testing laboratory.

D. Materials and equipment used in the performance of work under this Contract are subject to inspection and testing at the point of manufacturer of fabrication. Standard specifications for quality and workmanship are indicated in the Contract Documents. The Engineer may require the Contractor to provide statements or certificates from the manufacturers and fabricators that in full accordance with the standard specifications for quality and workmanship indicated in the Contract Documents. All costs of this testing and providing statements and certificates shall be a subsidiary obligation of the Contractor, and no extra charge to the Owner shall be allowed on account of such testing and certification.

E. Furnish incidental labor and facilities:

1. To provide access to Work to be tested.

2. To obtain and handle samples at the Project site or at the source of the product to be tested.

3. To facilitate inspections and tests.

4. For storage and curing of test samples.

5. Notify laboratory sufficiently in advance of operations to allow for laboratory assignment of personnel and scheduling of tests.

SECTION 01 50 00
TEMPORARY FACILITIES AND CONTROLS

PART 1 - GENERAL

1.01 REFERENCES

A. The following is a list of standards which may be referenced in this Section:

1. American Association of Nurserymen: American Standards of Nursery Stock.

2. U.S. Weather Bureau, “Rainfall-Frequency Atlas of the U.S. for Durations from 30 Minutes to 24 Hours and Return Periods from 1 to 100 years.”

3. U.S. Department of Agriculture, “Urban Hydrology for Small Watersheds.”

4. Federal Emergency Management Agency

5. NFPA, National Fire Prevention Standard for Safeguarding Building Construction Operations.

B. RELATED WORK SPECIFIED ELSEWHERE

1. Section 01 60 00: Product Requirements.

1.02 SUBMITTALS

A. Administrative Submittals: Copies of permits and approvals for construction as required by Laws and Regulations and governing agencies.

B. Shop Drawings:

1. Temporary Utility Submittals: Electric power supply and distribution plans, if applicable.

2. Temporary Construction Submittals:

a. Parking area plans
b. Contractor’s field office, storage yard, and storage building plans
c. Staging area location plan

1.03 MOBILIZATION

A. Mobilization shall Include, Not be Limited to, these Principal Items:

1. Obtaining required permits

2. Moving Contractor’s field office and equipment required for first month operations onto site.

3. Installing temporary construction power, wiring, and lighting facilities

4. Providing onsite communication facilities

5. Providing onsite sanitary facilities and potable water facilities as specified and as required by Laws and Regulations, and governing agencies.

6. Arranging for, and erection of, Contractor’s work and storage yard.

7. Posting OSHA required notices and establishing safety programs and procedures.

8. Having Contractor’s superintendent at site full time.

1.04 PROTECTION OF WORK AND PROPERTY

A. Comply with Owner’s safety rules while on Owner’s property.

B. Keep Owner informed of serious accidents on the site and related claims.

C. Use of Explosives: No blasting or use of explosives will be allowed on the Site.

PART 2 - PRODUCTS

2.01 PROJECT SIGN

A. Refer to Section 01 58 00 Temporary Project Signage.

PART 3 - EXECUTION

3.01 (NOT USED)

3.02 TEMPORARY UTILITIES

A. Power:

1. Electric power will be available at or near the site. Determine the type and amount available and make arrangements for obtaining temporary electric power service, metering equipment, and pay all costs for the electric power used during the contract period except for portions of the Work designated in writing by Engineer as substantially complete.

2. Cost of electric power used in performance and acceptance testing will be borne by Contractor.

B. Lighting: Provide temporary lighting at least to meet all applicable safety requirements to allow erection, application or installation of materials and equipment, and observation or inspection of the work.

C. Heating, Cooling and Ventilating:

1. Provide as required to maintain adequate environmental conditions to facilitate progress of the work, to meet specified minimum conditions for the installation of material, and to protect materials, equipment, and finished from damage due to temperature or humidity.

2. Provide adequate forced air ventilation of enclosed areas to cure installed materials, to dispense humidity, and to prevent hazardous accumulations of dust, fumes, vapors or gases.

3. Pay all costs of installation, maintenance, operation, removal, and fuel consumed.

4. Provide portable unit heaters, complete with controls, oil or gas fired and suitable vented to outside as required for protection of health and property.

5. If permanent natural gas piping is used for temporary heating units, do not modify or reroute gas piping without approval of utility company. Provide separate gas metering as required by utility.

D. Water:

1. Contractor to provide electric water cooler with cold and hot water

2. Provide a means to prevent water used for testing from flowing back into the source pipeline.

E. Sanitary and Personnel Facilities: Provide and maintain facilities for Contractor's employed, Subcontractors, and all other onsite employer's employees. Service, clean and maintain facilities and enclosures.

F. Telephone Service:

1. Arrange and provide onsite telephone service for Contractor's use during construction. Pay costs of installation and monthly bills.

G. Fire Protection: Furnish and maintain on site adequate firefighting equipment capable of extinguishing incipient fires. Comply with applicable parts of the National Fire Prevention Standards for Safeguarding Building Construction Operations (NFPA No. 241).

3.03 PROTECTION OF WORK AND PROPERTY

A. General:

1. Where completion of Work requires temporary or permanent removal and/or relocation of an existing utility, coordinate all activities with owner of said utility and perform all work to their satisfaction.

2. Protect, shore, brace, support, and maintain underground pipes, conduits, drains, and other underground utility construction uncovered or otherwise affected by construction operations.

3. Keep fire hydrants and water control valves free from obstruction and available for use at all times.

4. Do not impair operation of existing sewer systems. Prevent construction material, pavement, concrete, earth, volatile and corrosive wastes, and other debris from entering sewers, pump stations and other sewer structures.

5. Maintain original site drainage wherever possible.

B. Site Security: Provide and maintain additional temporary security fences as necessary to protect the Work and Contractor-furnished products not yet installed.

C. Finished Construction: Protection finished floors and concrete floors exposed as well as those covered with composition tile or other applied surfacing.

D. Waterways: Keep ditches, culverts, and natural drainages continuously free of construction materials and debris.

3.04 TEMPROARY CONTROLS

A. Air Pollution Control:

1. Minimize air pollution from construction operations.

2. Burning: Of waste materials, rubbish, or other debris will not be permitted on or adjacent to site.

B. Noise Control: Provide acoustical barriers or other measures as required so noise emanating from tools or equipment will not exceed legal noise levels.

C. Water Pollution Control:

1. Comply with procedures outlined in U.S. Environmental Protection Agency manuals entitled, “guidelines for Erosion and Sedimentation Control Planning” and “implementation, Processes, Procedures, and Methods to Control Pollution Resulting from All Construction Activity”, and “erosion and Sediment Control-Surface Mining in Eastern United States.”

2. Do not dispose of volatile wastes such as mineral spirits, oil, chemicals, or paint thinner in storm or on the ground drains. Disposal of wastes into streams or waterways is prohibited. Provide acceptable containers for collection and disposal of waste materials, debris, and rubbish.
3. Comply with all requirements for the NPDES Stormwater Construction Permit.

D. Erosion, Sediment, and Flood Control: Provide, maintain, and operate temporary facilities to control erosion and sediment releases, and to protect Work and existing facilities from flooding during construction period.

3.05 STORAGE YARDS AND BUILDINGS

A. Coordinate requirements with Section 01 60 00

B. Temporary Storage Yards: Construct temporary storage yards for storage of products that are not subject to damage by weather conditions.

C. Temporary Storage Buildings:

1. Provide environmental control systems that meet recommendations of manufacturers of equipment and materials stored.

2. Arrange or partition to provide security of contents and ready access for inspection and inventory.

3. Store combustible materials (paints, solvents, fuels, etc.) in a well ventilated and remote building meeting safety standards.

3.06 PARKING AREAS

A. Control vehicular parking to preclude interference with public traffic or parking, access by emergency vehicles, Owner's operations, or construction operations.

B. Provide parking facilities for personnel working on the Project. No employee or equipment parking will be permitted on Owner's existing paved areas.

3.07 CLEANING DURING CONSTRUCTION

A. In accordance with General Conditions, as may be specified in Specification sections, and as required herein.

B. Provide approved containers for collection of disposal of waste materials, debris, and rubbish. At least at weekly intervals, dispose of such waste materials, debris, and rubbish offsite.

C. At least weekly, brush sweep the entry drive and roadways, and all other streets and walkways affected by Work and where adjacent to Work.

END SECTION

SECTION 01 54 00
CONSTRUCTION AIDS

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work: Furnish, install and maintain required construction aids, remove on completion of Work.

B. Related Requirements Described Elsewhere:

1. Summary of Work: 01 11 00.

C. Comply with applicable requirements specified in Sections of Division 2 through 46.

PART 2 - PRODUCTS

2.01 MATERIALS

A. Materials may be new or used, suitable for the intended purpose, but must not violate requirements of applicable codes and standards.

2.02 CONSTRUCTION AIDS

A. Provide construction aids and equipment required by personnel and to facilitate execution of the Work: scaffolds, staging, ladders, stairs, ramps, runways, platforms, railings, hoists, cranes, chutes and other such facilities and equipment such as temporary valves and fittings. Refer to respective Sections for particular requirements for each trade.

B. When permanent stair framing is in place, provide temporary treads, platforms and railings, for use by construction personnel.

C. Maintain facilities and equipment in first-class condition.

PART 3 - EXECUTION

3.01 PREPARATION

A. Consult with the Engineer, review site conditions and factors which affect construction procedures and construction aids, which may be affected by execution of the Work.

3.02 GENERAL

A. Comply with applicable requirements specified in sections of Division 2 through 46.

B. Relocate construction aids as required by progress of construction, by storage of work requirements of Owner and other Contractors employed at the site.

3.03 REMOVAL

A. Completely remove temporary materials, equipment and services:

1. When construction needs can be met by use of permanent construction.

2. At completion of work.

B. Clean and restore areas damaged by installation by use of temporary facilities.

1. Remove foundations and underground installations for construction aids.

2. Grade and grass areas of site affected by temporary installations to required elevations, slopes, ground cover and clean the area.

C. Restore permanent facilities used for temporary purposes to specified condition or in kind if not specified.

END OF SECTION

SECTION 01 57 13
TEMPORARY EROSION AND SEDIMENTATION CONTROLS

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work:

1. The Work specified in this Section consists of designing, providing, maintaining and removing temporary erosion and sedimentation controls for construction activities impacting **less** than one acre, as required by Rules and Regulations and permit conditions.

a. If activity impact should **exceed** one acre:

i. The Contractor must apply for a NPDES permit with the Florida Department of Environmental Protection (FDEP), accessible through the provided link below.

1. https://floridadep.gov/sites/default/files/CGP%20NOI%2062-621.300_4b_0.pdf

ii. The Contractor must create a Stormwater Pollution Prevention Plan (SWPPP) and provide its location in the NPDES permit, requirements and guidelines are accessible through the provided links below.

1. http://www.swppps.org/requirements
2. https://floridadep.gov/sites/default/files/ConstructionSWPPP_0.pdf

iii. The Contractor must create a weekly inspection schedule.

1. Additional inspections are required after rainfall exceeding 0.5 inches.

iv. The Contractor must provide a Certified Person for contact.

1. Certified Person(s) must have Erosion and Sedimentation Control training.

b. All aforementioned requirements shall be provided to the Engineer.

i. NPDES permit receipt given upon approval by the FDEP must be provided.

2. Temporary erosion controls include, but are not limited to, grassing, mulching, setting, watering and re-seeding on-site surfaces, soil and borrow area surfaces, providing interceptor ditches at ends of berms and at those locations which will ensure that erosion during construction will be either eliminated or maintained within acceptable limits as established by the Owner.

3. Temporary sedimentation controls include, but are not limited to silt dams, traps, barriers, and appurtenances at the foot of sloped surfaces which will ensure that sedimentation pollution will be either eliminated or maintained within acceptable limits as established by the Owner.

4. Temporary dust controls include, but are not limited to mulching, establishing temporary vegetation, water spraying, surface roughening through tilling, barriers, and spray on adhesives which will ensure minimal dust deposition into water bodies and reduce airborne dust that may cause low visibility or respiratory hazards.

5. Contractor is responsible for designing, providing, maintaining and removing effective temporary erosion, sediment and dust control measures during construction or until final controls become effective.

B. Related Work Described Elsewhere:

1. Section 31 23 00 - Excavation and Fill

2. Section 32 92 23 - Sodding

C. Reference Standards:

1. Florida Department of Agriculture and Consumer Services (FDACS).

2. Florida Department of Environmental Protection (FDEP).

a. FDEP (SESCIM) -- FDEP Florida Stormwater, Erosion and Sedimentation Control Inspector’s Manual.

3. Florida Department of Transportation (FDOT):

a. FDOT Design Standards for Design, Construction, Maintenance and Utility Operations on the State Highway System.

i. FDOT Index No. 102 -- Temporary Erosion and Sediment Control.

b. FDOT Standard Specifications for Road and Bridge Construction.

i. FDOT Section 104 -- Prevention, Control, and Abatement of Erosion and Water Pollution.
ii. FDOT Section 570 -- Performance Turf.
iii. FDOT Section 901 -- Coarse Aggregate.
iv. FDOT Section 981 -- Turf Materials.
v. FDOT Section 985 -- Geotextile Fabrics.
vi. FDOT Section 987 -- Prepared Soil Layer Materials.

4. U.S. Environmental Protection Agency (EPA):

a. EPA (NPDES) -- National Pollutant Discharge Elimination System.

PART 2 - PRODUCTS

2.01 EROSION CONTROL

A. Sodding, mulching, grassing and seeding are specified in Section 32 92 23.

B. Backfill is specified in Section 31 23 00.

C. Netting shall be fabricated of material acceptable to the Owner.

2.02 SEDIMENTATION CONTROL

A. Netting shall be fabricated of material acceptable to the Owner.

B. Filter stone shall be crushed stone which conforms to Florida Department of Transportation (FDOT) specifications.

C. Concrete block shall be hollow, non-load bearing type.

D. Concrete shall be exterior grade not less than one-inch thick.

E. Sediment Fence.

2.03 DUST CONTROL

A. Sodding, mulching, grassing, seeding and tilling are specified in Section 32 92 00.

2.04 BEST MANAGEMENT PRACTICES FOR EROSION AND SEDIMENT CONTROL

NAME	APPLICATION	MAX DRAINAGE AREA	USEFUL LIFE	COMMENT
Block & Gravel	Inlet protection	<1 acre	3-6 Months	Routine Maintenance Required
Brush Barrier	Perimeter Control	Unspecified	3-6 Months	Routine Maintenance Required
Check Dam / Hay Bale	Control Water Velocity	10 Acres	< 3 Months	Replace as Needed
Check Dam / Rock (Gravel)	Control Water Velocity	10 Acres	18 Months	Max Height 2 feet
Check Dam / Silt Fence	Control Water Velocity	10 Acres	6 Months	Replace as Needed
Construction Road Stabilization	Road Stabilization	Unspecified	Project Life	Routine Maintenance Required
Curb and Gutter Sediment Barrier	Inlet Protection	< 1 Acre	> 6 Months	Routine Maintenance Required
Drain field Pipe Inlet Protection	Inlet Protection	< 1 Acre	> 6 Months	Routine Maintenance Required
Floating Turbidity Barrier	Silt/Sediment Containment	Unspecified	> 18 Months	Use in Low Flow Water Body
GeoHay Curb Inlet Protection	Inlet Protection	< 1 Acre	> 6 Months	Routine Maintenance Required
Gravel and Wire Mesh	Inlet Protection	<1 Acre	3-6 Months	Routine Maintenance Required
Silt Fence	Perimeter Control	< ¼ Acre per 100 ft of length	3 Months	Trench In & Compact
Silt Fence (Filter Fabric)	Inlet Protection	< 1 Acre	3 Months	Routine Maintenance Required
Sod	Inlet Protection	< 1 Acre	> 6 Months	Routine Maintenance Required
Temporary Diversion Dike	Slope Protection	5 Acres	> 18 Months	Compact / Stabilize Slopes
Temporary Fill	Slope	5 Acres	1 Day – 1 Week	Rebuild as Needed

Diversion	Protection			
Temporary Gravel Construction Entrance	Entrance	Unspecified	Project Life	Routine Maintenance Required
Temporary Sediment Basin	Sediment Removal	> 5 Acres	18 Months	Engineer Must Design
Temporary Sediment Trap	Sediment Removal	5 Acres	18 Months	Stabilize Interior/Exterior Slopes
Temporary Slope Drain	Slope Protection	5 Acres	3-6 Months	Stabilize Outfall
Temporary Right-Of-Way Diversion	Shorten Flow Length	< 5 Acres	3-6 Months	Inspect Weekly or After Rain

PART 3 – EXECUTION

3.01 PREPARATION AND INSTALLATION

A. No clearing or rough cutting shall be permitted until temporary erosion, sediment and dust control systems are in place, unless permitted directly by the City Engineer.

B. Installation of erosion and sediment control materials shall be per manufacturer recommendations and in accordance with FDOT standards.

C. Any damage caused by construction traffic to temporary erosion, sediment and dust controls systems shall be repaired immediately by the Contractor.

D. The Contractor shall be responsible for collecting, storing, hauling and disposing of soil, silt, and waste materials as specified in this or other Specifications and in compliance with relevant federal, state, and local rules and regulations.

E. Contractor shall make a visual inspection of all sedimentation and erosion control devices (including turbidity barriers) on a daily basis and promptly after every rainstorm. If such inspection reveals that additional measures are needed to prevent movement of sediment beyond the barrier limits, the Contractor shall promptly install additional devices as needed. Sediment controls shall be promptly repaired and maintained, as needed. The Contractor shall keep a log of all inspections indicating the following:

1. Date and time of inspection.
2. Inspector.
3. Amount of rainfall.

4. Erosion and sediment control devices inspected.
5. Condition of sediment and erosion control devices.
6. Repairs or maintenance needed.
7. Date repair or maintenance is completed.

3.02 EROSION CONTROL

A. Minimum procedures for grassing are:

1. Scarify slopes to a depth of not less than six inches and remove large clods, rock, stumps, roots larger than 1/2-inch in diameter and debris.

2. Sow seed within twenty-four (24) hours after the ground is scarified with either mechanical seed drills or rotary hand seeders.

3. Apply mulch loosely and to a thickness of between 3/4 inch and 1-1/2 inches.

4. Apply netting over mulched areas on sloped surfaces.

5. Roll and water seeded areas in a manner which will encourage sprouting of seeds and growing of grass. Reseed areas which exhibit unsatisfactory growth. Backfill and seed eroded areas.

3.03 SEDIMENTATION CONTROL

A. Install and maintain silt dams, traps, barriers, and appurtenances as shown on the approved descriptions and working drawings. Hay bales which deteriorate and filter stone which is dislodged shall be replaced.

3.04 DUST CONTROL

A. The dust control product chosen shall be appropriate for to the site conditions (topography and soils).

B. Grade and/or smooth the surfaces to be treated as needed and prescribed by the product guidance before the dust control product is applied.

3.05 PERFORMANCE

A. Should any of the temporary erosion and sediment control measures employed by the Contractor fail to produce results which comply with the requirements of the State of Florida, the Owner or Engineer, the Contractor shall immediately take whatever steps are

necessary to correct the deficiency at his own expense.

END OF SECTION

SECTION 01 58 13
TEMPORARY PROJECT SIGNAGE

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work:

1. Furnish, install and maintain project signs.
2. Remove signs on completion of construction.
3. Allow no other signs other than signs approved by the Engineer to be displayed.

B. Related Requirements Described Elsewhere:

1. Section 01 11 00 - Summary of Work
2. Section 01 30 00 - Administrative Requirements

1.02 PROJECT SIGNS

A. One (1) painted sign with lettering, size, color and construction in accordance with the local requirements.

B. Erect on the plant site at a location of high public visibility within 30 days of start of work, as approved by the Engineer and the Owner.

C. Information:

1. Project Sign:
   a. Owner title and logo.
   b. Project name.
   c. Contractor.
   d. Engineer.

1.03 INFORMATIONAL SIGNS

A. Painted signs with painted lettering, or standard products.

1. Size of signs and lettering: As required by the Owner, or as appropriate to usage.

2. Color: As required by the Owner, otherwise of uniform colors throughout Project.

B. Erect at appropriate locations to provide required information.

C. Information:

1. Contractor's name and home office address.
2. List of subcontractors and type of subcontract work.

1.04 QUALITY ASSURANCE

A. Sign Painter: Professional experience in type of work required.

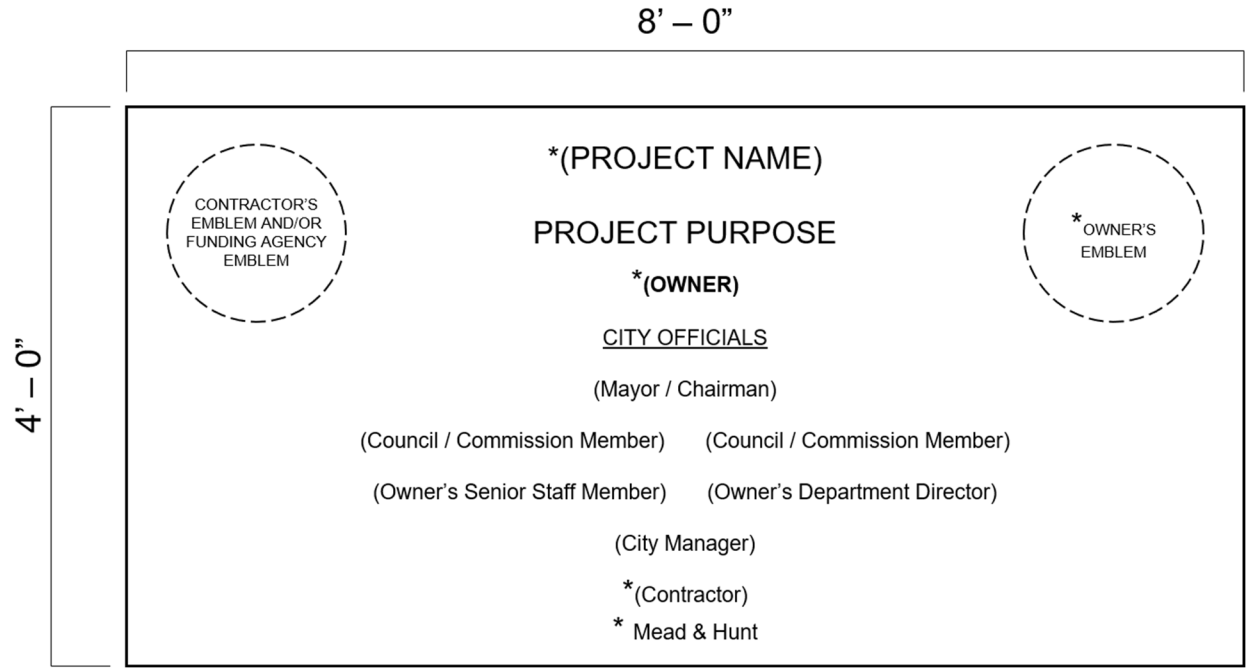
B. Finishes, Painting: Adequate to resist weathering and fading for scheduled construction period.

1.05 SUBMITTALS

A. An 11 inch by 17 inch sketch of the project sign shall be submitted to the Engineer for approval prior to final preparation of the project sign.

PART 2 - PRODUCTS

2.01 SIGN MATERIALS



A. Structure and Framing: Sign shall be 3/4-inch Marine grade plywood, in sound condition, structurally adequate and suitable for specified finish.

B. Sign Surfaces: Exterior softwood plywood with medium density overlay, standard large sizes to minimize joints.

1. Thickness: As required by standards to span framing members, to provide even, smooth surface without waves or buckles.

C. Rough Hardware: Galvanized.

D. Project Sign details are illustrated in the Figure below.

E. Asterisked fields are required on 4’ – 0” X 4’ – 0” Project Signs

PART 3 - EXECUTION

3.01 PROJECT IDENTIFICATION SIGNS

A. Paint exposed surface of supports, framing and surface material; one (1) coat of primer and one (1) coat of exterior paint.

B. Paint graphics in styles, sizes, and colors as selected and approved by the Owner.

3.02 MAINTENANCE

A. Maintain signs and supports in a neat, clean condition; repair damages to structures, framing or signs.

3.03 REMOVAL

A. The Contractor shall remove signs, framing, supports and foundations and properly dispose of at completion of project.

END OF SECTION

SECTION 01 60 00
PRODUCT REQUIREMENTS

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work:

1. Conform to applicable specifications and standards.

2. Comply with size, make, type and quality specified, or as specifically approved in writing by Engineer.

3. Manufactured and fabricated products:

a. Design, fabricate and assemble in accordance with the best engineering and shop practices.

b. Manufacture like parts of duplicate units to standard sizes and gauges, to be interchangeable.

c. Two or more items of the same kind shall be identical, by the same manufacturer.

d. Products shall be suitable for service conditions.

e. Equipment capacities, sizes and dimensions shown or specified shall be adhered to unless variations are specifically approved in writing.

4. Do not use material or equipment for any purpose other than that for which it is designed or is specified.

1.02 APPROVAL OF MATERIALS

A. Only new materials and equipment shall be incorporated in the work. All materials and equipment furnished by Contractor shall be subject to the inspection and approval of Engineer. No material shall be delivered to the work without prior approval of Engineer.

B. Within twenty (20) days after the Effective Date of the Agreement, Contractor shall submit to Engineer, data relating to materials and equipment he proposes to furnish for the work. Such data shall be in sufficient detail to enable Engineer to identify the particular product to form an opinion as to its conformity to the specifications.

C. Facilities and labor for handling and inspection of all materials and equipment shall be furnished by Contractor. If Engineer requires, either prior to beginning or during progress of the work, Contractor shall submit samples of materials for such special tests as may be necessary to demonstrate that they conform to the specifications. Such samples shall be furnished, stored, packed and shipped as directed at Contractor's expense. Except as otherwise noted, Contractor shall make arrangements for and pay for the tests.

D. Contractor shall submit data and samples sufficiently early to permit consideration and approval before materials are necessary for incorporation in the work. Any delay of approval resulting from Contractor's failure to submit samples or data promptly shall not be used as a basis of claim against Owner or Engineer.

E. In order to demonstrate the proficiency of workers or to facilitate the choice among several textures, types, finishes and surfaces, Contractor shall provide such samples of workmanship or finish as may be required.

F. The materials and equipment used on the work shall correspond to the approved samples or other data.

1.03 SUBSTITUTIONS AND PRODUCT OPTIONS

A. The substitution requirements of this Section are in addition to the requirements of the General Conditions and Supplementary Conditions.

B. The intent of these Specifications is to provide Owner with a quality facility without discouraging competitive bidding. Substitutions may be submitted and will be evaluated as specified herein.

C. A Request for Substitution of Product may be submitted after the Contractor:

1. Has investigated the proposed product and determined that it is equal to or superior to specified product, furnishes a certification to that effect and waives all rights to additional payment or time that may subsequently become necessary due to the failure of the substituted product to perform adequately.

2. Agrees to provide same warranties or bonds for product substitution as for product specified.

3. Agrees to be responsible for coordinating and paying for any necessary changes to other work required by approved substitutions or product options which he selects and shall pay all such costs including the costs of the services of the design professional to revise the Contract Documents, if such revisions are required.

4. Waives all claims for additional costs due to substitution which may subsequently become apparent.

5. Is offering either a substantial credit to the Owner for acceptance of the substitution or a convincing justification that the product to be provided as the substitution is substantially superior in quality, performance, compatibility with adjacent products, durability, vandal-resistance or in other important ways.

D. Engineer's Action:

1. Engineer will consider written requests for product substitution for a period of forty-five (45) calendar days after the effective date of the Agreement. Engineer will review requests for substitutions and notify Contractor in writing of Owner's decision to accept or reject requested substitutions within ten (10) working days of receiving request. Only the Owner may accept a substitution.

2. Substitution requests made by means of Shop Drawings or product data submittal will not be considered.

3. After the period of forty-five (45) days has elapsed, the only substitution requests which will be considered are those which are made necessary by the removal of the specified products from the market or by other similar, unavoidable circumstances beyond the control of the Contractor.

1.04 MANUFACTURER'S INSTRUCTIONS FOR INSTALLATION

A. When Contract Documents require that installation of work shall comply with manufacturer's printed instructions, obtain and distribute copies of such instructions to parties involved in the installation, including electronic copies to Engineer.

1. Maintain one set of complete instructions at the job site during installation and until completion.

B. Handle, install, correct, clean, condition and adjust products in strict accord with such instructions and in conformity with specified requirements.

1. Should job conditions or specified requirements conflict with manufacturer's instructions, consult with Engineer for further instructions.
2. Do not proceed with work without clear instructions.

C. Perform work in accordance with manufacturer's instructions. Do not omit any preparatory step or installation procedure unless specifically modified or exempted by Contract Documents.

1.05 TRANSPORTATION AND HANDLING

A. Arrange deliveries of products in accordance with construction schedules, coordinate to avoid conflict with work and conditions at the site.

1. Deliver products in undamaged condition, in manufacturer's original containers or packaging, with identifying labels intact and legible.

2. Immediately on delivery, inspect shipments to assure compliance with requirements of Contract Documents and approved submittals, and that products are properly protected and undamaged.

B. Provide equipment and personnel to handle products by methods to prevent soiling or damage to products or packaging.

1.06 STORAGE AND PROTECTION

A. The Contractor shall furnish a covered, weather-protected storage structure providing a clean, dry, noncorrosive environment for all mechanical equipment, valves, architectural items, electrical and instrumentation equipment, and special equipment to be incorporated into this project. Storage of equipment shall be in strict accordance with the "instructions for storage" of each equipment supplier and manufacturer including connection of heaters, placing of storage lubricants in equipment, etc. Corroded, damaged or deteriorated equipment and parts shall be replaced before acceptance of the project. Equipment and materials not properly stored will not be included in a payment estimate.

B. Store products in accordance with manufacturer's instructions, with seals and labels intact and legible.

1. Store products subject to damage by the elements in weathertight enclosures such as buildings or trailers which have a concrete or wooden floor, a roof and fully closed walls on all sides.

2. Maintain temperature and humidity within the ranges required by manufacturer's instructions (i.e. electrical and instrumentation equipment).

3. Protect mechanical and electrical equipment from being contaminated by dust, dirt and moisture.

4. Store fabricated products above the ground, on blocking or skids prevent soiling and staining. Cover products which are subject to deterioration with impervious sheet coverings, provided adequate ventilation to avoid condensation.

5. Provide heated storage space for material which would be damaged by freezing.

6. Store loose granular materials in a well-drained area on solid surfaces to prevent mixing with foreign matter.

7. Prior to the installation or equipment, it shall be stored at locations designated and approved by the Engineer.

C. All materials and equipment to be incorporated in the work shall be handled and stored by Contractor before, during and after shipment in a manner to prevent warping, twisting, bending, breaking, chipping, rusting, and any injury, theft or damage of any kind whatsoever to the material or equipment.

D. Cement, sand and lime shall be stored under a roof and off the ground and shall be kept completely dry at all times. All structural and miscellaneous steel and reinforcing steel shall be stored of off the ground or otherwise to prevent accumulations of dirt or grease, and in a position to prevent accumulations of standing water and to minimize rusting. Beams shall be stored with the webs vertical. Precast concrete beams shall be handled and stored in a manner to prevent accumulations of dirt, standing water, staining, chipping or cracking. Brick, block and similar masonry products shall be handled and stored in a manner to reduce breakage, chipping, cracking and spalling to a minimum.

E. All materials which, in the opinion of Engineer, have become so damaged as to be unfit for the use intended or specified shall be promptly removed from the site of the work, and Contractor shall receive no compensation for the damaged material or its removal.

F. Arrange storage in a manner to provide easy access for inspection. Make periodic inspections of stored materials and equipment to assure that products are maintained under specified conditions, and free from damage or deterioration.

G. Protection After Installation: Provide substantial coverings as necessary to protect installed products from damage from traffic and subsequent construction operations. Remove covering when no longer needed.

H. The Contractor shall be responsible for all material, equipment, and supplies delivered to Owner under this Contract until final inspection of the work and acceptance thereof by Owner. In the event any such material, equipment and supplies are lost, stolen, damaged or destroyed prior to final inspection and acceptance, Contractor shall replace same without additional cost to Owner.

I. Should Contractor fail to take proper action on storage and handling of equipment supplied under the Contract within seven (7) days after written notice to do so has been given, Owner retains the right to correct all deficiencies noted in previously transmitted written notice and deduct the cost associated with these corrections from Contractor's Contract. These costs may be comprised of expenditures for labor, equipment usage, administrative,

clerical, engineering and any other costs associated with making the necessary corrections.

1.07 SPECIAL TOOLS

A. Manufacturers of equipment and machinery shall furnish any special tools (including grease guns or other lubricating devices) required for normal adjustment, operations and maintenance, together with instructions for their use. Contractor shall preserve and deliver to Owner these tools and instructions in good order no later than upon completion of the Contract.

1.08 STORAGE AND HANDLING OF EQUIPMENT ON SITE.

A. Attention shall be given to the storage and handling of equipment on site. As a minimum, the procedure outlined below shall be followed:

1. Equipment shall not be shipped until approved by Engineer. The intent of this requirement is to reduce on-site storage time prior to installation and/or operation. Under no circumstances shall equipment be delivered to the site more than one month prior to installation without written authorization from Engineer. Equipment shipped to the site shall be stored in accordance with Paragraph 1.06, herein. Operation and maintenance data shall be submitted to Engineer for review prior to shipment of equipment.

2. All equipment having moving parts such as gears, electric motors, etc. and/or instruments shall be stored in a temperature and humidity-controlled building approved by Engineer, until such time as the equipment is to be installed.

3. All equipment shall be stored fully lubricated with oil, grease, etc. unless otherwise instructed by the manufacturer.

4. Manufacturer's storage instructions shall be carefully studied by Contractor and reviewed with Engineer by him. These instructions shall be carefully followed and a written record of this kept by the Contractor.

5. Moving parts shall be rotated a minimum of once weekly to ensure proper lubrication and to avoid metal-to-metal "welding". Upon installation of the equipment, Contractor shall start the equipment, at least half load, once weekly for an adequate period of time to ensure that the equipment does not deteriorate from lack of use.

6. Lubricants shall be changed upon completion of installation and as frequently as required thereafter during the period between installation and acceptance. Mechanical equipment to be used in the work, if stored for longer than ninety (90)

days, shall have the bearings cleaned, flushed and lubricated prior to testing and startup, at no extra cost to Owner.

7. Prior to acceptance to the equipment, Contractor shall have the manufacturer inspect the equipment and certify that its condition has not been detrimentally affected by the long storage period. Such certifications by the manufacturer shall be deemed to mean that the equipment is judged by the manufacturer to be in a condition equal to that of equipment that has been shipped, installed, tested and accepted in a minimum time period. As such, the manufacturer will guarantee the equipment equally in both instances. If such a certification is not given, the equipment shall be judged to be defective. It shall be removed and replaced at Contractor's expense.

1.09 WARRANTY

A. For all major pieces of equipment, submit a warranty from the equipment manufacturer as specified. The manufacturer's warranty period shall be concurrent with the Contractor's for one (1) year after the time of acceptance.

1.10 SPARE PARTS

A. Spare parts for certain equipment have been specified in the pertinent sections of the Specifications. Contractor shall collect and store all spare parts so required in an area to be designated by Engineer. In addition, Contractor shall furnish Engineer an inventory listing all spare parts, the equipment they are associated with, the name and address of the supplier, and the delivered cost of each items. Spare parts shall be turned over in conjunction with the "Spare Parts List" as shown. Copies of actual invoices for each item shall be furnished with the inventory to substantiate the delivered cost.

1.11 GREASE, OIL AND FUEL

A. All grease, oil and fuel required for testing of equipment shall be furnished with the respective equipment. Owner shall be furnished with a year's supply of required lubricants including grease and oil of the type recommended by manufacturer with each item of equipment supplied.

B. Contractor shall be responsible for changing the oil in all drives and intermediate drives of each mechanical equipment after initial break-in of the equipment, which in no event shall be any longer than three (3) weeks of operation.

END OF SECTION

SECTION 01 71 13
MOBILIZATION

PART 1 - GENERAL

1.01 DEFINITION AND SCOPE

A. Mobilization shall include the obtaining of all permits, insurance, and bonds; moving onto the site of all plant and equipment; furnishing and erecting plants, temporary buildings, and other construction facilities; all as required for the proper performance and completion of the Work. Mobilization shall include, but not be limited to, the following principal items.

1. Move onto the site all Contractors' plant and equipment required for first month operations.

2. Install temporary construction power, wiring, and lighting facilities.

3. Establish fire protection plan and safety program.

4. Secure construction water supply.

5. Provide field office trailers for Contractor and as may be specified for Owner and Engineer.

6. Provide on-site sanitary facilities and potable water facilities as specified.

7. Arrange for and erect Contractor's work and storage yard and employee's parking facilities.

8. Submit all required insurance certificates and bonds.

9. Obtain all required permits.

10. Post all OSHA, EPA, Department of Labor, and all other required notices.

11. Have Contractor's superintendent at the job site full time.

12. Submit a detailed construction CPM schedule acceptable to the Engineer as specified.

13. Submit a schedule of values of the Work.

14. Submit a schedule of submittals.

1.02 DEMOBILIZATION

A. Demobilization is the timely and proper removal of all Contractor-owned material, equipment or plant, from the job site and the proper restoration or completion of work necessary to bring the site into full compliance with the contract documents.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION (Not Used)

END OF SECTION

SECTION 01 71 33
PROTECTION OF ADJACENT CONSTRUCTION

PART 1 - GENERAL

1.01 GENERAL

A. The Contractor shall protect all existing facilities, including all utilities and improvements not designated for removal, and shall restore damaged or temporarily relocated utilities and improvements to a condition equal to or better than prior to such damage or temporary relocation, all in accordance with the Contract Documents.

1.02 EXISTING UTILITIES AND IMPROVEMENTS

A. General: The Contractor shall protect both aboveground and underground utilities and other improvements which may be impaired during construction operations, regardless of whether or not the utilities are indicated on the Drawings. The Contractor shall take all possible precautions for the protection of unforeseen utility lines to provide for uninterrupted service and to provide such special protection as may be necessary.

B. Except where the Drawings indicate utilities have been field located during design or certain utility locations shall be exposed as part of the Work, the Contractor shall be responsible for exploratory excavations as it deems necessary to determine the exact locations and depths of utilities which may interfere with its work. All such exploratory excavations shall be performed as soon as practicable after Notice to Proceed and, in any event, a sufficient time in advance of construction to avoid possible delays to the Contractor's progress. When such exploratory excavations show the utility location as shown on the Drawings to be in error, the Contractor shall so notify the Engineer.

C. The number of exploratory excavations required shall be that number which is sufficient to determine the alignment and grade of the utility.

D. Utilities to be Moved: In case it shall be necessary to move the property of any public utility or franchise holder, such utility company or franchise holder will, upon request of the Contractor, be notified by the Owner to move such property within a specified reasonable time. When utility lines that are to be removed are encountered within the area of operations, the Contractor shall notify the Engineer a sufficient time in advance for the necessary measures to be taken to prevent interruption of service.

E. Utilities to be Removed: Where the proper completion of the Work requires the temporary or permanent removal and/or relocation of an existing utility or other improvement which is indicated, the Contractor shall remove and, without unnecessary delay, temporarily replace or relocate such utility or improvement in a manner satisfactory to the Engineer and the Owner of the facility. In all cases of such temporary removal or relocation, restoration to

the former location shall be accomplished by the Contractor in a manner that will restore or replace the utility or improvement as nearly as possible to its former locations and to as good or better condition than found prior to removal.

F. Owner's Right of Access: The right is reserved to the Owner and to the owners of public utilities and franchises to enter at any time upon any public street, alley, right-of-way, or easement for the purpose of making changes in their property made necessary by the Work of this Contract.

G. Underground Utilities Indicated: Existing utility lines that are indicated or the locations of which are made known to the Contractor prior to excavation and that are to be retained, and all utility lines that are constructed during excavation operations shall be protected from damage during excavation and backfilling and, if damaged, shall be immediately repaired or replaced by the Contractor, unless otherwise repaired by the owner of the damaged utility. If the owner of the damaged facility performs its own repairs, the Contractor shall reimburse said owner for the costs of repair.

H. Underground Utilities Not Indicated: In the event that the Contractor damages existing utility lines that are not indicated or the locations of which are not made known to the Contractor prior to excavation, a verbal report of such damage shall be made immediately to the Engineer and a written report thereof shall be made promptly thereafter. The Engineer will immediately notify the Owner of the damaged utility. If the Engineer is not immediately available, the Contractor shall notify the utility owner of the damage. If directed by the Engineer, repairs shall be made by the Contractor under the provisions for changes and extra work contained in Articles 10, 11, and 12 of the General Conditions.

I. Costs of locating and repairing damage not due to failure of the Contractor to exercise reasonable care, and removing or relocating such utility facilities not indicated in the Contract Documents with reasonable accuracy, and for equipment on the project which was actually working on that portion of the Work which was interrupted or idled by removal or relocation of such utility facilities, and which was necessarily idled during such Work will be paid for as extra Work in accordance with the Contract Documents.

J. Approval of Repairs: All repairs to a damaged utility or improvement are subject to inspection and approval by an authorized representative of the utility or improvement owner before being concealed by backfill or other Work.

K. Maintaining in Service: Unless indicated otherwise, oil and gasoline pipelines, power, and telephone or the communication cable ducts, gas and water mains, irrigation lines, sewer lines, storm drain lines, poles, and overhead power and communication wires and cables encountered along the line of the Work shall remain continuously in service during all the operations under the Contract, unless other arrangements satisfactory to the Engineer are made with the owner of said pipelines, duct, main, irrigation line, sewer, storm drain, pole,

or wire or cable. The Contractor shall be responsible for and shall repair all damage due to its operations, and the provisions of this Section shall not be abated even in the event such damage occurs after backfilling or is not discovered until after completion of the backfilling.

1.03 LAWN AREAS

A. Lawn or landscaped areas damaged during construction shall be repaired to match the pre-construction condition to the satisfaction of the land owner and the Owner.

1.04 NOTIFICATION BY THE CONTRACTOR

A. The Contractor must contact “Sunshine State One Call” at (800) 432-4770 a minimum of 48 business hours prior to excavation. The Contractor shall provide the Sunshine State One Call verification number for the project to the Owner.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION (Not Used)

END OF SECTION

SECTION 01 74 00
CLEANING AND WASTE MANAGEMENT

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work: Execute cleaning, during the progress of Work and at completion of the Work. This Section includes operations which cannot be specified in detail as separate items but can be sufficiently described as to the kind and extent of work involved. The Contractor shall furnish all labor, materials, equipment and incidentals to complete the work under this Section.

1. The work of this Section includes, but is not limited to, the following:

a. Restoring of driveways and fences.
b. Cleaning up.
c. Incidental work.

1.02 DISPOSAL REQUIREMENTS

A. Conduct cleaning and disposal operations to comply with codes, ordinances, regulations and anti-pollution laws.

PART 2 - PRODUCTS

2.01 MATERIALS

A. Use only those cleaning materials which will not create hazards to health or property and which will not damage surfaces.

B. Use only those cleaning materials and methods recommended by manufacturer of the surface material to be cleaned.

C. Use cleaning materials only on surfaces recommended by cleaning material manufacturer.

D. Materials required for this Section shall be of the same quality as materials that are to be restored. Where possible, the Contractor shall reuse existing materials that are removed and then replaced.

PART 3 - EXECUTION

3.01 DURING CONSTRUCTION

A. Execute daily cleaning to keep the Work, the site and adjacent properties free from accumulations of waste materials, rubbish and windblown debris, resulting from construction operations or personal activities.

B. Provide on-site containers for the collection of waste materials, debris and rubbish.

C. Remove waste materials, debris and rubbish from the site periodically, or as directed by the Owner and dispose of at legal disposal areas away from the site.

3.02 DUST CONTROL

A. The Contractor shall employ construction techniques that minimize the production and distribution of dust.

B. Clean interior spaces prior to the start of finish painting and continue cleaning on an as-needed basis until painting is finished.

C. Schedule operations so that dust and other contaminants resulting from cleaning process will not fall on wet or newly-coated surfaces.

3.03 RESTORATION OF DRIVEWAYS, FENCES, AND SIDEWALKS

A. Existing public and private driveways and sidewalks disturbed by the Contractor shall be replaced. Paved drives shall be repaved to the limits and thickness existing prior to construction. Gravel drives shall be replaced and regraded. Concrete driveways and sidewalks shall be replaced.

B. The Contractor shall remove, store and replace existing fences during construction. Only the sections directed by the Engineer shall be removed. If any section of fence is damaged due to the Contractor's negligence, it shall be replaced with fencing equal to or better than that damaged, and the work shall be satisfactory to the Engineer.

3.04 INCIDENTAL WORK

A. Do all incidental work not otherwise specified, but obviously necessary for the proper completion of the contract as specified and as shown on the Drawings.

3.05 FINAL CLEANING

A. Employee skilled workman for final cleaning.

B. Remove grease, mastic, adhesives, dust, dirt, stains, fingerprints, labels, and other foreign materials from sight-exposed interior and exterior surfaces.

C. Prior to final completion, or Owner occupancy, Contractor shall conduct an inspection of sight-exposed interior and exterior surfaces and all work areas, to verify that the entire Work site is clean.

END OF SECTION

SECTION 01 75 16
STARTUP PROCEDURES

PART 1 - GENERAL

1.01 DESCRIPTION

A. The Work may be segmented into several phases of construction in a logical order to meet the project schedule. Portions of the Work may be utilized prior to Substantial Completion of all the Work. Also, certain items of equipment are to be temporarily utilized in a phased segment of the Work and then relocated in a subsequent phase in a permanent installation.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION

3.01 PRELIMINARY MATTERS

A. Start-up Certification: Prior to start-up, successfully complete all testing required of the individual components of work in the presence of the Engineer or their representative.

B. Demonstrate to the Engineer that all temporary jumpers and/or bypass have been removed and that all components are operating under their own controls as designated.

C. Coordinate start-up activities with equipment suppliers, subcontractors, and the Owner's operating personnel at the site and with the Engineer prior to commencing system start-up. All coordination is the responsibility of the Contractor.

3.02 START-UP

A. Confirm that all equipment is properly installed and that the flow path through the new work is unobstructed.

B. Make adjustments as necessary.

3.03 START-UP DEMONSTRATION AND TESTING

A. After all Work components have been constructed, field tested and started up in accordance with the individual specifications, perform the start-up demonstration and testing in the presence of the Engineer and the Owner. The demonstration shall be held upon completion of all systems at a date to be agreed upon in writing with the Owner.

B. Acceptability of the Work's performance will be based on the Work performing as specified, under these actual and simulated operating conditions as defined in the Contract

Documents. The intent of the start-up demonstration and testing is for the Contractor to demonstrate to the Owner and the Engineer the Work will function as a complete and operable system under normal operating conditions and is ready for acceptance.

C. Certificate of Completed Demonstration: Submit five (5) copies of Demonstration Certification memo signed by the Contractor, Subcontractor and Owner and insert one (1) copy in each Operation and Maintenance Manual.

SECTION 01 77 00
CLOSEOUT PROCEDURES

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work: Comply with requirement stated in Conditions of the Contract and in Specifications for administrative procedures in closing out the Work.

B. Related Requirements Described Elsewhere:

1. Startup Procedures: Section 01 75 16
2. Cleaning and Waste Management: Section 01 74 00
3. Project Record Documents: Section 01 78 39
4. Operation and Maintenance Data: Section 01 78 23
5. Bonds: Section 01 78 33
6. Warranties: Section 01 78 36

1.02 SUBSTANTIAL COMPLETION

A. The Work will not be substantially complete, and Contractor may not request substantial completion inspection unless the following submittals and work is completed:

1. All Operation and Maintenance manuals have been submitted and approved to the requirements of Section 01 78 23.

2. All equipment has been checked-out by the equipment manufacturer and Certificates of Manufacturer's Check-Out has been submitted as required by Section 01 75 16.

3. All start-up and demonstration testing completed, and Certificates of Completed Demonstration submitted to the requirements of Section 01 75 16.

4. Project Record Documents are complete and have been submitted and reviewed to the requirements of Section 01 78 39.

5. All training of Owner's personnel completed.

6. All areas to be used and occupied are safe, operable in automatic and complete.

7. All building occupancy certificates have been issued by the appropriate building permitting agency.

8. All painting, finishes, fencing, cleanup, final grading, grassing, planting, sidewalk construction, and paving shall have been completed and ready for inspection.

9. All deficiencies noted on inspection reports or nonconformances are corrected or the correction plan approved.

B. When the conditions of paragraph 1.02 A. are met the Contractor shall submit to the Engineer:

1. A written notice that he considers the Work, or portion thereof, is substantially complete, and requests an inspection.

2. A punchlist of items to be corrected. (Uncompleted work which is not related to the safe, effective, efficient use of the Project may be allowed on the punchlist with the Engineer's approval.)

C. Within ten (10) working days after receipt of such notice, the Engineer will make an inspection to determine the status of completion.

D. Should the Engineer determine that the Work is not substantially complete:

1. The Engineer will promptly notify the Contractor in writing, giving the reasons therefore.

2. Contractor shall remedy the deficiencies in the Work and send another written notice of substantial completion to the Engineer.

3. The Engineer will, within ten (10) working days, reinspect the Work. The Contractor will be liable for reinspection fees as described in paragraph 1.04, herein.

E. When the Engineer finds that the Work is substantially complete, he will:

1. Schedule a walk-through of the facility to include the Owner. Engineer shall determine the completeness of the punchlist and readiness of the facility for occupancy by the Owner.

2. Prepare and deliver to Owner a tentative Certificate of Substantial Completion with the tentative punchlist of items to be completed or corrected before final inspection.

3. After consideration of any objections made by the Owner as provided in Conditions of the Contract, and when the Engineer considers the Work substantially complete, he will execute and deliver to the Owner and the Contractor a definite Certificate

of Substantial Completion with a revised tentative list of items to be completed or corrected. Any incomplete work allowed on a punchlist must be reinspected upon completion and any deficiencies found will be added to the punchlist.

1.03 FINAL INSPECTION

A. Prior to Contractor's request for a final inspection the following submittals and work must be complete:

1. Project Record Documents must be approved.

2. All spare parts and maintenance materials must be suitably delivered to the Owner per the requirements of the Technical Sections of the Specifications.

3. Contractor to submit evidence of compliance with requirements of governing authorities.

B. After satisfying the requirements of paragraph 1.03 A. and when Contractor considers the Work complete, he shall submit written certification that:

1. Contract Document requirements have been met.

2. Work has been inspected for compliance with Contract Documents.

3. Work has been completed in accordance with Contract Documents.

4. Equipment and systems have been tested in the presence of the Owner's representative and are operational.

5. All punchlist items have been corrected or completed and the Work is ready for final inspection.

C. The Engineer will, within ten (10) working days, make an inspection to verify the status of completion after receipt of such certification.

D. Should the Engineer consider that the Work is incomplete or defective:

1. The Engineer will promptly notify the Contractor in writing, listing the incomplete or defective work.

2. Contractor shall take immediate steps to remedy the stated deficiencies and send another written certification to the Engineer that the Work is complete.

3. The Engineer will, within ten (10) working days, reinspect the Work and the Contractor shall be liable for reinspection fees as described in paragraph 1.04, herein.

D. When the Engineer finds that the Work is acceptable under the Contract Documents, the Contractor may make closeout submittals.

1.04 REINSPECTION FEES

A. Should the Engineer perform reinspections due to failure of the Work to comply with the claims of status of completion made by the Contractor:

1. Contractor will compensate the Owner for such additional services.

2. Owner will deduct the amount of such compensation from the final payment to the Contractor.

1.05 CONTRACTOR'S CLOSEOUT SUBMITTALS

A. Warranties and Bonds: To requirements of Sections 01 78 36 and 01 78 33.

B. Evidence of Payment and Release of Liens: To requirements of General and Supplementary Conditions.

C. Certificate of Insurance for Products and Completed Operations.

1.06 FINAL ADJUSTMENT OF ACCOUNTS

A. Submit a final statement of accounting to the Engineer.

B. Statement shall reflect all adjustments to the Contract Sum:

1. The original Contract Sum.

2. Additions and deductions resulting from:

a. Previous change orders or written amendment.
b. Allowances.
c. Unit prices.
d. Deductions for uncorrected work.
e. Penalties and bonuses.
f. Deductions for liquidated damages.
g. Deductions for reinspection payments

h. Other adjustments.

3. Total Contract Sum, as adjusted.

4. Previous payments.

5. Sum remaining due.

C. Engineer will prepare a final Change Order, reflecting approved adjustments to the Contract Sum which were not previously made by Change Orders.

1.07 FINAL APPLICATION FOR PAYMENT

A. Contractor shall submit the final Application for Payment in accordance with procedures and requirements stated in the Conditions of the Contract.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION (NOT USED)

END OF SECTION

SECTION 01 78 23
OPERATION AND MAINTENANCE DATA

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work:

1. Compile product data and related information appropriate for Owner's maintenance and operation of products furnished under Contract.

2. Prepare operating and maintenance data as specified in this Section and as referenced in other pertinent sections of the Specifications.

3. Instruct Owner's personnel in maintenance of products and in operation of equipment and systems.

B. Related Requirements Described Elsewhere:

1. Section 01 33 23: Shop Drawings, Product Data, and Samples
2. Section 01 78 39: Project Record Documents
3. Section 01 78 33: Bonds
4. Section 01 78 36: Warranties

1.02 QUALITY ASSURANCE

A. Preparation of data shall be done by personnel:

1. Trained and experienced in maintenance and operation of described products.
2. Familiar with requirements of this Section.
3. Skilled as a technical writer to the extent required to communicate essential data.
4. Skilled as draftsman competent to prepare required drawings.

1.03 FORM OF SUBMITTALS

A. Prepare data in form of an instructional manual for use by Owner's personnel.

B. Hard Copy Format:

1. Size: 8½” x 11 inches
2. Paper: 20 pound minimum, white, for typed pages.
3. Text: Manufacturer's printed data, or neatly typewritten

4. Drawings:

   a. Provide reinforced punched binder tab, bind in with text.

   b. Reduce larger drawings and fold to size of text pages but not larger than 14 inches x 17 inches.

5. Provide fly-leaf for each separate product, or each piece of operating equipment.

   a. Provide typed description of products and major component parts of equipment.

   b. Provide indexed tabs.

6. Cover: Identify each volume with typed or printed title "OPERATING AND MAINTENANCE INSTRUCTIONS". List:

   a. Title of project.

   b. Identity of separate structure as applicable.

   c. Identity of general subject matter covered in the manual.

7. Binders:

   a. Commercial quality three-post binders with durable and cleanable plastic covers.

   b. Maximum post width: 2 inches.

   c. When multiple binders are used, correlate the data into related consistent groupings.

C. Electronic Format Copy

1. Provide electronic copy of operation and maintenance data on CD/DVD or portable storage device. File(s) should be organized/named to correspond with hard copy.

1.04 CONTENT OF MANUAL

A. Neatly typewritten table of contents for each volume, arranged in systematic order.

1. Contractor, name of responsible principal, address and telephone number.

2. A list of each product required to be included, indexed to content of the volume.

3. List, with each product, name, address and telephone number of:

   a. Subcontractor or installer.

   b. A list of each product required to be included, indexed to content of the volume.

   c. Identify area of responsibility of each.

   d. Local source of supply for parts and replacement.

4. Identify each product-by-product name and other identifying symbols as set forth in Contract Documents.

B. Product Data:

1. Include only those sheets which are pertinent to the specified product.

2. Annotate each sheet to:

   a. Clearly identify specific product or part installed.

   b. Clearly identify data applicable to installation.

   c. Delete references to inapplicable information.

C. Drawings:

1. Supplement product data with drawings as necessary to clearly illustrate:

   a. Relations of component parts of equipment and systems.

2. Coordinate drawings with information in Project Record Documents to assure correct illustration of completed installation.

3. Do not use Project Record Documents as maintenance drawings.

D. Written text, as required to supplement product data for the particular installation:

1. Organize in consistent format under separate headings for different procedures.

2. Provide logical sequence of instructions of each procedure.

E. Copy of each warranty, bond and service contract issued.

1. Provide information sheet for Owner's personnel, give:

a. Proper procedures in event of failure.
b. Instances which might affect validity of warranties or bonds.

1.05 MANUAL FOR MATERIALS AND FINISHES

A. Submit four copies of the complete manual in final form.

B. Content: for architectural products, applied materials and finishes:

1. Manufacturer's data, giving full information on products

a. Catalog number, size, and composition.

b. Color and texture designations.

c. Information required for reordering special manufactured products.

2. Instructions for care and maintenance

a. Manufacturer's recommendation for types of cleaning agents and methods.

b. Cautions against cleaning agents and methods which are detrimental to product.

c. Recommend schedule for cleaning and maintenance.

C. Content, for moisture protection and weather-exposed products:

1. Manufacturer's data, giving full information on products.

a. Applicable standards.

b. Chemical composition.

c. Details of installation.

2. Instructions for inspection, maintenance and repair.

D. Additional requirements for maintenance data: Applicable sections of the Specifications.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION (NOT USED)

SECTION 01 78 33
BONDS

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work:

1. Compile specified bonds as specified in these Specifications.
2. Co-execute submittals when so specified.
3. Review submittals to verify compliance with Contract Documents.
4. Submit to Engineer for review and transmittal to Owner.

1.02 SUBMITTAL REQUIREMENTS

A. Assembly bonds and service and maintenance contracts, executed by each of the respective manufacturers, suppliers, and subcontractors.

B. Number of original signed copies required: Two (2) each.

C. Table of Contents: Neatly typed, in orderly sequence. Provide complete information for each item.

1. Product of work item.
2. Firm, with name of principal, address and telephone number.
3. Scope.
4. Date of beginning of bond or service and maintenance contract.
5. Duration of bond or service maintenance contract.
6. Provide information for Owner's personnel:

a. Proper procedure in case of failure.
b. Instances which might affect the validity of warranty or bond.

7. Contractor, name of responsible principal, address and telephone numbers.

D. Bonds are required to be recorded with the County Clerk of Court.

1.03 FORM OF SUBMITTALS

A. Prepare in duplicate packets.

B. Format:

1. Size 8 ½” x 11 inches, punch sheets for standard three-post binder.
a. Fold larger sheets to fit into binders.

2. Cover: Identify each packet with typed or printed title "BONDS". List:
   a. Title of Project.
   b. Name of Contractor.

C. Binders: Commercial quality, three-post binder, with durable and cleanable plastic covers and maximum post width of two inches.

PART 2 - PRODUCTS (NOT USED)

SECTION 01 78 36
WARRANTIES

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work:

1. Compile specified warranties as specified in these Specifications.
2. Co-execute submittals when so specified.
3. Review submittals to verify compliance with Contract Documents.
4. Submit to Engineer for review and transmittal to Owner.

1.02 SUBMITTAL REQUIREMENTS

A. Assembly warranties and service and maintenance contracts, executed by each of the respective manufacturers, suppliers, and subcontractors.

B. Number of original signed copies required: Two (2) each.

C. Table of Contents: Neatly typed, in orderly sequence. Provide complete information for each item.

1. Product of work item.
2. Firm, with name of principal, address and telephone number.
3. Scope.
4. Date of beginning of warranty or service and maintenance contract.
5. Duration of warranty or service maintenance contract.
6. Provide information for Owner's personnel:

    a. Proper procedure in case of failure.
    b. Instances which might affect the validity of warranty.

7. Contractor, name of responsible principal, address and telephone numbers.

1.03 FORM OF SUBMITTALS

A. Prepare in duplicate packets.

B. Format:

1. Size 8 ½" x 11 inches, punch sheets for standard three-post binder.

a. Fold larger sheets to fit into binders.

2. Cover: Identify each packet with typed or printed title "WARRANTIES". List:

a. Title of Project.
b. Name of Contractor.

C. Binders: Commercial quality, three-post binder, with durable and cleanable plastic covers and maximum post width of two inches.

1.04 WARRANTY SUBMITTALS REQUIREMENTS

A. For all major pieces of equipment, submit a warranty from the equipment manufacturer. Manufacturer's warranty period shall be concurrent with Contractor's for one (1) year, unless otherwise specified, commencing at the time of final acceptance by Owner.

B. Contractor shall be responsible for obtaining certificates for equipment warranty for all major equipment which has at least a 1 hp motor or which lists for more than $1,000. Engineer reserves the right to request warranties for equipment not classified as major. Contractor shall still warrant equipment not considered to be "major" in the Contractor's one-year warranty period even though certificates of warranty may not be required.

C. In the event that the equipment manufacturer or supplier is unwilling to provide a one-year warranty commencing at the time of Owner acceptance, the Contractor shall obtain from the manufacturer a two (2) year warranty commencing at the time of equipment delivery to the job site. This two-year warranty from the manufacturer shall not relieve the Contractor of the one-year warranty starting at the time of Owner acceptance of the equipment.

D. Owner shall incur no labor or equipment cost during the guarantee period.

E. Guarantee shall cover all necessary labor, equipment and replacement parts resulting from faulty or inadequate design, improper assembly or erection, defective workmanship and materials, leakage, breakage or other failure of all equipment and components furnished by manufacturer.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION (NOT USED)

END OF SECTION

SECTION 01 78 39
PROJECT RECORD DOCUMENTS

PART 1 - GENERAL

1.01 REQUIREMENTS INCLUDED

A. Maintain at the site for the Owner one record copy of:

1. Drawings
2. Specifications
3. Addenda
4. Change Orders and other modifications of the contract
5. Engineer's Field Orders or written instructions
6. Approved Shop Drawings
7. Field Test records
8. Construction photographs, preconstruction videos, and pipeline videos.
9. Preliminary as-built drawings

B. RELATED WORK SPECIFIED ELSEWHERE

1. Section 00 80 00: Supplementary Conditions

1.02 MAINTENANCE OF DOCUMENTS AND SAMPLES

A. Store documents and samples in Contractor's field office apart from documents used for construction.

1. Provide files and racks for storage of documents.
2. Provide locked cabinet or secure storage space for storage of samples.

B. File documents and samples in accordance with CSI format with section numbers as provided herein.

C. Maintain documents in a clean, dry, legible, condition and in good order. Do not use record documents for construction purposes.

D. Make documents and samples available at all times for inspection by the Engineer.

E. As a prerequisite for monthly progress payments, the Contractor shall provide the currently updated "Record Documents" for review by the Engineer and Owner.

1.03 MARKING DEVICES

A. Provide felt tip marking pens for recording information in the color code designated by the Engineer.

1.04 RECORDING

A. Label each document. "PROJECT RECORD" in neat large printed letters.

B. Record information concurrently with construction progress. Do not conceal any work until required information is recorded.

C. Drawings: Legibly mark to record actual construction:

1. Depths of various elements of foundation in relation to finish first floor datum.

2. All underground piping with elevations and dimensions. Change to piping location. Horizontal and vertical locations of underground utilities and appurtenances referenced to permanent surface improvements. Actual installed pipe materials, class, etc.

3. Location of internal utilities and appurtenances concealed in the construction, referenced to visible and accessible features of the structure.

4. Field changes of dimensional and detail.

5. Changes made by Field Order or by Change Order.

6. Details not on original contract drawings.

7. Equipment and piping relocations.

8. Major architectural and structural changes including relocation of doors, windows, etc.

9. Architectural schedule changes according to Contractor's records or shop drawings.

a. Contractor shall provide copies of all such recordings to the Contractor’s surveyor for incorporation into the preliminary and final as-builts drawings.

D. Specifications and Addenda: Legibly mark each section to record:

1. Manufacturer, trade name, catalog number and supplier of each product and item of equipment actually installed.

2. Changes made by Field Order or by Change Order.

E. Shop Drawings (after final review and approval): Provide four (4) sets of record drawings for each process equipment, piping, electrical system and instrumentation system.

1.05 SUBMITTAL

A. Accompany each submittal with transmittal letter in duplicate, containing:

1. Date
2. Project title and number
3. Contractor's name and address
4. Title and number of each Record Document
5. Signature of Contractor of his authorized representative

B. Preliminary As-built Drawings: The Contractor shall submit to the Engineer two (2) paper copies of preliminary as-built drawings prepared and signed/sealed by the Contractor's surveyor with each monthly progress payment request. Preliminary as-built drawings shall conform to the requirements of final as-built drawings and shall represent the completed work to date. Preliminary as-built drawings shall include all work which the Contractor is requesting to be paid for.

C. Final As-built Drawings: Upon project closeout and as a prerequisite to the final pay request, the Contractor shall submit to the Engineer final as-built drawings Administrative Code, pursuant to Section 472.027 of the Florida Statutes. The Engineer shall supply the Contractor copies of AutoCAD files for the Contractor's use in the as-built drawing preparation. Final as-built drawings shall include all work which the Contractor is requesting to be paid for. The final as-built drawing submittal shall include:

1. Two (2) sets of paper plans signed and sealed by a professional land surveyor licensed in the State of Florida and CD(s) or other media containing AutoCAD, version 14, drawing files.

2. AutoCAD drawing files shall include as-built information on layers separate from the original drawing layers and shall be named descriptively to represent the as-built features. (i.e. - Layer "wat ab" and "wat ab txt" for water as-built line work and

text, respectively.) Drawing entities are to be shown on the correct layer. All as-built entities shall have color and line type set “by-layer”. Text sizes shall be

relative to the plotted scale. Additional details or exploded views shall be include to accurately and fully represent the as-built conditions.

3. Certification by surveyor that the as-built information shown is accurate and that all improvements shown were constructed within or on public rights-of-way, easements or property specifically owned by the Owner. Certification shall be to the Owner, Engineer and St. Johns River Water Management (if applicable.)

4. No line work and text shall be erased from the original design (construction) drawings during the as-built drawing preparation. Original line work or text shall be circled if accurate or stricken (not erased) if not with the accurate information noted/shown. New line work and text shall be provided to accurately show the as-built information for the constructed improvements. Revisions to design dimensions alone will not be permitted.

5. Pressure Pipeline and Utility Conduit Improvements: For utility improvement projects, horizontal locations of the constructed pipelines with respect to the right-of-way lines or other readily visible, permanent features at 100-foot minimum intervals and at critical locations such as road intersections shall be shown. For treatment plant and pump station improvements, horizontal locations shall be provided at 20-foot intervals. Vertical locations of the constructed pipelines by elevation of centerline of pipe for above ground/exposed pipe or with respect to finished grade over buried pipe shall be shown at 100 feet minimum intervals. (i.e. final cover) For underground piping, all valves, blow-offs, stub-outs, pigging stations, fire hydrants, backflow preventers and services shall be located horizontally in relation to readily visible, permanent features with three-way horizontal dimensions less than 100 feet, each. Three-way dimensions to all buried fittings on treatment plant and pump station improvement projects shall be provided. If adequate features are not available, a station and offset dimensioning system can be used if prior approval is obtained from the Engineer. For above ground/exposed pipe, as-built dimensions between fittings or flanges shall be provided. Separations between “sanitary hazards” to potable water and reclaimed water mains per FDEP shall be shown.

6. Gravity Pipeline Improvements: Show elevations for all inverts, manhole tops, inlet throats/weirs, grate tops, etc. Show size and type of each structure. As-built length, size and type of pipes between the structures shall be shown. All service laterals and cleanouts shall be located horizontally to readily visible, permanent features with three-way horizontal dimensions less than 100 feet, each. If

adequate features are not available, a station and offset dimensioning system can be used if prior approval is obtained from the Engineer. A labeling and dimension table scheme is recommended for the three way or station/offset dimensioning. (i.e. - constructed feature labeled as “A”, permanent feature labeled as “B”, “A”-“B” dimension shown in table for distance measured between the two. Use continuous labeling and complete single table per plan sheet.) Separations between gravity “sanitary hazards” to potable water and reclaimed water mains per FDEP shall be shown.

7. Roadway Improvements: Elevation, size and location of swales, ditches, gutter flowlines, edge of pavement, and road crown on both sides of the road if applicable shall be provided at 100-foot minimum intervals and at critical areas such as intersections and inlets/flumes. As-built points of curvature, tangent and vertical intersection, along with radii of road alignment, intersecting streets and driveways and other alignment information shall be provided.

8. Stormwater Improvements: The limits, slopes and bottom depths of stormwater ponds, swales and other retention areas shall be provided. All stormwater piping information shall conform to the Gravity Pipeline Improvement requirements. Size, type, material, and elevations of all stormwater structures, including appurtenances such as weirs, orifices, skimmer plates, etc. shall be shown. As-built information shall conform to St. Johns River Water Management District requirements.

9. Treatment Facility Improvements: Location, size, number, and type of treatment equipment and structures shall be shown. Applicable requirements of as-built information listed herein for similar improvements shall be required.

10. Building Improvements: Finished floor elevations, ceiling heights, building locations, wall opening dimensions, equipment (electrical, mechanical, plumbing) locations, etc. shall be provided. Change of material shall be specifically noted as such.

11. Landscaping Improvements: Number, type, size, and general location of installed plant material shall be provided. Change of material shall be specifically noted as such. Location of irrigation meters, services, manual valves, automatic valves, controllers, rain shut off switches, etc. shall be shown. Changes to the designed irrigation system shall be shown.

12. Other Improvements: Changes from the original design of other improvements such as electrical, mechanical and structural improvements shall be noted as such

on the as-built drawings with the size, number, type and location of the constructed/installed improvements noted.

13. Contractor may be required to reimburse the Owner for services rendered by the Engineer for review of multiple resubmittals per SC-6.17, 1. of Section 00 80 00, Supplementary Conditions.

SECTION 02 06 14
GEOTECHNICAL DATA REPORT

PART 1 - GENERAL

1.01 DESCRIPTION

A. Geotechnical Data Report information is included in Appendix A. The Geotechnical Data Report was prepared for the Owner and the Engineer by the Geotechnical Consultant. The report is reproduced in the contract documents.

B. The subsurface information contained therein was obtained for design purposes and may not be an adequate representation of actual conditions for project construction. Information shown, including water levels, represents existing conditions at the specific boring locations at the time the borings were made. All risks resulting from use or interpretation of the subsurface data shown shall be borne by the Contractor.

D. This data is available for information only and may be useful as a guide in estimating and planning the work.

E. If additional subsurface information is required by the Bidder it shall be the Bidder's responsibility to obtain such data.

F. Refer to the GENERAL CONDITIONS for further explanation of subsurface conditions.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION (Not Used)

END OF SECTION

SECTION 02 41 00
DEMOLITION

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work:

1. This Section includes furnishing all labor, materials, equipment and incidentals required for selective site demolition.

2. This Section provides for the complete or partial removal and disposal of specified existing structures, foundations, piping, mechanical, and miscellaneous appurtenances encountered during construction operations.

3. This Section specifies certain activities necessary to maintain and facilitate operation during and immediately following construction and do not purport to cover all the activities necessary. The Contractor shall exercise due care for the existing system operation and shall maintain continuous operation of the existing lift station and the overall wastewater service and minimize operation inconvenience. In accordance with this requirement, a Demolition and Removal Plan shall be developed in accordance with Paragraph 1.05.

4. Demolition includes:

   a. Demolition, complete or partial removal and cutting of existing piping and/or structures as required for the new construction.

   b. Disposal of salvageable and excess unacceptable material as specified below.

   c. Complete removal and off-site disposal of excess and unacceptable materials.

5. The Contractor shall examine the various drawings regarding the proposed site, visit the proposed site and determine for himself the extent of the work, the extent of work affected therein and all conditions under which he is required to perform the various operations.

6. Specific piping and/or structures to be partially or completely demolished are identified in the Construction Drawings.

1.02 PERMITS AND NOTICES

A. Permits and Licenses: Contractor shall obtain all necessary permits and licenses for performing the work and shall furnish a copy of same to the Engineer prior to commencing the work. The Contractor shall comply with the requirements of the permits.

B. Notices: Contractor shall issue written notices of planned demolition to Owner, Engineer and companies or local residents located within the project site. Notices shall be received at least forty-eight (48) hours in advance of the planned demolition activity.

C. Utility Services: Contractor shall notify utility companies or local authorities furnishing gas, sewer, water, electrical or telephone to remove any equipment owned by them in structures to be demolished and to remove, disconnect, cap or plug their services to facilitate demolition.

1.03 CONDITIONS OF PIPING AND/OR STRUCTURES

A. The Standard Building Codes shall control the demolition, modification or alteration of the existing piping and structures.

B. No blasting shall be done on site. The Contractor shall not bring or store any explosives on site.

1.04 DISPOSAL OF MATERIAL

A. Salvageable material shall become the property of the Owner, if the Owner requests any specific item. The Contractor shall dismantle all materials to such a size that it can readily handle and deliver any of this salvageable material requested by the Owner to a storage area designated by the Owner.

B. The following materials are examples of the type that the Owner may maintain ownership of:

1. Valves greater than 3 inches in diameter.

2. Water meters on service connections.

C. Any materials that the Owner rejects shall become the Contractor’s property and must be removed from the site.

D. Concrete, concrete block and unsalvageable bricks shall be hauled to a waste disposal site by the Contractor.

E. All other material shall be hauled to a waste disposal site by the Contractor.

F. The storage of or sale of removed items on the site will not be allowed.

1.05 SUBMITTALS

A. Submit to the Engineer for approval, two (2) copies of the proposed Demolition and Removal Plan for the modifications as shown on the Drawings or as specified herein prior to the start of work. Include in the schedule the coordination of shutoff, capping and continuation of utility service as required. The Demolition and Removal Plan shall include as a minimum, the following:

1. A detailed sequence of demolition and removal work to insure the uninterrupted operation of the Owner's utility systems, and the expeditious completion of the Contractor's work.

2. Evidence (by signature) of approval by the Owner of the work plan.

B. Before commencing demolition work, all modifications necessary to bypass the affected portion of the system will be completed. Contractor shall coordinate with the residential Owner's personnel to determine the locations of the affected valves, fittings and water meters.

C. The above procedure must be followed for each individual demolition operation.

1.06 TRAFFIC AND ACCESS

A. Conduct demolition and modification operation, and removal of piping and debris to ensure minimum interference with roads, streets, and sidewalks both onsite and off-site and to ensure minimum interference with occupied or used facilities.

B. Contractor shall at all times maintain safe and convenient access to the existing site.

C. Do not close or obstruct streets or walks without permission from the Owner and Engineer. Provided alternate traffic routes around closed or obstructed access ways.

1.07 DAMAGE

A. Promptly repair damage caused to adjacent facilities by demolition operations at no cost to the Owner.

1.08 UTILITIES

A. Maintain existing utilities to remain in service and protect against damage during demolition operations. This may include the installation/construction of bypass piping where necessary.

B. Do not interrupt existing utilities serving occupied or used facilities, except when authorized by the Owner and Engineer. Provide temporary services during interruption to existing utilities as required by the Owner.

C. The Contractor shall cooperate with the Owner to shut off utilities serving the existing facilities as required by demolition operations. If service must be cut off to existing customers, the Owner must have at least three (3) days' notice to make necessary preparations.

D. The Contractor shall be solely responsible for making all necessary arrangements and for performing any necessary work involved in connection with the discontinuance or interruption of all public and private utilities or services under this jurisdiction of utility companies.

E. All utilities being abandoned shall be disconnected and terminated at the service mains in conformance with requirements of the utility companies or the municipality owning or controlling them.

1.09 POLLUTION CONTROL

A. For pollution control, use water sprinkling, temporary enclosures, and other suitable methods as necessary to limit the amount of dust and dirt rising and scattering in the air to the lowest level of air pollution practical for the conditions or work. Comply with the governing regulations.

B. Clean structures and improvements of all dust, dirt and debris caused by demolition operations as directed by the Engineer. Return areas to conditions existing prior to the start of work.

1.10 QUALITY CONTROL

A. Protect all existing materials and equipment to be salvaged or reused from damage.
B. Cap or plug all lines to be abandoned.
C. Leave all exposed ends of all pipe covered and safe.

PART 2 – PRODUCTS (NOT USED)

PART 3 - EXECUTION

3.01 SEQUENCE OF WORK

A. The sequence of demolition and removal of the existing facilities will be in accordance with the approved Demolition and Removal Plan as specified in Paragraph 1.05 of this Section. The Contractor is solely responsible for construction and demolition sequencing of the Work.

3.02 REMOVAL OF EXISTING PIPING AND APPURTENANCES

A. Subject to the constraints of maintaining the existing systems in operation, existing piping and appurtenances not necessary for the operation of the new system shall be removed as shown or indicated on the Drawings.

B. All piping and appurtenances shall be cleaned, flushed and drained. Equipment to be retained by the Owner as specified in Paragraph 1.04 above shall be dismantled sufficiently to permit thorough cleaning and draining. All valves shall be left open. All abandoned piping shall be capped and sleeves and openings remaining after removal of the existing equipment, piping, and appurtenances shall be plugged and sealed as shown on the Drawings.

C. All water meters on residential service connections located within the right-of-way that have not been relocated and connected to the new service lines shall be removed and given to the Owner.

3.03 STRUCTURES TO BE COMPLETELY DEMOLISHED

A. Existing structures shall be completely demolished as shown on the Drawings. Structures shall be demolished to make room for construction of new facilities, unless otherwise shown on the Drawings. All demolished material shall be removed from site.

END OF SECTION

SECTION 03 3 00

CAST IN PLACE CONCRETE

PART 1. GENERAL

1.01 WORK INCLUDED

A. The work included under this section consists of furnishing all materials, forms, transportation, and equipment, and performing all necessary labor to do all the plain and reinforced concrete work shown on the Drawings, or incidental to the proper execution of the work, or as herein specified.

B. Composition: Concrete shall be composed of cement, fine aggregate, coarse aggregate, and water so proportioned and mixed as to produce a plastic workable mixture in accordance with all requirements under this section suitable to the specific conditions of placement.

1.02 SUBMITTALS

A. All materials specified shall be certified by the producer or manufacturer that the furnished material meets the specific requirements of the specifications. Concrete mix designs shall be submitted for approval prior to placement.

1.03 CODES AND STANDARDS

A. ACI 301 "Specifications for Structural Concrete for Buildings", ACI 318” Building Code Requirements for Structural Concrete”, ACI 347 "Recommended Practice for Concrete Formwork"; ACI 304 "Recommended Practice for Measuring, Mixing, Transporting, and Placing Concrete"; comply with applicable provisions except as otherwise indicated.

1.04 TESTING

A. Air content shall be in accordance with American Society for Testing Materials Standard Methods C 173, one for each set of compressive strength specimens.

B. Sampling of freshly mixed concrete shall be in accordance with ASTM C172.

C. Slump: ASTM C-143

D. Test results will be reported in writing to Engineer, Contractor, Owner and Concrete producer on same day tests are made.

E. Laboratory Reports: Submit two (2) copies of laboratory test or evaluation reports for concrete materials and mix designs.

PART 2. PRODUCTS

2.01 PORTLAND CEMENT

A. Shall comply with the standard specifications for Portland Cement, A.S.T.M. designation C-150, Type II, or Type III (high-early), where indicated on drawings.

2.02 CONCRETE AGGREGATE

A. Shall conform to standard specifications for concrete aggregate, A.S.T.M. Designation C-33 or to ASTM C-330. Maximum size of aggregate shall not exceed one-fifth of the narrowest dimension between reinforcing bars.

B. Fine Aggregate - Fine aggregate shall be clean, hard, strong, durable, uncoated particles of natural sand known as Lake Wales, Interlachen, or approved equal. The source, composition, quality and gradation of the fine aggregate shall be subject aid the approval of the Engineer. Samples of the sand shall be furnished, together with certified copies of the gradation and analysis from the recognized testing laboratory.

1. The weight of extraneous or deleterious substances shall not exceed the following percentages:

Loss by Decantation	3%
Shale	1%
Clay Lumps	1%
Coal and Lignite	1%

2. The fine aggregate shall be reasonable well graded from coarse to fine and when tested by means of laboratory sieves shall meet the following requirements in percent of total weight:

Total Retained On	Percent Retained
No. 4 Sieve	0 – 5
No. 10 Sieve	3 – 30
No. 30 Sieve	30 – 70
No. 50 Sieve	65 – 95
No. 100 Sieve	95 – 100

C. Deficiencies in the percentages of the fine aggregates passing the No. 50 and No. 100 Sieves may be remedied by the addition of pozzolanic or cementitious materials excepting Portland cement. Such materials must meet the approval of the Engineer.

D. Coarse Aggregate

1. Coarse aggregate shall consist of hard, tough, durable components free from adherent coatings and vegetable matter, and shall not contain soft, friable, thin or elongated particles in quantities considered deleterious by the Engineer. Coarse aggregate shall be properly graded from fine to coarse to produce concrete of desired strength, density, and workability. The source, composition, quality and gradation of the coarse aggregate shall be subject to the approval of the Engineers. Samples of the coarse aggregate shall be furnished together with certified copies of the gradation and analysis from a recognized testing laboratory.

2. All coarse aggregate shall be washed and shall be free from disintegrated pieces, salt, alkali, vegetable matter and adherent coatings. The total percentage of all deleterious substances shall not exceed five percent (5%) by weight. The substances designated shall not be present in excess of the following amounts.

Loss by Decantation	1%
Clay Lumps or Other Soluble Materials	3%
Soft Fragments	5%

3. Where the cover over reinforcing is 2 inches or more, the maximum size of aggregate shall be 12 inches. Where the cover over reinforcing is less than 2 inches, the maximum size of aggregate shall be 3/4 inch. The maximum size of aggregate shall not exceed one-fifth of the narrowest dimension between forms nor three-fourths of the minimum clear spacing between reinforcing bars. The grading of the coarse aggregate in the concrete shall be within the following limits.

Percent Passing:

Maximum Size Square Mesh Screen	97 – 100%
2 Maximum Size Square Mesh Screen	40 – 70%
No. 4 Sieve	0 – 6%

2.03 WATER

A. Water shall be clean and free from oil, acids, alkalis, organic materials or other injurious substances.

2.04 REINFORCEMENT

A. Reinforcing Bars: ASTM A615, Grade 60, deformed bars of USA manufacture.

B. Welded Wire Fabric: ASTM A185, gauges, spacing and dimensions as indicated.

C. Metal Bar Supports: CRSI MSP-1, Chapter 3, Class 2, Type B, Stainless Steel Protected Bar Supports, or otherwise approved by the Engineer. Use concrete supports for reinforcement in concrete placed on grade.

D. Tie Wire: 16 gauge minimum, black, soft annealed.

E. Coupler Splice Devices: Cadweld tensions couplers, capable of developing the ultimate strength of the bar as manufactured by Erico Products, Incorporated, Solon, Ohio, or equal.

F. Epoxy coated or FRP rebar shall be used for all marine applications.

2.05 FORM WORK

A. Lumber: Douglas Fir or Larch, No. 2 grade, seasoned and surfaced on four sides.

B. Plywood: Plyform, Class 1, BB-Exterior type, mill oiled, and edge sealed, with thickness not less than 3/4 inch.

C. Medium Density Overlay (MDO) Plywood Forms: PS-1, B-B High Density Concrete Form Overlay, Class I, unoiled.

1. Butt form panels, make contact surface fully flush and seal butting holes with sponge form tape. Chamfer edges of beams and ceilings.

2. Where MDO plywood is used to form beams, do not use MDO plywood that has been patched or damaged.

D. Drip Forms: Varnished ponderosa pine or equally rigid non-staining plastic, 2-inch-wide on each leg.

E. Steel Forms. Uncoated steel, 3/16-inch minimum thickness, fabricated to close tolerances, protected only by the specified release agent, braced so as not to bend, dent, or dimple under wet concrete load, vibrator impact, and tool impact. Maintain steel form in rust-free condition by use of steel wood and light grinding, followed by coats of specified release agent. Use forms that can be adjusted into true alignment without stops or ridges.

F. Glass Fiber Reinforced Plastic (FRP) Forms: Smooth coated forms, braced so as not to bend, dent or dimple under wet concrete loads, vibrator impact and tool impact, and at least 0.11 inch thick. Design forms for external bracing at piers and columns, without use of form ties.

G. Plugged Cone Form Ties: Rod type, with ends or end fasteners which can be removed without spalling the concrete and which leave a hole equal in depth to the required reinforcement clearance. Form ties shall be of a design in which the hole left by the removed end or end fastener is easily filled to match the surface of the hardened concrete. Provide removable cones 13 inches in diameter by 12 inches deep. Provide preformed mortar plugs to match the color of the concrete, recessed 3 inches, adhered with an approved two-part epoxy.

H. Weep Hole Forms: PVC polyethylene, or ABS pipe, matching color of the concrete, 4 inch inside diameter, with outlet projecting 12 inches form wall and cutoff in a plane parallel to it.

I. Circular and Elliptical Column Forms: Fabricate of two (2) pieces, clamped watertight using gaskets and without horizontal joints. Install horizontal construction joints only where indicated or as directed by the Engineer.

J. Beam Forms: Provide in one length without form joints and suitable for cambering up to 1/160 of span without distortion of profile or opening of seams.

K. Forms of Hammerhead Pier Caps: Provide in one length with adjustable soffits, bulkheads and screens as necessary to accommodate different hammerhead beam configurations. Provide no construction joints in hammerhead pier caps. Where three or fewer identical hammerhead pier caps occur within a line section, steel braced HDO plywood forms may be substituted for steel forms if:

1. Working drawings of formwork are submitted.

2. Internal form ties are regularly spaced no less than 48 inches each way and are made watertight.

3. Form ties have removable cones, which are filled to match concrete.

4. Joints in panels are fully watertight.

5. The resulting surface matches the appearance of steel formed hammerhead caps, with no visible discoloration due to form leakage.

L. Styrofoam Board: Expanded polystyrene extruded into board form, closed cell, moisture resistant, capable of maintaining indicated clear space between concrete structures.

M. Control Joint Filler: Use epoxy joint filler equal to BurkEpoxy Joint Filler to fill voids left by saw cuts and to resist against spalling caused by vehicle traffic in concrete slabs.

N. Inserts: Galvanized cast steel or galvanized welded steel, complete with anchors to concrete and fittings such as bolts, wedges and straps. Provide hanger inserts spaced to match grid of suspended ceilings.

O. Shoring: As designed and executed by Contractor to support all loads.

P. Chamfer Strips: Polyvinyl strips designed to be nailed in the forms to provide a 3/4-inch chamfer at exposed edges of concrete members.

Q. Form Release Agent: A blend of natural and synthetic chemicals that employs a chemical reaction to provide quick, easy and clean release of concrete from forms, and equal to Eucoslip, by the Euclid Chemical Company, or Release #1, by The Burke Company. Use a non-staining release agent that leaves the concrete with a paintable surface.

2.06 ADMIXTURES

A. Air Entraining Admixture: ASTM C260.

B. Water Reducing and Retarding Admixture:

1. Concrete Without Superplasticizer:

a. Water Reducing Admixtures: ASTM C494, Type A, equal to Eucon WR-75 by the Euclid Company, Pozzolith 200N by Master Builders, Plastocrete 161 by Sika Chemical Corporation, and containing no calcium chloride.

b. Water Reducing and Retarding Admixtures: ASTM C494, Type D, equal to Eucon Retarder-75 by the Euclid Company, Pozzolith 100 XR by Master Builders, Plastiment by Sika Chemical Corporation, and containing no calcium chloride.

c. Accelerating Admixtures: ASTM C494, Type C or E, equal to Accelguard 80 by the Euclid Company, Darex Set Accelerator by W.R. Grace, and containing no calcium chloride.

2. Concrete with Superplasticizer:

a. Water Reducing, High Range Admixtures: ASTM C494, Type F or G, equal to Eucon 37 by the Euclid Company, Rheobild 716 by Master Builders, Daracem 100 by W.R. Grace, Sikament by Sika Chemical Corporation, and consisting of a second generation admixture, free of chlorides and alkalis (except for those attributable to water) composed of a synthesized sulfonated complex polymer, enabling the concrete to maintain its rheoplastic state in excess of two (2) hours if necessary.

b. Manufacturer's Job Site Representation: Provide the services of a competent field service representative from the manufacturer of each of the admixtures selected for use to provide at the job site advice and consultation on the use of the admixture materials, including the effect on the concrete in place, including recommending maximum discharge time for superplasticizer method and procedure to induce superplasticizer into mixer, quantities of admixtures to be used if variations are required because of temperature/humidity, wind or other environmental

considerations, and to be available on short call at any time requested by the Owner, Contractor, or concrete producer.

3. Concrete used in Marine Applications:

a. Micro Silica admixtures shall be used for concrete installed in marine and coastal applications. Concrete designs shall meet the appropriate requirements of EN206-1, BS 8500 and BS 5075. Contractor shall provide plant certification for all mix designs used in marine and coastal applications.

2.07 GROUT

A. Nonshrink, Nonmetallic Grout: The Burke Company's Non-Ferrous, Non-Shrink Grout, Sauereisen F-100 Level Fill, Master Builders Masterflow 713, Euclid NS Grout, or equal pre-mixed type.

B. Nonshrink Metallic Grout: The Burke Company's Metallic Spec Grout, Master Builders Embeco 636 Grout pre-mixed type, or equal.

C. Epoxy Grout: Sikadur 42 Grout-Pak, or equal, for grouting sleeves for anchor bolts, etc.

D. Clarifier Basin Grout: Class B concrete of coarse aggregate shall pass the 3/4 inch sieve.

2.08 MEMBRANE CURING COMPOUND

A. Membrane curing compound shall be wax-free, pigmented, 100 percent resin base compound such as A.C. Horn's "Horncure 30 C", Hunt Process Corporation; Southern's "All-Resin", or equal.

2.09 BONDING AGENT

A. Bonding agent shall be Colma Fix, as manufactured by Sika Chemical Corporation, of Passaic, New Jersey or equal. To be considered equal, the material must be a two-component epoxy-polysulphide resin system, and it must have a demonstrated record of strong adhesion to both wet and dry concrete in either the hardened or the plastic state. It must also be of equal strength.

2.10 ACCESSORIES

A. Precast Concrete Block Supports for Reinforcing Bars: Comply with ACI 315. Provide blocks with No. 4 dowels bent 90° to support top bars.

B. Membrane: 6 mil polyethylene film.

C. Water Stops: Polyvinyl chloride meeting all requirements of U.S. Army Corps of Engineer's Specification CRD-C-572 and equal to Burke Water Stops as manufactured by The Burke Company. Provide flat dumbbell type and center bulb type, 9 inches x 3/8 inch at wall thickness of 12 inches or greater, and 6 inches x 3/8 inches at wall thickness less than 12 inches. Provide 6-inch split-ribbed with center bulb type at connections of new concrete structures with existing concrete. Provide water stops as indicated on the Drawings.

D. Preformed Expansion Joint Filler:

1. Bituminous type conforming to the requirements of ASTM D994.

2. Nonextruding type, self-expanding cork, ¾-inch thick or as otherwise shown on the Drawings, conforming to the requirements of ASTM D1752, Type III, and compatible with the specified joint sealant compound.

E. Joint Sealant: A multipart gray polyurethane sealant, meeting U.S. Federal Specification TT-S-00227E (3) Type 1, Class A self-leveling for horizontal joints, and Type II, Class A, non-sag for vertical joints, and recommended by the manufacturer for continuous immersion in water. Provide sealants as manufactured by Products Research and Chemical Corporation, Mameco International, The Burke Company, W.R. Meadows, or equal.

F. Tongue and Groove Joint Forms: 24-gauge steel forms complete with steel stakes and splice plates, designed for joints not to receive a poured seal, and equal to Burke Keyed Kold Joint as manufactured by The Burke Company.

G. Inserts: Galvanized steel to fit the proposed hanger or support.

H. Mortar for Repair of Concrete: Same materials as used for concrete, except omit coarse aggregate and use not more than one-part cement to two and one-half parts sand by damp loose volume. Use no more mixing water than is necessary for handling and placing.

I. Burlap Mats: Conform to AASHTO Specification M182.

J. Epoxy Bonding Agent: Euco #452, BurkEpoxy MV, Sikadur Hi Mod, Concresive 1001-LPL, or equal.

K. Powered Epoxy Coating for Anchor Bolts: Powdered epoxy resin as manufactured by the 3M Company, Scotchkote No. 213, Armstrong No. R349.

2.11 CONDUITS AND PIPES EMBEDDED IN CONCRETE

A. Conduits, pipes and sleeves of any material not harmful to concrete shall be permitted to be embedded in concrete with approval of the Engineer, provided they are not considered to replace structurally the displaced concrete.

B. Conduits and pipes of aluminum shall not be embedded in structural concrete unless effectively coated or covered to prevent electrolytic action between aluminum and steel.

C. Conduits and pipes, with their fittings, embedded within a column shall not displace more than four percent (4%) of the area of cross section on which strength is calculated or which is required for fire protections.

D. Conduits, pipes, sleeves passing through a slab, wall or beam shall not impair significantly the strength of the construction.

E. Except when plans for conduits and pipes are approved by the Engineer, conduits and pipes embedded within a slab, wall, or beam shall satisfy the following:

1. They shall not be larger in outside dimension than one-third overall thickness of slab, wall, or beam in which they are embedded.

2. They shall not be spaced closer than three diameters or widths on center.

2.12 PIPES CONTAINING LIQUID, GAS, OR VAPOR

F. Pipes that will contain liquid, gas or vapor may be embedded in structural concrete under the following conditions:

1. Pipes and fittings shall be designed to resist effects of the material, pressure, and temperature to which they will be subjected.

2. No liquid, gas, or vapor, except water not exceeding 90°F (32C) nor 50 psi (345 kPa) pressure, shall be placed in the pipes until the concrete has attained its design strength.

3. Concrete cover for pipes, conduits and fittings shall be not less than 12 inches (38 mm) for concrete exposed to earth or weather or in contact with ground.

4. Reinforcement with an area of not less than 0.002 times area of concrete section shall be provided normal to piping.

5. Piping and conduit shall be so fabricated and installed that cutting, bending or displacement of reinforced from its proper location will not be required.

PART 3. EXECUTION

3.01 PROPORTIONING

A. The proportions of aggregate to cement shall be such as to produce a thoroughly plastic mixture which will work readily into the corners and angles of the forms and around the reinforcement but without permitting the materials to segregate or excess free water to collect on the surface. The percentage of sand shall not be less than thirty percent (30%) nor more than fifty percent (50%) of the total weight of the aggregate.

B. The total content, including the surface water contained in the aggregate, shall not exceed 5.7 gallons per sack of cement. The slump shall not exceed 4 inches. Air entraining admixture shall be Darex AEA as manufactured by the Dewey and Almy Chemical Company.

C. The amount of air entrained in the freshly mixed concrete shall not be less than three percent (3%) nor more than six percent (6%). The minimum cement content in sacks per cubic yard of concrete shall not be less than 6 sacks per cubic yard for Class "A" concrete.

D. Concrete materials shall be accurately measured by weight. Measurement of materials for ready mixed concrete shall conform to the "Standard Specifications for Ready Mixed Concrete", (A.S.T.M. designation C 94).

1. Class "A" concrete for all structures shall have minimum compressive strength of 4000 psi at 28 days.

2. Class "B" concrete for sidewalks shall have minimum compressive strength of 3000 psi at 28 days.

3. All concrete shall be Class "A" unless otherwise shown on the drawings.

3.02 MIXING AND PLACING

A. Concrete shall be mixed, conveyed and deposited in accordance with the "A.C.I. Building Code" (A.C.I. 318).

B. Prior to placing any concrete, the Contractor shall submit for the Engineer's approval a design mix, calculated by a recognized testing laboratory, and using the approved aggregates to produce a workable mix of the desired strength, together with certified copies of 7 days and 28 day tests of cylinders taken from concrete made according to the design mix. The mixes shall be designed to secure concrete having a minimum compressive strength at age 28 days.

C. Ready mixed concrete delivered shall be accompanied by delivery tickets showing the following:

1. Date and time leaving plant Additives (if any)

2. Type of cement and weight Site arrival time

3. Quantity of water and time added Site leaving time

D. Concrete

1. Ready mixed concrete shall be used. All mixing requirements specified herein shall be enforced, and the Owner's laboratory representative and the Engineer shall have free access to the mixing plant at all times.

2. Except for materials and/or procedures otherwise specified herein, ready mixed concrete shall be mixed and delivered in accordance with the requirements of ASTM C 94.

3. No water shall be added to the concrete after it leaves the plant except where part of the design water was purposely omitted at the plant, and then only as approved by the Engineer.

E. Mixer Speed

1. Neither the speed of any mixer nor the quantity of material loaded into any mixer shall exceed the recommendations of the manufacturer.

2. Excessive over mixing, required additions of water to preserve the required consistency, shall be cause for rejection of the batch.

3. Concrete shall not remain in a transit mixer or agitator truck more than ninety (90) minutes after the water has been introduced, and not for more than forty-five (45) minutes if any approved retarding agent is not used.

4. Minimum mixing time shall be fifty (50) revolutions of drum at rated speed.

F. Measurement

1. Equipment necessary to determine and control the actual amounts of all materials entering the concrete shall be provided by the concrete manufacturer.

2. All materials shall be measured by weight, except that water may be measured by volume calculated at 8 1/3 pounds per gallon. One bag of cement will be considered as 94 pounds in weight.

G. Mixes

1. Mix Design: Conform to ACI 318, Section 4.3. Submit data on consecutive tests and standard deviation.

2. Maximum Water-Cement Ratio:

   .37 (lbs/lb) – Concrete with superplasticizer
   .38 (lbs/lb) – Concrete in Marine Environments
   .45 (lbs/lb) – Class A concrete without superplasticizer
   .55 (lbs/lb) – Class B concrete without superplasticizer
   .65 (lbs/lb) – Class C concrete without superplasticizer

3. Air Content: 5 percent plus or minus 1.5 percent (Class A and B).

4. Slump: 4 inches plus or minus 1 inch for Class A and B without superplasticizer.

   7 inches plus or minus 1 inch for Class A and B with superplasticizer.
   8 inches plus or minus 1 inch for tremie concrete or as specified by details.

H. Placing Concrete.

1. All concrete shall be placed in clean, damp forms that are not hot to the touch.

2. To prevent segregation, concrete shall be deposited as nearly as practicable in final position and not allowed to drop freely more than necessary and in no case more than five feet, except in an approved funnel or tremie. All concrete shall be placed during daylight unless otherwise authorized at least four (4) hours in advance. Where the reinforcing steel above the top of the concrete being placed becomes coated with laitance or partially set up concrete, all such concrete shall be removed from the reinforcing steel prior to placing concrete around the bars.

3. Concrete shall be packed carefully and tightly around pipe and other items to secure maximum adhesion.

4. Concrete shall be placed in layers not over 12 inches deep before compacting. Concrete shall be compacted by internal vibrating equipment supplemented by spading and hand rodding between reinforcing steel and form to eliminate air bubbles and honeycomb. Vibrators shall not be used to move the concrete laterally inside the forms. Duration of vibration shall be limited to the time necessary to provide satisfactory consolidation without causing segregation, not less than five and not more than 15 seconds per square foot of exposed top surface. The vibrator shall be constantly relocated and shall be placed in each specific spot only once for each layer. The Contractor shall take steps to assure that sufficient personnel are available to devote full time to operating vibrator, spading and rodding.

5. Wall concrete shall be placed in layers as indicated above, with the first lift preceded by a 1 inch minimum layer of 1:2 1/2 cement sand grout, with a 6 inch to 8 inch slump, placed on existing concrete not more than twenty (20) minutes before concrete placement. The surface of previously placed hardened concrete shall be clean and wet before grouting or shall be treated with a bonding agent as required. Puddles of water in horizontal recessed keys shall be avoided by the use of drain recesses to outside edge of concrete. Concrete in walls and deep beams shall be placed in lifts not to exceed three layers at 12 inches each for the full length of the pour before proceeding higher. The placing of concrete shall not be delayed more than twenty (20) minutes between layers or lifts.

6. Slab forms shall be thoroughly cleaned after placing wall concrete below. Concrete in beams or walls shall be placed to bottom of floor slab. After concrete in walls below floor slab has been in place for approximately thirty (30) minutes, the concrete for the floor slab and upper portion of the beam shall be placed and vibrated.

7. When concrete is conveyed by chutes, the equipment shall be of proper size and design to ensure a continuous flow in the chute. The chutes shall be metal or metal lined, and the different portions shall have approximately the same slope. The slope shall not be less than one vertical to three horizontal or more than one vertical to two horizontal, and there shall be provision for a baffle at the discharge end of the chute to prevent segregation. If the vertical distance between the discharge end of the chute and the surface of the concrete is more than five feet, a spout shall be used. The lower end of the spout shall be kept as near the surface of the deposit as is practicable. All chutes and spouts shall be thoroughly cleaned before and after each run. All debris and water shall be discharged outside the forms.

3.03 CURING AND PROTECTION

A. Curing:

1. Immediately after surface defects have been repaired, apply a spray coat of curing compound to all exposed surfaces, including slabs, walls, beams and columns in accordance with the manufacturer's recommendations. Protect exposed steel keyways and other embedded items from the curing compound. Water cure, as specified in paragraph B hereunder, all concrete surfaces that are to be exposed to wastewater, surfaces that are to be coated with a coal tar epoxy system, and concrete floors requiring a bond for special finishes.

2. Do not apply compound during periods of rainfall. Should the film become damaged from any cause within the required curing period, immediately repair the damaged portions with additional compound. Upon removal of forms, immediately

coat the newly exposed surfaces to provide a curing treatment equal to that provided for the surface.

3. Curing and Sealing Compound: Use clear compound conforming to Federal Specification TT-C-800A, thirty percent (30%) solids content minimum, having test data from an independent laboratory indicating a maximum moisture loss of 0.030 grams per sq. cm. when applied at a coverage rate of 300 sq. ft per gallon, and equal to Super Floor Coat or Super Pliocure by The Euclid Chemical Company or Masterseal 66 by Master Builders. Furnish manufacturer's certification as required.

4. Apply specified clear curing and sealing compound to all horizontal areas so noted on the Drawings or in the Specifications. Apply immediately after final finishing. Apply this compound to non-structural construction joints of slabs on grade to act as a bond breaker prior to placement of adjacent concrete.

B. Water Curing Method: Cure all concrete that is to be water cured by either the wet burlap method, by continuous fogging or by covering with waterproof sheet.

1. Wet Burlap Method: Cover concrete surface with a double thickness of burlap, cotton mats, or other approved material, kept thoroughly saturated with water. Keep the forms wet until removed and upon removal, start the curing specified herein immediately. Cure the concrete for a period of seven (7) days for normal Portland cement or four (4) days for high early strength cement. Do not submerge concrete poured in the dry until it has attained sufficient strength to adequately sustain the stress involved and do not subject it to flowing water across its surface until it has cured four (4) days.

2. Continuous Fogging: Perform continuous fogging by fogging with a nozzle which so atomizes the flow of water that a mist, and not a spray, is formed. Fog the concrete surface regularly without allowing any part of the surface to become dry. Take all necessary precautions to prevent erosion of the concrete surface by the water.

3. Covering with Waterproof Sheets: Keep the entire area to be cured continuously wet by fogging, as specified in the fogging paragraph above, for at least eighteen (18) hours and then immediately cover with waterproof curing sheet conforming to ASTM C171, waterproof paper and polyethylene film, free of holes or tears. Keep sheet fully flat, without wrinkles or air bubbles, held down tautly at all edges. Do not use this method on slabs which will be exposed to view.

3.04 PLACING REINFORCEMENT

A. All reinforcement shall be detailed, fabricated and erected in accordance with the A.C.I. "Manual of Standard Practice for Detailing Reinforced Concrete Structure", (A.C.I. 315), including bar supports and spacers. At splices all reinforcing bars shall be lapped a minimum of 24 bar diameters but not less than 12 inches.

B. The reinforcing shall be fabricated to the shapes and dimensions shown and shall be placed where indicated on the drawing. Before placing, all reinforced steel shall be thoroughly cleaned of rust, mill scale or coatings, which would reduce or destroy the bond. Reinforcing bars shall conform to the requirements of the latest editions of the A.C.I. Code and the CRSI Manuals.

C. Wire mesh, unless otherwise shown on the drawings or specified, shall be 6" x 6" No. 10 woven or electrically welded wire fabric conforming to the requirements of ASTM Designation A185, latest revision.

D. Space chairs and bolsters in accordance with ACI 315 and 318 using height to furnish cover over reinforcing required. Chairs with plastic feet or stainless steel shall be used in all beams and elevated slabs. Chairs for other concrete adjacent to or on the ground may be pieces of concrete block or concrete brick compressed into subgrade with the rebars bearing directly on the pointed edge of the masonry supports, or chairs set on precast concrete pads compressed into the subgrade.

E. When placed in the forms, reinforcement shall be clean and free of all loose rust, scale, dust, dirt, paint, oil or other foreign material, and shall be accurately and securely positioned both laterally and vertically before placing concrete. Minimum clearances between the steel and face of concrete shall be maintained as shown.

F. The rebars shall be fastened together at every intersection or at intervals not greater than 24 bar diameters by wire ties or by some alternate method acceptable to the Engineer. In areas where large bars are closer together, the wire ties may be spaced not more than 30 bar diameters apart, rather than as specified above.

3.05 FORMS

A. Installation and erection shall be in accordance with ACI 347 and as specified hereinafter.

B. Forms shall conform to shape, lines and dimensions of numbers indicated, and shall be sufficiently tight to prevent leakage of mortar. They shall not deflect under dead load weight of construction as a liquid or of construction load. Forms shall be properly braced or tied together so as to maintain position and shape within specified tolerances. Construct forms so that they can be removed steadily without hammering or prying against the concrete.

Forms for exposed concrete shall be carefully made and accurately placed to obtain correct shape and line.

C. Forms shall be of wood, metal, or other approved materials. Metal forms shall be of a type and manufacture acceptable to the Engineer. Plywood, fiberboard, or absorptive type form linings may be used where appropriate. Sectional forms shall produce a uniform surface and shall be assembled in a modular pattern. Pours will not be scheduled until all erection and bracing is complete. Walers, ties and braces shall be required for all forms.

Chamfer strips made from nominal dimensional 1" x 1" lumber cut on the diagonal shall be installed at the top of the forms on all exposed edges of walls, slabs, beams and other structures above grade.

D. Drip edge shall be made from wood quarter round and installed where shown. Extruded plastic fillets shall be used where detailed. Circular structures shall be formed with special care, and attention to the appearance of the finished structure. Random location of fillers, non modular sections, and excessive deviations from true circular segments shall be cause for rejection of the forms.

E. The Contractor shall be fully responsible for the adequacy of formwork in its entirety. Forms shall support required loads and shall maintain their dimensional and surface correctness to produce members required by drawings.

F. Slots, chases, recesses, or other openings as shown on the drawings or as needed for the work of any other trades shall be boxed out.

G. Box out for all temporary openings and build forms to seal them up when and as required.

H. After sealing and immediately before the placing of reinforcing, faces of all forms in contact with the concrete shall receive a thorough coating of the liquid form releasing agent, applied in compliance with the manufacturer's instructions.

I. Reused forms shall be thoroughly cleaned out of dirt, debris, concrete and foreign matter. Forms shall not be reused if they have developed defects which would affect their tightness and strength or desired surface finish. Used forms shall not be used for architectural concrete.

J. Forms shall be removed in a manner that will prevent injury to concrete. Supporting forms or shoring shall not be removed until the members have acquired sufficient strength to support their weight and any load thereon.

K. Removal shall be in sequence as approved by the Engineer. Unless test cylinders warrant another procedure, the forms shall not be removed from members prior to the time listed in the schedule hereinafter unless otherwise directed.

