17 and group sessions with clients; continue expanding our partnership with United Way and MHR
18 to connect our clients to their resources, to include housing opportunities; and, continue reporting
19 our successes in hopes of being awarded funding for FY27. Martin commended Koch for her
20 efforts, noting the importance of the program.

21 **2. Presentation on Curry County Beautiful Business Pledge Initiative – Karina Baeza**

22 Baeza presented Beautiful Business Pledge Initiative, through the Beautification Program, funded
23 by the Que Linda Grant. Baeza states the program is a voluntary business pledge where
24 businesses agree to adopt the following best practices to help keep business clean and prevent
25 litter. Businesses who participate will be recognized as community partners and receive public
26 recognition. Baeza stated this program began last year. Martin confirmed this is voluntary.

27 **3. Adult Detention Center Restrictive Housing 2025 4th Quarterly Report Pursuant to House**
28 **Bill 364 - Joe Alaniz**

29 Alaniz reported per New Mexico House Bill 364, during the 4th Quarter of 2025, ADC did not have
30 any detainees who were placed in Restrictive Housing that had a Serious Mental Health Diagnosis
31 as a primary referral to our Restrictive Housing Unit. All detainees who were placed in Restrictive
32 Housing Population are offered 2 or more hours of out of cell time, including opportunities for
33 recreation. Curry County ADC will continue compliance all HB 364 mandated requirements.

34 **4. Detention Center Report for December 2025 - Joe Alaniz**

35 Alaniz provided report. 4 new hires: 1 promotion, 6 detention officer vacancies. Average daily
36 count population: 140 detainees; total detainee bookings: 122; total new first time bookings: 32;
37 total previous bookings: 90; total males booked: 93; released males: 96; total females booked:
38 29; released females: 31; total male felonies: 368; total female felonies: 126; total male
39 misdemeanors: 381; total female misdemeanors: 231; total sentenced detainees: 21; out of state
40 fugitives: 5. With declining vacancy rate, ADC anticipates improved assignment of personnel to
41 shifts, resulting in enhanced staffing levels and more consistent shift coverage. As staffing
42 stabilizes, objective is to gradually reduce overtime by eliminating one mandatory overtime
43 assignment once officers are fully assigned to shifts. To further support this effort, ADC is
44 entertaining a more favorable shift schedule through adjustments to scheduling protocols to better
45 support 24/7 operations; approach would organize work and rest days in a predictable cycle,
46 promote continuous coverage, provide regular days off, and allow employees adequate time to
47 rest and decompress. Implementation of this adjusted scheduling approach would support a
48 sustainable reduction in overtime while maintaining appropriate staffing levels, operational
49 efficiency, and facility safety. ADC continues to facilitate and manage approved and scheduled
50 attorney access with their clients with 38 attorney phone calls, 28 attorney on-site client visits, 6
51 rehabilitation services phone call(s); one detainee was transported to a rehabilitation program.
52 Detainees continue utilizing video visitation, with 820 visitations in December. The Volunteer
53 Program continues providing faith-based and personal growth opportunities. In December, 6
54 baptisms were performed. Facility staff remain committed to assisting with distribution of religious
55 materials to help detainees practice their designated faiths. Roadrunner Health Services
56 administers the Detainee Medication-Assisted Treatment (MAT) Program. In December, 5
57 participants were approved to receive substance use disorder medications. Detainees continue
58 use of the Edovo Learning Program, demonstrating ADC's commitment to educational and
59 personal development opportunities. 4,726 total Edovo items were completed, including 209
60 courses across various subjects. The program served 136 unique active learners, each averaging
61 19.29 hours of learning, for a cumulative total of 2,616 learning hours for the month. These metrics
62 reflect the ongoing effectiveness of the Edovo platform in providing structured educational
63 programming and supporting detainees in developing skills and knowledge during their time in
64 the facility. Staff completed monthly NM Counties Risk Awareness Program training. As of
65 12/1/25, eligible personnel are automatically enrolled in the apprenticeship program upon hire
66 and must complete all required training and practical components per the County/Clovis
67 Community College Memorandum of Understanding and schedule. Realtime Juvenile status
68 report was provided in the agenda packet. Total overtime from pay period December 21, 2025 -

January 3, 2026: 274.37 hours. December 2025 Adult Detention Billing total: \$26,216.00; NMDOC \$5,974.00; Adult Probation and Parole \$20,242.00.

Jones is awaiting approval for wage decisions for CR4 and US70. Jones states it will be about a two-week time period of closing up that portion of road; should start the beginning of February weather permitted. There is currently one general maintenance and two equipment operator positions open. Jones is currently working on submission of LGRF and TPF 2027 funding, and currently in the process of requesting reimbursement for capital outlay 2024, as those projects are being closed out and completed. Jones met with contractor for the capital outlay 2025 micro seal for CR16 from 311 to CRL, and Jones states the project is getting on schedule and should begin early spring weather permitted. Jones, in partnership with the detention center, has begun implementing the Inmate Litter Abatement Program and detainees are currently working with the Road Department; Jones foresees the program to be beneficial. Bender asked if there were any major concerns with the road equipment. Jones hopes for available future capital outlay funds to replace the aging road graders. Jones stated the possibility of inquiring Local Economic Development Act (LEDA) funding to asphalt Digester Road, CR23 between SR288 and CRL. Pyle reiterated that LEDA funds cannot go towards completed construction but could go towards phased out projects.

