Re: **B&O Tax Exemption Denial - Ranson, WV**

To Whom it May Concern,

HRI, Inc.'s previous request for exemption for all applicable Business and Occupancy (B&O) Taxes associated with the 2022 Collection System Project was denied by Ranson City Council. As claimed by HRI, the contract documents and associated addenda provided by RK&K at time of bid did not provide enough information for HRI to accurately account for the total tax amount, or subtotals owed to each entity.

B&O Tax requirements are not explicitly mentioned in the project specifications, and it was noted in Addendum #1 that B&O Tax applies *through certain portions* of project. However, no clarification was provided to ascertain which portions would be applicable, or what these tax rate(s) would be. The engineer failed to provide further clarification or additional information to the bidding contractors relating to this requirement. For reference, see below for the question and response provided to contractors per Addendum #1.

16. QUESTIONS:

Below are questions and responses that RK&K was able to answer during the pre-bid meeting. In the event an inaccuracy or an omission is noted, please notify RK&K in a timely manner to allow the inaccuracy or omission to be corrected. In an event written responses differ from oral responses at the time of the meeting, written responses will govern.

- Is an office trailer required?
  - Yes, an office trailer is required.
- Are there flow rates available for bypass pumping?
  - Yes, CTUB can provide existing flow data.
- Is there B&O tax?
  - Yes, B&O tax does apply through certain portions of the project.
- Are there caverns throughout the project area?
  - There are no known caverns throughout the project area.
- When is Notice of Award anticipated?
  - NOA is anticipated prior to 2025. The start of construction can be coordinated with CTUB.

It is important to remember that HRI was competing in a low bid environment when looking at this project. Because of the ambiguity and lack of information, HRI did not account for B&O Taxes in our bid proposal so as to not overestimate the cost and risk losing low bid position.

Should Ranson uphold their decision to require the B&O Tax and not provide exemption, HRI will be submitting a change order in the amount of $87,994.17 to cover the estimated cost that was not included in our bid. An amount that would not have been known to Ranson at the time of bid, due to the fact the engineer nor owners knew which sites were applicable, if at all, and to which B&O Tax rates would apply.

Because it would be in the best interest of CTUB, HRI hopes that Ranson would please reconsider their stance. We do not want to start this project off on the wrong foot, but HRI should not be penalized for not including pricing for a requirement that was not made clear to bidders, even when further information was requested.

Regards,

Joshua Kutz

Honorable Mayor and Council:

At the Charles Town Utility Board (CTUB) Meeting on January 8, 2025, the Board of Directors voted to forward a letter to the City of Ranson Council in support of a Business and Occupation (B&O) Tax Waiver, or credit, for the CTUB 2022 Sewer Collection System Project (Project). The project has been awarded to HRI, Inc. in the amount of $6,074,000. Ultimately the B&O tax is included within the project costs and will be paid through customer rates to fulfill bond debt. A waiver of the B&O Tax will allow CTUB to utilize the savings in this current project for other future projects. As the project is vital to the community and will vastly improve reliable sewer service to a significant number of CTUB customers, the Board fully supports a waiver of the B&O Tax for the portions of the project within the City of Ranson Municipal limits.

Attached hereto, you will find the formal request from the HRI, Inc. that is subject to the B&O Tax for the project.

Should you have any questions, please do not hesitate to contact me at (304) 724-7080 or kstolipher@ctubvw.com.

Kristen Stolipher

MEMORANDUM

TO: City Manager
FROM: City Attorney
DATE: February 3, 2025

SUBJECT: Municipal B&O Tax Exemption

Issue: Does the Ranson City Code allow for the waiver of a municipal business privilege ("B&O") tax otherwise due to be paid by a contractor working in city limits for a political subdivision of the state (CTUB)?

Answer: No.

Issue: May the City forgive B&O tax otherwise due from a contractor working in city limits on behalf of a political subdivision of the State (CTUB)?

Answer: Yes, with an amending ordinance enacted by the Council.

Discussion: The state code authorizing levy of a municipal business privilege tax ("B&O") is permissive, not mandatory, assigning Council "plenary [complete] power and authority" to impose the tax. *W.Va. Code §8-13-5.* Council may therefore amend the City Code to exempt otherwise eligible taxpayers from B&O tax liability.