L. Bonding to Existing Surfaces: Clean existing concrete surfaces that are to have new concrete bonded thereto of all grease, oil, dust, dirt and loose particles and coat with an epoxy bonding agent just prior to placing of the new concrete. Apply the bonding agent as recommended by the manufacturer and allow the agent to become tacky before the new concrete is placed. Do not allow the bonding agent to overlap or be spilled on the surfaces to be exposed after the work is completed.

3.06 FORM REMOVAL

A. Maintain formwork in place for the following structural conditions until the concrete has attained the minimum percentage of indicated design compressive strength or for the period of time specified in the following table.

Note: Time periods in the table include all days except those in which the temperature falls below 40°F.

Structural Member or Condition	Normal Strength Concrete	Normal High-Early Strength Concrete	Minimum Compressive Strength for Form Removal (% Design Strength)
Cantilevers	12 days	7 days	90
Over 20 feet between supports	12 days	7 days	90
Stairway	10 days	5 days	80
Floor Slabs	5 days	3 days	70
Free standing walls, columns, and piers	5 days	3 days	70
Walls, piers columns, sides of beams, footings slabs on grade, and vertical surfaces	24-48 hours	12-24 hours	70
Front face form of curbs	6-24 hours	6 hours	70

3.07 CONCRETE FINISHINGS

A. Repair of Surface Defects:

1. General: Repair surface defects, including tie holes immediately after form removal. Dampen the area to be patched and an area at least six inches wide surrounding it to prevent absorption of water from the patching mortar. Notify the Engineer prior to commencing operations.

2. Removal of Defective Concrete: Remove all honeycombed and other defective concrete down to sound concrete. Cut edges perpendicular to the surface or slightly under cut. Sand blast surfaces to receive repair.

3. Bonding Grout: Thoroughly dampen surfaces to be patched and apply a coat of bonding grout consisting of one-part cement to one part fine sand passing a No. 30 sieve and having the consistency of thick cream.

4. Placing Patching Mortar: After the bonding grout begins to lose its water sheen, apply a premixed patching mortar, thoroughly consolidating it into place and striking it off so as to leave the patch slightly higher than the surrounding surface. Leave mortar undisturbed for one hour to permit initial shrinkage and then finally finish.

5. Tie Holes: After being cleaned and thoroughly dampened, fill the tie holes solid with patching mortar.

B. Concrete Finishes:

1. Formed Surfaces: After removal of forms, chip off all irregular projections, grind flush with adjacent surfaces and finish concrete surfaces in accordance with the following schedule:

Finish Designation	Area Applied
F-1	Exterior walls below grade not exposed to water: Repair defective concrete, fill depressions deeper than two inches, and fill tie holes.
F-2	Exterior and interior walls exposed to water: Repair defective concrete, remove fins, fill depressions 3 inches or deeper, and fill tie holes.
F-3	Walls of structures of buildings exposed to view and underside of formed floors or slabs: In addition to Finish F-2, fill depressions and airholes in mortar. Dampen surfaces and then spread a slurry consisting of one-part cement and one and one-half parts sand by damp loose volume on the surface with clean burlap pads or sponge rubber floats. Remove any surplus by scraping and then rubbing with clean burlap.

F-4	Tops of walls, beams and similar unformed surfaces occurring adjacent to formed surfaces: Strike smooth after concrete is placed and float to a texture reasonably consistent with that of formed surfaces.

2. Slab Surfaces:

a. General: After concrete has been consolidated, finish all concrete slabs with a floated finish. After floating, trowel finish all concrete slabs, except for areas to receive roofing, insulation, tile or topping, and immediately light broom finish. Where a finish is not indicated, provide a troweled finish.

Finish Designation	Area Applied
S-1	Slabs and floors not water bearing: Smooth steel trowel finish.
S-2	Slabs and floors which are water bearing and slab surfaces on which mechanical equipment moves: Steel trowel finish free from trowel marks and all irregularities.
S-3	Slabs, floors and stair treads of structures or buildings exposed to view: Steel trowel finish without local depressions or high points and apply a light hair-broom finish. Do not use stiff bristle brooms or brushes. Leave hair-broom lines parallel to the direction of slab drainage.
S-4	Slabs and floors at slopes greater than ten percent (10%): Steel trowel finish without local depressions or high points. Apply a stiff bristle broom finish. Leave broom lines parallel to the direction of slope drainage.
S-5	Exposed edges of slabs, floors and tops of walls: Finish with a 3-inch radius edge if a chamfer is not indicated.

C. Floated Finish: After concrete has been placed, consolidated, struck off and leveled, do not work the surface further until water sheen has disappeared and the surface has hardened sufficiently to permit floating. During the first floating, check the planeness of the slab with a 10-foot straightedge applied at no less than two angles. Cut down all high spots and fill all low spots to produce a surface having the required tolerance. Then refloat the slab to a uniform sandy texture.

D. Light Broomed Finish: After floating, power trowel slabs to receive a light broomed finish to produce a smooth surface, relatively free of defects. Before the surface sets, pass a soft broom drag over the surface to produce a surface uniform in texture and appearance.

E. Troweled Finish: After floating, power trowel slabs to receive a troweled finish to produce a smooth surface, relatively free of defects. Hand trowel after the surface has hardened sufficiently. When a ringing sound is produced as the trowel is moved over the surfaces, perform final troweling by hand to produce a surface which is thoroughly consolidated, free from trowel marks, uniform in texture and appearance and plane to a tolerance of 1/8 inch in 10 feet as determined by a 10-foot straightedge placed anywhere on the slab in any direction.

F. Hardener Finish: Where indicated to receive a troweled hardener finish, water cure slabs without application of curing and sealing agent. When slab is at least twenty (20) days old and thoroughly dry, apply the hardener in accordance with the manufacturer's recommendations. Where dry-shake hardener or slip resistant finish is required, apply the hardener or slip-resistant product prior to complete curing and finishing, in accordance with the requirements and recommendations of the product manufacturer.

G. Saw Cut Joints: Cut joints that are to be saw cut not sooner than two (2) hours after the concrete is poured and not later than eight (8) hours after the pour.

3.08 TESTS

A. Compressive strength tests shall be made by breaking standard 6 inch diameter by 12 inch high test specimens prepared, cured and broken in accordance with the American Society for Testing Materials Standard Methods C 31 and C 39, latest revision. Four (4) specimen test cylinders shall be taken from each pour of five cubic yards or more. One additional test shall be taken from each 30 cubic yards or fraction thereof in each pour in excess of 30 cubic yards.

B. Test specimens shall be taken from manhole bottom pours of less than five cubic yards as directed by the Engineer. Test specimens shall be taken in the presence of the Engineer. One cylinder from each pour shall be broken at seven (7) days, the remainder at twenty-eight (28) days. Additional test cylinders may be ordered for determining the characteristics of a new design mix or changes in equipment or methods, and under adverse weather or curing conditions.

C. Slump test shall be made in accordance with ASTM C143, latest revision, and shall be made with each load and at time of cylinders.

D. The Contractor shall supply all cylinder molds, slump cones, tools and labor for preparing specimen, and shall provide clean, moist sand or burlap for curing. Cylinder shall not be shipped to the testing laboratory until the third day following preparation and shall be protected from accidental damage at all times.

E. The test cylinders shall be tested in a recognized commercial testing laboratory at the expense of the Contractor.

3.09 EXPANSION JOINTS, CONSTRUCTION JOINTS AND WATER STOPS

A. Expansion Joints shall be places as indicated on the drawings. Joint materials for surfaces exposed to water and sewage shall conform to ASTM D175, Preformed Joint Filler, non extruding and resilient (bituminous type), thickness as shown on the drawings. Joint materials for isolation joints, slab on grade joints and wall joints not exposed to water and sewage shall conform to ASTM D994, preformed expansion joint filler for concrete (bituminous type), thickness as shown on the drawings.

B. Construction Joints shall be located in accordance with a schedule of pours which shall be prepared and submitted by the Contractor. Vertical construction joints shall be held to the minimum number consistent with good standard practice.

C. Water Stops. Material for water stops shall be 9 inch PVC multi rib center bulb type for expansion joints, and 1/4" x 4" and 1/8" x 4" structural steel sheets for construction joints. PVC joint material shall be as manufactured by The Burke Company, or approved equal.

END OF SECTION

SECTION 03 60 00
GROUTING

PART 1 - GENERAL

1.01 WORK INCLUDED

A. Provide all labor, materials, tools and equipment and perform all grouting as specified hereinafter and indicated on the Drawings.

1.02 RELATED WORK

A. Section 03 30 00: Cast-In-Place Concrete

1.03 SUBMITTALS

A. Submit manufacturer's literature for review on the following items:

1. Non-shrink grout data including grout properties, mixing, surface preparation and installation instructions.

1.04 DELIVERY AND STORAGE

A. Deliver and store grouting materials in unbroken containers with seals and labels intact as packaged by the manufacturer.

PART 2 - PRODUCTS

2.01 MATERIALS

A. Non-shrink, Nonmetallic Grout: The Burke Company's Non-Ferrous, Non-Shrink Grout, Sauereisen F-100 Level Fill, Master Builders Masterflow 713, Euclid NS Grout, or equal pre-mixed type.

B. Non-shrink Metallic Grout: The Burke Company's Metallic Spec Grout, Master Builders Embeco 636 Grout pre-mixed type, or equal.

C. Epoxy Grout: Sikadur 42 Grout-Pak, or equal, for grouting sleeves for anchor bolts, etc.

PART 3 - EXECUTION

3.01 PREPARATION

A. Clean all bonding surfaces or dust and oil.

3.02 INSTALLATION

A. Non-shrink Grout:

1. Use non-shrink, nonmetallic grout for grouting precast concrete wall panel connections, column base plates, anchor bolts, reinforcing bars, pipe sleeves, machinery supports and pump base plates. Use epoxy grout for anchor bolts, etc., where indicated on the Drawings.

2. Mix and place non-shrink grout as recommended by the manufacturer.

3. Mix grout as close to the work area as possible and transport quickly to its final position in a manner which will not permit segregation of materials.

4. Cure non-shrink grout with water saturated burlap for at least three (3) days or with an application of Super Rez Seal cure and seal compound applied immediately after grout placement.

5. Do not operate machinery set on grout pads until the grout has cured for at least twenty-four (24) hours.

END OF SECTION

SECTION 31 11 00
CLEARING AND GRUBBING

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

A. The work consists of clearing and grubbing, within the limits of construction shown on the drawings. Included is the removal and disposal of all trees, stumps, roots and other such protruding objects necessary to prepare the area for the proposed construction and landscaping.

1.02 PROTECTION OF PROPERTY REMAINING IN PLACE

A. Property obstructions which are to remain in place, such as buildings, sewers, drains, water or gas pipes, conduits, poles, walls, posts, bridges, and similar items are to be carefully protected from injury and are not to be displaced. Restore damaged improvements to their original condition, as acceptable to parties having jurisdiction.

B. Protection of Existing Trees and Vegetation:

1. Protect existing trees and other vegetation indicated to remain in place, against unnecessary cutting, breaking or skinning of roots, skinning and bruising of bark, smothering of trees by stockpiling construction materials or excavated materials within drip lines, excess foot or vehicular traffic, or parking of vehicles within drip line.

2. When ground is to be excavated under the drip line of any existing protected tree (as defined in the Owner's Land Development Code), roots shall be pruned at the juncture of the grade excavation to reduce tree root shock and dieback. The depth of the pruning shall be equal to the depth of the excavation. The location of root pruning shall be marked with 2-inch by 4-inch fencing. The Owner shall supervise all root pruning activities.

3. Provide temporary guards to protect trees and vegetation to be left standing.

4. Contractor shall water trees and other vegetation remaining within the limits of the Contract work as required maintaining their health during the course of construction operations.

5. Provide protection for roots over 1/2-inch diameter cut during construction operations. Coat the cut faces with emulsified asphalt, or other acceptable coating, formulated for use on damaged plant tissues. Temporarily cover exposed roots with wet burlap to prevent roots from drying out; cover with earth as soon as possible.

6. Repair or replace trees and vegetation damaged by construction operations, in a manner acceptable to the Engineer. Repair tree damage with the services of a qualified tree surgeon.

7. Replace trees which cannot be repaired and restored to full-growth status, as determined by the tree surgeon.

C. Improvements on Adjoining Property:

1. Authority for performing removal and alteration work on property adjoining the Owner's property will be obtained by the Owner prior to award of Contract.

D. Salvageable Improvements:

1. Carefully remove items indicated to be salvaged, and store on the Owner's premises where indicated, unless otherwise directed.

1.03 OWNERSHIP OF MATERIALS

A. Except as may be otherwise called for on the drawings or elsewhere in the specifications, all materials removed by the Contractor shall become the property of the Contractor and shall be disposed of in a lawful manner.

PART 2 - PRODUCTS
(Not Applicable)

PART 3 - EXECUTION

3.01 STANDARD CLEARING AND GRUBBING

A. Standard clearing and grubbing shall consist of the complete removal and disposal of all timber, brush, stumps, roots, rubbish and debris and all other obstructions resting on or protruding through the surface of the existing ground and the surface of excavated areas, and of all other obstructions necessary to be removed and for which the removal is not specified to be done under other items of the contract, including pipes and demolition.

B. Unless otherwise shown on the drawings, standard clearing and grubbing shall be done within the following areas:

1. All areas where retention areas will be modified or constructed.

2. Any other areas specifically called for on the drawings to have standard clearing and grubbing.

C. In all areas where excavation is to be done, roots and other debris shall be removed to a depth of at least one foot below the finished ground surface. The surface shall then be plowed to a depth of at least 6 inches and all roots thereby exposed shall be removed to a depth of at least one foot. All stumps within the area of standard clearing and grubbing shall be completely removed and disposed of by the Contractor.

D. Where excavation is done within the standard clearing and grubbing area and where excavation for structures is done, all roots and similar items, protruding through or appearing on the surface of the completed excavation shall be removed to a depth of at least one foot below the excavation surface.

E. Within all other areas where standard clearing and grubbing is to be done, roots and other debris, projecting through or appearing on the surface of the original ground, shall be removed to a depth of one foot below the surface, but no plowing and harrowing will be required in these areas.

F. As an exception to the above provisions where so directed by the Engineer, desirable trees within the clearing and grubbing area shall be trimmed, protected and left standing. Trees shown on the drawings to be relocated shall be relocated to a location identified by the Engineer.

G. Any boulders encountered in the site excavation or found on the surface of the ground, shall be removed and placed in neat piles at a location approved by the Engineer.

H. For pipeline construction the Contractor shall only remove trees, shrubs and grass which interfere with the construction. All other vegetation shall be protected, preserved and/or replaced.

3.02 DISPOSAL OF MATERIALS

A. General Disposal:

1. Timber, stumps, brush, roots, rubbish, and other objectionable material resulting from clearing and grubbing shall be disposed of by the Contractor in locations and by methods approved by the Engineer.

2. In some instances, materials may be disposed of on the Owner’s property at a location and by a method approved by the Engineer, but only with advance written permission of the Owner.

B. Burning Debris:

1. In some instances, burning may be permitted on the Owner's property at a location and by a method approved by the Engineer, but only with advance written

permission of the Owner.

2. Where burning of such material is permitted all such burning shall be subject to applicable laws, ordinances and regulations and shall be done at locations where trees and shrubs adjacent to the cleared area will not be harmed.

3. Where burning is prohibited by law, ordinance, or regulation, the Contractor shall dispose of the materials within areas provided by him and approved by the Engineer.

C. Disposal in areas Adjacent to Project:

1. Materials may be disposed of on private property, provided the Engineer is furnished with a written statement from the owner of the property giving permission for the disposal of the materials on his property. All disposal areas for materials resulting from clearing and grubbing, both on private property and on property owned by the Contractor, shall be in areas out of sight of the project and at least 300 feet from the nearest right-of-way line of the project, unless such materials are buried, in which case the requirement that the areas be 300 feet distant will be waived.

END OF SECTION

SECTION 31 22 00
GRADING

PART 1 - GENERAL

1.01 Work Includes

A. Excavation and embankment necessary for grading the site shall be considered to include that required for roads, walks, culvert installations, and drainage ditches and channels.

PART 2 - EXECUTION

2.01 Preparation

A. After the removal of topsoil, the then existing surface is to be excavated or filled to the elevations and slopes indicated on the Drawings, or as directed by the Engineer. Additional fill, if required, and is not available elsewhere, shall be excavated from borrow areas selected by the Contractor, but subject to the approval of the Engineer. Unless otherwise provided, all borrow pits shall be located entirely outside the limits of the site.

B. On areas where roadway pavement is to be placed, the subgrade therefore shall be no more than 0.10 foot above or below the established grade; in other areas, the finished grade shall be not more than 0.15 foot above or below the established grade.

C. Where rock is encountered at road subgrade or finished grade in areas other than roads, it shall be removed for a depth of six inches below such subgrade or finished grade elevation.

D. Subgrades and shoulders for the access and service roads shall be constructed to the lines and grades indicated, and in conformance with the applicable requirements of the "Standard 0" for the Florida State Department of Transportation.

2.02 Embankment

A. On hillsides in which the existing slope is steeper than four to one, the Engineer may require the surface to be plowed to provide binding of the embankment with the original ground. When, in the opinion of the Engineer, existing slopes are excessive, the Engineer may require the original ground to be cut into the steps or berms.

B. All materials removed from classes of excavation, which are determined as suitable by the Engineer, shall be used in the formation of embankments. Excavated material which is not required for embankments shall be disposed of by the Contractor, at his responsibility and expense, outside the limits of the site, unless the Engineer gives notice of some point of disposal within the site. No material shall be disposed of in any flood channel area.

C. Earth or other friable materials shall be placed in successive horizontal layers of loose material not more than nine inches in depth, spread uniformly by use of graders or other approved devices, and rolled until thoroughly compacted with an approved three wheel power roller weighing not less than 10 tons. The Engineer may permit the Contractor to use approved sheep-foot tamping rollers. Embankments at points inaccessible to the roller shall be made in horizontal layers of loose material not exceeding six inches in depth and thoroughly compacted by mechanical tampers.

D. Where rock only is available, it shall be placed in loose layers not exceeding two feet in depth and rolled as provided above. Rock fills shall only be considered as such where the earth or other finer materials is uniformly distributed and is considerably less than sufficient to fill the voids and interstices; otherwise it shall be considered and placed as earth fill. The top layer of rock fills shall not exceed eight inches in depth, and the interstices shall be thoroughly filled with small spall, shale, gravel, or other similar approved material and thoroughly compacted. This top layer of rock shall be kept at least eight inches below the elevation of subgrade for payments, and finished grade elsewhere, with the balance of the fill formed by topsoil or other approved material, as required.

E. No roots, leaves, grass, or any form of vegetation shall be placed or allowed to remain in filled or graded areas.

F. The Contractor shall be responsible for the stability of all embankments and shall replace all sections which, in the opinion of the Engineer, have been damaged or displaced due to carelessness or neglect on the part of the Contractor due to natural causes, such as storms.

G. During grading operations, cuts and fills shall be kept shaped and drained at all times.

END OF SECTION

SECTION 31 23 00

EXCAVATION AND FILL

PART 1. GENERAL

1.01 SCOPE

A. The work covered by this section and required by this Contract includes the completion of all excavation, backfilling and embankment to the lines and grades indicated by the drawings, as further specified below, and necessary to the following operations:

1. Stripping, storing, and replacing topsoil.

2. Excavation and backfill for pipe trenches.

3. Excavation and embankment for road, grading and drainage of the site.

4. Excavation and backfill for buildings and structures.

5. Borrow excavation.

1.03 DEFINITIONS

A. Satisfactory materials comprise any materials classified by ASTM D2487 as GW, GP, GM, GP-GM, GW-GM, GC, GP-GC, GM-GC, SW, SP, SM, SW-SM, SC, SW-SC, SP-SM, SP-SC, CL, ML, and CL-ML. Satisfactory materials for grading comprise stones less than 8 inches, except for fill material for pavements which comprise stones less than 3 inches in any dimension.

B. Materials which do not comply with the requirements for satisfactory materials are unsatisfactory. Unsatisfactory materials also include man-made fills; trash; refuse; backfills from previous construction; and material classified as satisfactory which contains root and other organic matter or frozen material. Notify the Contracting Officer when encountering any contaminated materials.

C. Cohesionless materials include materials classified in ASTM D2487 as GW, GP, SW, and SP. Cohesive materials include materials classified as GC, SC, ML, CL, MH, and CH. Materials classified as GM and SM will be identified as cohesionless only when the fines are non-plastic. Perform testing, required for classifying materials, in accordance with ASTM D4318, ASTM C136/C136M and ASTM D1140.

D. Degree of compaction required, except as noted in the second sentence, is expressed as a percentage of the maximum density obtained by the test procedure presented in ASTM D1557 abbreviated as a percent of laboratory maximum density. Since ASTM D1557 applies only to soils that have 30 percent or less by weight of their particles retained on the 3/4 inch sieve, express the degree of compaction for material having more than 30 percent by weight of their particles retained on the 3/4 inch sieve as a percentage of the maximum density in accordance with AASHTO T 180 and corrected with ASTM D4718/D4718M. To maintain the same percentage of coarse material, use the "remove and replace" procedure as described in NOTE 8 of Paragraph 7.2 in AASHTO T 180.

E. Material suitable for top-soils obtained from onsite topsoil stripping within grading limits or offsite areas is defined as: Natural, friable soil representative of productive, well-drained soils in the area, free of subsoil, stumps, rocks larger than one inch diameter, brush, weeds, toxic substances, and other material detrimental to plant growth. Amend topsoil pH range to obtain a pH of 5.5 to 7.

F. Hard/Unyielding materials comprise weathered rock, dense consolidated deposits, or conglomerate materials which are not included in the definition of "rock" with stones greater than 3 inches in any dimension or as defined by the pipe manufacturer, whichever is

smaller. These materials usually require the use of heavy excavation equipment, ripper teeth, or jack hammers for removal.

G. Solid homogeneous interlocking crystalline material with firmly cemented, laminated, or foliated masses or conglomerate deposits, neither of which can be removed without systematic drilling and blasting, drilling and the use of expansion jacks or feather wedges, or the use of backhoe-mounted pneumatic hole punchers or rock breakers; also large boulders, buried masonry, or concrete other than pavement exceeding 1/2 cubic yard in volume. Removal of hard material will not be considered rock excavation because of intermittent drilling and blasting that is performed merely to increase production.

H. Unstable materials are too wet to properly support the utility pipe, conduit, or appurtenant structure.

I. Select granular material consist of materials classified as GW, GP, SW, or SP by ASTM D2487 where indicated. The liquid limit of such material must not exceed 35 percent when tested in accordance with ASTM D4318. The plasticity index must not be greater than 12 percent when tested in accordance with ASTM D4318, and not more than 35 percent by weight may be finer than No. 200 sieve when tested in accordance with ASTM D1140.

J. Initial backfill consists of select granular material or satisfactory materials free from rocks 3 inches or larger in any dimension or free from rocks of such size as recommended by the pipe manufacturer, whichever is smaller. When the pipe is coated or wrapped for corrosion protection, free the initial backfill material of stones larger than 1 inch in any dimension or as recommended by the pipe manufacturer, whichever is smaller.

K. Expansive soils are defined as soils that have a plasticity index equal to or greater than 20 when tested in accordance with ASTM D4318.

1.04 CHARACTER OF MATERIAL.

A. The Contractor must satisfy himself regarding the character and amount of loam, clay, sand, quicksand, muck, gravel, rock, water and all other material to be encountered in the work to be performed.

1.05 DESCRIPTION

A. The Contractor shall excavate, protect and backfill all foundations, trenches, tunnels and other excavations that may be necessary for completing the work to be done under this Contract. All excavation shall be in open cuts, except where and to such extent as the Engineer may authorize or direct that the same be done in tunnel, or where such is specified in the Special Requirements or Contract drawings. Trenches may, in general, be excavated and backfilled either by machinery, or by hand as the Contractor may elect; provided, however, that the Engineer shall be empowered, wherever he shall decide that such necessity exists, to direct that hand excavation by employed; and, provided, further that backfilling by hand shall be done to the extent hereinafter specified. The Contractor

shall have not claim for extra compensation due to the fact that hand, instead of machine, excavation may be necessary from any cause whatever.

B. The Contractor shall perform all excavation of every description and of whatever substances encountered, to the lines and grades or depths indicated by the drawings, as specified herein, or as directed by the Engineer. Embankments shall be prepared in accordance with the Specifications, and as necessary to bring the ground surface to the subgrade elevation for roads and to finished grade elevations for other areas as shown on the drawings or directed by the Engineer. All excavated material not required for backfill or embankment shall be removed and wasted or otherwise disposed of as directed or specified.

C. The term "subgrade" as used herein shall have the meaning given below:

1. The bed of a trench prepared as specified to receive pipes or other conduits.

2. The area upon which the lower surface of roadway paving, walks, gutters, or curb rests.

3. The surface of excavation or embankment areas prepared to receive topsoil.

4. The areas upon which rest the planned bottom of footings, foundations, or slabs.

PART 2. MATERIALS

2.01 TOPSOIL

A. Stripping. The area from which topsoil is to be stripped and the locations where it is to be stored shall be as shown on the drawings or as specified below. The topsoil shall be stripped to a depth of not less than six inches. On all areas where any type of grading is to be performed, including the areas within the lines of buildings and structures, the topsoil shall be carefully removed and spread either on areas already graded or prepared for topsoil, or in stockpiles conveniently located to the areas which are later to receive application of topsoil.

B. Spreading. On areas intended to receive topsoil, the compacted subgrade shall be scarified to a depth of two inches for bonding topsoil with subsoil. The topsoil shall then be evenly spread, compacted and graded to the finished elevations shown on the drawings or as specified by the Engineer. Compaction shall be affected by a single pass of an approved roller.

2.02 REMOVAL AND STORAGE OF MATERIAL

A. In locations where the working space is limited, the material excavated from the first 100 feet of any trench, or from such additional length as may be required, shall upon order of the Engineer, be removed at the Contractor's own cost and expense, as soon as excavated. The materials subsequently excavated shall be used to refill the trench. In no case will the Contractor be allowed to cast excavated material beyond curb of right of way

lines, or on sidewalks or lawns, and the failure or refusal of the Contractor to comply with this requirement shall be sufficient cause for the Engineer to stop all work under the Contract.

B. In case more material is excavated from any trench than can be backfilled over the completed sewer or can be stored within the limits of the right of way, leaving space for the traffic and drainage as herein provided, the excess material shall be removed to some convenient place, provided by the Contractor. The Contractor shall at their own cost and expense bring back as much of the material so removed, as may be required to properly backfill the trench, if of the proper kind; or, if so directed by the Engineer, the Contractor shall, at their own cost and expense, furnish such other suitable material as may be necessary.

C. When it is necessary to haul soft or wet material over the streets, the Contractor shall provide suitable tight vehicles, or a pattern approved by the Engineer for this purpose.

2.03 SHEETING, BRACING AND SHORING

A. The Contractor shall furnish the material for, and do all timber shoring, bracing and sheeting necessary to perform and protect the excavation, and as required by the Engineer to protect the work, other structures, the public, and the Contractor's employees. If trench protection is necessary, per OSHA requirements, the Contractor shall account for the anticipated expense in the appropriate bid item, or in the unit cost for pipe installed, or a combination of both. If the Engineer deems that sheeting, bracing, or shoring is necessary, it shall be supplied by the Contractor at no additional expense to the Owner. Such sheeting, etc. may be removed as the work progresses, but where, in the opinion of the Engineer, damage may result through removal; it shall be left in place with payment therefore made as hereinafter provided. The right of the Engineer to order sheeting, etc. left in place shall not render the issuance of such order obligatory on the part of the Engineer.

B. All sheeting, etc. shall be arranged so that it may be withdrawn, as the trenches are backfilled, without injury to the pipe and its appurtenances, and without injury to or settlement of adjacent structures and pavements. All voids caused by withdrawal shall be immediately filled with sand or other satisfactory material and compacted by ramming or other method satisfactory to the Engineer.

C. No timber sheeting, bracing or shoring shall be left within 18 inches of any natural ground surfaces or within 12 inches of the subgrade of any rigid or flexible type pavement, or railroad roadbed. In any trench shoring system, no vertical member shall remain directly over the pipe and no horizontal member shall remain within 12 inches of any pipe. After backfilling is started, no sheeting shall extend below the horizontal diameter of the pipe without the Engineer's approval. Sheeting left in place shall be cut off at such point as the Engineer may order, and the portions cut off shall be removed from the work.

D. If the Engineer determines that the material furnished is not of proper size or quality, or not properly placed, the Contractor shall furnish and place other and satisfactory material in an acceptable manner and shall not be entitled to additional compensation for such corrective work.

PART 3. EXECUTION

3.01 ORDER OF WORK

A. The Contractor shall submit a progress schedule as specified in Article 2.40 and shall carry on their work in strict accordance therewith. Deviations from the progress schedule may be made only with the approval of the Engineer.

3.02 GENERAL EXCAVATION

A. Perform excavation of every type of material encountered within the limits of the project to the lines, grades, and elevations indicated and as specified. Perform the grading in accordance with the typical sections shown and the tolerances specified in paragraph FINISHING. Transport satisfactory excavated materials and place in fill or embankment within the limits of the work. Excavate unsatisfactory materials encountered within the limits of the work below grade and replace with satisfactory materials as directed. Include such excavated material and the satisfactory material ordered as replacement in excavation. Dispose surplus satisfactory excavated material not required for fill and unsatisfactory excavated material as specified in paragraph DISPOSITION OF SURPLUS MATERIAL. During construction, perform excavation and fill in a manner and sequence that will provide proper drainage at all times. Excavate material required for fill or embankment in excess of that produced by excavation within the grading limits from other approved areas selected by the Contractor as specified.

3.03 BOTTOM PREPARATION

A. Grade the bottoms of trenches accurately to provide uniform bearing and support for the bottom quadrant of each section of the pipe. Excavate bell holes to the necessary size at each joint or coupling to eliminate point bearing. Remove stones of 1 inch or greater in any dimension, or as recommended by the pipe manufacturer, whichever is smaller, to avoid point bearing.

3.04 REMOVAL OF UNYIELDING MATERIAL

A. Where unyielding material is encountered in the bottom of the trench, remove such material 6 inch below the required grade and replaced with suitable materials.

3.05 REMOVAL OF UNSTABLE MATERIAL

A. Where unstable material is encountered in the bottom of the trench, remove such material to the depth directed and replace it to the proper grade with select granular material as provided. When removal of unstable material is required due to the Contractor's fault or

neglect in performing the work, the Contractor is responsible for excavating the resulting material and replacing it without additional cost to the Government.

3.06 SEWER LINES AND GRADES.

A. Sewer lines and grades shall be laid out and maintained during construction in the following manner.

B. Prior to the commencement of trench excavation, the Contractor shall prepare and submit to the Engineer for approval, detailed cut sheets provided by the Contractor's surveyor. The surveyor shall be registered in the State of Florida. Cut sheet shall show; the beginning and ending of manholes; the distance between manholes; the grade, size and type of line, the depth of cut; etc. The form of cut sheets shall be satisfactory to the Engineer. All expense for the preparation of cut sheets shall be borne by the Contractor and be included in the unit price per foot of pipe. Cut sheets must be approved by the Engineer in writing before pipe laying operations may be permitted. It shall be the responsibility of the Contractor to prepare cut sheets far enough in advance of their anticipated trenching schedule so that avoidable delay in the work will not occur.

C. Before beginning the excavation for any run of main sewer, the Contractor's forces, under the direction of the Engineer, shall:

1. Set control points for line and grade as given on the Drawings or as otherwise determined by the Engineer. In unpaved or unsurfaced areas, these points shall be placed on the top of stakes securely driven into the ground. In paved areas, there may be spikes driven into the paving or crosses cut into the paving, and in either case, enclosed in a painted circle. Stakes or points shall be sufficiently offset from the centerline so as to be undisturbed during the excavation and pipe laying operations. The offset shall be on the side of the centerline opposite to that on which excavation will be thrown.

2. As the rough excavation is completed, the Contractor's surveyor shall place grade or batter boards of finished, straight lumber across the trench opposite each stake or point. The grade boards shall be securely supported so as not to be subject to accidental displacement. The top of each board shall be leveled and set at the same distance above the sewer invert. A nail shall then be driven into the top of each board on the centerline of the sewer and each nail connected by a string line pulled taut.

3. The preparation of the final subgrade and the pipe laying shall then proceed in the manner specified herein, beginning at the manhole having the lower invert and working upgrade and using the string line as control for maintaining sewer grade and horizontal alignment. A straight wooden pole suitably marked and with a right angle offset at the bottom to project past the bell of the pipe and rest upon the pipe invert, shall be used to check the vertical distance from string line to invert.

D. The use of laser beams shall be acceptable as a method of controlling pipe alignment and grade.

E. Manholes shall be constructed either at the same time as the main sewer or immediately after its completion.

3.07 WIDTH AND DEPTH OF TRENCHES

A. From the subgrade elevation to an elevation at least 12 inches above the top of the outside barrel of the pipe, the banks of trenches in all cases shall be excavated to vertical lines, and the trenches shall be not less than 12 inches nor more than 16 inches wider nor more than eight inches in width is provided on each side of the barrel of the pipe. If sheeting is required, the foregoing dimensions shall be applicable to the inside faces of the sheeting.

B. From a point 12 inches above the top of the outside barrel of the pipe to the surface, the banks of trenches in all streets, roads or highways, paved or unpaved, shall be kept as nearly vertical as possible, and in no case shall the width of trench at the top exceed the outside diameter of the pipe plus 40 inches. If the specified maximum width of trench cannot otherwise be maintained, the Contractor shall install temporary sheeting at thier own cost and expense. Where sewers are to be constructed on rights of way or easements in open country, the specified maximum width of trench at the top may be exceeded only if the construction is kept entirely within the limits of the easements or rights of way and can be carried on without damage to adjoining property.

C. Except at locations where excavation of rock or unsuitable material is required, care shall be taken not to excavate below the depths specified, when rock is encountered, it shall be removed to a depth six inches below the outside bottom of the pipe at the barrel. When the material encountered at subgrade is unstable, it shall be removed from under the pipe and on each side of the pipe for a distance of one diameter of the pipe. Such rock or unsuitable material excavation below subgrade shall be backfilled with moist clay, sand, bank run gravel, or other suitable material compacted to the satisfaction of the Engineer, and the bed thus formed shaped as required above. In rock excavation, if trenches are shattered by blasting below the lines of excavation specified herein, the trench shall be refilled to subgrade with sand, well tamped earth, or concrete, if required by the Engineer, at the Contractor's expense. If earth trenches are excavated beyond the specified depths, they shall be backfilled to the proper grade with suitable, thoroughly tamped material at the expense of the Contractor.

3.08 PREPARATION OF FOUNDATION

A. In earth trenches, the bottom thereof shall be carefully rounded to fit the lower 90 degrees of the circumference of the pipe, i.e., so that one fourth of the external circumference of the pipe will rest firmly on the undisturbed soil. Bell holes shall be excavated to ensure that the barrel of the pipe will rest for its entire length upon the trench bottom.

B. Bell holes shall be properly cut to provide free support of the pipe barrel and shall be directed by the Engineer. All irregularities and cavities, either in earth or rock excavation, in the bottom of trenches or tunnels, shall be filled up to a level which will support 90 degrees of the lower pipe circumference with selected material free from large gravel, rocks and stones, firmly compacted before pipe lines are laid therein.

C. Where, in the opinion of the Engineer, the ground does not afford a sufficiently firm foundation, the Contractor shall construct a timber foundation, or shall excavate the trench to such increased depth as may be directed, and then shall bring up the bottom of the trench to the required level and form with such material and in such manner as the Engineer may direct.

3.09 CONCRETE CRADLE AND ENCASEMENT

A. The profiles generally indicate the approximate vertical limits where concrete cradle and encasement are necessary to support the anticipated loads on completed sewers for the widths of trench as required for each size and class of pipe, based on the crushing strength of the pipe.

B. The Contractor is warned that if the trench widths or clearances between pipe and trench walls or face of sheeting, as specified above, are exceeded, he will be required to furnish in all locations at their own expense either concrete cradle or encasement as directed by the Engineer.

C. It is anticipated that subsurface conditions may require a cradle for a portion of the project to provide an adequate foundation, even though the ultimate anticipated load on the pipe is less than the minimum crushing strength for sand bearing. The Contractor shall place the cradle or encasement at the location, and of the materials, as directed and required by the Engineer. The Contractor will not be paid for any cradle beyond the required widths of trench.

D. All excavation made beyond the required limits shall be at the Contractor's expense.

3.10 LENGTH OF OPEN TRENCH

A. The Engineer shall have the right to limit the amount of trench opened in advance of pipe laying and the amount of pipe laid in advance of backfilling, but in no case, except when leakage tests are required by the Engineer, shall these amounts exceed 300 feet and 100 feet, respectively. Trench excavation shall be fully completed, except for the shaping of the bottom of the trench, at least 20 feet in advance of the pipe placement and shall be kept free from obstructions, except that at the close of work at night, or at the discontinuance of work, the pipe laying may be completed to within five feet of the end of the open trench.

B. The Engineer shall be empowered, at any time, to require the refilling of open trenches over completed pipelines, if, in their judgment, such action is necessary, and the Contractor

shall thereby have no claim for extra compensation even though to accomplish said refilling, he is compelled temporarily to stop excavation or other work at any place.

C. If the work is stopped on any trench, for any reason except by order of the Engineer, and the excavation is left open for an unreasonable length of time (in the opinion of the Engineer) in advance of construction, the Contractor shall, if so directed, refill such trench at their own cost and shall not again open said trench until he is ready to complete the structure therein.

3.11 ACCOMMODATION OF TRAFFIC

A. Streets shall not be unnecessarily obstructed and, unless the Engineer, in writing, shall authorize the complete closing of the street, the Contractor shall take such measures at their own expense as may be necessary to keep the street or road open and safe for traffic.

B. The Contractor shall construct and maintain without extra compensation such adequate and proper bridges over excavations as may be necessary or as directed for the safe accommodation of pedestrians or vehicles. The Contractor shall furnish and erect without cost to the Owner substantial barricades at crossings of trenches, or along the trench, to protect the traveling public.

C. The Contractor shall not obstruct fire hydrants.

D. The roadway on one side of the line of work shall be kept open at all times.

E. The streets, crosswalks and sidewalks shall be kept clean, clear and free for the passage of vehicles or pedestrians, unless otherwise authorized in writing by the Engineer. A straight and continuous passageway on sidewalks and over crosswalks, at least three feet in width, shall be preserved free from all obstruction.

F. Where deemed necessary, such additional passageway as may be directed shall be maintained free from obstructions.

G. In narrow or congested streets or alleys, when so directed, the Contractor shall complete their work up to a point designated by the Engineer before opening the work ahead, in order to give access to garages and other places. The Contractor shall in all cases so arrange their work as to cause the least inconvenience to property owners consistent with the proper precaution of the work as determined by the Engineer.

3.12 ACCOMMODATION OF DRAINAGE

A. Gutters, sewers, drains and ditches shall be kept open at all times for surface drainage. No damming or ponding of water in gutters or other waterways will be permitted, except where stream crossings are necessary and then only to an extent which the Engineer shall consider necessary. The Contractor will be responsible for all clean-up to existing utilities caused by their activities.

B. The Contractor shall not direct any flow of water across or over pavements except through approved pipes or properly constructed troughs and he shall, when so required at their own expense and cost, provide pipes or troughs of such sizes and lengths as may be required and place the same as directed.

C. The grading in the vicinity of sewer trenches shall be controlled so that the ground surface is properly pitched to prevent water running into trenches.

3.13 PUMPING

A. The Contractor shall keep all excavations free from water, at their own expense, while structural work is in progress, and to such extent as may be necessary while excavation work along is being carried on.

B. The Contractor shall build all dams and other devices necessary for this purpose, including lowering the water table below trench bottom by well points and pumping, and provide and operate pumps of sufficient capacity for dewatering the excavations.

C. He shall provide for the disposal of the water removed from excavation in such manner as shall not cause injury to the public health, to public or private property, to the work of other Contractors, to any portion of the work completed or in progress or produce any impediment to the use of the highways, roads, lanes, and streets by the public.

D. Any dewatering required shall be performed at the Contractor's expense. Payment for dewatering shall be included in the Contractor's bid prices for pipe or other structures requiring dewatering for installation. If holes made for installation of well points are installed in a roadway, shoulder, or under a structure, these holes shall be filled with lean grout prior to backfill and compaction. Any permits needed for dewatering shall be obtained and paid for by the Contractor.

3.14 EMBANKMENT

A. Where embankment is necessary to support the foundations of the pipe or structure, it shall be made to the height, width and slopes shown on the drawings, or as directed. The entire embankment, or such portion thereof as may be deemed necessary by the Engineer, shall be made prior to the construction of the sewer, structure, or the foundation thereof, at such time and in such order as the Engineer may direct; and the embankment, sewer, or structure, and appurtenances, which may be laid thereon or therein, shall be maintained by the Contractor, at their own cost and expense, until the completion of the period of one (1) year from and after the date of the Certificate of Completion and Acceptance.

B. After carefully grubbing and clearing the ground, removing all loose rock and stone, and all muck and improper material, to such a depth as the Engineer may determine, the embankment shall be built up of good loam, gravel or sand, or other selected and approved material, free from all stone above four inches diameter, and not containing in any place a proportion of stones exceeding one (1) part stone to three (3) parts earth.

C. In cast material which is unsatisfactory for the foundation of any embankment is encountered, said material shall be removed to such depth, and for such length and width as may be directed by the Engineer. Payment for the removal of material unfit for the foundation of an embankment will be made at the price bid or stipulated per cubic yard for excavation below subgrade.

D. The material for embankment shall be deposited in layers of not more than nine inches in thickness; each layer shall be separately compacted by heavy, grooved iron rollers, or where such rollers cannot be used, by heavy paver's rammers. The embankment shall be watered during rolling, if so required. No breaks or irregularities in the distribution of the material or the formation of the layers will be allowed. The whole embankment shall be carried up evenly to the height given by the Engineer in such a manner as to make a compact and solid foundation. When pipe is to be laid in a fill, the embankment shall be brought to a height of at least one foot above the proposed top of the pipe before the trench is excavated. The embankment shall then be excavated to the proper form and grade, and the sewer placed thereon; after which the embankment shall be carried up to a height of not less than three feet above the top of the sewer, the material being placed and rolled or rammed in layers as above described.

3.15 BACKFILLING TRENCHES

A. It is the intent of the following requirements for the backfilling of trenches to specify materials and methods which will:

1. Result in thorough compaction of the backfilled material without the displacement of the grade or alignment of the sewer line and its appurtenances.

2. Eliminate settlement of the backfilled material.

B. If displacement of the sewer or settlement of the backfilled material does occur, it will be considered as conclusive evidence of improper workmanship or the inclusion of unsuitable materials or both, and it shall be the Contractor's responsibility, at their own expense, to remove and recompact the settled material and regrade and realign the sewer. During the course of the backfilling operation, the Engineer may, at any location of depth of trench, make tests to determine whether the Contractor's compaction operations are sufficient to meet the requirements specified below.

C. The procedure of backfilling shall be as follows:

1. After the structure, pipe, or conduit and its appurtenances have been installed or constructed, the excavation, to a height of at least two feet above the top of pipe or conduit, shall be refilled with clean earth deposited in four-inch layers and solidly rammed down and tamped around the pipe, or conduit and under it, with mechanical tampers and proper tools made for this purpose. The operation shall be done in such manner as not to disturb the structure. The area around the pipe shall be hand-tamped.

2. The earth, to the height specified above, shall be carefully thrown in with hand shovels; under no condition shall any other means than hand shoveling, such as pushing in with heavy equipment be used.

3. The remainder of the trench, except as described below, shall then be refilled evenly to the required height in layers, each layer not to exceed six inches in thickness after compaction. Mechanical tampers shall be used so as to produce a density of backfill (as determined by weight) at the bottom of each layer of not less than ninety five percent (95%) of the optimum density of that material based upon the AASHTO T-180 modified proctor. The earth shall be properly rammed as directed and wetted as required as the work progresses.

4. Care shall be taken to carry the fill up evenly on opposite side of the sewer, other trench excavations, and around the sides of all structures.

D. If, in the opinion of the Engineer, the material being used for backfilling is of such character that satisfactory results cannot be obtained by tamping and ramming, the Contractor shall backfill and puddle the excavations in such manner and at such times as the Engineer may direct.

E. If the material excavated is not clean earth, as above specified, the best of the materials excavated shall be used in backfilling, in position and manner as directed by the Engineer.

F. In rock trenches, selected earth, sand or gravel shall be provided and used as backfill in the manner hereinbefore described to a height of two feet above the top of the sewer. The backfill for the balance of the trench in all cases shall be of good earth, sand or gravel, which may contain stores not more than six inches in largest dimensions, but not in proportion exceeding twenty percent (20%) of the total volume of backfill.

G. No bulkheads, or retaining walls for the backfilling, will be allowed in the trenches over the sewer, except for temporary use.

H. Should there be a deficiency of proper material for refilling the Contractor shall furnish acceptable material at their own cost and expense.

I. No house ashes, putrescible refuse or other material of unsatisfactory character shall be used in refilling, and the Contractor shall not permit the trench to be used as a dumping ground for refuse.

J. Testing of backfill in trenches shall be performed as deemed necessary by the Engineer or their representatives; the Contractor will supply and pay for the testing.

3.16 BORROW EXCAVATION

A. In cases where the amount of embankment exceeds the amount of excavation within the limits of the site as indicated by the Drawings, and where material is not available from other sources of contracts, the Contractor shall obtain sufficient, suitable material from

borrow pits located entirely beyond the limits of the site unless the Engineer gives written permission to obtain such material from an area within the site.

B. The Contractor shall notify the Engineer sufficiently in advance of borrow excavation requirements to permit the Engineer to determine necessity and to view the proposed borrow pit.

C. Borrow obtained from within the site shall be removed to uniform lines and grades satisfactory to the Engineer, and in such a manner as not to detract from the general appearance of the improvement and shall not create unsatisfactory conditions.

D. All borrow pits shall be stripped of brush, roots, grass and other vegetation prior to removal of material for embankment purposes.

3.17 BUILDINGS AND STRUCTURES

A. Excavation.

1. All excavation for buildings and structures shall be performed in the dimensions indicated on the Drawings. If suitable bearing is not encountered at the planned footing or foundation elevations, the excavation shall be carried to such elevations as are approved by the Engineer.

2. Prior to construction of foundations, the excavation shall be inspected by the Engineer and no foundation work shall be started prior to the Engineer's approval of the excavation. Care shall be exercised to avoid excavation below the depths indicated on the Drawings or as directed by the Engineer.

3. Where excavation is made below plan elevation or below elevations directed by the Engineer. Where excavation is made below plan elevation or below elevations directed by the Engineer, through the fault of the Contractor, the excavation shall be restored to the proper elevation in the manner described for backfill below, or the heights of walls or footings shall be increased, as may be directed by the Engineer, at the expense of the Contractor.

B. Drainage.

1. Grading in the vicinity of structures shall be controlled to prevent water running into excavated areas. Any accumulation of water in excavations shall be removed by pumping or other means at the Contractor's expense.

C. Backfill.

1. After completion of footings and walls, and the removal of forms, and prior to backfilling, the excavation shall be cleaned of all trash and debris.

2. Backfill material shall consist of the excavation or other materials free from trash, lumbar or other debris. It shall be placed in horizontal layers not exceeding six

inches in depth, moistened if required and compacted by hand or mechanical tampers to a density to prevent excessive settlement.

3.18 REPLACEMENT OF UNYIELDING MATERIAL

A. Replace unstable material removed from the bottom of the trench or excavation with select granular material placed in layers not exceeding 6 inches loose thickness.

3.19 RESPONSIBILITY FOR CONDITION OF EXCAVATION

A. The Contractor shall be responsible for the condition of all excavations made by him. All slides and cave ins shall be removed without extra compensation, at whatever time and under whatever circumstances they may occur.

B. The failure of the Engineer to order the use of bracing or sheeting or a better quality, grade or section, or larger sizes of steel or timber, or to order sheeting, bracing, struts, or shoring to be left in place, or the failure to give orders or directions as to the manner or methods of placing or driving sheeting, bracing jacks, wales, rangers, or other members, shall not in any way or to any extend relieve the Contractor of any responsibility concerning the condition of excavation or of any of their obligations under the Contract; nor shall any delay, whether caused by any action or want of action on the part of the Contractor, or by any act of the Owner, or their agents, or employees, resulting in the keeping of an excavation open longer than would otherwise have been necessary, relieve the Contractor or from the necessity of properly and adequately protecting the excavation from caving or slipping, nor from any of their obligations under the Contract relating to injury of persons or property, nor entitle him to any claim for extra compensation.

3.20 PROTECTION OF PROPERTY AND STRUCTURES

A. The Contractor shall, at their own expense, sustain in their places, and protect from direct or indirect injury, all pipes, tracks, walls, buildings, and other structures or property in the vicinity of their work, whether above or below the ground, or that may appear in the excavation. He shall at all times have a sufficient quantity of timber and plank, chains, ropes, trench boxes, and other material and equipment, on the ground and shall use them as necessary for sheeting their excavations and for sustaining or supporting any structures that are uncovered, undermined, endangered, threatened or weakened.

B. The Contractor shall take all risks attending the presence of proximity of pipes, poles, tracks, walls, buildings, and other structures and property, of every kind and description, in or over their excavation, or in the vicinity of their work, whether above or below the surface of the ground; and he shall be responsible for all damages and assume all expense for direct or indirect injury, caused by their work, to any of time, or to any person or property by reason of injury to them, whether such structures are not shown on the Drawings.

C. Where necessary, in order to keep one side of the street or roadway free from any obstruction or to keep the material piled alongside the excavation from falling on private

property outside the right of way, a safe and suitable fence shall be placed alongside the excavation.

D. In the event of encountering quicksand, subsurface streams or similar dangerous contingencies, or where passing especially heavy building or any structures which by their construction or position might bring a great pressure upon the excavations the right is reserved by the Engineer to direct that such buildings, or structures, shall be underpinned, or supported and protected, or that special sheeting shall be driven in such a manner and to such depth, as may be directed, or that only a short length of excavation shall be opened at one time; and furthermore, if necessary, that the excavation shall be securely sheeted and braced on all sides, after the manner of a shaft, and that the permanent work shall be constructed in the same manner and the shaft backfilled before another opening is made. Any work done as above directed shall be at the cost and expense of the Contractor.

E. The Engineer reserves the right under such conditions to stop the excavation or any other part of the work, and to require the Contractor to complete the structure and the backfilling up to such a point as the Engineer may direct before proceeding further with the excavation; and the Contractor shall not thereby become entitled to demand or to receive any allowance or compensation, other than an extension of the contract time for as many days as the Engineer may determine that the work was delayed by such stoppage.

3.21 OBSTRUCTION SHOWN ON DRAWINGS

A. Certain information regarding the reputed presence, size, character, and location of existing underground structures, pipes and conduits has been shown on the Contract Drawings. There is no certainty of the accuracy of this information. The location of underground structures shown may be inaccurate and other obstructions not shown may be encountered.

B. The Contractor hereby distinctly agrees that the Owner is not responsible for the correctness or sufficiency of the information given; that in no event is this information to be considered as a part of the Contract; that he shall have no claim for delay or extra compensation on account of incorrectness of information given, or on account of the insufficiency or absence of information regarding obstructions either revealed or not revealed by the Drawings; and that he shall have no claim for relief from an obligation of responsibility under the Contract, in case the location, size or character of any pipe or other underground structure is not as indicated on the Drawings; or in case any pipe or other underground structure is encountered that is not shown on the Drawings.

C. The Contractor is solely and completely responsible for contacting utility providers and locating services to field locate existing utilities forty-eight (48) hours in advance of their activities. If inadequate locations are made, or if hand-digging of "test holes" is deemed necessary, this shall be accomplished and affected by the Contractor at no additional expense to the Owner.

3.22 REMOVAL OF OBSTRUCTIONS

A. Should the position of any pipe, conduits, pole, or other structures, above or below the ground be such as, in the opinion of the Engineer, to require its removal, realignment, or change due to work to be done under the Contract, the work of removal, realignment, or change will be done as extra work, or will be done by the Owner of the obstructions, without cost to the Contractor; but the Contractor shall uncover and sustain the structures, at their own expense, before such removal and before and after such realignment or change as constituting part of the Contract; and the Contractor shall not be entitled to any claim for damage or extra compensation on account of the presence of said structure, or on account of any delay in the removal or rearrangement of the same.

B. The Contractor shall, without extra compensation, break through and reconstruct, if necessary, the invert or arch of any sewer, culver, or conduit that may be encountered, if the said structure is in such a position that in the judgment of the Engineer, as not to require its removal, realignment or complete reconstruction.

C. The Contractor shall not interfere with any persons, firms or corporations, or with the Owner in protecting, removing, changing, or replacing their pipes, conduits, poles, or other structures; but he shall suffer said persons, firms, or corporations, or the Owner to take all such measures as they may deem necessary or advisable for the purpose aforesaid, and the Contractor shall thereby be in no way relieved of any of their responsibilities under this Contract. At railway or railroad track crossings or paralleling, any expense to which the Owner of the trackage is put in shoring up tracks, or in maintaining traffic, shall be borne by the Contractor, whether the same is billed directly to him, or the Owner. Should any such bill be unpaid by the Contractor, before final payment under the Contract is made, the Owner shall be empowered to pay said bill and retain the amount thereof, from any monies due, or to become due the Contractor.

D. Except where trees are in rights of way, in immediate proximity to the excavation, they shall not be cut down except by authorization of the Engineer and the Contractor shall have no claim for the extra compensation owing to the fact that he may be required to excavate by hand, or tunnel in the vicinity of trees that may be left standing.

3.23 CHANGE OF EXCAVATION LOCATION

A. In case the Engineer shall direct that the location of a trench or other excavation be changed from that shown on the Drawings, on account of the presence of an obstruction, or from other cause, or if a changed location shall be authorized upon the Contractor's request, the Contractor shall not be entitled to extra compensation, or to a claim for damage, provided that the change is made before the excavation is begun. If, however, such change, made at the direction of the Engineer, involves the abandonment of excavation already made, such abandoned excavation, together with the necessary refill, will be classed as miscellaneous excavation. In the event that the excavation is abandoned in favor of a new location, at the Contractor's request, the abandoned excavation and refill shall be at the Contractor's expense.

B. Minor changes in alignment of pipe or other structures to accommodate the actual location of existing facilities shall be considered typical of construction activities and no additional compensation will be made for changes of this nature.

3.24 TESTING

A. Perform testing by a commercial testing laboratory or the Contractor's validated testing facility. Submit qualifications of commercial testing laboratory or the Contractor's validated testing facilities to Engineer for approval. If the Contractor elects to establish testing facilities, do not permit work requiring testing until the Contractor's facilities have been inspected, validated and approved by the Engineer.

1. Determine field in-place density in accordance with ASTM D6938. When ASTM D6938 is used, check the calibration curves and adjust using only the sand cone method as described in ASTM D1556/D1556M. ASTM D6938 results in a wet unit weight of soil in determining the moisture content of the soil when using this method.

2. Check the calibration curves furnished with the moisture gauges along with density calibration checks as described in ASTM D6938; check the calibration of both the density and moisture gauges at the beginning of a job on each different type of material encountered and at intervals as directed by the Contracting Officer. When test results indicate, as determined by the Contracting Officer, that compaction is not as specified, remove the material, replace and recompact to meet specification requirements.

3. Perform tests on recompacted areas to determine conformance with specification requirements. Appoint a registered professional civil engineer to certify inspections and test results. State that the tests and observations were performed by or under the direct supervision of the engineer and that the results are representative of the materials or conditions being certified by the tests. The following number of tests, if performed at the appropriate time, will be the minimum acceptable for each type operation.

B. Fill and Backfill Material Gradation

1. One test per 500 cubic yards stockpiled or in-place source material. Determine gradation of fill and backfill material in accordance with ASTM C136/C136M and ASTM D1140.

C. In-Place Densities

1. One test per 2500 square feet, or fraction thereof, of each lift of fill or backfill areas compacted by other than hand-operated machines.

2. One test per 500 square feet, or fraction thereof, of each lift of fill or backfill areas compacted by hand-operated machines.

D. Check Tests on In-Place Densities

1. One check test per lift for each 10,0000 square feet, or fraction thereof, of each lift of fill or backfill compacted by other than hand-operated machines.

2. One check test per lift for each 1,000 square feet, of fill or backfill areas compacted by hand-operated machines.

E. In the stockpile, excavation, or borrow areas, perform a minimum of two tests per day per type of material or source of material being placed during stable weather conditions. During unstable weather, perform tests as dictated by local conditions and approved by the Contracting Officer.

F. Perform tests for each type material or source of material to determine the optimum moisture and laboratory maximum density values. One representative test per 500 cubic yards of fill and backfill, or when any change in material occurs which may affect the optimum moisture content or laboratory maximum density.

G. Perform continuous checks on the degree of finish during construction of the subgrades.

H. After other required tests have been performed and the trench backfill compacted to 2, feet above the top of the pipe, inspect the pipe to determine whether significant displacement has occurred. Conduct this inspection in the presence of the Contracting Officer. Inspect pipe sizes larger than 36 inches, while inspecting smaller diameter pipe by shining a light or laser between manholes or manhole locations, or by the use of television cameras passed through the pipe. If, in the judgment of the Contracting Officer, the interior of the pipe shows poor alignment or any other defects that would cause improper functioning of the system, replace or repair the defects as directed at no additional cost to the Government.

3.25 FINISHING

A. Finish the surface of excavations, embankments, and subgrades to a smooth and compact surface in accordance with the lines, grades, and cross sections or elevations shown. Provide the degree of finish for graded areas within 0.1 foot of the grades and elevations indicated except that the degree of finish for subgrades. Finish gutters and ditches in a manner that will result in effective drainage. Finish the surface of areas to be turfed to a smoothness suitable for the application of turfing materials. Repair graded, topsoiled, or backfilled areas prior to acceptance of the work, and re-established grades to the required elevations and slopes.

B. During construction, keep embankments and excavations shaped and drained. Maintain ditches and drains along subgrade to drain effectively at all times. Do not disturb the finished subgrade by traffic or other operation. Protect and maintain the finished subgrade in a satisfactory condition until ballast, subbase, base, or pavement is placed. Do not permit the storage or stockpiling of materials on the finished subgrade. Do not lay subbase, base course, ballast, or pavement until the subgrade has been checked and approved, and

in no case place subbase, base, surfacing, pavement, or ballast on a muddy, spongy, or frozen subgrade.

C. Place a capillary water barrier under concrete floor and area-way slabs grade directly on the subgrade and compact with a minimum of two passes of a hand-operated plate-type vibratory compactor.

D. Construct areas within 5 feet outside of each building and structure line true-to-grade, shape to drain, and maintain free of trash and debris until final inspection has been completed and the work has been accepted.

E. On areas to receive topsoil, prepare the compacted subgrade soil to a 2 inches depth for bonding of topsoil with subsoil. Spread topsoil evenly to a thickness of 4 inches and grade to the elevations and slopes shown. Do not spread topsoil when frozen or excessively wet or dry. Obtain material required for topsoil in excess of that produced by excavation within the grading limits from offsite areas.

3.26 CLEANUP

A. As the trenches are filled in and the work completed, the Contractor shall immediately and at their own cost and expense remove and dispose of all surplus earth, stone or other material from the work, in such manner and at such point or points, as he may select or provide, subject to the approval of the Engineer; or he may deposit the same, either with or without rehandling, at any point or points on the line of the work covered by the Contract, if so directed by the Engineer; and shall leave all roads, sidewalks and other places free, clear and in good order. In case the Contractor shall fail or neglect to do so, or to make satisfactory progress in doing so within twenty four (24) hours after the receipt of a written notice from the Engineer, the Owner may remove such surplus material and clear the roadways, sidewalks and other places, and the cost of said work shall be charged to the Contractor and deducted from any monies due or to become due him under the Contract.

B. All surplus earth or other material wasted on public property shall be evenly spread and left in a neat and smooth condition. All removed materials shall become the property of the Owner, if they so desire. If the Owner does not want the removed materials, surplus materials will be removed by the Contractor at no extra cost to the Owner.

C. As soon as the trenches are refilled, all surplus earth, sand or rubbish shall be removed and kept removed to a point not more than two hundred feet from the head of the open trench, unless otherwise authorized by the Engineer.

3.27 MAINTENANCE OF BACKFILLED TRENCH SURFACES

A. The Contractor shall crown to such height, as directed by the Engineer, the top of all backfilled trench excavations. The Contractor shall also maintain these crowned surfaces to the satisfaction of the Engineer, without additional compensation, from the time of crowning operation to and including a period of eight (8) months beyond date of a Certificate of Completion of the work under this contract.

B. The Contractor shall be responsible for any injury or damage resulting from lack of required trench maintenance during the prescribed maintenance period. If the Contractor does not satisfactorily provide specified maintained surfaces or begin repairs of such surfaces when needed, within twenty-four (24) hours after written notice from the Engineer, such work may be done by the Owner and the cost thereof charged against the Contractor.

END OF SECTION

SECTION 31 23 13
SUBGRADE PREPARATION

PART 1 - GENERAL

1.01 DESCRIPTION

A. Subgrade preparation for structures, pavement, and piping will necessitate undercutting the entire area plus a margin of 10 feet to a depth of 18 inches below and backfilling with compacted granular backfill so as to produce a stable working platform for construction. The backfill material should consist of a well graded crushed aggregate such as an FDOT No. 57 rock which should be uniformly compacted. The concept is to provide a relatively free-draining platform upon which to form and construct structures, pavement, and piping.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION

A. Finish proof rolling on an exposed subgrade free of surface water (wet conditions resulting from rainfall) which would promote degradation of an otherwise acceptable subgrade. After stripping, proof roll the existing subgrade of the roads and parking areas with six passes of a dump truck loaded with 4 cubic yards of soil. Operate the truck in a systematic manner to ensure the number of passes over all areas, and at speeds between 2-1/2 to 3-1/2 mph. Notify the Contracting Officer a minimum of 3 days prior to proof rolling. Perform proof rolling in the presence of the Contracting Officer. Undercut rutting or pumping of material as directed by the Contracting Officer and replace with fill and backfill material.

B. Shape subgrade to line, grade, and cross section, and compact as specified. Include plowing, disking, and any moistening or aerating required to obtain specified compaction for this operation. Remove soft or otherwise unsatisfactory material and replace with satisfactory excavated material or other approved material as directed. Excavate rock encountered in the cut section to a depth of 6 inches below finished grade for the subgrade. Bring up low areas resulting from removal of unsatisfactory material or excavation of rock to required grade with satisfactory materials, and shape the entire subgrade to line, grade, and cross section and compact as specified. After rolling, do not show deviations for the surface of the subgrade for roadways greater than 1/2 inch when tested with a 12-foot straightedge applied both parallel and at right angles to the centerline of the area. Do not vary the elevation of the finish subgrade more than 0.05 foot from the established grade and cross section.

C. Finish compaction by sheepsfoot rollers, pneumatic-tired rollers, steel-wheeled rollers, vibratory compactors, or other approved equipment. Except for paved areas and railroads, compact each layer of the embankment or subgrade to at least 95 percent of laboratory maximum density.

D. Compact subgrade for pavements to at least 95 percentage laboratory maximum density for the depth below the surface of the pavement shown. When more than one soil classification is present in the subgrade, thoroughly blend, reshape, and compact the top 12 inches of subgrade.

3.02 TESTING

A. Perform testing in accordance with 31 23 00 – Excavation and Fill

END OF SECTION

SECTION 31 23 19
DEWATERING

PART 1 - GENERAL

1.01 DESCRIPTION OF WORK

A. Scope: In general, the work specified in this section of the specifications shall consist of supplying labor, materials, and plant, and performing all work necessary to lower and control the groundwater levels and hydrostatic pressures to permit all excavations and construction specified under this Contract to be performed in the dry.

B. Examination of Site: The Contractor shall take all steps that he considers necessary to familiarize himself with the site conditions, the ground conditions and the groundwater conditions. It is expressly understood that neither the Owner nor the Engineer will be held responsible for any interpretations or conclusions drawn by the Contractor.

PART 2 - PRODUCT

2.01 METHOD AND EQUIPMENT

A. The Contractor may use any dewatering method he deems feasible so long as it results in working in the dry and in stable soil conditions. It is the intent of these specifications that an adequate dewatering system be installed to lower and control the groundwater in order to permit excavation, construction of the structures, construction of pipelines, and the placement of the fill materials, all to be performed under dry conditions. The dewatering system shall be adequate to pre-drain the water-bearing strata above and below the bottom of the foundations, the drains, the sewers and all other excavations. An adequate weight of fill material shall be in place prior to discontinuing operation of dewatering to prevent buoyancy of the structure.

PART 3 - EXECUTION

3.01 GENERAL

A. The Contractor shall be solely responsible for the arrangement, location and depths of the dewatering system necessary to accomplish the work described under this section of the specifications. The dewatering shall be accomplished in a manner that will reduce the hydrostatic head below any excavation to the extent that the water level and piezometric water levels in the construction area are below the prevailing excavation surface; will prevent the loss of fines, seepage, boils, quick conditions, or softening of the foundation strata; will maintain stability of the sides and bottom of the excavation; and will result in all construction operations being performed in the dry.

B. Disposal of Water: The Contractor shall promptly dispose of all water removed from the excavations in such a manner as will not endanger public health, damage public or private property, or affect adversely any portion of the work under construction or completed by him or any other Contractor. Contractor shall obtain written permission from the Owner of any property involved before digging ditches or constructing water courses for the removal of water.

C. Siltation and Erosion:

1. The Contractor shall take steps and make suitable provisions to minimize siltation and erosion which may result from, or as a result of, his operations during the course of construction of this project.

2. The methods and provisions utilized by the Contractor to minimize siltation and erosion shall be approved by the Engineer and shall be in conformance with current Florida Department of Environmental Protection and St. Johns River Water Management District practices and regulations.

D. Inadequate System: If the dewatering requirements are not satisfied due to inadequacy or failure of the dewatering system, then loosening of the foundation strata, or instability of the slopes, or damage to the foundations or structures may occur. The supply of all labor, materials, and plant, and the performance of all work necessary to carry out additional work for reinstatement of the structures of foundation soil resulting from such inadequacy or failure shall be undertaken by the Contractor to the approval of the Engineer, and at no additional expense to the Owner.

END OF SECTION

SECTION 31 23 33
TRENCHING, BACKFILLING, AND COMPACTING

PART 1 – GENERAL

1.01 DESCRIPTION OF WORK

A. The extent of trenching, backfilling, and compacting is shown on the drawings.

B. This section includes furnishing equipment, labor, and materials, and performing all operations necessary and incidental to perform the required work.

3.01 CLEARING OF THE SITE

A. The site of the work shall be cleared of all trees, shrubs, paving and objectionable material, which interfere with the prosecution of the proposed work. Trees and shrubs which will not interfere with construction shall be protected from damage. Clearing shall be considered as an incidental item of excavation.

3.02 EXCAVATION

A. General:

1. Perform excavation described of whatever substance encountered to the dimensions and depths specified or shown on the drawings. Undercutting will not be permitted, except when ordered by the Engineer. Material suitable for backfill shall be stockpiled near the site. Rock or other material undesirable for backfill shall be spoiled outside the area in a neat manner, as directed by the Engineer. Where it is necessary to cut roots projecting into an excavation or where it is necessary to trim branches for equipment clearance, all severed root ends, or cuts to branches over a half inch (1/2") diameter shall be treated with an asphalt base pruning paint. Backfill over exposed roots as soon as possible.

B. Rock:

1. Where encountered in the trench bed, rock shall be excavated to a depth of one-quarter (1/4) of the pipe diameter below the bottom of the pipe but in no case less than four inches. All undercut trench excavation shall be backfilled and tamped with materials as specified in the following paragraphs under Unstable Subgrade.

C. Unstable Subgrade:

1. In the event that unsuitable material is encountered at or below the excavation depth specified or shown on the drawings, the Engineer shall be notified. Such material shall be removed and replaced with suitable material. Methods and materials used for replacement shall be one of the following as directed by the Engineer in writing.

a. Suitable earth or sand compacted in the trench. Materials shall be furnished as a part of the Bid Proposal item covering excavation and backfill.

b. Gravel or crushed limerock, compacted in the trench and paid for under the appropriate item.

c. Existing materials stabilized after removal and then replaced and compacted in the trench at no additional cost to the Owner.

2. The Engineer shall determine the methods and materials to be used, based upon the condition of the excavation, the pipe structure to be supported, and the availability and character of stabilizing materials.

D. Trenches:

1. Keep pipe laying operation as close to the excavation operation as possible during the prosecution of the work. The Engineer reserves the right to stop the excavation at any time when, in his opinion, the excavation is opened too far in advance of the pipe laying.

2. Pipe trenches shall be only of sufficient width to provide a free working space on each side of the pipe. To prevent excess pressure on the pipe, the maximum width of trench at the top of the pipe and at the bottom of the trench shall not be greater than two feet more than the greatest exterior diameter of the pipe. If this maximum width is exceeded, it shall be the Contractor's responsibility to provide, at no additional cost to the Owner, such additional bedding or select backfill materials as the Engineer may require. The excavation below the spring line shall be made to conform as near as possible to the shape of the lower third of the pipe. To protect the pipe lines from unusual stresses, all work shall be done in open trenches. Excavation shall be made for bells of all pipes and of sufficient depth to permit access to the joint for construction and inspections. In no case, will the bells be used to support the body of the pipe.

3. In order to avoid existing utilities, at times it may be necessary for the pipe to be laid deeper than the minimum cover specified in the preceding paragraph. At such time the Contractor will not be allowed extra compensation for additional excavation involved.

4. In case excavation has been made deeper than necessary, a layer of concrete, fine gravel, or other material satisfactory to the Engineer shall be placed, at no extra cost, to secure a firm foundation for the lower third of each pipe. Where possible, excavated material shall be placed so as not to interfere with public travel. Bridging shall be provided to afford necessary access to public or private premises. Bridging shall be considered as part of the excavation operation and shall be supplied at no additional cost to the Owner.

E. Structural (For inlets, manholes, and similar structures):

1. Remove sufficient material to allow proper space for erecting and removing forms. The elevations of the bottoms of footings, if shown on the drawings, shall be considered as approximate only, and the Engineer may order, in writing, such changes in dimensions or elevations of footings as may be deemed necessary to secure a satisfactory foundation. Excavation for structures shall be sufficient to leave at least 12 inches in the clear between their outer surfaces and the embankment or timber that may be used to protect them. Backfill of earth under structures will not be permitted. Excess excavation for structures shall be filled with thoroughly compacted sand, gravel, or concrete at the expense of the Contractor.

2. After excavation for a structure is completed, the Contractor shall notify the Engineer to that effect. No concrete or reinforcing steel shall be placed until the

Engineer has approved the depth of the excavation and the character of the foundation material.

F. Sheeting and Shoring:

1. The Contractor shall provide all trench and structural bracing, sheeting or shoring necessary to construct and protect the excavation, existing utilities, structures, and private property of all types and as required for the safety of the employees. Sheeting shall be removed or cut off by the Contractor during backfilling operations as directed by the Engineer. Removal of shoring for structures shall be done in such a manner as not to disturb or mar finished masonry or concrete surfaces.

3.03 DRAINAGE

A. Grading shall be controlled in the vicinity of excavations so that the surface of the ground will be properly sloped to prevent water from running into trenches or other excavated areas. Any water which accumulates in the excavations shall be removed promptly by well point or by other means satisfactory to the Engineer in such a manner as to not create a nuisance to adjacent property or public thoroughfare. Trenches shall be kept dry while pipe is being laid. Bridging of dewatering pipe shall be provided where necessary. Pumps and engines for well point systems shall be operated with mufflers, and at a minimum noise level suitable to a residential area. The Contractor will not be allowed to discharge water into the Owner's storm drainage system without the written approval of the Engineer. Approval will be subject to the condition that the storm sewer be returned to its original condition.

B. The Contractor is responsible for carrying the water to the nearest ditch or body of water and for obtaining the necessary permission to use same. The Contractor shall be financially responsible for any nuisance created due to carrying off water from his drainage system.

3.04 BACKFILL

A. Trenches:

1. Trenches shall be backfilled immediately after the pipe is laid unless other protection for the pipe line is provided. Clean earth, sand, crushed limerock, or other material approved by the Engineer shall be used for backfill. Backfill material shall be selected, deposited and compacted (simultaneously on both sides of the pipe) so as to eliminate the possibility of lateral displacement of the pipe. Backfill material shall be solidly tamped around the pipes in layers to a level at least one foot above the top of the pipe. Each layer shall be compacted to a maximum thickness of six inches.

2. In unpaved areas, the remainder of the backfill shall be deposited and then compacted by puddling, water flooding or mechanical tampers. Mechanical tamping of layers in unpaved areas shall be to a maximum thickness of 12 inches. In areas to be paved or repaved, the entire depth of backfill shall be deposited in layers and compacted by hand or mechanical tampers to a maximum thickness of six inches. Compaction shall be carried out to achieve a density of at least 98 percent (98%) of the maximum density as determined by AASHTO, Method T-180. Under areas to be paved, puddling may be used for backfill consolidation after tamping to one foot over the pipe, as specified, provided the method is first approved by the Engineer and the density requirements are met.

3. In areas to be paved, density tests for determination of the specified compaction shall be made by a testing laboratory and spaced one in every 300 feet of trench cut. It is the intent of this specification to secure a condition where no further settlement of trenches will occur. When backfilling is completed, the roadway base for pavement replacement may be placed immediately. It will be the responsibility of the Contractor to restore the surface to the original grade wherever settlement occurs.

B. Structural:

1. After completion of foundation footings and walls and other construction below the elevation of the final grades, and prior to backfilling, forms shall be removed and the excavation shall be cleared of all trash and debris. Material for backfilling shall consist of the excavation, borrow sand or other approved materials, and shall be free of trash, lumber, or other debris. Backfill shall be placed in horizontal layers not in excess of nine inches in thickness, and have moisture content such that a density may be obtained to prevent excessive settlement or shrinkage. Each layer shall be compacted by hand or approved machine tampers with extreme care being exerted not to damage pipe or structures. Backfill shall be placed and compacted evenly against the exposed surfaces to prevent undue stress on any surface.

3.05 RESTORATION OF SURFACE IMPROVEMENTS

A. Roadways, including shoulders, alleys, and driveways of shell, limerock, stabilized soil or gravel, grass plots, sod, shrubbery, ornamental trees, signs, fences, or other surface improvements on public or private property which have been damaged or removed in excavating, shall be restored to conditions equal to or better than conditions existing prior to beginning work. Restoration of shoulders shall consist of sodding, seeding and mulching, or stabilizing with limerock as selected by the Engineer. The cost of doing this work shall be included in the cost of the various applicable items.

B. Materials for unpaved roadways, road shoulders, alleys, or drive-ways, shall be compacted to a minimum of 98 percent (98%) of the maximum density as determined by AASHTO, Method T-180. The cost of this work and furnishing new materials shall be included in the cost of the applicable items of work as no separate payment will be made, unless a separate bid item is provided.

3.06 FINE GRADING

A. Finished areas around structures shall be graded smooth and hand raked and shall meet the elevations and contours shown on the drawings. Lumber, earth clods, rocks, and other undesirable materials shall be removed from the site.

3.07 DISPOSAL OF MATERIAL

A. Such portions of the excavated materials as needed and as suitable shall be used for backfilling and grading about the completed work to the elevations as shown on the drawings or as directed. Excavated material in excess of the quantity required for this purpose shall be disposed of by the Contractor. The Contractor shall leave the earth over the trenches or other excavations in a neat and uniform condition acceptable to the Owner.

3.08 TESTS

A. The Contractor shall furnish facilities for making all density tests and make such restorations as may be necessary due to test operations. All density tests on backfill or base replacement will be made by a commercial testing laboratory employed by the Owner and at such locations as may be recommended by the Engineer. The Contractor shall pay for all tests where the densities, as determined by the specified tests, fall below the required minimums (failed tests).

END OF SECTION

SECTION 32 10 00
BASES, BALLASTS AND PAVING

PART 1 - GENERAL

1.01 WORK INCLUDED

A. The work covered and described in this section includes the furnishing and construction of paved surfaces, including roadways, driveways, bicycle paths, shoulders, and other paved surfaces, or paving work as shown or indicated on the drawings, specified herein, and as listed in this contract.

B. All work shall conform to the applicable Technical Specifications of Florida Department of Transportation "Standard Specifications for Road Bridge Construction" latest Edition (Divisions II and III) and Design Standards", latest Edition, including any amendments thereto. The Contractor shall acquire his own copies of the Department of Transportation Standards. In the event of conflict between the Department of Transportation Standards and the specifications listed in these documents, the Owner/Engineer shall determine which shall govern. Reference to the Department of Transportation Standards, to the Department or its representatives shall be interpreted for this contract to be the Owner/Engineer or their authorized representative.

PART 2 - MATERIALS

2.01 SUBBASE

A. The materials used should be high bearing value soil, sand-clay, ground limestone, crushed lime rock, coquina, or any other material suitable for stabilization. Muck shall not be used.

2.02 BASE COURSE

A. The base course material used shall be that specified in the plan sheets or contract documents. If no base material is specified, limerock shall be used, unless otherwise indicated. All base material shall be approved by the Owner/Engineer and supplied by the Contractor.

B. The lime rock base material shall have a minimum of seventy percent (70%) carbonates, calcium and magnesium and no more than three percent (3%) water sensitive clay. The liquid limit shall not exceed 35 and the plastic index shall not exceed 10. The average LBR value of the material shall be no less than 100, nor be large amounts of extremely hard pieces of clay pockets.

C. Soil-cement base shall be composed of a combination of soil and Portland cement uniformly mixed, moistened, compacted, finished, and cured. The soil shall be either existing in-place material or that brought from borrow locations. All soil must meet the requirements set forth in FDOT Standards and Specifications for Road and Bridge Construction Latest Edition, The cement used shall be Portland cement Type I or I-P and water shall be free from any substances deleterious to hardening of the soils-cement mixture.

1. The soil-cement mixture shall be proportioned in accordance with a design mix prepared by a testing laboratory and approved by the Owner/Engineer. The design mix shall be submitted for approval at least thirty (30) calendar days prior to beginning of soil-cement construction. The cement content shall be expressed in percentage of dry weight of the soil. Rate of application shall be based on the maximum density of the soil, determined in accordance with AASHTO T 99 and a thickness one inch greater than the base course thickness shown on the plans.

D. Asphalt base courses shall have a bituminous material content of asphalt cement, viscosity Grade AC-20 or AC-30, meeting the requirements of FDOT Standards and Specifications for Road and Bridge Construction, Latest Edition. The bituminous mixture shall be composed of a combination of aggregate, bituminous material. The job mix formula, as established by the Contractor, must be approved by the Owner/Engineer. The asphalt base mix shall be within the design ranges specified for mix Type ABC-3 or S-II, (Use of any other mix is subject to the approval of the Owner/Engineer.). The constituents of the mixture shall be combined to produce a mixture having Marshal properties within the limits of Appropriate Table of the FDOT Standards and Specifications for Road and Bridge Construction, latest Edition.

E. Coquina shell used in the base course shall have an organic material of not greater than 0.5% or contain significant quantities of sand or other impurities which would prevent bonding. At least ninety-seven percent (97%) of the coquina used shall pass through a three and one-half inch ring.

F. Recycled concrete aggregate used in the base course shall conform to Appropriate Section, graded aggregate base, of the latest revision of the Florida Department of Transportation Standard Specifications for Road and Bridge Construction.

2.03 PRIME AND TACK COATS

A. Bituminous prime coats shall be applied to previously prepared bases. Bituminous tack coats shall be placed on existing paved surfaces and between successive lifts of asphalt material.

B. The prime coat shall be Cut-back asphalt Grade RC-70 or RC-250;Emulsified Asphalt Grades SS-I , CSS-I, SS-1H or CSS-1H diluted in equal proportion with water or other types and grades of bituminous material specified or approved by the Owner/Engineer.

C. The tack coat shall be RA-500 heated to a temperature of 250°F to 300°F. For undiluted Emulsified Asphalt, Grades RS-1 or RS-2 heated to a temperature of 140°F to 180°F.

D. A cover material must be placed on the prime coat to ensure that the prime coat remains intact until the surface course is placed.

2.04 ASPHALT WEARING SURFACE

A. The bituminous wearing surface applied shall be that specified in the plan sheets or contract documents. If no asphalt mix is specified, Type SP-9.5 Super Pave asphaltic concrete shall be used as the paving material, unless otherwise indicated.

B. The asphaltic mixture shall be transported to the site at a temperature of 300°F to 350°F. Mixtures that have cooled below 270°F will be rejected. The mix temperature will be taken on the first five loads each day and on an average of once every five (5) loads thereafter.

C. The Contractor is entirely responsible for producing a homogenous mixture, free from moisture and with no segregated materials, and meeting all requirements of the specifications for the mixture. Prior to the production of any asphalt paving mixture, the Contractor shall submit, in writing, a proposed job mix formula, at least two (2) weeks prior to the beginning of any paving activities. All requests for design mix adjustments, redesigns and new design mixes will be submitted, in writing, to the Owner/Engineer.

PART 3 - EXECUTION

3.01 SUBBASE

A. Prior to installation of base material, the area shall be graded to within 0.2 feet, and soft, spongy or mucky material removed. Sufficient stabilizing material shall be cut in to achieve a Florida Bearing Value (FBV) in excess of 75 psi or lime rock bearing ratio (LBR) greater than 40 pounds at a minimum density of ninety-eight percent (98%) of a maximum density as defined and measured in AASHTO T 180 (Modified Proctor), to a six-inch minimum depth.

B. Density test for subbase materials shall be taken at 300-foot intervals and around structures as required. If compaction procedures allow testing requirements may be reduced at the Owner/Engineer's discretion.

3.02 BASE COURSE

A. The base course shall be constructed on the prepared subgrade, in accordance with the specifications and plan sheets. All base material shall be placed in accordance with the lines, grades, notes, and typical cross sections shown on the plans. Any deviation from the plan sheets is subject to the approval of the Owner/Engineer. Any deviations not approved by the Owner/Engineer shall be repaired to the satisfaction of the Owner/Engineer at no expense to the Owner.

B. Lime Rock Base

1. Lime rock base shall be spread by mechanical spreaders, equipped to produce an even distribution with a uniform thickness. When the specified compacted thickness of the base is greater than six inches, the base shall be constructed in two (2) courses. The thickness of the first course shall be one-half the total thickness of the finished base. After spreading is completed, the entire surface shall be scarified and shaped so as to produce the required grade and cross section after compaction. If two (2) courses are required, each lift shall be prepared as previously described. Prior to spreading of the upper course, density tests will have been taken for the lower and determined to be satisfactory.

2. All materials shall be compacted to a density of not less than ninety-eight percent (98%) of maximum density as determined by AASHTO T 180. Density tests shall be taken in at least three locations on each day's final compaction of each course. Density determinations shall be made at more frequent intervals, at no extra cost, if deemed necessary by the Owner/Engineer.

3. The finished surface of the base course shall be checked with a template cut to the required crown and a 15-foot straight edge laid parallel to the center line of the road. All irregularities greater than 1/4 inch shall be corrected to the satisfaction of the Owner/Engineer.

4. The base material shall extend at least 12 inches outside the edge of the finished paved surface, unless otherwise indicated. Thickness of the base shall be measured at 200-foot intervals at various points in the cross section. Where the compacted thickness is deficient by 1/2 inch or more, the Contractor shall correct the deficiency by scarifying and adding rock for a distance of 100 feet in each direction from the edge of the deficient area. The required thickness, compaction and cross section will then be achieved.

5. Prime coat shall be applied only when the base meets the specified density and the moisture content in the top half of the base does not exceed ninety percent (90%) of the optimum moisture of the base material.

C. Soil Cement Base

1. Soil-cement mixing shall be either mixed-in-place or a central plant mix.

2. If mixed-in-place, the entire width of the base shall be processed in a single operation, where possible. The specified quantity of cement shall be applied at the required rate by means of an approved method. Mixing will begin within sixty (60) minutes after the cement has been applied. Processing may be to full depth in one (1) course, provided that the satisfactory distribution of cement, water, soil and the specified density can be obtained. If not, construction shall be in courses of such thickness to obtain satisfactory results. Adequate bonding between courses must be achieved. After mixing soil and cement, additional water shall be added, if necessary. After all mixing water has been applied, mixing shall continue until a uniform mixture has been obtained. Excessive concentrations of water shall be avoided.

3. Central plant mixtures shall have been mixed for at least thirty (30) seconds. The mixture shall be placed on the moistened subgrade in a uniform layer by an approved spreader. The layer of soil-cement shall be of uniform thickness and surface contour. The completed base will conform to the required grade and cross section.

4. Compaction of the soil-cement mixture shall begin immediately after mixing is complete. The optimum moisture content and maximum density shall be determined in the field by the methods described in AASHTO T 143. The base shall be compacted to not less than ninety-five percent (95%) of the maximum density. The soil-cement mix design shall be 350 psi at 28 days, unless otherwise indicated, and moisture content and density tests shall be taken every 300 lineal feet to a minimum depth of six inches.

5. After compaction, the surface shall be shaped to the required lines, grades and cross section. The moisture content of the surface material shall not be more than two percent (2%) less than the specified optimum moisture content during finishing operations. The finished surface shall be smooth, dense, and free of compaction planes, cracks, ridges and loose material.

6. Construction joints shall be formed by cutting back in the completed work to form a true vertical face. The vertical face shall be a straight transverse line perpendicular to the centerline of the roadway.

7. The finished surface of the base shall be tested with a template and a 15-foot straight edge. All irregularities greater than 1/4 inch shall be corrected to the satisfaction of the Owner/Engineer.

8. The finished surface shall be kept continuously moist until the surface is treated with either cut-back asphalt, Grade RC-70 applied at .15 to .20 gallons per square yard; or a mixture of emulsified asphalt and water applied at a rate of .20 of .25 gallons per square yard. If the Owner/Engineer deems it necessary, the surface shall be sanded using 10 pounds of clean sand per yard.

D. Asphalt Base Course

1. Asphalt base courses shall be applied in accordance with FDOT Standards and Specifications for Road and Bridge Construction, Appropriate Section. The job mix formula approved for the project shall be used. Any deviation from the approved mix must be submitted to the Owner/Engineer and approved before being implemented.

2. The base course material shall be placed with an approved paving machine. A motor grader may be required if a leveling course is needed. The base mix may be placed when the air temperature is at least 40°F and rising, provided that the sub-grade is not frozen or affected by frost.

3. A paver, equipped with automatic screed control, shall be used for all machine-laid courses. The automatic joint matcher shall be used on the top course of the base after the first pass with a paving machine. All mixtures shall be laid by the string line method, with the exception of areas adjacent to curb and gutter or other true edges. The temperature of the mix shall be between 300°F and 350°F. Any mixture caught by rain in transit may be laid at the Contractor's own risk; if removal and replacement is required, it shall be at the expense of the Contractor. In no case shall the mixture be spread when rain is falling or when there is water on the surface to be covered. The layer thickness for asphalt concrete structure courses shall match those listed in the table below.

E. Recycled Concrete Base Course

1. Recycled concrete base course shall be transported, spread compacted and finished per Appropriate Section, of the latest revision of the Florida Department of Transportation Standard Specifications for Road and Bridge Construction.

2. The depth of all layers shall be checked every 50 feet. A tack coat, as specified, will be required on existing pavements to be overlaid with an asphalt mix and between successive layers of all asphalt mixes.

F. Compaction.

1. After the asphalt mixture has been spread to the proper lines, grades, and cross sections, compaction operations may begin. The Contractor shall establish rolling procedures and submit his sequence of compaction operations to the Owner/Engineer for approval. The equipment used may include, but is not committed to steel-wheeled rollers, pneumatic tired rollers, and vibratory rollers. Areas which are inaccessible to a roller shall be compacted by the use of hand tamps or other satisfactory means. An entire sequence of compaction operations shall be performed for each layer of applied material, density determinations shall also be made.

2. The in-place density of each course shall be determined through core samples and the nuclear backscatter method. A core sample of a representative paving section shall be taken for each day's production of paved surface; backscatters shall be taken every 30 feet at various locations in the cross section. Additional testing around manholes or other structures may be required.

3. Testing and density requirements shall not apply to the following construction activities: Asphalt patching courses, leveling and intermediate course less than one-inch thick, overbuild courses less than one-inch thick and open graded friction courses.

G. Shell Base Material

1. Shell base material shall be constructed on the prepared subgrade in accordance with these specifications and in conformity with the lines, grades and cross sections shown on the plans. The shell base shall be spread uniformly and evenly; during spreading operations the shell shall be thoroughly saturated with water.

2. After spreading the shell shall be compacted, with water being added as required, until the required density is obtained. Compaction and density shall be as required for lime rock base, except that the testing methods shall be modified in the laboratory and in the field. At least three (3) density determinations shall be made on each day's final compaction operations.

3. Upon completion of initial compaction, the entire surface shall be scarified and shaped to exact crown and cross section. The base shall then be re-watered and compacted to the required density. The finished surface shall be tested with a

template and 15-foot straight edge. All irregularities greater than 1/4 inch shall be corrected to the satisfaction of the Owner/Engineer. The prime coat shall be applied after the base meets all density and finish requirements.

3.03 ASPHALT WEARING SURFACE

A. The asphalt wearing surface shall be constructed on the prepared base in accordance with the plans and specifications and in conformity with the indicated lines, grades, and cross sections. If no asphalt mixture is indicated, the specified mixture shall be Type SP-9.5 Super Pave Asphaltic Concrete. A job mix formula shall be submitted to the Owner/Engineer for approval at least two (2) weeks prior to the application of paved surfaces.

B. The mixture shall be spread only when the base is clean, dry, properly cured, and approved by the Owner/Engineer. The temperature shall be at least 40°F and rising. No paving operations will be permitted if it is raining or rain is imminent. The mix shall be between 270°F and 350°F.

C. The asphalt mixture shall be spread with an approved paving machine to the required width and depth. All mixes, except those adjacent to curb and gutter, shall be laid according to the string line method. The depth of each layer shall be checked every 50 feet.

D. The mixture shall be compacted to its final depth, no less than 1-1/4 inch and thicker if so indicated. Compaction and layering procedures specified for asphalt base courses shall apply to surface courses. All testing and density requirements will also apply.

E. When laying operations are interrupted, a transverse joint shall be constructed by cutting back on the previous run to expose the full depth of material. Longitudinal joints are to be sloped or rolled over and sealed. When the adjacent strip is constructed, the edge shall be trimmed back to expose the unsealed face. All longitudinal construction joints shall be offset 6 inches to 12 inches laterally between layers.

F. When fresh mixture is laid against transverse or longitudinal joints, it shall be placed in contact to produce an even, well compacted joint after rolling.

G. The finished surface shall be tested with a template and 15-foot rolling straight edge. Any irregularities shall be repaired to the satisfaction of the Owner/Engineer. The surface shall be of uniform texture and compaction. No sand spots, ripples, or loosened portions shall be evident. No traffic shall be allowed onto the finished surface until it is deemed acceptable by the Owner/Engineer.

3.04 CURING COAT

A. During the period when finishing and surface corrosion of the soil-cement base are being accomplished, the surface of the base shall be kept continuously moist by sprinkling as necessary. As soon as deemed practicable, the curing seal shall be applied to the soil-cement base. The curing seal shall consist of Emulsified Asphalt Grade SS-I or SS-1H, diluted in equal proportion with water, and be applied at the rate of 0.15 to 0.30 gallons per square yard.

B. The actual rate of application shall be as directed and shall provide complete coverage without excessive runoff. At the time the bituminous material is applied, the soil-cement surface shall be dense and free of all loose and extraneous material and shall contain sufficient moisture to prevent excessive penetration to the bituminous materials.

C. Should it be necessary to allow construction equipment or other traffic to use the completed base before the bituminous material has cured sufficiently to prevent pickup or displacement; the bituminous material shall be sanded, using approximately 10 pounds of clean sand per yard.

END OF SECTION

SECTION 32 13 13
CONCRETE PAVING

PART 1 – GENERAL

1.01 SCOPE OF WORK

A. Provide all labor, materials, equipment and incidentals required to install interlocking concrete pavers in accordance with the drawings and as specified.

1.02 QUALITY ASSURANCE

A. Comply with all requirements of local, state and federal regulatory agencies.

B. Comply with Florida Department of Transportation Specifications for road and bridge construction, latest edition.

1.03 SAMPLE APPROVAL

A. Sample Installation: Prior to installation of concrete pavers on concrete slab provide sample panel using materials shown or specified for final work. Build panel at the site as directed, of full thickness and approximately 4'x3'. Obtain Owner's representative acceptance of visual qualities of the panels before start of interlocking concrete pavers work. Retain panel during construction as a standard for judging completed work.

B. Remove and re-install sample until work is approved by Owner's Representative.

1.04 DELIVERY, STORAGE AND HANDLING

A. Protect interlocking concrete paver materials during storage and construction from a groundwater and from staining or intermixture with earth or other types of materials.

1.05 TOLERANCE

A. All work shall be checked with 10-foot straight edge and the edge treatment shall not exceed 1/2-inch in ten feet. Remove and replace all work that does not meet tolerances.

PART 2 – PRODUCTS

2.01 MATERIALS

A. Interlocking pavers shall meet the requirements set forth in ASTM C936 Specifications with a minimum compressive strength of 8,000 psi and average absorption of five percent (5%), no greater than seven percent (7%).

B. Pavers: As manufactured by Tremron, Telephone 904-359-5900, type and size as shown on drawing, or approved equal.

C. Water: Shall be clean and free from deleterious materials, suitable for drinking and range from 50°F to 70°F.

D. Portland Cement: To comply with Standard Specifications for American Society for Testing materials, C-150, Type 1. Cement shall be a standard produce, the name of which shall be submitted for approval.

E. Sand: For setting bed mixture shall conform to ASTM designation C-144-66T and shall be small sharp grains.

F. Sand: For filling paving jointing shall be washed silica sugar type.

G. Plain Cement Concrete Sub-slab and Integral Banding: To be in accordance with concrete Works Section.

H. Sand/Cement Setting Bed: Three (3) parts sand to one (1) part Portland Cement by volume and thoroughly dry mixed mechanically.

PART 3 – EXECUTION

3.01 GENERAL

A. Install all concrete pavers as shown on drawings and materials to be per manufacturer's specification and these specifications.

3.02 SUB-BASE

A. Compact the road sub-base to a density of ninety-five percent (95%).

3.03 SUB-SLAB

A. Construct sub-slab as shown on drawings. Refer to Civil Eng. Drawings and specifications for further details.

3.04 SAND/CEMENT LEVELING BED

A. Place sand cement setting bed material on concrete sub-slab carefully tamp and screed dry sand cement material to proper elevation to receive pavers.

3.05 PAVERS

A. Install pavers with hand tight joining on sand bed as recommended by the manufacturer. Only saw cut pavers will be accepted where pavers must be cut.

B. Cut all paver units with motor driven saw with diamond blade to provide clean, sharp, unchipped edges. Cut units to provide patterns shown and to fit adjoining work neatly.

C. After all pavers are placed go over entire installation with flat steel plated vibrator (“Wacker” or approved equal to seat pavers firmly in to sand leveling bed). The finish grade pavers shall match adjacent pavement surfaces.

D. Fog or mist all pavers sufficiently to set sand cement setting bed with potable and clean water. This shall be done on the same working day as the placement of the setting bed.

E. After laying the pavers and fogging or misting setting bed, Contractor shall place dry silica sand over the laid pavers and shall sweep the sand in two different directions, filling all joints between the laid pavers. All surplus sand shall be thoroughly removed from surface and off the site.

F. Protect all complete work from vehicular or pedestrian traffic for a period of forty-eight (48) hours.

3.06 CLEAN UP:

A. Police and remove all construction debris, trash from site and dispose of legally off the property.

END OF SECTION

SECTION 32 84 00
PLANTING IRRIGATION

PART 1 - GENERAL

1.01 SCOPE OF WORK

A. Provide all labor, materials, equipment, and incidentals necessary to install a fully automatic irrigation system providing for 100% coverage, in accordance with the drawings and as specified.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 32 90 00 - Planting

1.03 GENERAL REQUIREMENTS

A. These specifications and drawings will govern all of the work, expressed or implied, necessary to install the irrigation system.

B. Completion of work will mean full and exact compliance and conformity with all the provisions expressed or implied by drawings and specifications.

1.04 CONTRACTOR RESPONSIBILITIES

A. Provide all equipment, materials and labor necessary for completion of work.

B. Obtain all necessary permits, licenses and fees necessary for completion of the work.

C. Provide safe storage for all equipment and materials.

D. Comply with all applicable codes.

E. Coordinate all work around underground utilities with Owner and General Contractor to avoid conflict with other portions of the work on this project.

F. Repair, at no cost to the Owner, any damage occurring to the area by his work or his employees.

G. Carry all necessary insurance as specified in the General Conditions.

H. Make all necessary final adjustments to fine tune system to provide one hundred percent (100%) coverage and protect new or existing structures.

1.05 SUBMITTALS

A. All submittals are to be made in writing per the General Conditions.

PART 2 - PRODUCTS

2.01 MATERIALS

A. All products are to be those expressed or implied on the drawings.

B. All products must conform to their respective codes and regulations.

C. All products are to be installed and utilized in accordance with manufacturer's recommendations, Florida Irrigation Society Standards, and general irrigation installation standards.

PART 3 - EXECUTION

3.01 PREPARATION

A. The Contractor must examine the area and conditions under which the landscape irrigation system is to be installed and notify the Owner's Representative in writing of conditions detrimental to the proper and timely completion of the work. The Owner's Representative will notify, in writing, the Contractor as to the proper procedure or action to be taken to correct the problem.

B. All sprinkler head locations will be staked and approved by the irrigation contractor prior to installation. Should any location adjustments be required, the Owner's Representative shall be consulted for approval.

C. Trenches for pipes will be excavated of sufficient depth and width to permit proper handling and installation of pipe and fittings. Trenches will be trimmed to a uniform bed, free from rocks, clods or other sharp edged objects. A radius of four inches from the pipe shall be clean soil or sand free from rocks, large stones or other unsuitable material. All pipes will be firmly supported by compacted soil or sand. The compaction shall be as stated in these specifications.

3.02 INSTALLATION/APPLICATION/PERFORMANCE

A. All main lines will be buried to a depth as to have a minimum cover of 24 inches. All other piping will have a minimum cover of 12 inches except as noted on the drawings.

B. Where practical, pipe will be assembled and/or welded on the surface and when

lowered into trench will be snaked from side to side of trench bottom to allow for expansion and contraction.

C. PVC Pipe & Fittings:

1. Solvent weld pipe and fittings will be assembled using solvents and methods as recommended by the manufacturer and meeting ASAE 5376.1 Standards.

2. Gasketed pipe (applicable with main lines only, if used): Pipe will be assembled by using approved lubricants and fittings. Pipe shall be seated completely into fittings prior to laying into trenches.

3. Threaded Pipe will be assembled with Teflon tape on all threaded surfaces.

4. Joints will be made to hand tight then tightened 1/2 turn more with strap type wrench. No pipe dope will be allowed on PVC products.

5. Polyurethane pipe will have a sufficient wall thickness to ensure non-bursting at two times the operating pressure (250 psi minimum). Compatible, barbed or threaded type fitting will be used in conjunction with this pipe.

6. All fittings will be thoroughly cleaned of dirt, dust and moisture before applying solvents, tapes, or lubricants.

D. Pipe openings will be plugged during construction to prevent entrance of foreign materials.

E. All connections between PVC pipe and metal valves or steel pipe shall be made with threaded type fittings using PVC male adapters with teflon tape applied to the male threads. Make-up with light wrench pressure. (Steel pipe will not be threaded into plastic fittings.)

F. All pipe or wiring under paving will be placed in separate Schedule 40 PVC sleeves and conduit respectively for the full pavement covered length. Burial depth of sleeves will be the same as that required for the pipes or wires contained therein. Except under roadway, then to FDOT Standards - 4" steel sleeving, 36" depth min.

G. Pipe and valve location may be adjusted to facilitate construction and minimize cost insomuch that design intent of computation criteria is not affected. All adjustments will be coordinated with the Owner's Representative prior to implementation and will be recorded on the "Record Drawings" submitted to the Owner's Representative.

H. All wiring from the irrigation controller to the remote-control valves in the field will be furnished and installed by the irrigation contractor in the same trench as the main line.

All splices will be made using Rain Bird Pen-Tile Connectors, in valve boxes only. All control wires will be a minimum of a UF-14/1UL direct burial copper wire. All common wire will be a minimum of a UF-12/1UL direct burial copper wire (Accept as noted on drawings). Tape control wire every 10 feet. (Refer to trench detail). Provide number tags in the control valve box and the controller to designate zone numbers.

I. All heads will be set at locations specified on drawings to ensure adequate and even coverage.

1. All heads in shrubbery areas will be placed on risers of sufficient height to realize full range and coverage patterns. Refer to landscape drawings for plant material type and size used in irrigated areas.

2. Adjust radius and arc of all heads to realize maximum pattern effectiveness with minimum wastage of water on non-irrigated areas.

3. All sprinklers installed in the vicinity of the building and signs will be adjusted to prevent water from hitting these elements. All sprinklers will also be adjusted to minimize over-spray onto paved surfaces.

4. All heads on risers of 12 inches or more will be rigidly secured in a plumb position using a minimum 30-inch angle iron stake and two (2) stainless steel clamps. All risers will be painted "Black". (Accept as noted on plan).

J. All sprinkler heads around the building will be installed 12 inches from the building. All sprinkler heads next to paving or sidewalks will be installed 12 inches from such paving or sidewalks.

K. All sprinklers installed along parking spaces will be set on the stripe which separates the spaces. Refer to site plans for parking space dimensions.

L. The landscape irrigation controller(s) will be located in the general area as shown on plans. Contractor must notify Owner's Representative prior to installation of controller for approval to proceed with said installation. A type written legend enclosed in transparent protector will be securely attached inside controller door stating the location of areas covered by each remote control valve and the time each valve is to operate.

M. Thrust blocks will be installed on all main line piping at any change of direction fittings. Remote control valve tie-ins, gate valves and elevation changes (Refer to thrust block detail).

N. All trenches that are opened during any particular working day will be closed and backfilled the same day or will be adequately barricaded and marked to ensure

protection and safety. Backfill shall be thoroughly compacted and evened off with adjacent soil level. The irrigation contractor shall do all necessary excavations, backfilling and compaction required for complete installation of the system. Compaction shall be made to the correct density of the material. Finish grade shall be re-established by the Contractor to the satisfaction of the Owner's Representative where any excavations are made this also applies to sod which may be cut by the Contractor.

3.03 CLEANUP

A. During the course of installation, excess and waste materials will be continuously and promptly removed, area kept clear and all reasonable precautions taken to avoid damage to existing structures, plants and grass. When installation in an area has been completed, area will be thoroughly cleaned up. Debris, rubbish and waste materials will be cleaned up and removed from property.

3.04 TESTS

A. Pressure: After all joints have been made and set at least twenty-four (24) hours, flush out lines and hydrostatically test irrigation main at a pressure two times the operating pressure (Min.100 psi) in the presence of the Landscape Architect or Engineer. Pressure will be maintained on pipe for not less than six (6) hours with a maximum of 2 psidrop. Should any leaks be found, the main will be repaired and the line retested until satisfactory. All lateral lines downstream from the remote-control valves will be visually inspected for leaks. Should any be found, they will be repaired. The line shall then be retested until satisfactory (Pressure tank must be isolated from main line during this test).

B. Coverage: When the sprinkler system is completed the Contractor, in the presence of the Owner's Representative, will perform a coverage test to determine if the covering of plant areas is complete and adequate.

3.05 MAINTENANCE BEFORE ACCEPTANCE

A. Provide maintenance for the entire system until final acceptance. Maintenance responsibility will include full operation and maintenance of the irrigation system at no additional expense to the Owner.

B. Provide sufficient full-time personnel who are fully trained in irrigation operation and maintenance procedures.

C. Operation and maintenance shall include but not be limited to the following:

1. Cleaning all equipment, valves, spray heads and pipe.

2. Make repairs necessary for proper operation and functioning of the system.

3. Maintain all spray heads to assure proper emission of designed water quantities.

4. Replace all broken or malfunctioning equipment with new equipment.

5. Train the Owner's maintenance personnel in complete operation and proper maintenance procedures for all equipment.

3.06 FIELD QUALITY CONTROL

A. Substantial Completion:

1. Request for substantial completion shall be made by the Contractor as stated in the General Conditions and Supplements thereto.

2. At the time of inspection, the Irrigation Contractor will demonstrate the entire system to the Owner's Representative, proving that all remote control valves are properly balanced, that all heads are properly adjusted for radius and arc of overage, that the system is workable, clean and efficient. This will be a requirement for acceptance of the work.

3. If, during the substantial completion inspection, it is determined that further work needs to be done to meet the conditions of these specifications, said work will be performed as soon as possible. If this results in the rescheduling of this inspection the Contractor will again be responsible to request the inspection.

4. A "Punch List" of deficiencies will be generated upon completion of this inspection.

B. Final Acceptance:

1. Contractor will at this time provide the Owner with the following:

a. Two (2) sprinkler heads of each size and type. Complete with nozzles.

b. Two (2) valve keys for operating gate valves.

c. A complete set of tools to allow the Owner to maintain and/or replace the installed equipment.

1) One (1) phillips head screwdriver.

2) One (1) flat head screwdriver.

3) One (1) set of channel lock pliers.

4) One (1) wire cutter/stripper.

5) One (1) wrench for each different size of nut and/or bolt utilized on this project.

6) One (1) pint solvent cleaner.

7) One (1) pint solvent weld cement.

8) One (1) hacksaw with 2 blades.

9) One (1) strap wrench.

10) One (1) toolbox for tools.

C. Maintenance Manuals for all installed equipment

1. Record Drawing: The Contractor will provide the Owner with two (2) prints of the "Record Drawing" This drawing will show all wire splices, additional heads, deleted heads, change in pipe routing and any other deviation from construction documents.

2. Written Agreement: The Contractor will provide the Owner with a document stating that the Contractor is responsible for all materials and workmanship installed by him on the job for a period of one (1) year from the date of final acceptance by the Owner.

3. Final Release of Lien: Furnish the Owner with Releases of Liens from all his suppliers as well as any subcontractors doing work on his behalf of this project.

END OF SECTION

SECTION 32 90 00
PLANTING

PART 1 - GENERAL

1.01 DESCRIPTION

A. Scope of Work: Work required in this section consists of furnishing labor, materials, equipment and services necessary for a complete installation of landscaping to include planting of trees, shrubs, groundcovers and other related items necessary to complete work indicated on drawings and described in specifications.

B. Related Work Described Elsewhere:

1. General Conditions

1.02 QUALITY ASSURANCE

A. The installation shall be by a single firm specializing in landscape horticulture. Trees and plant material shall be provided by the awarded bidder, as specified in the bid form.

B. Awarded bidder shall provide photographs of plant material prior to installation.

C. Standards

1. Nomenclature: Conform to names given in Standardized Plant Names, latest edition, prepared by the American Joint Committee on Horticultural Nomenclature, and Florida Landscape Plants Natural and Exotic by John V. Watkins.