For the months of February, March, June, and November the meetings will be held on different days for canvassing the elections in 2026. These dates are Thursday, February 19, 2026, Wednesday, March 11, 2026, Thursday, June 11, 2026 and Thursday, November 12, 2026. 1. Update on Texico Water System Improvements and Capital Outlay Projects – Mayor Deborah Autrey

Autrey: Fencing and digging trenches will begin February 17 for lateral line. Preliminary engineering report is final and Council has approved to move forward with drawing designs for the Texico extension line water system improvements. Surveyor is onsite for annexation; ordinance is drafted; city attorney is awaiting the new legal description. Capital Outlay projects include refurbishing Community Center and purchase of firetruck. Roberts noted there are funds from the state for water improvements as well as reauthorized capital outlay funds totaling about \$2.6 million left over. Roberts: There is currently a bid out for improvements to the Brown Well; closes March 13. Autrey: Water meters have been replaced and larger meters are scheduled for replacement. Bender asked for a timeline for the purchase of the firetruck. Autrey was unaware of a timeline. Roberts: Capital outlay agreement is good for four years. Roberts asked if Autrey has reached out to NM Finance Authority regarding a loan or if any information was received regarding the use of fire funds to cover difference. Pyle: Funds must be secured before purchase order. Cain asked Autrey to provide Commission a copy of the new survey once complete; also asked if the annexation still includes getting water to the houses to the north. Autrey: Yes, the line stops just south of Jennifer Steven’s parent’s property and west on CR 10 to Horton’s property. Roberts: the County is currently working with the engineer to develop a proposal for design plans related to the line extension to the north. Martin asked about the incorporation of Martin’s property on the survey map.

Cordova provided presentation beginning with timeline: preliminary communications May/June 2025; Entrance Conference August 7, 2025; Planning and Compliance work July/August 2025; Substantive Evidence Gathering end of September/ early October 2025; Wrap Up including reporting and conclusions during November/ December; Exit Conference December 17, 2025; Release and issuance of financial statements was on January 28, 2026; Federal Reporting is due on February 27, 2026. Rufino Rodriguez provided financial highlights comparing three fiscal years 2023, 2024, and 2025. Expenses: **June 30, 2023** \$24,290,803; **2024** \$26,802,911; **2025** \$31,245,778. Revenue: **June 30, 2023** \$35,849,039; **2024** \$43,585,510; **2025** \$42,457,462. Rodriguez: Revenue decrease was mostly due to state grant revenue the County received in 2025. Some revenues were offset by increases in both property and GRT taxes for the County. Cash and Investments: **June 30, 2023** \$33,365,034; **2024** \$37,838,419; **2025** \$32,363,3115. General Fund Balance: **June 30, 2023** \$21,578,013; **2024** \$20,573,662; **2025** \$21,923,105. Rodriguez went over other highlights: Net Pension Liability increased by \$1.8 million; Net OPEB Liability decreased by \$76,000; \$1.1 million of expenses, excluding depreciation, for Events Center and Fairgrounds; General Fund subsidized Events Center and Fairgrounds \$5.3 million; \$18.7 million of new capital assets acquired. Communication with Commission: Audit was conducted in accordance with GAAS and GAGAS - reasonable assurance; planned scope and timing; Accounting Policies conform to GAAP; significant estimates (Capital, Pension, OPEB, GASB, Statement No. 101); no significant difficulties and no disagreements; no material misstatements detected and noted, no passed audit adjustments; significant exposures (no significant exposures noted, do have a substantial amount in Mutual Funds and Money Market tied to the US Government) and other legal proceedings. Auditor's report on the financial statements rendered an Unmodified Opinion: Financial statements are presented fairly in