Other cities have amended municipal codes to deny tax exemption for contractors working in city limits for political subdivisions. (See: *Charleston City Code* §110-56(g); *Martinsburg City Code* §755.02A(b)(2), attached). Both Morgantown and Clarksburg have informally refused B&O exemptions for contractors working in their cities on behalf of a political subdivision utility.

Charles Town has recently amended the municipal code to allow for qualified exemptions when specially authorized by a 2/3 vote of the Council. (See: *Charles Town City Code* §745.16A, attached).

Issue: If Council enacts a waiver of a class of B&O taxpayers, what potential implications might arise for future similar requests from other organizations?

Answer: Any statutory waiver of B&O tax liability would be subject to 14th Amendment equal protection limitations. Qualification for a tax waiver must be defined precisely and specifically to avoid ambiguity inviting equal protection protests. All prospective taxpayers qualified by the exemption definition in the municipal code would be entitled to the waiver.

Charleston City Code 110-56(g)

Contract entered into with government. Gross income received by a person for contracting activities performed for the State of West Virginia, the federal government or any of their instrumentalities, agencies, boards, commissions or political subdivisions, etc., or performed for nonprofit organizations is taxable and shall be reported under the contracting classification. The fact that the owner is a governmental unit or a non profit organization does not relieve the contractor, subcontractor, supplier or any other person from liability for municipal business and occupation tax on the full amount of gross income.

Martinsburg City Code 755.02A (b)(2)

Contracting entered into with governments. Gross income received by a person for contracting activities performed for the State, the federal government, or any of their instrumentalities, agencies, boards, commissions or political subdivisions, etc., is taxable and shall be reported under the contracting classification. The fact that the owner is a governmental unit does not relieve the contractor, subcontractor, suppliers, or any other person from liability for business and occupation tax on the full amount of gross income.

Charles Town City Code 745.16A

OPTIONAL EXEMPT ACTIVITIES.

The City Council, by vote of 2/3 majority of the Council, reserves the right to apply, reduce, or eliminate for a specified time period and/or for a specific project, the Business and Occupation tax per the following provision(s): Any activity associated with a municipality- initiated/tax payer-funded project that directly benefits Charles Town's residents, and in which the taxes rendered under this article could result in higher rates to those residents for existing services and/or higher project costs for the municipality.

Re: **B&O Tax Exemption for Charles Town and Ranson, WV**

To Whom it May Concern,

HRI, Inc. is requesting exemption for all applicable Business and Occupancy (B&O) Taxes associated with the 2022 Collection System Project. The contract documents and associated addenda provided by RK&K at time of bid did not provide enough information for HRI to accurately account for the tax amount.

Though not explicitly mentioned in the project specifications, it was noted in Addendum #1 that B&O Tax applies through certain portions of project. B&O rates for Charles Town and Ranson were not provided, nor did the documents provide enough information for the contractor to know which sites would be applicable to which city's B&O Tax.

Because of this, HRI made the decision to not include B&O taxes in our bid price, as there was concern that attempting to calculate and include the taxes from limited information could have negatively affected our total bid number, and did not want this to be the sole reason that HRI was not low bidder.

After the preconstruction meeting, GD&F provided HRI a marked-up drawing prepared by CTUB, that outlined which sites / portions of the project were applicable to Ranson B&O Tax, and which were applicable to Charles Town B&O Tax. Using this map, HRI estimated B&O taxes based upon the contract bid items, not including the Flowing Springs Pump Station Add/Alt, as it was determined this would no longer be a part of this project.

HRI, INC.

A COLAS COMPANY

A summary of HRI's B&O tax calculations and CTUB's B&O Tax Map can be found attached to the end of this letter.

In all, HRI is requesting exemption for a total of $121,480.00 in B&O taxes for this project. As previously stated, this was not accounted for in our bid price, and providing exemption to HRI will save CTUB and its taxpayers the aforementioned amount.

We appreciate your understanding and cooperation as we work together to get this project started. Should there be any questions or concerns, please reach out to HRI.