2. All plant material furnished by the Landscape Contractor unless otherwise specified shall be nursery grown stock and be Florida No. I or better in accordance with Grades and Standards for Nursery Plants, State Plant Board of Florida. The Owner and/or Engineer reserve all rights to determine acceptability of plant material submitted for planting.

D. “Final Acceptance” shall mean that point in time when all requirements of project drawings are completed, including any punch-list items, to the satisfaction of the City. The awarded bidder shall be notified in writing of final acceptance by a City representative.

E. “Nursery-grown” shall mean grown in the nursery from liners or collected and then grown in a nursery not less than two (2) years.

F. “Healthy, vigorous condition” shall mean live foliage out to the tips of all branches and stems.

G. Local government reserves the right to reject any and all plant material.

1.03 ALTERNATIVES, ADDITIONS, DELETIONS, SUBSTITUTIONS

A. There are no alternates to the contract documents.

B. The Contractor must have written approval by the Engineer for any substitutions; installation without written approval is entirely at the Contractor's risk.

C. Substitutions shall not be permitted unless proof is submitted that specific plants or sizes are unobtainable. The proposal will be considered for nearest equivalent size or variety with equitable adjustment in accordance with the General Conditions.

D. All material acquired through additions or substitutions shall be subject to all conditions and guarantees stated herein.

1.04 SUBMITTALS

A. Awarded bidder must submit planting schedule indicating dates for each project phase, two (2) weeks prior to beginning work.

B. Awarded bidder must submit certificates of inspection, analyses for soil amendments, and labels for herbicides, insecticides, fertilizer and soil polymer materials.

C. Awarded bidder must submit the following material samples:

1. Mulch

2. Topsoil

3. Pre-emergent herbicide

4. Fertilizer

5. Soil polymer

6. Photographs of typical plant material

1.05 DIMENSIONS, QUANTITIES AND COORDINATION

A. All scaled dimensions are approximate. Before proceeding with any work the Contractor shall carefully check and verify all dimensions and quantities and shall immediately inform the Engineer of any discrepancies between the Drawings and/or Specifications and actual conditions. No work shall be done in any area where there is such a discrepancy until approval for the same has been given by the Engineer.

B. Plant materials shall be furnished in the quantities and/or spacing as shown or noted for each location and shall be of the species, kinds, sizes, etc., as symbolized and/or described in the "PLANT LIST" as indicated on the Drawings. The Contractor is to verify all sizes and quantities.

C. The Contractor shall be responsible for cooperation with other trades and professionals on site to assure construction in a timely and professional manner. Coordination of various contractors shall be the responsibility of the Contractor unless stated otherwise.

1.06 CONTRACTOR'S MAINTENANCE RESPONSIBILITY UNTIL FINAL ACCEPTANCE

A. The Contractor shall assure that plants are kept adequately watered; that guy wires are kept tight and braces adjusted as necessary; that all plants are fertilized and mulched as necessary so that they are healthy, vigorous and undamaged at time of acceptance. Contractor shall be responsible for assuring that all plants, at the time of final inspection, exhibit characteristics and qualifications required for grade of plants as originally specified.

B. Contractor shall, upon completion of all plantings or in phases thereof, provide the Owner with both oral and written instructions as to proper watering care. This shall be done after substantial completion, but before final payment is made.

C. The Owner, upon receiving said instructions, will accept responsibility of watering of said trees and plants, in accordance with agreed upon procedures.

1.07 WARRANTY AND GUARANTEES

A. The Contractor, from the date of final completion, shall properly maintain and guarantee against loss of death all shrubs, vines, groundcovers and sod furnished and installed for a period of 180 days and 365 days for all trees.

B. Material which is either dead or in poor health during this period, or at its completion, will be replaced at no charge to the Owner. Should any of the plant materials show 50 percent (50%) or more defoliation during the guarantee period due to the Contractor's use of

improper materials or workmanship, the Contractor, upon written notice, shall replace same without additional cost to the Owner.

C. Any loss during the guarantee period due to neglect, undue weather conditions, or physical abuse will not be the responsibility of the Contractor.

PART 2 - PRODUCTS

2.01 MATERIALS

A. Prepared Topsoil: The Contractor shall install all trees into existing soil conditions with backfill soil mixture as indicated below:

1. Trees - Flowering and Shade over 15 Feet Tall: Install 40 lb. bag of dehydrated cow manure thoroughly mixed with existing clean soil.

2. Trees - Flowering and Shade Less than 15 Feet Tall: Install 20 lb. bag of dehydrated cow manure thoroughly mixed with existing clean soil.

3. Shrubs: Mix one (1) gallon container of dehydrated cow manure (1 to 1 ratio) with size of plant ball or root ball container size. Example: 5 gallon manure per 5 gallon Lerio root ball.

B. Trees:

1. All trees must have a fully developed fibrous root system, be heavily branched, free from all insects and their eggs, fungus and other diseases. All trees and palms except cabbage palms shall be balled and burlapped and wire bound, if necessary. All trees and palms shall have a habit of growth that is normal for the species.

2. Balled and burlapped (B & B) : The root balls of these plants shall be moved with firm, natural balls of soil, not less than 1 foot diameter of ball to every 1 inch of caliper trunk, depth not less than 2/3 of ball diameter. The root balls shall be properly protected until they are planted. The plant shall be handled only by the earth ball, and not by the plant itself. Any B&B plant which shows evidence of having been handled by the plant itself or which shows evidence of "made" earth balls will be subject to rejection.

3. Trees shall have straight trunks (unless otherwise specified) with leader intact, undamaged or uncut. All old abrasions and cut shall be completely callused over. Trees shall be tied securely to stakes on deliver.

4. Measurement: Height of trees and shrubs measured from ground up; width measurement shall be normal spread of branches with plants in their normal position. These measurements shall not include immediate terminal growth. Branching, grading, quality, balling and burlapping of plants in the plant list generally follow the Code of Standards currently recommended by the American Standard for Nursery Stock. All measurements shall conform to measurements specified in the plant list, except that plants larger than specified may be used with the written approval of the Engineer.

C. Shrubs:

1. All shrubs shall have a fully developed root system and shall fulfill dimensional requirements and be considered normal for the species unless otherwise stated. Shrubs shall be heavily caned and leafed with foliage to base and shall be free from insects and their eggs, diseases and mutilations of any nature.

2. Any container-grown shrubs which have become pot bound or for which the top system is too large for the size container, will not be acceptable.

D. Mulch: Mulch shall consist of finely shredded cypress, unless specified otherwise. Mulch shall be Grade B or better and spread at a loose thickness of 2-1/2 inches.

E. Fertilizer: Commercial fertilizer shall be a complete fertilizer, part of the elements of which are derived from organic sources and shall contain the following percentages by weight: Nitrogen 6 percent, Phosphoric Acid 6 percent, and Potash 6 percent. It shall be uniform in composition, free flowing and shall be delivered to the site in the original unopened packages, each bearing the manufacturer's guaranteed analysis.

PART 3 - EXECUTION

3.01 PLANTING PROCEDURES

A. Contractor shall be required to report in written and dated memo, to the Engineer, any construction or site problems that exist or develop during the construction period that have occurred or that, at any future date, will create adverse growing conditions for any plants being installed. Failure to do so makes the Contractor responsible for replacement under the normal guarantee.

B. Digging and handling: No plant shall be bound with wire or rope at any time so as to cause damage to the bark or break branches. All plants are to be handled at all times so that roots or balls are adequately protected from sun, cold and drying winds. No trees or container plants with root balls that have been cracked or broken shall be planted except upon special approval. Canned stock shall be removed carefully from cans after containers

have been cut on two (2) sides with an approved cutter. A spade shall not be used to cut cans. Plants shall not be pulled by the tops or stems, nor handled in a rough or careless manner at any time.

C. Tree pits shall be dug twice the diameter and depth of the root ball. Backfill one-half of pit with planting soil mixture as recommended by state and/or county agricultural agent or indicated elsewhere in these specifications. Backfill shall be watered and firmly rodded so that no air pockets remain, then backfill to proper grade. Establish water basin to diameter of pit; height of basin is to be a minimum of four inches. Plants shall be kept in a moistened condition for duration of planting period.

D. The crown (top) of the root ball of all trees and shrubs shall be planted flush to finish grade unless written instructions to the contrary are given by the Engineer. If it is determined by percolation tests that poor drainage exists, the Contractor shall request written approval to elevate the plant root ball and install additional clean backfill soil around the plant ball or ground of plant balls as determined in the field. The Contractor shall avoid use of any trees or shrubs which have entered into shock from transplanting.

E. Cabbage palm heart buds to be cut one-half (1/2) and fronds to be securely tied with biodegradable twine.

F. Tree guying into staking: See graphic tree planting detail on Drawings.

G. Mulching: Within one (1) week after planting, shredded cypress mulch shall be uniformly applied to a minimum loose thickness of 2-1/2 inches (unless specified otherwise) over entire area of planting beds.

3.02 MAINTENANCE

A. Begin maintenance immediately after planting. Maintain all plant material until final acceptance.

B. Maintenance shall include but is not limited to pruning, cultivating, mowing, weeding, fertilizing, watering, and application of appropriate pesticides necessary to maintain plants in healthy condition.

1. Reset settled plants to proper grade and position.

2. Restore soil berm and mulch layer.

3. Tighten and repair elastic guys or other supports

4. Correct defective work.

5. Remove and replace rejected material within one (1) working day from notification. Maintain mulch and sod surface weed-free.

C. The Contractor is entirely responsible for the irrigation through final acceptance. Plant material shall receive water in accordance with the following water schedule:

Size of nursery stock	Irrigation schedule for vigor[1,3]	Irrigation schedule for survival[2,3,4]
< 2 inch caliper	Daily for 2 weeks; every other day for 2 months; weekly until established.	Twice weekly for 2-3 months
2-4 inch caliper	Daily for 1 month; every other day for 3 months; weekly until established.	Twice weekly for 3-4 months
> 4 inch caliper	Daily for 6 weeks; every other day for 5 months; weekly until established.	Twice weekly for 4-5 months

Notes on Irrigation:

1. Delete daily irrigation when planting in winter. Irrigation frequency can be reduced slightly (e.g. 2-3 times each week instead of every other day) when planting hardened-off, field-grown trees that were root-pruned during production. Establishment takes 3 (hardiness zones 10-11) to 4 (hardiness zones 8-9) months per inch trunk caliper.

2. Irrigation frequency can be reduced slightly (e.g. to once or twice each week) when planting hardened-off, field-grown trees that were root-pruned during production.

3. At each irrigation, apply 2-3 gallons per inch trunk caliper to the root ball. Apply it in a manner so all water soaks into the root ball. Do not water if root ball is wet/saturated on the irrigation day.

4. Trees take much longer to establish than 3-4 months per inch trunk caliper. Irrigate in drought the following summer.

D. Upon satisfactory completion of work as determined by final acceptance, the City will assume maintenance responsibilities.

E. All stakes, supports, and associated hardware shall be removed twelve (12) months after planting.

3.02 PROTECTION OF PROPERTY AND PERSONS BY CONTRACTOR OR SUBCONTRACTOR

A. The protection of all property and persons shall be provided at all times in strict accordance with the city, state, county and federal laws and existing conditions. Any damage to existing property, materials, and/or equipment as a result of this contract shall be replaced or repaired by this Contractor.

B. Protection of existing trees and/or plants on the site shall be the responsibility of the Contractor, unless stipulated otherwise in the Plans and Specifications.

C Contractor shall provide and properly maintain warning signs, lights, temporary closures, barricades and other security and safeguard measures for the protection of workmen and others on, about or adjacent to the work during working and non-working hours.

D. Prior to beginning construction on site, the Contractor is responsible for contacting all underground utility companies to verify and mark in field where all underground utilities are located. The Contractor shall be held responsible and liable for any damages incurred resulting from his negligence.

3.03 INSPECTION AND REJECTION

A. The Owner and/or Construction Manager reserve the right to inspect the plants in the nursery before they are dug from the nursery row, while they are being dug, or while they are being prepared and loaded for shipment, or at any other time.

B. The Construction Manager or Owner reserves the right to reject any plant(s) if, in his opinion, it does not meet the requirements set forth in these specifications or issue a reasonable cost adjustment.

C. All inspections herein specified shall be made by the Construction Manager. The Construction Manager shall submit one (1) copy of the inspection report to the Owner and one (1) copy to the Contractor.

D. Interim Inspections: Inspection shall be required for the following parts of work (checked items only):

1. During preliminary finish grading and soil preparation.

2. After delivery to site when shrubs and trees are spotted or staked for planting, but prior to excavation of planting holes.

3. Specimen trees at source prior to delivery.

4. Potted plants prior to locating.

5. Lawn areas prior to seeding or sodding.

6. Planting areas prior to planting. Random tree pits shall be dug and open for inspection at this time.

E. Final Inspection of Landscape Plantings: Upon completion of the installation, the Contractor will notify the Construction Manager that the job is ready for inspection. Within two (2) weeks of notification, the installation will be inspected by the Engineer. He will report to the Owner and Contractor those items rejected, if any. After satisfactory replacements have been made, the Engineering will accept the project. This begins the Contractor's guarantee and maintenance period for all landscaping.

F. The Construction Manager or Owner will be the final judge as to the suitability and acceptability of any part of the work.

3.04 REMOVAL OF RUBBISH AND CLEAN-UP

A. The Contractor shall keep the site of his operation clean and remove all rubbish as it accumulates. Upon completion of the work, the Contractor shall remove all temporary structures and rubbish resulting from his work and leave the site in a clean and neat condition.

END OF SECTION

SECTION 32 92 23
SODDING

PART 1 - GENERAL

1.01 SUMMARY

A. Section Includes:

1. Preparation of subsoil.
2. Placing topsoil.
3. Fertilizing.
4. Sod installation.
5. Maintenance.

1.02 REFERENCES

A. ASTM International:

1. ASTM C602 - Standard Specification for Agricultural Liming Materials.

B. Turfgrass Producers International:

1. TPI - Guideline Specifications to Turfgrass Sodding.

1.03 DEFINITIONS

A. Weeds: Vegetative species other than specified species to be established in given area.

1.04 SUBMITTALS

A. Section 01 33 23 – Shop Drawings, Product Data and Samples: Requirements for submittals.

B. Product Data: Submit data for sod grass species, fertilizer, mulch, and other accessories.

C. Submit minimum 10 oz sample of topsoil proposed. Forward sample to approved testing laboratory in sealed containers to prevent contamination.

D. Test Reports: Indicate topsoil nutrient and pH levels with recommended soil supplements and application rates.

E. Manufacturer's Certificate: Certify Products meet or exceed specified requirements.

1.05 CLOSEOUT SUBMITTALS

A. Section 01 77 00 - Closeout Procedures: Requirements for submittals.

B. Operation and Maintenance Data: Submit maintenance instructions, cutting method and maximum grass height; types, application frequency, and recommended coverage of fertilizer;

1.06 QUALITY ASSURANCE

A. Sod: Root development capable of supporting its own weight without tearing, when suspended vertically by holding upper two corners.

B. Perform Work in accordance with Florida Department of Transportation standard.

1.07 QUALIFICATIONS

A. Sod Producer: Company specializing in manufacturing Products specified in this section with minimum three years documented experience.

B. Installer: Company specializing in performing work of this section with minimum three years documented experience.

1.08 DELIVERY, STORAGE, AND HANDLING

A. Section 01 60 00 - Product Requirements: Product storage and handling requirements.

B. Deliver sod on pallets or in rolls. Protect exposed roots from dehydration.

C. Do not deliver more sod than can be laid within twenty four (24) hours.

1.09 COORDINATION

A. Section 01 30 00 - Administrative Requirements: Requirements for coordination.

B. Coordinate with installation of underground sprinkler system piping and watering heads when applicable.

1.10 MAINTENANCE SERVICE

A. Section 01 77 00 - Closeout Procedures: Maintenance service.

B. Maintain sodded areas sodded areas for three months from Date of Substantial Completion or until Final Completion, whichever is later.

C. Maintain sodded areas immediately after placement until grass is well established and exhibits vigorous growing condition.

D. Repair any damage due to washouts, erosion or other causes which might occur prior to final acceptance of this work.

PART 2 - PRODUCTS

2.01 SOD

A. Furnish materials in accordance with Florida Department of Transportation standard.

B. Sod: Certified grade; cultivated grass sod; type indicated; with strong fibrous root system, free of stones, burned or bare spots; containing no more than 5 weeds per 1000 sq ft.

C. Type of sod to match existing. If restoration, type of sod to be shown on plans otherwise.

D. The sod shall be taken up in commercial-size rectangles, preferably 16-inch by 24-inch, except where rolled sod is utilized.

E. The sod shall be sufficiently thick to secure a dense stand of live grass. The sod shall be live, fresh and uninjured, at the time of planting.

F. No sod shall be used which is not certified as being free of the imported fire ant and must be obtained from an area outside of the zone of quarantine of the imported fire ant.

2.02 SOIL MATERIALS

A. Topsoil: Imported or excavated on-site, fertile, agricultural soil, typical for locality, capable of sustaining vigorous plant growth, taken from drained site; free of subsoil, clay, or impurities, plants, weeds and roots; pH value of minimum 5.4 and maximum 7.0.

2.03 ACCESSORIES

A. Fertilizer: Commercial grade; recommended for grass, with fifty percent of elements derived from organic sources; of proportion necessary to eliminate deficiencies of topsoil to the following proportions: nitrogen 6 percent, phosphoric acid 6 percent, soluble potash 6 percent.

B. Lime: ASTM C602, Class T agricultural limestone containing a minimum 80 percent calcium carbonate equivalent.

C. Water: Clean, fresh and free of substances or matter capable of inhibiting vigorous growth of grass.

1. The water used in the grassing operations may be obtained from the reclaimed water system.

2. The water shall be free of excess and harmful chemicals, acids, alkalis, or any substance which might be harmful to plant growth or obnoxious to traffic.

3. Salt water shall not be used.

D. Water-Metering Devices: The vehicle used for applying the water to the grassed areas shall be equipped with an approved metering device installed at such point on the vehicle as to measure the water at the time of its being applied to the grassed areas.

E. Wood Pegs: Softwood, sufficient size and length to anchor sod on slope.

F. Wire Mesh: Interwoven hexagonal plastic mesh of 2-inch size.

G. Edging: Plastic.

H. Rollers: A cultipacker, traffic roller, or other roller approved by the Engineer, will be required for rolling the grassed and mulched areas.

2.04 SOURCE QUALITY CONTROL

A. Section 01 45 29 – Testing Laboratory Services: Testing, inspection and analysis requirements.

B. Analyze to ascertain percentage of nitrogen, phosphorus, potash, soluble salt content, organic matter content, and pH value.

C. Provide recommendation for fertilizer and lime application rates for specified sod grass species as result of testing

D. Testing is not required when recent tests are available for imported topsoil. Submit these test results to testing laboratory. Indicate, by test results, information necessary to determine suitability.

PART 3 - EXECUTION

3.01 EXAMINATION

A. Section 01 30 00 - Administrative Requirements: Verification of existing conditions before starting work.

B. Verify prepared soil base is ready to receive the Work of this section.

3.02 PREPARATION OF SUBSOIL

A. Prepare sub-soil and eliminate uneven areas and low spots.

B. Maintain lines, levels, profiles and contours. Make changes in grade gradual. Blend slopes into level areas.

C. Remove foreign materials and undesirable plants and their roots. Do not bury foreign material beneath areas to be sodded.

D. Remove contaminated subsoil.

E. Scarify sub-soil to depth of 4 inches where topsoil is to be placed.

F. Repeat cultivation in areas where equipment, used for hauling and spreading topsoil, has compacted subsoil.

3.03 PLACING TOPSOIL

A. Spread topsoil to minimum depth of 3 inches over area to be sodded.

B. Place topsoil during dry weather and on dry unfrozen subgrade.

C. Remove vegetable matter and foreign non-organic material from topsoil while spreading.

D. Grade topsoil to eliminate rough, low or soft areas and to ensure positive drainage.

E. Install edging at periphery of sodded areas in straight lines to consistent depth.

3.04 FERTILIZING

A. Apply lime at application rate recommended by soil analysis. Work lime into top 6 inches of soil.

B. Application:

1. The fertilizer shall be spread or sprayed uniformly over the area to be grassed by use of the approved distributing device, except that on steep slopes or other areas where machine-spreading may not be practicable, spreading may be done by hand or by hose if the Engineer so directs.

2. Immediately after dry fertilizer is spread, it shall be harrowed in and mixed with the soil to a depth of approximately four inches.

3. When liquid fertilizer is sprayed, the soil, if dry, shall be moistened by sprinkling before the liquid fertilizer is applied not later than seven days after the seed is in place.

C. Rate of Application: Apply fertilizer at application rate as determined by soil analysis.

D. Apply fertilizer after smooth raking of topsoil and prior to installation of sod.

E. Apply fertilizer no more than forty-eight (48) hours before laying sod.

F. Mix fertilizer thoroughly into upper 4 inches of topsoil.

G. Lightly water soil to aid dissipation of fertilizer.

H. Fertilizing operations will not be permitted when wind velocities exceed 15 miles per hour.

3.05 LAYING SOD

A. Moisten prepared surface immediately prior to laying sod.

B. Lay sod within twenty-four (24) hours after harvesting to prevent deterioration.

C. Lay sod tight with no open joints visible, and no overlapping; stagger end joints 12 inches minimum. Do not stretch or overlap sod pieces.

D. Lay smooth. Align with adjoining grass areas.

E. Place top elevation of sod 1/2 inch below adjoining edging paving or curbs.

F. On slopes and elevations 6 inches per foot and steeper:

1. On slopes 6 inches per foot and steeper, lay sod pieces perpendicular to slope and secure every row with wooden pegs at maximum 2 feet on center. When using rolled sod, lay sod parallel to slope. Drive pegs flush with soil portion of sod.

2. Prior to placing sod, on slopes exceeding 8 inches per foot, place wire mesh over topsoil. Securely anchor wire mesh in place with wood pegs sunk firmly into ground.

G. Do not place sod when temperature is lower than 32°F.

H. Water sodded areas immediately after installation. Saturate sod to 4 inches of soil.

I. After sod and soil have dried, roll sodded areas to bond sod to soil and to remove minor depressions and irregularities.

J. Roll before first watering.

3.06 MAINTENANCE

A. Mow grass at regular intervals to maintain at maximum height of 2-1/2 inches. Do not cut more than 1/3 of grass blade at each mowing.

B. Neatly trim edges and hand clip where necessary.

C. Immediately remove clippings after mowing and trimming.

D. Water to prevent grass and soil from drying out.

E. The soil shall be maintained in a moist condition for a period of at least two (2) weeks after the planting.

F. Roll surface to remove or irregularities.

G. Control growth of weeds. Apply herbicides. Remedy damage resulting from improper use of herbicides.

H. Immediately replace sod on areas showing deterioration or bare spots.

1. i.e. damage due to washouts, erosion or other causes which might occur.

I. Protect sodded areas with warning signs during maintenance period.

END OF SECTION

SECTION 33 42 10
STORM DRAINAGE SYSTEMS

PART 1 - GENERAL

1.01 WORK INCLUDED

A. The work covered and described in this section includes the furnishing and construction of storm sewers, inlets, manholes, end walls and other drainage structures, or drainage construction as shown or indicated on the drawings, and specified herein, and as listed in the contract.

B. All work shall conform to the applicable Technical Specifications of Florida Department of Transportation "Standard Specifications for Road and Bridge Construction" latest edition, (Divisions II and III) and "Roadway and Traffic Design Standards", latest edition, including any amendments thereto. The Contractor shall acquire his own copies of the Department of Transportation Standards. In the event of conflict between the Department of Transportation Standards and the specifications listed in these documents, the Engineer shall determine which shall govern. Reference in the Department of Transportation Standards to the Department or its representatives shall be interpreted for this contract to be the Owner and/or Owner's Engineer or their authorized representatives.

PART 2 - MATERIALS

2.01 INLETS, MANHOLES AND JUNCTION BOXES

A. Inlets, Manholes and Junction Boxes shall be constructed of reinforced concrete or brick masonry unless otherwise specified in the plans.

B. Precast inlets, manholes and junction boxes may be used unless otherwise shown in the plans. The design and fabrication of precast units shall be in accordance with the plan drawings and the specifications listed in Section 33 05 61. In storm sewer applications the interiors of inlets, manholes, and junction boxes will not require a protective coating; however, all other construction procedures will be followed.

2.02 PIPE AND FITTINGS

A. Round Concrete Pipe shall be reinforced concrete culvert pipe conforming to the requirements of Department of Transportation Standards and Specifications. Standard concrete pipe shall meet Class III design requirements of ASTM C76 and all accompanying modifications. Special concrete pipe shall meet Class IV design requirements unless Class V pipe is specifically designated. Pipe joints shall be rubber gasket joints manufactured and installed to meet the requirements specified in Section 942 of Florida Department of Transportation Standards and Specifications.

B. Reinforced Concrete Arch Pipe shall conform to the requirements of ASTM Designation C 507-75. Class III pipe shall be used unless otherwise specified. Pipe joints shall have rubber gaskets and meet the above mentioned requirements as specified for concrete pipe.

C. Reinforced Concrete Elliptical Pipe shall conform to the requirements of ASTM C 507, modifications to ASTM C 76 for round concrete pipe, shall also apply to elliptical pipe, where applicable. Standard elliptical pipe shall meet the requirements of Table I for Class HE-III and special elliptical pipe shall meet the requirements of Table I for Class HE-IV.

D. Corrugated Steel Pipe shall meet design requirements specified in Section 943 of Department of Transportation Standards and Specifications. Pipe thickness for round culvert pipe shall match those listed in Table I of Section 943 and variations in thickness for pipe and connecting bands shall match those listed in Table II of the same section, unless otherwise indicated. At least two (2) full annular corrugations shall be provided on the ends of each section of pipe to accommodate connecting bands. All pipe shall be asphalt coated Type A as per AASHTO M 190.

E. Polyvinyl Chloride (PVC) pipe shall meet all applicable Florida Department of Transportation standards and specifications, and shall be constructed of SDR 26 pipe.

1. Fittings: Socket type, solvent welded fittings for Schedule 80 PVC pipe shall be in conformance with ASTM D2467. Threaded type fittings for Schedule 80 PVC pipe shall be in conformance with ASTM D2464. All solvent welded or threaded joints shall be watertight.

F. High Density Polyethylene pipe and fittings shall be made from an approved grade of high density polyethylene resin compound meeting cell classification 345434C per ASTM D3350; and meeting Type III, Class C, Category 5, Grade P34 per ASTM D1238. All HDPE piping shall comply with AWWA Specifications C906.

2.03 HEADWALLS, ENDWALLS, AND END SECTIONS

A. Headwalls, Endwalls and End Sections shall conform to details shown on the plan drawings and detail sheets. All drainage structures must be constructed in accordance with Florida Department of Transportation "Roadway and Traffic Design Standards", latest edition, unless otherwise specified. Any and all construction requirements, installation guidelines and safety considerations included within the "Roadway and Design Standards" must be followed and are the responsibility of the Contractor. In the event of a conflict between the design requirements shown on the plan sheets and those included in the Department of Transportation Standards, the Engineer or his representative shall determine the proper installation requirements.

B. Steel End Sections shall be securely connected to each end of culvert for those locations where steel end sections are specified.

C. Concrete used for headwalls, inlets, curb and gutter, valley gutter, slope pavement, ditch pavement, pipe endwalls and other miscellaneous items which are not structurally reinforced may be Class I, with a minimum compressive strength of 3,000 psi at 28 days.

2.04 REINFORCING STEEL

A. Reinforcing Steel shall be billet steel bars conforming to the requirements of ASTM A615-76, Grade 40. When laced in the work, it shall be free from loose rust, scale, dirt, paint, oil, and other foreign material.

B. All steel shall be placed and fastened according to the specifications in Section 415-5, Department of Transportation Standard Specifications.

2.05 BRICK

A. All bricks for drainage structure shall be first class, dense free from cracks, true in shape, have square edges, and a clear ringing sound when struck.

B. Clay brick shall be hard burned, sound and burned entirely through.

C. Brick of any one make shall not vary more than 1/16 inch in thickness, nor more than 1/8 inch in width or length. The average amount of water absorbed by the brick, after being thoroughly dried and them immersed for twenty-four (24) hours, shall not exceed eight percent (8%).

D. Concrete brick shall conform to the requirements of Article 949-2 of the Department of Transportation Standard Specifications.

2.06 MORTAR

A. Cement Mortar shall be of Portland Cement and sand, mixed in the proportions of one (1) part cement to three (3) parts of sand. All the materials shall pass the No. 8 sieve, and be uniformly graded from coarse to fine. At the option of the Contractor, hydrated lime, in an amount not to exceed ten percent of the amount of cement used, may be added to the mortar. No hydrated lime shall be used in conjunction with packaged masonry cement, and packaged masonry cement shall not be used if it has been stored for over six (6) months. Cement mortar shall be mixed dry and wetted to proper consistency for use. Nor mortars left standing for more than one (1) hour shall be used.

2.07 CASTINGS

A. Castings for inlet grates, frames, covers, and structure tops shall be as shown in the plans and conform to Department of Transportation Standard Specifications.

B. Iron castings shall conform to ASTM 48 and may be of the No. 20 classes. All frame covers shall have "pick-up" holes, non-skid surface and 2" raised or depressed identification letters and numbers.

2.08 PIPE BEDDING

A. Pipe Bedding Material shall be select granular materials which are inorganic and well graded. If pipe is to be installed in wet areas or the Engineer determines the soil to be unstable, a six inch bed of No. 57 aggregate may be required.

2.09 UNDERDRAINS

A. Any subsurface drainage systems shall be installed according to the locations and dimensions shown on the plan sheets. All materials and construction shall conform to Section 440 of Department of Transportation Standards and Specifications.

PART 3 - EXECUTION

3.01 PIPE TRENCHES

A. Pipe Trenches shall be of necessary widths for the proper laying of the pipe, and the banks shall be as nearly vertical as practicable. The bottom of the trenches shall be excavated to a depth six inches below the outside bottom of the pipe barrel. The resulting excavation shall be backfilled with pipe bedding material up to the level of the lower one-third of the proposed pipe barrel. This backfill material shall be tamped and compacted to provide proper bedding for the pipe and shall then be shaped to receive the pipe. Bell holes and depressions for joints shall be dug after the trench bottom has been graded and in order that the pipe rest upon the prepared bottom for as nearly its full length as practicable, shall be only of such length, depth, and width as required for properly making the particular type of joint.

B. Removal of Unsuitable Material. When rock, boulders or other hard, lumpy or unyielding materials are encountered in the trench bottom, they shall be removed to a depth at least 12 inches below the bottom of the pipe. Muck or other soft material considered to be by the Engineer to be unsuitable as foundation for the pipe shall be removed to the depth required for obtaining a firm foundation. All material removed must be replaced by an acceptable bedding material approved by the Engineer or his representative. Removal and replacement of the unsuitable material is entirely the responsibility of the Contractor and he shall bear all costs thereof.

C. Pumping, Sheeting and Bracing. Where sheeting and bracing are necessary to prevent caving of the trench sidewalls or sidewalls of excavation for other structures, and to safeguard the workmen, the trench or excavation for other structures shall be dug to such width that the proper allowance is made for the space occupied by the sheeting and bracing.

A. After the bedding has been prepared and the pipe installed, backfilling of pipe trenches shall be done in strict accordance with Department of Transportation Standards and Specifications, Section 125-8.3, which requires backfilling to be done in three stages.

1. The first stage of backfilling requires that suitable fill be placed in six-inch layers (compacted thickness) up to the haunches of the pipe. Compaction shall be achieved via hand compaction or mechanical tampers assuming that mechanical compaction does not disturb or damage the pipe.

2. The second stage of compaction applies to the material along the sides of the pipe to a point at least a foot above the top of the pipe. It shall be installed in six-inch layers (compacted thickness) and be compacted with appropriate equipment.

3. The material to be installed in the trench above the second stage to the bottom of the subgrade or the finished surface of the embankment shall comprise the third stage of compaction. It shall be placed in one foot layers and compacted with appropriate equipment.

3.03 DENSITY REQUIREMENTS

A. Those requirements listed in Department of Transportation Standards and Specifications Section 125-8.32 shall be adhered to.

1. All backfill in roadway areas and around structures shall be compacted to ninety-eight percent (98%) modified proctor.

2. The only areas not requiring ninety-eight percent (98%) modified proctor compaction are those outside a 2 (horizontal) to 1 (vertical) slope downward from the roadway shoulder or back of the curb where no vehicular traffic shall pass. In these areas where backfill depth is less than ten feet over top of the pipe, the degree of compaction throughout shall be approximately equal to that of the soil adjacent to the pipe trench.

3. Where the fill depth is greater than ten feet over the top of the pipe, the fill placed around the pipe to one foot over top of the pipe shall be compacted to the density of surrounding soils.

4. The remainder shall be compacted to a density approximately equal to that of the soil adjacent to the pipe trench.

3.04 BACKFILL UNDER WET CONDITIONS

A. In instances where dewatering procedures are insufficient to adequately dewater trenches, the backfill procedures prescribed in Section 125-8.3.3 of Department of Transportation Standards and Specifications may be followed, if approved by the Engineer or his representative.

1. Under wet conditions a 6 - 8 inch layer of No. 57 aggregate shall serve as bedding material.

2. After pipe is properly bedded, soil of the A-3 soil classification shall be placed and hand compacted until such an elevation is reached that the soils moisture content will permit the use of mechanical tampers.

3. At this point normal backfill methods and materials may be used.

3.05 PIPE LAYING AND JOINTING

A. The grade as shown or indicated on the drawings is that of the invert and to which the work must conform. Any variation from this grade will be deemed sufficient reason to cause the work to be rejected and rebuilt to the Contractor's expense. If any difficulty is found in fitting the pieces together, this fitting is to be done on the surface before laying the pipe, and the tops plainly marked in the order in which they are to be laid. No pipe is to be trimmed or chipped to fit. Pipes having defects that hove not caused their rejection are to be so laid that these defects will be in the upper half of the sewer. A bell hole is to be cut for each piece. Each piece of pipe is to be solidly and evenly bedded and not simply wedged up. Before finishing each joint, some suitable device is to be used to find that the inverts coincide. Each pipe shall be laid to the line and grade shown or indicated on the drawings. All pipes shall be laid with bells or grooves uphill. As the pipes are laid throughout the work, they must be thoroughly cleaned and protected from dirt and water. No length of pipe shall be laid until the two preceding lengths have been thoroughly embedded in places so as to prevent any movement or disturbance of the finished joint. No walking on or working over the pipes after they are laid, except as may be necessary in tampering earth and refilling, will be permitted until they are covered to a depth of one foot. Whenever the pipe laying is discontinued, as at night, the unfinished end is to be securely protected from displacement by caving of the banks or from other injury and a suitable stopper is to be inserted therein.

B. Reinforced Concrete Pipe Joints. Joints for reinforced concrete pipe storm sewer or culverts shall be made using an approved preformed or molded rubber gasket. The gasket and the surface of the pipe joint, including the gasket recess, shall be clean and free from

grit, dirt, or other foreign matter at the time the joints are made. In order to facilitate closure of the joint, application of an approved vegetable soap lubricate immediately prior to closing of the joint will be permitted.

C. Reinforced Concrete Elliptical Pipe Joint. Pipe shall be laid with the longest dimensions placed horizontally. The tongue and groove sections of all pipe joints shall be pre-coated with Koppers 300 M or approved equal. Before joints are connected, bituminous stripping material ("Ram-Nek" or equal) shall be placed on the face of the tongue section of each pipe joint. The "Ram-Nek" should be placed around the entirely of the joint circumference and the strips shall overlap one another at least four inches. After then connection is made, non-woven filter fabric, Typar 3401, or approved equal, shall be wrapped around the pipe joint with a minimum of 18 inches of material on either side of the joint.

3.06 DRAINAGE STRUCTURES

A. Drainage structures shall be built at points shown on the drawings and in strict accordance with those shown on the drawings, or as designated by the Engineer. Construction details regarding drainage structures may be referred to in the Florida Department of Transportation "Roadway and Traffic Design Standards," latest edition. All standards regarding construction requirements and safety considerations shall be complied with and are the responsibility of the Contractor. Any discrepancies between the plan drawings and Department of Transportation Standards shall be referred to the Engineer or his representative.

B. Excavation for drainage structure shall be sufficient to provide a clearance between their surfaces and the face of the excavation or sheeting, if used, of not less than 12 inches. Backfill shall be placed as specified herein before. Unsuitable material uncovered at the footing elevation shall be excavated to suitable material and the excavation backfilled with pipe bedding material to the required elevation.

C. Brick masonry for manholes, inlets or other structures shall be built of brick and mortar of the specified quality. Every fifth course of brick shall be laid as stretchers, the remainder being laid as headers. Every brick shall have full mortar joints on the bottom and sides which shall have been formed at one operation by placing sufficient mortar on the head and forcing the brick into it. Horizontal joints shall not exceed 1/4 of an inch. All brick shall be thoroughly drenched with water immediately before being laid.

D. Precast inlet boxes or other structures may be used if approved by the Engineer. Castings and frames and grates of all structure where applicable shall be placed to final grade by the use of a leveling course of brick and mortar if necessary or may be set in mortar only provided the depth of mortar is not more than the depth of a course of brick and mortar.

3.07 ADDITIONAL WORK

A. Additional items of construction necessary for complete installation of the system shall conform to specific details on the drawings and shall be constructed of first-class materials conforming to the applicable portions of these specifications. All ends of sewer lines that are pending future connection shall be temporarily plugged and their end location marked properly with location markers.

B. Connections to existing structures shall be made without permanent damage to the existing work. Pipe openings cut in the existing structure walls shall be made water-tight with an approved grout and mortar.

PROJECT NOTES

Irrigation Contractor shall be responsible for all applicable fees and permits.

All Pipe and Wire under paving shall be placed in Schedule 40 P.V.C. Sleeves for the full pavement coverage length and shall be at least 24" below grade.

Mainlines shall be buried to provide a minimum cover of 18" while all Lateral lines shall have a minimum of 12".

The Contractor should take care to route piping as necessary to avoid plant or tree roots. and utilities.

All Project Main and Lateral Piping shall be only Schedule 40.

All Control Wiring to be 14/1 U.F. direct burial.

All Drip-Lines shall be site adjusted to provide water coverage to all bioscape surfaces.

The dripline has been designed for the following gudielines:

- Dripper Flow rate of 0.9 GPH
- Dripper Interval of 12"
- Techline Lateral Spacing of 16"
- Burial depth for evenly flow, maximum 6".

All Project Main and Lateral Piping shall be only Schedule 40.

ADDENDUM 1
ITB 07-25-CIP, BARRACUDA BOULEVARD ROADWAY ENHANCEMENT
April 8, 2025

TO ALL PROPOSERS:

Notice is hereby given to all Proposers that this is Addendum 1 to **ITB 07-25-CIP, Barracuda Boulevard Roadway Enhancement,** issued March 13, 2025.

This addendum is issued to answer vendor questions, clarify, add, delete, correct and/or change the proposal documents to the extent indicated and is hereby made a part of the above noted solicitation documents. Any modifications/changes made by this addendum affect only the portions or paragraphs specifically identified herein; all remaining portions of the proposal are to remain in force. It is the responsibility of all Applicants to conform to this addendum. Please note, questions are recorded as they are received, including grammar and spelling errors.

This addendum shall be considered part of the Contract Documents for the above-mentioned solicitation as though it had been issued at the same time and incorporated integrally therewith. Where provisions of the following supplementary data differ from those of the original document, this addendum shall govern and take precedence. All other terms, conditions, and regulations will apply.

This addendum impacts all vendors interested in submitting proposals for this solicitation.

Attachments: Geotech Permeability Report
Revised Bid Set

Questions/Answers:

1. **Question:** What is the engineer's estimate?

   Answer: The Engineers Estimate for probable cost was $416,215.00.

2. **Question:** Civil and Landscape plans note "do not scale drawings". Is there a scalable set of plans available?

   Answer: The Plans have since been revised to remove that note. The revised Civil Plans are attached with this Addendum.

3. **Question:** Will the contractor be expected to clean the existing 24" RCP storm drainage crossing?

   Answer: The contractor will not be responsible for cleaning the 24” RCP existing Storm Pipe.

4. **Question:** Is there a Geotech report available? It does not appear that Appendix A was included with the specifications**.**

   Answer: Yes, there was a Geotech report performed in 2022 by Bechtol Engineering and Testing Inc. which is attached to this Addendum.

5. **Question:** Part 2 Materials & Equipment of section 01 20 00 has a list of Bid Items and the work included with each bid item. Bid Item C5 ASPHALTIC CONCRETE W/ TACK COAT AND EXISTING STRIPING REPLACEMENT states "payment will be made at the contract per square yard unit price for full compensation for all materials and work necessary to complete the installation in accordance with the drawings and specification. No where in the contract does it illustrate the work associated with this item. Does this item include asphalt? If so, what is the thickness? What is the difference between bid item C5 and C6?

   Answer: Bid Items C5 and C6 are in correlation with each other and consist of the same work which includes milling and resurfacing the existing asphalt pavement. Bid item C6 states the thickness of the asphalt for Bid Item C5. The work associated with the Bid Items can be found on the Demo Plans, Sheet C-051 of the Civil Plan Set, which shows the area of what is getting milled. We are replacing the milled asphalt with Bid Item C5 ASPHALTIC CONCRETE W/ TACK COAT AND EXISTING STRIPING REPLACEMENT with a thickness of 1 ½" Wearing Surface.

6. **Question:** Bioswale Irrigation sheet L-111 states the contractor shall be responsible for the water meter and connection fee. How much does the City of New Smyrna Beach charge for the connection fee?

   Answer: The water meter and connection fee will be $1,000 to be coordinated with New Smyrna Beach Utilities.

7. **Question:** Part 2 Materials & Equipment of section 01 20 00 has a list of Bid Items and the work included with each bid item. Bid Item C6 1 ½" Wearing Surface outlines what the compensation includes (not limited to furnishing and placing concrete, epoxy coated reinforcing steel, joint filler and sealer, deck drains, bridge scupper, and any other material; erecting and removing all forms, curing concrete, pretecting concrete in wind, rain, low humidity, high temps or other unfavorable weather). Where in the plans does this scope apply

   Answer: Although some of the work described within Part 2 Materials and Equipment are not applicable, the intent is to cover the work associated with milling and resurfacing the roadway.

8. **Question:** If the contractor milling 1 3/4" and paving back a variable thickness lift for positive drainage, shouldn't the asphalt pay item be in tons to account for the varying thickness?

   Answer: The milling depth is 1 ½" and will be replaced with 1 ½" thick asphalt.

ALL OTHER AREAS OF THE BID DOCUMENT REMAINS THE SAME

Instructions: This page shall be signed and returned with the proposal. Please provide a signed copy of this addendum with your proposal.

BECHTOL ENGINEERING
AND TESTING, inc.

July 18, 2022
BET Project No. G22085

TO: Ms. Tonya Sonier, P.E.
Mead & Hunt
4401 Eastport Parkway
Port Orange, Florida 32127

RE: Soil Borings & Permeability Testing
Barracuda Boulevard Median Improvements
New Smyrna Beach, Volusia County, Florida

Dear Ms. Sonier:

As authorized, Bechtol Engineering and Testing, Inc. (BET) has conducted auger borings and field permeability/hydraulic conductivity testing at the subject site. The purpose of BET's borings and testing was to gain general insight as to the soil, groundwater and permeability characteristics in the areas of proposed stormwater management systems, and based on these characteristics to provide recommended design parameters for stormwater recovery analysis. Approximate locations of the borings and permeability tests performed are shown on the Boring Location Plan presented on the attached Figure 1. Encountered subsurface soils, encountered and estimated seasonal high groundwater levels, and applicable permeability data are summarized on the Soil Profiles, also shown on Figure 1.

Based on the encountered conditions, BET would recommend the following design parameters be utilized in stormwater system design and recovery analyses:

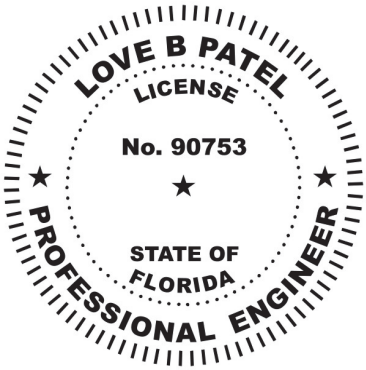
DESIGN PARAMETER	RECOMMENDED VALUE
ELEVATION OF EFFECTIVE AQUIFER BASE (FEET, NAVD88)	1.6
ELEVATION OF SEASONAL HIGH GROUNDWATER (FEET, NAVD88)	3.5
UNSATURATED VERTICAL HYDRAULIC CONDUCTIVITY (FPD)	3.9
SATURATED HORIZONTAL HYDRAULIC CONDUCTIVITY (FPD)	11.8

NOTES:
1. Elevations are based on interpolation of ground surface elevation at the boring locations from topographic data shown on Volusia County Lidar Mapping. Actual elevations may vary.
2. Recommended hydraulic conductivity rates are based on averages of the values measured in the field at two test locations.
3. Recommended aquifer base and seasonal high groundwater elevations are based on averages of the values measured and/or estimated in the field at two test locations.

The boring profiles depict subsurface conditions only at the specific locations drilled and to the termination depths noted. Permeability and hydraulic conductivity rates noted are based on actual field measured parameters and do not incorporate any factor of safety for design.

The services requested and performed are for the sole purpose of aiding the design engineer in evaluating and designing stormwater management systems. Variations in subsurface conditions not disclosed by the borings and testing performed may occur, and could influence the performance and construction of such systems.

BET appreciates the opportunity to be of service, and trusts this information is complete and sufficient for your needs. If you should have any questions or if BET may be of further service, please do not hesitate to call.



Respectfully,

Bechtol Engineering and Testing, Inc.

GENERAL NOTES:

1. CONTRACTOR SHALL FIELD VERIFY ALL EXISTING CONDITIONS AND ELEVATIONS PRIOR TO COMMENCING CONSTRUCTION.
2. UTILITIES & STRUCTURES AS SHOWN ON PLANS HAVE BEEN LOCATED FROM AVAILABLE RECORDS, BUT IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO ASCERTAIN THE LOCATION OF ALL UTILITIES AND STRUCTURES TO BE ENCOUNTERED IN THE WORK AND TO AVOID CONFLICT WITH EXISTING FACILITIES.
3. THE OWNER SHALL NOT BE HELD RESPONSIBLE FOR INACCURACIES OR OMISSIONS IN THE LOCATION, ELEVATION AND DIMENSIONS OF EXISTING UTILITIES, STRUCTURES AND/ OR OTHER EXISTING FEATURES.
4. THE CONTRACTOR SHALL CONTACT THE ENGINEER IMMEDIATELY UPON DISCOVERY OF ANY CONFLICTS DURING CONSTRUCTION OF THE IMPROVEMENTS SHOWN ON THESE DRAWINGS.
5. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL DAMAGE TO, AND REPLACEMENT OF, EXISTING UTILITIES. REPLACEMENT SHALL BE TO THE COMPLETE SATISFACTION OF THE ENGINEER, CITY AND UTILITY OWNER.
6. THE CONTRACTOR SHALL PRESERVE FROM DAMAGE ALL PROPERTY THAT IS IN THE VICINITY, OR IS IN ANY WAY AFFECTED BY THE WORK. THE REMOVAL OF OR DESTRUCTION OF PROPERTY WHICH IS NOT CALLED FOR BY THE PLANS, SHALL BE IMMEDIATELY RESTORED TO ITS ORIGINAL CONDITION BY THE CONTRACTOR AT NO COST TO THE OWNER.
7. THE CONTRACTOR SHALL PROVIDE FORTY-EIGHT (48) HOURS NOTICE TO THE VARIOUS UTILITY OWNERS PRIOR TO BEGINNING CONSTRUCTION.
8. ALL UTILITY OUTAGES SHALL BE COORDINATED WITH AND APPROVED BY THE SUPERINTENDENT OF THE DEPARTMENT AFFECTED, PRIOR TO OUTAGE.
9. THE CONTRACTOR SHALL CONDUCT WORK AS TO INSURE LEAST POSSIBLE OBSTRUCTION TO TRAFFIC, AND INCONVENIENCE TO THE GENERAL PUBLIC AND/OR THE RESIDENTS IN THE VICINITY OF THE WORK AND TO INSURE THE PROTECTION OF PERSONS AND PROPERTY. NO ROAD SHALL BE CLOSED TO THE PUBLIC EXCEPT WITH THE APPROVAL OF THE ENGINEER AND THE PROPER GOVERNMENTAL AUTHORITIES.
10. THE CONTRACTOR SHALL EMPLOY A LAND SURVEYOR, REGISTERED IN THE STATE OF FLORIDA, TO REFERENCE AND RESTORE PROPERTY CORNERS AND LAND MARKERS WHICH MAY BE DISTURBED BY CONSTRUCTION AND TO ASSURE ACCURATE HORIZONTAL AND VERTICAL CONTROLS DURING CONSTRUCTION.
11. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING EFFECTIVE DRAINAGE AND EROSION CONTROL DURING CONSTRUCTION AND RESTORATION. TEMPORARY PROVISIONS SHALL BE MADE TO INSURE THE PROPER FUNCTIONING OF ALL SWALES, INLETS AND DRAINAGE DITCHES.
12. RIGHT-OF-WAY RESTORATION IS TO BE CONDUCTED CONCURRENTLY WITH CONSTRUCTION AS DIRECTED BY THE ENGINEERS. THE ENGINEER SHALL HAVE AUTHORITY TO SUSPEND CONSTRUCTION WORK WHEN RESTORATION IS NOT BEING ADEQUATELY PERFORMED ACCORDING TO THE CONTRACT DOCUMENTS OR BEST MANAGEMENT PRACTICES (BMP). ALL DISTURBED AREAS ARE TO BE RESTORED TO PRE-CONSTRUCTION OR BETTER CONDITION. ALL AREAS DISTURBED BY CONSTRUCTION SHALL BE SODDED TO MATCH EXISTING SPECIES AND VARIETY OF GRASS. PIPE INSTALLATION UNIT PRICE SHALL INCLUDE RESTORATION AND SODDING. NO SEEDING SHALL BE PERMITTED.
13. THE CONTRACTOR SHALL FURNISH, ERECT AND MAINTAIN ALL NECESSARY TRAFFIC CONTROL AND SAFETY DEVICES IN ACCORDANCE WITH THE U.S. DEPARTMENT OF TRANSPORTATION'S "MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES" AND FLORIDA DEPARTMENT OF TRANSPORTATION'S "STANDARD PLANS" (LATEST EDITIONS) AND SECTION 102 OF THE "STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION" (LATEST EDITION).
14. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY AND THE CONTRACTOR'S EXPENSE TO PROVIDE THE ENGINEER WITH "AS-BUILT" DRAWINGS OF CONSTRUCTION IN AUTOCAD FORMAT. DRAWINGS SHALL CONTAIN SPECIFIC LOCATION OF ALL WATER MAINS, FORCE MAINS AND RECLAIMED WATER MAINS, VALVES, SERVICES AND OTHER WORK PERFORMED BY CONTRACTOR. SEE CONTRACT DOCUMENTS FOR ADDITIONAL INFORMATION AND REQUIREMENTS FOR AS-BUILT DRAWINGS.
15. PIPE BEDDING SHALL BE CLASS I SOIL COMPACTED IN 6" LAYERS TO A HEIGHT OF 12" ABOVE PIPE, 12" LAYERS ARE ACCEPTABLE FROM 12" ABOVE PIPE TO FINISH GRADE, COMPACTED TO 95% OF MODIFIED PROCTOR DENSITY (AASHTO-T-18). PIPE TO BE LAID ON FIRM FOUNDATION.
16. COMPACTION TEST TO BE TAKEN AT POINTS ONE (1) FOOT ABOVE PIPE AND ONE (1) FOOT VERTICAL INTERVALS TO FINISH GRADE AND AT HORIZONTAL SPACING OF THREE HUNDRED (300) FEET BY A CERTIFIED THIRD PARTY INSPECTOR. CONTRACTOR SHALL BE RESPONSIBLE FOR SCHEDULING, COORDINATION AND ALL LAB TESTING FEES.
17. ADEQUATE EXCAVATION, SHEETING, SHORING AND BRACING SHALL BE PROVIDED AND SHALL CONFORM TO CONSTRUCTION REQUIREMENTS AS SET FORTH BY THE FEDERAL DEPARTMENT OF LABOR, OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION (OSHA).
18. PROVISIONS FOR DEWATERING SHALL BE MADE TO KEEP GROUNDWATER ELEVATION A MINIMUM OF 6" BELOW THE PIPE BEING INSTALLED.
19. LENGTHS OF PIPE ARE APPROXIMATE ONLY AND EXACT LENGTHS ARE TO BE DETERMINED IN THE FIELD.
20. ALL FILLING TO BE PERFORMED IN ONE-FOOT LIFTS. THE COMPACTION REQUIREMENT IS 98% PER AASHTO T-180 FOR PAVED AREAS AND 95% FOR UNPAVED AREAS.
21. REMOVE & REPLACE CONCRETE DRIVEWAY PER CITY STANDARD, OR AS DIRECTED BY OWNER'S REPRESENTATIVE.
22. PAVEMENT OVERLAY PRICING SHALL INCLUDE VALVE BOX AND MANHOLE ADJUSTMENT AND RESTORATION OF STRIPING AND MARKINGS.
23. CONTRACTOR SHALL CALL FOR UTILITY LOCATES AT LEAST 48 HOURS PRIOR TO CONSTRUCTION. ALL CITY LOCATES SHALL BE THROUGH THE ENGINEER'S REPRESENTATIVE.
24. ACCESS FOR RESIDENTS, POSTAL SERVICE AND SOLID WASTE COLLECTORS SHALL BE CONTINUOUSLY PROVIDED, SECURED AND MAINTAINED DURING PROJECT.
25. IF ANY MUCK OR MUCK-LIKE MATERIAL IS DISCOVERED, IT SHALL BE REMOVED, BACKFILLED WITH CLEAN FILL, COMPACTED, AND TESTED USING AASHTO T-180 MODIFIED PROCTOR METHOD.
26. NO BURYING OF ANY ORGANIC MATERIALS IS PERMITTED.
27. SOILS ARE TO BE STABILIZED BY WATERING OR OTHER MEANS DURING CONSTRUCTION. THIS IS INTENDED TO REDUCE SOIL EROSION AND DUST IMPACTS TO NEIGHBORING COMMUNITIES.
28. UPON COMPLETION OF EACH PORTION OF A PROJECT WITHIN A PHASE OF THE PROJECT, SODDING IS TO BE PERFORMED PRIOR TO COMMENCING THE NEXT PHASE.
29. ONCE AN AREA IS SODDED, IT MUST BE MAINTAINED AND PROTECTED UNTIL THE GRASS IS ESTABLISHED.
30. CONTRACTOR SHALL BE REQUIRED TO COMPLETE UTILITY CONNECTIONS TO EXISTING FACILITIES THAT REQUIRE "SHUTDOWNS" DURING NIGHTTIME HOURS AFTER 11:00 P.M. AND TO COORDINATE SUCH WORK WITH THE CITY.
31. CONTRACTOR SHALL BE RESPONSIBLE FOR COORDINATING AND PAYING ALL COST ASSOCIATED WITH TEMPORARY BRACING OF UTILITY POLES. (EXISTING AND PROPOSED)
32. CONTRACTOR SHALL ALLOW FOR UP TO 3 WEEKS FOR REMOVAL OF EXISTING PRIVATE UTILITIES BY PRIVATE UTILITY COMPANIES AFTER THE ENTRANCE IS CLOSED TO TRAFFIC. CONTRACTOR SHALL COORDINATE THIS WORK.
33. IT SHALL BE THE CONTRACTORS RESPONSIBILITY TO PRODUCE A "STORM WATER POLLUTION PREVENTION PLAN" (SWPPP) AND OBTAIN COVERAGE UNDER THE "NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM" (NPDES) PERMIT BEFORE CONSTRUCTION PROCEEDS. A CONSTRUCTION GENERAL PERMIT (CGP) NOTICE OF INTENT (NOI) SHALL BE COMPLETED AND SUBMITTED TO THE FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION. FOR MORE INFORMATION, VISIT THE FOLLOWING WEBSITE: https://floridadep.gov/water/stormwater/content/construction-activity-cgp
34. BASELINE STATIONING SHOWN ON THESE PLANS ARE FOR REFERENCE AND INFORMATIONAL PURPOSES ONLY AND SHOULD NOT BE USED FOR PROJECT SITE SURVEY LAYOUT OR DIMENSIONING.
35. LOCATION OF SOME UTILITY FEATURES HAVE BEEN SHOWN IN ASSUMED LOCATIONS.
36. CONTRACTOR SHALL FIELD ADJUST PROPOSED GRADES AS NECESSARY TO ELIMINATE THE PROBABILITY OF WATER PONDING AREAS.
37. CONTRACTOR SHALL CUT BACK AND/ OR REMOVE TREES, SHRUBS AND BRANCHES ALONG THE ENTIRE ROUTE AS NECESSARY TO PROVIDE CLEAR CONSTRUCTION AREAS.
38. ALL UNDERGROUND UTILITIES HAVE NOT BEEN LOCATED. HORIZONTAL AND VERTICAL DATA IS BASED ON THE BEST INFORMATION AVAILABLE AND SHOULD BE CONSIDERED APPROXIMATE. IT IS POSSIBLE THAT CERTAIN UTILITIES MAY EXIST WHICH ARE NOT SHOWN ON THE PLANS. THE CONTRACTOR IS RESPONSIBLE FOR CALLING IN LOCATES AND LOCATING ALL UTILITIES PRIOR TO CONSTRUCTION WORK STARTING.
39. ALL WORK PERFORMED ON ANY UTILITY SYSTEM OR SYSTEM COMPONENT THAT IS OWNED OR PROPOSED TO BE OWNED BY THE CITY SHALL BE PERFORMED BY AN EXPERIENCED UNDERGROUND UTILITY CONTRACTOR LICENSED IN THE STATE OF FLORIDA.
40. ALL DISPLACED SIGNS SHALL BE RELOCATED IN EQUAL OR BETTER THAN PRE-CONSTRUCTION CONDITION AT THEIR EXISTING STATION ACCORDING TO F.D.O.T. ROADWAY AND TRAFFIC DESIGN STANDARDS (LATEST EDITION) UNLESS OTHERWISE NOTED IN THE PLANS.
41. SIGNS THAT ARE REMOVED AND ARE TO BE RELOCATED SHALL BE STOCK PILED BY THE CONTRACTOR. ANY EXISTING SIGNS DAMAGED DURING CONSTRUCTION SHALL BE REPLACED BY THE CONTRACTOR AT HIS COST.
42. ALL EXISTING DRAINAGE STRUCTURES AND UTILITIES WITHIN THE CONSTRUCTION LIMITS SHALL REMAIN, UNLESS OTHERWISE NOTED IN PLANS.
43. ALL STORM SEWER LINES AND INLETS SHALL BE CLEANED OF DEBRIS AND ERODED MATERIALS AT LAST STAGES OF CONSTRUCTION.
44. ANY DRAINAGE PROBLEMS CREATED BY CONSTRUCTION, OR EXISTING BEFORE CONSTRUCTION AND NOT ALLEVIATED, SHOULD BE BROUGHT TO THE ATTENTION OF THE NEW SMYRNA BEACH ENGINEERING DEPARTMENT AT THE TIME OF DISCOVERY.
45. THE CONTRACTOR SHALL BE RESPONSIBLE FOR COMPLIANCE WITH ALL LOCAL, STATE AND FEDERAL REGULATIONS AS WELL AS THE REQUIREMENTS OF ST. JOHNS RIVER WATER MANAGEMENT DISTRICT. CONTRACTOR SHALL ESTABLISH BEST MANAGEMENT AND EROSION CONTROL METHODS PRIOR TO COMMENCING ANY SITE CLEARING OR DEMOLITION AND SHALL MAINTAIN THOSE BARRIERS UNTIL FINAL ACCEPTANCE OF THE PROJECT. INLETS SHALL BE PROTECTED FROM RECEIVING SILTY RUNOFF BY MEANS ACCEPTABLE TO THE CITY.
46. ALL DELINEATED WETLAND AREAS SHALL BE STAKED AND FENCED WITH TYPE III SILT FENCING PRIOR TO CONSTRUCTION. FENCING SHALL NOT BE REMOVED UNTIL ALL CONSTRUCTION IS COMPLETED. LIMITS OF SILT FENCE SHOWN ON PLANS ARE APPROXIMATE AND ARE TO BE ADJUSTED AS NECESSARY TO MEET FIELD CONDITIONS AS DIRECTED BY THE ENGINEER.
47. THE EROSION, SEDIMENT, AND TURBIDITY CONTROL MEASURES DELINEATED HEREON ARE THE MINIMUM REQUIRED. ADDITIONAL CONTROLS MAY BE NEEDED, DEPENDING UPON THE ACTUAL SITE CONDITIONS, JURISDICTIONAL AGENCY PERMIT REQUIREMENTS AND CONSTRUCTION OPERATIONS. STAKED SILT FENCE SHALL BE UTILIZED TO CONTROL EROSION AND RELEASE OF SUSPENDED SOLIDS AND SEDIMENT TRACKING CONTROL DEVICES SHALL BE USED TO PREVENT THE OFFSITE TRANSPORT OF SEDIMENT BY MOTORIZED VEHICLES. IF CONTROL MEASURES DO NOT PROVE SATISFACTORY, WORK SHALL CEASE UNTIL NEW MEASURES ARE ADOPTED WITH SATISFACTORY RESULTS.
48. ALL EROSION AND SEDIMENT TRACKING CONTROL DEVICES SHALL BE INSPECTED DAILY AND IMMEDIATELY FOLLOWING A RAINFALL EVENT. ANY DEFICIENCIES FOUND IN THE EROSION CONTROL MEASURES SHALL BE REPAIRED IMMEDIATELY. THE CONTRACTOR SHALL KEEP A LOG BOOK DOCUMENTING THESE DAILY INSPECTIONS, DEFICIENCIES AND REMEDIAL ACTIONS.
49. ALL UNSUITABLE SOILS AND UNSUITABLE MATERIALS (SUCH AS CLAY, ORGANICS, ROCK, CEMENTED COQUINA, DEBRIS, ETC...) SHALL BE REMOVED, DISPOSED OF AND REPLACED WITH DRY COMPACTED GRANULAR MATERIAL SATISFACTORY TO THE CITY. THE COST OF THE WORK AND MATERIALS IS TO BE INCLUDED IN THE UNIT PRICE OF THE ASSOCIATED PAY ITEMS. ROCK EASILY MOVED WITH A STANDARD EXCAVATOR AND ABLE TO BE CO-MINGLED WITH BACKFILL MATERIAL SHALL NOT BE ELIGIBLE FOR UNSUITABLE MATERIAL PAYMENT.
50. ROCK AND CEMENTED COQUINA OR OTHER MATERIALS UNSUITABLE FOR BACKFILL SHALL BE DISPOSED OF BY THE CONTRACTOR AT NO ADDITIONAL COST TO THE OWNER.
51. MAINTENANCE OF TRAFFIC: THE CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING VEHICULAR AND PEDESTRIAN TRAFFIC SAFELY THROUGH THE WORK ZONE AT ALL TIMES. ANY SIDEWALK, LANE OR ROAD CLOSURE REQUIRES REVIEW AND APPROVAL IN ADVANCE AND A SEVEN (7) DAY MINIMUM NOTICE TO THE CITY OF NEW SMYRNA BEACH. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE REQUIRED COORDINATION.
52. MAINTENANCE OF TRAFFIC WILL BE IN ACCORDANCE WITH THE "MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES FOR STREETS AND HIGHWAY CONSTRUCTION, MAINTENANCE AND UTILITY OPERATIONS" AND "THE FDOT ROADWAY AND TRAFFIC DESIGN STANDARDS" LATEST EDITIONS.
53. ALL CONSTRUCTION IN THE FDOT ROW SHALL CONFORM TO THE LATEST EDITIONS OF THE FDOT DESIGN STANDARDS (INDEXES), THE FDOT STANDARD FOR ROAD AND BRIDGE CONSTRUCTION, AND THE FDOT UTILITY ACCOMMODATION MANUAL.
54. IN CASES WHERE THE CIVIL SITE PLANS AND THE LANDSCAPE SITE PLANS CONFLICT, CIVIL SITE PLANS WILL SUPERCEDE THE LANDSCAPE SITE PLANS.

MILL AND OVERLAY NOTES:

1. IT WILL BE NECESSARY TO "OVER MILL" IN SOME AREAS OF THIS PROJECT TO ACCOMPLISH THE GRADES INDICATED ON THE PLANS. CONTRACTOR SHALL CHECK DEPTH OF EXISTING ASPHALT PAVING IN THESE AREAS FOR ADEQUATE ASPHALT BASE. IF ASPHALT BASE IS NOT ADEQUATE FOR OVER MILLING AND REPLACEMENT OF NEW ASPHALT TO ACCEPTABLE STANDARDS, IT MAY BE NECESSARY TO REMOVE ASPHALT BASE AND BASE MATERIALS TO BUILD BACK TO NOTED GRADE ELEVATIONS.
2. WHEN "OVER MILLING", CONTRACTOR SHALL MILL GRADUALLY DEEPER, SO AS TO MAINTAIN A DRIVING SURFACE FREE FROM WASHBOARD EFFECT.
3. LIMITS OF "PAVING" SHALL BE TO PROPOSED CURBING, EDGE OF ROAD PAVEMENT OR AS OTHERWISE NOTED.
4. CONTRACTOR SHALL FURNISH AND INSTALL MANHOLE, INLET, POTABLE WATER, AND FORCE MAIN VALVE BOX PAVING RISERS AS NEEDED. SEPARATE PAYMENT FOR THIS WILL BE MADE.
5. ESTIMATED MILLING DEPTHS ARE SHOWN ON PLANS. ENGINEER SHALL DIRECT CONTRACTOR OF EXACT MILLING DEPTHS/PROFILES IN THE FIELD. CONTRACTOR ACKNOWLEDGES THAT THE MILLING DEPTH MAY VARY.
6. CONTRACTOR SHALL REMOVE/SALVAGE/REPLACE BLUE REFLECTIVE PAVEMENT MARKERS AT ALL FIRE HYDRANT LOCATIONS.
7. ALL EXISTING STRIPING TO BE REPLACED. ALL REPLACEMENT STRIPING TO BE THERMOPLASTIC. .
8. PRE MILLING ACTIVITY BY THE CONTRACTOR (IF REQUIRED) SHALL INCLUDE: COORDINATION OF ASPHALT BORING; CONSULTATION WITH ENGINEER TO DETERMINE REQUIRED MILLING DEPTHS; PROTECTION OF STORM INLETS WITH HAY BALES OR OTHER ACCEPTABLE MEANS; AND ENGINEER APPROVAL OF MAINTENANCE OF TRAFFIC PLAN.
9. PRIOR TO RESURFACING/OVERLAY WORK, A PRE-PAVING INSPECTION SHALL BE CONDUCTED BY THE ENGINEER ON EACH STREET. THE FOLLOWING ITEMS SHALL BE VERIFIED TO BE COMPLETE PRIOR TO APPROVAL TO START RESURFACING/ OVERLAY: ALL MANHOLES, VALVES ETC. ADJUSTED; ALL CURB TO BE REPLACED COMPLETE; ALL INLETS TO BE ADDRESSED; ALL AREAS STABILIZED FOR ACCEPTANCE OF ASPHALT; AND PUBLIC SERVICES (GARBAGE, ETC.) COORDINATION.
10. CONTRACTOR SHALL INCLUDE THE WORK NECESSARY TO "CLIP" EXISTING VEGETATION FROM THE PAVEMENT BEFORE RESURFACING.
11. WHEN RESURFACING BEGINS, IT WILL BE NECESSARY TO "BUILD-UP" SOME AREAS OF THIS PROJECT TO ACCOMPLISH THE GRADES INDICATED ON THE PLANS. THESE BUILD-UP AREAS SHALL BE GRADUAL IN SLOPE TO MAINTAIN A DRIVING SURFACE FREE FROM WASHBOARD EFFECT.

MAINTENANCE OF TRAFFIC NOTES:

1. CONTRACTOR SHALL PROVIDE ALL MOT, INCLUDING SIGNAGE AND FLAGGERS. MOT SHALL BE IN ACCORDANCE WITH FDOT INDEX 102.
2. THE MIDDLE WAY INTERSECTION SHALL NOT BE CLOSED OR SHUT DOWN AT ANY TIME. MOT OF THE INTERSECTION SHALL BE PERMITTED TO A ONE LANE CLOSURE IN ACCORDANCE WITH FDOT INDEX 102-603.
3. BARRACUDA BLVD. IS PERMITTED FOR SHUTDOWN AT AND BETWEEN E. CIR DRIVE UP TO THE MIDDLE WAY. CONTRACTOR SHALL PROVIDE ALL SIGNAGE FOR DETOURS TO THE MIDDLE WAY (FROM THE NORTH CAUSEWAY) AND THE ALTERNATE DRIVEWAY FOR ACCESS TO BUSINESSES ALONG THE SHUTDOWN PORTION OF BARRACUDA BLVD.

PLAT OF SPECIFIC PURPOSE SURVEY OF

"BARRACUDA BOULEVARD"
NEW SMYRNA BEACH, VOLUSIA COUNTY, FLORIDA

SURVEY REPORT:

1. Limits and scope of Specific Purpose Survey identified by Tonya Sonier, PE, Mead and Hunt, Inc.
2. Bearings refer to the Florida State Plane Coordinate System - East Zone, NAD 83 (1990 adjustment) and based on the East line of Lot 39, Venezia Unit 1 (Map Book 23, Page 212(and being North 37° 59' 29" West.
3. Subject to restrictions, reservations, limitations, easements and rights of way, if any, appearing of record.
4. This map of survey and report prepared without the benefit of an abstract and no title work has been performed or provided to this surveyor.
5. This map of survey and report is subject to any facts that may be disclosed by a full and accurate title search.
6. The location of any subsurface foundations, improvements, features or utilities which may or may not exist and which may or may not violate deed or easement lines are not determined or addressed by this survey.
7. Dimensions indicated hereon are in U.S. standard feet and decimals thereof, unless otherwise noted.
8. Elevations indicated hereon are in U.S. standard feet and decimals referenced to **North American Vertical Datum 1988** (NAVD 88) and are based on National Geodetic Survey monument "E 652", published elevation 6.61 feet.
9. Coordinates shown hereon refer to the Florida State Plane Coordinate System - East Zone, NAD 83 (1990 adjustment).
10. Features shown by symbol as indicated are not to scale.
11. Drawing distance between features and property line may be exaggerated for clarity.
12. Unless otherwise noted, the monumentation has no identification number or name.
13. The locations of existing underground facilities shown on this plat are **approximate**. The information is based on the facility owner's record drawing and/or field location work done by this surveyor. The approximate locations of utilities drawn from record drawings are subject to interpretation. Underground location was requested from "Call Sunshine" by client. This surveyor did no exploratory excavation. It is the contractor's responsibility to locate all underground facilities prior to construction. Contractor/Owner to verify underground location by "Call Sunshine" 1-800-432-4770, prior to construction.
14. NOTE: abandoned, underground utilities, if any, not located.
15. The intended topographic features located and shown on this survey are those, which are among the intended features list shown hereon and are observable by above ground visual observation.
16. Trees ≥6" dbh (diameter at breast height, inches) ONLY located within the right of ways. Palms trees ≤ 15-feet tall were not located.
17. Irrigation systems not located.
18. Additions or deletions to this survey map or report by other than the signing party or parties is prohibited without written consent of the signing party or parties per F.A.C. Rule 5J-17.051(3)(b)6.
19. The survey map and report or copies thereof are not valid without the signature and the original raised seal of a Florida licensed surveyor and mapper.

C-021

X:\1000712\211418.02\TECH\CAD\DRAWINGS\C-021 EROSION CONTROL PLAN.DWG
4/1/2025 10:42:08 AM

SEDIMENT AND EROSION CONTROL NOTES:

EROSION AND SEDIMENT CONTROL MEASURES SHALL COMPLY WITH MINIMUM STANDARDS ADAPTED IN THE STORMWATER MANAGEMENT CRITERIA ADOPTED BY THE CITY AND ST JOHNS RIVER WATER MANAGEMENT DISTRICT. SOME OF THESE STANDARDS ARE AS FOLLOWS:

1. SEDIMENT BASINS AND TRAPS, PERIMETER DIKES, SEDIMENT BARRIERS AND OTHER MEASURES INTENDED TO TRAP SEDIMENT SHALL BE CONSTRUCTED AS A FIRST STEP IN ANY LAND-DISTURBING ACTIVITY AND SHALL BE MADE FUNCTIONAL BEFORE UP-SLOPE LAND DISTURBANCE TAKES PLACE.

2. ALL SEDIMENT CONTROL MEASURES ARE TO BE ADJUSTED TO MEET FIELD CONDITIONS AT THE TIME OF CONSTRUCTION AND BE CONSTRUCTED PRIOR TO ANY GRADING OR DISTURBANCE OF EXISTING SURFACE MATERIAL ON BALANCE OF SITE. PERIMETER SEDIMENT BARRIERS SHALL BE CONSTRUCTED TO PREVENT SEDIMENT OR TRASH FROM FLOWING OR FLOATING ONTO ADJACENT PROPERTIES.

3. PERMANENT OR TEMPORARY SOIL STABILIZATION SHALL BE APPLIED TO DENUDED AREAS WITHIN SEVEN DAYS AFTER FINAL GRADE IS REACHED ON ANY PORTION OF THE SITE. TEMPORARY SOIL STABILIZATION SHALL BE APPLIED WITHIN SEVEN DAYS TO DENUDED AREAS THAT MAY NOT BE AT FINAL GRADE BUT WILL REMAIN UNDISTURBED FOR LONGER THAN 30 DAYS. PERMANENT STABILIZATION SHALL BE APPLIED TO AREAS THAT ARE TO BE LEFT UNDISTURBED FOR MORE THAN ONE YEAR.

4. A PERMANENT VEGETATIVE COVER SHALL BE ESTABLISHED ON DENUDED AREAS NOT OTHERWISE PERMANENTLY STABILIZED. PERMANENT VEGETATION SHALL NOT BE CONSIDERED ESTABLISHED UNTIL A GROUND COVER IS ACHIEVED THAT IS UNIFORMLY MATURE ENOUGH TO SURVIVE AND INHIBIT EROSION.

5. SURFACE RUNOFF FROM DISTURBED AREAS THAT IS COMPRISED OF FLOW FROM DRAINAGE AREAS GREATER THAN OR EQUAL TO THREE ACRES SHALL BE CONTROLLED BY A SEDIMENT BASIN. THE SEDIMENT BASIN SHALL BE DESIGNED AND CONSTRUCTED TO ACCOMMODATE THE ANTICIPATED SEDIMENT LOADING FROM THE LAND-DISTURBING ACTIVITY. THE OUTFALL DEVICE OR SYSTEM DESIGN SHALL TAKE INTO ACCOUNT THE TOTAL DRAINAGE AREA FLOWING THROUGH THE DISTURBED AREA TO BE SERVED BY THE BASIN.

6. AFTER ANY RAINFALL, SEDIMENT CONTROL STRUCTURES WILL BE INSPECTED FOR INTEGRITY. ANY DAMAGED DEVICES SHALL BE CORRECTED IMMEDIATELY.

7. CONCENTRATED RUNOFF SHALL NOT FLOW DOWN CUT OR FILL SLOPES UNLESS CONTAINED WITHIN AN ADEQUATE TEMPORARY OR PERMANENT CHANNEL, FLUME OR SLOPE DRAIN STRUCTURE.

8. WHENEVER WATER SEEPS FROM A SLOPE FACE, ADEQUATE DRAINAGE OR OTHER PROTECTION SHALL BE PROVIDED.

9. SEDIMENT WILL BE PREVENTED FROM ENTERING ANY STORM DRAIN SYSTEM, DITCH OR CHANNEL. ALL STORM SEWER INLETS THAT ARE MADE OPERABLE DURING CONSTRUCTION SHALL BE PROTECTED SO THAT SEDIMENT-LADEN WATER CANNOT ENTER THE CONVEYANCE SYSTEM WITHOUT FIRST BEING FILTERED OR OTHERWISE TREATED TO REMOVE SEDIMENT.

10. BEFORE TEMPORARY OR NEWLY CONSTRUCTED STORMWATER CONVEYANCE CHANNELS ARE MADE OPERATIONAL, ADEQUATE OUTLET PROTECTION AND ANY REQUIRED TEMPORARY OR PERMANENT CHANNELING SHALL BE INSTALLED IN BOTH THE CONVEYANCE CHANNEL AND RECEIVING CHANNEL.

11. WHEN WORK IN A LIVE WATERCOURSE IS PERFORMED, PRECAUTIONS SHALL BE TAKEN TO MINIMIZE ENCROACHMENT, CONTROL SEDIMENT TRANSPORT AND STABILIZE THE WORK AREA DURING CONSTRUCTION.

12. THE BED AND BANKS OF A WATERCOURSE SHALL BE STABILIZED IMMEDIATELY AFTER WORK IN THE WATERCOURSE IS COMPLETED.

13. PERIODIC INSPECTION AND MAINTENANCE OF ALL SEDIMENT CONTROL STRUCTURES MUST BE PROVIDED TO ENSURE THAT THE INTENDED PURPOSE IS ACCOMPLISHED. THE DEVELOPER, OWNER AND/OR CONTRACTOR SHALL BE CONTINUALLY RESPONSIBLE FOR ALL SEDIMENT LEAVING THE PROPERTY. SEDIMENT CONTROL MEASURES SHALL BE IN WORKING CONDITION AT THE END OF EACH WORKING DAY.

14. WHERE CONSTRUCTION VEHICLE ACCESS ROUTES INTERSECT PAVED PUBLIC ROADS, PROVISION SHALL BE MADE TO MINIMIZE THE TRANSPORT OF SEDIMENT BY TRACKING ONTO THE PAVED SURFACE. THE ROAD SHALL BE CLEANED THOROUGHLY AT THE END OF EACH DAY.

15. ALL TEMPORARY EROSION AND SEDIMENT CONTROL MEASURES SHALL BE REMOVED WITHIN 30 DAYS AFTER FINAL SITE STABILIZATION OR AFTER THE TEMPORARY MEASURES ARE NO LONGER NEEDED. DISTURBED SOIL AREAS RESULTING FROM THE DISPOSITION OF TEMPORARY MEASURES SHALL BE PERMANENTLY STABILIZED TO PREVENT FURTHER EROSION AND SEDIMENTATION.

16. PROPERTIES AND WATERWAYS DOWNSTREAM FROM CONSTRUCTION SITES SHALL BE PROTECTED FROM SEDIMENT DEPOSITION AND EROSION.

17. A SOIL TRACKING PREVENTION DEVICE (STPD) SHALL BE CONSTRUCTED AT LOCATIONS DESIGNATED BY THE ENGINEER FOR POINTS OF EGRESS FROM UNSTABILIZED AREAS OF THE PROJECT TO PUBLIC ROADS WHERE OFF-SITE TRACKING OF MUD COULD OCCUR. TRAFFIC FROM UNSTABILIZED AREAS OF THE CONSTRUCTION PROJECT SHALL BE USED AS REQUIRED TO LIMIT AND DIRECT VEHICULAR EGRESS ACROSS THE STPD.

18. THE CONTRACTOR MAY PROPOSE AN ALTERNATIVE TECHNIQUE TO MINIMIZE OFF-SITE TRACKING OF SEDIMENT. THE ALTERNATIVE MUST BE REVIEWED AND APPROVED BY THE ENGINEER PRIOR TO ITS USE.

19. ALL MATERIALS SPILLED, DROPPED, OR TRACKED ONTO PUBLIC ROADS (INCLUDING THE STPD AGGREGATE AND CONSTRUCTION MUD) SHALL BE REMOVED DAILY, OR MORE FREQUENTLY IF SO DIRECTED BY THE ENGINEER.

20. AGGREGATES SHALL BE AS DESCRIBED IN SECTION 901 EXCLUDING 901-2.3. AGGREGATES SHALL BE FDOT SIZE #1. IF THIS SIZE IS NOT AVAILABLE, THE NEXT AVAILABLE SMALLER SIZE AGGREGATE MAY BE SUBSTITUTED WITH THE APPROVAL OF THE ENGINEER. SIZES CONTAINING EXCESSIVE SMALL AGGREGATE WILL TRACK OFF THE PROJECT AND ARE UNSUITABLE.

21. THE SEDIMENT PIT SHOULD PROVIDE A RETENTION VOLUME OF 3600 CUBIC FEET/ACRE OF SURFACE AREA DRAINING TO THE PIT.
    WHEN THE STPD IS ISOLATED FROM OTHER DRAINAGE AREAS, THE FOLLOWING PIT VOLUMES WILL SATISFY THIS REQUIREMENT:
    15' x 50' = 100 FT.^{3} 30' x 50' = 200 FT.^{3}
    AS AN OPTION TO THE SEDIMENT PIT, THE WIDTH OF THE SWALE BOTTOM CAN BE INCREASED TO OBTAIN THE VOLUME. WHEN THE SEDIMENT PIT OR SWALE VOLUME HAS BEEN REDUCED TO ONE HALF, IT SHALL BE CLEANED. WHEN A SWALE IS USED, SYNTHETIC BALES OR SILT FENCE SHALL BE PLACED ALONG THE ENTIRE LENGTH.

22. THE SWALE DITCH DRAINING THE STPD SHALL HAVE A 0.02% MINIMUM AND A 1.0% MAXIMUM GRADE ALONG THE STPD AND TO THE SEDIMENT PIT.

23. MITERED END SECTIONS ARE NOT REQUIRED WHEN THE SIDEDRAIN PIPE SATISFIES THE CLEAR ZONE REQUIREMENTS.

24. THE STPD SHALL BE MAINTAINED IN CONDITION THAT WILL ALLOW IT TO PERFORM ITS FUNCTION. TO PREVENT OFF-SITE TRACKING, THE STPD SHALL BE RINSED (DAILY WHEN IN USE) TO MOVE ACCUMULATED MUD DOWNWARD THRU THE STONE. ADDITIONAL STABILIZATION OF THE VEHICULAR ROUTE LEADING TO THE STPD MAY BE REQUIRED TO LIMIT THE MUD TRACKED.

25. A STPD SHALL BE PAID FOR UNDER THE CONTRACT UNIT PRICE FOR SOIL TRACKING PREVENTION DEVICE, EA. THE UNIT PRICE SHALL CONSTITUTE FULL COMPENSATION FOR CONSTRUCTION, MAINTENANCE, REPLACEMENT OF MATERIALS, REMOVAL, AND RESTORATION OF THE AREA UTILIZED FOR THE STPD; INCLUDING BUT NOT LIMITED TO EXCAVATION, GRADING, TEMPORARY PIPE (INCLUDING MES WHEN REQUIRED), FILTER FABRIC, AGGREGATE, PAVED TURNOUT (INCLUDING ASPHALT AND BASE CONSTRUCTION), DITCH STABILIZATION, APPROACH ROUTE STABILIZATION, SEDIMENT REMOVAL AND DISPOSAL, WATER, RINSING AND CLEANING OF THE STPD AND CLEANING OF PUBLIC ROADS, GRASSING AND SOD. SYNTHETIC BALE OR BALE TYPE BARRIER SHALL BE PAID FOR UNDER THE CONTRACT UNIT PRICE FOR SYNTHETIC BALES, LF. SILT FENCE SHALL BE PAID FOR UNDER THE CONTRACT UNIT PRICE FOR STAKED SILT FENCE, LF.

26. THE NOMINAL SIZE OF A STANDARD STPD IS 15' x 50' UNLESS OTHERWISE SHOWN IN THE PLANS. IF THE VOLUME OF ENTERING AND EXITING VEHICLES WARRANT, A 30' WIDTH STPD MAY BE USED IF APPROVED BY THE ENGINEER. WHEN A DOUBLE WIDTH (30') STPD IS USED, THE PAY QUANTITY SHALL BE 2 FOR EACH LOCATION.

POLLUTION CONTROL NOTES:

ALL EROSION CONTROL MEASURES SHALL REMAIN IN PLACE UNTIL COMPLETION OF CONSTRUCTION.

1. ALL EROSION AND SEDIMENT CONTROL WORK SHALL CONFORM WITH LOCAL CITY/COUNTY AND WATER MANAGEMENT DISTRICT SPECIFICATIONS, SUBJECT TO AUTHORIZED AND APPROVED VARIANCES, WAIVERS AND/OR CONDITIONS OF SITE PERMITS.
2. EROSION AND SEDIMENT CONTROL MEASURES SHALL BE PLACED PRIOR TO OR AS THE FIRST STEP IN, CONSTRUCTION. SEDIMENT CONTROL PRACTICES WILL BE APPLIED AS A PERIMETER DEFENSE AGAINST ANY TRANSPORTATION OF SILT OFF THE SITE.
3. ALL AREAS AFFECTED BY THIS WORK SHALL BE RESTORED TO A CONDITION EQUAL TO OR BETTER THAN THE EXISTING CONDITION, UNLESS SPECIFICALLY EXEMPTED BY THE PLANS. THE COST FOR SUCH RESTORATION SHALL BE INCIDENTAL TO OTHER CONSTRUCTION AND NO ADDITIONAL COMPENSATION SHALL BE ALLOWED.
4. THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE ENGINEER OF ANY DISCREPANCIES BETWEEN THESE PLANS AND FIELD CONDITIONS PRIOR TO CONSTRUCTION.
5. PRIOR TO CONSTRUCTION THE CONTRACTOR SHALL PROVIDE TREE PROTECTION BARRIERS TO MEET THE REQUIREMENTS OF LOCAL SPECIFICATIONS.
6. THE CONTRACTOR SHALL SELECTIVELY CLEAR ONLY THE AREAS REQUIRED FOR CONSTRUCTION AND STABILIZE ANY POTENTIAL EROSION AREAS IMMEDIATELY FOLLOWING COMPLETION OF CONSTRUCTION.
7. CONTRACTOR SHALL KEEP ANY AND ALL SAND, SILT OR OTHER DEBRIS FROM MOVING OFF-SITE. USE AND MAINTAIN SILT FENCE JUST INSIDE OF PROPERTY LINE.
8. CONTRACTOR SHALL BLOCK INTRUSION OF SAND, SILT OR OTHER DEBRIS INTO ANY DRAINAGE OR SANITARY SEWER STRUCTURE OR PIPING ON OR ADJACENT TO SITE.
9. ALL CLEARED AREAS FOR IMPROVEMENT AND/OR CONSTRUCTION SHALL BE WATERED TO PREVENT WIND EROSION.
10. FOR ADDITIONAL INFORMATION AND DETAILS, SEE THE "FLORIDA STORMWATER EROSION AND SEDIMENT CONTROL INSPECTORS MANUAL"
11. UNLESS OTHERWISE SPECIFIED, SILT FENCES MUST BE USED IN LIEU OF HAY BARRIERS.
12. ADDITIONAL POSTS AND RAILS MAY BE NECESSARY TO SECURE AND SUPPORT BARRIERS.
13. ADDITIONAL BARRIER LENGTHS MAY BE REQUIRED BY THE COUNTY ENGINEER OR BY REGULATORY AGENCIES.
14. FILTER FABRIC MUST BE INSTALLED UNDER ALL INLET GRATES, AT ALL TIMES WHEN INLETS ARE NOT PROTECTED BY SILT FENCE OR UNTIL THE LIMEROCK BASE IS FINISHED AND PRIMED.
15. THE CONTRACTOR IS REQUIRED TO HAVE THIS PLAN ALONG WITH A COPY OF THE NPDES NOTICE OF INTENT (N.O.I.) POSTED IN A VISIBLE LOCATION ON THE CONSTRUCTION SITE AT ALL TIMES.
16. "CONTRACTOR" IS REQUIRED BY NODES TO KEEP A LOG ON SITE FOR THE SOIL EROSION AND SEDIMENT CONTROL MEASURES INDICATED ON THE PLAN. THE LOG SHALL CONTAIN DATES FOR: INSTALLATION OF CONTROL MEASURES, MAJOR SITE CONSTRUCTION ACTIVITIES, INSPECTION ON AT LEAST A WEEKLY BASIS AND INSPECTION AFTER ANY RAINFALL EVENT THAT IS 1/2" OR GREATER.
17. THE CONTRACTOR IS REQUIRED TO SUBMIT A NOTICE OF TERMINATION TO THE FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION UPON THE COMPLETION OF CONSTRUCTION.
18. CONTRACTOR SHALL RETAIN ALL RECORDS FOR A PERIOD OF THREE YEARS FOLLOWING THE NOTICE OF TERMINATION.
19. NON STORMWATER DISCHARGES SUCH AS FIRE HYDRANT FLUSHING, ETC. SHALL BE DISCHARGED TO AN EXISTING UNDERGROUND STORMWATER FACILITY OR ON SITE RETENTION POND.
20. ANY POTENTIALLY HAZARDOUS CHEMICALS BROUGHT ONTO JOB SITE WILL BE LIMITED AND KEPT IN ORIGINAL CONTAINER WITH MSS LABEL.
21. NO SILT SHALL BE TRACKED ONTO PUBLIC ROADWAYS. ANY SILT DEPOSITED ON PUBLIC ROADWAYS SHALL BE REMOVED BY END OF THE WORK DAY.

GOVERNING STANDARDS AND SPECIFICATIONS:
FDEP "FLORIDA STORMWATER EROSION AND SEDIMENT CONTROL INSPECTORS MANUAL", LATEST EDITION.

CONSTRUCTION SEQUENCE:

1. INSTALLATION OF EROSION CONTROL DEVICES. MINIMAL CLEARING AS NEEDED IS ALLOWED FOR INSTALLING SILT FENCE.
2. EXCAVATION AND GRADING OF POND AREAS IS REQUIRED IMMEDIATELY UPON COMPLETION OF CLEARING AND GRUBBING. POND INTERIOR SIDE SLOPES SHALL HAVE SOD / SEED AND MULCH APPLIED TO PREVENT EROSION AS SOON AS PRACTICAL.
3. INSTALLATION OF DRAINAGE AND UTILITIES MAY COMMENCE UPON APPROVAL OF GRADING. ALL DEWATERING FLOWS SHALL BE DIRECTED TO STORMWATER PONDS FOR ATTENUATION AND TREATMENT PRIOR TO DISCHARGE OFF-SITE.
4. ROADWAY, SIDEWALK AND BUILDING PADS CONSTRUCTION MAY PROCEED UPON COMPLETION OF UTILITIES INSTALLATION.
5. FINAL GRADING AND PERMANENT STABILIZATION IN AREAS OUTSIDE OF HARD SURFACE MAY BE PERFORMED DURING HARD SURFACE CONSTRUCTION.

CONTRACTOR(S) AND SUBCONTRACTOR(S) THAT IMPLEMENT ANY PART OF THE EROSION/POLLUTION CONTROL MEASURES REQUIRED BY THE NPDES PERMIT SHALL SIGN BELOW:

"I CERTIFY UNDER PENALTY OF LAW THAT I UNDERSTAND, AND SHALL COMPLY WITH, THE TERMS AND CONDITIONS OF THE STATE OF FLORIDA GENERIC PERMIT FOR STORMWATER DISCHARGE FROM LARGE AND SMALL CONSTRUCTION ACTIVITIES AND THIS STORMWATER POLLUTION PREVENTION PLAN PREPARED THEREUNDER."

(Multilane Roadway Shown, Two-Lane Roadway Similar)

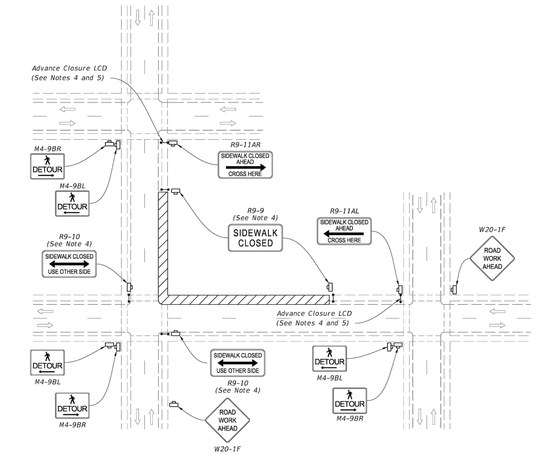
SYMBOLS:

- Work Area
- Work Zone Sign
- Traffic Control Officer
- Lane Identification and Direction of Traffic

NOTES:

1. This Index applies to two-lane, two-way and multilane roadways, except limited access facilities, with temporary daytime roadway closures of 5 minutes or less.
2. B = Buffer Length
   X = Work Zone Sign Distance
   See Index 102-600 for "B" and "X" values.
3. For Two-Lane Roadways, a Flagger may substitute the traffic control office with approval of the Engineer.
4. Traffic volume or complexity of the roadway may dictate additional signs, devices or traffic control officers.
5. Optionally, use "Flagger Ahead" sign with symbol (W20-7) instead of "Flagger Ahead" sign with text (W20-7A).
6. Dual Signs are required for divided roadways only.

9/29/2021 7:26:49 AM



LAST REVISION	DESCRIPTION:	FDOT FY 2022-23 STANDARD PLANS	TEMPORARY ROADWAY CLOSURE	INDEX	SHEET
11/01/20	REVISION			102-625	1 of 1

NOTES:

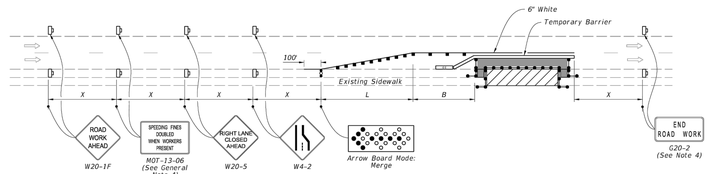
1. Cover or deactivate pedestrian traffic signal display(s) controlling closed crosswalks.
2. Place pedestrian LCDs across the full width of the closed sidewalk.
3. For post mounted signs located near or adjacent to a sidewalk, maintain a minimum 7' clearance from the bottom of the sign panel to the surface of the sidewalk.
4. "Sidewalk Closed" signs (R9-XX) may be mounted on pedestrian LCDs in accordance with the manufacturer's instructions.
5. Omit the Advance Closure LCD if it blocks access to other pedestrian facilities (e.g., transit stops, residences, or business entrances).

SYMBOLS:

- Work Area
- Work Zone Sign
- Pedestrian Longitudinal Channelizing Device (LCD)
- Lane Identification and Direction of Traffic

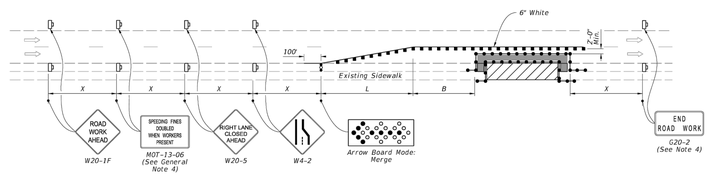
PEDESTRIAN DETOUR

8/27/2021 12:26:54 PM



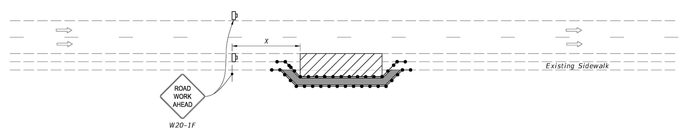
LAST REVISION	DESCRIPTION:	FDOT FY 2022-23 STANDARD PLANS	SIDEWALK CLOSURE	INDEX	SHEET
11/01/20	REVISION			102-660	1 of 2

NOTES:



1. L = Taper Length
   B = Buffer Length
   X = Work Zone Sign Distance
   See Index 102-600 for "L", "B", "X", channelizing device spacing values.
2. Provide a 5' wide temporary pedestrian way with a maximum cross-slope of 0.02, except where space restrictions warrant a minimum width of 4'. Provide a 5' x 5' passing space for temporary pedestrian ways less than 5' in width at intervals not to exceed 200'.
3. When temporary pedestrian ways require curb ramps, meet the requirements of Index 522-002. Detectable warnings are not required for curb ramps diverting pedestrian traffic into a closed lane.
4. The "Speeding Fines Doubled When Workers Present" signs (MOT-13-06) and "End Road Work" signs (G20-2), along with associated work zone sign distances, may be omitted when the work operation will be in place for 24 hours or less.
5. Pedestrian Diversion Option 2 may only be used when called for in the Plans or as approved by an Engineer.

SYMBOLS:



- Work Area
- Temporary Pedestrian Way
- Channelizing Device (See Index 102-600)
- Pedestrian Longitudinal Channelizing Device (LCD)
- Work Zone Sign
- Arrow Board
- Crash Cushion
- Lane Identification and Direction of Traffic

PEDESTRIAN DIVERSION - OPTION 1
(Temporary Barrier Shown, Low Profile Barrier Similar)

PEDESTRIAN DIVERSION - OPTION 2
(Work Zone Speed 35 mph or Less)

PEDESTRIAN SPECIAL DETOUR

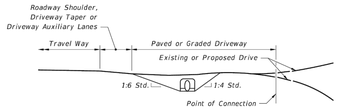
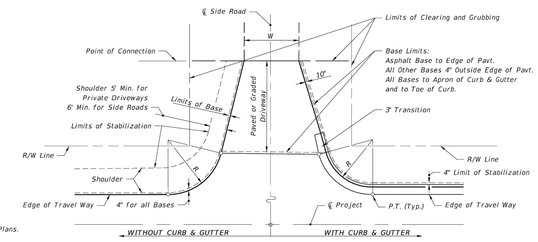
3 ENVIRONMENTAL CURB



NOT TO SCALE

PLAN



DRAINAGE SECTION

DRIVEWAY PROFILE AND END VIEW

FLUSH SHOULDER ROADWAY - DRIVEWAY CONSTRUCTION

PLAN

LIMITS OF CLEARING & GRUBBING, STABILIZING AND BASE AT DRIVEWAYS

DRIVEWAY ENTRANCES NOTES:

1. See Plans for Driveway Width (W) and Return Radius (R).
2. See the Plans for drainage pipe size and length or as determined by the Engineer. The size will be no less than 15" diameter or equivalent.
3. Stable material may be required for graded driveways to private property as directed by the Engineer in accordance with Specification 102-8.
4. The driveway pavement requirement at graded connections may be waived for connections serving one or two homes or field entrances with less than 20 trips per day, or 5 trips per hour as approved by the Engineer, or when not shown in the Plans.
5. Point of Connection:
   a. Construct paved driveways for all paved connecting facilities. The connecting point will be determined by the Engineer.
   b. Construct paved driveways for all business, commercial, industrial or high volume residential graded connecting facilities. Construct the connecting point 30'-0" from edge of travel way or at R/W line, whichever is less.
   c. Construct paved driveways for all side road connections. The R/W is the connecting point.

LAST REVISION 11/01/18	REVISION	DESCRIPTION:	FDOT FY 2022-23 STANDARD PLANS	PAVED AND GRADED DRIVEWAYS	INDEX 330-001	SHEET 1 of 2

9/21/2021 1:00:38 PM

NOTE:

1. This Index applies to Two-Lane, Two-Way and Multilane Roadways, including Medians of divided roadways, with work on the shoulder.
2. L = Taper Length
   X = Work Zone Sign Spacing
   B = Buffer Length
   See Index 102-600 for "L", "X", "B", and channelizing device spacing values.
3. Where work activities are between 2' and 15' from the edge of traveled way, the Engineer may omit signs and channelizing devices for work operations 60 minutes or less.
4. When four or more work vehicles enter the through traffic lanes in a one hour period (excluding establishing and terminating the work area), use a flagger or lane closure to accommodate work vehicle ingress and egress.
5. For work less than 2' from the traveled way and work zone speed is greater than 45 MPH, use a lane closure.
6. The "Speeding Fines Doubled When Workers Present" signs (MOT-13-06) and "End Road Work" Signs (G20-2) along with the associated work zone sign spacing distances may be omitted when the work operation is in place for 24 hours or less.
7. Temporary pavement markings may be omitted when the work operation is in place for 3 days or less.
8. Omit "Shoulder Closed" signs (W21-5a) along with associated work zone sign spacing distances for work on the median.
9. When there is no paved shoulder, the "Worker" sign (W21-1) may be used instead of the "Shoulder Closed" sign (W21-5a).

MATERIAL TYPES AND THICKNESSES FOR PAVED CONNECTIONS

Course	Materials	Minimum Thickness (in.)	
		Connections	Roadway*
Structural	Asphaltic Concrete	1½"	1½"
Bases	Optional Base (See Specification 285)	O.B.G. 2	O.B.G. 3

* Travel way flares (bypass lanes), auxiliary lanes serving more than a single connection, and all median crossovers including their auxiliary lanes and/or transition tapers.

NOTES

1. Use same material for driveway structural course and roadway overbuild or structural course, except as approved by the Engineer for graded connections. Other Department-approved equivalent pavements may be used at the discretion of the Engineer.
2. Auxiliary lanes and their transition tapers shall be the same structure as the abutting travel way pavement thickness or any of the roadway structures tabulated above, whichever is thicker.
3. If an asphalt base course is used for a driveway, its thickness may be increased to match the edge of travel way pavement thickness in lieu of a separate structural course. 6" of Portland cement concrete will be acceptable in lieu of the asphalt base and structural courses. See Notes 4 and 5 below.
4. A structural course is required for flexible pavements when they are used for auxiliary lanes serving more than a single connection.
5. Use Class NS concrete at least 6" thick for driveways paved with Portland Cement Concrete. Construct in accordance with Specifications 347, 350, and 522.
6. The Department may require other pavement criteria where local conditions warrant.

SECTION AA

RESURFACING EXISTING DRIVEWAY

GENERAL NOTES:

1. Driveways are to be constructed or resurfaced for low volume (single family, duplex, farm, etc.) residential connections as directed by the Engineer.
2. Driveways construction is not required for low volume residential connections where roadway shoulders are paved.
3. Match existing paved shoulder widths ≥ 4'. For all other shoulders conditions, construct at 5' wide.
4. Connections beyond the shoulder width are to be constructed as directed by the Engineer.
5. Construct Driveway Base in accordance with Specification 286.
6. Payment for structural course and friction course is to be included in roadway pavement pay item.

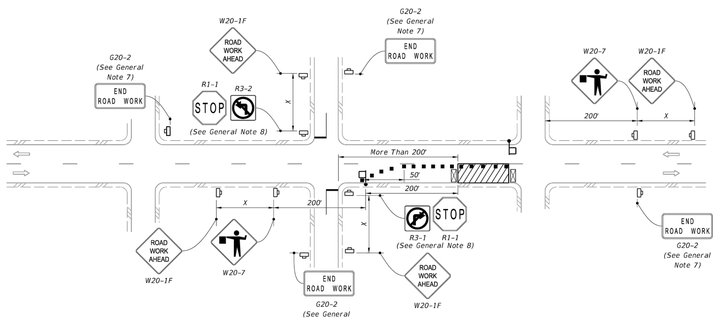
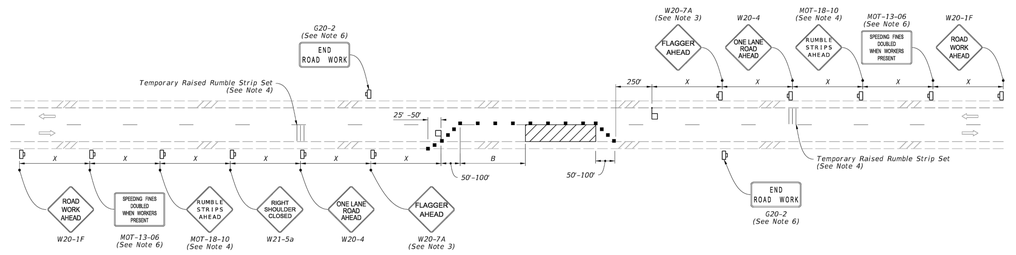
4/1/2025 10:43:22 AM

GENERAL NOTES:



1. This Index applies to two-lane, two-way roadways with work within or near the intersection.
2. X = Work Zone Sign Spacing
   See Index 102-600 for "X" and channelizing device spacing values.
3. Optionally, use "Flagger Ahead" sign with text (W20-7A) instead of "Flagger Ahead" sign with symbol (W20-7).
4. If vehicles in a parking zone block the line of sight to TCZ signs, locate and post mount signs in accordance with Index 700-101.
5. If the work area extends across a crosswalk, close the crosswalk in accordance with Index 102-660.
6. For unsignalized intersections, use Temporary Raised Rumble Strips in accordance with Index 102-603. Placement of Rumble Strips and additional signs should begin at FLAGGER sign location.
7. The "End Road Work" signs (G20-2) along with the associated work zone sign distances may be omitted when the work zone will be in place for 24 hours or less.
8. As an option to the "STOP" sign (R1-1) and Restricted Left/Right Turning Movement sign (R3-1 or R3-2), the "SIDE ROAD INTERSECTING THE WORK ZONE" flagging operation from Index 102-600 may be used.

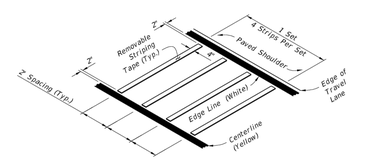
SYMBOLS:



- Work Area
- Channelizing Device (See Index 102-600)
- Work Zone Sign
- Type III Barricade
- Stop Bar
- Flagger
- Lane Identification and Direction of Traffic

LANE CLOSURE FOR WORK LESS THAN 200' FROM INTERSECTION

LANE CLOSURE FOR WORK MORE THAN 200' FROM INTERSECTION



NOTES:

1. This Index applies to Two-Lane, Two-Way Roadways with work within the traveled way.
2. L = Taper Length
   B = Buffer Length
   X = Work Zone Sign Spacing
   See Index 102-600 for "L", "B", "X" and channelizing device spacing values.
3. Optionally, use "Flagger Ahead" sign with symbol (W20-7) instead of "Flagger Ahead" sign with text (W20-7A).
4. Use temporary raised rumble strips when the existing posted speed is 55 mph or greater and the work duration is greater than 60 minutes. If temporary raised rumble strips are not used, omit "Rumble Strips Ahead" signs (MOT-18-10) and associated work zone sign spacing.
5. Additional one-way control may be provided by the following means:
   a. Flag-carrying vehicle
   b. Official vehicle
   c. Pilot vehicles
   d. Traffic signals

   When flaggers are the sole means of one-way control, the flaggers must be in sight of each other or in direct communication at all times.
6. The "Speeding Fines Doubled When Workers Present" signs (MOT-13-06) and "End Road Work" signs (G20-2), along with associated work zone sign spacing, may be omitted when the work operation will be in place for 24 hours or less.
7. Automated Flagger Assistance Devices (AFADs) may be used in accordance with Specification Sections 102, 990 and the APL vendor drawings.
8. Railroad Crossings:
   a. If an active railroad crossing is located closer to the Work Area than the queue length plus 300 feet, extend the Buffer Space as shown on Sheet 2.
   b. If the queuing of vehicles across an active railroad crossing cannot be avoided, provide a uniformed traffic control officer or flagger at the highway-rail grade crossing to prevent vehicles from stopping within the highway-rail grade crossing, even if automatic train warning devices are in place.