accordance with accounting principles generally accepted in the United States of America; In other words, the numbers and disclosures are materially accurate. Auditor's report on the major program rendered an Unmodified Opinion: Complied, in all material respects, with the program requirements that are direct and material to the Public Safety Partnership and Community Policing Grants. Audited 23% of the total federal expenditures as part of the single audit. Other auditor's report: GAGAS Report on Internal Control over Financial Reporting and on Compliance and other matters: one significant deficiency; two other matters. Report on Compliance for Each Major Program and on Internal over Compliance required by the Uniform Guidance: no findings noted. Communication with Governing Body: US GAAS Requirements and CCPAs Communication: Material weaknesses: none noted; Significant deficiency 2025-001 - Ten-year property tax schedule; Other Matters (NM required) 2025-002 - Discrepancies in bank reconciliation; 2025-003 - Unallowable expenditures for DWI Grant. FY 2024 Findings update: 2024-001 - Year-End financial close-resolved; 2024-002 - Deficiency in the Property Valuation Assessment Process resolved. Cordova reported: GASB Statement No. 75 did have a significant impact on the financial statements with about a \$2 million liability. GASB Statement No. 68 did have a significant impact in comparison to prior year, it resulted in a liability of \$15 million and \$1.9 million of pension expense during the year. Several informal recommendations were made during the audit, not necessarily 'findings', to enhance the efficiency of processes and strengthen the existing current internal control structure. Included are: Succession planning for key positions; County has made improvements in the IT area, and should continue those efforts including systems testing to help prevent any cybersecurity issues. Year-end closeout issues with Treasurer's Office having negative cash balances due to incorrect check amounts and resulting in County having to void out checks to prevent over drafting. Vouchers for RISE recipients were purchased by the County but were not timely given out as the County did not have proper tracking procedures in place. Events Center AUP was completed in March 2025. Bender asked how the large amounts of money in mutual funds and money market accounts that are tied to the government compare to other audits. Cordova: that is heavily favored right now. Martin asked about findings and Rodriguez confirmed the auditors were in communication with the Treasurer's Office in resolving issues. Martin asked about DWI Grant amount. Cordova: There was approximately \$29,000 of unallowable expenditures. Pyle stated the County received notification that Department of Finance and Administration received the audit and based on the findings identified, requested the County respond within two weeks.

Bender moved to approve Resolution #2026-11.

Operating and Use Agreement for Medical Clinic

THIS USE AGREEMENT (the "Agreement") is made and entered into this 19th day of February, 2026, by and between the County of Curry, a Political Subdivision of the State of New Mexico, hereinafter referred to as "County" and La Casa de Buena Salud a New Mexico non-profit cooperation hereinafter referred to as "La Casa."

WHEREAS, County is the owner of the building and property located at 1521 West 13th Street, Clovis, Curry County, New Mexico, commonly referred to as the Curry County Medical and Dental Office Building, including all storage and parking areas related thereto hereinafter collectively referred to as the "**Premises**"; and

WHEREAS, La Casa has agreed to provide Medical and Dental Services for the County on the terms and conditions set out in this Use Agreement, and County is in the opinion that La Casa has the proper and necessary qualifications, experience and abilities to provide said Medical and Dental Services to the citizens and residents of Curry County.

NOW, THEREFORE, in consideration of the purposes set forth above and for value received, the parties agree as follows:

1. 1. Term of Agreement: This Use Agreement will run for a period of two (2) years from the date this Use Agreement is approved by the Parties, through February 18th 2028. The County shall have the option to renew the Contract for three (3) additional two (2) year period for a total period of eight (8) years through June 10, 2034 or soliciting proposals for a new offeror. The County reserves the right to terminate this Use Agreement at any time for non-performance with no less than thirty (30) days written to La Casa. 1. 2. Governing Law: The State of New Mexico has declared that:

The Legislature finds that without the daily contributions and efforts of the thousands of worthwhile non-profit organizations dedicated to the sick and indigent persons in communities throughout New Mexico, the State would be inundated with constant request for health, human and social services, that it does not have revenue or resources to provide. The Legislature finds that it is in the best interest of that population, as well as for all residents and tax payers, that consideration be extended as real value recognition of the indispensable part the services contribute to the fabric of Life in New Mexico.

Pursuant to §4-38-13.1 (B) NMSA 2016:

A Board of County Commissioners may contract for the use of County buildings for the benefit of non-profit organizations demonstrating a consistent history of service to sick and indigent persons in the County, which service could legally be expected to be provided by a governmental entity, at rates these organizations can be reasonably expected to pay while maintaining their full-service commitment to their respective constituencies. These contracts shall set forth in respective value of services being provided to County residence and the relative value of the use of property provided by the County.

Furthermore, a contract between a governmental entity and a non-profit such as La Casa for the services set forth herein is not a violation of the anti-donation clause of the New Mexico Constitution pursuant to Article IX, Section 14 (A) of the New Mexico Constitution.

ENTIRE CONTRACT

The provisions herein contained constitute all of the terms and conditions of this contract. No changes or additions hereto shall be binding upon Seller unless in writing and signed by an authorized representative of Seller. Any terms or conditions of Purchaser's order inconsistent herewith or in addition hereto shall be of no force and effect and are hereby expressly rejected and Purchaser's order shall be governed by only the terms and conditions appearing herein.

PROPOSALS AND CONTRACT

Seller's proposals, when accepted, and any resulting contract, are not subject to cancellation, suspension or reduction in amount, except with Seller's written consent and upon terms, which reimburse Seller for work performed, reasonable overhead and lost profit.

PAYMENT

Terms of payment have been set at net 10-days. A service charge will be charged and added to the prices on all payments past due and owed by the Purchaser under this contract, at a rate of 25% per annum, or if such rate is prohibited under applicable law, then at such maximum rate as is under applicable law. Purchaser shall pay all attorney's fees incurred in the collection of past due accounts.