SYMBOLS:

- Work Area
- Channelizing Device (See Index 102-600)

BID BOND

KNOW ALL MEN BY THESE PRESENTS, that we Halifax Paving, Inc. , (hereinafter called Principal) and Nationwide Mutual Insurance Company (hereinafter called the Surety) a corporation chartered and existing under the Laws of the State of Ohio, with its principal offices in the City of Columbus, authorized to do business in the State of Florida, in the full and just sum of Ten Percent of the Amount Bid Dollars ($ ------10%------), good and lawful money of the United State of America, to be paid upon demand of the City of New Smryna Beach, Florida, to which payment well and truly to be made we bind ourselves, our heirs, executors, administrators, and assigns, jointly and severally and firmly by these presents,

WHEREAS, the Principal is about to submit, or has submitted to the City of New Smryna Beach, Florida, a bid for the construction of Barracuda Boulevard Roadway Enhancement in, and for the said City, and

WHEREAS, the Principal desires to file this bond in accordance with the law, in lieu of a Certified or Cashier's Check otherwise required to accompany this Bid,

NOW, THEREFORE, the conditions of this obligation are such that if the Bid be accepted, the Principal shall within ten (10) days after the receipt of notification of the acceptance thereof, execute a contract in accordance with the Bid and upon the terms, conditions and unit or lump sum prices set forth therein, in the form and manner required by the Owner, and execute a sufficient and satisfactory Contract Bond payable to the Owner, in an amount not less than the total contract price, as indicated by the approximate quantities shown in the Bid, in form and with security satisfactory to the said City, then this obligation to be void; otherwise to be and remain in full force and virtue in law; and the Surety shall upon the failure of the Principal to comply with any or all of the foregoing requirements within the time specified above, immediately pay to the aforesaid City upon demand the amount hereof in good and lawful money of the United States of America, not as a penalty, but as liquidated damages.

IN TESTIMONY WHEREOF, the Principal and Surety have caused these presents to be duly signed and sealed this 3rd day of April, 20 25.

Halifax Paving, Inc.
Principal

By JOSEPH L. DURRANCE, CEO

Nationwide Mutual Insurance Company
Surety

By Tyler D DeBord, Attorney-In-Fact

ATTEST:

(SEAL)

2361

Power of Attorney Bond Number: N/A

KNOW ALL MEN BY THESE PRESENTS THAT:

Nationwide Mutual Insurance Company, an Ohio corporation

hereinafter referred to severally as the "Company" and collectively as "the Companies" does hereby make, constitute and appoint:
STEPHEN P FARMER; TYLER D DEBORD; VINCENT DELUCA; ASHLEY TYREE; KARA RUCKERT; MARGARET HALL

each in their individual capacity, its true and lawful attorney-in-fact, with full power and authority to sign, seal, and execute on its behalf any and all bonds, undertaking and contracts of suretyship or other written obligations in the nature therefor; for all obligees including authority to execute consents for the release of retained percentages and/or final estimates on engineering and construction contracts required by the Department of Transportation, State of Florida, and other obligatory instruments of similar nature, in penalties not exceeding the sum of

UNLIMITED

and to bind the Company thereby, as fully and to the same extent as if such instruments were signed by the duly authorized officers of the Company; and all acts of said Attorney pursuant to the authority given are hereby ratified and confirmed.

This power of attorney is made and executed pursuant to and by authority of the following resolution duly adopted by the board of directors of the Company:

"RESOLVED, that the president, or any vice president be, and each hereby is, authorized and empowered to appoint attorneys-in-fact of the Company, and to authorize them to execute and deliver on behalf of the Company any and all bonds, forms, applications, memorandums, undertakings, recognizances, transfers, contracts of indemnity, policies, contracts guaranteeing the fidelity of persons holding positions of public or private trust, and other writings obligatory in nature that the business of the Company may require; and to modify or revoke, with or without cause, any such appointment or authority; provided, however, that the authority granted hereby shall in no way limit the authority of other duly authorized agents to sign and countersign any of said documents on behalf of the Company."

"RESOLVED FURTHER, that such attorneys-in-fact shall have full power and authority to execute and deliver any and all such documents and to bind the Company subject to the terms and limitations of the power of attorney issued to them, and to affix the seal of the Company thereto; provided, however, that said seal shall not be necessary for the validity of any such documents."

This power of attorney is signed and sealed under and by the following bylaws duly adopted by the board of directors of the Company.

Execution of Instruments. Any vice president, any assistant secretary or any assistant treasurer shall have the power and authority to sign or attest all approved documents, instruments, contracts, or other papers in connection with the operation of the business of the company in addition to the chairman of the board, the chief executive officer, president, treasurer or secretary: provided, however, the signature of any of them may be printed, engraved, or stamped on any approved document, contract, instrument, or other papers of the Company.

IN WITNESS WHEREOF, the Company has caused this instrument to be sealed and duly attested by the signature of its officer the 1st day of April, 2024.

Antonio C. Albanese, **Vice President** of Nationwide Mutual Insurance Company

ACKNOWLEDGMENT

STATE OF NEW YORK COUNTY OF KINGS: ss
On this 1st day of April, 2024, before me came the above-named officer for the Company aforesaid, to me personally known to be the officer described in and who executed the preceding instrument, and he acknowledged the execution of the same, and being by me duly sworn, deposes and says, that he is the officer of the Company aforesaid, that the seal affixed hereto is the corporate seal of said Company, and the said corporate seal and his signature were duly affixed and subscribed to said instrument by the authority and direction of said Company.

CERTIFICATE

I, Lezlie F. Chimienti, Assistant Secretary of the Company, do hereby certify that the foregoing is a full, true and correct copy of the original power of attorney issued by the Company; that the resolution included therein is a true and correct transcript from the minutes of the meetings of the boards of directors and the same has not been revoked or amended in any manner; that said Antonio C. Albanese was on the date of the execution of the foregoing power of attorney the duly elected officer of the Company, and the corporate seal and his signature as officer were duly affixed and subscribed to the said instrument by the authority of said board of directors; and the foregoing power of attorney is still in full force and effect.

IN WITNESS WHEREOF, I have hereunto subscribed my name as Assistant Secretary, and affixed the corporate seal of said Company this 3rd day of April, 2025.

Form **W-9**
(Rev. October 2007)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give form to the requester. Do not send to the IRS.

Print or type
See Specific Instructions on page 2.

Name (as shown on your income tax return)
HALIFAX PAVING, INC.

Business name, if different from above

Check appropriate box: ☐ Individual/Sole proprietor ☒ Corporation ☐ Partnership
☐ Limited liability company. Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ▶ .....
☐ Other (see instructions) ▶

☐ Exempt payee

Address (number, street, and apt. or suite no.)
870 HULL ROAD

Requester's name and address (optional)

City, state, and ZIP code
ORMOND BEACH, FL 32174

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number
: :

or

Employer identification number
59 :1233559

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

STATEMENT OF INSURANCE COMPLIANCE

The undersigned firm agrees to obtain prior to award, if selected, the insurance and levels in accordance to the requirements as set forth in the Invitation for Proposal, Invitation to Bid, or Invitation for Qualifications, or draft agreement, attached hereto.

Policies other than State Issued Worker's Compensation shall be issued only by companies authorized by maintaining certificates of authority issued to the companies by the Department of Insurance of the State of Florida to conduct business in the State of Florida and which maintain a Rating of "A" or better and a Financial Size category of "VII" or better according to the A.M. Best Company. Policies for Worker's Compensation may be issued by companies authorized as a group self-insurer by F.S. 440.57, Florida Statutes.

PUBLIC ENTITY CRIME INFORMATION STATEMENT

All invitations to bid as defined by Section 287.012(11), Florida Statutes, requests for proposals as defined by Section 287.012(16), Florida Statutes, and any contract document described by Section 287.058, Florida Statutes, shall contain a statement informing persons of the provisions of paragraph (2)(a) of Section 287.133, Florida Statutes, which reads as follows:

> **"A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or CONTRACTOR under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list."**

All vendors who submit a Bid or Request for Proposal to the City of New Smyrna Beach, are guaranteeing that they have read the previous statement, and by signing the bid documents, are qualified to submit a bid under Section 287.133, (2)(a) Florida Statutes.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

DRUG-FREE WORKPLACE CERTIFICATION FORM

IDENTICAL TIE BIDS-In accordance with Florida State Statutes Section 287.087, preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids, which are equal with respect to price, quality, and service, are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violation of such prohibition.

2. Establishing an on-going drug-free awareness program to inform employees about:
   a. The dangers of drug abuse in the workplace.
   b. The employer's policy of maintaining a drug-free workplace.
   c. Any available drug counseling, rehabilitation, and employee assistance programs, and
   d. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

3. Making it a requirement that each employee to be engaged in the performance of this contract be given a copy of the statement required by paragraph (a);

4. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under this contract, the employee will:
   a. Abide by the terms of the statement; and
   b. Notify the Employer in writing of any arrest for a violation of a criminal drug statute or driving under the influence no later than five calendar days after such arrest;

5. Notifying the City of New Smyrna Beach, in writing, within 10 calendar days after receiving notice under subparagraph (4)(b) from an employee or otherwise receiving actual notice of such arrest Consultants of arrested employees must provide notice, including position and title to: City Clerk/Administrator, City of New Smyrna Beach, 210 Sams Avenue, New Smyrna Beach, FL 32168.

6. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is arrested.
   a. Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended, or
   b. Requiring such employee to participate satisfactorily in drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State or local health, law enforcement, or other appropriate agency.

7. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (1), (2), (3), (4), (5) and (6).

As a duly authorized representative of the Vendor, I hereby certify that the Firm will comply with the above certifications.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

****THIS FORM MUST BE COMPLETED AND RETURNED WITH YOUR BID**

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(A), FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

1. THIS SWORN STATEMENT IS SUBMITTED TO City of New Smyrna Beach

by JOSEPH L. DUZRANCE, CEO
(Print Individual's Name and Title)
for HALIFAX PAVING, INC.
(Print Name of Entity Submitting Sworn Statement)
whose business is 870 HULL ROAD ORMOND BEACH, FL 32174

and (if applicable) its Federal Employer Identification Number (FEIN) is 59-1233559

2. I understand that a "public entity crime" as defined in Paragraph 287.133 (1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

   a. A predecessor or successor of a person convicted of a public entity crime; or

   b. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provisions of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders,

employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Indicate which statement applies).

X Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, nor any affiliates of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (Attach a copy of the final order).

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES, FOR A CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

NON-COLLUSION AFFIDAVIT OF PROPOSER

State of FLORIDA

County of VOLUSIA

JOSEPH L. DURRANCE, being first duly sworn, deposes and says that:

He/she is CEO of HALIFAX PAVING, INC., Proposer that has submitted the attached bid or Request for Qualifications;

He/she is fully informed respecting the preparation and contents of the attached bid and of all pertinent circumstances respecting such bid;

Such bid is genuine and is not a collusive or sham bid;

Neither the said Proposer nor any of its officers, partners, owners, agent representatives, employees, or parties in interest, including this affiant, has in any way colluded, conspired, connived or agreed, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer, firm or person, to fix the price or prices in the attached Proposal or of any other Proposer, or to fix any overhead, profit or cost element of the Proposal price or the Proposal price of any other Proposer, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the CITY OF NEW SMYRNA BEACH, FLORIDA, or any person interested in the proposed Contract; and

The price or prices quoted in the attached Proposal are fair and proper and are not tainted by any collusion, conspiracy, connivance or unlawful agreement on the part of the Proposer or any of its agents, representatives, owners, employees, or parties in interest, including this affiant.

COMPLIANCE WITH EMPLOYMENT ELIGIBILITY REQUIREMENTS

(§448.095, Florida Statutes – E-Verify)

The E-Verify system is an internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees. Florida Statutes §448.095 provides that any person or entity that has entered or is attempting to enter into a contract with the City of New Smyrna Beach to provide labor, supplies or services must register with and use the E-Verify system to verify the work authorization status of all employees hired after January 1, 2021. Further, the consultant must maintain certain required employment compliance records of sub consultants for the duration of the contract with the City of New Smyrna Beach.

Consultant Name: HALIFAX PAVING, INC.

Consultant E-Verify Registration Number: L3J9S0M8J635

The undersigned, on behalf of the consultant referenced above, after first being duly sworn, states as follows:

1. That said consultant understands that the consultant must comply with §448.095, Florida Statutes.
2. That the consultant uses the E-Verify system to verify the work eligibility status of employees.
3. That the consultant has enrolled in the E-Verify system under the registration number referenced above and will verify the work eligibility status of employees hired after January 1, 2021 through said registration number throughout the contract period of any and all contracts with the City of New Smyrna Beach.
4. That the consultant will maintain affidavits of sub consultants engaged to perform work on any and all contracts with the City of New Smyrna Beach.
5. That said consultant further understands that violation of §448.095, Florida Statutes may result in lawful termination of a contract by the City of New Smyrna Beach, subjecting the consultant to liability for additional costs incurred by the City of New Smyrna Beach as a result of the termination of the contract.

CONFLICT OF INTEREST AFFIDAVIT

State of Florida: City of _____

Before me, the undersigned authority, personally appeared _____

who was duly sworn, deposes, and states:

1. I am the _____ of _____ with a local office in _____ (City & State) and principal office in _____ (City & State).
2. The above named entity is submitting an Expression of Interest for the City of New Smyrna Beach project described as **ITB 07-25-CIP, Barracuda Boulevard Roadway Enhancement**.
3. The Affiant has made diligent inquiry and provides the information contained in this Affidavit based upon his/her own knowledge.
4. The Affiant states that only one submittal for the above project is being submitted and that the above-named entity has no financial interest in other entities submitting proposals for the same project.
5. Neither the Affiant nor the above-named entity has directly or indirectly entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive pricing in connection with the entity's submittal for the above project. This statement restricts the discussion of pricing data until the completion of negotiations and execution of the Agreement for this project.
6. Neither the entity nor its affiliates, nor anyone associated with them, is presently suspended or otherwise ineligible from participating in contract lettings by any local, state, or federal agency.
7. Neither the entity, nor its affiliates, nor anyone associated with them have any potential conflict of interest due to any other clients, contracts, or property interests for this project.
8. I certify that no member of the entity's ownership, management, or staff has a vested interest in any aspect of or Department of City of New Smyrna Beach.
9. I certify that no member of the entity's ownership or management is presently applying for an employee position or actively seeking an elected position with City of New Smyrna Beach.
10. In the event that a conflict of interest is identified in the provision of services, I, on behalf of the above-named entity, will immediately notify City of New Smyrna Beach in writing.

CITY OF NEW SMYRNA BEACH
ACKNOWLEDGEMENT OF SMOKE FREE WORKPLACE

The City strives to improve working conditions and protect the health of employees and the general public. In accordance with the "Florida Clean Air Act" (Florida Statutes, Chapter 386), it is policy of the City to provide a healthy, comfortable, and safe environment in all respects by prohibiting use of all tobacco products in all City buildings, City properties (including rights-of-way), and in all City vehicles.

- Smoking or using a vapor-generating electronic device is prohibited in all City owned or leased buildings, including offices, hallways, waiting rooms, restroom, and break rooms.

- Smoking is not prohibited on City grounds. Those who choose to smoke must do so on their regularly scheduled breaks, or meal periods, off of City property.

All employees assigned to this contract shall acknowledge, sign and comply with the City's Non-Tobacco use policy.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

RE: CERTIFICATE OF QUALIFICATION

The Department of Transportation has qualified your company for the type of work indicated below.

FDOT APPROVED WORK CLASSES:
DRAINAGE, FLEXIBLE PAVING, GRADING, GRASSING, SEEDING AND SODDING, HOT PLANT-MIXED BITUM. COURSES, SIDEWALK, Concrete Traffic Separator, Curb & Gutter, Milling.

Unless notified otherwise, this Certificate of Qualification will expire **12/30/2025**.

In accordance with Section 337.14(1), Florida Statutes, an application for qualification must be filed within (4) months of the ending date of the applicant's audited annual financial statements.

If the company's maximum capacity has been revised, it may be accessed by logging into the Contractor Prequalification Application System via the following link:
HTTPS://fdotwp1.dot.state.fl.us/ContractorPreQualification

Once logged in, select "View" for the most recently approved application, and then click the "Manage" and "Application Summary" tabs.

The company may apply for a Revised Certificate of Qualification at any time prior to the expiration date of this certificate according to Section 14-22.0041(3), Florida Administrative Code (F.A.C.), by accessing the most recently approved application as shown above and choosing "Update" instead of "View." If certification in additional classes of work is desired, documentation is needed to show that the company has performed such work.

All prequalified contractors are required by Section 14-22.006(3), F.A.C., to certify their work underway monthly in order to adjust maximum bidding capacity to available bidding capacity. You can find the link to this report at the website shown above.

Sincerely,

James E. Taylor II

James E. Taylor II, Prequalification Supervisor

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY): 06/28/2024

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

PRODUCER Brown & Brown Insurance Services, Inc. 3520 Thomasville Rd., Ste. 500 Tallahassee FL 32309	CONTACT NAME: Tina Graham PHONE (A/C, No, Ext): (850) 656-3747 FAX (A/C, No): (850) 656-4065 E-MAIL ADDRESS: Tina.Graham@bbrown.com

ADDENDUM 1
ITB 07-25-CIP, BARRACUDA BOULEVARD ROADWAY ENHANCEMENT
April 8, 2025

TO ALL PROPOSERS:

Notice is hereby given to all Proposers that this is Addendum 1 to **ITB 07-25-CIP, Barracuda Boulevard Roadway Enhancement,** issued March 13, 2025.

This addendum is issued to answer vendor questions, clarify, add, delete, correct and/or change the proposal documents to the extent indicated and is hereby made a part of the above noted solicitation documents. Any modifications/changes made by this addendum affect only the portions or paragraphs specifically identified herein; all remaining portions of the proposal are to remain in force. It is the responsibility of all Applicants to conform to this addendum. Please note, questions are recorded as they are received, including grammar and spelling errors.

This addendum shall be considered part of the Contract Documents for the above-mentioned solicitation as though it had been issued at the same time and incorporated integrally therewith. Where provisions of the following supplementary data differ from those of the original document, this addendum shall govern and take precedence. All other terms, conditions, and regulations will apply.

This addendum impacts all vendors interested in submitting proposals for this solicitation.

Attachments: Geotech Permeability Report
Revised Bid Set

Questions/Answers:

1. **Question:** What is the engineer's estimate?

   Answer: The Engineers Estimate for probable cost was $416,215.00.

2. **Question:** Civil and Landscape plans note "do not scale drawings". Is there a scalable set of plans available?

   Answer: The Plans have since been revised to remove that note. The revised Civil Plans are attached with this Addendum.

3. **Question:** Will the contractor be expected to clean the existing 24" RCP storm drainage crossing?

   Answer: The contractor will not be responsible for cleaning the 24" RCP existing Storm Pipe.

4. **Question:** Is there a Geotech report available? It does not appear that Appendix A was included with the specifications.

   Answer: Yes, there was a Geotech report performed in 2022 by Bechtol Engineering and Testing Inc. which is attached to this Addendum.

5. **Question:** Part 2 Materials & Equipment of section 01 20 00 has a list of Bid Items and the work included with each bid item. Bid Item C5 ASPHALTIC CONCRETE W/ TACK COAT AND EXISTING STRIPING REPLACEMENT states "payment will be made at the contract per square yard unit price for full compensation for all materials and work necessary to complete the installation in accordance with the drawings and specification. No where in the contract does it illustrate the work associated with this item. Does this item include asphalt? If so, what is the thickness? What is the difference between bid item C5 and C6?

   Answer: Bid Items C5 and C6 are in correlation with each other and consist of the same work which includes milling and resurfacing the existing asphalt pavement. Bid item C6 states the thickness of the asphalt for Bid Item C5. The work associated with the Bid Items can be found on the Demo Plans, Sheet C-051 of the Civil Plan Set, which shows the area of what is getting milled. We are replacing the milled asphalt with Bid Item C5 ASPHALTIC CONCRETE W/ TACK COAT AND EXISTING STRIPING REPLACEMENT with a thickness of 1 ½" Wearing Surface.

6. **Question:** Bioswale Irrigation sheet L-111 states the contractor shall be responsible for the water meter and connection fee. How much does the City of New Smyrna Beach charge for the connection fee?

   Answer: The water meter and connection fee will be $1,000 to be coordinated with New Smyrna Beach Utilities.

7. **Question:** Part 2 Materials & Equipment of section 01 20 00 has a list of Bid Items and the work included with each bid item. Bid Item C6 1 ½" Wearing Surface outlines what the compensation includes (not limited to furnishing and placing concrete, epoxy coated reinforcing steel, joint filler and sealer, deck drains, bridge scupper, and any other material; erecting and removing all forms, curing concrete, pretecting concrete in wind, rain, low humidity, high temps or other unfavorable weather). Where in the plans does this scope apply

   Answer: Although some of the work described within Part 2 Materials and Equipment are not applicable, the intent is to cover the work associated with milling and resurfacing the roadway.

8. **Question:** If the contractor milling 1 3/4" and paving back a variable thickness lift for positive drainage, shouldn't the asphalt pay item be in tons to account for the varying thickness?

   Answer: The milling depth is 1 ½" and will be replaced with 1 ½" thick asphalt.

ALL OTHER AREAS OF THE BID DOCUMENT REMAINS THE SAME

ADDENDUM 2
ITB 07-25-CIP, BARRACUDA BOULEVARD ROADWAY ENHANCEMENT
April 14, 2025

TO ALL PROPOSERS:

Notice is hereby given to all Proposers that this is Addendum 2 to **ITB 07-25-CIP, Barracuda Boulevard Roadway Enhancement,** issued March 13, 2025.

This addendum is issued to answer vendor questions, clarify, add, delete, correct and/or change the proposal documents to the extent indicated and is hereby made a part of the above noted solicitation documents. Any modifications/changes made by this addendum affect only the portions or paragraphs specifically identified herein; all remaining portions of the proposal are to remain in force. It is the responsibility of all Applicants to conform to this addendum. Please note, questions are recorded as they are received, including grammar and spelling errors.

This addendum shall be considered part of the Contract Documents for the above-mentioned solicitation as though it had been issued at the same time and incorporated integrally therewith. Where provisions of the following supplementary data differ from those of the original document, this addendum shall govern and take precedence. All other terms, conditions, and regulations will apply.

This addendum impacts all vendors interested in submitting proposals for this solicitation.

Revisions: Line item 13 has been removed from the bid proposal, Section V.
Due date: The due date has been extended. Bids are due prior to 5:00 pm on April 21, 2025.
Opening: The opening of bids is rescheduled to 9:00 AM on April 22, 2025.

Attachments: NSB Subcontractor Form
Updated Specifications, replaces original attachment G in OpenGov. See pages 01 20 00-2 to 01 20 00-4 for underlined red items.

Questions/Answers:

1. **Question:** Where is this 220 SY?

   Answer: The Bid Item C-1 Open Cut and Remove Asphalt Pavement is 220 SY. This is the approximate size of the construction footprint over the pipe connecting the bioswale to FDOT right of way.

2. **Question**: Under which pay item are the proposed post mounted parking signs to be accounted for?

   Answer: The proposed post mounted parking signs will be installed by the city.

3. **Question:** Under which pay item is the concrete sidewalk replacement to be accounted under?

   Answer: The short segments of concrete sidewalk will be restored as part of the work associated with Item B2.

4. **Question:** Is Pay Item #13 - Painted Pavement Markings, Standard, Yellow, Island Nose, 6" applicable to this project? All proposed pavement markings are noted as White per the plans.

Answer: That is correct, all the pavement markings on sheet C-103 on the Civil Plan set are white pavement markings. The bid item for yellow striping shall be marked as not applicable (N/A) in Attachment G and the Total Bid Proposal.

5. **Question:** The list of pay item descriptions included with the bid documents do not match the pay items listed on the bid response. For instance, the descriptions include Bid item A2 - Hand Locate & Expose Existing Utilities; however, there is no pay item on the bid response for this scope of work. Is this scope included as part of this project? If so, under which pay item are the associated costs to be included?

   Answer: This specific Bid Item for Hand Locate and Expose Utilities has been identified as not applicable. This has been corrected in Attachment G and all other specs that are referenced to Bid Items. Contractor will only be responsible for calling Sunshine 811 for locates on the utilities in the right of way.

6. **Question:** On page C-102 it mentions to see sheets "L-101 and L-111" for Bioswale, Landscaping, and Irrigation. These sheets are not indexed and are not included in the plans. Line Item 22 mentions "Landscaping and Irrigation". Will these pages be made available?

   Answer: The Plan Sheets L-101 and L-111 can be found under Attachments H and I. They are separate from the Civil Site Plan Set.

7. **Question:** On page G-002 in the "Mill and overlay notes", it mentions that it will be necessary to overmill in some areas to achieve the desired grade. Will this extra work and material be able to be billed through a change order?

   Answer: Where overmill may be necessary, it should be noted that the resurfacing course shall be an average 1 ½" thickness but in no case be less than 1" thick. No change orders will be issued on the amount of tonnage for the work of asphalt pavement.

8. **Question:** Is there a more specific detail for the two drainage structures?

   Answer: Detail is shown on C-102 which references FDOT Index 425.

ALL OTHER AREAS OF THE BID DOCUMENT REMAINS THE SAME

RE: Barracuda Blvd Roadway Enhancements

Dear Mr. John Figueroa-Sicbaldi,

The City received seven (7) bids on the above referenced project on April 21, 2025. Halifax Paving, Inc., of Ormond Beach, Florida was the low bidder with a bid totaling $300,556.00 (bid tabulation attached).

We have looked over their bid, and it is in conformance with the bid documents required. We have checked their General Contractor's License, and it is in good standing with no active complaints. Additionally, we have checked their provided references and the feedback states Halifax can perform the work for this project.

We have worked with Halifax Paving on projects of a similar nature in the past. Therefore, we recommend that the City award this project, in its entirety, to Halifax Paving, Inc. in the amount of $300,556.00.

Please email or call with any questions. Thank you.

Sincerely,

Jennifer W. Shannon, PE
Project Manager

Chris Fagerstrom, PE
Practice Lead

CONSTRUCTION CONTRACT

CITY OF NEW SMYRNA BEACH
VOLUSIA COUNTY, FLORIDA

This Agreement, dated this ____ day of _____, 2025, by and between the **CITY OF NEW SMYRNA BEACH,** hereinafter called the **OWNER,** and **Halifax Paving, Inc.** (a corporation organized and existing under the laws of the State of Florida and hereinafter called the **CONTRACTOR,** is awarded as a result of solicitation **ITB 07-25-CIP**, **Barracuda Boulevard Roadway Enhancement.**

WITNESSETH: The Owner and the Contractor, for the consideration stated herein, agree as follows:

ARTICLE I: Scope of Work

The Contractor shall perform all required work and shall provide and furnish all labor, materials, necessary tools, expendable equipment, and all utility and transportation services required to complete the construction of and all appurtenant work thereto, described in the following document, hereby fully incorporated into this Contract:

ITB 07-25-CIP, Barracuda Boulevard Roadway Enhancement.
City of New Smyrna Beach, Florida

All work shall be in strict compliance with the drawings and specifications, including any and all Addenda, and together with all Contract Documents hereinafter enumerated and made a part thereof.

It is understood and agreed that said labor, materials, tools, equipment, and service shall be furnished and said work performed and completed subject to the approval of the Owner.

ARTICLE II: Contract Price

The Owner shall pay the Contractor for performance of the work in accordance with the Contract Documents in current funds as follows:

$300,556.00

Spelled out: Three Hundred Thousand Five Hundred Fifty-Six Dollars and 00/100

Payment will be made in accordance to the awarded bid proposal and the above negotiated agreed upon Contract Price. Change orders, including additions and deductions, must be approved in writing by the Owner. Any change, where the Contractor has materially deviated from the proposed design shall be borne by the Contractor unless such deviation is agreed to in writing by Owner.

ARTICLE III: Contract Time

The Contractor agrees to commence work within **Ten (10) CALENDAR DAYS** after the date of

Contractor's Initials: TD

the Notice to Proceed letter and shall achieve Substantial Completion within **One Hundred Twenty (120)** consecutive calendar days thereafter. The Contractor shall have an additional thirty (30) consecutive calendar days from the date of Substantial Completion to achieve Final Completion.

ARTICLE IV: Inspection by Contractor

The undersigned Contractor agrees that he has carefully inspected all Contract Documents and is familiar with same; the Contractor agrees that he is responsible for having heretofore examined the site, the location and route of all the proposed work and for having satisfied himself as to the character of the route, the location, surface and under-ground obstructions and nature thereof, the nature of the groundwater conditions and other physical characteristics of the work and work area in order that he may include in the prices which he has bid and the prices of the Contract, all costs pertaining to the work and thereby provide for the satisfactory completion thereof and determination of the Contract prices herein agreed upon, and that this Contract price is based upon these inspections and examination.

ARTICLE V: Liquidated Damages

If the work is not completed within the time specified in Article III of this Contract, the Contractor shall pay the Owner, as liquidated damages, the sum of **ONE THOUSAND ONE HUNDRED NINETY-SEVEN DOLLARS ($1,197)** for each consecutive calendar day thereafter until the work is completed, and as outlined in the Supplemental General Conditions.

ARTICLE VI: Right to Require Performance

The failure of the City at any time to require performance by the Contractor of any provision hereof shall in no way affect the right of the City thereafter to enforce same or be considered a waiver of such provision, nor shall a waiver by the City of any breach of any provision hereof be taken or held to be a waiver of any succeeding breach of such provision or as a waiver of any provision itself.

ARTICLE VII: Component Parts of the Contract

This Contract consists of the following Contract Documents, all of which are hereby made a part hereof as if herein set out in full and all of which are familiar to the Contractor:

- City Advertised Bid with Construction Specifications, Drawings and Addendums
- Awarded Bid Proposal with Bid Bond

The Contractor must provide the following documents within fourteen (14) days upon acceptance of the bid by City Commission. All of which are familiar to the Contractor and are component parts of the contract.

- Certificate of Insurance
- Performance/Payment Bond

Upon completion of the project, the Contractor shall provide the Owner with the Warranty of Title.

Contractor's Initials: _____

ARTICLE VIII: Severability

Should any term, covenant, condition, provision or sentence or part thereof of this Contract, including all Contract Documents which comprise the entire agreement, be held invalid or unenforceable by any court of competent jurisdiction, the remaining terms and provisions shall nevertheless remain in full force and effect.

ARTICLE IX: Force Majeure

No Party shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement, except for any obligations to make payments to the other party hereunder, when and to the extent such failure or delay is caused by or results from acts beyond the impacted party's control, including but not limited to, the following force majeure events:

a) Acts of God
b) A natural disaster (fires, explosions, earthquakes, hurricanes, flooding, storms, infestations, epidemic or pandemic)
c) War, invasion, hostilities (regardless if war is declared or not), terrorist threats or acts, riots or other civil unrest
d) Government order or law
e) Actions, embargoes or blockades in effect on or after the date of this Agreement
f) Action by any governmental authority
g) National or regional emergency
h) Strikes, labor stoppages or slowdowns or other industrial disturbance, and
i) Shortage of adequate power or transportation facilities

The Impacted Party shall give notice within two (2) days of the Force Majeure Event to the other party, stating the period of time the occurrence is expected to continue. The impacted party shall use diligent efforts to end the failure or delay and ensure the effects of such Force Majeure Event are minimized. The Impacted Party shall resume the performance of its obligations as soon as reasonably practicable after the removal of the cause. In the event that the Impacted Party's failure or delay remains uncured for a period of sixty (60) days following Notice given by it, then either party may thereafter terminate this Agreement upon Notice

Notwithstanding the foregoing, any pandemic or epidemic, including but not limited to those related to COVID-19 and its mutations, and related issued executive orders and/or administrative orders by any federal, state, or local government entity related to any pandemic or epidemic, shall NOT be considered a force majeure and is expressly excluded from that definition herein and said even shall not prevent CONTRACTOR from timely performing its functions under this Agreement

ARTICLE X: Human Trafficking

This Contract is subject to the terms, conditions, provisions and requirements of Section 787.06 of the Florida Statutes and Contractor hereby represents, warrants, and certifies that Contractor does not use coercion for labor or services as defined in Section 787.06, Florida Statutes and that Contractor has provided the Human Trafficking Affidavit.

THE CITY OF NEW SMYRNA BEACH - CAPITAL IMPROVEMENTS PROJECT

CONSIDER THE APPROVAL OF A CONTRACT AWARD TO PLAYCORE WISCONSIN, INC. DBA GAMETIME FOR RFP 13-25-CIP DESIGN BUILD SAIL SHADE STRUCTURE FOR PETTIS PARK

May 27, 2025

Background:

In February of 2025, the City of New Smyrna Beach was awarded an allocation of $120,000 from the Community Development Block Grant (CDBG) program through Volusia County. This grant award aims to improve the playground at Pettis Park, located at 800 Mary Avenue, through the installation of a new sail shade structure that would cover the existing playground equipment. This additional shade would improve the overall recreational space for the public and especially for families.

On March 27th, 2025, the City of New Smyrna Beach initiated a Request for Proposal (RFP) 13-25-CIP Design Build Sail Shade Structure for Pettis Park. In response to the advertisement, on April 29th, the city received three (3) proposals:

- Bliss Products & Services, Inc.,
- Lanier Plans Inc., dba: KorKat,
- PlayCore Wisconsin, Inc., dba Game Time.

An evaluation committee consisting of three (3) staff members independently reviewed each proposal. The committee discussed each proposal on May 6th, during a virtual Teams meeting that was open to the Public. It was the consensus of the committee that Playcore Wisconsin, Inc. dba GameTime, be recommended the award of the contract based on experience, proposed design, and cost. The proposed contract cost for the design build of the new shade structure is $99,077.00.

Fiscal Analysis:

Total Cost: $99,077.00

The County of Volusia is a direct recipient of the federal Community Development Block Grant (CDBG) funds and will reimburse the city upon completion of the project. (Project #25PSS). This is a reimbursement grant that does not require match funding. This is a federally funded project for FY 24/25.

Strategic Plan Item:

No

I. Public Notice

RFP 13-25-CIP

Design Build Sail Shade Structure for Pettis Park

The City of New Smyrna Beach, Florida (the "City") is requesting sealed proposals from qualified contractors to design, build, and install a sail shade structure for Pettis Park located 800 Mary Avenue, New Smyrna Beach, Florida, 32168.

This is a federally assisted project and is subject to Federal Labor Standards which include, the Davis-Bacon Act (payment of prevailing wage rates) and the Copeland Act (anti-kickback of wages & submission of weekly certified payroll reports), as well as other provisions including 24 CFR 85.36 (bonding requirements), and Section 3 & M/WBE. Laborers and mechanics employed by primary contractors and sub-contractors performing construction work on this project shall be paid wages at rates not less than the prevailing rates as determined by the Secretary of Labor in accordance with the Davis-Bacon Act. The prime contractor is responsible for the enforcement of wage compliance and support documentation for the duration of the project and may be held liable for wage restitution. The applicable information regarding the laws and regulations stated above are included in the bid packet.

Solicitation documents can be obtained through the City's eProcurement Portal found at https://procurement.opengov.com/portal/cityofnsb.

II. Introduction

Thank you for your interest in doing business with the City of New Smyrna Beach, Florida.

If you are interested in preparing a response to this solicitation, please read the solicitation package in its entirety prior to submitting a response.

Under Chapter 119, Florida Statutes, all responses to this solicitation shall be considered public record, subject to distribution pursuant to the request for records by any interested party.

For purposes of this solicitation the terms "Contractor", "Consultant" “Proposer,” “Respondent” and/or “Vendor,” are used interchangeably, and are in reference to the person or entity submitting the response to this solicitation.

II.A Summary

The City of New Smyrna Beach is accepting sealed electronic proposals from qualified contractors to design, build and install an approved sail shade structure to cover the existing playground equipment at Pettis Park located at 800 Mary Avenue, New Smyrna Beach, Florida, 32168.

If an award is made it shall be made to the best overall proposer(s) whose proposal is most advantageous to the City, taking into consideration the evaluation factors set forth in this document. The City shall not use any other factors or criteria in the evaluation of the proposals received. The successful proposer will hereinafter be referred to as the "Contractor".

II.B Background

The City serves an area of 41.6 square miles in size and serves a population of approximately 33,402. It is located off of Florida’s East Coast, in the County of Volusia, just north of Cape Canaveral with easy access to both Interstate 95 and Interstate 4.

The City was created in 1887 by adoption of its first charter, which was replaced through Chapter 224.08, Special Acts of Florida, 1943, and subsequently amended, with the most recent update taking effect January 1, 2021.

The legislative branch of the City is composed of an elected five-member City Commission consisting of the Mayor and four Commissioners. The City Commission is governed by the City Charter and by state and local laws and regulations. The City Commission is responsible for the establishment and adoption of policy. The execution of such policy is the responsibility of the Commission-appointed City Manager.

More detailed information on the government and can be found in City of New Smyrna’s Comprehensive Annual Financial Report (CAFR). This report may be viewed on https://www.cityofnsb.com/105/Financial-Reports.

The City of New Smyrna is exempt from any and all state, local and federal taxes.

III. General Definitions

The following is a list of definitions for common purchasing terms. These terms are defined to provide a common understanding. Terms "Consultant", "Contractor", "Company", "Firm", "Corporation", "Business", "Proposer," "Respondent", and/or "Vendor," are used interchangeably within solicitations and are in reference to the person or entity submitting a response to a solicitation.

A complete, comprehensive reference guide for public purchasing terms and concepts can be found on the National Institute Government Purchasing (NIGP) website.

III.A General Definitions

Agreement: An understanding, usually in writing, between two or more competent parties, under which one party agrees to certain performance as defined in the agreement and the second party agrees to compensation for the performance rendered in accordance with the conditions of the agreement. Agreements and contracts are sometimes used synonymously.

Bid: A quotation of price for commodity or service in response to an invitation to offer a price for commodity or service. These quotations may be formal or informal as defined herein.

CCNA: Consultants Competitive Negotiation Act. Services Florida Statute 287.055. Professional services provided by Engineers, Surveyors, Architects and Landscape Architects.

CDBG: Community Development Block Grant

City: City of New Smyrna Beach.

Claims and Notices: A notice is defined to be information rendered by either party to the other upon a condition becoming known pursuant to the following requirements. All claims, requests, substitutions, changes, notices, delays, and all other forms of notices or claims by the Contractor to the Owner must be in writing and promptly presented to the City Manager or designee. If none is so made, it is irrefutably presumed not to have been given by the contractor to the Owner.

Competitive Sealed Bids: The receipt of one or more sealed bids or proposals submitted by responsive and qualified bidders or offerors.

Construction: The process of utilizing labor to build, alter, repair, improve, or demolish any structure, building or public improvement; generally, does not apply to routine maintenance, repair, or operation of existing real property.

Consultant: A person or company that possesses unique qualifications that allow them to perform specialized advisory services usually for a fee.

Contract: The agreement executed by the Owner and the Contractor covering the work to be performed and including all Contract Documents.

Contractor: A person or firm who contracts to sell commodities or contractual services to the City.

Debarment: 1. Prohibits a seller or contractor from bidding on future requirements for cause for a certain period of time. 2. A sanction brought against a seller whereby they may not engage in future procurement actions. 3. To exclude or shut out of future solicitations and contracting opportunities.

Drawings: The drawings listed and described in the Contract Documents.

Engineer: For this project, reference to the Engineer shall refer to City Engineer Tuan Huyng, or his designee.

Evaluation Committee: A committee established to conduct an evaluation of proposals, interviews, and negotiations during the solicitation process for a specific product or service.

Usually composed of representatives from the functional area identified in the solicitation. May also be described as a Review Committee.

Firm: A partnership or business unit of two or more persons not recognized as a corporation.

Formal Bid: A written quotation of price for a commodity or service submitted in response to a written invitation or legal advertisement to offer a price for said commodity or service. Such quotations are submitted in a sealed envelope and opened at a specified time and place. Also known as a Solicitation.

Informality or Waiver: The act of disregarding minor informalities, errors, or technical nonconformance in the bid or proposal that will not adversely affect the competition or prejudice one bidder in favor of another.

Owner: City of New Smyrna Beach

Professional Services: Services within the scope of the practice of architecture, professional engineering, landscape architecture, or registered surveying and mapping, as defined by the laws of the state, or those performed by any architect, professional engineer, landscape architect, or registered surveyor and mapper in connection with his or her professional employment or practice. Florida Statute 287.055.

Projects: The entire construction, installation or work to be performed as set forth in the Contract Documents.

Protest: A written objection by an interested party to a solicitation or award of a contract with the intention of receiving a remedial result.

Request for Proposals/Qualifications: A written request for proposals or qualifications from interested vendors and service providers that may or may not ask for pricing information. Also known as an RFP or RFQ.

Specifications: A clear, complete, and accurate statement of the technical requirements descriptive of an item and if applicable, the procedure to be followed to determine if the requirements have been met.

Subcontractor: Any person, firm or corporation other than the Contractor supplying material or labor for work at the site of the project. Such person or firm has contractual relations with the Contractor, but not with the Owner.

Sunbiz: Sunbiz.org is a web site for companies to register to transact business in the State of Florida. It is run by the Florida Department of State, Division of Corporations.

Sunshine Law: A law that requires public disclosure of a government act. Laws that require state and local agencies to conduct their business in the sunshine. In 1992, Florida voters reaffirmed the right to open government by approving an amendment adoption Article 1, [section] 24(6) of the Florida Constitution, which "grant[ed] constitutional status to the public's right of access to all levels of government." Many other states have also adopted similar laws. Public officials have a duty to conduct meetings in the sunshine. They also have a duty to protect the trade secrets of the suppliers with whom they do business.

Surety: Any person, firm or corporation that has executed as Surety.

Vendor: A person or entity that provides goods and/or services, usually for low-cost, low-risk, and short-term engagements.

IV. General Information

IV.A Ambiguity, Conflict, or Other Errors

If a proposer discovers any ambiguity, conflict, discrepancy, omission, or any other errors in this document, the proposer shall immediately notify the Purchasing Agent, noted herein, of such error in writing and request a modification or clarification of the document. The Purchasing Agent shall make modifications by issuing an addendum and shall post to the City's e-Procurement portal and give written notice to all parties who have received this document. No interpretation shall be considered binding unless provided in writing by the City of New Smyrna Beach.

The proposer is responsible for clarifying any ambiguity, conflict, discrepancy, omission, or other error in this document prior to submitting a response or it shall be waived.

IV.B Americans with Disabilities Act

Persons with disabilities needing special accommodation at public meetings should contact the Purchasing Department at 386-410-2654, no later than seven (7) days prior to the appropriate date on which the accommodation is requested.

IV.C City's Rights

The City of New Smyrna Beach reserves the right to retain all proposals submitted regardless of whether that proposal is selected. Submission of a proposal indicates acceptance by the respondent of the conditions contained in this solicitation, unless clearly and specifically noted in the proposal submitted and confirmed in the contract between the City of New Smyrna Beach and the awarded firm or consultant.

The City has the sole discretion and reserves the right to cancel or withdraw this solicitation at any time for any reason, to reject any/all proposals, to waive any/all informalities and/or irregularities, or to re-advertise with either the identical or revised specifications, if it is deemed to be in the best interest of the City to do so.

The City also reserves the right to award a contract based on experience and qualifications or to award only a portion of the services specified, if deemed to be in the City’s best interest.

IV.D Award of Contract

If an award of contract is made it shall be made to the best overall proposer(s) whose proposal is most advantageous to the City, taking into consideration the evaluation factors set forth in this document. The City shall not use any other factors or criteria in the evaluation of the proposals received.

A contract resulting from this solicitation shall be subject to the terms and conditions set forth in a standard City agreement. The City reserves the right to include in any contract document such terms and conditions as it deems necessary for the proper protection of the rights of the City. The City shall not be obligated to sign any contracts, maintenance and/or service agreements or other documents supplied by the Contractor.

It is the City's intent to enter into one agreement with one company for a term of six (6) months.

It is the City's expectation that the successful Contractor shall have sufficient staff to commence work within ten (10) of a fully executed contract.

Assignment: The awarded Firm or Consultant shall not assign, transfer, convey, sublet or otherwise dispose of this contract, or of any or all of its rights, or interest therein, or his or its power to execute such contract to any person, company or corporation without prior written consent of the City.

IV.E Collusion Among Firms

More than one (1) proposal from an individual, firm, partnership, corporation, or association under the same or different names will not be considered. Reasonable grounds for believing that a Proposer is involved in more than one proposal will be cause for rejection of all proposals in which such Proposers are believed to be involved. Any or all proposals will be rejected if there is reason to believe that collusion exists between Proposers. Proposals in which the prices obviously are unbalanced will be subject to rejection.

The Proposer, by affixing its signature to a submitted proposal, certifies that its proposal is made without previous understanding, agreement, or connection with any person, firm or corporation submitting and making a bid for the same item(s), and is in all respects fair, without outside control, collusion, fraud, or otherwise illegal action.

IV.F Completeness and Compliance

Submitted proposals shall contain the information as required in this solicitation. Failure to submit the required information, or proposals that are incomplete and/or lack key information, may be rejected by the City.

All items contained in the proposal must be in total compliance with the specifications of this solicitation. Alternate proposals will not be considered unless specifically called for in this solicitation. Proposers' attention is specifically called to the terms, conditions, and special provisions of this solicitation. Please be aware that, under the competitive process, the

stipulations set forth herein are fully binding on the Proposer to the extent that you confirm acceptance by your electronic submission.

By submitting a response, the Proposer certifies that the Proposer has fully read and understands this solicitation document and has full knowledge of the scope, nature, quantity, and quality of work to be performed; the detailed requirements of the services to be provided; and the conditions under which the services are to be performed.

IV.G Cone of Silence/Lobbying

Lobbying is defined as any action taken by an individual, firm, association, joint venture, partnership, syndicate, corporation, and/or all other groups who seek to influence the governmental decision of a City Commission Member, the City Manager, any requesting or evaluating Department/Division/Office personnel and/or any member of the Evaluation Committee concerning an active solicitation during the black-out period.

A lobbying black-out period commences upon the issuance of this solicitation document.

If a recommendation to award is presented to City Commission for approval or for a request to provide authorization to negotiate a Contract(s) and the City Commission refers the item back to the City Manager, Procurement Department and/or the requesting Department further review or otherwise does not take action on the item, the Cone of Silence/Lobbying Black-out Period will be reinstated until such time as the City Commission meets to consider the item for action.

Bidders, respondents, potential vendors, service providers, lobbyists, consultants, or vendor representatives shall not contact any City Commission member, the City Manager and/or any member of the evaluation committee concerning an active solicitation during the Cone of Silence/Lobbying Black-out Period.

IV.H Conflict of Interest

Submitted proposals shall include a completed Conflict-of-Interest Affidavit provided as an attachment in Section VIIII of this solicitation. Disclosure of any potential or actual conflict of interest is subject to City staff review and does not in and of itself disqualify a firm from consideration.

These disclosures are intended to identify and or preclude conflict of interest situations during contract selection and execution.

IV.I Cost of Submittal

Proposer understands that any and all costs related to the submittal of a proposal is considered an operational cost to the Proposer and shall not be passed on to or be borne by the City. By submission of a proposal, the Proposer agrees that any and all costs associated with the preparation of the proposal will be the sole responsibility of the Proposer. The Proposer also agrees that the City shall bear no responsibility for any costs associated with the preparation of

the proposal including but not limited to any administrative or judicial proceedings resulting from the solicitation process.

IV.J Determining Responsibility

The determination as to whether a Proposer is considered responsible shall be at the sole discretion of the City. The City may request information relating to contracts similar to the requirements of this solicitation.

The City also reserves the right to reject the proposal of a proposer who has previously failed to perform properly or complete projects timely, whose investigations show that the proposer is not in a position to perform the contract.

In determining responsibility, the following qualifications, in addition to price, may be considered:

A. The Proposer's ability, capacity, and skill to provide the goods or to perform the service within the time specified;

B. The character, integrity, reputation, judgement, experience and efficiency of the Proposer;

C. The quality of performance of previous contracts or services including previous performance with the City;

D. The sufficiency of financial resources to meet the obligations of the required contract and to perform the services;

E. Quality Control Program.

F. Contract claims, litigation filed against the Proposer or filed by the Proposer for equitable adjustment; Reprimand of any nature or suspension by the Department of professional Regulation or any other regulatory agency or professional association in the past five (5) years.

G. Ability to provide future maintenance, service, and support of the goods/services under contract; and,

H. Whether the Proposer is in arrears to the City on a debt or a contract or is a defaulter on surety to the City; or whether the Proposer's taxes or assessments are delinquent.

I. Such other information as may be relevant or secured.

IV.K Due Date

Electronic proposals shall be received prior to 5:00 pm on Monday, April 28, 2025, via the City's e-Procurement Portal.

Submittals will not be permitted or accepted after this date and time. There is no expressed or implied obligation for the City of New Smyrna Beach to reimburse responding proposers for any expenses incurred in preparing a response to this solicitation.

Contact OpenGov technical support at support@opengov.com if technical difficulties arise during the submission of a proposal.

Received proposals are subject to the conditions specified herein and on any attached sheets, specifications, special conditions, or vendor notes.

The City is not responsible for the failure of a Proposer or the Proposer's agent to submit responses in a timely manner. Proposals by email, telephone or fax shall be rejected as non-responsive.

IV.L Evaluation of Submittals

An evaluation committee consisting of City staff shall review and score each proposal based on the criteria set forth in Section V of this document titled Evaluation Criteria.

Presentations or demonstrations may be scheduled for the top-ranked respondents. If an award of contract is recommended it will be based on the combined scores from the proposal review and presentations, if applicable. The consensus of the committee will be the deciding factor on how to move forward.

A submission of a proposal to the City offers no rights upon the respondent nor obligates the City in any manner. Acceptance of a proposal does not guarantee issuance of any other governmental approvals.

If made, the recommendation of award will be made to the best overall respondent whose proposal is most advantageous to the City, taking into consideration the evaluation factors set forth in this solicitation. The City will not use any other factors or criteria in the evaluation process.

The consensus of the committee will be the deciding factor on how to move forward.

Contract Negotiations: After the ranking is completed, the City will attempt to negotiate an agreement with the top ranked firm or individual which is determined to be in the best interest of the City. The agreement will cover all aspects of the scope of services as described herein. If no agreement is reached with the top ranked firm or individual, negotiations will be terminated and initiated with the next-ranked firm or individual, and so on, until an agreement is reached.

The selected firm/contractor shall be required to sign a standard City contract within fourteen (14) days of Notice of Selection for Award.

IV.M E-Verify

The E-Verify System means an internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees.

Pursuant to Florida Statute 448.095, any new contract or renewal with a public agency requires the vendor and any subcontractor thereof to register with and use the E-Verify system to verify the work authorization status of all new employees working in the state of Florida or the United States. If the contractor or vendor enters into a contract with a subcontractor, the subcontractor must provide an affidavit to the contractor or vendor that states that the

subcontractor does not employ any unauthorized alien in Florida or the United States. The contractor shall provide and maintain proof of compliance with this statute upon request.

Information on registration for and use of the E-Verify System can be obtained via the internet at the Department of Homeland Security Web site: http://www.dhs.gov/E-Verify.

Every Vendor shall, upon request, provide evidence of compliance with this provision to the Owner. Failure to comply with this provision is a material breach of an Agreement, and the Owner may choose to terminate the Agreement at its sole discretion. The Vendor may be liable for all costs associated with the Owner securing the same services, inclusive, but not limited to, higher costs for the same services and rebidding costs (if necessary).

IV.N Federal and State Tax

The City of New Smyrna Beach is exempt from Federal and State Sales and Use Taxes for tangible personal property. Anyone doing business with the City shall not be exempted from paying sales tax to their Suppliers for materials to fulfill contractual obligations with the City nor shall any Contractor be authorized to use the City's Tax Exemption Number in securing such materials.

IV.O Florida Public Records Act

All material submitted regarding this solicitation becomes the property of the City. Solicitation documents may be reviewed by any person ten (10) days after the public opening. The Respondent should take special note of this as it relates to any proprietary information that might be included in its offer. Any resulting contract may be reviewed by any person after the contract has been executed by the City.

The City has the right to use any or all information/material submitted in response to this solicitation and/or any resulting contract from same. Disqualification of a Professional Consultant does not eliminate this right. This section is further subject to F.S. 119.01 et. seq.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CITY'S CUSTODIAN OF PUBLIC RECORDS, CITY CLERK, AT 386-410-2630, CLERK@CITYOFNSB.COM, CITY OF NEW SMYRNA BEACH, 210 SAMS AVENUE, NEW SMYRNA BEACH, FL 32168.

The contractor is required to comply with public records laws, specifically to:

A. Keep and maintain public records required by the public agency to perform the service.

B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.

C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the

duration of the contract term and following completion of the contract if the contractor does not transfer the records to the public agency.

D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the contractor or keep and maintain public records required by the public agency to perform the service. If the contractor transfers all public records to the public agency upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IV.P Foreign Corporation

In accordance with Section 607.150 of the Florida Statutes, and provided an exemption is not available, a foreign corporation may not transact business in Florida until it obtains a certificate of authority from the Florida Department of State.

Foreign corporations may submit proposals prior to obtaining a certificate of authority from the Florida Department of State. A foreign corporation must be in compliance with F.S. 607.150, prior to entering into a Contract with the City.

IV.Q Governing Law/Jurisdiction

The interpretation, effect, and validity of any contract(s) resulting from this solicitation shall be governed by the laws and regulations of the State of Florida. In the event that a suit is brought for the enforcement of any term of the contract(s), venue of any court action shall be in Volusia County, Florida.

IV.R Human Trafficking

Compliant with Florida Statutes, 787.06.

A contract resulting from this solicitation is subject to the terms, conditions, provisions and requirements of Section 787.06 of the Florida Statutes and Contractor hereby represents, warrants, and certifies that Contractor does not use coercion for labor or services as defined in Section 787.06, Florida Statutes and that Contractor has provided a complete Human Trafficking Affidavit provided as attachment in Section VIIII of this document.

IV.S Immigration Reform and Control Act

Proposer acknowledges, and without exception or stipulation, any firm(s) receiving an award shall be fully responsible for complying with the provisions of the Immigration Reform and Control Act of 1986 as located at 8 U.S.C. 1324, et seq. and regulations relating thereto, as either

may be amended. Failure by the awarded firm(s) to comply with the laws referenced herein shall constitute a breach of the award agreement and the City shall have the discretion to unilaterally terminate said agreement immediately.

IV.T Inquiries

To ensure fair consideration for all parties, the City prohibits communication to or with any department, division, employee, or City representative from the issuance date of this solicitation until the City's final action. Unauthorized contact regarding this solicitation with any employee, and/or elected City officials of the City of New Smyrna Beach other than purchasing may result in disqualification from this procurement process of the contacting individual/firm submittal.

All questions related to this RFP shall be submitted in writing via the OpenGov Question/Answer Tab via the City's e-Procurement portal, on or before 5:00 pm on Monday, April 21, 2025. In order to ensure that questions asked are responded to correctly, include the section title for each question and enter each question separately.

Proposers must clearly understand that the only official answer or position of the City shall be the one stated in writing by the City. All questions submitted and answers provided shall be electronically distributed to proposers following this solicitation on the City's e-Procurement Portal.

All responses to questions will be in the form of an addendum that will be posted on OpenGov. Proposers are required to acknowledge receipt of the posted addendums, if any, by signing a posted addendum and submitting a signed copy with a submitted proposal.

It is the responsibility of the prospective respondents to check OpenGov for addendum(s) and other important information pertaining to this solicitation. The City reserves the right to make a written request for additional information from a Contractor/Vendor to assist in understanding or clarifying a proposal. The responses are to be provided in writing.

The City is not responsible for the content of any public solicitation package received through any 3rd party service or any source not listed above. It is the sole responsibility of the contractor to ensure the completeness of the documents received from any 3rd party. The City is not responsible for errors and omissions occurring in the transmission or downloading of any specifications from our or any website.

IV.U Joint Ventures

Responders that are intending to submit a bid response as a joint venture are required to have filed proper documents with the Division of Corporations, and/or any other State or local licensing agency prior to submitting a bid response. Please refer to Section 489.119 Florida Statutes.

Joint venture firms must provide an affidavit attesting to the formulation of a joint venture and provide either proof of incorporation as a joint venture or a copy of the formal Joint Venture Agreement between all joint venture parties, indicating their respective roles, responsibilities, and levels of participation for the project.

IV.V Judgements/Legal Findings

By submitting a proposal for consideration, the proposer affirms that they currently have no judgements or other legal findings nor have any pending judgements or other legal findings against the company or any of its executives, with any federal, state or local governmental entities that in any way could impact or have the potential to impact their ability to complete any contract awarded them as a result of this bid. Failure to disclose any such judgments and/or findings will result in the termination of any contracts and other penalties as deemed legal and appropriate by the City.

IV.W Legal Requirements

Federal, State, County and local laws, ordinances, rules, and regulations that in any manner affect the item(s) covered herein apply. Lack of knowledge by the proposer will in no way be cause for relief from responsibility.

IV.X Liability

The City of New Smyrna Beach assumes no responsibility for the cost of preparing a response to this solicitation. The awarded consultant shall hold and save the City of New Smyrna Beach, its officers, agents and employees harmless from liability of any kind in the performance of or fulfilling the requirements of a contract which may result from award of this solicitation.

Neither party shall be held responsible for failure to complete contract due to causes beyond its control, including, but not limited to, work stoppage, fires, civil disobedience, riots, rebellions, Acts of Nature and similar occurrences making performance impossible or illegal.

The Consultant shall hold and save the City of New Smyrna Beach, its officers, agents, and employees harmless against claims by third parties resulting from the Consultant's breach of contract or negligence, including all attorney's fees and costs, and shall pay any and all damages, fees, and costs assessed on behalf of the City. The City expressly reserves all rights, privileges, and benefits of sovereign immunity.

IV.Y Method of Source Selection

The City of New Smyrna Beach is using the competitive sealed request for proposal methodology of source selection for this procurement, as authorized by the City Purchasing Policy.

IV.Z On-line Provider Disclaimer

It is recommended that respondents register and maintain their registration with OpenGov at www.OpenGov.com. This is a third-party provider that provides a platform to communicate solicitation information to the Public. OpenGov does not represent the City nor does communications through this provider constitute communications to the City. The City of New Smyrna Beach is not responsible for errors and omissions occurring in the transmission or downloading of any documents from the online website. In the event of any discrepancy

between information on this website and the hard copy specifications, the terms of the hard copy specification will control.

IV.AA Opening of Proposals

Electronic proposals will remain sealed until the time of the opening listed in the Timeline of Section II.D of this document. Through Microsoft Teams, the received proposals will be publicly opened and the Proposers' names read aloud at that time. It is important to note that this is public meeting, and the meeting will be recorded.

Join the meeting now

Meeting ID: 247 803 785 822, Passcode: uG6SW64W

or dial in by phone: 786-636-1338. Phone conference: 748-135-66#

Proposers may also contact the City's Purchasing Agent to obtain information to view the opening of the received proposals. No discussion of the proposals will occur at this time.

IV.BB Payment

Florida Statute 218.70, et seq, known as the "Florida Prompt Payment Act" sets forth "the policy of this state that payment for all purchases by local governmental entities is made in a timely manner". This is also the policy of the City of New Smyrna Beach.

IV.CC Pre-Bid Meeting

There will be a non-mandatory pre-bid meeting for this project. Attendance is strongly encouraged to understand the requirements of the Scope of Work.

The date and time of the pre-bid site visit is provided in Section II.D, Timeline

IV.DD Principals/Collusion

By submission of this proposal, the undersigned, as proposer, does declare that the only person or persons interested in this solicitation as principal or principals is/are named therein and that no person other than therein mentioned has any interest in this solicitation or in the contract to be entered into; that this proposal is made without connection with any person, company or parties submitting a proposal, and that it is in all respects fair and in good faith without collusion or fraud.

IV.EE Prohibition of Gifts to City Employees

No organization or individual shall offer or give, either directly or indirectly, any favor, gift, loan, fee, service, or other item of value to any City employee, as set forth in Chapter 112, Part III, Florida Statutes, the current City Ethics Ordinance, and City Administrative Policy. Violation of this provision may result in one or more of the following consequences:

A. Prohibition by the individual, contractor, and/or any employee of the contractor from contact with City staff for a specified period of time;

B. Prohibition by the individual and/or contractor from doing business with the City for a specified period of time, including but not limited to: submitting proposals, responses, and/or quotes and;

C. Immediate termination of any contract held by the individual and/or proposer for cause.

IV.FF Proposal, Presentation, and Protest Costs

The City shall not be liable in any way for any costs incurred by any proposer in the preparation of its proposal in response to this solicitation, nor for the presentation of its proposal and/or participation in any discussions, negotiations, or, if applicable, any protest procedures.

IV.GG Proprietary Information

In accordance with Chapter 119 of the Florida Statutes (Public Records Law), and except as may be provided by other applicable State and Federal Law, all proposers should be aware that Requests for Proposals and the responses thereto are in the public domain. However, the proposers are requested to identify specifically any information contained in their proposals which they consider confidential and/or proprietary and which they believe to be exempt from disclosure, citing, specifically the applicable exempting law.

A generic notation that information is “confidential” is not sufficient. Failure to provide the Procurement Agent with a detailed explanation and justification including statutory cites and specific reference to a submitted proposal detailing what provisions, if any, you believe are exempt from disclosure, may result in your entire proposal being subject to disclosure in accordance with Chapter 119 of the Florida Statutes

All proposals received from proposers in response to this solicitation will become the property of the City of New Smyrna Beach and will not be returned to the proposers. In the event of contract award, all documentation produced as part of the contract will become the exclusive property of the City.

IV.HH Protest Procedures

1) Respondents who do not agree with the City's recommendation for award shall be afforded the opportunity to protest the recommendation by submitting written notice to the Purchasing Division. Proposals not meeting the minimum published requirements, including specifications, scope of service, or required documents, are not subject to protest.

2) Such notice shall be given within three (3) business days after the City posts its notice of intent to award.

3) A formal written protest shall be made to the Purchasing Division within five (5) working days after filing the notice of protest, which shall state the grounds for the protest and the action requested.

4) The formal written protest shall include with it a bid protest bond in the amount of one percent (1%) of the estimated contract amount, as provided in Florida Statutes § 287.042(2)(c) and Rule 28-110.005 of the Florida Administrative Code. The notice of protest must be either hand-delivered and date and time stamped by the Finance Department, or sent via Certified U.S. mail, return receipt requested. Failure to file a protest within the timeframe specified herein shall constitute a full waiver of all rights to protest the City's decision regarding award of the bid. For full bid protest guidance, consult Section 9.1, Notice of Protest, of the City of New Smyrna Beach's purchasing policy.

IV.II Public Entity Crimes

Pursuant to Section 287.133(12)(a) of the Florida Statutes, "A person or affiliate, who has been placed on the convicted vendor list following a conviction for a public entity crime, may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or CONTRACTOR under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO ($25,000) for a period of 36 months from the date of being placed on the convicted vendor list."

IV.JJ Relation of City

It is the intent of the parties hereto that the contractor shall be legally considered an independent contractor, and that neither the contractor nor their employees shall, under any circumstances, be considered employees or agents of the City, and that the City shall be at no time legally responsible for any negligence on the part of said contractor, their employees or agents resulting in either bodily or personal injury or property damage to any individual, consultant, or corporation.

IV.KK Requests for Clarification

The City may, as it deems necessary, conduct discussions with responsible respondents for the purpose of clarification to assure full understanding of, and responsiveness to solicitation requirements.

Requests by the Purchasing Coordinator to a proposer(s) for clarification of a submittal(s) shall be in writing. Proposer's failure to respond to request for clarification may deem proposer to be non-responsive and may be just cause to reject its proposal.

IV.LL Security Bond

Submitted proposals shall be accompanied by a Bond Security of no less than five (5%) percent of the amount of the submitted Proposal. Failure of the Proposer to supply same, in the amount

and type required, shall automatically render the Proposer as non-responsive resulting in the disqualification from further consideration of their response.

The Security Bond shall be submitted in the form of a Security Bond in the amount of five (5%) percent of the total proposal price, made payable to the City of New Smyrna Beach, issued by a surety firm and through a reputable and responsible surety bond agency licensed to do business in the State of Florida.

The surety must be rated as "A" or better as to strength by Best's Insurance Guide, published by A. M. Best Company, Inc., located at 1 Ambest Road, Oldwick, New Jersey 08858. For the latest ratings and Insurance Guide, access www.ambest.com.

In lieu of a Security Bond, the Proposer may submit cash (U.S. currency only), money order, certified or cashier's check drawn from a national or state bank whose deposits are insured by the Federal Deposit Insurance Corporation (FDIC), in the amount of five (5%) percent of the total proposal price. Money orders and checks must be made payable to the City of New Smyrna Beach.

The terms of the ITB Security Bond shall be:

A. The Proposer shall enter into an agreement if awarded to the Proposer;

B. The surety (or alternate form of security forfeit) shall be responsible for the costs resulting from the failure of the Proposer to enter into an Agreement if awarded to the Proposer; including the increased costs associated with awarding to the next most responsive, responsible Proposer and costs associated with conducting the Bid process and letting the agreement;

C. To promptly enter into an agreement to perform the work and furnish the required Performance and Payment Bond, if applicable; and

D. Any interest earned as a result of the City depositing the accepted money order, certified or cashier's check, or cash received as security bond into an interest-bearing account, shall be retained by the City.

A copy of the security bond must be uploaded with the proposal response in the form of a security bond, certified funds or an irrevocable letter of credit in a sum equal to the amount of ten (10%) percent of the amount of the bid proposal. The contractor shall guarantee the total proposal price for a period of 180 days from the date of the proposal opening.

If the contractor selects to submit a cashiers' check or cash bond it must be received by the City no later than 5:00 pm, EST, on Monday, February 5, 2024. Please submit in a sealed envelope to the following address:

City of New Smyrna Beach

210 Sam's Avenue

New Smyrna Beach, Florida 32168

Attention: Purchasing Department

Return of Security Bond: As soon as the proposals have been evaluated, the City may, at its sole discretion, return or release the security bonds accompanying such bid responses, which in its sole judgment, would not likely be considered for award. All other Security Bonds will be held until award of this project and the agreement has been executed by the successful Proposer; after which any remaining Security Bonds will be returned to the respective Proposers. It shall be the sole responsibility of the Proposer to request in writing from the City the return of the Security Bond or alternative form of security used. Security Bond or alternative form of security used shall not be returned unless requested by the Proposer in writing.

IV.MM Single Proposal

Each Proposer must submit, with their bid, the required forms included in this solicitation. Only one proposal from a legal entity as a primary shall be considered. A legal entity that submits a proposal as a primary or as part of a partnership or joint venture submitting as primary may not then act as a sub-consultant to any other firm submitting under the same solicitation.

All submittals in violation of this requirement shall be deemed non-responsive and rejected from further consideration.

IV.NN State Registration Requirements

Proposers submitting a proposal in response to this solicitation shall either be registered or have applied for registration with the Florida Department of State in accordance with the provisions of Chapter 607, Florida Statutes. A copy of the registration/application may be required prior to award of a contract.

Any partnership submitting a response to this Solicitation shall have complied with the applicable provisions of Chapter 620, Florida Statutes. For additional information on these requirements, please contact the Florida Secretary of State's Office, Division of Corporations at (800) 755-5111 or visit the following website: (http://www.dos.state.fl.us).

IV.OO Termination

Termination for Convenience: The City reserves the right to terminate the Agreement in whole or part at any time without penalty or cause, which termination date shall not be less than thirty (30) days after the date of such written notice. Upon receipt of the written notice, the Contractor shall immediately stop all work as directed in the notice, notify all subcontractors of the effective date of the termination and minimize all further costs to the City. In the event of termination under this provision, all goods, materials, documents, data and reports prepared by the Contractor under the Agreement shall become the property of and delivered to the City. The Contractor shall be entitled to receive just and equitable compensation for work in progress, work completed, and materials accepted before the effective date of termination. Such compensation shall be the Contractor's sole remedy against the City in the event of termination under this provision.

Termination for Cause or Default: The City reserves the right to terminate the Agreement in whole or in part due to the failure of the Contractor to comply with any term or condition of the Agreement, including failure to acquire and maintain all required insurance policies, bonds, licenses and permits, or to make satisfactory progress in performing the Agreement. The City shall provide written notice of the termination and the reasons for it to the Contractor. Upon termination under this provision, all goods, materials, documents, data and reports prepared by the Contractor under the Agreement shall become the property of and be delivered to the City on demand. The City may, upon termination of the Agreement, procure, on terms and in the manner that it deems appropriate, materials, or services to replace those under the Agreement. The Contractor shall be liable to the City for any excess costs incurred by the City in re-procuring the materials or services.

Contractor's Right to Terminate: If the work should be stopped for a period of three (3) months, under any order of any court or public authority, other than by the Owner, through no act of fault of the Contractor or of anyone employed by the Contractor, then the Contractor may, upon thirty (30) days written notice to the Owner, terminate the Contract and recover from the Owner payment for all work executed and any expense sustained plus a reasonable profit thereon.

Force Majeure:

No Party shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement, except for any obligations to make payments to the other party hereunder, when and to the extent such failure or delay is caused by or results from acts beyond the impacted party's control, including but not limited to, the following force majeure events:

a) Acts of God

b) A natural disaster (fires, explosions, earthquakes, hurricanes, flooding, storms, infestations, epidemic or pandemic)

c) War, invasion, hostilities (regardless if war is declared or not), terrorist threats or acts, riots or other civil unrest

d) Government order or law

e) Actions, embargoes or blockades in effect on or after the date of this Agreement

f) Action by any governmental authority

g) National or regional emergency

h) Strikes, labor stoppages or slowdowns or other industrial disturbance, and

i) Shortage of adequate power or transportation facilities

The Impacted Party shall give notice within two (2) days of the Force Majeure Event to the other party, stating the period of time the occurrence is expected to continue. The impacted party shall use diligent efforts to end the failure or delay and ensure the effects of such Force Majeure Event are minimized. The Impacted Party shall resume the performance of its obligations as soon

as reasonably practicable after the removal of the cause. In the event that the Impacted Party's failure or delay remains uncured for a period of sixty (60) days following Notice given by it, then either party may thereafter terminate this Agreement upon Notice

Notwithstanding the foregoing, any pandemic or epidemic, including but not limited to those related to COVID-19 and its mutations, and related issued executive orders and/or administrative orders by any federal, state, or local government entity related to any pandemic or epidemic, shall NOT be considered a force majeure and is expressly excluded from that definition herein and said event shall not prevent CONTRACTOR from timely performing its functions under this Agreement.

IV.PP Title VI

No person shall on the basis of race, color, national origin, sex, age, disability, family or religious status, as provided by Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, the Florida Civil Rights Act of 1992 and other nondiscrimination authorities, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination or retaliation under any program or activity of the City of New Smyrna Beach.

IV.QQ Validity of Submittal

Submittals cannot be withdrawn after they are filed unless the respondent makes their request in writing to the City prior to the time set for the closing of solicitation.

All submittals shall be valid for a period of one hundred eighty (180) days from the submission date to accommodate evaluation and selection process.

V. Scope of Services

V.A Project Overview

This is a turn-key project with the awarded Contractor being responsible for designing, fabricating, and installing a sail shade system to cover the existing playground equipment at Pettis Park, located at 800 Mary Avenue, New Smyrna Beach.

If funding allows, the sail shade system will also cover the swing set, providing increased user safety through the use of shade.

This project will also require necessary permits and an environmental impact assessment due to the presence of a large oak tree on site.

V.B Tasks

Site Preparation:

- Perform a tree study to determine the impacts on the large oak tree.
- Obtain all necessary permits, including building permits and any other required approvals.

Design and Planning:

- Develop a detailed design for the sail shade structure, considering site conditions and tree study results.
- Design engineering package and specifications.
- Hold a review meeting with stakeholders to finalize design plans.

Fabrication:

- Source and procure materials for the sail shade system.
- Fabricate the sail shades according to the approved design specifications.
- Recommended Specifications for Playground Border
    - 12” in height, made from recycled plastic, and secured with galvanized stakes
- Recommended Specifications for Shade Structure from prior projects:
    - Triangular shade sails that are easy to remove
    - Stainless Steel Cable
    - Stainless Cable Clamps
    - Turnbuckles: Stainless with No-Spin Threads
    - Poles: (Inground), number to be determined during design phase
    - Type: Schedule 40 Steel hot dipped galvanized or equivalent.
    - Custom Welded Eyes: One on each pole
    - Finish: Primer & Paint (Colors to match existing playground equipment).
    - Height to be determined by requested clearance above existing playground structure.
    - Footers: based on number of poles and will need to meet wind load as approved during design phase.
    - Structures must meet hurricane wind load requirements.
    - Quick Release system for the shade sails

Installation:

- Prepare the site for installation, including any necessary groundwork.
- Install the sail shade structure, ensuring proper anchoring and tensioning.
- Conduct a thorough inspection to ensure structural integrity and safety compliance.

Post-Installation Activities:

- Perform a final site inspection with relevant stakeholders.
- Provide a detailed report on the installation, including any maintenance guidelines.
- Address any punch list items or necessary adjustments.

Deliverables:

- Tree dripline study report.
- Permits and approvals documentation.
- Finalized design drawings and specifications.
- Fabricated sail shade components with as-builts.
- Installed sail shade structure.
- Inspection and compliance report.
- Maintenance guidelines and final project report.
- Warranty guarantee for structure.

V.C Additional Important Notes

- Site survey has been completed.
- Structure must be designed to withstand hurricane winds and have the triangular shade sails be easily removed ahead of a major wind event.
- Trees to be trimmed by City staff or hired arborists if necessary.
- Any disturbed mulch will need to be replaced by the contractor.
- Construction site shall be returned to the condition it was in prior to construction starting. There must be removal and cleanup of all debris and construction materials upon completion of the project.
- The final project will not be accepted until the City of New Smyrna Beach approves the work after the construction has been completed.
- It will be the responsibility of the contractor, before digging (if needs to be done), to contact local utility agencies.
- In the event that any specification stated in this request for proposal conflicts with State and/or Federal laws, the State and/or Federal Laws shall prevail.

V.D Contract

If an award of contract is made it shall be made to the best overall proposer(s) whose proposal is most advantageous to the City, taking into consideration the evaluation factors set forth in this document. The City shall not use any other factors or criteria in the evaluation of the proposals received.

A contract resulting from this solicitation shall be subject to the terms and conditions set forth in a standard City agreement. The City reserves the right to include in any contract document such terms and conditions as it deems necessary for the proper protection of the rights of the City. The City shall not be obligated to sign any contracts, maintenance and/or service agreements or other documents supplied by the Contractor.

It is the City's intent to enter into one agreement with one company for a term of six (6) months.

It is the City's expectation that the successful Contractor shall have sufficient staff to commence work within ten (10) days of a fully executed contract.

Assignment: The awarded Firm or Consultant shall not assign, transfer, convey, sublet or otherwise dispose of this contract, or of any or all of its rights, or interest therein, or his or its power to execute such contract to any person, company or corporation without prior written consent of the City.

VI. Minimum Qualifications

VI.A Minimum Qualifications

The successful Firm/Contractor must be provide proven qualifications:

- Be a successful and experienced playground design and construction firm.
- Experienced with similar projects for municipal governments.
- Provide applicable bond documents, when required.
- Financial Capacity: The Bidder may be required to provide financial performance information upon request by the City. The financial information must be received by the City within five Days (5) of Bidder receiving the written request. Submittals requested pursuant to this subsection may be in addition to those required elsewhere.
- Be currently certified, licensed and authorized to work in the State of Florida.
- Active registration on Sams.gov
- Active registration on Sunbiz.
- Qualified staff capable of performing the required services.
- Insured and meeting insurance requirements applicable to perform the services.

Proposers that do not meet the minimum requirements as determined by the City, at its sole discretion, will be deemed non-responsive and not considered for award. All decisions made by the city are final.

The City of New Smyrna Beach reserves the right to require the proposer to submit such evidence of his/her qualifications and experience as it may deem necessary and may consider

any evidence available to it of the financial, technical, and other qualifications and abilities of a proposer.

VI.B Licenses and Certificates

Respondents are required to possess the correct professional license, and any other authorizations necessary to carry out and perform the work in accordance with the specifications pursuant to all applicable Federal, State and Local Law, Statute, Ordinances, and rules and regulations of any kind.

If required and/or requested, copies of the required licenses must be submitted with the solicitation response indicating that the entity proposing, as well as the team assigned to the City account, are properly licensed to perform the activities or work included in the contract documents.

VII. Construction Terms and Conditions

VII.A Clean-Up

The Contractor shall keep the construction site free of rubbish and waste materials and shall restore to it to its original condition or better those portions of the site disrupted by the construction. Clean-up and restoration shall be accomplished on a continuing basis throughout the contract period and in such a manner as to maintain a minimum of nuisance and interference to the Owner, residents, and works at or adjacent to the project site. The Contractor shall also remove, when no longer needed, all temporary structures and equipment used in his operations. It is the intent of this specification that the construction areas and those other areas not designed for alteration by the contract documents shall be restored to their original condition as nearly as possible.

VII.B Conditions of Work

Each proposer shall have read and be thoroughly familiar with the specifications and other contract documents provided herein. Failure to do so shall not relieve the successful proposer of their obligation to furnish all labor, materials and equipment necessary to carry out the previsions of the contract documents and to complete the work required to complete the project.

In case there is any item in the specifications or other contract documents which is not clear to the proposer or which may, in the Contractor's opinion, be impossible to comply with, the proposer is urged to immediately notify the city by submitting all inquiries via the City's e-Procurement Portal, located at https://procurement.opengov.com/portal/cityofnsb.. If it is considered necessary and time permits, an addendum shall be forwarded to each holder of the drawings and specifications to clarify the question.

The proposer, by and through the submission of a submittal, agrees that it shall be held responsible for having heretofore examined the site, the location and route of all the proposed work and for becoming familiar to the character of the route, the location, surface and underground obstructions, the nature of the ground water conditions and all other physical characteristics of the work, in order that it may include in the prices which it bid, all costs pertaining to the work and thereby provide for the satisfactory completion thereof, including the removal, relocation or replacement of any objects or obstructions which shall be encountered in doing the proposed work.

VII.C Existing Underground Utilities

Representation of underground utilities is shown from information received from the various utility owners. The locations or elevations of utilities are not represented to be exact and are shown for the convenience of the Contractor. The Contractor shall contact the utility owner concerned for any available additional information and coordinate his construction activities accordingly. The utilities known to exist are listed in the Supplemental General Conditions, along with a list of their Owners. Any cost incurred for the protection of and/or damages to existing underground utilities shall be considered as part of the applicable Contract price for stage excavation and backfill and no additional compensation shall be paid to the Contractor. If, in the judgment of the Engineer, it is impossible to construct a given improvement in the location shown on the drawings as a result of underground utility or utilities, either the utility owner shall move the existing underground utility, or an appropriate Change Order shall be executed for the moving by the Contractor.

The following is a list of utilities, which may be located within the public rights-of-way of the City of New Smyrna Beach:

- Gas Mains – Florida Public Utilities Company
- Electric and Power Lines and Underground Cable - Utilities Commission, City of New Smyrna Beach
- Telephone Lines and Underground Cable - AT&T
- Water Mains and Sanitary Sewers - Utilities Commission City of New Smyrna Beach, Florida
- Storm Sewers - City of New Smyrna Beach, Florida
- Cable TV and Underground Cable - Spectrum

VII.D Inspection and Testing of Materials and Equipment

If applicable, the Contractor shall pay for all laboratory or environmental tests required at the project site or all laboratory tests required on material already delivered to the site. Copies of test or certifications on pipe, brick or other materials made at the factory shall be furnished in triplicate to the Engineer. The Engineer shall approve test reports on equipment before the

equipment covered by the test is delivered to the project site. Test requirements are set out in the detailed specifications for the particular material.

VII.E Notice to Proceed

When the Contract has been executed on the part of the Owner, it shall be forwarded to the Contractor together with the Notice to Proceed. The Notice to Proceed shall include the time for completion. The Contractor shall begin construction operations at the site within ten (10) days after the date of such notice. The contact time shall begin ten (10) days after the date of the Notice to Proceed.

VII.F Payments to the Contractor

Monthly Payments to the Contractor: The Contractor shall plan his work for construction on the basis of monthly pay periods. So long as the work is prosecuted in compliance with the provisions of the contract, the Contractor shall, on or about the last day of the pay period, make an approximate estimate, in writing on a form approved by the Engineer, of the proportionate value of the work done, items and locations of the work performed up to and including the last day of the period then ending. The Contractor is responsible for all payments for stored material, and no payment shall be included in the Pay Request for stored materials. The Engineer shall then review said estimate and make the necessary revisions so that the estimate can receive his approval. If the Contractor and the Engineer do not agree on the approximate estimate of the proportionate value of the work done for any pay period, the determination of the Engineer shall be binding. The amount of said estimate, after deducting the retainage and all previous payments, shall be due and payable to the Contractor within thirty (30) days after presentation of the estimate to the Owner. Any Periodical Pay Estimate signed by the Contractor shall be final as to the Contractor for any or all work covered by the Periodical Pay Estimate.

Contractor's Warranty of Title:

A. The Contractor warrants and guarantees that title to all work, materials and equipment covered by an application for payment, whether incorporated in the project or not, shall pass to the Owner at the time of payment, free and clear of all liens, claims, security interests and encumbrances (hereafter referred to as "Liens" in these General Conditions).

B. The Contractor agrees to furnish an affidavit stating that all laborers, materialmen and subcontractors have been paid on the project for work covered by the application for payment and that a partial or complete release of lien, as may be necessary, be properly executed by the material men, laborers and subcontractors on the project for the work covered by the application for payment, sufficient to secure the Owner from any claim whatsoever arising out of the aforesaid work.

Correction of Work Before Final Payment:

A. The Contractor shall promptly remove from the premises all material condemned by the Engineer as failing to conform to the Contract whether incorporated in the work or not, and the Contractor shall promptly replace and re-execute his own work in accord with the Contract and without expense to the Owner and shall bear the expense of making good all work of other Contracts destroyed or damaged by such removal or replacement.

B. If the Contractor does not remove such condemned work and materials within a reasonable time, fixed by written notice, the Owner may remove them and may store the materials at the expense of the Contractor. If the Contractor does not pay the expense of such removal within ten (10) days time thereafter, the Owner may, upon ten (10) days written notice, sell such materials at auction or at private sale and shall account for the net proceed thereof after deducting all the cost and expenses that should have been borne by the Contractor.

Liens: Neither the final payment nor any part of the retained percentage shall become due until the Contractor shall deliver to the Owner a complete release of all liens arising out of this Contract, or receipts in full in lieu thereof. In addition, thereto, in either case, the Contractor shall provide an affidavit that so far as the Contractor has knowledge or information, all includes receipts or releases for all the labor and material for which a lien could be filed. The Contractor may, should any subcontractor refuse to furnish a release or receipt in full, furnish a bond satisfactory to the Owner to indemnify that payments are made. The Contractor shall refund to the Owner all money payments that the latter may be compelled to pay in discharging such a lien, including all interest, costs, and reasonable attorney's fees.

Final Inspections: When the Contractor has completed the work in compliance with the terms of Contract Documents, the Contractor shall notify the Engineer in writing that the project is ready for final inspection.

The City shall then advise the Contractor as to the arrangements for final inspection and what work, if any, is required to prepare the project or a portion thereof for final inspection. When the Engineer determines the project or portion thereof is ready for final inspection, the Engineer shall perform the same. Upon completion of the final inspection, the City shall prepare a list of errors of either commission or omission by the Contractor, reasonably observable, and determined under the conditions governing and restricting said final inspection. When all such errors have been corrected, a final re-inspection shall be made. The process shall be repeated until, in the opinion of the City, the project has been completed in compliance with the terms of the Contract Documents as can best and reasonable be observed and determined under the conditions governing and restricting said final inspection. The Engineer shall, pursuant to such inspection and re-inspection, certify to the City as to the completion of the final inspection. It is understood that the certification covers only those items which can be physically inspected, and the Engineer's certification indicates compliance within the standards of the construction industry, as interpreted by the Engineer.

Final Acceptance: When the City shall certify the completion of the final inspection, the Contractor may make request for final payment. With the request for final payment, the Contractor shall furnish evidence satisfactory to the Owner's legal advisors that the Contractor

has fully paid all debts for labor, materials and equipment incurred in connection with the work. The Contractor must provide all evidence required by the Contract to assure the Owner of complete compliance with all terms of the Contract. When the Owner has acknowledged the compliance with the terms of the Contract, and has received certification of final inspection, the Owner shall notify the Contractor of final acceptance by the Owner. The date of final acceptance shall be assumed as the date of final completion of the project, unless the Owner, with the Contractor, has made previous agreement.

Final Payment: When the Owner has made final acceptance, the City shall then review the amount of final request for payment and certify the amount of this approval. Upon approval by the Engineer, the Owner shall make final payment of the contract amount, plus all approved additions, less approved deductions and previous payments made.

Termination of Contractor's Responsibility: The Owner shall consider the Contract complete when all work has been finished, the final Inspection certified by the City, and the project finally accepted in writing. The Contractor's responsibility shall then terminate except as otherwise required and set out in the Contract Documents.

VII.G Preconstruction Conference

Prior to starting the work, a preconstruction conference shall be held to review the work schedules, to establish procedures for processing periodical pay estimates, and such other matters as may be pertinent to the project.

VII.H Progress and Control of the Work

Schedules and Progress Reports: The Contractor must submit a proposed schedule of the work at the preconstruction conference. The purpose of this schedule is to enable the Owner to govern the work, to protect the functions of the local government and its citizens, and to aid in providing appropriate surveillance. The Owner shall have the right to reschedule work provided such rescheduling is in accordance with the remainder of the terms of this Contract. The schedule shall show, as a minimum, the approximate dates on which each segment of the work is expected to be started and finished, the anticipated earnings by the Contractor for each month, and the approximate number of crews and equipment to be used. The Engineer shall review and approve the schedule. If rescheduling is needed then a new updated schedule should be provided to the Engineer for approval. The Contractor shall also forward to the Owner, as soon as practicable after the first day of each month, a summary report of the progress of the various parts of the work under the Contract, stating the existing status, estimated time of completion, and cause of delay, if any. Together with the summary report, the Contractor shall submit any necessary revisions to the original schedule for the Engineer's review and approval. The Engineer, for purpose of evaluation, may require additional more detailed schedules.

Approval of Subcontracts:

A. The Contractor shall, as soon as practicable after the signing of the Contract, notify the Owner in writing of the names of subcontractors, including material suppliers proposed for the work, and shall not employ any that have not been approved by the Owner.

B. The Contractor agrees to be fully responsible to the Owner for the acts and omissions of subcontractors and for payment of services rendered by the subcontractor.

C. Nothing contained in the contract Documents shall create any contractual relationship between any subcontractor and the Owner.
The Contractor shall furnish the Owner copies of any and all contracts entered into with subcontractors for performance of any work identified in the Contract Documents.

Prosecution of Work:

A. The work shall be prosecuted at such time and in or on such part or parts of the project with such forces of workmen, materials, and equipment as may be ordered by the Engineer, in writing, to complete the project as contemplated in the drawings, specifications, Contract, and schedules. If, at any time, the materials and equipment to be used appear to the Engineer as insufficient or improper for securing the quality of work required, or the required rate of progress, he may order the Contractor to increase his efficiency or to improve the character of his work, and the Contractor shall conform to such an order. The failure of the Engineer to demand any increase of such efficiency or any improvement shall not release the Contractor from his obligation to secure the quality of work or the rate of progress necessary to complete the work within the limits imposed by the Contract.

B. Contractor shall perform the work and take such precautions as he may deem necessary to complete the project so all work shall be in first-class and acceptable condition within the Contract time according to the schedule.

Workmanship, Material, and Workmen:

A. Unless otherwise stated in the detailed specifications, all workmanship, materials, and articles incorporated in the work covered by this Contract shall be of the most suitable grade of their respective kinds for the purpose and acceptable to the Engineer. The Engineer shall decide the question of quality where the expression “or approved equal” is used in the specifications following reference to a specific manufacturer of equipment or materials. If the contractor wishes to make a substitution request for an alternate material or installation procedure, he will need to present to the Engineer for approval prior to proceeding with said alternate. Samples of materials shall be submitted for approval when so directed. Machinery, materials, articles installed or used, or unusual methods of work used without such approval shall be at the risk of subsequent rejection.

B. The Engineer or the Owner may require the Contractor to remove from the work such employees as the Engineer or the Owner deems incompetent, careless, insubordinate, or

otherwise objectionable, or whose continued employment on the work is deemed to be contrary to the Owner's interest.

Delays and Extension of Time:

A. If the Contractor is delayed at any time in the progress of the work by any act or neglect of the Owner or his employees, or by any other Contractor employed by the Owner, or by changes ordered in the work, or by strikes, fire, lockouts, unusual delay in transportation, unavoidable causalities or by delay authorized by the Owner pending arbitration, or by any cause which the Owner shall decide to justify the delay, then the time of completion may be reasonably extended by the Owner.

B. No extension shall be made for delay unless notice of a claim is made by the Contractor in writing to the Owner within seven (7) days of the event or incident causing the delay and as otherwise provided by the definition of "notice", referenced in "Definitions and Terms".

C. The article does not exclude the recovery of damages for delay by owner under the liquidated damages clause.

D. No claim for damages or any claim other than for an extension of time shall be made or asserted against the city by reason of any delays. The Contractor shall not be entitled to an increase in the Contract Sum or payment or compensation of any kind from the City for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference or hindrance from any cause whatsoever; provided, however, that this provision shall not preclude recovery or damages by the Contractor for hindrances or delays due solely to fraud, bad faith or active interference on the part of the City or its agents. Otherwise, the Contractor shall be entitled only to extensions of the Contract Time as the sole an exclusive remedy for such resulting delay, in accordance with and to the extent specifically provided above.

VII.I Rights and Responsibilities of the Owner During Construction

Surveys and Lands for Work:

A. The Owner shall provide the lands upon which the work under this Contract is to be done; additional land will not be provided for storing materials.

B. Except that the Contractor shall provide all necessary additional land required for the erection of temporary construction facilities and storage of his material, together with right-of-access to the same. The Owner shall furnish all land surveys for this project.

C. The Contractor shall provide the Owner the information as to where material(s) are stored, the right of access to the material(s), and if applicable, keys to access locked areas.

Use of Completed Portions: The Owner shall have the right to take possession of and use any completed portions of the work, although the time for completing the entire work or such portions may not have expired, but such taking possession and use shall not be deemed an acceptance of any work not completed in accordance with the Contact Documents.

The Owner's Right to Do Work: If the Contractor should neglect to prosecute the work properly or fail to perform any provision of this Contract, the Owner, after seven (7) days written notice to the Contractor, may, without prejudice to any other remedy available to the Contractor, make good such deficiencies and may deduct the cost thereof from the payment then or thereafter due the Contractor.

Right to Retain Imperfect Work: If any part or portion of the work done or material furnished under this Contract shall prove defective and not in accord with the plans and specification, and if the Owner decides that any part or portion of the imperfect work is not of sufficient magnitude or importance as to make the work dangerous or undesirable, or if the Engineer decides that removing the work is warranted for whatever reason, then the owner has the right to reject and hold the contractor accountable for its removal and corrective action.

Suspension of Work:

A. If the work is defective, or the Contractor fails to supply sufficient skilled workmen or suitable materials or equipment, or if the Contractor fails to make prompt payments to subcontractors or for labor, material, or equipment, or if the Contractor fails to comply with work schedules, the Owner or Engineer may order the Contractor to stop all work, or any portion thereof, and terminate payments to the Contractor until the cause for such order has been eliminated. No extension of contract time shall be allowed for this suspension.

B. The Owner or Engineer may, at any time and without cause, suspend the work or any portion thereof for a period of not more than ninety (90) days by notice in writing to the Contractor, which notice shall fix the date on which the work shall be resumed. The Contractor shall resume the work on the date so fixed. The Contractor shall be allowed an increase in contract price or an extension of the contract time directly attributable to any suspension if he makes a claim therefore as provided in the section of this Contract titled: Progress and Control of Work - Delays and Extension of Time.

Termination of the Contract:

A. If the Contractor is adjudged as bankrupt or insolvent, or if makes a general assignment for the benefit of his creditors, or if a trustee or receiver is appointed for the Contractor or for any of his property, or files a petition to take advantage of any debtor's act, or to reorganize under the bankruptcy or similar laws, or if repeatedly fails to supply sufficient skilled workmen or suitable materials or equipment, or repeatedly fails to make prompt payments to subcontractors for labor, materials, or equipment, or disregards laws, ordinances, rules, regulations, or orders of any public body having jurisdiction, or disregards the authority of the Engineer, or otherwise violates any provision of the Contract Documents, then the Owner may, without prejudice to any other right or remedy and after giving the Contractor and the Contractor's surety seven (7) days

written notice, terminate the services of the Contractor and take possession of the project and of all materials, equipment, tools, construction equipment, and machinery thereon owned by the Contractor, and finish the work by whatever method the Owner may deem expedient. In cases where the actual cost of the work to be done by the Owner exceeds the amount in the Performance Bond, then the Contractor shall pay such to the owner.

B. Where the Contractor's services have been so terminated by the Owner, said termination shall not affect any rights of the Owner against the Contractor then existing or which may thereafter accrue. Any retention or payment of monies by the Owner due the Contractor shall not release the Contractor from liability.

C. Upon seven (7) days written notice to the Contractor, the Owner may, without cause and without prejudice to any other right or remedy, elect to abandon the project and terminate the agreement. In such case, the Contractor shall be paid for all work executed and any expense sustained plus a reasonable profit not to exceed five (5%) percent over the cost incurred.

VII.J Royalties and Patents

The Contractor shall pay all royalties and license fees for equipment or processes in conjunction with the equipment that the Contractor is furnishing. The Contractor shall defend all suits or claims for infringement of any patented right and shall save the City harmless from loss on account thereof and cost and attorney's fees incurred, therefore.

VII.K Safety and Health Regulations

Adequate sanitary conveniences for the use of persons employed on the work site shall be provided at Contractor's expense and, shall be properly secluded from public observations. The Contractor shall construct and maintain the sanitary facilities in such a manner and at such points as approved by the Owner. These conveniences shall be maintained at all times without nuisance and their use shall be strictly enforced. Upon completion of the work, they shall be removed from the premises, leaving all clean and free from nuisance.

VII.L Save Harmless Clause

The Contractor covenants and agrees to indemnify and save harmless the City, its employees, officials, and agents, and defend them from all costs, expenses, damages, attorney's fees, injury or loss, to which the City may be subject by any person, firm, corporation or organization by reason of any wrongdoing, misconduct, want or need of care or skill, negligence or default or breach of Contract, guaranty or warranty, by the Contractor, his employees, his agents or assigns.

VII.M Warranty and Guarantee Provisions

All materials and equipment furnished by the Contractor and all construction work and workmanship involved in the Contract is hereby guaranteed and warranted by the Contractor for a period of one (1) year from written final acceptance by the Owner as defined here in to be free from defects due either to faulty materials, equipment and/or faulty workmanship, and all materials, equipment and /or workmanship furnished, installed and performed by the Contractor is warranted and guaranteed by the Contractor to the Owner to be such as to meet the required standards and to accomplish the purposes and functions of the project as defined, detailed and specified in these Contract Documents. The Owner shall, following discovery thereof, promptly give written notice to the Contractor of faulty materials, equipment, and/or workmanship within the period of the guarantee. Any part of the warranty and guarantee shall be promptly replaced by the Contractor at his own cost and without cost to the Owner. These warranty and guarantee provisions create no limitations on the Owner as to any claims or actions for breach of guarantee or breach of warranty that the Owner might have against parties other than the Contractor, and do not constitute exclusive remedies of the Owner against the Contractor and are not intended to, and shall not limit any other rights, remedies or causes of action which the Owner might exercise against the Contractor, and shall not alter nor modify the application of the Statute of Limitations as established by the Statutes of the State of Florida. This Contract is governed by the Laws of the State of Florida.

VII.N Work by Others

The Owner reserves the right to allow the continuation and/or creation of other contracts it deems necessary at the site of the work subject to this Contract, provided such do not unreasonably burden or impair the work anticipated in the Contract. The Contractor shall afford other Contractors reasonable opportunity for the introduction and storage of their materials and execution of their work and shall promptly connect and coordinate this work with theirs.

VII.O Supplemental Conditions for Federally Assisted Projects

The supplemental conditions provided in the contained in this section are intended to cooperate with, to supplement, and to modify the general conditions and other specifications. In case of disagreement with any other section of this contract, the Supplemental Conditions shall govern. This contract is funded in whole or in part with federal funds made available from the U.S. Department of Housing and Urban Development (HUD). The contractor and all of its subcontractors shall comply with these federal provisions. The contractor shall include these supplemental conditions in all subcontracts.

VIII. Supplemental Conditions

VIII.A Supplemental Conditions for Federally Assisted Projects

Supplemental conditions are intended to cooperate with, to supplement, and to modify the general conditions and other specifications. In case of disagreement with any other section of this contract, the Supplemental Conditions shall govern.

The awarded contract is funded in whole or in part with federal funds made available from the U.S. Department of Housing and Urban Development (HUD). The contractor and all of its subcontractors shall comply with these federal provisions

The Supplemental Conditions, and CDBG required forms, are provided in the Attachment Section of this document. Proposers are encouraged to review all supplemental conditions for federally assisted projects under the attachments category.

The awarded Contractor is required to submit completed versions of the below forms to the City of New Smyrna Beach at or before the preconstruction meeting by the Prime Contractor and Subcontractors:

- Minority and Women Business Reporting Form
- Section 3 Business Concern Certification
- Section 3 Project Workforce
- Section 3 Certification

VIII.B Davis Bacon Act, 29 CFR Parts 1,3,5,6 and 7

The contractor agrees to comply with the requirements of the Davis-Bacon Act, which requires the payment of prevailing wage rates (which are determined by the U.S. Department of Labor) to all laborers and mechanics on federally funded construction projects in excess of $2,000. A Davis-Bacon wage decision (or wage determination) is a listing of various construction work classifications and the minimum wage rates (and fringe benefits, where prevailing) that workers who perform work in those classifications must be paid.

VIII.C Copeland "Anti-Kickback" Act- 18 USC 874 and 40 USC 276c; 29 CFR Part 3

The contractor and subcontractor(s) shall comply with the requirements of the Copeland "Anti-Kickback" Act as supplemented in the U.S. Department of Labor regulations 29 CFR Part 3. The Copeland Act makes it a federal crime for anyone to require any laborer or mechanic (employed on a federally assisted project) to kickback (i.e. give up or pay back) any part of their wages. The Copeland Act requires every contractor and subcontractor to submit weekly payroll reports (certified payroll) and regulates permissible payroll deductions.

VIII.D Federal Labor Standards

The project or program to which the construction work covered by this contract pertains is a federally assisted project and the Federal Labor Standards Provisions are included in this contract pursuant to the provisions applicable to such Federal assistance. See Attachment 1 for a complete copy of these labor standards.

VIII.E Build America, Buy America (BABA) Act

The Grantee must comply with the requirements of the Build America, Buy America (BABA) Act, 41 USC 8301 note, and all applicable rules and notices, as may be amended, if applicable to the Grantee's infrastructure project. Pursuant to HUD's Notice, "Public Interest Phased Implementation Waiver for FY 2022 and 2023 of Build America, Buy America Provisions as Applied to Recipients of HUD Federal Financial Assistance" (88 FR 17001), any funds obligated by HUD on or after the applicable listed effective dates, are subject to BABA requirements, unless excepted by a waiver.

VIII.F Environmental Compliance- Section 306 of the Clean Air Act, Section 508 of the Clean Water Act and EPA Regulations- 42 U.S.C. 1857(h)

The contractor shall comply with the requirements of the Federal Clean Air Act and the Federal Water Pollution Control Act, as amended. Requirements for compliance with these regulations apply to contracts and subcontracts in amounts in excess of $100,000. all applicable standards, orders, or requirements issued under (), (33 U.S.C. 1368), Executive Order 11738, and U.S. Environmental Protection Agency regulations (40 C.F.R. Part 15).

VIII.G Lead- Based Paint Requirements- 24 CFR Part 35

All housing that is assisted by the contractor through this project with federal funds is subject to the lead-based paint requirements, found at 24 CFR Part 35. These rules apply to properties that were constructed prior to 1978, and require:

- Certain disclosures (in the form of notices) to occupants and applicants about any known or potential lead-based paint hazards
- Testing, assessing, and stabilization or reduction of lead-based paint hazards in accordance with established procedures, based on activity type and level of Federal assistance (for rehabilitation)
- Use of safe work practices
- Certain provisions included in all contracts and subcontracts related to lead- based paint
- Ongoing maintenance to monitor controls put in place to limit the hazards associated with the presence of lead-based paint.

VIII.H Historic Preservation- 16 USC 470; 36 CFR Part 800

The contractor's performance may be subject to the Historic Preservation requirements set forth in the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470) and the procedures

set forth in 36 CFR Part 800, Advisory Council on Historic Preservation Procedures for Protection of Historic Properties.

VIII.I Energy Efficiency

The contractor shall comply with any mandatory standards and policies relating to energy efficiency, which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (Public Law 94-163).

VIII.J Flood Disaster Protection- 42 USC 4001

The contractor's performance may be subject to the Flood Disaster Protection Act of 1973 which requires that activities located in an area identified by the Federal Emergency Management Agency (FEMA) as having special flood hazards, flood insurance under the National Flood Insurance Program must be obtained and maintained as a condition of financial assistance for acquisition or construction purposes (including housing rehabilitation.)

VIII.K Special Equal Opportunity Provisions

A. Activities and Contracts Not Subject to Executive Order 11246, as Amended

A. Activities and Contracts Not Subject to Executive Order 11246, as Amended. *(Applicable to Federally assisted construction contracts and related subcontracts $10,000 and under.)*

During the performance of this contract, the Contractor agrees as follows:

i. The Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor shall take affirmative action to ensure that applicants for employment are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

ii. The Contractor shall post in conspicuous places, available to employees and applicants for employment, notices to be provided by Contracting Officer seeking forth the provisions of this nondiscrimination clause. The Contractor shall state that all qualified applicants be considered without regard to race, color, religion, sex or national origin.

iii. Contractors shall incorporate foregoing requirements in all subcontracts.

B. Executive Order 11246 (contracts/subcontracts above $10,000). During the performance of this contract, the contractor agrees as follows:

i. Section 202 Equal Opportunity Clause

a. The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment, or recruitment advertising; layoff or termination, rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in a conspicuous place, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

b. The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration without regard to race, color, religion, sex, or national origin.

c. The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding a notice to be provided by the Contract Compliance Officer advising the said labor union or workers representatives of the Contractors commitment under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

d. The Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the Rules, Regulations, and Relevant Orders of the Secretary of Labor.

e. The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the Department and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and others.

C. Certification of Non-segregated Facilities- E.O. 11246; 41 CFR Part 60- 1.8

By the submission of this bid, the bidder, offeror, applicant or subcontractor certifies that he/she does not maintain or provide for his/her employees any segregated facility at any of his/her establishments, and that he/she does not permit employees to perform their services at any location, under his/her control, where segregated facilities are maintained. He/She certifies further that he/she will not maintain or provide for employees any segregated facilities at any of his/her establishments, and he/she will not permit employees to perform their services at any location under his/her control where segregated facilities are maintained. The bidder, offeror, applicant or subcontractor agrees that a breach of this certification is violation of the Equal Opportunity Clause of this contract. As used in this certification, the term segregated facilities means any waiting rooms, work eating areas, time clocks, locker rooms, and other storage or dressing areas, transportation and housing facilities provided for employees

which are in fact segregated on the basis of race, color, religion, or otherwise. He/She further agrees that (except where he/she has obtained identical certifications from proposed subcontractors prior to the award of subcontractors have submitted identical certifications for specific time periods).

D. Equal Employment Opportunity- Title VII of the Civil Rights Act of 1964, E.O. 11246

Under Title VI of the Civil Rights Act of 1964, no person shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the
benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

E. Americans with Disabilities Act of 1990- E.O. 11250; 42 U.S.C 12131; 24 CFR Part 35

The contractor shall not exclude on the basis of handicap persons from participation in, be denied the benefits of, or be subjected to discrimination under any
program or activity receiving Federal financial assistance.

F. Section 109 of the Housing and Community Development Act of 1974

No person in the United States shall on the grounds of race, color, national original, or sex is excluded from participation in, be denied the benefits of, or be
subjected to discrimination under any program or activity funded in whole or in part with funds made available under this title.

G. Section 504 of the Rehabilitation Act of 1973- 29 USC 794, 24 CFR Parts 8 and 9

i. The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap in regard to any position for
which the employee or applicant for employment is qualified. The Contractor agrees to take affirmative action to employ, advance in employment and
otherwise treat qualified handicapped individuals without discrimination based upon their physical or mental handicap in all employment practices such as
the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and
selection for training, including apprenticeship.

ii. The Contractor agrees to comply with the rules, regulations and relevant orders of the Secretary of Labor issued pursuant to the Act.

iii. In the event of the Contractors noncompliance with the requirements of this clause, actions for noncompliance may be taken in accordance with the rules,
regulations, and relevant orders of the Secretary of Labor issued pursuant to the Act.

iv. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the
Director, provided by or through the contracting officer. Such notices shall state the Contractors obligation under the law to take affirmative action to
employ and advance in employment qualified handicapped employees and applicants for

employment, and the rights of applicants and employees.

v. The Contractor will notify each labor union or representative of workers with which it has a collective bargaining agreement or their contract understanding,

that the contractor is bound by the terms of Section 503 of the Rehabilitation Act of 1973, and is committed to take affirmative action to employ and

advance in employment physically and mentally handicapped individuals.

vi. The Contractor will include the provisions of this clause in every subcontract or purchase order of $2,500 or more unless exempted by rules, regulations, or

orders of the Secretary issued pursuant to Section 503 of the Act, so that such provisions will be binding upon each subcontractor or vendor. The

Contractor will take such action with respect to any subcontract or purchase order as the Director of the Office of Federal Contract Compliance Programs

may direct to enforce such provisions, including action for noncompliance.

H. Age Discrimination Act of 1975- 42 U.S.C. 6101, et seq; 24 CFR Part 146: The contractor shall comply with the Age Discrimination Act of 1975, which provides that no person, on the basis of age be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, any program, or activity receiving Federal Financial assistance.

I. NSP 3 Vicinity Hiring and Contracting Preference

A contractor that is awarded a project involving the use of NSP3 funds, as provided by the Dodd-Frank "Wall Street Reform and Consumer Protection Act"

of January 5, 2010, sec 1497 (a)(8), is required to take actions to hire employees who reside in the vicinity of NSP3-funded projects, and provide

contracting opportunities to small businesses that are owned and operated by residents in this vicinity.

VIII.L Section 3- 24 CFR Part 75

The contractor shall comply with the purposes of the Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701U) (Section 3) and ensure that employment and other economic opportunities generated by HUD funded programs, to the greatest extent feasible, and consistent with Federal, State, and local laws and regulations, be directed to low- and very-low income persons, particularly those who are recipients of government assistance for housing, and to business concerns which provide economic opportunities to low and very low-income persons. Sub-recipients, contractors and subcontractors for a Section 3 project must meet the requirements of § 75.19, regardless of whether Section 3 language is included in related agreements or contracts.

VIII.M Conflict Of Interest- 24 CFR Part 85.36 and 24 CFR Part 570.611

No officer or employee of the local jurisdiction or its designees or agents, no member of the governing body, and no other public official of the locality who exercises any function or responsibility with respect to this contract, during his/her tenure or for one year thereafter, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for

work to be performed. Further, the Contractor shall cause to be incorporated in all subcontracts the language set forth in this paragraph prohibiting conflict of interest.

VIII.N Utilization Of Minority And Women Firms (M/WBE)- 24 CFR Part 85 (e)

The contractor shall take affirmative steps to assure that M/WBE firms are utilized when possible as suppliers and/or subcontractors, as applicable.
Prior to contract award, the contractor shall document efforts to utilize M/WBE firms, including identifying what firms were solicited as suppliers and/or subcontractors, as applicable.
Information regarding certified M/WBE firms can be obtained from:

- State of Florida at 904-487-4698 (all goods and services)
- State of Florida at 904-921-7370 (construction services, particularly highway)
- Minority Business Development Center in most major cities
- Local government M/WBE programs in many large counties and cities

VIII.O Fair Housing Laws

The contractor shall company with the Fair Housing Act, and related laws that prohibit discrimination on the basis of race, color, national origin, religion, sex, familial status and handicap in the provision of housing, including rental, purchase, advertising, financing, insurance and multi-family housing on the basis of race, color, national origin, religion, sex, familial status and handicap. The requirements of the Fair Housing Act (42 U.S.C. 3601-20) and implementing regulations at 24 CFR part 100; Executive Order 11063, as amended by Executive Order 12259 (3 CFR, 1958-1063 Comp., p. 652 and 3 CFR, 1980 Comp., p. 307) (Equal Opportunity in Housing) and implementing regulations at 24 CFR part 107; and title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) (Nondiscrimination in Federally Assisted Programs) and implementing regulations issued at 24 CFR part 1 shall apply to any housing related contract awarded hereunder.

VIII.P Drug Free Workplace- 41 USC 701, 24 CFR Part 21

The Contractor shall comply with the requirements of the Drug-Free Workplace Act of 1988. The Contractor certifies to comply with the drug-free workplace requirements in accordance with the Act, and with U.S. Department of Housing and Urban Development regulations.

VIII.Q Debarred Contractors

This project is subject to requirements prohibiting use of federal funds to directly or indirectly employ, award contracts to, or otherwise engage the services of any contractor, subcontractor or subrecipient during any period of federal debarment, suspension, or placement of ineligibility status. The County is required to check the eligibility status of all contractors, subcontractors, and subrecipients against the federal publication that lists debarred and ineligible contractors. This list can be found on the The System for Award Management (SAM) at https://www.sam.gov

VIII.R Lobbying

The Contractor certifies, to the best of his or her knowledge and belief, that:
A. No federally appropriated funds have been paid or will be paid, by or on behalf of the Contractor, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan or cooperative agreement.
B. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or
employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions. C. The Contractor shall require that the language of this certification be included in the award documents for all sub-awards at all tiers including subcontracts, sub- grants, and contracts under grants, loans, and cooperative agreements.
D. This certification is a material representation of fact upon which reliance was placed when this contract was made or entered into. Agreement to this certification is a prerequisite for making or entering into this contract imposed by Section 1352, title 31, U.S. Code. Any person or agency that makes an expenditure prohibited by this section is subject to a civil penalty from $10,000 up to $100,000 for each failure. This penalty also applies to any person or agency that fails to submit or amend the disclosure form (LLL), when required. Failure to submit the required certification may result in payment under this contract being delayed or denied.

VIII.S Access to Records- 24 CFR Part 85.42 (e) & (f)

The contractor shall give access to all records, pertinent books, documents, papers or other records related to this contract to the awarding agency, the County of Volusia, the U.S. Department of Housing and Urban Development, the Comptroller General of the United States, and any of their duly authorized representatives for the purpose of making audit, examination, excerpts, and transcriptions as needed.

VIII.T Records Retention- 24 CFR Part 85.42 (a)-(d)

The contractor shall comply with the CDBG records retention regulations. Financial, program, supporting, and other records pertinent to this contract and the grant program shall be maintained for five years after the local government makes final payment and all other pending matters are closed.

IX. Criteria and Submittal Format

IX.A Evaluation Criteria

An evaluation committee of city staff shall independently review and score each proposal. Proposals shall be evaluated on a total score basis, with a maximum score of one hundred (100) points per committee member. The following criteria shall be used in the evaluation process to determine the successful respondent(s):

Criteria	Maximum Points
Qualifications and Experience	20
Project Approach and Management	20
Proposed Equipment and Configuration	15
Deliverable Timeline	15
Warranty	15
Fee Proposal	15
Total	100

Evaluation factors are based on the abilities of the proposer to efficiently perform the Scope of Services as generally outlined in this solicitation. The city shall seek to identify the submittal(s) which shall best meet the needs of the city as determined from the responses received.

If no single top-ranked firm can be clearly identified by review of the written submittals alone, presentations shall be scheduled with the top ranked firm(s) for oral presentations/interviews. If Oral Presentations are required, the shortlisted firms will be re-ranked based solely on the presentations. The evaluation criteria may be modified for the oral presentation portion of the evaluation. The consensus of the committee will be the deciding factor on how to move forward.

Contract Negotiations: After the ranking is completed, the City will attempt to negotiate an agreement with the top ranked firm which is determined to be in the best interests of the City. The agreement will cover all aspects of the scope of services as described herein. If no agreement is reached with the top ranked firm negotiations will be terminated and initiated with the next-ranked firm or individual, and so on, until an agreement is reached.

IX.B Response Format

Submittals shall be deemed an offer to provide services to the City. In submitting, the professional consultant declares that he/she understands and agrees to abide by all specifications, provisions, terms and conditions of same, and all ordinances and policies of the City. The Proposer agrees that if the contract is awarded to him/her, he/she shall perform the work in accordance with the provisions, terms and conditions of the contract.

In order to maintain comparability and to facilitate the review process, it is requested that proposals be organized in the manner specified below. Proposals shall be submitted in a professional manner and is a representation of the consultant.

Any portions of the proposal that do not comply with these guidelines must be so noted and explained the Acceptance of Conditions section of the bid. However, proposals which contain such variances may be considered non-responsive.

IX.C Introduction and Executive Summary

At a minimum shall include:

An introduction and management summary of not more than two (2) pages that highlight each of the key areas of the proposal and that summarizes the Respondent's experience and qualifications as to why they shall be recommend the award of contract for this project.

Management summary shall be signed by a corporate officer or principal, or an authorized representative authorized to obligate the firm and/or joint venture contractually. The letter shall include the business address, telephone number, facsimile number, e-mail and the name of the prime consultant or joint venture that the City can contact for additional information. The respondent or authorized representative is attesting that the information provided is current and factual and that all firms on the proposed team agree to work on the project together.

- Cover page representing the company that is submitting a proposal.
- A brief profile of the firm which should include their legal name (former name, if applicable); history; business structure; designation of the legal entity by which business operates (sole proprietor, partnership, corporate, LLC, etc.); type of ownership (small business, small disadvantaged business or women-owned business); length of company's existence; locations of their parent company, branch or subsidiary and proposed project team; total number of personnel including personnel by discipline.

IX.D Experience and Qualifications

At a minimum shall include:

A. Provide background of your firm including number of years in business, number of personnel, and other pertinent information.

B. Provide documentation related to the success and experience in playground sail shade structures including, design and installation

C. Number of years in business in the State of Florida.

D. Provide license to work in the State of Florida

E. Provide Sunbiz Registration

F. Provide active registration for Sams.gov

G. List of individuals who shall have the lead in administering the contract. List name, title or position, and specific duties.

H. State whether your firm is local, national, or international in size. State the size of the staff, number of professional staff, and over-all experience of assigned staff for this project.

I. Provide examples of your performance of other similar contracts. Also supply details and outcome of any lawsuits your company has been involved in within the past five years relating to personal injury as a result of your company's actions or inactions.

J. Prior failure (if any) to perform awarded contract.

K. Within the past five years, if your company has been cited by any local, state, or federal agencies for violations involving safety procedures, describe the details and outcome, including the agency's name and contact number.

Include:

Copies of all applicable license(s) for the organization as well as for each individual that will have a direct role with this project.

Eligibility: Federal, State and Local licensing requirements shall apply.

IX.E Project Approach and Management

At a minimum shall include:

State your typical project management procedure from project inception through design and through construction in situations where post-design services are included in the scope.

A. Approach to be taken with working with the City of New Smyrna Beach.

B. List any innovative approaches or techniques your firm has implemented to ensure project schedule adherence.

C. Discuss your firm's cost estimating procedure and how you integrate new ideas or methodologies to assist your client in achieving a cost-effective project.

D. Examples of reports that would typically be made available to the City, if applicable.

E. Competitive advantage: A summary of key elements that differentiate your proposed approach, company, customers, etc., from your competition.

F. Discuss why your firm is a fit for the City and why your firm should be selected.

IX.F Proposed Design and Configuration

At a minimum include the following:

A. Specifications sheets, photographs/images and a diagram of all of the shade structure configuration that is being recommended for this project.

B. Overall value of the proposed shade structure, with emphasis on the variety and type of components.

C. Overall aesthetic value of the playground layout.

D. Durability and quality, including reputation and experience of the company manufacturing the equipment, experience of vendor and/or subcontractor (if used) in the construction of similar playground areas.

IX.G Deliverable Timeline

Provide a description of deliverable products and projected timeframe from design to installation in the completion of the project. Include a description that outlines the approach to be taken to meet the objectives of this solicitation. Include each project milestone to be complete within the proposed timeline.

All materials are to be delivered F.O.B.; City of New Smyrna Beach designated facility. Tentative delivery dates pertaining to this project must be clearly stated in the proposal.

IX.H Warranty

Proposers shall furnish all data pertinent to warranties or guarantees which may apply to the proposed playground equipment. Information may not limit or exclude any implied warranties.

IX.I Fee Proposal

Submittals shall include a detailed fee proposal outlining all cost associated in providing the necessary services to complete this project. Fee proposal shall be all-inclusive with no hidden fees.

Any work performed by the Contractor without approval by the City is performed at the Contractor's own election. Compensation to the Contractor for the services performed shall be as set forth on City issued purchase order as a result of a detailed proposal from the awarded consultant.

In the event the City fails to provide compensation under the terms and conditions of this Agreement, the Consultant shall notify the City's Designated Representative in order that the City may take remedial action.

IX.J References

Provide a list of five (5) previous customers during the past five (5) years for all work of similar size and scope. List shall include services rendered in the State of Florida, particularly within municipalities for which proposer has performed (or is currently performing) work similar in nature as described herein. The services provided to these clients should have characteristics as similar as possible to those requested in this document. A Reference Form has been provided in the Attachment Section of this Document.

Information provided for each client shall include the following:

A. Client name, address, and current telephone number.

B. Description of services provided.

C. Time period of the project or contract.

D. Client's contact reference name, email and current telephone number.

Failure to provide complete, accurate, and current client information, as specified here, may result in the disqualification of your Proposal.

The City reserves the right to contact any and all references to obtain ratings for the performance indicators as indicated in the Evaluation Criteria.

Note: The City of New Smyrna Beach, including the Airport, shall not be listed as a reference.

IX.K Financial Stability/Litigation

Respondent shall provide a statement certifying that they are financially stable and have the necessary resources, human and financial, to provide the services at the level required by the City of New Smyrna Beach. Respondent shall also list any lawsuits in which their team (firm & sub-consultants) are involved relative to the services performed or failed to perform over the last five (5) years. The respondent shall also list any work which their team failed to complete in the last five (5) years and describe when, where, how and why of such failure, including listing any officer or partner of their team who in the last five (5) years failed to complete a contract handled in his/her name and discuss the reasons. The companies Dunn & Bradstreet number shall be included.

Upon request, all respondents shall be prepared to supply a financial statement, preferably a certified audit, but a third party prepared financial statement and the latest Dunn & Bradstreet report will be accepted.

IX.L Acceptance of Conditions

Upload a statement indicating any exceptions to the general terms and conditions, insurance requirements or any other requirements listed in this solicitation document. If there are no exceptions, upload a statement stating there are no exceptions.

IX.M City Required Forms

Upload as one (1) PDF document COMPLETED City required forms provided in the Attachment Section of this document. Forms include, notarized, non-notarized, and any Addendums that may be issued.

IX.N Complete Copy of Submittal

Upload as one (1) PDF document a complete copy of the proposal, including cover page, evaluation criteria, City required forms, and addendums.

Proposal must be in a professional format and signed by an authorized officer of your organization. Please do not include a copy of this solicitation document.

IX.O Florida Division of Corporations/Sunbiz and Sams.Gov

- Provide evidence of authority to conduct commercial business in the State of Florida by providing the current Sunbiz report with an "Active" status.
- Provide evidence of active status on Sams.Gov.

X. Insurance Requirements

X.A Insurance Requirements

The selected Firm or Individual will be required to name the City as an additional named insured with the following minimum coverages.

A. Workers' Compensation shall be maintained by the selected firm or individual for all employees engaged in the work under this solicitation in accordance with the laws of the
    1. State of Florida. Employers' Liability Insurance shall be maintained by the selected firm or individual at limits not less than the following:
    2. $500,000 Each Accident
    3. $500,000 Disease Each Employee
    4. $500,000 Policy Limit for Disease

B. Commercial General Liability Insurance shall be maintained by the selected firm or individual with limits not less than the following:
    1. $1,000,000 Bodily Injury & Property Damage-each occurrence
    2. $2,000,000 Personal & Advertising Injury-each occurrence
    3. $2,000,000 General Aggregate
    4. $2,000,000 Products/Completed Operations Aggregates limit
    5. $ 5,000 Medical Payments
    6. $ 100,000 Fire Damage Legal Liability
    7. Coverage shall include Contractual Liability and Independent Contractors Liability.

C. **Automobile Liability Insurance** shall be maintained by the selected firm or individual with a combined single limit of not less than $1,000,000 Bodily Injury and Property Damage in accordance with the laws of the State of Florida, as to the Ownership, maintenance, and use of all owned, non-owned, leased or hired vehicles.

D. **Professional Liability Insurance** shall be maintained by the selected firm or individual with a combined single limit of not less than $1,000,000, protecting the selected firm against claims of the City for negligence, errors, mistakes, or omissions in the performance of services to be performed and furnished by the selected firm or individual.

1. If the contractor maintains broader coverage and/or higher limits than the minimums shown above, The City of New Smyrna Beach requires and shall be entitled to the broader coverage and/or the higher limits maintained by the Contractor.
2. Cancellation: Thirty (30) days written notice of cancellation is required to Certificate Holder

Certificate Holder:

City of New Smyrna Beach
210 Sams Avenue
New Smyrna Beach, FL 32168

X.B Acknowledgment of Insurance Requirements

It should be noted by the Proposer that, in order to meet the City's requirements, there may be additional insurance costs to the Proposer's firm. It is, therefore, imperative that the proposer discuss these requirements with the Proposer's insurance agent, as noted on the Insurance Check List, so that allowances for any additional costs can be made by the Proposer.

The Proposer's obligation under this provision shall not be limited in any way by the agreed upon contract price, or the Proposer's limit of, or lack of, sufficient insurance protection.

Proposer also understands that the evidence of required insurance may be required within five (5) business days following notification of its offer being accepted; otherwise, the City may rescind its acceptance of the Proposer's bid.

Statement of Insurance Compliance Form provided in the Attachment Section shall be completed and submitted with proposal.

XI. Required Responses

XI.A Public Records*

Applicant must respond confirming they have received a copy of the Public Records Act, located in the attachment section.

☐ Please confirm

*Response required

XI.B Company Name and Address*

By submitting this response, you hereby designate the company name and address listed here as the office to which notices may be delivered or mailed.

*Response required

XI.C Employer Identification Number**

Please provide the Employer Identification Number.

*Response required

XI.D Professional License *

Upload as one (1) PDF the appropriate required licenses related to the type of work as identified herein.

If the respondent to this solicitation is not a single prime contractor a list all subcontractors to be used for this project and their professional licenses must also be included.

*Response required

XI.E Proposer's Certification*

I have carefully examined this solicitation in its entirety, including but not limited to the qualifications, scope of services, and all other documents accompanying or made a part of this document.

I hereby propose to furnish the services specified herein at the prices, rates or discounts quoted in my proposal.

I agree that my proposal will remain firm for a period of up to one hundred eighty (180) days in order to allow the City adequate time to evaluate the proposals.

I agree to abide by all conditions of this proposal and understand that a background investigation may be conducted by the City of New Smyrna Beach Police Department prior to award.

I certify that all information contained in this proposal is truthful to the best of my knowledge and belief. I further certify that I am duly authorized to submit this proposal on behalf of the consultant as its act and deed and that the consultant is ready, willing and able to perform if awarded the contract.

I further certify, under oath, that this proposal is made without prior understanding, agreement, connection, discussion, or collusion with any other person, firm or corporation submitting a proposal for the same product or service; no officer, employee or agent of the City of New Smyrna Beach or of any other Proposer interested in said proposal; and that the undersigned executed this Proposer's Certification with full knowledge and understanding of the matters therein contained and was duly authorized to do so.

The contract shall be executed by the successful bidder and shall be returned, together with the Payment Bond, Performance Bond and Certificate(s) of Insurance to City of New Smyrna Beach so that it is received within **14 working days**after the bidder has received the contract for execution. Failure to do so shall be just cause for forfeiture of the proposal guaranty.

☐ Please confirm

*Response required

XI.H Potential Conflict of Interest*

- Upload any documentation/information which may be a potential conflict of interest due to other clients, contracts, or property interest for this project.

*Response required

XI.I Conflict of Interest Disclosure*

PROJECT NUMBER: 13-25-CIP - Design Build Sail Shade Structure for Pettis Park

The award of this contract is subject to the provisions of Chapter 112, Florida Statutes. All respondents must disclose within their submittal: the name of any officer, director, or agent who is also an employee of the City of New Smyrna Beach, Florida. Furthermore, all respondents must disclose the name of any city employee who owns, directly, or indirectly, an interest of more than five percent (5%) in the respondent's firm or any of its branches.

The purpose of this disclosure statement is to give the city the information needed to identify potential conflicts of interest for screening evaluation team members and other key personnel involved in the award of this contract.

The term "conflict of interest" refers to situations in which financial or other personal considerations may adversely affect, or have the appearance of adversely affecting, an employee's professional judgment in exercising any city duty or responsibility in administration, management, or other professional activities. The bias such conflicts could conceivable impart may inappropriately affect the goals of the city. The city must be free of the undue influence of outside interests.

The mere appearance of a conflict may be as serious and potentially damaging as an actual conflict of interest. Reports of conflicts based on appearances can undermine public trust in ways that may not be adequately restored even when the mitigating facts of a situation are brought to light. Apparent conflicts, therefore, should be disclosed and evaluated with the same vigor as actual conflicts.

PUBLIC RECORDS

All material submitted regarding this solicitation becomes the property of the City. Solicitation documents may be reviewed by any person ten (10) days after the public opening. The Respondent should take special note of this as it relates to any proprietary information that might be included in its offer. Any resulting contract may be reviewed by any person after the contract has been executed by the City.

The City has the right to use any or all information/material submitted in response to this solicitation and/or any resulting contract from same. Disqualification of a Professional Consultant does not eliminate this right. This section is further subject to F.S. 119.01 et. seq.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CITY'S CUSTODIAN OF PUBLIC RECORDS, CITY CLERK, AT 386/410-2630, CLERK@CITYOFNSB.COM, CITY OF NEW SMYRNA BEACH, 210 SAMS AVENUE, NEW SMYRNA BEACH, FL 32168.

The contractor is required to comply with public records laws, specifically to:

1. Keep and maintain public records required by the public agency to perform the service.
2. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.
3. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the public agency.
4. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the contractor or keep and maintain public records required by the public agency to perform the service. If the contractor transfers all public records to the public agency upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

Company name and title of Contract

THIS AGREEMENT is made and entered into this _____ day of _____, 2023, by and between _____, duly authorized to conduct business in the State of Florida and whose address is _____, FL _____, hereinafter, called "CONSULTANT," and the **CITY OF NEW SMYRNA BEACH**, a political subdivision of the State of Florida, whose address is 210 Sams Ave., New Smyrna Beach, FL, hereinafter called "CITY."

SECTION 1. AGREEMENT. The terms of this Agreement, together with the incorporation of the terms and conditions of the BID/RFP # AND TITLExxxxxxx**, FOR THE CITY OF NEW SMYRNA BEACH** and any exhibits, schedules, and attachments hereto, and any and all amendments relating to same, and any and all submittals from CONSULTANT, constitute the entire Agreement between the individual City and CONSULTANT. This Agreement is the final, complete and exclusive expression of the terms and conditions of the parties' Agreement. Any and all prior agreements, representations, negotiations, and understandings made by the parties, oral or written, expressed or implied, are hereby superseded and merged herein.

SECTION 2. TERM OF AGREEMENT. The initial term of this Agreement shall be for three (3) years from the date of the award. After the initial term, this Agreement may be renewed for two (2) optional, one (1) year periods. The maximum term for this Agreement and all renewals is a cumulative term of five (5) years.

SECTION 3. DESCRIPTION OF SERVICES. The Consultant agrees to perform the services outlined in the advertised solicitation document titled BID/RFP XX-XX-XX, TITLE XXXXXXXXX, and in the Consultant's submitted Proposal.

The Consultant shall diligently and in a professional and timely manner perform and provide these services. Unless modified in writing by the parties hereto, the duties of the Consultant shall not be construed to exceed the provision of the services pertaining to this Agreement.

The City and Consultant agree that there may be certain additional services required to be performed by the Consultant during the performance of the contract that cannot be defined sufficiently at the time of execution of this Agreement. These services shall be authorized in writing as an amendment to the contract and may contain additional instructions or provide specifications upon certain aspects of this Agreement pertaining to the work to be undertaken.

SECTION 4. COMPENSATION. For Services rendered, the CITY shall pay the CONSULTANT based on their fee schedule provided. Unless otherwise agreed in a Scope of Services, the CONSULTANT shall invoice the City monthly based upon the CONSULTANT's fees for services completed during the billing period.

SECTION 5. COMPONENT PARTS OF THE CONTRACT. This Contract consists of the following contract documents, all of which are hereby made a part hereof as if herein set out in full and all of which are familiar to the Contractor:

A. City Advertised Bid

B. Addendums
C. Award Bid Proposal
D. Certificate of Insurance
E. Presentation of Services
F. Fee Proposal

SECTION 6. CONTROLLING LAW, VENUE, AND ATTORNEY'S FEES. This Agreement is to be governed, construed, and interpreted by, through and under the laws of Florida. Venue for any litigation between the parties to this Agreement shall be in the County of Volusia, Florida and any trial shall be non-jury. The prevailing party in any litigation arising from or related to this Agreement shall be reimbursed reasonable attorney fees and costs, including all fees and costs of an appeal.

SECTION 7. RIGHTS AT LAW RETAINED. The rights and remedies of the City, provided for under this Agreement, are in addition and supplemental to any other rights and remedies provided by law.

SECTION 8. NOTICES. Whenever either party desires to give notice unto the other, it must be given by written notice, sent by registered or certified United States mail, return receipts requested, addressed to the party for whom it is intended at the place last specified. The place for giving of notice shall remain such until it shall have been changed by written notice in compliance with the provisions of this Section. For the present, the parties designate the following as the respective places for giving of notice, to-wit:

For City:

Kelly McQuillen, City Clerk
City of New Smyrna Beach
210 Sams Ave.
New Smyrna Beach, FL 32138
(386)410-2637

For Consultant:

_____
(Name, Title)

_____
(Company)

_____
(Address)

_____
(City, State, Zip)

_____
(Phone)

SECTION 9. MODFICATIONS TO AGREEMENT. This Agreement and any exhibits, amendments and schedules may only be amended, supplemented, modified or canceled by a written instrument duly executed by both parties hereto of equal dignity herewith.

DRAFT

SECTION 10. SEVERABILITY. If during the term of this Agreement, it is found that a specific clause or condition of this Agreement is illegal under federal or state law, the remainder of the Agreement not affected by such a ruling shall remain in force and effect.

SECTION 11. WAIVER OF JURY TRIAL. The City and Consultant have specifically waived the right to a jury trial concerning any disputes which may arise concerning this agreement.

SECTION 12. EFFECT OF FAILURE TO INSIST ON STRICT COMPLAINCE WITH CONDITIONS. The failure of either party to insist on strict performance of any covenant or condition of this contract, or to exercise any option herein contained, shall not be construed as a waiver of such covenant, condition, or option in any other instance. This contract cannot be changed or terminated orally.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the date written above for execution by the City of New Smyrna Beach.

Supplemental Conditions for Federally Assisted Projects and Required CDBG Forms

SUPPLEMENTAL CONDITIONS FOR FEDERALLY ASSISTED PROJECTS

The supplemental conditions contained in this section are intended to cooperate with, to supplement, and to modify the general conditions and other specifications. In case of disagreement with any other section of this contract, the Supplemental Conditions shall govern. This contract is funded in whole or in part with federal funds made available from the U.S. Department of Housing and Urban Development (HUD). The contractor and all of its subcontractors shall comply with these federal provisions. The contractor shall include these supplemental conditions in all subcontracts.

1. Davis-Bacon Act
2. Copeland "Anti-Kick Back" Act
3. Federal Labor Standards
4. Build America, Buy America Act
5. Environmental Compliance
6. Lead Based Paint Requirements
7. Historic Preservation
8. Energy Efficiency
9. Flood Disaster Protection
10. Special Equal Opportunity Provisions
11. Section 3
12. Conflict of Interest
13. Utilization of Minority and Women-owned Businesses
14. Fair Housing Laws
15. Drug Free Workplace
16. Debarred Contractors
17. Lobbying
18. Access to Records
19. Records Retention

Attachment I - Federal Labor Standards Provisions
Attachment II - Section 3 Clause

1. Davis- Bacon Act- 29 CFR Parts 1,3,5,6 and 7

The contractor agrees to comply with the requirements of the Davis-Bacon Act, which requires the payment of prevailing wage rates (which are determined by the U.S. Department of Labor) to all laborers and mechanics on federally funded construction projects in excess of $2,000. A Davis-Bacon wage decision (or wage determination) is a listing of various construction work classifications and the minimum wage rates (and fringe benefits, where prevailing) that workers who perform work in those classifications must be paid.

2. Copeland "Anti-Kickback" Act- 18 USC 874 and 40 USC 276c; 29 CFR Part 3

The contractor and subcontractor(s) shall comply with the requirements of the Copeland "Anti-Kickback" Act as supplemented in the U.S. Department of Labor regulations 29 CFR Part 3. The Copeland Act makes it a federal crime for anyone to require any laborer or mechanic (employed on a federally assisted project) to kickback (i.e. give up or pay back) any part of their wages. The Copeland Act requires every contractor and subcontractor to submit weekly payroll reports (certified payroll) and regulates permissible payroll deductions.

3. Federal Labor Standards

The project or program to which the construction work covered by this contract pertains is a federally assisted project and the Federal Labor Standards Provisions are included in this contract pursuant to the provisions applicable to such Federal assistance. See Attachment 1 for a complete copy of these labor standards.

4. Build America, Buy America (BABA) Act

The Grantee must comply with the requirements of the Build America, Buy America (BABA) Act, 41 USC 8301 note, and all applicable rules and notices, as may be amended, if applicable to the Grantee's infrastructure project. Pursuant to HUD's Notice, "Public Interest Phased Implementation Waiver for FY 2022 and 2023 of Build America, Buy America Provisions as Applied to Recipients of HUD Federal Financial Assistance" (88 FR 17001), any funds obligated by HUD on or after the applicable listed effective dates, are subject to BABA requirements, unless excepted by a waiver.

5. Environmental Compliance- Section 306 of the Clean Air Act, Section 508 of the Clean Water Act and EPA Regulations- 42 U.S.C. 1857(h)

The contractor shall comply with the requirements of the Federal Clean Air Act and the Federal Water Pollution Control Act, as amended. Requirements for compliance with these regulations apply to contracts and subcontracts in amounts in excess of $100,000. all applicable standards, orders, or requirements issued under (), (33 U.S.C. 1368), Executive Order 11738, and U.S. Environmental Protection Agency regulations (40 C.F.R. Part 15).

6. Lead- Based Paint Requirements- 24 CFR Part 35

All housing that is assisted by the contractor through this project with federal funds is subject to the lead-based paint requirements, found at 24 CFR Part 35. These rules apply to properties that were constructed prior to 1978, and require:

- Certain disclosures (in the form of notices) to occupants and applicants about any known or potential lead-based paint hazards
- Testing, assessing, and stabilization or reduction of lead-based paint hazards in accordance with established procedures, based on activity type and level of Federal assistance (for rehabilitation)
- Use of safe work practices
- Certain provisions included in all contracts and subcontracts related to lead-based paint
- Ongoing maintenance to monitor controls put in place to limit the hazards associated with the presence of lead-based paint.

7. Historic Preservation- 16 USC 470; 36 CFR Part 800

The contractor's performance may be subject to the Historic Preservation requirements set forth in the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470) and the procedures set forth in 36 CFR Part 800, Advisory Council on Historic Preservation Procedures for Protection of Historic Properties.

8. Energy Efficiency

The contractor shall comply with any mandatory standards and policies relating to energy efficiency, which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (Public Law 94-163).

9. Flood Disaster Protection- 42 USC 4001

The contractor's performance may be subject to the Flood Disaster Protection Act of 1973 which requires that activities located in an area identified by the Federal Emergency Management Agency (FEMA) as having special flood hazards, flood insurance under the National Flood Insurance Program must be obtained and maintained as a condition of financial assistance for acquisition or construction purposes (including housing rehabilitation.)

10. Special Equal Opportunity Provisions

A. Activities and Contracts Not Subject to Executive Order 11246, as Amended

(Applicable to Federally assisted construction contracts and related subcontracts $10,000 and under.)

During the performance of this contract, the Contractor agrees as follows:

i. The Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor shall take affirmative action to ensure that applicants for employment are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

ii. The Contractor shall post in conspicuous places, available to employees and applicants for employment, notices to be provided by Contracting Officer seeking forth the provisions of this nondiscrimination clause. The Contractor shall state that all qualified applicants be considered without regard to race, color, religion, sex or national origin.

iii. Contractors shall incorporate foregoing requirements in all subcontracts.

B. Executive Order 11246 (contracts/subcontracts above $10,000)

During the performance of this contract, the contractor agrees as follows:

i. Section 202 Equal Opportunity Clause

a. The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color,

religion, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment, or recruitment advertising; layoff or termination, rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in a conspicuous place, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

b. The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration without regard to race, color, religion, sex, or national origin.

c. The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding a notice to be provided by the Contract Compliance Officer advising the said labor union or workers representatives of the Contractors commitment under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

d. The Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the Rules, Regulations, and Relevant Orders of the Secretary of Labor.

e. The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the Department and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and others.

C. Certification of Non-segregated Facilities- E.O. 11246; 41 CFR Part 60- 1.8

By the submission of this bid, the bidder, offeror, applicant or subcontractor certifies that he/she does not maintain or provide for his/her employees any segregated facility at any of his/her establishments, and that he/she does not permit employees to perform their services at any location, under his/her control, where segregated facilities are maintained. He/She certifies further that he/she will not maintain or provide for employees any segregated facilities at any of his/her establishments, and he/she will not permit employees to perform their services at any location under his/her control where segregated facilities are maintained. The bidder, offeror, applicant or subcontractor agrees that a breach of this certification is violation of the Equal Opportunity Clause of this contract. As used in this certification, the term segregated facilities means any waiting rooms, work eating areas, time clocks, locker rooms, and other storage or dressing areas, transportation and housing facilities provided for employees

which are in fact segregated on the basis of race, color, religion, or otherwise. He/She further agrees that (except where he/she has obtained identical certifications from proposed subcontractors prior to the award of subcontractors have submitted identical certifications for specific time periods).

D. Equal Employment Opportunity- Title VII of the Civil Rights Act of 1964 E.O. 11246

Under Title VI of the Civil Rights Act of 1964, no person shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

E. Americans with Disabilities Act of 1990- E.O. 11250; 42 U.S.C 12131; 24 CFR Part 35

The contractor shall not exclude on the basis of handicap persons from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

F. Section 109 of the Housing and Community Development Act of 1974

No person in the United States shall on the grounds of race, color, national original, or sex is excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity funded in whole or in part with funds made available under this title.

G. Section 504 of the Rehabilitation Act of 1973- 29 USC 794, 24 CFR Parts 8 and 9

i. The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap in regard to any position for which the employee or applicant for employment is qualified. The Contractor agrees to take affirmative action to employ, advance in employment and otherwise treat qualified handicapped individuals without discrimination based upon their physical or mental handicap in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.

ii. The Contractor agrees to comply with the rules, regulations and relevant orders of the Secretary of Labor issued pursuant to the Act.

iii. In the event of the Contractors noncompliance with the requirements of this clause, actions for noncompliance may be taken in accordance with the rules, regulations, and relevant orders of the Secretary of Labor issued pursuant to the Act.

iv. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the Director, provided by or through the contracting officer. Such notices shall state the Contractors obligation under the law to take affirmative action to employ and advance in employment qualified handicapped employees and applicants for employment, and the rights of applicants and employees.

v. The Contractor will notify each labor union or representative of workers with which it has a collective bargaining agreement or their contract understanding, that the contractor is bound by the terms of Section 503 of the Rehabilitation Act of 1973, and is committed to take affirmative action to employ and advance in employment physically and mentally

handicapped individuals.

vi. The Contractor will include the provisions of this clause in every subcontract or purchase order of $2,500 or more unless exempted by rules, regulations, or orders of the Secretary issued pursuant to Section 503 of the Act, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the Director of the Office of Federal Contract Compliance Programs may direct to enforce such provisions, including action for noncompliance.

H. Age Discrimination Act of 1975- 42 U.S.C. 6101, et seq; 24 CFR Part 146

The contractor shall comply with the Age Discrimination Act of 1975, which provides that no person, on the basis of age be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, any program, or activity receiving Federal Financial assistance.

I. NSP 3 Vicinity Hiring and Contracting Preference-

A contractor that is awarded a project involving the use of NSP3 funds, as provided by the Dodd-Frank "Wall Street Reform and Consumer Protection Act" of January 5, 2010, sec 1497 (a)(8), is required to take actions to hire employees who reside in the vicinity of NSP3-funded projects, and provide contracting opportunities to small businesses that are owned and operated by residents in this vicinity.

11. Section 3- 24 CFR Part 75

The contractor shall comply with the purposes of the Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701U) (Section 3) and ensure that employment and other economic opportunities generated by HUD funded programs, to the greatest extent feasible, and consistent with Federal, State, and local laws and regulations, be directed to low- and very-low income persons, particularly those who are recipients of government assistance for housing, and to business concerns which provide economic opportunities to low and very low-income persons. Sub-recipients, contractors and subcontractors for a Section 3 project must meet the requirements of § 75.19, regardless of whether Section 3 language is included in related agreements or contracts.

12. Conflict Of Interest- 24 CFR Part 85.36 and 24 CFR Part 570.611

No officer or employee of the local jurisdiction or its designees or agents, no member of the governing body, and no other public official of the locality who exercises any function or responsibility with respect to this contract, during his/her tenure or for one year thereafter, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for work to be performed. Further, the Contractor shall cause to be incorporated in all subcontracts the language set forth in this paragraph prohibiting conflict of interest.

13. Utilization Of Minority And Women Firms (M/WBE)- 24 CFR Part 85 (e)

The contractor shall take affirmative steps to assure that M/WBE firms are utilized when possible as suppliers and/or subcontractors, as applicable.

Prior to contract award, the contractor shall document efforts to utilize M/WBE firms, including identifying what firms were solicited as suppliers and/or subcontractors, as applicable. Information regarding certified M/WBE firms can be obtained from:

- State of Florida at 904-487-4698 (all goods and services)
- State of Florida at 904-921-7370 (construction services, particularly highway)
- Minority Business Development Center in most major cities
- Local government M/WBE programs in many large counties and cities

14. Fair Housing Laws

The contractor shall company with the Fair Housing Act, and related laws that prohibit discrimination on the basis of race, color, national origin, religion, sex, familial status and handicap in the provision of housing, including rental, purchase, advertising, financing, insurance and multi-family housing on the basis of race, color, national origin, religion, sex, familial status and handicap. The requirements of the Fair Housing Act (42 U.S.C. 3601-20) and implementing regulations at 24 CFR part 100; Executive Order 11063, as amended by Executive Order 12259 (3 CFR, 1958-1063 Comp., p. 652 and 3 CFR, 1980 Comp., p. 307) (Equal Opportunity in Housing) and implementing regulations at 24 CFR part 107; and title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) (Nondiscrimination in Federally Assisted Programs) and implementing regulations issued at 24 CFR part 1 shall apply to any housing related contract awarded hereunder.

15. Drug Free Workplace- 41 USC 701, 24 CFR Part 21

The Contractor shall comply with the requirements of the Drug-Free Workplace Act of 1988. The Contractor certifies to comply with the drug-free workplace requirements in accordance with the Act, and with U.S. Department of Housing and Urban Development regulations.

16. Debarred Contractors

This project is subject to requirements prohibiting use of federal funds to directly or indirectly employ, award contracts to, or otherwise engage the services of any contractor, subcontractor or subrecipient during any period of federal debarment, suspension, or placement of ineligibility status. The County is required to check the eligibility status of all contractors, subcontractors, and subrecipients against the federal publication that lists debarred and ineligible contractors. This list can be found on the The System for Award Management (SAM) at https://www.sam.gov

17. Lobbying

The Contractor certifies, to the best of his or her knowledge and belief, that:

A. No federally appropriated funds have been paid or will be paid, by or on behalf of the Contractor, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan or cooperative agreement.

B. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or

employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

C. The Contractor shall require that the language of this certification be included in the award documents for all sub-awards at all tiers including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements.

D. This certification is a material representation of fact upon which reliance was placed when this contract was made or entered into. Agreement to this certification is a prerequisite for making or entering into this contract imposed by Section 1352, title 31, U.S. Code. Any person or agency that makes an expenditure prohibited by this section is subject to a civil penalty from $10,000 up to $100,000 for each failure. This penalty also applies to any person or agency that fails to submit or amend the disclosure form (LLL), when required. Failure to submit the required certification may result in payment under this contract being delayed or denied.

18. Access to Records- 24 CFR Part 85.42 (e) & (f)

The contractor shall give access to all records, pertinent books, documents, papers or other records related to this contract to the awarding agency, the County of Volusia, the U.S. Department of Housing and Urban Development, the Comptroller General of the United States, and any of their duly authorized representatives for the purpose of making audit, examination, excerpts, and transcriptions as needed.

19. Records Retention- 24 CFR Part 85.42 (a)-(d)

The contractor shall comply with the CDBG records retention regulations. Financial, program, supporting, and other records pertinent to this contract and the grant program shall be maintained for five years after the local government makes final payment and all other pending matters are closed.

Attachment I

FEDERAL LABOR STANDARDS PROVISIONS | **U.S. Department of Housing And Urban Development** | HUD-4010 (7/03)

Applicability

The project or program to which the construction work covered by this contract pertains is being assisted by the United States of America and the following Federal Labor Standards Provisions are included in this contract pursuant to the provisions applicable to such Federal assistance.

- **1. (i) Minimum Wages.** All laborers and mechanics employed or working upon the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), will be paid unconditionally and not less often than once a week , and without subsequent deduction or rebate on account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR Part 3), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at the time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made part hereof , regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics. Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of 29 CFR-5.5(a)(1)(iv); also regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs, which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period.

Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR Part 5.5(a)(1)(ii) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its sub-contractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

- **(a)** Any class of laborers or mechanics which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. HUD shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(1) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(2) The classification is utilized in the area by the construction industry; and

(3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(b) If the contractor and the laborers and mechanics employed in the classification (if known, or their representatives, and HUD or its designee agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent to HUD or its designee to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, D.C. 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise HUD or its designee or will notify HUD or its designee within the 30-day period that additional time is necessary. (approved by the Office of Management and Budget under OMB control number 1215-0140.)

(c) In the event the contactor, the laborers or mechanics to be employed in the classification or their representatives, and HUD or its designee do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate). HUD or its

designee shall refer the questions, including the views of all interested parties and the recommendation of HUD or its designee, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise HUD or its designee or will notify HUD or its designee with the 30-day period that additional time is necessary. (Approved by the Office of Management and Budget under OMB Control Number 1215-0140.)

(d) The wage rate (including fringe benefits where appropriate) determined pursuant to subparagraphs (1) (b) or (c) of this paragraph, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

• Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

• If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, provided that the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program. (Approved by the Office of Management and Budget under OMB Control Number 1215-0140.)

2. Withholding. HUD or its designee shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the contractor under this contract or any other Federally contract with the same prime contractor, or any other Federally assisted contract subject to Davis Bacon prevailing wage requirements, which is held by the same prime contractor so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees and helpers employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the contract, HUD or its designee may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violation have ceased. HUD or its designee may, after written notice to the contractor, disburse such amounts withheld for and on account of the contractor or subcontractor to the respective employees to whom they are due. The Comptroller General shall make such disbursements in the case of direct Davis-Bacon Act contracts.

3. (i) Payroll and basic records. Payroll and basic records related thereto shall be maintained by the contractor during the course of the work preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in Section 1(b) (2) (B) of the Davis bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5 (a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in Section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs (Approved by the Office of Management and Budget under OMB Control Numbers 1215-0140 and 1215-0017.)

(ii) (a) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to HUD or its designee if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit the payrolls to the applicant sponsor, or owner, as the case may be, for transmission to HUD or its designee. The payrolls submitted shall set out accurately and completely, all of the information required to be maintained under 29 CFR Part 5.5(a) (3) (i). This information may be submitted in any form desired. Optional Form WH-347 is available for this purpose and may be purchased from the Superintendent of Documents (Federal Stock Number 029-005-00014-1), U.S. Government Printing Office, Washington D.C. 20402.The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. (Approved by the Office of Management and Budget under OMB Control Number 1215-0149.)

(b) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

(1) That the payroll for the payroll period contains the information required to be maintained under 29 CFR Part 5.5 (a) (3) (i) and that such information is correct and complete:

(2) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been fully paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than the permissible deductions as set forth in 29 CFR Part 3;

(3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(c) The weekly submission of a properly executed certification set forth on the reverse side of WH-347 shall satisfy the requirement of submission of the: Statement of Compliance" required by paragraph A.3. (ii)(b) of this section

(d) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under Section 1001 of Title 18 and Section 231 of Title 31 of the United States Code.

(iii) The contractor or subcontractor shall make the records required under paragraph A.3.(i) of this section available for inspection, copying, or transcription by authorized representatives of HUD or its designee or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fail s to submit the required records or to make them available, HUD or its designee may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available shall be grounds for debarment action pursuant to 29 CFR 5.12.

4. Apprentices and Trainees.

(i) Apprentices. Apprentices will be permitted to work at less than the predetermined rate for the work they perform when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and training Administration, Bureau of Apprenticeship and Training, or with a State Apprenticeship Agency recognized by the Bureau, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, bit who has been certified by the Bureau of Apprenticeship and Training or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeyman on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, which is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is

performing construction on a project in a locality other than that in which its program is registered , the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractors registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Bureau of Apprenticeship and Training, or a State Apprenticeship Agency recognized by the Bureau, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) Trainees. Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hurly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the training program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed in the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate that is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(iii) Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended and 29 CFR Part 30.

5. Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR Part 3 which are incorporated by reference in this contract.

6. Subcontracts. The contractor or subcontractor will insert in any subcontracts the clauses contained in 29 CFR 5.5(a)(1) through (10) and such other clauses as HUD or its designee may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor will all the contract clauses in 29 CFR Part 5.5.

7. Contract termination; debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

8. Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and related Acts contained in 29 CFR Parts 1, 3, and 5 are herein incorporated by reference in this contract.

9. Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR Parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its

subcontractors) and HUD or its designee, the U.S. Department of Labor, or the employees or their representatives.

10. (i) Certification of Eligibility. By entering into this contract the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of Section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a) (1) or to be awarded HUD contracts or participate in HUD programs pursuant to 24 CFR Part 24.

(ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of Section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1) or to be awarded HUD contracts or participate in HUD programs pursuant to 24 CFR Part 24.

(iii) The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C 1001. Additionally, U.S. Criminal Code, Section 1 01 0,Title 18, U.S.C., "Federal Housing Administration transactions", provides in part: "Whoever, for the purpose of … influencing in any way the action of such Administration….makes, utters or publishes any statement knowing the same to be false ….. shall be fined not more than $5,000 or imprisoned not more than two years, or both."

11. Complaints, Proceedings, or Testimony by Employees. No laborer or mechanic to whom the wage, salary, or other labor standards provisions of this Contract are applicable shall be discharged or in any manner discriminated against by the Contractor or any subcontractor because such employee has filed any complaint or instituted or caused to be instituted any proceeding or has testified or is about to testify in any proceeding under or related to the labor standards applicable under this Contract to his employer.

- **Contract Work Hours and Safety Standards Act.** As used in this paragraph, the terms "laborers" and "mechanic" include watchmen and guards.

(1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of eight hours in any calendar day or in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basis rate of pay for all hours worked in excess of eight hours in any calendar day or in excess of forty hours in such workweek, whichever is greater.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in subparagraph (1) of this paragraph, the contractor and any subcontractor responsible therefore shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth on subparagraph (1) of this paragraph, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of eight hours or in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in sub paragraph (1) of this paragraph.

(3) Withholding for unpaid wages and liquidated damages. HUD or its designee shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract, or any other Federal contract with the same prime contract, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act which is held by the same prime contractor such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in subparagraph (2) of this paragraph.

(4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in subparagraph (1) through (4) of this paragraph and also a clause requiring the subcontracts to include these clauses in any lower tier subcontracts, The prime contractor shall be responsible for compliance by any

subcontractor or lower tier subcontractor with the clauses set forth in subparagraphs (1) through (4) of this paragraph.

- **Health and Safety**

(1) No laborer or mechanic shall be required to work in surroundings or under working conditions, which are unsanitary, hazardous, or dangerous to his health and safety as determined under construction safety and health standards promulgated by the Secretary of Labor, by regulation.

(2) The Contractor shall comply with al regulations issued by the Secretary of Labor pursuant to Title 29 Part 1926 (formerly part 1518) and failure to comply may result in imposition of sanctions pursuant to the Contract Work Hours and Safety Standards Act (Public Law 91-54, 83 State 96).

(3) The Contractor shall include the provisions of this Article in every subcontract so that such provisions will be binding on each subcontractor. The Contractor shall take such action with respect to any subcontract as the Secretary of Housing and Urban Development or the Secretary of Labor shall direct as a means of enforcing such provisions.

Attachment II

Section 3 requires that the following provisions ("the section 3 clause"), be included in every contract that involves section 3 projects.

Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 170lu), as amended, and the HUD regulations issued pursuant thereto (24 CFR Part 75), shall govern all housing rehabilitation, housing construction, and other public construction projects assisted under HUD programs that provide housing and community development financial assistance when the total amount of assistance to the project exceeds $200,000 of housing and community development financial assistance, including CDBG, as follows:

a. The work to be performed under the contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 170lu (section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by Section 3, shall, to the greatest extent feasible, be directed to low- and very low-income persons particularly persons who are recipients of HUD assistance for housing.

b. The parties to the contract agree to comply with HUD's regulations in 24 CFR Part 75, which implement Section 3. As evidenced by their execution of this contract, the parties to the contract certify that they are under no contractual or other impediment that would prevent them from complying with the Part 75 regulations.

c. The contractor agrees to send to each labor organization or representative of workers with which the contractor has a collective bargaining agreement or other understanding, if any, a notice advising the labor organization or workers' representative of the contractors commitments under this Section 3 clause, and will post copies of the notice in conspicuous placed at the work site where both employees and applicants for training and employment positions can see the notice. The notice shall describe the Section 3 preference, shall set forth minimum number and job titles subject to hire, availability of apprenticeship and training positions, the qualifications for each; and the name and location of the person(s) taking applications for each of the positions; and the anticipated date the work shall begin.

d. The contractor agrees to include the Section 3 clause in every subcontract subject to compliance with regulations 24 CFR Part 75 and agrees to take appropriate action, as provided in an applicable provision of the subcontract or in this section 3 clause upon a finding that the subcontractor is in violation of the regulations in 24 CFR Part 75. The contractor will not subcontract with any subcontractor where the contractor has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR Part 75.

e. The contractor will certify that any vacant employment positions, including training positions, that are filled (1) after the contractor is selected but before the contract is executed, and (2) with persons other than those to whom the regulations of 24 CFR Part 75 require employment opportunities to be directed, were not filled to circumvent the contractors obligations under 24 CFR Part 75.

f. Noncompliance with HUD's regulations in 24 CFR Part 75 may result in sanctions, termination of this contract for default, and debarment or suspension from future HUD assisted contracts.

g. With respect to work performed in connection with Section 3 covered Indian housing assistance, section 7(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450e) also applies to the work to be performed under this contract. Section 7(b) requires that to the greatest extent feasible (i) preference and opportunities for training and employment shall be given to Indians and (ii) preference in the award of contracts and subcontracts shall be given to Indian organizations and Indian-owned Economic Enterprises. Parties to this contract that are subject to the provisions of section 3 and section 7(b) agree to comply with section 3 to the maximum extent feasible, but not in derogation of compliance with section 7(b).

Wage and Hour Division

Instructions For Completing Payroll Form, WH-347

- WH-347 (PDF)
  OMB Control No. 1235-0008, Expires 09/30/2026.

General: Form WH-347 has been made available for the convenience of contractors and subcontractors required by their Federal or Federally-aided construction-type contracts and subcontracts to submit weekly payrolls. Properly filled out, this form will satisfy the requirements of Regulations, Parts 3 and 5 (29 C.F.R., Subtitle A), as to payrolls submitted in connection with contracts subject to the Davis-Bacon and related Acts.

While completion of Form WH-347 is optional, it is mandatory for covered contractors and subcontractors performing work on Federally financed or assisted construction contracts to respond to the information collection contained in 29 C.F.R. §§ 3.3, 5.5(a). The Copeland Act (40 U.S.C. § 3145) requires contractors and subcontractors performing work on Federally financed or assisted construction contracts to "furnish weekly a statement with respect to the wages paid each employee during the preceding week." U.S. Department of Labor (DOL) Regulations at 29 C.F.R. § 5.5(a)(3)(ii) require contractors to submit weekly a copy of all payrolls to the Federal agency contracting for or financing the construction project, accompanied by a signed "Statement of Compliance" indicating that the payrolls are correct and complete and that each laborer or mechanic has been paid not less than the proper Davis-Bacon prevailing wage rate for the work performed. DOL and federal contracting agencies receiving this information review the information to determine that employees have received legally required wages and fringe benefits.

Under the Davis-Bacon and related Acts, the contractor is required to pay not less than prevailing wage, including fringe benefits, as predetermined by the Department of Labor. The contractor's obligation to pay fringe benefits may be met either by payment of the fringe benefits to bona fide benefit plans, funds or programs or by making payments to the covered workers (laborers and mechanics) as cash in lieu of fringe benefits.

This payroll provides for the contractor to show on the face of the payroll all monies to each worker, whether as basic rates or as cash in lieu of fringe benefits, and provides for the contractor's representation in the statement of compliance on the payroll (as shown on page 2) that he/she is paying for fringe benefits required by the contract and not paid as cash in lieu of fringe benefits. Detailed instructions concerning the preparation of the payroll follow:

Contractor or Subcontractor: Fill in your firm's name and check appropriate box.

Address: Fill in your firm's address.

Payroll No.: Beginning with the number "1", list the payroll number for the submission.

For Week Ending: List the workweek ending date.

Project and Location: Self-explanatory.

Project or Contract No.: Self-explanatory.

Column 1 - Name and Individual Identifying Number of Worker: Enter each worker's full name and an individual identifying number (e.g., last four digits of worker's social security number) on each weekly payroll submitted.

Column 2 - No. of Withholding Exemptions: This column is merely inserted for the employer's convenience and is not a requirement of Regulations, Part 3 and 5.

Column 3 - Work Classifications: List classification descriptive of work actually performed by each laborer or mechanic. Consult classification and minimum wage schedule set forth in contract specifications. If additional classifications are deemed necessary, see Contracting Officer or Agency representative. An individual may be shown as having worked in more than one classification provided an accurate breakdown or hours worked in each classification is maintained and shown on the submitted payroll by use of separate entries.

Submit Feedback

Column 4 - Hours worked: List the day and date and straight time and overtime hours worked in the applicable boxes. On all contracts subject to the Contract Work Hours Standard Act, enter hours worked in excess of 40 hours a week as "overtime".

Column 5 - Total: Self-explanatory

Column 6 - Rate of Pay (Including Fringe Benefits): In the "straight time" box for each worker, list the actual hourly rate paid for straight time worked, plus cash paid in lieu of fringe benefits paid. When recording the straight time hourly rate, any cash paid in lieu of fringe benefits may be shown separately from the basic rate. For example, "$12.25/.40" would reflect a $12.25 base hourly rate plus $0.40 for fringe benefits. This is of assistance in correctly computing overtime. See "Fringe Benefits" below. When overtime is worked, show the overtime hourly rate paid plus any cash in lieu of fringe benefits paid in the "overtime" box for each worker; otherwise, you may skip this box. See "Fringe Benefits" below. Payment of not less than time and one-half the basic or regular rate paid is required for overtime under the Contract Work Hours Standard Act of 1962 if the prime contract exceeds $100,000. In addition to paying no less than the predetermined rate for the classification which an individual works, the contractor must pay amounts predetermined as fringe benefits in the wage decision made part of the contract to approved fringe benefit plans, funds or programs or shall pay as cash in lieu of fringe benefits. See "FRINGE BENEFITS" below.

Column 7 - Gross Amount Earned: Enter gross amount earned on this project. If part of a worker's weekly wage was earned on projects other than the project described on this payroll, enter in column 7 first the amount earned on the Federal or Federally assisted project and then the gross amount earned during the week on all projects, thus "$163.00/$420.00" would reflect the earnings of a worker who earned $163.00 on a Federally assisted construction project during a week in which $420.00 was earned on all work.

Column 8 - Deductions: Five columns are provided for showing deductions made. If more than five deduction are involved, use the first four columns and show the balance deductions under "Other" column; show actual total under "Total Deductions" column; and in the attachment to the payroll describe the deduction(s) contained in the "Other" column. All deductions must be in accordance with the provisions of the Copeland Act Regulations, 29 C.F.R., Part 3. If an individual worked on other jobs in addition to this project, show actual deductions from his/her weekly gross wage, and indicate that deductions are based on his gross wages.

Column 9 - Net Wages Paid for Week: Self-explanatory.

Totals - Space has been left at the bottom of the columns so that totals may be shown if the contractor so desires.

Statement Required by Regulations, Parts 3 and 5: While the "statement of compliance" need not be notarized, the statement (on page 2 of the payroll form) is subject to the penalties provided by 18 U.S.C. § 1001, namely, a fine, possible imprisonment of not more than 5 years, or both. Accordingly, the party signing this statement should have knowledge of the facts represented as true.

Items 1and 2: Space has been provided between items (1) and (2) of the statement for describing any deductions made. If all deductions made are adequately described in the "Deductions" column above, state "*See* Deductions column in this payroll." *See* "FRINGE BENEFITS" below for instructions concerning filling out paragraph 4 of the statement.

Item 4 FRINGE BENEFITS - Contractors who pay all required fringe benefits: If paying all fringe benefits to approved plans, funds, or programs in amounts not less than were determined in the applicable wage decision of the Secretary of Labor, show the basic cash hourly rate and overtime rate paid to each worker on the face of the payroll and check paragraph 4(a) of the statement on page 2 of the WH-347 payroll form to indicate the payment. Note any exceptions in section 4(c).

Contractors who pay no fringe benefits: If not paying all fringe benefits to approved plans, funds, or programs in amounts of at least those that were determined in the applicable wage decision of the Secretary of Labor, pay any remaining fringe benefit amount to each laborer and mechanic and insert in the "straight time" of the "Rate of Pay" column of the payroll an amount not less than the predetermined rate for each classification plus the amount of fringe benefits determined for each classification in the application wage decision. Inasmuch as it is not necessary to pay time and a half on cash paid in lieu of fringe benefits, the overtime rate shall be not less than the sum of the basic predetermined rate, plus the half time premium on basic or regular rate, plus the required cash in lieu of fringe benefits at the straight time rate. In addition, check paragraph 4(b) of the statement on page 2 the payroll form to indicate the payment of fringe benefits in cash directly to the workers. Note any exceptions in section 4(c).

Use of Section 4(c), Exceptions

Any contractor who is making payment to approved plans, funds, or programs in amounts less than the wage determination requires is obliged to pay the deficiency directly to the covered worker as cash in lieu of fringe benefits. Enter any exceptions to section 4(a) or 4(b) in section 4(c). Enter in the Exception column the craft, and enter in the Explanation column the hourly amount paid each worker as cash in lieu of fringe benefits and the hourly amount paid to plans, funds, or programs as fringe benefits. The contractor must pay an amount not less than the predetermined rate plus cash in lieu of fringe benefits as shown in section 4(c) to

Submit Feedback

each such individual for all hours worked (unless otherwise provided by applicable wage determination) on the Federal or Federally assisted project. Enter the rate paid and amount of cash paid in lieu of fringe benefits per hour in column 6 on the payroll. See paragraph on "Contractors who pay no fringe benefits" for computation of overtime rate.

Public Burden Statement: We estimate that it will take an average of 55 minutes to complete this collection of information, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. If you have any comments regarding these estimates or any other aspect of this collection of information, including suggestions for reducing this burden, send them to the Administrator, Wage and Hour Division, U.S. Department of Labor, Room S3502, 200 Constitution Avenue, N.W.,Washington, D.C. 20210.

Note: In order to view, fill out, and print PDF forms, you need Adobe® Acrobat® Reader® version 5 or later, which you may download for free at www.adobe.com/products/acrobat/readstep2.html.

While completion of Form WH-347 is optional, it is mandatory for covered contractors and subcontractors performing work on Federally financed or assisted construction contracts to respond to the information collection contained in 29 C.F.R. §§ 3.3, 5.5(a). The Copeland Act (40 U.S.C. § 3145) contractors and subcontractors performing work on Federally financed or assisted construction contracts to "furnish weekly a statement with respect to the wages paid each employee during the preceding week." U.S. Department of Labor (DOL) regulations at 29 C.F.R. § 5.5(a)(3)(ii) require contractors to submit weekly a copy of all payrolls to the Federal agency contracting for or financing the construction project, accompanied by a signed "Statement of Compliance" indicating that the payrolls are correct and complete and that each laborer or mechanic has been paid not less than the proper Davis-Bacon prevailing wage rate for the work performed. DOL and federal contracting agencies receiving this information review the information to determine that employees have received legally required wages and fringe benefits.

Public Burden Statement

do hereby state:

(1) That I pay or supervise the payment of the persons employed by

_____ on the
(Contractor or Subcontractor)

_____; that during the payroll period commencing on the
(Building or Work)

_____ day of _____, _____, and ending the _____ day of _____, _____,

all persons employed on said project have been paid the full weekly wages earned, that no rebates have been or will be made either directly or indirectly to or on behalf of said

_____ from the full
(Contractor or Subcontractor)

weekly wages earned by any person and that no deductions have been made either directly or indirectly from the full wages earned by any person, other than permissible deductions as defined in Regulations, Part 3 (29 C.F.R. Subtitle A), issued by the Secretary of Labor under the Copeland Act, as amended (48 Stat. 948, 63 Stat. 108, 72 Stat. 967; 76 Stat. 357; 40 U.S.C. § 3145), and described below:

_____

_____

_____

_____

(2) That any payrolls otherwise under this contract required to be submitted for the above period are correct and complete; that the wage rates for laborers or mechanics contained therein are not less than the applicable wage rates contained in any wage determination incorporated into the contract; that the classifications set forth therein for each laborer or mechanic conform with the work he performed.

(3) That any apprentices employed in the above period are duly registered in a bona fide apprenticeship program registered with a State apprenticeship agency recognized by the Bureau of Apprenticeship and Training, United States Department of Labor, or if no such recognized agency exists in a State, are registered with the Bureau of Apprenticeship and Training, United States Department of Labor.

(4) That:

(a) WHERE FRINGE BENEFITS ARE PAID TO APPROVED PLANS, FUNDS, OR PROGRAMS

☐ – in addition to the basic hourly wage rates paid to each laborer or mechanic listed in the above referenced payroll, payments of fringe benefits as listed in the contract have been or will be made to appropriate programs for the benefit of such employees, except as noted in section 4(c) below.

(b) WHERE FRINGE BENEFITS ARE PAID IN CASH

☐ – Each laborer or mechanic listed in the above referenced payroll has been paid, as indicated on the payroll, an amount not less than the sum of the applicable basic hourly wage rate plus the amount of the required fringe benefits as listed in the contract, except as noted in section 4(c) below.

Superseded General Decision Number: FL20240137

State: Florida

Construction Type: Heavy

County: Volusia County in Florida.

HEAVY CONSTRUCTION PROJECTS (Including Sewer and Water Lines) (EXCLUDING CAPE CANAVERAL AIR FORCE STATION, PATRICK AIR FORCE BASE, KENNEDY SPACE FLIGHT CENTER AND MALABAR RADAR SITE)

Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(1).

If the contract is entered into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022:	. Executive Order 14026 generally applies to the contract. . The contractor must pay all covered workers at least $17.75 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2025.
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022:	. Executive Order 13658 generally applies to the contract. . The contractor must pay all covered workers at least $13.30 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2025.

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

Additional information on contractor requirements and worker protections under the Executive Orders is available at http://www.dol.gov/whd/govcontracts.

==========

** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 ($17.75) or 13658 ($13.30). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 are not currently being enforced as to any contract or subcontract to which the states of Texas, Louisiana, or Mississippi, including their agencies, are a party.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at https://www.dol.gov/agencies/whd/government-contracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey

rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than ""SU"", ""UAVG"", ?SA?, or ?SC? denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The ""SU"" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The ""SA"" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were

adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

a) a survey underlying a wage determination
b) an existing published wage determination
c) an initial WHD letter setting forth a position on a wage determination matter
d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.

DeLand, FL 32720

Minority & Women Business Reporting Form (MWBE)
Information and Instructions for Contractors & Subcontractors

Reporting

This report shall be completed by all contractors and subcontractors for reporting contract and subcontract activities for construction projects as required by the County of Volusia Community Assistance Division. Subcontracts of less than $10,000 must be reported individually only if such contracts represent a significant portion of the total contracting activity.

- Section 7a:
  - ✓ **Amount of Contract/Subcontract:** Enter the dollar amount rounded to the nearest dollar. If subcontractor ID number is provided in 7f, the dollar figure would be for the subcontract only and not for the prime contract.

- Section 7b:
  - ✓ **Type of Trade:** Enter the numeric code which best indicates each contractor's/subcontractor's service type. If subcontractor ID number is provided in 7f, the type of trade code would be for the subcontractor only and not for the prime contractor.

    * The "other" category includes supply, professional services, and all other activities except construction and education/training activities

- Section 7c:
  - ✓ **Business Racial/Ethnic/Gender Code:** Enter the numeric code which best indicates the racial/ethnic/gender character of the owner(s) and controller(s) of 51% of the business. When 51% or more is not owned and controlled by any single racial/ethnic/gender category, enter the code which seems most appropriate. If the subcontractor ID number is provided, the code would apply to the subcontractor and not the prime contractor

- Section 7d:
  - ✓ **Women Owned Business:** Enter "yes" or "no" to if each listed agency is women owned

- Section 7e:
  - ✓ **Contractor Identification Number:** Enter the Employer (IRS/FEIN) Number of the Prime Contractor as the unique identifier of the prime recipient of HUD funds. Note that the Employer (IRS) Number must be provided for each contract/subcontract awarded.

- Section 7f:
  - ✓ **Subcontractor Identification Number:** Enter the Employer (IRS/FEIN) Number of the subcontractor as the unique identifier for each subcontract awarded from HUD funds. When the subcontractor ID number is provided, the respective Prime Contractor ID Number must also be provided.

- Section 7g:
  - ✓ **Contractor/Subcontractor Business Name and Address:** Enter this information for each firm receiving contract/subcontract activity only one time on each report for each firm.

EQUAL HOUSING OPPORTUNITY

Section 3 Information

What is Section 3?

Section 3 is a provision of the Housing and Urban Development Act of 1968. The purpose of Section 3 is to ensure that employment and other economic opportunities generated by certain HUD financial assistance shall, to the greatest extent feasible, and consistent with existing Federal, State and local laws and regulations, be directed to low- and very low income persons; particularly those who are recipients of government assistance for housing or residents of the community in which the Federal assistance is provided.

What is a Section 3 Business Concern?

A business concern meeting at least one of the following criteria, documented within the last six-month period:

- Owned and controlled by at least 51% low- or very low-income persons;
- Over 75% of the labor hours performed for the business over the prior three-month period performed by Section 3 workers;
- Owned and controlled by at least 51% current public housing residents or residents currently living in Section-8 assisted housing

What is a Section 3 Worker?

A Section 3 worker is any worker who currently fits, or if hired on or after 11/30/20 fit, one the following categories, as documented:

- A worker whose annual income is at or below the 80% income limit as established by HUD
- A worker employed by a documented Section 3 Business Concern
- A worker that is a YouthBuild participant

What is a Targeted Section 3 Worker?

For Community Development funded projects, a Targeted Section 3 worker is:

- A worker employed by a documented Section 3 Business Concern; or
- A worker who currently fits, or if hired on or after 11/30/20 fit, one the following categories, as documented:
    - A worker living within the service area of the project, as defined at §75.5; or
    - A worker that is a YouthBuild participant

Are there contract provisions related to Section 3?

Yes; all contracts for Section 3 covered projects must include language applying Section 3 requirements to any subrecipient agreement or contract for a Section 3 project. Sub-recipients, contractors and subcontractors for a Section 3 project must meet the requirements of §75.19, regardless of whether Section 3 language is included in related agreements or contracts.

What information is required for Section 3 Reporting?

For Community Development funded projects, the following may be required:

- Section 3 Business Concern Certification
- Section 3 Project Workforce form
- Section 3 Certification form, when applicable
- Supporting documents for those claiming status as of Section 3 Business Concerns, Section 3 Worker, and/or Section 3 Targeted Worker
- Any other information requested by Volusia County to ensure Section 3 compliance

County of Volusia
Community Assistance
121 W. Rich Avenue
DeLand, FL 32720

Section 3 Project Requirements

What is a Section 3 project?

Section 3 projects are housing rehabilitation, housing construction, and other public construction projects assisted under HUD programs that provide housing and community development financial assistance when the total amount of assistance to the project exceeds $200,000 of housing and community development financial assistance. If the $200,000 threshold is met the entire project must be compliant with the Section 3 provisions.

What are the required thresholds for section 3 projects?

- Twenty-five (25) percent or more of the total number of labor hours worked by all workers on a Section 3 project are Section 3 workers; (Section 3 Labor Hours/Total Labor Hours = 25%)
  AND
- Five (5) percent or more of the total number of labor hours worked by all workers on a Section 3 project are Targeted Section 3 workers, as defined at 24 CFR Part 75.21. (Targeted Section 3 Labor Hours/Total Labor Hours = 5%)

What are the requirements of Prime Contractors for Section 3 projects?

- Contractors are required to submit monthly activity reports to CDBG by the 10th of each month
  - These reports may be in the form of a letter, signed and on company letterhead
  - The report should include,
    - Explanation of all efforts made to meet the required thresholds (see below for examples)
    - Total labor hours for Section 3 workers and Targeted Section 3 workers for the preceding month
    - Estimate of Section 3 thresholds at the end of the project (is the project expected to meet the required thresholds as defined? If yes, what is the estimated percentage? If no, what is the estimated percentage and what efforts are being made to increase it?
    - Section 3 Labor Hours Tracking Form (template will be provided)
- Once the project is completed, prime contractors must submit a final Section 3 cumulative report
- All efforts to find section 3 employees must be documented. Some example methods are,
  - Outreach, marketing materials, and communications (Ex: flyers, emails, text marketing messages, bill inserts, door hangers, social media, website)
  - Promoting resident interest in opportunities (Ex: flyers, interest forms, workshop attendance records)
  - Efforts made to coordinate with partner agencies to refer residents to programs and services (Ex: number and types of referrals made, list of actions taken to coordinate with partners)
  - Resident placement into Section 3-related training or employment opportunities (Ex: referral records, case management records)
  - Referrals made to employers for employment opportunities (Ex: referral records, emails, payroll records from contractors)
  - Engaging in outreach efforts to generate job applicants who are Targeted Section 3 workers (Ex: flyers, emails, text marketing messages, bill inserts, door hangers, social media, website)
  - Providing training or apprenticeship opportunities

Build America, Buy America (BABA) Information

What is Build America, Buy America (BABA)?

The Build America, Buy America Act (BABA) requires that all iron, steel, manufactured products, and construction materials used for federally funded infrastructure projects are produced in the United States, unless otherwise exempt or subject to an approved waiver. This requirement is known as the "Buy America Preference (BAP)".

When does BABA apply to projects?

The Build America, Buy America Act (BABA) applies to all federally funded infrastructure projects. The Community Development Block Grant (CDBG) is a federal funding source and BABA would apply for all infrastructure project funded with CDBG. If additional funding sources are being used, the entire project must meet BABA requirements if any federal funding source is being utilized.

What is considered an infrastructure project?

The following are considered infrastructure projects according to BABA:

- Rehabilitation, maintenance, and reconstruction of buildings and real property, including housing
- Construction and repair of public facilities and improvements, such as water, sewer, or other utilities, parks, roads, bridges, sidewalks, homeless shelters, or broadband infrastructure

Do all materials have to be manufactured in the United States?

The U.S. Department of Housing and Urban Development (HUD) is requiring that BABA be met in phases to assist with the current transition. The phases are based on the year the funds were obligated. If you are unsure which fiscal year the funds were obligated for your project, reach out to the city you were awarded by or CDBG@volusia.org.

Obligated Fiscal Year	Materials that must follow BABA
FY 2023/24	• Iron • Steel
FY 2024/25	• Non-ferrous metals • Lumber • Plastic- and polymer-based composite building materials, pipes, and tubes
FY 2025/26	• All other plastic- and polymer-based products • Glass • Fiber optic cable • Optical fiber • Engineered wood • Drywall

What information is required for BABA reporting?

For Community Development funded infrastructure projects, the following is required:

- BABA Certification form
- Supporting documentation to show that all required materials were produced in the United States
    - Invoices, receipts, etc.

The form to be completed by the contractor is subject to change as additional information is provided by HUD.

24 CFR PART 85.36 Administrative Requirements for Grants and Cooperative Agreements to State, Local and Federally Recognized Indian Tribal Governments

Compliance with the following bonding requirements is mandatory.

Proof of bonding will be verified prior to issuance of the notice to proceed.

(h) Bonding requirements.

For construction or facility improvement contracts or subcontracts exceeding the simplified acquisition threshold, the awarding agency may accept the bonding policy and requirements of the grantee or sub grantee provided the awarding agency has made a determination that the awarding agency's interest is adequately protected. If such a determination has not been made, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The bid guarantee shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price. A performance bond is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract.

(3) A payment bond on the part of the contractor for 100 percent of the contract price. A payment bond is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

Form **W-9**
(Rev. October 2007)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give form to the requester. Do not send to the IRS.

Print or type See **Specific Instructions** on page 2.

Name (as shown on your income tax return)

Business name, if different from above

Check appropriate box: ☐ Individual/Sole proprietor ☐ Corporation ☐ Partnership
☐ Limited liability company. Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ▶ .....
☐ Other (see instructions) ▶

☐ Exempt payee

Address (number, street, and apt. or suite no.)

Requester's name and address (optional)

City, state, and ZIP code

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number

or

Employer identification number

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here **Signature of U.S. person** ▶ **Date** ▶

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2. Certify that you are not subject to backup withholding, or

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

STATEMENT OF INSURANCE COMPLIANCE

The undersigned firm agrees to obtain prior to award, if selected, the insurance and levels in accordance to the requirements as set forth in the Invitation for Proposal, Invitation to Bid, or Invitation for Qualifications, or draft agreement, attached hereto.

Policies other than State Issued Worker's Compensation shall be issued only by companies authorized by maintaining certificates of authority issued to the companies by the Department of Insurance of the State of Florida to conduct business in the State of Florida and which maintain a Rating of "A" or better and a Financial Size category of "VII" or better according to the A.M. Best Company. Policies for Worker's Compensation may be issued by companies authorized as a group self-insurer by F.S. 440.57, Florida Statutes.

***THIS FORM MUST BE COMPLETED AND RETURNED WITH YOUR BID**

DRUG-FREE WORKPLACE CERTIFICATION FORM

IDENTICAL TIE BIDS-In accordance with Florida State Statutes Section 287.087, preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids, which are equal with respect to price, quality, and service, are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violation of such prohibition.

2. Establishing an on-going drug-free awareness program to inform employees about:
   a. The dangers of drug abuse in the workplace.
   b. The employer's policy of maintaining a drug-free workplace.
   c. Any available drug counseling, rehabilitation, and employee assistance programs, and
   d. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

3. Making it a requirement that each employee to be engaged in the performance of this contract be given a copy of the statement required by paragraph (a);

4. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under this contract, the employee will:
   a. Abide by the terms of the statement; and
   b. Notify the Employer in writing of any arrest for a violation of a criminal drug statute or driving under the influence no later than five calendar days after such arrest;

5. Notifying the City of New Smyrna Beach, in writing, within 10 calendar days after receiving notice under subparagraph (4)(b) from an employee or otherwise receiving actual notice of such arrest Consultants of arrested employees must provide notice, including position and title to: City Clerk/Administrator, City of New Smyrna Beach, 210 Sams Avenue, New Smyrna Beach, FL 32168.

6. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is arrested.
   a. Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended, or
   b. Requiring such employee to participate satisfactorily in drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State or local health, law enforcement, or other appropriate agency.

7. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (1), (2), (3), (4), (5) and (6).

As a duly authorized representative of the Vendor, I hereby certify that the Firm will comply with the above certifications.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

****THIS FORM MUST BE COMPLETED AND RETURNED WITH YOUR BID**

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(A), FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

1. THIS SWORN STATEMENT IS SUBMITTED TO City of New Smyrna Beach

by _____
(Print Individual's Name and Title)
for _____
(Print Name of Entity Submitting Sworn Statement)
whose business is _____

and (if applicable) its Federal Employer Identification Number (FEIN) is _____

2. I understand that a "public entity crime" as defined in Paragraph 287.133 (1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

    a. A predecessor or successor of a person convicted of a public entity crime; or

    b. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provisions of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders,

employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Indicate which statement applies).

_____ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, nor any affiliates of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (Attach a copy of the final order).

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES, FOR A CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

COMPLIANCE WITH EMPLOYMENT ELIGIBILITY REQUIREMENTS

(§448.095, Florida Statutes – E-Verify)

The E-Verify system is an internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees. Florida Statutes §448.095 provides that any person or entity that has entered or is attempting to enter into a contract with the City of New Smyrna Beach to provide labor, supplies or services must register with and use the E-Verify system to verify the work authorization status of all employees hired after January 1, 2021. Further, the consultant must maintain certain required employment compliance records of sub consultants for the duration of the contract with the City of New Smyrna Beach.

Consultant Name: _____

Consultant E-Verify Registration Number: _____

The undersigned, on behalf of the consultant referenced above, after first being duly sworn, states as follows:

1. That said consultant understands that the consultant must comply with §448.095, Florida Statutes.
2. That the consultant uses the E-Verify system to verify the work eligibility status of employees.
3. That the consultant has enrolled in the E-Verify system under the registration number referenced above and will verify the work eligibility status of employees hired after January 1, 2021 through said registration number throughout the contract period of any and all contracts with the City of New Smyrna Beach.
4. That the consultant will maintain affidavits of sub consultants engaged to perform work on any and all contracts with the City of New Smyrna Beach.
5. That said consultant further understands that violation of §448.095, Florida Statutes may result in lawful termination of a contract by the City of New Smyrna Beach, subjecting the consultant to liability for additional costs incurred by the City of New Smyrna Beach as a result of the termination of the contract.

CITY OF NEW SMYRNA BEACH
ACKNOWLEDGEMENT OF SMOKE FREE WORKPLACE

The City strives to improve working conditions and protect the health of employees and the general public. In accordance with the "Florida Clean Air Act" (Florida Statutes, Chapter 386), it is policy of the City to provide a healthy, comfortable, and safe environment in all respects by prohibiting use of all tobacco products in all City buildings, City properties (including rights-of-way), and in all City vehicles.

- Smoking or using a vapor-generating electronic device is prohibited in all City owned or leased buildings, including offices, hallways, waiting rooms, restroom, and break rooms.

- Smoking is not prohibited on City grounds. Those who choose to smoke must do so on their regularly scheduled breaks, or meal periods, off of City property.

All employees assigned to this contract shall acknowledge, sign and comply with the City's Non-Tobacco use policy.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

TRENCH SAFETY STATEMENT

Bidder acknowledges that included in the various items of the proposal and in the Total Bid Price are costs for complying with the Florida Trench Safety Act (90-96, Laws of Florida) effective October 1, 1990. The bidder further identifies the cost of compliance with the applicable trench safety standards as follows:

TRENCH SAFETY MEASURE (DESCRIPTION)	UNITS OF MEASURE (LF, SY)	UNIT QUANTITY	UNIT COST	EXTENDED COST
A.				
B.				
C.				
D.				
TOTAL:				

NOTE: The total cost shown herein is already included in the various items in the Total Base Bid in the CONTRACTOR's Proposal and is not additional to the pricing submitted on the Bid Form.

Bidder, by signature below, assures that the CONTRACTOR performing trench excavating will comply with the applicable Trench Safety Standards. Failure to complete the above and submit with the Bid Form along with other required bidding documents, may result in the bid being declared non-responsive.

NOTE: BEFORE EXECUTION, CONTRACTOR IS REQUESTED TO REVIEW BOTH PAGES OF THIS DOCUMENT.

Submitted, signed and sealed this _____ day of _____, 2024.

END OF SECTION

24 CFR PART 85.36 Administrative Requirements for Grants and Cooperative Agreements to State, Local and Federally Recognized Indian Tribal Governments

Compliance with the following bonding requirements is mandatory.

Proof of bonding will be verified prior to issuance of the notice to proceed.

(h) Bonding requirements.

For construction or facility improvement contracts or subcontracts exceeding the simplified acquisition threshold, the awarding agency may accept the bonding policy and requirements of the grantee or sub grantee provided the awarding agency has made a determination that the awarding agency's interest is adequately protected. If such a determination has not been made, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The bid guarantee shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price. A performance bond is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract.

(3) A payment bond on the part of the contractor for 100 percent of the contract price. A payment bond is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

INDIVIDUAL PROPOSAL SCORES

Bliss Products & Services, Inc.

Qualifications and Experience | Points Based | 20 Points (20%)

Evaluator 1: 19

Since 1984 Subs upon award Plenty of previous work

Evaluator 2: 20

In business since 1984. Experience with consulting, shades, equipment, shelters, bleachers, etc.

Evaluator 3: 20

Bliss has been in business for over 30+ years and is a regional provider of Playcore. Upon reviewing their website of other similar projects, they appear to have extensive experience across Florida and Georgia installing playground shade structures. Bliss is CPSI certified.

Project Approach and Management | Points Based | 20 Points (20%)

Evaluator 1: 19

solid approach 4 major factors

Evaluator 2: 18

Expectations defined as scope of work, completion timeframe, and playground design. Key aspects include communication, scheduling, and accountability.

Evaluator 3: 17

Project management approach is not specific to the City of New Smyrna Beach, however the project approach appears to be decently comprehensive. Provided documentation does not include measures for reducing change orders, number of staff, or a cost estimating measures.

Proposed Equipment and Configuration | Points Based | 15 Points (15%)

Evaluator 1: 11

only 1 sail over a portion of the equipment. Does not cover all of the equipment.

Evaluator 2: 10

3 poles, 1 sail, 28 ft to 30 ft between poles. One sail would not cover needed area for coverage.

Evaluator 3: 1

Proposed equipment does not meet the scope of work requested. Only one shade sail has been included, no aesthetic options were proposed, and no specifications were included. The proposed scope of work for this project was to cover the entire playground, however this was not taken into account in this proposal.

Deliverable Timeline | Points Based | 15 Points (15%)

Evaluator 1: 13

13 weeks

Evaluator 2: 10

Generic document outlining 13 week timeframe. Current 10 week lead time from manufacturer.

Evaluator 3: 12

Proposed timeline is approximately 13 weeks. This would be acceptable to the City based on current timing. No specifics were included beyond a simplified Gantt Chart

Warranty | Points Based | 15 Points (15%)

Evaluator 1: 11

limited for rust 5 miles from coast

Evaluator 2: 14

10 year non prorated warranty against failures due to rust through corrosion, 10 year warranty for fabric and Teflon stitching with exception of red, and one year warranty on all moving parts, surface finish, and any other product not specifically covered.

Evaluator 3: 13

The warranty for the steel structure is for 20 years, however due to Pettis Park being located within a 5 mile distance from the coast, the warranty is reduced to 10 years. The shade sail has a warranty for 10 years and 1 year for moveable parts. The shade sails are rated for 90mph wind gusts.

Fee Proposal | Points Based | 15 Points (15%)

Evaluator 1: 11

36k only a portion of the playground. This is directly related to only having 1 sail shade

Evaluator 2: 13

$36,187.75 total cost

Evaluator 3: 8

Fee proposal is low due to only including one shade sail in the proposal. The entire scope of work was not considered.

Lanier Plans Inc. dba KorKat

Qualifications and Experience | Points Based | 20 Points (20%)

Evaluator 1: 19

Several recent projects. No subs listed - will add if awarded Founded in 2003 Well Qualified

Evaluator 2: 18

Founded in 2003, 21 sales reps, owner Shane Lanier. aka KorKat.

Evaluator 3: 20

Lanier, which is doing business as KorKat, is based out of Georgia. They have been around since 2003, and have been operating in Florida since 2009. They primarily focus on playground structures and shade shelters. References were also favorable.

Project Approach and Management | Points Based | 20 Points (20%)

Evaluator 1: 20

meet onsite after install to do a complete walk-thru

Evaluator 2: 17

Preinstall and manufacturing: 4 to 8 weeks for shade manufacturing. Try not to have grounds shut down too long. Installation: installers meet delivery onsite After install: walkthrough with customer, warranties and upkeep recommendations. Exit survey with customer. Goal is to deliver turnkey product. Design: shade options available to protect from sun.

Evaluator 3: 18

The provided operational plan includes high-level overview information regarding the process for completing the project in a timely manner. However, it does not address any cost estimation procedures or ways to avoid change orders.

Proposed Equipment and Configuration | Points Based | 15 Points (15%)

Evaluator 1: 15

Quality Design Good look Quick release clamps and tension

Evaluator 2: 15

Superior Shade, six (6) triangular sail structure with 7 poles. Detailed.

Evaluator 3: 15

The proposed equipment appears to be in-line with what was requested based on the scope of work. This may be more than what is needed though. The proposal included multiple color options to consider.

Deliverable Timeline | Points Based | 15 Points (15%)

Evaluator 1: 13

up to 20 weeks

Evaluator 2: 13

2024 timeframe, 4 to 20 weeks depending on product, looks likely between 11 to 19 weeks for project completion.

Evaluator 3: 14

Proposed timeline is around 20 weeks from NTP to complete the project, which would fit within the allocated time for this project.

Warranty | Points Based | 15 Points (15%)

Evaluator 1: 13

Warranty excludes salt steel post - what is normal conditions? 76 mph, and gusts to 90mph Cables need replaced every 3-4 years

Evaluator 2: 14

lifetime warranty on stainless steel hardware, 20 year limited warranty on framework, 10 year limited warranty on fabric, 5 year limited warranty on powder coat, 1 year limited warranty on cables and materials not listed.

Evaluator 3: 14

The warranty is for 20 years on the erected steel frames and 10 years for the sail fabric. The overall warranty is very comprehensive and provides a lot of detail into what is included. The shade sails are rated for sustained winds up to 76mph with gusts up to 90mph. Specifically excludes Salt.

Fee Proposal | Points Based | 15 Points (15%)

Evaluator 1: 13

199,545.97 stainless steel hardware

Evaluator 2: 8

$190,043.30 including installation

Evaluator 3: 12

The fee proposal is very comprehensive and takes into consideration the entire scope of work that was requested. However, the proposed costs are over-budget for the project by approximately $70k.

PlayCore Wisconsin, Inc., DBA GameTime

Qualifications and Experience | Points Based | 20 Points (20%)

Evaluator 1: 20

Since 1929 Office in Alabama - Use Dominica with office in Longwood Several recent projects - all received good reviews

Evaluator 2: 20

GameTime manufacturing playground equipment since 1929. Weekly production of over $2.75 million, daily inventory over $6 million. GameTime does fabrication, rotationally molded plastic, PVC coating, and powder coating in house. Lists number of employees at different locations company has.

Evaluator 3: 20

GameTime has been in business since 1929, and Dominica Recreation (DRP), which is the regional sales office, has been in business since 1968. Both the DRP and GameTime websites show multiple examples of successful shade structure projects across Florida, Georgia, and Tennessee. DRP also sends their staff to annual training that focuses on product improvements, risk management, and estimation.

Project Approach and Management | Points Based | 20 Points (20%)

Evaluator 1: 19

good approach solid communication

Evaluator 2: 19

Lists management team's qualifications. Approach includes team focus with site visits from Territory Manager to take photos and measurements along with vision and scope of work. Senior Project Manager then designs playground according to scope, budget, vision, access, etc. Rendering created, then Manufacturing.

Evaluator 3: 20

GameTime included significant details associated with the management team that would be assisting with this project, as well as detailed descriptions of how their staff manages the day-to-day project aspects. Regarding the project approach and management, the proposal emphasized good communication regarding costs, verifying design approval, and compliance with the Davis-Bacon Act.

Proposed Equipment and Configuration | Points Based | 15 Points (15%)

Evaluator 1: 14

good layout 4 separate sail shades

Evaluator 2: 14

Six (6) poles and four (4) triangular sails. Estimate 150 days to complete with permitting. Park closed for 4 weeks.

Evaluator 3: 14

The proposed sketch shows 4 large shade sails with 6 posts, and it covers the majority of the playground area. Aesthetically this meets the majority of the requested scope of work. There are a few sections of the playground that are not covered, however this may purely be a function of how the sails can be installed.

Deliverable Timeline | Points Based | 15 Points (15%)

Evaluator 1: 14

150 days for completion 60 days to commence work

Evaluator 2: 14

60 calendar days to commence work and 90 days of project length.

Evaluator 3: 15

The proposed deliverable timeframe would be 150 days from award, which would be acceptable for this project.

Warranty | Points Based | 15 Points (15%)

Evaluator 1: 12

limited on hardware 10 year limited cables 76mph and gusts to 90mph

Evaluator 2: 14

Lifetime warranty against structural failure.

Evaluator 3: 15

The warranty is comprehensive, and includes a 15 year warranty on the steel components. There is a 10 year warranty for the shade sails, which are rated up to 76mph sustained/90mph gusts.

Fee Proposal | Points Based | 15 Points (15%)

Evaluator 1: 14

99k permit fees additional survey and site plan by owner

Evaluator 2: 13

Total $99,077.00, reduce by $20,000 if shades over swings are not desired. Additional cost for permits fees.

Evaluator 3: 15

The fee proposal appeared to be in-line with budget expectations while providing good value relative to the requested scope of work.

City of New Smyrna Beach
800 Mary Avenue
New Smyrna Beach, Florida 32168

EXECUTIVE SUMMARY AND PROJECT OVERVIEW
Design Build Sail Shade Structure for Pettis Park
RFP 13-25-CIP

The GameTime Division of PlayCore Wisconsin, Inc., a wholly owned subsidiary of PCH Holdings, Inc., acting in collaboration with Dominica Recreation, Inc. and The Copponex Group, Inc. is pleased to submit the accompanying proposal for the Design Build Sail Shade Structure for Pettis Park. As demonstrated, GameTime is fully qualified to provide design, equipment, certified staff, and supervision services to meet the building requirements for the City of New Smyrna Beach.

GameTime has been manufacturing commercial playground apparatus continuously since 1929. The GameTime Division is a vertically integrated company with extensive design, manufacturing, distribution, and installation capabilities. With 400,000 sq. ft. under the roof on an 81-acre facility devoted solely to the manufacture of playground equipment, GameTime is well equipped to handle orders of any size. Seasonal weekly production can exceed $2,750,000. The daily inventory often exceeds $6,000,000. GameTime does all metal fabrication, rotationally molded plastic, PVC coating, and powder coating "in-house". GameTime is an ISO 9001:2008 and 14001:2004 Certified facility. Once an order is entered and accepted, GameTime delivers equipment within 55 to 60 days.

GameTime currently employs 500 people at its Fort Payne facility in the design and manufacturing of commercial playgrounds and recreation equipment. Our staff includes five industrial designers, four product managers, three structural engineers, and ten CAD operators in our product development, design, and processing groups. GameTime office staff total 112. Additionally, we collaborate with several consultants in key areas. GameTime products are distributed in the United States by a network of 13 domestic independent sales organizations, employing 127 sales and 98 support personnel. Seventeen international distributors market GameTime products worldwide.

Dominica Recreation, Inc. (DRP), 800-432-0162, the exclusive GameTime regional sales representative in Florida. Their offices are located at 632 Florida Central Parkway, Longwood, FL. Rob Dominica, President of DRP, robd@gametime.com will be providing all pre-sale, post-sale, on-site service, and project management. Representing GameTime since 1968, the DRP organization is well versed in all aspects of playground sales and support from creating site and client-specific ASTM, CPSC, and ADA-compliant play area designs utilizing Gametime's proprietary GTCad software; to managing professional turnkey installations employing the DRP Five Star Plus Certified Installation process; coordinating manufacturing and installation scheduling; contract administration; and providing technical support for field service and replacement parts. The DRP Group attends "GT College" annually and seminars yearly to learn the latest in product improvements and new design, computer technology, safety compliance, risk management, installation techniques, ADA requirements, and related topics. DRP employs NPSI-certified playground safety inspectors (CPSI); provides local on-site playground design services; furnishes CPSI safety audits; equipment selection consultations; safety surfacing materials; and installation by "factory-certified" installers for complete "turnkey" packages.

GameTime installation-supervision services will be provided by The Copponex Group; a GameTime factory-certified installer headed by Greg Copponex, who has more than 38 years of experience in the playground industry. The Copponex Group has installed over 6,000 playgrounds in Florida and Georgia. Operating three fully equipped installation crews, The Copponex Group maintains tight scheduling.

A PLAYCORE Company

MANAGEMENT TEAM QUALIFICATIONS

Territory Sales Manager – Steve Larson. Steve serves 12 counties throughout North/East Florida for Dominica Recreation Products/GameTime. With an in-depth, consultative approach, Steve works directly with each project contact and conveys the vision, requirements, budget, and specifications to our project managers to create a design that is not only comprehensive but exciting.

Project Manager – Rob Dominica. President DRP-Registered Authorized Officer for all GameTime contract sales in Florida, Rob Dominica. Rob has been managing projects since 1995. Member of ASTM Committee on Public Playground Equipment and an NPSI certification holder. He will design and ensure that all the playgrounds are ADA-compliant and that the design is done with the City's wishes and requirements in mind. He makes sure that the proper equipment is ordered, and all drawings are complete and ready to submit for permitting.

Contract Administrator - Courtney Crawford. Courtney will help with all contract requirements including Certificates of Insurance

Permit Coordinator - Sarah Catrillo. Sarah works on all permit applications and the NOC. Being in contact with the city on any forms required for permits. Helping to coordinate from sales to installation.

Supervisor of Installation - Greg Copponex. Greg has supervised the installation of over 10,000 playgrounds in Florida and Georgia over the past 15 years. Copponex Group is the certified GameTime installer for Florida and Georgia. Greg's crews are licensed, certified, and badged in the State of Florida and Georgia, and have been installing playgrounds for 10-plus years. NPSI Certified.

PLAYCORE
Building communities through play

Dominica Recreation Products

NOTICE TO ALL –

The Copponex Group is a licensed and certified installer for PlayCore Branded Products. They have passed their training seminar and have provided all necessary insurance certificates to be listed as the certified installer. Valid January 2023 through January 2026.

The brands and products **The Copponex Group** is certified to install include (but are not limited to) :

GameTime
GTFit
GTImpax
PlayWorx
UltraSite
UltraPlay
UltraShade
UltraShelter
Bark Park
GT Grandstands
Everlast Climbing Walls
Dero Bicycle Racks

Our Approach and Philosophy

Dominica Recreation Products/GameTime

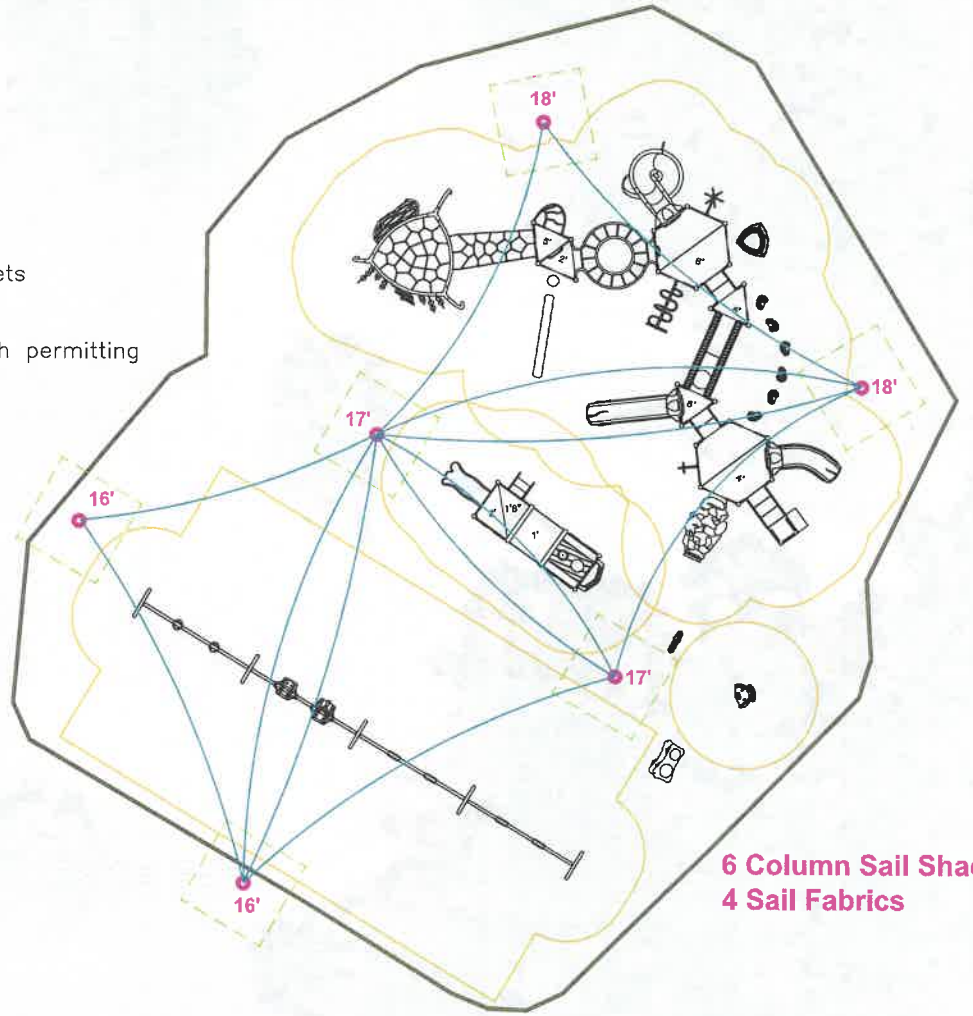
The philosophy and approach of Dominica Recreation Products has always been a multi-tiered team focus, working alongside our clients to bring the vision, specifications, and scope of each project to fruition.

For over 53 years, throughout Georgia and Florida, we've served over 54,000 orders efficiently, professionally, and completely. On average, we manage over 500 projects/clients in real-time with six local Territory Managers, three dedicated installation teams, three in-house project managers, a bid specialist, a permit coordinator, two exclusive customer service professionals, and other support staff throughout Dominica Recreation Products and GameTime.

Our Territory Manager, Steve Larson visits the site several times to take photos and precise measurements. He's there to communicate with you locally and respond quickly when needed.

Those pictures and measurements, along with the vision and scope of a bid such as this one, are communicated to our senior project manager, who will design a playground according to your specifications, budget, space, access, vision, site conditions, surfacing, installation, permits, drawings and so on.

A top-view drawing is created to ensure everything fits properly and safely with compliant access. From there, the bid proposal includes all equipment, discounts, freight, installation, tax, etc. Once that is completed, a 3-D color rendering is created to show what the completed project will look like from multiple angles.



Once the project is ordered, GameTime manufactures the system as specified and ships it to the site, where our exclusive certified installer is local to your project.

Your team will always have our full communication, access, and responsiveness even after completing your project.

GAMETIME® WARRANTIES

GameTime provides warranties on all materials and workmanship for one year, excluding vandalism.

In addition, GameTime offers:

- Lifetime limited warranty on PowerScape®, PrimeTime®, Xscape® & IONiX® and Modern City® uprights.
- Lifetime limited warranty on Tru-Loc® connections and upright bolt-through connections.
- Lifetime limited warranty on all hardware.
- Twenty-Year limited warranty on Timber Décor™ & Timbers recycled plastic lumber.
- Fifteen-Year limited warranty on metal decks, pipes, rungs, loops, braces, and footbucks.
- Fifteen-Year limited warranty on rotationally molded products.
- Fifteen-Year limited warranty on VistaRope nylon bearings and ring junction pieces.
- Ten-Year limited warranty on GTFit®, THRIVE® and Challenge Course® posts & bars.
- Ten-Year limited warranty on site furnishings against structural failure.
- Ten-Year limited warranty on SunBlox® products.
- Ten-Year limited warranty on fiberglass and DHPL signage.
- Ten-Year limited warranty on VistaRope WeaveTech cable components or freestanding cable events excluding premature wear.
- Five-Year limited warranty on TuffForms® structures, including TuffCrete™ and PolyShield™.
- Five-Year limited warranty on all standard nylon nets on play systems, freestanding events, or fitness products, unless otherwise specified as a VistaRope.
- Five-Year limited warranty on GT Symphony Freenotes™ Harmony Park components.
- Five-Year limited warranty on Super Seats™.
- Five-Year limited warranty on premature wear of VistaRope cables.
- Three-Year limited warranty on Everybody Plays polyurea-coated foam & rubber strips.
- Three-Year limited warranty on SaddleMates® rubber and "C"-springs.
- Three-Year limited warranty on SureGrip Material.
- One-Year limited warranty on Challenge Course timing components.
- One-Year limited warranty on all other GameTime products.

All warranties specifically exclude damage caused by vandalism; negligence, improper installation, or improper use; changes in appearance resulting from weathering; scratches, dents or marring as a result of use. Warranties are valid only if products are installed and maintained in accordance with GameTime instructions and use approved parts.

LIMITED WARRANTY ON POWERSCAPE®, PRIMETIME®, XSCAPE®, IONiX®, and MODERN CITY®

GameTime provides a lifetime limited warranty on PowerScape Tru-Loc® connections, upright posts; and PrimeTime, IONiX, Xscape, and Modern City bolt-through connections; a fifteen-year warranty on metal decks, pipes, rails, loops, and rungs; ten-year limited warranty on EDPM rubber components. Three-year limited warranty on SureGrip rubber matting material against degradation and discoloration under normal wear and usage. These warranties cover damage due to failure or corrosion of metal parts or rubber breakdown that cause the product to become structurally unfit for its intended use. The lifetime warranty refers to the life of the product as defined below and covers the product under normal use and proper maintenance; see exclusions.

LIFETIME LIMITED WARRANTY ON HARDWARE

GameTime provides a lifetime limited warranty against structural failure due to breaking or shearing which causes the product to become structurally unfit for its intended use; a lifetime limited warranty on stainless steel hardware against rust; and a one-year limited warranty on non-stainless steel hardware against rust; see exclusions. All testing of GameTime's hardware is performed under the guidelines of ASTM B117. The lifetime warranty refers to the life of the product as defined below and covers the product under normal use and proper maintenance. The cost of replacement due to scratching or cutting of certain hardware plating is not included in this warranty.

FIFTEEN-YEAR LIMITED WARRANTY ON ROTOMOLDED PRODUCTS

GameTime provides a fifteen-year limited warranty on rotomolded polyethylene products and a ten-year limited warranty on polyethylene handholds for structural integrity against damage due to breaking or splitting under normal use that causes the product to become structurally unfit for its intended use; see exclusions. In the event of a claim under this warranty, GameTime will replace the rotomolded product at no cost to the customer.

TWENTY-YEAR LIMITED WARRANTY ON TIMBER DÉCOR™ AND TIMBERS PRODUCTS

GameTime provides a twenty-year limited warranty on recycled plastic lumber products in normal applications against rotting, splintering, decay, or structural damage directly from termites or fungal decay that cause the product to become structurally unfit for its intended use; see exclusions.

LIMITED WARRANTY ON STANDARD NET CLIMBERS AND COMPONENTS (UNLESS OTHERWISE SPECIFIED AS VISTAROPE)

GameTime provides a five-year limited warranty on nylon-covered cable net climbers and components against structural failure caused by cable breakage; a five-year limited warranty on nylon-covered cable wear and deterioration resulting from defects in materials and workmanship; and a one-year limited warranty on nylon rope products. These warranties cover damage due to failure that causes the product to become structurally unfit for the intended use and **do not cover natural fraying of the material**; see exclusions.

LIMITED WARRANTY ON PLAYFUL LANDSCAPES

GameTime provides a five-year limited warranty on the Playful Landscapes HDPE frame against degradation under normal wear and usage and a two-year limited warranty on Poured-in-Place Rubber when applied in a Playful Landscapes (mound or hillside) application against loss of integrity due to rubber degradation, where Playful Landscapes are installed by certified GameTime installers following provided installation guidelines and finished with a minimum of 3" of GTImpax branded PIP.

LIMITED WARRANTY ON SUNBLOX® SHADE PRODUCTS

GameTime fabric canopies are warranted for sustained winds of up to 76 mph (Hurricane Force 1) and gusts of up to 3 seconds duration up to 90 mph. Removal of shade fabric is required if damaging winds are called for. Damage due to snow and/or ice accumulation is not covered by this warranty. Canopies should be removed during the "off-season". No signs, objects, ornaments, fans, lights, fixtures, or decorations may be hung from the top part of a shade structure unless specifically designed and engineered by the manufacturer for that purpose. If product has shade fabric and is installed in an area exposed to hurricanes, removal of the shade fabric is required when a hurricane warning is issued.

LIMITED WARRANTY ON SITE FURNISHINGS

GameTime provides a ten-year limited warranty on site furnishings against structural failure. These warranties cover damage due to failure or corrosion of metal parts that cause the product to become structurally unfit for the intended use; see exclusions.

GameTime provides a seven-year limited warranty on thermoplastic coated elements and a three-year limited warranty on powder coated elements. Powder coated products from the Streetscape Collection carry a five-year limited warranty. GameTime guarantees all items for one full year to be free of defects in workmanship or materials when installed and maintained properly. We agree to repair or replace, any items determined to be defective. Items specifically not covered by this warranty include vandalism, man-made or natural disasters, lack of maintenance, normal weathering or wear and tear due to public abuse.

GameTime provides a ten-year limited warranty on recycled plastic lumber products in normal applications against rotting, splintering, decay, or structural damage directly from termites or fungal decay that causes the product to become structurally unfit for its intended use; see exclusions. GameTime guarantees all materials and workmanship for ten years on any product made completely from our

100% Recycled Plastic. The guarantee excludes vandalism, improper use, product alterations, misuse, negligence, accident, theft, corrosion caused by chemicals, ice or snow damage, and acts of God.

GameTime provides a one-year limited warranty on IPE wood, redwood and pressure treated wood products against damage by decay or termites that causes the wood to become structurally unfit for its intended use.

LIMITED WARRANTY ON FIBERGLASS SIGNAGE

GameTime provides a ten-year limited warranty on fiberglass and digital high pressure laminate (DHPL) sign panels against delaminating, peeling, blistering, cracking, or fading.

LIMITED WARRANTY ON GT SYMPHONY COMPONENTS

GameTime provides a five-year limited warranty on GT Symphony Freenotes™ Harmony Park music components that render the products unusable for their intended use.

LIMITED WARRANTY ON TUFF FORMS, TUFFCRETE & POLYSHIELD THEMED PLAY SCULPTURES

GameTime provides a five-year limited warranty on TuffForms, TuffCrete and PolyShield themed play sculptures against structural failure that causes the product to become structurally unfit for the intended use and a one-year limited warranty on paint defects; see exclusions. This warranty does not cover damage resulting from ground settlement or high winds.

LIMITED WARRANTY ON FITNESS EQUIPMENT

GameTime provides a ten-year limited warranty on GTfit, THRIVE, and Challenge Course stationary posts, welds, and bars and a five-year limited warranty on GTfit motion posts, welds, and bars against structural failure; a five-year limited warranty on stainless damper modules and aluminum cycle covers; a two-year limited warranty on bearings, steel pins, dampers, plastics, rubber parts, cycle pedals, and shafts, molded seats, backrests and clamps; and a one-year limited warranty on cycle rib belts and powder coating and Challenge Course Timing Systems. These warranties cover damage due to failure or corrosion of metal parts that cause the product to become structurally unfit for the intended use; see exclusions.

LIMITED WARRANTY ON VISTAROPE WAVETECH CABLE COMPONENTS AND STRUCTURES

GameTime provides a Lifetime Warranty on uprights and hardware; a fifteen-year warranty on punched steel, pipes, rails, loops rungs, nylon bearings, ring junction pieces, and rotomolded pieces: ten-year limited warranty on cable breakage; five-year limited warranty on premature wear of poly cables; three-year limited warranty on SureGrip rubber matting material against degradation and discoloration under normal wear and usage. These warranties exclude cosmetic damages or defects and cover damage due to failure or corrosion of metal parts or rubber breakdown that cause the product to become structurally unfit for its intended use. The lifetime warranty refers to the life of the product as defined below and covers the product under normal use and proper maintenance.

FIVE-YEAR LIMITED WARRANTY ON HDPE PANELS

GameTime provides a five-year limited warranty on high density polyethylene (HDPE) panels against degradation and discoloration under normal wear and usage.

FIVE-YEAR LIMITED WARRANTY ON GAMETIME SUPER SEAT™

GameTime provides a five-year limited warranty on Model No. 949 SuperSeat and Model No. 999 Super Seat-2 against structural failure that causes the seat to become unfit for its intended use; see exclusions. The factory installed "S"–Hook and Seat Hanger assemblies are covered under a one-year limited warranty against rust, corrosion, or premature wear.

THREE-YEAR LIMITED WARRANTY ON RUBBER AND "C" SPRINGS FOR SADDLEMATES®

GameTime provides a three-year limited warranty on rubber and "C"-springs for SaddleMates against damage due to de-lamination of the rubber spring and breakage of the "C"-spring that causes the SaddleMate to become structurally unfit for its intended use; see exclusions.