DELAYS

Seller shall not be liable for any damage or penalty for delays in work due to acts of God, acts or omissions of the Purchaser, acts of civil or military authorities, Government regulations or priorities, fires, floods, epidemics, quarantine restrictions, war, riots, strikes, differences with workmen, accidents to machinery, car shortages, inability to obtain necessary labor, materials or manufacturing facilities, delay in transportation, defaults of Seller's subcontractors, failure of or delay in furnishing correct or complete information by Purchaser with respect to location or other details of work to be performed hereunder, impossibility or impracticability of performance or any other cause beyond the control of Seller, whether or not similar to the foregoing. In the event of any delay caused as aforesaid, the completion shall be extended for a period equal to any such delay, and this contract shall not be void or avoidable as a result of any such delay. In case work is temporarily discontinued by reason of any of the foregoing, all unpaid installments of the contract price less an amount equal to the value of material and labor not furnished shall be due and payable upon receipt of the invoice by Purchaser.

EXCAVATION

In the event the work herein includes excavation, the Purchaser shall pay as an extra to the contract price the cost for any additional work performed by the seller due to water, quicksand, rock or other unforeseen obstruction encountered or if shoring is required.

Where wet pipe system is inspected/tested, Purchaser shall supply and maintain sufficient heat to prevent freezing of the system.

STRUCTURE AND SITE CONDITIONS

While employees of Seller will exercise reasonable care in this respect, Seller shall be under no responsibility for loss or damage due to the character, condition or use of foundations, walls, or other structures not erected by it or resulting from excavation in proximity thereto, nor for damage resulting from concealed piping, wiring, fixtures or other equipment or conditions or water pressure. All shoring or protection of foundations, walls, or other structures subject to being disturbed by any excavation required hereunder shall be the responsibility of the Purchaser unless otherwise specified. Purchaser warrants the sufficiency of the structure to support the fire alarm and/or fire sprinkler system and its related equipment. The purchaser shall have all things in readiness for inspection/test, including, but not limited to, other materials, floor or suitable working base, connections, and facilities at the time technician is onsite. In the event the purchaser fails to have all things in readiness for inspection/test at the jobsite, the Purchaser shall reimburse Seller for any and all expenses caused by such failure to have such things in readiness. Failure to make areas available to Seller during performance in accord with schedules, which are the basis of Seller's proposal, shall be considered a failure to have all things in readiness for erection in accord with the terms of this contract.

INTERFERENCE'S

Purchaser shall be responsible to coordinate the work of other trades (ducting, piping, electrical, etc.) and Purchaser shall be responsible for additional costs incurred by Seller arising out of interferences to Seller's work caused by such other trades.

The value of additional work shall be agreed upon in writing prior to the performance of said work. However, if no agreement is reached prior to the performance of additional work approved in the manner herein described, and Seller elects to continue performance so as to avoid delays, then the estimate of Seller's Estimating Department as to the value of the work shall be deemed accepted by the Purchaser.

ESCALATION CLAUSE

Escalation Clause. This Proposal is conditioned upon the ability of the Seller to complete the project at present prices of material and at the existing scale of wages for labor. In the event of significant delay or price increase of material, equipment, or energy occurring during the evaluation and acceptance period of (30) days from the submittal deadline, or performance of the contract through no fault of the Seller, the Contract Sum, time of completion or contract requirements shall be equitably adjusted by Change Order in accordance with the procedures of the Contract Documents. A change in price of an item of material, equipment, or energy will be considered significant when the price of an item increases ten percent (10%) between the date of this Contract and the date of installation. The amount of the increase shall be capped at five percent (5%) of the original price for the item. Seller shall, before making any additional purchases of specified materials, equipment, or energy, provide to the Purchaser a written statement expressing the percentage increase of contract price, materials in question, and the dollar amount of the price increase to be incurred.

Modifications Page:

We would like to request the following modifications for the above proposal.

Amendment #1

Notwithstanding anything contained herein to the contrary, Firetrol Protection Systems shall not be liable for any indirect, incidental, or consequential damages, or for the negligence of others.

Amendment # 2

If Firetrol Protection Systems is to be held to the contract between the owner and the purchaser, this document must be submitted to Firetrol Protection Systems for review and approval prior to incorporation into the contract documents.

Amendment # 3

Purchaser shall not assess liquidated damages and/or back charges against Firetrol Protection Systems unless and until the Purchaser gives written notification of intent and basis of determination of amounts and degree of responsibility of Firetrol Protection Systems and all other Subcontractors. Such written Notification must be given within a reasonable period of time after the occurrence of which the Purchaser seeks to assess liquidated damages and/or back charges, not to exceed ten (10) days after the alleged event causing the damage. Firetrol Protection Systems must then be allowed a reasonable amount of time to remedy issues relating to the damage. However, liquidated damages and/or back charges taken in the aggregate, shall not exceed 10% of Firetrol Protection Systems contract price.

Amendment # 4

In the event of Purchaser's termination of contract with Firetrol Protection Systems, Purchaserr shall pay as the sole amount due to Firetrol Protection Systems in connection with this project all sums due for Work performed to date, including any materials, tools equipment and appliances belonging to Firetrol Protection Systems, and including allowable profit and overhead, and the reasonable costs of the termination.