For the purposes of this warranty, lifetime encompasses no specific term of years, but rather that Seller warrants to its original customer for as long as the original customer owns the Product and uses the Product for its intended purpose that the Product and all parts will be free from defects in material and manufacturing workmanship. **To the extent permitted by law, these warranties are expressly in lieu of any other implied or expressed warranties or representation by any person, including any implied warranty of merchantability or fitness. These warranties provide valuable rights to you. No Sales Representative can modify or amend the terms of this warranty.** ***GameTime excludes from these warranties the cost to remove parts and reinstall replacements; replacement due to cosmetic defects or coating deterioration caused by climatic conditions. Since warranty limitations and exclusions may vary from state to state, you should check any specific warranty rights in your state.***

IMPORTANT NOTE FOR COASTAL ENVIRONMENTS: Saltwater is corrosive to materials used in the play environment. Products installed within 550 yards (503 meters) of a saltwater coastline will be covered for a maximum of five years, for defects caused by corrosion. Products that come into direct contact with salt spray are not covered for any defects caused by corrosion.

Claim Procedure: To make a warranty claim, send your written statement of claim, along with the original purchase invoice or invoice number to:

GameTime
Customer Service
P.O. Box 680121
Fort Payne, AL 35968
Fax: 256-845-9361
Email: service@gametime.com

Or Contact your local Representative at

USA 1-800-235-2440

International 01-256-845-5610

Within 60 days of notice of claim under warranty, GameTime will make arrangements to replace the damaged product. GameTime will cover freight costs within the continental United States. GameTime is not responsible for freight costs associated with products located outside the continental United States. GameTime reserves the right to inspect all product identified as damaged.

Pettis Park Shade

Permits are not included in cost, unless specifically listed in pricing. If permits are required Signed/Sealed drawings are needed and are also not included unless specifically listed in pricing. Any costs for muncipal permits, paid by installer, will be charged back to the owner. Adding permits to any job will increase the length of completion, expect total time to be about **150 days**, after receipt of Site Plan from owner/customer (this is not due to manufacturing but rather the permit process at the muncipality level). It is expected that the **owner will provide approved site plans** of the area for the permit office, and will help and assist in the securing of all required approvals before assembly of equipment can begin. Installer cannot provide site plans. **The permit process can not begin until appropriate and current site plans are provided by owner.** If there are no current surveys or site plans available, the owner may be required to obtain a new survey for the permit. This is the responsibility of the owner to obtain. If additional permitting requirements are needed during the process, those will be added and billed accordingly, i.e. soil density test, formed footers, etc.

Payment Terms: Governmental Purchase Order.
Purchases in excess of $1,000.00 to be supported by your written purchase order made out to GameTime.
Net 30 days subject to approval by GameTime Credit Manager. A completed Credit Application and Bank Reference Authorization, must be received with the order. The decision on credit is the sole discretion of GameTime/PlayCore. A 1.5% per month finance charge will be imposed on all past due accounts.
Multiple Invoices: Invoices will be generated upon services rendered. When equipment ships it will be invoiced seperately from installation and/or other services. Terms are Net 30 for each individual invoice.
This Quotation is subject to policies in the current GameTime Park and Playground Catalog and the following terms and conditions. Our quotation is based on shipment of all items at one time to a single destination, unless noted, and changes are subject to price adjustment.
Pricing: Firm for 60 days from date of quotation.
Shipment: F.O.B. factory, order shall ship within 120 days after GameTime's receipt and acceptance of your purchase order, color selections, approved submittals, and receipt of payment.
Taxes: State and local taxes will be added at time of invoicing, if not already included, unless a tax exempt certificate is provided at the time of order entry.
Exclusions: Unless specifically discussed, this quotation excludes all sitework and landscaping; removal of existing equipment; acceptance of equipment and off-loading; lift gate delivery; storage of goods prior to installation; security of equipment (on site and at night); equipment assembly and installation; safety surfacing; borders; drainage; signed/sealed drawings; or permits.

Installation Terms: Shall be by a Certified Installer. The installer is an indepedent installer and not part of PlayCore, GameTime, nor Dominica Recreation Products. If playground equipment, installer will be NPSI and Factory Trained and Certified. Unless otherwise noted, installation is based on a standard installation consistent with GameTime installation sheets and in suitable soil with a sub-base that will allow proper playground installation. Drainage is not part of our scope of work unless otherwise noted. Customer shall be responsible for scheduling and coordination with the installer. Site should be level and allow for unrestricted access of trucks and machinery. Customer shall also provide a staging and construction area. Installer not responsible for sod replacement or damage to access path and staging area. Customer shall be responsible for unknown conditions such as buried utilities, tree stumps, rock, or any concealed materials or conditions that may result in additional labor or material costs. Customer will be billed hourly or per job directly by the installer for any additional costs that were not previously included.

SHADE TERMS :

- Per FBC (or other wind codes) remove shades as recommended in high wind events.
- Quote does not include any provisions for lighting protection.
- Lead time for Shade is about 8 weeks after approval of permits (if required).
- Installer not responsible for site conditions. For Large Shades holes may be upwards of 5' deep or wide, if additional drilling or digging is needed due to rock, coral, utilities, or other unknown items; additional charges may be applied to order.
- Standard installation requires access for large machinery, possibly including a crane, and a staging area. Installer not responsible for sod damage or sidewalk repair on access path and staging area, unless otherwise noted.
- Standard installation is for earth formed footers. Soil testing is not included.

A PLAYCORE Company

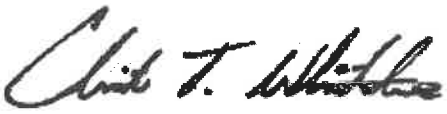
QUALIFICATION STATEMENT FOR FURNISHING PLAYGROUND AND ANCILLARY EQUIPMENT, SAFETY SURFACING, & INSTALLATION SERVICES

The GameTime Division of PlayCore Wisconsin, Inc., in collaboration with your local GameTime regional sales representative agency, seeks to prequalify, first as a manufacturer and vendor of park and playground equipment, and secondly as a first-tier subcontractor to furnish and install safety surfacing. Additionally, we are positioned to provide installation services through our network of factory-trained and certified installers. As this submittal attests, GameTime is fully qualified to provide the necessary equipment and services to fulfill the requirements of the most demanding project.

GameTime has been manufacturing commercial playground apparatus continuously since 1929. The GameTime Division is a vertically integrated company with extensive design, manufacturing, distribution, and installation capabilities. With 400,000 sq. ft. under the roof of an 81-acre facility devoted solely to the manufacture of playground equipment, GameTime is well equipped to handle orders of any size. Seasonal weekly production can exceed $5,000,000. Daily inventory often exceeds $6,000,000. GameTime does all metal fabrication, rotationally molded plastic, PVC coating, and powder coating "in-house." Once an order is entered, GameTime delivers equipment to its customers within 21 to 30 days.

GameTime currently employs 434 people to design and manufacture commercial playground and recreation equipment. The staff includes five industrial designers, four product managers, three structural engineers, a landscape architect, and eight CAD operators in the product development, design, and processing groups. The GameTime office staff total 112. Additionally, several consultants collaborate in key areas. GameTime products are distributed in the United States by a network of 13 domestic independent sales organizations employing 130 sales and 98 support personnel. Seventeen international distributors market GameTime products worldwide.

GameTime conducts "GT College" annually and holds seminars throughout the year to disseminate the latest in product improvements and new design directions, computer technology, safety compliance, risk management, installation techniques, ADA requirements, and related topics. Staff members are CPSI-certified playground safety inspectors. GameTime provides local on-site playground design services utilizing laptop computers with exclusive GTCAD programing; furnishes CPSI safety audits; equipment selection consultations; safety surfacing materials; and installation by "factory-certified" installers for complete "turnkey" packages. On average, GameTime sales agencies have been serving customers for 32 years.



Originally founded in Michigan, GameTime division headquarters and manufacturing relocated to Fort Payne, Alabama U.S.A. in 1979. In March of 1997, PlayCore Wisconsin, Inc., a wholly owned subsidiary of PlayCore, Inc. (AMEX: PCO), acquired GameTime, Inc. Chartwell Investments acquired all issued and outstanding shares of PlayCore stock in April 2000, and the company became privately held. Irving Place Capital (formerly Bear Stearns Merchant Banking), together with the company management, purchased PlayCore in February 2007. On May 30, 2014, PlayCore was acquired by Sentinel Capital Partners, a New York middle-market private equity firm which subsequently sold the company to Court Square Capital Partners https://www.courtsquare.com/. PlayCore product sales for 2025 are expected to exceed $1,000,000,000.

PlayCore is a leading designer, manufacturer, and marketer of a broad range of commercial playground and park equipment, safety surfacing, site amenities, fitness, and related products. PlayCore currently operates in seven distribution locations, four core manufacturing facilities; and ten specialized manufacturing sites. The PlayCore Federal Identification Number is 39-1720480; the DUNS Number is 006639710; and the CAGE Code is 84308.

We submit this as verification that GameTime is financially sound, experienced, and well positioned to provide a full-solution, total turnkey package for playground equipment and related services from design to final inspection. As a privately held company, Court Square Capital Partners refrains from the distribution of financial data on segments of its investment portfolio that may be subject to public disclosure. Should further financial particulars on PlayCore be necessary, kindly contact Scott Hardin, Vice President of Finance and Accounting, 423/648-5890, scott.hardin@playcore.com.

We certify the information submitted herein is true and correct.

Form **W-9**
(Rev. March 2024)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give form to the requester. Do not send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See *Specific Instructions* on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)

PlayCore Wisconsin, Inc.

2 Business name/disregarded entity name, if different from above.

DBA GameTime

3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor ☑ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate

☐ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) _____

Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) _____

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) **5**

Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any) **N/A**

(Applies to accounts maintained outside the United States.)

3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions ☐

5 Address (number, street, and apt. or suite no.). See instructions.

150 PlayCore Drive S.E.

Requester's name and address (optional)

6 City, state, and ZIP code

Fort Payne, AL 35967

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–			–				

or

Employer identification number

3	9	–	1	7	2	0	4	8	0

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person  Date **January 6, 2025**

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

STATEMENT OF INSURANCE COMPLIANCE

The undersigned firm agrees to obtain prior to award, if selected, the insurance and levels in accordance to the requirements as set forth in the Invitation for Proposal, Invitation to Bid, or Invitation for Qualifications, or draft agreement, attached hereto.

Policies other than State Issued Worker's Compensation shall be issued only by companies authorized by maintaining certificates of authority issued to the companies by the Department of Insurance of the State of Florida to conduct business in the State of Florida and which maintain a Rating of "A" or better and a Financial Size category of "VII" or better according to the A.M. Best Company. Policies for Worker's Compensation may be issued by companies authorized as a group self-insurer by F.S. 440.57, Florida Statutes.

***THIS FORM MUST BE COMPLETED AND RETURNED WITH YOUR BID**

DRUG-FREE WORKPLACE CERTIFICATION FORM

IDENTICAL TIE BIDS-In accordance with Florida State Statutes Section 287.087, preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids, which are equal with respect to price, quality, and service, are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violation of such prohibition.

2. Establishing an on-going drug-free awareness program to inform employees about:
   a. The dangers of drug abuse in the workplace.
   b. The employer's policy of maintaining a drug-free workplace.
   c. Any available drug counseling, rehabilitation, and employee assistance programs, and
   d. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

3. Making it a requirement that each employee to be engaged in the performance of this contract be given a copy of the statement required by paragraph (a);

4. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under this contract, the employee will:
   a. Abide by the terms of the statement; and
   b. Notify the Employer in writing of any arrest for a violation of a criminal drug statute or driving under the influence no later than five calendar days after such arrest;

5. Notifying the City of New Smyrna Beach, in writing, within 10 calendar days after receiving notice under subparagraph (4)(b) from an employee or otherwise receiving actual notice of such arrest Consultants of arrested employees must provide notice, including position and title to: City Clerk/Administrator, City of New Smyrna Beach, 210 Sams Avenue, New Smyrna Beach, FL 32168.

6. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is arrested.
   a. Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended, or
   b. Requiring such employee to participate satisfactorily in drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State or local health, law enforcement, or other appropriate agency.

7. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (1), (2), (3), (4), (5) and (6).

As a duly authorized representative of the Vendor, I hereby certify that the Firm will comply with the above certifications.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

****THIS FORM MUST BE COMPLETED AND RETURNED WITH YOUR BID**

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(A), FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

1. THIS SWORN STATEMENT IS SUBMITTED TO City of New Smyrna Beach

by Rob Dominica - President/drp
(Print Individual's Name and Title)
for Playcore Wisconsin, Inc. dba Gametime
(Print Name of Entity Submitting Sworn Statement)
whose business is 150 Playcore Drive SE Ft Payne, AL 35968

and (if applicable) its Federal Employer Identification Number (FEIN) is 39-1720480

2. I understand that a "public entity crime" as defined in Paragraph 287.133 (1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

   a. A predecessor or successor of a person convicted of a public entity crime; or

   b. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provisions of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders,

employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Indicate which statement applies).

✓ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, nor any affiliates of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (Attach a copy of the final order).

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES, FOR A CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

NON-COLLUSION AFFIDAVIT OF PROPOSER

State of Florida

County of Seminole

Rob Dominica, being first duly sworn, deposes and says that:

He/she is President of drp a RA of Playcore Wisconsin, Inc. dba Gametime, Proposer that has submitted the attached bid or Request for Qualifications;

He/she is fully informed respecting the preparation and contents of the attached bid and of all pertinent circumstances respecting such bid;

Such bid is genuine and is not a collusive or sham bid;

Neither the said Proposer nor any of its officers, partners, owners, agent representatives, employees, or parties in interest, including this affiant, has in any way colluded, conspired, connived or agreed, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer, firm or person, to fix the price or prices in the attached Proposal or of any other Proposer, or to fix any overhead, profit or cost element of the Proposal price or the Proposal price of any other Proposer, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the CITY OF NEW SMYRNA BEACH, FLORIDA, or any person interested in the proposed Contract; and

The price or prices quoted in the attached Proposal are fair and proper and are not tainted by any collusion, conspiracy, connivance or unlawful agreement on the part of the Proposer or any of its agents, representatives, owners, employees, or parties in interest, including this affiant.

COMPLIANCE WITH EMPLOYMENT ELIGIBILITY REQUIREMENTS

(§448.095, Florida Statutes – E-Verify)

The E-Verify system is an internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees. Florida Statutes §448.095 provides that any person or entity that has entered or is attempting to enter into a contract with the City of New Smyrna Beach to provide labor, supplies or services must register with and use the E-Verify system to verify the work authorization status of all employees hired after January 1, 2021. Further, the consultant must maintain certain required employment compliance records of sub consultants for the duration of the contract with the City of New Smyrna Beach.

Consultant Name: Playcore Wisconsin, Inc. dba Gametime

Consultant E-Verify Registration Number: 131211

The undersigned, on behalf of the consultant referenced above, after first being duly sworn, states as follows:

1. That said consultant understands that the consultant must comply with §448.095, Florida Statutes.
2. That the consultant uses the E-Verify system to verify the work eligibility status of employees.
3. That the consultant has enrolled in the E-Verify system under the registration number referenced above and will verify the work eligibility status of employees hired after January 1, 2021 through said registration number throughout the contract period of any and all contracts with the City of New Smyrna Beach.
4. That the consultant will maintain affidavits of sub consultants engaged to perform work on any and all contracts with the City of New Smyrna Beach.
5. That said consultant further understands that violation of §448.095, Florida Statutes may result in lawful termination of a contract by the City of New Smyrna Beach, subjecting the consultant to liability for additional costs incurred by the City of New Smyrna Beach as a result of the termination of the contract.

CONFLICT OF INTEREST AFFIDAVIT

State of Florida: City of New Smyrna Beach

Before me, the undersigned authority, personally appeared Rob Dominica

who was duly sworn, deposes, and states:

1. I am the President of drp registered agent of Playcore Wisconsin, Inc. dba Gametime with a local office in Longwood, FL (City & State) and principal office in Ft Payne, AL (City & State).
2. The above named entity is submitting an Expression of Interest for the City of New Smyrna Beach project described as **RFP 13-25-CIP, Design Build Sail Shade Structure for Pettis Park.**
3. The Affiant has made diligent inquiry and provides the information contained in this Affidavit based upon his/her own knowledge.
4. The Affiant states that only one submittal for the above project is being submitted and that the above-named entity has no financial interest in other entities submitting proposals for the same project.
5. Neither the Affiant nor the above-named entity has directly or indirectly entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive pricing in connection with the entity's submittal for the above project. This statement restricts the discussion of pricing data until the completion of negotiations and execution of the Agreement for this project.
6. Neither the entity nor its affiliates, nor anyone associated with them, is presently suspended or otherwise ineligible from participating in contract lettings by any local, state, or federal agency.
7. Neither the entity, nor its affiliates, nor anyone associated with them have any potential conflict of interest due to any other clients, contracts, or property interests for this project.
8. I certify that no member of the entity's ownership, management, or staff has a vested interest in any aspect of or Department of City of New Smyrna Beach.
9. I certify that no member of the entity's ownership or management is presently applying for an employee position or actively seeking an elected position with City of New Smyrna Beach.
10. In the event that a conflict of interest is identified in the provision of services, I, on behalf of the above-named entity, will immediately notify City of New Smyrna Beach in writing.

CITY OF NEW SMYRNA BEACH
ACKNOWLEDGEMENT OF SMOKE FREE WORKPLACE

The City strives to improve working conditions and protect the health of employees and the general public. In accordance with the "Florida Clean Air Act" (Florida Statutes, Chapter 386), it is policy of the City to provide a healthy, comfortable, and safe environment in all respects by prohibiting use of all tobacco products in all City buildings, City properties (including rights-of-way), and in all City vehicles.

- Smoking or using a vapor-generating electronic device is prohibited in all City owned or leased buildings, including offices, hallways, waiting rooms, restroom, and break rooms.

- Smoking is not prohibited on City grounds. Those who choose to smoke must do so on their regularly scheduled breaks, or meal periods, off of City property.

All employees assigned to this contract shall acknowledge, sign and comply with the City's Non-Tobacco use policy.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

ADDENDUM 1
RFP 13-25-CIP, DESIGN BUILD SAIL SHADE STRUCTURE FOR PETTIS PARK
April 21, 2025

TO ALL PROPOSERS:

Notice is hereby given to all Proposers that this is Addendum 1 to **RFP 13-25-CIP, Design Build Sail Shade Structure for Pettis Park,** issued March 27, 2025.

This addendum is issued to answer vendor questions, clarify, add, delete, correct and/or change the proposal documents to the extent indicated and is hereby made a part of the above noted solicitation documents. Any modifications/changes made by this addendum affect only the portions or paragraphs specifically identified herein; all remaining portions of the proposal are to remain in force. It is the responsibility of all Applicants to conform to this addendum. Please note, questions are recorded as they are received, including grammar and spelling errors.

This addendum shall be considered part of the Contract Documents for the above-mentioned solicitation as though it had been issued at the same time and incorporated integrally therewith. Where provisions of the following supplementary data differ from those of the original document, this addendum shall govern and take precedence. All other terms, conditions, and regulations will apply.

This addendum impacts all vendors interested in submitting proposals for this solicitation.

Attachment: Pre-bid Sign in Sheet
Pre-bid agenda
Pre-bid CDBG Requirements

Questions/Answers:

1. **Question:** Is there an estimated project value??

   Answer: The city recommends bidding based on the proposed scope of work.

2. **Question:** Is there an estimated mobilization or completion date?

   Answer: As this project is a design-build project, the construction mobilization date would be relative to the completion of the design by the contractor. The city requests that the project be substantially completed by 9/1/2025 to meet grant requirements.

ALL OTHER AREAS OF THE BID DOCUMENT REMAINS THE SAME

Instructions: This page shall be signed and returned with the proposal. Please provide a signed copy of this addendum with your proposal.

BID BOND

Bond No. 35413-BER-25-35

CONTRACTOR:
(Name, legal status and address)
PlayCore Wisconsin, Inc. dba GameTime
150 PlayCore Drive SE
Fort Payne, AL 35967

SURETY:
(Name, legal status and principal place of business)
Berkley Insurance Company
475 Steamboat Road
Greenwich, CT 06830
Inc: Delaware

OWNER:
(Name, legal status and address)
City of New Smyrna Beach
210 Sams Avenue
New Smyrna Beach, FL 32168

BOND AMOUNT: **Five Percent of Amount Bid (5%)**

PROJECT: Design Build Sail Shade Structure for Pettis Park
(Name, location or address, and Project number, if any)

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

Signed and sealed this 25th day of April 2025.

BERKLEY INSURANCE COMPANY
WILMINGTON, DELAWARE

KNOW ALL MEN BY THESE PRESENTS, that BERKLEY INSURANCE COMPANY (the "Company"), a corporation duly organized and existing under the laws of the State of Delaware, having its principal office in Greenwich, CT, has made, constituted and appointed, and does by these presents make, constitute and appoint: ***John B. O'Keefe; Joanne Czlapinski; Olivia Spada; or Rebecca E. Johnson of Marsh USA LLC of Hartford, CT*** its true and lawful Attorney-in-Fact, to sign its name as surety only as delineated below and to execute, seal, acknowledge and deliver any and all bonds and undertakings, with the exception of Financial Guaranty Insurance, providing that no single obligation shall exceed **Fifty Million and 00/100 U.S. Dollars (U.S.$50,000,000.00),** to the same extent as if such bonds had been duly executed and acknowledged by the regularly elected officers of the Company at its principal office in their own proper persons.

This Power of Attorney shall be construed and enforced in accordance with, and governed by, the laws of the State of Delaware, without giving effect to the principles of conflicts of laws thereof. This Power of Attorney is granted pursuant to the following resolutions which were duly and validly adopted at a meeting of the Board of Directors of the Company held on January 25, 2010:

RESOLVED, that, with respect to the Surety business written by Berkley Surety, the Chairman of the Board, Chief Executive Officer, President or any Vice President of the Company, in conjunction with the Secretary or any Assistant Secretary are hereby authorized to execute powers of attorney authorizing and qualifying the attorney-in-fact named therein to execute bonds, undertakings, recognizances, or other suretyship obligations on behalf of the Company, and to affix the corporate seal of the Company to powers of attorney executed pursuant hereto; and said officers may remove any such attorney-in-fact and revoke any power of attorney previously granted; and further

RESOLVED, that such power of attorney limits the acts of those named therein to the bonds, undertakings, recognizances, or other suretyship obligations specifically named therein, and they have no authority to bind the Company except in the manner and to the extent therein stated; and further

RESOLVED, that such power of attorney revokes all previous powers issued on behalf of the attorney-in-fact named; and further

RESOLVED, that the signature of any authorized officer and the seal of the Company may be affixed by facsimile to any power of attorney or certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligation of the Company; and such signature and seal when so used shall have the same force and effect as though manually affixed. The Company may continue to use for the purposes herein stated the facsimile signature of any person or persons who shall have been such officer or officers of the Company, notwithstanding the fact that they may have ceased to be such at the time when such instruments shall be issued.

IN WITNESS WHEREOF, the Company has caused these presents to be signed and attested by its appropriate officers and its corporate seal hereunto affixed this 2nd day of May, 2024.

C. **Automobile Liability Insurance** shall be maintained by the selected firm or individual with a combined single limit of not less than $1,000,000 Bodily Injury and Property Damage in accordance with the laws of the State of Florida, as to the Ownership, maintenance, and use of all owned, non-owned, leased or hired vehicles.

D. **Professional Liability Insurance** shall be maintained by the selected firm or individual with a combined single limit of not less than $1,000,000, protecting the selected firm against claims of the City for negligence, errors, mistakes, or omissions in the performance of services to be performed and furnished by the selected firm or individual.

1. If the contractor maintains broader coverage and/or higher limits than the minimums shown above, The City of New Smyrna Beach requires and shall be entitled to the broader coverage and/or the higher limits maintained by the Contractor.
2. Cancellation: Thirty (30) days written notice of cancellation is required to Certificate Holder

Certificate Holder:

City of New Smyrna Beach
210 Sams Avenue
New Smyrna Beach, FL 32168

X.B Acknowledgment of Insurance Requirements

It should be noted by the Proposer that, in order to meet the City's requirements, there may be additional insurance costs to the Proposer's firm. It is, therefore, imperative that the proposer discuss these requirements with the Proposer's insurance agent, as noted on the Insurance Check List, so that allowances for any additional costs can be made by the Proposer.

The Proposer's obligation under this provision shall not be limited in any way by the agreed upon contract price, or the Proposer's limit of, or lack of, sufficient insurance protection.

Proposer also understands that the evidence of required insurance may be required within five (5) business days following notification of its offer being accepted; otherwise, the City may rescind its acceptance of the Proposer's bid.

Statement of Insurance Compliance Form provided in the Attachment Section shall be completed and submitted with proposal.

XI. Required Responses

XI.A Public Records*

Applicant must respond confirming they have received a copy of the Public Records Act, located in the attachment section.

☐ Please confirm

*Response required

XI.B Company Name and Address*

By submitting this response, you hereby designate the company name and address listed here as the office to which notices may be delivered or mailed.

*Response required

XI.C Employer Identification Number**

Please provide the Employer Identification Number.

*Response required

XI.D Professional License *

Upload as one (1) PDF the appropriate required licenses related to the type of work as identified herein.

If the respondent to this solicitation is not a single prime contractor a list all subcontractors to be used for this project and their professional licenses must also be included.

*Response required

XI.E Proposer's Certification*

I have carefully examined this solicitation in its entirety, including but not limited to the qualifications, scope of services, and all other documents accompanying or made a part of this document.

I hereby propose to furnish the services specified herein at the prices, rates or discounts quoted in my proposal.

I agree that my proposal will remain firm for a period of up to one hundred eighty (180) days in order to allow the City adequate time to evaluate the proposals.

I agree to abide by all conditions of this proposal and understand that a background investigation may be conducted by the City of New Smyrna Beach Police Department prior to award.

I certify that all information contained in this proposal is truthful to the best of my knowledge and belief. I further certify that I am duly authorized to submit this proposal on behalf of the consultant as its act and deed and that the consultant is ready, willing and able to perform if awarded the contract.

I further certify, under oath, that this proposal is made without prior understanding, agreement, connection, discussion, or collusion with any other person, firm or corporation submitting a proposal for the same product or service; no officer, employee or agent of the City of New Smyrna Beach or of any other Proposer interested in said proposal; and that the undersigned executed this Proposer's Certification with full knowledge and understanding of the matters therein contained and was duly authorized to do so.

☑ Please confirm
*Response required

XI.F Bid Bond*

Each bid shall be accompanied by a Bid Security of no less than five (5) percent of the amount of the Bid Proposal.

The Bid Security shall consist of a Certified Check, a Cashier's Check or a Bid Bond payable to the City of New Smyrna Beach ("Owner.)

A copy of the bid bond must be uploaded with the proposal response in the form of a Bid bond, certified funds or an irrevocable letter of credit in a sum equal to the amount of five (5) percent of the amount of the bid proposal. The proposer shall guarantee the total proposal price for a period of 90 days from the date of the proposal opening.

If requested by the City, the lowest responsible/responsive bidder agrees to produce the hard copy of the original Bid Bond prior to the Notice of Recommendation or Commission Meeting. Failure to do so may result in the bid being deemed non-responsive.

Alternately a cash bond or cashiers' check will be acceptable. All checks shall be made payable to the City of New Smyrna Beach on a bank or trust company located in the State of Florida and insured by the Federal Deposit Insurance Corporation, as a guarantee that the proposer, if its proposal is accepted, will promptly execute the Agreement.

If the vendor selects to submit a cashiers' check or cash bond it must be received by the City no later than 5:00 pm on Monday, April 28, 2025. **Please submit in a sealed envelope to the following address:**

City of New Smyrna Beach

210 Sam's Avenue

New Smyrna Beach, Florida 32168

Attention Finance Department

*Response required

XI.G Contract Execution, Payment Bond, and Performance Bond*

The contract shall be executed by the successful bidder and shall be returned, together with the Payment Bond, Performance Bond and Certificate(s) of Insurance to City of New Smyrna Beach so that it is received within **14 working days**after the bidder has received the contract for execution. Failure to do so shall be just cause for forfeiture of the proposal guaranty.

☐ Please confirm

*Response required

XI.H Potential Conflict of Interest*

- Upload any documentation/information which may be a potential conflict of interest due to other clients, contracts, or property interest for this project.

*Response required

XI.I Conflict of Interest Disclosure*

PROJECT NUMBER: 13-25-CIP - Design Build Sail Shade Structure for Pettis Park

The award of this contract is subject to the provisions of Chapter 112, Florida Statutes. All respondents must disclose within their submittal: the name of any officer, director, or agent who is also an employee of the City of New Smyrna Beach, Florida. Furthermore, all respondents must disclose the name of any city employee who owns, directly, or indirectly, an interest of more than five percent (5%) in the respondent's firm or any of its branches.

The purpose of this disclosure statement is to give the city the information needed to identify potential conflicts of interest for screening evaluation team members and other key personnel involved in the award of this contract.

The term "conflict of interest" refers to situations in which financial or other personal considerations may adversely affect, or have the appearance of adversely affecting, an employee's professional judgment in exercising any city duty or responsibility in administration, management, or other professional activities. The bias such conflicts could conceivable impart may inappropriately affect the goals of the city. The city must be free of the undue influence of outside interests.

The mere appearance of a conflict may be as serious and potentially damaging as an actual conflict of interest. Reports of conflicts based on appearances can undermine public trust in ways that may not be adequately restored even when the mitigating facts of a situation are brought to light. Apparent conflicts, therefore, should be disclosed and evaluated with the same vigor as actual conflicts.

☐ Please confirm

PlayCore Wisconsin, Inc.
RFP 13-25-CIP, Design Build Sail Shade Structure for Pettis Park

THIS AGREEMENT is made and entered into this _____ day of _____, 2025, by and between PlayCore Wisconsin, Inc. (dba Game Time), duly authorized to conduct business in the State of Florida and whose address is 150 Playcore Drive, SE, Ft Payne, Alabama 35968, hereinafter, called "CONSULTANT," and the **CITY OF NEW SMYRNA BEACH**, a political subdivision of the State of Florida, whose address is 210 Sams Ave., New Smyrna Beach, FL, hereinafter called "CITY."

SECTION 1. AGREEMENT. The terms of this Agreement, together with the incorporation of the terms and conditions of the RFP 13-25-CIP, Design Build Sail Shade Structure for Pettis Park, **FOR THE CITY OF NEW SMYRNA BEACH** and any exhibits, schedules, and attachments hereto, and any and all amendments relating to same, and any and all submittals from CONSULTANT, constitute the entire Agreement between the City and CONSULTANT. This Agreement is the final, complete and exclusive expression of the terms and conditions of the parties' Agreement. Any and all prior agreements, representations, negotiations, and understandings made by the parties, oral or written, expressed or implied, are hereby superseded and merged herein.

SECTION 2. TERM OF AGREEMENT. The term of this Agreement is six months (6) months from the date of the award.

SECTION 3. DESCRIPTION OF SERVICES. The Consultant agrees to perform the services outlined in the advertised solicitation document titled **RFP 13-25-CIP, Design Build Sail Shade Structure for Pettis Park,** and in the Consultant's submitted Proposal.

The Consultant shall diligently and in a professional and timely manner perform and provide these services. Unless modified in writing by the parties hereto, the duties of the Consultant shall not be construed to exceed the provision of the services pertaining to this Agreement.

The City and Consultant agree that there may be certain additional services required to be performed by the Consultant during the performance of the contract that cannot be defined sufficiently at the time of execution of this Agreement. These services shall be authorized in writing as an amendment to the contract and may contain additional instructions or provide specifications upon certain aspects of this Agreement pertaining to the work to be undertaken.

SECTION 4. COMPENSATION. For Services rendered, the CITY shall pay the CONSULTANT based on their fee schedule provided. Unless otherwise agreed in a Scope of Services, the CONSULTANT shall invoice the City monthly based upon the CONSULTANT's fees for services completed during the billing period.

SECTION 5. COMPONENT PARTS OF THE CONTRACT. This Contract consists of the following contract documents, all of which are hereby made a part hereof as if herein set out in full and all of which are familiar to the Contractor:

A. City Advertised Bid including addendums
B. Awarded Bid Proposal

The Consultant must provide the Certificate of Insurance within fourteen (14) days upon acceptance of the bid by City Commission.

SECTION 6. CONTROLLING LAW, VENUE, AND ATTORNEY'S FEES. This Agreement is to be governed, construed, and interpreted by, through and under the laws of Florida. Venue for any litigation between the parties to this Agreement shall be in the County of Volusia, Florida and any trial shall be non-jury. The prevailing party in any litigation arising from or related to this Agreement shall be reimbursed reasonable attorney fees and costs, including all fees and costs of an appeal.

SECTION 7. RIGHTS AT LAW RETAINED. The rights and remedies of the City, provided for under this Agreement, are in addition and supplemental to any other rights and remedies provided by law.

SECTION 8. NOTICES. Whenever either party desires to give notice unto the other, it must be given by written notice, sent by registered or certified United States mail, return receipts requested, addressed to the party for whom it is intended at the place last specified. The place for giving of notice shall remain such until it shall have been changed by written notice in compliance with the provisions of this Section. For the present, the parties designate the following as the respective places for giving of notice, to-wit:

For City:

Sharon Taylor-Harding, Interim City Clerk
City of New Smyrna Beach
210 Sams Ave.
New Smyrna Beach, FL 32138
(386)410-2637

For Consultant:

Rob Dominica, President
PlayCore Wisconsin, Inc., dba: Game Time
150 Playcore Drive SE
Ft. Payne, Alabama, 35968
(407) 331-0101

SECTION 9. MODFICATIONS TO AGREEMENT. This Agreement and any exhibits, amendments and schedules may only be amended, supplemented, modified or canceled by a written instrument duly executed by both parties hereto of equal dignity herewith.

SECTION 10. SEVERABILITY. If during the term of this Agreement, it is found that a specific clause or condition of this Agreement is illegal under federal or state law, the remainder of the Agreement not affected by such a ruling shall remain in force and effect.

SECTION 11. WAIVER OF JURY TRIAL. The City and Consultant have specifically waived the right to a jury trial concerning any disputes which may arise concerning this agreement.

SECTION 12. EFFECT OF FAILURE TO INSIST ON STRICT COMPLIANCE WITH CONDITIONS. The failure of either party to insist on strict performance of any covenant or condition of this contract, or to exercise any option herein contained, shall not be construed as a waiver of such covenant, condition, or option in any other instance. This contract cannot be changed or terminated orally.

SECTION 13: HUMAN TRAFFICKING. This Contract is subject to the terms, conditions, provisions and requirements of Section 787.06 of the Florida Statutes and Contractor hereby represents, warrants, and certifies that Contractor does not use coercion for labor or services as defined in Section 787.06, Florida Statutes and that Contractor has provided the Human Trafficking Affidavit.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the date written above for execution by the City of New Smyrna Beach.

Pettis Park Shade

Permits are not included in cost, unless specifically listed in pricing. If permits are required Signed/Sealed drawings are needed and are also not included unless specifically listed in pricing. Any costs for muncipal permits, paid by installer, will be charged back to the owner. Adding permits to any job will increase the length of completion, expect total time to be about **150 days**, after receipt of Site Plan from owner/customer (this is not due to manufacturing but rather the permit process at the muncipality level). It is expected that the **owner will provide approved site plans** of the area for the permit office, and will help and assist in the securing of all required approvals before assembly of equipment can begin. Installer cannot provide site plans. **The permit process can not begin until appropriate and current site plans are provided by owner.** If there are no current surveys or site plans available, the owner may be required to obtain a new survey for the permit. This is the responsibility of the owner to obtain. If additional permitting requirements are needed during the process, those will be added and billed accordingly, i.e. soil density test, formed footers, etc.

Payment Terms: Governmental Purchase Order.
Purchases in excess of $1,000.00 to be supported by your written purchase order made out to GameTime.
Net 30 days subject to approval by GameTime Credit Manager. A completed Credit Application and Bank Reference Authorization, must be received with the order. The decision on credit is the sole discretion of GameTime/PlayCore. A 1.5% per month finance charge will be imposed on all past due accounts.
Multiple Invoices: Invoices will be generated upon services rendered. When equipment ships it will be invoiced seperately from installation and/or other services. Terms are Net 30 for each individual invoice.
This Quotation is subject to policies in the current GameTime Park and Playground Catalog and the following terms and conditions. Our quotation is based on shipment of all items at one time to a single destination, unless noted, and changes are subject to price adjustment.
Pricing: Firm for 60 days from date of quotation.
Shipment: F.O.B. factory, order shall ship within 120 days after GameTime's receipt and acceptance of your purchase order, color selections, approved submittals, and receipt of payment.
Taxes: State and local taxes will be added at time of invoicing, if not already included, unless a tax exempt certificate is provided at the time of order entry.
Exclusions: Unless specifically discussed, this quotation excludes all sitework and landscaping; removal of existing equipment; acceptance of equipment and off-loading; lift gate delivery; storage of goods prior to installation; security of equipment (on site and at night); equipment assembly and installation; safety surfacing; borders; drainage; signed/sealed drawings; or permits.

Installation Terms: Shall be by a Certified Installer. The installer is an indepedent installer and not part of PlayCore, GameTime, nor Dominica Recreation Products. If playground equipment, installer will be NPSI and Factory Trained and Certified. Unless otherwise noted, installation is based on a standard installation consistent with GameTime installation sheets and in suitable soil with a sub-base that will allow proper playground installation. Drainage is not part of our scope of work unless otherwise noted. Customer shall be responsible for scheduling and coordination with the installer. Site should be level and allow for unrestricted access of trucks and machinery. Customer shall also provide a staging and construction area. Installer not responsible for sod replacement or damage to access path and staging area. Customer shall be responsible for unknown conditions such as buried utilities, tree stumps, rock, or any concealed materials or conditions that may result in additional labor or material costs. Customer will be billed hourly or per job directly by the installer for any additional costs that were not previously included.

SHADE TERMS :

- Per FBC (or other wind codes) remove shades as recommended in high wind events.
- Quote does not include any provisions for lighting protection.
- Lead time for Shade is about 8 weeks after approval of permits (if required).
- Installer not responsible for site conditions. For Large Shades holes may be upwards of 5' deep or wide, if additional drilling or digging is needed due to rock, coral, utilities, or other unknown items; additional charges may be applied to order.
- Standard installation requires access for large machinery, possibly including a crane, and a staging area. Installer not responsible for sod damage or sidewalk repair on access path and staging area, unless otherwise noted.
- Standard installation is for earth formed footers. Soil testing is not included.

THE CITY OF NEW SMYRNA BEACH - CAPITAL IMPROVEMENTS PROJECT

CONSIDER THE APPROVAL OF THE PURCHASE, DELIVERY, AND INSTALLATION OF A PREFABRICATED RESTROOM FACILITY FROM CXT THROUGH SOURCEWELL CONTRACT 081721-CXT

May 27, 2025

Background:

In May 2023, the City approved Mead & Hunt to design a six court pickleball facility off Paige Avenue. In Oct. 2024, additional funding was allocated in the FY 25/26 budget, allowing the following items to be added to the project scope: facility lighting, restroom building and utilities, electrical work, a shade structure, and a septic/sewer system. Although the original design was complete, a change order was issued to Mead & Hunt in Nov 2024 to design the newly scoped items. On March 25,2025 the construction contract was awarded to All State Civil. The purchase of the restroom facility is utilizing a Sourcewell Contract, and the install service is an added service that the vendor provides outside the Sourcewell contract, which has been included in the quote.

Fiscal Analysis:

Cost $110,374.30 Funding Source Park Impact Fees. If approved, a budget amendment will be forthcoming.
Sourcewell Contract: 081721-CXT

Strategic Plan Item:

No

MLB POWER RANKINGS

	LW	Comments by staff reports
1. Houston Astros	1	Carlos Correa (.935 OPS) is having a heck of a contract year.
2. San Francisco Giants	2	Giants become the first team to reach 50 wins.
3. Tampa Bay Rays	4	The Wander Franco era has begun in St. Petersburg.
4. San Diego Padres	8	Tommy Pham is heating up, batting .317 with a .429 OBP since May 21.
5. Los Angeles Dodgers	3	Tough week ahead: Two vs. Giants, four vs. Nationals in Washington.
6. Boston Red Sox	6	Swept the Yankees twice in the month of June.
7. Chicago White Sox	5	Michael Kopech (1.72 ERA in 31.1 IP) nearing a return, having been out since late May.
8. Oakland Athletics	7	Tony Kemp (.401 OBP) getting chance to play every day at second base and left field.
9. Chicago Cubs	9	Lefty Rex Brothers (2.84 ERA in 29 games) has been a nice comeback story.
10. New York Mets	11	Jacob deGrom's worst start of 2021 (2 runs in 6 innings) ballooned his ERA to 0.69.
11. Milwaukee Brewers	12	Kolten Wong went 12-for-33 with three homers in first eight games after coming off IL.
12. Cleveland	10	MLB wins leader Aaron Civale (10-2) hits the injured list for at least a month.
13. Toronto Blue Jays	14	George Springer's return makes lineup even more fearsome.
14. New York Yankees	13	Before you freak out about Gleyber Torres, remember that he's just 24.
15. Cincinnati Reds	16	Luis Castillo (1.71 ERA in last five starts) back on track after bad rough patch.
16. Seattle Mariners	21	Promoted in early June, Shed Long had 11 RBI in his first 14 games.
17. Washington Nationals	19	Kyle Schwarber's historic hot streak may be distracting from this team's flaws.
18. Atlanta Braves	17	Mike Soroka can't catch a break and is done for 2021 after re-tearing Achilles.
19. Philadelphia Phillies	15	Hector Neris loses closer job while bullpen makeover continues to be a dud.
20. St. Louis Cardinals	20	Jack Flaherty last pitched on May 31 and the Cardinals lost 16 of 23 to start June.
21. Los Angeles Angels	18	Jared Walsh's splits are wild: 1.080 OPS vs. righties, .551 vs. lefties.
22. Miami Marlins	22	Pablo Lopez (2.87 ERA in 16 starts) proving that strong 2020 was no fluke.
23. Minnesota Twins	24	Will they trade Jose Berrios before the July 30 deadline?
24. Kansas City Royals	23	Nicky Lopez (.347 OBP, 7 SB) has done a nice job filling in for Adalberto Mondesi.
25. Detroit Tigers	25	Reminder that Casey Mize (2.77 ERA in last 10 starts) is eligible for Rookie of the Year.
26. Colorado Rockies	26	After missing three weeks, Jon Gray returns with 10 strikeouts in five scoreless innings.
27. Texas Rangers	27	Kyle Gibson (1.52 ERA in five June starts) keeps upping his trade value.
28. Pittsburgh Pirates	28	Bryan Reynolds (.366 BA, 6 HRs, 19 RBI in 22 games) tearing it up in June.
29. Baltimore Orioles	29	A year after cancer surgery, Trey Mancini set to appear in the Home Run Derby.
30. Arizona Diamondbacks	30	Team's 24-game road losing streak, an MLB record, mercifully comes to an end.

SOURCEWELL
STATE OF MINNESOTA

Member Thomas moved the adoption of the following Resolution:

RESOLUTION TO APPROVE SOLICITATION AND/OR RE-SOLICITATION OF CATEGORIES

Resolution No. 2021-11

WHEREAS, Sourcewell desires to issue a solicitation, and is seeking permission from the Board to issue a solicitation, for the categories listed on Appendix A, which is attached and incorporated.

WHEREAS, through the Sourcewell Procurement Policy, the Board designated the Chief Procurement Officer to administer Sourcewell's cooperative purchasing and contracting program; and

WHEREAS, the Chief Procurement Officer recommends approval of categories detailed above.

NOW THEREFORE BE IT RESOLVED that the Board of Directors hereby approves the solicitation of categories.

The motion for the adoption of the foregoing resolution was duly seconded by Member Thiel
and the following voted in favor: (list names here)
Wilson, Zylka, Veronen, Nagel, Thomas, Thiel, Arts and Kircher
and the following voted against: (list names here or "NONE")
None

whereupon said resolution was declared duly passed and adopted.

SOURCEWELL
STATE OF MINNESOTA

Member Kircher moved the adoption of the following Resolution:

RESOLUTION TO RATIFY COOPERATIVE CONTRACTING AWARDS

11/16/2021

Resolution No. 2021-27

WHEREAS, the Sourcewell Board of Directors previously authorized the solicitations for the cooperative categories listed on Appendix A, which is attached and incorporated; and

WHEREAS, Sourcewell issued the cooperative contracting solicitations for the authorized categories; and

WHEREAS, through the Sourcewell Procurement Policy, the Board designated the Chief Procurement Officer to administer Sourcewell's cooperative purchasing and contracting program and to award all competitively solicited contracts, without limitation; and

WHEREAS, the Chief Procurement Officer made the awards listed based on the results of the competitive solicitation process; and

WHEREAS, the Board acknowledges that the awards made by the Chief Procurement Officer are valid and binding; however, based upon some members' legal requirements the Chief Procurement Official is required to seek subsequent Board ratification of all cooperative purchasing awards.

NOW THEREFORE BE IT RESOLVED by the Board of Directors ratifies the cooperative contracting awards made by the Chief Procurement Officer listed on Appendix A.

The motion for the adoption of the foregoing resolution was duly seconded by Member Nagel and the following voted in favor: (list names here)
Wilson, Zylka, Nagel, Thomas, Arts, Kircher
and the following voted against: (list names here or "NONE")
None
whereupon said resolution was declared duly passed and adopted.

Sourcewell

Solicitation Number: RFP 081721

CONTRACT

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and CXT Incorporated, 606 N. Pines Road, Suite 202, Spokane Valley, WA 99206 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Restroom and Shower Facility Solutions from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

B. EXPIRATION DATE AND EXTENSION. This Contract expires October 15, 2025, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.

C. SURVIVAL OF TERMS. Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above.

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements.

E. GOVERNING LAW AND VENUE. The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

7. CUSTOMER SERVICE

A. PRIMARY ACCOUNT REPRESENTATIVE. Supplier will assign an Account Representative to Sourcewell for this Contract and must provide prompt notice to Sourcewell if that person is changed. The Account Representative will be responsible for:

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

- Maintenance and management of this Contract;
- Timely response to all Sourcewell and Participating Entity inquiries; and
- Business reviews to Sourcewell and Participating Entities, if applicable.

B. BUSINESS REVIEWS. Supplier must perform a minimum of one business review with Sourcewell per contract year. The business review will cover sales to Participating Entities, pricing and contract terms, administrative fees, sales data reports, supply issues, customer issues, and any other necessary information.

8. REPORT ON CONTRACT SALES ACTIVITY AND ADMINISTRATIVE FEE PAYMENT

A. CONTRACT SALES ACTIVITY REPORT. Each calendar quarter, Supplier must provide a contract sales activity report (Report) to the Sourcewell Supplier Development Administrator assigned to this Contract. Reports are due no later than 45 days after the end of each calendar quarter. A Report must be provided regardless of the number or amount of sales during that quarter (i.e., if there are no sales, Supplier must submit a report indicating no sales were made).

The Report must contain the following fields:

- Participating Entity Name (e.g., City of Staples Highway Department);
- Participating Entity Physical Street Address;
- Participating Entity City;
- Participating Entity State/Province;
- Participating Entity Zip/Postal Code;
- Participating Entity Contact Name;
- Participating Entity Contact Email Address;
- Participating Entity Contact Telephone Number;
- Sourcewell Assigned Entity/Participating Entity Number;
- Item Purchased Description;
- Item Purchased Price;
- Sourcewell Administrative Fee Applied; and
- Date Purchase was invoiced/sale was recognized as revenue by Supplier.

B. ADMINISTRATIVE FEE. In consideration for the support and services provided by Sourcewell, the Supplier will pay an administrative fee to Sourcewell on all Equipment, Products, and Services provided to Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. In the event this Contract is cancelled by either party prior to the Contract's expiration date, the administrative fee payment will be due no more than 30 days from the cancellation date.

9. AUTHORIZED REPRESENTATIVE

Sourcewell's Authorized Representative is its Chief Procurement Officer.

Supplier's Authorized Representative is the person named in the Supplier's Proposal. If Supplier's Authorized Representative changes at any time during this Contract, Supplier must promptly notify Sourcewell in writing.

10. AUDIT, ASSIGNMENT, AMENDMENTS, WAIVER, AND CONTRACT COMPLETE

A. AUDIT. Pursuant to Minnesota Statutes Section 16C.05, subdivision 5, the books, records, documents, and accounting procedures and practices relevant to this Agreement are subject to examination by Sourcewell or the Minnesota State Auditor for a minimum of six years from the end of this Contract. This clause extends to Participating Entities as it relates to business conducted by that Participating Entity under this Contract.

B. ASSIGNMENT. Neither party may assign or otherwise transfer its rights or obligations under this Contract without the prior written consent of the other party and a fully executed assignment agreement. Such consent will not be unreasonably withheld. Any prohibited assignment will be invalid.

C. AMENDMENTS. Any amendment to this Contract must be in writing and will not be effective until it has been duly executed by the parties.

D. WAIVER. Failure by either party to take action or assert any right under this Contract will not be deemed a waiver of such right in the event of the continuation or repetition of the circumstances giving rise to such right. Any such waiver must be in writing and signed by the parties.

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

E. CONTRACT COMPLETE. This Contract represents the complete agreement between the parties. No other understanding regarding this Contract, whether written or oral, may be used to bind either party.For any conflict between the attached Proposal and the terms set out in Articles 1-22 of this Contract, the terms of Articles 1-22 will govern.

F. RELATIONSHIP OF THE PARTIES. The relationship of the parties is one of independent contractors, each free to exercise judgment and discretion with regard to the conduct of their respective businesses. This Contract does not create a partnership, joint venture, or any other relationship such as master-servant, or principal-agent.

11. INDEMNITY AND HOLD HARMLESS

Supplier must indemnify, defend, save, and hold Sourcewell and its Participating Entities, including their agents and employees, harmless from any claims or causes of action, including attorneys' fees incurred by Sourcewell or its Participating Entities, arising out of any act or omission in the performance of this Contract by the Supplier or its agents or employees; this indemnification includes injury or death to person(s) or property alleged to have been caused by some defect in the Equipment, Products, or Services under this Contract to the extent the Equipment, Product, or Service has been used according to its specifications. Sourcewell's responsibility will be governed by the State of Minnesota's Tort Liability Act (Minnesota Statutes Chapter 466) and other applicable law.

12. GOVERNMENT DATA PRACTICES

Supplier and Sourcewell must comply with the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13, as it applies to all data provided by or provided to Sourcewell under this Contract and as it applies to all data created, collected, received, stored, used, maintained, or disseminated by the Supplier under this Contract.

13. INTELLECTUAL PROPERTY, PUBLICITY, MARKETING, AND ENDORSEMENT

A. INTELLECTUAL PROPERTY

1. *Grant of License.* During the term of this Contract:
   a. Sourcewell grants to Supplier a royalty-free, worldwide, non-exclusive right and license to use thetrademark(s) provided to Supplier by Sourcewell in advertising and promotional materials for the purpose of marketing Sourcewell's relationship with Supplier.
   b. Supplier grants to Sourcewell a royalty-free, worldwide, non-exclusive right and license to use Supplier's trademarks in advertising and promotional materials for the purpose of marketing Supplier's relationship with Sourcewell.
2. *Limited Right of Sublicense*. The right and license granted herein includes a limited right of each party to grant sublicenses to their respective subsidiaries, distributors, dealers,

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

resellers, marketing representatives, and agents (collectively "Permitted Sublicensees") in advertising and promotional materials for the purpose of marketing the Parties' relationship to Participating Entities. Any sublicense granted will be subject to the terms and conditions of this Article. Each party will be responsible for any breach of this Article by any of their respective sublicensees.

3. *Use; Quality Control.*

a. Neither party may alter the other party's trademarks from the form provided and must comply with removal requests as to specific uses of its trademarks or logos.

b. Each party agrees to use, and to cause its Permitted Sublicensees to use, the other party's trademarks only in good faith and in a dignified manner consistent with such party's use of the trademarks. Upon written notice to the breaching party, the breaching party has 30 days of the date of the written notice to cure the breach or the license will be terminated.

4. As applicable, Supplier agrees to indemnify and hold harmless Sourcewell and its Participating Entities against any and all suits, claims, judgments, and costs instituted or recovered against Sourcewell or Participating Entities by any person on account of the use of any Equipment or Products by Sourcewell or its Participating Entities supplied by Supplier in violation of applicable patent or copyright laws.

5. Termination. Upon the termination of this Contract for any reason, each party, including Permitted Sublicensees, will have 30 days to remove all Trademarks from signage, websites, and the like bearing the other party's name or logo (excepting Sourcewell's pre-printed catalog of suppliers which may be used until the next printing). Supplier must return all marketing and promotional materials, including signage, provided by Sourcewell, or dispose of it according to Sourcewell's written directions.

B. PUBLICITY. Any publicity regarding the subject matter of this Contract must not be released without prior written approval from the Authorized Representatives. Publicity includes notices, informational pamphlets, press releases, research, reports, signs, and similar public notices prepared by or for the Supplier individually or jointly with others, or any subcontractors, with respect to the program, publications, or services provided resulting from this Contract.

C. MARKETING. Any direct advertising, marketing, or offers with Participating Entities must be approved by Sourcewell. Send all approval requests to the Sourcewell Supplier Development Administrator assigned to this Contract.

D. ENDORSEMENT. The Supplier must not claim that Sourcewell endorses its Equipment, Products, or Services.

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

14. GOVERNING LAW, JURISDICTION, AND VENUE

The substantive and procedural laws of the State of Minnesota will govern this Contract. Venue for all legal proceedings arising out of this Contract, or its breach, must be in the appropriate state court in Todd County, Minnesota or federal court in Fergus Falls, Minnesota.

15. FORCE MAJEURE

Neither party to this Contract will be held responsible for delay or default caused by acts of God or other conditions that are beyond that party's reasonable control. A party defaulting under this provision must provide the other party prompt written notice of the default.

16. SEVERABILITY

If any provision of this Contract is found by a court of competent jurisdiction to be illegal, unenforceable, or void then both parties will be relieved from all obligations arising from that provision. If the remainder of this Contract is capable of being performed, it will not be affected by such determination or finding and must be fully performed.

17. PERFORMANCE, DEFAULT, AND REMEDIES

A. PERFORMANCE. During the term of this Contract, the parties will monitor performance and address unresolved contract issues as follows:

1. *Notification.* The parties must promptly notify each other of any known dispute and work in good faith to resolve such dispute within a reasonable period of time. If necessary, Sourcewell and the Supplier will jointly develop a short briefing document that describes the issue(s), relevant impact, and positions of both parties.
2. *Escalation.* If parties are unable to resolve the issue in a timely manner, as specified above, either Sourcewell or Supplier may escalate the resolution of the issue to a higher level of management. The Supplier will have 30 calendar days to cure an outstanding issue.
3. *Performance while Dispute is Pending*. Notwithstanding the existence of a dispute, the Supplier must continue without delay to carry out all of its responsibilities under the Contract that are not affected by the dispute. If the Supplier fails to continue without delay to perform its responsibilities under the Contract, in the accomplishment of all undisputed work, the Supplier will bear any additional costs incurred by Sourcewell and/or its Participating Entities as a result of such failure to proceed.

B. DEFAULT AND REMEDIES. Either of the following constitutes cause to declare this Contract, or any Participating Entity order under this Contract, in default:

1. Nonperformance of contractual requirements, or
2. A material breach of any term or condition of this Contract.

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

The party claiming default must provide written notice of the default, with 30 calendar days to cure the default. Time allowed for cure will not diminish or eliminate any liability for liquidated or other damages. If the default remains after the opportunity for cure, the non-defaulting party may:

- Exercise any remedy provided by law or equity, or
- Terminate the Contract or any portion thereof, including any orders issued against the Contract.

18. INSURANCE

A. REQUIREMENTS. At its own expense, Supplier must maintain insurance policy(ies) in effect at all times during the performance of this Contract with insurance company(ies) licensed or authorized to do business in the State of Minnesota having an "AM BEST" rating of A- or better, with coverage and limits of insurance not less than the following:

1. *Workers' Compensation and Employer's Liability.*
Workers' Compensation: As required by any applicable law or regulation.
Employer's Liability Insurance: must be provided in amounts not less than listed below:
Minimum limits:
$500,000 each accident for bodily injury by accident
$500,000 policy limit for bodily injury by disease
$500,000 each employee for bodily injury by disease

2. *Commercial General Liability Insurance.* Supplier will maintain insurance covering its operations, with coverage on an occurrence basis, and must be subject to terms no less broad than the Insurance Services Office ("ISO") Commercial General Liability Form CG0001 (2001 or newer edition), or equivalent. At a minimum, coverage must include liability arising from premises, operations, bodily injury and property damage, independent contractors, products-completed operations including construction defect, contractual liability, blanket contractual liability, and personal injury and advertising injury. All required limits, terms and conditions of coverage must be maintained during the term of this Contract.
Minimum Limits:
$1,000,000 each occurrence Bodily Injury and Property Damage
$1,000,000 Personal and Advertising Injury
$2,000,000 aggregate for Products-Completed operations
$2,000,000 general aggregate

3. *Commercial Automobile Liability Insurance.* During the term of this Contract, Supplier will maintain insurance covering all owned, hired, and non-owned automobiles in limits of liability not less than indicated below. The coverage must be subject to terms

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

no less broad than ISO Business Auto Coverage Form CA 0001 (2010 edition or newer), or equivalent.

Minimum Limits:
$1,000,000 each accident, combined single limit

4. *Umbrella Insurance*. During the term of this Contract, Supplier will maintain umbrella coverage over Employer's Liability, Commercial General Liability, and Commercial Automobile.

Minimum Limits:
$2,000,000

5. *Network Security and Privacy Liability Insurance*. During the term of this Contract, Supplier will maintain coverage for network security and privacy liability. The coverage may be endorsed on another form of liability coverage or written on a standalone policy. The insurance must cover claims which may arise from failure of Supplier's security resulting in, but not limited to, computer attacks, unauthorized access, disclosure of not public data – including but not limited to, confidential or private information, transmission of a computer virus, or denial of service.

Minimum limits:
$2,000,000 per occurrence
$2,000,000 annual aggregate

Failure of Supplier to maintain the required insurance will constitute a material breach entitling Sourcewell to immediately terminate this Contract for default.

B. CERTIFICATES OF INSURANCE. Prior to commencing under this Contract, Supplier must furnish to Sourcewell a certificate of insurance, as evidence of the insurance required under this Contract. Prior to expiration of the policy(ies), renewal certificates must be mailed to Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 or sent to the Sourcewell Supplier Development Administrator assigned to this Contract. The certificates must be signed by a person authorized by the insurer(s) to bind coverage on their behalf.

Failure to request certificates of insurance by Sourcewell, or failure of Supplier to provide certificates of insurance, in no way limits or relieves Supplier of its duties and responsibilities in this Contract.

C. ADDITIONAL INSURED ENDORSEMENT AND PRIMARY AND NON-CONTRIBUTORY INSURANCE CLAUSE. Supplier agrees to list Sourcewell and its Participating Entities, including their officers, agents, and employees, as an additional insured under the Supplier's commercial general liability insurance policy with respect to liability arising out of activities, "operations," or "work" performed by or on behalf of Supplier, and products and completed operations of Supplier. The policy provision(s) or endorsement(s) must further provide that coverage is

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

primary and not excess over or contributory with any other valid, applicable, and collectible insurance or self-insurance in force for the additional insureds.

D. WAIVER OF SUBROGATION. Supplier waives and must require (by endorsement or otherwise) all its insurers to waive subrogation rights against Sourcewell and other additional insureds for losses paid under the insurance policies required by this Contract or other insurance applicable to the Supplier or its subcontractors. The waiver must apply to all deductibles and/or self-insured retentions applicable to the required or any other insurance maintained by the Supplier or its subcontractors. Where permitted by law, Supplier must require similar written express waivers of subrogation and insurance clauses from each of its subcontractors.

E. UMBRELLA/EXCESS LIABILITY/SELF-INSURED RETENTION. The limits required by this Contract can be met by either providing a primary policy or in combination with umbrella/excess liability policy(ies), or self-insured retention.

19. COMPLIANCE

A. LAWS AND REGULATIONS. All Equipment, Products, or Services provided under this Contract must comply fully with applicable federal laws and regulations, and with the laws in the states and provinces in which the Equipment, Products, or Services are sold.

B. LICENSES. Supplier must maintain a valid and current status on all required federal, state/provincial, and local licenses, bonds, and permits required for the operation of the business that the Supplier conducts with Sourcewell and Participating Entities.

20. BANKRUPTCY, DEBARMENT, OR SUSPENSION CERTIFICATION

Supplier certifies and warrants that it is not in bankruptcy or that it has previously disclosed in writing certain information to Sourcewell related to bankruptcy actions. If at any time during this Contract Supplier declares bankruptcy, Supplier must immediately notify Sourcewell in writing.

Supplier certifies and warrants that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Supplier certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this Contract. Supplier further warrants that it will provide immediate written notice to Sourcewell if this certification changes at any time.

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

21. PROVISIONS FOR NON-UNITED STATES FEDERAL ENTITY PROCUREMENTS UNDER UNITED STATES FEDERAL AWARDS OR OTHER AWARDS

Participating Entities that use United States federal grant or FEMA funds to purchase goods or services from this Contract may be subject to additional requirements including the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. § 200. Participating Entities may have additional requirements based on specific funding source terms or conditions. Within this Article, all references to "federal" should be interpreted to mean the United States federal government. The following list only applies when a Participating Entity accesses Supplier's Equipment, Products, or Services with United States federal funds.

A. EQUAL EMPLOYMENT OPPORTUNITY. Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 C.F.R. § 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor." The equal opportunity clause is incorporated herein by reference.

B. DAVIS-BACON ACT, AS AMENDED (40 U.S.C. § 3141-3148). When required by federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. § 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 C.F.R. § 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. § 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-federal entity must report all suspected or reported violations to the federal awarding agency. Supplier must be in compliance with all applicable Davis-Bacon Act provisions.

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

C. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT (40 U.S.C. § 3701-3708). Where applicable, all contracts awarded by the non-federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations (29 C.F.R. § 5). Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is hereby incorporated by reference into this Contract. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

D. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT. If the federal award meets the definition of “funding agreement” under 37 C.F.R. § 401.2(a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 C.F.R. § 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

E. CLEAN AIR ACT (42 U.S.C. § 7401-7671Q.) AND THE FEDERAL WATER POLLUTION CONTROL ACT (33 U.S.C. § 1251-1387). Contracts and subgrants of amounts in excess of $150,000 require the non-federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. § 7401- 7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. § 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). Supplier certifies that during the term of this Contract will comply with applicable requirements as referenced above.

F. DEBARMENT AND SUSPENSION (EXECUTIVE ORDERS 12549 AND 12689). A contract award (see 2 C.F.R. § 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R. §180 that implement Executive Orders 12549 (3 C.F.R. § 1986 Comp., p. 189) and 12689 (3 C.F.R. § 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Supplier certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency.

G. BYRD ANTI-LOBBYING AMENDMENT, AS AMENDED (31 U.S.C. § 1352). Suppliers must file any required certifications. Suppliers must not have used federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Suppliers must disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the non-federal award. Suppliers must file all certifications and disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352).

H. RECORD RETENTION REQUIREMENTS. To the extent applicable, Supplier must comply with the record retention requirements detailed in 2 C.F.R. § 200.333. The Supplier further certifies that it will retain all records as required by 2 C.F.R. § 200.333 for a period of 3 years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

I. ENERGY POLICY AND CONSERVATION ACT COMPLIANCE. To the extent applicable, Supplier must comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act.

J. BUY AMERICAN PROVISIONS COMPLIANCE. To the extent applicable, Supplier must comply with all applicable provisions of the Buy American Act. Purchases made in accordance with the Buy American Act must follow the applicable procurement rules calling for free and open competition.

K. ACCESS TO RECORDS (2 C.F.R. § 200.336). Supplier agrees that duly authorized representatives of a federal agency must have access to any books, documents, papers and records of Supplier that are directly pertinent to Supplier's discharge of its obligations under this Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to Supplier's personnel for the purpose of interview and discussion relating to such documents.

L. PROCUREMENT OF RECOVERED MATERIALS (2 C.F.R. § 200.322). A non-federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. § 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

M. FEDERAL SEAL(S), LOGOS, AND FLAGS. The Supplier not use the seal(s), logos, crests, or reproductions of flags or likenesses of Federal agency officials without specific pre-approval.

N. NO OBLIGATION BY FEDERAL GOVERNMENT. The U.S. federal government is not a party to this Contract or any purchase by an Participating Entity and is not subject to any obligations or liabilities to the Participating Entity, Supplier, or any other party pertaining to any matter resulting from the Contract or any purchase by an authorized user.

O. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS. The Contractor acknowledges that 31 U.S.C. 38 (Administrative Remedies for False Claims and Statements) applies to the Supplier's actions pertaining to this Contract or any purchase by a Participating Entity.

P. FEDERAL DEBT. The Supplier certifies that it is non-delinquent in its repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowance, and benefit overpayments.

Q. CONFLICTS OF INTEREST. The Supplier must notify the U.S. Office of General Services, Sourcewell, and Participating Entity as soon as possible if this Contract or any aspect related to the anticipated work under this Contract raises an actual or potential conflict of interest (as described in 2 C.F.R. Part 200). The Supplier must explain the actual or potential conflict in writing in sufficient detail so that the U.S. Office of General Services, Sourcewell, and Participating Entity are able to assess the actual or potential conflict; and provide any additional information as necessary or requested.

R. U.S. EXECUTIVE ORDER 13224. The Supplier, and its subcontractors, must comply with U.S. Executive Order 13224 and U.S. Laws that prohibit transactions with and provision of resources and support to individuals and organizations associated with terrorism.

S. PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT. To the extent applicable, Supplier certifies that during the term of this Contract it will comply with applicable requirements of 2 C.F.R. § 200.216.

DocuSign Envelope ID: 58160002-1826-4410-99D5-6B29684CF757

T. DOMESTIC PREFERENCES FOR PROCUREMENTS. To the extent applicable, Supplier certifies that during the term of this Contract will comply with applicable requirements of 2 C.F.R. § 200.322.

22. CANCELLATION

Sourcewell or Supplier may cancel this Contract at any time, with or without cause, upon 60 days' written notice to the other party. However, Sourcewell may cancel this Contract immediately upon discovery of a material defect in any certification made in Supplier's Proposal. Cancellation of this Contract does not relieve either party of financial, product, or service obligations incurred or accrued prior to cancellation.

General Instructions (applies to all Tables) Sourcewell prefers a brief but thorough response to each question. Do not merely attach additional documents to your response without also providing a substantive response. Do not leave answers blank; respond "N/A" if the question does not apply to you (preferably with an explanation).

Line Item	Question	Response *	
1	Proposer Legal Name (one legal entity only): (In the event of award, will execute the resulting contract as "Supplier")	CXT Incorporated	*
2	Identify all subsidiary entities of the Proposer whose equipment, products, or services are included in the Proposal.	NA	*
3	Identify all applicable assumed names or DBA names of the Proposer or Proposer's subsidiaries in Line 1 or Line 2 above.	NA	*
4	Proposer Physical Address:	606 N. Pines Rd Suite 202 Spokane Valley, WA 99206	*
5	Proposer website address (or addresses):	www.cxtinc.com	*
6	Proposer's Authorized Representative (name, title, address, email address & phone) (The representative must have authority to sign the "Proposer's Assurance of Compliance" on behalf of the Proposer and, in the event of award, will be expected to execute the resulting contract):	Gary Burger, Director of Commercial Operations, 606 N Pines Rd Suite 202, Spokane Valley WA 99206, gburger@lbfoster.com, 254-717-0912	*
7	Proposer's primary contact for this proposal (name, title, address, email address & phone):	Gary Burger, Director of Commercial Operations, 606 N Pines Rd Suite 202, Spokane Valley WA 99206, gburger@lbfoster.com, 254-717-0912	*
8	Proposer's other contacts for this proposal, if any (name, title, address, email address & phone):	NA	

Table 2: Company Information and Financial Strength

Line Item	Question	Response *	

9	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	L.B. Foster Company Lee B. Foster was only 20 years old when he founded the company in 1902 that bears his name. L.B. Foster Company has grown for more than a century to become a leader in the manufacture, fabrication and distribution of infrastructure products and materials. Foster began the company to service a transportation need he recognized while growing up around his father's oil business in Titusville, Pennsylvania. Lee saw that his father received many inquiries from mines, logging camps, and quarries about the availability of relay (used) train rail. Because no truck transportation existed at the time, permanent and temporary rail spurs were the only means for transporting heavy materials to and from jobsites near and far. New rail was costly, and Foster saw an opportunity to resell rail that had been retrieved from abandoned and replaced railroads and urban transit systems. To encourage the sale of used material, Lee Foster initiated a guarantee that set his firm apart from others and contributed greatly to his success: "If the material is not up to the standard represented, ship it back and we will pay the freight both ways." This dedication to customer satisfaction became a core company value and remains today at the forefront of the L.B. Foster customer service policy. In addition to transportation products, L.B. Foster Company began to focus on other infrastructure-related industries for new expansion. Today the company markets its products to businesses involved in transportation, construction, energy, utility, recreation, and agriculture. In 1999 the company acquired CXT Incorporated, a leading manufacturer of engineered concrete products for railroad and recreation markets. This acquisition positioned L.B. Foster to better serve customers with a comprehensive line of mainline, transit and industrial rail products. The purchase of CXT also expanded the company into the production of recreational and multi-purpose precast concrete buildings. CXT Incorporated CXT® was started in 1987 as a joint venture of Costain and Con-Force to build concrete railroad ties (CXT stands for concrete crossing ties) in the U.S. for the Burlington Northern railroad. The company was placed in Spokane, Washington due to its proximity to high quality aggregates, and both Burlington Northern and Union Pacific rail lines. In 1991 CXT management created an ESOP to buy the business from the two companies. CXT Concrete Buildings was started in July 1992 as CXT's third division, (the others were the Concrete Railroad Ties and the Paver and Segmental Retaining Wall Divisions). The initial order was for 11 single vault waterless restrooms with the Idaho Panhandle National Forest. In 1999, CXT was purchased by L.B. Foster Company and became a wholly owned subsidiary of L.B. Foster. In 2001, CXT expanded into its second 120,000 square foot manufacturing facility in Hillsboro Texas. The plant serves the southern and central U.S. In 2013 CXT was awarded its first Sourcewell contract. The contract has grown each year and expanded its sales in all markets. Many of our customers were first time Sourcewell users and we are proud that we helped expand the Sourcewell Cooperative contract purchasing membership. In 2014 L.B. Foster acquired Carr Concrete a leading manufacturer of engineered concrete products in the eastern U.S. Carr Concrete became a division of CXT. The acquisition positioned CXT to better serve customer in the eastern U.S. with a 130,000 sq.ft. of production based in Waverly, West Virginia. In 2019 The Spokane, Washington operations were moved to Nampa, Idaho. The new 79,000 square feet will centralize manufacturing to CXT's existing and prospective customer base. In 2020 L.B. Foster acquired LarKen Precast who manufactures standard and custom engineered precast concrete products. Larken is a well-known manufacturer in the Boise, Idaho area that distributes their products primarily for state and municipal wastewater, irrigation and electrical applications servicing the southwest and central Idaho, as well as eastern Oregon regions. LarKen Precast became a division of CXT. Our all concrete design withstands hurricanes, earthquakes, heavy snow loads and the worst that vandals can bring. The buildings come in a variety of styles to meet the needs of city, county, state, education, and federal customers. In the last 20+ years CXT has produced and shipped over 25,000 units nationally and internationally
10	What are your company's expectations in the event of an award?	CXT expects to continue to expand its sales using Sourcewell contract. CXT is a proud member and used our direct sales force to help promote the benefits of the cooperative purchasing approach for all products available on Sourcewell contract. At our current growth rate we expect Sourcewell to be 25% of our overall sales ($4M sold through Sourcewell per quarter) and if awarded again we expect that to continue to grow to 30% of overall sales.
11	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	See attached financial statements for L.B. Foster Company (file 2020-LBFosterAnnualReport.pdf). L.B. Foster is a publicly traded company at FSTR on Nasdaq. CXT is a wholly owned subsidiary of LB Foster and falls under LB Foster Infrastructure group. LB Foster continues to have strong financial results even during these difficult times. LB Foster is positioned to continue to grow. CXT is a vital division of LB Foster and a major focus for growth in the future.
12	What is your US market share for the solutions that you are proposing?	Market share is very difficult to measure in our industry. (no consolidated information exists). We have done internal studies that have found the North American market to be around $100m in 2016, with our 2016 sales at $40m. That would put our market share at approximately 40%. Currently we expect to reach $64M in 2021, but also think the market has grown and our share doesn't exceed 50%.
13	What is your Canadian market share for the solutions that you are proposing?	No data exists for the Canadian market that we are aware of. We sold $500,000 in 2020.
14	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	NO

15	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	CXT is a manufacturer with a sales force that sells directly to the end users. The sales force are employees of CXT. Each current sales employee has gone through Sourcewell University. This direct sales to end user model fits extremely well with the Sourcewell contract. The Sourcewell member deals directly with CXT and had no middle man in regards to sales, service, or warranty.	*
16	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	CXT holds several dozen licenses, certifications, and certificates. Of these, most concern the manufacture of CXT's concrete building line and are specifically aimed at the manufacturing process. The most important of these are the following: PCI certified, ISO 9001 certified and IAS compliant.	*
17	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	Neither CXT nor L.B. Foster has been suspended or disbarred.	*

Table 3: Industry Recognition & Marketplace Success

Line Item	Question	Response *	
18	Describe any relevant industry awards or recognition that your company has received in the past five years	2013 Best plant finalist – Industry Week Magazine; 2014 Best Plant Award – Industry Week Magazine; 2016, ISO 9001, ISO 14001 and OSHA 18001 certified.	*
19	What percentage of your sales are to the governmental sector in the past three years	2020 94% 2019 93% 2018 94%	*
20	What percentage of your sales are to the education sector in the past three years	2020 1% 2019 <1% 2018 1%	*
21	List any state, provincial, or cooperative purchasing contracts that you hold. What is the annual sales volume for each of these contracts over the past three years?	CXT holds contracts in the following five states for some or all of our product line being submitted in this proposal: Kansas, Missouri, Oregon, Pennsylvania, Washington. We hold no other Coop contracts. The goal is to eliminate these state contracts and use Sourcewell. 2019 2018 2017 Kansas $100,000 $100,000 $100,000 Missouri $200,000 $220,000 $1,000,000 Oregon $1,700,000 $1,800,000 $1,700,000 Pennsylvania $1,200,000 $200,000 $200,000 Washington $2,000,000 $1,500,000 $2,300,000 Utah $1,000,000 $800,000 $1,000,000	*
22	List any GSA contracts or Standing Offers and Supply Arrangements (SOSA) that you hold. What is the annual sales volume for each of these contracts over the past three years?	CXT holds GSA contract GS07F0602N 2019 2018 2017 Total Sales $2,500,000 $5,000,000 $2,400,000	*

Table 5: Top Five Government or Education Customers

Line Item 24. Provide a list of your top five government, education, or non-profit customers (entity name is optional), including entity type, the state or province the entity is located in, scope of the project(s), size of transaction(s), and dollar volumes from the past three years.

Entity Name	Entity Type *	State / Province *	Scope of Work *	Size of Transactions *	Dollar Volume Past Three Years *	
United States Army Corps of Engineers (includes all regions and districts covering the US, including District of Columbia DC	Government	District of Columbia - DC	Includes purchase of products from our "standard" line of buildings including site work.	$20,000 - $1,000,000	2020 $3,000,000 2019 $2,900,000 2018 $1,800,000	*
National Forest Service (includes all regions and districts covering the US, including the District of Columbia DC	Government	District of Columbia - DC	Includes purchase of products from our "standard" line of buildings including site work.	$20,000-$500,000	2020 $1,000,000 2019 $800,000 2018 $2,100,000	*
Utah State Parks	Government	Utah - UT	Includes purchase of products from our "standard" line of buildings including site work.	$40,000-$1,000,000	2020 $2,000,000 2019 $1,000,000 2018 $800,000	*
State of Washington	Government	Washington - WA	Includes purchase of products from our "standard" line of buildings including site work.	$20,000-$200,000	2020 $1,000,000 2019 $2,000,000 2018 $1,800,000	*
State of Oregon	Government	Washington - WA	Includes purchase of products from our "standard" line of buildings including site work.	$20,000-$300,000	2020 $1,000,000 2019 $1,700,000 2018 $1,800,000	*

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
25	Sales force.	CXT has seven dedicated outside sales managers. Each sales manager is responsible for sales, marketing, and sales service in their respective geographic region. In addition to the outside sales force, we employ three dedicated inside sales professionals, a logistics department, warranty department, engineering department and scheduling department. These departments, including sales, report to a Director of Commercial Operations. Each sales member has gone through Sourcewell training. The Sourcewell member is directly dealing with a CXT (employee) on all transactions.	*
26	Dealer network or other distribution methods.	CXT does not utilize a dealer network. Sourcewell members get direct from the factory pricing.	*
27	Service force.	CXT has a comprehensive and formal service force to handle all our customers' needs post sale. To install our buildings properly, we use CXT certified, independently owned installation crews (eight national and one international). These crews are responsible for the installation, troubleshooting and immediate warranty work on all buildings placed. Each installation crew is trained by CXT via required on-site training sessions held once a year. In addition to our install crews, we utilize a toll-free number for service related questions, web based replacement parts ordering system and CXT employed and dedicated warranty department with three full time employees to handle any and all post sales needs or situations. Sourcewell members deal directly with CXT.	*
28	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	All orders are managed, processed, and executed by CXT. Order process: Order documents received (signed quote or PO, building worksheet, install questionnaire); order processed at CXT (PO verified, drawings generated, questions generated to customer); drawings completed by CXT and returned to customer for approval; customer approves drawings then CXT generates manufacturing instructions; building is then scheduled for production and delivery.	*
29	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	CXT operates and manages a very comprehensive customer service program. This starts with the initial call for questions regarding our products and does not end. Since a majority of our customers are repeat customers, service is extremely important to our business. CXT's service program consists of handling our prospect or customers service needs quickly (within hours not days) and concisely. CXT accomplishes this by using our entire inside and outside sales staff, warranty department and CXT certified installation crews to answer, troubleshoot and fix any and all service related questions. We also utilize web-based videos and FAQ's on our website that give quick answers to everyday questions and issues our customers encounter on a daily basis.	*
30	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	CXT has three plants nationwide, Nampa ID, Hillsboro TX, and Waverly WV that service the entire US will keeping the cost of delivery to a minimum. There are no geographical sites or market segments in the United States that we will not be servicing via the Sourcewell contract.	*
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	CXT plants can provide products into all of Canada. There are no geographical sites or market segments in Canada that we will not be servicing via the Sourcewell contract.	*
32	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	NA	*
33	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	NA	*
34	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	CXT has no offshore contract requirements, apart from shipping costs. We actively sell our products to Alaska, Hawaii, Japan, Canada, and Mexico (to name a few offshore markets). Since all of our products are FOB plant and shipping is a per project priced item, the shipping program to offshore locations would be no different apart from the expense.	*

Table 7: Marketing Plan

Line Item	Question	Response *	
35	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	CXT utilizes a direct to member sales strategy. Our direct sales approach allows the members to deal exclusively with CXT. This also allows us to lead every contact with Sourcewell contract information. Each piece of literature, web site, even email signatures will identify Sourcewell by use of logo, and contract number. Each sales call (150+ per month) will discuss the advantage of Sourcewell and cooperative purchasing. All trade shows (30+ per year) will have Sourcewell banners and membership information. All advertising will have Sourcewell logo and contract information. CXT will continue to drive every order toward usage of the Sourcewell contract and deliver the message of the advantages that using Sourcewell offers.	*
36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	CXT uses our web site www.cxtinc.com to generate and track lists of possible customers and tailor that list to drill down what exactly our customers are looking for. CXT uses broadcast email that contain the Sourcewell logo and contract information to generate leads and interest. More and more customers are using the internet to do their research, and this is no different for the parks and recreation concrete building industry. Our web site allows members to easily download drawings, specifications and request a quote for a unit. CXT uses Google AdWords to generate top search and optimizes it search through meta tags.	*
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Sourcewell has been a great partner in our marketing. CXT uses Sourcewell logo and contract information in all marketing. This has attracted members to contact CXT for information. Our Sourcewell contract manager has done an excellent job talking potential customers through the Sourcewell process and how cooperative purchasing works and can benefit them. The Sourcewell web site does a great job explaining the process to potential customers. Sourcewell member list is used by our sales force to cross reference current members with prospects that we are working with. If they are not a member we show the how easy it is to become a member and how easy it is to contact Sourcewell for more information.	*
38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	CXT does utilize an E-procurement ordering process right now for our parts and is creating a configurator for our web site that will build out and provide a drawing of the building they are looking for. We discuss yearly, the possibility of an E-procurement program for ordering our buildings, but with all the possible components that go into one of our buildings and the large dollar component to buying a building, our customers still need a quote and have to generate a PO for purchasing a unit. The Sourcewell contract has made purchasing easy, so with our product, we do not feel that the customer would benefit from E-procurement at this time. But, as stated we look at changing every year.	*

Table 8: Value-Added Attributes

Line Item	Question	Response *	
39	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	CXT does offer training for our customers and we do it using several different avenues. First, we use our web site as a first line of product training. On our site, we offer all of our standard building cut sheets, drawings and specifications for reference, tutorial videos to see installation of our products, worksheets to determine trucking requirements, troubleshooting videos for common problems and maintenance manuals both online and delivered with each building. CXT offers onsite training for our customers to go over our product line, project needs and building maintenance suggestions at no charge. Customer's are followed up with a survey after delivery to determine their overall satisfaction. 90% of our orders are from returning customers and having Sourcewell makes that return buy easier.	*
40	Describe any technological advances that your proposed products or services offer.	CXT is the leader in the concrete building market which is due in large part to our continuing success in using technological advances in the manufacturing process of our buildings. Over the last 25 years, we have honed our skill at manufacturing the highest quality product on the market. Just a few of the ways we have accomplished this is the addition of LED lighting on the interior and exterior of all buildings as a standard for all Sourcewell customers. All plumbing fixtures are the latest in low flow high efficiency flushing. We have also evolved many of our offerings floor plans to meet the ever-changing market place too meet ADA and gender specific requirements. And due to the pandemic we offer units that easily allow for use without a concern for social distancing, and are easy to sanitize. Our designs and innovations have largely been driven by listening to Sourcewell members needs.	*
41	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	CXT has continued to provide the "greenest" building on the market. Our product uses the latest in lighting, plumbing and materials. The buildings provide LEED credits for our customers' projects allowing them to meet top energy, water, and efficiency standards	*
42	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Nothing specific, but all of our fixtures are the latest in low water volume, and minimum electrical use on the market that meets building codes.	*
43	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	CXT is a wholly owned subsidiary of LB Foster Co. Unfortunately, we do not qualify for any small business, women or minority owned designations. CXT does utilize as many small businesses as possible for its vendor program. Over 60% of our companies spend is directed to SBE's and all certified installers are SBE's with Veteran owned, and Women owned.	*
44	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	At CXT there are many ways that separate our business from our competitions starting with our indoor assembly line manufacturing process to the buildings themselves using all concrete designs that will not rot, rust, warp or burn. Although these and many of the attributes discussed earlier give our product the edge in the marketplace, CXT's major difference from the competition is our commitment to the product and the staff. CXT makes concrete buildings at our three manufacturing facilities and run 365 days of the year. This commitment and the people who work to keep the plants running are what separate us from the rest. CXT has provided Sourcewell members the highest quality buildings and service for the last four years and hope to continue to provide this to Sourcewell members in the future.	*

Table 9A: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
45	Do your warranties cover all products, parts, and labor?	YES. CXT provides a one (1) year warranty, on the building and all of the components. If a manufactured component has a longer warranty, (ex our interior LED lights have a lifetime vandalism warranty) that warranty is passed on and honored for the customer.	*
46	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Warranty is for standard use and design loads. We do not warranty against vandalism and acts of God.	*
47	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Warranty covers repair of replacement of all items which includes all costs to perform work related to warranty.	*
48	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	NO, all regions are covered.	*
49	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	All other non-concrete components will carry a one (1) year warranty. Any component that carries a longer manufacturing warranty will be passed on to the customer and honored.	*
50	What are your proposed exchange and return programs and policies?	CXT will repair or replace all items.	*
51	Describe any service contract options for the items included in your proposal.	CXT has no service contracts available. The product is extremely durable and requires minimal maintenance.	*

Table 9B: Performance Standards or Guarantees

Describe in detail your performance standards or guarantees, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your performance materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
52	Describe any performance standards or guarantees that apply to your services	All buildings meet ADA, and all local building codes and design criteria. All buildings are required to meet local code inspections.	*
53	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	Our internal metric is customer satisfaction. And we survey to insure that customer is 100% satisfied with the building.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
54	Describe your payment terms and accepted payment methods?	Net 30 days after submission of the invoice to the purchaser on approved credit. Wire transfer and check.	*
55	Describe any leasing or financing options available for use by educational or governmental entities.	We offer a leasing solution through NCL Government Capital.	*
56	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Order process: Order documents received (signed quote or PO, building worksheet, install questionnaire); order processed at CXT (PO verified, drawings generated, questions generated to customer); drawings completed by CXT and returned to customer for approval; customer approves drawings then CXT generates manufacturing instructions; building is then scheduled for production and delivery.	*
57	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	No, not at this time.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
58	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Our price on our Sourcewell work sheets are the discounted price for members. See file SourcewellPriceSheets.zip Pricing of the building and all options are easily clicked on and added up on our price sheets. The sheets are sent to members with the freight and any optional items requested. The pricing includes the offloading and set up at site. Members have a place to add there member number and a estimated lease rate from NCL is shown. Open market items are also listed in a separate area, along with freight for complete cost clarity.	*
59	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	CXT is offering a 10% discount off of buildings on our Commercial building price list. It represents our best discount offered. The pricing is the same that is currently offered to Sourcewell members.	*
60	Describe any quantity or volume discounts or rebate programs that you offer.	The Sourcewell discount is the best offered. CXT will negotiate with Members on large orders on a case by case basis.	*
61	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	Our price sheets identify all "open market" custom option items requested by the member. They will be priced at cost plus 30% for Members. Standard non-member pricing is cost plus 40%.	*
62	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Cost of any PE stamped drawings and state inspection fee's that are required will be added as a line item on all price sheets for complete clarity. All required taxes are not include.	*
63	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Freight is FOB plant pre-paid and add. A line item is included on all Sourcewell price sheets for complete clarity. All building prices include the offload and setting of the building at site.	*
64	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Since all of our products are FOB plant and shipping is a per project priced item, the shipping program to offshore locations would be no different apart from the expense.	*
65	Describe any unique distribution and/or delivery methods or options offered in your proposal.	All building pricing includes the cost of the crane to offload and set the building at site for Sourcewell members.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
66	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	Sourcewell will be the best available price for Members.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
67	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	All entities orders are checked to insure that they are Members prior to price offer. If not the entities are asked to join. All orders are checked to insure that the ordering entity is a member and has provided Sourcewell Membership details. CXT has designated Sourcewell price sheets that must come in on all Sourcewell orders. From there, all orders then follow our ISO 9001 process to insure they are tracked and entered with the membership information. All membership information is part of the entities account information and segregated in our system and tracked. Every quarter a report is pulled of the invoiced orders that are tracked and sent to Sourcewell.	*
68	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Sourcewell orders are measured as a percentage of total sales each month/QTR and year, with a current goal to meet 25% of all sales running though Sourcewell.	*
69	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor’s sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member’s cost of goods. (See the RFP and template Contract for additional details.)	2%. Equal to our current fee.	*

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *	
70	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	CXT offers a full line of precast concrete restroom, shower, concession, and utility buildings. The units come in multiple sizes and designs that offer the users a low cost, easy to maintain building, that ships ready to use and installs in hours not days. Our buildings include all concrete designs and withstand hurricanes, floods, earthquakes, and the extremes of vandals. The buildings meet all codes, including ADA, and current electric and plumbing codes. Included on the Sourcewell pricing are 6 waterless vault style, 9 flush style, 4 shower units, 4 concession units, and 2 utility units. We also offer a customizable unit that allows members to mix and match of create a floor plan that works for them. See worksheets for a description of each unit offered.	*
71	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	Waterless and water style units. Storage, concession, and utility (pump house, telecommunication) use.	*

Table 14B: Depth and Breadth of Offered Equipment Products and Services

Indicate below if the listed types or classes of equipment, products, and services are offered within your proposal. Provide additional comments in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments	
72	Flush, waterless (vault), or compostable toilets and restrooms	(•) Yes ( ) No	Full line of Flush, and vault restrooms. Ability to mix or match units to meet members requirements.	*
73	Showers and changing rooms	(•) Yes ( ) No	Full line of Showers changing rooms. Ability to mix or match units to meet members requirements.	*
74	Combination restroom, shower, changing room, and ancillary or accessory use structures or facilities	(•) Yes ( ) No	Full line of units offered. Floor plants can be mixed or matched to meet Members needs.	*
75	Equipment, products, accessories, and supplies related to the solutions in lines 72 - 74 above.	(•) Yes ( ) No	Full line of Parts and accessories, plus the ability to pick unique fixtures to meet Members needs.	*
76	Related services - design-build services, site assessment, site preparation, customization, delivery, assembly, installation, maintenance or repair, and warranty programs.	(•) Yes ( ) No	Units can be "customized" while still being able to purchase off of Sourcewell. Floor plans can be altered to meet Member needs. Sourcewell pricing includes the delivery, offload, site prep and installation at site. Site evaluation is free. All units are fully warranted by CXT and we handle all of the repairs.	*

Table 15: Industry Specific Questions

Line Item	Question	Response *	
77	Describe the installation process for your products and identify how installation is managed in the order process, if applicable.	Installation is included in the price of each building. CXT contracts the crane and has certified dedicated crews that perform the work. When ordered the Sourcewell member is asked for a date they would like to see the building delivered. From there, we work to produce, ship, and offload to meet that schedule. Roughly 2-4 weeks prior to the date of delivery, CXT confirms the site/member is ready to receive the building. A specific date and time are set for the delivery of the building and the trucking, crane, and installation crew are scheduled. On the date scheduled the crew offloads, and sets the building on the customer site. Once set, the crew will insure that all items are complete and the building is ready to use. At that point the crew have a walk through with the member representative and a signoff is given. Sourcewell members have a line item option of having CXT connect to site utilities', or perform that themselves on the flush, shower and concession room buildings. CXT can also perform the site pad and stub up work on these types of buildings for members. On vault restroom buildings, Sourcewell members have the line item of CXT doing the earthwork - digging, backfilling, compacting the hole for the vaults of the vault restrooms. The goal is to have a building set and ready to use in a very short period of time to help eliminate extensive site supervision time by the member. Also to give the member whatever level of service they need to get the building in to meet their budgets. Depending on size of the building, typically CXT can have the building ready to use in as little as 4 hours, and not longer than 3 days on large multi-section buildings.	*
78	Describe applicable vandalism resistance or vandalism abatement measures or attributes incorporated in the design or manufacture of your products.	CXT has all concrete construction. The building cannot rot, rust, burn down, and insects can't eat it. Siding and roofing will never need to be replaced. The walls and roof are cast in textured to match a wide option of simulated textures, including wood, block, brick and stone and give the appearance the member is looking for without the worry of replacing exterior finishes. All plumbing fixtures are wall mounted and valve and pipes are placed in chase area, not exposed to the public to keep them from being broken/vandalized. Stainless steel fixtures are available as an option for plumbing. And interior LED lights come with a lifetime warranty protection from vandalism. Every design CXT has is designed for durability, vandal resistance and low maintenance by the member.	

Table 16: Exceptions to Terms, Conditions, or Specifications Form

Line Item 79. NOTICE: To identify any exception, or to request any modification, to the Sourcewell template Contract terms, conditions, or specifications, a Proposer must submit the exception or requested modification on the **Exceptions to Terms, Conditions, or Specifications Form** immediately below. The contract section, the specific text addressed by the exception or requested modification, and the proposed modification must be identified in detail. Proposer's exceptions and proposed modifications are subject to review and approval of Sourcewell and will not automatically be included in the contract.

Contract Section	Term, Condition, or Specification	Exception or Proposed Modification

Documents

Ensure your submission document(s) conforms to the following:

1. Documents in PDF format are preferred. Documents in Word, Excel, or compatible formats may also be provided.

2. Documents should NOT have a security password, as Sourcewell may not be able to open the file. It is your sole responsibility to ensure that the uploaded document(s) are not either defective, corrupted or blank and that the documents can be opened and viewed by Sourcewell.

3. Sourcewell may reject any response where any document(s) cannot be opened and viewed by Sourcewell.

4. If you need to upload more than one (1) document for a single item, you should combine the documents into one zipped file. If the zipped file contains more than one (1) document, ensure each document is named, in relation to the submission format item responding to. For example, if responding to the Marketing Plan category save the document as “Marketing Plan.”

Addenda, Terms and Conditions

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.

2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.

3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.

4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.

5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.

6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.

7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.

8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.

9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.

10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.

11. Proposer its employees, agents, and subcontractors are not:
    1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: https://www.treasury.gov/ofac/downloads/sdnlist.pdf;

    2. Included on the government-wide exclusions lists in the United States System for Award Management found at: https://sam.gov/SAM/; or

    3. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☑ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Gary Burger, Director Of Commercial Operations, LB Foster / CXT Inc

The Proposer declares that there is an actual or potential Conflict of Interest relating to the preparation of its submission, and/or the Proposer foresees an actual or potential Conflict of Interest in performing the contractual obligations contemplated in the bid.

○ **Yes** ◉ **No**

The Bidder acknowledges and agrees that the addendum/addenda below form part of the Bid Document.

Check the box in the column "**I have reviewed this addendum"** below to acknowledge each of the addenda.

RFP #081721
REQUEST FOR PROPOSALS
for
Restroom and Shower Facility Solutions

Proposal Due Date: August 17, 2021, 4:30 p.m., Central Time

Sourcewell, a State of Minnesota local government unit and service cooperative, is requesting proposals for Restroom and Shower Facility Solutions to result in a contracting solution for use by its Participating Entities. Sourcewell Participating Entities include thousands of governmental, higher education, K-12 education, nonprofit, tribal government, and other public agencies located in the United States and Canada. A full copy of the Request for Proposals can be found on the Sourcewell Procurement Portal [https://proportal.sourcewell-mn.gov]. Only proposals submitted through the Sourcewell Procurement Portal will be considered. Proposals are due no later than August 17, 2021, at 4:30 p.m. Central Time, and late proposals will not be considered.

Solicitation Schedule

Public Notice of RFP Published:	June 29, 2021
Pre-proposal Conference:	July 27, 2021, 10:00 a.m., Central Time
Question Submission Deadline:	August 10, 2021, 4:30 p.m., Central Time
Proposal Due Date:	**August 17, 2021**, 4:30 p.m., Central Time Late responses will not be considered.
Opening:	August 17, 2021, 6:30 p.m., Central Time See RFP Section V.G. "Opening"

I. ABOUT SOURCEWELL

A. SOURCEWELL

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that facilitates a competitive public solicitation and contract award process for the benefit of its 50,000+ participating entities across the United States and Canada. Sourcewell's solicitation process complies with State of Minnesota law and policies, conforms to Canadian trade agreements, and results in cooperative purchasing solutions from which Sourcewell's Participating Entities procure equipment, products, and services.

Cooperative purchasing provides participating entities and suppliers increased administrative efficiencies and the power of combined purchasing volume that result in overall cost savings. At times, Sourcewell also partners with other purchasing cooperatives to combine the purchasing volume of their membership into a single solicitation and contract expanding the reach of contracted suppliers' potential pool of end users.

Sourcewell uses a website-based platform, the Sourcewell Procurement Portal, through which all proposals to this RFP must be submitted.

B. USE OF RESULTING CONTRACTS

In the United States, Sourcewell's contracts are available for use by:

- Federal and state government entities;
- Cities, towns, and counties/parishes;
- Education service cooperatives;
- K-12 and higher education entities;
- Tribal government entities;
- Some nonprofit entities; and
- Other public entities.

In Canada, Sourcewell's contracts are available for use by:

- Provincial and territorial government departments, ministries, agencies, boards, councils, committees, commissions, and similar agencies;
- Regional, local, district, and other forms of municipal government, municipal organizations, school boards, and publicly-funded academic, health, and social service entities referred to as MASH sector (this should be construed to include but not be limited to the Cities of Calgary, Edmonton, Toronto, Ottawa, and Winnipeg), as well as any corporation or entity owned or controlled by one or more of the preceding entities;
- Crown corporations, government enterprises, and other entities that are owned or controlled by these entities through ownership interest;

- Members of the Rural Municipalities of Alberta (RMA) and their represented Associations: MASH (municipalities, academic institutions, schools and hospitals) and MUSH (municipalities, universities, schools and hospitals) sectors, and other governmental agencies eligible to use the Sourcewell contracts. MASH and MUSH sector refers to regional, local, district or other forms of municipal government, school boards, publicly-funded academic, health and social service entities, as well as any corporation or entity owned or controlled by one or more of the preceding entities, including but not limited to represented associations, Saskatchewan Association of Rural Municipalities ("SARM"), Association of Manitoba Municipalities ("AMM"), Local Authorities Services/Association of Municipalities Ontario ("LAS/AMO", excluding the cities of Toronto and Ottawa), Nova Scotia Federation of Municipalities ("NSFM"), Federation of Prince Edward Island Municipalities ("FPEIM"), Municipalities Newfoundland Labrador ("MNL"), Union of New Brunswick Municipalities ("UNBM"), North West Territories Association of Communities ("NWTAC") and their members. RMA Participants may include all not-for-profit agencies for Canadian provinces and territories.

For a listing of current United States and Canadian Participating Entities visit Sourcewell's website (note: there is a tab for each country): https://www.sourcewell-mn.gov/sourcewell-for-vendors/agency-locator.

Participating Entities typically access contracted equipment, products, or services through a purchase order issued directly to the contracted supplier. A Participating Entity may request additional terms or conditions related to a purchase. Use of Sourcewell contracts is voluntary and Participating Entities retain the right to obtain similar equipment, products, or services from other sources.

To meet Participating Entities' needs, Sourcewell broadly publishes public notice of all solicitation opportunities, including this RFP. In the United States each state-level procurement department receives notice for possible re-posting.

Proof of publication will be available at the conclusion of the solicitation process.

II. SOLICITATION DETAILS

A. SOLUTIONS-BASED SOLICITATION

This RFP and contract award process is a solutions-based solicitation; meaning that Sourcewell is seeking equipment, products, or services that meet the general requirements of the scope of this RFP and that are commonly desired or are required by law or industry standards.

B. REQUESTED EQUIPMENT, PRODUCTS, OR SERVICES

It is expected that proposers will offer a wide array of equipment, products, or services at lower prices and with better value than what they would ordinarily offer to a single government entity, a school district, or a regional cooperative.

1. Sourcewell is seeking proposals for Restroom and Shower Facility Solutions, including permanent, portable, trailer-mounted, or towable:

a. Flush, waterless (vault), or compostable toilets and restrooms;
b. Showers and changing rooms;
c. Combination restroom, shower, changing room, and ancillary or accessory use structures or facilities;
d. Equipment, products, accessories, and supplies related to the solutions described in subsections 1. a. – c. above; and,
e. Services related to the solutions described in subsections 1. a. - d. above, including design-build services, site assessment, site preparation, customization, delivery, assembly, installation, maintenance or repair, and warranty programs. However, this solicitation should NOT be construed to include "service-only" solutions.

2. The primary focus of this solicitation is on Restroom and Shower Facility Solutions, and the related offering of equipment, supplies and services. A Proposer whose primary offerings fall within subsections 1. a. or b. above, may include an incidental or complementary offering of structures or facilities for ancillary or related uses and purposes.

3. This solicitation does not include those equipment, products, or services covered under categories included in contracts currently maintained by Sourcewell:

a. Trailers with Related Equipment, Accessories, and Services (RFP #121918), with the exception of purpose-built restroom, shower, or changing room trailers or towables;
b. Pre-Engineered Buildings with Related Materials, Site Preparation, Installation and Ancillary Services (RFP #013019);
c. Fabric Structures with Related Materials and Services (RFP #091319); and,
d. Open Air Structures and Accessory or Utility Buildings with Related Equipment and Services (RFP #012621).

Proposers may include related equipment, accessories, and services to the extent that these solutions are complementary to the equipment, products, or service(s) being proposed.

Generally, the solutions for Participating Entities are turn-key solutions, providing a combination of equipment, products and services, delivery, and installation to a properly operating status. However, equipment or products only solutions may be appropriate for situations where Participating Entities possess the ability, either in-house or through local third-

party contractors, to properly install and bring to operation the equipment or products being proposed.

Sourcewell prefers suppliers that provide a sole source of responsibility for the equipment, products, and services provided under a resulting contract If proposer is including the equipment, products, and services of its subsidiary entities, the proposer must also identify all included subsidiaries in its proposal. If proposer requires the use of distributors, dealers, resellers, or subcontractors to provide the equipment, products, or services, the proposal must address how the equipment, products or services will be provided to Participating Entities, and describe the network of distributors, dealers, resellers, and/or subcontractors that will be available to serve Participating Entities under a resulting contract.

Sourcewell desires the broadest possible selection of equipment, products, and services being proposed over the largest possible geographic area and to the largest possible cross-section of Sourcewell current and future Participating Entities.

C. REQUIREMENTS

It is expected that proposers have knowledge of all applicable industry standards, laws, and regulations and possess an ability to market and distribute the equipment, products, or services to Participating Entities.

1. Safety Requirements. All items proposed must comply with current applicable safety or regulatory standards or codes.
2. Deviation from Industry Standard. Deviations from industry standards must be identified with an explanation of how the equipment, products, and services will provide equivalent function, coverage, performance, and/or related services.
3. New Equipment and Products. Proposed equipment and products must be for new, current model; however, proposer may offer certain close-out equipment or products if it is specifically noted in the Pricing proposal.
4. Delivered and operational. Unless clearly noted in the proposal, equipment and products must be delivered to the Participating Entity as operational.
5. Warranty. All equipment, products, supplies, and services must be covered by a warranty that is the industry standard or better.

D. ANTICIPATED CONTRACT TERM

Sourcewell anticipates that the term of any resulting contract(s) will be four years, with an optional one year extension that may be offered based on the best interests of Sourcewell and its Participating Entities.

E. ESTIMATED CONTRACT VALUE AND USAGE

Based on past volume of similar contracts, the estimated annual value of all transactions from contracts resulting from this RFP are anticipated to be USD $20 Million; therefore, proposers are expected to propose volume pricing. Sourcewell anticipates considerable activity under the contract(s) awarded from this RFP; however, sales and sales volume from any resulting contract are not guaranteed.

F. MARKETING PLAN

Proposer's sales force will be the primary source of communication with Participating Entities. The proposer's Marketing Plan should demonstrate proposer's ability to deploy a sales force or dealer network to Participating Entities, as well as proposer's sales and service capabilities. It is expected that proposer will promote and market any contract award.

G. ADDITIONAL CONSIDERATIONS

1. Contracts will be awarded to proposers able to best meet the need of Participating Entities. Proposers should submit their complete line of equipment, products, or services that are applicable to the scope of this RFP.
2. Proposers should include all relevant information in its proposal, since Sourcewell cannot consider information that is not included in the proposal. Sourcewell reserves the right to verify proposer's information and may request clarification from a proposer, including samples of the proposed equipment or products.
3. Depending upon the responses received in a given category, Sourcewell may need to organize responses into subcategories in order to provide the broadest coverage of the requested equipment, products, or services to Participating Entities. Awards may be based on a subcategory.
4. A proposer's documented negative past performance with Sourcewell or its Participating Entities occurring under a previously awarded Sourcewell contract may be considered in the evaluation of a proposal.

III. PRICING

A. REQUIREMENTS

All proposed pricing must be:

1. Either Line-Item Pricing or Percentage Discount from Catalog Pricing, or a combination of these:
   a. **Line-item Pricing** is pricing based on each individual product or services**.** Each line must indicate the proposer's published "List Price," as well as the "Contract Price."
   b. **Percentage Discount from Catalog or Category** is based on a percentage discount from a catalog or list price, defined as a published Manufacturer's Suggested Retail Price

(MSRP) for the products or services. Individualized percentage discounts can be applied to any number of defined product groupings. Proposers will be responsible for providing and maintaining current published MSRP with Sourcewell, and this pricing must be included in its proposal and provided throughout the term of any Contract resulting from this RFP.

2. The proposer's not to exceed price. A not to exceed price is the highest price for which equipment, products, or services may be billed to a Participating Entity. However, it is permissible for suppliers to sell at a price that is lower than the contracted price.
3. Stated in U.S. and Canadian dollars (as applicable).
4. Clearly understandable, complete, and fully describe the total cost of acquisition (e.g., the cost of the proposed equipment, products, and services delivered and operational for its intended purpose in the Participating Entity's location).

Proposers should clearly identify any costs that are NOT included in the proposed product or service pricing. This may include items such as installation, set up, mandatory training, or initial inspection. Include identification of any parties that impose such costs and their relationship to the proposer. Additionally, proposers should clearly describe any unique distribution and/or delivery methods or options offered in the proposal.

B. ADMINISTRATIVE FEES

Proposers are expected to pay to Sourcewell an administrative fee in exchange for Sourcewell facilitating the resulting contracts. The administrative fee is normally calculated as a percentage of the total sales to Participating Entities for all contracted equipment, products, or services made during a calendar quarter, and is typically one percent (1%) to two percent (2%). In some categories, a flat fee may be an acceptable alternative.

IV. CONTRACT

Proposers awarded a contract will be required to execute a contract with Sourcewell (see attached template). Only those modifications the proposer indicates in its proposal will be available for discussion. Much of the language in the Contract reflects Minnesota legal requirements and cannot be altered. Numerous and/or onerous exceptions that contradict Minnesota law may result in the proposal being disqualified from further review and evaluation.

To request a modification to the template Contract, a proposer must submit the Exceptions to Terms, Conditions, or Specifications table with its proposal. Only those exceptions noted at the time of the proposal submission will be considered.
Exceptions must:

1. Clearly identify the affected article and section.
2. Clearly note the requested modification; and as applicable, provide requested alternative language.

Unclear requests will be automatically denied.

Only those exceptions that have been accepted by Sourcewell will be included in the contract document provided to the awarded supplier for signature.

If a proposer receives a contract award resulting from this solicitation it will have up to 30 days to sign and return the contract. After that time, at Sourcewell's sole discretion, the contract award may be revoked.

V. RFP PROCESS

A. PRE-PROPOSAL CONFERENCE

Sourcewell will hold an optional, non-mandatory pre-proposal conference via webcast on the date and time noted in the Solicitation Schedule for this RFP and on the Sourcewell Procurement Portal. The purpose of this conference is to allow potential proposers to ask questions regarding this RFP and Sourcewell's competitive contracting process. Information about the webcast will be sent to all entities that have registered for this solicitation opportunity through their Sourcewell Procurement Portal Supplier Account. Pre-proposal conference attendance is optional.

B. QUESTIONS REGARDING THIS RFP AND ORAL COMMUNICATION

All questions regarding this RFP must be submitted through the Sourcewell Procurement Portal. The deadline for submission of questions is found in the Solicitation Schedule and on the Sourcewell Procurement Portal. Answers to questions will be issued through an addendum to this RFP. Repetitive questions will be summarized into a single answer and identifying information will be removed from the submitted questions.