Amendment #5

In the event that, for causes beyond Firetrol Protection Systems reasonable control, additional time needed to complete the Work under this Contract, Firetrol Protection Systems shall submit a notice to the purchaser under the terms of this contract, providing the reasons for delay and an estimate of cost and/or additional time needed to complete the Work.

Amendment #6

Notwithstanding anything contained herein to the contrary, Firetrol Protection Systems shall not be obligated to and shall not perform work under any change order without the Purchaser first securing and delivering written consent to, and being accepted by Firetrol Protection Systems, authorizing the change in work, schedule and contract price.

Amendment #7

In consideration of current market pricing volatility on raw material and other construction related products due to potential US tariffs and the project duration, we have included current material pricing and request that commercial terms include allowance for pricing adjustments based on the Bureau of Labor and Statistics (BLS) Producer Price Index (PPI) and/or actual tariff costs based on the country of origin for any material included in this quote. Inclusion of mutually agreeable application of the BLS PPI and/or tariff costs allows for equitable pricing updates to an agreement based on current competitive market conditions.

Dear Prospective Health Survey Participant,

The Board of Curry County Commissioners is pleased to announce that Curry County has been selected as a 2026 sampling community for the National Health and Nutrition Examination Survey (NHANES). NHANES selects different communities annually using a four-stage sampling design based on U.S. Census data to ensure the sample represents the nation's diverse population.

The Board of Curry County Commission received a presentation on NHANES on January 15, 2026 and supports this rare opportunity for residents to receive valuable health information while ensuring Curry County is represented nationally. This presentation is available for public viewing at www.currycountynm.gov.

NHANES assesses the health and nutritional status of adults and children in the U.S. Unlike many surveys, NHANES uses in-home interviews and physical exams. By taking part in this rare opportunity, you learn about your own health and help NHANES learn valuable information about the health of people living in the U.S. In fact, children's growth charts are based on data from NHANES.

There are many benefits to you and your family for participating such as:

- Many of the exams performed in the Mobile Exam Center are unique and not done by your doctor during routine appointments. This is a chance to learn more about your health.
- All tests and results are free. You will receive results from your exams at no-cost.
- Initial results will be given to you on the day of your exam and a final, more detailed report will be available to you within a few months.
- Your appointment will be at a time that fits your schedule.
- NHANES pays your travel costs and can arrange for your transportation.
- NHANES pays for childcare or eldercare while you are at the Mobile Exam Center.
- NHANES values your time. You will be given a token of thanks for your participation.

NHANES findings also help Curry County address important health issues such as heart disease, diabetes and many other conditions affecting our community. This survey is one of the best sources of public health data available, with the ability to compare data on a year-to-year basis for dozens of important health outcomes. Information provided through NHANES allows Curry County and its residents to utilize data to prioritize health initiatives and justify the need for grant funding.

If selected, Curry County encourages you and/or your child to participate in this important survey. All information collected is kept strictly confidential by NHANES staff and will not be shared with Curry County or any other entity. Participants will receive a complete report of their individual examination results.

For questions about NHANES, please contact NHANES staff at 800-344-1386.

For questions related to Curry County, please contact Lois Ritter, Curry County Health and Wellness Manager at 575-763-6016.

Sincerely,

Lance A. Pyle

Okay. If you are good I am going to increase request to \$100K to cover any unexpected items that arise and/or cover other items at the fairgrounds as 410 is maxed out.

Lance,

I have finally received the pricing for the fire alarm and sprinkler system at the commercial barn and it came in quite high. (\$190K). With this and the Xcel service fee being so high (\$65K), we are going to be short appx. \$82K. These are the last items to cover for the project. What are your thoughts on utilizing a portion of the entertainment fund to cover?

Troy,

With the grant for the Courthouse funds available, I have made adjustments to the purchase orders to use the grant funding to complete the projects. With that said, there are funds that are freed up that we now need to transfer over the fund 410-12-5609. Can you create a BAR for the following:

\$263,318.74 from 424-12-5611 to 410-12-5609

\$71,047.00 from 425-12-5611 to 410-12-5609

\$120,000.00 from 426-12-5611 to 410-12-5609

Troy,

Based on our conversation, with so many funds covering the Courthouse projects with some reimbursable and some not and now with the grant funds received, instead of moving these excess funds to cover the expenditures at the Fairgrounds now, can we increase the BAR from reserves to cover them and then transfer the excess Courthouse funds back to reserves when the projects are complete.

Lance,

Ben and I met for a good while today to make sure this was completed accurately. After much discussion, we decided that for administrative efficiency and given the number of open purchase orders that include a mix of funds that we process a BAR from reserves to cover this need in addition to the \$100,000 that is needed for the fire alarm, sprinkler system, excel fee, etc. In total the temporary general fund transfer would be \$554,365.74. Of that dollar amount \$454,365.74 represents County funds that were originally allocated as match but will be transferred back to the General Fund once the courthouse projects wrap up. We anticipate being able to transfer that amount back in May. Only \$100,000 represents a true use of general fund reserves.

This approach allows us to:

- Maintain clean tracking of expenditures across multiple funding sources
- Avoid reopening and restructuring numerous purchase orders
- Ensures that only \$100,000 ultimately impacts General Fund reserves.

Additionally, structuring it this way helps reduce the risk of accounting errors or misallocation between grant and County funds given the complexity of the funding mix. This provides a cleaner audit trail and minimizes the potential for mistakes as the projects close out.

Let me know if you have any concerns.

3) Operational Highlights:

Inmate Calling Solutions (ICS) completed tablet hardware and software upgrades during the week of January 8–14, 2026. During this transition, tablet-based services were temporarily unavailable; however, facility operations continued using established paper-based processes and Phone Commissary Ordering to ensure continuity of essential services.

Upon completion, the upgraded tablet system eliminated the need for daily tablet distribution and collection. Tablets were securely monitored within housing units, with software updates uploaded overnight to reduce disruption to daytime operations. These improvements enhanced operational efficiency, reduced staff workload, and decreased staff/detainee conflicts related to tablet access. By integrating calling, video visitation, messaging, commissary, and administrative functions into a single secure platform, ICS improved monitoring and oversight, reduced reliance on multiple vendors, and supported safer, more streamlined, and cost-effective facility operations.

4) January 2026 Events:

1. The Curry County Adult Detention Center continues to facilitate and manage approved and scheduled attorney access with their clients. In the month of January, there were 45 attorney phone calls, 18 attorney on-site client visits, 5 rehabilitation services phone calls; no detainees were transported to a rehabilitation program.
2. The facility's tablet and telephone services are provided by Inmate Calling Solutions, LLC (ICS), which manages the Keep Families Connected™ Program. Under this program, each detainee is allowed two (2) complimentary phone calls per week to help maintain contact with their loved ones.
3. The Volunteer Program continues to offer a range of faith-based and personal growth opportunities to support individuals on their spiritual journeys, including baptism services. In January, no baptisms were performed. Facility staff remain committed to facilitating the distribution of religious materials and other resources to enable detainees to practice their respective faiths.
4. Roadrunner Health Services administers the Detainee Medication-Assisted Treatment (MAT) Program at the Curry County Detention Center. In January, four (4) participants were approved to receive substance use disorder medications.

Curry County DWI: Teen Court Annual Report

Edward Spalione, DWI Program Manager

Case Load for 2025

- 75 total cases came through Teen Court
- Five referrals that were turned away due to age/pending court
- 62 successful discharges and 13 unsuccessful discharges
- Four second-time referrals to the program
- Ages 12 through 18 were serviced, with the average age being 15 and the average grade being freshmen.
- Most common charge was public affray, followed by possession of an illegal substance

Alternative Sentencing

- Safety First, Positive Action, and Girl's circle as social and emotional learning courses were given to nearly all participants.
- Increased the amount of facilitators for Girl's Circle and Boy's Council
- Teen Court sessions were held a total of 16 times, with 85% of participants testifying for their actions and assigned duties by their peers.
- **872** community service hours were issued across all cases, many of which participated in clean-up initiatives through Clean & Beautiful.
- New counseling avenues were approached and services available to clients that didn't exist before

Current funding

- Teen Court is capped at \$40,000 per DFA guidelines. This means we have to split our allocation for funding between our Distribution and Grant awards to pay for salary, benefits, and supplies associated.
- The Juvenile Adjudication Fund was terminated last year so an extra funding source for the program is gone, tightening the budget for the program.
- Current budget sits just above \$50,000 for personnel and operating costs.
- As the DWI Affiliate Chair, currently in talks and planning to raise the cap, in light of loss of extra funding sources.

Future Plans

- Increased collaboration with our Restorative Justice Program, through Trust Mentor Network and other restorative practices.
- Expanding Teen Court sessions to possible mock trials for those outside the justice system that are looking for community service and experience.
- Travel to National Symposiums to understand modern and model practices of juvenile justice alternatives being practiced across the nation.
- Plans for a cooperative alternative program built on improving relations with youth, community stakeholders and the public.

YTD Net Income (Loss): (\$307,374) vs budget of (\$353,592), favorable variance of \$46,218

Notes

- **Events Hosted:** Bird Conservancy of the Rockies, Battle of the Border Bull Riding, Southwest Cheese, Curry County Nights, and Bender Auto Holiday Party.
 - Event Reimbursement was \$16,405 higher than budget due to revenue mix. While rental revenue did not fully offset event expenses at the line-item level, ancillary revenue exceeded budget by approximately \$10,000, resulting in full event cost coverage overall. Certain events are priced with a focus on total event revenue, with concessions and other ancillary revenue driving overall performance.
- **Staffing:** The General Manager position remained vacant through December. The Director of Finance position is also vacant and supported through Corporate, resulting in approximately \$18,000 in year-to-date savings. Associated support costs are reflected in the Related Party Consultants line item within the Finance & Accounting department.
- **Other Payroll Costs:** These consist of ADP processing fees and eTime timeclock fees for the month. There are no unusual or one-time items included, and these costs are expected to remain relatively consistent from month to month.
- **Contracted Services:** The overage is primarily driven by a \$6.4K Firetrol sprinkler inspection, along with \$864 of unbudgeted sewer system cleaning recorded in December. These were maintenance-related, one-time items and are not expected to recur.
- **Advertising & Marketing:** PAFRA marketing invoices were incorrectly coded in November and reclassified in December to Advertising & Marketing, resulting in a \$5K credit.
- **Other G&A:** Delayed August sales tax reporting related to the fair resulted in penalties and fees. Sales tax filings are now fully caught up, and no additional penalties or fees are expected.