All questions, whether specific to a proposer or generally related to the RFP, must be submitted using this process. Do not contact individual Sourcewell staff to ask questions or request information as this may disqualify the proposer from responding to this RFP. Sourcewell will not respond to questions submitted after the deadline.

C. ADDENDA

Sourcewell may modify this RFP at any time prior to the proposal due date by issuing an addendum. Addenda issued by Sourcewell become a part of the RFP and will be delivered to potential proposers through the Sourcewell Procurement Portal. Sourcewell accepts no liability in connection with the delivery of any addenda.

Before a proposal will be accepted through the Sourcewell Procurement Portal, all addenda, if any, must be acknowledged by the proposer by checking the box for each addendum. It is the responsibility of the proposer to check for any addenda that may have been issued up to the solicitation due date and time.

If an addendum is issued after a proposer submitted its proposal, the Sourcewell Procurement Portal will WITHDRAW the submission and change the proposer's proposal status to INCOMPLETE. The proposer can view this status change in the "MY BIDS" section of the Sourcewell Procurement Portal Supplier Account. The proposer is solely responsible to check the "MY BIDS" section of the Sourcewell Procurement Portal Supplier Account periodically after submitting its proposal (and up to the Proposal Due Date). If the proposer's proposal status has changed to INCOMPLETE, the proposer is solely responsible to:

i) make any required adjustments to its proposal;
ii) acknowledge the addenda; and
iii) ensure the re-submitted proposal is received through the Sourcewell Procurement Portal no later than the Proposal Due Date and time shown in the Solicitation Schedule above.

D. PROPOSAL SUBMISSION

Proposer's complete proposal must be submitted through the Sourcewell Procurement Portal no later than the date and time specified in the Solicitation Schedule. Any other form of proposal submission, whether electronic, paper, or otherwise, will not be considered by Sourcewell. **Late proposals will not be considered.** It is the proposer's sole responsibility to ensure that the proposal is received on time.

It is recommended that proposers allow sufficient time to upload the proposal and to resolve any issues that may arise. The time and date that a proposal is received by Sourcewell is solely determined by the Sourcewell Procurement Portal web clock.

In the event of problems with the Sourcewell Procurement Portal, follow the instructions for technical support posted in the portal. It may take up to 24 hours to respond to certain issues.

Upon successful submission of a proposal, the Sourcewell Procurement Portal will automatically generate a confirmation email to the proposer. If the proposer does not receive a confirmation email, contact Sourcewell's support provider at support@bidsandtenders.ca.

To ensure receipt of the latest information and updates via email regarding this solicitation, or if the proposer has obtained this solicitation document from a third party, the onus is on the proposer to create a Sourcewell Procurement Portal Supplier Account and register for this solicitation opportunity.

Within the Sourcewell Procurement Portal, all proposals must be digitally acknowledged by an authorized representative of the proposer attesting that the information contained in in the proposal is true and accurate. By submitting a proposal, proposer warrants that the information provided is true, correct, and reliable for purposes of evaluation for potential contract award. The submission of inaccurate, misleading, or false information is grounds for disqualification from a contract award and may subject the proposer to remedies available by law.

E. GENERAL PROPOSAL REQUIREMENTS

Proposals must be:

- In substantial compliance with the requirements of this RFP or it will be considered nonresponsive and be rejected.
- Complete. A proposal will be rejected if it is conditional or incomplete.
- Submitted in English.
- Valid and irrevocable for 90 days following the Proposal Due Date.

Any and all costs incurred in responding to this RFP will be borne by the proposer.

F. PROPOSAL WITHDRAWAL

Prior to the proposal deadline, a proposer may withdraw its proposal.

G. OPENING

The Opening of proposals will be conducted electronically through the Sourcewell Procurement Portal. A list of all proposers will be made publicly available in the Sourcewell Procurement Portal after the Proposal Due Date, but no later than the Opening time listed in the Solicitation Schedule.

To view the list of proposers, verify that the Sourcewell Procurement Portal opportunities list search is set to "All" or "Closed." The solicitation status will automatically change to "Closed" after the Proposal Due Date and Time.

VI. EVALUATION AND AWARD

A. EVALUATION

It is the intent of Sourcewell to award one or more contracts to responsive and responsible proposers offering the best overall quality, selection of equipment, products, and services, and price that meet the commonly requested specifications of Sourcewell and its Participating Entities. The award(s) will be limited to the number of proposers that Sourcewell determines is necessary to meet the needs of its Participating Entities. Factors to be considered in determining the number of contracts to be awarded in any category may include the following:

- The number of and geographic location of:
  - Proposers necessary to offer a comprehensive selection of equipment, products, or services for Participating Entities' use.
  - A proposer's sales and service network to assure availability of product supply and coverage to meet Participating Entities' anticipated needs.
- Total evaluation scores.

- The attributes of proposers, and their equipment, products, or services, to assist Participating Entities achieve environmental and social requirements, preferences, and goals.

Information submitted as part of a proposal should be as specific as possible when responding to the RFP. Do not assume Sourcewell has any knowledge about a specific supplier or product.

B. AWARD(S)

Award(s) will be made to the proposer(s) whose proposal conforms to all conditions and requirements of the RFP, and consistent with the award criteria defined in this RFP.

Sourcewell may request written clarification of a proposal at any time during the evaluation process.

Proposal evaluation will be based on the following scoring criteria and the Sourcewell Evaluator Scoring Guide (a copy is available in the Sourcewell Procurement Portal):

Conformance to RFP Requirements	50
Financial Viability and Marketplace Success	75
Ability to Sell and Deliver Service	100
Marketing Plan	50
Value Added Attributes	75
Warranty	50
Depth and Breadth of Offered Equipment, Products, or Services	200
Pricing	400
TOTAL POINTS	**1000**

C. PROTESTS OF AWARDS

Any protest made under this RFP by a proposer must be in writing, addressed to Sourcewell's Executive Director, and delivered to the Sourcewell office located at 202 12th Street NE, P.O. Box 219, Staples, MN 56479. All documents that comprise the complete protest package must be received no later than 10 calendar days' following Sourcewell's notice of contract award(s) or non-award and must be time stamped by Sourcewell no later than 4:30 p.m., Central Time. A protest must allege a procedural, technical, or legal defect, with supporting documentation. A protest that merely requests a re-evaluation of a proposal's content will not be entertained

A protest must include the following items:

- The name, address, and telephone number of the protester;
- Identification of the solicitation by RFP number;
- A precise statement of the relevant facts;
- Identification of the alleged procedural, technical, or legal defect;

- Analysis of the basis for the protest;
- Any additional supporting documentation;
- The original signature of the protester or its representative; and
- Protest bond in the amount of $20,000 (except where prohibited by law or treaty).

Protests that do not address these elements will not be reviewed.

D. RIGHTS RESERVED

This RFP does not commit Sourcewell to award any contract, and a proposal may be rejected if it is nonresponsive, conditional, incomplete, conflicting, or misleading. Proposals that contain false statements or do not support an attribute or condition stated by the proposer may be rejected.

Sourcewell reserves the right to:

- Modify or cancel this RFP at any time;
- Reject any and all proposals received;
- Reject proposals that do not comply with the provisions of this RFP;
- Select, for contracts or for discussion, a proposal other than that with the lowest cost;
- Independently verify any information provided in a proposal;
- Disqualify any proposer that does not meet the requirements of this RFP, is debarred or suspended by the United States or Canada, State of Minnesota, Participating Entity's state or province; has an officer, or other key personnel, who have been charged with a serious crime; or is bankrupt, insolvent, or where bankruptcy or insolvency are a reasonable prospect;
- Waive or modify any informalities, irregularities, or inconsistencies in the proposals received;
- Clarify any part of a proposal and discuss any aspect of the proposal with any proposer; and negotiate with more than one proposer;
- Award a contract if only one responsive proposal is received if it is in the best interest of Participating Entities; and
- Award a contract to one or more proposers if it is in the best interest of Participating Entities.

E. DISPOSITION OF PROPOSALS

All materials submitted in response to this RFP will become property of Sourcewell and will become public record in accordance with Minnesota Statutes Section 13.591, after negotiations are complete. Sourcewell considers that negotiations are complete upon execution of a resulting contract. It is the proposer's responsibility to clearly identify any data submitted that it considers to be protected. Proposer must also include a justification for the classification citing the applicable Minnesota law. Sourcewell may reject proposals that are marked confidential or nonpublic, either substantially or in their entirety.

Sourcewell will not consider the prices submitted by the proposer to be confidential, proprietary, or trade secret materials. Financial information, including financial statements, provided by a proposer is not considered trade secret under the statutory definition.

8/5/2021

Addendum No. 1
Solicitation Number: RFP 081721
Solicitation Name: Restroom and Shower Facility Solutions

Consider the following Questions and Answers to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

Is this RFP, and subsequent award, intended to be used for purchase of, or for rental of, the equipment specified?

Answer 1:

Refer to RFP Section II. B. for the description of the requested equipment, products, and services. Sourcewell is seeking equipment, products, or services that meet the general requirements of the scope of this RFP and that are commonly desired by participating entities. A proposer may submit their complete line of equipment, products, or services that are applicable to the scope of this RFP. It is left to the discretion of each proposer to articulate their ability to serve Sourcewell participating entities.

Question 2:

At the pre-proposal conference the subject of financial information being made public was brought up. In reviewing existing contract materials on the Sourcewell website, I do not see that financial information is posted. Please clarify what financial information will be publicly available either on the Sourcewell site or anywhere else in the event of an award.

Answer 2:

Refer to RFP Section VI. E. – Disposition of Proposals, for details related to the handling of a proposer's submission. As a Minnesota local government unit, Sourcewell complies with the Minnesota Government Data Practices Act, Minnesota Statutes, Chapter 13. A proposer may seek their own counsel for guidance on the application of the Act relative

to the contents of the proposal or requests for data received by Sourcewell.

End of Addendum

Acknowledgement of this Addendum to RFP 081721 posted to the Sourcewell Procurement Portal on 8/5/2021, is required at the time of proposal submittal.

DocuSign Envelope ID: 7AE3857D-810E-49E8-A49B-3FAC3ACFD683

Proposal Opening Record

Date of opening: August 17, 2021

Sourcewell posted Request for Proposal #081721, for the procurement of Restroom and Shower Facility Solutions, on the Sourcewell Procurement Portal [proportal.sourcewell-mn.gov] on Tuesday, June 29, 2021, and the solicitation remained in an open status within the portal until August 17, 2021, at 4:30 pm CT. The RFP required that all proposals be submitted through the Sourcewell Procurement Portal no later than 4:30 pm CT on August 17, 2021, the date and time specified in the Solicitation Schedule.

The undersigned certify that all responses received on Request for Proposal #081721 were submitted through the Sourcewell Procurement Portal, and that each Proposer's response material was digitally sealed upon submission and remained inaccessible until the due date and time specified in the Solicitation Schedule.

Responses were received from the following:

8540527 Canada, Inc. (Comac Corporation Niu Toilet) - Submitted 8/17/21 at 12:17:31 PM
Active Deployment Systems, Inc. - Submitted 8/16/21 at 5:06:48 PM
CXT, Inc. - Submitted 8/16/21 at 5:40:42 PM
Green Flush Technologies, LLC - Submitted 8/16/21 at 7:15:45 PM
Public Restroom Company - Submitted 8/17/21 at 3:50:48 PM
Romtec, Inc. - Submitted 8/10/21 at 3:48:28 PM
United Site Services - Submitted 8/17/21 at 4:12:44 PM

The Proposals were opened electronically, and a list of all Proposers was made publicly available in the Sourcewell Procurement Portal, on August 17, 2021, at 4:40:13 PM CT. All responsive proposals were then submitted for review by the Sourcewell Evaluation Committee.

Restroom and Shower Facility Solutions

The following advertisement was placed June 29, 2021 in *USA Today*, in South Carolina's *The State,* in *The Oklahoman* and on the Sourcewell website www.sourcewell-mn.gov, Sourcewell Procurement Portal https://proportal.sourcewell-mn.gov, Biddingo, Merx, The New York State Contract Reporter www.nyscr.ny.gov, PublicPurchase.com, and June 30, 2021 in Oregon's *Daily Journal of Commerce*:

> *Sourcewell, a State of Minnesota local government unit and service cooperative, is requesting proposals for Restroom and Shower Facility Solutions to result in a contracting solution for use by its Participating Entities. Sourcewell Participating Entities include thousands of governmental, higher education, K-12 education, nonprofit, tribal government, and other public agencies located in the United States and Canada. A full copy of the Request for Proposals can be found on the Sourcewell Procurement Portal [https://proportal.sourcewell-mn.gov]. Only proposals submitted through the Sourcewell Procurement Portal will be considered. Proposals are due no later than August 17, 2021, at 4:30 p.m. Central Time, and late proposals will not be considered.*

The solicitation process was conducted through the Sourcewell Procurement Portal. The following parties expressed interest in the solicitation by registering for this opportunity within the portal:

8540527 Canada, Inc.	Intelligent Conservation Systems, Inc.
Active Deployment Systems, Inc.	Nudigz Contractors, Ltd.
Apple Specialties	Plumbing & Heating Wholesale
Broad Valley Redimix, LTD.	Preeminent Construction, Inc.
BTI, Inc.	Public Restroom Company
C. W. Nowlin Enterprises, LLC	Regina Construction Association
ConstructConnect	Restroom Facilities, Ltd.
Construction Industry Center	Robinson Supply
CXT, Inc.	Romtec, Inc.
D2S Contractor, Inc.	SNTZR, INC.
Goto Agencies, LTD	Straight Flush Drain Solutions
Green Flush Technologies, LLC	United Site Services
Hunter Knepshield Company, Inc.	Universal Building Contractors
Integral Contracting, LLC	

DocuSign Envelope ID: E4356F03-DF88-4753-8406-204C2731A390

All Proposals remained sealed within the Sourcewell Procurement Portal until the scheduled due date and time. Proposals were electronically opened, and the list of all Proposers was made publicly available on the Sourcewell Procurement Portal, on August 17, 2021, at 4:40:13 pm CT. Proposals were received from the following:

8540527 Canada, Inc., dba Comac Corporation and Niu Toilet
Active Deployment Systems, Inc.
CXT, Inc.
Green Flush Technologies, LLC
Public Restroom Company
Romtec, Inc.
United Site Services

Proposals were reviewed by the Proposal Evaluation Committee:

Kim Austin, MBA, CPPB, Procurement Lead Analyst
Stephanie Haataja, CPIM, Procurement Analyst
Michael Munoz, CPPB, Procurement Analyst
Nick Scholer, Procurement Analyst

The findings of the Proposal Evaluation Committee are summarized as follows:

The Proposal Evaluation Committee applied the Sourcewell RFP evaluation criteria and determined that all proposal responses met the scope and mandatory submittal requirements and were evaluated.

8540527 Canada, Inc., dba Comac Corporation and Niu Toilet, is offering environment friendly, high-tech portable washrooms, trailer toilets, portable shower stalls, and permanent fixed washroom structures. Features include customization options, remote monitoring, and the latest developments in technology and sanitization. They have a sales force in the United States and Canada that can serve Sourcewell Participating Entities. Comac/Niu Toilet is offering a competitive discount and financing options are available.

Active Deployment Systems, Inc., specializes in rapid response and emergency management. They offer turn-key solutions for mobile, self-contained restrooms and shower trailers. Their sales and service can reach throughout the United States and Canada. Active Deployment Systems is offering a significant discount to Sourcewell Participating Entities with volume discounts available.

CXT, Inc., offers precast concrete restrooms, showers, and utility buildings in a variety of sizes and designs. Their waterless vault, flush, shower and utility units can withstand hurricanes, floods, and earthquakes. CXT will sell direct to Sourcewell Participating Entities throughout the United States and Canada with their in-house sales associates. CXT provides a solid discount from MSRP, and financing is available.

Public Restroom Company is a design, build, and installation firm offering turn-key prefabricated restrooms, changing rooms, combination restroom and shower buildings and other related buildings. They have a direct sales force and installation and support staff to serve Sourcewell Participating Entities. Public Restroom Company pricing reflects a competitive discount off MSRP, and tiered rebates are available.

DocuSign Envelope ID: E4356F03-DF88-4753-8406-204C2731A390

Romtec, Inc., manufactures, supplies, and installs turnkey pre-engineered restrooms, waterless vault restrooms, and shower buildings for many types of recreation areas, parks, and campgrounds. These products are made available to Sourcewell Participating Entities across the United States with a team of engineers and architects licensed in all 50 states. Romtec, Inc. is a certified small business and HUBZone enterprise with the Small Business Administration. Standard governmental pricing is provided for all products and services on contract.

For these reasons, the Sourcewell Proposal Evaluation Committee recommends award of Sourcewell Contract #081721 to:

8540527 Canada, Inc., dba Comac Corporation and Niu Toilet	#081721-NIU
Active Deployment Systems, Inc.	#081721-ADP
CXT, Inc.	#081721-CXT
Public Restroom Company	#081721-PRM
Romtec, Inc.	#081721-RMT

The preceding recommendations were approved on October 13, 2021.

STATEMENT OF COMPLIANCE

As Chief Procurement Officer for Sourcewell, I have reviewed the recommendation of the Evaluation Committee and the accompanying support materials documenting the process followed for **RFP #081721** for **Restroom and Shower Facility Solutions**.

The committee accepted, deemed responsive, evaluated, and recommended proposals for award. Under authority granted to the Chief Procurement Officer in Sourcewell's bylaws, the recommendations set forth above are approved.

I hereby certify:

1. Sourcewell is a government agency, created and authorized by Minnesota law to provide cooperative procurement contracts.

2. The procurement process and resulting contracts have been awarded in compliance with the laws of the State of Minnesota (Minnesota Statutes Chapter 471 and Minnesota Statutes Section 123A.21), and in conformity to Sourcewell's Procurement Policy.

CXT® Precast Concrete Products manufactures restroom, shower and concession buildings in multiple designs, textures and colors. The roof and walls are fabricated with high strength precast concrete to meet all local building codes and textured to match local architectural details. All CXT buildings are designed to meet A.D.A. and to withstand heavy snow, high wind and category E seismic loads. All concrete construction also makes the buildings easy to maintain and withstand the rigors of vandalism. The buildings are prefabricated and delivered complete and ready-to- use, including plumbing and electrical where applicable. With thousands of satisfied customers nationwide, CXT is the leader in prefabricated concrete restrooms.

1. ORDERING ADDRESS(ES): CXT Precast Concrete Products, 606 N. Pines Road, Suite 202, Spokane Valley, WA 99206

2. ORDERING PROCEDURES: Fax 509-928-8270

3. PAYMENT ADDRESS(ES):
Remitting by check:
CXT, Inc., PO Box 676208, Dallas, TX 75267-6208

Remitting by ACH or wire transfer:
Beneficiary: CXT, Inc.
Beneficiary Bank: PNC Bank, Pittsburgh, PA

Email remittance details to AR@lbfoster.com

4. WARRANTY PROVISIONS: CXT provides a one (1) year warranty. The warranty is valid only when concrete is used within the specified loadings. Furthermore, said warranty includes only the related material necessary for the construction and fabrication of said concrete components. All other non-concrete components will carry a one (1) year warranty. CXT warrants that all goods sold pursuant hereto will, when delivered, conform to specifications set forth above. Goods shall be deemed accepted and meeting specifications unless notice identifying the nature of any non-conformity is provided to CXT in writing within the specified warranty. CXT, at its option, will repair or replace the goods or issue credit for the customer provided CXT is first given the opportunity to inspect such goods. It is specifically understood that CXT's obligation hereunder is for credit, repair or replacement only, F.O.B. CXT's manufacturing plants, and does not include shipping, handling, installation or other incidental or consequential costs unless otherwise agreed to in writing by CXT.

This warranty shall not apply to:

1. Any goods which have been repaired or altered without CXT's express written consent, in such a way as in the reasonable judgment of CXT, to adversely affect the stability or reliability thereof;

2. To any goods which have been subject to misuse, negligence, acts of God or accidents; or

3. To any goods which have not been installed to manufacturer's specifications and guidelines, improperly maintained, or used outside of the specifications for which such goods were designed.

5. TERMS AND CONDITIONS OF INSTALLATION (IF APPLICABLE): All prices subject to the "Conditions of Sale" listed on the CXT quotation form.

Customers are responsible for marking exact location building is to be set; providing clear and level site, free of overhead and/or underground obstructions; and providing site accessible to normal highway trucks and sufficient area for the crane to install and other equipment to perform the contract requirements. Customer shall provide notice in writing of low bridges, roadway width or grade, unimproved roads or any other possible obstacles to access. CXT reserves the right to charge the customer for additional costs incurred for special equipment required to perform delivery and installation. Customers will negotiate installation on a project-by-project basis, which shall be priced as separate line items. For more information regarding installation and truck turning radius guidelines please see our website at http://www.cxtinc.com.

In the event delivery of the building/s ordered is/are not completed within 30 days of the agreed to schedule through no fault of CXT, an invoice for the full contract value (excluding shipping and installation costs) will be submitted for payment. Delivery and installation charges will be invoiced at the time of delivery and installation.

Should the delivery and installation costs increase due to changes in the delivery period, this increase will be added to the price originally quoted, and will be subject to the contract payment terms.

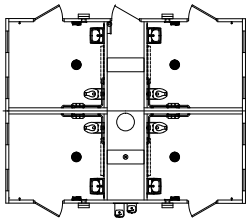
In the event that the delivery is delayed more than 90 days after the agreed to schedule and through no fault of CXT, then in addition to the remedies above, a storage fee of 1-½% of contract price per month or any part of any month will be charged.

**Customer is responsible for all local permits and fees.

6. DELIVERY CHARGE: All prices F.O.B. origin prepaid and added to invoice. CXT operates three (3) manufacturing plants in the United States and will deliver from the closest location on our carriers.

7. PAYMENT TERMS: All orders are cash in advance. At CXT's discretion, credit may be given after approval of credit application. Payment to CXT by the purchaser of any approved credit amount is net 30 days after submission of invoice to purchaser. Interest at a rate equal to the lower of (i) the highest rate permitted by law; or (ii) 1.5% per month will be charged monthly on all unpaid invoices beginning with the 35th day (includes five (5) day grace period) from the date of the invoice. Under no circumstance can retention be taken. If CXT initiates legal proceeding to collect any unpaid amount, purchaser shall be liable for all of CXT's costs, expenses and attorneys' fees and costs of any appeal.

8. LIMITATION OF REMEDIES: In the event of any breach of any obligations hereunder; breach of any warranty regarding the goods, or any negligent act or omission of any party, the parties agree to submit all claims to binding arbitration. Any settlement reached shall include all reasonable costs including attorney fees. In no event shall CXT be subject to or liable for any incidental or consequential damages. Without limitation on the foregoing, in no event shall CXT be liable for damages in excess of the purchase price of the goods herein offered.



9. DELIVERY INFORMATION: All prices F.O.B. origin prepaid and added to invoice. CXT operates three (3) manufacturing plants in the United States and will deliver from the closest location on our carriers. Use the information below to determine the origin:

- F.O.B. 6701 E. Flamingo Avenue, Building 300, Nampa, ID 83687 applies to: AK, CA, HI, ID, MT, ND, NV, OR, SD, UT, WA, WY.
- F.O.B. 901 North Highway 77, Hillsboro, TX 76645 applies to AR, AZ, CO, IA, KS, LA, MN, MO, MS, NE, NM, OK, TX.
- F.O.B. 362 Waverly Road, Williamstown, WV 26183 applies to AL, CT, DE, FL, GA, IL, IN, KY, MA, MD, ME, MI, NC, NH, NJ, NY, OH, PA, PR, RI, SC, TN, VA, VT, WI, WV.
- Prices exclude all federal/state/local taxes. Tax will be charged where applicable if customer is unable to provide proof of exemption.

Re: Price based off Sourcewell Contract 081721-CXT

Our quotation for the Cortez Flush Building building is as follows:

	Per Building
Cortez double flush toilet building with standard simulated cedar shake roof and barnwood wall or other wall texture, two tone color, marine package, three 16-guage galvanized steel doors and frames with Trilogy timed elec door lock system, vitreous china plumbing fixtures (2-lavatories, 2-water closets), Emax hot water heater, soap dispensers, Saniflow hand dryers, two 3-roll toilet paper holders, two exhaust fans, three GFI outlets, three floor drains, two s/s mirrors, ADA grab bars, ADA signs, one hose bib in chase area, Elkay ADA drinking fountain with bottle filler, motion controlled interior lights and photo cell controlled exterior lights.	$110,374.30
Freight	
	$110,374.30

FOB: Freight
FOB: Destination. Price includes delivery, off-loading and setting the building on a customer prepared pad and utility stub in the New Smyrna Beach, FL area. Final connection of utilities included.

Terms: Net 30 days subject to corporate credit approval.

Shipment: Within 90 days ARO after receipt of an approved MI (Manufacturing Insurrections) and State approvals.
The entire sales cycle from PO to delivery is within 180 days.

Notes: Sales tax not included Number of Units: ___

Important: Tractor trailer and crane must have access to site and literally set up next to the utility pad for off- loading of the building. If drop deck trailer cannot gain access to the site then additional site access requirement fees will be incurred. Road must allow standard 120' truck and trailer clear passage to site. It is the customer's responsibility to address any encumbrances to site access.

This quotation is subject to the conditions on the attached sheet and the terms hereof shall constitute the exclusive agreement of the parties and all conflicting or additional terms in Buyer's purchase order or any other such documents of Buyer shall have no force or effect.

Accepted this _____ day of _____ 20_____

CONDITIONS OF **SALE**

1. Taxes: Prices exclude all Federal/State/Local taxes. Tax will be charged where applicable if customer is unable to provide proof of exemption.
2. Payment Terms

All orders are cash in advance. At CXT's discretion, credit may be given after approval of credit application. Payment to CXT by the purchaser of any approved credit amount is net 30 days after submission of invoice to purchaser. Interest at a rate equal to the lower of (i) the highest rate permitted by law; or (ii) 1.5% per month will be charged monthly on all unpaid invoices beginning the 35th day (includes 5 day grace period) from the date of the invoice. Under no circumstances can a retention be taken and purchaser shall pay the full invoiced amount without offset or reduction. These terms are available upon approval of credit. If CXT initiates legal proceeding to collect any unpaid amount or other dispute arising out of or relating to this Quote, purchaser shall be liable for all of CXT's costs, expenses and attorneys fees associated with such litigation, including the fees and costs of any appeal.

3. Quotation Term: This offer is subject to acceptance within 60 days from the date of this quotation. After that time, prices are subject to change without notice.
4. Drawings

Prices do not include any documentation other than standard drawings, packing lists, and invoices, unless otherwise stated in quote. Special documentation, reports, or submittals can be supplied at an additional cost. If additional engineering, engineering seals, state approvals, drawings, or insignias are required additional charges may incur.

5. Delivery

Delivery will be scheduled immediately upon receipt of written customer approval of all building submittals, building worksheet(s) and signed contract/purchase order. In the event delivery of the buildings ordered is/are not completed within 30 days of the agreed to schedule through no fault of CXT, an invoice for the full contract value (excluding shipping and installation costs) will be submitted for payment, the terms of which will be as per item 2 in our quotation. Delivery and installation charges will be invoiced at the time of delivery and installation. Should the delivery and installation costs increase due to changes in the delivery period, this increase in cost will be added to the price originally quoted, and will be subject to the contract payment terms. In the event that the delivery is delayed more than 45 days after the agreed to schedule and through no fault of CXT, then in addition to the remedies above, a storage fee of *1 1/2%* of contract price per month or part of any month will be charged.

6. Fuel Costs

Fuel costs for crane and freight have been quoted at fuel prices furnished at the time of quotation. If at the time of delivery and installation these costs have risen, CXT reserves the right to adjust the freight and crane costs to reflect the fuel costs furnished at the time of delivery.

7. Responsibilities of the Customer

A. Stake exact location building is to be set, including orientation.

B. Provide clear and level site, free of overhead and/or underground obstructions.

C. Provide site accessible to normal highway trucks and sufficient area for the crane to install and other equipment to perform the contract requirements.

D. Customer shall provide notice in writing of low bridges, roadway width or grade, unimproved roads or any other possible obstacles from State highway and/or main county road to site. CXT reserves the right to charge the customer for additional costs incurred for special equipment required to perform delivery and installation.

E. Customer is responsible for all permits required.

F. Completing and complying with Pre-Order Information Worksheet that is incorporated herein by this reference.

8. Access to Site

For Installation methods described below in paragraph 9 A & B, delivery will be made in normal highway trucks and trailers. If at the time of delivery conditions of access are hazardous or unsuitable for truck equipment for any reason, CXT shall be entitled to payment for extra costs to ensure a safe and quality installation to the chosen site or will agree to an alternative site with better access.

To safely offload the facility referred to within this quotation, CXT must have clear and unobstructed access next to the gravel pad or hole where the facility will be placed. CXT is not responsible for cracked or damaged roads, driveways, sidewalks or aprons that are in the path of the delivery trucks or cranes at the final offloading site. Should CXT be required to obtain a larger crane than quoted due to site amenities or hardscapes, CXT will charge the customer the difference between the crane originally quoted, and the one that was hired to successfully offload the facility safely and efficiently.

9. Installation

A. **Full Install.** If the customer opts to have full installation of their new building, CXT will provide a backhoe trailered into the site, and prepare the customer site at the marked hole/pad area. The crane will arrive and set up next to the hole/pad. Any requirements to lift the building over obstacles or not having the ability of the crane to be right next to the hole could incur additional charges. The size of the crane varies however most cranes require an area of 18'x18' for their outriggers. Truck(s) carrying the vaults and the building systematically pull up right next to the crane and are offloaded onto the site. Any requirements to lift the building over obstacles or not having the ability of the truck to be right next to the crane could incur additional charges. Installation crew then performs all necessary excavation, backfill, compaction, site grading, and connection of utilities (if applicable). Please note: additional time and any special equipment needed by the installation crew for unscheduled site work will be billed to the customer.

B. **Set-Only Install.** If the customer opts to prepare the hole, and do earthwork preparation for the site, the customer will move all excess dirt to allow access by the crane and semi-truck. The crane will arrive and set up next to the hole/pad. Any requirements to lift the building over obstacles or not having the ability of the crane to be right next to the hole could incur additional charges. The size of the crane varies however most cranes require an area of 18'x18' for their outriggers. Truck(s) carrying the vaults and the building systematically pull up right next to the crane and are offloaded onto the site. Any requirements to lift the building over obstacles or not having the ability of the truck to be right next to the crane could incur additional charges. Customer performs ail necessary excavation, backfill, compaction, site grading, connection of utilities (if applicable). If the pad for a flush building, or a customer prepared excavation/hole prep is not to CXT specifications, and results in extra costs the customer will be responsible for these extra costs.

C. **Ship-Only**. If customer opts to self-install their building CXT can provide a drawing of the recommended lifting/rigging arrangement plus the four special lifting plates for the buildings itself with a charge of $5,000.00 to purchase the lifting plates and hardware to lift the building and vaults. The CXT arrangements will help prevent damage to the building. CXT will not take responsibility for any damage/accidents to the building or workers during the use or non-use of our recommended lifting/rigging arrangements.

D. CXT shall be entitled to reimbursement from customer for any expenses that are the result of conditions encountered at the site which are (1) subsurface or otherwise concealed physical conditions which differ materially from those indicated by the customer or (2) unknown physical conditions of an unusual nature, which differ materially from those ordinarily found to exist and generally recognized as inherent in construction activities at the customer's location.

E. Should customer request additions or changes to the work, CXT shall be entitled to payment for additional or changed work. Any request for additions or changed work shall be in writing executed by Customer Field Representative by signing the additional work required section of the Building Acceptance Form, incorporated herein by this reference.

10. Transportation

Your building(s) will be transported from our plant to your installation site via semi-truck with trailer. The length and clearance vary with the style of trailer used to accommodate your building model(s) and must be taken into consideration when determining access to site. If you ordered a(n)....

Cascadian/Rocky Mountain - Requires 1 truck: When shipped in 2-pieces (standard) the building with vault is shipped on a flatbed trailer. The length of the tractor-trailer can be up to 75' long. Must have a 14' height clearance to access site.

Gunnison - Requires 1 truck: Shipped with its vault, this building is typically shipped on a step-deck trailer. The length of the tractor-trailer can be up to 75' long. Must have 14' height clearance to access site.

Tioga Special • Requires 2 trucks: 1 to transport the building and 1 to transport vaults. The building is typically shipped on a step-deck trailer and 2 vaults are typically transported on a flatbed trailer. The length of the tractor-trailer can be up to 75' long. Must have 14' height and 14' width clearance to access site.

Dbl Cascadian/Dbl Rocky Mountain • Requires 2 trucks: 1 to transport the building and 1 to transport the vaults. The building is typically shipped on a dbl-drop or low boy trailer (approximate ground clearance of 4 to 6") and the 2 vaults are typically transported on a flatbed trailer. The length of the tractor-trailer can range from 75' to 80'. Must have 14' height and 14' width clearance to access site.

Cortez/Ozark I/Teton/Pioneer - Requires 1 truck: Generally shipped on a step-deck trailer. The length of the tractor-trailer can be up to 75' long. Must have a 14' height and 14' width clearance to access site.

Large Flush, Sectional, or Custom Bldgs -

(Arapahoe/OzarkII/Cheyenne/Montrose/Taos/Rainier/PomonayNavajo/Malibu/Kodiak/FontanayDiablo/Denali)

Requires 2-4 trucks, depending on size of building. Each section will be shipped on an RGN trailer (approximate ground clearance of 4 to 6"). The length of the tractor-trailer can range from 80' to 115'. Must have 14' height and 14' width clearance to access site. The Denali model could ship on either an RGN trailer or a dbl-drop.

Schweltzer/Mendocino - Requires 1-2 trucks, depending on size of building. Generally shipped on a step-deck trailer. The length of the tractor-trailer can be up to 75' long. Must have 14' height and 14' width clearance to access site.

11 CXT Warranty

CXT warrants that all structures sold pursuant hereto will, when delivered, conform to specifications of the building listed on the quote. Structures shall be deemed accepted and meeting specifications unless notice identifying the nature of any non-conformity is provided to CXT in writing within one (1) year of delivery. It is specifically understood that CXT's obligation hereunder is for credit or repair only. CXT will repair structural defects against materials and workmanship for one (1) year from date of delivery provided CXT is first given the opportunity to inspect said structure. CXT warranties all components sold within all structures pursuant here to when delivered within structures. Components deemed accepted and meeting specifications shall be warranted for a period of one (1) year against defects in the materials and/or workmanship from said date of delivery. CXT is not responsible for components that are damaged due to misuse, acts of violence, negligence, acts of God, or accidents. Shipping, handling, installation or other incidental or consequential costs, unless otherwise agreed to in writing by CXT, are not included.

This warranty shall not apply to:

Any goods which have been repaired or altered without CXT's express written consent, in such a way as in the reasonable judgment of CXT, to adversely effect the stability or reliability thereof;

To any goods which have been subject to misuse, negligence, acts of God, or accidents;

To any goods which have not been installed to manufacturer's specifications and guidelines, improperly maintained, or used outside of the specifications for which such goods were designed.

12. Disclaimer of Other Warranties

THE WARRANTY SET FORTH ABOVE IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. ALL OTHER WARRANTIES ARE HEREBY DISCLAIMED. CXT MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE.

13. Limitation of Remedies

In the event of any breach of any obligations hereunder; breach of any warranty regarding the goods, or any negligent act or omission of any party, the parties agree to submit all claims to binding arbitration. Any settlement reached shall include all reasonable costs including attorney fees. In no event shall CXT be subject to or liable for any incidental or consequential damages. Without limitation on the foregoing, in no event shall CXT be liable for damages in excess of the purchase price of the goods herein offered.

14. Acceptance

The foregoing terms will be deemed accepted in full by signature and return of one copy to CXT, subject to customer credit approval. A copy of any applicable form of payment security device (i.e. payment bonds) available to CXT shall be included with the signed copy of this agreement.

15. Timing of Billing to Buyer

Seller will invoice Buyer upon shipment from its supplier or facility, unless otherwise indicated on the face of this document.

16. Storage of Material For Buyer

If, at Buyer's request, goods covered by this document are held at Seller's facility or service provider for more than 21 days after they are available for shipment, Buyer shall accept Seller's invoice and pay said invoice based on payment terms set forth herein.

17. Material Reservation

Seller will only reserve material for 30 days with receipt of an executed purchase order, quote or order acknowledgement acceptable to Seller. After that time, material availability, price and shipment date may be adjusted, at Seller's option.

CXT

THE CITY OF NEW SMYRNA BEACH - CAPITAL IMPROVEMENTS PROJECT

CONSIDER THE APPROVAL OF A CONTRACT AWARD TO HALL AND OGLE ARCHITECTS, INC. FOR RFQ 16-23-CIP PROFESSIONAL ARCHITECTURAL SERVICES - FIRE STATION MANAGEMENT BUILDING.

May 27, 2025

Background:

During the September 24th, 2024 Commission Meeting, the City Commission approved Staff's request for an architect revision for the Fire Management Building Expansion Design Project. This item would be to accept the contract to proceed with Hall and Ogle Architect's proposal for the expansion of Fire Station 50.

In April of 2023, the City of New Smyrna Beach advertised RFP 16-23-CIP for Architectural services for the Fire Management Building Expansion Design Project, and received seven (7) proposals. During the solicitation period, an evaluation committee reviewed and ranked the proposals. Once ranked, City Staff shortened the list to the top three most qualified firms. In October of 2023, CPH was recommended the award the contract for this project, however due to a breakdown in Phase II negotiations, City Staff decided to move forward with the second highest ranked proposal from Hall and Ogle Architects. This proposal includes the design and construction management of the proposed expansion of Fire Station 50. The total cost is $174,000.

Fiscal Analysis:

Fire Rescue has planned the facility improvements and will utilize impact fees to support this project.

Total Cost: $174,000

Strategic Plan Item:

No

II. INTRODUCTION

Thank you for your interest in doing business with the City of New Smyrna Beach, Florida.

If you are interested in preparing a response to this solicitation, please read the bid package in its entirety prior to submitting a bid response.

Under Chapter 119, Florida Statutes, all responses to this solicitation shall be considered public record, subject to distribution pursuant to the request for records by any interested party.

For purposes of this RFQ, the terms “Proposer,” “Consultant,” and “Respondent” are used interchangeably, and are in reference to the person or entity submitting the response to this solicitation.

II.A Summary

The City of New Smyrna Beach is seeking a qualified, experienced and licensed architectural firm to provide design services for the remodel of the New Smyrna Beach Fire Station Management Building located at 1400 Findley Street, New Smyrna Beach, Florida 32168.

This property was acquired by the City in August of 2022 and is adjacent to the City of New Smyrna Beach Fire Station #50 located at 1400 State Road 44, New Smyrna Beach, Florida 32168.

The city of intends to enter into a contract with one (1) firm to provide design services, space planning and provide construction plans for this project. Potential bidders shall provide options to remodel the existing building or to demo the existing building and reconstruct a new building.

The successful proposer(s) will hereinafter be referred to as "Professional Consultant." The Professional Consultant will be expected to execute the City's Standard Professional Agreement, provided in the Attachment Section of this document, and provide the required insurance certificates and endorsements under the agreement. If awarded, a contract to provide these services shall be effective on the date it is approved by the City of New Smyrna Beach, City Commission (herein after, the "Commission"), signed by all required parties and filed with the City Clerk.

Interested firms should become familiar with all the terms contained in the agreement and be willing to execute the agreement before submitting a proposal. There shall be no exceptions to either the scope of services or the terms of the agreement.

II.B Background

The City serves an area of 41.6 square miles in size and serves a population of approximately 27,173. It is located of Florida's East Coast, in the County of Volusia, just north of Cape Canaveral with easy access to both Interstate 95 and Interstate 4. The City's fiscal year begins on October 1st and ends on September 30th.

The City was created in 1887 by the adoption of its first charter, which was replaced by the present charter through Chapter 224.08, Special Acts of Florida, 1943.

The legislative branch of the City is composed of an elected five-member City Commission consisting of the Mayor and four commissioners. The City Commission is governed by the City Charter and by state and local laws and regulations. The City Commission is responsible for the establishment and adoption of policy. The execution of such policy is the responsibility of the Commission-appointed City Manager.

More detailed information on the government and can be found in City of New Smyrna's Comprehensive Annual Financial Report (CAFR). This report may be viewed on https://www.cityofnsb.com/105/Financial-Reports.

Issue RFQ Notice	April 13, 2023
Deadline for Written Questions	April 27, 2023, 5:00pm
Proposal Submission Deadline	May 15, 2023, 5:00pm
Opening of Submittals	May 16, 2023, 9:00am Microsoft Teams Meeting, Call in (audio only) 786-636-1338 United States Phone Conference ID: 231 839 253#
Recommendation of award to City Commission	June 13, 2023

III. GENERAL OVERVIEW

III.A Method of Source Selection

The City of New Smyrna Beach is using the Competitive Sealed Qualifications methodology of source selection for this procurement, as authorized by the City Purchasing Policy.

III.B Inquiries

All questions related to this RFQ shall be submitted in writing via the OpenGov Question/Answer Tab via the City's e-Procurement portal, on or before, Thursday, April 27, 2023 by 5:00 pm. Please include the section title for each question, if applicable, in order to ensure that questions asked are responded to correctly.

When asking questions, please be sure to enter each question separately.

Proposers must clearly understand that the only official answer or position of the City shall be the one stated in writing by purchasing.coordinator@cityofnsb.com posted in the City's e-Procurement portal. All questions submitted and answers provided shall be electronically distributed to proposers following this solicitation on the City's e-Procurement Portal.

III.C Ambiguity, Conflict, or Other Errors

If a Proposer discovers any ambiguity, conflict, discrepancy, omission, or other error in the RFQ, Proposer shall immediately notify the Purchasing Coordinator, noted herein, of such error in writing and request modification or clarification of the document. The Purchasing Coordinator shall make modifications by issuing an addendum and shall post to OpenGov and give written notice to all parties who have received this RFQ from the Finance Department. No interpretation shall be considered binding unless provided in writing by the City of New Smyrna Beach.

The Proposer is responsible for clarifying any ambiguity, conflict, discrepancy, omission, or other error in the RFQ prior to submitting the proposal or it shall be waived.

III.D Request for Qualifications Due Date

Submittals shall be received until Monday, May 15, 2023 at 5:00 pm. Submittals shall be submitted through the City's e-Procurement Portal on standard forms which are furnished with the Request for Qualifications documents.

Submittals received after the designated time will not be allowed on the City's eProcurement Portal. RFQ Documents are available on the City's website. For further information, please e-mail the Purchasing Coordinator at purchasing.coordinator@cityofnsb.com.

There is no expressed or implied obligation for the City of New Smyrna Beach to reimburse responding firms for any expenses incurred in preparing proposals in response to this request.

III.E Pre-Proposal Meeting

There will be no pre-proposal conference for this solicitation.

III.F RFQ Opening

Sealed Bid Proposals will remain sealed until the time of opening. Proposals will be publicly opened and Proposers names read aloud at that time, via a live video conference which will also be recorded (using Microsoft Teams). Proposers may contact the City's Purchasing Coordinator to obtain information to view the live bid opening. No discussion of the Proposals will occur at this time. Proposals received after the designated time shall not be accepted.

Microsoft Teams, Call in (audio only)

+1 786-636-1338, United States

Phone Conference ID: 231 839 253#

III.G City's Rights

The City of New Smyrna Beach reserves the right to retain all proposals submitted regardless of whether that proposal is selected. Submission of a proposal indicates acceptance by the firm of the conditions contained in this request for proposals, unless clearly and specifically noted in the

proposal submitted and confirmed in the contract between the City of New Smyrna Beach and the firm selected.

The City has the sole discretion and reserves the right to cancel this RFQ, to reject any/all proposals, to waive any/all informalities and/or irregularities, or to re-advertise with either the identical or revised specifications, if it is deemed to be in the best interest of the City to do so.

The City also reserves the right to make multiple awards based on experience and qualifications or to award only a portion of the items and/or services specified, if deemed to be in the City's best interest or award only a portion of the solicitation.

The City may, as it deems necessary, conduct discussions with responsible proposers determined to be in contention for being selected for award for the purpose of clarification to assure full understanding of, and responsiveness to solicitation requirements.

III.H Proposal, Presentation, and Protest Costs

The City shall not be liable in any way for any costs incurred by any proposer in the preparation of its bid in response to this RFQ, nor for the presentation of its bid and/or participation in any discussions, negotiations, or, if applicable, any protest procedures.

III.I Requests for Clarification

The City may, as it deems necessary, conduct discussions with responsible proposers determined to be in contention for being selected for award for the purpose of clarification to assure full understanding of, and responsiveness to solicitation requirements.

Requests by the Purchasing Coordinator to a proposer(s) for clarification of a submittal(s) shall be in writing. Proposer's failure to respond to request for clarification may deem proposer to be non-responsive, and may be just cause to reject its bid.

III.J Validity of Submittal

Submittals cannot be withdrawn after they are filed unless the Proposer makes their request in writing to the City prior to the time set for the closing of RFQ.

All submittals shall be valid for a period of one hundred eighty (180) days from the submission date to accommodate evaluation and selection process.

III.K Evaluation of Submittals

After qualifications opening has been completed, the Evaluation Committee shall review and score each Qualification individually, based on the evaluation criterion set forth in the section of this document titled Evaluation Criteria.

The committee may schedule presentations or demonstrations from top-ranked firm(s) and obtain guidance from third party subject matter experts. The final recommendation will be decided based on review of scores and consensus of the committee.

Receipt of a qualification by the City or a submission of a proposal to the City offers no rights upon the Professional Consultant nor obligates the City in any manner. Acceptance of the qualification does not guarantee issuance of any other governmental approvals.

If made, the recommendation of award will be made to the best overall Professional Consultant whose qualifications proposal is most advantageous to the City, taking into consideration the evaluation factors set forth in this RFQ. The city will not use any other factors or criteria in the evaluation of the qualifications received.

III.L Award of Contract and Professional Services Agreement

The selected firm will be asked to execute an agreement upon the intent to award.

An agreement resulting from this RFQ shall be subject to the terms and conditions set forth in a standard city agreement, as well as the terms set forth in this request for qualifications. The city reserves the right to include in any contract document such terms and conditions as it deems necessary for the proper protection of the rights of the City.

The City shall not be obligated to sign any contracts, maintenance and/or service agreements or other documents supplied by the Professional Consultant.

Contract Negotiations: After the ranking is completed, the City will attempt to negotiate an agreement with at the top ranked Professional Consultant which is determined to be in the best interest of the city. The agreement will cover all aspects of the scope of services as described herein. If no agreement is reached with the top ranked Professional Consultant negotiations will be terminated and initiated with the next-ranked professional consultant, and so on, until an agreement is reached.

Contract Term: Contract period of three (3) years

III.M Legal Requirements

All Federal, State, County and Local Laws, Ordinances, Rules and Regulations that in any manner affect this RFQ herein apply. Lack of knowledge by the submitting firms will in no way be cause for relief from responsibility.

IV. SCOPE OF SERVICES

IV.A Project Description

The awarded firm shall provide design services for a building remodel or demolition and rebuild located at 1400 Findley Street, New Smyrna Beach, Florida 32168. This property was acquired by the City in August of 2022 and is adjacent to the City of New Smyrna Beach Fire Station #50 located at 1400 State Road 44, New Smyrna Beach, Florida 32168.

The selected firm will be responsible for the following, but not limited to:

- Space evaluations
- Preliminary design, design development and architectural design
- Civil engineering
- MEP engineering
- IT Data design
- Structural engineering
- Surveying
- Site/Environmental assessment of existing facility, demolition plans for existing building, and geotechnical report
- Final design
- City Land Development Review
- Construction phase engineering
- Design and Construction Project Schedule
- Construction Cost Estimate
- Bid specifications

The construction and/or demolition plans shall include architectural engineering design, details, and specifications to bid and construct the new building on the existing property.

V. MINIMUM QUALIFICATIONS

V.A Minimum Qualifications

The selected firm shall be a registered architectural firm licensed with the State of Florida. All professional services shall be performed under the direction of a professional registered with the State of Florida with specific experience in the field of architecture.

• The firm or team shall be licensed in accordance with Florida Statutes, Chapter 287.

• The selected firm must be able to provide proof of financial stability for the past three (3) years;

• Team Project Manager must be licensed in the State of Florida as an Architect and have a minimum of seven (7) years of experience in architectural design, familiarity with AIA documents, and have served as project manager on commercial and municipal projects with varied complexity.

• Team Members and sub-consultants must be licensed in the State of Florida and have a minimum of five (5) years of experience in providing architectural, fire safety design, plan & specification preparation, construction management and inspection services.

All work will normally be performed by the Professional Consultant at an off-site location (not in the City's offices). The Professional Consultant will be required to provide their own equipment.

The City and the firm(s) shall negotiate project terms per Florida Statute 287.055. A purchase order or similar document will be issued for this project.

VI. SUBMITTAL REQUIREMENTS

Firms submitting statement of qualifications shall be in strict compliance with this RFQ. Failure to comply with all provisions of the RFQ may result in disqualification.

VI.A Response Format

Submittals shall be deemed an offer to provide services to the City. In submitting, the professional consultant declares that he/she understands and agrees to abide by all specifications, provisions, terms and conditions of same, and all ordinances and policies of the City. The Proposer agrees that if the contract is awarded to him/her, he/she shall perform the work in accordance with the provisions, terms and conditions of the contract.

In order to maintain comparability and to facilitate the review process, it is requested that proposals be organized in the manner specified below. Proposals shall be submitted in a professional manner is a representation of the consultant.

Any portions of the proposal that do not comply with these guidelines must be so noted and explained the Acceptance of Conditions section of the bid. However, proposals which contain such variances may be considered non-responsive.

VI.B Introduction and Letter of Interest

At a minimum shall include:

- Cover page that represents the firm that is submitting a proposal
- Table of Contents identifying the material by section and by page number.
- Letter of interest, limit to two (2) pages

Letter of interest shall include:

- Full legal company name and company type (i.e. Corporation, Partnership, Joint Venture, etc.)
- Physical street address and mailing address, if different (include address of office that will perform the work if different than others)
- Primary company point of contact along with a phone number and email address
- Names and titles of principals
- Brief statement of company history (date of establishment, number of years in business, number of employees, etc.)
- Brief description of business philosophy
- Brief statement regarding the Professional Consultant interest in this project

VI.C Company & Staff Qualifications

At a minimum shall include:

A. **Organizational Profile/staff charts:** The size of the organization including breakdown of the number of employee by job classification.
Number of years in business, including operation under other firm names, providing services similar to those described herein.
Number of years in business in the State of Florida. Resumes of all individuals listed on organizational chart that will have direct role in the performance and supervision of contract. The chart should specifically relate to staff or team for this project to include roles and responsibilities in relation to the scope of work.

B. **Licenses(3):** Include copies of all applicable license(s) for the organization as well as for each individual that will have a direct role with this project

C. **Provide a list of all sub-consultants**, if any, which may be used in the performance of this contract. List what services they will provide, the sub-consultant's qualifications in providing such services, firm location, and anticipated frequency of use.

D. **Provide a list to include a minimum of five (5) and maximum of eight (8) recent projects:** List projects which are similar to this scope that your firm has recently completed or is currently in progress. Include the following for each project:

Project name, owner name, and contact information
Brief description of work
Name of Role of Key Personnel involved in project
Project status

VI.D Related Experience and References

At a minimum shall include:

Experience: A written narrative describing a minimum of three (3) building designs similar to this project in construction value that have been successfully completed in the last five (5) calendar years similar in scope to those described herein.

Respondents must include the type of services performed, timeframe of performance, whether or not the contract was renewed/extended.

References: Professional Consultants shall provide a minimum of five (5) written letters in total from current and/or previous agencies that have contracted with the respondent to perform a scope of work of equal or greater value and scope as described herein. References shall be within the last five years of the project being completed or in process. Letters shall include project owner name, point of contact information, date(s) of service, and project information.

VI.E Project Approach / Management

At a minimum shall include:

A. State your typical project management procedure from project inception through design and through construction in situations where post-design services are included in the scope.

B. Approach to be taken with working with the City of New Smyrna Beach

C. List any innovative approaches or techniques your firm has implemented to ensure project schedule adherence.

D. Discuss your firm's cost estimating procedure and how you integrate new ideas or methodologies to assist your client in achieving a cost-effective project.

E. Examples of reports that would typically be made available to the City, if applicable

F. Competitive advantage: A summary of key elements that differentiate your proposed approach, company, customers, etc., from your competition

G. Discuss why your firm is a fit for the City and why your firm should be selected.

VI.F Proposed Design Schedule

Professional Consultants shall provide information relating to a proposed design schedule and quality of schedule control for the project.

Shall include, but not limited to:

Proposed design schedule that includes all elements of the project to include all design activities.

VI.G Complete Copy of Submittal

Please upload as one (1) PDF document a complete copy of the proposal, including cover page, evaluation criteria, City required forms, and addendums.

Proposal must be in a professional format and signed by an authorized officer of your organization.

VII. EVALUATION CRITERIA

A committee of City employees shall independently evaluate and rank each submittal based on information provided.

Evaluation factors are based on the abilities of the proposer to efficiently perform the Scope of Services as generally outlined in this Request for Qualifications. The City shall be seeking to identify the submittal(s) which shall best meet the needs of the City of New Smyrna Beach as determined from the responses to this Request for Qualifications.

A selected group of professional consultants may be required to make an oral presentation to the Evaluation Committee. Such presentation shall provide an opportunity for the proposers to clarify the information provided in their RFQ. Oral presentations, if any, shall be considered in conjunction with submitted data by the Evaluation Committee. The Evaluation Committee shall present its recommendation to the City Commission, which has the authority to make the final determination and award contracts.

The evaluation criteria may be modified for the oral presentation portion of the evaluation.

Submissions shall be evaluated on a total score basis, with a maximum score of one hundred (100) points per Evaluation Committee member. The following criteria shall be used in the evaluation process to determine the successful respondent(s):

No.	Evaluation Criteria	Scoring Method	Weight (Points)
1.	**Company & Staff Qualifications** Please see required information in Submittal of Qualifications	Points Based	30 *(30% of Total)*
2.	**Related Experience and References** Please see required information in Submittal of Qualifications	Points Based	30 *(30% of Total)*
3.	**Project Approach / Management** Please see required information in Submittal of Qualifications	Points Based	20 *(20% of Total)*

4.	**Proposed Design Schedule** Please see required information in Submittal of Qualifications	Points Based	20 *(20% of Total)*

VIII. INSURANCE REQUIREMENTS

VIII.A Insurance Requirements

The selected Firm or Individual will be required to name the City as an additional named insured with the following minimum coverages.

A. **Workers' Compensation** shall be maintained by the selected firm or individual for all employees engaged in the work under this solicitation in accordance with the laws of the

1. State of Florida. Employers' Liability Insurance shall be maintained by the selected firm or individual at limits not less than the following:
2. $500,000 Each Accident
3. $500,000 Disease Each Employee
4. $500,000 Policy Limit for Disease

B. **Commercial General Liability Insurance** shall be maintained by the selected firm or individual with limits not less than the following:

1. $1,000,000 Bodily Injury & Property Damage-each occurrence
2. $2,000,000 Personal & Advertising Injury-each occurrence
3. $2,000,000 General Aggregate
4. $2,000,000 Products/Completed Operations Aggregates limit
5. $ 5,000 Medical Payments
6. $ 100,000 Fire Damage Legal Liability
7. Coverage shall include Contractual Liability and Independent Contractors Liability.

C. **Automobile Liability Insurance** shall be maintained by the selected firm or individual with a combined single limit of not less than $1,000,000 Bodily Injury and Property Damage in accordance with the laws of the State of Florida, as to the Ownership, maintenance, and use of all owned, non-owned, leased or hired vehicles.

D. **Professional Liability Insurance** shall be maintained by the selected firm or individual with a combined single limit of not less than $1,000,000, protecting the selected firm against claims of the City for negligence, errors, mistakes, or omissions in the performance of services to be performed and furnished by the selected firm or individual.

1. If the contractor maintains broader coverage and/or higher limits than the minimums shown above, The City of New Smyrna Beach requires and shall be entitled to the broader coverage and/or the higher limits maintained by the Contractor.
2. Cancellation: Thirty (30) days written notice of cancellation is required to Certificate Holder

Certificate Holder:

City of New Smyrna Beach
210 Sams Avenue
New Smyrna Beach, FL 32168

VIII.B Acknowledgment of Insurance Requirements

It should be noted by the professional consultants that, in order to meet the City's requirements, there may be additional insurance costs to the Proposer's firm. It is, therefore, imperative that the proposer discuss these requirements with the Proposer's insurance agent, as noted on the Insurance Check List, so that allowances for any additional costs can be made by the Proposer.

The Proposer's obligation under this provision shall not be limited in any way by the agreed upon contract price, or the Proposer's limit of, or lack of, sufficient insurance protection.

Proposer also understands that the evidence of required insurance may be required within five (5) business days following notification of its offer being accepted; otherwise, the City may rescind its acceptance of the Proposer's bid.

Statement of Insurance Compliance Form provided in the Attachment Section shall be completed and submitted with proposal.

IX. TERMS AND CONDITIONS

IX.A Licenses

The awarded Consultant is required to possess the correct Business Tax Receipt, professional license(s), and any other authorizations necessary to carry out and perform the work in accordance with the specifications required by the project pursuant to all applicable Federal, State and Local Law, Statute, Ordinances, and rules and regulations of any kind.

If required and/or requested, copies of the required license(s) must be submitted with the solicitation response indicating that the entity proposing, as well as the team assigned to the City account, are properly licensed to perform the activities or work included in the contract documents. The Consultant is also required to have a business tax receipt.

If you have questions regarding required professional licenses and Business Tax Receipt, contact the Building Department, (386) 410-2800.

IX.B Principals/Collusion

By submission of this Proposal, the undersigned, as professional consultant, does declare that the only person or persons interested in this RFQ as principal or principals is/are named therein and that no person other than therein mentioned has any interest in this RFQ or in the contract to be entered into; that this Proposal is made without connection with any person, company or parties submitting a Proposal, and that it is in all respects fair and in good faith without collusion or fraud.

IX.C Taxes

The City is exempt from Federal Excise and State of Florida Sales Tax.

IX.D Relation of City

It is the intent of the parties hereto that the Consultant shall be legally considered an independent Consultant, and that neither the Consultant nor their employees shall, under any circumstances, be considered employees or agents of the City, and that the City shall be at no time legally responsible for any negligence on the part of said Consultant, their employees or agents, resulting in either bodily or personal injury or property damage to any individual, firm, or corporation.

IX.E Termination

Term Contracts: If funds are not appropriated for continuance of a term contract to completion, cancellation shall be accepted by the awarded Consultant with a thirty (30) days prior written notice.

Termination for Convenience: The City reserves the right to terminate the Agreement in whole or part at any time without penalty or cause, which termination date shall not be less than thirty (30) days after the date of such written notice. Upon receipt of the written notice, the Consultant shall immediately stop all work as directed in the notice, notify all subconsultants of the effective date of the termination and minimize all further costs to the City.

In the event of termination under this provision, all goods, materials, documents, data and reports prepared by the Consultant under the Agreement shall become the property of and delivered to the City. The Consultant shall be entitled to receive just and equitable compensation for work in progress, work completed, and materials accepted before the effective date of termination. Such compensation shall be the Consultant's sole remedy against the City in the event of termination under this provision.

Termination for Cause or Default: The City reserves the right to terminate the Agreement in whole or in part due to the failure of the Consultant to comply with any term or condition of the Agreement, including failure to acquire and maintain all required insurance policies, bonds, licenses and permits, or to make satisfactory progress in performing the Agreement. The City shall provide written notice of the termination and the reasons for it to the Consultant. Upon termination under this provision, all goods, materials, documents, data and reports prepared by the Consultant under the Agreement shall become the property of and be delivered to the City on demand. The City may, upon termination of the Agreement, procure, on terms and in the manner that it deems appropriate, materials, or services to replace those under the Agreement. The Consultant shall be liable to the City for any excess costs incurred by the City in re-procuring the materials or services.

Consultant's Right to Terminate: If the work should be stopped for a period of three (3) months, under any order of any court or public authority, other than by the Owner, through no act of fault of the Consultant or of anyone employed by the Consultant, then the Consultant may, upon thirty (30) days written notice to the Owner, terminate the Contract and recover from the Owner payment for all work executed and any expense sustained plus a reasonable profit thereon.

Force Majeure: No Party shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement, except for any obligations to make payments to the other party hereunder, when and to the extent such failure or delay is caused by or results from acts beyond the impacted party's control, including but not limited to, the following force majeure events:

a) Acts of God

b) A natural disaster (fires, explosions, earthquakes, hurricanes, flooding, storms, infestations, epidemic or pandemic)

c) War, invasion, hostilities (regardless if war is declared or not), terrorist threats or acts, riots or other civil unrest

d) Government order or law

e) Actions, embargoes or blockades in effect on or after the date of this Agreement

f) Action by any governmental authority

g) National or regional emergency

h) Strikes, labor stoppages or slowdowns or other industrial disturbance, and

i) Shortage of adequate power or transportation facilities

The Impacted Party shall give notice within two (2) days of the Force Majeure Event to the other party, stating the period of time the occurrence is expected to continue. The impacted party shall use diligent efforts to end the failure or delay and ensure the effects of such Force Majeure Event are minimized. The Impacted Party shall resume the performance of its obligations as soon as reasonably practicable after the removal of the cause. In the event that the Impacted Party's failure or delay remains uncured for a period of sixty (60) days following Notice given by it, then either party may thereafter terminate this Agreement upon Notice

Notwithstanding the foregoing, any pandemic or epidemic, including but not limited to those related to COVID-19 and its mutations, and related issued executive orders and/or administrative orders by any federal, state, or local government entity related to any pandemic or epidemic, shall NOT be considered a force majeure and is expressly excluded from that definition herein and said even shall not prevent CONSULTANT from timely performing its functions under this Agreement.

IX.F Liability

Neither party shall be held responsible for failure to complete contract due to causes beyond its control, including, but not limited to, work stoppage, fires, civil disobedience, riots, rebellions, Acts of Nature and similar occurrences making performance impossible or illegal.

The Consultant shall hold and save the City of New Smyrna Beach, its officers, agents, and employees harmless against claims by third parties resulting from the Consultant's or suppliers breach of contract or negligence, including all attorney's fees and costs, and shall pay any and all damages, fees, and costs assessed on behalf of the City. The City expressly reserves all rights, privileges, and benefits of sovereign immunity.

IX.G Assignment

The awarded Consultant shall not assign, transfer, convey, sublet or otherwise dispose of this contract, or of any or all of its rights, or interest therein, or his or its power to execute such contract to any person, company or corporation without prior written consent of the City.

IX.H Lobbying

All firms are hereby placed on NOTICE that the City does not wish to be lobbied, either individually or collectively about a matter for which a firm has submitted a Proposal.

During the solicitation process, from solicitation announcement to final Commission approval, no firm or its agent shall contact any other employee of the City in reference to this solicitation, with the exception of the Purchasing Coordinator. Failure to abide by this provision may serve as grounds for disqualification for award of this contract to the firm.

IX.I Single Proposal

Each Proposer must submit, with their bid, the required forms included in this RFQ. Only one proposal from a legal entity as a primary shall be considered. A legal entity that submits a proposal as a primary or as part of a partnership or joint venture submitting as primary may not then act as a sub-consultant to any other firm submitting under the same RFQ.

All submittals in violation of this requirement shall be deemed non-responsive and rejected from further consideration.

IX.J Protest Procedures

A. Bidders or respondents who do not agree with the City's recommendation for award shall be afforded the opportunity to protest the recommendation by submitting written notice to the Purchasing Division. Bids or proposals not meeting the minimum published requirements, including specifications, scope of service, or required documents, are not subject to protest.

B. Such notice should be given within three (3) business days after the City posts its notice of intent to award.

C. A formal written protest shall be made to the Purchasing Division within five (5) working days after filing the notice of protest, which shall state the grounds for the protest and the action requested.

D. The formal written protest shall include with it a bid protest bond in the amount of one percent (1%) of the estimated contract amount, as provided in Florida Statutes § 287.042(2)(c) and Rule 28-110.005 of the Florida Administrative Code. The notice of protest must be either hand-delivered and date and time stamped by the Finance Department, or sent via Certified U.S. mail, return receipt requested. Failure to file a protest within the time-frame specified herein shall constitute a full waiver of all rights to protest the City's decision regarding award of the bid. For full bid protest guidance, consult Section 9.1, Notice of Protest, of the City of New Smyrna Beach's purchasing policy.

IX.K Public Entity Crime

A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a proposal, bid, or reply on a contract to provide any goods or services to a public entity; may not submit a proposal, bid, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit proposals, bids, or replies on leases of real property to a public entity; may not be awarded or perform work as a Vendor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity for a period of 36 months following the date of being placed on the convicted vendor list.

IX.L Conflict of Interest

Proposer shall complete the Conflict of Interest Affidavit included as an attachment to this RFQ document. Disclosure of any potential or actual conflict of interest is subject to City staff review and does not in and of itself disqualify a firm from consideration.

These disclosures are intended to identify and or preclude conflict of interest situations during contract selection and execution.

IX.M Prohibition of Gifts to City Employees

No organization or individual shall offer or give, either directly or indirectly, any favor, gift, loan, fee, service or other item of value to any City employee, as set forth in Chapter 112, Part III, Florida Statutes, the current City Ethics Ordinance, and City Administrative Policy. Violation of this provision may result in one or more of the following consequences: a. Prohibition by the individual, firm, and/or any employee of the firm from contact with City staff for a specified period of time; b. Prohibition by the individual and/or firm from doing business with the City for a specified period of time, including but not limited to: submitting bids, RFQ, and/or quotes; and, c. immediate termination of any contract held by the individual and/or firm for cause.

IX.N Immigration Reform and Control Act

Proposer acknowledges, and without exception or stipulation, any firm(s) receiving an award shall be fully responsible for complying with the provisions of the Immigration Reform and Control Act of 1986 as located at 8 U.S.C. 1324, et seq. and regulations relating thereto, as either may be amended. Failure by the awarded firm(s) to comply with the laws referenced herein shall constitute a breach of the award agreement and the City shall have the discretion to unilaterally terminate said agreement immediately.

IX.O Florida Public Records Act

All material submitted regarding this RFQ becomes the property of the City. RFQ documents may be reviewed by any person ten (10) days after the public opening. The Professional Consultant should take special note of this as it relates to any proprietary information that might be included in its offer.

Any resulting contract may be reviewed by any person after the contract has been executed by the City. The City has the right to use any or all information/material submitted in response to this RFQ and/or any resulting contract from same. Disqualification of a Professional Consultant does not eliminate this right. This section is further subject to F.S. 119.01 et. seq.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CITY'S CUSTODIAN OF PUBLIC RECORDS, CITY CLERK, AT 386-410-2637, CLERK@CITYOFNSB.COM, CITY OF NEW SMYRNA BEACH, 210 SAMS AVENUE, NEW SMYRNA BEACH, FL 32168.

The contractor is required to comply with public records laws, specifically to:

A. Keep and maintain public records required by the public agency to perform the service.

B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.

C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the public agency.

D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the contractor or keep and maintain public records required by the public agency to perform the service. If the contractor transfers all public records to the public agency upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IX.P E-Verify

The E-Verify System means an internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees.

In accordance with, §448.095, Florida Statutes, the CONSULTANT shall register with and utilize the EVerify System operated by the United States Department of Homeland Security to verify the employment eligibility of all new employees hired during the term of the Agreement and shall expressly require any subconsultants performing work or providing services pursuant to this Agreement to likewise utilize the E-Verify System to verify the employment eligibility of all new employees hired by the subconsultant during the term of this Agreement. If the CONSULTANT enters into a contract with a subconsultant performing work or providing services on its behalf, the CONSULTANT shall also require the subconsultant to provide an affidavit stating that the subconsultant does not employ, contract with, or subcontract with an unauthorized alien.

Information on registration for and use of the E-Verify System can be obtained via the internet at the Department of Homeland Security Web site: http://www.dhs.gov/E-Verify.

Every Consultant shall, upon request, provide evidence of compliance with this provision to the CITY. Failure to comply with this provision is a material breach of an Agreement, and the CITY may choose to terminate the Agreement at its sole discretion. The CONSULTANT may be liable for all costs associated with the CITY securing the same services, inclusive, but not limited to, higher costs for the same services and rebidding costs (if necessary).

X. CONSULTANT REQUIREMENTS

X.A Business Name and Address*

By submitting this response, you hereby designate the business name and address listed here as the office to which notices may be delivered or mailed.

*Response required

X.B Title of Position and Company Name*

Please provide the title of the Prime Proposer and company name of the organization here.

*Response required

X.C Employer Identification Number *

Please provide the Employer Identification Number

*Response required

X.D Public Records*

I have received a copy of the Public Records acknowledgement, provided as an Attachment.

☐ Please confirm
*Response required

X.E Proposer's Certification*

I have carefully examined the Request for Qualifications in its entirety including any other documents accompanying or made a part of this Request for Qualifications.

I hereby propose to furnish the services specified in the Request for Qualifications at the prices, rates or discounts quoted in my proposal. I agree that my proposal will remain firm for a period of up to one hundred-eight days (180) days in order to allow the City adequate time to evaluate the proposals.

I agree to abide by all conditions of this proposal and understand that a background investigation may be conducted by the City of New Smyrna Beach Police Department prior to award.

I certify that all information contained in this proposal is truthful to the best of my knowledge and belief. I further certify that I am duly authorized to submit this proposal on behalf of the consultant as its act and deed and that the consultant is ready, willing and able to perform if awarded the contract.

I further certify, under oath, that this proposal is made without prior understanding, agreement, connection, discussion, or collusion with any other person, firm or corporation submitting a proposal for the same product or service; no officer, employee or agent of the City of New Smyrna Beach or of any other Proposer interested in said proposal; and that the undersigned executed this Proposer's Certification with full knowledge and understanding of the matters therein contained and was duly authorized to do so.

☐ Please confirm
*Response required

X.F Acknowledgment of Insurance Requirements*

By submitting a response to this solicitation, the undersigned firm acknowledges the required conditions included in the Acknowledgment of Insurance Requirements section of this Request for Proposal.

The undersigned firm agrees to obtain prior to award, if selected, the insurance and levels in accordance to the requirements as set forth in the Invitation for Proposal, Invitation to Bid, or Invitation for Qualifications, or draft agreement, attached hereto.

Policies other than State Issued Worker's Compensation shall be issued only by companies authorized by maintaining certificates of authority issued to the companies by the Department of Insurance of the State of Florida to conduct business in the State of Florida and which maintain a Rating of "A" or better and a Financial Size category of "VII" or better according to the A.M. Best Company. Policies for Worker's Compensation may be issued by companies authorized as a group self-insurer by F.S. 440.57, Florida Statutes.

☐ Please confirm
*Response required

X.G Professional Services Agreement*

Proposer acknowledges, that the selected Professional Consultant(s) shall be required to sign a standard City contract within four-teen (14) days of Notice of Selection for Award.

☐ Please confirm
*Response required

X.H Drug Free Workplace Certificate *

In accordance with Section 287.087 of the State of Florida Statutes, preference shall be given to businesses with drug-free workplace programs. Whenever two or more proposals, which are equal with respect to price, quality, and service, are received by the State or by any political subdivision for the procurement of commodities or contractual services, a proposal received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process.

Established procedures for processing tie proposals shall be followed if none of the tied consultant have a drug-free workplace program. In order to have a drug-free program, a business shall:

A. Publish a written statement notifying that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace named above, and specifying actions that will be taken against violations of such prohibition.

B. Inform employees about the dangers of drug abuse in the work place, the firm's policy of maintaining a drug free working environment, and available drug counseling,

rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug use violations.

C. Give each employee engaged in providing commodities or contractual services that are under proposal, a copy of the statement specified above.

D. Notify the employees that as a condition of working on the commodities or contractual services that are under proposal or proposals, the employee shall abide by the terms of the statement and shall notify the employer of any conviction of, plea of guilty or nolo contendere to, any violation of Chapter 1893, or of any controlled substance law of the State of Florida or the United States, for a violation occurring in the work place, no later than five (5) days after such conviction, and requires employees to sign copies of such written statements to acknowledge their receipt.

E. Impose a sanction on, or requires the satisfactory participation in, a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.

F. Make a good faith effort to continue to maintain a drug free work place through the implementation of the drug free workplace program.

☐ Please confirm
*Response required

X.I Drug Free Workplace Confirmation *

By submitting a bid in response to this Invitation to Bid, you are certifying that your company is a drug-free workplace in accordance with Florida Statute 287.087.

X.J Conflict of Interest Disclosure*

PROJECT NUMBER: 16-23-CIP - Professional Architectural Services - Fire Station Management Building

The award of this contract is subject to the provisions of Chapter 112, Florida Statutes. All respondents must disclose within their submittal: the name of any officer, director, or agent who is also an employee of the City of New Smyrna Beach, Florida. Furthermore, all respondents must disclose the name of any City employee who owns, directly, or indirectly, an interest of more than five percent (5%) in the respondent's firm or any of its branches.

The purpose of this disclosure statement is to give the City the information needed to identify potential conflicts of interest for screening evaluation team members and other key personnel involved in the award of this contract.

The term "conflict of interest" refers to situations in which financial or other personal considerations may adversely affect, or have the appearance of adversely affecting, an employee's professional judgment in exercising any City duty or responsibility in administration, management, or other professional activities. The bias such conflicts could conceivable impart

may inappropriately affect the goals of the City. The City must be free of the undue influence of outside interests.

The mere appearance of a conflict may be as serious and potentially damaging as an actual conflict of interest. Reports of conflicts based on appearances can undermine public trust in ways that may not be adequately restored even when the mitigating facts of a situation are brought to light. Apparent conflicts, therefore, should be disclosed and evaluated with the same vigor as actual conflicts.

☐ Please confirm
*Response required

X.K Potential Conflict of Interest*

Please upload any documentation/information which may be a potential conflict of interest due to other clients, contracts, or property interest for this project here.

PUBLIC RECORDS

All material submitted regarding this solicitation becomes the property of the City. Solicitation documents may be reviewed by any person ten (10) days after the public opening. The Respondent should take special note of this as it relates to any proprietary information that might be included in its offer. Any resulting contract may be reviewed by any person after the contract has been executed by the City.

The City has the right to use any or all information/material submitted in response to this solicitation and/or any resulting contract from same. Disqualification of a Professional Consultant does not eliminate this right. This section is further subject to F.S. 119.01 et. seq.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CITY'S CUSTODIAN OF PUBLIC RECORDS, CITY CLERK, AT 386/410-2630, CLERK@CITYOFNSB.COM, CITY OF NEW SMYRNA BEACH, 210 SAMS AVENUE, NEW SMYRNA BEACH, FL 32168.

The contractor is required to comply with public records laws, specifically to:

1. Keep and maintain public records required by the public agency to perform the service.
2. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.
3. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the public agency.
4. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the contractor or keep and maintain public records required by the public agency to perform the service. If the contractor transfers all public records to the public agency upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

Company name and title of Contract

THIS AGREEMENT is made and entered into this _____ day of _____, 2023, by and between _____, duly authorized to conduct business in the State of Florida and whose address is _____, FL _____, hereinafter, called "CONSULTANT," and the **CITY OF NEW SMYRNA BEACH**, a political subdivision of the State of Florida, whose address is 210 Sams Ave., New Smyrna Beach, FL, hereinafter called "CITY."

SECTION 1. AGREEMENT. The terms of this Agreement, together with the incorporation of the terms and conditions of **the RFQ 16-23-CIP, Professional Architectural Services – Fire Station Management Building, FOR THE CITY OF NEW SMYRNA BEACH** and any exhibits, schedules, and attachments hereto, and any and all amendments relating to same, and any and all submittals from CONSULTANT, constitute the entire Agreement between the individual City and CONSULTANT. This Agreement is the final, complete and exclusive expression of the terms and conditions of the parties' Agreement. Any and all prior agreements, representations, negotiations, and understandings made by the parties, oral or written, expressed or implied, are hereby superseded and merged herein.

SECTION 2. TERM OF AGREEMENT. The term of this Agreement shall be for three (3) years from the date of the award.

SECTION 3. DESCRIPTION OF SERVICES. The Consultant agrees to perform the services outlined in the advertised solicitation document titled **RFQ 16-23-CIP, Professional Architectural Services – Fire Station Management Building,** and in the Consultant's submitted Proposal.

The Consultant shall diligently and in a professional and timely manner perform and provide these services. Unless modified in writing by the parties hereto, the duties of the Consultant shall not be construed to exceed the provision of the services pertaining to this Agreement.

The City and Consultant agree that there may be certain additional services required to be performed by the Consultant during the performance of the contract that cannot be defined sufficiently at the time of execution of this Agreement. These services shall be authorized in writing as an amendment to the contract and may contain additional instructions or provide specifications upon certain aspects of this Agreement pertaining to the work to be undertaken.

SECTION 4. COMPENSATION. For Services rendered, the CITY shall pay the CONSULTANT based on their fee schedule provided. Unless otherwise agreed in a Scope of Services, the CONSULTANT shall invoice the City monthly based upon the CONSULTANT's fees for services completed during the billing period.

SECTION 5. COMPONENT PARTS OF THE CONTRACT. This Contract consists of the following contract documents, all of which are hereby made a part hereof as if herein set out in full and all of which are familiar to the Contractor:

DRAFT

A. City Advertised Bid
B. Addendums
C. Award Bid Proposal
D. Certificate of Insurance
E. Presentation of Services
F. Fee Proposal

SECTION 6. CONTROLLING LAW, VENUE, AND ATTORNEY'S FEES. This Agreement is to be governed, construed, and interpreted by, through and under the laws of Florida. Venue for any litigation between the parties to this Agreement shall be in the County of Volusia, Florida and any trial shall be non-jury. The prevailing party in any litigation arising from or related to this Agreement shall be reimbursed reasonable attorney fees and costs, including all fees and costs of an appeal.

SECTION 7. RIGHTS AT LAW RETAINED. The rights and remedies of the City, provided for under this Agreement, are in addition and supplemental to any other rights and remedies provided by law.

SECTION 8. NOTICES. Whenever either party desires to give notice unto the other, it must be given by written notice, sent by registered or certified United States mail, return receipts requested, addressed to the party for whom it is intended at the place last specified. The place for giving of notice shall remain such until it shall have been changed by written notice in compliance with the provisions of this Section. For the present, the parties designate the following as the respective places for giving of notice, to-wit:

For City:

Kelly McQuillen, City Clerk
City of New Smyrna Beach
210 Sams Ave.
New Smyrna Beach, FL 32138
(386)410-2637

For Consultant:

_____
(Name, Title)

_____
(Company)

_____
(Address)

_____
(City, State, Zip)

_____
(Phone)

SECTION 9. MODFICATIONS TO AGREEMENT. This Agreement and any exhibits, amendments and schedules may only be amended, supplemented, modified or canceled by a written instrument duly executed by both parties hereto of equal dignity herewith.

DRAFT

SECTION 10. SEVERABILITY. If during the term of this Agreement, it is found that a specific clause or condition of this Agreement is illegal under federal or state law, the remainder of the Agreement not affected by such a ruling shall remain in force and effect.

SECTION 11. WAIVER OF JURY TRIAL. The City and Consultant have specifically waived the right to a jury trial concerning any disputes which may arise concerning this agreement.

SECTION 12. EFFECT OF FAILURE TO INSIST ON STRICT COMPLAINCE WITH CONDITIONS. The failure of either party to insist on strict performance of any covenant or condition of this contract, or to exercise any option herein contained, shall not be construed as a waiver of such covenant, condition, or option in any other instance. This contract cannot be changed or terminated orally.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the date written above for execution by the City of New Smyrna Beach.

DUNS Number:

Form **W-9**
(Rev. October 2007)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give form to the requester. Do not send to the IRS.

Print or type See **Specific Instructions** on page 2.

Name (as shown on your income tax return)

Business name, if different from above

Check appropriate box: ☐ Individual/Sole proprietor ☐ Corporation ☐ Partnership
☐ Limited liability company. Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ▶ .....
☐ Other (see instructions) ▶

☐ Exempt payee

Address (number, street, and apt. or suite no.)

Requester's name and address (optional)

City, state, and ZIP code

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number

or

Employer identification number

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here **Signature of U.S. person ▶** **Date ▶**

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2. Certify that you are not subject to backup withholding, or

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

STATEMENT OF INSURANCE COMPLIANCE

The undersigned firm agrees to obtain prior to award, if selected, the insurance and levels in accordance to the requirements as set forth in the Invitation for Proposal, Invitation to Bid, or Invitation for Qualifications, or draft agreement, attached hereto.

Policies other than State Issued Worker's Compensation shall be issued only by companies authorized by maintaining certificates of authority issued to the companies by the Department of Insurance of the State of Florida to conduct business in the State of Florida and which maintain a Rating of "A" or better and a Financial Size category of "VII" or better according to the A.M. Best Company. Policies for Worker's Compensation may be issued by companies authorized as a group self-insurer by F.S. 440.57, Florida Statutes.

PUBLIC ENTITY CRIME INFORMATION STATEMENT

All invitations to bid as defined by Section 287.012(11), Florida Statutes, requests for proposals as defined by Section 287.012(16), Florida Statutes, and any contract document described by Section 287.058, Florida Statutes, shall contain a statement informing persons of the provisions of paragraph (2)(a) of Section 287.133, Florida Statutes, which reads as follows:

> **"A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or CONTRACTOR under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list."**

All vendors who submit a Bid or Request for Proposal to the City of New Smyrna Beach, are guaranteeing that they have read the previous statement, and by signing the bid documents, are qualified to submit a bid under Section 287.133, (2)(a) Florida Statutes.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

DRUG-FREE WORKPLACE CERTIFICATION FORM

IDENTICAL TIE BIDS-In accordance with Florida State Statutes Section 287.087, preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids, which are equal with respect to price, quality, and service, are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violation of such prohibition.

2. Establishing an on-going drug-free awareness program to inform employees about:
   a. The dangers of drug abuse in the workplace.
   b. The employer's policy of maintaining a drug-free workplace.
   c. Any available drug counseling, rehabilitation, and employee assistance programs, and
   d. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

3. Making it a requirement that each employee to be engaged in the performance of this contract be given a copy of the statement required by paragraph (a);

4. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under this contract, the employee will:
   a. Abide by the terms of the statement; and
   b. Notify the Employer in writing of any arrest for a violation of a criminal drug statute or driving under the influence no later than five calendar days after such arrest;

5. Notifying the City of New Smyrna Beach, in writing, within 10 calendar days after receiving notice under subparagraph (4)(b) from an employee or otherwise receiving actual notice of such arrest Consultants of arrested employees must provide notice, including position and title to: City Clerk/Administrator, City of New Smyrna Beach, 210 Sams Avenue, New Smyrna Beach, FL 32168.

6. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is arrested.
   a. Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended, or
   b. Requiring such employee to participate satisfactorily in drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State or local health, law enforcement, or other appropriate agency.

7. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (1), (2), (3), (4), (5) and (6).

As a duly authorized representative of the Vendor, I hereby certify that the Firm will comply with the above certifications.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

THIS FORM MUST BE COMPLETED AND RETURNED WITH YOUR SUBMITTAL

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(A), FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

1. THIS SWORN STATEMENT IS SUBMITTED TO City of New Smyrna Beach

by _____
(Print Individual's Name and Title)
for _____
(Print Name of Entity Submitting Sworn Statement)
whose business is _____

and (if applicable) its Federal Employer Identification Number (FEIN) is _____

2. I understand that a "public entity crime" as defined in Paragraph 287.133 (1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

    a. A predecessor or successor of a person convicted of a public entity crime; or

    b. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provisions of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders,

employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Indicate which statement applies).

_____ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, nor any affiliates of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (Attach a copy of the final order).

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES, FOR A CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

COMPLIANCE WITH EMPLOYMENT ELIGIBILITY REQUIREMENTS

(§448.095, Florida Statutes – E-Verify)

The E-Verify system is an internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees. Florida Statutes §448.095 provides that any person or entity that has entered or is attempting to enter into a contract with the City of New Smyrna Beach to provide labor, supplies or services must register with and use the E-Verify system to verify the work authorization status of all employees hired after January 1, 2021. Further, the consultant must maintain certain required employment compliance records of sub consultants for the duration of the contract with the City of New Smyrna Beach.

Consultant Name: _____

Consultant E-Verify Registration Number: _____

The undersigned, on behalf of the consultant referenced above, after first being duly sworn, states as follows:

1. That said consultant understands that the consultant must comply with §448.095, Florida Statutes.
2. That the consultant uses the E-Verify system to verify the work eligibility status of employees.
3. That the consultant has enrolled in the E-Verify system under the registration number referenced above and will verify the work eligibility status of employees hired after January 1, 2021 through said registration number throughout the contract period of any and all contracts with the City of New Smyrna Beach.
4. That the consultant will maintain affidavits of sub consultants engaged to perform work on any and all contracts with the City of New Smyrna Beach.
5. That said consultant further understands that violation of §448.095, Florida Statutes may result in lawful termination of a contract by the City of New Smyrna Beach, subjecting the consultant to liability for additional costs incurred by the City of New Smyrna Beach as a result of the termination of the contract.

INTRODUCTION

It is our extreme pleasure to introduce Hall and Ogle Architects, Inc. to the City of New Smyrna Beach selection committee. We are pleased to offer this proposal for consideration as your Design Professionals for the upcoming City of New Smyrna Beach New Fire Station Management Building project.

Hall and Ogle Architects currently has a Continuing Servicers Contract with the City of New Smyrna Beach, and we have worked with the City on other occasions as well. We welcome the opportunity to continue our relationship and play a part in the advancement of your beautiful city.

Please Accept the following Proposal in response to RFQ 16-23-CIP Professional Architectural Services, Fire Station Management Building.

Hall & Ogle Architects, Inc.

Re: Request for Qualifications Statement - RFQ 16-23-CIP
Professional Architectural Services – Fire Station Management Building
City of New Smyrna Beach, Florida

Dear Selection Committee Members:

Thank you for the opportunity to submit this statement of qualifications for providing Professional Architectural and Engineering Services for the New Fire Station Management Building.

Hall & Ogle Architects, Inc. is a Florida 'S' corporation located at 208 Magnolia Avenue, Daytona Beach, Florida, 32114. Firm Principals are John Hall, RA (President) and David D. Ogle, Jr., RA, LEED AP BD+C (Vice President). Mr. Ogle will be your Primary Point of Contact for the Fire Station Management Building project and can be reached by phone at (386)255-6163, or via email at dogle@hoarchitects.com.

Hall & Ogle Architects was incorporated in 1982, and has been in continuous operation, providing Volusia County and its municipalities Architectural Services for 41 years. We have streamlined our firm to 5 in-house employees and enlist the services of local engineering firms to round out the team required for any given project. This will benefit the City of New Smyrna Beach by keeping the Project Team local, and within close proximity of the project location.

Our primary goal is to give our clients truly outstanding service from the initial programming process though to the one-year warranty walk through inspection. Our firm's two principals are personally involved with your project and work collaboratively on the Design, Documentation and Construction Administration for a seamless flow through the entire study. You will work directly with the principals of the firm through each step of the project from conception to completion.

Additionally, our firm is committed to serving our clients through the integration of sustainable design practices. We offer an insight into what's possible within these practices and how they relate to the overall success of the project. Whether it's a project's pursuit of LEED or Equivalent Certifications, Green Design Principles and Construction Techniques, or a BIM design platform, Hall & Ogle is well positioned to meet and exceed your architectural service needs.

We are committed to developing long term relationships with our clients as their advocate in all their architectural needs, and we look forward to this opportunity to continuing our relationship with the City of New Smyrna Beach and provide you with exceptional Architectural and Engineering services.

Respectfully,

David D. Ogle, Jr., RA, LEED AP BD+C, Principal / Vice President (Primary Contact)

JOHN E. HALL

PRINCIPAL, PRESIDENT – HALL & OGLE ARCHITECTS, INC

John Hall has over 40 years of extensive experience in the design and construction administration of Community and Administration facilities. As the President of our firm, Mr. Hall's experience in the design of Administration and Public Use Facilities is an invaluable asset to Municipal Projects where community use and administrative areas are involved. His extensive 44 year experience in the design of publicly funded Municipal and Educational Facilities gives him unparalleled insight on budget and scheduling control.

PROJECT HIGHLIGHTS

HOLLY HILL REPLACEMENT FIRE STATION — 2023 - PRESENT

Holly Hill, Florida — Fire Station I Facility Design Experience

Master Planning, Design and Construction Administration of the Replacement Fire Station for the City of Holly Hill, Fl. New 6,300 sf station with 3,400 sf of support areas and 2,900 sf equipment bays and storage areas. Facility will be designed as a Level IV Essential Facility (FBC 2020) with low maintenance / high performance materials. | Principal In Charge, Project Architect

FIRST STEP SHELTER — 2017 - 2019

Daytona Beach, Florida — Community and Administrative Facility Experience

Master Planning, Design and Construction Administration of the First Step Shelter for the area's homeless population. The facility is a 120 bed, one story assistance facility providing food, shelter, clothing, and personal counseling. It also provides spaces for teaching and mental health assistance. It has dormitory style sleeping quarters with a 33/66 split between men and women. The facility also offers a full commercial kitchen and dining area, a 16 hour day Health Services Ward, and full administrative services. | Principal In Charge, Project Architect

NSB FIRE STATION 50 — 2013 - 2014

New Smyrna Beach, Florida — Fire Station I Facility Design Experience

Design and Construction Administration for an 11,000 square foot station, completed in 2014, with eight dormitories laid out in a "split" configuration, administrative offices, kitchen/dining area, and other ancillary spaces. The apparatus bay is approximately 4200 SF with three drive through truck bays as well as a standalone accessory building for additional apparatus and storage. Construction cost for this project was $3,000,000. | Project Architect

DAYTONA BEACH SHORES NEW COMMUNITY CENTER — 2016 - 2017

Daytona Beach Shores, Florida — Community and Administrative Facility Experience

This facility was designed to be a signature building for the City of Daytona Beach Shores. It had to serve many purposes from Council Chambers, to multi-purpose rooms, a Senior Center and tennis facilities. The distinctive shape and color of the roof were designed to reflect the proximity to the Atlantic Ocean just across the street and has become an iconic feature for the City. This project incorporated our standard 3-phase Project Design Approach, which benefited the owner by identifying several design options to accommodate challenging site conditions early in the design process. | Principal In Charge, Project Architect

DAVID D. OGLE

PRINCIPAL, VICE PRESIDENT – HALL & OGLE ARCHITECTS, INC

David Ogle had 20 years experience with some of the bigger architect firms in Orlando, Florida before joining the smaller, family like, Hall and Ogle in 1999. In 2006 David became a partner in the firm and is now the firm's Vice President. David has extensive experience in a wide variety of different building types including Municipal and Fire Services Facilities. He has been the instrumental component in procuring and administering Hall & Ogle's Continuing Services Contracts with the cities of Ormond Beach, Daytona Beach, South Daytona, Holly Hill, the County of Volusia, and the Volusia County School Board.

PROJECT HIGHLIGHTS

NSB FIRE STATION 50 — 2013 - 2014

New Smyrna Beach, Florida — Fire Station I Facility Design Experience

Design and Construction Administration for an 11,000 square foot station, completed in 2014, with eight dormitories laid out in a "split" configuration, administrative offices, kitchen/dining area, and other ancillary spaces. The apparatus bay is approximately 4200 SF with three drive through truck bays as well as a standalone accessory building for additional apparatus and storage. Construction cost for this project was $3,000,000. | Principal in Charge, Project Manager

WESTSIDE ELEMENTARY SCHOOL – MASTER PLAN / ADDITIONS/ RENOVATIONS — 2016 – PRESENT

Daytona Beach, Florida — Educational Facility Experience

Master planning, design and construction administration of extensive renovations and additions to an existing occupied campus. Renovations include complete reconfiguration of parent drop off parking and bus loop areas, and alternate provisions for remodeling of the existing food service/ multi-purpose and administration areas. Additions include a new 5,400 sf Administration Building, a new 10,400 sf Classroom Building, a new 14,000 sf Food Service/ Multi-purpose Building. This was a phased project on a challenging, occupied campus. | Project Architect, Project Manager

FLAGLER AVENUE LIGEGUARD STATION — 2015 - 2016

New Smyrna Beach, Florida — Innovative Concepts / Municipal Project

2,000 sf New Lifeguard Station Facility for the City of New Smyrna Beach. The facility includes a large garage space, law enforcement office, first aid area. And shower / locker room facilities. Construction cost $650,000. | Principal In Charge, Project Architect, Project Manager

ERAU – HAGEDORN AVIATION COMPLEX — 2009 - 2011

Daytona Beach, Florida — Educational Facility / Administrational Facility Experience

New, state of the art, 100,000 SF three building school for the private university. Includes a one-story flight maintenance hanger, a two-story flight operations center, and a three-story aircraft maintenance laboratory building. This $15.5 million project, completed in 2011, serves as the nerve center for ERAU's prominent flight and aircraft maintenance programs. | Principal In Charge, Project Architect, Project Manager

SCHYLER CERQUEIRA

DESIGNER/ INTERN ARCHITECT – HALL & OGLE ARCHITECTS, INC

Schyler Cerqueira graduated with her Master of Architecture in 2020 from Ball State University in Indiana. She interned with two firms during her schooling and after graduation moved to Florida to start her professional career at Hall & Ogle Architects. Schyler has 4 years of experience in a wide variety of building types and provides ample knowledge of CAD, BIM and 3D modeling to the firm and is currently going through the NCARB registration process to become a licensed architect.

PROJECT HIGHLIGHTS

HOLLY HILL REPLACEMENT FIRE STATION — 2023 - PRESENT

Holly Hill, Florida — Fire Station I Facility Design Experience

Master Planning, Design and Construction Administration of the Replacement Fire Station for the City of Holly Hill, Fl. New 6,300 sf station with 3,400 sf of support areas and 2,900 sf equipment bays and storage areas. Facility will be designed as a Level IV Essential Facility (FBC 2020) with low maintenance / high performance materials. | Intern Architect, CAD Designer, BIM Modeling

WOODWARD AVE. ELEMENTARY RENOVATIONS AND ADDITION 2021 - PRESENT

Deland, Florida — Educational Facility Experience

Master planning, design and construction administration of extensive renovations and additions to an existing occupied campus. Renovations include complete reconfiguration and expansion of parent drop off parking, remodel of existing administration into new classrooms, and complete remodel of the media center. Additions include a new 5,600 sf Administration Building, a new 17,000 sf Classroom Building, and a new 14,500 sf Food Service/ Multi-purpose Building. This was an extensive and challenging project on an occupied campus. | Intern Architect, CAD Designer, BIM Modeling

MUSEUM OF ART DELAND – SCHEMATIC DESIGN FOR EXTERIOR AND INTERIOR RENOVATION AND ADDITION — 2022 - 2023

Deland, Florida — Museum Design Experience

Master planning and schematic design of extensive renovations and an addition to an existing museum. Renovations include remodel of the interior lobby, reconfigured receiving/ vault space, modifying restrooms per ADA compliance, and updating interior/ exterior colors and finishes. Additions include a 1,250 sf office suite on the second floor. Detailed 3D modeling was completed to provide client with still and panoramic renders for fundraising. | Intern Architect, CAD Designer, BIM Modeling

FIRST STEP SHELTER – COVID-19 RENOVATIONS — 2021 - 2023

Daytona Beach, Florida — Community Facility Experience

Design and construction administration of renovations to an existing occupied shelter. Renovations were split into #8 items. These included an operable wall, new isolation intake area, upgrading plumbing fixtures, air purification units, hand sanitizers, (3) covered porch areas, an emergency generator, and (1) tensile shade structure. This was a challenging project having to work around a shelter occupied 24/7 by residents. | Intern Architect, CAD Designer

JOSEPH BURLEY

PRODUCTION TECHNICIAN– HALL & OGLE ARCHITECTS, INC

Joseph Burley started in the construction field as a carpenter's apprentice in 1980 while a member of the local Carpenter's Union. He worked as a carpenter and steel worker until he earned his first A.S. degree in Architectural Design and Construction Technology thru DBCC, returning to complete additional degrees in Building and Contracting Technology, and Drafting and Design Technology before joining Hall and Ogle Architects in 1990. Mr. Burley is instrumental in the production of CAD and 3D Rendering production and documentation, as well as providing I.T. services for the company.

PROJECT HIGHLIGHTS

NSB FIRE STATION 50 — 2013 - 2014

New Smyrna Beach, Florida — Fire Station Experience

Document Production and 3d Renderings for the 11,000 square foot station, completed in 2014, with eight dormitories laid out in a "split" configuration, administrative offices, kitchen/dining area, and other ancillary spaces. The apparatus bay is approximately 4200 SF with three drive through truck bays as well as a standalone accessory building for additional apparatus and storage. Construction cost for this project was $3,000,000. | CAD Production Technician

DAYTONA BEACH SHORES COMMUNITY CENTER
2016 – 2017

Daytona Beach, Florida — Administrative Facility Experience

The City of Daytona Beach Shores was in need of replacing an aging and outdated community center facility, and contracted with Hall & Ogle to provide the design services. The city wanted a building that would reflect their recognition as a beachside community, and emphasize the city slogan "Life is Better Here!".The final design was achieved through multiple meetings with the city officials, where several design options were presented. Mr. Burley was responsible for providing photorealistic renderings mapped onto photographs of the actual site, as well as production of schematic, design development and construction CAD drawings.

FLAGLER AVENUE LIFEGUARD STATION — 2015 - 2016

New Smyrna Beach, Florida — Innovative Concepts / Municipal Project

Document Production and 3d Renderings for the 2,000 sf New Lifeguard Station Facility for the City of New Smyrna Beach. The facility includes a large garage space, law enforcement office, first aid area. And shower / locker room facilities. Construction cost $650,000. | CAD Production Technician

Daytona Beach Police Headquarters Facility — 2006 - 2008

Daytona Beach, Florida — Administrative Facility Experience

Document Production and 3d Renderings for the new three-story 96,000 SF building for the City of Daytona Beach. This facility provides the latest technology for the Daytona Beach Police Department. The $22.6 million project was completed in 2008 and received numerous accolades. Mr. Burley was responsible for providing photorealistic renderings to be used for City Council design approval, as well as production of schematic, design development and construction CAD drawings. | CAD Production Technician

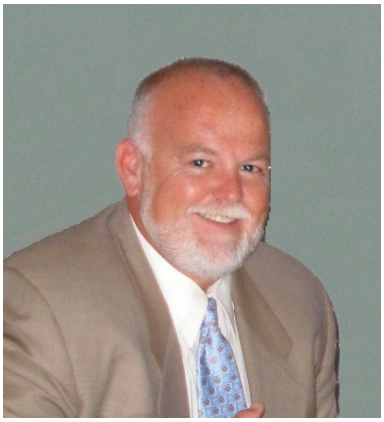
TEAM ORGANIZATIONAL CHART

CITY OF NEW SMYRNA BEACH
FIRE STATION MANAGEMENT BUILDING

CONSULTANT LIST

Hall and Ogle utilizes local engineering firms to round out the design team for any given project. This gives us the ability to tailor fit the team that is best suited for the project based on availability, workload, expertise and experience. The sub-consultants selected for the New Fire Station Management Building project are as follows:



DISCIPLINE	CONSULTANT	ADDRESS	FREQUENCY OF USE
CIVIL ENGINEERING / LANDSCAPE ARCHITECTURE	PARKER MYNCHENBERG AND ASSOCIATES	1729 RIDGEWOOD AVE., HOLLY HILL FL. 32117	100% FOR DURATION OF PROJECT
STRUCTURAL ENGINEERING	MS STRUCTURAL ENGINEERS	400 S. ATLANTIC AVE., ORMOND BEACH FL. 32176	100% FOR DURATION OF PROJECT
MECHANICAL, PLUMBING AND ELECTRICAL ENGINEERING	SGM ENGINEERING, INC.	935 LAKE BALDWIN LANE, ORLANDO FL. 32814	100% FOR DURATION OF PROJECT

PARKER MYNCHENBERG AND ASSOCIATES
Incorporated in 1984, Parker Mynchenberg and Associates has been an award winning Central Florida Civil Engineering firm for over 39 years. Located in Holly Hill Florida, PMA's role will be to provide Civil Engineering and Landscape Architecture services for the New Fire Station Management Building project. As a primary design team member, their frequency of use will be on an as needed basis, but will be responsible for 100% of the contracted services for the duration of the project.

MS STRUCTURAL ENGINEERS
Located in Ormond Beach Florida, John Simko has been the Principal for MS Structural Engineers Florida office for 23 years. His role will be to provide Structural Engineering services for the New Fire Station Management Building project. As a primary design team member, their frequency of use will be on an as needed basis, but will be responsible for 100% of the contracted services for the duration of the project.

SGM ENGINEERING, INC.
Incorporated in 1991, SGM has numerous years of experience in servicing governmental projects of a large variety of types for federal, state and municipal agencies. SGM is well experienced in all aspects of MEP systems for renovations, additions, and new facilities with knowledgeable emphasis on codes and energy conservation requirements. Their role for this project will be to provide MEP evaluation, design and commissioning of all Mechanical, Electrical, Fire Protection and Plumbing systems. As a primary design team member, their frequency of use will be on an as needed basis, but will be responsible for 100% of the contracted services for the duration of the project.

Parker Mynchenberg, P.E., R.L.A.

Principal Engineer

Parker Mynchenberg founded Parker Mynchenberg & Associates in 1984 and has served as the Principal in Charge since the firm's founding. Parker is one of the areas leading Civil Engineers and Landscape Architects with a proven track record of successful projects for clients throughout Volusia and Flagler Counties. Parker's design and permitting experience includes hundreds of municipal projects including site plans, parks, roadways and landscaping constructed within Volusia and Flagler Counties.

Project Experience

Beach St Streetscape – City of Daytona Beach
Redevelopment of the main thoroughfare in downtown Daytona Beach. Phase 1 of the project is complete from Orange Ave to Bay St and Parker Mynchenberg & Associates was selected for Phase 2 from Bay St. to Fairview Ave and MMB form Beach St to US-1. The Phase 1 project included roadways design, lighting, parking, sidewalks, landscaping, stormwater improvements, water and sewer improvements.

Embry-Riddle Aeronautical University Welcome Center - City of Daytona Beach
Design of Jim W. Henderson Administration and Welcome Center. The project consisted of a 2-story, 37,454 SF welcome center building with eight (8) covered parking stalls, 45 additional parking stalls, additional drainage, utility, ornamental pond, landscape, irrigation, and reuse improvements.

Plantation Oaks of Ormond Beach – City of Ormond Beach
Residential subdivision of 1,577 single family units over 1,000 acres. The water and wastewater utility systems include a regional expansion of the City's utility system. The water system includes looping of the potable water system North from US-1 along Plantation Oaks Blvd. The wastewater collection system includes eight (8) lift stations with a manifolded force main system and a master lift station.

Tomoka North – City of Daytona Beach
Commercial subdivision located north of LPGA Blvd west of Williamson Blvd. The design includes new roadways, sidewalks, stormwater, landscaping, water and sewer system improvements. The water system includes 7,700 LF of 12" PVC water main. The wastewater collection system includes 5,000 LF of gravity collections system, a portion of the development is served by an existing City lift station and the remainder is served by one (1) new lift station. The force main improvements include 8" PVC force main to tie-in to the City's 12" force main in the Williamson right-of-way.

Tomoka Town Center – City of Daytona Beach
The project included the design and permitting of a new outlet mall and all supplemental elements including but not limited to parking, landscaping, utility extensions, roadway improvements and stormwater management. The stormwater design includes stormwater conveyance and treatment systems that meet nutrient removal requirements. The stormwater system includes wet ponds, interconnected by large diameter RCP, and two (2) triple box culvert bridges over an existing drainage ditch.

Steve Buswell, P.E., R.L.A.

Senior Project Engineer

Steve Buswell is a Professional Engineer and Registered Landscape Architect specializing in land development and utility design. Steve's responsibilities include project management, technical design and permitting for public and private clients. Steve excels at administration of municipal projects including bidding services, construction administration and closeout document coordination. Steve has completed many utility systems within the Volusia and Flagler County including hydraulic modeling, distribution and collection system sizing, final design and permitting.

Project Experience

S.R. 44 Sanitary Sewer Improvements – Utilities Commission City of New Smyrna Beach

An extension of the Utilities Commission City of new Smyrna Beach's wastewater collection system. Steve oversaw design, permitting, bidding and construction phase services for these improvements. The project scope included 2,800 LF of gravity collection system, a new submersible lift station and approximately 1,600 LF of force main. This project was complete as part of a Professional Services Agreement with the City of New Smyrna Beach.

Osprey Pointe Apartments – City of Port Orange

Design of a 360-unit multifamily project with clubhouse. The site design included more than 13,000 LF of potable water mains ranging in size from 3"-12". The potable water system included two (2) connections to the City of Port Orange's water distribution system. The wastewater system included the gravity collection system and a new lift station designed to City standards.

Lift Station #3 – Embry Riddle Aeronautical University

Replace an existing lift station with a new submersible lift station with backup power. The new submersible lift station included a comminutor adjacent to the new wet well to reduce pump ragging. The design included a new force main, tie-ins, and construction sequence for the existing station to remain in service until startup and testing were complete for the new lift station.

Napier Apartments – City of Daytona Beach

Design of a 260-unit multifamily project. The site design included more than 11,000 LF of potable water mains ranging in size from 2"-12". The wastewater collection system includes more than 4,000 LF of gravity collection piping and a new lift station.

First Step Shelter – City of Daytona Beach

Steve completed the site design, permitting and construction phase services for the First Step Shelter. The utility improvements included a wastewater collection system with 1,500 LF of gravity collection pipe and a submersible lift station with backup power. The potable water system includes 2,400 LF of pipe and connection to the City's utility system in the FDOT right-of-way for US-92.

Marsh Pointe – St. Augustine

Residential subdivision that included a potable water system of 2,500 LF of 8" PVC. The improvements included extending the City's distribution system within the existing right-of-way with open cut and directional drill pipe installation. A hydraulic model was prepared to demonstrate the system extension would provide adequate flow for potable and fire flow demands.

NAME	ROLE IN THIS CONTRACT	YEARS EXPERIENCE	
John P. Simko, PE	Structural Engineer Principal-in-Charge Project Manager	TOTAL 40	WITH CURRENT FIRM 15

FIRM NAME AND LOCATION *(City and State)*

MS Structural Engineers / Ormond Beach, Florida

EDUCATION *(DEGREE AND SPECIALIZATION)*	CURRENT PROFESSIONAL REGISTRATION *(STATE AND DISCIPLINE)*

BOBBY SHAHNAMI, PE, CXA, LEED AP BD+C

President; Senior Mechanical/Plumbing/FP Engineer

SGM ENGINEERING

Mr. Shahnami, President of SGM Engineering has extensive experience in program, business development, project, construction management and capable of managing several projects simultaneously in the fields of Mechanical, Plumbing, and Fire Protection Engineering. Having worked on over 3000 projects with SGM he has a clear understanding of the design and construction sectors.

Mr. Shahnami has a diverse blend of public and private sector senior management and executive leadership experience providing creative strategic solutions to his clients and projects throughout his 24-year career. As President of SGM Engineering he is responsible for the overall performance of the firm and is engaged everyday with clients and projects.

His public, municipal and government facility experience includes having been the Engineer of Record for projects throughout Central, South and North Florida including projects for Orange, Manatee, Osceola, Lake, Voluisa, and Miami-Dade Counties, the Cities of Miami, Fort Lauderdale, Tampa, Orlando and Jacksonville, Florida.

He has experience with over 300 comprehensive public-based projects totaling over $1.3B in construction value. Additionally, Mr. Shahnami has completed over 150 public projects as a prime consultant, and boasts over 24 years' experience in Commissioning, Engineering, and MEP Quality Control in the Public Facility sector. His experience also includes providing energy savings of 50% above ASHRAE 90.1 standards, has extensive hydronic and airside troubleshooting experience, and able to seamlessly link BACnet, LonTalk, Modbus and other common open protocol devices into a single system.

HOLLY HILL REPLACEMENT FIRE STATION

Owner: City of Holly Hill, Florida

Contact: Steve Juengst
Department of Public Works
453 LPGA Blvd. Holly Hill, Fl 32117
sjuengst@hollyhillfl.org I (386)-248-9463

Master Planning, Design and Construction Administration of the Replacement Fire Station for the City of Holly Hill, Fl. New 6,300 sf station with 3,400 sf of support areas and 2,900 sf equipment bays and storage areas. Facility will be designed as a Level IV Essential Facility (FBC 2020) with low maintenance / high performance materials. This project would be similar in scope to the new Fire Station Management Building if it is determined that the existing structure is to be demolished.

Project Status: 90% Construction Documents

Role of Key Personnel:

John E. Hall	Primary Contact, Project Lead, Project Architect
Schyler Cerqueira	Cad Production, 3d Modeling

NEW SMYRNA BEACH FIRE STATION 50

New Smyrna Beach, Florida 32168
kresheidat@cityofnsb.com
(386)-248-9463

Hall & Ogle designed Fire Station NO. 50 for the City of New Smyrna Beach. This 11,000 square foot station, completed in 2014, has eight dormitories laid out in a "split" configuration, administrative offices, kitchen/dining area, and other ancillary spaces. The apparatus bay is approximately 4200 SF with three drive through truck bays as well as a standalone accessory building for additional apparatus and storage. Construction cost for this project was $3,000,000. This project would be similar in scope to the new Fire Station Management Building if it is determined that the existing structure is to be demolished.

Project Status: Completed 2014

Role of Key Personnel:

David D. Ogle	Primary Contact, Project Lead, Project Architect
John E. Hall	Project Architect
Joseph Burley	Cad Production, 3d Modeling

FLAGLER AVENUE LIFEGUARD STATION

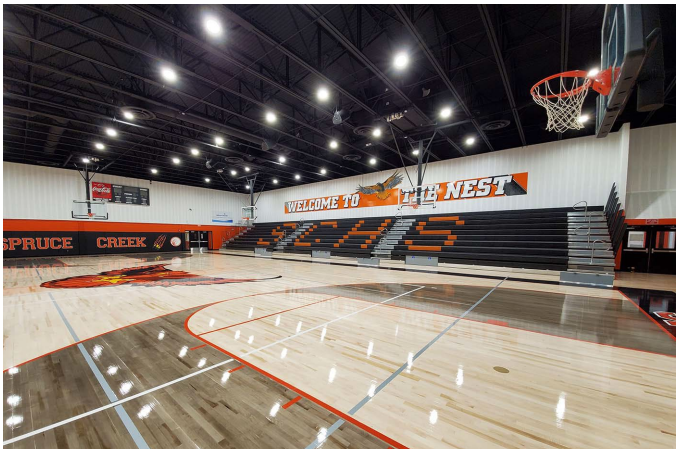
Contact: Facilities Management
3811 Tiger Bay Road
Daytona Beach, Florida 32124
Jose' Alvarez – JAlvarez@co.volusia.fl.us
386-248-1760



Hall & Ogle was selected to design the new Flagler Avenue Lifeguard Station for Volusia County's Beach Safety Department located in New Smyrna Beach. A block away from Flagler Avenue, the 2,000 SF facility includes a large garage space, law enforcement office, staff office, kitchen, first aid area, and shower/locker room facilities. This project would be similar in scope to the new Fire Station Management Building if it is determined that the existing structure is to be demolished.

Project Status: Completed 2016

SPRUCE CREEK HIGH SCHOOL GYMNASIUM RENOVATIONS

Owner: Volusia County Schools
Contact: Thomas Brown
300 Olson Drive
Daytona Beach, Florida 32124
tbrown@volusia.k12.fl.us
386-947-8786x50822

Hall & Ogle was selected to provide Design and Construction Administration for an extensive remodel to the existing Gymnasium at Spruce Creek High School. The scope of work included removal and replacement of the existing wood flooring, removal and replacement of the existing wood bleachers with new state of the art retractable bleacher seating with high performance plastic seating. The entrance doors in the gym were replaced and the entire gym was repainted. The scope also included all new HVAC equipment (rooftop mounted), all new LED lighting, and new electrical panels for control of the bleachers. The entire gymnasium was repainted from top to bottom, including custom painted logos on the gymnasium flooring. This project would be similar in scope to the new Fire Station Management Building if it is determined that the existing structure is to be renovated.

Project Status: Completed 2020

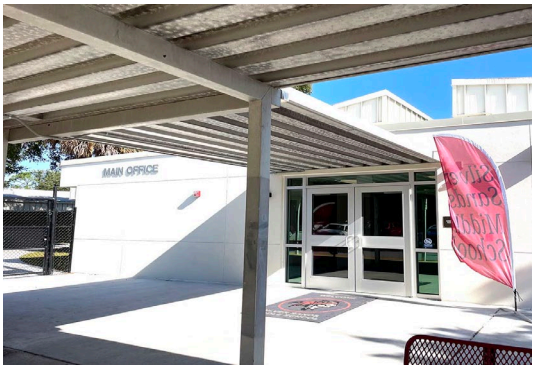
Role of Key Personnel:

David D. Ogle	Primary Contact, Project Lead, Project Architect
Joseph Burley	Cad Production

DAYTONA BEACH SHORES COMMUNITY CENTER

Owner: The City of Daytona Beach Shores, Florida
Contact: Kurt Swartzlander, City Manager
2990 S. Atlantic Avenue
Daytona Beach Shores, Florida 32124
kswartzlander@cityofdbs.org
386-248-1760

This 16,600 sf facility was designed to be a signature building for the City of Daytona Beach Shores. It had to serve many purposes from Council Chambers, to multi-purpose rooms, a Senior Center and tennis facilities. The distinctive shape and color of the roof were designed to reflect the proximity to the Atlantic Ocean just across the street and has become an iconic feature for the City. Construction cost for this project was $5,629,816.
This project would be similar in scope to the new Fire Station Management Building if it is determined that the existing structure is to be demolished.



Project Status: Completed 2018

Role of Key Personnel:

David D. Ogle	Primary Contact, Project Lead, Project Architect
John E. Hall	Project Architect
Joseph Burley	Cad Production, 3d Modeling

SILVER SANDS MIDDLE SCHOOL
SECURITY AND ADMINISTRATION RELOCATION

Owner: Volusia County Schools
Contact: Thomas Brown
300 Olson Drive
Daytona Beach, Florida 32124
tbrown@volusia.k12.fl.us
386-947-8786x50822

Hall & Ogle was selected to provide the Master Planning, Design and Construction Administration of security upgrades, relocated Administration Offices and relocated Computer Labs to an existing occupied campus. Renovations include relocating the existing Administration offices to another building at the front of the campus, and renovating the vacated building to provide new Computer Lab Classrooms. This project was completed on a challenging, occupied campus.
The renovation portion of this project would be similar in scope to the new Fire Station Management Building if it is determined that the existing structure is to be renovated.

Project Status: Completed 2021

Role of Key Personnel:

David D. Ogle	Primary Contact, Project Lead, Project Architect
John E. Hall	Project Architect
Joseph Burley	Cad Production, 3d Modeling

David D. Ogle
Project Architect
Project Administration

1. Description:

Hall & Ogle was selected to provide Design and Construction Administration for the new Greyhound Terminal Replacement in Daytona Beach. The project included demolition of the existing aged terminal, extensive site planning and traffic access reconfiguration. A very interesting and visible project, the new Greyhound Terminal Replacement came in on time and in budget at a construction cost of $1,326,226. We believe this project would be similar in scope to the new Fire Station Management Building if it is determined that the existing structure is to be demolished.

2. Type of Service Performed:

Hall & Ogle was contracted to provide full Architectural and Engineering services for this project. Our contract also included Construction Administration through the construction phase.

3. Delivery Method:

Construction Manager

4. Start / Finish Date

Architect/ Prime:
Hall & Ogle Architects, Inc.
208 Magnolia Ave.
Daytona Beach, Florida 32114
David D. Ogle, Project Architect, Project Administration

1. Description:

The Hope Place Library is being constructed on the site of the old Hurst Elementary School in Daytona Beach. The 5,000 sf structure is being built in the same location of the original Kindergarten building that was partially demolished and will serve as a regional library to serve the surrounding neighborhoods as well as the Hope Place Shelter being built by Volusia County.

This project design and construction was to be executed while other construction and activities were being conducted, making this a challenge in coordination. The design also needed to be able to meet the needs of the neighborhood and the shelter for seamless operation. At a construction cost of $800,000, it also utilized the CM method of delivery. This project would be similar in scope to the new Fire Station Management Building if it is determined that the existing structure is to be demolished.

David D. Ogle
Project Architect
Project Administration

1. Description:

The Osteen Fire Station No. 36 was in need of an expanded space to house new and larger fire containment vehicles as well as expanding the dormitory space for additional crew. The expansion included addressing circulation areas to meet Life Safety requirements, a new gear storage room, Decon area, and a new SCBA storage room. The existing apparatus bay was increased by over 900 square feet, with renovations to the existing kitchen, bathroom areas, and roof system. The building also received new impact rated windows and doors. Completed in 2019 for a construction cost of $813,182. We believe this project would be similar in scope to the new Fire Station Management Building if it is determined that the existing structure is to be renovated.

RE: Letter of Reference – Hall & Ogle Architects Inc.

To Whom it May Concern:

I have had the pleasure of working on numerous projects with Hall & Ogle Architects Inc. since 2012. In each of these projects, Hall & Ogle have developed detailed plans and specifications capturing the vision of the City of Holly Hill. They have always shown excellent communication and have kept strong oversight of contractors' work.

Among the jobs that Hall and Ogle have helped the City include our Market renovations, multiple roof repairs and replacements, providing work within the confines of grants received, and most recently the interior build-out of a Public Works building and design of a new Fire Station.

The attention to detail when developing plans and asking the right questions to ensure that the City's vision is being met has always impressed me when working with the Hall & Ogle Team. Their contract administrative management ensuring that work is being done according to design has likewise been outstanding.

I highly recommend Hall & Ogle Architects Inc to your agency, and believe that they will help bring your vision to life. If you would like any additional information about Hall & Ogle, please feel free to contact me.

Sincerely,

Steven Juengst

First Step Shelter
3889 W. International Speedway Blvd.
Daytona Beach, Florida 32114
victoriafahlberg@firststepshelter.org | 978-761-9952

Description:
Hall & Ogle was tasked to design the new First Step Shelter in Daytona Beach. Management of the new shelter was turned over to the First Step Shelter Organization following its completion in 2019, and its evolution continues with the Emergency Shelter Renovations. Hall and Ogle was selected to continue design services to add additional capabilities and upgrades to a very successful shelter project, similar in scope to the proposed Fire Station Management Building project.

Comments:

Hall & Ogle designed the First Step Shelter and oversaw the project every step of the way. I became acquainted with John Hall in 2019 when I was hired to run the newly opened emergency shelter. In 2020 I applied for and received a grant for $818,000 to improve and upgrade the facility and I sought out Hall and Ogle to further this project along after having already done such great work here. Hall & Ogle designed the project for these upgrades and again oversaw every aspect. Near the end of the project the General Contractor encountered problems that led to challenges for the to finish the project. John Hall did an outstanding job as our advocate with the contractor. Hall & Ogle met my expectations and more. We are now in the process of developing another project that will include some small units of affordable housing. There is only one firm I want – Hall & Ogle – because I have complete confidence in their ability to do what it takes to get the job done and to be sure that absolutely everything is complete.

From: James Bland, Fire Chief
Date: May 11, 2023
Subject: Recommendation

Please consider this letter as a recommendation for Hall and Ogle Architects, Inc. I have had the pleasure of personally working with this firm on multiple occasions for the planning, design and construction administration of new fire stations. The first station was Daytona Beach Fire Station 7 located on LPGA Boulevard. The station was designed and built in the late 2000's. Our current project is a replacement station for the City of Holly Hill. Thanks to the talented design, and well thought recommendations of Hall and Ogle, these stations are projected to serve the department and community for the next 50 years and beyond with little or no modifications.

John and the rest of the team at Hall and Ogle have answered every call, request for change, and any questions we have had, promptly and professionally with the best interest of the City in mind. I have no hesitation in recommending Hall and Ogle Architects for your upcoming project.

Please let me know if you have any questions or need further information regarding this recommendation.

Regards,

James R. Bland, Fire Chief

Description:
Hall & Ogle has maintained a close working relationship with Volusia County Schools for over 41 years. During that time, we have successfully completed projects from small maintenance upgrades to new schools with budgets exceeding 30 million dollars. We have maintained a continuing services contract for our entire working relationship, and continue to provide sound architectural services and successful projects, delivered on time and in budget. The range of projects completed for Volusia County Schools would include those that are similar in scope and size of the proposed Fire Station Management Building project.

Comments:
Hall and Ogle has been an outstanding partner with Volusia County Schools and has provided architectural services that have exceeded all expectations. They have always been very responsive and have served our district with the highest level of professionalism you could expect. The one thing that has set them apart from other firms is the fact that we have always worked directly with a principal of the firm from the start to the finish of a project whether it was a small renovation or a campus replacement. We look forward to continuing our relationship with Hall and Ogle and to completeing many more successful projects.

Hall & Ogle has maintained a Continuing Services Contract with the County of Volusia for over 19 years. During that time, we have completed numerous projects ranging from mechanical upgrades, to public restroom facilities, fire stations, and lifeguard facilities. All successful projects, similar in scope to the proposed Fire Station Management Building project, delivered on time and in budget.

Comments:

As described above, Hall & Ogle has provided Architectural/Engineering (A/E) services to the County of Volusia on a continuous services contract for the last several years (+5). They consistently meet the terms of the contract by completing assigned projects on time and within budget, responding in a timely manner to communications and inquiries, providing adequate staff to manage the workload of the assigned projects, and adequately managing sub-consultants or subcontractors. Our level of confidence remains high in using Hall & Ogle in the future. Overall, our evaluation of Hall & Ogle is very positive.

Project Approach / Management

Hall & Ogle uses a holistic team approach in developing our projects with our engineering team providing their expertise from Pre-Design through Post Construction. The consultant team we have assembled for the New Smyrna Beach Fire Station Management Building project are aware of and agree with our approach to project coordination, documentation production, and construction administration.

The flow outline listed below addresses items pertaining to Design Reviews and Coordination, Permitting, Scheduling and Phasing, Budgeting, and Contract Administration. These items are interconnected throughout all phases of the project, and it has been our experience that by phasing the project in the following manner a more streamlined development and control of these items is achieved.

1. Pre-Design Phase: (Design Reviews/ Scheduling and Phasing/ Budgeting)

   Meet with the NBS key personnel for this facility focusing on the following:

   a. Review basic programming needs/functions that staff has determined to be the core needs for the project.
   b. Help staff develop spatial requirements for each key function.
   c. Help staff to review adjacencies/work/people flow requirements for all functions.
   d. Review with NSB services staff what works/doesn't work for them, ensuring an efficient well functioning design.
   e. Review programmatic growth needs for the next 10/25 years.
   f. Review project size/function with requirements of project budget. Develop project alternates for methods of ensuring facility stays in budget.
   g. Review site constraints/opportunities with staff, developing concepts that best maximize opportunities and minimizing the constraints, also turning constraints into opportunities to best leverage owner's needs/budget.
   h. Develop proposed methods for accommodating facility occupation and continued use during demolition and construction phases of the project.
   i. Prepare initial Pre-Design Report and Proposal/ Recommendations for Owner's review and approval.

2. Document Production: (Design Reviews/ Scheduling and Phasing/ Budgeting/ Permitting)

   Develop design and construction documents for the project in the following traditional sequence of phases:

   a. Schematic / preliminary design phase: Development of schematic/preliminary design concepts for the project to include alternate concepts for the Owner's review and approval. Review approved concept for adherence to Owner's Construction budget and schedule.
   b. Design Development Phase: Development of the approved concept to include evaluation of proposed site development/ improvements, energy efficient exterior envelopes/ fenestration options and energy efficient mechanical HVAC/ electrical systems that your facilities department can easily maintain through the life of the facility. Complete review of proposed construction, materials and HVAC/ plumbing/ electrical systems and site development costs for adherence to Owner's construction budget and schedule. Provide Construction Manager design development document for preparation of the initial Guaranteed Maximum Price. Begin review coordination with NSB Facilities Director and Building Officials to insure project conformity to NSB standards and code compliance.

c. Construction Document Phase: Completion of complete/ accurate and well coordinated construction/ bidding documents and specifications. Work hand in hand with Construction Manager to provide an updated GMP. Work with NSB staff to provide products/ systems that are durable/ low maintenance and with-in the capabilities of staff to maintain and operate. Review final documentation/ design with NSB Building Officials to insure project conformity to NSB standards and code compliance.

d. Bidding Phase: Assist the Construction Manager during the bidding of the project, for adherence to the requirements of the bid documents and specifications. Review and evaluate bid alternates provided in construction documents to maintain project budget. If required, provide revised documents for cost reduction and/or budget adherence. Confirm receipt of all permits required for construction of the project.

3. Construction Administration Phase: (Contract Administration)

a. Conduct weekly construction progress/ review meetings with the Owner's representative and the Construction Manager at the job site during the construction phase of the project.
b. Provide interpretations of the contract documents as required by the Owner or Construction Manager, and provide resolution of any construction issues that may arise during construction.
c. Provide weekly inspections of Work in Place for adherence to the contract documents and specifications.
d. Provide weekly construction inspection reports to the Owner and Construction Manager. Provide timely and thorough shop drawing review of all required items.
e. Attend all pre-construction meetings on major building elements and systems.
f. Provide a team player approach to all RFI's and resolution (with required documents) of any construction issues with the owner's interest in full focus, not to hinder or delay the construction schedule and minimize any additional cost to the owner.
g. Provide inspection and punchlists for all work in place at the completion of the projects' construction.
h. Review all of the required close-out documents submitted by the Construction Manager, for the project to include: 'as-built' drawings (digital format), Owner's operation/ maintenance manuals, and project warranties.
i. Confirm completion and provide final acceptance of Work in place for Owner's use of the project.

4. Warranty Period Services: Provide inspection of project at end of Construction Manager's warranty period (typically 1 year) to identify any construction, materials, or systems difficulties. Provide one year warranty inspection report to Owner and Construction Manager. Confirm all required corrective work.

Section VI.E – Item B *"Approach to be taken with working with the City of New Smyrna Beach"*

The approach to be taken for the new NSB Fire Station Management Building project will begin by meeting with the project officials to refine the scope of work, and lay out plans and project milestones moving forward. We will then evaluate the existing building from both condition and suitability standpoints.

Once the evaluation is complete, we will again meet with the project officials to determine the ultimate direction of the project, timeframe and budget criteria. At this point we will develop a refined project schedule and proceed with our 3-Phase project Approach outlined previously.

Section VI.E – Item C *"List any innovative approaches or techniques your firm has implemented to ensure project schedule adherence. "*

Hall and Ogle's 41 year history has given us tremendous insight into the complexities of project scheduling, as well as what is necessary to adhere to that schedule. We believe in open communication with all project stakeholders, and that communication includes identifying realistic timeframes. In our initial meetings with the project officials, we will help create a realistic project schedule from the very beginning, one that our over 41 years experience tells us is achievable.

That experience has not been stagnant, Hall and Ogle has always maintained a position on the forefront of technology. We have refined our abilities over those 41 years into a streamlined production process that includes the use of the latest CAD software and equipment. We employ visualization tools such as Autodesk Revit and Sketchup to aid in the design process, virtually eliminating unforeseen surprises in new construction and design conflicts. Time is no longer wasted chasing conflicts between consultants or design disciplines.

In addition to our highly trained and experienced production personnel, the Firm Principals are also fluent in the CAD software and are also part of the production team. This ensures production continuity throughout the duration of the project.

Our track record speaks for itself, we have over 41 years of experience in projects ranging from $50k to over $30M in construction cost, small renovations to entire school campuses, all brought in on time and in budget.

Section VI.E – Item D *"Discuss your firm's cost estimating procedure and how you integrate new ideas or methodologies to assist your client in achieving a cost-effective project."*

In the past, Hall & Ogle has relied on industry standard estimating methods along with collaborating with local construction firms to be able to accurately predict a project construction cost. Due to the extreme volatility of the construction market in recent years we have moved to utilizing Cost Estimating firms that have the most up-to-date resources to predict construction climate and supply impacts to a project's budget, and provide us with detailed, accurate construction cost predictions.

Our procedure is to enlist the estimating firm from the beginning of the project so as to keep abreast of impacts to the project budget with regards to design revisions and/or revisions to project scope.

Section VI.E – Item E *"Examples of reports that would typically be made available to the City, if applicable"*

From our Firm's inception in 1982, Hall and Ogle has maintained that the practice of open lines of communication is one of the most critical components of a successful project. All project related items that could affect the design, schedule, construction or budget are considered critical path components that need to be addressed and/or communicated by all stakeholders involved. To that end, the City of New Smyrna Beach would be included in the communication pool for any and all investigative reports and documentation concerning the project including:

- Soils and Site Analysis
- Existing Building Evaluation
- Budget Predictions
- Production Documentation
- Lighting and/or Environmental Studies (if applicable)
- Projected Operating Costs (if applicable)
- Construction progress and field reports

Any additional reports that we require to aid in the design and construction would be made available to the City as well.

Section VI.E – Item F *"Competitive advantage: A summary of key elements that differentiate your proposed approach, company, customers, etc., from your competition"*

We believe we are the right choice for the new NSB Fire Station Management Building project for the following reasons:

- Hall and Ogle Architects is contracted with the City of New Smyrna Beach for Continuing Services, and was also the Architect of Record for the adjacent Fire Station 50. As such, we are intimately knowledgeable about the site, area, traffic patterns and surrounding environment as a whole for this project, and are very familiar with the requirements, procedures, and expectations of the municipality.
- As a small firm, we are able to provide directed focus to our projects. Our firm principals work collaboratively and both are directly involved with the project. One will be the project lead architect, and you will communicate directly with him throughout the duration of the entire project.
- Our project approach has been developed and refined over the course of our 41 year history as an Architectural Firm, and we enjoy a track record of consistently bringing in projects on time and in budget.
- We are local to the area, and are only minutes away from the project site. Our team members also are all not more than an hour away and are available for consultation at a moments notice.

Section VI.E – Item G *"Discuss why your firm is a fit for the City and why your firm should be selected."*

We at Hall and Ogle believe that for every project, there is the right firm for that project. There are many firms in the Central Florida area who are equally as qualified and suitable for this or any other project.

That being said, we contend that if the City of New Smyrna Beach would like a local firm who has knowledge of the site, has a wealth of experience in projects similar to this one, who has experience working with the municipality of New Smyrna Beach, whose Principals are directly involved with your project, and who has an extensive track record of satisfied clients and projects brought in on time and in budget, we feel that Hall and Ogle Architects would be the right choice for ***this*** project, and we would welcome the opportunity to work again with the City of New Smyrna Beach, Florida.

Proposed Design Schedule

Proposed Design Schedule

In order to identify a realistic schedule for the New Smyrna Beach Fire Station Management Building project, Hall and Ogle Architects would offer the following:

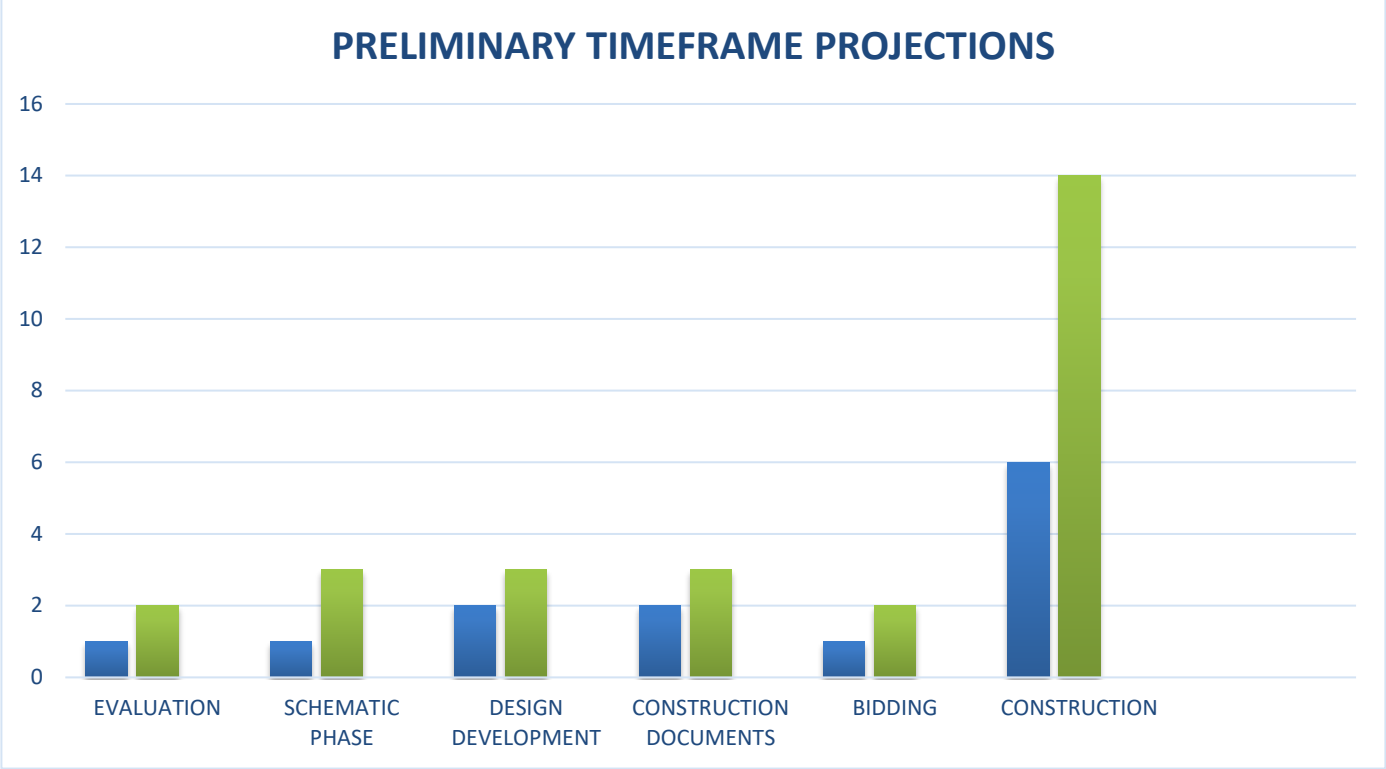
The Scope of Services states that the project shall be either a building remodel or a complete teardown and rebuild. The existing building will need to be evaluated for suitability in regards to the City's needs, budget, and project goals. A preliminary estimate of the timeframe for that evaluation would be 1 to 2 months, though a realistic and more precise timeframe would need to be determined upon entering into contract with the City and the existing building can be inspected by the project team members. This evaluation will become the Pre-Design Phase outlined in our Project Approach.

After the evaluation period and the final project scope is identified (renovation or rebuild), we would then implement our standard 3-Phase process as outlined in our Project Approach.

The Schematic Phase will include development of schematic/preliminary design concepts for the project to include alternate concepts for the Owner's review and approval. The preliminary estimate of the timeframe for this phase would be from 1 to 3 months, again, depending on the complexity of the project to be determined.

The Design Development Phase will include development of the approved concept to include evaluation of proposed site development/ improvements, exterior envelopes/ fenestration options and mechanical HVAC/ electrical systems. Complete review of proposed construction, materials and HVAC/ plumbing/ electrical systems and site development costs for adherence to Owner's construction budget and schedule. Provide Construction Manager design development document for preparation of the initial Guaranteed Maximum Price. Begin review coordination with NSB Facilities Director and Building Officials to insure project conformity to NSB standards and code compliance. This phase is estimated to take 2 to 3 months.

The Construction Document Phase will include completion of complete/ accurate construction/ bidding documents and specifications, collaboration with Construction Manager to provide an updated GMP. review with NSB staff the provision of products/ systems that are durable/ low maintenance and with-in the capabilities of staff to maintain and operate. Review final documentation/ design with NSB Building Officials to insure project conformity to NSB standards and code compliance. This Phase is expected to take from 2 to 3 months.



The Bidding Phase includes assisting the Construction Manager during the bidding of the project, for adherence to the requirements of the bid documents and specifications. Review and evaluate bid alternates provided in construction documents to maintain project budget. If required, provide revised documents for cost reduction and/or budget adherence. Confirm receipt of all permits required for construction of the project. This Phase is expected to take between 1 to 2 months.

The Project Construction Phase timeframe (which would be determined during the initial design phases) could range from 6 to 14 months depending on the ultimate project scope.
The total preliminary estimated time frame for Project Design Services (including existing building evaluation) would range from 6 to 11 months, depending on Project Scope TBD.

The total preliminary estimated time frame for Project Construction (including bidding) would range from 7 to 16 months, depending on Project Scope TBD.

It is important to note that these projected general timeframes are based on the given Project Scope of Services which may change as the type of construction (renovation or rebuild) is identified and the existing building is evaluated for suitability.

To arrive at the final refined Project Schedule, all team members will be in agreement with the timeframe as it relates to their project responsibilities, assuring that the schedule will be attainable by all parties involved, and scheduling control is maintained.

Form **W-9**
(Rev. August 2013)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give Form to the requester. Do not send to the IRS.

Print or type
See **Specific Instructions** on page 2.

Name (as shown on your income tax return)
Hall & Ogle Architects, Inc.

Business name/disregarded entity name, if different from above

Check appropriate box for federal tax classification:
☐ Individual/sole proprietor ☐ C Corporation ☑ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶

☐ Other (see instructions) ▶

Exemptions (see instructions):
Exempt payee code (if any)
Exemption from FATCA reporting code (if any)

Address (number, street, and apt. or suite no.)
208 Magnolia Avenue

City, state, and ZIP code
Daytona Beach, FL 32114

Requester's name and address (optional)

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on the "Name" line to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number
			–		–				

Employer identification number
5	9	–	2	2	0	9	9	0	9

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below), and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

Sign Here **Signature of U.S. person ▶** David D. Ogle **Date ▶** 5.15.2023

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. The IRS has created a page on IRS.gov for information about Form W-9, at *www.irs.gov/w9*. Information about any future developments affecting Form W-9 (such as legislation enacted after we release it) will be posted on that page.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, payments made to you in settlement of payment card and third party network transactions, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct.

Note. If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

DRUG-FREE WORKPLACE CERTIFICATION FORM

IDENTICAL TIE BIDS-In accordance with Florida State Statutes Section 287.087, preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids, which are equal with respect to price, quality, and service, are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violation of such prohibition.

2. Establishing an on-going drug-free awareness program to inform employees about:
   a. The dangers of drug abuse in the workplace.
   b. The employer's policy of maintaining a drug-free workplace.
   c. Any available drug counseling, rehabilitation, and employee assistance programs, and
   d. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

3. Making it a requirement that each employee to be engaged in the performance of this contract be given a copy of the statement required by paragraph (a);

4. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under this contract, the employee will:
   a. Abide by the terms of the statement; and
   b. Notify the Employer in writing of any arrest for a violation of a criminal drug statute or driving under the influence no later than five calendar days after such arrest;

5. Notifying the City of New Smyrna Beach, in writing, within 10 calendar days after receiving notice under subparagraph (4)(b) from an employee or otherwise receiving actual notice of such arrest Consultants of arrested employees must provide notice, including position and title to: City Clerk/Administrator, City of New Smyrna Beach, 210 Sams Avenue, New Smyrna Beach, FL 32168.

6. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is arrested.
   a. Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended, or
   b. Requiring such employee to participate satisfactorily in drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State or local health, law enforcement, or other appropriate agency.

7. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (1), (2), (3), (4), (5) and (6).

As a duly authorized representative of the Vendor, I hereby certify that the Firm will comply with the above certifications.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

CONFLICT OF INTEREST STATEMENT

State of Florida: City of Daytona Beach

Before me, the undersigned authority, personally appeared David D. Ogle who was duly sworn, deposes, and states:

1. I am the Vice President of Hall & Ogle Architects, Inc. with a local office in Daytona Beach, Florida (City & State) and principal office in Daytona Beach, Florida (City & State).
2. The above named entity is submitting an Expression of Interest for the City of New Smyrna Beach project described **as RFQ 16-23-CIP, Professional Architectural Services – Fire Station Management Building.**
3. The Affiant has made diligent inquiry and provides the information contained in this Affidavit based upon his/her own knowledge.
4. The Affiant states that only one submittal for the above project is being submitted and that the above named entity has no financial interest in other entities submitting proposals for the same project.
5. Neither the Affiant nor the above named entity has directly or indirectly entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive pricing in connection with the entity's submittal for the above project. This statement restricts the discussion of pricing data until the completion of negotiations and execution of the Agreement for this project.
6. Neither the entity nor its affiliates, nor anyone associated with them, is presently suspended or otherwise ineligible from participating in contract lettings by any local, state, or federal agency.
7. Neither the entity, nor its affiliates, nor anyone associated with them have any potential conflict of interest due to any other clients, contracts, or property interests for this project.
8. I certify that no member of the entity's ownership, management, or staff has a vested interest in any aspect of or Department of City of New Smyrna Beach.
9. I certify that no member of the entity's ownership or management is presently applying for an employee position or actively seeking an elected position with City of New Smyrna Beach.
10. In the event that a conflict of interest is identified in the provision of services, I, on behalf of the above named entity, will immediately notify City of New Smyrna Beach in writing.

County of Volusia

David D. Ogle, being first duly sworn, deposes and says that:

He/she is Vice President of Hall & Ogle Architects, Inc., Proposer that has submitted the attached bid or Request for Qualifications;

He/she is fully informed respecting the preparation and contents of the attached bid and of all pertinent circumstances respecting such bid;

Such bid is genuine and is not a collusive or sham bid;

Neither the said Proposer nor any of its officers, partners, owners, agent representatives, employees, or parties in interest, including this affiant, has in any way colluded, conspired, connived or agreed, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer, firm or person, to fix the price or prices in the attached Proposal or of any other Proposer, or to fix any overhead, profit or cost element of the Proposal price or the Proposal price of any other Proposer, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the CITY OF NEW SMYRNA BEACH, FLORIDA, or any person interested in the proposed Contract; and

The price or prices quoted in the attached Proposal are fair and proper and are not tainted by any collusion, conspiracy, connivance or unlawful agreement on the part of the Proposer or any of its agents, representatives, owners, employees, or parties in interest, including this affiant.

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(A), FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

1. THIS SWORN STATEMENT IS SUBMITTED TO City of New Smyrna Beach

by David D. Olge, Vice President
(Print Individual's Name and Title)
for Hall & Ogle Architects, Inc.
(Print Name of Entity Submitting Sworn Statement)
whose business is Architecture

and (if applicable) its Federal Employer Identification Number (FEIN) is 59-2209909

2. I understand that a "public entity crime" as defined in Paragraph 287.133 (1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

   a. A predecessor or successor of a person convicted of a public entity crime; or

   b. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provisions of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders,

employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Indicate which statement applies).

__X__ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, nor any affiliates of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (Attach a copy of the final order).

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES, FOR A CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

COMPLIANCE WITH EMPLOYMENT ELIGIBILITY REQUIREMENTS

(§448.095, Florida Statutes – E-Verify)

The E-Verify system is an internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees. Florida Statutes §448.095 provides that any person or entity that has entered or is attempting to enter into a contract with the City of New Smyrna Beach to provide labor, supplies or services must register with and use the E-Verify system to verify the work authorization status of all employees hired after January 1, 2021. Further, the consultant must maintain certain required employment compliance records of sub consultants for the duration of the contract with the City of New Smyrna Beach.

Consultant Name: Hall & Ogle Architects, Inc.

Consultant E-Verify Registration Number: 1649370

The undersigned, on behalf of the consultant referenced above, after first being duly sworn, states as follows:

1. That said consultant understands that the consultant must comply with §448.095, Florida Statutes.
2. That the consultant uses the E-Verify system to verify the work eligibility status of employees.
3. That the consultant has enrolled in the E-Verify system under the registration number referenced above and will verify the work eligibility status of employees hired after January 1, 2021 through said registration number throughout the contract period of any and all contracts with the City of New Smyrna Beach.
4. That the consultant will maintain affidavits of sub consultants engaged to perform work on any and all contracts with the City of New Smyrna Beach.
5. That said consultant further understands that violation of §448.095, Florida Statutes may result in lawful termination of a contract by the City of New Smyrna Beach, subjecting the consultant to liability for additional costs incurred by the City of New Smyrna Beach as a result of the termination of the contract.

Receipt of Addenda

ADDENDUM 1

RFQ 16-23-CIP: Professional Architectural Services - Fire Station Management Building

April 19, 2022

TO ALL PROPOSERS:

Notice is hereby given to all Proposers that this is Addendum 1 to RFQ 16-23-CIP: Professional Architectural Services - Fire Station Management Building, issued April 13, 2023.

This addendum is issued to answer vendor questions, clarify, add, delete, correct and/or change the proposal documents to the extent indicated and is hereby made a part of the above noted solicitation documents. Any modifications/changes made by this addendum affect only the portions or paragraphs specifically identified herein; all remaining portions of the proposal are to remain in force. It is the responsibility of all Applicants to conform to this addendum. Please note, questions are recorded as they are received, including grammar and spelling errors.

This addendum shall be considered part of the Contract Documents for the above mentioned solicitation as though it had been issued at the same time, and incorporated integrally therewith. Where provisions of the following supplementary data differ from those of the original document, this addendum shall govern and take precedence. All other terms, conditions, and regulations will apply.

This addendum impacts all vendors interested in submitting proposals for this solicitation.

1. **Question:** CPH would respectfully like to ask for clarification regarding the response deadline of the proposal RFQ 16-23-CIP - PROFESSIONAL ARCHITECTURAL SERVICES - FIRE STATION MANAGEMENT BUILDING.

   There are several places in the RFQ where is states a response deadline of May 16, 2023, 9:00 a.m., and other places where it states a proposal submission deadline of May 15, 2023, 5:00 p.m.

   Answer: Response deadline is 5:00 PM on May 15, 2023. Opening of the submittals is 9:00 AM on May 16, 2023.

ALL OTHER AREAS OF THE BID DOCUMENT REMAINS THE SAME

Instructions:

Re: Fire Management Building Expansion Fire Station #50
Fee Proposal for Architectural / Engineering Services

Kyle:

It is my pleasure to submit this proposal to provide architectural and engineering services for the proposed Fire Management Building Expansion at Fire Station #50. The scope of work is as described below.

SCOPE OF WORK / PROJECT APPROACH:

PART 1: PROJECT START UP / SCHEMATIC DESIGN

Meet With the City:
We will meet to discuss our conceptual site plan for the project and incorporate into the Schematic Design Package.

Develop Schematic Design Package (15% Construction Documents):

- Site plan(s)
- Floor plan(s) (Building Addition)
- Roof Plan
- Elevations
- Building Sections
- Schematic Opinion of Probable Cost

Submit Review Package to City / Respond and Coordinate Any Necessary Changes

Obtain City Approval for Schematics

PART 2: DEVELOP DESIGN DEVELOPMENT PACKAGE (45% CONSTRUCTION DOCUMENTS):

Architectural

- Architectural Site Plan
- Floor Plan (Building Addition)

- Life Safety Plan
- Exterior Elevations
- Building Sections
- Wall Sections
- Door / Room Finish Schedules
- Reflected Ceiling Plan
- Roof Plan

Civil - Site Development Plan(s)

- Utility Plan
- Paving / Drainage Plan
- Site Details
- Landscaping / Irrigation Plans

Structural

- Foundation Plan / Details
- Roof Framing Plan / Details
- General Notes

Mechanical

- Mechanical Plan
    - Duct Layout / Details

Plumbing

- Plumbing Plan
    - Fixture Schedule / Details

Fire Protection

- Sprinkler Plan
    - General Notes / Details

Electrical

- Electrical Site Plan
- Electrical Plan
    - Power
    - Systems
    - Lighting
- Service Riser Diagram
- Lighting Fixture Schedule

Development of:

- Specifications (50% Complete)

Submit Review Package:

We will submit a review package to the City and respond / coordinate any necessary changes to the documents.

PART 3: 90% CONSTRUCTION DOCUMENTS:

Architectural

- Architectural Site Plan / Details
- Floor Plan (Building Addition)
- Life Safety Plan
    - Plans / Schedules / Notes / Details
    - Wall Sections / Details
        - Fire Rated Assemblies
- Exterior Elevations / Details
- Building Sections
- Wall Sections / Details
- Door / Window Schedules
    - Elevations / Notes / Details / Access Control
- Large Scale Door / Window Details
- Louver / Exhaust Fan Details
- Room Finish Schedules
    - Enlarged Plans - Toilet Rooms
    - Toilet Room - Elevations / Schedules
    - Enlarged Plans - Kitchen / Miscellaneous
    - Millwork - Elevations / Details
- Reflected Ceiling Plan / Notes / Details
    - Floor Joint Layout Plan
    - Roof Plan(s)
        - Section Details / Notes

Civil

- Site Development Plan(s) (continued development)
- Utility Plan / Details
- Paving / Drainage Plan / Details
- Pollution Prevention Plan / Details
- Miscellaneous / Site Details / Notes
- Landscaping Plan / Schedule / Details
- Irrigation Plan / Schedule / Details
- Prepare / Submit Permit Applications:
    - SJRWMD - Environmental Resource Permit
    - VDL. Co. DEH (Water) Permit
    - FDEP Wastewater Permit
    - FDEP NPDES Permit (No 1)
    - Stormwater Pollution Prevention Plan (SWPPP)
    - FDOT Driveway Connection Permit
    - FDOT Utility Permit
    - FDOT Drainage Connection Permit

Further Set Of:

- Project Specifications (90% Complete)

Submit 90% Review Package:

We will submit a 90% review package to the City and respond / coordinate any necessary changes to the documents.

Revise Opinion of Probable Cost

PART 4: 100% CONSTRUCTION DOCUMENTS:

- Respond to / implement 90% review comments with Building Department code review.
- Finalize all details and coordination of all related work.
- Submit 100% Construction Documents package with:
  - Digitally Sealed PDF's
  - (2) Printed Sets
  - Final Opinion of Probable Cost

*Any value engineering (design changes to project) not part of the scope of work will be an additional service.

SCHEDULE OF PROJECT MEETINGS

Prepare For / Attend Design Progress Meetings:

- Initial project meeting with Owner / Fire Department / Project Engineers
  - Review Design / Scope / Schedule
- Follow up progress meeting
  - Development of Schematic Documents
- Meeting after Schematic Documents Submittal
  - Review comments from City
- Meeting after 50% Construction Documents Submittal
  - Review comments / discussion of revisions / implementation
- Meeting after 90% Construction Documents Submittal
  - Review comments from City and Building Department / Discussion of revisions - required implementation

Construction Document Services:

- Writing review comments letter(s) with developing required changes
- Meeting with Building Department as needed

PART 5: BIDDING PHASE SERVICES:

- Meet with City Staff to help qualify Contractors to bid
- Pre Bid Meeting with selected Contractors
- Prepare responses to Bidders' questions - issue addendum items as necessary
- Receive Bids / Evaluate Bids / Provide City with Recommendation to Award Contract

PART 6: CONSTRUCTION ADMINISTRATION SERVICES:

- Pre-Construction Meeting with General Contractor and Subcontractors
  - Review Project Scope / Schedule / Critical Path
- Attend Regular Construction Project Meetings
  - Standard - (1) Every (2) weeks
  - (1) Every week during critical phase of work
  - Provide site inspection meetings when Architect is on site for project meetings
- Answer RFI's
- Review / Respond to All Shops Drawings
- Attend Pre-Installation Meetings at various phase of work
- Solutions for Contractor's errors will be additional services.
- Review / process monthly Contractor's pay application.
- Develop color board for project / work with Owner's Representative to finalize / present color board
- Substantial Completion Inspections
  - Interiors - Floors / Walls / Millwork / Ceilings
  - Above Ceiling Inspections
  - Creation of Full Punchlist Items

        - Exterior Inspections
        - Site Inspections
        - Roof Inspection / List
        - Review / Coordination of Engineers' Punchlists
        - Develop Punchlist Drawings with notes for Contractor's with Engineers' lists.
    - Final Acceptance Inspections
        - Perform final re-inspections
        - Perform additional final inspections of miscellaneous items not completed on first inspection.
        - Issue Certificate of Substantial Completion
    - Review Contractor's as-builts / provide comments / review required revisions / issue letter of acceptance of as-builts.
    - Review Close-out Documents with all Warranties / O&M Manuals.
    - Complete 1 year warranty walk-through inspection.

This summary of our scope of work outlines the services we will be providing for this project.

Proposed Design Fee:

Schematic Design (15%):	$ 21,000
Design Development (20%):	$ 28,000
Construction Documents (35%):	$ 49,000
Bidding (5%):	$ 7,000
Construction Administration (25%):	$ 35,000
Total Design Fee:	**$140,000**
Survey Allowance:	$ 13,000
Geotechnical Allowance:	$ 5,000
Permit Fee Allowance:	$ 15,000
Printing:	$ 1,000
Mileage:	N/A
Total Project Fees:	**$174,000**

Respectfully,

David D. Ogle, Jr.
Principal/Vice President

Hall and Ogle Architects, Inc.
Professional Architectural Services – Fire Station Management Building

THIS AGREEMENT is made and entered into this _____ day of _____, 2025, by and between Hall and Ogle Architects, Inc., duly authorized to conduct business in the State of Florida and whose address is 208 Magnolia Avenue, Daytona Beach , FL 32114 , hereinafter, called "CONSULTANT," and the **CITY OF NEW SMYRNA BEACH**, a political subdivision of the State of Florida, whose address is 210 Sams Ave., New Smyrna Beach, FL, hereinafter called "CITY."

SECTION 1. AGREEMENT. The terms of this Agreement, together with the incorporation of the terms and conditions of the RFQ 16-23-CIP, Professional Architectural Services - Fire Station Management Building**, FOR THE CITY OF NEW SMYRNA BEACH** and any exhibits, schedules, and attachments hereto, and any and all amendments relating to same, and any and all submittals from CONSULTANT, constitute the entire Agreement between the City and CONSULTANT. This Agreement is the final, complete and exclusive expression of the terms and conditions of the parties' Agreement. Any and all prior agreements, representations, negotiations, and understandings made by the parties, oral or written, expressed or implied, are hereby superseded and merged herein.

SECTION 2. TERM OF AGREEMENT. The initial term of this Agreement shall be for three (3) years from the date of the award. After the initial term, and upon consent of both parties, this Agreement may be automatically renewed administratively under the same terms and conditions for one (1) year period. The maximum term for this Agreement and all renewals is a cumulative term of four (4) years.

SECTION 3. DESCRIPTION OF SERVICES. The Consultant agrees to perform the services outlined in the advertised solicitation document titled RFQ 16-23-CIP, Professional Architectural Services - Fire Station Management Building, and in the Consultant's submitted Proposal.

The Consultant shall diligently and in a professional and timely manner perform and provide these services. Unless modified in writing by the parties hereto, the duties of the Consultant shall not be construed to exceed the provision of the services pertaining to this Agreement.

The City and Consultant agree that there may be certain additional services required to be performed by the Consultant during the performance of the contract that cannot be defined sufficiently at the time of execution of this Agreement. These services shall be authorized in writing as an amendment to the contract and may contain additional instructions or provide specifications upon certain aspects of this Agreement pertaining to the work to be undertaken.

SECTION 4. COMPENSATION. For Services rendered, the CITY shall pay the CONSULTANT based on their fee schedule provided. Unless otherwise agreed in a Scope of

Services, the CONSULTANT shall invoice the City monthly based upon the CONSULTANT's fees for services completed during the billing period.

SECTION 5. COMPONENT PARTS OF THE CONTRACT. This Contract consists of the following contract documents, all of which are hereby made a part hereof as if herein set out in full and all of which are familiar to the Contractor:

A. City Advertised Bid including addendums
B. Award Bid Proposal
C. Presentation of Services
D. Fee Proposal
E. Human Trafficking Affidavit

The Consultant must provide the Certificate of Insurance within fourteen (14) days upon acceptance of the bid by City Commission.

SECTION 6. CONTROLLING LAW, VENUE, AND ATTORNEY'S FEES. This Agreement is to be governed, construed, and interpreted by, through and under the laws of Florida. Venue for any litigation between the parties to this Agreement shall be in the County of Volusia, Florida and any trial shall be non-jury. The prevailing party in any litigation arising from or related to this Agreement shall be reimbursed reasonable attorney fees and costs, including all fees and costs of an appeal.

SECTION 7. RIGHTS AT LAW RETAINED. The rights and remedies of the City, provided for under this Agreement, are in addition and supplemental to any other rights and remedies provided by law.

SECTION 8. NOTICES. Whenever either party desires to give notice unto the other, it must be given by written notice, sent by registered or certified United States mail, return receipts requested, addressed to the party for whom it is intended at the place last specified. The place for giving of notice shall remain such until it shall have been changed by written notice in compliance with the provisions of this Section. For the present, the parties designate the following as the respective places for giving of notice, to-wit:

For City:
Sharon Taylor-Harding, Interim City Clerk
City of New Smyrna Beach
210 Sams Ave.
New Smyrna Beach, FL 32138
(386)410-2637

For Consultant:
David D. Ogle, Principal/Vice President
Hall and Ogle Architects, Inc.
208 Magnolia Avenue
Daytona Beach, FL 32114
(386) 255-6163

SECTION 9. MODFICATIONS TO AGREEMENT. This Agreement and any exhibits, amendments and schedules may only be amended, supplemented, modified or canceled by a written instrument duly executed by both parties hereto of equal dignity herewith.

SECTION 10. SEVERABILITY. If during the term of this Agreement, it is found that a specific clause or condition of this Agreement is illegal under federal or state law, the remainder of the Agreement not affected by such a ruling shall remain in force and effect.

SECTION 11. WAIVER OF JURY TRIAL. The City and Consultant have specifically waived the right to a jury trial concerning any disputes which may arise concerning this agreement.

SECTION 12. EFFECT OF FAILURE TO INSIST ON STRICT COMPLIANCE WITH CONDITIONS. The failure of either party to insist on strict performance of any covenant or condition of this contract, or to exercise any option herein contained, shall not be construed as a waiver of such covenant, condition, or option in any other instance. This contract cannot be changed or terminated orally.

SECTION 13: HUMAN TRAFFICKING. This Contract is subject to the terms, conditions, provisions and requirements of Section 787.06 of the Florida Statutes and Contractor hereby represents, warrants, and certifies that Contractor does not use coercion for labor or services as defined in Section 787.06, Florida Statutes and that Contractor has provided the Human Trafficking Affidavit.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the date written above for execution by the City of New Smyrna Beach.

THE CITY OF NEW SMYRNA BEACH - AIRPORT

CONSIDER THE APPROVAL OF AN FEDERAL ADMINISTRATION AVIATION (FAA) GRANT AGREEMENT FOR WILDLIFE FENCE - DESIGN.

May 27, 2025

Background:

The New Smyrna Beach Airport has a Federal Aviation Administration (FAA) Part 139-approved Wildlife Hazard Management Plan (WHMP). The goal of the WHMP is to minimize aircraft-wildlife incidents on and around the airport that could pose a hazard to safe aircraft operation. The plan includes a detailed list of wildlife found on and around the airport that post a threat to aircraft. Several mammals that pose as hazardous wildlife to the airport include, but are not limited to, coyotes, racoons, opossums, eastern cottontails, gopher tortoises and snapping turtles. As per recommendations in the WHMP, the airport is seeking to upgrade existing fencing to wildlife fencing. This will add another layer of protection against some species seeking to gain access to the airfield, especially mammals like coyotes which frequently dig under the existing fence. This grant agreement is for the design of the Airport Wildlife Fence funded at 95% by the FAA. Once approved, we will also be seeking funding from FDOT for another 4% match, leaving the Airport fund responsible for the remaining 1%.

Findings:

Due to the anticipated receipt of this grant (in June), city staff are seeking an approval from the City Commission authorizing the Mayor or the Vice-Mayor to execute the grant agreement for the design portion of this project.

Fiscal Analysis:

If approved, a budget amendment will be forthcoming.

10454201.563203.25APF

Total Project Cost - $82,850
Reimbursed by FAA (95%) - $78,708
Reimbursed by FDOT (4%) - $3,314
Local Share Airport Fund (1%) - $828

Strategic Plan Item:

No

Staff Report Created By: Arvin Weese - Airport Director

April 28, 2025

Ms. Jenny Iglesias-Hamann
Federal Aviation Administration
Orlando Airports District Office
8427 South Park Circle, Suite 524
Orlando, FL 32819

Dear Ms. Iglesias-Hamann,

Subject: New Smyrna Beach Municipal Airport; New Smyrna Beach, FL
FY 2025 Airport Improvement Program
Application

In accordance with the Airport Improvement Program (AIP) and as established in our 3-year Capital Improvement Plan (CIP), enclosed please find the 2025 FAA AIP Grant Application for the following project(s):

1. Wildlife Fence - Design

The following items are enclosed for the above project in the grant application:

- ✓ Grant Application Documents Checklist
- ✓ Standard Form 424 - Application for Federal Assistance
- ✓ SF 5100-100 -- Project Approval Information, Budget Information, Program Narrative
- ✓ Project Specific Checklists
- ✓ Project Cost Breakdowns
- ✓ Project Sketch
- ✓ Project Schedules
- ✓ Environmental Determination Documentation - CATEX
- ✓ Exhibit "A" (Airport Property Inventory Map) and "C":
  - **Exhibit "A" and "C" Incorporated with Grant**. The Exhibit "A" and "C" updated June 25, 2019, filed with AIP Project 3-12-0054-021-2017, is incorporated herein by reference.

The following items are enclosed to supplement the above grant application:

- ✓ Professional Services Agreements
- ✓ Airport Sponsor Certifications

Based on the amount requested in our pre-applications dated September 26, 2024, we are requesting an increase of $21,708 in funding based on the negotiated contract amount. We are requesting $78,708 in AIP NPE funding.

Sincerely,

Arvin Weese
Airport Director

CC: Luci Taylor, FDOT

LAND ACQUISITION	PLANNING	DESIGN	CONSTRUCTION	**SPONSOR'S CERTIFICATION** (Need to be completed, check verb tenses in each sentence, and dated.)
•	•	•	•	Certification for "Selection of Consultant"
•	•	•	•	Certification for "Construction Project Final Acceptance"
•	•	•	•	Certification for "Drug Free Workplace"
		•	•	Certification for "Equipment and Construction Contract"
		•	•	Certification for "Project Plans and Specification"
•				Certification for "Property Acquisition" (Land acquisition.)
				WARNING: By accepting an Airport Improvement Program Grants", the sponsor is certifying that it has his share of the funds to carry out the proposed project(s) described in the application without delays.
				WARNING: By accepting an Airport Improvement Program Grants", the sponsor is accepting and certifying that it complies with the program's terms and conditions without exceptions.

LAND ACQUISITION	PLANNING	CONSULTANT FOR DESIGN	CONSULTANT FOR CONSTRUCTION	**PROCUREMENT OF PROFESSIONAL SERVICES AGREEMENT**
•	•	•	•	Consultant selected in accordance with 49 CFR, Part 18 ☒Yes ☐No (A Professional Services / General Consultant (GC) Agreement or its Amendments are not AIP eligible if its procurement was not IAW 49 CFR Part 18. WARNING: Professional Services / General Consultant (GC) Agreement can have a MAXIMUM term of 5 years.
•	•	•	•	Project(s) description listed individually and their respective applicable fees shown.
•	•	•	•	Consultant services fees $100,000 or more, **INDEPENDENT COST ESTIMATE REQUIRED.**
•	•	•	•	Costs reasonable. ☒Yes ☐No - Sponsor certification that the sponsor has reviewed the costs and agrees with said costs.
•	•	•	•	Sponsor/Consultant professional services agreement concurred by FAA? (If sponsor is seeking FAA participation, sponsor must secure concurrence/approval by FAA prior to execution.
		•	•	All construction work and/or equipment items are included in the approved "Plans and Specifications".
				NOTES:
				If you are working a "DESIGN" grant, do not allow any bidding, or construction engineering services to be included in the professional services agreement for design or the grant cannot be closed until the construction is completed.
				The scope of work of an Amendment to a Professional Services Agreement for DESIGN shall produce all the following documents for the project: Construction Plans and Specifications; Engineer's Report; Airport Safety During Construction Plan; Construction Sequence and Phasing Plan; Construction Management Plan;
				All "Modification of Standards" for design or construction, needs to have been identified and approved PRIOR to proceeding the design of the project.

		DESIGN	CONSTRUCTION	**CONSTRUCTION PROJECTS (construction phase)**
		•	•	Sponsor certification for Plans and Specification in accordance to FAA design and construction standards, or have prior MOS approval. At this time NO MODIFICATIONS are accepted.
		•	•	"Safety During Construction Plan" and "Construction Sequence and Phasing Plan" if airport a Part 139 large or medium, it is very likely it will require a Safety Management System study/plan.
		•	•	"Engineer's Report" if project is pavement, must include the design of the pavement section and a drawing of the typical pavement section. (Use FAA Form 5100-1)
		•	•	"Construction Management Plan" REQUIRED for all pavement projects $250,000 or more in pavement.
		•	•	Proposed construction projects coordinated through the OE/AAA program. (7460 submitted?)
		•	•	All construction work and/or equipment items are included in the approved "Plans and Specifications".
			•	Bid proposal for the lowest responsive bidder. (bidder that complies with all requirement without exceptions)
			•	Bid Tabulation (a tabulation/ledger of all bids and the engineer's estimate.)
			•	Engineer's recommendation to award contract (to low bidder)
			•	Sponsor's letter to FAA in agreement with his engineer to award contract.
				New development (Plans and Specifications) shall comply with the approving environmental document that approves the project.
			CONSTRUCTION	**PRIOR TO "NOTICE TO PROCEED" check**
			•	Copy of Low Bidder's Proposal
			•	Copy of the Executed Construction Contract
			•	If project is $100,000 or more:
				- Copy of the "Payment Bond" for 100% the contract ($) amount.
				- Copy of the "Performance Bond" for 100% the contract ($) amount.
				- Power of Attorney for the person representing the bonding company.
			•	If project is less than $100,000:
				- Bonding requirements for construction projects are found in 49 CFR Par 18.36(h) and allows the sponsor to follow local government requirement relating to bid warranties, performance and payment bonds for construction.
			•	EEO and Non-Segregated facilities certification duly executed.

LAND ACQUISITION				**LAND ACQUISITION** (Need to show breakdown of all costs per parcel.)
•				Land Acquisition based on land/property appraisals (performed by certified property appraiser). If by court judgment, copy of the court judgment.
				- All costs associated with the acquisition of a property/parcel must be listed per parcel. (i.e.: People and/or businesses relocation; lease extinction; utilities relocation; surveying; clearing; attorney/court fees; property recording fees, etc.)
				- Certification for "Real Property (Land) Acquisition.
				- Must update the Airport Property Map and Title Opinion.
				WARNING: All costs associated with the acquisition of a parcel/property must be claimed at the same time, and under the same grant.

FAA Form 5100-100, Application for Federal Assistance (Development and Equipment Projects)

Paperwork Reduction Act Burden Statement

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB Control Number. The OMB Control Number for this information collection is 2120-0569. Public reporting for this collection of information is estimated to be approximately 28 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, completing and reviewing the collection of information. All responses to this collection of information are required under 49 U.S.C. Section 47105 to retain a benefit and to meet the reporting requirements of 2 CFR 200; no assurance of confidentiality is provided. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the FAA at: 800 Independence Ave. SW, Washington, DC 20591, Attn: Information Collection Clearance Officer, ASP-110.

INSTRUCTIONS FOR FORM 5100-100

PART I – Application for Federal Assistance

Part I of the Application for Federal Assistance consists of a completed Standard Form (SF) 424. The remaining parts of Form 5100-100 (Parts II, IIII and IV) represent continuation pages that the Sponsor must attach to the associated SF-424 form. The signature of the Sponsor's authorized representative on the SF-424 form represents acceptance of the representations and certifications made within the corresponding FAA 5100-100 form.

PART II – Project Approval Information

This information is necessary for the Federal Aviation Administration to evaluate this request for Federal assistance. Responses do not require an explanation unless explicitly requested by the question.

SECTION A. STATUTORY CONDITIONS

Item 1 – Indicate whether the Sponsor maintains an active registration in the Federal System for Award Management (SAM). Pursuant to 2 CFR §25.200(b), a Sponsor must maintain an active registration in the Central Contractor Registration repository (housed within SAM) with current information at the time of the application and during the active period of the Federal award.

Item 2 – Indicate whether the Sponsor can commence the project within the same fiscal year the grant is made or within 6 months of when the grant is made, whichever is later. Attach explanation for negative responses. This information is considered when allocating discretionary funds. (49 U.S.C. § 47115(d)(2))

Item 3 – Indicate whether the Sponsor can complete the project without unreasonable delays. If applicable, provide listing of foreseeable events (winter shutdown, land acquisition issues, non-aeronautical events, etc.) that have potential to delay completion of the project. (49 USC § 47106(a))

Item 4 – Indicate whether the environmental review (i.e. environmental assessment, mitigated FONSI, etc.) identified impacts or effects on the environment that require mitigating measures that lessen the impact or effect on the environment. If yes, provide a summary listing of mitigating measures. (49 U.S.C. § 47106(c))

Item 5 – Indicate whether the project covered by this request is also covered by an approved Passenger Facility Charge (PFC) application or other Federal assistance program by selecting all applicable check boxes (49 U.S.C. § 40117(d) and 2 CFR § 200.403). If the approved PFC application only addresses the Sponsor's AIP matching share, select the appropriate check box.

If the project, or portions thereof, is covered by another Federal assistance program, identify the Federal assistance program by name and the Catalog of Federal Domestic Assistance (CFDA) number.

Item 6 – Indicate whether the Sponsor intends to seek reimbursement of Sponsor indirect costs as defined by 2 CFR §200.414 and 2 CFR Appendix VII to Part 200. This information request ***does not*** include the indirect costs claimed by a for-profit entity (e.g. consultant).

- The de minimis rate may only be used if the Sponsor has not previously received a negotiated Indirect Cost Rata (ICR) and does not exceed the limitations prescribed in Appendix VII to Part 200.
- A Sponsor with an existing approved negotiated ICR must identify the ICR value, the name of the cognizant agency that approved the ICR and the date of approval.

Limitations of use: Per policy, Sponsor's may only apply an approved ICR to allowable direct salary expenses that are reasonable and necessary to carry-out the project.

SECTION B. CERTIFICATION REGARDING LOBBYING

This section addresses the Sponsor's declaration regarding lobbying activities. The declaration made in the section are under signature of the authorized representative as identified in box 21 of form SF-424, to which this form is attached.

Title 31 U.S.C. § 1352 establishes that no appropriated funds may be expended by a recipient of a Federal grant to pay any person for influencing or attempting to influence an officer or employee of any agency, Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this covered Federal assistance action. Pursuant to 40 CFR part 20, this certification attests that the Sponsor has not made, and will not make, any payment prohibited payment by 31 U.S.C. § 1352.

SECTION C. REPRESENTATIONS AND CERTIFICATION

1. **Compatible Land Use** (49 U.S.C. § 47107(a)(10)) – Identify actions the Sponsor has taken to assure land uses in close proximity to the airport are compatible with normal airport operations.
2. **Defaults** – Confirm that Sponsor is not in default on any obligation to the United States or any agency of the United States government.
3. **Possible Disabilities** – Confirm that Sponsor has no facts or circumstances (i.e. legal, financial or otherwise) that might adversely affect the Sponsor in completing the project and carrying out the provisions of the associated Grant Assurances.
4. **Consistency with Local Plans** (49 U.S.C. § 47106(a)) – Confirm project is consistent with plans (existing at the time the project is approved) of public agencies authorized by the State in which the airport is located to plan.
5. **Consideration of Local Interests** (49 U.S.C. § 47106(b)) – Confirm the Sponsor has given fair consideration to the community in and near the project.
6. **Consultation with Users** (49 U.S.C. § 47105(a)) **-** Confirm the Sponsor has consulted with airport users that will be affected by the project.
7. **Public Hearings** (49 U.S.C. § 47106(c)) – For projects involving the location of an airport, runway or major runway extension, confirm the Sponsor:
    a. Provided an opportunity for a public hearing to consider economic, social and environmental effects of the project.
    b. Has voting representation from the communities in which the project is located; or has advised the communities that they have the right to petition the Secretary about the proposed project.
8. **Air and Water Quality Standards -** Confirm Sponsor will comply with applicable air and water quality standards.
9. **Exclusive Rights** (49 U.S.C. § 47107(a) – Identify all instances of exclusive rights to conduct aeronautical services at the airport.
10. **Land (49 U.S.C. § 47106(b))** –
    a. Identify property interests specific to the development project and/or land acquisition. The declaration of property interest is to be based upon a title opinion submitted by an attorney. When identifying the property interest, use the same parcel numbers as used to identify the property on the associated Exhibit A property map.
    Example: *"Sponsor maintains property interest as depicted within the property table on the Exhibit A property map dated __/__/__ originally filed with AIP Project ###."*
    b. Complete this subpart if the Sponsor proposes a project for which they have not yet obtained appropriate property interests. Note that the work may not commence until Sponsor obtains acceptable property interests. Identify such property by parcel number that corresponds to the associated Exhibit A property map.
    c. Complete this subpart when acquiring property interests under the grant. Identify such property by parcel number that corresponds to the associated Exhibit A property map.

PART III – Budget Information

SECTION A. GENERAL

1. Federal Domestic Assistance Catalog Number - Show the Federal Domestic Assistance Catalog Number from which the assistance is requested.

2. Functional or Other Breakout: Indicate "Airport Improvement Program". Prepare a separate set of Part III forms for other Federal program categories.

SECTION B. CALCULATION OF FEDERAL GRANT

When applying for a new grant, use the Total Amount Column only. Use all columns when requesting revisions of previously awarded amounts.

Line 1 - Enter amounts needed for administration expenses, which may include such items as: legal fees, mailing/shipping expenses, audit fees and documented Sponsor employee time that is necessary to administer the grant.

Line 2 - Enter amounts pertaining to allowable preliminary expenses. These include such expenses as independent fee estimate preparation, advertising expenses and permits.

Line 3 - Enter amounts directly associated with the acquisition of land, existing structures, and related right-of-way.

Line 4 - Enter fees for architectural engineering basic services.

Line 5 - Enter amounts for architectural engineering special services (e.g. surveys, tests and borings).

Line 6 - Enter fees for inspection, testing and monitoring of construction and related programs.

Line 7 - Enter amounts associated with the development of land where the primary purpose of the grant is land improvement. Site work normally associated with major construction should be excluded from this category and shown on line 11.

Line 8 - Enter the dollar amounts needed to provide relocation advisory assistance, and the net amounts for replacement (last resort) housing. Do not include relocation administration expenses on this Line; include them on Line 1.

Line 9 - Enter the estimated amount of relocation payments to be made to displaced persons, business concerns, and non-profit organizations for moving expenses and replacement housing.

Line 10 - Enter the cost of demolition or removal of improvements on developed land. Reduce the costs on this line by the amount of expected proceeds from the sale of salvage, if so instructed by the Federal grantor agency. Otherwise, show the proceeds on Line 15.

Line 11 - Enter amounts for the actual construction of, addition to or restoration of a facility. Include in this category the amounts of project improvements such as grading, drainage, paving, marking, lighting, buildings, seeding/sodding, etc.

Line 12 - Enter amounts for equipment. Examples include ARFF vehicles, SRE equipment, AWOS equipment, interactive training, NAVAID equipment, etc.)

Line 13 - Enter miscellaneous amounts for items not specifically covered by previous categories.

Line 14 - Enter the sum of Lines 1-13.

Line 15 - Enter the estimated amount of program income that will be earned during the grant period and applied to the program. Examples include vehicle trade-in value, sale of millings resulting from project, credits passed on from contractor, etc. This line may be used to indicate applied liquidated damages.

Line 16 - Enter the difference between Line 14 and Line 15.

Line 17 - Enter the aggregate amount for those items, which are a part of the project but not subject to Federal participation. Refer to Section C, exclusions.

Line 18 – Enter the subtotal sum of Lines 16 and 17. (This is the amount to which the matching share ratio prescribed in program legislation is applied.)

Line 19 - Indicate the total amount of the Federal assistance requested. This value is determined by multiplying the grant participation rate by the amount indicated in line 18.

Line 20 – Indicate the amount of the Grantee's share (from Section D).

Line 21 – Indicate the amount of other shares (from Section D)

Line 22 – Indicate sum of Lines 19, 20 and 21.

SECTION C. EXCLUSIONS

Line 23 a-g - Identify and list those costs which are part of the project cost but are not subject to Federal participation because of program legislation or Federal grantor agency instructions. The total amount on Line g should agree with the amount shown on Line 17 of Section B.

SECTION D. PROPOSED METHOD OF FINANCING NON-FEDERAL SHARE

Line 24 a-g - Show the source of the grantee's share. If cash is not immediately available, specify the actions completed to date and those actions remaining to make cash available under Section E - Remarks. Indicate also the period of time that will be required after execution of the grant agreement to obtain the funds. If there is a non-cash contribution, explain what this contribution will consist of.

Line 24h - Indicate total of Lines 24 a-g. This amount must equal the amount in Section B, Line 20.

Line 25a - Show the amount that will be contributed by a State or state agency, only if the applicant is not a State or state agency. If there is a non-cash or other contribution, explain what the contribution will consist of under Section E - Remarks.

Line 25b - Show the amount that will be contributed from other sources. If there is a non-cash contribution, explain what the contribution will consist of under Section E - Remarks.

Line 25c - Show the total of Lines 28a and 28b. This amount must be the same as the amount shown in Section B, Line 21.

Line 26 - Enter the totals of Lines 24h and 25c.

SECTION E. OTHER REMARKS

Make any remarks pertinent to the project and provide any other information required by these instructions or the grantor agency. Attach additional sheets, if necessary.

PART IV – Program Narrative

Prepare the program narrative statement in accordance with the following instructions for all new grant programs. Requests for supplemental assistance should be responsive to Item 5b only. Requests for continuation or refunding or other changes of an approved project should be responsive to Item 5c only.

1. OBJECTIVES AND NEED FOR THIS ASSISTANCE

Provide a short and concise description of the proposed improvement. Include a narrative on why this improvement is needed.

2. RESULTS OR BENEFITS EXPECTED

Identify results and benefits to be derived. For example, include a description of who will occupy the facility and show how the facility will be used. For land acquisition or development projects, explain how the project will benefit the public.

3. APPROACH

a. Outline a plan of action pertaining to the scope and detail of how the Sponsor proposes to accomplish the work.

b. Cite factors, which might accelerate or decelerate the work, and your reason for taking this approach as opposed to others. Describe any unusual features of the project such as construction approach, reductions in cost or time or extraordinary social and community involvements.

c. Provide projections of project milestone dates. As a minimum, identify target dates for defining project costs (i.e. bid opening or completion of negotiations), anticipated issuance of notice-to-proceed and anticipated project completion date.

d. Identify monitoring and oversight mechanisms the Sponsor proposes to implement.

e. List key individuals and entities such as consultant, Sponsor personnel and contractor who will work on the project. Provide a short description of the nature of their effort or contribution.

4. GEOGRAPHIC LOCATION

Identify location of the project. This will typically be the name of the airport.

5. IF APPLICABLE, PROVIDE THE FOLLOWING INFORMATION:

a. Describe the relationship between this project and other work planned, anticipated or underway under the Federal Assistance listed under Part II, Section A, Item 5.

b. Explain the reason for all requests for supplemental assistance and justify the need for additional funding.

c. If there have been significant changes in the project objectives, location, approach or time delays, explain and justify. For other requests for changes or amendments, explain the reason for the change(s). If the scope, budget, or objectives have changed or an extension of time is necessary, explain the circumstances and justify.

6. SPONSOR'S REPRESENTATIVE

Identify contact information of Sponsor's representative.

Application for Federal Assistance (Development and Equipment Projects)

PART II – PROJECT APPROVAL INFORMATION

Part II - SECTION A

The term "Sponsor" refers to the applicant name provided in box 8 of the associated SF-424 form.

Item 1.
Does Sponsor maintain an active registration in the System for Award Management (www.SAM.gov)?
☒ Yes ☐ No

Item 2.
Can Sponsor commence the work identified in the application in the fiscal year the grant is made or within six months after the grant is made, whichever is later?
☒ Yes ☐ No ☐ N/A

Item 3.
Are there any foreseeable events that would delay completion of the project? If yes, provide attachment to this form that lists the events.
☐ Yes ☒ No ☐ N/A

Item 4.
Will the project(s) covered by this request have impacts or effects on the environment that require mitigating measures? If yes, attach a summary listing of mitigating measures to this application and identify the name and date of the environmental document(s).
☐ Yes ☒ No ☐ N/A

Item 5.
Is the project covered by this request included in an approved Passenger Facility Charge (PFC) application or other Federal assistance program? If yes, please identify other funding sources by checking all applicable boxes.
☐ Yes ☒ No ☐ N/A

☐ The project is included in an *approved* PFC application.
If included in an approved PFC application,
does the application *only* address AIP matching share? ☐ Yes ☐ No

☐ The project is included in another Federal Assistance program. Its CFDA number is below.

Item 6.
Will the requested Federal assistance include Sponsor indirect costs as described in 2 CFR Appendix VII to Part 200, States and Local Government and Indian Tribe Indirect Cost Proposals?
☐ Yes ☒ No ☐ N/A

If the request for Federal assistance includes a claim for allowable indirect costs, select the applicable indirect cost rate the Sponsor proposes to apply:

☐ De Minimis rate of 10% as permitted by 2 CFR § 200.414.

☐ Negotiated Rate equal to _____ % as approved by _____ (the Cognizant Agency) on _____ (Date) (2 CFR part 200, appendix VII).

Note: Refer to the instructions for limitations of application associated with claiming Sponsor indirect costs.

PART II - SECTION B

Certification Regarding Lobbying

The declarations made on this page are under the signature of the authorized representative as identified in box 21 of form SF-424, to which this form is attached. The term "Sponsor" refers to the applicant name provided in box 8 of the associated SF-424 form.

The Authorized Representative certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the Sponsor, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the Authorized Representative shall complete and submit Standard Form-LLL, ''Disclosure Form to Report Lobbying,'' in accordance with its instructions.

(3) The Authorized Representative shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

PART II – SECTION C

The Sponsor hereby represents and certifies as follows:

1. Compatible Land Use – The Sponsor has taken the following actions to assure compatible usage of land adjacent to or in the vicinity of the airport:

2009 Part 150 study

2. Defaults – The Sponsor is not in default on any obligation to the United States or any agency of the United States Government relative to the development, operation, or maintenance of any airport, except as stated herewith:

NA

3. Possible Disabilities – There are no facts or circumstances (including the existence of effective or proposed leases, use agreements or other legal instruments affecting use of the Airport or the existence of pending litigation or other legal proceedings) which in reasonable probability might make it impossible for the Sponsor to carry out and complete the Project or carry out the provisions of the Grant Assurances, either by limiting its legal or financial ability or otherwise, except as follows:

NA

4. Consistency with Local Plans – The project is reasonably consistent with plans existing at the time of submission of this application) of public agencies that are authorized by the State in which the project is located to plan for the development of the area surrounding the airport.

Yes

5. Consideration of Local Interest – It has given fair consideration to the interest of communities in or near where the project may be located.

Yes

6. Consultation with Users – In making a decision to undertake an airport development project under Title 49, United States Code, it has consulted with airport users that will potentially be affected by the project (§ 47105(a)(2)).

Yes

7. Public Hearings – In projects involving the location of an airport, an airport runway or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.

NA

8. Air and Water Quality Standards – In projects involving airport location, a major runway extension, or runway location it will provide for the Governor of the state in which the project is located to certify in writing to the Secretary that the project will be located, designed, constructed, and operated so as to comply with applicable and air and water quality standards. In any case where such standards have not been approved and where applicable air and water quality standards have been promulgated by the Administrator of the Environmental Protection Agency, certification shall be obtained from such Administrator. Notice of certification or refusal to certify shall be provided within sixty days after the project application has been received by the Secretary.

NA

PART II – SECTION C (Continued)

9. **Exclusive Rights** – There is no grant of an exclusive right for the conduct of any aeronautical activity at any airport owned or controlled by the Sponsor except as follows:

NA

10. **Land** – (a) The sponsor holds the following property interest in the following areas of land, which are to be developed or used as part of or in connection with the Airport subject to the following exceptions, encumbrances, and adverse interests, all of which areas are identified on the aforementioned property map designated as Exhibit "A". [1]

Fee Simple.

The Sponsor further certifies that the above is based on a title examination by a qualified attorney or title company and that such attorney or title company has determined that the Sponsor holds the above property interests.

(b) The Sponsor will acquire within a reasonable time, but in any event prior to the start of any construction work under the Project, the following property interest in the following areas of land on which such construction work is to be performed, all of which areas are identified on the aforementioned property map designated as Exhibit "A". [1]

NA

(c) The Sponsor will acquire within a reasonable time, and if feasible prior to the completion of all construction work under the Project, the following property interest in the following areas of land which are to be developed or used as part of or in connection with the Airport as it will be upon completion of the Project, all of which areas are identified on the aforementioned property map designated as Exhibit "A". [1]

NA

[1] State the character of property interest in each area and list and identify for each all exceptions, encumbrances, and adverse interests of every kind and nature, including liens, easements, leases, etc. The separate areas of land need only be identified here by the area numbers shown on the property map.

PART III – BUDGET INFORMATION – CONSTRUCTION

SECTION A – GENERAL
1. Federal Domestic Assistance Catalog Number: 20-106
2. Functional or Other Breakout:

SECTION B – CALCULATION OF FEDERAL GRANT			
Cost Classification	**Latest Approved Amount (Use only for revisions)**	**Adjustment + or (-) Amount (Use only for revisions)**	**Total Amount Required**
1. Administration expense			
2. Preliminary expense			
3. Land, structures, right-of-way			
4. Architectural engineering basic fees			82,850
5. Other Architectural engineering fees			
6. Project inspection fees			
7. Land development			
8. Relocation Expenses			
9. Relocation payments to Individuals and Businesses			
10. Demolition and removal			
11. Construction and project improvement			
12. Equipment			
13. Miscellaneous			
14. **Subtotal** (Lines 1 through 13)			$ 82,850
15. Estimated Income (if applicable)			
16. Net Project Amount (Line 14 minus 15)			82,850
17. **Less**: Ineligible Exclusions (Section C, line 23 g.)			
18. **Subtotal** (Lines 16 through 17)			$ 82,850
19. Federal Share requested of Line 18			78,708
20. Grantee share			828
21. Other shares			3,314
22. **TOTAL PROJECT** (Lines 19, 20 & 21)			$ 82,850

SECTION C – EXCLUSIONS	
23. Classification (Description of non-participating work)	**Amount Ineligible for Participation**
a.	
b.	
c.	
d.	
e.	
f.	
g. **Total**	

SECTION D – PROPOSED METHOD OF FINANCING NON-FEDERAL SHARE	
24. Grantee Share – Fund Categories	**Amount**
a. Securities	
b. Mortgages	
c. Appropriations (by Applicant)	828
d. Bonds	
e. Tax Levies	
f. Non-Cash	
g. Other (Explain):	
h. **TOTAL -** Grantee share	$ 828
25. Other Shares	**Amount**
a. State	3,314
b. Other	
c. **TOTAL -** Other Shares	
26. TOTAL NON-FEDERAL FINANCING	$ 3,314

SECTION E – REMARKS (Attach sheets if additional space is required)

PART IV – PROGRAM NARRATIVE

(Suggested Format)

PROJECT: 1. Taxiway C Rehabilitation – Construction

AIRPORT: New Smyrna Beach Municipal Airport (EVB)

1. Objective:

Generally, this project will consist of design of approximately 24,000 linear feet of perimeter wildlife fencing to surround the airfield only per Advisory Circular. This project includes 3 new gate installations. The fencing will meet the requirements of FAA National CertAlert No. 16-03 "Recommended Wildlife Exclusion Fencing".

2. Benefits Anticipated:

The Wildlife Hazard Assessment and Wildlife Hazard Management Plan, completed for the airport, recommended improving the fencing from standard perimeter fencing to FAA wildlife fencing to keep wildlife out of the AOA. The project will enhance the safety of the airport by reducing the chance of a wildlife incursion or strikes on the runway.

3. Approach: (See approved Scope of Work in Final Application)

4. Geographic Location:

City of New Smyrna Beach, Volusia County, FL

5. If Applicable, Provide Additional Information:

NA

6. Sponsor's Representative: (include address & telephone number)

Arvin Weese, Airport Director
602 Skyline Drive, New Smyrna Beach, FL 32168
386-410-2680

Project Specific Checklist
Application for Federal Assistance
FAA Form 5100-100, Part IV, Program Narrative

Project Description:

Wildlife Fence - Design

Airport Name / City, FL:

New Smyrna Beach Municipal Airport

	Items a. thru pp. must be answered for each individual project: (Ref. Order 5100-38D, Chapter 3, Table 3-1)	Yes (y)	No (n)	N/A (n/a)
a.	Is the project eligible?	y		
aa.	Identify eligibility "chapter & verse" from Order 5100-38D, AIP Handbook	Table L-2, q.		
b.	Is the project justifiied? Does your project narrative address the "Three Basic Tests" as identified in Table 3-4, Order 5100-38D?	y		
c.	Is the project on airport property (with good title)?	y		
cc.	Date of your current Airport Exhibit A on file in ADO:	6/25/2019		
d.	Is the project on the FAA approved airport layout plan?	y		
dd.	Identify date of FAA approved ALP on file in the ADO:	6/25/2019		
e.	Has the Sponsor satisfied the intergovernmental review and airport user	y		
f.	Has the FAA completed an environmental finding for the project?	y		
ff.	Provide date of environmental finding/Cat. Ex.?	10/29/2024		
g.	Will the project result in a usable unit of work?	y		
h.	Will the project be planned, designed, and/or constructed to FAA standards?	y		
hh.	If applicable, identify date MOS was approved by FAA.			n/a
i.	Has the project been procurred correctly?	y		
j.	Are the project costs allowable?	y		
k.	Are the project costs necessary to accomplish the project? (Project costs are directly necessary to accomplish the project. Ref. Order 5100-38D, Ch. 3, Section	y		
l.	Were the project costs incurred after the grant was executed? (Ref. Order 5100-38D, Ch. 3, Section 13, for exceptions).	y		
m.	Are the project costs reasonable? (Are Sponsor cost analyses attached? Ref. Order 5100-38D, Ch. 3, Section 14).	y		
n.	Is this the only federal grant containing these project costs? (No "double-dipping"!!!)	y		
o.	Are the project costs within the allowable federal share?	y		
p.	Can the project be completed without unreasonable delay?	y		
pp.	Identify number of calendar days and date after the grant execution date when notice-to-proceed will be issued.	30		
	<u>If discretionary funding is being requested for this project answer the following:</u>			
1	Is this project phased?			
1a.	If yes, what phase is this?			
1b.	If phased, how does this phase fit into the larger development need?			
2	What is the total AIP funds spent on previous phases of the project?			
2a.	What is the total AIP funds requested for this phase in this Application?			
2b.	What is the total AIP funds needed to complete the project beyond this Application ?			
	<u>If funding requested for this project is for an LOI, provide the following:</u>			
i.	Enter the number of the LOI payment this grant will provide.			
ii.	Enter the total number of LOI payments - past grant(s), this grant, future grant(s)			
iii.	Total AIP funds provided to-date including the funds requested in this Application			
iv.	Total AIP funds approved for the project LOI. (Total LOI payments for entire project).

Submit Plans and Specs to FAA	**3/27/2026**
Project Close-Out	**4/30/2026**

FAA ORLANDO AIRPORTS DISTRICT OFFICE – CATEGORICAL EXCLUSION (CATEX) SHORT FORM

Airport: New Smyrna Beach Municipal Airport Project Title: Wildlife Fence – Design

Use this CATEX Short Form if the Proposed Action is a federal action subject to NEPA and normally would not individually or cumulatively have a significant effect on the human environment. **Identify the applicable paragraph on the line below from FAA Order 1050.1F, paragraphs 5-6.1 through 5-6.6 for the Proposed Action.**

5-6.4.i

List all components of the Proposed Action and Connected Actions (if any) on a separate sheet. *A CATEX should not be used for a segment or an interdependent part of a larger proposed action.* **Include** a summary of existing conditions at the Proposed Action site. **Attach** a site map identifying the Proposed Action area on the airport's current ALP and a recent aerial of the Proposed Action area.

Certify that the Proposed Action and Connected Actions are **NOT** likely to have extraordinary circumstances or significant impacts. Significance thresholds and factors to consider are in FAA Order 1050.1F Exhibit 4-1. Extraordinary circumstances are listed in FAA Order 1050.1F paragraph 5-2, and summarized below:

-An adverse effect on cultural resources protected under the National Historic Preservation Act of1966, as amended, 54 U.S.C. §300101 et seq.;
-An impact on properties protected under Section 4(f);
-An impact on natural, ecological, or scenic resources of Federal, state, tribal, or local significance (e.g., federally listed or proposed endangered, threatened, or candidate species, or designated or proposed critical habitat under the Endangered Species Act, 16 U.S.C. §§ 1531-1544);
-An impact on the following resources: resources protected by the Fish and Wildlife Coordination Act, 16 U.S.C. §§ 661-667d; wetlands; floodplains; coastal zones; national marine sanctuaries; wilderness areas; National Resource Conservation Service-designated prime and unique farmlands; energy supply and natural resources; resources protected under the Wild and Scenic Rivers Act, 16 U.S.C. §§ 1271-1287, and rivers or river segments listed on the Nationwide Rivers Inventory (NRI); and solid waste management;
-A division or disruption of an established community, or a disruption of orderly, planned development, or an inconsistency with plans or goals that have been adopted by the community in which the project is located;
An increase in congestion from surface transportation (by causing decrease in level of service below acceptable levels determined by appropriate transportation agency, such as a highway agency);
-An impact on noise levels of noise sensitive areas;
-An impact on air quality or violation of Federal, state, tribal, or local air quality standards under the Clean Air Act, 42 U.S.C. §§ 7401-7671q;
-An impact on water quality, sole source aquifers, a public water supply system, or state or tribal water quality standards established under the Clean Water Act, 33 U.S.C. §§ 1251-1387, and the Safe Drinking Water Act, 42 U.S.C. §§ 300f-300j-26;
-Impacts on the quality of the human environment that are likely to be highly controversial on environmental grounds. The term "highly controversial on environmental grounds" means there is a substantial dispute involving reasonable disagreement over the degree, extent, or nature of a proposed action's environmental impacts or over the action's risks of causing environmental harm.
-Likelihood to be inconsistent with any Federal, state, tribal, or local law relating to the environmental aspects of the proposed action; or
-Likelihood to directly, indirectly, or cumulatively create a significant impact on the human environment, including, but not limited to, actions likely to cause a significant lighting impact on residential areas or commercial use of business properties, likely to cause a significant impact on the visual nature of surrounding land uses, likely to cause environmental contamination by hazardous materials, or likely to disturb an existing hazardous material contamination site such that new environmental contamination risks are created.

Based on the information in this Short Form CATEX and supporting information, I certify that the Proposed Action and Connected Actions meet(s) all requirements for a CATEX in accordance with FAA Order 1050.F and do not have any extraordinary circumstances or significant impacts.

CATEGORICAL EXCLUSION ENVIRONMENTAL DETERMINATION CHECKLIST

Airport: New Smyrna Beach Municipal Airport

Prepared and certified by: Arvin Weese Date: 09/24/2024

	YES**	NO	COMMENTS
THE PROPOSED ACTION MUST BE LISTED IN FAA ORDER 1050.1F PARAS. 5-6.1-5-6.6 AS AN ACTION THAT WOULD NORMALLY BE CATEGORICALLY EXCLUDED			
THE PROPOSED ACTION CONSISTS OF:			
Helicopter facilities or operations		x	
Land acquisition		x	
New airport serving general aviation		x	
Access or service road construction		x	
New airport location		x	
New runway		x	
Runway extension, strengthening, reconstruction, resurfacing or widening		X	
Converting prime or unique farmland		x	
Runway Safety Area (RSA) improvements		x	
ILS or ALS installation		x	
Airport development (hangars, terminal expansion)		x	
On-airport aboveground or underground fuel storage tanks		x	
Construction, reconstruction, or relocation of an ATCT		x	
THE PROPOSED ACTION WILL AFFECT:			
Historic/Archeological/Cultural Resources		x	
Section 4(f) or 6(f) resources		x	
Federally listed, endangered, threatened , or candidate species, or designated/proposed critical habitat		X	
Federal, state, tribal, or local natural, ecological, or scenic resources		X	
Wetlands, floodplains, waterways		x	
Energy supply or natural resources		x	
Protected rivers or river segments		x	
Established community(s), planned development, or plans/goals adopted by the local community		X	
Surface vehicular traffic (reduce LOS)		x	
Air quality or violate Federal, state, tribal or local standards		x	
Water quality, a sole source aquifer, public water supply system, or federal, state, or tribal water quality standards		X	
THE PROPOSED ACTION IS LIKELY TO:			
Be Highly Controversial on Environmental Grounds		x	
Be Inconsistent with Federal, state, tribal, or local law relating to environmental aspects		X	
Cause residential or business relocations		x	
Increase noise levels over Noise Sensitive Land Uses within the 65 dBA noise contour or newly include Noise Sensitive Land Uses within the 65 dBA noise contour.		X	
Cause Environmental Justice Impacts		x	
Contain Hazardous Materials or Affect Hazardous Materials/Sites		X	
Create a Wildlife Hazard per AC 150/5200-33		x	
Increase lighting impacts on residential communities or impact the visual nature of surrounding land uses		X	

** Attach detailed explanations or analysis for all "yes" answers on a separate sheet that supports a Categorical Exclusion determination.

Final 7-8-2016

Project Description:

This project will consist of design of approximately 15,000 linear feet of perimeter wildlife fencing to surround the airfield only per Advisory Circular. This project includes 3 new gate installations. The fencing will meet the requirements of FAA National CertAlert No. 16-03 "Recommended Wildlife Exclusion Fencing".

The Wildlife Hazard Assessment and Wildlife Hazard Management Plan, completed for the airport, recommended improving the fencing from standard perimeter fencing to FAA wildlife fencing to keep wildlife out of the AOA. The project will enhance the safety of the airport by reducing the chance of a wildlife incursion or strike on the runway.

WORK ORDER NUMBER: 1 DATE _____, 2025

PROJECT: Wildlife Fence – Design Phase Services

CONTRACTOR/CONSULTANT: AVCON, Inc.

MASTER AGREEMENT #: RFQ 13-24-AIR CONTRACT TERM DATE: 05/24/2027

CITY RESOLUTION #: RES_____ COMMISSION MEETING DATE: _____

Execution of this Work Order by the City of New Smyrna Beach, FLORIDA (the "City") shall serve as authorization for CONTRACTOR/CONSULTANT (the "Contractor") to proceed with the provision of goods and/or services and/or work in connection with the above project (the "Project"), and as referenced in the Master Agreement (referenced above) and listed in the documents that are attached hereto and incorporated herein by this reference (collectively the "Work").

Contractor shall provide or complete the Work to, or for the benefit of, the City pursuant to the terms of this Work Order and any attachment(s) hereto (collectively the "Work Order").

All services, programs and activities of the City are offered and solicited without regard to race, color, national origin, age, sex, religion, disability or family status in accordance with the City's Title VI Nondiscrimination Policy, Plan and Procedures.

ATTACHMENTS:

[X] EXHIBIT A: SCOPE OF SERVICES
[X] EXHIBIT B: HOUR AND FEE PROPOSAL
[X] EXHIBIT C: SKETCH

The CONTRACTOR shall provide said services pursuant to this Work Order, its attachments, and the above-referenced Master Agreement, which is incorporated herein by reference as if it had been set out in its entirety. Whenever the Work Order conflicts with said Master Agreement, the Agreement shall prevail.

TIME FOR COMPLETION: The Work shall be completed within 180 days after the date of the execution of this Work Order by the City, provided, however, if a notice to

Contractor's Initials: _____

proceed is required pursuant to any of the attachments hereto or the underlying contract, then _____ days after the date of issuance of a notice to proceed by the City.

COMPENSATION: The City shall compensate Contractor a lump sum fee in the amount of $82,850.00 (the "Fee") for the Work required to be performed by Contractor pursuant to the terms of this Work Order. Contractor shall perform all Work and provide all associated goods as required by the terms of this Work Order. In no event, shall Contractor be paid more than the Fee set forth above. Payment of the Fee shall be in accordance with to the method described in the City's terms and conditions listed on the City website OR in accordance with the terms and conditions set forth herein or in the underlying contract.

It is expressly understood by the CONTRACTOR That this Work Order, until executed by the CITY, does not authorize the performance of any services by the CONTRACTOR and that the CITY, prior to its execution of the Work Order, reserves the right to authorize a party other than the CONTRACTOR to perform the services called for under this Work Order if it is determined that to do so is in the best interest of the CITY.

INSURANCE: If the Contractor maintains broader insurance coverage and/or higher limits than the minimums the City requires to be maintained, then City shall be entitled to the broader coverage and/or the higher limits maintained by the Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

The **Effective Date** of this Work Order shall be the date of execution by the City of New Smyrna Beach, Florida.

SCOPE OF SERVICES

New Smyrna Beach Municipal Airport

Wildlife Fence

Design Phase Services

PROJECT DESCRIPTION:

The CONSULTANT shall provide design phase services for the Wildlife Fence project at New Smyrna Beach Municipal Airport. The project limits are depicted on Attachment C. Generally, the project includes design of approximately 24,000 linear feet of perimeter wildlife fence. The wildlife fence installation will include new fence, modification to existing fence, gate improvements, and swale crossing improvements. The fencing will meet the requirements of FAA National CertAlert No. 16-03 "Recommended Wildlife Exclusion Fencing".

DESIGN PHASE SERVICES:

Administration Phase

The CONSULTANT shall aid the SPONSOR by acting as its liaison and Project coordinator with the FAA and FDOT during the Project's design. In addition, the CONSULTANT shall assist the SPONSOR in the preparation of paperwork required to secure funds for the Project. The specific services to be provided or furnished for this Phase of the Project are the following:

- Grant management.
- Preparation of reimbursement requests.
- Project coordination with the funding agencies.

Design Phase

The services to be performed during the Design Phase consist generally of services required to furnish the SPONSOR with a complete set of Contract Documents for the Project, including Plans, Specifications, Engineer's Report, and an Estimate of Construction Cost. The Design scope of services will include:

- Schematic Design.
    - Acquire topographic survey.
    - Develop schematic plans.
    - Prepare Engineer's Report and construction cost estimate.

- Preliminary Design.
    - Field verify survey.
    - Develop preliminary design plans.

- Develop Draft Construction Safety and Phasing Plans and Document (CSPP).
- Preparation of FAA OE/AAA submission documentation (Airspace Review).
- Develop general and technical specifications.
- Update Engineer's Report and construction cost estimate.

- Final Design.
  - Finalize design plans.
  - Finalize CSPP and airspace submission documentation and upload to OE/AAA for FAA review and approval.
  - Finalize general and technical specifications.
  - Prepare Final Engineer's Report and construction cost estimate.

Deliverables include electronic copies of Contract Documents at the completion of each Design Phase. Final Contract Documents will be uploaded into JACIP.

FAA Form 5100-134, Selection of Consultants – Airport Improvement Program Sponsor Certification

Paperwork Reduction Act Statement

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB Control Number. The OMB Control Number for this information collection is 2120-0569. Public reporting for this collection of information is estimated to be approximately 8 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, completing and reviewing the collection of information. All responses to this collection of information are required under 49 U.S.C. Section 47105 to retain a benefit and to meet the reporting requirements of 2 CFR 200. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Federal Aviation Administration at: 800 Independence Ave. SW, Washington, DC 20591, Attn: Information Collection Clearance Officer, ASP-110.

Selection of Consultants
Airport Improvement Program Sponsor Certification

Sponsor: City of New Smyrna Beach

Airport: New Smyrna Beach Municipal Airport

Project Number: 3-12-0054-xx-2025

Description of Work: 1. Wildlife Fence - Design

Application
49 USC § 47105(d) authorizes the Secretary to require certification from the sponsor that it will comply with the statutory and administrative requirements in carrying out a project under the Airport Improvement Program (AIP). General requirements for selection of consultant services within federal grant programs are described in 2 CFR §§ 200.317-200.326. Sponsors may use other qualifications-based procedures provided they are equivalent to standards of Title 40 chapter 11 and FAA Advisory Circular 150/5100-14, Architectural, Engineering, and Planning Consultant Services for Airport Grant Projects.

Certification Statements
Except for certification statements below marked as not applicable (N/A), this list includes major requirements of the construction project. Selecting "Yes" represents sponsor acknowledgement and confirmation of the certification statement. The term "will" means Sponsor action taken at appropriate time based on the certification statement focus area, but no later than the end of the project period of performance. This list is not comprehensive and does not relieve the sponsor from fully complying with all applicable statutory and administrative standards. The source of the requirement is referenced within parenthesis.

1. Sponsor acknowledges their responsibility for the settlement of all contractual and administrative issues arising out of their procurement actions (2 CFR § 200.318(k)).

   ☒ Yes ☐ No ☐ N/A

2. Sponsor procurement actions ensure ~~or will ensure~~ full and open competition that does not unduly limit competition (2 CFR § 200.319).

   ☒ Yes ☐ No ☐ N/A

3. Sponsor has excluded ~~or will exclude~~ any entity that develops or drafts specifications, requirements, or statements of work associated with the development of a request-for-qualifications (RFQ) from competing for the advertised services (2 CFR § 200.319).

   ☒ Yes ☐ No ☐ N/A

4. The advertisement describes ~~or will describe~~ specific project statements-of-work that provide clear detail of required services without unduly restricting competition (2 CFR § 200.319).

   ☒ Yes ☐ No ☐ N/A

5. Sponsor has publicized ~~or will publicize~~ a RFQ that:

   a. Solicits an adequate number of qualified sources (2 CFR § 200.320(d)); and

   b. Identifies all evaluation criteria and relative importance (2 CFR § 200.320(d)).

   ☒ Yes ☐ No ☐ N/A

6. Sponsor has based ~~or will base~~ selection on qualifications, experience, and disadvantaged business enterprise participation with price not being a selection factor (2 CFR § 200.320(d)).

   ☒ Yes ☐ No ☐ N/A

7. Sponsor has verified ~~or will verify~~ that agreements exceeding $25,000 are not awarded to individuals or firms suspended, debarred or otherwise excluded from participating in federally assisted projects (2 CFR §180.300).

   ☒ Yes ☐ No ☐ N/A

8. A/E services covering multiple projects: Sponsor has agreed ~~to or will agree~~ to:

   a. Refrain from initiating work covered by this procurement beyond five years from the date of selection (AC 150/5100-14); and

   b. Retain the right to conduct new procurement actions for projects identified or not identified in the RFQ (AC 150/5100-14).

   ☒ Yes ☐ No ☐ N/A

9. Sponsor has negotiated ~~or will negotiate~~ a fair and reasonable fee with the firm they select as most qualified for the services identified in the RFQ (2 CFR § 200.323).

   ☒ Yes ☐ No ☐ N/A

10. The Sponsor's contract identifies or will identify costs associated with ineligible work separately from costs associated with eligible work (2 CFR § 200.302).

    ☐ Yes ☐ No ☒ N/A

11. Sponsor has prepared ~~or will prepare~~ a record of negotiations detailing the history of the procurement action, rationale for contract type and basis for contract fees (2 CFR §200.318(i)).

    ☒ Yes ☐ No ☐ N/A

12. Sponsor has incorporated ~~or will incorporate~~ mandatory contact provisions in the consultant contract for AIP-assisted work (49 U.S.C. Chapter 471 and 2 CFR part 200 Appendix II)

    ☒ Yes ☐ No ☐ N/A

13. For contracts that apply a time-and-material payment provision (also known as hourly rates, specific rates of compensation, and labor rates), the Sponsor has established or will establish:

    a. Justification that there is no other suitable contract method for the services (2 CFR §200.318(j));

    b. A ceiling price that the consultant exceeds at their risk (2 CFR §200.318(j)); and

    c. A high degree of oversight that assures consultant is performing work in an efficient manner with effective cost controls in place 2 CFR §200.318(j)).

    ☐ Yes ☐ No ☒ N/A

14. Sponsor is not using ~~or will not use~~ the prohibited cost-plus-percentage-of-cost (CPPC) contract method. (2 CFR § 200.323(d)).

    ☒ Yes ☐ No ☐ N/A

Attach documentation clarifying any above item marked with "no" response.

Sponsor's Certification

I certify, for the project identified herein, responses to the forgoing items are accurate as marked and additional documentation for any item marked "no" is correct and complete.

I declare under penalty of perjury that the foregoing is true and correct. I understand that knowingly and willfully providing false information to the federal government is a violation of 18 USC § 1001 (False Statements) and could subject me to fines, imprisonment, or both.

Executed on this 28th day of April , 2025 .

FAA Form 5100-129, Construction Project Final Acceptance – Airport Improvement Program Sponsor Certification

Paperwork Reduction Act Burden Statement

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB Control Number. The OMB Control Number for this information collection is 2120-0569. Public reporting for this collection of information is estimated to be approximately 8 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, completing and reviewing the collection of information. All responses to this collection of information are required under 49 U.S.C. Section 47105 to retain a benefit and to meet the reporting requirements of 2 CFR 200. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Federal Aviation Administration at: 800 Independence Ave. SW, Washington, DC 20591, Attn: Information Collection Clearance Officer, ASP-110.

Construction Project Final Acceptance
Airport Improvement Program Sponsor Certification

Sponsor: City of New Smyrna Beach

Airport: New Smyrna Beach Municipal Airport

Project Number: 3-12-0054-xx-2025

Description of Work: 1. Wildlife Fence - Design

Application

49 USC § 47105(d), authorizes the Secretary to require me certification from the sponsor that it will comply with the statutory and administrative requirements in carrying out a project under the Airport Improvement Program. General standards for final acceptance and close out of federally funded construction projects are in 2 CFR § 200.343 – Closeout and supplemented by FAA Order 5100.38. The sponsor must determine that project costs are accurate and proper in accordance with specific requirements of the grant agreement and contract documents.

Certification Statements

Except for certification statements below marked not applicable (N/A), this list includes major requirements of the construction project. Selecting "Yes" represents sponsor acknowledgment and confirmation of the certification statement. The term "will" means Sponsor action taken at appropriate time based on the certification statement focus area, but no later than the end of the project period of performance. This list is not comprehensive and does not relieve the sponsor from fully complying with all applicable statutory and administrative standards. The source of the requirement is referenced within parenthesis.

1. The personnel engaged in project administration, engineering supervision, project inspection, and acceptance testing ~~were or~~ will be determined to be qualified and competent to perform the work (Grant Assurance).
   ☒ Yes ☐ No ☐ N/A
2. Construction records, including daily logs, ~~were or~~ will be kept by the resident engineer/construction inspector that fully document contractor's performance in complying with:
   a. Technical standards (Advisory Circular (AC) 150/5370-12);
   b. Contract requirements (2 CFR part 200 and FAA Order 5100.38); and
   c. Construction safety and phasing plan measures (AC 150/5370-2).
   ☒ Yes ☐ No ☐ N/A
3. All acceptance tests specified in the project specifications ~~were or~~ will be performed and documented. (AC 150/5370-12).
   ☒ Yes ☐ No ☐ N/A

4. Sponsor has taken or will take appropriate corrective action for any test result outside of allowable tolerances (AC 150/5370-12).

   ☐ Yes ☐ No ☒ N/A

5. Pay reduction factors required by the specifications were applied or will be applied in computing final payments with a summary made available to the FAA (AC 150/5370-10).

   ☐ Yes ☐ No ☒ N/A

6. Sponsor ~~has notified, or~~ will promptly notify the Federal Aviation Administration (FAA) of the following occurrences:

   a. Violations of any federal requirements set forth or included by reference in the contract documents (2 CFR part 200);

   b. Disputes or complaints concerning federal labor standards (29 CFR part 5); and

   c. Violations of or complaints addressing conformance with Equal Employment Opportunity or Disadvantaged Business Enterprise requirements (41 CFR Chapter 60 and 49 CFR part 26).

   ☒ Yes ☐ No ☐ N/A

7. Weekly payroll records and statements of compliance ~~were or~~ will be submitted by the prime contractor and reviewed by the sponsor for conformance with federal labor and civil rights requirements as required by FAA and U.S. Department of Labor (29 CFR Part 5).

   ☒ Yes ☐ No ☐ N/A

8. Payments to the contractor ~~were or~~ will be made in conformance with federal requirements and contract provisions using sponsor internal controls that include:

   a. Retaining source documentation of payments and verifying contractor billing statements against actual performance (2 CFR § 200.302 and FAA Order 5100.38);

   b. Prompt payment of subcontractors for satisfactory performance of work (49 CFR § 26.29);

   c. Release of applicable retainage upon satisfactory performance of work (49 CFR § 26.29); and

   d. Verification that payments to DBEs represent work the DBE performed by carrying out a commercially useful function (49 CFR §26.55).

   ☒ Yes ☐ No ☐ N/A

9. A final project inspection ~~was or~~ will be conducted with representatives of the sponsor and the contractor present that ensure:

   a. Physical completion of project work in conformance with approved plans and specifications (Order 5100.38);

   b. Necessary actions to correct punch list items identified during final inspection are complete (Order 5100.38); and

   c. Preparation of a record of final inspection and distribution to parties to the contract (Order 5100.38);

   ☒ Yes ☐ No ☐ N/A

10. The project ~~was or~~ will be accomplished without material deviations, changes, or modifications from approved plans and specifications, except as approved by the FAA (Order 5100.38).

    ☒ Yes ☐ No ☐ N/A

11. The construction of all buildings have complied or will comply with the seismic construction requirements of 49 CFR § 41.120.

☐ Yes ☐ No ☒ N/A

12. For development projects, sponsor ~~has taken or~~ will take the following close-out actions:

    a. Submit to the FAA a final test and quality assurance report summarizing acceptance test results, as applicable (Grant Condition);

    b. Complete all environmental requirements as established within the project environmental determination (Oder 5100.38); and

    c. Prepare and retain as-built plans (Order 5100.38).

☒ Yes ☐ No ☐ N/A

13. Sponsor has revised or will revise their airport layout plan (ALP) that reflects improvements made and has submitted or will submit an updated ALP to the FAA no later than 90 days from the period of performance end date. (49 USC § 47107 and Order 5100.38).

☐ Yes ☐ No ☒ N/A