- **Forecast:** December performance was in line with budget, and results are expected to remain consistent through the end of June. Costs continue to be actively monitored, with ongoing efforts to identify opportunities for additional efficiencies.

Thank you for your time and have a great weekend!

Re: April 1st Submission of the 2026 Annual Certified County Maintained Mileage Report

Dear Mr. Bender:

This is notification that the **2026 Annual Certified County Maintained Mileage Report is due on April 1st, 2026**. Pursuant to New Mexico Statutes 67-3-28.3, the Board of County Commissioners of each county shall certify and submit an Annual Certified County Maintained Mileage Report to the Secretary of the New Mexico Department of Transportation (NMDOT), on or before April 1st of each year.

By July 1st of every year, representatives for the Secretary of the Department of Transportation shall verify the submittal of each county and revise, if necessary, the total mileage of public roads maintained by each county. The mileage acknowledged by these representatives, shall be the official mileage of the public roads maintained by each county and will be reported to the New Mexico State Treasurer's Office. After August 1st, distribution of funding to each county for road maintenance purposes is made in accordance with the aforementioned NMSA section.

NMTRD Financial Distribution Bureau employees use this information for rate calculations in both the Combined Fuel and the Motor Vehicle Excise Tax programs. NMDOT's Data Management Bureau reports this information to the Federal Highway Administration (FHWA) Office of Highway Policy Information annually in accordance with Highway Performance Monitoring System (HPMS) federal reporting requirements.

Pursuant to NMSA 1978, Section 67-3-28.3 (1988), any county not complying with the required certified submittal by April 1st of each year, will have their mileage estimated and then reduced by one-third each month for that fiscal year, by the Secretary of the Department of Transportation. The amount of mileage deducted from the counties, not in compliance, shall be equally distributed between all counties in compliance, by the Secretary of the Department of Transportation.

To meet these requirements each county shall submit a complete set of information, correctly labeled and identified, which contains the following:

Michelle Lujan Grisham
Governor

Ricky Serna
Cabinet Secretary

Jennifer Sandoval
Commissioner, Vice-Chairman
District 1

Bruce Ellis

- A fully attributed Geographic Information System (GIS) data set identifying certified county-maintained road features with mileage information. The NMDOT updates its database with the county submitted data and information, annually.

Note: The New Mexico Department of Transportation utilizes the following GIS software packages:

a. ArcPro 3.5. As such, GIS information can be either in shapefile or geodatabase format. Shapefiles must include at a minimum .shp, .shx, .dbf, and .prj files. All formats shall provide metadata and attributes. .pptx and .mxd projects are acceptable as long as they include all the data in your submitted package to NMDOT.

b. PDF File for map(s) and Microsoft Word or Excel for route listing.

If the counties are currently utilizing a GIS software package not listed above, or they have further questions, they can contact us at the phone numbers provided on our request letter.

Regional Behavioral Health Plan – Judicial District 9 (Curry & Roosevelt Counties)

Submitted by: ENVIVE Solutions, Inc., a New Mexico Benefit Corporation

Date: February 5, 2026

Organizational Overview

ENVIVE Solutions, Inc. is a behavioral health systems transformation partner that supports government agencies and community systems in moving complex initiatives from planning into implementation-ready strategies and decision frameworks.

Founded in October 2020, ENVIVE has supported local, regional, and statewide initiatives across behavioral health, justice, workforce development, and public health. In December 2025, ENVIVE became a New Mexico Benefit Corporation, formalizing our commitment to equity, accountability, and measurable public benefit.

Our team brings extensive experience across New Mexico’s behavioral health and public health systems, with expertise in cross-system coordination, justice-involved populations, data analysis, workforce development, and implementation-focused planning.

Understanding of Scope

ENVIVE understands that Judicial District 9 is seeking a qualified vendor to develop a Regional Behavioral Health Plan for submission to the New Mexico Administrative Office of the Courts (AOC), in alignment with guidance from the New Mexico Healthcare Authority (HCA) and the requirements set forth in Section 24A-10-4(D) NMSA 1978 et seq.

Based on the RFI language indicating that substantial existing data will be provided and that vendors will not be required to conduct community needs assessments or primary data collection, this response assumes the scope includes:

- Reviewing and synthesizing existing data, reports, and background materials
- Integrating feedback from Judicial District 9 during draft and revision phases
- Developing a cohesive, submission-ready planning document aligned with statutory and agency requirements

Activities such as facilitating new listening sessions or conducting primary data collection are not assumed within this scope unless otherwise clarified.

Plan Components and Deliverables

ENVIVE will deliver a **Regional Behavioral Health Plan** (written report) structured in alignment with the focus areas identified in the RFI. Based on the RFI language, ENVIVE understands that the first five areas are designated as priority focus areas for the Plan. Additional focus areas listed in the RFI may be addressed as appropriate, depending on available data, guidance provided by Judicial District 9, and direction received during the draft and revision process.

Priority Focus Areas

The Plan will be structured to emphasize the following five priority focus areas:

- **Priority 1: Housing and Homeless Services**
- **Priority 2: Crisis, Acute, and Higher-Level Care Infrastructure**
- **Priority 3: Community-Based Programs for Youth and Adults**
- **Priority 4: Workforce Development**
- **Priority 5: Youth Prevention Programs and Mentorship**

Additional Focus Areas (as applicable)

The following focus areas, as identified in the RFI, may be considered as supporting or cross-cutting domains, as appropriate to the scope, available information, and direction from Judicial District 9:

- Agency Coordination
- Community Communication
- Community-Wide Prevention & Education
- Family Engagement & Parenting Support
- Transportation Access
- Youth Diversion & Justice System Improvements
- Services in the Adult Justice System
- Reintegration Support

Plan Components (Included Within the Deliverable)

Within the priority areas—and across additional focus areas as applicable—the Regional Behavioral Health Plan will include:

- **Stakeholder Engagement Summary:** Documentation of how stakeholder perspectives were incorporated through synthesis of existing input and feedback from Judicial District 9 during draft and revision phases
- **Regional Vision and Goals:** A shared regional vision with clearly articulated short-term and long-term goals
- **Strategic Recommendations:** Actionable, planning-level strategies to improve access, coordination, quality, and outcomes
- **Implementation Roadmap (Planning-Level, Phased):** A phased roadmap identifying recommended priority actions, estimated timelines, and illustrative roles and responsibilities, informed by existing data, provided materials, and Judicial District 9 input, and intended to inform future planning and funding decisions
- **Statutory and Agency Alignment:** Alignment with New Mexico Healthcare Authority (HCA) and New Mexico Administrative Office of the Courts (AOC) guidelines and consistency with Section 24A-10-4(D) NMSA 1978 et seq.

ENVIVE notes that a reasonable, planning-level implementation roadmap can be developed based on existing data and Judicial District input. Development of a fully executable implementation plan may require additional scope and is not assumed within this RFI unless otherwise clarified.

Approach & Value as a Transformation Partner

ENVIVE's approach is grounded in **implementation-informed planning**. We focus on translating complex data, policy guidance, and system constraints into planning documents that support clear decision-making and practical next steps.

Rather than producing a static report, ENVIVE emphasizes feasibility, system capacity, and readiness. Our plans are structured to document priorities, sequencing considerations, illustrative roles, and planning assumptions so future implementing entities—whether ENVIVE or another state-selected partner—can build from a well-defined foundation without loss of institutional knowledge.

This approach supports continuity from planning to implementation readiness while maintaining appropriate scope boundaries for a planning-focused engagement.

Timeline Confirmation

ENVIVE confirms the ability to meet all required deadlines:

- **Draft Plan to Judicial District 9:** April 15
- **Draft submission support for AOC:** April 30
- **Final Plan to Judicial District 9:** May 20
- **Final submission to AOC:** June 30

Cost Proposal

Total Fixed Cost: \$32,287.50 (inclusive of New Mexico Gross Receipts Tax (7.625%) in the amount of \$2,287.50.)

Cost Rationale:

The proposed fixed cost reflects a team-based, implementation-informed planning approach rather than a single-author report. The scope includes senior-level synthesis of existing data, alignment with AOC and HCA requirements, development of a planning-level, phased Implementation Roadmap, and multiple draft and revision cycles within an accelerated timeline.

Funds support contributions from multiple ENVIVE team members, including systems strategy, behavioral health and justice subject-matter expertise, planning and analysis, and integration and quality assurance. Most team members bring direct experience working within New Mexico's behavioral health and public health systems. This pricing ensures the Plan is compliant for submission and structured to support informed decision-making, implementation readiness, and long-term regional impact.

Closing

ENVIVE Solutions appreciates the opportunity to submit this response and would welcome the opportunity to partner with Judicial District 9 in developing a Regional Behavioral Health Plan that is clear, actionable, and positioned for successful implementation.

 Ben,

Attached is the proposed 2026 Curry County Fair Entertainment Budget. It has an increase of \$8,850 from last year's budget. We came in under budget last year but we are looking to try and add additional entertainment to the Mounted Patrol Arena during the week (Possible Barrel Race, Jr. Rodeo, Bullriding). We also added additional prize money to the battle of the bands last year with the savings on other budgeted entertainment and it seemed to draw better bands and more people. We will obviously work to keep it well under budget but wanted to have some room to grow the entertainment. Let me know what you think and I can adjust accordingly.

Also, I would like to get the commission's thoughts on whether or not to do a country concert.
